SUBCHAPTER A—PROCEDURE AND RULES OF PRACTICE

PARTS 300–302 [RESERVED]

PART 303—FILING PROCEDURES

Sec.
303.0 Scope.

Subpart A—Rules of General Applicability

303.1 Scope.
303.2 Definitions.
303.3 General filing procedures.
303.4 Computation of time.
303.5 Effect of Community Reinvestment Act performance on filings.
303.6 Investigations and examinations.
303.7 Public notice requirements.
303.8 Public access to filing.
303.9 Comments.
303.10 Hearings and other meetings.
303.11 Decisions.
303.12 Waivers.
303.13 [Reserved]
303.14 Being “engaged in the business of receiving deposits other than trust funds.”
303.15 Certain limited liability companies deemed incorporated under State law.
303.16–303.19 [Reserved]

Subpart B—Deposit Insurance

303.20 Scope.
303.21 Filing procedures.
303.22 Processing.
303.23 Public notice requirements.
303.24 Application for deposit insurance for an interim institution.
303.25 Continuation of deposit insurance upon withdrawing from membership in the Federal Reserve System.
303.26–303.39 [Reserved]

Subpart C—Establishment and Relocation of Domestic Branches and Offices

303.40 Scope.
303.41 Definitions.
303.42 Filing procedures.
303.43 Processing.
303.44 Public notice requirements.
303.45 Special provisions.
303.46 Financial education programs that include the provision of bank products and services.
303.47–303.59 [Reserved]

Subpart D—Merger Transactions

303.60 Scope.
303.61 Definitions.
303.62 Transactions requiring prior approval.
303.63 Filing procedures.
303.64 Processing.
303.65 Public notice requirements.
303.66–303.79 [Reserved]

Subpart E—Change in Bank Control Act

303.80 Scope.
303.81 Definitions.
303.82 Transactions that require prior notice.
303.83 Transactions that require notice, but not prior notice.
303.84 Transactions that do not require notice.
303.85 Filing procedures.
303.86 Processing.
303.87 Public notice requirements.
303.88 Reporting of stock loans and changes in chief executive officers and directors.
303.89–303.99 [Reserved]

Subpart F—Change of Director or Senior Executive Officer

303.100 Scope.
303.101 Definitions.
303.102 Filing procedures and waiver of prior notice.
303.103 Processing.
303.104–303.119 [Reserved]

Subpart G—Activities of Insured State Banks

303.120 Scope.
303.121 Filing procedures.
303.122 Processing.
303.123–303.139 [Reserved]

Subpart H—Activities of Insured Savings Associations

303.140 Scope.
303.141 Filing procedures.
303.142 Processing.
303.143–303.159 [Reserved]

Subpart I—Mutual-to-Stock Conversions

303.160 Scope.
303.161 Filing procedures.
303.162 Waiver from compliance.
303.163 Processing.
303.164–303.179 [Reserved]

Subpart J—International Banking

303.180 Scope.
303.181 Definitions.
303.182 Establishing, moving or closing a foreign branch of a state nonmember bank; § 347.103.
§ 303.0

303.183 Investment by insured state nonmember banks in foreign organizations; §347.108.
303.184 Moving an insured branch of a foreign bank.
303.185 Merger transactions involving foreign banks or foreign organizations.
303.186 Exemptions from insurance requirement for a state branch of a foreign bank; §347.206.
303.187 Approval for an insured state branch of a foreign bank to conduct activities not permissible for federal branches; §347.213
303.188–303.199 [Reserved]

Subpart K—Prompt Corrective Action

§ 303.200 Scope.
303.201 Filing procedures.
303.202 Processing.
303.203 Applications for capital distribution.
303.204 Applications for acquisitions, branching, and new lines of business.
303.205 Applications for bonuses and increased compensation for senior executive officers.
303.206 Application for payment of principal or interest on subordinated debt.
303.207 Restricted activities for critically undercapitalized institutions.
303.208–303.219 [Reserved]

Subpart L—Section 19 of the FDI Act (Consent to Service of Persons Convicted of Certain Criminal Offenses)

§ 303.220 Scope.
303.221 Filing procedures.
303.222 Service at another insured depository institution.
303.223 Applicant’s right to hearing following denial.
303.224–303.239 [Reserved]

Subpart M—Other Filings

§ 303.240 General.
303.241 Reduce or retire capital stock or capital debt instruments.
303.242 Exercise of trust powers.
303.243 Brokered deposit waivers.
303.244 Golden parachute and severance plan payments.
303.245 Waiver of liability for commonly controlled depository institutions.
303.246 Conversion with diminution of capital.
303.247 Continue or resume status as an insured institution following termination under section 8 of the FDI Act.
303.248 Truth in Lending Act—Relief from reimbursement.
303.2490 Management official interlocks.
303.250 Modification of conditions.
303.251 Extension of time.
303.252–303.259 [Reserved]
Federal Deposit Insurance Corporation § 303.2

Federal Deposit Insurance Act. Additional definitions of terms used in this part are as follows:

(a) Act or FDI Act means the Federal Deposit Insurance Act (12 U.S.C. 1811 et seq.).

(b) Adjusted part 325 total assets means adjusted 12 CFR part 325 or part 324, as applicable, total assets as calculated and reflected in the FDIC’s Report of Examination.

(c) Adverse comment means any objection, protest, or other adverse written statement submitted by an interested party relative to a filing. The term adverse comment shall not include any comment concerning the Community Reinvestment Act (CRA), fair lending, consumer protection, or civil rights that the appropriate regional director or designee determines to be frivolous (for example, raising issues between the commenter and the applicant that have been resolved). The term adverse comment also shall not include any other comment that the appropriate regional director or designee determines to be frivolous (for example, a non-substantive comment submitted primarily as a means of delaying action on the filing).

(d) Amended order to pay means an order to forfeit and pay civil money penalties, the amount of which has been changed from that assessed in the original notice of assessment of civil money penalties.

(e) Applicant means a person or entity that submits a filing to the FDIC.

(f) Application means a submission requesting FDIC approval to engage in various corporate activities and transactions.

(g) Appropriate FDIC region and appropriate regional director mean, respectively, the FDIC region and the FDIC regional director which the FDIC designates as follows:

(1) When an institution or proposed institution that is the subject of a filing or administrative action is not and will not be part of a group of related institutions, the appropriate FDIC region for the institution and any individual associated with the institution is the FDIC region in which the institution or proposed institution is or will be located, and the appropriate regional director is the regional director for that region; or

(2) When an institution or proposed institution that is the subject of a filing or administrative action is or will be part of a group of related institutions, the appropriate FDIC region for the institution and any individual associated with the institution is the FDIC region in which the group’s major policy and decision makers are located, or any other region the FDIC designates on a case-by-case basis, and the appropriate regional director is the regional director for that region.

(h) Associate director means any associate director of the Division of Supervision and Consumer Protection (DSC) or, in the event such title become obsolete, any official of equivalent authority within the division.

(i) Book capital means total equity capital which is comprised of perpetual preferred stock, common stock, surplus, undivided profits and capital reserves, as those items are defined in the instructions of the Federal Financial Institutions Examination Council (FFIEC) for the preparation of Consolidated Reports of Condition and Income for insured banks.

(j) Comment means any written statement of fact or opinion submitted by an interested party relative to a filing.

(k) Corporation or FDIC means the Federal Deposit Insurance Corporation.

(l) CRA protest means any adverse comment from the public related to a pending filing which raises a negative issue relative to the Community Reinvestment Act (CRA) (12 U.S.C. 2901 et seq.), whether or not it is labeled a protest and whether or not a hearing is requested.

(m) Deputy director means the deputy director of the Division of Supervision and Consumer Protection (DSC) or, in the event such title become obsolete, any official of equivalent authority within the division.

(n) Deputy regional director means any deputy regional director of the Division of Supervision and Consumer Protection (DSC) or, in the event such title become obsolete, any official of equivalent authority within the same FDIC region of DSC.
§ 303.2

(o) **Appropriate FDIC office** means the office designated by the appropriate regional director or designee.

(p) **DSC** means the Division of Supervision and Consumer Protection or, in the event the Division of Supervision and Consumer Protection is reorganized, such successor division.

(q) **Director** means the Director of the Division of Supervision and Consumer Protection (DSC) or, in the event such title becomes obsolete, any official of equivalent or higher authority within the division.

(r) **Eligible depository institution** means a depository institution that meets the following criteria:

1. Received an FDIC-assigned composite rating of 1 or 2 under the Uniform Financial Institutions Rating System (UFIRS) as a result of its most recent federal or state examination;
2. Received a satisfactory or better Community Reinvestment Act (CRA) rating from its primary federal regulator at its most recent examination, if the depository institution is subject to examination under part 345 of this chapter;
3. Received a compliance rating of 1 or 2 from its primary federal regulator at its most recent examination;
4. Is well-capitalized as defined in the appropriate capital regulation and guidance of the institution’s primary federal regulator; and
5. Is not subject to a cease and desist order, consent order, prompt corrective action directive, written agreement, memorandum of understanding, or other administrative agreement with its primary federal regulator or chartering authority.

(s) **Filing** means an application, notice or request submitted to the FDIC under this part.

(t) **General Counsel** means the head of the Legal Division of the FDIC or any official within the Legal Division exercising equivalent authority for purposes of this part.

(u) **Insider** means a person who is or is proposed to be a director, officer, organizer, or incorporator of an applicant; a shareholder who directly or indirectly controls 10 percent or more of any class of the applicant’s outstanding voting stock; or the associates or interests of any such person.

(v) **Institution-affiliated party** shall have the same meaning as provided in section 3(u) of the Act (12 U.S.C. 1813(u)).

(w) **NEPA** means the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(x) **NHPA** means the National Historic Preservation Act of 1966 (16 U.S.C. 470 et seq.).

(y) **Notice** means a submission notifying the FDIC that a depository institution intends to engage in or has commenced certain corporate activities or transactions.

(z) **Notice to primary regulator** means the notice described in section 8(a)(2)(A) of the Act concerning termination of deposit insurance (12 U.S.C. 1818(a)(2)(A)).

(aa) **Regional counsel** means a regional counsel of the Legal Division or, in the event the title becomes obsolete, any official of equivalent authority within the Legal Division.

(bb) **Regional director** means any regional director in the Division of Supervision and Consumer Protection (DSC), or in the event such title becomes obsolete, any official of equivalent authority within the division.

(cc) **[Reserved]**

(dd) **Standard conditions** means the conditions that the FDIC may impose as a routine matter when approving a filing, whether or not the applicant has agreed to their inclusion. The following conditions, or variations thereof, are standard conditions:

1. That the applicant has obtained all necessary and final approvals from the appropriate federal or state authority or other appropriate authority;
2. That if the transaction does not take effect within a specified time period, or unless, in the meantime, a request for an extension of time has been approved, the consent granted shall expire at the end of the specified time period;
3. That until the conditional commitment of the FDIC becomes effective, the FDIC retains the right to alter, suspend or withdraw its commitment should any interim development be deemed to warrant such action; and
4. In the case of a merger transaction (as defined in ¶ 303.61(a) of this
part), including a corporate reorganization, that the proposed transaction not be consummated before the 30th calendar day (or shorter time period as may be prescribed by the FDIC with the concurrence of the Attorney General) after the date of the order approving the merger transaction.

(ee) Tier 1 capital shall have the same meaning as provided in §325.2(v) of this chapter (12 CFR 325.2(v)) or §324.2, as applicable.

(ff) Total assets shall have the same meaning as provided in §325.2(x) of this chapter (12 CFR 325.2(x)) or §324.401(g), as applicable.

§ 303.3 General filing procedures.

Unless stated otherwise, filings should be submitted to the appropriate FDIC office. Forms and instructions for submitting filings may be obtained from any FDIC regional director. If no form is prescribed, the filing should be in writing; be signed by the applicant or a duly authorized agent; and contain a concise statement of the action requested. For specific filing and content requirements, consult the appropriate subparts of this part. The FDIC may require the applicant to submit additional information.

§ 303.4 Computation of time.

For purposes of this part, and except as otherwise specifically provided, the FDIC begins computing the relevant period on the day after an event occurs (e.g., the day after a substantially complete filing is received by the FDIC or the day after publication begins) through the last day of the relevant period. When the last day is a Saturday, Sunday or federal holiday, the period runs until the end of the next business day.

§ 303.5 Effect of Community Reinvestment Act performance on filings.

Among other factors, the FDIC takes into account the record of performance under the Community Reinvestment Act (CRA) of each applicant in considering a filing for approval of:

(a) The establishment of a domestic branch;
(b) The relocation of the bank’s main office or a domestic branch;
(c) The relocation of an insured branch of a foreign bank;
(d) A transaction subject to the Bank Merger Act; and
(e) Deposit insurance.

§ 303.6 Investigations and examinations.

The FDIC may examine or investigate and evaluate facts related to any filing under this chapter to the extent necessary to reach an informed decision and take any action necessary or appropriate under the circumstances.

§ 303.7 Public notice requirements.

(a) General. The public must be provided with prior notice of a filing to establish a domestic branch, relocate a domestic branch or the main office, relocate an insured branch of a foreign bank, engage in a merger transaction, initiate a change of control transaction, or request deposit insurance. The public has the right to comment on, or to protest, these types of proposed transactions during the relevant comment period. In order to fully apprise the public of this right, an applicant shall publish a public notice of its filing in a newspaper of general circulation. For specific publication requirements, consult subparts B (Deposit Insurance), C (Branches and Relocations), D (Merger Transactions), E (Change in Bank Control), and J (International Banking) of this part.

(b) Confirmation of publication. The applicant shall mail or otherwise deliver a copy of the newspaper notice to the appropriate FDIC office as part of its filing, or, if a copy is not available at the time of filing, promptly after publication.

(c) Content of notice. (1) The public notice referred to in paragraph (a) of this section shall consist of the following:

(i) Name and address of the applicant(s). In the case of an application for deposit insurance for a de novo bank, include the names of all organizers or
§ 303.8 Public access to filing.

(a) General. For filings subject to a public notice requirement, any person may inspect or request a copy of the non-confidential portions of a filing (the public file) until 180 days following final disposition of a filing. Following the 180-day period, non-confidential portions of an application file will be made available in accordance with §303.8(c). The public file generally consists of portions of the filing, supporting data, supplementary information, and comments submitted by interested persons (if any) to the extent that the documents have not been afforded confidential treatment. To view or request photocopies of the public file, an oral or written request should be submitted to the appropriate FDIC office. The public file will be produced for review not more than one business day after receipt by the appropriate FDIC office of the request (either written or oral) to see the file. The FDIC may impose a fee for photocopying in accordance with §309.5(f) of this chapter at the rates the FDIC publishes annually in the Federal Register.
§ 303.10 Hearings and other meetings.

(a) Matters covered. This section covers hearings and other proceedings in connection with filings and determinations for or by:

(1) Deposit insurance by a proposed new depository institution or operating non-insured institution;

(2) An insured state nonmember bank to establish a domestic branch or to relocate a main office or domestic branch;

(3) Relocation of an insured branch of a foreign bank;

(4)(i) Merger transaction which requires the FDIC’s prior approval under the Bank Merger Act (12 U.S.C. 1828(c));

(ii) Except as otherwise expressly provided, the provisions of this § 303.10 shall not be applicable to any proposed merger transaction which the FDIC Board of Directors determines must be acted upon immediately to prevent the probable failure of one of the institutions involved, or must be handled with expeditious action due to an existing emergency condition, as permitted by the Bank Merger Act (12 U.S.C. 1828(c)(6));

(5) Nullification of a decision on a filing; and

(6) Any other purpose or matter which the FDIC Board of Directors in its sole discretion deems appropriate.

(b) Hearing requests. (1) Any person may submit a written request for a hearing on a filing:

(i) To the appropriate regional director before the end of the comment period; or

(ii) To the appropriate regional director, pursuant to a notice to nullify a filing after the comment period.

(2) The FDIC may extend or reopen the comment period if:

(i) The applicant fails to file all required information on a timely basis to permit review by the public or makes a request for confidential treatment not granted by the FDIC that delays the public availability of that information;

(ii) Any person requesting an extension of time satisfactorily demonstrates to the FDIC that additional time is necessary to develop factual information that the FDIC determines may materially affect the application; or

(iii) The FDIC determines that other good cause exists.

(3) Solicitation of comments. Whenever appropriate, the appropriate regional director may solicit comments from any person or institution which might have an interest in or be affected by the pending filing.

(4) Applicant response. The FDIC will provide copies of all comments received to the applicant and may give the applicant an opportunity to respond.
decision on a filing issued pursuant to §303.11(g)(2)(i) or (ii).

(2) The request must describe the nature of the issues or facts to be presented and the reasons why written submissions would be insufficient to make an adequate presentation of those issues or facts to the FDIC. A person requesting a hearing shall simultaneously submit a copy of the request to the applicant.

(c) Action on a hearing request. The appropriate regional director, after consultation with the Legal Division, may grant or deny a request for a hearing and may limit the issues that he or she deems relevant or material. The FDIC generally grants a hearing request only if it determines that written submissions would be insufficient or that a hearing otherwise would be in the public interest.

(d) Denial of a hearing request. If the appropriate regional director, after consultation with the Legal Division, denies a hearing request, he or she shall notify the person requesting the hearing of the reason for the denial. A decision to deny a hearing request shall be a final agency determination and is not appealable.

(e) FDIC procedures prior to the hearing—(1) Notice of hearing. The FDIC shall issue a notice of hearing if it grants a request for a hearing or orders a hearing because it is in the public interest. The notice of hearing shall state the subject and date of the filing, the time and place of the hearing, and the issues to be addressed. The FDIC shall send a copy of the notice of hearing to the applicant, to the person requesting the hearing, and to anyone else requesting a copy.

(2) The presiding officer shall be the regional director or designee or such other person as may be named by the Board or the Director. The presiding officer is responsible for conducting the hearing and determining all procedural questions not governed by this section.

(f) Participation in the hearing. Any person who wishes to appear (participant) shall notify the appropriate regional director of his or her intent to participate in the hearing no later than 10 days from the date that the FDIC issues the Notice of Hearing. At least 5 days before the hearing, each participant shall submit to the appropriate regional director, as well as to the applicant and any other person as required by the FDIC, the names of witnesses, a statement describing the proposed testimony of each witness, and one copy of each exhibit the participant intends to present.

(g) Transcripts. The FDIC shall arrange for a hearing transcript. The person requesting the hearing and the applicant each shall bear the cost of one copy of the transcript for his or her use unless such cost is waived by the presiding officer and incurred by the FDIC.

(h) Conduct of the hearing—(1) Presentations. Subject to the rulings of the presiding officer, the applicant and participants may make opening and closing statements and present and examine witnesses, material, and data.

(2) Information submitted. Any person presenting material shall furnish one copy to the FDIC, one copy to the applicant, and one copy to each participant.

(j) Closing the hearing record. At the applicant’s or any participant’s request, or at the FDIC’s discretion, the FDIC may keep the hearing record open for up to 10 days following the FDIC’s receipt of the transcript. The FDIC shall resume processing the filing after the record closes.

(k) Disposition and notice thereof. The presiding officer shall make a recommendation to the FDIC within 20 days following the date the hearing and record on the proceeding are closed. The FDIC shall notify the applicant and all participants of the final disposition of a filing and shall provide a statement of the reasons for the final disposition.

(l) Computation of time. In computing periods of time under this section, the provisions of §308.12 of the FDIC’s
§ 303.11 Decisions.

(a) General procedures. The FDIC may approve, conditionally approve, deny, or not object to a filing after appropriate review and consideration of the record. The FDIC will promptly notify the applicant and any person who makes a written request of the final disposition of a filing. If the FDIC denies a filing, the FDIC will immediately notify the applicant in writing of the reasons for the denial.

(b) Authority retained by FDIC Board of Directors to modify procedures. In acting on any filing under this part, the FDIC Board of Directors may by resolution adopt procedures which differ from those contained in this part when it deems it necessary or in the public interest to do so. The resolution shall be made available for public inspection and copying in the Office of the General Counsel, Executive Secretary Section under the Freedom of Information Act (5 U.S.C. 552(a)(2)).

(c) Expedited processing. (1) A filing submitted by an eligible depository institution as defined in §303.2(r) will receive expedited processing as specified in the appropriate subparts of this part unless the FDIC determines to remove the filing from expedited processing for any of the reasons set forth in paragraph (c)(2) of this section. Except for filings made pursuant to subpart J (International Banking), expedited processing will not be available for any filing that the appropriate regional director does not have delegated authority to approve.

(2) Removal of filing from expedited processing. The FDIC may remove a filing from expedited processing at any time prior to final disposition if:

(i) For filings subject to public notice under §303.7, an adverse comment is received that warrants additional investigation or review;

(ii) For filings subject to evaluation of CRA performance under §303.5, a CRA protest is received that warrants additional investigation or review, or the appropriate regional director determines that the filing presents a significant CRA or compliance concern;

(iii) For any filing, the appropriate regional director determines that the filing presents a significant supervisory concern, or raises a significant legal or policy issue; or

(iv) For any filing, the appropriate regional director determines that other good cause exists for removal.

(3) For purposes of this section, a significant CRA concern includes, but is not limited to, a determination by the appropriate regional director that, although a depository institution may have an institution-wide rating of satisfactory or better, a depository institution’s CRA performance is less than satisfactory in a state or multi-state metropolitan statistical area, or a depository institution’s CRA performance is less than satisfactory in a metropolitan statistical area as defined in 12 CFR 345.12 (MSA) or in the non-MSA portion of a state in which it seeks to expand through approval of an application for a deposit facility as defined in 12 U.S.C. 2902(3).
(4) If the FDIC determines that it is necessary to remove a filing from expedited processing pursuant to paragraph (c)(2) of this section, the FDIC promptly will provide the applicant with a written explanation.

(d) Multiple transactions. If the FDIC is considering related transactions, some or all of which have been granted expedited processing, then the longest processing time for any of the related transactions shall govern for purposes of approval.

(e) Abandonment of filing. A filing must contain all information set forth in the applicable subpart of this part. To the extent necessary to evaluate a filing, the FDIC may require an applicant to provide additional information. If information requested by the FDIC is not provided within the time period specified by the agency, the FDIC may deem the filing abandoned and shall provide written notification to the applicant and any interested parties that submitted comments to the FDIC that the file has been closed.

(f) Appeals and requests for reconsideration—(1) General. Appeal procedures for a denial of a change in bank control (subpart E), change in senior executive officer or board of directors (subpart F) or denial of an application pursuant to section 19 of the FDI Act (subpart L) are contained in 12 CFR part 308, subparts D, L, and M, respectively. For all other filings covered by this chapter for which appeal procedures are not provided by law or regulation, the FDIC may nullify, withdraw, revoke, amend or suspend a decision on a filing without providing a prior notice of intent if it becomes aware at anytime:

(i) Of any material misrepresentation or omission related to the filing or of any material change in circumstance that occurred prior to the consummation of the transaction or commencement of the activity authorized by the decision on the filing; or

(ii) That the decision on the filing is contrary to law or regulation or was granted due to clerical or administrative error.

(iii) Any person responsible for a material misrepresentation or omission in a filing or supporting materials may be subject to an enforcement action and other penalties, including criminal penalties provided in title 18 of the United States Code.

(2) Notice of intent and temporary order. (i) Except as provided in §303.11(g)(2)(ii), before taking action under this §303.11(g), the FDIC shall issue and serve on an applicant written notice of its intent to take such action. A notice of intent to act on a filing shall include:

(A) The reasons for the proposed action; and

(B) The date by which the applicant may file a written response with the FDIC.

(ii) The FDIC may issue a temporary order on a decision on a filing without providing an applicant a prior notice of intent if the FDIC determines that:

(ii) Relevant, substantive information that for good cause was not previously set forth in the filing; and

(iii) Specific reasons why the FDIC should reconsider its prior decision.

(4)–(5) [Reserved]

(g) Nullification, withdrawal, revocation, amendment, and suspension of decisions on filings—(1) Grounds for action. Except as otherwise provided by law or regulation, the FDIC may nullify, withdraw, revoke, amend or suspend a decision on a filing if it becomes aware at anytime:

(i) Of any material misrepresentation or omission related to the filing or of any material change in circumstance that occurred prior to the consummation of the transaction or commencement of the activity authorized by the decision on the filing; or

(ii) That the decision on the filing is contrary to law or regulation or was granted due to clerical or administrative error.

(iii) Any person responsible for a material misrepresentation or omission in a filing or supporting materials may be subject to an enforcement action and other penalties, including criminal penalties provided in title 18 of the United States Code.

(2) Filing procedures. Within 15 days of receipt of notice from the FDIC that its filing has been denied, any applicant may file a request for reconsideration with the appropriate regional director.

(3) Content of filing. A request for reconsideration must contain the following information:

(i) A resolution of the board of directors of the applicant authorizing filing of the request if the applicant is a corporation, or a letter signed by the individual(s) filing the request if the applicant is not a corporation;
(A) It is necessary to reevaluate the impact of a change in circumstance prior to the consummation of the transaction or commencement of the activity authorized by the decision on the filing; or

(B) The activity authorized by the filing may pose a threat to the interests of the depository institution's depositors or may threaten to impair public confidence in the depository institution.

(iii) A temporary order shall provide the applicant with an opportunity to make a written response in accordance with §303.11(g)(3) of this section.

(3) Response to notice of intent or temporary order. An applicant may file a written response to a notice of intent or a temporary order within 15 days from the date of service of the notice or temporary order. The written response should include:

(i) An explanation of why the proposed action or temporary order is not warranted; and

(ii)(A) Any other relevant information, mitigation circumstance, documentation, or other evidence in support of the applicant's position. An applicant may also request a hearing under §303.10.

(B) Failure by an applicant to file a written response with the FDIC to a notice of intent or a temporary order within the specified time period, shall constitute a waiver of the opportunity to respond and shall constitute consent to a final order under this paragraph (g). The FDIC shall consider any such response, if filed in a timely manner, within 30 days of receiving the response.

(4) Effective date. All orders issued pursuant to this section shall become effective immediately upon issuance unless otherwise stated therein.

§303.14 Being “engaged in the business of receiving deposits other than trust funds.”

(a) Except as provided in paragraphs (b), (c), and (d) of this section, a depository institution shall be “engaged in the business of receiving deposits other than trust funds” only if it maintains one or more non-trust deposit accounts in the minimum aggregate amount of $500,000.

(b) An applicant for federal deposit insurance under section 5 of the FDI Act, 12 U.S.C. 1815(a), shall be deemed to be “engaged in the business of receiving deposits other than trust funds” from the date that the FDIC approves deposit insurance for the institution until one year after it opens for business.

(c) Any depository institution that fails to satisfy the minimum deposit standard specified in paragraph (a) of this section as of two consecutive call report dates (i.e., March 31st, June 30th, September 30th, and December 31st) shall be subject to a determination by the FDIC that the institution is not “engaged in the business of receiving deposits other than trust funds” and to termination of its insured status under section 8(p) of the FDI Act, 12 U.S.C. 1818(p). For purposes of this paragraph, the first three call report dates after the institution opens for business are excluded.

(d) Notwithstanding any failure by an insured depository institution to satisfy the minimum deposit standard in paragraph (a) of this section, the institution shall continue to be “engaged in the business of receiving deposits other than trust funds” for purposes of section 3 of the FDI Act until the institution’s insured status is terminated by the FDIC pursuant to a proceeding under section 8(a) or section 8(p) of the FDI Act, 12 U.S.C. 1818(a) or 1818(p).

§303.12 Waivers.

(a) The Board of Directors, of the FDIC (Board) may, for good cause and to the extent permitted by statute, waive the applicability of any provision of this chapter.

(b) The provisions of this chapter may be suspended, revoked, amended or waived for good cause shown, in whole or in part, at any time by the Board, subject to the provisions of the Administrative Procedure Act and the provisions of this chapter. Any provision of the rules may be waived by the Board on its own motion or on petition if good cause thereof is shown.

[68 FR 50459, Aug. 21, 2003]

§303.13 [Reserved]
§ 303.15 Certain limited liability companies deemed incorporated under State law.

(a) For purposes of the definition of “State bank” in 12 U.S.C. 1813(a)(2) and this Chapter, a banking institution that is chartered as a limited liability company (LLC) under the law of any State is deemed to be “incorporated” under the law of the State, if

1. The institution is not subject to automatic termination, dissolution, or suspension upon the happening of some event (including, e.g., the death, disability, bankruptcy, expulsion, or withdrawal of an owner of the institution), other than the passage of time;

2. The exclusive authority to manage the institution is vested in a board of managers or directors that is elected or appointed by the owners, and that operates in substantially the same manner as, and has substantially the same rights, powers, privileges, duties, responsibilities, as a board of directors of a bank chartered as a corporation in the State;

3. Neither State law, nor the institution’s operating agreement, bylaws, or other organizational documents provide that an owner of the institution is liable for the debts, liabilities, and obligations of the institution in excess of the amount of the owner’s investment; and

4. Neither State law, nor the institution’s operating agreement, bylaws, or other organizational documents require the consent of any other owner of the institution in order for an owner to transfer an ownership interest in the institution, including voting rights.

(b) For purposes of the Federal Deposit Insurance Act and this Chapter,

1. Each of the terms “stockholder” and “shareholder” includes an owner of any interest in a bank chartered as an LLC, including a member or participant;

2. The term “director” includes a manager or director of a bank chartered as an LLC, or other person who has, with respect to such a bank, authority substantially similar to that of a director of a corporation;

3. The term “officer” includes an officer of a bank chartered as an LLC, or other person who has, with respect to such a bank, authority substantially similar to that of an officer of a corporation; and

4. Each of the terms “voting stock,” “voting shares,” and “voting securities” includes ownership interests in a bank chartered as an LLC, as well as any certificates or other evidence of such ownership interests.

[68 FR 7308, Feb. 13, 2003]

§§ 303.16–303.19 [Reserved]

Subpart B—Deposit Insurance

§ 303.20 Scope.

This subpart sets forth the procedures for applying for deposit insurance for a proposed depository institution or an operating uninsured depository institution under section 5 of the FDI Act (12 U.S.C. 1815). It also sets forth the procedures for requesting continuation of deposit insurance for a state-chartered bank withdrawing from membership in the Federal Reserve System and for interim institutions chartered to facilitate a merger transaction. Each bank that results from the conversion of a Federal savings association into multiple banks pursuant to section 5(i)(5) of the Home Owners’ Loan Act, 12 U.S.C. 1464(i)(5), is treated as a proposed depository institution or a de novo institution, as appropriate, for purposes of this subpart.

§ 303.21 Filing procedures.

(a) Applications for deposit insurance shall be filed with the appropriate FDIC office. The relevant application forms and instructions for applying for deposit insurance for an existing or proposed depository institution may be obtained from any FDIC regional director.

(b) An application for deposit insurance for an interim depository institution shall be filed and processed in accordance with the procedures set forth in § 303.24, subject to the provisions of § 303.62(b)(2) regarding deposit insurance for interim institutions. An interim institution is defined as a state-
or Federally-chartered depository institution that does not operate independently but exists solely as a vehicle to accomplish a merger transaction.

(c) A request for continuation of deposit insurance upon withdrawing from membership in the Federal Reserve System shall be in letter form and shall provide the information prescribed in §303.25.

§ 303.22 Processing.

(a) Expedited processing for proposed institutions. (1) An application for deposit insurance for a proposed institution which will be a subsidiary of an eligible depository institution as defined in §303.2(r) or an eligible holding company will be acknowledged in writing by the FDIC and will receive expedited processing unless the applicant is notified in writing to the contrary and provided with the basis for that decision. An eligible holding company is defined as a bank or thrift holding company that has consolidated assets of at least $150 million or more; a BOPEC rating of at least “2” for bank holding companies or an above average or “A” rating for thrift holding companies; and at least 75 percent of its consolidated depository institution assets comprised of eligible depository institutions. The FDIC may remove an application from expedited processing for any of the reasons set forth in §303.11(c)(2).

(2) Under expedited processing, the FDIC will take action on an application within 60 days of receipt of a substantially complete application or 5 days after the expiration of the comment period described in §303.23, whichever is later. Final action may be withheld until the FDIC has assurance that permission to organize the proposed institution will be granted by the chartering authority. Notwithstanding paragraph (a)(1) of this section, if the FDIC does not act within the expedited processing period, it does not constitute an automatic or default approval.

(b) Standard processing. For those applications that are not processed pursuant to the expedited procedures, the FDIC will provide the applicant with written notification of the final action when the decision is rendered.

§ 303.23 Public notice requirements.

(a) De novo institutions and operating uninsured institutions. The applicant shall publish a notice as prescribed in §303.7 in a newspaper of general circulation in the community in which the main office of the depository institution is or will be located. Notice shall be published as close as practicable to, but no sooner than five days before, the date the application is mailed or delivered to the appropriate FDIC office. Comments by interested parties must be received by the appropriate regional director within 30 days following the date of publication, unless the comment period has been extended or reopened in accordance with §303.9(b)(2).

(b) Exceptions to public notice requirements. No publication shall be required in connection with the granting of insurance to a new depository institution established pursuant to the resolution of a depository institution in default, or to an interim depository institution formed solely to facilitate a merger transaction, or for a request for continuation of federal deposit insurance by a state-chartered bank withdrawing from membership in the Federal Reserve System.

§ 303.24 Application for deposit insurance for an interim institution.

(a) Application required. Subject to §303.62(b)(2), a deposit insurance application is required for a state-chartered interim institution if the related merger transaction is subject to approval by a federal banking agency other than the FDIC. A separate application for deposit insurance for an interim institution is not required in connection with any merger requiring FDIC approval pursuant to subpart D of this part.

(b) Content of separate application. A letter application for deposit insurance for an interim institution, accompanied by a copy of the related merger...
§ 303.25 Application, shall be filed with the appropriate FDIC office. The letter application shall briefly describe the transaction and contain a statement that deposit insurance is being requested for an interim institution that does not operate independently but exists solely as a vehicle to accomplish a merger transaction which will be reviewed by a federal banking agency other than the FDIC.

(c) Processing. An application for deposit insurance for an interim depository institution will be acknowledged in writing by the FDIC. Final action will be taken within 21 days after receipt of a substantially complete application, unless the applicant is notified in writing that additional review is warranted. If the FDIC does not act within the expedited processing period, it does not constitute an automatic or default approval.

§ 303.25 Continuation of deposit insurance upon withdrawing from membership in the Federal Reserve System.

(a) Content of application. To continue its insured status upon withdrawal from membership in the Federal Reserve System, a state-chartered bank shall submit a letter application to the appropriate FDIC office. A complete application shall consist of the following information:

(1) A copy of the letter, and any attachments thereto, sent to the appropriate Federal Reserve Bank setting forth the bank’s intention to terminate its membership;

(2) A copy of the letter from the Federal Reserve Bank acknowledging the bank’s notice to terminate membership;

(3) A statement regarding any anticipated changes in the bank’s general business plan during the next 12-month period; and

(4)(i) A statement by the bank’s management that there are no outstanding or proposed corrective programs or supervisory agreements with the Federal Reserve System.

(ii) If such programs or agreements exist, a statement by the applicant that its Board of Directors is willing to enter into similar programs or agreements with the FDIC which would become effective upon withdrawal from the Federal Reserve System.

(b) Processing. An application for deposit insurance under this section will be acknowledged in writing by the FDIC. The FDIC shall notify the applicant, within 15 days of receipt of a substantially complete application, either that federal deposit insurance will continue upon termination of membership in the Federal Reserve System or that additional review is warranted and the applicant will be notified, in writing, of the FDIC’s final decision regarding continuation of deposit insurance. If the FDIC does not act within the expedited processing period, it does not constitute an automatic or default approval.

§§ 303.26–303.39 [Reserved]

Subpart C—Establishment and Relocation of Domestic Branches and Offices

§ 303.40 Scope.

(a) General. This subpart sets forth the application requirements and procedures for insured state nonmember banks to establish a branch, relocate a branch or main office, and retain existing branches after the interstate relocation of the main office subject to the approval by the FDIC pursuant to sections 13(f), 13(k), 18(d) and 44 of the FDI Act.

(b) Merger transaction. Applications for approval of the acquisition and establishment of branches in connection with a merger transaction under section 18(c) of the FDI Act (12 U.S.C. 1828(c)), are processed in accordance with subpart D (Merger Transactions) of this part.

(c) Insured branches of foreign banks and foreign branches of domestic banks. Applications regarding insured branches of foreign banks and foreign branches of domestic banks are processed in accordance with subpart J (International Banking) of this part.

(d) Interstate acquisition of individual branch. Applications requesting approval of the interstate acquisition of an individual branch or branches located in a state other than the applicant’s home state without the acquisition of the whole bank are treated as
interstate bank merger transactions under section 44 of the FDI Act (12 U.S.C. 1831a(u)), and are processed in accordance with subpart D (Merger Transactions) of this part.

§ 303.41 Definitions.

For purposes of this subpart:

(a) Branch, except as provided in this paragraph, includes any branch bank, branch office, additional office, or any branch place of business located in any State of the United States or in any territory of the United States, Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, the Virgin Islands, and the Northern Mariana Islands at which deposits are received or checks paid or money lent. A branch does not include an automated teller machine, an automated loan machine, a remote service unit, or a facility described in section 303.46. The term branch also includes the following:

(1) A messenger service that is operated by a bank or its affiliate that picks up and delivers items relating to transactions in which deposits are received or checks paid or money lent. A messenger service established and operated by a non-affiliated third party generally does not constitute a branch for purposes of this subpart. Banks contracting with third parties to provide messenger services should consult with the FDIC to determine if the messenger service constitutes a branch.

(2) A mobile branch, other than a messenger service, that does not have a single, permanent site and uses a vehicle that travels to various locations to enable the public to conduct banking business. A mobile branch may serve defined locations on a regular schedule or may serve a defined area at varying times and locations.

(3) A temporary branch that operates for a limited period of time not to exceed one year as a public service, such as during an emergency or disaster situation.

(4) A seasonal branch that operates at various periodically recurring intervals, such as during state and local fairs, college registration periods, and other similar occasions.

(b) Branch relocation means a move within the same immediate neighborhood of the existing branch that does not substantially affect the nature of the business of the branch or the customers of the branch. Moving a branch to a location outside its immediate neighborhood is considered the closing of an existing branch and the establishment of a new branch. Closing of a branch is covered in the FDIC Statement of Policy Concerning Branch Closing Notices and Policies. 1 FDIC Law, Regulations, Related Acts 5391; see §309.4 (a) and (b) of this chapter for availability.

(c) De novo branch means a branch of a bank which is established by the bank as a branch and does not become a branch of such bank as a result of:

(1) The acquisition by the bank of an insured depository institution or a branch of an insured depository institution; or

(2) The conversion, merger, or consolidation of any such institution or branch.

(d) Home state means the state by which the bank is chartered.

(e) Host state means a state, other than the home state of the bank, in which the bank maintains, or seeks to establish and maintain, a branch.

§ 303.42 Filing procedures.

(a) General. An applicant shall submit an application to the appropriate FDIC office on the date the notice required by §303.44 is published, or within 5 days after the date of the last required publication.

(b) Content of filing. A complete letter application shall include the following information:

(1) A statement of intent to establish a branch, or to relocate the main office or a branch;

(2) The exact location of the proposed site including the street address. With regard to messenger services, specify the geographic area in which the services will be available. With regard to a mobile branch specify the community or communities in which the vehicle will operate and the manner in which it will be used;

(3) Details concerning any involvement in the proposal by an insider of
§ 303.43 Processing.

(a) Expedited processing for eligible depository institutions. An application filed under this subpart by an eligible depository institution as defined in §303.2(r) will be acknowledged in writing by the FDIC and will receive expedited processing, unless the applicant is notified in writing to the contrary and provided with the basis for that decision. The FDIC may remove an application from expedited processing for any of the reasons set forth in §303.11(c)(2). Absent such removal, an application processed under expedited processing will be deemed approved on the latest of the following:

(1) The 21st day after receipt by the FDIC of a substantially complete filing;

(2) The 5th day after expiration of the comment period described in §303.44; or

(3) In the case of an application to establish a de novo branch in a state that is not the applicant’s home state and in which the applicant does not maintain a branch, the 5th day after the FDIC receives confirmation from the host state that the applicant has both complied with the filing requirements of the host state and submitted a copy of the application with the FDIC to the host state bank supervisor.

(b) Standard processing. For those applications which are not processed pursuant to the expedited procedures, the FDIC will provide the applicant with written notification of the final action when the decision is rendered.

§ 303.44 Public notice requirements.

(a) Newspaper publications. For applications to establish or relocate a branch, a notice as described in §303.7(c) shall be published once in a newspaper of general circulation. For applications to relocate a main office, notice shall be published at least once each week on the same day for two consecutive weeks. The required publication shall be made in the following communities:

(1) To establish a branch. In the community in which the main office is located and in the communities to be served by the branch (including messenger services and mobile branches).

(2) To relocate a main office. In the community in which the main office is located and in the communities to be served by the branch (including messenger services and mobile branches).
§ 303.61 Definitions.

For purposes of this subpart:

(a) Merger transaction includes any transaction:

(1) To relocate a main office. In the community to which it is proposed the main office will relocate.

(3) To relocate a branch. In the community in which the branch is located.

(b) Public comments. Comments by interested parties must be received by the appropriate regional director within 15 days after the date of the last newspaper publication required by paragraph (a) of this section, unless the comment period has been extended or reopened in accordance with § 303.9(b)(2).

(c) Lobby notices. In the case of applications to relocate a main office or a branch, a copy of the required newspaper publication shall be posted in the public lobby of the office to be relocated for at least 15 days beginning on the date of the last published notice required by paragraph (a) of this section.

§ 303.45 Special provisions.

(a) Emergency or disaster events. (1) In the case of an emergency or disaster at a main office or a branch which requires that an office be immediately relocated to a temporary location, applicants shall notify the appropriate FDIC office within 3 days of such temporary relocation.

(2) Within 10 days of the temporary relocation resulting from an emergency or disaster, the bank shall submit a written application to the appropriate FDIC office, that identifies the nature of the emergency or disaster, specifies the location of the temporary branch, and provides an estimate of the duration the bank plans to operate the temporary branch.

(3) As part of the review process, the FDIC will determine on a case by case basis whether additional information is necessary and may waive public notice requirements.

(b) Redesignation of main office and existing branch. In cases where an applicant desires to redesignate its main office as a branch and redesignate an existing branch as the main office, a single application shall be submitted. The FDIC may waive the public notice requirements in instances where an application presents no significant or novel policy, supervisory, CRA, compliance or legal concerns. A waiver will be granted only to a redesignation within the applicant’s home state.

(c) Expiration of approval. Approval of an application expires if within 18 months after the approval date a branch has not commenced business or a relocation has not been completed.

§ 303.46 Financial education programs that include the provision of bank products and services.

No branch application or prior approval is required in order for a state nonmember bank to participate in one or more financial education programs that involve receiving deposits, paying withdrawals, or lending money if:

(a) Such service or services are provided on school premises, or a facility used by the school;

(b) Such service or services are provided at the discretion of the school;

(c) The principal purpose of each program is financial education. For example, the principal purpose of a program would be considered to be financial education if the program is designed to teach students the principles of personal financial management, banking operations, or the benefits of saving for the future, and is not designed for the purpose of profit-making; and

(d) Each program is conducted in a manner that is consistent with safe and sound banking practices and complies with applicable law.

[73 FR 35338, June 23, 2008]

§§ 303.47–303.59 [Reserved]
(1) In which an insured depository institution merges or consolidates with any other insured depository institution or, either directly or indirectly, acquires the assets of, or assumes liability to pay any deposits made in, any other insured depository institution; or
(2) In which an insured depository institution merges or consolidates with any noninsured bank or institution or assumes liability to pay any deposits made in, or similar liabilities of, any noninsured bank or institution, or in which an insured depository institution transfers assets to any noninsured bank or institution in consideration of the assumption of any portion of the deposits made in the insured depository institution.
(b) Corporate reorganization means a merger transaction that involves solely an insured depository institution and one or more of its affiliates.
(c) Interim merger transaction means a merger transaction (other than a purchase and assumption transaction) between an operating depository institution and a newly-formed depository institution or corporation that will not operate independently and that exists solely for the purpose of facilitating a corporate reorganization.
(d) Resulting institution refers to the acquiring, assuming or resulting institution in a merger transaction.

§ 303.62 Transactions requiring prior approval.

(a) Merger transactions. The following merger transactions require the prior written approval of the FDIC under this subpart:
(1) Any merger transaction, including any corporate reorganization, interim merger transaction, or optional conversion, in which the resulting institution is to be an insured state nonmember bank; and
(2) Any merger transaction, including any corporate reorganization or interim merger transaction, that involves an uninsured bank or institution.
(b) Related provisions. Transactions covered by this subpart also may be subject to other provisions or application requirements, including the following:
(1) Interstate merger transactions. Merger transactions between insured banks that are chartered in different states are subject to the provisions of section 44 of the FDI Act (12 U.S.C. 1831u). In the case of a merger transaction that consists of the acquisition by an out of state bank of a branch without acquisition of the bank, the branch is treated for section 44 purposes as a bank whose home state is the state in which the branch is located.
(2) Deposit insurance. An application for deposit insurance will be required in connection with a merger transaction between a state-chartered interim institution and an insured depository institution if the related merger application is being acted upon by a federal banking agency other than the FDIC. If the FDIC is the federal banking agency responsible for acting on the related merger application, a separate application for deposit insurance is not necessary. Procedures for applying for deposit insurance are set forth in subpart B of this part. An application for deposit insurance will not be required in connection with a merger transaction (other than a purchase and assumption transaction) of a federally-chartered interim institution and an insured institution, even if the resulting institution is to operate under the charter of the federal interim institution.
(3) Branch closings. Branch closings in connection with a merger transaction are subject to the notice requirements of section 42 of the FDI Act (12 U.S.C. 1831r–1), including requirements for notice to customers. These requirements are addressed in the “Interagency Policy Statement Concerning Branch Closings Notices and Policies” (1 FDIC Law, Regulations, Related Acts (FDIC) 5391; see §303.4(a) and (b) of this chapter for availability.)
(4) Undercapitalized institutions. Applications for a merger transaction by applicants subject to section 38 of the FDI Act (12 U.S.C. 1831o) should also provide the information required by §303.204. Applications pursuant to sections 38 and 18(c) of the FDI Act (12
§ 303.64 Processing.

(a) Expedited processing for eligible depository institutions—(1) General. An application filed under this subpart by an eligible depository institution as defined in §303.2(r) and which meets the additional criteria in paragraph (a)(4) of this section will be acknowledged by the FDIC in writing and will receive expedited processing, unless the applicant is notified in writing to the contrary and provided with the basis for that decision. The FDIC may remove an application from expedited processing for any of the reasons set forth in §303.11(c)(2).

(2) Under expedited processing, the FDIC will take action on an application by the date that is the latest of:

(i) 45 days after the date of the FDIC’s receipt of a substantially complete merger application; or

(ii) 10 days after the date of the last notice publication required under §303.65 of this subpart; or

(iii) 5 days after receipt of the Attorney General’s report on the competitive factors involved in the proposed transaction; or

(iv) For an interstate merger transaction subject to the provisions of section 44 of the FDI Act (12 U.S.C. 1831u), 5 days after the FDIC receives confirmation from the host state (as defined in §303.41(e)) that the applicant has both complied with the filing requirements of the host state and submitted a copy of the FDIC merger application to the host state’s bank supervisor.

(3) Notwithstanding paragraph (a)(1) of this section, if the FDIC does not act within the expedited processing period, it does not constitute an automatic or default approval.

(4) Criteria. The FDIC will process an application using expedited procedures if:

(i) Immediately following the merger transaction, the resulting institution will be “well-capitalized” pursuant to subpart B of part 325 of this chapter (12 CFR part 325) or subpart H of part 324 of this chapter (12 CFR part 324), as applicable; and

(ii)(A) All parties to the merger transaction are eligible depository institutions as defined in §303.2(r); or

(B) The acquiring party is an eligible depository institution as defined in §303.2(r) and the amount of the total assets to be transferred does not exceed an amount equal to 10 percent of the acquiring institution’s total assets as reported in its report of condition for the quarter immediately preceding the filing of the merger application.

(b) Standard processing. For those applications not processed pursuant to the expedited procedures, the FDIC will provide the applicant with written notification of the final action taken by the FDIC on the application when the decision is rendered.

§ 303.65 Public notice requirements.

(a) General. Except as provided in paragraph (b) of this section, an applicant for approval of a merger transaction must publish notice of the proposed transaction on at least three occasions at approximately equal intervals in a newspaper of general circulation in the community or communities where the main offices of the merging institutions are located or, if there is no such newspaper in the community, then in the newspaper of general circulation published nearest thereto.

(b) Exceptions—(1) Emergency requiring expeditious action. If the FDIC determines that an emergency exists requiring expeditious action, notice shall be published twice. The first notice shall be published as soon as possible after the FDIC notifies the applicant of such determination. The second notice shall be published on the 7th day after the first publication or, if the newspaper does not publish on the 7th day, on the newspaper’s publication date that is closest to the 7th day.

(2) Probable failure. If the FDIC determines that it must act immediately to prevent the probable failure of one of the institutions involved in a proposed merger transaction, publication is not required.

(1) Content of notice—(1) General. The notice shall conform to the public notice requirements set forth in §303.7.

(2) Branches. If it is contemplated that the resulting institution will operate offices of the other institution(s) as branches, the following statement shall be included in the notice required in §303.7(b):

It is contemplated that all offices of the above-named institutions will continue to be operated (with the exception of [insert identity and location of each office that will not be operated]),

(3) Emergency requiring expeditious action. If the FDIC determines that an emergency exists requiring expeditious action, the notice shall specify as the closing date of the public comment period the date that is the 10th day after the date of the first publication.

(d) Public comments. Comments must be received by the appropriate FDIC office within 30 days after the first publication of the notice, unless the comment period has been extended or reopened in accordance with §303.9(b)(2). If the FDIC has determined that an emergency exists requiring expeditious action, comments must be received by the appropriate FDIC office within 10 days after the first publication.

§§ 303.66–303.79 [Reserved]

Subpart E—Change in Bank Control

SOURCE: 80 FR 65899, Oct. 28, 2015, unless otherwise noted.

§ 303.80 Scope.

This subpart implements the provisions of the Change in Bank Control Act of 1978, section 7(j) of the FDI Act (12 U.S.C. 1817(j)) (CBCA), and sets forth the filing requirements and processing procedures for a notice of change in control with respect to the acquisition of control of a State nonmember bank, a State savings association, or certain parent companies of either a State nonmember bank or a State savings association.

§ 303.81 Definitions.

For purposes of this subpart:

(a) Acting in concert means knowing participation in a joint activity or parallel action towards a common goal of acquiring control of a covered institution whether or not pursuant to an express agreement.

(b) Company means a company as defined in section 2 of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841 et seq.) and any person that is not an individual including for example, a limited liability company.

(c) Control means the power, directly or indirectly, to direct the management or policies of a covered institution or to vote 25 percent or more of
Federal Deposit Insurance Corporation § 303.82

any class of voting securities of a covered institution.

(d) **Convertible securities** mean debt or equity interests that may be converted into voting securities.

(e) **Covered institution** means an insured State nonmember bank, an insured State savings association, and any company that controls, directly or indirectly, an insured State nonmember bank or an insured State savings association other than a holding company that is the subject of an exemption described in either section 303.84(a)(3) or (a)(8).

(f) **Immediate family** means a person’s parents, mother-in-law, father-in-law, children, step-children, siblings, step-siblings, brothers-in-law, sisters-in-law, grandparents, and grandchildren, whether biological, adoptive, adjudicated, contractual, or de facto; the spouse of any of the foregoing; and the person’s spouse.

(g) **Person** means an individual, corporation, limited liability company (LLC), partnership, trust, association, joint venture, pool, syndicate, sole proprietorship, unincorporated organization, voting trust, or any other form of entity; and includes each party to a voting agreement and any group of persons acting in concert.

(h) **Management official** means any officer, LLC manager, director, partner, or trustee of an entity, or other person with similar functions and powers with respect to a company.

(1)(i) **Voting securities** means shares of common or preferred stock, general or limited partnership shares or interests, membership interests, or similar interests if the shares or interests, by statute, charter, or in any manner, entitle the holder:

(i) To vote, or to select, directors, trustees, managers of an LLC, partners, or other persons exercising similar functions of the issuing entity; or

(ii) To vote on, or to direct, the conduct of the operations or significant policies of the issuing entity.

(2) **Nonvoting shares**: Shares of common or preferred stock, limited partnership shares or interests, membership interests, or similar interests are not ‘‘voting securities’’ if:

(i) Any voting rights associated with the shares or interests are limited solely to the type customarily provided by State statute with regard to matters that would significantly and adversely affect the rights or preference of the security or other interest, such as the issuance of additional amounts or classes of senior securities, the modification of the terms of the security or interest, the dissolution of the issuing entity, or the payment of dividends by the issuing entity when preferred dividends are in arrears;

(ii) The shares or interests represent an essentially passive investment or financing device and do not otherwise provide the holder with control over the issuing entity; and

(iii) The shares or interests do not entitle the holder, by statute, charter, or in any manner, to select, or to vote for the selection of, directors, trustees, managers of an LLC, partners, or persons exercising similar functions of the issuing entity.

(3) Class of voting securities: Voting securities issued by a single issuer are deemed to be the same class of voting securities, regardless of differences in dividend rights or liquidation preference, if the securities are voted together as a single class on all matters for which the securities have voting rights other than matters described in paragraph (1)(2)(i) of this section that affect solely the rights or preferences of the securities.

§ 303.82 Transactions that require prior notice.

(a) **Prior notice requirement.** (1) Except as provided in §§ 303.83 and 303.84, no person, acting directly or indirectly, or through or in concert with one or more persons, shall acquire control of a covered institution unless the person shall have given the FDIC prior notice of the proposed acquisition as provided in the CBCA and this subpart, and the FDIC has not disapproved the acquisition within 60 days or such longer period as may be permitted under the CBCA; and

(2) Except as provided in §§ 303.83 and 303.84, and unless waived by the FDIC, no person who has been approved to acquire control of a covered institution and who has maintained that control shall acquire, directly or indirectly, or through or in concert with one or more...
§ 303.83 Transactions that require notice, but not prior notice.

(a) Notice within 90 days after the acquisition. The following acquisitions of voting securities of a covered institution, which otherwise would require prior notice under this subpart, instead require the acquirer to provide to the appropriate FDIC office within 90 calendar days after the acquisition all relevant information requested by the FDIC:

(1) The acquisition of voting securities as a bona fide gift;

(2) The acquisition of voting securities in satisfaction of a debt previously contracted in good faith, except as provided in §303.82(c); and

(3) The acquisition of voting securities through inheritance.
(b) Notice within 90 days after receiving notice of the event giving rise to the acquisition of control. The following acquisitions of control of a covered institution, which otherwise would require prior notice under this subpart, instead require the person acquiring control to provide to the appropriate FDIC office, within 90 calendar days after receiving notice of the event giving rise to the acquisition of control, all relevant information requested by the FDIC:

(1) The acquisition of control resulting from a redemption of voting securities by the issuing covered institution; and

(2) The acquisition of control as a result of any event or action (including without limitation the sale of securities) by any third party that is not within the control of the person acquiring control.

(c) The FDIC may disapprove a notice filed after an acquisition of control, and nothing in this section limits the authority of the FDIC to disapprove a notice pursuant to §303.86(c).

(d) The relevant information that the FDIC may require under this section may include all information and documents routinely required for a prior notice as provided in §303.85.

(e) If the FDIC disapproves a Notice filed under this §303.83, the notificant(s) must divest control of the covered institution which may include, without limitation, disposing of some or all of the voting securities so that the notificant(s) is no longer in control of the covered institution, within such period of time and in the manner that the FDIC may determine.

§ 303.84 Transactions that do not require notice.

(a) Exempt transactions. The following transactions do not require notice to the FDIC under this subpart:

(1) The acquisition of additional voting securities of a covered institution by a person who:

(i) Held the power to vote 25 percent or more of any class of voting securities of the institution continuously since the later of March 9, 1979, or the date that the institution commenced business; or

(ii) Is presumed, under §303.82(b) to have controlled the institution continuously since March 9, 1979, if the aggregate amount of voting securities held does not exceed 25 percent or more of any class of voting securities of the institution or, in other cases, where the FDIC determines that the person has controlled the institution continuously since March 9, 1979;

(2) The acquisition of additional voting securities of a covered institution by a person who has lawfully acquired and maintained control of the institution (for purposes of §303.82) after obtaining the FDIC’s non-objection under the CBCA and the FDIC’s regulations or the OTS’s non-objection under the repealed Change in Savings and Loan Control Act, 12 U.S.C. 1730(q), and the regulations thereunder then in effect, to acquire control of the institution, unless a notice is required for an increase in ownership described in 12 CFR 303.82(a)(2);

(3) Acquisitions of voting securities subject to approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842(a)), section 18(c) of the FDI Act (12 U.S.C. 1828(c)), or section 10 of the Home Owners’ Loan Act (12 U.S.C. 1467a);

(4) Any transaction described in sections 2(a)(5), 3(a)(A), or 3(a)(B) of the Bank Holding Company Act (12 U.S.C. 1841(a)(5), 1842(a)(A), or 1842(a)(B)) by a person described in those provisions;

(5) A customary one-time solicitation of a revocable proxy;

(6) The receipt of voting securities of a covered institution through a pro rata stock dividend or stock split if the proportional interests of the recipients remain substantially the same;

(7) The acquisition of voting securities in a foreign bank that has an insured branch in the United States. (This exemption does not extend to the reports and information required under paragraphs 9, 10, and 12 of the CBCA (12 U.S.C. 1817(j)(9), (10), and (12)); and

(8) The acquisition of voting securities of a depository institution holding company for which the Board of Governors of the Federal Reserve System reviews a notice pursuant to the CBCA (12 U.S.C. 1817(j)).

§ 303.85 Filing procedures.

(a) Filing notice. (1) A notice required under this subpart shall be filed with
the appropriate FDIC office and shall contain all the information required by paragraph 6 of the CBCA, section 7(j) of the FDI Act, (12 U.S.C. 1817(j)(6)), or prescribed in the designated interagency forms which may be obtained from any FDIC regional director.

(2) The FDIC may waive any of the informational requirements of the notice if the FDIC determines that it is in the public interest.

(3) A notificant shall notify the appropriate FDIC office immediately of any material changes in the information contained in a notice submitted to the FDIC, including changes in financial or other conditions.

(4) When the acquiring person is an individual, or group of individuals acting in concert, the requirement to provide personal financial data may be satisfied by a current statement of assets and liabilities and an income summary, as required in the designated interagency form, together with a statement of any material changes since the date of the statement or summary. The FDIC may require additional information if appropriate.

(b) Other laws. Nothing in this subpart shall affect any obligation which the acquiring person(s) may have to comply with the federal securities laws or other laws.

§ 303.86 Processing.

(a) Acceptance of notice, additional information. The FDIC shall notify the person or persons submitting a notice under this subpart in writing of the date the notice is accepted as substantially complete. The FDIC may request additional information at any time.

(b) Commencement of the 60-day notice period: consummation of acquisition. (1) The 60-day notice period specified in §303.82 shall commence on the day after the date of acceptance of a substantially complete notice by the appropriate regional director. The notificant(s) may consummate the proposed acquisition after the expiration of the 60-day notice period, unless the FDIC disapproves the proposed acquisition or extends the notice period as provided in the CBCA.

(2) The notificant(s) may consummate the proposed transaction before the expiration of the 60-day period, including any extensions, if the FDIC notifies the notificant(s) in writing of its intention not to disapprove the acquisition.

(c) Disapproval of acquisition of control. Subpart D of 12 CFR part 308 sets forth the rules of practice and procedure for a notice of disapproval.

§ 303.87 Public notice requirements.

(a) Publication.—(1) Newspaper announcement. Any person(s) filing a notice under this subpart shall publish an announcement soliciting public comment on the proposed acquisition. The announcement shall be published in a newspaper of general circulation in the community in which the home office of the covered institution to be acquired is located.

(2) Timing of publication. The announcement shall be published as close as is practicable to the date the notice is filed with the appropriate FDIC office, but in no event more than 10 calendar days before or after the filing date. If the filing is not filed in accordance with the CBCA and this subpart within the time periods specified herein, the acquiring person(s) shall, within 10 days of being directed by the FDIC to file a Notice, publish an announcement of the acquisition of control.

(b) Delay of publication. The FDIC may permit delay in the publication required by this section if the FDIC determines, for good cause, that it is in the public interest to grant such a delay. Requests for delay of publication may be submitted to the appropriate FDIC office.

(c) Shortening or waiving public comment period, waiving publications; acting before close of public comment period. The FDIC may shorten the public comment period to a period of not less than 10 days, or waive the public comment period.
newspaper publication requirements of paragraph (a) of this section, or act on a notice before the expiration of a public comment period, if it determines in writing either that an emergency exists or that disclosure of the notice, solicitation of public comment, or delay until expiration of the public comment period would seriously threaten the safety and soundness of the State nonmember bank or State savings association to be acquired.

(d) Consideration of public comments. In acting upon a notice filed under this subpart, the FDIC shall consider all public comments received in writing within 20 days following the required newspaper publication or, if the FDIC has shortened the public comment period pursuant to paragraph (c) of this section, within such shorter period.

§ 303.88 Reporting of stock loans and changes in chief executive officers and directors.

(a) Requirements of reporting stock loans. (1) Any foreign bank or affiliate of a foreign bank that has credit outstanding to any person or group of persons, in the aggregate, which is secured, directly or indirectly, by 25 percent or more of any class of voting securities of a covered institution, shall file a consolidated report with the appropriate FDIC office.

(2) Any voting securities of the covered institution held by the foreign bank or any affiliate of the foreign bank as principal must be included in the calculation of the number of voting securities in which the foreign bank or its affiliate has a security interest for purposes of this paragraph (a).

(b) Definitions. For purposes of paragraph (a) of this section:

(1) Foreign bank shall have the same meaning as in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(2) Affiliate shall have the same meaning as in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(3) Credit outstanding includes any loan or extension of credit; the issuance of a guarantee, acceptance, or letter of credit, including an endorsement or standby letter of credit; and any other type of transaction that extends credit or financing to the person or group of persons.

(4) Group of persons includes any number of persons that the foreign bank or any affiliate of a foreign bank has reason to believe:

(i) Are acting together, in concert, or with one another to acquire or control voting securities of the same covered institution, including an acquisition of voting securities of the same covered institution at approximately the same time under substantially the same terms; or

(ii) Have made, or propose to make, a joint filing under section 13 or 14 of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78n), and the rules promulgated thereunder by the Securities and Exchange Commission regarding ownership of the voting securities of the same covered institution.

(c) Exceptions. Compliance with paragraph (a) of this section is not required if:

(1) The person or group of persons referred to in paragraph (a) has disclosed the amount borrowed and the security interest therein to the appropriate FDIC office in connection with a notice filed under the CBCA, an application filed under either 12 U.S.C. 1841, et seq. or 12 U.S.C. 1467a, or any other application filed with the FDIC as a substitute for a notice under §303.82 of this subpart, including an application filed under section 18(c) of the FDI Act (Bank Merger Act, 12 U.S.C. 1828(c)) or section 5 of the FDI Act (12 U.S.C. 1815); or

(2) The transaction involves a person or group of persons that has been the owner or owners of record of the stock for a period of one year or more; or, if the transaction involves stock issued by a newly chartered bank, before the bank is opened for business.

(d) Report requirements for purposes of paragraph (a) of this section. (1) The consolidated report must indicate the number and percentage of voting securities securing each applicable extension of credit, the identity of the borrower, the number of voting securities held as principal by the foreign bank and any affiliate thereof, and any additional information that the FDIC may require in connection with a particular report.
(2) A foreign bank, or any affiliate of a foreign bank, shall file the consolidated report in writing within 30 days of the date on which the foreign bank or affiliate first believes that the security for any outstanding credit consists of 25 percent or more of any class of voting securities of a covered institution.

(e) Foreign bank or affiliate not supervised by FDIC. If the foreign bank, or any affiliate thereof, is not supervised by the FDIC, it shall file a copy of the report filed under paragraph (a) of this section with its appropriate Federal banking agency.

(f) Reporting requirement. After the consummation of a change in control, a covered institution must notify the FDIC in writing of any changes or replacements of its chief executive officer or of any director occurring during the 12-month period beginning on the date of consummation. This notice must be filed within 10 days of such change or replacement and must include a statement of the past and current business and professional affiliations of the new chief executive officers or directors.

§§ 303.89–303.99 [Reserved]

Subpart F—Change of Director or Senior Executive Officer

§ 303.100 Scope.

This subpart sets forth the circumstances under which an insured state nonmember bank must notify the FDIC of a change in any member of its board of directors or any senior executive officer and the procedures for filing such notice. This subpart implements section 32 of the FDI Act (12 U.S.C. 1831i).

§ 303.101 Definitions.

For purposes of this subpart:

(a) Director means a person who serves on the board of directors or board of trustees of an insured state nonmember bank, except that this term does not include an advisory director who:

1. Is not elected by the shareholders;
2. Is not authorized to vote on any matters before the board of directors or board of trustees or any committee thereof;
3. Solely provides general policy advice to the board of directors or board of trustees and any committee thereof;
4. Has not been identified by the FDIC as a person who performs the functions of a director for purposes of this subpart.

(b) Senior executive officer means a person who holds the title of president, chief executive officer, chief operating officer, chief managing official (in an insured state branch of a foreign bank), chief financial officer, chief lending officer, or chief investment officer, or, without regard to title, salary, or compensation, performs the function of one or more of these positions. Senior executive officer also includes any other person identified by the FDIC, whether or not hired as an employee, with significant influence over, or who participates in, major policymaking decisions of the insured state nonmember bank.

(c) Troubled condition means any insured state nonmember bank that:

1. Has a composite rating, as determined in its most recent report of examination, of 4 or 5 under the Uniform Financial Institutions Rating System (UFIRS), or in the case of an insured state branch of a foreign bank, an equivalent rating; or
2. Is subject to a proceeding initiated by the FDIC for termination or suspension of deposit insurance; or
3. Is subject to a cease-and-desist order or written agreement issued by either the FDIC or the appropriate state banking authority which requires action to improve the financial condition of the bank or is subject to a proceeding initiated by the FDIC or state authority which contemplates the issuance of an order that requires action to improve the financial condition of the bank, unless otherwise informed in writing by the FDIC; or
4. Is informed in writing by the FDIC that it is in troubled condition for purposes of the requirements of this subpart on the basis of the bank’s most recent report of condition or report of examination, or other information available to the FDIC.
§ 303.102 Filing procedures and waiver of prior notice.

(a) Insured state nonmember banks. An insured state nonmember bank shall give the FDIC written notice, as specified in paragraph (c)(1) of this section, at least 30 days prior to adding or replacing any member of its board of directors, employing any person as a senior executive officer of the bank, or changing the responsibilities of any senior executive officer so that the person would assume a different senior executive officer position, if:

(1) The bank is not in compliance with all minimum capital requirements applicable to the bank as determined on the basis of the bank’s most recent report of condition or report of examination;

(2) The bank is in troubled condition; or

(3) The FDIC determines, in connection with its review of a capital restoration plan required under section 338(e)(2) of the FDI Act (12 U.S.C. 1831o(e)(2)) or otherwise, that such notice is appropriate.

(b) Insured branches of foreign banks. In the case of the addition of a member of the board of directors or a change in senior executive officer in a foreign bank having an insured state branch, the notice requirement shall not apply to such additions and changes in the foreign bank parent, but only to changes in senior executive officers in the state branch.

(c) Waiver of prior notice—(1) Waiver requests. The FDIC may permit an individual, upon petition by the bank to the appropriate FDIC office, to serve as a senior executive officer or director before filing the notice required under this subpart if the FDIC finds that:

(i) Delay would threaten the safety or soundness of the bank;

(ii) Delay would not be in the public interest; or

(iii) Other extraordinary circumstances exist that justify waiver of prior notice.

(2) Automatic waiver. In the case of the election of a new director not proposed by management at a meeting of the shareholders of an insured state nonmember bank, the prior 30-day notice is automatically waived and the individual immediately may begin serving, provided that a complete notice is filed with the appropriate FDIC office within two business days after the individual’s election.

(3) Effect on disapproval authority. A waiver shall not affect the authority of the FDIC to disapprove a notice within 30 days after a waiver is granted under paragraph (c)(1) of this section or the election of an individual who has filed a notice and is serving pursuant to an automatic waiver under paragraph (c)(2) of this section.

(d)(1) Content of filing. The notice required by paragraph (a) of this section shall be filed with the appropriate FDIC office and shall contain information pertaining to the competence, experience, character, or integrity of the individual with respect to whom the notice is submitted, as prescribed in the designated interagency form which is available from any FDIC regional director. The FDIC may require additional information.

(2) Modification. The FDIC may modify or accept other information in place of the requirements of paragraph (d)(1) of this section for a notice filed under this subpart.

§ 303.103 Processing.

(a) Processing. The 30-day notice period specified in §303.102(a) shall begin on the date substantially all information required to be submitted by the notificant pursuant to §303.102(c)(1) is received by the appropriate FDIC office. The FDIC shall notify the bank submitting the notice of the date on which the notice is accepted for processing and of the date on which the 30-day notice period will expire. If processing cannot be completed within 30 days, the notificant will be advised in writing, prior to expiration of the 30-day period, of the reason for the delay in processing and of the additional time period, not to exceed 60 days, in which processing will be completed.

(b) Commencement of service—(1) At expiration of period. A proposed director or senior executive officer may begin service after the end of the 30-day period or any other additional period as provided under paragraph (a) of this section, unless the FDIC disapproves the notice before the end of the period.
Prior to expiration of period. A proposed director or senior executive officer may begin service before the end of the 30-day period or any additional time period as provided under paragraph (a) of this section, if the FDIC notifies the bank and the individual in writing of the FDIC’s intention not to disapprove the notice.

(c) Notice of disapproval. The FDIC may disapprove a notice filed under §303.102 if the FDIC finds that the competence, experience, character, or integrity of the individual with respect to whom the notice is submitted indicates that it would not be in the best interests of the depositors of the bank or in the best interests of the public to permit the individual to be employed by, or associated with, the bank. Subpart L of 12 CFR part 308 sets forth the rules of practice and procedure for a notice of disapproval.

§§ 303.104–303.119 [Reserved]

Subpart G—Activities of Insured State Banks

§ 303.120 Scope.

This subpart sets forth procedures for complying with notice and application requirements contained in subpart A of part 362 of this chapter, governing insured state banks and their subsidiaries engaging in activities which are not permissible for national banks and their subsidiaries. This subpart sets forth procedures for complying with notice and application requirements contained in subpart B of part 362 of this chapter, governing certain activities of insured state nonmember banks, their subsidiaries, and certain affiliates. This subpart also sets forth procedures for complying with the notice requirements contained in subpart E of part 362 of this chapter, governing subsidiaries of insured state nonmember banks engaging in financial activities.

§ 303.121 Filing procedures.

(a) Where to file. A notice or application required by subpart A, subpart B, or subpart E of part 362 of this chapter shall be submitted in writing to the appropriate FDIC office.

(b) Contents of filing. A complete letter notice or letter application shall include the following information:

(1) Filings generally. (i) A brief description of the activity and the manner in which it will be conducted;
(ii) The amount of the bank’s existing or proposed direct or indirect investment in the activity as well as calculations sufficient to indicate compliance with any specific capital ratio or investment percentage limitation detailed in subpart A, B, or E of part 362 of this chapter;
(iii) A copy of the bank’s business plan regarding the conduct of the activity;
(iv) A citation to the state statutory or regulatory authority for the conduct of the activity;
(v) A copy of the order or other document from the appropriate regulatory authority granting approval for the bank to conduct the activity if such approval is necessary and has already been granted;
(vi) A brief description of the bank’s policy and practice with regard to any anticipated involvement in the activity by a director, executive officer or principal shareholder of the bank or any related interest of such a person; and
(vii) A description of the bank’s expertise in the activity.

(2) [Reserved]

(3) Copy of application or notice filed with another agency. If an insured state bank has filed an application or notice with another federal or state regulatory authority which contains all of the information required by paragraph (b)(1) of this section, the insured state bank may submit a copy to the FDIC in lieu of a separate filing.

(4) Additional information. The FDIC may request additional information to complete processing.

§ 303.122 Processing.

(a) Expedited processing. A notice filed by an insured state bank seeking to commence or continue an activity under §362.3(a)(2)(ii)(A)(2), §362.4(b)(3)(1), or §362.4(b)(5) of this chapter will be acknowledged in writing by the FDIC and will receive expedited processing, unless the applicant is notified in writing to the contrary
and provided a basis for that decision. The FDIC may remove the notice from expedited processing for any of the reasons set forth in §303.11(c)(2). Absent such removal, a notice processed under expedited processing is deemed approved 30 days after receipt of a complete notice by the FDIC (subject to extension for an additional 15 days upon written notice to the bank) or on such earlier date authorized by the FDIC in writing.

(b) Standard processing for applications and notices that have been removed from expedited processing. For an application filed by an insured state bank seeking to commence or continue an activity under §362.3(a)(2)(iii)(A)(2), §362.3(b)(2)(i)(A), §362.3(b)(2)(ii)(C), §362.3(b)(2)(ii)(A), §362.4(b)(4), §362.5(b)(2), or §362.8(b) or seeking a waiver or modification under §362.18(e) or §362.18(g)(3) of this chapter or for notices which are not processed pursuant to the expedited processing procedures, the FDIC will provide the insured State bank with written notification of the final action as soon as the decision is rendered. The FDIC will normally review and act in such cases within 60 days after receipt of a completed application or notice (subject to extension for an additional 30 days upon written notice to the bank), but failure of the FDIC to act prior to the expiration of these periods does not constitute approval.

§§ 303.123–303.139 [Reserved]

Subpart H—Activities of Insured Savings Associations

§ 303.140 Scope.

This subpart sets forth procedures for complying with the notice and application requirements contained in subpart C of part 362 of this chapter, governing insured state savings associations and their service corporations engaging in activities which are not permissible for federal savings associations and their service corporations. This subpart also sets forth procedures for complying with the notice requirements contained in subpart D of part 362 of this chapter, governing insured savings associations which establish or engage in new activities through a subsidiary.
seeking to commence or continue an activity under §362.11(b)(2)(ii) of this chapter will be acknowledged in writing by the FDIC and will receive expedited processing, unless the applicant is notified in writing to the contrary and provided a basis for that decision. The FDIC may remove the notice from expedited processing for any of the reasons set forth in §303.11(c)(2). Absent such removal, a notice processed under expedited processing is deemed approved 30 days after receipt of a complete notice by the FDIC (subject to extension for an additional 15 days upon written notice to the bank) or on such earlier date authorized by the FDIC in writing.

(b) Standard processing for applications and notices that have been removed from expedited processing. For an application filed by an insured state savings association seeking to commence or continue an activity under §362.11(a)(2)(ii), §362.11(b)(2)(i), §362.12(b)(1) of this chapter or for notices which are not processed pursuant to the expedited processing procedures, the FDIC will provide the insured state savings association with written notification of the final action as soon as the decision is rendered. The FDIC will normally review and act in such cases within 60 days after receipt of a completed application or notice (subject to extension for an additional 30 days upon written notice to the bank), but failure of the FDIC to act prior to the expiration of these periods does not constitute approval.

(c) Notices of activities in excess of an amount permissible for a federal savings association; subsidiary notices. Receipt of a notice filed by an insured state savings association as required by §362.11(b)(3) or §362.15 of this chapter will be acknowledged in writing by the FDIC. The notice will be reviewed at the appropriate FDIC office, which will take such action as it deems necessary and appropriate.

§§ 303.143–303.159

12 CFR Ch. III (1–1–17 Edition)

Subpart I—Mutual-To-Stock Conversions

§ 303.160 Scope.

This subpart sets forth the notice requirements and procedures for the conversion of an insured mutual state-chartered savings bank to the stock form of ownership. The substantive requirements governing such conversions are contained in §333.4 of this chapter.

§ 303.161 Filing procedures.

(a) Prior notice required. In addition to complying with the substantive requirements in §333.4 of this chapter, an insured state-chartered mutually owned savings bank that proposes to convert from mutual to stock form shall file with the FDIC a notice of intent to convert to stock form.

(b) General.

(1) A notice required under this subpart shall be filed in letter form with the appropriate FDIC office at the same time as required conversion application materials are filed with the institution's state regulator.

(2) An insured mutual savings bank chartered by a state that does not require the filing of a conversion application shall file a notice in letter form with the appropriate FDIC office as soon as practicable after adoption of its plan of conversion.

(c) Content of notice. The notice shall provide a description of the proposed conversion and include all materials that have been filed with any state or federal banking regulator and any state or federal securities regulator. At a minimum, the notice shall include, as applicable, copies of:

(1) The plan of conversion, with specific information concerning the record date used for determining eligible depositors and the subscription offering priority established in connection with any proposed stock offering;

(2) Certified board resolutions relating to the conversion;

(3) A business plan, including a detailed discussion of how the capital acquired in the conversion will be used, expected earnings for at least a three-year period following the conversion, and a justification for any proposed stock repurchases;
§ 303.163 Processing.

(a) General considerations. The FDIC shall review the notice and other materials submitted by the institution proposing to convert from mutual to stock form, specifically considering the following factors:

(1) The proposed use of the proceeds from the sale of stock, as set forth in the business plan;
(2) The adequacy of the disclosure materials;
(3) The participation of depositors in approving the transaction;
(4) The form of the proxy statement required for the vote of the depositors/members on the conversion;
(5) Any proposed increased compensation and other remuneration (including stock grants, stock option rights and other similar benefits) to be granted to officers and directors/trustees of the bank in connection with the conversion;
(6) A full appraisal report, prepared by an independent appraiser, of the value of the converting institution and the pricing of the stock to be sold in the conversion transaction;
(7) Detailed descriptions of any proposed management or employee stock benefit plans or employment agreements and a discussion of the rationale for the level of benefits proposed, individually and by participant group;
(8) Indemnification agreements;
(9) A preliminary proxy statement and sample proxy;
(10) Offering circular(s) and order form;
(11) All contracts or agreements relating to solicitation, underwriting, market-making, or listing of conversion stock and any agreements among members of a group regarding the purchase of unsubscribed shares;
(12) A tax opinion concerning the federal income tax consequences of the proposed conversion;
(13) Consents from experts to use their opinions as part of the notice; and
(14) An estimate of conversion-related expenses.

(d) Additional information. The FDIC, in its discretion, may request any additional information it deems necessary to evaluate the proposed conversion. The institution proposing to convert from mutual to stock form shall promptly provide such information to the FDIC.

(e) Acceptance of notice. The 60-day notice period specified in §303.163 shall commence on the date of receipt of a substantially complete notice. The FDIC shall notify the institution proposing to convert in writing of the date the notice is accepted.

(f) Related applications. Related applications that require FDIC action may include:

(1) Applications for deposit insurance, as required by subpart B of this part; and
(2) Applications for consent to merge, as required by subpart D of this part.

§ 303.162 Waiver from compliance.

(a) General. An institution proposing to convert from mutual to stock form may file with the appropriate FDIC office a letter requesting waiver of compliance with this subpart or §333.4 of this chapter:

(1) When compliance with any provision of this section or §333.4 of this chapter would be inconsistent or in conflict with applicable state law, or
(2) For any other good cause shown.

(b) Content of filing. In making a request for waiver under paragraph (a) of this section, the institution shall demonstrate that the requested waiver, if granted, would not result in any effects that would be detrimental to the safety and soundness of the institution, entail a breach of fiduciary duty on part of the institution’s management or otherwise be detrimental or inequitable to the institution, its depositors, any other insured depository institution(s), the Deposit Insurance Fund, or to the public interest.

[67 FR 79247, Dec. 27, 2002, as amended at 71 FR 20526, Apr. 21, 2006]
(6) The adequacy and independence of the appraisal of the value of the mutual savings bank for purposes of determining the price of the shares of stock to be sold;

(7) The process by which the bank’s trustees approved the appraisal, the pricing of the stock, and the proposed compensation arrangements for insiders;

(8) The nature and apportionment of stock subscription rights; and

(9) The bank’s plans to fulfill its commitment to serving the convenience and needs of its community.

(b) Additional considerations. (1) In reviewing the notice and other materials submitted under this subpart, the FDIC will take into account the extent to which the proposed conversion transaction conforms with the various provisions of the mutual-to-stock conversion regulations of the Office of Thrift Supervision (OTS) (12 CFR part 563b), as currently in effect at the time the notice is submitted. Any non-conformity with those provisions will be closely reviewed.

(2) Conformity with the OTS requirements will not be sufficient for FDIC regulatory purposes if the FDIC determines that the proposed conversion transaction would pose a risk to the bank’s safety or soundness, violate any law or regulation, or present a breach of fiduciary duty.

(c) Notice period. (1) The period in which the FDIC may object to the proposed conversion transaction shall be the later of:

(i) 60 days after receipt of a substantially complete notice of proposed conversion; or

(ii) 20 days after the last applicable state or other federal regulator has approved the proposed conversion.

(2) The FDIC may, in its discretion, extend the initial 60-day period for up to an additional 60 days by providing written notice to the institution.

(d) Letter of non-objection. If the FDIC determines, in its discretion, that the proposed conversion transaction would not pose a risk to the institution’s safety or soundness, violate any law or regulation, or present a breach of fiduciary duty, then the FDIC shall issue a letter to the institution proposing to convert a letter of non-objection to the proposed conversion.

(e) Letter of objection. If the FDIC determines, in its discretion, that the proposed conversion transaction poses a risk to the institution’s safety or soundness, violates any law or regulation, or presents a breach of fiduciary duty, then the FDIC shall issue a letter to the institution stating its objection(s) to the proposed conversion and advising the institution not to consummate the proposed conversion until such letter is rescinded. A copy of the letter of objection shall be furnished to the institution’s primary state regulator and any other state or federal banking regulator and state or federal securities regulator involved in the conversion.

(f) Consummation of the conversion. (1) An institution may consummate the proposed conversion upon either:

(i) The receipt of a letter of non-objection; or

(ii) The expiration of the notice period.

(2) If a letter of objection is issued, then the institution shall not consummate the proposed conversion until the FDIC rescinds such letter.

§§ 303.164–303.179 [Reserved]

Subpart J—International Banking

§ 303.180 Scope.

This subpart sets forth procedures for complying with application requirements relating to the foreign activities of insured state nonmember banks, U.S. activities of insured branches of foreign banks, and certain foreign mergers of insured depository institutions.

§ 303.181 Definitions.

For the purposes of this subpart, the following additional definitions apply:

(a) Board of Governors means the Board of Governors of the Federal Reserve System.

(b) Comptroller means the Office of the Comptroller of the Currency.

(c) Eligible insured branch. An insured branch will be treated as an eligible depository institution within the meaning of §303.2(r) if the insured branch:
(1) Received an FDIC-assigned composite ROCA supervisory rating (which rates risk management, operational controls, compliance, and asset quality) of 1 or 2 as a result of its most recent federal or state examination, and the FDIC, Comptroller, or Board of Governors have not expressed concern about the condition or operations of the foreign organization or the support it offers the branch;

(2) Received a satisfactory or better Community Reinvestment Act (CRA) rating from its primary federal regulator at its most recent examination, if the depository institution is subject to examination under part 345 of this chapter;

(3) Received a compliance rating of 1 or 2 from its primary federal regulator at its most recent examination;

(4) Is well-capitalized as defined in subpart B of part 325 of this chapter or subpart H of part 324 of this chapter, as applicable; and

(5) Is not subject to a cease and desist order, consent order, prompt corrective action directive, written agreement, memorandum of understanding, or other administrative agreement with any U.S. bank regulatory authority.

(a) Notice procedures for general consent. Notice in the form of a letter from an eligible depository institution establishing or relocating a foreign branch pursuant to §347.117(a) of this chapter must be provided to the appropriate FDIC office no later than 30 days after taking such action. The notice must include the location of the foreign branch, including a street address, and a statement that the foreign branch has not been located on a site on the World Heritage List or on the foreign country’s equivalent of the National Register of Historic Places (National Register), in accordance with section 402 of the National Historic Preservation Act Amendments of 1980 (NHPA Amendments Act) (16 U.S.C. 470a–2). The FDIC will provide written acknowledgment of receipt of the notice.

(b) Filing procedures for other branch establishments—(1) Where to file. An applicant seeking to establish a foreign branch other than under §347.117(a) of this chapter shall submit an application to the appropriate FDIC office.

(ii) Content of filing. A complete letter application must include the following information:

(i) The exact location of the proposed foreign branch, including the street address, and a statement whether the foreign branch will be located on a site on the World Heritage List or on the foreign country’s equivalent of the National Register, in accordance with section 402 of the NHPA Amendments Act;

(ii) Details concerning any involvement in the proposal by an insider of the applicant, as defined in §303.2(u) of this part, including any financial arrangements relating to fees, the acquisition of property, leasing of property, and construction contracts;

(iii) A brief description of the applicant’s business plan with respect to the foreign branch; and

(iv) A brief description of the proposed activities of the branch and, to the extent any of the proposed activities are not authorized by §347.115 of this chapter, the applicant’s reasons why they should be approved.

§303.182 Establishing, moving or closing a foreign branch of an insured state nonmember bank.

(a) Notice procedures for general consent. Notice in the form of a letter from an eligible depository institution establishing or relocating a foreign branch pursuant to §347.117(a) of this chapter must be provided to the appropriate FDIC office no later than 30 days after taking such action. The notice must include the location of the foreign branch, including a street address, and a statement that the foreign branch has not been located on a site on the World Heritage List or on the foreign country’s equivalent of the National Register of Historic Places (National Register), in accordance with section 402 of the National Historic Preservation Act Amendments of 1980 (NHPA Amendments Act) (16 U.S.C. 470a–2). The FDIC will provide written acknowledgment of receipt of the notice.

(b) Filing procedures for other branch establishments—(1) Where to file. An applicant seeking to establish a foreign branch other than under §347.117(a) of this chapter shall submit an application to the appropriate FDIC office.

(ii) Content of filing. A complete letter application must include the following information:

(i) The exact location of the proposed foreign branch, including the street address, and a statement whether the foreign branch will be located on a site on the World Heritage List or on the foreign country’s equivalent of the National Register, in accordance with section 402 of the NHPA Amendments Act;

(ii) Details concerning any involvement in the proposal by an insider of the applicant, as defined in §303.2(u) of this part, including any financial arrangements relating to fees, the acquisition of property, leasing of property, and construction contracts;

(iii) A brief description of the applicant’s business plan with respect to the foreign branch; and

(iv) A brief description of the proposed activities of the branch and, to the extent any of the proposed activities are not authorized by §347.115 of this chapter, the applicant’s reasons why they should be approved.

§303.182 Establishing, moving or closing a foreign branch of an insured state nonmember bank.

(a) Notice procedures for general consent. Notice in the form of a letter from an eligible depository institution establishing or relocating a foreign branch pursuant to §347.117(a) of this chapter must be provided to the appropriate FDIC office no later than 30 days after taking such action. The notice must include the location of the foreign branch, including a street address, and a statement that the foreign branch has not been located on a site on the World Heritage List or on the foreign country’s equivalent of the National Register of Historic Places (National Register), in accordance with section 402 of the National Historic Preservation Act Amendments of 1980 (NHPA Amendments Act) (16 U.S.C. 470a–2). The FDIC will provide written acknowledgment of receipt of the notice.

(b) Filing procedures for other branch establishments—(1) Where to file. An applicant seeking to establish a foreign branch other than under §347.117(a) of this chapter shall submit an application to the appropriate FDIC office.

(ii) Content of filing. A complete letter application must include the following information:

(i) The exact location of the proposed foreign branch, including the street address, and a statement whether the foreign branch will be located on a site on the World Heritage List or on the foreign country’s equivalent of the National Register, in accordance with section 402 of the NHPA Amendments Act;

(ii) Details concerning any involvement in the proposal by an insider of the applicant, as defined in §303.2(u) of this part, including any financial arrangements relating to fees, the acquisition of property, leasing of property, and construction contracts;

(iii) A brief description of the applicant’s business plan with respect to the foreign branch; and

(iv) A brief description of the proposed activities of the branch and, to the extent any of the proposed activities are not authorized by §347.115 of this chapter, the applicant’s reasons why they should be approved.
§ 303.183 Investment by insured state nonmember banks in foreign organization.

(a) Notice procedures for general consent. Notice in the form of a letter from an eligible depository institution making direct or indirect investments in a foreign organization pursuant to §347.117(b) of this chapter shall be provided to the appropriate FDIC office no later than 30 days after taking such action. The FDIC will provide written acknowledgment of receipt of the notice.

(b) Filing procedures for other investments—(1) Where to file. An applicant seeking to make a foreign investment other than under §347.117(b) of this chapter shall submit an application to the appropriate FDIC office.
§ 303.184 Moving an insured branch of a foreign bank.

(a) Filing procedures—(1) Where and when to file. An application by an insured branch of a foreign bank seeking the FDIC’s consent to move from one location to another, as required by section 18(d)(1) of the FDI Act (12 U.S.C. 1828(d)(1)), shall be submitted in writing to the appropriate FDIC office on the date the notice required by paragraph (c) of this section is published, or within 5 days after the date of the last required publication.

(2) Content of filing. A complete letter application shall include the following information:

(i) The exact location of the proposed site, including the street address;

(ii) Details concerning any involvement in the proposal by an insider of the applicant, as defined in §303.2(u), including any financial arrangements relating to fees, the acquisition of property, leasing of property, and construction contracts;

(iii) A statement of the impact of the proposal on the human environment, including information on compliance with local zoning laws and regulations and the effect on traffic patterns, for purposes of complying with the applicable provisions of the NEPA, and the FDIC “Statement of Policy on NEPA” (1 FDIC Law, Regulations, Related Acts 5185; see §309.4(a) and (b) of this chapter for availability);

(iv) A statement as to whether or not the site is eligible for inclusion in the National Register of Historic Places for purposes of complying with the applicable provisions of the NHPA, and the FDIC “Statement of Policy on NHPA” (1 FDIC Law, Regulations, Related Acts 5175; see §309.4(a) and (b) of this chapter for availability), including documentation of consultation with the State Historic Preservation Officer, as appropriate.

(v) Comments on any changes in services to be offered, the community to be served, or any other effect the proposal may have on the applicant’s compliance with the CRA; and

(vi) A copy of the newspaper publication required by paragraph (c) of this section, as well as the name and address of the newspaper and the date of the publication.

(3) Comptroller’s application. If the applicant is filing an application with the Comptroller which contains the information required by paragraph (a)(2) of this section, the applicant may submit a copy to the FDIC in lieu of a separate application.

(4) Additional information. The FDIC may request additional information to complete processing.

(b) Processing—(1) Expedited processing for eligible insured branches. An application filed by an eligible insured branch as defined in §303.181(c) of this part will be acknowledged in writing by the FDIC and will receive expedited processing if the applicant is proposing to move within the same state, unless the applicant is notified to the contrary and provided with the basis for that decision. The FDIC may remove an application from expedited processing for any of the reasons set forth in §303.11(c)(2) of this part. Absent such removal, an application processed under expedited processing will be deemed approved on the latest of the following:

[67 FR 79247, Dec. 27, 2002, as amended at 70 FR 17558, Apr. 6, 2005]
§ 303.185 Merger transactions involving foreign banks or foreign organizations.

(a) Merger transactions involving an insured branch of a foreign bank. Merger transactions requiring the FDIC’s prior approval as set forth in §303.62 include any merger transaction in which the resulting institution is an insured branch of a foreign bank which is not a federal branch, or any merger transaction which involves any insured branch of a foreign bank.

(i) The 21st day after the FDIC’s receipt of a substantially complete application; or

(ii) The 5th day after expiration of the comment period described in paragraph (c) of this section.

(2) Standard processing. For those applications that are not processed pursuant to the expedited procedures, the FDIC will provide the applicant with written notification of the final action as soon as the decision is rendered.

(c) Publication requirement and comment period—(1) Newspaper publications. The applicant shall publish a notice of its proposal to move from one location to another, as described in §303.7(b), in a newspaper of general circulation in the community in which the insured branch is located prior to its being moved and in the community to which it is to be moved. The notice shall include the insured branch’s current and proposed addresses.

(2) Public comments. All public comments must be received by the appropriate regional director within 15 days after the date of the last newspaper publication required by paragraph (c)(1) of this section, unless the comment period has been extended or reopened in accordance with §303.9(b)(2).

(3) Lobby notices. If the insured branch has a public lobby, a copy of the newspaper publication shall be posted in the public lobby for at least 15 days beginning on the date of the publication required by paragraph (c)(1) of this section.

(d) Other approval criteria. (1) The FDIC may approve an application under this section if the criteria in paragraphs (d)(1)(i) through (d)(1)(vi) of this section is satisfied.

