To cite the regulations in this volume use title, part and section number. Thus, 36 CFR 312.1 refers to title 36, part 312, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 ..............................................................as of January 1
- Title 17 through Title 27 .................................................................as of April 1
- Title 28 through Title 41 .................................................................as of July 1
- Title 42 through Title 50 .............................................................as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, July 1, 2016), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

PAST PROVISIONS OF THE CODE

Provisions of the Code that are no longer in force and effect as of the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on any given date in the past by using the appropriate List of CFR Sections Affected (LSA). For the convenience of the reader, a “List of CFR Sections Affected” is published at the end of each CFR volume. For changes to the Code prior to the LSA listings at the end of the volume, consult previous annual editions of the LSA. For changes to the Code prior to 2001, consult the List of CFR Sections Affected compilations, published for 1949-1963, 1964-1972, 1973-1985, and 1986-2000.

“[RESERVED]” TERMINOLOGY

The term “[Reserved]” is used as a place holder within the Code of Federal Regulations. An agency may add regulatory information at a “[Reserved]” location at any time. Occasionally “[Reserved]” is used editorially to indicate that a portion of the CFR was left vacant and not accidentally dropped due to a printing or computer error.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, or call 202-741-6010.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Authorities and Rules. A list of CFR titles, chapters, subchapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.
An index to the text of "Title 3—The President" is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the "Contents" entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

(2) Being used for hunting or fishing as permitted under §327.8, with devices being unloaded when transported to, from or between hunting and fishing sites;

(3) Being used at authorized shooting ranges; or

(4) Written permission has been received from the District Commander.

(b) Possession of explosives or explosive devices of any kind, including fireworks or other pyrotechnics, is prohibited unless written permission has been received from the District Commander.

§ 327.14 Public property.

(a) Destruction, injury, defacement, removal or any alteration of public property including, but not limited to, developed facilities, natural formations, mineral deposits, historical and archaeological features, paleontological resources, boundary monumentation or markers and vegetative growth, is prohibited except when in accordance with written permission of the District Commander.

(b) Cutting or gathering of trees or parts of trees and/or the removal of wood from project lands is prohibited without written permission of the District Commander.

(c) Gathering of dead wood on the ground for use in designated recreation areas as firewood is permitted, unless prohibited and posted by the District Commander.

(d) The use of metal detectors is permitted on designated beaches or other previously disturbed areas unless prohibited by the District Commander for reasons of protection of archaeological, historical or paleontological resources. Specific information regarding metal detector policy and designated use areas is available at the Manager’s Office. Items found must be handled in accordance with §§327.15 and 327.16 except for non-identifiable items such as coins of value less than $25.

§ 327.15 Abandonment and impoundment of personal property.

(a) Personal property of any kind shall not be abandoned, stored or left unattended upon project lands or waters. After a period of 24 hours, or at any time after a posted closure hour in a public use area or for the purpose of providing public safety or resource protection, unattended personal property shall be presumed to be abandoned and may be impounded and stored at a storage point designated by the District Commander, who may assess a reasonable impoundment fee. Such fee shall be paid before the impounded property is returned to its owner.

(b) Personal property placed on Federal lands or waters adjacent to a private residence, facility and/or developments of any private nature for more than 24 hours without permission of the District Commander shall be presumed to have been abandoned and, unless proven otherwise, such presumption will be sufficient to impound the property and/or issue a citation as provided for in §327.25.

(c) The District Commander shall, by public or private sale or otherwise, dispose of all lost, abandoned or unclaimed personal property that comes into Government custody or control. However, property may not be disposed of until diligent effort has been made to find the owner, heirs, next of kin or legal representative(s). If the owner, heirs, next of kin or legal representative(s) are determined but not found, the property may not be disposed of until the expiration of 120 days after the date when notice, giving the time and place of the intended sale or other disposition, has been sent by certified or registered mail to that person at the last known address. When diligent efforts to determine the owner, heirs, next of kin or legal representative(s) are unsuccessful, the property may be
§ 327.16 Lost and found articles.

All articles found shall be deposited by the finder at the Manager’s office or with a ranger. All such articles shall be disposed of in accordance with the procedures set forth in § 327.15.

§ 327.17 Advertisement.

(a) Advertising and the distribution of printed matter is allowed within project land and waters provided that a permit to do so has been issued by the District Commander and provided that this activity is not solely commercial advertising.

(b) An application for such a permit shall set forth the name of the applicant, the name of the organization (if any), the date, time, duration, and location of the proposed advertising or the distribution of printed matter, the number of participants, and any other information required by the permit application form. Permit conditions and procedures are available from the District Commander.

(c) Vessels and vehicles with semipermanent or permanent painted or installed signs are exempt as long as they are used for authorized recreational activities and comply with all other rules and regulations pertaining to vessels and vehicles.

(d) The District Commander shall, without unreasonable delay, issue a permit on proper application unless:

(1) A prior application for a permit for the same time and location has been made that has been or will be granted and the activities authorized by that permit do not reasonably allow multiple occupancy of the particular area; or

(2) It reasonably appears that the advertising or the distribution of printed matter will present a clear and present danger to the public health and safety; or

(3) The number of persons engaged in the advertising or the distribution of printed matter exceeds the number that can reasonably be accommodated in the particular location applied for, considering such things as damage to project resources or facilities, impairment of a protected area’s atmosphere of peace and tranquility, interference with program activities, or impairment of public use facilities; or

(4) The location applied for has not been designated as available for the advertising or the distribution of printed matter; or

(5) The activity would constitute a violation of an applicable law or regulation.

(e) If a permit is denied, the applicant shall be so informed in writing, with the reason(s) for the denial set forth.

(f) The District Commander shall designate on a map, which shall be available for inspection in the applicable project office, the locations within the project that are available for the advertising or the distribution of printed matter. Locations may be designated as not available only if the advertising or the distribution of printed matter would:

(1) Cause injury or damage to project resources; or

(2) Unreasonably impair the atmosphere of the peace and tranquility maintained in natural, historic, or commemorative zones; or

(3) Unreasonably interfere with interpretive, visitor service, or other program activities, or with the administrative activities of the Corps of Engineers; or

(4) Substantially impair the operation of public use facilities or services of Corps of Engineers concessioners or contractors; or

(5) Present a clear and present danger to the public health and safety.

(g) The permit may contain such conditions as are reasonably consistent with protection and use of the project area for the purposes for which it is established.

(h) No permit shall be issued for a period in excess of 14 consecutive days.
§ 327.19 Permits.

(a) It shall be a violation of this part to refuse to or fail to comply with the fee requirements or other terms or conditions of any permit issued under the provisions of this part 327.

(b) Permits for floating structures (issued under the authority of § 327.30) of any kind on/in waters of water resources development projects, whether or not such waters are deemed navigable waters of the United States but where such waters are under the management of the Corps of Engineers, shall be issued at the discretion of the District Commander under the authority of this section. District Commanders will delineate those portions of the navigable waters of the United States where this provision is applicable and post notices of this designation in the vicinity of the appropriate Manager’s office.

(c) Permits for non-floating structures (issued under the authority of § 327.30) of any kind constructed, placed in or affecting waters of water resources development projects where such waters are deemed navigable waters of the U.S. shall be issued under the provisions of section 10 of the Rivers and Harbors Act approved March 3, 1899 (33 U.S.C. 403). If a discharge of dredged or fill material in these waters is involved, a permit is required under section 404 of the Clean Water Act (33 U.S.C. 1344). (See 33 CFR parts 320 through 330.)

(d) Permits for non-floating structures (issued under the authority of § 327.30) of any kind in waters of water resources development projects, where such waters are under the management of the Corps of Engineers and where such waters are not deemed navigable waters of the United States, shall be issued as set forth in paragraph (b) of this section. If a discharge of dredged or fill material into any water of the United States is involved, a permit is required under section 404 of the Clean Water Act (33 U.S.C. 1344.) (See 33 CFR parts 320 through 330). Water quality certification may be required pursuant to Section 401 of the Clean Water Act (33 U.S.C. 1341).

(e) Shoreline Use Permits to authorize private shoreline use facilities, activities or development (issued under the authority of § 327.30) may be issued in accordance with the project Shoreline Management Plan. Failure to comply with the permit conditions issued under § 327.30 is prohibited.

§ 327.18 Commercial activities.

(a) The engaging in or solicitation of business on project land or waters without the express written permission of the District Commander is prohibited.

(b) It shall be a violation of this part to refuse to or fail to comply with any terms, clauses or conditions of any lease, license or agreements issued by the District Commander.

§ 327.20 Unauthorized structures.

The construction, placement, or existence of any structure (including, but not limited to, roads, trails, signs, non-portable hunting stands or blinds, buoys, docks, or landscape features) of any kind under, upon, in or over the project lands, or waters is prohibited unless a permit, lease, license or other appropriate written authorization has been issued by the District Commander. The design, construction, placement, existence or use of structures in violation of the terms of the permit, lease, license, or other written authorization is prohibited. The government shall not be liable for the loss of, or damage to, any private structures, whether authorized or not, placed on project lands or waters. Unauthorized structures are subject to summary removal or impoundment by the District Commander. Portable hunting stands, climbing devices, steps, or blinds, that are not nailed or screwed into trees and are removed at the end of a day’s hunt may be used.

§ 327.21 Special events.

(a) Special events including, but not limited to, water carnivals, boat regattas, fishing tournaments, music festivals, dramatic presentations or other special recreation programs are prohibited unless written permission has been granted by the District Commander. Where appropriate, District Commanders can provide the state a blanket letter of permission to permit fishing tournaments while coordinating the scheduling and details of tournaments with individual projects. An appropriate fee may be charged under the authority of § 327.23.

(b) The public shall not be charged any fee by the sponsor of such event unless the District Commander has approved in writing (and the sponsor has properly posted) the proposed schedule of fees. The District Commander shall have authority to revoke permission, require removal of any equipment, and require restoration of an area to pre-event condition, upon failure of the sponsor to comply with terms and conditions of the permit/permission or the regulations in this part 327.

§ 327.22 Unauthorized occupation.

(a) Occupying any lands, buildings, vessels or other facilities within water resource development projects for the purpose of maintaining the same as a full- or part-time residence without the written permission of the District Commander is prohibited. The provisions of this section shall not apply to the occupation of lands for the purpose of camping, in accordance with the provisions of § 327.7.

(b) Use of project lands or waters for agricultural purposes is prohibited except when in compliance with terms and conditions authorized by lease, license or other written agreement issued by the District Commander.

[65 FR 6903, Feb. 11, 2000]

§ 327.23 Recreation use fees.

(a) In accordance with the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l) and the Omnibus Budget Reconciliation Act of 1993, Pub. L. 103–66, the Corps of Engineers collects day use fees, special recreation use fees and/or special permit fees for the use of specialized sites, facilities, equipment or services related to outdoor recreation furnished at Federal expense.

(b) Where such fees are charged, the District Commander shall insure that clear notice of fee requirements is prominently posted at each area, and at appropriate locations therein and that the notice be included in publications distributed at such areas. Failure to pay authorized recreation use fees as established pursuant to Pub. L. 88–578, 78 Stat. 897, as amended (16 U.S.C. 460l–6a), is prohibited and is punishable by a fine of not more than $100.

(c) Failure to pay authorized day use fees, and/or properly display applicable receipt, permit or pass is prohibited.

(d) Any Golden Age or Golden Access Passport permittee shall be entitled, upon presentation of such a permit, to utilize special recreation facilities at a rate of 50 percent off of the established use fee at Federally operated areas.
Fraudulent use of a Golden Age or Golden Access Passport is prohibited.

§ 327.24 Interference with Government employees.

(a) It is a Federal crime pursuant to the provisions of sections 111 and 1114 of Title 18, United States Code, to forcibly assault, resist, oppose, impede, intimidate, or interfere with, attempt to kill or kill any civilian official or employee for the U.S. Army Corps of Engineers engaged in the performance of his or her official duties, or on account of the performance of his or her official duties. Such actions or interference directed against a Federal employee while carrying out the regulations in this part are violation of such regulations and may be a state crime pursuant to the laws of the state where they occur.

(b) Failure to comply with a lawful order issued by a Federal employee acting pursuant to the regulations in this part shall be considered as interference with that employee while engaged in the performance of their official duties. Such interference with a Federal employee includes failure to provide a correct name, address or other information deemed necessary for identification upon request of the Federal employee, when that employee is authorized by the District Commander to issue citations in the performance of the employee’s official duties.

§ 327.25 Violations of rules and regulations.

(a) Any person who violates the provisions of the regulations in this part, other than for a failure to pay authorized recreation use fees as separately provided for in §327.23, may be punished by a fine of not more than $5,000 or imprisonment for not more than six months or both and may be tried and sentenced in accordance with the provisions of section 3401 of Title 18, United States Code. Persons designated by the District Commander shall have the authority to issue a citation for violation of the regulations in this part, requiring any person charged with the violation to appear before the United States Magistrate within whose jurisdiction the affected water resources development project is located (16 U.S.C. 460d).

(b) Any person who commits an act against any official or employee of the U.S. Army Corps of Engineers that is a crime under the provisions of section 111 or section 1114 of Title 18, United States Code or under provisions of pertinent state law may be tried and sentenced as further provided under Federal or state law, as the case may be.

§ 327.26 State and local laws.

(a) Except as otherwise provided in this part or by Federal law or regulation, state and local laws and ordinances shall apply on project lands and waters. This includes, but is not limited to, state and local laws and ordinances governing:

(1) Operation and use of motor vehicles, vessels, and aircraft;
(2) Hunting, fishing and trapping;
(3) Use or possession of firearms or other weapons;
(4) Civil disobedience and criminal acts;
(5) Littering, sanitation and pollution; and
(6) Alcohol or other controlled substances.

(b) These state and local laws and ordinances are enforced by those state and local enforcement agencies established and authorized for that purpose.

§§ 327.27–327.29 [Reserved]

§ 327.30 Shoreline Management on Civil Works Projects.

(a) Purpose. The purpose of this regulation is to provide policy and guidance on management of shorelines of Civil Works projects where 36 CFR part 327 is applicable.

(b) Applicability. This regulation is applicable to all field operating agencies with Civil Works responsibilities except when such application would result in an impingement upon existing Indian rights.

(c) References. (1) Section 4, 1944 Flood Control Act, as amended (16 U.S.C. 460d).
§ 327.30

(3) Section 10, River and Harbor Act of 1899 (33 U.S.C. 403).

(9) Executive Order 12088 (13 Oct. 78).

(10) 33 CFR parts 320–330, “Regulatory Programs of the Corps of Engineers.”

(11) ER 1130–2–400, “Management of Natural Resources and Outdoor Recreation at Civil Works Water Resource Projects.”

(d) Policy. (1) It is the policy of the Chief of Engineers to protect and manage shorelines of all Civil Works water resource development projects under Corps jurisdiction in a manner which will promote the safe and healthful use of these shorelines by the public while maintaining environmental safeguards to ensure a quality resource for use by the public. The objectives of all management actions will be to achieve a balance between permitted private uses and resource protection for general public use. Public pedestrian access to and exit from these shorelines shall be preserved. For projects or portions of projects where Federal real estate interest is limited to easement title only, management actions will be appropriate within the limits of the estate acquired.

(2) Private shoreline uses may be authorized in designated areas consistent with approved use allocations specified in Shoreline Management Plans. Except to honor written commitments made prior to publication of this regulation, private shoreline uses are not allowed on water resource projects where construction was initiated after December 13, 1974, or on water resource projects where no private shoreline uses existed as of that date. Any existing permitted facilities on these projects will be grandfathered until the facilities fail to meet the criteria set forth in §327.30(h).

(3) A Shoreline Management Plan, as described in §327.30(e), will be prepared for each Corps project where private shoreline use is allowed. This plan will honor past written commitments. The plan will be reviewed at least once every five years and revised as necessary. Shoreline uses that do not interfere with authorized project purposes, public safety concerns, violate local norms or result in significant environmental effects should be allowed unless the public participation process identifies problems in these areas. If sufficient demand exists, consideration should be given to revising the shoreline allocations (e.g., increases/decreases). Maximum public participation will be encouraged as set forth in §327.30(e)(6). Except to honor written commitments made prior to the publication of this regulation, shoreline management plans are not required for those projects where construction was initiated after December 13, 1974, or on projects not having private shoreline use as of that date. In that case, a statement of policy will be developed by the district commander to present the shoreline management policy. This policy statement will be subject to the approval of the division commander. For projects where two or more agencies have jurisdiction, the plan will be cooperatively prepared with the Corps as coordinator.

(4) Where commercial or other public launching and/or moorage facilities are not available within a reasonable distance, group owned mooring facilities may be allowed in Limited Development Areas to limit the proliferation of individual facilities. Generally only one permit will be necessary for a group owned mooring facility with that entity, if incorporated, or with one person from the organization designated as the permittee and responsible for all moorage spaces within the facility. No charge may be made for use of any permitted facility by others nor shall any...
commercial activity be engaged in thereon.

(5) The issuance of a private shoreline use permit does not convey any real estate or personal property rights or exclusive use rights to the permit holder. The public’s right of access and use of the permit area must be maintained and preserved. Owners of permitted facilities may take necessary precautions to protect their property from theft, vandalism or trespass, but may in no way preclude the public right of pedestrian or vessel access to the water surface or public land adjacent to the facility.

(6) Shoreline Use Permits will only be issued to individuals or groups with legal right of access to public lands.

(c) Shoreline Management Plan—(1) General. The policies outlined in §327.30(d) will be implemented through preparation of Shoreline Management Plans, where private shoreline use is allowed.

(2) Preparation. A Shoreline Management Plan is prepared as part of the Operational Management Plan. A moratorium on accepting applications for new permits may be placed in effect from the time an announcement of creation of a plan or formal revision of a plan is made until the action is completed.

(3) Approval. Approval of Shoreline Management Plans rests with division commanders. After approval, one copy of each project Shoreline Management Plan will be forwarded to HQUSACE (CECW-ON) WASH DC 20314–1000. Copies of the approved plan will also be made available to the public.

(4) Scope and Format. The Shoreline Management Plan will consist of a map showing the shoreline allocated to the uses listed in §327.30(c)(6), related rules and regulations, a discussion of what areas are open or closed to specific activities and facilities, how to apply for permits and other information pertinent to the Corps management of the shoreline. The plan will be prepared in sufficient detail to ensure that it is clear to the public what uses are and are not allowed on the shoreline of the project and why. A process will be developed and presented in the Shoreline Management Plan that prescribes a procedure for review of activities requested but not specifically addressed by the Shoreline Management Plan.

(5) Shoreline Allocation. The entire shoreline will be allocated within the classifications below and delineated on a map. Any action, within the context of this rule, which gives a special privilege to an individual or group of individuals on land or water at a Corps project, that precludes use of those lands and waters by the general public, is considered to be private shoreline use. Shoreline allocations cover that land and/or water extending from the edge of the water and waterward with the exception of allocations for the purpose of vegetation modification which extends landward to the project boundary. These allocations should complement, but certainly not contradict, the land classifications in the project master plan. A map of sufficient size and scale to clearly display the shoreline allocations will be conspicuously displayed or readily available for viewing in the project administration office and will serve as the authoritative reference. Reduced or smaller scale maps may be developed for public dissemination but the information contained on these must be identical to that contained on the display map in the project administration office. No changes will be made to these maps except through the formal update process. District commanders may add specific constraints and identify areas having unique characteristics during the plan preparation, review, or updating process in addition to the allocation classifications described below.

(i) Limited Development Areas. Limited Development Areas are those areas in which private facilities and/or activities may be allowed consistent with §327.30(h) and appendix A. Modification of vegetation by individuals may be allowed only following the issuance of a permit in accordance with appendix A. Potential low and high water conditions and underwater topography should be carefully evaluated before shoreline is allocated as Limited Development Area.

(ii) Public Recreation Areas. Public Recreation Areas are those areas designated for commercial concessionaire
§ 327.30

facilities, Federal, state or other similar public use. No private shoreline use facilities and/or activities will be permitted within or near designated or developed public recreation areas. The term “near” depends on the terrain, road system, and other local conditions, so actual distances must be established on a case by case basis in each project Shoreline Management Plan. No modification of land forms or vegetation by private individuals or groups of individuals is permitted in public recreation areas.

(iii) Protected Shoreline Areas. Protected Shoreline Areas are those areas designated to maintain or restore aesthetic, fish and wildlife, cultural, or other environmental values. Shoreline may also be so designated to prevent development in areas that are subject to excessive siltation, erosion, rapid dewatering, or exposure to high wind, wave, or current action and/or in areas in which development would interfere with navigation. No Shoreline Use Permits for floating or fixed recreation facilities will be allowed in protected areas. Some modification of vegetation by private individuals, such as clearing a narrow meandering path to the water, or limited mowing, may be allowed only following the issuance of a permit if the resource manager determines that the activity will not adversely impact the environment or physical characteristics for which the area was designated as protected. In making this determination the effect on water quality will also be considered.

(iv) Prohibited Access Areas. Prohibited Access Areas are those in which public access is not allowed or is restricted for health, safety or security reasons. These could include hazardous areas near dams, spillways, hydro-electric power stations, work areas, water intake structures, etc. No shoreline use permits will be issued in Prohibited Access Areas.

(6) Public Participation. District commanders will ensure public participation to the maximum practicable extent in Shoreline Management Plan formulation, preparation and subsequent revisions. This may be accomplished by public meetings, group workshops, open houses or other public involvement techniques. When master plan updates and preparation of the Shoreline Management Plans are concurrent, public participation may be combined and should consider all aspects of both plans, including shoreline allocation classifications. Public participation will begin during the initial formulation stage and must be broad-based to cover all aspects of public interest. The key to successful implementation is an early and continual public relations program. Projects with significant numbers of permits should consider developing computerized programs to facilitate exchange of information with permittees and to improve program efficiency. Special care will be taken to advise citizen and conservation organizations; Federal, state and local natural resource management agencies; Indian Tribes; the media; commercial concessionaires; congressional liaisons; adjacent landowners and other concerned entities during the formulation of Shoreline Management Plans and subsequent revisions. Notices shall be published prior to public meetings to assure maximum public awareness. Public notices shall be issued by the district commander allowing for a minimum of 30 days for receipt of written public comment in regard to the proposed Shoreline Management Plan or any major revision thereto.

(7) Periodic Review. Shoreline Management Plans will be reviewed periodically, but no less often than every five years, by the district commander to determine the need for update. If sufficient controversy or demand exists, consideration should be given, consistent with other factors, to a process of reevaluation of the shoreline allocations and the plan. When changes to the Shoreline Management Plan are needed, the plan will be formally updated through the public participation process. Cumulative environmental impacts of permit actions and the possibility of preparing or revising project NEPA documentation will be considered. District commanders may make minor revisions to the Shoreline Management Plan when the revisions are consistent with policy and funds for a complete plan update are not available.
19

Corps of Engineers, Army, DoD § 327.30

The amount and type of public involvement needed for such revision is at the discretion of the district commander.

(f) Instruments for Shoreline Use. Instruments used to authorize private shoreline use facilities, activities or development are as follows:

(1) Shoreline Use Permits. Shoreline Use Permits are issued and enforced in accordance with provisions of 36 CFR 327.19.

(ii) Shoreline Use Permits are required for private structures/activities of any kind (except boats) in waters of Civil Works projects whether or not such waters are deemed navigable and where such waters are under the primary jurisdiction of the Secretary of the Army and under the management of the Corps of Engineers.

(iii) Shoreline Use Permits are required for non-floating structures on waters deemed commercially non-navigable, when such waters are under management of the Corps of Engineers.

(iv) Shoreline Use Permits are also required for land vegetation modification activities which do not involve disruption to land form.

(v) Permits should be issued for a term of five years. To reduce administration costs, one year permits should be issued only when the location or nature of the activity requires annual reissuance.

(vi) Shoreline Use Permits for erosion control may be issued for the life or period of continual ownership of the structure by the permittee and his/her legal spouse.

(2) Department of the Army Permits. Dredging, construction of fixed structures, including fills and combination fixed-floating structures and the discharge of dredged or fill material in waters of the United States will be evaluated under authority of section 10, River and Harbor Act of 1899 (33 U.S.C. 403) and section 404 of the Clean Water Act (33 U.S.C. 1344). Permits will be issued where appropriate.

(3) Real Estate Instruments. Commercial development activities and activities which involve grading, cuts, fills, or other changes in land form, or establishment of appropriate land-based support facilities required for private floating facilities, will continue to be covered by a lease, license or other legal grant issued through the appropriate real estate element. Shoreline Management Plans should identify the types of activities that require real estate instruments and indicate the general process for obtaining same. Shoreline Use Permits are not required for facilities or activities covered by a real estate instrument.

(g) Transfer of Permits. Shoreline Use Permits are non-transferable. They become null and void upon sale or transfer of the permitted facility or the death of the permittee and his/her legal spouse.

(h) Existing Facilities Now Under Permit. Implementation of a Shoreline Management Plan shall consider existing permitted facilities and prior written Corps commitments implicit in their issuance. Facilities or activities permitted under special provisions should be identified in a way that will set them apart from other facilities or activities.

(1) Section 6 of Pub. L. 97–140 provides that no lawfully installed dock or appurtenant structures shall be required to be removed prior to December 31, 1989, from any Federal water resources reservoir or lake project administered by the Secretary of the Army, acting through the Chief of Engineers, on which it was located on December 29, 1981, if such property is maintained in usable condition, and does not occasion a threat to life or property.

(2) In accordance with section 1134(d) of Pub. L. 99–662, any houseboat, boat house, floating cabin or lawfully installed dock or appurtenant structures in place under a valid shoreline use permit as of November 17, 1986, cannot be forced to be removed from any Federal water resources project or lake administered by the Secretary of the Army on or after December 31, 1989, if it meets the three conditions below except where necessary for immediate use for public purposes or higher public use or for a navigation or flood control project.

(i) Such property is maintained in a usable and safe condition.

(ii) Such property does not occasion a threat to life or property, and
(iii) The holder of the permit is in substantial compliance with the existing permit.

(3) All such floating facilities and appurtenances will be formally recognized in an appropriate Shoreline Management Plan. New permits for these permitted facilities will be issued to new owners. If the holder of the permit fails to comply with the terms of the permit, it may be revoked and the holder required to remove the structure, in accordance with the terms of the permit as to notice, time, and appeal.

(i) Facility Maintenance. Permitted facilities must be operated, used and maintained by the permittee in a safe, healthful condition at all times. If determined to be unsafe, the resource manager will establish together with the permittee a schedule, based on the seriousness of the safety deficiency, for correcting the deficiency or having it removed, at the permittee’s expense. The applicable safety and health prescriptions in EM 385–1–1 should be used as a guide.

(j) Density of Development. The density of private floating and fixed recreation facilities will be established in the Shoreline Management Plan for all portions of Limited Development areas consistent with ecological and aesthetic characteristics and prior written commitments. The facility density in Limited Development Areas should, if feasible, be determined prior to the development of adjacent private property. The density of facilities will not be more than 50 per cent of the Limited Development Area in which they are located. Density will be measured by determining the linear feet of shoreline as compared to the width of the facilities in the water plus associated moorage arrangements which restrict the full unobstructed use of that portion of the shoreline. When a Limited Development Area or a portion of a Limited Development area reaches maximum density, notice should be given to the public and facility owners in that area that no additional facilities will be allowed. In all cases, sufficient open area will be maintained for safe maneuvering of watercraft. Docks should not extend out from the shore more than one-third of the width of a cove at normal recreation or multipurpose pool. In those cases where current density of development exceeds the density level established in the Shoreline Management Plan, the density will be reduced to the prescribed level through attrition.

(k) Permit Fees. Fees associated with the Shoreline Use Permits shall be paid prior to issuing the permit in accordance with the provisions of §327.30(c)(1). The fee schedule will be published separately.

APPENDIX A TO §327.30—GUIDELINES FOR GRANTING SHORELINE USE PERMITS

1. General

a. Decisions regarding permits for private floating recreation facilities will consider the operating objectives and physical characteristics of each project. In developing Shoreline Management Plans, district commanders will give consideration to the effects of added private boat storage facilities on commercial concessions for that purpose. Consistent with established policies, new commercial concessions may be alternatives to additional limited development shoreline.

b. Permits for individually or group owned shoreline use facilities may be granted only in Limited Development Areas where the sites are not near commercial marine services and such use will not despoil the shoreline nor inhibit public use or enjoyment thereof. The installation and use of such facilities will not be in conflict with the preservation of the natural characteristics of the shoreline nor will they result in significant environmental damage. Charges will be made for Shoreline Use Permits in accordance with the separately published fee schedule.

c. Permits may be granted within Limited Development Areas for ski jumps, floats, boat moorage facilities, duck blinds, and other private floating recreation facilities when they will not create a safety hazard and inhibit public use or enjoyment of project waters or shoreline. A Corps permit is not required for temporary ice fishing shelters or duck blinds when they are regulated by a state program. When the facility or activity is authorized by a shoreline use permit, a separate real estate instrument is generally not required.

d. Group owned boat mooring facilities may be permitted in Limited Development Areas where practicable (e.g. where physically feasible in terms of access, water depths, wind protection, etc.).
2. Applications for Shoreline Use Permits

a. Applications for private Shoreline Use Permits will be reviewed with full consideration of the policies set forth in this and referenced regulations, and the Shoreline Management Plan. Fees associated with the Shoreline Use Permit shall be paid prior to issuing the permit. Plans and specifications of the proposed facility shall be submitted and approved prior to the start of construction. Submissions should include engineering details, structural design, anchorage method, and construction materials; the type, size, location and ownership of the facility; expected duration of use; and an indication of willingness to abide by the applicable regulations and terms and conditions of the permit. Permit applications shall also identify and locate any land-based support facilities and any specific safety considerations.

b. Permits will be issued by the district commander or his/her authorized representative on ENG Form 4264-R (Application for Shoreline Use Permit) (appendix B). Computer generated forms may be substituted for ENG Form 4264-R provided all information is included. The computer generated form will be designated, “ENG Form 4264-R, E, Oct 87” (Electronic generation approved by USACE, Oct 87). The following are guides to issuance of Shoreline Use Permits:

(1) Use of boat mooring facilities, including piers and boat (shelters) houses, will be limited to vessel or watercraft mooring and storage of gear essential to vessel or watercraft operation.

(2) Private floating recreation facilities, including boat mooring facilities shall not be constructed or used for human habitation or in a manner which gives the appearance of conversion to Federal public property on which the facility is located to private, exclusive use. New docks with enclosed sides (i.e. boat-houses) are prohibited.

(3) No private floating facility will exceed the minimum size required to moor the owner’s boat or boats plus the minimum size required for an enclosed storage locker of oars, life preservers and other items essential to watercraft operation. Specific size limitations may be established in the project Shoreline Management Plan.

(4) All private floating recreation facilities including boat mooring facilities will be constructed in accordance with plans and specifications, approved by the resource manager, or a written certification from a licensed engineer, stating the facility is structurally safe will accompany the initial submission of the plans and specifications.

(5) Procedures regarding permits for individual facilities shall also apply to permits for non-commercial group mooring facilities.

(6) Facilities attached to the shore shall be securely anchored by means of moorings which do not obstruct the free use of the shoreline, nor damage vegetation or other natural features. Anchoring to vegetation is prohibited.

(7) Electrical service and equipment leading to or on private mooring facilities must not pose a safety hazard nor conflict with other recreational use. Electrical installations must be weatherproof and meet all current applicable electrical codes and regulations. The facility must be equipped with quick disconnect fittings mounted above the flood pool elevation. All electrical installations must conform to the National Electric Code and all state, and local codes and regulations. In those states where electricians are licensed, registered, or otherwise certified, a copy of the electrical certification must be provided to the resource manager before a Shoreline Use Permit can be issued or renewed. The resource manager will require immediate removal or disconnection of any electrical service or equipment that is not certified (if appropriate), does not meet code, or is not safely maintained. All new electrical lines will be installed underground. This will require a separate real estate instrument for the service right-of-way. Existing overhead lines will be allowed, as long as they meet all applicable electrical codes, regulations and above guidelines, to include compatibility and safety related to fluctuating water levels.

(8) Private floating recreation facilities will not be placed as to interfere with any authorized project purposes, including navigation, or create a safety or health hazard.

(9) The district commander or his/her authorized representative may place special conditions on the permit when deemed necessary. Requests for waivers of shoreline management plan permit conditions based on health conditions will be reviewed on a case by case basis by the Operations Manager. Efforts will be made to reduce onerous requirements when a limiting health condition is obvious or when an applicant provides a doctor’s certification of need for conditions which are not obvious.

(10) Vegetation modification, including but not limited to, cutting, pruning, chemical manipulation, removal or seeding by private individuals is allowed only in those areas designated as Limited Development Areas or Protected Shoreline Areas. An existing (as of July 1, 1987) vegetation modification permit, within a shoreline allocation which normally would not allow vegetation modification, should be grandfathered. Permittees will not create the appearance of private ownership of public lands.

(11) The term of a permit for vegetation modification will be for five years. Where possible, such permits will be consolidated with other shoreline management permits into a single permit. The district commander
is authorized to issue vegetation modification permits of less than five years for one-time requests or to aid in the consolidation of shoreline management permits.

(12) When issued a permit for vegetative modification, the permittee will delineate the government property line, as surveyed and marked by the government, in a clear but unobtrusive manner approved by the district commander and in accordance with the project Shoreline Management Plan and the conditions of the permit. Other adjoining owners may also delineate the common boundary subject to these same conditions. This delineation may include, but is not limited to, boundary plantings and fencing. The delineation will be accomplished at no cost to the government.

(13) No permit will be issued for vegetation modification in Protected Shoreline Areas until the environmental impacts of the proposed modification are assessed by the resource manager and it has been determined that no significant adverse impacts will result. The effects of the proposed modification on water quality will also be considered in making this determination.

(14) The original of the completed permit application is to be retained by the permittee. A duplicate will be retained in the resource manager’s office.

3. Permit Revocation

Permits may be revoked by the district commander when it is determined that the public interest requires such revocation or when the permittee fails to comply with terms and conditions of the permit, the Shoreline Management Plan, or of this regulation. Permits for duck blinds and ice fishing shelters will be issued to cover a period not to exceed 30 days prior to and 30 days after the season.

4. Removal of Facilities

Facilities not removed when specified in the permit or when requested after termination or revocation of the permit will be treated as unauthorized structures pursuant to 36 CFR 327.20.

5. Posting of Permit Number

Each district will procure 5" x 8" or larger printed permit tags of light metal or plastic for posting. The permit display tag shall be posted on the facility and/or on the land area covered by the permit, so that it can be visually checked, with ease in accordance with instructions provided by the resource manager. Facilities or activities permitted under special provisions should be identified in a way that will set apart from other facilities or activities.
or regulations, nor does it obviate the necessity of obtaining state or local assent required by law for the construction, operation, use or maintenance of a permitted facility.

9. The permittee agrees to construct the facility within the time limit agreed to on the permit issuance date. The permit shall become null and void if construction is not completed within that period. Further, the permittee agrees to operate and maintain any permitted facility and/or activity in a manner so as to provide safety, minimize any adverse impact on fish and wildlife habitat, natural, environmental, or cultural resources values and in a manner so as to minimize the degradation of water quality.

10. The permittee shall remove a permitted facility within 30 days, at his/her expense, and restore the waterway and lands to a condition accepted by the resource manager upon termination or revocation of this permit or if the permittee ceases to use, operate or maintain a permitted facility and/or activity. If the permittee fails to comply to the satisfaction of the resource manager, the district commander may remove the facility by contract or otherwise and the permittee agrees to pay all costs incurred thereof.

11. The use of a permitted boat dock facility shall be limited to the mooring of the permittee’s vessel or watercraft and the storage, in enclosed locker facilities, of his/her gear essential to the operation of such vessel or watercraft.

12. Neither a permitted facility nor any houseboat, cabin cruiser, or other vessel moored thereto shall be used as a place of habitation or as a full or part-time residence or in any manner which gives the appearance of converting the public property, on which the facility is located, to private use.

13. Facilities granted under this permit will not be leased, rented, sub-let or provided to others by any means of engaging in commercial activity(ies) by the permittee or his/her agent for monetary gain. This does not preclude the permittee from selling total ownership to the facility.

14. Floats and the flotation material for all docks and boat mooring buoys shall be fabricated of materials manufactured for marine use. The float and its flotation material shall be 100% warranted for a minimum of 8 years against sinking, becoming waterlogged, cracking, peeling, fragmenting, or losing beads. All floats shall resist puncture and penetration and shall not be subject to damage by animals under normal conditions for the area. All floats and the flotation material used in them shall be fire resistant. Any float which is within 40 feet of a line carrying fuel shall be 100% impervious to water and fuel. The use of new or recycled plastic or metal drums or non-compartmentalized air containers for encasement or floats is prohibited. Existing floats are authorized until it or its flotation material is no longer serviceable, at which time it shall be replaced with a float that meets the conditions listed above. For any floats installed after the effective date of this specification, repair or replacement shall be required when it or its flotation material no longer performs its designated function or it fails to meet the specifications for which it was originally warranted.

15. Permitted facilities and activities are subject to periodic inspection by authorized Corps representatives. The resource manager will notify the permittee of any deficiencies and together establish a schedule for their correction. No deviation or changes from approved plans will be allowed without prior written approval of the resource manager.

16. Floating facilities shall be securely attached to the shore in accordance with the approved plans by means of moorings which do not obstruct general public use of the shoreline or adversely affect the natural terrain or vegetation. Anchoring to vegetation is prohibited.

17. The permit display tag shall be posted on the permitted facility and/or on the land areas covered by the permit so that it can be visually checked with ease in accordance with instructions provided by the resource manager.

18. No vegetation other than that prescribed in the permit will be damaged, destroyed or removed. No vegetation of any kind will be planted, other than that specifically prescribed in the permit.

19. No change in land form such as grading, excavation or filling is authorized by this permit.

20. This permit is non-transferable. Upon the sale or other transfer of the permitted facility or the death of the permittee and his/her legal spouse, this permit is null and void.

21. By 30 days written notice, mailed to the permittee by certified letter, the district commander may revoke this permit whenever the public interest necessitates such revocation or when the permittee fails to comply with any permit condition or term. The revocation notice shall specify the reasons for such action. If the permittee requests a hearing in writing to the district commander through the resource manager within the 30-day period, the district commander shall grant such hearing at the earliest opportunity. In no event shall the hearing date be more than 60 days from the date of the hearing request. Following the hearing, a written decision will be rendered and a copy mailed to the permittee by certified letter.

22. Notwithstanding the conditions cited in condition 21 above, if in the opinion of the district commander, emergency circumstances dictate otherwise, the district commander may revoke this permit.
commander may summarily revoke the permit.

23. When vegetation modification on these lands is accomplished by chemical means, the program will be in accordance with appropriate Federal, state and local laws, rules and regulations.

24. The resource manager or his/her authorized representative shall be allowed to cross the permittee’s property, as necessary to inspect facilities and/or activities under permit.

25. When vegetation modification is allowed, the permittee will delineate the government property line in a clear, but unobtrusive manner approved by the resource manager and in accordance with the project Shoreline Management Plan.

26. If the ownership of a permitted facility is sold or transferred, the permittee or new owner will notify the Resource Manager of the action prior to finalization. The new owner must apply for a Shoreline Use Permit within 14 days or remove the facility and restore the use area within 30 days from the date of ownership transfer.

27. If permitted facilities are removed for storage or extensive maintenance, the resource manager may require all portions of the facility be removed from public property.

APPENDIX D TO §327.30—PERMIT [RESERVED]

EFFECTIVE DATE NOTE: The amendment to §327.30 revising the last sentence of paragraph (k), published at 56 FR 29587, June 28, 1991, was deferred indefinitely. See 56 FR 49706, Oct. 1, 1991. The administrative charges contained in §327.30, Shoreline Management on Civil Works Projects, published in the July 1, 1991, edition of the Code of Federal Regulations will remain in effect. Any future decisions affecting this regulation will be published in the FEDERAL REGISTER at a later date by the Corps of Engineers, Department of the Army. For the convenience of the user, the rule published on June 28, 1991, at FR page 29587, is set forth as follows:

§327.30 Shoreline Management on Civil Works Projects.

* * * * * * *

(k) * * * The Fee Schedule is published in §327.31.

§327.31 Shoreline management fee schedule.

A charge will be made for Shoreline Use Permits to help defray expenses associated with issuance and administration of the permits. As permits become eligible for renewal after July 1, 1976, a charge of $10 for each new permit and a $5 annual fee for inspection of floating facilities will be made. There will be no annual inspection fee for permits for vegetative modification on Shoreline areas. In all cases the total administrative charge will be collected initially at the time of permit issuance rather than on a piecemeal annual basis.

§ 328.1 Purpose.

This regulation, in connection with the modification of the present prohibition of seaplane operations by the amendment to §327.4 of title 36 of the Code of Federal Regulations, is designed to provide uniform policies and criteria for designating Corps projects, or portions thereof, at which seaplane operations are prohibited or restricted; and to continue to protect the integrity and all authorized uses of such projects and the safety of users of such projects. As used in this regulation, projects or Corps projects means water resources development projects administered by the Chief of Engineers.

§ 328.2 Applicability.

This regulation is applicable to all Field Operating Agencies having Civil Works responsibilities.

(c) ER 1130–2–400.

(d) ER 1145–2–301.

(e) ER 1145–2–303.

(f) ER 1165–2–400.

(g) ER 405–2–800 Series.

§ 328.4 Policy.

(a) The objective of Corps of Engineers resources management is to maximize public enjoyment and use of the lands, waters, forests, and associated recreational resources, consistent with their aesthetic and biological values. Such management includes efforts to preserve and enhance the environmental amenities that are the source of the recreational value associated with the project and to allow such other new and innovative uses of the projects that are not detrimental thereto.

(b) Seaplane operations at water resource development projects administered by the Chief of Engineers may involve hazards including, but not limited to, conflicting recreational activities, floating debris, and underwater hazards, which may be accentuated by the normal fluctuation of water levels.

(c) Seaplane operations may be prohibited or restricted at such water resource development projects, or portions thereof, for a variety of management reasons. Prohibiting or restricting seaplane operations in certain portions within a project in no way implies that safety hazards to seaplane operations or to other recreation users may not exist in other portions of the project.

(d) The operation of a seaplane at Corps projects is at the risk of the plane’s owner, operator, and passenger(s). The responsibility to ascertain whether seaplane operations are permitted, prohibited or restricted at such projects, and portions thereof, is incumbent upon the person(s) contemplating the use of, or using, such waters.

§ 328.5 Guidelines for seaplane use of project waters.

(a) All operations of the aircraft while upon the water shall be in accordance with the marine rules of the road for power boats or vessels.

(b) Seaplanes on project waters and lands in excess of 24 hours shall be securely moored at mooring facilities and at locations permitted by the District Engineer. Seaplanes may be temporarily moored on project waters and lands, except in areas prohibited by the District Engineer, for periods less than 24 hours providing that—

1. The mooring is safe, secure, and accomplished so as not to damage the rights of the government or members of the public;

2. The operator remains in the vicinity of the seaplane and reasonably available to relocate the seaplane if necessary.

(c) No commercial operation of seaplanes from project waters will be allowed without written approval of the District Engineer following consultation with and the necessary clearance from the Federal Aviation Administration (FAA) and other appropriate public authorities and affected interests.

(d) Seaplanes may not be operated at Corps projects between sunset and sunrise unless adequate lighting and supervision are available.

(e) Requests for public commercial facilities in support of seaplanes will be handled under normal concession policies.

(f) Permits for floating and non-floating structures of any kind, in, on, or affecting project waters, under the management of the Resource Manager, including waters under lease, license or other outgrant agreement, shall be handled in accordance with the lakeshore management plan or policy statement for the project involved, §327.19 of title 36, Code of Federal Regulations and, where required by statute or regulation, section 10 of the River and Harbor Act (approved March 3, 1899) and section 404 of the Federal Water Pollution Control Act of 1972 (Pub. L. 92–500).

(g) Appropriate signs should be employed to inform users of projects, or portions thereof, where seaplane operations are permitted.
§ 328.6 Procedures.

(a) In order to protect the integrity and all authorized uses of Corps projects and the safety of all users of the lake projects, the District Engineer shall:

(1) Examine and investigate each Corps project within his district which a seaplane operator could conceivably attempt to use for seaplane operations, and determine those projects, or portions thereof, in which seaplane operations should be prohibited.

(2) Establish such restrictions on seaplane operations as he deems necessary or desirable in accordance with these regulations for other areas. Seaplane takeoff and landing maneuvers within specified distances of the shoreline, bridges, causeways, water utility crossings, dams, and similar structures should be prohibited.

(3) Prior to concluding any such examination and investigation, consult with the FAA, appropriate State aeronautical agency, lessee or licensee of outgranted lands, the Coast Guard, and state boating law administrators, and use his best efforts to consult with other interested or affected public authorities and private interests for their guidance, particularly for those projects which are regularly used by the public for recreational purposes or are located in the vicinity of actively used airports, air fields, or densely populated areas. News releases, public notice, and congressional liaison should be used. Public hearings are encouraged.

(4) In making his investigation, examination, and determination, consider environmental factors in accordance with the National Environmental Policy Act of 1969 (NEPA), Pub. L. 91–190—particularly should be consider the impact that seaplane operations may have on the safety at the project, aquatic, fish and wildlife, noise levels, recreation, and air and water quality. Prior to concluding such investigation and examination, he shall prepare an environmental impact assessment (EIA) and, if necessary, an environmental impact statement (EIS) assessing the environmental impacts of permitting seaplanes to operate at the projects, or portions thereof, in his district.

(b) The removal of the present prohibition on seaplane operations will be effective one year from the date of publication of these regulations. The District Engineer should complete the examination, investigation, determination and notification to the FAA of projects, or portions thereof, where seaplane operations are prohibited or restricted, within one year from the date of this regulation. The District Engineer may extend the present prohibition for up to one additional year if he cannot complete his examination, investigation, determination, and notification within one year. In such event, he should notify the FAA by letter and publish other appropriate notices. Any further extension of time will require the approval of the Chief of Engineers.

(c) After he has completed his examination, investigation, determination and notification of the FAA of projects, or portions thereof where seaplane operations will be prohibited or restricted, the District Engineer should periodically reevaluate his determination as additional operational data becomes available. He may modify, delete, or add projects, or portions thereof, where seaplane operations are prohibited or restricted. Except where immediate action is required, he should...
consult with appropriate public authorities and private interests for their guidance with regard to such actions. Notification of these actions shall be forwarded to the FAA as indicated in paragraph (a)(6) of this section.

§ 328.7 Other authorities.

Nothing in the preceding provisions bestrides authority to deviate from rules and regulations or prescribed standards of the State Aeronautical Agency, Federal Aviation Administration, Coast Guard, or other appropriate Federal, state, or local authority.

PART 330—REGULATION OF LAW ENFORCEMENT SERVICES CONTRACTS AT CIVIL WORKS WATER RESOURCE PROJECTS ADMINISTERED BY THE CHIEF OF ENGINEERS

§ 330.1 Purpose.

This regulation provides policy and guidance for the establishment and management of the contract law enforcement program including preparation of and management of contracts ensuing from this program.

§ 330.2 Applicability.

This regulation is applicable to all field operating agencies having responsibilities for Civil Works water resource development projects.

§ 330.3 References.

(a) Section 4 of the Flood Control Act of 1944, as amended (16 U.S.C. 460d).
§ 330.6

(b) Contracts for law enforcement services, as authorized in §330.5(a), shall be subject to the terms and conditions as provided for within this regulation and in accordance with standard contracting and accounting procedures applicable to the Corps of Engineers.

(c) This regulation is not intended to diminish or otherwise limit the existing law enforcement responsibilities of the State or local law enforcement agencies.

(d) Contract law enforcement personnel shall not be given Federal citation authority for enforcement of regulations contained in title 36 of the Code of Federal Regulations, Chapter III nor shall they be empowered to enforce such regulations. These regulations shall remain the responsibility of the Corps of Engineers.

(e) Contracts for increased law enforcement shall be for those projects or portions of projects that are operated and maintained by the Corps of Engineers. Law enforcement services will not be provided under this program to those outgrant areas operated and maintained by a non-Federal sponsor.

§ 330.6 Criteria.

(a) In order to provide reimbursement for law enforcement services supplied by a State or local law enforcement agency, a contract must be executed and approved in accordance with this regulation prior to the provisions of such services.

(b) The authorized contract law enforcement program extends only to 30 September 1979. Law enforcement services acquired by contract under this program shall be limited to those increased law enforcement services required to meet the needs of the public during peak visitation periods. Accordingly, the contract period shall not extend beyond the dates of 1 April through 30 September inclusive, and in no event shall the contract be written for more than 120 days within that time period. The contract may provide for an option to renew for a similar, additional period not to exceed 120-day period in Fiscal Year 1979. Any exceptions to this criteria must be approved by the Chief of Engineers or his authorized representative.

(c) Contracts shall be consummated only with those public law enforcement agencies legally empowered to enforce State and local criminal and civil laws within their respective political jurisdictions. In light of this requirement and the authority cited in §330.3(c), it is recognized that sole source negotiations may necessarily be utilized in the procurement of these services. In negotiating law enforcement contracts with these agencies the District Engineer must determine the reasonableness of the price for the law enforcement services offered under the contract. Such a determination shall be made prior to execution of the contract, in accordance with the applicable Contract Cost Principles and Procedures as set out in ASPR, section 15, part 7, and as subject to the policies contained in this regulation. Such a determination shall be contained in the official contract file and must accompany any requests for deviations from the Division Engineer or Chief of Engineers as provided for in §330.5(a) of this regulation. Contract law enforcement personnel must meet all the qualifications, including minimal law enforcement training, required by State and local laws and regulations.

(d) The contractor shall provide all personnel, equipment and supplies which are required to provide the increased law enforcement services contracted for by the District Engineer. The Corps of Engineers shall not reimburse the contractor for the purchase of any equipment or supplies desired by the contractor for use under this program. However, the Corps of Engineers shall reimburse the contractor for the reasonable costs incurred by him in the rental or use of such equipment which is allocated to the work performed by him under the contract. Such use shall include:

(1) A depreciation or use allowance for such equipment as determined by the service life evaluation system used by the contractor, and (2) the costs of necessary maintenance, repair, and upkeep of the property which neither adds to the permanent value of the property nor appreciably prolongs its intended life, but keeps it at an efficient operating condition.
Corps of Engineers, Army, DoD

§ 330.6

(e) Reimbursement for law enforcement services shall be considered only for increased law enforcement services to meet needs during peak visitation periods. Each District Engineer shall evaluate and establish a normal law enforcement service standard for each contract situation and include such standard in the plan of operation to be developed in accordance with §330.6(h). Each District Engineer shall evaluate the existing law enforcement services now being provided by State or local law enforcement agencies at those water resources projects or recreation areas where it is anticipated that law enforcement service contracts may be executed, and determine the scope including the type and amount, of law enforcement service which exceeds the normal law enforcement standard, and which will become eligible for reimbursement under the contract. Normally, requests by the District Engineer or his authorized representative for emergency or unanticipated law enforcement assistance will be considered nonreimbursable. Increased law enforcement services, eligible for reimbursement under the terms of the contract, shall be those regularly scheduled patrols or surveillance in excess of the normal law enforcement standard presently being provided by the contractor.

(f) An appropriate orientation program will be given by Corps personnel to all contract law enforcement personnel assigned to Corps projects. The purpose of this orientation will be to familiarize the contract law enforcement personnel with the policies and procedures of the Corps of Engineers, and to familiarize Corps personnel with the functions and duties of the State or local law enforcement agency. The Corps of Engineers shall reimburse the contractor for the cost per man hour as set out in §330.6(h)(4) for attending the orientation program.

(g) The contractor shall be required to keep a record of the services provided to the District under the terms and conditions of the contract in accordance with the criteria established in the plan of operation required in §330.6(h).

(h) The District Engineer, in cooperation with the Contractor, shall prepare a Plan of Operation for the Provision of law enforcement services as an attachment to the contract. The Plan of Operation shall contain, but not necessarily be limited to, the following information:

(1) Identify, by name and location, the project or projects and specific areas (recreation and others) that require law enforcement services.

(2) Describe the normal law enforcement services to be provided by the Contractor without reimbursement by the Government (see §330.6(e)). Identify time of day, number of hours-per-day, number of days-per-week, and the number of patrols.

(3) Describe the increased law enforcement services to be provided by the Contractor under the contract. Identify the time-of-day, number of hours-per-day, number of days-per-week, number of patrols, manpower per patrol, and effective starting and ending dates.

(4) Identify the cost-per-man-hour for the provision of reimbursable law enforcement services, and identify the costs for utilization and operation, maintenance and repair of such equipment as allocated for use under the contract. (See §330.6(d).)

(5) The District Engineer and the Contractor should designate specific individuals to issue or receive requests for reimbursable law enforcement services under the contract.

(6) Describe the billing procedures to be utilized for the increased law enforcement services. The Contractor shall provide, at a minimum, the total charges, the number of hours involved, and starting and ending dates of the billing period.

(7) The Contractor shall prepare a Daily Law Enforcement Log (see §330.6(g) for the law enforcement services rendered as specified in §330.6(h)(3)). These logs shall be compiled by the Contractor and submitted to the District Engineer or his designated representative on a regular basis throughout the life of the contract. It is intended by this reporting requirement to minimize the paperwork burden on behalf of the Contractor while, at the same time, providing assurance to the Government with an adequate information base on
which to administer the law enforcement services being provided under the contract. Any requirement for additional information to be contained in these reports due to unique or special circumstances encountered in negotiating a Plan of Operation with a particular law enforcement jurisdiction must receive the prior approval of the Division Engineer.

§ 330.7 Funding.
(a) Section 330.3(c) sets forth the maximum authorized funds for law enforcement contracting in FY 1978 and FY 1979. The Division funding levels for FY 1978 are based on information as previously submitted.
(b) The FY 1979 funding request for law enforcement contracting will be submitted as part of the FY 1979 budget submittal.

§ 330.8 Annual report.
(RCS-DAEN-CWO-53) The Division Engineer will submit a consolidated annual report to reach HQDA (DAEN-CWO-R) WASH DC 20314 not later than 30 October. This requirement expires 30 October 1979. The report will contain the following:
(a) Districts reporting.
(b) Number assigned each contract.
(c) Name of projects covered under each contract.
(d) Number of man-hours of increased law enforcement services provided under each contract.
(e) Total contract cost.
(f) Cost per man-hour for each contract.
(g) Corps of Engineers administrative or overhead costs associated with each contract.
(h) Number of arrests and type of offense committed, i.e., assault, burglary, auto theft, etc.
(i) The Division Engineers assessment of the effects of the contract law enforcement program and recommendation.

(a) The regulations contained in this part apply to those lands and waters within the established boundary of the Falls of the Ohio National Wildlife Conservation Area (WCA). Included in this boundary, which was published in the FEDERAL REGISTER of August 12, 1982, are publicly and privately owned lands, waters and improvements. The Federal Government, acting through the Corps of Engineers, will acquire such rights to privately-owned properties in the WCA as are necessary to carry out the purposes of title II, Pub. (b) The WCA boundary encompasses an existing hydroelectric generating station and the McAlpine Locks and Dam, operating navigation structures which are part of the authorized Ohio River Navigation System. The continued operation and maintenance of this system take precedence over the purposes of the WCA, except that such operation and maintenance will be consistent with the basic purpose of the WCA as regards prohibition of hunting, vandalism, and dumping of refuse. Management of the WCA to achieve its intended purposes will, to the extent practicable, be accomplished in a manner consistent and compatible with continued generation of electricity and navigation on the Ohio River, including operation and maintenance of the McAlpine Locks and Dam and the Louisville Repair Station and material storage areas located on Shippingport Island.

§ 331.2 Policy.

(a) It is the policy of the Secretary of the Army, acting through the Chief of Engineers, to manage the natural and cultural resources of the WCA in the public interest, providing the public with safe and healthful recreational opportunities while protecting and enhancing these resources.

(b) Unless otherwise indicated herein, the term District Engineer shall include the authorized representatives of the District Engineer.

(c) The WCA shall be available to the public without regard to sex, race, color, creed or national origin. No lessee, licensee or concessionaire providing a service to the public shall discriminate against any person because of sex, race, creed, color, or national origin in the conduct of the operations under the lease, license, or concession contract.

§ 331.4 Fishing.

Unless otherwise authorized in writing by the District Engineer:

Any such destruction, removal, or alteration of public property shall be in accordance with the conditions of any permission granted.

§ 331.7 Sanitation.

(b) The public shall not be charged any fee by the sponsor of such permitted event unless the District Engineer has approved in writing the proposed schedule of fees. The District Engineer shall have authority to revoke permission and require removal of any equipment upon failure of the sponsor to comply with terms and conditions of the permit/permission. All persons designated by the Chief of Engineers, U.S. Army Corps of Engineers, for that purpose shall have the authority to issue a citation for the violation of these regulations, requiring the appearance of any person charged with violation to appear before the U.S. Magistrate within whose jurisdiction the violation occurred.

§ 401.1 Purpose.

This part provides guidance on the execution of the responsibilities given by Congress to the American Battle Monuments Commission (Commission) regarding memorials and monuments commemorating the service of American Armed Forces at locations outside the United States.

§ 401.2 Applicability and scope.

This part applies to all agencies of the United States Government, State and local governments of the United States and all American citizens, and private and public American organizations that have established or plan to establish any permanent memorial commemorating the service of American Armed Forces at a location outside the United States. This chapter does not address temporary monuments, plaques and other elements that deployed American Armed Forces wish to erect at a facility occupied by them outside the United States. Approval of any such temporary monument, plaque or other element is a matter to be determined by the concerned component of the Department of Defense consistent with host nation law and any other constraints applicable to the presence of American Armed Forces at the overseas location.

§ 401.3 Background.

Following World War I many American individuals, organizations and governmental entities sought to create memorials in Europe commemorating the service of American Armed Forces that participated in that war. Frequently such well-intended efforts were undertaken without adequate regard for many issues including host nation approvals, design adequacy, and funding for perpetual maintenance. As a result, in 1923 Congress created the American Battle Monuments Commission to generally oversee all memorials created by Americans or American entities to commemorate the service of American Armed Forces at locations outside the United States.

§ 401.4 Responsibility.

The Commission is responsible for building and maintaining appropriate memorials commemorating the service of American Armed Forces at any place outside the United States where Armed Forces have served since April 6, 1917.

§ 401.5 Control and supervision of materials, design, and building.

The Commission controls the design and prescribes regulations for the building of all memorial monuments and buildings commemorating the service of American Armed Forces that are built in a foreign country or political division of the foreign country that authorizes the Commission to carry out those duties and powers.
§ 401.6 Approval by National Commission of Fine Arts.

A design for a memorial to be constructed at the expense of the United States Government must be approved by the National Commission of Fine Arts before the Commission can accept it.

§ 401.7 Cooperation with other than Government entities.

The Commission has the discretion to cooperate with citizens of the United States, States, municipalities, or associations desiring to build war memorials outside the United States.

§ 401.8 Requirement for Commission approval.

No administrative agency of the United States Government may give assistance to build a memorial unless the plan for the memorial has been approved by the Commission. In deciding whether to approve a memorial request the Commission will apply the criteria set forth in §401.9.

§ 401.9 Evaluation criteria.

Commission consideration of a request to approve a memorial will include, but not be limited to, evaluation of the following criteria:

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Discussion</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) How long has it been since the events to be honored took place?</td>
<td></td>
</tr>
<tr>
<td>(b) How will the perpetual maintenance of the memorial be funded?</td>
<td></td>
</tr>
<tr>
<td>(c) Has the host nation consented?</td>
<td></td>
</tr>
<tr>
<td>(d) Is the proposed memorial intended to honor an individual or small unit?</td>
<td></td>
</tr>
<tr>
<td>(e) Is the proposed memorial intended to honor an organizational element of the American Armed Forces rather than soldiers from a geographical area of the United States?</td>
<td></td>
</tr>
<tr>
<td>(f) Is the memorial historically accurate?</td>
<td></td>
</tr>
<tr>
<td>(g) Is the proposed memorial intended to honor an organizational element of the American Armed Forces rather than soldiers from a geographical area of the United States?</td>
<td></td>
</tr>
<tr>
<td>(h) Does the contribution of the element to be honored warrant a separate memorial?</td>
<td></td>
</tr>
</tbody>
</table>

Requests made during or immediately after an event are not generally subject to approval. The Commission will not approve a memorial until at least 10 years after the officially designated end of the event. It should be noted that this is the same period of time made applicable to the establishment of memorials in the District of Columbia and its environs by the Commemorative Works Act. Available adequate funding or other specific arrangements addressing perpetual care are a prerequisite to any approval. Host nation approval is required. In many circumstances a memorial located within the United States will be more appropriate. Memorials to elements smaller than a division or comparable unit or to an individual will not be approved unless the services of such unit or individual clearly were of such distinguished character as to warrant a separate memorial. Representations should be supported by objective authorities. As a general rule, memorials should be erected to organizations rather than to troops from a particular locality of the United States. The commemoration should normally be through a memorial that would have the affect of honoring all of the American Armed Forces personnel who participated rather than a select segment of the organizational participants.

§ 401.10 Monument Trust Fund Program.

Pursuant to the provisions of 36 U.S.C. 2106(d), the Commission operates a Monument Trust Fund Program (MTFP) in countries where there is a Commission presence. Under the MTFP, the Commission may assume both the sponsor’s legal interests in the monument and responsibility for its maintenance. To be accepted in the Monument Trust Fund Program, an organization must develop an acceptable maintenance plan and transfer sufficient monies to the Commission to fully fund the maintenance plan for at least 30 years. The Commission will put this money into a trust fund of United States Treasury instruments that earn interest. Prior to acceptance into the MTFP, the sponsor must perform any deferred maintenance necessary to bring the monument up to a mutually agreeable standard. At that time, the Commission may assume the sponsoring organization’s interest in the property and responsibility for all maintenance and other decisions concerning the monument. Once accepted into the program, the Commission will provide for all necessary maintenance of the monument and charge the cost to the trust fund. The sponsoring organization or others interested in the monument may add to the trust fund at any time to insure that adequate funds remain available to The Commission will maintain the monument...
for as long a period as the trust fund account permits.

§ 401.11 Demolition criteria.

As authorized by the provisions of 36 U.S.C. 2106(e), the Commission may take necessary action to demolish any war memorial built outside the United States by a citizen of the United States, a State, a political subdivision of a State, a governmental authority (except a department, agency, or instrumentality of the United States Government), a foreign agency, or a private association and to dispose of the site of the memorial in a way the Commission decides is proper, if—

(a) The appropriate foreign authorities agree to the demolition; and

(b) (1) The sponsor of the memorial consents to the demolition; or

(2) The memorial has fallen into disrepair and a reasonable effort by the Commission has failed—

(i) To persuade the sponsor to maintain the memorial at a standard acceptable to the Commission; or

(ii) To locate the sponsor.

§ 404.1 General.

This information is furnished for the guidance of the public and in compliance with the requirements of section 552 of Title 5, United States Code, as amended.

§ 404.2 Authority and functions.

The general functions of the American Battle Monuments Commission, as provided by statute, 36 U.S.C. Section 2101, et seq., are to build and maintain suitable memorials commemorating the service of American Armed Forces and to maintain permanent American military cemeteries in foreign countries.

§ 404.3 Organization.

(a) The brief description of the central organization of the American Battle Monuments Commission follows:

(1) The Commission is composed of not more than 11 members appointed by the President.

(2) The day to day operation of the Commission is under the direction of a Secretary appointed by the President.

(3) Principal Officials include the Executive Director, Director of Finance, Director of Procurement and Contracting, Director of Engineering, Maintenance, and Operations and Director of Personnel and Administration.

(4) The Commission also creates temporary offices when tasked with major additional responsibilities not of a permanent nature.

(b) Locations. (1) The principal offices of the American Battle Monuments Commission are located at Courthouse Plaza II, Suite 500, 2300 Clarendon Boulevard, Arlington, VA 22201. Persons desiring to visit offices or employees of the American Battle Monuments Commission should write or telephone ahead (703–696–6897 or 703–696–6895) to make an appointment.

(2) Field offices are located in Paris, France; Rome, Italy; Manila, Republic of the Philippines; the Republic of Panama; and Mexico City, Mexico.

§ 404.4 Access to information.

(b) The ABMC FOIA Officer is responsible for acting on all initial requests. Individuals wishing to file a request under the Freedom of Information Act
(FOIA) should address their request in writing to the FOIA Officer, American Battle Monuments Commission, Courthouse Plaza II, Suite 500, 2300 Clarendon Boulevard, Arlington, VA 22201 (telephone 703–696–6897 or 703–696–6895). Requests for information shall be as specific as possible.

(c) Upon receipt of any request for information or records, the FOIA Officer will determine within 20 days (excluding Saturdays, Sundays and legal public holidays) after the receipt of such request whether it is appropriate to grant the request and will immediately provide written notification to the person making the request. If the request is denied, the written notification to the person making the request shall include the names of the individuals who participated in the determination, the reasons for the denial, and a notice that an appeal may be lodged within the American Battle Monuments Commission. (Receipt of a request as used herein means the date the request is received in the office of the FOIA Officer.)

(d) Expedited processing. (1) Requests and appeals will be taken out of order and given expedited treatment whenever it is determined that they involve:

(i) Circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual;

(ii) An urgency to inform the public about an actual or alleged federal government activity, if made by a person primarily engaged in disseminating information;

(iii) The loss of substantial due process rights; or

(iv) A matter of widespread and exceptional media interest in which there exist possible questions about the government’s integrity which effect public confidence.

(2) A request for expedited processing may be made at the time of the initial request for records or at any later time.

(3) A requester who seeks expedited processing must submit a statement, certified to be true and correct to the best of that person’s knowledge and belief, explaining in detail the basis for requesting expedited processing. For example, a requester within the category described in paragraph (d)(1)(ii) of this section, if not a full-time member of the news media, must establish that he or she is a person whose main professional activity or occupation is information dissemination, though it need not be his or her sole occupation. A requester within the category (d)(1)(ii) of this section also must establish a particular urgency to inform the public about the government activity involved in the request, beyond the public’s right to know about government activity generally. The formality of certification may be waived as a matter of administrative discretion.

(4) Within 10 days of its receipt of a request for expedited processing, ABMC will decide whether to grant it and will notify the requester of the decision. If a request for expedited treatment is granted, the request will be given priority and will be processed as soon as practicable. If a request for expedited processing is denied, any appeal of that decision will be acted on expeditiously.

(e) Appeals shall be set forth in writing within 30 days of receipt of a denial and addressed to the FOIA Officer at the address specified in paragraph (b) of this section. The appeal shall include a statement explaining the basis for the appeal. Determinations of appeals will be set forth in writing and signed by the Executive Director, or his designee, within 20 days (excluding Saturdays, Sundays, and legal public holidays). If, on appeal, the denial is in whole or in part upheld, the written determination will also contain a notification of the provisions for judicial review and the names of the persons who participated in the determination.

(f) In unusual circumstances, the time limits prescribed in paragraphs (c) and (e) of this section may be extended for not more than 10 days (excluding Saturdays, Sundays, or legal public holidays). Extensions may be granted by the FOIA Officer. The extension period may be split between the initial request and the appeal but in no instance may the total period exceed 10 working days. Extensions will be by written notice to the persons making the request and will set forth the reasons for the extension and the date the determination is expected.
§ 404.6 Definitions.

For the purpose of these regulations:

(a) All the terms defined in the Freedom of Information Act apply.

(b) A statute specifically providing for setting the level of fees for particular types of records (5 U.S.C. 552(a)(4)(A)(vi)) means any statute that specifically requires a government agency, such as the Government Printing Office (GPO) or the National Technical Information Service (NTIS), to set the level of fees for particular types of records, in order to:

(1) Serve both the general public and private sector organizations by conveniently making available government information;

(2) Ensure that groups and individuals pay the cost of publications and other services that are for their special use so that these costs are not borne by the general taxpaying public;

(3) Operate an information dissemination activity on a self-sustaining basis to the maximum extent possible; or

(4) Return revenue to the Treasury for defraying, wholly or in part, appropriated funds used to pay the cost of disseminating government information. Statutes, such as the User Fee Statute, which only provide a general discussion of fees without explicitly requiring that an agency set and collect fees for particular documents do not supersede the Freedom of Information Act under section (a)(4)(A)(vi) of that statute.
(c) The term direct costs means those expenditures that ABMC actually incurs in searching for and duplicating (and in the case of commercial requesters, reviewing) documents to respond to a FOIA request. Direct costs include, for example, the salary of the employee performing work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits) and the cost of operating duplicating machinery. Not included in direct costs are overhead expenses such as costs of space, and heating or lighting the facility in which the records are stored.

(d) The term search means the process of looking for and retrieving records or information responsive to a request. It includes page-by-page or line-by-line identification of information within records and also includes reasonable efforts to locate and retrieve information from records maintained in electronic form or format. ABMC employees should ensure that searching for material is done in the most efficient and least expensive manner so as to minimize costs for both the agency and the requester. For example, employees should not engage in line-by-line search when merely duplicating an entire document would prove the less expensive and quicker method of complying with a request. Search should be distinguished, moreover, from review of material in order to determine whether the material is exempt from disclosure (see paragraph (f) of this section).

(e) The term duplication means the making of a copy of a document, or of the information contained in it, necessary to respond to a FOIA request. Such copies can take the form of paper, microform, audio-visual materials, or electronic records (e.g., magnetic tape or disk), among others. The requester’s specified preference of form or format of disclosure will be honored if the record is readily reproducible in that format.

(f) The term review refers to the process of examining documents located in response to a request that is for a commercial use (see paragraph (g) of this section) to determine whether any portion of any document located is permitted to be withheld. It also includes processing any documents for disclosure, e.g., doing all that is necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(g) The term commercial use request refers to a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, ABMC must determine the use to which a requester will put the documents requested. Moreover, where an ABMC employee has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, the employee should seek additional clarification before assigning the request to a specific category.

(h) The term educational institution refers to a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, or an institution of vocational education, that operates a program or programs of scholarly research.

(i) The term non-commercial scientific institution refers to an institution that is not operated on a commercial basis (as that term is referenced in paragraph (g) of this section), and that is operated solely for the purpose of conducting scientific research the results of which are not intended to promote any particular product or industry.

(j) The term representative of the news media refers to any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term news means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of news) who make their products available for purchase or subscription.
American Battle Monuments Commission  § 404.7

by the general public. These examples are not intended to be all-inclusive. Moreover, as traditional methods of news delivery evolve (e.g., electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of freelance journalists, they may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it. A publication contract would be the clearest proof, but ABMC may also look to the past publication record of a requester in making this determination.

§ 404.7 Fees to be charged—general.

ABMC shall charge fees that recoup the full allowable direct costs it incurs. Moreover, it shall use the most efficient and least costly methods to comply with requests for documents made under the FOIA. When documents that would be responsive to a request are maintained for distribution by agencies operating statutory-based fee schedule programs (see definition in § 404.6(b)), such as the NTIS, ABMC should inform requesters of the steps necessary to obtain records from those sources.

(a) Manual searches for records. ABMC will charge at the salary rate(s) (i.e., basic pay plus 16 percent) of the employee(s) making the search.

(b) Computer searches for records. ABMC will charge at the actual direct cost of providing the service. This will include the cost of operating the central processing unit (CPU) for that portion of operating time that is directly attributable to searching for records responsive to a FOIA request and operator/programmer salary apportionable to the search.

(c) Review of records. Only requesters who are seeking documents for commercial use may be charged for time spent reviewing records to determine whether they are exempt from mandatory disclosure. Charges may be assessed only for the initial review; i.e., the review undertaken the first time ABMC analyzes the applicability of a specific exemption to a particular record or portion of a record. Records or portions of records withheld in full under an exemption that is subsequently determined not to apply may be reviewed again to determine the applicability of other exemptions not previously considered. The costs for such a subsequent review is assessable.

(d) Duplication of records. Records will be duplicated at a rate of $.15 per page. For copies prepared by computer, such as tapes or printouts, ABMC shall charge the actual cost, including operator time, of production of the tape or printout. For other methods of reproduction or duplication, ABMC will charge the actual direct costs of producing the document(s). If ABMC estimates that duplication charges are likely to exceed $25, it shall notify the requester of the estimated amount of fees, unless the requester has indicated in advance his willingness to pay fees as high as those anticipated. Such a notice shall offer a requester the opportunity to confer with agency personnel with the object of reformulating the request to meet his or her needs at a lower cost.

(e) Other charges. When it elects to charge them, ABMC will recover the full costs of providing services such as:

1. Certifying that records are true copies;
2. Sending records by special methods such as express mail;
3. Eight by ten inch black and white photographs—$3.75
4. Eight by ten inch color photographs—$5.00
5. $1.50 per publication

(f) Remittances shall be in the form either of a personal check or bank draft drawn on a bank in the United States, or a postal money order. Remittances shall be made payable to the order of the Treasury of the United States and mailed to the FOIA Officer, American Battle Monuments Commission, Courthouse Plaza II, Suite 500, 2300 Clarendon Blvd., Arlington, Virginia 22201

(g) A receipt for fees paid will be given upon request. Refund of fees paid for services actually rendered will not be made.

(h) Restrictions on assessing fees. With the exception of requesters seeking documents for a commercial use,
§ 404.8 Fees to be charged—categories of requesters.

There are four categories of FOIA requesters: commercial use requesters; educational and noncommercial scientific institutions; representatives of the news media; and all other requesters. The specific levels of fees for each of these categories:

(a) Commercial use requesters. When ABMC receives a request for documents for commercial use, it will assess charges that recover the full direct costs of searching for, reviewing for release, and duplicating the record sought. Requesters must reasonably describe the records sought. Commercial use requesters are not entitled to 2 hours of free search time nor 100 free pages of reproduction of documents. ABMC may recover the cost of searching for and reviewing records even if there is ultimately no disclosure of records (see paragraph (b) of this section).

(b) Educational and noncommercial scientific institution requesters. ABMC shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, requesters must show that the request is being made as authorized by and under the auspices of a qualifying institution and that the records are not sought for a commercial use, but are sought in furtherance of scholarly (if the request is from an educational institution) or scientific (if the request is from a non-commercial scientific institution) research. Requesters must reasonably describe the records sought.

(c) Requesters who are representatives of the news media. ABMC shall provide documents to requesters in this category when serving the news dissemination function for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, a requester must meet the criteria in § 404.4(j), and his or her request must not be made for a commercial use. In reference to this class of requester, a request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for a commercial use. Requesters must reasonably describe the records sought.

(d) All other requesters. ABMC shall charge requesters who do not fit into any of the categories above fees that recover the full reasonable direct cost of searching for and reproducing records that are responsive to the request, except that the first 100 pages of reproduction and the first 2 hours of search time shall be furnished without charge. Moreover, requests for records about the requesters filed in ABMC’s systems of records will continue to be treated under the fee provisions of the Privacy Act of 1974 which permit fees only for reproduction. Requesters must reasonably describe the records sought.
§ 404.9 Miscellaneous fee provisions.

(a) Charging interest—notice and rate. ABMC may begin assessing interest charges on an unpaid bill starting on the 31st day following the day on which the billing was sent. The fact that the fee has been received by ABMC within the 30-day grace period, even if not processed, will suffice to stay the accrual of interest. Interest will be at the rate prescribed in section 3717 of Title 31 of the United States Code and will accrue from the date of the billing.

(b) Charges for unsuccessful search. ABMC may assess charges for time spent searching, even if it fails to locate the records or if records located are determined to be exempt from disclosure. If ABMC estimates that search charges are likely to exceed $25, it shall notify the requester of the estimated amount of fees, unless the requester has indicated in advance his willingness to pay fees as high as those anticipated. Such a notice shall offer the requester the opportunity to confer with agency personnel with the object of reformulating the request to meet his or her needs at a lower cost.

(c) Aggregating requests. A requester may not file multiple requests at the same time, each seeking portions of a document or documents, solely in order to avoid payment of fees. When ABMC reasonably believes that a requester, or a group of requestors acting in concert, has submitted requests that constitute a single request, involving clearly related matters, ABMC may aggregate those requests and charge accordingly. One element to be considered in determining whether a belief would be reasonable is the time period over which the requests have occurred.

(d) Advance payments. ABMC may not require a requester to make an advance payment, i.e., payment before work is commenced or continued on a request, unless:

(1) ABMC estimates or determines that allowable charges that a requester may be required to pay are likely to exceed $250. Then, ABMC will notify the requester of the likely cost and obtain satisfactory assurance of full payment where the requester has a history of prompt payment of FOIA fees, or require an advance payment of an amount up to the full estimated charges in the case of requesters with no history of payment; or

(2) A requester has previously failed to pay a fee charged in a timely fashion (i.e., within 30 days of the date of the billing). Then, ABMC may require the requester to pay the full amount owed plus any applicable interest as provided above or demonstrate that he or she has, in fact, paid the fee, and to make an advance payment of the full amount of the estimated fee before the agency begins to process a new request or a pending request from that requester.

(3) When ABMC acts under paragraph (d)(1) or (2) of this section, the administrative time limits prescribed in the FOIA, 5 U.S.C. 552(a)(6) (i.e., 20 working days from receipt of initial requests and 20 working days from receipt of appeals from initial denial, plus permissible extensions of these time limits), will begin only after ABMC has received fee payments described in paragraphs (d)(1) and (2) of this section. Effect of the Debt Collection Act of 1982 (Pub. L. 97–365). ABMC should comply with provisions of the Debt Collection Act, including disclosure to consumer reporting agencies and use of collection agencies, where appropriate, to encourage repayment.

§ 404.10 Waiver or reduction of charges.

Fees otherwise chargeable in connection with a request for disclosure of a record shall be waived or reduced where it is determined that disclosure is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the Government and is not primarily in the commercial interest of the requester.

§ 406.130 General prohibitions against discrimination.

(a) No qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

(b)(1) The agency, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of handicap—

(ii) Afford a qualified handicapped person an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provide a qualified handicapped person with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement as that provided to others;

(iv) Provide different or separate aid, benefits, or services to handicapped persons or to any class of handicapped persons than is provided to others unless such action is necessary to provide qualified handicapped persons with aid, benefits, or services that are as effective as those provided to others;

(v) Deny a qualified handicapped person the opportunity to participate as a member of planning or advisory boards; or

(vi) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.

(2) The agency may not deny a qualified handicapped person the opportunity to participate in programs or activities that are not separate or different, despite the existence of possibly separate or different programs or activities.

(3) The agency may not, directly or through contractual or other arrangements, utilize criteria or methods of administration the purpose or effect of which would—

(i) Subject qualified handicapped persons to discrimination on the basis of handicap; or

(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to handicapped persons.

(4) The agency may not, in determining the site or location of a facility, make selections the purpose or effect of which would—

(i) Exclude handicapped persons from, deny them the benefits of, or otherwise subject them to discrimination under any program or activity conducted by the agency; or

(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to handicapped persons.

(5) The agency, in the selection of procurement contractors, may not use criteria that subject qualified handicapped persons to discrimination on the basis of handicap.

(c) The exclusion of nonhandicapped persons from the benefits of a program limited by Federal statute or Executive order to handicapped persons or the exclusion of a specific class of handicapped persons from a program limited by Federal statute or Executive order to a different class of handicapped persons is not prohibited by this part.

(d) The agency shall administer programs and activities in the most integrated setting appropriate to the needs of qualified handicapped persons.

§§ 406.131–406.139 [Reserved]

§ 406.140 Employment.

No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the agency. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally conducted programs or activities.

§§ 406.141–406.148 [Reserved]

§ 406.149 Program accessibility: Discrimination prohibited.

Except as otherwise provided in §406.150, no qualified handicapped person shall, because the agency’s facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

§ 406.150 Program accessibility: Existing facilities.

(a) General. The agency shall operate each program or activity so that the
program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not—

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons; or

(2) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §406.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

(b) Methods. The agency may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by handicapped persons. The agency is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified handicapped persons in the most integrated setting appropriate.

(c) Time period for compliance. The agency shall comply with the obligations established under this section by June 6, 1986, except that where structural changes in facilities are undertaken, such changes shall be made by April 7, 1989, but in any event as expeditiously as possible.

(d) Transition plan. In the event that structural changes to facilities will be undertaken to achieve program accessibility, the agency shall develop, by October 7, 1986, a transition plan setting forth the steps necessary to complete such changes. The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(1) Identify physical obstacles in the agency’s facilities that limit the accessibility of its programs or activities to handicapped persons;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and

(4) Indicate the official responsible for implementation of the plan.

shall be designed, constructed, or altered so as to be readily accessible to and usable by handicapped persons. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151–4157), as established in 41 CFR 101–18.600 to 101–18.607, apply to buildings covered by this section.

§§ 406.152–406.159 [Reserved]

§ 406.160 Communications.

(a) The agency shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The agency shall furnish appropriate auxiliary aids where necessary to afford a handicapped person an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the agency.

(i) In determining what type of auxiliary aid is necessary, the agency shall give primary consideration to the requests of the handicapped person.

(ii) The agency need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature.

(2) Where the agency communicates with applicants and beneficiaries by telephone, telecommunication devices for deaf persons (TDD’s) or equally effective telecommunication systems shall be used.

(b) The agency shall ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.

(c) The agency shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with § 406.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.

§§ 406.161–406.169 [Reserved]

§ 406.170 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs or activities conducted by the agency.

(b) The agency shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) The Director, Personnel and Administration shall be responsible for coordinating implementation of this section. Complaints may be sent to the Director, Personnel and Administration, American Battle Monuments Commission, Room 5127, Pulaski Building, 20 Massachusetts Ave., NW., Washington, DC 20001.

(d) The agency shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The agency may extend this time period for good cause.
(e) If the agency receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) The agency shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), or section 502 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 792), is not readily accessible to and usable by handicapped persons.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the agency shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;
(2) A description of a remedy for each violation found;
(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by §406.170(g). The agency may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the head of the agency.

(j) The head of the agency shall notify the complainant of the results of the appeal within 60 days of the receipt of the request. If the head of the agency determines that additional information is needed from the complainant, he or she shall have 60 days from the date of receipt of the additional information to make his or her determination on the appeal.

(k) The time limits cited in paragraphs (g) and (j) of this section may be extended with the permission of the Assistant Attorney General.

(l) The agency may delegate its authority for conducting complaint investigations to other Federal agencies, except that the authority for making the final determination may not be delegated to another agency.

(a) Drivers of all vehicles in or on the premises shall drive in a careful and safe manner at all times and shall comply with the signals and directions of the guards and all posted traffic signs.
(b) The blocking of entrances, driveways, walks, loading platforms, or fire hydrants in or on property is prohibited. Parking without authority, or parking in unauthorized locations or in locations reserved for other persons or contrary to the direction of posted signs, is prohibited. This paragraph may be supplemented from time to time by the issuance and posting of such additional traffic and parking directives as may be required, and such directives shall have the same force and effect as if made a part thereof.

§ 504.14 Weapons and explosives.

No person while on the premises shall carry firearms, other dangerous or deadly weapons, or explosives, either openly or concealed, except for official purposes.

§ 504.15 Nondiscrimination.

There shall be no discrimination by segregation or otherwise against any person or persons because of race, religion, color, or national origin in furnishing or by refusing to furnish to such person or persons the use of any facility of a public nature, including all services, privileges, accommodations, and activities provided thereby on the premises.

§ 504.16 Penalties.

§ 701.1 Information about the Library.
(a) Information about the Library. It is the Library’s policy to furnish freely information about the Library to the media. All requests from the media, for other than generally published information and Library records, should be referred to the Public Affairs Office. For information about access to, service of, and employment with the Library of Congress, go to http://www.loc.gov.
(b) Public Affairs Office. The Public Affairs Office shall have the principal responsibility for responding to requests for information about the Library from representatives of the media; giving advice to Library officers and staff members on public-relations and public-information matters; keeping the Librarian and other officers informed of important developments in this field; and promoting the resources and activities of the Library.
(1) During regular office hours (8:30 a.m. to 5 p.m.) telephone operators shall refer requests for information, from the media only, about the Library to the Public Affairs Office. All other requests for information shall be referred to the National Reference Service or other appropriate offices of the Library.
(2) All other Library offices and staff members who receive inquiries directly from representatives of the media, other than generally published information, shall refer such inquiries to the Public Affairs Office.
(3) The Public Affairs Office shall respond directly to inquiries concerning the Library, calling upon other offices to supply information to it as necessary, or shall arrange for other offices or staff members, as appropriate, to supply such information directly and report back to Public Affairs after the contact has been made. Requests for Library of Congress records, however, shall be made in accordance with 36 CFR part 703.
(4) When the Public Affairs Office is closed (evenings, Saturdays, Sundays, and holidays), requests from the media for information about the Library shall be referred to the Public Affairs Officer at his/her home. In the event that person is not available, inquiries shall be referred to the Acting Public Affairs Officer, or, in turn, a designated public affairs specialist.
(c) Other Library Units and Staff Members. All Other Library Units and Staff Members shall be responsible for keeping the Public Affairs Office fully and promptly informed of contacts with the press, except in those instances of routine reference inquiries; supplying the Public Affairs Office with any data it requires in order to respond to inquiries from representatives of the media; and reporting promptly to the Public Affairs Office substantive contacts with media representatives about the Library and its policies or activities.

§ 701.2 Acquisition of Library material by non-purchase means.
(a) Gifts. It is the policy of the Library of Congress to foster the enrichment of its collections through gifts of materials within the terms of the Library’s acquisitions policies. In implementing this policy, division chiefs and other authorized officers of the Library may undertake, as representatives of the Library, preliminary negotiations for gifts to the Library. However, responsibility for formal acceptance of gifts of material and for approval of conditions of such gifts rests with The Librarian of Congress or his designee. The Chief, African/Asian Acquisitions and Overseas Operations Division, Chief, Anglo-American Acquisitions Division, and Chief, European and
Latin American Acquisitions Division are responsible for routine gifts in the geographic areas covered by their divisions.

(b) Deposits. (1) The Anglo-American Acquisitions Division is the only division in the Library authorized to make technical arrangements, formally negotiate for the transportation of materials and conditions of use at the Library, and prepare written Agreements of Deposit to formalize these negotiations. The term “deposit” is used to mean materials which are placed in the custody of the Library for general use on its premises, but which remain the property of their owners during the time of deposit and until such time as title in them may pass to the Library of Congress. A deposit becomes the permanent property of the Library when title to it is conveyed by gift or bequest. A deposit may be withdrawn by the owner rather than conveyed to the Library. A deposit shall be accompanied by a signed Agreement of Deposit.

(2) It is the policy of the Library of Congress to accept certain individual items or special collections as deposits when: permanent acquisition of such materials cannot be effected immediately; the depositors give reasonable assurance of their intention to donate the materials deposited to the United States of America for the benefit of the Library of Congress; the Library of Congress determines that such ultimate transfer of title will enrich its collections; and the depositors agree that the materials so deposited may be available for unrestricted use or use in the Library under reasonable restrictions.

(c) Conditional Gifts of Material to the Library. In cases where donors wish to attach conditions of use, negotiating officers cannot commit the Library to acceptance of such conditions. The Librarian of Congress or designee will consult the appropriate division and service unit officers and the General Counsel to ascertain whether the conditions are generally acceptable.

§ 701.3 Methods of disposition of surplus and/or duplicate materials.

(a) Exchange. All libraries may make selections on an exchange basis from the materials available in the “Exchange/Transfer” category. The policy governing these selections is that exchange be made only when materials of approximately equal value are expected to be furnished in return within a reasonable period. Dealers also may negotiate exchanges of this type for items selected from available exchange materials, but surplus copyright deposit copies of works published after 1977 shall not knowingly be exchanged with dealers. Offers of exchange submitted by libraries shall be submitted to the Chief of the African/Asian Acquisitions and Overseas Operations Division, Anglo-American Acquisitions Division, or European/Latin American Acquisitions Division, or their designees, as appropriate, who shall establish the value of the material concerned. Offers from dealers shall be referred to the Chief of the Anglo-American Acquisitions Division. Exchange offers involving materials valued at $1,000 or more must be approved by the Acquisitions Division Chief; offers of $10,000 or more must be approved by the Director for Acquisitions and Support Services; and offers of $50,000 or more must be approved by the Associate Librarian for Library Services. The Library also explicitly reserves the right to suspend, for any period of time it deems appropriate, the selection privileges of any book dealer who fails to comply fully with any rules prescribed for the disposal of library materials under this section or any other pertinent regulations or statutes.

(b) Transfer of materials to Government Agencies. Library materials no longer needed by the Library of Congress, including the exchange use mentioned above, shall be available for transfer to Federal agency libraries or to the District of Columbia Public Library, upon the request of appropriate officers of such entities, and may be selected from both the “Exchange/Transfer” and “Donation” categories. Existing arrangements for the transfer of materials, such as the automatic transfer of certain classes of books, etc., to specified Government libraries, shall be continued unless modified by the Library.

(c) Donations of Library materials to educational institutions, public bodies, and nonprofit tax-exempt organizations in
the United States. It is the Library’s policy, in keeping with the Federal Property and Administrative Services Act of 1949, 40 U.S.C. 471 et seq., which does not cover the Library of Congress, to use materials no longer needed for any of the purposes mentioned above to strengthen the educational resources of the Nation by enriching the book collections of educational institutions (full-time, tax-supported or nonprofit schools, school systems, colleges, universities, museums, and public libraries), public bodies (agencies of local, State, or Federal Government), and nonprofit tax-exempt organizations (section 501 of the Internal Revenue Code of 1954, 26 U.S.C. 501, by authorizing the Anglo-American Acquisitions Division to donate to such groups in the United States any materials selected by their representatives. Eligibility to participate in the donation program shall be limited as defined by procedures established by the Anglo-American Acquisitions Division.

(d) Disposition of residue. Library materials not needed for the collections of the Library, for its exchange and transfer programs, for sale, or for donation, and which, in the opinion of the Chief, Anglo-American Acquisitions Division, have no commercial value, may be turned over to the General Services Administration (GSA) to be disposed of in accordance with standard Government practice.

§ 701.4 Contracting Officers.

While the Librarian of Congress may sign any agreement, certain other offices of the Library have been delegated authority to contract for materials and services on behalf of the Library of Congress. Contact the Office of the General Counsel of the Library at 202-707-6316 for information on specific delegations.

§ 701.5 Policy on authorized use of the Library name, seal, or logo.

(a) Purpose. The purpose of this part is three-fold:

(1) To assure that the Library of Congress is properly and appropriately identified and credited as a source of materials in publications,

(2) To assure that the name or logo of the Library of Congress, or any unit thereof, is used only with the prior approval of the Librarian of Congress or his designee; and

(3) To assure that the seal of the Library of Congress is used only on official documents or publications of the Library.

(b) Definitions. (1) For the purposes of this part, publication means any tangible expression of words or thoughts in any form or format, including print, sound recording, television, optical disc, software, online delivery, or other technology now known or hereinafter created. It includes the whole range of tangible products from simple signs, posters, pamphlets, and brochures to books, television productions, and movies.

(2) Internal Library publication means a publication over which any unit of the Library has complete or substantial control or responsibility.

(3) Cooperative publications are those in which the Library is a partner with the publisher by terms of a cooperative publishing agreement.

(4) Commercial publications are those known or likely to involve subsequent mass distribution, whether by a for-profit or not-for-profit organization or individual, which involve a cooperative agreement. A commercial publication can also include a significant number of LC references and is also approved by the LC office that entered into a formal agreement. Noncommercial publications are those which are produced by non-commercial entities.

(5) Internet sites are those on-line entities, both commercial and non-commercial, that have links to the Library’s site.

(6) Library logo refers to any official symbol of the Library or any entity thereof and includes any design officially approved by the Librarian of Congress for use by Library officials.

(7) Seal refers to any statutorily recognized seal.

(c) Credit and recognition policy. (1) The name “Library of Congress,” or any abbreviation or subset such as “Copyright Office” or “Congressional Research Service,” thereof, is used officially to represent the Library of Congress and its programs, projects, functions, activities, or elements thereof,
The use of the Library’s name, explicitly or implicitly to endorse a product or service, or materials in any publication is prohibited, except as provided for in this part.

(2) The Library of Congress seal symbolizes the Library’s authority and standing as an official agency of the U.S. Government. As such, it shall be displayed only on official documents or publications of the Library. The seal of the Library of Congress Trust Fund Board shall be affixed to documents of that body as prescribed by the Librarian of Congress. The seal of the National Film Preservation Board shall be affixed to documents of that body as prescribed by the Librarian of Congress. Procedures governing the use of any Library of Congress logo or symbol are set out below. Any person or organization that uses the Library Seal or the Seal of the Library of Congress Trust Fund Board in a manner other than as authorized by the provisions of this section shall be subject to the criminal provisions of 18 U.S.C. 1017.

(3) Questions regarding the appropriateness of the use of any Library logos or symbols, or the use of the Library’s name, shall be referred to the Public Affairs Officer.

(4) Cooperative Ventures. (i) Individual, commercial enterprises or non-commercial entities with whom the Library has a cooperative agreement to engage in cooperative efforts shall be instructed regarding Library policy on credit, recognition, and endorsement by the officer or manager with whom they are dealing.

(ii) Ordinarily, the Library logo should appear in an appropriate and suitable location on all cooperative publications. The Library requires that a credit line accompany reproductions of images from its collections and reflect the nature of the relationship such as “published in association with * * *.”

(iii) The size, location, and other attributes of the logo and credit line should be positioned in such a way that they do not imply Library endorsement of the publication unless such endorsement is expressly intended by the Library, as would be the case in cooperative activities. Use of the Library name or logo in any context suggesting an explicit or implicit endorsement may be approved in only those instances where the Library has sufficient control over the publication to make changes necessary to reflect Library expertise.

(iv) Library officers working on cooperative projects shall notify all collaborators of Library policy in writing if the collaboration is arranged through an exchange of correspondence. All uses of the Library of Congress’s name, seal or logo on promotional materials must be approved by the Public Affairs Officer, in consultation with the Office of the General Counsel, in advance. A statement of Library policy shall be incorporated into the agreement if the terms of the collaboration are embodied in any written instrument, such as a contract or letter of understanding. The statement could read as follows:

Name of partner recognizes the great value, prestige and goodwill associated with the name, “Library of Congress” and any logo pertaining thereto. Name of partner agrees not to knowingly harm, misuse, or bring into disrepute the name or logo of the Library of Congress, and further to assist the Library, as it may reasonably request, in preserving all rights, integrity and dignity associated with its name. Subject to the Library’s prior written approval over all aspects of the use and presentation of the Library’s name and logo, the Name of Partner may use the name of the Library of Congress in connection with publication, distribution, packaging, advertising, publicity and promotion of the * * * produced as a result of this Agreement. The Library will have fifteen (15) business days from receipt of Name of part- ner’s written request to approve or deny with comment such requests for use of its name or logo.

(d) Noncommercial Users. Library officers assisting individuals who are non-commercial users of Library resources shall encourage them to extend the customary professional courtesy of acknowledging their sources in publications, including films, television, and radio, and to use approved credit lines.

(1) Each product acquired for resale by the Library that involves new labeling or packaging shall bear a Library logo and shall contain information describing the relevance of the item to the Library or its collections. Items not involving new packaging shall be accompanied by a printed description
of the Library and its mission, with Library logo, as well as the rationale for operating a gift shop program in a statement such as, "Proceeds from gift shop sales are used to support the Library collections and to further the Library's educational mission."

(2) Electronic Users. Links to other sites from the Library of Congress's site should adhere to the Appropriate Use Policy for External Linking in the Internet Policies and Procedures Handbook. Requests for such linkage must be submitted to the Public Affairs Office for review and approval.

(3) Office Systems Services shall make available copies of the Library seal or logo in a variety of sizes and formats, including digital versions, if use has been approved by the Public Affairs Officer, in consultation with the Office of General Counsel.

(4) Each service unit head shall be responsible for devising the most appropriate way to carry out and enforce this policy in consultation with the General Counsel and the Public Affairs Officer.

(e) Prohibitions and Enforcement. (1) All violations, or suspected violations, of this part, shall be reported to the Office of the General Counsel as soon as they become known. Whoever, except as permitted by laws of the U.S., or with the written permission of the Librarian of Congress or his designee, falsely advertises or otherwise represents by any device whatsoever that his or its business, product, or service has been in any way endorsed, authorized, or approved by the Library of Congress shall be subject to criminal penalties pursuant to law.

(2) Whenever the General Counsel has determined that any person or organization is engaged in or about to engage in an act or practice that constitutes or will constitute conduct prohibited by this part or a violation of any requirement of this part, the General Counsel shall take whatever steps are necessary, including seeking the assistance of the U.S. Department of Justice, to enforce the provisions of the applicable statutes and to seek all means of redress authorized by law, including both civil and criminal penalties.

§ 701.6. Loans of library materials for blind and other physically handicapped persons.

(a) Program. In connection with the Library's program of service under the Act of March 3, 1931 (46 Stat. 1487), as amended, its National Library Service for the Blind and Physically Handicapped provides books in raised characters (braille), on sound reproduction recordings, or in any other form, under regulations established by the Library of Congress. The National Library Service also provides and maintains reproducers for such sound reproduction recordings for the use of blind and other physically handicapped residents of the United States, including the several States, Territories, Insular Possessions, and the District of Columbia, and American citizens temporarily domiciled abroad.

(b) Eligibility criteria. (1) The following persons are eligible for such service:

(i) Blind persons whose visual acuity, as determined by competent authority, is 20/200 or less in the better eye with correcting glasses, or whose wide diameter if visual field subtends an angular distance no greater than 20 degrees.

(ii) Persons whose visual disability, with correction and regardless of optical measurement, is certified by competent authority as preventing the reading of standard printed material.

(iii) Persons certified by competent authority as unable to read or unable to use standard printed material as a result of physical limitations.

(iv) Persons certified by competent authority as having a reading disability resulting from organic dysfunction and of sufficient severity to prevent their reading printed material in a normal manner.

(2) In connection with eligibility for loan services "competent authority" is defined as follows:

(i) In cases of blindness, visual disability, or physical limitations "competent authority" is defined to include doctors of medicine, doctors of osteopathy, ophthalmologist, optometrists, registered nurses, therapists, professional staff of hospitals, institutions, and public or welfare agencies (e.g., social workers, case workers, counselors,
rehabilitation teachers, and superintendents). In the absence of any of these, certification may be made by professional librarians or by any persons whose competence under specific circumstances is acceptable to the Library of Congress.

(ii) In the case of reading disability from organic dysfunction, competent authority is defined as doctors of medicine who may consult with colleagues in associated disciplines.

(c) Loans through regional libraries. Sound reproducers are lent to individuals and appropriate centers through agencies, libraries, and other organizations designated by the Librarian of Congress to service specific geographic areas, to certify eligibility of prospective readers, and to arrange for maintenance and repair of reproducers. Libraries designated by the Librarian of Congress serve as local or regional centers for the direct loan of such books, reproducers, or other specialized material to eligible readers in specific geographic areas. They share in the certification of prospective readers, and utilize all available channels of communication to acquaint the public within their jurisdiction with all aspects of the program.

(d) National collections. The Librarian of Congress, through the National Library Service for the Blind and Physically Handicapped, defines regions and determines the need for new regional libraries in cooperation with other libraries or agencies whose activities are primarily concerned with the blind and physically handicapped. It serves as the center from which books, recordings, sound reproducers, and other specialized materials are lent to eligible blind and physically handicapped readers who may be temporarily domiciled outside the jurisdictions enumerated by the Act. It maintains a special collection of books in raised characters and on sound reproduction recordings not housed in regional libraries and makes these materials available to eligible borrowers on interlibrary loan.

(e) Institutions. The reading materials and sound reproducers for the use of blind and physically handicapped persons may be loaned to individuals who qualify, to institutions such as nursing homes and hospitals, and to schools for the blind and physically handicapped for the use of such persons only. The reading materials and sound reproducers may also be used in public or private schools where handicapped students are enrolled; however, the students in public or private schools must be certified as eligible on an individual basis and must be the direct and only recipients of the materials and equipment.

(f) Musical scores. The National Library Service also maintains a library of musical scores, instructional texts, and other specialized materials for the use of the blind and other physically handicapped residents of the United States and its possessions in furthering their educational, vocational, and cultural opportunities in the field of music. Such scores, texts, and materials are made available on a loan basis under regulations developed by the Librarian of Congress in consultation with persons, organizations, and agencies engaged in work for the blind and for other physically handicapped persons.

(g) Veterans. In the lending of such books, recordings, reproducers, musical scores, instructional texts, and other specialized materials, preference shall be at all times given to the needs of the blind and other physically handicapped persons who have been honorably discharged from the Armed Forces of the United States.

(h) Inquiries for information relative to the prescribed procedures and regulations governing such loans and requests for loans should be addressed to Director, National Library Service for the Blind and Physically Handicapped, Library of Congress, Washington, DC 20542 or visit our Web site at http://www.loc.gov/nls.

(b) All persons using the premises shall refrain from:

As such, they shall be used only for quiet scholarly research or educational purposes requiring use of Library materials. § 702.3 Demonstrations.

(a) Library buildings and grounds are designated as limited public forums, except for those areas designated as nonpublic forums. However, only Library grounds (defined in 2 U.S.C. 167j), not buildings, may be utilized for demonstrations, including assembling, marching, picketing, or rallying. In addition, as the need for the determination of other matters arises, the Librarian will determine what additional First Amendment activities may not be permitted in a limited public forum. In making such determination, the Librarian will consider only whether the intended activity is incompatible with the primary purpose and intended use of that area.

(b) The Director, Integrated Support Services, shall designate certain Library grounds as available for demonstrations. Persons seeking to use such designated areas for the purpose of demonstrations shall first secure written permission from the Director, Integrated Support Services. An application for such permission shall be filed with Facility Services no later than four business days before the time of the proposed demonstration and shall include:

(2) The contact person’s name and telephone number;

(8) Any request for permission to use loudspeakers, microphones, or other amplifying devices, hand held or otherwise; and

(9) A signed agreement by the applicant(s) to comply with Library regulations and terms and conditions established for the demonstration.

(c) Upon receipt of an application, Facility Services shall forward the application, along with any comments and recommendations, to the Director, Integrated Support Services, within one business day of the office’s receipt of said application. The Director, Integrated Support Services, shall respond to the request within three business days of his or her receipt of said application. The Director, Integrated Support Services, shall request advice from the Office of the General Counsel on any legal questions arising from said application.

(d) Permission to demonstrate shall be based upon:

(1) The availability of the requested location;
(2) The likelihood that the demonstration will not interfere with Library operations or exceed city noise limitations as defined by District of Columbia regulations; and

(3) The likelihood that the demonstration will proceed peacefully in the event that a volatile situation in the United States or abroad might lead to a potentially harmful threat toward the Capitol complex, including Library buildings and grounds.

§ 702.4 Photographs.

(a) The policy set out herein applies to all individuals who are photographing Library of Congress buildings.

(b) Special permission is not required for photographing public areas, if no tripods, lights or other specialized equipment is used. Public areas do not include reading rooms, exhibition areas or other areas where photographing is prohibited by signage.

(c) For all other photographing, requests for permission must be made at least one week prior to the photographing. The Director of Communications, or his/her designee, is authorized to grant or deny permission, in writing, to photograph the interior of Library buildings and may set the conditions under which the photographing may take place. Such conditions may include provision for a fee for services rendered consistent with the Library’s policies and procedures for the revolving fund under 2 U.S.C. 182b.

§ 702.5 Gambling.

Participation in any illegal gambling, such as the operation of gambling devices, the conduct of an illegal pool or lottery, or the unauthorized sale or purchase of numbers or lottery tickets, on the premises is prohibited.

§ 702.6 Alcoholic beverages and controlled substances.

(a) The use of alcoholic beverages on the premises is prohibited except on official occasions for which advance written approval has been given and except for concessionaires to whom Library management has granted permission to sell alcoholic beverages on the premises.

(b) The illegal use or possession of controlled substances on the premises is prohibited.

§ 702.7 Weapons and explosives.

Except where duly authorized by law, and in the performance of law enforcement functions, no person shall carry firearms, other dangerous or deadly weapons, or explosives, either openly or concealed, while on the premises.

§ 702.8 Use and carrying of food and beverages in Library buildings.

Consumption of food and beverages in Library buildings is prohibited except at point of purchase or other authorized eating places. Under no circumstances may food or beverages be carried to the bookstacks or other areas where there exists significant risk to Library materials or property or where there may result a detraction from the dignity or efficiency of public service.

§ 702.9 Inspection of property.

(a) Individuals entering Library buildings do so with the understanding that all property in their possession including, but not limited to, suitcases, briefcases, large envelopes, packages, and office equipment may be inspected.

(b) Upon entering the Library buildings privately owned office machines including but not limited to typewriters, computing machines, stenotype machines, and dictating machines, shall be registered with the police officer at the entrance to buildings for the purpose of controlling such equipment.

(c) In the discharge of official duties, Library officials are authorized to inspect Government-owned or furnished property assigned to readers and the general public for their use, such as cabinets, lockers, and desks. Unauthorized property or contraband found in the possession of members of the Library staff, readers, or the general public as a result of such inspections will be subject to confiscation by Library officials.

§ 702.10 Protection of property.

§ 702.11 Smoking in Library buildings.
Smoking in Library areas is prohibited except in those areas specifically designated for this purpose.

§ 702.12 Space for meetings and special events.
Information about the use of space for meeting and special events at the Library can be found at http://www.loc.gov/about/facilities/index.html, or by accessing the Library’s homepage at http://www.loc.gov and following the link “About the Library” to “Event Facilities.”

§ 702.13 Soliciting, vending, debt collection, and distribution of handbills.
(a) The soliciting of alms and contributions, commercial soliciting and vending of all kinds, the display or distribution of commercial advertising, the offering or exposing of any article for sale, or the collecting of private debts on the grounds or within the buildings of the Library is prohibited. This rule does not apply to national or local drives for funds for welfare, health, or other purposes sponsored or approved by The Librarian of Congress, nor does it apply to authorized concessions, vending devices in approved areas, or as specifically approved by the Librarian or designee.

(b) Distribution of material such as pamphlets, handbills, and flyers is prohibited without prior approval.

(c) Peddlers and solicitors will not be permitted to enter Library buildings unless they have a specific appointment, and they will not be permitted to canvas Library buildings.

§ 702.14 Penalties.
(a) Persons violating provisions of 2 U.S.C. 167a to 167e, inclusive, regulations promulgated pursuant to 2 U.S.C. 167f, this part 702, or other applicable Federal laws relating to the Library’s property, including its collections, are subject to removal from the premises, to arrest, and to any additional penalties prescribed by law.

(b) Upon written notification by the Director of Security, disruptive persons may be denied further access to the premises and may be prohibited from further use of the Library’s facilities.

1. Within three workdays of receipt of such notification, an affected individual may make a written request, including the reasons for such a request, to the Director of Security for a reconsideration of said notification.

2. The Director of Security shall respond within three workdays of receipt of such request for reconsideration and may, at his or her option, rescind, modify, or reaffirm said notification.

(c) Readers who violate established conditions and/or procedures for using material are subject to penalties to be determined by or in consultation with the unit head responsible for the custody of the material used.

1. When a reader violates a condition and/or procedure for using material, the division chief or head of the unit where the infraction occurred may, upon written notification, deny further access to the material, or to the unit in which it is housed, to be determined by the nature of the infraction and the material involved.

2. Within five workdays of receipt of such notification, the reader may make a written request, including the reasons for such request to the Associate Librarian for that service unit, or his/her designee, for a reconsideration of said notification.

3. The Associate Librarian for that service unit, or his/her designee, shall respond within five workdays of receipt of such request for reconsideration and may rescind, modify, or reaffirm said notification, as appropriate.
(4) Repeated violations of established conditions and/or procedures for using material may result in denial of further access to the premises and further use of the Library’s facilities or revocation of the reader’s User Card, in accordance with established access regulations.

(5) Mutilation or theft of Library property also may result in criminal prosecution, as set forth in 18 U.S.C. 641, 1361, and 2071; and 22 D.C. Code 3106.

(6) In certain emergency situations requiring prompt action, the division chief or head of the unit where the infraction occurred may immediately deny further access to the material or unit prior to formally taking written action. In such cases, the reader shall be notified, in writing, within three days of the action taken and the reasons therefor. The reader then may request reconsideration.

(7) A copy of any written notification delivered pursuant to this part shall be forwarded to the Captain, Library Police, the service unit, and the Director, Integrated Support Services, for retention.

PART 703—DISCLOSURE OR PRODUCTION OF RECORDS OR INFORMATION

Subpart A—Availability of Library of Congress Records

§ 703.1 Purpose and scope of this subpart.

(a) This subpart implements the policy of the Library with respect to the public availability of Library of Congress records. Although the Library is not subject to the Freedom of Information Act, as amended (5 U.S.C. 552), this subpart follows the spirit of that Act consistent with the Library’s duties, functions, and responsibilities to the Congress. The application of that Act to the Library is not to be inferred, nor should this subpart be considered as conferring on any member of the public a right under that Act of access to or information from the records of the Library. Nothing in this subpart modifies current instructions and practices in the Library with respect to handling Congressional correspondence.

(b) The Copyright Office, although a service unit of the Library, is by law (17 U.S.C. 701) subject to the provisions of the Freedom of Information Act, as amended, only for purposes of actions taken under the copyright law. The Copyright Office has published its own regulation with respect to the general availability of information (see 37 CFR 201.2) and requests for copyright records made pursuant to the Freedom of Information Act (see 37 CFR 203.1 et seq.) and the Privacy Act (see 37 CFR 204.1 et seq.).

§ 703.2 Policy.

(a) Subject to limitations set out in this part, Library of Congress records shall be available as hereinafter provided and shall be furnished as promptly as possible within the Library to
any member of the public at appropriate places and times and for an appropriate fee, if any.

(b) The Library shall not provide records from its files that originate in another federal agency or non-federal organization to persons who may not be entitled to obtain the records from the originator. In such instances, the Library shall refer requesters to the agency or organization that originated the records.

(c) In order to avoid disruption of work in progress, and in the interests of fairness to those who might be adversely affected by the release of information which has not been fully reviewed to assure its accuracy and completeness, it is the policy of the Library not to provide records which are part of on-going reviews or other current projects. In response to such requests, the Library will inform the requester of the estimated completion date of the review or project so that the requester may then ask for the records. At that time, the Library may release the records unless the same are exempt from disclosure as identified in §703.5.

§ 703.3 Administration responsibilities.

The administration of this part shall be the responsibility of the Chief, Office Systems Services (OSS), Library of Congress, 101 Independence Avenue, SE., Washington, DC 20540-9440, and to that end, the Chief may promulgate such supplemental rules or guidelines as may be necessary.

§ 703.4 Definitions.

(a) Records includes all books, papers, maps, photographs, reports, and other documentary materials, exclusive of materials in the Library’s collections, regardless of physical form or characteristics, made or received and under the control of the Library in pursuance of law or in connection with the transaction of public business, and retained, or appropriate for retention, by the Library as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of the government or because of the informational value of data contained therein. The term refers only to such items in being and under the control of the Library. It does not include the compiling or procuring of a record, nor does the term include objects or articles, such as furniture, paintings, sculpture, three-dimensional models, structures, vehicles, and equipment.

(b) Identifiable means a reasonably specific description of a particular record sought, such as the date of the record, subject matter, agency or person involved, etc. which will permit location or retrieval of the record.

(c) Records available to the public means records which may be examined or copied or of which copies may be obtained, in accordance with this part, by the public or representatives of the press regardless of interest and without specific justification.

(d) Disclose or disclosure means making available for examination or copying or furnishing a copy.

(e) Person includes an individual, partnership, corporation, association, or public or private organization other than a federal agency.

§ 703.5 Records exempt from disclosure.

(a) The public disclosure of Library records provided for by this part does not apply to records, or any parts thereof, within any of the categories set out below. Unless precluded by law, the Chief, OSS, nevertheless may release records within these categories, except for Congressional correspondence and other materials identified in §703.5(b)(1), after first consulting with the General Counsel.

(b) Records exempt from disclosure under this part are the following:

(1) Congressional correspondence and other materials relating to work performed in response to or in anticipation of Congressional requests, unless authorized for release by officials of the Congress.

(2) Materials specifically authorized under criteria established by Executive Order to be withheld from public disclosure in the interest of national defense or foreign policy and that are properly classified pursuant to Executive Orders.

(3) Records related solely to the internal personnel rules and practices of the Library. This category includes, in
addition to internal matters of personnel administration, internal rules and practices which cannot be disclosed without prejudice to the effective performance of a Library function, such as guidelines and procedures used by auditors, investigators, or examiners in the Office of the Inspector General.

(4) Records specifically exempted from disclosure by statute, provided that such statute:
   (i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or
   (ii) Establishes particular criteria for withholding or refers to particular types of matters to be withheld.

(5) Records containing trade secrets and commercial or financial information obtained from a person as privileged or confidential. This exemption may include, but is not limited to, business sales statistics, inventories, customer lists, scientific or manufacturing processes or development information.

(6) Personnel and medical files and similar files the disclosure of which could constitute a clearly unwarranted invasion of personal privacy. This exemption includes all private or personal information contained in files compiled to evaluate candidates for security clearances.

(7) Materials and information contained in investigative or other records compiled for law enforcement purposes.

(8) Materials and information contained in files prepared in connection with government litigation and adjudicative proceedings, except for those portions of such files which are available by law to persons in litigation with the Library.

(9) Records having information contained in or related to examination, operation, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions.

(10) Inter-agency or intra-agency memoranda, letters or other materials that are part of the deliberative process, the premature disclosure of which would inhibit internal communications or be detrimental to a Library function (e.g., case files in the Manuscript Division).

(11) Records containing information customarily subject to protection as privileged in a court or other proceedings such as information protected by the doctor-patient, attorney work product, or attorney-client privilege.

(12) Information submitted by a person to the Library in confidence or which the Library has obligated itself not to disclose such as information received by the Office of the Inspector General through its hotline.

(13) Materials related to specific patron use of the Library’s collections, resources, or facilities either on site or off site. This exemption includes:
   (i) Reader Records. Library records which identify readers by name, such as registration records, reading room logs or registers, telephone inquiry logs, and charge slips, if retained for administrative purposes.
   (ii) Use Records. Users of the Library are entitled to privacy with respect to their presence and use of the Library’s facilities and resources. Records pertaining to the use of the Library and of Library collections and subjects of inquiry are confidential and are not to be disclosed either to other readers, to members of the staff who are not authorized, or to other inquirers including officials of law enforcement, intelligence, or investigative agencies, except pursuant to court order or administratively by order of the Librarian of Congress.

(c) Any reasonably segregable portion of a record shall be provided to anyone requesting such records after deletion of the portions which are exempt under this section. A portion of a record shall be considered reasonably segregable when segregation can produce an intelligible record which is not distorted out of context, does not contradict the record being withheld, and can reasonably provide all relevant information.

§ 703.6 Procedure for access to and copying of records.

(a) A request to inspect or obtain a copy of an identifiable record of the Library of Congress shall be submitted in writing to the Chief, OSS, Library of Congress, 101 Independence Avenue,
§ 703.7 Public Reading Facility.

(a) The Chief, OSS, shall maintain a reading facility for the public inspection and copying of Library records. This facility shall be open to the public from 8:30 a.m. to 4:30 p.m., except Saturdays, Sundays, holidays, and such other times as the Library shall be closed to the public.

(b) The General Counsel shall advise the Chief, OSS, of the records to be available in the public reading facility following consultation with the Library managers who may be concerned.

§ 703.8 Fees and charges.

(a) The Library will charge no fees for:

(1) Access to or copies of records under the provisions of this part when the direct search and reproduction costs are less than $10.

(2) Records requested which are not found or which are determined to be exempt under the provisions of this part.

(3) Staff time spent in resolving any legal or policy questions pertaining to a request.
(4) Copies of records, including those certified as true copies, that are furnished for official use to any officer or employee of the federal government.

(5) Copies of pertinent records furnished to a party having a direct and immediate interest in a matter pending before the Library, when furnishing such copies is necessary or desirable to the performance of a Library function.

(b) When the costs for services are $10 or more, the Chief, OSS, shall assess and collect the fees and charges set out in appendix A to this part for the direct costs of search and reproduction of records available to the public.

(c) The Chief, OSS, is authorized to waive fees and charges, in whole or in part, where it is determined that the public interest is best served to do so, because waiver is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester. Persons seeking a waiver or reduction of fees may be required to submit a written statement setting forth the intended purpose for which the records are requested or otherwise indicate how disclosure will primarily benefit the public and, in appropriate cases, explain why the volume of records requested is necessary. Determinations made pursuant to the authority set out herein are solely within the discretion of the Chief, OSS.

(d) Fees and charges for services identified in the appendix to this part shall be paid in full by the requester before the records are delivered. Payment shall be made in U.S. funds by personal check, money order, or bank draft made payable to the Library of Congress. The Chief, OSS, shall remit all fees collected to the Director, Financial Services, who shall cause the same to be credited to appropriate accounts or deposited with the U.S. Treasury as miscellaneous receipts.

(e) The Chief, OSS, shall notify a requester and may require an advance deposit where the anticipated fees will exceed $50.

APPENDIX A TO SUBPART A OF PART 703—FEES AND CHARGES FOR SERVICES PROVIDED TO REQUESTERS OF RECORDS

(a) Searches. (1) There is no charge for searches of less than one hour.

(2) Fees charged for searches of one hour or more are based on prevailing rates. Currently, those charges are:

   (i) Personnel searches (clerical): $15 per hour.

   (ii) Personnel searches (professional): $25 per hour.

   (iii) Reproduction costs: $.50 per page.

   (iv) Shipping and mailing fees: variable.

(b) Duplication of Records. Fees charged for the duplication of records shall be according to the prevailing rates established by the Library's Photoduplication Service, or in the case of machine media duplication, by the Resources Management Staff, Information Technology Services.

(c) Certifications. The fee charges for certification of a record as authentic or a true copy shall be $10.00 for each certificate.

(d) Other Charges. When no specific fee has been established for a service required to meet the request for records, the Chief, OSS, shall establish an appropriate fee based on direct costs in accordance with the Office of Management and Budget Circular No. A–25.

Subpart B—Testimony by Employees and Production of Documents in Certain Legal Proceedings Where the Library Is Not a Party

§ 703.15 Purpose and scope of this subpart.

This subpart sets forth the policy and procedures of the Library of Congress regarding, first, the testimony, as witnesses in legal proceedings where the Library is not a party, of employees and former employees concerning information acquired in the course of performing official duties or because of the employee’s official relationship with the Library of Congress, and second, the production or disclosure of information contained in Library of Congress documents for use in legal proceedings where the Library is not a party, pursuant to a request, order, or
subpoena (collectively referred to in this subpart as a ‘demand’).

(a) This subpart applies to:
   (1) State court proceedings (including grand jury proceedings);
   (2) Federal court proceedings; and
   (3) State and local legislative and administrative proceedings.

(b) This subpart does not apply to:
   (1) Matters that are not related to the Library of Congress but relate solely to an employee’s personal dealings;
   (2) Congressional demands for testimony or documents;
   (3) Any demand relating to activity within the scope of Title 17 of the United States Code (the Copyright Act and related laws). These are governed by Copyright Office regulations, which provide for different procedures and for service on the General Counsel of the Copyright Office. See 37 CFR 201.1, sec. 203, sec. 204, and sec. 205.

(c) The purpose of this subpart is to ensure that employees’ official time is used only for official purposes, to maintain the impartiality of the Library of Congress among private litigants, to ensure that public funds are not used for private purposes, to ensure the protection of Congress’ interests, and to establish centralized procedures for deciding whether or not to approve testimony or the production of documents.

§ 703.16 Policy on presentation of testimony and production of documents.

No Library of Congress employee may provide testimony or produce documents in any proceeding to which this part applies concerning information acquired in the course of performing official duties or because of the employee’s official relationship with the Library of Congress, unless authorized by the General Counsel or his/her designee, or the Director of the Congressional Research Service (CRS) with respect to records and testimony relating to CRS’s work for Congress, or the Law Librarian for records and testimony relating to the Law Library’s work for Congress or materials prepared for other federal agencies covered by evidentiary privileges. The aforementioned officials (hereinafter “deciding officials”) will consider and act upon demands under this part with due regard for the interests of Congress, where appropriate, statutory requirements, the Library’s interests, and the public interest, taking into account factors such as applicable privileges and immunities, including the deliberative process privilege and the speech or debate clause, the need to conserve the time of employees for conducting official business, the need to avoid spending the time and money of the United States for private purposes, the need to maintain impartiality among private litigants in cases where a substantial government interest is not involved, the established legal standards for determining whether or not justification exists for the disclosure of confidential information and records, and any other purpose that the deciding official deems to be in the interest of Congress or the Library of Congress.

§ 703.17 Procedures when testimony and/or documents are demanded.

A demand for testimony and/or documents by a Library employee must be in writing, must state the nature of the requested testimony and/or specify documents, and must meet the requirements of §703.15. A demand must also show that the desired testimony or document is not reasonably available from any other source and must show that no document could be provided and used in lieu of testimony. When an employee of the Library receives such a request the employee will immediately forward it, with the recommendation of the employee’s supervisors, to the appropriate deciding official under §703.22 of this part. The deciding official, in consultation with the appropriate offices of the Library or congressional offices, will determine whether or not compliance with the request would be appropriate and will respond as soon as practicable.

§ 703.18 Procedures when an employee’s appearance is demanded or documents are demanded.

(a) If the deciding official has not acted by the return date on a subpoena, the employee must appear at the stated time and place (unless advised by the deciding official that the subpoena was not validly issued or served or that
the subpoena has been withdrawn) and inform the court (or other interested parties) that the demand has been or is being, as the case may be, referred for the prompt consideration of the appropriate Library or congressional officials and shall respectfully request the court (or other authority) to stay the demand pending receipt of the requested instructions.

(b) If the deciding official has denied approval to comply with the subpoena, and the court or authority rules that the demand must be complied with irrespective of such a denial, the employee upon whom such a demand has been made shall produce a copy of this Part and shall respectfully refuse to provide any testimony or produce any documents. United States ex rel. Touhy v. Ragen, 340 U.S. 462 (1951).

(c) The deciding official, as appropriate, will request the assistance of the Department of Justice or the U.S. Attorney’s Office or congressional officials where necessary to represent the interests of the Library, the Congress, and the employee in any of the foregoing proceedings.

§ 703.19 Requests for authenticated copies of Library documents.

Requests for authenticated copies of Library documents for purposes of admissibility under 28 U.S.C. 1733 and Rule 44 of the Federal Rules of Civil Procedure will be granted for documents that would otherwise be released pursuant to the Library’s Regulations governing the release of information. The advice of the appropriate deciding official should be obtained concerning the proper form of authentication and information as to the proper person having custody of the record.

§ 703.20 File copies.

The Office of the General Counsel will maintain the official file of copies of all demands served on the Library and deciding officials’ responses.

§ 703.21 Effect of this part.

This part is intended only to provide guidance for the internal operations of the Library of Congress and is not intended to, and does not, and may not, be relied upon to create any right or benefit, substantive or procedural, enforceable at law by a party against the Library of Congress or the United States.

§ 703.22 Where to serve demands.

Requesting parties must serve subpoenas:

(c) For all other matters: General Counsel, LM 601, Library of Congress, Washington, DC 20540.

§ 705.1 Scope and purpose of this part.

The purpose of this part is to implement certain provisions of the American Television and Radio Archives Act, 2 U.S.C. 170. Specifically, this part prescribes rules pertaining to the reproduction, compilation, and distribution by the Library of Congress, under section 170(b) of title 2 of the United States Code, of television and radio transmission programs consisting of regularly scheduled newscasts or on-the-spot coverage of news events.

§ 705.2 Authority.

Section 170(b) of Title 2 authorizes the Librarian, with respect to a transmission program which consists of a regularly scheduled newscast or on-the-spot coverage of news events, to prescribe by regulation standards and conditions to reproduce, compile, and distribute such a program as more particularly specified in the statute.

§ 705.3 Definitions.

For purposes of this part:

(a) The terms copies, fixed, phonorecords and transmission program, and their variant forms, have the meanings given to them in section 101 of title 17 of the United States Code. For the purpose of this part, the term transmission includes transmission via the Internet, cable, broadcasting, and satellite systems, and via any other existing or future devices or processes for the communication of a performance or display whereby images or sounds are received beyond the place from which they are sent. 17 U.S.C. 101; H.R. Rep. No. 94–1476, at 64 (1976).

(b) The term regularly scheduled newscasts means transmission programs in any format that report on current events, regardless of quality, subject matter, or significance, and that air on a periodic basis, (including but not limited to daily, weekly, or quarterly), or on an occasional basis, but not on a special, one-time basis. The term on-the-spot coverage of news events refers to transmission programs in any format that report on reasonably recent current events, regardless of quality, subject matter, or significance, and that are aired in a timely manner but not necessarily contemporaneously with the recording of the events.

(c) The term staff for the purpose of this part includes both Library employees and contractors.

§ 705.4 Reproduction.

(a) Library of Congress staff acting under the general authority of the Librarian of Congress may reproduce fixations of television and radio transmission programs consisting of regularly scheduled newscasts or on-the-spot coverage of news events directly from transmissions to the public in the United States in accordance with section 170(b) of title 2 of the United States Code. Recording may be accomplished in the same or another tangible form as the original transmission. The choice of programs selected for recording will be made consistent with the purpose of, and based on the criteria set forth in, the American Television and Radio Archives Act at 2 U.S.C. 170(a), and on Library of Congress acquisition policies in effect at the time of recording.

(b) Specific notice of an intent to copy a transmission program will ordinarily not be given. In general, the Library of Congress will seek to copy off-the-air selected portions of the programming transmitted by both non-commercial educational broadcast stations as defined in section 397 of title 47 of the United States Code, and by commercial broadcast stations. Upon written request addressed to the Chief, Motion Picture, Broadcasting and Recorded Sound Division by a broadcast station or other owner of the right of transmission, the Library of Congress will inform the requestor whether a particular transmission program has been copied by the Library.

§ 705.5 Disposition and use of copies and phonorecords by the Library of Congress.

(a) All copies and phonorecords acquired under this part will be maintained by the Motion Picture, Broadcasting and Recorded Sound Division of the Library of Congress. The Library may make such copies or phonorecords of a program as are necessary for purposes of preservation, security, and, as specified in §705.7, distribution.
(b) To the extent that the Library of Congress’s use of copies and phonorecords acquired under this part is not subject to the provisions of the American Television and Radio Archives Act (section 170 of title 2 of the United States Code) and this part, such use shall be subject to the restrictions concerning copying and access found in Library of Congress Regulation 818–17, “Policies Governing the Use and Availability of Motion Pictures and Other Audiovisual Works in the Collections of the Library of Congress,” and Library of Congress Regulation 818–18.1, “Recorded Sound Listening and Duplication Services” available from the Office of the General Counsel, Library of Congress, Washington, DC 20540–1050. Such use shall also be governed by the Copyright Act of 1976, as amended.

§ 705.6 Compilation.
(a) Library of Congress staff acting under the general authority of the Librarian of Congress may compile, without abridgement or any other editing, portions of recordings created pursuant to § 705.4 according to subject matter, and may reproduce such compilations for purposes of preservation, security, or distribution as permitted under § 705.7 below.
(b) Compilations shall be organized, to the greatest extent possible, in chronological order, and shall include the entirety of any particular news segment.
(c) No compilation by the Librarian shall be deemed for any purpose or proceeding to be an official determination of the subject matter covered by such compilation.

§ 705.7 Distribution.
(a) Library staff acting under the general authority of the Librarian of Congress may distribute a reproduction of a transmission program or a compilation of transmission programs made under this part, by loan to a researcher, provided that the researcher indicates the particular segments of the news broadcasts or compilations that he or she wishes to review, on the basis of an index or other finding aid prepared by the Librarian; and for deposit in a library or archives which meets the requirements of section 108(a) of title 17 of the United States Code.
(b) Library staff will advise all recipients of such reproductions that such distribution shall be only for the purposes of research and not for further reproduction or performance, and that any use in excess of that permitted by the American Television and Radio Archives Act (section 170 of title 2 of the United States Code), title 17 of the United States Code, and this part may violate copyrights or other rights.

§ 705.8 Agreements modifying the terms of this part.
(a) The Library of Congress may, at its sole discretion, enter into an agreement whereby the provision of copies or phonorecords of transmission programs of regularly scheduled newscasts or on-the-spot coverage of news events on terms different from those contained in this part is authorized.
(b) Any such agreement may be terminated without notice by the Library of Congress.

PART 800—PROTECTION OF HISTORIC PROPERTIES

Subpart A—Purposes and Participants

§ 800.1 Purposes.
(a) Purposes of the section 106 process. Section 106 of the National Historic Preservation Act requires Federal agencies to take into account the effects of their undertakings on historic properties and afford the Council a reasonable opportunity to comment on such undertakings. The procedures in this part define how Federal agencies meet these statutory responsibilities. The section 106 process seeks to accommodate historic preservation concerns with the needs of Federal undertakings through consultation among the agency official and other parties with an interest in the effects of the undertaking on historic properties, commencing at the early stages of project planning. The goal of consultation is to identify historic properties potentially affected by the undertaking, assess its effects and seek ways to avoid, minimize or mitigate any adverse effects on historic properties.

(b) Relation to other provisions of the act. Section 106 is related to other provisions of the act designed to further the national policy of historic preservation. References to those provisions are included in this part to identify circumstances where they may affect actions taken to meet section 106 requirements. Such provisions may have their own implementing regulations or guidelines and are not intended to be implemented by the procedures in this part except insofar as they relate to the section 106 process. Guidelines, policies, and procedures issued by other agencies, including the Secretary, have been cited in this part for ease of access and are not incorporated by reference.

(c) Timing. The agency official must complete the section 106 process “prior to the approval of the expenditure of any Federal funds on the undertaking or prior to the issuance of any license.” This does not prohibit agency official from conducting or authorizing non-destructive project planning activities before completing compliance with section 106, provided that such actions do not restrict the subsequent consideration of alternatives to avoid, minimize or mitigate the undertaking’s adverse effects on historic properties. The agency official shall ensure that the section 106 process is initiated early in the undertaking’s planning, so that a broad range of alternatives may be considered during the planning process for the undertaking.

§ 800.2 Participants in the Section 106 process.
(a) Agency official. It is the statutory obligation of the Federal agency to fulfill the requirements of section 106 and to ensure that an agency official with jurisdiction over an undertaking takes legal and financial responsibility for section 106 compliance in accordance with subpart B of this part. The agency official has approval authority for the undertaking and can commit the Federal agency to take appropriate action...
for a specific undertaking as a result of section 106 compliance. For the purposes of subpart C of this part, the agency official has the authority to commit the Federal agency to any obligation it may assume in the implementation of a program alternative. The agency official may be a State, local, or tribal government official who has been delegated legal responsibility for compliance with section 106 in accordance with Federal law.

(1) **Professional standards.** Section 112(a)(1)(A) of the act requires each Federal agency responsible for the protection of historic resources, including archeological resources, to ensure that all actions taken by employees or contractors of the agency shall meet professional standards under regulations developed by the Secretary.

