for resources. There is no significance in the order of the listing—all are important. The order in which and the extent to which they are supported locally may vary with local conditions and circumstances. If local conditions necessitate the establishment of an order of priority among these activities, that order shall be based on determinations of relative urgency among the activities listed, the availability of resources for achieving the actions required, and the feasibility and timeliness of the activities in making the most rapid and effective contribution to national survival.

(a) The immediate defense and retaliatory combat operations of the Armed Forces of the United States and its Allies: This includes support of military personnel and the production and distribution of military and atomic weapons, materials and equipment required to carry out these immediate defense and retaliatory combat operations.

(b) Maintenance or reestablishment of Government authority and control to restore and preserve order and to assure direction of emergency operations essential for the safety and protection of the people. This includes:
   (1) Police protection and movement direction;
   (2) Fire defense, rescue and debris clearance;
   (3) Warnings;
   (4) Emergency information and instructions;
   (5) Radiological detection, monitoring and decontamination.

(c) Production and distribution of survival items and provision of services essential to continued survival and rapid recovery. (For list of survival items, see appendix 1 to this part.)

These include:
   (1) Expedient shelter;
   (2) Food, including necessary processing and storage;
   (3) Feeding, clothing, lodging, and other welfare services;
   (4) Emergency housing and community services;
   (5) Emergency health services, including medical care, public health and sanitation;
   (6) Water, fuel, and power supply;
   (7) Emergency repair and restoration of damaged vital facilities.

(d) Essential communications and transportation services needed to carry out the above activities.

(e) Provision of supplies, equipment, and repair parts to produce and distribute goods needed for the above activities.

§ 323.5 Assignment of resources.

Resources required for essential uses, including manpower, will be assigned to meet the emergency requirements of the priority activities indicated above. The principal objectives are to use available resources to serve essential needs promptly and effectively, and to:

(a) Protect and to prevent waste or dissipation of resources prior to their assignment to priority activities;

(b) Support production of essential goods. Other production will be permitted to continue only from inventories on hand and when there is no emergency requirement for the resources vital to this production.

(c) Support construction for emergency repair and restoration, construction of facilities needed for survival, or the conversion of facilities to survival use, where this can be accomplished quickly. Other construction already under way should be stopped, and no new construction started unless it can be used immediately for essential purposes upon completion.

APPENDIX 1 TO PART 323—LIST OF ESSENTIAL SURVIVAL ITEMS

This document contains a list of items considered essential to sustain life at a productive level to assure national survival in an emergency. The list identifies items to which major attention should be given in all phases of preattack planning to assure the availability of basic essentials for a productive economy in the event of a nuclear attack. Supply-requirements studies and assessments for these items will be made to disclose critical deficiencies or other problems that can be anticipated. Revisions will be made as necessary to keep the items as up-to-date as possible.

The items are arranged by seven major groups:

   (1) Health Supplies and Equipment,
   (2) Food,
   (3) Body Protection and Household Operations,
   (4) Electric Power and Fuels,
   (5) Sanitation and Water Supply.
Survival items are defined as “those items without which large segments of the population would die or have their health so seriously impaired as to render them both burdensome and non-productive.” The items have been classified into Group A or Group B, with Group A representing end products consumed or used directly by the population, and Group B consisting of those items essential to the effective production and utilization of the Group A items, which are consumed or used directly by the people. There are no Group B items in the categories of Health Supplies and Equipment, Body Production and Household Operations, and Emergency Housing and Construction Materials and Equipment. All of these items are considered to be consumed directly and any attempt to separate them into A and B groupings would be too arbitrary to be meaningful.

It is important to keep in mind the fact that while the items listed are the basic essentials necessary for maintaining a viable economy during the first six months following an attack, not all of them would create problems that would require government action preattack to insure adequate supplies. The aforementioned supply-requirements studies will be undertaken to identify the problem areas. In developing supply data, all available production capacity, existing inventories, and possible substitutions will be considered. For example, in analyzing clothing items, all available supplies would be considered from sport to dress shirts, from overalls to dress suits. However, new production would be limited to the simplest form of the basic item which can be produced. The final determination as to which of the items are most critical and which may require preattack actions by the Government, as well as the type of actions which must be taken, can be made only after a comprehensive supply-requirements analysis is completed.