(i) The factors set forth in section 6 of the FDI Act (12 U.S.C. 1816) have been considered and favorably resolved;

(ii) The applicant is at least adequately capitalized as defined in subpart B of part 325 of this chapter or subpart H of part 324 of this chapter, as applicable;

(iii) Any financial arrangements which have been made in connection with the proposed relocation and which involve the applicant’s directors, officers, major shareholders, or their interests are fair and reasonable in comparison to similar arrangements that could have been made with independent third parties;

(iv) Compliance with the CRA, the NEPA, the NHPA and any applicable related regulations, including 12 CFR part 345, has been considered and favorably resolved;

(v) No CRA protest as defined in §303.2(l) has been filed which remains unresolved or, where such a protest has been filed and remains unresolved, the Director or designee concurs that approval is consistent with the purposes of the CRA and the applicant agrees in writing to any conditions imposed regarding the CRA; and

(vi) The applicant agrees in writing to comply with any conditions imposed by the FDIC, other than the standard conditions defined in §303.2(dd) which may be imposed without the applicant’s written consent.

(e) Relocation of insured branch from one state to another. If the foreign bank proposes to relocate an insured state branch to a state that is outside the state where the branch is presently located, in addition to meeting the approval criteria contained in paragraph (d) of this section, the foreign bank must:

(i) Comply with any applicable state laws or regulations of the states affected by the proposed relocation; and

(ii) Obtain any required regulatory approvals from the appropriate state licensing authority of the state to which the insured branch proposes to relocate before relocating the existing branch operations and surrendering its existing license to the appropriate state licensing authority of the state from which the branch is relocating.

branch and any uninsured institution. In such cases:

(1) References to an eligible depository institution in subpart D of this part include an eligible insured branch as defined in §303.181;

(2) The definition of a corporate reorganization in §303.61(b) includes a merger transaction between an insured branch and other branches, agencies, or subsidiaries in the United States of the same foreign bank; and

(3) For the purposes of §303.62(b)(1) on interstate mergers, a merger transaction involving an insured branch is one involving the acquisition of a branch of an insured bank without the acquisition of the bank for purposes of section 44 of the FDI Act (12 U.S.C. 1831u) only when the merger transaction involves fewer than all the insured branches of the same foreign bank in the same state.

(b) Certain merger transactions with foreign organizations outside any State. Merger transactions requiring the FDIC’s prior approval as set forth in §303.62 include any merger transaction in which an insured depository institution becomes directly liable for obligations which will, after the merger transaction, be treated as deposits under section 3(l)(5)(A)(i)–(ii) of the FDI Act (12 U.S.C. 1813(l)(5)(A)(i)–(ii)), as a result of a merger or consolidation with a foreign organization or an assumption of liabilities of a foreign organization.

§303.186 Exemptions from insurance requirements for a state branch of a foreign bank.

(a) Filing procedures—(1) Where to file. An application by a foreign bank for consent to operate as a noninsured state branch, as permitted by §347.215(b) of this chapter, shall be submitted in writing to the appropriate FDIC office.

(2) Content of filing. A complete letter application shall include the following information:

(i) The kinds of deposit activities in which the state branch proposes to engage;

(ii) The expected source of deposits;

(iii) The manner in which deposits will be solicited;

(iv) How the activity will maintain or improve the availability of credit to all sectors of the United States economy, including the international trade finance sector;

(v) That the activity will not give the foreign bank an unfair competitive advantage over United States banking organizations; and

(vi) A resolution by the applicant’s board of directors, or evidence of approval by senior management if a resolution is not required pursuant to the applicant’s organizational documents, authorizing the filing of the application.

(b) Certain merger transactions with foreign organizations outside any State. Merger transactions requiring the FDIC’s prior approval as set forth in §303.62 include any merger transaction in which an insured depository institution becomes directly liable for obligations which will, after the merger transaction, be treated as deposits under section 3(l)(5)(A)(i)–(ii) of the FDI Act (12 U.S.C. 1813(l)(5)(A)(i)–(ii)), as a result of a merger or consolidation with a foreign organization or an assumption of liabilities of a foreign organization.

§303.187 Approval for an insured state branch of a foreign bank to conduct activities not permissible for federal branches.

(a) Filing procedures—(1) Where to file. An application by an insured state branch seeking approval to conduct activities not permissible for a federal branch, as required by §347.212(a) of this chapter, shall be submitted in writing to the appropriate FDIC office.

(2) Content of filing. A complete letter application shall include the following information:

(i) A brief description of the activity, including the manner in which it will be conducted and an estimate of the expected dollar volume associated with the activity;

(ii) An analysis of the impact of the proposed activity on the condition of the United States operations of the foreign bank in general and of the branch in particular, including a copy of the feasibility study, management plan, financial projections, business plan, or similar document concerning the conduct of the activity;

(iii) A resolution by the applicant’s board of directors, or evidence of approval by senior management if a resolution is not required pursuant to the applicant’s organizational documents,
(iv) A statement by the applicant of whether it is in compliance with sections 347.209 and 347.210 of this chapter; (v) A statement by the applicant that it has complied with all requirements of the Board of Governors concerning applications to conduct the activity in question and the status of each such application, including a copy of the Board of Governors’ disposition of such application, if applicable; and (vi) A statement of why the activity will pose no significant risk to the Deposit Insurance Fund.

(3) Board of Governors application. If the application to the Board of Governors contains the information required by paragraph (a) of this section, the applicant may submit a copy to the FDIC in lieu of a separate letter application.

(4) Additional information. The FDIC may request additional information to complete processing.

(b) Divestiture or cessation—(1) Where to file. Divestiture plans necessitated by a change in law or other authority, as required by §347.212(e) of this chapter, shall be submitted in writing to the appropriate FDIC office.

(2) Content of filing. A complete letter application shall include the following information:

(i) A detailed description of the manner in which the applicant proposes to divest itself of or cease the activity in question; and

(ii) A projected timetable describing how long the divestiture or cessation is expected to take.

(3) Additional information. The FDIC may request additional information to complete processing.

§ 303.201 Filing procedures.

Applications shall be filed with the appropriate FDIC office. The application shall contain the information specified in each respective section of this subpart, and shall be in letter form as prescribed in §303.3. Additional information may be requested by the FDIC. Such letter shall be signed by the president, senior officer or a duly authorized agent of the insured depository institution and be accompanied by a certified copy of a resolution adopted by the institution’s board of directors or trustees authorizing the application.

§ 303.202 Processing.

The FDIC will provide the applicant with a subsequent written notification of the final action taken as soon as the decision is rendered.
§ 303.203 Applications for capital distributions.
(a) Scope. An insured state nonmember bank and any insured branch of a foreign bank shall submit an application for capital distribution if, after having made a capital distribution, the institution would be undercapitalized, significantly undercapitalized, or critically undercapitalized.
(b) Content of filing. An application to repurchase, redeem, retire or otherwise acquire shares or ownership interests of the insured depository institution shall describe the proposal, the shares or obligations which are the subject thereof, and the additional shares or obligations of the institution which will be issued in at least an amount equivalent to the distribution. The application also shall explain how the proposal will reduce the institution’s financial obligations or otherwise improve its financial condition. If the proposed action also requires an application under section 18(i) of the FDI Act (12 U.S.C. 1828(i)) as implemented by §303.241 of this part regarding prior consent to retire capital, such application should be filed concurrently with, or made a part of, the application filed pursuant to section 38 of the FDI Act (12 U.S.C. 1831o).

§ 303.204 Applications for acquisitions, branching, and new lines of business.
(a) Scope. (1) Any insured state nonmember bank and any insured branch of a foreign bank which is undercapitalized or significantly undercapitalized, and any insured depository institution which is critically undercapitalized, shall submit an application to engage in acquisitions, branching or new lines of business.
(2) A new line of business will include any new activity exercised which, although it may be permissible, has not been exercised by the institution.
(b) Content of filing. Applications shall list each proposed bonus or increase in compensation, and for the latter shall identify compensation for each of the twelve calendar months preceding the calendar month in which the institution became undercapitalized. Applications also shall state the date the institution’s capital restoration plan was accepted by the FDIC, and describe the institution’s progress made in implementing the plan.

§ 303.205 Applications for bonuses and increased compensation for senior executive officers.
(a) Scope. Any insured state nonmember bank or insured branch of a foreign bank that is significantly or critically undercapitalized, or any insured state nonmember bank or any insured branch of a foreign bank that is undercapitalized and which has failed to submit or implement in any material respect an acceptable capital restoration plan, shall submit an application to pay a bonus or increase compensation for any senior executive officer.
(b) Content of filing. Applications shall list each proposed bonus or increase in compensation, and for the latter shall identify compensation for each of the twelve calendar months preceding the calendar month in which the institution became undercapitalized. Applications also shall state the date the institution’s capital restoration plan was accepted by the FDIC, and describe any progress made in implementing the plan.

§ 303.206 Application for payment of principal or interest on subordinated debt.
(a) Scope. Any critically undercapitalized insured depository institution shall submit an application to pay principal or interest on subordinated debt.
(b) Content of filing. Applications shall describe the proposed payment and provide an explanation of action taken under section 38(h)(3)(A)(ii) of
the FDI Act (action other than receivership or conservatorship). The application also shall explain how such payments would further the purposes of section 38 of the FDI Act (12 U.S.C. 1831o). Existing approvals pursuant to requests filed under section 18(i)(1) of the FDI Act (12 U.S.C. 1828(i)(1)) (capital stock reductions or retirements) shall not be deemed to be the permission needed pursuant to section 38.

§ 303.207 Restricted activities for critically undercapitalized institutions.

(a) Scope. Any critically undercapitalized insured depository institution shall submit an application to engage in certain restricted activities.

(b) Content of filing. Applications to engage in any of the following activities, as set forth in sections 38(i)(2) (A) through (G) of the FDI Act, shall describe the proposed activity and explain how the activity would further the purposes of section 38 of the FDI Act (12 U.S.C. 1831o):

(1) Enter into any material transaction other than in the usual course of business including any action with respect to which the institution is required to provide notice to the appropriate federal banking agency. Materiality will be determined on a case-by-case basis;

(2) Extend credit for any highly leveraged transaction. A highly leveraged transaction means an extension of credit to or investment in a business by an insured depository institution where the financing transaction involves a buyout, acquisition, or recapitalization of an existing business and one of the following criteria is met:

(i) The transaction results in a liabilities-to-assets leverage ratio higher than 75 percent; or

(ii) The transaction at least doubles the subject company’s liabilities and results in a liabilities-to-assets leverage ratio higher than 50 percent; or

(iii) The transaction is designated an highly leverage transaction by a syndication agent or a federal bank regulator.

(iv) Loans and exposures to any obligor in which the total financing package, including all obligations held by all participants is $20 million or more, or such lower level as the FDIC may establish by order on a case-by-case basis, will be excluded from this definition.

(3) Amend the institution’s charter or bylaws, except to the extent necessary to carry out any other requirement of any law, regulation, or order;

(4) Make any material change in accounting methods;

(5) Engage in any covered transaction (as defined in section 23A(b) of the Federal Reserve Act (12 U.S.C. 371c(b)));

(6) Pay excessive compensation or bonuses. Part 364 of this chapter provides guidance for determining excessive compensation; or

(7) Pay interest on new or renewed liabilities at a rate that would increase the institution’s weighted average cost of funds to a level significantly exceeding the prevailing rates of interest on insured deposits in the institution’s normal market area. Section 337.6 of this chapter (Brokered deposits) provides guidance for defining the relevant terms of this provision; however this provision does not supersede the general prohibitions contained in §337.6.

§§ 303.208–303.219 [Reserved]

Subpart L—Section 19 of the FDI Act (Consent to Service of Persons Convicted of Certain Criminal Offenses)

§ 303.220 Scope.

This subpart covers applications under section 19 of the FDI Act (12 U.S.C. 1829). Pursuant to section 19, any person who has been convicted of any criminal offense involving dishonesty, breach of trust, or money laundering, or has agreed to enter into a pretrial diversion or similar program in connection with a prosecution for such offense, may not become, or continue as, an institution-affiliated party of an insured depository institution; own or control, directly or indirectly, any insured depository institution; or otherwise participate, directly or indirectly, in the conduct of the affairs of any insured depository institution.
Federal Deposit Insurance Corporation

§ 303.221 Filing procedures.
(a) Where to file. An application under section 19 of the FDI Act shall be filed with the appropriate FDIC office.
(b) Contents of filing. Application forms may be obtained from any FDIC regional director. The FDIC may require additional information beyond that sought in the form, as warranted, in individual cases.

§ 303.222 Service at another insured depository institution.
In the case of a person who has already been approved by the FDIC under this subpart or section 19 of the FDI Act in connection with a particular insured depository institution, such person may not become an institution affiliated party, or own or control directly or indirectly another insured depository institution, or participate in the conduct of the affairs of another insured depository institution, without the prior written consent of the FDIC.

§ 303.223 Applicant’s right to hearing following denial.
An applicant may request a hearing following a denial of an application in accordance with the provisions of part 308 of this chapter.

§§ 303.224–303.239 [Reserved]

Subpart M—Other Filings

§ 303.240 General.
This subpart sets forth the filing procedures to be followed when seeking the FDIC’s consent to engage in certain activities or accomplish other matters as specified in the individual sections contained herein. For those matters covered by this subpart that also have substantive FDIC regulations or related statements of policy, references to the relevant regulations or statements of policy are contained in the specific sections.

§ 303.241 Reduce or retire capital stock or capital debt instruments.
(a) Scope. This section contains the procedures to be followed by an insured state nonmember bank to seek the prior approval of the FDIC to reduce the amount or retire any part of its common or preferred stock, or to retire any part of its capital notes or debentures pursuant to section 18(i)(1) of the Act (12 U.S.C. 1828(i)(1)).
(b) Where to file. Applicants shall submit a letter application to the appropriate FDIC office.
(c) Content of filing. The application shall contain the following:
(1) The type and amount of the proposed change to the capital structure and the reason for the change;
(2) A schedule detailing the present and proposed capital structure;
(3) The time period that the proposal will encompass;
(4) If the proposal involves a series of transactions affecting Tier 1 capital components which will be consummated over a period of time which shall not exceed twelve months, the application shall certify that the insured depository institution will maintain itself as a well-capitalized institution as defined in part 325 of this chapter or part 324 of this chapter, as applicable, both before and after each of the proposed transactions;
(5) If the proposal involves the repurchase of capital instruments, the amount of the repurchase price and the basis for establishing the fair market value of the repurchase price;
(6) A statement that the proposal will be available to all holders of a particular class of outstanding capital instruments on an equal basis, and if not, the details of any restrictions; and
(7) The date that the applicant’s board of directors approved the proposal.
(d) Additional information. The FDIC may request additional information at any time during processing of the application.
(e) Undercapitalized institutions. Procedures regarding applications by an undercapitalized insured depository institution to retire capital stock or capital debt instruments pursuant to section 38 of the FDI Act (12 U.S.C. 1831o) are set forth in subpart K (Prompt Corrective Action), § 303.203. Applications pursuant to sections 38 and 18(i) may be filed concurrently, or as a single application.
§ 303.242 Exercise of trust powers.

(a) Scope. This section contains the procedures to be followed by a state nonmember bank to seek the FDIC’s prior consent to exercise trust powers. The FDIC’s prior consent to exercise trust powers is not required in the following circumstances:

(1) Where a state nonmember bank received authority to exercise trust powers from its chartering authority prior to December 1, 1956; or

(2) Where an insured depository institution continues to conduct trust activities pursuant to authority granted by its chartering authority subsequent to a charter conversion or withdrawal from membership in the Federal Reserve System.

(b) Where to file. Applicants shall submit to the appropriate FDIC office a completed form, “Application for Consent To Exercise Trust Powers”. This form may be obtained from any FDIC regional director.

(c) Content of filing. The filing shall consist of the completed trust application form.

(d) Additional information. The FDIC may request additional information at any time during processing of the filing.

(e) Expedited processing for eligible depository institutions. An application filed under this section by an eligible depository institution as defined in §303.2(r) will be acknowledged in writing by the FDIC and will receive expedited processing, unless the applicant is notified in writing to the contrary and provided with the basis for that decision. The FDIC may remove an application from expedited processing for any of the reasons set forth in §303.11(c)(2). Absent such removal, an application processed under expedited processing will be deemed approved 20 days after the FDIC’s receipt of a substantially complete application.

(f) Standard processing. For those applications that are not processed pursuant to expedited procedures, the FDIC will provide the applicant with written notification of the final action as soon as the decision is rendered.

§ 303.243 Brokered deposit waivers.

(a) Scope. Pursuant to section 29 of the FDI Act (12 U.S.C. 1831f) and part 337 of this chapter, an adequately capitalized insured depository institution may not accept, renew or roll over any brokered deposits unless it has obtained a waiver from the FDIC. A well-capitalized insured depository institution may accept brokered deposits without a waiver, and an undercapitalized insured depository institution may not accept, renew or roll over any brokered deposits under any circumstances. This section contains the procedures to be followed to file with the FDIC for a brokered deposit waiver. The FDIC will provide notice to the depository institution’s appropriate federal banking agency and any state regulatory agency, as appropriate, that a request for a waiver has been filed and will consult with such agency or agencies, prior to taking action on the institution’s request for a waiver. Prior notice and/or consultation shall not be required in any particular case if the FDIC determines that the circumstances require it to take action without giving such notice and opportunity for consultation.

(b) Where to file. Applicants shall submit a letter application to the appropriate FDIC office.
(c) **Content of filing.** The application shall contain the following:

(1) The time period for which the waiver is requested;

(2) A statement of the policy governing the use of brokered deposits in the institution’s overall funding and liquidity management program;

(3) The volume, rates and maturities of the brokered deposits held currently and anticipated during the waiver period sought, including any internal limits placed on the terms, solicitation and use of brokered deposits;

(4) How brokered deposits are costed and compared to other funding alternatives and how they are used in the institution’s lending and investment activities, including a detailed discussion of asset growth plans;

(5) Procedures and practices used to solicit brokered deposits, including an identification of the principal sources of such deposits;

(6) Management systems overseeing the solicitation, acceptance and use of brokered deposits;

(7) A recent consolidated financial statement with balance sheet and income statements; and

(8) The reasons the institution believes its acceptance, renewal or rollover of brokered deposits would pose no undue risk.

(d) **Additional information.** The FDIC may request additional information at any time during processing of the application.

(e) **Expedited processing for eligible depository institutions.** An application filed under this section by an eligible depository institution as defined in this paragraph will be acknowledged in writing by the FDIC and will receive expedited processing, unless the applicant is notified in writing to the contrary and provided with the basis for that decision. For the purpose of this section, an applicant will be deemed an eligible depository institution if it satisfies all of the criteria contained in §303.2(r) except that the applicant may be adequately capitalized rather than well-capitalized. The FDIC may remove an application from expedited processing for any of the reasons set forth in §303.11(c)(2). Absent such removal, an application processed under expedited procedures will be deemed approved 21 days after the FDIC’s receipt of a substantially complete application.

(f) **Standard processing.** For those filings which are not processed pursuant to the expedited procedures, the FDIC will provide the applicant with written notification of the final action as soon as the decision is rendered.

(g) **Conditions for approval.** A waiver issued pursuant to this section shall:

(1) Be for a fixed period, generally no longer than two years, but may be extended upon refiling; and

(2) May be revoked by the FDIC at any time by written notice to the institution.

§ 303.244 Golden parachute and severance plan payments.

(a) **Scope.** Pursuant to section 18(k) of the FDI Act (12 U.S.C. 1828(k)) and part 359 of this chapter, an insured depository institution or depository institution holding company may not make golden parachute payments or excess nondiscriminatory severance plan payments unless the depository institution or holding company obtains permission in accordance with the rules contained in part 359 of this chapter. This section contains the procedures to file for the FDIC’s consent when such consent is necessary under part 359 of this chapter.

(b) **Golden parachute payments.** A troubled insured depository institution or a troubled depository institution holding company is prohibited from making golden parachute payments (as defined in §359.1(f)(1) of this chapter) unless it obtains the consent of the appropriate federal banking agency and the written concurrence of the FDIC. Therefore, in the case of golden parachute payments, the procedures in this section apply to all troubled insured depository institutions and troubled depository institution holding companies.

(1) **Golden parachute payments.** A troubled insured depository institution or a troubled depository institution holding company is prohibited from making golden parachute payments (as defined in §359.1(f)(1) of this chapter) unless it obtains the consent of the appropriate federal banking agency and the written concurrence of the FDIC. Therefore, in the case of golden parachute payments, the procedures in this section apply to all troubled insured depository institutions and troubled depository institution holding companies.

(2) **Excess nondiscriminatory severance plan payments.** In the case of excess nondiscriminatory severance plan payments as provided by §359.1(f)(2)(v) of this chapter, the FDIC’s consent is necessary for state nonmember banks that meet the criteria set forth in §359.1(f)(1)(ii) of this chapter. In addition, the FDIC’s consent is required for all insured depository institutions or
depository institution holding companies that meet the same criteria and seek to make payments in excess of the 12-month amount specified in §359.1(f)(2)(v).

(b) Where to file. Applicants shall submit a letter application to the appropriate FDIC regional director.

(c) Content of filing. The application shall contain the following:

(1) The reasons why the applicant seeks to make the payment;

(2) An identification of the institution-affiliated party who will receive the payment;

(3) A copy of any contract or agreement regarding the subject matter of the filing;

(4) The cost of the proposed payment and its impact on the institution’s capital and earnings;

(5) The reasons why the consent to the payment should be granted; and

(6) Certification and documentation as to each of the points cited in §359.4(a)(4).

(d) Additional information. The FDIC may request additional information at any time during processing of the filing.

(e) Processing. The FDIC will provide the applicant with a subsequent written notification of the final action taken as soon as the decision is rendered.

§ 303.245 Waiver of liability for commonly controlled depository institutions.

(a) Scope. Section 5(e) of the FDI Act (12 U.S.C. 1815(e)) creates liability for commonly controlled insured depository institutions for losses incurred or anticipated to be incurred by the FDIC in connection with the default of a commonly controlled insured depository institution or any assistance provided by the FDIC to any commonly controlled insured depository institution in danger of default. In addition to certain statutory exceptions and exclusions contained in sections 5(e)(6), (7) and (8), the FDI Act also permits the FDIC, in its discretion, to exempt any insured depository institution from this liability if it determines that such exemption is in the best interests of the Deposit Insurance Fund. This section describes procedures to request a conditional waiver of liability pursuant to section 5 of the FDI Act (12 U.S.C. 1815(e)(5)(A)).

(b) Definition. Conditional waiver of liability means an exemption from liability pursuant to section 5(e) of the FDI Act (12 U.S.C. 1815(e)) subject to terms and conditions.

(c) Where to file. Applicants shall submit a letter application to the appropriate FDIC office.

(d) Content of filing. The application shall contain the following information:

(1) The basis for requesting a waiver;

(2) The existence of any significant events (e.g., change in control, capital injection, etc.) that may have an impact upon the applicant and/or any potentially liable institution;

(3) Current, and if applicable, pro forma financial information regarding the applicant and potentially liable institution(s); and

(4) The benefits to the appropriate FDIC insurance fund resulting from the waiver and any related events.

(e) Additional information. The FDIC may request additional information at any time during the processing of the filing.

(f) Processing. The FDIC will provide the applicant with written notification of the final action as soon as the decision is rendered.

(g) Failure to comply with terms of conditional waiver. In the event a conditional waiver of liability is issued, failure to comply with the terms specified therein may result in the termination of the conditional waiver of liability. The FDIC reserves the right to revoke the conditional waiver of liability after giving the applicant written notice of such revocation and a reasonable opportunity to be heard on the matter pursuant to §303.10.

§ 303.246 Conversion with diminution of capital.

(a) Scope. This section contains the procedures to be followed by an insured federal depository institution seeking the prior written consent of the FDIC pursuant to section 18(1)(2) of the FDI...
§ 303.247 Continue or resume status as an insured institution following termination under section 8 of the FDI Act.

(a) Scope. This section relates to an application by a depository institution whose insured status has been terminated under section 8 of the FDI Act (12 U.S.C. 1818) for permission to continue or resume its status as an insured depository institution. This section covers institutions whose deposit insurance continues in effect for any purpose or for any length of time under the terms of an FDIC order terminating deposit insurance, but does not cover operating non-insured depository institutions which were previously insured by the FDIC, or any non-insured, non-operating depository institution whose charter has not been surrendered or revoked.

(b) Where to file. Applicants shall submit a letter application to the appropriate FDIC office.

§ 303.248 Truth in Lending Act—Relief from reimbursement.

(a) Scope. This section applies to requests for relief from reimbursement pursuant to the Truth in Lending Act (15 U.S.C. 1601 et seq.) and Regulation Z (12 CFR part 226). Related delegations of authority are also set forth.

(b) Procedures to be followed in filing initial requests for relief. Requests for relief from reimbursement shall be filed with the appropriate FDIC office or within 60 days after receipt of the compliance report of examination containing the request to conduct a file search and make restitution to affected customers. The filing shall contain a complete and concise statement of the action requested, all relevant facts, the reasons and analysis relied upon as the basis for such requested action, and all supporting documentation.

(c) Additional information. The FDIC may request additional information at any time during processing of any such requests.

(d) Processing. The FDIC will acknowledge receipt of the request for reconsideration and provide the applicant with written notification of its determination within 60 days of its receipt of the request for reconsideration.

(e) Procedures to be followed in filing requests for reconsideration. Within 15 days of receipt of written notice that its request for relief has been denied,
§ 303.249 Management official interlocks.

(a) Scope. This section contains the procedures to be followed by an insured state nonmember bank to seek the approval of FDIC to establish an interlock pursuant to the Depository Institutions Management Interlocks Act (12 U.S.C. 3207), section 13 of the FDI Act (12 U.S.C. 1823(k)) and part 348 of this chapter (12 CFR part 348).

(b) Where to file. Applicants shall submit a letter application to the appropriate FDIC office.

(c) Content of filing. The application shall contain the following:

(1) A description of the proposed interlock;

(2) A statement of reason as to why the interlock will not result in a monopoly or a substantial lessening of competition; and

(3) If the applicant is seeking an exemption set forth in §348.5 or 348.6 of this chapter, a description of the particular exemption which is being requested and a statement of reasons as to why the exemption is applicable.

(d) Additional information. The FDIC may request additional information at any time during processing of the filing.

(e) Processing. The FDIC will provide the applicant with written notification of the final action when the decision is rendered.

§ 303.250 Modification of conditions.

(a) Scope. This section contains the procedures to be followed by an insured depository institution to seek the prior consent of the FDIC to modify the requirement of a prior approval of a filing issued by the FDIC.

(b) Where to file. Applicants should submit a letter application to the appropriate FDIC regional director.

(c) Content of filing. The application should contain the following information:

(1) A description of the original approved application;

(2) A description of the modification requested; and

(3) The reason for the request.

(d) Additional information. The FDIC may request additional information at any time during processing of the filing.

(e) Processing. The FDIC will provide the applicant with written notification of the final action as soon as the decision is rendered.

§ 303.251 Extension of time.

(a) Scope. This section contains the procedures to be followed by an insured depository institution to seek the prior consent of the FDIC for additional time to fulfill a condition required in an approval of a filing issued by the FDIC or to consummate a transaction which was the subject of an approval by the FDIC.

(b) Where to file. Applicants shall submit a letter application to the appropriate FDIC office.

(c) Content of filing. The application shall contain the following information:

(1) A description of the original approved application;

(2) Identification of the original time limitation;

(3) The additional time period requested; and

(4) The reason for the request.

(d) Additional information. The FDIC may request additional information at any time during processing of the filing.

(e) Processing. The FDIC will provide the applicant with written notification of the final action as soon as the decision is rendered.
§ 304.3 Reports.

SOURCE: 67 FR 18793, Apr. 17, 2002, unless otherwise noted.

§ 304.3 Reports.

(a) Consolidated Reports of Condition and Income, Forms FFIEC 031 and 041. Pursuant to section 7(a) of the Federal Deposit Insurance Act (12 U.S.C. 1817(a)), every national bank, state member bank, and insured state non-member bank is required to file Consolidated Reports of Condition and Income (also known as the Call Report) in accordance with the instructions for these reports. All assets and liabilities, including contingent assets and liabilities, must be reported in, or otherwise taken into account in the preparation of, the Call Report. The FDIC uses Call Report data to calculate deposit insurance assessments and monitor the condition, performance, and risk profile of individual insured branches and the banking industry. Insured branches must also submit annually such information on small business and small farm lending as the FDIC may need to assess the availability of credit to these sectors of the economy. The report forms and instructions can be obtained from the Division of Supervision and Consumer Protection (DSC), FDIC, Washington, DC 20429.

(b) Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks, Form FFIEC 002. Pursuant to section 7(a) of the Federal Deposit Insurance Act (12 U.S.C. 1817(a)), every insured U.S. branch of a foreign bank is required to file a Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks in accordance with the instructions for the report. All assets and liabilities, including contingent assets and liabilities, must be reported in, or otherwise taken into account in the preparation of the report. The FDIC uses the reported data to calculate deposit insurance assessments and monitor the condition, performance, and risk profile of individual insured branches and the banking industry. Insured branches must also submit annually such information on small business and small farm lending as the FDIC may need to assess the availability of credit to these sectors of the economy. Because the Board of Governors of the Federal Reserve System collects and processes this report on behalf of the FDIC, the report forms and instructions can be obtained from Federal Reserve District Banks or through the web site of the Federal Financial Institutions Examination Council, http://www.ffiec.gov/.

(c) Summary of Deposits, Form FDIC 8020/05. Form 8020/05 is a report on the amount of deposits for each authorized office of an insured bank with branches; unit banks do not report. Reports as of June 30 of each year must be submitted no later than the immediately succeeding July 31. The report forms and the instructions for completing the reports will be furnished to all such banks by, or may be obtained upon request from, the Division of Supervision and Consumer Protection.

(DSC), FDIC, 550 17th Street, NW., Washington, DC 20429.

(Approved by the Office of Management and Budget under control number 3064–0061)

(d) Notification of Performance of Bank Services, Form FDIC 6120/06. Pursuant to Section 7 of the Bank Service Company Act (12 U.S.C. 1867), as amended, FDIC supervised banks must notify the agency about the existence of a service relationship within thirty days after the making of the contract or the performance of the service, whichever occurs first. Form FDIC 6120/06 may be used to satisfy the notice requirement. The form contains identification, location and contact information for the bank, the servicer, and a description of the services provided. In lieu of the form, notification may be provided by letter. Either the form or the letter containing the notice information must be submitted to the regional director—Division of Supervision and Consumer Protection (DSC) of the region in which the bank’s main office is located.

(Approved by the Office of Management and Budget under control number 3064–0029)

PARTS 305–306 [RESERVED]

PART 307—CERTIFICATION OF ASSUMPTION OF DEPOSITS AND NOTIFICATION OF CHANGES OF INSURED STATUS

Sec.
307.1 Scope and purpose.

307.2 Certification of assumption of deposit liabilities.

307.3 Notice to depositors when insured status is voluntarily terminated and deposits are not assumed.

APPENDIX A TO PART 307—TRANSFERRING INSTITUTION LETTERHEAD

APPENDIX B TO PART 307—INSTITUTION LETTERHEAD

Authority: 12 U.S.C. 1818(a)(6); 1818(q); and 1819(a) (Tenth).

Source: 71 FR 8791, Feb. 21, 2006, unless otherwise noted.

§ 307.1 Scope and purpose.

(a) Scope. This Part applies to all insured depository institutions, as defined in section 3(c)(2) of the Federal Deposit Insurance Act (FDI Act) (12 U.S.C. 1813(c)(2)).

(b) Purpose. This Part sets forth the rules governing:

(1) The time and manner for providing certification to the FDIC regarding the assumption of all of the deposit liabilities of an insured depository institution by one or more insured depository institutions; and

(2) The notification that an insured depository institution shall provide its depositors when a depository institution’s insured status is being voluntarily terminated without its deposits being assumed by one or more insured depository institutions.

§ 307.2 Certification of assumption of deposit liabilities.

(a) When certification is required. Whenever all of the deposit liabilities of an insured depository institution are assumed by one or more insured depository institutions by merger, consolidation, other statutory assumption, or by contract, the transferring insured depository institution, or its legal successor, shall provide an accurate written certification to the FDIC that its deposit liabilities have been assumed. No certification shall be required when deposit liabilities are assumed by an operating insured depository institution from an insured depository institution in default, as defined in section 3(x)(1) of the FDI Act (12 U.S.C. 1813(x)(1)), and that has been placed under FDIC receivership.

(b) Certification requirements. The certification required by paragraph (a) of this section shall be provided on official letterhead of the transferring insured depository institution or its legal successor, signed by a duly authorized official, and state the date the assumption took effect. The certification shall indicate the date on which the transferring institution’s authority to engage in banking has terminated or will terminate as well as the method of termination (e.g., whether by the surrender of its charter, by the cancellation of its charter or license to conduct a banking business, or otherwise). The certification may follow the form contained in Appendix A of this part. In a merger or consolidation where there is only one surviving entity which is the
§ 307.3 Notice to depositors when insured status is voluntarily terminated and deposits are not assumed.

(a) Notice required. An insured depository institution that has obtained authority from the FDIC to terminate its insured status under sections 8(a), 8(p) or 18(i)(3) of the FDI Act without its deposit liabilities being assumed by one or more insured depository institutions shall provide to each of its depositors, at the depositor’s last known address of record on the books of the institution, prior written notification of the date the institution’s insured status shall terminate.

(b) Prior approval of notice. The insured depository institution shall provide the appropriate Regional Director of the FDIC’s Division of Supervision and Consumer Protection, as defined in 12 CFR 303.2(g), a copy of the proposed notice for approval. After being approved, the notice shall be provided to depositors by the insured depository institution at the time and in the manner specified by the appropriate Regional Director.

(c) Form of notice. The notice to depositors required by paragraph (a) of this section shall be provided on the official letterhead of the insured depository institution, shall bear the signature of a duly authorized officer, and, unless otherwise specified by the appropriate Regional Director, may follow the form of the notice contained in Appendix B of this part.

(d) Other requirements possible. The FDIC may require the insured depository institution to take such other actions as the FDIC considers necessary and appropriate for the protection of depositors.

APPENDIX A TO PART 307—TRANSFERRING INSTITUTION LETTERHEAD

[Date]

[Name and Address of appropriate FDIC Regional Director]

SUBJECT: Certification of Total Assumption of Deposits

This certification is being provided pursuant to 12 U.S.C. 1818(q) and 12 CFR 307.2. On [state the date the deposit assumption took effect], [state the name of the depository institution assuming the deposit liabilities] assumed
all of the deposits of [state the name and location of the transferring institution whose deposits were assumed]. [If applicable, state the date and method by which the transferring institution’s authority to engage in banking was or will be terminated.] Please contact the undersigned, at [telephone number], if additional information is needed.

Sincerely,

By:

[Name and Title of Authorized Representative]

APPENDIX B TO PART 307—INSTITUTION LETTERHEAD

[Date]

[Name and Address of Depositor]

SUBJECT: Notice to Depositor of Voluntary Termination of Insured Status

The insured status of [name of insured depository institution], under the provisions of the Federal Deposit Insurance Act, will terminate as of the close of business on [state the date] ("termination date"). Insured deposits in the [name of insured depository institution] on the termination date, less all withdrawals from such deposits made subsequent to that date, will continue to be insured by the Federal Deposit Insurance Corporation, to the extent provided by law, until [state the date]. The Federal Deposit Insurance Corporation will not insure any new deposits or additions to existing deposits made by you after the termination date.

This Notice is being provided pursuant to 12 CFR 307.3.

Please contact [name of institution official in charge of depositor inquiries], at [name and address of insured depository institution] if additional information is needed regarding this Notice or the insured status of your account(s).

Sincerely,

By:

[Name and Title of Authorized Representative]

PART 308—RULES OF PRACTICE AND PROCEDURE

Subpart A—Uniform Rules of Practice and Procedure

Sec.
308.1 Scope.
308.2 Rules of construction.

308.539 Stays ordered by the Department of Justice.
308.540 Stay pending appeal.
308.541 Judicial review.
308.542 Collection of civil penalties and assessments.
308.543 Right to administrative offset.
308.544 Deposit in Treasury of United States.
308.545 Compromise or settlement.
§ 308.1 Scope

This subpart prescribes rules of practice and procedure applicable to adjudicatory proceedings as to which hearings on the record are provided for by the following statutory provisions:

(a) Cease-and-desist proceedings under section 8(b) of the Federal Deposit Insurance Act ("FDIA") (12 U.S.C. 1818(b));

(b) Removal and prohibition proceedings under section 8(e) of the FDIA (12 U.S.C. 1818(e));

(c) Change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)) to determine whether the Federal Deposit Insurance Corporation ("FDIC"), should issue an order to approve or disapprove a person's proposed acquisition of an institution and/ or institution holding company;

(d) Proceedings under section 15C(c)(2) of the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78o-5), to impose sanctions upon any government securities broker or dealer or upon any person associated or seeking to become associated with a government securities broker or dealer for which the FDIC is the appropriate regulatory agency;

(e) Assessment of civil money penalties by the FDIC against institutions, institution-affiliated parties, and certain other persons for which it is the appropriate regulatory agency for any violation of:

(1) Sections 22(h) and 23 of the Federal Reserve Act (FRA), or any regulation issued thereunder, and certain unsafe or unsound practices or breaches of fiduciary duty, pursuant to 12 U.S.C. 1828(j) or 12 U.S.C. 1468;

(2) Section 106(b) of the Bank Holding Company Act Amendments of 1970 ("BHCA Amendments of 1970"), and certain unsafe or unsound practices or breaches of fiduciary duty, pursuant to 12 U.S.C. 1972(2)(F);

(3) Any provision of the Change in Bank Control Act of 1978, as amended (the "CBCA"), or any regulation or order issued thereunder, and certain unsafe or unsound practices, or breaches of fiduciary duty, pursuant to 12 U.S.C. 1817(t)(16);

(4) Section 7(a)(1) of the FDIA, pursuant to 12 U.S.C. 1817(a)(1);

(5) Any provision of the International Lending Supervision Act of 1983 ("ILSA"), or any rule, regulation or order issued thereunder, pursuant to 12 U.S.C. 3909;

(6) Any provision of the International Banking Act of 1978 ("IBA"), or any rule, regulation or order issued thereunder, pursuant to 12 U.S.C. 3108;

(8) Section 1120 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA") (12 U.S.C. 3349), or any order or regulation issued thereunder;

(9) The terms of any final or temporary order issued under section 8 of the FDIA or of any written agreement executed by the FDIC or the former Office of Thrift Supervision (OTS), the terms of any condition imposed in writing by the FDIC in connection with the grant of an application or request, certain unsafe or unsound practices or breaches of fiduciary duty, or any law or regulation not otherwise provided therein pursuant to 12 U.S.C. 1818(l)(2);
§ 308.2 Rules of construction.

For purposes of this subpart:

(a) Any term in the singular includes the plural, and the plural includes the singular, if such use would be appropriate;

(b) Any use of a masculine, feminine, or neuter gender encompasses all three, if such use would be appropriate;

(c) The term counsel includes a non-attorney representative; and

(d) Unless the context requires otherwise, a party’s counsel of record, if any, may, on behalf of that party, take any action required to be taken by the party.

§ 308.3 Definitions.

For purposes of this subpart, unless explicitly stated to the contrary:

(a) Administrative law judge means one who presides at an administrative hearing under authority set forth at 5 U.S.C. 556.

(b) Adjudicatory proceeding means a proceeding conducted pursuant to these rules and leading to the formulation of a final order other than a regulation.

(c) Board of Directors means the Board of Directors of the Federal Deposit Insurance Corporation or its designee.

(d) Decisional employee means any member of the Federal Deposit Insurance Corporation's or administrative law judge’s staff who has not engaged in an investigative or prosecutorial role in a proceeding and who may assist the Board of Directors or the administrative law judge, respectively, in preparing orders, recommended decisions, decisions, and other documents under the Uniform Rules.

(e) Designee of the Board of Directors means officers or officials of the Federal Deposit Insurance Corporation acting pursuant to authority delegated by the Board of Directors.

(f) Enforcement Counsel means any individual who files a notice of appearance as counsel on behalf of the FDIC in an adjudicatory proceeding.

(g) Executive Secretary means the Executive Secretary of the Federal Deposit Insurance Corporation or his or her designee.

(h) FDIC means the Federal Deposit Insurance Corporation.

(i) Final order means an order issued by the FDIC with or without the consent of the affected institution or the institution-affiliated party, that has become final, without regard to the pendency of any petition for reconsideration or review.

(j) Institution includes:

(1) Any bank as that term is defined in section 3(a) of the FDIA (12 U.S.C. 1813(a));

(2) Any bank holding company or any subsidiary (other than a bank) of a bank holding company as those terms are defined in the BHCA (12 U.S.C. 1841 et seq.);

(3) Any savings association as that term is defined in section 3(b) of the FDIA (12 U.S.C. 1813(b)), any savings and loan holding company or any subsidiary thereof (other than a bank) as
§ 308.5 Authority of the administrative law judge.

(a) General rule. All proceedings governed by this part shall be conducted in accordance with the provisions of chapter 5 of title 5 of the United States Code. The administrative law judge shall have all powers necessary to conduct a proceeding in a fair and impartial manner and to avoid unnecessary delay.

(b) Powers. The administrative law judge shall have all powers necessary to conduct the proceeding in accordance with paragraph (a) of this section, including the following powers:

1. To administer oaths and affirmations;
2. To issue subpoenas, subpoenas duces tecum, and protective orders, as authorized by this part, and to quash or modify any such subpoenas and orders;
3. To receive relevant evidence and to rule upon the admission of evidence and offers of proof;
4. To take or cause depositions to be taken as authorized by this subpart;
5. To regulate the course of the hearing and the conduct of the parties and their counsel;
6. To hold scheduling and/or pre-hearing conferences as set forth in §308.31;
7. To consider and rule upon all procedural and other motions appropriate in an adjudicatory proceeding, provided that only the Board of Directors shall have the power to grant any motion to dismiss the proceeding or to decide any other motion that results in a final determination of the merits of the proceeding;
8. To prepare and present to the Board of Directors a recommended decision as provided herein;
9. To recuse himself or herself by motion made by a party or on his or her own motion;
10. To establish time, place and manner limitations on the attendance of the public and the media for any public hearing; and
§ 308.6 Appearance and practice in adjudicatory proceedings.

(a) Appearance before the FDIC or an administrative law judge—(1) By attorneys. Any member in good standing of the bar of the highest court of any state, commonwealth, possession, territory of the United States, or the District of Columbia may represent others before the FDIC if such attorney is not currently suspended or debarred from practice before the FDIC.

(2) By non-attorneys. An individual may appear on his or her own behalf; a member of a partnership may represent the partnership; a duly authorized officer, director, or employee of any government unit, agency, institution, corporation or authority may represent that unit, agency, institution, corporation or authority if such officer; director, or employee is not currently suspended or debarred from practice before the FDIC.

(3) Notice of appearance. Any individual acting as counsel on behalf of a party, including the FDIC, shall file a notice of appearance with OFIA at or before the time that individual submits papers or otherwise appears on behalf of a party in the adjudicatory proceeding. The notice of appearance must include a written declaration that the individual is currently qualified as provided in paragraph (a)(1) or (a)(2) of this section and is authorized to represent the particular party. By filing a notice of appearance on behalf of a party in an adjudicatory proceeding, the counsel agrees and represents that he or she is authorized to accept service on behalf of the represented party and that, in the event of withdrawal from representation, he or she will, if required by the administrative law judge, continue to accept service until new counsel has filed a notice of appearance or until the represented party indicates that he or she will proceed on a pro se basis.

(b) Sanctions. Dilatory, obstructionist, egregious, contemptuous or contumacious conduct at any phase of an adjudicatory proceeding may be grounds for exclusion or suspension of counsel from the proceeding.

§ 308.7 Good faith certification.

(a) General requirement. Every filing or submission of record following the issuance of a notice shall be signed by at least one counsel of record in his or her individual name and shall state that counsel’s address and telephone number. A party who acts as his or her own counsel shall sign his or her individual name and state his or her address and telephone number on every filing or submission of record.

(b) Effect of signature. (1) The signature of counsel or a party shall constitute a certification that: The counsel or party has read the filing or submission of record; to the best of his or her knowledge, information, and belief formed after reasonable inquiry, the filing or submission of record is well-grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; and the filing or submission of record is not made for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation.

(2) If a filing or submission of record is not signed, the administrative law judge shall strike the filing or submission of record, unless it is signed promptly after the omission is called to the attention of the pleader or movant.

(c) Effect of making oral motion or argument. The act of making any oral motion or oral argument by any counsel or party constitutes a certification that to the best of his or her knowledge, information, and belief formed after reasonable inquiry, his or her statements are well-grounded in fact and are warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law, and are not made for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation.
§ 308.8 Conflicts of interest.

(a) Conflict of interest in representation. No person shall appear as counsel for another person in an adjudicatory proceeding if it reasonably appears that such representation may be materially limited by that counsel’s responsibilities to a third person or by the counsel’s own interests. The administrative law judge may take corrective measures at any stage of a proceeding to cure a conflict of interest in representation, including the issuance of an order limiting the scope of representation or disqualifying an individual from appearing in a representative capacity for the duration of the proceeding.

(b) Certification and waiver. If any person appearing as counsel represents two or more parties to an adjudicatory proceeding or also represents a non-party on a matter relevant to an issue in the proceeding, counsel must certify in writing at the time of filing the notice of appearance required by § 308.6(a):

(1) That the counsel has personally and fully discussed the possibility of conflicts of interest with each such party and non-party; and

(2) That each such party and non-party waives any right it might otherwise have to assert any known conflicts of interest or to assert any non-material conflicts of interest during the course of the proceeding.

§ 308.9 Ex parte communications.

(a) Definition—(1) Ex parte communication means any material oral or written communication relevant to the merits of an adjudicatory proceeding that was neither on the record nor on reasonable prior notice to all parties that takes place between:

(i) An interested person outside the FDIC (including such person’s counsel); and

(ii) The administrative law judge handling that proceeding, the Board of Directors, or a decisional employee.

(2) Exception. A request for status of the proceeding does not constitute an ex parte communication.

(b) Prohibition of ex parte communications. From the time the notice is issued by the FDIC until the date that the Board of Directors issues its final decision pursuant to § 308.40(c):

(1) No interested person outside the FDIC shall make or knowingly cause to be made an ex parte communication to any member of the Board of Directors, the administrative law judge, or a decisional employee; and

(2) No member of the Board of Directors, no administrative law judge, or decisional employee shall make or knowingly cause to be made to any interested person outside the FDIC any ex parte communication.

(c) Procedure upon occurrence of ex parte communication. If an ex parte communication is received by the administrative law judge, any member of the Board of Directors or other person identified in paragraph (a) of this section, that person shall cause all such written communications (or, if the communication is oral, a memorandum stating the substance of the communication) to be placed on the record of the proceeding and served on all parties. All other parties to the proceeding shall have an opportunity, within ten days of receipt of service of the ex parte communication, to file responses thereto and to recommend any sanctions that they believe to be appropriate under the circumstances. The administrative law judge or the Board of Directors shall then determine whether any action should be taken concerning the ex parte communication in accordance with paragraph (d) of this section.

(d) Sanctions. Any party or his or her counsel who makes a prohibited ex parte communication, or who encourages or solicits another to make any such communication, may be subject to any appropriate sanction or sanctions imposed by the Board of Directors or the administrative law judge including, but not limited to, exclusion from the proceedings and an adverse ruling on the issue which is the subject of the prohibited communication.

(e) Separation of functions. Except to the extent required for the disposition of ex parte matters as authorized by law, the administrative law judge may not consult a person or party on any matter relevant to the merits of the
§ 308.10  

Filing of papers.  

(a) Filing. Any papers required to be filed, excluding documents produced in response to a discovery request pursuant to §§308.25 and 308.26, shall be filed with the OFIA, except as otherwise provided.  

(b) Manner of filing. Unless otherwise specified by the Board of Directors or the administrative law judge, filing may be accomplished by:  

(1) Personal service;  

(2) Delivering the papers to a reliable commercial courier service, overnight delivery service, or to the U.S. Post Office for Express Mail delivery;  

(3) Mailing the papers by first class, registered, or certified mail; or  

(4) Transmission by electronic media, only if expressly authorized, and upon any conditions specified, by the Board of Directors or the administrative law judge. All papers filed by electronic media shall also concurrently be filed in accordance with paragraph (c) of this section.  

(c) Formal requirements as to papers filed—(1) Form. All papers filed must set forth the name, address, and telephone number of the counsel or party making the filing and must be accompanied by a certification setting forth when and how service has been made on all other parties. All papers filed must be double-spaced and printed or typewritten on 81⁄2 × 11 inch paper, and must be clear and legible.  

(2) Signature. All papers must be dated and signed as provided in §308.7.  

(3) Caption. All papers filed must include at the head thereof, or on a title page, the name of the FDIC and of the filing party, the title and docket number of the proceeding, and the subject of the particular paper.  

(4) Number of copies. Unless otherwise specified by the Board of Directors, or the administrative law judge, an original and one copy of all documents and papers shall be filed, except that only one copy of transcripts of testimony and exhibits shall be filed.  

§ 308.11  

Service of papers.  

(a) By the parties. Except as otherwise provided, a party filing papers shall serve a copy upon the counsel of record for all other parties to the proceeding so represented, and upon any party not so represented.  

(b) Method of service. Except as provided in paragraphs (c)(2) and (d) of this section, a serving party shall use one or more of the following methods of service:  

(1) Personal service;  

(2) Delivering the papers to a reliable commercial courier service, overnight delivery service, or to the U.S. Post Office for Express Mail delivery;  

(3) Mailing the papers by first class, registered, or certified mail; or  

(4) Transmission by electronic media, only if the parties mutually agree. Any papers served by electronic media shall also concurrently be served in accordance with the requirements of §308.10(c).  

(c) By the Board of Directors. (1) All papers required to be served by the Board of Directors or the administrative law judge upon a party who has appeared in the proceeding in accordance with §308.6, shall be served by any means specified in paragraph (b) of this section.  

(2) If a party has not appeared in the proceeding in accordance with §308.6, the Board of Directors or the administrative law judge shall make service by any of the following methods:  

(i) By personal service;  

(ii) If the person to be served is an individual, by delivery to a person of suitable age and discretion at the physical location where the individual resides or works;  

(iii) If the person to be served is a corporation or other association, by delivery to an officer, managing or general agent, or to any other agent authorized by appointment or by law to receive service and, if the agent is one authorized by statute to receive service
and the statute so requires, by also mailing a copy to the party;
(iv) By registered or certified mail addressed to the party’s last known address; or
(v) By any other method reasonably calculated to give actual notice.
(d) Subpoenas. Service of a subpoena may be made:
(1) By personal service;
(2) If the person to be served is an individual, by delivery to a person of suitable age and discretion at the physical location where the individual resides or works;
(3) By delivery to an agent which, in the case of a corporation or other association, is delivery to an officer, managing or general agent, or to any other agent authorized by appointment or by law to receive service and, if the agent is one authorized by statute to receive service and the statute so requires, by also mailing a copy to the party;
(4) By registered or certified mail addressed to the person’s last known address; or
(5) In such other manner as is reasonably calculated to give actual notice.
(e) Area of service. Service in any state, territory, possession of the United States, or the District of Columbia, on any person or company doing business in any state, territory, possession of the United States, or the District of Columbia, or on any person as otherwise provided by law, is effective without regard to the place where the hearing is held, provided that if service is made on a foreign bank in connection with an action or proceeding involving one or more of its branches or agencies located in any state, territory, possession of the United States, or the District of Columbia, service shall be made on at least one branch or agency so involved.

§ 308.12 Construction of time limits.
(a) General rule. In computing any period of time prescribed by this subpart, the date of the act or event that commences the designated period of time is not included. The last day so computed is included unless it is a Saturday, Sunday, or Federal holiday. When the last day is a Saturday, Sunday, or Federal holiday, the period runs until the end of the next day that is not a Saturday, Sunday, or Federal holiday. Intermediate Saturdays, Sundays, and Federal holidays are included in the computation of time. However, when the time period within which an act is to be performed is ten days or less, not including any additional time allowed for in paragraph (c) of this section, intermediate Saturdays, Sundays, and Federal holidays are not included.
(b) When papers are deemed to be filed or served. (1) Filing and service are deemed to be effective:
(i) In the case of personal service or same day commercial courier delivery, upon actual service;
(ii) In the case of overnight commercial delivery service, U.S. Express Mail delivery, or first class, registered, or certified mail, upon deposit in or delivery to an appropriate point of collection;
(iii) In the case of transmission by electronic media, as specified by the authority receiving the filing, in the case of filing, and as agreed among the parties, in the case of service.
(2) The effective filing and service dates specified in paragraph (b) (1) of this section may be modified by the Board of Directors or administrative law judge in the case of filing or by agreement of the parties in the case of service.
(c) Calculation of time for service and filing of responsive papers. Whenever a time limit is measured by a prescribed period from the service of any notice or paper, the applicable time limits are calculated as follows:
(1) If service is made by first class, registered, or certified mail, add three calendar days to the prescribed period;
(2) If service is made by express mail or overnight delivery service, add one calendar day to the prescribed period;
(3) If service is made by electronic media transmission, add one calendar day to the prescribed period, unless otherwise determined by the Board of Directors or the administrative law judge in the case of filing, or by agreement among the parties in the case of service.
§ 308.13 Change of time limits.

Except as otherwise provided by law, the administrative law judge may, for good cause shown, extend the time limits prescribed by the Uniform Rules or by any notice or order issued in the proceedings. After the referral of the case to the Board of Directors pursuant to §308.38, the Board of Directors may grant extensions of the time limits for good cause shown. Extensions may be granted at the motion of a party or of the Board of Directors after notice and opportunity to respond is afforded all non-moving parties, or on the administrative law judge’s own motion.

§ 308.14 Witness fees and expenses.

Witnesses subpoenaed for testimony or depositions shall be paid the same fees for attendance and mileage as are paid in the United States district courts in proceedings in which the United States is a party, provided that, in the case of a discovery subpoena addressed to a party, no witness fees or mileage need be paid. Fees for witnesses shall be tendered in advance by the party requesting the subpoena, except that fees and mileage need not be tendered in advance where the FDIC is the party requesting the subpoena. The FDIC shall not be required to pay any fees to, or expenses of, any witness not subpoenaed by the FDIC.

§ 308.15 Opportunity for informal settlement.

Any respondent may, at any time in the proceeding, unilaterally submit to Enforcement Counsel written offers or proposals for settlement of a proceeding, without prejudice to the rights of any of the parties. No such offer or proposal shall be made to any FDIC representative other than Enforcement Counsel. Submission of a written settlement offer does not provide a basis for adjourning or otherwise delaying all or any portion of a proceeding under this part. No settlement offer or proposal, or any subsequent negotiation or resolution, is admissible as evidence in any proceeding.

§ 308.16 FDIC’s right to conduct examination.

Nothing contained in this subpart limits in any manner the right of the FDIC to conduct any examination, inspection, or visitation of any institution or institution-affiliated party, or the right of the FDIC to conduct or continue any form of investigation authorized by law.

§ 308.17 Collateral attacks on adjudicatory proceeding.

If an interlocutory appeal or collateral attack is brought in any court concerning all or any part of an adjudicatory proceeding, the challenged adjudicatory proceeding shall continue without regard to the pendency of that court proceeding. No default or other failure to act as directed in the adjudicatory proceeding within the times prescribed in this subpart shall be excused based on the pendency before any court of any interlocutory appeal or collateral attack.

§ 308.18 Commencement of proceeding and contents of notice.

(a) Commencement of proceeding. (1)(i)

Except for change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)), a proceeding governed by this subpart is commenced by issuance of a notice by the FDIC.

(ii) The notice must be served by the Executive Secretary upon the respondent and given to any other appropriate financial institution supervisory authority where required by law.

(iii) The notice must be filed with the OFIA.

(2) Change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)) commence with the issuance of an order by the FDIC.

(b) Contents of notice. The notice must set forth:

(1) The legal authority for the proceeding and for the FDIC’s jurisdiction over the proceeding;

(2) A statement of the matters of fact or law showing that the FDIC is entitled to relief;

(3) A proposed order or prayer for an order granting the requested relief;

(4) The time, place, and nature of the hearing as required by law or regulation;

(5) The time within which to file an answer as required by law or regulation;
§ 308.22 Consolidation and severance of actions.

(a) Consolidation. (1) On the motion of any party, or on the administrative
§ 308.23 Motions.
(a) In writing. (1) Except as otherwise provided herein, an application or request for an order or ruling must be made by written motion.
(2) All written motions must state with particularity the relief sought and must be accompanied by a proposed order.
(3) No oral argument may be held on written motions except as otherwise directed by the administrative law judge. Written memoranda, briefs, affidavits or other relevant materials or documents may be filed in support of or in opposition to a motion.
(b) Oral motions. A motion may be made orally on the record unless the administrative law judge directs that such motion be reduced to writing.
(c) Filing of motions. Motions must be filed with the administrative law judge, except that following the filing of the recommended decision, motions must be filed with the Executive Secretary for disposition by the Board of Directors.
(d) Responses. (1) Except as otherwise provided herein, within ten days after service of any written motion, or within such other period of time as may be established by the administrative law judge or the Executive Secretary, any party may file a written response to a motion. The administrative law judge shall not rule on any oral or written motion before each party has had an opportunity to file a response.
(2) The failure of a party to oppose a written motion or an oral motion made on the record is deemed a consent by that party to the entry of an order substantially in the form of the order accompanying the motion.
(e) Dilatory motions. Frivolous, dilatory or repetitive motions are prohibited. The filing of such motions may form the basis for sanctions.
(f) Dispositive motions. Dispositive motions are governed by §§ 308.29 and 308.30.
§ 308.24 Scope of document discovery.
(a) Limits on discovery. (1) Subject to the limitations set out in paragraphs (b), (c), and (d) of this section, a party to a proceeding under this subpart may obtain document discovery by serving a written request to produce documents. For purposes of a request to produce documents, the term “documents” may be defined to include drawings, graphs, charts, photographs, recordings, data stored in electronic form, and other data compilations from which information can be obtained, or translated, if necessary, by the parties through the use of detection devices into reasonably usable form, as well as written material of all kinds.
(2) Discovery by use of deposition is governed by subpart I of this part.
(b) Relevance. A party may obtain document discovery regarding any matter, not privileged, that has material relevance to the merits of the pending action. Any request to produce documents that calls for irrelevant material, that is unreasonable, oppressive, excessive in scope, unduly burdensome, or repetitive of previous requests, or

§ 308.23

12 CFR Ch. III (1–1–17 Edition)
§ 308.25 Request for document discovery from parties.

(a) General rule. Any party may serve on any other party a request to produce for inspection any discoverable documents that are in the possession, custody, or control of the party upon whom the request is served. The request must identify the documents to be produced either by individual item or by category, and must describe each item and category with reasonable particularity. Documents must be produced as they are kept in the usual course of business or must be organized to correspond with the categories in the request.

(b) Production or copying. The request must specify a reasonable time, place, and manner for production and performing any related acts. In lieu of inspecting the documents, the requesting party may specify that all or some of the responsive documents be copied and the copies delivered to the requesting party. If copying of fewer than 250 pages is requested, the party to whom the request is addressed shall bear the cost of copying and shipping charges. If a party requests 250 pages or more of copying, the requesting party shall pay for the copying and shipping charges. Copying charges are the current per page copying rate imposed by 12 CFR part 309 implementing the Freedom of Information Act (5 U.S.C. 552). The party to whom the request is addressed may require payment in advance before producing the documents.

(c) Privileged matter. Privileged documents are not discoverable. Privileges include the attorney-client privilege, work-product privilege, any government's or government agency's deliberative-process privilege, and any other privileges the Constitution, any applicable act of Congress, or the principles of common law provide.

(d) Time limits. All discovery, including all responses to discovery requests, shall be completed at least 20 days prior to the date scheduled for the commencement of the hearing. No exceptions to this time limit shall be permitted, unless the administrative law judge finds on the record that good cause exists for waiving the requirements of this paragraph.

§ 308.25 Request for document discovery from parties.

(a) General rule. Any party may serve on any other party a request to produce for inspection any discoverable documents that are in the possession, custody, or control of the party upon whom the request is served. The request must identify the documents to be produced either by individual item or by category, and must describe each item and category with reasonable particularity. Documents must be produced as they are kept in the usual course of business or must be organized to correspond with the categories in the request.

(b) Production or copying. The request must specify a reasonable time, place, and manner for production and performing any related acts. In lieu of inspecting the documents, the requesting party may specify that all or some of the responsive documents be copied and the copies delivered to the requesting party. If copying of fewer than 250 pages is requested, the party to whom the request is addressed shall bear the cost of copying and shipping charges. If a party requests 250 pages or more of copying, the requesting party shall pay for the copying and shipping charges. Copying charges are the current per page copying rate imposed by 12 CFR part 309 implementing the Freedom of Information Act (5 U.S.C. 552). The party to whom the request is addressed may require payment in advance before producing the documents.

(c) Privileged matter. Privileged documents are not discoverable. Privileges include the attorney-client privilege, work-product privilege, any government's or government agency's deliberative-process privilege, and any other privileges the Constitution, any applicable act of Congress, or the principles of common law provide.

(d) Time limits. All discovery, including all responses to discovery requests, shall be completed at least 20 days prior to the date scheduled for the commencement of the hearing. No exceptions to this time limit shall be permitted, unless the administrative law judge finds on the record that good cause exists for waiving the requirements of this paragraph.

§ 308.26 Document subpoenas to non-parties.

(a) General rules. (1) Any party may apply to the administrative law judge for the issuance of a document discovery subpoena addressed to any person who is not a party to the proceeding. The application must contain a proposed document subpoena and a brief statement showing the general relevance and reasonableness of the scope of documents sought. The subpoenaing party shall specify a reasonable time, place, and manner for making production in response to the document subpoena.

(2) A party shall only apply for a document subpoena under this section within the time period during which such party could serve a discovery request under § 308.24(d). The party obtaining the document subpoena is responsible for serving it on the subpoenaed person and for serving copies on all parties. Document subpoenas may be served in any state, territory, or possession of the United States, the District of Columbia, or as otherwise provided by law.

(3) The administrative law judge shall promptly issue any document subpoena requested pursuant to this section. If the administrative law judge determines that the application does not set forth a valid basis for the issuance of the subpoena, or that any of its terms are unreasonable, oppressive, excessive in scope, or unduly burdensome, he or she may refuse to issue the subpoena or may issue it in a modified form upon such conditions as may be consistent with the Uniform Rules.

(b) Motion to quash or modify. (1) Any person to whom a document subpoena is directed may file a motion to quash

...
or modify such subpoena, accompanied by a statement of the basis for quashing or modifying the subpoena. The movant shall serve the motion on all parties, and any party may respond to such motion within ten days of service of the motion.

(2) Any motion to quash or modify a document subpoena must be filed on the same basis, including the assertion of privilege, upon which a party could object to a discovery request under §308.25(d), and during the same time limits during which such an objection could be filed.

(c) Enforcing document subpoenas. If a subpoenaed person fails to comply with any subpoena issued pursuant to this section or any order of the administrative law judge which directs compliance with all or any portion of a document subpoena, the subpoenaing party or any other aggrieved party may, to the extent authorized by applicable law, apply to an appropriate United States district court for an order requiring compliance with so much of the document subpoena as the administrative law judge has not quashed or modified. A party’s right to seek court enforcement of a document subpoena may require the witness to be deposed at any place within the country in which that witness resides or has a regular place of employment or such other convenient place as the administrative law judge shall fix.

(3) Any requested subpoena that sets forth a valid basis for its issuance must be promptly issued, unless the administrative law judge on his or her own motion, requires a written response or requires attendance at a conference concerning whether the requested subpoena should be issued.

(4) The party obtaining a deposition subpoena is responsible for serving it on the witness and for serving copies on all parties. Unless the administrative law judge orders otherwise, no deposition under this section shall be taken on fewer than ten days’ notice to the witness and all parties. Deposition subpoenas may be served in any state, territory, possession of the United States, or the District of Columbia, on any person or company doing business in any state, territory, possession of the United States, or the District of Columbia, or as otherwise permitted by law.

§ 308.27. Deposition of witness unavailable for hearing.

(a) General rules. (1) If a witness will not be available for the hearing, a party desiring to preserve that witness’ testimony for the record may apply in accordance with the procedures set forth in paragraph (a)(2) of this section, to the administrative law judge for the issuance of a subpoena, including a subpoena duces tecum, requiring the attendance of the witness at a deposition. The administrative law judge may issue a deposition subpoena under this section upon showing that:

(i) The witness will be unable to attend or may be prevented from attending the hearing because of age, sickness or infirmity, or will otherwise be unavailable;

(ii) The witness’ unavailability was not procured or caused by the subpoenaing party;

(iii) The testimony is reasonably expected to be material; and

(iv) Taking the deposition will not result in any undue burden to any other party and will not cause undue delay of the proceeding.

(2) The application must contain a proposed deposition subpoena and a brief statement of the reasons for the issuance of the subpoena. The subpoena must name the witness whose deposition is to be taken and specify the time and place for taking the deposition. A deposition subpoena may require the witness to be deposed at any place within the country in which that witness resides or has a regular place of employment or such other convenient place as the administrative law judge shall fix.

(b) Objections to deposition subpoenas. (1) The witness and any party who has not had an opportunity to oppose a deposition subpoena issued under this section may file a motion with the administrative law judge to quash or modify the subpoena prior to the time for compliance specified in the subpoena, but not more than ten days after service of the subpoena.

(2) A statement of the basis for the motion to quash or modify a subpoena...
issued under this section must accompany the motion. The motion must be served on all parties.

(c) Procedure upon deposition. (1) Each witness testifying pursuant to a deposition subpoena must be duly sworn, and each party shall have the right to examine the witness. Objections to questions or documents must be in short form, stating the grounds for the objection. Failure to object to questions or documents is not deemed a waiver except where the ground for the objection might have been avoided if the objection had been timely presented. All questions, answers, and objections must be recorded.

(2) Any party may move before the administrative law judge for an order compelling the witness to answer any questions the witness has refused to answer or submit any evidence the witness has refused to submit during the deposition.

(3) The deposition must be subscribed by the witness, unless the parties and the witness, by stipulation, have waived the signing, or the witness is ill, cannot be found, or has refused to sign. If the deposition is not subscribed by the witness, the court reporter taking the deposition shall certify that the transcript is a true and complete transcript of the deposition.

(d) Enforcing subpoenas. If a subpoenaed person fails to comply with any order of the administrative law judge which directs compliance with all or any portion of a deposition subpoena under paragraph (b) or (c)(3) of this section, the subpoeaning party or other aggrieved party may, to the extent authorized by applicable law, apply to an appropriate United States district court for an order requiring compliance with the portions of the subpoena that the administrative law judge has ordered enforced. A party’s right to seek court enforcement of a deposition subpoena in no way limits the sanctions that may be imposed by the administrative law judge on a party who fails to comply with, or procures a failure to comply with, a subpoena issued under this section.

§ 308.28 Interlocutory review.

(a) General rule. The Board of Directors may review a ruling of the administrative law judge prior to the certification of the record to the Board of Directors only in accordance with the procedures set forth in this section and §308.23.

(b) Scope of review. The Board of Directors may exercise interlocutory review of a ruling of the administrative law judge if the Board of Directors finds that:

(1) The ruling involves a controlling question of law or policy as to which substantial grounds exist for a difference of opinion;

(2) Immediate review of the ruling may materially advance the ultimate termination of the proceeding;

(3) Subsequent modification of the ruling at the conclusion of the proceeding would be an inadequate remedy; or

(4) Subsequent modification of the ruling would cause unusual delay or expense.

(c) Procedure. Any request for interlocutory review shall be filed by a party with the administrative law judge within ten days of his or her ruling and shall otherwise comply with §308.23. Any party may file a response to a request for interlocutory review in accordance with §308.23(d). Upon the expiration of the time for filing all responses, the administrative law judge shall refer the matter to the Board of Directors for final disposition.

(d) Suspension of proceeding. Neither a request for interlocutory review nor any disposition of such a request by the Board of Directors under this section suspends or stays the proceeding unless otherwise ordered by the administrative law judge or the Board of Directors.

§ 308.29 Summary disposition.

(a) In general. The administrative law judge shall recommend that the Board of Directors issue a final order granting a motion for summary disposition if the undisputed pleaded facts, admissions, affidavits, stipulations, documentary evidence, matters as to which official notice may be taken, and any other evidentiary materials properly submitted in connection with a motion for summary disposition show that:

(1) There is no genuine issue as to any material fact; and
(2) The moving party is entitled to a decision in its favor as a matter of law.

(b) Filing of motions and responses. (1) Any party who believes that there is no genuine issue of material fact to be determined and that he or she is entitled to a decision as a matter of law may move at any time for summary disposition in its favor of all or any part of the proceeding. Any party, within 20 days after service of such a motion, or within such time period as allowed by the administrative law judge, may file a response to such motion.

(2) A motion for summary disposition must be accompanied by a statement of the material facts as to which the moving party contends there is no genuine issue. Such motion must be supported by documentary evidence, which may take the form of admissions in pleadings, stipulations, depositions, investigatory depositions, transcripts, affidavits and any other evidentiary materials that the moving party contends support his or her position. The motion must also be accompanied by a brief containing the points and authorities in support of the contention of the moving party. Any party opposing a motion for summary disposition must file a statement setting forth those material facts as to which he or she contends a genuine dispute exists. Such opposition must be supported by evidence of the same type as that submitted with the motion for summary disposition and a brief containing the points and authorities in support of the contention that summary disposition would be inappropriate.

(c) Hearing on motion. At the request of any party or on his or her own motion, the administrative law judge may hear oral argument on the motion for summary disposition.

(d) Decision on motion. Following receipt of a motion for summary disposition and all responses thereto, the administrative law judge shall determine whether the moving party is entitled to summary disposition. If the administrative law judge determines that summary disposition is warranted, the administrative law judge shall submit a recommended decision to that effect to the Board of Directors. If the administrative law judge finds that no party is entitled to summary disposition, he or she shall make a ruling denying the motion.

§ 308.30 Partial summary disposition.

If the administrative law judge determines that a party is entitled to summary disposition as to certain claims only, he or she shall defer submitting a recommended decision as to those claims. A hearing on the remaining issues must be ordered. Those claims for which the administrative law judge has determined that summary disposition is warranted will be addressed in the recommended decision filed at the conclusion of the hearing.

§ 308.31 Scheduling and prehearing conferences.

(a) Scheduling conference. Within 30 days of service of the notice or order commencing a proceeding or such other time as parties may agree, the administrative law judge shall direct counsel for all parties to meet with him or her in person at a specified time and place prior to the hearing or to confer by telephone for the purpose of scheduling the course and conduct of the proceeding. This meeting or telephone conference is called a “scheduling conference.” The identification of potential witnesses, the time for and manner of discovery, and the exchange of any prehearing materials including witness lists, statements of issues, stipulations, exhibits and any other materials may also be determined at the scheduling conference.

(b) Prehearing conferences. The administrative law judge may, in addition to the scheduling conference, on his or her own motion or at the request of any party, direct counsel for the parties to meet with him or her (in person or by telephone) at a prehearing conference to address any or all of the following:

(1) Simplification and clarification of the issues;

(2) Stipulations, admissions of fact, and the contents, authenticity and admissibility into evidence of documents;

(3) Matters of which official notice may be taken;

(4) Limitation of the number of witnesses;

(5) Summary disposition of any or all issues;
§ 308.32 Prehearing submissions.

(a) Within the time set by the administrative law judge, but in no case later than 14 days before the start of the hearing, each party shall serve on every other party, his or her:

(1) Prehearing statement;

(2) Final list of witnesses to be called to testify at the hearing, including name and address of each witness and a short summary of the expected testimony of each witness;

(3) List of the exhibits to be introduced at the hearing along with a copy of each exhibit; and

(4) Stipulations of fact, if any.

(b) Effect of failure to comply. No witness may testify and no exhibits may be introduced at the hearing if such witness or exhibit is not listed in the prehearing submissions pursuant to paragraph (a) of this section, except for good cause shown.

§ 308.33 Public hearings.

(a) General rule. All hearings shall be open to the public, unless the FDIC, in its discretion, determines that holding an open hearing would be contrary to the public interest. Within 20 days of service of the notice or, in the case of change-in-control proceedings under section 7(j)(4) of the FDIA (12 U.S.C. 1817(j)(4)), within 20 days from service of the hearing order, any respondent may file with the Executive Secretary a request for a private hearing, and any party may file a reply to such a request. A party must serve on the administrative law judge a copy of any request or reply the party files with the Executive Secretary. The form of, and procedure for, these requests and replies are governed by §308.23. A party's failure to file a request or a reply constitutes a waiver of any objections regarding whether the hearing will be public or private.

(b) Filing document under seal. Enforcement Counsel, in his or her discretion, may file any document or part of a document under seal if disclosure of the document would be contrary to the public interest. The administrative law judge shall take all appropriate steps to preserve the confidentiality of such documents or parts thereof, including closing portions of the hearing to the public.

§ 308.34 Hearing subpoenas.

(a) Issuance. (1) Upon application of a party showing general relevance and reasonableness of scope of the testimony or other evidence sought, the administrative law judge may issue a subpoena or a subpoena duces tecum requiring the attendance of a witness at the hearing or the production of documentary or physical evidence at the hearing. The application for a hearing subpoena must also contain a proposed subpoena specifying the attendance of a witness or the production of evidence from any state, territory, or possession of the United States, the District of Columbia, or as otherwise provided by law at any designated place where the hearing is being conducted. The party making the application shall serve a copy of the application and the proposed subpoena on every other party.

(2) A party may apply for a hearing subpoena at any time before the commencement of a hearing. During a hearing, a party may make an application for a subpoena orally on the record before the administrative law judge.
§ 308.36 Evidence.

(a) Admissibility. (1) Except as is otherwise set forth in this section, relevant, material, and evidence that is not unduly repetitive is admissible to the fullest extent authorized
§ 308.37 Post-hearing filings.

(a) Proposed findings and conclusions and supporting briefs. (1) Using the same method of service for each party, the administrative law judge shall serve notice upon each party, that the certified transcript, together with all hearing exhibits and exhibits introduced but not admitted into evidence at the hearing, has been filed. Any party may file with the administrative law judge proposed findings of fact, proposed conclusions of law, and a proposed order within 30 days following service of this notice by the administrative law judge or within such longer time as the administrative law judge may permit subject to the satisfaction of the parties.

(b) Stipulations. The parties may stipulate as to any relevant matters of fact or the authentication of any relevant documents. Such stipulations must be received in evidence at a hearing, and are binding on the parties with respect to the matters therein stipulated.

(c) Depositions of unavailable witnesses. (1) If a witness is unavailable to testify at a hearing, and that witness has testified in a deposition to which all parties in a proceeding had notice and an opportunity to participate, a party may offer as evidence all or any part of the transcript of the deposition, including deposition exhibits, if any.

(2) Such deposition transcript is admissible to the same extent that testimony would have been admissible had that person testified at the hearing, provided that if a witness refused to answer proper questions during the depositions, the administrative law judge may, on that basis, limit the admissibility of the deposition in any manner that justice requires.

(3) Only those portions of a deposition received in evidence at the hearing constitute a part of the record.
Federal Deposit Insurance Corporation

§ 308.39 Exception to recommended decision.

(a) Filing exceptions. Within 30 days after service of the recommended decision, findings, conclusions, and proposed order under §308.38, a party may file with the Executive Secretary written exceptions to the administrative law judge’s recommended decision, findings, conclusions or proposed order, to the admission or exclusion of evidence, or to the failure of the administrative law judge to make a ruling proposed by a party. A supporting brief may be filed at the time the exceptions are filed, either as part of the same document or in a separate document.

(b) Effect of failure to file or raise exceptions. (1) Failure of a party to file exceptions to those matters specified in paragraph (a) of this section within the time prescribed is deemed a waiver of objection thereto.

(2) No exception need be considered by the Board of Directors if the party taking exception had an opportunity to raise the same objection, issue, or argument before the administrative law judge and failed to do so.
§ 308.40 Review by Board of Directors.

(a) Notice of submission to Board of Directors. When the Executive Secretary determines that the record in the proceeding is complete, the Executive Secretary shall serve notice upon the parties that the proceeding has been submitted to the Board of Directors for final decision.

(b) Oral argument before the Board of Directors. Upon the initiative of the Board of Directors or on the written request of any party filed with the Executive Secretary within the time for filing exceptions, the Board of Directors may order and hear oral argument on the recommended findings, conclusions, decision, and order of the administrative law judge. A written request by a party must show good cause for oral argument and state reasons why arguments cannot be presented adequately in writing. A denial of a request for oral argument may be set forth in the Board of Directors’ final decision. Oral argument before the Board of Directors must be on the record.

(c) Final decision. (1) Decisional employees may advise and assist the Board of Directors in the consideration and disposition of the case. The final decision of the Board of Directors will be based upon review of the entire record of the proceeding, except that the Board of Directors may limit the issues to be reviewed to those findings and conclusions to which opposing arguments or exceptions have been filed by the parties.

(2) The Board of Directors shall render a final decision within 90 days after notification of the parties that the case has been submitted for final decision, or 90 days after oral argument, whichever is later, unless the Board of Directors orders that the action or any aspect thereof be remanded to the administrative law judge for further proceedings. Copies of the final decision and order of the Board of Directors shall be served upon each party to the proceeding, upon other persons required by statute, and, if directed by the Board of Directors or required by statute, upon any appropriate state or Federal supervisory authority.

§ 308.41 Stays pending judicial review.

The commencement of proceedings for judicial review of a final decision and order of the FDIC may not, unless specifically ordered by the Board of Directors or a reviewing court, operate as a stay of any order issued by the FDIC. The Board of Directors may, in its discretion, and on such terms as it finds just, stay the effectiveness of all or any part of its order pending a final decision on a petition for review of that order.

Subpart B—General Rules of Procedure

§ 308.101 Scope of Local Rules.

(a) Subparts B and C of the Local Rules prescribe rules of practice and procedure to be followed in the administrative enforcement proceedings initiated by the FDIC as set forth in §308.1 of the Uniform Rules.

(b) Except as otherwise specifically provided, the Uniform Rules and subpart B of the Local Rules shall not apply to subparts D through T of the Local Rules.

(c) Subpart C of the Local Rules shall apply to any administrative proceeding initiated by the FDIC.

(d) Subparts A, B, and C of this part prescribe the rules of practice and procedure to applicable to adjudicatory proceedings as to which hearings on the record are provided for by the assessment of civil money penalties by the FDIC against institutions, institution-affiliated parties, and certain...
Federal Deposit Insurance Corporation

§ 308.102 Authority of Board of Directors and Executive Secretary.

(a) The Board of Directors. (1) The Board of Directors may, at any time during the pendency of a proceeding, perform, direct the performance of, or waive performance of, any act which could be done or ordered by the Executive Secretary.

(2) Nothing contained in this part 308 shall be construed to limit the power of the Board of Directors granted by applicable statutes or regulations.

(b) The Executive Secretary. (1) When no administrative law judge has jurisdiction over a proceeding, the Executive Secretary may act in place of, and with the same authority as, an administrative law judge, except that the Executive Secretary may not hear a case on the merits or make a recommended decision on the merits to the Board of Directors.

(2) Pursuant to authority delegated by the Board of Directors, the Executive Secretary and Assistant Executive Secretary, upon the advice and recommendation of the Deputy General Counsel for Litigation or, in his absence, the Assistant General Counsel, Trial Litigation Section, may issue rulings in proceedings under sections 7(j), 8, 18(j), 19, 32 and 38 of the FDIA (12 U.S.C. 1817(j), 1818, 1828(j), 1829, 1831i and 1831o concerning:

(i) Denials of requests for private hearing;

(ii) Interlocutory appeals;

(iii) Stays pending judicial review;

(iv) Reopenings of the record and/or remands of the record to the ALJ;

(v) Supplementation of the evidence in the record;

(vi) All remands from the courts of appeals not involving substantive issues;

(vii) Extensions of stays of orders terminating deposit insurance; and

(viii) All matters, including final decisions, in proceedings under section 8(g) of the FDIA (12 U.S.C. 1818(g)).

§ 308.103 Appointment of administrative law judge.

(a) Appointment. Unless otherwise directed by the Board of Directors or as otherwise provided in the Local Rules, a hearing within the scope of this part 308 shall be held before an administrative law judge of the Office of Financial Institution Adjudication (“OFIA”).

(b) Procedures. (1) The Executive Secretary shall promptly after issuance of the notice refer the matter to the OFIA which shall secure the appointment of an administrative law judge to hear the proceeding.

(2) OFIA shall advise the parties, in writing, that an administrative law judge has been appointed.

§ 308.104 Filings with the Board of Directors.

(a) General rule. All materials required to be filed with or referred to the Board of Directors in any proceedings under this part 308 shall be filed with the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, DC 20429.

(b) Scope. Filings to be made with the Executive Secretary include pleadings and motions filed during the proceeding; the record filed by the administrative law judge after the issuance of a recommended decision; the recommended decision filed by the administrative law judge following a motion for summary disposition; referrals by the administrative law judge of motions for interlocutory review; motions and responses to motions filed by the parties after the record has been certified to the Board of Directors; exceptions and requests for oral argument; and any other papers required to be filed with the Board of Directors under this part 308.

§ 308.105 Custodian of the record.

The Executive Secretary is the official custodian of the record when no
§ 308.106 Written testimony in lieu of oral hearing.

(a) General rule. (1) At any time more than fifteen days before the hearing is to commence, on the motion of any party or on his or her own motion, the administrative law judge may order that the parties present part or all of their case-in-chief and, if ordered, their rebuttal, in the form of exhibits and written statements sworn to by the witness offering such statements as evidence, provided that if any party objects, the administrative law judge shall not require such a format if that format would violate the objecting party’s right under the Administrative Procedure Act, or other applicable law, or would otherwise unfairly prejudice that party.

(2) Any such order shall provide that each party shall, upon request, have the same right of oral cross-examination (or redirect examination) as would exist had the witness testified orally rather than through a written statement. Such order shall also provide that any party has a right to call any hostile witness or adverse party to testify orally.

(b) Scheduling of submission of written testimony. (1) If written direct testimony and exhibits are ordered under paragraph (a) of this section, the administrative law judge shall require that it be filed within the time period for commencement of the hearing, and the hearing shall be deemed to have commenced on the day such testimony is due.

(2) Absent good cause shown, written rebuttal, if any, shall be submitted and the oral portion of the hearing begun within 30 days of the date set for filing written direct testimony.

(3) The administrative law judge shall direct, unless good cause requires otherwise, that—

(i) All parties shall simultaneously file any exhibits and written direct testimony required under paragraph (b)(1) of this section; and

(ii) All parties shall simultaneously file any exhibits and written rebuttal required under paragraph (b)(2) of this section.

(c) Failure to comply with order to file written testimony. (1) The failure of any party to comply with an order to file written testimony or exhibits at the time and in the manner required under this section shall be deemed a waiver of that party’s right to present any evidence, except testimony of a previously identified adverse party or hostile witness. Failure to file written testimony or exhibits is, however, not a waiver of that party’s right of cross-examination or a waiver of the right to present rebuttal evidence that was not required to be submitted in written form.

(2) Late filings of papers under this section may be allowed and accepted only upon good cause shown.

§ 308.107 Document discovery.

(a) Parties to proceedings set forth at §308.1 of the Uniform Rules and as provided in the Local Rules may obtain discovery only through the production of documents. No other form of discovery shall be allowed.

(b) Any questioning at a deposition of a person producing documents pursuant to a document subpoena shall be strictly limited to the identification of documents produced by that person and a reasonable examination to determine whether the subpoenaed person made an adequate search for, and has produced, all subpoenaed documents.

Subpart C—Rules of Practice Before the FDIC and Standards of Conduct

§ 308.108 Sanctions.

(a) General rule. Appropriate sanctions may be imposed when any counsel or party has acted, or failed to act, in a manner required by applicable statute, regulations, or order, and that act or failure to act:

(1) Constitutes contemptuous conduct;

(2) Has in a material way injured or prejudiced some other party in terms
§ 308.109 Suspension and disbarment.

(a) Discretionary suspension and disbarment. (1) The Board of Directors may suspend or revoke the privilege of any counsel to appear or practice before the FDIC if, after notice of and opportunity for hearing in the matter, that counsel is found by the Board of Directors:

(i) Not to possess the requisite qualifications to represent others;

(ii) To be seriously lacking in character or integrity or to have engaged in material unethical or improper professional conduct;

(iii) To have engaged in, or aided and abetted, a material and knowing violation of the FDIA; or

(iv) To have engaged in contemnuous conduct before the FDIC. Suspension or revocation on the grounds set forth in paragraphs (a)(1) (ii), (iii), and (iv) of this section shall only be ordered upon a further finding that the

(b) Procedure for imposition of sanctions. (1) The administrative law judge, upon the request of any party, or on his or her own motion, may impose sanctions in accordance with this section, provided that the administrative law judge may only recommend to the Board of Directors the sanction of entering a final order determining the case on the merits.

(2) No sanction, other than refusing to accept late papers, authorized by this section shall be imposed without prior notice to all parties and an opportunity for any counsel or party against whom sanctions would be imposed to be heard. Such opportunity to be heard may be on such notice, and the response may be in such form, as the administrative law judge directs. The opportunity to be heard may be limited to an opportunity to respond orally immediately after the act or inaction covered by this section is noted by the administrative law judge.

(3) Requests for the imposition of sanctions by any party, and the imposition of sanctions, shall be treated for interlocutory review purposes in the same manner as any other ruling by the administrative law judge.

(4) Section not exclusive. Nothing in this section shall be read as precluding the administrative law judge or the Board of Directors from taking any other action, or imposing any restriction or sanction, authorized by applicable statute or regulation.
counsel’s conduct or character was sufficiently egregious as to justify suspension or revocation.

(2) Unless otherwise ordered by the Board of Directors, an application for reinstatement by a person suspended or disbarred under paragraph (a)(1) of this section may be made in writing at any time more than three years after the effective date of the suspension or disbarment and, thereafter, at any time more than one year after the person’s most recent application for reinstatement. The suspension or disbarment shall continue until the applicant has been reinstated by the Board of Directors for good cause shown, or until, in the case of a suspension, the suspension period has expired. An applicant for reinstatement under this provision may, in the Board of Directors’ sole discretion, be afforded a hearing.

(b) Mandatory suspension and disbarment. (1) Any counsel who has been and remains suspended or disbarred by a court of the United States or of any state, territory, district, commonwealth, or possession; or any person who has been and remains suspended or barred from practice before the OCC, Board of Governors, the OTS, the NCUA, the Securities and Exchange Commission, or the Commodity Futures Trading Commission; or any person who has been, within the last ten years, convicted of a felony, or of a misdemeanor involving moral turpitude, shall be suspended automatically from appearing or practicing before the FDIC. A disbarment, suspension, or conviction within the meaning of this paragraph (b) shall be deemed to have occurred when the disbarred or suspended person has been convicted or punished in any other jurisdiction, regardless of whether an appeal is pending or could be taken, and includes a judgment or an order on a plea of nolo contendere or on consent, regardless of whether a violation is admitted in the consent.

(2) Any person appearing or practicing before the FDIC who is the subject of an order, judgment, decree, or finding of the types set forth in paragraph (b)(1) of this section shall promptly file with the Executive Secretary a copy thereof, together with any related opinion or statement of the agency or tribunal involved. Any person who fails to so file a copy of the order, judgment, decree, or finding within 30 days after the entry of the order, judgment, decree, or finding or the date such person initiates practice before the FDIC, for that reason alone may be disqualified from practicing before the FDIC until such time as the appropriate filing shall be made. Failure to file any such paper shall not impair the operation of any other provision of this section.

(3) A suspension or disbarment under paragraph (b)(1) of this section from practice before the FDIC shall continue until the applicant has been reinstated by the Board of Directors for good cause shown, provided that any person suspended or disbarred under paragraph (b)(1) of this section shall be automatically reinstated by the Executive Secretary, upon appropriate application, if all the grounds for suspension or disbarment under paragraph (b)(1) of this section are subsequently removed by a reversal of the conviction (or the passage of time since the conviction) or termination of the underlying suspension or disbarment. An application for reinstatement on any other grounds by any person suspended or disbarred under paragraph (b)(1) of this section may be filed no sooner than one year after the suspension or disbarment, and thereafter, a new request for reinstatement may be made no sooner than one year after the counsel’s most recent reinstatement application. The application must comply with the requirements of §303.3 of this chapter. An applicant for reinstatement under this provision may, in the Board of Directors’ sole discretion, be afforded a hearing.

(c) Hearings under this section. Hearings conducted under this section shall be conducted in substantially the same manner as other hearings under the Uniform Rules, provided that in proceedings to terminate an existing FDIC suspension or disbarment order, the person seeking the termination of the order shall bear the burden of going forward with an application and with the burden of proving the grounds supporting the application, and that the Board of Directors may, in its sole discretion, direct that any proceeding to
Federal Deposit Insurance Corporation

§ 308.112

terminate an existing suspension or disbarment by the FDIC be limited to written submissions.

(d) Summary suspension for contumacious conduct. A finding by the administrative law judge of contumacious conduct during the course of any proceeding shall be grounds for summary suspension by the administrative law judge of a counsel or other representative from any further participation in that proceeding for the duration of that proceeding.

(e) Practice defined. Unless the Board of Directors orders otherwise, for the purposes of this section, practicing before the FDIC includes, but is not limited to, transacting any business with the FDIC as counsel or agent for any other person and the preparation of any statement, opinion, or other paper by a counsel, which statement, opinion, or paper is filed with the FDIC in any registration statement, notification, application, report, or other document, with the consent of such counsel.

Subpart D—Rules and Procedures Applicable to Proceedings Relating to Disapproval of Acquisition of Control

§ 308.110 Scope.

Except as specifically indicated in this subpart, the rules and procedures in this subpart, subpart B of the Local Rules, and the Uniform Rules shall apply to proceedings in connection with the disapproval by the Board of Directors or its designee of a proposed acquisition of control of an insured nonmember bank.

§ 308.111 Grounds for disapproval.

The following are grounds for disapproval of a proposed acquisition of control of an insured nonmember bank:

(a) The proposed acquisition of control would result in a monopoly or would be in furtherance of any combination or conspiracy to monopolize or attempt to monopolize the banking business in any part of the United States; (b) The effect of the proposed acquisition of control in any section of the United States may be to substantially lessen competition or to tend to create a monopoly or would in any other manner be in restraint of trade, and the anticompetitive effects of the proposed acquisition of control are not clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served;

(c) Either the financial condition of any acquiring person or the future prospects of the institution might jeopardize the financial stability of the bank or prejudice the interest of the depositors of the bank.

(d) The competence, experience, or integrity of any acquiring person or of any of the proposed management personnel indicates that it would not be in the interest of the depositors of the bank, or in the interest of the public, to permit such person to control the bank;

(e) Any acquiring person neglects, fails, or refuses to furnish to the FDIC all the information required by the FDIC; or

(f) The FDIC determines that the proposed acquisition would result in an adverse effect on the Deposit Insurance Fund.

§ 308.112 Notice of disapproval.

(a) General rule. (1) Within three days of the decision by the Board of Directors or its designee to disapprove a proposed acquisition of control of an insured nonmember bank, a written notice of disapproval shall be mailed by first class mail to, or otherwise served upon, the party seeking acquire control;

(2) The notice of disapproval shall:

(i) Contain a statement of the basis for the disapproval; and

(ii) Indicate that a hearing may be requested by filing a written request with the Executive Secretary within ten days after service of the notice of disapproval; and if a hearing is requested, that an answer to the notice of disapproval, as required by §308.113,
must be filed within 20 days after service of the notice of disapproval.

(b) Waiver of hearing. Failure to request a hearing pursuant to this section shall constitute a waiver of the opportunity for a hearing and the notice of disapproval shall constitute a final and unappealable order.

(c) Section 308.18(b) of the Uniform Rules shall not apply to the content of the Notice of Disapproval.

§ 308.113 Answer to notice of disapproval.

(a) Contents. (1) An answer to the notice of disapproval of a proposed acquisition of control shall be filed within 20 days after service of the notice of disapproval and shall specifically deny those portions of the notice of disapproval which are disputed. Those portions of the notice of disapproval which are not specifically denied are deemed admitted by the applicant.

(2) Any hearing under this subpart shall be limited to those parts of the notice of disapproval that are specifically denied.

(b) Failure to answer. Failure of a respondent to file an answer required by this section within the time provided constitutes a waiver of his or her right to appear and contest the allegations in the notice of disapproval. If no timely answer is filed, Enforcement Counsel may file a motion for entry of an order of default. Upon a finding that no good cause has been shown for the failure to file a timely answer, the administrative law judge shall file a recommended decision containing the findings and relief sought in the notice. A final order issued by the Board of Directors based upon a respondent’s failure to answer is deemed to be an order issued upon consent.

§ 308.114 Burden of proof.

The ultimate burden of proof shall be upon the person proposing to acquire a depository institution. The burden of going forward with a prima facie case shall be upon the FDIC.

Subpart E—Rules and Procedures Applicable to Proceedings Relating to Assessment of Civil Penalties for Willful Violations of the Change in Bank Control Act

§ 308.115 Scope.

The rules and procedures of this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings to assess civil penalties against any person for willful violation of the Change in Bank Control Act of 1978 (12 U.S.C. 1817(j)), or any regulation or order issued pursuant thereto, in connection with the affairs of an insured nonmember bank.