(2) **Lead Federal agency.** If more than one Federal agency is involved in an undertaking, some or all the agencies may designate a lead Federal agency, which shall identify the appropriate official to serve as the agency official who shall act on their behalf, fulfilling their collective responsibilities under section 106. Those Federal agencies that do not designate a lead Federal agency remain individually responsible for their compliance with this part.

(3) **Use of contractors.** Consistent with applicable conflict of interest laws, the agency official may use the services of applicants, consultants, or designees to prepare information, analyses and recommendations under this part. The agency official remains legally responsible for all required findings and determinations. If a document or study is prepared by a non-Federal party, the agency official is responsible for ensuring that its content meets applicable standards and guidelines.

(4) **Consultation.** The agency official shall involve the consulting parties described in paragraph (c) of this section in findings and determinations made during the section 106 process. The agency official should plan consultations appropriate to the scale of the undertaking and the scope of Federal involvement and coordinated with other requirements of other statutes, as applicable, such as the National Environmental Policy Act, the Native American Graves Protection and Repatriation Act, the American Indian Religious Freedom Act, the Archeological Resources Protection Act, and agency-specific legislation. The Council encourages the agency official to use to the extent possible existing agency procedures and mechanisms to fulfill the consultation requirements of this part.

(b) **Council.** The Council issues regulations to implement section 106, provides guidance and advice on the application of the procedures in this part, and generally oversees the operation of the section 106 process. The Council also consults with and comments to agency officials on individual undertakings and programs that affect historic properties.

(1) **Council entry into the section 106 process.** When the Council determines that its involvement is necessary to ensure that the purposes of section 106 and the act are met, the Council may enter the section 106 process. Criteria guiding Council decisions to enter the section 106 process are found in appendix A to this part. The Council will document that the criteria have been met and notify the parties to the section 106 process as required by this part.

(2) **Council assistance.** Participants in the section 106 process may seek advice, guidance and assistance from the Council on the application of this part to specific undertakings, including the resolution of disagreements, whether or not the Council is formally involved in the review of the undertaking. If questions arise regarding the conduct of the section 106 process, participants are encouraged to obtain the Council’s advice on completing the process.

(c) **Consulting parties.** The following parties have consultative roles in the section 106 process.

(1) **State historic preservation officer.** (1) The State historic preservation officer (SHPO) reflects the interests of the State and its citizens in the preservation of their cultural heritage. In accordance with section 101(b)(3) of the act, the SHPO advises and assists Federal agencies in carrying out their section 106 responsibilities and cooperates with such agencies, local governments and organizations and individuals to
Advisory Council on Historic Preservation

§ 800.2

ensure that historic properties are taking into consideration at all levels of planning and development.

(ii) If an Indian tribe has assumed the functions of the SHPO in the section 106 process for undertakings on tribal lands, the SHPO shall participate as a consulting party if the undertaking takes place on tribal lands but affects historic properties off tribal lands, if requested in accordance with § 800.3(c)(1), or if the Indian tribe agrees to include the SHPO pursuant to § 800.3(f)(3).

(2) Indian tribes and Native Hawaiian organizations. (i) Consultation on tribal lands. (A) Tribal historic preservation officer. For a tribe that has assumed the responsibilities of the SHPO for section 106 on tribal lands under section 101(d)(2) of the act, the tribal historic preservation officer (THPO) appointed or designated in accordance with the act is the official representative for the purposes of section 106. The agency official shall consult with the THPO in lieu of the SHPO regarding undertakings occurring on or affecting historic properties on tribal lands.

(B) Tribes that have not assumed SHPO functions. When an Indian tribe has not assumed the responsibilities of the SHPO for section 106 on tribal lands under section 101(d)(2) of the act, the agency official shall consult with a representative designated by such Indian tribe in addition to the SHPO regarding undertakings occurring on or affecting historic properties on its tribal lands. Such Indian tribes have the same rights of consultation and concurrence that the THPOs are given throughout subpart B of this part, except that such consultations shall be in addition to and on the same basis as consultation with the SHPO.

(ii) Consultation on historic properties of significance to Indian tribes and Native Hawaiian organizations. Section 101(d)(6)(B) of the act requires the agency official to consult with any Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to historic properties that may be affected by an undertaking. This requirement applies regardless of the location of the historic property. Such Indian tribe or Native Hawaiian organization shall be a consulting party.

(A) The agency official shall ensure that consultation in the section 106 process provides the Indian tribe or Native Hawaiian organization a reasonable opportunity to identify its concerns about historic properties, advise on the identification and evaluation of historic properties, including those of traditional religious and cultural importance, articulate its views on the undertaking's effects on such properties, and participate in the resolution of adverse effects. It is the responsibility of the agency official to make a reasonable and good faith effort to identify Indian tribes and Native Hawaiian organizations that shall be consulted in the section 106 process. Consultation should commence early in the planning process, in order to identify and discuss relevant preservation issues and resolve concerns about the confidentiality of information on historic properties.

(B) The Federal Government has a unique legal relationship with Indian tribes set forth in the Constitution of the United States, treaties, statutes, and court decisions. Consultation with Indian tribes should be conducted in a sensitive manner respectful of tribal sovereignty. Nothing in this part alters, amends, repeals, interprets, or modifies tribal sovereignty, any treaty rights, or other rights of an Indian tribe, or preempts, modifies, or limits the exercise of any such rights.

(C) Consultation with an Indian tribe must recognize the government-to-government relationship between the Federal Government and Indian tribes. The agency official shall consult with representatives designated or identified by the tribal government or the governing body of a Native Hawaiian organization. Consultation with Indian tribes and Native Hawaiian organizations should be conducted in a manner sensitive to the concerns and needs of the Indian tribe or Native Hawaiian organization.

(D) When Indian tribes and Native Hawaiian organizations attach religious and cultural significance to historic properties off tribal lands, section 101(d)(6)(B) of the act requires Federal agencies to consult with such Indian
tribes and Native Hawaiian organizations in the section 106 process. Federal agencies should be aware that frequently historic properties of religious and cultural significance are located on ancestral, aboriginal, or ceded lands of Indian tribes and Native Hawaiian organizations and should consider that when complying with the procedures in this part.

(E) An Indian tribe or a Native Hawaiian organization may enter into an agreement with an agency official that specifies how they will carry out responsibilities under this part, including concerns over the confidentiality of information. An agreement may cover all aspects of tribal participation in the section 106 process, provided that no modification may be made in the roles of other parties to the section 106 process without their consent. An agreement may grant the Indian tribe or Native Hawaiian organization additional rights to participate or concur in agency decisions in the section 106 process beyond those specified in subpart B of this part. The agency official shall provide a copy of any such agreement to the Council and the appropriate SHPOs.

(F) An Indian tribe that has not assumed the responsibilities of the SHPO for section 106 on tribal lands under section 101(d)(2) of the act may notify the agency official in writing that it is waiving its rights under §800.6(c)(1) to execute a memorandum of agreement.

(3) Representatives of local governments. A representative of a local government with jurisdiction over the area in which the effects of an undertaking may occur is entitled to participate as a consulting party. Under other provisions of Federal law, the local government may be authorized to act as the agency official for purposes of section 106.

(4) Applicants for Federal assistance, permits, licenses, and other approvals. An applicant for Federal assistance or for a Federal permit, license, or other approval is entitled to participate as a consulting party as defined in this part. The agency official may authorize an applicant or group of applicants to initiate consultation with the SHPO/THPO and others, but remains legally responsible for all findings and determinations charged to the agency official. The agency official shall notify the SHPO/THPO when an applicant or group of applicants is so authorized. A Federal agency may authorize all applicants in a specific program pursuant to this section by providing notice to all SHPO/THPOs. Federal agencies that provide authorizations to applicants remain responsible for their government-to-government relationships with Indian tribes.

(5) Additional consulting parties. Certain individuals and organizations with a demonstrated interest in the undertaking may participate as consulting parties due to the nature of their legal or economic relation to the undertaking or affected properties, or their concern with the undertaking’s effects on historic properties.

(d) The public—(1) Nature of involvement. The views of the public are essential to informed Federal decision-making in the section 106 process. The agency official shall seek and consider the views of the public in a manner that reflects the nature and complexity of the undertaking and its effects on historic properties, the likely interest of the public in the effects on historic properties, confidentiality concerns of private individuals and businesses, and the relationship of the Federal involvement to the undertaking.

(2) Providing notice and information. The agency official must, except where appropriate to protect confidentiality concerns of affected parties, provide the public with information about an undertaking and its effects on historic properties and seek public comment and input. Members of the public may also provide views on their own initiative for the agency official to consider in decisionmaking.

(3) Use of agency procedures. The agency official may use the agency’s procedures for public involvement under the National Environmental Policy Act or other program requirements in lieu of public involvement requirements in subpart B of this part, if they provide adequate opportunities for public involvement consistent with this subpart.
Subpart B—The section 106 Process

§ 800.3 Initiation of the section 106 process.

(a) Establish undertaking. The agency official shall determine whether the proposed Federal action is an undertaking as defined in § 800.16(y) and, if so, whether it is a type of activity that has the potential to cause effects on historic properties.

(1) No potential to cause effects. If the undertaking is a type of activity that does not have the potential to cause effects on historic properties, assuming such historic properties were present, the agency official has no further obligations under section 106 or this part.

(2) Program alternatives. If the review of the undertaking is governed by a Federal agency program alternative established under § 800.14 or a programmatic agreement in existence before January 11, 2001, the agency official shall follow the program alternative.

(b) Coordinate with other reviews. The agency official should coordinate the steps of the section 106 process, as appropriate, with the overall planning schedule for the undertaking and with any reviews required under other authorities such as the National Environmental Policy Act, the Native American Graves Protection and Repatriation Act, the American Indian Religious Freedom Act, the Archeological Resources Protection Act, and agency-specific legislation, such as section 4(f) of the Department of Transportation Act. Where consistent with the procedures in this subpart, the agency official may use information developed for other reviews under Federal, State, or tribal law to meet the requirements of section 106.

(c) Identify the appropriate SHPO and/or THPO. As part of its initial planning, the agency official shall determine the appropriate SHPO or SHPOs to be involved in the section 106 process. The agency official shall also determine whether the undertaking may occur on or affect historic properties on any tribal lands and, if so, whether a THPO has assumed the duties of the SHPO. The agency official shall then initiate consultation with the appropriate officer or officers.

(1) Tribal assumption of SHPO responsibilities. Where an Indian tribe has assumed the section 106 responsibilities of the SHPO on tribal lands pursuant to section 101(d)(2) of the act, consultation for undertakings occurring on tribal land or for effects on tribal land is with the THPO for the Indian tribe in lieu of the SHPO. Section 101(d)(2)(D)(i) of the act authorizes owners of properties on tribal lands which are neither owned by a member of the tribe nor held in trust by the Secretary for the benefit of the tribe to request the SHPO to participate in the section 106 process in addition to the THPO.

(2) Undertakings involving more than one State. If more than one State is involved in an undertaking, the involved SHPOs may agree to designate a lead SHPO to act on their behalf in the section 106 process, including taking actions that would conclude the section 106 process under this subpart.

(3) Conducting consultation. The agency official should consult with the SHPO/THPO in a manner appropriate to the agency planning process for the undertaking and to the nature of the undertaking and its effects on historic properties.

(4) Failure of the SHPO/THPO to respond. If the SHPO/THPO fails to respond within 30 days of receipt of a request for review of a finding or determination, the agency official may either proceed to the next step in the process based on the finding or determination or consult with the Council in lieu of the SHPO/THPO. If the SHPO/THPO re-enters the Section 106 process, the agency official shall continue the consultation without being required to reconsider previous findings or determinations.

(d) Consultation on tribal lands. Where the Indian tribe has not assumed the responsibilities of the SHPO on tribal lands, consultation with the Indian tribe regarding undertakings occurring on such tribe’s lands or effects on such tribal lands shall be in addition to and on the same basis as consultation with the SHPO. If the SHPO has withdrawn from the process, the agency official may complete the section 106 process.
with the Indian tribe and the Council, as appropriate. An Indian tribe may enter into an agreement with a SHPO or SHPOs specifying the SHPO’s participation in the section 106 process for undertakings occurring on or affecting historic properties on tribal lands.

(e) Plan to involve the public. In consultation with the SHPO/THPO, the agency official shall plan for involving the public in the section 106 process. The agency official shall identify the appropriate points for seeking public input and for notifying the public of proposed actions, consistent with §800.2(d).

(f) Identify other consulting parties. In consultation with the SHPO/THPO, the agency official shall identify any other parties entitled to be consulting parties and invite them to participate as such in the section 106 process. The agency official may invite others to participate as consulting parties as the section 106 process moves forward.

(1) Involving local governments and applicants. The agency official shall invite any local governments or applicants that are entitled to be consulting parties under §800.2(c).

(2) Involving Indian tribes and Native Hawaiian organizations. The agency official shall make a reasonable and good faith effort to identify any Indian tribes or Native Hawaiian organizations that might attach religious and cultural significance to historic properties in the area of potential effects and invite them to be consulting parties. Such Indian tribe or Native Hawaiian organization that requests in writing to be a consulting party shall be one.

(3) Requests to be consulting parties. The agency official shall consider all written requests of individuals and organizations to participate as consulting parties and, in consultation with the SHPO/THPO and any Indian tribe upon whose tribal lands an undertaking occurs or affects historic properties, determine which should be consulting parties.

(g) Expediting consultation. A consultation by the agency official with the SHPO/THPO and other consulting parties may address multiple steps in §§800.3 through 800.6 where the agency official and the SHPO/THPO agree it is appropriate as long as the consulting parties and the public have an adequate opportunity to express their views as provided in §800.2(d).

§800.4 Identification of historic properties.

(a) Determine scope of identification efforts. In consultation with the SHPO/THPO, the agency official shall:

(1) Determine and document the area of potential effects, as defined in §800.16(d);

(2) Review existing information on historic properties within the area of potential effects, including any data concerning possible historic properties not yet identified;

(3) Seek information, as appropriate, from consulting parties, and other individuals and organizations likely to have knowledge of, or concerns with, historic properties in the area, and identify issues relating to the undertaking’s potential effects on historic properties; and

(4) Gather information from any Indian tribe or Native Hawaiian organization identified pursuant to §800.3(f) to assist in identifying properties, including those located off tribal lands, which may be of religious and cultural significance to them and may be eligible for the National Register, recognizing that an Indian tribe or Native Hawaiian organization may be reluctant to divulge specific information regarding the location, nature, and activities associated with such sites. The agency official should address concerns raised about confidentiality pursuant to §800.11(c).

(b) Identify historic properties. Based on the information gathered under paragraph (a) of this section, and in consultation with the SHPO/THPO and any Indian tribe or Native Hawaiian organization that might attach religious and cultural significance to properties within the area of potential effects, the agency official shall take the steps necessary to identify historic properties within the area of potential effects.

(1) Level of effort. The agency official shall make a reasonable and good faith effort to carry out appropriate identification efforts, which may include background research, consultation,
Advisory Council on Historic Preservation § 800.4

oral history interviews, sample field investigation, and field survey. The agency official shall take into account past planning, research and studies, the magnitude and nature of the undertaking and the degree of Federal involvement, the nature and extent of potential effects on historic properties, and the likely nature and location of historic properties within the area of potential effects. The Secretary’s standards and guidelines for identification provide guidance on this subject. The agency official should also consider other applicable professional, State, tribal, and local laws, standards, and guidelines. The agency official shall take into account any confidentiality concerns raised by Indian tribes or Native Hawaiian organizations during the identification process.

(2) **Phased identification and evaluation.** Where alternatives under consideration consist of corridors or large land areas, or where access to properties is restricted, the agency official may use a phased process to conduct identification and evaluation efforts. The agency official may also defer final identification and evaluation of historic properties if it is specifically provided for in a memorandum of agreement executed pursuant to §800.6, a programmatic agreement executed pursuant to §800.16, a programmatic agreement executed pursuant to §800.16, or the documents used by an agency official to comply with the National Environmental Policy Act pursuant to §800.8. The process should establish the likely presence of historic properties within the area of potential effects for each alternative or inaccessible area through background research, consultation and an appropriate level of field investigation, taking into account the number of alternatives under consideration, the magnitude of the undertaking and its likely effects, and the views of the SHPO/THPO and any other consulting parties. As specific aspects or locations of an alternative are refined or access is gained, the agency official shall proceed with the identification and evaluation of historic properties in accordance with paragraphs (b)(1) and (c) of this section.

(c) **Evaluate historic significance—(1) Apply National Register criteria.** In consultation with the SHPO/THPO and any Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to identified properties and guided by the Secretary’s standards and guidelines for evaluation, the agency official shall apply the National Register criteria (36 CFR part 63) to properties identified within the area of potential effects that have not been previously evaluated for National Register eligibility. The passage of time, changing perceptions of significance, or incomplete prior evaluations may require the agency official to reevaluate properties previously determined eligible or ineligible. The agency official shall acknowledge that Indian tribes and Native Hawaiian organizations possess special expertise in assessing the eligibility of historic properties that may possess religious and cultural significance to them.

(2) **Determine whether a property is eligible.** If the agency official determines any of the National Register criteria are met and the SHPO/THPO agrees, the property shall be considered eligible for the National Register for section 106 purposes. If the agency official determines the criteria are not met and the SHPO/THPO agrees, the property shall be considered not eligible. If the agency official and the SHPO/THPO do not agree, or if the Council or the Secretary so request, the agency official shall obtain a determination of eligibility from the Secretary pursuant to 36 CFR part 63. If an Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to a property off tribal lands does not agree, it may ask the Council to request the agency official to obtain a determination of eligibility.

(d) **Results of identification and evaluation—(1) No historic properties affected.** If the agency official finds that either there are no historic properties present or there are historic properties present but the undertaking will have no effect upon them as defined in §800.16(i), the agency official shall provide documentation of this finding, as set forth in §800.11(d), to the SHPO/THPO. The agency official shall notify all consulting parties, including Indian tribes and Native Hawaiian organizations, and make the documentation available.
§ 800.5 Assessment of adverse effects.

(a) Apply criteria of adverse effect. In consultation with the SHPO/THPO and any Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to identified historic properties, the agency official shall apply the criteria of adverse effect to historic properties within the area of potential effects. The agency official shall consider any views concerning such effects which have been provided by consulting parties and the public.

(1) Criteria of adverse effect. An adverse effect is found when an undertaking may alter, directly or indirectly, any of the characteristics of a historic property as identified by the criteria set forth in paragraphs (d)(1)(ii) through (d)(1)(iv)(C) of this section. The person to whom the Council addresses its opinion (the agency official or the head of the agency) shall take into account the Council’s opinion before the agency reaches a final decision on the finding.

§ 800.5

historic property that qualify the property for inclusion in the National Register in a manner that would diminish the integrity of the property’s location, design, setting, materials, workmanship, feeling, or association. Consideration shall be given to all qualifying characteristics of a historic property, including those that may have been identified subsequent to the original evaluation of the property’s eligibility for the National Register. Adverse effects may include reasonably foreseeable effects caused by the undertaking that may occur later in time, be farther removed in distance or be cumulative.

(2) Examples of adverse effects. Adverse effects on historic properties include, but are not limited to:

(i) Physical destruction of or damage to all or part of the property;

(ii) Alteration of a property, including restoration, rehabilitation, repair, maintenance, stabilization, hazardous material remediation, and provision of handicapped access, that is not consistent with the Secretary’s standards for the treatment of historic properties (36 CFR part 68) and applicable guidelines;

(iii) Removal of the property from its historic location;

(iv) Change of the character of the property’s use or of physical features within the property’s setting that contribute to its historic significance;

(v) Introduction of visual, atmospheric or audible elements that diminish the integrity of the property’s significant historic features;

(vi) Neglect of a property which causes its deterioration, except where such neglect and deterioration are recognized qualities of a property of religious and cultural significance to an Indian tribe or Native Hawaiian organization; and

(vii) Transfer, lease, or sale of property out of Federal ownership or control without adequate and legally enforceable restrictions or conditions to ensure long-term preservation of the property’s historic significance.

(3) Phased application of criteria. Where alternatives under consideration consist of corridors or large land areas, or where access to properties is restricted, the agency official may use a phased process in applying the criteria of adverse effect consistent with phased identification and evaluation efforts conducted pursuant to §800.4(b)(2).

(b) Finding of no adverse effect. The agency official, in consultation with the SHPO/THPO, may propose a finding of no adverse effect when the undertaking’s effects do not meet the criteria of paragraph (a)(1) of this section or the undertaking is modified or conditions are imposed, such as the subsequent review of plans for rehabilitation by the SHPO/THPO to ensure consistency with the Secretary’s standards for the treatment of historic properties (36 CFR part 68) and applicable guidelines, to avoid adverse effects.

(c) Consulting party review. If the agency official proposes a finding of no adverse effect, the agency official shall notify all consulting parties of the finding and provide them with the documentation specified in §800.11(e). The SHPO/THPO shall have 30 days from receipt to review the finding.

(1) Agreement with, or no objection to, finding. Unless the Council is reviewing the finding pursuant to paragraph (c)(3) of this section, the agency official may proceed after the close of the 30 day review period if the SHPO/THPO has agreed with the finding or has not provided a response, and no consulting party has objected. The agency official shall then carry out the undertaking in accordance with paragraph (d)(1) of this section.

(2) Disagreement with finding. (i) If within the 30 day review period the SHPO/THPO or any consulting party notifies the agency official in writing that it disagrees with the finding and specifies the reasons for the disagreement in the notification, the agency official shall either consult with the party to resolve the disagreement, or request the Council to review the finding pursuant to paragraphs (c)(3)(i) and (c)(3)(ii) of this section. The agency official shall include with such request the documentation specified in §800.11(e). The agency official shall also concurrently notify all consulting parties that such a submission has been made and make the submission documentation available to the public.
§ 800.6 Resolution of adverse effects.

(a) Continue consultation. The agency official shall consult with the SHPO/THPO and other consulting parties, including Indian tribes and Native Hawaiian organizations, to develop and evaluate alternatives or modifications to the undertaking that could avoid, minimize, or mitigate adverse effects on historic properties.

(b) The person to whom the Council addresses its opinion (the agency official or the head of the agency) shall prepare a summary of the decision that contains the rationale for the decision and evidence of consideration of the Council's opinion, and provide it to the Council, the SHPO/THPO, and the consulting parties. The head of the agency may delegate his or her duties under this paragraph to the agency's senior policy official. If the agency official's initial finding will be revised, the agency official shall proceed in accordance with the revised finding. If the final decision of the agency is to affirm the initial finding of no adverse effect, once the summary of the decision has been sent to the Council, the SHPO/THPO, and the consulting parties, the agency official's responsibilities under section 106 are fulfilled.

(C) The Council shall retain a record of agency responses to Council opinions on their findings of no adverse effects. The Council shall make this information available to the public.

(d) Results of assessment—(1) No adverse effect. The agency official shall maintain a record of the finding and provide information on the finding to the public on request, consistent with the confidentiality provisions of §800.11(c). Implementation of the undertaking in accordance with the finding as documented fulfills the agency official's responsibilities under section 106 and this part. If the agency official will not conduct the undertaking as proposed in the finding, the agency official shall reopen consultation under paragraph (a) of this section.

(2) Adverse effect. If an adverse effect is found, the agency official shall consult further to resolve the adverse effect pursuant to §800.6.
(1) **Notify the Council and determine Council participation.** The agency official shall notify the Council of the adverse effect finding by providing the documentation specified in §800.11(e).

(i) The notice shall invite the Council to participate in the consultation when:

(A) The agency official wants the Council to participate;

(B) The undertaking has an adverse effect upon a National Historic Landmark; or

(C) A programmatic agreement under §800.14(b) will be prepared;

(ii) The SHPO/THPO, an Indian tribe or Native Hawaiian organization, or any other consulting party may at any time independently request the Council to participate in the consultation.

(iii) The Council shall advise the agency official and all consulting parties whether it will participate within 15 days of receipt of notice or other request. Prior to entering the process, the Council shall provide written notice to the agency official and the consulting parties that its decision to participate meets the criteria set forth in appendix A to this part. The Council shall also advise the head of the agency of its decision to enter the process. Consultation with Council participation is conducted in accordance with paragraph (b)(2) of this section.

(iv) If the Council does not join the consultation, the agency official shall proceed with consultation in accordance with paragraph (b)(1) of this section.

(2) **Involve consulting parties.** In addition to the consulting parties identified under §800.3(f), the agency official, the SHPO/THPO and the Council, if participating, may agree to invite other individuals or organizations to become consulting parties. The agency official shall invite any individual or organization that will assume a specific role or responsibility in a memorandum of agreement to participate as a consulting party.

(3) **Provide documentation.** The agency official shall provide to all consulting parties the documentation specified in §800.11(e), subject to the confidentiality provisions of §800.11(c), and such other documentation as may be developed during the consultation to resolve adverse effects.

(4) **Involve the public.** The agency official shall make information available to the public, including the documentation specified in §800.11(e), subject to the confidentiality provisions of §800.11(c). The agency official shall provide an opportunity for members of the public to express their views on resolving adverse effects of the undertaking. The agency official should use appropriate mechanisms, taking into account the magnitude of the undertaking and the nature of its effects upon historic properties, the likely effects on historic properties, and the relationship of the Federal involvement to the undertaking to ensure that the public’s views are considered in the consultation. The agency official should also consider the extent of notice and information concerning historic preservation issues afforded the public at earlier steps in the section 106 process to determine the appropriate level of public involvement when resolving adverse effects so that the standards of §800.2(d) are met.

(5) **Restrictions on disclosure of information.** Section 304 of the act and other authorities may limit the disclosure of information under paragraphs (a)(3) and (a)(4) of this section. If an Indian tribe or Native Hawaiian organization objects to the disclosure of information or if the agency official believes that there are other reasons to withhold information, the agency official shall comply with §800.11(c) regarding the disclosure of such information.

(b) **Resolve adverse effects—(1) Resolution without the Council.** (i) The agency official shall consult with the SHPO/THPO and other consulting parties to seek ways to avoid, minimize or mitigate the adverse effects.

(ii) The agency official may use standard treatments established by the Council under §800.14(d) as a basis for a memorandum of agreement.

(iii) If the Council decides to join the consultation, the agency official shall follow paragraph (b)(2) of this section.

(iv) If the agency official and the SHPO/THPO agree on how the adverse effects will be resolved, they shall execute a memorandum of agreement. The agency official must submit a copy of
the executed memorandum of agreement, along with the documentation specified in §800.11(f), to the Council prior to approving the undertaking in order to meet the requirements of section 106 and this subpart.

(v) If the agency official, and the SHPO/THPO fail to agree on the terms of a memorandum of agreement, the agency official shall request the Council to join the consultation and provide the Council with the documentation set forth in §800.11(g). If the Council decides to join the consultation, the agency official shall proceed in accordance with paragraph (b)(2) of this section. If the Council decides not to join the consultation, the Council will notify the agency and proceed to comment in accordance with §800.7(c).

(2) Resolution with Council participation. If the Council decides to participate in the consultation, the agency official shall consult with the SHPO/THPO, the Council, and other consulting parties, including Indian tribes and Native Hawaiian organizations under §800.2(c)(3), to seek ways to avoid, minimize or mitigate the adverse effects. If the agency official, the SHPO/THPO, and the Council agree on how the adverse effects will be resolved, they shall execute a memorandum of agreement.

(c) Memorandum of agreement. A memorandum of agreement executed and implemented pursuant to this section evidences the agency official’s compliance with section 106 and this part and shall govern the undertaking and all of its parts. The agency official shall ensure that the undertaking is carried out in accordance with the memorandum of agreement.

(i) Signatories. The signatories have sole authority to execute, amend or terminate the agreement in accordance with this subpart.

(ii) The agency official and the SHPO/THPO are the signatories to a memorandum of agreement executed pursuant to §800.7(a)(2).

(iii) The agency official may invite an Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to historic properties located off tribal lands to be a signatory to a memorandum of agreement concerning such properties.

(iv) The agency official should invite any party that assumes a responsibility under a memorandum of agreement to be a signatory.

(iv) The refusal of any party invited to become a signatory to a memorandum of agreement pursuant to paragraph (c)(2) of this section does not invalidate the memorandum of agreement.

(3) Concurrence by others. The agency official may invite all consulting parties to concur in the memorandum of agreement. The signatories may agree to invite others to concur. The refusal of any party invited to concur in the memorandum of agreement does not invalidate the memorandum of agreement.

(4) Reports on implementation. Where the signatories agree it is appropriate, a memorandum of agreement shall include a provision for monitoring and reporting on its implementation.

(5) Duration. A memorandum of agreement shall include provisions for termination and for reconsideration of terms if the undertaking has not been implemented within a specified time.

(6) Discoveries. Where the signatories agree it is appropriate, a memorandum of agreement shall include provisions to deal with the subsequent discovery or identification of additional historic properties affected by the undertaking.

(7) Amendments. The signatories to a memorandum of agreement may amend it. If the Council was not a signatory
§ 800.7 Failure to resolve adverse effects.

(a) Termination of consultation. After consulting to resolve adverse effects pursuant to §800.6(b)(2), the agency official, the SHPO/THPO, or the Council may determine that further consultation will not be productive and terminate consultation. Any party that terminates consultation shall notify the other consulting parties and provide them the reasons for terminating in writing.

(1) If the agency official terminates consultation, the head of the agency or an Assistant Secretary or other officer with major department-wide or agency-wide responsibilities shall request that the Council comment pursuant to paragraph (c)(1) of this section and shall notify all consulting parties of the request.

(2) If the SHPO terminates consultation, the agency official and the Council may execute a memorandum of agreement without the SHPO’s involvement.

(3) If a THPO terminates consultation regarding an undertaking occurring on or affecting historic properties on its tribal lands, the Council shall comment pursuant to paragraph (c) of this section.

(4) If the Council terminates consultation, the Council shall notify the agency official, the agency’s Federal preservation officer and all consulting parties of the termination and comment under paragraph (c) of this section. The Council may consult with the agency’s Federal preservation officer prior to terminating consultation to seek to resolve issues concerning the undertaking and its effects on historic properties.

(b) Comments without termination. The Council may determine that it is appropriate to provide additional advisory comments upon an undertaking for which a memorandum of agreement will be executed. The Council shall provide them to the agency official when it executes the memorandum of agreement.

(c) Comments by the Council—(1) Preparation. The Council shall provide an opportunity for the agency official, all consulting parties, and the public to provide their views within the time frame for developing its comments. Upon request of the Council, the agency official shall provide additional existing information concerning the undertaking and assist the Council in arranging an onsite inspection and an opportunity for public participation.

(2) Timing. The Council shall transmit its comments within 45 days of receipt of a request under paragraph (a)(1) or (a)(3) of this section or §800.8(c)(3), or termination by the Council under §800.6(b)(1)(v) or paragraph (a)(4) of this section, unless otherwise agreed to by the agency official.

(3) Transmittal. The Council shall provide its comments to the head of the agency requesting comment with copies to the agency official, the agency’s Federal preservation officer, all consulting parties, and others as appropriate.

(4) Response to Council comment. The head of the agency shall take into account the Council’s comments in reaching a final decision on the undertaking. Section 110(l) of the act directs that the head of the agency shall document this decision and may not delegate his or her responsibilities pursuant to section 106. Documenting the agency head’s decision shall include:

(i) Preparing a summary of the decision that contains the rationale for the decision and evidence of consideration of the Council’s comments and providing it to the Council prior to approval of the undertaking;
(ii) Providing a copy of the summary to all consulting parties; and
(iii) Notifying the public and making the record available for public inspection.

§ 800.8 Coordination With the National Environmental Policy Act.

(a) General principles—(1) Early coordination. Federal agencies are encouraged to coordinate compliance with section 106 and the procedures in this part with any steps taken to meet the requirements of the National Environmental Policy Act (NEPA). Agencies should consider their section 106 responsibilities as early as possible in the NEPA process, and plan their public participation, analysis, and review in such a way that they can meet the purposes and requirements of both statutes in a timely and efficient manner. The determination of whether an undertaking is a “major Federal action significantly affecting the quality of the human environment,” and therefore requires preparation of an environmental impact statement (EIS) under NEPA, should include consideration of the undertaking’s likely effects on historic properties. A finding of adverse effect on a historic property does not necessarily require an EIS under NEPA.

(2) Consulting party roles. SHPO/THPOs, Indian tribes, and Native Hawaiian organizations, other consulting parties, and organizations and individuals who may be concerned with the possible effects of an agency action on historic properties should be prepared to consult with agencies early in the NEPA process, when the purpose of and need for the proposed action as well as the widest possible range of alternatives are under consideration.

(3) Inclusion of historic preservation issues. Agency officials should ensure that preparation of an environmental assessment (EA) and finding of no significant impact (FONSI) or an EIS and record of decision (ROD) includes appropriate scoping, identification of historic properties, assessment of effects upon them, and consultation leading to resolution of any adverse effects.

(b) Actions categorically excluded under NEPA. If a project, activity, or program is categorically excluded from NEPA review under an agency’s NEPA procedures, the agency official shall determine if it still qualifies as an undertaking requiring review under section 106 pursuant to §800.3(a). If so, the agency official shall proceed with section 106 review in accordance with the procedures in this subpart.

(c) Use of the NEPA process for section 106 purposes. An agency official may use the process and documentation required for the preparation of an EA/FONSI or an EIS/ROD to comply with section 106 in lieu of the procedures set forth in §§800.3 through 800.6 if the agency official has notified in advance the SHPO/THPO and the Council that it intends to do so and the following standards are met.

(1) Standards for developing environmental documents to comply with Section 106. During preparation of the EA or draft EIS (DEIS) the agency official shall:
   (i) Identify consulting parties either pursuant to §800.3(f) or through the NEPA scoping process with results consistent with §800.3(f);
   (ii) Identify historic properties and assess the effects of the undertaking on such properties in a manner consistent with the standards and criteria of §§800.4 through 800.5, provided that the scope and timing of these steps may be phased to reflect the agency official’s consideration of project alternatives in the NEPA process and the effort is commensurate with the assessment of other environmental factors;
   (iii) Consult regarding the effects of the undertaking on historic properties with the SHPO/THPO, Indian tribes, and Native Hawaiian organizations that might attach religious and cultural significance to affected historic properties, other consulting parties, and the Council, where appropriate, during NEPA scoping, environmental analysis, and the preparation of NEPA documents;
   (iv) Involve the public in accordance with the agency’s published NEPA procedures; and (v) Develop in consultation with identified consulting parties alternatives and proposed measures that might avoid, minimize or mitigate any adverse effects of the undertaking on historic properties and describe them in the EA or DEIS.
(2) *Review of environmental documents.*

(i) The agency official shall submit the EA, DEIS, or EIS to the SHPO/THPO, Indian tribes, and Native Hawaiian organizations that might attach religious and cultural significance to affected historic properties, and other consulting parties prior to or when making the document available for public comment. If the document being prepared is a DEIS or EIS, the agency official shall also submit it to the Council.

(ii) Prior to or within the time allowed for public comment on the document, a SHPO/THPO, an Indian tribe or Native Hawaiian organization, another consulting party or the Council may object to the agency official that preparation of the EA, DEIS, or EIS has not met the standards set forth in paragraph (c)(1) of this section or that the substantive resolution of the effects on historic properties proposed in an EA, DEIS, or EIS is inadequate. If the agency official receives such an objection, the agency official shall refer the matter to the Council.

(3) *Resolution of objections.* Within 30 days of the agency official’s referral of an objection under paragraph (c)(2)(ii) of this section, the Council shall review the objection and notify the agency as to its opinion on the objection.

(i) If the Council agrees with the objection:

(A) The Council shall provide the agency official and, if the Council determines the issue warrants it, the head of the agency with the Council’s opinion regarding the objection. A Council decision to provide its opinion to the head of an agency shall be guided by the criteria in appendix A to this part. The person to whom the Council addresses its opinion (the agency official or the head of the agency) shall take into account the Council’s opinion in reaching a final decision on the issue of the objection.

(B) The person to whom the Council addresses its opinion (the agency official or the head of the agency) shall prepare a summary of the decision that contains the rationale for the decision and evidence of consideration of the Council’s opinion, and provide it to the Council. The head of the agency may delegate his or her duties under this paragraph to the agency’s senior Policy Official. If the agency official’s initial decision regarding the matter that is the subject of the objection will be revised, the agency official shall proceed in accordance with the revised decision. If the final decision of the agency is to affirm the initial agency decision, once the summary of the final decision has been sent to the Council, the agency official shall continue its compliance with this section.

(ii) If the Council disagrees with the objection, the Council shall so notify the agency official, in which case the agency official shall continue its compliance with this section.

(iii) If the Council fails to respond to the objection within the 30 day period, the agency official shall continue its compliance with this section.

(4) *Approval of the undertaking.* If the agency official has found, during the preparation of an EA or EIS that the effects of an undertaking on historic properties are adverse, the agency official shall develop measures in the EA, DEIS, or EIS to avoid, minimize, or mitigate such effects in accordance with paragraph (c)(1)(v) of this section. The agency official’s responsibilities under section 106 and the procedures in this subpart shall then be satisfied when either:

(i) A binding commitment to such proposed measures is incorporated in:

(A) The ROD, if such measures were proposed in a DEIS or EIS; or

(B) An MOA drafted in compliance with §800.6(c); or

(ii) The Council has commented under §800.7 and received the agency’s response to such comments.

(5) *Modification of the undertaking.* If the undertaking is modified after approval of the FONSI or the ROD in a manner that changes the undertaking or alters its effects on historic properties, or if the agency official fails to ensure that the measures to avoid, minimize or mitigate adverse effects (as specified in either the FONSI or the ROD, or in the binding commitment adopted pursuant to paragraph (c)(4) of this section) are carried out, the agency official shall notify the Council and all consulting parties that supplemental environmental documents will be prepared in compliance with NEPA or that the procedures in §§800.3
§ 800.9 Council review of section 106 compliance.

(a) Assessment of agency official compliance for individual undertakings. The Council may provide to the agency official its advisory opinion regarding the substance of any finding, determination or decision or regarding the adequacy of the agency official’s compliance with the procedures under this part. The Council may provide such advice at any time at the request of any individual, agency or organization or on its own initiative. The agency official shall consider the views of the Council in reaching a decision on the matter in question.

(b) Agency foreclosure of the Council’s opportunity to comment. Where an agency official has failed to complete the requirements of section 106 in accordance with the procedures in this part prior to the approval of an undertaking, the Council’s opportunity to comment may be foreclosed. The Council may review a case to determine whether a foreclosure has occurred. The Council shall notify the agency official and the agency’s Federal preservation officer and allow 30 days for the agency official to provide information as to whether foreclosure has occurred. If the Council determines foreclosure has occurred, the Council shall transmit the determination to the agency official and the head of the agency. The Council shall also make the determination available to the public and any parties known to be interested in the undertaking and its effects upon historic properties.

(c) Intentional adverse effects by applicants—(1) Agency responsibility. Section 110(k) of the act prohibits a Federal agency from granting a loan, loan guarantee, permit, license or other assistance to an applicant who, with intent to avoid the requirements of section 106, has intentionally significantly adversely affected a historic property to which the grant would relate, or having legal power to prevent it, has allowed such significant adverse effect to occur, unless the agency, after consultation with the Council, determines that circumstances justify granting such assistance despite the adverse effect created or permitted by the applicant. Guidance issued by the Secretary pursuant to section 110 of the act governs its implementation.

(2) Consultation with the Council. When an agency official determines, based on the actions of an applicant, that section 110(k) is applicable and that circumstances may justify granting the assistance, the agency official shall notify the Council and provide documentation specifying the circumstances under which the adverse effects to the historic property occurred and the degree of damage to the integrity of the property. This documentation shall include any views obtained from the applicant, SHPO/THPO, an Indian tribe if the undertaking occurs on or affects historic properties on tribal lands, and other parties known to be interested in the undertaking.

(i) Within thirty days of receiving the agency official’s notification, unless otherwise agreed to by the agency official, the Council shall provide the agency official with its opinion as to whether circumstances justify granting assistance to the applicant and any possible mitigation of the adverse effects.

(ii) The agency official shall consider the Council’s opinion in making a decision on whether to grant assistance to the applicant, and shall notify the Council, the SHPO/THPO, and other parties known to be interested in the undertaking prior to granting the assistance.

(3) Compliance with Section 106. If an agency official, after consulting with the Council, determines to grant the assistance, the agency official shall comply with §§ 800.3 through 800.6 to take into account the effects of the undertaking on any historic properties.

(d) Evaluation of Section 106 operations. The Council may evaluate the operation of the section 106 process by periodic reviews of how participants have fulfilled their legal responsibilities and how effectively the outcomes reached advance the purposes of the act.
§ 800.11 Documentation standards.

(a) Adequacy of documentation. The agency official shall ensure that a determination, finding, or agreement under the procedures in this subpart is supported by sufficient documentation to enable any reviewing parties to understand its basis. The agency official shall provide such documentation to the extent permitted by law and within available funds. When an agency official is conducting phased identification or evaluation under this subpart, the documentation standards regarding description of historic properties may be applied flexibly. If the Council, or the SHPO/THPO when the Council is not involved, determines the applicable documentation standards are not met, the Council or the SHPO/THPO, as appropriate, shall notify the agency official and specify the information needed to meet the standard. At the request of the agency official or any of the consulting parties, the Council shall review any disputes over whether documentation standards are met and provide its views to the agency official and the consulting parties.

(b) Format. The agency official may use documentation prepared to comply with the act and recommend methods to improve the effectiveness, coordination, and consistency of those policies and programs with section 106.

§ 800.10 Special requirements for protecting National Historic Landmarks.

(a) Statutory requirement. Section 110(f) of the act requires that the agency official, to the maximum extent possible, undertake such planning and actions as may be necessary to minimize harm to any National Historic Landmark that may be directly and adversely affected by an undertaking. When commenting on such undertakings, the Council shall use the process set forth in §§800.6 through 800.7 and give special consideration to protecting National Historic Landmarks as specified in this section.

(b) Resolution of adverse effects. The agency official shall request the Council to participate in any consultation to resolve adverse effects on National Historic Landmarks conducted under §800.6.

(c) Involvement of the Secretary. The agency official shall notify the Secretary of any consultation involving a National Historic Landmark and invite the Secretary to participate in the consultation where there may be an adverse effect. The Council may request a report from the Secretary under section 213 of the act to assist in the consultation.

(d) Report of outcome. When the Council participates in consultation under this section, it shall report the outcome of the section 106 process, providing its written comments or any memoranda of agreement to which it is a signatory, to the Secretary and the head of the agency responsible for the undertaking.

(2) Improving the operation of section 106. Based upon any evaluation of the section 106 process, the Council may make recommendations to participants, the heads of Federal agencies, and the Secretary of actions to improve the efficiency and effectiveness of the process. Where the Council determines that an agency official or a SHPO/THPO has failed to properly carry out the responsibilities assigned under the process in this part, the Council may participate in individual case reviews conducted under such process in addition to the SHPO/THPO for such period that it determines is necessary to improve performance or correct deficiencies. If the Council finds a pattern of failure by a Federal agency in carrying out its responsibilities under section 106, the Council may review the policies and programs of the agency related to historic preservation pursuant to section 202(a)(6) of the act and recommend methods to improve the effectiveness, coordination, and consistency of those policies and programs with section 106.

§ 800.11 Documentation standards.

(a) Adequacy of documentation. The agency official shall ensure that a determination, finding, or agreement under the procedures in this subpart is supported by sufficient documentation to enable any reviewing parties to understand its basis. The agency official shall provide such documentation to the extent permitted by law and within available funds. When an agency official is conducting phased identification or evaluation under this subpart, the documentation standards regarding description of historic properties may be applied flexibly. If the Council, or the SHPO/THPO when the Council is not involved, determines the applicable documentation standards are not met, the Council or the SHPO/THPO, as appropriate, shall notify the agency official and specify the information needed to meet the standard. At the request of the agency official or any of the consulting parties, the Council shall review any disputes over whether documentation standards are met and provide its views to the agency official and the consulting parties.

(b) Format. The agency official may use documentation prepared to comply
with other laws to fulfill the requirements of the procedures in this subpart, if that documentation meets the standards of this section.

(c) Confidentiality—(1) Authority to withhold information. Section 304 of the act provides that the head of a Federal agency or other public official receiving grant assistance pursuant to the act, after consultation with the Secretary, shall withhold from public disclosure information about the location, character, or ownership of a historic property when disclosure may cause a significant invasion of privacy; risk harm to the historic property; or impede the use of a traditional religious site by practitioners. When the head of a Federal agency or other public official has determined that information should be withheld from the public pursuant to these criteria, the Secretary, in consultation with such Federal agency head or official, shall determine who may have access to the information for the purposes of carrying out the act.

(2) Consultation with the Council. When the information in question has been developed in the course of an agency’s compliance with this part, the Secretary shall consult with the Council in reaching determinations on the withholding and release of information. The Federal agency shall provide the Council with available information, including views of the SHPO/THPO, Indian tribes and Native Hawaiian organizations, related to the confidentiality concern. The Council shall advise the Secretary and the Federal agency within 30 days of receipt of adequate documentation.

(3) Other authorities affecting confidentiality. Other Federal laws and program requirements may limit public access to information concerning an undertaking and its effects on historic properties. Where applicable, those authorities shall govern public access to information developed in the section 106 process and may authorize the agency official to protect the privacy of non-governmental applicants.

(d) Finding of no historic properties affected. Documentation shall include:

(1) A description of the undertaking, specifying the Federal involvement, and its area of potential effects, including photographs, maps, drawings, as necessary;

(2) A description of the steps taken to identify historic properties, including, as appropriate, efforts to seek information pursuant to §800.4(b); and

(3) The basis for determining that no historic properties are present or affected.

(e) Finding of no adverse effect or adverse effect. Documentation shall include:

(1) A description of the undertaking, specifying the Federal involvement, and its area of potential effects, including photographs, maps, and drawings, as necessary;

(2) A description of the steps taken to identify historic properties;

(3) A description of the affected historic properties, including information on the characteristics that qualify them for the National Register;

(4) A description of the undertaking’s effects on historic properties;

(5) An explanation of why the criteria of adverse effect were found applicable or inapplicable, including any conditions or future actions to avoid, minimize or mitigate adverse effects; and

(6) Copies or summaries of any views provided by consulting parties and the public.

(f) Memorandum of agreement. When a memorandum of agreement is filed with the Council, the documentation shall include, any substantive revisions or additions to the documentation provided the Council pursuant to §800.6(a)(1), an evaluation of any measures considered to avoid or minimize the undertaking’s adverse effects and a summary of the views of consulting parties and the public.

(g) Requests for comment without a memorandum of agreement. Documentation shall include:

(1) A description and evaluation of any alternatives or mitigation measures that the agency official proposes to resolve the undertaking’s adverse effects;

(2) A description of any reasonable alternatives or mitigation measures that were considered but not chosen, and the reasons for their rejection;
Advisory Council on Historic Preservation

§ 800.13

(3) Copies or summaries of any views submitted to the agency official concerning the adverse effects of the undertaking on historic properties and alternatives to reduce or avoid those effects; and

(4) Any substantive revisions or additions to the documentation provided the Council pursuant to §800.6(a)(1).

§ 800.12 Emergency situations.

(a) Agency procedures. The agency official, in consultation with the appropriate SHPOs/THPOs, affected Indian tribes and Native Hawaiian organizations, and the Council, is encouraged to develop procedures for taking historic properties into account during operations which respond to a disaster or emergency declared by the President, a tribal government, or the Governor of a State or which respond to other immediate threats to life or property. If approved by the Council, the procedures shall govern the agency’s historic preservation responsibilities during any disaster or emergency in lieu of §§800.3 through 800.6.

(b) Alternatives to agency procedures. In the event an agency official proposes an emergency undertaking as an essential and immediate response to a disaster or emergency declared by the President, a tribal government, or the Governor of a State or another immediate threat to life or property, and the agency has not developed procedures pursuant to paragraph (a) of this section, the agency official may comply with section 106 by:

(1) Following a programmatic agreement pursuant to §800.14(b) that contains specific provisions for dealing with historic properties in emergency situations; or

(2) Notifying the Council, the appropriate SHPO/THPO and any Indian tribe or Native Hawaiian organization that may attach religious and cultural significance to historic properties likely to be affected prior to the undertaking and affording them an opportunity to comment within seven days of notification. If the agency official determines that circumstances do not permit seven days for comment, the agency official shall notify the Council, the SHPO/THPO and the Indian tribe or Native Hawaiian organization and invite any comments within the time available.

(c) Local governments responsible for section 106 compliance. When a local government official serves as the agency official for section 106 compliance, paragraphs (a) and (b) of this section also apply to an imminent threat to public health or safety as a result of a natural disaster or emergency declared by a local government’s chief executive officer or legislative body, provided that if the Council or SHPO/THPO objects to the proposed action within seven days, the agency official shall comply with §§800.3 through 800.6.

(d) Applicability. This section applies only to undertakings that will be implemented within 30 days after the disaster or emergency has been formally declared by the appropriate authority. An agency may request an extension of the period of applicability from the Council prior to the expiration of the 30 days. Immediate rescue and salvage operations conducted to preserve life or property are exempt from the provisions of section 106 and this part.

§ 800.13 Post-review discoveries.

(a) Planning for subsequent discoveries—(1) Using a programmatic agreement. An agency official may develop a programmatic agreement pursuant to §800.14(b) to govern the actions to be taken when historic properties are discovered during the implementation of an undertaking.

(2) Using agreement documents. When the agency official’s identification efforts in accordance with §800.4 indicate that historic properties are likely to be discovered during implementation of an undertaking and no programmatic agreement has been developed pursuant to paragraph (a)(1) of this section, the agency official shall include in any finding of no adverse effect or memorandum of agreement a process to resolve any adverse effects upon such properties. Actions in conformance with the process satisfy the agency official’s responsibilities under section 106 and this part.

(b) Discoveries without prior planning. If historic properties are discovered or unanticipated effects on historic properties found after the agency official has completed the section 106 process
§ 800.14 Federal agency program alternatives.

(a) Alternate procedures. An agency official may develop procedures to implement section 106 and substitute them for all or part of subpart B of this part if they are consistent with the Council’s regulations pursuant to section 110(a)(2)(E) of the act.

(1) Development of procedures. The agency official shall consult with the Council, the National Conference of State Historic Preservation Officers, or individual SHPO/THPOs, as appropriate, and Indian tribes and Native Hawaiian organizations, as specified in paragraph (f) of this section, in the development of alternate procedures, publish notice of the availability of proposed alternate procedures in the Federal Register and take other appropriate steps to seek public input during the development of alternate procedures.

(2) Council review. The agency official shall submit the proposed alternate procedures to the Council for a 60-day review period. If the Council finds the procedures to be consistent with this part, it shall notify the agency official and the agency official may adopt them as final alternate procedures.

(c) Eligibility of properties. The agency official, in consultation with the SHPO/THPO, may assume a newly-discovered property to be eligible for the National Register for purposes of section 106. The agency official shall specify the National Register criteria used to assume the property’s eligibility so that information can be used in the resolution of adverse effects.
Advisory Council on Historic Preservation § 800.14

(4) Legal effect. Alternate procedures adopted pursuant to this subpart substitute for the Council’s regulations for the purposes of the agency’s compliance with section 106, except that where an Indian tribe has entered into an agreement with the Council to substitute tribal historic preservation regulations for the Council’s regulations under section 101(d)(5) of the act, the agency shall follow those regulations in lieu of the agency’s procedures regarding undertakings on tribal lands. Prior to the Council entering into such agreements, the Council will provide Federal agencies notice and opportunity to comment on the proposed substitute tribal regulations.

(b) Programmatic agreements. The Council and the agency official may negotiate a programmatic agreement to govern the implementation of a particular program or the resolution of adverse effects from certain complex project situations or multiple undertakings.

(1) Use of programmatic agreements. A programmatic agreement may be used:

(i) When effects on historic properties are similar and repetitive or are multi-State or regional in scope;

(ii) When effects on historic properties cannot be fully determined prior to approval of an undertaking;

(iii) When nonfederal parties are delegated major decisionmaking responsibilities;

(iv) Where routine management activities are undertaken at Federal installations, facilities, or other land-management units; or

(v) Where other circumstances warrant a departure from the normal section 106 process.

(2) Developing programmatic agreements for agency programs. (i) The consultation shall involve, as appropriate, SHPO/THPOs, the National Conference of State Historic Preservation Officers (NCSHPO), Indian tribes and Native Hawaiian organizations, other Federal agencies, and members of the public. If the programmatic agreement has the potential to affect historic properties on tribal lands or historic properties of religious and cultural significance to an Indian tribe or Native Hawaiian organization, the agency official shall also follow paragraph (f) of this section.

(ii) Public participation. The agency official shall arrange for public participation appropriate to the subject matter and the scope of the program and in accordance with subpart A of this part. The agency official shall consider the nature of the program and its likely effects on historic properties and take steps to involve the individuals, organizations and entities likely to be interested.

(iii) Effect. The programmatic agreement shall take effect when executed by the Council, the agency official and the appropriate SHPOs/THPOs when the programmatic agreement concerns a specific region or the president of NCSHPO when NCSHPO has participated in the consultation. A programmatic agreement shall take effect on tribal lands only when the THPO, Indian tribe, or a designated representative of the tribe is a signatory to the agreement. Compliance with the procedures established by an approved programmatic agreement satisfies the agency’s section 106 responsibilities for all individual undertakings of the program covered by the agreement until it expires or is terminated by the agency, the president of NCSHPO when a signatory, or the Council. Termination by an individual SHPO/THPO shall only terminate the application of a regional programmatic agreement within the jurisdiction of the SHPO/THPO. If a THPO assumes the responsibilities of a SHPO pursuant to section 101(d)(2) of the act and the SHPO is signatory to programmatic agreement, the THPO assumes the role of a signatory, including the right to terminate a regional programmatic agreement on lands under the jurisdiction of the tribe.

(iv) Notice. The agency official shall notify the parties with which it has consulted that a programmatic agreement has been executed under paragraph (b) of this section, provide appropriate public notice before it takes effect, and make any internal agency procedures implementing the agreement readily available to the Council, SHPO/THPOs, and the public.

(v) If the Council determines that the terms of a programmatic agreement are not being carried out, or if such an
agreement is terminated, the agency official shall comply with subpart B of this part with regard to individual undertakings of the program covered by the agreement.

(3) Developing programmatic agreements for complex or multiple undertakings. Consultation to develop a programmatic agreement for dealing with the potential adverse effects of complex projects or multiple undertakings shall follow §800.6. If consultation pertains to an activity involving multiple undertakings and the parties fail to reach agreement, then the agency official shall comply with the provisions of subpart B of this part for each individual undertaking.

(4) Prototype programmatic agreements. The Council may designate an agreement document as a prototype programmatic agreement that may be used for the same type of program or undertaking in more than one case or area. When an agency official uses such a prototype programmatic agreement, the agency official may develop and execute the agreement with the appropriate SHPO/THPO and the agreement shall become final without need for Council participation in consultation or Council signature.

(c) Exempted categories. The Council may designate an agreement document as a prototype programmatic agreement that may be used for the same type of program or undertaking in more than one case or area. When an agency official uses such a prototype programmatic agreement, the agency official may develop and execute the agreement with the appropriate SHPO/THPO and the agreement shall become final without need for Council participation in consultation or Council signature.

(1) Criteria for establishing. The Council or an agency official may propose a program or category of undertakings that may be exempted from review under the provisions of subpart B of this part, if the program or category meets the following criteria:

(i) The actions within the program or category would otherwise qualify as "undertakings" as defined in §800.16;

(ii) The potential effects of the undertakings within the program or category upon historic properties are foreseeable and likely to be minimal or not adverse; and

(iii) Exemption of the program or category is consistent with the purposes of the act.

(2) Public participation. The proponent of the exemption shall arrange for public participation appropriate to the subject matter and the scope of the exemption and in accordance with the standards in subpart A of this part. The proponent of the exemption shall consider the nature of the exemption and its likely effects on historic properties and take steps to involve individuals, organizations and entities likely to be interested.

(3) Consultation with SHPOs/THPOs. The proponent of the exemption shall notify and consider the views of the SHPOs/THPOs on the exemption.

(4) Consultation with Indian tribes and Native Hawaiian organizations. If the exempted program or category of undertakings has the potential to affect historic properties on tribal lands or historic properties of religious and cultural significance to an Indian tribe or Native Hawaiian organization, the Council shall follow the requirements for the agency official set forth in paragraph (f) of this section.

(5) Council review of proposed exemptions. The Council shall review an exemption proposal that is supported by documentation describing the program or category for which the exemption is sought, demonstrating that the criteria of paragraph (c)(1) of this section have been met, describing the methods used to seek the views of the public, and summarizing any views submitted by the SHPO/THPOs, the public, and any others consulted. Unless it requests further information, the Council shall approve or reject the proposed exemption within 30 days of receipt, and thereafter notify the relevant agency official and SHPO/THPOs of the decision. The decision shall be based on the consistency of the exemption with the purposes of the act, taking into consideration the magnitude of the exempted undertaking or program and the likelihood of impairment of historic properties in accordance with section 214 of the act.

(6) Legal consequences. Any undertaking that falls within an approved exempted program or category shall require no further review pursuant to subpart B of this part, unless the agency official or the Council determines that there are circumstances under which the normally excluded undertaking should be reviewed under subpart B of this part.

(7) Termination. The Council may terminate an exemption at the request of the agency official or when the Council determines that the exemption no longer meets the criteria of paragraph
(c)(1) of this section. The Council shall notify the agency official 30 days before termination becomes effective.

(8) Notice. The proponent of the exemption shall publish notice of any approved exemption in the Federal Register.

(d) Standard treatments—(1) Establishment. The Council, on its own initiative or at the request of another party, may establish standard methods for the treatment of a category of historic properties, a category of undertakings, or a category of effects on historic properties to assist Federal agencies in satisfying the requirements of subpart B of this part. The Council shall publish notice of standard treatments in the Federal Register.

(2) Public participation. The Council shall arrange for public participation appropriate to the subject matter and the scope of the standard treatment and consistent with subpart A of this part. The Council shall consider the nature of the undertakings and their likely effects on historic properties and the individuals, organizations and entities likely to be interested. Where an agency official has proposed a standard treatment, the Council may request the agency official to arrange for public involvement.

(3) Consultation with SHPOs/THPOs. The Council shall notify and consider the views of SHPOs/THPOs on the proposed standard treatment.

(4) Consultation with Indian tribes and Native Hawaiian organizations. If the proposed standard treatment has the potential to affect historic properties on tribal lands or historic properties of religious and cultural significance to an Indian tribe or Native Hawaiian organization, the Council shall follow the requirements for the agency official set forth in paragraph (f) of this section.

(5) Council action. Unless the Council requests additional documentation, notifies the agency official that it will decline to comment, or obtains the consent of the agency official to extend the period for providing comment, the Council shall comment to the agency official within 45 days of the request.

(i) If the Council comments, the agency official shall take into account the comments of the Council in carrying out the undertakings within the category and publish notice in the Federal Register of the Council’s comments and steps the agency will take to ensure that effects to historic properties are taken into account.

(ii) If the Council declines to comment, the agency official shall continue to comply with the requirements of §§800.3 through 800.6 for the individual undertakings.

(6) Withdrawal of comment. If the Council determines that the consideration of historic properties is not being

APPENDIX A TO PART 800—CRITERIA FOR COUNCIL INVOLVEMENT IN REVIEWING INDIVIDUAL SECTION 106 CASES

(a) Introduction. This appendix sets forth the criteria that will be used by the Council to determine whether to enter an individual section 106 review that it normally would not be involved in.

(b) General policy. The Council may choose to exercise its authorities under the section 106 regulations to participate in an individual project pursuant to the following criteria. However, the Council will not always elect to participate even though one or more of the criteria may be met:

(c) Specific criteria. The Council is likely to enter the section 106 process at the steps specified in the regulations in this part when an undertaking:

1. Has substantial impacts on important historic properties. This may include adverse effects on properties that possess a national level of significance or on properties that are of unusual or noteworthy importance or are a rare property type; or adverse effects to large numbers of historic properties, such as impacts to multiple properties within a historic district.

2. Presents important questions of policy or interpretation. This may include questions about how the Council’s regulations are being applied or interpreted, including possible foreclosure or anticipatory demolition situations; situations where the outcome will set a precedent affecting Council policies or program goals; or the development of programmatic agreements that alter the way the section 106 process is applied to a group or type of undertakings.

3. Presents potential for presenting procedural problems. This may include cases with substantial public controversy that is related to historic preservation issues; with disputes among or about consulting parties which the Council’s involvement could help resolve; that are involved or likely to be involved in litigation on the basis of section 106; or carried out by a Federal agency, in a State or locality, or on tribal lands where the Council has previously identified problems with section 106 compliance pursuant to §800.9(d)(2).

4. Presents issues of concern to Indian tribes or Native Hawaiian organizations. This may include cases where there have been concerns raised about the identification of, evaluation of, or assessment of effects on historic properties to which an Indian tribe or Native Hawaiian organization attaches religious and cultural significance; where an Indian tribe or Native Hawaiian organization has requested Council involvement to assist in the resolution of adverse effects; or where there are questions relating to policy, interpretation or precedent under section 106 or its relation to other authorities, such as the Native American Graves Protection and Repatriation Act.
(b) Section 110(c) of the HCDA of 1980 requires UDAG applicants to: (1) Identify all properties, if any, which are included in the National Register of Historic Places and which will be affected by the project for which the application is made; (2) identify all other properties, if any, which will be affected by such project and which, as determined by the applicant, may meet the Criteria established by the Secretary of the Interior for inclusion in the National Register (36 CFR 60.6); and (3) provide a description of the effect, as determined by the applicant, of the project on properties identified pursuant to (1) and (2). If the applicant determines that such properties are affected, the Act requires that the information developed by the applicant must be forwarded to the appropriate State Historic Preservation Officer (SHPO) for review and to the Secretary of the Interior for a determination as to whether the affected properties are eligible for inclusion in the National Register.

(c) Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), requires the head of any Federal agency with jurisdiction over a Federal, federally assisted or federally licensed undertaking that affects a property included in or eligible for inclusion in the National Register of Historic Places to take into account the effect of the undertaking on such property and afford the Council a reasonable opportunity to comment. Under the UDAG program, applicants assume the status of a Federal agency for purposes of complying with section 106.

§ 801.2 Definitions.

The terms defined in 36 CFR 800.2 shall be used in conjunction with this regulation. Furthermore, as used in these regulations:

(a) Urban Development Action Grant (UDAG) Program means the program of the Department of Housing and Urban Development (HUD) authorized by title I of the Housing and Community Development Act (HCDA) of 1977 (42 U.S.C. 5311) to assist revitalization efforts in distressed cities and urban counties which require increased public and private investment.

(b) Applicant means cities and urban counties or Pocket of Poverty Communities which meet the criteria at 24 CFR 570.453. Except as specifically provided below, applicants, rather than the Secretary of HUD, must comply with these regulations.

(c) Project means a commercial, industrial, and/or neighborhood project supported by the UDAG program of the Department of HUD, as defined in 24 CFR 570.451(g). A project includes the group of integrally related public and private activities described in the grant application which are to be carried out to meet the objectives of the action grant program and consists of all action grant funded activities together with all non-action grant funded activities. A project is an undertaking as defined in 36 CFR 800.2(c).

(d) State Historic Preservation Officer Review Period is a 45 day period provided to the appropriate State Historic Preservation Officer by section 110(c) of the Housing and Community Development Act (HCDA) of 1980 for comment on the formal submission by the applicant of data on properties listed in the National Register or which may meet the Criteria and which will be affected by the proposed UDAG project. This period does not include any period during which the applicant seeks information from the State Historic Preservation Officer to assist the applicant in identifying properties, determining whether a property meets the Criteria for listing in the National Register of Historic Places and determining whether such property is affected by the project.

(e) Secretary of the Interior Determination Period is a 45 day period provided by section 110(c) of the HCDA of 1980 for a determination as to whether the identified properties are eligible for inclusion in the National Register.

§ 801.3 Applicant responsibilities.

As early as possible before the applicant makes a final decision concerning a project and in any event prior to taking any action that would foreclose alternatives or the Council’s ability to comment, the applicant should take the following steps to comply with the
requirements of section 106 of the National Historic Preservation Act and section 110 of the HCDA of 1980.

In order to facilitate the commenting process the applicant should forward to the Council information on the proposed project at the earliest practicable time if it appears that National Register properties or properties which meet the Criteria for inclusion will be affected. This will allow the Council to assist the applicant in expeditiously meeting its historic preservation requirements and facilitate the development of the Council’s comments.

(a) Information required. It is the primary responsibility of the applicant requesting Council comments to conduct the appropriate studies and to provide the information necessary for a review of the effect a proposed project may have on a National Register property or a property which meets the Criteria, as well as the information necessary for adequate consideration of modifications or alterations to the proposed project that could avoid, mitigate, or minimize any adverse effects. It is the responsibility of the applicant to provide the information specified in §801.7, to make an informed and reasonable evaluation of whether a property meets the National Register Criteria (36 CFR 60.6) and to determine the effect of a proposed undertaking on a National Register property or property which meets the Criteria.

(b) Identification of properties. Section 110 of the HCDA of 1980 makes UDAG applicants responsible for the identification of National Register properties and properties which may meet the Criteria for listing in the National Register that may be affected by the project. An appendix to these regulations sets forth guidance to applicants in meeting their identification responsibilities but does not set a fixed or inflexible standard for such efforts. Meeting this responsibility requires the applicant to make an earnest effort to identify and evaluate potentially affected historic properties by:

(1) Consulting the National Register of Historic Places to determine whether the project’s impact area includes such properties;

(2) Obtaining, prior to initiating the State Historic Preservation Officer Review Period, relevant information that the State Historic Preservation Officer may have available concerning historic properties, if any are known, in the project’s impact area;

(3) Utilizing local plans, surveys, and inventories of historic properties prepared by the locality or a recognized State or local historic authority;

(4) Utilizing other sources of information or advice the applicant deems appropriate;

(5) Conducting an on-the-ground inspection of the project’s impact area by qualified personnel to identify properties which may meet the Criteria for evaluation taking into consideration the views of the State Historic Preservation Officer as to the need for and methodology of such inspections;

(c) Evaluation of effect. Applicants are required by section 110(a) of the HCDA of 1980 to include in their applications a description of the effect of a proposed UDAG project on any National Register property and or any property which may meet the Criteria.

(1) Criteria of Effect and Adverse Effect. The following criteria, similar to those set forth in 36 CFR 800.3, shall be used to determine whether a project has an effect or an adverse effect.

(1) Criteria of effect. The effect of a project on a National Register or eligible property is evaluated in the context of the historical, architectural, archeological, or cultural significance possessed by the property. A project shall be considered to have an effect whenever any condition of the project causes or may cause any change, beneficial or adverse, in the quality of the historical, architectural, archeological, or cultural characteristics that qualify the property to meet the Criteria of the National Register. An effect occurs when a project changes the integrity of location, design, setting, materials, workmanship, feeling or association of the property that contributes to its significance in accordance with the National Register Criteria. An effect may be direct or indirect. Direct effects are caused by the project and occur at the same time and place. Indirect effects
Advisory Council on Historic Preservation § 801.3

include those caused by the undertaking that are later in time or farther removed in distance, but are still reasonably foreseeable. Such effects involve development of the project site around historic properties so as to affect the access to, use of, or significance of those properties.

(ii) Criteria of adverse effect. Adverse effects on National Register properties or properties which meet the Criteria may occur under conditions which include but are not limited to:

(A) Destruction or alteration of all or part of a property;
(B) Isolation from or alteration of the property’s surrounding environment;
(C) Introduction of visual, audible, or atmospheric elements that are out of character with the property or alter its setting;
(D) Neglect of a property resulting in its deterioration or destruction;

(iii) Special considerations. If rehabilitation is a project activity, such components of the project may be considered to have no adverse effect and need not be referred to the Council if they are undertaken in accordance with the Secretary of the Interior’s Standards for Historic Preservation Projects (U.S. Department of the Interior, Heritage Conservation and Recreation Service, Washington, DC, 1979) and the State Historic Preservation Officer concurs in the proposed activity. Additionally, the following types of project components or elements will be considered to not normally adversely affect properties listed in the National Register or which meet the Criteria.

(A) Insulation (except for the use of granular or liquid injected foam insulation in exterior walls or other vertical surfaces);
(B) Caulking;
(C) Weatherstripping;
(D) Replacement of Heating, Ventilating and Air Conditioning (HVAC) equipment, provided that such equipment is not historic and that replacement equipment is screened from public view and that the State Historic Preservation Officer and the applicant agree the equipment will not affect those qualities of the property which qualify it to meet the 36 CFR 60.6 Criteria;
(E) In-kind refenestration (for example, replacement of deteriorated windows of a similar configuration, color and material);
(F) Lowering of ceilings, provided the ceilings will not be visible from outside of the building or from an interior public space and that the State Historic Preservation Officer and the applicant agree it will not affect a quality which qualified the building to meet the 36 CFR 60.6 Criteria;
(G) Replacement in-kind of substantially deteriorated material, provided that the State Historic Preservation Officer and the applicant agree;
(H) Installation of machinery, equipment, furnishings, fixtures, etc., in the interior of existing buildings, provided that the State Historic Preservation Officer and the applicant agree such installations will not affect a quality which qualified the building to meet the 36 CFR 60.6 Criteria.

(2) Site improvements such as sidewalk paving and landscaping, provided that the State Historic Preservation Officer and the applicant agree that the site improvement will not affect those qualities of the property which qualify it to meet the 36 CFR 60.6 Criteria.

(iv) Special considerations for archaeological sites. Under certain conditions, alteration of land containing archeological resources in the project area may have no adverse effect on those resources. Procedures for determining whether such conditions exist were published by the Council in the Federal Register on November 26, 1980 (45 FR 78808), as part X of the “Executive Director’s Procedures for Review of Proposals for Treatment of Archeological Properties.” Because the identification of archeological sites in an urban context, and consideration of appropriate treatment methods, present special problems, further guidance is provided in Appendix 2.

(2) Determinations of Effect. Prior to submitting an application to HUD, the applicant shall apply the Criteria of Effect and Adverse Effect to all properties which are listed in the National
Register or which may meet the Criteria in the area of the project’s potential environmental impact. The determination of the Secretary of the Interior shall be final with respect to properties which are eligible for listing in the National Register. The Council will not comment on affected properties which are not either listed in or eligible for listing in the National Register. In order to facilitate the process, information to be requested from the State Historic Preservation Officer under §801.3(b)(2) should include advice on applying the Criteria of Effect and Adverse Effect provided that this period shall not be included in the 45 day State Historic Preservation Officer Review Period. Special attention should be paid to indirect effects, such as changes in land use, traffic patterns, street activity, population density and growth rate. While some aspects of a project may have little potential to adversely affect the significant qualities of a historic property, other project components may meet the Criteria of Effect and Adverse Effect. If any aspect of the project results in an effect determination, further evaluation of the effect shall be undertaken in accordance with these regulations. The resulting determination regarding the effect shall be included in the application.

(i) **No effect.** If the applicant determines that the project will have no effect on any National Register property and/or property which meets the Criteria, the project requires no further review by the Council unless a timely objection is made by the Executive Director. An objection may be made by the Executive Director at any time during the UDAG application process prior to the expiration of the period for receiving objections to HUD’s release of funds as specified in 24 CFR 58.31. The manner in which the Executive Director shall make an objection is set forth in §801.4(a).

(ii) **Determinations of no adverse effect.** If the applicant finds there is an effect on the property but it is not adverse, the applicant after receiving the comments of the State Historic Preservation Officer during the State Historic Preservation Officer Review Period shall forward adequate documentation (see §801.7(a)) of the Determination, including the written comments of the State Historic Preservation Officer, if available, to the Executive Director for review in accordance with §801.4.

(iii) **Adverse effect determination.** If the applicant finds the effect to be adverse or if the Executive Director objects to an applicant’s no adverse effect determination pursuant to §801.4(a), the applicant shall proceed with the consultation process in accordance with §801.4(b).

§ 801.4 Council comments.

The following subsections specify how the Council will respond to an applicant’s request for the Council’s comments required to satisfy the applicant’s responsibilities under section 106 of the Act and section 110 of the HCDA of 1980. When appropriate, an applicant may waive the Council time periods specified in these regulations.

(a) **Executive Director’s Objection to No Effect Determination.** If the Executive Director has reason to question an applicant’s determination of no effect, he shall notify the applicant and HUD. If the Executive Director does not object within 15 days of such notification, the project may proceed. If the Executive Director objects, he shall specify whether or not the project will have an adverse effect on National Register property and/or property which meets the Criteria. Normally, the Executive Director will object to a determination of no effect when the record does not support the applicant’s determination (see §801.7(a)). The applicant must then comply with the provisions of subsection (b) if the Executive Director determines that the project will have no adverse effect or subsection (c) if the Executive Director has determined that the project will have an adverse effect.

(b) **Response to Determinations of No Adverse Effect.** (1) Upon receipt of a Determination of No Adverse Effect from an applicant, the Executive Director will review the Determination and supporting documentation required by §801.7(a). Failure to provide the required information at the time the applicant requests Council comments will delay the process. The Executive Director will respond to the applicant within 15 days after receipt of the information.
Advisory Council on Historic Preservation § 801.4

required in §801.7(a). Unless the Executive Director objects to the Determination within 15 days after receipt, the applicant will be considered to have satisfied its responsibilities under section 106 of the Act and these regulations and no further Council review is required.

(2) If the Executive Director objects to a Determination of No Adverse Effect, the consultation process pursuant to §801.4(c) shall be initiated.

(c) Consultation process. If any aspect of the project is found to have adverse effects on National Register property or property which has been determined by the applicant or the Secretary of the Interior to meet the Criteria, the applicant, the State Historic Preservation Officer and the Executive Director shall consult to consider feasible and prudent alternatives to the project that could avoid, mitigate, or minimize the adverse effect on the affected property.

(1) Parties. The applicant, the State Historic Preservation Officer and the Executive Director shall be the consulting parties. The Department of HUD, other representatives of national, State, or local units of government, other parties in interest, and public and private organizations, may be invited by the consulting parties to participate in the consultation process.

(2) Timing. The consulting parties shall have a total of 45 days from the receipt by the Executive Director of the information required in §801.7(a) to agree upon feasible and prudent alternatives to avoid, mitigate, or minimize any adverse effects of the project. Failure of an applicant to provide the information required in §801.7(b) will delay the beginning of the time period specified above.

(3) Information requirements. The applicant shall provide copies of the information required in §801.7(b) to the consulting parties at the initiation of the consultation process and make it readily available for public inspection.

(4) Public meeting. An onsite Inspection and a Public Information Meeting may be held in accordance with the provisions of 36 CFR 800.6(b). Public hearings or meetings conducted by the applicant in the preparation of the application may, as specified below, substitute for such Public Information Meetings. Upon request of the applicant, the Executive Director may find that such public meetings have been adequate to consider the effect of the project on National Register properties or properties which meet the Criteria, and no further Public Information Meeting is required.

(5) Consideration of alternatives. During the consultation period, the consulting parties shall, in accordance with the policies set forth in 36 CFR 800.6(b) (4) and (5), review the proposed project to determine whether there are prudent and feasible alternatives to avoid or satisfactorily mitigate adverse effect. If they agree on such alternatives, they shall execute a Memorandum of Agreement in accordance with §801.4(c) specifying how the undertaking will proceed to avoid or mitigate the adverse effect.

(6) Acceptance of adverse effect. If the consulting parties determine that there are no feasible and prudent alternatives that could avoid or satisfactorily mitigate the adverse effects and agree that it is in the public interest to proceed with the proposed project they shall execute a Memorandum of Agreement in accordance with §801.4(c) acknowledging this determination and specifying any recording, salvage, or other measures associated with acceptance of the adverse effects that shall be taken before the project proceeds.

(7) Failure to agree. Upon the failure of the consulting parties to agree upon the terms for a Memorandum of Agreement within the specified time period, or upon notice of a failure to agree by any consulting party to the Executive Director, the Executive Director within 15 days shall recommend to the Chairman whether the matter should be scheduled for consideration at a Council meeting. If the Executive Director recommends that the Council not consider the matter, he shall simultaneously notify all Council members and provide them copies of the preliminary case report and the recommendation to the Chairman. The applicant and the State Historic Preservation Officer shall be notified in writing of the Executive Director’s recommendation.
(d) Memorandum of Agreement—

(1) Preparation of Memorandum of Agreement. It shall be the responsibility of the Executive Director to prepare each Memorandum of Agreement required under this part. As appropriate, other parties may be invited by the consulting parties to be signatories to the Agreement or otherwise indicate their concurrence with the Agreement. In order to facilitate the process, the applicant may provide the Executive Director a draft for a Memorandum of Agreement. At the applicant's option, such draft may be prepared at the time the applicant makes its determinations that properties listed in the National Register or which may meet the Criteria for listing in the National Register may be adversely affected. The applicant must provide the State Historic Preservation Officer an opportunity to concur in or comment on its draft Agreement.

(2) Review of Memorandum of Agreement. Upon receipt of an executed Memorandum of Agreement, the Chairman shall institute a 15 day review period. Unless the Chairman notifies the applicant that the matter has been placed on the agenda for consideration at a Council meeting, the Agreement shall become final when ratified by the Chairman or upon the expiration of the 15 day review period with no action taken. Copies will be provided to signatories. A copy of the Memorandum of Agreement should be included in any Environmental Assessment or Environmental Impact Statement prepared pursuant to the National Environmental Policy Act.

(3) Effect of Memorandum of Agreement. (i) Agreements duly executed in accordance with these regulations shall constitute the comments of the Council and shall evidence satisfaction of the applicant's responsibilities for the proposed project under section 106 of the Act and these regulations.

(ii) If the Council has commented on an application that is not approved by HUD and a subsequent UDAG application is made for the same project, the project may not be referred to the Council again unless there is a significant amendment to the project which would alter the effect of the project on previously considered properties or result in effects on additional National Register properties or properties which meet the Criteria.

(iii) Failure to carry out the terms of a Memorandum of Agreement requires that the applicant again request the Council's comments in accordance with these regulations. In such instances, until the Council issues its comments under these regulations the applicant shall not take or sanction any action or make any irreversible or irretrievable commitment that could result in an adverse effect with respect to National Register properties or properties which are eligible for inclusion in the National Register covered by the Agreement or that would foreclose the Council's consideration of modifications or alternatives to the proposed project that could avoid or mitigate the adverse effect.

(4) Amendment of a Memorandum of Agreement. Amendments to the Agreement may be made as specified in 36 CFR 800.6(c)(4).

(5) Report on Memorandum of Agreement. Within 90 days after carrying out the terms of the Agreement, the applicant shall report to all signatories on the actions taken.

(e) Council Meetings. Council meetings to consider a project will be conducted in accordance with the policies set forth in 36 CFR 800.6(d).

(1) Response to recommendation concerning consideration at Council meeting. Upon receipt of a recommendation from the Executive Director concerning consideration of a proposed project at a Council meeting, the Chairman shall determine whether or not the project will be considered. The Chairman shall make a decision within 15 days of receipt of the recommendation of the Executive Director. In reaching a decision the Chairman shall consider any comments from Council members. If three members of the Council object within the 15 day period to the Executive Director's recommendation, the project shall be scheduled for consideration at a Council or panel meeting. Unless the matter is scheduled for consideration by the Council the Chairman shall notify the applicant, the Department of HUD, the State Historic Preservation Officer and other parties known to be interested of
the decision not to consider the matter. Such notice shall be evidence of satisfaction of the applicant’s responsibilities for the proposed project under section 106 of the Act and these regulations.

(2) Decision to consider the project. When the Council will consider a proposed project at a meeting, the Chairman shall either designate five members as a panel to hear the matter on behalf of the full Council or schedule the matter for consideration by the full Council. In either case, the meeting shall take place within 30 days of the Chairman’s decision to consider the project, unless the applicant agrees to a longer time.

(i) A panel shall consist of three non-Federal members, one as Chairman, and two Federal members. The Department of HUD may not be a member of such panel.

(ii) Prior to any panel or full Council consideration of a matter, the Chairman will notify the applicant and the State Historic Preservation Officer and other interested parties of the date on which the project will be considered. The Executive Director, the applicant, the Department of HUD, and the State Historic Preservation Officer shall prepare reports in accordance with §801.7(b). Reports from the applicant and the State Historic Preservation Officer must be received by the Executive Director at least 7 days before any meeting.

(3) Notice of Council meetings. At least 7 days notice of all meetings held pursuant to this section shall be given by publication in the FEDERAL REGISTER. The Council shall provide a copy of the notice by mail to the applicant, the State Historic Preservation Officer, and the Department of Housing and Urban Development. The Council will inform the public of the meeting through appropriate local media.

(4) Statements to the Council. An agenda shall provide for oral statements from the Executive Director; the applicant; the Department of HUD; parties in interest; the Secretary of the Interior; the State Historic Preservation Officer; representatives of national, State, or local units of government; and interested public and private organizations and individuals. Parties wishing to make oral remarks should notify the Executive Director at least two days in advance of the meeting. Parties wishing to have their written statements distributed to Council members prior to the meeting should send copies of the statements to the Executive Director at least 5 days in advance.

(5) Comments of the Council. The written comments of the Council will be issued within 7 days after a meeting. Comments by a panel shall be considered the comments of the full Council. Comments shall be made to the applicant requesting comment and to the Department of HUD. Immediately after the comments are made to the applicant and the Department of HUD, the comments of the Council will be forwarded to the President and the Congress as a special report under authority of section 202(b) of the Act and a notice of availability will be published in the FEDERAL REGISTER. The comments of the Council shall be made available to the State Historic Preservation Officer, other parties in interest, and the public upon receipt of the comments by the applicant. The applicant should include the comments of the Council in any final Environmental Impact Statement prepared pursuant to the National Environmental Policy Act.

(6) Action in response to Council comments. The comments of the Council shall be taken into account in reaching a final decision on the proposed project. When a final decision regarding the proposed project is reached by the applicant and the Department of HUD, they shall submit written reports to the Council describing the actions taken by them and other parties in response to the Council’s comments and the impact that such actions will have on the affected National Register properties or properties eligible for inclusion in the National Register. Receipt of this report by the Chairman shall be evidence that the applicant has satisfied its responsibilities for the proposed project under section 106 of the Act and these regulations. The Council may issue a final report to the President and the Congress under authority of section 202(b) of the Act describing the actions taken in response to the
Council’s comments including recommendations for changes in Federal policy and programs, as appropriate.

(f) **Suspense of Action.** Until the Council issues its comments under these regulations and during the State Historic Preservation Officer Review Period and the determination period of the Secretary of the Interior, good faith consultation shall preclude the applicant from taking or sanctioning any action or making any irreversible or irrevocable commitment that could result in an adverse effect on a National Register property or property which may meet the Criteria or that would foreclose the consideration of modifications or alternatives to the proposed project that could avoid, mitigate, or minimize such adverse effects. In no case shall UDAG funds be used for physical activities on the project site until the Council comments have been completed. Normal planning and processing of applications short of actual commitment of funds to the project may proceed.

(g) **Lead Agency.** If the project proposed by the applicant involves one or more Federal agencies, they may agree on a single lead agency to meet the requirements of section 106 of the National Historic Preservation Act and section 110 of the Housing and Community Development Act of 1980 and notify the Executive Director. If the applicant is the designated lead agency, these regulations shall be followed. If a Federal agency is designated lead agency, the process in 36 CFR part 800 shall be used.

(h) **Compliance by a Federal Agency.** An applicant may make a finding that it proposes to accept a Federal agency’s compliance with section 106 of the Act and 36 CFR part 800 and provide a copy of the Federal agency’s document where the finding occurs. Unless the Executive Director objects within 10 days of receipt of such notice the Council need not be afforded further opportunity for comment. If the Executive Director objects to the finding of the applicant, the applicant shall comply with §801.4.

§ 801.5 State Historic Preservation Officer responsibilities.

(a) The State Historic Preservation Officer shall have standing to participate in the review process established by section 110(c) of the HCDA of 1980 whenever it concerns a project located within the State Historic Preservation Officer’s jurisdiction by the following means: providing, within 30 days, information requested by an applicant under §801.3(b); responding, within 45 days, to submittal of a determination by the applicant under section 110 of the HCDA of 1980 that National Register property or property which meets the Criteria may be affected by the proposed project; participating in a Memorandum of Agreement that the applicant or the Executive Director may prepare under this part; and participating in a panel or full Council meeting that may be held pursuant to these regulations. Pursuant to section 110(c) of the HCDA of 1980, the State Historic Preservation Officer has a maximum period of 45 days in which to formally comment on an applicant’s determination that the project may affect a property that is listed in the National Register or which may meet the Criteria for listing in the National Register. This period does not include the time during which the applicant seeks information from the State Historic Preservation Officer for determining whether a property meets the Criteria for listing in the National Register and whether such property is affected by the project.

(b) The failure of a State Historic Preservation Officer to participate in any required steps of the process set forth in this part shall not prohibit the Executive Director and the applicant from concluding the section 106 process, including the execution of a Memorandum of Agreement.
§ 801.6 Coordination with requirements under the National Environmental Policy Act (42 U.S.C. 4321 et seq.).

The National Historic Preservation Act and the National Environmental Policy Act create separate and distinct responsibilities. The National Historic Preservation Act applies to those aspects of a project which may affect National Register properties and those which are eligible for listing in the National Register. The requirements for the National Environmental Policy Act apply to the effect that the project will have on the human environment. To the extent that the applicant finds it practicable to do so, the requirements of these two statutes should be integrated. Some projects, for reasons other than the effects on historic properties, may require an Environmental Impact Statement (EIS) subject to the time requirements for a draft and final EIS, in which case the applicant may choose to separately relate to the State Historic Preservation Officer, the Department of the Interior, and the Council for purposes of section 110(c) of the HCDA of 1980. In that event, information in the draft EIS should indicate that compliance with section 106 and these regulations is underway and the final EIS should reflect the results of this process. Applicants are directed to 36 CFR 800.9, which describes in detail the manner in which the requirements of these two acts should be integrated and applies to all UDAG applicants under these regulations.

In those instances in which an Environmental Impact Statement will be prepared for the project, the applicant should consider phasing compliance with these procedures and the preparation of the Statement.

§ 801.7 Information requirements.

(a) Information To Be Retained by Applicants Determining No Effect. (1) Recommended Documentation for a Determination of No Effect. Adequate documentation of a Determination of No Effect pursuant to §801.3(c)(1) should include the following:

(i) A general discussion and chronology of the proposed project;
(ii) A description of the proposed project including, as appropriate, photographs, maps, drawings, and specifications;
(iii) A statement that no National Register property or property which meets the Criteria exist in the project area, or a brief statement explaining why the Criteria of Effect (See §801.3(c)) was found inapplicable;
(iv) Evidence of consultation with the State Historic Preservation Officer concerning the Determination of No Effect; and
(v) Evidence of efforts to inform the public concerning the Determination of No Effect.

(2) The information requirements set forth in this section are meant to serve as guidance for applicants in preparing No Effect Determinations. The information should be retained by the applicant, incorporated into any environmental reports or documents prepared concerning the project, and provided to the Executive Director only in the event of an objection to the applicant’s determination.

(b) Reports to the Council. In order to adequately assess the impact of a proposed project on National Register and eligible properties, it is necessary for the Council to be provided certain information. For the purposes of developing Council comments on UDAG projects the following information is required. Generally, to the extent that relevant portions of a UDAG application meet the requirements set forth below it will be sufficient for the purposes of Council review and comment.

(1) Documentation for Determination of No Adverse Effect. Adequate documentation of a Determination of No Adverse Effect pursuant to §801.3(c)(1) should include the following:

(i) A general discussion and chronology of the proposed project;
(ii) A description of the proposed project including, as appropriate, photographs, maps, drawings and specifications;
(iii) A copy of the National Register form or a copy of the Determination of Eligibility documentation for each property that will be affected by the project including a description of each property’s physical appearance and significance;
(iv) A brief statement explaining why each of the Criteria of Adverse Effect
(See §801.3(c)(1)) was found inapplicable;

(v) Written views of the State Historic Preservation Officer concerning the Determination of No Adverse Effect, if available; and,

(vi) An estimate of the cost of the project including the amount of the UDAG grant and a description of any other Federal involvement.

(2) Preliminary Case Reports. Preliminary Case Reports should be submitted with a request for comments pursuant to §801.4(b) and should include the following information:

(i) A general discussion and chronology of the proposed project;

(ii) The status of the project in the HUD approval process;

(iii) The status of the project in the National Environmental Policy Act compliance process and the target date for completion of all the applicant’s environmental responsibilities;

(iv) A description of the proposed project including as appropriate, photographs, maps, drawings and specifications;

(v) A copy of the National Register form or a copy of the Determination of Eligibility documentation for each property that will be affected by the project including a description of each property’s physical appearance and significance;

(vi) A brief statement explaining why any of the Criteria of Adverse Effect (See §801.3(c)(1)(b)) apply;

(vii) Written views of the State Historic Preservation Officer concerning the effect on the property, if available;

(viii) The views of Federal agencies, State and local governments, and other groups or individuals when known as obtained through the OMB Circular A-95 process or the environmental review process, public hearings or other applicant processes;

(ix) A description and analysis of alternatives that would avoid the adverse effects;

(x) A description and analysis of alternatives that would mitigate the adverse effects; and,

(xi) An estimate of the cost of the project including the amount of the UDAG grant and a description of any other Federal involvement.

(c) Reports for Council Meetings. Consideration of a proposed project by the full Council or a panel pursuant to §801.4(b) is based upon reports from the Executive Director, the State Historic Preservation Officer and Secretary of the Interior. Requirements for these reports are specified in 36 CFR 800.13(c). Additionally, reports from the applicant and the Department of HUD are required by these regulations. The requirements for these reports consist of the following:

(1) Report of the Applicant. The report from the applicant requesting comments shall include a copy of the relevant portions of the UDAG application; a general discussion and chronology of the proposed project; an account of the steps taken to comply with the National Environmental Policy Act (NEPA); any relevant supporting documentation in studies that the applicant has completed; an evaluation of the effect of the project upon the property or properties, with particular reference to the impact on the historical, architectural, archeological, and cultural values; steps taken or proposed by the applicant to avoid or mitigate adverse effects of the project; a thorough discussion of alternate courses of action; and an analysis comparing the advantages resulting from the project with the disadvantages resulting from the adverse effects on National Register or eligible properties.

(2) Report of the Secretary of Housing and Urban Development. The report from the Secretary shall include the status of the application in the UDAG approval process, past involvement of the Department with the applicant and the proposed project or land area for the proposed project, and information on how the applicant has met other requirements of the Department for the proposed project.

§801.8 Public participation.

(a) The Council encourages maximum public participation in the process established by these regulations. Particularly important, with respect to the UDAG program, is participation by the citizens of neighborhoods directly or indirectly affected by projects, and by groups concerned with historic and cultural preservation.
(b) The applicant, in preparing and following its citizen participation plan called for by 24 CFR 570.456(c)(11)(i)(A), should ensure that adequate provision is made for participation by citizens and organizations having interests in historic preservation and in the historic and cultural values represented in affected neighborhoods. 24 CFR 570.431(c) sets forth criteria for citizen participation plans. These should be carefully considered with specific reference to ensuring that local concerns relevant to historic preservation are fully identified, and that citizens are provided with full and accurate information about each project and its effects on historic properties. The applicant should ensure that potentially concerned citizens and organizations are fully involved in the identification of properties which may meet the National Register Criteria, and that they are fully informed, in a timely manner, of determinations of No Effect, No Adverse Effect, and Adverse Effect, and of the progress of the consultation process. Applicants are referred to 36 CFR 800.15 for Council guidelines for public participation.

(c) The Council welcomes the views of the public, especially those groups which may be affected by the proposed project, during its evaluation of the applicant’s determination of effect, and will solicit the participation of the public in Council and panel meetings held to consider projects.

APPENDIX 1 TO PART 801—IDENTIFICATION OF PROPERTIES: GENERAL

A. Introduction

Because of the high probability of locating properties which are listed in the National Register or which meet the Criteria for listing in many older city downtowns, this appendix is designed to serve as guidance for UDAG applicants in identifying such properties. This appendix sets forth guidance for applicants and does not set a fixed or inflexible standard for identification efforts.

B. Role of the State Historic Preservation Officer

In any effort to locate National Register properties or properties which meet the Criteria, the State Historic Preservation Officer is a key source of information and advice. The State Historic Preservation Officer will be of vital assistance to the applicant. The State Historic Preservation Officer can provide information on known properties and on studies which have taken place in and around the project area. Early contact should be made with the State Historic Preservation Officer for recommendations about how to identify historic properties. For UDAG projects, identification of National Register properties and properties which meet the Criteria is the responsibility of the applicant. The extent of the identification effort should be made with the advice of the State Historic Preservation Officer. The State Historic Preservation Officer can be a knowledgeable source of information regarding cases wherein the need for a survey of historic properties is appropriate, recommended type and method of a survey and the boundaries of any such survey. Due consideration should be given to the nature of the project and its impacts, the likelihood of historic properties being affected and the state of existing knowledge regarding historic properties in the area of the project’s potential environmental impact.

C. Levels of Identification

1. The area of the project’s potential environmental impact consists of two distinct subareas: that which will be disturbed directly (generally the construction site and its immediate environs) and that which will experience indirect effects. Within the area of indirect impact, impacts will be induced as a result of carrying the project out. Historic and cultural properties subject to effect must be identified in both subareas, and the level of effort necessary in each may vary. The level of effort needed is also affected by the stage of planning and the quality of pre-existing information. Obviously, if the area of potential environmental impact has already been fully and intensively studied before project planning begins, there is no need to duplicate this effort. The State Historic Preservation Officer should be contacted for information on previous studies. If the area has not been previously intensively studied, identification efforts generally fall into three levels:

   a. Overview Study: This level of study is normally conducted as a part of general planning and is useful at an early stage in project formulation. It is designed to obtain a general understanding of an area’s historic and cultural properties in consultation with the State Historic Preservation Officer, by:
      (1) Assessing the extent to which the area has been previously subjected to study;
      (2) Locating properties previously recorded;
      (3) Assessing the probability that properties eligible for the National Register will be found if the area is closely inspected, and
      (4) Determining the need, if any, for further investigation.
An overview study includes study of pertinent records (local histories, building inventories, architectural reports, archeological survey reports, etc.), and usually some minor on-the-ground inspection.

b. Identification Study: An identification study attempts to specifically identify and record all properties in an area that may meet the criteria for listing in the National Register. In conducting the study, the applicant should seek the advice of the State Historic Preservation Officer regarding pertinent background data. A thorough on-the-ground inspection of the subject area by qualified personnel should be undertaken. For very large areas, or areas with uncertain boundaries, such a study may focus on representative sample areas, from which generalizations may be made about the whole.

c. Definition and Evaluation Study: If an overview and/or an identification study have indicated the presence or probable presence of properties that may meet the National Register Criteria but has not documented them sufficiently to allow a determination to be made about their eligibility, a definition and evaluation study is necessary. Such a study is directed at specific potentially eligible properties or at areas known or suspected to contain such properties. It includes an intensive on-the-ground inspection and related studies as necessary, conducted by qualified personnel, and provides sufficient information to apply the National Register’s “Criteria for Evaluation” (36 CFR 60.6).

2. An overview study will normally be needed to provide basic information for planning in the area of potential environmental impact. Unless this study indicates clearly that no further identification efforts are needed (e.g., by demonstrating that the entire area has already been intensively inspected with negative results, or by demonstrating that no potentially significant buildings have ever been built there and there is virtually no potential for archeological resources), and identification study will probably be needed within the area of potential environmental impact. This study may show that there are no potentially eligible properties within the area, or may show that only a few such properties exist and document them sufficiently to permit a determination of eligibility to be made in accordance with 36 CFR part 60. Alternatively, the study may indicate that potentially eligible properties exist in the area, but may not document them to the standards of 36 CFR part 60. Should this occur, a definition and evaluation study is necessary for those properties falling within the project’s area of direct effect and for those properties subject to indirect effects. If a property falls within the general area of indirect effect, but no indirect effects are actually anticipated on the property in question, a definition and evaluation study will normally be superfluous.

APPENDIX 2 TO PART 801—SPECIAL PROCEDURES FOR IDENTIFICATION AND CONSIDERATION OF ARCHEOLOGICAL PROPERTIES IN AN URBAN CONTEXT

A. Archeological sites in urban contexts are often difficult to identify and evaluate in advance of construction because they are sealed beneath modern buildings and structures. Prehistoric and historic sites within cities may be important both to science and to an understanding of each city’s history, however, and should be considered in project planning. Special methods can be used to ensure effective and efficient consideration and treatment of archeological sites in UDAG projects.

1. If it is not practical to physically determine the existence or nonexistence of archeological sites in the project area, the probability or improbability of their existence can be determined, in most cases, through study of:

a. Information on the pre-urban natural environment, which would have had an effect on the location of prehistoric sites;
b. Information from surrounding areas and general literature concerning the location of prehistoric sites;
c. State and local historic property registers or inventories;
d. Archeological survey reports;
e. Historic maps, atlases, tax records, photographs, and other sources of information on the locations of earlier structures;
f. Information on discoveries of prehistoric or historic material during previous construction, land levelling, or excavation, and
g. Some minor on-the-ground inspection.

2. Should the study of sources such as those listed in section (1)(a) above reveal that the following conditions exist, it should be concluded that a significant likelihood exists that archeological sites which meet the National Register Criteria exist on the project site:

a. Discoveries of prehistoric or historic material remains have been reliably reported on or immediately adjacent to the project site, and these are determined by the State Historic Preservation Officer or other archeological authority to meet the Criteria for the National Register because of their potential value for public interpretation or the study of significant scientific or historical research problems; or
b. Historical or ethnographic data, or discoveries of material, indicate that a property of potential cultural value to the community or some segment of the community (e.g., a cemetery) lies or lay within the project site; or
c. The pre-urbanization environment of the project site would have been conducive to prehistoric occupation, or historic buildings or occupation sites are documented to have existed within the project site in earlier
Advisory Council on Historic Preservation

§ 805.1 Background.

(a) The National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 et seq.) establishes national policies and goals for the protection of the environment. Section 102(2) of NEPA contains certain procedural requirements directed toward the attainment of such goals. In particular, all Federal agencies are required to give appropriate consideration to the environmental effects of their proposed actions in their decisionmaking and to prepare detailed environmental statements on recommended or reports on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment.

(b) Executive Order 11991 of May 24, 1977, directed the Council on Environmental Quality (CEQ) to issue regulations to implement the procedural provisions of NEPA. Accordingly, CEQ issued final NEPA regulations (40 CFR parts 1500–1508) on November 29, 1978, which are binding on all Federal agencies as of July 30, 1979. These regulations provide that each Federal agency shall as necessary adopt implementing

PART 805—PROCEDURES FOR IMPLEMENTATION OF NATIONAL ENVIRONMENTAL POLICY ACT
§ 805.2 Purpose.

The purpose of this part is to establish Council procedures that supplement the NEPA regulations and provide for the implementation of those provisions identified in §1507.3(b) of the regulations (40 CFR 1507.3(b)).

§ 805.3 Applicability.

(a) These procedures apply to actions of the full Council and the Council staff acting on behalf of the full Council.

(b) The following actions are covered by these procedures:

(1) Recommendations for legislation.

(2) Regulations implementing section 106 of the National Historic Preservation Act (NHPA).

(3) Procedures implementing other authorities.

(4) Policy recommendations that do not require implementation by another Federal agency.

(c) In accordance with §1508.4 of the NEPA regulations (40 CFR 1508.4), Council comments on Federal, federally assisted and federally licensed undertakings provided pursuant to section 106 of the NHPA and 36 CFR part 800 are categorically excluded from these procedures. This exclusion is justified because Federal agencies seeking the Council’s comments under section 106 have the responsibility for complying with NEPA on the action they propose. The Council’s role is advisory and its comments are to be considered in the agency decisionmaking process. Coordination between the section 106 and the NEPA processes is set forth in 36 CFR 800.9.

§ 805.4 Ensuring environmental documents are actually considered in Council decisionmaking.

(a) Section 1505.1 of the NEPA regulations (40 CFR 1505.1) contains requirements to ensure adequate consideration of environmental documents in agency decisionmaking. To implement these requirements the Council shall:

(1) Consider all relevant environmental documents in evaluating proposals for action;

(2) Ensure that all relevant environmental documents, comments, and responses accompany the proposal through internal Council review processes;

(3) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating proposals for the Council action; and,

(4) Where an environmental impact statement (EIS) has been prepared consider the specific alternative analyzed in the EIS when evaluating the proposal which is the subject of the EIS.

(b) For each of the Council’s principal activities covered by NEPA, the following chart identifies the point at which the NEPA process begins, the point at which it ends, and the key officials required to consider environmental documents in their decision-making.

§ 805.5 Typical classes of action.

(a) Section 1507.3(c)(2) (40 CFR 1507.3(c)(2)) in conjunction with §1508.4 requires agencies to establish three typical classes of action for similar treatment under NEPA: actions normally requiring EIS; actions normally requiring assessments but not necessarily EISs; and actions normally not requiring assessments or EISs. Each of
§ 810.2 Procedure for requesting information.

(a) Requests for information or records not available through informal channels shall be directed to the Administrative Officer, Advisory Council on Historic Preservation, 1522 K Street NW., Washington, DC 20005. All such requests should be clearly marked “FREEDOM OF INFORMATION REQUEST” in order to ensure timely processing. Requests that are not so marked will be honored, but will be deemed not to have been received by the Council, for purposes of computing the response time, until the date on which they are identified by a member of the Council staff as being a request pursuant to the Freedom of Information Act.

(b) Requests should describe the records sought in sufficient detail to allow Council staff to locate them with a reasonable amount of effort. Thus, where possible, specific information, including dates, geographic location of cases, and parties involved, should be supplied.

(c) A request for all records falling within a reasonably specific category shall be regarded as conforming to the statutory requirement that records be reasonably described if the records can be identified by any process that is not unreasonably burdensome or disruptive of Council operations.

(d) If a request is denied on the ground that it does not reasonably describe the records sought, the denial shall specify the reasons why the request was denied and shall extend to the requester an opportunity to confer
§ 810.3 Action on requests.

(a) Once a requested record has been identified, the Administrative Officer shall notify the requester of a date and location where the records may be examined or of the fact that copies are available. The notification shall also advise the requester of any applicable fees under § 810.5.

(b) A reply denying a request shall be in writing, signed by the Administrative Officer and shall include:

(1) Reference to the specific exemption under the Act which authorizes the denial of the record, a brief explanation of how the exemption applies to the record requested, and a brief statement of why a discretionary release is not appropriate; and,

(2) A statement that the denial may be appealed under § 810.4 within 30 days by writing to the Executive Director, Advisory Council on Historic Preservation, 1522 K Street NW., Washington, DC 20005.

(c) The requirements of § 810.3 (b)(1) and (2) do not apply to requests denied on the ground that they are not described with reasonable specificity and consequently cannot be identified.

(d) Within 10 working days from receipt of a request, the Administrative Officer shall determine whether to grant or deny the request and shall promptly notify the requester of the decision. In certain unusual circumstances specified below, the time for determinations on requests may be extended up to a total of 10 additional working days. The requester shall be notified in writing of any extension and of the reason for it, as well as of the data on which a determination will be made. Unusual circumstances include:

(1) The need to search for and collect records from field offices or other establishments that are separate from the Washington office of the Council;

(2) The need to search for, collect, and examine a voluminous amount of material which is sought in a request; or,

(3) The need for consultation with another agency having substantial interest in the subject matter of the request.

If no determination has been made by the end of the 10-day period or the end of the last extension, the requester may deem his request denied and may exercise a right of appeal in accordance with § 810.4.

§ 810.4 Appeals.

(a) When a request has been denied, the requester may, within 30 days of receipt of the denial, appeal the denial to the Executive Director of the Council. Appeals to the Executive Director shall be in writing, shall be addressed to the Executive Director, Advisory Council on Historic Preservation, 1522 K Street NW., Washington, DC 20005, and shall be clearly marked "FREEDOM OF INFORMATION APPEAL." Requests that are not so marked will be honored, but will be deemed not to have been received by the Council, for purposes of computing the response time, until the date on which they are identified by a member of the Council staff as being an appeal pursuant to the Freedom of Information Act.

(b) The appeal will be acted on within 20 working days of receipt. A written decision shall be issued. Where the decision upholds an initial denial of information, the decision shall include a reference to the specific exemption in the Freedom of Information Act which authorizes withholding the information, a brief explanation of how the exemption applies to the record withheld, and a brief statement of why a discretionary release is not appropriate. The decision shall also inform the requester of the right to seek judicial review in the U.S. District Court where the requester resides or has his principal place of business, or in which the agency records are situated, or in the District of Columbia.

(c) If no decision has been issued within 20 working days, the requester is deemed to have exhausted his administrative remedies.

§ 810.5 Fees.

(a) Fees shall be charged according to the schedules contained in paragraph (b) of this section unless it is determined that the requested information
will be of primary benefit to the general public rather than to the requester. In that case, fees may be waived. Fees shall not be charged where they would amount to less than $3.00.

(b) The following charges shall be assessed:
   (1) Copies of documents—$0.10 per page.
   (2) Clerical searches—$1.00 for each one quarter hour in excess of the first quarter hour spent by clerical personnel in searching for requested records.
   (3) Professional searches—$2.00 for each one quarter hour in excess of the first quarter hour spent by professional or managerial personnel in determining which records are covered by a request or other tasks that cannot be performed by clerical personnel.

(c) Where it is anticipated that fees may amount to more than $25.00, the requester shall be advised of the anticipated amount of the fee and his consent obtained before the request is processed. The time limits for processing the request under §810.3 shall not begin to run until the requester’s written agreement to pay the fees has been received. In the discretion of the Administrative Officer, advance payment of fees may be required before requested records are made available.

(d) Payment should be made by check or money order payable to the Advisory Council on Historic Preservation.

§ 810.6 Exemptions.
   (a) The Freedom of Information Act exempts from disclosure nine categories of records which are described in 5 U.S.C. 552(b).
   (b) When a request encompasses records which would be of concern to or which have been created primarily by another Federal agency, the record will be made available by the Council only if the document was created primarily to meet the requirements of the Council’s regulations implementing section 106 of the National Historic Preservation Act or other provisions of law administered primarily by the Council. If the record consists primarily of materials submitted by State or local governments, private individuals, organizations, or corporations, to another Federal agency in fulfillment of requirements for receiving assistance, permits, licenses, or approvals from the agency, the Council may refer the request to that agency. The requester shall be notified in writing of the referral.

§§ 812.131–812.139 [Reserved]

§ 812.140 Employment.

No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the agency. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of
§ 812.150 Program accessibility: Existing facilities.

(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not—

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons; or

(2) In the case of historic preservation programs, require the agency to take any action that would result in a substantial impairment of significant historic features of an historic property; or

(3) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §812.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

(b) Methods—(1) General. The agency may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by handicapped persons. The agency is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified handicapped persons in the most integrated setting appropriate.

(2) Historic preservation programs. In meeting the requirements of §812.150(a) in historic preservation programs, the agency shall give priority to methods that provide physical access to handicapped persons. In cases where a physical alteration to an historic property is not required because of §812.150(a)(2) or (a)(3), alternative methods of achieving program accessibility include—

(i) Using audio-visual materials and devices to depict those portions of an historic property that cannot otherwise be made accessible;
§ 812.151 Program accessibility: New
construction and alterations.

Each building or part of a building
that is constructed or altered by, on
behalf of, or for the use of the agency
shall be designed, constructed, or al-
tered so as to be readily accessible to
and usable by handicapped persons.
The definitions, requirements, and
standards of the Architectural Barriers
Act (42 U.S.C. 4151–4157), as established
in 41 CFR 101–19.600 to 101–19.607, apply
to buildings covered by this section.

§§ 812.152–812.159 [Reserved]

§ 812.160 Communications.

(a) The agency shall take appropriate
steps to ensure effective communica-
tion with applicants, participants, per-
sonnel of other Federal entities, and
members of the public.

(1) The agency shall furnish appro-
priate auxiliary aids where necessary
to afford a handicapped person an equal
opportunity to participate in, and
enjoy the benefits of, a program or ac-
tivity conducted by the agency.

(i) In determining what type of auxil-
iary aid is necessary, the agency shall
give primary consideration to the re-
quests of the handicapped person.

(ii) The agency need not provide indi-
vidually prescribed devices, readers for
personal use or study, or other devices
of a personal nature.

(2) Where the agency communicates
with applicants and beneficiaries by
telephone, telecommunication devices
for deaf person (TDD's) or equally ef-
efective telecommunication systems
shall be used.

(b) The agency shall ensure that in-
terested persons, including persons
with impaired vision or hearing, can
obtain information as to the existence
and location of accessible services, ac-
tivities, and facilities.

(c) The agency shall provide signage
at a primary entrance to each of its in-
accessible facilities, directing users to
a location at which they can obtain in-
formation about accessible facilities.
The international symbol for accessi-
bility shall be used at each primary en-
trance of an accessible facility.

(d) This section does not require the
agency to take any action that it can
demonstrate would result in a funda-
mental alteration in the nature of a pro-
gram or activity or in undue finan-
cial and administrative burdens. In
those circumstances where agency per-
sonnel believe that the proposed action
would fundamentally alter the program
or activity or would result in undue fi-
nancial and administrative burdens,
the agency has the burden of proving
that compliance with §812.160 would re-
sult in such alteration or burdens. The
Advisory Council on Historic Preservation

§§ 812.171–812.999

decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.

§§ 812.161–812.169 [Reserved]

§ 812.170 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs or activities conducted by the agency.

(c) The General Counsel shall be responsible for coordinating implementation of this section. Complaints may be sent to the General Counsel, Advisory Council on Historic Preservation, 1100 Pennsylvania Avenue, NW., Washington, DC 20004.

(d) The agency shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The agency may extend this time period for good cause.

(e) If the agency receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) The agency shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), or section 502 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 792), is not readily accessible to and usable by handicapped persons.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the agency shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;

(2) A description of a remedy for each violation found; and

(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by §812.170(g). The agency may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the head of the agency.

(j) The head of the agency shall notify the complainant of the results of the appeal within 60 days of the receipt of the request. If the head of the agency determines that additional information is needed from the complainant, he or she shall have 60 days from the date of receipt of the additional information to make his or her determination on the appeal.

(k) The time limits cited in paragraphs (g) and (j) of this section may be extended with the permission of the Assistant Attorney General.

(l) The agency may delegate its authority for conducting complaint investigations to other Federal agencies, except that the authority for making the final determination may not be delegated to another agency.

PART 901—BYLAWS OF THE CORPORATION

Sec. 901.1 Title and office.
(a) Title. The name of the Corporation is the Pennsylvania Avenue Development Corporation.
(b) Office. The office of the Corporation shall be in the city of Washington, District of Columbia.

§ 901.2 Establishment.
(b) Purposes. The purposes for which this Corporation was established are those stated and promulgated by Congress in the Act.

§ 901.3 Board of directors.
(a) Powers and responsibilities. The business, property and affairs of the Corporation shall be managed and controlled by the Board of Directors, and all powers specified in the Act are vested in them. The Board may, at its discretion and as hereinafter provided, delegate authority necessary to carry on the ordinary operations of the Corporation to officers and staff of the Corporation.
(b) Composition; number; selection; terms of office. The Board of Directors shall be comprised of fifteen voting members and eight nonvoting members. The powers and management of the Corporation shall reside with the fifteen voting members, and the procedures of the Board shall be determined by them.
(1) The fifteen voting members shall include the seven government agency representatives specified in subsection 3(c) of the Act (or, their designees), and eight individuals meeting the qualifications of that subsection, appointed by the President of the United States from private life, at least four of whom shall be residents and registered voters of the District of Columbia.
(2) The Chairman and Vice Chairman shall be designated by the President of the United States from among those members appointed from private life.
(3) Upon his appointment, the Chairman shall invite the eight representatives designated in subsection 3(g) of the Act to serve as non-voting members of the Board of Directors.
(4) Each member of the Board of Directors appointed from private life shall serve a term of six years from the expiration of his predecessor’s term; except that the terms of the Directors first taking office shall begin on October 27, 1972 and shall expire as designated at the time of appointment. A Director may continue to serve until his successor has qualified.
(5) A Director appointed from private life wishing to resign shall submit a letter of resignation to the President of the United States, and his resignation shall become effective upon the date of the President’s acceptance thereof.
(6) A Director, appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed, shall serve for the remainder of such term.
(c) Meetings. (1) The Board of Directors shall meet and keep its records at the office of the Corporation.
(2) Meetings of the Board of Directors shall be held at the call of the Chairman, but not less often than once every three months. The Chairman shall also call a meeting at the written request of any five voting members.
(3) The Chairman shall direct the Secretary to give the members of the Board notice of each meeting, either personally, or by mail, or by telegram, stating the time, the place and the
agenda for the meeting. Notice by telephone shall be personal notice. Any Director may waive, in writing, notice as to himself, whether before or after the time of the meeting, and the presence of a Director at any meeting shall constitute a waiver of notice of that meeting. Notice, in whatever form, shall be given so that a Director will have received it five working days prior to the time of the meeting.

(4) Unless otherwise limited by the notice thereof, any and all Corporation business may be transacted at any meeting.

(5) The Chairman shall preside at meetings of the Board of Directors, or the Vice Chairman in the absence of the Chairman. In the event of the absence of both the Chairman and the Vice Chairman, the Directors present at the meeting shall designate a Presiding Officer.

The act of a majority of the voting Directors at any meeting at which there is a quorum shall be an act of the Board of Directors. If there shall be less than a quorum at any meeting, a majority of the voting Directors present may adjourn the meeting until such time as a quorum can practically and reasonably be obtained.

(e) Directors serving in stead. Each member of the Board of Directors specified in paragraphs (1) through (7) of subsection 3(c) of the Act, if unable to serve in person, may designate up to two officials from his agency or department to serve on the Board in his stead. Such designation shall be effected by a letter of appointment, from the Director specified in the Act, received by the Chairman prior to or at a meeting of the Board of Directors. If two officials are so designated, then the Director specified in the Act shall identify one as the First Designee and the other as the Second Designee. The Second Designee may only serve as a Director if the First Designee is not in attendance at a meeting of the Board of Directors. An official designated to serve in stead shall serve as the voting Director of the represented agency until the Chairman receives written notice from the Director specified in the Act, or his successor, that the designation is rescinded.

(f) Vote by proxy. Voting members of the Board of Directors unable to attend a meeting may vote by proxy on resolutions which have been printed in the agenda in advance for the meeting.

(1) A Director unable to attend a meeting of the Board may submit a vote to be cast by the Presiding Officer by means of a written signed statement of his vote and the resolution to which it pertains together with any statement bearing on the matter the Director wishes to have read. The proxy vote shall be submitted to the Chairman with a separate signed copy to the Secretary, to be received not later than the close of business of the day prior to the date fixed for the meeting.

(2) The Presiding Officer shall cast proxy votes received by the Chairman in the following manner:

(i) Upon the close of discussion on a resolution for which there has been submitted one or more valid proxy votes, the Presiding Officer shall announce that he holds proxy vote(s) from named Director(s), and shall read any explanatory statements submitted by the Director(s) voting by proxy;

(ii) The Presiding Officer shall take the vote of the Directors present and then declare the proxy votes in hand;

(iii) The Secretary shall orally verify the validity of the votes submitted to be cast by proxy, and shall record them with the votes cast by the Directors present on the resolution.

(3) Proxy votes shall not be utilized to effect the presence of a quorum.

(g) Compensation of Directors. Members of the Board of Directors shall be compensated in the manner provided in section 3 of the Act.

(h) Approval of annual budget. Upon completion by the staff of a draft annual budget request, the Chairman shall call a meeting of the Board of Directors for its review and consideration. Upon approval by the Board of the draft budget request, it may be submitted to the Office of Management and Budget.

§ 902.41 Public access to reasonably described records.

§ 902.50 Applicability.

(a) This subpart implements section 552(b) of title 5 U.S.C., which exempts certain records from public inspection under section 552(a). This subpart applies to records requested under subparts D and E of this part. The Corporation may, however, release a record authorized to be withheld under §§ 902.52 through 902.59 unless it determines that the release of that record would be inconsistent with a purpose of the aforementioned sections. Examples given in §§ 902.52 through 902.59 of records included within a particular statutory exemption are not necessarily illustrative of all types of records covered by the exemption. Any reasonably segregable portion of a record withheld under this subpart shall be provided to a requester, after deletion of the portions which are exempt under this subpart.

(b) This subpart does not authorize withholding of information or limit the availability of records to the public, except as specifically stated. This subpart is not authority to withhold information from Congress.

§ 902.51 Records relating to matters that are required by Executive order to be kept secret.

Records relating to matters that are specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy, include those within the scope of the following, and any further amendment of any of them, but only to the extent that the records are in fact properly classified pursuant to such Executive order:

(a) Executive Order 11652 of March 8, 1972 (3 CFR 1974 Comp. p. 339);
(b) Executive Order 10865 of February 20, 1960 (3 CFR 1959–1963 Comp. p. 386); and
(c) Executive Order 10104 of February 1, 1950 (3 CFR 1949–1953 Comp., p. 298).

These records may not be made available for public inspection.

§ 902.52 Records related solely to internal personnel rules and practices.

(a) Records related solely to internal personnel rules and practices that are within the statutory exemption include memoranda pertaining to personnel matters such as staffing policies, and policies and procedures for the hiring, training, promotion, demotion, and discharge of employees, and management plans, records, or proposals related to labor-management relationships.

(b) The purpose of this section is to authorize the protection of any record related to internal personnel rules and practices dealing with the relations between the Corporation and its employees.

§ 902.53 Records exempted from disclosure by statute.

(a) Records relating to matters that are specifically exempted by statute from disclosure may not be made available for public inspection. For example: section 1905 of title 18 U.S.C., protecting trade secrets, processes, and certain economic and other data obtained by examination or investigation, or from reports.

(b) The purpose of this section is to preserve the effectiveness of statutes of the kind cited as an example, in accordance with their terms.

§ 902.54 Trade secrets and commercial or financial information that is privileged or confidential.

(a) Trade secrets and commercial or financial information that are privileged and for which confidentiality is requested by the person possessing such privilege are within the statutory exemption. This includes the following:

(2) Statements of financial interest furnished by officers and employees of the Corporation;
(3) Commercial, technical, and financial information furnished by any person in connection with an application for a loan or a loan guarantee;
(4) Commercial or financial information customarily subjected to an attorney-client or similar evidentiary privilege; or,

(5) Materials in which the Corporation has a property right such as designs, drawings, and other data and reports acquired in connection with any research project, inside or outside of the Corporation, or any grant or contract.

(b) The purpose of this section is to authorize the protection of trade secrets and commercial or financial records that are customarily privileged or are appropriately given to the Corporation in confidence. It assures the confidentiality of trade secrets and commercial or financial information obtained by the Corporation through questionnaires and required reports to the extent that the information would not customarily be made public by the person from whom it was obtained. In any case in which the Corporation has obligated itself not to disclose trade secrets and commercial or financial information it receives, this section indicates the Corporation’s intention to honor that obligation to the extent permitted by law. In addition, this section recognizes that certain materials, such as research data and materials, formulae, designs, and architectural drawings, have significance not as records but as items of property acquired, in many cases at public expense. In any case in which similar proprietary material in private hands would be held in confidence, material covered in this section may be held in confidence.

(c)(1) In general. For commercial or financial information furnished to the Corporation on or after March 30, 1988, the Corporation shall require the submitter to designate, at the time the information is furnished or within a reasonable time thereafter, any information the submitter considers confidential or privileged. Commercial or financial information provided to the Corporation shall not be disclosed pursuant to a Freedom of Information Act request except in accordance with this paragraph.

(2) Notice to submitters. The Corporation shall provide a submitter with prompt written notice of a request encompassing its commercial or financial information whenever required under paragraph (c)(3) of this section, and except as is provided in paragraph (c)(7) of this section. Such written notice shall either describe the exact nature of the information requested or provide copies of the records or portions thereof containing the information. Concurrently with its notice to a submitter, the Corporation shall inform a requester in writing that the submitter is afforded a reasonable period within which to object to disclosure and that the 10 workday initial determination period provided for in 36 CFR 902.60 may therefore be extended.

(3) When notice is required. (i) For information submitted to the Corporation prior to March 30, 1988, the Corporation shall provide a submitter with notice of a request whenever:

(A) The information is less than ten years old;

(B) The information is subject to prior express commitment of confidentiality given by the Corporation to the submitter; or

(C) The Corporation has reason to believe that disclosure of the information may result in substantial competitive harm to the submitter.

(ii) For information submitted to the Corporation on or after March 30, 1988, the Corporation shall provide a submitter with notice of a request whenever:

(A) The submitter has in good faith designated the information as confidential,

(B) The Corporation has reason to believe that disclosure of the information may result in substantial competitive harm to the submitter.

Notice of a request for information falling within the former category shall be required for a period of not more than ten years after the date of submission unless the submitter requests, and provides acceptable justification for, a specific notice period of greater duration. The submitter’s claim of confidentiality should be supported by a statement or certification by an officer or authorized representative that the information in question is in fact confidential and has not been disclosed to the public.
(4) **Opportunity to object to disclosure.** Through the notice described in paragraph (c)(2) of this section, the Corporation shall afford a submitter a reasonable period within which to provide the Corporation with a detailed statement of any objection to disclosure. Such statement shall specify all grounds for withholding any of the information under any exemption of the Freedom of Information Act and, in the case of Exemption 4, shall demonstrate why the information is contended to be privileged or confidential. Information provided by a submitter pursuant to this paragraph may itself be subject to disclosure under the Freedom of Information Act.

(5) **Notice of intent to disclose.** The Corporation shall consider carefully a submitter’s objections and specific grounds for nondisclosure prior to determining whether to disclose information. Whenever the Corporation decides to disclose information over the objection of a submitter, the Corporation shall forward to the submitter a written notice which shall include:

(i) A statement of the reasons for which the submitter's disclosure objections were not sustained;

(ii) A description of the information to be disclosed; and

(iii) A specified disclosure date.

Such notice of intent to disclose shall be forwarded a reasonable number of days, as circumstances permit, prior to the specified date upon which disclosure is intended. A copy of such disclosure notice shall be forwarded to the requester at the same time.

(6) **Notice of lawsuit.** Whenever a requester brings suit seeking to compel disclosure of information covered by paragraph (c) of this section, the Corporation shall promptly notify the submitter.

(7) **Exceptions to notice requirements.** The notice requirements of this section shall not apply if:

(i) The Corporation determines that the information should not be disclosed;

(ii) The information lawfully has been published or otherwise made available to the public;

(iii) Disclosure of the information is required by law (other than 5 U.S.C. 552); or

(iv) The designation made by the submitter in accordance with paragraphs (c)(1) and (c)(3)(ii) of this section appears obviously frivolous; except that, in such case, the Corporation shall provide the submitter with written notice of any final decision to disclose information within a reasonable number of days prior to a specified disclosure date.

§ 902.55 **Intragovernmental exchanges.**

(a) Any record prepared by a Government officer or employee (including those prepared by a consultant or advisory body) for internal Government use is within the statutory exemption to the extent that it contains—

(1) Opinions, advice, deliberations, or recommendations made in the course of developing official action by the Government, but not actually made a part of that official action, or

(2) Information concerning any pending proceeding or similar matter including any claim or other dispute to be resolved before a court of law, administrative board, hearing officer, or contracting officer.

(b) This section has two distinct purposes. One is to protect the full and frank exchange of ideas, views, and opinions necessary for the effective functioning of the Government and to afford this protection both before and after any action is taken. This judicially recognized privilege of protection against disclosure in litigation or elsewhere is intended to assure that these resources will be fully and readily available to those officials upon whom the responsibility rests to take official and final Corporation action. However, the action itself, any memorandum made part of that action, and the facts on which it is based are not within this protection. The other purpose is to protect against the premature disclosure of material that is in the development stage if premature disclosure would be detrimental to the authorized and appropriate purposes for which the material is being used, or if, because of its tentative nature, the material is likely to be revised or modified before it is officially presented to the public.

Pennsylvania Avenue Development Corporation § 902.59

(c) Examples of records covered by this section include minutes to the extent they contain matter described in paragraph (a) of this section; staff papers containing advice, opinions, suggestions, or exchanges of views, preliminary to final agency decision or action; budgetary planning and programming information; advance information on such things as proposed plans to procure, lease, or otherwise hire and dispose of materials, real estate, or facilities, documents exchanged preparatory to anticipated legal proceedings; material intended for public release at a specified future time, if premature disclosure would be detrimental to orderly processes of the Corporation; records of inspection, investigations, and surveys pertaining to internal management of the Department; and matters that would not be routinely disclosed under disclosure procedures in litigation and which are likely to be the subject of litigation. However, if such a record also contains factual information, that information must be made available under subpart E of this part unless the facts are so inextricably intertwined with deliberative or policymaking processes, that they cannot be separated without disclosing those processes.

§ 902.56 Protection of personal privacy.

(a) Any of the following personnel, medical, or similar records is within the statutory exemption if its disclosure would harm the individual concerned or be a clearly unwarranted invasion of his personal privacy:

(1) Personnel and background records personal to any officer or employee of the Corporation, or other person, including his home address;

(2) Medical histories and medical records concerning individuals, including applicants for licenses; or

(3) Any other detailed record containing personal information identifiable with a particular person.

(b) The purpose of this section is to provide a proper balance between the protection of personal privacy and the preservation of the public's rights to Corporation information by authorizing the protection of information that, if released, might unjustifiably invade an individual's personal privacy.

§ 902.57 Investigatory files compiled for law enforcement purposes.

(a) Files compiled by the Corporation for law enforcement purposes, including the enforcement of the regulations of the Corporation, are within the statutory exemption to the extent that production of such records would:

(1) Interfere with enforcement proceedings;

(2) Deprive a person of a right to a fair trial or an impartial adjudication;

(3) Constitute an unwarranted invasion of personal privacy;

(4) Disclose the identity of a confidential source and in the case of a record compiled by a criminal law enforcement authority in the courts of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source;

(5) Disclose investigative techniques and procedures; or

(6) Endanger the life or physical safety of law enforcement personnel.

(b) The purpose of this section is to protect from disclosure the law enforcement files of the Corporation including files prepared in connection with related litigation and adjudicative proceedings. It includes the enforcement not only of criminal statutes but all kinds of laws.

§ 902.58 Reports of financial institutions.

Any material contained in or related to any examination, operating, or condition report prepared by, on behalf of, or for the use of, any agency responsible for the regulation or supervision of financial institutions is within the statutory exemption.

§ 902.59 Geological and geophysical information.

Any geological or geophysical information and data (including maps) concerning wells is within the statutory exemption.
§ 902.60 Subpart G—Time Limitations

§ 902.60 Initial determination.

(a) An initial determination whether or not to release a record requested under subparts D and E of this part shall be made by the Public Information Offices within 10 workdays after the receipt of a request which complies with §902.21. Failure of the requester to comply with those provisions may toll the running of the 10 day period until the request is identified as one being made under the Act. This time limit may be extended by up to 10 workdays in accordance with §902.62.

(b) Upon making initial determination, the Administrative Officer shall immediately notify the person making the request as to its disposition. If the determination is made to release the requested record, the Administrative Officer shall make the record promptly available. If the determination is to deny the release of the requested record, the Public Information Officer shall immediately notify the requester of the denial and shall provide the following information:

(1) The reason for the determination, including a reference to the appropriate exemption provided in subpart F of this part;

(2) The right of the request or to appeal the determination as provided in subpart H of this part; and

(3) The name and position of each person responsible for the denial of the request.

§ 902.61 Final determination.

A determination with respect to any appeal made pursuant to subpart H of this part will be made within twenty work days after the date of receipt of the appeal. The time limit provided may be extended by up to 10 workdays in accordance with §902.62.

§ 902.62 Extension of time limits.

(a) In unusual circumstances, the time limits prescribed in §§902.60 and 902.61 may be extended by written notice to the person making the request. The notice shall set forth the reasons for the extension and the date on which a determination is expected to be dispatched. Under no circumstances shall the notice specify a date that would result in an extension for more than 10 workdays.

(b) As used in this section, unusual circumstances means (but only to the extent reasonably necessary to the proper processing of the particular request):

(1) The need to search for, collect and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request;

(2) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject matter interest therein.

(c) Any person having made a request for records under this part shall have exhausted his administrative remedies with respect to such request, if the Corporation fails to comply with the applicable time limitations set forth in this subject.

Subpart H—Procedures for Administrative Appeal of Decisions Not To Disclose Records

§ 902.70 General.

Within the time limitations of subpart G of this part, if the Administrative Officer makes a determination not to disclose a record requested under subparts D and E of this part, he shall furnish a written statement of the reasons for that determination to the person making the request. The statement shall indicate the name(s) and title(s) of each person responsible for the denial of the request, and the availability of an appeal with the Corporation. Any person whose request for a record has
been denied may submit a written appeal to the Corporation requesting reconsideration of the decision.

§ 902.71 Forms for appeal.
Although no particular written form is prescribed for on appeal, the letter or similar written statement appealing a denial of a record shall contain a description of the record requested, the name and position of the official who denied the request, the reason(s) given for the denial, and other pertinent facts and statements deemed appropriate by the appellant. The Corporation may request additional details if the information submitted is insufficient to support an appeal.

§ 902.72 Time limitations on filing an appeal.
An appeal must be submitted in writing within thirty days from the date of receipt of the initial written denial and must contain the information requested in §902.71.

§ 902.73 Where to appeal.
An appeal shall be addressed to the Chairman of the Board of Directors, Pennsylvania Avenue Development Corporation, 1331 Pennsylvania Avenue, NW., Suite 1220 North, Washington, DC 20004.

[41 FR 43143, Sept. 30, 1976, as amended at 50 FR 26677, Nov. 4, 1985]

§ 902.74 Agency decision.
(a) The Chairman shall have sole authority to act on an appeal, which seeks to reverse an initial decision denying disclosure of a record. He shall review each appeal and provide the appellant and other interested parties with a written notice of his decision. The decision of the Chairman as to the availability of the record is administratively final.
(b) If the decision of the Chairman sustains the refusal to disclose, the notice of decision shall set forth the reasons for the refusal, including the specific exemptions from disclosure under the Act that are the bases of the decision not to disclose. The notice shall further advise the appellant that judicial review is available on complaint to the appropriate District Court of the United States, as provided in section 552(a)(4)(B) of title 5 U.S.C.
(c) As set out in §902.61, the final decision on appeal shall be made within 20 workdays after the receipt of the appeal. An extension of this limitation is authorized as prescribed under §902.62.

Subpart I—Fees

§ 902.80 General.
(a) This subpart prescribes fees for services performed by the Corporation under subparts D and E of this part. This subpart shall only apply to the services described herein. The fees for the service listed reflect the actual cost of the work involved in compiling requested record and copying, if necessary.
(b) A fee shall not be charged for time spent in resolving legal or policy issues.

§ 902.81 Payment of fees.
The fees prescribed in this part may be paid in cash or by check, draft, or postal money order made payable to the Pennsylvania Avenue Development Corporation.