**LIST OF ESSENTIAL SURVIVAL ITEMS**

**I. HEALTH SUPPLIES AND EQUIPMENT**

**Group A**

1. **Pharmaceuticals:**
   - Alcohol.
   - Analgesics, non-narcotic.
   - Antibiotics and antibacterials.
   - Antidiabetic agents, oral.
   - Antihistamines.
   - Antimalarias.
   - Antiparasitics.
   - Blood derivatives.
   - Carbon dioxide absorbent.
   - Cardiovascular depressants.
   - Cardiovascular stimulants.
   - Corticosteroids.
   - Diuretics.
   - General anesthetics.
   - Hypnotics.
   - Intravenous solutions for replacement therapy.
   - Local anesthetics.
   - Lubricant, surgical.
   - Morphine and substitutes.
   - Oral electrolytes.
   - Oxygen.
   - Surgical antisepsics.
   - Sulfa drugs.
   - Synthetic plasma volume expanders.
   - Water for injection.

2. **Blood Collecting and Dispensing Supplies:**
   - Blood collecting and dispensing containers.
   - Blood donor sets.
   - Blood grouping and typing sera.
   - Blood recipient sets.
   - Blood shipping containers.

3. **Biologics:**
   - Diphtheria toxoid.
   - Diphtheria antitoxin.
   - Diphtheria and tetanus toxoids and pertussis vaccine.
   - Gas gangrene antitoxin.
   - Poliomyelitis vaccine, oral.
   - Rabies vaccine.
   - Smallpox vaccine.
   - Tetanus antitoxin.
   - Tetanus toxoid, absorbed.
   - Typhoid vaccine.
   - Typhus vaccine, epidemic.
   - Yellow fever vaccine.

4. **Surgical Textiles:**
   - Adhesive plaster.
   - Bandage, gauze.
   - Bandage, muslin.
   - Bandage, plaster of paris.
   - Cotton, USP.
   - Stockinet, surgical.
   - Wadding, cotton sheet.

5. **Emergency Surgical Instruments and Supplies:**
   - Airway, pharyngeal.
   - Anesthesia apparatus.
   - Basin, wash, solution.
   - Blade, surgical knife.
   - Brush, scrub, surgical.
   - Catheter, urethral.
   - Containers for sterilization.
   - Chisel, bone.
   - Drain, Penrose.
   - Dusting powder.
   - Forceps, dressing.
   - Forceps, hemostat.
   - Forceps, obstetrical.
   - Forceps, tissue.
   - Gloves, surgeon’s.
   - Handles, surgical knife.
   - Holder, suture needle.
   - Inhaler, anesthesia, Yankauer (ether mask).
Intravenous injection sets.
Knife, cast cutting.
Lamps, for diagnostic instruments.
Lamps, for surgical lights.
Laryngoscope.
Light, surgical, portable.
Litter.
Mallet, bone surgery.
Needles, hypodermic, reusable.
Needles, suture, eyed.
Otoscope and ophthalmoscope set.
Probe, general operating.
Razor and blades (for surgical preparation).
Retractor, rib.
Retractor set, general operating.
Rongeur, bone.
Saw, amputating.
Saw, bone cutting, wire (Gigli).
Scissors, bandage.
Scissors, general surgical.
Sigmoidoscope.
Speculum, vaginal.
Sphygmomanometer.
Splint, leg, Thomas.
Splint, wire, ladder.
Sterilizer, pressure, portable.
Stethoscope.
Sutures, absorbable.
Sutures, absorbable, with attached needle.
Sutures, nonabsorbable.
Sutures, nonabsorbable, with attached needle.
Syringes, Luer, reusable (hypodermic syringes).
Thermometers, clinical.
Tracheotomy tube.
Tube, nasogastric.
Tubing, rubber or plastic, and connectors.
Vascular prostheses.
Webbing, textile, with buckle.
6. Laboratory Equipment and Supplies:
Bacteriological culture media and apparatus.
Balance, laboratory with weights.
Blood and urine analysis instruments, equipment and supplies.
Chemical reagents, stains and apparatus.
Glassware cleaning equipment.
Laboratory glassware.
Microscope and slides.
Water purification apparatus.