§ 308.116 Assessment of penalties.

(a) In general. The civil money penalty shall be assessed upon the service of a Notice of Assessment which shall become final and unappealable unless the respondent requests a hearing pursuant to §308.19(c)(2).

(b) Amount. (1) Any person who violates any provision of the Change in Bank Control Act or any rule, regulation, or order issued by the FDIC pursuant thereto, shall forfeit and pay a civil money penalty of not more than $5,000 for each day the violation continues.

(2) Any person who violates any provision of the Change in Bank Control Act or any rule, regulation, or order issued by the FDIC pursuant thereto; or recklessly engages in any unsafe or unsound practice in conducting the affairs of a depository institution; or breaches any fiduciary duty; which violation, practice or breach is part of a pattern of misconduct; or causes or is likely to cause more than a minimal loss to such institution; or results in pecuniary gain or other benefit to such person, shall forfeit and pay a civil money penalty of not more than $25,000 for each day such violation, practice or breach continues.

(3) Any person who knowingly violates any provision of the Change in Bank Control Act or any rule, regulation, or order issued by the FDIC pursuant thereto; or engages in any unsafe or unsound practice in conducting the affairs of a depository institution; or
breaches any fiduciary duty; and knowingly or recklessly causes a substantial loss to such institution or a substantial pecuniary gain or other benefit to such institution or a substantial pecuniary gain or other benefit to such person by reason of such violation, practice or breach, shall forfeit and pay a civil money penalty not to exceed:

(i) In the case of a person other than a depository institution—$1,000,000 per day for each day the violation, practice or breach continues; or

(ii) In the case of a depository institution—an amount not to exceed the lesser of $1,000,000 or one percent of the total assets of such institution for each day the violation, practice or breach continues.

(4) * * * * *

(b) * * * * *

(4) Adjustment of civil money penalties by the rate of inflation pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015. After January 15, 2017, for violations that occurred on or after November 2, 2015:

(i) Any person who has engaged in a violation as set forth in paragraph (b)(1) of this section shall forfeit and pay a civil money penalty of not more than $9,623 for each day the violation continued.

(ii) Any person who has engaged in a violation, unsafe or unsound practice or breach of fiduciary duty, as set forth in paragraph (b)(2) of this section, shall forfeit and pay a civil money penalty of not more than $47,340 for each day such violation, practice or breach continued.

(iii) Any person who has knowingly engaged in a violation, unsafe or unsound practice or breach of fiduciary duty, as set forth in paragraph (b)(3) of this section, shall forfeit and pay a civil money penalty of not more than $92,563 for each day such violation, practice or breach continued.

(c) * * * * *

(c) Mitigating factors. In assessing the amount of the penalty, the Board of Directors or its designee shall consider the gravity of the violation, the history of previous violations, respondent’s financial resources, good faith, and any other matters as justice may require.

(d) Failure to answer. Failure of a respondent to file an answer required by this section within the time provided constitutes a waiver of his or her right to appear and contest the allegations in the notice of disapproval. If no timely answer is filed, Enforcement Counsel may file a motion for entry of an order of default. Upon a finding that no good cause has been shown for the failure to file a timely answer, the administrative law judge shall file a recommended decision containing the findings and relief sought in the notice. A final order issued by the Board of Directors based upon a respondent’s failure to answer is deemed to be an order issued upon consent.

§ 308.116 Assessment of penalties.

* * * * *

(b) * * * * *

(4) Adjustment of civil money penalties by the rate of inflation pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015. After January 15, 2017, for violations that occurred on or after November 2, 2015:

(i) Any person who has engaged in a violation as set forth in paragraph (b)(1) of this section shall forfeit and pay a civil money penalty of not more than $9,623 for each day the violation continued.

(ii) Any person who has engaged in a violation, unsafe or unsound practice or breach of fiduciary duty, as set forth in paragraph (b)(2) of this section, shall forfeit and pay a civil money penalty of not more than $47,340 for each day such violation, practice or breach continued.

(iii) Any person who has knowingly engaged in a violation, unsafe or unsound practice or breach of fiduciary duty, as set forth in paragraph (b)(3) of this section, shall forfeit and pay a civil money penalty of not more than $92,563 for each day such violation, practice or breach continued.
§ 308.117 Effective date of, and payment under, an order to pay.

If the respondent both requests a hearing and serves an answer, civil penalties assessed pursuant to this subpart are due and payable 60 days after an order to pay, issued after the hearing or upon default, is served upon the respondent, unless the order provides for a different period of payment. Civil penalties assessed pursuant to an order to pay issued upon consent are due and payable within the time specified therein.

§ 308.118 Collection of penalties.

The FDIC may collect any civil penalty assessed pursuant to this subpart by agreement with the respondent, or the FDIC may bring an action against the respondent to recover the penalty amount in the appropriate United States district court. All penalties collected under this section shall be paid over to the Treasury of the United States.

Subpart F—Rules and Procedures Applicable to Proceedings for Involuntary Termination of Insured Status

§ 308.119 Scope.

(a) Involuntary termination of insurance pursuant to section 8(a) of the FDIA. The rules and procedures in this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings in connection with the involuntary termination of the insured status of an insured bank depository institution or an insured branch of a foreign bank pursuant to section 8(a) of the FDIA (12 U.S.C. 1818(a)), except that the Uniform Rules and subpart B of the Local Rules shall not apply to the temporary suspension of insurance pursuant to section 8(a)(8) of the FDIA (12 U.S.C. 1818(a)(8)).

(b) Involuntary termination of insurance pursuant to section 8(p) of the Act. The rules and procedures in §308.124 of this subpart F shall apply to proceedings in connection with the involuntary termination of the insured status of an insured depository institution or an insured branch of a foreign bank pursuant to section 8(p) of the FDIA (12 U.S.C. 1818(p)). The Uniform Rules shall not apply to proceedings under section 8(p) of the FDIA.

§ 308.120 Grounds for termination of insurance.

(a) General rule. The following are grounds for involuntary termination of insurance pursuant to section 8(a) of the FDIA:

(1) An insured depository institution or its directors or trustees have engaged or are engaging in unsafe or unsound practices in conducting the business of such depository institution;

(2) An insured depository institution is in an unsafe or unsound condition such that it should not continue operations as an insured depository institution; or

(3) An insured depository institution or its directors or trustees have violated an applicable law, rule, regulation, order, condition imposed in writing by the FDIC in connection with the granting of any application or other request by the insured depository institution or have violated any written agreement entered into between the insured depository institution and the FDIC.

(b) Extraterritorial acts of foreign banks. An act or practice committed outside the United States by a foreign bank or its directors or trustees which would otherwise be a ground for termination of insured status under this section shall be a ground for termination if the Board of Directors finds:

(1) The act or practice has been, is, or is likely to be a cause of, or carried on in connection with or in furtherance of, an act or practice committed within any state, territory, or possession of the United States or the District of Columbia that, in and of itself, would be an appropriate basis for action by the FDIC; or

(2) The act or practice committed outside the United States, if proven,
would adversely affect the insurance risk of the FDIC.

(c) Failure of foreign bank to secure removal of personnel. The failure of a foreign bank to comply with any order of removal or prohibition issued by the Board of Directors or the failure of any person associated with a foreign bank to appear promptly as a party to a proceeding pursuant to section 8(e) of the FDIA (12 U.S.C. 1818(e)), shall be a ground for termination of insurance of deposits in any branch of the bank.

§ 308.121 Notification to primary regulator.

(a) Service of notification. (1) Upon a determination by the Board of Directors or its designee pursuant to §308.120 of an unsafe or unsound practice or condition or of a violation, a notification shall be served upon the appropriate Federal banking agency of the insured depository institution, or the State banking supervisor if the FDIC is the appropriate Federal banking agency.

The notification shall be served not less than 30 days before the Notice of Intent to Terminate Insured Status required by section 8(a)(2)(B) of the FDIA (12 U.S.C. 1818(a)(2)(B)), and §308.122, except that this period for notification may be reduced or eliminated with the agreement of the appropriate Federal banking agency.

(2) Appropriate Federal banking agency shall have the meaning given that term in section 3(q) of the FDIA (12 U.S.C. 1813(q)), and shall be the OCC in the case of a national bank, a District bank or an insured Federal branch of a foreign bank; the FDIC in the case of an insured nonmember bank, including an insured State branch of a foreign bank; the Board of Governors in the case of a state member bank; or the OTS in the case of an insured Federal or state savings association.

(3) In the case of a state nonmember bank, insured Federal branch of a foreign bank, or state member bank, in addition to service of the notification upon the appropriate Federal banking agency, a copy of the notification shall be sent to the appropriate State banking supervisor.

(4) In instances in which a Temporary Order Suspending Insurance is issued pursuant to section 8(a)(8) of the FDIA (12 U.S.C. 1818(a)(8)), the notification may be served concurrently with such order.

(b) Contents of notification. The notification shall contain the FDIC’s determination, and the facts and circumstances upon which such determination is based, for the purpose of securing correction of such practice, condition, or violation.

§ 308.122 Notice of intent to terminate.

(a) If, after serving the notification under §308.121, the Board of Directors determines that any unsafe or unsound practices, condition, or violation, specified in the notification, requires the termination of the insured status of the insured depository institution, the Board of Directors or its designee, if it determines to proceed further, shall cause to be served upon the insured depository institution a notice of its intention to terminate insured status not less than 30 days after service of the notification, unless a shorter time period has been agreed upon by the appropriate Federal banking agency.

(b) The Board of Directors or its designee shall cause a copy of the notice to be sent to the appropriate Federal banking agency and to the appropriate state banking supervisor, if any.

§ 308.123 Notice to depositors.

If the Board of Directors enters an order terminating the insured status of an insured depository institution or branch, the insured depository institution shall, on the day that order becomes final, or on such other day as that order prescribes, mail a notification of termination of insured status to each depositor at the depositor’s last address of record on the books of the insured depository institution or branch. The insured depository institution shall also publish the notification in two issues of a local newspaper of general circulation and shall furnish the FDIC with proof of such publications. The notification to depositors shall include information provided in substantially the following form:

Notice

(Date)__________.
§ 308.124 Involuntary termination of insured status for failure to receive deposits.

(a) Notice to show cause. When the Board of Directors or its designee has evidence that an insured depository institution is not engaged in the business of receiving deposits, other than trust funds, the Board of Directors or its designee shall give written notice of this evidence to the depository institution and shall direct the depository institution to show cause why its insured status should not be terminated under the provisions of section 8(p) of the FDIA (12 U.S.C. 1818(p)). The insured depository institution shall have 30 days after receipt of the notice, or such longer period as is prescribed in the notice, to submit affidavits, other written proof, and any legal arguments that it is engaged in the business of receiving deposits other than trust funds.

(b) Notice of termination date. If, upon consideration of the affidavits, other written proof, and legal arguments, the Board of Directors determines that the depository institution is not engaged in the business of receiving deposits, other than trust funds, the finding shall be conclusive and the Board of Directors shall notify the depository institution that its insured status will terminate at the expiration of the first full semiannual assessment period following issuance of that notification.

(c) Notification to depositors of termination of insured status. Within the time specified by the Board of Directors and prior to the date of termination of its insured status, the depository institution shall mail a notification of termination of insured status to each depositor at the depositor’s last address of record on the books of the depository institution. The depository institution shall also publish the notification in two issues of a local newspaper of general circulation and shall furnish the FDIC with proof of such publications. The notification to depositors shall include information provided in substantially the following form:

Notice

Notice

The status of the , as an (insured depository institution) (insured branch) under the Federal Deposit Insurance Act, will terminate on the day of , 19 . and its deposits will thereupon cease to be insured.

(Name of depository institution or branch)

(Address)

§ 308.125 Temporary suspension of deposit insurance.

(a) If, while an action is pending under section 8(a)(2) of the FDIA (12 U.S.C. 1818(a)(2)), the Board of Directors, after consultation with the appropriate Federal banking agency, finds that an insured depository institution (other than a special supervisory association to which § 308.126 of this subpart applies) has no tangible capital under the capital guidelines or regulations of the appropriate Federal banking agency, the Board of Directors may issue a Temporary Order Suspending Deposit Insurance, pending completion of the
Federal Deposit Insurance Corporation

§ 308.127 Scope.

(a) Cease-and-desist proceedings under sections 8 and 50 of the FDIA. The rules and procedures of this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings to order an insured nonmember bank or an institution-affiliated party to cease and desist from practices and violations described in section 8(b) of the

(Name of depository institution or branch)

(Address)

The notification may include any additional information the depository institution deems advisable, provided that the information required by this section shall be set forth in a conspicuous manner on the first page of the notification.

§ 308.126 Special supervisory associations.

If the Board of Directors finds that a savings association is a special supervisory association under the provisions of section 8(a)(8)(B) of the FDIA (12 U.S.C. 1818(a)(8)(B)) for purposes of temporary suspension of insured status, the Board of Directors shall serve upon the association its findings with regard to the determination that the capital of the association, as computed using applicable accounting standards, has suffered a material decline; that such association or its directors or officers, is engaging in an unsafe or unsound practice in conducting the business of the association; that such association is in an unsafe or unsound condition to continue operating as an insured association; or that such association or its directors or officers, has violated any law, rule, regulation, order, condition imposed in writing by any Federal banking agency, or any written agreement, or that the association failed to enter into a capital improvement plan acceptable to the Corporation prior to January, 1990.

Subpart G—Rules and Procedures Applicable to Proceedings Relating to Cease-and-Desist Orders

§ 308.127 Scope.

(a) Cease-and-desist proceedings under sections 8 and 50 of the FDIA. The rules and procedures of this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings to order an insured nonmember bank or an institution-affiliated party to cease and desist from practices and violations described in section 8(b) of the
§ 308.128 Grounds for cease-and-desist orders.

(a) General rule. The Board of Directors or its designee may issue and have served upon any insured nonmember bank or an institution-affiliated party a notice, as set forth in §308.18 of the Uniform Rules for practices and violations as described in §308.127.

(b) Extraterritorial acts of foreign banks. An act, violation or practice committed outside the United States by a foreign bank or an institution-affiliated party that would otherwise be a ground for issuing a cease-and-desist order under paragraph (a) of this section or a temporary cease-and-desist order under §308.131 of this subpart, shall be a ground for an order if the Board of Directors or its designee finds that:

(1) The act, violation or practice has been, is, or is likely to be a cause of, or carried on in connection with or in furtherance of, an act, violation or practice committed within any state, territory, or possession of the United States or the District of Columbia which act, violation or practice, in and of itself, would be an appropriate basis for action by the FDIC; or

(2) The act, violation or practice, if proven, would adversely affect the insurance risk of the FDIC.

§ 308.129 Notice to state supervisory authority.

The Board of Directors or its designee shall give the appropriate state supervisory authority notification of its intent to institute a proceeding pursuant to subpart G of this part, and the grounds thereof. Any proceedings shall be conducted according to subpart G of this part, unless, within the time period specified in such notification, the state supervisory authority has effected satisfactory corrective action. No insured institution or other party who is the subject of any notice or order issued by the FDIC under this section shall have standing to raise the requirements of this subpart as grounds for attacking the validity of any such notice or order.

§ 308.130 Effective date of order and service on bank.

(a) Effective date. A cease-and-desist order issued by the Board of Directors after a hearing, and a cease-and-desist order issued based upon a default, shall become effective at the expiration of 30 days after the service of the order upon the bank or its official. A cease-and-desist order issued upon consent shall become effective at the time specified therein. All cease-and-desist orders shall remain effective and enforceable, except to the extent they are stayed, modified, terminated, or set aside by the Board of Directors or its designee or by a reviewing court.

(b) Service on banks. In cases where the bank is not the respondent, the cease-and-desist order shall also be served upon the bank.

§ 308.131 Temporary cease-and-desist order.

(a) Issuance. (1) When the Board of Directors or its designee determines that the violation, or the unsafe or unsound practice, as specified in the notice, or the continuation thereof, is
likely to cause insolvency or significant dissipation of assets or earnings of the bank, or is likely to weaken the condition of the bank or otherwise prejudice the interests of its depositors prior to the completion of the proceedings under section 8(b) of the FDIA (12 U.S.C. 1818(b)) and § 308.128 of this subpart, the Board of Directors or its designee may issue a temporary order requiring the bank or an institution-affiliated party to immediately cease and desist from any such violation, practice or to take affirmative action to prevent such insolvency, dissipation, condition or prejudice pending completion of the proceedings under section 8(b) of the FDIA (12 U.S.C. 1818(b)).

(2) When the Board of Directors or its designee issues a Notice of charges pursuant to 12 U.S.C. 1818(b)(1) which specifies on the basis of particular facts and circumstances that a bank’s books and records are so incomplete or inaccurate that the FDIC is unable, through the normal supervisory process, to determine the financial condition of the bank or the details or purpose of any transaction or transactions that may have a material effect on the financial condition of the bank, then the Board of Directors or its designee may issue a temporary order requiring:

(i) The cessation of any activity or practice which gave rise, whether in whole or in part, to the incomplete or inaccurate state of the books or records; or

(ii) Affirmative action to restore such books or records to a complete and accurate state, until the completion of the proceedings under section 8(b) of the FDIA (12 U.S.C. 1818(b)).

(3) The temporary order shall be served upon the bank or the institution-affiliated party named therein and shall also be served upon the bank in the case where the temporary order applies only to an institution-affiliated party.

(b) Effective date. A temporary order shall become effective when served upon the bank or the institution-affiliated party. Unless the temporary order is set aside, limited, or suspended by a court in proceedings authorized under section 8(c)(2) of the FDIA (12 U.S.C. 1818(c)(2)), the temporary order shall remain effective and enforceable pending completion of administrative proceedings pursuant to section 8(b) of the FDIA (12 U.S.C. 1818(b)) and entry of an order which has become final, or with respect to paragraph (a)(2) of this section the FDIC determines by examination or otherwise that the bank’s books and records are accurate and reflect the financial condition of the bank.

(c) Uniform Rules do not apply. The Uniform Rules and subpart B of the Local Rules shall not apply to the issuance of temporary orders under this section.

§ 308.132 Assessment of penalties.

(a) Scope. The rules and procedures of this subpart, subpart B of the Local Rules, and the Uniform Rules shall apply to proceedings to assess and collect civil money penalties.

(b) Relevant considerations. In determining the amount of the civil penalty to be assessed, the Board of Directors or its designee shall consider the financial resources and good faith of the institution or official, the gravity of the violation, the history of previous violations, and any such other matters as justice may require.

(c) Amount.

(1) Authority of the Board of Directors. The Board of Directors or its designee may assess civil money penalties pursuant to section 8(i) of the FDIA (12 U.S.C. 1818(i)), and § 308.1(e) of the Uniform Rules (this part).

(2) The Board of Directors or its designee may assess civil money penalties pursuant to section 7(a) of the FDIA (12 U.S.C. 1817(a)) or section 5 of the Home Owners’ Loan Act (12 U.S.C. 1464(v)) as follows:

(i) Late filing—Tier One penalties. In cases in which an institution fails to make or publish its Report of Condition and Income (Call Report) within the appropriate time periods, a civil money penalty of not more than $3,200.
per day may be assessed where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the late filing occurred unintentionally and as a result of such error; or the institution inadvertently transmitted a Call Report which is minimally late. Pursuant to the Debt Collection Improvement Act of 1996, for violations of this paragraph (c)(2)(i) which occur after December 31, 2012, the following maximum Tier One penalty amounts contained in paragraphs (c)(2)(i)(A) and (B) of this section shall apply for each day that the violation continues.

(A) First offense. Generally, in such cases, the amount assessed shall be $330 per day for each of the first 15 days for which the failure continues, and $660 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than $25,000,000 in assets, the amount assessed shall be the greater of $110 per day or 1/1000th of the institution’s total assets (1/10th of a basis point) for each of the first 15 days for which the failure continues, and $220 or 1/500th of the institution’s total assets, 1⁄5 of a basis point) for each subsequent day the failure continues, beginning on the sixteenth day.

(B) Subsequent offense. Where the institution has been delinquent in making or publishing its Call Report in the preceding five quarters, the amount assessed for the most current failure shall generally be $550 per day for each of the first 15 days for which the failure continues, and $1,100 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than $25,000,000 in assets, those amounts, respectively, shall be 1/500th of the bank’s total assets and 1/250th of the institution’s total assets.

(C) Mitigating factors. The amounts set forth in paragraph (c)(2)(i)(A) of this section may be reduced based upon the factors set forth in paragraph (b) of this section.

(D) Lengthy or repeated violations. The amounts set forth in this paragraph (c)(2)(i) will be assessed on a case by case basis where the amount of time of the institution’s delinquency is lengthy or the institution has been delinquent repeatedly in making or publishing its Call Reports.

(E) Waiver. Absent extraordinary circumstances outside the control of the institution, penalties assessed for late filing shall not be waived.

(ii) Late-filing—Tier Two penalties. Where an institution fails to make or publish its Call Report within the appropriate time period, the Board of Directors or its designee may assess a civil money penalty of not more than $32,000 per day for each day the failure continues.

(iii) False or misleading reports or information—(A) Tier One penalties. In cases in which an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $3,200 per day for each day the information is not corrected, where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the violation occurred unintentionally and as a result of such error; or the institution inadvertently transmits a Call Report or information which is false or misleading.

(B) Tier Two penalties. Where an institution submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than $32,000 per day for each day the information is not corrected.

(C) Tier Three penalties. Where an institution knowingly or with reckless disregard for the accuracy of any Call Report or information submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than the lesser of $1,425,000 or 1 percent of the institution’s total assets per day for each day the information is not corrected.

(D) Mitigating factors. The amounts set forth in this paragraph (c)(2) may be reduced based upon the factors set forth in paragraph (b) of this section.

(3) Adjustment of civil money penalties by the rate of inflation pursuant to section 31001(s) of the Debt Collection Improvement Act. Pursuant to section
civil money penalties may be assessed pursuant to section 7(c)(4)(A) of the FDIA (12 U.S.C. 1817(c)(4)(A)) or section 5(v)(4) (12 U.S.C. 1464(v)(4) in an amount not to exceed $3,200 for each day during which the failure to file continues or the false or misleading information is not corrected. Tier Two civil money penalties may be assessed pursuant to section 7(c)(4)(B) of the FDIA (12 U.S.C. 1817(c)(4)(B)) in an amount not to exceed $32,000 for each day during which the failure to file continues or the false or misleading information is not corrected. Tier Three civil money penalties may be assessed pursuant to section 7(c)(4)(C) in an amount not to exceed the lesser of $1,425,000 or 1 percent of the total assets of the institution for each day during which the failure to file continues or the false or misleading information is not corrected.

(iii) Civil money penalties assessed pursuant to section 10(e)(4) of the FDIA for refusal to allow examination or to provide required information during an examination. Pursuant to section 10(e)(4) of the FDIA (12 U.S.C. 1820(e)(4)), civil money penalties may be assessed against any affiliate of an insured depository institution which refuses to permit a duly-appointed examiner to conduct an examination or to provide information during the course of an examination as set forth in section 20(b) of the FDIA (12 U.S.C. 1820(b)), in an amount not to exceed $7,500 for each day the refusal continues.

(iv) Civil money penalties assessed pursuant to section 18(a)(3) of the FDIA, for incorrect display of insurance logo. Pursuant to section 18(a)(3) of the FDIA (12 U.S.C. 1828(a)(3)), civil money penalties may be assessed against an insured depository institution which fails to correctly display its insurance logo pursuant to that section, in an amount not to exceed $110 for each day the violation continues.

(v) Civil money penalties assessed pursuant to section 18(h) of the FDI Act for failure to timely pay assessment. (A) In General. Subject to paragraph (c)(3)(v)(C) of this section, any insured depository institution which fails or refuses to pay any assessment shall be subject to a penalty in an amount of not more than 1 percent of the amount
of the assessment due for each day that such violation continues.

(B) Exception in case of dispute. Paragraph (c)(3)(v)(A) of this section shall not apply if—

(1) The failure to pay an assessment is due to a dispute between the insured depository institution and the Corporation over the amount of such assessment; and

(2) The insured depository institution deposits security satisfactory to the Corporation for payment upon final determination of the issue.

(C) Special rule for small assessment amounts. If the amount of the assessment which an insured depository institution fails or refuses to pay is less than $10,000 at the time of such failure or refusal, the amount of any penalty to which such institution is subject under paragraph (c)(3)(v)(A) of this section shall not exceed $100 for each day that such violation continues.

(D) Authority to modify or remit penalty. The Corporation, in the sole discretion of the Corporation, may compromise, modify or remit any penalty which the Corporation may assess or has already assessed under paragraph (c)(3)(v)(A) of this section upon a finding that good cause prevented the timely payment of an assessment.

(vi) Civil money penalties assessed pursuant to section 19b(j) of the FDIA for recordkeeping violations. Pursuant to section 19b(j) of the FDIA (12 U.S.C. 1829b(j)), civil money penalties may be assessed against an insured depository institution and any director, officer or employee thereof who willfully or through gross negligence violates or causes a violation of the recordkeeping requirements of that section or its implementing regulations in an amount not to exceed $16,000 per violation.

(vii) Civil fine pursuant to 12 U.S.C. 1832(c) for violation of provisions forbidding interest-bearing demand deposit accounts. Pursuant to 12 U.S.C. 1832(c), any depository institution which violates the prohibition on deposit or withdrawal from interest-bearing accounts via negotiable or transferable instruments payable to third parties shall be subject to a fine of $1,100 per violation.

(viii) Civil penalties for violations of security measure requirements under 12 U.S.C. 1884. Pursuant to 12 U.S.C. 1884, an institution which violates a rule establishing minimum security requirements as set forth in 12 U.S.C. 1882, shall be subject to a civil penalty not to exceed $110 for each day of the violation.

(ix) Civil money penalties assessed pursuant to the Bank Holding Company Act of 1970 for prohibited tying arrangements. Pursuant to the Bank Holding Company Act of 1970, Tier One civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(i) in an amount not to exceed $7,500 for each day during which the violation continues. Tier Two civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(ii) in an amount not to exceed $37,500 for each day during which the violation, practice or breach continues. Tier Three civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(iii) in an amount not to exceed, in the case of any person other than an insured depository institution, $1,375,000 for each day during which the violation continues. Tier Three civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(iii) in an amount not to exceed, in the case of any person other than an insured depository institution, $1,375,000 for each day during which the violation, practice, or breach continues or, in the case of any insured depository institution, an amount not to exceed the lesser of $1,425,000 or 1 percent of the total assets of such institution for each day during which the violation, practice, or breach continues.

(x) Civil money penalties assessed, pursuant to the International Banking Act of 1978. Pursuant to the International Banking Act of 1978 (IBA) (12 U.S.C. 3108(b)), civil money penalties may be assessed for failure to comply with the requirements of the IBA pursuant to section 8(i)(2) of the FDIA (12 U.S.C. 1818(i)(2)), in the amounts set forth in paragraph (c)(3)(i) of this section.

(xi) Civil money penalties assessed for appraisal violations. Pursuant to 12 U.S.C. 3349(b), where a financial institution seeks, obtains, or gives any other thing of value in exchange for the performance of an appraisal by a person that the institution knows is not a state certified or licensed appraiser in connection with a federally related transaction, a civil money penalty may be assessed pursuant to section 8(i)(2) of the FDIA (12 U.S.C. 1818(i)(2)) in the amounts set forth in paragraph (c)(3)(i) of this section.
(xii) Civil money penalties assessed pursuant to International Lending Supervision Act. Pursuant to the International Lending Supervision Act (ILSA) (12 U.S.C. 3909(d)), the CMP that may be assessed against any institution or any officer, director, employee, agent or other person participating in the conduct of the affairs of such institution is an amount not to exceed $1,100 for each day a violation of the ILSA or any rule, regulation or order issued pursuant to ILSA continues.

(xiii) Civil money penalties assessed for violations of the Community Development Banking and Financial Institution Act. Pursuant to the Community Development Banking and Financial Institution Act (Community Development Banking Act) (12 U.S.C. 4717(b)) a civil money penalty may be assessed for violations of the Community Development Banking Act pursuant to section 8(i)(2) of the FDIA (12 U.S.C. 1818(i)(2)), in the amount set forth in paragraph (c)(3)(i) of this section.

(xiv) Civil money penalties assessed for violations of the Securities Exchange Act of 1934. Pursuant to section 21B of the Securities Exchange Act of 1934 (Exchange Act) (15 U.S.C. 78u–2), civil money penalties may be assessed for violations of certain provisions of the Exchange Act, where such penalties are in the public interest. Tier One civil money penalties may be assessed pursuant to 15 U.S.C. 78u–2(b)(1) in an amount not to exceed $7,500 for a natural person or $70,000 for any other person for violations set forth in 15 U.S.C. 78u–2(a). Tier Two civil money penalties may be assessed pursuant to 15 U.S.C. 78u–2(b)(2) in an amount not to exceed—per each violation set forth in 15 U.S.C. 78u–2(a)—$70,000 for a natural person or $350,000 for any other person if the act or omission involved fraud, deceit, manipulation, or deliberate or reckless disregard of a regulatory requirement. Tier Three civil money penalties may be assessed pursuant to 15 U.S.C. 78u–2(b)(3) for each violation set forth in 15 U.S.C. 78u–2(a), in an amount not to exceed $140,000 for a natural person or $700,000 for any other person, if the act or omission involved fraud, deceit, manipulation, or deliberate or reckless disregard of a regulatory requirement; and such act or omission directly or indirectly resulted in substantial losses, or created a significant risk of substantial losses to other persons or resulted in substantial pecuniary gain to the person who committed the act or omission.

(xv) Civil money penalties assessed for false claims and statements pursuant to the Program Fraud Civil Remedies Act. Pursuant to the Program Fraud Civil Remedies Act (31 U.S.C. 3802), civil money penalties of not more than $7,500 per claim or statement may be assessed for violations involving false claims and statements.

(xvi) Civil money penalties assessed for violations of the Flood Disaster Protection Act. Pursuant to the Flood Disaster Protection Act (FDPA) (42 U.S.C. 4012a(f)), as of July 1, 2012, civil money penalties may be assessed against any regulated lending institution that engages in a pattern or practice of violations of the FDPA in an amount not to exceed $2,000 per violation.

(d) Maximum civil money penalty amounts. Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, on or after August 1, 2016, the Board of Directors or its designee may assess civil money penalties in the maximum amounts as follows:

(1) Civil money penalties assessed pursuant to 12 U.S.C. 1464(v) for late filing or the submission of false or misleading certified statements by State savings associations. Pursuant to section 5(v) of the Home Owners’ Loan Act (12 U.S.C.
§ 308.132  

12 CFR Ch. III (1–1–17 Edition)  

1464(v)), the Board of Directors or its designee may assess civil money penalties as follows:

(i) Late filing—Tier One penalties. In cases in which an institution fails to make or publish its Report of Condition and Income (Call Report) within the appropriate time periods, a civil money penalty of not more than $3,787 per day may be assessed where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the late filing occurred unintentionally and as a result of such error; or the institution inadvertently transmitted a Call Report that is minimally late. For penalties assessed on or after August 1, 2016, for violations of this paragraph (d)(1)(i), the following maximum Tier One penalty amounts contained in paragraphs (d)(1)(i)(A) and (B) of this section shall apply for each day that the violation continues.

(A) First offense. Generally, in such cases, the amount assessed shall be $519 per day for each of the first 15 days for which the failure continues, and $1,039 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than $25,000,000 in assets, the amount assessed shall be the greater of $173 per day or 1/1000th of the institution’s total assets (1/10th of a basis point) for each of the first 15 days for which the failure continues, and $346 or 1/500th of the institution’s total assets, 1/5 of a basis point) for each subsequent day the failure continues, beginning on the sixteenth day.

(B) Subsequent offense. Where the institution has been delinquent in making or publishing its Call Report within the preceding five quarters, the amount assessed shall generally be $965 per day for each of the first 15 days for which the failure continues, and $1,731 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than $25,000,000 in assets, those amounts, respectively, shall be 1/500th of the bank’s total assets and 1/250th of the institution’s total assets.

(C) Lengthy or repeated violations. The amounts set forth in this paragraph (d)(1)(i) will be assessed on a case by case basis where the amount of time of the institution’s delinquency is lengthy or the institution has been delinquent repeatedly in making or publishing its Call Reports.

(D) Waiver. Absent extraordinary circumstances outside the control of the institution, penalties assessed for late filing shall not be waived.

(ii) Late-filing—Tier Two penalties. Where an institution fails to make or publish its Call Report within the appropriate time period, the Board of Directors or its designee may assess a civil money penalty of not more than $37,872 per day for each day the failure continues.

(iii) False or misleading reports or information—(A) Tier One penalties. In cases in which an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $3,787 per day for each day the information is not corrected, where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the violation occurred unintentionally and as a result of such error; or the institution inadvertently transmits a Call Report or information that is false or misleading.

(B) Tier Two penalties. Where an institution submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than $37,872 per day for each day the information is not corrected.

(C) Tier Three penalties. Where an institution knowingly or with reckless disregard for the accuracy of any Call Report or information submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than the lesser of $1,893,610 or 1 percent of the institution’s total assets per day for each day the information is not corrected.

(iv) Mitigating factors. The amounts set forth in this paragraph (d)(1) may be reduced based upon the factors set forth in paragraph (b) of this section.
an affiliate of a State savings association to allow examination or to provide required information during an examination. Pursuant to section 9(d) of the Home Owners’ Loan Act (12 U.S.C. 1467(d)), civil money penalties may be assessed against any State savings association if an affiliate of such an institution refuses to permit a duly-appointed examiner to conduct an examination or refuses to provide information during the course of an examination as set forth 12 U.S.C. 1467(d), in an amount not to exceed $9,486 for each day the refusal continues.

(3) Civil money penalties assessed pursuant to 12 U.S.C. 1817(a) for late filings or the submission of false or misleading reports of condition. Pursuant to section 7(a) of the FDIA (12 U.S.C. 1817(a)), the Board of Directors or its designee may assess civil money penalties as follows:

(i) Late filing—Tier One penalties. In cases in which an institution fails to make or publish its Report of Condition and Income (Call Report) within the appropriate time periods, a civil money penalty of not more than $3,787 per day may be assessed where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the late filing occurred unintentionally and as a result of such error; or the institution inadvertently transmitted a Call Report that is minimally late. For penalties assessed on or after August 1, 2016, for violations of this paragraph (d)(3)(i), the following maximum Tier One penalty amounts contained in paragraphs (d)(3)(i)(A) and (B) of this section shall apply for each day that the violation continues.

(A) First offense. Generally, in such cases, the amount assessed shall be $519 per day for each of the first 15 days for which the failure continues, and $1,039 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than $25,000,000 in assets, those amounts, respectively, shall be 1/500th of the bank’s total assets and 1/250th of the institution’s total assets.

(B) Subsequent offense. Where the institution has been delinquent in making or publishing its Call Report within the preceding five quarters, the amount assessed for the most current failure shall generally be $965 per day for each of the first 15 days for which the failure continues, and $1,731 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than $25,000,000 in assets, those amounts, respectively, shall be 1/500th of the bank’s total assets and 1/250th of the institution’s total assets.

(C) Lengthy or repeated violations. The amounts set forth in this paragraph (d)(3)(i) will be assessed on a case by case basis where the amount of time of the institution’s delinquency is lengthy or the institution has been delinquent repeatedly in making or publishing its Call Reports.

(D) Waiver. Absent extraordinary circumstances outside the control of the institution, penalties assessed for late filing shall not be waived.

(ii) Late-filing—Tier Two penalties. Where an institution fails to make or publish its Call Report within the appropriate time period, the Board of Directors or its designee may assess a civil money penalty of not more than $34,620 per day for each day the failure continues.

(iii) False or misleading reports or information—(A) Tier One penalties. In cases in which an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $3,787 per day for each day the information is not corrected, where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the violation occurred unintentionally and as a result of such error; or the institution inadvertently transmits a Call Report or information that is false or misleading.

(B) Tier Two penalties. Where an institution submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than $37,872 per day.
§ 308.132

for each day the information is not corrected.

(C) Tier Three penalties. Where an institution knowingly or with reckless disregard for the accuracy of any Call Report or information submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than the lesser of $1,893,610 or 1 percent of the institution’s total assets per day for each day the information is not corrected.

(iv) Mitigating factors. The amounts set forth in this paragraph (d)(3) may be reduced based upon the factors set forth in paragraph (b) of this section.

(4) Civil money penalties assessed pursuant to 12 U.S.C. 1817(c) for late filing or the submission of false or misleading certified statements. Tier One civil money penalties may be assessed pursuant to section 7(c)(4)(A) of the FDIA (12 U.S.C. 1817(c)(4)(A)) in an amount not to exceed $3,462 for each day during which the failure to file continues or the false or misleading information is not corrected. Tier Two civil money penalties may be assessed pursuant to section 7(c)(4)(B) of the FDIA (12 U.S.C. 1817(c)(4)(B)) in an amount not to exceed $34,620 for each day during which the failure to file continues or the false or misleading information is not corrected. Tier Three civil money penalties may be assessed pursuant to section 7(c)(4)(C) in an amount not to exceed the lesser of $1,730,990 or 1 percent of the total assets of the institution for each day during which the failure to file continues or the false or misleading information is not corrected.

(i) Pursuant to 7(j)(16) of the FDIA (12 U.S.C. 1817(j)(16)), a civil money penalty may be assessed for violations of change in control of insured depository institution provisions pursuant to section 8(i)(2) of the FDIA (12 U.S.C. 1818(i)(2)) in the amounts set forth in paragraph (d)(5) of this section.

(ii) Pursuant to the International Banking Act of 1978 (IBA) (12 U.S.C. 3108(b)), civil money penalties may be assessed for failure to comply with the requirements of the IBA pursuant to section 8(i)(2) of the FDIA (12 U.S.C. 1818(i)(2)), in the amounts set forth in paragraph (d)(5).

(iii) Pursuant to section 1120(b) of the Financial Institutions Recovery, Reform, and Enforcement Act of 1989 (FIRREA) (12 U.S.C. 3349(b)), where a financial institution seeks, obtains, or gives any other thing of value in exchange for the performance of an appraisal by a person that the institution knows is not a state certified or licensed appraiser in connection with a federally related transaction, a civil money penalty may be assessed pursuant to section 8(i)(2) of the FDIA (12 U.S.C. 1818(i)(2)) in the amounts set forth in paragraph (d)(5) of this section.

(iv) Pursuant to the Community Development Banking and Financial Institution Act (Community Development Banking Act) (12 U.S.C. 4717(b)) a civil money penalty may be assessed for violations of the Community Development Banking Act pursuant to section 8(i)(2) of the FDIA (12 U.S.C. 1818(i)(2)), in the amounts set forth in paragraph (d)(5) of this section.

(v) Civil money penalties may be assessed pursuant to section 8(i)(2) of the FDIA in the amounts set forth in this paragraph (d)(5) for violations of various consumer laws, including, but not limited to, the Home Mortgage Disclosure Act (12 U.S.C. 2804 et seq. and 12 CFR 203.6), the Expedited Funds Availability Act (12 U.S.C. 4001 et seq.), the
(6) Civil money penalties assessed pursuant to 12 U.S.C. 1820(e) for refusal to allow examination or to provide required information during an examination. Pursuant to section 10(e)(4) of the FDIA (12 U.S.C. 1820(e)(4)), civil money penalties may be assessed against any affiliate of an insured depository institution that refuses to permit a duly-appointed examiner to conduct an examination or to provide information during the course of an examination as set forth in section 20(b) of the FDIA (12 U.S.C. 1820(b)), in an amount not to exceed $8,655 for each day the refusal continues.

(7) Civil money penalties assessed pursuant to 12 U.S.C. 1820(k) for violation of one-year restriction on Federal examiners of financial institutions. Pursuant to section 10(k) of the FDIA (12 U.S.C. 1820(k)), the Board of Directors or its designee may assess a civil money penalty of up to $311,470 against any covered former Federal examiner of a financial institution who, in violation of section 10(k) of the FDIA (12 U.S.C. 1820(k)) and within the one-year period following termination of government service as an employee, serves as an officer, director, or consultant of a financial or depository institution, a holding company, or of any other entity listed in section 10(k) of the FDIA (12 U.S.C. 1820(k)), without the written waiver or permission by the appropriate Federal banking agency or authority under section 10(k)(5) of the FDIA (12 U.S.C. 1820(k)(5)).

(8) Civil money penalties assessed pursuant to 12 U.S.C. 1828(h) for failure to timely pay assessment. In general. Subject to paragraph (d)(9)(iii) of this section, any insured depository institution that fails or refuses to pay any assessment shall be subject to a penalty in an amount of not more than 1 percent of the amount of the assessment due for each day that such violation continues.

(ii) Exception in case of dispute. Paragraph (d)(9)(i) of this section shall not apply if—

(A) The failure to pay an assessment is due to a dispute between the insured depository institution and the Corporation over the amount of such assessment; and

(B) The insured depository institution deposits security satisfactory to the Corporation for payment upon final determination of the issue.

(iii) Special rule for small assessment amounts. If the amount of the assessment that an insured depository institution fails or refuses to pay is less than $10,000 at the time of such failure or refusal, the amount of any penalty to which such institution is subject under paragraph (d)(9)(i) of this section shall not exceed $118 for each day that such violation continues.

(iv) Authority to modify or remit penalty. The Corporation, in the sole discretion of the Corporation, may compromise, modify, or remit any penalty that the Corporation may assess or has already assessed under paragraph (d)(9)(i) of this section upon a finding that good cause prevented the timely payment of an assessment.

(9) Civil money penalties assessed pursuant to 12 U.S.C. 1829b(h) for failure to timely pay assessment.

(i) In general. Subject to paragraph (d)(9)(iii) of this section, any insured depository institution that fails or refuses to pay any assessment shall be subject to a penalty in an amount of not more than 1 percent of the amount of the assessment due for each day that such violation continues.

(ii) Exception in case of dispute. Paragraph (d)(9)(i) of this section shall not apply if—

(A) The failure to pay an assessment is due to a dispute between the insured depository institution and the Corporation over the amount of such assessment; and

(B) The insured depository institution deposits security satisfactory to the Corporation for payment upon final determination of the issue.

(iii) Special rule for small assessment amounts. If the amount of the assessment that an insured depository institution fails or refuses to pay is less than $10,000 at the time of such failure or refusal, the amount of any penalty to which such institution is subject under paragraph (d)(9)(i) of this section shall not exceed $118 for each day that such violation continues.

(iv) Authority to modify or remit penalty. The Corporation, in the sole discretion of the Corporation, may compromise, modify, or remit any penalty that the Corporation may assess or has already assessed under paragraph (d)(9)(i) of this section upon a finding that good cause prevented the timely payment of an assessment.
§ 308.132

(11) Civil money penalties pursuant to 12 U.S.C. 1832(c) for violation of provisions regarding interest-bearing demand deposit accounts. Pursuant to 12 U.S.C. 1832(c), any depository institution that violates the prohibition regarding interest-bearing demand deposit accounts shall be subject to a fine of $2,750 per violation.

(12) Civil penalties for violations of security measure requirements under 12 U.S.C. 1884. Pursuant to 12 U.S.C. 1884, an institution that violates a rule establishing minimum security requirements as set forth in 12 U.S.C. 1882, shall be subject to a civil penalty not to exceed $275 for each day of the violation.

(13) Civil money penalties assessed pursuant to 12 U.S.C. 1972(2)(F) for prohibited tying arrangements. Pursuant to the Bank Holding Company Act of 1970, Tier One civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(i) in an amount not to exceed $9,468 for each day during which the violation continues. Tier Two civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(ii) in an amount not to exceed $47,340 for each day during which the violation, practice or breach continues. Tier Three civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(iii) in an amount not to exceed $189,360 for each day during which the violation, practice, or breach continues, in the case of any insured depository institution, or $1,893,610 for each day during which the violation continues, in the case of any person other than an insured depository institution.

(14) Civil money penalties assessed pursuant to 12 U.S.C. 3909(d). Pursuant to the International Lending Supervision Act (ILSA) (12 U.S.C. 3909(d)), civil money penalties may be assessed against any institution or any officer, director, employee, agent or other person participating in the conduct of the affairs of such institution in an amount not to exceed $2,355 for each day a violation of the ILSA or any rule, regulation or order issued pursuant to ILSA continues.

(15) Civil money penalties assessed for violations of 15 U.S.C. 78u–2. Pursuant to section 21B of the Securities Exchange Act of 1934 (Exchange Act) (15 U.S.C. 78u–2), civil money penalties may be assessed for violations of certain provisions of the Exchange Act, where such penalties are in the public interest. Tier One civil money penalties may be assessed pursuant to 15 U.S.C. 78u–2(b)(1) in an amount not to exceed $5,908 for a natural person or $59,078 for any other person for violations set forth in 15 U.S.C. 78u–2(a). Tier Two civil money penalties may be assessed pursuant to 15 U.S.C. 78u–2(b)(2) in an amount not to exceed—for each violation set forth in 15 U.S.C. 78u–2(a)—$89,078 for a natural person or $445,390 for any other person if the act or omission involved fraud, deceit, manipulation, or deliberate or reckless disregard of a regulatory requirement. Tier Three civil money penalties may be assessed pursuant to 15 U.S.C. 78u–2(b)(3) for each violation set forth in 15 U.S.C. 78u–2(a), in an amount not to exceed $178,156 for a natural person or $890,780 for any other person, if the act or omission involved fraud, deceit, manipulation, or deliberate or reckless disregard of a regulatory requirement; and such act or omission directly or indirectly resulted in substantial losses, or created a significant risk of substantial losses to other persons or resulted in substantial pecuniary gain to the person who committed the act or omission.

(16) Civil money penalties assessed pursuant to 15 U.S.C. 1639e(k) for appraisal independence violations. Pursuant to section 1472(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Appraisal Independence Rule) (15 U.S.C. 1639e(k)), civil money penalties may be assessed for an initial violation of the Appraisal Independence Rule in an amount not to exceed $10,875 for each day during which the violation continues and, for subsequent violations, $21,749 for each day during which the violation continues. Pursuant to section 1472(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Appraisal Independence Rule) (15 U.S.C. 1639e(k)), civil money penalties may be assessed for false claims and statements pursuant to 31 U.S.C. 3702. Pursuant to the Program Fraud Civil Remedies Act (31 U.S.C. 3702), civil money penalties of not more than $10,781 per claim or statement.
may be assessed for violations involving false claims and statements.

(18) Civil money penalties assessed for violations of 42 U.S.C. 4012a(f). Pursuant to the Flood Disaster Protection Act (FDPA) (42 U.S.C. 4012a(f)), civil money penalties may be assessed against any regulated lending institution that engages in a pattern or practice of violations of the FDPA in an amount not to exceed $2,056 per violation.

[77 FR 75477, Dec. 17, 2012, as amended at 81 FR 42239, June 29, 2016]

EFFECTIVE DATE NOTE: At 81 FR 95416, Dec. 29, 2016, §308.132 was amended by revising paragraphs (c) and (d), effective Jan. 15, 2017. For the convenience of the user, the revised text is set forth as follows:

§ 308.132 Assessment of penalties.

* * * * *

(c) Authority of the Board of Directors. The Board of Directors or its designee may assess civil money penalties under section 8(i) of the FDIA (12 U.S.C. 1818(i)), and §308.1(e) of the Uniform Rules (this part).

(d) Maximum civil money penalty amounts. Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015, after January 15, 2017, for violations that occurred on or after November 2, 2015, the Board of Directors or its designee may assess civil money penalties in the maximum amounts as follows:

(i) Civil money penalties assessed pursuant to 12 U.S.C. 1464(c) for late filing or the submission of false or misleading certified statements by State savings associations. Pursuant to section 9(v) of the Home Owners' Loan Act (12 U.S.C. 1464(v)), the Board of Directors or its designee may assess civil money penalties as follows:

(1) Late filing—Tier Two penalties. Where an institution fails to make or publish its Call Report within the preceding five quarters, the amount assessed for the most current failure shall generally be $879 per day for each of the first 15 days for which the failure continues, and $1,759 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than $25,000,000 in assets, those amounts, respectively, shall be 1/500th of the bank’s total assets and 1/250th of the institution’s total assets.

(ii) Late filing—Tier Three penalties. Where an institution fails to make or publish its Call Report within the appropriate time period, the Board of Directors or its designee may assess a civil money penalty of not more than $3,849 per day for each day the information is not corrected, where the institution has been delinquent repeatedly in making or publishing its Call Reports.

(ii) Waiver. Absent extraordinary circumstances outside the control of the institution, penalties assessed for late filing shall not be waived.

(ii) Late filing—Tier One penalties. In cases in which an institution fails to make or publish its Report of Condition and Income (Call Report) within the appropriate time periods, a civil money penalty of not more than $3,849 per day may be assessed where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the late filing occurred unintentionally and as a result of such error; or the institution inadvertently transmitted a Call Report that is minimally late. For penalties assessed after January 15, 2017, for violations of this paragraph (d)(3)(ii) that occurred on or after November 2, 2015, the following maximum Tier One penalty amounts contained in paragraphs (d)(3)(i)(A) and (B) of this section shall apply for each day that the violation continues.

(A) First offense. Generally, in such cases, the amount assessed shall be $527 per day for each of the first 15 days for which the failure continues, and $1,056 per day for each subsequent day the failure continues, beginning on the sixteenth day.

(B) Subsequent offense. Where the institution has been delinquent in making or publishing its Call Report within the preceding five quarters, the amount assessed for the most current failure shall generally be $879 per day for each of the first 15 days for which the failure continues, and $1,759 per day for each subsequent day the failure continues, beginning on the sixteenth day. For institutions with less than $25,000,000 in assets, those amounts, respectively, shall be 1/500th of the bank’s total assets and 1/250th of the institution’s total assets.

(C) Lengthy or repeated violations. The amounts set forth in this paragraph (d)(3)(i) will be assessed on a case by case basis where the amount of time of the institution’s delinquency is lengthy or the institution has been delinquent repeatedly in making or publishing its Call Reports.

(D) Waiver. Absent extraordinary circumstances outside the control of the institution, penalties assessed for late filing shall not be waived.

(iii) False or misleading reports or information—(A) Tier One penalties. In cases in which an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $3,849 per day for each day the information is not corrected, where the institution maintains procedures in place reasonably adapted to avoid inadvertent error and the violation occurred unintentionally and as a result of such error; or the institution inadvertently transmits a Call Report or information that is false or misleading.

(iii) False or misleading reports or information—(B) Tier Two penalties. Where an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $3,849 per day for each day the information is not corrected.

(iii) False or misleading reports or information—(C) Tier Three penalties. Where an institution knowingly or with reckless disregard for
§ 308.132, Nt.

12 CFR Ch. III (1–1–17 Edition)

the accuracy of any Call Report or information submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than the lesser of $1,924,589 or 1 percent of the institution’s total assets per day for each day the information is not corrected.

(iv) Mitigating factors. The amounts set forth in this paragraph (d)(1) may be reduced based upon the factors set forth in paragraph (b) of this section.

(D) Civil money penalties assessed pursuant to 12 U.S.C. 1467(d) for refusal by an affiliate of a State savings association to allow examination or to provide required information during an examination. Pursuant to section 9(d) of the Home Owners’ Loan Act (12 U.S.C. 1467(d)), civil money penalties may be assessed against any State savings association if an affiliate of such institution refuses to permit a duly-appointed examiner to conduct an examination or refuses to provide information during the course of an examination as set forth 12 U.S.C. 1467(d), in an amount not to exceed $9,623 for each day the refusal continues.

(ii) Late-filing—Tier Two penalties. Where an institution fails to make or publish its Call Report within the appropriate time period, the Board of Directors or its designee may assess a civil money penalty of not more than $38,492 per day for each day the failure continues.

(ii) False or misleading reports or information—(A) Tier One penalties. In cases in which an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $3,849 per day for each day the information is not corrected, for refusals to allow examination or to provide required information during an examination, and for false or misleading reports of condition.

(ii) False or misleading reports or information—(A) Tier One penalties. In cases in which an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $3,849 per day for each day the information is not corrected, for refusals to allow examination or to provide required information during an examination, and for false or misleading reports of condition.

(iii) False or misleading reports or information—(A) Tier One penalties. In cases in which an institution submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $3,849 per day for each day the information is not corrected, for refusals to allow examination or to provide required information during an examination, and for false or misleading reports of condition.
based upon the factors set forth in paragraph (b) of this section.

(4) Civil money penalties assessed pursuant to 12 U.S.C. 1817(c) for late filing or the submission of untrue or misleading statements. Tier One civil money penalties may be assessed pursuant to section 7(c)(4)(A) of the FDIA (12 U.S.C. 1817(c)(4)(A)) in an amount not to exceed $1,759,309 or 1 percent of the total assets of the institution for each day during which the failure to file or the false or misleading information is not corrected. Tier Two civil money penalties may be assessed pursuant to section 7(c)(4)(B) of the FDIA (12 U.S.C. 1817(c)(4)(B)) in an amount not to exceed $9,623 for each day during which the failure to file continues or the false or misleading information is not corrected. Tier Three civil money penalties may be assessed pursuant to section 7(c)(4)(C) in an amount not to exceed the lesser of $1,759,309 or 1 percent of the total assets of the institution for each day during which the failure to file continues or the false or misleading information is not corrected.

(5) Civil money penalties assessed pursuant to section 8(i)(2) of the FDIA. Tier One civil money penalties may be assessed pursuant to section 8(i)(2)(A) of the FDIA (12 U.S.C. 1818(i)(2)(A)) in an amount not to exceed $9,623 for each day during which the violation continues. Tier Two civil money penalties may be assessed pursuant to section 8(i)(2)(B) of the FDIA (12 U.S.C. 1818(i)(2)(B)) in an amount not to exceed $48,114 for each day during which the violation or practice or breach continues. Tier Three civil money penalties may be assessed pursuant to section 8(i)(2)(C) (12 U.S.C. 1818(i)(2)(C)) in an amount not to exceed, in the case of any person other than an insured depository institution, $1,924,589 or, in the case of any insured depository institution, an amount not to exceed $48,114 for each day during which the violation continues. Tier Two civil money penalties may be assessed pursuant to section 8(i)(2)(D) of the FDIA (12 U.S.C. 1818(i)(2)(D)) in an amount not to exceed $35,186 for each day during which the failure to file continues or the false or misleading information is not corrected.

(6) Civil money penalties assessed pursuant to 12 U.S.C. 1820(k) for refusal to allow examination or to provide required information during an examination. Pursuant to section 19(k) of the FDIA (12 U.S.C. 1820(k)), civil money penalties may be assessed against any affiliate of an insured depository institution that refuses to permit a duly-appointed examiner to conduct an examination or to provide information during the course of an examination as set forth in section 19(k) of the FDIA (12 U.S.C. 1820(k)), in an amount not to exceed $8,797 for each day the refusal continues.

(7) Civil money penalties assessed pursuant to 12 U.S.C. 1820(k) for violation of one-year restriction on Federal examiners of financial institutions. Pursuant to section 19(k) of the FDIA (12 U.S.C. 1820(k)), the Board of Directors or its designee may assess a civil money penalty of up to $316,566 against any covered former Federal examiner of a financial institution who, in violation of section 19(k) of the FDIA (12 U.S.C. 1820(k)) and within the one-year period following termination of government service as an employee, serves as an officer, director, or consultant of a financial or depository institution, a holding company, or of any other entity listed in section 19(k) of the FDIA (12 U.S.C. 1820(k)), without the written waiver or permission by the appropriate Federal banking agency or authority under section 19(k) of the FDIA (12 U.S.C. 1820(k)).
§ 308.132, N.T.

(a) Civil money penalties assessed pursuant to 12 U.S.C. 1828(a) for incorrect display of insurance logo. Pursuant to section 18(a)(3) of the FDIA (12 U.S.C. 1828(a)(3)), civil money penalties may be assessed against an insured depository institution that fails to correctly display its insurance logo pursuant to that section, in an amount not to exceed $120 for each day the violation continues.

(b) Civil money penalties assessed pursuant to 12 U.S.C. 1828(h) for failure to timely pay assessment—(i) In general. Subject to paragraph (d)(9)(ii) of this section, any insured depository institution that fails or refuses to pay any assessment shall be subject to a penalty in an amount not more than 1 percent of the amount of the assessment due for each calendar day that such violation continues. 

(ii) Exception in case of dispute. Paragraph (d)(9)(i) of this section shall not apply if—

(A) The failure to pay an assessment is due to a dispute between the insured depository institution and the Corporation over the amount of such assessment; and

(B) The insured depository institution deposits security satisfactory to the Corporation for payment upon final determination of the issue.

(iii) Special rule for small assessment amounts. If the amount of the assessment that an insured depository institution fails or refuses to pay is less than $10,000 at the time of such failure or refusal, the amount of any penalty to which such institution is subject under paragraph (d)(9)(i) of this section shall not exceed $120 for each day that such violation continues.

(iv) Authority to modify or remit penalty. The Corporation, in the sole discretion of the Corporation, may compromise, modify, or remit any penalty that the Corporation may compromise, modify, or remit any penalty to which such institution is subject under paragraph (d)(9)(i) of this section upon a finding that good cause prevented the timely payment of an assessment.

(b) Civil money penalties assessed pursuant to 12 U.S.C. 1828(h) for recordkeeping violations. Pursuant to section 19(h)(j) of the FDIA (12 U.S.C. 1828(h)), civil money penalties may be assessed against an insured depository institution and any director, officer, employee thereof who willfully or through gross negligence violates or causes a violation of the recordkeeping requirements of that section or its implementing regulations in an amount not to exceed $20,111 per violation.

(c) Civil money penalties pursuant to 12 U.S.C. 1832(c) for violation of provisions regarding interest-bearing demand deposit accounts. Pursuant to 12 U.S.C. 1832(c), any depository institution that violates the prohibition regarding interest-bearing demand deposit accounts shall be subject to a fine of $2,795 per violation.

(d) Civil money penalties for violations of security measure requirements under 12 U.S.C. 1884.

Pursuant to 12 U.S.C. 1884, an institution that violates a rule establishing minimum security requirements as set forth in 12 U.S.C. 1882, shall be subject to a civil penalty not to exceed $279 for each day of the violation.

(e) Civil money penalties assessed pursuant to 12 U.S.C. 1972(2)(F) for prohibited tying arrangements. Pursuant to the Bank Holding Company Act of 1970, Tier One civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(i) in an amount not to exceed $9,033 for each day during which the violation, practice, or breach continues. Tier Two civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(ii) in an amount not to exceed $48,114 for each day during which the violation, practice, or breach continues. Tier Three civil money penalties may be assessed pursuant to 12 U.S.C. 1972(2)(F)(iii) in an amount not to exceed, in the case of any person other than an insured depository institution, $1,924,589 for each day during which the violation, practice, or breach continues, or, in the case of any insured depository institution, an amount not to exceed the lesser of $1,924,589 or 1 percent of the total assets of such institution for each day during which the violation, practice, or breach continues.

(f) Civil money penalties assessed pursuant to 12 U.S.C. 3909(d). Pursuant to the International Lending Supervision Act (ILSA) (12 U.S.C. 3909(d)), civil money penalties may be assessed against any institution or any officer, director, employee, agent or other person participating in the conduct of the affairs of such institution in an amount not to exceed $2,394 for each day a violation of the ILSA or any rule, regulation or order issued pursuant to ILSA continues.

§ 308.133 Effective date of, and payment under, an order to pay.

(a) Effective date. (1) Unless otherwise provided in the Notice, except in situations covered by paragraph (a)(2) of this section, civil penalties assessed pursuant to this subpart are due and payable 60 days after the Notice is served upon the respondent.

(2) If the respondent both requests a hearing and serves an answer, civil penalties assessed pursuant to this subpart are due and payable 60 days after an order to pay, issued after the hearing or upon default, is served upon the respondent, unless the order provides for a different period of payment. Civil penalties assessed pursuant to an order to pay issued upon consent are due and payable within the time specified therein.

(b) Payment. All penalties collected under this section shall be paid over to the Treasury of the United States.

§ 308.134 Scope.

The rules and procedures in this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings by the Board of Directors or its designee:

(a) To censure, limit the activities of, suspend, or revoke the registration of, any municipal securities dealer for which the FDIC is the appropriate regulatory agency;

(b) To censure, suspend, or bar from being associated with such a municipal securities dealer, any person associated with such a municipal securities dealer; and

(c) To deny registration, to censure, limit the activities of, suspend, or revoke the registration of, any transfer agent or clearing agency for which the FDIC is the appropriate regulatory agency.

This subpart and the Uniform Rules shall not apply to proceedings to postpone or suspend registration of a transfer agent or clearing agency pending final determination of denial or revocation of registration.

§ 308.135 Grounds for imposition of sanctions.

(a) Action under section 15(b)(4) of the Exchange Act. The Board of Directors or its designee may issue and have served upon any municipal securities dealer for which the FDIC is the appropriate regulatory agency, or any person associated or seeking to become associated with a municipal securities dealer, a written notice of its intention to censure, limit the activities of, suspend, or revoke the registration of, such municipal securities dealer.

(1) That such municipal securities dealer or such person...
(i) Has committed any prohibited act or omitted any required act specified in subparagraph (A), (D), or (E) of section 15(b)(4) of the Exchange Act, as amended (15 U.S.C. 78o);

(ii) Has been convicted of any offense specified in section 15(b)(4)(B) of the Exchange Act within ten years of commencement of proceedings under this subpart; or

(iii) Is enjoined from any act, conduct, or practice specified in section 15(b)(4)(C) of the Exchange Act; and

(2) That it is in the public interest to impose any of the sanctions set forth in paragraph (a) of this section.

(b) Action under sections 17 and 17A of the Exchange Act. The Board of Directors or its designee may issue, and have served upon any transfer agent or clearing agency for which the FDIC is the appropriate regulatory agency, a written Notice of its intention to deny registration to, censure, place limitations on the activities or function or operations of, suspend, or revoke the registration of, the transfer agent or clearing agency, when the Board of Directors or its designee determines:

(1) That the transfer agent or clearing agency has willfully violated, or is unable to comply with, any applicable provision of section 17 or 17A of the Exchange Act, as amended, or any applicable rule or regulation issued pursuant thereto; and

(2) That it is in the public interest to impose any of the sanctions set forth in paragraph (b) of this section.

§ 308.136 Notice to and consultation with the Securities and Exchange Commission.

Before initiating any proceedings under §308.135, the FDIC shall:

(a) Notify the Securities and Exchange Commission of the identity of the municipal securities dealer or associated person against whom proceedings are to be initiated, and the nature of and basis for the proposed action; and

(b) Consult with the Commission concerning the effect of the proposed action on the protection of investors and the possibility of coordinating the action with any proceeding by the Commission against the municipal securities dealer or associated person.

§ 308.137 Effective date of order imposing sanctions.

An order issued by the Board of Directors after a hearing or an order issued upon default shall become effective at the expiration of 30 days after the service of the order, except that an order of censure, denial, or revocation of registration is effective when served. An order issued upon consent shall become effective at the time specified therein. All orders shall remain effective and enforceable except to the extent they are stayed, modified, terminated, or set aside by the Board of Directors, its designee, or a reviewing court, provided that orders of suspension shall continue in effect no longer than 12 months.

§ 308.138 Scope.

The rules and procedures of this subpart J shall apply to proceedings by the Board of Directors or its designee to exempt, in whole or in part, an issuer of securities from the provisions of sections 12(g), 13, 14(a), 14(c), 14(d), or 14(f) of the Exchange Act, as amended (15 U.S.C. 78l, 78m, 78n (a), (c) (d) or (f)), or to exempt an officer or a director or beneficial owner of securities of such an issuer from the provisions of section 16 of the Exchange Act (15 U.S.C. 78p).

§ 308.139 Application for exemption.

Any interested person may file a written application for an exemption under this subpart with the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429. The application shall specify the exemption sought and the reason therefor, and shall include a statement indicating why the exemption would be consistent with the public interest or the protection of investors.
§ 308.140 Newspaper notice.

(a) General rule. If the Board of Directors or its designee, in its sole discretion, decides to further consider an application for exemption, there shall be served upon the applicant instructions to publish one notification in a newspaper of general circulation in the community where the main office of the issuer is located. The applicant shall furnish proof of such publication to the Executive Secretary or such other person as may be directed in the instructions.

(b) Contents. The notification shall contain the name and address of the issuer and the name and title of the applicant, the exemption sought, a statement that a hearing will be held, and a statement that within 30 days of publication of the newspaper notice, interested persons may submit to the FDIC written comments on the application for exemption and a written request for an opportunity to be heard. The address of the FDIC must appear in the notice.

§ 308.141 Notice of hearing.

Within ten days after expiration of the period for receipt of comments pursuant to § 308.140, the Executive Secretary shall serve upon the applicant and any person who has requested an opportunity to be heard written notification indicating the place and time of the hearing. The hearing shall be held not later than 30 days after service of the notification of hearing. The notification shall contain the name and address of the presiding officer designated by the Executive Secretary and a statement of the matters to be considered.

§ 308.142 Hearing.

(a) Proceedings are informal. Formal rules of evidence, the adjudicative procedures of the APA (5 U.S.C. 554–557), the Uniform Rules and § 308.108 of subpart B of the Local Rules shall not apply to hearings under this subpart.

(b) Hearing Procedure. (1) Parties to the hearing may appear personally or through counsel and shall have the right to introduce relevant and material documents and to make an oral statement.

(2) There shall be no discovery in proceeding under this subpart J.

(3) The presiding officer shall have discretion to permit presentation of witnesses within specified time limits, provided that a list of witnesses is furnished to the presiding officer prior to the hearing. Witnesses shall be sworn, unless otherwise directed by the presiding officer. The presiding officer may ask questions of any witness and each party may cross-examine any witness presented by an opposing party.

(4) The proceedings shall be on the record and the transcript shall be promptly submitted to the Board of Directors. The presiding officer shall make recommendations to the Board of Directors, unless the Board of Directors, in its sole discretion, directs otherwise.

§ 308.143 Decision of Board of Directors.

Following submission of the hearing transcript to the Board of Directors, the Board of Directors may grant the exemption where it determines, by reason of the number of public investors, the amount of trading interest in the securities, the nature and extent of the issuer’s activities, the issuer’s income or assets, or otherwise, that the exemption is consistent with the public interest or the protection of investors. Any exemption shall be set forth in an order specifying the terms of the exemption, the person to whom it is granted, and the period for which it is granted. A copy of the order shall be served upon each party to the proceeding.

Subpart K—Procedures Applicable to Investigations Pursuant to Section 10(c) of the FDIA

§ 308.144 Scope.

The procedures of this subpart shall be followed when an investigation is instituted and conducted in connection with any open or failed insured depository institution, any institutions making application to become insured depository institutions, and affiliates thereof, or with other types of investigations to determine compliance with applicable law and regulations, pursuant to section 10(c) of the FDIA (12 U.S.C. 1820(c)) or section 5(d)(1)(B)
§ 308.145 Conduct of investigation.

An investigation shall be initiated only upon issuance of an order by the Board of Directors; or by the General Counsel, the Director of the Division of Risk Management Supervision, the Director of the Division of Depositor and Consumer Protection, or their respective designees. The order shall indicate the purpose of the investigation and designate FDIC’s representative(s) to direct the conduct of the investigation. Upon application and for good cause shown, the persons who issue the order of investigation may limit, quash, modify, or withdraw it. Upon the conclusion of the investigation, an order of termination of the investigation shall be issued by the persons issuing the order of investigation.

§ 308.146 Powers of person conducting investigation.

The person designated to conduct the investigation shall have the power, among other things, to administer oaths and affirmations, to take and preserve testimony under oath, to issue subpoenas and subpoenas duces tecum and to apply for their enforcement to the United States District Court for the judicial district or the United States court in any territory in which the main office of the bank, institution, or affiliate is located or in which the witness resides or conducts business. The person conducting the investigation may obtain the assistance of counsel or others from both within and outside the FDIC. The persons who issue the order of investigation may limit, quash, or modify any subpoena or subpoena duces tecum, upon application and for good cause shown. The person conducting an investigation may report to the Board of Directors any instance where any attorney has engaged in contemptuous, dilatory, obstructive, or contumacious conduct or has otherwise violated any provision of this part during the course of an investigation. The Board of Directors, upon motion of the person conducting the investigation, or on its own motion, may make a finding of contempt and may then summarily suspend, without a hearing, any attorney representing a witness from further participation in the investigation.

§ 308.147 Investigations confidential.

Investigations shall be confidential. Information and documents obtained by the FDIC in the course of such investigations shall not be disclosed, except as provided in part 309 of this chapter and as otherwise required by law.

§ 308.148 Rights of witnesses.

In an investigation:
(a) Any person compelled or requested to furnish testimony, documentary evidence, or other information, shall upon request be shown and provided with a copy of the order initiating the proceeding;
(b) Any person compelled or requested to provide testimony as a witness or to furnish documentary evidence may be represented by a counsel who meets the requirements of § 308.6 of the Uniform Rules. That counsel may be present and may:
(1) Advise the witness before, during, and after such testimony;
(2) Briefly question the witness at the conclusion of such testimony for clarification purposes; and
(3) Make summary notes during such testimony solely for the use and benefit of the witness;
(c) All persons testifying shall be sequestered. Such persons and their counsel shall not be present during the testimony of any other person, unless permitted in the discretion of the person conducting the investigation. Neither attorney(s) for the institution that is the subject of the investigation, nor attorney(s) for any other interested persons, shall have any right to be present during the testimony of any witness not personally represented by such attorney;
(d) In cases of a perceived or actual conflict of interest arising out of an attorney’s or law firm’s representation of multiple witnesses, the person conducting the investigation may require the attorney to comply with the provisions of §308.8 of the Uniform Rules; and

(e) Witness fees shall be paid in accordance with §308.14 of the Uniform Rules.

§ 308.149 Service of subpoena.

Service of a subpoena shall be accomplished in accordance with §308.11 of the Uniform Rules.

§ 308.150 Transcripts.

(a) General rule. Transcripts of testimony, if any, shall be recorded by an official reporter, or by any other person or means designated by the person conducting the investigation. A witness may, solely for the use and benefit of the witness, obtain a copy of the transcript of his or her testimony at the conclusion of the investigation or, at the discretion of the person conducting the investigation, at an earlier time, provided that the witness submits a written request for the transcript and the transcript is available. The witness requesting a copy of his or her testimony shall bear the cost thereof.

(b) Subscription by witness. The transcript of testimony shall be subscribed by the witness, unless the person conducting the investigation and the witness, by stipulation, have waived the signing, or the witness is ill, cannot be found, or has refused to sign. If the transcript of the testimony is not subscribed by the witness, the official reporter taking the testimony shall certify that the transcript is a true and complete transcript of the testimony.

§ 308.152 Grounds for disapproval of notice.

The Board of Directors or its designee may issue a notice of disapproval with respect to a notice submitted by a state nonmember bank pursuant to section 32 of the FDIA (12 U.S.C. 1831i) and §303.102 of this chapter for the consent of the FDIC to add or replace an individual on the Board of Directors, or to employ any individual as a senior executive officer, or change the responsibilities of any individual to a position of senior executive officer where:

(a) The bank is not in compliance with all minimum capital requirements applicable to it as determined by the FDIC on the basis of such institution’s most recent report of condition or report of examination or inspection;

(b) The bank is in a troubled condition as defined in §303.101(c) of this chapter; or

(c) The FDIC determines, in connection with the review of a capital restoration plan required under section 38(e)(2) of the FDIA (12 U.S.C. 1831o(e)(2)) or otherwise, that such prior notice is appropriate.

§ 308.151 Scope.

The rules and procedures set forth in this subpart shall apply to the notice filed by a state nonmember bank pursuant to section 32 of the FDIA (12 U.S.C. 1831i) and §303.102 of this chapter for the consent of the FDIC to add or replace an individual on the Board of Directors, or to employ any individual as a senior executive officer, or change the responsibilities of any individual to a position of senior executive officer where:

(a) The bank is not in compliance with all minimum capital requirements applicable to it as determined by the FDIC on the basis of such institution’s most recent report of condition or report of examination or inspection;

(b) The bank is in a troubled condition as defined in §303.101(c) of this chapter; or

(c) The FDIC determines, in connection with the review of a capital restoration plan required under section 38(e)(2) of the FDIA (12 U.S.C. 1831o(e)(2)) or otherwise, that such prior notice is appropriate.
§ 308.153 Procedures where notice of disapproval issues pursuant to § 303.103(c) of this chapter.

(a) The Notice of Disapproval shall be served upon the insured state non-member bank and the candidate for director or senior executive officer. The Notice of Disapproval shall:

(1) Summarize or cite the relevant considerations specified in § 308.152;

(2) Inform the individual and the bank that a request for review of the disapproval may be filed within fifteen days of receipt of the Notice of Disapproval; and

(3) Specify that additional information, if any, must be contained in the request for review.

(b) The request for review must be filed at the appropriate regional office.

(c) The request for review must be in writing and should:

(1) Specify the reasons why the FDIC should reconsider its disapproval; and

(2) Set forth relevant, substantive and material documents, if any, that for good cause were not previously set forth in the notice required to be filed pursuant to section 32 of the FDIA (12 U.S.C. 1831i).

[56 FR 37975, Aug. 9, 1991, as amended at 64 FR 62101, Nov. 16, 1999]

§ 308.154 Decision on review.

(a) Within 30 days of receipt of the request for review, the Board of Directors or its designee, shall notify the bank and/or the individual filing the reconsideration (hereafter “petitioner”) of the FDIC’s decision on review.

(b) If the decision is to grant the request and approve the notice, the bank and the individual involved shall be so notified.

(c) A denial of the request for review pursuant to section 32 of the FDIA shall:

(1) Inform the petitioner that a written request for a hearing, stating the relief desired and the grounds therefore, may be filed with the Executive Secretary within 15 days after the receipt of the denial; and

(2) Summarize or cite the relevant considerations specified in § 308.152.

(d) If a decision is not rendered within 30 days, the petitioner may file a request for a hearing within fifteen days from the date of expiration.

[56 FR 37975, Aug. 9, 1991, as amended at 64 FR 62101, Nov. 16, 1999]

§ 308.155 Hearing.

(a) Hearing dates. The Executive Secretary shall order a hearing to be commenced within 30 days after receipt of a request for a hearing filed pursuant to § 308.154. Upon request of the petitioner or the FDIC, the presiding officer or the Executive Secretary may order a later hearing date.

(b) Burden of proof. The ultimate burden of proof shall be upon the candidate for director or senior executive officer. The burden of going forward with a prima facie case shall be upon the FDIC.

(c) Hearing procedure. (1) The hearing shall be held in Washington, DC or at another designated place, before a presiding officer designated by the Executive Secretary.

(2) The provisions of §§ 308.6 through 308.12, 308.16, and 308.21 of the Uniform Rules and §§ 308.101 through 308.102, and 308.104 through 308.106 of subpart B of the Local Rules shall apply to hearings held pursuant to this subpart.

(3) The petitioner may appear at the hearing and shall have the right to introduce relevant and material documents and make an oral presentation. Members of the FDIC enforcement staff may attend the hearing and participate as representatives of the FDIC enforcement staff.

(4) There shall be no discovery in proceedings under this subpart.

(5) At the discretion of the presiding officer, witnesses may be presented within specified time limits, provided that a list of witnesses is furnished to the presiding officer and to all other parties prior to the hearing. Witnesses shall be sworn, unless otherwise directed by the presiding officer. The presiding officer may ask questions of any witness. Each party shall have the opportunity to cross-examine any witness presented by an opposing party. The transcript of the proceedings shall be furnished, upon request and payment of the cost thereof, to the petitioner afforded the hearing.

110
(6) In the course of or in connection with any hearing under paragraph (c) of this section the presiding officer shall have the power to administer oaths and affirmations, to take or cause to be taken depositions of unavailable witnesses, and to issue, revoke, quash, or modify subpoenas and subpoenas duces tecum. Where the presentation of witnesses is permitted, the presiding officer may require the attendance of witnesses from any state, territory, or other place subject to the jurisdiction of the United States at any location where the proceeding is being conducted. Witness fees shall be paid in accordance with §308.14 of the Uniform Rules.

(7) Upon the request of the applicant or the members of the FDIC enforcement staff, the record shall remain open for five business days following the hearing for the parties to make additional submissions to the record.

(8) The presiding officer shall make recommendations to the Board of Directors or its designee, where possible, within fifteen days after the last day for the parties to submit additions to the record.

(9) The presiding officer shall forward his or her recommendation to the Executive Secretary who shall promptly certify the entire record, including the recommendation to the Board of Directors or its designee. The Executive Secretary’s certification shall close the record.

(d) Written submissions in lieu of hearing. The petitioner may in writing waive a hearing and elect to have the matter determined on the basis of written submissions.

(e) Failure to request or appear at hearing. Failure to request a hearing shall constitute a waiver of the opportunity for a hearing. Failure to appear at a hearing in person or through an authorized representative shall constitute a waiver of hearing. If a hearing is waived, the order shall be final and unappealable, and shall remain in full force and effect.

(f) Decision by Board of Directors or its designee. Within 45 days following the Executive Secretary’s certification of the record to the Board of Directors or its designee, the Board of Directors or its designee shall notify the affected individual whether the denial of the notice will be continued, terminated, or otherwise modified. The notification shall state the basis for any decision of the Board of Directors or its designee that is adverse to the petitioner. The Board of Directors or its designee shall promptly rescind or modify the denial where the decision is favorable to the petitioner.

[56 FR 37975, Aug. 9, 1991, as amended at 64 FR 62101, Nov. 16, 1999]

Subpart M—Procedures and Standards Applicable to an Application Pursuant to Section 19 of the FDIA

§ 308.155 Scope.

The rules and procedures set forth in this subpart shall apply to an application filed pursuant to section 19 of the FDIA (12 U.S.C. 1829) by an insured depository institution and/or an individual, who has been convicted of any criminal offense involving dishonesty or a breach of trust or money laundering or who has agreed to enter into a pretrial diversion or similar program in connection with the prosecution of such offense, to seek the prior written consent of the FDIC to become or continue as an institution-affiliated party with respect to an insured depository institution; to own or control directly or indirectly an insured depository institution; or to participate directly or indirectly in any manner in the conduct of the affairs of an insured depository institution.

§ 308.157 Relevant considerations.

(a) In proceedings under §308.156 on an application to become or continue as an institution-affiliated party with respect to an insured depository institution; to own or control directly or indirectly an insured depository institution; or to participate directly or indirectly in any manner in the conduct of the affairs of an insured depository institution, the following shall be considered:
§ 308.158 Filing papers and effective date.

(a) Filing with the regional office. Applications pursuant to section 19 shall be filed by in the appropriate regional office. Unless a waiver has been granted pursuant to paragraph (c) of this section, only an insured depository institution may file an application. Persons meeting the de minimis criteria set forth in the FDIC’s Statement of Policy on Section 19 of the FDIA (63 FR 66177 (1998)) need not file an application.

(b) Effective date. An application pursuant to section 19 may be made in writing at any time more than one year after the issuance of a decision denying an application pursuant to section 19. The removal and/or prohibition pursuant to section 19 shall continue until the individual has been reinstated by the Board of Directors or its designee for good cause shown.

(c) Waiver applications. If an institution does not file an application regarding an individual, the individual may file a request for a waiver of the institution filing requirement for section 19 of the FDIA. Such a waiver application shall be filed with the appropriate regional office and shall set forth substantial good cause why the application should be granted. The Director of the Division of Supervision and Consumer Protection (DSC) and, where confirmed in writing by the director, a deputy director or an associate director may grant or deny applications requesting waivers of the institution filing requirement. The authority delegated under this section shall be exercised only upon the concurrent certification of the General Counsel or his designee that the action to be taken is not inconsistent with section 19 of the FDIA.

[64 FR 62101, Nov. 16, 1999]

§ 308.159 Denial of applications.

A denial of an application pursuant to section 19 shall:

(a) Inform the applicant that a written request for a hearing, stating the relief desired and the grounds therefor and any supporting evidence, may be filed with the Executive Secretary within 60 days after the denial; and

(b) Summarize or cite the relevant considerations specified in § 308.157 of this subpart.

§ 308.160 Hearings.

(a) Hearing dates. The Executive Secretary shall order a hearing to be commenced within 60 days after receipt of a request for hearing on an application filed pursuant to § 308.159. Upon the request of the applicant or FDIC enforcement counsel, the presiding officer or the Executive Secretary may order a later hearing date.

(b) Burden of proof. The ultimate burden of proof shall be upon the person proposing to become or continue as an
in institution-affiliated party with respect to an insured depository institution; to own or control directly or indirectly an insured depository institution; or to participate directly or indirectly in any manner in the conduct of the affairs of an insured depository institution. The burden of going forward with a prima facie case shall be upon the FDIC.

(c) Hearing procedure. (1) The hearing shall be held in Washington, DC, or at another designated place, before a presiding officer designated by the Executive Secretary.

(2) The provisions of §§308.6 through 308.12, 308.16, and 308.21 of the Uniform Rules and §§308.101 through 308.102 and 308.104 through 308.106 of subpart B of the Local Rules shall apply to hearings held pursuant to this subpart.

(3) The applicant may appear at the hearing and shall have the right to introduce relevant and material documents and oral argument. Members of the FDIC enforcement staff may attend the hearing and participate as a party.

(4) There shall be no discovery in proceedings under this subpart.

(5) At the discretion of the presiding officer, witnesses may be presented within specified time limits, provided that a list of witnesses is furnished to the presiding officer and to all other parties prior to the hearing. Witnesses shall be sworn, unless otherwise directed by the presiding officer. The presiding officer may ask questions of any witness. Each party shall have the opportunity to cross-examine any witness presented by an opposing party. The transcript of the proceedings shall be furnished, upon request and payment of the cost thereof, to the applicant afforded the hearing.

(6) In the course of or in connection with any hearing under this subpart, the presiding officer shall have the power to administer oaths and affirmations, to take or cause to be taken depositions of unavailable witnesses, and to issue, revoke, quash, or modify subpoenas and subpoenas duces tecum. Where the presentation of witnesses is permitted, the presiding officer may require the attendance of witnesses from any state, territory, or other place subject to the jurisdiction of the United States at any location where the proceeding is being conducted. Witness fees shall be paid in accordance with §308.14 of the Uniform Rules.

(7) Upon the request of the applicant afforded the hearing, or FDIC enforcement staff, the record shall remain open for five business days following the hearing for the parties to make additional submissions to the record.

(8) The presiding officer shall make recommendations to the Board of Directors, where possible, within 20 days after the last day for the parties to submit additions to the record.

(9) The presiding officer shall forward his or her recommendation to the Executive Secretary who shall promptly certify the entire record, including the recommendation to the Board of Directors or its designee. The Executive Secretary’s certification shall close the record.

(d) Written submissions in lieu of hearing. The applicant or the bank may in writing waive a hearing and elect to have the matter determined on the basis of written submissions.

(e) Failure to request or appear at hearing. Failure to request a hearing shall constitute a waiver of the opportunity for a hearing. Failure to appear at a hearing in person or through an authorized representative shall constitute a waiver of hearing. If a hearing is waived, the person shall remain barred under section 19.

(f) Decision by Board of Directors or its designee. Within 60 days following the Executive Secretary’s certification of the record to the Board of Directors or its designee, the Board of Directors or its designee shall notify the affected person whether the person shall remain barred under section 19. The notification shall state the basis for any decision of the Board of Directors or its designee that is adverse to the applicant.

[56 FR 37975, Aug. 9, 1991, as amended at 64 FR 62101, Nov. 16, 1999]
§ 308.161 Scope.

The rules and procedures set forth in this subpart shall apply to the following:

(a) Proceedings to suspend an institution-affiliated party of an insured State nonmember bank, or an insured State savings association, or to prohibit such party from further participation in the conduct of the affairs of any depository institution, if continued service or participation by such party posed, poses, or may pose a threat to the interests of the depositors of, or threatened, threatens, or may threaten to impair public confidence in, any relevant depository institution (as defined at section 1818(g)(1)(E) of Title 12), where the individual is the subject of any state or federal information, indictment, or complaint, involving the commission of, or participation in:

(1) A crime involving dishonesty or breach of trust punishable by imprisonment exceeding one year under state or federal law; or

(2) A criminal violation of section 1956, 1957, or 1960 of title 18 or section 5322 or 5324 of title 31.

(b) Proceedings to remove from office or to prohibit an institution-affiliated party from further participation in the conduct of the affairs of any depository institution without the consent of the Board of Directors or its designee where:

(1) A judgment of conviction or an agreement to enter a pre-trial diversion or other similar program has been entered against such party in connection with a crime described in paragraph (a)(2) of this section.

§ 308.162 Relevant considerations.

(a)(1) In proceedings under § 308.161(a) and (b) for a notice of suspension or prohibition, or a removal or prohibition order, the following shall be considered:

(i) Whether the alleged offense is a crime which is punishable by imprisonment for a term exceeding one year under state or federal law and which involves dishonesty or breach of trust; and

(ii) Whether the alleged offense is a criminal violation of section 1956, 1957, or 1960 of title 18 or section 5322 or 5324 of title 31.

(b) The question of whether an institution-affiliated party is guilty of the subject crime shall not be tried or considered in a proceeding under this subpart.

§ 308.163 Notice of suspension or prohibition, and orders of removal or prohibition.

(a) Notice of suspension or prohibition.

(1) The Board of Directors or its designee may suspend or prohibit from further participation in the conduct of the affairs of any depository institution an institution-affiliated party by written notice of suspension or prohibition. The written notice of suspension or prohibition shall be
served upon the institution-affiliated party and any depository institution that the subject of the action is affiliated with at the time the notice is issued.

(2) The suspension or prohibition shall be effective immediately upon service on the institution-affiliated party, who shall immediately comply with the requirements thereof, and shall remain in effect until final disposition of the information, indictment, complaint, or until it is terminated by the Board of Directors or its designee under the provisions of §308.164 or otherwise.

(b) Order of removal or prohibition.

(1) The Board of Directors or its designee may issue an order removing or prohibiting from further participation in the conduct of the affairs of any depository institution an institution-affiliated party, when a final judgment of conviction not subject to further appellate review is entered against the institution-affiliated party for a crime referred to in §308.161(a)(1) and continued service or participation by such party would, or may pose a threat to the interests of the depositors of, or threatened, threatens, or may threaten to impair public confidence in, any relevant depository institution (as defined at section 1818(g)(1)(E) of title 12).

(2) An order of removal or prohibition shall be entered if a judgment of conviction is entered against the institution-affiliated party for a crime described in §308.161(a)(2).

(c) The notice of suspension or prohibition or the order of removal or prohibition shall:

(1) Inform the institution-affiliated party that a written request for a hearing, stating the relief desired and grounds therefore, and any supporting evidence, may be filed with the Executive Secretary within 30 days after service of the written notice or order; and

(2) Set forth the basis and facts in support of the notice or order and address the relevant considerations specified in §308.162.

(d) To obtain a hearing, the institution-affiliated party shall file with the Executive Secretary a written request for a hearing within 30 days after service of the notice of suspension or prohibition or the order of removal or prohibition, which shall:

(1) Admit or deny specifically each allegation in the notice or order, or state that the institution-affiliated party is without knowledge or information, which statement shall have the effect of a denial. Any allegation not denied shall be deemed to be admitted. When an institution-affiliated party intends in good faith to deny only a part of or to qualify an allegation, he shall specify so much of it as is true and shall deny only the remainder; and

(2) Shall state whether the institution-affiliated party is requesting termination or modification of the notice or order, and shall state with particularity how he intends to show that his continued service to or participation in the conduct of the affairs of the depository institution would not, or is not likely to, pose a threat to the interests of its depositors or to impair public confidence in the depository institution.

§308.164 Hearings.

(a) Hearing dates. The Executive Secretary shall order a hearing to be commenced within 30 days after receipt of a request for hearing filed pursuant to §308.163. Upon the request of the institution-affiliated party, the presiding officer or the Executive Secretary may order a later hearing date.

(b) Hearing procedure.

(1) The hearing shall be held in Washington, DC, or at another designated place, before a presiding officer designated by the Executive Secretary.

(2) The provisions of §§308.6 through 308.12, 308.16, and 308.21 of the Uniform Rules and §§308.101 through 308.102 and 308.104 through 308.106 of subpart B of the Local Rules shall apply to hearings held pursuant to this subpart.

(3) The institution-affiliated party may appear at the hearing and shall have the right to introduce relevant and material documents. Members of the FDIC enforcement staff may attend the hearing and participate as representatives of the FDIC enforcement staff. Following the introduction of all evidence, the applicant and the representative of the FDIC enforcement staff may introduce additional evidence.
staff shall have an opportunity for oral argument; however, the parties may jointly waive the right to oral argument, and, in lieu thereof, elect to submit written argument.

(4) There shall be no discovery in proceedings under this subpart.

(5) At the discretion of the presiding officer, witnesses may be presented within specified time limits, provided that a list of witnesses is furnished to the presiding officer and to all other parties prior to the hearing. Witnesses shall be sworn, unless otherwise directed by the presiding officer. The presiding officer may ask questions of any witness. Each party shall have the opportunity to cross-examine any witness presented by an opposing party. The transcript of the proceedings shall be furnished, upon request and payment of the cost thereof, to the institution-affiliated party afforded the hearing. A copy of the transcript shall be sent directly to the presiding officer, who shall have authority to correct the record sua sponte or upon the motion of any party.

(6) In the course of or in connection with any hearing under paragraph (b) of this section, the presiding officer shall have the power to administer oaths and affirmations, to take or cause to be taken depositions of unavailable witnesses, and to issue, revoke, quash, or modify subpoenas and subpoenas duces tecum. Where the presentation of witnesses is permitted, the presiding officer may require the attendance of witnesses from any state, territory, or other place subject to the jurisdiction of the United States at any location where the proceeding is being conducted. Witness fees shall be paid in accordance with §308.14 of the Uniform Rules.

(7) Upon the request of the institution-affiliated party afforded the hearing, or the members of the FDIC enforcement staff, the record shall remain open for five business days following the hearing for the parties to make additional submissions to the record.

(8) The presiding officer shall make recommendations to the Board of Directors, where possible, within 10 days after the last day for the parties to submit additions to the record.

(9) The presiding officer shall forward his or her recommendation to the Executive Secretary who shall promptly certify the entire record, including the recommendation to the Board of Directors. The Executive Secretary’s certification shall close the record.

(10) The institution-affiliated party has the burden of showing, by a preponderance of the evidence, that his or her continued service to or participation in the conduct of the affairs of a depository institution does not, or is not likely to, pose a threat to the interests of the depository institution’s depositors or threaten to impair public confidence in the depository institution.

(c) Written submissions in lieu of hearing. The institution-affiliated party may in writing waive a hearing and elect to have the matter determined on the basis of written submissions.

(d) Failure to request or appear at hearing. Failure to request a hearing shall constitute a waiver of the opportunity for a hearing. Failure to appear at a hearing in person or through an authorized representative shall constitute a waiver of hearing. If a hearing is waived, the order shall be final and unappealable, and shall remain in full force and effect pursuant to §308.163.

(e) Decision by Board of Directors or its designee. Within 60 days following the Executive Secretary’s certification of the record to the Board of Directors or its designee, the Board of Directors or its designee shall notify the institution-affiliated party whether the notice of suspension or prohibition or the order of removal or prohibition will be continued, terminated, or otherwise modified. The notification shall state the basis for any decision of the Board of Directors or its designee that is adverse to the institution-affiliated party. The Board of Directors or its designee shall promptly rescind or modify a notice of suspension or prohibition or an order of removal or prohibition where the decision is favorable to the institution-affiliated party.

§ 308.165 Scope.
The rules and procedures in this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings in connection with the assessment of cross-guaranty liability against commonly controlled depository institutions.

§ 308.166 Grounds for assessment of liability.
Any insured depository institution shall be liable for any loss incurred or reasonably anticipated to be incurred by the corporation, subsequent to August 9, 1989, in connection with the default of a commonly controlled insured depository institution, or any loss incurred or reasonably anticipated to be incurred in connection with any assistance provided by the Corporation to any commonly controlled depository institution in danger of default.

§ 308.167 Notice of assessment of liability.
(a) The amount of liability shall be assessed upon service of a Notice of Assessment of Liability upon the liable depository institution, within two years of the date the Corporation incurred the loss.
(b) Contents of Notice. (1) The Notice of Assessment of Liability shall set forth:
   (i) The basis for the FDIC’s jurisdiction over the proceeding;
   (ii) A statement of the Corporation’s good faith estimate of the amount of loss it has incurred or anticipates incurring;
   (iii) A statement of the method by which the estimated loss was calculated;
   (iv) A proposed order directing payment by the liable institution of the FDIC’s estimated amount of loss, and the schedule under which the payment will be due;
   (v) In cases involving more than one liable institution, the estimated amount of each institution’s share of the liability.
   (2) The Notice of Assessment of Liability shall advise the liable institution(s):
      (i) That an answer must be filed within 20 days after service of the Notice;
      (ii) That, if a hearing is requested, a request for a hearing must be filed within 20 days after service of the Notice;
      (iii) That if a hearing is requested, such hearing will be held within the judicial district in which the liable institution is found, or, in cases involving more than one liable institution, within a judicial district in which at least one liable institution is found;
      (iv) That, unless the administrative law judge sets a different date, the hearing will commence 120 days after service of the Notice of Assessment of Liability; and
      (v) That failure to request a hearing shall render the Notice of Assessment a final and unappealable order.