[52 FR 26677, July 16, 1987]

§ 902.82 Fee schedule.
(a) Definitions. For purposes of this section—
(1) A commercial use request is a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, the Corporation will determine the use to which the requester will put the records sought. Where the Corporation has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, the Corporation will seek additional clarification before assigning the request to a specific category.
§ 902.82  

(2) Direct costs means those expenditures the Corporation actually incurs in searching for and duplicating (and in the case of commercial requesters, reviewing) records to respond to an FOIA request. Direct costs include, for example, the salary of the employee performing work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits) and the cost of operating duplicating machinery. Not included in direct costs are overhead expenses such as costs of space, and heating or lighting the facility in which the records are stored.

(3) Duplication means the process of making a copy of a record necessary to respond to an FOIA request. Such copies can take the form of paper copy, microform, audio-visual materials, or machine-readable documentation (e.g., magnetic tape or disk), among others. The copy provided must be in a form that is reasonably usable by requesters.

(4) Educational institution means a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.

(5) Non-commercial scientific institution means an institution that is not operated on a commercial basis, within the meaning of paragraph (a)(1) of this section and that is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

(6) Representative of the new media means any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term news means information that is about current events or that would be of current interest to the public. Examples of new media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of news) who make their products available for purchase or subscription by the general public. These examples are not intended to be all-inclusive. Moreover, as traditional methods of news delivery evolve (e.g., electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. Freelance journalists may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it. A publication contract would be the clearest proof, but the Corporation may also look to the past publication record of a requester in making this determination.

(7) Review means the process of examining records located in response to a request that is for a commercial use (see paragraph (a)(1) of this section) to determine whether any portion of any record located is permitted to be withheld. It also includes processing any records for disclosure, e.g., doing all that is necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(8) Search includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within records. A line-by-line search will not be conducted when merely duplicating an entire record would be the less expensive and quicker method of complying with the request. Search does not include review of material to determine whether the material is exempt from disclosure (see paragraph (a)(7) of this section). Searches may be done manually or by computer using existing programming.

(b) The following provisions shall apply with respect to services rendered to the public in processing requests for disclosure of the Corporation’s records under this part:

(1) Fee for duplication of records: $0.25 per page. When the Corporation estimates that duplication charges are likely to exceed $25.00, it will notify the requester of the estimated amount of fees, unless the requester has indicated in advance his willingness to pay fees as high as those anticipated. The
Pennsylvania Avenue Development Corporation § 902.82

Corporation will offer the requester the opportunity to confer with the Corporation’s staff in order to reformulate the request to meet the requester’s needs at a lower cost.

(2) Search and review fees. (i) Searches for records by clerical personnel: $7.00 per hour, including the time spent searching for and copying any records.

(ii) Search for and review of records by professional and supervisory personnel: $11.50 per hour spent searching for any record or reviewing any record to determine whether it may be disclosed, including time spent in copying any record.

(iii) Except for requests seeking records for a commercial use, the Corporation will provide the first 100 pages of duplication and the first two hours of search time without charge. The word pages means paper copies of a standard size, either 8½” by 11” or 14” by 14”.

(3) Duplication of architectural drawings, maps, and similar materials: (per copy) $10.00.

(4) Reproduction of 35 mm slides: (per copy) $1.00.

(5) Reproduction of enlarged, black and white photographs: (per copy) $10.00.

(6) Reproduction of enlarged color photographs: (per copy) $17.00.

(7) Certification and validation fee: $1.75 for each certification or validation of a copy of any record.

(8) Categories of FOIA requesters and fees to be charged—(i) Commercial use requesters. When the Corporation receives a request for records for commercial use, it will assess charges to recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Requesters must reasonably describe the records sought.

(ii) Educational and non-commercial scientific institution requesters. The Corporation shall provide copies of records to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, requesters must reasonably describe the records sought.

Scientific (if the request is from a non-commercial scientific institution) research. Requesters must reasonably describe the records sought.

(iii) Requesters who are representatives of the news media. The Corporation shall provide documents to requesters in this category for the cost of reproduction alone, excluding charges for the first 100 pages. To be eligible for inclusion in this category, a requester must meet the criteria in the definition of representative of the news media in paragraph (a)(6) of this section, and his or her request must not be made for a commercial use. In reference to this class of requester, a request for records supporting the news dissemination function of the requester shall not be considered to be a request that is for a commercial use. Requesters must reasonably describe the records sought.

(iv) All other requesters. The Corporation will charge requesters who do not fit into any of the categories above fees which recover the full reasonable direct cost of searching for and reproducing records that are responsive to the request, except that the first 100 pages of reproduction and the first two hours of search time shall be furnished without charge. Requests from record subjects for records about themselves filed in the Corporation’s systems of records will be treated under the fee provisions of the Privacy Act of 1974 which permit fees only for reproduction. Requesters must reasonably describe the records sought.

(9) Interest. In the event a requester fails to remit payment of fees charged for processing a request under this part within 30 days from the date such fees were billed, interest on such fees may be assessed beginning on the 31st day after the billing date at the rate prescribed in section 3717 of title 31 U.S.C., and will accrue from the date of the billing.

(10) Unsuccessful searches. Except as provided in paragraph (b)(9)(iv) of this section, the cost of searching for a requested record shall be charged even if the search fails to locate such record or it is determined that the record is exempt from disclosure.

(11) Aggregating requests. A requester must not file multiple requests at the same time, each seeking portions of a
§ 902.83 Waiver or reduction of fees.

Fees otherwise chargeable in connection with a request for disclosure of a record shall be waived or reduced where:

(a) Disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester; or

(b) The costs of routine collection and processing of the fee are likely to equal or exceed the amount of the fee.

§ 903.1 Purpose and scope.

The purpose of this part is to enable the Pennsylvania Avenue Development Corporation to implement the Privacy Act of 1974, and in particular the provisions of 5 U.S.C. 552a, as added by the Act. The Act was designed to insure that personal information about individuals collected by Federal agencies be limited to that which is legally authorized and necessary, and that the information is maintained in a manner which precludes unwarranted intrusions upon individual privacy. The regulations in this part establish, and make public, procedures whereby an individual can:

(a) Request notification of whether or not the Corporation maintains or has disclosed a record pertaining to him or her;

(b) Request access to such a record or an accounting of its disclosure;

(c) Request that the record be amended, and
§ 903.4 Requests for access to records.

(a) Except as otherwise provided by law or regulation, an individual, upon request made in person or delivered in writing may gain access to his or her record or to any information pertaining to him or her which is contained in a system of records maintained by the Corporation, and to review the record and have a copy made of all or any portion thereof in a form comprehensible to him or her. An individual seeking access to a Corporation record may be accompanied by a person of his or her choosing. However, the Corporation will require a written statement from the individual authorizing discussion of his or her record in the accompanying person’s presence.

(b) A request under paragraph (a) of this section shall be directed to the Privacy Protection Officer at the place, times and in the manner prescribed in §903.3(a) and (b). The request should include the following information:

(1) The name of the individual;
(2) If made in writing, the information required under §903.3(b);
§ 903.5 Response to request for access.

(a) Within 10 days of receipt of a request made under §903.4 the Privacy Protection Officer shall determine whether access to the record is available under the Privacy Act and shall notify the requesting individual in person or in writing of that determination.

(b) Notices granting access shall inform the individual when and where the requested record may be seen, how copies may be obtained, and of any anticipated fees or charges which may be incurred under §903.11. Access shall be provided within 30 days of receipt of the request unless the Corporation, for good cause shown, is unable to provide prompt access, in which case the individual shall be informed in writing within the 30 days as to the cause for delay and when it is anticipated that access will be granted.

(c) Notices denying access shall state the reasons for the denial, and advise the individual that the decision may be appealed in accordance with the procedures set forth in §903.6.

§ 903.6 Appeal of initial denial of access.

(a) After receiving notification of an initial denial of access to a record, an individual may request a review and reconsideration of the request by the Executive Director of the Corporation, or an officer of the Corporation designated by him, but other than the Privacy Protection Officer. Appeals for review shall be in writing, addressed to the Executive Director, Pennsylvania Avenue Development Corporation, 1331 Pennsylvania Avenue, NW., Suite 1220 North, Washington, DC 20004. The appeal shall identify the record as in the original request, shall indicate the date of the original request and the date of the initial denial, and shall indicate the expressed basis for the denial.

(b) Not later than 30 days after receipt of an appeal, the Executive Director, or an officer of the Corporation designated by him, will complete review of the appeal and the initial denial and either:

(1) Determine that the appeal should be granted, and notify the individual in writing to that effect; or,

(2) Determine that the appeal should be denied because the information requested is exempt from disclosure. If the reviewing official denies the appeal, he or she shall advise the individual in writing of the decision and the reasons for reaching it, and that the denial of the appeal is a final agency action entitling the individual to seek judicial review in the appropriate district court of the United States as provided in 5 U.S.C. 552a(g).

[42 FR 5973, Feb. 1, 1977, as amended at 50 FR 45878, Nov. 4, 1985]

§ 903.7 Requests for amendment of record.

(a) An individual may request amendment of a Corporation record pertaining to him or to her, if the individual believes that the record contains information which is not accurate, relevant, timely, or complete. The request shall be in writing, whether presented in person or by mail, shall state with specificity the record sought to be amended, and shall propose wording of the correction or amendment sought. The request shall be directed to the Privacy Protection Officer at the place, times, and in the manner specified in §903.3 (a) and (b). Assistance in preparing a request to amend a record,
or to appeal an initial adverse determination under §903.3(a), may be obtained from the Privacy Officer, Pennsylvania Avenue Development Corporation, 1331 Pennsylvania Avenue, NW., Suite 1220 North, Washington, DC 20004. (b) Not later than 10 days after the date of receipt of a request the Privacy Protection Officer will acknowledge it in writing. The acknowledgement will clearly describe the request, and if a determination has not already been made, will advise the individual when he or she may expect to be advised of action taken on the request. For requests presented in person, written acknowledgement will be provided at the time when the request is presented. No separate acknowledgement of receipt will be issued if the request can be reviewed and the individual advised of the results of the review within the 10 day period.

[42 FR 5973, Feb. 1, 1977, as amended at 50 FR 45824, Nov. 4, 1985]

§ 903.8 Review of request for amendment of record.

(a) Upon receipt of a request for amendment of a record the Privacy Protection Officer will promptly review the record and: Either:
(1) Amend any portion thereof which the individual believes is not accurate, relevant, timely, or complete; or
(2) Inform the individual of refusal to amend the record in accordance with the request. In reviewing a record pursuant to a request to amend it, the Corporation will assess the accuracy, relevance, timeliness and completeness of the record in terms of the criteria established in 5 U.S.C. 522a(e)(5). In reviewing a record in response to a request to amend it by deleting information, the Corporation will ascertain whether or not the information is relevant and necessary to accomplish a purpose of the Corporation required to be accomplished by statute or by executive order of the President, as prescribed by 5 U.S.C. 522a(e)(1).
(b) The Corporation shall take the action specified in paragraph (a) of this section within 30 days of receipt of a request for amendment of a record, unless unusual circumstances preclude completion of the action within that time. If the expected completion date for the action, as indicated in the acknowledgement provided pursuant to §903.5 cannot be met, the individual shall be advised of the delay and of a revised date when action is expected to be completed. If necessary for an accurate review of the record, the Corporation will seek, and the individual will supply, additional information in support of his or her request for amending the record.

(c) If the Corporation agrees with all or any portion of an individual’s request to amend a record, the Corporation will so advise the individual in writing, and amend the record to the extent agreed to by the Corporation. Where an accounting of disclosures has been kept, the Corporation will advise all previous recipients of the record of the fact that the amendment was made and the substance of the amendment.

(d) If the Corporation disagrees with all or any portion of an individual’s request to amend a record, the Corporation shall:
(1) Advise the individual of its adverse determination and the reasons therefore, including the criteria used by the Corporation in conducting the review;
(2) Inform the individual that he or she may request a review of the adverse determination by the Executive Director of the Corporation, or by an officer of the Corporation designated by the Executive Director; and,
(3) Advise the individual of the procedures for requesting such a review including the name and address of the official to whom the request should be directed.

(e) If the Corporation is apprised by another agency of any corrections or other amendments made to a record contained in the Corporation’s system of records, the Corporation will promptly amend its record and advise in writing all previous recipients of the record of the fact that the amendment was made and the substance of the amendment.

§ 903.9 Appeal of initial adverse determination of request for amendment of record.

(a) After receipt by an individual of notice of an adverse determination by
§ 903.10 Disclosure of records to persons or agencies.

(a) The Corporation will not disclose any record which is contained in a system of records, by any means of communication to any person or to another agency except:

1. Pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains;
2. To those officers and employees of the Corporation who have a need for the record in the performance of their duties;
3. When required under 5 U.S.C. 522 (The Freedom of Information Act); or

(b) Not later than 30 days after receipt of an appeal, the Executive Director, or an officer of the Corporation designated by him, will complete a review of the appeal and the initial determination, and either:

1. Determine that the appeal should be granted, take the appropriate action with respect to the record in question, and notify the individual accordingly; or,
2. Determine that the appeal should be denied.

(c) The reviewing official may, at his or her option, request from the individual such additional information as is deemed necessary to properly conduct the review. If additional time is required, the Executive Director may, for good cause shown, extend the period for action beyond the 30 days specified above. The individual will then be informed in writing of the delay and the reasons therefor, and of the approximate date on which action is expected to be completed.

(d) If the reviewing official denies the appeal, he or she shall advise the individual in writing:

1. Of the decision and the reasons for reaching it;
2. That the denial of the appeal is a final agency action entitling the individual to seek judicial review in the appropriate district court of the United States, as provided in 5 U.S.C. 552a(g); and,
3. That the individual may file with the Corporation a concise statement setting forth the reasons for his or her disagreement with the refusal of the Corporation to amend the record in question.

(e) Any individual having received notices of a denial of an appeal to amend a record may file a statement of disagreement with the Executive Director not later than 60 working days from the date of receipt of the notice. Such statements shall ordinarily not exceed one page in length, and the Corporation reserves the right to reject statements of excessive length. Upon receipt of a proper and timely statement of disagreement, the Corporation will clearly annotate the record in question to indicate the portion of the record which is in dispute. In any subsequent disclosure containing information about which the individual has filed a statement of disagreement, the Corporation will provide a copy of the statement together with the record to which it pertains. In addition, prior recipients of the disputed record will be provided with a copy of statements of disagreement to the extent that an accounting of disclosures was maintained. If the Corporation deems it appropriate, it may also include in any disclosure its own concise statement of the reasons for not making the amendments requested.

§ 903.12 Fees for furnishing and reproducing records.

(a) Individuals will not be charged a fee for:
(1) The search and review of the record;
(2) Any copies of the record produced as a necessary part of the process of making the record available for access;
(3) Any copies of the requested record when it has been determined that access can only be accomplished by providing a copy of the record through the mail. The Privacy Protection Officer may provide additional copies of any record without charge when it is determined that it is in the interest of the Government to do so.

If it is anticipated that the total fee chargeable to an individual under this subpart will exceed $25, the Corporation shall promptly notify the requester of the anticipated cost. An advance deposit equal to 50% of the anticipated total fee will be required unless waived by the Privacy Protection Officer. In notifying the requester of the anticipated fee, the Privacy Protection Officer shall extend an offer to the requester to consult so that the request might be reformulated in a manner which will reduce the fee, yet still meet the needs of the requester.

Similar penalties attach for violations by agency officers and employees of the Privacy Act or regulations established thereunder.

PART 904—UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION FOR FEDERAL AND FEDERALLY ASSISTED PROGRAMS

§ 904.1 Uniform relocation assistance and real property acquisition.

Subpart A—General Provisions

§ 905.735–101 Principles and purpose.

In order to assure that the business of the Pennsylvania Avenue Development Corporation is conducted effectively, objectively, and without improper influence or appearance thereof, all employees and special Government employees must observe unquestionable standards of integrity and conduct. Employees and special Government employees shall not engage in criminal, infamous, dishonest, immoral, or disgraceful conduct or other conduct prejudicial to the Government. All employees and special Government employees must avoid conflicts of private interest with their public duties and responsibilities. They must consider the propriety of any action in relation to general ethical standards of the highest order, so that public confidence in the integrity of the Government will not be impaired. Certain standards are set by law. Others are set by regulation and by policy. This part incorporates by reference applicable general standards of conduct and prescribes additional necessary elements. Taken together, this part constitutes the Corporation’s regulations on this subject. Failure to observe any of the regulations in this part is cause for remedial action.

§ 905.735–102 Adoption of regulations.

Under the authority of 5 CFR 735.104(f), the Corporation adopts the following sections of the Civil Service Commission regulations on “Employee Responsibilities and Conduct” found in part 735 of title 5, Code of Federal Regulations: §§ 735.202 (a), (d), (e), (f) through 735.210; 735.302; 735.303(a); 735.304; 735.305(a); 735.306; 735.404 through 735.411; and 735.412 (b) and (d).

§ 905.735–103 Definitions.

As used in this part:
(a) Board Member means any member of the Board of Directors of the Pennsylvania Avenue Development Corporation, appointed or serving under section 3, Pub. L. 92–578, 86 Stat. 1267 (40 U.S.C. 872).

He gives his views or opinions on problems or questions presented him by the Corporation, but he neither performs nor supervises performance of operating functions. Ordinarily, he is expert in the field in which he advises, but he need not be a specialist. His expertise may lie in his possession of a high order of broad administrative, professional, or technical experience indicating that his ability and knowledge make his advice distinctively valuable to the agency. (Chapter 304, Federal Personnel Manual).
(f) Employee means an officer or employee of the Corporation, but does not include a special Government employee as defined herein. The term includes those Board Members who are determined to be officers or employees of the executive or legislative branches of the United States or of the District of Columbia. (g) Executive order means Executive Order 11222 of May 8, 1965.
(h) Expert means a person with excellent qualifications and a high degree of attainment in a professional, scientific, technical, or other field. His knowledge and mastery of the principles, practices, problems, methods, and techniques of his field of activity, or of a specialized area in the field, are clearly superior to those usually possessed by ordinarily competent individuals in that activity. His attainment is such that he usually is regarded as an authority or as a practitioner of unusual competence and skill by other
persons in the profession, occupation, or activity. (Chapter 304, Federal Personnel Manual.)

(i) *Head of the agency* means the Chairman.

(j) *Person* means an individual, a corporation, a company, an association, a firm, a partnership, a society, a joint stock company, or any other institution or organization.

(k) *Special Government Employee* means an officer or employee of the Corporation who is retained, designated, appointed or employed to perform, with or without compensation, for not more than 130 days during any period of 365 consecutive days, temporary duties either on a full time or intermittent basis (18 U.S.C. 202(a)). The term includes those Board Members who are appointed from private life and required to file a statement of financial interests with the Chairman of the Civil Service Commission pursuant to part IV of the Executive order, or who are determined to be special government employees of the executive or legislative branches of the United States or the District of Columbia.

§ 905.735–104 Applicability.

This part applies to each employee and to each special Government employee of the Corporation as defined herein and supplements the Executive order and part 735 of title 5, Code of Federal Regulations, promulgated by the Civil Service Commission on employee responsibilities and conduct.

§ 905.735–105 Designation of counselor.

In accordance with 5 CFR 735.105(a), the General Counsel of the Corporation is designated to be Ethics Counselor and shall serve as the Corporation’s liaison with the Civil Service Commission for matters covered in this part.

§ 905.735–106 Notification to employees and special Government employees.

(a) At the time these regulations are published, or amended, and not less often than once annually thereafter, the Corporation shall furnish each employee and special Government employees with a copy of the regulations. The Administrative Officer shall insure that each newly hired employee and special Government employee is given a copy of these regulations prior to or at the time of entry on duty.

(b) All employees and special Government employees will be advised by the Corporation of the availability of counseling regarding the provisions of this part.

§ 905.735–107 Review of statements of employment and financial interests.

The Ethics Counselor of the Corporation shall review each statement of employment and financial interests submitted under §905.735–402 or §905.735–403, except his own and those statements of special Government employees who file with the Chairman of the Civil Service Commission. When review discloses a conflict between the interests of an employee or special Government employee of the Corporation and the performance of his services for the Corporation, the Ethics Counselor shall bring the conflict to the attention of the employee or special Government employee, grant the individual an opportunity to explain the conflict, and attempt to resolve it. If the conflict cannot be resolved, the Ethics Counselor shall forward a written report on the conflict to the Chairman, recommending appropriate action. The Chairman shall review the report, solicit an explanation from the individual, and seek resolution of the conflict.

§ 905.735–108 Remedial and disciplinary action.

(a) In addition to any penalties prescribed by law, the Chairman, after review and consideration of any explanation given by an employee or special Government employee concerning a conflict of interest, may institute appropriate remedial action to resolve or otherwise eliminate the conflict. Appropriate remedial action may include, but is not limited to:

(1) Divestment by the employee or the special Government employee of the conflicting interest;

(2) Disqualification of the individual from a particular assignment;

(3) Changes in the assigned duties of the individual; or

(4) Disciplinary action.

(b) Where the situation warrants some form of disciplinary action, the
Chairman may choose from a wide range including a warning or reprimand, suspension, reduction in grade or pay, or termination of employment. The disciplinary action selected should reflect the character and degree of the offense which demands such action and should be reasonable in light of that offense.

(c) Remedial action, whether disciplinary or otherwise, shall be effected in accordance with applicable laws, Executive orders, and regulations.

Subpart B—Conduct and Responsibilities of Employees

§ 905.735–201 General standards of conduct.

(b) All employees shall conduct themselves off the job so as not to reflect adversely upon the Corporation or the Federal service.

(a) Accept gifts and other things of value under circumstances which arise from an obvious family or personal relationship(s) (such as between the parents, children, or spouse of the employee and the employee), when the circumstances make it clear that it is those relationships rather than the business of the persons concerned which are the motivating factors;

(b) Accept food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon, dinner, or other meeting, or on an inspection tour where an employee may properly be in attendance;

(c) Accept loans from banks or other financial institutions on customary terms to finance proper and usual activities of employees, such as home purchase;

(d) Accept unsolicited advertising or promotional materials, such as pens, pencils, note pads, calendars and other items of nominal intrinsic value;

(f) Participate in widely attended lunches, dinners, and similar gatherings sponsored by industrial, commercial, technical and professional associations, or groups, for discussion of matters of interest both to the Corporation and the public. Participation by an employee at the host’s expense is appropriate if the host is an association or group and not an individual.

§ 905.735–203 Outside employment and other activity.

As provided in 5 CFR 735.203, an employee of the Corporation may engage in outside employment or other outside activity not incompatible with the full and proper discharge of the duties and responsibilities of his Government employment. An employee who proposes to engage in outside employment shall
§ 905.735–204 Disclosure of information.

(a) Every employee who is involved in the development, maintenance or use of Corporation records containing information about individuals shall familiarize himself with the requirements and penalties of the Privacy Act of 1974 (5 U.S.C. 552a) and Corporation regulations (36 CFR part 903) promulgated thereunder concerning the utilization of and access to such records.

(b) Every employee is directed to cooperate to the fullest extent possible in discharging the requirement of the Freedom of Information Act (5 U.S.C. 522) and Corporation regulations promulgated thereunder (36 CFR part 902). Every effort should be made to furnish service with reasonable promptness to persons who seek access to Corporation records and information.

§ 905.735–205 Purchase of Government-owned property.

Employees of the Corporation and members of their immediate families may purchase Government-owned personal property when it is offered for sale by the General Services Administration or any Federal agency other than the Corporation (41 CFR 101–45.302).

Subpart C—Conduct and Responsibilities of Special Government Employees

§ 905.735–301 General standards of conduct.

(a) Special Government employees of the Corporation shall adhere to applicable regulations adopted under §904.735–102, except 5 CFR 735.203(b). In addition, the standards of conduct set forth in §§905.735–201, 905.735–204, and 905.735–205 shall apply to special Government employees.

(b) Special Government employees of the Corporation may teach, lecture, or write consistent with the provisions of 5 CFR 735.203(c).

(c) Pursuant to 5 CFR 735.305(b), the provisions concerning gifts, entertainment, and favors set forth in §905.735–202 are hereby made applicable to special Government employees.

Subpart D—Special Standards Applicable to Certain Board Members

§ 905.735–401 Standards.

Section 3(c)(8) of the Pennsylvania Avenue Development Corporation Act of 1972, Pub. L. 92–578, 86 Stat. 1267 (40 U.S.C. 872(c)(8)) specifies that the eight members appointed to the Board by the President from private life, at least four of whom shall be residents of the District of Columbia, “shall have knowledge and experience in one or more fields of history, architecture, city planning, retailing, real estate, construction or government.” As a result of these prerequisites for appointment of a private member to the Board of Directors, conflicts could arise for these Board Members as the Corporation proceeds with various development activities. Accordingly, Board Members should perform their responsibilities for the operation and management of the Corporation consistent with these regulations, and other applicable Federal laws and regulations, and consistent with the highest level of fiduciary responsibility.

§ 905.735–402 Advice and determination.

The Corporation’s Ethics Counselor is readily available for consultation when a Board Member seeks advice as to the appropriateness of his actions in light of this part, the Executive order, or title 18 U.S.C., chapter 11. A Board Member has an affirmative duty to advise the Ethics Counselor of any potential conflict of interest which may arise with the individual’s participation in any particular matter before the Corporation. If advised to do so, the Board Member should submit to the Chairman for determination the question of whether or not the conflict will disqualify the Board Member from participating in the action to be taken by the Corporation. Under the authority delegated to the Chairman pursuant to 18 U.S.C. 208(b), the Chairman may find that the Board Member need not be disqualified from participating in the particular matter, if:
(a) The Board Member makes a full disclosure of the financial interest; and
(b) The Chairman furnishes him with a written determination in advance of the action that the interest is not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect from the Board Member. Requests for similar determinations for conflicts posed by the financial interests of the Chairman himself shall be submitted to the Chairman of the Civil Service Commission.

Subpart E—Statements of Employment and Financial Interests

§ 905.735–501 Form and content of statements.

Statements of employment and financial interests required to be submitted under this subpart by employees and special Government employees shall contain the information required in the formats prescribed by the Civil Service Commission in the Federal Personnel Manual.

The General Counsel, as Ethics Counselor, shall submit his statement directly to the Chairman for review.

(c) An employee who believes that his position has been improperly included in this section or that the submission of a statement of employment and financial interests is required under this section may obtain a review of this determination upon a written request to the Chairman.

§ 905.735–503 Statements of employment and financial interests by special Government employees.

All special Government employees shall submit a statement of employment and financial interest prior to beginning employment or service with the Corporation. Each statement shall be submitted to the Ethics Counselor, Office of the General Counsel, Pennsylvania Avenue Development Corporation, 1331 Pennsylvania Avenue, NW., Suite 1220 North, Washington, D.C. 20004, except that the statements of Board Members appointed from private life shall be filed with the U.S. Civil Service Commission.

§ 905.735–504 Procedures for obtaining statements.

(a) Upon the adopting of the regulations of this part, the Ethics Counselor shall deliver to the incumbent of each position named in § 905.735–402 and to each special Government employee, two copies of the appropriate form for filing a statement of employment and financial interests. An enclosure with the forms shall advise that:

(1) The original of the completed form must be returned in a sealed envelope, marked “Personal—Confidential,” to the Ethics Counselor within the time specified by the Ethics Counselor;

(2) The services of the ethics counselor are available to advise and assist in preparation of the statement;

(3) Any additions or deletions to the information furnished must be reported...
§ 905.735–505 Confidentiality of statements.

Access to or disclosure of information contained in these statements shall not be allowed, except as the Commission or the Ethics Counselor determine for good cause shown, consistent with the Privacy Act of 1974 (5 U.S.C. 552a), and the regulations and pertinent notices of systems of records prepared by the Civil Service Commission and the Corporation in accordance with that Act.

Subpart F—Conduct and Responsibilities of Former Employees—Enforcement

§ 905.737–101 Applicable provisions of law.

Former employees of the Corporation must abide by the provisions of 18 U.S.C. 207 and 5 CFR 737.1 through 737.25, which bar certain acts by former Government employees that may reasonably give the appearance of making unfair use of prior Government employment and affiliations. Violation of those provisions will give rise to Corporation enforcement proceedings as provided in § 905.737–102, and may also result in criminal sanctions, as provided in 18 U.S.C. 207.

[48 FR 38233, Aug. 23, 1984]

(a) Delegation. The Chairman of the Corporation may delegate his or her authority under this subpart.

(b) Initiation of disciplinary hearing.

(1) Information regarding a possible violation of 18 U.S.C. 207 or 5 CFR part 737 should be communicated to the Chairman. The Chairman shall promptly initiate an investigation to determine whether there is reasonable cause to believe that a violation has occurred.

(2) On receipt of information regarding a possible violation of 18 U.S.C. 207, and after determining that such information appears substantiated, the Chairman of the Corporation shall expeditiously provide such information, along with any comments or regulations of the Corporation, to the Director of the Office of Government Ethics and to the Criminal Division, Department of Justice. The Corporation shall coordinate any investigation with the Department of Justice to avoid prejudicing criminal proceedings, unless the Department of Justice communicates to the Corporation that it does not intend to initiate criminal prosecution.

(3) Whenever the Corporation has determined after appropriate review, that there is reasonable cause to believe that a former employee has violated 18 U.S.C. 207 or 5 CFR part 737, it shall initiate a disciplinary proceeding by providing the former employee with notice as defined in paragraph (c) of this section.

(4) At each stage of any investigation or proceeding under this section, the Chairman shall take whatever steps are necessary to protect the privacy of the former employee. Only those individuals participating in an investigation or hearing shall have access to information collected by the Corporation pursuant to its investigation of the alleged violation.

(c) Adequate notice. (1) The Corporation shall provide the former employee with adequate notice of its intention to
institute a proceeding and an opportunity for a hearing.

(2) Notice to the former employee must include:
   (i) A statement of the allegations (and the basis thereof) sufficiently detailed to enable the former employee to prepare an adequate defense;
   (ii) Notification of the right to a hearing;
   (iii) An explanation of the method by which a hearing may be requested; and
   (iv) Notification that if a hearing is not requested within thirty days of receipt of notice, the Corporation will issue a final decision finding the alleged violations to have occurred.

(3) Failure to request a hearing within thirty days of the receipt of notice will be deemed an admission of the allegations contained in the notice and will entitle the Corporation to issue a final decision finding the alleged violations to have occurred.

(d) Presiding official.

(1) The presiding official at proceedings under this subpart shall be the Chairman, or an individual to whom the Chairman has delegated authority to make an initial decision (hereinafter referred to as examiner).

(2) An examiner shall be an employee of the Corporation who is familiar with the relevant provisions of law and who is otherwise qualified to carry out the duties of that position. He or she shall be impartial. No individual who has participated in any manner in the decision to initiate the proceedings may serve as an examiner.

(e) Time, date and place. (1) The hearing shall be conducted at a reasonable time, date, and place.

(2) On setting a hearing date, the presiding official shall give due regard to the former employee’s need for:
   (i) Adequate time to prepare a defense properly; and
   (ii) An expeditious resolution of the allegations that may be damaging to his or her reputation.

(f) Hearing rights. A hearing shall include the following rights:
   (1) To represent oneself or to be represented by counsel;
   (2) To introduce and examine witnesses and to submit physical evidence;
   (3) To confront and cross-examine adverse witnesses;
   (4) To present oral argument; and
   (5) To receive a transcript or recording of the proceedings, on request.

(g) Burden of proof. In any hearing under this subpart, the Corporation has the burden of proof and must establish substantial evidence of a violation.

(h) Hearing decision. (1) The presiding official shall make a determination exclusively on matters of record in the proceeding, and shall set forth in the decision all findings of fact and conclusions of law relevant to the matters at issue. If the hearing is conducted by the Chairman, the resulting written determination shall be an initial decision.

(2) Within thirty days of the date of an initial decision, either party may appeal the decision to the Chairman. The Chairman shall base his or her decision on such appeal solely on the record of the proceedings on those portions thereof cited by the parties to limit the issues.

(3) If the Chairman modifies or reverses the initial decision, he or she shall specify such findings of fact and conclusions of law as are different from those of the examiner.

(4) If no appeal is taken from an initial decision within thirty days, the initial decision shall become a final decision.

(i) Sanctions. The Chairman shall take appropriate action in the case of any individual who is found to be in violation of 18 U.S.C. 207 or 5 CFR part 737 after a final decision by:

(1) Prohibiting the individual from making, on behalf of any other person except the United States, any formal or informal appearance before, or with the intent to influence, any oral or written communication to, the Corporation on any matter of business for a period not to exceed five years, which may be accomplished by directing employees of the Corporation to refuse to participate in any such appearance or to accept any such communication; or
(2) Taking other appropriate disciplinary action.

Allowable rent deferral during the construction phase will be two percent of the total base rent for each one percent of the value of all construction contracts which have been awarded to Minority Owned Businesses, not to exceed 50 percent. Rent deferral during the first year of operation following construction of any phase of the development project will be four percent for each one percent of total equity owned by minority group members, minority owned businesses, and women.

(b) Following review of Affirmative Action reports submitted to the Corporation pursuant to § 906.5(b), the Corporation will determine the developer’s compliance with the goals set forth in the approved Affirmative Action Plan. Compliance with the goals established in the Plan will be measured by adding the percentages reported including overages in each category and dividing that by the number of categories covered in the Plan.

(c) If 75 percent compliance is not achieved during any rent deferral period, the Corporation will afford the developer 120 days to achieve at least that level of compliance. If, at the end of that 120 day period, 75 percent compliance is not achieved, all rental deferral, together with interest, will be due and payable to the Corporation on the 10th day following receipt of written notice that payment of the deferred rent has been accelerated.

§ 906.8 Review and monitoring.

The Corporation, either by its employees, consultants, or other government agency, shall analyze and monitor compliance with the developer’s approved Affirmative Action Plan. The Corporation shall rely on the reports submitted by the developer. However:

§ 907.3 Definitions.

(a) CEQ Regulations means the regulations for implementing the procedural provisions of the National Environmental Policy Act of 1969 as promulgated by the Council on Environmental Quality, Executive Office of the President, appearing at 40 CFR parts 1500–1509 (43 FR 55978–56007) and to which this part is a supplement.

(1) Decision Maker means the Board of Directors, unless a delegation to the Chairman, a member or committee of the Board of Directors, or the Executive Director has been made by the By-laws of the Corporation, a resolution of the Board of Directors, or an appropriate written delegation of authority.

(j) Private Developer means an individual, firm, joint venture, or other entity other than the Corporation which seeks to construct, reconstruct, rehabilitate, or restore real property within the development area.

(k) Other terms used in this part are defined in 40 CFR part 1508 of the CEQ Regulations.

§ 907.4 Designation of responsible Corporation official.

The Development Director is the Corporation official responsible for implementation and operation of the Corporation’s policies and procedures on environmental quality and control.

§ 907.5 Specific responsibilities of designated Corporation official.

(a) Coordinate the formulation and revision of Corporation policies and procedures on matters pertaining to environmental protection and enhancement.

(k) Coordinate Corporation efforts to make available to other parties information and advice on the Corporation’s policies for protecting and enhancing the quality of the environment.

§ 907.6 Major decision points.

(a) The possible environmental effects of a proposed action or project must be considered along with technical, economic, and other factors throughout the decision-making process. For most Corporation projects there are three distinct stages in the decision making process:

(1) Conceptual or preliminary stage;

(2) Detailed planning or final approval stage;

(3) Implementation stage.

(b) Environmental review will be integrated into the decision making process of the Corporation as follows:
§ 907.7 Determination of requirement for EIS.

Determining whether to prepare an environmental impact statement is the first step in applying the NEPA process. In deciding whether to prepare an environmental impact statement, the responsible Corporation official will determine whether the proposal is one that:

(a) Normally requires an environmental impact statement.

(b) Normally does not require either an environmental impact statement or an environmental assessment (categorical exclusion).

(c) Normally requires an environmental assessment, but not necessarily an environmental impact statement.

§ 907.8 Actions that normally require an EIS.

PADC shall perform or have performed an environmental assessment to determine if a proposal requires an environmental impact statement. However, it may be readily apparent that a proposed action will have a significant impact on the environment; in such cases, an environmental assessment is not required and PADC will immediately begin to prepare or have prepared the environmental impact statement. To assist in determining if a proposal or action normally requires the preparation of an environmental impact statement, the following criteria and categories of action are provided.

(a) Criteria. Criteria used to determine whether or not actions or proposals may significantly affect the environment and therefore require an environmental impact statement are described in 40 CFR 1508.27 of the CEQ Regulations and as follows:

(1) Buildings or facades designated for retention in the Plan will be adversely affected by the proposal or action.

(2) Traffic generated by the proposal or action would represent a substantial increase over the traffic projections assessed in the Final EIS in the average daily traffic volume on avenues and streets within the Development Area or its environs;

(3) Air quality in the Development Area and its environs would be substantially affected by the proposal or action based upon the District of Columbia’s adopted standard for hydrocarbons and carbon monoxide;

(4) Solid waste disposal generated by a project of the Corporation or of a developer who is constructing, reconstructing, or rehabilitating that project, would have an adverse effect on the capacity of the relevant solid waste disposal facility and compliance with “Solid Waste Management Guidelines” of the U.S. Environmental Protection Agency and related local and regional controls;

(5) Public utilities have insufficient capacity to provide reliable service to a project within the Development Area; and

(6) A project will be inconsistent with major elements of the Zoning Regulations of the District of Columbia as they are applicable to the Development Area.

(b) Categories of action. The following categories of action normally require an environmental impact statement:

(1) Amendments or supplements to the Plan that constitute a “substantial change” to the Plan as defined in 40 U.S.C. 874(c) of the Act.

(2) Acquisition or disposal of real property by the Corporation not related to any specific decision, plan, or program adopted by the Board of Directors of the Corporation for which an environmental assessment or an assessment and an EIS has been prepared.
Pennsylvania Avenue Development Corporation § 907.11

(3) Legislative proposals made to Congress.

(4) Funding and/or construction by the Corporation or its agents or representatives of any building, if that activity is not consistent with the Plan and the Final EIS.

§ 907.9 Preparation of an EIS.

(a) Notice of intent. When PADC decides to prepare an environmental impact statement, it shall publish a notice of intent in the Federal Register in accordance with 40 CFR 1501.7 and 1508.22 of the CEQ Regulations.

(b) Preparation. After determining that an environmental impact statement will be prepared and publishing the notice of intent, PADC will begin to prepare or have prepared the environmental impact statement. Procedures for preparing the environmental impact statement are set forth in 40 CFR part 1502, CEQ Regulations.

(c) Supplemental environmental impact statements. PADC may supplement a draft or final environmental impact statement at any time. PADC shall prepare a supplement to either the draft or final EIS that are relevant to environmental concerns or there are significant new circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts; or (2) actions are proposed which relate or are similar to other action(s) taken or proposed and that together will have a cumulatively significantly impact on the environment.

§ 907.10 Categorical exclusion.

The CEQ Regulations provide for the categorical exclusion (40 CFR 1508.4) of actions that do not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required for such actions.

(a) Criteria. Criteria used to determine those categories of action that normally do not require either an environmental impact statement or an environmental assessment include:

(1) The action or proposal is consistent with the Plan or the Act, and the environmental effects have been previously analyzed in the Final EIS, a supplement thereto, or in an environmental assessment or an EIS previously prepared; or

(2) The total estimated cost directly attributable to the action or proposal does not exceed $500,000; or

(3) The action or proposal is related solely to internal administrative operations of the Corporation.

(b) List of categorical exclusions. Categories of action, identified in appendix A (attached) have been determined by PADC to have no significant effect on the human environment and are therefore categorically excluded from the preparation of environmental impact statements and environmental assessments.

(c) Changes to the list of categorical exclusion. (1) The PADC List of Categorical Exclusion will be continually reviewed and refined as additional categories are identified and as experience is gained in the categorical exclusion process.

(2) Additional categories of exclusion identified will be submitted to the Chairman of the Board of Directors for review and approval, and for amendments to this part, following public comment and review by the Council on Environmental Quality.

§ 907.11 Actions that normally require an environmental assessment.

If a proposal or action is not one that normally requires an environmental impact statement, and does not qualify for categorical exclusion, PADC will prepare or have prepared an environmental assessment.

(a) Criteria. Criteria used to determine those categories of action that normally require an environmental assessment, but not necessarily an environmental impact statement, include:

(1) Potential for minor degradation of environmental quality;

(2) Potential for cumulative impact on environmental quality; and

(3) Potential for impact on protected resources.

(b) Categories of action. The following categories of action normally require
§ 907.12 Preparation of an environmental assessment.

(a) When to prepare. PADC will begin the preparation of an environmental assessment as early as possible after it is determined by the responsible corporation official to be required. PADC may prepare an environmental assessment at any time to assist planning and decision-making.

(b) Content and format. An environmental assessment is a concise public document used to determine whether to prepare an environmental impact statement. An environmental assessment aids in complying with the Act when no environmental impact statement is necessary, and it facilitates the preparation of an environmental impact statement, if one is necessary. The environmental assessment shall contain brief discussions of the following topics:

(1) Purpose and need for the proposed action.

(2) Description of the proposed action.

(3) Alternatives considered, including the No Action alternative.

(4) Environmental effects of the proposed action and alternative actions.

(5) Listing of agencies, organizations or persons consulted.

(6) In preparation of the environmental assessment, the most important or significant environmental consequences and effects on the areas listed below should be addressed. Only those areas which are specifically relevant to the particular proposal should be addressed. Those areas should be addressed in as much detail as is necessary to allow an analysis of the alternatives and the proposal. The areas to be considered are the following:

(i) Natural/ecological features (such as floodplain, wetlands, coastal zones, wildlife refuges, and endangered species);

(ii) Air quality;

(iii) Sound levels;

(iv) Water supply, wastewater treatment and water runoff;

(v) Energy requirements and conservation;

(vi) Solid waste;

(vii) Transportation;

(viii) Community facilities and services;

(ix) Social and economic;

(x) Historic and aesthetic; and

(xi) Other relevant factors.

(c) Finding of no significant impact. If PADC completes an environmental assessment and determines that an environmental impact statement is not required, then PADC shall prepare a finding of no significant impact. The finding of no significant impact shall be
made available to the public by PADC as specified in 40 CFR 1506.6 of the CEQ Regulations.

§ 907.13 Public involvement.
Interested persons may obtain information concerning any pending EIS or any other element of the environmental review process of the Corporation by contacting the Public Information Officer of the Corporation, 1331 Pennsylvania Avenue, NW, Suite 1220 North, Washington, DC 20004, telephone (202) 566–1218.

§ 907.14 Corporation decision making procedures.
To ensure that at major decision making points all relevant environmental concerns are considered by the Decision Maker, the following procedures are established.

(a) An environmental document, i.e., the EIS, Environmental Assessment, Finding of No Significant Impact, or Notice of Intent, in addition to being prepared at the earliest point in the decision making process, shall accompany the relevant proposal or action through the Corporation’s decision making process to ensure adequate consideration of environmental factors.

(b) The decision maker shall consider in its decision making process only those decision alternatives discussed in the relevant environmental documents. Also, where an EIS has been prepared, the decision maker shall consider all alternatives described in the EIS. A written record of the consideration of alternatives during the decision making process shall be maintained.

(c) Any environmental document prepared for a proposal or action shall be made part of the record of any formal rulemaking by the Corporation.

§ 907.15 Approval of private development proposals.

(a) Each development proposal submitted by a private developer to the Corporation for its approval, unless categorically excluded, shall require, at a minimum, an environmental assessment.

(b) The Board of Directors may not take any approval action on a submitted development proposal of a private developer until such time as the appropriate environmental review has been prepared and submitted to the Board of Directors.

(c) At a minimum, and as part of any submission made by a private developer to the Board of Directors for its approval, a private developer shall make available data and materials concerning the development proposal sufficient to permit the Corporation to carry out its responsibilities on environmental review. When requested, the developer shall provide additional information that the Corporation believes is necessary to permit it to satisfy its environmental review functions.

(d) As part of a development proposal submission, a private developer may submit an environmental assessment on its development proposal.

(e) Where the responsible Corporation official determines that the preparation of an EIS is required, the EIS shall be prepared in accordance with part 1502 of the CEQ Regulations. (b) For an action that qualifies as one for which the Corporation will seek designation as lead agency, the Corporation will promptly consult with the appropriate Federal agencies such as the National Capital Planning Commission, the Department of the Interior, and the General Services Administration to establish lead agency and cooperating agency designations.

Subpart A—General

§ 908.1 Policy.

One of the goals of The Pennsylvania Avenue Plan—1974, as amended, (The Plan) is the reduction of hardships experienced by businesses and residents within the development area of the Pennsylvania Avenue Development Corporation (the Corporation) when they are displaced as a result of implementation of The Plan. It is the policy of the Corporation to provide displaced businesses and residents with a preferential opportunity to relocate within the development area so that they may share in the benefits brought to the area by the implementation of The Plan. This rule shall not be construed to affect the eligibility, rights or responsibilities of persons who may be entitled to benefits provided under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as implemented by the Corporation (36 CFR part 904).

§ 908.2 Purpose.

The purpose of this rule is to:

(a) Provide a meaningful opportunity to businesses displaced by the Corporation's program to return to, or remain in, the Development Area;

(b) Establish procedures and requirements for displaced occupants by which they may establish and later exercise their preferential right to return to the Development Area;

(c) Establish procedures which the Corporation and private Developers must follow in providing Qualified Persons with the opportunity to obtain their preferential right to return to the Development Area.

§ 908.3 Definitions.

The following definitions shall apply to this part:

(a) Developer means a Person or team of Persons that has received preliminary approval for a development proposal or has been designated by the Corporation as Developer pursuant to a development competition.

(b) Development Area means the area described in section 2(f) of Pub. L. 92-578, October 27, 1972, as amended (40 U.S.C. 871 (f)), and for which the Plan has been prepared and will be implemented by the Corporation.

(c) List means the List of Qualified Persons maintained by the Corporation as provided in §908.11(a) of this rule.

(d) Newly developed space means any leaseable part of a new building in the Development Area upon which construction was commenced after October 27, 1972 or an existing building in the Development Area which after October 27, 1972 underwent substantial remodeling, renovation, conversion, rebuilding, enlargement, extension or major structural improvement, but not including ordinary maintenance or remodeling or changes necessary to continue occupancy.

(e) Person means a partnership, company, corporation, or association as well as an individual or family, but does not include a department, agency, or instrumentality of any Federal, state, or local government.

(f) Previous location means the space from which the Eligible Person was or is being displaced as a result of the Corporation’s or Developer’s acquisition of real property, or as a result of receiving a written order to vacate from the Corporation.

Subpart B—Preferential Right To Relocate

§ 908.10 Criteria of Qualified Person.

Qualified Person is either

(a) A Person whose place of business or residence was located in the Development Area and was displaced from its location by:

(1) The Corporation in connection with the acquisition of fee title, or a lesser interest, in the real property containing such business or residence; or

(2) A Developer in implementing a development project in accordance with the Plan; or

(b) A Person whose place of business or residence is located in the Development Area and who has received notice of initiation of negotiations by the Corporation for purchase of the real property containing such business or residence.
§ 908.11 List of Qualified Persons.

(a) The Corporation shall develop and maintain a List of Qualified Persons who meet the criteria of Qualified Person as defined in §908.10 and who ask to be placed on that list.

(b) The Corporation shall notify each occupant displaced by development provided an address is available to the Corporation, of this policy and the procedures to be followed for placement on the List.

(c) A person who wishes to be included on the List shall notify the Corporation in writing to that effect. The notice to the Corporation shall include:

1. The address of the Previous Location;
2. A short statement indicating the nature of the Qualified Person’s occupancy;
3. The amounts and type of space occupied prior to displacement;
4. A description of any specialized equipment or unusual requirements for occupancy; and
5. A copy of the notice to vacate from the Developer or notice of initiation of negotiations from the Corporation if either of these was received by the Qualified Person.

(d) The Corporation shall:

1. Review the information furnished by the Person including any notice;
2. Request additional information, if necessary to make a determination of the Person’s qualifications;
3. Determine whether the Person is qualified to be listed, and if so place the Person on the list; and
4. Notify the Person of its determination.

(e) The Corporation urges that any Person who wishes to be placed on the List request such placement as soon as the Person meets the criteria for Qualified Person established in §908.10, and all Persons are encouraged to do so no later than one year of the time the Person is displaced in order to increase the opportunity to obtain Newly Developed Space. However, no Person shall be denied placement on the List because such placement was not requested within one year of displacement.

§ 908.12 Retention on the List of Qualified Persons.

(a) Once placed on the List, the Corporation shall keep a Person on the List until:

1. The Corporation receives a written request from the Qualified Person to be removed from the List;
2. The Qualified Person is relocated into or has a binding lease commitment for Newly Developed Space;
3. The Qualified Person sells, transfers, or merges its interest in the displaced business, unless after such change in ownership Qualified Persons have at least fifty-one percent of the interest in the resulting business; or
4. The Corporation receives a mailing returned from the Post Office that the Person is not located at the known address and left no forwarding address, provided that the Corporation shall reinstate any such removed name if the Person provides the Corporation with a current address; or
5. The Corporation ceases operations upon completion of the Plan.

(b) A Qualified person relocated into newly developed space, may only again be placed on the List:

1. If another branch of its business is subsequently displaced from space within the Development Area which is not Newly Developed Space; and
2. If all requirements of §908.10 of the rule are met with regard to the subsequent displacement.

§ 908.13 Rights of Qualified Persons.

(a) As provided in §§908.14(c) and 908.15(b), each Qualified Person on the List shall receive notices of opportunities to occupy Newly Developed Space as opportunities become available.

(b) As provided in §§908.14(d) and 908.15(c), each Qualified Person on the List shall be notified of any subsequent changes in the leasing plan which are, in the Corporation’s opinion, major.

(c) Each Qualified Person on the List, who is interested in negotiating for occupancy of Newly Developed Space shall, within two weeks after receiving notice of a tenanting opportunity, provide written notice of its interest in the tenanting opportunity to the Developer, and furnish a copy of the written notice to the Corporation.
(d) Each Qualified Person on the List who provides a written notice of interest shall have ninety days following the Developer's receipt of the notice of interest for exclusive negotiations with the Developer for occupancy of the Developer's Newly Developed Space. During the ninety day period the Developer, subject to §§908.14 and 908.15 of this rule, shall not negotiate tenanting opportunities for the same Newly Developed Space requested by the Qualified Person with other than Qualified Persons.

(e) A Qualified Person’s opportunity to occupy Newly Developed Space shall not be limited to the square on which its previous location was situated but extends throughout the Development Area. Similarly, no Qualified Person has an absolute right to return to the square where previous location was situated.

(f) A Qualified Person’s opportunity to occupy space may be exercised in the Development Area at any time during the Corporation’s existence, but such opportunity may only be exercised within Newly Developed Space.

(g) A Qualified Person has one opportunity to occupy Newly Developed Space from which it is displaced.

(h) The Corporation cannot assure any Qualified Person that it will be relocated to Newly Developed Space.

§ 908.14 Requirements placed on developers that have acquired or leased real property from the Corporation.

Developers who have acquired or leased real property from the Corporation shall:

(a) Notify the Corporation, within six months of the approval of the Developer’s building permit, of its leasing plan and when it intends to begin seeking tenants. The Developer shall include at least the following in its leasing plan:

This letter shall include a description of the mix of uses in the project, the rentals to be charged by type of use and location, the terms and conditions to be included in leases, the projected completion and occupancy dates, and the selection criteria to be used to choose tenants. (d) Notify in writing each Qualified Person whom the Developer has previously contacted of changes in the Developer’s leasing plan which the Corporation determines are major.

(e) Provide a ninety day period for exclusive negotiations with Qualified Persons, said period to commence with the timely receipt by the Developer of the written notice of interest from the Qualified Person. During this period the Developers shall:

(g) Report to the Corporation quarterly thereafter until the project is fully leased or there are no more Qualified Persons interested in leasing space, whichever first occurs, concerning the results of its negotiations with Qualified Persons. In particular the Developer shall state:

(1) The number of Qualified Persons with whom it has reached agreement and the name of each;

(2) The percentage of square feet of total leasable space which it has leased to Qualified Persons; and

(3) A description of the Developer’s negotiations with each Qualified Person including a summary of each communication between the Developer and each Qualified Person with whom agreement has not been reached, the Developer’s best offer to each Qualified Person, the best offer of each Qualified Person to the Developer, and the specific reason why the Developer determines any Qualified Person did not meet its selection criteria.

§ 908.15 Requirements placed on developers that have not acquired or leased real property from the Corporation.

The Corporation shall encourage Developers that do not acquire or lease real property from the Corporation to lease to Qualified Persons.

(a) While reviewing the Developer’s preliminary or final plans, the Corporation shall explore the tenanting opportunities proposed by the Developer and furnish the Developer with the List.

(b) The Corporation shall notify those Qualified Persons on the List who appear to be prospective tenants for the available tenanting opportunities of this tenanting opportunity. To the extent that such information is available to the Corporation, these notices shall specify the mix of uses in the project, the rentals to be charged by type of use and location, the terms and conditions to be included in the leases, the projected completion and occupancy dates and the selection criteria to be used in choosing tenants.

(c) The Corporation shall notify in writing each Qualified Person whom it has previously contacted of changes in the Developer’s plan provided the Corporation is informed of the changes and determines the changes are major.

(d) The Corporation shall request that the Developer make every effort to lease space to Persons on the List and to report to the Corporation the names of those Qualified Persons who have reached an agreement with the Developer.

(i) Subject qualified handicapped persons to discrimination on the basis of handicap; or
(ii) Defeat or substantially impair accomplishment of the objectives of a program or activity with respect to handicapped persons.
(4) The agency may not, in determining the site or location of a facility, make selections the purpose or effect of which would—
(i) Exclude handicapped persons from, deny them the benefits of, or otherwise subject them to discrimination under any program or activity conducted by the agency; or
(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to handicapped persons.
(5) The agency, in the selection of procurement contractors, may not use criteria that subject qualified handicapped persons to discrimination on the basis of handicap.
(6) The agency may not administer a licensing or certification program in a manner that subjects qualified handicapped persons to discrimination on the basis of handicap, nor may the agency establish requirements for the programs or activities of licensees or certified entities that subject qualified handicapped persons to discrimination on the basis of handicap. However, the programs or activities of entities that are licensed or certified by the agency are not, themselves, covered by this part.
(c) The exclusion of nonhandicapped persons from the benefits of a program limited by Federal statute or Executive order to handicapped persons or the exclusion of a specific class of handicapped persons from a program limited by Federal statute or Executive order to a different class of handicapped persons is not prohibited by this part.

§§ 909.131–909.139 [Reserved]
§ 909.140 Employment.
No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the agency. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally conducted programs or activities.
§§ 909.141–909.148 [Reserved]
§ 909.149 Program accessibility: Discrimination prohibited.
Except as otherwise provided in §909.150, no qualified handicapped person shall, because the agency’s facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.
§ 909.150 Program accessibility: Existing facilities.
(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not—
(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons;

(2) In the case of historic preservation programs, require the agency to take any action that would result in a substantial impairment of significant historic features of an historic property; or

(3) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §909.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

(b) Methods—(1) General. The agency may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by handicapped persons. The agency is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified handicapped persons in the most integrated setting appropriate.

(2) Historic preservation programs. In meeting the requirements of §909.150(a) in historic preservation programs, the agency shall give priority to methods that provide physical access to handicapped persons. In cases where a physical alteration to an historic property is not required because of §909.150(a)(2) or (a)(3), alternative methods of achieving program accessibility include—

(i) Using audio-visual materials and devices to depict those portions of an historic property that cannot otherwise be made accessible;

(ii) Assigning persons to guide handicapped persons into or through portions of historic properties that cannot otherwise be made accessible; or

(iii) Adopting other innovative methods.

(c) Time period for compliance. The agency shall comply with the obligations established under this section by October 21, 1986, except that where structural changes in facilities are undertaken, such changes shall be made by August 22, 1989, but in any event as expeditiously as possible.

(d) Transition plan. In the event that structural changes to facilities will be undertaken to achieve program accessibility, the agency shall develop, by February 23, 1987, a transition plan setting forth the steps necessary to complete such changes. The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

§ 909.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the agency shall be designed, constructed, or altered so as to be readily accessible to and usable by handicapped persons. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151–4157), as established in 41 CFR 101–19.600 to 101–19.607, apply to buildings covered by this section.

(c) The agency shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §909.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.

(e) If the agency receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) The agency shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), or section 502 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 792), is not readily accessible to and usable by handicapped persons.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the agency shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;
(2) A description of a remedy for each violation found; and
(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by §909.170(g). The agency may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the head of the agency.

Subpart A—General

§ 910.1 Policy.

(a) The Pennsylvania Avenue Development Corporation Act of 1972, Pub. L. 92–578, October 27, 1972, (the Act), (40 U.S.C. 871 et seq.) established the Pennsylvania Avenue Development Corporation (the Corporation) with jurisdiction over the Pennsylvania Avenue Development Area (Development Area). The Development Area is generally described as an area in Washington DC, bounded by Pennsylvania Avenue, NW., on the south, East Executive Drive on the west, 3rd Street, NW., on the east, and E and F Streets, NW., on the north.

(b) Prior to creation of the Corporation, the deterioration of the Development Area had an adverse impact upon the physical, economic, and social life of Washington, DC. The Corporation was created as the vehicle to develop, maintain, and use the Development Area in a manner suitable to its ceremonial, physical, and historic relationship to the legislative and executive branches of the Federal government, to the governmental buildings, monuments, memorials, and parks in and adjacent to that area, and to the downtown commercial core of Washington, DC. The Corporation was directed to prepare a development plan for the Development Area and to submit that plan to the United States Congress. Congress accepted that plan and directed its implementation by the Corporation. The Corporation through a broad range of statutory powers has begun this implementation process.

(c) The Pennsylvania Avenue Plan—1974, as amended (the Plan) is a blueprint for social, economic, and architectural rejuvenation of the Development Area. Its goal is to make the Development Area once again a relevant and contributing element of Washington, DC. With the implementation of the Plan, the Development Area will become a showpiece of the Nation’s Capital, proudly displaying the successful joint efforts of the Corporation, other Federal and District of Columbia government agencies, and private entrepreneurs.

(d) The Plan, containing the goals and objectives for development, is supplemented by various adopted policies and programs of the Corporation. The Plan, in conjunction with these policies and programs, represents the basis upon which the development and rejuvenation of the Development Area will proceed, whether publicly or privately inspired and accomplished. These policies and programs amplify, elaborate, and refine the planning and urban design concepts expressed in the Plan.

§ 910.2 Purpose.

(a) Implementation of the Plan occurs through two component actions: public improvements construction and square development. Public improvements construction consists of implementation by the Corporation of the Public Improvements Program which is a comprehensive plan for the design and construction of public amenities in public spaces and selected thoroughfares within the Development Area. This program outlines the details of roadway and sidewalk improvements, public space configuration, and pedestrian amenities. Square development consists of design and construction of
Pennsylvania Avenue Development Corporation § 910.3

development projects primarily on city blocks, known as squares, within the Development Area. These development projects are generally pursued by private entrepreneurs with varying degrees of participation and involvement by the Corporation, through such means as land assemblage and leasing.

(b) This part 910, together with the Square Guidelines applicable to the coordinated planning area, pertains solely to square development and specifies the controlling mechanism for implementation of the Plan required by Chapter Six of the Plan.

§ 910.3 Program administration.

(a) This part 910, together with Square Guidelines, described below, provides interested parties with the urban planning and design information sufficient to understand and participate in the process of square development within the Development Area.

(1) This part 910, General Guidelines and Uniform Standards for Urban Planning and Design of Development, sets forth the general planning and design goals and objectives which govern the implementation of the Plan, specifies standards which are uniformly applicable to all developments throughout the Development Area, and provides a glossary of defined terms applicable to this part as well as Square Guidelines.

(2) Square Guidelines specifies detailed urban planning and design requirements and recommendations which are applicable to each particular coordinated planning area, a coordinated planning area being a square, a portion of a square, or a combination of squares. These requirements and recommendations set forth intentions and refinements of the Plan in light of the identified Planning and Design Concerns specified in subpart B of this part 910. Each set of Square Guidelines is adopted by the Board of Directors, issued by the Chairman, and is available, upon request, at the Corporation’s office.

(3) Square Guidelines are developed in the context of the existing environment. Several provisions in the Square Guidelines are, therefore, established on the basis of certain assumptions in terms of existing buildings, a particular traffic pattern and roadway configuration, a market condition for a particular land use, etc. In the event of a major change or casualty which would render it impossible or impractical to meet certain requirements of Square Guidelines, the Corporation would expect to develop and issue up-to-date Square Guidelines. This statement does not, of course, preclude the Corporation from issuing amendments to Square Guidelines from time to time on any other basis.

(b) Pursuant to section 7(b) of the Act, each proposal for development within the Development Area must be submitted to the Corporation to determine its consistency with the Plan. The Corporation’s adopted development policy, entitled “Development Policies and Procedures,” sets forth the process for this determination. In determining whether a development proposal is consistent with the Plan, the Corporation shall review the proposal against all adopted Corporation programs, policies, and regulations, including:

(1) This part 910.

(2) Square Guidelines.

(3) Development Policies and Procedures.

(4) Historic Preservation Plan.

(5) Energy Guidelines.

(6) Side Street Improvements Program.

(7) Policy on Environmental Quality and Control (36 CFR part 907).

(8) Pennsylvania Avenue Lighting Plan.

(9) Public Improvements Program.

(11) Policy and Procedures to Facilitate Successful Relocation of Businesses and Residents within the Pennsylvania Avenue Development Area.

(12) All other programs, policies, and regulations that may be approved and adopted by the Board of Directors from time to time.

(c) Pursuant to the Act, Federal and District of Columbia agencies and departments may exercise such existing authority and lawful powers over urban planning and design features of development as are consistent with the Plan. No department or agency may release, modify, or depart from any feature of the Plan without the prior approval of the Corporation.
§ 910.10 General.

To facilitate review of each development proposal in light of the identified urban planning and design goals of the Plan, the following urban planning and design concerns will be the basis upon which the evaluation of such proposals will be made. These concerns are also more specifically reflected in subpart C of this Rule, and in the requirements and recommendations in Square Guidelines.

(a) Comprehensive planning and design;
(b) Development density;
(c) Urban design of Washington, DC;
(d) Historic preservation;
(e) New development design;
(f) Land use;
(g) Pedestrian circulation systems; and
(h) Vehicular circulation and storage systems.

§ 910.11 Comprehensive urban planning and design.

(a) All new development is conceived as an integral part of its surroundings, which include the remainder of the Development Area, the Mall, the Federal Triangle, and the District’s downtown, and should support Pennsylvania Avenue’s function as a bridge between the monumental Federal core to the south and the District’s downtown to the north.

(b) All development shall be planned and designed to accommodate the requirements and needs of historic preservation, affirmative action, business relocation, and other concerns which will affect the overall planning and design of a development.

(c) The design of any development shall take into account the Plan’s proposed future treatment of buildings, squares, and pedestrian spaces in the immediate surrounding area.

(d) The design of any development shall be coordinated with the massing, architectural design, servicing, pedestrian amenities, and uses of nearby development as prescribed under the Plan.

(e) Any development adjacent to F Street, NW, shall be accomplished in a manner that will strengthen F Street as a retail core of Washington, DC.

(f) Any development along Pennsylvania Avenue shall be designed so as to support the transformation of the Avenue into an attractive and pleasant place for residents and visitors alike, offering pleasant places to stroll, rest, sit and talk, eat, and shop.

(g) All development within a coordinated planning area shall, to the maximum extent possible, be integrated with regard to the off-street loading and servicing, and other urban design elements.

§ 910.12 Development density.

(a) Land would be developed to the fullest extent appropriate in terms of uses, economics, and design so that the city’s economic life and tax base can be enhanced.

(b) New development shall be designed to achieve maximum development density within the building envelope delineated by specific height restrictions, but shall also establish a compatible and appropriate scale for historic preservation, residential and other uses, and other urban design elements.

(c) Development density is limited by the Zoning Regulations of the District of Columbia and may be further restricted by the Corporation in specific coordinated planning areas, provided that any lower density would be economically feasible. Generally, the Plan is structured to create high density development west of the FBI and lower density development east of the FBI.

(d) The density of new development should bring new economic life—jobs, shopping, and business opportunities—to Pennsylvania Avenue, while also reinforcing existing activity both on the Avenue and in the adjacent downtown, both within and beyond the Development Area.

§ 910.13 Urban design of Washington, DC.

(a) Pennsylvania Avenue’s unique role as the physical and symbolic link between the White House and the U.S. Capitol should be reinforced by new development along it.

(b) To reinforce and enrich the legacy of the L’Enfant Plan, the primary function of new development in the Development Area is to define open spaces and...
§ 910.14 Historic preservation.

(a) The Development Area is located almost entirely within the Pennsylvania Avenue National Historic Site, which was established to preserve the exceptional values of Pennsylvania Avenue and its environs in commemorating or illustrating the history of the United States. The Pennsylvania Avenue Area achieves national historic significance because of both its ceremonial role in the life of the nation and its social and economic role in the life of the residents of Washington for more than a century.

(b) The Historic Preservation Plan of the Corporation sets forth the adopted policy of the Corporation on historic preservation and development within the Development Area must be consistent with this policy.

(c) New construction adjacent to historic structures will be required to take into account the qualities of the adjacent structures (with regard to height, scale, proportion, rhythm, texture, materials, architectural detail, and the amount of variety among the structures with respect to these qualities as well as style and date of erection) to ensure that these structures maintain their historic or architectural integrity, but will not necessarily be required to conform to them.

(d) Wholly new construction and new construction in conjunction with preservation will, where appropriate, take into account the historic buildings to remain, aiming for the highest quality of contemporary design, consistent with the goals and objectives of the Historic Preservation Plan.

§ 910.15 New development design.

(a) All new development shall represent the best contemporary architectural and urban planning concepts.

(b) Where new development includes or relates to historic or architecturally meritorious buildings which are to be preserved, the design of the new development should be aimed at retaining as much of the significant fabric of the Development Area as is possible consistent with the goals of the Plan.

§ 910.16 Land use.

(a) Development within the Development Area shall provide, and stimulate in neighboring areas, more lively and varied shopping, cultural, entertainment, and residential opportunities, as well as high quality office uses.

(b) That portion of the Development Area west of the FBI Building is designated for commercial development, primarily office and hotel uses with attendant retail and service uses. That portion of the Development Area east of the FBI Building is designated for development with residential uses, office, institutional and entertainment uses supported by service and retail uses.

(c) The kinds of uses and their location within the Development Area shall be directly related to creating a lively atmosphere and to promoting an active street life throughout the day, evening, and weekend.

(d) Introduction or expansion of retail uses shall be encouraged as both reinforcement of existing retail uses and creation of new retail activities.

(e) While recognized as important to the commercial life of any inner city, uses that do not generate lively activities are discouraged from locating along those street fronts within the Development Area which are considered major pedestrian thoroughfares.

§ 910.17 Pedestrian circulation system.

(a) An efficient, pleasant, and stimulating pedestrian circulation system shall be developed to link the components of the Development Area with the Mall and the city's downtown.

(b) Pedestrian circulation systems shall be designed to provide pedestrian comfort and convenience, to create more linear footage of storefront, to encourage recognition of the location of various METRO stops or other mass transit locations, and to link various historic and architecturally significant buildings, sites, and monuments which are scattered throughout and beyond the Historic Site.

(c) Curb cuts across the north sidewalk areas of Pennsylvania Avenue shall be prohibited in order to reinforce its importance as the major pedestrian thoroughfare of the Development Area.
§ 910.18 Vehicular circulation and storage systems.

(a) Improvement of the existing vehicular storage and circulation system is necessary in order to create the balanced transportation system called for in the Plan, which recognizes the need to maintain air quality, to encourage the use of mass transit, and to provide sufficient off-street parking and loading to make development economically viable.

(b) The general policies of the Corporation are as follows:

(1) To reduce impedance to traffic movement created by service vehicles by requiring well-integrated off-street loading facilities in terms of location of loading berths and access points on a block-by-block basis;

(2) To control the number of vehicles in the Development Area by limiting the number of parking spaces per development; and

(3) To encourage the use of public transportation by linking new development to transit stops through the system of pedestrian ways.

Subpart C—Standards Uniformly Applicable to the Development Area

§ 910.30 General.

In addition to the specific requirements and recommendations contained in Square Guidelines for the applicable coordinated planning area, the Standards set forth in this subpart C are uniformly applicable to any development within the Development Area.

§ 910.31 High architectural quality.

Development must maintain a uniformly high standard of architecture, representative of the best contemporary design and planning concepts. Great care and sensitivity must be shown in the architectural treatment of new buildings, particularly in terms of massing, facade design (including materials, composition, and detailing), the ground floor and sidewalk pedestrian environment, interior public spaces, and provisions for pedestrian and vehicular access. Special design considerations for each coordinated planning area are set forth in Square Guidelines.

§ 910.32 Historic preservation.

Rehabilitation of buildings within the Development Area, which, according to the Plan and the Historic Preservation Plan of the Corporation, are specified for preservation, shall be accomplished (a) in accordance with the Secretary of the Interior’s “Standards for Historic Preservation Projects”: (36 CFR part 68), and (b) consultation with the State Historic Preservation Officer for the District of Columbia.

§ 910.33 Off-street parking.

(a) Off-street parking as a principal use is prohibited, although off-street parking as an accessory use in a development (such as a below-grade parking garage) is permitted.

(b) All parking spaces shall be located below grade level.

(c) The minimum number of parking spaces shall be provided in accordance with DC Zoning Regulations.

(d) The maximum number of parking spaces permitted by PADC for a development may not exceed the aggregate of the number of spaces allowed for each use within the development. The schedule of limitations for parking spaces is as follows:

(1) Hotel: One parking space for each four sleeping rooms or suites;

(2) Places of public assemblage other than hotels: (i.e., arena, armory, theater, auditorium, community center, convention center, concert hall, etc.) one parking space for each ten seats of occupancy capacity for the first 10,000 seats plus one for each 20 seats above 10,000: Provided, that where seats are not fixed, each seven square feet of gross floor area usable for seating shall be considered one seat;

(3) Retail, trade, and service establishments: one parking space for each 750 square feet of gross floor area;

(4) Residential: One parking space for each 1.2 units;

(5) Offices: One parking space for each 1,800 square feet of gross floor area.
§ 910.34 Accommodations for the physically handicapped.

(a) Every development shall incorporate features which will make the development accessible by the physically handicapped. The standards in the “American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by the Physically Handicapped,” published by the American National Standards Institute, Inc. (ANSI A 117.1–1961 (1971)), are recommended.

§ 910.35 Fine arts.

Fine arts, including sculpture, paintings, decorative windows, bas-reliefs, ornamental fountains, murals, tapestries, and the like, should be included in each development. PADC encourages commissions for original works of art which are appropriate for the development. For information and guidance, a reasonable expenditure for fine arts is deemed to be one half of one percent of the total construction cost of the development.

§ 910.36 Energy conservation.

All new development shall be designed to be economical in energy consumption. The Energy Guidelines of the Corporation, and the District of Columbia Energy Conservation Code Act of 1979 and its implementing regulations set forth the appropriate standards to be observed.

§ 910.37 Fire and life safety.

As a complementary action to satisfying required District of Columbia codes related to fire safety, it is highly recommended that all new development be guided by standards of the NFPA Codes for fire and life safety and that all buildings be equipped with an approved sprinkler system.

§ 910.38 Building exterior illumination.

Exterior illumination of a building shall be in conformance with the standards specified in the Pennsylvania Avenue Lighting Plan of the Corporation.

Subpart D—Glossary of Terms

§ 910.50 General.

The definitions appearing in this Glossary of Terms are applicable to this part 910 and to the Square Guidelines. In addition, definitions appearing in section 1201 of the Zoning Regulations of the District of Columbia are also applicable. Where a conflict between this subpart and section 1201 of the Zoning Regulations arises in terminology or interpretation, this subpart shall be controlling.

§ 910.51 Access.

Access, when used in reference to parking or loading, means both ingress and egress.

§ 910.52 Buildable area.

Buildable area means that portion of the established development parcel which can be devoted to buildings and structures. Generally, this area is bounded by any applicable building restriction lines, right-of-way lines and development parcel lines. It shall be the buildable area of a development parcel rather than “lot,” as it is established in the DC Zoning Regulations, that will be utilized to establish the maximum gross floor area of a development within specified portions of the Development Area.

§ 910.53 Building restriction line.

Building restriction line means a line beyond which an exterior wall of any building of a development may not be constructed or project, except that architectural articulation, minor architectural embellishments, and subsurface projections are permitted.

§ 910.54 Build-to-height.

Build-to-height means a specified minimum height of development to which the exterior wall of a building in a development must rise. Minor deviations from the build-to-height for architectural embellishments and articulations of the cornice and roof level are permitted, unless otherwise prohibited by the applicable Square Guidelines or the...
§ 910.55 Build-to line.

Build-to line means a line with which the exterior wall of a building in a development is required to coincide. Minor deviations from the build-to line for such architectural features as weather protection, recesses, niches, ornamental projections, entrance bays, or other articulations of the facade are permitted, unless otherwise prohibited by the applicable Square Guidelines or the District of Columbia’s codes and regulations.

§ 910.56 Coordinated planning area.

Coordinated planning area means a Square, portion of a Square, or group of Squares that is composed of one or more development parcels and is treated as a unit under Square Guidelines in order to achieve comprehensive planning and design.

§ 910.57 Curb-cut.

Curb-cut means that portion of the curb and sidewalk over which vehicular access is allowed. The number of access lanes for each curb-cut shall be specified in each set of Square Guidelines.

§ 910.58 Development.

Development means a structure, including a building, planned unit development, or project resulting from the process of planning, land acquisition, demolition, construction, or rehabilitation consistent with the objectives and goals of the Plan.

§ 910.59 Development parcel.

Development parcel means an area of land established by the Corporation to be a minimum site on which a development may occur under the Plan and any applicable Square Guidelines adopted by the Corporation. A development parcel does not need to be under the ownership of a single individual or entity. A proposal for a development parcel may be formulated by any number of individuals or entities, so long as it accommodates the needs and requirements of affirmative action, historic preservation and other policies of the Corporation, and at the same time responds to the goals of comprehensive planning and design for that particular coordinated planning area.

§ 910.60 Gross floor area.

Gross floor area is defined in section 1201, Zoning Regulations of the District of Columbia and generally means the sum of the gross horizontal areas of the several floors from the ground floor up of all buildings of a development occurring on a lot. Gross floor area shall be measured from the exterior faces of exterior walls and from the center line of walls separating two buildings.

§ 910.61 Height of development.

Height of development means the vertical distance measured from a specified point at the curb level to the highest point of the roof or parapet of the development, whichever is higher, exclusive of all roof structures except as otherwise specified.

§ 910.62 The Plan.

The Plan means The Pennsylvania Avenue Plan—1974, as amended, and prepared pursuant to Pub. L. 92–578, 86 Stat. 1266 (40 U.S.C. 871), and the document which sets forth the development concepts upon which this part 910 and Square Guidelines are based.

§ 910.63 Rehabilitation.

Rehabilitation means the process of adapting improvements on real property to make possible an efficient contemporary use achieved by means of a combination of construction, repair, or alteration, as well as restoration and replication of those portions and features of the property that are significant to its historic, architectural, and cultural values, consistent with the goals and objectives of the Plan.

§ 910.64 Replication.

Replication means the process of using modern methods and materials to reproduce the exact form and details of a vanished building, structure, object, or portion thereof, as it appeared at a particular period of time, and consistent with the objectives and goals of the Plan.
Pennsylvania Avenue Development Corporation

§ 910.65 Restoration.

Restoration means the process of accurately recovering the form and details of a property as they appeared at a particular period of time by means of removal of later work and the replacement of missing original work, consistent with the objectives and goals of the Plan.

§ 910.66 Sidewalk setback.

Sidewalk setback means that area between a building restriction line and the right-of-way of a street into which projections except architectural articulations, minor architectural embellishments, and subsurface structures, are prohibited. The area is to be dedicated to open space activities related to the public improvements program of the Pennsylvania Avenue Development Corporation. Subsurface structures may intrude into the area if they are in compliance with the Square Guidelines.

§ 910.67 Square guidelines.

Square Guidelines establish the Corporation’s specific intent with regard to design and development objectives relative to each individual coordinated planning area.

§ 910.68 Storefront.

Storefront means the street level frontage relating to a single establishment.

§ 910.69 Structural bay.

Structural bay means the distance or span from one vertical structural member fronting on a street to the immediately adjacent vertical structural member fronting on the same street.

§ 910.70 Vault.

A vault means an enclosure of space beneath the surface of the public space or sidewalk setback, except that the term vault shall not include public utility structures.

§ 910.71 Weather protection.

Weather protection means a seasonal or permanent shelter to protect pedestrians from sun or precipitation, consisting of arcades, canopies, awnings, or other coverings.

   (4) The location applied for has not been designated as available for the sale or distribution of printed matter; or
   (5) The activity would constitute a violation of an applicable law or regulation.

(1) Permit required. No picture may be filmed, and no television production or sound track made on any area administered by the Presidio Trust, by any person other than amateur or bona fide newsreel and news television photographers and soundmen, unless written permission has been obtained from the Presidio Trust. PART 1007—REQUESTS UNDER THE FREEDOM OF INFORMATION ACT

Sec. 1007.1 Purpose and scope.

(a) This part contains the procedures for submission to and consideration by the Presidio Trust of requests for records under FOIA. As used in this part, the term “FOIA” means the Freedom of Information Act, 5 U.S.C. 552.

(b) Before invoking the formal procedures set out below, persons seeking records from the Presidio Trust may find it useful to consult with the Presidio Trust’s FOIA Officer, who can be reached at The Presidio Trust, P.O. Box 29052, San Francisco, CA 94129-0052, Telephone: (415) 561-5300. As used in
this part, the term “FOIA Officer” means the employee designated by the Executive Director to process FOIA requests and otherwise supervise the Presidio Trust’s compliance with FOIA, or the alternate employee so designated to perform these duties in the absence of the FOIA Officer.

(c) The procedures in this part do not apply to:

(1) Records published in the FEDERAL REGISTER, the Bylaws of the Presidio Trust, statements of policy and interpretations, and other materials that have been published by the Presidio Trust on its internet website (http://www.presidiotrust.gov) or are routinely made available for inspection and copying at the requester’s expense.

(2) Records or information compiled for law enforcement purposes and covered by the disclosure exemption described in §1007.2(c)(7) if:

(i) The investigation or proceeding involves a possible violation of criminal law; and

(ii) There is reason to believe that:

(A) The subject of the investigation or proceeding is not aware of its pendency, and

(B) Disclosure of the existence of the records could reasonably be expected to interfere with enforcement proceedings.

(3) Informant records maintained by the United States Park Police under an informant’s name or personal identifier, if requested by a third party according to the informant’s name or personal identifier, unless the informant’s status as an informant has been officially confirmed.

§ 1007.2 Records available.

(a) Policy. It is the policy of the Presidio Trust to make its records available to the public to the greatest extent possible consistent with the purposes of the Presidio Trust Act and the Freedom of Information Act.

(b) Statutory disclosure requirement. FOIA requires that the Presidio Trust, on a request from a member of the public submitted in accordance with the procedures in this part, make requested records available for inspection and copying.

(c) Statutory exemptions. Exempted from FOIA’s statutory disclosure requirement are matters that are:

(1)(i) Specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and

(ii) Are in fact properly classified pursuant to such Executive order;

(2) Related solely to the internal personnel rules and practices of an agency;

(3) Specifically exempted from disclosure by statute (other than the Privacy Act), provided that such statute:

(i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or

(ii) Establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information:

(i) Could reasonably be expected to interfere with enforcement proceedings,

(ii) Would deprive a person of a right to a fair or impartial adjudication,

(iii) Could reasonably be expected to constitute an unwarranted invasion of personal privacy,

(iv) Could reasonably be expected to disclose the identity of a confidential source, including a State, local, or foreign agency or authority or any private institution which furnished information on a confidential basis, and, in the case of a record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security investigation in the course of a criminal investigation.
§ 1007.3 Requests for records.

(a) Submission of requests. A request to inspect or copy records shall be submitted to the Presidio Trust’s FOIA Officer at P.O. Box 29052, San Francisco, CA 94129-0052.

(b) Form of requests. (1) Requests under this part shall be in writing and must specifically invoke FOIA.

(2) A request must reasonably describe the records requested. A request reasonably describes the records requested if it will enable an employee of the Presidio Trust familiar with the subject area of the request to locate the record with a reasonable amount of effort. If such information is available, the request should identify the subject matter of the record, the date when it was made, the place where it was made, the person or office that made it, the present custodian of the record, and any other information that will assist in locating the requested record. If the request involves a matter known by the requester to be in litigation, the request should also state the case name and court hearing the case.

(3) (i) A request shall:

(A) Specify the fee category (commercial use, educational institution, noncommercial scientific institution, news media, or other, as defined in §1007.9 of this chapter) in which the requester claims the request falls and the basis of this claim; and

(B) State the maximum amount of fees that the requester is willing to pay or include a request for a fee waiver.

(ii) Requesters are advised that, under §1007.9 (f), (g) and (h), the time for responding to requests may be delayed:

(A) If a requester has not sufficiently identified the fee category applicable to the request;

(B) If a requester has not stated a willingness to pay fees as high as anticipated by the Presidio Trust; or

(C) If a fee waiver request is denied and the requester has not included an alternative statement of willingness to pay fees as high as anticipated by the Presidio Trust.

(4) A request seeking a fee waiver shall, to the extent possible, address why the requester believes that the criteria for fee waivers set out in §1007.10 are met.

(5) To expedite processing, both the envelope containing a request and the face of the request should bear the legend “FREEDOM OF INFORMATION REQUEST.”
§ 1007.4 Preliminary processing of requests.

(a) Scope of requests. Unless a request clearly specifies otherwise, requests to the Presidio Trust may be presumed to seek only records of the Presidio Trust.

(b) Records of other departments and agencies. (1) If a requested record in the possession of the Presidio Trust originated with another Federal department or agency, the request shall be referred to that agency unless:

(i) The record is of primary interest to the Presidio Trust, for example, because it was developed or prepared pursuant to the Presidio Trust’s regulations or request,

(ii) The Presidio Trust is in a better position than the originating agency to assess whether the record is exempt from disclosure, or

(iii) The originating agency is not subject to FOIA.

(2) A request for documents that were classified by another agency shall be referred to that agency.

(c) Consultation with submitters of commercial and financial information. (1) If a request seeks a record containing trade secrets or commercial or financial information submitted by a person outside of the Federal government, the Presidio Trust shall provide the submitter with notice of the request whenever:

(i) The submitter has made a good faith designation of the information as commercially or financially sensitive, or

(ii) The Presidio Trust has reason to believe that disclosure of the information may result in commercial or financial injury to the submitter.

(2) Where notification of a voluminous number of submitters is required, such notification may be accomplished by posting or publishing the notice in a place reasonably calculated to accomplish notification.

(3) The notice to the submittor shall afford the submitter a reasonable period within which to provide a detailed statement of any objection to disclosure. The submitter’s statement shall explain the basis on which the information is claimed to be exempt under FOIA, including a specification of any claim of competitive or other business harm that would result from disclosure. The statement shall also include a certification that the information is confidential, has not been disclosed to the public by the submitter, and is not routinely available to the public from other sources.

(4) If a submitter’s statement cannot be obtained within the time limit for processing the request under §1007.6, the requester shall be notified of the delay as provided in §1007.6(f).

(5) Notification to a submitter is not required if:

(i) The Presidio Trust determines, prior to giving notice, that the request for the record should be denied;

(ii) The information has previously been lawfully published or officially made available to the public;

(iii) Disclosure is required by a statute (other than FOIA) or regulation (other than this part);

(iv) Disclosure is clearly prohibited by a statute, as described in §1007.2(c)(3);

(v) The information was not designated by the submitter as confidential when it was submitted, or a reasonable time thereafter, if the submitter was specifically afforded an opportunity to make such a designation; however, a submitter will be notified of a request for information that was not designated as confidential at the time of submission, or a reasonable time thereafter, if there is substantial reason to believe that disclosure of the information would result in competitive harm;

(vi) The designation of confidentiality made by the submitter is obviously frivolous; or

(vii) The information was submitted to the Presidio Trust more than 10 years prior to the date of the request, unless the Presidio Trust has reason to
§ 1007.5 Action on initial requests.

(a) Authority. (1) Requests shall be decided by the FOIA Officer.

(2) A decision to withhold a requested record, to release a record that is exempt from disclosure, or to deny a fee waiver shall be made only after consultation with the General Counsel.

(b) Form of grant. (1) When a requested record has been determined to be available, the FOIA Officer shall notify the requester as to when and where the record is available for inspection or, as the case may be, when and how copies will be provided. If fees are due, the FOIA Officer shall state the amount of fees due and the procedures for payment, as described in §1007.9.

(2) The FOIA Officer shall honor a requester’s specified preference of form or format of disclosure (e.g., paper, microform, audiovisual materials, or electronic records) if the record is readily available to the Presidio Trust in the requested form or format or if the record is reproducible by the Presidio Trust with reasonable efforts in the requested form or format.

(3) If a requested record (or portion thereof) is being made available over the objections of a submitter made in accordance with §1007.4(c), both the requester and the submitter shall be notified of the decision. The notice to the submitter (a copy of which shall be made available to the requester) shall be forwarded a reasonable number of days prior to the date on which disclosure is to be made and shall include:

(i) A statement of the reasons why the submitter’s objections were not sustained;

(ii) A specification of the portions of the record to be disclosed, if the submitter’s objections were sustained in part; and

(iii) A specified disclosure date.

(4) If a claim of confidentiality has been found frivolous in accordance with §1007.4(c)(5)(vi) and a determination is made to release the information without consultation with the submitter, the submitter of the information shall be notified of the decision and the reasons therefor a reasonable number of days prior to the date on which disclosure is to be made.

(c) Form of denial. (1) A decision withholding a requested record shall be in writing and shall include:

(i) A listing of the names and titles or positions of each person responsible for the denial;

(ii) A reference to the specific exemption or exemptions authorizing the withholding;

(iii) If neither a statute nor an Executive order requires withholding, the sound ground for withholding;

(iv) An estimate of the volume of records or information withheld, in number of pages or in some other reasonable form of estimation. This estimate does not need to be provided if the volume is otherwise indicated through deletions on records disclosed in part, or if providing an estimate would harm an interest protected by an applicable exemption; and

(v) A statement that the denial may be appealed and a reference to the procedures in §1007.7 for appeal.

(2) A decision denying a request for failure to reasonably describe requested records or for other procedural deficiency or because requested records cannot be located shall be in writing and shall include:

(i) A description of the basis of the decision;

(ii) A list of the names and titles or positions of each person responsible; and

(iii) A statement that the matter may be appealed and a reference to the procedures in §1007.7 for appeal.

(d) Expedited processing. (1) Requests and appeals will be taken out of order and given expedited treatment whenever it is determined by the FOIA Officer that they involve:

(i) Circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual; or

(ii) An urgency to inform the public about an actual or alleged federal government activity, if made by a person primarily engaged in disseminating information.
(2) A request for expedited processing may be made at the time of the initial request for records or at any later time.

(3) A requester who seeks expedited processing must submit a statement, certified to be true and correct to the best of that person’s knowledge and belief, explaining in detail the basis for requesting expedited processing.

(4) Within ten calendar days of receiving a request for expedited processing, the FOIA Officer shall decide whether to grant the request for expedited processing and shall notify the requester of the decision. If a request for expedited processing is granted, the underlying FOIA request shall be given priority and shall be processed as soon as practicable. If a request for expedited processing is denied, any appeal of that decision shall be acted on expeditiously.

§ 1007.6 Time limits for processing initial requests.

(a) Basic limit. Requests for records shall be processed promptly. A determination whether to grant or deny a request shall be made within 20 working days after receipt of a request. This determination shall be communicated immediately to the requester.

(b) Running of basic time limit. (1) The 20 working day time limit begins to run when a request meeting the requirements of §1007.3(b) is received at the Presidio Trust.

(2) The running of the basic time limit may be delayed or tolled as explained in §1007.9 (f), (g) and (h) if a requester:

(i) Has not stated a willingness to pay fees as high as are anticipated and has not sought and been granted a full fee waiver, or

(ii) Has not made a required advance payment.

(c) Extensions of time. In the following unusual circumstances, the time limit for acting on an initial request may be extended to the extent reasonably necessary to the proper processing of the request, but in no case may the time limit be extended by more than 20 working days:

(1) The need to search for and collect the requested records from facilities or other establishments that are separate from the main office of the Presidio Trust;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records demanded in a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request.

(d) Notice of extension. A requester shall be notified in writing of an extension under paragraph (c) of this section. The notice shall state the reason for the extension and the date on which a determination on the request is expected to be made.

(e) Treatment of delay as denial. If no determination has been reached at the end of the 20 working day period for deciding an initial request, or an extension thereof under §1007.6(c), the requester may deem the request denied and may exercise a right of appeal in accordance with §1007.7.

§ 1007.7 Appeals.

(a) Right of appeal. A requester may appeal to the Executive Director when:

(1) Records have been withheld;

(2) A request has been denied for failure to describe requested records or for other procedural deficiency or because requested records cannot be located;

(3) A fee waiver has been denied;

(4) A request has not been decided within the time limits provided in §1007.6; or

(5) A request for expedited processing under §1007.5(d) has been denied.

(b) Time for appeal. An appeal must be received at the office of the Presidio Trust no later than 20 working days after the date of the initial denial, in the case of a denial of an entire request, or 20 working days after records
§ 1007.8 Action on appeals.

(a) Authority. Appeals shall be decided by the Executive Director after consultation with the FOIA Officer and the General Counsel.

(b) Time limit. A final determination shall be made within 20 working days after receipt of an appeal meeting the requirements of §1007.7(c).

(c) Extensions of time. (1) If the time limit for responding to the initial request for a record was not extended under the provisions of §1007.6(c) or was extended for fewer than 10 working days, the time for processing of the appeal may be extended to the extent reasonably necessary to the proper processing of the appeal, but in no event may the extension, when taken together with any extension made during processing of the initial request, result in an aggregate extension with respect to any one request of more than 10 working days. The time for processing of an appeal may be extended only if one or more of the unusual circumstances listed in §1007.6(c) requires an extension.

(2) The appellant shall be advised in writing of the reasons for the extension and the date on which a final determination on the appeal is expected to be dispatched.

(3) If no determination on the appeal has been reached at the end of the 20 working day period, or the extension thereof, the requester is deemed to have exhausted his administrative remedies, giving rise to a right of review in the United States District Court for the Northern District of California, as specified in 5 U.S.C. 552(a)(4).

(d) Form of decision. (1) The final determination on an appeal shall be in writing and shall state the basis for the determination. If the determination is to release the requested records or portions thereof, the FOIA Officer shall immediately make the records available. If the determination upholds in whole or part the initial denial of a request for records, the determination shall advise the requester of the right to obtain judicial review in the U.S. District Court for the Northern District of California and shall set forth the names and titles or positions of each person responsible for the denial.

(2) If a requested record (or portion thereof) is being made available over the objections of a submitter made in accordance with §1007.4(c), the submitter shall be provided notice as described in §1007.5(b)(3).

§ 1007.9 Fees.

(a) Policy. (1) Unless waived pursuant to the provisions of §1007.10, fees for responding to FOIA requests shall be charged in accordance with this section and the current schedule of charges determined by the Executive Director and published in the compilation provided under §1001.7(b) of this chapter. Such charges shall be set at the level necessary to recoup the full allowable direct costs to the Trust.

(2) Fees shall not be charged if the total amount chargeable does not exceed the costs of routine collection and processing of the fee. The Trust shall periodically determine the cost of routine collection and processing of a fee.
(3) Where there is a reasonable basis to conclude that a requester or group of requesters acting in concert has divided a request into a series of requests on a single subject or related subjects to avoid assessment of fees, the requests may be aggregated and fees charged accordingly.

(4) Fees shall be charged to recover the full costs of providing such services as certifying that records are true copies or sending records by a method other than regular mail, when the Trust elects to provide such services.

(5) The following definitions shall apply to this part:

(i) The term search includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within documents or databases. Searches shall be undertaken in the most efficient and least expensive manner possible, consistent with the Presidio Trust’s obligations under FOIA and other applicable laws.

(ii) The term duplication refers to the process of making a copy of a record necessary to respond to a FOIA request. Such copies can take the form of paper copy, microform, audio-visual materials, or machine-readable documentation (e.g., magnetic tape or disk), among others. The copy provided shall be in a form that is reasonably usable by requesters.

(iii) A commercial use request is a request from or on behalf of a person who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made. The intended use of records may be determined on the basis of information submitted by a requester and from reasonable inferences based on the identity of the requester and any other available information.

(iv) An educational institution is a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, or an institution of vocational education, which operates a program or programs of scholarly research.

(v) A noncommercial scientific institution is an institution that is not operated for commerce, trade or profit and that is operated solely for the purpose of conducting scientific research the results of which are not intended to promote any particular product or industry.

(vi) A representative of the news media is any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term “news” means information that is about current events or that is (or would be) of current interest to the public. Examples of news media entities include, but are not limited to, television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of “news”) who make their products available for purchase or subscription by the general public. As traditional methods of news delivery evolve (e.g., electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. Free-lance journalists may be considered representatives of the news media if they demonstrate a solid basis for expecting publication through a news organization, even though not actually employed by it. A publication contract or past record of publication, or evidence of a specific free-lance assignment from a news organization may indicate a solid basis for expecting publication.

(b) Commercial use requests. (1) A requester seeking records for commercial use shall be charged fees for costs incurred in document search and review (even if the search and review fails to locate records that are not exempt from disclosure) and duplication.

(2) A commercial use requester may not be charged fees for time spent resolving legal and policy issues affecting access to requested records.

(c) Educational and noncommercial scientific institution requests. (1) A requester seeking records under the auspices of an educational institution in furtherance of scholarly research or a noncommercial scientific institution in
§ 1007.9  

furtherance of scientific research shall be charged for document duplication, except that the first 100 pages of paper copies (or the equivalent cost thereof if the records are in some other form) shall be provided without charge.

(2) Such requesters may not be charged fees for costs incurred in:

(i) Searching for requested records,

(ii) Examining requested records to determine whether they are exempt from mandatory disclosure,

(iii) Deleting reasonably segregable exempt matter,

(iv) Monitoring the requester’s inspection of agency records, or

(v) Resolving legal and policy issues affecting access to requested records.

§ 1008.12 Requests for notification of existence of records: Action on.

§ 1008.13 Requests for access to records.

(4) If the requester seeks to have copies of the requested records made, the request shall state the maximum amount of copying fees which the requester is willing to pay. A request which does not state the amount of fees the requester is willing to pay will be treated as a request to inspect the requested records. Requesters are further notified that under §1008.15(d) the failure to state willingness to pay fees as high as are anticipated by the Presidio Trust will delay processing of a request.

(5) The request shall supply such identifying information, if any, as is called for in the system notice describing the system.

(6) Requests failing to meet the requirements of this paragraph shall be returned to the requester with a written notice advising the requester of the deficiency in the request.

Such charges shall be set at the level necessary to recoup the full allowable direct costs to the Trust.

(3) Where it is anticipated that fees chargeable in connection with a request will exceed the amount the person submitting the request has indicated a willingness to pay, the Privacy Act Officer shall notify the requester and shall not complete processing of the request until the requester has agreed, in writing, to pay fees as high as are anticipated.

The officers to whom authority is delegated to settle tort claims shall follow and be guided by the regulations issued by the Attorney General prescribing standards and procedures for settlement of tort claims (28 CFR part 14).

§ 1009.2 Procedure for filing claims.

(a) The procedure for filing and the contents of claims shall be pursuant to 28 CFR 14.2, 14.3 and 14.4.

(b) Claims shall be filed directly with the Presidio Trust.

(c) Upon receipt of a claim, the time and date of receipt shall be recorded. The claim shall be forwarded with the investigative file immediately to the General Counsel for determination.
(c) The Presidio Trust will not enter-
tain a request either to agree to indem-
ify or to settle a personal damage
claim before entry of an adverse ver-
dict, judgment, or award, unless excep-
tional circumstances exist as deter-
mined by:
(1) the Board, with respect to claims
against an employee; or
(2) a majority of the Board, exclusive
of the director against whom claims
have been made, with respect to claims
against a director.
(d) A Presidio Trust director or em-
ployee may request indemnification to
satisfy a verdict, judgment, or award
entered against the director or em-
ployee. The director or employee shall
submit a written request, with appro-
 priate documentation including copies
of the verdict, judgment, award, or set-
tlement proposal, in a timely manner
to the General Counsel, who shall
make a recommended disposition of
the request. Where appropriate, the
Presidio Trust shall seek the views of
the Department of Justice. The Gen-
eral Counsel shall forward the request,
the accompanying documentation, and
the General Counsel’s recommendation
to the Board for decision. In the event
that a claim is made against the Gen-
eral Counsel, the Chair shall designate
a director or employee of the Trust to
fulfill the duties otherwise assigned to
the General Counsel under this section.
(e) Any payment under this section
either to indemnify a Presidio Trust di-
rector or employee or to settle a per-
sonal damage claim shall be contingent
upon the availability of funds.

cultural, and other environmental in-
formation in the management of the
Presidio Trust Area and its natural,
historic, scenic, cultural, and recrea-
tional resources pursuant to the
Trust Act;
(e) Any payment under this section
either to indemnify a Presidio Trust di-

Pt. 1010

36 CFR Ch. X (7–1–16 Edition)

§ 1010.2 Purpose.

The regulations in this part incor-
porate and supplement the Council on
Environmental Quality’s (CEQ) regula-
tions at 40 CFR parts 1500 through 1506
for implementing the procedural provi-
sions of the National Environmental
Presidio Trust

Policy Act of 1969, as amended (NEPA), and otherwise to describe how the Trust intends to consider environmental factors and concerns in the Trust’s decision-making process within the requirements set forth in NEPA and CEQ regulations.

§ 1010.3 Definitions.

(a) The following terms have the following meanings as used in this part:

Decision-maker means the Board or its designee.

EA means an environmental assessment, as defined at 40 CFR 1508.9.

EIS means an environmental impact statement, as defined at 40 CFR 1508.11.

Project applicant means an individual, firm, partnership, corporation, joint venture, or other public or private entity other than the Trust (including a combination of more than one such entities) which seeks to demolish, construct, reconstruct, develop, preserve, rehabilitate, or restore real property within the Presidio Trust Area.

(b) If not defined in this part or in this chapter, other terms used in this part have the same meanings as those provided in 40 CFR part 1508.

§ 1010.4 NEPA Compliance Coordinator.

(a) The NEPA Compliance Coordinator, as designated by the Executive Director, shall be the Trust official responsible for implementation and operation of the Trust’s policies and procedures on environmental quality and control. The delegation of this responsibility shall not abrogate the responsibility of the Executive Director and the Board to ensure that NEPA and other applicable laws are followed, or the right of the Executive Director and the Board to overrule or alter decisions of the NEPA Compliance Coordinator in accordance with the Trust’s regulations and procedures.

(b) The NEPA Compliance Coordinator shall:

(1) Coordinate the formulation and revision of Trust policies and procedures on matters pertaining to environmental protection and enhancement;

(2) Establish and maintain working relationships with relevant government agencies concerned with environmental matters;

(3) Develop procedures within the Trust’s planning and decision-making processes to ensure that environmental factors are properly considered in all proposals and decisions in accordance with this part;

(4) Develop, monitor, and review the Trust’s implementation of standards, procedures, and working relationships for protection and enhancement of environmental quality and compliance with applicable laws and regulations;

(5) Monitor processes to ensure that the Trust’s procedures regarding consideration of environmental quality are achieving their intended purposes;

(6) Advise the Board, officers, and employees of the Trust of technical and management requirements of environmental analysis, of appropriate expertise available, and, in consultation with the Trust’s General Counsel, of relevant legal developments;

(7) Monitor the consideration and documentation of the environmental aspects of the Trust’s planning and decision-making processes by appropriate officers and employees of the Trust;

(8) Ensure that all EA’s and EIS’s are prepared in accordance with the appropriate regulations adopted by the CEQ and the Trust;

(9) Consolidate and transmit to appropriate parties the Trust’s comments on EIS’s and other environmental reports prepared by other agencies;

(10) Acquire information and prepare appropriate reports on environmental matters required of the Trust;

(11) Coordinate Trust efforts to make available to other parties information and advice on the Trust’s policies for protecting and enhancing the quality of the environment; and

(12) Designate other Trust employees to execute these duties under the supervision of the NEPA Compliance Coordinator, where necessary for administrative convenience and efficiency.

As used in this chapter, the term “NEPA Compliance Coordinator” includes any such designee.

§ 1010.5 Major decision points.

(a) The possible environmental effects of a proposed action or project within the Presidio Trust Area must be
considered along with technical, financial, and other factors throughout the decision-making process. Most Trust projects have three distinct stages in the decision-making process:

1. Conceptual or preliminary study stage;
2. Detailed planning or final decision stage;
3. Implementation stage.

(b) Environmental review will be integrated into the decision-making process of the Trust as follows:

1. During the conceptual or preliminary study stage, the NEPA Compliance Coordinator shall determine whether the proposed action or project is one which is categorically excluded under §1010.7, has been adequately reviewed in a previously prepared EA and/or EIS, or requires further NEPA review (i.e., an EA or an EIS).
2. If the proposed action or project is not categorically excluded and has not been adequately reviewed in a previously prepared EA and/or EIS, then prior to the Trust’s proceeding beyond the conceptual or preliminary study stage, the NEPA Compliance Coordinator must determine whether an EIS is required. When appropriate, prior to the determination as to whether an EIS is required, the NEPA Compliance Coordinator may initiate a public scoping process in order to inform such a determination.
3. If an EIS is determined to be necessary, the Trust shall initiate a public scoping process in accordance with 40 CFR 1501.7. An EIS, if determined necessary, must be completed and circulated at the earliest point at which meaningful analysis can be developed for the proposed action or project and prior to the Trust’s final approval of the proposed action or project.

§ 1010.6 Determination of requirement for EA or EIS.

In deciding whether to require the preparation of an EA or an EIS, the NEPA Compliance Coordinator will determine whether the proposal is one that:

(a) Normally does not require either an EA or an EIS;
(b) Normally requires an EIS; or
(c) Normally requires an EA, but not necessarily an EIS.

§ 1010.7 Actions that do not require an EA or EIS.

(a) Categorical Exclusions. Pursuant to 40 CFR 1508.4, the Trust has determined that the categories of action identified in this paragraph have no significant effect, either individually or cumulatively, on the human environment and are therefore categorically excluded. Such actions (whether approved by the Trust or undertaken by the Trust directly or indirectly) do not require the preparation of an EA or an EIS:

1. Personnel actions and investigations and personal services contracts;
2. Administrative actions and operations directly related to the operation of the Trust (e.g., purchase of furnishings, services, and equipment) provided such actions and operations are consistent with applicable Executive Orders;
3. Internal organizational changes and facility and office expansions, reductions, and closings;
4. Routine financial transactions, including such things as salaries and expenses, procurement, guarantees, financial assistance, income transfers, audits, fees, bonds and royalties;
5. Management, formulation, allocation, transfer and reprogramming of the Trust’s budget;
6. Routine and continuing government business, including such things as supervision, administration, operations, maintenance, and replacement activities having limited context and intensity (limited size and magnitude or short-term effects);
7. Preparation, issuance, and submittal of publications and routine reports;
8. Activities which are educational, informational, or advisory (including interpretive programs), or otherwise in consultation with or providing technical assistance to other agencies, public and private entities, visitors, individuals, or the general public;
9. Legislative proposals of an administrative or technical nature, including such things as changes in authorizations for appropriations or financing authority, minor boundary changes and land transactions, or having primarily economic, social, individual or
Presidio Trust

institutional effects, as well as comments and reports on legislative proposals;

(10) Proposal, adoption, revision, and termination of policies, directives, regulations, and guidelines;
   (i) That are of an administrative, financial, legal, technical, or procedural nature, the environmental effects of which are too broad, speculative, or conjectural to lend themselves to environmental analysis and the implementation of which will be subject to the NEPA process either collectively or on a case-by-case basis; or
   (ii) Where such actions will not potentially:
      (A) Increase public use to the extent of compromising the nature and character of the area or of causing significant physical damage to it;
      (B) Introduce non-compatible uses that might compromise the nature and characteristics of the area or cause significant physical damage to it;
      (C) Conflict with adjacent ownerships or land uses; or
      (D) Cause a significant nuisance to adjacent owners or occupants;

(11) Preparation, approval, coordination, and implementation of plans, including priorities, justifications, and strategies, for research, monitoring, inventorying, and information gathering that is not or is only minimally manipulative and causes no or only minimal physical damage;

(12) Identification, nomination, certification, and determination of eligibility of properties for listing in the National Register of Historic Places and the National Historic Landmark and National Natural Landmark Programs;

(13) Minor or temporary changes in amounts or types of visitor use for the purpose of ensuring visitor safety or resource protection, minor changes in programs or regulations pertaining to visitor activities, and approval of permits or other use and occupancy agreements for special events or public assemblies and meetings, provided such events, assemblies, and meetings entail only short-term or readily mitigated environmental impacts;

(14) Designation of environmental study areas and research areas, including those closed temporarily or permanently to the public, provided such designation would cause no or only minimal environmental impact;

(15) Land and boundary surveys and minor boundary adjustments or transfers of administrative jurisdiction resulting in no significant change in land use;

(16) Archaeological surveys and permits involving only surface collection or small-scale test excavations;

(17) Changes or amendments to an approved plan or action when such changes or amendments would cause no or only minimal environmental impact;

(18) Contracts, work authorizations, or procurement actions related to proposals, programs, and master agreements related to administrative operation of the Trust;

(19) The leasing, permitting, sale, or financing of, or granting of non-fee interests regarding, real or personal property in the Presidio Trust Area, provided that such actions would have no or only minimal environmental impact;

(20) Extension, reissuance, renewal, minor modification, or conversion in form of agreements for use of real property (including but not limited to leases, permits, licenses, concession contracts, use and occupancy agreements, easements, and rights-of-way), so long as such agreements were previously subject to NEPA and do not involve new construction or new or substantially greater environmental impacts, and so long as no new information is known or no changed circumstances have occurred that would give rise to new or substantially greater environmental impacts.

(21) Rehabilitation, modification, or improvement of historic properties that have been determined to be in conformance with the Secretary of the Interior’s “Standards for the Treatment of Historic Properties” at 36 CFR part 68 and that would have no or only minimal environmental impact;

(22) Rehabilitation, maintenance, modification or improvement of non-historic properties that is consistent with applicable Executive Orders, provided there is no potential for significant environmental impacts, including
impacts to cultural landscapes or archaeological resources;

(23) Removal, reduction, or restraint of resident individuals of species that are not threatened or endangered which pose dangers to visitors, residents, or neighbors or immediate threats to resources of the Presidio Trust Area;

(24) Removal of non-historic materials and structures in order to restore natural conditions when such removal has no potential for significant environmental impacts, including impacts to cultural landscapes or archaeological resources and is consistent with applicable Executive Orders;

(25) Installation of signs, displays, and kiosks, etc.;

(26) Replacement of minor structures and facilities (e.g., signs, kiosks, fences, comfort stations, and parking lots) with little or no change in location, capacity, or appearance;

(27) Repair, resurfacing, striping, installation of traffic control devices, and repair/replacement of guardrails, culverts, signs, and other minor features, on existing roads and parking facilities, provided there is no potential for significant environmental impact;

(28) Minor trail relocation, development of compatible trail networks on roads or other formally established routes, and trail maintenance and repair;

(29) Construction or rehabilitation in previously disturbed or developed areas required to meet health or safety regulations, or to meet requirements for making facilities accessible to the handicapped provided such construction or rehabilitation is implemented in a manner consistent with applicable Executive Orders;

(30) Landscaping and landscape maintenance in previously disturbed or developed areas;

(31) Minor changes in programs and regulations pertaining to visitor activities;

(32) Routine maintenance, property management, and resource management, with no potential for significant environmental impact and that are consistent with the Secretary of the Interior’s “Standards for the Treatment of Historic Properties” at 36 CFR part 68, as applicable, and with applicable Executive Orders;

(33) Upgrading or adding new utility facilities to existing poles, or replacement poles which do not change existing pole line configurations.

(34) Issuance of rights-of-way for overhead utility lines to an individual building or well from an existing line where installation will not result in significant visual intrusion or non-conformance with the Secretary’s “Standards for the Treatment of Historic Properties” at 36 CFR part 68, as applicable, and will involve no clearance of vegetation other than for placement of poles;

(35) Issuance of rights-of-way for minor overhead utility lines not involving placement of poles or towers and not involving vegetation management or significant visual intrusion in an area administered by NPS or the Trust or non-conformance with the Secretary’s “Standards for the Treatment of Historic Properties” at 36 CFR part 68, as applicable;

(36) Installation of underground utilities in previously disturbed areas having stable soils, or in an existing utility right-of-way; and

(37) Experimental testing of no longer than 180 days of mass transit systems, and changes in operation of existing systems with no potential for significant environmental impact.

(b) Extraordinary circumstances. An action that falls into one or more of the categories in paragraph (a) of this section may still require the preparation of an EIS or an EA if the NEPA Compliance Coordinator determines that it meets the criteria stated in §1010.8(b) or §1010.10(b), respectively, or involves extraordinary circumstances that may have a significant environmental effect. At its discretion, the Trust may require the preparation of an EA or an EIS for a proposal or action that otherwise qualifies for a categorical exclusion. Criteria used in determining whether to prepare an EA or EIS for an action that otherwise qualifies for a categorical exclusion include whether an action may:

(1) Have significant adverse effects on public health or safety;
§ 1010.9 Preparation of an EIS.

(a) Notice of intent. When the Trust decides to prepare an EIS, it shall publish a notice of intent in the FEDERAL REGISTER in accordance with 40 CFR 1501.7 and 1508.22. Where there is a lengthy period between the Trust’s decision to prepare an EIS and the time of actual preparation, then at the discretion of the NEPA Compliance Coordinator the notice of intent shall be published at a reasonable time in advance of preparation of the EIS.

(b) Preparation. After having determined that an EIS will be prepared and having published the notice of intent, the Trust will begin to prepare or to direct the preparation of the EIS.

(c) Supplemental environmental impact statements. The Trust may supplement a draft or final EIS at any time. The Trust shall prepare a supplement to either a draft or final EIS when:

(1) Legislative proposals made by the Trust to the United States Congress, other than those described in §1010.7(b)(9);

(2) Approval, funding, construction, and/or demolition in preparation for construction of any new building, if that activity has a significant effect on the human environment;

(3) Proposals that would significantly alter the kind and amount of natural, recreational, historical, scenic, or cultural resources of the Presidio Trust Area or the integrity of the setting; and

(4) Approval or amendment of a general land use or resource management plan for the entire Presidio Trust Area.
§ 1010.10 Actions that normally require an EA.

(a) General procedure. If a proposal or action is not one that normally requires an EIS, and does not qualify for a categorical exclusion under §1010.7, the Trust will require, prepare, or direct the preparation of an EA. An EA should be prepared when the Trust has insufficient information on which to determine whether a proposal may have significant impacts. An EA assists the Trust in complying with NEPA when no EIS is necessary, and it facilitates the preparation of an EIS, if one is necessary.

(b) Criteria. Criteria used to determine those categories of action that normally require an EA, but not necessarily an EIS, include:

1. Potential for degradation of environmental quality;
2. Potential for cumulative adverse impact on environmental quality; and
3. Potential for adverse impact on protected resources (e.g., natural, scenic, recreational, historical, and cultural resources).

(c) Categories of action. The following categories of action normally require the preparation of an EA:

1. Promulgation of regulations and requirements that are not categorically excluded;
2. Proposals submitted by project applicants to the Trust for its review, as described in §1010.14;
3. Proposals to add or alter access between the Presidio Trust Area and surrounding neighborhoods; and
4. Contracts, work authorizations, and master agreements related to and implementing programs, policies, and proposals which are not categorically excluded and for which there is no previously prepared EA and/or EIS.

§ 1010.11 Preparation of an EA.

(a) When to prepare. The Trust will begin the preparation of an EA (or require it to be begun) as early as possible after it is determined by the NEPA Compliance Coordinator to be required. The Trust will provide notice of such determinations in accordance with §1010.12. The Trust may prepare or require an EA at any time to assist planning and decision-making.

(b) Content and format. An EA is a concise public document used to determine whether to prepare an EIS. An EA should address impacts, including cumulative impacts, on those resources that are specifically relevant to the particular proposal. Those impacts should be addressed in as much detail as is necessary to allow an analysis of the alternatives and the proposal. The EA shall contain brief discussions of the following topics:

1. Purpose and need for the proposed action.
2. Description of the proposed action.
3. Alternatives considered, including a No Action alternative.
4. Environmental effects of the proposed action and the alternatives, including mitigation measures.
5. Listing of agencies, organizations, and/or persons consulted.

(c) Finding of no significant impact (FONSI). If an EA is completed and the NEPA Compliance Coordinator determines that an EIS is not required, then the NEPA Compliance Coordinator shall prepare a finding of no significant impact. The finding of no significant impact shall be made available to the public by the Trust as specified in 40 CFR 1506.6.

(d) Mitigated FONSI. If an EA is completed and the NEPA Compliance Coordinator determines that an EIS is required, then prior to preparation of an EIS, the proposal may be revised in order to mitigate the impacts identified in the EA through adherence to legal requirements, inclusion of mitigation as an integral part of the proposal, and/or fundamental changes to the proposal. A supplemental EA will be prepared on the revised proposal and
will result in a Mitigated Finding of No Significant Impact, preparation of an EIS, or additional revision of the proposal and a supplemental EA.

§ 1010.12 Public involvement.

The Trust will make public involvement an essential part of its environmental review process. Public notice of anticipated Trust actions that may have a significant environmental impact, opportunities for involvement, and availability of environmental documents will be provided through announcements in the Trust’s monthly newsletter, postings on its web site (www.presidiotrust.gov), placement of public notices in newspapers, direct mailings, and other means appropriate for involving the public in a meaningful way. The Trust will conduct scoping with interested federal, state and local agencies and Indian tribes, will solicit and accept written scoping comments and will hold public scoping meetings to gather early input whenever it determines an EIS to be necessary and otherwise as appropriate. Notice of all public scoping meetings will be given in a timely manner. Interested persons may also obtain information concerning any pending EIS or any other element of the environmental review process of the Trust by contacting the NEPA Compliance Coordinator at the following address: Presidio Trust, P.O. Box 29052, San Francisco, California 94129–0052.

§ 1010.13 Trust decision-making procedures.

To ensure that at major decision-making points all relevant environmental concerns are considered by the decision-maker, the following procedures are established.

(a) An environmental document (i.e., the EA, finding of no significant impact, EIS, or notice of intent), in addition to being prepared at the earliest point in the decision-making process, shall accompany the relevant proposal or action through the Trust’s decision-making process to ensure adequate consideration of environmental factors.

(b) The Trust shall consider in its decision-making process only decision alternatives discussed in the relevant environmental documents. Also, where an EIS has been prepared, the Trust shall consider all alternatives described in the EIS, a written record of the consideration of alternatives during the decision-making process shall be maintained, and a monitoring and enforcement program shall be adopted and summarized where applicable for any mitigation.

(c) Any environmental document prepared for a proposal or action shall be made part of the record of any formal rulemaking by the Trust.

§ 1010.14 Review of proposals by project applicants.

(a) An EA shall be required for each proposal for demolition, construction, reconstruction, development, preservation, rehabilitation, or restoration of real property submitted by a project applicant to the Trust for its review, and which the decision-maker agrees to consider, unless categorically excluded or covered by a previously prepared EA and/or EIS.

(b) The decision-maker may not take any approval action on such a proposal submitted by a project applicant until such time as the appropriate environmental review documents have been prepared and submitted to the decision-maker.

(c) At a minimum, and as part of any submission made by a project applicant to the decision-maker for its approval, such project applicant shall make available data and materials concerning the proposal sufficient to permit the Trust to carry out its environmental review responsibilities. When requested, the project applicant shall provide additional information that the NEPA Compliance Coordinator believes is necessary to permit it to satisfy its environmental review functions.

(d) With respect to each project proposed for consideration for which the NEPA Compliance Coordinator determines that an EA shall be prepared, the decision-maker may require a project applicant to submit a draft EA regarding its proposal for the Trust’s evaluation and revision. In accordance with 40 CFR 1506.5(b), the Trust shall
§ 1010.15 Actions where lead agency designation is necessary.

(a) Consistent with 40 CFR 1501.5, where a proposed action by the Trust involves one or more other Federal agencies, or where actions by the Trust and one or more Federal agencies are directly related to each other because of their functional interdependence or geographical proximity, the Trust will seek designation as lead agency for those actions that relate solely to the Presidio Trust Area.

(b) For an action that qualifies as one for which the Trust will seek designation as lead agency, the Trust will promptly consult with the appropriate Federal agencies to establish lead agency, joint lead agency, and/or cooperating agency designations.

(c) For an action as to which the Trust undertakes lead, joint lead, or cooperating agency status, the Trust is authorized to enter into a memorandum of understanding or agreement to define the rights and responsibilities of the relevant agencies.

§ 1010.16 Actions to encourage agency cooperation early in the NEPA process.

Consistent with 40 CFR 1501.6, the Trust may request the NPS to be a cooperating agency for actions or projects significantly affecting the quality of the Presidio. In addition, upon request of the Trust, any other Federal, State, local, or tribal agency that has jurisdiction by law or special expertise with respect to any environmental issue that should be addressed in the analysis may be a cooperating agency. The Trust shall use the environmental analysis and proposals of cooperating agencies with jurisdiction by law or special expertise to the maximum extent possible consistent with its responsibility as lead or joint lead agency.

§ 1010.17 Actions to eliminate duplication with State and local procedures.

Consistent with 40 CFR 1506.2, the Trust shall cooperate with State and local agencies to the fullest extent possible to reduce duplication between NEPA and State and local requirements. Such cooperation shall to the fullest extent possible include:

(a) Joint planning processes;

(b) Joint environmental research and studies;

(c) Joint public hearings (except where otherwise provided by statute); and

(d) Joint environmental assessments and/or Environmental Impact Statements/Environmental Impact Reports.

Treasury Offset Program means the Treasury Department’s program for withholding funds payable by the United States to a person to satisfy a debt owed by the person utilizing the Financial Management Service’s system that compares information about payments with information about debts.

§ 1011.2 Why is the Presidio Trust issuing these regulations and what do they cover?

(a) Scope. The Presidio Trust is issuing these regulations to provide procedures for the collection of debts owed to the Presidio Trust. This part also provides procedures for collection of other debts owed to the United States when a request for offset of a Treasury payment is received by the Treasury Department from another agency (for example, when a Presidio Trust employee owes a debt to the United States Department of Education).

(b) Applicability. (1) This part applies to the Presidio Trust when collecting a debt and to persons who owe a debt to the Presidio Trust, or to Federal agencies requesting offset of a payment issued by the Presidio Trust as a paying agency (including salary payments to Presidio Trust employees).

(2) This part does not apply to tax debts.
§ 1011.4 What notice will the Presidio Trust send to a debtor when collecting a debt?

(a) Notice requirements. The Presidio Trust will aggressively collect debts. The Presidio Trust will send at least one written notice to a debtor informing the debtor of the consequences of failing to pay or otherwise resolve a debt. The notice(s) will be sent to the debtor’s most current address for the debt in the records of the Presidio Trust. Except as otherwise provided in paragraph (b) of this section, the written notice(s) will explain to the debtor:

(1) The amount, nature and basis of the debt;

(2) How interest, penalty charges and administrative costs are added to the debt, the date by which payment should be made to avoid such charges, and that such assessments must be made unless waived (see §1011.5 of this part);

(3) The date by which payment is due and that the debt will be considered delinquent if payment is not received by the Presidio Trust by the due date, which date will not be less than 30 days after the date of the notice, and the date by which payment must be received by the Presidio Trust to avoid the enforced collection actions described in paragraph (a)(6) of this section, which date will not be less than 60 days after the date of the notice;

(4) How the debtor may enter into a written agreement to repay the debt voluntarily under terms acceptable to the Presidio Trust (see §1011.6 of this part);

(5) The name, address and telephone number of a contact person within the Presidio Trust;

(6) The Presidio Trust’s intention to enforce collection if the debtor fails to pay or otherwise resolve the debt, by taking one or more of the following actions:

(i) Use administrative offset or other offset to offset the debtor’s federal payments, including, without limitation, income tax refunds, salary, certain benefit payments (such as Social Security), retirement, vendor, travel reimbursements and advances, and other federal payments (see §1011.10 through 1011.12 of this part);

(ii) Refer the debt to a private collection agency (see §1011.15 of this part);

(iii) Report the debt to a credit bureau (see §1011.14 of this part);

(iv) Garnish the debtor’s wages through administrative wage garnishment (see §1011.13 of this part);

(v) Refer the debt to the Department of Justice to initiate litigation to collect the debt (see §1011.16 of this part);
(vi) Refer the debt to the FMS for collection (see §1011.9 of this part);

(7) That debts over 180 days delinquent must be referred to the FMS for the collection actions described in paragraph (a)(6) of this section (see §1011.9 of this part);

(b) How the debtor may inspect and obtain copies of disclosable records related to the debt;

(9) How the debtor may request a review of the Presidio Trust’s determination that the debtor owes a debt.

(10) How a debtor may request a hearing if the Presidio Trust intends to garnish the debtor’s non-Federal wages (see §1011.13(a) of this part), including:

(i) The method and time period for requesting a hearing;

(ii) That the timely filing of a request for a hearing on or before the 15th business day following the date of the notice will stay the commencement of administrative wage garnishment, but not necessarily other collection procedures; and

(iii) The name and address of the office to which the request for a hearing should be sent.

(11) How a debtor who is a Federal employee subject to Federal salary offset may request a hearing (see §1011.12(e) of this part), including:

(i) The method and time period for requesting a hearing;

(ii) That the timely filing of a request for a hearing on or before the 15th business day following the date of the notice will stay the commencement of salary offset, but not necessarily other collection procedures;

(iii) The name and address of the office to which the request for a hearing should be sent;

(iv) That the Presidio Trust will refer the debt to the debtor’s employing agency or to the FMS to implement salary offset, unless the employee files a timely request for a hearing;

(v) That a final decision on the hearing, if requested, will be issued at the earliest practical date, but not later than 60 days after the filing of the request for a hearing, unless the employee requests and the hearing officer grants a delay in the proceedings;

(vi) That any knowingly false or frivolous statements, representations or evidence may subject the Federal employee to penalties under the False Claims Act (31 U.S.C. 3729–3731) or other applicable statutory authority, and criminal penalties under 18 U.S.C. 286, 287, 1001, and 1002, or other applicable statutory authority;

(vii) That unless prohibited by contract or statute, amounts paid on or deducted for the debt which are later waived or found not owed to the United States will be promptly refunded to the employee; and

(viii) That proceedings with respect to such debt are governed by 5 U.S.C. 5514 and 31 U.S.C. 3716:

(12) That the debtor may request a waiver of the debt;

(13) That the debtor’s spouse may claim the spouse’s share of a joint income tax refund by filing Form 8379 with the IRS;

(14) That the debtor may exercise other statutory or regulatory rights and remedies available to the debtor;

(15) That the Presidio Trust may suspend or revoke any licenses, permits, leases, privileges or services for failure to pay a debt (see §1011.17 of this part); and

(16) That the debtor should advise the Presidio Trust of a bankruptcy proceeding of the debtor or another person liable for the debt being collected.

(b) Exceptions to notice requirements.

The Presidio Trust may omit from a notice to a debtor one or more of the provisions contained in paragraphs (a)(6) through (a)(16) of this section if the Presidio Trust, in consultation with its General Counsel, determines that any provision is not legally required given the collection remedies to be applied to a particular debt.

(c) Respond to debtors. The Presidio Trust will respond promptly to communications from debtors.

§1011.5 What interest, penalty charges and administrative costs will the Presidio Trust add to a debt?

(a) Interest. (1) The Presidio Trust will assess interest on all delinquent debts unless prohibited by statute, regulation or contract.

(2) Interest begins to accrue on all debts from the date the debt becomes delinquent. The Presidio Trust will waive collection of interest on that portion of the debt that is paid within
§ 1011.6 When will the Presidio Trust allow a debtor to enter into a repayment agreement?

(a) Voluntary repayment. In response to a notice of a debt, the debtor may propose to the Presidio Trust the voluntary repayment of the debt in lieu of the Presidio Trust taking other collection actions under this part.

(b) Debtor’s request. The request from the debtor must:

(1) Be in writing;

(2) Admit the existence of the entire debt; and

(3) Either propose payment of the debt (together with interest, penalties and administrative costs) in a lump sum, or set forth a proposed repayment schedule.

(c) Repayment schedule. The Presidio Trust will collect debts in one lump sum whenever feasible. The Presidio Trust may accept payment in regular installments that bear a reasonable relationship to the size of the debt.

(d) Repayment agreement. The Presidio Trust will consider a request to enter into a voluntary repayment agreement in accordance with the FCCS. The Presidio Trust may request additional information from the debtor, including, without limitation, financial statements, in order to determine whether to enter into a voluntary repayment agreement. The Presidio Trust will set the necessary terms of any repayment agreement. No repayment agreement
§ 1011.7 When will the Presidio Trust compromise a debt?

(a) Authority. The Presidio Trust may compromise a debt in accordance with the FCCS and such procedures as the Presidio Trust may adopt. (See §1011.16 of this subpart).

(b) Report to IRS. The uncollected portion of a debt owed to the Presidio Trust that is not recovered as the result of a compromise will be reported to the IRS as income to the debtor in accordance with IRS and Presidio Trust procedures.

§ 1011.8 When will the Presidio Trust suspend or terminate debt collection on a debt?

If, after pursuing all appropriate means of collection, the Presidio Trust determines that a debt is uncollectible, the Presidio Trust may suspend or terminate debt collection activity in accordance with the FCCS and the Presidio Trust’s procedures.

§ 1011.9 When will the Presidio Trust transfer a debt to the Financial Management Service for collection?

(a) Cross-servicing. The Presidio Trust will transfer any eligible debt that is more than 180 days delinquent to the FMS for debt collection services, a process known as “cross-servicing.” The Presidio Trust may transfer debts delinquent 180 days or less to the FMS in accordance with the procedures described in 31 CFR 265.12. The FMS takes appropriate action to collect or compromise the transferred debt, or to suspend or terminate collection action thereon, in accordance with the statutory and regulatory requirements and authorities applicable to the debt and the collection action to be taken. Appropriate action includes, without limitation, contact with the debtor, referral of the debt to the Treasury Offset Program, private collection agencies or the Department of Justice, reporting of the debt to credit bureaus, and administrative wage garnishment.

(b) Notice; certification. At least 60 days prior to transferring a debt to the FMS, the Presidio Trust will send notice to the debtor as required by §1011.4 of this part. The Presidio Trust will certify to the FMS, in writing, that the debt is valid, delinquent, legally enforceable and that there are no legal bars to collection. In addition, the Presidio Trust will certify its compliance with all applicable due process and other requirements as described in this part and other Federal laws.

(c) Treasury Offset Program. As part of its debt collection process, the FMS uses the Treasury Offset Program to collect debts by administrative and tax refund offset. The Treasury Offset Program is a centralized offset program administered by the FMS to collect delinquent debts owed to Federal agencies and states (including past-due child support). Under the Treasury Offset Program, before a federal payment is disbursed, the FMS compares the name and taxpayer identification number (TIN) of the payee with the names and TINs of debtors that have been submitted by Federal agencies and states to the Treasury Offset Program database. If there is a match, the FMS (or, in some cases, another Federal disbursing agency) offsets all or a portion of the federal payment, disburse any remaining payment to the payee, and pays the offset amount to the creditor agency. Federal payments eligible for offset include, without limitation, income tax refunds, salary, travel advances and reimbursements, retirement and vendor payments, and Social Security and other benefit payments.

§ 1011.10 How will the Presidio Trust use administrative offset (offset of non-tax federal payments) to collect a debt?

(a) Centralized administrative offset through the Treasury Offset Program. (1) If not already transferred to the FMS under §1011.9 of this part, the Presidio Trust will refer any eligible debt over 180 days delinquent to the Treasury Offset Program for collection by centralized administrative offset. The Presidio Trust may refer any eligible debt less than 180 days delinquent to the Treasury Offset Program for offset.
(2) At least 60 days prior to referring a debt to the Treasury Offset Program, in accordance with paragraph (a)(1) of this section, the Presidio Trust will send notice to the debtor in accordance with the requirements of §1011.4 of this part. The Presidio Trust will certify to the FMS, in writing, that the debt is valid, delinquent, legally enforceable and that there are no legal bars to collection by offset. In addition, the Presidio Trust will certify its compliance with the due process requirements under 31 U.S.C. 3716(a) and with the requirements described in this part.

(b) Non-centralized administrative offset for a debt. (1) When centralized administrative offset through the Treasury Offset Program is not available or appropriate, the Presidio Trust may collect delinquent, legally enforceable debts through non-centralized administrative offset. In these cases, the Presidio Trust may offset a payment internally or make an offset request directly to a federal paying agency.

(2) At least 30 days prior to offsetting a payment internally or requesting a federal paying agency to offset a payment, the Presidio Trust will send notice to the debtor in accordance with the requirements of §1011.4 of this part. When referring a debt for offset under this paragraph (b), the Presidio Trust will certify, in writing, that the debt is valid, delinquent, legally enforceable and that there are no legal bars to collection by offset. In addition, the Presidio Trust will certify its compliance with the due process requirements under 31 U.S.C. 3716(a) and with these regulations concerning administrative offset.

(c) Administrative review. The notice described in §1011.4 of this part will explain to the debtor how to request an administrative review of the Presidio Trust determination that the debtor owes a debt and how to present evidence that the debt is not delinquent or legally enforceable. In addition to challenging the existence and amount of the debt, the debtor may seek a review of the terms of repayment. In most cases, the Presidio Trust will provide the debtor with a “paper hearing” based upon a review of the written record, including documentation provided by the debtor. The Presidio Trust will provide the debtor with a reasonable opportunity for an oral hearing when the debtor requests reconsideration of the debt and the Presidio Trust determines that the question of the indebtedness cannot be resolved by review of the documentary evidence, for example, when the validity of the debt turns on an issue of credibility or veracity. Unless otherwise required by law, an oral hearing under this section is not required to be a formal evidentiary hearing, although the Presidio Trust will document all significant matters presented at the hearing. The Presidio Trust may suspend collection through administrative offset and/or other collection actions pending the resolution of a debtor’s dispute. The Presidio Trust may establish policies, guidelines and procedures concerning the administrative review process consistent with the FCCS and the regulations in this section.

(d) Procedures for expedited offset. Under the circumstances described by the FCCS, the Presidio Trust may effect an offset against a payment to be made to the debtor prior to sending a notice to the debtor, as described in §1011.4 of this part, or completing the procedures described in paragraph (b)(2) and (c) of this section. The Presidio Trust will give the debtor notice and an opportunity for review as soon as practicable and promptly refund any money ultimately found not to have been owed to the Government.

§1011.11 How will the Presidio Trust use tax refund offset to collect a debt?

