§ 134.0 Scope.

This part sets forth regulations implementing the country of origin marking requirements and exceptions of section 304 of the Tariff Act of 1930, as amended (19 U.S.C. 1304), together with certain marking provisions of the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202). The consequences and procedures to be followed when articles are not legally marked are set forth in this part. The consequences and procedures to be followed when articles are falsely marked are set forth in §11.13 of this chapter.

Special marking and labeling requirements are covered elsewhere. Provisions regarding the review and appeal rights of exporters and producers resulting from adverse North American Free Trade Agreement marking decisions are contained in subpart J of part 181 of this chapter.

§ 134.1 Definitions.

When used in this part, the following terms shall have the meaning indicated:

(a) Country. “Country” means the political entity known as a nation. Colonies, possessions, or protectorates outside the boundaries of the mother country are considered separate countries.

(b) Country of origin. “Country of origin” means the country of manufacture, production, or growth of any article of foreign origin entering the United States. Further work or material added to an article in another country must effect a substantial transformation in order to render such other country the “country of origin” within the meaning of this part; however, for a good of a NAFTA country, the NAFTA Marking Rules will determine the country of origin.

(c) Foreign origin. “Foreign origin” refers to a country of origin other than the United States, as defined in paragraph (e) of this section, or its possessions and territories.

(d) Ultimate purchaser. The “ultimate purchaser” is generally the last person in the United States who will receive the article in the form in which it was imported; however, for a good of a NAFTA country, the “ultimate purchaser” is the last person in the United States who purchases the good in the form in which it was imported. It is not feasible to state who will be the “ultimate purchaser” in every circumstance. The following examples may be helpful:

(1) If an imported article will be used in manufacture, the manufacturer may be the “ultimate purchaser” if he subjects the imported article to a process which results in a substantial transformation of the article, even though the process may not result in a new or different article, or for a good of a NAFTA country, a process which results in one of the changes prescribed in the NAFTA Marking Rules as effecting a change in the article’s country of origin.

(2) If the manufacturing process is merely a minor one which leaves the identity of the imported article intact, the consumer or user of the article, who obtains the article after the processing, will be regarded as the “ultimate purchaser.” With respect to a good of a NAFTA country, if the manufacturing process does not result in one of the changes prescribed in the NAFTA Marking Rules as effecting a change in the article’s country of origin, the consumer who purchases the article after processing will be regarded as the ultimate purchaser.

(3) If an article is to be sold at retail in its imported form, the purchaser at retail is the “ultimate purchaser.”

(4) If the imported article is distributed as a gift the recipient is the “ultimate purchaser”, unless the good is a good of a NAFTA country. In that case, the purchaser of the gift is the ultimate purchaser.

(e) United States. “United States” includes all territories and possessions of the United States, except the Virgin Islands, American Samoa, Wake Island, Midway Islands, Kingman Reef, Johnston Island, and the island of Guam.

(f) Customs territory of the United States. “Customs territory of the United States,” as used in this chapter includes the States, the District of Columbia, and the Commonwealth of Puerto Rico.

(g) Good of a NAFTA country. A “good of a NAFTA country” is an article for which the country of origin is Canada, Mexico or the United States as determined under the NAFTA Marking Rules.

(h) NAFTA. “NAFTA” means the North American Free Trade Agreement entered into by the United States, Canada and Mexico on August 13, 1992.

(i) NAFTA country. “NAFTA country” means the territory of the United States, Canada or Mexico, as defined in Annex 201.1 of the NAFTA.

(j) NAFTA Marking Rules. The “NAFTA Marking Rules” are the rules promulgated for purposes of determining whether a good is a good of a NAFTA country.

(k) Conspicuous. “Conspicuous” means capable of being easily seen with normal handling of the article or container.

§ 134.2 Additional duties.

Articles not marked as required by this part shall be subject to additional duties of 10 percent of the final appraised value unless exported or destroyed under Customs supervision prior to liquidation of the entry, as provided in 19 U.S.C. 1304(f). The 10 percent additional duty is assessable for failure either to mark the article (or container) to indicate the English name of the country of origin of the article or to include words or symbols required to prevent deception or mistake.

§ 134.3 Delivery withheld until marked and redelivery ordered.