§ 308.168 Effective date of and payment under an order to pay.
(a) Unless otherwise provided in the Notice of Assessment of Liability, payment of the assessment shall be due on or before the 21st day after service of the Assessment of Liability, under the terms of the schedule for payment set forth therein.
(b) All payments collected shall be paid to the Corporation.
(c) Failure to request a hearing as prescribed herein shall render the order to pay final and unappealable.

Subpart P—Rules and Procedures Relating to the Recovery of Attorney Fees and Other Expenses

§ 308.169 Scope.
This subpart, and the Equal Access to Justice Act (5 U.S.C. 504), which it implements, apply to adversary adjudications before the FDIC. The types of adjudication covered by this subpart are those listed in §308.01 of the Uniform Rules. The Uniform Rules and subpart B of the Local Rules apply to any proceedings to recover fees and expenses under this subpart.

§ 308.170 Filing, content, and service of documents.
(a) Time to file. An application and any other pleading or document related
§ 308.171 Responses to application.

(a) By FDIC. (1) Within 20 days after service of an application, counsel for the FDIC may file with the Executive Secretary and serve on all parties an answer to the application. Counsel for the FDIC requests and is granted an extension of time for filing or files a statement of intent to negotiate under §308.179 of this subpart, failure to file an answer within the 20-day period will be treated as a consent to the award requested.

(2) The answer shall explain in detail any objections to the award requested and identify the facts relied on in support of the FDIC’s position. If the answer is based on any alleged facts not already in the record of the proceeding, the answer shall include either supporting affidavits or a request for further proceedings under §308.180.

(b) Reply to answer. The applicant may file a reply with regard to an application filed pursuant to 5 U.S.C. 504(a)(1), if the FDIC has addressed in its answer any of the following issues: whether the position of the FDIC was substantially justified, if the applicant unduly protracted the proceedings, or that special circumstances make an award unjust. The applicant may file a reply with regard to an application filed pursuant to 5 U.S.C. 504(a)(4), if the FDIC has addressed in its answer any of the following issues: whether the applicant has committed a willful violation of law or otherwise acted in bad faith, that the FDIC’s demand is reasonable when compared to the decision of the administrative law judge or that special circumstances make an award unjust. The reply shall be filed within 15 days after service of the answer. If the reply is based on any alleged facts not already in the record of the proceeding, the reply shall include either supporting affidavits or a request for further proceedings under §308.180.

(c) By other parties. Any party to the adversary adjudication, other than the applicant and the FDIC, may file comments on an application within 20 days after service of the application. If the applicant is entitled to file a reply to the FDIC’s answer under paragraph (b) of this section, another party may file comments on the answer within 15 days after service of the answer. A commenting party may not participate in any further proceedings on the application unless the administrative law judge determines that the public interest requires such participation in order to permit additional exploration of matters raised in the comments.

(d) Additional response. Additional filings in the nature of pleadings may be
§ 308.172 Eligibility of applicants.

(a) General rule. To be eligible for an award under this subpart, an applicant must have been named or admitted as a party to the proceeding. In addition, the applicant must show that it meets all other conditions of eligibility set out in paragraph (b) of this section.

(b) Types of eligible applicant. The types of eligible applicant are:

(1) An individual with a net worth of not more than $2,000,000 at the time the adversary adjudication was initiated; or

(2) Any owner of an unincorporated business, or any partnership, corporation, associations, unit of local government or organization, the net worth of which did not exceed $7,000,000 and which did not have more than 500 employees at the time the adversary adjudication was initiated.

(3) For purposes of an application filed pursuant to 5 U.S.C. 504(a)(4), a small entity as defined in 5 U.S.C. 601.

(c) Factors to be considered. In determining the types of eligible applicants:

(1) An applicant who owns an unincorporated business shall be considered as an individual rather than a sole owner of an unincorporated business if the issues on which he or she prevails are related to personal interests rather than to business interests.

(2) An applicant’s net worth includes the value of any assets disposed of for the purpose of meeting an eligibility standard and excludes the value of any obligations incurred for this purpose. Transfers of assets or obligations incurred for less than reasonably equivalent value will be presumed to have been made for this purpose.

(3) The net worth of a bank shall be established by the net worth information reported in conformity with applicable instructions and guidelines on the bank’s Consolidated Report of Condition and Income filed for the last reporting date before the initiation of the adversary adjudication.

(4) The employees of an applicant include all those persons who were regularly providing services for remuneration for the applicant, under its direction and control, on the date the adversary adjudication was initiated. Part-time employees are included as though they were full-time employees.

(5) The net worth and number of employees of the applicant and all of its affiliates shall be aggregated to determine eligibility. The aggregated net worth shall be adjusted if necessary to avoid counting the net worth of any entity twice. As used in this subpart, affiliates are individuals, corporations, and entities that directly or indirectly or acting through one or more entities control a majority of the voting shares of the applicant; and corporations and entities of which the applicant directly or indirectly owns or controls a majority of the voting shares. The Board of Directors may, however, on the recommendation of the administrative law judge, or otherwise, determine that such aggregation with regard to one or more of the applicant’s affiliates would be unjust and contrary to the purposes of this subpart in light of the actual relationship between the affiliated entities. In such a case the net worth and employees of the relevant affiliate or affiliates will not be aggregated with those of the applicant. In addition, the Board of Directors may determine that financial relationships of the applicant other than those described in this paragraph constitute special circumstances that would make an award unjust.

(6) An applicant that participates in a proceeding primarily on behalf of one or more other persons or entities that would be ineligible is not itself eligible for an award.

§ 308.173 Prevailing party.

(a) General rule. An eligible applicant who, following an adversary adjudication has gained victory on the merits in the proceeding is a “prevailing party”. An eligible applicant may be a “prevailing party” if a settlement of the proceeding was effected on terms favorable to it or if the proceeding against it has been dismissed. In appropriate situations an applicant may also have prevailed if the outcome of the proceeding has substantially vindicated the applicant’s position on the
§ 308.174 Standards for awards.

(a) For applications filed pursuant to 5 U.S.C. 504(a)(1), a prevailing applicant may receive an award for fees and expenses unless the position of the FDIC during the proceeding was substantially justified or special circumstances make the award unjust. An award will be reduced or denied if the applicant has unduly or unreasonably protracted the proceedings. Awards for fees and expenses incurred before the date on which the adversary adjudication was initiated are allowable if their incurrence was necessary to prepare for the proceeding.

(b) For applications filed pursuant to 5 U.S.C. 504(a)(4), an applicant may receive an award unless the demand by the FDIC was reasonable when compared with the decision of the administrative law judge, the applicant has committed a willful violation of law or otherwise acted in bad faith, or special circumstances make an award unjust.

[64 FR 62102, Nov. 16, 1999]

§ 308.175 Measure of awards.

(a) General rule. Awards will be based on rates customarily charged by persons engaged in the business of acting as attorneys, agents, and expert witnesses, even if the services were made available without charge or at a reduced rate, provided that no award under this subpart for the fee of an attorney or agent may exceed $125 per hour. No award to compensate an expert witness may exceed the highest rate at which the FDIC pays expert witnesses. An award may include the reasonable expenses of the attorney, agent, or expert witness as a separate item, if the attorney, agent, or expert witness ordinarily charges clients separately for such expenses. Fees and expenses awarded under 5 U.S.C. 504(a)(4) related to defending against an excessive demand shall be paid only as a consequence of appropriations paid in advance.

(b) Determination of reasonableness of fees. In determining the reasonableness of the fee sought for an attorney, agent, or expert witness, the administrative law judge shall consider the following:

(1) If the attorney, agent, or expert witness is in private practice, his or her customary fee for like services, or, if he or she is an employee of the applicant, the fully allocated cost of the services;

(2) The prevailing rate for similar services in the community in which the attorney, agent, or expert witness ordinarily performs services;

(3) The time actually spent in the representation of the applicant;

(4) The time reasonably spent in light of the difficulty or complexity of the issues in the proceeding; and

(5) Such other factors as may bear on the value of the services provided.

(c) Awards for studies. The reasonable cost of any study, analysis, test, project, or similar matter prepared on behalf of an applicant may be awarded to the extent that the charge for the service does not exceed the prevailing rate payable for similar services, and the study or other matter was necessary for preparation of the applicant’s case and not otherwise required.
§ 308.176 Application for awards.

(a) Contents. An application for an award of fees and expenses under this subpart shall contain:

(1) The name of the applicant and an identification of the proceeding;

(2) For applications filed pursuant to 5 U.S.C. 504(a)(1), a showing that the applicant has prevailed, and an identification of each issue with regard to which the applicant believes that the position of the FDIC in the proceeding was not substantially justified;

(3) For applications filed pursuant to 5 U.S.C. 504(a)(4), a showing that the demand by the FDIC is substantially in excess of the decision of the administrative law judge and is unreasonable when compared with such decision under the facts and circumstances of the case;

(4) A statement of the amount of fees and expenses for which an award is sought;

(5) For applications filed pursuant to 5 U.S.C. 504(a)(4), a statement of the amount of fees and expenses which constitute appropriations paid in advance;

(6) If the applicant is not an individual, a statement of the number of its employees on the date the proceeding was initiated;

(7) A description of any affiliated individuals or entities, as defined in §308.172(c)(5), or a statement that none exist;

(8) A declaration that the applicant, together with any affiliates, had a net worth not more than the ceiling established for it by §308.172(b) as of the date the proceeding was initiated;

(9) For applications filed pursuant to 5 U.S.C. 504(a)(1), a statement whether the applicant is a small entity as defined in 5 U.S.C. 601; and

(10) Any other matters that the applicant wishes the FDIC to consider in determining whether and in what amount an award should be made.

(b) Verification. The application shall be signed by the applicant or an authorized officer or attorney of the applicant. It shall also contain or be accompanied by a written verification under oath or under penalty of perjury that the information provided in the application and supporting documents is true and correct.

[56 FR 37975, Aug. 9, 1991, as amended at 64 FR 62102, Nov. 16, 1999]

§ 308.177 Statement of net worth.

(a) General rule. A statement of net worth must be filed with the application for an award of fees. The statement shall reflect the net worth of the applicant and all affiliates of the applicant.

(b) Contents. (1) The statement of net worth may be in any form convenient to the applicant which fully discloses all the assets and liabilities of the applicant and all the assets and liabilities of its affiliates, as of the time of the initiation of the adversary adjudication. Unaudited financial statements are acceptable unless the administrative law judge or the Board of Directors otherwise requires. Financial statements or reports to a Federal or state agency, prepared before the initiation of the adversary adjudication for other purposes, and accurate as of a date not more than three months prior to the initiation of the proceeding, are acceptable in establishing net worth as of the time of the initiation of the proceeding, unless the administrative law judge or the Board of Directors otherwise requires.

(2) In the case of applicants or affiliates that are not banks, net worth shall be considered for the purposes of this subpart to be the excess of total assets over total liabilities, as of the date the underlying proceeding was initiated, except as adjusted under §308.172(c)(2). Assets and liabilities of individuals shall include those beneficially owned within the meaning of the FDIC’s rules and regulations.

(3) If the applicant or any of its affiliates is a bank, the portion of the statement of net worth which relates to the bank shall consist of a copy of the bank’s last Consolidated Report of Condition and Income filed before the initiation of the adversary adjudication. In all cases the administrative law judge or the Board of Directors may call for additional information needed to establish the applicant’s net worth as of the initiation of the proceeding.
§ 308.178 Statement of fees and expenses.

The application shall be accompanied by a statement fully documenting the fees and expenses for which an award is sought. A separate itemized statement shall be submitted for each professional firm or individual whose services are covered by the application, showing the hours spent in work in connection with the proceeding by each individual, a description of the specific services performed, the rate at which each fee has been computed, and the total amount paid or payable by the applicant or by any other person or entity for the services performed. The administrative law judge or the Board of Directors may require the applicant to provide vouchers, receipts, or other substantiation for any expenses claimed.

§ 308.179 Settlement negotiations.

If counsel for the FDIC and the applicant believe that the issues in a fee application can be settled, they may jointly file with the Executive Secretary a statement that the administrative law judge a statement of their intent to negotiate a settlement. The filing of this statement shall extend the time for filing an answer under §308.171 for an additional 30 days, and further extensions may be granted by the administrative law judge upon the joint request of counsel for the FDIC and the applicant.

[56 FR 37975, Aug. 9, 1991, as amended at 64 FR 62102, Nov. 16, 1999]

§ 308.180 Further proceedings.

(a) General rule. Ordinarily, the determination of a recommended award will be made by the administrative law judge on the basis of the written record. However, on request of either the applicant or the FDIC, or on his or her own initiative, the administrative law judge may order further proceedings such as an informal conference, oral argument, additional written submissions, or an evidentiary hearing. Such further proceedings will be held only when necessary for full and fair resolution of the issues arising from the application and will be conducted promptly and expeditiously.

(b) Request for further proceedings. A request for further proceedings under this section shall specifically identify the information sought or the issues in dispute and shall explain why additional proceedings are necessary.

(c) Hearing. Ordinarily, the administrative law judge shall hold an oral evidentiary hearing only on disputed issues of material fact which cannot be adequately resolved through written submissions.

§ 308.181 Recommended decision.

The administrative law judge shall file with the Executive Secretary a recommended decision on the fee application not later than 90 days after the filing of the application or 30 days after the conclusion of the hearing, whichever is later. The recommended decision shall include written proposed findings and conclusions on the applicant’s eligibility and its status as a prevailing party and an explanation of the reasons for any difference between the amount requested and the amount of the recommended award. The recommended decision shall also include, if at issue, proposed findings on whether the FDIC’s position was substantially justified, whether the applicant unduly protracted the proceedings, or whether special circumstances make an award unjust. The administrative law judge shall file the record of the proceeding on the fee application and,
§ 308.182 Board of Directors action.

(a) Exceptions to recommended decision. Within 20 days after service of the recommended decision, findings, conclusions, and proposed order, the applicant or counsel for the FDIC may file with the Executive Secretary written exceptions thereto. A supporting brief may also be filed.

(b) Decision of Board of Directors. The Board of Directors shall render its decision within 60 days after the matter is submitted to it by the Executive Secretary. The Executive Secretary shall furnish copies of the decision and order of the Board of Directors to the parties. Judicial review of the decision and order may be obtained as provided in 5 U.S.C. 504(c)(2).

§ 308.183 Payment of awards.

An applicant seeking payment of an award made by the Board of Directors shall submit to the Executive Secretary a statement that the applicant will not seek judicial review of the decision and order or that the time for seeking further review has passed and no further review has been sought. The FDIC will pay the amount awarded within 30 days after receiving the applicant’s statement, unless judicial review of the award or of the underlying decision of the adversary adjudication has been sought by the applicant or any other party to the proceeding.

Subpart Q—Issuance and Review of Orders Pursuant to the Prompt Corrective Action Provisions of the Federal Deposit Insurance Act

SOURCE: 57 FR 44897, Sept. 29, 1992, unless otherwise noted.

§ 308.200 Scope.

The rules and procedures set forth in this subpart apply to banks, insured branches of foreign banks and senior executive officers and directors of banks that are subject to the provisions of section 38 of the Federal Deposit Insurance Act (section 38) (12 U.S.C. 1831o) and subpart B of part 325 of this chapter or subpart H of part 324 of this chapter, as applicable.

[78 FR 55470, Sept. 10, 2013]

§ 308.201 Directives to take prompt corrective action.

(a) Notice of intent to issue directive—

(1) In general. The FDIC shall provide an undercapitalized, significantly undercapitalized, or critically undercapitalized bank prior written notice of the FDIC’s intention to issue a directive requiring such bank to take actions or to follow proscriptions described in section 38 that are within the FDIC’s discretion to require or impose under section 38 of the FDI Act, including sections 38(e)(5), (f)(2), (f)(3), or (f)(5). The bank shall have such time to respond to a proposed directive as provided by the FDIC under paragraph (c) of this section.

(2) Immediate issuance of final directive. If the FDIC finds it necessary in order to carry out the purposes of section 38 of the FDI Act, the FDIC may, without providing the notice prescribed in paragraph (a)(1) of this section, issue a directive requiring a bank immediately to take actions or to follow proscriptions described in section 38 that are within the FDIC’s discretion to require or impose under section 38 of the FDI Act, including section 38(e)(5), (f)(2), (f)(3), or (f)(5). A bank that is subject to such an immediately effective directive may submit a written appeal of the directive to the FDIC. Such an appeal must be received by the FDIC within 14 calendar days of the issuance of the directive, unless the FDIC permits a longer period. The FDIC shall consider any such appeal, if filed in a timely matter, within 60 days of receiving the appeal. During such period of review, the directive shall remain in effect unless the FDIC, in its sole discretion, stays the effectiveness of the directive.

(b) Contents of notice. A notice of intention to issue a directive shall include:

(1) A statement of the bank’s capital measures and capital levels;

(2) A description of the restrictions, prohibitions or affirmative actions
that the FDIC proposes to impose or require;
(3) The proposed date when such restrictions or prohibitions would be effective or the proposed date for completion of such affirmative actions; and
(4) The date by which the bank subject to the directive may file with the FDIC a written response to the notice.
(c) Response to notice—(1) Time for response. A bank may file a written response to a notice of intent to issue a directive within the time period set by the FDIC. The date shall be at least 14 calendar days from the date of the notice unless the FDIC determines that a shorter period is appropriate in light of the financial condition of the bank or other relevant circumstances.
(2) Content of response. The response should include:
(i) An explanation why the action proposed by the FDIC is not an appropriate exercise of discretion under section 38;
(ii) Any recommended modification of the proposed directive; and
(iii) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the bank regarding the proposed directive.
(d) FDIC consideration of response. After considering the response, the FDIC may:
(1) Issue the directive as proposed or in modified form;
(2) Determine not to issue the directive and so notify the bank; or
(3) Seek additional information or clarification of the response from the bank or any other relevant source.
(e) Failure to file response. Failure by a bank to file with the FDIC, within the specified time period, a written response to a proposed directive shall constitute a waiver of the opportunity to respond and shall constitute consent to the issuance of the directive.
(f) Request for modification or rescission of directive. Any bank that is subject to a directive under this subpart may, upon a change in circumstances, request in writing that the FDIC reconsider the terms of the directive, and may propose that the directive be rescinded or modified. Unless otherwise ordered by the FDIC, the directive shall continue in place while such request is pending before the FDIC.
§ 308.202 Procedures for reclassifying a bank based on criteria other than capital.
(a) Reclassification based on unsafe or unsound condition or practice—(1) Issuance of notice of proposed reclassification—(i) Grounds for reclassification. (A) Pursuant to §325.103(d) of this chapter or §324.403(d) of this chapter, as applicable, the FDIC may reclassify a well-capitalized bank as adequately capitalized or subject an adequately capitalized or undercapitalized institution to the supervisory actions applicable to the next lower capital category if:
(i) The FDIC determines that the bank is in unsafe or unsound condition; or
(ii) The FDIC, pursuant to section 8(b)(8) of the FDI Act (12 U.S.C. 1818(b)(8)), deems the bank to be engaged in an unsafe or unsound practice and not to have corrected the deficiency.
(B) Any action pursuant to this paragraph (a)(1)(i) shall hereinafter be referred to as reclassification.
(ii) Prior notice to institution. Prior to taking action pursuant to §325.103(d) of this chapter or §324.403(d) of this chapter, as applicable, the FDIC shall issue and serve on the bank a written notice of the FDIC’s intention to reclassify it.
(2) Contents of notice. A notice of intention to reclassify a bank based on unsafe or unsound condition shall include:
(i) A statement of the bank’s capital measures and capital levels and the category to which the bank would be reclassified;
(ii) The reasons for reclassification of the bank; and
(iii) The date by which the bank subject to the notice of reclassification may file with the FDIC a written appeal of the proposed reclassification and a request for a hearing, which shall be at least 14 calendar days from the date of service of the notice unless the FDIC determines that a shorter period is appropriate in light of the financial condition of the bank or other relevant circumstances.
§ 308.202

(3) Response to notice of proposed reclassification. A bank may file a written response to a notice of proposed reclassification within the time period set by the FDIC. The response should include:

(i) An explanation of why the bank is not in an unsafe or unsound condition or otherwise should not be reclassified; and

(ii) Any other relevant information, mitigating circumstances, documentation, or other evidence in support of the position of the bank regarding the reclassification.

(4) Failure to file response. Failure by a bank to file, within the specified time period, a written response with the FDIC to a notice of proposed reclassification shall constitute a waiver of the opportunity to respond and shall constitute consent to the reclassification.

(5) Request for hearing and presentation of oral testimony or witnesses. The response may include a request for an informal hearing before the FDIC under this section. If the bank desires to present oral testimony or witnesses at the hearing, the bank shall include a request to do so with the request for an informal hearing. A request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony. Failure to request a hearing shall constitute a waiver of any right to a hearing, and failure to request the opportunity to present oral testimony or witnesses shall constitute a waiver of any right to present oral testimony or witnesses.

(6) Order for informal hearing. Upon receipt of a timely written request that includes a request for a hearing, the FDIC shall issue an order directing an informal hearing to commence no later than 30 days after receipt of the request, unless the bank requests a later date. The hearing shall be held in Washington, DC or at such other place as may be designated by the FDIC, before a presiding officer(s) designated by the FDIC to conduct the hearing.

(7) Hearing procedures. (i) The bank shall have the right to introduce relevant written materials and to present oral argument at the hearing. The bank may introduce oral testimony and present witnesses only if expressly authorized by the FDIC or the presiding officer(s). Neither the provisions of the Administrative Procedure Act (5 U.S.C. 554–557) governing adjudications required by statute to be determined on the record nor the Uniform Rules of Practice and Procedure in this part apply to an informal hearing under this section unless the FDIC orders that such procedures shall apply.

(ii) The informal hearing shall be recorded, and a transcript shall be furnished to the bank upon request and payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officer(s). The presiding officer(s) may ask questions of any witness.

(iii) The presiding officer(s) may order that the hearing be continued for a reasonable period (normally five business days) following completion of oral testimony or argument to allow additional written submissions to the hearing record.

(8) Recommendation of presiding officers. Within 20 calendar days following the date the hearing and the record on the proceeding are closed, the presiding officer(s) shall make a recommendation to the FDIC on the reclassification.

(9) Time for decision. Not later than 60 calendar days after the date the record is closed or the date of the response in a case where no hearing was requested, the FDIC will decide whether to reclassify the bank and notify the bank of the FDIC’s decision.

(b) Request for rescission of reclassification. Any bank that has been reclassified under this section, may, upon a change in circumstances, request in writing that the FDIC reconsider the reclassification, and may propose that the reclassification be rescinded and that any directives issued in connection with the reclassification be modified, rescinded, or removed. Unless otherwise ordered by the FDIC, the bank shall remain subject to the reclassification and to any directives issued in connection with that reclassification while such request is pending before the FDIC.

[57 FR 44897, Sept. 29, 1992, as amended at 78 FR 55470, Sept. 10, 2013]
§ 308.203 Order to dismiss a director or senior executive officer

(a) Service of notice. When the FDIC issues and serves a directive on a bank pursuant to §308.201 of this part requiring the bank to dismiss from office any director or senior executive officer under §38(f)(2)(F)(ii) of the FDI Act, the FDIC shall also serve a copy of the directive, or the relevant portions of the directive where appropriate, upon the person to be dismissed.

(b) Response to directive—(1) Request for reinstatement. A director or senior executive officer who has been served with a directive under paragraph (a) of this section (Respondent) may file a written request for reinstatement. The request for reinstatement shall be filed within 10 calendar days of the receipt of the directive by the Respondent, unless further time is allowed by the FDIC at the request of the Respondent.

(2) Contents of request; informal hearing. The request for reinstatement shall include reasons why the Respondent should be reinstated, and may include a request for an informal hearing before the FDIC under this section. If the Respondent desires to present oral testimony or witnesses at the hearing, the Respondent shall include a request to do so with the request for an informal hearing. The request to present oral testimony or witnesses shall specify the names of the witnesses and the general nature of their expected testimony. Failure to request a hearing shall constitute a waiver of any right to a hearing and failure to request the opportunity to present oral testimony or witnesses shall constitute a waiver of any right or opportunity to present oral testimony or witnesses.

(3) Effective date. Unless otherwise ordered by the FDIC, the dismissal shall remain in effect while a request for reinstatement is pending.

(c) Order for informal hearing. Upon receipt of a timely written request from a Respondent for an informal hearing on the portion of a directive requiring a bank to dismiss from office any director or senior executive officer, the FDIC shall issue an order directing an informal hearing to commence no later than 30 days after receipt of the request, unless the Respondent requests a later date. The hearing shall be held in Washington, DC, or at such other place as may be designated by the FDIC, before a presiding officer(s) designated by the FDIC to conduct the hearing.

(d) Hearing procedures. (1) A Respondent may appear at the hearing personally or through counsel. A Respondent shall have the right to introduce relevant written materials and to present oral argument. A Respondent may introduce oral testimony and present witnesses only if expressly authorized by the FDIC or the presiding officer(s). Neither the provisions of the Administrative Procedure Act governing adjudications required by statute to be determined on the record nor the Uniform Rules of Practice and Procedure in this part apply to an informal hearing under this section unless the FDIC orders that such procedures shall apply.

(2) The informal hearing shall be recorded, and a transcript shall be furnished to the Respondent upon request and payment of the cost thereof. Witnesses need not be sworn, unless specifically requested by a party or the presiding officer(s). The presiding officer(s) may ask questions of any witness.

(3) The presiding officer(s) may order that the hearing be continued for a reasonable period (normally five business days) following completion of oral testimony or argument to allow additional written submissions to the hearing record.

(e) Standard for review. A Respondent shall bear the burden of demonstrating that his or her continued employment by or service with the bank would materially strengthen the bank’s ability:

(1) To become adequately capitalized, to the extent that the directive was issued as a result of the bank’s capital level or failure to submit or implement a capital restoration plan; and

(2) To correct the unsafe or unsound condition or unsafe or unsound practice, to the extent that the directive was issued as a result of classification of the bank based on supervisory criteria other than capital, pursuant to section 38(g) of the FDI Act.

(f) Recommendation of presiding officers. Within 20 calendar days following the date the hearing and the record on
the proceeding are closed, the presiding officer(s) shall make a recommendation to the FDIC concerning the Respondent’s request for reinstatement with the bank.

(g) Time for decision. Not later than 60 calendar days after the date the record is closed or the date of the response in a case where no hearing was requested, the FDIC shall grant or deny the request for reinstatement and notify the Respondent of the FDIC’s decision. If the FDIC denies the request for reinstatement, the FDIC shall set forth in the notification the reasons for the FDIC’s action.

§ 308.204 Enforcement of directives.

(a) Judicial remedies. Whenever a bank fails to comply with a directive issued under section 38, the FDIC may seek enforcement of the directive in the appropriate United States district court pursuant to section 8(i)(1) of the FDI Act (12 U.S.C. 1818(i)(1)).

(b) Administrative remedies—(1) Failure to comply with directive. Pursuant to section 8(i)(2)(A) of the FDI Act, the FDIC may assess a civil money penalty against any bank that violates otherwise fails to comply with any final directive issued under section 38 and against any institution-affiliated party who participates in such violation or noncompliance.

(2) Failure to implement capital restoration plan. The failure of a bank to implement a capital restoration plan required under section 38, or subpart B of part 325 of this chapter or subpart H of part 324 of this chapter, as applicable, or the failure of a company having control of a bank to fulfill a guarantee of a capital restoration plan made pursuant to section 38(e)(2) of the FDI Act shall subject the bank to the assessment of civil money penalties pursuant to section 8(i)(2)(A) of the FDI Act.

(c) Other enforcement action. In addition to the actions described in paragraphs (a) and (b) of this section, the FDIC may seek enforcement of the provisions of section 38 or subpart B of part 325 of this chapter or subpart H of part 324 of this chapter, as applicable, through any other judicial or administrative proceeding authorized by law.

Subpart R—Submission and Review of Safety and Soundness Compliance Plans and Issuance of Orders To Correct Safety and Soundness Deficiencies

§ 308.300 Scope.

The rules and procedures set forth in this subpart apply to insured state nonmember banks, to state-licensed insured branches of foreign banks, that are subject to the provisions of section 39 of the Federal Deposit Insurance Act (section 39) (12 U.S.C. 1831p–1), and to state savings associations (in aggregate, bank or banks and state savings association or state savings associations).

§ 308.301 Purpose.

Section 39 of the FDI Act requires the FDIC to establish safety and soundness standards. Pursuant to section 39, a bank or savings association may be required to submit a compliance plan if it is not in compliance with a safety and soundness standard established by guideline under section 39(a) or (b). An enforceable order under section 8 of the FDI Act may be issued if, after being notified that it is in violation of a safety and soundness standard established under section 39, the bank or savings association fails to submit an acceptable compliance plan or fails in any material respect to implement an accepted plan. This subpart establishes procedures for requiring submission of a compliance plan and issuing an enforceable order pursuant to section 39.

§ 308.302 Determination and notification of failure to meet a safety and soundness standard and request for compliance plan.

(a) Determination. The FDIC may, based upon an examination, inspection or any other information that becomes available to the FDIC, determine that a bank or state savings association has failed to satisfy the safety and soundness standards set out in part 364 of this chapter and in the Interagency Guidelines Establishing Standards for
§ 308.303 Filing of safety and soundness compliance plan.

(a) Schedule for filing compliance plan—(1) In general. A bank or state savings association shall file a written safety and soundness compliance plan with the FDIC within 30 days of receiving a request for a compliance plan pursuant to § 308.302(b), unless the FDIC notifies the bank or state savings association in writing that the plan is to be filed within a different period.

(2) Other plans. If a bank or state savings association is obligated to file, or is currently operating under, a capital restoration plan submitted pursuant to section 38 of the FDI Act (12 U.S.C. 1831o), a cease-and-desist order entered into pursuant to section 8 of the FDI Act, a formal or informal agreement, or a response to a report of examination or report of inspection, it may, with the permission of the FDIC, submit a compliance plan under this section as part of that plan, order, agreement, or response, subject to the deadline provided in paragraph (a)(1) of this section.

(b) Contents of plan. The compliance plan shall include a description of the steps the bank or state savings association will take to correct the deficiency and the time within which those steps will be taken.

(c) Review of safety and soundness compliance plans. Within 30 days after receiving a safety and soundness compliance plan under this subpart, the FDIC shall provide written notice to the bank or state savings association of whether the plan has been approved or seek additional information from the bank or state savings association regarding the plan. The FDIC may extend the time within which notice regarding approval of a plan will be provided.

(d) Failure to submit or implement a compliance plan—(1) Supervisory actions. If a bank or state savings association fails to submit an acceptable plan within the time specified by the FDIC or fails in any material respect to implement a compliance plan, then the FDIC shall, by order, require the bank or state savings association to correct the deficiency and may take further actions provided in section 39(e)(2)(B). Pursuant to section 39(e)(3), the FDIC may be required to take certain actions if the bank or state savings association commenced operations or experienced a change in control within the previous 24-month period, or the bank or state savings association experienced extraordinary growth during the previous 18-month period.

(2) Extraordinary growth. For purposes of paragraph (d)(1) of this section, extraordinary growth means an increase in assets of more than 7.5 percent during any quarter within the 18-month period preceding the issuance of a request for submission of a compliance plan, by a bank or state savings association that is not well capitalized for purposes of section 38 of the FDI Act. For purposes of calculating an increase in assets, assets acquired through merger or acquisition approved pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) will be excluded.

(e) Amendment of compliance plan. A bank or state savings association that has filed an approved compliance plan may, after prior written notice to and approval by the FDIC, amend the plan to reflect a change in circumstance. Until such time as a proposed amendment has been approved, the bank or state savings association shall implement the compliance plan as previously approved.

§ 308.304 Issuance of orders to correct deficiencies and to take or refrain from taking other actions.

(a) Notice of intent to issue order—(1) In general. The FDIC shall provide a bank or state savings association prior
written notice of the FDIC’s intention to issue an order requiring the bank or state savings association to correct a safety and soundness deficiency or to take or refrain from taking other actions pursuant to section 39 of the FDI Act. The bank or state savings association shall have such time to respond to a proposed order as provided by the FDIC under paragraph (c) of this section.

(2) Immediate issuance of final order. If the FDIC finds it necessary in order to carry out the purposes of section 39 of the FDI Act, the FDIC may, without providing the notice prescribed in paragraph (a)(1) of this section, issue an order requiring a bank or state savings association immediately to take actions to correct a safety and soundness deficiency or take or refrain from taking other actions pursuant to section 39. A bank or state savings association that is subject to such an immediately effective order may submit a written appeal of the order to the FDIC. Such an appeal must be received by the FDIC within 14 calendar days of the issuance of the order, unless the FDIC permits a longer period. The FDIC shall consider any such appeal, if filed in a timely matter, within 60 days of receiving the appeal. During such period of review, the order shall remain in effect unless the FDIC, in its sole discretion, stays the effectiveness of the order.

(b) Contents of notice. A notice of intent to issue an order shall include:

(1) A statement of the safety and soundness deficiency or deficiencies that have been identified at the bank or state savings association;

(2) A description of any restrictions, prohibitions, or affirmative actions that the FDIC proposes to impose or require;

(3) The proposed date when such restrictions or prohibitions would be effective or the proposed date for completion of any required action; and

(4) The date by which the bank or state savings association subject to the order may file with the FDIC a written response to the notice.

(c) Response to notice—(1) Time for response. A bank or state savings association may file a written response to a notice of intent to issue an order with-
§ 308.400 Scope.

This subpart is issued by the Corporation pursuant to sections 17A(b)(3)(g), 17A(b)(5)(C), 19 and 23 of the Securities Exchange Act of 1934 (Exchange Act), as amended (15 U.S.C. 78q–1 (b)(3)(g), (b)(5)(C), 78s, 78w). It applies to applications by banks insured by the Corporation (other than members of the Federal Reserve System) for a stay or review of certain actions by clearing agencies registered under the Exchange Act, for which the Securities and Exchange Commission (Commission) is not the appropriate regulatory agency under section 3(g)(3)(B) of the Exchange Act (bank clearing agencies).

§ 308.401 Applications for stays of disciplinary sanctions or summary suspensions by a bank clearing agency.

Applications to the Corporation for a stay of disciplinary action imposed by registered clearing agencies pursuant to section 17(b)(3)(G) of the Exchange Act, or summary suspension or limitation or prohibition of access under section 17(b)(5)(C) of the Exchange Act shall be made according to the rules adopted by the Commission (17 CFR 240.194–2). References to the “Commission” in 17 CFR 240.194–2 are deemed to refer to the “Corporation.”

§ 308.402 Applications for review of final disciplinary sanctions, denials of participation, or prohibitions or limitations of access to services imposed by bank clearing agencies.

Proceedings on an application to the Corporation under section 19(d)(2) of the Exchange Act for review of any final disciplinary sanctions, denials of participation, or prohibitions or limitations of access to services imposed by bank clearing agencies shall be conducted according to the procedures set forth in rules adopted by the Commission (17 CFR 240.194–3). References to the “Commission” in 17 CFR 240.194–3 are deemed to refer to the “Corporation.”

Subpart T—Program Fraud Civil Remedies and Procedures

SOURCE: 66 FR 9189, Feb. 7, 2001, unless otherwise noted.

§ 308.500 Basis, purpose, and scope.

(b) Purpose. This subpart:

(1) Establishes administrative procedures for imposing civil penalties and assessments against persons who make, submit, or present or cause to be made, submitted, or presented false, fictitious, or fraudulent claims or written statements to the FDIC or to its agents; and

(2) Specifies the hearing and appeal rights of persons subject to allegations of liability for such penalties and assessments.

(c) Scope. This subpart applies only to persons who make, submit, or present
or cause to be made, submitted, or presented false, fictitious, or fraudulent claims or written statements to the FDIC or to its agents acting on behalf of the FDIC in connection with FDIC employment matters, FDIC contracting activities, and the FDIC Asset Purchaser Certification Program. It does not apply to false claims or statements made in connection with programs (other than as set forth in the preceding sentence) related to the FDIC’s regulatory, supervision, enforcement, insurance, receivership or liquidation responsibilities. The FDIC is restricting the scope of applicability of this subpart because other civil and administrative remedies are adequate to redress fraud in the areas not covered.

§ 308.501 Definitions.

For purposes of this subpart:
(b) Authority means the Federal Deposit Insurance Corporation (FDIC).
(c) Authority head or Board means the Board of Directors of the FDIC, which is herein designated by the Chairman of the FDIC to serve as head of the FDIC for PFCRA matters.
(d) Benefit means, in the context of “statement” as defined in 31 U.S.C. 3801(a)(9), any financial assistance received from the FDIC that amounts to $150,000 or less. The term does not include the FDIC’s deposit insurance program.
(e) Claim means any request, demand, or submission:
(1) Made to the FDIC for property, services, or money (including money representing grants, loans, insurance, or benefits);
(2) Made to a recipient of property, services, or money from the FDIC or to a party to a contract with the FDIC:
   (i) For property or services if the United States:
      (A) Provided such property or services;
      (B) Provided any portion of the funds for the purchase of such property or services; or
   (3) Made to the FDIC that has the effect of decreasing an obligation to pay or account for property, services, or money.
(f) Complaint means the administrative complaint served by the reviewing official on the defendant under §308.506 of this subpart.
(g) Corporation means the Federal Deposit Insurance Corporation.
(h) Defendant means any person alleged in a complaint under §308.506 of this subpart to be liable for a civil penalty or assessment under §308.502 of this subpart.
(i) Government means the United States Government.
(j) Individual means a natural person.
(k) Initial decision means the written decision of the ALJ required by §308.509 or §308.536 of this subpart, and includes a revised initial decision issued following a remand or a motion for consideration.
(l) Investigating official means the Inspector General of the FDIC, or an officer or employee of the Inspector General designated by the Inspector General. The investigating official must serve in a position that has a rate of basic pay under the pay scale utilized by the FDIC that is equal to or greater than 120 percent of the minimum rate of basic pay for grade 15 under the federal government’s General Schedule.
(m) Knows or has reason to know, means that a person, with respect to a claim or statement:
   (1) Has actual knowledge that the claim or statement is false, fictitious, or fraudulent;
   (2) Acts in deliberate ignorance of the truth or falsity of the claim or statement; or
   (3) Acts in reckless disregard of the truth or falsity of the claim or statement.
(n) Makes, wherever it appears, includes the terms “presents”, “submits”, and “causes to be made, presented, or submitted.” As the context requires, “making” or “made” likewise includes the corresponding forms of such terms.

(o) Person means any individual, partnership, corporation, association, or private organization, and includes the plural of that term.

(p) Representative means an attorney, who is a member in good standing of the bar of any state, territory, or possession of the United States or of the District of Columbia or the Commonwealth of Puerto Rico, and designated by a party in writing.

(q) Reviewing official means the General Counsel of the FDIC or his designee who is:

(1) Not subject to supervision by, or required to report to, the investigating official;

(2) Not employed in the organizational unit of the FDIC in which the investigating official is employed; and

(3) Serving in a position that has a rate of basic pay under the pay scale utilized by the FDIC that is equal to or greater than 120 percent of the minimum rate of basic pay for grade 15 under the federal government’s General Schedule.

(r) Statement means any representation, certification, affirmation, document, record, or accounting or bookkeeping entry made:

(1) With respect to a claim or to obtain the approval or payment of a claim (including relating to eligibility to make a claim); or

(2) With respect to (including relating to eligibility for):

(i) A contract with, or a bid or proposal for a contract with; or

(ii) A grant, loan, or benefit received, directly or indirectly, from the FDIC, or any state, political subdivision of a state, or other party, if the United States government provides any portion of the money or property under such contract or for such grant, loan, or benefit, or if the government will reimburse such state, political subdivision, or party for any portion of the money or property under such contract or for such grant, loan, or benefit.

§ 308.502 Basis for civil penalties and assessments.

(a) Claims. (1) A person who makes a false, fictitious, or fraudulent claim to the FDIC is subject to a civil penalty of up to $5,000 per claim. A claim is false, fictitious, or fraudulent if the person making the claim knows, or has reason to know, that:

(i) The claim is false, fictitious, or fraudulent; or

(ii) The claim includes, or is supported by, a written statement that asserts a material fact which is false, fictitious or fraudulent; or

(iii) The claim includes, or is supported by, a written statement that:

(A) Omits a material fact; and

(B) Is false, fictitious, or fraudulent as a result of that omission; and

(C) Is a statement in which the person making the statement has a duty to include the material fact; or

(iv) The claim seeks payment for providing property or services that the person has not provided as claimed.

(2) Each voucher, invoice, claim form, or other individual request or demand for property, services, or money constitutes a separate claim.

(3) A claim will be considered made to the FDIC, recipient, or party when the claim is actually made to an agent, fiscal intermediary, or other entity, including any state or political subdivision thereof, acting for or on behalf of the FDIC, recipient, or party.

(4) Each claim for property, services, or money that constitutes any one of the elements in paragraph (a)(1) of this section is subject to a civil penalty regardless of whether the property, services, or money is actually delivered or paid.

(5) If the FDIC has made any payment (including transferred property or provided services) on a claim, a person subject to a civil penalty under paragraph (a)(1) of this section will also be subject to an assessment of not more than twice the amount of such claim (or portion of the claim) that is determined to constitute a false, fictitious, or fraudulent claim under paragraph (a)(1) of this section. The assessment will be in lieu of damages sustained by the FDIC because of the claims.
(6) The amount of any penalty assessed under paragraph (a)(1) of this section will be adjusted for inflation in accordance with §308.132(d)(17) of this part.

(7) The penalty specified in paragraph (a)(1) of this section is in addition to any other remedy allowable by law.

(b) Statements. (1) A person who submits to the FDIC a false, fictitious or fraudulent statement is subject to a civil penalty of up to $5,000 per statement. A statement is false, fictitious or fraudulent if the person submitting the statement to the FDIC knows, or has reason to know, that:
   (i) The statement asserts a material fact which is false, fictitious, or fraudulent; or
   (ii) The statement omits a material fact that the person making the statement has a duty to include in the statement; and
   (iii) The statement contains or is accompanied by an express certification or affirmation of the truthfulness and accuracy of the contents of the statement.

(2) Each written representation, certification, or affirmation constitutes a separate statement.

(3) A statement will be considered made to the FDIC when the statement is actually made to an agent, fiscal intermediary, or other entity, including any state or political subdivision thereof, acting for or on behalf of the FDIC.

(4) The amount of any penalty assessed under paragraph (a)(1) of this section will be adjusted for inflation in accordance with §308.132(d)(17) of this part.

(5) The penalty specified in paragraph (a)(1) of this section is in addition to any other remedy allowable by law.

(c) Failure to file declaration/certification. Where, as a prerequisite to conducting business with the FDIC, a person is required by law to file one or more declarations and/or certifications, and the person intentionally fails to file such declaration/certification, the person will be subject to the civil penalties as prescribed by this subpart.

(d) Civil money penalties that are assessed under this subpart are subject to annual adjustments to account for inflation as required by the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (Pub. L. 114-74, sec. 701, 129 Stat. 584) (see also 12 CFR 308.132(d)(17)).

(e) Liability. (1) In any case in which it is determined that more than one person is liable for making a claim or statement under this section, each such person may be held jointly and severally liable for a civil penalty under this section.

(2) In any case in which it is determined that more than one person is liable for making a claim under this section on which the FDIC has made payment (including transferred property or provided services), an assessment may be imposed against any such person or jointly and severally against any combination of such persons.

§ 308.503 Investigations.

(a) If an investigating official concludes that a subpoena pursuant to the authority conferred by 31 U.S.C. 3804(a) is warranted:

(1) The subpoena will identify the person to whom it is addressed and the authority under which the subpoena is issued and will identify the records or documents sought;

(2) The investigating official may designate a person to act on his or her behalf to receive the documents sought; and

(3) The person receiving such subpoena will be required to provide the investigating official or the person designated to receive the documents a certification that the documents sought have been produced, or that such documents are not available, and the reasons therefor, or that such documents, suitably identified, have been withheld based upon the assertion of an identified privilege.

(b) If the investigating official concludes that an action under the PFCRA may be warranted, the investigating official will submit a report containing the findings and conclusions of such investigation to the reviewing official.
§ 308.504  Review by the reviewing official.

(a) If, based on the report of the investigating official under § 308.503(b) of this subpart, the reviewing official determines that there is adequate evidence to believe that a person is liable under § 308.502 of this subpart, the reviewing official will transmit to the Attorney General a written notice of the reviewing official’s intention to issue a complaint under § 308.506 of this subpart.

(b) Such notice will include:

(1) A statement of the reviewing official’s reasons for issuing a complaint;

(2) A statement specifying the evidence that supports the allegations of liability;

(3) A description of the claims or statements upon which the allegations of liability are based;

(4) An estimate of the amount of money or the value of property, services, or other benefits requested or demanded in violation of § 308.502 of this subpart;

(5) A statement of any exculpatory or mitigating circumstances that may relate to the claims or statements known by the reviewing official or the investigating official; and

(6) A statement that there is a reasonable prospect of collecting an appropriate amount of penalties and assessments. Such a statement may be based upon information then known, or upon an absence of any information indicating that the person may be unable to pay such amount.

§ 308.505  Prerequisites for issuing a complaint.

(a) The reviewing official may issue a complaint under § 308.506 of this subpart only if:

(1) The DOJ approves the issuance of a complaint in a written statement described in 31 U.S.C. 3803(b)(1); and

(2) In the case of allegations of liability under § 308.502(a) of this subpart with respect to a claim (or a group of related claims submitted at the same time as defined in paragraph (b) of this section) the reviewing official determines that the amount of money or the value of property or services demanded or requested does not exceed $150,000.

(b) For the purposes of this section, a group of related claims submitted at the same time will include only those claims arising from the same transaction (e.g., grant, loan, application, or contract) that are submitted simultaneously as part of a single request, demand, or submission.

(c) Nothing in this section will be construed to limit the reviewing official’s authority to join in a single complaint against a person claims that are unrelated or were not submitted simultaneously, regardless of the amount of money, or the value of property or services, demanded or requested.

§ 308.506  Complaint.

(a) On or after the date the DOJ approves the issuance of a complaint in accordance with 31 U.S.C. 3803(b)(1), the reviewing official may serve a complaint on the defendant, as provided in § 308.507 of this subpart.

(b) The complaint will state:

(1) The allegations of liability against the defendant, including the statutory basis for liability, or identification of the claims or statements that are the basis for the alleged liability, and the reasons why liability allegedly arises from such claims or statements;

(2) The maximum amount of penalties and assessments for which the defendant may be held liable;

(3) Instructions for filing an answer and to request a hearing, including a specific statement of the defendant’s right to request a hearing by filing an answer and to be represented by a representative; and
§ 308.509 Default upon failure to file an answer.

(a) If the defendant does not file an answer within the time prescribed in §308.508(a) of this subpart, the reviewing official may refer the complaint to the ALJ.

(b) Upon the referral of the complaint, the ALJ will promptly serve on defendant in the manner prescribed in §308.507 of this subpart, a notice that an initial decision will be issued under this section.

(c) If the defendant fails to answer, the ALJ will assume the facts alleged in the complaint to be true, and, if such facts establish liability under §308.502 of this subpart, the ALJ will issue an initial decision imposing the maximum amount of penalties and assessments allowed under the statute.

(d) Except as otherwise provided in this section, by failing to file a timely answer, the defendant waives any right to further review of the penalties and assessments imposed under paragraph (c) of this section, and the initial decision will become final and binding upon the parties 30 days after it is issued.

(e) If, before such an initial decision becomes final, the defendant files a motion with the ALJ seeking to reopen on the grounds that extraordinary circumstances prevented the defendant from filing an answer, the initial decision will be stayed pending the ALJ’s decision on the motion.

(f) If, in the motion to reopen under paragraph (e) of this section, the defendant can demonstrate extraordinary circumstances excusing the failure to
§ 308.510 Referral of complaint and answer to the ALJ.

Upon receipt of an answer, the reviewing official will file the complaint and answer with the ALJ. The reviewing official will include the name, address, and telephone number of a representative of the Corporation.

§ 308.511 Notice of hearing.

(a) When the ALJ receives the complaint and answer, the ALJ will promptly serve a notice of hearing upon the defendant in the manner prescribed by §308.507 of this subpart. At the same time, the ALJ will send a copy of such notice to the representative of the Corporation.

(b) The notice will include:

(1) The tentative time, date, and place, and the nature of the hearing;

(2) The legal authority and jurisdiction under which the hearing is to be held;

(3) The matters of fact and law to be asserted;

(4) A description of the procedures for the conduct of the hearing;

(5) The name, address, and telephone number of the representative of the Corporation and of the defendant, if any; and

(6) Other matters as the ALJ deems appropriate.

§ 308.512 Parties to the hearing.

(a) The parties to the hearing will be the defendant and the Corporation.

(b) Pursuant to the False Claims Act (31 U.S.C. 3730(c)(5)), a private plaintiff under the False Claims Act may participate in these proceedings to the extent authorized by the provisions of that Act.

§ 308.513 Separation of functions.

(a) The investigating official, the reviewing official, and any employee or agent of the FDIC who takes part in investigating, preparing, or presenting a particular case may not, in such case or a factually related case:

(1) Participate in the hearing as the ALJ;

(2) Participate or advise in the initial decision or the review of the initial decision by the Board, except as a witness or a representative in public proceedings; or

(3) Make the collection of penalties and assessments under 31 U.S.C. 3806.

(b) The ALJ will not be responsible to, or subject to the supervision or direction of, the investigating official or the reviewing official.

(c) Except as provided in paragraph (a) of this section, the representative for the FDIC will be an attorney employed in the FDIC’s Legal Division; however, the representative of the FDIC may not participate or advise in the review of the initial decision by the Board.
§ 308.514 Ex parte contacts.

No party or person (except employees of the ALJ’s office) will communicate in any way with the ALJ on any matter at issue in a case, unless on notice and opportunity for all parties to participate. This provision does not prohibit a person or party from inquiring about the status of a case or asking routine questions concerning administrative functions or procedures.

§ 308.515 Disqualification of reviewing official or ALJ.

(a) A reviewing official or ALJ in a particular case may disqualify himself or herself at any time.

(b) A party may file with the ALJ a motion for disqualification of a reviewing official or an ALJ. An affidavit alleging conflict of interest or other reason for disqualification must accompany the motion.

(c) Such motion and affidavit must be filed promptly upon the party’s discovery of reasons requiring disqualification, or such objections will be deemed waived.

(d) Such affidavit must state specific facts that support the party’s belief that personal bias or other reason for disqualification exists and the time and circumstances of the party’s discovery of such facts. The representative of record must certify that the affidavit is made in good faith and this certification must accompany the affidavit.

(e) Upon the filing of such a motion and affidavit, the ALJ will proceed no further in the case until he or she resolves the matter of disqualification in accordance with paragraph (f) of this section.

(f)(1) If the ALJ determines that a reviewing official is disqualified, the ALJ will dismiss the complaint without prejudice.

(2) If the ALJ disqualifies himself or herself, the case will be reassigned promptly to another ALJ.

(3) If the ALJ denies a motion to disqualify, the Board may determine the matter only as part of the Board’s review of the initial decision upon appeal, if any.

§ 308.516 Rights of parties.

Except as otherwise limited by this subpart, all parties may:

(a) Be accompanied, represented, and advised by a representative;

(b) Participate in any conference held by the ALJ;

(c) Conduct discovery;

(d) Agree to stipulations of fact or law which will be made part of the record;

(e) Present evidence relevant to the issues at the hearing;

(f) Present and cross-examine witnesses;

(g) Present oral arguments at the hearing as permitted by the ALJ; and

(h) Submit written briefs and proposed findings of fact and conclusions of law.

§ 308.517 Authority of the ALJ.

(a) The ALJ will conduct a fair and impartial hearing, avoid delay, maintain order, and assure that a record of the proceeding is made.

(b) The ALJ has the authority to:

(1) Set and change the date, time, and place of the hearing upon reasonable notice to the parties;

(2) Continue or recess the hearing in whole or in part for a reasonable period of time;

(3) Hold conferences to identify or simplify the issues, or to consider other matters that may aid in the expeditious disposition of the proceeding;

(4) Administer oaths and affirmations;

(5) Issue subpoenas requiring the attendance of witnesses and the production of documents at depositions or at hearings;

(6) Rule on motions and other procedural matters;

(7) Regulate the scope and timing of discovery;

(8) Regulate the course of the hearing and the conduct of representatives and parties;

(9) Examine witnesses;

(10) Receive, rule on, exclude, or limit evidence;

(11) Upon motion of a party, take official notice of facts, decide cases, in whole or in part, by summary judgment where there is no disputed issue of material fact;
(12) Conduct any conference, argument, or hearing on motions in person or by telephone; and
(13) Exercise such other authority as is necessary to carry out the responsibilities of the ALJ under this subpart.

(c) The ALJ does not have the authority to make any determinations regarding the validity of federal statutes or regulations or of directives, rules, resolutions, policies, orders or other such general pronouncements issued by the Corporation.

§ 308.518 Prehearing conferences.

(a) The ALJ may schedule prehearing conferences as appropriate.

(b) Upon the motion of any party, the ALJ will schedule at least one prehearing conference at a reasonable time in advance of the hearing.

(c) The ALJ may use prehearing conferences to discuss the following:

(1) Simplification of the issues;
(2) The necessity or desirability of amendments to the pleading, including the need for a more definite statement;
(3) Stipulations and admissions of fact as to the contents and authenticity of documents;
(4) Whether the parties can agree to submission of the case on a stipulated record;
(5) Whether a party chooses (subject to the objection of other parties) to waive appearance at an oral hearing and to submit only documentary evidence and written argument;
(6) Limitation of the number of witnesses;
(7) Scheduling dates for the exchange of witness lists and of proposed exhibits;
(8) Discovery;
(9) The time, date, and place for the hearing; and
(10) Such other matters as may tend to expedite the fair and just disposition of the proceedings.

(d) The ALJ may issue an order containing all matters agreed upon by the parties or ordered by the ALJ at a prehearing conference.

§ 308.519 Disclosure of documents.

(a) Upon written request to the reviewing official, the defendant may review any relevant and material documents, transcripts, records, and other materials that relate to the allegations set out in the complaint and upon which the findings and conclusions of the investigating official under §308.503(b) of this subpart are based, unless such documents are subject to a privilege under federal law. Upon payment of fees for duplication, the defendant may obtain copies of such documents.

(b) Upon written request to the reviewing official, the defendant also may obtain a copy of all exculpatory information in the possession of the reviewing official or investigating official relating to the allegations in the complaint, even if it is contained in a document that would otherwise be privileged. If the document would otherwise be privileged, only that portion containing exculpatory information must be disclosed.

(c) The notice sent to the Attorney General from the reviewing official as described in §308.504 of this subpart is not discoverable under any circumstances.

(d) The defendant may file a motion to compel disclosure of the documents subject to the provisions of this section. Such a motion may only be filed with the ALJ following the filing of an answer pursuant to §308.508 of this subpart.

§ 308.520 Discovery.

(a) The following types of discovery are authorized:

(1) Requests for production of documents for inspection and copying;
(2) Requests for admission of the authenticity of any relevant document or of the truth of any relevant fact;
(3) Written interrogatories; and
(4) Depositions.

(b) For the purpose of this section and §§308.521 and 308.522 of this subpart, the term documents includes information, documents, reports, answers, records, accounts, papers, and other data or documentary evidence. Nothing contained in this subpart will be interpreted to require the creation of a document.

(c) Unless mutually agreed to by the parties, discovery is available only as ordered by the ALJ. The ALJ will regulate the timing of discovery.
(d) **Motions for discovery.** (1) A party seeking discovery may file a motion with the ALJ and a copy of the requested discovery, or in the case of depositions, a summary of the scope of the proposed deposition, must accompany such motions.

(2) Within 10 days of service, a party may file an opposition to the motion and/or a motion for protective order as provided in §308.523 of this subpart.

(3) The ALJ may grant a motion for discovery only if he or she finds that the discovery sought:
   (i) Is necessary for the expeditious, fair, and reasonable consideration of the issues;
   (ii) Is not unduly costly or burdensome;
   (iii) Will not unduly delay the proceeding; and
   (iv) Does not seek privileged information.

(4) The burden of showing that discovery should be allowed is on the party seeking discovery.

(5) The ALJ may grant discovery subject to a protective order under §308.523 of this subpart.

(e) **Dispositions.** (1) If a motion for deposition is granted, the ALJ will issue a subpoena for the deponent, which may require the deponent to produce documents. The subpoena will specify the time, date, and place at which the deposition will be held.

(2) The party seeking to depose must serve the subpoena in the manner prescribed in §308.507 of this subpart.

(3) The deponent may file with the ALJ a motion to quash the subpoena or a motion for a protective order within 10 days of service.

(4) The party seeking to depose must provide for the taking of a verbatim transcript of the deposition, and must make the transcript available to all other parties for inspection and copying.

(f) Each party must bear its own costs of discovery.

§308.521 Exchange of witness lists, statements, and exhibits.

(a) At least 15 days before the hearing or at such other time as may be ordered by the ALJ, the parties must exchange witness lists, copies of prior statements of proposed witnesses, and copies of proposed hearing exhibits, including copies of any written statements that the party intends to offer in lieu of live testimony in accordance with §308.532(b) of this subpart. At the time such documents are exchanged, any party that intends to rely on the transcript of deposition testimony in lieu of live testimony at the hearing, if permitted by the ALJ, must provide each party with a copy of the specific pages of the transcript it intends to introduce into evidence.

(b) If a party objects, the ALJ will not admit into evidence the testimony of any witness whose name does not appear on the witness list or any exhibit not provided to the opposing party as provided in paragraph (a) of this section unless the ALJ finds good cause for the failure or that there is no prejudice to the objecting party.

(c) Unless another party objects within the time set by the ALJ, documents exchanged in accordance with paragraph (a) of this section will be deemed to be authentic for the purpose of admissibility at the hearing.

§308.522 Subpoenas for attendance at hearing.

(a) A party wishing to procure the appearance and testimony of any individual at the hearing may request that the ALJ issue a subpoena.

(b) A subpoena requiring the attendance and testimony of an individual may also require the individual to produce documents at the hearing.

(c) A party seeking a subpoena must file a written request not less than 15 days before the date fixed for the hearing unless otherwise allowed by the ALJ for good cause shown. Such request must specify any documents to be produced and must designate the witnesses and describe the address and location thereof with sufficient particularity to permit such witnesses to be found.

(d) The subpoena must specify the time, date, and place at which the witness is to appear and any documents the witness is to produce.

(e) The party seeking the subpoena must serve it in the manner prescribed in §308.507 of this subpart. A subpoena on a party or upon an individual under
§ 308.523 Protective order.

(a) A party or a prospective witness or deponent may file a motion for a protective order with respect to discovery sought by an opposing party or with respect to the hearing, seeking to limit the availability or disclosure of evidence.

(b) In issuing a protective order, the ALJ may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following:

(1) That the discovery will not be conducted;

(2) That the discovery will be conducted only on specified terms and conditions, including a designation of the time or place;

(3) That the discovery will be conducted only through a method of discovery other than that requested;

(4) That certain matters not be inquired into, or that the scope of discovery be limited to certain matters;

(5) That discovery be conducted with no one present except persons designated by the ALJ;

(6) That the contents of discovery or evidence be sealed or otherwise kept confidential;

(7) That a deposition after being sealed be opened only by order of the ALJ;

(8) That a trade secret or other confidential research, development, commercial information, or facts pertaining to any criminal investigation, proceeding, or other administrative investigation not be disclosed or be disclosed only in a designated way; or

(9) That the parties simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the ALJ.

§ 308.524 Witness fees.

The party requesting a subpoena must pay the cost of the fees and mileage of any witness subpoenaed in the amounts that would be payable to a witness in a proceeding in United States District Court. A check for witness fees and mileage must accompany the subpoena when served, except that when a subpoena is issued on behalf of the FDIC, a check for witness fees and mileage need not accompany the subpoena.

§ 308.525 Form, filing, and service of papers.

(a) Form. (1) Documents filed with the ALJ must include an original and two copies.

(2) Every pleading and paper filed in the proceeding must contain a caption setting forth the title of the action, the case number assigned by the ALJ, and a designation of the paper (e.g., motion to quash subpoena).

(3) Every pleading and paper must be signed by, and must contain the address and telephone number of the party or the person on whose behalf the paper was filed, or his or her representative.

(4) Papers are considered filed when they are mailed by certified or registered mail. Date of mailing may be established by a certificate from the party or its representative or by proof that the document was sent by certified or registered mail.

(b) Service. A party filing a document with the ALJ must, at the time of filing, serve a copy of such document on every other party. Service upon any party of any document other than those required to be served as prescribed in §308.507 of this subpart must be made by delivering a copy or by placing a copy of the document in the United States mail, postage prepaid, and addressed to the party’s last known address. When a party is represented by a representative, service must be made upon such representative in lieu of the actual party. The ALJ may authorize facsimile transmission as an acceptable form of service.

(c) Proof of service. A certificate by the individual serving the document by personal delivery or by mail, setting
§ 308.526 Computation of time.

(a) In computing any period of time under this subpart or in an order issued thereunder, the time begins with the day following the act, event, or default, and includes the last day of the period, unless it is a Saturday, Sunday, or legal holiday observed by the federal government, in which event it includes the next business day.

(b) When the period of time allowed is less than 7 days, intermediate Saturdays, Sundays, and legal holidays observed by the federal government will be excluded from the computation.

(c) Where a document has been served or issued by placing it in the mail, an additional 5 days will be added to the time permitted for any response.

§ 308.527 Motions.

(a) Any application to the ALJ for an order or ruling must be by motion. Motions must state the relief sought, the authority relied upon, and the facts alleged, and must be filed with the ALJ and served on all other parties. Motions may include, without limitation, motions for summary judgment.

(b) Except for motions made during a prehearing conference or at the hearing, all motions must be in writing. The ALJ may require that oral motions be reduced to writing.

(c) Within 15 days after a written motion is served, or any other time as may be fixed by the ALJ, any party may file a response to such motion.

(d) The ALJ may not grant a written motion before the time for filing responses thereto has expired, except upon consent of the parties or following a hearing on the motion, but may overrule or deny such motion without awaiting a response.

(e) The ALJ will make a reasonable effort to dispose of all outstanding motions prior to the beginning of the hearing.

§ 308.528 Sanctions.

(a) The ALJ may sanction a person, including any party or representative for:

(1) Failing to comply with an order, rule, or procedure governing the proceeding;

(2) Failing to prosecute or defend an action;

(3) Engaging in other misconduct that interferes with the speedy, orderly, or fair conduct of the hearing.

(b) Any such sanction, including but not limited to, those listed in paragraphs (c), (d), and (e) of this section, must reasonably relate to the severity and nature of the failure or misconduct.

(c) When a party fails to comply with an order, including an order for taking a deposition, the production of evidence within the party’s control, or a request for admission, the ALJ may:

(1) Draw an inference in favor of the requesting party with regard to the information sought; and

(2) In the case of requests for admission, deem each matter of which an admission is requested to be admitted;

(3) Prohibit the party failing to comply with such order from introducing evidence concerning, or otherwise relying upon, testimony relating to the information sought; and

(4) Strike any part of the related pleading or other submissions of the party failing to comply with such request.

(d) If a party fails to prosecute or defend an action under this subpart commenced by service of a notice of hearing, the ALJ may dismiss the action or may issue an initial decision imposing penalties and assessments.

(e) The ALJ may refuse to consider any motion, request, response, brief, or other document which is not filed in a timely fashion.

§ 308.529 The hearing and burden of proof.

(a) The ALJ will conduct a hearing on the record in order to determine whether the defendant is liable for a civil penalty or assessment under §§ 308.502 of this subpart, and, if so, the appropriate amount of any such civil penalty or assessment considering any aggravating or mitigating factors.

(b) The FDIC must prove defendant’s liability and any aggravating factors by a preponderance of the evidence.
§ 308.530 Determining the amount of penalties and assessments.

(a) In determining an appropriate amount of civil penalties and assessments, the ALJ and the Board, upon appeal, should evaluate any circumstances that mitigate or aggravate the violation and should articulate in their opinions the reasons that support the penalties and assessments they impose. Because of the intangible costs of fraud, the expense of investigating such conduct, and the need to deter others who might be similarly tempted, ordinarily double damages and a significant civil penalty should be imposed.

(b) Although not exhaustive, the following factors are among those that may influence the ALJ and the Board in determining the amount of penalties and assessments to impose with respect to the misconduct (i.e., the false, fictitious, or fraudulent claims or statement) charged in the complaint:

1. The number of false, fictitious, or fraudulent claims or statements;
2. The time period over which such claims or statements were made;
3. The degree of the defendant’s culpability with respect to the misconduct;
4. The amount of money or the value of the property, services, or benefit falsely claimed;
5. The value of the government’s actual loss as a result of the misconduct, including foreseeable consequential damages and the costs of investigation;
6. The relationship of the amount imposed as civil penalties to the amount of the government’s loss;
7. The potential or actual impact of the misconduct upon national defense, public health or safety, or public confidence in the management of government programs and operations, including particularly the impact on the intended beneficiaries of such programs;
8. Whether the defendant has engaged in a pattern of the same or similar misconduct;
9. Whether the defendant attempted to conceal the misconduct;
10. The degree to which the defendant has involved others in the misconduct or in concealing it;
11. Where the misconduct of employees or agents is imputed to the defendant, the extent to which the defendant’s practices fostered or attempted to preclude such misconduct;
12. Whether the defendant cooperated in or obstructed an investigation of the misconduct;
13. Whether the defendant assisted in identifying and prosecuting other wrongdoers;
14. Whether the defendant attempted to conceal the misconduct;
15. Whether the defendant has engaged in similar misconduct or to have dealt dishonestly with the Government of the United States or of a state, directly or indirectly; and
16. The need to deter the defendant and others from engaging in the same or similar misconduct.

(c) Nothing in this section will be construed to limit the ALJ or the Board from considering any other factors that in any given case may mitigate or aggravate the offense for which penalties and assessments are imposed.

(d) Civil money penalties that are assessed pursuant to this subpart are subject to adjustment on a four-year basis to account for inflation as required by section 4 of the Federal Civil Penalties Inflation Adjustment Act of 1990, as amended (codified at 28 U.S.C. 2461, note) (see also 12 CFR 308.132(c)(3)(xv)).

§ 308.531 Location of hearing.

(a) The hearing may be held:

1. In any judicial district of the United States in which the defendant resides or transacts business;
2. In any judicial district of the United States in which the claim or statement at issue was made; or
(3) In such other place as may be agreed upon by the defendant and the ALJ.

(b) Each party will have the opportunity to present argument with respect to the location of the hearing.

(c) The hearing will be held at the place and at the time ordered by the ALJ.

§ 308.532 Witnesses.

(a) Except as provided in paragraph (b) of this section, testimony at the hearing will be given orally by witnesses under oath or affirmation.

(b) At the discretion of the ALJ, testimony may be admitted in the form of a written statement or deposition. The party offering a written statement must provide all other parties with a copy of the written statement along with the last known address of the witness. Sufficient time must be allowed for other parties to subpoena the witness for cross-examination at the hearing. Prior written statements and deposition transcripts of witnesses identified to testify at the hearing must be exchanged as provided in § 308.521(a) of this subpart.

(c) The ALJ will exercise reasonable control over the mode and order of interrogating witnesses and presenting evidence so as to:

(1) Make the interrogation and presentation effective for the ascertainment of the truth;

(2) Avoid needless consumption of time; and

(3) Protect witnesses from harassment or undue embarrassment.

(d) The ALJ will permit the parties to conduct such cross-examination as may be required for a full and true disclosure of the facts.

(e) At the discretion of the ALJ, a witness may be cross-examined on matters relevant to the proceeding without regard to the scope of his or her direct examination. To the extent permitted by the ALJ, cross-examination on matters outside the scope of direct examination will be conducted in the manner of direct examination and may proceed by leading questions only if the witness is a hostile witness, an adverse party, or a witness identified with an adverse party.

(f) Upon motion of any party, the ALJ will order witnesses excluded so that they cannot hear the testimony of other witnesses. This rule does not authorize exclusion of:

(1) A party who is an individual;

(2) In the case of a party that is not an individual, an officer or employee of the party appearing for the entity pro se or designated by the party’s representative; or

(3) An individual whose presence is shown by a party to be essential to the presentation of its case, including an individual employed by the Corporation engaged in assisting the representative for the Corporation.

§ 308.533 Evidence.

(a) The ALJ will determine the admissibility of evidence.

(b) Except as provided in this subpart, the ALJ will not be bound by the Federal Rules of Evidence (28 U.S.C. App.). However, the ALJ may apply the Federal Rules of Evidence where appropriate, e.g., to exclude unreliable evidence.

(c) The ALJ will exclude irrelevant and immaterial evidence.

(d) Although relevant, evidence may be excluded if its probative value is substantially outweighed by the danger of unfair prejudice, confusion of the issues, or by considerations of undue delay or needless presentation of cumulative evidence.

(e) Although relevant, evidence may be excluded if it is privileged under federal law.

(f) Evidence concerning offers of compromise or settlement will be inadmissible to the extent provided in rule 408 of the Federal Rules of Evidence.

(g) The ALJ will permit the parties to introduce rebuttal witnesses and evidence.

(h) All documents and other evidence offered or taken for the record must be open to examination by all parties, unless otherwise ordered by the ALJ pursuant to § 308.523 of this subpart.

§ 308.534 The record.

(a) The hearing will be recorded by audio or videotape and transcribed. Transcripts may be obtained following the hearing from the ALJ at a cost not
§ 308.535 Post-hearing briefs.

The ALJ may require the parties to file post-hearing briefs. In any event, any party may file a post-hearing brief. The ALJ will fix the time for filing such briefs, not to exceed 60 days from the date the parties receive the transcript of the hearing or, if applicable, the stipulated record. Such briefs may be accompanied by proposed findings of fact and conclusions of law. The ALJ may permit the parties to file reply briefs.

§ 308.536 Initial decision.

(a) The ALJ will issue an initial decision based only on the record, which will contain findings of fact, conclusions of law, and the amount of any penalties and assessments imposed.

(b) The findings of fact will include a finding on each of the following issues:

(1) Whether the claims or statements identified in the complaint, or any portions of such claims or statements, violate §308.502 of this subpart; and

(2) If the person is liable for penalties or assessments, the appropriate amount of any such penalties or assessments considering any mitigating or aggravating factors that he or she finds in the case, such as those described in §308.530 of this subpart.

(c) The ALJ will promptly serve the initial decision on all parties within 90 days after the time for submission of post-hearing briefs and reply briefs (if permitted) has expired. The ALJ will at the same time serve all parties with a statement describing the right of any defendant determined to be liable for a civil penalty or assessment to file a motion for reconsideration with the ALJ or a notice of appeal with the Board. If the ALJ fails to meet the deadline contained in this paragraph, he or she will notify the parties of the reason for the delay and will set a new deadline.

(d) Unless the initial decision of the ALJ is timely appealed to the Board, or a motion for reconsideration of the initial decision is timely filed, the initial decision will constitute the final decision of the Board and will be final and binding on the parties 30 days after it is issued by the ALJ.

§ 308.537 Reconsideration of initial decision.

(a) Except as provided in paragraph (d) of this section, any party may file a motion for reconsideration of the initial decision within 20 days of receipt of the initial decision. If service is made by mail, receipt will be presumed to be 5 days from the date of mailing in the absence of proof to the contrary.

(b) Every motion for reconsideration must set forth the matters claimed to have been erroneously decided and the nature of the alleged errors. The motion must be accompanied by a supporting brief.

(c) Responses to the motions will be allowed only upon order of the ALJ.

(d) No party may file a motion for reconsideration of an initial decision that has been revised in response to a previous motion for reconsideration.

(e) The ALJ may dispose of a motion for reconsideration by denying it or by issuing a revised initial decision.

(f) If the ALJ denies a motion for reconsideration, the initial decision will constitute the final decision of the FDIC and will be final and binding on all parties 30 days after the ALJ denies the motion, unless the final decision is timely appealed to the Board in accordance with §308.538 of this subpart.

(g) If the ALJ issues a revised initial decision, that decision will constitute the final decision of the FDIC and will be final and binding on the parties 30 days after it is issued, unless it is timely appealed to the Board in accordance with §308.538 of this subpart.

§ 308.538 Appeal to the Board of Directors.

(a) Any defendant who has filed a timely answer and who is determined in an initial decision to be liable for a
§ 308.542 Collection of civil penalties and assessments.

(k) The Board will promptly serve each party to the appeal with a copy of the decision of the Board and a statement describing the right of any person determined to be liable for a penalty or an assessment to seek judicial review.

(i) Unless a petition for review is filed as provided in 31 U.S.C. 3805 after a defendant has exhausted all administrative remedies under this subpart and within 60 days after the date on which the Board serves the defendant with a copy of the Board’s decision, a determination that a defendant is liable under §308.502 of this subpart is final and is not subject to judicial review.

§ 308.539 Stays ordered by the Department of Justice.

If at any time the Attorney General or an Assistant Attorney General designated by the Attorney General transmits to the Board a written finding that continuation of the administrative process described in this subpart with respect to a claim or statement may adversely affect any pending or potential criminal or civil action related to such claim or statement, the Board will stay the process immediately. The Board may order the process resumed only upon receipt of the written authorization of the Attorney General.

§ 308.540 Stay pending appeal.

(a) An initial decision is stayed automatically pending disposition of a motion for reconsideration or of an appeal to the Board.

(b) No administrative stay is available following a final decision of the Board.

§ 308.541 Judicial review.

Section 3805 of title 31, United States Code, authorizes judicial review by an appropriate United States District Court of a final decision of the Board imposing penalties or assessments under this subpart and specifies the procedures for such review.

§ 308.542 Collection of civil penalties and assessments.

Sections 3806 and 3808(b) of title 31, United States Code, authorize actions...
§ 308.543 Right to administrative offset.

The amount of any penalty or assessment which has become final, or for which a judgment has been entered under §308.541 or §308.542 of this subpart, or any amount agreed upon in a compromise or settlement under §308.545 of this subpart, may be collected by administrative offset under 31 U.S.C. 3716, except that an administrative offset may not be made under this section against a refund of an overpayment of federal taxes, then or later owing by the United States to the defendant.

§ 308.544 Deposit in Treasury of United States.

All amounts collected pursuant to this subpart will be deposited as miscellaneous receipts in the Treasury of the United States, except as provided in 31 U.S.C. 3806(g).

§ 308.545 Compromise or settlement.

(a) Parties may make offers of compromise or settlement at any time.

(b) The reviewing official has the exclusive authority to compromise or settle a case under this subpart at any time after the date on which the reviewing official is permitted to issue a complaint and before the date on which the ALJ issues an initial decision.

(c) The Board has exclusive authority to compromise or settle a case under this subpart any time after the date on which the ALJ issues an initial decision, except during the pendency of any review under §308.541 of this subpart or during the pendency of any action to collect penalties and assessments under §308.542 of this subpart.

(d) The Attorney General has exclusive authority to compromise or settle a case under this subpart during the pendency of any review under §308.541 of this subpart or of any action to recover penalties and assessments under 31 U.S.C. 3806.

(e) The investigating official may recommend settlement terms to the reviewing official, the Board, or the Attorney General, as appropriate. The reviewing official may recommend settlement terms to the Board, or the Attorney General, as appropriate.

(f) Any compromise or settlement must be in writing.

§ 308.546 Limitations.

(a) The notice of hearing with respect to a claim or statement will be served in the manner specified in §308.507 of this subpart within 6 years after the date on which such claim or statement is made.

(b) If the defendant fails to file a timely answer, service of notice under §308.509(b) of this subpart will be deemed a notice of a hearing for purposes of this section.

(c) The statute of limitations may be extended by agreement of the parties.

Subpart U—Removal, Suspension, and Debarment of Accountants From Performing Audit Services

SOURCE: 68 FR 48270, Aug. 13, 2003, unless otherwise noted.

§ 308.600 Scope.

This subpart, which implements section 36(g)(4) of the FDIA (12 U.S.C. 1831m(g)(4)), provides rules and procedures for the removal, suspension, or debarment of independent public accountants and accounting firms from performing independent audit and attestation services required by section 36 of the FDIA (12 U.S.C. 1831m) for insured depository institutions for which the FDIC is the appropriate Federal banking agency.

§ 308.601 Definitions.

As used in this subpart, the following terms shall have the meaning given below unless the context requires otherwise:

(a) Accounting firm means a corporation, proprietorship, partnership, or other business firm providing audit services.

(b) Audit services means any service required to be performed by an independent public accountant by section 36 of the FDIA and 12 CFR part 363, including attestation services.
§ 308.602 Removal, suspension, or debarment.

(a) Good cause for removal, suspension, or debarment—(1) Individuals. The Board of Directors may remove, suspend, or debar an independent public accountant under section 36 of the FDIA from performing audit services for insured depository institutions for which the FDIC is the appropriate Federal banking agency if, after service of a notice of intention and opportunity for hearing in the matter, the Board of Directors finds that the accountant:

(i) Lacks the requisite qualifications to perform audit services;

(ii) Has knowingly or recklessly engaged in conduct that results in a violation of applicable professional standards, including those standards and conflicts of interest provisions applicable to accountants through the Sarbanes-Oxley Act of 2002 (Pub. L. 107–204, 116 Stat. 745 (2002)) (Sarbanes-Oxley Act) and developed by the Public Company Accounting Oversight Board and the Securities and Exchange Commission;

(iii) Has engaged in negligent conduct in the form of:

(A) A single instance of highly unreasonable conduct that results in a violation of applicable professional standards in circumstances in which an accountant knows, or should know, that heightened scrutiny is warranted; or

(B) Repeated instances of unreasonable conduct, each resulting in a violation of applicable professional standards, that indicate a lack of competence to perform audit services;

(iv) Has knowingly or recklessly given false or misleading information, or knowingly or recklessly participated in any way in the giving of false or misleading information, to the FDIC or any officer or employee of the FDIC;

(v) Has engaged in, or aided and abetted, a material and knowing or reckless violation of any provision of the Federal banking or securities laws or the rules and regulations thereunder, or any other law;

(vi) Has been removed, suspended, or debarred from practice before any Federal or state agency regulating the banking, insurance, or securities industries, other than by an action listed in §308.603, on grounds relevant to the provision of audit services; or

(vii) Is suspended or debarred for cause from practice as an accountant by any duly constituted licensing authority of any state, possession, commonwealth, or the District of Columbia.

(2) Accounting firms. If the Board of Directors determines that there is good cause for the removal, suspension, or debarment of a member or employee of an accounting firm under paragraph (a)(1) of this section, the Board of Directors also may remove, suspend, or debar such firm or one or more offices of such firm. In considering whether to remove, suspend, or debar an accounting firm or an office thereof, and the term of any sanction against an accounting firm under this section, the Board of Directors may consider, for example:

(i) The gravity, scope, or repetition of the act or failure to act that constitutes good cause for the removal, suspension, or debarment;

(ii) The adequacy of, and adherence to, applicable policies, practices, or procedures for the accounting firm's conduct of its business and the performance of audit services;

(iii) The selection, training, supervision, and conduct of members or employees of the accounting firm involved in the performance of audit services;

(iv) The extent to which managing partners or senior officers of the accounting firm have participated, directly, or indirectly through oversight or review, in the act or failure to act; and

(v) The extent to which the accounting firm has, since the occurrence of the act or failure to act, implemented corrective internal controls to prevent its recurrence.

(3) Limited scope orders. An order of removal, suspension (including an immediate suspension), or debarment may, at the discretion of the Board of
Directors, be made applicable to a limited number of insured depository institutions for which the FDIC is the appropriate Federal banking agency.

(4) Remedies not exclusive. The remedies provided in this subpart are in addition to any other remedies the FDIC may have under any other applicable provision of law, rule, or regulation.

(b) Proceedings to remove, suspend or debar—(1) Initiation of formal removal, suspension, or debarment proceedings. The Board of Directors may initiate a proceeding to remove, suspend, or debar an accountant or accounting firm from performing audit services by issuing a written notice of intention to take such action that names the individual or firm as a respondent and describes the nature of the conduct that constitutes good cause for such action.

(2) Hearings under paragraph (b) of this section. An accountant or firm named as a respondent in the notice issued under paragraph (b)(1) of this section may request a hearing on the allegations contained in the notice. Hearings conducted under this paragraph shall be conducted in the same manner as other hearings under the Uniform Rules of Practice and Procedure (12 CFR part 308, subpart A) (Uniform Rules).

(c) Immediate suspension from performing audit services—(1) In general. If the Board of Directors serves a written notice of intention to remove, suspend, or debar an accountant or accounting firm from performing audit services, the Board of Directors may, with due regard for the public interest and without a preliminary hearing, immediately suspend such accountant or firm from performing audit services for insured depository institutions for which the FDIC is the appropriate Federal banking agency if the Board of Directors:

(i) Has a reasonable basis to believe that the accountant or accounting firm has engaged in conduct (specified in the notice served upon the accountant or accounting firm under paragraph (b)(1) of this section) that would constitute grounds for removal, suspension, or debarment under paragraph (a) of this section;

(ii) Determines that immediate suspension is necessary to avoid immediate harm to an insured depository institution or its depositors or to the depository system as a whole; and

(iii) Serves such respondent with written notice of the immediate suspension.

(2) Procedures. An immediate suspension notice issued under this paragraph will become effective upon service. Such suspension will remain in effect until the date the Board of Directors dismisses the charges contained in the notice of intention, or the effective date of a final order of removal, suspension, or debarment issued by the Board of Directors to the respondent.

(3) Petition to stay. Any accountant or accounting firm immediately suspended from performing audit services in accordance with paragraph (c)(1) of this section may, within 10 calendar days after service of the notice of immediate suspension, file a petition with the Executive Secretary for a stay of such immediate suspension. If no petition is filed within 10 calendar days, the immediate suspension shall remain in effect.

(4) Hearing on petition. Upon receipt of a stay petition, the Executive Secretary will designate a presiding officer who will fix a place and time (not more than 10 calendar days after receipt of the petition, unless extended at the request of petitioner) at which the imme-

(5) Decision on petition. Within 30 calendar days after the hearing, the presiding officer will issue a decision. The
§ 308.604 Notice of removal, suspension, or debarment.

(a) Notice to the public. Upon the issuance of a final order for removal, suspension, or debarment of an independent public accountant or accounting firm from providing audit services, the FDIC will make the order publicly available and provide notice of the order to the other Federal banking agencies.

(b) Notice to the FDIC by accountants and firms. An accountant or accounting firm that provides audit services to any insured depository institution for which the FDIC is the appropriate Federal banking agency must provide the FDIC with written notice of:

(1) any currently effective order or other action described in §§ 308.602(a)(1)(vi) through (a)(1)(vii) or §§ 308.603(a)(2) through (a)(3); and

(2) any currently effective action by the Public Company Accounting Oversight Board under sections 105(c)(4)(C) or (G) of the Sarbanes-Oxley Act (15 U.S.C. 7215(c)(4)(C) or (G)).

(c) Timing and place of notice. Written notice required by this paragraph shall be given no later than 15 calendar days following the effective date of an order or action, or 15 calendar days before an accountant or accounting firm accepts an engagement to provide audit services, whichever date is earlier. The written notice must be filed by the independent public accountant or accounting firm with the FDIC, Accounting and Securities Disclosure Section,
§ 308.605 Application for reinstatement.

(a) Form of petition. Unless otherwise ordered by the Board of Directors, an application for reinstatement by an independent public accountant, an accounting firm, or an office of a firm that was removed, suspended, or debarred under §308.602 may be made in writing at any time. The application must comply with the requirements of §303.3 of this chapter.

(b) Procedure. An applicant for reinstatement under this section may, in the sole discretion of the Board of Directors, be afforded a hearing. In reinstatement proceedings, the person seeking reinstatement shall bear the burden of going forward with an application and proving the grounds asserted in support of the application, and the Board of Directors may, in its sole discretion, direct that any reinstatement proceeding be limited to written submissions. The removal, suspension, or debarment shall continue until the Board of Directors, for good cause shown, has reinstated the applicant or until the suspension period has expired. The filing of an application for reinstatement will not stay the effectiveness of the removal, suspension, or debarment of an accountant or firm.

PART 309—DISCLOSURE OF INFORMATION

Sec.
309.1 Purpose and scope.
309.2 Definitions.
309.3 Federal Register publication.
309.4 Publicly available records.
309.5 Procedures for requesting records.
309.6 Disclosure of exempt records.
309.7 Service of process.

SOURCE: 60 FR 61465, Nov. 30, 1995, unless otherwise noted.

§ 309.1 Purpose and scope.

This part sets forth the basic policies of the Federal Deposit Insurance Corporation regarding information it maintains and the procedures for obtaining access to such information, including disclosure of information transferred to Federal Deposit Insurance Corporation from the Office of Thrift Supervision pursuant to section 312 and 323 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, Public Law 111–203. Section 309.2 sets forth definitions applicable to this part 309. Section 309.3 describes the types of information and documents typically published in the Federal Register. Section 309.4 explains how to access public records maintained on the Federal Deposit Insurance Corporation’s World Wide Web page and in the Federal Deposit Insurance Corporation’s Public Information Center or “PIC,” and describes the categories of records generally found there. Section 309.5 implements the Freedom of Information Act (5 U.S.C. 552). Section 309.6 authorizes the discretionary disclosure of exempt records under certain limited circumstances. Section 309.7 outlines procedures for serving a subpoena or other legal process to obtain information maintained by the FDIC.

[76 FR 35965, June 21, 2011]
§ 309.4 Publicly available records.

(a) Records available on the FDIC’s World Wide Web page—(1) Discretionary release of documents. The FDIC encourages the public to explore the wealth of resources available on the FDIC’s World Wide Web page, located at: http://www.fdic.gov. The FDIC has elected to publish a broad range of materials on its World Wide Web page, including consumer guides; financial and statistical information of interest to the banking industry; and information concerning the FDIC’s responsibilities and structure.

(b) Documents required to be made available for inspection in an electronic format. (1) The following types of documents created on or after November 1, 1996, and required to be made available for inspection in an electronic format, may be found on the FDIC’s World Wide Web page located at: http://www.fdic.gov:

(A) Final opinions, including concurring and dissenting opinions, as well as
§ 309.5

12 CFR Ch. III (1–1–17 Edition)

final orders and written agreements, made in the adjudication of cases:

(B) Statements of policy and interpretations adopted by the Board of Directors that are not published in the Federal Register;

(C) Administrative staff manuals and instructions to staff that affect the public;

(D) Copies of all records released to any person under §309.5:

(1) That, because of the nature of their subject matter, the FDIC determines have become or are likely to become the subject of subsequent requests for substantially the same records; or

(2) That have been requested 3 or more times; and

(E) A general index of the records referred to in paragraph (a)(2)(i)(D) of this section.

(ii) To the extent permitted by law, the FDIC may delete identifying details when it makes available or publishes a final opinion, final order, statement of policy, interpretation or staff manual or instruction. If redaction is necessary, the FDIC will, to the extent technically feasible, indicate the amount of material deleted at the place in the record where such deletion is made unless that indication in and of itself will jeopardize the purpose for the redaction.

(b) Public Information Center. The FDIC maintains a Public Information Center or “PIC” that contains Corporate records that the Freedom of Information Act requires be made available for regular inspection and copying, as well as any records or information the FDIC, in its discretion, has regularly made available, to the public. The PIC has extensive materials of interest to the public, including many Reports, Summaries and Manuals used or published by the Corporation that are made available, by appointment, for inspection and copying. The PIC is open from 9 a.m. to 4 p.m., Monday through Friday, excepting Federal holidays. It is located at 3501 North Fairfax Drive, Room E–1005, Arlington, VA 22226. The PIC may be reached during business hours by calling 1(877) 275–3342 or 1–(703) 562–2200.

(c) Applicable fees. (i) If applicable, fees for furnishing records under this section are as set forth in §309.5(f) except that all categories of requesters shall be charged duplication costs.

(ii) Information on the FDIC’s World Wide Web page is available to the public without charge. If, however, information available on the FDIC’s World Wide Web page is provided pursuant to a Freedom of Information Act request processed under §309.5, then fees apply and will be assessed pursuant to §309.5(f).

§ 309.5 Procedures for requesting records.

(a) Definitions. For purposes of this section:

(1) Commercial use request means a request from or on behalf of a requester who seeks records for a use or purpose that furthers the commercial, trade, or profit interests of the requester or the person on whose behalf the request is made. In determining whether a request falls within this category, the FDIC will determine the use to which a requester will put the records requested and seek additional information as it deems necessary.

(2) Direct costs means those expenditures the FDIC actually incurs in searching for, duplicating, and, in the case of commercial requesters, reviewing records in response to a request for records.

(3) Duplication means the process of making a copy of a record necessary to respond to a request for records or for inspection of original records that contain exempt material or that cannot otherwise be directly inspected. Such copies can take the form of paper copy, microfilm, audiovisual records, or machine readable records (e.g., magnetic tape or computer disk).

(4) Educational institution means a preschool, a public or private elementary or secondary school, an institution of undergraduate or graduate higher education, an institution of professional education, and an institution of vocational education, which operates a program or programs of scholarly research.
Federal Deposit Insurance Corporation § 309.5

(5) Noncommercial scientific institution means an institution that is not operated on a commercial basis as that term is defined in paragraph (a)(1) of this section, and which is operated solely for the purpose of conducting scientific research, the results of which are not intended to promote any particular product or industry.

(6) Representative of the news media means any person or entity that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience. The term news means information that is about current events or that would be of current interest to the public. Examples of news-media entities are television or radio stations broadcasting to the public at large and publishers of periodicals (but only if such entities qualify as disseminators of news) who make their products available for purchase by or subscription by or free distribution to the general public. These examples are not all-inclusive. Moreover, as methods of news delivery evolve (for example, the adoption of the electronic dissemination of newspapers through telecommunications services), such alternative media will be considered to be news-media entities. A freelance journalist will be regarded as working for a news-media entity if the journalist can demonstrate a solid basis for expecting publication through that entity, whether or not the journalist is actually employed by that entity. A publication contract would present a solid basis for such an expectation; the FDIC may also consider the past publication record of the requester in making this determination.

(7) Review means the process of examining records located in response to a request for records to determine whether any portion of any record is permitted to be withheld as exempt information. It includes processing any record for disclosure, e.g., doing all that is necessary to excise them or otherwise prepare them for release.

(8) Search includes all time spent looking for material that is responsive to a request, including page-by-page or line-by-line identification of material within records. Searches may be done manually and/or by computer using existing programming.

(b) Making a request for records. (1) The request shall be submitted in writing to the Freedom of Information Act/Privacy Act Group (“FOIA/PA Group”), Legal Division:

(i) By completing the online request form located on the FDIC’s World Wide Web page, found at: http://www.fdic.gov;

(ii) By facsimile clearly marked Freedom of Information Act Request to the FOIA/PA Group: (703) 562–2797; or

(iii) By sending a letter to: Federal Deposit Insurance Corporation, Attn: FOIA/PA Group, 550 17th Street, NW., Washington, DC 20429.

(2) The request shall contain the following information:

(i) The name and address of the requester, an electronic mail address, if available, and the telephone number at which the requester may be reached during normal business hours;

(ii) Whether the requester is an educational institution, noncommercial scientific institution, or news media representative;

(iii) A statement agreeing to pay the applicable fees, or a statement identifying a maximum fee that is acceptable to the requester, or a request for a waiver or reduction of fees that satisfies paragraph (f)(1)(x) of this section; and

(iv) The preferred form and format of any responsive information requested, if other than paper copies.

(3) A request for identifiable records shall reasonably describe the records in a way that enables the FDIC’s staff to identify and produce the records with reasonable effort and without unduly burdening or significantly interfering with any of the FDIC’s operations.

(c) Defective requests. The FDIC need not accept or process a request that does not reasonably describe the records requested or that does not otherwise comply with the requirements of this part. The FDIC may return a defective request, specifying the deficiency. The requester may submit a corrected request, which will be treated as a new request.

(d) Processing requests—(1) Receipt of requests. Upon receipt of a request that satisfies paragraph (b) of this section, the FOIA/PA Group will acknowledge
§ 309.5 12 CFR Ch. III (1–1–17 Edition)

receipt of the request in writing to the requester and provide the requester with an individualized tracking number for the request. The date of receipt for such request, including one that is addressed incorrectly or that is referred by another agency, is the date the FOIA/PA Group actually receives the request.

(2) Multitrack processing. (i) The FDIC provides different levels of processing for categories of requests under this part. Requests for records that are readily identifiable by the FOIA/PA Group, and that have already been cleared for public release may qualify for fast-track processing. All other requests shall be handled under normal processing procedures, unless expedited processing has been granted pursuant to paragraph (d)(3) of this section.

(ii) The FDIC will make the determination whether a request qualifies for fast-track processing. A requester may contact the FOIA/PA Group to learn whether a particular request has been assigned to fast-track processing. If the request has not qualified for fast-track processing, the requester will be given an opportunity to refine the request in order to qualify for fast-track processing. Changes made to requests to obtain faster processing must be in writing.

