

§ 322.15

7 CFR Ch. III (1–1–16 Edition)

permit (if a renewal or amendment, provide the current permit number).

(3) *Type of movement.* Select or write “Import into the United States.”

(4) *Scientific name of organism.* Genus, species, subspecies or strain, and author (if known).

(5) *Type of organism.* Select or write “Bees and/or bee germ plasm.”

(6) *Taxonomic classification.* Family of restricted organisms.

(7) *Life stage(s).* Semen, preovipositional eggs, embryos, postovipositional eggs, larvae, pupae, or adults. If adult queens, please specify.

(8) Number of shipments.

(9) Number of specimens per shipment.

(10) Is the organism established in the United States?

(11) Is the organism established in the destination State?

(12) Media or species of host material accompanying the organism (e.g., pollen, honey, wax, nesting material).

(13) *Source of organism (include any that apply, and list region of origin).* Supplier (provide supplier’s name and address), wild collected, or reared under controlled conditions.

(14) *Method of shipment.* Airmail, express delivery (list company name).

(15) Port(s) of entry.

(16) Approximate date(s) of arrival at the port of entry.

(17) *Destination.* Provide the address of the location where the organism will be received and maintained, including building and room numbers where applicable.

(18) *Intended use (include any that apply).* Select or write “Scientific Study.”

(19) Has your facility been evaluated by APHIS? If yes, list date(s) of approval. Is your facility approved for the species of bees or bee germ plasm for which you are seeking a permit?

(20) Provide your signature and the date of your signature under the following certification: “I certify that all statements and entries I have made on this document are true and accurate to the best of my knowledge and belief. I understand that any intentional false statement or misrepresentation made on this document is a violation of law and punishable by a fine of not more

than \$10,000, or imprisonment of not more than 5 years, or both. (18 U.S.C. 1001).” If you are required to have a sponsor for your permit application, your sponsor must also sign and date under the same certification.

(b) *Invoice.* Any restricted organism must be accompanied at the time of arrival in the United States by an invoice or packing list accurately indicating the complete contents of the shipment and the exporting region.

(Approved by the Office of Management and Budget under control number 0579–0207)

[69 FR 61747, Oct. 21, 2004, as amended at 79 FR 19811, Apr. 10, 2014]

§ 322.15 APHIS review of permit applications; denial or revocation of permits.

(a) *Review of permit applications to import restricted organisms—(1) Consultation.* During our review of your permit application, we may consult with any Federal officials; appropriate officials of any State, Territory, or other jurisdiction in the United States in charge of research or regulatory programs relative to bees; and any other qualified governmental or private research laboratory, institution, or individual. We will conduct these consultations to gain information on the risks associated with the importation of the restricted organisms.

(2) *Review by destination State.* We will transmit a copy of your permit application, along with our anticipated decision on the application, to the appropriate regulatory official in the destination State for review and recommendation. A State’s response, which we will consider before taking final action on the permit application, may take one of the following forms:

(i) The State recommends that we issue the permit;

(ii) The State recommends that we issue the permit with specified additional conditions;

(iii) The State recommends that we deny the permit application and provides scientific, risk-based reasons supporting that recommendation; or

(iv) The State makes no recommendation, thereby concurring with

our decision regarding the issuance of the permit.⁴

(b) *Results of review.* After a complete review of your application, we will either:

(1) Issue you a written permit with, if applicable, certain specific conditions listed for the importation of the restricted organisms you applied to import. You must initial each condition on the proposed permit and return the proposed permit conditions to the Permit Unit before we will issue you a signed valid permit; or

(2) Notify you that your application has been denied and provide reasons for the denial.

(c) *Denial of permit applications.* APHIS will deny an application for a permit to import a restricted organism regulated under this subpart when, in its opinion, such movement would involve a danger of dissemination of an exotic bee disease or parasite, or an undesirable species or subspecies of honeybee. Danger of such dissemination may be deemed to exist when:

(1) Existing safeguards against dissemination are inadequate and no adequate safeguards can be arranged; or

(2) The potential for disseminating an exotic bee disease or parasite, or an undesirable species or subspecies of honeybee, with the restricted organism outweighs the probable benefits that could be derived from the proposed movement and use of the restricted organism; or

(3) When you, as a previous permittee, failed to maintain the safeguards or otherwise observe the conditions prescribed in a previous permit and have failed to demonstrate your ability or intent to observe them in the future; or

(4) The proposed movement of the restricted organism is adverse to the conduct of an eradication, suppression, control, or regulatory program of APHIS.

(5) APHIS may also deny a permit to import restricted organisms:

(i) To a person who has previously failed to comply with any APHIS regulation, except:

(A) A permit revoked in an investigation concerning that failure has been reinstated on appeal, at the discretion of APHIS; or

(B) All measures ordered by APHIS to correct the failure, including but not limited to, payment of penalties or restitution, have been complied with to the satisfaction of APHIS.