(a) Any imported article (or its container) held in CBP custody for inspection, examination, or appraisement will not be delivered until marked with its country of origin, or until estimated duties payable under 19 U.S.C. 1304(f), or adequate security for those duties (see § 134.53(a)(2)), are deposited.

(b) The port director may demand redelivery to CBP custody of any article (or its container) previously released which is found to be not marked legally with its country of origin for the purpose of requiring the article (or its container) to be properly marked. A demand for redelivery will be made, as required under § 141.113(a) of this chapter, not later than 30 days after—

(1) The date of entry, in the case of merchandise examined in public stores and places of arrival, such as docks, wharfs, or piers; or

(2) The date of examination, in the case of merchandise examined at the importer’s premises or such other appropriate places as determined by the port director.

(c) Nothing in this part shall be construed as excepting any article (or its container) from the particular requirements of marking provided for in any other provision of law.

§ 134.4 Penalties for removal, defacement, or alteration of marking.

Any intentional removal, defacement, destruction, or alteration of a marking of the country of origin required by section 304, Tariff Act of 1930, as amended (19 U.S.C. 1304), and this part in order to conceal this information may result in criminal penalties of up to $5,000 and/or imprisonment for 1 year, as provided in 19 U.S.C. 1304(h).

Subpart B—Articles Subject to Marking

§ 134.11 Country of origin marking required.

Unless excepted by law, section 304, Tariff Act of 1930, as amended (19 U.S.C. 1304), requires that every article of foreign origin (or its container) imported into the United States shall be marked in a conspicuous place as legibly, indelibly, and permanently as the nature of the article (or container) will permit, in such manner as to indicate to an ultimate purchaser in the United States the English name of the country of origin of the article, at the time of importation into the Customs territory of the United States. Containers of articles excepted from marking shall be marked with the name of the country of origin of the article unless the container is also excepted from marking.

§ 134.12 Foreign articles reshipped from a U.S. possession.

Articles of foreign origin imported into any possession of the United States outside its Customs territory and reshipped to the United States are subject to all marking requirements applicable to like articles of foreign origin imported directly from a foreign country to the United States.

§ 134.13 Imported articles repacked or manipulated.

(a) Marking requirement. An article within the provisions of this section shall be marked with the name of the country of origin at the time the article is withdrawn for consumption unless the article and its container are
exempted from marking under provisions of subpart D of this part at the time of importation.

(b) Applicability. The provisions of this section are applicable to the following articles:

(1) Articles repacked in a bonded warehouse under §19.8 of this chapter;

(2) Articles manipulated under section 304(b), Tariff Act of 1930, as amended (19 U.S.C. 1304(b)), for containers or holders.

§ 134.14 Articles usually combined.

(a) Articles combined before delivery to purchaser. When an imported article is of a kind which is usually combined with another article after importation but before delivery to an ultimate purchaser and the name indicating the country of origin of the article appears in a place on the article so that the name will be visible after such combining, the marking shall include, in addition to the name of the country of origin, words or symbols which shall clearly show that the origin indicated is that of the imported article only and not that of any other article with which the imported article may be combined after importation.

(b) Example. Labels and similar articles so marked that the name of the country of origin of the label or article is visible after it is affixed to another article in this country shall be marked with additional descriptive words such as “Label made (or printed) in (name of country)” or words of similar meaning. See subpart C of this part for marking of bottles, drums, or other containers.

(c) Applicability. This section shall not apply to articles of a kind which are ordinarily so substantially changed in the United States that the articles in their changed condition become products of the United States. An article excepted from marking under subpart D of this part is not within the scope of section 304(a)(2), Tariff Act of 1930, as amended (19 U.S.C. 1304(a)(2)), and is not subject to the requirements of this section.

§ 134.21 Special marking.

This subpart includes only country of origin marking requirements and exceptions under section 304(b), Tariff Act of 1930, as amended (19 U.S.C. 1304(b)), for containers or holders. Special marking may be required by the Internal Revenue Service on alcoholic beverage bottles and other requirements may be imposed by reason of the nature of the contents by other Government agencies.

§ 134.22 General rules for marking of containers or holders.

