

of major disaster is made and the following fiscal year with respect to any HOME funds expended in an area to which the declaration of a major disaster applies.

(2) At its discretion and upon request of the participating jurisdiction, the HUD Field Office may extend the reduction for an additional year.

[61 FR 48750, Sept. 16, 1996, as amended at 78 FR 44670, July 24, 2013]

Subpart F—Project Requirements

§ 92.250 Maximum per-unit subsidy amount, underwriting, and subsidy layering.

(a) *Maximum per-unit subsidy amount.* The total amount of HOME funds and ADDI funds that a participating jurisdiction may invest on a per-unit basis in affordable housing may not exceed the per-unit dollar limitations established under section 221(d)(3)(ii) of the National Housing Act (12 U.S.C.17151(d)(3)(ii)) for elevator-type projects that apply to the area in which the housing is located. HUD will allow the per-unit subsidy amount to be increased on a program-wide basis to an amount, up to 240 percent of the original per unit limits, to the extent that the costs of multifamily housing construction exceed the section 221(d)(3)(ii) limit.

(b) *Underwriting and subsidy layering.* Before committing funds to a project, the participating jurisdiction must evaluate the project in accordance with guidelines that it has adopted for determining a reasonable level of profit or return on owner's or developer's investment in a project and must not invest any more HOME funds, alone or in combination with other governmental assistance, than is necessary to provide quality affordable housing that is financially viable for a reasonable period (at minimum, the period of affordability in § 92.252 or § 92.254) and that will not provide a profit or return on the owner's or developer's investment that exceeds the participating jurisdiction's established standards for the size, type, and complexity of the project. The participating jurisdiction's guidelines must require the participating jurisdiction to undertake:

(1) An examination of the sources and uses of funds for the project and a determination that the costs are reasonable; and

(2) An assessment, at minimum, of the current market demand in the neighborhood in which the project will be located, the experience of the developer, the financial capacity of the developer, and firm written financial commitments for the project.

(3) For projects involving rehabilitation of owner-occupied housing pursuant to § 92.254(b):

(i) An underwriting analysis is required only if the HOME-funded rehabilitation loan is an amortizing loan; and

(ii) A market analysis or evaluation of developer capacity is not required.

(4) For projects involving HOME-funded downpayment assistance pursuant to § 92.254(a) and which do not include HOME-funded development activity, a market analysis or evaluation of developer capacity is not required.

[78 FR 44670, July 24, 2013]

§ 92.251 Property standards.

(a) *New construction projects.* (1) *State and local codes, ordinances, and zoning requirements.* Housing that is newly constructed with HOME funds must meet all applicable State and local codes, ordinances, and zoning requirements. HOME-assisted new construction projects must meet State or local residential and building codes, as applicable or, in the absence of a State or local building code, the International Residential Code or International Building Code (as applicable to the type of housing) of the International Code Council. The housing must meet the applicable requirements upon project completion.

(2) *HUD requirements.* All new construction projects must also meet the requirements described in paragraphs (a)(2)(i) through (v) of this section:

(i) *Accessibility.* The housing must meet the accessibility requirements of 24 CFR part 8, which implements Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), and Titles II and III of the Americans with Disabilities Act (42 U.S.C. 12131–12189) implemented at 28 CFR parts 35 and 36, as applicable.

Covered multifamily dwellings, as defined at 24 CFR 100.201, must also meet the design and construction requirements at 24 CFR 100.205, which implements the Fair Housing Act (42 U.S.C. 3601-3619).

(ii) [Reserved]

(iii) *Disaster mitigation.* Where relevant, the housing must be constructed to mitigate the impact of potential disasters (e.g., earthquakes, hurricanes, flooding, and wildfires), in accordance with State and local codes, ordinances, or other State and local requirements, or such other requirements as HUD may establish.

(iv) *Written cost estimates, construction contracts and construction documents.* The participating jurisdiction must ensure the construction contract(s) and construction documents describe the work to be undertaken in adequate detail so that inspections can be conducted. The participating jurisdiction must review and approve written cost estimates for construction and determining that costs are reasonable.