(a) Tax refund offset. In most cases, the FMS uses the Treasury Offset Program to collect debts by the offset of tax refunds and other federal payments. See §1011.9(c) of this part. If not already transferred to the FMS under §1011.9 of this part, the Presidio Trust will refer to the Treasury Offset Program any delinquent, legally enforceable debt for collection by tax refund offset.

(b) Notice; certification. At least 60 days prior to referring a debt to the Treasury Offset Program, the Presidio Trust will send notice to the debtor in accordance with the requirements of §1011.4 of this part. The Presidio Trust
§ 1011.12 How will the Presidio Trust offset a Federal employee’s salary to collect a debt?

(a) Federal salary offset. (1) Salary offset is used to collect debts owed to the United States by Federal employees. If a Presidio Trust employee owes a debt, the Presidio Trust may offset the employee’s federal salary to collect the debt in the manner described in this section. For information on how a Federal agency other than the Presidio Trust may collect a debt from the salary of a Presidio Trust employee, see §1011.21 and 1011.22, subpart C, of this part.

(2) Nothing in this part requires the Presidio Trust to collect a debt in accordance with the provisions of this section if Federal law allows otherwise.

(b) Centralized salary offset through the Treasury Offset Program. As described in §§1011.9(a) of this part, the Presidio Trust will refer debts to the FMS for collection by administrative offset, including salary offset, through the Treasury Offset Program.

(c) Non-centralized salary offset for Treasury debts. The Presidio Trust may collect delinquent debts through non-centralized salary offset. In these cases, the Presidio Trust may offset a payment internally or make a request directly to a paying agency to offset a salary payment to collect a delinquent debt owed by a Federal employee. At least 30 days prior to offsetting internally or requesting a Federal agency to offset a salary payment, the Presidio Trust will send notice to the debtor in accordance with the requirements of §1011.4 of this part. When referring a debt for offset, the Presidio Trust will certify to the paying agency, in writing, that the debt is valid, delinquent and legally enforceable in the amount stated, and there are no legal bars to collection by salary offset. In addition, the Presidio Trust will certify that all due process and other prerequisites to salary offset have been met. See 5 U.S.C. 5514, 31 U.S.C. 3716(a), and this section for a description of the process for salary offset.

(d) When prior notice not required. The Presidio Trust is not required to provide prior notice to a Presidio Trust employee when the following adjustments are made:

1. Any adjustment to pay arising out of a Presidio Trust employee’s election of coverage or a change in coverage under a Federal benefits program requiring periodic deductions from pay, if the amount to be recovered was accumulated over four pay periods or fewer;

2. A routine intra-agency adjustment of pay that is made to correct an overpayment of pay attributable to clerical or administrative errors or delays in processing pay documents, if the overpayment occurred within the four pay periods preceding the adjustment, and, at the time of such adjustment, or as soon thereafter as practical, the individual is provided written notice of the nature and the amount of the adjustment and point of contact for contesting such adjustment; or

3. Any adjustment to collect a debt amounting to $50 or less, if, at the time of such adjustment, or as soon thereafter as practical, the individual is provided written notice of the nature and the amount of the adjustment and point of contact for contesting such adjustment.

(e) Hearing procedures. (1) Request for a hearing. A Presidio Trust employee who has received a notice that a debt will be collected by means of salary offset may request a hearing concerning the existence or amount of the debt. The employee also may request a
hearing concerning the amount proposed to be deducted from the employee’s pay each pay period. The employee must send any request for hearing, in writing, to the office designated in the notice described in §1011.4(a)(11). The request must be received by the designated office on or before the 15th business day following the employee’s receipt of the notice. The employee must sign the request and specify whether an oral or paper hearing is requested. If an oral hearing is requested, the employee must explain why the matter cannot be resolved by review of the documentary evidence alone.

(2) Failure to submit timely request for hearing. If the employee fails to submit a request for hearing within the time period described in paragraph (e)(1) of this section, the employee will have waived the right to a hearing, and salary offset may be initiated. However, the Presidio Trust may accept a late request for hearing if the employee can show that the late request was the result of circumstances beyond the employee’s control or because of a failure to receive actual notice of the filing deadline.

(3) Hearing official. The Presidio Trust hearing must be conducted by a hearing official who is not under the supervision or control of the Board of Directors of the Presidio Trust. The hearing official need not be an employee of the Federal Government.

(4) Notice of hearing. After the employee requests a hearing, a designated hearing official will inform the employee of the form of the hearing to be provided. For oral hearings, the notice will set forth the date, time and location of the hearing. For paper hearings, the notice will notify the employee of the date by which the employee should submit written arguments to the designated hearing official. The hearing official will give the employee reasonable time to submit documentation in support of the employee’s position. The hearing official will schedule a new hearing date if requested by both parties. The hearing official will give both parties reasonable notice of the time and place of a rescheduled hearing.

(5) Oral hearing. The hearing official will conduct an oral hearing if the official determines that the matter cannot be resolved by review of documentary evidence alone (for example, when an issue of credibility or veracity is involved). The hearing official will determine the procedure for the oral hearing, determining, for example, the hearing length.

(6) Paper hearing. If the hearing official determines that an oral hearing is not necessary, the official will make the determination based upon a review of the available written record, including any documentation submitted by the employee in support of the employee’s position.

(7) Date of decision. The hearing official will issue a written opinion setting forth the decision, based upon documentary evidence and information developed at the hearing, as soon as practicable after the hearing.

(8) Final agency action. The hearing official’s decision will be final.

(f) Salary offset process.

(1) Determination of disposable pay. The Presidio Trust payroll office will determine the amount of the employee’s disposable pay (as defined in §1011.1 of this part) and will implement salary offset.

(2) When salary offset begins. Deductions will begin within three official pay periods.

(3) Amount of salary offset. The amount to be offset from each salary payment will be up to 15% of the employee’s disposable pay, as follows:

(i) If the amount of the debt is equal to or less than 15% of the disposable pay, such debt generally will be collected in one lump sum payment;

(ii) Installment deductions will be made over a period of no greater than the anticipated period of employment. An installment deduction will not exceed 15% of the disposable pay from which the deduction is made unless the employee has agreed in writing to the deduction of a greater amount.

(4) Final salary payment. After the employee’s employment with the Presidio Trust ends, the Presidio Trust may make a lump sum deduction exceeding 15% of disposable pay from any final salary or other payments in order to satisfy a debt.
§ 1011.13 How will the Presidio Trust use administrative wage garnishment to collect a debt from a debtor’s wages?

(a) Authority and process. The Presidio Trust is authorized to collect debts from a debtor’s wages by means of administrative wage garnishment in accordance with the requirements of the FCCS and other applicable law. This part adopts and incorporates all of the provisions of 31 CFR 285.11 concerning administrative wage garnishment, including the hearing procedures described therein. The Presidio Trust may use administrative wage garnishment to collect a delinquent debt unless the debtor is making timely payments under an agreement to pay the debt in installments (see §1011.6 of this part). At least 30 days prior to initiating an administrative wage garnishment, the Presidio Trust will send notice to the debtor in accordance with the requirements of §1011.4 of this part, including the requirements of §1011.4(a)(10) of this part. For debts referred to the FMS under §1011.9 of this part, the Presidio Trust may authorize the FMS to send a notice informing the debtor that administrative wage garnishment will be initiated and how the debtor may request a hearing as described in §1011.4(a)(10) of this part. If a debtor makes a timely request for a hearing, administrative wage garnishment will not begin until a hearing is held and a decision is sent to the debtor. If a debtor’s hearing request is not timely, the Presidio Trust may suspend collection by administrative wage garnishment. All travel expenses incurred by the debtor in connection with an in-person hearing will be borne by the debtor.

(b) Not applicable to federal salary offset. This section does not apply to federal salary offset, the process by which the Presidio Trust collects debts from the salaries of Federal employees (see §1011.12 of this part).

§ 1011.14 How will the Presidio Trust report debts to credit bureaus?

The Presidio Trust will report delinquent debts to credit bureaus in accordance with the provisions of 31 U.S.C. 3711(e) and the FCCS. At least 60 days prior to reporting a delinquent debt to a consumer reporting agency, the Presidio Trust will send notice to the debtor in accordance with the requirements of §1011.4 of this part. The Presidio Trust may authorize the FMS to report to credit bureaus those delinquent debts that have been transferred to the FMS under §1011.9 of this part.

§ 1011.15 How will the Presidio Trust refer debts to private collection contractors?

The Presidio Trust will transfer delinquent debts to the FMS to obtain debt collection services provided by private collection contractors. See §1011.9 of this part.

§ 1011.16 When will the Presidio Trust refer debts to the Department of Justice?

(a) Compromise or suspension or termination of collection activity. The Presidio Trust will refer debts having a principal balance over $100,000, or such higher amount as authorized by the Attorney General, to the Department of Justice for approval of any compromise of a debt or suspension or termination of collection activity. See the FCCS and §1011.7 and 1011.8 of this part.

(b) Litigation. The Presidio Trust will promptly refer to the Department of Justice for litigation delinquent debts on which aggressive collection activity has been taken in accordance with this part that the Presidio Trust determines should not be compromised, and on which collection activity should not be suspended or terminated. The Presidio Trust may authorize the FMS to refer to the Department of Justice for litigation those delinquent debts that have been transferred to the FMS under §1011.9 of this part.

§ 1011.17 Will a debtor who owes a debt be ineligible for Presidio Trust licenses, permits, leases, privileges or services?

Unless prohibited by law, the Presidio Trust may terminate, suspend or revoke licenses, permits, leases (subject to the terms of the leases), or other privileges or services for any inexcusable or willful failure of a debtor to pay a debt. The Presidio Trust may establish guidelines and procedures governing termination, suspension and revocation for delinquent debtors. If
applicable, the Presidio Trust will advise the debtor in the notice required by §1011.4 of this part of the Presidio Trust’s ability to suspend or revoke licenses, permits, leases, or privileges or services.

§ 1011.18 How does a debtor request a special review based on a change in circumstances such as catastrophic illness, divorce, death or disability?

(a) Material change in circumstances. A debtor who owes a debt may, at any time, request a special review by the Presidio Trust of the amount of any offset, administrative wage garnishment or voluntary payment, based on materially changed circumstances beyond the control of the debtor such as, without limitation, catastrophic illness, divorce, death or disability.

(b) Inability to pay. For purposes of this section, in determining whether an involuntary or voluntary payment would prevent the debtor from meeting essential subsistence expenses (costs incurred for food, housing, clothing, transportation and medical care), the debtor must submit a detailed statement and supporting documents for the debtor, the debtor’s, and dependents, indicating:

1. Income from all sources;
2. Assets;
3. Liabilities;
4. Number of dependents;
5. Expenses for food, housing, clothing and transportation;
6. Medical expenses; and
7. Exceptional expenses, if any.

(c) Alternative payment arrangement. If the debtor requests a special review under this section, the debtor must submit an alternative proposed payment schedule and a statement to the Presidio Trust, with supporting documents, showing why the current offset, garnishment or repayment schedule imposes an extreme financial hardship on the debtor. The Presidio Trust will evaluate the statement and documentation and determine whether the current offset, garnishment or repayment schedule imposes extreme financial hardship on the debtor. The Presidio Trust will notify the debtor in writing of such determination, including, if appropriate, a revised offset, garnishment or payment schedule. If the special review results in a revised offset, garnishment or repayment schedule, the Presidio Trust will notify the appropriate agency or other persons about the new terms.

§ 1011.19 Will the Presidio Trust issue a refund if money is erroneously collected on a debt?

The Presidio Trust will promptly refund to a debtor any amount collected on a debt when the debt is waived or otherwise found not to be owed to the United States, or as otherwise required by law. Refunds under this part will not bear interest unless required by law.

§ 1011.20 Will the Presidio Trust’s failure to comply with these regulations be a defense to a debt?

No, the failure of the Presidio Trust to comply with any standard in the FCCS, these regulations or such other procedures of the Presidio Trust will not be available to any debtor as a defense.

Subpart C—Procedures for Offset of Presidio Trust Payments To Collect Debts Owed To Other Federal Agencies

§ 1011.21 How do other Federal agencies use the offset process to collect debts from payments issued by the Presidio Trust?

(a) Offset of Presidio Trust payments to collect debts owed to other Federal agencies. (1) In most cases, Federal agencies submit eligible debts to the Treasury Offset Program to collect delinquent debts from payments issued by other Federal agencies, a process known as “centralized offset.” When centralized offset is not available or appropriate, any Federal agency may ask the Presidio Trust (when acting as a paying agency) to collect a debt owed to such agency by offsetting funds payable to a debtor by the Presidio Trust, including salary payments issued to the Presidio Trust employees. This section and §1011.22 of this subpart C apply when a Federal agency asks the Presidio Trust to offset a payment issued by the Presidio Trust to a person who owes a debt to the United States.
(2) This subpart C does not apply to the collection of debts through tax refund offset.

(b) Administrative offset (including salary offset); certification. The Presidio Trust will initiate a requested offset only upon receipt of written certification from the creditor agency that the debtor owes the delinquent, legally enforceable debt in the amount stated, and that the creditor agency has fully complied with all applicable due process and other requirements, and the creditor agency’s regulations, as applicable. Offsets will continue until the debt is paid in full or otherwise resolved to the satisfaction of the creditor agency.

(c) Where a creditor agency makes requests for offset. Requests for offset under this section must be sent to the Presidio Trust, ATTN: Chief Financial Officer, P.O. Box 29052, San Francisco, CA 94129–0052.

(d) Incomplete certification. The Presidio Trust will return an incomplete debt certification to the creditor agency with notice that the creditor agency must comply with paragraph (b) of this section before action will be taken to collect a debt from a payment issued by the Presidio Trust.

(e) Review. The Presidio Trust is not authorized to review the merits of the creditor agency’s determination with respect to the amount or validity of the debt certified by the creditor agency.

(f) When the Presidio Trust will not comply with offset request. The Presidio Trust will comply with the offset request of another agency unless the Presidio Trust determines that the offset would not be in the best interests of the United States, or would otherwise be contrary to law.

(g) Multiple debts. When two or more creditor agencies are seeking offsets from payments made to the same person, or when two or more debts are owed to a single creditor agency, the Presidio Trust may determine the order in which the debts will be collected or whether one or more debts should be collected by offset simultaneously.

(h) Priority of debts owed to the Presidio Trust. For purposes of this section, debts owed to the Presidio Trust generally take precedence over debts owed to other agencies. The Presidio Trust may determine whether to pay debts owed to other agencies before paying a debt owed to the Presidio Trust. The Presidio Trust will determine the order in which the debts will be collected based on the best interests of the United States.

§ 1011.22 What does the Presidio Trust do upon receipt of a request to offset the salary of a Presidio Trust employee to collect a debt owed by the employee to another Federal agency?

(a) Notice to the Presidio Trust employee. When the Presidio Trust receives proper certification of a debt owed by one of its employees, the Presidio Trust will begin deductions from the employee's pay at the next officially established pay interval. The Presidio Trust will send a written notice to the employee indicating that a certified debt claim has been received from the creditor agency, the amount of the debt claimed to be owed to the creditor agency, the date deductions from salary will begin, and the amount of such deductions.

(b) Amount of deductions from a Presidio Trust employee’s salary. The amount deducted under §1011.21(b) of this part will be the lesser of the amount of the debt certified by the creditor agency or an amount up to 15% of the debtor's disposable pay. Deductions will continue until the Presidio Trust knows that the debt is paid in full or until otherwise instructed by the creditor agency. Alternatively, the amount offset may be an amount agreed upon, in writing, by the debtor and the creditor agency. See §1011.12(g) (salary offset process).

(c) When the debtor is no longer employed by the Presidio Trust—(1) Offset of final and subsequent payments. If the Presidio Trust employee retires or resigns or if his or her employment ends before collection of the debt is complete, the Presidio Trust will continue to offset up to 100% of an employee’s subsequent payments until the debt is paid or otherwise resolved. Such payments include a debtor’s final salary payment, lump-sum leave payment, and other payments payable to the debtor by the Presidio Trust.

GENERAL INFORMATION

§ 1012.1 What does this part cover?

(a) This part describes how the Presidio Trust responds to requests or subpoenas for:

1. Testimony by employees in State, territorial or Tribal judicial, legislative or administrative proceedings concerning information acquired while performing official duties or because of an employee’s official status;
2. Testimony by employees in Federal court civil proceedings in which the United States or the Presidio Trust is not a party concerning information

(b) Notice to the creditor agency. If the employee’s employment with the Presidio Trust terminates before the debt is paid in full, the Presidio Trust will certify to the creditor agency the total amount of its collection. If the Presidio Trust is aware that the employee is entitled to payments from the Civil Service Retirement and Disability Fund, Federal Employee Retirement System, or other similar payments, the Presidio Trust will provide written notice to the agency making such payments that the debtor owes a debt (including the amount) and that the provisions of 5 CFR 550.1109 have been fully complied with. The creditor agency is responsible for submitting a certified claim to the agency responsible for making such payments before collection may begin. Generally, creditor agencies will collect such monies through the Treasury Offset Program as described in §1011.9(c) of this part.

(c) Notice to the debtor. The Presidio Trust will provide to the debtor a copy of any notices sent to the creditor agency under paragraph (c)(2) of this section.

(d) When the debtor transfers to another Federal agency—(1) Notice to the creditor agency. If the debtor transfers to another Federal agency before the debt is paid in full, the Presidio Trust will notify the creditor agency and will certify the total amount of its collection on the debt. The Presidio Trust will provide a copy of the certification to the creditor agency. The creditor agency is responsible for submitting a certified claim to the debtor’s new employing agency before collection may begin.

(2) Notice to the debtor. The Presidio Trust will provide to the debtor a copy of any notices and certifications sent to the creditor agency under paragraph (d)(1) of this section.

(e) Request for hearing official. The Presidio Trust will provide a hearing official upon the creditor agency’s request with respect to the Presidio Trust employee.
§ 1012.2 What is the Presidio Trust's policy on granting requests for employee testimony or Presidio Trust records?

(a) Except for proceedings covered by §1012.1(c) and (d), it is the Presidio Trust’s general policy not to allow its employees to testify or to produce Presidio Trust records either upon request or by subpoena. However, if the party seeking such testimony or records requests in writing, the Presidio Trust will consider whether to allow testimony or production of records under this part. The Presidio Trust’s policy ensures the orderly execution of its mission and programs while not imped ing any proceeding inappropriately.

(b) No Presidio Trust employee may testify or produce records in any proceeding to which this part applies unless authorized by the Presidio Trust under §§1012.1 through 1012.11.

(a) Except for proceedings covered by §1012.1(c) and (d), it is the Presidio Trust’s general policy not to allow its employees to testify or to produce Presidio Trust records either upon request or by subpoena. However, if the party seeking such testimony or records requests in writing, the Presidio Trust will consider whether to allow testimony or production of records under this part. The Presidio Trust’s policy ensures the orderly execution of its mission and programs while not impeding any proceeding inappropriately.

(b) No Presidio Trust employee may testify or produce records in any proceeding to which this part applies unless authorized by the Presidio Trust under §§1012.1 through 1012.11. United States ex rel. Touhy v. Ragen, 340 U.S. 462 (1951).

(a) The Executive Director will decide whether to grant or deny your Touhy Request. The Presidio Trust’s General Counsel, or his or her agent, may negotiate with you or your attorney to refine or limit both the timing and content of your Touhy Request. When necessary, the General Counsel also will coordinate with the Department of Justice to file appropriate motions, including motions to remove the matter to Federal court, to quash, or to obtain a protective order.

(c) All decisions granting or denying a Touhy Request must be in writing. The Executive Director must ask the General Counsel for advice when preparing the decision.

(d) Under 28 U.S.C. 1733, Federal Rule of Civil Procedure 44(a)(1), or comparable State or Tribal law, a request for an authenticated copy of a Presidio Trust record may be granted by the person having the legal custody of the record. If you believe that you have custody of a record:

Subpart A—General

§ 1120.1 Purpose and scope of this part.

This part contains the general rules of the Architectural and Transportation Barriers Compliance Board for public access to Board records. These regulations implement 5 U.S.C. 552, the Freedom of Information Act, as amended, and the policy of the Board. It is the Board’s policy to disseminate information on matters of interest to the public and to disclose on request all information contained in records in its custody so as is compatible with the discharge of its responsibilities and consistent with the law. This part sets forth generally the categories of records accessible to the public, the types of records subject to prohibitions or restrictions on disclosure, and the places and procedures to obtain information from records in the custody of the A&TBCB.

§ 1120.2 Definitions.

For the purposes of this part:
(a) A&TBCB or Board means the Architectural and Transportation Barriers Compliance Board.
(b) A&TBCB record or record means any document, writing, photograph, sound or magnetic recording, drawing or other similar thing by which information has been preserved, from which the information can be retrieved and copied, and which is, was, or is alleged to be under the control of the A&TBCB.

(i) The term includes—
   (i) Informal writings such as handwritten notes and drafts;
   (ii) Information preserved in a form which must be translated or deciphered by machine in order to be intelligible to humans;
   (iii) Records which were created or acquired by the A&TBCB, its members, its employees, its members’ employees, or persons acting on behalf of its members, by use of A&TBCB funds or in the course of transacting official business for the A&TBCB;
   (ii) The term does not include—
   (i) Materials which are legally owned by an A&TBCB member, employee, or member’s employee or representative
in his or her purely personal capacity; and
(ii) Materials published by non-Federal organizations which are readily available to the public, such as books, journals, standards, and periodicals available through reference libraries, even if such materials are in the A&TBCB’s possession.

(c) The terms agency, person, party, rule, rulemaking, order, and adjudication have the meanings given in 5 U.S.C. 551, except where the context demonstrates that a different meaning is intended, and except that for purposes of the Freedom of Information Act the term agency as defined in 5 U.S.C. 551 includes any executive department, military department, Government corporation, Government controlled corporation, the United States Postal Service, or other establishment in the executive branch of the Government (including the Executive Office of the President) or any independent regulatory agency.

(d) A government record under the control of the A&TBCB means that the record is subject to the free disposition of the A&TBCB. This includes keeping the record available for governmental use as required and protecting, preserving, and exercising such control over it as may be necessary for that purpose. Control of a record is not synonymous with, and does not require, actual physical possession of the record.

(e) Request means a request to inspect or obtain a copy of one or more records.

(f) Requestor means any person who submits a request to the A&TBCB.

(g) Public member means a member appointed by the President from among members of the general public.

(h) Direct Costs means those expenditures which an agency actually incurs in searching for and duplicating (and in the case of commercial requesters, reviewing) documents to respond to a FOIA request. Direct costs include, for example, the salary of the employee performing work (the basic rate of pay for the employee plus 16 percent of that rate to cover benefits) and the cost of operating duplicating machinery. Not included in direct costs are overhead expenses such as costs of space, and heating or lighting the facility in which the records are stored.

(i) Search includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within documents. Agencies should ensure that searching for material is done in the most efficient and least expensive manner so as to minimize costs for both the agency and the requester. For example, agencies should not engage in line-by-line search when merely duplicating an entire document would prove the less expensive and quicker method of complying with a request. Search should be distinguished, moreover, from review of material in order to determine whether the material is exempt from disclosure (see paragraph (k) of this section). Searches may be done manually or by computer using existing programming.

(j) Duplication refers to the process of making a copy of a document necessary to respond to an FOIA request. Such copies can take the form of paper copy, microform, audio-visual materials, or machine readable documentation (e.g., magnetic tape or disk), among others. The copy provided must be in a form that is reasonably usable by requesters.

(k) Review refers to the process of examining documents located in response to a request that is for a commercial use (see paragraph (l) of this section) to determine whether any portion of any document located is permitted to be withheld. It also includes processing any documents for disclosure, e.g., doing all that is necessary to excise them and otherwise prepare them for release. Review does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(l) Commercial Use Request refers to a request from or on behalf of one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, agencies must determine the use to which a requester will put the documents requested. Moreover, where an agency has reasonable cause to doubt
Architectural and Transp. Barriers Compliance Board § 1120.5

the use to which a requester will put the records sought, or where that use is not clear from the request itself, agencies should seek additional clarification before assigning the request to a specific category.

(m) Educational Institution refers to a preschool, a public or private elementary or secondary school, an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.

(n) Non-Commercial Scientific Institution refers to an institution that is not operated on a commercial basis as that term is referenced in paragraph (l) of this section, and which is operated solely for the purpose of conducting scientific research the results of which are not intended to promote any particular product or industry.

(o) Representative of the News Media refers to any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term news means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large, and publishers of periodicals (but only in those instances when they can qualify as disseminators of news) who make their products available for purchase or subscription by the general public. These examples are not intended to be all-inclusive.

Moreover, as traditional methods of news delivery evolve (e.g., electronic dissemination of newspapers through telecommunications services), such alternative media would be included in this category. In the case of freelance journalists, they may be regarded as working for a news organization if they can demonstrate a solid basis for expecting publication through that organization, even though not actually employed by it. A publication contract would be the clearest proof, but agencies may also look to the past publication record of a requester in making this determination.

§ 1120.3 Existing records.

All existing A&TBCB records are subject to routine destruction according to standard record retention schedules.

Subpart B—Published Information

§ 1120.5 Information published in the Federal Register.

(a) General. In accordance with the provisions of 5 U.S.C. 552(a)(1), basic information concerning the organization, operations, functions, substantive and procedural rules and regulations, officials, office locations, and allocation of responsibilities for functions and programs of the A&TBCB is published in the Federal Register for the guidance of the public. This information includes—

(1) Description of the A&TBCB’s organization and the established places at which, the employees from whom, and the methods whereby the public may obtain information, make submissions or requests, or obtain decisions;

(2) Statements of the general course and method by which the A&TBCB’s functions are channeled and determined, including the nature and requirements of all formal and informal procedures available;

(3) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports, or examinations;

(4) Substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability formulated and adopted by the A&TBCB, and

(5) Each amendment, revision, or repeal of the foregoing. Indexes to the Federal Register are published in each daily issue and compiled currently on a monthly, quarterly, and annual basis. Copies of the Federal Register and its indexes are available in many libraries and may be purchased from the Superintendent of Documents, Government Printing Office,
§ 1120.6 Information in A&TBCB publications.

(a) General. Copies of information material shall be available upon oral or written request so long as an adequate supply exists. These informational materials include press releases, pamphlets, and other materials ordinarily made available to the public without cost as part of a public information program, and reprints of individual parts of the Code of Federal Regulations or Federal Register relating to programs affecting substantial segments of the general public. Copies of informational publications of the A&TBCB which may be purchased from the Superintendent of Documents may be inspected in those offices of the A&TBCB in which reference copies are available. Compliance with the formal procedures provided in this part for obtaining access to A&TBCB records is not necessary for access to the materials described in this paragraph.

(b) Code of Federal Regulations. Title 36 of the Code of Federal Regulations, which is republished and updated annually, contains a compilation of documents published by the A&TBCB in the Federal Register which set forth substantive and procedural rules and regulations of the A&TBCB and statements of general policy or interpretations of general applicability formulated and adopted by the Board. Copies of the Code of Federal Regulations are available in many libraries and may be purchased from the Superintendent of Documents. Reference copies maintained in offices of the A&TBCB are available for examination without formal request.

(c) Effect of nonpublication. Except to the extent that a person has actual and timely notice of its terms, no person may in any manner be required to resort to, or be adversely affected by, any procedure or matter required to be published in the Federal Register, but not so published. For the purposes of this paragraph, material that is reasonably available to the class of persons affected by it is considered to be published in the Federal Register if it has been incorporated by reference in the Federal Register with the approval of the Director of the Federal Register.

§ 1120.11 Records available for inspection.

Except for those categories of materials listed in paragraph (a) of this section, paragraphs (a) (1) through (9) of § 1120.41 the following materials are available for public inspection and copying during normal business hours at the Washington office of the A&TBCB:

Subpart C—Records Available for Public Inspection and Copying, Documents Published and Indexed
(a) Final opinions and orders made in the adjudication of cases;
(b) Statements of policy and interpretations which have been adopted under the authority of the A&TBCB and are not published in the FEDERAL REGISTER;
(c) Administrative staff manuals and instructions to staff that affect a member of the public;
(d) A record of the final votes of each member of the Board in every Board proceeding;
(e) Current indexes providing identifying information for the public as to the materials made available under paragraphs (a) through (d) of this section.
(f) All papers and documents made a part of the official record in administrative proceedings conducted by the A&TBCB in connection with the issuance, amendment, or revocation of rules and regulations or determinations having general applicability or legal effect with respect to members of the public or a class of the public.
(g) After a final order is issued in any adjudicative proceeding conducted by the A&TBCB, all papers and documents made a part of the official record of the proceeding. (The official docket is kept in the office of the administrative law judge hearing the case until a final order is issued.)

§ 1120.12 Indexes to certain records.
Current indexes are normally available to the public in published form as provided in §1120.11. These indexes, whether or not published, are made available for inspection and copying on request. If published copies of a particular index are at any time not available or if publication of the index has been determined to be unnecessary and impracticable by order published in the FEDERAL REGISTER, copies of the index will be furnished on request. (See §1120.6(b), Published indexes.)

§ 1120.13 Effect of nonavailability.
Any material listed in paragraph (a) of this section that is not indexed as required by §1120.11(e) and §1120.12, may not be cited, relied on, or used has had actual and timely notice of the material.

Subpart D—Information Available Upon Request

§ 1120.21 Policy on disclosure of records.
(a) It is the policy of the A&TBCB to make information available to the public to the greatest extent possible in keeping with the spirit of the Freedom of Information Act. Therefore, all records of the A&TBCB, except those that the A&TBCB specifically determines must not be disclosed in the national interest, for the protection of private rights, or for the efficient conduct of public business to the extent permitted by the Freedom of Information Act, are declared to be available for public inspection and copying as provided in this part. Each member and employee of the A&TBCB is directed to cooperate to this end and to make records available to the public promptly and to the fullest extent consistent with this policy. A record may not be withheld from the public solely because its release might suggest administrative error or embarrass a member or employee of the A&TBCB.
(b) Subject to §1120.51, any nonexempt A&TBCB record is available to the public upon request regardless of whether the requestor shows any justification or need for the record.
(c) An A&TBCB office may waive the procedures on this subpart in favor of the requestor, for reasons of the public interest, simplicity, or speed.
(d) If a requested record contains both exempt and nonexempt material, the nonexempt material shall be disclosed, after the exempt material has been deleted in accordance with §1120.42.

§ 1120.22 Requests to which this subpart applies.
(a) This subpart applies to any written request (other than a request made by another Federal agency) received by the A&TBCB, whether or not the request cites the Freedom of Information Act, 5 U.S.C. 552, except with respect to records for which a less formal disclosure procedure is provided specifically in this part.
§ 1120.23 Where requests for agency records must be filed.

A written request for records must be filed with the A&TBCB Freedom of Information Officer, Suite 501, 1111 18th Street NW., Washington, DC 20036. Requests may be mailed to that address or filed in person at that address during the A&TBCB’s normal business hours.

§ 1120.24 Misdirected written requests; oral requests.

(a) The A&TBCB cannot assure that a timely for satisfactory response under this subpart will be given to written requests that are addressed to A&TBCB offices, members, or employees other than the Freedom of Information Officer listed in §1120.23. Any A&TBCB member or employee who receives a written request for inspection or disclosure of A&TBCB records must promptly forward a copy of the request to the Freedom of Information Officer, by the fastest practicable means, and must, if appropriate, commence action under §1120.32.

(b) While A&TBCB members and employees will attempt in good faith to comply with oral requests for inspection or disclosure of A&TBCB records, by telephone or otherwise, these requests are not required to be processed in accordance with this subpart.

§ 1120.25 Form of requests.

A request must be in writing, must reasonably describe the records sought in a way that will permit their identification and location, and must be addressed to the address set forth in §1120.23, but otherwise need not be in any particular form. Each request under the Freedom of Information Act should be clearly and prominently identified by a legend on the first page, such as “Freedom of Information Act Request.” The envelope in which the request is sent should be prominently marked with the letters “FOIA.” It is helpful, but not necessary, for the requestor to include his or her phone number and the reason for the request. A request may state the maximum amount of fees which the requester is willing to pay. Under §1120.33(d), the failure to state willingness to pay fees as high as are anticipated by the A&TBCB will delay running of the time limit and delay processing of the request, if the responsible official anticipates that the fees chargeable may exceed $250.00.

§ 1120.26 Deficient descriptions.

(a) If the description of the records sought in the request is not sufficient to allow the A&TBCB to identify and locate the requested records, the office taking action under §1120.32 must notify the requestor (by telephone when practicable) that the request cannot be further processed until additional information is furnished.

(b) The A&TBCB must make every reasonable effort to assist the requestor in formulating his or her request. If a request is described in general terms (e.g., all records having to do with a certain area), the A&TBCB office taking action under §1120.32 may communicate with the requestor (by telephone when practicable) with a view toward reducing the administrative burden of processing a broad request and minimizing the fee payable by the requestor. Such attempts must not be used as a means to discourage requests, but rather as a means to help identify with more specificity the records actually sought.
§ 1120.31 A&TBCB receipt of requests; responsibilities of Freedom of Information Officer.

(a) Upon receipt of a written request, the Freedom of Information Officer must mark the request with the date of receipt and must attach to the request a control slip indicating the Request Identification Number and other pertinent administrative information. The Freedom of Information Officer must immediately forward the request and control slip to the A&TBCB office which the FOIA Officer believes to be responsible for maintaining the records requested. The Freedom of Information Officer must retain a full copy of the request and control slip and must monitor the handling of the request to ensure a timely response.

(b) The Freedom of Information Officer must maintain a file concerning each request received. The file must contain a copy of the request, initial and appeal determinations, and other pertinent correspondence and records.

(c) The Freedom of Information Officer must collect and maintain the information necessary to compile the reports required by 5 U.S.C. 552(d).

§ 1120.32 A&TBCB action on requests.

(a) The FOIA Officer is delegated the authority to issue initial determinations concerning records which he or she believes are in the custody of a Board member, an employee of a member’s agency, or an employee of a public member. When the FOIA Officer receives such a request, he or she shall forward it to the member, employee of a member agency, or employee of a public member whom the request is forwarded shall, within three days of receipt of the FOIA Officer’s request, either furnish the records requested to the FOIA Officer or inform the FOIA Officer of the time when they will be furnished. The FOIA Officer shall then determine whether or not to disclose the documents. For purposes of such requests and their processing under this subpart, the FOIA Officer is considered the office handling the requests.

(b) Heads of staff offices are delegated the authority to issue initial determinations, other records which are in their respective custody.

(c) Whenever an A&TBCB office receives a request forwarded by the FOIA Officer, the office should:

(1) Take action under §1120.26, if required, to obtain a better description of the records requested;

(2) Locate the records as promptly as possible, or determine that:

(i) The records are not known to exist; or

(ii) They are located at another A&TBCB office; or

(iii) They are located at another Federal agency and not possessed by the A&TBCB.

(3) When appropriate, take action under §1120.53(b) to obtain payment or assurance of payment;

(4) Determine which of the requested records legally must be withheld, and why (see §1120.42(b), Release of exempt documents);

(5) Of the requested records which are exempt from mandatory disclosure but which legally may be disclosed (see §1120.42(a)), determine which records will be withheld, and why;

(6) Issue an initial determination within the allowed period (see §1120.31), specifying (individually or by category) which records will be disclosed and which will be withheld, and signed by a person authorized to issue the determination under paragraph (a) of this section (see §1120.33, Initial denials of requests);

(7) Furnish the Freedom of Information Officer a copy of the determination; and

(8) If the determination denies a request, furnish the Freedom of Information Officer the name of the A&TBCB member(s) or employee(s) having custody of the records and maintain the records in a manner permitting their prompt forwarding to the General Counsel upon request if an appeal from the initial denial is filed. (See also §1120.34.)

(d) If it appears that some or all of the requested records are not in the possession of the A&TBCB office which has been assigned responsibility for responding to the request but may be in the possession of some A&TBCB office, the responding office must inform...
§ 1120.33 Time allowed for initial action on requests.

(a) Except as otherwise provided in this section, as soon as possible and not later than the tenth working day after the day on which the Freedom of Information Officer receives a request for records, the A&TBCB office responsible for responding to the request must issue a written determination to the requestor stating which of the requested records will, and which will not, be released and the reason for any denial of a request.

(b) The period of 10 working days is measured from the date the request is first received and logged in by the Freedom of Information Officer.

(c) There is excluded from the period of 10 working days (or any extension) any time which elapses between the date that a requestor is notified by the A&TBCB under §1120.26 that his or her request does not reasonably identify the records sought, and the date that the requestor furnishes a reasonable identification.

(d) There is excluded from the period of 10 working days (or any extension) any time which elapses between the date that a requestor is notified by an A&TBCB office under §1120.53(b) that prepayment of fees is required, and the date that the requestor pays (or makes suitable arrangements to pay) the charges.

(e) The A&TBCB office taking action under §1120.31 may extend the basic 10-day period established under paragraph (a) of this section by a period not to exceed 10 additional working days if—

(1) The office notifies the Freedom of Information Officer;

(2) The office notifies the requestor in writing within the basic 10-day period stating the reasons for the extension and the date by which the office expects to be able to issue a determination;

(3) The extension is reasonably necessary to properly process the particular request; and

(4) One or more of the following unusual circumstances require the extension:

(i) There is a need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(ii) There is a need to search for, collect, and/or appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(iii) There is need for consultation with another agency having a substantial interest in the determination of the request or among two or more components of the A&TBCB. The office must conduct the consultation with all practicable speed.

(f) Should the A&TBCB fail to issue a determination within the 10-day period or any authorized extension as to an initial request, or during the period for consideration of an appeal, the requestor shall be deemed to have exhausted his or her administrative remedies with respect to such. In the latter situation, the requestor may commence an action in an appropriate Federal district court to obtain the records.

§ 1120.34 Initial denials of requests.

(a) An initial denial of a request may be issued only for the following reasons:

(1) The record is not under the A&TBCB’s control;

(2) The record has been published in the FEDERAL REGISTER or is otherwise published and available for sale;

(3) A statutory provision, provision of this part, or court order requires that the information not be disclosed;

(4) The record is exempt from mandatory disclosure under 5 U.S.C. 552(b) and the responding office has decided not to disclose it under §§1120.41 and 1120.42;

(5) The record is believed to be in the A&TBCB’s custody but has not yet been located. (See paragraph (f) of this section.)

(b) Each initial denial of a request shall—
(1) Be written, signed, and dated;

(2) Contain a reference to the Request Identification Number;

(3) Identify the records that are being withheld (individually or, if the denial covers a large number of similar records, by described category); and

(4) State the basis for denial of each record of category of records or any reasonably segregable portion(s) thereof being withheld.

(c) If the issuance of the determination to deny a request was directed by some A&TBCB officer or employee other than the person signing the determination letter, that other person’s identity and position must be stated in the determination letter.

(d) Each initial determination which denies, in whole or in part, a request for one or more existing, located A&TBCB records must state that the requestor may appeal the initial denial by sending a written appeal to the address shown in §1120.23 within 30 days of receipt of the determination. (See §1120.36.)

(e) A determination is deemed issued on the date the determination letter is placed in A&TBCB mailing channels for first class mailing to the requestor, delivered to the U.S. Postal Service for mailing, or personally delivered to the requestor, whichever date first occurs.

(f) When a request must be denied because the record has not yet been located (although it is believed to be in the A&TBCB’s possession), the A&TBCB office responsible for maintaining the record must continue to search diligently until it is located or it appears that the record does not exist or is not in the A&TBCB’s possession, and must periodically inform the requestor of the office’s progress.

§ 1120.36 Appeals from initial denials.

(a) Any person whose request has been denied in whole or in part by an initial determination may appeal that denial by addressing a written appeal to the address shown in §1120.23.

(b) Any appeal must be mailed or filed in person at the address shown in §1120.23—

(1) In the case of a denial of an entire request, generally not later than 30 calendar days after the date the requestor received the initial determination on the request; or

(2) In the case of a partial denial, generally not later than 30 calendar days after the requestor receives all records being made available pursuant to the initial determination.

An appeal which does not meet the requirements of this paragraph may be treated either as a timely appeal or as a new request, at the option of the Freedom of Information Officer.

(c) The appeal letter must contain—

(1) A reference to the Request Identification Number (RIN);

(2) The date of the initial determination;

(3) The name and address of the person who issued the initial denial;

(4) A statement of which of the records to which access was denied are the subjects of the appeal; and

(5) If the applicant wishes, such facts and legal or other authorities as he or she considers appropriate.

§ 1120.37 A&TBCB action on appeals.

(a) The General Counsel must make one of the following legal determinations in connection with every appeal from the initial denial of a request for an existing, located record:

(1) The record must be disclosed;

(2) The record must not be disclosed because a statute or a provision of this part so requires; or

(3) The record is exempt from mandatory disclosure but legally may be disclosed as a matter of agency discretion.

(b) Whenever the General Counsel has determined under paragraph (a)(3) of this section that a record is exempt from mandatory disclosure but legally may be disclosed, the matter must be referred to the Executive Director. If the Executive Director determines that an important purpose would be served by withholding the record, the General Counsel shall issue a determination denying the appeal. If the Executive Director determines that no important purpose would be served by withholding the record, the General Counsel must disclose the record.

(c) The General Counsel may delegate his or her authority under this section to any other attorney employed by the A&TBCB in connection
with any category of appeals or any individual appeals.

(d) A determination denying an appeal from an initial denial must—

(1) Be in writing;
(2) State which of the exemptions in 5 U.S.C. 552(b) apply to each requested existing record;
(3) State the reason(s) for denial of the appeal;
(4) State the name and position of each A&TBCB officer or employee who directed that the appeal be denied; and
(5) State that the person whose request was denied may obtain de novo judicial review of the denial by complaint filed with the district court of the United States in the district in which the complainant resides, or in which the agency records are situated, or in the District of Columbia, pursuant to 5 U.S.C. 552(a)(4).

§ 1120.38 Time allowed for action on appeals.

(a) Except as otherwise provided in this section, as soon as possible and not later than the twentieth working day after the day on which the Freedom of Information Officer receives an appeal from an initial denial of a request for records, the General Counsel shall issue a written determination stating which of the requested records (as to which appeal was made) will and which will not be disclosed.

(b) The period of 20 working days shall be measured from the date an appeal is first received by the Freedom of Information Officer.

(c) The General Counsel may extend the basic 20-day period established under paragraph (a) of this section by a period not to exceed 10 additional working days if—

(1) He or she notifies the Freedom of Information Officer;
(2) He or she notifies the requestor in writing within the basic 20-day period stating the reasons for the extension and the date by which he or she expects to be able to issue a determination;
(3) The extension is reasonably necessary to properly process the particular request; and
(4) One or more of the following unusual circumstances require the extension:

(i) There is a need to search for and collect the records from field facilities or other establishments that are separated from the office processing the appeal;
(ii) There is a need to search for, collect, and/or appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or
(iii) There is a need for consultation with another agency or among two or more components of the A&TBCB. The General Counsel must conduct the consultation with all practicable speed.

(d) No extension of the 20-day period may be issued under paragraph (c) of this section which would cause the total of all such extensions and of any extensions issued under §1120.33(c) to exceed 10 working days.

§ 1120.41 Exempt documents.

(a) Generally, 5 U.S.C. 552(b) establishes nine exclusive categories of matters which are exempt from the mandatory disclosure requirements of 5 U.S.C. 552(a). No request under 5 U.S.C. 552 for an existing, located, unpublished record in the A&TBCB’s control may be denied by any A&TBCB officer or employee unless the record contains (or its disclosure would reveal) matters that are—

(1) Specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and which are in fact properly classified pursuant to the Executive order;
(2) Related solely to the internal personnel rules and practices of an agency;
(3) Specifically exempted from disclosure by statute;
(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;
(5) Interagency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;
(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;
(7) Investigatory records compiled for law enforcement purposes, but only to
the extent that the production of such records would—
(i) Interfere with enforcement proceedings;
(ii) Deprive a person of a right to a fair trial or an impartial adjudication;
(iii) Constitute an unwarranted invasion of personal privacy;
(iv) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source;
(v) Disclose investigative techniques and procedures; or
(vi) Endanger the life or physical safety of law enforcement personnel;
(8) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or
(9) Geological and geophysical information and data, including maps, concerning wells.
(b) The fact that the applicability of an exemption permits the withholding of a requested record (or portion of a record) does not necessarily mean that the record must or should be withheld. (See §1120.42 Release of exempt documents.)

§ 1120.42 Release of exempt documents.

(a) An A&TBCB office may, in its discretion, release requested records despite the applicability of one or more of the exemptions listed in §1120.41 (a)(2), (5), or (7). Disclosure of such records is encouraged if no important purpose would be served by withholding the records.
(b) Though the policy of the A&TBCB is to honor all requests, as indicated in §1120.21(a), there are circumstances when the A&TBCB will not disclose a record if one or more of the FOIA exemptions applies to the record. The exemptions usually in such circumstances are exemptions (2), (3), (4), (6), (8) and (9). In these cases, where the A&TBCB has withheld a requested record, or portions thereof, the A&TBCB will disclose the exempted record when ordered to do so by a Federal court or in exceptional circumstances under appropriate restrictions with the approval of the Office of General Counsel.

Subpart E—Copies of Records and Fees for Services

§ 1120.51 Charges for services, generally.

(a) It shall be the policy of the ATBCB to comply with requests for documents made under the FOIA using the most efficient and least costly methods available. Requesters will be charged fees, in accordance with the administrative provisions and fee schedule set forth below, for searching for, reviewing (in the case of commercial use requesters only), and duplicating requested records.
(b) Categories of requesters. For the purpose of standard FOIA fee assessment, the four categories of requesters are: Commercial use requesters; educational and non-commercial scientific institution requesters; requesters who are representatives of the news media; and, all other requesters (see §1120.2 (l) through (o), Definitions).
(c) Levels of fees. Levels of fees prescribed for each category of requester are as follows:
(1) Commercial Use Requesters—When the ATBCB receives a request for documents which appears to be a request for commercial use, the Board may assess charges in accordance with the fee schedule set forth below, which recover the full direct costs of searching for, reviewing for release, and duplicating the records sought. Costs for time spent reviewing records to determine whether they are exempt from mandatory disclosure applies to the initial review only. No fees will be assessed for reviewing records, at the administrative appeal level, of the exemptions already applied.
(2) Educational and Non-Commercial Scientific Institution Requesters—The ATBCB shall provide documents to requesters in this category for the cost of reproduction alone, in accordance with the fee schedule set forth below, excluding charges for the first 100 pages of reproduced documents.
§ 1120.52 Computerized records.

(a) Information available in whole or in part in computerized form which is disclosable under the Freedom of Information Act is available to the public as follows:

(1) When there is an existing printout from the computer which permits copying the printout, the material will be made available at the per page rate stated in §1120.51(a) for each 8½ by 11 inch page.

(2) When there is not an existing printout of information disclosable under the Freedom of Information Act, a printout shall be made if the applicant pays the cost to the A&TBCB as stated in paragraph (a)(3) of this section.

(3) Obtaining information from computerized records frequently involves a minimum computer time cost of approximately $100 per request. Multiple requests involving the same subject may cost less per request. Services of personnel in the nature of a search shall be charged for at rates prescribed in §1120.51(a). A charge shall be made for the computer time involved based upon the prevailing level of costs to Government organizations and upon the particular types of computer and associated equipment and the amounts authorized committee or subcommittee or Congress, unless the records are requested for the benefit of an individual Member of Congress or for a constituent;

(b) For furnishing records requested by and for the official use of other Federal agencies;

(c) For furnishing records requested by and for the official use of other Federal agencies;

(d) For furnishing records requested by and for the official use of other Federal agencies;

(e) For furnishing records requested by and for the official use of other Federal agencies;
Architectural and Transp. Barriers Compliance Board § 1120.53

§ 1120.53 Payment of fees.

(a) Method of payment. All fee payments shall be in the form of a check or money order payable to the order of the “U.S. Architectural and Transportation Barriers Compliance Board” and shall be sent (accompanied by a reference to the pertinent Request Indentification Number(s)) to the address in § 1120.23.

(b) Charging interest. The ATBCB may charge interest to those requestors failing to pay fees assessed in accordance with the procedures described in § 1120.51. Interest charges, computed at the rate prescribed in section 3717 of title 31 U.S.C.A., will be assessed on the full amount billed starting on the 31st day following the day on which the bill was sent.

(c) Advance payment or assurance of payment. (1) When an ATBCB office determines or estimates that the allowable charges a requestor may be required to pay are likely to exceed $250.00, the ATBCB may require the requestor to make an advance payment or arrangements to pay the entire fee before continuing to process the request. The ATBCB shall promptly inform the requestor (by telephone, if practicable) of the need to make an advance payment or arrangements to pay the fee. That office need not search for, review, duplicate, or disclose records in response to any request by that requestor until he or she pays, or makes acceptable arrangements to pay, the total amount of fees due (or estimated to become due) under this subpart.

(2) Where a requestor has previously failed to pay a fee charged in a timely fashion, the ATBCB may require the requestor to pay the full amount owed, plus any applicable interest, as provided in paragraph (b) of this section, and to make an advance payment of the full amount of the estimated fee before any new or pending requests will be processed from that requestor.

(3) In those instances described in paragraphs (c)(1) and (2) of this section, the administrative time limits prescribed in § 1120.33(d) will begin only after the ATBCB has received all fee payments due or acceptable arrangements have been made to pay all fee payments due.

(D) Effect of the Debt Collection Act of 1982 (Pub. L. 97–365). Requestors are advised that the ATBCB shall use the authorities of the Debt Collection Act of 1982, including disclosure to consumer reporting agencies and use of collection agencies, where appropriate, to encourage repayment of debts arising from freedom of information act requests.

(e) Waiver or reduction of fees. (1) Records responsive to a request under 5 U.S.C. 552 shall be furnished without charge or at a charge reduced below that established under paragraph (d) of § 1120.51 where the Freedom of Information Officer determines, based upon information provided by a requestor in support of a fee waiver request or otherwise made known to the Freedom of Information Officer, that disclosure of the requested information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requestor. Requests for a waiver or reduction of fees shall be considered on a case-by-case basis.

(2) In order to determine whether the first fee waiver requirement is met—i.e., that disclosure of the requested information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government—Freedom of Information Officer
shall consider the following four factors in sequence:

(i) The subject of the request: Whether the subject of the requested records concerns "the operations or activities of the government." The subject matter of the requested records, in the context of the request, must specifically concern identifiable operations or activities of the federal government—with a connection that is direct and clear, not remote or attenuated. Furthermore, the records must be sought for their informative value with respect to those government operations or activities; a request for access to records for their intrinsic informational content alone will not satisfy this threshold consideration.

(ii) The informative value of the information to be disclosed: Whether the disclosure is "likely to contribute" to an understanding of government operations or activities. The disclosable portions of the requested records must be meaningfully informative on specific government operations or activities in order to hold potential for contributing to increase public understanding of those operations and activities. The disclosure of information that already is in the public domain, in either a duplicative or a substantially identical form, would not be likely to contribute to such understanding, as nothing new would be added to the public record.

(iii) The contribution to an understanding of the subject by the public likely to result from disclosure: Whether disclosure of the requested information will contribute to "public understanding." The disclosure must contribute to the understanding of the public at large, as opposed to the individual understanding of the requestor or a narrow segment of interested persons. A requestor's identity and qualifications—e.g., expertise in the subject area and ability and intention to effectively convey information to the general public—should be considered. It reasonably may be presumed that a representative of the news media (as defined in §1120.2(o)) who has access to the means of public dissemination readily will be able to satisfy this consideration. Requests from libraries or other record repositories (or requestors who intend merely to disseminate information to such institutions) shall be analyzed, like those of other requestors to identify a particular person who represents that he actually will use the requested information in scholarly or other analytic work and then disseminate it to the general public.

(iv) The significance of the contribution to public understanding: Whether the disclosure is likely to contribute "significantly" to public understanding of government operations or activities. The public's understanding of the subject matter in question, as compared to the level of public understanding existing prior to the disclosure, must be likely to be enhanced by the disclosure to a significant extent. Freedom of Information Officer shall not make separate value judgments as to whether information, even though it in fact would contribute significantly to public understanding of the operations or activities of the government, is "important" enough to be made public.

(3) In order to determine whether the second fee waiver requirement is met—i.e., that disclosure of the requested information is not primarily in the commercial interest of the requestor—the Freedom of Information Officer shall consider the following two factors in sequence:

(i) The existence and magnitude of a commercial interest: Whether the requestor has a commercial interest that would be furthered by the requested disclosure. The Freedom of Information Officer shall consider all commercial interests of the requester (with reference to the definition of "commercial use" in §1120.2(l)) or any person on whose behalf the requestor may be acting, but shall consider only those interests which would be furthered by the requested disclosure. In assessing the magnitude of identified commercial interests, consideration shall be given to the role that such FOIA-disclosed information plays with respect to those commercial interests, as well as to the extent to which FOIA disclosures serve those interests overall. Requestors shall be given a reasonable opportunity in the administrative process to provide information bearing upon this consideration.
(ii) The primary interest in disclosure: Whether the magnitude of the identified commercial interest of the requestor is sufficiently large, in comparison with the public interest in disclosure, that disclosure is “primarily in the commercial interest of the requestor.” A fee waiver or reduction is warranted only where, once the “public interest” standard set out in paragraph (e)(2) of this section is satisfied, that public interest can fairly be regarded as greater in magnitude than that of the requestor’s commercial interest in disclosure. The Freedom of Information Officer shall ordinarily presume that where a news media requestor has satisfied the “public interest” standard, that will be the interest primarily served by disclosure to that requestor. Disclosure to data brokers or others who compile and market government information for direct economic return shall not be presumed to primarily serve “public interest.”

(4) Where only a portion of the requested records satisfies both of the requirements for a waiver or reduction of fees under this paragraph, a waiver or reduction shall be granted only as to that portion.

(5) Requests for the waiver or reduction of fees shall address each of the factors listed in paragraphs (e)(2) and (3) of this section, as they apply to each record request. One hundred pages of reproduction shall be furnished without charge.

(6) A request for reduction or waiver of fees shall be addressed to the Freedom of Information Officer at the address shown in §1120.23. The ATBCB office which is responding to the request for records shall initially determine whether the fee shall be reduced or waived and shall so inform the requestor. The initial determination may be appealed by letter addressed to the address shown in §1120.23. The General Counsel or his or her designee shall decide such appeals.

§ 1121.2 Definitions.

For the purpose of these regulations—

(a) The term individual means a citizen of the United States or an alien lawfully admitted for permanent residence.

(b) The term maintain includes maintain, collect, use or disseminate.

(c) The term record means any item, collection or grouping of information about an individual that is maintained by the Board, including, but not limited to, his or her employment history, payroll information, and financial
§ 1121.3 Procedures for requests pertaining to individuals' records in a records system.

An individual or authorized representative shall submit a written request to the Administrative Officer of the ATBCB pursuant to §1121.3 shall present the request at the ATBCB offices, 330 C Street, SW., Room 1010, Washington, DC 20202, on any business day between the hours of 9 a.m. and 5:30 p.m. The individual or authorized representative submitting the request should present himself or herself at the ATBCB's offices with a form of identification which will permit the ATBCB to verify that the individual is the same individual as contained in the record requested. An authorized representative shall present a written document authorizing access. The document must be signed by the individual.

§ 1121.5 Access to requested information to the individual.

Upon verification of identity the Board shall disclose to the individual or authorized representative the information contained in the record which pertains to that individual. Nothing in this section shall allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding.

§ 1121.6 Request for correction or amendment to the record.

The individual or authorized representative should submit a request to the Administrative Officer which states the individual's desire to correct or to amend his or her record. This request is to be made in accord with provisions of §1121.4.

§ 1121.7 Agency review of request for correction or amendment of the record.

Within ten working days of the receipt of the request to correct or to amend the record, the Administrative Officer will acknowledge in writing such receipt and promptly either—

(a) Make any correction or amendment of any portion thereof which the individual believes is not accurate, relevant, timely, or complete; or

(b) Inform the individual or authorized representative of his or her refusal to correct or to amend the record in accordance with the request, the reason for the refusal and the procedures established by the Board for the individual to request a review of that refusal.

In any disclosure pursuant to §1121.10 containing information about which the individual has previously filed a statement of disagreement under §1121.8, the Board shall clearly note any portion of the record which is disputed and provide copies of the statement and, if the Executive Director deems it appropriate, copies of a concise statement of the reasons of the Executive Director for not making the amendments requested.

§ 1121.10 Disclosure of record to a person other than the individual to whom the record pertains.

The Board will not disclose a record to any individual or agency other than the individual to whom the record pertains, except to an authorized representative, unless the disclosure has been listed as a “routine use” in the Board’s notices of its systems of records, or falls within one of the special disclosure situations listed in the Privacy Act of 1974 (5 U.S.C. 552a(b)).

§ 1121.11 Accounting of disclosures.

(b) The Executive Director or his/her designee shall seek the cooperation of persons and agencies in obtaining compliance and shall provide assistance and guidance to help them comply voluntarily.

(c) Upon request of the Executive Director, interested agencies or persons, including, but not limited to, occupant agencies, recipients of assistance, and lessors, shall submit to the Executive Director or his/her designee timely, complete, and accurate reports concerning the particular complaint. Reports shall be completed at such times, and in such form containing all information as the Executive Director or his/her designee may prescribe.

(d) The Executive Director, or his/her designee, shall have access during normal business hours to books, records, accounts and other sources of information and facilities as may be pertinent to ascertain compliance. Considerations of privacy or confidentiality asserted by an agency or person may not bar the Executive Director from evaluating such materials or seeking to enforce compliance. The Executive Director may seek a protective order authorizing the use of allegedly confidential materials on terms and conditions specified by the judge.

(e) Complaints should be resolved informally and expeditiously, by the interested persons or agencies. If compliance with the applicable standards is not achieved informally or an impasse concerning the allegations of compliance or noncompliance is reached, the Executive Director will review the matter, including previous attempts by agencies to resolve the complaint, and take actions including, but not limited to, surveying and investigating buildings, monitoring compliance programs of agencies, furnishing technical assistance, such as standard interpretation, to agencies, and obtaining assurances, certifications, and plans of action as may be necessary to ensure compliance.

(f) All actions to informally resolve complaints under paragraphs (a) through (e) of this section shall be completed within one hundred eighty
(180) days after receipt of the complaint by all affected agencies and persons. A complaint shall be deemed informally resolved if the person or agencies responsible for the alleged violation either:

1. Demonstrates to the Executive Director that no violation has occurred, or
2. Corrects the violation, or
3. Agrees in writing to implement specific compliance action within a definite time agreed to by the Executive Director, or
4. Are timely implementing a plan for compliance agreed to by the Executive Director.

No later than ten (10) days after the determination of the one hundred eighty (180) day period, the Executive Director shall either issue a citation under §1150.42, or determine in writing that a citation will not be issued at that time and the reasons that it is considered unnecessary.

(g) A determination not to issue a citation shall be served in accordance with §1150.23 on all interested agencies and persons upon whom a citation would have been served if it had been issued. Except as otherwise provided in paragraph (i) of this section, the failure of the Executive Director to take action within the ten (10) day period after termination of the one hundred eighty (180) day informal resolution period shall not preclude the Executive Director from taking action thereafter.

(h) Nothing in paragraphs (a) through (g) of this section shall be construed as precluding the Executive Director before the termination of the one hundred eighty (180) day informal resolution period from:

1. Issuing a citation if it is reasonably clear that informal resolution cannot be achieved within that time, or
2. Determining not to issue a citation if it is reasonably clear that compliance can be achieved or that issuance of a citation is not otherwise warranted.

(i) At any time after the expiration of one hundred ninety (190) days after receipt of the complaint by all affected agencies and persons, any person or agency receiving a copy of the complaint, or the complainant, may serve a written request on the Executive Director to issue a citation or determination not to proceed within thirty (30) days. If the Executive Director fails to serve a written response within thirty (30) days of receipt of such a request, the complaint shall be deemed closed.

§1150.42 Citations.

(a) If there appears to be a failure or threatened failure to comply with a relevant standard, and the noncompliance or threatened noncompliance cannot be corrected or resolved by informal means under §1150.41, the Executive Director on behalf of the A&TBCB may issue a written citation, requesting the ordering of relief necessary to ensure compliance with the standards or guidelines and requirements. The relief may include the suspension or withholding of funds and/or specific corrective action.

(b) The citation shall be served upon all interested parties, as appropriate, including but not limited to the complainant, the agency having custody, control, or use of the building or facility, and the agency funding by contract, grant, or loan, the allegedly noncomplying building or facility.

(c) The citation shall contain:

1. A concise jurisdictional statement reciting the provisions of section 502 of the Rehabilitation Act and Architectural Barriers Act under which the requested action may be taken, (2) a short and plain basis for requesting the imposition of the sanctions, (3) a statement either that within fifteen (15) days a hearing date will be set or that the agency or affected parties may request a hearing within fifteen (15) days from service of the citation, and (4) a list of all pertinent documents necessary for the judge to make a decision on the alleged noncompliance, including but not limited to, contracts, invitations for bids, specifications, contract or grant drawings, and correspondence.

(d) The Executive Director shall file copies of all pertinent documents listed in the citation simultaneously with filing the citation.
§ 1150.43 Answers.

(a) Answers shall be filed by respondents within fifteen (15) days after receipt of a citation.

(b) The answer shall admit or deny specifically and in detail, matters set forth in each allegation of the citation. If the respondent is without knowledge, the answer shall so state and such statement shall be deemed a denial. Matters not specifically denied shall be deemed admitted. Failure to file a timely answer shall constitute an admission of all facts recited in the citation.

(c) Answers shall contain a list of additional pertinent documents not listed in the citation when respondent reasonably believes these documents are necessary for the judge to make a decision. Copies of the listed documents shall be filed with the answer.

(d) Answers may also contain a request for a hearing under §1150.45.

§ 1150.44 Amendments.

(a) The Executive Director may amend the citation as a matter of course before an answer is filed. A respondent may amend its answer once as a matter of course, but not later than five (5) days after the filing of the original answer. Other amendments of the citation or the answer shall be made only by leave of judge.

(b) An amended citation shall be answered within five (5) days of its service, or within the time for filing an answer to the original citation, whichever is longer.

§ 1150.45 Request for hearing.

When a citation does not state that a hearing will be scheduled, the respondent, either in a separate paragraph of the answer, or in a separate document, may request a hearing. Failure of a respondent to request a hearing within fifteen (15) days from service of the citation shall be deemed a waiver of the right to a hearing and shall constitute consent to the making of a decision on the basis of available information.

§ 1150.46 Motions.

(a) Motions and petitions shall state the relief sought, the authority relied upon, and the facts alleged.

(b) If made before or after the hearing, these matters shall be in writing. If made at the hearing, they may be stated orally or the judge may require that they be reduced to writing and filed and served on all parties.

(c) Except as otherwise ordered by judge, responses to a written motion or petition shall be filed within ten (10) days after the motion or petition is served. An immediate oral response may be made to an oral motion. All oral arguments on motions will be at the discretion of the judge.

(d) A reply to a response may be filed within five (5) days after the response is served. The reply shall address only the contents of the response.

§ 1150.47 Disposition of motions and petitions.

The judge may not sustain or grant a written motion or petition prior to expiration of the time for filing responses, but may overrule or deny such motion or petition without awaiting response. Provided however, that prehearing conferences, hearings, and decisions need not be delayed pending disposition of motions or petitions. All motions and petitions may be ruled upon immediately after reply. Motions and petitions not disposed of in separate rulings or in decisions will be deemed denied.

§ 1150.48 PER: Citation, answer, amendment.

(a) Unless otherwise specified, other relevant sections shall apply to PER proceedings.

(b) In addition to all other forms of relief requested, the citation shall request PER when it appears to the Executive Director that immediate and irreparable harm from noncompliance with the standard is occurring or is about to occur. Citations requesting PER shall recite specific facts and include the affidavit or the notarized complaint upon which the PER request is based. Citations requesting PER shall recite that a hearing regarding PER has been scheduled to take place eight (8) days after receipt of the citation. Citations requesting PER may be filed without prejudice to proceedings in which PER is not requested and
without prejudice to further proceedings if PER is denied. The time and place of hearing fixed in the citation shall be reasonable and shall be subject to change for cause.

(c) Answers to citations requesting PER shall be in the form of all answers, as set forth in §1150.43, and must be filed within four (4) days after receipt of the citation. Answers shall recite in detail, by affidavit or by notarized answer, why the PER requested should not be granted.

(d) When a citation contains both a request for relief to ensure compliance with a standard and a request for PER, an answer to the PER request shall be filed in accordance with paragraph (c) of this section and an answer to a request for other relief shall be filed in accordance with §1150.43.

(e) Citations and answers in PER proceedings may not be amended prior to hearing. Citations and answers in PER proceedings may be amended at the hearing with the permission of the judge.

(c) When testimony is taken by deposition, an opportunity shall be given, with appropriate notice, for all parties to cross-examine the witness. Objections to any testimony or evidence presented shall be deemed waived unless raised at the time of the deposition.

(d) Witnesses appearing before the judge shall be paid the same fees and mileage that are paid witnesses in the courts of the United States. Witnesses whose depositions are taken and the persons taking the same shall be entitled to the same fees as are paid for like services in the courts of the United States. Witness fees and mileage shall be paid by the party requesting the witness to appear, and the person taking a deposition shall be paid by the party requesting the taking of the deposition.

§ 1150.74 Exclusion of evidence.

The judge may exclude evidence which is immaterial, irrelevant, unreliable, or unduly repetitious.

§ 1150.75 Objections.

Objections to evidence or testimony shall be timely and may briefly state the grounds.

§ 1150.76 Exceptions.

Exceptions to rulings of the judge are unnecessary. It is sufficient that a party at the time the ruling of the judge is sought, makes known the action which he/she desires the judge to take, or his/her objection to an action taken, and his/her grounds for it.

§ 1150.77 Official notice.

Where official notice is taken or is to be taken of a material fact not appearing in the evidence of record, any party on timely request, shall be afforded an opportunity to question the propriety of taking notice or to rebut the fact noticed.

§ 1150.78 Public documents.

When a party or participant offers, in whole or in part, a public document, such as an official report, decision, opinion, or published scientific or economic statistical data issued by any of the executive departments, or their subdivisions, legislative agencies or committees or administrative agencies of the Federal government (including government-owned corporations), or a similar document issued by a State or local government or their agencies, and such document (or part thereof) has been shown by the offeror to be reasonably available to the public, such document need not be produced or marked for identification, but may be offered for official notice, as a public document by specifying the document or its relevant part.

§ 1150.79 Offer of proof.

An offer of proof made in connection with an objection taken to a ruling of the judge rejecting or excluding proffered oral testimony shall consist of a statement of the substance of the evidence which counsel contends would be adduced by such testimony. If the excluded evidence consists of evidence in documentary or written form or refers to documents or records, a copy of the evidence shall be marked for identification and shall accompany the record as the offer of proof.

§ 1150.80 Affidavits.

An affidavit is not inadmissible as such. Unless the judge fixes other time periods, affidavits shall be filed and served on the parties not later than fifteen (15) days prior to the hearing. Not less than seven (7) days prior to hearing, a party may file and serve written objections to any affidavit on the
§ 1150.81 Consolidated or joint hearing.

In cases in which the same or related facts are asserted to constitute non-compliance with standards or guidelines and requirements, the judge may order all related cases consolidated and may make other orders concerning the proceedings as will be consistent with the objective of securing a just and inexpensive determination of the case without unnecessary delay.

§ 1150.82 PER proceedings.

(a) In proceedings in which a citation, or part of one, seeking PER has been filed, the judge shall make necessary rulings with respect to time for filing of pleadings, the conduct of the hearing, and to all other matters. He/she shall do all other things necessary to complete the proceeding in the minimum time consistent with the objective of securing an expeditious, just and inexpensive determination of the case. The times for actions set forth in these rules shall be followed unless otherwise ordered by the judge.

(b) The judge shall determine the terms and conditions for orders of PER. These orders must be consistent with preserving the rights of all parties so as to permit the timely processing of the citation, or part of it, not requesting PER, as well as consistent with the provisions and objectives of the Architectural Barriers Act and section 502 of the Rehabilitation Act. In issuing an order for PER, the judge shall make the following specific findings of fact and conclusions of law—

(1) The Executive Director is likely to succeed on the merits of the proceedings;

(2) The threatened injury or violation outweighs the threatened harm to the respondent if PER is granted; and

(3) Granting PER is in the public interest.

(c) The judge may dismiss any citation or part of a citation seeking PER when the judge finds that the timely processing of a citation not requesting PER will adequately ensure the objectives of section 502 of the Rehabilitation Act and that immediate and irreparable harm caused by noncompliance with the standards or guidelines and requirements is not occurring or about to occur.

Subpart I—The Record

§ 1150.91 Record for decision.

The transcript of testimony, exhibits and all papers, documents and requests filed in the proceeding, including briefs and proposed findings and conclusions, shall constitute the record for decision.

§ 1150.92 Official transcript.

The official transcripts of testimony, and any exhibits, briefs, or memoranda of law filed with them, shall be filed with the judge. Transcripts of testimony in hearings may be obtained from the official reporter by the parties and the public at rates not to exceed the maximum rates fixed by the contract between the A&TBCB and the reporter. Upon notice to all parties, the judge may authorize corrections to the transcript as are necessary to reflect accurately the testimony.

Subpart J—Posthearing Procedures; Decisions

§ 1150.101 Posthearing briefs; proposed findings.

The judge shall fix the terms, including time, for filing post-hearing statements of position or briefs, which may contain proposed findings of fact and conclusions of law. § 1150.102 Decision.  
(a) The judge shall issue a decision within thirty (30) days after the hearing ends or, when the parties submit posthearing briefs, within thirty (30) days after the filing of the briefs.  
(b) The decision shall contain (1) all findings of fact and conclusions of law regarding all material issues of fact and law presented in the record, (2) the reasons for each finding of fact and conclusion of law, and (3) other provisions which effectuate the purposes of the Architectural Barriers Act and section 502 of the Rehabilitation Act. The decision may direct the parties to take specific action or may order the suspension or withholding of Federal funds.  
(c) The decision shall be served on all parties and participants to the proceedings.

§ 1150.103 Posthearing briefs, decision.  
(a) No briefs or posthearing statements of position shall be required in proceedings seeking PER unless specifically ordered by the judge.  
(b) In proceedings seeking PER the decision may be given orally at the close of the hearing and shall be made in writing within three (3) days after the hearing.

§ 1150.104 Judicial review.  
Any complainant or participant in a proceeding may obtain judicial review of a final order issued in a compliance proceeding.

§ 1150.105 Court enforcement.  
The Executive Director, at the direction of the Board, shall bring a civil action in any appropriate United States district court to enforce, in whole or in part, any final compliance order. No member of the A&TBCB shall participate in any decision of the A&TBCB concerning a proceeding relating to the member, his/her Federal agency, or organization to which he/she is a member or in which he/she is otherwise interested.

Subpart K—Miscellaneous Provisions

§ 1150.111 Ex parte communications.  
(a) No party, participant or other person having an interest in the case shall make or cause to be made an ex parte communication to the judge with respect to the case.  
(b) A request for information directed to the judge which merely inquires about the status of a proceeding without discussing issues or expressing points of view is not deemed an ex parte communication. Communications with respect to minor procedural matters or inquiries or emergency requests for extensions of time are not deemed ex parte communications prohibited by paragraph (a) of this section. Where feasible, however, such communications should be by letter, with copies delivered to all parties. Ex parte communications between a party or participant and the Executive Director with respect to securing compliance are not prohibited.  
(c) In the event an ex parte communication occurs, the judge shall issue orders and take action as fairness requires. If the prohibited communication is received orally, a memorandum setting forth its substance shall be made and filed in the correspondence section of the docket in the case. A person referred to in this memorandum may file a comment for inclusion in the docket if he/she considers the memorandum to be incorrect.

§ 1150.112 Post-order proceedings.  
(a) Any party adversely affected by the compliance order issued by a judge may make a motion to the judge to have such order vacated upon a showing that the building or facility complies with the order.  
(b) Notice of motions and copies of all pleadings shall be served on all parties and participants to the original proceeding. Responses to the motion to vacate shall be filed within ten (10) days after receipt of the motion unless
§ 1150.113  
the judge for good cause shown grants additional time to respond.  
(c) Oral arguments on the motion may be ordered by the judge. The judge shall fix the terms of the argument so that they are consistent with the objective of securing a prompt, just, and inexpensive determination of the motion.  
(d) Within ten (10) days after receipt of all answers to the motion, the judge shall issue his/her decision in accordance with § 1150.102 (b) and (c).

§ 1150.113 Amicable resolution.  
(a) Amicable resolution is encouraged at any stage of proceedings where such resolution is consistent with the provisions and objectives of the Architectural Barriers Act and section 502 of the Rehabilitation Act.  
(b) Agreements to amicably resolve pending proceedings shall be submitted by the parties and shall be accompanied by an appropriate proposed order.  
(c) The Executive Director is authorized to resolve any proceeding on behalf of the A&TBCB unless otherwise specifically directed by the A&TBCB and afterwards may file appropriate stipulations or notice that the proceeding is discontinued.

§ 1150.114 Effect of partial invalidity.  
If any section, subsection, paragraph, sentence, clause or phrase of these regulations is declared invalid for any reason, the remaining portions of these regulations that are severable from the invalid part shall remain in full force and effect. (vi) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.

(4) The agency may not, in determining the site or location of a facility, make selections the purpose or effect of which would—

§ 1154.140 Employment.

No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the agency. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally-conducted programs or activities.

§ 1154.149 Program accessibility: Discrimination prohibited.

Except as otherwise provided in § 1154.150, no qualified handicapped person shall, because the agency’s facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

§ 1154.150 Program accessibility: Existing facilities.

(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not—

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons; or

(2) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with § 1154.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his/her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

(b) Methods. The agency may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by handicapped persons. The agency is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified handicapped persons in the most integrated setting appropriate.

(c) Time period for compliance. The agency shall comply with the obligations established under this section by September 4, 1987 except that where structural changes in facilities are undertaken, such changes shall be made by July 6, 1990, but in any event as expeditiously as possible.

(d) Transition plan. In the event that structural changes to facilities will be undertaken to achieve program accessibility, the agency shall develop by January 6, 1988, a transition plan setting forth the steps necessary to complete such changes. The agency shall
provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(1) Identify physical obstacles in the agency’s facilities that limit the accessibility of its programs or activities to handicapped persons;
(2) Describe in detail the methods that will be used to make the facilities accessible;
(3) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and
(4) Indicate the official responsible for implementation of the plan.

§ 1154.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the agency shall be designed, constructed, or altered so as to be readily accessible to and usable by handicapped persons. If an action required to comply with this section would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons

Note 2 to Paragraph (a): 2. The Department of Justice adopted the 2010 ADA Standards for Accessible Design (2010 Standards) as the regulatory standards for new construction and alteration of facilities subject to its ADA regulations until adopted by the Department of Justice. Therefore, the public is cautioned not to use Appendices B and D to this part published in any edition of the Code of Federal Regulations after 2013, until such time as the later edition is adopted by the Department of Justice as a regulatory standard. Complete copies of the 2010 Standards can be obtained from the Department of Justice’s ADA Web site at http://www.ada.gov/2010ADAsstandards/index.htm, or by contacting the DOJ Information Line, at: 800–514–0301 (Voice) or 800–514–0383 (TTY).

Note 3 to Paragraph (a): 1. The Department of Transportation has adopted by reference Appendices B and D to this part with modifications as the regulatory standards for the construction and alteration of transportation facilities subject to its regulations under the Americans with Disabilities Act, effective November 29, 2006. 49 CFR 37.9 and Appendix A to 49 CFR part 37, as amended at 71 FR 65263, October 30, 2006; and corrected at 72 FR 11089, March 12, 2007. (b) The accessibility guidelines for buildings and facilities covered by the Architectural Barriers Act are set forth in Appendices C and D to this part. The guidelines serve as the basis for accessibility standards adopted by the General Services Administration, the Department of Defense, the Department of Housing and Urban Development, and the United States Postal Service under the Architectural Barriers Act.

Note 1 to Paragraph (b): 1. Advisory sections and figures that illustrate the technical requirements in Appendix D are available on the Internet at: www.access-board.gov. The advisory sections provide guidance only and do not contain mandatory requirements.

Note 2 to Paragraph (b): 1. The General Services Administration has adopted by reference Appendices C and D to this part as the regulatory standards for buildings and facilities subject to its regulations under the Architectural Barriers Act. 41 CFR 102–76.65, as added at 70 FR 67786, November 8, 2005; amended at 71 FR 52486, September 6, 2006;
and further amended at 72 FR 5942, February 8, 2007. The General Services Administration refers to its regulatory standards as the Architectural Barriers Act Accessibility Standard (ABAAS). ABAAS applies to the construction and alteration of facilities commenced after May 8, 2006; to leases awarded for lease construction buildings on or after June 30, 2006; and to all other leases awarded pursuant to solicitations issued after February 6, 2007. Section 3.5 of the Facilities Standards for the Public Building Service PBS—P100 (March 2005) [available on the Internet at: http://www.gsa.gov/P100] establishes an additional requirement for General Services Administration owned buildings and lease construction with government option to purchase buildings to provide at least one automatic or power-assisted door complying with section 404.3 of ABAAS at each new or altered accessible entrance required by section F206.4.1 of ABAAS.

NOTE 3 TO PARAGRAPH (b): 2. The United States Postal Service has adopted by reference Appendices C and D to this part, with the exception of the advisory notes, as the regulatory standards for its postal facilities subject to the Architectural Barriers Act, effective October 1, 2005. 39 CFR 254.1, as added at 70 FR 28213, May 17, 2005.

The requirements are to be applied during the design, construction, additions to, and alteration of sites, facilities, buildings, and elements to the extent required by regulations issued by Federal agencies under the Americans with Disabilities Act of 1990 (ADA).

101.2 Effect on Removal of Barriers in Existing Facilities. This document does not address existing facilities unless altered at the discretion of a covered entity. The Department of Justice has authority over existing facilities that are subject to the requirement for removal of barriers under title III of the ADA. Any determination that this document applies to existing facilities subject to the barrier removal requirement is solely within the discretion of the Department of Justice and is effective only to the extent required by regulations issued by the Department of Justice.

104.1.1 Construction and Manufacturing Tolerances. All dimensions are subject to conventional industry tolerances except where the requirement is stated as a range with specific minimum and maximum end points.

104.2 Calculation of Percentages. Where the required number of elements or facilities to be provided is determined by calculations of ratios or percentages and remainders or fractions result, the next greater whole number of such elements or facilities shall be provided. Where the determination of the required size or dimension of an element or facility involves ratios or percentages, rounding down for values less than one half shall be permitted.

105 REFERENCED STANDARDS

105.1 General. The standards listed in 105.2 are incorporated by reference in this document and are part of the requirements to the prescribed extent of each such reference. The Director of the Federal Register has approved these standards for incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. The Department of Transportation has modified section 206.3 in Appendix B to this part; and sections 406, 810.2.2, and 810.5.3 in Appendix D to this part. The modified sections adopted by the Department of Transportation are reprinted in this appendix. Entities that are required to comply with the Department of Transportation’s regulatory standards, must comply with modified sections adopted by the Department of Transportation that are reprinted in this appendix. The Department of Transportation has provided supplemental information on the modified sections in Appendix D to 49 CFR part 37.

MODIFICATION TO 206.3 OF APPENDIX B

206.3 Location. Accessible routes shall coincide with, or be located in the same area as general circulation paths. Where circulation paths are interior, required accessible routes shall also be interior. Elements such as ramps, elevators, or other circulation devices, fare vending or other ticketing areas, and fare collection areas shall be placed to minimize the distance which wheelchair users and other persons who cannot negotiate steps may have to travel compared to the general public.

MODIFICATION TO 406 OF APPENDIX D

406.8 Detectable Warnings. A curb ramp shall have a detectable warning complying with 705. The detectable warning shall extend the full width of the curb ramp (exclusive of flared sides) and shall extend either
the full depth of the curb ramp or 24 inches (610 mm) deep minimum measured from the back of the curb on the ramp surface.

**Modification to 810.2.2 of Appendix D**

810.2.2 Dimensions. Bus boarding and alighting areas shall provide a clear length of 96 inches (2440 mm), measured perpendicular to the curb or vehicle roadway edge, and a clear width of 60 inches (1525 mm), measured parallel to the vehicle roadway. Public entities shall ensure that the construction of bus boarding and alighting areas comply with 810.2.2, to the extent the construction specifications are within their control.

**Modification to 810.5.3 of Appendix D**

810.5.3 Platform and Vehicle Floor Coordination. Station platforms shall be positioned to coordinate with vehicles in accordance with the applicable requirements of 36 CFR part 1192. Low-level platforms shall be 8 inches (205 mm) minimum above the top of rail. In light rail, commuter rail, and intercity rail systems where it is not operationally or structurally feasible to meet the horizontal gap or vertical difference requirements of part 1192 or 49 CFR part 38, mini-high platforms, car-borne or platform-mounted lifts, ramps or bridge plates or similarly manually deployed devices, meeting the requirements of 49 CFR part 38, shall suffice.

Exception: Where vehicles are boarded from sidewalks or street-level, low-level platforms shall be permitted to be less than 8 inches (205 mm).

§ 1192.3 Definitions.

Accessible means, with respect to vehicles covered by this part, compliance with the provisions of this part.

Automated guideway transit (AGT) system means a fixed-guideway transportation system which operates with automated (driverless) individual vehicles or multi-car trains. Service may be on a fixed schedule or in response to a passenger-activated call button. Such systems using small, slow moving vehicles, often operated in airports and amusement parks, are sometimes called people movers.

Bus means any of several types of self-propelled vehicles, other than an over-the-road bus, generally rubber tired, intended for use on city streets, highways, and busways, including but not limited to minibuses, forty- and thirty-foot transit buses, articulated buses, double-deck buses, and electric powered trolley buses, used to provide designated or specified public transportation services. Self-propelled, rubber tire vehicles designed to look like antique or vintage trolleys or streetcars are considered buses.

Common wheelchairs and mobility aids means belonging to a class of three or four wheeled devices, usable indoors, designed for and used by persons with mobility impairments which do not exceed 30 inches in width and 48 inches in length, measured 2 inches above the ground, and do not weigh more than 600 pounds when occupied.

Commuter rail car means a rail passenger car obtained by a commuter authority (as defined by 49 CFR 37.3) for use in commuter rail transportation.

Commuter rail transportation means short-haul rail passenger service operating in metropolitan and suburban areas, operated by a commuter authority, whether within or across the geographical boundaries of a state, usually characterized by reduced fare, multiple ride, and commutation tickets and by morning and evening peak period operations. This term does not include light or rapid rail transportation.

Demand responsive system means any system of transporting individuals, including the provision of designated public transportation service by public entities and the provision of transportation service by private entities, including but not limited to specified public transportation service, which is not a fixed route system.

Designated public transportation means transportation provided by a public entity (other than public school transportation) by bus, rail, or other conveyance (other than transportation by aircraft or intercity or commuter rail transportation) that provides the general public with general or special service, including charter service, on a regular and continuing basis.

Fixed route system means a system of transporting individuals (other than by aircraft), including the provision of designated public transportation service by public entities and the provision

(a) Dimensional conventions. Dimensions that are not noted as minimum or maximum are absolute.

(b) Dimensional tolerances. All dimensions are subject to conventional engineering tolerances for material properties and field conditions, including normal anticipated wear not exceeding accepted industry-wide standards and practices.

(c) Notes. The text of these guidelines does not contain notes or footnotes. Additional information, explanations, and advisory materials are located in the appendix.

(d) General terminology. The terms used in this part shall have the following meanings:

(1) Comply with means meet one or more specification of these guidelines.

(2) If or if * * * then denotes a specification that applies only when the conditions described are present.

(3) May denotes an option or alternative.

(4) Shall denotes a mandatory specification or requirement.

(5) Should denotes an advisory specification or recommendation and is used only in the appendix to this part.

Subpart B—Buses, Vans and Systems

§ 1192.21 General.

(a) New, used or remanufactured buses and vans (except over-the-road buses covered by subpart G of this part), to be considered accessible by regulations issued by the Department of Transportation in 49 CFR part 37, shall comply with the applicable provisions of this subpart.

(b) If portions of the vehicle are modified in a way that affects or could affect accessibility, each such portion shall comply, to the extent practicable,
Architectural and Transp. Barriers Compliance Board § 1192.23

with the applicable provisions of this subpart. This provision does not re-

quire that inaccessible buses be retro-

fitted with lifts, ramps or other board-

ing devices.

§ 1192.23 Mobility aid accessibility.

(a) General. All vehicles covered by

this subpart shall provide a level-

change mechanism or boarding device
(e.g., lift or ramp) complying with

paragraph (b) or (c) of this section and

sufficient clearances to permit a wheel-

chair or other mobility aid user to

reach a securement location. At least

two securement locations and devices,

complying with paragraph (d) of this

section, shall be provided on vehicles

in excess of 22 feet in length; at least

one securement location and device,

complying with paragraph (d) of this

section, shall be provided on vehicles 22

feet in length or less.

(b) Vehicle lift—(1) Design load. The

design load of the lift shall be at least

600 pounds. Working parts, such as ca-

bles, pulleys, and shafts, which can be

expected to wear, and upon which the

lift depends for support of the load,

shall have a safety factor of at least six,

based on the ultimate strength of the

material. Nonworking parts, such as

platform, frame, and attachment

hardware which would not be expected

to wear, shall have a safety factor of at

least three, based on the ultimate

strength of the material.

(ii) Controls—(i) Requirements. The

controls shall be interlocked with the

vehicle brakes, transmission, or door,

or shall provide other appropriate

mechanisms or systems, to ensure that

the vehicle cannot be moved when the

lift is not stowed and so the lift cannot

be deployed unless the interlocks or

systems are engaged. The lift shall de-

ploy to all levels (i.e., ground, curb,

and intermediate positions) normally

encountered in the operating environ-

ment. Where provided, each control for

deploying, lowering, raising, and stow-

ing the lift and lowering the roll-off

barrier shall be of a momentary con-
tact type requiring continuous manual

pressure by the operator and shall not

allow improper lift sequencing when

the lift platform is occupied. The con-
trols shall allow reversal of the lift op-
eration sequence, such as raising or

lowering a platform that is part way

down, without allowing an occupied

platform to fold or retract into the

stowed position.

(ii) Exception. Where the lift is de-

signed to deploy with its long dimen-
sion parallel to the vehicle axis and

which pivots into or out of the vehicle

while occupied (i.e., rotary lift), the re-

quirements of this paragraph prohib-

iting the lift from being stowed while

occupied shall not apply if the stowed

position is within the passenger com-

partment and the lift is intended to be

stowed while occupied.

(3) Emergency operation. The lift shall

incorporate an emergency method of

deploying, lowering to ground level

with a lift occupant, and raising and

stowing the empty lift if the power to

the lift fails. No emergency method,

manual or otherwise, shall be capable

of being operated in a manner that

could be hazardous to the lift occupant

or to the operator when operated ac-

cording to manufacturer’s instructions,

and shall not permit the platform to be

stowed or folded when occupied, unless

the lift is a rotary lift and is intended

to be stowed while occupied.

(4) Power or equipment failure. Plat-

forms stowed in a vertical position, and

deployed platforms when occupied,

shall have provisions to prevent their

deploying, falling, or folding any faster

than 12 inches/second or their dropping

of an occupant in the event of a single

failure of any load carrying compo-

nent.

(2) Controls—(i) Requirements. The

controls shall be interlocked with the

vehicle brakes, transmission, or door,

or shall provide other appropriate

mechanisms or systems, to ensure that

the vehicle cannot be moved when the

lift is not stowed and so the lift cannot

be deployed unless the interlocks or

systems are engaged. The lift shall de-

ploy to all levels (i.e., ground, curb,

and intermediate positions) normally

encountered in the operating environ-

ment. Where provided, each control for

deploying, lowering, raising, and stow-

ing the lift and lowering the roll-off

barrier shall be of a momentary con-
tact type requiring continuous manual

pressure by the operator and shall not

allow improper lift sequencing when

the lift platform is occupied. The con-
trols shall allow reversal of the lift op-
eration sequence, such as raising or

lowering a platform that is part way
down, without allowing an occupied

platform to fold or retract into the

stowed position.

(ii) Exception. Where the lift is de-

signed to deploy with its long dimen-
sion parallel to the vehicle axis and

which pivots into or out of the vehicle

while occupied (i.e., rotary lift), the re-

quirements of this paragraph prohib-

iting the lift from being stowed while

occupied shall not apply if the stowed

position is within the passenger com-

partment and the lift is intended to be

stowed while occupied.

(3) Emergency operation. The lift shall

incorporate an emergency method of

deploying, lowering to ground level

with a lift occupant, and raising and

stowing the empty lift if the power to

the lift fails. No emergency method,

manual or otherwise, shall be capable

of being operated in a manner that

could be hazardous to the lift occupant

or to the operator when operated ac-

cording to manufacturer’s instructions,

and shall not permit the platform to be

stowed or folded when occupied, unless

the lift is a rotary lift and is intended
to be stowed while occupied.

(4) Power or equipment failure. Plat-

forms stowed in a vertical position, and

deployed platforms when occupied,

shall have provisions to prevent their

deploying, falling, or folding any faster

than 12 inches/second or their dropping

of an occupant in the event of a single

failure of any load carrying compo-

nent.

(5) Platform barriers. The lift platform

shall be equipped with barriers to pre-

vent any of the wheels of a wheelchair

or mobility aid from rolling off the

platform during its operation. A mov-

able barrier or inherent design feature

shall prevent a wheelchair or mobility

aid from rolling off the edge closest to

the vehicle until the platform is in its

fully raised position. Each side of the

lift platform which extends beyond the

vehicle in its raised position shall have

a barrier a minimum 1½ inches high.

Such barriers shall not interfere with

maneuvering into or out of the aisle.

The loading-edge barrier (outer bar-

rier) which functions as a loading ramp

when the lift is at ground level, shall

be sufficient when raised or closed, or a
§ 1192.23 

The platform surface shall be free of any protrusions over 1/4 inch high and shall be slip resistant. The platform shall have a minimum clear width of 28 1/2 inches at the platform, a minimum clear width of 30 inches measured from 2 inches above the platform surface to 30 inches above the platform, and a minimum clear length of 48 inches measured from 2 inches above the surface of the platform to 30 inches above the surface of the platform. (See Fig. 1) 

(7) Platform gaps. Any openings between the platform surface and the raised barriers shall not exceed 5/8 inch in width. When the platform is at vehicle floor height with the inner barrier (if applicable) down or retracted, gaps between the forward lift platform edge and the vehicle floor shall not exceed 1/2 inch horizontally and 5/8 inch vertically. Platforms on semi-automatic lifts may have a hand hold not exceeding 1 1/2 inches by 4 1/2 inches located between the edge barriers. 

(8) Platform entrance ramp. The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:8, measured on level ground, for a maximum rise of 3 inches, and the transition from roadway or sidewalk to ramp may be vertical without edge treatment up to 1/4 inch. Thresholds between 1/4 inch and 1/2 inch high shall be beveled with a slope no greater than 1:2. 

(9) Platform deflection. The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of vehicle roll or pitch) in any direction between its unloaded position and its position when loaded with 600 pounds applied through a 26 inch by 26 inch test pallet at the centroid of the platform. 

(10) Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second during lowering and lifting an occupant, and shall not exceed 12 inches/second during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g. 

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchair and mobility aid users. 

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The platform may be marked to indicate a preferred standing position. 

(13) Handrails. Platforms on lifts shall be equipped with handrails on two sides, which move in tandem with the lift, and which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches long with the lowest portion a minimum 30 inches above the platform and the highest portion a maximum 80 inches above the platform. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1 1/4 inches and 1 1/2 inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than 1/8 inch. Handrails shall be placed to provide a minimum 1 1/2 inches knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle. 

(c) Vehicle ramp—(1) Design load. Ramps 30 inches or longer shall support a load of 600 pounds, placed at the centroid of the ramp distributed over an area of 26 inches by 26 inches, with a safety factor of at least 3 based on the
ultimate strength of the material. Ramps shorter than 30 inches shall support a load of 300 pounds.

(2) **Ramp surface.** The ramp surface shall be continuous and slip resistant; shall not have protrusions from the surface greater than \( \frac{1}{4} \) inch high; shall have a clear width of 30 inches; and shall accommodate both four-wheel and three-wheel mobility aids.

(3) **Ramp threshold.** The transition from roadway or sidewalk and the transition from vehicle floor to the ramp may be vertical without edge treatment up to \( \frac{1}{4} \) inch. Changes in level between \( \frac{1}{4} \) inch and \( \frac{1}{2} \) inch shall be beveled with a slope no greater than 1:2.

(4) **Ramp barriers.** Each side of the ramp shall have barriers at least 2 inches high to prevent mobility aid wheels from slipping off.

(5) **Slope.** Ramps shall have the least slope practicable and shall not exceed 1:4 when deployed to ground level. If the height of the vehicle floor from which the ramp is deployed is 3 inches or less above a 6-inch curb, a maximum slope of 1:4 is permitted; if the height of the vehicle floor from which the ramp is deployed is 6 inches or less, but greater than 3 inches, above a 6-inch curb, a maximum slope of 1:6 is permitted; if the height of the vehicle floor from which the ramp is deployed is 9 inches or less, but greater than 6 inches, above a 6-inch curb, a maximum slope of 1:8 is permitted; if the height of the vehicle floor from which the ramp is deployed is greater than 9 inches above a 6-inch curb, a slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) **Attachment.** When in use for boarding or alighting, the ramp shall be firmly attached to the vehicle so that it is not subject to displacement when loading or unloading a heavy power mobility aid and that no gap between vehicle and ramp exceeds \( \frac{1}{4} \) inch.

(7) **Stowage.** A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps, including portable ramps stowed in the passenger area, do not impinge on a passenger’s wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop or maneuver.

(8) **Handrails.** If provided, handrails shall allow persons with disabilities to grasp them from outside the vehicle while starting to board, and to continue to use them throughout the boarding process, and shall have the top between 30 inches and 38 inches above the ramp surface. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between \( \frac{1}{2} \) inches and \( \frac{1}{2} \) inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than \( \frac{1}{8} \) inch. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

(d) **Securement devices—(1) Design load.** Securement systems on vehicles with GVWRs of 30,000 pounds or above, and their attachments to such vehicles, shall restrain a force in the forward longitudinal direction of up to 2,000 pounds per securement leg or clamping mechanism and a minimum of 4,000 pounds for each mobility aid. Securement systems on vehicles with GVWRs of up to 30,000 pounds, and their attachments to such vehicles, shall restrain a force in the forward longitudinal direction of up to 2,500 pounds per securement leg or clamping mechanism and a minimum of 5,000 pounds for each mobility aid.

(2) **Location and size.** The securement system shall be placed as near to the accessible entrance as practicable and shall have a clear floor area of 30 inches by 48 inches. Such space shall adjoin, and may overlap, an access path. Not more than 6 inches of the required clear floor space may be accommodated for footrests under another seat provided there is a minimum of 9 inches from the floor to the lowest part of the seat overhanging the space. Securement areas may have fold-down seats to accommodate other passengers when a wheelchair or mobility aid is not occupying the area, provided the seats, when folded up, do not obstruct the clear floor space required. (See Fig. 2)
§ 1192.25 Mobility aids accommodated. The securement system shall secure common wheelchairs and mobility aids and shall either be automatic or easily attached by a person familiar with the system and mobility aid and having average dexterity.

(4) Orientation. In vehicles in excess of 22 feet in length, at least one securement device or system required by paragraph (a) of this section shall secure the wheelchair or mobility aid facing toward the front of the vehicle. In vehicles 22 feet in length or less, the required securement device may secure the wheelchair or mobility aid either facing toward the front of the vehicle or rearward. Additional securement devices or systems shall secure the wheelchair or mobility aid facing forward or rearward. Where the wheelchair or mobility aid is secured facing the rear of the vehicle, a padded barrier shall be provided. The padded barrier shall extend from a height of 38 inches from the vehicle floor to a height of 56 inches from the vehicle floor with a width of 18 inches, laterally centered immediately in back of the seated individual. Such barriers need not be solid provided equivalent protection is afforded.

(5) Movement. When the wheelchair or mobility aid is secured in accordance with manufacturer’s instructions, the securement system shall limit the movement of an occupied wheelchair or mobility aid to no more than 2 inches in any direction under normal vehicle operating conditions.

(6) Stowage. When not being used for securement, or when the securement area can be used by standees, the securement system shall not interfere with passenger movement, shall not present any hazardous condition, shall be reasonably protected from vandalism, and shall be readily accessed when needed for use.

(7) Seat belt and shoulder harness. For each wheelchair or mobility aid securement device provided, a passenger seat belt and shoulder harness, complying with all applicable provisions of 49 CFR part 571, shall also be provided for use by wheelchair or mobility aid users. Such seat belts and shoulder harnesses shall not be used in lieu of a device which secures the wheelchair or mobility aid itself.

§ 1192.25 Doors, steps and thresholds.

(a) Slip resistance. All aisles, steps, floor areas where people walk and floors in securement locations shall have slip-resistant surfaces.

(b) Contrast. All step edges, thresholds, and the boarding edge of ramps or lift platforms shall have a band of color(s) running the full width of the step or edge which contrasts from the step tread and riser, or lift or ramp surface, either light-on-dark or dark-on-light.

(c) Door height. For vehicles in excess of 22 feet in length, the overhead clearance between the top of the door opening and the raised lift platform, or highest point of a ramp, shall be a minimum of 68 inches. For vehicles of 22 feet in length or less, the overhead clearance between the top of the door opening and the raised lift platform, or highest point of a ramp, shall be a minimum of 56 inches.

§ 1192.27 Priority seating signs.

(a) Each vehicle shall contain sign(s) which indicate that seats in the front of the vehicle are priority seats for persons with disabilities, and that other passengers should make such seats available to those who wish to use them. At least one set of forward-facing seats shall be so designated.

(b) Each securement location shall have a sign designating it as such.

(c) Characters on signs required by paragraphs (a) and (b) of this section shall have a width-to-height ratio between 3:5 and 1:1 and a stroke width-to-height ratio between 1:5 and 1:10, with a minimum character height (using an upper case “X”) of 5/8 inch, with “wide” spacing (generally, the space between letters shall be 1/16 the height of upper case letters), and shall contrast with the background either light-on-dark or dark-on-light.

§ 1192.29 Interior circulation, handrails and stanchions.

(a) Interior handrails and stanchions shall permit sufficient turning and maneuvering space for wheelchairs and other mobility aids to reach a securement location from the lift or ramp.
(b) Handrails and stanchions shall be provided in the entrance to the vehicle in a configuration which allows persons with disabilities to grasp such assists from outside the vehicle while starting to board, and to continue using such assists throughout the boarding and fare collection process. Handrails shall have a cross-sectional diameter between 1 1/4 inches and 1 1/2 inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than 1/8 inch. Handrails shall be placed to provide a minimum 1 1/2 inches knuckle clearance from the nearest adjacent surface. Where onboard fare collection devices are used on vehicles in excess of 22 feet in length, a horizontal passenger assist shall be located across the front of the vehicle and shall prevent passengers from sustaining injuries on the fare collection device or windshield in the event of a sudden deceleration. Without restricting the vestibule space, the assist shall provide support for a boarding passenger from the front door through the boarding procedure. Passengers shall be able to lean against the assist for security while paying fares.

c) For vehicles in excess of 22 feet in length, overhead handrail(s) shall be provided which shall be continuous except for a gap at the rear doorway.

d) Handrails and stanchions shall be sufficient to permit safe boarding, onboard circulation, seating and standing assistance, and alighting by persons with disabilities.

e) For vehicles in excess of 22 feet in length with front-door lifts or ramps, vertical stanchions immediately behind the driver shall either terminate at the lower edge of the aisle-facing seats, if applicable, or be “dog-legged” so that the floor attachment does not impede or interfere with wheelchair footrests. If the driver seat platform must be passed by a wheelchair or mobility aid user entering the vehicle, the platform, to the maximum extent practicable, shall not extend into the aisle or vestibule beyond the wheel housing.

(f) For vehicles in excess of 22 feet in length, the minimum interior height along the path from the lift to the securement location shall be 68 inches. For vehicles of 22 feet in length or less, the minimum interior height from lift to securement location shall be 56 inches.

§ 1192.37 Stop request.

(a) Where passengers may board or alight at multiple stops at their option, vehicles in excess of 22 feet in length shall provide controls adjacent to the securement location for requesting stops and which alerts the driver that a mobility aid user wishes to disembark. Such a system shall provide
auditory and visual indications that the request has been made.

(b) Controls required by paragraph (a) of this section shall be mounted no higher than 48 inches and no lower than 15 inches above the floor, shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist. The force required to activate controls shall be no greater than 5 lbf (22.2 N).

§ 1192.39 Destination and route signs.

(a) Where destination or route information is displayed on the exterior of a vehicle, each vehicle shall have illuminated signs on the front and boarding side of the vehicle.

(b) Characters on signs required by paragraph (a) of this section shall have a width-to-height ratio between 3:5 and 1:1 and a stroke width-to-height ratio between 1:5 and 1:10, with a minimum character height (using an upper case 'X') of 1 inch for signs on the boarding side and a minimum character height of 2 inches for front "headsigns", with "wide" spacing (generally, the space between letters shall be 1/16 the height of upper case letters), and shall contrast with the background, either dark-on-light or light-on-dark.

Subpart C—Rapid Rail Vehicles and Systems

§ 1192.51 General.

(a) New, used and remanufactured rapid rail vehicles, to be considered accessible by regulations issued by the Department of Transportation in 49 CFR part 37, shall comply with this subpart.

(b) If portions of the vehicle are modified in a way that affects or could affect accessibility, each such portion shall comply, to the extent practicable, with the applicable provisions of this subpart. This provision does not require that inaccessible vehicles be retrofitted with lifts, ramps or other boarding devices.

(c) Existing vehicles which are retrofitted to comply with the "one-car-per-train rule" of 49 CFR 37.93 shall comply with §§1192.55, 1192.57(b), 1192.59 and shall have, in new and key stations, at least one door complying with §1192.53(a)(1), (b) and (d). Removal of seats is not required. Vehicles previously designed and manufactured in accordance with the accessibility requirements of 49 CFR part 609 or Department of Transportation regulations implementing section 504 of the Rehabilitation Act of 1973 that were in effect before October 7, 1991, and which can be entered and used from stations in which they are to be operated, may be used to satisfy the requirements of 49 CFR 37.93.
least one door of each such vehicle and the platform shall be no greater than 3 inches.

(3) Exception. Retrofitted vehicles shall be coordinated with the platform in new and key stations such that the horizontal gap shall be no greater than 4 inches and the height of the vehicle floor, under 50% passenger load, shall be within plus or minus 2 inches of the platform height.

§ 1192.55 Priority seating signs.

(a) Each vehicle shall contain sign(s) which indicate that certain seats are priority seats for persons with disabilities, and that other passengers should make such seats available to those who wish to use them.

(b) Characters on signs required by paragraph (a) of this section shall have a width-to-height ratio between 3:5 and 1:1 and a stroke width-to-height ratio between 1:5 and 1:10, with a minimum character height (using an upper case “X”) of 3/8 inch, with “Wide” spacing (generally, the space between letters shall be 1/5 the height of upper case letters), and shall contrast with the background, either light-on-dark or dark-on-light.

§ 1192.57 Interior circulation, handrails and stanchions.

(a) Handrails and stanchions shall be provided to assist safe boarding, on-board circulation, seating and standing assistance, and alighting by persons with disabilities.

(b) Handrails, stanchions, and seats shall allow a route at least 32 inches wide so that at least two wheelchair or mobility aid users can enter the vehicle and position the wheelchairs or mobility aids in areas, each having a minimum clear space of 48 inches by 30 inches, which do not unduly restrict movement of other passengers. Space to accommodate wheelchairs and mobility aids may be provided within the normal area used by standees and designation of specific spaces is not required. Particular attention shall be given to ensuring maximum maneuverability immediately inside doors. Ample vertical stanchions from ceiling to seat-back rails shall be provided. Vertical stanchions from ceiling to floor shall not interfere with wheelchair or mobility aid user circulation and shall be kept to a minimum in the vicinity of doors.

(c) The diameter or width of the gripping surface of handrails and stanchions shall be 1 1/4 inches to 1 1/2 inches or provide an equivalent gripping surface and shall provide a minimum 1 1/2 inches knuckle clearance from the nearest adjacent surface.

§ 1192.59 Floor surfaces.

Floor surfaces on aisles, places for standees, and areas where wheelchair and mobility aid users are to be accommodated shall be slip-resistant.

§ 1192.61 Public information system.

(a)(1) Requirements. Each vehicle shall be equipped with a public address system permitting transportation system personnel, or recorded or digitized human speech messages, to announce stations and provide other passenger information. Alternative systems or devices which provide equivalent access are also permitted. Each vehicle operating in stations having more than one line or route shall have an external public address system to permit transportation system personnel, or recorded or digitized human speech messages, to announce train, route, or line identification information.

(2) Exception. Where station announcement systems provide information on arriving trains, an external train speaker is not required.

(b) [Reserved]

§ 1192.63 Between-car barriers.

(a) Requirement. Suitable devices or systems shall be provided to prevent, deter or warn individuals from inadvertently stepping off the platform between cars. Acceptable solutions include, but are not limited to, pantograph gates, chains, motion detectors or similar devices.

(b) Exception. Between-car barriers are not required where platform screens are provided which close off the platform edge and open only when trains are correctly aligned with the doors.
§ 1192.71

Subpart D—Light Rail Vehicles and Systems

§ 1192.71 General.

(a) New, used and remanufactured light rail vehicles, to be considered accessible by regulations issued by the Department of Transportation in 49 CFR part 37, shall comply with this subpart.

(b)(1) Vehicles intended to be operated solely in light rail systems confined entirely to a dedicated right-of-way, and for which all stations or stops are designed and constructed for revenue service after the effective date of standards for design and construction issued pursuant to subpart C of 49 CFR part 37, shall provide level boarding and shall comply with §§ 1192.73(d)(1) and 1192.85.

(2) Vehicles designed for, and operated on, pedestrian malls, city streets, or other areas where level boarding is not practicable shall provide wayside or car-borne lifts, mini-high platforms, or other means of access in compliance with § 1192.83(b) or (c).

(c) If portions of the vehicle are modified in a way that affects or could affect accessibility, each such portion shall comply, to the extent practicable, with the applicable provisions of this subpart. This provision does not require that inaccessible vehicles be retrofitted with lifts, ramps or other boarding devices.

(d) Existing vehicles retrofitted to comply with the ‘‘one-car-per-train rule’’ at 49 CFR 37.93 shall comply with §§ 1192.75, 1192.77(c), 1192.79(a) and 1192.83(a) and shall have, in new and key stations, at least one door which complies with §1192.73(a)(1), (b) and (d). Vehicles previously designed and manufactured in accordance with the accessibility requirements of 49 CFR part 609 or Department of Transportation regulations implementing section 504 of the Rehabilitation Act of 1973 that were in effect before October 7, 1991, and which can be entered and used from stations in which they are to be operated, may be used to satisfy the requirements of 49 CFR 37.93.

§ 1192.73 Doorways.

(a) Clear width. (1) All passenger doorways on vehicle sides shall have minimum clear openings of 32 inches when open.

(2) If doorways connecting adjoining cars in a multi-car train are provided, and if such doorway is connected by an aisle with a minimum clear width of 30 inches to one or more spaces where wheelchair or mobility aid users can be accommodated, then such doorway shall have a minimum clear opening of 30 inches to permit wheelchair and mobility aid users to be evacuated to an adjoining vehicle in an emergency.

(b) Signage. The International Symbol of Accessibility shall be displayed on the exterior of each vehicle operating on an accessible light rail system unless all vehicles are accessible and are not marked by the access symbol (See Fig. 6).

(c) Signals. Auditory and visual warning signals shall be provided to alert passengers of closing doors.

(d) Coordination with boarding platform—(1) Requirements. The design of level-entry vehicles shall be coordinated with the boarding platform or mini-high platform design so that the horizontal gap between a vehicle at rest and the platform shall be no greater than 3 inches and the height of the vehicle floor shall be within plus or minus 1/8 inch of the platform height. Vertical alignment may be accomplished by vehicle air suspension, automatic ramps or lifts, or any combination.

(2) Exception. New vehicles operating in existing stations may have a floor height within plus or minus 1/2 inches of the platform height. At key stations, the horizontal gap between at least one door of each such vehicle and the platform shall be no greater than 3 inches.

(3) Exception. Retrofitted vehicles shall be coordinated with the platform in new and key stations such that the horizontal gap shall be no greater than 4 inches and the height of the vehicle floor, under 50% passenger load, shall be within plus or minus 2 inches of the platform height.

(4) Exception. Where it is not operationally or structurally practicable to meet the horizontal or vertical requirements of paragraphs (d)(1), (2) or (3) of this section, platform or vehicle devices complying with §1192.83(b) or
§ 1192.81 Lighting.

(a) Any stepwell or doorway with a lift, ramp or bridge plate immediately adjacent to the driver shall have, when the door is open, at least 2 footcandles of illumination measured on the step tread or lift platform.
(b) Other stepwells, and doorways with lifts, ramps or bridge plates, shall have, at all times, at least 2 foot-candles of illumination measured on the step tread or lift or ramp, when deployed at the vehicle floor level.

(c) The doorways of vehicles not operating at lighted station platforms shall have outside lights which provide at least 1 footcandle of illumination on the station platform or street surface for a distance of 3 feet perpendicular to all points on the bottom step tread. Such lights shall be located below window level and shielded to protect the eyes of entering and exiting passengers.

§ 1192.83 Mobility aid accessibility.

(a)(1) General. All new light rail vehicles, other than level entry vehicles, covered by this subpart shall provide a level-change mechanism or boarding device (e.g., lift, ramp or bridge plate) complying with either paragraph (b) or (c) of this section and sufficient clearances to permit at least two wheelchair or mobility aid users to reach areas, each with a minimum clear floor space of 48 inches by 30 inches, which do not unduly restrict passenger flow. Space to accommodate wheelchairs and mobility aids may be provided within the normal area used by standees and designation of specific spaces is not required.

(2) Exception. If lifts, ramps or bridge plates meeting the requirements of this section are provided on station platforms or other stops, or mini-high platforms complying with §1192.73(d) are provided, at stations or stops required to be accessible by 49 CFR part 37, the vehicle is not required to be equipped with a car-borne device. Where each new vehicle is compatible with a single platform-mounted access system or device, additional systems or devices are not required for each vehicle provided that the single device could be used to provide access to each new vehicle if passengers using wheelchairs or mobility aids could not be accommodated on a single vehicle.

(b) Vehicle lift—(1) Design load. The design load of the lift shall be at least 600 pounds. Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame, and attachment hardware which would not be expected to wear, shall have a safety factor of at least three, based on the ultimate strength of the material.

(2) Controls—(i) Requirements. The controls shall be interlocked with the vehicle brakes, propulsion system, or door, or shall provide other appropriate mechanisms or systems, to ensure that the vehicle cannot be moved when the lift is not stowed and so the lift cannot be deployed unless the interlocks or systems are engaged. The lift shall deploy to all levels (i.e., ground, curb, and intermediate positions) normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift and lowering the roll-off barrier shall be of a momentary contact type requiring continuous manual pressure by the operator and shall not allow improper lift sequencing when the lift platform is occupied. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(ii) Exception. Where physical or safety constraints prevent the deployment at some stops of a lift having its long dimension perpendicular to the vehicle axis, the transportation entity may specify a lift which is designed to deploy with its long dimension parallel to the vehicle axis and which pivots into or out of the vehicle while occupied (i.e., “rotary lift”). The requirements of paragraph (b)(2)(i) of this section prohibiting the lift from being stowed while occupied shall not apply to a lift design of this type if the stowed position is within the passenger compartment and the lift is intended to be stowed while occupied.

(iii) Exception. The brake or propulsion system interlocks requirement does not apply to a station platform mounted lift provided that a mechanical, electrical or other system operates to ensure that vehicles do not move when the lift is in use.
(3) **Emergency operation.** The lift shall incorporate an emergency method of deploying, lowering to ground level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer’s instructions, and shall not permit the platform to be stowed or folded when occupied, unless the lift is a rotary lift intended to be stowed while occupied.

(4) **Power or equipment failure.** Lift platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, falling, or folding any faster than 12 inches/second or their dropping of an occupant in the event of a single failure of any load carrying component.

(5) **Platform barriers.** The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the lift during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from rolling off the edge closest to the vehicle until the lift is in its fully raised position. Each side of the lift platform which extends beyond the vehicle in its raised position shall have a barrier a minimum 1 1/2 inches high. Such barriers shall not interfere with maneuvering into or out of the aisle. The loading-edge barrier (outer barrier) which functions as a loading ramp when the lift is at ground level, shall be sufficient when raised or closed, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier of the lift shall automatically rise or close, or a supplementary system shall automatically engage, and remain raised, closed, or engaged at all times that the lift is more than 3 inches above the station platform or roadway and the lift is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged or disengaged by the lift operator provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

(6) **Platform surface.** The lift platform surface shall be free of any protrusions over 1/4 inch high and shall be slip resistant. The lift platform shall have a minimum clear width of 28 1/2 inches at the platform, a minimum clear width of 30 inches measured from 2 inches above the lift platform surface to 30 inches above the surface, and a minimum clear length of 48 inches measured from 2 inches above the surface of the platform to 30 inches above the surface. (See Fig. 1)

(7) **Platform gaps.** Any openings between the lift platform surface and the raised barriers shall not exceed 5/8 inch wide. When the lift is at vehicle floor height with the inner barrier (if applicable) down or retracted, gaps between the forward lift platform edge and vehicle floor shall not exceed 1/2 inch horizontally and 3/8 inch vertically. Platforms on semiautomatic lifts may have a hand hold not exceeding 1 1/2 inches by 4 1/2 inches located between the edge barriers.

(8) **Platform entrance ramp.** The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:8 measured on level ground, for a maximum rise of 3 inches, and the transition from the station platform or roadway to ramp may be vertical without edge treatment up to 1/4 inch. Thresholds between 1/4 inch and 1/2 inch high shall be beveled with a slope no greater than 1:2.

(9) **Platform deflection.** The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of vehicle roll) in any direction between its unloaded position and its position when loaded with 600 pounds applied through a 26 inch by 26 inch test pallet at the centroid of the lift platform.

(10) **Platform movement.** No part of the platform shall move at a rate exceeding 6 inches/second during lowering and lifting an occupant, and shall not exceed 12 inches/second during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.
(11) **Boarding direction.** The lift shall permit both inboard and outboard facing of wheelchairs and mobility aids.

(12) **Use by standees.** Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The lift may be marked to indicate a preferred standing position.

(13) **Handrails.** Platforms on lifts shall be equipped with handrails, on two sides, which move in tandem with the lift which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches long with the lowest portion a minimum 30 inches above the platform and the highest portion a maximum 38 inches above the platform. The handrail shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. Handrails shall have a cross-sectional diameter between 1 1/4 inches and 1 1/2 inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than 1/8 inch. Handrails shall be placed to provide a minimum 1 1/2 inches knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

(c) **Vehicle ramp or bridge plate—(1) Design load.** Ramps or bridge plates 30 inches or longer shall support a load of 600 pounds, placed at the centroid of the ramp or bridge plate distributed over an area of 26 inches by 26 inches, with a safety factor of at least 3 based on the ultimate strength of the material. Ramps or bridge plates shorter than 30 inches shall support a load of 300 pounds.

(2) **Ramp surface.** The ramp or bridge plate surface shall be continuous and slip resistant, shall not have protrusions from the surface greater than 1/4 inch, shall have a clear width of 30 inches, and shall accommodate both four-wheel and three-wheel mobility aids.

(3) **Ramp threshold.** The transition from roadway or station platform and the transition from vehicle floor to the ramp or bridge plate may be vertical without edge treatment up to 1/4 inch. Changes in level between 3/8 inch and 1/2 inch shall be beveled with a slope no greater than 1:2.

(4) **Ramp barriers.** Each side of the ramp or bridge plate shall have barriers at least 2 inches high to prevent mobility aid wheels from slipping off.

(5) **Slope.** Ramps or bridge plates shall have the least slope practicable. If the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 3 inches or less above the station platform a maximum slope of 1:8 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 6 inches or less, but more than 3 inches, above the station platform a maximum slope of 1:6 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 9 inches or less, but more than 6 inches, above the station platform a maximum slope of 1:8 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is greater than 9 inches above the station platform a slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) **Attachment—(1) Requirement.** When in use for boarding or alighting, the ramp or bridge plate shall be attached to the vehicle, or otherwise prevented from moving such that it is not subject to displacement when loading or unloading a heavy power mobility aid and that any gaps between vehicle and ramp or bridge plate, and station platform and ramp or bridge plate, shall not exceed 3/8 inch.

(ii) **Exception.** Ramps or bridge plates which are attached to, and deployed from, station platforms are permitted in lieu of vehicle devices provided they meet the displacement requirements of paragraph (c)(6)(1) of this section.

(7) **Stowage.** A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps or bridge plates, including portable ramps or bridge plates stowed in the passenger area, do not impinge on a passenger’s wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop.
(8) **Handrails.** If provided, handrails shall allow persons with disabilities to grasp them from outside the vehicle while starting to board, and to continue to use them throughout the boarding process, and shall have the top between 30 inches and 38 inches above the ramp surface. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1 1/4 inches and 1 1/2 inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than 1/8 inch. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

§ 1192.85 **Between-car barriers.**

Where vehicles operate in a high-platform, level-boarding mode, devices or systems shall be provided to prevent, deter or warn individuals from inadvertently stepping off the platform between cars. Appropriate devices include, but are not limited to, pantograph gates, chains, motion detectors or other suitable devices.

§ 1192.87 **Public information system.**

(a) Each vehicle shall be equipped with an interior public address system permitting transportation system personnel, or recorded or digitized human speech messages, to announce stations and provide other passenger information. Alternative systems or devices which provide equivalent access are also permitted.

(b) [Reserved]

Where each new car is compatible with a single platform-mounted access system or device, additional systems or devices are not required for each car provided that the single device could be used to provide access to each new car if passengers using wheelchairs or mobility aids could not be accommodated on a single car.
(b) Car Lift—(1) Design load. The design load of the lift shall be at least 600 pounds. Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(ii) Exception. Where physical or safety constraints prevent the deployment at some stops of a lift having its long dimension perpendicular to the car axis, the transportation entity may specify a lift which is designed to deploy with its long dimension parallel to the car axis and which pivots into or out of the car while occupied (i.e., "rotary lift"). The requirements of paragraph (b)(2)(i) of this section prohibiting the lift from being stowed while occupied shall not apply to a lift design of this type if the stowed position is within the passenger compartment and the lift is intended to be stowed while occupied.

(iii) Exception. The brake or propulsion system interlock requirement does not apply to a platform mounted or portable lift provided that a mechanical, electrical or other system operates to ensure that cars do not move when the lift is in use.

(3) Emergency operation. The lift shall incorporate an emergency method of deploying, lowering to ground or platform level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer’s instructions, and shall not permit the platform to be stowed or folded when occupied, unless the lift is a rotary lift intended to be stowed while occupied.

Platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, falling, or folding any faster than 12 inches/second or their dropping of an occupant in the event of a single failure of any load carrying component.

(5) Platform barriers. The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the lift during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from rolling off the edge closest to the car until the lift is in its fully raised position. Each side of the lift platform which, in its raised position, extends beyond the car shall have a barrier a minimum 1½ inches high. Such barriers shall not interfere with maneuvering into or out of the car. The loading-edge barrier (outer barrier) which functions as a loading ramp when the lift is at ground or station platform level, shall be sufficient when raised or closed, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier of the lift shall automatically rise or close, or a supplementary system shall automatically engage, and remain raised, closed, or engaged at all times that the lift platform is more than 3 inches above the station platform and the lift is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged or disengaged by the lift operator provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

(6) Platform surface. The lift platform surface shall be free of any protrusions over ¼ inch high and shall be slip resistant. The lift platform shall have a minimum clear width of 28½ inches at the platform, a minimum clear width of 30 inches measured from 2 inches above the platform surface to 30 inches above the surface, and a minimum clear length of 48 inches measured from 2 inches above the platform surface to 30 inches above the platform, to 30 inches above the surface. (See Fig. 1)

(7) Platform gaps. Any openings between the lift platform surface and the raised barriers shall not exceed ½ inch wide. When the lift is at car floor height with the inner barrier down (if applicable) or retracted, gaps between the forward lift platform edge and car.
§ 1192.95  

The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of vehicle roll) in any direction between its unloaded position and its position when loaded with 600 pounds applied through a 26 inch by 26 inch test pallet at the centroid of the lift platform.

(10) Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second during lowering and lifting an occupant, and shall not exceed 12 inches/second during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchairs and mobility aids.

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The lift may be marked to indicate a preferred standing position.

(13) Handrails. Platforms on lifts shall be equipped with handrails, on two sides, which move in tandem with the lift which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches long with the lowest portion a minimum 30 inches above the platform and the highest portion a maximum 38 inches above the platform. (3) Ramp threshold. The transition from station platform to the ramp or bridge plate and the transition from car floor to the ramp or bridge plate may be vertical without edge treatment up to ¼ inch. Changes in level between ¼ inch and ½ inch shall be beveled with a slope no greater than 1:2.

(4) Ramp barriers. Each side of the ramp or bridge plate shall have barriers at least 2 inches high to prevent mobility aid wheels from slipping off.

(5) Slope. Ramps or bridge plates shall have the least slope practicable. If the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 3 inches or less above the station platform a maximum slope of 1:4 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 6 inches or less, but more than 3 inches, above the station platform a maximum slope of 1:6 is permitted; if the height
of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 9 inches or less, but more than 6 inches, above the station platform a maximum slope of 1:8 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is greater than 9 inches above the station platform a slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) Attachment—(i) Requirement. When in use for boarding or alighting, the ramp or bridge plate shall be attached to the vehicle, or otherwise prevented from moving such that it is not subject to displacement when loading or unloading a heavy power mobility aid and that any gaps between vehicle and ramp or bridge plates, and station platform and ramp or bridge plate, shall not exceed \( \frac{5}{8} \) inch.

(ii) Exception. Ramps or bridge plates which are attached to, and deployed from, station platforms are permitted in lieu of car devices provided they meet the displacement requirements of paragraph (c)(6)(i) of this section.

(7) Stowage. A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps or bridge plates, including portable ramps or bridge plates stowed in the passenger area, do not impinge on a passenger’s wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop.

(8) Handrails. Such lights shall be shielded to protect the eyes of entering and exiting passengers.

§ 1192.121 Public information system.

(a) Each car shall be equipped with a public address system permitting transportation system personnel, or recorded or digitized human speech messages, to announce stations and provide other passenger information. Alternative systems or devices which provide equivalent access are also permitted.

(b) [Reserved]

§ 1192.123 Restrooms.

(a) If a restroom is provided for the general public, and an accessible restroom is required by §1192.111 (a) and (e), it shall be designed so as to allow a person using a wheelchair or mobility aid to enter and use such restroom as specified in paragraphs (a) (1) through (5) of this section.

(1) The minimum clear floor area shall be 35 inches by 60 inches. Permanently installed fixtures may overlap this area a maximum of 6 inches, if the lowest portion of the fixture is a minimum of 9 inches above the floor, and may overlap a maximum of 19 inches, if the lowest portion of the fixture is a minimum of 29 inches above the floor. Fixtures shall not interfere with access to and use of the water closet. Fold-down or retractable seats or shelves may overlap the clear floor space at a lower height provided they can be easily folded up or moved out of the way.

(2) The height of the water closet shall be 17 inches to 19 inches measured to the top of the toilet seat. Seats shall not be sprung to return to a lifted position.

(3) A grab bar at least 24 inches long shall be mounted behind the water closet, and a horizontal grab bar at least 40 inches long shall be mounted on at least one side wall, with one end not more than 12 inches from the back wall, at a height between 33 inches and 36 inches above the floor.

(b) Restrooms required to be accessible shall be in close proximity to at least one seating location for persons using mobility aids complying with §1192.125(d) and shall be connected to such a space by an unobstructed path having a minimum width of 32 inches.

§ 1192.125 Mobility aid accessibility.
is not required to be equipped with a car-borne device.

(b) Car Lift—(1) Design load. The design load of the lift shall be at least 600 pounds. Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame, and attachment hardware which would not be expected to wear, shall have a safety factor of at least three, based on the ultimate strength of the material.

(2) Controls—(i) Requirements. The controls shall be interlocked with the car brakes, propulsion system, or door, or shall provide other appropriate mechanisms or systems, to ensure that the car cannot be moved when the lift is not stowed and so the lift cannot be deployed unless the interlocks or systems are engaged. The lift shall deploy to all platform levels normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift and lowering the roll-off barrier shall be of a momentary contact type requiring continuous manual pressure by the operator and shall not allow improper lift sequencing when the lift platform is occupied. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(ii) Exception. Where physical or safety constraints prevent the deployment at some stops of a lift having its long dimension perpendicular to the car axis, the transportation entity may specify a lift which is designed to deploy with its long dimension parallel to the car axis and which pivots into or out of the car while occupied (i.e., “rotary lift”). The requirements of paragraph (b)(2)(i) of this section prohibiting the lift from being stowed while occupied shall not apply to a lift design of this type if the stowed position is within the passenger compartment and the lift is intended to be stowed while occupied.

(3) Emergency operation. The lift shall incorporate an emergency method of deploying, lowering to ground or station platform level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer’s instructions, and shall not permit the platform to be stowed or folded when occupied, unless the lift is a rotary lift and is intended to be stowed while occupied.

(4) Power or equipment failure. Platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, failing, or folding any faster than 12 inches/second or their dropping of an occupant in the event of a single failure of any load carrying component.

(5) Platform barriers. The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the lift during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from rolling off the edge closest to the car until the lift is in its fully raised position. Each side of the lift platform which, in its raised position, extends beyond the car shall have a barrier a minimum 1 1/2 inches high. Such barriers shall not interfere with maneuvering into or out of the car. The loading-edge barrier (outer barrier) which functions as a loading ramp when the lift is at ground or station platform level, shall be sufficient when raised or closed, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier of the lift shall automatically rise or close, or a supplementary system shall automatically engage, and remain raised, closed, or engaged at all times.
that the lift platform is more than 3 inches above the station platform and the lift is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged or disengaged by the lift operator provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

(6) Platform surface. The lift platform surface shall be free of any protrusions over \( \frac{1}{4} \) inch high and shall be slip resistant. The lift platform shall have a minimum clear width of 28\( \frac{1}{2} \) inches at the platform, a minimum clear width of 30 inches measured from 2 inches above the lift platform surface to 30 inches above the surface, and a minimum clear length of 48 inches measured from 2 inches above the surface of the platform to 30 inches above the surface. (See Fig. 1.)

(7) Platform gaps. Any openings between the lift platform surface and the raised barriers shall not exceed \( \frac{5}{8} \) inch wide. When the lift is at car floor height with the inner barrier (if applicable) down or retracted, gaps between the forward lift platform edge and car floor shall not exceed \( \frac{1}{2} \) inch horizontally and \( \frac{5}{8} \) inch vertically. Platforms on semi-automatic lifts may have a hand hold not exceeding 1\( \frac{1}{2} \) inches by 4\( \frac{1}{2} \) inches located between the edge barriers.

(8) Platform entrance ramp. The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:8, when measured on level ground, for a maximum rise of 3 inches, and the transition from station platform to ramp may be vertical without edge treatment up to \( \frac{1}{4} \) inch. Thresholds between \( \frac{1}{4} \) inch and \( \frac{1}{2} \) inch high shall be beveled with a slope no greater than 1:2.

(9) Platform deflection. The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of car roll) in any direction between its unloaded position and its position when loaded with 600 pounds applied through a 26 inch by 26 inch test pallet at the centroid of the lift platform.

(10) Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second during lowering and lifting an occupant, and shall not exceed 12 inches/second during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchairs and mobility aids.

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The lift may be marked to indicate a preferred standing position.

(13) Handrails. Platforms on lifts shall be equipped with handrails, on two sides, which move in tandem with the lift, and which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches long with the lowest portion a minimum 30 inches above the platform and the highest portion a maximum 36 inches above the platform. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1\( \frac{1}{4} \) inches and 1\( \frac{1}{2} \) inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than \( \frac{1}{4} \) inch. Handrails shall be placed to provide a minimum 1\( \frac{1}{2} \) inches knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the car.

(c) Car ramp or bridge plate—(1) Design load. Ramps or bridge plates 30 inches or longer shall support a load of 600 pounds, placed at the centroid of the ramp or bridge plate distributed over an area of 26 inches by 26 inches, with a safety factor of at least 3 based on the ultimate strength of the material. Ramps or bridge plates shorter than 30 inches shall support a load of 300 pounds.

(2) Ramp surface. The ramp or bridge plate surface shall be continuous and
slip resistant, shall not have protrusions from the surface greater than \( \frac{1}{4} \) inch high, shall have a clear width of 30 inches and shall accommodate both four-wheel and three-wheel mobility aids.

(3) **Ramp threshold.** The transition from station platform to the ramp or bridge plate and the transition from car floor to the ramp or bridge plate may be vertical without edge treatment up to \( \frac{1}{4} \) inch. Changes in level between \( \frac{1}{4} \) inch and \( \frac{1}{2} \) inch shall be beveled with a slope no greater than 1:2.

(4) **Ramp barriers.** Each side of the ramp or bridge plate shall have barriers at least 2 inches high to prevent mobility aid wheels from slipping off.

(5) **Slope.** Ramps or bridge plates shall have the least slope practicable. If the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 3 inches or less above the station platform a maximum slope of 1:4 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 6 inches or less, but more than 3 inches, above the station platform a maximum slope of 1:6 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 9 inches or less, but more than 6 inches, above the station platform a maximum slope of 1:8 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) **Attachment**—(i) **Requirement.** When in use for boarding or alighting, the ramp or bridge plate shall be attached to the vehicle, or otherwise prevented from moving such that it is not subject to displacement when loading or unloading a heavy power mobility aid and that any gaps between vehicle and ramp or bridge plate, and station platform and ramp or bridge plate, shall not exceed \( \frac{1}{8} \) inch.

(ii) **Exception.** Ramps or bridge plates which are attached to, and deployed from, station platforms are permitted in lieu of car devices provided they meet the displacement requirements of paragraph (c)(6)(i) of this section.

(7) **Stowage.** A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps or bridge plates, including portable ramps or bridge plates stowed in the passenger area, do not impinge on a passenger’s wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop.

(8) **Handrails.** If provided, handrails shall allow persons with disabilities to grasp them from outside the car while starting to board, and to continue to use them throughout the boarding process, and shall have the top between 30 inches and 38 inches above the ramp surface. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1\( \frac{1}{4} \) inches and 1\( \frac{1}{2} \) inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than \( \frac{1}{8} \) inch. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the car.

(d) **Seating**—(1) **Requirements.** All intercity rail cars required to be accessible by §1192.111 (a) and (e) of this subpart shall provide at least one, but not more than two, mobility aid seating location(s) complying with paragraph (d)(2) of this section; and at least one, but not more than two, seating location(s) complying with paragraph (d)(3) of this section which adjoin or overlap an accessible route with a minimum clear width of 32 inches.