(a) Contents excepted from marking. When an article is excepted from the marking requirements by subpart D of this part, the outermost container or holder in which the article ordinarily reaches the ultimate purchaser shall be marked to indicate the country of origin of the article whether or not the article is marked to indicate its country of origin.

(b) Containers or holders treated as imported articles. Containers or holders for imported merchandise which are subject to treatment as imported articles under the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), shall be marked to indicate clearly the country of their own origin in addition to any marking which may be required to show the country of origin of their contents; however, no marking is required for any good of a NAFTA country which is a usual container.

(c) Containers or holders bearing a U.S. address. Containers or holders of imported merchandise bearing the name and address of an importer, distributor, or other person or company in the United States shall be marked in close proximity to the U.S. address to indicate clearly the country of origin of the contents with a marking such as “Contents made in France” or “Contents Product of Spain.”

(d) Usual containers—(1) “Usual container” defined. For purposes of this subpart, a usual container means the container in which a good will ordinarily reach its ultimate purchaser. Containers which are not included in the price of the goods with which they
are sold, or which impart the essential character to the whole, or which have significant uses, or lasting value independent of the contents, will generally not be regarded as usual containers. However, the fact that a container is sturdy and capable of repeated use with its contents does not preclude it from being considered a usual container so long as it is the type of container in which its contents are ordinarily sold. A usual container may be any type of container, including one which is specially shaped or fitted to contain a specific good or set of goods such as a camera case or an eyeglass case, or packing, storage and transportation materials.

(2) A good of a NAFTA country which is a usual container. A good of a NAFTA country which is a usual container, whether or not disposable and whether or not imported empty or filled, is not required to be marked with its own country of origin. If imported empty, the importer must be able to provide satisfactory evidence to Customs at the time of importation that it will be used only as a usual container (that it is to be filled with goods after importation and that such container is of a type in which these goods ordinarily reach the ultimate purchaser).

(e) Exceptions. Containers or holders of imported articles are not required to be marked if:

(1) Excepted articles. They are containers or holders of articles within the exceptions set forth in paragraph (f), (g), or (h) in §134.32 or they are containers of a good of a NAFTA country within the exceptions set forth in paragraph (e), (f), (g), (h), (i), (p) or (q) of §134.32.

(2) Exceptioned containers or holders. The container or holder itself is within an exception set forth in subpart D of this part.

(3) To be filled by the importer. The container or holder is within the exception set forth in §134.24(c).

§134.24 Containers or holders not designed for or capable of reuse.

(a) Containers ordinarily discarded after use. Disposable containers or holders subject to the provisions of this section are the usual ordinary types of containers or holders, including cans, bottles, paper or polyethylene bags, paperboard boxes, and similar containers or holders which are ordinarily discarded after the contents have been consumed.

(b) Imported empty. Disposable containers or holders imported for distribution or sale are subject to treatment as imported articles in accordance with the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202), and shall be marked to indicate clearly the country of their own origin. However, when the containers are packed and sold in multiple units

§ 134.25 Containers or holders for repacked J-list articles and articles incapable of being marked.

(a) Certification requirements. If an article subject to these requirements is intended to be repacked in new containers for sale to an ultimate purchaser after its release from Customs custody, or if the port director having custody of the article, has reason to believe such article will be repacked after its release, the importer shall certify to the port director that: (1) If the importer does the repacking, the new container shall be marked to indicate the country of origin of the article in accordance with the requirements of this part; or (2) if the article is intended to be sold or transferred to a subsequent purchaser or repacker, the importer shall notify such purchaser or transferee, in writing, at the time of sale or transfer, that any repacking of the article must conform to these requirements. The importer, or his authorized agent, shall sign the following statement.

CERTIFICATE OF MARKING—REPACKED J-LIST ARTICLES AND ARTICLES INCAPABLE OF BEING MARKED

(Port of entry) 

I, certify that if the article(s) covered by this entry (entry no(s). dated ), is (are) repacked in a new container(s), while still in my possession, the new containers, unless excepted, shall be marked in a conspicuous place as legibly, indelibly, and permanently as the nature of the container(s) will permit, in such manner as to indicate the country of origin of the article(s) to the ultimate purchaser(s) in accordance with the requirements of 19 U.S.C. 1304 and 19 CFR part 134. I further certify

(d) Imported full—(1) When contents are excepted from marking. Usual disposable containers in use as such at the time of importation shall not be required to be marked to show the country of their own origin, but shall be marked to indicate the origin of their contents regardless of the fact that the contents are excepted from marking requirements; however, such marking is not required if the contents are excepted from marking requirements under paragraph (f), (g), or (h) of §134.32 or, in the case of a good of a NAFTA country, under paragraph (e), (f), (g), (h), (i), (p) or (q) of that section.

