State or local law, or if the sub-recipient is a private nonprofit organization, the exception would not violate the organization's internal policies.

(ii) *Factors to be considered for exceptions.* In determining whether to grant a requested exception after the recipient has satisfactorily met the threshold requirements under paragraph (c)(3)(i) of this section, HUD must conclude that the exception will serve to further the purposes of the Continuum of Care program and the effective and efficient administration of the recipient's or subrecipient's project, taking into account the cumulative effect of the following factors, as applicable:

(A) Whether the exception would provide a significant cost benefit or an essential degree of expertise to the program or project that would otherwise not be available;

(B) Whether an opportunity was provided for open competitive bidding or negotiation;

(C) Whether the affected person has withdrawn from his or her functions, responsibilities, or the decision-making process with respect to the specific activity in question;

(D) Whether the interest or benefit was present before the affected person was in the position described in paragraph (c)(1) of this section;

(E) Whether undue hardship will result to the recipient, the subrecipient, or the person affected, when weighed against the public interest served by avoiding the prohibited conflict;

(F) Whether the person affected is a member of a group or class of persons intended to be the beneficiaries of the assisted activity, and the exception will permit such person to receive generally the same interests or benefits as are being made available or provided to the group or class; and

(G) Any other relevant considerations.