(3) Expedited processing. (i) Where a person requesting expedited access to records has demonstrated a compelling need for the records, or where the FDIC has determined to expedite the response, the FDIC shall process the request as soon as practicable. To show a compelling need for expedited processing, the requester shall provide a statement demonstrating that:

(A) The failure to obtain the records on an expedited basis could reasonably be expected to pose an imminent threat to the life or physical safety of an individual; or

(B) The requester can establish that they are primarily engaged in information dissemination as their main professional occupation or activity, and there is urgency to inform the public of the government activity involved in the request; and

(C) The requester’s statement must be certified to be true and correct to the best of the person’s knowledge and belief and explain in detail the basis for requesting expedited processing.

(ii) The formality of the certification required to obtain expedited treatment may be waived by the FDIC as a matter of administrative discretion.

(4) A requester seeking expedited processing will be notified whether expedited processing has been granted within ten (10) working days of the receipt of the request. If the request for expedited processing is denied, the requester may file an appeal pursuant to the procedures set forth in paragraph (i) of this section, and the FDIC shall respond to the appeal within ten (10) working days after receipt of the appeal.

(5) Priority of responses. Consistent with sound administrative process the FDIC processes requests in the order they are received in the separate processing tracks. However, in the agency’s discretion, or upon a court order in a matter to which the FDIC is a party, a particular request may be processed out of turn.

(6) Checking status of request. A requester may check on the status of a request using the tracking number assigned to the request to obtain information about the request including the date on which the FDIC originally received the request and an estimated date on which the FDIC will complete action on the request. The status of a request may be obtained:

(i) Online at the FDIC’s FOIA Service Center, at http://www.fdic.gov, if the request was submitted electronically using the FDIC’s online FOIA request form; or

(ii) By calling the FDIC’s FOIA Service Center at (202) 898–7021, if the request was submitted by email, facsimile or regular mail.

(7) Notification. (i) The time for response to requests will be twenty (20) working days except:

(A) In the case of expedited treatment under paragraph (d)(3) of this section;

(B) Where the running of such time is suspended for the calculation of a cost estimate for the requester if the FDIC determines that the processing of the request may exceed the requester’s maximum fee provision or if the
charges are likely to exceed $250 as provided for in paragraph (f)(1)(v) of this section;

(C) Where the running of such time is suspended for the payment of fees pursuant to the paragraphs (d)(6)(1)(B) and (f)(1) of this section; or

(D) In unusual circumstances, as defined in 5 U.S.C. 552(a)(6)(B) and further described in paragraph (d)(6)(iii) of this section.

(ii) In unusual circumstances as referred to in paragraph (d)(6)(i)(D) of this section, the time limit may be extended for a period of:

(A) Ten (10) working days as provided by written notice to the requester, setting forth the reasons for the extension and the date on which a determination is expected to be dispatched; or

(B) Such alternative time period as agreed to by the requester or as reasonably determined by the FDIC when the FDIC notifies the requester that the request cannot be processed in the specified time limit.

(iii) Unusual circumstances may arise when:

(A) The records are in facilities, such as field offices or storage centers, that are not located at the FDIC's Washington office;

(B) The records requested are voluminous or are not in close proximity to one another; or

(C) There is a need to consult with another agency or among two or more components of the FDIC having a substantial interest in the determination.

(8) Response to request. In response to a request that satisfies the requirements of paragraph (b) of this section, a search shall be conducted of records maintained by the FDIC in existence on the date of receipt of the request, and a review made of any responsive information located. The FDIC shall notify the requester of:

(i) The FDIC's determination of the request;

(ii) The reasons for the determination;

(iii) The right of the requester to seek assistance from the FDIC's FOIA Public Liaison; and

(iv) If the response is a denial of an initial request or if any information is withheld, the FDIC will advise the requester in writing:

(A) If the denial is in part or in whole;

(B) The name and title of each person responsible for the denial (when other than the person signing the notification);

(C) The exemptions relied on for the denial;

(D) The right of the requester to appeal the denial to the FDIC's General Counsel within 90 calendar days following receipt of the notification, as specified in paragraph (i) of this section; and

(E) The right of the requester to seek dispute resolution services from the FDIC's FOIA Public Liaison and/or the Office of Government Information Services (OGIS).

(e) Providing responsive records. (1) Copies of requested records shall be sent to the requester by regular U.S. mail to the address indicated in the request, unless the requester elects to take delivery of the documents at the FDIC or makes other acceptable arrangements, or the FDIC deems it appropriate to send the documents by another means.

(2) The FDIC shall provide a copy of the record in any form or format requested if the record is readily reproducible by the FDIC in that form or format, but the FDIC need not provide more than one copy of any record to a requester.

(3) By arrangement with the requester, the FDIC may elect to send the responsive records electronically if a substantial portion of the request is in electronic format. If the information requested is made pursuant to the Privacy Act of 1974, 5 U.S.C. 552a, it will not be sent by electronic means unless reasonable security measures can be provided.

(f) Fees—(1) General rules. (i) Persons requesting records of the FDIC shall be charged for the direct costs of search, duplication, and review as set forth in paragraphs (f)(2) and (f)(3) of this section, unless such costs are less than the FDIC's cost of processing the requester's remittance.

(ii) Requesters will be charged for search and review costs even if responsive records are not located or, if located, are determined to be exempt from disclosure.
(iii) Multiple requests seeking similar or related records from the same requester or group of requesters will be aggregated for the purposes of this section.

(iv) If the FDIC determines that the estimated costs of search, duplication, or review of requested records will exceed the dollar amount specified in the request, or if no dollar amount is specified, the FDIC will advise the requester of the estimated costs (if greater than the FDIC’s cost of processing the requester’s remittance). The requester must agree in writing to pay the costs of search, duplication, and review prior to the FDIC initiating any records search.

(v) If the FDIC estimates that its search, duplication, and review costs will exceed $250.00, the requester must pay an amount equal to 20 percent of the estimated costs prior to the FDIC initiating any records search.

(vi) The FDIC shall ordinarily collect all applicable fees under the final invoice before releasing copies of requested records to the requester.

(vii) The FDIC may require any requester who has previously failed to pay the charges under this section within 30 calendar days of mailing of the invoice to pay in advance the total estimated costs of search, duplication, and review. The FDIC may also require a requester who has any charges outstanding in excess of 30 calendar days following mailing of the invoice to pay the full amount due, or demonstrate that the fee has been paid in full, prior to the FDIC initiating any additional records search.

(viii) The FDIC may begin assessing interest charges on unpaid bills on the 31st day following the day on which the invoice was sent. Interest will be at the rate prescribed in section 3717 of title 31 of the United States Code and will accrue from the date of the invoice.

(ix) The time limit for the FDIC to respond to a request will not begin to run until the FDIC has received the requester’s written agreement under paragraph (f)(1)(iv) of this section, and advance payment under paragraph (f)(1)(v) or (vii) of this section, or payment of outstanding charges under paragraph (f)(1)(vii) or (viii) of this section.

(x) As part of the initial request, a requester may ask that the FDIC waive or reduce fees if disclosure of the records is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester. Determinations as to a waiver or reduction of fees will be made by the FOIA/PA Group, Legal Division (or designee) and the requester will be notified in writing of his/her determination. A determination not to grant a request for a waiver or reduction of fees under this paragraph may be appealed to the FDIC’s General Counsel (or designee) pursuant to the procedure set forth in paragraph (i) of this section.

(2) Chargeable fees by category of requester.

(i) Commercial use requesters shall be charged search, duplication and review costs.

(ii) Educational institutions, non-commercial scientific institutions and news media representatives shall be charged duplication costs, except for the first 100 pages.

(iii) Requesters not described in paragraph (f)(2)(i) or (ii) of this section shall be charged the full reasonable direct cost of search and duplication, except for the first two hours of search time and first 100 pages of duplication.

(3) Fee schedule. The dollar amount of fees which the FDIC may charge to records requesters will be established by the Chief Financial Officer of the FDIC (or designee). The FDIC may charge fees that recoup the full allowable direct costs it incurs. Fees are subject to change as costs change.

(i) Manual searches for records. The FDIC will charge for manual searches for records at the basic rate of pay of the employee making the search plus 16 percent to cover employee benefit costs. Where a single class of personnel (e.g., all clerical, all professional, or all executive) is used exclusively, the FDIC, at its discretion, may establish and charge an average rate for the range of grades typically involved.

(ii) Computer searches for records. The fee for searches of computerized records is the actual direct cost of the
search, including computer time, computer runs, and the operator’s time apportioned to the search. The fee for a computer printout is the actual cost. The fees for computer supplies are the actual costs. The FDIC may, at its discretion, establish and charge a fee for computer searches based upon a reasonable FDIC-wide average rate for central processing unit operating costs and the operator’s basic rate of pay plus 16 percent to cover employee benefit costs.

(iii) Duplication of records. (A) The per-page fee for paper copy reproduction of documents is the average FDIC-wide cost based upon the reasonable direct costs of making such copies.

(B) For other methods of reproduction or duplication, the FDIC will charge the actual direct costs of reproducing or duplicating the documents.

(iv) Review of records. The FDIC will charge commercial use requesters for the review of records at the time of processing the initial request to determine whether they are exempt from mandatory disclosure at the basic rate of pay of the employee making the search plus 16 percent to cover employee benefit costs. Where a single class of personnel (e.g., all clerical, all professional, or all executive) is used exclusively, the FDIC, at its discretion, may establish and charge an average rate for the range of grades typically involved. The FDIC will not charge at the administrative appeal level for review of an exemption already applied. When records or portions of records are withheld in full under an exemption which is subsequently determined not to apply, the FDIC may charge for a subsequent review to determine the applicability of other exemptions not previously considered.

(v) Other services. Complying with requests for special services, other than a readily produced electronic form or format, is at the FDIC’s discretion. The FDIC may recover the full costs of providing such services to the requester.

(4) Publication of fee schedule and effective date of changes. (i) The fee schedule is made available on the FDIC’s World Wide Web page, found at http://www.fdic.gov.

(ii) The fee schedule will be set forth in the “Notice of Federal Deposit Insurance Corporation Records Fees” issued in December of each year or in such “Interim Notice of Federal Deposit Insurance Corporation Records Fees” as may be issued. Copies of such notices may be obtained at no charge from the Federal Deposit Insurance Corporation, FOIA/PA Group, 550 17th Street NW., Washington, DC 20429, and are available on the FDIC’s World Wide Web page as noted in paragraph (f)(4)(i) of this section.

(iii) The fees implemented in the December or Interim Notice will be effective 30 days after issuance.

(5) Use of contractors. The FDIC may contract with independent contractors to locate, reproduce, and/or disseminate records; provided, however, that the FDIC has determined that the ultimate cost to the requester will be no greater than it would be if the FDIC performed these tasks itself. In no case will the FDIC contract out responsibilities which the Freedom of Information Act (FOIA) (5 U.S.C. 552) provides that the FDIC alone may discharge, such as determining the applicability of an exemption or whether to waive or reduce fees.

(g) Exempt information. A request for records may be denied if the requested record contains information which falls into one or more of the following categories. If the requested record contains both exempt and nonexempt information, the nonexempt portions which may reasonably be segregated from the exempt portions will be released to the requester. If redaction is necessary, the FDIC will, to the extent technically feasible, indicate the amount of material deleted at the place in the record where such deletion is made unless that indication in and of itself will jeopardize the purpose for the redaction. The categories of exempt records are as follows:

Classification of a record as exempt from disclosure under the provisions of this paragraph (g) shall not be construed as authority to withhold the record if it is otherwise subject to disclosure under the Privacy Act of 1974 (5 U.S.C. 552a) or other federal statute, any applicable regulation of FDIC or any other federal agency having jurisdiction thereof, or any directive or order of any court of competent jurisdiction.
(1) Records that are specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such Executive Order;

(2) Records related solely to the internal personnel rules and practices of the FDIC;

(3) Records specifically exempted from disclosure by statute, provided that such statute:
   (i)(A) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue; or
   (B) Establishes particular criteria for withholding or refers to particular types of matters to be withheld; and
   (ii) if enacted after the date of enactment of the OPEN FOIA Act of 2009, specifically cites to 5 U.S.C. 552(b)(3);

(4) Trade secrets and commercial or financial information obtained from a person that is privileged or confidential;

(5) Interagency or intra-agency memoranda or letters that would not be available by law to a private party in litigation with the FDIC;

(6) Personnel, medical, and similar files (including financial files) the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Records compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records:
   (i) Could reasonably be expected to interfere with enforcement proceedings;
   (ii) Would deprive a person of a right to a fair trial or an impartial adjudication;
   (iii) Could reasonably be expected to constitute an unwarranted invasion of personal privacy;
   (iv) Could reasonably be expected to disclose the identity of a confidential source, including a state, local, or foreign agency or authority or any private institution which furnished records on a confidential basis;
   (v) Would disclose techniques and procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law; or
   (vi) Could reasonably be expected to endanger the life or physical safety of any individual;

(8) Records that are contained in or related to examination, operating, or condition reports prepared by, or on behalf of, or for the use of the FDIC or any agency responsible for the regulation or supervision of financial institutions;

(9) geological and geophysical information and data, including maps, concerning wells.

(h) Dispute resolution. A requester seeking to engage in dispute resolution may make a request to the FOIA Public Liaison and/or OGIS by following the procedures set forth online in the FDIC’s FOIA Service Center at http://www.fdic.gov.

(i) Appeals. (1) Appeals should be addressed to the Federal Deposit Insurance Corporation, Attn: FOIA/PA Group, FDIC, 550 17th Street, NW., Washington, DC 20429.

(2) A person whose initial request for records under this section, or whose request for a waiver of fees under paragraph (f)(1)(x) of this section, has been denied, either in part or in whole, has the right to appeal the denial to the FDIC’s General Counsel (or designee) within 90 calendar days after receipt of notification of the denial. Appeals of denials of initial requests or for a waiver of fees must be in writing and include any additional information relevant to consideration of the appeal.

(3) Except in the case of an appeal for expedited treatment under paragraph (d)(3) of this section, the FDIC will notify the appellant in writing within 20 business days after receipt of the appeal and will state:
   (i) Whether it is granted or denied in whole or in part;
   (ii) The name and title of each person responsible for the denial (if other than the person signing the notification);
   (iii) The exemptions relied upon for the denial in the case of initial requests for records; and
   (iv) The right to judicial review of the denial under the FOIA.
Federal Deposit Insurance Corporation

§ 309.6 Disclosure of exempt records.

(a) Disclosure prohibited. Except as provided in paragraph (b) of this section or by 12 CFR part 310, no person shall disclose or permit the disclosure of any exempt records, or information contained therein, to any persons other than those officers, directors, employees, or agents of the Corporation who have a need for such records in the performance of their official duties. In any instance in which any person has possession, custody or control of FDIC exempt records or information contained therein, all copies of such records shall remain the property of the Corporation and under no circumstances shall any person, entity or agency disclose or make public in any manner the exempt records or information without written authorization from the Director of the Corporation’s Division having primary authority over the records or information as provided in this section.

(b) Disclosure authorized. Exempt records or information of the Corporation may be disclosed only in accordance with the conditions and requirements set forth in this paragraph (b). Requests for discretionary disclosure of exempt records or information pursuant to this paragraph (b) may be submitted directly to the Division having primary authority over the exempt records or information to the FOIA/PA Group for forwarding to the appropriate Division having primary authority over the records sought. Such administrative request must clearly state that it seeks discretionary disclosure of exempt records, clearly identify the records sought, provide sufficient information for the Corporation to evaluate whether there is good cause for disclosure, and meet all other conditions set forth in paragraph (b)(1) through (10) of this section. Information regarding the appropriate FDIC Division having primary authority over a particular record or records may be obtained from the FOIA/PA Group. Authority to disclose or authorize disclosure of exempt records of the Corporation is delegated as follows:

(1) Disclosure to depository institutions. The Director of the Corporation’s Division having primary authority over the exempt records, or designee, may disclose to any director or authorized officer, employee or agent of any depository institution, information contained in, or copies of, exempt records pertaining to that depository institution.

(2) Disclosure to state banking agencies. The Director of the Corporation’s Division having primary authority over the exempt records, or designee, may, in his or her discretion and for good cause, disclose to any authorized officer or employee of any state banking or securities department or agency, copies of any exempt records to the extent the records pertain to a state-chartered depository institution supervised by the agency or authority, or where the exempt records are requested in writing for a legitimate depository institution supervisory or regulatory purpose.

(3) Disclosure to federal financial institutions supervisory agencies and certain other agencies. The Director of the Corporation’s Division having primary authority over the exempt records, or designee, may in his or her discretion and for good cause, disclose to any authorized officer or employee of any federal financial institution supervisory

2 The procedures for disclosing records under the Privacy Act are separately set forth in 12 CFR part 310.
agency including the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, Bureau of Consumer Financial Protection, the Financial Stability Oversight Council, the Securities and Exchange Commission, the National Credit Union Administration, or any other agency included in section 1101(7) of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3401 et seq.) (RFPA), any exempt records for a legitimate depository institution supervisory or regulatory purpose. The Director, or designee, may in his or her discretion and for good cause, disclose exempt records, including customer financial records, to certain other federal agencies as referenced in section 1113 of the RFPA for the purposes and to the extent permitted therein, or to any foreign bank regulatory or supervisory authority as provided, and to the extent permitted, by section 206 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 3109). Finally, the Director, or designee, may in his or her discretion and for good cause, disclose reports of examination or other confidential supervisory information concerning any depository institution or other entity examined by the Corporation under authority of Federal law to: Any other Federal or State agency or authority with supervisory or regulatory authority over the depository institution or other entity; any officer, director, or receiver of such depository institution or entity; and any other person that the Corporation determines to be appropriate.

(4) Disclosure to prosecuting or investigatory agencies or authorities. (i) Reports of Apparent Crime pertaining to suspected violations of law, which may contain customer financial records, may be disclosed to federal or state prosecuting or investigatory authorities without giving notice to the customer, as permitted in the relevant exceptions of the RFPA.

(ii) The Director of the Corporation's Division having primary authority over the exempt records, or designee, may disclose to the proper federal or state prosecuting or investigatory authorities, or to any authorized officer or employee of such authority, copies of exempt records pertaining to irregularities discovered in depository institutions which are believed to constitute violations of any federal or state civil or criminal law, or unsafe or unsound banking practices, provided that customer financial records may be disclosed without giving notice to the customer, only as permitted by the relevant exceptions of the RFPA. Unless such disclosure is initiated by the FDIC, customer financial records shall be disclosed only in response to a written request which:

(A) Is signed by an authorized official of the agency making the request;
(B) Identifies the record or records to which access is requested; and
(C) Gives the reasons for the request.

(iii) When notice to the customer is required to be given under the RFPA, the Director of the Corporation's Division having primary authority over the exempt records, or designee, may disclose customer financial records to any federal or state prosecuting or investigatory agency or authority, provided, that:

(A) The General Counsel, or designee, has determined that disclosure is authorized or required by law; or
(B) Disclosure is pursuant to a written request that indicates the information is relevant to a legitimate law enforcement inquiry within the jurisdiction of the requesting agency and:

(I) The Director of the Corporation's Division having primary authority over the exempt records, or designee, certifies pursuant to section 1112(a) of the RFPA that the records are believed relevant to a legitimate law enforcement inquiry within the jurisdiction of the receiving agency; and

(2) A copy of such certification and the notice required by section 1112(b)4

4The form of certification generally is as follows. Additional information may be added:

Pursuant to section 1112(a) of the Right to Financial Privacy Act of 1978 (12 U.S.C. 3412), I, [name and appropriate title] hereby certify that the financial records described below were transferred to (agency or department) in the belief that they were relevant to a legitimate law enforcement inquiry, within the jurisdiction of the receiving agency.

4The form of notice generally is as follows. Additional information may be added:

Dear Mr./Ms. [name]:
Copies of, or information contained in, your financial records lawfully in the possession of the Federal Deposit Insurance Corporation have been furnished to (agency or department) pursuant to the Right to Financial Privacy Act of 1978 for the following purpose:

If you believe that this transfer has not been made to further a legitimate law enforcement inquiry, you may have legal rights under the Right to Financial Privacy Act of 1978 or the Privacy Act of 1974.

Whenever the Corporation is subject to a court-ordered delay of the customer notice, the notice shall be sent immediately upon the expiration of the court-ordered delay.

(A) Specify, with reasonable particularity, the record or records to which access is requested; and
(B) Give the reasons for the request.

Either prior to or at the time of any disclosure, the Director or designee shall require such terms and conditions as he deems necessary to protect the confidential nature of the record, the financial integrity of any depository institution to which the record relates, and the legitimate privacy interests of any individual named in such records.

 Authorization for disclosure by depository institutions or other third parties. (i) The Director of the Corporation’s Division having primary authority over the exempt records, or designee, may disclose copies of any exempt record to a depository institution for the following purposes:

(a) The examined data center;

(b) Any insured institution that receives data processing or related services from the examined data center;

(c) Any state agency or authority which exercises general supervision over an institution serviced by the examined data center; and

(d) Any federal financial institution supervisory agency which exercises general supervision over an institution serviced by the examined data center.

The federal supervisory agency may disclose any such examination report received from the Corporation to an insured institution over which it exercises general supervision and which is serviced by the examined data center.

 Disclosure to third parties. (i) Except as otherwise provided in paragraphs (c) (1) through (5) of this section, the Director of the Corporation’s Division having primary authority over the exempt records, or designee, may, in his or her discretion and for good cause, authorize any director, officer, employee, or agent of a depository institution to disclose copies of any exempt record to another party or agency. Such authorization must be in response to a written request from the party that has custody of the exempt record. Any such request shall specify the record sought to be disclosed and the reasons why disclosure is necessary.

(ii) The Director of the Corporation’s Division having primary authority over the exempt records, or designee, may, in his or her discretion and for good cause, authorize any third party, including a federal or state agency, to disclose such exempt record to another party or agency. Such authorization must be in response to a written request from the party that has custody of the exempt record. Any such request shall specify the record sought to be disclosed and the reasons why disclosure is necessary.

(iii) Any subsidiary depository institution of a bank holding company or a savings and loan holding company may reproduce and furnish a copy of any report of examination of the subsidiary depository institution to the parent...
holding company without prior approval of the Director of the Division having primary authority over the exempt records and any depository institution may reproduce and furnish a copy of any report of examination of the disclosing depository institution to a majority shareholder if the following conditions are met:

(A) The parent holding company or shareholder owns in excess of 50% of the voting stock of the depository institution or subsidiary depository institution;

(B) The board of directors of the depository institution or subsidiary depository institution at least annually by resolution authorizes the reproduction and furnishing of reports of examination (the resolution shall specifically name the shareholder or parent holding company, state the address to which the reports are to be sent, and indicate that all reports furnished pursuant to the resolution remain the property of the Federal Deposit Insurance Corporation and are not to be disclosed or made public in any manner without the prior written approval of the Director of the Corporation's Division having primary authority over the exempt records as provided in paragraph (b) of this section);

(C) A copy of the resolution authorizing disclosure of the reports is sent to the shareholder or parent holding company; and

(D) The minutes of the board of directors of the depository institution or subsidiary depository institution for the meeting immediately following disclosure of a report state:

(1) That disclosure was made;

(2) The date of the report which was disclosed;

(3) To whom the report was sent; and

(4) The date the report was disclosed.

(iv) With respect to any disclosure that is authorized under this paragraph (b)(7), the Director of the Corporation's Division having primary authority over the exempt records, or designee, shall only permit disclosure of records upon determining that good cause exists. If the exempt record contains information derived from depository institution customer financial records, disclosure is to be authorized only upon the condition that the requesting party and the party releasing the records comply with any applicable provision of the RFPA. Before authorizing the disclosure, the Director (or designee) may require that both the party having custody of a copy of a Corporation exempt record and the party seeking access to the record agree to such limitations as the Director (or designee) deems necessary to protect the confidential nature of the record, the financial integrity of any depository institution to which the record relates and the legitimate privacy interests of any persons named in such record.

(8) Disclosure by General Counsel. (i) The Corporation's General Counsel, or designee, may disclose or authorize the disclosure of any exempt record in response to a valid judicial subpoena, court order, or other legal process, and authorize any current or former officer, director, employee, agent of the Corporation, or third party, to appear and testify regarding an exempt record or any information obtained in the performance of such person's official duties, at any administrative or judicial hearing or proceeding where such person has been served with a valid subpoena, court order, or other legal process requiring him or her to testify. The General Counsel shall consider the relevancy of such exempt records or testimony to the litigation, and the interests of justice, in determining whether to disclose such records or testimony. Third parties seeking disclosure of exempt records or testimony in litigation to which the FDIC is not a party shall submit a request for discretionary disclosure directly to the General Counsel. Such request shall specify the information sought with reasonable particularity and shall be accompanied by a statement with supporting documentation showing in detail the relevance of such exempt information to

*This administrative requirement does not apply to subpoenas, court orders or other legal process issued for records of depository institutions held by the FDIC as Receiver or Conservator. Subpoenas, court orders or other legal process issued for such records will be processed in accordance with State and Federal law, regulations, rules and privileges applicable to FDIC as Receiver or Conservator.
the litigation, justifying good cause for disclosure, and a commitment to be bound by a protective order. Failure to exhaust such administrative request prior to service of a subpoena or other legal process may, in the General Counsel’s discretion, serve as a basis for objection to such subpoena or legal process. Customer financial records may not be disclosed to any federal agency that is not a federal financial supervisory agency pursuant to this paragraph unless notice to the customer and certification as required by the RFPA have been given except where disclosure is subject to the relevant exceptions set forth in the RFPA.

(ii) The General Counsel, or designee, may in his or her discretion and for good cause, disclose or authorize disclosure of any exempt record or testimony by a current or former officer, director, employee, agent of the Corporation, or third party, sought in connection with any civil or criminal hearing, proceeding or investigation without the service of a judicial subpoena, or other legal process requiring such disclosure or testimony, if he or she determines that the records or testimony are relevant to the hearing, proceeding or investigation and that disclosure is in the best interests of justice and not otherwise prohibited by Federal statute. Customer financial records shall not be disclosed to any federal agency pursuant to this paragraph that is not a federal financial supervisory agency, unless the records are sought under the Federal Rules of Civil Procedure (28 U.S.C. appendix) or the Federal Rules of Criminal Procedure (18 U.S.C. appendix) or comparable rules of other courts, and in connection with litigation to which the receiving federal agency, employee, officer, director, or agent, and the customer are parties, or disclosure is otherwise subject to the relevant exceptions in the RFPA. Where the General Counsel or designee authorizes a current or former officer, director, employee or agent of the Corporation to testify or disclose exempt records pursuant to this paragraph (b)(8), he or she may, in his or her discretion, limit the authorization to so much of the record or testimony as is relevant to the issues at such hearing, proceeding or investigation, and he or she shall give authorization only upon fulfillment of such conditions as he or she deems necessary and practicable to protect the confidential nature of such records or testimony.

(9) Authorization for disclosure by the Chairman of the Corporation’s Board of Directors. Except where expressly prohibited by law, the Chairman of the Corporation’s Board of Directors may in his or her discretion, authorize the disclosure of any Corporation records. Except where disclosure is required by law, the Chairman may direct any current or former officer, director, employee or agent of the Corporation to refuse to disclose any record or to give testimony if the Chairman determines, in his or her discretion, that refusal to permit such disclosure is in the public interest.

(10) Limitations on disclosure. All steps practicable shall be taken to protect the confidentiality of exempt records and information. Any disclosure permitted by paragraph (b) of this section is discretionary and nothing in paragraph (b) of this section shall be construed as requiring the disclosure of information. Further, nothing in paragraph (b) of this section shall be construed as restricting, in any manner, the authority of the Board of Directors, the Chairman of the Board of Directors, the Director of the Corporation’s Division having primary authority over the exempt records, the Corporation’s General Counsel, or their designees, or any other Corporation Division or Office head, in their discretion and in light of the facts and circumstances attendant in any given case, to require conditions upon and to limit the form, manner, and extent of any disclosure permitted by this section. Wherever practicable, disclosure of exempt records shall be made pursuant to a protective order and redacted to exclude all irrelevant or non-responsive exempt information.

maintained by the FDIC shall be duly issued by a court having jurisdiction over the FDIC, and served upon either the Executive Secretary (or designee), FDIC, 550 17th Street, NW., Washington, DC 20429, or the Regional Director or Regional Manager of the FDIC region where the legal action from which the subpoena or process was issued is pending. A list of the FDIC’s regional offices is available from the Office of Public Affairs, FDIC, 550 17th Street, NW., Washington, DC 20429 (telephone 202–898–6996). Where the FDIC is named as a party, service of process shall be made pursuant to the Federal Rules of Civil Procedure, and upon the Executive Secretary (or designee), FDIC, 550 17th Street NW., Washington, DC 20429, or upon the agent designated to receive service of process in the state, territory, or jurisdiction in which any insured depository institution is located. Identification of the designated agent in the state, territory, or jurisdiction may be obtained from the Executive Secretary or from the Office of the General Counsel, FDIC, 550 17th Street NW., Washington, DC 20429. The Executive Secretary or Regional Director or designated agent shall immediately forward any subpoena, court order or legal process to the General Counsel. The Corporation may require the payment of fees, in accordance with the fee schedule referred to in §309.5(c)(3), prior to the release of any records requested pursuant to any subpoena or other legal process.

(b) Notification by person served. If any current or former officer, director, employee or agent of the Corporation, or any other person who has custody of records belonging to the FDIC, is served with a subpoena, court order or other process requiring that person’s attendance as a witness concerning any matter related to official duties, or the production of any exempt record of the Corporation, such person shall promptly advise the General Counsel of such service, of the testimony and records described in the subpoena, and of all relevant facts which may be of assistance to the General Counsel in determining whether the individual in question should be authorized to testify or the records should be produced. Such person should also inform the court or tribunal which issued the process and the attorney for the party upon whose application the process was issued, if known, of the substance of this section.

(c) Appearance by person served. Absent the written authorization of the Corporation’s General Counsel, or designee, to disclose the requested information, any current or former officer, director, employee, or agent of the Corporation, and any other person having custody of records of the Corporation, who is required to respond to a subpoena or other legal process, shall attend at the time and place therein specified and respectfully decline to produce any such record or give any testimony with respect thereto, basing such refusal on this section.

310.12 Penalties.
310.13 Exemptions.

SOURCE: 40 FR 46274, Oct. 6, 1975, unless otherwise noted.

§ 310.1 Purpose and scope.

The purpose of this part is to establish regulations implementing the Privacy Act of 1974, 5 U.S.C. 552a. These regulations delineate the procedures that an individual must follow in exercising his or her access or amendment rights under the Privacy Act to records...
§ 310.4 Times, places, and requirements for identification of individuals making requests.

(a) Individuals may request access to records pertaining to themselves by submitting a written request as provided in §310.3 of these regulations, or by appearing in person on weekdays, other than official holidays, at the Federal Deposit Insurance Corporation, Attn: FOIA/PA Group, 550 17th Street, NW., Washington, DC 20429, between the hours of 8:30 a.m. and 5 p.m.

(b) Individuals appearing in person at the Corporation seeking access to or amendment of their records shall...
§ 310.5 Disclosure of requested information to individuals.

(a) Except to the extent that Corporation records pertaining to an individual:
(1) Are exempt from disclosure under §§310.6 and 310.13 of this part, or
(2) Were compiled in reasonable anticipation of a civil action or proceeding, the Corporation will make such records available upon request for purposes of inspection and copying by the individual (after proper identity verification as provided in §310.4) and, upon the individual’s request and written authorization, by another person of the individual’s own choosing.

(b) The FOIA/PA Group will notify, in writing, the individual making a request, whenever practicable within ten business days following receipt of the request, whether any specified designated system of records maintained by the Corporation contains a record pertaining to the individual. Where such a record does exist, the FOIA/PA Group also will inform the individual of the system manager’s decision whether to grant or deny the request for access. In the event existing records are determined not to be disclosable, the notification will inform the individual of the reasons for which disclosure will not be made and will provide a description of the individual’s right to appeal the denial, as more fully set forth in §310.9. Where access is to be granted, the notification will specify the procedures for verifying the individual’s identity, as set forth in §310.4.

(c) Individuals will be granted access to records disclosable under this part 310 as soon as is practicable. The FOIA/PA Group will give written notification of a reasonable period within which individuals may inspect disclosable records pertaining to themselves at the offices of the FOIA/PA Group during normal business hours. Alternatively, individuals granted access to records under this part may request that copies of such records be forwarded to them. Fees for copying such records will be assessed as provided in §310.11.

§ 310.6 Special procedures: Medical records.

Medical records shall be disclosed on request to the individuals to whom they pertain, except, if in the judgment of the Corporation, the transmission of the medical information directly to the requesting individual could have an adverse effect upon such individual. In the event medical information is withheld from a requesting individual due to any possible adverse effect such information may have upon the individual, the Corporation shall transmit such information to a medical doctor named by the requesting individual for release of the patient.

§ 310.7 Request for amendment of record.

The Corporation will maintain all records it uses in making any determination about any individual with such accuracy, relevance, timeliness
Federal Deposit Insurance Corporation  § 310.9

and completeness as is reasonably necessary to assure fairness to the individual in the determination. An individual may request that the Corporation amend any portion of a record pertaining to that individual which the Corporation maintains in a designated system of records. Such a request should be submitted in writing to the Federal Deposit Insurance Corporation, Attn: FOIA/PA Group, 550 17th Street, NW., Washington, DC 20429, and contain all the information specified for requests for access in §310.3 or for initial requests to amend in §310.7, as well as any other additional information the individual deems relevant for the consideration by the General Counsel (or designee) of the appeal.

(b) The General Counsel (or designee) will normally make a final determination with respect to an appeal made under this part within 30 business days following receipt by the Office of the Executive Secretary of the appeal. The General Counsel (or designee) may, however, extend this 30-day time period for good cause. Where such an extension is required, the individual making the appeal will be notified of the reason for the extension and the expected date upon which a final decision will be given.

(c) If the General Counsel (or designee) affirms the initial denial of a request for access or to amend, he or she will inform the individual affected of the decision, the reason therefor, and the right of judicial review of the decision. In addition, as pertains to a request for amendment, the individual may at that point submit to the Corporation a concise statement setting forth his or her reasons for disagreeing with the Corporation’s refusal to amend.

(d) Any statement of disagreement with the Corporation’s refusal to amend, filed with the Corporation by an individual pursuant to §310.9(c), will be included in the disclosure of any records under the authority of §310.10(b). The Corporation may in its discretion also include a copy of a concise statement of its reasons for not making the requested amendment.

(e) The General Counsel (or designee) may on his or her own motion refer an appeal to the Board of Directors for a determination, and the Board of Directors on its own motion may consider an appeal.

§ 310.10 Disclosure of record to person other than the individual to whom it pertains.

(a) Except as provided in paragraph (b) of this section, the Corporation will not disclose any record contained in a designated system of records to any person or agency except with the prior written consent of the individual to whom the record pertains.

(b) The restrictions on disclosure in paragraph (a) of this section do not apply to any of the following disclosures:

1. To those officers and employees of the Corporation who have a need for the record in the performance of their duties;

2. Which is required under the Freedom of Information Act (5 U.S.C. 552);

3. For a routine use listed with respect to a designated system of records;

4. To the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of title 13 U.S.C.;

5. To a recipient who has provided the Corporation with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

6. To the National Archives and Records Administration as a record which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for evaluation by the Archivist of the United States or his or her designee to determine whether the record has such value;

7. To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the Corporation specifying the particular portion desired and the law enforcement activity for which the record is sought;

8. To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if, upon such disclosure, notification is transmitted to the last known address of such individual;

9. To either House of Congress, or, to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

10. To the Comptroller General, or any of his or her authorized representatives, in the course of the performance of the duties of the General Accounting Office;

11. Pursuant to the order of a court of competent jurisdiction.

12. To a consumer reporting agency in accordance with section 3711(f) of title 31.

(c) The Corporation will adhere to the following procedures in the case of disclosure of any record pursuant to the authority of paragraphs (b)(3) through (b)(12) of this section.

1. The Corporation will keep a record of the date, nature and purpose of each such disclosure, as well as the name and address of the person or agency to whom such disclosure is made; and

2. The Corporation will retain and, with the exception of disclosures made pursuant to paragraph (b)(7) of this section, make available to the individual named in the record for the greater of five years or the life of the record all material compiled under paragraph (d)(1) of this section with respect to disclosure of such record.

(d) Whenever a record which has been disclosed by the Corporation under authority of paragraph (b) of this section is, within a reasonable amount of time after such disclosure, either amended by the Corporation or the subject of a statement of disagreement, the Corporation will transmit such additional information to any person or agency to whom the record was disclosed, if such disclosure was subject to the accounting requirements of paragraph (c)(1) of this section.

[40 FR 46274, Oct. 6, 1975, as amended at 61 FR 43420, Aug. 23, 1996]

§ 310.11 Fees.

The Corporation, upon a request for records disclosable pursuant to the Privacy Act of 1974 (5 U.S.C. 552a), shall
Federal Deposit Insurance Corporation

charge a fee of $0.10 per page for duplicating, except as follows:

(a) If the Corporation determines that it can grant access to a record only by providing a copy of the record, no fee will be charged for providing the first copy of the record or any portion thereof;

(b) Whenever the aggregate fees computed under this section do not exceed $10 for any one request, the fee will be deemed waived by the Corporation; or

(c) Whenever the Corporation determines that a reduction or waiver is warranted, it may reduce or waive any fees imposed for furnishing requested information pursuant to this section.

[40 FR 46274, Oct. 6, 1975, as amended at 61 FR 43420, Aug. 23, 1996]

§ 310.12 Penalties.

Subsection (i)(3) of the Privacy Act of 1974 (5 U.S.C. 552a(i)(3)) imposes criminal penalties for obtaining Corporation records on individuals under false pretenses. The subsection provides as follows:

Any person who knowingly and willfully requests or obtains any record concerning an individual from an agency under false pretenses shall be guilty of a misdemeanor and fined not more than $5,000.

§ 310.13 Exemptions.

The following systems of records are exempt from §§310.3 through 310.9 and §310.10(c)(2) of these rules:

(a) Investigatory material compiled for law enforcement purposes in the following systems of records is exempt from §§310.3 through 310.9 and §310.10(c)(2) of these rules:

Provided, however, That if any individual is denied any right, privilege, or benefit to which he/she would otherwise be entitled under Federal law, or for which he/she would otherwise be eligible, as a result of the maintenance of such material, such material shall be disclosed to such individual, except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence:

30–64–0002—Financial institutions investigative and enforcement records system.
30–64–0010—Investigative files and records.

(b) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Corporation employment to the extent that disclosure of such material would reveal the identity of a source who furnished information to the Corporation under an express promise that the identity of the source would be held in confidence, or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence, in the following systems of records, is exempt from §§310.3 through 310.9 and §310.10(c)(2) of these rules:

30–64–0001—Attorney-legal intern applicant system.
30–64–0010—Investigative files and records.

(c) Testing or examination material used solely to determine or assess individual qualifications for appointment or promotion in the Corporation’s service, the disclosure of which would compromise the objectivity or fairness of the testing, evaluation, or examination process in the following system of records, is exempt from §§310.3 through 310.9 and §310.10(c)(2) of these rules:

30–64–0009—Examiner training and education records.

PART 311—RULES GOVERNING PUBLIC OBSERVATION OF MEETINGS OF THE CORPORATION’S BOARD OF DIRECTORS

Sec.
311.1 Purpose.
311.2 Definitions.
311.3 Meetings.
311.4 Procedures for announcing meetings.
311.5 Regular procedure for closing meetings.
311.6 Expedited procedure for announcing and closing certain meetings.
311.7 General Counsel certification.
311.8 Transcripts and minutes of meetings.

§311.1 Purpose.

This part implements the policy of the “Government in the sunshine Act”, section 552b of title 5 U.S.C., which is to provide the public with as much information as possible regarding the decision making process of certain Federal agencies, including the Federal Deposit Insurance Corporation, while preserving the rights of individuals and the ability of the agency to carry out its responsibilities.

§311.2 Definitions.

For purposes of this part:

(a) Board means Board of Directors of the Federal Deposit Insurance Corporation and includes any subdivision of the Board authorized to act on behalf of the Corporation.

(b) Meeting means the deliberations (including those conducted by conference telephone call, or by any other method) of at least three members where such deliberations determine or result in the joint conduct or disposition of agency business but does not include:

(1) Deliberations to determine whether meetings will be open or closed or whether information pertaining to closed meetings will be withheld;

(2) Informal background discussions among Board members and staff which clarify issues and expose varying views;

(3) Decision-making by circulating written material to individual Board members;

(4) Sessions with individuals from outside the Corporation where Board members listen to a presentation and may elicit additional information.

(c) Member means a member of the Board.

(d) Open to public observation and open to the public mean that individuals may witness the meeting, but not participate in the deliberations. The meeting may be recorded, photographed, or otherwise reproduced if the reproduction does not disturb the meeting.

(e) Public announcement and publicly announce mean making reasonable effort under the particular circumstances of each case to fully inform the public. This may include posting notice on the Corporation’s public notice bulletin board maintained in the lobby of its offices located at 550 17th Street, NW., Washington, DC 20429, issuing a press release and employing other methods of notification that may be desirable in a particular situation.

§311.3 Meetings.

(a) Open meetings. Except as provided in paragraph (b) of this section, every portion of every meeting of the Corporation’s Board will be open to public observation. Board members will not jointly conduct or dispose of Corporation business other than in accordance with this part.

(b) When meetings may be closed and announcements and disclosures withheld. Except where the Board finds that the public interest requires otherwise, a meeting or portion thereof may be closed, and announcements and disclosure pertaining thereto may be withheld when the Board determines that such meeting or portion of the meeting or the disclosure of such information is likely to:

(1) Disclose matters that are: (i) Specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense or foreign policy and (ii) in fact properly classified pursuant to such Executive order;

(2) Relate solely to the internal personnel rules and practices of the Corporation;

(3) Disclose matters specifically exempted from disclosure by statute (other than the Freedom of Information Act, 5 U.S.C. 552): Provided, That such statute: (i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (ii) establishes particular types of matters to be withheld;

(4) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Involve accusing any person of a crime, or formally censuring any person;
(6) Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(7) Disclose investigatory records compiled for law enforcement purposes, or information which if written would be contained in such records, but only to the extent that the production of such records or information would: (i) Interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, (iv) disclose the identity of a confidential source, (v) disclose investigative techniques and procedures, or (vi) endanger the life or physical safety of law enforcement personnel;

(8) Disclose information contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of the Corporation or any other agency responsible for the supervision of financial institutions;

(9) Disclose information the premature disclosure of which would be likely to:
   (i)(A) Lead to significant financial speculation in currencies, securities, or commodities, or
   (B) Significantly endanger the stability of any financial institution; or
   (ii) Significantly frustrate implementation of a proposed Corporation action, except that this paragraph (b)(9)(ii) shall not apply in any instance where the Corporation has already disclosed to the public the content or nature of its proposed action, or where the Corporation is required by law to make such disclosure on its own initiative prior to taking final action on such proposal; or

(10) Specifically concern the Corporation’s issuance of a subpoena, or the Corporation’s participation in a civil action or proceeding, an action in a foreign court or international tribunal, or an arbitration, or the initiation, conduct, or disposition by the Corporation of a particular case of formal agency adjudication pursuant to the procedures in 5 U.S.C. 554 or otherwise involving a determination on the record after opportunity for a hearing.

§ 311.4 Procedures for announcing meetings.

(a) Scope. Except to the extent that such announcements are exempt from disclosure under § 311.3(b), announcements relating to open meetings, and meetings closed under the regular closing procedures of § 311.5, will be made in the manner set forth in this section.

(b) Time and content of announcement. The Corporation will make public announcement at least seven days before the meeting of the time, place, and subject matter of the meeting, whether it is to be open or closed to the public, and the name and telephone number of the official designated by the Corporation to respond to requests for information about the meeting. This announcement will be made unless a majority of the Board determines by a recorded vote that Corporation business requires that a meeting be called on lesser notice. In such cases, the Corporation will make public announcement of the time, place, and subject matter of the meeting, and whether it is open or closed to the public, at the earliest practicable time, which may be later than the commencement of the meeting.

(c) Changing time or place of meeting. The time or place of a meeting may be changed following the public announcement required by paragraph (b) of this section only if the Corporation publicly announces the change at the earliest practicable time, which may be later than the commencement of the meeting.

(d) Changing subject matter or nature of meeting. The subject matter of a meeting, or the determination to open or close a meeting or a portion of a meeting, may be changed following the public announcement only if:
   (1) A majority of the entire Board determines by recorded vote that agency business so requires and that no earlier announcement of the change was possible; and
   (2) The Corporation publicly announces the change and the vote of each member upon such change at the earliest practicable time, which may be later than the commencement of the meeting.

(e) Publication of announcements in Federal Register. Immediately following
§ 311.5 Regular procedure for closing meetings.

(a) Scope. Unless § 311.6 is applicable, the procedures for closing meetings will be those set forth in this section.

(b) Procedure.

(1) A decision to close a meeting or portion of a meeting will be taken only when a majority of the entire Board votes to take such action. In deciding whether to close a meeting or portion of a meeting, the Board will consider whether the public interest requires an open meeting. A separate vote of the Board will be taken with respect to each meeting which is proposed to be closed in whole or in part to the public. A single vote may be taken with respect to a series of meetings which are proposed to be closed in whole or in part to the public, or with respect to any information concerning such series of meetings, so long as each meeting in the series involves the same particular matters and is scheduled to be held no more than thirty days after the initial meeting in the series. The vote of each Board member will be recorded and no proxies will be allowed.

(2) Any individual whose interests may be directly affected may request that the Corporation close any portion of a meeting for any of the reasons referred to in paragraph (b)(5), (6), or (b)(7) of § 311.3. Requests should be directed to the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW, Washington, DC 20429. After receiving notice that an individual desires a portion of a meeting to be closed, the Board, upon request of any one of its members, will vote by recorded vote whether to close the relevant portion of the meeting. This procedure will apply even if the individual’s request is made subsequent to the announcement of a decision to hold an open meeting.

(3) The Corporation’s General Counsel will make the public certification required by § 311.7.

(4) Within 1 day after any vote taken pursuant to paragraphs (b)(1) or (2) of this section, the Corporation will make publicly available a written copy of the vote, reflecting the vote of each Board member. Except to the extent that such information is exempt from disclosure, if a meeting or portion of a meeting is to be closed to the public, the Corporation will make publicly available within 1 day after the required vote a full written explanation of its action, together with a list of all persons expected to attend the meeting and their affiliation.

(5) The Corporation will publicly announce the time, place, and subject matter of the meeting, with determinations as to open and closed portions, in the manner and within the time limits prescribed in § 311.4.

§ 311.6 Expedited procedure for announcing and closing certain meetings.

(a) Scope. Since a majority of its meetings may properly be closed pursuant to paragraph (b)(4), (8), (9)(i), or (b)(10) of § 311.3, subsection (d)(4) of the Government in the Sunshine Act (5 U.S.C. 552b) allows the Corporation to use expedited procedures in closing meetings under these four subparagraphs. Absent a compelling public interest to the contrary, meetings or portions of meetings that can be expected to be closed using these procedures include, but are not limited to: Administrative enforcement proceedings under section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818); appointment of the Corporation as conservator of a depository institution, or as receiver, liquidator or liquidating agent of a closed depository institution or a depository institution in danger of closing; and certain management and liquidation activities pursuant to such appointments; possible financial assistance by the Corporation under section 13 of the Federal Deposit Insurance Act (12 U.S.C. 1823); certain depository institution applications including applications to establish or move branches, applications to merge, and applications

172
Federal Deposit Insurance Corporation § 311.8

for insurance; and investigatory activity under section 10(c) of the Federal Deposit Insurance Act (12 U.S.C. 1820(c)). In announcing and closing meetings or portions of meetings under this section, the following procedures will be observed.

(b) Announcement. Except to the extent that such information is exempt from disclosure under the provisions of §311.3(b) the Corporation will make public announcement of the time, place and subject matter of the meeting and of each portion thereof at the earliest practicable time. This announcement will be published in the FEDERAL REGISTER if publication can be effected at least 1 day prior to the scheduled date of the meeting.

(c) Procedure for closing. (1) The Corporation’s General Counsel will make the public certification required by §311.7.

(2) At the beginning of a meeting or portion of a meeting to be closed under this section, a recorded vote of the Board will be taken. The Board will determine by its vote whether to proceed with the closing. If a majority of the entire Board votes to close, the meeting will be closed to public observation. Even though a meeting or portion thereof could properly be closed under this section, a majority of the entire Board may find that the public interest requires an open session and vote, reflecting the vote of each Board member, will be made available to the public.

§ 311.8 Transcripts and minutes of meetings.

(a) When required. The Corporation will maintain a complete transcript, identifying each speaker, to record fully the proceedings of each meeting or portion of a meeting closed to the public, except that in the case of a meeting or portions of a meeting closed to the public pursuant to paragraph (b)(8), (9)(i), or (10) of §311.3, the Corporation may, in lieu of a transcript, maintain a set of minutes.

(b) Content of minutes. If minutes are maintained, they will fully and clearly describe all matters discussed and will provide a full and accurate summary of any actions taken, and the reasons for taking such action. Minutes will also include a description of each of the views expressed by each person in attendance on any item and the record of any roll call vote, reflecting the vote of each member. All documents considered in connection with any action will be identified in the minutes.

(c) Available material. The Corporation will maintain a complete verbatim copy of the transcript or minutes of each meeting or portion of a meeting closed to the public for a period of at least 2 years after the meeting, or until 1 year after the conclusion of any proceeding with respect to which the meeting or portion was held, whichever occurs later. The Corporation will make promptly available to the public the transcript, identifying each speaker, or minutes of items on the agenda or testimony of any witness received at the closed meeting except that in cases where the Privacy Act of 1974 (5 U.S.C. 552a) does not apply, the Corporation may withhold information exempt from disclosure under §311.3(b). For the convenience of members of the public who may be unable to attend open meetings of the Board, the Corporation will maintain for at least 2 years a set of minutes of each meeting of the
(d) Procedures for inspecting or copying available material. (1) An individual may inspect materials made available under paragraph (c) of this section at the offices of the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, DC 20429, during normal business hours. If the individual desires a copy of such material, the Corporation will furnish copies at a cost of 10 cents per page. Whenever the Corporation determines that in the public interest a reduction or waiver is warranted, it may reduce or waive any fees imposed under this section.

(2) An individual may also submit a written request for transcripts or minutes, reasonably identifying the records sought, to the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, DC 20429.

(e) Procedures for obtaining documents identified in minutes. Copies of documents identified in minutes or considered by the Board in connection with any action identified in the minutes may be made available to the public upon request, to the extent permitted by the Freedom of Information Act, under the provisions of 12 CFR part 309, Disclosure of Information.
Federal Deposit Insurance Corporation

§ 313.2 Purpose.

(a) The purpose of this part is to implement federal statutes and regulatory standards authorizing the FDIC to collect debts owed to the United States. This part is consistent with the following federal statutes and regulations:

(1) DCIA at 31 U.S.C. 3711 (collection and compromise of claims); section 3716 of the Social Security Act (42 U.S.C. 301 et seq.), or the tariff laws of the United States;

(2) To a situation to which the Contract Disputes Act (41 U.S.C. 601 et seq.) applies; or

(3) In any case where collection of a debt is explicitly provided for or prohibited by another statute.

(c) This part applies only to:

(1) Debts owed to and payments made by the FDIC acting in its corporate capacity, that is, in connection with employee matters such as travel-related claims and erroneous overpayments, contracting activities involving corporate operations, debts related to requests to the FDIC for documents under the Freedom of Information Act (FOIA), or where a request for an offset is received by the FDIC from another federal agency; and

(2) Criminal restitution debt owed to the FDIC in either its corporate capacity or its receivership capacity.

(3) With the exception of criminal restitution debt noted in paragraph (c)(2) of this section, this part does not apply to debts owed to or payments made by the FDIC in connection with the FDIC's liquidation, supervision, enforcement, or insurance responsibilities, nor does it limit or affect the FDIC's authority with respect to debts and/or claims pursuant to 12 U.S.C. 1819(a) and 1820(a).

(d) Nothing in this part 313 precludes the compromise, suspension, or termination of collection actions, where appropriate, under: standards implementing the Debt Collection Improvement Act (DCIA) (31 U.S.C. 3711 et seq.); the Federal Claims Collection Standards (FCCS) (31 CFR chapter IX and parts 900 through 904); or any other applicable law.

§ 313.3 Definitions.

Except where the context clearly indicates otherwise or where the term is defined elsewhere in this subpart, the following definitions shall apply to this subpart.

(a) Agency means a department, agency, court, court administrative office, or instrumentality in the executive, judicial, or legislative branch of government, including government corporations.

(b) Board means the Board of Directors of the FDIC.

(c) Centralized administrative offset means the mandatory referral to the Secretary of the Treasury by a creditor agency of a past due debt which is more than 180 days delinquent, for the purpose of collection under the Treasury’s centralized offset program.

(d) Certification means a written statement transmitted from a creditor agency to a paying agency for purposes of administrative or salary offset, to FMS for offset or to the Secretary of the Treasury for centralized administrative offset. The certification confirms the existence and amount of the debt and verifies that required procedural protections have been afforded the debtor. Where the debtor requests a hearing on a claimed debt, the decision by a hearing official or administrative law judge constitutes a certification.

(e) Chairman means the Chairman of the FDIC.

(f) Compromise means the settlement or forgiveness of a debt under 31 U.S.C. 3711, in accordance with standards set forth in the FCCS and applicable federal law.

(g) Creditor agency means an agency of the federal government to which the debt is owed, or a debt collection center when acting on behalf of a creditor agency to collect a debt.

(h) Debt means an amount owed to the United States from loans insured or guaranteed by the United States and all other amounts due the United States from fees, leases, rents, royalties, services, sales of real or personal property, overpayments, penalties, damages, interest, restitution, fines and forfeitures, and all other similar sources. For purposes of this part, a debt owed to the FDIC constitutes a debt owed to the United States.

(i) Debt collection center means the Department of the Treasury or other government agency or division designated by the Secretary of the Treasury with authority to collect debts on behalf of creditor agencies in accordance with 31 U.S.C. 3711(g).

(j) Director means the Director of the Division of Finance (DOF), the Director of the Division of Administration (DOA), or the Director of the Division of Resolutions and Receiverships (DRR), as applicable, or the applicable Director’s delegate.

(k) Disposable pay means that part of current adjusted basic pay, special pay, incentive pay, retired pay, retainer pay, and, in the case of an employee not entitled to adjusted basic pay, other authorized pay, remaining for each pay period after the deduction of any amount required by law to be withheld. The FDIC shall allow the following deductions in determining the amount of disposable pay that is subject to salary offset:

(1) Federal employment taxes;

(2) Federal, state, or local income taxes to the extent authorized or required by law, but no greater than would be the case if the employee
claimed all dependents to which he or she is entitled and such additional amounts for which the employee presents evidence of a tax obligation supporting the additional withholding;

(3) Medicare deductions;
(4) Health insurance premiums;
(5) Normal retirement contributions, including employee contributions to the Thrift Savings Plan or the FDIC 401(k) Plan;
(6) Normal life insurance premiums (e.g., Serviceman’s Group Life Insurance and “Basic Life” Federal Employee’s Group Life Insurance premiums), not including amounts deducted for supplementary coverage;
(7) Amounts mandatorily withheld for the United States Soldiers’ and Airmen’s Home;
(8) Fines and forfeiture ordered by a court-martial or by a commanding officer.

(1) Division of Administration (DOA) means the Division of Administration of the FDIC.
(m) Division of Finance (DOF) means the Division of Finance of the FDIC.
(n) Division of Resolutions and Receiverships (DRR) means the Division of Resolutions and Receiverships of the FDIC.
(o) Federal Claims Collection Standards (FCCS) means standards published at 31 CFR chapter IX and parts 900 through 904.
(p) Garnishment means the process of withholding amounts from the disposable pay of a person employed outside the federal government, and the paying of those amounts to a creditor in satisfaction of a withholding order.

(q) Hearing official means an administrative law judge or other individual authorized to conduct a hearing and issue a final decision in response to a debtor’s request for hearing. A hearing official may not be under the supervision or control of the Chairman or FDIC Board when the FDIC is the creditor agency.
(r) Notice of Intent to Offset or Notice of Intent means a written notice from a creditor agency to an employee, organization, entity, or restitution debtor that claims a debt and informs the debtor that the creditor agency intends to collect the debt by administrative offset. The notice also informs the debtor of certain procedural rights with respect to the claimed debt and offset.
(s) Notice of Salary Offset means a written notice from a paying agency to its employee informing the employee that salary offset to collect a debt due to the creditor agency will begin at the next officially established pay interval. The paying agency transmits this notice to its employee after receiving a certification from the creditor agency.
(t) Paying agency means the agency of the federal government that employs the individual who owes a debt to an agency of the federal government. The same agency may be both the creditor agency and the paying agency.
(u) Salary offset means an administrative offset to collect a debt under 5 U.S.C. 5514 by deduction(s) at one or more officially established pay intervals from the current pay account of an employee without his or her consent.
(v) Waiver means the cancellation, remission, forgiveness or non-recovery of a debt allegedly owed by an employee to an agency, as authorized or required by 5 U.S.C. 5584 or any other law.
(w) Withholding order means any order for withholding or garnishment of pay issued by an agency, or judicial or administrative body. For purposes of administrative wage garnishment, the terms “wage garnishment order” and “garnishment order” have the same meaning as “withholding order.”

§ 313.4 Delegations of authority.

Authority to conduct the following activities to collect debt, other than criminal restitution debt, on behalf of the FDIC in its corporate capacity is delegated to the Director of DOA or Director of DOF, as applicable; and authority to collect criminal restitution debt on behalf of the FDIC in its receivership or corporate capacity is delegated to the Director of DRR; or to the applicable Director’s delegate; to:

(a) Initiate and carry out the debt collection process on behalf of the FDIC, in accordance with the FCCS;
(b) Accept or reject compromise offers and suspend or terminate collection actions to the full extent of the
FDIC’s legal authority under 12 U.S.C. 1819(a) and 1820(a), 31 U.S.C. 3711(a)(2), and any other applicable statute or regulation, provided, however, that no such claim shall be compromised or collection action terminated, except upon the concurrence of the FDIC General Counsel or his or her designee;

(c) Report to consumer reporting agencies certain data pertaining to delinquent debts, where appropriate;

(d) Use administrative offset procedures, including salary offset, to collect debts; and

(e) Take any other action necessary to promptly and effectively collect debts owed to the United States in accordance with the policies contained herein and as otherwise provided by law.

§§ 313.5–313.19 [Reserved]

Subpart B—Administrative Offset

§ 313.20 Applicability and scope.

The provisions of this subpart apply to the collection of debts owed to the United States arising from transactions with the FDIC. Administrative offset is authorized under the DCIA. This subpart is consistent with the FCCS on administrative offset issued by the Department of Justice.

§ 313.21 Definitions.

(a) Administrative offset means withholding funds payable by the United States to, or held by the United States for, a person to satisfy a debt.

(b) Person includes a natural person or persons, profit or nonprofit corporation, partnership, association, trust, estate, consortium, or other entity which is capable of owing a debt to the United States Government except that agencies of the United States, or any state or local government shall be excluded.

§ 313.22 Collection.

(a) The Director may collect a claim from a person by administrative offset of monies payable by the Government only after:

(1) Providing the debtor with due process required under this part; and

(2) Providing the paying agency with written certification that the debtor owes the debt in the amount stated and that the FDIC, as creditor agency, has complied with this part.

(b) Prior to initiating collection by administrative offset, the Director should determine that the proposed offset is within the scope of this remedy, as set forth in 31 CFR 901.3(a). Administrative offset under 31 U.S.C. 3716 may not be used to collect debts more than 10 years after the federal government’s right to collect the debt first accrued, except as otherwise provided by law. In addition, administrative offset may not be used when a statute explicitly prohibits its use to collect the claim or type of claim involved.

(c) Unless otherwise provided, debts or payments not subject to administrative offset under 31 U.S.C. 3716 may be collected by administrative offset under common law, or any other applicable statutory authority.

§ 313.23 Offset prior to completion of procedures.

The FDIC may collect a debt by administrative offset prior to the completion of the procedures described in § 313.25, if:

(a) Failure to offset a payment would substantially prejudice the FDIC’s ability to collect the debt; and

(b) The time before the payment is to be made does not reasonably permit completion of the procedures described in § 313.25. Such prior offsetting shall be followed promptly by the completion of the procedures described in § 313.25.

§ 313.24 Omission of procedures.

The FDIC shall not be required to follow the procedures described in § 313.25 where:

(a) The offset is in the nature of a recoupment (i.e., the FDIC may offset a payment due to the debtor when both the payment due to the debtor and the debt owed to the FDIC arose from the same transaction); or

(b) The debt arises under a contract as set forth in Cecile Industries, Inc. v. Cheney, 995 F.2d 1052 (Fed. Cir. 1993), which provides that procedural protections under administrative offset do not supplant or restrict established
§ 313.29 Requests for offset to other federal agencies.

The Director may request that a debt owed to the FDIC be administratively offset against funds due and payable to a debtor by another federal agency. In requesting administrative offset, the FDIC, as the creditor agency, will certify in writing to the federal agency holding funds payable to the debtor:

(a) That the debtor owes the debt;
(b) The amount and basis of the debt; and
(c) That the FDIC has complied with the requirements of its own administrative offset regulations and the applicable provisions of 31 U.S.C. 3716 with respect to providing the debtor with due process, unless otherwise provided.
§ 313.30 Requests for offset from other federal agencies.

Any federal agency may request that funds due and payable to its debtor by the FDIC be administratively offset by the FDIC in order to collect a debt owed to such agency by the debtor. The FDIC shall initiate the requested offset only upon:

(a) Receipt of written certification from the creditor agency stating:
(1) That the debtor owes the debt;
(2) The amount and basis of the debt; and
(3) That the agency has complied with its own administrative offset regulations and with the applicable provisions of 31 CFR 901.3, including providing any required hearing or review.

(b) A determination by the creditor agency that collection by offset against funds payable by the FDIC would be in the best interest of the United States and that such offset would not otherwise be contrary to law.

§§ 313.31–313.39 [Reserved]

Subpart C—Salary Offset

§ 313.40 Scope.

These salary offset regulations are issued in compliance with 5 U.S.C. 5514 and 5 CFR part 550, subpart K, and apply to the collection of debts owed by employees of the FDIC or other federal agencies. These salary offset procedures do not apply where an employee consents to the recovery of a debt from his current pay account. These procedures do not apply to debts arising under the Internal Revenue Code, the tariff laws of the United States or to any case where collection of a debt by salary offset is explicitly provided for or prohibited by another statute (e.g., travel advances under 5 U.S.C. 5705 and employee training expenses under 5 U.S.C. 4108). These procedures do not preclude an employee from requesting waiver of an erroneous payment under 5 U.S.C. 5584, or in any way questioning the amount or validity of a debt, in the manner specified by law or these agency regulations. This section also does not preclude an employee from requesting waiver of the collection of a debt under any other applicable statutory authority. When possible, salary offset through centralized administrative offset procedures should be attempted before seeking salary offset from a paying agency different than the creditor agency.

§ 313.41 Notice requirement where FDIC is creditor agency.

Where the FDIC seeks salary offset under 5 U.S.C. 5514 as the creditor agency, the FDIC shall first provide the employee with a written Notice of Intent to Offset at least 30 calendar days before salary offset is to commence. The Notice of Intent to Offset shall include the following information and statements:

(a) That the Director has determined that a debt is owed to the FDIC and intends to collect the debt by means of deduction from the employee’s current disposable pay account until the debt and all accumulated interest is paid in full or otherwise resolved;

(b) The amount of the debt and the factual basis for the debt;

(c) A salary offset schedule stating the frequency and amount of each deduction, stated as a fixed dollar amount or percentage of disposable pay (not to exceed 15%);

(d) That in lieu of salary offset, the employee may propose a voluntary repayment plan to satisfy the debt on terms acceptable to the FDIC, which must be documented in writing signed by the employee and the Director or the Director’s designee, and documented in the FDIC’s files;

(e) The FDIC’s policy concerning interest, penalties, and administrative costs, and a statement that such assessments must be made, unless excused in accordance with the FCCS;

(f) That the employee has the right to inspect and copy FDIC records not exempt from disclosure relating to the debt claimed, or to receive copies of such records if the employee or the employee’s representative is unable personally to inspect the records, due to geographical or other constraints:

(1) That such requests be made in writing, and identify by name and address the Director or other designated individual to whom the request should be sent; and
§ 313.44 Procedure for hearing.

(a) Obtaining the services of a hearing official. When the FDIC is the creditor agency and the debtor is an FDIC employee, the FDIC shall designate an administrative law judge or contact any agent of another agency designated in

(m) That the employee also has the right to request waiver of overpayment pursuant to 5 U.S.C. 5584, and may exercise any other rights and remedies available under statutes or regulations governing the program for which the collection is being made; and

(n) That amounts paid on or deducted from debts that are later waived or found not to be owed to the United States will be promptly refunded to the employee, unless there are applicable contractual or statutory provisions to the contrary.

§ 313.42 Procedures to request a hearing.

(a) To request a hearing, an employee must send a written request to the Director. The request must be received by the Director within 30 calendar days after the employee’s receipt of the Notice of Intent.

(b) The request must be signed by the employee and must fully identify and explain with reasonable specificity all the facts, evidence, and witnesses, if any, that the employee believes support his or her position. The request for hearing must state whether the employee is requesting an oral or documentary hearing. If an oral hearing is requested, the request shall explain why the matter cannot be resolved by a review of documentary evidence alone.

§ 313.43 Failure to timely submit request for hearing.

If the Director does not receive an employee’s request for hearing within the 30-day period set forth in §313.42(a), the employee shall not be entitled to a hearing. However, the Director may accept an untimely request for hearing if the employee can show that the delay was the result of circumstances beyond his or her control or that he or she failed to receive actual notice of the filing deadline.

§ 313.44 Procedure for hearing.

(a) Obtaining the services of a hearing official. When the FDIC is the creditor agency and the debtor is an FDIC employee, the FDIC shall designate an administrative law judge or contact any agent of another agency designated in
appendix A to 5 CFR part 581 to arrange for a hearing official. When the FDIC is the creditor agency and the debtor is not an FDIC employee (i.e., the debtor is employed by another federal agency, also known as the paying agency), and the FDIC cannot provide a prompt and appropriate hearing before an administrative law judge or a hearing official furnished pursuant to a lawful arrangement, the FDIC may contact an agent of the paying agency designated in appendix A to 5 CFR part 581 to arrange for a hearing official. The paying agency must cooperate with the FDIC to provide a hearing official, as required by the FCCS.

(b) Notice and format of hearing—
(1) Notice. The hearing official shall determine whether the hearing shall be oral or documentary and shall notify the employee of the form of the hearing. If the hearing will be oral, the notice shall set forth the date, time, and location of the hearing, which must be held within 30 calendar days after the request is received, unless the employee requests that the hearing be delayed. If the hearing will be documentary, the employee shall be notified to submit evidence and written arguments in support of his or her case to the hearing official within 30 calendar days.

(2) Oral hearing. The hearing official may grant a request for an oral hearing if he or she determines that the issues raised by the employee cannot be resolved by review of documentary evidence alone (e.g., where credibility or veracity are at issue). An oral hearing is not required to be an adversarial adjudication, and the hearing official is not required to apply rules of evidence. Witnesses who testify in oral hearings shall do so under oath or affirmation. Oral hearings may take the form of, but are not limited to:
   (i) Informal conferences with the hearing official in which the employee and agency representative are given full opportunity to present evidence, witnesses, and argument;
   (ii) Informal meetings in which the hearing examiner interviews the employee; or
   (iii) Formal written submissions followed by an opportunity for oral presentation.

(3) Documentary hearing. If the hearing official determines that an oral hearing is not necessary, he or she shall decide the issues raised by the employee based upon a review of the written record.

(4) Record. The hearing official shall maintain a summary record of any hearing conducted under this section.

(c) Rescheduling of the hearing date. The hearing official shall reschedule a hearing if requested to do so by both parties, who shall be given reasonable notice of the time and place of this new hearing.

(d) Failure to appear. In the absence of good cause, an employee who fails to appear at a hearing shall be deemed, for the purpose of this subpart, to admit the existence and amount of the debt as described in the Notice of Intent. If the representative of the creditor agency fails to appear, the hearing official shall proceed with the hearing as scheduled, and issue a decision based upon the oral testimony presented and the documentation submitted by both parties.

(e) Date of decision. The hearing official shall issue a written decision based upon the evidence and information developed at the hearing, as soon as practicable after the hearing, but not later than 60 calendar days after the date on which the request for hearing was received by the FDIC, unless the hearing was delayed at the request of the employee. In the event of such a delay, the 60-day decision period shall be extended by the number of days by which the hearing was postponed. The decision of the hearing official shall be final.

(f) Content of decision. The written decision shall include:
   (1) A summary of the facts concerning the origin, nature, and amount of the debt;
   (2) The hearing official’s findings, analysis, and conclusions; and
   (3) The terms of the repayment schedule, if applicable.

(g) Official certification of debt. The hearing official’s decision shall constitute an official certification regarding the existence and amount of the debt for purposes of executing salary offset under 5 U.S.C. 5514. Where the FDIC is the creditor agency but not the
current paying agency, the FDIC may make a certification regarding the existence and amount of the debt owed to the FDIC, based on the hearing official’s certification. The FDIC may make this certification to: the Secretary of the Treasury so that Treasury may offset the employee's current pay account by means of centralized administrative offset (5 CFR 550.1108); or to the current paying agency (5 CFR 550.1109). If the hearing official determines that a debt may not be collected through salary offset but the FDIC as the creditor agency determines that the debt is still valid, the FDIC may seek collection of the debt through other means, including administrative offset of other federal payments or litigation.

§ 313.45 Certification of debt by FDIC as creditor agency.

The Director may also issue a certification of the debt where there has not been a hearing, if the employee has admitted the debt, or failed to contest the existence and amount of the debt in a timely manner (e.g., by failing to request a hearing). The certification shall be in writing and shall state:

(a) The amount and basis of the debt owed by the employee;
(b) The date the FDIC’s right to collect the debt first accrued;
(c) That the FDIC’s debt collection regulations have been approved by OPM pursuant to 5 CFR part 550, subpart K;
(d) If the collection is to be made by lump-sum payment, the amount and date such payment will be collected;
(e) If the collection is to be made in installments through salary offset, the number of installments to be collected, the amount of each installment, and the date of the first installment, if a date other than the next officially established pay period; and
(f) The date the employee was notified of the debt, the action(s) taken pursuant to the FDIC’s regulations, and the dates such actions were taken.

§ 313.46 Notice of salary offset where FDIC is the paying agency.

(a) Upon issuance of a proper certification by the Director for debts owed to the FDIC, or upon receipt of a proper certification from a creditor agency, the Director shall send the employee a written notice of salary offset. Such notice shall advise the employee:
(1) That certification has been issued by the Director or received from another creditor agency;
(2) Of the amount of the debt and of the deductions to be made; and
(3) Of the initiation of salary offset at the next officially established pay interval or as otherwise provided for in the certification.

(b) Where appropriate, the Director shall provide a copy of the notice to the creditor agency and advise such agency of the dollar amount to be offset and the pay period when the offset will begin.

§ 313.47 Voluntary repayment agreements as alternative to salary offset where the FDIC is the creditor agency.

(a) In response to a Notice of Intent, an employee may propose to voluntarily repay the debt through scheduled voluntary payments, in lieu of salary offset. An employee who wishes to repay a debt in this manner shall submit to the Director a written agreement proposing a repayment schedule. This proposal must be received by the Director within 30 calendar days after receipt of the Notice of Intent.

(b) The Director shall notify the employee whether the employee’s proposed voluntary repayment agreement is acceptable. It is within the discretion of the Director whether to accept or reject the debtor’s proposal, or whether to propose to the debtor a modification of the proposed repayment agreement:
(1) If the Director decides that the proposed repayment agreement is unacceptable, he or she shall notify the employee and the employee shall have 30 calendar days from the date he or she received notice of the decision in which to file a request for a hearing on the proposed repayment agreement, as provided in §313.42; or
(2) If the Director decides that the proposed repayment agreement is acceptable or the debtor agrees to a modification proposed by the Director, the agreement shall be put in writing.
§ 313.48 Special review of repayment agreement or salary offset due to changed circumstances.

(a) An employee subject to a voluntary repayment agreement or salary offset payable to the FDIC as creditor agency may request a special review by the Director of the amount of the salary offset or voluntary repayment, based on materially changed circumstances, including, but not limited to, catastrophic illness, divorce, death, or disability. A request for special review may be made at any time.

(b) In support of a request for special review, the employee shall submit to the Director a detailed statement and supporting documents for the employee, his or her spouse, and dependents indicating:

1. Income from all sources;
2. Assets;
3. Liabilities;
4. Number of dependents;
5. Monthly expenses for food, housing, clothing, and transportation;
6. Medical expenses; and
7. Exceptional expenses, if any.

(c) The employee shall also file an alternative proposed offset or payment schedule and a statement, with supporting documents, showing why the current salary offset or payments result in extreme financial hardship to the employee.

(d) The Director shall evaluate the statement and supporting documents and determine whether the original salary offset or repayment schedule imposes extreme financial hardship on the employee, for example, by preventing the employee from meeting essential subsistence expenses such as food, housing, clothing, transportation, and medical care. The Director shall notify the employee in writing within 30 calendar days of his or her determination.

(e) If the special review results in a revised salary offset or repayment schedule, the Director shall provide a new certification to the paying agency.

§ 313.49 Coordinating salary offset with other agencies.

(a) Responsibility of the FDIC as the creditor agency. Upon completion of the procedures established in §313.40 through §313.45, the Director shall take the following actions:

1. Submit a debt claim to the paying agency, containing the information described in paragraphs (a)(2) and (a)(3) of this section, together with the certification of debt or an installment agreement (or other instruction regarding the payment schedule, if applicable).

2. If the collection must be made in installments, inform the paying agency of the amount or percentage of disposable pay to be collected in each installment. The Director may also inform the paying agency of the commencement date and number of installments to be paid, if a date other than the next officially established pay period is required.

3. Unless the employee has consented to the salary offset in writing or has signed a statement acknowledging receipt of the required procedures and the written consent or statement is forwarded to the paying agency, the Director must also advise the paying agency of the actions the FDIC has taken under 5 U.S.C. 5514 and state the dates such action was taken.

4. If the employee is in the process of separating from employment, the Director shall submit the debt claim to the employee’s paying agency for collection by lump-sum deduction from the employee’s final check. The paying agency shall certify the total amount of its collection and furnish a copy of the certification to the FDIC and to the employee.

5. If the employee is already separated and all payments due from his or her former paying agency have been paid, the Director may, unless otherwise prohibited, request that money due and payable to the employee from the federal government, including payments from the Civil Service Retirement and Disability Fund (5 CFR 831.1801), be administratively offset to collect the debt.

6. In the event an employee transfers to another paying agency, the Director shall not repeat the procedures described in §313.40 through §313.45 in

184
order to resume collecting the debt. Instead, the FDIC shall review the debt upon receiving the former paying agency’s notice of the employee’s transfer and shall ensure that collection is resumed by the new paying agency. The FDIC must submit a properly certified claim to the new paying agency before collection can be resumed.

(b) Responsibility of the FDIC as the paying agency—(1) Complete claim. When the FDIC receives a properly certified claim from a creditor agency, the employee shall be given written notice of the certification, the date salary offset will begin, and the amount of the periodic deductions. The FDIC shall schedule deductions to begin at the next officially established pay interval or as otherwise provided for in the certification.

(2) Incomplete claim. When the FDIC receives an incomplete certification of debt from a creditor agency, the FDIC shall return the debt claim with notice that procedures under 5 U.S.C. 5514 and 5 CFR 550.1104 must be followed and that a properly certified debt claim must be received before action will be taken to collect from the employee’s current pay account.

(3) Review. The FDIC is not authorized to review the merits of the creditor agency’s determination with respect to the amount or validity of the debt certified by the creditor agency.

(4) Employees who transfer from one paying agency to another agency. If, after the creditor agency has submitted the debt claim to the FDIC, the employee transfers to a different paying agency before the debt is collected in full, the FDIC must certify the total amount collected on the debt. One copy of the certification shall be furnished to the employee, and one copy shall be sent to the creditor agency along with notice of the employee’s transfer. If the FDIC is aware that the employee is entitled to payments from the Civil Service Retirement and Disability Fund, or other similar payments, it must provide written notification to the agency responsible for making such payments that the debtor owes a debt (including the amount) and that the requirements set forth herein and in the OPM’s regulation (5 CFR part 550, subpart K) have been fully met.

§ 313.54 Exception to due process procedures.

(a) The procedures set forth in this subpart shall not apply to routine
intra-agency salary adjustments of pay, including the following:

(1) Any adjustment to pay arising out of an employee’s election of coverage or a change in coverage under a federal benefits program requiring periodic deductions from pay, if the amount to be recovered was accumulated over four pay periods or less;

(2) A routine adjustment of pay that is made to correct an overpayment attributable to clerical or administrative errors or delays in processing pay documents, if the overpayment occurred within the four pay periods preceding the adjustment and, at the time of such adjustment or as soon thereafter as is practical, the individual is provided written notice of the nature and amount of the adjustment and the point of contact for contesting such adjustment; or

(3) Any adjustment to collect a debt amount to $50 or less, if, at the time of such adjustment, or as soon thereafter as is practical, the individual is provided written notice of the nature and amount of the adjustment and the point of contact for contesting such adjustment.

(b) The procedure for notice to the employee and collection of such adjustments is set forth in §313.55.

§ 313.55 Salary adjustments.

Any negative adjustment to pay arising out of an employee’s election of coverage, or a change in coverage, under a federal benefits program requiring periodic deductions from pay shall not be considered collection of a “debt” for the purposes of this section if the amount to be recovered was accumulated over four pay periods or less. In such cases, the FDIC shall not apply this subpart C, but will provide a clear and concise statement in the employee’s earnings statement advising the employee of the previous overpayment at the time the adjustment is made.

§§ 313.56–313.79 [Reserved]

Subpart D—Administrative Wage Garnishment

§ 313.80 Scope and purpose.

(a) These administrative wage garnishment regulations are issued in compliance with 31 U.S.C. 3720D and 31 CFR 285.11(f). The subpart provides procedures for the FDIC to collect money from a debtor’s disposable pay by means of administrative wage garnishment. The receipt of payments pursuant to this subpart does not preclude the FDIC from pursuing other debt collection remedies, including the offset of federal payments. The FDIC may pursue such debt collection remedies separately or in conjunction with administrative wage garnishment. This subpart does not apply to the collection of delinquent debts from the wages of federal employees from their federal employment. Federal pay is subject to the federal salary offset procedures set forth in 5 U.S.C. 5514 and other applicable laws.

§ 313.81 Notice.

At least 30 days before the initiation of garnishment proceedings, the Director will send, by first class mail to the debtor’s last known address, a written notice informing the debtor of:

(a) The nature and amount of the debt;

(b) The FDIC’s intention to initiate proceedings to collect the debt through deductions from the debtor’s pay until the debt and all accumulated interest penalties and administrative costs are paid in full;

(c) An explanation of the debtor’s rights as set forth in §313.82(c); and

(d) The time frame within which the debtor may exercise these rights. The FDIC shall retain a stamped copy of the notice indicating the date the notice was mailed.

§ 313.82 Debtor’s rights.

The FDIC shall afford the debtor the opportunity:

(a) To inspect and copy records related to the debt;
§ 313.88 Format of hearing.

(b) To enter into a written repayment agreement with the FDIC, under terms agreeable to the FDIC; and

(c) To the extent that a debt owed has not been established by judicial or administrative order, to request a hearing concerning the existence or amount of the debt or the terms of the repayment schedule. With respect to debts established by a judicial or administrative order, a debtor may request a hearing concerning the payment or other discharge of the debt. The debtor is not entitled to a hearing concerning the terms of the proposed repayment schedule if these terms have been established by written agreement.

§ 313.83 Form of hearing.

(a) If the debtor submits a timely written request for a hearing as provided in § 313.82(c), the FDIC will afford the debtor a hearing, which at the FDIC’s option may be oral or written. The FDIC will provide the debtor with a reasonable opportunity for an oral hearing when the Director determines that the issues in dispute cannot be resolved by review of the documentary evidence, for example, when the validity of the claim turns on the issue of credibility or veracity.

(b) If the FDIC determines that an oral hearing is appropriate, the time and location of the hearing shall be established by the FDIC. An oral hearing may, at the debtor’s option, be conducted either in person or by telephone conference. All travel expenses incurred by the debtor in connection with an in-person hearing will be borne by the debtor. All telephonic charges incurred during the hearing will be the responsibility of the agency.

(c) In cases when it is determined that an oral hearing is not required by this section, the FDIC will accord the debtor a “paper hearing,” that is, the FDIC will decide the issues in dispute based upon a review of the written record.

§ 313.84 Effect of timely request.

If the FDIC receives a debtor’s written request for hearing within 15 business days of the date the FDIC mailed its notice of intent to seek garnishment, the FDIC shall provide a hearing to the debtor. However, the FDIC will not delay issuance of a withholding order unless it determines that the untimely filing of the request was caused by factors over which the debtor had no control, or the FDIC receives information that the FDIC believes justifies a delay or cancellation of the withholding order.

§ 313.85 Failure to timely request a hearing.

If the FDIC receives a debtor’s written request for hearing after 15 business days of the date the FDIC mailed its notice of intent to seek garnishment, the FDIC shall provide a hearing to the debtor. However, the FDIC will not delay issuance of a withholding order unless it determines that the untimely filing of the request was caused by factors over which the debtor had no control, or the FDIC receives information that the FDIC believes justifies a delay or cancellation of the withholding order.

§ 313.86 Hearing official.

A hearing official may be any qualified individual, as determined by the FDIC, including an administrative law judge.

§ 313.87 Procedure.

After the debtor requests a hearing, the hearing official shall notify the debtor of:

(a) The date and time of a telephonic hearing;

(b) The date, time, and location of an in-person oral hearing; or

(c) The deadline for the submission of evidence for a written hearing.

§ 313.88 Format of hearing.

The FDIC will have the burden of proof to establish the existence or amount of the debt. Thereafter, if the debtor disputes the existence or amount of the debt, the debtor must prove by a preponderance of the evidence that no debt exists, or that the amount of the debt is incorrect. In addition, the debtor may present evidence that the terms of the repayment schedule are unlawful, would cause a financial hardship to the debtor, or that collection of the debt may not be pursued due to operation of law. The hearing official shall maintain a record of any hearing held under this section. Hearings are not required to be formal, and evidence may be offered without
§ 313.89 Date of decision.

The hearing official shall issue a written opinion stating his or her decision as soon as practicable, but not later than sixty (60) days after the date on which the request for such hearing was received by the FDIC. If the FDIC is unable to provide the debtor with a hearing and decision within sixty (60) days after the receipt of the request for such hearing:

(a) The FDIC may not issue a withholding order until the hearing is held and a decision rendered; or

(b) If the FDIC had previously issued a withholding order to the debtor’s employer, the withholding order will be suspended beginning on the 61st day after the date the FDIC received the hearing request and continuing until a hearing is held and a decision is rendered.

§ 313.90 Content of decision.

The written decision shall include:

(a) A summary of the facts presented;

(b) The hearing official’s findings, analysis and conclusions; and

(c) The terms of any repayment schedule, if applicable.

§ 313.91 Finality of agency action.

Unless the FDIC on its own initiative orders review of a decision by a hearing official pursuant to 17 CFR 201.431(c), a decision by a hearing official shall become the final decision of the FDIC for the purpose of judicial review under the Administrative Procedure Act.

§ 313.92 Failure to appear.

In the absence of good cause shown, a debtor who fails to appear at a scheduled hearing will be deemed as not having timely filed a request for a hearing.

§ 313.93 Wage garnishment order.

(a) Unless the FDIC receives information that it believes justifies a delay or cancellation of the withholding order, the FDIC will send by first class mail a withholding order to the debtor’s employer within 30 days after the debtor fails to make a timely request for a hearing (i.e., within 15 business days after the mailing of the notice of the FDIC’s intent to seek garnishment) or, if a timely request for a hearing is made by the debtor, within 30 days after a decision to issue a withholding order becomes final.

(b) The withholding order sent to the employer will be in the form prescribed by the Secretary of the Treasury, on the FDIC’s letterhead, and signed by the head of the agency or delegate. The order will contain all information necessary for the employer to comply with the withholding order, including the debtor’s name, address, and social security number, as well as instructions for withholding and information as to where payments should be sent.

(c) The FDIC will keep a stamped copy of the order indicating the date it was mailed.

§ 313.94 Certification by employer.

Along with the withholding order, the FDIC will send to the employer a certification in a form prescribed by the Secretary of the Treasury. The employer shall complete and return the certification to the FDIC within the time frame prescribed in the instructions to the form. The certification will address matters such as information about the debtor’s employment status and disposable pay available for withholding.

§ 313.95 Amounts withheld.

(a) Upon receipt of the garnishment order issued under this section, the employer shall deduct from all disposable pay paid to the debtor during each pay period the amount of garnishment described in paragraphs (b) through (d) of this section.

(b) Subject to the provisions of paragraphs (c) and (d) of this section, the amount of garnishment shall be the lesser of:

1) The amount indicated on the garnishment order up to 15% of the debtor’s disposable pay; or

(c) When a debtor's pay is subject to withholding orders with priority, the following shall apply:

(1) Unless otherwise provided by federal law, withholding orders issued under this section shall be paid in the amounts set forth under paragraph (b) of this section and shall have priority over other withholding orders which are served later in time. However, withholding orders for family support shall have priority over withholding orders issued under this section.

(2) If amounts are being withheld from a debtor's pay pursuant to a withholding order served on an employer before a withholding order issued pursuant to this section, or if a withholding order for family support is served on an employer at any time, the amounts withheld pursuant to the withholding order issued under this section shall be the lesser of:

(i) The amount calculated under paragraph (b) of this section; or

(ii) An amount equal to 25% of the debtor's disposable pay less the amount(s) withheld under the withholding order(s) with priority.

(3) If a debtor owes more than one debt to the FDIC, the FDIC may issue multiple withholding orders. The total amount garnished from the debtor's pay for such orders will not exceed the amount set forth in paragraph (b) of this section.

(d) An amount greater than that set forth in paragraphs (b) and (c) of this section may be withheld upon the written consent of the debtor.

(e) The employer shall promptly pay to the FDIC all amounts withheld in accordance with the withholding order issued pursuant to this section.

(f) An employer shall not be required to vary its normal pay and disbursement cycles in order to comply with the withholding order.

(g) Any assignment or allotment by the employee of the employee's earnings shall be void to the extent it interferes with or prohibits execution of the withholding order issued under this section, except for any assignment or allotment made pursuant to a family support judgment or order.

(h) The employer shall withhold the appropriate amount from the debtor's wages for each pay period until the employer receives notification from the FDIC to discontinue wage withholding. The garnishment order shall indicate a reasonable period of time within which the employer is required to commence wage withholding.

§ 313.96 Exclusions from garnishment.

The FDIC will not garnish the wages of a debtor it knows has been involuntarily separated from employment until the debtor has been re-employed continuously for at least 12 months. The debtor has the burden of informing the FDIC of the circumstances surrounding an involuntary separation from employment.

§ 313.97 Financial hardship.

(a) A debtor whose wages are subject to a wage withholding order under this section, may, at any time, request a review by the FDIC of the amount garnished, based on materially changed circumstances such as disability, divorce, or catastrophic illness which result in financial hardship.

(b) A debtor requesting a review under this section shall submit the basis for claiming that the current amount of garnishment results in a financial hardship to the debtor, along with supporting documentation.

(c) If a financial hardship is found, the FDIC will downwardly adjust, by an amount and for a period of time agreeable to the FDIC, the amount garnished to reflect the debtor's financial condition. The FDIC will notify the employer of any adjustments to the amounts to be withheld.

§ 313.98 Ending garnishment.

(a) Once the FDIC has fully recovered the amounts owed by the debtor, including interest, penalties, and administrative costs consistent with the FCCS, the FDIC will send the debtor's employer notification to discontinue wage withholding.

(b) At least annually, the FDIC will review its debtors' accounts to ensure that garnishment has been terminated for accounts that have been paid in full.
§ 313.99 Prohibited actions by employer.

The DCIA prohibits an employer from discharging, refusing to employ, or taking disciplinary action against the debtor due to the issuance of a withholding order under this subpart.

§ 313.100 Refunds.

(a) If a hearing official determines that a debt is not legally due and owing to the United States, the FDIC shall promptly refund any amount collected by means of administrative wage garnishment.

(b) Unless required by federal law or contract, refunds under this section shall not bear interest.

§ 313.101 Right of action.

The FDIC may sue any employer for any amount that the employer fails to withhold from wages owed and payable to its employee in accordance with this subpart. However, a suit will not be filed before the termination of the collection action involving a particular debtor, unless earlier filing is necessary to avoid expiration of any applicable statute of limitations. For purposes of this subpart, “termination of the collection action” occurs when the agency has terminated collection action in accordance with the FCCS (31 CFR 903.1 through 903.5) or other applicable standards. In any event, termination of the collection action will have been deemed to occur if the FDIC has not received any payments to satisfy the debt from the particular debtor whose wages were subject to garnishment, in whole or in part, for a period of one (1) year.

§§ 313.102–313.119 [Reserved]

Subpart E—Tax Refund Offset

§ 313.120 Scope.

The provisions of 26 U.S.C. 6402(d) and 31 U.S.C. 3720A authorize the Secretary of the Treasury to offset a delinquent debt owed to the United States Government from the tax refund due a taxpayer when other collection efforts have failed to recover the amount due. In addition, the FDIC is authorized to collect debts by means of administrative offset under 31 U.S.C. 3716 and, as part of the debt collection process, to notify the Financial Management Service (FMS), a bureau of the Department of the Treasury, of the amount of such debt for collection by tax refund offset.

§ 313.121 Definitions.

For purposes of this subpart E:

(a) Debt or claim means an amount of money, funds or property which has been determined by the FDIC to be due to the United States from any person, organization, or entity, except another federal agency.

(b) Debtor means a person who owes a debt or a claim. The term “person” includes any individual, organization or entity, except another federal agency.

(c) Tax refund offset means withholding or reducing a tax refund payment by an amount necessary to satisfy a debt owed by the payee(s) of a tax refund payment.

(d) Tax refund payment means any overpayment of federal taxes to be refunded to the person making the overpayment after the Internal Revenue Service (IRS) makes the appropriate credits.

§ 313.122 Notification of debt to FMS.

The FDIC shall notify FMS of the amount of any past due, legally enforceable non-tax debt owed to it by a person, for the purpose of collecting such debt by tax refund offset. Notification and referral to FMS of such debts does not preclude FDIC’s use of any other debt collection procedures, such as wage garnishment, either separately or in conjunction with tax refund offset.

§ 313.123 Certification and referral of debt.

When the FDIC refers a past-due, legally enforceable debt to FMS for tax refund offset, it will certify to FMS that:

(a) The debt is past due and legally enforceable in the amount submitted to FMS and that the FDIC will ensure that collections are properly credited to the debt;

(b) Except in the case of a judgment debt or as otherwise allowed by law, the debt is referred for offset within
ten years after the FDIC’s right of action accrues;
(c) The FDIC has made reasonable efforts to obtain payment of the debt, in that it has:
(1) Submitted the debt to FMS for collection by administrative offset and complied with the provisions of 31 U.S.C. 3716(a) and related regulations;
(2) Notified, or has made a reasonable attempt to notify, the debtor that the debt is past-due, and unless repaid within 60 days after the date of the notice, will be referred to FMS for tax refund offset;
(3) Given the debtor at least 60 days to present evidence that all or part of the debt is not past-due or legally enforceable, considered any evidence presented by the debtor, and determined that the debt is past-due and legally enforceable; and
(4) Provided the debtor with an opportunity to make a written agreement to repay the debt; and
(d) The debt is at least $25.
§ 313.124 Pre-offset notice and consideration of evidence.
(a) For purposes of §313.123(c)(2), the FDIC has made a reasonable effort to notify the debtor if it uses the current address information contained in its records related to the debt. The FDIC may, but is not required to, obtain address information from the IRS pursuant to 26 U.S.C. 6103(m)(2), (4), (5).
(b) For purposes of §313.123(c)(3), if evidence presented by a debtor is considered by an agent of the FDIC, or other entities or persons acting on behalf of the FDIC, the debtor must be accorded at least 30 days from the date the agent or other entity or person determines that all or part of the debt is past-due and legally enforceable to request review by an officer or employee of the FDIC of any unresolved dispute. The FDIC must then notify the debtor of its decision.
§ 313.125 No requirement for duplicate notice.
Where the director has previously given a debtor any of the required notice and review opportunities with respect to a particular debt, the Director is not required to duplicate such notice and review opportunities prior to initiating tax refund offset.
[71 FR 75661, Dec. 18, 2006]
§ 313.126 Referral of past-due, legally enforceable debt.
The FDIC shall submit past-due, legally enforceable debt information for tax refund offset to FMS, as prescribed by FMS. For each debt, the FDIC will include the following information:
(a) The name and taxpayer identification number (as defined in 26 U.S.C. 6109) of the debtor;
(b) The amount of the past-due and legally enforceable debt;
(c) The date on which the debt became past-due; and
(d) The designation of FDIC as the agency referring the debt.
§ 313.127 Correcting and updating referral.
If, after referring a past-due legally enforceable debt to FMS as provided in §313.125, the FDIC determines that an error has been made with respect to the information transmitted to FMS, or if the FDIC receives a payment or credits a payment to the account of the debtor referred to FMS for offset, or if the debt amount is otherwise incorrect, the FDIC shall promptly notify FMS and make the appropriate correction of the FDIC’s records. FDIC will provide certification as required under §313.123 for any increases to amounts owed. In the event FMS rejects an FDIC certification for failure to comply with §323.123, the FDIC may resubmit the debt with a corrected certification.
§ 313.128 Disposition of amounts collected.
FMS will transmit amounts collected for past-due, legally enforceable debts, less fees charged under this section, to the FDIC’s account. The FDIC will reimburse FMS and the IRS for the cost of administering the tax refund offset program. FMS will deduct the fees from amounts collected prior to disposition and transmit a portion of the fees deducted to reimburse the IRS for
its share of the cost of administering the tax refund offset program. To the extent allowed by law, the FDIC may add the offset fees to the debt.

