

(2) Veterinary control and oversight.
 (3) Disease history and vaccination practices

(4) Disease notification.

(5) Disease detection.

(6) Barriers to disease introduction.

(d) A list of those regions that have requested APHIS' recognition of their animal health status, the disease(s) under evaluation, and, if available, the animal(s) or product(s) the region wishes to export, is available at http://www.aphis.usda.gov/import_export/animals/reg_request.shtml.

(e) If, after review and evaluation of the information submitted in accordance with paragraph (b) or (c) of this section, APHIS believes the request can be safely granted, APHIS will indicate its intent and make its evaluation available for public comment through a document published in the FEDERAL REGISTER.

(f) APHIS will provide a period of time during which the public may comment on its evaluation. During the comment period, the public will have access to the information upon which APHIS based its evaluation, as well as the evaluation itself. Once APHIS has reviewed all comments received, it will make a final determination regarding the request and will publish that determination in the FEDERAL REGISTER.

(g) If a region is granted animal health status under the provisions of this section, that region may be required to submit additional information pertaining to animal health status or allow APHIS to conduct additional information collection activities in order for that region to maintain its animal health status.

[62 FR 56012, Oct. 28, 1997, as amended at 68 FR 50054, Aug. 20, 2003; 77 FR 1389, Jan. 10, 2012; 77 FR 44109, July 27, 2012]

§ 92.3 Movement restrictions.

Whenever the European Commission (EC) establishes a quarantine for a disease in the European Union in a region the Animal and Plant Health Inspection Service recognizes as one in which the disease is not known to exist and the EC imposes prohibitions or other restrictions on the movement of animals or animal products from the quar-

antined area in the European Union, such animals and animal products are prohibited importation into the United States.

[68 FR 16938, Apr. 7, 2003]

§ 92.4 Reestablishment of a region's disease-free status.

This section applies to regions that are designated under this subchapter as free of a specific animal disease and then experience an outbreak of that disease.

(a) *Interim designation.* If a region recognized as free of a specified animal disease in this subchapter experiences an outbreak of that disease, APHIS will take immediate action to prohibit or restrict imports of animals and animal products from that region. The prohibitions or restrictions may be imposed on only a portion of the region previously recognized as free of a disease. In these cases, APHIS will inform the public as soon as possible through notice in the FEDERAL REGISTER of the basis for its decision to prohibit or restrict imports from the smaller area of that region previously recognized as free.

(b) *Reassessment of the disease situation.* (1) Following removal of disease-free status from all or part of a region, APHIS may reassess the disease situation in that region to determine whether it is necessary to continue the interim prohibitions or restrictions. In reassessing a region's disease status, APHIS will take into consideration the standards of the World Organization for Animal Health (OIE) for reinstatement of disease-free status, as well as all relevant information obtained through public comments or collected by or submitted to APHIS through other means.

(2) Prior to taking any action to relieve prohibitions or restrictions, APHIS will make information regarding its reassessment of the region's disease status available to the public for comment. APHIS will announce the availability of this information in the FEDERAL REGISTER.

(c) *Determination.* Based on the reassessment conducted in accordance with paragraph (b) of this section, including comments regarding the reassessment
