

§ 759.5

benefits may be available in the counties contiguous to the primary county if so provided by the disaster assistance regulations or, in the case of the EM Program, in § 759.6.

LAR is a loss assessment report prepared by the CEB relating to the State and county where the potential disaster occurred and for which county or counties the CEB is responsible. The LAR includes as applicable, but is not limited to, starting and ending dates of the disaster, crop year affected, type of disaster incident, area of county affected by disaster; total number of farms affected, crop loss or pasture loss data associated with the applicable disaster (or both types of losses), livestock destroyed, and other property losses.

Natural disaster is a disaster in which unusual and adverse weather conditions or other natural phenomena have substantially affected farmers by causing severe physical losses, severe production losses, or both.

Primary county is a county determined to be a disaster area.

Presidential declaration is a declaration of a disaster by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121-2) requiring Federal emergency assistance to supplement State and local efforts to save lives and protect property, public health and safety, or to avert or lessen the threat of a disaster.

Production losses (severe) within a county are those in which there has been a reduction county-wide of at least a 30 percent or more loss of production of at least one crop in the county.

SEB means the State Emergency Board which is comprised of the representatives of several USDA agencies having emergency program responsibilities at the State level. The board is required to respond to emergencies and carry out the Secretary's emergency preparedness responsibilities.

SED is the person who serves as the Chairperson of the USDA SEB in each State, is responsible for providing the leadership and coordination for all USDA emergency programs at the State level, and is subject to the supervision of DAFFP.

7 CFR Ch. VII (1-1-16 Edition)

Severe physical losses means, for the purpose of determining an Administrator's declaration of physical loss, losses that consist of severe damage to, or destruction of: Physical farm property including farmland (except sheet erosion); structures on the land including, but not limited to, building, fences, dams; machinery, equipment, supplies, and tools; livestock, livestock products, poultry and poultry products; harvested crops and stored crops.

Substantially affected when used to refer to producers and to the relationship of a particular producer to a particular disaster means a producer who has sustained qualifying physical or production losses, as defined in this section, as a result of the natural disaster.

U.S. Drought Monitor is a system for classifying drought severity according to a range of abnormally dry to exceptional drought. It is a collaborative effort between Federal and academic partners that is produced on a weekly basis to synthesize multiple indices, outlooks, and drought impacts on a map and in narrative form. This synthesis of indices is reported by the National Drought Mitigation Center.

United States means each of the several States, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands. Extension of disaster assistance, following a disaster designation, to insular areas of the United States not covered by this definition of "United States" will be only as authorized by law, and as determined by the Administrator on behalf of the Secretary to be appropriate.

§ 759.5 Secretarial disaster area determination and notification process.

(a) *U.S. Drought Monitor*. With respect to drought and without requiring an LAR:

(1) If any portion of a county is physically located in an area with a Drought Monitor Intensity Classification value of D3 (drought-extreme) or higher during any part of the growing season of the crops affected by the disaster in the county, then the county will be designated a disaster area by the Secretary.

(2) If any portion of a county meets the threshold Drought Monitor Intensity Classification value of D2 (drought-severe) for at least 8 consecutive weeks during the growing season of affected crops, then the county will be designated a disaster area by the Secretary.

(b) *CEB and SEB recommendations.* In instances where counties have been impacted by a disaster but the county has not been designated a disaster area under the provisions of paragraph (a) of this section, CEB will make a disaster designation recommendation request to SEB when a disaster has resulted in severe production losses. The determination of the sufficiency of the production losses will be governed by the provisions in paragraph (c) of this section. The CEB may make such efforts as are needed to identify counties that have been impacted and had such production losses. A farmer, Indian Tribal Council, or local governing body may initiate the process by reporting production losses or drought conditions to CEB and suggesting that there be a recommendation in favor of designating a county as a disaster area. Recommendations by a CEB in favor of a disaster designation by a CEB under this paragraph are subject to the following:

(1) A LAR is required as part of a CEB disaster designation request. CEB will submit a disaster designation request with a LAR to SEB for review and recommendation for approval by the Secretary. CEB's written request and SEB recommendation must be submitted within three months of the last day of the occurrence of a natural disaster.

(2) If SEB determines a qualifying natural disaster and loss have occurred, SEB will forward the recommendation to the Administrator. The natural disaster may include drought conditions that were not sufficiently severe to meet the criteria in paragraph (a) of this section. Since the U.S. Drought Monitor tracks only drought conditions, not specifically agricultural losses resulting from those conditions, it is possible for a drought that does not meet the criteria in paragraph (a) of this section to result in

production losses that constitute a natural disaster.