§ 313.129–313.139 [Reserved]

Subpart F—Civil Service Retirement and Disability Fund Offset

§ 313.140 Future benefits.

Unless otherwise prohibited by law, the FDIC may request that a debtor’s anticipated or future benefit payments under the Civil Service Retirement and Disability Fund (Fund) be administratively offset in accordance with regulations at 5 CFR 831.1801 through 831.1808.

§ 313.141 Notification to OPM.

When making a request for administrative offset under §313.140, the FDIC shall provide OPM with a written certification that:

(a) The debtor owes the FDIC a debt, including the amount of the debt;

(b) The FDIC has complied with the applicable statutes, regulations, and procedures of OPM; and

(c) The FDIC has complied with the requirements of 31 CFR parts 900 through 904, including any required hearing or review.

§ 313.142 Request for administrative offset.

The Director shall request administrative offset under §313.140, as soon as practical after completion of the applicable procedures in order to help ensure that offset be initiated prior to expiration of the applicable statute of limitations. At such time as the debtor makes a claim for payments from the Fund, if at least a year has elapsed since the offset request was originally made, the debtor shall be permitted to offer a satisfactory repayment plan in lieu of offset upon establishing that changed financial circumstances would make the offset unjust.

§ 313.143 Cancellation of deduction.

If the FDIC collects part or all of the debt by other means before deductions are made or completed pursuant to §313.140, the FDIC shall act promptly to modify or terminate its request for such offset.

Subpart G—Mandatory Centralized Administrative Offset

§ 313.160 Treasury notification.

(a) In accordance with 31 U.S.C. 3716, the FDIC as a creditor agency must notify the Secretary of the Treasury of all debts that are delinquent (over 180 days past due), as defined in the FCCS, to enable the Secretary to seek collection by centralized administrative offset. This includes debts the FDIC seeks to recover from the pay account of an employee of another agency by means of salary offset.

(b) For purposes of centralized administrative offset, a claim or debt is not delinquent if:

(1) It is in litigation or foreclosure;

(2) It will be disposed of under an asset sale program within one year after becoming eligible for sale;

(3) It has been referred to a private collection contractor for collection;

(4) It has been referred to a debt collection center;

(5) It will be collected under internal offset, if such offset is sufficient to collect the claim within three years after the date the debt or claim is first delinquent; and

(6) It is within a specific class of claims or debts which the Secretary of the Treasury has determined to be exempt, at the request of an agency.

§ 313.161 Certification of debt.

Prior to referring a delinquent debt to the Secretary of the Treasury, the Director must have complied with the requirements of 5 U.S.C. 5514, and 5 CFR part 550, subpart K, governing salary offset, and the FDIC regulations. The Director shall certify, in a form acceptable to the Secretary, that:

(a) The debt is past due and legally enforceable; and

(b) The FDIC has complied with all due process requirements under 31 U.S.C. 3716 and the FDIC’s administrative offset regulations.
§ 313.162 Compliance with 31 CFR part 285.

The Director shall also comply with applicable procedures for referring a delinquent debt for purposes of centralized offset which are set forth at 31 CFR part 285 and the FCCS.

§ 313.163 Notification of debts of 180 days or less.

The Director, in his discretion, may also notify the Secretary of the Treasury of debts that have been delinquent for 180 days or less, including debts the FDIC seeks to recover by means of salary offset.

§§ 313.164–313.180 [Reserved]
PART 323—APPRAISALS

Subpart A—Appraisals Generally

§ 323.1 Authority, purpose, and scope.

(b) Purpose and scope. (1) Title XI provides protection for federal financial and public policy interests in real estate related transactions by requiring real estate appraisals used in connection with federally related transactions to be performed in writing, in accordance with uniform standards, by appraisers whose competency has been demonstrated and whose professional conduct will be subject to effective supervision. This subpart implements the requirements of title XI and applies to all federally related transactions entered into by the FDIC or by institutions regulated by the FDIC (regulated institutions).

(2) This subpart: (i) Identifies which real estate-related financial transactions require the services of an appraiser;

(ii) Prescribes which categories of federally related transactions shall be appraised by a State certified appraiser and which by a State licensed appraiser; and

(iii) Prescribes minimum standards for the performance of real estate appraisals in connection with federally related transactions under the jurisdiction of the FDIC.

§ 323.2 Definitions.

(a) Appraisal means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion as to the market value of an adequately described property as of a specific date(s), supported by the presentation and analysis of relevant market information.

(b) Appraisal Foundation means the Appraisal Foundation established on November 30, 1987, as a not-for-profit corporation under the laws of Illinois.

(c) Appraisal Subcommittee means the Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

(d) Business loan means a loan or extension of credit to any corporation, general or limited partnership, business trust, joint venture, pool, syndicate, sole proprietorship, or other business entity.

(e) Complex 1-to-4 family residential property appraisal means one in which the property to be appraised, the form of ownership, or market conditions are atypical.
§ 323.2

(f) Federally related transaction means any real estate-related financial transactions entered into after the effective date hereof that:

(1) The FDIC or any regulated institution engages in or contracts for; and

(2) Requires the services of an appraiser.

(g) Market value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

(1) Buyer and seller are typically motivated;

(2) Both parties are well informed or well advised, and acting in what they consider their own best interests;

(3) A reasonable time is allowed for exposure in the open market;

(4) Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and

(5) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

(h) Real estate or real property means an identified parcel or tract of land, with improvements, and includes easements, rights of way, undivided or future interests and similar rights in a tract of land, but does not include mineral rights, timber rights, growing crops, water rights and similar interests severable from the land when the transaction does not involve the associated parcel or tract of land.

(i) Real estate-related financial transaction means any transaction involving:

(1) The sale, lease, purchase, investment in or exchange of real property, including interests in property, or the financing thereof; or

(2) The refinancing of real property or interests in real property; or

(3) The use of real property or interests in property as security for a loan or investment, including mortgage-backed securities.

(j) State certified appraiser means any individual who has satisfied the requirements for certification in a State or territory whose criteria for certification as a real estate appraiser currently meet the minimum criteria for certification issued by the Appraiser Qualifications Board of the Appraisal Foundation. No individual shall be a State certified appraiser unless such individual has achieved a passing grade upon a suitable examination administered by a State or territory that is consistent with and equivalent to the Uniform State Certification Examination issued or endorsed by the Appraiser Qualifications Board. In addition, the Appraisal Subcommittee must not have issued a finding that the policies, practices, or procedures of a State or territory are inconsistent with title XI of FIRREA. The FDIC may, from time to time, impose additional qualification criteria for certified appraisers performing appraisals in connection with federally related transactions within its jurisdiction.

(k) State licensed appraiser means any individual who has satisfied the requirements for licensing in a State or territory where the licensing procedures comply with title XI of FIRREA and where the Appraisal Subcommittee has not issued a finding that the policies, practices, or procedures of the State or territory are inconsistent with title XI. The FDIC may, from time to time, impose additional qualification criteria for licensed appraisers performing appraisals in connection with federally related transactions within its jurisdiction.

(l) Tract development means a project of five units or more that is constructed or is to be constructed as a single development.

(m) Transaction value means:

(1) For loans or other extensions of credit, the amount of the loan or extension of credit;

(2) For sales, leases, purchases, and investments in or exchanges of real property, the market value of the real property interest involved; and
§ 323.3 Appraisals required; transactions requiring a State certified or licensed appraiser.

(a) Appraisals required. An appraisal performed by a State certified or licensed appraiser is required for all real estate-related financial transactions except those in which:

(1) The transaction value is $250,000 or less;
(2) A lien on real estate has been taken as collateral in an abundance of caution;
(3) The transaction is not secured by real estate;
(4) A lien on real estate has been taken for purposes other than the real estate's value;
(5) The transaction is a business loan that:
    (i) Has a transaction value of $1 million or less; and
    (ii) Is not dependent on the sale of, or rental income derived from, real estate as the primary source of repayment;
(6) A lease of real estate is entered into, unless the lease is the economic equivalent of a purchase or sale of the leased real estate;
(7) The transaction involves an existing extension of credit at the lending institution, provided that:
    (i) There has been no obvious and material change in market conditions or physical aspects of the property that threatens the adequacy of the institution's real estate collateral protection after the transaction, even with the advancement of new monies; or
    (ii) There is no advancement of new monies, other than funds necessary to cover reasonable closing costs;
(8) The transaction involves the purchase, sale, investment in, exchange of, or extension of credit secured by, a loan or interest in a loan, pooled loans, or interests in real property, including mortgage-backed securities, and each loan or interest in a loan, pooled loan, or real property interest met FDIC regulatory requirements for appraisals at the time of origination;
(9) The transaction is wholly or partially insured or guaranteed by a United States government agency or United States government sponsored agency;
(10) The transaction either:
    (i) Qualifies for sale to a United States government agency or United States government sponsored agency; or
    (ii) Involves a residential real estate transaction in which the appraisal conforms to the Federal National Mortgage Association or Federal Home Loan Mortgage Corporation appraisal standards applicable to that category of real estate;
(11) The regulated institution is acting in a fiduciary capacity and is not required to obtain an appraisal under other law; or
(12) The FDIC determines that the services of an appraiser are not necessary in order to protect Federal financial and public policy interests in real estate-related financial transactions or to protect the safety and soundness of the institution.

(b) Evaluations required. For a transaction that does not require the services of a State certified or licensed appraiser under paragraph (a)(1), (a)(5) or (a)(7) of this section, the institution shall obtain an appropriate evaluation of real property collateral that is consistent with safe and sound banking practices.

(c) Appraisals to address safety and soundness concerns. The FDIC reserves the right to require an appraisal under this subpart whenever the agency believes it is necessary to address safety and soundness concerns.

(d) Transactions requiring a State certified appraiser—
(1) All transactions of $1,000,000 or more. All federally related transactions having a transaction value of $1,000,000 or more shall require an appraisal prepared by a State certified appraiser.
(2) Nonresidential transactions of $250,000 or more. All federally related transactions having a transaction value of $250,000 or more, other than those involving appraisals of 1-to-4
family residential properties, shall re-
quire an appraisal prepared by a State
certified appraiser.

(3) Complex residential transactions of $250,000 or more. All complex 1-to-4 fam-
ily residential property appraisals ren-
dered in connection with federally re-
lated transactions shall require a State
certified appraiser if the transaction
value is $250,000 or more. A regulated
institutions may presume that apprais-
als of 1-to-4 family residential prop-
erties are not complex, unless the in-
stitution has readily available inform-
ation that a given appraisal will be
complex. The regulated institution
shall be responsible for making the
final determination of whether the ap-
praisal is complex. If during the course
of the appraisal a licensed appraiser
identifies factors that would result in
the property, form of ownership, or
market conditions being considered
atypical, then either:

(i) The regulated institution may ask
the licensed appraiser to complete the
appraisal and have a certified appraiser
approve and co-sign the appraisal; or

(ii) The institution may engage a cer-
tified appraiser to complete the ap-
praisal.

(e) Transactions requiring either a State
certified or licensed appraiser. All ap-
praisals for federally related trans-
actions not requiring the services of a
State certified appraiser shall be pre-
pared by either a State certified ap-
praiser or a State licensed appraiser.

(f) Effective date. Regulated institu-
tions are required to use state certified
or licensed appraisers as set forth in
this section no later than December 31,
1992, unless otherwise required by law.

§ 323.4 Minimum appraisal standards.

For federally related transactions,
all appraisals shall, at a minimum:

(a) Conform to generally accepted ap-
praisal standards as evidenced by the
Uniform Standards of Professional Ap-
praisal Practice (USPAP) promulgated
by the Appraisal Standards Board of
the Appraisal Foundation, 1029
Vermont Ave., NW., Washington, DC
20005, unless principles of safe and
sound banking require compliance with
stricter standards;

(b) Be written and contain sufficient
information and analysis to support
the institution's decision to engage in
the transaction;

(c) Analyze and report appropriate
deductions and discounts for proposed
construction or renovation, partially
leased buildings, non-market lease
terms, and tract developments with
unsold units;

(d) Be based upon the definition of
market value as set forth in this sub-
part; and

(e) Be performed by State licensed or
certified appraisers in accordance with
requirements set forth in this subpart.

§ 323.5 Appraiser independence.

(a) Staff appraisers. If an appraisal is
prepared by a staff appraiser, that ap-
praiser must be independent of the lend-
ing, investment, and collection
functions and not involved, except as
an appraiser, in the federally related
transaction, and have no direct or indi-
rect interest, financial or otherwise, in
the property. If the only qualified per-
sons available to perform an appraisal
are involved in the lending, invest-
ment, or collection functions of the
regulated institution, the regulated in-
stitution shall take appropriate steps
to ensure that the appraisers exercise
independent judgment and that the ap-
praisal is adequate. Such steps include,
but are not limited to, prohibiting an
individual from performing appraisals
in connection with federally related trans-
actions in which the appraiser is
otherwise involved and prohibiting di-
rectors and officers from participating
in any vote or approval involving as-
sets on which they performed an ap-
praisal.

(b) Fee appraisers. (1) If an appraisal
is prepared by a fee appraiser, the ap-
praiser shall be engaged directly by the
regulated institution or its agent, and
have no direct or indirect interest, fi-
nancial or otherwise, in the property or
the transaction.

(2) A regulated institution also may
accept an appraisal that was prepared
by an appraiser engaged directly by an-
other financial services institution, if:
§ 323.6 Professional association membership; competency.

(a) Membership in appraisal organizations. A State certified appraiser or a State licensed appraiser may not be excluded from consideration for an assignment for a federally related transaction solely by virtue of membership or lack of membership in any particular appraisal organization.

(b) Competency. All staff and fee appraisers performing appraisals in connection with federally related transactions must be State certified or licensed, as appropriate. However, a State certified or licensed appraiser may not be considered competent solely by virtue of being certified or licensed. Any determination of competency shall be based upon the individual’s experience and educational background as they relate to the particular appraisal assignment for which he or she is being considered.

§ 323.7 Enforcement.

Institutions and institution-affiliated parties, including staff appraisers and fee appraisers, may be subject to removal and/or prohibition orders, cease and desist orders, and the imposition of civil money penalties pursuant to the Federal Deposit Insurance Act, 12 U.S.C. 1811 et seq., as amended, or other applicable law.

Subpart B—Appraisal Management Company Minimum Requirements

SOURCE: 80 FR 32684, June 9, 2015, unless otherwise noted.

§ 323.8 Authority, purpose, and scope.

(b) Purpose. The purpose of this subpart is to implement sections 1109, 1117, 1121, and 1124 of FIRREA Title XI, 12 U.S.C. 3338, 3346, 3350, and 3353.

(c) Scope. This subpart applies to States and to appraisal management companies (AMCs) providing appraisal management services in connection with consumer credit transactions secured by a consumer’s principal dwelling or securitizations of those transactions.

(d) Rule of construction. Nothing in this subpart should be construed to prevent a State from establishing requirements in addition to those in this subpart. In addition, nothing in this subpart should be construed to alter guidance in, and applicability of, the Interagency Appraisal and Evaluation Guidelines1 or other relevant agency guidance that cautions banks, bank holding companies, Federal savings associations, state savings associations, and credit unions, as applicable, that each such entity is accountable for overseeing the activities of third-party service providers and ensuring that any services provided by a third party comply with applicable laws, regulations, and supervisory guidance applicable directly to the financial institution.

§ 323.9 Definitions.

For purposes of this subpart:

(a) Affiliate has the meaning provided in 12 U.S.C. 1841.

(b) AMC National Registry means the registry of State-registered AMCs and Federally regulated AMCs maintained by the Appraisal Subcommittee.

(c)(1) Appraisal management company (AMC) means a person that:

(i) Provides appraisal management services to creditors or to secondary mortgage market participants, including affiliates;
(i) Provides such services in connection with valuing a consumer's principal dwelling as security for a consumer credit transaction or incorporating such transactions into securitizations; and

(ii) Within a given 12-month period, as defined in §323.10(d), oversees an appraiser panel of more than 15 State-certified or State-licensed appraisers in a State or 25 or more State-certified or State-licensed appraisers in two or more States, as described in §323.12;

(2) An AMC does not include a department or division of an entity that provides appraisal management services only to that entity.

(d) Appraisal management services means one or more of the following:

(1) Recruiting, selecting, and retaining appraisers;

(2) Contracting with State-certified or State-licensed appraisers to perform appraisal assignments;

(3) Managing the process of having an appraisal performed, including providing administrative services such as receiving appraisal orders and appraisal reports, submitting completed appraisal reports to creditors and secondary market participants, collecting fees from creditors and secondary market participants for services provided, and paying appraisers for services performed; and

(4) Reviewing and verifying the work of appraisers.

(e) Appraiser panel means a network, list or roster of licensed or certified appraisers approved by an AMC to perform appraisals as independent contractors for the AMC. Appraisers on an AMC’s “appraiser panel” under this part include both appraisers accepted by the AMC for consideration for future appraisal assignments in covered transactions or for secondary mortgage market participants in connection with covered transactions and appraisers engaged by the AMC to perform one or more appraisals in covered transactions or for secondary mortgage market participants in connection with covered transactions. An appraiser is an independent contractor for purposes of this subpart if the appraiser is treated as an independent contractor by the AMC for purposes of Federal income taxation.

(f) Appraisal Subcommittee means the Appraisal Subcommittee of the Federal Financial Institutions Examination Council.

(g) Consumer credit means credit offered or extended to a consumer primarily for personal, family, or household purposes.

(h) Covered transaction means any consumer credit transaction secured by the consumer’s principal dwelling.

(i) Creditor means:

(1) A person who regularly extends consumer credit that is subject to a finance charge or is payable by written agreement in more than four installments (not including a down payment), and to whom the obligation is initially payable, either on the face of the note or contract, or by agreement when there is no note or contract.

(2) A person regularly extends consumer credit if the person extended credit (other than credit subject to the requirements of 12 CFR 1026.32) more than 5 times for transactions secured by a dwelling in the preceding calendar year. If a person did not meet these numerical standards in the preceding calendar year, the numerical standards shall be applied to the current calendar year. A person regularly extends consumer credit if, in any 12-month period, the person originates more than one credit extension that is subject to the requirements of 12 CFR 1026.32 or one or more such credit extensions through a mortgage broker.

(j) Dwelling means:

(1) A residential structure that contains one to four units, whether or not that structure is attached to real property. The term includes an individual condominium unit, cooperative unit, mobile home, and trailer, if it is used as a residence.

(2) A consumer can have only one “principal” dwelling at a time. Thus, a vacation or other second home would not be a principal dwelling. However, if a consumer buys or builds a new dwelling that will become the consumer’s principal dwelling within a year or upon the completion of construction, the new dwelling is considered the principal dwelling for purposes of this section.

(k) Federally regulated AMC means an AMC that is owned and controlled by
an insured depository institution, as defined in 12 U.S.C. 1813 and regulated by the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, or the Federal Deposit Insurance Corporation.

1 Federally related transaction regulations means regulations established by the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, or the National Credit Union Administration, pursuant to sections 1112, 1113, and 1114 of FIRREA Title XI, 12 U.S.C. 3341–3343.

(n) Person means a natural person or an organization, including a corporation, partnership, proprietorship, association, cooperative, estate, trust, or government unit.

(n) Secondary mortgage market participant means a guarantor or insurer of mortgage-backed securities, or an underwriter or issuer of mortgage-backed securities. Secondary mortgage market participant only includes an individual investor in a mortgage-backed security if that investor also serves in the capacity of a guarantor, insurer, underwriter, or issuer for the mortgage-backed security.

(o) States mean the 50 States and the District of Columbia and the territories of Guam, Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.

(p) Uniform Standards of Professional Appraisal Practice (USPAP) means the appraisal standards promulgated by the Appraisal Standards Board of the Appraisal Foundation.

§ 323.10 Appraiser panel—annual size calculation.

For purposes of determining whether, within a 12-month period, an AMC oversees an appraiser panel of more than 15 State-certified or State-licensed appraisers in a State or 25 or more State-certified or State-licensed appraisers in two or more States pursuant to §323.9(c)(1)(iii)—

(a) An appraiser is deemed part of the AMC’s appraiser panel as of the earliest date on which the AMC:

(1) Accepts the appraiser for the AMC’s consideration for future appraisals in covered transactions or for secondary mortgage market participants in connection with covered transactions; or

(2) Engages the appraiser to perform one or more appraisals on behalf of a creditor for a covered transaction or secondary mortgage market participant in connection with a covered transaction.

(b) An appraiser who is deemed part of the AMC’s appraiser panel pursuant to paragraph (a) of this section is deemed to remain on the panel until the date on which the AMC:

(1) Sends written notice to the appraiser removing the appraiser from the appraiser panel, with an explanation of its action; or

(2) Receives written notice from the appraiser asking to be removed from the appraiser panel or notice of the death or incapacity of the appraiser.

(c) If an appraiser is removed from an AMC’s appraiser panel pursuant to paragraph (b) of this section, but the AMC subsequently accepts the appraiser for consideration for future assignments or engages the appraiser at any time during the twelve months after the AMC’s removal, the removal will be deemed not to have occurred, and the appraiser will be deemed to have been part of the AMC’s appraiser panel without interruption.

(d) The period for purposes of counting appraisers on an AMC’s appraiser panel may be the calendar year or a 12-month period established by law or rule of each State with which the AMC is required to register.

§ 323.11 Appraisal management company registration.

Each State electing to register AMCs pursuant to paragraph (b)(1) of this section must:

(a) Establish and maintain within the State appraiser certifying and licensing agency a licensing program that is subject to the limitations set forth in §323.12 and with the legal authority and mechanisms to:

(1) Review and approve or deny an AMC’s application for initial registration;

(2) Review and renew or review and deny an AMC’s registration periodically;

VerDate Sep<11>2014 10:20 Mar 27, 2017 Jkt 241039 PO 00000 Frm 00210 Fmt 8010 Sfmt 8010 Y:\SGML\241039.XXX 241039jstallworth on DSK7TPTVN1PROD with CFR
(3) Examine the books and records of an AMC operating in the State and require the AMC to submit reports, information, and documents;

(4) Verify that the appraisers on the AMC’s appraiser panel hold valid State certifications or licenses, as applicable;

(5) Conduct investigations of AMCs to assess potential violations of applicable appraisal-related laws, regulations, or orders;

(6) Discipline, suspend, terminate, or deny renewal of the registration of an AMC that violates applicable appraisal-related laws, regulations, or orders; and

(7) Report an AMC’s violation of applicable appraisal-related laws, regulations, or orders, as well as disciplinary and enforcement actions and other relevant information about an AMC’s operations, to the Appraisal Subcommittee.

(b) Impose requirements on AMCs that are not owned and controlled by an insured depository institution and not regulated by a Federal financial institution regulatory agency to:

(1) Register with and be subject to supervision by the State appraiser certifying and licensing agency;

(2) Engage only State-certified or State-licensed appraisers for Federally regulated transactions in conformity with any Federally related transaction regulations;

(3) Establish and comply with processes and controls reasonably designed to ensure that the AMC, in engaging an appraiser, selects an appraiser who is independent of the transaction and who has the requisite education, expertise, and experience necessary to competently complete the appraisal assignment for the particular market and property type;

(4) Direct the appraiser to perform the assignment in accordance with USPAP; and

(5) Establish and comply with processes and controls reasonably designed to ensure that the AMC conducts its appraisal management services in accordance with the requirements of section 128E(a)–(i) of the Truth in Lending Act, 15 U.S.C. 1689e(a)–(i), and regulations thereunder.

§ 323.13 Requirements for Federally regulated appraisal management companies.

(a) Requirements in providing services. To provide appraisal management services for a creditor or secondary mortgage market participant relating to a covered transaction, a Federally regulated AMC must comply with the requirements in §323.11(b)(2) through (5).

(b) Ownership limitations. (1) A Federally regulated AMC shall not be included on the AMC National Registry if such AMC, in whole or in part, directly or indirectly, is owned by any person who has had an appraiser license or certificate refused, denied, cancelled, surrendered in lieu of revocation, or revoked in any State for a substantive cause, as determined by the ASC.
(2) A Federally regulated AMC is not barred by §323.12(b) from being included on the AMC National Registry if the license or certificate of the appraiser with an ownership interest was not revoked for a substantive cause and has been reinstated by the State or States in which the appraiser was licensed or certified.

(c) Reporting information for the AMC National Registry. A Federally regulated AMC must report to the State or States in which it operates the information required to be submitted by the State pursuant to the Appraisal Subcommittee’s policies regarding the determination of the AMC National Registry fee, including but not necessarily limited to the collection of information related to the limitations set forth in §323.12, as applicable.

§323.14 Information to be presented to the Appraisal Subcommittee by participating States.

Each State electing to register AMCs for purposes of permitting AMCs to provide appraisal management services relating to covered transactions in the State must submit to the Appraisal Subcommittee the information required to be submitted by Appraisal Subcommittee regulations or guidance concerning AMCs that operate in the State.

PART 324—CAPITAL ADEQUACY OF FDIC-SUPERVISED INSTITUTIONS

Subpart A—General Provisions

Sec.
324.1 Purpose, applicability, reservations of authority, and timing.
324.2 Definitions.
324.3 Operational requirements for counterparty credit risk.
324.4 Inadequate capital as an unsafe or unsound practice or condition.
324.5 Issuance of directives.
324.6–324.9 [Reserved]

Subpart B—Capital Ratio Requirements and Buffers

324.10 Minimum capital requirements.
324.11 Capital conservation buffer and countercyclical capital buffer amount.
324.12–324.19 [Reserved]

Subpart D—Risk-Weighted Assets—Standardized Approach

324.30 Applicability.
324.31 Mechanics for calculating risk-weighted assets for general credit risk.
324.32 General risk weights.
324.33 Off-balance sheet exposures.
324.34 OTC derivative contracts.
324.35 Cleared transactions.
324.36 Guarantees and credit derivatives: substitution treatment.
324.37 Collateralized transactions.

RISK-WEIGHTED ASSETS FOR UNSETTLED TRANSACTIONS

324.41 Operational requirements for securitization exposures.
324.42 Risk-weighted assets for securitization exposures.
324.43 Simplified supervisory formula approach (SSFA) and the gross-up approach.
324.44 Securitization exposures to which the SSFA and gross-up approach do not apply.
324.45 Recognition of credit risk mitigants for securitization exposures.
324.46–324.50 [Reserved]

RISK-WEIGHTED ASSETS FOR EQUITY EXPOSURES

324.51 Introduction and exposure measurement.
324.52 Simple risk-weight approach (SRWA).
324.53 Equity exposures to investment funds.
324.54–324.60 [Reserved]

DISCLOSURES

324.61 Purpose and scope.
324.62 Disclosure requirements.
324.63 Disclosures by FDIC-supervised institutions described in §324.61.
Federal Deposit Insurance Corporation

Pt. 324

324.64–324.99 [Reserved]

Subpart E—Risk-Weighted Assets—Internal Ratings-Based and Advanced Measurement Approaches

324.100 Purpose, applicability, and principle of conservatism.
324.102–324.120 [Reserved]

Qualification

324.121 Qualification process.
324.122 Qualification requirements.
324.123 Ongoing qualification.
324.124 Merger and acquisition transitional arrangements.
324.125–324.130 [Reserved]

Risk-Weighted Assets for General Credit Risk

324.131 Mechanics for calculating total wholesale and retail risk-weighted assets.
324.132 Counterparty credit risk of repo-style transactions, eligible margin loans, and OTC derivative contracts.
324.133 Cleared transactions.
324.134 Guarantees and credit derivatives: PD substitution and LGD adjustment approaches.
324.135 Guarantees and credit derivatives: double default treatment.
324.136 Unsettled transactions.
324.137–324.140 [Reserved]

Risk-Weighted Assets for Securitization Exposures

324.141 Operational criteria for recognizing the transfer of risk.
324.142 Risk-weighted assets for securitization exposures.
324.143 Supervisory formula approach (SFA).
324.144 Simplified supervisory formula approach (SSFA).
324.145 Recognition of credit risk mitigants for securitization exposures.
324.146–324.150 [Reserved]

Risk-Weighted Assets for Equity Exposures

324.151 Introduction and exposure measurement.
324.152 Simple risk weight approach (SRWA).
324.153 Internal models approach (IMA).
324.154 Equity exposures to investment funds.
324.155 Equity derivative contracts.
324.156–324.160 [Reserved]

Risk-Weighted Assets for Operational Risk

324.161 Qualification requirements for incorporation of operational risk mitigants.
324.162 Mechanics of risk-weighted asset calculation.
324.163–324.170 [Reserved]

Disclosures

324.171 Purpose and scope.
324.172 Disclosure requirements.
324.173 Disclosures by certain advanced approaches FDIC-supervised institutions.
324.174–324.200 [Reserved]

Subpart F—Risk-Weighted Assets—Market Risk

324.201 Purpose, applicability, and reservation of authority.
324.202 Definitions.
324.203 Requirements for application of this subpart F.
324.204 Measure for market risk.
324.205 VaR-based measure.
324.206 Stressed VaR-based measure.
324.207 Specific risk.
324.208 Incremental risk.
324.209 Comprehensive risk.
324.210 Standardized measurement method for specific risk.
324.211 Simplified supervisory formula approach (SSFA).
324.212 Market risk disclosures.
324.213–324.299 [Reserved]

324.300 Transitions.
324.301–324.399 [Reserved]

Subpart H—Prompt Corrective Action

324.401 Authority, purpose, scope, other supervisory authority, disclosure of capital categories, and transition procedures.
324.402 Notice of capital category.
324.403 Capital measures and capital category definitions.
324.404 Capital restoration plans.
324.405 Mandatory and discretionary supervisory actions.
324.406–324.999 [Reserved]

Source: 78 FR 55471, Sept. 10, 2013, unless otherwise noted.
Subpart A—General Provisions

§ 324.1 Purpose, applicability, reservations of authority, and timing.

(a) Purpose. This part 324 establishes minimum capital requirements and overall capital adequacy standards for FDIC-supervised institutions. This part 324 includes methodologies for calculating minimum capital requirements, public disclosure requirements related to the capital requirements, and transition provisions for the application of this part 324.

(b) Limitation of authority. Nothing in this part 324 shall be read to limit the authority of the FDIC to take action under other provisions of law, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law or regulation, under section 8 of the Federal Deposit Insurance Act.

(c) Applicability. Subject to the requirements in paragraphs (d) and (f) of this section:

(1) Minimum capital requirements and overall capital adequacy standards. Each FDIC-supervised institution must calculate its minimum capital requirements and meet the overall capital adequacy standards in subpart B of this part.

(2) Regulatory capital. Each FDIC-supervised institution must calculate its regulatory capital in accordance with subpart C of this part.

(3) Risk-weighted assets. (i) Each FDIC-supervised institution must use the methodologies in subpart D of this part (and subpart F of this part for a market risk FDIC-supervised institution) to calculate standardized total risk-weighted assets.

(ii) Each advanced approaches FDIC-supervised institution must use the methodologies in subpart E (and subpart F of this part for a market risk FDIC-supervised institution) to calculate advanced approaches total risk-weighted assets.

(4) Disclosures. (i) Except for an advanced approaches FDIC-supervised institution that is making public disclosures pursuant to the requirements in subpart E of this part, each FDIC-supervised institution with total consolidated assets of $50 billion or more must make the public disclosures described in subpart D of this part.

(ii) Each market risk FDIC-supervised institution must make the public disclosures described in subpart F of this part.

(iii) Each advanced approaches FDIC-supervised institution must make the public disclosures described in subpart E of this part.

(d) Reservation of authority. (1) Additional capital in the aggregate. The FDIC may require an FDIC-supervised institution to hold an amount of regulatory capital greater than otherwise required under this part if the FDIC determines that the FDIC-supervised institution's capital requirements under this part are not commensurate with the FDIC-supervised institution's credit, market, operational, or other risks.

(2) Regulatory capital elements. (i) If the FDIC determines that a particular common equity tier 1, additional tier 1, or tier 2 capital element has characteristics or terms that diminish its ability to absorb losses, or otherwise present safety and soundness concerns, the FDIC may require the FDIC-supervised institution to exclude all or a portion of such element from common equity tier 1 capital, additional tier 1 capital, or tier 2 capital, as appropriate.

(ii) Notwithstanding the criteria for regulatory capital instruments set forth in subpart C of this part, the FDIC may find that a capital element may be included in an FDIC-supervised institution's common equity tier 1 capital, additional tier 1 capital, or tier 2 capital on a permanent or temporary basis consistent with the loss absorption capacity of the element and in accordance with § 324.20(e).

(3) Risk-weighted asset amounts. If the FDIC determines that the risk-weighted asset amount calculated under this part by the FDIC-supervised institution for one or more exposures is not commensurate with the risks associated with those exposures, the FDIC may require the FDIC-supervised institution to assign a different risk-weighted asset amount to the exposure(s) or to deduct the amount of the exposure(s) from its regulatory capital.

(4) Total leverage. If the FDIC determines that the total leverage exposure, or the amount reflected in the FDIC-
supervised institution’s reported average total consolidated assets, for an on- or off-balance sheet exposure calculated by an FDIC-supervised institution under §324.10 is inappropriate for the exposure(s) or the circumstances of the FDIC-supervised institution, the FDIC may require the FDIC-supervised institution to adjust this exposure amount in the numerator and the denominator for purposes of the leverage ratio calculations.

(5) Consolidation of certain exposures. The FDIC may determine that the risk-based capital treatment for an exposure or the treatment provided to an entity that is not consolidated on the FDIC-supervised institution’s balance sheet is not commensurate with the risk of the exposure or the relationship of the FDIC-supervised institution to the entity. Upon making this determination, the FDIC may require the FDIC-supervised institution to treat the exposure or entity as if it were consolidated on the balance sheet of the FDIC-supervised institution for purposes of determining the FDIC-supervised institution’s risk-based capital requirements and calculating the FDIC-supervised institution’s risk-based capital ratios accordingly. The FDIC will look to the substance of, and risk associated with, the transaction, as well as other relevant factors the FDIC deems appropriate in determining whether to require such treatment.

(6) Other reservation of authority. With respect to any deduction or limitation required under this part, the FDIC may require a different deduction or limitation, provided that such alternative deduction or limitation is commensurate with the FDIC-supervised institution’s risk and consistent with safety and soundness.

(e) Notice and response procedures. In making a determination under this section, the FDIC will apply notice and response procedures in the same manner as the notice and response procedures in §324.5(c).

(f) Timing. (1) Subject to the transition provisions in subpart G of this part, an advanced approaches FDIC-supervised institution that is not a savings and loan holding company must:

(i) Except as described in paragraph (f)(1)(ii) of this section, beginning on January 1, 2014, calculate advanced approaches total risk-weighted assets in accordance with subpart E and, if applicable, subpart F of this part and, beginning on January 1, 2015, calculate standardized total risk-weighted assets in accordance with subpart D and, if applicable, subpart F of this part;

(ii) From January 1, 2014 to December 31, 2014:

(A) Calculate risk-weighted assets in accordance with the general risk-based capital rules under 12 CFR part 325, appendix A, and, if applicable appendix C (state nonmember banks), or 12 CFR part 390, subpart Z and, if applicable, 12 CFR part 325, appendix C (state savings associations)1 and substitute such risk-weighted assets for standardized total risk-weighted assets for purposes of §324.10;

(B) If applicable, calculate general market risk equivalent assets in accordance with 12 CFR part 325, appendix C, section 4(a)(3) and substitute such general market risk equivalent assets for standardized market risk-weighted assets for purposes of §324.20(d)(3); and

(C) Substitute the corresponding provision or provisions of 12 CFR part 325, appendix A, and, if applicable, appendix C (state nonmember banks), and 12 CFR part 390, subpart Z and, if applicable, 12 CFR part 325, appendix C (state savings associations) for any reference to subpart D of this part in: §324.121(c); §324.124(a) and (b); §324.144(b); §324.154(c) and (d); §324.202(b) (definition of covered position in paragraph (b)(3)(iv)); and §324.211(b);2

1 For the purpose of calculating its general risk-based capital ratios from January 1, 2014 to December 31, 2014, an advanced approaches FDIC-supervised institution shall adjust, as appropriate, its risk-weighted asset measure (as that amount is calculated under 12 CFR part 325, appendix A, (state nonmember banks), and 12 CFR part 390, subpart Z (state savings associations) in the general risk-based capital rules) by excluding those assets that are deducted from its regulatory capital under §324.22.

2 In addition, for purposes of §324.201(c)(3), from January 1, 2014 to December 31, 2014, for...
any circumstance in which the FDIC may re-
cquire an FDIC-supervised institution to cal-
culate risk-based capital requirements for
specific positions or portfolios under subpart
D of this part, the FDIC will instead require
the FDIC-supervised institution to make
such calculations according to 12 CFR part
325, appendix A, and, if applicable, appendix
C (state nonmember banks), or 12 CFR part
390, subpart Z and, if applicable, 12 CFR part
325, appendix C (state savings associations).

(iii) Beginning on January 1, 2014,
calculate and maintain minimum capital
ratios in accordance with subparts
A, B, and C of this part, provided, how-
ever, that such FDIC-supervised insti-
tution must:

(A) From January 1, 2014 to Decem-
ber 31, 2014, maintain a minimum com-
on equity tier 1 capital ratio of 4 per-
cent, a minimum tier 1 capital ratio of
5.5 percent, a minimum total capital
ratio of 8 percent, and a minimum le-
verage ratio of 4 percent; and

(B) From January 1, 2015 to Decem-
ber 31, 2017, an advanced approaches
FDIC-supervised institution:

(I) Is not required to maintain a sup-
plemetary leverage ratio; and

(2) Must calculate a supplementary
leverage ratio in accordance with
§324.10(c), and must report the cal-
cculated supplementary leverage ratio
on any applicable regulatory reports.

(2) Subject to the transition provi-
sions in subpart G of this part, an
FDIC-supervised institution that is not
an advanced approaches FDIC-super-
vised institution or a savings and loan
holding company that is an advanced
approaches FDIC-supervised institu-
tion must:

(i) Beginning on January 1, 2015, cal-
culate standardized total risk-weighted
assets in accordance with subpart D,
and if applicable, subpart F of this
part; and

(ii) Beginning on January 1, 2015, cal-
culate and maintain minimum capital
ratios in accordance with subparts A, B
and C of this part, provided, however,
that from January 1, 2015, to December
31, 2017, a savings and loan holding
company that is an advanced ap-
proaches FDIC-supervised institution:

(A) Is not required to maintain a sup-
plemetary leverage ratio; and

(B) Must calculate a supplementary
leverage ratio in accordance with

§324.10(e), and must report the cal-
cculated supplementary leverage ratio
on any applicable regulatory reports.

(3) Beginning on January 1, 2016, and
subject to the transition provisions in
subpart G of this part, an FDIC-superv-
ised institution is subject to limita-
tions on distributions and discre-
tionary bonus payments with respect
to its capital conservation buffer and
any applicable countercyclical capital
buffer amount, in accordance with sub-
part B of this part.

[78 FR 55471, Sept. 10, 2013, as amended at 79
FR 57448, Sept. 26, 2014]

§324.2 Definitions.

As used in this part:

Additional tier 1 capital is defined in
§324.20(c).

Advanced approaches FDIC-supervised
institution means an FDIC-supervised
institution that is described in
§324.100(b)(1).

Advanced approaches total risk-weight-
ed assets means:

(1) The sum of:

(i) Credit-risk-weighted assets;

(ii) Credit valuation adjustment
(CVA) risk-weighted assets;

(iii) Risk-weighted assets for oper-
tional risk; and

(iv) For a market risk FDIC-super-
vised institution only, advanced mar-
ket risk-weighted assets; minus

(2) Excess eligible credit reserves not
included in the FDIC-supervised insti-
tution’s tier 2 capital.

Advanced market risk-weighted assets
means the advanced measure for mar-
ket risk calculated under §324.204 mul-
tiplied by 12.5.

Affiliate with respect to a company,
means any company that controls, is
controlled by, or is under common con-
trol with, the company.

Allocated transfer risk reserves means
reserves that have been established in
accordance with section 905(a) of the
International Lending Supervision Act,
against certain assets whose value U.S.
supervisory authorities have found to
be significantly impaired by protracted
transfer risk problems.

Allowances for loan and lease losses
(ALLL) means valuation allowances
that have been established through a
Federal Deposit Insurance Corporation

§ 324.2

charge against earnings to cover estimated credit losses on loans, lease financing receivables or other extensions of credit as determined in accordance with GAAP. ALLL excludes “allocated transfer risk reserves.” For purposes of this part, ALLL includes allowances that have been established through a charge against earnings to cover estimated credit losses on loans, lease financing receivables or other extensions of credit as determined in accordance with GAAP.

Asset-backed commercial paper (ABCP) program means a program established primarily for the purpose of issuing commercial paper that is investment grade and backed by underlying exposures held in a bankruptcy-remote special purpose entity (SPE).

Asset-backed commercial paper (ABCP) program sponsor means an FDIC-supervised institution that:

(1) Establishes an ABCP program;
(2) Approves the sellers permitted to participate in an ABCP program;
(3) Approves the exposures to be purchased by an ABCP program; or
(4) Administers the ABCP program by monitoring the underlying exposures, underwriting or otherwise arranging for the placement of debt or other obligations issued by the program, compiling monthly reports, or ensuring compliance with the program documents and with the program’s credit and investment policy.

Assets classified loss means:

(1) When measured as of the date of examination of an FDIC-supervised institution, those assets that have been determined by an evaluation made by a state or Federal examiner as of that date to be a loss; and
(2) When measured as of any other date, those assets:
   (i) That have been determined—
      (A) By an evaluation made by a state or Federal examiner at the most recent examination of an FDIC-supervised institution to be a loss; or
      (B) By evaluations made by the FDIC-supervised institution since its most recent examination to be a loss; and
   (ii) That have not been charged off from the FDIC-supervised institution’s books or collected.

Bank means an FDIC-insured, state-chartered commercial or savings bank that is not a member of the Federal Reserve System and for which the FDIC is the appropriate Federal banking agency pursuant to section 3(q) of the Federal Deposit Insurance Act (12 U.S.C. 1813(q)).

Bank holding company means a bank holding company as defined in section 2 of the Bank Holding Company Act.

Bankruptcy remote means, with respect to an entity or asset, that the entity or asset would be excluded from an insolvent entity’s estate in receivership, insolvency, liquidation, or similar proceeding.

Call Report means Consolidated Reports of Condition and Income.

Carrying value means, with respect to an asset, the value of the asset on the balance sheet of the FDIC-supervised institution, determined in accordance with GAAP.

Central counterparty (CCP) means a counterparty (for example, a clearing house) that facilitates trades between counterparties in one or more financial markets by either guaranteeing trades or novating contracts.

CFTC means the U.S. Commodity Futures Trading Commission.

Clean-up call means a contractual provision that permits an originating FDIC-supervised institution or servicer to call securitization exposures before their stated maturity or call date.

Cleared transaction means an exposure associated with an outstanding derivative contract or repo-style transaction that an FDIC-supervised institution or clearing member has entered into with a central counterparty (that is, a transaction that a central counterparty has accepted).

(1) The following transactions are cleared transactions:
   (i) A transaction between a CCP and an FDIC-supervised institution that is a clearing member of the CCP where the FDIC-supervised institution enters into the transaction with the CCP for the FDIC-supervised institution’s own account;
   (ii) A transaction between a CCP and an FDIC-supervised institution that is a clearing member of the CCP where
the FDIC-supervised institution acting as a financial intermediary on behalf of a clearing member client and the transaction offsets another transaction that satisfies the requirements set forth in §324.3(a).

(iii) A transaction between a clearing member client FDIC-supervised institution and a clearing member where the clearing member acts as a financial intermediary on behalf of the clearing member client and enters into an offsetting transaction with a CCP, providing that the requirements set forth in §324.3(a) are met; or

(iv) A transaction between a clearing member client FDIC-supervised institution and a CCP where a clearing member guarantees the performance of the clearing member client FDIC-supervised institution to the CCP and the transaction meets the requirements of §324.3(a)(2) and (3).

(2) The exposure of an FDIC-supervised institution that is a clearing member to its clearing member client is not a cleared transaction where the FDIC-supervised institution is either acting as a financial intermediary and enters into an offsetting transaction with a CCP or where the FDIC-supervised institution provides a guarantee to the CCP on the performance of the client.3

Clearing member means a member of, or direct participant in, a CCP that is entitled to enter into transactions with the CCP.

Clearing member client means a party to a cleared transaction associated with a CCP in which a clearing member acts either as a financial intermediary with respect to the party or guarantees the performance of the party to the CCP.

Collateral agreement means a legal contract that specifies the time when, and circumstances under which, a counterparty is required to pledge collateral to an FDIC-supervised institution for a single financial contract or for all financial contracts in a netting set and confers upon the FDIC-supervised institution a perfected, first-priority security interest (notwithstanding the prior security interest of any custodial agent), or the legal equivalent thereof, in the collateral posted by the counterparty under the agreement. This security interest must provide the FDIC-supervised institution with a right to close out the financial positions and liquidate the collateral upon an event of default of, or failure to perform by, the counterparty under the collateral agreement. A contract would not satisfy this requirement if the FDIC-supervised institution’s exercise of rights under the agreement may be stayed or avoided under applicable law in the relevant jurisdictions, other than:

(1) In receivership, conservatorship, or resolution under the Federal Deposit Insurance Act, Title II of the Dodd-Frank Act, or under any similar insolvency law applicable to GSEs, or laws of foreign jurisdictions that are substantially similar4 to the U.S. laws referenced in this paragraph (1) in order to facilitate the orderly resolution of the defaulting counterparty; or

(2) Where the agreement is subject by its terms to any of the laws referenced in paragraph (1) of this definition.

Commitment means any legally binding arrangement that obligates an FDIC-supervised institution to extend credit or to purchase assets.

Commodity derivative contract means a commodity-linked swap, purchased commodity-linked option, forward commodity-linked contract, or any other instrument linked to commodities that gives rise to similar counterparty credit risks.

Commodity Exchange Act means the Commodity Exchange Act of 1936 (7 U.S.C. 1 et seq.)

Common equity tier 1 capital is defined in §324.20(b).

3For the standardized approach treatment of those exposures, see §324.34(e) (OTC derivative contracts) or §324.37(c) (repo-style transactions). For the advanced approaches treatment of these exposures, see §324.132(c)(8) and (d) (OTC derivative contracts) or §324.132(b) and §324.132(d) (repo-style transactions) and for calculation of the margin period of risk, see §324.132(d)(5)(iii)(C) (OTC derivative contracts) and §324.132(d)(5)(iii)(A) (repo-style transactions).

4The FDIC expects to evaluate jointly with the Federal Reserve and the OCC whether foreign special resolution regimes meet the requirements of this paragraph.
Federal Deposit Insurance Corporation

§ 324.2

Common equity tier 1 minority interest means the common equity tier 1 capital of a depository institution or foreign bank that is:

1. A consolidated subsidiary of an FDIC-supervised institution; and
2. Not owned by the FDIC-supervised institution.

Company means a corporation, partnership, limited liability company, depository institution, business trust, special purpose entity, association, or similar organization.

Control. A person or company controls a company if it:

1. Owns, controls, or holds with power to vote 25 percent or more of a class of voting securities of the company; or
2. Consolidates the company for financial reporting purposes.

Core capital means Tier 1 capital, as defined in § 324.2 of subpart A of this part.

Corporate exposure means an exposure to a company that is not:

1. An exposure to a sovereign, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, a multi-lateral development bank (MDB), a depository institution, a foreign bank, a credit union, or a public sector entity (PSE);
2. An exposure to a GSE;
3. A residential mortgage exposure;
4. A pre-sold construction loan;
5. A statutory multifamily mortgage;
6. A high volatility commercial real estate (HVCRE) exposure;
7. A cleared transaction;
8. A default fund contribution;
9. A securitization exposure;
10. An equity exposure; or
11. An unsettled transaction.

Country risk classification (CRC) with respect to a sovereign, means the most recent consensus CRC published by the Organization for Economic Cooperation and Development (OECD) as of December 31st of the prior calendar year that provides a view of the likelihood that the sovereign will service its external debt.

Covered savings and loan holding company means a top-tier savings and loan holding company other than:

1. A top-tier savings and loan holding company that is:
   i. A grandfathered unitary savings and loan holding company as defined in section 10(c)(9)(A) of HOLA; and
   ii. As of June 30 of the previous calendar year, derived 50 percent or more of its total consolidated assets or 50 percent of its total revenues on an enterprise-wide basis (as calculated under GAAP) from activities that are not financial in nature under section 4(k) of the Bank Holding Company Act (12 U.S.C. 1842(k));
2. A top-tier savings and loan holding company that is an insurance underwriting company; or
3. i. A top-tier savings and loan holding company that, as of June 30 of the previous calendar year, held 25 percent or more of its total consolidated assets in subsidiaries that are insurance underwriting companies (other than assets associated with insurance for credit risk); and
   ii. For purposes of paragraph 3(i) of this definition, the company must calculate its total consolidated assets in accordance with GAAP, or if the company does not calculate its total consolidated assets under GAAP for any regulatory purpose (including compliance with applicable securities laws), the company may estimate its total consolidated assets, subject to review and adjustment by the Federal Reserve.

Credit derivative means a financial contract executed under standard industry credit derivative documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure(s)) to another party (the protection provider) for a certain period of time.

Credit-enhancing interest-only strip (CEIO) means an on-balance sheet asset that, in form or in substance:

1. Represents a contractual right to receive some or all of the interest and no more than a minimal amount of principal due on the underlying exposures of a securitization; and
2. Exposes the holder of the CEIO to credit risk directly or indirectly associated with the underlying exposures that exceeds a pro rata share of the
holder’s claim on the underlying exposures, whether through subordination provisions or other credit-enhancement techniques.

Credit-enhancing representations and warranties means representations and warranties that are made or assumed in connection with a transfer of underlying exposures (including loan servicing assets) and that obligate an FDIC-supervised institution to protect another party from losses arising from the credit risk of the underlying exposures. Credit-enhancing representations and warranties include provisions to protect a party from losses resulting from the default or nonperformance of the counterparties of the underlying exposures or from an insufficiency in the value of the collateral backing the underlying exposures. Credit-enhancing representations and warranties do not include:

(1) Early default clauses and similar warranties that permit the return of, or premium refund clauses covering, 1-4 family residential first mortgage loans that qualify for a 50 percent risk weight for a period not to exceed 120 days from the date of transfer. These warranties may cover only those loans that were originated within 1 year of the date of transfer;

(2) Premium refund clauses that cover assets guaranteed, in whole or in part, by the U.S. Government, a U.S. Government agency or a GSE, provided the premium refund clauses are for a period not to exceed 120 days from the date of transfer; or

(3) Warranties that permit the return of underlying exposures in instances of misrepresentation, fraud, or incomplete documentation.

Credit risk mitigant means collateral, a credit derivative, or a guarantee.

Credit-risk-weighted assets means 1.06 multiplied by the sum of:

(1) Total wholesale and retail risk-weighted assets as calculated under §324.131;

(2) Risk-weighted assets for securitization exposures as calculated under §324.142; and

(3) Risk-weighted assets for equity exposures as calculated under §324.151.

Credit union means an insured credit union as defined under the Federal Credit Union Act (12 U.S.C. 1751 et seq.).

Current exposure means, with respect to a netting set, the larger of zero or the fair value of a transaction or portfolio of transactions within the netting set that would be lost upon default of the counterparty, assuming no recovery on the value of the transactions. Current exposure is also called replacement cost.

Current exposure methodology means the method of calculating the exposure amount for over-the-counter derivative contracts in §324.34(a) and exposure at default (EAD) in §324.132(c)(5) or (6), as applicable.

Custodian means a financial institution that has legal custody of collateral provided to a CCP.

Default fund contribution means the funds contributed or commitments made by a clearing member to a CCP’s mutualized loss sharing arrangement.

Depository institution means a depository institution as defined in section 3 of the Federal Deposit Insurance Act.

Depository institution holding company means a bank holding company or savings and loan holding company.

Derivative contract means a financial contract whose value is derived from the values of one or more underlying assets, reference rates, or indices of asset values or reference rates. Derivative contracts include interest rate derivative contracts, exchange rate derivative contracts, equity derivative contracts, commodity derivative contracts, credit derivative contracts, and any other instrument that poses similar counterparty credit risks. Derivative contracts also include unsettled securities, commodities, and foreign exchange transactions with a contractual settlement or delivery lag that is longer than the lesser of the market standard for the particular instrument or five business days.

Discretionary bonus payment means a payment made to an executive officer of an FDIC-supervised institution, where:

(1) The FDIC-supervised institution retains discretion as to whether to make, and the amount of, the payment until the payment is awarded to the executive officer.
(2) The amount paid is determined by the FDIC-supervised institution without prior promise to, or agreement with, the executive officer; and

(3) The executive officer has no contractual right, whether express or implied, to the bonus payment.

**Distribution** means:

(1) A reduction of tier 1 capital through the repurchase of a tier 1 capital instrument or by other means, except when an FDIC-supervised institution, within the same quarter when the repurchase is announced, fully replaces a tier 1 capital instrument it has repurchased by issuing another capital instrument that meets the eligibility criteria for:

   (i) A common equity tier 1 capital instrument if the instrument being repurchased was part of the FDIC-supervised institution’s common equity tier 1 capital, or

   (ii) A common equity tier 1 or additional tier 1 capital instrument if the instrument being repurchased was part of the FDIC-supervised institution’s tier 1 capital;

(2) A reduction of tier 2 capital through the repurchase, or redemption prior to maturity, of a tier 2 capital instrument or by other means, except when an FDIC-supervised institution, within the same quarter when the repurchase or redemption is announced, fully replaces a tier 2 capital instrument it has repurchased by issuing another capital instrument that meets the eligibility criteria for a tier 1 or tier 2 capital instrument;

(3) A dividend declaration or payment on any tier 1 capital instrument;

(4) A dividend declaration or interest payment on any tier 2 capital instrument if the FDIC-supervised institution has full discretion to permanently or temporarily suspend such payments without triggering an event of default; or

(5) Any similar transaction that the FDIC determines to be in substance a distribution of capital.

**Effective notional amount** means for an eligible guarantee or eligible credit derivative, the lesser of the contractual notional amount of the credit risk mitigant and the exposure amount (or EAD for purposes of subpart E of this part) of the hedged exposure, multiplied by the percentage coverage of the credit risk mitigant.

**Eligible ABCP liquidity facility** means a liquidity facility supporting ABCP, in form or in substance, that is subject to an asset quality test at the time of draw that precludes funding against assets that are 90 days or more past due or in default. Notwithstanding the preceding sentence, a liquidity facility is an eligible ABCP liquidity facility if the assets or exposures funded under the liquidity facility that do not meet the eligibility requirements are guaranteed by a sovereign that qualifies for a 20 percent risk weight or lower.

**Eligible clean-up call** means a clean-up call that:

(1) Is exercisable solely at the discretion of the originating FDIC-supervised institution or servicer;

(2) Is not structured to avoid allocating losses to securitization exposures held by investors or otherwise structured to provide credit enhancement to the securitization; and

(3)(i) For a traditional securitization, is only exercisable when 10 percent or less of the principal amount of the underlying exposures or securitization exposures (determined as of the inception of the securitization) is outstanding; or

(ii) For a synthetic securitization, is only exercisable when 10 percent or less
of the principal amount of the reference portfolio of underlying exposures (determined as of the inception of the securitization) is outstanding.

Eligible credit derivative means a credit derivative in the form of a credit default swap, nth-to-default swap, total return swap, or any other form of credit derivative approved by the FDIC, provided that:

(1) The contract meets the requirements of an eligible guarantee and has been confirmed by the protection purchaser and the protection provider;

(2) Any assignment of the contract has been confirmed by all relevant parties;

(3) If the credit derivative is a credit default swap or nth-to-default swap, the contract includes the following credit events:

(i) Failure to pay any amount due under the terms of the reference exposure, subject to any applicable minimal payment threshold that is consistent with standard market practice and with a grace period that is closely in line with the grace period of the reference exposure; and

(ii) Receivership, insolvency, liquidation, conservatorship or inability of the reference exposure issuer to pay its debts, or its failure or admission in writing of its inability generally to pay its debts as they become due, and similar events;

(4) The terms and conditions dictating the manner in which the contract is to be settled are incorporated into the contract;

(5) If the contract allows for cash settlement, the contract incorporates a robust valuation process to estimate loss reliably and specifies a reasonable period for obtaining post-credit event valuations of the reference exposure;

(6) If the contract requires the protection purchaser to transfer an exposure to the protection provider at settlement, the terms of at least one of the exposures that is permitted to be transferred under the contract provide that any required consent to transfer may not be unreasonably withheld;

(7) If the credit derivative is a credit default swap or nth-to-default swap, the contract clearly identifies the parties responsible for determining whether a credit event has occurred, specifies that this determination is not the sole responsibility of the protection provider, and gives the protection purchaser the right to notify the protection provider of the occurrence of a credit event; and

(8) If the credit derivative is a total return swap and the FDIC-supervised institution records net payments received on the swap as net income, the FDIC-supervised institution records offsetting deterioration in the value of the hedged exposure (either through reductions in fair value or by an addition to reserves).

Eligible credit reserves means all general allowances that have been established through a charge against earnings to cover estimated credit losses associated with on- or off-balance sheet wholesale and retail exposures, including the ALLL associated with such exposures, but excluding allocated transfer risk reserves established pursuant to 12 U.S.C. 3904 and other specific reserves created against recognized losses.

Eligible guarantee means a guarantee that:

(1) Is written;

(2) Is either:

(i) Unconditional, or

(ii) A contingent obligation of the U.S. government or its agencies, the enforceability of which is dependent upon some affirmative action on the part of the beneficiary of the guarantee or a third party (for example, meeting servicing requirements);

(3) Covers all or a pro rata portion of all contractual payments of the obligated party on the reference exposure;

(4) Gives the beneficiary a direct claim against the protection provider;

(5) Is not unilaterally cancelable by the protection provider for reasons other than the breach of the contract by the beneficiary;

(6) Except for a guarantee by a sovereign, is legally enforceable against the protection provider in a jurisdiction where the protection provider has sufficient assets against which a judgment may be attached and enforced;

(7) Requires the protection provider to make payment to the beneficiary on the occurrence of a default (as defined in the guarantee) of the obligated party on the reference exposure in a

212
timely manner without the beneficiary first having to take legal actions to pursue the obligor for payment;

(8) Does not increase the beneficiary’s cost of credit protection on the guarantee in response to deterioration in the credit quality of the reference exposure;

(9) Is not provided by an affiliate of the FDIC-supervised institution, unless the affiliate is an insured depository institution, foreign bank, securities broker or dealer, or insurance company that:

(i) Does not control the FDIC-supervised institution; and

(ii) Is subject to consolidated supervision and regulation comparable to that imposed on depository institutions, U.S. securities broker-dealers, or U.S. insurance companies (as the case may be); and

(10) For purposes of §§ 324.141 through 324.145 and subpart D of this part, is provided by an eligible guarantor.

*Eligible guarantor means:*

(1) A sovereign, the Bank for International Settlements, the International Monetary Fund, the European Central Bank, the European Commission, a Federal Home Loan Bank, Federal Agricultural Mortgage Corporation (Farmer Mac), a multilateral development bank (MDB), a depository institution, a bank holding company, a savings and loan holding company, a credit union, a foreign bank, or a qualifying central counterparty; or

(2) An entity (other than a special purpose entity):

(i) That at the time the guarantee is issued or anytime thereafter, has issued and outstanding an unsecured debt security without credit enhancement that is investment grade;

(ii) Whose creditworthiness is not positively correlated with the credit risk of the exposures for which it has provided guarantees; and

(iii) That is not an insurance company engaged predominately in the business of providing credit protection (such as a monoline bond insurer or reinsurer).

*Eligible margin loan means:*

(1) An extension of credit where:

(i) The extension of credit is collateralized exclusively by liquid and readily marketable debt or equity securities, or gold;

(ii) The collateral is marked to fair value daily, and the transaction is subject to daily margin maintenance requirements; and

(iii) The extension of credit is conducted under an agreement that provides the FDIC-supervised institution the right to accelerate and terminate the extension of credit and to liquidate or set-off collateral promptly upon an event of default, including upon an event of receivership, insolvency, liquidation, conservatorship, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions, other than in receivership, conservatorship, or resolution under the Federal Deposit Insurance Act, Title II of the Dodd-Frank Act, or under any similar insolvency law applicable to GSEs, or laws of foreign jurisdictions that are substantially similar to the U.S. laws referenced in this paragraph in order to facilitate the orderly resolution of the defaulting counterparty.

(2) In order to recognize an exposure as an eligible margin loan for purposes of this subpart, an FDIC-supervised institution must comply with the requirements of §324.3(b) with respect to that exposure.

*Eligible servicer cash advance facility means a servicer cash advance facility in which:

(1) The servicer is entitled to full reimbursement of advances, except that a servicer may be obligated to make non-reimbursable advances for a particular underlying exposure if any such

---

*This requirement is met where all transactions under the agreement are (i) executed under U.S. law and (ii) constitute "securities contracts" under section 555 of the Bankruptcy Code (11 U.S.C. 555), qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act, or netting contracts between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act or the Federal Reserve Board’s Regulation EE (12 CFR part 231).

*The FDIC expects to evaluate jointly with the Federal Reserve and the OCC whether foreign special resolution regimes meet the requirements of this paragraph.*
advance is contractually limited to an insignificant amount of the outstanding principal balance of that exposure;

(2) The servicer’s right to reimbursement is senior in right of payment to all other claims on the cash flows from the underlying exposures of the securitization; and

(3) The servicer has no legal obligation to, and does not make advances to the securitization if the servicer concludes the advances are unlikely to be repaid.

Employee stock ownership plan has the same meaning as in 29 CFR 2550.407d-6.

Equity derivative contract means an equity-linked swap, purchased equity-linked option, forward equity-linked contract, or any other instrument linked to equities that gives rise to similar counterparty credit risks.

Equity exposure means:

(1) A security or instrument (whether voting or non-voting) that represents a direct or an indirect ownership interest in, and is a residual claim on, the assets and income of a company, unless:

(i) The issuing company is consolidated with the FDIC-supervised institution under GAAP;

(ii) The FDIC-supervised institution is required to deduct the ownership interest from tier 1 or tier 2 capital under this part;

(iii) The ownership interest incorporates a payment or other similar obligation on the part of the issuing company (such as an obligation to make periodic payments); or

(iv) The ownership interest is a securitization exposure;

(2) A security or instrument that is mandatorily convertible into a security or instrument described in paragraph (1) of this definition;

(3) An option or warrant that is exercisable for a security or instrument described in paragraph (1) of this definition; or

(4) Any other security or instrument (other than a securitization exposure) to the extent the return on the security or instrument is based on the performance of a security or instrument described in paragraph (1) of this definition.

Exchange rate derivative contract means a cross-currency interest rate swap, forward foreign-exchange contract, currency option purchased, or any other instrument linked to exchange rates that gives rise to similar counterparty credit risks.

Executive officer means a person who holds the title or, without regard to title, salary, or compensation, performs the function of one or more of the following positions: president, chief executive officer, executive chairman, chief operating officer, chief financial officer, chief investment officer, chief legal officer, chief lending officer, chief risk officer, or head of a major business line, and other staff that the board of directors of the FDIC-supervised institution deems to have equivalent responsibility.

Expected credit loss (ECL) means:

(1) For a wholesale exposure to a non-defaulted obligor or segment of non-defaulted retail exposures that is carried at fair value with gains and losses flowing through earnings or that is classified as held-for-sale and is carried at the lower of cost or fair value with losses flowing through earnings, zero.

(2) For all other wholesale exposures to non-defaulted obligors or segments of non-defaulted retail exposures, the product of the probability of default (PD) times the loss given default (LGD) times the exposure at default (EAD) for the exposure or segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, the FDIC-supervised institution’s impairment estimate for allowance purposes for the exposure or segment.

(4) Total ECL is the sum of expected credit losses for all wholesale and retail exposures other than exposures for which the FDIC-supervised institution has applied the double default treatment in §324.135.

Exposure amount means:

(1) For the on-balance sheet component of an exposure (other than an available-for-sale or held-to-maturity security, if the FDIC-supervised institution has made an AOCI opt-out election (as defined in §324.22(b)(2)); an OTC
Federal Deposit Insurance Corporation § 324.2

derivative contract; a repo-style transaction or an eligible margin loan for
which the FDIC-supervised institution determines the exposure amount under
§ 324.37; a cleared transaction; a default fund contribution; or a securitization
exposure), the FDIC-supervised institution’s carrying value of the exposure.

(2) For a security (that is not a
negotiation exposure, an equity ex-
posure, or preferred stock classified as
an equity security under GAAP) classified
as available-for-sale or held-to-ma-
turity if the FDIC-supervised
institution has made an AOCI opt-out election
(as defined in § 324.22(b)(2)), the FDIC-
supervised institution’s carrying value
(including net accrued but unpaid in-
terest and fees) for the exposure less
any net unrealized gains on the expo-
sure and plus any net unrealized losses on the exposure.

(3) For available-for-sale preferred
stock classified as an equity security
under GAAP if the FDIC-supervised
institution has made an AOCI opt-out election
(as defined in § 324.22(b)(2)), the FDIC-
supervised institution’s carrying
value of the exposure less any net unre-
alized gains on the exposure that are
reflected in such carrying value but ex-
cluded from the FDIC-supervised insti-
tution’s regulatory capital compo-
nents.

(4) For the off-balance sheet compo-
nent of an exposure (other than an OTC
derivative contract: a repo-style trans-
action or an eligible margin loan for
which the FDIC-supervised institution calculates the exposure amount under
§ 324.37; a cleared transaction; a default
fund contribution; or a securitization
exposure), the notional amount of the
off-balance sheet component multiplied
by the appropriate credit conversion
factor (CCF) in § 324.33.

(5) For an exposure that is an OTC
derivative contract, the exposure
amount determined under § 324.34;

(6) For an exposure that is a cleared
transaction, the exposure amount de-
termined under § 324.35.

(7) For an exposure that is an eligible
margin loan or repo-style transaction
for which the FDIC-supervised institu-
tion calculates the exposure amount as
provided in § 324.37, the exposure
amount determined under § 324.37.

(8) For an exposure that is a
securitization exposure, the exposure
amount determined under § 324.42.

FDIC-supervised institution means any
bank or state savings association.

Federal Deposit Insurance Act means
the Federal Deposit Insurance Act (12
U.S.C. 1811 et seq.).

Federal Deposit Insurance Corporation
Improvement Act means the Federal De-
posit Insurance Corporation Improvement
Stat. 2236).

Federal Reserve means the Board of
Governors of the Federal Reserve Sys-
tem.

Financial collateral means collateral:
(1) In the form of:
(i) Cash on deposit with the FDIC-su-
pervised institution (including cash
held for the FDIC-supervised institu-
tion by a third-party custodian or
trustee);
(ii) Gold bullion;
(iii) Long-term debt securities that
are not resecuritization exposures and
that are investment grade;
(iv) Short-term debt instruments
that are not resecuritization exposures
and that are investment grade;
(v) Equity securities that are pub-
licly traded;
(vi) Convertible bonds that are pub-
icly traded; or
(vii) Money market fund shares and
other mutual fund shares if a price for
the shares is publicly quoted daily; and
(2) In which the FDIC-supervised in-
stitution has a perfected, first-priority
security interest or, outside of the
United States, the legal equivalent
thereof (with the exception of cash on
deposit and notwithstanding the prior
security interest of any custodial
agent).

Financial institution means:
(1) A bank holding company; savings
and loan holding company; nonbank fi-
nancial institution supervised by the
Federal Reserve under Title I of the
Dodd-Frank Act; depository institu-
tion; foreign bank; credit union; indus-
trial loan company, industrial bank, or
other similar institution described in
section 2 of the Bank Holding Company
Act; national association, state mem-
ber bank, or state non-member bank
that is not a depository institution; In-
surance company; securities holding
company as defined in section 618 of the Dodd-Frank Act; broker or dealer registered with the SEC under section 15 of the Securities Exchange Act; futures commission merchant as defined in section 1a of the Commodity Exchange Act; swap dealer as defined in section 1a of the Commodity Exchange Act; or security-based swap dealer as defined in section 3 of the Securities Exchange Act;

(2) Any designated financial market utility, as defined in section 803 of the Dodd-Frank Act;

(3) Any entity not domiciled in the United States (or a political subdivision thereof) that is supervised and regulated in a manner similar to entities described in paragraphs (1) or (2) of this definition; or

(4) Any other company:

(i) Of which the FDIC-supervised institution owns:

(A) An investment in GAAP equity instruments of the company with an adjusted carrying value or exposure amount equal to or greater than $10 million; or

(B) More than 10 percent of the company’s issued and outstanding common shares (or similar equity interest), and

(ii) Which is predominantly engaged in the following activities:

(A) Lending money, securities or other financial instruments, including servicing loans;

(B) Insuring, guaranteeing, indemnifying against loss, harm, damage, illness, disability, or death, or issuing annuities;

(C) Underwriting, dealing in, making a market in, or investing as principal in securities or other financial instruments; or

(D) Asset management activities (not including investment or financial advisory activities).

(5) For the purposes of this definition, a company is “predominantly engaged” in an activity or activities if:

(i) 85 percent or more of the company’s consolidated total assets (as determined in accordance with applicable accounting standards) as of the end of either of the two most recent calendar years were related to the activities.

(6) Any other company that the FDIC may determine is a financial institution based on activities similar in scope, nature, or operation to those of the entities included in paragraphs (1) through (4) of this definition.

(7) For purposes of this part, “financial institution” does not include the following entities:

(i) GSEs;

(ii) Small business investment companies, as defined in section 102 of the Small Business Investment Act of 1958 (15 U.S.C. 661 et seq.); and

(iii) Entities designated as Community Development Financial Institutions (CDFIs) under 12 U.S.C. 4701 et seq. and 12 CFR part 1805;

(iv) Entities registered with the SEC under the Investment Company Act or foreign equivalents thereof;

(v) Entities to the extent that the FDIC-supervised institution’s investment in such entities would qualify as a community development investment under section 24 (Eleventh) of the National Bank Act; and

(vi) An employee benefit plan as defined in paragraphs (3) and (32) of section 3 of ERISA, a “governmental plan” (as defined in 29 U.S.C. 1002(32)) that complies with the tax deferral qualification requirements provided in the Internal Revenue Code, or any similar employee benefit plan established under the laws of a foreign jurisdiction.

First-lien residential mortgage exposure means a residential mortgage exposure secured by a first lien.

Foreign bank means a foreign bank as defined in §211.2 of the Federal Reserve’s Regulation K (12 CFR 211.2) (other than a depository institution).

Forward agreement means a legally binding contractual obligation to purchase assets with certain drawdown at a specified future date, not including commitments to make residential mortgage loans or forward foreign exchange contracts.
GAAP means generally accepted accounting principles as used in the United States.

Gain-on-sale means an increase in the equity capital of an FDIC-supervised institution (as reported on Schedule RC of the Call Report) resulting from a traditional securitization (other than an increase in equity capital resulting from the FDIC-supervised institution’s receipt of cash in connection with the securitization or reporting of a mortgage servicing asset on Schedule RC of the Call Report.

General obligation means a bond or similar obligation that is backed by the full faith and credit of a public sector entity (PSE).

Government-sponsored enterprise (GSE) means an entity established or chartered by the U.S. government to serve public purposes specified by the U.S. Congress but whose debt obligations are not explicitly guaranteed by the full faith and credit of the U.S. government.

Guarantee means a financial guarantee, letter of credit, insurance, or other similar financial instrument (other than a credit derivative) that allows one party (beneficiary) to transfer the credit risk of one or more specific exposures (reference exposure) to another party (protection provider).

High volatility commercial real estate (HVCRE) exposure means a credit facility that, prior to conversion to permanent financing, finances or has financed the acquisition, development, or construction (ADC) of real property, unless the facility finances:

1. One- to four-family residential properties;
2. Real property that:
   1. Would qualify as an investment in community development under 12 U.S.C. 338a or 12 U.S.C. 24 (Eleventh), as applicable, or as a “qualified investment” under 12 CFR part 345, and
   2. Is not an ADC loan to any entity described in 12 CFR 345.12(g)(3), unless it is otherwise described in paragraph (1), (2)(i), (3) or (4) of this definition;
3. The purchase or development of agricultural land, which includes all land known to be used or usable for agricultural purposes (such as crop and livestock production), provided that the valuation of the agricultural land is based on its value for agricultural purposes and the valuation does not take into consideration any potential use of the land for non-agricultural commercial development or residential development; or
4. Commercial real estate projects in which:
   1. The loan-to-value ratio is less than or equal to the applicable maximum supervisory loan-to-value ratio in the FDIC’s real estate lending standards at 12 CFR part 365, subpart A (state nonmember banks), 12 CFR 390.264 and 390.265 (state savings associations);
   2. The borrower has contributed capital to the project in the form of cash or unencumbered readily marketable assets (or has paid development expenses out-of-pocket) of at least 15 percent of the real estate’s appraised “as completed” value; and
   3. The borrower contributed the amount of capital required by paragraph (4)(ii) of this definition before the FDIC-supervised institution advances funds under the credit facility, and the capital contributed by the borrower, or internally generated by the project, is contractually required to remain in the project throughout the life of the project. The life of a project concludes only when the credit facility is converted to permanent financing or is sold or paid in full. Permanent financing may be provided by the FDIC-supervised institution that provided the ADC facility as long as the permanent financing is subject to the FDIC-supervised institution’s underwriting criteria for long-term mortgage loans.

Home country means the country where an entity is incorporated, chartered, or similarly established.

Identified losses means:

1. When measured as of the date of examination of an FDIC-supervised institution, those items that have been determined by an evaluation made by a state or Federal examiner as of that date to be chargeable against income, capital and/or general valuation allowances such as the allowance for loan and lease losses (examples of identified losses would be assets classified loss, off-balance sheet items classified loss,
any provision expenses that are necessary for the FDIC-supervised institution to record in order to replenish its general valuation allowances to an adequate level, liabilities not shown on the FDIC-supervised institution's books, estimated losses in contingent liabilities, and differences in accounts which represent shortages); and

(2) When measured as of any other date, those items:

(i) That have been determined—

(A) By an evaluation made by a state or Federal examiner at the most recent examination of an FDIC-supervised institution to be chargeable against income, capital and/or general valuation allowances; or

(B) By evaluations made by the FDIC-supervised institution since its most recent examination to be chargeable against income, capital and/or general valuation allowances; and

(ii) For which the appropriate accounting entries to recognize the loss have not yet been made on the FDIC-supervised institution's books nor has the item been collected or otherwise settled.

Indirect exposure means an exposure that arises from the FDIC-supervised institution’s investment in an investment fund which holds an investment in the FDIC-supervised institution’s own capital instrument or an investment in the capital of an unconsolidated financial institution.

Investment company means an insurance company as defined in section 201 of the Dodd-Frank Act (12 U.S.C. 5381).

Insurance underwriting company means an insurance company as defined in section 201 of the Dodd-Frank Act (12 U.S.C. 5381) that engages in insurance underwriting activities.

Insured depository institution means an insured depository institution as defined in section 3 of the Federal Deposit Insurance Act.

Interest rate derivative contract means a single-currency interest rate swap, basis swap, forward rate agreement, purchased interest rate option, when-issued securities, or any other instrument linked to interest rates that give rise to similar counterparty credit risks.

Investing bank means, with respect to a securitization, an FDIC-supervised institution that assumes the credit risk of a securitization exposure (other than an originating FDIC-supervised institution of the securitization). In the typical synthetic securitization, the investing FDIC-supervised institution sells credit protection on a pool of underlying exposures to the originating FDIC-supervised institution.

Investment Company Act means the Investment Company Act of 1940 (15 U.S.C. 80 a–1 et seq.)

Investment fund means a company:

1) Where all or substantially all of the assets of the company are financial assets; and

2) That has no material liabilities.

Investment grade means that the entity to which the FDIC-supervised institution is exposed through a loan or security, or the reference entity with respect to a credit derivative, has adequate capacity to meet financial commitments for the projected life of the asset or exposure. Such an entity or reference entity has adequate capacity to meet financial commitments if the risk of its default is low and the full and timely repayment of principal and interest is expected.

Investment in the capital of an unconsolidated financial institution means a net long position calculated in accordance with §324.22(h) in an instrument that is recognized as capital for regulatory purposes by the primary supervisor of an unconsolidated regulated financial institution and is an instrument that is part of the GAAP equity of an unconsolidated unregulated financial institution, including direct, indirect, and synthetic exposures to capital instruments, excluding underwriting positions held by the FDIC-supervised institution for five or fewer business days.

Investment in the FDIC-supervised institution’s own capital instrument means a net long position calculated in accordance with §324.22(h) in the FDIC-supervised institution’s own common stock instrument, own additional tier 1 capital instrument or own tier 2 capital instrument, including direct, indirect, or synthetic exposures to such
capital instruments. An investment in the FDIC-supervised institution’s own capital instrument includes any contractual obligation to purchase such capital instrument.

Junior-lien residential mortgage exposure means a residential mortgage exposure that is not a first-lien residential mortgage exposure.

Main index means the Standard & Poor’s 500 Index, the FTSE All-World Index, and any other index for which the FDIC-supervised institution can demonstrate to the satisfaction of the FDIC that the equities represented in the index have comparable liquidity, depth of market, and size of bid-ask spreads as equities in the Standard & Poor’s 500 Index and FTSE All-World Index.

Market risk FDIC-supervised institution means an FDIC-supervised institution that is described in §324.201(b).

Money market fund means an investment fund that is subject to 17 CFR 270.2a–7 or any foreign equivalent thereof.

Mortgage servicing assets (MSAs) means the contractual rights owned by an FDIC-supervised institution to service for a fee mortgage loans that are owned by others.

Multilateral development bank (MDB) means the International Bank for Reconstruction and Development, the Multilateral Investment Guarantee Agency, the International Finance Corporation, the Inter-American Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the European Investment Fund, the Nordic Investment Bank, the Caribbean Development Bank, the Islamic Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the FDIC determines poses comparable credit risk.

National Bank Act means the National Bank Act (12 U.S.C. 1 et seq.).

Netting set means a group of transactions with a single counterparty that are subject to a qualifying master netting agreement or a qualifying cross-product master netting agreement. For purposes of calculating risk-based capital requirements using the internal models methodology in subpart E of this part, this term does not cover a transaction:

(1) That is not subject to such a master netting agreement; or
(2) Where the FDIC-supervised institution has identified specific wrong-way risk.

Non-significant investment in the capital of an unconsolidated financial institution means an investment in the capital of an unconsolidated financial institution where the FDIC-supervised institution owns 10 percent or less of the issued and outstanding common stock of the unconsolidated financial institution.

Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures.

Operating entity means a company established to conduct business with clients with the intention of earning a profit in its own right.

Original maturity with respect to an off-balance sheet commitment means the length of time between the date a commitment is issued and:

(1) For a commitment that is not subject to extension or renewal, the stated expiration date of the commitment; or
(2) For a commitment that is subject to extension or renewal, the earliest date on which the FDIC-supervised institution can, at its option, unconditionally cancel the commitment.

Originating FDIC-supervised institution, with respect to a securitization, means an FDIC-supervised institution that:

(1) Directly or indirectly originated or securitized the underlying exposures included in the securitization; or
(2) Serves as an ABCE program sponsor to the securitization.

Over-the-counter (OTC) derivative contract means a derivative contract that is not a cleared transaction. An OTC derivative includes a transaction:

(1) Between an FDIC-supervised institution that is a clearing member and a
counterparty where the FDIC-supervised institution is acting as a financial intermediary and enters into a cleared transaction with a CCP that offsets the transaction with the counterparty; or

(2) In which an FDIC-supervised institution that is a clearing member provides a CCP a guarantee on the performance of the counterparty to the transaction.

Performance standby letter of credit (or performance bond) means an irrevocable obligation of an FDIC-supervised institution to pay a third-party beneficiary when a customer (account party) fails to perform on any contractual non-financial or commercial obligation. To the extent permitted by law or regulation, performance standby letters of credit include arrangements backing, among other things, subcontractors’ and suppliers’ performance, labor and materials contracts, and construction bids.

Pre-sold construction loan means any one-to-four family residential construction loan to a builder that meets the requirements of section 618(a)(1) or (2) of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991 (Pub. L. 102–233, 105 Stat. 1761) and the following criteria:

(1) The loan is made in accordance with prudent underwriting standards, meaning that the FDIC-supervised institution has obtained sufficient documentation that the buyer of the home has a legally binding written sales contract and has a firm written commitment for permanent financing of the home upon completion;

(2) The purchaser is an individual(s) that intends to occupy the residence and is not a partnership, joint venture, trust, corporation, or any other entity (including an entity acting as a sole proprietorship) that is purchasing one or more of the residences for speculative purposes;

(3) The purchaser has entered into a legally binding written sales contract for the residence;

(4) The purchaser has not terminated the contract;

(5) The purchaser has made a substantial earnest money deposit of no less than 3 percent of the sales price, which is subject to forfeiture if the purchaser terminates the sales contract; provided that, the earnest money deposit shall not be subject to forfeiture by reason of breach or termination of the sales contract on the part of the builder;

(6) The earnest money deposit must be held in escrow by the FDIC-supervised institution or an independent party in a fiduciary capacity, and the escrow agreement must provide that in an event of default arising from the cancellation of the sales contract by the purchaser of the residence, the escrow funds shall be used to defray any cost incurred by the FDIC-supervised institution;

(7) The builder must incur at least the first 10 percent of the direct costs of construction of the residence (that is, actual costs of the land, labor, and material) before any drawdown is made under the loan;

(8) The loan may not exceed 80 percent of the sales price of the presold residence; and

(9) The loan is not more than 90 days past due, or on nonaccrual.

Protection amount (P) means, with respect to an exposure hedged by an eligible guarantee or eligible credit derivative, the effective notional amount of the guarantee or credit derivative, reduced to reflect any currency mismatch, maturity mismatch, or lack of restructuring coverage (as provided in §324.36 or §324.134, as appropriate).

Publicly-traded means traded on:

(1) Any exchange registered with the SEC as a national securities exchange under section 6 of the Securities Exchange Act; or

(2) Any non-U.S.-based securities exchange that:

(i) Is registered with, or approved by, a national securities regulatory authority; and

(ii) Provides a liquid, two-way market for the instrument in question.

Public sector entity (PSE) means a state, local authority, or other governmental subdivision below the sovereign level.

Qualifying central counterparty (QCCP) means a central counterparty that:
The FDIC expects to evaluate jointly with the Federal Reserve and the OCC whether foreign special resolution regimes meet the requirements of this paragraph.

(1)(i) Is a designated financial market utility (FMU) under Title VIII of the Dodd-Frank Act;

(ii) If not located in the United States, is regulated and supervised in a manner equivalent to a designated FMU; or

(iii) Meets the following standards:

(A) The central counterparty requires all parties to contracts cleared by the counterparty to be fully collateralized on a daily basis;

(B) The FDIC-supervised institution demonstrates to the satisfaction of the FDIC that the central counterparty:

(1) Is in sound financial condition;

(2) Is subject to supervision by the Federal Reserve, the CFTC, or the Securities Exchange Commission (SEC), or, if the central counterparty is not located in the United States, is subject to effective oversight by a national supervisory authority in its home country; and

(3) Meets or exceeds the risk-management standards for central counterparties set forth in regulations established by the Federal Reserve, the CFTC, or the SEC under Title VII or Title VIII of the Dodd-Frank Act; or if the central counterparty is not located in the United States, meets or exceeds similar risk-management standards established under the law of its home country that are consistent with international standards for central counterparty risk management as established by the relevant standard setting body of the Bank of International Settlements; and

(2)(i) Provides the FDIC-supervised institution with the central counterparty’s hypothetical capital requirement or the information necessary to calculate such hypothetical capital requirement, and other information the FDIC-supervised institution is required to obtain under §§ 324.35(d)(3) and 324.133(d)(3);

(ii) Makes available to the FDIC and the CCP’s regulator the information described in paragraph (2)(i) of this definition; and

(iii) Has not otherwise been determined by the FDIC to not be a QCCP due to its financial condition, risk profile, failure to meet supervisory risk management standards, or other weaknesses or supervisory concerns that are inconsistent with the risk weight assigned to qualifying central counterparties under §§ 324.35 and 324.133.

(3) Exception. A QCCP that fails to meet the requirements of a QCCP in the future may still be treated as a QCCP under the conditions specified in § 324.3(f).

Qualifying master netting agreement means a written, legally enforceable agreement provided that:

(1) The agreement creates a single legal obligation for all individual transactions covered by the agreement upon an event of default following any stay permitted by paragraph (2) of this definition, including upon an event of receivership, insolvency, conservatorship, liquidation, or similar proceeding, of the counterparty;

(2) The agreement provides the FDIC-supervised institution the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set-off collateral promptly upon an event of default, including upon an event of receivership, conservatorship, insolvency, liquidation, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions, other than:

(i) In receivership, conservatorship, or resolution under the Federal Deposit Insurance Act, Title II of the Dodd-Frank Act, or under any similar insolvency law applicable to GSEs, or laws of foreign jurisdictions that are substantially similar to the U.S. laws referenced in this paragraph (2)(i) in order to facilitate the orderly resolution of the defaulting counterparty; or

(ii) Where the agreement is subject by its terms to, or incorporates, any of the laws referenced in paragraph (2)(i) of this definition;

(3) The agreement does not contain a walkaway clause (that is, a provision that permits a non-defaulting counterparty to make a lower payment than it otherwise would make under

7The FDIC expects to evaluate jointly with the Federal Reserve and the OCC whether foreign special resolution regimes meet the requirements of this paragraph.
§ 324.2

The FDIC expects to evaluate jointly with the Federal Reserve and the OCC whether foreign special resolution regimes meet the requirements of this paragraph.

(4) In order to recognize an agreement as a qualifying master netting agreement for purposes of this subpart, an FDIC-supervised institution must comply with the requirements of § 324.3(d) of this chapter with respect to that agreement.

Regulated financial institution means a financial institution subject to consolidated supervision and regulation comparable to that imposed on the following U.S. financial institutions: Depository institutions, depository institution holding companies, nonbank financial companies supervised by the Federal Reserve, designated financial market utilities, securities broker-dealers, credit unions, or insurance companies.

Repo-style transaction means a repurchase or reverse repurchase transaction, or a securities borrowing or securities lending transaction, including a transaction in which the FDIC-supervised institution acts as agent for a customer and indemnifies the customer against loss, provided that:

(1) The transaction is based solely on liquid and readily marketable securities, cash, or gold;

(2) The transaction is marked-to-fair value daily and subject to daily margin maintenance requirements;

(3)(i) The transaction is a “securities contract” or “repurchase agreement” under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), a qualified financial contract under section 11(e)(6) of the Federal Deposit Insurance Act, or a netting contract between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act or the Federal Reserve’s Regulation EE (12 CFR part 231); or

(ii) If the transaction does not meet the criteria set forth in paragraph (3)(i) of this definition, then either:

(A) The transaction is executed under an agreement that provides the FDIC-supervised institution the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set-off collateral promptly upon an event of default, including upon an event of receivership, insolvency, liquidation, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions, other than in receivership, conservatorship, or resolution under the Federal Deposit Insurance Act, Title II of the Dodd-Frank Act, or under any similar insolvency law applicable to GSEs, or laws of foreign jurisdictions that are substantially similar \* to the U.S. laws referenced in this paragraph (3)(ii)(A) in order to facilitate the orderly resolution of the defaulting counterparty; or

(B) The transaction is:

(I) Either overnight or unconditionally cancelable at any time by the FDIC-supervised institution; and

(2) Executed under an agreement that provides the FDIC-supervised institution the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of counterparty default; and

(4) In order to recognize an exposure as a repo-style transaction for purposes of this subpart, an FDIC-supervised institution must comply with the requirements of § 324.3(e) with respect to that exposure.

Resecuritization means a securitization which has more than one underlying exposure and in which one or more of the underlying exposures is a securitization exposure.

Resecuritization exposure means:

(1) An on- or off-balance sheet exposure to a resecuritization;

(2) An exposure that directly or indirectly references a resecuritization exposure.

(3) An exposure to an asset-backed commercial paper program is not a resecuritization exposure if either:

(i) The program-wide credit enhancement does not meet the definition of a resecuritization exposure; or

(ii) The entity sponsoring the program fully supports the commercial

\*The FDIC expects to evaluate jointly with the Federal Reserve and the OCC whether foreign special resolution regimes meet the requirements of this paragraph.
paper through the provision of liquidity so that the commercial paper holders effectively are exposed to the default risk of the sponsor instead of the underlying exposures.

Residential mortgage exposure means an exposure (other than a securitization exposure, equity exposure, statutory multifamily mortgage, or presold construction loan):

(1)(i) That is primarily secured by a first or subsequent lien on one-to-four family residential property; or

(ii) With an original and outstanding amount of $1 million or less that is primarily secured by a first or subsequent lien on residential property that is not one-to-four family; and

(2) For purposes of calculating capital requirements under subpart E of this part, managed as part of a segment of exposures with homogeneous risk characteristics and not on an individual-exposure basis.

Revenue obligation means a bond or similar obligation that is an obligation of a PSE, but which the PSE is committed to repay with revenues from the specific project financed rather than general tax funds.

Savings and loan holding company means a savings and loan holding company as defined in section 10 of the Home Owners’ Loan Act (12 U.S.C. 1467a).

Securitization exposure means:

(1) An on-balance sheet or off-balance sheet credit exposure (including credit-enhancing representations and warranties) that arises from a traditional securitization or synthetic securitization (including a resecuritization), or

(2) An exposure that directly or indirectly references a securitization exposure described in paragraph (1) of this definition.

Securitization special purpose entity (securitization SPE) means a corporation, trust, or other entity organized for the specific purpose of holding underlying exposures of a securitization, the activities of which are limited to those appropriate to accomplish this purpose, and the structure of which is intended to isolate the underlying exposures held by the entity from the credit risk of the seller of the underlying exposures to the entity.

Separate account means a legally segregated pool of assets owned and held by an insurance company and maintained separately from the insurance company’s general account assets for the benefit of an individual contract holder. To be a separate account:

(1) The account must be legally recognized as a separate account under applicable law;

(2) The assets in the account must be insulated from general liabilities of the insurance company under applicable law in the event of the insurance company’s insolvency;

(3) The insurance company must invest the funds within the account as directed by the contract holder in designated investment alternatives or in accordance with specific investment objectives or policies; and

(4) All investment gains and losses, net of contract fees and assessments, must be passed through to the contract holder, provided that the contract may specify conditions under which there may be a minimum guarantee but must not include contract terms that limit the maximum investment return available to the policyholder.

Servicer cash advance facility means a facility under which the servicer of the underlying exposures of a securitization may advance cash to ensure an uninterrupted flow of payments to investors in the securitization, including advances made to cover foreclosure costs or other expenses to facilitate the timely collection of the underlying exposures.

Significant investment in the capital of an unconsolidated financial institution means an investment in the capital of an unconsolidated financial institution where the FDIC-supervised institution owns more than 10 percent of the issued and outstanding common stock of the unconsolidated financial institution.

Sovereign means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign default means noncompliance by a sovereign with its external debt service obligations or the inability or unwillingness of a sovereign government to service an existing loan according to its original terms, as evidenced by failure to pay principal and interest timely and fully, arrearages, or restructuring.

Sovereign exposure means:
(1) A direct exposure to a sovereign; or
(2) An exposure directly and unconditionally backed by the full faith and credit of a sovereign.

Specific wrong-way risk means wrong-way risk that arises when either:
(1) The counterparty and issuer of the collateral supporting the transaction; or
(2) The counterparty and the reference asset of the transaction, are affiliates or are the same entity.

Standardized market risk-weighted assets means the standardized measure for market risk calculated under §324.204 multiplied by 12.5.