(v) *Construction progress inspections.* The participating jurisdiction must conduct progress and final inspections of construction to ensure that work is done in accordance with the applicable codes, the construction contract, and construction documents.

(b) *Rehabilitation projects.* All rehabilitation that is performed using HOME funds must meet the requirements of this paragraph (b).

(1) *Rehabilitation standards.* The participating jurisdiction must establish rehabilitation standards for all HOME-assisted housing rehabilitation activities that set forth the requirements that the housing must meet upon project completion. The participating jurisdiction's description of its standards must be in sufficient detail to determine the required rehabilitation work including methods and materials. The standards may refer to applicable codes or they may establish requirements that exceed the minimum requirements of the codes. The rehabilitation standards must address each of the following:

(i) *Health and safety.* The participating jurisdiction's standards must identify life-threatening deficiencies

that must be addressed immediately if the housing is occupied.

(ii) *Major systems.* Major systems are: structural support; roofing; cladding and weatherproofing (e.g., windows, doors, siding, gutters); plumbing; electrical; and heating, ventilation, and air conditioning. For rental housing, the participating jurisdiction's standards must require the participating jurisdiction to estimate (based on age and condition) the remaining useful life of these systems, upon project completion of each major systems. For multifamily housing projects of 26 units or more, the participating jurisdiction's standards must require the participating jurisdiction to determine the useful life of major systems through a capital needs assessment of the project. For rental housing, if the remaining useful life of one or more major system is less than the applicable period of affordability, the participating jurisdiction's standards must require the participating jurisdiction to ensure that a replacement reserve is established and monthly payments are made to the reserve that are adequate to repair or replace the systems as needed. For homeownership housing, the participating jurisdiction's standards must require, upon project completion, each of the major systems to have a remaining useful life for a minimum of 5 years or for such longer period specified by the participating jurisdiction, or the major systems must be rehabilitated or replaced as part of the rehabilitation work.

(iii) *Lead-based paint.* The participating jurisdiction's standards must require the housing to meet the lead-based paint requirements at 24 CFR part 35.

(iv) *Accessibility.* The participating jurisdiction's standards must require the housing to meet the accessibility requirements in 24 CFR part 8, which implements Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), and Titles II and III of the Americans with Disabilities Act (42 U.S.C. 12131-12189) implemented at 28 CFR parts 35 and 36, as applicable. Covered multifamily dwellings, as defined at 24 CFR 100.201, must also meet the design and construction requirements at 24 CFR 100.205, which implements the Fair

Housing Act (42 U.S.C. 3601–3619). Rehabilitation may include improvements that are not required by regulation or statute that permit use by a person with disabilities.

(v) [Reserved]

(vi) *Disaster mitigation.* Where relevant, the participating jurisdiction's standards must require the housing to be improved to mitigate the impact of potential disasters (e.g., earthquake, hurricanes, flooding, and wildfires) in accordance with State and local codes, ordinances, and requirements.

(vii) *State and local codes, ordinances, and zoning requirements.* The participating jurisdiction's standards must require the housing to meet all applicable State and local codes, ordinances, and requirements or, in the absence of a State or local building code, the International Existing Building Code of the International Code Council.

(viii) *Uniform Physical Condition Standards.* The standards of the participating jurisdiction must be such that, upon completion, the HOME-assisted project and units will be decent, safe, sanitary, and in good repair as described in 24 CFR 5.703. HUD will establish the minimum deficiencies that must be corrected under the participating jurisdiction's rehabilitation standards based on inspectable items and inspected areas from HUD-prescribed physical inspection procedures (Uniform Physical Conditions Standards) pursuant to 24 CFR 5.705.

(ix) *Capital Needs Assessments.* For multifamily rental housing projects of 26 or more total units, the participating jurisdiction must determine all work that will be performed in the rehabilitation of the housing and the long-term physical needs of the project through a capital needs assessment of the project.