Group B

None.

II. FOOD

Group A

1. Milk group. Milk in all forms, milk products. Important for calcium, riboflavin, protein, and other nutrients.
2. Meat and meat alternate group. Meat, poultry, fish, eggs; also dry beans, peas, nuts. Important for protein, iron, and B-vitamins.
3. Vegetable-fruit group. Including 1. Dark Green and yellow vegetables. Important for Vitamin A. 2. Citrus fruit or other fruit or vegetables. Important for Vitamin C. 3. Other fruits and vegetables, including potatoes.
5. Fats and oils. Including butter, margarine, lard, and other shortening oils. Important for palatability and food energy; some for Vitamin A and essential fatty acids.
6. Sugars and syrups. Important for palatability and food energy.
7. Food adjuncts. Certain food adjuncts should be provided to make effective use of available foods. These include antioxidants and other food preservatives, yeast, baking powder, salt, soda, seasonings and other condiments. In addition, coffee, tea, and cocoa are important for morale support.

Group B

Food containers.
Nitrogenous fertilizers.
Seed and livestock feed.
Salt for livestock.
Veterinary Medical Items:
Anthrax vaccine.
Black leg vaccine.
Hog cholera vaccine.
Newcastle vaccine.

III. BODY PROTECTION AND HOUSEHOLD OPERATIONS

Group A

1. Clothing:
Gloves and mittens.
Headwear.
Hosiery.
Outerwear.
Shoes and other footwear.
Underwear.
Waterproof outer garments.
2. Personal Hygiene Items:
Diapers, all types.
Disposable tissues.
First aid items (included on Health Supplies and Equipment List).
Nipples.
Nursing bottles, all types.
Pins.
Sanitary napkins.
Soaps, detergents, and disinfectants.
Toilet tissue.
3. Household Equipment:
Bedding.
Canned heat.
Cots.
Hand sewing equipment.
Heating and cooking stoves.
Incandescent hand portable lighting equipment (including flashlights, lamps, batteries).
Kitchen, cooking, and eating utensils.
Federal Emergency Management Agency, DHS

Lamps (incandescent medium base) and lamp holders.
Matches.
Nonelectric lighting equipment.
Sleeping bags.

Group B

None.

IV. ELECTRIC POWER AND FUELS

1. Electric Power.

Group A

Electricity.

Group B

Conductors (copper and/or aluminum), including bare cable for high voltage lines and insulated wire or cable for lower voltage distribution circuits.
Switches and circuit breakers.
Insulators.
Pole line hardware.
Poles and crossarms.
Transformers (distribution, transmission, and mobile).
Tools for live-circuit operations, including rubber protective equipment, and linemen’s tools.
Utility repair trucks, fully equipped.
Prime mover generator sets up to 501 kilowatts and 2400 volts, including portable and mobile sets up to 150 kilowatts and 110/220/440 volts, 3-phase, 60-cycle complete with fuel tank and switchgear in self-contained units.

2. Petroleum Products.

Group A

Gasoline.
Kerosene.
Distillate fuel oil.
Residual fuel oil.
Liquefied petroleum oil.
Lubricating oil.
Grease.

Group B

Storage tanks.
Pumps for loading and unloading.
Pressure containers and fittings for liquefied petroleum gas.

Group A

Natural gas.
Manufactured gas.

Group B

Various sizes of pipe (mostly steel).
Various sizes of valves, fittings, and pressure regulators.
Specialized repair trucks and equipment.

Group A

Coal and coke.

Group B

Conveyor belting.
Insulated trail cables.
Trolley feeder wire.
Roof belts.