Standardized total risk-weighted assets means:
(1) The sum of:
(i) Total risk-weighted assets for general credit risk as calculated under §324.31;
(ii) Total risk-weighted assets for cleared transactions and default fund contributions as calculated under §324.35;
(iii) Total risk-weighted assets for unsettled transactions as calculated under §324.38;
(iv) Total risk-weighted assets for securitization exposures as calculated under §324.42;
(v) Total risk-weighted assets for equity exposures as calculated under §§324.52 and 324.53; and
(vi) For a market risk FDIC-supervised institution only, standardized market risk-weighted assets; minus
(2) Any amount of the FDIC-supervised institution’s allowance for loan and lease losses that is not included in tier 2 capital and any amount of allocated transfer risk reserves.

State savings association means a State savings association as defined in section 3(b)(3) of the Federal Deposit Insurance Act (12 U.S.C. 1813(b)(3)), the deposits of which are insured by the Corporation. It includes a building and loan, savings and loan, or homestead association, or a cooperative bank (other than a cooperative bank which is a state bank as defined in section 3(a)(2) of the Federal Deposit Insurance Act) organized and operating according to the laws of the State in which it is chartered or organized, or a corporation (other than a bank as defined in section 3(a)(1) of the Federal Deposit Insurance Act) that the Board of Directors of the Federal Deposit Insurance Corporation determine to be operating substantially in the same manner as a state savings association.

Statutory multifamily mortgage means a loan secured by a multifamily residential property that meets the requirements under section 618(b)(1) of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act of 1991, and that meets the following criteria:9
(1) The loan is made in accordance with prudent underwriting standards; (2) The principal amount of the loan at origination does not exceed 80 percent of the value of the property (or 75 percent of the value of the property if the loan is based on an interest rate that changes over the term of the loan) where the value of the property is the lower of the acquisition cost of the property or the appraised (or, if appropriate, evaluated) value of the property; (3) All principal and interest payments on the loan must have been made on a timely basis in accordance with the terms of the loan for at least one year prior to applying a 50 percent risk weight to the loan, or in the case where an existing owner is refinancing a loan on the property, all principal and interest payments on the loan being refinanced must have been made

---

9The types of loans that qualify as loans secured by multifamily residential properties are listed in the instructions for preparation of the Call Report.
§ 324.2

on a timely basis in accordance with the terms of the loan for at least one year prior to applying a 50 percent risk weight to the loan;

(4) Amortization of principal and interest on the loan must occur over a period of not more than 30 years and the minimum original maturity for repayment of principal must not be less than 7 years;

(5) Annual net operating income (before making any payment on the loan) generated by the property securing the loan during its most recent fiscal year must not be less than 120 percent of the loan’s current annual debt service (or 115 percent of current annual debt service if the loan is based on an interest rate that changes over the term of the loan) or, in the case of a cooperative or other not-for-profit housing project, the property must generate sufficient cash flow to provide comparable protection to the FDIC-supervised institution; and

(6) The loan is not more than 90 days past due, or on nonaccrual.

Subsidiary means, with respect to a company, a company controlled by that company.

Synthetic exposure means an exposure whose value is linked to the value of an investment in the FDIC-supervised institution’s own capital instrument or to the value of an investment in the capital of an unconsolidated financial institution.

Synthetic securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is retained or transferred to one or more third parties through the use of one or more credit derivatives or guarantees (other than a guarantee that transfers only the credit risk of an individual retail exposure);

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures; and

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities).

Tangible capital means the amount of core capital (Tier 1 capital), as defined in accordance with §324.2, plus the amount of outstanding perpetual preferred stock (including related surplus) not included in Tier 1 capital.

Tangible equity means the amount of Tier 1 capital, as calculated in accordance with §324.2, plus the amount of outstanding perpetual preferred stock (including related surplus) not included in Tier 1 capital.

Tier 1 capital means the sum of common equity tier 1 capital and additional tier 1 capital.

Tier 1 minority interest means the tier 1 capital of a consolidated subsidiary of an FDIC-supervised institution that is not owned by the FDIC-supervised institution.

Tier 2 capital is defined in §324.20(d).

Total capital means the sum of tier 1 capital and tier 2 capital.

Total capital minority interest means the total capital of a consolidated subsidiary of an FDIC-supervised institution that is not owned by the FDIC-supervised institution.

Total leverage exposure is defined in §324.10(c)(4)(ii).

Traditional securitization means a transaction in which:

(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties other than through the use of credit derivatives or guarantees;

(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;

(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;

(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);

(5) The underlying exposures are not owned by an operating company;

(6) The underlying exposures are not owned by a small business investment company defined in section 302 of the Small Business Investment Act;
(7) The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under section 24 (Eleventh) of the National Bank Act;

(8) The FDIC may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a traditional securitization based on the transaction’s leverage, risk profile, or economic substance;

(9) The FDIC may deem a transaction that meets the definition of a traditional securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a traditional securitization based on the transaction’s leverage, risk profile, or economic substance; and

(10) The transaction is not:
   (i) An investment fund;
   (ii) A collective investment fund (as defined in 12 CFR 344.3 (state non-member bank), and 12 CFR 390.203 (state savings association);
   (iii) An employee benefit plan (as defined in paragraphs (3) and (32) of section 3 of ERISA), a ''governmental plan'' (as defined in 29 U.S.C. 1002(32)) that complies with the tax deferral qualification requirements provided in the Internal Revenue Code, or any similar employee benefit plan established under the laws of a foreign jurisdiction;
   (iv) A synthetic exposure to the capital of a financial institution to the extent deducted from capital under §324.22; or
   (v) Registered with the SEC under the Investment Company Act or foreign equivalents thereof.

Tranche means all securitization exposures associated with a securitization that have the same seniority level.

Two-way market means a market where there are independent bona fide offers to buy and sell so that a price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined within one day and settled at that price within a relatively short time frame conforming to trade custom.

Unconditionally cancelable means with respect to a commitment, that an FDIC-supervised institution may, at any time, with or without cause, refuse to extend credit under the commitment (to the extent permitted under applicable law).

Underlying exposures means one or more exposures that have been securitized in a securitization transaction.

Unregulated financial institution means, for purposes of §324.131, a financial institution that is not a regulated financial institution, including any financial institution that would meet the definition of ‘‘financial institution’’ under this section but for the ownership interest thresholds set forth in paragraph (4)(i) of that definition.

U.S. Government agency means an instrumentality of the U.S. Government whose obligations are fully and explicitly guaranteed as to the timely payment of principal and interest by the full faith and credit of the U.S. Government.

Value-at-Risk (VaR) means the estimate of the maximum amount that the value of one or more exposures could decline due to market price or rate movements during a fixed holding period within a stated confidence interval.

Wrong-way risk means the risk that arises when an exposure to a particular counterparty is positively correlated with the probability of default of such counterparty itself.

§ 324.3 Operational requirements for counterparty credit risk.

For purposes of calculating risk-weighted assets under subparts D and E of this part:

(a) Cleared transaction. In order to recognize certain exposures as cleared transactions pursuant to paragraphs (1)(ii), (iii), or (iv) of the definition of ‘‘cleared transaction’’ in §324.2, the exposures must meet the applicable requirements set forth in this paragraph (a).
§ 324.3

(1) The offsetting transaction must be identified by the CCP as a transaction for the clearing member client.

(2) The collateral supporting the transaction must be held in a manner that prevents the FDIC-supervised institution from facing any loss due to an event of default, including from a liquidation, receivership, insolvency, or similar proceeding of either the clearing member or the clearing member’s other clients. Omnibus accounts established under 17 CFR parts 190 and 300 satisfy the requirements of this paragraph (a).

(3) The FDIC-supervised institution must conduct sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that in the event of a legal challenge (including one resulting from a default or receivership, insolvency, liquidation, or similar proceeding) the relevant court and administrative authorities would find the arrangements of paragraph (a)(2) of this section to be legal, valid, binding and enforceable under the law of the relevant jurisdictions.

(4) The offsetting transaction with a clearing member must be transferable under the transaction documents and applicable laws in the relevant jurisdiction(s) to another clearing member should the clearing member default, become insolvent, or enter receivership, insolvency, liquidation, or similar proceedings.

(b) Eligible margin loan. In order to recognize an exposure as an eligible margin loan as defined in §324.2, an FDIC-supervised institution must conduct sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that the agreement underlying the exposure:

(1) Meets the requirements of paragraph (1)(iii) of the definition of eligible margin loan in §324.2, and

(2) Is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

(c) Qualifying cross-product master netting agreement. In order to recognize an agreement as a qualifying cross-product master netting agreement as defined in §324.101, an FDIC-supervised institution must obtain a written legal opinion verifying the validity and enforceability of the agreement under applicable law of the relevant jurisdictions if the counterparty fails to perform upon an event of default, including upon receivership, insolvency, liquidation, or similar proceeding.

(d) Qualifying master netting agreement. In order to recognize an agreement as a qualifying master netting agreement as defined in §324.2, an FDIC-supervised institution must:

(1) Conduct sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that:

(i) The agreement meets the requirements of paragraph (2) of the definition of qualifying master netting agreement in §324.2; and

(ii) In the event of a legal challenge (including one resulting from default or from receivership, insolvency, liquidation, or similar proceeding) the relevant court and administrative authorities would find the agreement to be legal, valid, binding, and enforceable under the law of the relevant jurisdictions; and

(2) Establish and maintain written procedures to monitor possible changes in relevant law and to ensure that the agreement continues to satisfy the requirements of the definition of qualifying master netting agreement in §324.2.

(e) Repo-style transaction. In order to recognize an exposure as a repo-style transaction as defined in §324.2, an FDIC-supervised institution must conduct sufficient legal review to conclude with a well-founded basis (and maintain sufficient written documentation of that legal review) that the agreement underlying the exposure:

(1) Meets the requirements of paragraph (3) of the definition of repo-style transaction in §324.2, and

(2) Is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

(f) Failure of a QCCP to satisfy the rule’s requirements. If an FDIC-supervised institution determines that a CCP ceases to be a QCCP due to the failure of the CCP to satisfy one or more of the requirements set forth in paragraphs (2)(i) through (2)(iii) of the definition of a QCCP in §324.2, the
FDIC-supervised institution may continue to treat the CCP as a QCCP for up to three months following the determination. If the CCP fails to remedy the relevant deficiency within three months after the initial determination, or the CCP fails to satisfy the requirements set forth in paragraphs (2)(i) through (2)(iii) of the definition of a QCCP continuously for a three-month period after remediying the relevant deficiency, an FDIC-supervised institution may not treat the CCP as a QCCP for the purposes of this part until after the FDIC-supervised institution has determined that the CCP has satisfied the requirements in paragraphs (2)(i) through (2)(iii) of the definition of a QCCP for three continuous months.

§ 324.4 Inadequate capital as an unsafe or unsound practice or condition.

(a) General. As a condition of Federal deposit insurance, all insured depository institutions must remain in a safe and sound condition.

(b) Unsafe or unsound practice. Any insured depository institution which has less than its minimum leverage capital requirement is deemed to be engaged in an unsafe or unsound practice pursuant to section 8(b)(1) and/or 8(c) of the Federal Deposit Insurance Act (12 U.S.C. 1818(b)(1) and/or 1818(c)). Except that such an insured depository institution which has entered into and is in compliance with a written agreement with the FDIC or has submitted to the FDIC and is in compliance with a plan approved by the FDIC to increase its leverage capital ratio to such level as the FDIC deems appropriate and to take such other action as may be necessary for the insured depository institution to be operated in a safe and sound manner, will not be subject to a proceeding by the FDIC pursuant to 12 U.S.C. 1818(a) on account of its capital ratios.

(2) An insured depository institution with a ratio of tier 1 capital to total assets that is equal to or greater than two percent may be operating in an unsafe or unsound condition. The FDIC is not precluded from bringing an action pursuant to 12 U.S.C. 1818(a) where an insured depository institution has a ratio of tier 1 capital to total assets that is equal to or greater than two percent.

§ 324.5 Issuance of directives.

(a) General. A directive is a final order issued to an FDIC-supervised institution that fails to maintain capital at or above the minimum leverage capital requirement as set forth in §§324.4 and 324.10. A directive issued pursuant
to this section, including a plan submitted under a directive, is enforceable in the same manner and to the same extent as a final cease-and-desist order issued under section 8(b) of the Federal Deposit Insurance Act (12 U.S.C. 1818(b)).

(b) Issuance of directives. If an FDIC-supervised institution is operating with less than the minimum leverage capital requirement established by this regulation, the FDIC Board of Directors, or its designee(s), may issue and serve upon any FDIC-supervised institution a directive requiring the FDIC-supervised institution to restore its capital to the minimum leverage capital requirement within a specified time period. The directive may require the FDIC-supervised institution to submit to the appropriate FDIC regional director, or other specified official, for review and approval, a plan describing the means and timing by which the FDIC-supervised institution shall achieve the minimum leverage capital requirement. After the FDIC has approved the plan, the FDIC-supervised institution may be required under the terms of the directive to adhere to and monitor compliance with the plan. The directive may be issued during the course of an examination of the FDIC-supervised institution, or at any other time that the FDIC deems appropriate, if the FDIC-supervised institution is found to be operating with less than the minimum leverage capital requirement.

(c) Notice and opportunity to respond to issuance of a directive. (1) If the FDIC makes an initial determination that a directive should be issued to an FDIC-supervised institution pursuant to paragraph (b) of this section, the FDIC, through the appropriate designated official(s), shall serve written notification upon the FDIC-supervised institution of its intent to issue a directive. The notice shall include the current leverage capital ratio, the basis upon which said ratio was calculated, the proposed capital injection, the proposed date for achieving the minimum leverage capital requirement and any other relevant information concerning the decision to issue a directive. When deemed appropriate, specific requirements of a proposed plan for meeting the minimum leverage capital requirement may be included in the notice.

(2) Within 14 days of receipt of notification, the FDIC-supervised institution may file with the appropriate designated FDIC official(s) a written response, explaining why the directive should not be issued, seeking modification of its terms, or other appropriate relief. The FDIC-supervised institution’s response shall include any information, mitigating circumstances, documentation, or other relevant evidence which supports its position, and may include a plan for attaining the minimum leverage capital requirement.

(3)(i) After considering the FDIC-supervised institution’s response, the appropriate designated FDIC official(s) shall serve upon the FDIC-supervised institution a written determination addressing the FDIC-supervised institution’s response and setting forth the FDIC’s findings and conclusions in support of any decision to issue or not to issue a directive. The directive may be issued as originally proposed or in modified form. The directive may order the FDIC-supervised institution to:

(A) Achieve the minimum leverage capital requirement established by this regulation by a certain date;
(B) Submit for approval and adhere to a plan for achieving the minimum leverage capital requirement;
(C) Take other action as is necessary to achieve the minimum leverage capital requirement; or
(D) A combination of the above actions.

(ii) If a directive is to be issued, it may be served upon the FDIC-supervised institution along with the final determination.

(4) Any FDIC-supervised institution, upon a change in circumstances, may request the FDIC to reconsider the terms of a directive and may propose changes in the plan under which it is operating to meet the minimum leverage capital requirement. The directive and plan continue in effect while such request is pending before the FDIC.

(5) All papers filed with the FDIC must be postmarked or received by the appropriate designated FDIC official(s) within the prescribed time limit for filing.
(6) Failure by the FDIC-supervised institution to file a written response to notification of intent to issue a directive within the specified time period shall constitute consent to the issuance of such directive.

(d) Enforcement of a directive. (1) Whenever an FDIC-supervised institution fails to follow the directive or to submit or adhere to its capital adequacy plan, the FDIC may seek enforcement of the directive in the appropriate United States district court, pursuant to 12 U.S.C. 3907(b)(2)(B)(ii), in the same manner and to the same extent as if the directive were a final cease-and-desist order. In addition to enforcement of the directive, the FDIC may seek assessment of civil money penalties for violation of the directive against any FDIC-supervised institution, any officer, director, employee, agent, or other person participating in the conduct of the affairs of the FDIC-supervised institution, pursuant to 12 U.S.C. 3909(d).

(2) The directive may be issued separately, in conjunction with, or in addition to, any other enforcement mechanisms available to the FDIC, including cease-and-desist orders, orders of correction, the approval or denial of applications, or any other actions authorized by law. In addition to addressing enforcement of the directive, the FDIC may seek assessment of civil money penalties for violation of the directive against any FDIC-supervised institution, any officer, director, employee, agent, or other person participating in the conduct of the affairs of the FDIC-supervised institution, pursuant to 12 U.S.C. 3909(d).

(3) Minimum capital requirements. An FDIC-supervised institution must maintain the following minimum capital ratios:

- A common equity tier 1 capital ratio of 4.5 percent.
- A tier 1 capital ratio of 6 percent.
- A total capital ratio of 8 percent.
- A leverage ratio of 4 percent.
- A supplementary leverage ratio of 3 percent.

(b) Standardized capital ratio calculations. Other than as provided in paragraph (c) of this section:

- Common equity tier 1 capital ratio. An FDIC-supervised institution’s common equity tier 1 capital ratio is the ratio of the FDIC-supervised institution’s common equity tier 1 capital to standardized total risk-weighted assets;
- Tier 1 capital ratio. An FDIC-supervised institution’s tier 1 capital ratio is the ratio of the FDIC-supervised institution’s tier 1 capital to standardized total risk-weighted assets;
- Total capital ratio. An FDIC-supervised institution’s total capital ratio is the ratio of the FDIC-supervised institution’s total capital to standardized total risk-weighted assets; and
- Leverage ratio. An FDIC-supervised institution’s leverage ratio is the ratio of the FDIC-supervised institution’s total capital to the FDIC-supervised institution’s average total consolidated assets as reported on the FDIC-supervised institution’s Call Report minus amounts deducted from tier 1 capital under §324.22(a), (c), and (d).

(c) Advanced approaches capital ratio calculations. An advanced approaches FDIC-supervised institution that has completed the parallel run process and received notification from the FDIC pursuant to §324.121(d) must determine its regulatory capital ratios as described in paragraphs (c)(1) through (3) of this section. An advanced approaches FDIC-supervised institution...
must determine its supplementary leverage ratio in accordance with paragraph (c)(4) of this section, beginning with the calendar quarter immediately following the quarter in which the FDIC-supervised institution meets any of the criteria in §324.100(b)(1).

(1) Common equity tier 1 capital ratio. The FDIC-supervised institution’s common equity tier 1 capital ratio is the lower of:

(i) The ratio of the FDIC-supervised institution’s common equity tier 1 capital to standardized total risk-weighted assets; and

(ii) The ratio of the FDIC-supervised institution’s common equity tier 1 capital to advanced approaches total risk-weighted assets.

(2) Tier 1 capital ratio. The FDIC-supervised institution’s tier 1 capital ratio is the lower of:

(i) The ratio of the FDIC-supervised institution’s tier 1 capital to standardized total risk-weighted assets; and

(ii) The ratio of the FDIC-supervised institution’s tier 1 capital to advanced approaches total risk-weighted assets.

(3) Total capital ratio. The FDIC-supervised institution’s total capital ratio is the lower of:

(i) The ratio of the FDIC-supervised institution’s total capital to standardized total risk-weighted assets; and

(ii) The ratio of the FDIC-supervised institution’s advanced-approaches-adjusted total capital to advanced approaches total risk-weighted assets. An FDIC-supervised institution’s advanced-approaches-adjusted total capital is the FDIC-supervised institution’s total capital after being adjusted as follows:

(A) An advanced approaches FDIC-supervised institution must deduct from its total capital any allowance for loan and lease losses included in its tier 2 capital in accordance with §324.20(d)(3); and

(B) An advanced approaches FDIC-supervised institution must add to its total capital any eligible credit reserves that exceed the FDIC-supervised institution’s total expected credit losses to the extent that the excess reserve amount does not exceed 0.6 percent of the FDIC-supervised institution’s credit risk-weighted assets.

(4) Supplementary leverage ratio. (1) An advanced approaches FDIC-supervised institution’s supplementary leverage ratio is the ratio of its tier 1 capital to total leverage exposure, the latter which is calculated as the sum of:

(A) The mean of the on-balance sheet assets calculated as of each day of the reporting quarter; and

(B) The mean of the off-balance sheet exposures calculated as of the last day of each of the most recent three months, minus the applicable deductions under §324.22(a), (c), and (d).

(ii) For purposes of this part, total leverage exposure means the sum of the items described in paragraphs (c)(4)(ii)(A) through (H) of this section, as adjusted pursuant to paragraph (c)(4)(ii)(I) for a clearing member FDIC-supervised institution:

(A) The balance sheet carrying value of all of the FDIC-supervised institution’s on-balance sheet assets, plus the value of securities sold under a repurchase transaction or a securities lending transaction that qualifies for sales treatment under U.S. GAAP, less amounts deducted from tier 1 capital under §324.22(a), (c), and (d), and less the value of securities received in security-for-security repo-style transactions, where the FDIC-supervised institution acts as a securities lender and includes the securities received in its on-balance sheet assets but has not sold or re-hypothecated the securities received;

(B) The PFE for each derivative contract or each single-product netting set of derivative contracts (including a cleared transaction except as provided in paragraph (c)(4)(ii)(I) of this section and, at the discretion of the FDIC-supervised institution, excluding a forward agreement treated as a derivative contract that is part of a repurchase or reverse repurchase or a securities borrowing or lending transaction that qualifies for sales treatment under U.S. GAAP), to which the FDIC-supervised institution is a counterparty as determined under §324.34, but without regard to §324.34(b), provided that:

(I) An FDIC-supervised institution may choose to exclude the PFE of all credit derivatives or other similar instruments through which it provides credit protection when calculating the
PFE under §324.34, but without regard to §324.34(b), provided that it does not adjust the net-to-gross ratio (NGR); and

(2) An FDIC-supervised institution that chooses to exclude the PFE of credit derivatives or other similar instruments through which it provides credit protection pursuant to paragraph (c)(4)(ii)(B)(1) of this section must do so consistently over time for the calculation of the PFE for all such instruments;

(C) The amount of cash collateral that is received from a counterparty to a derivative contract and that has offset the mark-to-fair value of the derivative asset, or cash collateral that is posted to a counterparty to a derivative contract and that has reduced the FDIC-supervised institution’s on-balance sheet assets, unless such cash collateral is all or part of variation margin that satisfies the following requirements:

(1) For derivative contracts that are not cleared through a QCCP, the cash collateral received by the recipient counterparty is not segregated (by law, regulation or an agreement with the counterparty);

(2) Variation margin is calculated and transferred on a daily basis based on the mark-to-fair value of the derivative contract;

(3) The variation margin transferred under the derivative contract or the governing rules for a cleared transaction is the full amount that is necessary to fully extinguish the net current credit exposure to the counterparty of the derivative contracts, subject to the threshold and minimum transfer amounts applicable to the counterparty under the terms of the derivative contract or the governing rules for a cleared transaction;

(4) The variation margin is in the form of cash in the same currency as the currency of settlement set forth in the derivative contract, provided that for the purposes of this paragraph, currency of settlement means any currency for settlement specified in the governing qualifying master netting agreement and the credit support annex to the qualifying master netting agreement, or in the governing rules for a cleared transaction;

(5) The derivative contract and the variation margin are governed by a qualifying master netting agreement between the legal entities that are the counterparties to the derivative contract or by the governing rules for a cleared transaction, and the qualifying master netting agreement or the governing rules for a cleared transaction must explicitly stipulate that the counterparties agree to settle any payment obligations on a net basis, taking into account any variation margin received or provided under the contract if a credit event involving either counterparty occurs;

(6) The variation margin is used to reduce the current credit exposure of the derivative contract, calculated as described in §324.34(a), and not the PFE; and

(7) For the purpose of the calculation of the NGR described in §324.34(a)(2)(ii)(B), variation margin described in paragraph (c)(4)(ii)(C)(6) of this section may not reduce the net current credit exposure or the gross current credit exposure;

(D) The effective notional principal amount (that is, the apparent or stated notional principal amount multiplied by any multiplier in the derivative contract) of a credit derivative, or other similar instrument, through which the FDIC-supervised institution provides credit protection, provided that:

(1) The FDIC-supervised institution may reduce the effective notional principal amount of the credit derivative by the amount of any reduction in the mark-to-fair value of the credit derivative if the reduction is recognized in common equity tier 1 capital;

(2) The FDIC-supervised institution may reduce the effective notional principal amount of the credit derivative by the effective notional principal amount of a purchased credit derivative or other similar instrument, provided that the remaining maturity of the purchased credit derivative is equal to or greater than the remaining maturity of the credit derivative through which the FDIC-supervised institution provides credit protection and that:

(i) With respect to a credit derivative that references a single exposure, the reference exposure of the purchased
credit derivative is to the same legal entity and ranks \textit{pari passu} with, or is junior to, the reference exposure of the credit derivative through which the FDIC-supervised institution provides credit protection; or

(ii) With respect to a credit derivative that references multiple exposures, the reference exposures of the purchased credit derivative are to the same legal entities and rank \textit{pari passu} with the reference exposures of the credit derivative through which the FDIC-supervised institution provides credit protection, and the level of seniority of the purchased credit derivative ranks \textit{pari passu} to the level of seniority of the credit derivative through which the FDIC-supervised institution provides credit protection;

(iii) Where an FDIC-supervised institution has reduced the effective notional amount of a credit derivative through which the FDIC-supervised institution provides credit protection in accordance with paragraph (c)(4)(ii)(D)(1) of this section, the FDIC-supervised institution must also reduce the effective notional principal amount of a purchased credit derivative used to offset the credit derivative through which the FDIC-supervised institution provides credit protection, by the amount of any increase in the mark-to-fair value of the purchased credit derivative that is recognized in common equity tier 1 capital; and

(iv) Where the FDIC-supervised institution purchases credit protection through a total return swap and records the net payments received on a credit derivative through which the FDIC-supervised institution provides credit protection in net income, but does not record offsetting deterioration in the mark-to-fair value of the credit derivative through which the FDIC-supervised institution provides credit protection, the FDIC-supervised institution may not use the purchased credit protection to offset the effective notional principal amount of the related credit derivative through which the FDIC-supervised institution provides credit protection.

(F) The counterparty credit risk of a repo-style transaction, including where the FDIC-supervised institution acts as an agent for a repo-style transaction and indemnifies the customer with respect to the performance of the customer's counterparty in an amount limited to the difference between the fair value of the security or cash its customer has lent and the fair value of the collateral the borrower has provided, calculated as follows:

(I) If the transaction is not subject to a qualifying master netting agreement, the counterparty credit risk (E*) for transactions with a counterparty must be calculated on a transaction by transaction basis, such that each
transaction \( i \) is treated as its own netting set, in accordance with the following formula, where \( E_i \) is the fair value of the instruments, gold, or cash that the FDIC-supervised institution has lent, sold subject to repurchase, or provided as collateral to the counterparty, and \( C_i \) is the fair value of the instruments, gold, or cash that the FDIC-supervised institution has borrowed, purchased subject to resale, or received as collateral from the counterparty:

\[
E_i^* = \max \{ 0, \{ E_i - C_i \} \};
\]

(2) If the transaction is subject to a qualifying master netting agreement, the counterparty credit risk \( (E_i^*) \) must be calculated as the greater of zero and the total fair value of the instruments, gold, or cash that the FDIC-supervised institution has lent, sold subject to repurchase or provided as collateral to a counterparty for all transactions included in the qualifying master netting agreement \( (E_i) \), less the total fair value of the instruments, gold, or cash that the FDIC-supervised institution borrowed, purchased subject to resale or received as collateral from the counterparty for those transactions \( (C_i) \), in accordance with the following formula:

\[
E^* = \max \{ 0, \{ E_i - C_i \} \};
\]

(G) If an FDIC-supervised institution acting as an agent for a repo-style transaction provides a guarantee to a customer of the security or cash its customer has lent or borrowed with respect to the performance of the customer’s counterparty and the guarantee is not limited to the difference between the fair value of the security or cash its customer has lent and the fair value of the collateral the borrower has provided, the amount of the guarantee that is greater than the difference between the fair value of the security or cash its customer has lent and the value of the collateral the borrower has provided;

(H) The credit equivalent amount of all off-balance sheet exposures of the FDIC-supervised institution, excluding repo-style transactions, repurchase or reverse repurchase or securities borrowing or lending transactions that qualify for sales treatment under U.S. GAAP, and derivative transactions, determined using the applicable credit conversion factor under §324.33(b), provided, however, that the minimum credit conversion factor that may be assigned to an off-balance sheet exposure under this paragraph is 10 percent; and

(1) For an FDIC-supervised institution that is a clearing member:

(1) A clearing member FDIC-supervised institution that guarantees the performance of a clearing member client with respect to a cleared transaction must treat its exposure to the clearing member client as a derivative contract for purposes of determining its total leverage exposure;

(2) A clearing member FDIC-supervised institution that guarantees the performance of a CCP with respect to a transaction cleared on behalf of a clearing member client must treat its exposure to the CCP as a derivative contract for purposes of determining its total leverage exposure;

(3) A clearing member FDIC-supervised institution that does not guarantee the performance of a CCP with respect to a transaction cleared on behalf of a clearing member client may exclude its exposure to the CCP for purposes of determining its total leverage exposure;

(4) An FDIC-supervised institution that is a clearing member may exclude from its total leverage exposure the effective notional principal amount of credit protection sold through a credit derivative contract, or other similar instrument, that it clears on behalf of a clearing member client through a CCP as calculated in accordance with part (c)(4)(ii)(D); and

(5) Notwithstanding paragraphs (c)(4)(ii)(I) through (3) of this section, an FDIC-supervised institution may exclude from its total leverage exposure a clearing member’s exposure to a clearing member client for a derivative contract, if the clearing member client and the clearing member are affiliates and consolidated for financial reporting purposes on the FDIC-supervised institution’s balance sheet.

(ii) As of January 1, 2014, a state savings association’s tangible capital ratio is the ratio of the state savings association’s core capital (tier 1 capital) to total assets. For purposes of this paragraph, the term total assets shall have the meaning provided in 12 CFR 324.401(g).

(d) Capital adequacy. (1) Notwithstanding the minimum requirements in this part, an FDIC-supervised institution must maintain capital commensurate with the level and nature of all risks to which the FDIC-supervised institution is exposed.

(2) An FDIC-supervised institution must have a process for assessing its overall capital adequacy in relation to its risk profile and a comprehensive strategy for maintaining an appropriate level of capital.

(3) Insured depository institutions with less than the minimum leverage capital requirement. (i) An insured depository institution making an application to the FDIC operating with less than the minimum leverage capital requirement does not have adequate capital and therefore has inadequate financial resources.

(ii) Any insured depository institution operating with an inadequate capital structure, and therefore inadequate financial resources, will not receive approval for an application requiring the FDIC to consider the adequacy of its capital structure or its financial resources.

(iii) In any merger, acquisition, or other type of business combination where the FDIC must give its approval, where it is required to consider the adequacy of the financial resources of the existing and proposed institutions, and where the resulting entity is either insured by the FDIC or not otherwise federally insured, approval will not be granted when the resulting entity does not meet the minimum leverage capital requirement.

(iv) Exceptions. Notwithstanding the provisions of paragraphs (d)(3)(i), (ii) and (iii) of this section:

(A) The FDIC, in its discretion, may approve an application pursuant to the Federal Deposit Insurance Act where it finds that such approval must be taken to prevent the closing of a depository institution or to facilitate the acquisition of a closed depository institution, or, when severe financial conditions exist which threaten the stability of an insured depository institution or of a significant number of depository institutions insured by the FDIC or of insured depository institutions possessing significant financial resources, if such action is taken to lessen the risk to the FDIC posed by an insured depository institution under such threat of instability.

(B) The FDIC, in its discretion, may approve an application pursuant to the Federal Deposit Insurance Act where it is required to consider the adequacy of capital or the financial resources of the insured depository institution where it finds that the applicant has committed to and is in compliance with a reasonable plan to meet its minimum leverage capital requirements within a reasonable period of time.

§ 324.11 Capital conservation buffer and countercyclical capital buffer amount.

(a) Capital conservation buffer. (1) Composition of the capital conservation buffer. The capital conservation buffer is composed solely of common equity tier 1 capital.

(2) Definitions. For purposes of this section, the following definitions apply:

(i) Eligible retained income. The eligible retained income of an FDIC-supervised institution is the FDIC-supervised institution’s net income for the four calendar quarters preceding the current calendar quarter, based on the FDIC-supervised institution’s quarterly Call Reports, net of any distributions and associated tax effects not already reflected in net income.

(ii) Maximum payout ratio. The maximum payout ratio is the percentage of eligible retained income that an FDIC-supervised institution can pay out in the form of distributions and discretionary bonus payments during the current calendar quarter.

(b) Countercyclical capital buffer. (1) Composition of the countercyclical capital buffer. The countercyclical capital buffer is the difference between the total capital requirement (the sum of the capital conservation buffer and the countercyclical capital buffer) and the total risk-based capital requirement.

(2) Definitions. For purposes of this section, the following definitions apply:

(i) Capital conservation buffer. The capital conservation buffer is the difference between the total risk-based capital requirement and the risk-based capital requirement.

(ii) Risk-based capital requirement. The risk-based capital requirement is the sum of the common equity Tier 1 capital, Tier 1 capital, and Tier 2 capital.

(iii) Total risk-based capital requirement. The total risk-based capital requirement is the sum of the risk-weighted assets.

(iv) Risk-weighted assets. Risk-weighted assets are the sum of the amounts of assets and off-balance sheet items that are subject to risk weighting.

(v) Risk-weighted asset ratio. The risk-weighted asset ratio is the ratio of risk-weighted assets to total assets.

(vi) Risk-weighted ratio. The risk-weighted ratio is the ratio of the risk-based capital requirement to the risk-weighted assets.

(c) Minimum leverage capital requirement. (1) Capital conservation buffer. The minimum leverage capital requirement is the capital conservation buffer.

(2) Countercyclical capital buffer. The countercyclical capital buffer is the difference between the total capital requirement and the risk-based capital ratio.

(d) Effects of acquisitions. (1) Acquisition of another depository institution. An FDIC-supervised institution that acquires another depository institution shall ensure that the resulting entity meets its minimum leverage capital requirement.

(2) Acquisition of non-depository institution. An FDIC-supervised institution that acquires a non-depository institution shall ensure that the resulting entity meets its minimum leverage capital requirement.

(e) Exceptions. (1) Exception for certain acquisitions. An FDIC-supervised institution that acquires a small institution shall be exempt from the minimum leverage capital requirement if it can demonstrate that the resulting entity will meet its minimum leverage capital requirement within a reasonable period of time.

(2) Exception for certain depository institutions. An FDIC-supervised institution that is a small depository institution shall be exempt from the minimum leverage capital requirement if it can demonstrate that the resulting entity will meet its minimum leverage capital requirement within a reasonable period of time.

§ 324.12 Capital conservation buffer and countercyclical capital buffer requirements.

(a) Capital conservation buffer. (1) Composition of the capital conservation buffer. The capital conservation buffer is composed solely of common equity tier 1 capital.

(2) Definitions. For purposes of this section, the following definitions apply:

(i) Eligible retained income. The eligible retained income of an FDIC-supervised institution is the FDIC-supervised institution’s net income for the four calendar quarters preceding the current calendar quarter, based on the FDIC-supervised institution’s quarterly Call Reports, net of any distributions and associated tax effects not already reflected in net income.

(ii) Maximum payout ratio. The maximum payout ratio is the percentage of eligible retained income that an FDIC-supervised institution can pay out in the form of distributions and discretionary bonus payments during the current calendar quarter.

(b) Countercyclical capital buffer. (1) Composition of the countercyclical capital buffer. The countercyclical capital buffer is the difference between the total capital requirement (the sum of the capital conservation buffer and the countercyclical capital buffer) and the total risk-based capital requirement.

(2) Definitions. For purposes of this section, the following definitions apply:

(i) Capital conservation buffer. The capital conservation buffer is the difference between the total risk-based capital requirement and the risk-based capital requirement.

(ii) Risk-based capital requirement. The risk-based capital requirement is the sum of the common equity Tier 1 capital, Tier 1 capital, and Tier 2 capital.

(iii) Total risk-based capital requirement. The total risk-based capital requirement is the sum of the risk-weighted assets.

(iv) Risk-weighted assets. Risk-weighted assets are the sum of the amounts of assets and off-balance sheet items that are subject to risk weighting.

(v) Risk-weighted asset ratio. The risk-weighted asset ratio is the ratio of risk-weighted assets to total assets.

(vi) Risk-weighted ratio. The risk-weighted ratio is the ratio of the risk-based capital requirement to the risk-weighted assets.

(c) Minimum leverage capital requirement. (1) Capital conservation buffer. The minimum leverage capital requirement is the capital conservation buffer.

(2) Countercyclical capital buffer. The countercyclical capital buffer is the difference between the total capital requirement and the risk-based capital ratio.

(d) Effects of acquisitions. (1) Acquisition of another depository institution. An FDIC-supervised institution that acquires another depository institution shall ensure that the resulting entity meets its minimum leverage capital requirement.

(2) Acquisition of non-depository institution. An FDIC-supervised institution that acquires a non-depository institution shall ensure that the resulting entity meets its minimum leverage capital requirement.

(e) Exceptions. (1) Exception for certain acquisitions. An FDIC-supervised institution that acquires a small institution shall be exempt from the minimum leverage capital requirement if it can demonstrate that the resulting entity will meet its minimum leverage capital requirement within a reasonable period of time.

(2) Exception for certain depository institutions. An FDIC-supervised institution that is a small depository institution shall be exempt from the minimum leverage capital requirement if it can demonstrate that the resulting entity will meet its minimum leverage capital requirement within a reasonable period of time.
the last day of the previous calendar quarter, as set forth in Table 1 to §324.11.

(iii) Maximum payout amount. An FDIC-supervised institution’s maximum payout amount for the current calendar quarter is equal to the FDIC-supervised institution’s eligible retained income, multiplied by the applicable maximum payout ratio, as set forth in Table 1 to §324.11.

(iv) Private sector credit exposure. Private sector credit exposure means an exposure to a company or an individual that is not an exposure to a sovereign, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, an MDB, a PSE, or a GSE.

(3) Calculation of capital conservation buffer. (i) An FDIC-supervised institution’s capital conservation buffer is equal to the lowest of the following ratios, calculated as of the last day of the previous calendar quarter based on the FDIC-supervised institution’s most recent Call Report:

(A) The FDIC-supervised institution’s common equity tier 1 capital ratio minus the FDIC-supervised institution’s minimum common equity tier 1 capital ratio requirement under §324.10;

(B) The FDIC-supervised institution’s tier 1 capital ratio minus the FDIC-supervised institution’s minimum tier 1 capital ratio requirement under §324.10; and

(C) The FDIC-supervised institution’s total capital ratio minus the FDIC-supervised institution’s minimum total capital ratio requirement under §324.10;

or

(ii) Notwithstanding paragraphs (a)(3)(i)(A)–(C) of this section, if the FDIC-supervised institution’s common equity tier 1, tier 1 or total capital ratio is less than or equal to the FDIC-supervised institution’s minimum common equity tier 1, tier 1 or total capital ratio requirement under §324.10, respectively, the FDIC-supervised institution’s capital conservation buffer is zero.

(4) Limits on distributions and discretionary bonus payments. (i) An FDIC-supervised institution shall not make distributions or discretionary bonus payments or create an obligation to make such distributions or payments during the current calendar quarter that, in the aggregate, exceed the maximum payout amount.

(ii) An FDIC-supervised institution with a capital conservation buffer that is greater than 2.5 percent plus 100 percent of its applicable countercyclical capital buffer, in accordance with paragraph (b) of this section, is not subject to a maximum payout amount under this section.

(iii) Negative eligible retained income. Except as provided in paragraph (a)(4)(iv) of this section, an FDIC-supervised institution may not make distributions or discretionary bonus payments during the current calendar quarter if the FDIC-supervised institution’s:

(A) Eligible retained income is negative; and

(B) Capital conservation buffer was less than 2.5 percent as of the end of the previous calendar quarter.

(iv) Prior approval. Notwithstanding the limitations in paragraphs (a)(4)(i) through (iii) of this section, the FDIC may permit an FDIC-supervised institution to make a distribution or discretionary bonus payment upon a request of the FDIC-supervised institution, if the FDIC determines that the distribution or discretionary bonus payment would not be contrary to the purposes of this section, or to the safety and soundness of the FDIC-supervised institution. In making such a determination, the FDIC will consider the nature and extent of the request and the particular circumstances giving rise to the request.

<td>Greater than 2.5 percent plus 100 percent of the FDIC-supervised institution’s applicable countercyclical capital buffer amount.</td>
<td>No payout ratio limitation applies.</td>
</tr>
</tbody>
</table>
(v) Other limitations on distributions. Additional limitations on distributions may apply to an FDIC-supervised institution under 12 CFR 303.241 and subpart H of this part.

(b) Countercyclical capital buffer amount—(1) General. An advanced approaches FDIC-supervised institution must calculate a countercyclical capital buffer amount in accordance with the following paragraphs for purposes of determining its maximum payout ratio under Table 1 to § 324.11.

(i) Extension of capital conservation buffer. The countercyclical capital buffer amount is an extension of the capital conservation buffer as described in paragraph (a) of this section.

(ii) Amount. An advanced approaches FDIC-supervised institution has a countercyclical capital buffer amount determined by calculating the weighted average of the countercyclical capital buffer amounts established for the national jurisdictions where the FDIC-supervised institution’s private sector credit exposures are located, as specified in paragraphs (b)(2) and (3) of this section.

(iii) Weighting. The weight assigned to a jurisdiction’s countercyclical capital buffer amount is calculated by dividing the total risk-weighted assets for the FDIC-supervised institution’s private sector credit exposures located in the jurisdiction by the total risk-weighted assets for all of the FDIC-supervised institution’s private sector credit exposures. The methodology an FDIC-supervised institution uses for determining risk-weighted assets for purposes of this paragraph (b) must be the methodology that determines its risk-based capital ratios under § 324.10. Notwithstanding the previous sentence, the risk-weighted asset amount for a private sector credit exposure that is a covered position under subpart F of this part is its specific risk add-on as determined under § 324.210 multiplied by 12.5.

(iv) Location. (A) Except as provided in paragraphs (b)(1)(iv)(B) and (b)(1)(iv)(C) of this section, the location of a private sector credit exposure is the national jurisdiction where the borrower is located (that is, where it is incorporated, chartered, or similarly established or, if the borrower is an individual, where the borrower resides). (B) If, in accordance with subparts D or E of this part, the FDIC-supervised institution has assigned to a private sector credit exposure a risk weight associated with a protection provider on a guarantee or credit derivative, the location of the exposure is the national jurisdiction where the protection provider is located. (C) The location of a securitization exposure is the location of the underlying exposures, or, if the underlying exposures are located in more than one national jurisdiction, the national jurisdiction where the underlying exposures with the largest aggregate unpaid principal balance are located. For purposes of this paragraph (b), the location of an underlying exposure shall be the location of the borrower, determined consistent with paragraph (b)(1)(iv)(A) of this section.

(2) Countercyclical capital buffer amount for credit exposures in the United States—(1) Initial countercyclical capital

buffer amount with respect to credit exposures in the United States. The initial countercyclical capital buffer amount in the United States is zero.

(ii) **Adjustment of the countercyclical capital buffer amount.** The FDIC will adjust the countercyclical capital buffer amount for credit exposures in the United States in accordance with applicable law. These adjustments are made jointly by the Board, OCC, and FDIC.

(iii) **Range of countercyclical capital buffer amount.** The FDIC will adjust the countercyclical capital buffer amount for credit exposures in the United States between zero percent and 2.5 percent of risk-weighted assets.

(iv) **Adjustment determination.** The FDIC will base its decision to adjust the countercyclical capital buffer amount under this section on a range of macroeconomic, financial, and supervisory information indicating an increase in systemic risk including, but not limited to, the ratio of credit to gross domestic product, a variety of asset prices, other factors indicative of relative credit and liquidity expansion or contraction, funding spreads, credit condition surveys, indices based on credit default swap spreads, options implied volatility, and measures of systemic risk.

(v) **Effective date of adjusted countercyclical capital buffer amount—(A) Increase adjustment.** A determination by the FDIC under paragraph (b)(2)(ii) of this section to increase the countercyclical capital buffer amount will be effective 12 months from the date of announcement, unless the FDIC establishes an earlier effective date and includes a statement articulating the reasons for the earlier effective date.

(B) **Decrease adjustment.** A determination by the FDIC to decrease the established countercyclical capital buffer amount under paragraph (b)(2)(ii) of this section will be effective on the day following announcement of the final determination or the earliest date permissible under applicable law or regulation, whichever is later.

(vi) **Twelve month sunset.** The countercyclical capital buffer amount will return to zero percent 12 months after the effective date that the adjusted countercyclical capital buffer amount is announced, unless the FDIC announces a decision to maintain the adjusted countercyclical capital buffer amount or adjust it again before the expiration of the 12-month period.

(3) **Countercyclical capital buffer amount for foreign jurisdictions.** The FDIC will adjust the countercyclical capital buffer amount for private sector credit exposures to reflect decisions made by foreign jurisdictions consistent with due process requirements described in paragraph (b)(2) of this section.

§§ 324.12–324.19 [Reserved]

Subpart C—Definition of Capital

§ 324.20 **Capital components and eligibility criteria for regulatory capital instruments.**

(a) **Regulatory capital components.** An FDIC-supervised institution’s regulatory capital components are:

(1) Common equity tier 1 capital;

(2) Additional tier 1 capital; and

(3) Tier 2 capital.

(b) **Common equity tier 1 capital.** Common equity tier 1 capital is the sum of the common equity tier 1 capital elements in paragraph (b), minus regulatory adjustments and deductions in §324.22. The common equity tier 1 capital elements are:

(1) Any common stock instruments (plus any related surplus) issued by the FDIC-supervised institution, net of treasury stock, and any capital instruments issued by mutual banking organizations, that meet all the following criteria:

(i) The instrument is paid-in, issued directly by the FDIC-supervised institution, and represents the most subordinated claim in a receivership, insolvency, liquidation, or similar proceeding of the FDIC-supervised institution;

(ii) The holder of the instrument is entitled to a claim on the residual assets of the FDIC-supervised institution that is proportional with the holder’s...
share of the FDIC-supervised institution’s issued capital after all senior claims have been satisfied in a receivership, insolvency, liquidation, or similar proceeding;

(ii) The instrument has no maturity date, can only be redeemed via discretionary repurchases with the prior approval of the FDIC, and does not contain any term or feature that creates an incentive to redeem;

(iv) The FDIC-supervised institution did not create at issuance of the instrument through any action or communication an expectation that it will buy back, cancel, or redeem the instrument, and the instrument does not include any term or feature that might give rise to such an expectation;

(v) Any cash dividend payments on the instrument are paid out of the FDIC-supervised institution’s net income and retained earnings and are not subject to a limit imposed by the contractual terms governing the instrument. An FDIC-supervised institution must obtain prior FDIC approval for any dividend payment involving a reduction or retirement of capital stock in accordance with 12 CFR 303.241;

(vi) The FDIC-supervised institution has full discretion at all times to refrain from paying any dividends and making any other distributions on the instrument without triggering an event of default, a requirement to make a payment-in-kind, or an imposition of any other restrictions on the FDIC-supervised institution;

(vii) Dividend payments and any other distributions on the instrument may be paid only after all legal and contractual obligations of the FDIC-supervised institution have been satisfied, including payments due on more senior claims;

(viii) The holders of the instrument bear losses as they occur equally, proportionately, and simultaneously with the holders of all other common stock instruments before any losses are borne by holders of claims on the FDIC-supervised institution with greater priority in a receivership, insolvency, liquidation, or similar proceeding;

(ix) The paid-in amount is classified as equity under GAAP;

(x) The FDIC-supervised institution, or an entity that the FDIC-supervised institution controls, did not purchase or directly or indirectly fund the purchase of the instrument;

(xi) The instrument is not secured, not covered by a guarantee of the FDIC-supervised institution or of an affiliate of the FDIC-supervised institution, and is not subject to any other arrangement that legally or economically enhances the seniority of the instrument;

(xii) The instrument has been issued in accordance with applicable laws and regulations; and

(xiii) The instrument is reported on the FDIC-supervised institution’s regulatory financial statements separately from other capital instruments.

(2) Retained earnings.

(3) Accumulated other comprehensive income (AOCI) as reported under GAAP.12

(4) Any common equity tier 1 minority interest, subject to the limitations in §324.21(c).

(5) Notwithstanding the criteria for common stock instruments referenced above, an FDIC-supervised institution’s common stock issued and held in trust for the benefit of its employees as part of an employee stock ownership plan does not violate any of the criteria in paragraph (b)(1)(iii), paragraph (b)(1)(iv) or paragraph (b)(1)(x) of this section, provided that any repurchase of the stock is required solely by virtue of ERISA for an instrument of an FDIC-supervised institution that is not publicly-traded. In addition, an instrument issued by an FDIC-supervised institution to its employee stock ownership plan does not violate the criterion in paragraph (b)(1)(x) of this section.

(c) Additional tier 1 capital. Additional tier 1 capital is the sum of additional tier 1 capital elements and any related surplus, minus the regulatory adjustments and deductions in §324.22. Additional tier 1 capital elements are:

(1) Instruments (plus any related surplus) that meet the following criteria:

(1) The instrument is issued and paid-in;

12 See §324.22 for specific adjustments related to AOCI.
(i) The instrument is subordinated to depositors, general creditors, and subordinated debt holders of the FDIC-supervised institution in a receivership, insolvency, liquidation, or similar proceeding;

(ii) The instrument is not secured, nor insured by a guarantee of the FDIC-supervised institution or of an affiliate of the FDIC-supervised institution, and not subject to any other arrangement that legally or economically enhances the seniority of the instrument;

(iii) The instrument has no maturity date and does not contain a dividend step-up or any other term or feature that creates an incentive to redeem; and

(v) If callable by its terms, the instrument may be called by the FDIC-supervised institution only after a minimum of five years following issuance, except that the terms of the instrument may allow it to be called earlier than five years upon the occurrence of a regulatory event that precludes the instrument from being included in additional tier 1 capital, a tax event, or if the issuing entity is required to register as an investment company pursuant to the Investment Company Act. In addition:

(A) The FDIC-supervised institution must receive prior approval from the FDIC to exercise a call option on the instrument.

(B) The FDIC-supervised institution does not create at issuance of the instrument, through any action or communication, an expectation that the call option will be exercised.

(C) Prior to exercising the call option, or immediately thereafter, the FDIC-supervised institution must either: Replace the instrument to be called with an equal amount of instruments that meet the criteria under paragraph (b) of this section or this paragraph (c);13 or demonstrate to the satisfaction of the FDIC that following redemption, the FDIC-supervised institution will continue to hold capital commensurate with its risk.

(vi) Redemption or repurchase of the instrument requires prior approval from the FDIC.

(vii) The FDIC-supervised institution has full discretion at all times to cancel dividends or other distributions on the instrument without triggering an event of default, a requirement to make a payment-in-kind, or an imposition of other restrictions on the FDIC-supervised institution except in relation to any distributions to holders of common stock or instruments that are pari passu with the instrument.

(viii) Any cash dividend payments on the instrument are paid out of the FDIC-supervised institution’s net income and retained earnings and are not subject to a limit imposed by the contractual terms governing the instrument. An FDIC-supervised institution must obtain prior FDIC approval for any dividend payment involving a reduction or retirement of capital stock in accordance with 12 CFR 303.241.

(ix) The instrument does not have a credit-sensitive feature, such as a dividend rate that is reset periodically based in whole or in part on the FDIC-supervised institution’s credit quality, but may have a dividend rate that is adjusted periodically independent of the FDIC-supervised institution’s credit quality, in relation to general market interest rates or similar adjustments.

(x) The paid-in amount is classified as equity under GAAP.

(xi) The FDIC-supervised institution, or an entity that the FDIC-supervised institution controls, did not purchase or directly or indirectly fund the purchase of the instrument.

(xii) The instrument does not have any features that would limit or discourage additional issuance of capital by the FDIC-supervised institution, such as provisions that require the FDIC-supervised institution to compensate holders of the instrument if a new instrument is issued at a lower price during a specified time frame.

(xiii) If the instrument is not issued directly by the FDIC-supervised institution or by a subsidiary of the FDIC-supervised institution that is an operating entity, the only asset of the issuing entity is its investment in the

13Replacement can be concurrent with redemption of existing additional tier 1 capital instruments.
capital of the FDIC-supervised institution, and proceeds must be immediately available without limitation to the FDIC-supervised institution or to the FDIC-supervised institution’s top-tier holding company in a form which meets or exceeds all of the other criteria for additional tier 1 capital instruments.14 

(xiv) For an advanced approaches FDIC-supervised institution, the governing agreement, offering circular, or prospectus of an instrument issued after the date upon which the FDIC-supervised institution becomes subject to this part as set forth in §324.1(f) must disclose that the holders of the instrument may be fully subordinated to interests held by the U.S. government in the event that the FDIC-supervised institution enters into a receivership, insolvency, liquidation, or similar proceeding.

(2) Tier 1 minority interest, subject to the limitations in §324.21(d), that is not included in the FDIC-supervised institution’s common equity tier 1 capital.

(3) Any and all instruments that qualified as tier 1 capital under the FDIC’s general risk-based capital rules under 12 CFR part 325, appendix A (state nonmember banks) and 12 CFR part 390, subpart Z (state savings associations) as then in effect, that were issued under the Small Business Jobs Act of 201015 or prior to October 4, 2010, under the Emergency Economic Stabilization Act of 2008.16

(4) Notwithstanding the criteria for additional tier 1 capital instruments referenced above:

(i) An instrument issued by an FDIC-supervised institution and held in trust for the benefit of its employees as part of an employee stock ownership plan does not violate any of the criteria in paragraph (c)(1)(iii) of this section, provided that any repurchase is required solely by virtue of ERISA for an instrument that is not publicly-traded. In addition, an instrument issued by an FDIC-supervised institution to its employee stock ownership plan does not violate the criteria in paragraph (c)(1)(v) or paragraph (c)(1)(xi) of this section; and

(ii) An instrument with terms that provide that the instrument may be called earlier than five years upon the occurrence of a rating agency event does not violate the criterion in paragraph (c)(1)(v) of this section provided that the instrument was issued and included in an FDIC-supervised institution’s tier 1 capital prior to the January 1, 2014, and that such instrument satisfies all other criteria under this paragraph (c).

(d) Tier 2 Capital. Tier 2 capital is the sum of tier 2 capital elements and any related surplus, minus regulatory adjustments and deductions in §324.22.

Tier 2 capital elements are:

(1) Instruments (plus related surplus) that meet the following criteria:

(i) The instrument is issued and paid-in;

(ii) The instrument is subordinated to depositors and general creditors of the FDIC-supervised institution;

(iii) The instrument is not secured, not covered by a guarantee of the FDIC-supervised institution or of an affiliate of the FDIC-supervised institution, and not subject to any other arrangement that legally or economically enhances the seniority of the instrument in relation to more senior claims;

(iv) The instrument has a minimum original maturity of at least five years. At the beginning of each of the last five years of the life of the instrument, the amount that is eligible to be included in tier 2 capital is reduced by 20 percent of the original amount of the instrument (net of redemptions) and is excluded from regulatory capital when the remaining maturity is less than one year. In addition, the instrument must not have any terms or features that require, or create significant incentives for, the FDIC-supervised institution to redeem the instrument prior to maturity;17 and

(v) The instrument, by its terms, may be called by the FDIC-supervised

14 See 77 FR 52856 (August 30, 2012).

17 An instrument that by its terms automatically converts into a tier 1 capital instrument prior to five years after issuance complies with the five-year maturity requirement of this criterion.
§ 324.20  12 CFR Ch. III (1–1–17 Edition)

institutions only after a minimum of five years following issuance, except that the terms of the instrument may allow it to be called sooner upon the occurrence of an event that would preclude the instrument from being included in tier 2 capital, a tax event, or if the issuing entity is required to register as an investment company pursuant to the Investment Company Act. In addition:

(A) The FDIC-supervised institution must receive the prior approval of the FDIC to exercise a call option on the instrument.

(B) The FDIC-supervised institution does not create at issuance, through action or communication, an expectation the call option will be exercised.

(C) Prior to exercising the call option, or immediately thereafter, the FDIC-supervised institution must either: Replace any amount called with an equivalent amount of an instrument that meets the criteria for regulatory capital under this section; or demonstrate to the satisfaction of the FDIC that following redemption, the FDIC-supervised institution would continue to hold an amount of capital that is commensurate with its risk.

(vi) The holder of the instrument must have no contractual right to accelerate payment of principal or interest on the instrument, except in the event of a receivership, insolvency, liquidation, or similar proceeding of the FDIC-supervised institution.

(vii) The instrument has no credit-sensitive feature, such as a dividend or interest rate that is reset periodically based in whole or in part on the FDIC-supervised institution's credit standing, but may have a dividend rate that is adjusted periodically independent of the FDIC-supervised institution's credit standing, in relation to general market interest rates or similar adjustments.

(viii) The FDIC-supervised institution, or an entity that the FDIC-supervised institution controls, has not purchased and has not directly or indirectly funded the purchase of the instrument.

(ix) If the instrument is not issued directly by the FDIC-supervised institution or by a subsidiary of the FDIC-supervised institution that is an operating entity, the only asset of the issuing entity is its investment in the capital of the FDIC-supervised institution, and proceeds must be immediately available without limitation to the FDIC-supervised institution or the FDIC-supervised institution's top-tier holding company in a form that meets or exceeds all the other criteria for tier 2 capital instruments under this section.

(x) Redemption of the instrument prior to maturity or repurchase requires the prior approval of the FDIC.

(xi) For an advanced approaches FDIC-supervised institution, the governing agreement, offering circular, or prospectus of an instrument issued after the date on which the advanced approaches FDIC-supervised institution becomes subject to this part under §324.1(f) must disclose that the holders of the instrument may be fully subordinated to interests held by the U.S. government in the event that the FDIC-supervised institution enters into a receivership, insolvency, liquidation, or similar proceeding.

(2) Total capital minority interest, subject to the limitations set forth in §324.21(e), that is not included in the FDIC-supervised institution's tier 1 capital.

(3) ALLL up to 1.25 percent of the FDIC-supervised institution’s standardized total risk-weighted assets not including any amount of the ALLL (and excluding in the case of a market risk FDIC-supervised institution, its standardized market risk-weighted assets).

(4) Any instrument that qualified as tier 2 capital under the FDIC’s general risk-based capital rules under 12 CFR part 325, appendix A (state nonmember banks) and 12 CFR part 390, appendix Z (state saving associations) as then in effect, that were issued under the

---

18 A FDIC-supervised institution may replace tier 2 capital instruments concurrent with the redemption of existing tier 2 capital instruments.

19 A FDIC-supervised institution may disregard de minimis assets related to the operation of the issuing entity for purposes of this criterion.
§ 324.21 Minority interest.

(a) Applicability. For purposes of §324.20, an FDIC-supervised institution is subject to the minority interest limitations in this section if:

(1) A consolidated subsidiary of the FDIC-supervised institution has issued regulatory capital that is not owned by the FDIC-supervised institution; and

(2) For each relevant regulatory capital ratio of the consolidated subsidiary, the ratio exceeds the sum of the subsidiary’s minimum regulatory capital requirements plus its capital conservation buffer.

(b) Difference in capital adequacy standards at the subsidiary level. For purposes of the minority interest calculations in this section, if the consolidated subsidiary issuing the capital is not subject to capital adequacy standards similar to those of the FDIC-supervised institution, the FDIC-supervised institution must assume that the capital adequacy standards of the FDIC-supervised institution apply to the subsidiary.

(c) Common equity tier 1 minority interest includable in the common equity tier 1 capital of the FDIC-supervised institution. For each consolidated subsidiary of an FDIC-supervised institution, the amount of common equity tier 1 minority interest the FDIC-supervised institution may include in common equity tier 1 capital is equal to:

(1) The common equity tier 1 minority interest of the subsidiary; minus

(2) The percentage of the subsidiary’s common equity tier 1 capital that is not owned by the FDIC-supervised institution, multiplied by the difference between the common equity tier 1 capital of the subsidiary and the lower of:

(i) The amount of common equity tier 1 capital the subsidiary must hold, 243
or would be required to hold pursuant to paragraph (b) of this section, to avoid restrictions on distributions and discretionary bonus payments under §324.11 or equivalent standards established by the subsidiary’s home country supervisor; or

(ii)(A) The standardized total risk-weighted assets of the FDIC-supervised institution that relate to the subsidiary multiplied by

(B) The common equity tier 1 capital ratio the subsidiary must maintain to avoid restrictions on distributions and discretionary bonus payments under §324.11 or equivalent standards established by the subsidiary’s home country supervisor.

(d) Tier 1 minority interest includable in the tier 1 capital of the FDIC-supervised institution. For each consolidated subsidiary of the FDIC-supervised institution, the amount of tier 1 minority interest that the FDIC-supervised institution may include in tier 1 capital is equal to:

(1) The tier 1 minority interest of the subsidiary; minus

(2) The percentage of the subsidiary’s tier 1 capital that is not owned by the FDIC-supervised institution multiplied by the difference between the tier 1 capital of the subsidiary and the lower of:

(i) The amount of tier 1 capital the subsidiary must hold, or would be required to hold pursuant to paragraph (b) of this section, to avoid restrictions on distributions and discretionary bonus payments under §324.11 or equivalent standards established by the subsidiary’s home country supervisor, or

(ii)(A) The standardized total risk-weighted assets of the FDIC-supervised institution that relate to the subsidiary multiplied by

(B) The common equity tier 1 capital ratio the subsidiary must maintain to avoid restrictions on distributions and discretionary bonus payments under §324.11 or equivalent standards established by the subsidiary’s home country supervisor.

(e) Total capital minority interest includable in the total capital of the FDIC-supervised institution. For each consolidated subsidiary of the FDIC-supervised institution, the amount of total capital minority interest that the FDIC-supervised institution may include in total capital is equal to:

(1) The total capital minority interest of the subsidiary; minus

(2) The percentage of the subsidiary’s total capital that is not owned by the FDIC-supervised institution multiplied by the difference between the total capital of the subsidiary and the lower of:

(i) The amount of total capital the subsidiary must hold, or would be required to hold pursuant to paragraph (b) of this section, to avoid restrictions on distributions and discretionary bonus payments under §324.11 or equivalent standards established by the subsidiary’s home country supervisor, or

(ii)(A) The standardized total risk-weighted assets of the FDIC-supervised institution that relate to the subsidiary multiplied by

(B) The total capital ratio the subsidiary must maintain to avoid restrictions on distributions and discretionary bonus payments under §324.11 or equivalent standards established by the subsidiary’s home country supervisor.

§324.22 Regulatory capital adjustments and deductions.

(a) Regulatory capital deductions from common equity tier 1 capital. An FDIC-supervised institution must deduct from the sum of its common equity tier 1 capital elements the items set forth in this paragraph (a):

(1) Goodwill, net of associated deferred tax liabilities (DTLs) in accordance with paragraph (e) of this section, including goodwill that is embedded in the valuation of a significant investment in the capital of an unconsolidated financial institution in the form of common stock (and that is reflected in the consolidated financial statements of the FDIC-supervised institution), in accordance with paragraph (d) of this section;

(2) Intangible assets, other than MSAs, net of associated DTLs in accordance with paragraph (e) of this section;

(3) Deferred tax assets (DTAs) that arise from net operating loss and tax credit carryforwards net of any related
valuation allowances and net of DTLs in accordance with paragraph (e) of this section;
(4) Any gain-on-sale in connection with a securitization exposure;
(5)(i) Any defined benefit pension fund net asset, net of any associated DTL in accordance with paragraph (e) of this section, held by a depository institution holding company. With the prior approval of the FDIC, this deduction is not required for any defined benefit pension fund net asset to the extent the depository institution holding company has unrestricted and unfettered access to the assets in that fund.
(ii) For an insured depository institution, no deduction is required.
(iii) An FDIC-supervised institution must risk weight any portion of the defined benefit pension fund asset that is not deducted under paragraphs (a)(5)(i) or (a)(5)(ii) of this section as if the FDIC-supervised institution directly holds a proportional ownership share of each exposure in the defined benefit pension fund.
(6) For an advanced approaches FDIC-supervised institution that has completed the parallel run process and that has received notification from the FDIC pursuant to §324.121(d), the amount of expected credit loss that exceeds its eligible credit reserves; and
(7) With respect to a financial subsidiary, the aggregate amount of the FDIC-supervised institution’s outstanding equity investment, including retained earnings, in its financial subsidiaries (as defined in 12 CFR 362.17). An FDIC-supervised institution must not consolidate the assets and liabilities of a financial subsidiary with those of the parent bank, and no other deduction is required under paragraph (c) of this section for investments in the capital instruments of financial subsidiaries.
(8) (i) A state savings association must deduct the aggregate amount of its outstanding investments, (both equity and debt) in, and extensions of credit to, subsidiaries that are not includable subsidiaries as defined in paragraph (a)(8)(iv) of this section and may not consolidate the assets and liabilities of the subsidiary with those of the state savings association. Any such deductions shall be from assets and common equity tier 1 capital, except as provided in paragraphs (a)(8)(ii) and (iii) of this section.
(ii) If a state savings association has any investments (both debt and equity) in, or extensions of credit to, one or more subsidiaries engaged in any activity that would not fall within the scope of activities in which includable subsidiaries as defined in paragraph (a)(8)(iv) of this section may engage, it must deduct such investments and extensions of credit from assets and, thus, common equity tier 1 capital in accordance with paragraph (a)(8)(i) of this section.
(iii) If a state savings association holds a subsidiary (either directly or through a subsidiary) that is itself a domestic depository institution, the FDIC may, in its sole discretion upon determining that the amount of common equity tier 1 capital that would be required would be higher if the assets and liabilities of such subsidiary were consolidated with those of the parent state savings association than the amount that would be required if the parent state savings association’s investment were deducted pursuant to paragraphs (a)(8)(i) and (ii) of this section, consolidate the assets and liabilities of that subsidiary with those of the parent state savings association in calculating the capital adequacy of the parent state savings association, regardless of whether the subsidiary would otherwise be an includable subsidiary as defined in paragraph (a)(8)(iv) of this section.
(iv) For purposes of this section, the term includable subsidiary means a subsidiary of a state savings association that is:
(A) Engaged solely in activities that are permissible for a national bank;
(B) Engaged in activities not permissible for a national bank, but only if acting solely as agent for its customers and such agency position is clearly documented in the state savings association’s files;
(C) Engaged solely in mortgage-banking activities;
(D)(j) Itself an insured depository institution or a company the sole investment of which is an insured depository institution, and
§ 324.22

(2) Was acquired by the parent state savings association prior to May 1, 1989; or

(E) A subsidiary of any state savings association existing as a state savings association on August 9, 1989 that—

(1) Was chartered prior to October 15, 1982, as a savings bank or a cooperative bank under state law, or

(2) Acquired its principal assets from an association that was chartered prior to October 15, 1982, as a savings bank or a cooperative bank under state law.

(9) Identified losses. An FDIC-supervised institution must deduct identified losses (to the extent that common equity tier 1 capital would have been reduced if the appropriate accounting entries to reflect the identified losses had been recorded on the FDIC-supervised institution’s books).

(b) Regulatory adjustments to common equity tier 1 capital. (1) An FDIC-supervised institution must adjust the sum of common equity tier 1 capital elements pursuant to the requirements set forth in this paragraph (b). Such adjustments to common equity tier 1 capital must be made net of the associated deferred tax effects.

(i) An FDIC-supervised institution that makes an AOCI opt-out election (as defined in paragraph (b)(2) of this section) must make the adjustments required under § 324.22(b)(2)(i).

(ii) An FDIC-supervised institution that is an advanced approaches FDIC-supervised institution, and an FDIC-supervised institution that has not made an AOCI opt-out election (as defined in paragraph (b)(2) of this section), must deduct any accumulated net gains and add any accumulated net losses on cash flow hedges included in AOCI that relate to the hedging of items that are not recognized at fair value on the balance sheet.

(iii) An FDIC-supervised institution must deduct any net gain and add any net loss related to changes in the fair value of liabilities that are due to changes in the FDIC-supervised institution’s own credit risk. An advanced approaches FDIC-supervised institution must deduct the difference between its credit spread premium and the risk-free rate for derivatives that are liabilities as part of this adjustment.

(2) AOCI opt-out election. (i) An FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution may make a one-time election to opt out of the requirement to include all components of AOCI (with the exception of accumulated net gains and losses on cash flow hedges related to items that are not fair-valued on the balance sheet) in common equity tier 1 capital (AOCI opt-out election). An FDIC-supervised institution that makes an AOCI opt-out election in accordance with this paragraph (b)(2) must adjust common equity tier 1 capital as follows:

(A) Subtract any net unrealized gains and add any net unrealized losses on available-for-sale securities;

(B) Subtract any net unrealized losses on available-for-sale preferred stock classified as an equity security under GAAP and available-for-sale equity exposures;

(C) Subtract any accumulated net gains and add any accumulated net losses on cash flow hedges;

(D) Subtract any amounts recorded in AOCI attributed to defined benefit postretirement plans resulting from the initial and subsequent application of the relevant GAAP standards that pertain to such plans (excluding, at the FDIC-supervised institution’s option, the portion relating to pension assets deducted under paragraph (a)(5) of this section); and

(E) Subtract any net unrealized gains and add any net unrealized losses on held-to-maturity securities that are included in AOCI.

(ii) An FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution must make its AOCI opt-out election in its Call Report filed for the first reporting period after the date required for such FDIC-supervised institution to comply with subpart A of this part as set forth in § 324.1(f).

(iii) With respect to an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution, each of its subsidiary banking organizations that is subject to regulatory capital requirements issued by the Federal Reserve, the FDIC, or
the OCC must elect the same option as the FDIC-supervised institution pursuant to this paragraph (b)(2).

(iv) With prior notice to the FDIC, an FDIC-supervised institution resulting from a merger, acquisition, or purchase transaction may change its AOCI opt-out election in its Call Report filed for the first reporting period after the date required for such FDIC-supervised institution to comply with subpart A of this part as set forth in §324.1(f) if:

(A) Other than as set forth in paragraph (b)(2)(iv)(C) of this section, the merger, acquisition, or purchase transaction involved the acquisition or purchase of all or substantially all of either the assets or voting stock of another banking organization that is subject to regulatory capital requirements issued by the Federal Reserve, the FDIC, or the OCC;

(B) Prior to the merger, acquisition, or purchase transaction, only one of the banking organizations involved in the transaction made an AOCI opt-out election under this section; and

(C) An FDIC-supervised institution may, with the prior approval of the FDIC, change its AOCI opt-out election under this paragraph (b) in the case of a merger, acquisition, or purchase transaction that meets the requirements set forth at paragraph (b)(2)(iv)(B) of this section, but does not meet the requirements of paragraph (b)(2)(iv)(A). In making such a determination, the FDIC may consider the terms of the merger, acquisition, or purchase transaction, as well as the extent of any changes to the risk profile, complexity, and scope of operations of the FDIC-supervised institution resulting from the merger, acquisition, or purchase transaction.

(c) Deductions from regulatory capital related to investments in capital instruments—

1. Investment in the FDIC-supervised institution’s own capital instruments. An FDIC-supervised institution must deduct an investment in the FDIC-supervised institution’s own capital instruments as follows:

(i) An FDIC-supervised institution must deduct an investment in the FDIC-supervised institution’s own common stock instruments from its common equity tier 1 capital elements to the extent such instruments are not excluded from regulatory capital under §324.20(b)(1);

(ii) An FDIC-supervised institution must deduct an investment in the FDIC-supervised institution’s own additional tier 1 capital instruments from its additional tier 1 capital elements; and

(iii) An FDIC-supervised institution must deduct an investment in the FDIC-supervised institution’s own tier 2 capital instruments from its tier 2 capital elements.

2. Corresponding deduction approach. For purposes of subpart C of this part, the corresponding deduction approach is the methodology used for the deductions from regulatory capital related to reciprocal cross holdings (as described in paragraph (c)(3) of this section), non-significant investments in the capital of unconsolidated financial institutions (as described in paragraph (c)(4) of this section), and non-common stock significant investments in the capital of unconsolidated financial institutions (as described in paragraph (c)(5) of this section). Under the corresponding deduction approach, an FDIC-supervised institution must make deductions from the component of capital for which the underlying instrument would qualify if it were issued by the FDIC-supervised institution itself, as described in paragraphs (c)(2)(i)–(iii) of this section. If the FDIC-supervised institution does not have a sufficient amount of a specific component of capital to effect the required deduction, the shortfall must be deducted according to paragraph (f) of this section.

(i) If an investment is in the form of an instrument issued by a financial institution that is not a regulated financial institution, the FDIC-supervised institution must treat the instrument as:
§ 324.22

(A) A common equity tier 1 capital instrument if it is common stock or represents the most subordinated claim in liquidation of the financial institution; and

(B) An additional tier 1 capital instrument if it is subordinated to all creditors of the financial institution and is senior in liquidation only to common shareholders.

(ii) If an investment is in the form of an instrument issued by a regulated financial institution and the instrument does not meet the criteria for common equity tier 1, additional tier 1 or tier 2 capital instruments under § 324.20, the FDIC-supervised institution must treat the instrument as:

(A) A common equity tier 1 capital instrument if it is common stock included in GAAP equity or represents the most subordinated claim in liquidation of the financial institution;

(B) An additional tier 1 capital instrument if it is included in GAAP equity, subordinated to all creditors of the financial institution, and senior in a receivership, insolvency, liquidation, or similar proceeding only to common shareholders; and

(C) A tier 2 capital instrument if it is not included in GAAP equity but considered regulatory capital by the primary supervisor of the financial institution.

(iii) If an investment in the form of a non-qualifying capital instrument (as defined in § 324.300(c)), the FDIC-supervised institution must treat the instrument as:

(A) An additional tier 1 capital instrument if such instrument was included in the issuer’s tier 1 capital prior to May 19, 2010; or

(B) A tier 2 capital instrument if such instrument was included in the issuer’s tier 2 capital (but not includable in tier 1 capital) prior to May 19, 2010.

Reciprocal cross holdings in the capital of financial institutions. An FDIC-supervised institution must deduct investments in the capital of other financial institutions it holds reciprocally, where such reciprocal cross holdings result from a formal or informal arrangement to swap, exchange, or otherwise intend to hold each other’s capital instruments, by applying the corresponding deduction approach.

(4) Non-significant investments in the capital of unconsolidated financial institutions. (i) An FDIC-supervised institution must deduct its non-significant investments in the capital of unconsolidated financial institutions (as defined in § 324.2) that, in the aggregate, exceed 10 percent of the sum of the FDIC-supervised institution’s common equity tier 1 capital elements minus all deductions from and adjustments to common equity tier 1 capital elements required under paragraphs (a) through (c)(3) of this section (the 10 percent threshold for non-significant investments) by applying the corresponding deduction approach. The deductions described in this section are net of associated DTLs in accordance with paragraph (e) of this section. In addition, an FDIC-supervised institution that underwrites a failed underwriting, with the prior written approval of the FDIC, for the period of time stipulated by the FDIC, is not required to deduct a non-significant investment in the capital of an unconsolidated financial institution pursuant to this paragraph (c) to the extent the investment is related to the failed underwriting.

(ii) The amount to be deducted under this section from a specific capital component is equal to:

(A) The FDIC-supervised institution’s non-significant investments in the capital of unconsolidated financial institutions exceeding the 10 percent threshold for non-significant investments, multiplied by

With the prior written approval of the FDIC, for the period of time stipulated by the FDIC, a FDIC-supervised institution is not required to deduct a non-significant investment in the capital of an unconsolidated financial institution pursuant to this paragraph if the financial institution is in distress and if such investment is made for the purpose of providing financial support to the financial institution, as determined by the FDIC.

Any non-significant investments in the capital of unconsolidated financial institutions that do not exceed the 10 percent threshold for non-significant investments under this section must be assigned the appropriate risk weight under subparts D, E, or F of this part, as applicable.
(B) The ratio of the FDIC-supervised institution’s non-significant investments in the capital of unconsolidated financial institutions in the form of such capital component to the FDIC-supervised institution’s total non-significant investments in unconsolidated financial institutions.

(5) Significant investments in the capital of unconsolidated financial institutions that are not in the form of common stock. An FDIC-supervised institution must deduct its significant investments in the capital of unconsolidated financial institutions that are not in the form of common stock by applying the corresponding deduction approach. The deductions described in this section are net of associated DTLs in accordance with paragraph (e) of this section. In addition, with the prior written approval of the FDIC, for the period of time stipulated by the FDIC, an FDIC-supervised institution that underwrites a failed underwriting is not required to deduct a significant investment in the capital of an unconsolidated financial institution pursuant to this paragraph (c) if such investment is related to such failed underwriting.

(d) Items subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds. (1) An FDIC-supervised institution must deduct from common equity tier 1 capital elements the amount of each of the items set forth in this paragraph (d) that, individually, exceeds 10 percent of the sum of the FDIC-supervised institution’s common equity tier 1 capital elements, less adjustments to and deductions from common equity tier 1 capital required under paragraphs (a) through (c) of this section (the 10 percent common equity tier 1 capital deduction threshold).

(i) DTAs arising from temporary differences that the FDIC-supervised institution could not realize through net operating loss carrybacks, net of any related valuation allowances and net of DTLs, in accordance with paragraph (e) of this section. An FDIC-supervised institution is not required to deduct from the sum of its common equity tier 1 capital elements DTAs (net of any related valuation allowances and net of DTLs, in accordance with §324.22(e)) arising from timing differences that the FDIC-supervised institution could realize through net operating loss carrybacks. The FDIC-supervised institution must risk weight these assets at 100 percent. For an FDIC-supervised institution that is a member of a consolidated group for tax purposes, the amount of DTAs that could be realized through net operating loss carrybacks may not exceed the amount that the FDIC-supervised institution could reasonably expect to have refunded by its parent holding company.

(ii) MSAs net of associated DTLs, in accordance with paragraph (e) of this section.

(iii) Significant investments in the capital of unconsolidated financial institutions in the form of common stock, net of associated DTLs in accordance with paragraph (e) of this section. Significant investments in the capital of unconsolidated financial institutions in the form of common stock subject to the 10 percent common equity tier 1 capital deduction threshold may be reduced by any goodwill embedded in the valuation of such investments deducted by the FDIC-supervised institution pursuant to paragraph (a)(i) of this section. In addition, with the prior written approval of the FDIC, for the period of time stipulated by the FDIC, an FDIC-supervised institution that underwrites a failed underwriting is not required to deduct a significant investment.
investment in the capital of an unconsolidated financial institution in the form of common stock pursuant to this paragraph (d) if such investment is related to such failed underwriting.

(2) An FDIC-supervised institution must deduct from common equity tier 1 capital elements the items listed in paragraph (d)(1) of this section that are not deducted as a result of the application of the 10 percent common equity tier 1 capital deduction threshold, and that, in aggregate, exceed 17.65 percent of the sum of the FDIC-supervised institution’s common equity tier 1 capital elements, minus adjustments to and deductions from common equity tier 1 capital required under paragraphs (a) through (c) of this section, minus the items listed in paragraph (d)(1) of this section (the 15 percent common equity tier 1 capital deduction threshold). Any goodwill that has been deducted under paragraph (a)(1) of this section can be excluded from the significant investments in the capital of unconsolidated financial institutions in the form of common stock.28

(3) For purposes of calculating the amount of DTAs subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds, an FDIC-supervised institution may exclude DTAs and DTLs relating to adjustments made to common equity tier 1 capital under § paragraph (b) of this section. An FDIC-supervised institution that elects to exclude DTAs relating to adjustments under paragraph (b) of this section also must exclude DTLs and must do so consistently in all future calculations. An FDIC-supervised institution may change its exclusion preference only after obtaining the prior approval of the FDIC.

(e) Netting of DTLs against assets subject to deduction. (1) Except as described in paragraph (e)(3) of this section, netting of DTLs against assets that are subject to deduction under this section is permitted, but not required, if the following conditions are met:

(i) The DTL is associated with the asset; and

(ii) The DTL would be extinguished if the associated asset becomes impaired or is derecognized under GAAP.

(2) A DTL may only be netted against a single asset.

(3) For purposes of calculating the amount of DTAs subject to the threshold deduction in paragraph (d) of this section, the amount of DTAs that arise from net operating loss and tax credit carryforwards, net of any related valuation allowances, and of DTAs arising from temporary differences that the FDIC-supervised institution could not realize through net operating loss carrybacks, net of any related valuation allowances, may be offset by DTLs (that have not been netted against assets subject to deduction pursuant to paragraph (e)(1) of this section) subject to the conditions set forth in this paragraph (e).

(i) Only the DTAs and DTLs that relate to taxes levied by the same taxation authority and that are eligible for offsetting by that authority may be offset for purposes of this deduction.

(ii) The amount of DTLs that the FDIC-supervised institution nets against DTAs that arise from net operating loss and tax credit carryforwards, net of any related valuation allowances, and against DTAs arising from temporary differences that the FDIC-supervised institution could not realize through net operating loss carrybacks, net of any related valuation allowances, must be allocated in proportion to the amount of DTAs that arise from net operating loss and tax credit carryforwards (net of any related valuation allowances, but before any offsetting of DTLs), and of DTAs arising from temporary differences that the FDIC-supervised institution could not realize through net operating loss carrybacks (net of any related valuation allowances, but before any offsetting of DTLs), respectively.

(4) An FDIC-supervised institution may offset DTLs embedded in the carrying value of a leveraged lease portfolio acquired in a business combination that are not recognized under GAAP against DTAs that are subject to paragraph (d) of this section in accordance with this paragraph (e).

28The amount of the items in paragraph (d) of this section that are not deducted from common equity tier 1 capital pursuant to this section must be included in the risk-weighted assets of the FDIC-supervised institution and assigned a 250 percent risk weight.
(5) An FDIC-supervised institution must net DTLs against assets subject to deduction under this section in a consistent manner from reporting period to reporting period. An FDIC-supervised institution may change its preference regarding the manner in which it nets DTLs against specific assets subject to deduction under this section only after obtaining the prior approval of the FDIC.

(f) Insufficient amounts of a specific regulatory capital component to effect deductions. Under the corresponding deduction approach, if an FDIC-supervised institution does not have a sufficient amount of a specific component of capital to effect the required deduction after completing the deductions required under paragraph (d) of this section, the FDIC-supervised institution must deduct the shortfall from the next higher (that is, more subordinated) component of regulatory capital.

(g) Treatment of assets that are deducted. An FDIC-supervised institution must exclude from standardized total risk-weighted assets and, as applicable, advanced approaches total risk-weighted assets any item deducted from regulatory capital under paragraphs (a), (c), and (d) of this section.

(h) Net long position. (1) For purposes of calculating an investment in the FDIC-supervised institution’s own capital instrument and an investment in the capital of an unconsolidated financial institution under this section, the net long position is the gross long position in the underlying instrument determined in accordance with paragraph (h)(2) of this section, as adjusted to recognize a short position in the same instrument calculated in accordance with paragraph (h)(3) of this section.

(2) Gross long position. The gross long position is determined as follows:

(i) For an equity exposure that is held directly, the adjusted carrying value as that term is defined in §324.51(b);

(ii) For an exposure that is held directly and is not an equity exposure or a securitization exposure, the exposure amount as that term is defined in §324.2;

(iii) For an indirect exposure, the FDIC-supervised institution’s carrying value of the investment in the investment fund, provided that, alternately:

(A) An FDIC-supervised institution may, with the prior approval of the FDIC, use a conservative estimate of the amount of its investment in its own capital instruments or the capital of an unconsolidated financial institution held through a position in an index; or

(B) An FDIC-supervised institution may calculate the gross long position for the FDIC-supervised institution’s own capital instruments or the capital of an unconsolidated financial institution by multiplying the FDIC-supervised institution’s carrying value of its investment in the investment fund by either:

(1) The highest stated investment limit (in percent) for investments in the FDIC-supervised institution’s own capital instruments or the capital of unconsolidated financial institutions as stated in the prospectus, partnership agreement, or similar contract defining permissible investments of the investment fund; or

(2) The investment fund’s actual holdings of own capital instruments or the capital of unconsolidated financial institutions.

(iv) For a synthetic exposure, the amount of the FDIC-supervised institution’s loss on the exposure if the reference capital instrument were to have a value of zero.

(3) Adjustments to reflect a short position. In order to adjust the gross long position to recognize a short position in the same instrument, the following criteria must be met:

(i) The maturity of the short position must match the maturity of the long position, or the short position has a residual maturity of at least one year (maturity requirement); or

(ii) For a position that is a trading asset or trading liability (whether on- or off-balance sheet) as reported on the FDIC-supervised institution’s Call Report, if the FDIC-supervised institution has a contractual right or obligation to sell the long position at a specific point in time and the counterparty to the contract has an obligation to purchase the long position if the FDIC-supervised institution exercises its right
to sell, this point in time may be treated as the maturity of the long position such that the maturity of the long position and short position are deemed to match for purposes of the maturity requirement, even if the maturity of the short position is less than one year; and

(iii) For an investment in the FDIC-supervised institution’s own capital instrument under paragraph (c)(1) of this section or an investment in a capital of an unconsolidated financial institution under paragraphs (c)(4), (c)(5), and (d)(1)(iii) of this section:

(A) An FDIC-supervised institution may only net a short position against a long position in the FDIC-supervised institution’s own capital instrument under paragraph (c)(1) of this section if the short position involves no counterparty credit risk.

(B) A gross long position in an FDIC-supervised institution’s own capital instrument or in a capital instrument of an unconsolidated financial institution resulting from a position in an index may be netted against a short position in the same index. Long and short positions in the same index without maturity dates are considered to have matching maturities.

(C) A short position in an index that is hedging a long cash or synthetic position in an FDIC-supervised institution’s own capital instrument or in a capital instrument of an unconsolidated financial institution can be decomposed to provide recognition of the hedge. More specifically, the portion of the index that is composed of the same underlying instrument that is being hedged may be used to offset the long position being hedged and the short position in the index are reported as a trading asset or trading liability (whether on- or off-balance sheet) on the FDIC-supervised institution’s Call Report, and the hedge is deemed effective by the FDIC-supervised institution’s internal control processes, which have not been found to be inadequate by the FDIC.

counterparty, eligible guarantor, or financial collateral to determine the risk-weighted asset amount for each exposure.

(b) Total risk-weighted assets for general credit risk equals the sum of the risk-weighted asset amounts calculated under this section.

§ 324.32 General risk weights.

(a) Sovereign exposures—(1) Exposures to the U.S. government. (i) Notwithstanding any other requirement in this subpart, an FDIC-supervised institution must assign a zero percent risk weight to:

(A) An exposure to the U.S. government, its central bank, or a U.S. government agency; and

(B) The portion of an exposure that is directly and unconditionally guaranteed by the U.S. government, its central bank, or a U.S. government agency. This includes a deposit or other exposure, or the portion of a deposit or other exposure, that is insured or otherwise unconditionally guaranteed by the FDIC or National Credit Union Administration.

(ii) An FDIC-supervised institution must assign a 20 percent risk weight to the portion of an exposure that is conditionally guaranteed by the U.S. government, its central bank, or a U.S. government agency. This includes an exposure, or the portion of an exposure, that is conditionally guaranteed by the FDIC or National Credit Union Administration.

(2) Other sovereign exposures. In accordance with Table 1 to § 324.32, an FDIC-supervised institution must assign a risk weight to a sovereign exposure based on the CRC applicable to the sovereign or the sovereign’s OECD membership status if there is no CRC applicable to the sovereign.

(b) Certain supranational entities and multilateral development banks (MDBs). An FDIC-supervised institution must assign a zero percent risk weight to an exposure to the Bank for International Settlements, the European Central Bank, the European Commission, the

(3) Certain sovereign exposures. Notwithstanding paragraph (a)(2) of this section, an FDIC-supervised institution may assign to a sovereign exposure a risk weight that is lower than the applicable risk weight in Table 1 to § 324.32 if:

(i) The exposure is denominated in the sovereign’s currency;

(ii) The FDIC-supervised institution has at least an equivalent amount of liabilities in that currency; and

(iii) The risk weight is not lower than the risk weight that the home country supervisor allows FDIC-supervised institutions under its jurisdiction to assign to the same exposures to the sovereign.

(4) Exposures to a non-OECD member sovereign with no CRC. Except as provided in paragraphs (a)(3), (a)(5) and (a)(6) of this section, an FDIC-supervised institution must assign a 100 percent risk weight to an exposure to a sovereign if the sovereign does not have a CRC.

(5) Exposures to an OECD member sovereign with no CRC. Except as provided in paragraph (a)(6) of this section, an FDIC-supervised institution must assign a 0 percent risk weight to an exposure to a sovereign that is a member of the OECD if the sovereign does not have a CRC.

(6) Sovereign default. An FDIC-supervised institution must assign a 150 percent risk weight to a sovereign exposure immediately upon determining that an event of sovereign default has occurred, or if an event of sovereign default has occurred during the previous five years.

(b) Certain supranational entities and multilateral development banks (MDBs). An FDIC-supervised institution must assign a zero percent risk weight to an exposure to the Bank for International Settlements, the European Central Bank, the European Commission, the...
§ 324.32

International Monetary Fund, or an
MDB.

(c) Exposures to GSEs. (1) An FDIC-su-
pervised institution must assign a 20
percent risk weight to an exposure to a
GSE other than an equity exposure or
preferred stock.

(2) An FDIC-supervised institution
must assign a 100 percent risk weight to
preferred stock issued by a GSE.

(d) Exposures to depository institutions,
foreign banks, and credit unions—(1) Ex-
posures to U.S. depository institutions
and credit unions. An FDIC-supervised
institution must assign a 20 percent
risk weight to an exposure to a deposi-
tory institution or credit union that is
organized under the laws of the United
States or any state thereof, except as
otherwise provided under paragraph
(d)(3) of this section.

(2) Exposures to foreign banks. (i) Ex-
cept as otherwise provided under para-
grahs (d)(2)(iv) and (d)(3) of this sec-
tion, an FDIC-supervised institution
must assign a risk weight to an expo-
sure to a foreign bank, in accordance
with Table 2 to § 324.32, based on the
CRC that corresponds to the foreign
bank’s home country or the OECD
membership status of the foreign
bank’s home country if there is no CRC
applicable to the foreign bank’s home
country.

Sovereign Default .......... 150

(ii) An FDIC-supervised institution
must assign a 20 percent risk weight to
an exposure to a foreign bank whose
home country is not a member of the
OECD and does not have a CRC, with
the exception of self-liquidating, trade-
related contingent items that arise
from the movement of goods, and that
have a maturity of three months or
less, which may be assigned a 20 per-
cent risk weight.

(iv) An FDIC-supervised institution
must assign a 150 percent risk weight
to an exposure to a foreign bank imme-
diately upon determining that an event
of sovereign default has occurred in the
bank’s home country, or if an event of
sovereign default has occurred in the
foreign bank’s home country during
the previous five years.

(3) An FDIC-supervised institution
must assign a 100 percent risk weight
to an exposure to a financial institu-
tion if the exposure may be included in
that financial institution’s capital un-
less the exposure is:

(i) An equity exposure;

(ii) A significant investment in the
capital of an unconsolidated financial
institution in the form of common
stock pursuant to § 324.22(d)(ii);

(iii) Deducted from regulatory cap-
tal under § 324.22; or

(iv) Subject to a 150 percent risk
weight under paragraph (d)(2)(iv) or
Table 2 of paragraph (d)(2) of this sec-
tion.

(e) Exposures to public sector entities
(PSEs)—(1) Exposures to U.S. PSEs. (i) An FDIC-supervised institution
must assign a 20 percent risk weight to
a general obligation exposure to a PSE
that is organized under the laws of the
United States or any state or political
subdivision thereof.

(ii) An FDIC-supervised institution
must assign a 50 percent risk weight to
a revenue obligation exposure to a PSE
that is organized under the laws of the
United States or any state or political
subdivision thereof.

(2) Exposures to foreign PSEs. (i) Ex-
cept as provided in paragraphs (e)(1)
and (e)(3) of this section, an FDIC-su-
pervised institution must assign a risk
weight to a general obligation exposure
to a PSE, in accordance with Table 3 to
§ 324.32, based on the CRC that cor-
responds to the PSE’s home country or
the OECD membership status of the
PSE’s home country if there is no CRC
applicable to the PSE’s home country.
(ii) Except as provided in paragraphs (e)(1) and (e)(3) of this section, an FDIC-supervised institution must assign a risk weight to a revenue obligation exposure to a PSE, in accordance with Table 4 to §324.32, based on the CRC that corresponds to the PSE’s home country: or the OECD membership status of the PSE’s home country if there is no CRC applicable to the PSE’s home country.

(3) An FDIC-supervised institution may assign a lower risk weight than would otherwise apply under Tables 3 or 4 to §324.32 to an exposure to a foreign PSE if:

(i) The PSE’s home country supervisor allows banks under its jurisdiction to assign a lower risk weight to such exposures; and

(ii) The risk weight is not lower than the risk weight that corresponds to the PSE’s home country in accordance with Table 1 to §324.32.

(4) Exposures to PSEs from an OECD member sovereign with no CRC. (i) An FDIC-supervised institution must assign a 20 percent risk weight to a general obligation exposure to a PSE whose home country is an OECD member sovereign with no CRC.

(ii) An FDIC-supervised institution must assign a 50 percent risk weight to a revenue obligation exposure to a PSE whose home country is an OECD member sovereign with no CRC.

(5) Exposures to PSEs whose home country is not an OECD member sovereign with no CRC. An FDIC-supervised institution must assign a 100 percent risk weight to an exposure to a PSE whose home country is not a member of the OECD and does not have a CRC.