(2) **Wheelchair or mobility aid spaces.** Spaces for persons who wish to remain in their wheelchairs or mobility aids shall have a minimum clear floor area of 48 inches by 30 inches. Such space may have fold-down or removable seats for use when not occupied by a wheelchair or mobility aid user. (See Fig. 2)

(3) **Other spaces.** Spaces for individuals who wish to transfer shall include a regular coach seat or dining car booth, or table seat and space to fold and store the passenger’s wheelchair.
§ 1192.127 Sleeping compartments.

(a) Sleeping compartments required to be accessible shall be designed so as to allow a person using a wheelchair or mobility aid to enter, maneuver within and approach and use each element within such compartment. (See Fig. 5.)

(b) Each accessible compartment shall contain a restroom complying with §1192.123(a) which can be entered directly from such compartment.

(c) Controls and operating mechanisms (e.g., heating and air conditioning controls, lighting controls, call buttons, electrical outlets, etc.) shall be mounted no more than 48 inches, and no less than 15 inches, above the floor and shall have a clear floor area directly in front a minimum of 30 inches by 48 inches. Controls and operating mechanisms shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist.

Subpart G—Over-the-Road Buses and Systems

[56 FR 45558, Sept. 6, 1991, as amended at 63 FR 51698, 51702, Sept. 28, 1998]

§ 1192.155 Interior circulation, handrails and stanchions.

(a) Handrails and stanchions shall be provided in the entrance to the vehicle in a configuration which allows passengers to grasp such assists from outside the vehicle while starting to board, and to continue using such handrails or stanchions throughout the boarding process. Handrails shall have a cross-sectional diameter between 1 1⁄4 inches and 1 1⁄2 inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than ⅛ inch. Handrails shall be placed to provide a minimum 1 ½ inches knuckle clearance from the nearest adjacent surface. Where on-board fare collection devices are used, a horizontal passenger assist shall be located between boarding passengers and the fare collection device and shall prevent passengers from sustaining injuries on the fare collection device or windshield in the event of a sudden deceleration. Without restricting the vestibule space, the assist shall provide support for a boarding passenger from the door through the boarding procedure. Passengers shall be able to lean against the assist for security while paying fares.

(b) Where provided within passenger compartments, handrails or stanchions shall be sufficient to permit safe on-board circulation, seating and standing assistance, and alighting by persons with disabilities.

§ 1192.157 Lighting.

(a) Any stepwell or doorway immediately adjacent to the driver shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread.
§ 1192.159 Mobility aid accessibility.

(a)(1) General. All vehicles covered by this subpart shall provide a level-change mechanism or boarding device (e.g., lift or ramp) complying with paragraph (b) or (c) of this section and sufficient clearances to permit a wheelchair or other mobility aid user to reach a securement location. At least two securement locations and devices, complying with paragraph (d) of this section, shall be provided.

(2) Exception. If portable or station-based lifts, ramps or bridge plates meeting the applicable requirements of this section are provided at stations or other stops required to be accessible under regulations issued by the Department of Transportation, the bus is not required to be equipped with a vehicle-borne device.

(b) Vehicle lift—(1) Design load. The design load of the lift shall be at least 600 pounds (2665 N). Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame and attachment hardware which would not be expected to wear, shall have a safety factor of at least three, based on the ultimate strength of the material.

(ii) Requirements. The controls shall be interlocked with the vehicle brakes, transmission, or door, or shall provide other appropriate mechanism or systems, to ensure that the vehicle cannot be moved when the lift is not stowed and so the lift cannot be deployed unless the interlocks or systems are engaged. The lift shall deploy to all levels (i.e., ground, curb, and intermediate positions) normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift and lowering the roll-off barrier shall be of a momentary contact type requiring continuous manual pressure by the operator and shall not allow improper lift sequencing when the lift platform is occupied. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(3) Emergency operation. The lift shall incorporate an emergency method of deploying, lowering to ground level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer’s instructions, and shall not permit the platform to be stowed or folded when occupied, unless the lift is a rotary lift and is intended to be stowed while occupied.

(4) Power or equipment failure. Platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, falling, or folding any faster than 12 inches/second (305 mm/sec) or their dropping of an occupant in the event of a single failure of any load carrying component.

(5) Platform barriers. The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the platform during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from rolling off the edge closest to the vehicle until the platform is in its fully raised position. Each side of the
Architectural and Transp. Barriers Compliance Board § 1192.159

lift platform which extends beyond the vehicle in its raised position shall have a barrier a minimum 1½ inches (13 mm) high. Such barriers shall not interfere with maneuvering into or out of the aisle. The loading-edge barrier (outer barrier) which functions as a loading ramp when the lift is at ground level, shall be sufficient when raised or closed, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier of the lift shall automatically raise or close, or a supplementary system shall automatically engage, and remain raised, closed, or engaged at all times that the platform is more than 3 inches (75 mm) above the roadway or sidewalk and the platform is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged, or disengaged by the lift operator, provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

(6) Platform surface. The platform surface shall be free of any protrusions of ¼ inch (6.5 mm) high and shall be slip resistant. The platform shall have a minimum clear width of 28½ inches (725 mm) at the platform, a minimum clear width of 30 inches (760 mm) measured from 2 inches (50 mm) above the platform surface to 30 inches (760 mm) above the platform, and a minimum clear length of 48 inches (1220 mm) measured from 2 inches (50 mm) above the surface of the platform to 30 inches (760 mm) above the surface of the platform. (See figure 1 to this part.)

(7) Platform gaps. Any openings between the platform surface and the raised barriers shall not exceed ½ inch (16 mm) in width. When the platform is at vehicle floor height with the inner barrier (if applicable) down or retracted, gaps between the forward lift platform edge and the vehicle floor shall not exceed ½ inch (13 mm) horizontally and ¼ inch (16 mm) vertically. Platforms on semi-automatic lifts may have a hand hold not exceeding 1½ inches (38 mm) by 4½ inches (113 mm) located between the edge barriers.

(8) Platform entrance ramp. The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:8, measured on level ground, for a maximum rise of 3 inches (75 mm), and the transition from roadway or sidewalk to ramp may be vertical without edge treatment up to ¼ inch (6.5 mm). Thresholds between ¼ inch (6.5 mm) and ½ inch (13 mm) high shall be beveled with a slope no greater than 1:2.

(9) Platform deflection. The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of vehicle roll or pitch) in any direction between its unloaded position and its position when loaded with 600 pounds (2665 N) applied through a 26 inch (660 mm) by 26 inch test pallet at the centroid of the platform.

(10) Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second (150 mm/sec) during lowering and lifting an occupant, and shall not exceed 12 inches/second (300 mm/sec) during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchair and mobility aid users.

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The platform may be marked to indicate a preferred standing position.

(13) Handrails. Platforms on lifts shall be equipped with handrails on two sides, which move in tandem with the lift, and which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches (200 mm) long with the lowest portion a minimum 30 inches (760 mm) above the platform and the highest portion a maximum 38 inches (965 mm) above the platform. The handrails shall be capable of withstanding a force of 100 pounds (445 N) concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall
§ 1192.159

have a cross-sectional diameter between 1 1⁄4 inches (32 mm) and 1 1⁄2 inches (38 mm) or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than 5⁄8 inch (3.5 mm). Handrails shall be placed to provide a minimum 1 1⁄2 inches (38 mm) knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

(c) Vehicle ramp—(1) Design load. Ramps 30 inches (760 mm) or longer shall support a load of 600 pounds (2665 N), placed at the centroid of the ramp distributed over an area of 26 inches by 26 inches (660 mm by 660 mm), with a safety factor of at least 3 based on the ultimate strength of the material. Ramps shorter than 30 inches (760 mm) shall support a load of 300 pounds (1332 N).

(2) Ramp surface. The ramp surface shall be continuous and slip resistant; shall not have protrusions from the surface greater than 1⁄4 inch (6.5 mm) high; shall have a clear width of 30 inches (760 mm); and shall accommodate both four-wheel and three-wheel mobility aids.

(3) Ramp threshold. The transition from roadway or sidewalk and the transition from vehicle floor to the ramp may be vertical without edge treatment up to ¼ inch (6.5 mm). Changes in level between ¼ inch (6.5 mm) and ½ inch (13 mm) shall be beveled with a slope no greater than 1:2.

(4) Ramp barriers. Each side of the ramp shall have barriers at least 2 inches (50 mm) high to prevent mobility aid wheels from slipping off.

(5) Slope. Ramps shall have the least slope practicable and shall not exceed 1:4 when deployed to ground level. If the height of the vehicle floor from which the ramp is deployed is 3 inches (75 mm) or less above a 6 inch (150 mm) curb, a maximum slope of 1:4 is permitted; if the height of the vehicle floor from which the ramp is deployed is 6 inches (150 mm) or less, but greater than 3 inches (75 mm), above a 6 inch (150 mm) curb, a maximum slope of 1:6 is permitted; if the height of the vehicle floor from which the ramp is deployed is 9 inches (225 mm) or less, but greater than 6 inches (150 mm), above a 6 inch curb, a maximum slope of 1:8 is permitted; if the height of the vehicle floor from which the ramp is deployed is greater than 9 inches (225 mm) above a 6 inch (150 mm) curb, a slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) Attachment. When in use for boarding or alighting, the ramp shall be firmly attached to the vehicle so that it is not subject to displacement when loading or unloading a heavy power mobility aid and that no gap between vehicle and ramp exceeds ¼ inch (16 mm).

(7) Storage. A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps, including portable ramps stowed in the passenger area, do not impinge on a passenger’s wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop or maneuver.

(8) Handrails. If provided, handrails shall allow persons with disabilities to grasp them from outside the vehicle while starting to board, and to continue to use them throughout the boarding process, and shall have the top between 30 inches (760 mm) above the ramp surface. The handrails shall be capable of withstanding a force of 100 pounds (445 N) concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1 1⁄4 inches (32 mm) and 1 1⁄2 inches (38 mm) or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than 1⁄8 inch (3.5 mm). Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

(d) Securement devices—(1) Design load. Securement systems, and their attachments to vehicles, shall restrain a force in the forward longitudinal direction of up to 2,000 pounds (8,880 N) per securement leg or clamping mechanism and a minimum of 4,000 pounds (17,760 N) for each mobility aid.

(2) Location and size. The securement system shall be placed as near to the accessible entrance as practicable and
shall have a clear floor area of 30 inches (760 mm) by 48 inches (1220 mm). Such space shall adjoin, and may over- 
ap, an access path. Not more than 6 inches (150 mm) of the required clear floor space may be accommodated for footrests under another seat, modesty panel, or other fixed element provided there is a minimum of 9 inches (230 mm) from the floor to the lowest part of the seat overhanging the space. Securement areas may have fold-down seats to accommodate other passengers when a wheelchair or mobility aid is not occupying the area, provided the seats, when folded up, do not obstruct the clear floor space required. (See Figure 2 to this part.)

(3) Mobility aids accommodated. The securement system shall secure common wheelchairs and mobility aids and shall either be automatic or easily attached by a person familiar with the system and mobility aid and having average dexterity.

(4) Orientation. At least one securement device or system required by paragraph (a) of this section shall secure the wheelchair or mobility aid facing toward the front of the vehicle. Additional securement devices or systems shall secure the wheelchair or mobility aid facing forward or rearward. Where the wheelchair or mobility aid is secured facing the rear of the vehicle, a padded barrier shall be provided. The padded barrier shall extend from a height of 38 inches (965 mm) from the vehicle floor to a height of 56 inches (1420 mm) from the vehicle floor with a width of 18 inches (455 mm), laterally centered immediately in back of the seated individual. Such barriers need not be solid provided equivalent protection is afforded.

(5) Movement. When the wheelchair or mobility aid is secured in accordance with manufacturer’s instructions, the securement system shall limit the movement of an occupied wheelchair or mobility aid to no more than 2 inches (50 mm) in any direction under normal vehicle operating conditions.

(6) Stowage. When not being used for securement, or when the securement area can be used by standees, the securement system shall not interfere with passenger movement, shall not present any hazardous condition, shall be reasonably protected from vandalism, and shall be readily accessed when needed for use.

(7) Seat belt and shoulder harness. For each wheelchair or mobility aid securement device provided, a passenger seat belt and shoulder harness, complying with all applicable provisions of the Federal Motor Vehicle Safety Standards (49 CFR part 571), shall also be provided for use by wheelchair or mobility aid users. Such seat belts and shoulder harnesses shall not be used in lieu of a device which secures the wheelchair or mobility aid itself.

§ 1192.161 Moveable aisle armrests.

A minimum of 50% of aisle seats, including all moveable or removable seats at wheelchair or mobility aide securement locations, shall have an armrest on the aisle side which can be raised, removed, or retracted to permit easy entry or exit.

§ 1192.171 General.

(a) New, used and remanufactured vehicles and conveyances for systems not covered by other subparts of this part, to be considered accessible by regulations issued by the Department of Transportation in 49 CFR part 37, shall comply with this subpart.

(b) If portions of the vehicle or conveyance are modified in a way that affects or could affect accessibility, each such portion shall comply, to the extent practicable, with the applicable provisions of this subpart. This provision does not require that inaccessible vehicles be retrofitted with lifts, ramps or other boarding devices.

(c) Requirements for vehicles and systems not covered by this part shall be determined on a case-by-case basis by the Department of Transportation in consultation with the U.S. Architectural and Transportation Barriers Compliance Board (Access Board).
§ 1192.173 Automated guideway transit vehicles and systems.

(a) Automated Guideway Transit (AGT) vehicles and systems, sometimes called “people movers”, operated in airports and other areas where AGT vehicles travel at slow speed, shall comply with the provisions of §§1192.53 (a) through (c), and 1192.55 through 1192.61 for rapid rail vehicles and systems.

(b) Where the vehicle covered by paragraph (a) of this section will operate in an accessible station, the design of vehicles shall be coordinated with the boarding platform design such that the horizontal gap between a vehicle door at rest and the platform shall be no greater than 1 inch and the height of the vehicle floor shall be within plus or minus 1⁄2 inch of the platform height under all normal passenger load conditions. Vertical alignment may be accomplished by vehicle air suspension or other suitable means of meeting the requirement. All doorways shall have, when the door is open, at least 2 foot-candles of illumination measured on the door threshold.

(b) All other high-speed rail cars shall comply with the similar provisions of subpart F of this part.

§ 1192.175 High-speed rail cars, monorails and systems.

(a) All cars for high-speed rail systems, including but not limited to those using “maglev” or high speed steel-wheel-on-steel-rail technology, and monorail systems operating primarily on dedicated rail (i.e., not used by freight trains) or guideway, in which stations are constructed in accordance with subpart C of 49 CFR part 37, shall be designed for high-platform level boarding and shall comply with §1192.111(a) for each type of car which is similar to intercity rail, §§1192.111(d), 1192.113 (a) through (c), 1192.115 (a) and (b), 1192.121 through 1192.123, 1192.125(d), and 1192.127 (if applicable). The design of cars shall be coordinated with the boarding platform design such that the horizontal gap between a car door at rest and the platform shall be no greater than 3 inches and the height of the car floor shall be within plus or minus 5⁄8 inch of the platform height under all normal passenger load conditions. Vertical alignment may be accomplished by car air suspension or other suitable means of meeting the requirement. All doorways shall have, when the door is open, at least 2 foot-candles of illumination measured on the door threshold.

(b) All other high-speed rail cars shall comply with the similar provisions of subpart F of this part.

§ 1192.177 Ferries, excursion boats and other vessels. [Reserved]

§ 1192.179 Trams, similar vehicles and systems.

(a) New and used trams consisting of a tractor unit, with or without passenger accommodations, and one or more passenger trailer units, including but not limited to, panto-graph gates, chains, motion detectors or other appropriate devices.

Vertical alignment may be accomplished by car air suspension or other suitable means of meeting the requirement. All doorways shall have, when the door is open, at least 2 foot-candles of illumination measured on the door threshold.

(b) Each tractor unit which accommodates passengers and each trailer unit shall comply with §§1192.25 and 1192.29. In addition, each such unit shall comply with §1192.23 (b) or (c) and shall provide at least one space for wheelchair or mobility aid users complying with §1192.23(d) unless the complete operating unit consisting of tractor and one or more trailers can already accommodate at least two wheelchair or mobility aid users.

APPENDIX TO PART 1192—ADVISORY GUIDANCE

This appendix contains materials of an advisory nature and provides additional information that should help the reader to understand the minimum requirements of the guidelines or to design vehicles for greater accessibility. Each entry is applicable to all subparts of this part except where noted. Nothing in this appendix shall in any way obviate any obligation to comply with the requirements of the guidelines themselves.

I. SLIP RESISTANT SURFACES—AISLES, STEPS, FLOOR AREAS WHERE PEOPLE WALK, FLOOR AREAS IN SECUREMENT LOCATIONS, LIFT PLATFORMS, RAMPS

Slip resistance is based on the frictional force necessary to keep a shoe heel or crutch tip from slipping on a walking surface under conditions likely to be found on the surface. While the dynamic coefficient of friction during walking varies in a complex and non-uniform way, the static coefficient of friction, which can be measured in several ways, provides a close approximation of the slip resistance of a surface. Contrary to popular belief, some slippage is necessary to walking, especially for persons with restricted gaits; a
truly “non-slip” surface could not be negotiated.

The Occupational Safety and Health Administration recommends that walking surfaces have a static coefficient of friction of 0.5. A research project sponsored by the Architectural and Transportation Barriers Compliance Board (Access Board) conducted tests with persons with disabilities and concluded that a higher coefficient of friction was needed by such persons. A static coefficient of friction of 0.6 is recommended for stops, floors, and lift platforms and 0.8 for ramps.

The coefficient of friction varies considerably due to the presence of contaminants, water, floor finishes, and other factors not under the control of transit providers and may be difficult to measure. Nevertheless, many common materials suitable for flooring are now labeled with information on the static coefficient of friction. While it may not be possible to compare one product directly with another, or to guarantee a constant measure, transit operators or vehicle designers and manufacturers are encouraged to specify materials with appropriate values. As more products include information on slip resistance, improved uniformity in measurement and specification is likely. The Access Board’s advisory guidelines on Slip Resistant Surfaces provides additional information on this subject.

II. COLOR CONTRAST—STEP EDGES, LIFT PLATFORM EDGES

The material used to provide contrast should contrast by at least 70%. Contrast in percent is determined by:

\[
\text{Contrast} = \frac{B_1 - B_2}{B_1} \times 100
\]

where \(B_1\) = light reflectance value (LRV) of the lighter area and \(B_2\) = light reflectance value (LRV) of the darker area.

Note that in any application both white and black are never absolute; thus, \(B_1\) never equals 100 and \(B_2\) is always greater than 0.

III. HANDRAILS AND STANCHIONS

In addition to the requirements for handrails and stanchions for rapid, light, and commuter rail vehicles, consideration should be given to the proximity of handrails or stanchions to the area in which wheelchair or mobility aid users may position themselves. When identifying the clear floor space where a wheelchair or mobility aid user can be accommodated, it is suggested that at least one such area be adjacent or in close proximity to a handrail or stanchion. Of course, such a handrail or stanchion cannot encroach upon the required 32 inch width required for the doorway or the route leading to the clear floor space which must be at least 30 by 48 inches in size.

IV. PRIORITY SEATING SIGNS AND OTHER SIGNAGE

A. Finish and Contrast

The characters and background of signs should be eggshell, matte, or other non-glare finish. An eggshell finish (11 to 19 degree gloss on 60 degree glossimeter) is recommended. Characters and symbols should contrast with their background—either dark characters on a dark background or dark characters on a light background. Research indicates that signs are more legible for persons with low vision when characters contrast with their background by at least 70 percent. Contrast in percent is determined by:

\[
\text{Contrast} = \frac{(B_1 - B_2) - B_2}{B_1} \times 100
\]

where \(B_1\) = light reflectance value (LRV) of the lighter area, and \(B_2\) = light reflectance value (LRV) of the darker area.

Note that in any application both white and black are never absolute; thus, \(B_1\) never equals 100 and \(B_2\) is always greater than 0.

The greatest readability is usually achieved through the use of light-colored characters or symbols on a dark background.

B. Destination and Route Signs

The following specifications, which are required for buses (§1192.39), are recommended for other types of vehicles, particularly light rail vehicles, where appropriate.

1. Where destination or route information is displayed on the exterior of a vehicle, each vehicle should have illuminated signs on the front and boarding side of the vehicle.

2. Characters on signs covered by paragraph IV.B.1 of this appendix should have a width-to-height ratio between 3:5 and 1:1 and a stroke width-to-height ratio between 1:5 and 1:10, with a minimum character height (using an upper case “X”) of 1 inch for signs on the boarding side and a minimum character height of 2 inches for front “headsigns”, with “wide” spacing (generally, the space between letters shall be \(1\frac{1}{4}\) the height of upper case letters), and should contrast with the background, either dark-on-light or light-on-dark, or as recommended above.

C. Designation of Accessible Vehicles

The International Symbol of Accessibility should be displayed as shown in Figure 6.

V. PUBLIC INFORMATION SYSTEMS

There is currently no requirement that vehicles be equipped with an information system which is capable of providing the same or equivalent information to persons with hearing loss. While the Department of Transportation assesses available and soon-to-be
Announcements may be provided in a visual format by the use of electronic message boards or video monitors. Electronic message boards using a light emitting diode (LED) or “flip-dot” display are currently provided in some transit stations and terminals and may be usable in vehicles. These devices may be used to provide real time or pre-programmed messages; however, real time message displays require the availability of an employee for keyboard entry of the information to be announced. Video monitor systems, such as visual paging systems provided in some airports (e.g., Baltimore-Washington International Airport), are another alternative. The Architectural and Transportation Barriers Compliance Board (Access Board) can provide technical assistance and information on these systems (“Airport TDD Access: Two Case Studies,” (1990)).

B. Assistive Listening Systems

Assistive listening systems (ALS) are intended to augment standard public address and audio systems by providing signals which can be received directly by persons with special receivers or their own hearing aids and which eliminate or filter background noise. Magnetic induction loops, infra-red and radio frequency systems are types of listening systems which are appropriate for various applications.

An assistive listening-system appropriate for transit vehicles, where a group of persons or where the specific individuals are not known in advance, may be different from the system appropriate for a particular individual provided as an auxiliary aid or as part of a reasonable accommodation. The appropriate device for an individual is the type that individual can use, whereas the appropriate system for a station or vehicle will necessarily be geared toward the “average” or aggregate needs of various individuals. Earphone jacks with variable volume controls can benefit only people who have slight hearing loss and do not help people who use hearing aids. At the present time, magnetic induction loops are the most feasible type of listening system for people who use hearing aids equipped with “T-coils”, but people without hearing aids or those with hearing aids not equipped with inductive pick-ups cannot use them without special receivers. Radio frequency systems can be extremely effective and inexpensive. People without hearing aids can use them, but people with hearing aids need a special receiver to use them as they are presently designed. If hearing aids had a jack to allow a by-pass of microphones, then radio frequency systems would be suitable for people with and without hearing aids. Some listening systems may be subject to interference from other equipment and feedback from hearing aids of people who are using the systems. Such interference can be controlled by careful engineering design that anticipates feedback sources in the surrounding area.

The Architectural and Transportation Barriers Compliance Board (Access Board) has published a pamphlet on Assistive Listening Systems which lists demonstration centers across the country where technical assistance can be obtained in selecting and installing appropriate systems. The state of New York has also adopted a detailed technical specification which may be useful.

VI. OVER-THE-ROAD BUSES

A. Door Width

Achieving a 30 inch wide front door on an over-the-road bus is considered not feasible if doing so would necessitate reduction of the bus approach angle, relocating the front axle rearward, or increasing the bus overall length.

B. Restrooms

The following is provided to assist manufacturers and designers to create restrooms which can be used by people with disabilities. These specifications are derived from requirements for rail vehicles and represent compromises between space needed for use and constraints imposed by vehicle dimensions. As a result, some persons with disabilities cannot use a restroom which meets these specifications and operators who do provide such restrooms should provide passengers with disabilities sufficient advance information about design so that those passengers can assess their ability to use them. Designers should provide additional space beyond these minimum specifications whenever possible.

(1) If an accessible restroom is provided, it should be designed so as to allow a person using a wheelchair or mobility aid to enter and use such restroom as specified in paragraphs (1)(a) through (e) of section VI.B of this appendix.

(a) The minimum clear floor area should be 35 inches (890 mm) by 60 inches (1525 mm). Permanently installed fixtures may overlap this area a maximum of 6 inches (150 mm), if
the lowest portion of the fixture is a minimum of 9 inches (230 mm) above the floor, and may overlap a maximum of 19 inches (485 mm), if the lowest portion of the fixture is a minimum of 29 inches (740 mm) above the floor, provided such fixtures do not interfere with access to the water closet. Fold-down or retractable seats or shelves may overlap the clear floor space at a lower height provided they can be easily folded up or moved out of the way.

(b) The height of the water closet should be 17 inches (430 mm) to 19 inches (485 mm) measured to the top of the toilet seat. Seats should not be sprung to return to a lifted position.

(c) A grab bar at least 24 inches (610 mm) long should be mounted behind the water closet, and a horizontal grab bar at least 40 inches (1015 mm) long should be mounted on at least one side wall, with one end not more than 12 inches (305 mm) from the back wall, at a height between 33 inches (840 mm) and 36 inches (915 mm) above the floor.

(d) Faucets and flush controls should be operable with one hand and should not require tight grasping, pinching, or twisting of the wrist. The force required to activate controls should be no greater than 5 lbs (22.2 N). Controls for flush valves should be mounted no more than 44 inches (1120 mm) above the floor.

(e) Doorways on the end of the enclosure, opposite the water closet, should have a minimum clear opening width of 32 inches (815 mm). Door latches and hardware should be operable with one hand and should not require tight grasping, pinching, or twisting of the wrist.

(2) Accessible restrooms should be in close proximity to at least one seating location for persons using mobility aids and should be connected to such a space by an unobstructed path having a minimum width of 32 inches (815 mm).

C. Visibility Through a Window

Care should be taken so that the lift does not obscure the vision of the person occupying the securement position.

APPENDIX TO PART 1193—ADVISORY GUIDANCE

INTRODUCTION

1. This appendix provides examples of strategies and notes to assist in understanding the guidelines and are a source of ideas for alternate strategies for achieving accessibility. These strategies and notes are not mandatory. A manufacturer is not required to incorporate all of these examples or any specific example. Manufacturers are free to use these or other strategies in addressing the guidelines. The examples listed...
those sources. Ultimately, the priority or weight of these factors is a compliance issue, under the jurisdiction of the Federal Communications Commission (FCC). Factors applicable to a determination of whether an action is readily achievable include: the nature and cost of the action needed to provide accessibility or compatibility; the overall resources of the manufacturer, including financial resources, technical expertise, component supply sources, equipment, or personnel; the overall financial resources of any parent corporation or entity, only to the extent such resources are available to the manufacturer; and whether the accessibility solution results in a fundamental alteration of the product.

a. One factor in making readily achievable assessments is the nature and cost of the action needed to provide accessibility or compatibility. The term readily achievable means that an action is “readily accomplishable and able to be carried out without much difficulty or expense.” The nature of the action or solution involves how easy it is to accomplish, including the availability of technology and expertise, and the ability to incorporate the solution into the production process. Obviously, knowing about an accessibility solution, even in detail, does not mean it is readily achievable for a specific manufacturer to implement it immediately. Even if it only requires substituting a different, compatible part, the new part must be ordered and integrated into the manufacturing process. A more extreme implementation might require re-tooling or redesign. On the other hand, a given solution might be so similar to the current design, development and fabrication process that it is readily achievable to implement it virtually overnight.

b. Another factor in making readily achievable assessments is the overall resources of the manufacturer, including financial resources, technical expertise, component supply sources, equipment, or personnel. The monetary resources of a manufacturer are obviously a factor in determining whether an action is readily achievable, but it may be appropriate to consider other resources, as well. For example, a company might have ample financial resources and, at first glance, appear to have no reason for not including a particular accessibility feature in a given product. However, it might be that the company lacks personnel with experience in software development, for example, needed to implement the design solution. One might reason that, if the financial resources are available, the company should hire the appropriate personnel, but, if it does, it may no longer have the financial resources to implement the design solution. One would expect that the company would develop the technical expertise over time and that eventually the access solution might become readily achievable.

c. Another factor in making readily achievable assessments is the overall financial resources of any parent corporation or entity, only to the extent such resources are available to the manufacturer. Both the ADA statutory definition of readily achievable and the DOJ regulations define the resources of a parent company as a factor. However, such resources are considered only to the extent those resources are available to the subsidiary. If, for example, the subsidiary is responsible for product design but the parent company is responsible for overall marketing, it may be appropriate to expect the parent company to address accessibility early in the marketing goals. If, on the other hand, the resources of a parent company are not available to the subsidiary, they may not be relevant. This determination would be made on a case-by-case basis.

d. A fourth factor in making readily achievable assessments is whether the accessibility solution results in a fundamental alteration of the product. This factor, derived by extension from the “undue burden” criteria of the ADA, takes into consideration the effect adding an accessibility feature might have on a given product. For example, it may not be readily achievable to add a large display for low vision users to a small pager designed to fit in a pocket, because making the device significantly larger would be a fundamental alteration of the device. On the other hand, adding a voice output may not involve a fundamental alteration and would serve both blind and low vision users. In addition, adding an infrared port might be readily achievable and would allow a large display peripheral device to be coupled to it. Of course fundamental alteration means a change in the fundamental characteristic of the product, not merely a cosmetic or aesthetic change.

SUBPART B—GENERAL REQUIREMENTS

Section 1193.23 Product Design, Development and Evaluation

Paragraph (a)

1. This section requires manufacturers to evaluate the accessibility, usability, and compatibility of telecommunications equipment and customer premises equipment and incorporate such evaluation throughout product design, development, and fabrication, as early and consistently as possible. Manufacturers must develop a process to ensure that products are designed, developed and fabricated to be accessible whenever it is readily achievable. Since what is readily achievable will vary according to the stage of development (i.e., some things will be readily achievable in the design phase which
may not be in later phases), barriers to accessibility and usability must be identified throughout product design and development, from conceptualization to production. Moreover, accessibility can be seriously affected even after production, if information is not provided in an effective manner.

2. The details of such an evaluation process will vary from one company to the next, so this section does not specify its structure or specific content. Instead, this section sets forth a series of factors that a manufacturer must consider in developing such a process. How, and to what extent, each of the factors is incorporated in a specific process is up to the manufacturer.

3. Different manufacturers, or even the same manufacturer at different times, may not have the flexibility to tailor any such plan to its own particular needs. This section does not prescribe any particular plan or content. It does not require that such a process be submitted to any entity or that it even be in writing. The requirement is outcome-oriented, and a process could range from purely conceptual to formally documented, as suits the manufacturer.

4. The goal is for designers to be aware of access and incorporate such considerations in the conceptualization of new products. When an idea is just beginning to take shape, a designer would ask, “How would a blind person use this product? How would a deaf person use it?” The sooner a manufacturer makes its design team cognizant of design issues for achieving accessibility; and proven solutions for accessibility and compatibility, the easier this process will be.

Paragraph (b)(1)

Market Research

1. The guidelines do not require market research, testing or consultation, only that they be considered and incorporated to the extent deemed appropriate for a given manufacturer. If a manufacturer has a large marketing effort, involving surveys and focus groups, it may be appropriate to include persons with disabilities in such groups. On the other hand, some small companies do not do any real marketing, per se, but may just notice that a product made by XYZ Corporation is selling well and, based on this “marketing survey” it decides it can make a cheaper one. Clearly, “involvement” of persons with disabilities is not appropriate in this case.

2. A manufacturer must consider how it could include individuals with disabilities in target populations of market research. It is important to realize that any target population for which a manufacturer might wish to focus a product contains individuals with disabilities, whether it is teenagers, single parents, women between the ages of 25 and 40, or any other subgroup, no matter how narrowly defined. Any market research which excludes individuals with disabilities will be deficient.

Paragraph (b)(2)

Product Design, Testing, Pilot Demonstrations, and Product Trials

1. Including individuals with disabilities in product design, testing, pilot demonstrations, and product trials will encourage appropriate design solutions to accessibility barriers. In addition, such involvement may result in designs which have an appeal to a broader market.

Paragraph (b)(3)

Working Cooperatively With Appropriate Disability-Related Organizations

1. Working cooperatively with appropriate disability-related organizations is one of the factors that manufacturers must consider in their product design and development process. The primary reason for working cooperatively is to exchange relevant information. This is a two-way process since the manufacturer will get information on barriers to the use of its products, and may also be alerted to possible sources for solutions. The process will also serve to inform individuals with disabilities about what is readily achievable. In addition, manufacturers will have a conduit to a source of subjects for market research and product trials.

2. Manufacturers should consult with representatives from a cross-section of disability groups, particularly individuals whose disabilities affect hearing, vision, movement, manipulation, speech, and interpretation of information.

3. Because of the complex interrelationship between equipment and services in providing accessibility to telecommunications products, coordination and cooperation between manufacturers and service providers will be beneficial. Involving service providers in the product development process will encourage appropriate design solutions to accessibility barriers and permit the exchange of relevant information.

Paragraph (b)(4)

Making Reasonable Efforts To Validate Unproven Access Solutions

1. Manufacturers must consider how they can make reasonable efforts to validate any unproven access solutions through testing with individuals with disabilities or with appropriate disability-related organizations that have established expertise with individuals with disabilities. It is important to obtain input from persons or organizations with established expertise to ensure that input is not based merely on individual preferences or limited experience.
2. This input should be sought from representatives from a cross-section of disability groups, particularly individuals whose disabilities affect hearing, vision, movement, manipulation, speech, and interpretation of information.

SUBPART C—REQUIREMENTS FOR ACCESSIBILITY AND USABILITY

Section 1193.33 Information, Documentation, and Training

Paragraph (a)

1. This section requires that manufacturers provide access to information and documentation. The information and documentation includes user guides, installation guides, and product support communications, regarding both the product in general and the accessibility features of the product. Information and documentation should be provided to people with disabilities at no additional charge. Alternate formats or alternate modes of this information is also required to be available. Manufacturers should also encourage distributors of their products to establish information dissemination and technical support programs similar to those established by the manufacturer.

Alternate Formats and Alternate Modes

1. Alternate formats may include, but are not limited to, Braille, ASCII text, large print, and audio cassette recording. Alternate formats may include, but are not limited to, voice, fax, relay service, TTY, Internet posting, captioning, text-to-speech synthesis, and video description.

2. In considering how to best provide product information to people with disabilities, it is essential that information be provided in an alternate format or mode that is usable by the person needing the information. For example, some individuals who are blind might require a manual in Braille to understand and use the product effectively. Other persons who are blind may prefer this information on a computer disk. Persons with limited reading skills may need this information recorded on audio cassette tape so they can listen to the manual. Still other persons with low vision may be able to read the text version of the manual if it is provided in a larger font. Likewise, if a tutorial video is provided, persons who are deaf may require a captioned version so that they will understand how to use the product effectively. Finally, individuals who rely on TTYs will need direct TTY access to a customer service line so they can ask questions about a product like everyone else.

3. This portion of the appendix explains how to provide information in alternate formats (Braille, ASCII text, large print, audio cassette) to persons with disabilities.¹

Braille

4. Some persons who are blind rely on the use of Braille in order to obtain information that is typically provided in print. These persons may need Braille because of the nature of their disability (such as persons who are deaf-blind) or because of the complexity of the material. Most large urban areas have companies or organizations which can translate printed material to Braille. On the other hand, manufacturers may wish to consider producing Braille documents "in house" using a personal computer, Braille translation software, and a Braille printer. The disadvantage is the difficulty in ensuring quality control and accuracy. Software programs exist which can translate common word processing formats directly into Braille, but they are not always error free, especially if the document contains special characters, jargon, graphics, or charts. Since the typical office worker will not be able to proofread a Braille document, the initial apparent cost saving may be quickly lost by having to re-do documents. The Braille translation software costs approximately $500 and most Braille printers sold range from $2,000 to $5,000, however some Braille printers, depending on the speed and other features, do cost more. Depending on the quality of Braille to be generated, a Braille printer in the $4,000 range should be adequate for most users. By using automatic translation software, individuals who do not have knowledge of Braille or who have limited computer skills may be able to produce simple Braille documents without much trouble. If the document is of a complex format, however, such as a text box over multiple columns, a sophisticated knowledge of Braille translation software and formatting will be required.

Electronic Text

5. People who are blind or have low vision and who have access to computers may be able to use documents in electronic form. Electronic text must be provided in ASCII or a properly formatted word processor file. Using electronic text allows this information to be transmitted through e-mail or other on-line telecommunications. Blind or low vision persons who have access to a personal computer can then read the document using synthetic speech, an electronic Braille display, a large print computer monitor, or they can produce a hard copy in large print or Braille.

¹This information was provided by the American Foundation for the Blind.
6. Documents prepared for electronic transmission should be in ASCII. Documents supplied on disk should also be provided in either ASCII or a word processor format usable by the customer. Word processing documents should be properly formatted before distribution or conversion to ASCII. To be correctly formatted, the documents should be in Courier 10 point size and formatted for an 80 character line. Tables should be converted to plain text. Graphics or text boxes should be deleted and explained or described in text format. This will allow the reader to understand all of the documentation being presented. Replace bullets (•) with “+” or “-” and convert other extended ASCII characters into text. When converting a document into ASCII or word processor formats, it is important to utilize the appropriate “tab key” and “centering key” rather than using the space bar. This is necessary because Braille translation software relies on the proper use of commands to automate the formatting of a Braille document.

Large Print

7. Persons with low vision may require documentation to be provided in large print. Large print documents can easily be produced using a scalable font from any good word processing program and a standard laser printer. Using the document enlargement option on a photocopier will usually yield unsatisfactory results.

8. To obtain the best results follow these guidelines:
   a. It is preferable to use paper that is standard 8½ x 11 inches. Larger paper may be used, but care should be taken that a document does not become too bulky, thus making it difficult to read. Always use 1 inch margins. Lines longer than 6½ inches will not track well for individuals who must use a magnifier.
   b. The best contrast with the least glare is achieved on very pale yellow or cream-colored non-glossy paper, such as paper that is used for photocopying purposes. To produce a more aesthetic looking document, an off-white paper may be used and will still give good contrast while producing less glare than white. Do not use dark colors and shades of red. Double-sided copying (if print does not bleed through) will produce a less bulky document.
   c. Remove formatting codes that can make reading more difficult. For example, centered or indented text could be difficult to track because only a few words will fit on a line. All text should begin at the left margin. Use only left margin justification to maintain uniform spacing across lines. Right margin justification can produce uneven spacing between letters and words. Use 1¼ (1.25) line spacing; do not double space. Replace tabs with two spaces. Page numbering should be at the top or bottom left. Avoid columns. If columns are absolutely necessary, use minimum space between columns. Use dot leaders for tabular material. For those individuals who are able to read graphics (via the use of a magnifier or other assistive device) graphics should be included, but placed on a separate page from the text. For those individuals with low vision who are unable to read graphics, tables, and charts this material must be removed from the document and an accurate description of this material should be included in a text format.
   d. There is no standard typeface or point size. For more universal access, use 18 point type; anything larger could make text too choppy to read comfortably. Use a good strong bold typeface. Do not use italics, fine, or fancy typefaces. Do not use compressed typefaces; there should be normal “white space” between characters.
   e. Use upper and lowercase letters.
   f. Using these instructions, one page of print (11-12 point type) will equal approximately three pages of large print (14-18 point) depending on the density of the text.

Cassette Recordings

9. Some persons who are blind or who have learning disabilities may require documentation on audio cassettes. Audio materials can be produced commercially or in-house. Agencies sometimes record material in-house and purchase a high speed tape duplicator ($1,000–2,000) which is used to make cassette copies from the master. The cost of a duplicator can be higher depending upon the number of copies produced on a single run, and whether the duplicator can produce standard speed two-sided copies or half-speed four-sided copies. Although unit costs can be reduced by using the four-track, half-speed format, this will require the reader to use a specially designed playback machine. Tapes should be produced with “tone indexing” to allow a user to skip back and forth from one section to another. By following a few simple guidelines for selecting readers and creating recordings, most organizations will be able to successfully record most simple documents.

10. Further guidance in making cassette recordings includes:
   a. The reader should be proficient in the language being recorded.
   b. The reader should be familiar with the subject. Someone who is somewhat familiar with the technical aspects of a product but who can explain functions in ordinary language would be a logical person to record an audio cassette.
   c. The reader should have good diction. Recording should be done in a conversational tone and at a conversational pace; neither too slow nor too fast.
   d. The reader should be familiar with the material to minimize stumbling and hesitation.
36 CFR Ch. XI (7–1–16 Edition)

Alternate Modes

11. Information is provided increasingly through a variety of means including television advertisements, Internet postings, information seminars, and telephone. This portion of the appendix explains how to provide information in some alternate modes (captioning, video description, Internet postings, relay service, and TTY).

Captioning

12. When manufacturers of telecommunications equipment or customer premises equipment provide videos with their products (such as tutorials or information explaining various components of a product) the video should be available with captioning. Closed captioning refers to assistive technology designed to provide access to television for persons with hearing disabilities that is visible only through the use of a decoder. Open captions are visible at all times. Captioning is similar to subtitles in that the audio portion of a television program is displayed as printed words on the television screen. Captions should be carefully placed to identify speakers, on-and off-screen sound effects, music and laughter. Increased captioning was made possible because of the Television Decoder Circuitry Act which requires all television sets sold in the United States with screens 13 inches or larger to have built-in decoder circuitry.

13. Although captioning technology was developed specifically to make television and video presentations accessible to deaf and hard of hearing people, there has been widespread interest in using this technology to provide similar access to meetings, classroom teaching, and conferences. For meetings, video-conferences, information seminars, and the like, real-time captioning is sometimes provided. Real-time captioning uses a stenographic machine connected to a computer with translation software. The output is then displayed on a monitor or projected on a screen.

Video Description

14. Just as manufacturers of telecommunications equipment and customer premises equipment need to make their videos accessible to persons who are deaf or hard of hearing, they must also be accessible to persons who are blind or have low vision. This process is known as video description. Video description may either be a separate audio track that can be played simultaneously with the regular audio portion of the video material (adding description during pauses in the regular audio), or it can be added to (or “mixed” with) an existing soundtrack. The latter is the technique used for videotapes.

Internet Postings

15. The fastest growing way to obtain information about a product is through use of the Internet, and specifically the World Wide Web. However, many Internet users with disabilities have difficulty obtaining this information if it is not correctly formatted. This section provides information on how to make a World Wide Web site more accessible to persons with disabilities.

16. The level of accessibility of the information on the Web is dependent on the format of the information, the transmission media, and the display system. Many of the issues related to the transmission media and the display system cannot be affected by the general user. On the other hand, anyone creating information for a Web server has control of the accessibility of the information. Careful design and coding of information will provide access to all people without compromising the power and elegance of the Web site.

17. A few suggestions are:

---

2 This information is based on the document “Writing HTML Documents and Implementing Accessibility for the World Wide Web” by Paul Fountaine, Center for Information Technology Accommodation, General Services Administration. For further information, see http://www.gsa.gov/coca.
a. Every graphic image should have associated text. This will enable a person using a character-based program, such as Lynx, to understand the material being presented in the graphical format. It also allows anyone who does not want to wait for graphics to load to have quick access to the information on the site.

b. Provide text transcriptions or descriptions for all audio output. This will enable people who are deaf or hard of hearing to have access to this information, as well as individuals who do not have sound cards.

c. Make any link text descriptive, but not verbose. For example, words like “this”, “here”, and “click” do not convey enough information about the nature of the link, especially to people who are blind. Link text should consist of substantive, descriptive words which can be quickly reviewed by the user. Conversely, link text which is too long bogs down efficient browsing.

d. Provide alternate mechanisms for online forms. Forms are not supported by all browsers. Therefore, it is important to provide the user with an opportunity to select alternate methods to access such forms.

e. All Web pages should be tested using multiple viewers. At a minimum, pages should be tested with the latest version of Lynx to ensure that they can be used with screen reader software.

Telecommunications Relay Services (TRS)

18. By using telecommunications relay services (TRS), it has now become easier for persons with hearing and speech disabilities to communicate by telephone. TRS links TTY users with those who do not have a TTY and use standard telephones. With TRS, a TTY user communicates with another person with the help of a communications assistant who is able to talk on the telephone and then communicate by typing the message verbatim, to the TTY user. The communications assistant also reads the message typed by the TTY user, or the TTY user may speak for him or herself using voice carry over.

19. There are now TRS programs in every state. Although TRS is very valuable, it does have limitations. For example, relay calls take longer, since they always involve a third party, and typing words takes longer than speaking words.

Text Telephones (TTYS)

20. A TTY also provides direct two-way typed conversations. The cost of these devices begins at approximately $200 and they can be operated by anyone who can type.

21. The following information is excerpted from the brochure “Using a TTY” which is available free of charge from the Access Board:

a. If the TTY line is also used for incoming voice calls, be sure the person who answers the phone knows how to recognize and answer a TTY call. You will usually hear silence, a high-pitched, electronic beeping sound, or a pre-recorded voice message when it is a TTY call. If there is silence, assume it is a TTY call.

b. TTYS should be placed near a standard telephone so there is minimal delay in answering incoming TTY calls.

c. To initiate a TTY call, place the telephone headset in the acoustic cups of the TTY adapter. If the TTY unit is directly connected to the phone line, there is no need to put the telephone headset in the acoustic cups. Turn the TTY on. Make sure there is a dial tone by checking for a steady light on the TTY status indicator.

d. Dial the number and watch the status indicator light to see if the dialed number is ringing. The ring will make a long slow flash or two short flashes with a pause in between. If the line is busy, you will see short, continuous flashes on the indicator light. When the phone is answered, you will see an irregular light signal as the phone is picked up and placed in the cradle. If you are calling a combination TTY and voice number, tap the space bar several times to help the person on the other end identify this as a TTY call.

e. The person who answers the call is the first to type. Answer the phone as you would by voice, then type “GA”.

f. “GA” means “I’m done, go ahead and type”. “HD” means hold. “GA or SK” means “Is there anything more, I’m done”. “SK” means stop keying. This is how you show that the conversation is ended and that you will hang up. It is polite to type good-bye, thank you for calling, or some other closing remark before you type “SK”. Stay on the line until both parties type SKSK.

22. Because of the amount of time it takes to send and receive messages, it is important to remember that short words and sentences are desired by both parties. With some TTY calls it is often not possible to interrupt the other person is typing. If you get a garbled message in all numbers or mixed numbers and letters, tap the space bar and see if the message clears up. If not, when the person stops typing, you should type. “Message garbled, please repeat.” If the garbled messages continue, this may mean that one of the TTYS is not working properly, there is background noise causing interference, or that you may have a bad connection. In this case you should say something like, “Let’s hang up and I’ll call you back.”

23. The typical TTY message will include many abbreviations and jargon. The message may also include misspelled words because, if the meaning is clear, many callers will not bother to correct spelling since it takes more time. Also, some TTY users communicate in American sign language, a language with its own grammar and syntax. English may be a second language. Extend the same patience.
and courtesy to TTY callers as you do to all others.

Paragraph (b)

1. This paragraph requires manufacturers to supply a point of contact for obtaining information about accessibility features of the product and how to obtain documents in alternate formats. This could be the name of a specific person, a department or an office. Supplying a telephone number, and preferably a separate TTY number, is the most universal method. Web site and e-mail addresses are also desirable, but should not substitute for a telephone number since many more people have access to a telephone than have e-mail or Internet access. Of course, the means for requesting additional accessibility information must, itself, be accessible.

2. Automated voice response systems are not usable by deaf and hard of hearing persons. An approach to consider is to augment an automated voice response system with an automated TTY response system that also detects whether a caller is using voice or TTY.

3. The phone number should be prominently displayed in product literature. Ideally, it should be displayed on the outside of the package so that a potential buyer can obtain information about the accessibility before purchase. In addition, manufacturers should acquaint their distributors with this information so that they can assist customers with disabilities, such as a blind person unable to read the package information.

Paragraph (c)

1. This paragraph requires manufacturers to consider including information on accessibility in training a manufacturer provides to its staff. For example, if technical support staff are trained on how to provide good technical support, such a program should be expanded to include information on accessibility features of the manufacturer’s products and peripheral devices that are compatible with them. Such staff should also have basic information on how to handle TTY and relay calls. Personnel who deal directly with the public, including market researchers, should be trained in basic disability ‘‘etiquette.’’

Section 1193.35 Redundancy and Selectability (Reserved)

1. Although this section is reserved, manufacturers of telecommunications equipment and customer premises equipment are encouraged to provide redundancy such that input and output functions are available in more than one mode.

2. Alternate input and output modes should be selectable by the user.

3. Products should incorporate multiple modes for input and output functions so the user is able to select the desired mode.

a. Since there is no single interface design that accommodates all disabilities, accessibility is likely to be accomplished through various product designs which emphasize interface flexibility to maximize user configurability and multiple, alternative and redundant modalities of input and output.

b. Selectability is especially important where an accessibility feature for one group of individuals with disabilities may conflict with an accessibility feature for another. This potential problem could be solved by allowing the user to switch one of the features on and off. For example, a conflict may arise between captioning (provided for persons who are deaf or hard of hearing) and a large font size (provided for persons with low vision). The resulting caption would either be so large that it obscures the screen or need to be scrolled or displayed in segments for a very short period of time.

c. It may not be readily achievable to provide all input and output functions in a single product or to permit all functions to be selectable. For example, switching requires control mechanisms which must be accessible and it may be more practical to have multiple modes running simultaneously. Whenever possible, it is preferable for the user to be able to turn on or off a particular mode.

4. Some experiments with smart cards are showing promise for enhancing accessibility. Instead of providing additional buttons or menu items to select appropriate input and output modes, basic user information can be stored on a smart card that triggers a custom configuration. For example, insertion of a particular card can cause a device to increase the font size on a display screen or activate speech output. Another might activate a feature to increase volume output, lengthen the response time between sequential operations, or allow two keys to be pressed sequentially instead of simultaneously. This technology, which depends on the issuance of a customized card to a particular individual, would allow redundancy and selectability without adding additional controls which would complicate the operation. As more and more functions are provided by software rather than hardware, this option may be more readily achievable.

5. The increasing use of ‘‘plug-ins’’ allow a product to be customized to the user’s needs. Plug-ins function somewhat like peripheral devices to provide accessibility and there is no fundamental problem in using plug-ins to provide access, as long as the accessibility plug-ins are provided with the product. For example, at least one computer operating system comes packaged with accessibility enhancements which a user can install if wanted. In addition, modems are typically
section 1193.41 Input, Controls, and Mechanical Functions

Paragraph (a)
Operable Without Vision

1. Individuals who are blind or have low vision cannot locate or identify controls, latches, or input slits by sight or operate controls that require sight. Products should be manufactured to be usable independently by these individuals. For example, individuals who cannot see must use either touch or sound to locate and identify controls. If a product uses a flat, smooth touch screen or touch membrane, the user without vision will not be able to locate the controls without auditory or tactile cues.

2. Once the controls have been located, the user must be able to identify the various functions of the controls. Having located and identified the controls, individuals must be able to operate them.

3. Below are some examples of ways to make products accessible to persons with visual disabilities:

a. If buttons are used on a product, make them discrete buttons which can be felt and located by touch. If a flat membrane is used for a keyboard, provide a raised edge around the control areas or buttons to make it possible to locate the keys by touch. Once an individual locates the different controls, he or she needs to identify what the keys are. If there is a standard number pad arrangement, putting a nib on the “5” key may be all that is necessary for identifying the numbers. On a QWERTY keyboard, putting a tactile nib on the “F” and “J” keys allows touch typists to easily locate their hands on the key.

b. Provide distinct shapes for keys to indicate their function or make it easy to tell them apart. Provide Braille labels for keys and controls for those who read Braille to determine the function and use of controls.

c. Provide large raised letters for short labels on large objects. Where it is not possible to use raised large letters, a voice mode selection could be incorporated that announces keys when pressed, but does not activate them. This would allow people to turn on the voice mode long enough to explore and locate the item they are interested in, then release the voice mode and press the control. If it is an adjustable control, voice confirmation of the status may also be important.

d. Provide tactile indication on a plug which is not a self-orienting plug. Wireless connections, which eliminate the need to orient or insert connectors, also solve the problem.

e. Avoid buttons that are activated when touched to allow an individual to explore the controls to find the desired button. If touch-activated controls cannot be avoided (for example, on a touch screen), provide an alternate mode where a confirm button is used to confirm selections (for example, items are read when touched, and activated when the confirm button is pressed). All actions should be reversible, or require confirmation before executing non-reversible actions.

f. Once controls have been located and users know what the functions are, they must be operable. Some types of controls, including mouse devices, track balls, dials without markings or stops, and push-button controls with only one state, where the position or setting is indicated only by a visual cue, will not be usable by persons who are blind or have low vision. Providing a rotational or linear stop and tactile or audio detents is a useful strategy. Another is to provide keyboard or push-button access to the functions. If the product has an audio system and microprocessor, use audio feedback of the setting. For simple products, tactile markings may be sufficient.

g. Controls may also be shaped so that they can easily be read by touch (e.g., a twist knob shaped like a pie wedge). For keys which do not have any physical travel, some type of audio or tactile feedback should be provided so that the individual knows when the key has been activated. A two-state key (on/off) should be physically different in each position (e.g., a toggle switch or a push-in/pop-out switch), so the person can tell what state the key is in by feeling it.

h. If an optional voice mode is provided for operating a product, a simple “query” mode can also be provided, which allows an individual to find out the function and state of a switch without actually activating it. In some cases, there may be design considerations which make the optimal mode for a sighted person inaccessible to someone without vision (e.g., use of a touch screen or mouse). In these cases, a primary strategy may be to provide a closely linked parallel method for efficiently achieving the same results (e.g., keyboard access) if there is a keyboard, or “SpeedList” access for touch screens.
Paragraph (b)
Operable With Low Vision and Limited or No Hearing

1. Individuals with low vision often also have hearing disabilities, especially older individuals. These persons cannot rely solely on audio access modes commonly used by people who are blind. Tactile strategies are still quite useful, although many older persons may not be familiar with Braille. The objective, therefore, is to maximize the number of people who can use their residual vision, combined with tactile senses, to operate a product.

2. Strategies for addressing this provision may include the following: 
   a. Make the information on the product easier to see. Use high-contrast print symbols and visual indicators, minimize glare on the display and control surfaces, provide adequate lighting, position controls near the items they control to make them easy to find, and use Arabic instead of Roman numerals.
   b. The type-face and type-spacing used can greatly affect legibility. The spacing between letters should be approximately \( \frac{1}{2} \) the height of uppercase letters and the spacing should be uniform from one label to the next. Also, symbols can sometimes be used which are much more legible and understandable than fine print.
   c. Where the display is dynamic, provide a means for the user to enlarge the display and to “freeze” it. In addition to making it easier to see, there are strategies which can be used to reduce the need to see things clearly in order to operate them.
   d. A judicious use of color-coding, always redundant with other cues, is extremely helpful to persons with low vision. These cues should follow standard conventions, and can be used to reduce the need to read labels (or read labels more than the first time). In addition, all of the tactile strategies discussed under section 1193.41 (a) can also be used here.

Paragraph (c)
Operable With Little or No Color Perception

1. Many people are unable to distinguish between certain color combinations. Others are unable to see color at all.

2. Strategies for addressing this provision include:
   a. Eliminate the need for a person see color to operate the product. This does not eliminate the use of color completely but rather requires that any information essential to the operation of a product also be conveyed in some other fashion.
   b. Avoid color pairs such as redgreen and blue/yellow, that are indistinguishable by people with limited color perception.
   c. Provide colors with different hues and intensity so that colored objects can be distinguished even on a black and white screen by their different appearance. Depending upon the product, the manufacturer may also be able to allow users to adjust colors to match their preferences and visual abilities.
   d. Avoid colors with a low luminance.

Paragraph (d)
Operable Without Hearing

1. Individuals who are deaf or hard of hearing cannot locate or identify controls that require hearing. Products that provide only audio prompts cannot be used by individuals who are deaf or hard of hearing. For example, a voice-based interactive product that can be controlled only by listening to menu items and then pressing buttons is not accessible. By addressing the output issues under section 1193.43(d) many accessibility problems that affect input under this section can be solved.

2. Some strategies include:
   a. Text versions of audio prompts could be provided which are synchronized with the audio so that the timing is the same.
   b. If prompts are provided visually and no speech or vocalization is required, most problems associated with locating, identifying, and operating controls without hearing will be solved.

Paragraph (e)
Operable With Limited Manual Dexterity

1. Individuals may have difficulty manipulating controls on products for any number of reasons. Though these disabilities may vary widely, these persons have difficulty grasping, pinching, or twisting objects and often have difficulty with finer motor coordination. Some persons may use a headstick, mouthstick, or artificial limb.

2. Below are some strategies which will assist in designing products which will meet the needs of these persons:
   a. Provide larger buttons and controls, or buttons which are more widely spaced, to reduce the likelihood that a user will accidentally activate an adjacent control.
   b. Provide guard bars between the buttons or near the buttons so that accidental movements would hit the guard bars rather than accidentally bumping switches.
   c. Provide an optional mode where buttons must be depressed for a longer period of time (e.g., SlowKeys) before they would accept input to help separate between inadvertent motions or bumps and desired activation.
   d. Where two buttons must be depressed simultaneously, provide an option to allow them to be activated sequentially (e.g., StickKeys).
   e. Avoid buttons which are activated merely by touch, such as capacitance switches. Where that is difficult to do (e.g., with touchscreens), provide a “confirm” button.
which an individual can use to confirm that the item touched is the desired one. Also, make all actions reversible, or request confirmation before initiating non-reversible actions.

f. Avoid latches, controls, or key combinations which require simultaneous activation of two or more buttons, or latches. Also, avoid any controls or controls which require rotation of the wrist or pinching and twisting. Where this is not possible, provide alternate means for achieving the same functions.

g. Controls which have non-slip surfaces and those that can be operated with the side of the hand, elbow or pencil can be used to minimize physical activity required. In some cases, rotary controls can be used if they can be operated without grasping and twisting (e.g., a thin pie slice shape control or an edge control). Providing a concave top on buttons makes them easier to use.

h. Make it easier to insert cards or connectors by providing a bevel around the slot or connector, or use cards or connectors which can be inserted in any orientation or which self-center or self-align. Placing the slot or connector on the front and near a ledge or open space allows individuals to brace their hands or arms to make use of the slot or connector easier.

1. For some designs, controls which pose problems for individuals with disabilities may be the most efficient, logical or effective mechanism for a majority of users. In these cases, provide alternate strategies for achieving the same functions, but which do not require fine manipulation. Speech input or voice recognition could be provided as an alternate input, although it should not be the only input technique.

Paragraph (f)

Operable With Limited Reach and Strength

1. Some individuals may have difficulty operating systems which require reach or strength. The most straightforward solution to this problem is to place the controls where they can be easily reached with minimal change to body position. Many products also have controls located on different parts of the product.

2. When this is the case, the following strategies may be used:

a. Allow the functions to be controlled from the keyboard, which is located directly in front of the user.

b. Allow voice recognition to be used as an option. This provides input flexibility, but should never be the only means for achieving a function.

c. Provide a remote control option that moves all of the controls for the product together on a unit that can be positioned optimally for the individual. This allows the individual to operate the product without having to move to it. If this strategy is used, a standard communication format would be important to allow the use of alternate remote controls for those who cannot use the standard remote control.

d. Reduce the force needed to operate controls or latches and avoid the need for sustained pressure or activity (e.g., use guards rather than increased strength requirements to avoid accidental activation of crucial switches).

e. Provide arm or wrist rests or supports, create short cuts that reduce the number of actions needed, or completely eliminate the need to operate controls wherever possible by having automatic adjustments.

f. Section 4.34.3 of the Americans with Disabilities Act Accessibility Guidelines (ADAAG) also contains specific information concerning reach ranges. ADAAG gives specific guidance concerning access to the built environment. Section 4.34.3 indicates the reach ranges for a front or parallel approach to equipment for individuals using a wheelchair. This information may prove useful for telecommunications manufacturers whose equipment is stationary, such as an information kiosk.

Paragraph (g)

Operable Without Time-Dependent Controls

1. Many persons find it very difficult to operate time-dependent controls.

2. Some strategies which address this problem include:

a. Avoid any timed-out situations or provide instances where the user must respond to a question or moving display in a set amount of time or at a specific time (e.g., a rotating display).

b. Where timed responses are required or appropriate, allow the user to adjust them or set the amount of time allotted to complete a given task. Warn users that time is running out and allow them to secure extended time.

c. If the standard mode of operation would be awkward or inefficient, then provide an alternate mode of operation that offers the same functions.

Paragraph (h)

Operable Without Speech

1. Many individuals cannot speak or speak clearly. Products which require speech in order to operate them should also provide an alternate way to achieve the same function.

2. Some strategies to achieve this include:

a. Provide an alternate mechanism for achieving all of the functions which are controlled by speech. If a product includes speech identification or verification, provide an alternate mechanism for this function as well.
b. Include individuals who are deaf or who have speech disabilities in the subject populations that are used to develop voice recognition algorithms, so that the algorithms will better accommodate a wider range of speech patterns.

Paragraph (i)

Operable With Limited Cognitive Skills

1. Many individuals have reduced cognitive abilities, including reduced memory, sequence tracking, and reading skills. This does not necessarily prevent these persons from using a telecommunications product or feature.

2. The following strategies are extensions of techniques for making products easier for everyone to learn and use:
   a. Use standard colors and shapes and group similar functions together. On products which have some controls that are used by everyone and other controls which would only be used by advanced users, it is generally good practice to separate the two, putting the more advanced features behind a door or under a separate menu item.
   b. Products which read the contents of the display aloud, or controls which announce their settings, are easier for individuals who have difficulty reading.
   c. Design products that are self-adjusting to eliminate additional controls which must be learned, and reduce the visual clutter.
   d. On products which have sign-in procedures, allow user settings to be associated with them when they sign in or insert their identification card. The system can then autoconfigure to them. Some new “smart cards” are being designed with user preferences encoded on the card.
   e. Where a complex series of steps is required, provide cueing to help lead the person through the process. It is also helpful to provide an “undo” or back up function, so that any mistakes can be easily corrected. Most people will find this function helpful.
   f. Where functions are not reversible, request some type of confirmation from the user before proceeding. On labels and instructions, it is helpful to use short and simple phrases or sentences. Avoid abbreviations wherever possible. Eliminate the need to respond within a certain time or to read text within a certain time.

Section 1193.43 Output, Displays, and Control Functions

Paragraph (a)

Availability of Visual Information

1. Just as persons with visual or cognitive disabilities need to be able to operate the input, controls, and mechanical functions of a product, they must also have access to the output functions.

2. The following are strategies for addressing this provision:
   a. Provide speech output of all displayed text and labels. For information which is presented in non-text form (e.g., a picture or graphic), provide a verbal description unless the graphic is just decorative. When speech output is provided, allow for the spoken message to be repeated if the message is very long. Also, if the information being provided is personal in nature, it is recommended that headphones be provided in order to assure privacy. A message for stepping through menus is also helpful.
   b. Providing Braille labels for controls is an extremely effective mechanism for those individuals who read Braille.
   c. Large raised print can also be used but is generally restricted to rather large objects due to the size of the letters.

Paragraph (b)

Availability of Visual Information for Low Vision Users

1. Individuals with low vision often also have hearing disabilities, especially older individuals. These persons cannot rely solely on audio access modes commonly used by people who are blind. Tactile strategies are still quite useful. Many people who have low vision can use their vision to access visually presented information on a product.

2. Strategies for meeting this provision involve:
   a. Provide larger, higher contrast text and graphics. Individuals with 20/200 vision can see lettering if they get close to it, unless it is very small or has very poor contrast. Although 14 or 18 point type is recommended for visual displays, it is usually not possible to put this size text on small products.
   b. Make the lettering as large and high contrast as possible to maximize the number of people who can use the product.
   c. On displays where the font size can be varied, allow the user to increase the font size, even if it means that the user must pan or move in order to see the full display.

Paragraph (c)

Access to Moving Text

1. Moving text can be an access problem because individuals with low vision, or other disabilities may find it difficult or impossible to track moving text with their eyes.

2. Strategies to address this requirement may include the following:
   a. Provide a mechanism for freezing the text. Thus, persons could read the stationary text and obtain the same information.
   b. Provide scrolling to display one full line at a time, with a pause before the next line replaces it.
   c. Provide the same information in another type of display which does not move. The
right-to-left scrolling text on a TTY does not usually present a problem because it can be controlled by asking the sender to type slower or pause at specified intervals.

Paragraph (d)

Availability of Auditory Information

1. Individuals who have hearing disabilities are unable to receive auditory output, or mechanical and other sounds that are emitted by a product. These sounds are often important for the safe or effective operation of the product. Therefore, information which is presented auditorially should be available to all users.

2. Some strategies to achieve this include the following:
   a. Provide a visual or tactile signal that will attract the person’s attention and alert the user to a call, page, or other message, or to warn the user of significant mechanical difficulties in the product.
   b. In portable products, a tactile signal such as vibration is often more effective than a visual signal because a visual signal may be missed. An auxiliary vibrating signaler might be effective if it is not readily achievable or effective to build vibration into a portable product.
   c. For stationary products, a prominent visual indicator in the field of vision (e.g., a screen flash for a computer, or a flashing light for a telephone) is effective. To inform the user of the status of a process (e.g., line status on a telephone call, power on, saving to disk, or disconnected), text messages may be used. It is also desirable to have an image or light that is activated whenever acoustic energy is present on a telephone line.
   d. Speech messages should be portrayed simultaneously in text form and displayed where easily seen by the user. Such captions should usually be verbatim and displayed long enough to be easily read. If the product provides speech messages and the user must respond to those messages (e.g., interactive voice response and voice mail), a TTY accessible method of accessing the product could be provided.
   e. TTY to TTY long distance and message unit calls from pay telephones are often not possible because an operator says how much money must be deposited. Technology exists to have this information displayed on the telephone and a test installation is currently operating at the Butler plaza on the Pennsylvania Turnpike. In addition, if the product provides interactive communication using speech and video, it would be helpful to provide a method and channel for allowing non-speech communication (e.g., text conversation) in parallel with the video.
   f. Certain operations of products make sounds that give status information, although these sounds are not programmed signals. Examples include the whir of an operating disk drive and the click of a key being pushed. Where sounds of this type provide information important for operating the product, such as a “beep” when a key is activated, provide a light or other visual confirmation of activation.

Paragraph (e)

Availability of Auditory Information for People Who Are Hard of Hearing

1. People who are hard of hearing but not deaf can often use their hearing to access auditory information on a product.

2. Strategies for addressing this requirement may include the following:
   a. Improve the signal to noise ratio by making the volume adjustable, between 18-25 dB, increasing the maximum undistorted volume, and minimizing background noise by such methods as better coupling between the signal source and the user.
   b. Alerting tones are most likely to be heard if they involve multiple tones, separated in frequency, which contrast with the environment.
   c. Occasionally, varying tones may be preferred for attracting attention. If speech is used, it is best to test its intelligibility with individuals who are hard of hearing to maximize its clarity and ease of understanding. Provide the ability for the user to have any messages repeated or to repeat the message if no response is received from the user.
   d. For essential auditory information, the information might be repeated and an acknowledgment from the user requested.
   e. The intelligibility of the output can also be maximized by the location of the speakers and by keeping the speakers away from noise sources. However, visual displays are often more desirable than loud prompts or alerts, because the latter reduce privacy and can annoy others unless the amplified signal is isolated by means of a headphone, induction coupling, direct plug-in to a hearing aid, or other methods.
   f. The use of a telephone handset or earcup which can be held up to the ear can improve intelligibility without disturbing others in the area. If a handset or earcup is used, making it compatible with a hearing aid allows users to directly couple the auditory signal to their hearing aids. If the microphone in the handset is not being used, turning it off will also reduce the amount of background noise which the person hears in the earpiece. Providing a headphone jack also allows individuals to plug in headphones, induction loops, or amplifiers which they may use to hear better.

Paragraph (f)

Prevention of Visually-Induced Seizures

1. Individuals with photo-sensitive epilepsy can have a seizure triggered by displays
which flicker or flash, particularly if the flash has a high intensity and within certain frequency ranges.

2. Strategies to address this requirement involve eliminating or eliminating screen flicker or image flashing to the extent possible. In particular, the rates of 2 Hz or lower or 70 Hz or higher are recommended. This recommendation reflects current research data on people with photosensitive epilepsy which indicates that the peak sensitivity for these individuals is 20 Hz and that the sensitivity then drops off in both directions.

3. The chance of triggering seizures can also be reduced by avoiding very bright flashes which occupy a large part of the visual field (particularly in the center of the visual field) in order to minimize the impact on the visual cortex.

Paragraph (g)

Availability of Audio Cutoff

1. Individuals using the audio access mode, as well as those using a product with the volume turned up, need a way to limit the range of audio broadcast.

2. If an audio headphone jack is provided, a cut-off switch can be included in the jack so that insertion of the jack would cut off the speaker. If a telephone-like handset is used, the external speakers can be turned off when the handset is removed from the cradle.

Paragraph (h)

Non-Interference With Hearing Technologies

1. Individuals who are hard of hearing use hearing aids and other assistive listening devices but these devices cannot be used if a telecommunications product introduces noise into the listening aids because of stray electromagnetic interference.

2. Strategies for reducing this interference (as well as improving hearing aid immunity) are being researched. The most desirable strategy is to avoid the root causes of interference when a product is initially designed. If the root sources of interference cannot be removed, then shielding, placement of components to avoid hearing aid interference, and field-canceling techniques may be effective. Standards are being developed to limit interference to acceptable levels, but complete elimination for some technologies may not yet be practical.

3. In April 1996, the American National Standards Institute (ANSI) established a task group (ANSI C63) under its sub-committee on medical devices to develop standards to measure hearing aid compatibility and accessibility to digital wireless telecommunications. The C63.19 task group is continuing to develop its standard, C63.19-1996X. American National Standard for Methods of Measurement for Hearing Aid Compatibility with Wireless Communications Devices. When the standard is completed, the Board intends to reference it in this appendix.

Paragraph (i)

Hearing Aid Coupling

1. Many individuals who are hard of hearing use hearing aids with a T-coil (or telecoil) feature to allow them to listen to audio output of products without picking up background noise and to avoid problems with feedback, signal attenuation or degradation.

2. The Hearing Aid Compatibility (HAC) Act defines a telephone as hearing aid compatible if it provides internal means for effective use with hearing aids and meets established technical standards for hearing aid compatibility.

4. A good strategy for addressing this requirement for any product held up to the ear would be to meet these same technical requirements. If not readily achievable to provide built-in telecoil compatibility, other means of providing the electro-magnetic signal is the next strategy to be considered.

Subpart D—Requirements for Compatibility With Peripheral Devices and Specialized Customer Premises Equipment

Section 1193.51 Compatibility

Paragraph (a)

External Electronic Access to All Information and Control Mechanisms

1. Some individuals who are hard of hearing use hearing aids and other assistive listening devices. When the standard is completed, the Board intends to reference it in this appendix.

2. The two most common forms of manipulation-free connections are an infrared connection or a radio frequency connection point. Currently, the Infrared Data Association (IrDA) infrared connection point is the most universally used approach.

3. The Infrared Data Association together with dominant market players in the cellular and paging industries, Ericsson, Matsushita/Panasonic, Motorola, NEC, Nokia, NTT DoCoMo, Puma, and TU-KA Phone Kansai, announced on April 25, 1997 a proposed set of standards that will empower wireless communication devices, such as cellular phones, pagers and personal computers to transfer useful information over short distances using IrDA infrared data communications ports. Because the proposed standard is designed to be scalable, it is easy-to-adopt by a wide range of wireless devices from pagers.
to more enhanced communications tools such as smart phones. (See http://www.irda.org).

4. Adding an infrared connector to the serial or parallel device or specialized customer premises equipment will make these products more compatible with each other and with customer premises equipment.

5. An infrared link can provide a mechanism for providing access to smaller, more advanced telecommunication devices and provide a safety net for products which are unable to incorporate other technologies. There is a joint international effort to develop a Universal Remote Console Communication (URCC) protocol which would achieve this functionality. (See http://trace.wisc.edu/world/urcc/).

**Paragraph (b)**

**Connection Point for External Audio Processing Devices**

1. Individuals using audio peripheral devices such as amplifiers, telecoil adapters, or direct-connection into a hearing aid need a standard, noise free way to tap into the audio generated by a product.

2. Individuals who cannot hear well can often use products if they can isolate and enhance the audio output. For example, they could plug in a headphone which makes the audio louder and helps shut out background noise; they might feed the signal through an amplifier to make it louder, or through filters or frequency shifters to make it better fit their audio profile. If they are wearing a hearing aid, they may directly connect their hearing aid to the audio signal or plug in a small audio loop which allows them to couple the audio signal through their hearing aid’s built-in T-coil.

3. Devices which can process the information and provide visual and/or tactile output are also possible. The most common strategy for achieving this requirement is the use of a standard 9 mm miniature plug-in jack, common to virtually every personal tape player or radio. For small products, a subminiature phone jack could be used.

**Paragraph (c)**

**Compatibility of Controls With Prosthetics**

1. Individuals who have artificial hands or use headsticks or mouthsticks to operate products have difficulty with capacitive or heat-operated controls which require contact with a person’s body rather than a tool. Individuals who wear prosthetics are unable to operate some types of products because they either require motions that cannot easily be made with a prosthetic hand, or because products are designed which require touch of the human skin to operate them (e.g., capacitive touchscreen kiosks), making it impossible for individuals with artificial arms or hands to operate, except perhaps with their nose or chin. Some individuals who do not have the use of their arms use either a headstick or a mouthstick to operate products. Controls and mechanisms which require a grasping and twisting motion should be avoided.

**Paragraph (d)**

**TTY Connectability**

1. Acoustic coupling is subject to interference from ambient noise, as many handsets do not provide an adequate seal with TTYS. Therefore, alternate (non-acoustic) connections are needed. Control of the microphone is needed for situations such as pay-phone usage, where ambient noise picked up by the mouthpiece often garbles the signal. For the use of voice carry-over, where the person can speak but not hear, the user needs to be able to turn the microphone on to speak and off to allow them to receive the TTY text replies.

2. A TTY can be connected to and used with any telecommunications product supporting speech communication without requiring purchase of a special adapter, and the user is able to internmix speech and clear TTY communication. The most common approach today is to provide an RJ–11 jack. On very small products, where there may not be room for this large jack, a miniature or subminiature phone-jack wired as a “headset” jack (with both speaker and microphone connections) could be used as an alternate approach. In either case, a mechanism for turning the phone mouthpiece (microphone) on and off would reduce garbling in noisy environments, while allowing the user to speak into the microphone when desired (to conduct conversations with mixed voice and TTY). For equipment that combines voice communications, displays, keyboards and data communication functions, it is desirable to build in direct TTY capability.

**Paragraph (e)**

**TTY Signal Compatibility**

1. Some telecommunications systems compress the audio signal in such a manner that standard signals used by a TTY is distorted or attenuated preventing successful TTY communication over the system. A TTY can be used with any product providing voice communication function.

2. The de facto standard of domestic TTYS is Baudot which has been defined in ITU-T Recommendation V.18. Although the V.18 standard has been adopted, products are not yet available which meet its requirements.

3. This provision can be addressed by ensuring that the tones used can travel
through the phones compression circuits undistorted. It is even more desirable to provide undistorted connectivity to the telephone line in the frequency range of 390 Hz to 2300 Hz (ITU-T Recommendation V.18), as this range covers all of the TTY protocols known throughout the world. Although it may not be achievable with current technology, an alternate strategy might be to recognize the tones, transmit them as codes, and resynthesize them at the other end. In addition, it should be possible for individuals using TTYs to conduct conversations with mixed voice and TTY, and to control all aspects of the product and receive any messages generated by the product.

PART 1194—ELECTRONIC AND INFORMATION TECHNOLOGY ACCESSIBILITY STANDARDS

Subpart A—General

§ 1194.1 Purpose.

The purpose of this part is to implement section 508 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794d). Section 508 requires that when Federal agencies develop, procure, maintain, or use electronic and information technology, Federal employees with disabilities have access to and use of information and data that is comparable to the access and use by Federal employees who are not individuals with disabilities, unless an undue burden would be imposed on the agency. Section 508 also requires that individuals with disabilities, who are members of the public seeking information or services from a Federal agency, have access to and use of information and data that is comparable to that provided to the public who are not individuals with disabilities, unless an undue burden would be imposed on the agency.

§ 1194.2 Application.

(a) Products covered by this part shall comply with all applicable provisions of this part. When developing, procuring, maintaining, or using electronic and information technology, each agency shall ensure that the products comply with the applicable provisions of this part, unless an undue burden would be imposed on the agency.

(1) When compliance with the provisions of this part imposes an undue burden, agencies shall provide individuals with disabilities with the information and data involved by an alternative means of access that allows the individual to use the information and data.

(2) When procuring a product, if an agency determines that compliance with any provision of this part imposes an undue burden, the documentation by the agency supporting the procurement shall explain why, and to what extent, compliance with each such provision creates an undue burden.

(b) When procuring a product, each agency shall procure products which comply with the provisions in this part when such products are available in the commercial marketplace or when such products are developed in response to a Government solicitation. Agencies cannot claim a product as a whole is not commercially available because no product in the marketplace meets all the standards. If products are commercially available that meet some but not all of the standards, the agency must procure the product that best meets the standards.
(c) Except as provided by §1194.3(b), this part applies to electronic and information technology developed, procured, maintained, or used by agencies directly or used by a contractor under a contract with an agency which requires the use of such product, or requires, to a significant extent, of such product in the performance of a service or the furnishing of a product.

 §1194.4 Definitions.

The following definitions apply to this part:

Agency. Any Federal department or agency, including the United States Postal Service.

Alternate formats. Alternate formats usable by people with disabilities may include, but are not limited to, Braille, ASCII text, large print, recorded audio, and electronic formats that comply with this part.

Alternate methods. Different means of providing information, including product documentation, to people with disabilities. Alternate methods may include, but are not limited to, voice, fax, relay service, TTY, Internet posting, captioning, text-to-speech synthesis, and audio description.

Assistive technology. Any item, piece of equipment, or system, whether acquired commercially, modified, or customized, that is commonly used to increase, maintain, or improve functional capabilities of individuals with disabilities.

Electronic and information technology. Includes information technology and any equipment or interconnected systems or subsystems of equipment, that is used in the creation, conversion, or duplication of data or information. The term electronic and information technology includes, but is not limited to, telecommunications products (such as telephones), information kiosks and transaction machines, World Wide Web sites, multimedia, and office equipment such as copiers and fax machines. The term does not include any equipment that contains embedded information technology that is used as an integral part of the product, but the principal function of which is not the acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information.
§ 1194.5 Equivalent facilitation.

Nothing in this part is intended to prevent the use of designs or technologies as alternatives to those prescribed in this part provided they result in substantially equivalent or greater access to and use of a product for people with disabilities.

Subpart B—Technical Standards

§ 1194.21 Software applications and operating systems.

(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.

(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.

(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.

(l) When electronic forms are used, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

§ 1194.22 Web-based intranet and internet information and applications.

(a) A text equivalent for every non-text element shall be provided (e.g., via “alt”, “longdesc”, or in element content).

(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.

(i) Frames shall be titled with text that facilitates frame identification and navigation.

(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.

(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.

(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by assistive technology.

(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).

(n) When electronic forms are designed to be completed on-line, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.

(o) A method shall be provided that permits users to skip repetitive navigation links.

(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.

Subpart B—How are NARA’s Official Seals and Logos Designed and Used?

§ 1200.2 How is each NARA seal designed?

NARA’s three official seals are illustrated in Figures 1, 2, and 30. A description of each seal is as follows:

(a) The National Archives and Records Administration seal. The design is illustrated below in Figure 1 and described as follows:

(1) The seal is centered on a disc with a double-line border.

(2) The words “NATIONAL ARCHIVES AND RECORDS ADMINISTRATION” encircle the inside of the seal and the date 1985 is at the bottom center.

(3) A solid line rendition of a heraldic eagle displayed holding in its left talon 13 arrows, in its right talon a branch of olive, bearing on its breast a representation of the shield of the United States.

(4) Displayed above the eagle’s head is a partially unrolled scroll inscribed with the words “LITTERA SCRIPTA MANET” one above the other.

NARA means all organizational units of the National Archives and Records Administration.

NARA logo means a name, trademark, service mark, or symbol used by NARA in connection with its programs, products, or services.

Official seal means the original(s) of the seal showing the exact form and content.

Replica or reproduction means a copy of an official seal or NARA logo displaying the form and content.

(b) National Archives seal. The design is illustrated below and described as in paragraph (a) of this section. However, the words "THE NATIONAL ARCHIVES OF THE UNITED STATES" encircle the inside of the seal and the date 1934 is at the bottom center.
Figure 2 – The National Archives Seal

(c) National Archives Trust Fund Board seal. The design is illustrated below and described as in paragraph (a) of this section. However, the words "NATIONAL ARCHIVES TRUST FUND BOARD" encircle the inside of the seal and the date 1941 is at the bottom center.
§ 1200.4 How does NARA use its official seals?

NARA uses its three official seals to authenticate various copies of documents and for informational purposes as follows:

(a) The National Archives and Records Administration seal, dated 1985, is used:
   (1) For official business;
   (2) To authenticate copies of Federal records in NARA’s temporary custody and copies of NARA operational records; and
   (3) For informational purposes with NARA’s prior approval (includes use by NARA employees, the public, and other Federal agencies).

(b) The National Archives seal, dated 1934, is used to authenticate copies of documents in NARA’s permanent legal custody.

(c) The National Archives Trust Fund Board seal, dated 1941, is used for Trust Fund documents and publications.

§ 1200.6 Who is authorized to apply the official seals on documents or other materials?

The Archivist of the United States (and the Archivist’s designee) is the only individual authorized to apply NARA official seals, embossing seals, and replicas and reproductions of seals to appropriate documents, authentications, and other material. NARA accepts requests to use the official seals and approves or denies them based on the criteria identified in §1200.10.

§ 1200.7 What are NARA logos and how are they used?

(a) Agency logo. NARA has one official agency logo, which is illustrated as follows:

Figure 3 – National Archives Trust Fund Board Seal
(b) The official agency logo is used:
(1) On agency letterhead and business cards;
(2) On all NARA web and social media sites (intranet and internet), whether hosted internally, remotely, or on a public forum (including sites on which a NARA office or program logo also appears);
(3) On exhibits;
(4) On publicity and other branding materials, and on items associated with a one-time or recurring NARA event or activity;
(5) On agency communications and presentations; and
(6) On other items as approved by the Archivist or his designee.

c) The official agency logo does not replace NARA’s official seals on other agency official business, such as certified records, the Federal Register, and authenticated copies.

d) Office and program logos. NARA’s official office and program logos include, but are not limited to, those illustrated as follows:
(1) The Federal Records Center Program;
(2) The National Historical Publications and Records Commission;
(3) American Originals;

(4) Electronic Records Archives;
(5) The Archival Research Catalog;

(6) The Archives Library Information Center;

(7) Presidential Libraries;
(8) Federal Register publications.
   (iii) FEDERAL REGISTER paper edition.
(9) Regional archives:

(i)
(ii) Each regional archives has the same logo design with the geographic location of the facility added.

(10) The Office of Government Information Services (OGIS);

(11) The Controlled Unclassified Information Office (CUI); and

(a) Prepare a written request explaining, in detail:

(1) The name of the individual/organization requesting use and how it is associated with NARA;

(2) Which of the official seals and/or logos you want to use and how each is going to be displayed. Provide a sample of the document or other material on which the seal(s) and/or logo(s) would appear, marking the sample in all places where the seal(s) and/or logo(s) would be displayed;

(3) How the intended use of the official seal(s) and/or logo(s) is connected to your work with NARA on an event or activity (example: requesting to use the official NARA seal(s) and/or logo(s) on a program brochure, poster, or other publicity announcing a co-sponsored symposium or conference); and

(4) The dates of the event or activity for which you intend to display the seal(s) and/or logo(s).

(b) You must submit the request at least six weeks before you intend to use it to the Archivist of the United States (N), 8601 Adelphi Rd., College Park, MD 20740–6001.

(c) The OMB control number 3095–0052 has been assigned to the information collection contained in this section.

(b) Seals and logos will not be used on any article or in any manner that reflects unfavorably on NARA or endorses, either directly or by implication, commercial products or services, or a requestor’s policies or activities.

§ 1200.12 How does NARA notify me of the determination?

NARA will notify you by mail of the final decision, usually within 3 weeks from the date we receive your request. If NARA approves your request, we will send you a camera-ready copy of the official seal(s) and/or logo(s) along with an approval letter that will:

(a) Reference back to the submitted request (either through the date or another distinguishing characteristic) indicating approval of the specific use, as defined in the request; and

(b) Include NARA’s conditions for use, which are identified in §1200.14.

§ 1200.14 What are NARA’s conditions for the use of the official seals and logos?

If your request is approved, you must follow these conditions:

(a) Use the official seals and/or logos only for the specific purpose for which approval was granted;

(b) Submit additional written requests for any uses other than the use granted in the approval letter;

(c) Do not delegate the approval to another individual(s) or organization without NARA’s prior approval; and

(d) Do not change the official seals and/or logos themselves. They must visually and physically appear as NARA originally designed them, with no alterations.

(e) Only use the official seal(s) and/or logo(s) for the time period designated in the approval letter (example: for the duration of a conference or exhibit).

Subpart D—Penalties for Misuse of NARA Seals and Logos

§ 1200.16 Will I be penalized for misusing the official seals and logos?

§1201.4 What types of claims are excluded from these regulations?

The following types of claims are excluded:

(a) Debts or claims arising under the Internal Revenue Code (26 U.S.C. 1 et seq.) or the tariff laws of the United States, or the Social Security Act (42 U.S.C. 301 et seq.); except as provided under sec. 204(f) and 1631 (42 U.S.C. 404(f) and 1383(b)(4)(A)).

(b) Any case to which the Contract Disputes Act (41 U.S.C. 601 et seq.) applies;

(c) Any case where collection of a debt is explicitly provided for or provided by another statute, e.g., travel advances under 5 U.S.C. 5705 and employee training expenses under 5 U.S.C. 4108, or, as provided for by title 11 of the United States Code, when the claims involve bankruptcy;

(d) Any debt based in whole or in part on conduct in violation of the antitrust laws or involving fraud, the presentation of a false claim, or misrepresentation on the part of the debtor or any party having an interest in the claim, as described in the FCCS, unless DOJ authorizes NARA to handle the collection;

(e) Claims between Federal agencies;

(f) Unless otherwise provided by law, administrative offset of payments under the authority of 31 U.S.C. 3716 to collect a debt may not be initiated more than 10 years after the Government’s right to collect the debt first accrued. (Exception: The 10-year limit does not apply if facts material to the Federal Government’s right to collect the debt were not known and could not reasonably have been known by the official or officials of the Government who were charged with the responsibility to discover and collect such debts.) The 10-year limitation also does not apply to debts reduced to a judgment; and

(g) Unless otherwise stated, claims which have been transferred to Treasury or referred to the Department of Justice will be collected in accordance with the procedures of those agencies.

§1201.5 If a claim is not excluded from these regulations, may it be compromised, suspended, terminated, or waived?

Nothing in this part precludes:

(a) The compromise, suspension, or termination of collection actions, where appropriate under the FCCS, or the use of alternative dispute resolution methods if they are consistent with applicable law and regulations.

(b) An employee from requesting waiver of an erroneous payment under 5 U.S.C. 5584, 10 U.S.C. 2774, or 32 U.S.C. 716, or from questioning the amount or validity of a debt, in the manner set forth in this part.

§1201.6 What is a claim or debt?

A claim or debt is an amount of money, funds, or property that has been determined by an agency official to be due the United States from any person, organization, or entity except another Federal agency (see §1201.3).
§ 1201.7 Why does NARA have to collect debts?
Federal agencies are required to try to collect claims of the Federal Government for money, funds, or property arising out of the agency’s activities.

§ 1201.8 What action might NARA take to collect debts?
(a) There are a number of actions that NARA is permitted to take when attempting to collect debts. These actions include:
   (1) Salary, tax refund or administrative offset, or administrative wage garnishment (see subparts C, D, E, and F of this part respectively); or
   (2) Using the services of private collection contractors.
(b) In certain instances, usually after collection efforts have proven unsuccessful, NARA transfers debts to the Treasury for collection or refers them to the DOJ for litigation (see §§1201.10 and 1201.11).

§ 1201.9 What rights do I have as a debtor?
As a debtor you have several basic rights. You have a right to:
(a) Notice as set forth in these regulations (see §1201.14);
(b) Inspect the records that NARA has used to determine that you owe a debt (see §1201.14);
(c) Request review of the debt and possible payment options (see §1201.17);
(d) Propose a voluntary repayment agreement (see §1201.19); and/or
(e) Question if the debt is excluded from these regulations (see §1201.5(b)).

Subpart B—General Provisions.

§ 1201.10 Will NARA use a cross-servicing agreement with the Department of the Treasury to collect its claims?
(a) NARA may enter into a cross-servicing agreement that authorizes the Treasury to take the collection actions described in this part on behalf of NARA. This agreement will describe procedures that the Treasury uses to collect debts. The debt collection procedures that the Treasury uses are based on 31 U.S.C. chapter 37.
(b) NARA must transfer to the Treasury any debt that has been delinquent for a period of 180 days or more so that the Secretary of the Treasury may take appropriate action to collect the debt or terminate collection action. NARA may also transfer to the Treasury any debt that is less than 180 days delinquent.
(c) Paragraph (b) of this section will not apply to any debt or claim that:
   (1) Is in litigation or foreclosure;
   (2) Will be disposed of under an approved asset sales program;
   (3) Has been referred to a private collection contractor for collection for a period of time acceptable to the Secretary of the Treasury;
   (4) Is at a debt collection center for a period of time acceptable to the Secretary of the Treasury;
   (5) Will be collected under internal offset procedures within 3 years after the date the debt or claim is first delinquent; or
   (6) Is exempt from this requirement based on a determination by the Secretary of the Treasury.

§ 1201.11 Will NARA refer claims to the Department of Justice?
NARA will refer to DOJ for litigation claims on which aggressive collection actions have been taken, but which could not be collected, compromised, suspended, or terminated. Referrals will be made as early as possible, consistent with aggressive NARA collection action, and within the period for bringing a timely suit against the debtor.

§ 1201.12 Will NARA provide information to credit reporting agencies?
(a) NARA will report certain delinquent debts to appropriate consumer credit reporting agencies by providing the following information:
   (1) A statement that the debt is valid and overdue;
   (2) The name, address, taxpayer identification number, and any other information necessary to establish the identity of the debtor;
   (3) The amount, status, and history of the debt; and
   (4) The program or pertinent activity under which the debt arose;
(b) Before disclosing debt information to a credit reporting agency, NARA:
§ 1201.13 How will NARA contract for collection services?

NARA uses the services of a private collection contractor where it determines that such use is in NARA's best interest. When NARA determines that there is a need to contract for collection services, NARA:

(a) Retains sole authority to:
   (1) Resolve any dispute with the debtor regarding the validity of the debt;
   (2) Compromise the debt;
   (3) Suspend or terminate collection action;
   (4) Refer the debt to the DOJ for litigation; and
   (5) Take any other action under this part;

(b) Requires the contractor to comply with the:
   (1) Privacy Act of 1974, as amended, to the extent specified in 5 U.S.C. 552a(m);
   (2) Fair Debt Collection Practices Act (15 U.S.C. 1692–1692o); and
   (3) Other applicable Federal and State laws pertaining to debt collection practices and applicable regulations of NARA in this part;

(c) Requires the contractor to account accurately and fully for all amounts collected; and

(d) Requires the contractor to provide to NARA, upon request, all data and reports contained in its files related to its collection actions on a debt.

§ 1201.14 What should I expect to receive from NARA if I owe a debt to NARA?

(a) NARA will send you a written notice when we determine that you owe a debt to NARA. The notice will be hand-delivered or sent to you at the most current address known to NARA. The notice will inform you of the following:
   (1) The amount, nature, and basis of the debt;
   (2) That a designated NARA official has reviewed the claim and determined that it is valid;
   (3) That payment of the debt is due as of the date of the notice, and that the debt will be considered delinquent if you do not pay it within 30 days of the date of the notice;
   (4) NARA's policy concerning interest, penalty charges, and administrative costs (see §1201.18), including a statement that such assessments must be made against you unless excused in accordance with the FCCS and this part;
   (5) That you have the right to inspect and copy disclosable NARA records pertaining to your debt, or to receive copies of those records if personal inspection is impractical;
   (6) That you have the opportunity to enter into an agreement, in writing and signed by both you and the designated NARA official, for voluntary repayment of the debt (see §1201.19);
§ 1201.15 What will the notice tell me regarding collection actions that might be taken if the debt is not paid within 60 days of the notice, or arrangements to pay the debt are not made within 60 days of the notice?

The notice provided under §1201.14 will advise you that within 60 days of the date of the notice, your debt (including any interest, penalty charges, and administrative costs) must be paid or you must enter into a voluntary repayment agreement. If you do not pay the debt or enter into the agreement within that deadline, NARA may enforce collection of the debt by any or all of the following methods:

(a) By referral to a credit reporting agency (see §1201.12), private collection contractor (see §1201.13), or the DOJ (see §1201.11).

(b) By transferring any debt to the Treasury for collection, including under a cross-servicing agreement with the Treasury (see §1201.10).

(c) If you are a NARA employee, by deducting money from your disposable pay account until the debt (and all accumulated interest, penalty charges, and administrative costs) is paid in full (see subpart C of this part). NARA will specify the amount, frequency, approximate beginning date, and duration of the deduction. 5 U.S.C. 5514 and 31 U.S.C. 3716 govern such proceedings;

(d) If you are an employee of a Federal agency other than NARA, by initiating certification procedures to implement a salary offset by that Federal agency (see subpart C of this part). 5 U.S.C. 5514 governs such proceedings;

(e) By referring the debt to the Treasury for offset against any refund of overpayment of tax (see subpart D of this part);

(f) By administrative offset (see subpart E of this part);

(g) By administrative wage garnishment (see subpart F of this part); or

(h) By liquidation of security or collateral. NARA has the right to hold security or collateral, liquidate it, and apply the proceeds to your debt through the exercise of a power of sale in the security instrument or a foreclosure. NARA will not follow the procedures in this paragraph (h) if the cost.

§ 1201.16 Exception to entitlement to notice, hearing, written responses, and final decisions.
§ 1201.16 What will the notice tell me about my opportunity for review of my debt?

The notice provided by NARA under §§1201.14 and 1201.15 will also advise you of the opportunity to obtain a review within NARA concerning the existence or amount of the debt or the proposed schedule for offset of Federal employee salary payments. The notice will also advise you of the following:

(a) The name, address, and telephone number of a NARA official whom you may contact concerning procedures for requesting a review;

(b) The method and time period for requesting a review;

(c) That the filing of a request for a review on or before the 60th day following the date of the notice will stay the commencement of collection proceedings;

(d) The name and address of the NARA official to whom you should send the request for a review;

(e) That a final decision on the review (if one is requested) will be issued in writing at the earliest practical date, but not later than 60 days after the receipt of the request for a review, unless you request, and the review official grants, a delay in the proceedings;

(f) That any knowingly false or frivolous statements, representations, or evidence may subject you to:

(1) Disciplinary procedures appropriate under 5 U.S.C. Chapter 75, 5 CFR part 752, or any other applicable statute or regulations;

(2) Penalties under the False Claims Act (31 U.S.C. 3729–3733) or any other applicable statutory authority; and

(3) Criminal penalties under 18 U.S.C. 286, 287, 1001, and 1002, or any other applicable statutory authority;

(g) Any other rights available to you to dispute the validity of the debt or to have recovery of the debt waived, or remedies available to you under statutes or regulations governing the program for which the collection is being made; and

(h) That unless there are applicable contractual or statutory provisions to the contrary, amounts paid on or deducted for the debt that are later waived or found not owed will be promptly refunded to you.

§ 1201.17 What must I do to obtain a review of my debt, and how will the review process work?

(a) Request for review. (1) You have the right to request a review by NARA of the existence or amount of your debt, the proposed schedule for offset of Federal employee salary payments, or whether the debt is past due or legally enforceable. If you want a review, you must send a written request to the NARA official designated in the notice (see §1201.16(d)).

(2) You must sign your request for review and fully identify and explain with reasonable specificity all the facts, evidence, and witnesses that support your position. Your request for review should be accompanied by available evidence to support your contentions.

(3) Your request for review must be received by the designated officer or employee of NARA on or before the 60th calendar day following the date of the notice. Timely filing will stay the commencement of collection proceedings. NARA may consider requests filed after the 60-day period provided for in this section if you:

(i) Can show that the delay was the result of circumstances beyond your control; or

(ii) Did not receive notice of the filing deadline (unless you had actual notice of the filing deadline).

(b) Inspection of NARA records related to the debt. (1) If you want to inspect or copy NARA records related to the debt (see §1201.14(a)(5)), you must send a letter to the NARA official designated in the notice. Your letter must be received within 30 days of the date of the notice.

(2) In response to the timely request described in paragraph (b)(1) of this section, the designated NARA official will notify you of the location and time when you may inspect and copy records related to the debt.

(3) If personal inspection of NARA records related to the debt is impractical, reasonable arrangements will be made to send you copies of those records.
(c) **Review official.** (1) When required by Federal law or regulation, such as in a salary offset situation, NARA will request an administrative law judge, or hearing official from another agency who is not under the supervision or control of the Archivist, to conduct the review. In these cases, the hearing official will, following the review, submit the review decision to the Archivist for the issuance of NARA’s final decision (see paragraph (f) of this section for content of the review decision).

(2) When Federal law or regulation does not require NARA to have the review conducted by an administrative law judge, or by a hearing official from another agency who is not under the supervision or control of the Archivist, NARA has the right to appoint a hearing official to conduct the review. In these cases, the hearing official will, following the review, submit the review decision to the Archivist for the issuance of NARA’s final decision (see paragraph (f) of this section for the content of the review decision).

(d) **Review procedure.** If you request a review, the review official will notify you of the form of the review to be provided. The review official will determine whether an oral hearing is required, or if a review of the written record is sufficient, in accordance with the FCCS. Although you may request an oral hearing, such a hearing is required only when a review of the documentary evidence cannot determine the question of indebtedness, such as when the validity of the debt turns on an issue of credibility or truthfulness. In either case, the review official will conduct the review in accordance with the FCCS. If the review will include an oral hearing, the notice sent to you by the review official will set forth the date, time, and location of the hearing.

(e) **Date of decision.** (1) The review official will issue a written decision, based upon either the written record or documentary evidence and information developed at an oral hearing. This decision will be issued as soon as practical, but not later than 60 days after the date on which NARA received your request for a review, unless you request, and the review official grants, a delay in the proceedings.

(2) If NARA is unable to issue a decision within 60 days after the receipt of the request for a hearing:

(i) NARA may not issue a withholding order or take other action until the hearing (in whatever form) is held and a decision is rendered; and

(ii) If NARA previously issued a withholding order to the debtor’s employer, NARA must suspend the withholding order beginning on the 61st day after the receipt of the hearing request and continuing until a hearing (in whatever form) is held and a decision is rendered.

(f) **Content of review decision.** The review official will prepare a written decision that includes:

(1) A statement of the facts presented to support the origin, nature, and amount of the debt;

(2) The review official’s findings, analysis, and conclusions; and

(3) The terms of any repayment schedule, if applicable.

(g) **Interest, penalty charge, and administrative cost accrual during review period.** Interest, penalty charges, and administrative costs authorized by law will continue to accrue during the review period.

§ 1201.18 What interest, penalty charges, and administrative costs will I have to pay on a debt owed to NARA?

(a) **Interest.** (1) NARA will assess interest on all delinquent debts unless prohibited by statute, regulation, or contract.

(2) Interest begins to accrue on all debts from the date that the debt becomes delinquent. NARA will not recover interest if you pay the debt within 30 days of the date on which interest begins to accrue. NARA will assess interest at the rate established annually by the Secretary of the Treasury under 31 U.S.C. 3717, unless a different rate is either necessary to protect the interests of NARA or established by a contract, repayment agreement, or statute. NARA will notify you of the basis for its finding when a different rate is necessary to protect the interests of NARA.

(3) The Archivist may extend the 30-day period for payment without interest where he or she determines that such action is in the best interest of
NARA. A decision to extend or not to extend the payment period is final and is not subject to further review.

(b) **Penalty.** NARA will assess a penalty charge of 6 percent a year on any portion of a debt that is delinquent for more than 90 days.

(c) **Administrative costs.** NARA will assess charges to cover administrative costs incurred as a result of your failure to pay a debt before it becomes delinquent. Administrative costs include the additional costs incurred in processing and handling the debt because it became delinquent, such as costs incurred in obtaining a credit report or in using a private collection contractor, or service fees charged by a Federal agency for collection activities undertaken on behalf of NARA.

(d) **Allocation of payments.** A partial or installment payment by a debtor will be applied first to outstanding penalty assessments, second to administrative costs, third to accrued interest, and fourth to the outstanding debt principal.

(e) **Additional authority.** NARA may assess interest, penalty charges, and administrative costs on debts that are not subject to 31 U.S.C. 3717 to the extent authorized under common law or other applicable statutory authority.

(f) **Waiver.** (1) The Archivist may (without regard to the amount of the debt) waive collection of all or part of accrued interest, penalty charges, or administrative costs, if he or she determines that collection of these charges would be against equity and good conscience or not in the best interest of NARA.

(2) A decision to waive interest, penalty charges, or administrative costs may be made at any time before a debt is paid. However, and unless otherwise stated in these regulations, where these charges have been collected before the waiver decision, they will not be refunded. The Archivist’s decision to waive or not waive collection of these charges is final and is not subject to further review.

§ 1201.19 How can I resolve my debt through voluntary repayment?

(a) In response to a notice of debt, you may propose to NARA that you be allowed to repay the debt through a voluntary repayment agreement in lieu of NARA taking other collection actions under this part.

(b) Your request to enter into a voluntary repayment agreement must:

(1) Be in writing;

(2) Admit the existence of the debt; and

(3) Either propose payment of the debt (together with interest, penalty charges, and administrative costs) in a lump sum, or set forth a proposed repayment schedule.

(c) NARA will collect claims in one lump sum whenever feasible. However, if you are unable to pay your debt in one lump sum, NARA may accept payment in regular installments that bear a reasonable relationship to the size of the debt and your ability to pay.

(d) NARA will consider a request to enter into a voluntary repayment agreement in accordance with the FCCS. The Archivist may request additional information from you, including financial statements if you request to make payments in installments, in order to determine whether to accept a voluntary repayment agreement. It is within the Archivist’s discretion to accept a repayment agreement instead of proceeding with other collection actions under this part, and to set the necessary terms of any voluntary repayment agreement. No repayment agreement will be binding on NARA unless it is in writing and signed by both you and the Archivist. At NARA’s option, you may be required to provide security as part of the agreement to make payments in installments. Notwithstanding the provisions of this section, 31 U.S.C. 3711 will govern any reduction or compromise of a claim.

§ 1201.20 What is the extent of the Archivist’s authority to compromise debts owed to NARA, or to suspend or terminate collection action on such debts?

(a) The Archivist may compromise, suspend, or terminate collection action on those debts owed to NARA that do not exceed $100,000 excluding interest, in conformity with the Federal Claims Collection Act of 1966, as amended. NARA will follow the policies in §902.2 of the FCCS.

(b) The uncollected portion of a debt owed to NARA that is not recovered as
the result of a compromise will be reported to the Internal Revenue Service (IRS) as income to the debtor in accordance with IRS procedures if the debt is at least $600.00.

§ 1201.21 May NARA's failure to comply with these regulations be used as a defense to a debt?

No, the failure of NARA to comply with any standard in the FCCS or these regulations will not be available to any debtor as a defense.

Subpart C—Salary Offset

§ 1201.30 What debts are included or excluded from coverage of these regulations on salary offset?

(a) The regulations in this subpart provide NARA procedures for the collection by salary offset of a Federal employee's pay to satisfy certain debts owed to NARA or to other Federal agencies.

(b) The regulations in this subpart do not apply to any case where collection of a debt by salary offset is explicitly provided for or prohibited by another statute.

(c) Nothing in the regulations in this subpart precludes the compromise, suspension, or termination of collection actions under the Federal Claims Collection Act of 1966, as amended, or the FCCS.

(d) A levy imposed under the Internal Revenue Code takes precedence over a salary offset under this subpart, as provided in 5 U.S.C. 5514(d).

§ 1201.31 May I ask NARA to waive an overpayment that otherwise would be collected by offsetting my salary as a Federal employee?

Yes, the regulations in this subpart do not preclude you from requesting waiver of an overpayment under 5 U.S.C. 5584 or 5584(b), 10 U.S.C. 2774, 32 U.S.C. 716, or other statutory provisions pertaining to the particular debts being collected.

§ 1201.32 What are NARA's procedures for salary offset?

(a) NARA will coordinate salary deductions under this subpart as appropriate.

(b) If you are a NARA employee who owes a debt to NARA, NARA's payroll office will determine the amount of your disposable pay and will implement the salary offset.

(c) Deductions will begin within three official pay periods following receipt by NARA's payroll office of certification of debt from the creditor agency.

(d) The Notice provisions of these regulations do not apply to certain debts arising under this section (see § 1201.14(c)).

(e) Types of collection. (1) Lump-sum offset. If the amount of the debt is equal to or less than 15 percent of disposable pay, the debt generally will be collected through one lump-sum offset.

(2) Installment deductions. Installment deductions will be made over a period not greater than the anticipated period of employment. The size and frequency of installment deductions will bear a reasonable relation to the size of the debt and your ability to pay. However, the amount deducted from any period will not exceed 15 percent of the disposable pay from which the deduction is made unless you have agreed in writing to the deduction of a greater amount. If possible, installment payments will be sufficient in size and frequency to liquidate the debt in three years or less.

(3) Deductions from final check. A deduction exceeding the 15 percent of disposable pay limitation may be made from any final salary payment under 31 U.S.C. 3716 and the FCCS in order to liquidate the debt, whether the employee is being separated voluntarily or involuntarily.

(4) Deductions from other sources. If an employee subject to salary offset is separated from NARA and the balance of the debt cannot be liquidated by offset of the final salary check, NARA may offset later payments of any kind against the balance of the debt, as allowed by 31 U.S.C. 3716 and the FCCS.

(f) Multiple debts. In instances where two or more creditor agencies are seeking salary offsets, or where two or more debts are owed to a single creditor agency, NARA's payroll office may, at its discretion, determine whether one or more debts should be
§ 1201.33 How will NARA coordinate salary offsets with other agencies?

(a) Responsibilities of NARA as the creditor agency (i.e. when the debtor owes a debt to NARA and is an employee of another agency). Upon completion of the procedures established in this subpart and pursuant to 5 U.S.C. 5514 and 31 U.S.C. 3716, NARA must submit a claim to a paying agency or disbursing official.

(1) In its claim, NARA must certify, in writing, the following:

(i) That the employee owes the debt;

(ii) The amount and basis of the debt;

(iii) The date NARA’s right to collect the debt first accrued;

(iv) That NARA’s regulations in this subpart have been approved by OPM under 5 CFR part 550, subpart K; and

(v) That NARA has met the certification requirements of the paying agency.

(2) If the collection must be made in installments, NARA’s claim will also advise the paying agency of the amount or percentage of disposable pay to be collected in each installment. NARA may also advise the paying agency of the number of installments to be collected and the date of the first installment, if that date is other than the next officially established pay period.

(3) NARA will also include in its claim:

(i) The employee’s written consent to the salary offset;

(ii) The employee’s signed statement acknowledging receipt of the procedures required by 5 U.S.C. 5514; or

(iii) Information regarding the completion of procedures required by 5 U.S.C. 5514, including the actions taken and the dates of those actions.

(4) If the employee is in the process of separating and has not received a final salary check or other final payment(s) from the paying agency, NARA must submit its claim to the paying agency or disbursing official for collection under 31 U.S.C. 3716. The paying agency will (under its regulations adopted under 5 U.S.C. 5514 and 5 CFR part 550, subpart K), certify the total amount of its collection on the debt and notify the employee and NARA. If the paying agency’s collection does not fully satisfy the debt, and the paying agency is aware that the debtor is entitled to payments from the Civil Service Retirement and Disability Fund or other similar payments that may be due the debtor employee from other Federal government sources, then (under its regulations adopted under 5 U.S.C. 5514 and 5 CFR part 550, subpart K), the paying agency will provide written notice of the outstanding debt to the agency responsible for making the other payments to the debtor employee. The written notice will state that the employee owes a debt, the amount of the debt, and that the provisions of this section have been fully complied with. However, NARA must submit a properly certified claim under this paragraph (a)(4) to the agency responsible for making the other payments before the collection can be made.

(5) If the employee is already separated and all payments due from his or her former paying agency have been paid, NARA may request, unless otherwise prohibited, that money due and payable to the employee from the Civil Service Retirement and Disability Fund or other similar funds be administratively offset to collect the debt.

(6) Employee transfer. When an employee transfers from one paying agency to another paying agency, NARA will not repeat the due process procedures described in 5 U.S.C. 5514 and this subpart to resume the collection. NARA will submit a properly certified claim to the new paying agency and will subsequently review the debt to ensure that the collection is resumed by the new paying agency.

(b) Responsibilities of NARA as the paying agency (i.e. when the debtor owes a debt to another agency and is an employee of NARA). (1) Complete claim. When NARA receives a certified claim from a creditor agency (under the creditor agency’s regulations adopted under 5 U.S.C. 5514 and 5 CFR part 550, subpart K), deductions should be scheduled to begin within three officially established pay intervals. Before deductions can begin, NARA sends the employee a written notice containing...
§ 1201.41 What are NARA's procedures for collecting debts by tax refund offset?

(a) NARA's Financial Services Division will be the point of contact with your current pay account.

(b) Employees who transfer from NARA to another paying agency. If, after the creditor agency has submitted the claim to NARA, the employee transfers from NARA to a different paying agency before the debt is collected in full, NARA will certify the total amount collected on the debt and notify the employee and the creditor agency in writing. The notification to the creditor agency will include information on the employee's transfer.

§ 1201.34 Under what conditions will NARA make a refund of amounts collected by salary offset?

(a) If NARA is the creditor agency, it will promptly refund any amount deducted under the authority of 5 U.S.C. 5514, when:

(1) The debt is waived or all or part of the funds deducted are otherwise found not to be owed (unless expressly prohibited by statute or regulation); or

(2) An administrative or judicial order directs NARA to make a refund.

(b) Unless required or permitted by law or contract, refunds under this section will not bear interest.

§ 1201.35 Will the collection of a claim by salary offset act as a waiver of my rights to dispute the claimed debt?

No, your involuntary payment of all or any portion of a debt under this subpart will not be construed as a waiver of any rights that you may have under 5 U.S.C. 5514 or other provisions of a law or written contract, unless there are statutory or contractual provisions to the contrary.

Subpart D—Tax Refund Offset

§ 1201.40 Which debts can NARA refer to the Treasury for collection by offsetting tax refunds?

(a) The regulations in this subpart implement 31 U.S.C. 3720A, which authorizes the Treasury to reduce a tax refund by the amount of a past-due, legally enforceable debt owed to a Federal agency.

(b) For purposes of this section, a past-due, legally enforceable debt referable to the Treasury for tax refund offset is a debt that is owed to NARA and:

(1) Is at least $25.00;

(2) Except in the case of a judgment debt, has been delinquent for at least three months and will not have been delinquent more than 10 years at the time the offset is made;

(3) With respect to which NARA has:

(i) Given the debtor at least 60 days to present evidence that all or part of the debt is not past due or legally enforceable;

(ii) Considered evidence presented by the debtor;

(iii) Determined that an amount of the debt is past due and legally enforceable;

(4) With respect to which NARA has notified or has made a reasonable attempt to notify the debtor that:

(i) The debt is past due, and

(ii) Unless repaid within 60 days of the date of the notice, the debt may be referred to the Treasury for offset against any refund of overpayment of tax; and

(5) All other requirements of 31 U.S.C. 3720A and the Treasury regulations relating to the eligibility of a debt for tax return offset (31 CFR 285.2) have been satisfied.

§ 1201.41 What are NARA's procedures for collecting debts by tax refund offset?

(a) NARA's Financial Services Division will be the point of contact with
the Treasury for administrative matters regarding the offset program.

(b) NARA will ensure that the procedures prescribed by the Treasury are followed in developing information about past-due debts and submitting the debts to the Treasury.

(c) NARA will submit to the Treasury a notification of a taxpayer’s liability for past-due legally enforceable debt. This notification will contain the following:

1. The name and taxpayer identification number of the debtor;
2. The amount of the past-due and legally enforceable debt;
3. The date on which the original debt became past due;
4. A statement certifying that, with respect to each debt reported, all of the requirements of §1201.40(b) have been satisfied; and
5. Any other information as prescribed by Treasury.

(d) For purposes of this section, notice that collection of the debt is stayed by a bankruptcy proceeding involving the debtor will bar referral of the debt to the Treasury.

(e) NARA will promptly notify the Treasury to correct data when NARA:

1. Determines that an error has been made with respect to a debt that has been referred;
2. Receives or credits a payment on the debt; or
3. Receives notice that the person owing the debt has filed for bankruptcy under Title 11 of the United States Code and the automatic stay is in effect or has been adjudicated bankrupt and the debt has been discharged.

(f) When advising debtors of NARA’s intent to refer a debt to the Treasury for offset, NARA will also advise debtors of remedial actions (see §§1201.9 and 1201.14 through 1201.16 of this part) available to defer the offset or prevent it from taking place.

Subpart E—Administrative Offset

§1201.50 Under what circumstances will NARA collect amounts that I owe to NARA (or some other Federal agency) by offsetting the debt against payments that NARA (or some other Federal agency) owes me?

(a) The regulations in this subpart apply to the collection of any debts you owe to NARA, or to any request from another Federal agency that NARA collect a debt you owe by offsetting your debt against a payment NARA owes you. Administrative offset is authorized under section 5 of the Federal Claims Collection Act of 1966, as amended (31 U.S.C. 3716). NARA will carry out administrative offset in accordance with the provisions of the FCCS. The regulations in this subpart are intended only to supplement the provisions of the Federal Claims Collection Standards.

(b) The Archivist, after attempting to collect a debt you owe to NARA under Section 3(a) of the Federal Claims Collection Act of 1966, as amended (31 U.S.C. 3711(a)), may collect the debt by administrative offset only after giving you:

1. Written notice of the type and amount of the claim, the intention of the head of the agency to collect the claim by administrative offset, and an explanation of the rights of the debtor;
2. An opportunity to inspect and copy the records of the agency related to the claim;
3. An opportunity for a review within the agency of the decision of the agency related to the claim;
4. An opportunity to make a written agreement with the head of the agency to repay the amount of the claim.

(c) No collection by administrative offset will be made on any debt that has been outstanding for more than 10 years, unless facts material to NARA or a Federal agency’s right to collect the debt were not known, and reasonably could not have been known, by the official or officials responsible for discovering and collecting the debt.

(d) The regulations in this subpart do not apply to:

1. A case in which administrative offset of the type of debt involved is explicitly prohibited by statute; or
§ 1201.51 How will NARA request that my debt to NARA be collected by offset against some payment that another Federal agency owes me?

The Archivist may request that funds due and payable to you by another Federal agency instead be paid to NARA to satisfy a debt you owe to NARA. NARA will refer debts to the Treasury for centralized administrative offset in accordance with the FCCS and the procedures established by the Treasury. Where centralized offset is not available or appropriate, NARA may request offset directly from the Federal agency that is holding funds for you. In requesting administrative offset, NARA will certify in writing to the Federal agency that is holding funds for you:

(a) That you owe the debt;
(b) The amount and basis of the debt; and
(c) That NARA has complied with the requirements of 31 U.S.C. 3716, its own administrative offset regulations in this subpart, the applicable administrative offset regulations of the agency holding the funds, and the applicable provisions of the FCCS with respect to providing you with due process.

§ 1201.52 What procedures will NARA use to collect amounts I owe to a Federal agency by offsetting a payment that NARA would otherwise make to me?

(a) Any Federal agency may request that NARA administratively offset funds due and payable to you in order to collect a debt you owe to that agency. NARA will initiate the requested offset only upon:

(i) Receipt of written certification from the creditor agency stating:
(ii) That you owe the debt;
(iii) The amount and basis of the debt;
(iv) That the agency has prescribed regulations for the exercise of administrative offset; and

(b) NARA in order to collect a debt owed by you would be in the best interest of the United States as determined by the facts and circumstances of the particular case, and that such an offset would not otherwise be contrary to law.

(b) Multiple debts. In instances where two or more creditor agencies are seeking administrative offsets, or where two or more debts are owed to a single creditor agency, NARA may, in its discretion, allocate the amount it owes to you to the creditor agencies in accordance with the best interest of the United States as determined by the facts and circumstances of the particular case, paying special attention to applicable statutes of limitations.

§ 1201.53 When may NARA make an offset in an expedited manner?

NARA may effect an administrative offset against a payment to be made to you before completion of the procedures required by §§ 1201.51 and 1201.52 if failure to take the offset would substantially jeopardize NARA’s ability to collect the debt and the time before the payment is to be made does not reasonably permit the completion of those procedures. An expedited offset will be followed promptly by the completion of those procedures. Amounts recovered by offset, but later found not to be owed to the United States, will be promptly refunded.

§ 1201.54 Can a judgment I have obtained against the United States be used to satisfy a debt that I owe to NARA?

Collection by offset against a judgment obtained by a debtor against the United States will be accomplished in accordance with 31 U.S.C. 3728 and 31 U.S.C. 3716.

Subpart F—Administrative Wage Garnishment

§ 1201.55 How will NARA collect debts through Administrative Wage Garnishment?

NARA will collect debts through Administrative Wage Garnishment in accordance with the Administrative Wage Garnishment regulations issued by the Treasury. NARA adopts, for the
purposes of this subpart, the Treasury’s Administrative Wage Garnishment regulations in 31 CFR 285.11.

See subchapter C of this chapter for rules governing access to these type records.

§ 1202.8 How does NARA handle records that are in Government-wide Privacy Act systems?

Records in the custody of NARA in a Government-wide Privacy Act system are the primary responsibility of another agency, e.g., the Office of Personnel Management (OPM) or the Office of Government Ethics (OGE). These records are governed by the regulations established by that agency pursuant to the Privacy Act. NARA provides access using that agency’s regulations.

§ 1202.10 Does NARA handle access to and disclosure of records of defunct agencies in the custody of NARA?

Yes, records of defunct agencies in the custody of NARA at a NARA record center are covered by the provisions of this part.

§ 1202.20 What advisory information does NARA provide before collecting information from me?

(a) Before collecting information from you, NARA will advise you of:

(1) The authority for collecting the information and whether providing the information is mandatory or voluntary;

(2) The purpose for which the information will be used;

(3) The routine uses of the information; and

(4) The effect on you, if any, of not providing the information.

(b) NARA ensures that forms used to record the information that you provide are in compliance with the Privacy Act and this part.

§ 1202.22 Will NARA need my Social Security Number?

(a) Before a NARA employee or NARA contractor asks you to provide your social security number (SSN), he or she will ensure that the disclosure is required by Federal law or under a Federal law or regulation adopted before January 1, 1975.

(b) If you are asked to provide your SSN, the NARA employee or contractor must first inform you:

(1) Whether the disclosure is mandatory or voluntary;

(2) The statute or authority under which your SSN is solicited; and

(3) How your SSN will be used.

§ 1202.24 Will NARA ever request information about me from someone else?

NARA will make every effort to gather information from you directly. When NARA solicits information about you from someone else, NARA will explain to that person the purpose for which the information will be used.

§ 1202.26 Who will make sure that my record is accurate?

The system manager ensures that all records used by NARA to make a determination about any individual are maintained with such accuracy, relevancy, timeliness, and completeness as is reasonably possible to ensure fairness to you.
§ 1202.28 What rules do NARA employees follow in managing personal information?

All NARA employees and contractors involved in the design, development, operation or maintenance of any system of records must review the provisions of the Privacy Act and the regulations in this part. NARA employees and contractors must conduct themselves in accordance with the rules of conduct concerning the protection of nonpublic information in the Standards of Ethical Conduct for Employees of the Executive Branch, 5 CFR 2635.703.

§ 1202.30 How does NARA safeguard its systems of records?

(a) The system manager ensures that appropriate administrative, technical, and physical safeguards are established to ensure the security and confidentiality of records. In order to protect against any threats or hazards to their security or loss of integrity, paper records are maintained in areas accessible only to authorized NARA personnel. Electronic records are protected in accordance with the Computer Security Act, OMB Circular A–11 requiring privacy analysis in reporting to OMB, and are accessed via passwords from terminals located in attended offices. After hours, buildings have security guards and/or doors are secured and all entrances are monitored by electronic surveillance equipment.

(b) The system manager, at his/her discretion, may designate additional safeguards similar to or greater than those described in paragraph (a) of this section for unusually sensitive records.

§ 1202.40 How can I gain access to NARA records about myself?

(a) If you wish to request access to information about yourself contained in a NARA Privacy Act system of records, you must notify the NARA Privacy Act Officer, National Archives and Records Administration, Rm. 3110, 8601 Adelphi Rd., College Park, MD 20740–6001. If you wish to allow another person to review or obtain a copy of your record, you must provide authorization for that person to obtain access as part of your request.

(b) Your request must be in writing and the letter and the envelope must be marked “Privacy Act Request.” Your request letter must contain:

(1) The complete name and identifying number of the NARA system as published in the FEDERAL REGISTER;

(2) A brief description of the nature, time, place, and circumstances of your association with NARA;

(i) Your full name;

(ii) An acknowledgment that you understand the criminal penalty in the Privacy Act for requesting or obtaining access to records under false pretenses (5 U.S.C. 552a(l)(3)); and

(iii) A declaration that your statement is true and correct under penalty of perjury (18 U.S.C. 1001).

(c) The procedure for accessing an accounting of disclosure is identical to the procedure for access to a record as set forth in this section.

§ 1202.42 How are requests for access to medical records handled?

When NARA receives a request for access to medical records, if NARA believes that disclosure of medical and/or psychological information directly to
§ 1202.44 How long will it take for NARA to process my request?
(a) NARA will acknowledge your request within 10 workdays of its receipt by NARA and if possible, will make the records available to you at that time. If NARA cannot make the records immediately available, the acknowledgment will indicate when the system manager will make the records available.

(b) If NARA anticipates more than a 10 workday delay in making a record you requested available, NARA also will explain in the acknowledgment specific reasons for the delay.

(c) If your request for access does not contain sufficient information to permit the system manager to locate the records, NARA will request additional information from you. NARA will have 10 workdays following receipt of the additional information in which to make the records available or to acknowledge receipt of the request and to indicate when the records will be available.

§ 1202.46 In what ways will NARA provide access?
(a) At your request, NARA will provide you, or a person authorized by you, a copy of the records by mail or by making the records available in person during normal business hours at the NARA facility where the records are located. If you are seeking access in person, the system manager will permit you to examine the original record, will provide you with a copy of the records, or both.

(b) When obtaining access to the records in person at a NARA facility, you must provide proof of identification either by producing at least one piece of identification bearing a name or signature and either a photograph or physical description (e.g., a driver’s license or employee identification card) or by signing the Certification of Identity form described in §1204.40 (b)(5).

NARA reserves the right to ask you to produce additional pieces of identification to assure NARA of your identity. You will also be asked to sign an acknowledgement that you have been given access.

§ 1202.48 Will I have to pay for copies of records?
Yes. However NARA will waive fees for the first 100 pages copied or when the cost to collect the fee will exceed the amount collected. When a fee is charged, the charge per copy is $0.20 per page if NARA makes the copy or $0.15 per page if you make the copy on a NARA self-service copier. Fees for other reproduction processes are computed upon request.

§ 1202.50 Does NARA require prepayment of fees?
If the system manager determines that the estimated total fee is likely to exceed $250, NARA will notify you that the estimated fee must be prepaid before you can have copies of the records. If the final fee is less than the amount you prepaid, NARA will refund the difference.

§ 1202.52 How do I pay?
You must pay by check or money order. Make your check or money order payable to the National Archives and Records Administration and send it to the NARA Privacy Act Officer, Room 3110, 8601 Adelphi Road, College Park, MD 20740–6001.

§ 1202.54 On what grounds can NARA deny my Privacy Act request?
(a) NARA can deny your Privacy Act request for records if the records are maintained in an exempt systems of records are described in subpart F of this part.

(b) A system manager may deny your request for access to your records only if:
(1) NARA has published rules in the Federal Register exempting the pertinent system of records from the access requirement; and
(2) The record is exempt from disclosure under the Freedom of Information Act (FOIA).
(c) Upon receipt of a request for access to a record which is contained within an exempt system of records, NARA will:

1. Review the record to determine whether all or part of the record must be released to you in accordance with §1202.40, notwithstanding the inclusion of the record within an exempt system of records; and
2. Provide access to the record (or part of the record, if it is not fully releasable) in accordance with §1202.46 or notify you that the request has been denied in whole or in part.

(d) If your request is denied in whole or in part, NARA's notice will include a statement specifying the applicable Privacy Act and FOIA exemptions and advising you of the right to appeal the decision as explained in §1202.56.

§ 1202.56 How do I appeal a denial of my Privacy Act request?

(a) If you are denied access in whole or in part to records pertaining to yourself, you may file with NARA an appeal of that denial. Your appeal letter must be post marked no later than 35 calendar days after the date of the denial letter from NARA.

1. Address appeals involving denial of access to Office of Inspector General records to NARA Privacy Act Appeal Official (N), National Archives and Records Administration, Room 4200, 8601 Adelphi Road, College Park, MD 20740–6001.
2. Address all other appeals to the NARA Privacy Act Appeal Official (ND), National Archives and Records Administration, Room 4200, 8601 Adelphi Road, College Park, MD 20740–6001.

(b) All appeals of denial of access to the NARA Privacy Act Appeal Official must be in writing. Mark both the envelope and the appeal "Privacy Act Access Appeal."

§ 1202.58 How are appeals processed?

(a) Upon receipt of your appeal, the NARA Privacy Act Appeal Official will consult with the system manager, legal counsel, and such other officials as may be appropriate. If the NARA Privacy Act Appeal Official determines that the records you requested are not exempt from release, NARA grants you access and so notifies you.

(b) If the NARA Privacy Act Appeal Official determines that your appeal must be rejected, NARA will immediately notify you in writing of that determination. This decision is final and cannot be appealed further within NARA. NARA's notification to you will include:

1. The reason for the rejection of the appeal; and
2. Notice of your right to seek judicial review of NARA's final determination, as described in 36 CFR 1202.84.

(c) NARA will make its final determination no later than 30 workdays from the date on which NARA receives your appeal. NARA may extend this time limit by notifying you in writing before the expiration of the 30 workdays. This notification will include an explanation of the reasons for the time extension.

Subpart D—Disclosure of Records

§ 1202.60 When does NARA disclose a record in a Privacy Act system of records?

NARA will not disclose any records in a Privacy Act system of records to any person or to another agency without the express written consent of the subject individual unless the disclosure is:

(a) To NARA employees who have a need for the information in the official performance of their duties;
(b) Required by the provisions of the Freedom of Information Act, as amended;
(c) For a routine use that has been published in a notice in the Federal Register;
(d) To the Bureau of Census for purposes of planning or carrying out a census or survey or related activity pursuant to title 13 U.S.C.;
(e) To a person who has provided NARA with advance adequate written assurance as specified in §1202.62(a) that the record will be used solely as a statistical research or reporting record. (Personal identifying information is deleted from the record released for statistical purposes. The system manager ensures that the identity of
§ 1202.62 What are the procedures for disclosure of records to a third party?

(a) To obtain access to records about a person other than yourself, address the request to the NARA Privacy Act Officer, National Archives and Records Administration, Room 3110, 8601 Adelphi Rd., College Park, MD 20740–6001. If you are requesting access for statistical research as described in §1202.60(e), you must submit a written statement that includes as a minimum: (1) A statement of the purpose for requesting the records; and (2) Certification that the records will be used only for statistical purposes.

(b) NARA will acknowledge your request within 10 workdays and will make a decision within 30 workdays, unless NARA notifies you that the time limit must be extended for good cause.

(c) Upon receipt of your request, NARA will verify your right to obtain access to documents pursuant to §1202.60. Upon verification, the system manager will make the requested records available to you.

(d) If NARA determines that the disclosure is not permitted under §1202.60, the system manager will deny your request in writing. NARA will inform you of the right to submit a request for review of the denial and a final determination to the appropriate NARA Privacy Act Appeal Officer.

§ 1202.64 How do I appeal a denial of disclosure?

(a) Your request for a review of the denial of disclosure to records maintained by the Office of the Inspector General must be addressed to the NARA Privacy Act Appeal Officer (N), National Archives and Records Administration, Room 4200, 8601 Adelphi Rd., College Park, MD 20740–6001.

(b) Requests for a review of a denial of disclosure to all other NARA records must be addressed to the NARA Privacy Act Appeal Officer (ND), National Archives and Records Administration, Room 4200, 8601 Adelphi Rd., College Park, MD 20740–6001.

§ 1202.66 How does NARA keep account of disclosures?

(a) Except for disclosures made to NARA employees in the course of the performance of their duties or when required by the Freedom of Information Act (see §1202.60(a) and (b)), NARA keeps an accurate accounting of each disclosure and retains it for 5 years after the disclosure or for the life of the record, whichever is longer. The accounting includes the:

(1) Date of disclosure;
(2) Nature, and purpose of each disclosure; and
(3) Name and address of the person or agency to which the disclosure is made.
National Archives and Records Administration

§ 1202.78
(b) The system manager also maintains with the accounting of disclosures:
(1) A full statement of the justification for the disclosures;
(2) All documentation surrounding disclosure of a record for statistical or law enforcement purposes; and
(3) Evidence of written consent by the subject individual to a disclosure, if applicable.
(c) Except for the accounting of disclosures made for a law enforcement activity (see §1202.60(g)) or of disclosures made from exempt systems (see subpart F of this part), the accounting of disclosures will be made available to the subject individual upon request. Procedures for requesting access to the accounting of disclosures are in subpart C.

Subpart E—Request To Amend Records

§ 1202.70 Whom should I contact at NARA to amend records about myself?
If you believe that a record that NARA maintains about you is not accurate, timely, relevant or complete, you may request that the record be amended. Write to the NARA Privacy Act Officer, Room 3110, 8601 Adelphi Rd, College Park, MD 20740–6001. Employees of NARA who desire to amend their personnel records should write to the Director, Human Resources Services Division. You should include as much information, documentation, or other evidence as needed to support your request to amend the pertinent record. Mark both the envelop and the letter with the phrase “Privacy Act—Request To Amend Record.”