(2) *Construction documents and cost estimates.* The participating jurisdiction must ensure that the work to be undertaken will meet the participating jurisdiction's rehabilitation standards. The construction documents (i.e., written scope of work to be performed) must be in sufficient detail to establish the basis for a uniform inspection of the housing to determine compliance with the participating jurisdiction's standards. The participating jurisdiction

must review and approve a written cost estimate for rehabilitation after determining that costs are reasonable.

(3) *Frequency of inspections.* The participating jurisdiction must conduct an initial property inspection to identify the deficiencies that must be addressed. The participating jurisdiction must conduct progress and final inspections to determine that work was done in accordance with work write-ups.

(c) *Acquisition of standard housing.* (1) Existing housing that is acquired with HOME assistance for rental housing, and that was newly constructed or rehabilitated less than 12 months before the date of commitment of HOME funds, must meet the property standards of paragraph (a) or paragraph (b) of this section, as applicable, of this section for new construction and rehabilitation projects. The participating jurisdiction must document this compliance based upon a review of approved building plans and Certificates of Occupancy, and an inspection that is conducted no earlier than 90 days before the commitment of HOME assistance.

(2) All other existing housing that is acquired with HOME assistance for rental housing must meet the rehabilitation property standards requirements of paragraph (b) of this section. The participating jurisdiction must document this compliance based upon an inspection that is conducted no earlier than 90 days before the commitment of HOME assistance. If the property does not meet these standards, HOME funds cannot be used to acquire the property unless it is rehabilitated to meet the standards of paragraph (b) of this section.

(3) Existing housing that is acquired for homeownership (e.g., downpayment assistance) must be decent, safe, sanitary, and in good repair. The participating jurisdiction must establish standards to determine that the housing is decent, safe, sanitary, and in good repair. At minimum, the standards must provide that the housing meets all applicable State and local housing quality standards and code requirements and the housing does not contain the specific deficiencies prescribed by HUD based on the applicable inspectable items and inspected areas

§92.251

in HUD-prescribed physical inspection procedures (Uniform Physical Condition Standards) issued pursuant to 24 CFR 5.705. The participating jurisdiction must inspect the housing and document this compliance based upon an inspection that is conducted no earlier than 90 days before the commitment of HOME assistance. If the housing does not meet these standards, the housing must be rehabilitated to meet the standards of this paragraph (c)(3) or it cannot be acquired with HOME funds.

(d) *Occupied housing by tenants receiving HOME tenant-based rental assistance.* All housing occupied by tenants receiving HOME tenant-based rental assistance must meet the standards in 24 CFR 982.401, or the successor requirements as established by HUD.

(e) *Manufactured housing.* Construction of all manufactured housing including manufactured housing that replaces an existing substandard unit under the definition of “reconstruction” must meet the Manufactured Home Construction and Safety Standards codified at 24 CFR part 3280. These standards preempt State and local codes which are not identical to the federal standards for the new construction of manufactured housing. Participating jurisdictions providing HOME funds to assist manufactured housing units must comply with applicable State and local laws or codes. In the absence of such laws or codes, the installation must comply with the manufacturer’s written instructions for installation of manufactured housing units. All new manufactured housing and all manufactured housing that replaces an existing substandard unit under the definition of “reconstruction” must be on a permanent foundation that meets the requirements for foundation systems as set forth in 24 CFR 203.43f(c)(i). All new manufactured housing and all manufactured housing that replaces an existing substandard unit under the definition of “reconstruction” must, at the time of project completion, be connected to permanent utility hook-ups and be located on land that is owned by the manufactured housing unit owner or land for which the manufactured housing owner has a lease for a period at least equal to the applicable period of affordability. In

24 CFR Subtitle A (4–1–16 Edition)

HOME-funded rehabilitation of existing manufactured housing the foundation and anchoring must meet all applicable State and local codes, ordinances, and requirements or in the absence of local or state codes, the Model Manufactured Home Installation Standards at 24 CFR part 3285. Manufactured housing that is rehabilitated using HOME funds must meet the property standards requirements in paragraph (b) of this section, as applicable. The participating jurisdiction must document this compliance in accordance with inspection procedures that the participating jurisdiction has established pursuant to §92.251, as applicable.