(ii) To a person who has previously failed to comply with any international or Federal regulation or instruction concerning the importation of prohibited or restricted foreign agricultural products; or

(iii) If the application for a permit contains information that is found to be materially false, fraudulent, deceptive, or misrepresentative.

(d) *Cancellation of permits.* (1) APHIS may cancel any outstanding permit whenever:

(i) We receive information subsequent to the issuance of the permit of circumstances that would constitute cause for the denial of an application for permit under paragraph (c) of this section; or

(ii) You, as the permittee, fail to maintain the safeguards or otherwise observe the conditions specified in the permit or in any applicable regulations.

(2) Upon cancellation of a permit, you must either:

(i) Surrender all restricted organisms to an APHIS inspector; or

(ii) Destroy all restricted organisms under the supervision of an APHIS inspector.

(e) *Appealing the denial of permit applications or revocation of permits.* If your permit application has been denied or your permit has been revoked, APHIS will inform you in writing, including by electronic methods, as promptly as circumstances permit and will include the reasons for the denial or revocation. You may appeal the decision by writing to APHIS within 10 business days from the date you received the communication notifying you of the denial or revocation of the permit. Your appeal must state all facts and reasons upon which you are relying to show that your permit application was

⁴If a State regulatory official does not respond within 20 business days, we will conclude that the State has chosen to make no recommendation regarding the issuance of the permit.

§ 322.16

wrongfully denied or your permit was wrongfully revoked. APHIS will grant or deny the appeal in writing and will state in writing the reason for the decision. The denial or revocation will remain in effect during the resolution of the appeal.

(Approved by the Office of Management and Budget under control number 0579-0207)

[69 FR 61747, Oct. 21, 2004, as amended at 79 FR 19811, Apr. 10, 2014]

§ 322.16 Packaging of shipments.

(a) Restricted organisms must be packed in a container or combination of containers that will prevent the escape of the organisms and the leakage of any contained materials. The container must be sufficiently strong to prevent it from rupturing or breaking during shipment.

(b) The outer container must be clearly marked with the contents of the shipment, *i.e.*, either "Live Bees," "Bee Germ Plasm," or "Live Bee Brood," and the name of the region of origin.

(c) Only approved packing materials may be used in a shipment of restricted organisms.

(1) The following materials are approved as packing materials: Absorbent cotton or processed cotton padding free of cottonseed; cages made of processed wood; cellulose materials; excelsior; felt; ground peat (peat moss); paper or paper products; phenolic resin foam; sawdust; sponge rubber; thread waste, twine, or cord; and vermiculite.

(2) Other materials, such as host material for the organism, soil, or other types of packing material, may be included in a container only if identified in the permit application and approved by APHIS on the permit.

§ 322.17 Mailed packages.

(a) If you import a restricted organism through the mail or through commercial express delivery, you must attach a special mailing label (APHIS Form 599), which APHIS will provide with your permit, to the package or container. The mailing label indicates that APHIS has authorized the shipment.

(b) You must address the package containing the restricted organism to

7 CFR Ch. III (1-1-16 Edition)

the containment facility or apiary identified on the permit (post office boxes are not allowed).

(c) If the restricted organism arrives in the mail without the mailing label described in paragraph (a) of this section or addressed to a containment facility or apiary other than the one listed on the permit, an inspector will refuse to allow the organism to enter the United States.

§ 322.18 Restricted organisms in a commercial vehicle arriving at a land border port in the United States.

(a) If you import a restricted organism through a land border port in the United States by commercial vehicle (*i.e.*, automobile or truck), then the person carrying the restricted organism must present the permit required by § 322.14 and an invoice or packing slip accurately indicating the complete contents of the shipment to the inspector at the land border port.

(b) The restricted organisms must be surrendered at the port of entry and can continue on to the destination identified on the permit only by a bonded carrier (commercial express delivery).

(c) If you fail to present a copy of the permit and an invoice or packing list accurately indicating the complete contents of the shipment at the port of entry, an inspector will refuse the organism's entry to the United States or confiscate and destroy the refused material.

(Approved by the Office of Management and Budget under control number 0579-0207)

§ 322.19 Inspection; refusal of entry.

(a) APHIS may inspect any restricted organism at the time of importation to determine if the organism meets all of the requirements of this part.

(b) If, upon inspection, any shipment fails to meet the requirements of the regulations, that shipment will be refused entry into the United States. In accordance with § 322.2(c), the inspector will offer the shipper the opportunity to immediately export any refused shipments. If the shipper declines to immediately export the shipment, we will destroy the shipment at his or her expense.