§ 1202.72 How does NARA handle requests to amend records?
(a) NARA will acknowledge receipt of a request to amend a record within 10 workdays. If possible, the acknowledgment will include the system manager’s determination either to amend the record or to deny your request to amend as provided in §1202.76.
(b) When reviewing a record in response to your request to amend, the system manager will assess the accuracy, relevance, timeliness, and completeness of the existing record in light of your proposed amendment to determine if your request to amend is justified. If you request the deletion of information, the system manager also will review your request and the existing record to determine whether the information is relevant and necessary to accomplish NARA’s purpose, as required by law or Executive order.

§ 1202.74 How will I know if NARA approved my amendment request?
If NARA approves your amendment request, the system manager will promptly make the necessary amendment to the record and will send a copy of the amended record to you. NARA will also advise all previous recipients of the record, using the accounting of disclosures, that an amendment has been made and give the substance of the amendment. Where practicable, NARA will also send a copy of the amended record to previous recipients.

§ 1202.76 Can NARA deny my request for amendment?
If the system manager denies your request to amend or determines that the record should be amended in a manner other than that requested by you, NARA will advise you in writing of the decision. The denial letter will state:
(a) The reasons for the denial of your amendment request;
(b) Proposed alternative amendments, if appropriate;
(c) Your right to appeal the denial; and
(d) The procedures for appealing the denial.

§ 1202.78 How do I accept an alternative amendment?
If your request to amend a record is denied and NARA suggested alternative amendments, and you agree to those alternative amendments, you must notify the Privacy Act Officer who will then make the necessary amendments in accordance with §1202.74.
§ 1202.80 How do I appeal the denial of a request to amend a record?

(a) If you disagree with a denial of your request to amend a record, you can file an appeal of that denial.

(1) Address your appeal of the denial to amend records signed by a system manager other than the Inspector General, to the NARA Privacy Act Appeal Official (ND), Room 3110, 8601 Adelphi Road, College Park, MD, 20740–6001.

(2) Address the appeal of the denial to amend records signed by the Inspector General to the NARA Privacy Act Appeal Official (N), Room 3110, 8601 Adelphi Road, College Park, MD, 20740–6001.

(3) For current NARA employees if the denial to amend concerns a record maintained in the employee’s Official Personnel Folder or in another Government-wide system maintained by NARA on behalf of another agency, NARA will provide the employee with name and address of the appropriate appeal official in that agency.

(b) Appeals to NARA must be in writing and must be postmarked no later than 35 calendar days from the date of the NARA denial of a request to amend. Your appeal letter and envelope must be marked “Privacy Act—Appeal”.

(c) Upon receipt of an appeal, the NARA Privacy Act Appeal Official will consult with the system manager, legal counsel, and such other officials as may be appropriate. If the appeal official determines that the record should be amended, he or she will instruct the system manager to amend the record in accordance with §1202.74 and will notify you of that action.

(d) If, after consulting with officials specified in paragraph (c) of this section, the NARA Privacy Act Appeal Official determines that your appeal should be rejected, the NARA Privacy Act Appeal Official will notify you in writing of that determination. This notice serves as NARA’s final determination that your request to amend a record. The letter to you will include:

(1) The reason for the rejection of your appeal;

(2) Proposed alternative amendments, if appropriate, which you may accept (see 36 CFR 1202.78 for the procedure);

(3) Notice of your right to file a Statement of Disagreement for distribution in accordance with §1202.82; and

(4) Notice of your right to seek judicial review of the NARA final determination, as provided in §1202.84.

(e) The NARA final determination will be made no later than 30 workdays from the date on which the appeal is received by the NARA Privacy Act Appeal Official. In extraordinary circumstances, the NARA Privacy Act Appeal Official may extend this time limit by notifying you in writing before the expiration of the 30 workdays. The notification will include a justification for the extension of time.

§ 1202.82 How do I file a Statement of Disagreement?

If you receive a NARA final determination denying your request to amend a record, you may file a Statement of Disagreement with the appropriate system manager. The Statement of Disagreement must include an explanation of why you believe the record to be inaccurate, irrelevant, untimely, or incomplete. The system manager will maintain your Statement of Disagreement in conjunction with the pertinent record. The System Manager will send a copy of the Statement of Disagreement to any person or agency to whom the record has been disclosed, only if the disclosure was subject to the accounting requirements of §1202.60.

§ 1202.84 Can I seek judicial review?

Yes, within 2 years of receipt of a NARA final determination as provided in §1202.54 or §1202.80, you may seek judicial review of that determination. You may file a civil action in the Federal District Court:

(a) In which you reside or have a principal place of business;

(b) In which the NARA records are located; or

(c) In the District of Columbia.
§ 1202.90 What NARA systems of records are exempt from release under the National Security Exemption of the Privacy Act?

(a) The Investigative Case Files of the Inspector General (NARA–23) and the Personnel Security Case Files (NARA–24) systems of records are eligible for exemption under 5 U.S.C. 552a(k)(1) because the records in these systems:

(1) Contain information specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and

(2) Are in fact properly classified pursuant to such Executive Order.

(b) The systems described in paragraph (a) are exempt from 5 U.S.C. 552a (c)(3), (d), (e)(1), and (e)(4)(G) and (H). Exemptions from the particular subsections are justified for the following reasons:

(1) From subsection (c)(3) because accounting for each disclosure could result in the release of properly classified information which would compromise the national defense or disrupt foreign policy.

(2) From the access and amendment provisions of subsection (d) because access to the records in these systems of records could result in the release of properly classified information which would compromise the national defense or disrupt foreign policy. Amendment of either of these series of records would interfere with ongoing investigations and law enforcement or national security activities and impose an impossible administrative burden by requiring investigations to be continuously reinvestigated.

(3) From subsection (e)(1) because verification of the accuracy of all information to the records could result in the release of properly classified information which would compromise the national defense or disrupt foreign policy.

(4) From subsection (e)(4)(G) and (H) because these systems are exempt from the access and amendment provisions of subsection (d), pursuant to subsection (k)(1) of the Privacy Act.

§ 1202.92 What NARA systems of records are exempt from release under the Law Enforcement Exemption of the Privacy Act?

(a) The Investigative Files of the Inspector General (NARA–23) system of records is eligible for exemption under 5 U.S.C. 552a(k)(2) because this record system contains investigatory material of actual, potential or alleged criminal, civil or administrative violations, compiled for law enforcement purposes other than within the scope of subsection (j)(2) of 5 USC 552a. If you are denied any right, privilege or benefit that you would otherwise be entitled by Federal law, or for which you would otherwise be eligible, as a result of the record, NARA will make the record available to you, except for any information in the record that would disclose the identity of a confidential source as described in 5 U.S.C. 552a(k)(2).

(b) The system described in paragraph (a) of this section is exempt from 5 U.S.C. 552a (c)(3), (d), (e)(1) and (e)(4)(G) and (H), and (f). Exemptions from the particular subsections are justified for the following reasons:

(1) From subsection (c)(3) because release of disclosure accounting could alert the subject of an investigation about the alleged violations, to the existence of the investigation and to the fact that they are being investigated by the Office of Inspector General (OIG) or another agency. Release of such information could provide significant information concerning the nature of the investigation, resulting in the tampering or destruction of evidence, influencing of witnesses, danger to individuals involved, and other activities that could impede or compromise the investigation.

(2) From the access and amendment provisions of subsection (d) because access to the records contained in this system of records could inform the subject of an investigation of an actual or potential criminal, civil, or administrative violation, of the existence of that investigation; of the nature and scope of the information and evidence obtained as to his/her activities; of the identity of confidential sources, witnesses, and law enforcement personnel; and of information that may enable the
§ 1202.92, Nt. 36 CFR Ch. XII (7–1–16 Edition)

subject to avoid detection or apprehen-
sion. These factors would present a se-
rious impediment to effective law en-
forcement where they prevent the suc-
cessful completion of the investigation,
endanger the physical safety of confi-
dential sources, witnesses, and law
enforcement personnel, and/or lead to
the improper influencing of witnesses,
the destruction of evidence, or the fab-
rication of testimony. In addition,
granting access to such information
would disclose security-sensitive or con-
fidential business information or
information that would constitute an
unwarranted invasion of the personal
privacy of third parties. The amend-
ment of these records could allow the
subject to avoid detection or apprehen-
sion and interfere with ongoing inves-
tigations and law enforcement activi-
ties.

(3) From subsection (e)(1) because the
application of this provision could im-
pair investigations and interfere with
the law enforcement responsibilities of
the OIG or another agency for the fol-
lowing reasons:

(i) It is not possible to detect rele-
vance or need for specific information
in the early stages of an investigation,
case or matter. After the information
is evaluated, relevance and necessity
may be established.

(ii) During an investigation, the OIG
may obtain information about other
actual or potential criminal, civil or
administrative violations, including
those outside the scope of its jurisdic-
tion. The OIG should retain this infor-
mation, as it may aid in establishing
patterns of inappropriate activity, and
provide valuable leads for Federal
and other law enforcement agencies.

(iii) In interviewing individuals or
obtaining other forms of evidence dur-
ing an investigation, information may
be supplied to an investigator, which
relates to matters incidental to the
primary purpose of the investigation
but which may relate also to matters
under the investigative jurisdiction of
another agency. Such information can-
not readily be segregated.

(iv) From subsection (e)(4)(G) and (H)
because this system is exempt from the
access and amendment provisions of
subsection (d), pursuant to subsection (k)(2) of the Privacy Act.

(v) From subsection (f) because this
system is exempt from the access and
amendment provisions of subsection
(d), pursuant to subsection (k)(2) of the
Privacy Act.

EFFECTIVE DATE NOTE: At 81 FR 36802, June
8, 2016, § 1202.92 was revised, effective July 18,
2016. For the convenience of the user, the re-
vised text is set forth as follows:

§ 1202.92 What NARA systems of records are
exempt from release under the Law En-
forcement Exemption of the Privacy Act?

(a) The Investigative Files of the Inspector
General (NARA–23) and the Insider Threat
Program Records (NARA–45) systems of
records are eligible for exemption under 5
U.S.C. 552a(k)(2) because these record sys-
tems contain investigatory material of ac-
tual, potential, or alleged criminal, civil, or
administrative violations, compiled for law
enforcement purposes other than within the
scope of subsection (j)(2) of 5 U.S.C. 552a. If
you are denied any right, privilege, or ben-
efit to which you would otherwise be entitled
by Federal law, or for which you would oth-
erwise be eligible, as a result of the record,
NARA will make the record available to you,
except for any information in the record that
would disclose the identity of a confidential
source as described in 5 U.S.C. 552a(k)(2).

(b) The systems described in paragraph (a)
of this section are exempt from 5 U.S.C.
552a(c)(3), (d), (e)(1) and (e)(4), (g) and (h),
and (f). Exemptions from the particular sub-
sections are justified for the following rea-
sons:

(1) From subsection (c)(3) of 5 U.S.C. 552a
because releasing disclosure accounting
could alert the subject of an investigation
about the alleged violations, about the exist-
ence of the investigation, and about the fact
that they are being investigated by the Of-
cice of Inspector General (OIG), the Insider
Threat Office, or another agency. Releasing
these records could provide significant infor-
mation concerning the nature of the inves-
tigation and result in tampering with or de-
stroying evidence, influencing witnesses, en-
dangering individuals involved, and other ac-
tivities that could impede or compromise the
investigation.

(2) From the access and amendment pro-
visions of subsection (d) of 5 U.S.C. 552a be-
cause access to the information contained in
these systems of records could inform the
subject of an investigation about an actual
or potential criminal, civil, or administra-
tive violation; about the existence of that in-
vestigation; about the nature and scope of
the information and evidence obtained on
the person’s activities; about the identity of
confidential sources, witnesses, and law en-
forcement personnel; and about information
that may enable the person to avoid being
detected or apprehended. These factors
present a serious impediment to effective law enforcement when they prevent investigators from successfully completing the investigation, endanger the physical safety of confidential sources, witnesses, and law enforcement personnel, or lead to improperly influencing witnesses, destroying evidence, or fabricating testimony. In addition, granting access to such records could disclose security-sensitive or confidential business information or information that would constitute an unwarranted invasion of the personal privacy of third parties. Amending these records could allow the subject to avoid being detected or apprehended and interfere with ongoing investigations and law enforcement activities.

(3) From subsection (e)(1) of 5 U.S.C. 552a because applying this provision could impair investigations and interfere with the law enforcement responsibilities of the OIG, the Insider Threat Office, or another agency for the following reasons:

(i) It is not possible to determine relevance or need for specific information in the early stages of an investigation, case, or matter. After the investigators evaluate the information, they may establish its relevance and need.

(ii) During an investigation, the investigating office may obtain information about other actual or potential criminal, civil, or administrative violations, including those outside the scope of its jurisdiction. The office should retain this information, as it may help establish patterns of inappropriate activity, and can provide valuable leads for Federal and other law enforcement agencies.

(iii) When interviewing individuals or obtaining other forms of evidence during an investigation, the investigator may receive information that relates to matters incidental to the primary purpose of the investigation but which may also relate to matters under the investigative jurisdiction of another office or agency. The investigator cannot readily segregate such information.

(4) From subsection (e)(4)(G) and (H) of 5 U.S.C. 552a because these systems are exempt from the access and amendment provisions of subsection (d) of 5 U.S.C. 552a, pursuant to subsection (k)(2) of the Privacy Act.

(5) From subsection (f) of 5 U.S.C. 552a because it contains investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal employment or access to classified information. The only information exempt under this provision is that which would disclose the identity of a confidential source described in 5 U.S.C. 552a(k)(2).

(b) The system of records described in paragraph (a) of this section is exempt from 5 U.S.C. 552a(d)(1). Exemption from the particular subsection is justified as access to records in the system would reveal the identity(ies) of the source(s) of information collected in the course of a background investigation.

§ 1202.94 What NARA systems of records are exempt from release under the Investigatory Information Material exemption of the Privacy Act?

(a) The Personnel Security Case Files (NARA–24) system of records is eligible for exemption under 5 U.S.C. 552a(k)(5) because it contains investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for federal employment or access to classified information. The only information exempt under this provision is that which would disclose the identity of a confidential source described in 5 U.S.C. 552a(k)(2).

(b) The system of records described in paragraph (a) of this section is exempt from 5 U.S.C. 552a(d)(1). Exemption from the particular subsection is justified as access to records in the system would reveal the identity(ies) of the source(s) of information collected in the course of a background investigation.

(a) Types of grants. (1) Matching grant. A matching grant is a Federal grant awarded only after the applicant raises its share of non-Federal support for a project. We will match only funds raised from non-Federal sources, either
monies provided by the applicant’s own institution specifically for the project or from a non-Federal third-party source. The Commission does not ordinarily make matching grants.

(2) **Outright grant.** Outright grants are those awards we make without any matching requirement. However, outright grants usually include a cost-sharing requirement.

(b) **Cost sharing.** (1) Cost sharing consists of the applicant’s contribution to the cost of the project. The Commission ordinarily expects the applicant to provide cost sharing in an amount equal to the amount of the Federal grant award. Exceptions to the one-to-one cost sharing requirement may be set by the Commission in specific grant opportunity announcements.

(2) Cost sharing may include cash or in-kind contributions provided by the applicant or by a non-Federal third party.

(3) As indicated in 2 CFR part 2600, we do not pay indirect costs from grant funds, but allow indirect costs to be used for cost sharing.

(vi) Otherwise limit a qualified individual with handicaps in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.

(3) The agency may not, directly or through contractual or other arrangements, utilize criteria or methods of administration the purpose or effect of which would—

(i) Subject qualified individuals with handicaps to discrimination on the basis of handicap; or

(ii) Defeat or substantially impair accomplishment of the objectives of a program or activity with respect to individuals with handicaps.

(4) The agency may not, in determining the site or location of a facility, make selections the purpose or effect of which would—

§§ 1208.131–1208.139 [Reserved]

§ 1208.140 Employment.

No qualified individual with handicaps shall, on the basis of handicap, be subject to discrimination in employment under any program or activity conducted by the agency. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally conducted programs or activities.

§§ 1208.141–1208.148 [Reserved]

§ 1208.149 Program accessibility: Discrimination prohibited.

Except as otherwise provided in §1208.150, no qualified individual with handicaps shall, because the agency’s facilities are inaccessible to or unusable by individuals with handicaps, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

§ 1208.150 Program accessibility: Existing facilities.

(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by individuals with handicaps. This paragraph does not—

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by individuals with handicaps;

(2) In the case of historic preservation programs, require the agency to take any action that would result in a substantial impairment of significant historic features of an historic property; or

(3) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §1208.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that individuals with handicaps receive the benefits and services of the program or activity.

(b) Methods—(1) General. The agency may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by individuals with handicaps. The agency is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified individuals with

handicaps in the most integrated setting appropriate.

(2) Historic preservation programs. In meeting the requirements of §1208.150(a) in historic preservation programs, the agency shall give priority to methods that provide physical access to individuals with handicaps. In cases where a physical alteration to an historic property is not required because of §1208.150(a)(2) or (3), alternative methods of achieving program accessibility include—

(i) Using audio-visual materials and devices to depict those portions of an historic property that cannot otherwise be made accessible;

(ii) Assigning persons to guide individuals with handicaps into or through portions of historic properties that cannot otherwise be made accessible; or

(iii) Adopting other innovative methods.

(c) Time period for compliance. The agency shall comply with the obligations established under this section by November 7, 1988, except that where structural changes in facilities are undertaken, such changes shall be made by September 6, 1991, but in any event as expeditiously as possible.

(d) Transition plan. In the event that structural changes to facilities will be undertaken to achieve program accessibility, the agency shall develop, by March 6, 1989, a transition plan setting forth the steps necessary to complete such changes. The agency shall provide an opportunity to interested persons, including individuals with handicaps or organizations representing individuals with handicaps, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(1) Identify physical obstacles in the agency’s facilities that limit the accessibility of its programs or activities to individuals with handicaps;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and

(4) Indicate the official responsible for implementation of the plan.

§1208.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the agency shall be designed, constructed, or altered so as to be readily accessible to and usable by individuals with handicaps. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151–4157), as established in 41 CFR 101–19.600 to 101–19.607, apply to buildings covered by this section.

§§1208.152–1208.159 [Reserved]

§1208.160 Communications.

(a) The agency shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The agency shall furnish appropriate auxiliary aids where necessary to afford an individual with handicaps an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the agency.

(i) In determining what type of auxiliary aid is necessary, the agency shall give primary consideration to the requests of the individual with handicaps.

(ii) The agency need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature.

(2) Where the agency communicates with applicants and beneficiaries by telephone, telecommunication devices for deaf persons (TDD's) or equally effective telecommunication systems shall be used to communicate with persons with impaired hearing.

(b) The agency shall ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.
§ 1208.170 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs and activities conducted by the agency.

(b) The agency shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) The agency shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with § 1208.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that, to the maximum extent possible, individuals with handicaps receive the benefits and services of the program or activity.

§§ 1208.161–1208.169 [Reserved]
(k) The time limits cited in paragraphs (g) and (j) of this section may be extended with the permission of the Assistant Attorney General.

(l) The agency may delegate its authority for conducting complaint investigations to other Federal agencies, except that the authority for making the final determination may not be delegated to another agency.

Subpart A—Introduction

§ 1211.100 Purpose and effective date.

The purpose of these Title IX regulations is to effectuate Title IX of the Education Amendments of 1972, as amended (except sections 904 and 906 of those Amendments) (20 U.S.C. 1681,
1682, 1683, 1685, 1686, 1687, 1688), which is designed to eliminate (with certain exceptions) discrimination on the basis of sex in any education program or activity receiving Federal financial assistance, whether or not such program or activity is offered or sponsored by an educational institution as defined in these Title IX regulations. The effective date of these Title IX regulations shall be September 29, 2000.

§ 1211.105 Definitions.

As used in these Title IX regulations, the term:

Administratively separate unit means a school, department, or college of an educational institution (other than a local educational agency) admission to which is independent of admission to any other component of such institution.

Admission means selection for part-time, full-time, special, associate, transfer, exchange, or any other enrollment, membership, or matriculation in or at an education program or activity operated by a recipient.

Applicant means one who submits an application, request, or plan required to be approved by an official of the Federal agency that awards Federal financial assistance, or by a recipient, as a condition to becoming a recipient.

Designated agency official means Executive Director, National Historical Publications and Records Commission.

Educational institution means a local educational agency (LEA) as defined by 20 U.S.C. 8801(18), a preschool, a private elementary or secondary school, or an applicant or recipient that is an institution of graduate higher education, an institution of undergraduate higher education, an institution of professional education, or an institution of vocational education, as defined in this section.

Federal financial assistance means any of the following, when authorized or extended under a law administered by the Federal agency that awards such assistance:

(1) A grant or loan of Federal financial assistance, including funds made available for:

(i) The acquisition, construction, renovation, restoration, or repair of a building or facility or any portion thereof; and

(ii) Scholarships, loans, grants, wages, or other funds extended to any entity for payment to or on behalf of students admitted to that entity, or extended directly to such students for payment to that entity.

(2) A grant of Federal real or personal property or any interest therein, including surplus property, and the proceeds of the sale or transfer of such property, if the Federal share of the fair market value of the property is not, upon such sale or transfer, properly accounted for to the Federal Government.

(3) Provision of the services of Federal personnel.

(4) Sale or lease of Federal property or any interest therein at nominal consideration, or at consideration reduced for the purpose of assisting the recipient or in recognition of public interest to be served thereby, or permission to use Federal property or any interest therein without consideration.

(5) Any other contract, agreement, or arrangement that has as one of its purposes the provision of assistance to any education program or activity, except a contract of insurance or guaranty.

Institution of graduate higher education means an institution that:

(1) Offers academic study beyond the bachelor of arts or bachelor of science degree, whether or not leading to a certificate of any higher degree in the liberal arts and sciences;

(2) Awards any degree in a professional field beyond the first professional degree (regardless of whether the first professional degree in such field is awarded by an institution of undergraduate higher education or professional education); or

(3) Awards no degree and offers no further academic study, but operates ordinarily for the purpose of facilitating research by persons who have received the highest graduate degree in any field of study.

Institution of professional education means an institution (except any institution of graduate higher education) that offers a program of academic study that leads to a first professional degree in a field for which there is a national specialized accrediting
agency recognized by the Secretary of Education.

Institution of undergraduate higher education means:

(1) An institution offering at least two but less than four years of college-level study beyond the high school level, leading to a diploma or an associate degree, or wholly or principally creditable toward a baccalaureate degree; or

(2) An institution offering academic study leading to a baccalaureate degree; or

(3) An agency or body that certifies credentials or offers degrees, but that may or may not offer academic study.

Institution of vocational education means a school or institution (except an institution of professional or graduate or undergraduate higher education) that has as its primary purpose preparation of students to pursue a technical, skilled, or semiskilled occupation or trade, or to pursue study in a technical field, whether or not the school or institution offers certificates, diplomas, or degrees and whether or not it offers full-time study.

Recipient means any State or political subdivision thereof, or any instrumentality of a State or political subdivision thereof, any public or private agency, institution, or organization, or other entity, or any person, to whom Federal financial assistance is extended directly or through another recipient and that operates an education program or activity that receives such assistance, including any subunit, successor, assignee, or transferee thereof.

Student means a person who has gained admission.

Title IX regulations means the provisions set forth at 36 CFR 1211.100 through 1211.635.

Transition plan means a plan subject to the approval of the Secretary of Education pursuant to section 901(a)(2) of the Education Amendments of 1972, 20 U.S.C. 1681(a)(2), under which an educational institution operates in making the transition from being an educational institution that admits only students of one sex to being one that admits students of both sexes without discrimination.

§ 1211.110 Remedial and affirmative action and self-evaluation.

(a) Remedial action. If the designated agency official finds that a recipient has discriminated against persons on the basis of sex in an education program or activity, such recipient shall take such remedial action as the designated agency official deems necessary to overcome the effects of such discrimination.

(b) Affirmative action. In the absence of a finding of discrimination on the basis of sex in an education program or activity, a recipient may take affirmative action consistent with law to overcome the effects of conditions that resulted in limited participation therein by persons of a particular sex. Nothing in these Title IX regulations shall be interpreted to alter any affirmative action obligations that a recipient may have under Executive Order 11246, 3 CFR, 1964–1965 Comp., p. 339; as amended by Executive Order 11375, 3 CFR, 1966–1970 Comp., p. 684; as amended by Executive Order 11478, 3 CFR, 1966–1970 Comp., p. 803; as amended by Executive Order 11986, 3 CFR, 1978 Comp., p. 230; as amended by Executive Order 12107, 3 CFR, 1978 Comp., p. 264.

(c) Self-evaluation. Each recipient education institution shall, within one year of September 29, 2000:

(1) Evaluate, in terms of the requirements of these Title IX regulations, its current policies and practices and the effects thereof concerning admission of students, treatment of students, and employment of both academic and non-academic personnel working in connection with the recipient’s education program or activity;

(2) Modify any of these policies and practices that do not or may not meet the requirements of these Title IX regulations; and
(3) Take appropriate remedial steps to eliminate the effects of any discrimination that resulted or may have resulted from adherence to these policies and practices.

d) Availability of self-evaluation and related materials. Recipients shall maintain on file for at least three years following completion of the evaluation required under paragraph (c) of this section, and shall provide to the designated agency official upon request, a description of any modifications made pursuant to paragraph (c)(2) of this section and of any remedial steps taken pursuant to paragraph (c)(3) of this section.

§ 1211.115 Assurance required.

(a) General. Either at the application stage or the award stage, Federal agencies must ensure that applications for Federal financial assistance or awards of Federal financial assistance contain, be accompanied by, or be covered by a specifically identified assurance from the applicant or recipient, satisfactory to the designated agency official, that each education program or activity operated by the applicant or recipient and to which these Title IX regulations apply will be operated in compliance with these Title IX regulations. An assurance of compliance with these Title IX regulations shall not be satisfactory to the designated agency official if the applicant or recipient to whom such assurance applies fails to commit itself to take whatever remedial action is necessary in accordance with §1211.110(a) to eliminate existing discrimination on the basis of sex or to eliminate the effects of past discrimination whether occurring prior to or subsequent to the submission to the designated agency official of such assurance.

(b) Duration of obligation. (1) In the case of Federal financial assistance extended to provide real property or structures thereon, such assurance shall obligate the recipient for the period during which it retains ownership or possession of the property.

(3) In all other cases such assurance shall obligate the recipient for the period during which Federal financial assistance is extended.

(c) Form. (1) The assurances required by paragraph (a) of this section, which may be included as part of a document that addresses other assurances or obligations, shall include that the applicant or recipient will comply with all applicable Federal statutes relating to nondiscrimination. These include but are not limited to: Title IX of the Education Amendments of 1972, as amended (20 U.S.C. 1681–1683, 1685–1688).

(2) The designated agency official will specify the extent to which such assurances will be required of the applicant’s or recipient’s subgrantees, contractors, subcontractors, transferees, or successors in interest.

§ 1211.120 Transfers of property.

If a recipient sells or otherwise transfers property financed in whole or in part with Federal financial assistance to a transferee that operates any education program or activity, and the Federal share of the fair market value of the property is not upon such sale or transfer properly accounted for to the Federal Government, both the transferor and the transferee shall be deemed to be recipients, subject to the provisions of §§1211.205 through 1211.235(a).

§ 1211.125 Effect of other requirements.

§ 1211.130 Effect of employment opportunities.

The obligation to comply with these Title IX regulations is not obviated or alleviated because employment opportunities in any occupation or profession are or may be more limited for members of one sex than for members of the other sex.

§ 1211.135 Designation of responsible employee and adoption of grievance procedures.

(a) Designation of responsible employee. Each recipient shall designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under these Title IX regulations, including any investigation of any complaint communicated to such recipient alleging its noncompliance with these Title IX regulations or alleging any actions that would be prohibited by these Title IX regulations. The recipient shall notify all its students and employees of the name, office address, and telephone number of the employee or employees appointed pursuant to this paragraph.

(b) Complaint procedure of recipient. A recipient shall adopt and publish grievance procedures providing for prompt and equitable resolution of student and employee complaints alleging any action that would be prohibited by these Title IX regulations.

§ 1211.140 Dissemination of policy.

(a) Notification of policy. (1) Each recipient shall implement specific and continuing steps to notify applicants for admission and employment, students and parents of elementary and secondary school students, employees, sources of referral of applicants for admission and employment, and all unions or professional organizations holding collective bargaining or professional agreements with the recipient, that it does not discriminate on the basis of sex in the educational programs or activities that it operates, and that it is required by Title IX and these Title IX regulations not to discriminate in such a manner. Such notification shall contain such information, and be made in such manner, as the designated agency official finds necessary to apprise such persons of the protections against discrimination assured them by Title IX and these Title IX regulations, but shall state at least that the requirement not to discriminate in education programs or activities extends to employment therein, and to admission thereto unless §§ 1211.300 through 1211.310 do not apply to the recipient, and that inquiries concerning the application of Title IX and these Title IX regulations to such recipient may be referred to the employee designated pursuant to § 1211.135, or to the designated agency official.

(2) Each recipient shall make the initial notification required by paragraph (a)(1) of this section within 90 days of September 29, 2000 or of the date these Title IX regulations first apply to such recipient, whichever comes later, which notification shall include publication in:

(i) Newspapers and magazines operated by such recipient or by student, alumnæ, or alumni groups for or in connection with such recipient; and
(ii) Memoranda or other written communications distributed to every student and employee of such recipient.

(b) Publications. (1) Each recipient shall prominently include a statement of the policy described in paragraph (a) of this section in each announcement, bulletin, catalog, or application form that it makes available to any person of a type, described in paragraph (a) of this section, or which is otherwise used in connection with the recruitment of students or employees.

(2) A recipient shall not use or distribute a publication of the type described in paragraph (b)(1) of this section that suggests, by text or illustration, that such recipient treats applicants, students, or employees differentially on the basis of sex except as such treatment is permitted by these Title IX regulations.

(c) Distribution. Each recipient shall distribute without discrimination on the basis of sex each publication described in paragraph (b)(1) of this section, and shall apprise each of its admission and employment recruitment representatives of the policy of nondiscrimination described in paragraph (a) of this section, and shall require such representatives to adhere to such policy.

Subpart B—Coverage

§ 1211.205 Educational institutions and other entities controlled by religious organizations.

(a) Exemption. These Title IX regulations do not apply to any operation of an educational institution or other entity that is controlled by a religious organization to the extent that application of these Title IX regulations would not be consistent with the religious tenets of such organization.

(b) Exemption claims. An educational institution or other entity that wishes to claim the exemption set forth in paragraph (a) of this section shall do so by submitting in writing to the designated agency official a statement by the highest-ranking official of the institution, identifying the provisions of these Title IX regulations that conflict with a specific tenet of the religious organization.

§ 1211.225 Educational institutions eligible to submit transition plans.

(a) Application. This section applies to each educational institution to which §§1211.300 through 1211.310 apply that:

(c) Nondiscrimination. No policy or practice of a recipient to which §1211.225 applies shall result in treatment of applicants to or students of such recipient in violation of §§1211.300 through 1211.310 unless such treatment is necessitated by an obstacle identified in paragraph (b)(3) of this section and a schedule for eliminating that obstacle has been provided as required by paragraph (b)(4) of this section.

(d) Effects of past exclusion. To overcome the effects of past exclusion of students on the basis of sex, each educational institution to which §1211.225 applies shall result in treatment of applicants to or students of such recipient in violation of §§1211.300 through 1211.310 unless such treatment is necessitated by an obstacle identified in paragraph (b)(3) of this section and a schedule for eliminating that obstacle has been provided as required by paragraph (b)(4) of this section.

(2) A recipient shall not administer or operate any test or other criterion for admission that has a disproportionately adverse effect on persons on the basis of sex unless the use of such test or criterion is shown to predict validly success in the education program or activity in question and alternative tests or criteria that do not have such a disproportionately adverse effect are shown to be unavailable.

(c) Prohibitions relating to marital or parental status. In determining whether a person satisfies any policy or criterion for admission, or in making any offer of admission, a recipient to which §§1211.300 through 1211.310 apply:

(2) To ensure nondiscriminatory awards of assistance as required in paragraph (b)(1) of this section, recipients shall develop and use procedures under which:

(i) Students are selected for award of financial assistance on the basis of nondiscriminatory criteria and not on the basis of availability of funds restricted to members of a particular sex;

(b) Use of appraisal and counseling materials. A recipient that uses testing or other materials for appraising or counseling students shall not use different materials for students on the basis of their sex or use materials that permit or require different treatment of students on such basis unless such different materials cover the same occupations and interest areas and the use of such different materials is shown to be essential to eliminate sex bias. Recipients shall develop and use internal procedures for ensuring that such materials do not discriminate on the basis of sex. Where the use of a counseling test or other instrument results in a substantially disproportionate number of members of one sex in any particular course of study or classification, the recipient shall take such action as is necessary to assure itself that such disproportion is not the result of discrimination in the instrument or its application.

(c) Disproportion in classes. Where a recipient finds that a particular class contains a substantially disproportionate number of individuals of one sex, the recipient shall take such action as is necessary to assure itself that such disproportion is not the result of discrimination on the basis of sex in counseling or appraisal materials or by counselors.

(3) A recipient shall not enter into any contractual or other relationship which directly or indirectly has the effect of subjecting employees or students to discrimination prohibited by §§1211.500 through 1211.550, including relationships with employment and referral agencies, with labor unions, and with organizations providing or administering fringe benefits to employees of the recipient.

(a) Use of such test or other criterion is shown to predict validly successful performance in the position in question; and

(b) Alternative tests or criteria for such purpose, which do not have such disproportionately adverse effect, are shown to be unavailable.

§ 1211.510 Recruitment.

(a) Nondiscriminatory recruitment and hiring. A recipient shall not discriminate on the basis of sex in the recruitment and hiring of employees. Where a recipient has been found to be presently discriminating on the basis of sex in the recruitment or hiring of employees, or has been found to have so discriminated in the past, the recipient shall recruit members of the sex so discriminated against so as to overcome the effects of such past or present discrimination.

(b) Recruitment patterns. A recipient shall not recruit primarily or exclusively at entities that furnish as applicants only or predominantly members of one sex if such actions have the effect of discriminating on the basis of sex in violation of §§1211.500 through 1211.550.

(d) Pregnancy leave. In the case of a recipient that does not maintain a leave policy for its employees, or in the case of an employee with insufficient leave or accrued employment time to qualify for leave under such a policy, a recipient shall treat pregnancy, childbirth, false pregnancy, termination of pregnancy, and recovery therefrom as a justification for a leave of absence without pay for a reasonable period of time, at the conclusion of which the employee shall be reinstated to the status that she held when the leave began or to a comparable position, without decrease in rate of compensation or loss of promotional opportunities, or any other right or privilege of employment.
§ 1211.535 Effect of state or local law or other requirements.

(a) Prohibitory requirements. § 1211.620 Hearings.

(a) Opportunity for hearing. Whenever an opportunity for a hearing is required by §1211.615(c), reasonable notice shall be given by registered or certified mail, return receipt requested, to the affected applicant or recipient. This notice shall advise the applicant or recipient of the action proposed to be taken, the specific provision under which the proposed action against it is to be taken, and the matters of fact or law asserted as the basis for this action, and either:

(1) Fix a date not less than 20 days after the date of such notice within which the applicant or recipient may request of the designated agency official that the matter be scheduled for hearing; or

(2) Advise the applicant or recipient that the matter in question has been set down for hearing at a stated place and time. The time and place so fixed shall be reasonable and shall be subject
to change for cause. The complainant, if any, shall be advised of the time and place of the hearing. An applicant or recipient may waive a hearing and submit written information and argument for the record. The failure of an applicant or recipient to request a hearing for which a date has been set shall be deemed to be a waiver of the right to a hearing under 20 U.S.C. 1682 and §1211.615(c) and consent to the making of a decision on the basis of such information as may be filed as the record.

(b) Time and place of hearing. Hearings shall be held at the offices of the agency in Washington, DC, at a time fixed by the designated agency official unless the official determines that the convenience of the applicant or recipient or of the agency requires that another place be selected. Hearings shall be held before a hearing officer designated in accordance with 5 U.S.C. 556(b).

(c) Right to counsel. In all proceedings under this section, the applicant or recipient and the agency shall have the right to be represented by counsel.

(d) Procedures, evidence, and record. (1) The hearing, decision, and any administrative review thereof shall be conducted in conformity with 5 U.S.C. 554–557 (sections 5 through 8 of the Administrative Procedure Act), and in accordance with such rules of procedure as are proper (and not inconsistent with this section) relating to the conduct of the hearing, giving of notices subsequent to those provided for in paragraph (a) of this section, taking of testimony, exhibits, arguments and briefs, requests for findings, and other related matters. Both the agency and the applicant or recipient shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the hearing officer at the outset of or during the hearing. Any person (other than a Government employee considered to be on official business) who, having been invited or requested to appear and testify as a witness on the Government’s behalf, attends at a time and place scheduled for a hearing provided for by these Title IX regulations, may be reimbursed for his or her travel and actual expenses of attendance in an amount not to exceed the amount payable under the standardized travel regulations to a Government employee traveling on official business.

(2) Technical rules of evidence shall not apply to hearings conducted pursuant to these Title IX regulations, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary by the hearing officer. The hearing officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the oral evidence except to the extent the substance thereof is stipulated for the record. All decisions shall be based upon the hearing record and written findings shall be made.

(e) Consolidated or joint hearings. In cases in which the same or related facts are asserted to constitute noncompliance with these Title IX regulations with respect to two or more programs to which these Title IX regulations apply, or noncompliance with these Title IX regulations and the regulations of one or more other Federal departments or agencies issued under Title IX, the designated agency official may, by agreement with such other departments or agencies where applicable, provide for the conduct of consolidated or joint hearings, and for the application to such hearings of rules of procedures not inconsistent with these Title IX regulations. Final decisions in such cases, insofar as these Title IX regulations are concerned, shall be made in accordance with §1211.625.

[65 FR 52887, Aug. 30, 2000]
mailed to the applicant or recipient and to the complainant, if any. Where
the initial decision referred to in this paragraph or in paragraph (c) of this
section is made by the hearing officer, the applicant or recipient or the coun-
sel for the agency may, within the pe-
riod provided for in the rules of proce-
dure issued by the designated agency
official, file with the reviewing author-
ity exceptions to the initial decision,
with the reasons therefor. Upon the fil-
ing of such exceptions the reviewing
authority shall review the initial deci-
sion and issue its own decision thereof
including the reasons therefor. In the
absence of exceptions the initial deci-
sion shall constitute the final decision,
subject to the provisions of paragraph
(e) of this section.

(b) Decisions on record or review by the
reviewing authority. Whenever a record
is certified to the reviewing authority
for decision or it reviews the decision
of a hearing officer pursuant to para-
graph (a) or (c) of this section, the ap-
plicant or recipient shall be given rea-
sonable opportunity to file with it
briefs or other written statements of
its contentions, and a copy of the final
decision of the reviewing authority
shall be given in writing to the appli-
cant or recipient and to the complain-
ant, if any.

(c) Decisions on record where a hearing
is waived. Whenever a hearing is waived
pursuant to §1211.620, the reviewing au-
thority shall make its final decision on
the record or refer the matter to a
hearing officer for an initial decision
to be made on the record. A copy of
such decision shall be given in writing
to the applicant or recipient, and to
the complainant, if any.

(d) Rulings required. Each decision of
a hearing officer or reviewing author-
ity shall set forth a ruling on each
finding, conclusion, or exception pre-
sented, and shall identify the require-
ment or requirements imposed by or
pursuant to these Title IX regulations
with which it is found that the appli-
cant or recipient has failed to comply.

(e) Review in certain cases by the Ar-
chivist of the United States. If the Archi-
vist has not personally made the final
decision referred to in paragraph (a),
(b), or (c) of this section, a recipient or
applicant or the counsel for the agency
may request the Archivist to review a
decision of the reviewing authority in
accordance with rules of procedure
issued by the designated agency offi-
cial. Such review is not a matter of
right and shall be granted only where
the Archivist determines there are spe-
cial and important reasons therefor.
The Archivist may grant or deny such
request, in whole or in part. The Archi-
vist may also review such a decision
upon his own motion in accordance
with rules of procedure issued by the
National Archives and Records Admin-
istration. In the absence of a review
under this paragraph (e), a final deci-
sion referred to in paragraph (a), (b), or
(c) of this section shall become the
final decision of the agency when the
Archivist transmits it as such to Con-
gressional committees with the report
required under 20 U.S.C. 1682. Failure of
an applicant or recipient to file an ex-
ception with the reviewing authority
or to request review under this para-
graph (e) shall not be deemed a failure
to exhaust administrative remedies for
the purpose of obtaining judicial re-
view.

(f) Content of orders. The final deci-
sion may provide for suspension or ter-
mination of, or refusal to grant or con-
tinue Federal financial assistance, in
whole or in part, to which these Title
IX regulations apply, and may contain
such terms, conditions, and other pro-
visions as are consistent with and will
effectuate the purposes of Title IX and
these Title IX regulations, including
provisions designed to assure that no
Federal financial assistance to which
these Title IX regulations apply will
thereafter be extended under such law
or laws to the applicant or recipient
determined by such decision to be in
default in its performance of an assur-
ance given by it pursuant to these
Title IX regulations, or to have other-
wise failed to comply with these Title
IX regulations unless and until it cor-
 rects its noncompliance and satisfies
the designated agency official that it
will fully comply with these Title IX
regulations.
(g) Post-termination proceedings. (1) An applicant or recipient adversely affected by an order issued under paragraph (f) of this section shall be restored to full eligibility to receive Federal financial assistance if it satisfies the terms and conditions of that order for such eligibility or if it brings itself into compliance with these Title IX regulations and provides reasonable assurance that it will fully comply with these Title IX regulations. An elementary or secondary school or school system that is unable to file an assurance of compliance shall be restored to full eligibility to receive Federal financial assistance if it files a court order or a plan for desegregation that meets the applicable requirements and provides reasonable assurance that it will comply with the court order or plan.

(2) Any applicant or recipient adversely affected by an order entered pursuant to paragraph (f) of this section may at any time request the designated agency official to restore fully its eligibility to receive Federal financial assistance. Any such request shall be supported by information showing that the applicant or recipient has met the requirements of paragraph (g)(1) of this section. If the designated agency official determines that those requirements have been satisfied, the official shall restore such eligibility.

(3) If the designated agency official denies any such request, the applicant or recipient may submit a request for a hearing in writing, specifying why it believes such official to have been in error. It shall thereupon be given an expeditious hearing, with a decision on the record, in accordance with rules of procedure issued by the designated agency official. The applicant or recipient will be restored to such eligibility if it proves at such hearing that it satisfied the requirements of paragraph (g)(1) of this section. While proceedings under this paragraph (g) are pending, the sanctions imposed by the order issued under paragraph (f) of this section shall remain in effect.

§ 1211.630 Judicial review.
Action taken pursuant to 20 U.S.C. 1682 is subject to judicial review as provided in 20 U.S.C. 1683.
[65 FR 52889, Aug. 30, 2000]

§ 1211.635 Forms and instructions; coordination.

(a) Forms and instructions. The designated agency official shall issue and promptly make available to interested persons forms and detailed instructions and procedures for implementing these Title IX regulations.

(b) Supervision and coordination. The Archivist or his designee may from time to time assign to officials of the agency, or to officials of other departments or agencies of the Government with the consent of such departments or agencies, responsibilities in connection with the effectuation of the purposes of Title IX and these Title IX regulations (other than responsibility for review as provided in §1211.625(e)), including the achievements of effective coordination and maximum uniformity within the agency and within the Executive Branch of the Government in the application of Title IX and these Title IX regulations to similar programs and in similar situations. Any action taken, determination made, or requirement imposed by an official of another department or agency acting pursuant to an assignment of responsibility under this section shall have the same effect as though such action had been taken by the designated official of this agency.

The specific measures that you must take in this regard are described in more detail in subsequent sections of this subpart. Briefly, those measures are to—
1. Publish a drug-free workplace statement and establish a drug-free awareness program for your employees (see §§ 1212.205 through 1212.220); and
2. Take actions concerning employees who are convicted of violating drug statutes in the workplace (see § 1212.225).
(b) Second, you must identify all known workplaces under your Federal awards (see § 1212.230).

§ 1212.205 What must I include in my drug-free workplace statement?
You must publish a statement that—
(a) Tells your employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in your workplace;
(b) Specifies the actions that you will take against employees for violating that prohibition; and
(c) Lets each employee know that, as a condition of employment under any award, he or she:
1. Will abide by the terms of the statement; and

If you are a new recipient that does not already have a policy statement as described in § 1212.205 and an ongoing awareness program as described in § 1212.215, you must publish the statement and establish the program by the time given in the following table:

<table>
<thead>

</tr>

There are two actions you must take if an employee is convicted of a drug violation in the workplace:
(a) First, you must notify Federal agencies if an employee who is engaged in the performance of an award informs you about a conviction, as required by § 1212.205(c)(2), or you otherwise learn
§ 1212.230 How and when must I identify workplaces?

(a) You must identify all known workplaces under each NARA award. A failure to do so is a violation of your drug-free workplace requirements. You may identify the workplaces:

(1) To the NARA official that is making the award, either at the time of application or upon award; or

(2) In documents that you keep on file in your offices during the performance of the award, in which case you must make the information available for inspection upon request by NARA officials or their designated representatives.

(b) Your workplace identification for an award must include the actual address of buildings (or parts of buildings) or other sites where work under the award takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

(c) If you identified workplaces to the NARA awarding official at the time of application or award, as described in paragraph (a)(1) of this section, and any workplace that you identified changes during the performance of the award, you must inform the NARA awarding official.

§ 1212.301 [Reserved]

Subpart D—Responsibilities of NARA Awarding Officials

§ 1212.400 What are my responsibilities as a(n) NARA awarding official?

(a) Subpart B of this part, if the recipient is not an individual; or

(b) Subpart C of this part, if the recipient is an individual.
§ 1212.500 How are violations of this part determined for recipients other than individuals?

A recipient other than an individual is in violation of the requirements of this part if the Archivist of the United States or designee determines, in writing, that—

(a) The recipient has violated the requirements of subpart B of this part; or

(b) The number of convictions of the recipient’s employees for violating criminal drug statutes in the workplace is large enough to indicate that the recipient has failed to make a good faith effort to provide a drug-free workplace.

§ 1212.505 How are violations of this part determined for recipients who are individuals?

An individual recipient is in violation of the requirements of this part if the Archivist of the United States or designee determines, in writing, that—

(a) The recipient has violated the requirements of subpart C of this part; or

(b) The recipient is convicted of a criminal drug offense resulting from a violation occurring during the conduct of any award activity.

§ 1212.510 What actions will the Federal Government take against a recipient determined to have violated this part?

(a) Suspension of payments under the award;

(b) Suspension or termination of the award; and

(c) Suspension or debarment of the recipient under 36 CFR part 1209, for a period not to exceed five years.

§ 1212.515 Are there any exceptions to those actions?

The Archivist of the United States or designee may waive with respect to a particular award, in writing, a suspension of payments under an award, suspension or termination of an award, or suspension or debarment of a recipient if the Archivist of the United States or designee determines that such a waiver would be in the public interest. This exception authority cannot be delegated to any other official.

Appraisal is the process by which the NARA determines the value and the final disposition of Federal records, designating them either temporary or permanent.

Commercial records storage facility is a private sector commercial facility that offers records storage, retrieval, and disposition services.

Comprehensive schedule is an agency manual or directive containing descriptions of and disposition instructions for documentary materials in all physical forms, record and nonrecord, created by a Federal agency or major component of an Executive department. Unless taken from General Records Schedules (GRS) issued by NARA, the disposition instructions for records must be approved by NARA on one or more Standard Form(s) 115, Request for Records Disposition Authority, prior to issuance by the agency. The disposition instructions for non-record materials are established by the agency and do not require NARA approval. See also records schedule.

Contingent records are records whose final disposition is dependent on an action or event, such as sale of property or destruction of a facility, which will take place at some unspecified time in the future.

Disposition means those actions taken regarding records no longer needed for the conduct of the regular current business of the agency.

Disposition authority means the legal authorization for the retention and disposal of records. For Federal records it is found on SF 115s, Request for Records Disposition Authority, which have been approved by the Archivist of the United States. For nonrecord materials, the disposition is established by the creating or custodial agency. See also records schedule.

Documentary materials is a collective term that refers to recorded information, regardless of the medium or the method or circumstances of recording.

Electronic record means any information that is recorded in a form that only a computer can process and that satisfies the definition of a Federal record under the Federal Records Act. The term includes both record content and associated metadata that the agency determines is required to meet agency business needs.

Evaluation means the selective or comprehensive inspection, audit, or review of one or more Federal agency records management programs for effectiveness and for compliance with applicable laws and regulations. It includes recommendations for correcting
or improving records management policies and procedures, and follow-up activities, including reporting on and implementing the recommendations.

Executive agency means any executive department or independent establishment in the Executive branch of the U.S. Government, including any wholly owned Government corporation.

Federal agency means any executive agency or any establishment in the Legislative or Judicial branches of the Government (except the Supreme Court, Senate, the House of Representatives, and the Architect of the Capitol and any activities under his direction).

File means an arrangement of records. The term denotes papers, photographs, maps, electronic information, or other recorded information regardless of physical form or characteristics, accumulated or maintained in filing equipment, boxes, on electronic media, or on shelves, and occupying office or storage space.

Information system means the organized collection, processing, transmission, and dissemination of information in accordance with defined procedures, whether automated or manual.

Metadata consists of preserved contextual information describing the history, tracking, and/or management of an electronic document.

National Archives of the United States is the collection of all records selected by the Archivist of the United States because they have sufficient historical or other value to warrant their continued preservation by the Federal Government and that have been transferred to the legal custody of the Archivist of the United States, currently through execution of a Standard Form (SF) 258 (Agreement to Transfer Records to the National Archives of the United States). See also permanent record.

Nonrecord materials are those Federally owned informational materials that do not meet the statutory definition of records (44 U.S.C. 3301) or that have been excluded from coverage by the definition. Excluded materials are extra copies of documents kept only for reference, stocks of publications and processed documents, and library or museum materials intended solely for reference or exhibit.

Permanent record means any Federal record that has been determined by NARA to have sufficient value to warrant its preservation in the National Archives of the United States, even while it remains in agency custody. Permanent records are those for which the disposition is permanent on SF 115, Request for Records Disposition Authority, approved by NARA on or after May 14, 1973. The term also includes all records accessioned by NARA into the National Archives of the United States.

Personal files (also called personal papers) are documentary materials belonging to an individual that are not used to conduct agency business. Personal files are excluded from the definition of Federal records and are not owned by the Government.

Recordkeeping requirements means all statements in statutes, regulations, and agency directives or other authoritative issuances, that provide general or specific requirements for Federal agency personnel on particular records to be created and maintained by the agency.

Recordkeeping system is a manual or electronic system that captures, organizes, and categorizes records to facilitate their preservation, retrieval, use, and disposition.

Records or Federal records is defined in 44 U.S.C. 3301 as including “all books, papers, maps, photographs, machine readable materials, or other documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by the agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations or other activities of the Government or because of the informational value of the data in them (44 U.S.C. 3301).” (See also §1222.10 of this part for an explanation of this definition).

Records center is defined in 44 U.S.C. 2901(6) as an establishment maintained and operated by the Archivist (NARA Federal Records Center) or by another
Federal agency primarily for the storage, servicing, security, and processing of records which need to be preserved for varying periods of time and need not be retained in office equipment or space. See also records storage facility.

Records management, as used in subchapter B, means the planning, controlling, directing, organizing, training, promoting, and other managerial activities involved with respect to records creation, records maintenance and use, and records disposition in order to achieve adequate and proper documentation of the policies and transactions of the Federal Government and effective and economical management of agency operations.

Records schedule or schedule means any of the following:

(1) A Standard Form 115, Request for Records Disposition Authority that has been approved by NARA to authorize the disposition of Federal records;

(2) A General Records Schedule (GRS) issued by NARA; or

(3) A published agency manual or directive containing the records descriptions and disposition instructions approved by NARA on one or more SF 115s or issued by NARA in the GRS. See also comprehensive schedule.

Records storage facility is a records center or a commercial records storage facility, as defined in this section, i.e., a facility used by a Federal agency to store Federal records, whether that facility is operated and maintained by the agency, by NARA, by another Federal agency, or by a private commercial entity.

Retention period is the length of time that records must be kept.

Series means file units or documents arranged according to a filing or classification system or kept together because they relate to a particular subject or function, result from the same activity, document a specific kind of transaction, take a particular physical form, or have some other relationship arising out of their creation, receipt, or use, such as restrictions on access and use. Also called a records series.

Temporary record means any Federal record that has been determined by the Archivist of the United States to have insufficient value (on the basis of current standards) to warrant its preservation by the National Archives and Records Administration. This determination may take the form of:

(1) Records designated as disposable in an agency records disposition schedule approved by NARA (SF 115, Request for Records Disposition Authority); or

(2) Records designated as disposable in a General Records Schedule.

Unscheduled records are Federal records whose final disposition has not been approved by NARA on a SF 115, Request for Records Disposition Authority. Such records must be treated as permanent until a final disposition is approved.

Subpart B—Agency Records Management Responsibilities

§ 1220.30 What are an agency’s records management responsibilities?

(a) Under 44 U.S.C. 3101, the head of each Federal agency must make and preserve records containing adequate and proper documentation of the organization, functions, policies, decisions, procedures, and essential transactions of the agency. These records must be designed to furnish the information necessary to protect the legal and financial rights of the Government and of persons directly affected by the agency’s activities.

(b) Under 44 U.S.C. 3102, the head of each Federal agency must establish
and maintain an active, continuing program for the economical and efficient management of the records of the agency.

(c) Agency records management programs must provide for:

(1) Effective controls over the creation, maintenance, and use of records in the conduct of current business; and

(2) Cooperation with the Archivist and the Administrator of GSA in applying standards, procedures, and techniques designed to improve the management of records, promote the maintenance and security of records deemed appropriate for preservation, and facilitate the segregation and destruction of records of temporary value.

§1220.32 What records management principles must agencies implement?

Agencies must create and maintain authentic, reliable, and usable records and ensure that they remain so for the length of their authorized retention period. A comprehensive records management program provides policies and procedures for ensuring that:

(a) Records documenting agency business are created or captured;

(b) Records are organized and maintained to facilitate their use and ensure integrity throughout their authorized retention periods;

(c) Records are available when needed, where needed, and in a usable format to conduct agency business;

(d) Legal and regulatory requirements, relevant standards, and agency policies are followed;

(e) Records, regardless of format, are protected in a safe and secure environment and removal or destruction is carried out only as authorized in records schedules; and

(f) Continuity of operations is supported by a vital records program (see part 1223 of this subchapter).

§1220.34 What must an agency do to carry out its records management responsibilities?

To carry out the responsibilities specified in 44 U.S.C. 3101 and 3102, agencies must:

(a) Assign records management responsibility to a person and office with appropriate authority within the agency to coordinate and oversee implementation of the agency comprehensive records management program principles in §1220.32;

(b) Advise NARA and agency managers of the name(s) of the individual(s) assigned operational responsibility for the agency records management program. To notify NARA, send the name(s), e-mail and postal addresses, phone and fax numbers of the individual(s) to NARA (NWM), 8601 Adelphi Road, College Park, MD 20740–6001 or to RM.Communications@nara.gov. The name, title, and phone number of the official or officials authorized by the head of the agency to sign records disposition schedules and requests for transfer of records to the custody of the National Archives must also be submitted to NARA (NWM) or RM.Communications@nara.gov;

(c) Issue a directive(s) establishing program objectives, responsibilities, and authorities for the creation, maintenance, and disposition of agency records. Copies of the directive(s) (including subsequent amendments or supplements) must be disseminated throughout the agency, as appropriate, and a copy must be sent to NARA (NWM);

(d) Assign records management responsibilities in each program (mission) and administrative area to ensure incorporation of recordkeeping requirements and records maintenance, storage, and disposition practices into agency programs, processes, systems, and procedures;

(e) Integrate records management and archival requirements into the design, development, and implementation of electronic information systems as specified in §1236.12 of this subchapter;

(f) Provide guidance and training to all agency personnel on their records management responsibilities, including identification of Federal records, in all formats and media;

(g) Develop records schedules for all records created and received by the agency and obtain NARA approval of the schedules prior to implementation, in accordance with 36 CFR parts 1225 and 1226 of this subchapter;

(h) Comply with applicable policies, procedures, and standards relating to
records management and record-keeping requirements issued by the Office of Management and Budget, NARA, GSA, or other agencies, as appropriate (see §1222.22 of this subchapter); and

(j) Conduct formal evaluations to measure the effectiveness of records management programs and practices, and to ensure that they comply with NARA regulations in this subchapter.

Subpart A—Identifying Federal Records

§1222.1 What are the authorities for Part 1222?

The statutory authorities for this part are 44 U.S.C. 2904, 3101, 3102, and 3301.

§1222.2 What definitions apply to this part?

See §1220.18 of this subchapter for definitions of terms used in part 1222.

§1222.3 What standards are used as guidance for this part?

These regulations conform with guidance provided in ISO 15489–1:2001, Information and documentation—Records management. Paragraphs 7.1 (Principles of records management programmes), 7.2 (Characteristics of a record), 8.3.5 (Conversion and migration), 8.3.6 (Access, retrieval and use), and 9.6 (Storage and handling) apply to records creation and maintenance.

§1222.10 How should agencies apply the statutory definition of Federal records?

(a) The statutory definition of Federal records is contained in 44 U.S.C. 3301 and provided in §1220.18 of this subchapter.

(b) Several key terms, phrases, and concepts in the statutory definition of a Federal record are further explained as follows:

(1) Documentary materials has the meaning provided in §1220.18 of this subchapter.

(2) Regardless of physical form or characteristics means that the medium may be paper, film, disk, or other physical type or form; and that the method of recording may be manual, mechanical, photographic, electronic, or any other combination of these or other technologies.

(3) Made means the act of creating and recording information by agency personnel in the course of their official duties, regardless of the method(s) or the medium involved.

(4) Received means the acceptance or collection of documentary materials by
§ 1222.12 What types of documentary materials are Federal records?

(a) General. To ensure that complete and accurate records are made and retained in the Federal Government, agencies must distinguish between records and nonrecord materials by applying the definition of records (see 44 U.S.C. 3301 and 36 CFR 1220.18 and 1222.10 of this subchapter) to agency documentary materials in all formats and media.

(b) Record status. Documentary materials are records when they meet the conditions specified in §1222.10(b).

(c) Working files and similar materials. Working files, such as preliminary drafts and rough notes, and other similar materials, are records that must be maintained to ensure adequate and proper documentation if:

1. They were circulated or made available to employees, other than the creator, for official purposes such as approval, comment, action, recommendation, follow-up, or to communicate with agency staff about agency business; and

2. They contain unique information, such as substantive annotations or comments that adds to a proper understanding of the agency’s formulation and execution of basic policies, decisions, actions, or responsibilities.

(d) Record status of copies. The determination as to whether a particular document is a record does not depend upon whether it contains unique information. Multiple copies of the same document and documents containing duplicative information may each have record status depending on how they are used in conducting agency business.

§ 1222.14 What are nonrecord materials?

Nonrecord materials are U.S. Government-owned documentary materials that do not meet the conditions of records status (see §1222.12(b)) or that are specifically excluded from the statutory definition of records (see 44 U.S.C. 3301). An agency’s records management program also needs to include managing nonrecord materials. There are three specific categories of materials excluded from the statutory definition of records:

(a) Library and museum material (but only if such material is made or acquired and preserved solely for reference or exhibition purposes), including physical exhibits, artifacts, and other material objects lacking evidential value.

(b) Extra copies of documents (but only if the sole reason such copies are preserved is for convenience of reference).

(c) Stocks of publications and of processed documents. Catalogs, trade journals, and other publications that are received from other Government agencies, commercial firms, or private institutions and that require no action and are not part of a case on which action is taken. (Stocks do not include
serial or record sets of agency publications and processed documents, including annual reports, brochures, pamphlets, books, handbooks, posters and maps.)

§ 1222.16 How are nonrecord materials managed?
(a) Agencies must develop record-keeping requirements to distinguish records from nonrecord materials.
(b) The following guidelines should be used in managing nonrecord materials:
(1) If a clear determination cannot be made, the materials should be treated as records. Agencies may consult with NARA for guidance.
(2) Nonrecord materials must be physically segregated from records or, for electronic non-record materials, readily identified and segregable from records;
(3) Nonrecord materials should be purged when no longer needed for reference. NARA’s approval is not required to destroy such materials.

§ 1222.18 Under what conditions may nonrecord materials be removed from Government agencies?
(a) Nonrecord materials, including extra copies of unclassified or formally declassified agency records kept only for convenience of reference, may be removed by departing employees from Government agency custody only with the approval of the head of the agency or the individual(s) authorized to act for the agency on records issues.
(b) National security classified information may not be removed from Government custody, except for a removal of custody taken in accordance with the requirements of the National Industrial Security Program established under Executive Order 12829, as amended, or a successor Order.
(c) Information which is restricted from release under the Privacy Act of 1974 (5 U.S.C. 552a), as amended, or other statutes may not be removed from Government custody except as permitted under those statutes.
(d) This section does not apply to use of records and nonrecord materials in the course of conducting official agency business, including telework and authorized dissemination of information.

§ 1222.20 How are personal files defined and managed?
(a) Personal files are defined in §1220.18 of this subchapter. This section does not apply to agencies and positions that are covered by the Presidential Records Act of 1978 (44 U.S.C. 2201–2207) (see 36 CFR part 1270 of this chapter).
(b) Personal files must be clearly designated as such and must be maintained separately from the office’s official records.
(1) Information about private (non-agency) matters and agency business must not be mixed in outgoing agency documents, such as correspondence and messages.
(2) If information about private matters and agency business appears in a received document, the document is a Federal record. Agencies may make a copy of the document with the personal information deleted or redacted, and treat the copy as the Federal record.
(3) Materials labeled “personal,” “confidential,” or “private,” or similarly designated, and used in the transaction of public business, are Federal records. The use of a label such as “personal” does not affect the status of documentary materials in a Federal agency.
§ 1222.24 How do agencies establish recordkeeping requirements?

(a) Agencies must ensure that procedures, directives and other issuances; systems planning and development documentation; and other relevant records include recordkeeping requirements for records in all media, including those records created or received on electronic mail systems. Recordkeeping requirements must:

(1) Identify and prescribe specific categories of records to be systematically created or received and maintained by agency personnel in the course of their official duties;

(2) Specify the use of materials and recording techniques that ensure the preservation of records as long as they are needed by the Government;

(3) Specify the manner in which these materials must be maintained wherever held;

(4) Propose how long records must be maintained for agency business through the scheduling process in part 1225 of this subchapter;

(5) Distinguish records from non-record materials and comply with the provisions in Subchapter B concerning records scheduling and disposition;

(6) Include procedures to ensure that departing officials and employees do not remove Federal records from agency custody and remove nonrecord materials only in accordance with §1222.18;

(7) Define the special recordkeeping responsibilities of program managers, information technology staff, systems administrators, and the general recordkeeping responsibilities of all agency employees.

(b) Agencies must provide the training described in §1220.94(f) of this subchapter and inform all employees that they are responsible and accountable for keeping accurate and complete records of their activities.

§ 1222.26 What are the general recordkeeping requirements for agency programs?

To ensure the adequate and proper documentation of agency programs, each program must develop recordkeeping requirements that identify:

(a) The record series and systems that must be created and maintained to document program policies, procedures, functions, activities, and transactions;

(b) The office responsible for maintaining the record copies of those series and systems, and the applicable system administrator responsible for ensuring authenticity, protection, and ready retrieval of electronic records;

(c) Related records series and systems;

(d) The relationship between paper and electronic files in the same series; and

(e) Policies, procedures, and strategies for ensuring that records are retained long enough to meet programmatic, administrative, fiscal, legal, and historical needs as authorized in a NARA-approved disposition schedule.

§ 1222.28 What are the series level recordkeeping requirements?

To ensure that record series and systems adequately document agency policies, transactions, and activities, each program must develop recordkeeping requirements for records series and systems that include:

(a) Identification of information and documentation that must be included in the series and/or system;

(b) Arrangement of each series and the records within the series and/or system;

(c) Identification of the location of the records and the staff responsible for maintaining the records;

(d) Policies and procedures for maintaining the documentation of phone calls, meetings, instant messages, and electronic mail exchanges that include substantive information about agency policies and activities;

(e) Policies and procedures for identifying working files and for determining
National Archives and Records Administration § 1222.34

the record status of working files in paper and electronic form; and

(f) Policies and procedures for maintaining series consisting of different media.

§ 1222.30 When must agencies comply with the recordkeeping requirements of other agencies?

Agencies must comply with recordkeeping requirements that are imposed government-wide by another agency with jurisdiction over the program or activity being conducted, e.g., requirements for records concerning hazardous waste. Affected agencies must include these requirements in appropriate directives or other official issuances prescribing the agency’s organization, functions, or activities.

§ 1222.32 How do agencies manage records created or received by contractors?

(a) Agency officials responsible for administering contracts must safeguard records created, processed, or in the possession of a contractor or a non-Federal entity by taking the following steps:

(1) Agencies must ensure that contractors performing Federal government agency functions create and maintain records that document these activities. Agencies must specify in the contract Government ownership and the delivery to the Government of all records necessary for the adequate and proper documentation of contractor-operated agency activities and programs in accordance with requirements of the Federal Acquisition Regulation (FAR) (Office of Federal Procurement Policy Act of 1974 (Pub. L. 93–400), as amended by Pub. L. 96–83 41 U.S.C.), and, where applicable, the Defense Federal Acquisition Regulation Supplement (DFARS) (48 CFR parts 200–299).

(2) Records management oversight of contract records is necessary to ensure that all recordkeeping needs are met. All records created for Government use and delivered to, or under the legal control of, the Government must be managed in accordance with Federal law. In addition, electronic records and background electronic data specified for delivery to the contracting agency must be accompanied by sufficient technical documentation to permit understanding and use of the records and data.

(3) Contracts that require the creation of data for the Government’s use must specify, in addition to the final product, delivery of background supporting data or other records that may have reuse value to the Government. To determine what background supporting data or other records that contractors must deliver, program and contracting officials must consult with agency records and information managers and historians and, when appropriate, with other Government agencies to ensure that all Government needs are met, especially when the data deliverables support a new agency mission or a new Government program.

(4) Deferred ordering and delivery-of-data clauses and rights-in-data clauses must be included in contracts whenever necessary to ensure adequate and proper documentation or because the data have reuse value to the Government.

(b) All data created for Government use and delivered to, or falling under the legal control of, the Government are Federal records subject to the provisions of 44 U.S.C. chapters 21, 29, 31, and 33, the Freedom of Information Act (FOIA) (5 U.S.C. 552), as amended, and the Privacy Act of 1974 (5 U.S.C. 552a), as amended, and must be managed and scheduled for disposition only as provided in Subchapter B.

(c) Agencies must ensure that appropriate authority for retention of classified materials has been granted to contractors or non-Government entities participating in the National Industrial Security Program (NISP), established under Executive order 12829, as amended, or a successor Order.

§ 1222.34 How must agencies maintain records?

Agencies must implement a records maintenance program so that complete records are filed or otherwise identified and preserved, records can be readily found when needed, and permanent and temporary records are physically segregated from each other or, for electronic records, segregable. Agency records maintenance programs must:
Pt. 1223

(a) Institute procedures for organizing and storing records;
(b) Maintain electronic, audiovisual and cartographic, and microform records in accordance with 36 CFR parts 1236, 1237, and 1238 of this subchapter, respectively;
(c) Assign responsibilities for maintenance of records in all formats within each agency component, including designation of the officials that are responsible for maintenance and disposition of electronic records and management of automated systems used for recordkeeping;
(d) Institute reference and retrieval procedures and controls that:
   (1) Facilitate the finding, charging out, and refiling of records, including safeguards against loss during transit; and
   (2) Ensure that access to electronic records minimizes the risk of unauthorized additions, deletions, or alterations;
(e) Issue appropriate instructions to all agency employees on handling and protecting records;
(f) Maintain records and nonrecord materials separately, in accordance with §1222.16;
(g) Maintain personal files separately from records in accordance with §1222.20; and
(h) Comply with 36 CFR parts 1232 and 1234 of this subchapter when storing records in a records facility.

(2) [Reserved]
§ 1223.10 What is the purpose of Part 1223?

Part 1223 specifies policies and procedures needed to establish a program to identify, protect, and manage vital records as part of an agency’s continuity of operation plan designed to meet emergency management responsibilities.

§ 1223.12 What are the objectives of a vital records program?

A vital records program has two objectives:
(a) It provides an agency with the information it needs to conduct its business under other than normal operating conditions and to resume normal business afterward; and
(b) It enables agency officials to identify and protect the most important records dealing with the legal and financial rights of the agency and of persons directly affected by the agency’s actions.

§ 1223.14 What elements must a vital records program include?

To achieve compliance with this section, an agency’s vital records program must contain all elements listed in FCD 1, Annex I (incorporated by reference, see §1223.4). In carrying out a vital records program, agencies must:
(a) Specify agency staff responsibilities;
(b) Appropriately inform all staff about vital records;
(c) Ensure that the designation of vital records is current and complete; and
(d) Ensure that vital records are adequately protected, accessible, and immediately usable.

§ 1223.16 How are vital records identified?

Agencies identify vital records in the context of the emergency management function. Vital records are those that are needed to perform the most critical functions of the agency and those needed to protect legal and financial rights of the Government and of the persons affected by its actions. Vital records also include emergency plans and related records that specify how an agency will respond to an emergency. The informational content of records series and electronic records systems determines which are vital records. Only the most recent and complete sources of the information are vital records.

§ 1223.18 Must vital records be in a particular form or format?

(a) Vital records can be original records or copies of records. Consult NARA records management guidance on vital records at http://www.archives.gov/records-mgmt/vital-records/index.html for further information.
(b) Records may be maintained on a variety of media including paper, magnetic tape, optical disk, photographic film, and microform. In selecting the media, agencies must ensure that equipment needed to read the specific media will be available following an emergency or disaster.

§ 1223.20 What are the requirements for accessing vital records during an emergency?

Agencies must establish retrieval procedures for vital records that are easily implemented, especially since individuals unfamiliar with the records may need to use them in an emergency. For electronic records systems, agencies must also ensure that appropriate hardware, software, and system documentation adequate to operate the system and access the records will be available in case of an emergency.

§ 1223.22 How must agencies protect vital records?

Agencies must take appropriate measures to ensure the survival of the vital records or copies of vital records in case of an emergency.

(a) Duplication. Agencies may choose to duplicate vital records as the primary protection method. Duplication can be to the same medium as the original record or to a different medium. When agencies choose duplication as a protection method, the copy of the vital record stored off-site is normally a duplicate of the original record. The agency may store the original records off-site if their protection is necessary, or if it does not need to keep the original records at its normal place of business.
(b) **Dispersal.** Once records are duplicated, they must be dispersed to sites a sufficient distance away to avoid being subject to the same emergency. Dispersal sites may be other office locations of the same agency or some other site.

(c) **Storage considerations.** Copies of emergency operating vital records must be accessible in a very short period of time for use in the event of an emergency. Copies of legal and financial rights records may not be needed as quickly. In deciding where to store vital record copies, agencies must treat records that have the properties of both categories, that is, emergency operating and legal and financial rights records, as emergency operating records.

(1) The off-site copy of legal and financial rights vital records may be stored at an off-site agency location or, in accordance with §1233.12 of this subchapter, at a records storage facility.

(2) When using a NARA records storage facility for storing vital records that are duplicate copies of original records, the agency must specify on the SF 135, Records Transmittal and Receipt, that they are vital records (duplicate copies) and the medium on which they are maintained. The agency must also periodically cycle (update) them by removing obsolete items and replacing them with the most recent version.

§ 1224.10 What must agencies do to implement an effective records disposition program?

In order to properly implement the provisions of §§1220.30(c)(2), 1220.32(e), and 1220.34(c), (f), and (g) of this subchapter agencies must:

(a) Ensure that all records are scheduled in accordance with part 1225 of this subchapter, schedules are implemented in accordance with part 1226 of this subchapter, and permanent records are transferred to the National Archives of the United States.

(b) Promptly disseminate and implement NARA-approved agency schedules and additions and changes to the General Records Schedules (GRS) in accordance with §1226.12(a) of this subchapter.

(c) Regularly review agency-generated schedules, and, if necessary, update them.

(d) Incorporate records retention and disposition functionality during the design, development, and implementation
of new or revised recordkeeping systems (whether paper or electronic). See §1236.6 of this subchapter.

(e) Provide training and guidance to all employees on agency records disposition requirements and procedures and other significant aspects of the records disposition program. When a new or revised records schedule is issued, provide specific guidance to employees responsible for applying the schedule.

PART 1225—SCHEDULING RECORDS

§ 1225.1 What are the authorities for this part?

The statutory authorities for this part are 44 U.S.C. 2111, 2904, 2905, 3102, and Chapter 33.

Source: 74 FR 51014, Oct. 2, 2009, unless otherwise noted.

§ 1225.3 What standards are used as guidance for this part?

These regulations conform with guidance provided in ISO 15489–1:2001, Information and documentation—Records management. Paragraphs 4 (Benefits of records management), 6.3 (Responsibilities), 7.1 (Principles of records management programmes), 8.3.7 (Retention and disposition), 9.2 (Determining how long to retain records), 9.10 (Documenting records management processes), 10 (Records management processes and controls), and 11 (Monitoring and auditing) apply to records scheduling.

§ 1225.10 What Federal records must be scheduled?

All Federal records, including those created or maintained for the Government by a contractor, must be covered by a NARA-approved agency disposition authority, SF 115, Request for Records Disposition Authority, or the NARA General Records Schedules.

§ 1225.12 How are records schedules developed?

The principal steps in developing agency records schedules are listed below. Additional details that may be helpful are provided in the NARA records management handbook, Disposition of Federal Records at http://www.archives.gov/records-mgmt/publications/disposition-of-federal-records/index.html.

(a) Conduct a functional or work process analysis to identify the functions or activities performed by each organization or unit. Identify the recordkeeping requirements for each.

(b) Prepare an inventory for each function or activity to identify records series, systems, and nonrecord materials.

(c) Determine the appropriate scope of the records schedule items, e.g., individual series/system component, work process, group of related work processes, or broad program area.

(d) Evaluate the period of time the agency needs each records series or system based on use, value to agency operations and oversight agencies, and legal obligations. Determine whether a fixed or flexible retention period is more appropriate. For records proposed

as temporary, specify a retention period that meets agency business needs and legal requirements. For records proposed as permanent records, identify how long the records are needed by the agency before they are transferred to NARA.

(e) Determine whether the proposed disposition should be limited to records in a specific medium. Records schedules submitted to NARA for approval on or after December 17, 2007, are media neutral, i.e., the disposition instructions apply to the described records in any medium, unless the schedule identifies a specific medium for a specific series.

(f) Compile a schedule for records, including descriptions and disposition instructions for each item, using an SF 115.

(g) Obtain internal clearances, as appropriate, from program offices and other stakeholders such as the legal counsel, chief information officer, electronic systems manager, and agency historian, as appropriate.

(h) Obtain approval from the Government Accountability Office (GAO), when required (see §1225.20(a) for the categories that require GAO approval).

(i) Submit an SF 115 covering only new or revised record items to NARA for approval (see §1225.18(d)).

(j) The disposition instructions on SF 115s approved by the Archivist of the United States are mandatory (44 U.S.C. 3314).

§ 1225.14 How do agencies schedule permanent records?

(a) Identification. Identify potentially permanent records. Useful guidelines in the identification of permanent Federal records may be found in the NARA records management handbook, Disposition of Federal Records (see §1225.12 for the Web site address of this publication).

(b) Requirements. Each item proposed for permanent retention on an SF 115 must include the following:

(1) Descriptive title of the records series, component of an information system, or appropriate aggregation of series and/or information system components. The descriptive title must be meaningful to agency personnel;

(2) Complete description of the records including:

(i) Agency function;
(ii) Physical type, if appropriate;
(iii) Inclusive dates;
(iv) Statement of how records are arranged;
(v) Statement of restrictions on access under the FOIA if the records are proposed for immediate transfer;

(3) Disposition instructions developed using the following guidelines:

(i) If the records series or system is current and continuing, the SF 115 must specify the period of time after which the records will be transferred to the National Archives of the United States, and if appropriate, the time period for returning inactive records to an approved records storage facility.

(ii) If the records series or system is nonrecurring, i.e., no additional records will be created or acquired, the agency must propose either that the records be transferred to the National Archives of the United States immediately or set transfer for a fixed date in the future.

(c) Determination. NARA will appraise the records to determine if they have sufficient value to warrant archival permanent preservation. If NARA determines either that records are not permanent or that the transfer instructions are not appropriate:

(1) NARA will notify the agency and negotiate an appropriate disposition. The disposition instruction on the SF 115 will be modified prior to NARA approval; or

(2) If NARA and the agency cannot agree on the disposition instruction for an item(s), the item(s) will be withdrawn. In these cases, the agency must submit an SF 115 with a revised proposal for disposition; unscheduled records must be treated as permanent until a new schedule is approved.

§ 1225.16 How do agencies schedule temporary records?

(a) Identification. Federal agencies request authority to dispose of records, either immediately or on a recurring basis. Requests for immediate disposal are limited to existing records that no longer accumulate. For recurring records, approved schedules provide continuing authority to destroy the
records. The retention periods approved by NARA are mandatory, and the agency must dispose of the records after expiration of the retention period, except as provided in §§1226.18 and 1226.20 of this subchapter.

(b) Requirements. Each item on an SF 115 proposed for eventual destruction must include the following:

(1) Descriptive title familiar to agency personnel;

(2) Description of the records including agency function, physical type(s) and informational content;

(3) Disposition instructions developed using the following guidelines:

(i) If the record series, component of an electronic information system, or appropriate aggregation of series and/or automated system components is current and continuing, the SF 115 must include file breaks, retention period or event after which the records will be destroyed, and, if appropriate, transfer period for retiring inactive records to an approved records storage facility.

(ii) If the records series, system, or other aggregation is nonrecurring, i.e., no additional records will be created or acquired, the SF 115 must specify either immediate destruction or destruction on a future date.

(c) Determination. If NARA determines that the proposed disposition is not consistent with the value of the records, it will request that the agency make appropriate changes.

(1) If NARA determines that records proposed as temporary merit permanent retention and transfer to the National Archives of the United States, the agency must change the disposition instruction prior to approval of the SF 115.

(2) If NARA and the agency cannot agree on the retention period for an item(s), the items(s) will be withdrawn. In these cases, the agency must submit an SF 115 with a revised proposal for disposition; unscheduled records must be treated as permanent until a new schedule is approved.

§ 1225.18 How do agencies request records disposition authority?

(a) Federal agencies submit an SF 115 to NARA to request authority to schedule (establish the disposition for) permanent and temporary records, either on a recurring or one-time basis.

(b) SF 115s include only records not covered by the General Records Schedules (GRS) (see part 1227 of this subchapter), deviations from the GRS (see §1227.12 of this subchapter), or previously scheduled records requiring changes in retention periods or substantive changes in description.

(c) SF 115s do not include nonrecord material. The disposition of nonrecord materials is determined by agencies and does not require NARA approval.

(d) The following elements are required on a SF 115:

(1) Title and description of the records covered by each item.

(2) Disposition instructions that can be readily applied. Records schedules must provide for:

(i) The destruction of records that no longer have sufficient value to justify further retention (see §1224.10(b) of this subchapter); and

(ii) The identification of potentially permanent records and provisions for their transfer to the legal custody of NARA.

(3) Certification that the records proposed for disposition are not now needed for the business of the agency or will not be needed after the specified retention periods. The signature of the authorized agency representative on the SF 115 provides certification.

(e) NARA will return SF 115s that are improperly prepared. The agency must make the necessary corrections and resubmit the form to NARA.

§ 1225.20 When do agencies have to get GAO approval for schedules?

(a) Federal agencies must obtain the approval of the Comptroller General for the disposal of the following types of records:

(1) Program records less than 3 years old;

(2) Deviations from General Records Schedule 2–10 (see §1227.10 of this subchapter for a definition of general records schedules), and

(b) This approval must be obtained before NARA will approve the disposition request.
§ 1225.22 When must scheduled records be rescheduled?

Agencies must submit an SF 115, Request for Records Disposition Authority, to NARA in the following situations:

(a) If an interagency reorganization reassigns functions to an existing department or agency, the gaining organization must submit an SF 115 to NARA within one year of the reorganization. Schedules approved for one department or independent agency do not apply to records of other departments or agencies.

(b) If a new department or agency assumes functions from an existing one, the new agency must schedule records documenting the acquired functions and all other records not covered by the GRS within two years.

(c) If an agency needs to deviate from retention periods in the GRS.

(d) If an agency needs to change retention periods for records previously appraised as temporary.

(e) If an agency needs to change the approved disposition of records from permanent to temporary or vice versa.

(f) If an agency needs to modify the description of records because the informational content of the records and/or the function documented by the records changes.

(g) If an agency decides to change the scope of the records schedule items to include a greater or lesser aggregation of records (see §1225.12(c)), unless §1225.24 applies.

(h) Agencies must submit a new schedule to NARA for electronic versions of previously scheduled records if:

(1) The content and function of the records have changed significantly (e.g., the electronic records contain information that is substantially different from the information included in the hard copy series or are used for different purposes).

(2) The previously approved schedule explicitly excludes electronic records.

(3) The previously approved schedule consists of program records maintained on an agency Web site.

(4) The electronic records consist of temporary program records maintained in a format other than scanned image AND the previously approved schedule is not media neutral.

§ 1225.24 When can an agency apply previously approved schedules to electronic records?

If the conditions specified in §1225.22(h) do not apply, the following conditions apply:

(a) Permanent records. (1) The agency may apply a previously approved schedule for hard copy records to electronic versions of the permanent records when the electronic records system replaces a single series of hard copy permanent records or the electronic records consist of information drawn from multiple previously scheduled permanent series. Agencies must notify the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740-6001, phone number 301-837-1738, in writing of series of records that have been previously scheduled as permanent in hard copy form, including special media records as described in 36 CFR 1235.52 of this subchapter. An agency should send the notification to the NARA unit that processes its schedules. The notification must be submitted within 90 days of when the electronic recordkeeping system becomes operational and must contain the:

(i) Name of agency;

(ii) Name of the electronic system;

(iii) Organizational unit(s) or agency program that records support;

(iv) Current disposition authority reference; and

(v) Format of the records (e.g., database, scanned images, digital photographs, etc.).

(2) If the electronic records include information drawn from both temporary and permanent hard copy series, an agency either may apply a previously approved permanent disposition authority, after submitting the notification required by paragraph (a)(1) of this section or may submit a new schedule if the agency believes the electronic records do not warrant permanent retention.

(b) Temporary still pictures, sound recordings, motion picture film, and video recordings. The agency must apply the previously approved schedule to digital
versions. If changes in the approved schedule are required, follow § 1225.26.

(c) Scanned images of temporary records, including temporary program records. The agency must apply the previously approved schedule. If changes in the approved schedule are required, follow § 1225.26.

(d) Other temporary records maintained in an electronic format other than scanned images.

(1) For temporary records that are covered by an item in a General Records Schedule (other than those General Records Schedule items that exclude electronic master files and databases) or an agency-specific schedule that pertains to administrative housekeeping activities, apply the previously approved schedule. If the electronic records consist of information drawn from multiple hard copy series, apply the previously approved schedule item with the longest retention period.

(2) For temporary program records covered by a NARA-approved media neutral schedule item (i.e., the item appears on a schedule submitted to NARA for approval before December 17, 2007, that is explicitly stated to be media neutral, or it appears on a schedule submitted to NARA for approval on or after December 17, 2007, that is not explicitly limited to a specific record-keeping medium), apply the previously approved schedule.

§ 1225.26 How do agencies change a disposition authority?

Agencies must submit an SF 115 to permanently change the approved disposition of records. Disposition authorities are automatically superseded by approval of a later SF 115 for the same records unless the later SF 115 specifies an effective date. As provided in § 1226.20(c) of this subchapter, agencies are authorized to retain records eligible for destruction until the new schedule is approved.

(a) SF 115s that revise previously approved disposition authorities must cite all of the following, if applicable:

(1) The SF 115 and item numbers to be superseded;

(2) The General Records Schedules and item numbers that cover the records, if any; and

(3) The current published records disposition manual and item numbers; or the General Records Schedules and item numbers that cover the records.

(b) Agencies must submit with the SF 115 an explanation and justification for the change.

(c) For temporary retention of records beyond their normal retention period, see § 1226.18 of this subchapter.

(d) Agencies must secure NARA approval of a change in the period of time that permanent records will remain in agency legal custody prior to transfer to the National Archives of the United States. To request approval, agencies send written requests to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740-6001, phone number (301) 837-1738. NARA approval is documented as an annotation to the schedule item. A new SF 115 is not required to extend the time period of agency legal custody.

§ 1226.14 What are the limitations in applying approved records schedules?

Agencies must apply the approved records disposition schedules to their agency’s records as follows:

(a) Records described by items marked “disposition not approved” or “withdrawn” may not be destroyed until a specific disposition has been approved by NARA.

(b) Disposition authorities for items on approved SF 115s that specify an organizational component of the department or independent agency as the creator or custodian of the records may be applied to the same records after internal reorganization, but only if the nature, content, and functional importance of the records remain the same. Authority approved for items described in a functional format may be applied to any organizational component within the department or independent agency that is responsible for the relevant function.

(c) Disposition authorities approved for one department or independent agency may not be applied to records of another department or agency. Departments or agencies that acquire records from another department or agency, and/or continue creating the same series of records previously created by another department or agency through interagency reorganization must promptly submit an SF 115 to NARA for disposition authorization. Until the new records schedule is approved, the records are unscheduled. See §1225.22 of this subchapter.

(d) Unless otherwise specified, newly approved disposition authorities apply retroactively to all existing records as described in the schedule.

(e) When required by court order (i.e., order for expungement or destruction), an agency may destroy temporary records before their NARA-authorized disposition date. In accordance with §1230.14 of this subchapter, an agency must notify the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, available Web site, the agency must provide the full Internet address (URL).
§ 1226.16 Does NARA ever withdraw disposition authority?

(a) When required to ensure the preservation of Government records, or when required by an emergency, or to maintain efficiency of Government operations, NARA will withdraw disposal authorizations in approved schedules (44 U.S.C. 2909). This withdrawal may apply to particular items on agency schedules or may apply to all existing authorizations for a specified type of record in any or all agencies.

(b) To both impose and rescind the withdrawal, NARA will notify the affected agency or agencies in writing, either by letter or NARA bulletin.

§ 1226.18 When may agencies temporarily extend retention periods?

(a) Agencies may temporarily retain records approved for destruction beyond their NARA-approved retention period if special circumstances alter the normal administrative, legal, or fiscal value of the records.

(1) Agencies must not retain records whose disposal after a specified period is required by statute, unless retention is ordered by a Court.

(2) In determining whether or not to temporarily extend the retention period of records, agencies must ensure that the extension of retention is consistent with the requirement contained in 5 U.S.C. 552a (Privacy Act of 1974, as amended) that records concerning individuals are maintained only if relevant and necessary to accomplish a purpose of the agency that is required by law or Executive order.

(b) If the records that are to be temporarily retained beyond their approved destruction date have been transferred to records storage facilities, agencies must notify the facility.

(c) Once the special circumstances that require extended retention of records have elapsed, agencies must destroy the records in accordance with the NARA-approved disposition instructions.

(d) Agencies must submit an SF 115 to NARA to change schedule provisions on a continuing basis in accordance with §1225.26 of this subchapter. Agencies may retain records eligible for destruction until the new schedule is approved.

§ 1226.20 How do agencies temporarily extend retention periods?

(a) Agencies must secure NARA written approval to retain records series or systems that are eligible for destruction under NARA-approved schedules except when:

(1) The agency has requested a change in the records schedule in accordance with §1225.26 of this subchapter, in which case the agency is authorized to retain records eligible for destruction until the new SF 115 is approved;

(2) The records will be needed for less than one year; or

(3) A court order requires retention of the records.

(b) To request an extension, agencies must send a letter to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1738. Along with a justification, the request must include:

(1) A concise description of the records series for which the extension is requested.

(2) A citation to the agency records schedule or the GRS currently governing disposition of the records;

(3) A statement of the estimated period of time that the records will be required; and

(4) For records in the agency’s custody, a statement of the current and proposed physical location of the records.

(c) Agencies must ensure that records in records storage facilities are retained for the duration of the extension.

§ 1226.22 When must agencies transfer permanent records?

All records scheduled as permanent must be transferred to the National Archives of the United States after the...
§ 1226.24 How must agencies destroy temporary records?

(a) Sale or salvage of unrestricted records—

(1) Paper records. Paper records to be destroyed normally must be sold as wastepaper, or otherwise salvaged. All sales must follow the established procedures for the sale of surplus personal property. (See 41 CFR part 101—45, Sale, Abandonment, or Destruction of Personal Property.) The contract for sale must prohibit the resale of all records for use as records or documents.

(2) Records on electronic and other media. Records other than paper records (audio, visual, and electronic records on physical media data tapes, disks, and diskettes) may be salvaged and sold in the same manner and under the same conditions as paper records.

(b) Destruction of unrestricted records. Unrestricted records that agencies cannot sell or otherwise salvage must be destroyed by burning, pulping, shredding, macerating, or other suitable means authorized by implementing regulations issued under E.O. 12958, as amended or its successor.

(c) Destruction of classified or otherwise restricted records. If the records are restricted because they are national security classified or exempted from disclosure by statute, including the Privacy Act, or regulation:

(1) Paper records. For paper records, the agency or its wastepaper contractor must definitively destroy the information contained in the records by one of the means specified in paragraph (b) of this section and their destruction must be witnessed either by a Federal employee or, if authorized by the agency, by a contractor employee.

(2) Electronic records. Electronic records scheduled for destruction must be disposed of in a manner that ensures protection of any sensitive, proprietary, or national security information. Magnetic recording media previously used for electronic records containing sensitive, proprietary, or national security information must not be reused if the previously recorded information can be compromised in any way by reuse of the media.

§ 1226.26 How do agencies donate temporary records?

(a) Agencies must obtain written approval from NARA before donating records eligible for disposal to an appropriate person, organization, institution, corporation, or government (including a foreign government) that has requested them. Records that are not eligible for disposal cannot be donated.

(b) Agencies request the approval of such a donation by sending a letter to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1738. The request must include:

(1) The name of the department or agency, and relevant subdivisions, having custody of the records;

(2) The name and address of the proposed recipient of the records;

(3) A list containing:

(i) Description of the records to be transferred,

(ii) The inclusive dates of the records,

(iii) The SF 115 or GRS and item numbers that authorize destruction of the records;

(4) A statement providing evidence:

(i) That the proposed donation is in the best interests of the Government,

(ii) That the proposed recipient agrees not to sell the records as records or documents, and

(iii) That the donation will be made without cost to the U.S. Government;

(5) A certification that:

(i) The records contain no information the disclosure of which is prohibited by law or contrary to the public interest, and/or

(ii) The records proposed for transfer to a person or commercial business are directly pertinent to the custody or operations of properties acquired from the Government, and/or

(iii) A foreign government desiring the records has an official interest in them.

(c) NARA will determine whether the donation is in the public interest and notify the requesting agency of its decision in writing. If NARA determines
such a proposed donation is contrary to the public interest, the agency must destroy the records in accordance with the appropriate disposition authority.

The statutory authority for this part is 44 U.S.C. 3303a(d).

§ 1227.2 What definitions apply to this part?
See § 1220.18 of this subchapter for definitions of terms used in part 1227.

§ 1227.3 What standards are used as guidance for this part?
These regulations conform with guidance provided in ISO 15489–1:2001, Information and documentation—Records management, paragraphs 9.2 (Determining how long to retain records) and 9.9 (Implementing disposition).

§ 1227.10 What are General Records Schedules (GRS)?
General Records Schedules (GRS) are schedules issued by the Archivist of the United States that authorize, after specified periods of time, the destruction of temporary records or the transfer to the National Archives of the United States of permanent records that are common to several or all agencies.

§ 1227.12 When must agencies apply the GRS?
(a) Agencies apply the disposition instructions of the GRS, as provided in the following table.

(b) Except as provided in the table in paragraph (a), agencies must incorporate in their disposition manual or otherwise disseminate new and revised GRS within 6 months after NARA has issued the GRS Transmittal.

(c) NARA may, at its discretion, apply the provisions of the GRS to records in its legal custody, subject to the provisions of §1225.34 of this subchapter.

§ 1227.14 How do I obtain copies of the GRS?
(a) The GRS and instructions for their use are available online at http://www.archives.gov/records-mgmt/ardor/records-schedules.html. They are also available by writing to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1738.

PART 1228—LOAN OF PERMANENT AND UNSCHEDULED RECORDS

§ 1228.1 What are the authorities for this part?

The statutory authority for this part is 44 U.S.C. 2904.

§ 1228.2 What definitions apply to this part?

See §1220.18 of this subchapter for definitions of terms used in part 1228.

§ 1228.8 Do loans of temporary records require NARA approval?

Loans of temporary records between Federal agencies or to non-Federal recipients do not require approval from NARA. The lending agency is responsible for documenting the loan and return of the records.

§ 1228.10 When do loans of permanent and unscheduled records require NARA approval?

Loans of permanent or unscheduled records between Federal agencies or to non-Federal recipients require prior written approval from NARA. The loan of permanent or unscheduled records increases the likelihood of the records becoming lost, misplaced, or incorporated into other files. Agencies should consider reproducing or scanning the records in response to a loan request.

§ 1228.12 How do agencies obtain approval to loan permanent or unscheduled records?

(a) An agency proposing to loan permanent or unscheduled records must prepare a written loan agreement with the proposed recipient. The agreement must include:

1. The name of the department or agency and subdivisions having custody of the records;

2. The name and address of the proposed recipient of the records;

3. A list containing:
   
   i. Identification of the records to be loaned, by series or system;
   
   ii. The inclusive dates for each series or system;
   
   iii. The volume and media of the records to be loaned;
   
   iv. The NARA disposition job (SF 115) and item numbers covering the records, if any.

4. A statement of the purpose and duration of the loan;

5. A statement specifying any restrictions on the use of the records and how these restrictions will be imposed by the recipient;

6. A certification that the records will be stored in areas with security and environmental controls equal to those specified in part 1234 of this subchapter; and

7. A signature block for the Archivist of the United States. The loan must not take place until the Archivist has signed the agreement.

(b) On request, NARA may allow an agency to prepare an annual loan agreement covering multiple transfers from the same series of records to another single Federal agency.

(c) The agency must send a written request to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1738, transmitting the proposed loan agreement, citing the rationale for not providing copies in place of the original records, and specifying the name, title, and phone number of an agency contact. The request must be submitted or approved by the individual authorized to sign records schedules as described in §1220.34(b) of this subchapter.
§ 1228.14 How will NARA handle a loan request?

(a) NARA will review the request and, if it is approved, return the signed agreement to the agency within 30 days.

(b) NARA will deny the request within 30 days if the records are due or past due to be transferred to the National Archives of the United States in accordance with part 1235 of this subchapter, if the loan would endanger the records, or if the loan would otherwise violate the regulations in 36 CFR chapter XII, subchapter B. NARA will notify the agency in writing if it disapproves the loan and the reasons for the disapproval of the loan.

§ 1228.16 When must agencies retrieve records that have been loaned?

An agency must contact the recipient of loaned permanent or unscheduled records 30 days prior to the expiration of the loan period (as stated in the loan agreement) to arrange for the return of the records. If the agency extends the duration of the loan, it must notify the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1738. The notice must specify the description of the records, their location and quantity, and the nature of the menace. Notice may be given via e-mail to RM.Communications@nara.gov, or via phone, (301) 837–1738, or fax, (301) 837–3698, to NWM or the NARA Regional Administrator.

(b) If NARA concurs in a determination that the records must be destroyed, NARA will notify the agency to immediately destroy the records.

(c) If NARA does not concur that the menace must be eliminated by destruction of the records, NARA will advise the agency on remedial action to address the menace.

§ 1229.12 What are the requirements during a state of war or threatened war?

(a) Destruction of records outside the territorial limits of the continental United States is authorized whenever, during a state of war between the United States and any other nation or when hostile action appears imminent, the head of the agency that has custody of the records determines that...
their retention would be prejudicial to the interest of the United States, or that they occupy space urgently needed for military purposes and are without sufficient administrative, fiscal, legal, historical, or other value to warrant their continued preservation.

(b) Within six months after the destruction of any records under this authorization, the agency official who directed the destruction must submit to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740-6001, phone number (301) 837-1738, a written statement explaining the reasons for the destruction and a description of the records and how, when, and where the destruction was accomplished.

PART 1230—UNLAWFUL OR ACCIDENTAL REMOVAL, DEFACING, ALTERATION, OR DESTRUCTION OF RECORDS

1230.10 Who is responsible for preventing the unlawful or accidental removal, defacing, alteration, or destruction of records?
The heads of Federal agencies must:
(a) Prevent the unlawful or accidental removal, defacing, alteration, or destruction of records. Section 1222.24(a)(6) of this subchapter prohibits removing records from the legal custody of the agency. Records must not be destroyed except under the provisions of NARA-approved agency records schedules or the General Records Schedules issued by NARA;
(b) Take adequate measures to inform all employees and contractors of the provisions of the law relating to unauthorized destruction, removal, alteration or defacement of records;
(c) Implement and disseminate policies and procedures to ensure that records are protected against unlawful destruction.
§ 1230.12 What are the penalties for unlawful or accidental removal, defacing, alteration, or destruction of records?

The penalties for the unlawful or accidental removal, defacing, alteration, or destruction of Federal records or the attempt to do so, include a fine, imprisonment, or both (18 U.S.C. 641 and 2071).

§ 1230.14 How do agencies report incidents?

The agency must report promptly any unlawful or accidental removal, defacing, alteration, or destruction of records in the custody of that agency to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number 301–837–1738.

(a) The report must include:

1. A complete description of the records with volume and dates if known;
2. The office maintaining the records;
3. A statement of the exact circumstances surrounding the removal, defacing, alteration, or destruction of records;
4. A statement of the safeguards established to prevent further loss of documentation; and
5. When appropriate, details of the actions taken to salvage, retrieve, or reconstruct the records.

(b) The report must be submitted or approved by the individual authorized to sign records schedules as described in §1220.34(b) of this subchapter.

§ 1230.16 How does NARA handle allegations of unlawful or accidental removal, defacing, alteration, or destruction?

Upon receiving any credible information that records are at risk of actual, impending, or threatened damage, alienation, or unauthorized destruction, NARA will contact the agency as follows:

(a) If the threat has not yet resulted in damage, removal, or destruction, NARA will contact the agency by phone promptly and follow up in writing within five business days.
(b) If records have allegedly been damaged, removed, or destroyed, NARA will notify the agency in writing promptly with a request for a response within 30 days.

§ 1230.18 What assistance is available to agencies to recover unlawfully removed records?

NARA will assist the head of the agency in the recovery of any unlawfully removed records, including contacting the Attorney General, if appropriate.
§ 1231.10 Who has the authority to approve the transfer of records from the custody of one executive agency to another?

NARA must approve in writing the transfer of records from the custody of one executive agency to another, except as provided in §1231.18(a).

§ 1231.12 How do executive agencies request to transfer records to another executive agency?

An executive agency that proposes to transfer records to another agency must request approval of the transfer of records in writing from the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1738. (d) A statement of the current and proposed physical and organizational locations of the records;
(e) A justification for the transfer including an explanation of why it is in the best interests of the Government; and
(f) Copies of the concurrence in the transfer by the heads of all agencies involved in the proposed transfer.

§ 1231.14 May the records of terminated agencies be transferred to another agency?

The records of executive agencies whose functions are terminated or are in process of liquidation may be transferred to another executive agency that inherits the function. All such transfers must be made in accordance with the provisions of this part.

§ 1231.16 What restrictions are there on use of transferred records?

Restrictions imposed under a statute or Executive order must continue to be imposed after the transfer. Restrictions imposed by agency determination must also continue, unless the restrictions are removed by agreement between the agencies concerned.

§ 1231.18 When are records transferred between executive agencies without NARA approval?

Records are transferred between executive agencies without NARA approval when:

(a) Records are transferred to a NARA or agency-operated records center or to the National Archives of the United States in accordance with Parts 1232, 1233, and 1235 of this subchapter;
(b) Temporary records are loaned for official use;
(c) The transfer of records or functions or both is required by statute, Executive Order, Presidential reorganization plan, or Treaty, or by specific determinations made thereunder;
(d) The records are transferred between two components of the same executive department; or

§ 1232.14 What requirements must an agency meet before it transfers records to a records storage facility?

An agency must meet the following requirements before it transfers records to a records storage facility:

(a) Ensure that the requirements of 36 CFR part 1234 are met. Special attention must be paid to ensuring appropriate storage conditions for records on non-paper based media (e.g., film, audio tape, magnetic tape), especially those that are scheduled for long-term or permanent retention, as those records typically require more stringent environmental controls (see 36 CFR parts 1226 and 1227).

(b) To transfer unscheduled records, notify the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740-6001, phone number (301) 837-1738, in writing prior to the transfer. The notification
must identify the records storage facility and include a copy of the information required by §1232.16(a).

(c) For all records being transferred, create documentation sufficient to identify and locate files. (See §1232.16.)

d) Ensure that NARA-approved retention periods are implemented properly and that records documenting final disposition actions (destruction or transfer to the National Archives of the United States) are created and maintained.

§ 1232.16 What documentation must an agency create before it transfers records to a records storage facility?

(a) Documentation must include for each individual records series spanning one or more consecutive years transferred to storage:

(1) Creating office;
(2) Series title;
(3) Description (in the case of permanent or unscheduled records, the description must include a folder title list of the box contents or equivalent detailed records description);
(4) Date span;
(5) Physical form and medium of records (e.g., paper, motion picture film, sound recordings, photographs, or digital images);
(6) Volume;
(7) Citation to NARA-approved records schedule or agency records disposition manual (unscheduled records must cite the date the agency notified NARA or, if available, the date the SF 115 was submitted to NARA);
(8) Restrictions on access if applicable;
(9) Disposition (“permanent,” “temporary,” or “unscheduled; SF 115 pending”);
(10) Date of disposition action (transfer to the National Archives of the United States or destruction);
(11) Physical location, including name and address of facility; and
(12) Control number or identifier used to track records.

(b) In the case of permanent and unscheduled records, provide copies of such documentation to NARA and advise NARA in writing of the new location whenever the records are moved to a new storage facility. For permanent records, the agency must transmit this documentation to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1738, no later than 30 days after records are transferred to the agency records center or commercial records storage facility.

(1) Retain temporary records until the expiration of their NARA-approved retention period and no longer, except as provided for in §1226.18 of this subchapter.

(2) Transfer permanent records to the National Archives of the United States in accordance with 36 CFR part 1235.

§ 1232.18 What procedures must an agency follow to transfer records to an agency records center or commercial records storage facility?

Federal agencies must use the following procedures to transfer records to an agency records center or commercial records storage facility:

(a) Agreements with agency records centers or contracts with commercial records storage facilities must incorporate the standards in 36 CFR part 1234 and allow for inspections by the agency and NARA to ensure compliance. An agency must remove records promptly from a facility if deficiencies identified during an inspection are not corrected within six months of issuance of the report.

(b) For temporary records, the agency must make available to NARA on request the documentation specified in §1232.16.

(c) Retain temporary records until the expiration of their NARA-approved retention period and no longer, except as provided for in §1226.18 of this subchapter.

(d) Ensure that NARA-approved retention periods are implemented properly and that records documenting final disposition actions (destruction or transfer to the National Archives of the United States) are created and maintained as required by 36 CFR 1232.14.

(1) Agencies must establish procedures that ensure that temporary records are destroyed in accordance with NARA-approved records schedules and that NARA-approved changes to...
schedules, including the General Records Schedules, are applied to records in agency records centers or commercial records storage facilities in a timely fashion. Procedures must include a requirement that the agency records center or commercial records storage facility notify agency records managers or the creating office before the disposal of temporary records unless disposal of temporary records is initiated by the agency.

(2) Move temporary records that are subsequently reappraised as permanent to a facility that meets the environmental control requirements for permanent records in §1234.14 of this subchapter within one year of their reappraisal, if not already in such a facility. (Paper-based permanent records in an existing records storage facility that does not meet the environmental control requirements in §1234.14 of this subchapter on October 1, 2009, must be moved from that facility no later than February 28, 2010.)

(3) Agencies must establish procedures to ensure that the agency records centers or commercial records storage facilities transfer permanent records to the National Archives of the United States as individual series spanning one or more years and in accordance with the provisions of part 1235 of this subchapter.

(e) Agencies must ensure that records that are restricted because they are security classified or exempt from disclosure by statute, including the Privacy Act of 1974 (5 U.S.C. 552a, as amended), or regulation are stored and maintained in accordance with applicable laws, Executive orders, or regulations.

(f) Agencies must ensure that temporary records, including restricted records (security classified or exempted from disclosure by statute, including the Privacy Act of 1974, or regulation), are destroyed in accordance with the requirements specified in §1236.24 of this subchapter.

(g) Agencies must ensure that emergency operating vital records, as defined in 36 CFR part 1223, that are transferred to an agency records center or commercial records storage facility are available in accordance with 36 CFR 1223.24.

(h) Provide access to appropriate NARA staff to records wherever they are located in order to conduct an inspection in accordance with 36 CFR part 1239 or to process a request for records disposition authority.

An agency transfers records to a NARA Federal Records Center using the following procedures:

(a) General. NARA will ensure that its records centers meet the facilities standards in 36 CFR part 1234, which meets the agency’s obligation in §1232.14(a) of this subchapter.

(b) Agencies must use their designated NARA Federal Records Center(s) as specified in their agency agreement with NARA (Federal Records Center Program (FRCP)) for the storage of records.

(c) Transfers to NARA Federal Records Centers must be preceded by the submission of a Standard Form (SF) 135, Records Transmittal and Receipt, or an electronic equivalent. Preparation and submission of this form will meet the requirements for records description provided in §1232.14(c) of this subchapter, except the folder title list required for permanent and unscheduled records. A folder title list is also required for records that are scheduled for sampling or selection after transfer.

(d) A separate SF 135 or electronic equivalent is required for each individual records series having the same disposition authority and disposition date.

(b) Transfer EMFs and OPFs in separate folders.

(c) Retirement of individual folders is based on the date of separation and should occur within 90 to 120 days after the employee separates from Federal service.

§ 1233.18 What reference procedures are used in NARA Federal Records Centers?

(a) Agency records transferred to a NARA Federal Records Center remain in the legal custody of the agency. NARA acts as the agency’s agent in maintaining the records. NARA will not disclose the record except to the agency that maintains the record, or under rules established by that agency which are consistent with existing laws.

Subpart B—Facility Standards

§1234.10 What are the facility requirements for all records storage facilities?

(a) The facility must be constructed with non-combustible materials and building elements, including walls, columns and floors. There are two exceptions to this requirement:

(1) Roof elements may be constructed with combustible materials if installed in accordance with local building codes and if roof elements are protected by a properly installed, properly maintained wet-pipe automatic sprinkler system, as specified in NFPA 13 (incorporated by reference, see §1234.3).

(2) An agency may request a waiver of the requirement specified in paragraph (a) from NARA for an existing records storage facility with combustible building elements to continue to operate until October 1, 2009. In its request for a waiver, the agency must provide documentation that the facility has a fire suppression system specifically designed to mitigate this hazard and that the system meets the requirements of §1234.12(s). Requests must be submitted to the Director, Space and Security Management Division (NAS), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, phone number (301) 837-1867.

(b) A facility with two or more stories must be designed or reviewed by a licensed fire protection engineer and civil/structural engineer to avoid catastrophic failure of the structure due to an uncontrolled fire on one of the intermediate floor levels. For new buildings the seals on the construction drawings serve as proof of this review. For existing buildings, this requirement may be demonstrated by a professional letter of opinion under seal by a licensed fire protection engineer that the fire resistance of the separating floor(s) is at least four hours, and a professional letter of opinion under seal by a licensed civil/structural engineer that there are no obvious structural weaknesses that would indicate a high potential for structural catastrophic collapse under fire conditions.

(c) The building must be sited a minimum of five feet above and 100 feet from any 100 year flood plain areas, or be protected by an appropriate flood wall that conforms to local or regional building codes.

(d) The facility must be designed in accordance with the applicable national, regional, state, or local building codes (whichever is most stringent) to provide protection from building collapse or failure of essential equipment from earthquake hazards, tornadoes, hurricanes and other potential natural disasters.

(e) Roads, fire lanes and parking areas must permit unrestricted access for emergency vehicles.

(f) A floor load limit must be established for the records storage area by a licensed structural engineer. The limit must take into consideration the height and type of the shelving or storage equipment, the width of the aisles, the configuration of the space, etc. The allowable load limit must be posted in a conspicuous place and must not be exceeded.
(g) The facility must ensure that the roof membrane does not permit water to penetrate the roof. NARA strongly recommends that this requirement be met by not mounting equipment on the roof and placing nothing else on the roof that may cause damage to the roof membrane. Alternatively, a facility may meet this requirement with stringent design specifications for roof-mounted equipment in conjunction with a periodic roof inspection program performed by appropriately certified professionals.

(1) New records storage facilities must meet the requirements in this paragraph (g) beginning on September 28, 2005.

(2) Existing facilities must meet the requirements in this paragraph (g) no later than October 1, 2009.

(h) Piping (with the exception of fire protection sprinkler piping and storm water roof drainage piping) must not be run through records storage areas unless supplemental measures such as gutters or shields are used to prevent water leaks and the piping assembly is inspected for potential leaks regularly. If drainage piping from roof drains must be run through records storage areas, the piping must be run to the nearest vertical riser and must include a continuous gutter sized and installed beneath the lateral runs to prevent leakage into the storage area. Vertical pipe risers required to be installed in records storage areas must be fully enclosed by shaft construction with appropriate maintenance access panels.

(1) New records storage facilities must meet the requirements in this paragraph (h) beginning on September 28, 2005.

(2) Existing facilities must meet the requirements in this paragraph (h) no later than October 1, 2009.

(i) The following standards apply to records storage shelving and racking systems:

(1) All storage shelving and racking systems must be designed and installed to provide seismic bracing that meets the requirements of the applicable state, regional, and local building code (whichever is most stringent);

(2) Racking systems, steel shelving, or other open-shelf records storage equipment must be braced to prevent collapse under full load. Each racking system or shelving unit must be industrial style shelving rated at least 50 pounds per cubic foot supported by the shelf;

(3) Compact mobile shelving systems (if used) must be designed to permit proper air circulation and fire protection (detailed specifications that meet this requirement can be provided by NARA by writing to Director, Space and Security Management Division (NAS), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001.), phone number (301) 837–1867).

(j) The area occupied by the records storage facility must be equipped with an anti-intrusion alarm system, or equivalent, meeting the requirements of UL 1076 (incorporated by reference, see §1234.3), level AA, to protect against unlawful entry after hours and to monitor designated interior storage spaces. This intrusion alarm system must be monitored in accordance with UL 611, (incorporated by reference, see §1234.3).

(k) The facility must comply with the requirements for a Level III facility as defined in the Department of Justice, U. S. Marshals Service report Vulnerability Assessment of Federal Facilities dated June 28, 1995. These requirements are provided in Appendix A to this part 1234. Agencies may require compliance with Level IV or Level V facility security requirements if the facility is classified at the higher level.

(l) Records contaminated by hazardous materials, such as radioactive isotopes or toxins, infiltrated by insects, or exhibiting active mold growth must be stored in separate areas having separate air handling systems from other records.

(m) To eliminate damage to records and/or loss of information due to insects, rodents, mold and other pests that are attracted to organic materials under specific environmental conditions, the facility must have an Integrated Pest Management program as defined in the Food Protection Act of 1996 (Section 303, Pub. L. 104–170, 110 Stat. 1512). This states in part that Integrated Pest Management is a sustainable approach to managing pests by combining biological, cultural,
physical, and chemical tools in a way that minimizes economic, health, and environmental risks. The IPM program emphasizes three fundamental elements:

(1) **Prevention.** IPM is a preventive maintenance process that seeks to identify and eliminate potential pest access, shelter, and nourishment. It also continually monitors for pests themselves, so that small infestations do not become large ones;

(2) **Least-toxic methods.** IPM aims to minimize both pesticide use and risk through alternate control techniques and by favoring compounds, formulations, and application methods that present the lowest potential hazard to humans and the environment; and

(3) **Systems approach.** The IPM pest control contract must be effectively coordinated with all other relevant programs that operate in and around a building, including plans and procedures involving design and construction, repairs and alterations, cleaning, waste management, food service, and other activities.

(n) For new records storage facilities only, the additional requirements in this paragraph (n) must be met:

(1) Do not install mechanical equipment, excluding material handling and conveyance equipment that have operating thermal breakers on the motor, containing motors rated in excess of 1 HP within records storage areas (either floor mounted or suspended from roof support structures).

(2) Do not install high-voltage electrical distribution equipment (i.e., 13.2kv or higher switchgear and transformers) within records storage areas (either floor mounted or suspended from roof support structures).

(3) A redundant source of primary electric service such as a second primary service feeder should be provided to ensure continuous, dependable service to the facility especially to the HVAC systems, fire alarm and fire protection systems. Manual switching between sources of service is acceptable.

(4) A facility storing permanent records must be kept under positive air pressure, especially in the area of the loading dock. In addition, to prevent fumes from vehicle exhausts from entering the facility, air intake louvers must not be located in the area of the loading dock, adjacent to parking areas, or in any location where a vehicle engine may be running for any period of time. Loading docks must have an air supply and exhaust system that is separate from the remainder of the facility.

§ 1234.12 What are the fire safety requirements that apply to records storage facilities?

(a) The fire detection and protection systems must be designed or reviewed by a licensed fire protection engineer. If the system was not designed by a licensed fire protection engineer, the review requirement is met by furnishing a report under the seal of a licensed fire protection engineer that describes the design intent of the fire detection and suppression system, detailing the characteristics of the system, and describing the specific measures beyond the minimum features required by code that have been incorporated to minimize loss. The report should make specific reference to appropriate industry standards used in the design, such as those issued by the National Fire Protection Association, and any testing or modeling or other sources used in the design.

(b) All interior walls separating records storage areas from each other and from other storage areas in the building must be at least three-hour fire barrier walls. A records storage facility may not store more than 250,000 cubic feet total of Federal records in a single records storage area. When Federal records are combined with other records in a single records storage area, only the Federal records will apply toward this limitation.

(c) Fire barrier walls that meet the following specifications must be provided:

(1) For existing records storage facilities, at least one-hour-rated fire barrier walls must be provided between the records storage areas and other auxiliary spaces.

(2) For new records storage facilities, two-hour-rated fire barrier walls must be provided between the records storage areas and other auxiliary spaces. One exterior wall of each stack area must be designed with a maximum fire
resistive rating of one hour, or, if rated more than one hour, there must be at least one knock-out panel in one exterior wall of each stack area.

(d) Penetrations in the walls must not reduce the specified fire resistance ratings. The fire resistance ratings structural elements and construction assemblies must be in accordance with ASTM E 119-98 (incorporated by reference, see §1234.3).

(e) The fire resistive rating of the roof must be a minimum of \(\frac{1}{2}\) hour for all records storage facilities, or must be protected by an automatic sprinkler system designed, installed, and maintained in accordance with NFPA 13 (incorporated by reference, see §1234.3).

(f) Openings in fire barrier walls separating records storage areas must be avoided to the greatest extent possible. If openings are necessary, they must be protected by self-closing or automatic Class A fire doors, or equivalent doors that maintain the same rating as the wall.

(g) Roof support structures that cross or penetrate fire barrier walls must be cut and supported independently on each side of the fire barrier wall.

(h) If fire barrier walls are erected with expansion joints, the joints must be protected to their full height.

(i) Building columns in the records storage areas must be at least 1-hour fire resistant or protected in accordance with NFPA 13 (incorporated by reference, see §1234.3).

(j) Automatic roof vents for routine ventilation purposes must not be designed into new records storage facilities. Automatic roof vents, designed solely to vent in the case of a fire, with a temperature rating at least twice that of the sprinkler heads are acceptable.

(k) Where lightweight steel roof or floor supporting members (e.g., bar joists having top chords with angles 2 by 12 inches or smaller, 1/4-inch thick or smaller, and 13/16-inch or smaller Web diameters) are present, they must be protected either by applying a 10-minute fire resistive coating to the top chords of the joists, or by retrofitting the sprinkler system with large drop sprinkler heads. If a fire resistive coating is applied, it must be a product that will not release (off gas) harmful fumes into the facility. If fire resistive coating is subject to air erosion or flaking, it must be fully enclosed in a drywall containment constructed of metal studs with fire retardant drywall. Retrofitting may require modifications to the piping system to ensure that adequate water capacity and pressure are provided in the areas to be protected with these large drop sprinkler heads.

(l) Open flame (oil or gas) unit heaters or equipment, if used in records storage areas, must be installed or used in the records storage area in accordance with NFPA 54 (incorporated by reference, see §1234.3), and the IAPMO/ANSI UMC 1, Uniform Mechanical Code (incorporated by reference, see §1234.3).

(m) For existing records storage facilities, boiler rooms or rooms containing equipment operating with a fuel supply (such as generator rooms) must be separated from records storage areas by 2-hour-rated fire barrier walls with no openings directly from these rooms to the records storage areas. Such areas must be vented directly to the outside to a location where fumes will not be drawn back into the facility.

(n) For new records storage facilities, boiler rooms or rooms containing equipment operating with a fuel supply (such as generator rooms) must be separated from records storage areas by 4-hour-rated fire barrier walls with no openings directly from these rooms to the records storage areas. Such areas must be vented directly to the outside to a location where fumes will not be drawn back into the facility.

(o) For new records storage facilities, fuel supply lines must not be installed in areas containing records and must be separated from such areas with 4-hour rated construction assemblies.

(p) Equipment rows running perpendicular to the wall must comply with NFPA 101 (incorporated by reference, see §1234.3), with respect to egress requirements.

(q) No oil-type electrical transformers, regardless of size, except thermally protected devices included in fluorescent light ballasts, may be installed in the records storage areas. All electrical wiring must be in metal conduit, except that armored cable may be
used where flexible wiring connections to light fixtures are required. Battery charging areas for electric forklifts must be separated from records storage areas with at least a 2-hour rated fire barrier wall.

(r) Hazardous materials, including records on cellulose nitrate film, must not be stored in records storage areas. Nitrate motion picture film and nitrate sheet film may be stored in separate areas that meet the requirements of the appropriate NFPA standards, NFPA 40–1997 (incorporated by reference, see §1234.3), or NFPA 42 (incorporated by reference, see §1234.3).

(s) All record storage and adjoining areas must be protected by a professionally-designed fire-safety detection and suppression system that is designed to limit the maximum anticipated loss in any single fire event involving a single ignition and no more than 8 ounces of accelerant to a maximum of 300 cubic feet of records destroyed by fire. Section 1234.32 specifies how to document compliance with this requirement.

§1234.14 What are the requirements for environmental controls for records storage facilities?

(a) Paper-based temporary records. Paper-based temporary records must be stored under environmental conditions that prevent the active growth of mold. Exposure to moisture through leaks or condensation, relative humidities in excess of 70%, extremes of heat combined with relative humidity in excess of 55%, and poor air circulation during periods of elevated heat and relative humidity are all factors that contribute to mold growth.

(b) Non-textual temporary records. Non-textual temporary records, including microforms and audiovisual and electronic records, must be stored in records storage space that is designed to preserve them for their full retention period. New records storage facilities that store nontextual temporary records must meet the requirements in this paragraph (b) beginning on September 28, 2005. Existing records storage facilities that store nontextual temporary records must meet the requirements in this paragraph (b) no later than October 1, 2009. At a minimum, nontextual temporary records must be stored in records storage space that meets the requirements for medium term storage set by the appropriate standard in this paragraph (b).

In general, medium term conditions as defined by these standards are those that will ensure the preservation of the materials for at least 10 years with little information degradation or loss. Records may continue to be usable for longer than 10 years when stored under these conditions, but with an increasing risk of information loss or degradation with longer times. If temporary records require retention longer than 10 years, better storage conditions (cooler and drier) than those specified for medium term storage will be needed to maintain the usability of these records. The applicable standards are:

(1) ANSI/PIMA IT9.11 (incorporated by reference, see §1234.3);
(2) ANSI/NAPM IT9.23 (incorporated by reference, see §1234.3);
(3) ANSI/PIMA IT9.25 (incorporated by reference, see §1234.3);
(4) ANSI/NAPM IT9.20 (incorporated by reference, see §1234.3); and/or
(5) ANSI/NAPM IT9.18 (incorporated by reference, see §1234.3).

(c) Paper-based permanent, unscheduled and sample/select records. Paper-based permanent, unscheduled, and sample/select records must be stored in records storage space that provides 24 hour/365 days per year air conditioning (temperature, humidity, and air exchange) equivalent to that required for office space. See ANSI/ASHRAE Standard 55 (incorporated by reference, see §1234.3), and ASHRAE Standard 62 (incorporated by reference, see §1234.3), for specific requirements. New records storage facilities that store paper-based permanent, unscheduled, and/or sample/select records must meet the requirement in this paragraph (c) beginning on September 28, 2005. Existing storage facilities that store paper-based permanent, unscheduled, and/or sample/select records must meet the requirement in this paragraph (c) no later than October 1, 2009.

(d) Non-textual permanent, unscheduled, and/or sample/select records. All records storage facilities that store microfilm, audiovisual, and/or electronic permanent, unscheduled, and/or sample/select
records must comply with the storage standards for permanent and unscheduled records in parts 1238, 1237, and/or 1236 of this subchapter, respectively.

Subpart C—Handling Deviations From NARA’s Facility Standards

§ 1234.20 What rules apply if there is a conflict between NARA standards and other regulatory standards that a facility must follow?

(a) If any provisions of this part conflict with local or regional building codes, the following rules of precedence apply:

(1) Between differing levels of fire protection and life safety, the more stringent provision applies; and

(2) Between mandatory provisions that cannot be reconciled with a requirement of this part, the local or regional code applies.

(b) If any of the provisions of this part conflict with mandatory life safety or ventilation requirements imposed on underground storage facilities by 30 CFR chapter I, 30 CFR chapter I applies.

(c) NARA reserves the right to require documentation of the mandatory nature of the conflicting code and the inability to reconcile that provision with NARA requirements.

§ 1234.22 How does an agency request a waiver from a requirement in this part?

(a) Types of waivers that may be approved. NARA may approve exceptions to one or more of the standards in this part for:

(1) Systems, methods, or devices that are demonstrated to have equivalent or superior quality, strength, fire resistance, effectiveness, durability, and safety to those prescribed by this subpart;

(2) Existing agency records centers that met the NARA standards in effect prior to January 3, 2000, but do not meet a new standard required to be in place on September 28, 2005; and

(3) The application of roof requirements in §§1234.10 and 1234.12 to underground storage facilities.

(b) Where to submit a waiver request. The agency submits a waiver request, containing the information specified in paragraphs (c), (d), and/or (e) of this section to the Director, Space and Security Management Division (NAS), National Archives and Records Administration, 8601 Adelphi Rd., College Park, MD 20740–6001, phone number (301) 837–1867.

(c) Content of request for waivers for equivalent or superior alternatives. The agency’s waiver request must contain:

(1) A statement of the specific provision(s) of this part for which a waiver is requested, a description of the proposed alternative, and an explanation of how it is equivalent to or superior to the NARA requirement; and

(2) Supporting documentation that the alternative does not provide less protection for Federal records than that which would be provided by compliance with the corresponding provisions contained in this subpart. Documentation may take the form of certifications from a licensed fire protection engineer or a structural or civil engineer, as appropriate; reports of independent testing; reports of computer modeling; and/or other supporting information.

(d) Content of request for waiver for previously compliant agency records center. The agency’s waiver request must identify which requirement(s) the agency records center cannot meet and provide a plan with milestones for bringing the center into compliance.

(e) Content of request for waiver of roof requirements for underground facility. The agency’s waiver request must identify the location of the facility and whether the facility is a drift entrance facility or a vertical access facility.

§ 1234.24 How does NARA process a waiver request?

(a) Waiver for equivalent or superior alternative. NARA will review the waiver request and supporting documentation.

(1) If in NARA’s judgment the supporting documentation clearly supports the claim that the alternative is equivalent or superior to the NARA requirement, NARA will grant the waiver and notify the requesting agency within 30 calendar days.

(2) If NARA questions whether supporting documentation demonstrates that the proposed alternative offers at least equal protection to Federal
records, NARA will consult the appropriate industry standards body or other qualified expert before making a determination. NARA will notify the requesting agency within 30 calendar days of receipt of the request that consultation is necessary and will provide a final determination within 60 calendar days. If NARA does not grant the waiver, NARA will furnish a full explanation of the reasons for its decision.

(b) Waiver of new requirement for existing agency records center. NARA will review the agency's waiver request and plan to bring the facility into compliance.

(1) NARA will approve the request and plan within 30 calendar days if NARA judges the planned actions and time frames for bringing the facility into compliance are reasonable.

(2) If NARA questions the feasibility or reasonableness of the plan, NARA will work with the agency to develop a revised plan that NARA can approve and the agency can implement. NARA may grant a short-term temporary waiver, not to exceed 180 calendar days, while the revised plan is under development.

(c) Waiver of roof requirements for underground storage facilities. NARA will normally grant the waiver and notify the requesting agency within 10 work days if the agency has not also requested a waiver of a different requirement under §1234.30. If the agency has another waiver request pending for the same facility, NARA will respond to all of the waiver requests at the same time and within the longest time limits.

Subpart D—Facility Approval and Inspection Requirements

§ 1234.30 How does an agency request authority to establish or relocate records storage facilities?

(a) General policy. Agencies are responsible for ensuring that records in their legal custody are stored in appropriate space as outlined in this part. Under §1232.18(a), agencies are responsible for initiating action to remove records from space that does not meet these standards if deficiencies are not corrected within 6 months after initial discovery of the deficiencies by NARA or the agency and to complete removal of the records within 18 months after initial discovery of the deficiencies.

(1) Agency records centers. Agencies must obtain prior written approval from NARA before establishing or relocating an agency records center. Each separate agency records center must be specifically approved by NARA prior to the transfer of any records to that individual facility. If an agency records center has been approved for the storage of Federal records of one agency, any other agency that proposes to store its records in that facility must still obtain NARA approval to do so.

(2) Commercial records storage facilities. An agency may contract for commercial records storage services. However, before any agency records are transferred to a commercial records storage facility, the transferring agency must ensure that the facility meets all of the requirements for an agency records storage facility set forth in this subpart and must submit the documentation required in paragraph (e) of this section.

(b) Exclusions. For purposes of this section, the term “agency records center” excludes NARA-owned and operated records centers. For purposes of this section and §1234.34, the term “agency records center” also excludes agency records staging and/or holding areas with a capacity for containing less than 25,000 cubic feet of records. However, such records centers and areas, including records centers operated and maintained by NARA, must comply with the facility standards in §§1234.10 through 1234.14.

(c) Content of requests for agency records centers. Requests for authority to establish or relocate an agency records center, or to use an agency records center operated by another agency, must be submitted in writing to the Director, Space and Security Management Division (NAS), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001, phone number (301) 837-1867. The request must identify the specific facility and, for requests to establish or relocate the agency’s own records center, document compliance with the standards in this subpart. Documentation requirements for §1234.12(e) are specified in §1234.32.
(d) Approval of requests for agency records centers. NARA will review the submitted documentation to ensure the facility demonstrates full compliance with the standards in this subpart. NARA reserves the right to visit the facility, if necessary, to make the determination of compliance. NARA will inform the agency of its decision within 45 calendar days after the request is received, and will provide the agency information on the areas of noncompliance if the request is denied. Requests will be denied only if NARA determines that the facility does not demonstrate full compliance with the standards in this subpart. Approvals will be valid for a period of 10 years, unless the facility is materially changed before then or an agency or NARA inspection finds that the facility does not meet the standards in this subpart. Material changes require submission of a new request for NARA approval.

(e) Documentation requirements for storing Federal records in commercial records storage facilities. At least 45 calendar days before an agency first transfers records to a commercial records storage facility, the agency must submit documentation to NARA that the facility complies with the standards in this subpart. The documentation may take the form of a copy of the agency’s contract that incorporates this subpart in its provisions or a statement from the agency records officer that certifies that the facility meets the standards in this subpart. An agency must provide the documentation for each separate commercial records storage facility where its records will be stored. Documentation must be sent to the Director, Space and Security Management Division (NAS), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1867. The agency must submit updated documentation to NARA every 10 years if it continues to store records in that commercial records storage facility.

§ 1234.32 What does an agency have to do to certify a fire-safety detection and suppression system?

(a) Content of documentation. The agency must submit documentation to the Director, Space and Security Management Division (NAS), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 837–1867, that describes the space being protected (e.g., the type and stacking height of the storage equipment used, or how the space is designed, controlled, and operated) and the characteristics of the fire-safety detection and suppression system used. The documentation must demonstrate how that system meets the requirement in § 1234.12(a) through:

(1) A statement that the facility is using a NARA certified system as described in Appendix B to this part;

(2) A report of the results of independent live fire testing (Factory Mutual, Underwriters Laboratories or Southwest Research Institute); or

(3) A report under seal of a licensed fire protection engineer that:

(i) Describes the design intent of the fire suppression system to limit the maximum anticipated loss in any single fire event involving a single ignition and no more than 8 fluid ounces of petroleum-type hydrocarbon accelerant (such as, for example, heptanes or gasoline) to a maximum of 300 cubic feet of Federal records destroyed by fire. The report need not predict a maximum single event loss at any specific number, but rather should describe the design intent of the fire suppression system. The report may make reasonable engineering and other assumptions such as that the fire department responds within XX minutes (the local fire department’s average response time) and promptly commences suppression actions. In addition, any report prepared under this paragraph should assume that the accelerant is saturated in a cotton wick that is 3 inches in diameter and 6 inches long and sealed in a plastic bag and that the fire is started in an aisle at the face of a carton at floor level. § 1234.32
National Archives and Records Administration
§ 1234.34 When may NARA conduct an inspection of a records storage facility?

(a) At the time an agency submits a request to establish an agency records center, pursuant to §1234.30, NARA may conduct an inspection of the proposed facility to ensure that the facility complies fully with the standards in this subpart. NARA may also conduct periodic inspections of agency records centers so long as such facility is used as an agency records center. NARA will inspect its own records center facilities on a periodic basis to ensure that they are in compliance with the requirements of this subpart.

(b) Agencies must ensure, by contract or otherwise, that agency and NARA officials, or their delegates, have the right to inspect commercial records storage facilities to ensure that such facilities fully comply with the standards in this subpart. NARA may conduct periodic inspections of commercial records storage facilities so long as agencies use such facilities to store agency records. The using agency, not NARA, will be responsible for paying any fee or charge assessed by the commercial records storage facility for NARA’s conducting an inspection.

(c) NARA will contact the agency operating the records center or the agency holding a contract with a commercial records storage facility in advance to set a date for the inspection.