(2) Sealed containers or holders. Disposable containers or holders of imported merchandise, which are sold without normally being opened by the ultimate purchaser (e.g., individually wrapped soap bars or tennis balls in a vacuum sealed can), shall be marked to indicate the country of origin of their contents.

(3) Unsealed containers. Unsealed disposable containers of imported merchandise normally unopened by the ultimate purchaser, may be excepted from marking if the article is so marked that the country of origin is clearly visible without unpacking the container. However, if the container is normally opened by the ultimate purchaser prior to purchase, only the article need be marked.

The certification statement may appear as a typed or stamped statement on an appropriate entry document or commercial invoice, or on a preprinted attachment to such entry or invoice; or it may be submitted in blank form to cover all importations of a particular product for a given period (e.g., calendar year). If the blanket procedure is used, a certification must be filed at each port where the article is entered.

(b) Facsimile signatures. The certification statement may be signed by means of an authorized facsimile signature.

(c) Time of filing. The certification statement shall be filed with the port director at the time of entry summary. If the certification is not available at that time, a bond shall be given for its production in accordance with §141.66, Customs Regulations (19 CFR 141.66). In case of repeated failure to timely file the certification required under this section, the port director may decline to accept a bond for the missing document and demand redelivery of the merchandise under §134.51, Customs Regulations (19 CFR 134.51).

(d) Notice to subsequent purchaser or repacker. If the article is sold or transferred to a subsequent purchaser or repacker the following notice shall be given to the purchaser or repacker:

NOTICE TO SUBSEQUENT PURCHASER OR REPACKER

These articles are imported. The requirements of 19 U.S.C. 1304 and 19 CFR part 134 provide that the articles or their containers must be marked in a conspicuous place as legibly, indelibly and permanently as the nature of the article or container will permit, in such a manner as to indicate to an ultimate purchaser in the United States, the English name of the country of origin of the article.

(e) Duties and penalties. Failure to comply with the certification requirements in paragraph (a) may subject the importer to a demand for liquidated damages under §134.54(a) and for the additional duty under 19 U.S.C. 1304. Fraud or negligence by any person in furnishing the required certification may also result in a penalty under 19 U.S.C. 1592.

§ 134.26 Imported articles repacked or manipulated.

(a) Certification requirements. If an article subject to these requirements is intended to be repacked in retail containers (e.g., blister packs) after its release from Customs custody, or if the port director having custody of the article, has reason to believe such article will be repacked after its release, the importer shall certify to the port director that: (1) If the importer does the repacking, he shall not obscure or conceal the country of origin marking appearing on the article, or else the new container shall be marked to indicate the country of origin of the article in accordance with the requirements of this part; or (2) if the article is intended to be sold or transferred to a subsequent purchaser or repacker, the importer shall certify to the port director that: (1) If the importer does the repacking, he shall not obscure or conceal the country of origin marking appearing on the article, or else the new container shall be marked to indicate the country of origin of the article in accordance with the requirements of this part; or (2) if the article is intended to be sold or transferred to a subsequent purchaser or repacker, the importer shall notify such purchaser or transferee, in writing, at the time of sale or transfer, that any repacking of the article must conform to these requirements. The importer, or his authorized agent, shall sign the following statement.

(k) Products of American fisheries which are free of duty;

(p) Goods of a NAFTA country which are original works of art; and

(q) Goods of a NAFTA country which are provided for in subheading 6904.10 or heading 8541 or 8542 of the Harmonized Tariff Schedule of the United States (HTSUS) (19 U.S.C. 1202).

§ 134.33 J-List exceptions.