(f) *Ongoing property condition standards: Rental housing.* (1) Ongoing property standards. The participating jurisdiction must establish property standards for rental housing (including manufactured housing) that apply throughout the affordability period. The standards must ensure that owners maintain the housing as decent, safe, and sanitary housing in good repair. The participating jurisdiction’s description of its property standards must be in sufficient detail to establish the basis for a uniform inspection of HOME rental projects. The participating jurisdiction’s ongoing property standards must address each of the following:

(i) *Compliance with State and local codes, ordinances, and requirements.* The participating jurisdiction’s standards must require the housing to meet all applicable State and local code requirements and ordinances. In the absence of existing applicable State or local code requirements and ordinances, at a minimum, the participating jurisdiction’s ongoing property standards must include all inspectable items and inspectable areas specified by HUD based on the HUD physical inspection procedures (Uniform Physical Condition Standards (UPCS)) prescribed by HUD pursuant to 24 CFR 5.705. The participating jurisdiction’s property standards are not required to use any scoring, item weight, or level of criticality used in UPCS.

(ii) *Health and safety.* The participating jurisdiction’s standards must require the housing to be free of all

health and safety defects. The standards must identify life-threatening deficiencies that the owner must immediately correct and the time frames for addressing these deficiencies.

(iii) *Lead-based paint.* The participating jurisdiction's standards must require the housing to meet the lead-based paint requirements in 24 CFR part 35.

(2) Projects to which HOME funds were committed before January 24, 2015 must meet all applicable State or local housing quality standards or code requirements, and if there are no such standard or code requirements, the housing must meet the housing quality standards in 24 CFR 982.401.

(3) *Inspections.* The participating jurisdiction must undertake ongoing property inspections, in accordance with § 92.504(d).

(4) *Corrective and remedial actions.* The participating jurisdiction must have procedures for ensuring that timely corrective and remedial actions are taken by the project owner to address identified deficiencies.

(5) *Inspection procedures.* The participating jurisdiction must establish written inspection procedures inspections. The procedures must include detailed inspection checklists, description of how and by whom inspections will be carried out, and procedures for training and certifying qualified inspectors. The procedures must also describe how frequently the property will be inspected, consistent with this section, § 92.209, and § 92.504(d).

[78 FR 44670, July 24, 2013]

§ 92.252 Qualification as affordable housing: Rental housing.

The HOME-assisted units in a rental housing project must be occupied by households that are eligible as low-income families and must meet the requirements of this section to qualify as affordable housing. If the housing is not occupied by eligible tenants within six months following the date of project completion, HUD will require the participating jurisdiction to submit marketing information and, if appropriate, submit a marketing plan. HUD will require the participating jurisdiction to repay HOME funds invested in any housing unit that has not

been rented to eligible tenants 18 months after the date of project completion. The affordability requirements also apply to the HOME-assisted non-owner-occupied units in single-family housing purchased with HOME funds in accordance with § 92.254. The tenant must have a written lease that complies with § 92.253.

(a) *Rent limitation.* HUD provides the following maximum HOME rent limits. The rent limits apply to the rent plus the utilities or the utility allowance. The maximum HOME rents (High HOME Rents) are the lesser of:

(1) The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR 888.111; or

(2) A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit. The HOME rent limits provided by HUD will include average occupancy per unit and adjusted income assumptions.

(b) *Additional rent limitations (Low HOME Rents).* The participating jurisdiction may designate (in its written agreement with the project owner) more than the minimum HOME units in a rental housing project, regardless of project size, to have Low HOME Rents that meet the requirements of this paragraph (b). In rental projects with five or more HOME-assisted rental units, at least 20 percent of the HOME-assisted units must be occupied by very low-income families and meet one of the following rent requirements:

(1) The rent does not exceed 30 percent of the annual income of a family whose income equals 50 percent of the median income for the area, as determined by HUD, with adjustments for smaller and larger families. HUD provides the HOME rent limits which include average occupancy per unit and adjusted income assumptions. However, if the rent determined under this paragraph is higher than the applicable rent under paragraph (a) of this section, then the maximum rent for units under this paragraph is that calculated under paragraph (a) of this section.