## B.1 Perimeter Security

### Parking

- **Control of Facility Parking**: Access to government parking should be limited where possible to government vehicles and personnel. At a minimum, authorized parking spaces and vehicles should be assigned and identified.

- **Control of Adjacent Parking**: Where feasible, parking areas adjacent to federal space should also be controlled to reduce the potential for threats against Federal facilities and employee exposure to criminal activity.

- **Avoid Leases Where Parking Cannot Be Controlled**.
  - **Avoid leasing facilities where parking cannot be controlled**. If necessary, relocate offices to facilities that do provide added security through regulated parking.

- **Lease Should Provide Control for Adjacent Parking**.
  - **Endeavor to negotiate guard services as part of lease**.

- **Post Signs and Arrange for Towing Unauthorized Vehicles**.
  - **Procedures should be established and implemented to alert the public to towing policies, and the removal of unauthorized vehicles**.

- **ID System and Procedures for Authorized Parking**.
  - **Procedures should be established for identifying vehicles and corresponding parking spaces (placard, decal, card key, etc.)**

- **Adequate Lighting for Parking Areas**
  - **Effective lighting provides added safety for employees and deters illegal or threatening activities**.

### CCTV Surveillance Cameras With Time Lapse Video Recording

- Twenty-four hour CCTV surveillance and recording is desirable at all locations as a deterrent. Requirements will depend on assessment of the security level for each facility. Time-lapse video recordings are also highly valuable as a source of evidence and investigative leads.

- **Post Signs Advising of 24 Hour Video Surveillance**.
  - **Warning signs advising of twenty-four hour surveillance act as a deterrent in protecting employees and facilities**.

### Lighting

- **Lighting with Emergency Power Backup**
  - **Standard safety code requirement in virtually all areas. Provides for safe evacuation of buildings in case of natural disaster, power outage, or criminal/terrorist activity**.

### Physical Barriers

- **Extend Physical Perimeter, With Barriers**
  - **This security measure will only be possible in locations where the Government controls the property and where physical constraints are not present. (barriers of concrete and/or steel composition)**

- **Parking Barriers**
  - **Desirable to prevent unauthorized vehicle access**.

## B.2 Entry Security

### Receiving/Shipping

- **Review Receiving/Shipping Procedures (Current)**.
  - **Audit current standards for package entry and suggest ways to enhance security**.

- **Implement Receiving/Shipping Procedures (Modified)**.
  - **After auditing procedures for receiving/shipping, implement improved procedures for security enhancements**.

### Access Control

- **Evaluate Facility for Security Guard Requirements**.
  - **If security guards are required, the number of guards at any given time will depend on the size of the facility, the hours of operation, and current risk factors, etc. Desirable for Level I and II facilities and may be included as lease option. Level III, IV, and V facilities will have security guard patrol based on facility evaluation**.

- **Security Guard Patrol**
  - **Desirable in Level I facilities, based on evaluation for Level II facilities, and required for Levels III, IV, and V**.

- **Intrusion Detection System With Central Monitoring Capability**.
  - **Desirable in Level I facilities, based on evaluation for Level II facilities, and required for Levels III, IV, and V. Required for all facilities as part of GSA design requirements, (e.g. fire detection, fire suppression systems, etc.)**

### Entrances/Exits

- **X-Ray and Magnetometer at Public Entrances**.
  - **May be impractical for Level I and II facilities. Level III and IV evaluations would focus on tenant agencies, public interface, and feasibility. Required for Level V**.

- **Require X-Ray Screening of all Mail/Package**.
  - **All packages entering building should be subject to x-ray screening and/or visual inspection**.

**APPENDIX B TO PART 1234—ALTERNATIVE CERTIFIED FIRE-SAFETY DETECTION AND SUPPRESSION SYSTEM(S)**

1. **General.** This Appendix B contains information on the Fire-safety Detection and Suppression System(s) tested by NARA through independent live fire testing that are certified to meet the requirement in §1234.12(s) for storage of Federal Records. Use of a system specified in this appendix is optional. A facility may choose to have an alternate fire-safety detection and suppression system approved under §1234.32).

2. **Specifications for NARA facilities using 15 foot high records storage.** NARA fire-safety systems that incorporate all components specified in paragraphs 2.a. through n. of this appendix have been tested and certified to meet the requirements in §1234.12(s) for an acceptable fire-safety detection and suppression system for storage of Federal records.

   a. The records storage height must not exceed the nominal 15 feet (±3 inches) records storage height.

   b. All records storage and adjoining areas must be protected by automatic wet-pipe
sprinklers. Automatic sprinklers are specified herein because they provide the most effective fire protection for high piled storage of paper records on open type shelving.

c. The sprinkler system must be rated at no higher than 265 degrees Fahrenheit utilizing quick response (QR) fire sprinkler heads and designed by a licensed fire protection engineer to provide the specified density for the most remote 1,500 square feet of floor area at the most remote sprinkler head in accordance with NFPA 13 (incorporated by reference, see §1234.3). For facilities with roofs rated at 15 minutes or greater, provide 1⁄2 QR sprinklers rated at no higher than 265 degrees Fahrenheit designed to deliver a density of 0.30 gpm per square foot. For unrated roofs, provide 0.64 "large drop" sprinklers rated at no higher than 265 degrees Fahrenheit. For facilities using 7 or 8 shelf track files, use QR sprinklers rated at no higher than 265 degrees Fahrenheit. For new construction and replacement sprinklers, NARA recommends that the sprinklers be rated at 165 degrees Fahrenheit, Installation of the sprinkler system must be in accordance with NFPA 13 (incorporated by reference, see §1234.3).

d. Maximum spacing of the sprinkler heads must be on a 10-foot grid and the positioning of the heads must provide complete, unobstructed coverage, with a clearance of not less than 18 inches from the top of the highest stored materials.

e. The sprinkler system must be equipped with a water-flow alarm connected to an audible alarm within the facility and to a continuously staffed fire department. A manual alarm pull station must be located adjacent to each exit. Supplemental manual alarm stations are permitted within the records storage area.

f. All water cutoff valves in the sprinkler system must be equipped with automatic closure alarm (tamper alarm) connected to a continuously staffed station, with responsibility for immediate response. If the sprinkler water cutoff valve is located in an area used by the public, in addition to the tamper alarm, the valves must be provided with frangible (easily broken) padlocks.

g. A dependable water supply free of interruption must be provided including a continuous site fire loop connected to the water main and sized to support the facility with only one portion of the fire loop operational. This normally requires a backup supply system having sufficient pressure and capacity to meet both fire hose and sprinkler requirements for 2-hours. A fire pump connected to an emergency power source must be provided in accordance with NFPA 20 (incorporated by reference, see §1234.3), when adequate water pressure is not assured. In the event that public water mains are not able to supply adequate volumes of water to the site, on-site water storage must be provided.

h. Interior fire hose stations equipped with a 1 1⁄2 inch diameter hose may be provided in the records storage areas if required by the local fire department, enabling any point in the records storage area to be reached by a 50-foot hose stream from a 100-foot hose lay. If provided, these cabinets must be marked "For Fire Department Use Only."

i. Where fire hose cabinets are not required, fire department hose outlets must be provided at each floor landing in the building core or stair shaft. Hose outlets must have an easily removable adapter and cap. Threads and valves must be compatible with the local fire department’s equipment. Spacing must be so that any point in the record storage area can be reached with a 50-foot hose stream from a 100-foot hose lay.

j. In addition to the designed sprinkler flow demand, 500 gpm must be provided for hose stream demand. The hose stream demand must be calculated into the system at the base of the main sprinkler riser.

k. Fire hydrants must be located within 250 feet of each exterior entrance or other access to the records storage facility that could be used by firefighters. Each required hydrant must provide a minimum flow capacity of 500 gpm at 20 psi. All hydrants must be at least 50 feet away from the building walls and adjacent to a roadway usable by fire apparatus. Fire hydrants must have at least two, 2¾ inch hose outlets and a pumper connection. All threads must be compatible with local standards.

l. Portable water-type fire extinguishers (2½ gallon stored pressure type) must be provided at each fire alarm striking station. The minimum number and locations of fire extinguishers must be as required by NFPA 10 (incorporated by reference, see §1234.3).

m. Single level catwalks without automatic sprinklers installed underneath may be provided in the service aisles if the edges of all files in the front boxes above the catwalks are stored perpendicular to the aisle (to minimize files exfoliation in a fire). Where provided, the walking surface of the catwalks must be of expanded metal at least .09-inch thickness with a 2-inch mesh length. The surface opening ratio must be equal or greater than 0.75. The sprinkler water demand for protection over bays with catwalks where records above the catwalks are not perpendicular to the aisles must be calculated hydraulically to give .30 gpm per square foot for the most remote 2,000 square feet.

(1) ANSI X3.54–1986 ("ANSI X3.54"), American National Standard: Recorded Magnetic Tape for Information Interchange (6250 CPI, Group Coded Recording), 1986, IBR approved for § 1235.46.

§ 1235.10 What records do agencies transfer to the National Archives of the United States?

Agencies must transfer to the National Archives of the United States records that have been scheduled as permanent on an SF 115, Request for Records Disposition Authority, records that are designated as permanent in a GRS; and, when appropriate, records that are accretions to holdings (continuations of series already accessioned.)

§ 1235.12 When must agencies transfer records to the National Archives of the United States?

Permanent records must be transferred to the National Archives of the United States when:

(a) The records are eligible for transfer based on the transfer date specified in a NARA-approved records schedule, or

(b) The records have been in existence for more than 30 years (see also § 1235.14).

§ 1235.14 May agencies retain records for the conduct of regular agency business after they are eligible for transfer?

(a) Agencies may retain records longer than specified on a records disposition schedule only with written approval from NARA.

(b) If the agency determines that the records are needed for the conduct of regular business, the records officer must submit to the National Archives and Records Administration, Modern Records Programs (NWM), 8601 Adelphi Road, College Park, MD 20740–6001, phone number (301) 887-1738, a written request certifying continuing need. This certification must:

(2) Cite the NARA-approved disposition authority;
§ 1235.16 How will NARA respond to an agency’s request to retain records?

(a) Approval. NARA will provide written approval of the request to retain the records for the specified period within 30 days of receipt of the request.

(b) Disapproval. NARA will provide written disapproval of an agency’s request within 30 days. Requests will be denied if the agency is retaining the records primarily to:

1. Provide access services to persons outside the agency that can be provided by NARA, or

2. Function as an agency archives, unless specifically authorized by statute or by NARA.

§ 1235.18 How do agencies transfer records to the National Archives of the United States?

Agencies transfer records by submitting a signed SF 258, Agreement to Transfer Records to the National Archives of the United States. Each SF 258 must correlate to a specific records series or other aggregation of records, as identified in an item on the SF 115 or cited on the SF 258.

§ 1235.20 How do agencies indicate that transferred records contain information that is restricted from public access?

When completing an SF 258, agencies must indicate restrictions on the use and examination of records and attach a written justification. The justification must cite the statute or Freedom of Information Act (FOIA) exemption (5 U.S.C. 552(b) as amended), that authorizes the restrictions.

§ 1235.22 When does legal custody of records transfer to NARA?

Legal custody of records passes from the agency to NARA when the appropriate NARA official signs the SF 258 acknowledging receipt of the records.

Subpart B—Administration of Transferred Records

§ 1235.30 How may records in the National Archives of the United States be used?

(a) NARA will enforce restrictions that are consistent with FOIA (5 U.S.C. 552(b) as amended) for both official use of the records by Federal agencies and research by the public.

(b) NARA regulations in Subchapter C of this chapter apply to Federal agency personnel using transferred records for official Government purposes, and to the public at large.

§ 1235.32 How does NARA handle restrictions on transferred records?

(a) For records less than 30 years old. Unless required by law, NARA will remove or relax restrictions on transferred records less than 30 years old only with the written concurrence of the transferring agency or, if applicable, its successor agency. If the transferring agency no longer exists, and there is no successor, the Archivist may relax, remove, or impose restrictions to serve the public interest.

(b) For records more than 30 years old.

1. After records are more than 30 years old, most statutory and other restrictions on transferred records expire. NARA, however, after consulting with the transferring agency, may keep the restrictions in force for a longer period.

2. See part 1256 of this chapter for restrictions on specific categories of records, including national security classified information and information that would invade the privacy of an individual that NARA restricts beyond 30 years.

§ 1235.34 May NARA destroy transferred records?

NARA will not destroy records transferred to NARA’s custody except:
§ 1235.40 What records are covered by additional transfer requirements?

In addition to complying with subparts A and B of this part, agencies must follow the specifications and requirements in this subpart when transferring audiovisual, cartographic, architectural, and electronic records to the National Archives of the United States. In general, such records must be transferred to the National Archives of the United States as soon as they become inactive or whenever the agency cannot provide proper care and handling of the records, including adequate storage conditions (see parts 1236 and 1237 of this subchapter).

§ 1235.42 What specifications and standards for transfer apply to audiovisual records, cartographic, and related records?

In general the physical types described below comprise the minimum record elements that are needed for future preservation, duplication, and reference for audiovisual records, cartographic records, and related records.

(a) Motion pictures.

(1) Agency-sponsored or produced motion picture films (e.g., public information films) whether for public or internal use:

(i) Original negative or color original plus separate optical sound track;

(ii) Intermediate master positive or duplicate negative plus optical track sound track; and,

(iii) Sound projection print and video recording, if they exist.

(2) Agency-acquired motion picture films: Two projection prints in good condition or one projection print and one videotape.

(3) Unedited footage, outtakes, and trims (the discards of film productions) that are properly arranged, labeled, and described and show unstaged, unrehearsed events of historical interest or historically significant phenomena:

(i) Original negative or color original; and

(ii) Matching print or videotape.

(b) Video recordings.

(1) For videotape, the original or earliest generation videotape and a copy for reference. Agencies must comply with requirements in §1237.12(d) of this subchapter for original videotapes, although VHS copies can be transferred as reference copies.

(2) For video discs, the premaster videotape used to manufacture the video disc and two copies of the disc. Agencies must consult the National Archives and Records Administration, Special Media Archives Services Division, (NWCS), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–2903, before initiating transfers of video discs that depend on interactive software and nonstandard equipment.

(c) Still pictures.

(1) For analog black-and-white photographs, an original negative and a captioned print. The captioning information may be maintained in another file such as a database if the file number correlation is clear. If the original negative is nitrate, unstable acetate, or glass based, the agency must also transfer a duplicate negative on a polyester base.

(2) For analog color photographs, the original color negative, color transparency, or color slide; a captioned print (or captioning information maintained in another file if the file number correlation is clear); and a duplicate negative, or slide, or transparency, if they exist.

(3) For slide sets, the original and a reference set, and the related audio recording (in accordance with paragraph (e) of this section) and script.

(4) For other pictorial records such as posters, original art work, and filmstrips, the original and a reference copy.

(d) Digital photographic records. See 36 CFR 1235.48(e) and 1235.50(e) for transfer requirements for digital photographic records.

(e) Sound recordings—(1) Disc recordings.

(ii) For analog disc recordings, the master tape and two disc pressings of each recording, typically a vinyl copy.
§ 1235.44  What general transfer requirements apply to electronic records?

(a) Each agency must retain a copy of permanent electronic records that it

for playback at 33 1/3 revolutions per minute (rpm).

(2) For analog audio recordings on magnetic tape (open reel, cassette, or cartridge), the original tape, or the earliest available generation of the recording, and a subsequent generation copy for reference. Agencies must comply with the requirements in 36 CFR 1237.12(c) of this subchapter for audio recordings.

(f) Finding aids and production documentation. The following records must be transferred to the National Archives of the United States with the audiovisual records to which they pertain:

(1) Existing finding aids such as data sheets, shot lists, continuities, review sheets, catalogs, indexes, lists of captions, and other documentation that are needed or useful to identify or retrieve audiovisual records. Agencies must consult the National Archives and Records Administration, Special Media Archives Services Division (NWCS), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–2903, concerning transfer of finding aids that do not meet the requirements of this part for electronic records.

(2) Production case files or similar files that include copies of production contracts, scripts, transcripts, and appropriate documentation bearing on the origin, acquisition, release, and ownership of the production.

(g) Maps and charts. (1) Manuscript maps; printed and processed maps on which manuscript changes, additions, or annotations have been made for record purposes or which bear manuscript signatures to indicate official approval; and single printed or processed maps that have been attached to or interfiled with other documents of a record character or in any way made an integral part of a record.

(4) Infrared, ultraviolet, multispectral (multiband), video, imagery radar, and related tapes, converted to a film base.

(5) Indexes and other finding aids in the form of photo mosaics, flight line indexes, coded grids, and coordinate grids.

(1) Architectural and related engineering drawings, including:

(1) Design drawings, preliminary and presentation drawings, and models that document the evolution of the design of a building or structure.

(2) Master sets of drawings that document both the initial design and construction and subsequent alterations of a building or structure. This category includes final working drawings, “as-built” drawings, shop drawings, and repair and alteration drawings.

(3) Drawings of repetitive or standard details of one or more buildings or structures.

transfers to NARA until it receives official notification that NARA has assumed responsibility for continuing preservation of the records.

(b) For guidance related to the transfer of electronic records other than those covered in this subpart, the agency must consult with the National Archives and Records Administration, Electronic/Special Media Records Services Division (NWME), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–3420.

(c) When transferring digital photographs and their accompanying metadata, the agency must consult with the National Archives and Records Administration, Special Media Archives Services Division (NWCS) for digital photographs, 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–2903.

§ 1235.46 What electronic media may be used for transferring records to the National Archives of the United States?

(a) General. This section specifies the media or method used to transfer permanent records to the National Archives of the United States. (See 36 CFR 1236.28 for the requirements governing the selection of electronic records storage media for current agency use.) The agency must use only media that is are sound and free from defects for transfers to the National Archives of the United States. When permanent electronic records may be disseminated through multiple electronic media (e.g., magnetic tape, CD-ROM) or mechanisms (e.g., FTP), the agency and NARA must agree on the most appropriate medium or method for transfer of the records into the National Archives of the United States.

(b) Magnetic tape. Agencies may transfer electronic records to the National Archives of the United States on magnetic tape as follows:

(1) Open-reel magnetic tape must be on ½-inch 9-track tape reels recorded at 1600 or 6250 bpi that meet ANSI X3.39 or ANSI X3.54 (both incorporated by reference, see §1235.4), respectively.

(2) 18-track 3480-class cartridges must be recorded at 37,871 bpi that meet ANSI X3.180 (incorporated by reference see, §1235.4). The data must be blocked at no more than 32,760 bytes per block.

(3) For DLT tape IV cartridges, the data must be blocked at no more than 32,760 bytes per block and must conform to the standards cited in the table as follows:

<table>
<thead>
<tr>
<th>If you are copying the records on</th>
<th>. . . then, the standard below applies.</th>
</tr>
</thead>
<tbody>
<tr>
<td>DLT Tape IV with a DLT 4000 drive</td>
<td>ISO/IEC 15307 (incorporated by reference see, §1235.4).</td>
</tr>
<tr>
<td>DLT Tape IV with a DLT 7000 drive</td>
<td>ISO/IEC 15896 (incorporated by reference see, §1235.4).</td>
</tr>
<tr>
<td>DLT Tape IV with a DLT 8000 drive</td>
<td>ISO/IEC 16382 (incorporated by reference see, §1235.4).</td>
</tr>
</tbody>
</table>

(c) Compact-Disk, Read Only Memory (CD-ROM) and Digital Video Disks (DVDs). Agencies may use CD-ROMs and DVDs to transfer permanent electronic records to the National Archives of the United States.

(1) CD-ROMs used for this purpose must conform to ANSI/NISO/ISO 9660 (incorporated by reference, see §1235.4).

(2) Permanent electronic records must be stored in discrete files. Transferred CD-ROMs and DVDs may contain other files, such as software or temporary records, but all permanent records must be in files that contain only permanent records. Agencies must indicate at the time of transfer if a CD-ROM or DVD contains temporary records and where those records are located on the CD-ROM or DVD. The agency must also specify whether NARA should return the CD-ROM or DVD to the agency or dispose of it after copying the permanent records to an archival medium.

(3) If permanent electronic records are stored on both CD-ROM (or DVD) and other media, such as magnetic tape, the agency and NARA must agree on the medium that will be used to transfer the records into the National Archives of the United States.

(d) File Transfer Protocol. Agencies may use File Transfer Protocol (FTP) to transfer permanent electronic records to the National Archives of the United States only with NARA’s approval. Several important factors may...
§ 1235.48 Limit the use of FTP as a transfer method, including the number of records, record file size, and available bandwidth. Agencies must contact the National Archives and Records Administration, Special Media Archives Services Division (NWCS), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837-2903, or the National Archives and Records Administration, Electronic/Special Media Records Services Division (NWME), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837-1578, to initiate the transfer discussions. Each transfer of electronic records via FTP must be preceded with a signed SF 258 sent to NWME.

(1) FTP file structure may use the 64-character Joliet extension naming convention only when letters, numbers, dashes (–), and underscores (_) are used in the file and/or directory names, with a slash (/) used to indicate directory structures. Otherwise, FTP file structure must conform to an 8.3 file naming convention and file directory structure as cited in ANSI/NISO/ISO 9660 (incorporated by reference, see § 1235.4).

(2) Permanent electronic records must be transferred in discrete files, separate from temporary files. All permanent records must be transferred in files that contain only permanent records.

§ 1235.48 What documentation must agencies transfer with electronic records?

(a) General. Agencies must transfer documentation adequate to identify, service, and interpret the permanent electronic records. This documentation must include completed NARA Form 14097, Technical Description for Transfer of Electronic Records, for magnetic tape media, and a completed NARA Form 14028, Information System Description Form, or their equivalents. Agencies must submit the required documentation, if electronic, in an electronic form that conforms to the provisions of this section.

(b) Data files. Documentation for data files and data bases must include record layouts, data element definitions, and code translation tables (codebooks) for coded data. Data element definitions, codes used to represent data values, and interpretations of these codes must match the actual format and codes as transferred.

(c) Digital geospatial data files. Digital geospatial data files must include the documentation specified in paragraph (b) of this section. In addition, documentation for digital geospatial data files can include metadata that conforms to the Federal Geographic Data Committee's Content Standards for Digital Geospatial Metadata, as specified in Executive Order 12906 of April 11, 1994 (3 CFR, 1995 Comp., p. 882) (Federal geographic data standards are available at http://www.fgdc.gov/standards/standards_publications).

(d) Documents containing SGML tags. Documentation for electronic files containing textual documents with SGML tags must include a table for interpreting the SGML tags, when appropriate.

(e) Electronic records in other formats. (1) This paragraph (e) applies to the documentation for the following types of electronic records:

(i) E-mail messages with attachments;

(ii) Scanned images of textual records;

(iii) Records in portable document format (PDF);

(iv) Digital photographic records; and

(v) Web content records.

(2) Guidance on the documentation for electronic records in these formats are available on the NARA Electronic Records Management Initiative Web page at http://www.archives.gov/records-mgmt/initiatives/transfer-to-nara.html or from the National Archives and Records Administration, Special Media Archives Services Division (NWCS), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837-2903 for digital photographs and metadata, or the National Archives and Records Administration, Electronic/Special Media Records Services Division (NWME), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837-1578, for other electronic records.
§ 1235.50 What specifications and standards for transfer apply to electronic records?

(a) General. (1) Agencies must transfer electronic records in a format that is independent of specific hardware or software. Except as specified in paragraphs (c) through (e) of this section, the records must be written in American Standard Code for Information Interchange (ASCII) or Extended Binary Coded Decimal Interchange Code (EBCDIC) with all control characters and other non-data characters removed. Agencies must consult with the National Archives and Records Administration, Electronic/Special Media Records Services Division (NWME), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–1578 about electronic records in other formats.

(2) Agencies must have advance approval from NARA for compression of the records, and agencies must comply with a request from NARA to provide the software to decompress the records.

(3) Agencies interested in transferring scheduled electronic records using a Tape Archive (TAR) utility must contact the National Archives and Records Administration, Electronic/Special Media Records Services Division (NWME), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–1578 to initiate transfer discussions.

(b) Data files and databases. Data files and databases must be transferred to the National Archives of the United States as flat files or as rectangular tables; i.e., as two-dimensional arrays, lists, or tables. All “records” (within the context of the computer program, as opposed to a Federal record) or “tuples,” i.e., ordered collections of data items, within a file or table must have the same logical format. Each data element within a record must contain only one data value. A record must not contain nested repeating groups of data items. The file must not contain extraneous control characters, except record length indicators for variable length records, or marks delimiting a data element, field, record, or file. If records or data elements in different files need to be linked or combined, then each record must contain one or more data elements that constitute primary and/or foreign keys enabling valid linkages between the related records in separate files.

(c) Digital geospatial data files. Digital spatial data files must be transferred to the National Archives of the United States in a format that complies with a non-proprietary, published open standard maintained by or for a Federal, national, or international standards organization. Acceptable transfer formats include the Geography Markup Language (GML) as defined by the Open GIS Consortium.

(d) Textual documents. Electronic textual documents must be transferred as plain ASCII files; however, such files may contain standard markup language such as Standard Generalized Markup Language (SGML) or XML tags.

(e) Electronic mail, scanned images of textual records, portable document format records, digital photographic records, and Web content records. For guidance on the transfer of these records to NARA, agencies should consult the transfer requirements available on the NARA Electronic Records Management Initiative Web page at http://www.archives.gov/records-mgmt/initiatives/transfer-to-nara.html or contact the National Archives and Records Administration, Special Media Archives Services Division (NWCS), 8601 Adelphi Road, College Park, MD 20740, phone number 301–837–2903 for digital photographs and metadata, or the National Archives and Records Administration, Electronic/Special Media Records Services Division (NWME), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–1578, for other electronic records.

PART 1236—ELECTRONIC RECORDS MANAGEMENT

Subpart A—General

Sec.
1236.1 What are the authorities for part 1236?
1236.2 What definitions apply to this part?
1236.4 What standards are used as guidance for this part?
§ 1236.1 What are the authorities for part 1236?

The statutory authority for this part is 44 U.S.C. 2904, 3101, 3102, and 3105. OMB Circular A–130, Management of Federal Information Resources, applies to records and information systems containing records.

§ 1236.2 What definitions apply to this part?

(a) See § 1220.18 of this subchapter for definitions of terms used throughout Subchapter B, including part 1236.

(b) As used in part 1236—

Electronic information system means an information system that contains and provides access to computerized Federal records and other information.

Electronic mail system means a computer application used to create, receive, and transmit messages and other documents. Excluded from this definition are file transfer utilities (software that transmits files between users but does not retain any transmission data), data systems used to collect and process data that have been organized into data files or data bases on either personal computers or mainframe computers, and word processing documents not transmitted on an e-mail system.

Metadata consists of preserved contextual information describing the history, tracking, and/or management of an electronic document.

Unstructured electronic records means records created using office automation applications such as electronic mail and other messaging applications, word processing, or presentation software.

§ 1236.4 What standards are used as guidance for this part?

These regulations conform with ISO 15489–1:2001. Paragraph 9.6 (Storage and handling) is relevant to this part.

§ 1236.6 What are agency responsibilities for electronic records management?

Agencies must:

(a) Incorporate management of electronic records into the records management activities required by parts 1220–1235 of this subchapter;

(b) Integrate records management and preservation considerations into the design, development, enhancement, and implementation of electronic information systems in accordance with subpart B of this part; and

(c) Appropriately manage electronic records in accordance with subpart C of this part.
Subpart B—Records Management and Preservation Considerations for Designing and Implementing Electronic Information Systems

§ 1236.10 What records management controls must agencies establish for records in electronic information systems?

The following types of records management controls are needed to ensure that Federal records in electronic information systems can provide adequate and proper documentation of agency business for as long as the information is needed. Agencies must incorporate controls into the electronic information system or integrate them into a recordkeeping system that is external to the information system itself (see §1236.20 of this part).

(a) Reliability: Controls to ensure a full and accurate representation of the transactions, activities or facts to which they attest and can be depended upon in the course of subsequent transactions or activities.

(b) Authenticity: Controls to protect against unauthorized addition, deletion, alteration, use, and concealment.

(c) Integrity: Controls, such as audit trails, to ensure records are complete and unaltered.

(d) Usability: Mechanisms to ensure records can be located, retrieved, presented, and interpreted.

(e) Content: Mechanisms to preserve the information contained within the record itself that was produced by the creator of the record.

(f) Context: Mechanisms to implement cross-references to related records that show the organizational, functional, and operational circumstances about the record, which will vary depending upon the business, legal, and regulatory requirements of the business activity; and

(g) Structure: controls to ensure the maintenance of the physical and logical format of the records and the relationships between the data elements.

§ 1236.12 What other records management and preservation considerations must be incorporated into the design, development, and implementation of electronic information systems?

As part of the capital planning and systems development life cycle processes, agencies must ensure:

(a) That records management controls (see §1236.10) are planned and implemented in the system;

(b) That all records in the system will be retrievable and usable for as long as needed to conduct agency business (i.e., for their NARA-approved retention period). Where the records will need to be retained beyond the planned life of the system, agencies must plan and budget for the migration of records and their associated metadata to new storage media or formats in order to avoid loss due to media decay or technology obsolescence. (See §1236.14.)

(c) The transfer of permanent records to NARA in accordance with part 1235 of this subchapter.

(d) Provision of a standard interchange format (e.g., ASCII or XML) when needed to permit the exchange of electronic documents between offices using different software or operating systems.

§ 1236.14 What must agencies do to protect records against technological obsolescence?

Agencies must design and implement migration strategies to counteract hardware and software dependencies of electronic records whenever the records must be maintained and used beyond the life of the information system in which the records are originally created or captured. To successfully protect records against technological obsolescence, agencies must:

(a) Determine if the NARA-approved retention period for the records will be longer than the life of the system where they are currently stored. If so, plan for the migration of the records to a new system before the current system is retired.

(b) Carry out upgrades of hardware and software in such a way as to retain the functionality and integrity of the
§ 1236.20 What are appropriate record-keeping systems for electronic records?

(a) General. Agencies must use electronic or paper recordkeeping systems or a combination of those systems, depending on their business needs, for managing their records. Transitory e-mail may be managed as specified in § 1236.22(c).

(b) Electronic recordkeeping. Recordkeeping functionality may be built into the electronic information system or records can be transferred to an electronic recordkeeping repository, such as a DoD-5015.2 STD-certified product. The following functionalities are necessary for electronic recordkeeping:

(1) Declare records. Assign unique identifiers to records.

(2) Capture records. Import records from other sources, manually enter records into the system, or link records to other systems.

(3) Organize records. Associate with an approved records schedule and disposition instruction.

(4) Maintain records security. Prevent the unauthorized access, modification, or deletion of declared records, and ensure that appropriate audit trails are in place to track use of the records.

(5) Manage access and retrieval. Establish the appropriate rights for users to access the records and facilitate the search and retrieval of records.

(6) Preserve records. Ensure that all records in the system are retrievable and usable for as long as needed to conduct agency business and to meet NARA-approved dispositions. Agencies must develop procedures to enable the migration of records and their associated metadata to new storage media or formats in order to avoid loss due to media decay or technology obsolescence.

(7) Execute disposition. Identify and effect the transfer of permanent records to NARA based on approved records schedules. Identify and delete temporary records that are eligible for disposal. Apply records hold or freeze on disposition when required.

(c) Backup systems. System and file backup processes and media do not provide the appropriate recordkeeping functionalities and must not be used as the agency electronic recordkeeping system.

§ 1236.22 What are the additional requirements for managing electronic mail records?

(a) Agencies must issue instructions to staff on the following retention and management requirements for electronic mail records:

(1) The names of sender and all addressee(s) and date the message was sent must be preserved for each electronic mail record in order for the context of the message to be understood. The agency may determine that other metadata is needed to meet agency business needs, e.g., receipt information.

(2) Attachments to electronic mail messages that are an integral part of the record must be preserved as part of the electronic mail record or linked to the electronic mail record with other related records.

(3) If the electronic mail system identifies users by codes or nicknames or identifies addressees only by the name of a distribution list, retain the intelligent or full names on directories or
§ 1236.26 What actions must agencies take to maintain electronic information systems?

(a) Agencies must maintain inventories of electronic information systems and review the systems periodically for conformance to established agency procedures, standards, and policies as part of the periodic reviews required by 44 U.S.C. 3506. The review should determine if the records have been properly identified and described, and if the schedule descriptions and retention periods reflect the current informational content and use. If not, agencies must submit an SF 115, Request for Records Disposition Authority, to NARA.

(b) Agencies must maintain up-to-date documentation about electronic information systems that is adequate to:

- provide instructions to staff on how to copy Federal records from the electronic mail system to a recordkeeping system.
- either store them in a format and on a medium that conforms to the requirements concerning transfer at 36 CFR part 1235 or maintain the ability to convert the records to the required format and medium at the time transfer is scheduled.
- Agencies that maintain paper recordkeeping systems must print and file their electronic mail records with the related transmission and receipt data specified by the agency’s electronic mail instructions.

§ 1236.24 What are the additional requirements for managing unstructured electronic records?

(a) Agencies that manage unstructured electronic records electronically must ensure that the records are filed in a recordkeeping system that meets the requirements in §1236.10, except that transitory e-mail may be managed in accordance with §1236.22(c).

(b) Agencies that maintain paper files as their recordkeeping systems must establish policies and issue instructions to staff to ensure that unstructured records are printed out for filing in a way that captures any pertinent hidden text (such as comment fields) or structural relationships (e.g., among worksheets in spreadsheets or other complex documents) required to meet agency business needs.
§ 1236.28 What additional requirements apply to the selection and maintenance of electronic records storage media for permanent records?

(a) Agencies must maintain the storage and test areas for electronic records storage media containing permanent and unscheduled records within the following temperature and relative humidity ranges:

1. Temperature—62° to 68°F.
2. Relative humidity—35% to 45%.

(b) Electronic media storage libraries and test or evaluation areas that contain permanent or unscheduled records must be smoke-free.

(c) For additional guidance on the maintenance and storage of CDs and DVDs, agencies may consult the National Institute of Standards and Technology (NIST) Special Publication 500-252, Care and Handling of CDs and DVDs at http://www.itl.nist.gov/iad/894.05/papers/CDandDVDCareandHandlingGuide.pdf, contact phone number (301) 975-6478.

(d) Agencies must test magnetic computer tape media no more than 6 months prior to using them to store electronic records that are unscheduled or scheduled for permanent retention. This test should verify that the magnetic computer tape media are free of permanent errors and in compliance with NIST or industry standards.

(e) Agencies must annually read a statistical sample of all magnetic computer tape media containing permanent and unscheduled records to identify any loss of data and to discover and correct the causes of data loss. In magnetic computer tape libraries with 1800 or fewer tape media, a 20% sample or a sample size of 50 media, whichever is larger, should be read. In magnetic computer tape libraries with more than 1800 media, a sample of 384 media should be read. Magnetic computer tape media with 10 or more errors should be replaced and, when possible, lost data must be restored. All other magnetic computer tape media which might have been affected by the same cause (i.e., poor quality tape, high usage, poor environment, improper handling) must be read and corrected as appropriate.

(f) Before the media are 10 years old, agencies must copy permanent or unscheduled data on magnetic records storage media onto tested and verified new electronic media.

§ 1237.4 What definitions apply to this part?

(a) See § 1220.18 of this subchapter for definitions of terms used throughout Subchapter B, including part 1237.

(b) As used in part 1237—

Aerial photographic records means film-based images of the surface of the earth, of other planetary bodies, or of the atmosphere that have been taken from airborne vehicles or satellites. They include vertical and oblique aerial negative film taken from conventional aircraft as well as copy negatives, internegatives, rectified negatives, and annotated and other prints from these negatives. Also included are infrared, ultraviolet, multispectral, video, and radar imagery that has been converted to a film base. These records also include the relevant index system in whatever form it may exist such as mosaics, flight-line overlays or annotated maps, or electronic data bases capturing the latitude and longitude (or other coordinate-based location data) of individual aerial photographic center points.

Architectural and engineering records means graphic records that depict the proposed and actual construction of stationary structures, such as buildings, bridges, and canals as well as movable objects, such as ships, aircraft, vehicles, weapons, machinery, and equipment. These records are also known as design and construction drawings and include closely related indexes and written specifications.

Audiovisual means any pictorial or aural means of communicating information, e.g., photographic prints, negatives, slides, digital images, sound recordings, and moving images.

Audiovisual equipment means equipment used for recording, producing, duplicating, processing, broadcasting, distributing, storing, or exhibiting audiovisual materials or for providing any audiovisual services.

Audiovisual production means an organized and unified presentation, developed according to a plan or script, containing visual imagery, sound, or both, and used to convey information. An audiovisual production generally is a self-contained presentation.

Audiovisual records means records in pictorial or aural form, including still photographs and motion media (i.e., moving images whether on motion picture film or as video recordings), sound recordings, graphic works (e.g., printed posters), mixed media, and related finding aids and production files.

Cartographic records means graphic representations drawn to scale of selected cultural and physical features of the surface of the earth, of other planetary bodies, and of the atmosphere. They include maps, charts, photomaps, orthophotomaps and images, atlases, cartograms, globes, and relief models. Related records are those that are integral to the map-making process, such as field survey notes, geodetic controls, map history case files, source material, indexes, and finding aids.

§ 1237.10 How must agencies manage their audiovisual, cartographic, and related records?

Each Federal agency must manage its audiovisual, cartographic and related records as required in parts 1220 through 1235. In addition, agencies must:

(a) Prescribe the types of audiovisual, cartographic, and related records to be created and maintained. (See § 1235.42 of this subchapter for transfer requirements for permanent audiovisual records.)
National Archives and Records Administration

§ 1237.14

(b) Create and maintain current inventories showing the location of all generations of audiovisual records and all cartographic and related records, especially those not maintained centrally by the agency.

§ 1237.12 What record elements must be created and preserved for permanent audiovisual records?

For permanent audiovisual records, the following record elements must be created or acquired and preserved for transfer into the National Archives of the United States. (See §1235.42 of this subchapter for transfer requirements for permanent audiovisual records.)

(a) Motion pictures. (1) Agency-sponsored or produced motion picture films (e.g., public information films) whether for public or internal use:
   (i) Original negative or color original plus separate optical sound track;
   (ii) Intermediate master positive or duplicate negative plus optical track sound track; and, 
   (iii) Sound projection print and video recording, if both exist.

(2) Agency-acquired motion picture films: Two projection prints in good condition or one projection print and one videotape.

(3) Unedited footage, outtakes and trims (the discards of film productions) that are properly arranged, labeled, and described and show unstaged, unrehearsed events of historical interest or historically significant phenomena:
   (i) Original negative or color original; and
   (ii) Matching print or videotape.

(b) Video recordings. (1) For analog videotapes, the original or earliest generation videotape using industrial-quality or professional videotapes for originals and a copy for reference.

(2) For video discs, the premaster video used to manufacture the video disc and two copies of the disc.

(c) Still pictures. (1) For analog black-and-white photographs, an original negative and a captioned print or the captioning information maintained in another file such as a data base if the file number correlation is clear. If the original negative is nitrate, unstable acetate, or glass based, a duplicate negative on a polyester base is needed. 

(2) For analog color photographs, the original color negative, color transparency, or color slide; a captioned print of the original color negative and/or captioning information in another file such as a data base with a clear correlation to the relevant image; and a duplicate negative, or slide, or transparency.

(3) For slide sets, the original and a reference set, and the related audio recording and script.

(4) For other pictorial records such as posters, original art work, and filmstrips, the original and a reference copy.

(d) Digital photographic records. See §1237.28 for requirements for digital photographs.

(e) Sound recordings. (1) Disc recordings:
   (i) For electronic recordings, the origination recording regardless of form and two compact discs (CDs) or digital video disks (DVDs).
   (ii) For analog disc recordings, the master tape and two disc pressings of each recording, typically a vinyl copy for playback at 33½ revolutions per minute (rpm).

(2) For analog audio recordings on magnetic tape (open reel, cassette, or cartridge), the original tape, or the earliest available generation of the recording, and a subsequent generation copy for reference.

(f) Finding aids and production documentation. (1) Existing finding aids such as data sheets, shot lists, continuities, review sheets, catalogs, indexes, list of captions, and other documentation that identifies the records.

(2) Production case files or similar files that include copies of production contracts, scripts, transcripts, and appropriate documentation bearing on the origin, acquisition, release, and ownership of the production.

§ 1237.14 What are the additional scheduling requirements for audiovisual, cartographic, and related records?

The disposition instructions should also provide that permanent records be transferred to the National Archives of the United States within 5–10 years after creation (see also 36 CFR part 1235). See §1235.42 of this subchapter for
§ 1237.16 How do agencies store audiovisual records?

Agencies must maintain appropriate storage conditions for permanent, long-term temporary or unscheduled audiovisual records:
(a) Ensure that audiovisual records storage facilities comply with 36 CFR part 1234.
(b) For the storage of permanent, long-term temporary, or unscheduled records, use audiovisual storage containers or enclosures made of non-corroding metal, inert plastics, paper products and other safe materials recommended in ISO 18902 and ISO 18911 (both incorporated by reference, see § 1237.3);
(c) Store originals and use copies (e.g., negatives and prints) separately, whenever practicable. Store distinct audiovisual record series separately from textual series (e.g., store poster series separately from other kinds of agency publications, or photographic series separately from general reference files). Retain intellectual control through finding aids, annotations, or other descriptive mechanisms;
(d) Store series of permanent and unscheduled x-ray films, i.e., x-rays that are not interspersed among paper records (case files), in accordance with § 1238.20 of this subchapter. Store series of temporary x-ray films under conditions that will ensure their preservation for their full retention period, in accordance with ANSI/PIMA IT9.11–1993 (incorporated by reference, see § 1237.3);
(e) Store posters and similar graphic works in oversize formats, in map cases, hanging files, or other enclosures that are sufficiently large or flexible to accommodate the records without rolling, folding, bending, or other ways that compromise image integrity and stability; and
(f) Store optical disks in individual containers and use felt-tip, water-based markers for disk labeling.

§ 1237.18 What are the environmental standards for audiovisual records storage?

(a) Photographic film and prints. The requirements in this paragraph apply to permanent, long-term temporary, and unscheduled audiovisual records.
(1) General guidance. Keep all film in cold storage following guidance by the International Organization for Standardization in ISO 18911 (incorporated by reference, see § 1237.3). See also ISO 18920 (incorporated by reference, see § 1237.3).
(2) Color images and acetate-based media. Keep in an area maintained below 40 degrees Fahrenheit with 20–40% relative humidity to retard the fading of color images and the deterioration of acetate-based media.
(b) Digital images on magnetic tape. For digital images stored on magnetic tape, keep in an area maintained at a constant temperature range of 62 degrees Fahrenheit to 68 degrees Fahrenheit, with constant relative humidity from 35% to 45%. See also the recommendations in ISO 18923 (incorporated by reference, see § 1237.3); and the requirements for electronic records storage in 36 CFR 1236.28.
(c) Digital images on optical media. For permanent, long-term temporary, or unscheduled digital images maintained on optical media (e.g., CDs, DVDs), use the recommended storage temperature and humidity levels stated in ISO 18925 (incorporated by reference, see § 1237.3).

§ 1237.20 What are special considerations in the maintenance of audiovisual records?

Agencies must:
(a) Handle audiovisual records in accordance with commonly accepted industry practices.
(b) Protect audiovisual records, including those recorded on digital media or magnetic sound or video media, from accidental or deliberate alteration or erasure.
(c) If different versions of audiovisual productions (e.g., short and long versions or foreign-language versions) are prepared, keep an unaltered copy of each version for record purposes.
(d) Link audiovisual records with their finding aids, including captions.
and published and unpublished catalogs, inventories, indexes, and production files and similar documentation created in the course of audiovisual production. Establish and communicate agency-wide, clear captioning standards, procedures, and responsibilities.

e) Maintain current and accessible documentation identifying creators of audiovisual products, their precise relationship to the agency, and the nature and status of copyright or other rights affecting the present and future use of items acquired from sources outside the agency. (See §1222.32 of this subchapter for requirements to ensure agency ownership of appropriate contractor produced records.)

f) Create unique identifiers for all audiovisual records (e.g., for digital files, use file naming conventions), that clarify connections between related elements (e.g., photographic prints and negatives, or original edited masters and dubbing for video and audio recordings), and that associate records with the relevant creating, sponsoring, or requesting offices.

g) Maintain temporary and permanent audiovisual records separately.

h) Require that personnel wear white lint-free cotton (or other approved) gloves when handling film.

§ 1237.26 What materials and processes must agencies use to create audiovisual records?

Agencies must:

a) For picture negatives and motion picture preprints (negatives, masters, and all other copies) of permanent, long-term temporary, or unscheduled records, use polyester base media and process in accordance with industry standards as specified in ISO 18906 (incorporated by reference, see §1237.3).

1) Ensure that residual sodium thiosulfate (hypo) on newly processed black-and-white photographic film does not exceed 0.014 grams per square meter.

2) Require laboratories to process film in accordance with this standard. Process color film in accordance with the manufacturer’s recommendations.

3) If using reversal type processing, require full photographic reversal; i.e., develop, bleach, expose, develop, fix, and wash.

b) Avoid using motion pictures in a final “A & B” format (two precisely matched reels designed to be printed together) for the reproduction of excerpts or stock footage.

(c) Use only industrial or professional video and audio recording equipment,
new and previously unrecorded magnetic tape stock and blank optical media (e.g., DVD and CD), for original copies of permanent, long-term temporary, or unscheduled recordings. Limit the use of consumer formats to distribution or reference copies or to subjects scheduled for destruction. Avoid using videocassettes in the VHS format for use as originals of permanent or unscheduled records.

(d) Record permanent, long-term, temporary, or unscheduled audio recordings on optical media from major manufacturers. Avoid using cassettes as originals for permanent records or unscheduled records (although they may be used as reference copies).

(e) For born-digital or scanned digital images that are scheduled as permanent or unscheduled, a record (or master) version of each image must be comparable in quality to a 35 mm film photograph or better, and must be saved in Tagged Image File Format (TIFF) or JPEG File Interchange Format (JFIF, JPEG). For more detailed requirements on image format and resolution, see §1235.48(e) of this subchapter. For temporary digital photographs, agencies select formats that they deem most suitable for fulfillment of business needs.

§1237.28 What special concerns apply to digital photographs?

Digital photographs, either originating in digital form ("born-digital") or scanned from photographic prints, slides, and negatives, are subject to the provisions of this part and the requirements of 36 CFR part 1236, and NARA guidance for transfer of digital photographs located on the following NARA Web page—http://www.archives.gov/records-mgmt/initiatives/digital-photorecords.html. In managing digital photographs, agency and contractor personnel must:

(a) Schedule digital photographs and related databases as soon as possible for the minimum time needed for agency business and transfer the records promptly according to the disposition instructions on their records schedule.

(b) Select image management software and hardware tools that will meet long-term archival requirements, including transfer to the National Archives of the United States, as well as business needs. Additional information and assistance is available from the National Archives and Records Administration, Modern Records Program (NWM), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837-1738.

(c) When developing digital image storage strategies, build redundancy into storage systems, backing up image files through on-line approaches, offline, or combinations of the two. (See also electronic storage requirements in §1236.28 of this subchapter).

(d) For scanned digital images of photographic prints, slides, and negatives that are scheduled as permanent or unscheduled, document the quality control inspection process employed during scanning.

(1) Visually inspect a sample of the images for defects, evaluate the accuracy of finding aids, and verify file header information and file name integrity.

(2) Conduct the sample using a volume sufficiently large to yield statistically valid results, in accordance with one of the quality sampling methods presented in ANSI/AIIM TR34 (incorporated by reference, see §1237.3). (See also ISO 2859–1 (incorporated by reference, see §1237.3).)

(e) For born-digital images scheduled as permanent, long-term temporary, or unscheduled, perform periodic inspections, using sampling methods or more comprehensive verification systems (e.g., checksum programs), to evaluate image file stability, documentation quality, and finding aid reliability. Agencies must also establish procedures for refreshing digital data (re-copying) and file migration, especially for images and databases retained for five years or more.

(f) Designate a record set of images that is maintained separately from other versions. Record sets of permanent or unscheduled images that have already been compressed once (e.g., compressed TIFF or first-generation JPEG) must not be subjected to further changes in image size.

(g) Organize record images in logical series. Group permanent digital images separately from temporary digital images.
(h) Document information about digital photographic images as they are produced. For permanent or unscheduled images descriptive elements must include:

1. An identification number;
2. Information about image content;
3. Identity and organizational affiliation of the photographer;
4. Existence of any copyright or other potential restrictions on image use; and
5. Technical data including file format and version, bit depth, image size, camera make and model, compression method and level, custom or generic color profiles (ICC/ICM profile), and, where applicable, Exchangeable Image File Format (EXIF) information embedded in the header of image files by certain digital cameras.

(i) Provide a unique file name to identify the digital image.

(j) Develop finding aids sufficiently detailed to ensure efficient and accurate retrieval. Ensure that indexes, caption lists, and assignment logs can be used to identify and chronologically cut-off block of images for transfer to the NARA.

§ 1237.30 How do agencies manage records on nitrocellulose-base and cellulose-acetate base film?

(a) The nitrocellulose base, a substance akin to gun cotton, is chemically unstable and highly flammable. Agencies must handle nitrocellulose-base film (used in the manufacture of sheet film, 35 mm motion pictures, aerial and still photography into the 1950s) as specified below:

1. Remove nitrocellulose film materials (e.g., 35mm motion picture film and large series of still pictures) from records storage areas.
2. Notify the National Archives and Records Administration, Modern Records Program (NWM), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–1738, about the existence of nitrocellulose film materials for a determination of whether they may be destroyed or retained after a copy is made by the agency for transfer to NARA. If NARA appraises nitrate film materials as disposable and the agency wishes to retain them, the agency must follow the standard NFPA 40–2007 (incorporated by reference, see §1237.3).

3. Follow the packing and shipping of nitrate film as specified in Department of Transportation regulations (49 CFR 172.101, Hazardous materials table; 172.504, Transportation; 173.24, Standard requirements for all packages; and 173.177, Motion picture film and X-ray film—nitrocellulose base).

(b) Agencies must inspect cellulose-acetate film periodically for an acetic odor, wrinkling, or the presence of crystalline deposits on the edge or surface of the film that indicate deterioration. Agencies must notify the National Archives and Records Administration, Modern Records Program (NWM), 8601 Adelphi Road, College Park, MD 20740, phone number (301) 837–1738, immediately after inspection about deteriorating permanent or unscheduled audiovisual records composed of cellulose acetate so that they can be copied by the agency prior to transfer of the original and duplicate film to NARA.

(c) American National Standards Institute (ANSI) and International Organization for Standards (ISO) standards. The following ANSI and ISO standards are available from the American National Standards Institute, 25 West 43rd St., 4th Floor, New York, NY 10036, phone number (212) 642–4900, or online at http://webstore.ansi.org.

§ 1238.10 What are the format standards for microfilming records?

The following formats must be used when microfilming records:

(a) Roll film—(1) Source documents.

The formats described in ANSI/AIIM MS14 (incorporated by reference, see §1238.5) must be used for microfilming source documents on 16mm and 35mm roll film. A reduction ratio no greater than 1:24 is recommended for correspondence or similar typewritten documents. Use ANSI/AIIM MS23 (incorporated by reference, see §1238.5) for the appropriate reduction ratio and format for meeting image quality requirements. When microfilming on 35mm film for aperture card applications, the format dimensions in ANSI/AIIM MS32 (incorporated by reference, see §1238.5), Table 1 must be used, and the aperture card format “D Aperture” shown in ANSI/AIIM MS45 (incorporated by reference, see §1238.5), Figure 1, must be used. The components of the aperture card, including the paper and adhesive, must conform to the requirements of ANSI/PIMA IT5.2 (incorporated by reference, see §1238.5). The 35mm film used in the aperture card application must conform to film designated as LE 500 in ISO 18901 (incorporated by reference, see §1238.5).

(b) COM. Microfilm created using computer output microfilm (COM) technology must use the simplex mode described in ANSI/AIIM MS14 (incorporated by reference, see §1238.5) at an...
effective ratio of 1:24 or 1:48 depending upon the application.

(b) Microfiche. When creating microfiche, either by microfilming source documents or using COM technology, the formats and reduction ratios prescribed in ANSI/AIIM MS5 (incorporated by reference, see §1238.5) must be used as specified for the size and quality of the documents being filmed. Use ANSI/AIIM MS23 (incorporated by reference, see §1238.5) for determining the appropriate reduction ratio and format for meeting the image quality requirements.

(c) Index placement—(1) Source documents. When microfilming source documents, place indexes, registers, or other finding aids, if microfilmed, either in the first frames of the first roll of film or in the last frames of the last roll of film of a series. For microfiche, place the indexes in the last frames of the last microfiche or microfilm jacket of a series.

(2) COM. Place indexes on COM following the data on a roll of film, in the last frames of a single microfiche, or in the last frames of the last fiche in a series. Other locations for indexes may be used only if dictated by special system constraints.

§ 1238.12 What documentation is required for microfilmed records?

Agencies must ensure that the microforms capture all information contained on the source documents and that they can be used for the purposes the source documents served. Microform records must be labeled and organized to support easy retrieval and use. Agencies must:

(a) Arrange, describe, and index the filmed records to permit retrieval of any particular document or component of the records.

(b) Title each microform roll or fiche with a titling target or header. For fiche, place the titling information in the first frame if the information will not fit on the header. At a minimum, titling information must include:

(1) The title of the records;

(2) The number or identifier for each unit of microform;

(3) The security classification, if any; and

(4) The name of the agency and suborganization, the inclusive dates, names, or other data identifying the records to be included on a unit of microform.

(c) Add an identification target showing the date of microfilming. When necessary to give the microform copy legal standing, the target must also identify the person who authorized the microfilming. Use ANSI/AIIM MS19 (incorporated by reference, see §1238.5) for standards for identification targets.

§ 1238.14 What are the microfilming requirements for permanent and unscheduled records?

(a) Agencies must apply the standards in this section when microfilming:

(1) Permanent paper records where the original paper record will be destroyed (only after authorization from NARA);

(2) Unscheduled paper records where the original paper record will be destroyed (only after authorization from NARA); and

(3) Permanent and unscheduled original microform records (no paper originals) produced by automation, such as COM.

(b) Agencies must use polyester-based silver gelatin type film that conforms to ISO 18901 (incorporated by reference, see §1238.5) for LE 500 film in all applications.

(c) Agencies must process microforms so that the residual thiosulfate ion concentration will not exceed 0.014 grams per square meter in accordance with ISO 18901 (incorporated by reference, see §1238.5) and use the processing procedures in ANSI/AIIM MS1 and ANSI/AIIM MS23 (both incorporated by reference, see §1238.5).

(d) Agencies must use the following standards for quality:

(1) Resolution—(1) Source documents. Agencies must determine minimum resolution on microforms of source documents using the method in the Quality Index Method for determining resolution and anticipated losses when duplicating, as described in ANSI/AIIM MS23 and ANSI/AIIM MS43 (both incorporated by reference, see §1238.5). Agencies must perform resolution tests using an ANSI/ISO 3334 Resolution Test Chart (incorporated by reference, see
§ 1238.16 What are the microfilming requirements for temporary records, duplicates, and user copies?

(a) Temporary records with a retention period over 99 years. Agencies must use the microfilming requirements in §1238.14.

(b) Temporary records to be kept for less than 99 years, duplicates, and user copies. NARA does not require the use of specific standards for these microforms. Agencies may select a film stock that meets their needs and ensures the preservation of the microforms for their full retention period. NARA recommends that agencies consult appropriate standards, available as noted in §1238.3, and manufacturer’s instructions for processing production, and

(ii) COM. COM must meet the requirements of ANSI/AIIM MS1 (incorporated by reference, see §1238.5). The densitometer must meet with ANSI/NAPM IT2.18 (incorporated by reference, see §1238.5) for spectral conditions and ANSI/NAPM IT2.19 (incorporated by reference, see §1238.5) for geometric conditions for transmission density.

(i) Recommended visual diffuse transmission background densities for images of documents are as follows:

\(^1\) Character or line density, measured with a microdensitometer or by comparing the microfilm under a microscope with an image of a known density.

(3) Base plus fog density of microfilms. The base plus fog density of unexposed, processed microfilms must not exceed 0.10. When a tinted base film is used, the density will be increased. The difference must be added to the values given in the tables in paragraph (d)(2) of this section.

(4) Line or stroke width. Due to optical limitations in most micrographic systems, microfilm images of thin lines appearing in the source documents will tend to fill in as a function of their width and density. Therefore, as the reduction ratio of a given system is increased, reduce the background density as needed to ensure that the copies will be legible.

maintenance of microform to ensure that the images are accessible and usable for the entire retention period of the records.

Subpart C—Storage, Use, and Disposition of Microform Records

§ 1238.20 How must microform records be stored?

(a) Permanent and unscheduled records. Agencies must store permanent and unscheduled microform records under the extended term storage conditions specified in ISO 18911 and ANSI/PIMA IT9.2 (both incorporated by reference, see §1238.5), except that the relative humidity of the storage area must be a constant 35 percent RH, plus or minus 5 percent. Non-silver copies of microforms must be maintained in a different storage area than are silver gelatin originals or duplicate copies.

(b) Temporary records. Agencies must store temporary microform records under conditions that will ensure their preservation for their authorized retention period. NARA suggests that agencies may consult Life Expectance (LE) guidelines in ISO 18901 (incorporated by reference, see §1238.5).

§ 1238.22 What are the inspection requirements for permanent and unscheduled microform records?

(a) Agencies must inspect, or arrange for a contractor or NARA to inspect master microform of permanent or unscheduled records following the inspection requirements in paragraph (b) of this section.

(b) The microforms listed in paragraph (a) of this section must be inspected initially in accordance with ANSI/AIIM MS45 (incorporated by reference, see §1238.5). All microforms must be inspected when they are two years old. After the initial two-year inspection, unless there is a catastrophic event, the microforms must be inspected as follows until they are transferred to NARA:

(1) For microfilm produced after 1990, inspect the microfilm every 5 years.

(2) For microfilm produced prior to 1990, inspect the microfilm every 2 years.

(c) To facilitate inspection, the agency must maintain an inventory that lists each microform series or publication by production date, producer, processor, format, and results of previous inspections.

(d) The inspection must include the following elements:

(1) An inspection for aging blemishes following ANSI/AIIM MS45 (incorporated by reference, see §1238.5);

(2) A rereading of resolution targets;

(3) A remeasurement of density; and

(4) A certification of the environmental conditions under which the microforms are stored, as specified in §1238.20(a).

(e) The agency must prepare an inspection report, and send a copy to NARA in accordance with §1238.28(c). The inspection report must contain:

(1) A summary of the inspection findings, including:

(i) A list of batches by year that includes the identification numbers of microfilm rolls and microfiche in each batch;

(ii) The quantity of microforms inspected;

(iii) An assessment of the overall condition of the microforms;

(iv) A summary of any defects discovered, e.g., redox blemishes or base deformation; and

(v) A summary of corrective actions taken.

(2) A detailed inspection log created during the inspection that contains the following information:

(i) A complete description of all records inspected (title; roll or fiche number or other unique identifier for each unit of film inspected; security classification, if any; and inclusive dates, names, or other data identifying the records on the unit of film);

(ii) The date of inspection;

(iii) The elements of inspection (see paragraph (d) of this section);

(iv) Any defects uncovered; and

(v) The corrective action taken.

(f) If an inspection finds that a master microform is deteriorating, the agency must make a silver duplicate in accordance with §1238.14 to replace the deteriorating master. The duplicate microform must meet inspection requirements (see §1238.22) before it may be transferred to a record center or NARA.
National Archives and Records Administration

(g) Inspections must be conducted in environmentally controlled areas in accordance with ANSI/AIIM MS45 (incorporated by reference, see §1238.5).

§ 1238.24 What are NARA inspection requirements for temporary microform records?

NARA recommends, but does not require, that agencies use the inspection procedures described in §1238.22(a).

§ 1238.26 What are the restrictions on use for permanent and unscheduled microform records?

(a) Agencies must not use the silver gelatin master microform or duplicate silver gelatin microform of permanent or unscheduled records created in accordance with §1238.14 of this part for reference purposes. Agencies must ensure that the master microform remains clean and undamaged during the process of making a duplicating master.

(b) Agencies must use duplicates for:
(1) Reference;
(2) Further duplication on a recurring basis;
(3) Large-scale duplication; and
(4) Distribution of records on microform.

(c) Agencies retaining the original record in accordance with an approved records disposition schedule may apply agency standards for the use of microform records.

§ 1238.28 What must agencies do when sending permanent microform records to a records storage facility?

Agencies must:
(a) Follow the procedures in part 1232 of this chapter and the additional requirements in this section.

(b) Package non-silver copies separately from the silver gelatin original or silver duplicate microform copy and clearly label them as non-silver copies.

(c) Include the following information on the transmittal (SF 138 for NARA Federal Records Centers), or in an attachment to the transmittal. For records sent to an agency records center or commercial records storage facility, submit this information to NARA as part of the documentation required by §1232.14 of this subchapter:
(1) Name of the agency and program component;
(2) The title of the records and the media and format used;
(3) The number or identifier for each unit of microform;
(4) The security classification, if any;
(5) The inclusive dates, names, or other data identifying the records to be included on a unit of microform;
(6) Finding aids that are not contained in the microform; and
(7) The inspection log forms and inspection reports required by §1238.22(e).

(d) Agencies may transfer permanent microform records to a records storage facility meeting the storage requirements in §1232.14(a) (see §1233.10 of this subchapter for NARA Federal Records Centers) of this subchapter only after the first inspection or with certification that the microforms will be inspected by the agency, a contractor, or a NARA Federal Records Center (on a reimbursable basis) when the microforms become 2 years old.

§ 1238.30 What must agencies do when transferring permanent microform records to the National Archives of the United States?

Agencies must:
(a) Follow the procedures in part 1235 of this subchapter and the additional requirements in this section.

(b) If the records are not in a NARA Federal Records Center, submit the information specified in §1232.14(c) of this subchapter.

(c) Transfer the silver gelatin original (or duplicate silver gelatin microform created in accordance with §1238.14) plus one microform copy.

(d) Ensure that the inspections of the microforms are up-to-date. NARA will not accession permanent microform records until the first inspection has been performed (when the microforms are 2 years old).

(e) Package non-silver copies separately from the silver gelatin original or silver duplicate microform copy and clearly label them as non-silver copies.

§ 1238.32 Do agencies need to request NARA approval for the disposition of all microform and source records?

(a) Permanent or unscheduled records. Agencies must schedule both source
documents (originals) and microforms. NARA must approve the schedule, SF 115, Request for Records Disposition Authority, in accordance with part 1225 of this subchapter before any records, including source documents, may be destroyed.

(1) Agencies that comply with the standards in §1238.14 must include on the SF 115 the following certification: “This certifies that the records described on this form were (or will be) microfilmed in accordance with the standards set forth in 36 CFR part 1238.”

(2) Agencies using microfilming methods, materials, and procedures that do not meet the standards in §1238.14 must include on the SF 115 a description of the system and standards used.

(3) When an agency intends to retain the silver original microforms of permanent records and destroy the original records, the agency must certify in writing on the SF 115 that the microform will be stored in compliance with the standards of §1238.20 and inspected as required by §1238.22.

(b) Temporary records. Agencies do not need to obtain additional NARA approval when destroying scheduled temporary records that have been microfilmed. The same approved retention period for temporary records is applied to microform copies of these records. The original records can be destroyed once microfilm is verified, unless legal or other requirements prevent their early destruction.

PART 1239—PROGRAM ASSISTANCE AND INSPECTIONS

Subpart A—General

§1239.1 What is the scope of this part?

NARA’s statutory authorities include assisting agencies in carrying out their records management responsibilities and, when necessary, inspecting agency programs and reporting to Congress on those inspections. Part 1239 identifies the types of records management guidance and program assistance NARA provides to agencies under its 44 U.S.C. chapter 29 mandate; the conditions under which NARA will invoke its inspection authority, also under chapter 29; and the requirements for agencies to cooperate fully in such inspections.

§1239.2 What are the authorities for part 1239?

The authorities for this part are 44 U.S.C. 2904 and 2906.

§1239.3 What definitions apply to this part?

(a) See §1220.18 of this subchapter for definitions of terms used in part 1239.

(b) As used in part 1239—

Inspection means a formal review and report by NARA under 44 U.S.C. 2904(c) and 2906(a) of an agency’s record-keeping processes that focus on significant records management problems affecting records at risk that meet one or more of the following criteria:

(1) Have a direct and high impact on legal rights or government accountability;

(2) Are the subject of high profile litigation, Congressional attention, or widespread media coverage;

(3) Have high research potential; or

(4) Are permanent records with a large volume, regardless of format.
§ 1239.4 What standards are used as guidance for this part?

These regulations conform with guidance provided in ISO 15489–1:2001. Paragraphs 7.1, Principles of records management programmes, and 10, Monitoring and auditing, apply to this part.

Subpart B—Program Assistance

§ 1239.10 What program assistance does NARA provide?

(a) NARA publishes handbooks, conducts workshops and other training sessions, and furnishes information and guidance to Federal agencies about the creation of records, their maintenance and use, and their disposition. NARA also may conduct a targeted assistance project in cooperation with an agency to address a serious records management issue in the agency.

(b) Information on NARA handbooks and guidance is available at http://www.archives.gov/records-mgmt/.

(c) Information on NARA training is available at http://www.archives.gov/records-mgmt/training/.

§ 1239.12 Whom may agencies contact to request program assistance?

Agencies in the Washington, DC, area desiring information or assistance related to any of the areas covered by subchapter B may contact the National Archives and Records Administration, Life Cycle Management Division (NWML), 8601 Adelphi Rd., College Park, MD 20740–6001, phone number 301–837–1738. Agency field organizations may contact the appropriate NARA Regional Administrator regarding records management assistance, including for records in or scheduled for transfer to the records center or the archival operations within the region.

Subpart C—Inspections

§ 1239.20 When will NARA undertake an inspection?

NARA may undertake an inspection when an agency fails to address specific records management problems involving high risk to significant records. Problems may be identified through a risk assessment or through other means, such as reports in the media, Congressional inquiries, allegations of unauthorized destruction, reports issued by the GAO or an agency’s Inspector General, or observations by NARA staff members. Inspections will be undertaken when other NARA program assistance efforts (see §1239.10) have failed to mitigate situations where there is a high risk of loss of significant records, or when NARA agrees to a request from the agency head that NARA conduct an inspection to address specific significant records management issues in the agency. NARA reports to Congress and the Office of Management and Budget on inspections in accordance with 44 U.S.C. 2904.

§ 1239.22 How does NARA notify the agency of the inspection?

(a) Once NARA identifies the need to conduct an agency inspection, the Archivist of the United States sends a letter to the head of the agency. If the agency being inspected is a component of a cabinet department, the letter will be addressed to the head of the component, with a copy sent to the head of the department. NARA will also send copies to the agency’s records officer. The letter will include:

(1) Notification that NARA intends to conduct an inspection, the records that will be inspected, and the issues to be addressed;

(2) A beginning date for the inspection that is no more than 30 days after the date of the letter; and

(3) A request that the agency appoint a point of contact who will assist NARA in conducting the inspection.

(b) If the agency does not respond to NARA’s notification letter, NARA will use its statutory authority under 44 U.S.C. 2904(c)(8) to report the matter to the agency’s congressional oversight committee and to the Office of Management and Budget.

§ 1239.24 How does NARA conduct an inspection?

(a) The NARA inspection team leader will coordinate with the agency point of contact to arrange an initial meeting with the agency. The initial meeting will address such matters as the parameters of the inspection, any surveys or other inspection instruments, the
§ 1239.26 What are an agency's follow up obligations for an inspection report?

The agency must submit a plan of corrective action that specifies how the agency will address each inspection report recommendation, including a timeline for completion, and proposed progress reporting dates. The agency must submit the plan of corrective action to NARA within 60 days of transmission of the final report. NARA may take up to 60 days to review and comment on the plan. Once the plan is agreed upon by both sides, agencies must submit progress reports to NARA until all actions are completed.

Subpart A—General Information About Freedom of Information Act (FOIA) Requests

SOURCE: 79 FR 56504, Sept. 22, 2014, unless otherwise noted.

§ 1250.1 Scope of this part.

This part implements the provisions of the Freedom of Information Act (FOIA), 5 U.S.C. 552, as amended, for NARA operational records and archival records that are subject to FOIA. This part contains the rules that we follow to process FOIA requests, such as the amount of time we have to make a determination regarding the release of records and what fees we may charge. Other NARA regulations in 36 CFR parts 1254 through 1275 provide detailed guidance for conducting research at NARA.

§ 1250.2 Presumption of Openness and Proactive Disclosures.

NARA, consistent with its core mission, has always been committed to providing public access to as many of our records as possible. We therefore continue to affirmatively release and post records, or descriptions of such records, on our Web site at www.archives.gov in the absence of any FOIA request. We proactively identify and make discretionary disclosures of additional records of interest to the public whenever possible.
§ 1250.3 Definitions.

The following definitions apply to this part:

(a) Archival records means permanently valuable records of the United States Government that have been transferred to the legal custody of the Archivist of the United States. These are historical documents and do not include NARA operational records as defined in paragraph (l) of this section.

(b) Commercial use request means a request that asks for information for a use or purpose that furthers a commercial, trade, or profit interest of the requester or the person or entity on whose behalf the request is made.

(c) Confidential commercial information means records provided by a submitter that may contain trade secrets or confidential business or financial information that is exempt from release under the FOIA because disclosure could reasonably be expected to cause the submitter substantial competitive harm.

(d) Educational institution request means a request made by a school, university, or other educational institution that operates a program of scholarly research. To qualify for this category, a requester must show that the request is authorized by, and is made under the auspices of, a qualifying institution and that the records are sought to further scholarly research, not for a commercial use.

(e) Expedited processing means the process set forth in the FOIA that allows requesters to ask for faster processing of their FOIA request if they can demonstrate a specific compelling need.

(f) Fee category means one of the four categories set forth in the FOIA to determine whether a requester will be charged fees for search, review, and duplication. The categories are: Commercial requesters; non-commercial scientific or educational institutions; news media requesters; and all other requesters.

(g) Fee waiver means the waiver or reduction of fees if a requester is able to demonstrate that certain standards set forth in the FOIA are satisfied, including that the information is in the public interest and is not requested for a commercial interest.

(h) FOIA Public Liaison means an agency official who is responsible for assisting in reducing delays, increasing transparency and understanding of the status of requests, and assisting in the resolution of disputes.

(i) FOIA request means a written request, that cites the Freedom of Information Act, for access to NARA operational records, records of the executive branch of the Federal Government held by NARA, or Presidential or Vice Presidential records in NARA’s custody that were created after January 19, 1981.

(j) Freedom of Information Act (FOIA) means the law codified at 5 U.S.C. 552 that provides the public with the right to request Government records from Federal executive branch agencies.

(k) Non-commercial scientific institution request means a request submitted by an institution that is not operated on a basis that furthers the commercial, trade, or profit interests of any person or organization, and which is operated solely for the purpose of conducting scientific research.

(l) Operational records means records that NARA creates or receives in carrying out our mission and responsibilities as an executive branch agency. This does not include archival records as defined in paragraph (a) of this section.

(m) Original Classification Authority means the authority to classify information as National Security Information at creation, as granted by the President of the United States in Executive Order 13526, section 1.3, and defined in 32 CFR part 2001.

(n) Other request means a request submitted by any individual whose request does not qualify as a commercial-use request, representative of the news media request (including a request made by a freelance journalist), or an educational or non-commercial scientific institution request.

(o) Presidential records means the official Presidential and Vice Presidential records created or received by the President, the Vice President, or the White House staff since January 20, 1981, and covered under the Presidential Records Act, 44 U.S.C. 2201–2207. Presidential Executive orders also apply to these records.
(p) **Presidential Records Act** (PRA) means the law that, in part, governs access to Presidential and Vice Presidential records and is codified at 44 U.S.C. 2201–2207 and Part 1270 of these regulations. The PRA contains six restrictions that authorize NARA to withhold information, which apply for 12 years after a President leaves office. Four of the PRA restrictions are identical to FOIA Exemptions 1, 3, 4, and 6. Two relate to appointments to Federal office and confidential communications requesting or submitting advice between the President and his advisers, or between and among such advisers. The PRA also excludes application of FOIA Exemption 5.

(q) **Representative of the news media** means a person or entity that is organized and operated to publish or broadcast news to the public, and that actively gathers information of potential interest to a segment of the public, uses its editorial skills to turn raw materials into a distinct work, and distributes that work to an audience. The term “news” means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations that broadcast news to the public at large and publishers of periodicals, including print and online publications that disseminate news and make their products available through a variety of means to the general public. We consider requests for records that support the news-dissemination function of the requester to be a non-commercial use. We consider “freelance” journalists who demonstrate a solid basis for expecting publication through a news media entity as working for that entity. A publishing contract provides the clearest evidence that a journalist expects publication; however, we also consider a requester’s past publication record. We decide whether to grant a requester media status on a case-by-case basis, based on the requester’s intended use.

(r) **Review** means examining documents responsive to a request to determine whether any portions of them are exempt from disclosure. Review time includes processing any record for disclosure (i.e., doing all that is necessary to prepare the record for disclosure), including redacting the record and marking the appropriate FOIA exemptions.

(s) **Search** means the process of looking for and retrieving records or information responsive to a request. It also includes reasonable efforts to locate and retrieve information from records maintained in electronic form or format.

(t) **Submitter** means any person or entity providing potentially confidential commercial information to an agency, which information may be subject to a FOIA request. The term submitter includes, but is not limited to, individuals, corporations, state governments, and foreign governments.

§ 1250.4 Who can file a FOIA request?

Any individual, partnership, corporation, association, or public or private organization other than a Federal agency, regardless of nationality, may file a FOIA request with NARA. The Administrative Procedure Act, 5 U.S.C. 551(2), excludes Federal agencies from filing FOIA requests. However, state and local governments may file FOIA requests.

§ 1250.6 Does the FOIA apply to all of the records at NARA?

No, the FOIA applies only to the records of the executive branch of the Federal Government and certain Presidential and Vice Presidential records:

§ 1250.8 Does NARA provide access under FOIA to all the executive branch records housed at NARA facilities?

(a) NARA provides access under FOIA to the records NARA creates (operational records) and records originating in the executive branch that have been transferred to the legal custody of the Archivist of the United States (archival records).

(b) NARA’s National Personnel Records Center (NPRC), located in St. Louis, Missouri, is the repository for twentieth-century personnel and medical records of former members of the military and personnel records of former civilian employees of the Federal Government.

(1) Those official personnel and medical files that have been transferred to NARA’s legal custody, which occurs 62 years after the date of an employee’s or veteran’s separation from Federal service, are processed by NARA according to this part, at §§1250.20 through 1250.32.

(2) Those personnel and medical records that remain in the legal custody of the agencies that created them are governed by the FOIA and other access regulations of the originating agencies, which the NPRC processes under authority delegated by the originating agencies, not under the provisions of this part. Because of the intricacies of other agencies’ FOIA regulations, further explanation here is not feasible. More information about the NPRC processes, including access to NPRC records, is available on NARA’s Web site at http://www.archives.gov/st-louis/military-personnel/ and at http://www.archives.gov/st-louis/civilian-personnel.

(c) NARA’s Federal records centers store records that agencies no longer need for day-to-day business. These records remain in the legal custody of the agencies that created them. Requests for access to another agency’s records in a NARA Federal records center should be made directly to the originating agency. We do not process FOIA requests for these records.

(d) If your FOIA request includes a record in the legal custody of an originating agency, we forward that request to the originating agency for processing. We also provide you with notification that we have done so and with contact information for the originating agency. (See 36 CFR 1256.2 for more information about how to access records that are stored in Federal records centers.)

§ 1250.10 Do I need to use FOIA to gain access to records at NARA?

(a) Most archival records held by NARA have no restrictions to access and are available to the public for research without filing a FOIA request. You may either visit a NARA facility as a researcher to view and copy records or you may write to request copies of specific records. (See subpart B of 36 CFR part 1256 for more information about how to access archival records).

(b) If you are seeking access to archival records that are not yet available to the public, you need to file a FOIA request. (See 36 CFR 1256.22 for information on how to request access to restricted archival records. See paragraph (d) of this section, and part 1260, for additional procedures on access to classified records.)

(c) You must also file a FOIA request when you request access to NARA operational records (records NARA creates) that are not already available to the public.

(d) If you are requesting records that you know are classified to protect national security interests, you may wish to use the Mandatory Declassification Review process, which is set forth at 36 CFR 1260.70. (Please see NARA’s FOIA Guide, available online at http://www.archives.gov/foia/foia-guide.html, for the differences between the FOIA
§ 1250.12 What types of records are available in NARA’s FOIA library?

(a) We make available certain materials (listed in the FOIA) for public inspection and copying in both our physical FOIA Library as well as on NARA’s Web site, available at http://www.archives.gov/foia/electronic-reading-room.html.

(b) The materials provided through NARA’s FOIA Library include:

1. Final NARA orders;
2. Written statements of NARA policy which are not published in the Federal Register;
3. Operational staff manuals and instructions to staff that affect members of the public;
4. At our discretion, copies of operational records requested three or more times under FOIA and other records that have been, or are likely to become, the subject of subsequent FOIA requests for substantially the same records;
5. An index, updated quarterly, to these materials; and
6. FOIA logs including opening and closing date, requester’s and organization’s name, description of the records, and final disposition.

(c) You may inspect and copy these materials during normal working hours at the NARA facility where the records are located. See 36 CFR part 1253 and NARA’s Web site at http://www.archives.gov/ for locations and research room procedures.

(d) You may also access much of these materials on the NARA Web site. Any of these materials created after October 31, 1996, are on NARA’s Web site at http://www.archives.gov/foia/electronic-reading-room.html.

(e) For a paper copy of the index to these online materials, write to: NARA FOIA Officer (NGC); Room 3110; National Archives and Records Administration; 8601 Adelphi Road; College Park, MD 20740–6001.

§ 1250.14 Preservation of FOIA-related records.

Each NARA component preserves all correspondence pertaining to the requests that it receives under this part, as well as copies of all requested records, until Title 44 of the United States Code or NARA’s General Records Schedule 14 authorizes disposition or destruction. Records will not be disposed of while they are the subject of a pending request, appeal, or lawsuit under the FOIA.

Subpart B—How To Request Records Under FOIA

§ 1250.20 What do I include in my FOIA request?

In your FOIA request:

(a) Describe the records you seek in sufficient detail to enable NARA staff to locate them with a reasonable amount of effort. The more information you provide, the better possibility NARA has of finding the records you are seeking. Information that will help NARA find the records includes:

1. The agencies, offices, or individuals involved;
2. The approximate date(s) when the records were created;
3. The subject, title, or description of the records sought; and
4. Author, recipient, case number, file designation, or reference number.

(b) Include your name and full mailing address as well as phone number and email address. This information allows us to reach you faster if we have any questions about your request. It is your responsibility to keep your current mailing address up to date with the office where you have filed the FOIA request.

(c) If you request records about yourself, you must do so in accordance with the Privacy Act and our implementing regulations at 36 CFR part 1202. This includes requirements to verify your identity (see 36 CFR 1202.40). If you request records about someone other than yourself, you may receive greater access if you submit either a notarized document signed by the other person that certifies their identity and gives their permission for you to have access, or proof that the other person is deceased (e.g., a copy of a death certificate or an obituary). NARA may, at its discretion, require you to supply additional information if necessary to verify that a particular individual has
§ 1250.22 Where do I send my FOIA request?

(a) NARA has several FOIA Customer Service Centers that process FOIA requests. You should send your FOIA request to the appropriate FOIA Customer Service Center that you believe would have the records you seek:

(b) NARA officially receives your request when it reaches the proper office's FOIA staff, but no later than 10 working days after the request first arrives at one of the offices in the table above. Receipt by the appropriate office initiates the time period for responding to your request (see 36 CFR 1250.26).

(c) If you have questions concerning the processing of your FOIA request, you may contact the designated FOIA Customer Service Center for the facility processing your request. If that initial contact does not resolve your concerns, you may wish to contact the designated FOIA Public Liaison for the facility processing your request. You can find a list of NARA's FOIA Customer Service Centers and Public Liaisons at http://www.archives.gov/foia/contacts.html.

§ 1250.24 Does NARA accept electronic FOIA requests?

Yes. You may submit and track requests for NARA operational records through the FOIAonline program, accessible at https://foiaonline.regulations.gov, or by sending an email to FOIA@nara.gov. The body of the message must contain all of the information listed in 36 CFR 1250.20. You may also file a FOIA request by emailing your request to the offices listed in the table at 36 CFR 1250.22.

§ 1250.26 How does NARA process my FOIA request?

(a) Acknowledgement. NARA acknowledges all FOIA requests in writing within 20 working days after receipt by the appropriate office (see 36 CFR 1250.22). The acknowledgement letter or email informs you of your request tracking number, and any complexity...
in processing that may lengthen the time NARA requires to reach a final decision on the release of the records. The acknowledgement letter or email may also seek additional information to clarify your request or to ask you to narrow the scope of a very large or broad request.

(b) Clarification of requests. Requests must reasonably describe the records sought. If we determine that a request does not reasonably describe the records sought, or if we are uncertain about another aspect of the request, we contact you to ask for clarification.

(c) Search cut-off date. As the end or cut-off date for a records search, NARA uses the date on which we first begin our search for documents responsive to your request, unless you specify an earlier cut-off date. This includes those cases when you request records “through the present,” “through today,” or similar language. If NARA uses any other search end date, we inform you of that date.

(d) Stops in processing time, clarification requests, and administrative closure. NARA may stop the clock for processing a request one time in order to seek your clarification. In such a case, the processing time resumes upon our receipt of your response. We provide at least 60 calendar days for you to respond to a request for clarification. If you do not clarify the request within 60 calendar days, we deny the request for not reasonably describing the records sought and provide you with the opportunity to appeal under the procedures in Subpart D. Should you not answer any correspondence, or should the correspondence be returned as undeliverable, NARA reserves the right to administratively close the FOIA request 60 calendar days after the date of the last correspondence we send.

(e) Confidential commercial information. If you have requested records containing confidential commercial information, refer to 36 CFR 1250.82 for information on how we process that request.

(f) Processing queues. NARA places FOIA requests in simple or complex processing queues to be processed in the order received, on a first-in, first-out basis. In most cases, we make a determination about release of the records you requested within 20 working days from when the appropriate office receives your request (simple queue processing). However, if complexity or unusual circumstances prevent NARA from making a decision within 20 working days, we place your request into a complex processing queue. This way, such cases do not hold up the processing of other requests that do not include such time-consuming factors. We notify you of complicating factors in our acknowledgement letter or email, and you may choose to limit the scope of your request to convert the complex processing queue request to a simple processing queue request. For more detailed information on NARA’s multi-track processing queues, see our FOIA Guide at [http://www.archives.gov/foia-guide.html](http://www.archives.gov/foia-guide.html) (for a paper copy, see 36 CFR 1250.20(d)).

(g) Complex processing queue factors. We place into a complex processing queue any request that cannot be completed within 20 working days due to complexity, volume, because it contains national security information, because it involves Presidential or Vice Presidential records, or involves unusual circumstances. Unusual circumstances include the need to:

1. Search for and collect the records from one or more field facilities;
2. Search for, collect, and review a voluminous amount of records that are part of a single request;
3. Consult with another Federal agency before releasing records;
4. Refer records to another Federal agency for declassification.

(h) Complex processing schedule. If NARA needs to extend the deadline for more than an additional 10 working days due to the complexity of a request or as a result of unusual circumstances, we ask if you wish to modify your request so that we can answer the request sooner. If you do not wish to modify your request, we work with you to arrange an alternative schedule for review and release.

(i) Complex processing: National security declassification and release. NARA does not have the authority to declassify and release records containing national security information, without the approval of the agencies that have
Original Classification Authority for the information contained in the records. We send copies of the documents to the appropriate originating Federal agencies for declassification review. We also send you an initial response to your FOIA request within 20 working days, informing you of this consultation with, or referral to, another Federal agency, except to the extent that the association with the other agency may itself be classified. Upon your request, we provide you an estimated date of completion.

(j) Complex processing: Presidential or Vice Presidential records. If you request Presidential or Vice Presidential records and we determine that the records are not subject to any applicable FOIA or Presidential Records Act (PRA) exemption (and can therefore be released), we must notify the current and former President(s) or Vice President(s) of our intention to disclose information from those records. After receiving the notice, the current and former President(s) and Vice President(s) have a period of time (as set out in the applicable Executive order on implementation of the PRA) in which to choose whether to invoke Executive Privilege to deny access to the requested information. Although we send you an initial status response to your FOIA request within 20 working days in these cases, the final response to your FOIA request will take longer. We can provide the final response only at the end of the Presidential notification period set forth in the Executive order.

§ 1250.28 How do I request expedited processing?

(a) NARA processes requests and appeals on an expedited basis whenever we determine that one or more of the following criteria exist:

1. A reasonable expectation of an imminent threat to an individual’s life or physical safety;
2. A reasonable expectation of an imminent loss of a substantial due process right;
3. An urgent need to inform the public about an actual or alleged Federal Government activity (this criterion applies only to those requests made by a person primarily engaged in disseminating information to the public); or
4. A matter of widespread and exceptional media interest in which there exist possible questions that affect public confidence in the Government’s integrity.

(b) NARA can expedite requests, or segments of requests, only for records over which we have control. If NARA must refer a request to another agency, we will inform you and suggest that you seek expedited review from that agency. NARA cannot expedite the review of classified records nor can we shorten the Presidential notification period described in 36 CFR 1250.26(j).

(c) To request expedited processing, you must submit a statement, certified to be true and correct, explaining the
basis for your need for expedited processing. You must send the request to the appropriate official at the address listed in §1250.22 of this subpart. You may request expedited processing when you first request records or at any time during NARA’s processing of your request or appeal.

(d) We will respond to your request for expedited processing within 10 calendar days of our receipt of your request to expedite. If we grant your request, the NARA office responsible for the review of the requested records will process your request as a priority, and it will be processed as soon as practicable. We will inform you if we deny your request for expedited processing. If you decide to appeal that denial, we will expedite our review of your appeal.

§ 1250.30 How does NARA respond to my request?

(a) NARA sends you a response informing you of our release determination, including whether any responsive records were located, how much responsive material was located, whether the records have been released in full or withheld in full or in part, where you may review the records, and any fees you must pay for the request. We will use plain language in all written communications with requesters.

(b) If we deny any part of your request, our response will explain the reasons for the denial, which FOIA exemptions apply to withhold records, and your right to appeal that determination.

(c) NARA may withhold records in full or in part if any of the nine FOIA exemptions apply. NARA withholds information only where disclosure is prohibited by law (such as information that remains classified, or information that is specifically exempt by statute) or where we reasonably foresee that disclosure would cause harm to an interest protected by one of the FOIA exemptions. If we must withhold part of a record, we provide access to the rest of the information in the record. On the released portion of the record, we indicate the amount of information we redacted and the exemption(s) we applied, unless including that indication would harm an interest the exemption protects. NARA may also determine that a request does not reasonably describe the records sought; the information requested is not a record subject to FOIA; the requested record does not exist, cannot be located, or has been destroyed; or the requested record is not readily reproducible in the form or format you sought. Information that may be exempt from disclosure under the FOIA is:

However, NARA may withhold Presidential records under the remaining FOIA exemptions. In addition, Presidential records may be withheld under the six PRA restrictions for a period of 12 years from when a President leaves office, in accordance with 44 U.S.C. 2204 and 36 CFR part 1270. Representatives of the current and former Presidents may also review Presidential records, and may assert constitutionally-based privileges that would prevent NARA from releasing some or all of the information requested.  

§ 1250.32 How may I request assistance with the FOIA process?  
(a) For assistance at any point in the FOIA process, you may contact the NARA FOIA Public Liaison. That individual is responsible for assisting you to reduce delays, increase transparency and understanding of the status of requests, and resolve any FOIA disputes. You can find a list of our FOIA Customer Service Centers and Public Liaisons at http://www.archives.gov/foia/contacts.html.  

(b) The Office of Government Information Services (OGIS), part of NARA, serves as the Federal FOIA Ombudsman and assists requesters and agencies to prevent and resolve FOIA disputes. OGIS also reviews agencies' FOIA policies, procedures, and compliance. You may contact OGIS using the information provided below in 36 CFR 1250.74(c).  

§ 1250.38 In what format does NARA provide copies?  
After all applicable fees are paid, we provide you copies of records in the format you request if the records already exist in that format, or if they are readily reproducible in the format you request.  

Subpart C—Fees  
§ 1250.50 General information on fees for all FOIA requests.  
(a) If you have failed to pay FOIA fees in the past, we will require you to pay your past-due bill and we may also require that you pay the anticipated fee before we begin processing your current request. If we estimate that your fees may be greater than §250, we may also require advance payment or a deposit before we begin processing your request. If you fail to make an advance payment within 60 calendar days after the date of NARA’s fee letter, we will close the request.
§ 1250.53 What is the FOIA fee schedule for operational records?

In responding to FOIA requests for operational records, NARA charges the following fees, where applicable, unless we have given you a reduction or waiver of fees under §1250.56.

(a) Search fees—(1) Manual searching. When the search is relatively straightforward and can be performed by a clerical or administrative employee, the search rate is $16 per hour (or fraction thereof). When the request is more complicated and a NARA professional employee must perform it, the rate is $33 per hour (or fraction thereof).

(2) Computer searching. NARA bases the fees for computer searches on the actual cost to NARA of operating the computer and the salary of the operator. When the search is relatively straightforward and a clerical or administrative employee can conduct it, the search rate is $16 per hour (or fraction thereof). When the request is more complicated and a NARA professional employee must perform it, the rate is $33 per hour (or fraction thereof).

(b) Review fees. (1) NARA charges review fees for time we spend examining documents that are responsive to a request to determine whether we must apply any FOIA exemptions to withhold information. NARA charges review fees even if we ultimately are unable to disclose a record.

(2) The review fee is $33 per hour (or fraction thereof).

(3) NARA does not charge review fees for time we spend resolving general

§ 1250.54 How does NARA calculate FOIA fees for operational records?

(a) If you are a commercial use requester, NARA charges you fees for searching, reviewing, and copying responsive records.

(b) If you are an educational or scientific institution requester, or a member of the news media, you are entitled to search time, review time, and up to 100 pages of copying without charge. NARA charges copying fees only beyond the first 100 pages.

(c) If you do not fall into either of the categories in paragraphs (a) and (b) of this section, and are an ‘‘other requester,’’ you are entitled to two hours of search and review time, and up to 100 pages of copying without charge. NARA may charge for search time beyond the first two hours and for copying beyond the first 100 pages.

(d) NARA does not charge a fee for processing a FOIA request if it exceeds any time limit under 5 U.S.C. 552(a)(6) in processing that request, unless unusual or exceptional circumstances defined under the FOIA statute are relevant.

§ 1250.56 How may I request a fee waiver for operational records?

(a) We waive or reduce your fees for NARA operational records only if your request meets both of the following criteria:

(1) The request is in the public interest (i.e., the information is likely to contribute significantly to public understanding of the operations or activities of the Government); and

(2) The request is not primarily in your commercial interest.

(b) To be eligible for a fee waiver or reduction you must explain:

(1) How the records you are requesting pertain to the operations and activities of the Federal Government. There must be a clear connection between the identifiable operations or activities of the Federal Government and the subject of your request;

(2) How the release will reveal meaningful information that the public does not already know about Federal Government activities. Disclosing information that is already in the public domain, in either the same or a substantially-identical form, does not add anything new to the public’s understanding of Government activities;

(3) How disclosure to you will advance public understanding of the issue;

(4) Your expertise or understanding of the requested records as well as your ability and intention to effectively convey information to the public. NARA ordinarily presumes that a representative of the news media satisfies this consideration;

(5) How you intend to disseminate the requested information to a broad spectrum of the public; and

(6) How disclosure will lead to a significantly greater understanding of the Government by the public.

(c) After reviewing your request and determining that there is a substantial public interest in release, we also determine if the request primarily furthers your commercial interests. If it
§ 1250.74 How does NARA process appeals?

(a) We respond to your appeal within 20 working days after the appeal official designated in 36 CFR 1250.72(a)(1)(i) and (ii) receives it. If we reverse or modify the initial decision, we inform you in writing and, if applicable, reprocess your request. For Presidential records, if we release any additional information, we must follow the notification procedures outlined in 36 CFR 1250.26(j). If we do not change our initial decision, we respond in writing to you, explain the reasons for the decision, and set out any FOIA exemptions that apply.

(1) An adverse determination by the Archivist or Deputy Archivist will be the final action by NARA; and

(2) NARA will cease processing an appeal if a requester files a FOIA lawsuit.
(b) We notify you of your right to seek judicial review of an adverse determination as set forth in the FOIA at 5 U.S.C. 552(a)(4)(B). If you wish to seek judicial review of any adverse determination, you must first appeal it administratively under this section.

(c) We also inform you that the Office of Government Information Services (OGIS) offers mediation services to resolve disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. You may contact OGIS in any of the following ways:

Subpart E—Confidential Commercial Information

§ 1250.80 How does a submitter identify records containing confidential commercial information?

At the time of submission, a submitter of business information is expected to designate, by appropriate markings, any portions of its submission that it considers to be protected from disclosure under FOIA Exemption 4. Although these portions may be designated, this does not preclude NARA from conducting a full FOIA review of all such documents if a FOIA request for those records has been received. These designations will expire 10 years after the date of the submission unless the submitter requests, and provides justification for, a longer designation period, or NARA extends the designation period at its discretion.

§ 1250.82 How does NARA process FOIA requests for confidential commercial information?

If NARA receives a FOIA request for records containing confidential commercial information or for records that we believe may contain confidential commercial information, we follow these procedures:

(a) If the records are less than 10 years old or are still covered under an extended FOIA Exemption 4 designation period, we review the records in response to a FOIA request. If we then believe that we should release the records under FOIA, we make reasonable efforts to inform the submitter. The notice to the submitter describes the business information requested or includes copies of the requested records. NARA does not notify the submitter when we determine that:

1. We must withhold the information under FOIA’s exemptions;
2. The information has been lawfully published or made available to the public; or
3. We are required by a statute (other than the FOIA), or by a regulation issued in accordance with the requirements of Executive Order 12600, to disclose the information.

(b) If the records are 10 or more years old, we review the records in response to a FOIA request as we would any other records, and at our discretion, inform the submitter. NARA releases the records if we determine that neither Exemption 4 nor any other exemption applies.

(c) When the request is for information from a single or small number of submitters, we send a notice via registered mail to the submitter’s last known address. NARA’s notice to the submitter includes a copy of the FOIA request and tells the submitter the time limits and procedures for objecting to the release of the requested material.

(d) When the request involves information from a voluminous number of submitters, we may post or publish the notice in a place or manner reasonably likely to inform the submitters of the proposed disclosure, instead of sending letters.

(e) We provide the submitter with 20 working days from the date of NARA’s notice to object to the release and to explain a basis for the objection, including justification and support for the claim. The NARA FOIA Officer may extend this period as appropriate.

(f) We review and consider all objections to release that we receive within the time limit. Any information provided by a submitter under this provision may itself be subject to disclosure.
under FOIA. NARA considers a submitter who fails to respond within the time period specified in the notice to have no objection to disclosure of the information. If we decide to release the records, we inform the submitter in writing, along with NARA’s reasons for the decision to release. We include with the notice copies of the records as we intend to release them. We also inform the submitter that we intend to release the records within a reasonable time after the date of the notice unless a U.S. District Court forbids disclosure. NARA will not consider any information we receive after the date of a disclosure decision.

(g) If the requester files a lawsuit under the FOIA for access to any withheld records, we promptly notify the submitter.

(h) NARA notifies the requester in three circumstances:

(1) When we notify the submitter of the opportunity to object to disclosure, or to extend the time for objecting;

(2) When we notify the submitter of our intent to disclose the requested information; and

(3) When a submitter files a lawsuit to prevent the disclosure of the information.

SOURCE: 73 FR 79393, Dec. 29, 2008, unless otherwise noted.

§ 1251.1 What is the purpose of this part?

(a) This part provides the policies and procedures to follow when submitting a demand to an employee of the National Archives and Records Administration (NARA) to produce records or provide testimony relating to agency information in connection with a legal proceeding. You must comply with these requirements when you request the release or disclosure of records or agency information.

(b) The National Archives and Records Administration intends these provisions to:

(1) Promote economy and efficiency in its programs and operations;

(2) Minimize NARA’s role in controversial issues not related to its mission;

(3) Maintain NARA’s impartiality among private litigants when NARA is not a named party; and

(4) Protect sensitive, confidential information and the deliberative processes of NARA.

(c) In providing for these requirements, NARA does not waive the sovereign immunity of the United States.

(d) This part provides guidance for the internal operations of NARA. It does not create any right or benefit, substantive or procedural, that a party may rely upon in any legal proceeding against the United States.

§ 1251.2 To what demands does this part apply?

This part applies to demands to NARA employees for factual, opinion, or expert testimony relating to agency information or for production of records in legal proceedings whether or
not NARA is a named party. However, it does not apply to:

(a) Demands upon or requests for a NARA employee to testify as to facts or events that are unrelated to his or her official duties and that are unrelated to the functions of NARA;
(b) Demands upon or requests for a former NARA employee to testify as to matters in which the former employee was not directly or materially involved while at NARA;
(c) Requests for the release of, or access to, records under the Freedom of Information Act, 5 U.S.C. 552, as amended; the Privacy Act, 5 U.S.C. 552a; the Federal Records Act, 44 U.S.C. chs. 21, 29, 31, 33; the Presidential Records Act, 44 U.S.C. ch. 22; or the Presidential Recordings and Materials Preservation Act, 44 U.S.C. 2111 note;
(d) Demands for records or testimony in matters before the Equal Employment Opportunity Commission or the Merit Systems Protection Board; and
(e) Congressional demands and requests for testimony or records.

§ 1251.3 What definitions apply to this part?

The following definitions apply to this part:

Court of competent jurisdiction means, for purposes of this part, the judge or some other competent entity, as authorized by statute or regulation or other lawful means, and not simply by an attorney or court clerk, must sign a demand for records the disclosure of which is constrained by the Privacy Act, 5 U.S.C. 552a because section (b)(11) of the Act requires appropriate authorization of a court of competent jurisdiction. See Doe v. Digenova, 779 F.2d 75 (D.C. Cir. 1985); Stiles v. Atlanta Gas Light Company, 453 F. Supp. 798 (N.D. Ga. 1978).

Demand means a subpoena, or an order or other command of a court or other competent authority, for the production, disclosure, or release of records in a legal proceeding, or for the appearance and testimony of a NARA employee in a legal proceeding.

General Counsel means the General Counsel of NARA or a person to whom the Inspector General has delegated authority under this part) when a demand is made for records of NARA’s Office of the Inspector General, or for the testimony of an employee of NARA’s Office of the Inspector General.

Legal proceeding means any matter before a court of law, administrative board or tribunal, commission, administrative law judge, hearing officer, legislative body, or other body that conducts a legal or administrative proceeding. Legal proceeding includes all phases of litigation.

NARA means the National Archives and Records Administration.

NARA employee or employee means:

(1) Any current or former officer or employee of NARA, except that this definition does not include former NARA employees who are retained or hired as expert witnesses concerning, or who agree to testify about, matters available to the public or matters with which they had no specific involvement or responsibility during their employment with NARA;
(2) Any other individual hired through contractual agreement by or on behalf of NARA or who has performed or is performing services under such an agreement for NARA;
(3) Any individual who served or is serving in any consulting or advisory capacity to NARA, whether formal or informal; and
(4) Any individual who served or is serving in any volunteer or internship capacity to NARA.

Records or agency information means:

(1) Archival records, which are permanently valuable records of the United States Government that have been transferred to the legal custody of the Archivist of the United States;
(2) Operational records, which are those records that NARA creates or receives in carrying out its mission and responsibilities as an executive branch agency. This does not include archival records as defined above in this section;
(3) All documents and materials which are NARA agency records under the Freedom of Information Act, 5 U.S.C. 552, as amended;
(4) Presidential records as defined in 44 U.S.C. 2201; historical materials as
§ 1251.8

Who is authorized to accept service of a subpoena demanding the production of records or testimony?

(a) Demands for testimony, except those involving an employee of NARA’s Office of the Inspector General, must be addressed to, and served on, the General Counsel, National Archives and Records Administration, Suite 3110, 8601 Adelphi Road, College Park, MD 20740–6001.

(b) Demands for the testimony of an employee of NARA’s Office of the Inspector General must be addressed to, and served on, the Inspector General, National Archives and Records Administration, Suite 1300, 8601 Adelphi Road, College Park, MD 20740–6001.
§ 1251.10 What are the filing requirements for a demand for documents or testimony?

You must comply with the following requirements, as appropriate, whenever you issue a demand to a NARA employee for records, agency information or testimony:

(a) Your demand must be in writing and must be served on the appropriate party as identified in §1251.8.

(b) Demands for production of records that are governed by the Privacy Act require authorization of a court of competent jurisdiction as defined in §1251.3.

(c) Your written demand (other than a demand pursuant to the Federal Rules of Civil Procedure in a case in which NARA is a party, in which case you must comply with the requirements of that rule) must contain the following information:

1. The caption of the legal proceeding, docket number, and name and address of the court or other authority involved;

2. A copy of the complaint or equivalent document setting forth the assertions in the case and any other pleading or document necessary to show relevance;

3. A list of categories of records sought, a detailed description of how the information sought is relevant to the issues in the legal proceeding, and a specific description of the substance of the testimony or records sought;

4. A statement as to how the need for the information outweighs the need to maintain any confidentiality of the information and outweighs the burden on NARA to produce the records or provide testimony;

5. A statement indicating that the information sought is not available from another source, from other persons or entities, or from the testimony of someone other than a NARA employee, such as a retained expert;

6. If testimony is requested, the intended use of the testimony, a general summary of the desired testimony, and a showing that no document could be provided and used instead of testimony;

7. A description of all previous decisions, orders, or pending motions in the case that bear upon the relevance of the requested records or testimony;

8. The name, address, and telephone number of counsel to each party in the case; and
§ 1251.16 Are there any restrictions that apply to testimony?

(a) The General Counsel may impose conditions or restrictions on the testimony of NARA employees including, for example, limiting the areas of testimony or requiring the requester and other parties to the legal proceeding to agree that the transcript of the testimony will be kept under seal or will only be used or made available in the particular legal proceeding for which testimony was requested. The General Counsel may also require a copy of the transcript of testimony at the requester’s expense.

(b) NARA may offer the employee’s written declaration instead of testimony.

(c) If authorized to testify pursuant to this part, an employee may testify as to facts within his or her personal knowledge, but, unless specifically authorized to do so by the General Counsel, the employee must not:

(1) Disclose confidential or privileged information; or

(2) For a current NARA employee, testify as an expert or opinion witness with regard to any matter arising out of the employee’s official duties or the

§ 1251.18 Are there any restrictions that apply to the production of records?

(a) The General Counsel may impose conditions or restrictions on the release of records and agency information, including the requirement that parties to the proceeding obtain a protective order or execute a confidentiality agreement to limit access and any further disclosure. The terms of the protective order or of a confidentiality agreement must be acceptable to the General Counsel. In cases where protective orders or confidentiality agreements have already been executed, NARA may condition the release of records and agency information on an amendment to the existing protective order or confidentiality agreement.

(b) Typically, original NARA records will not be produced in response to a demand. Instead of the original records, NARA provides certified copies for evidentiary purposes (see 28 U.S.C. 1733; 44 U.S.C. 2116). Such copies must be given judicial notice and must be admitted into evidence equally with the originals from which they were made (see 44 U.S.C. 2116). If the General Counsel so determines, under exceptional circumstances, original NARA records may be made available for examination in response to a demand, but they are not to be presented as evidence.

§ 1251.20 Are there any fees associated with producing records or providing testimony?

(a) Generally. The General Counsel may condition the production of records or appearance for testimony upon advance payment of a reasonable estimate of the costs to NARA.

(b) Fees for records. Fees for producing records include fees for searching, reviewing, and duplicating records, costs of attorney time spent in reviewing the demand or request, and expenses generated by materials and equipment used to search for, produce, and copy the responsive information. Costs for employee time are calculated on the basis of the hourly pay of the employee (including all pay, allowance, and benefits). Fees for duplication are the same as those charged by NARA in part 1258 of this title.

(c) Witness fees. Fees for attendance by a witness include fees, expenses, and allowances prescribed by the court’s rules. If no such fees are prescribed, witness fees are determined based upon the rule of the Federal district court closest to the location where the witness appears.

(d) Payment of fees. (1) Witness fees for current NARA employees providing testimony should be submitted to the General Counsel and made payable to the Treasury of the United States.

(2) Fees for the production of records, including records certification fees, must be submitted to the official who makes the final determination on demands for the production of records, as described in §1251.14, and made payable to the National Archives Trust Fund (NATF).

(3) Applicable fees paid to former NARA employees providing testimony should be paid directly to the former employee in accordance with 28 U.S.C. 1821 or other applicable statutes.

(e) Certification (authentication) of copies of records. NARA may certify that records are true copies in order to facilitate their use as evidence. Request certified copies from NARA at least 45 days before the date they are needed. We charge a certification fee for each document certified.

(f) Waiver or reduction of fees. The General Counsel, in his or her sole discretion, may, upon a showing of good cause, waive or reduce any fees in connection with the testimony, production, or certification of records.

(g) De minimis fees. Fees are not assessed if the total charge is $10.00 or less, or as otherwise stated in NARA policy.

§ 1251.22 Are there any penalties for providing records or testimony in violation of this part?

(a) An employee who discloses official records or information or gives testimony relating to official information, except as expressly authorized by NARA or as ordered by a Federal court after NARA has had the opportunity to
be heard, may face the penalties provided in 18 U.S.C. 641 and other applicable laws. Additionally, former NARA employees are subject to the restrictions and penalties of 18 U.S.C. 207 and 216.

(b) A current NARA employee who testifies or produces official records and information in violation of this part is subject to disciplinary action.

Subpart C—Copying Archival Materials

GENERAL INFORMATION

1254.60 What are NARA’s copying services?
§ 1254.2 Does NARA provide information about documents?

(a) Upon request, we provide overall information about our holdings or about specific documents, if the time required to furnish the information is not excessive and if the information is not restricted (see part 1256 of this chapter). For anyone unable to visit, we may provide information contained in specific documents by offering copies of the documents for a fee (see §1254.60).

(b) Requests must be on designated forms when we require them. The Office of Management and Budget (OMB) approves these forms as information collections and the forms bear the approved control number.

(c) If requests that we receive in the normal course of service do not specifically cite the Freedom of Information Act (5 U.S.C. 552, as amended), we do not consider those requests made under the Act. To make a request under the Act, follow the procedures in part 1250 of this chapter.

§ 1254.4 Where and when are documents available to me for research?

(a) You may obtain general information about the location of records by visiting the NARA Web site at www.archives.gov; writing to the National Archives and Records Administration (NWCC2), 8601 Adelphi Road, College Park, MD 20740–6001; completing our Inquire form at http://www.archives.gov/global_pages/inquire_form.html; sending a fax request to (301) 837–0483; or calling (202) 501–5400, (301) 837–2000, or toll free (866) 272–6272.

(b) The locations of NARA’s research rooms are shown in part 1253 of this chapter. Hours for research rooms are posted at http://www.archives.gov. Contact our facilities directly for information about their particular holdings. A facility or unit director may authorize that documents be made available at times other than the times specified.

(c) Before planning a visit, contact the facility holding materials of potential interest to determine whether the documents are available, whether there are enough documents to warrant a visit, or whether ordering copies would be more practical.

(d) In addition to the procedures in this part, researchers who wish to use archival materials that contain national security classified information must follow procedures in part 1256 of this chapter.

§ 1254.6 Do I need a researcher identification card to use archival materials at a NARA facility?

(a) Yes, you need a researcher identification card to use original archival materials at a NARA facility. See §§1254.8 and 1254.10 for information on obtaining a card.

(b) You also need a researcher identification card if you wish to use only microfilm copies of documents at NARA’s Washington, DC, area facilities and in any NARA facility where the microfilm research room is not separate from the textual research room.

(c) If you are using only microfilm copies of records in some regional archives where the microfilm research room is separate from the textual room, you do not need an identification card but you must register as described in §1254.22.

[69 FR 39314, June 30, 2004, as amended at 75 FR 10415, Mar. 8, 2010]

§ 1254.8 What information do I need to provide when applying for a researcher identification card?

(a) You must apply in person and show identification containing your picture or physical description, such as a driver’s license or school identification card. You also must provide proof of your current address, such as a bank statement, utility bill, or department of motor vehicles change of address card, if the address on your driver’s license or other identification is not current. Students who consider the home of their parents as their permanent address, but who do not live there during the academic session, must provide their current student address. If you travel long distance to conduct research in original archival materials at a NARA facility, we may ask you how we can contact you locally. In special circumstances, the director of a facility or unit has the authority to grant exceptions to these requirements.

(b) If you apply for access to large quantities of documents or to documents that are especially fragile or valuable, you may require you to furnish additional information about reasons why you require access. Some materials are too fragile or valuable for direct handling or viewing. Preservation concerns (see §§1254.20(b) and 1254.36(e)) and availability of resources (see §1254.20(c)) may limit our ability to accommodate certain requests.

(c) If you are younger than 14, you must follow the procedures in §1254.24 to seek permission to conduct research.

(d) We do not issue you a researcher identification card if the appropriate supervisor or director of the NARA facility determines that the documents that you wish to use are not in the legal custody of NARA and you do not present appropriate written authorization from the legal title holder to examine the documents.

(e) The collection of information contained in this section has been approved by the Office of Management and Budget with the control number 3095–0016.

§ 1254.10 For how long and where is my researcher identification card valid?

(a) Your card is valid for 1 year and may be renewed. Cards we issue at one NARA facility are valid at each facility, except as described in paragraph (b) of this section. Cards are not transferable and you must present your card if a guard or research room attendant requests to see it.

(b) At NARA facilities in the Washington, DC, area and other NARA facilities that issue and use plastic researcher identification cards as part of their security systems, we issue a plastic card to replace the paper card issued at some NARA facilities at no charge. The plastic card is valid at all NARA facilities.

§ 1254.12 Will NARA log or inspect my computer, other equipment, and notes?

(a) If you bring personal computers, scanners, tape recorders, cameras, and other equipment into our facilities, we will inspect the equipment.

(1) In the Washington, DC, area, you must complete the Equipment Log at the guard’s desk. The guard checks the log for proof of your personal ownership before you remove your equipment from the building.

(2) In the regional archives and Presidential libraries, we may tag your
§ 1254.14 Are some procedures in regional archives and Presidential libraries different from those in the Washington, DC, area?

Yes, the variety of facilities, locations of research rooms, room sizes, and other factors contribute to differences in some, but not all, practices from the Washington, DC, area. When the appropriate regional director of archival operations or Presidential library director indicates, you must follow the procedures in regional archives and Presidential library archival research rooms where researchers use original documents. These procedures are in addition to the procedures we specify elsewhere in this part. The procedures are either posted in the facility or the staff gives copies of them to researchers.

Subpart B—Research Room Rules

GENERAL PROCEDURES

§ 1254.20 What general policies apply in all NARA facilities where archival materials are available for research?

(a) Researchers may use original documents only in the designated research room at the facility where they are stored.

(b) Researchers must use microfilm copies or other alternative copies of documents when available, rather than the original documents. Some of our microfilm publications are available in more than one NARA facility.

(c) We may limit the quantity of documents that we deliver to you at one time. In some research rooms, we furnish records according to a specific time schedule.

§ 1254.22 Do I need to register when I visit a NARA facility for research?

(a) Yes, you must register each day you enter a NARA research facility by furnishing the information on the registration sheet or scanning an encoded researcher identification card. We may ask you for additional personal identification.

(b) NARA facilities in the Washington, DC, area contain several research rooms; you must register in each research room you visit on a daily basis.

(c) In regional archives, you also sign out when leaving the research room for the day. In some Presidential libraries, where we instruct you to do so, you sign out when you leave the building.

§ 1254.24 Whom does NARA allow in research rooms?

(a) We limit admission to research rooms in our facilities to individuals examining or copying documents and other materials.

(b) We do not admit children under the age of 14 to these research rooms unless we grant them research privileges (see paragraph (d) of this section).

(c) The appropriate supervisor may make exceptions for a child who is able to read and who will be closely supervised by an adult while in the research room. The adult must agree in writing to be present when the child uses documents and to be responsible for compliance with the research room and copying rules in subparts B and C of this part.

(d) Students under the age of 14 who wish to perform research on original documents must apply in person at the facility where the documents are located. At the National Archives Building, apply to the chief of the Research Support Branch (NWCC1). At the National Archives at College Park, apply to the chief of the Research Support Branch (NWCC2). For regional archives and Presidential libraries, apply to the
§ 1254.26 What can I take into a research room with me?

(a) **Personal belongings.** You may take a hand-held wallet and coin purse for the carrying of currency, coins, credit cards, keys, driver’s license, and other identification cards into research rooms, but these are subject to inspection when you enter or leave the room. The guard or research room attendant determines whether your wallet or purse is sufficiently small for purposes of this section. You may take cell phones, pagers, and similar telecommunications devices into a research room only under the circumstances cited in §1254.46(b) and, for cell phone cameras, in §1254.70(g).

(b) **Notes and reference materials.** You may take notes, references, lists of documents to be consulted, and other materials into a research room if the supervisor administering the research room or the senior staff member on duty in the research room determines that they are essential to your work requirements. Not all facilities permit you to take notes into the research room. In facilities that allow you to bring notes, staff may stamp your items to indicate that they are your property.

(c) You may bring back into the research room on subsequent visits your research notes made on notepaper and notecards we provide and electrostatic copies you make on copying machines in NARA research rooms which are marked with the statement “Reproduced at the National Archives.” You must show any notes and copies to the research room attendant for inspection when you enter the research room.

(d) **Personal equipment.** The research room attendant, with approval from the supervisor, archivist, or lead archivist technician in charge of the room, may admit personal computers, tape recorders, scanners, cameras, and similar equipment if the equipment meets NARA’s approved standards for preservation. We do not approve the use of any equipment that could potentially damage documents. If demand to use equipment exceeds the space available for equipment use, we may impose time limits. If you wish to use computers, sound recording devices, or other equipment, you must work in areas the research room attendant designates, when required.

§ 1254.28 What items are not allowed in research rooms?

(a) You may not bring into the research rooms overcoats, raincoats, jackets, hats, or other outerwear; personal paper-to-paper copiers, unless permitted in accordance with §1254.86 of this part; briefcases, satchels, valises, suitcases, day packs, purses, boxes, or similar containers of personal property. We may make exceptions for headwear worn for religious or health reasons. In facilities where we provide notepaper and notecards, you also may not bring into the research room notebooks, notepaper, notecards, folders or other containers for papers.

(b) You may store personal items at no cost in lockers or other storage facilities in the NARA facility. These lockers or other storage facilities are available on a first-come-first-served basis.

(c) You must remove your personal belongings each night from the lockers or other storage facilities we provide to hold them. If you do not remove your personal belongings, NARA personnel will remove them. We post directions for reclaiming confiscated items near the lockers or other storage facilities.

(d) NARA is not responsible for the loss or theft of articles you store in the lockers.

(e) We may charge a replacement fee for lost locker keys.
§ 1254.30  Does NARA provide any supplies?

Yes, in most facilities NARA furnishes you, without charge, pencils and specially marked lined and unlined notepaper and notecards, for use in the research rooms. NARA also provides diskettes and paper for our public access computers. Return unused pencils and notepaper, notecards, diskettes, and printer paper to the research room attendant at the end of the day.

§ 1254.32  What rules apply to public use of the Internet on NARA-supplied computers?

(a) Public access computers (workstations) are available for Internet use in all NARA research rooms. The number of workstations varies per location. We provide these workstations for research purposes on a first-come-first-served basis. When others are waiting to use the workstation, we may impose a 30-minute time limit on the use of the equipment.

(b) You should not expect privacy while using these workstations. These workstations are operated and maintained on a United States Government system, and activity may be monitored to protect the system from unauthorized use. By using this system, you expressly consent to such monitoring and the reporting of unauthorized use to the proper authorities.

(c) You may not use these workstations to gain access to entertainment or other inappropriate Web sites in our research rooms. You also may not use these workstations to conduct private business not related to your research or NARA holdings.

(d) NARA provides at least one Internet access workstation in each facility that complies with the Workforce Investment Act of 1998, ensuring comparable accessibility to individuals with disabilities.

(e) You may download information to a diskette and print materials, but the research room staff will furnish the diskettes and paper. You may not use personally owned diskettes on NARA personal computers. You may not load files or any type of software on these workstations.

§ 1254.34  What are my responsibilities when using documents?

(a) You must sign for the documents you receive and we may require you to show your researcher identification card.

(b) You are responsible for the proper handling of and prevention of damage to all documents delivered to you until you return them. Specific handling instructions are given in §§1254.36 and 1254.38.

(c) When you finish using the documents, you must return them to the research room attendant.

(d) You must not remove the reference service slip that accompanies the documents to the research room.

(e) If we ask, you must return documents up to 15 minutes before closing time.

(f) Before leaving a research room, even for a short time, you must notify the research room attendant and place all documents in their proper containers.

§ 1254.36  What care must I take when handling documents?

To prevent damage to documents, we have rules relating to the physical handling of documents.

(a) You must use only pencils in research rooms where original documents are used.

(b) You must not lean on, write on, refold, trace, or otherwise handle documents in any way likely to cause damage.

(c) You must follow any additional rules that apply to the use of special media records at our facilities, such as wearing cotton gloves we provide you for handling still pictures and any original film-based materials.

(d) You must identify documents for reproduction only with a paper tab that we provide you. You must not use paper clips, rubber bands, self-stick notes or similar devices to identify documents.

(e) You must use exceptionally valuable or fragile documents only under
§ 1254.38 How do I keep documents in order?
(a) You must keep unbound documents in the order in which we deliver them to you.
(b) You must not attempt to rearrange documents that appear to be in disorder. Instead, you must refer any suspected problems with the records to the research room attendant.
(c) You may use only one folder at a time.
(d) Remove documents from only one container at a time.

§ 1254.40 How does NARA prevent removal of documents?
(a) You must not remove documents from a research room. Removing, mutilating, or revising or otherwise altering documents is forbidden by law and is punishable by fine or imprisonment or both (18 U.S.C. 2071).
(b) Upon leaving the research room or facility, you must present for examination any article that could contain documents or microfilm, as well as presenting copies or notes to ensure that no original records are mixed in with them.
(c) To ensure that no one unlawfully removes or mutilates documents, NARA may post at the entrance to research rooms instructions supplementing the rules in this part. These instructions are specific to the kinds of records you use or to the facility where the records are stored.

§ 1254.42 What are the rules that apply to using self-service microfilm?
NARA makes available microfilm copies of many records on a self-service basis.
(a) When microfilm is available on a self-service basis, research room attendants assist you in identifying research sources on microfilm and provide information concerning how to locate and retrieve the roll(s) of film containing the information of interest. You are responsible for retrieving and examining the roll(s).
(b) Unless you require assistance in learning how to operate microfilm reading equipment or have a disability, we expect you to install the microfilm on the reader, rewind it when finished, remove it from the reader, and return it to the proper microfilm box. You must carefully remove from and return to the proper microfilm boxes rewound microfilm. You must take care when loading and unloading microfilm from microfilm readers. Report damaged microfilm to the research room attendant as soon you discover it.
(c) Unless we make an exception, you may use only one roll of microfilm at a time.
(d) After using each roll, you must return the roll of microfilm to the location from which you removed it, unless we otherwise instruct you.
(e) You should bring to the attention of the research room attendant any microfilm you find in the wrong box or file cabinet.

§ 1254.44 How long may I use a microfilm reader?
(a) Use of the microfilm readers in the National Archives Building is on a first-come-first served basis.
(b) Archival operations directors at our regional archives may permit reservations for use of microfilm readers and set time limits on use to meet local circumstances.

§ 1254.46 Are there other rules of conduct that I must follow?
(a) Part 1280 specifies conduct rules for all NARA facilities. You must also obey any additional rules supplementing Subpart B of part 1254 that are posted or distributed by the facility director.
(b) You may not eat, drink, chew gum, smoke, or use smokeless tobacco products, or use a cell phone, pager, or similar communications device that emits sound signals in a research room.
Communications devices must be in vibrate mode. You must make and receive telephone calls outside of research rooms.

(c) We prohibit loud talking and other activities likely to disturb other researchers.

§1254.48 When does NARA revoke research privileges?

(a) Behaviors listed in paragraphs (a)(1) through (a)(4) of this section may result in NARA denying or revoking research privileges:

(1) Refusing to follow the rules and regulations of a NARA facility;
(2) Demonstrating by actions or language that you present a danger to documents or NARA property;
(3) Presenting a danger to other researchers, NARA or contractor employees, or volunteers;
(4) Verbally or physically harassing or annoying other researchers, NARA or contractor employees, or volunteers.

(b) Denying or revoking research privileges means:

(1) We may deny or revoke your research privileges for up to 180 days;
(2) You lose research privileges at all NARA research rooms nationwide; and
(3) You lose your valid researcher identification card if you already have one.

(c) We notify all NARA facilities of the revocation of your research privileges.

(d) Our reinstatement of research privileges applies to all research rooms.

(e) If we reinstate your research privileges, we issue you a card for a probationary period of 60 days. At the end of the probationary period, you may apply for a new, unrestricted identification card, which we issue to you if your conduct during the probationary period follows the rules of conduct in this part and in part 1280 of this chapter.

§1254.52 Can NARA extend the period of revoked research privileges?

(a) If the reinstatement of research privileges would pose a threat to the safety of persons, property, or NARA holdings, or if, in the case of a probationary identification card, you fail to comply with the rules of conduct for NARA facilities, we may extend the revocation of privileges for additional 180-day periods. We send you a written notice of an extension within 3 working days of our decision to continue the revocation of research privileges.

(b) You have 30 calendar days after the decision to extend the revocation of research privileges to appeal the action in writing. Mail your appeal to the Deputy Archivist at the address given in §1254.50(a). The Deputy Archivist has 30 calendar days from receipt of your appeal to decide whether to reinstate your research privileges and to respond to you in writing.

Subpart C—Copying Archival Materials

GENERAL INFORMATION

§1254.60 What are NARA’s copying services?

(a) You may order copies of many of our documents for a fee. Our fee schedule for copies is located in §1258.12 of
this chapter. Exceptions to the fee schedule are located in §1258.4. See §1258.6 about reproductions NARA may provide without charging a fee.  
(b) For preservation reasons, we do not make copies from the original documents if the documents are available on microfilm and a clear copy (electrostatic, photographic, or microfilm) can be made from the microfilm.

§ 1254.62 Does NARA have archival materials protected by copyright?  
Yes, although many of our holdings are in the public domain as products of employees or agents of the Federal Government, some records and donated historical materials do have copyright protection. Particularly in the case of some special media records, Federal agencies may have obtained materials from private commercial sources, and these may carry publication restrictions in addition to copyright protection. Presidential records may also contain copyrighted materials. You are responsible for obtaining any necessary permission for use, copying, and publication from copyright holders and for any other applicable provisions of the Copyright Act (Title 17, United States Code).

§ 1254.64 Will NARA certify copies?  
Yes, the responsible director of a unit, or any of his or her superiors, the Director of the Federal Register, and their designees may certify copies of documents as true copies for a fee. The fee is found at §1258.12(a).

RULES RELATING TO SELF-SERVICE COPYING

§ 1254.70 How may I make my own copies of documents?  
(a) Self-service copiers are available in some of our facilities. Contact the appropriate facility to ask about availability before you visit.  
(b) In the Washington, DC, area, self-service card-operated copiers are located in research rooms. Other copiers we set aside for use by reservation are located in designated research areas. Procedures for use are outlined in §§1254.80 through 1254.84 of this subpart.  
(c) You may use NARA self-service copiers where available after the research room attendant reviews the documents to determine their suitability for copying. The appropriate supervisor or the senior archivist on duty in the research room reviews the determination of suitability if you request.  
(d) We may impose time limits on using self-service copiers if others are waiting to use them.  
(e) In some of our facilities, you may use your own scanner or personal paper-to-paper copier to copy textual materials if the equipment meets our standards cited in §§1254.80 and 1254.86. Contact the appropriate facility for additional details before you visit.  
(f) You must follow our document handling instructions in §§1254.36 and 1254.72. You also must follow our microfilm handling instructions in §1254.42.  
(g) You may use a hand-held camera with no flash or a cell phone camera to take pictures of documents only if you have the permission of the research room attendant.  
(h) You may not use a self-service copier or personal scanner to copy some special media records. If you wish to copy motion pictures, maps and architectural drawings, or aerial photographic film, the appropriate staff can advise you on how to order copies. If you wish to obtain copies of electronic records files, the appropriate staff will assist you.

§ 1254.72 What procedures do I follow to copy documents?  
(a) You must use paper tabs to designate individual documents you wish to copy. You must show the container including the tabbed documents to the research room attendant who determines whether they can be copied on the self-service copier. The manager of the staff administering the research room reviews the determination of suitability if you ask. After copying is completed, you must return documents removed from files for copying to their original position in the file container, you must refasten any fasteners removed to facilitate copying, and you must remove any tabs placed on the documents to identify items to be copied.
§ 1254.74 What documents are unsuitable for copying on a self-service or personal copier or scanner?

(a) Bound archival volumes (except when specialized copiers are provided).
(b) Documents fastened together by staples, clips, acco fasteners, rivets, or similar fasteners, where folding or bending documents may cause damage.
(c) Documents larger than the glass copy plate of the copier.
(d) Documents with uncancelled security classification markings.
(e) Documents with legal restrictions on copying.
(f) Documents that the research room attendant judges to be in poor physical condition or which may be subject to possible damage if copied.

§ 1254.76 What procedures do I follow to copy formerly national security-classified documents?

(a) We must properly cancel security classification markings (Confidential, Secret, Top Secret) and other restricted markings on declassified records before documents are copied. Only a NARA staff member can cancel security markings. Properly declassified documents bear the declassification authority as required by 32 CFR 2001.24.
(b) You may not remove from the research room copies of documents bearing uncancelled classification markings. We confiscate copies of documents with uncancelled markings.
(c) When you copy individual documents, the research room staff cancels the classification markings on each page of the copy and places the declassification authority on the first page of each document. If you copy only selected pages from a document, you must make a copy of the first page bearing the declassification authority and attach that page to any subsequent page(s) you copy from the document. You must show this declassification authority to the guard or research room attendant when you remove copies of documents from the research room or the building.
(d) Before you copy formerly-classified materials, we provide you with a declassification strip, which you attach to the copier. The strip reproduces on each page copied and cancels the security markings. We may also provide a declassification strip to attach to your personal copier or scanner.
(e) Staff at Presidential libraries cancel security markings before documents are provided to researchers in research rooms.

RULES RELATING TO USING COPYING EQUIPMENT

§ 1254.80 Does NARA allow me to use scanners or other personal copying equipment?

(a) Subject to §§ 1254.26(d) and 1254.86, you may use scanners and other copying equipment if the equipment meets certain conditions or minimum standards described in paragraphs (b) through (g) of this section. Exceptions are noted in paragraph (h). The supervisor administering the research room or the senior staff member on duty in the research room reviews the research room attendant’s determination if you request.
(b) Equipment platen or copy boards must be the same size or larger than the records. No part of a record may overhang the platen or copy board.
(c) No part of the equipment may come in contact with records in a manner that causes friction, abrasion, or that otherwise crushes or damages records.
(d) We prohibit drum scanners.
(e) We prohibit automatic feeder devices on flatbed scanners. When using a slide scanner, we must check slides after scanning to ensure that no damage occurs while the slide is inside the scanner.
(f) Light sources must not raise the surface temperature of the record you copy. You must filter light sources that generate ultraviolet light.
(g) All equipment surfaces must be clean and dry before you use records. You may not clean or maintain equipment, such as replacing toner cartridges, when records are present. We do not permit aerosols or ammonia-containing cleaning solutions. We permit a 50 percent water and 50 percent isopropyl alcohol solution for cleaning.

(h) If you wish to use a scanner or other personal copier in a regional archives or Presidential library, contact the facility first for approval. Not all facilities permit the use of scanners or personal copying equipment because of space, electrical load concerns, and other reasons. Your request must state the space and power consumption requirements and the intended period of use.

(i) In facilities that provide a self-service copier or permit the use of personal paper-to-paper copiers or scanners, you must show documents you wish to copy to the research room attendant for approval.

(j) If you have any question about what is permissible at any given facility, consult with the facility before your visit. Contact information for our facilities is found in part 1253 of this chapter and at the NARA Web site, http://www.archives.gov.

§ 1254.82 What limitations apply to my use of self-service card-operated copiers?

(a) There is a 5-minute time limit on copiers in research rooms when others are waiting to use the copier. If you use a microfilm reader-printer, we may limit you to three copies when others are waiting to use the machine. If you wish to copy large quantities of documents, you should see a staff member in the research room to reserve a copier for an extended time period.

(b) If we must cancel an appointment due to copier failure, we make every effort to schedule a new mutually agreed-upon time. However, we do not displace researchers whose appointments are not affected by the copier failure.

§ 1254.84 How may I use a debit card for copiers in the Washington, DC, area?

Your research identification card can be used as a debit card if you arrange with the Cashier’s Office to set up an account using cash, check, money order, debit card, or credit card. Your researcher identification card number as encoded on the card forms the basis of your account in the debit system. You may also purchase generic debit cards of values up to $20 each from the Cashier’s Office using any of the above payment methods. When the Cashier’s Office is closed or at any other time during the hours research rooms are open as cited in part 1253 of this chapter, you may use cash or credit card to purchase a debit card from the vending machines located in the research rooms. Inserting the debit card into a card reader connected to the copier enables you to make copies for the appropriate fee, which are found in §1258.12 of this chapter. You can add value to your card using the vending machine in the research room or at the Cashier’s Office. We do not make refunds.

§ 1254.86 May I use a personal paper-to-paper copier at the National Archives at College Park?

(a) At the National Archives at College Park facility NARA approves a limited number of researchers to bring in and use personal paper-to-paper copying equipment in the Textual Research Room (Room 2000). Requests must be made in writing to the chief of the Research Support Branch (NWCC2), National Archives and Records Administration, 8601 Adelphi Rd., College Park, MD 20740–6001. Requests must identify the records you wish to copy, the expected duration of the project, and the make and model of the equipment.

(b) We evaluate requests using the following criteria:

(1) A minimum of 3,000 pages must be copied;

(2) The project is expected to take at least 4 weeks, with the copier in use a minimum of 6 hours per day or 30 hours per week.
§ 1254.88 What are the rules for the Motion Picture, Sound, and Video Research Room at the National Archives at College Park?

(a) We provide use of NARA viewing and listening equipment in the research room on a first-come-first-served basis. When others are waiting to use the equipment, we may impose a 3-hour limit on your use.

(b) You may use the NARA-furnished recorder or your personal recording device and media to make a copy of unrestricted archival materials in the research room.