Articles of a class or kind listed below are excepted from the requirements of country of origin marking in accordance with the provisions of section 304(a)(3)(J), Tariff Act of 1930, as amended (19 U.S.C. 1304(a)(3)(J)). However, in the case of any article described in this list which is imported in a container, the outermost container in which the article ordinarily reaches the ultimate purchaser is required to be marked to indicate the origin of its contents in accordance with the requirements of subpart C of this part.

§ 134.34 Certain repacked articles.

(a) Exception for repacked articles. An exception under §134.32(d) may be authorized in the discretion of the port director for imported articles which are to be repacked after release from Customs custody under the following conditions:

1. The containers in which the articles are repacked will indicate the origin of the articles to an ultimate purchaser in the United States.

2. The importer arranges for supervision of the marking of the containers by Customs officers at the importer’s expense or secures such verification, as may be necessary, by certification and the submission of a sample or otherwise, of the marking prior to the liquidation of the entry.

(b) Liquidation of entries. The liquidation of such entries may be deferred for a period of not more than 60 days from the date that a request for repacking is granted. Extensions of the 60-day deferral period may be granted by the port director in his discretion upon written application by the importer.

[T.D. 84–127, 49 FR 22795, June 1, 1984]

§ 134.35 Articles substantially changed by manufacture.

(a) Articles other than goods of a NAFTA country. An article used in the United States in manufacture which results in an article having a name, character, or use differing from that of the imported article, will be within the principle of the decision in the case of United States v. Gibson-Thomsen Co., Inc., 27 C.C.P.A. 267 (C.A.D. 98). Under this principle, the manufacturer or processor in the United States who converts or combines the imported article into the different article will be considered the “ultimate purchaser” of the imported article within the contemplation of section 304(a), Tariff Act of 1930, as amended (19 U.S.C. 1304(a)), and the article shall be excepted from marking. The outermost containers of the imported articles shall be marked in accord with this part.

(b) Goods of a NAFTA country. A good of a NAFTA country which is to be processed in the United States in a manner that would result in the good becoming a good of the United States...
under the NAFTA Marking Rules is excepted from marking. Unless the good is processed by the importer or on its behalf, the outermost container of the good shall be marked in accord with this part.

§ 134.36 Inapplicability of marking exception for articles processed by importer.

An article which is to be processed in the United States by the importer or for his account shall not be considered to be within the specifications of section 304(a)(3)(G), of the Tariff Act of 1930, as amended (19 U.S.C. 1304(a)(3)(G)), if there is a reasonable method of marking which will not be obliterated, destroyed, or permanently concealed by such processing.

Subpart E—Method and Location of Marking Imported Articles

§ 134.41 Methods and manner of marking.

(a) Suggested methods of marking. Section 304 of the Tariff Act of 1930, as amended (19 U.S.C. 1304), requires that the marking of the country of origin be legible, indelible, and permanent. Definite methods of marking are prescribed only for articles provided for in §134.43 and for articles which are the objects of special rulings by the Commissioner of Customs. As a general rule, marking requirements are best met by marking worked into the article at the time of manufacture. For example, it is suggested that the country of origin on metal articles be die sunk, molded in or etched; on earthenware or chinaware be glazed on in the process of firing; and on paper articles be imprinted.

(b) Degree of permanence and visibility. The degree of permanence should be at least sufficient to insure that in any reasonably foreseeable circumstance, the marking shall remain on the article (or its container) until it reaches the ultimate purchaser unless it is deliberately removed. The marking must survive normal distribution and store handling. The ultimate purchaser in the United States must be able to find the marking easily and read it without strain.

§ 134.42 Specific method may be required.

Marking merchandise by specific methods, such as die stamping, cast-in-the-mold lettering, etching, or engraving, or cloth labels may be required by the Commissioner of Customs in accordance with section 304(a), Tariff Act of 1930, as amended (19 U.S.C. 1304(a)). Notices of such rulings shall be published in the Federal Register and the Customs Bulletin.

§ 134.43 Methods of marking specific articles.

(a) Marking previously required by certain provisions of the Tariff Act of 1930. (b) Articles marked with paper sticker labels. If paper sticker or pressure sensitive labels are used, they must be affixed in a conspicuous place and so securely that unless deliberately removed they will remain on the article while it is in storage or on display and until it is delivered to the ultimate purchaser.