V. SANITATION AND WATER SUPPLY

1. Water.

Group A

2. Water Supply Materials:

a. Coagulation:
Ferric chloride.
Ferrous sulfate.
Chlorinated copperas.
Filter alum.
Hydrated lime.
Pulverized limestone.
Soda ash.
b. Disinfection Chemicals:
High-test hypochlorites (70 percent) in drums, cans, ampules.
Sodium hypochlorite.
Iodine tablets.
Liquid chlorine, including containers.
Chlorine compounds (not gas).
c. Miscellaneous Materials:
Diatomaceous earth.
Activated carbon.

3. Chemical Biological, and Radiological CBR Detection, Protection, and Decontamination Items:
Calibrators.
Chemical agent detection kits, air, food, and water.
Dosimeters and chargers.
Protective masks, clothing, helmets.
Survey meters (Alpha, Beta, Gamma).
Warning signs—biological, chemical, and radiological contamination.

4. Insect and Rodent Control Items:

a. Insecticides:
DDT, water dispersible powder (75 percent).
Lindane powder, dusting (1 percent).
Malathion, liquid, emulsifiable concentrate (57 percent).
Deet (diethyltoluamide) 75 percent in denatured alcohol.
Pyrethrum.
b. Rodenticides:
Anticoagulant type, ready-mixed bait.
“1080” (sodium monofluoroacetate) (for controlled use only).

5. General Sanitation:

Lye.

Group B

1. General Supplies and Equipment:
Chemical feeders.
Mobile and portable pressure filters.
Chlorinators (gas and hypochlorites).
Pumps and appurtenances, Hand—Electric—
Gasoline—Diesel.
Well-drilling equipment, including well cas-
ing, drive pipe and drive points.
2. Storage and Transport Equipment:
Lyster bags.
Storage tanks, collapsible and portable.
Storage tanks, rigid, transportable.
3. Laboratory Equipment and Supplies:
Membrane filter kits with filters and media.
Chlorine and pH determination equipment.
4. Sanitation Equipment:
Hand sprayer, continuous type.
Hand sprayer, compression type.
Hand duster, plunger type.
Spraying equipment for use with helicopter, 
fixed-wing light aircraft, high-speed fixed-
wing attack aircraft, and cargo-type air-
craft.

VI. EMERGENCY HOUSING AND CONSTRUCTION
MATERIALS AND EQUIPMENT

Group A
Asphalt and tar roofing and siding products.
Builders hardware—hinges, locks, handles,
etc.
Building board, including insulating board, 
laminated fiberboard, hardpressed fiber-
board, gypsum board, and asbestos cement 
(flat sheets and wallboard).
Building papers.
Plastic patching, couplings, clamps, etc. for 
emergency repairs.
Plumbing fixtures and fittings.
Prefabricated emergency housing.
Rough hardware—nails, bolts, screws, etc.
Sewer pipe and fittings.
Tents and tarpaulins; canvas, plastics, and 
other similar materials.
Lumber and allied products; Lumber, prin-
cipally 1-inch and 2-inch, minor quantities 
of small and large timbers; siding and 
flooring; plywood; millwork, doors, and 
windows.
Masonry products—brick, cement, lime, con-
crete block, hollow tile, etc.
Translucent window coverings.
Water pipe and hose, plus fittings—all types 
including fire hose.

Group B
None.

VII. GENERAL USE ITEMS

Group A

None.

Group B
Batteries, wet and dry cell.
Bulldozers.
Fire fighting equipment.

Light equipment and hand tools (including 
electric powered) for carpentry, masonry,
plumbing, and excavation.
Pipe installation materials and equipment.
Refrigerators, mechanical.
Rigging tools—cables, ropes, tackles, hoists, 
etc.
Tank railroad cars.
Tank Trucks and trailers.
Tires.
Trenching equipment.
Truck tractors and trailers, including low 
bed.
Trucks up to five tons (25 percent equipped 
with power takeoff).
Welding equipment and supplies (electric and 
acetylene).

PARTS 324–326 [RESERVED]