(c) We provide you with a copy of the Motion Picture, Sound, and Video Research Room rules and a warning notice on potential copyright claims in unrestricted titles. You are responsible for obtaining any needed permission or release from a copyright owner for other than personal use of the copy.

(d) The research room attendant may inspect and tag your personal recording equipment before admitting you into the unrestricted viewing and copying area in the research room. You must place all equipment and accessory devices on the carts we provide, except that you may place a tripod holding a video camera on the floor in front of a film-viewing station. We are not responsible for damage to or loss of personal equipment and accessories.

(e) You must remain in the research room at your audio or film viewing station at all times while your personal equipment is in use. You must remove your personal equipment from the research room when you leave the room for the day. We cannot be responsible for any damage to or loss of your equipment.

(f) We are not responsible for assisting with “hook-up” to NARA viewing equipment, for providing compatibility between the personal recording equipment and NARA viewing equipment, or for the quality of the copies you make. We provide you information on the types of NARA equipment that we have in the research room and on the cables necessary for hook-up to our viewing equipment.

(g) When you bring audio or video recording tapes or cassettes into the unrestricted area of the research room, the research room attendant marks the recording media “NARA-approved personal property” for identification purposes. We inspect this media before you leave the research room and when you leave the research complex at the National Archives at College Park.

(h) You may reserve a NARA-furnished video copying station and 120-minute blank video cassette, for a fee, on a first-come-first-served basis for 90 minutes. If no one else is waiting to use the station, you may reserve an additional 90 minutes. You may not connect personal recording devices to NARA equipment at the video copying...
National Archives and Records Administration

§ 1254.92 How do I submit a request to microfilm records and donated historical materials?

(a) You must submit your request to microfilm materials to the appropriate office.

(1) Submit your written request to microfilm archival records or donated historical materials (except donated historical materials under the control of the Office of Presidential Libraries) in the Washington, DC area to the Assistant Archivist for Records Services—Washington, DC (NW), 8601 Adelphi Rd., College Park, MD 20740–6001.

(2) Submit your written request to microfilm archival records or donated historical materials in a NARA regional archives to the Assistant Archivist for Regional Records Services (NR), 8601 Adelphi Rd., College Park, MD 20740–6001.

(3) Submit your written request to microfilm records or donated historical materials in a Presidential library or donated historical materials in the Washington area under the control of the Office of Presidential Libraries to the Assistant Archivist for Presidential Libraries (NL), 8601 Adelphi Rd., College Park, MD 20740–6001.

(4) OMB control number 3095–0017 has been assigned to the information collection contained in this section.

(b) You must submit your request to use privately owned microfilm equipment four months in advance of the proposed starting date of the microfilming project. If you submit your request with less advance notice, we consider it and may approve it if we have available adequate NARA space and staff and if you can complete all training, records preparation, and other NARA requirements in a shorter time frame.

(1) You may include in your request only one project to microfilm a complete body of documents, such as an entire series, a major continuous segment of a very large series which is reasonably divisible, or a limited number of separate series related by provenance or subject.

(2) We do not accept additional requests from an individual or organization to microfilm records in a NARA station. You may use only NARA-provided tapes at the video copying station. Fees for use of the station and blank cassette are specified in §1258.12 of this chapter.

(i) You may not take any personal recording device or media in the restricted viewing area in the research room.

Subpart D—Microfilming Archival Materials

§ 1254.90 What is the scope of this subpart?

(a) This subpart establishes rules and procedures for the use of privately owned microfilm equipment to film accessioned archival records and donated historical materials in NARA’s legal and physical custody by:

(1) Foreign, Federal, state, and local government agencies;

(2) Private commercial firms;

(3) Academic research groups; or

(4) Other entities or individuals that request exemption from obtaining copies through the regular fee schedule reproduction ordering system of NARA.

(b) If you wish to microfilm Federal agency records in the physical custody of the Washington National Records Center (WNRC), contact the director, WNRC, about procedures for obtaining permission from the originating agency to film those records (see §1253.4). For information about procedures for obtaining permission from the originating agency to film records in the records center operation of one of NARA’s regional records facilities or in the physical custody of the National Personnel Records Center (NPRC), contact the Regional Administrator of the region in which the records are located (see §1253.6), or the director, NPRC, for records in NPRC (see §1253.5).

(c) Federal agencies that need to microfilm archival records in support of the agency’s mission must contact the appropriate office as specified in §1254.92(a) as soon as possible after the need is identified for information concerning standards and procedures that apply to their microfilming of archival records.
facility while we evaluate an earlier request from that individual or organization to microfilm records at that facility.

(3) We establish the number of camera spaces available to a single project based upon the total number of projects approved for filming at that time.

§ 1254.94 What must my request include?

(a) A description of the documents you wish to copy that includes the following elements:

(1) Record group number or agency of origin or, for donated historical materials, title of the collection;

(2) Title of series or file segment;

(3) Date span; and

(4) Estimated volume in number of pages or cubic feet.

(b) The estimated amount of time (work-days) that the microfilm copying project will take; the date that you would like to begin the project; and the number of persons who would require training (see §1254.108(b)).

(c) The number and a description of the equipment that you will use for copying including:

(1) The name of the manufacturer and model number; and

(2) The type of light source to be employed (fluorescent, tungsten, or electronic flash) and if electronic flash (i.e., strobe) or fluorescent, whether the light source is filtered to omit ultraviolet radiation.

(d) A statement of the procedures that you will follow to ensure that you copy all pages, that the images on the microfilm are legible, and that the microfilm is properly processed. At a minimum, the procedures should meet the requirements specified in part 1230 of this chapter regarding the microfilming of permanent records.

§ 1254.96 What credits must I give NARA?

(a) You must agree to credit NARA as having custody of the original documents. The credit must appear at the beginning of a microfilm publication and in any publicity material or descriptions of the publication.

(b) If the original documents are Federal records, you must agree to include on the film this statement: “The documents reproduced in this publication are among the records of the (name of agency) in the custody of the National Archives of the United States. (Name of microfilm publication producer) does not claim any copyright interest in these official U.S. Government records.”

(c) If the original documents are donated historical materials, you must agree to include on the film this statement: “The documents reproduced in this publication are donated historical materials from (name of donor) in the custody of the (name of Presidential library or National Archives of the United States). The National Archives and Records Administration administers them in accordance with the requirements of the donor’s deed of gift and the U.S. Copyright Law, Title 17, U.S.C. (Name of microfilm publication producer) does not claim any copyright interest in these donated historical materials.”

(d) If the original documents are Presidential or Vice-Presidential records as specified in 44 U.S.C. 2201, you must agree to include on the film this statement: “The documents reproduced in this publication are Presidential records in the custody of the (name of Presidential library or National Archives of the United States). The National Archives and Records Administration administers them in accordance with the requirements of Title 44, U.S.C. (Name of microfilm publication producer) does not claim any copyright interest in these official Presidential records.”

(e) If the original documents are records of Congress, you must agree to include on the film this statement: “The documents reproduced in this publication are among the records of the (House of Representatives/Senate) in the physical custody of the National Archives and Records Administration (NARA). NARA administers them in accordance with the requirements of the (House/Senate). (Name of microfilm publication producer) does not claim any copyright interest in these official congressional records.”
§ 1254.98 May NARA make subsequent use of my publication?

You must give NARA a royalty-free worldwide license, to take effect seven years after you complete filming at the NARA facility, to publish, display, reproduce, distribute, and sell the publication, and to create derivative works based on the publication, and to use the publication in collective works, all without limitation. The license required by this section must be written to take effect upon publication if there is no commercial distributor, or once commercial distribution ends if less than seven years from the date you complete filming at the NARA facility.

§ 1254.100 How does NARA evaluate requests?

(a) NARA evaluates requests by estimating how well completion of a proposed project would further our efforts to preserve and to make available to the public the historically valuable records of the Government.

(b) In considering multiple requests to film at the same time, we give priority to microfilming records that have research value for a variety of studies or that contain basic information for fields of research in which researchers have demonstrated substantial interest.

(c) The records to be filmed should be reasonably complete and not subject to future additions, especially of appreciable volumes, within the original body of records. Records with pending or future end-of-series additions are appropriate for filming.

(d) The records to be filmed should not have substantial numbers of documents withdrawn because of continuing national security classification, privacy, or other restrictions.

(e) We approve only requests to microfilm a complete body of documents, such as an entire series or a major continuous segment of a very large series that is reasonably divisible. Microfilming a complete body of documents means that you must consecutively copy all documents within the file unit(s), from the first to the last page, not skipping any pages in between except for pages that are exact duplicates or blank pages that are not included in a pagination scheme.

(f) We normally approve only requests that include assurances that the project will adhere to the specifications in part 1230 of this chapter concerning microfilm stock standards, index placement, and microfilm processing for permanent records.

(g) We approve only requests that specify that NARA will receive a first generation silver halide duplicate negative containing no splices made from the original camera negative of the microform record created in accordance with part 1230 of this chapter.

1. We may use this duplicate negative microform to make duplicate preservation and reference copies. The copies may be made available for NARA and public use in NARA facilities and programs immediately upon receipt.

2. We may also make additional use of the microform, as indicated in §1254.98, seven years after you complete filming at the NARA facility, or upon delivery of the publication if there is no commercial distributor, or when the commercial distributor is no longer available, whichever occurs first. We may choose to add our own editorial material to the microform copies.

3. You must deliver detailed roll lists with the microfilm. The lists must give the full range of file titles and a complete list of all file numbers on each roll of microfilm. We prefer that the list be provided in a fielded electronic format to facilitate its use by staff and researchers. If the electronic format is a data file with defined or delimited fields, you should transfer with the file the records layout identifying the fields, any coded values for fields, and explanations of any delimiters.

4. Microfilm projects may donate to us additional indexes and finding aids. NARA and the microfilm project execute a deed of gift that specifies restrictions on NARA’s use and dissemination of these products under mutually acceptable terms.

§ 1254.102 What requests does NARA not approve?

(a) We do not approve any request that does not include all of the information we require in §§1254.94 and 1254.96.
§ 1254.104 How does NARA determine fees to prepare documents for microfilming?

(a) As part of our evaluation of a request to microfilm documents, we determine the amount of microfilm preparation that we must do before you can microfilm the documents and the estimated cost of such preparation. We base fees for microfilm preparation on direct salary costs (including benefits) and supply costs when we perform the work. When a NARA contractor performs the work, the fees are the cost to NARA. Microfilm preparation includes:

1. Removing document fasteners from documents when the fasteners can be removed without damage to the documents; and

2. Preparing documents for microfilming when there is insufficient space to accommodate both at the same time.

(b) We do not normally approve requests to microfilm documents that:

(1) Have previously been microfilmed and made available to the public;

(2) We have approved for microfilming by another party; or

(3) We plan to film as a NARA microfilm publication or which relate closely to other documents previously microfilmed or approved for microfilming by NARA. We may grant exceptions to this provision at our discretion.

(c) We normally do not approve requests to microfilm documents:

(1) Having restrictions on access that preclude their reproduction;

(2) Known to be protected by copyright;

(3) Having high intrinsic value that only authorized NARA personnel may handle;

(4) In vulnerable physical condition;

(5) Having a high research demand and which we would have to deny to others for an extended period of time during the microfilming process. Where possible, we assist you in developing filming schedules that avoid the need to close documents for a lengthy period of time; and

(6) In formats, such as oversize documents, bound volumes, and others, that would be subject to excessive stress and possible damage from special equipment you plan to use, as well as documents fastened with grommets, heavy duty staples, miscellaneous fasteners, or wafers and other adhesives that cannot be removed without tearing or breaking documents.

(d) We normally do not approve requests from persons or organizations that failed to produce usable microfilm or to honor commitments they made in previous requests, or for whom we have had to rescind previous permission to microfilm documents because of their conduct.

(e) We do not approve requests to microfilm records in NARA facilities in which there is insufficient space available for private microfilming. We do not permit private microfilming in our records storage (stack) areas.

1. Federal agencies microfilming records in support of the agency’s mission may use the space set aside for private microfilming. Agency microfilming takes priority over private microfilming when there is insufficient space to accommodate both at the same time.

2. When a NARA facility does not have enough space to accommodate all requests, we may schedule separate projects by limiting the time allowed for each particular project or by requiring projects to alternate their use of the space.

3. We also do not approve requests where the only space available for filming is in the facility’s research room, and such work would disturb researchers. We do not move records from a facility lacking space for private microfilming to another NARA facility for that purpose.

(f) We do not approve requests to microfilm records when there is not enough staff to provide the necessary support services, including document preparation, training of private microfilmmers, and monitoring the filming.

(g) We do not approve the start of a project to microfilm records until you have agreed in writing to the amount and schedule of fees for any training, microfilm preparation, and monitoring we must conduct that is necessary to support your project. Our letter of tentative approval for the project includes an agreement detailing the records in the project and the detailed schedule of fees for NARA services for the project. We give final approval when we receive your signed copy of the agreement.
§ 1254.106 What are NARA's equipment standards?

(a) Because we have limited space in many NARA facilities, microfilm/fiche equipment should be operable from a table top unless we have given written permission to use free standing/floor model cameras. You may only use planetary type camera equipment. You may not use automatic rotary cameras and other equipment with automatic feed devices. We may approve your use of book cradles or other specialized equipment designed for use with bound volumes, oversized documents, or other formats, as well as other camera types not specified here, on a case-by-case basis.

(b) The power consumption of the equipment normally must not exceed 1.2 kilowatts. Power normally available is 115 volts, 60 hz. You must make requests for electricity exceeding that normally available at least 90 days in advance.

(c) You may not use equipment having clamps or other devices to exert pressure upon or to attach the document to any surface in a way that might damage the document.

(d) The equipment must not use a heat generating light source in close enough proximity to the documents to result in their physical distortion or degradation. All sources of ultraviolet light must be filtered.

§ 1254.108 What are NARA's requirements for the microfilming process?

(a) Your equipment must conform to the equipment standards in §1254.106.

(b) You must handle documents according to the training and instructions provided by our staff so that documents are not damaged during copying and so that their original order is maintained. Only persons who have attended NARA training will be permitted to handle the documents or supervise microfilming operations. We charge you fees for training services and these fees will be based on direct salary costs (including benefits) and any related supply costs. We specify these fees in the written agreement we require for project approval in §1254.102(h).

(c) You may microfilm documents from only one file unit at a time. After you complete microfilming, you must return documents you removed from files for microfilming to their original position in the file container, reattach any fasteners you removed to facilitate copying, and remove any tabs you placed on the documents to identify items to copy. We will provide fasteners for replacement as necessary.

(d) You may not leave documents unattended on the copying equipment or elsewhere.

(e) Under normal microfilming conditions, actual copying time per sheet must not exceed 30 seconds.

(f) You must turn off any lights used with the camera when the camera is not in actual operation.

(g) You may operate microfilm equipment only in the presence of the research room attendant or a designated NARA employee. If NARA places microfilm projects in a common research area with other researchers, the project will not be required to pay for monitoring that is ordinarily provided. If the microfilm project is performed in a research room set aside for copying and filming, we charge the project fees for these monitoring services and these fees will be based on direct salary costs (including benefits). When more than one project share the same space, monitoring costs will be divided equally among the projects. We specify the monitoring service fees in the written agreement required for project approval in §1254.102(h).

(h) The equipment normally should be in use each working day that it is in a NARA facility. The director of the NARA facility (as defined in §1252.2 of this chapter) decides when you must remove equipment because of lack of
regular use. You must promptly remove equipment upon request of the facility director.

(i) We assume no responsibility for loss or damage to microfilm equipment or supplies you leave unattended.

(j) We inspect the microform output at scheduled intervals during the project to verify that the processed film meets the microfilm preparation and filming standards required by part 1230 of this chapter. To enable us to properly inspect the film, we must receive the film within 5 days after it has been processed. You must provide NARA with a silver halide duplicate negative of the filmed records (see §1254.100(g)) according to the schedule shown in paragraph (k). If the processed film does not meet the standards, we may require that you refilm the records.

(k) When you film 10,000 or fewer images, you must provide NARA with a silver halide duplicate negative upon completion of the project. When the project involves more than 10,000 images, you must provide NARA with a silver halide duplicate negative of the first completed roll or segment of the project reproducing this image count to NARA for evaluation. You also must provide subsequent completed segments of the project, in quantities approximating 100,000 or fewer images, to NARA within 30 days after filming unless we approve other arrangements.

(l) If the microfilming process is causing visible damage to the documents, such as flaking, ripping, separation, fading, or other damage, filming must stop immediately and until the problems can be addressed.

§1254.110 Does NARA ever rescind permission to microfilm?

We may, at any time, rescind permission to microfilm records if:

(a) You fail to comply with the microfilming procedures in §1254.106;

(b) Inspection of the processed microfilm reveals persistent problems with the quality of the filming or processing;

(c) You fail to proceed with the microfilming or project as indicated in the request, or

(d) The microfilming project has an unanticipated adverse effect on the condition of the documents or the space set aside in the NARA facility for microfilming.

(e) You fail to pay NARA fees in the agreed to amount or on the agreed to payment schedule.

Subpart A—General Information

§ 1256.1 What does this part cover?

This part describes NARA’s policies on access to archival records of the Executive Branch and donated historical materials in the National Archives of the United States and to records in the physical custody of the Federal records centers. This part applies to records and materials covered by the Federal Records Act (44 U.S.C. 2108 and chs. 29, 31, 33) and donated historical materials. This part does not apply to Presidential, Supreme Court, Senate, House of Representatives, and Architect of the Capitol records except for the purpose of directing mandatory review requests in subpart E.

§ 1256.2 How do I obtain access to records stored in Federal Records Centers?

Agencies that retire their records to a Federal records center (FRC) set rules for access to those records. Address requests for access to records stored in Federal records centers directly to the appropriate agency or to the appropriate FRC director at the address shown in part 1253. When the agency’s rules permit, NARA makes FRC records available to requesters. When the agency’s rules and restrictions do not permit access FRCs receive requests that should have been sent to the agency, the FRC director refers the requests and any appeals for access, including those made under the Freedom of Information Act (5 U.S.C. 552, as amended), to the responsible agency.

§ 1256.6 How do I obtain access to records of defunct agencies?

NARA handles access to archives and FRC records received from agencies that have ceased to exist without a successor in function as described in Subpart B.

§ 1256.8 How do I obtain access to Presidential records?

See 36 CFR part 1270, Presidential Records, for the rules for access to Presidential records transferred to NARA.

§ 1256.10 How do I obtain access to Nixon Presidential materials?

See 36 CFR part 1275, Preservation and Protection of and Access to the Presidential Historical Materials of the Nixon Administration, for the rules for access to Nixon Presidential materials.
May I obtain access to Federal archival records?

(a) Most Federal archival records are open for research without submitting a Freedom of Information Act (FOIA) request. Part 1254 specifies procedures for using unrestricted records in a NARA research room, submitting reference requests, and ordering copies of records.

(b) Some records are subject to restrictions prescribed by statute, Executive Order, or by restrictions specified in writing in accordance with 44 U.S.C. 2108 by the agency that transferred the records to the National Archives of the United States. All agency-specified restrictions must comply with the FOIA. Even if the records are not national-security classified, we must screen some records for other information exempt from release under the FOIA.

How do I request access to restricted information in Federal archival records?

(a) You may file a FOIA request. To request access under the provisions of the FOIA, see part 1250 of this chapter, Public Availability and Use of Federal Records.

(b) For classified information in Federal records, you may file a FOIA request or a mandatory review request under Executive Order 12958, as amended, as described in §1256.24.

How long may access to some records be denied?

(a) Although many records are open for research, some records are closed for long periods, either under our general restrictions, described in subpart D of this part, or another governing authority. For example, in accordance with 44 U.S.C. 2108(b), we do not grant access to restricted census and survey records of the Bureau of the Census less than 72 years old containing data identifying individuals enumerated in population censuses.

(b) Screening records takes time. We screen records as soon as possible and can often make most of the records in which you are interested available. In the case of electronic structured databases, NARA can make a copy of records with restricted information masked. In response to FOIA requests for records in other media, we make a copy of the record available if we can mask or “redact” restricted information.

When can I appeal decisions about access to Federal archival records?

(a) For information on filing appeals for requests made under the FOIA, see 36 CFR part 1250, subpart D, Appeals.

(b) For information on filing appeals for requests made under mandatory review, see §1260.54 of this chapter.

Does NARA make any exceptions for access to records containing privacy-restricted information?

(a) NARA policy. Access to archival records containing information access to which would invade the privacy of an individual is restricted by §1256.56.

(1) NARA may authorize access to such records for the purpose of research to qualified persons doing biomedical or social science research under the conditions outlined in this section as long as the records do not also contain information restricted by statute or national security-classified information.

(2) If NARA is able to make a copy of such records with all personal identifiers masked or deleted, NARA will make such a “sanitized” copy of the record available to all researchers in accordance with §1256.24.

(3) NARA will not grant access to restricted census and survey records of the Bureau of the Census less than 72 years old containing data identifying individuals enumerated in population censuses in accordance with 44 U.S.C. 2108(b).

(3) NARA will not grant access to restricted census and survey records of the Bureau of the Census less than 72 years old containing data identifying individuals enumerated in population censuses in accordance with 44 U.S.C. 2108(b).

(b) Request for access. Researchers who wish to have access to records restricted by §1256.56 to conduct biomedical or social science research must submit a written request to the NARA FOIA/Privacy Act Officer (NGC), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001. OMB control number 3095–0002 has been assigned to this collection of information requirement. Researchers are encouraged to consult
informally with NARA before submitting the formal request. The request must include the following information:

1. Name and mailing address;
2. Institutional affiliation and position, if applicable;
3. List of published research, if applicable;
4. References from two persons who have first-hand knowledge of the requester’s qualifications to perform the research;
5. A statement of the nature of the research to be conducted and any plans for publication or presentation of the research findings;
6. A listing of all sources of grant funds supporting the research project or its publication;
7. A statement of the methodology to be used;
8. A statement of the administrative, technical, and physical safeguards to be employed by the researcher to prevent unauthorized use or disclosure of the records;
9. A listing of the record groups and series titles to be used; and
10. A statement that the researcher will abide by the conditions of access to be prescribed by NARA and that the researcher will assume responsibility for the action of all persons working with the researcher on the project.

(c) Access Review Committee. Requests made under paragraph (b) of this section will be reviewed by NARA’s Access Review Committee, which is composed of the Deputy Archivist of the United States, the Assistant Archivist for the Office of Records Services—Washington, DC, the Assistant Archivist for the Official of Regional Records Services, and the director(s) of the NARA division(s) that has custody of the requested records. The Committee may consult other persons within and outside the Federal Government who are knowledgeable in the research field for assistance in evaluating a request.

1. The Committee will examine the request to determine whether:
   i. The requested information is of such a highly sensitive personal nature that disclosure must not be permitted even for biomedical or social science research;
   ii. The methodology proposed by the requester will permit the researcher to obtain the projected research results without revealing personally identifying information;
   iii. The research results are intended to be published or presented at an academic or research conference;
   iv. The requester is a biomedical or social science researcher who has previous research experience and has submitted or intends to submit articles or books on such research for publication;
   v. The safeguards proposed by the requester will adequately protect the personal information; and
   vi. NARA has sufficient staff and space available to safeguard privacy interests necessary to accommodate the research project.

2. The decision of the Committee will be made in writing to the requester within 15 workdays after receipt of a completed request. At the discretion of the Committee, the researcher may meet with the Committee to discuss the project or to discuss revising the research proposal to meet possible objections of the Committee.

(d) Conditions of access. Researchers who are granted access to restricted records, all others associated with the research project who will have access to personally identifiable information from the records, and the manager of any facility handling the records containing personal identifiers must agree in writing to maintain the confidentiality of the information and to adhere to the conditions of access imposed by NARA. NARA will impose the following conditions of access on any project; additional conditions may be imposed on the use of specific records or on specific projects:

1. The records may be used only for the purpose of the research and for the reporting of research findings as described in the approved research project. The records may not be used for any other purpose;
2. The records and any authorized copies of records may not be transferred to any person or institution not directly involved with the approved research project and subject to a written agreement to maintain confidentiality specified in §1256.28(d);
§ 1256.30

(3) Reasonable administrative, technical, and physical safeguards, as approved by NARA, to prevent unauthorized use or disclosure of the records must be established by the researcher and followed by all persons associated with the project;

(4) When required by NARA, the records must be consulted at the NARA facility where the records are located;

(5) The researcher’s notes must not contain any individually identifiable information. The researcher must use an alternate code system to render personally identifiable information as anonymous in all research notes;

(6) Persons who are identified in the records may not be contacted by or on behalf of the researcher;

(7) Before publication or public presentation of the data, the final research product(s) must be provided to the Deputy Archivist of the United States for review. NARA’s review is limited to ensuring that there is no possible identification of individuals in the research findings. NARA will not evaluate the validity of the research findings.

(e) Noncompliance with conditions of access. If we discover that a researcher has violated any of the conditions of access, we will take steps to revoke the NARA research privileges of that person and consult with NARA’s General Counsel or his or her designee to determine any other steps to be taken to prevent any further disclosure of the personal information concerned. NARA may also inform the following persons and organizations of the researcher’s failure to follow the conditions of use:

(1) The institution with which the researcher is affiliated, if applicable;

(2) Persons who served as references in the application for access;

(3) Organizations that provided grant funds for the project;

(4) The sponsor of the publication or public presentation; and

(5) Appropriate professional organizations.

Subpart C—Access to Donated Historical Materials

§ 1256.32 How do I request access to restricted information in donated historical materials?

(a) At Presidential libraries and regional archives, you may write to the appropriate director at the facilities in part 1253 of this chapter. In the Washington, DC, area, you may write to the Director of Access Programs (NWC) for donated textual materials or the Director of Modern Records Programs (NWM) for donated electronic records. The mailing address for NWC and NWM is Office of Records Services—Washington, DC, 8601 Adelphi Road, College Park, MD 20740–6001.

(b) You may request a review of documents restricted under terms of a donor’s deed of gift or other legal instrument to determine whether the conditions originally requiring the closure still exist. Your request must describe each document requested so that the staff can locate it with a reasonable amount of effort. For files that NARA previously screened, you may cite the reference to the withheld document as it appears on the withdrawal sheet.

(c) In many instances, the director or his or her designated representative will determine whether entire documents or portions of them can be opened. However, a donor or his or her representative reserves the right to determine whether the donor’s materials, a series, or a document or portions of it should remain closed (see §1256.36).
(d) For classified information in donated historical materials, you may file a mandatory review request under Executive Order 12958, as amended, as described in §1256.74.

§ 1256.34 How long may access to some donated historical materials be denied?

Some donated historical materials are closed for long periods, either under the provisions of the deed of gift, our general restrictions described in subpart D of this part, or another governing authority. We are sometimes able to make a copy of materials with restricted information redacted.

§ 1256.36 When can I appeal decisions about access to donated historical materials?

(a) If you wish to appeal a denial of access from the director or his designated representative in implementing the provisions of a donor’s deed of gift, you may write a letter addressed to the Deputy Archivist of the United States, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001. The Deputy Archivist, the Assistant Archivist for Presidential Libraries, and the Assistant Archivist for Records Services—Washington, DC, or their designated representatives, compose the Board of Review for appeals relating to donated historical materials.

(b) The board’s decision is final. If the board cannot make a determination on your request within 30 working days of receipt, NARA informs you of the reason for the delay. If the board determines that a document should remain closed, you may not file a new appeal for two years. Similarly, you may not file an appeal on documents in collections that have been open for research for less than 2 years.

(c) In some cases, the donor or his representative may reserve the right to determine whether the donor’s materials, a series, or a document or portions of it should remain closed; you cannot appeal such decisions.

(d) For information on filing appeals for requests made under mandatory review of White House originated information, see §1256.62 of this chapter.

Subpart D—General Restrictions

§ 1256.40 What are general restrictions?

General restrictions apply to certain kinds of information or classes of records, regardless of the record group to which the records have been allocated. These general restrictions may apply to records and materials not covered by the Freedom of Information Act. The general restrictions are listed and explained in §§1256.46 through 1256.62.

§ 1256.42 Who imposes general restrictions?

§ 1256.44 Does NARA ever waive general restrictions?

NARA may provide access to records withheld under a general restriction only to:

(a) NARA employees for work purposes;

(b) The creating agency or its authorized agent in the conduct of agency business;

(c) The donor, in the case of donated historical materials; or

(d) The subject of the records in some cases or the subject’s authorized agent.

§ 1256.46 National security-classified information.

In accordance with 5 U.S.C. 552(b)(1), NARA cannot disclose records containing information regarding national defense or foreign policy that is properly classified under the provisions of the pertinent Executive Order on Classified National Security Information and its implementing directive (Executive Order 12958, as amended).

§ 1256.48 Information about internal agency rules and practices.

(a) NARA may withhold from disclosure, in accordance with 5 U.S.C. 552(b)(2), the following:

(1) Records that contain information on substantial internal matters of agencies that, if disclosed, could risk circumvention of a legal requirement,
such as a statute or an agency regulation.

(2) Records containing information that states or assesses an agency’s vulnerability to outside interference or harm. NARA withholds records that identify agency programs, systems, or facilities deemed most sensitive. NARA also withholds records describing specific measures that can be used to counteract such agency vulnerabilities.

(b) The Archivist of the United States may determine that this general restriction does not apply to specific records because enough time has passed that release of the information would not result in the harm that the privilege was intended to protect or confidential attorney-client communications.

§ 1256.50 Information exempted from disclosure by statute.

In accordance with 5 U.S.C. 552(b)(3), NARA withholds records containing information that is specifically exempted from disclosure by statute when that statute:

(a) Requires withholding information from the public, leaving no discretion; or

(b) Establishes particular criteria for withholding or refers to particular types of matters to be withheld.

§ 1256.52 Trade secrets and commercial or financial information.

In accordance with 5 U.S.C. 552(b)(4), NARA may withhold records that contain trade secrets and commercial or financial information, obtained from a person, that is privileged or confidential. Such records may be disclosed only if:

(a) The person who provided the information agrees to its release; or

(b) In the judgment of the Archivist of the United States, enough time has passed that release of the information would not result in substantial competitive harm to the submitter of the information. See 36 CFR 1250.82 for additional regulatory guidance.

§ 1256.54 Inter- and intra-agency memoranda (subject to privilege).

(a) In accordance with 5 U.S.C. 552(b)(5), NARA may withhold information found in inter-agency or intra-agency records if that information is subject to a legally recognized privilege, including the:

(1) Deliberative process privilege;

(2) Attorney work product privilege; and

(3) Attorney-client privilege.

(b) The Archivist of the United States may determine that this general restriction does not apply to specific records because enough time has passed that release of the information would not result in the harm that the privilege was intended to protect or confidential attorney-client communications.

§ 1256.56 Information that would invade the privacy of a living individual.

(a) In accordance with 5 U.S.C. 552(b)(6), NARA will withhold records in personnel and medical and similar files containing information about a living individual that reveals details of a highly personal nature that, if released, would cause a clearly unwarranted invasion of personal privacy. Privacy information may include, but is not limited to, information about the physical or mental health or the medical or psychiatric care or treatment of the individual, and that:

(1) Contains personal information not known to have been previously made public, and

(2) Relates to events less than 75 years old.

(b) The Archivist of the United States may determine that this general restriction does not apply to:

(1) Specific records because enough time has passed that the privacy of living individuals is not compromised; or

(2) Researchers for the purpose of biomedical and social science research when such researchers have provided NARA with adequate written assurance that the record(s) will be used solely as a research or reporting record and that no individually identifiable information will be disclosed.

§ 1256.58 Information related to law enforcement investigations.

(a) In accordance with 5 U.S.C. 552(b)(7), NARA will withhold records compiled for law enforcement purposes. Unless otherwise determined by the Archivist in accordance with paragraph
§ 1256.72 What are FOIA requests and mandatory review requests?

(a) You may file a FOIA request for Executive Branch agency records, regardless of whether they contain classified information. The FOIA also applies to Presidential records as cited in §1256.74(b). The FOIA does not apply to records of the Judicial and Legislative Branches or to donated historical materials.

(b) You may only file a mandatory review request if the records contain classified information. NARA handles mandatory review requests for records we hold for the Executive, Judicial, and Legislative Branches as well as donated historical materials under E.O. 12958, as amended, section 3.5.
§ 1256.74 How does NARA process Freedom of Information Act (FOIA) requests for classified information?

(a) NARA processes FOIA requests for access to classified information in Federal records in accordance with the provisions of 36 CFR part 1250. Time limits for responses to FOIA requests for classified information are those provided in the FOIA, rather than the longer time limits provided for responses to mandatory review requests specified by Executive Order 12958, Classified National Security Information (3 CFR, 1995 Comp., p. 333), as amended by Executive Order 13292 (68 FR 15315, 3 CFR, 2003 Comp., p. 196).

(b) NARA processes requests for access to classified information in Presidential records under the FOIA and the Presidential Records Act (PRA) in accordance with the provisions of part 1270 of this chapter. Time limits for responses to FOIA requests for classified information are those provided in the FOIA, the PRA, and Executive Order 13233, Further Implementation of the Presidential Records Act (3 CFR, 2001 Comp., p. 815).

§ 1256.76 How do I request mandatory review of classified information under Executive Order 12958, as amended?

(a) You may request mandatory review of classified information that is in the legal custody of NARA, as well as in legislative and judicial records NARA holds. Your mandatory review request must describe the document or material containing the information with sufficient specificity to enable NARA to locate it with a reasonable amount of effort. When possible, a request must include the name of the originator and recipient of the information, as well as its date, subject, and file designation. Information we reviewed within the previous 2 years is not subject to mandatory review. We notify you if this provision applies to your request.

(b) You must address your mandatory review request to the appropriate staff in the following table.

§ 1256.78 How does NARA handle my mandatory review request?

(a) You may find our procedures for mandatory review and appeals of denials in part 1260 of this chapter, Declassification of National Security Information.

(1) When agencies provide declassification guidance and delegate declassification authority to the Archivist of the United States, NARA reviews for declassification and releases the requested information or those declassified portions of the request that constitute a coherent segment unless withholding is otherwise warranted under applicable law.

(2) When we do not have guidance from agencies, we coordinate the declassification review with the original classifying agency or agencies under the provisions of part 1260, subchapter D of this chapter.

(b) If we cannot identify the information you seek from the description you provide or if the volume of information you seek is so large that processing it would interfere with our capacity to serve all requesters on an equitable basis, we notify you that, unless you provide additional information or narrow the scope of your request, we cannot take further action.
§ 1256.80  How does NARA provide classified access to historical researchers and former Presidential appointees?

(a) In accordance with the requirements of section 4.4 of E.O. 12958, as amended, we may grant access to classified information to certain eligible persons. These persons are engaged in historical research projects or previously occupied policy-making positions to which they were appointed by the President. If you seek permission to examine materials under this special historical researcher/Presidential appointees access program, you must contact NARA in advance. We need at least 4 months before you wish to have access to the materials to permit time for the responsible agencies to process your request for access. If you seek access to classified Presidential records under section 4.4 of E.O. 12958, you must first qualify under special access provisions of 44 U.S.C. 2205. NARA informs you of the agencies to which you have to apply for permission to examine classified information, including classified information originated by the White House or classified information in the custody of the National Archives which was originated by a defunct agency.

(b) You may examine records under this program only after the originating or responsible agency:

(1) Determines in writing that access is consistent with the interest of national security; and

(2) Takes appropriate steps to protect classified information from unauthorized disclosure or compromise, and ensures that the information is safeguarded in a manner consistent with Executive Order 12958, as amended.

(c) The originating or responsible agency limits the access granted to former Presidential and Vice Presidential appointees to items that the person originated, reviewed, signed, or received while serving as an appointee.

(d) To protect against the possibility of unauthorized access to restricted documents, a director may issue instructions supplementing the research room rules provided in 36 CFR part 1254.

§ 1256.90  What does this subpart cover?

This subpart contains procedures governing the public availability of audiovisual records and other materials subject to 22 U.S.C. 1461(b) that have been transferred to the National Archives of the United States by the United States Information Agency (USIA).

§ 1256.92  What is the purpose of this subpart?

This subpart implements section 501 of the United States Information and Educational Exchange Act of 1948 (22 U.S.C. 1461), as amended by section 202 of Public Law 101–246 (104 Stat. 49, Feb. 16, 1990). This subpart also outlines procedures that permit the public to inspect and obtain copies of USIA audiovisual records and other materials in the United States that were prepared for dissemination abroad and that have been transferred to NARA for preservation and domestic distribution.

§ 1256.94  Definition.

For the purposes of this subpart, “Audiovisual records” mean motion picture films, videotapes, and sound recordings, and other materials regardless of physical form or characteristics that were prepared for dissemination abroad.

§ 1256.96  What provisions apply to the transfer of USIA audiovisual records to the National Archives of the United States?

The provisions of 44 U.S.C. 2107 and 36 CFR part 1228 apply to the transfer of USIA audiovisual records to NARA, and to their deposit with the National Archives of the United States. At the time the audiovisual records are transferred to NARA, the Director of USIA, in accordance with §1228.266(e) of this chapter, will also transfer any production or title files bearing on the ownership of rights in the productions in connection with USIA’s official overseas programming.
§ 1256.98 Can I get access to and obtain copies of USIA audiovisual records transferred to the National Archives of the United States?

NARA provides access to USIA audiovisual records after the appropriate time period of restriction has passed.

(a) No USIA audiovisual records in the National Archives of the United States that were prepared for dissemination abroad are available for copying until at least 12 years after USIA first disseminated these materials abroad, or, in the case of materials prepared for foreign dissemination but not disseminated abroad, until at least 12 years after the preparation of the materials.

(b) If the appropriate time has passed, you may have access to USIA audiovisual records that do not have copyright protection and do not contain copyright material. USIA audiovisual records prepared for dissemination abroad that NARA determines do not have copyright protection nor contain copyrighted material are available for examination and copying as described in the regulations in parts 1252, 1253, 1254, 1256, and 1258 of this chapter. To determine whether materials have copyright protection or contain copyrighted material, NARA relies on information contained within or fastened to individual records (for example, copyright notices); information contained within relevant USIA production, title, or other files that USIA transferred to NARA; information provided by requesters under § 1256.100(b) (for example, evidence from the Copyright Office that copyright has lapsed or expired); and information provided by copyright or license holders.

§ 1256.100 What is the copying policy for USIA audiovisual records that either have copyright protection or contain copyrighted material?

If the appropriate time has passed, as stated in § 1256.98(a), USIA audiovisual records that either have copyright protection or contain copyrighted material may be copied as follows:

(a) USIA audiovisual records prepared for dissemination abroad that NARA determines may have copyright protection or may contain copyrighted material are made available for examination in NARA research facilities as described in the regulations in this title.

(b) Copies of USIA audiovisual records prepared for dissemination abroad that NARA determines may have copyright protection or may contain copyrighted material are provided to you if you seek the release of such materials in the United States once NARA has:

(1) Ensured, as described in paragraph (c) of this section, that you have secured and paid for necessary United States rights and licenses;

(2) Been provided with evidence from the Copyright Office demonstrating that copyright protection in the materials sought, or relevant portions in the materials, has lapsed or expired; or

(3) Received your signed certification in accordance with paragraph (d) of this section that you will use the materials sought only for purposes permitted by the Copyright Act of 1976, as amended, including the fair use provisions of 17 U.S.C. 107. No copies of USIA audiovisual records will be provided until the fees authorized under part 1258 of this chapter have been paid.

(c) If NARA determines that a USIA audiovisual record prepared for dissemination abroad may have copyright protection or may contain copyrighted material, you may obtain copies of the material by submitting to NARA written evidence from all copyright and license owner(s) that any necessary fees have been paid or waived and any necessary licenses have been secured.

(d) If NARA has determined that a USIA audiovisual record prepared for dissemination abroad may have copyright protection or may contain copyrighted material, persons seeking the release of such material in the United States may obtain copies of the material by submitting to NARA the following certification statement:

I, (printed name of individual), certify that my use of the copyrighted portions of the (name or title and NARA identifier of work involved) provided to me by the National Archives and Records Administration (NARA), will be limited to private study, scholarship, or research purposes, or for other purposes permitted by the Copyright Act of 1976, as amended. I understand that I am solely responsible for the subsequent use of the copyrighted portions of the work identified above.
(e) In every instance where NARA provides a copy of an audiovisual record under this subpart, and NARA has determined that the work reproduced may have copyright protection or may contain copyrighted material, NARA must provide you with a warning notice of copyright.

(f) Nothing in this section limits NARA’s ability to make copies of USIA audiovisual records for preservation, arrangement, repair and rehabilitation, description, exhibition, security, or reference purposes.

§ 1256.102 What fees does NARA charge?

Copies of audiovisual records will only be provided under this subpart upon payment of fees in accordance with 44 U.S.C. 2116(c) and 22 U.S.C. 1461(b)(3). See § 1258.4(b) for additional information.

§ 1258.1 [Reserved]

§ 1258.2 What definitions apply to the regulations in this part?

Accession means the method of acquiring archival records or donated materials from various Governmental bodies.

Archival records means records that have been accessioned into the legal custody of NARA, donated historical materials in the legal custody of NARA and its Presidential libraries, and Congressional, Supreme Court, and other historical materials in NARA’s physical custody and for which NARA has a formal agreement for their permanent retention.

Certification means affixing a seal to copies certifying the copies are a valid reproduction of a file; this service is available for an additional fee.

Cost means the total amount of money spent by the NATF for providing services including, but not limited to, salaries; benefits; rent; communication and utilities; printing and reproductions; consulting and other services; payments to other agencies/funds; supplies and materials; depreciation; system upgrades/replacements; etc.

Custodial units mean NARA’s Federal Records Centers, National Personnel Records Center, archival reference operations nationwide, and Presidential Libraries.

Fee means the price researchers pay for reproductions of records. Certification of records is also a reproduction fee.

Records center records means Federal records in the physical custody of NARA records centers, but still in the legal custody of the agencies that created and maintained them.

§ 1258.4 What costs make up the NARA fees?

(a) 44 U.S.C. 2116(c) allows the NATF to recover all of its costs for providing records reproduction services to the public. The vast majority of materials that are reproduced are from the holdings of NARA, which require special handling, due to the age, condition and historical significance. Examples of special handling include the following:

1. The placement of each record by hand on the reproduction equipment. Many of the records are fragile and have historical uniqueness; reproduction equipment operators must take great care in handling these records. For example, each page of a document must be carefully placed by hand on the reproduction equipment, a copy made, the page removed, and the process re-started.

2. Clarity and legibility of the reproduced records. Older records may be handwritten and darkened from age, which requires extra time to make sure...
we produce copies that are as clear and legible as possible.

(3) **Inability to use automatic document feeders.** Because of the requirements in paragraph (a)(1) of this section, automatic document feeders cannot be used for the duplication of paper materials. This adds time and cost to the price of copying these irreplaceable documents.

(b) The NATF costs, at a minimum, include:

(1) Salaries and benefits of the NATF staff involved in all aspects of the records reproduction process (includes, but is not limited to, compensation for full- and part-time employees, temporary appointments, overtime, awards, Civil Service Retirement Service and Federal Employees’ Retirement System contributions, health benefits, life insurance benefits and Thrift Savings Plan contributions).

(2) Travel and transportation (includes, but is not limited to, travel and transportation of persons, transportation of things, and contract mail service).

(3) Rent, communications and utilities (includes, but is not limited to, telecommunications, equipment rental, and postage).

(4) Printing and reproductions (includes, but is not limited to, commercial printing, advertising, and printing of forms).

(5) Consulting and other services (includes, but is not limited to, management and professional services, contract labor, work performed in support of reproduction orders, and maintenance of equipment).

(6) Payments to other agencies/funds (includes, but is not limited to, reimbursements and payments to other agencies and other funds within NARA). Specifically, the NATF “hires” the NARA custodial units to do reproduction work. In return, the NATF reimburses the custodial units for the cost of salaries and benefits.

(7) Supplies and materials (includes, but is not limited to, general supplies, and materials and parts).

(8) Depreciation (spreading the cost of an asset over the span of several years).

(9) System upgrades/replacement (includes, but is not limited to, installation of operating equipment, software upgrades, and system changes).

§ 1258.6 How does NARA calculate fees for individual products?

NARA calculates the fees for individual products using the following:

(a) **Cost summary.** A summary of all costs incurred by the NATF in providing records reproduction services.

(b) **Percent of revenue.** The percentage of the total NATF revenue represented by sales of a product. This is determined and used where a more accurate percentage based upon actual usage is not available. To calculate this percentage, an analysis is made to determine the current percent of NATF sales revenue represented by each product line. The sales volume is then reviewed with the custodial units to determine if this represents anticipated sales.

(c) **Actual cost percent calculation.** Using the information calculated in the Cost Summary, the actual revenue cost percentage is determined. In some cases, the actual percentage of cost can be calculated from available data or known constraints of the product line. For example, if the contractor responsible for providing copy support does not support the reproduction of a given product line then zero (0) percent of the contractor’s costs would be allocated to that product line.

(d) **Forecasted volume.** The prediction of a product’s sales volume in future year(s). These estimates are made by working with the custodial units and taking into account historical sales volume. An annual percent change is then estimated.

(e) **Reimbursements to the custodial units.** The amount paid to the custodial units for records reproductive services in support of NATF customer orders. The NATF reimburses the custodial units for services rendered to the NATF for the reproduction of NARA holdings. To determine the reimbursement per copy for an item, past reimbursement fees are changed by the compounded annual Government salary changes as issued by the Office of Personnel Management for the fiscal years being projected. The new rates are reviewed with custodial unit personnel and adjustments are made as required.
(f) Additional cost allocation. The costs unique to a given product line. Each product line is evaluated to determine the costs that are unique to that product line, such as purchase and installation costs of specialty equipment, replacement costs for aging equipment, copier leases and maintenance costs, etc. These costs are then allocated against those product lines that use the equipment. Where costs cross product lines, the allocations are apportioned based upon the percent of the estimated copy volume for each product line.

(g) Fee calculation. The product fee is calculated by the following formula:

\[
\frac{\left(\text{Percent of Revenue} \times \text{NATF Overhead Costs}\right) + \text{Reimbursement} + \text{Additional Costs}}{\text{Projected Sales Volume}}
\]

This calculation is completed for each product.

(h) Final review. After the suggested new fees are calculated, NATF reviews them to establish the final fees. Fees may be adjusted across product lines to ensure that the NATF can succeed in total cost recovery.

§ 1258.8 How does NARA change fees for existing records reproductions?

(a) The NATF conducts periodic reviews of its fees to ensure that the costs of providing services to the public are properly recovered.

(b) Existing records reproduction fees may be adjusted annually based on the following factors:

(1) Inflation.
(2) The Office of Personnel Management (OPM) salary changes.
(3) Reallocation of shared costs across product lines using the methodology described in §1258.6.
(4) The projected sales volume for the product.
(5) The actual sales volume for the product.
(6) The approval of the Archivist of the United States.

(d) NARA will place a notice on our Web site (http://www.archives.gov) annually when announcing that records reproduction fees will be adjusted in accordance with this regulation.

§ 1258.10 How does NARA develop and publicize new records reproduction fees?

(a) Custodial units prepare a justification proposal for a proposed records reproduction service and send the justification to the custodial unit office head, through appropriate channels, for concurrence and forwarding to NATF. The justification proposal includes, at a minimum, the following information:

(1) Estimated monthly volume of product orders based on available historical data;
(2) Identification of the equipment and supplies required to provide the product and service;
(3) Brief description of the process required to provide the product and service, including the amount of time for each number and grade level of staff.
(4) Identification of any services or products that will be replaced by the proposed products and services;
(5) Identification of other NARA units that may have a demand for the proposed services; and
(6) Any other relevant information.

(b) After receiving the proposal, NATF staff:

(1) Assesses the potential customer base for the proposed products and services, consulting other NARA offices.
(2) If the potential demand does not warrant establishing fees for new records reproduction products and services, NATF notifies the proposing office that the new product and service are not approved and the reasons why.
(3) If the potential demand warrants, NATF prepares a cost analysis following the methodology in §1258.6 and develops a proposed recommended fee for review by NARA’s Financial Resources Division and approval by the Archivist of the United States.

(c) Notification of new records reproduction services and trial periods: (1) The public will be notified of new records reproduction services, including the business case for determining initial fee, on-line at http://www.archives.gov, by press releases, and through NARA’s social media outlets.

(2) New records reproduction services fees have an initial trial period of one year. During this time, the public is
§ 1258.12 When does NARA provide records reproductions without charge?

At the discretion of the Secretary of the NATF, customers are not charged a fee for records reproductions or certifications in the instances described in this section.

(a) When NARA furnishes copies of records to other elements of the Federal Government. However, a fee may be charged if the appropriate director determines that the service cannot be performed without reimbursement;

(b) When NARA wishes to disseminate information about its activities to the general public through press, radio, television, and newsreel representatives;

(c) When the reproduction is to furnish the donor of a document or other gift with a copy of the original;

(d) When the reproduction is for individuals or associations having official voluntary or cooperative relations with NARA in its work;

(e) When the reproduction is for a foreign, State, or local government or an international agency and furnishing it without charge is an appropriate courtesy; and

(f) For records of other Federal agencies in NARA Federal records centers only:

(1) When furnishing the service free conforms to generally established business custom, such as furnishing personal reference data to prospective employers of former Government employees;

(2) When the reproduction of not more than one copy of the document is required to obtain from the Government financial benefits to which the requesting person may be entitled (e.g., veterans or their dependents, employees with workmen’s compensation claims, or persons insured by the Government);

(3) When the reproduction of not more than one copy of a hearing or other formal proceeding involving security requirements for Federal employment is requested by a person directly concerned in the hearing or proceeding; and

(4) When the reproduction of not more than one copy of a document is for a person who has been required to furnish a personal document to the Government (e.g., a birth certificate required to be given to an agency where the original cannot be returned to the individual).

§ 1258.16 What is NARA’s refund policy?

Due to various factors, it is occasionally difficult for NARA to make a legible reproduction. NARA will notify customers and ask for approval to proceed if we anticipate a reproduction of questionable legibility. As a result, NARA does not provide refunds except in special cases. If a customer requests a refund, we review the order to determine if we properly notified the customer of the questionable nature of the original and if the product is a true representation of the original. If you feel we processed your order incorrectly or it contains errors, please contact us within 120 days of your order date to have your issue verified. Once we verify the issue, we will correct the error and resend the documents. If we cannot correct the error, you will receive a refund.

[81 FR 17611, Mar. 30, 2016]
§ 1258.18 Where can I find NARA’s current fees and information on how to order reproductions?

(a) NARA’'s fee schedule, methods of payment, and ordering portal are located at http://www.archives.gov.

(b) Fee schedules for reproductions made from the holdings of Presidential libraries may differ because of regional cost variations. Presidential library fee schedules are available at http://www.archives.gov/presidential-libraries/. Some services may not be available at all NARA facilities.

(c) In order to preserve certain records which are in poor physical condition, NARA may restrict customers to photographic or other kinds of duplication instead of electrostatic copies.

Classified national security information, or classified information, means information that has been determined under Executive Order 13526 or any predecessor order to require protection against unauthorized disclosure and is marked to indicate its classified status when in documentary form.

Declassification means the authorized change in the status of information from classified information to unclassified information.

Equity refers to information:

(1) Originally classified by or under the control of an agency;
§ 1260.4 What NARA holdings are covered by this part?

The NARA holdings covered by this part are records legally transferred to NARA, including Federal records, 44 U.S.C. 2107; Presidential records, 44 U.S.C. 2201–2207; Nixon Presidential materials, 44 U.S.C. 2111 note; and donated historical materials, 44 U.S.C. 2111.

Subpart B—Responsibilities

§ 1260.20 Who is responsible for the declassification of classified national security Executive Branch information that has been accessioned by NARA?

(a) Consistent with the requirements of section 3.3 of the Order on automatic declassification, the originating agency is responsible for declassification of its information and identifying equity holders.

(b) An agency may delegate declassification authority to NARA.

(c) If an agency does not delegate declassification authority to NARA, the agency is responsible for reviewing the records to identify the equities of other agencies before the date that the records become eligible for automatic declassification.

(d) NARA is responsible for the declassification of records in its legal custody of defunct agencies that have no successor. NARA will consult with agencies having an equity in the records before making declassification determinations in accordance with sections 3.3(d)(3) and 3.6 of the Order.

§ 1260.22 Who is responsible for the declassification of classified national security White House originated information in NARA’s holdings?

(a) NARA is responsible for declassification of information from a previous administration that was originated by:

(1) The President and Vice President;

(2) The White House staff;

(3) Committees, commissions, or boards appointed by the President; or,

(4) Others specifically providing advice and counsel to the President or acting on behalf of the President.
§ 1260.34 Who are the responsibilities of the NDC?

The NDC shall coordinate the following activities:

(a) Referrals, to include:

(1) Timely and appropriate processing of all referrals in accordance with section 3.3(d)(3) of Executive Order 13526; and

(2) The exchange among agencies of detailed declassification guidance to

(b) Any record that contains RD, FRD, or TFNI shall be excluded from automatic declassification and referred by the primary reviewing agency to DOE using a completed SF 715 to communicate both the referral action and the actions taken on the equities of the primary reviewing agency. Any record identified by the primary reviewing agency as potentially containing RD, FRD, or TFNI shall be referred to DOE using a completed SF 715.
enable referrals as identified in paragraph (a)(1) of this section.

(b) General interagency declassification activities as necessary to fulfill the requirements of sections 3.3 and 3.4 of the Order;

(c) The development of effective, transparent, standard declassification work processes, training, and quality assurance measures;

(d) The development of solutions to declassifying information contained in electronic records and special media; and planning for solutions for declassifying information as new technologies emerge;

(e) The documentation and publication of declassification review decisions; and support of NDC declassification responsibilities by linking and using existing agency databases; and

(f) Storage, and related services, on a reimbursable basis, for Federal records containing classified national security information.

§ 1260.36 What are agency responsibilities with the NDC?

Agency heads shall fully cooperate with the Archivist and the activities of the NDC and provide the following resources for NDC operations:

(a) Adequate and current declassification guidelines to process referrals in accordance with section 3.3(d)(3) of the Order and as indicated in §1260.54(a); and

(b) Assignment of agency personnel to the NDC, at the request of the Archivist, with delegated authority by the agency head to review and exempt or declassify information originated by that agency found in records accessioned into the National Archives of the United States; and

(c) Coordination with the NDC of the establishment of any agency centralized facilities and internal operations to conduct declassification reviews to ensure that such agencies conduct internal declassification reviews of records of permanent historical value.

§ 1260.38 How does the NDC ensure the quality of declassification reviews?

An interagency team of experienced declassification reviewers, established by NDC, conducts a sampling of reviewed records according to a sampling regime approved by a separate interagency program management team. The interagency team will verify that each series of agency reviewed records complies with the requirements of the Special Historical Records Review Plan (Supplement) dated March 3, 2000 (DOE-NARA Plan), pursuant to the requirements of Public Law 105–261 (112 Stat. 2259) and Public Law No. 106–65 (113 Stat. 938). Record series that cannot be verified to have been reviewed in accordance with the DOE-NARA Plan will not proceed through the NDC verification process until verification is received by the NDC. The DOE will participate on the interagency team to conduct the quality control reviews required by the DOE-NARA Plan in accordance with priorities established by the NDC.

§ 1260.40 What types of referrals will the NDC process?

The NDC processes referrals of both Federal records and Presidential records. Referrals identified in accessioned Federal records will be processed by the Interagency Referral Center (IRC); referrals identified in records maintained by the Presidential Libraries will be processed by the Remote Archives Capture (RAC) Project. (The RAC Project is a collaborative program to facilitate the declassification review of classified records in the Presidential Libraries in accordance with section 3.3 of the Order. In this project, classified Presidential records at the various Presidential Libraries are scanned and brought to the Washington, DC, metropolitan area in electronic form for review by equity-holding agencies.)

§ 1260.42 How does the NDC process referrals of Federal Records?

(a) All referrals are processed through the IRC.

(b) Agencies will have one year from the time they receive formal notification of referrals by the NDC to review their equity in the records. If an agency does not complete its review within one year of formal notification, its information will be automatically declassified in accordance with section
3.3(d)(3)(B) of the Order unless the information has been properly exempted by an equity holding agency under section 3.3 of the Order.

(c) Once notified, the agencies will coordinate their review with the NDC so the NDC can properly manage the workflow of the IRC.

§ 1260.44 How does the NDC process RAC Project referrals?
(a) The Presidential Libraries use the RAC Project to process referrals.
(b) Agencies will be notified of RAC Project referrals according to an annual prioritization schedule via the NDC.
(c) The RAC Project identifies the primary agency with equity in the record.
(d) The primary agency will have up to one year from the time it is notified of their referral to complete the review of its equity and identify all other agencies ("secondary agencies") with an interest in the record. If an agency does not complete its review in one year, its equity will be automatically declassified.
(e) Secondary agencies receiving notification of their referrals through the RAC Project will have up to one year from the date of notification to complete their review.

§ 1260.46 How does the Department of Defense process referrals?
(a) The Department of Defense (DOD) established the Joint Referral Center (JRC) to review DOD agencies' records and all DOD equities within those records for declassification in accordance with section 3.3 of the Order.
(b) The JRC shall include sufficient quality assurance review policies that are in accordance with policies at the NDC and will provide the NDC with sufficient information on the results of these reviews to facilitate non-DOD agency referral processing and final archival processing for public release.
(c) NARA may loan accessioned records to the JRC for this purpose.

Subpart D—Automatic Declassification

§ 1260.50 How are records at NARA reviewed as part of the automatic declassification process?
(a) Consistent with the requirements of section 3.3 of Executive Order 13526 on automatic declassification, NARA staff may review for declassification records for which the originating agencies have provided written authority to apply their approved declassification guides. The originating agency must review records for which this authority has not been provided.
(b) Agencies may choose to review their own records that have been transferred to NARA's legal custody, by sending personnel to the NARA facility where the records are located to conduct the declassification review.
(c) Classified materials in the Presidential Libraries may be referred to agencies holding equity in the records through the RAC Project.

§ 1260.52 What are the procedures when agency personnel review records in NARA's legal and physical custody?
(a) NARA will:
(1) Make the records available to properly cleared agency reviewers;
(2) Provide space for agency reviewers in the facility in which the records are located to the extent that space is available; and
(3) Provide training and guidance for agency reviewers on the proper handling of archival materials.
(b) Agency reviewers must:
(1) Follow NARA security regulations and abide by NARA procedures for handling archival materials;
(2) Use the Standard Form (SF) 715 and follow NARA procedures for identifying and documenting records that require exemption, referral, or exclusion in accordance with section 3.3 of the Order or 32 CFR 2001.30(p); and
(3) Obtain permission from NARA before bringing into a NARA facility computers, scanners, tape recorders, microfilm readers, and other equipment necessary to view or copy records. NARA will not allow the use of
§ 1260.54 Will NARA loan accessioned records back to the agencies to conduct declassification review?

In rare cases, when agency reviewers cannot be accommodated at a NARA facility, NARA will consider a request to loan records back to an originating agency in the Washington, DC, metropolitan area for declassification review. Each request will be judged on a case-by-case basis. The requesting agency must:

(a) Ensure that the facility in which the documents will be stored and reviewed passes a NARA inspection to ensure that the facility maintains:

(1) The correct archival environment for the storage of permanent records; and

(2) The correct security conditions for the storage and handling of classified national security materials.

(b) Meet NARA requirements for ensuring the safety of the records;

(c) Abide by NARA procedures for handling of archival materials;

(d) Identify and mark documents that cannot be declassified in accordance with NARA procedures; and

(e) Obtain NARA approval for use of any equipment such as scanners, copiers, or cameras to ensure that they do not pose an unacceptable risk of damage to archival materials.

§ 1260.56 What are NARA considerations when implementing automatic declassification?

(a) Integral File Blocks. Classified records within an integral file block that have not been reviewed and properly exempted from declassification, or referred to an equity holder, will be automatically declassified on December 31 of the year that is 25 years from the date of the most recent record in the block. The records of each Presidential Administration will be treated as an integral file block and will be scanned for declassification review through the RAC Project.

(b) Special media records. After consultation with the Director of the National Declassification Center and before the records are subject to automatic declassification, an agency head or senior agency official may delay automatic declassification for up to five additional years for classified information contained in media that make a review for possible declassification exemptions more difficult or costly. NARA, through the NDC, will coordinate processing of referrals made in these special media records as part of its overall prioritization strategy.

(c) Referrals. The IRC at the NDC will provide official notification for Federal records, while the RAC Project will provide formal notification for Presidential records. For agencies which fail to act on their referrals after formal notification by the IRC or the RAC Project, NARA will automatically declassify their information in accordance with section 3.3(d)(3)(B) of the Order.

(d) Additional referrals. Agencies will identify referrals in accordance with section 3.3(d)(3) of the Order. NARA will delay automatic declassification for up to 1 year for classified records that have been identified by the originating agency or by NARA as having classified information that requires referral that were not identified by the primary reviewing agency.

(e) Other circumstances. Information from another agency that has not been properly identified and referred is not subject to automatic declassification. When NARA identifies information, in accordance with section 3.3 of the Order, that agency will have up to 1 year from the date of formal notification to review its information for declassification.

(f) Discovery of information inadvertently not reviewed. When NARA identifies a file series or collection in its physical and legal custody that contains classified information over 25
years old and that was inadvertently not reviewed before the effective date of automatic declassification, NARA must report the discovery to the Information Security Oversight Office (ISOO) and to the responsible agency head or senior agency official within 90 days of discovery. ISOO, the responsible agency, and NARA will consult on a delay of up to three years to review the records.

Subpart E—Systematic Declassification

§ 1260.60 How does the NDC facilitate systematic review of records exempted at the individual record or file series level?

(a) NARA, through the NDC, follows the procedures established in §1260.52 above regarding agency access for review of exempt file series.

(b) NARA, through the NDC, will establish a prioritization schedule for review of exempted individual Federal records. This schedule will take into account upcoming exemption expiration, researcher interest and likelihood of declassification. This schedule will be included as part of the NDC annual work plan.

(c) The Presidential Libraries will work directly with agencies to facilitate the review of records exempted at the file series level.

(d) The Presidential Libraries, through the NDC, will establish a prioritization schedule for review of previously exempted classified materials in the Presidential Library system. These materials will be referred to agencies holding equity in the records via the RAC Project.

Subpart F—Mandatory Declassification Review (MDR)

§ 1260.70 How does a researcher submit an MDR request?

(a) For Federal records in NARA’s physical and legal custody, requests for MDR should be submitted to: National Archives at College Park, ANDC (Attn: MDR Staff), 8601 Adelphi Road, Room 2600, College Park MD 20740 or specialccess_foiag@nara.gov;

(b) For Presidential records, Nixon Presidential materials, or donated presidential materials in the custody of the Presidential Libraries, MDR requests should be submitted to the Presidential Library with physical and legal custody of the records;

(c) For Congressional records in NARA’s custody, MDR requests should be submitted to: The Center for Legislative Archives, 700 Pennsylvania Ave. NW., Washington, DC 20408 or legislative.archives@nara.gov.

(d) For all records in NARA’s physical and legal custody, MDR requests must describe the record or material with sufficient specificity to enable NARA to locate it with a reasonable amount of effort. If NARA is unable to locate the record or material, or requires additional information, NARA will inform the requester.

§ 1260.72 What procedures does NARA follow when it receives a request for Executive Branch records under MDR?

(a) NARA will review the requested records and determine if they have already been released. If not, NARA will refer copies of the records to the originating agency and to agencies that may have an interest or activity with respect to the classified information for declassification review. Agencies may also send personnel to a NARA facility where the records are located to conduct a declassification review, or may delegate declassification authority to NARA.

(b) When the records were originated by a defunct agency that has no successor agency, NARA is responsible for making the declassification determinations, but will consult with agencies having interest in or activity with respect to the classified information.

(c) If the document or information has been reviewed for declassification within the past 2 years, NARA may opt not to conduct a second review and may instead inform the requester of this fact and of the prior review decision and advise the requester of appeal rights in accordance with 32 CFR 2001.33.

(d) If NARA determines that a requester has submitted a request for the same information under both MDR and the Freedom of Information Act (FOIA), as amended, NARA will notify
§ 1260.74 What are agency responsibilities after receiving an MDR request forwarded by NARA?

(a) The agency receiving the referral will promptly process and review the referral for declassification and public release on a line-by-line basis in accordance with section 3.5(c) of the Order and communicate its review decisions to NARA.

(b) The agency must notify NARA of any other agency to which it forwards the request in those cases requiring the declassification determination of another agency to which NARA has not already sent a referral for review.

(c) The agency must return to NARA a complete copy of each referred document with the agency determination clearly stated to leave no doubt about the status of the information and the authority for its continued classification or its declassification.

§ 1260.76 What are NARA’s procedures after it has received the agency’s declassification determination?

(a) If a document cannot be declassified in its entirety, the agency must return to NARA a copy of the document with those portions that require continued classification clearly marked. If a document requires continued classification in its entirety, the agency must return to NARA a copy of the document clearly so marked.

(b) NARA will notify the requester of the results of its review and make available copies of documents declassified in full and in part. If the requested information cannot be declassified in its entirety, NARA will send the requester a notice of the right to appeal the determination within 60 calendar days to the Deputy Archivist of the United States, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Additional information on appeals is located in 36 CFR Part 1264 and in Appendix A to 32 CFR Part 2001 (Article VIII).

§ 1260.78 What is the appeal process when an MDR request for Executive Branch information in NARA’s legal custody is denied in whole or in part?

(a) NARA shall respond to the requester in writing that her/his mandatory declassification review request was denied in full or in part and the rationale for the denial by using the appropriate category in either section 1.4 of the Order for information that is less than 25 years old, or section 3.3 of the Order for information that is older than 25 years, or 32 CFR 2001.30(p) for information governed by the Atomic Energy Act of 1954, as amended, or the National Security Act of 1947, as amended. NARA will send the requester a notice of the right to appeal the determination within 60 calendar days to the Deputy Archivist of the United States, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD. If a final decision on the appeal is not made within 60 working days of the date of the appeal, the requester may appeal to the Interagency Security Classification Appeals Panel (ISCAP).
(b) NARA will process all appeals in accordance with 32 CFR 2001.33(a)(2)(iii). NARA will inform all agencies with equity interests in the denied information. Those agencies will assist NARA in the appellate process and provide NARA with final declassification review decisions in a timely manner and consistent with 32 CFR 2001.33(a)(2)(iii).

(c) NARA will also notify the requester of the right to appeal denials of access to the Interagency Security Classification Appeals Panel, Attn: Mandatory Declassification Review Appeals, c/o Information Security Oversight Office, National Archives and Records Administration, 700 Pennsylvania Avenue NW., Room 503, Washington, DC 20408; iscap@nara.gov.

(d) The pertinent NARA office or Presidential Library will coordinate the potential release of information declassified by the Interagency Security Classification Appeals Panel (ISCAP).

Subpart G—Reclassification of Records Transferred to NARA

§ 1260.82 What actions must NARA take with information in its physical and legal custody that has been made available to the public after declassification without proper authority?

(a) When information in the physical and legal custody of NARA has been made available for public use following declassification without proper authority and needs to have its original classification markings restored, the original classification authority shall notify the Archivist in writing in accordance with 32 CFR 2001.13(a)(1).

(b) If the Archivist does not agree with the reclassification decision and the information is more than 25 years old, the information will be temporarily withdrawn from public access and the Archivist will appeal the agency decision to the Director of ISOO, who will make a final decision in accordance with 32 CFR 2001.13(a)(1). The decision of the Director of ISOO may be appealed by the Archivist or the agency head to the President through the National Security Advisor.

(c) Information about records that have been reclassified or have had their classification restored as described in §§1260.80 and 1260.82 will be made available quarterly through the NARA Web site, http://www.archives.gov/about/plans-reports/withdrawn/. Information will include the responsible agency, NARA location, date withdrawn, number of records, and number of pages.

(a) Notwithstanding any restrictions on access imposed pursuant to section
2204 or these regulations, and subject

(ii) Specify whether the requested
records contain materials to which ac-
cess would otherwise be restricted pur-

and

(iii) Specify the date of the request.

(c) If, after receiving the notice re-

record, and the Archivist nevertheless
determines that the record in question
should be disclosed, in whole or in part,
the Archivist shall notify the former
President or his representative of this
determination. The notice given by the
Archivist or his designee shall:

(1) Be in writing;

(2) State the basis upon which the de-

§ 1275.20 Responsibility.

The Archivist is responsible for the preservation and protection of the Nixon Presidential historical materials.

§ 1275.22 Security.

The Archivist is responsible for providing adequate security for the Presidential historical materials, and for establishing access procedures.
Subpart C—Special Access to Materials

§ 1275.30 Access by designees or assignees of former President Nixon.

In accordance with subpart B of this part, former President Richard M. Nixon’s designated or assigned agent(s) at all times have access to Presidential historical materials in the custody and control of the Archivist.

§ 1275.32 Access by Federal agencies.

In accordance with subpart B of this part, any Federal agency in the executive branch has access for lawful Government use to the Presidential historical materials in the custody and control of the Archivist to the extent necessary for ongoing Government business. The Archivist will consider only written requests from heads of agencies or departments, deputy heads of agencies or departments, or heads of major organizational components or functions within agencies or departments.

§ 1275.34 Access for use in judicial proceedings.

In accordance with subpart B of this part, and subject to any rights, defenses, or privileges which the Federal Government or any person may invoke, the Presidential historical materials in the custody and control of the Archivist will be made available for use in any judicial proceeding and are subject to subpoena or other lawful process.

Subpart D—Public Access to Materials

§ 1275.42 Processing.

The archivists will conduct archival processing of all closed materials to prepare them for public access. In processing the materials, the archivists will give priority to segregating private or personal materials and transferring them to their proprietary or commemorative owners in accordance with §1275.46. In conducting such archival processing, the archivists will restrict portions of the materials pursuant to §§1275.48 and 1275.50. All materials will be prepared for public access and released subject to restrictions or outstanding claims or petitions seeking such restrictions.

§ 1275.44 Segmenting and reviewing.

(a) During the processing period described in §1275.42, the Archivist will assign archivists to segregate private or personal materials, as defined in §1275.16(b). The archivists have sole responsibility for the initial review and determination of private or personal materials. At all times when the archivists or other authorized officials have access to the materials in accordance with these regulations, they will take all reasonable steps to minimize the degree of intrusion into private or personal materials. Except as provided in these regulations, the archivists or other authorized officials will not disclose to any person private or personal or otherwise restricted information learned as a result of their activities under these regulations.

(b) During the processing period described in §1275.42, the Archivist will assign archivists to segregate materials neither relating to abuses of governmental power, as defined in §1275.16(c), nor otherwise having general historical significance, as defined in §1275.16(d). The archivists have sole responsibility for the initial review and determination of those materials which are not related to abuses of governmental power and do not otherwise have general historical significance.

(c) During the processing period described in §1275.42, the Archivist will assign archivists to segregate materials subject to restriction, as prescribed in §§1275.48 and 1275.50. The archivists have sole responsibility for the initial review and determination of materials that should be restricted. The archivists insert a notification of withdrawal at the front of the file folder or container affected by the removal of restricted material. The notification includes a brief description of the restricted material and the basis for the restriction as prescribed in §§1275.48 and 1275.50.

§ 1275.46 Transfer of private or personal materials.

(a) The Archivist will transfer sole custody and use of those materials determined to be private or personal, or
to be neither related to abuses of governmental power nor otherwise of general historical significance, to Richard Nixon's heirs or to the former staff member who created the materials having primary proprietary or commemorative interest in the materials, or to their heir, designee, or assignee. Such materials include all segments of the original tape recordings that have been or will be identified as private or personal.

(b) Materials determined to be neither related to abuses of governmental power nor otherwise of general historical significance, and transferred pursuant to paragraph (a) of this section, will upon such transfer no longer be deemed Presidential historical materials as defined in §1275.16(a).

§ 1275.48 Restriction of materials related to abuses of governmental power.

(a) The Archivist will restrict access to materials determined during the processing period to relate to abuses of governmental power, as defined in §1275.16(c), when:

(1) Ordered by a court;
(2) The release of the materials would violate a Federal statute; or
(3) The materials are authorized under criteria established by executive order to be kept secret in the interest of national defense or foreign policy, provided that any question as to whether materials are in fact properly classified or are properly subject to classification will be resolved in accordance with the applicable executive order or as otherwise provided by law.

(b) However, the Archivist may waive these restrictions when:

(1) The requester is engaged in a historical research project; or
(2) The requester is a former Federal official who had been appointed by President Nixon to a policymaking position and who seeks access to only those classified materials which he originated, reviewed, signed, or received while in public office; and

(3) The requester has a security clearance equivalent to the highest degree of national security classification that may be applicable to any of the materials to be examined; and

(4) The Archivist has determined that the heads of agencies having subject matter interest in the material do not object to the granting of access to the materials; and

(5) The requester has signed a statement, which declares that the requester will not publish, disclose, or otherwise compromise the classified material to be examined and that the requester has been made aware of Federal criminal statutes which prohibit the compromise or disclosure of this information.

(c) The Archivist will restrict access to any portion of materials determined to relate to abuses of governmental power when the release of those portions would constitute a clearly unwarranted invasion of personal privacy or constitute libel of a living person: Provided, That if material related to an abuse of governmental power refers to, involves, or incorporates such personal information, the Archivist will make available such personal information, or portions thereof, if such personal information, or portions thereof, is essential to an understanding of the abuses of governmental power.

§ 1275.50 Restriction of materials of general historical significance unrelated to abuses of governmental power.

(a) The Archivist will restrict access to materials determined during the processing period to be of general historical significance, but not related to abuses of governmental power, under one or more of the circumstances specified in §1275.48(a).

(b) The Archivist will also restrict access to materials of general historical significance, but not related to abuses of governmental power, when the release of these materials would:

(1) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential; or
(2) Constitute a clearly unwarranted invasion of personal privacy of a living person; or
(3) Disclose investigatory materials compiled for law enforcement purposes, but only when the disclosure of such records would:
(i) Interfere with enforcement proceedings;
(ii) Deprive a person of a right to a fair trial or an impartial adjudication;
(iii) Constitute an unwarranted invasion of personal privacy;
(iv) Disclose the identity of a confidential source who furnished information on a confidential basis, and in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation or by an agency conducting a lawful national security intelligence investigation, confidential information furnished by a confidential source;
(v) Disclose techniques and procedures for law enforcement investigations or prosecutions, or disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law;
(vi) Endanger the life or physical safety of any individual.

§ 1275.52 Periodic review of restrictions.

The Archivist periodically will assign archivists to review materials placed under restriction by § 1275.48 or § 1275.50 and to make available for public access those materials which, with the passage of time or other circumstances, no longer require restriction.

§ 1275.54 Appeal of restrictions.

The Nixon Presidential Library controls the Nixon Presidential historical materials. Upon petition of any researcher who claims in writing to the library director that the restriction of specified materials is inappropriate and should be removed, the archivists will submit the pertinent materials, or representative examples of them, to the library director. The library director reviews the restricted materials, and consults with interested Federal agencies as necessary. To the extent these consultations require the transfer of copies of materials to Federal officials outside NARA, the library director will comply with the requirements of § 1275.32. As necessary and practicable, the library director will also seek the views of any person whose rights or privileges might be adversely affected by a decision to open the materials. The library director prepares a final written decision as to the continued restriction of all or part of the pertinent materials. The library director’s decision constitutes the final administrative determination. The library director will notify the petitioner and other interested people of the final administrative determination within 60 calendar days following receipt of such petition.

§ 1275.56 Deleting restricted portions.

The Archivist will provide a requester any reasonably segregable portions of otherwise restricted materials after NARA deletes the portions which are restricted under § 1275.48 or § 1275.50.

§ 1275.58 Requests for declassification.

Challenges to the classification and requests for the declassification of national security classified materials are governed by the provisions of 36 CFR part 1256, subpart E, as that may be amended from time to time.

§ 1275.60 Freedom of Information Act (FOIA) requests.

(a) The Archivist will process Freedom of Information Act (FOIA) requests for access to only those materials within the Presidential historical materials that are identifiable by an archivist as records of an agency as defined in § 1275.16(f). The Archivist will process these requests in accordance with the FOIA regulations set forth in 36 CFR part 1250, NARA Records Subject to FOIA.

(b) In order to allow NARA archivists to devote as much time and effort as possible to the processing of materials for general public access, the Archivist will not process those FOIA requests where the requester can reasonably obtain the same materials through a request directed to an agency (as defined in § 1275.16(f)), unless the requester demonstrates that he or she has unsuccessfully sought access from that agency or its successor in law or function.

(a) The primary use of NARA property in the Washington, DC, area (the National Archives Building and the National Archives at College Park), including those areas open to the public, is the conduct of official NARA business, including public programs and other activities conducted in conjunction with government and non-government organizations and the Foundation for the National Archives (“Foundation”). In conducting official business, NARA and its partners use all of the public areas of the Washington, DC, area facilities. There are no public areas in the Washington National Records Center in Suitland, MD.

(b) NARA may permit, under the conditions described in this subpart, the occasional use of certain public areas by other Federal agencies, quasi-Federal agencies, and state, local, and tribal government organizations for official activities. NARA also permits the occasional, non-official use of its public areas by organizations when the activity relates to or furthers NARA’s archival, records, or other programs.

§ 1280.71 What are the general rules for using NARA property in the Washington, DC, area?

In addition to the rules listed in Subparts A, B, and C of this part, you must adhere to the following rules when using NARA public spaces:

(a) All use must relate to or further the archival, records, or other activities of NARA. Examples of use that meet this standard include programs that promote research in or the dissemination and use of NARA holdings, including educational programs and materials, the preservation of NARA holdings or the historical records and documentary materials of other institutions, and the use and enjoyment of NARA exhibits.

(b) All use must be consistent with the public perception of NARA as an archival and research institution.

(c) When NARA cohosts an activity with the Foundation or other organizations, NARA must be identified as the cohost in all materials and publicity relating to the activity.

(e) You are not allowed to charge an admission fee or make any indirect assessment for admission, and you may not otherwise collect money at the event.

(f) You may not use NARA property or permission to use that property to advertise, promote, or sell commercial enterprises, products, or services, or for partisan political, sectarian, or similar purposes.

NARA may, upon application, permit other Federal agencies, quasi-Federal agencies, and State, local, and tribal governments to use the Rotunda for official functions, with NARA as a co-sponsor. In addition the Archivist must submit a written report to the Congress before accepting new libraries or certain proposed physical or material changes or additions to an existing library; and to ensure, for existing libraries subject to the mandatory endowment requirement, that the endowment specified by 44 U.S.C. 2112(g) has
been transferred to the National Archives Trust Fund before acceptance by the Archivist.

(b) This part applies to design and construction of new libraries that are offered to NARA on or after July 17, 2008 and to material changes or additions to new and existing libraries funded wholly by gift on or after that date.

§ 1281.3 What definitions apply to this part?

The following definitions apply to this part:

Architectural and design standards. This term refers to the document cited in §1281.4.

Archival functions. The term means arranging, describing, reviewing, preserving, reproducing, restoring, exhibiting, and making available Presidential and other records and historical materials in the care and custody of the Presidential libraries, and includes the salaries and expenses of NARA personnel performing those functions.

Endowment library. This term means a Presidential library that is subject to the endowment requirements of 44 U.S.C. 2112(g). The term includes the existing libraries of presidents who took the oath of office as President for the first time on or after January 20, 1985, the proposed library of President George W. Bush, and the libraries of presidents who take the oath of office as President for the first time on or after July 1, 2002.

Equipment. As used in this part, the term means operating equipment that must be furnished with the new library and included in the calculation of the required endowment. Operating equipment is fundamental to the operation of the library and is normally built into the facility or permanently mounted to the structure.

Existing library. This term means a Presidential library that has been accepted by the Archivist under 44 U.S.C. 2112(a) and established as part of the system of Presidential libraries managed by NARA.

Facility operations. This term means those activities, including administrative services, involved with maintaining, operating, protecting, and improving a Presidential library.

Foundation. This term means a private organization organized under state law to construct a new Presidential library. The term usually refers to nonprofit charitable organizations that meet the requirements of section 501(c)(3) of the Internal Revenue Code (26 CFR 501(c)(3)). The term specifically includes "foundation" and "institute," as those terms are used in 44 U.S.C. 2112(a)(1)(B).

Historical materials. The term "historical materials" has the meaning set forth at 44 U.S.C. 2101.
§ 1281.4 What are the architectural and design standards for Presidential libraries?

The Archivist is required by 44 U.S.C. 2112(a)(2) to promulgate architectural and design standards for Presidential libraries. The standards address the architectural, design, and structural requirements of a new Presidential library and additions or renovations, and they ensure that Presidential libraries are safe and efficient to operate and provide adequate and secure research and museum facilities. A copy of the standards is provided to the foundation upon request and is available from the Office of Presidential Libraries (NL), Room 2200, 8601 Adelphi Rd., College Park, MD 20740–6001.

§ 1281.6 What certifications must be provided to NARA?

(a) The foundation must provide to NARA design and construction certifications specified in the architectural and design standards.

(b) Any item that NARA finds is not in compliance with the architectural and design standards must be corrected by the foundation or, if not corrected by the foundation, will be corrected by NARA with the foundation paying the full cost of taking necessary corrective action.

§ 1281.8 What information must be provided to NARA for its report to Congress on a new Presidential library facility?

(a) NARA must submit a report to Congress on a proposed new library pursuant to 44 U.S.C. 2112(a)(3). The foundation that is building the library must help NARA as necessary in compiling the information needed for this report. If a State, political subdivision, university, institution of higher learning, or institute participates in the construction of the new library (e.g., by making land available for the facility), that party is subject to the same requirement. Requested information must be sent to the Office of Presidential Libraries (NL), Room 2200, 8601 Adelphi Rd., College Park, MD 20740–6001 far enough in advance of the anticipated date of transfer of the Library for NARA to compile and submit the report so that it may lie before Congress for the minimum time period specified in 44 U.S.C. 2112(a)(5). The normal lead time for submitting the required information is at least six months in advance of the anticipated date of transfer, but the submission date is subject to negotiation between NARA and the foundation in specific cases. The collection of information by NARA for these purposes has been approved under the Paperwork Reduction Act by the Office of Management and Budget with the control number 3095–0036.

(b) Paragraph (a)(3) of 44 U.S.C. 2112 lists the information that NARA must include in its report to Congress. The foundation and NARA will agree as part of the planning process for a new library on what information the foundation will provide and when. The same requirement applies to other entities involved in the construction of a new library (e.g., a local government or university). Foundations will normally be responsible, at a minimum, for providing the following information to NARA:

(1) A description of the land, facility, and equipment offered as a gift or to be made available without transfer of title, which must include:
§ 1281.12 What information must be provided to NARA for its report to Congress on a change or addition to a Presidential library facility?

(a) NARA must submit a report to Congress on a proposed physical or material change or addition to an existing library that is being funded wholly by gift. The foundation or other party offering the gift to NARA must help NARA as necessary in compiling the information needed for the report. Required information must be sent to the Office of Presidential Libraries (NL), Room 2200, 8601 Adelphi Rd., College Park, MD 20740–6001, far enough in advance of the Archivist’s acceptance of the gift for NARA to compile and submit the report to Congress in accordance with 44 U.S.C. 2112(a)(5). The normal lead time for submitting the required information on physical or material changes or additions is at least nine (9) months in advance of the anticipated date that work will begin on the physical or material change or addition to the library. The collection of information contained in this section has been approved under the Paperwork Reduction Act by the Office of Management and Budget with the control number 3095–0036.

(b) Paragraph (a)(4) of 44 U.S.C. 2112 lists the information that NARA must include in its report to Congress. The donor and NARA will agree as part of the planning process what information the donor will provide and when, but donors will normally be responsible, at a minimum, for providing the following information to NARA:

1. A description of the gift, which must include as appropriate:
   (i) The legal description of the land, including plat;
   (ii) Site plan, floor plans, building sections and elevations, artist’s representation of building and grounds;
   (iii) Description of building contents, including furniture, equipment, and museum installations;
   (iv) Measurement of the facility in accordance with § 1281.16.
2. A statement specifying the estimated total cost of the library and the amount of the endowment required pursuant to 44 U.S.C. 2112(g);
3. An offer or other statement setting forth the terms of the proposed agreement for transfer or use of the facility, if any;
4. Copies of any proposed agreements between the state, other political subdivision, the donating group, other institutions, and the United States which may affect ownership or operation of the library facility;
5. A statement of and copies of any proposed agreements concerning the proposed support of library programs by non-federal sources; and
6. A statement on cost-saving design features of the building.
7. A written certification that the library and the equipment therein will comply with NARA standards.

§ 1281.10 When does a foundation consult with NARA before offering a gift of a physical or material change, or addition to an existing library?

A foundation must consult with the Office of Presidential Libraries before beginning the process of offering a gift for the purpose of making a physical or material change or addition to a new or existing library. NARA will furnish the interested foundation the current architectural and design standards as specified in §1281.4. Others may request a single copy by writing the Office of Presidential Libraries (NL), Room 2200, 8601 Adelphi Road, College Park, Maryland 20740–6001.
§ 1281.14 What type of endowment is required for a Presidential library?

(a) Endowment requirement—new libraries. The foundation or organization that is offering NARA a new Presidential library must establish an endowment for the library, by gift or bequest, in the National Archives Trust Fund before the Archivist may accept the transfer of the library. The purpose of the endowment is to help NARA defray the cost of facility operations. The endowment requirement for the prospective new library of President George W. Bush is set forth in paragraphs 2 and 3 of 44 U.S.C. 2112(g). The endowment requirements for the new libraries of presidents taking the oath of office from the first time on or after July 1, 2002, are set forth in paragraphs 2, 3, and 5 of 44 U.S.C. 2112(g).

(b) Endowment requirement—change or addition to an endowment library. For a proposed physical or material change or addition to an endowment library that is being funded wholly by gift, the foundation or other organization that is offering the gift must agree, as a condition of the gift, to transfer monies by gift or bequest to the library’s existing endowment in the National Archives Trust Fund in an amount sufficient to satisfy the requirements of paragraphs 2, 3, and 5 of 44 U.S.C. 2112(g). The Archivist must determine that the additional endowment monies have been transferred to the Trust Fund before he accepts the gift of the physical or material change or addition.

(c) Use of endowment income. The income from a library’s endowment is available to cover the cost of facility operations, but is not available for the performance of archival functions.

(d) Calculating a library’s endowment. The formulas for calculating the required endowment are set forth in 44 U.S.C. 2112(g)(3)–(5).

(e) Equipment costs that must be included in the endowment calculation. The cost of all operating equipment provided with a new library must be included in the endowment calculation pursuant to 44 U.S.C. 2112(g)(3). The Archivist will provide in the architectural and design standards, a list of equipment guidelines, recommendations, and minimum requirements for a foundation’s use in designing and building a new library. The list is not exhaustive and requirements may change with evolving technology, program requirements, and the final library design.

(f) Formula for a shared use library building. For endowment purposes, the construction cost of a shared use library building containing both NARA and Foundation-controlled areas will be determined using the following formula: The percentage of the usable square footage of the NARA-controlled areas to the usable square footage of the entire building multiplied by the cost of the entire building. That figure is then used in calculating a library’s endowment as specified by subsection (d) of this section and 44 U.S.C. 2112(g)(3)–(5).

§ 1281.16 What standard does NARA use for measuring building size?

For purposes of 44 U.S.C. 2112(g)(3) and (4), and this part, NARA has adopted the BOMA Standard (incorporated by reference in §1281.2) as the standard for measuring the size of the facility and the value for calculating the endowment. The architectural and design standards contain the description of the area to be measured as to obtain the usable square footage and the exclusions to the measurement.
§ 1284.20 Does NARA exhibit privately-owned material?

§ 1284.30 Does NARA lend documents to other institutions for exhibit purposes?

Authority: 44 U.S.C. 2104(a), 2109.

Source: 69 FR 39323, June 30, 2004, unless otherwise noted.

§ 1284.1 Scope of part.

This part sets forth policies and procedures concerning the exhibition of materials.

§ 1284.20 Does NARA exhibit privately-owned material?

(a) NARA does not normally accept for display documents, paintings, or other objects belonging to private individuals or organizations except as part of a NARA-produced exhibit.

(b) NARA may accept for temporary special exhibit at the National Archives Building privately-owned documents or other objects under the following conditions:

(1) The material to be displayed relates to the institutional history of the National Archives and Records Administration or its predecessor organizations, the National Archives Establishment and the National Archives and Records Service;

(2) Exhibition space is available in the building that NARA judges to be appropriate in terms of security, light level, climate control, and available exhibition cases or other necessary fixtures; and

(3) NARA has resources (such as exhibit and security staff) available to produce the special exhibit.

(c) The Director of Museum Programs (NWE), in conjunction with the NARA General Counsel when appropriate, reviews all offers to display privately-owned material in the Washington, DC, area, and negotiates the terms of exhibition for offers that NARA can accept. Directors of Presidential libraries perform these tasks for their respective libraries. The lender must provide in writing evidence of title to and authenticity of the item(s) to be displayed before NARA makes a loan agreement.

(d) The Director of Museum Programs or director of the pertinent Presidential library will inform the offering private individual or organization of NARA’s decision in writing within 60 days.

§ 1284.30 Does NARA lend documents to other institutions for exhibit purposes?

Yes, NARA considers lending documents that are in appropriate condition for exhibition and travel. Prospective exhibitors must comply with NARA’s requirements for security, fire protection, environmental controls, packing and shipping, exhibit methods, and insurance. For additional information, contact Registrar, Museum Programs (NWE), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740–6001.
PART 1290—GUIDANCE FOR INTERPRETATION AND IMPLEMENTATION OF THE PRESIDENT JOHN F. KENNEDY ASSASSINATION RECORDS COLLECTION ACT OF 1992 (JFK ACT)

§ 1290.1 Scope of assassination record.

(a) An assassination record includes, but is not limited to, all records, public and private, regardless of how labeled or identified, that document, describe, report on, analyze or interpret activities, persons, or events reasonably related to the assassination of President John F. (b) An assassination record further includes, without limitation:
(1) All records as defined in Section 3(2) of the JFK Act;
(2) All records collected by or segregated by all Federal, state, and local government agencies in conjunction with any investigation or analysis of or inquiry into the assassination of President Kennedy (for example, any intragency investigation or analysis of or inquiry into the assassination; any interagency communication regarding the assassination; any request by the House Select Committee on Assassinations to collect documents and other materials; or any inter- or intra-agency collection or segregation of documents and other materials);
(3) Other records or groups of records listed in the Notice of Assassination Record Designation, as described in §1290.8 of this chapter.

§ 1290.2 Scope of additional records and information.

The term additional records and information includes:

(a) All documents used by government offices and agencies during their declassification review of assassination records as well as all other documents, indices, and other material (including but not limited to those that disclose cryptonyms, code names, or other identifiers that appear in assassination records) that the Assassination Records Review Board (Review Board) has a reasonable basis to believe may constitute an assassination record or would assist in the identification, evaluation or interpretation of an assassination record. The Review Board will identify in writing those records and other materials it intends to seek under this section.

(b) All training manuals, instructional materials, and guidelines created or used by the agencies in furtherance of their review of assassination records.

(4) Indexing symbols, marks, codes, instructions, guidelines, methods, and procedures;
(5) Search methods and procedures used in the performance of the agencies’ duties under the JFK Act; and
(6) Reclassification to a higher level, transfer, destruction, or other information (e.g., theft) regarding the status of assassination records.
§ 1290.6 Any other record that does not fall within the scope of assassination record as described in § 1290.1, but which has the potential to enhance, enrich, and broaden the historical record of the assassination.

§ 1290.3 Sources of assassination records and additional records and information.

Assassination records and additional records and information may be located at, or under the control of, without limitation:

(a) Agencies, offices, and entities of the executing, legislative, and judicial branches of the Federal Government;

(b) Agencies, offices, and entities of the executive, legislative, and judicial branches of state and local governments;

(f) Artifacts.

§ 1290.5 Requirement that assassination records be released in their entirety.

An assassination record shall be released in its entirety except for portions specifically postponed pursuant to the grounds for postponement of public disclosure of records established in § 2107.6 of the JFK Act, and no portion of any assassination record shall be withheld from public disclosure solely on grounds of non-relevance unless, in the Review Board’s sole discretion, release of part of a record is sufficient to comply with the intent and purposes of the JFK Act.

§ 1290.6 Originals and copies.

(a) For purposes of determining whether originals or copies of assassination records will be made part of the President John F. Kennedy Assassination Records Collection (JFK Assassination Records Collection) established under the JFK Act, the following shall apply:

(1) In the case of papers, maps, and other documentary materials, the Review Board may determine that record copies of government records, either the signed original, original production or a reproduction that has been treated as the official record maintained to chronicle government functions or activities, may be placed in the JFK Assassination Records Collection;

(2) In the case of other papers, maps, and other documentary material, the Review Board may determine that a true and accurate copy of a record in lieu of the original may be placed in the JFK Assassination Records Collection;

(3) In the case of photographs, the original negative, whenever available (otherwise, the earliest generation print that is a true and accurate copy), may be placed in the JFK Assassination Records Collection;

§ 1290.7 Additional guidance.

(a) A government agency, office, or entity includes, for purposes of interpreting and implementing the JFK Act, all current, past, and former departments, agencies, offices, divisions, foreign offices, bureaus, and deliberative bodies of any Federal, state, or local government and includes all inter- or intra-agency working groups, committees, and meetings that possess or created records relating to the assassination of President John F. Kennedy.

(b) The inclusion of artifacts in the scope of the term assassination record is understood to apply solely to the JFK Assassination Records Collection and to implement fully the terms of the JFK Act and has no direct or indirect bearing on the interpretation or implementation of any other statute or regulation.

(c) Whenever artifacts are included in the JFK Assassination Records Collection, it shall be sufficient to comply with the JFK Act if the public is provided access to photographs, drawings, or similar materials depicting the artifacts. Additional display of or examination by the public of artifacts in the JFK Assassination Records Collection shall occur under the terms and conditions established by the National Archives and Records Administration to ensure their preservation and protection for posterity.

(d) For purposes of implementing the JFK Act, the term copy means a true and accurate photocopy duplication by a means appropriate to the medium of the original record that preserves and displays the integrity of the record and the information contained in it.

(e) Nothing in this section shall be interpreted to suggest that additional copies of any assassination records contained in the JFK Assassination Records Collection are not also assassination records that, at the Review Board’s discretion, may also be placed in the JFK Assassination Records Collection.

(f) Nothing in this section shall be interpreted to prevent or to preclude copies of any electronic assassination records from being reformatted electronically in order to conform to different hardware and/or software requirements of audiovisual or machine readable formats if such is the professional judgment of the National Archives and Records Administration.
§ 1290.8 Implementing the JFK Act—Notice of Assassination Record Designation.

(a) A Notice of Assassination Record Designation (NARD) shall be the mechanism for the Review Board to announce publicly its determination that a record or group of records meets the definition of assassination records.

(b) Notice of all NARDs will be published in the Federal Register within 30 days of the decision to designate such records as assassination records.

(c) In determining to designate such records as assassination records, the Review Board must determine that the record or group of record will more likely than not enhance, enrich, and broaden the historical record of the assassination.

PART 1600—PUBLIC AVAILABILITY OF DOCUMENTS AND RECORDS

Subpart A—Procedures for Disclosure of Records Under the Freedom of Information Act

§ 1600.1 General provisions.
(a) This subpart contains the rules that the Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation (the Foundation) follows in processing requests for records under the Freedom of Information Act (FOIA), 5 U.S.C. 552. These rules should be read together with the FOIA, which provides additional information about access to records. Requests made by individuals for records about themselves under the Privacy Act of 1974, 5 U.S.C. 552a, which are processed under subpart B of this part, are processed under this subpart also. Information routinely provided to the public as part of a regular Foundation activity (for example, press releases, annual reports, informational brochures and the like) may be provided to the public without following this subpart. As a matter of policy, the Foundation makes discretionary disclosures of records or information exempt from disclosure under the FOIA whenever disclosure would not foreseeably harm an interest protected by a FOIA exemption, but this policy does not create any right enforceable in court.
(b) This subpart applies to all Foundation programs, including the U.S. Institute for Environmental Conflict Resolution (USIECR).

§ 1600.2 Public reading room.
(a) The Foundation maintains a public reading room that contains the records that the FOIA requires to be made regularly available for public inspection and copying. An index of reading room records shall be available for inspection and copying and shall be updated at least quarterly.

§ 1600.3 Requests for records.
(a) How made and addressed. You may make a request for records of the Foundation by writing to the General Counsel, Morris K. Udall Foundation, 110 South Church Avenue, Suite 3350, Tucson, Arizona.

Subpart A—Procedures for Disclosure of Records Under the Freedom of Information Act

§ 1600.1 General provisions.
(a) This subpart contains the rules that the Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation (the Foundation) follows in processing requests for records under the Freedom of Information Act (FOIA), 5 U.S.C. 552. These rules should be read together with the FOIA, which provides additional information about access to records. Requests made by individuals for records about themselves under the Privacy Act of 1974, 5 U.S.C. 552a, which are processed under subpart B of this part, are processed under this subpart also. Information routinely provided to the public as part of a regular Foundation activity (for example, press releases, annual reports, informational brochures and the like) may be provided to the public without following this subpart. As a matter of policy, the Foundation makes discretionary disclosures of records or information exempt from disclosure under the FOIA whenever disclosure would not foreseeably harm an interest protected by a FOIA exemption, but this policy does not create any right enforceable in court.
(b) This subpart applies to all Foundation programs, including the U.S. Institute for Environmental Conflict Resolution (USIECR).

§ 1600.2 Public reading room.
(a) The Foundation maintains a public reading room that contains the records that the FOIA requires to be made regularly available for public inspection and copying. An index of reading room records shall be available for inspection and copying and shall be updated at least quarterly.
(b) The public reading room is located at the offices of the Foundation, 110 S. Church Avenue, Suite 3350, Tucson, Arizona.
(c) The Foundation also makes reading room records created on or after November 1, 1996, available electronically, if possible, at the Foundation’s web site (which can be found at www.udall.gov). This includes the index of the reading room records, which will indicate which records are available electronically.

§ 1600.3 Requests for records.
(a) How made and addressed. You may make a request for records of the Foundation by writing to the General Counsel, Morris K. Udall Foundation, 110 South Church Avenue, Suite 3350, Tucson, Arizona 85701–1650. If you are making a request for records about yourself, see §1600.21 for additional requirements. If you are making a request for records about another individual, either a written authorization signed by
§ 1600.4

36 CFR Ch. XVI (7–1–16 Edition)

that individual permitting disclosure of those records to you or proof that that individual is deceased (for example, a copy of a death certificate or an obituary) will help the processing of your request. For the quickest possible handling, you should mark both your request letter and the envelope “Freedom of Information Act Request.”

(b) Description of records sought. You must describe the records that you seek in enough detail to enable Foundation personnel to locate them with a reasonable amount of effort. Whenever possible, your request should include specific information about each record sought, such as the date, title or name, author, recipient, and subject matter of the record. If the Foundation determines that your request does not reasonably describe records, it will tell you either what additional information is needed or why your request is otherwise insufficient. If your request does not reasonably describe the records you seek, the response to your request may be delayed.

(c) Types of records not available. The FOIA does not require the Foundation to:

(1) Compile or create records solely for the purpose of satisfying a request for records;

(2) Provide records not yet in existence, even if such records may be expected to come into existence at some future time; or

(3) Restore records destroyed or otherwise disposed of, except that the Foundation must notify the requester that the requested records have been destroyed or disposed of.

(d) Agreement to pay fees. If you make a FOIA request, your request shall be considered an agreement by you to pay all applicable fees charged under §1600.10, up to $25.00, unless you seek a waiver of fees. The Foundation ordinarily will confirm this agreement in an acknowledgment letter. When making a request, you may specify a willingness to pay a greater or lesser amount.

§1600.4 Timing of responses to requests.

(a) In general. The Foundation ordinarily shall respond to requests according to their order of receipt.

(b) Multitrack processing. (1) The Foundation may use two or more processing tracks by distinguishing between simple and more complex requests based on the amount of work and/or time needed to process the request. The anticipated number of pages involved may be considered by the Foundation in establishing processing tracks. If the Foundation sets a page limit for its faster track, it will advise those whose request is placed in its slower track(s) of the page limits of its faster track(s).

(2) If the Foundation uses multitrack processing, it may provide requesters in its slower track(s) with an opportunity to limit the scope of their requests in order to qualify for faster processing within the specified limits of its faster track(s).

(c) Unusual circumstances. (1) Where the statutory time limits for processing a request cannot be met because of “unusual circumstances,” as defined in the FOIA, and the Foundation decides to extend the time limits on that basis, the Foundation shall as soon as practicable notify the requester in writing of the unusual circumstances and of the date by which processing of the request can be expected to be completed. Where the extension is for more than 10 working days, the Foundation shall provide the requester with an opportunity either to modify the request so that it may be processed within the time limits or to arrange an alternative time period for processing the request or a modified request.

(2) Where the Foundation reasonably believes that multiple requests submitted by a requester, or by a group of requesters acting in concert, constitute a single request that would otherwise involve unusual circumstances, and the requests involve clearly related matters, they may be aggregated. Multiple requests involving unrelated matters will not be aggregated.

(d) Expedited processing. (1) Requests and appeals will be taken out of order and given expedited treatment whenever it is determined that they involve:

(i) Circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual; or
(ii) An urgency to inform the public about an actual or alleged federal government activity, if made by a person primarily engaged in disseminating information;

(2) You may ask for expedited processing of a request for records at any time.

(3) In order to request expedited processing, you must submit a statement, certified to be true and correct to the best of your knowledge and belief, explaining in detail the basis for requesting expedited processing. For example, if you are a requester within the category in paragraph (d)(1)(ii) of this section, and you are not a full-time member of the news media, you must establish that you are a person whose main professional activity or occupation is information dissemination, though it need not be your sole occupation; you also must establish a particular urgency to inform the public about the government activity involved in the request, beyond the public’s right to know about government activity generally. The formality of certification may be waived as a matter of administrative discretion.

(4) Within 10 calendar days of receipt of a request for expedited processing, the Foundation will decide whether to grant it and will notify you of the decision. If a request for expedited treatment is granted, the request will be given priority and processed as soon as practicable. If a request for expedited processing is denied, any appeal of that decision will be acted on expeditiously.

§ 1600.5 Responses to requests.

(a) Acknowledgments of requests. On receipt of your request, the Foundation ordinarily will send an acknowledgment letter to you, which will confirm your agreement to pay fees under § 1600.3(d) and provide an assigned request number for further reference.

(b) Referral to another agency. When a requester seeks records that originated in another Federal government agency, the Foundation will refer the request to the other agency for response. If the Foundation refers the request to another agency, it will notify the requester of the referral. A request for any records classified by some other agency will be referred to that agency for response.

(c) Grants of requests. Ordinarily, the Foundation will have 20 business days from when your request is received to determine whether to grant or deny your request. Once the Foundation determines to grant a request in whole or in part, it will notify you in writing. The Foundation will inform you in the notice of any fee charged under §1600.10 and will disclose records to you promptly on payment of any applicable fee. Records disclosed in part will be marked or annotated to show the amount of information deleted, unless doing so would harm an interest protected by an applicable exemption. The location of the information deleted also will be indicated on the record, if technically feasible.

(d) Adverse determinations of requests. If the Foundation denies your request in any respect, it will notify you of that determination in writing. Adverse determinations, or denials of requests, consist of: a determination to withhold any requested record in whole or in part; a determination that a requested record does not exist or cannot be located; a determination that a record is not readily reproducible in the form or format sought; a determination that what has been requested is not a record subject to the FOIA; a determination on any disputed fee matter, including a denial of a request for a fee waiver; and a denial of a request for expedited treatment. The denial letter shall be signed by the General Counsel or his/her designee, and shall include:

(1) The name and title or position of the person responsible for the denial;

(2) A brief statement of the reason(s) for the denial, including any FOIA exemption applied by the component in denying the request;

(3) An estimate of the volume of records or information withheld, in number of pages or in some other reasonable form of estimation. This estimate does not need to be provided if the volume is otherwise indicated through deletions on records disclosed in part, or if providing an estimate would harm an interest protected by an applicable exemption; and
§ 1600.6 Disclosure of requested records.

(a) The Foundation shall make requested records available to the public to the greatest extent possible in keeping with the FOIA, except that the following records are exempt from the disclosure requirements:

(1) Records specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and which are, in fact, properly classified pursuant to such Executive order;

(2) Records related solely to the internal personnel rules and practices of the Foundation;

(3) Records specifically exempted from disclosure by statute (other than 5 U.S.C. 552(b)), provided that such statute requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue or that the statute establishes particular criteria for withholding information or refers to particular types of matters to be withheld. An example that applies to the Foundation is the confidentiality protection for dispute resolution communications provided by the Administrative Dispute Resolution Act of 1996 (ADRA, 5 U.S.C. 571–574);

(4) Records containing trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Interagency or intra-agency memoranda or letters which would not be available by law to a party other than an agency in litigation with the Foundation;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information:

(i) could reasonably be expected to interfere with enforcement proceedings;

(ii) would deprive a person of a right to a fair trial or an impartial adjudication;

(iii) could reasonably be expected to constitute an unwarranted invasion of personal privacy;

(iv) could reasonably be expected to disclose the identity of a confidential source, including a State, local or foreign agency or authority or any private institution which furnished information on a confidential basis, and in the case of a recorded or information compiled by criminal law enforcement authority in the course of a criminal investigation or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source;

(v) would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law;

(vi) could reasonably be expected to endanger the life or physical safety of any individual.

(8) Records contained in or related to examination, operating, or condition reports prepared by, or on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions;

(9) Geological or geophysical information and data, including maps, concerning wells.

(b) If a requested record contains exempted material along with nonexempted material, all reasonable segregable nonexempt material shall be disclosed.

(c) Even if an exemption described in paragraph (a) of this section may be reasonably applicable to a requested record, or portion thereof, the Foundation may elect under the circumstances of any particular request not to apply the exemption to such requested record, or portion thereof, subject to the provisions in §1600.7 for confidential commercial information. The fact that the exemption is not applied by the Foundation to any requested...

§ 1600.7 Special procedures for confidential commercial information.

(a) Definitions. For purposes of this section:

(1) Business submitter means any person or entity which provides confidential commercial information, directly or indirectly, to the Foundation and who has a proprietary interest in the information.

(2) Commercial-use requester means requesters seeking information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made. In determining whether a requester properly belongs in this category, the Foundation shall determine, whenever reasonably possible, the use to which a requester will put the documents requested. Where the Foundation has reasonable cause to doubt the use to which a requester will put the records sought, or where that use is not clear from the request itself, the Foundation shall seek additional clarification before assigning the request to a specific category.

(3) Confidential commercial information means records provided to the government by a submitter that arguably contain material exempt from disclosure under Exemption 4 of the FOIA, 5 U.S.C. 552(b)(4), because disclosure could reasonably be expected to cause substantial competitive harm.

(b) In general. Confidential commercial information provided to the Foundation by a business submitter shall not be disclosed pursuant to an FOIA request except in accordance with this section.

(c) Designation of business information. Business submitters should use good-faith efforts to designate, by appropriate markings, either at the time of submission or at a reasonable time thereafter, those portions of their submissions which they deem to be protected under Exemption 4 of the FOIA, 5 U.S.C. 552(b)(4). Any such designation will expire 10 years after the records were submitted to the government, unless the submitter requests, and provides reasonable justification for, a designation period of longer duration.

(d) Predisclosure notification. (1) Except as is provided for in paragraph (i) of this section, the Foundation shall, to the extent permitted by law, provide a submitter with prompt written notice of an FOIA request or administrative appeal encompassing its confidential business information whenever required under paragraph (e) of this section. Such notice shall either describe the exact nature of the business information requested or provide copies of the records or portions thereof containing the business information.

(2) Whenever the Foundation provides a business submitter with the notice set forth in paragraph (e)(1) of this section, the Foundation shall notify the requester that the request includes information that may arguably be exempt from disclosure under Exemption 4 of the FOIA and that the person or entity who submitted the information to the Foundation has been given the opportunity to comment on the proposed disclosure of information.

(e) When notice is required. The Foundation shall provide a business submitter with notice of a request whenever—

(1) The business submitter has in good faith designated the information as business information deemed protected from disclosure under 5 U.S.C. 552(b)(4); or

(2) The Foundation has reason to believe that the request seeks business information the disclosure of which may result in substantial commercial or financial injury to the business submitter.

(f) Opportunity to object to disclosure. Through the notice described in paragraph (d) of this section, the Foundation shall, to the extent permitted by law, afford a business submitter at least 10 working days within which it can provide the Foundation with a detailed written statement of any objection to disclosure. Such statement shall demonstrate why the information is contended to be a trade secret or commercial or financial information that is privileged or confidential and...
why disclosure would cause competitive harm. Whenever possible, the business submitter’s claim of confidentiality should be supported by a statement or certification by an officer or authorized representative of the business submitter. Information provided by a submitter pursuant to this paragraph may itself be subject to disclosure under the FOIA.

(g) Notice of intent to disclose. (1) The Foundation shall consider carefully a business submitter’s objections and specific grounds for nondisclosure prior to determining whether to disclose confidential commercial business information. Whenever the Foundation decides to disclose such information over the objection of a business submitter, the Foundation shall forward to the business submitter a written notice at least 10 working days before the date of disclosure containing—
   (i) A statement of the reasons for which the business submitter’s disclosure objections were not sustained,
   (ii) A description of the confidential commercial information to be disclosed, and
   (iii) A specified disclosure date.
(2) Such notice of intent to disclose likewise shall be forwarded to the requester at least 10 working days prior to the specified disclosure date.

(h) Notice of FOIA lawsuit. Whenever a requester brings suit seeking to compel disclosure of confidential commercial information, the Foundation shall promptly notify the business submitter of such action.
(1) Exceptions to predisclosure notification. The requirements of this section shall not apply if—
   (i) The Foundation determines that the information should not be disclosed;
   (ii) The information lawfully has been published or has been officially made available to the public;
   (iii) Disclosure of the information is required by law (other than 5 U.S.C. 552); or
   (iv) The designation made by the submitter in accordance with paragraph (c) of this section appears obviously frivolous; except that, in such a case, the Foundation will provide the submitter with written notice of any final decision to disclose confidential commercial information within a reasonable number of days prior to a specified disclosure date.

§ 1600.8 Appeals.

(a) Appeals of adverse determinations. If you are dissatisfied with the Foundation’s response to your request, you may appeal an adverse determination denying your request, in any respect, to the Executive Director of the Foundation, 110 S. Church Avenue, Suite 3350, Tucson, AZ 85701–1650. You must make your appeal in writing, and it must be received by the Executive Director within 60 days of the date of the letter denying your request. Your appeal letter may include as much or as little related information as you wish, as long as it clearly identifies the determination (including the assigned request number, if known) that you are appealing. For the quickest possible handling, you should mark your appeal letter and the envelope “Freedom of Information Act Appeal.”

(b) Responses to appeals. The decision on your appeal will be made in writing. A decision affirming an adverse determination in whole or in part shall contain a statement of the reason(s) for the affirmance, including any FOIA exemption(s) applied, and will inform you of the FOIA provisions for court review of the decision. If the adverse determination is reversed or modified on appeal, in whole or in part, you will be notified in a written decision and your request will be reprocessed in accordance with that appeal decision.

(c) When appeal is required. If you wish to seek review by a court of any adverse determination, you must first appeal it under this section.

§ 1600.9 Preservation of records.

The Foundation will preserve all correspondence pertaining to the requests that it receives under this subpart, as well as copies of all requested records, until disposition or destruction is authorized by title 44 of the United States Code or the National Archives and Records Administration’s General Records Schedule 14. Records will not be disposed of while they are the subject of a pending request, appeal, or lawsuit under the FOIA.
§ 1600.10 Fees.

(a) In general. The Foundation will charge you for processing requests under the FOIA in accordance with paragraph (c) of this section, except where fees are limited under paragraph (d) of this section or where a waiver or reduction of fees is granted under paragraph (i) of this section. The Foundation ordinarily will collect all applicable fees before sending copies of requested records to you. You must pay fees by check or money order made payable to the United States Treasury.

(b) Definitions. For purposes of this section:

1. Commercial use request means a request from or on behalf of a person seeking information for a use or purpose that furthers his or her commercial, trade, or profit interests, which can include furthering those interests through litigation. If the Foundation determines that you will put the records to a commercial use, either because of the nature of your request itself or because the Foundation has reasonable cause to doubt your stated use, the Foundation will provide you a reasonable opportunity to submit further clarification.

2. Direct costs means those expenses that the Foundation actually incurs in searching for and duplicating (and, in the case of commercial use requests, reviewing) records to respond to a FOIA request. Direct costs include, for example, the salary of the employee performing the work and the cost of operating duplication machinery.

3. Duplication means the process of making a copy of a record, or the information contained in it, available in response to a FOIA request. Copies can take the form of paper, microfilm, audiovisual materials, or electronic records (for example, magnetic tape or disk), among others. The Foundation will honor your specified preference of form or format of disclosure if the record is readily reproducible with reasonable efforts in the requested form or format.

4. Educational institution means a preschool, a public or private elementary or secondary school, an institution of undergraduate or graduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.

5. Noncommercial scientific institution means an institution that is not operated on a “commercial” basis, as that term is defined in paragraph (b)(1) of this section, and that is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry. To be in this category, a requester must show that the request is authorized by and is made under the auspices of a qualifying institution and that the records are not sought for a commercial use but are sought to further scientific research.

6. Representative of the news media, or news media requester, means any person actively gathering news for an entity that is organized and operated to publish or broadcast news to the public. The term news means information that is about current events or that would be of current interest to the public. Examples of news media entities include television or radio stations broadcasting to the public at large and publishers of periodicals (but only in those instances where they can qualify as disseminators of news) who make their products available for purchase or subscription by the general public. For freelance journalists to be regarded as working for a news organization, they must demonstrate a solid basis for expecting publication through that organization. A publication contract would be the clearest proof, but the Foundation shall also look to the past publication record of a requester in making this determination. To be in this category, a requester must not be seeking the requested records for a commercial use. However, a request for records supporting the news-dissemination function of the requester shall not be considered to be for a commercial use.

7. Review means the examination of a record located in response to a request in order to determine whether any portion of it is exempt from disclosure. It also includes processing any record for disclosure—for example, doing all that is necessary to redact it and prepare it for disclosure. Review costs are recoverable even if a record ultimately is not disclosed. Review
time does not include time spent resolving general legal or policy issues regarding the application of exemptions.

(8) Search means the process of looking for and retrieving records or information responsive to a request. It includes page-by-page or line-by-line identification of information within records and also includes reasonable efforts to locate and retrieve information from records maintained in electronic form or format.

(c) Fees. In responding to FOIA requests, the Foundation will charge the following fees unless a waiver or reduction of fees has been granted under paragraph (i) of this section:

(1) Search. Search fees will be charged for all requests, except for those by educational institutions, noncommercial scientific institutions, or representatives of the news media (subject to the limitations of paragraph (d) of this section). Charges may be made for time spent searching even if no responsive record is located or if the record(s) are withheld as entirely exempt from disclosure.

(2) Duplication. Duplication fees will be charged for all requests, subject to the limitations of paragraph (d) of this section. For a paper photocopy of a record, the fee will be ten cents per page. For other forms of duplication (including copies produced by computer, such as tapes or printouts), the Foundation will charge the direct costs, including operator time, of producing the copy.

(3) Review. Review fees will be charged only for commercial use requests. Review fees will be charged only for the initial record review—in other words, the review done when the Foundation determines whether an exemption applies to a particular record or record portion at the initial request level. No charge will be made for review at the administrative appeal level for an exemption already applied. However, records or record portions withheld under an exemption that is subsequently determined not to apply may be reviewed again to determine whether any other exemption not previously considered applies; the costs of that review are chargeable where it is made necessary by such a change of circumstances.

(4) Searches and reviews—amounts of fees. (i) For each quarter hour spent in searching for and/or reviewing a requested record, the fees will be: $4.00 for clerical personnel; $7.00 for professional personnel; and $10.25 for managerial personnel.

(ii) For computer searches of records, you will be charged the direct costs of conducting the search, although certain requesters (as provided in paragraph (d)(4) of this section) will be charged no search fee and certain other requesters (as provided in paragraph (d)(1) of this section) will be entitled to the cost equivalent of two hours of manual search time without charge. These direct costs will include the cost of operating a central processing unit for that portion of operating time that is directly attributable to searching for responsive records, as well as the costs of operator/programmer salary apportionable to the search.

(d) Limitations on charging fees. (1) No search fee will be charged for requests by educational institutions, noncommercial scientific institutions, or representatives of the news media.

(2) Review fees will be charged only for commercial use requests.

(3) No search fee or review fee will be charged for a quarter-hour period unless more than half of that period is required for search or review.

(4) Except for commercial use requests, the Foundation will provide the first 100 pages of duplication and the first two hours of search time to requesters without charge. These provisions work together, so that the Foundation will not begin to assess fees until after providing the free search and reproduction. For example, if a request involves three hours of search time and duplication of 105 pages of documents, the Foundation will charge only for the cost of one hour of search time and five pages of reproduction.

(5) Whenever a total fee calculated under paragraph (d) of this section is $14.00 or less for any request, no fee will be charged.

(e) Notice of anticipated fees in excess of $25.00. When the Foundation determines or estimates that the fees will be more than $25.00, it will notify you of
the actual or estimated amount of the fees, unless you have indicated a willingness to pay fees as high as those anticipated. If only a portion of the fee can be estimated readily, the Foundation will advise you that the estimated fee may be only a portion of the total fee. In cases in which you have been notified that actual or estimated fees amount to more than $25.00, the request will not be considered received and further work will not be done on it until you agree in writing to pay the anticipated total fee. A notice under this paragraph will offer you an opportunity to discuss the matter with Foundation personnel in order to reformulate the request to meet your needs at a lower cost.

(f) Charging interest. The Foundation may charge interest on any unpaid bill starting on the 31st day following the date of billing. Interest charges will be assessed at the rate provided in 31 U.S.C. 3717 and will accrue from the date of the billing until payment is received by the Foundation.

(g) Aggregating requests. Where the Foundation reasonably believes that a requester or a group of requesters acting together is attempting to divide a request into a series of requests for the purpose of avoiding fees, it may aggregate those requests and charge accordingly. The Foundation may presume that multiple requests of this type made within a 30-day period have been made in order to avoid fees. Where requests are separated by a longer period, they will be aggregated only if there exists a solid basis for determining that aggregation is warranted under all the circumstances involved. Multiple requests involving unrelated matters will not be aggregated.

(h) Advance payments. (1) No advance payment (that is, payment before work is begun on a request) will ordinarily be required, except as described in paragraphs (h)(2) and (3) of this section. Payment owed for work already completed (that is, a prepayment before copies are sent to you) is not considered an advance payment.

(2) Where the Foundation determines or estimates that a total fee to be charged under this section will be more than $250.00, it may require you to make an advance payment of an amount up to the amount of the entire anticipated fee before beginning to process the request, except where it receives satisfactory assurance of full payment from you and you have a history of prompt payment.

(3) If you have previously failed to pay a properly charged FOIA fee within 30 days of the date of billing, the Foundation may require you to pay the full amount due, plus any applicable interest, and to make an advance payment of the full amount of any anticipated fee, before it begins to process a new request or continues to process a pending request from you.

(4) In cases in which the Foundation requires advance payment or payment due under paragraph (h)(2) or (3) of this section, the request shall not be considered received and further work will not be done on it until the required payment is received.

(i) Requirements for waiver or reduction of fees. (1) Records responsive to a request will be furnished without charge or at a charge reduced below that established under paragraph (c) of this section where the Foundation determines, based on all available information, that the requester has demonstrated that:

(i) Disclosure of the requested information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government, and

(ii) Disclosure of the information is not primarily in the commercial interest of the requester.

(2) If you request a waiver or reduction of fees, your request should address the factors listed in paragraph (i)(1) of this section.

Subpart B—Protection of Privacy and Access to Individual Records Under the Privacy Act of 1974

§ 1600.21 General provisions.

(a) Purpose and scope. This subpart contains the rules that the Morris K. Udall Scholarship and Excellence in
National Environmental Policy Foundation (the “Foundation”) follows under the Privacy Act of 1974, 5 U.S.C. 552a. These rules should be read together with the Privacy Act, which provides additional information about records maintained on individuals. The rules in this subpart apply to all records in systems of records maintained by the Foundation that are retrieved by an individual’s name or personal identifier. They describe the procedures by which individuals may request access to records about themselves, request amendment or correction of those records, and request an accounting of disclosures of those records by the Foundation. In addition, the Foundation processes all Privacy Act requests for access to records under the Freedom of Information Act (FOIA), 5 U.S.C. 552, following the rules contained in subpart A of this part, which gives requests the benefit of both statutes.

(b) Applicability. This subpart applies to all Foundation programs, including the U.S. Institute for Environmental Conflict Resolution (USIECR).

(c) Definitions. As used in this subpart:

(1) Request for access to a record means a request made under Privacy Act subsection (d)(1).

(2) Request for amendment or correction of a record means a request made under Privacy Act subsection (d)(2).

(3) Request for an accounting means a request made under Privacy Act subsection (c)(3).

(4) Requester means an individual who makes a request for access, a request for amendment or correction, or a request for an accounting under the Privacy Act.

§ 1600.22 Requests for access to records.

(a) How made and addressed. You may make a request for access to a Foundation record about yourself by appearing in person or by writing to the Foundation. Your request should be sent or delivered to the Foundation’s General Counsel, at 110 S. Church Avenue, Suite 3350, Tucson, AZ 85701-1650. For the quickest possible handling, you should mark both your request letter and the envelope “Privacy Act Request.”

(b) Description of records sought. You must describe the records that you want in enough detail to enable Foundation personnel to locate the system of records containing them with a reasonable amount of effort. Whenever possible, your request should describe the records sought, the time periods in which you believe they were compiled, and the name or identifying number of each system of records in which you believe they are kept. The Foundation publishes notices in the FEDERAL REGISTER that describe its systems of records. A description of the Foundation’s systems of records also may be found as part of the “Privacy Act Compilation” published by the National Archives and Records Administration’s Office of the Federal Register. This compilation is available in most large reference and university libraries. This compilation also can be accessed electronically at the Government Printing Office’s World Wide Web site (which can be found at http://www.access.gpo.gov/su_docs).

(c) Agreement to pay fees. If you make a Privacy Act request for access to records, it shall be considered an agreement by you to pay all applicable fees charged under §1600.29 up to $25.00. The Foundation ordinarily will confirm this agreement in an acknowledgment letter. When making a request, you may specify a willingness to pay a greater or lesser amount.

(d) Verification of identity. When you make a request for access to records about yourself, you must verify your identity. You must state your full name, current address, and date and place of birth. You must sign your request and your signature must either be notarized or submitted by you under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. In order to help the identification and location of requested records, you may also, at your option, include your social security number.

(e) Verification of guardianship. When making a request as the parent or guardian of a minor or as the guardian of someone determined by a court to be incompetent, for access to records
about that individual, you must establish:

(1) The identity of the individual who is the subject of the record, by stating the name, current address, date and place of birth, and, at your option, the social security number of the individual;

(2) Your own identity, as required in paragraph (d) of this section;

(3) That you are the parent or guardian of that individual, which you may prove by providing a copy of the individual’s birth certificate showing your parentage or by providing a court order establishing your guardianship; and (4) That you are acting on behalf of that individual in making the request.

§ 1600.23 Responsibility for responding to requests for access to records.

(a) In general. In determining which records are responsive to a request, the Foundation ordinarily will include only those records in its possession as of the date the Foundation begins its search for them. If any other date is used, the Foundation will inform the requester of that date.

(b) Authority to grant or deny requests. The Foundation’s General Counsel, or his/her designee, is authorized to grant or deny any request for access to a record of the Foundation.

(c) Consultations and referrals. When the Foundation receives a request for access to a record in its possession, it will determine whether another agency of the Federal Government is better able to determine whether the record is exempt from access under the Privacy Act. If the Foundation determines that it is best able to process the record in response to the request, then it will do so. If the Foundation determines that it is not best able to process the record, then it will either:

(1) Respond to the request regarding that record, after consulting with the agency best able to determine whether the record is exempt from access and with any other agency that has a substantial interest in it; or (2) Refer the responsibility for responding to the request regarding that record to another agency that originated the record (but only if that agency is subject to the Privacy Act). Ordinarily, the agency that originated a record will be presumed to be best able to determine whether it is exempt from access.

(d) Notice of referral. Whenever the Foundation refers all or any part of the responsibility for responding to your request to another agency, it ordinarily will notify you of the referral and inform you of the name of each agency to which the request has been referred and of the part of the request that has been referred.

(e) Timing of responses to consultations and referrals. All consultations and referrals shall be handled according to the date the Privacy Act access request was initially received by the Foundation, not any later date.

§ 1600.24 Responses to requests for access to records.

(a) Acknowledgments of requests. On receipt of your request, the Foundation ordinarily will send an acknowledgment letter, which shall confirm your agreement to pay fees under §1600.22(c) and may provide an assigned request number for future reference.

(b) Grants of requests for access. Once the Foundation makes a determination to grant your request for access in whole or in part, it will notify you in writing. The Foundation will inform you in the notice of any fee charged under §1600.29 and will disclose records to you promptly on payment of any applicable fee. If your request is made in person, the Foundation may disclose records to you directly, in a manner not unreasonably disruptive of its operations, on payment of any applicable fee and with a written record made of the grant of the request. If you are accompanied by another person when you make a request in person, you shall be required to authorize in writing any discussion of the records in the presence of the other person.

(c) Adverse determinations of requests for access. If the Foundation makes an adverse determination denying your request for access in any respect, it will notify you of that determination in writing. Adverse determinations, or denials of requests, consist of: a determination to withhold any requested record in whole or in part; a determination that a requested record does not exist or cannot be located; a determination that the record is not responsive to the request; or a determination that the record is exempt from access under the Privacy Act.
§ 1600.25 Appeals from denials of requests for access to records.

(a) Appeals. If you are dissatisfied with the Foundation’s response to your request for access to records, you may appeal an adverse determination denying your request in any respect to the Executive Director of the Foundation, 110 S. Church Avenue, Suite 3350, Tucson, AZ 85701–1650. You must make your appeal in writing, and it must be received within 60 days of the date of the letter denying your request. Your appeal letter may include as much or as little related information as you wish, as long as it clearly identifies the determination (including the assigned request number, if any) that you are appealing. For the quickest possible handling, you should mark both your appeal letter and the envelope “Privacy Act Appeal.”

(b) Responses to appeals. The decision on your appeal will be made in writing. A decision affirming an adverse determination in whole or in part will include a brief statement of the reason(s) for the affirmance, including any Privacy Act exemption applied, and will inform you of the Privacy Act provisions for court review of the decision. If the adverse determination is reversed or modified on appeal in whole or in part, you will be notified in a written decision and your request will be reprocessed in accordance with that appeal decision.

(c) When appeal is required. If you wish to seek review by a court of any adverse determination or denial of a request, you must first appeal it under this section.

§ 1600.26 Requests for amendment or correction of records.

(a) How made and addressed. You may make a request for amendment or correction of a Foundation record about yourself by following the procedures in §1600.22. Your request should identify each particular record in question, state the amendment or correction that you want, and state why you believe that the record is not accurate, relevant, timely, or complete. You may submit any documentation that you think would be helpful.

(b) Foundation responses. Within 10 working days of receiving your request for amendment or correction of records, the Foundation will send you a written acknowledgment of its receipt of your request, and it will promptly notify you whether your request is granted or denied. If the Foundation grants your request in whole or in part, it will describe the amendment or correction made and advise you of your right to obtain a copy of the corrected or amended record. If the Foundation denies your request in whole or in part, it will send you a letter stating:

(1) The reason(s) for the denial; and

(2) The procedure for appeal of the denial under paragraph (c) of this section, including the name and business address of the official who will act on your appeal.

(c) Appeals. You may appeal a denial of a request for amendment or correction to the Executive Director in the same manner as a denial of a request for access to records (see §1600.25), and the same procedures will be followed. If your appeal is denied, you will be advised of your right to file a Statement of Disagreement as described in paragraph (d) of this section and of your right under the Privacy Act for court review of the decision.

(d) Statements of Disagreement. If your appeal under this section is denied in whole or in part, you have the right to file a Statement of Disagreement that states your reason(s) for disagreeing with the Foundation’s denial of your request for amendment or correction. Statements of Disagreement must be concise, must clearly identify each
part of any record that is disputed, and should be no longer than one typed page for each fact disputed. Your Statement of Disagreement must be sent to the Foundation, which will place it in the system of records in which the disputed record is maintained and will mark the disputed record to indicate that a Statement of Disagreement has been filed and where in the system of records it may be found.

(e) Notification of amendment/correction or disagreement. Within 30 working days of the amendment or correction of a record, the Foundation shall notify all persons, organizations, or agencies to which it previously disclosed the record, if an accounting of that disclosure was made, that the record has been amended or corrected. If an individual has filed a Statement of Disagreement, the Foundation will attach a copy of it to the disputed record whenever the record is disclosed and may also attach a concise statement of its reason(s) for denying the request to amend or correct the record.

§ 1600.27 Requests for an accounting of record disclosures.
(a) How made and addressed. Except where accountings of disclosures are not required to be kept (as stated in paragraph (b) of this section), you may make a request for an accounting of any disclosure that the Foundation has made to you. Your request for an accounting should identify each particular record in question and should be made by writing to the Foundation, following the procedures in §1600.22.

(b) Where accountings are not required. The Foundation is not required to provide accountings to you where they relate to disclosures for which accountings are not required to be kept—in other words, disclosures that are made to employees within the agency and disclosures that are made under the FOIA.

(c) Appeals. You may appeal a denial of a request for an accounting to the Foundation Executive Director in the same manner as a denial of a request for access to records (see §1600.25) and the same procedures will be followed.

§ 1600.28 Preservation of records.
The Foundation will preserve all correspondence pertaining to the requests that it receives under this subpart, as well as copies of all requested records, until disposition or destruction is authorized by title 44 of the United States Code or the National Archives and Records Administration’s General Records Schedule 14. Records will not be disposed of while they are the subject of a pending request, appeal, or lawsuit under the Act.

§ 1600.29 Fees.
The Foundation will charge fees for duplication of records under the Privacy Act in the same way in which it charges duplication fees under §1600.10. No search or review fee will be charged for any record.

§ 1600.30 Notice of court-ordered and emergency disclosures.
(a) Court-ordered disclosures. When a record pertaining to an individual is required to be disclosed by a court order, the Foundation will make reasonable efforts to provide notice of this to the individual. Notice will be given within a reasonable time after the Foundation’s receipt of the order—except that in a case in which the order is not a matter of public record, the notice will be given only after the order becomes public. This notice will be mailed to the individual’s last known address and will contain a copy of the order and a description of the information disclosed.

(b) Emergency disclosures. Upon disclosing a record pertaining to an individual made under compelling circumstances affecting health or safety, the Foundation will notify that individual of the disclosure. This notice will be mailed to the individual’s last known address and will state the nature of the information disclosed; the person, organization, or agency to
§ 1600.30

which it was disclosed; the date of disclosure; and the compelling circumstances justifying the disclosure.