(3) The Secretary or the Secretary's designee will make disaster area determinations. The Secretary may delegate the authority to the SED. In such case, the SED will act on behalf of the Secretary, subject to review by DAFP as may be appropriate and consistent with the delegation. The delegation of authority to the SED may be revoked by the authority making that delegation or by other authorized person. In all cases, DAFP may reverse any SED determination made in accordance with this section unless the delegation to the SED specifies that such review is not allowed.

(c) *Eligible production losses.* For purposes of making determinations under paragraph (b) of this section, in order for an area to be declared a disaster area under paragraph (b) of this section based on production losses, the county must have had production losses of 30 percent of at least one crop in the county as the result of a natural disaster.

(d) *Discretionary exception to production losses for designating a county as a disaster county.* For purposes of the EM program only, unless otherwise specified in the designation, a county may be designated by DAFP as a designated disaster county even though the conditions specified in paragraphs (a) through (c) of this section are not present so long as the disaster has otherwise produced such significant production losses, or other such extenuating circumstances so as to justify, in the opinion of the Secretary, the designation of a county as a disaster area. In making this determination, the Secretary may consider all relevant factors including such factors as the nature and extent of production losses; the number of farmers who have sustained qualifying production losses; the number of farmers that other lenders in the county indicate they will not be in position to provide emergency financing; whether the losses will cause undue hardship to a certain segment of farmers in the county; whether damage to particular crops has resulted in undue hardship; whether other Federal or State benefit programs, which are being made available due to the same

§ 759.6

disaster, will consequently lessen undue hardship and the demand for EM; and any other factors considered relevant.

§ 759.6 EM to be made available.

(a) For purposes of the EM Program under part 764, subpart I, of this chapter, a county will be considered an eligible disaster area as designated by FSA for coverage of the EM Program as follows:

(1) *Secretarial designations.* When production losses meet the requirements in § 759.5 and the county has been designated as a disaster area for that reason, or when the discretionary exception to production losses for EM under § 759.5(d) has been exercised, the primary and contiguous counties will be areas in which otherwise eligible producers can receive EM loans.

(2) *Physical loss notification.* When only qualifying physical losses occur, the SED will submit a request to the FSA Administrator to make a determination that a natural disaster has occurred in a county, resulting in severe physical losses. If the FSA Administrator determines that such a natural disaster has occurred, then EM can be made available to eligible farmers for physical losses only in the primary county (the county that was the subject of that determination) and the counties contiguous to that county.

(3) *USDA quarantine.* Any quarantine imposed by the Secretary of Agriculture under the Plant Protection Act or the animal quarantine laws, as defined in section 2509 of the Food, Agriculture, Conservation, and Trade Act of 1990, automatically authorizes EM for production and physical losses resulting from the quarantine in a primary county (the county in which the quarantine was in force) and (where the quarantine effects extend beyond that county) the counties contiguous to that primary county.

(4) *Presidential declaration.* Whenever the President declares a Major Disaster Declaration or an Emergency Declaration, FSA will make EM available to eligible applicants in declared and contiguous counties, provided:

(i) The Presidential declaration is not solely for Category A or Category

7 CFR Ch. VII (1–1–16 Edition)

B Public Assistance or Hazard Mitigation Grant Assistance, and

(ii) The Presidential Major Disaster declaration is for losses due to severe, general disaster conditions including but not limited to conditions such as flood, hurricane, or earthquake.

(b) [Reserved]

PART 760—INDEMNITY PAYMENT PROGRAMS

Subpart A—Dairy Indemnity Payment Program

PROGRAM OPERATIONS

Sec.

- 760.1 Administration.
- 760.2 Definitions.

PAYMENTS TO DAIRY FARMERS FOR MILK

- 760.3 Indemnity payments on milk.
- 760.4 Normal marketings of milk.
- 760.5 Fair market value of milk.
- 760.6 Information to be furnished.
- 760.7 Other requirements for affected farmers.
- 760.8 Application for payments for milk.
- 760.9 Other legal recourse.

PAYMENTS TO MANUFACTURERS AFFECTED BY PESTICIDES

- 760.20 Payments to manufacturers of dairy products.
- 760.21 Application for payments by manufacturers.
- 760.22 Information to be furnished by manufacturer.
- 760.23 Other requirements for manufacturers.

GENERAL PROVISIONS

- 760.24 Limitation of authority.
- 760.25 Estates and trusts; minors.
- 760.26 Appeals.
- 760.27 Setoffs.
- 760.28 Overdisbursement.
- 760.29 Death, incompetency, or disappearance.
- 760.30 Records and inspection thereof.
- 760.31 Assignment.
- 760.32 Instructions and forms.
- 760.33 Availability of funds.

Subpart B—General Provisions for Supplemental Agricultural Disaster Assistance Programs

- 760.101 Applicability.
- 760.102 Administration of ELAP, LFP, LIP, SURE, and TAP.
- 760.103 Eligible producer.
- 760.104 Risk management purchase requirements.