(6) An FDIC-supervised institution must assign a 150 percent risk weight to a PSE exposure immediately upon determining that an event of sovereign default has occurred in a PSE’s home country or if an event of sovereign default has occurred in the PSE’s home country during the previous five years.

(f) Corporate exposures. An FDIC-supervised institution must assign a 100 percent risk weight to all its corporate exposures.

(g) Residential mortgage exposures. (1) An FDIC-supervised institution must assign a 50 percent risk weight to a first-lien residential mortgage exposure that:

(i) Is secured by a property that is either owner-occupied or rented;

(ii) Is made in accordance with prudent underwriting standards, including standards relating to the loan amount as a percent of the appraised value of the property;

(iii) Is not 90 days or more past due or carried in nonaccrual status; and

(iv) Is not restructured or modified.

(2) An FDIC-supervised institution must assign a 100 percent risk weight to a first-lien residential mortgage exposure that does not meet the criteria in paragraph (g)(1) of this section, and to junior-lien residential mortgage exposures.

(3) For the purpose of this paragraph (g), if an FDIC-supervised institution holds the first-lien and junior-lien(s) residential mortgage exposures, and no other party holds an intervening lien, the FDIC-supervised institution must combine the exposures and treat them as a single first-lien residential mortgage exposure.
(4) A loan modified or restructured solely pursuant to the U.S. Treasury’s Home Affordable Mortgage Program is not modified or restructured for purposes of this section.

(h) Pre-sold construction loans. An FDIC-supervised institution must assign a 50 percent risk weight to a pre-sold construction loan unless the purchase contract is cancelled, in which case an FDIC-supervised institution must assign a 100 percent risk weight.

(1) Statutory multifamily mortgages. An FDIC-supervised institution must assign a 50 percent risk weight to a statutory multifamily mortgage.

(i) High-volatility commercial real estate (HVCRE) exposures. An FDIC-supervised institution must assign a 150 percent risk weight to an HVCRE exposure.

(k) Past due exposures. Except for a sovereign exposure or a residential mortgage exposure, an FDIC-supervised institution must determine a risk weight for an exposure that is 90 days or more past due or on nonaccrual according to the requirements set forth in this paragraph (k).

(1) An FDIC-supervised institution must assign a 150 percent risk weight to the portion of the exposure that is not guaranteed or that is unsecured.

(2) An FDIC-supervised institution may assign a risk weight to the guaranteed portion of a past due exposure based on the risk weight that applies under §324.36 if the guarantee or credit derivative meets the requirements of that section.

(3) An FDIC-supervised institution may assign a risk weight to the collateralized portion of a past due exposure based on the risk weight that applies under §324.37 if the collateral meets the requirements of that section.

(l) Other assets. (1) An FDIC-supervised institution must assign a zero percent risk weight to cash owned and held in all offices of the FDIC-supervised institution or in transit; to gold bullion held in the FDIC-supervised institution’s own vaults or held in another depository institution’s vaults on an allocated basis, to the extent the gold bullion assets are offset by gold bullion liabilities; and to exposures that arise from the settlement of cash transactions (such as equities, fixed income, spot foreign exchange and spot commodities) with a central counterparty where there is no assumption of ongoing counterparty credit risk by the central counterparty after settlement of the trade and associated default fund contributions.

(2) An FDIC-supervised institution must assign a 20 percent risk weight to cash items in the process of collection.

(3) An FDIC-supervised institution must assign a 100 percent risk weight to DTAs arising from temporary differences that the FDIC-supervised institution could realize through net operating loss carrybacks.

(4) An FDIC-supervised institution must assign a 250 percent risk weight to the portion of each of the following items that is not deducted from common equity tier 1 capital pursuant to §324.22(d):

(i) MSAs; and

(ii) DTAs arising from temporary differences that the FDIC-supervised institution could not realize through net operating loss carrybacks.

(5) An FDIC-supervised institution must assign a 100 percent risk weight to all assets not specifically assigned a different risk weight under this subpart and that are not deducted from tier 1 or tier 2 capital pursuant to §324.22.

(6) Notwithstanding the requirements of this section, an FDIC-supervised institution may assign an asset that is not included in one of the categories provided in this section to the risk weight category applicable under the capital rules applicable to bank holding companies and savings and loan holding companies at 12 CFR part 217, provided that all of the following conditions apply:

(i) The FDIC-supervised institution is not authorized to hold the asset under applicable law other than debt previously contracted or similar authority; and

(ii) The risks associated with the asset are substantially similar to the risks of assets that are otherwise assigned to a risk weight category of less than 100 percent under this subpart.

§324.32 12 CFR Ch. III (1–1–17 Edition)

§ 324.33 Off-balance sheet exposures.

(a) General. (1) An FDIC-supervised institution must calculate the exposure amount of an off-balance sheet exposure using the credit conversion factors (CCFs) in paragraph (b) of this section.

(2) Where an FDIC-supervised institution commits to provide a commitment, the FDIC-supervised institution may apply the lower of the two applicable CCFs.

(3) Where an FDIC-supervised institution provides a commitment structured as a syndication or participation, the FDIC-supervised institution is only required to calculate the exposure amount for its pro rata share of the commitment.

(4) Where an FDIC-supervised institution provides a commitment, enters into a repurchase agreement, or provides a credit-enhancing representation and warranty, and such commitment, repurchase agreement, or credit-enhancing representation and warranty is not a securitization exposure, the exposure amount shall be no greater than the maximum contractual amount of the commitment, repurchase agreement, or credit-enhancing representation and warranty, as applicable.

(b) Credit conversion factors—(1) Zero percent CCF. An FDIC-supervised institution must apply a zero percent CCF to the unused portion of a commitment that is unconditionally cancelable by the FDIC-supervised institution.

(2) 20 percent CCF. An FDIC-supervised institution must apply a 20 percent CCF to the amount of:

(i) Commitments with an original maturity of one year or less that are not unconditionally cancelable by the FDIC-supervised institution; and

(ii) Self-liquidating, trade-related contingent items that arise from the movement of goods, with an original maturity of one year or less.

(3) 30 percent CCF. An FDIC-supervised institution must apply a 30 percent CCF to the amount of:

(i) Commitments with an original maturity of more than one year that are not unconditionally cancelable by the FDIC-supervised institution; and

(ii) Transaction-related contingent items, including performance bonds, bid bonds, warranties, and performance standby letters of credit.

(4) 100 percent CCF. An FDIC-supervised institution must apply a 100 percent CCF to the amount of the following off-balance-sheet items and other similar transactions:

(i) Guarantees;

(ii) Repurchase agreements (the off-balance sheet component of which equals the sum of the current fair values of all positions the FDIC-supervised institution has sold subject to repurchase);

(iii) Credit-enhancing representations and warranties that are not securitization exposures;

(iv) Off-balance sheet securities lending transactions (the off-balance sheet component of which equals the sum of the current fair values of all positions the FDIC-supervised institution has lent under the transaction);

(v) Off-balance sheet securities borrowing transactions (the off-balance sheet component of which equals the sum of the current fair values of all non-cash positions the FDIC-supervised institution has posted as collateral under the transaction);

(vi) Financial standby letters of credit; and

(vii) Forward agreements.

§ 324.34 OTC derivative contracts.

(a) Exposure amount—(1) Single OTC derivative contract. Except as modified by paragraph (b) of this section, the exposure amount for a single OTC derivative contract that is not subject to a qualifying master netting agreement is equal to the sum of the current credit exposure and potential future credit exposure (PFE) on the OTC derivative contract.

(i) Current credit exposure. The current credit exposure for a single OTC derivative contract is the greater of the mark-to-fair value of the OTC derivative contract or zero.

(ii) PFE. (A) The PFE for a single OTC derivative contract, including an OTC derivative contract with a negative mark-to-fair value, is calculated by multiplying the notional principal amount of the OTC derivative contract by the appropriate conversion factor in Table 1 to §324.34.

\( \text{§ 324.34} \)  

(A) For purposes of calculating either the PFE under this paragraph (a) or the gross PFE under paragraph (a)(2) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, notional principal amount is the net receipts to each party falling due on each value date in each currency.

(B) For purposes of calculating either the PFE under this paragraph (a) or the gross PFE under paragraph (a)(2) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, notional principal amount is the net receipts to each party falling due on each value date in each currency.

(C) For an OTC derivative contract that does not fall within one of the specified categories in Table 1 to §324.34, the PFE must be calculated using the appropriate “other” conversion factor.

(D) An FDIC-supervised institution must use an OTC derivative contract’s effective notional principal amount (that is, the apparent or stated notional principal amount multiplied by any multiplier in the OTC derivative contract) rather than the apparent or stated notional principal amount in calculating PFE.

(E) The PFE of the protection provider of a credit derivative is capped at the net present value of the amount of unpaid premiums.

Table 1 to §324.34—Conversion Factor Matrix for Derivative Contracts

</table>

1. For a derivative contract with multiple exchanges of principal, the conversion factor is multiplied by the number of remaining payments in the derivative contract.

2. For an OTC derivative contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the fair value of the contract is zero, the remaining maturity equals the time until the next reset date.

3. An FDIC-supervised institution must use the column labeled “Credit (investment-grade reference asset)” for a credit derivative whose reference asset is an outstanding unsecured long-term debt security without credit enhancement that is investment grade. An FDIC-supervised institution must use the column labeled “Credit (non-investment-grade reference asset)” for all other credit derivatives.

(2) Multiple OTC derivative contracts subject to a qualifying master netting agreement. Except as modified by paragraph (b) of this section, the exposure amount for multiple OTC derivative contracts subject to a qualifying master netting agreement is equal to the sum of the net current credit exposure and the adjusted sum of the PFE amounts for all OTC derivative contracts subject to the qualifying master netting agreement.

(i) Net current credit exposure. The net current credit exposure is the greater of the net sum of all positive and negative market-to-fair values of the individual OTC derivative contracts subject to the qualifying master netting agreement or zero.

(ii) Adjusted sum of the PFE amounts. The adjusted sum of the PFE amounts, Anet, is calculated as Anet = (0.4 × Agross) + (0.6 × NGR × Agross), where:

(A) Agross equals the gross PFE (that is, the sum of the PFE amounts as determined under paragraph (a)(1)(ii) of this section for each individual derivative contract subject to the qualifying master netting agreement);

(B) Net-to-gross Ratio (NGR) equals the ratio of the net current credit exposure to the gross current credit exposure. In calculating the NGR, the gross current credit exposure equals the sum of the positive current credit exposures as determined under paragraph (a)(1)(i) of this section) of all individual
(b) Recognition of credit risk mitigation of collateralized OTC derivative contracts. (1) An FDIC-supervised institution may recognize the credit risk mitigation benefits of financial collateral that secures an OTC derivative contract or multiple OTC derivative contracts subject to a qualifying master netting agreement (netting set) by using the simple approach in §324.37(b).

(2) As an alternative to the simple approach, an FDIC-supervised institution may recognize the credit risk mitigation benefits of financial collateral that secures such a contract or netting set if the financial collateral is marked-to-fair value on a daily basis and subject to a daily margin maintenance requirement by applying a risk weight to the exposure as if it were uncollateralized and adjusting the exposure amount calculated under paragraph (a)(1) or (2) of this section using the collateral haircut approach in §324.37(c). The FDIC-supervised institution must substitute the exposure amount calculated under paragraph (a)(1) or (2) of this section for êE in the equation in §324.37(c)(2).

c) Counterparty credit risk for OTC credit derivatives—(1) Protection purchasers. An FDIC-supervised institution that purchases an OTC credit derivative that is recognized under §324.36 as a credit risk mitigant for an exposure that is not a covered position under subpart F is not required to compute a separate counterparty credit risk capital requirement under §324.32 provided that the FDIC-supervised institution either include all or exclude all such credit derivatives that are subject to a qualifying master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(2) Protection providers. (i) An FDIC-supervised institution that is the protection provider under an OTC credit derivative must treat the OTC credit derivative as an exposure to the underlying reference asset. The FDIC-supervised institution is not required to compute a counterparty credit risk capital requirement for the OTC credit derivative under §324.32, provided that this treatment is applied consistently for all such OTC credit derivatives. The FDIC-supervised institution must either include all or exclude all such OTC credit derivatives that are subject to a qualifying master netting agreement from any measure used to determine counterparty credit risk exposure.

(ii) The provisions of this paragraph (c)(2) apply to all relevant counterparties for risk-based capital purposes unless the FDIC-supervised institution is treating the OTC credit derivative as a covered position under subpart F, in which case the FDIC-supervised institution must compute a supplemental counterparty credit risk capital requirement under this section.

d) Counterparty credit risk for OTC equity derivatives. (1) An FDIC-supervised institution must treat an OTC equity derivative contract as an equity exposure and compute a risk-weighted asset amount for the OTC equity derivative contract under §§324.51 through 324.53 (unless the FDIC-supervised institution is treating the contract as a covered position under subpart F of this part).

(2) In addition, the FDIC-supervised institution must also calculate a risk-based capital requirement for the counterparty credit risk of an OTC equity derivative contract under this section if the FDIC-supervised institution is treating the contract as a covered position under subpart F of this part.

(3) If the FDIC-supervised institution risk weights the contract under the Simple Risk-Weight Approach (SRWA) in §324.52, the FDIC-supervised institution may choose not to hold risk-based capital against the counterparty credit risk of the OTC equity derivative contract, as long as it does so for all such contracts. Where the OTC equity derivative contracts are subject to a qualified master netting agreement, an FDIC-supervised institution using the SRWA must either include all or exclude all of the contracts from any measure used to determine counterparty credit risk exposure.

e) Clearing member FDIC-supervised institution’s exposure amount. A clearing member FDIC-supervised institution’s exposure amount.
contract or netting set of OTC derivative contracts where the FDIC-supervised institution is either acting as a financial intermediary and enters into an offsetting transaction with a QCCP or where the FDIC-supervised institution provides a guarantee to the QCCP on the performance of the client equals the exposure amount calculated according to paragraph (a)(1) or (2) of this section multiplied by the scaling factor 0.71. If the FDIC-supervised institution determines that a longer period is appropriate, the FDIC-supervised institution must use a larger scaling factor to adjust for a longer holding period as follows:

\[
\text{Scaling factor} = \sqrt{\frac{H}{10}}
\]

where \( H \) equals the holding period greater than five days. Additionally, the FDIC may require the FDIC-supervised institution to set a longer holding period if the FDIC determines that a longer period is appropriate due to the nature, structure, or characteristics of the transaction or is commensurate with the risks associated with the transaction.

§ 324.35 Cleared transactions.

(a) General requirements—(1) Clearing member clients. An FDIC-supervised institution that is a clearing member client must use the methodologies described in paragraph (b) of this section to calculate risk-weighted assets for a cleared transaction.

(2) Clearing members. An FDIC-supervised institution that is a clearing member must use the methodologies described in paragraph (c) of this section to calculate its risk-weighted assets for a cleared transaction and paragraph (d) of this section to calculate its risk-weighted assets for its default fund contribution to a CCP.

(b) Clearing member client FDIC-supervised institutions—(1) Risk-weighted assets for cleared transactions. (i) To determine the risk-weighted asset amount for a cleared transaction, an FDIC-supervised institution that is a clearing member client must multiply the trade exposure amount for the cleared transaction, calculated in accordance with paragraph (b)(2) of this section, by the risk weight appropriate for the cleared transaction, determined in accordance with paragraph (b)(3) of this section.

(ii) A clearing member client FDIC-supervised institution’s total risk-weighted assets for cleared transactions is the sum of the risk-weighted asset amounts for all its cleared transactions.

(2) Trade exposure amount. (i) For a cleared transaction that is either a derivative contract or a netting set of derivative contracts, the trade exposure amount equals:

(A) The exposure amount for the derivative contract or netting set of derivative contracts, calculated using the methodology used to calculate exposure amount for OTC derivative contracts under §324.34; plus

(B) The fair value of the collateral posted by the clearing member client FDIC-supervised institution and held by the CCP, clearing member, or custodian in a manner that is not bankruptcy remote.

(ii) For a cleared transaction that is a repo-style transaction or netting set of repo-style transactions, the trade exposure amount equals:

(A) The exposure amount for the repo-style transaction or netting set of repo-style transactions, calculated using the methodologies under §324.37(c); plus

(B) The fair value of the collateral posted by the clearing member client FDIC-supervised institution and held by the CCP, clearing member, or custodian in a manner that is not bankruptcy remote.

(3) Cleared transaction risk weights. (i) For a cleared transaction with a QCCP,
a clearing member client FDIC-supervised institution must apply a risk weight of:

(A) 2 percent if the collateral posted by the FDIC-supervised institution to the QCCP or clearing member is subject to an arrangement that prevents any losses to the clearing member client FDIC-supervised institution due to the joint default or a concurrent insolvency, liquidation, or receivership proceeding of the clearing member and any other clearing member clients of the clearing member; and the clearing member client FDIC-supervised institution has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that in the event of a legal challenge (including one resulting from an event of default or from liquidation, insolvency, or receivership proceedings) the relevant court and administrative authorities would find the arrangements to be legal, binding and enforceable under the law of the relevant jurisdictions; or

(B) 4 percent if the requirements of §324.35(b)(3)(A) are not met.

(ii) For a cleared transaction with a CCP that is not a QCCP, a clearing member client FDIC-supervised institution must apply the risk weight appropriate for the CCP according to §324.32.

(4) Collateral. (i) Notwithstanding any other requirements in this section, collateral posted by a clearing member client FDIC-supervised institution that is held by a custodian (in its capacity as custodian) in a manner that is bankruptcy remote from the CCP, the custodian, clearing member and other clearing member clients of the clearing member, is not subject to a capital requirement under this section.

(ii) A clearing member client FDIC-supervised institution must calculate a risk-weighted asset amount for any collateral provided to a CCP, clearing member, or custodian in connection with a cleared transaction in accordance with the requirements under §324.32.

(c) Clearing member FDIC-supervised institutions—(1) Risk-weighted assets for cleared transactions. (i) To determine the risk-weighted asset amount for a cleared transaction, a clearing member FDIC-supervised institution must multiply the trade exposure amount for the cleared transaction, calculated in accordance with paragraph (c)(2) of this section, by the risk weight appropriate for the cleared transaction, determined in accordance with paragraph (c)(3) of this section.

(ii) A clearing member FDIC-supervised institution's total risk-weighted assets for cleared transactions is the sum of the risk-weighted asset amounts for all of its cleared transactions.

(2) Trade exposure amount. A clearing member FDIC-supervised institution must calculate its trade exposure amount for a cleared transaction as follows:

(i) For a cleared transaction that is either a derivative contract or a netting set of derivative contracts, the trade exposure amount equals:

(A) The exposure amount for the derivative contract, calculated using the methodology to calculate exposure amount for OTC derivative contracts under §324.34; plus

(B) The fair value of the collateral posted by the clearing member FDIC-supervised institution and held by the CCP in a manner that is not bankruptcy remote.

(ii) For a cleared transaction that is a repo-style transaction or netting set of repo-style transactions, trade exposure amount equals:

(A) The exposure amount for repo-style transactions calculated using methodologies under §324.37(c); plus

(B) The fair value of the collateral posted by the clearing member FDIC-supervised institution and held by the CCP in a manner that is not bankruptcy remote.

(3) Cleared transaction risk weight. (i) A clearing member FDIC-supervised institution must apply a risk weight of 2 percent to the trade exposure amount for a cleared transaction with a QCCP.

(ii) For a cleared transaction with a CCP that is not a QCCP, a clearing member FDIC-supervised institution must apply the risk weight appropriate for the CCP according to §324.32.

(4) Collateral. (i) Notwithstanding any other requirement in this section, collateral posted by a clearing member
FDIC-supervised institution that is held by a custodian in a manner that is bankruptcy remote from the CCP is not subject to a capital requirement under this section.

(ii) A clearing member FDIC-supervised institution must calculate a risk-weighted asset amount for any collateral provided to a CCP, clearing member, or a custodian in connection with a cleared transaction in accordance with requirements under §324.32.

(d) Default fund contributions—(1) General requirement. A clearing member FDIC-supervised institution must determine the risk-weighted asset amount for a default fund contribution to a CCP at least quarterly, or more frequently if, in the opinion of the FDIC-supervised institution or the FDIC, there is a material change in the financial condition of the CCP.

(2) Risk-weighted asset amount for default fund contributions to non-qualifying CCPs. A clearing member FDIC-supervised institution's risk-weighted asset amount for default fund contributions to CCPs that are not QCCPs equals the sum of such default fund contributions multiplied by 1,250 percent, or an amount determined by the FDIC, based on factors such as size, structure and membership characteristics of the CCP and riskiness of its transactions, in cases where such default fund contributions may be unlimited.

(3) Risk-weighted asset amount for default fund contributions to QCCPs. A clearing member FDIC-supervised institution’s risk-weighted asset amount for default fund contributions to QCCPs equals the sum of its capital requirement, K_{CM} for each QCCP, as calculated under the methodology set forth in paragraphs (d)(3)(i) through (iii) of this section (Method 1), multiplied by 1,250 percent or in paragraph (d)(3)(iv) of this section (Method 2).

(i) Method 1. The hypothetical capital requirement of a QCCP (K_{CCP}) equals:

\[ K_{CCP} = \sum_{\text{clearing member } i} \max \left( EBRM_i - VM_i - IM_i - DF_i ; 0 \right) \times RW \times 0.08 \]

Where

(A) EBRM, equals the exposure amount for each transaction cleared through the QCCP by clearing member i, calculated in accordance with §324.34 for OTC derivative contracts and §324.37(c)(2) for repo-style transactions, provided that:

(1) For purposes of this section, in calculating the exposure amount the FDIC-supervised institution may replace the formula provided in §324.34(a)(2)(ii) with the following: \[ \text{Anet} = (0.15 \times \text{Agross}) + (0.85 \times \text{NGR} \times \text{Agross}) \]; and

(2) For option derivative contracts that are cleared transactions, the PFE described in §324.34(a)(1)(ii) must be adjusted by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 1 to §324.34 and the absolute value of the option’s delta, that is, the ratio of the change in the value of the derivative contract to the corresponding change in the price of the underlying asset.

(3) For repo-style transactions, when applying §324.37(c)(2), the FDIC-supervised institution must use the methodology in §324.37(c)(3);

(B) VM, equals any collateral posted by clearing member i to the QCCP that it is entitled to receive from the QCCP, but has not yet received, and any collateral that the QCCP has actually received from clearing member i;

(C) IM, equals the collateral posted as initial margin by clearing member i to the QCCP;

(D) DF, equals the funded portion of clearing member i’s default fund contribution that will be applied to reduce the QCCP’s loss upon a default by clearing member i;

(E) RW equals 20 percent, except when the FDIC has determined that a higher risk weight is more appropriate based on the specific characteristics of the QCCP and its clearing members; and

(F) Where a QCCP has provided its K_{CCP}, an FDIC-supervised institution must rely on such disclosed figure instead of calculating K_{CCP} under this paragraph (d), unless the FDIC-supervised institution determines that a more conservative figure is appropriate based on the nature, structure, or characteristics of the QCCP.

(ii) For an FDIC-supervised institution that is a clearing member of a QCCP with a default fund supported by funded commitments, K_{CM} equals:
Federal Deposit Insurance Corporation § 324.35

\[ K_{CM} = \left( 1 + \beta \cdot \frac{N}{N-2} \right) \frac{DF}{DF_{CM}} \cdot K_{CM}^* \]

\[ K_{CM}^* = \begin{cases} 
  c_2 \cdot (K_{CCP} - DF_{CCP}) + c_2 \cdot DF_{CM}^c & \text{if } DF < K_{CCP} \\
  c_2 \cdot (K_{CCP} - DF_{CCP}) + c_1 \cdot (DF' - K_{CCP}) & \text{if } DF_{CCP} < K_{CCP} \leq DF' \\
  c_1 \cdot DF_{CM}^c & \text{if } K_{CCP} \leq DF_{CCP} 
\end{cases} \]

Where

(A) \( \beta = \frac{A_{Net,1} + A_{Net,2}}{\sum_i A_{Net,i}} \)

(A) Subscripts 1 and 2 denote the clearing members with the two largest \( A_{Net} \) values. For purposes of this paragraph (d), for derivatives \( A_{Net} \) is defined in §324.34(a)(2)(ii) and for repo-style transactions, \( A_{Net} \) means the exposure amount as defined in §324.37(c)(2) using the methodology in §324.37(c)(3).

(B) \( N \) equals the number of clearing members in the QCCP.

(C) \( DF_{CCP} \) equals the QCCP’s own funds and other financial resources that would be used to cover its losses before clearing members’ default fund contributions are used to cover losses.

(D) \( DF_{CM} \) equals funded default fund contributions from all clearing members and any other clearing member contributed financial resources that are available to absorb mutualized QCCP losses.

(E) \( DF' = DF_{CCP} + DF_{CM} \) (that is, the total funded default fund contribution).
(F) \( \overline{DF_i} = \text{average \overline{DF_i}} \) is the average funded default fund contribution from an individual clearing member;

(G) \( \overline{DF_{CM}} = \overline{DF_{CM}} - 2 \cdot \overline{DF_i} - \sum DF_i - 2 \cdot \overline{DF_i} \) (that is, the funded default fund contribution from surviving clearing members assuming that two average clearing members have defaulted and their default fund contributions and initial margins have been used to absorb the resulting losses);

(H) \( DF = DF_{CM} + DF_{CM} = DF - 2 \cdot \overline{DF_i} \) (that is, the total funded default fund contributions from the QCCP and the surviving clearing members that are available to mutualize losses, assuming that two average clearing members have defaulted);

(I) \( c_1 = \max \left( \frac{1.6\%}{(DF^0/K_{CCP})^{0.16}} \right) \) (that is, a decreasing capital factor, between 1.6 percent and 0.16 percent, applied to the excess funded default funds provided by clearing members);

(J) \( c_2 = 100 \) percent; and

(K) \( \mu = 1.2 \);

(iii) (A) For an FDIC-supervised institution that is a clearing member of a QCCP with a default fund supported by unfunded commitments, \( K_{CM} \) equals:

\[
K_{CM} = \frac{DF}{DF_{CM}} \cdot K^*_{CM}
\]

Where

(1) \( DF_i \) equals the FDIC-supervised institution’s unfunded commitment to the default fund;

(2) \( DF_{CM} \) equals the total of all clearing members’ unfunded commitment to the default fund; and

(3) \( K^*_{CM} \) as defined in paragraph (d)(3)(ii) of this section.

(B) For an FDIC-supervised institution that is a clearing member of a QCCP with a default fund supported by unfunded commitments and is unable to calculate \( K_{CM} \) using the methodology described in paragraph (d)(3)(ii) of this section, \( K_{CM} \) equals:
§ 324.36 Guarantees and credit derivatives: Substitution treatment.

(a) Scope. (1) General. An FDIC-supervised institution may recognize the credit risk mitigation benefits of an eligible guarantee or eligible credit derivative by substituting the risk weight associated with the protection provider for the risk weight assigned to an exposure, as provided under this section.

(ii) This section applies to exposures for which:

(I) Credit risk is fully covered by an eligible guarantee or eligible credit derivative;

(ii) Credit risk is covered on a pro rata basis (that is, on a basis in which the FDIC-supervised institution and the protection provider share losses proportionately) by an eligible guarantee or eligible credit derivative.

(2) Exposures on which there is a tranching of credit risk (reflecting at least two different levels of seniority) generally are securitization exposures subject to §§ 324.41 through 324.45.

(3) If multiple eligible guarantees or eligible credit derivatives cover a single exposure described in this section, an FDIC-supervised institution may treat the hedged exposure as multiple separate exposures each covered by a single eligible guarantee or eligible credit derivative, and may calculate a separate risk-weighted asset amount for each separate exposure as described in paragraph (c) of this section.

(b) Rules of recognition. (1) An FDIC-supervised institution may only recognize the credit risk mitigation benefits of eligible guarantees and eligible credit derivatives.

(2) An FDIC-supervised institution may only recognize the credit risk mitigation benefits of an eligible credit derivative to hedge an exposure that is different from the credit derivative’s reference exposure used for determining the derivative’s cash settlement value, deliverable obligation, or occurrence of a credit event if:

(i) The reference exposure ranks pari passu with, or is subordinated to, the hedged exposure; and

(ii) The reference exposure and the hedged exposure are to the same legal entity, and legally enforceable cross-default or cross-acceleration clauses are in place to ensure payments under the credit derivative are triggered when the obligated party of the hedged exposure defaults.

Where

(1) \( IM_i \) = the FDIC-supervised institution’s initial margin posted to the QCCP;

(2) \( IM_{CM} \) = the total of initial margin posted to the QCCP; and

(3) \( K_{CM}^* \) = as defined in paragraph (d)(3)(ii) of this section.

(iv) Method 2. A clearing member FDIC-supervised institution’s risk-weighted asset amount for its default fund contribution to a Q CCP, \( RWA_{DF} \), equals:

\[
RWA_{DF} = \min \{ 12.5 \times DF; 0.18 \times TE \}
\]

Where

(A) \( TE \) = the FDIC-supervised institution’s trade exposure amount to the Q CCP, calculated according to § 324.35(c)(2);

(B) \( DF \) = the funded portion of the FDIC-supervised institution’s default fund contribution to the Q CCP.

(4) Total risk-weighted assets for default fund contributions. Total risk-weighted assets for default fund contributions is the sum of a clearing member FDIC-supervised institution’s risk-weighted assets for all of its default fund contributions to all CCPs of which the FDIC-supervised institution is a clearing member.

exposure fails to pay under the terms of the hedged exposure.

(c) Substitution approach—(1) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount \( P \) of the guarantee or credit derivative is greater than or equal to the exposure amount of the hedged exposure, an FDIC-supervised institution may recognize the guarantee or credit derivative in determining the risk-weighted asset amount for the hedged exposure by substituting the risk weight applicable to the guarantor or credit derivative protection provider under §324.32 for the risk weight assigned to the exposure.

(2) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount \( P \) of the guarantee or credit derivative is less than the exposure amount of the hedged exposure, the FDIC-supervised institution must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantor or credit derivative:

(i) The FDIC-supervised institution may calculate the risk-weighted asset amount for the protected exposure under §324.32, where the applicable risk weight is the risk weight applicable to the guarantor or credit derivative protection provider.

(ii) The FDIC-supervised institution must calculate the risk-weighted asset amount for the unprotected exposure under §324.32, where the applicable risk weight is that of the unprotected portion of the hedged exposure.

(iii) The treatment provided in this section is applicable when the credit risk of an exposure is covered on a partial pro rata basis and may be applicable when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraphs (d), (e), or (f) of this section.

(d) Maturity mismatch adjustment. (1) An FDIC-supervised institution that recognizes an eligible guarantee or eligible credit derivative in determining the risk-weighted asset amount for a hedged exposure must adjust the effective notional amount of the credit risk mitigant to reflect any maturity mismatch between the hedged exposure and the credit risk mitigant.

(2) A maturity mismatch occurs when the residual maturity of a credit risk mitigant is less than that of the hedged exposure(s).

(3) The residual maturity of a hedged exposure is the longest possible remaining time before the obligated party of the hedged exposure is scheduled to fulfill its obligation on the hedged exposure. If a credit risk mitigant has embedded options that may reduce its term, the FDIC-supervised institution (protection purchaser) must use the shortest possible residual maturity for the credit risk mitigant. If a call is at the discretion of the protection provider, the residual maturity of the credit risk mitigant is at the first call date. If the call is at the discretion of the FDIC-supervised institution (protection purchaser), but the terms of the arrangement at origination of the credit risk mitigant contain a positive incentive for the FDIC-supervised institution to call the transaction before contractual maturity, the remaining time to the first call date is the residual maturity of the credit risk mitigant.

(4) A credit risk mitigant with a maturity mismatch may be recognized only if its original maturity is greater than or equal to one year and its residual maturity is greater than three months.

(5) When a maturity mismatch exists, the FDIC-supervised institution must apply the following adjustment to reduce the effective notional amount of the credit risk mitigant: \( P_m = E \times \frac{(t-0.25)}{(T-0.25)} \), where:

(i) \( P_m \) equals effective notional amount of the credit risk mitigant, adjusted for maturity mismatch;

(ii) \( E \) equals effective notional amount of the credit risk mitigant;

(iii) \( t \) equals the lesser of \( T \) or the residual maturity of the credit risk mitigant, expressed in years; and

(iv) \( T \) equals the lesser of five or the residual maturity of the hedged exposure, expressed in years.

(e) Adjustment for credit derivatives without restructuring as a credit event. If
an FDIC-supervised institution recognizes an eligible credit derivative that does not include as a credit event a restructuring of the hedged exposure involving forgiveness or postponement of principal, interest, or fees that results in a credit loss event (that is, a charge-off, specific provision, or other similar debit to the profit and loss account), the FDIC-supervised institution must apply the following adjustment to reduce the effective notional amount of the credit derivative: \[ Pr = Pm \times 0.60, \]

where:

1. \( Pr \) equals effective notional amount of the credit risk mitigant, adjusted for lack of restructuring event (and maturity mismatch, if applicable);
2. \( Pm \) equals effective notional amount of the credit risk mitigant (adjusted for maturity mismatch, if applicable).

(f) Currency mismatch adjustment. (1) If an FDIC-supervised institution recognizes an eligible guarantee or eligible credit derivative that is denominated in a currency different from that in which the hedged exposure is denominated, the FDIC-supervised institution must apply the following formula to the effective notional amount of the guarantee or credit derivative: \[ Pc = Pr \times (1 - H_{FX}), \]

where:

1. \( Pc \) equals effective notional amount of the credit risk mitigant, adjusted for currency mismatch (and maturity mismatch and lack of restructuring event, if applicable);
2. \( Pr \) equals effective notional amount of the credit risk mitigant (adjusted for maturity mismatch and lack of restructuring event, if applicable); and
3. \( H_{FX} \) equals haircut appropriate for the currency mismatch between the credit risk mitigant and the hedged exposure.

(2) An FDIC-supervised institution must set \( H_{FX} \) equal to eight percent unless it qualifies for the use of and uses its own internal estimates of foreign exchange volatility based on a ten-business-day holding period. An FDIC-supervised institution qualifies for the use of its own internal estimates of foreign exchange volatility if it qualifies for the use of its own-estimates haircuts in §324.37(c)(4).

(3) An FDIC-supervised institution must adjust \( H_{FX} \) calculated in paragraph (f)(2) of this section upward if the FDIC-supervised institution revalues the guarantee or credit derivative less frequently than once every 10 business days using the following square root of time formula:

\[ H_{FX} = 8\% \sqrt{\frac{T_M}{10}}, \]

where \( T_M \) equals the greater of 10 or the number of days between revaluation.

§ 324.37 Collateralized transactions.

(a) General. (1) To recognize the risk-mitigating effects of financial collateral, an FDIC-supervised institution may use:

(i) The simple approach in paragraph (b) of this section for any exposure; or
(ii) The collateral haircut approach in paragraph (c) of this section for repo-style transactions, eligible margin loans, collateralized derivative contracts, and single-product netting sets of such transactions.

(2) An FDIC-supervised institution may use any approach described in this section that is valid for a particular type of exposure or transaction; however, it must use the same approach for similar exposures or transactions.

(b) The simple approach. (1) General requirements. (i) An FDIC-supervised institution may recognize the credit risk mitigation benefits of financial collateral that secures any exposure.

(ii) To qualify for the simple approach, the financial collateral must meet the following requirements:

(A) The collateral must be subject to a collateral agreement for at least the life of the exposure;
(B) The collateral must be revalued at least every six months; and

(C) The collateral (other than gold) and the exposure must be denominated in the same currency.

(2) Risk weight substitution. (i) An FDIC-supervised institution may apply a risk weight to the portion of an exposure that is secured by the fair value of financial collateral (that meets the requirements of paragraph (b)(1) of this section) based on the risk weight assigned to the collateral under §324.32. For repurchase agreements, reverse repurchase agreements, and securities lending and borrowing transactions, the collateral is the instruments, gold, and cash the FDIC-supervised institution has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the transaction. Except as provided in paragraph (b)(3) of this section, the risk weight assigned to the collateralized portion of the exposure may not be less than 20 percent.

(ii) An FDIC-supervised institution must apply a risk weight to the unsecured portion of the exposure based on the risk weight applicable to the exposure under this subpart.

(3) Exceptions to the 20 percent risk-weight floor and other requirements. Notwithstanding paragraph (b)(2)(i) of this section:

(i) An FDIC-supervised institution may assign a zero percent risk weight to an exposure to an OTC derivative contract that is marked-to-market on a daily basis and subject to a daily margin maintenance requirement, to the extent the contract is collateralized by cash on deposit.

(ii) An FDIC-supervised institution may assign a 10 percent risk weight to an exposure to an OTC derivative contract that is marked-to-market on a daily basis and subject to a daily margin maintenance requirement, to the extent that the contract is collateralized by exposure to a sovereign that qualifies for a zero percent risk weight under §324.32.

(iii) An FDIC-supervised institution may assign a zero percent risk weight to the collateralized portion of an exposure where:

(A) The financial collateral is cash on deposit; or

(B) The financial collateral is an exposure to a sovereign that qualifies for a zero percent risk weight under §324.32, and the FDIC-supervised institution has discounted the fair value of the collateral by 20 percent.

(c) Collateral haircut approach—(1) General. An FDIC-supervised institution may recognize the credit risk mitigation benefits of financial collateral that secures an eligible margin loan, repo-style transaction, collateralized derivative contract, or single-product netting set of such transactions, and of any collateral that secures a repo-style transaction that is included in the FDIC-supervised institution’s VaR-based measure under subpart F of this part by using the collateral haircut approach in this section. An FDIC-supervised institution may use the standard supervisory haircuts in paragraph (c)(3) of this section or, with prior written approval of the FDIC, its own estimates of haircuts according to paragraph (c)(4) of this section.

(2) Exposure amount equation. An FDIC-supervised institution must determine the exposure amount for an eligible margin loan, repo-style transaction, collateralized derivative contract, or a single-product netting set of such transactions by setting the exposure amount equal to max \(0, \frac{1}{\Sigma(\Sigma(ES \times HS) + \Sigma(EX \times HX))}\), where:

(i)(A) For eligible margin loans and repo-style transactions and netting sets thereof, \(\Sigma E\) equals the value of the exposure (the sum of the current fair values of all instruments, gold, and cash the FDIC-supervised institution has lent, sold subject to repurchase, or posted as collateral to the counterparty under the transaction (or netting set)); and

(B) For collateralized derivative contracts and netting sets thereof, \(\Sigma E\) equals the exposure amount of the OTC derivative contract (or netting set) calculated under §324.34 (a)(1) or (2).

(ii) \(\Sigma C\) equals the value of the collateral (the sum of the current fair values of all instruments, gold and cash the FDIC-supervised institution has borrowed, purchased subject to resale, or taken as collateral from the
counterparty under the transaction (or netting set): (iii) \( Es \) equals the absolute value of the net position in a given instrument or in gold (where the net position in the instrument or gold equals the sum of the current fair values of the instrument or gold the FDIC-supervised institution has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current fair values of that same instrument or gold the FDIC-supervised institution has borrowed, purchased subject to resale, or taken as collateral from the counterparty); (iv) \( Hs \) equals the market price volatility haircut appropriate to the instrument or gold referenced in \( Es \); (v) \( Efx \) equals the absolute value of the net position of instruments and cash in a currency that is different from the settlement currency (where the net position in a given currency equals the sum of the current fair values of any instruments or cash in the currency the FDIC-supervised institution has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current fair values of any instruments or cash in the currency the FDIC-supervised institution has borrowed, purchased subject to resale, or taken as collateral from the counterparty); and (vi) \( Hfx \) equals the haircut appropriate to the mismatch between the currency referenced in \( Efx \) and the settlement currency.

(3) Standard supervisory haircuts. (i) An FDIC-supervised institution must use the haircuts for market price volatility (\( Hs \)) provided in Table 1 to §324.37, as adjusted in certain circumstances in accordance with the requirements of paragraphs (c)(3)(iii) and (iv) of this section.

| TABLE 1 TO §324.37—STANDARD SUPERVISORY MARKET PRICE VOLATILITY HAIRCUTS¹ |
|---------------------------------|-----------------|------------------|-----------------|
| Residual maturity               | Haircut (in percent) assigned based on: |  |
|                                | Sovereign issuers risk weight under §324.32 (in percent)² | Non-sovereign issuers risk weight under §324.32 (in percent) | Investment grade securitization exposures (in percent) |
|                                | Zero | 20 or 50 | 100 | 20 | 20 | 20 | 20 | 20 |
| Less than or equal to 1 year    |      |          |      |    |    |    |    |    |
| Greater than 1 year and less than or equal to 5 years | 0.5 | 1.0 | 15.0 | 1.0 | 2.0 | 4.0 | 4.0 |
| Greater than 5 years           | 2.0 | 3.0 | 15.0 | 4.0 | 6.0 | 8.0 | 12.0 |
| Main index equities (including convertible bonds) and gold | 4.0 | 6.0 | 15.0 | 8.0 | 12.0 | 16.0 | 24.0 |
| Other publicly traded equities (including convertible bonds) |      |          |      |    |    |    |    |    |
| Mutual funds                   |      |          |      |    |    |    |    |    |
| Cash collateral held           |      |          |      |    |    |    |    |    |
| Other exposure types           |      |          |      |    |    |    |    |    |
|                                |      |          |      |    |    |    |    |    |
|                                |      |          |      |    |    |    |    |    |

¹The market price volatility haircuts in Table 1 to §324.37 are based on a 10 business-day holding period.
²Includes a foreign PSE that receives a zero percent risk weight.

(ii) For currency mismatches, an FDIC-supervised institution must use a haircut for foreign exchange rate volatility (\( Hfx \)) of 8.0 percent, as adjusted in certain circumstances under paragraphs (c)(3)(iii) and (iv) of this section.

(iii) For repo-style transactions, an FDIC-supervised institution may multiply the standard supervisory haircuts provided in paragraphs (c)(3)(i) and (ii) of this section by the square root of \( 1/2 \) (which equals 0.707107).

(iv) If the number of trades in a netting set exceeds 5,000 at any time during a quarter, an FDIC-supervised institution must adjust the supervisory haircuts provided in paragraphs (c)(3)(i) and (ii) of this section upward on the basis of a holding period of
twenty business days for the following quarter except in the calculation of the exposure amount for purposes of §324.35. If a netting set contains one or more trades involving illiquid collateral or an OTC derivative that cannot be easily replaced, an FDIC-supervised institution must adjust the supervisory haircuts upward on the basis of a holding period of twenty business days. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the FDIC-supervised institution must adjust the supervisory haircuts upward for that netting set on the basis of a holding period that is at least two times the minimum holding period for that netting set. An FDIC-supervised institution must adjust the standard supervisory haircuts upward using the following formula:

\[ H_A = H_S \sqrt{\frac{T_M}{T_S}} \]

(A) \( T_M \) equals a holding period of longer than 10 business days for eligible margin loans and derivative contracts or longer than 5 business days for repo-style transactions;
(B) \( H_S \) equals the standard supervisory haircut; and
(C) \( T_S \) equals 10 business days for eligible margin loans and derivative contracts or 5 business days for repo-style transactions.

(v) If the instrument an FDIC-supervised institution has lent, sold subject to repurchase, or posted as collateral does not meet the definition of financial collateral, the FDIC-supervised institution must use a 25.0 percent haircut for market price volatility (\( H_L \)).

(4) Own internal estimates for haircuts. With the prior written approval of the FDIC, an FDIC-supervised institution may calculate haircuts (\( H_S \) and \( H_{fx} \)) using its own internal estimates of the volatilities of market prices and foreign exchange rates:

(i) To receive FDIC approval to use its own internal estimates, an FDIC-supervised institution must satisfy the following minimum standards:
(A) An FDIC-supervised institution must use a 99th percentile one-tailed confidence interval.
(B) The minimum holding period for a repo-style transaction is five business days and for an eligible margin loan is ten business days except for transactions or netting sets for which paragraph (c)(4)(i)(C) of this section applies. When an FDIC-supervised institution calculates an own-estimates haircut on a \( T_N \)-day holding period, which is different from the minimum holding period for the transaction type, the applicable haircut (\( H_M \)) is calculated using the following square root of time formula:

\[ H_M = H_N \sqrt{\frac{T_M}{T_N}}, \]

(1) \( T_M \) equals 5 for repo-style transactions and 10 for eligible margin loans;
(2) \( T_N \) equals the holding period used by the FDIC-supervised institution to derive \( H_N \); and
(3) \( H_M \) equals the haircut based on the holding period \( T_M \).

(C) If the number of trades in a netting set exceeds 5,000 at any time during a quarter, an FDIC-supervised institution must calculate the haircut using a minimum holding period of twenty business days for the following quarter except in the calculation of the exposure amount for purposes of...
§ 324.35. If a netting set contains one or more trades involving illiquid collateral or an OTC derivative that cannot be easily replaced, an FDIC-supervised institution must calculate the haircut using a minimum holding period of twenty business days. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the FDIC-supervised institution must calculate the haircut for transactions in that netting set on the basis of a holding period that is at least two times the minimum holding period for that netting set.

(D) An FDIC-supervised institution is required to calculate its own internal estimates with inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the security or category of securities.

(E) An FDIC-supervised institution must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the FDIC-supervised institution’s own internal estimates for haircuts under this section and must be able to provide empirical support for the period used. The FDIC-supervised institution must obtain the prior approval of the FDIC for, and notify the FDIC if the FDIC-supervised institution makes any material changes to, these policies and procedures.

(F) Nothing in this section prevents the FDIC from requiring an FDIC-supervised institution to use a different period of significant financial stress in the calculation of own internal estimates for haircuts.

(G) An FDIC-supervised institution must update its data sets and calculate haircuts no less frequently than quarterly and must also reassess data sets and haircuts whenever market prices change materially.

(ii) With respect to debt securities that are investment grade, an FDIC-supervised institution may calculate haircuts for categories of securities. For a category of securities, the FDIC-supervised institution must calculate the haircut on the basis of internal volatility estimates for securities in that category that are representative of the securities in that category that the FDIC-supervised institution has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. In determining relevant categories, the FDIC-supervised institution must at a minimum take into account:

(A) The type of issuer of the security;

(B) The credit quality of the security;

(C) The maturity of the security; and

(D) The interest rate sensitivity of the security.

(iii) With respect to debt securities that are not investment grade and equity securities, an FDIC-supervised institution must calculate a separate haircut for each individual security.

(iv) Where an exposure or collateral (whether in the form of cash or securities) is denominated in a currency that differs from the settlement currency, the FDIC-supervised institution must calculate a separate currency mismatch haircut for its net position in each mismatched currency based on estimated volatilities of foreign exchange rates between the mismatched currency and the settlement currency.

(v) An FDIC-supervised institution’s own estimates of market price and foreign exchange rate volatilities may not take into account the correlations among securities and foreign exchange rates or the correlations among securities and foreign exchange rates between the exposure and collateral sides of the transaction (or netting set).

Risk-Weighted Assets for Unsettled Transactions

§ 324.38 Unsettled transactions.

(a) Definitions. For purposes of this section:

(1) Delivery-versus-payment (DvP) transaction means a securities or commodities transaction in which the buyer is obligated to make payment only if the seller has made delivery of the securities or commodities and the seller is obligated to deliver the securities or commodities only if the buyer has made payment.
(2) Payment-versus-payment (PvP) transaction means a foreign exchange transaction in which each counterparty is obligated to make a final transfer of one or more currencies only if the other counterparty has made a final transfer of one or more currencies.

(3) A transaction has a normal settlement period if the contractual settlement period for the transaction is equal to or less than the market standard for the instrument underlying the transaction and equal to or less than five business days.

(4) Positive current exposure of an FDIC-supervised institution for a transaction is the difference between the transaction value at the agreed settlement price and the current market price of the transaction, if the difference results in a credit exposure of the FDIC-supervised institution to the counterparty.

(b) Scope. This section applies to all transactions involving securities, foreign exchange instruments, and commodities that have a risk of delayed settlement or delivery. This section does not apply to:

(1) Cleared transactions that are marked-to-market daily and subject to daily receipt and payment of variation margin;

(2) Repo-style transactions, including unsettled repo-style transactions;

(3) One-way cash payments on OTC derivative contracts; or

(4) Transactions with a contractual settlement period that is longer than the normal settlement period (which are treated as OTC derivative contracts as provided in §324.34).

(c) System-wide failures. In the case of a system-wide failure of a settlement, clearing system or central counterparty, the FDIC may waive risk-based capital requirements for unsettled and failed transactions until the situation is rectified.

(d) Delivery-versus-payment (DvP) and payment-versus-payment (PvP) transactions. An FDIC-supervised institution must hold risk-based capital against any DvP or PvP transaction with a normal settlement period if the FDIC-supervised institution’s counterparty has not made delivery or payment within five business days after the settlement date. The FDIC-supervised institution must determine its risk-weighted asset amount for such a transaction by multiplying the positive current exposure of the transaction for the FDIC-supervised institution by the appropriate risk weight in Table 1 to §324.38.

Table 1 to §324.38—Risk Weights for Unsettled DvP and PvP Transactions

<table>
<thead>
<tr>
<th>Number of business days after contractual settlement date</th>
<th>Risk weight to be applied to positive current exposure (in percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>From 5 to 15</td>
<td>100.0</td>
</tr>
<tr>
<td>From 16 to 30</td>
<td>625.0</td>
</tr>
<tr>
<td>From 31 to 45</td>
<td>937.5</td>
</tr>
<tr>
<td>46 or more</td>
<td>1,250.0</td>
</tr>
</tbody>
</table>

(e) Non-DvP/non-PvP (non-delivery-versus-payment/non-payment-versus-payment) transactions. (1) An FDIC-supervised institution must hold risk-based capital against any non-DvP/non-PvP transaction with a normal settlement period if the FDIC-supervised institution has delivered cash, securities, commodities, or currencies to its counterparty but has not received its corresponding deliverables by the end of the same business day. The FDIC-supervised institution must continue to hold risk-based capital against the transaction until the FDIC-supervised institution has received its corresponding deliverables.

(2) From the business day after the FDIC-supervised institution has made its delivery until five business days after the counterparty delivery is due, the FDIC-supervised institution must continue to hold risk-based capital against the transaction until it has received its corresponding deliverables.

(3) If the FDIC-supervised institution has not received its deliverables by the fifth business day after counterparty delivery was due, the FDIC-supervised institution must assign a 1,250 percent risk weight to the current fair value of the deliverables owed to the FDIC-supervised institution.

(f) Total risk-weighted assets for unsettled transactions. Total risk-weighted
assets for unsettled transactions is the sum of the risk-weighted asset amounts of all DvP, PnP, and non-DvP/ non-PnP transactions.

§§ 324.39–324.40 [Reserved]

RISK-WEIGHTED ASSETS FOR SECURITIZATION EXPOSURES

§ 324.41 Operational requirements for securitization exposures.

(a) Operational criteria for traditional securitizations. An FDIC-supervised institution that transfers exposures it has originated or purchased to a securitization SPE or other third party in connection with a traditional securitization may exclude the exposures from the calculation of its risk-weighted assets only if each condition in this section is satisfied. An FDIC-supervised institution that meets these conditions must hold risk-based capital against any credit risk it retains in connection with the securitization. An FDIC-supervised institution that fails to meet these conditions or chooses not to recognize the credit risk mitigant for purposes of this section must instead hold risk-based capital against the underlying exposures as if they had not been synthetically securitized. The conditions are:

(1) The exposures are not reported on the FDIC-supervised institution’s consolidated balance sheet under GAAP;

(2) The FDIC-supervised institution has transferred to one or more third parties credit risk associated with the underlying exposures;

(3) Any clean-up calls relating to the securitization are eligible clean-up calls; and

(4) The securitization does not:
   (i) Include one or more underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit; and
   (ii) Contain an early amortization provision.

(b) Operational criteria for synthetic securitizations. For synthetic securitizations, an FDIC-supervised institution may recognize for risk-based capital purposes the use of a credit risk mitigant to hedge underlying exposures only if each condition in this paragraph (b) is satisfied. An FDIC-supervised institution that meets these conditions must hold risk-based capital against any credit risk of the exposures it retains in connection with the synthetic securitization. An FDIC-supervised institution that fails to meet these conditions or chooses not to recognize the credit risk mitigant for purposes of this section must instead hold risk-based capital against the underlying exposures as if they had not been synthetically securitized. The conditions are:

(1) The credit risk mitigant is:
   (i) Financial collateral;
   (ii) A guarantee that meets all criteria as set forth in the definition of “eligible guarantee” in §324.2, except for the criteria in paragraph (3) of that definition; or
   (iii) A credit derivative that meets all criteria as set forth in the definition of “eligible credit derivative” in §324.2, except for the criteria in paragraph (3) of the definition of “eligible guarantee” in §324.2.

(2) The FDIC-supervised institution transfers credit risk associated with the underlying exposures to one or more third parties, and the terms and conditions in the credit risk mitigants employed do not include provisions that:
   (i) Allow for the termination of the credit protection due to deterioration in the credit quality of the underlying exposures;
   (ii) Require the FDIC-supervised institution to alter or replace the underlying exposures to improve the credit quality of the underlying exposures;
   (iii) Increase the FDIC-supervised institution’s cost of credit protection in response to deterioration in the credit quality of the underlying exposures;
   (iv) Increase the yield payable to parties other than the FDIC-supervised institution in response to a deterioration in the credit quality of the underlying exposures; or
   (v) Provide for increases in a retained first loss position or credit enhancement provided by the FDIC-supervised institution after the inception of the securitization;

(3) The FDIC-supervised institution obtains a well-reasoned opinion from
(4) Any clean-up calls relating to the securitization are eligible clean-up calls.

(c) **Due diligence requirements for securitization exposures.** (1) Except for exposures that are deducted from common equity tier 1 capital and exposures subject to §324.42(h), if an FDIC-supervised institution is unable to demonstrate to the satisfaction of the FDIC a comprehensive understanding of the features of a securitization exposure that would materially affect the performance of the exposure, the FDIC-supervised institution must assign the securitization exposure a risk weight of 1,250 percent. The FDIC-supervised institution’s analysis must be commensurate with the complexity of the securitization exposure and the materiality of the exposure in relation to its capital.

(2) An FDIC-supervised institution must demonstrate its comprehensive understanding of a securitization exposure under paragraph (c)(1) of this section, for each securitization exposure by:

(i) Conducting an analysis of the risk characteristics of a securitization exposure prior to acquiring the exposure, and documenting such analysis within three business days after acquiring the exposure, considering:

(A) Structural features of the securitization that would materially impact the performance of the exposure, for example, the contractual cash flow waterfall, waterfall-related triggers, credit enhancements, fair value triggers, the performance of organizations that service the exposure, and deal-specific definitions of default;

(B) Relevant information regarding the performance of the underlying credit exposure(s), for example, the percentage of loans 30, 60, and 90 days past due; default rates; prepayment rates; loans in foreclosure; property types; occupancy; average credit score or other measures of creditworthiness; average LTV ratio; and industry and geographic diversification data on the underlying exposure(s);

(C) Relevant market data of the securitization, for example, bid-ask spread, most recent sales price and historic price volatility, trading volume, implied market rating, and size, depth and concentration level of the market for the securitization; and

(ii) On an on-going basis (no less frequently than quarterly), evaluating, reviewing, and updating as appropriate the analysis required under paragraph (c)(1) of this section for each securitization exposure.

§ 324.42 Risk-weighted assets for securitization exposures.

(a) **Securitization risk weight approaches.** Except as provided elsewhere in this section or in §324.41:

(1) An FDIC-supervised institution must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from a securitization and apply a 1,250 percent risk weight to the portion of a CEIO that does not constitute after-tax gain-on-sale.

(2) If a securitization exposure does not require deduction under paragraph (a)(1) of this section, an FDIC-supervised institution may assign a risk weight to the securitization exposure using the simplified supervisory formula approach (SSFA) in accordance with §§324.43(a) through 324.43(d) and subject to the limitation under paragraph (e) of this section. Alternatively, an FDIC-supervised institution that is not subject to subpart F of this part may assign a risk weight to the securitization exposure using the gross-up approach in accordance with §324.43(e), provided, however, that such FDIC-supervised institution must apply either the SSFA or the gross-up approach consistently across all of its securitization exposures, except as provided in paragraphs (a)(1), (a)(3), and (a)(4) of this section.

(3) If a securitization exposure does not require deduction under paragraph
(a)(1) of this section and the FDIC-supervised institution cannot, or chooses not to apply the SSFA or the gross-up approach to the exposure, the FDIC-supervised institution must assign a risk weight to the exposure as described in §324.44.

(4) If a securitization exposure is a derivative contract (other than protection provided by an FDIC-supervised institution in the form of a credit derivative) that has a first priority claim on the cash flows from the underlying exposures (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments), an FDIC-supervised institution may choose to set the risk-weighted asset amount of the exposure equal to the amount of the exposure as determined in paragraph (c) of this section.

(b) Total risk-weighted assets for securitization exposures. An FDIC-supervised institution’s total risk-weighted assets for securitization exposures equals the sum of the risk-weighted asset amount for securitization exposures that the FDIC-supervised institution risk weights under §§324.41(c), 324.42(a)(1), and 324.43, 324.44, or 324.45, and paragraphs (e) through (j) of this section, as applicable.

(c) Exposure amount of a securitization exposure—(1) On-balance sheet securitization exposures. The exposure amount of an on-balance sheet securitization exposure (excluding an available-for-sale or held-to-maturity security where the FDIC-supervised institution has made an AOCI opt-out election under §324.22(b)(2), a repo-style transaction, eligible margin loan, OTC derivative contract, or cleared transaction) is equal to the carrying value of the exposure.

(2) On-balance sheet securitization exposures held by an FDIC-supervised institution that has made an AOCI opt-out election. The exposure amount of an on-balance sheet securitization exposure (excluding an available-for-sale or held-to-maturity security held by an FDIC-supervised institution that has made an AOCI opt-out election under §324.22(b)(2) is the FDIC-supervised institution’s carrying value (including net accrued but unpaid interest and fees), less any net unrealized gains on the exposure and plus any net unrealized losses on the exposure.

(3) Off-balance sheet securitization exposures. (i) Except as provided in paragraph (j) of this section, the exposure amount of an off-balance sheet securitization exposure that is not a repo-style transaction, eligible margin loan, cleared transaction (other than a credit derivative), or an OTC derivative contract (other than a credit derivative) is the notional amount of the exposure. For an off-balance sheet securitization exposure to an ABCP program, such as an eligible ABCP liquidity facility, the notional amount may be reduced to the maximum potential amount that the FDIC-supervised institution could be required to fund given the ABCP program’s current underlying assets (calculated without regard to the current credit quality of those assets).

(ii) An FDIC-supervised institution must determine the exposure amount of an eligible ABCP liquidity facility for which the SSFA applies by multiplying the notional amount of the exposure by a CCF of 50 percent.

(iii) An FDIC-supervised institution must determine the exposure amount of an eligible ABCP liquidity facility for which the SSFA does not apply by multiplying the notional amount of the exposure by a CCF of 10 percent.

(4) Repo-style transactions, eligible margin loans, and derivative contracts. The exposure amount of a securitization exposure that is a repo-style transaction, eligible margin loan, or derivative contract (other than a credit derivative) is the exposure amount of the transaction as calculated under §324.34 or §324.37, as applicable.

(d) Overlapping exposures. If an FDIC-supervised institution has multiple securitization exposures that provide duplicative coverage to the underlying exposures of a securitization (such as when an FDIC-supervised institution provides a program-wide credit enhancement and multiple pool-specific liquidity facilities to an ABCP program), the FDIC-supervised institution is not required to hold duplicative risk-based capital against the overlapping position. Instead, the FDIC-supervised institution may apply to the overlapping position the applicable risk-based
capital treatment that results in the highest risk-based capital requirement.

(e) Implicit support. If an FDIC-supervised institution provides support to a securitization in excess of the FDIC-supervised institution’s contractual obligation to provide credit support to the securitization (implicit support):

(1) The FDIC-supervised institution must include in risk-weighted assets all of the underlying exposures associated with the securitization as if the exposures had not been securitized and must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the securitization; and

(2) The FDIC-supervised institution must disclose publicly:

(i) That it has provided implicit support to the securitization; and

(ii) The risk-based capital impact to the FDIC-supervised institution of providing such implicit support.

(f) Undrawn portion of a servicer cash advance facility. (1) Notwithstanding any other provision of this subpart, an FDIC-supervised institution that is a servicer under an eligible servicer cash advance facility is not required to hold risk-based capital against potential future cash advance payments that it may be required to provide under the contract governing the facility.

(2) For an FDIC-supervised institution that acts as a servicer, the exposure amount for a servicer cash advance facility that is not an eligible servicer cash advance facility is equal to the amount of all potential future cash advance payments that the FDIC-supervised institution may be contractually required to provide during the subsequent 12 month period under the contract governing the facility.

(g) Interest-only mortgage-backed securities. Regardless of any other provisions in this subpart, the risk weight for a non-credit-enhancing interest-only mortgage-backed security may not be less than 100 percent.

(h) Small-business loans and leases on personal property transferred with retained contractual exposure. (1) Regardless of any other provision of this subpart, an FDIC-supervised institution that has transferred small-business loans and leases on personal property (small-business obligations) with recourse must include in risk-weighted assets only its contractual exposure to the small-business obligations if all the following conditions are met:

(i) The transaction must be treated as a sale under GAAP.

(ii) The FDIC-supervised institution establishes and maintains, pursuant to GAAP, a non-capital reserve sufficient to meet the FDIC-supervised institution’s reasonably estimated liability under the contractual obligation.

(iii) The small-business obligations are to businesses that meet the criteria for a small-business concern established by the Small Business Administration under section 3(a) of the Small Business Act (15 U.S.C. 632 et seq.).

(iv) The FDIC-supervised institution is well capitalized, as defined in subpart H of this part. For purposes of determining whether an FDIC-supervised institution is well capitalized for purposes of this paragraph (h), the FDIC-supervised institution’s capital ratios must be calculated without regard to the capital treatment for transfers of small-business obligations under this paragraph (h).

(2) The total outstanding amount of contractual exposure retained by an FDIC-supervised institution on transfers of small-business obligations receiving the capital treatment specified in paragraph (h)(1) of this section cannot exceed 15 percent of the FDIC-supervised institution’s total capital.

(3) If an FDIC-supervised institution ceases to be well capitalized under subpart H of this part or exceeds the 15 percent capital limitation provided in paragraph (h)(2) of this section, the capital treatment under paragraph (h)(1) of this section will continue to apply to any transfers of small-business obligations with retained contractual exposure that occurred during the time that the FDIC-supervised institution was well capitalized and did not exceed the capital limit.

(4) The risk-based capital ratios of the FDIC-supervised institution must be calculated without regard to the capital treatment for transfers of small-business obligations specified in paragraph (h)(1) of this section for purposes of:

(i) Determining whether an FDIC-supervised institution is adequately capitalized, undercapitalized, significantly
undercapitalized, or critically undercapitalized under subpart H of this part; and
(ii) Reclassifying a well-capitalized FDIC-supervised institution to adequately capitalized and requiring an adequately capitalized FDIC-supervised institution to comply with certain mandatory or discretionary supervisory actions as if the FDIC-supervised institution were in the next lower prompt-corrective-action category.

(i) Nth-to-default credit derivatives—(1) Protection provider. An FDIC-supervised institution may assign a risk weight using the SSFA in §324.43 to an nth-to-default credit derivative in accordance with this paragraph (i). An FDIC-supervised institution must determine its exposure in the nth-to-default credit derivative as the largest notional amount of all the underlying exposures.

(2) For purposes of determining the risk weight for an nth-to-default credit derivative using the SSFA, the FDIC-supervised institution must calculate the attachment point and detachment point of its exposure as follows:

(i) The attachment point (parameter A) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the FDIC-supervised institution’s exposure to the total notional amount of all underlying exposures. The ratio is expressed as a decimal value between zero and one. In the case of a first-to-default credit derivative, there are no underlying exposures that are subordinated to the FDIC-supervised institution’s exposure. In the case of a second-or-subsequent-to-default credit derivative, the largest (n-1) notional amounts of the underlying exposure(s) are subordinated to the FDIC-supervised institution’s exposure.

(ii) The detachment point (parameter D) equals the sum of parameter A plus the ratio of the notional amount of the FDIC-supervised institution’s exposure to the total notional amount of all underlying exposures. The ratio is expressed as a decimal value between zero and one.

(3) An FDIC-supervised institution that does not use the SSFA to determine a risk weight for its nth-to-default credit derivative must assign a risk weight of 1,250 percent to the exposure.

(4) Protection purchaser—(1) First-to-default credit derivatives. An FDIC-supervised institution that obtains credit protection on a group of underlying exposures through a first-to-default credit derivative that meets the rules of recognition of §324.36(b) must determine its risk-based capital requirement for the underlying exposures as if the FDIC-supervised institution synthetically securitized the underlying exposure with the smallest risk-weighted asset amount and had obtained no credit risk mitigant on the other underlying exposures. An FDIC-supervised institution must calculate a risk-based capital requirement for counterparty credit risk according to §324.34 for a first-to-default credit derivative that does not meet the rules of recognition of §324.36(b).

(ii) Second-or-subsequent-to-default credit derivatives. (A) An FDIC-supervised institution that obtains credit protection on a group of underlying exposures through a nth-to-default credit derivative that meets the rules of recognition of §324.36(b) (other than a first-to-default credit derivative) may recognize the credit risk mitigation benefits of the derivative only if:

(1) The FDIC-supervised institution also has obtained credit protection on the same underlying exposures in the form of first-through-(n-1)-to-default credit derivatives; or

(2) If n-1 of the underlying exposures have already defaulted.

(B) If an FDIC-supervised institution satisfies the requirements of paragraph (i)(4)(ii)(A) of this section, the FDIC-supervised institution must determine its risk-based capital requirement for the underlying exposures as if the FDIC-supervised institution had only synthetically securitized the underlying exposure with the nth smallest risk-weighted asset amount and had obtained no credit risk mitigant on the other underlying exposures.

(C) An FDIC-supervised institution must calculate a risk-based capital requirement for counterparty credit risk according to §324.34 for a nth-to-default credit derivative that does not meet the rules of recognition of §324.36(b).
(j) Guarantees and credit derivatives other than nth-to-default credit derivatives—(1) Protection provider. For a guarantee or credit derivative (other than an nth-to-default credit derivative) provided by an FDIC-supervised institution that covers the full amount or a pro rata share of a securitization exposure’s principal and interest, the FDIC-supervised institution must risk weight the guarantee or credit derivative as if it holds the portion of the reference exposure covered by the guarantee or credit derivative.

(2) Protection purchaser. (i) An FDIC-supervised institution that purchases a guarantee or OTC credit derivative (other than an nth-to-default credit derivative) that is recognized under §324.45 as a credit risk mitigant (including via collateral recognized under §324.37) is not required to compute a separate counterparty credit risk capital requirement under §324.31, in accordance with §324.34(c).

(ii) If an FDIC-supervised institution cannot, or chooses not to, recognize a purchased credit derivative as a credit risk mitigant under §324.45, the FDIC-supervised institution must determine the exposure amount of the credit derivative under §324.34.

(A) If the FDIC-supervised institution purchases credit protection from a counterparty that is not a securitization SPE, the FDIC-supervised institution must determine the risk weight for the exposure according to general risk weights under §324.32.

(B) If the FDIC-supervised institution purchases the credit protection from a counterparty that is a securitization SPE, the FDIC-supervised institution must determine the risk weight for the exposure according to section §324.42, including §324.42(a)(4) for a credit derivative that has a first priority claim on the cash flows from the underlying exposures of the securitization SPE (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments).

(A) Federally-guaranteed student loans, in accordance with the terms of those guarantee programs; or
(B) Consumer loans, including non-federally-guaranteed student loans, provided that such payments are deferred pursuant to provisions included in the contract at the time funds are disbursed that provide for period(s) of deferral that are not initiated based on changes in the creditworthiness of the borrower; or
(vi) Is in default.

(3) Parameter A is the attachment point for the exposure, which represents the threshold at which credit losses will first be allocated to the exposure. Except as provided in §324.42(i) for nth-to-default credit derivatives, parameter A equals the ratio of the current dollar amount of underlying exposures that are subordinated to the exposure of the FDIC-supervised institution to the current dollar amount of underlying exposures. Any reserve account funded by the accumulated cash flows from the underlying exposures that is subordinated to the FDIC-supervised institution’s securitization exposure may be included in the calculation of parameter A to the extent that cash is present in the account. Parameter A is expressed as a decimal value between zero and one.

(4) Parameter D is the detachment point for the exposure, which represents the threshold at which credit losses allocated to the exposure would result in a total loss of principal. Except as provided in §324.42(i) for nth-to-default credit derivatives, parameter D equals parameter A plus the ratio of the current dollar amount of the securitization exposures that are pari passu with the exposure (that is, have equal seniority with respect to credit risk) to the current dollar amount of the underlying exposures. Parameter D is expressed as a decimal value between zero and one.

(5) A supervisory calibration parameter, p, is equal to 0.5 for securitization exposures that are not resecuritization exposures and equal to 1.5 for resecuritization exposures.

(c) Mechanics of the SSFA. K_A and W are used to calculate K_A^+, the augmented value of K_A, which reflects the observed credit quality of the underlying exposures. K_A is defined in paragraph (d) of this section. The values of parameters A and D, relative to K_A determine the risk weight assigned to a securitization exposure as described in paragraph (d) of this section. The risk weight assigned to a securitization exposure, or portion of a securitization exposure, as appropriate, is the larger of the risk weight determined in accordance with this paragraph (c) or paragraph (d) of this section and a risk weight of 20 percent.

(1) When the detachment point, parameter D, for a securitization exposure is less than or equal to K_A, the exposure must be assigned a risk weight of 1,250 percent.

(2) When the attachment point, parameter A, for a securitization exposure is greater than or equal to K_A, the FDIC-supervised institution must calculate the risk weight in accordance with paragraph (d) of this section.

(3) When A is less than K_A and D is greater than K_A, the risk weight is a weighted-average of 1,250 percent and 1,250 percent times K_SSFA calculated in accordance with paragraph (d) of this section. For the purpose of this weighted-average calculation:
§ 324.43  12 CFR Ch. III (1–1–17 Edition)

(i) The weight assigned to 1,250 percent equals \( \frac{A}{D - A} \).

(ii) The weight assigned to 1,250 percent times \( \frac{D - K_A}{D - A} \).

(iii) The risk weight will be set equal to:

\[
RW = \left[ \left( \frac{K_A - A}{D - A} \right) \cdot 1.250 \text{ percent} \right] + \left[ \left( \frac{D - K_A}{D - A} \right) \cdot 1.250 \text{ percent} \cdot K_{SSFA} \right]
\]

(d) SSFA equation. (1) The FDIC-supervised institution must define the following parameters:

\[
K_A = (1 - W) \cdot K_c + (0.5 \cdot W)
\]

\[
a = -\frac{1}{p \cdot K_A}
\]

\[
u = D - K_A
\]

\[
l = \max(A - K_A, 0)
\]

\[
e = 2.71828\ , \text{ the base of the natural logarithms.}
\]

(2) Then the FDIC-supervised institution must calculate \( K_{SSFA} \) according to the following equation:

\[
K_{SSFA} = \frac{e^{a-u} - e^{a-l}}{a(l-u)}
\]

(3) The risk weight for the exposure (expressed as a percent) is equal to

\[
K_{SSFA} \times 1.250\ .
\]

(e) Gross-up approach—(1) Applicability. An FDIC-supervised institution that is not subject to subpart F of this part may apply the gross-up approach set forth in this section instead of the SSFA to determine the risk weight of its securitization exposures, provided that it applies the gross-up approach to all of its securitization exposures, except as otherwise provided for certain securitization exposures in §§ 324.44 and 324.45.

(2) To use the gross-up approach, an FDIC-supervised institution must calculate the following four inputs:

(i) Pro rata share, which is the par value of the FDIC-supervised institution’s securitization exposure as a percent of the par value of the tranche in which the securitization exposure resides;
(ii) Enhanced amount, which is the par value of tranches that are more senior to the tranche in which the FDIC-supervised institution’s securitization resides;

(iii) Exposure amount of the FDIC-supervised institution’s securitization exposure calculated under §324.42(c); and

(iv) Risk weight, which is the weighted-average risk weight of underlying exposures of the securitization as calculated under this subpart.

(3) Credit equivalent amount. The credit equivalent amount of a securitization exposure under this section equals the sum of:

(i) The exposure amount of the FDIC-supervised institution’s securitization exposure; and

(ii) The pro rata share multiplied by the enhanced amount, each calculated in accordance with paragraph (e)(2) of this section.

(4) Risk-weighted assets. To calculate risk-weighted assets for a securitization exposure under the gross-up approach, an FDIC-supervised institution must apply the risk weight required under paragraph (e)(2) of this section to the credit equivalent amount calculated in paragraph (e)(3) of this section.

(f) Limitations. Notwithstanding any other provision of this section, an FDIC-supervised institution must assign a risk weight of not less than 20 percent to a securitization exposure.

§324.45 Recognition of credit risk mitigants for securitization exposures.

(a) General Requirement. An originating FDIC-supervised institution that has obtained a credit risk mitigant to hedge its exposure to a synthetic or traditional securitization that satisfies the operational criteria provided in §324.41 may recognize the credit risk mitigant under §§324.36 or 324.37, but only as provided in this section.

(b) Mismatches. An FDIC-supervised institution that has obtained a credit risk mitigant to hedge a securitization exposure may recognize the credit risk mitigant under §§324.36 or 324.37, but only as provided in this section.

§324.44 Securitization exposures to which the SSFA and gross-up approach do not apply.

(a) General Requirement. An FDIC-supervised institution must assign a 1,250 percent risk weight to all securitization exposures to which the FDIC-supervised institution does not apply the SSFA or the gross-up approach under §324.43, except as set forth in this section.

(b) Eligible ABCP liquidity facilities. An FDIC-supervised institution may determine the risk-weighted asset amount of an eligible ABCP liquidity facility by multiplying the exposure amount by the highest risk weight applicable to any of the individual underlying exposures covered by the facility.

(c) A securitization exposure in a second loss position or better to an ABCP program—(1) Risk weighting. An FDIC-supervised institution may determine the risk-weighted asset amount of a securitization exposure that is in a second loss position or better to an ABCP program that meets the requirements of paragraph (c)(2) of this section by multiplying the exposure amount by the higher of the following risk weights:

(i) 100 percent; and

(ii) The highest risk weight applicable to any of the individual underlying exposures of the ABCP program.

(2) Requirements. (i) The exposure is not an eligible ABCP liquidity facility;

(ii) The exposure must be economically in a second loss position or better, and the first loss position must provide significant credit protection to the second loss position;

(iii) The exposure qualifies as investment grade; and

(iv) The FDIC-supervised institution holding the exposure must not retain or provide protection to the first loss position.
§§ 324.46–324.50

Securitization, when an eligible guarantor or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the FDIC-supervised institution must use the longest residual maturity of any of the hedged exposures as the residual maturity of all hedged exposures.

§§ 324.46–324.50 [Reserved]

Risk-Weighted Assets for Equity Exposures

§ 324.51 Introduction and exposure measurement.

(a) General. (1) To calculate its risk-weighted asset amounts for equity exposures that are not equity exposures to an investment fund, an FDIC-supervised institution must use the Simple Risk-Weight Approach (SRWA) provided in § 324.52. An FDIC-supervised institution must use the look-through approaches provided in § 324.53 to calculate its risk-weighted asset amounts for equity exposures to investment funds.

(2) An FDIC-supervised institution must treat an investment in a separate account (as defined in § 324.2) as if it were an equity exposure to an investment fund as provided in § 324.53.

(3) Stable value protection. (i) Stable value protection means a contract where the provider of the contract is obligated to pay:

(A) The policy owner of a separate account an amount equal to the shortfall between the fair value and cost basis of the separate account when the policy owner of the separate account surrenders the policy; or

(B) The beneficiary of the contract an amount equal to the shortfall between the fair value and book value of a specified portfolio of assets.

(ii) An FDIC-supervised institution that purchases stable value protection on its investment in a separate account must treat the portion of the carrying value of its investment in the separate account attributable to the stable value protection as an exposure to the provider of the protection and the remaining portion of the carrying value of its separate account as an equity exposure to an investment fund.

(iii) An FDIC-supervised institution that provides stable value protection must treat the exposure as an equity derivative with an adjusted carrying value determined as the sum of paragraphs (b)(1) and (3) of this section.

(b) Adjusted carrying value. For purposes of §§ 324.51 through 324.53, the adjusted carrying value of an equity exposure is:

(1) For the on-balance sheet component of an equity exposure (other than an equity exposure that is classified as available-for-sale where the FDIC-supervised institution has made an AOCI opt-out election under § 324.22(b)(2)), the FDIC-supervised institution’s carrying value of the exposure:

(2) For the on-balance sheet component of an equity exposure that is classified as available-for-sale where the FDIC-supervised institution has made an AOCI opt-out election under § 324.22(b)(2), the FDIC-supervised institution’s carrying value of the exposure less any net unrealized gains on the exposure that are reflected in such carrying value but excluded from the FDIC-supervised institution’s regulatory capital components;

(3) For the off-balance sheet component of an equity exposure that is not an equity commitment, the effective notional principal amount of the exposure, the size of which is equivalent to a hypothetical on-balance sheet position in the underlying equity instrument that would evidence the same change in fair value (measured in dollars) given a small change in the price of the underlying equity instrument, minus the adjusted carrying value of the on-balance sheet component of the exposure as calculated in paragraph (b)(1) of this section; and

(4) For a commitment to acquire an equity exposure (an equity commitment), the effective notional principal amount of the exposure is multiplied by the following conversion factors (CFs):

(i) Conditional equity commitments with an original maturity of one year or less receive a CF of 20 percent.

(ii) Conditional equity commitments with an original maturity of over one year receive a CF of 50 percent.

(iii) Unconditional equity commitments receive a CF of 100 percent.

§ 324.52 Simple risk-weight approach (SRWA).

(a) General. Under the SRWA, an FDIC-supervised institution’s total risk-weighted assets for equity exposures equals the sum of the risk-weighted asset amounts for each of the FDIC-supervised institution’s individual equity exposures (other than equity exposures to an investment fund) as determined under this section and the risk-weighted asset amounts for each of the FDIC-supervised institution’s individual equity exposures to an investment fund as determined under §324.53.

(b) SRWA computation for individual equity exposures. An FDIC-supervised institution must determine the risk-weighted asset amount for an individual equity exposure (other than an equity exposure to an investment fund) by multiplying the adjusted carrying value of the equity exposure or the effective portion and ineffective portion of a hedge pair (as defined in paragraph (c) of this section) by the lowest applicable risk weight in this paragraph (b).

(1) Zero percent risk weight equity exposures. An equity exposure to a sovereign, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, an MDB, and any other entity whose credit exposures receive a zero percent risk weight under §324.32 may be assigned a zero percent risk weight.

(2) 20 percent risk weight equity exposures. An equity exposure to a PSE, Federal Home Loan Bank or the Federal Agricultural Mortgage Corporation (Farmer Mac) must be assigned a 20 percent risk weight.

(3) 100 percent risk weight equity exposures. The equity exposures set forth in this paragraph (b)(3) must be assigned a 100 percent risk weight.

(i) Community development equity exposures. An equity exposure that qualifies as a community development investment under section 24 (Eleventh) of the National Bank Act, excluding equity exposures to an unconsolidated small business investment company and equity exposures held through a consolidated small business investment company described in section 302 of the Small Business Investment Act.

(ii) Effective portion of hedge pairs. The effective portion of a hedge pair.

(iii) Non-significant equity exposures. Equity exposures, excluding significant investments in the capital of an unconsolidated financial institution in the form of common stock and exposures to an investment firm that would meet the definition of a traditional securitization were it not for the application of paragraph (8) of that definition in §324.2 and has greater than immaterial leverage, to the extent that the aggregate adjusted carrying value of the exposures does not exceed 10 percent of the FDIC-supervised institution’s total capital.

(A) To compute the aggregate adjusted carrying value of an FDIC-supervised institution’s equity exposures for purposes of this section, the FDIC-supervised institution may exclude equity exposures described in paragraphs (b)(1), (b)(2), (b)(3)(i), and (b)(3)(ii) of this section, the equity exposure in a hedge pair with the smaller adjusted carrying value, and a proportion of each equity exposure to an investment fund equal to the proportion of the assets of the investment fund that are not equity exposures or that meet the criterion of paragraph (b)(3)(i) of this section. If an FDIC-supervised institution does not know the actual holdings of the investment fund, the FDIC-supervised institution may calculate the proportion of the assets of the fund that are not equity exposures based on the terms of the prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. If the sum of the investment limits for all exposure classes within the fund exceeds 100 percent, the FDIC-supervised institution must assume for purposes of this section that the investment fund invests to the maximum extent possible in equity exposures.

(B) When determining which of an FDIC-supervised institution’s equity exposures qualify for a 100 percent risk weight under this paragraph (b), an FDIC-supervised institution first must include equity exposures to unconsolidated small business investment companies or held through consolidated small business investment companies described in section 302 of the Small
§ 324.52  

Business Investment Act, then must include publicly traded equity exposures (including those held indirectly through investment funds), and then must include non-publicly traded equity exposures (including those held indirectly through investment funds).

(4) 250 percent risk weight equity exposures. Significant investments in the capital of unconsolidated financial institutions in the form of common stock that are not deducted from capital pursuant to § 324.22(d) are assigned a 250 percent risk weight.

(5) 300 percent risk weight equity exposures. A publicly traded equity exposure (other than an equity exposure described in paragraph (b)(7) of this section and including the ineffective portion of a hedge pair) must be assigned a 300 percent risk weight.

(6) 400 percent risk weight equity exposures. An equity exposure (other than an equity exposure described in paragraph (b)(7) of this section) that is not publicly traded must be assigned a 400 percent risk weight.

(7) 600 percent risk weight equity exposures. An equity exposure to an investment firm must be assigned a 600 percent risk weight, provided that the investment firm:

(i) Would meet the definition of a traditional securitization were it not for the application of paragraph (8) of that definition; and

(ii) Has greater than immaterial leverage.

(c) Hedge transactions—(1) Hedge pair. A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(2) Effective hedge. Two equity exposures form an effective hedge if the exposures either have the same remaining maturity or each has a remaining maturity of at least three months; the hedge relationship is formally documented in a prospective manner (that is, before the FDIC-supervised institution acquires at least one of the equity exposures); the documentation specifies the measure of effectiveness (E) the FDIC-supervised institution will use for the hedge relationship throughout the life of the transaction; and the hedge relationship has an E greater than or equal to 0.8. An FDIC-supervised institution must measure E at least quarterly and must use one of three alternative measures of E as set forth in this paragraph (c).

(i) Under the dollar-offset method of measuring effectiveness, the FDIC-supervised institution must determine the ratio of value change (RVC). The RVC is the ratio of the cumulative sum of the changes in value of one equity exposure to the cumulative sum of the changes in the value of the other equity exposure. If RVC is positive, the hedge is not effective and E equals 0. If RVC is negative and greater than or equal to −1 (that is, between zero and −1), then E equals the absolute value of RVC. If RVC is negative and less than −1, then E equals 2 plus RVC.

(ii) Under the variability-reduction method of measuring effectiveness:
Under the regression method of measuring effectiveness, \( E \) equals the coefficient of determination of a regression in which the change in value of one exposure in a hedge pair is the dependent variable and the change in value of the other exposure in a hedge pair is the independent variable. However, if the estimated regression coefficient is positive, then \( E \) equals zero.

The effective portion of a hedge pair is \( E \) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair. The ineffective portion of a hedge pair is \( (1-E) \) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

The risk-weighted asset amount of an equity exposure to an investment fund that meets the requirements for a community development equity exposure under §324.52(b)(3)(i) is its adjusted carrying value.

If an equity exposure to an investment fund is part of a hedge pair and the FDIC-supervised institution does not use the full look-through approach, the FDIC-supervised institution must use the ineffective portion of the hedge pair as determined under §324.52(c) as the adjusted carrying value for the equity exposure to the investment fund. The risk-weighted asset amount of the effective portion of the hedge pair is equal to its adjusted carrying value.

An FDIC-supervised institution that is able to calculate a risk-weighted asset amount for its proportional ownership share of each exposure held by the investment fund (as calculated under this subpart as if the proportional ownership share of the adjusted carrying value of each exposure were held directly by the FDIC-supervised institution) may set the risk-weighted asset amount of the FDIC-supervised institution’s exposure to the fund equal to the product of:

1. The aggregate risk-weighted asset amounts of the exposures held by the fund as if they were held directly by the FDIC-supervised institution; and
2. The FDIC-supervised institution’s proportional ownership share of the fund.

\[
E = 1 - \frac{\sum_{t=1}^{T} \left( X_t - X_{t-1} \right)^2}{\sum_{t=1}^{T} \left( A_t - A_{t-1} \right)^2}, \text{ where}
\]

(A) \( X_t = A_t - B_t \);

(B) \( A_t = \) the value at time \( t \) of one exposure in a hedge pair; and

(C) \( B_t = \) the value at time \( t \) of the other exposure in a hedge pair.
(c) Simple modified look-through approach. Under the simple modified look-through approach, the risk-weighted asset amount for an FDIC-supervised institution’s equity exposure to an investment fund equals the adjusted carrying value of the equity exposure multiplied by the highest risk weight that applies to any exposure the fund is permitted to hold under the prospectus, partnership agreement, or similar agreement that defines the fund’s permissible investments (excluding derivative contracts that are used for hedging rather than speculative purposes and that do not constitute a material portion of the fund’s exposures).

(d) Alternative modified look-through approach. Under the alternative modified look-through approach, an FDIC-supervised institution may assign the adjusted carrying value of an equity exposure to an investment fund on a pro rata basis to different risk weight categories under this subpart based on the investment limits in the fund’s prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. The risk-weighted asset amount for the FDIC-supervised institution’s equity exposure to the investment fund equals the sum of each portion of the adjusted carrying value assigned to an exposure type multiplied by the applicable risk weight under this subpart. If the sum of the investment limits for all exposure types within the fund exceeds 100 percent, the FDIC-supervised institution must assume that the fund invests to the maximum extent permitted under its investment limits in the exposure type with the highest applicable risk weight under this subpart and continues to make investments in order of the exposure type with the next highest applicable risk weight under this subpart until the maximum total investment level is reached. If more than one exposure type applies to an exposure, the FDIC-supervised institution must use the highest applicable risk weight. An FDIC-supervised institution may exclude derivative contracts held by the fund that are used for hedging rather than for speculative purposes and do not constitute a material portion of the fund’s exposures.
disclosed as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter (for example, a general summary of the FDIC-supervised institution’s risk management objectives and policies, reporting system, and definitions) may be disclosed annually after the end of the fourth calendar quarter, provided that any significant changes are disclosed in the interim. The FDIC-supervised institution’s management may provide all of the disclosures required by §§ 324.61 through 324.63 in one place on the FDIC-supervised institution’s public Web site or may provide the disclosures in more than one public financial report or other regulatory reports, provided that the FDIC-supervised institution publicly provides a summary table specifically indicating the location(s) of all such disclosures.

(b) An FDIC-supervised institution described in § 324.61 must have a formal disclosure policy approved by the board of directors that addresses its approach for determining the disclosures it makes. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this subpart, and must ensure that appropriate review of the disclosures takes place. One or more senior officers of the FDIC-supervised institution must attest that the disclosures meet the requirements of this subpart.

(c) If an FDIC-supervised institution described in §324.61 concludes that specific commercial or financial information that it would otherwise be required to disclose under this section would be exempt from disclosure by the FDIC under the Freedom of Information Act (5 U.S.C. 552), then the FDIC-supervised institution is not required to disclose that specific information pursuant to this section, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

§ 324.63 Disclosures by FDIC-supervised institutions described in §324.61.

(a) Except as provided in §324.62, an FDIC-supervised institution described in §324.61 must make the disclosures described in Tables 1 through 10 of this section. The FDIC-supervised institution must make these disclosures publicly available for each of the last three years (that is, twelve quarters) or such shorter period beginning on January 1, 2015.

(b) An FDIC-supervised institution must publicly disclose each quarter the following:

(1) Common equity tier 1 capital, additional tier 1 capital, tier 2 capital, tier 1 and total capital ratios, including the regulatory capital elements and all the regulatory adjustments and deductions needed to calculate the numerator of such ratios;

(2) Total risk-weighted assets, including the different regulatory adjustments and deductions needed to calculate total risk-weighted assets;

(3) Regulatory capital ratios during any transition periods, including a description of all the regulatory capital elements and all regulatory adjustments and deductions needed to calculate the numerator and denominator of each capital ratio during any transition period; and

(4) A reconciliation of regulatory capital elements as they relate to its balance sheet in any audited consolidated financial statements.

</tr>
</tbody>
</table>

(c) General qualitative disclosure requirement. For each separate risk area described in Tables 5 through 10, the FDIC-supervised institution must describe its risk management objectives and policies, including: strategies and processes; the structure and organization of the relevant risk management function; the scope and nature of risk reporting and/or measurement systems; policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/mitigants.
### TABLE 5 TO § 324.63—CREDIT RISK: GENERAL DISCLOSURES

| Qualitative Disclosures | (a) | The general qualitative disclosure requirement with respect to credit risk (excluding counterparty credit risk disclosed in accordance with Table 6 to §324.63), including the:
| | | (1) Policy for determining past due or delinquency status;
| | | (2) Policy for placing loans on nonaccrual;
| | | (3) Policy for returning loans to accrual status;
| | | (4) Definition of and policy for identifying impaired loans (for financial accounting purposes);
| | | (5) Description of the methodology that the FDIC-supervised institution uses to estimate its allowance for loan and lease losses, including statistical methods used where applicable;
| | | (6) Policy for charging-off uncollectible amounts; and
| | | (7) Discussion of the FDIC-supervised institution’s credit risk management policy.
| Quantitative Disclosures | (b) | Total credit risk exposures and average credit risk exposures, after accounting offsets in accordance with GAAP, without taking into account the effects of credit risk mitigation techniques (for example, collateral and netting not permitted under GAAP), over the period categorized by major types of credit exposure. For example, FDIC-supervised institutions could use categories similar to that used for financial statement purposes. Such categories might include, for instance:
| | | (1) Loans, off-balance sheet commitments, and other non-derivative off-balance sheet exposures;
| | | (2) Debt securities; and
| | | (3) OTC derivatives.
| | (c) | Geographic distribution of exposures, categorized in significant areas by major types of credit exposure.
| | (d) | Industry or counterparty type distribution of exposures, categorized by major types of credit exposure.
| | (e) | By major industry or counterparty type:
| | | (1) Amount of impaired loans for which there was a related allowance under GAAP;
| | | (2) Amount of impaired loans for which there was no related allowance under GAAP;
| | | (3) Amount of loans past due 90 days and on nonaccrual;
| | | (4) Amount of loans past due 90 days and still accruing;
| | | (5) The balance in the allowance for loan and lease losses at the end of each period, disaggregated on the basis of the FDIC-supervised institution’s impairment method. To disaggregate the information required on the basis of impairment methodology, an entity shall separately disclose the amounts based on the requirements in GAAP; and
| | | (6) Charge-offs during the period.
| | (f) | Amount of impaired loans and, if available, the amount of past due loans categorized by significant geographic areas including, if practical, the amounts of allowances related to each geographical area, further categorized as required by GAAP.
| | (g) | Reconciliation of changes in ALLL.
| | (h) | Remaining contractual maturity delineation (for example, one year or less) of the whole portfolio, categorized by credit exposure.

---

1 Table 5 to §324.63 does not cover equity exposures, which should be reported in Table 9 to §324.63.

2 See, for example, ASC Topic 815–10 and 210, as they may be amended from time to time.

3 Geographical areas may consist of individual countries, groups of countries, or regions within countries. An FDIC-supervised institution might choose to define the geographical areas based on the way the FDIC-supervised institution’s portfolio is geographically managed. The criteria used to allocate the loans to geographical areas must be specified.

4 An FDIC-supervised institution is encouraged also to provide an analysis of the aging of past-due loans.

5 The portion of the general allowance that is not allocated to a geographical area should be disclosed separately.
The reconciliation should include the following: a description of the allowance; the opening balance of the allowance; charge-offs taken against the allowance during the period; amounts provided (or reversed) for estimated probable loan losses during the period; any other adjustments (for example, exchange rate differences, business combinations, acquisitions and disposals of subsidiaries), including transfers between allowances; and the closing balance of the allowance. Charge-offs and recoveries that have been recorded directly to the income statement should be disclosed separately.

### Table 6 to §324.63—General Disclosure for Counterparty Credit Risk-Related Exposures

| Qualitative Disclosures | (a) | The general qualitative disclosure requirement with respect to OTC derivatives, eligible margin loans, and repo-style transactions, including a discussion of:
| | | (1) The methodology used to assign credit limits for counterparty credit exposures;
| | | (2) Policies for securing collateral, valuing and managing collateral, and establishing credit reserves;
| | | (3) The primary types of collateral taken; and
| | | (4) The impact of the amount of collateral the FDIC-supervised institution would have to provide given a deterioration in the FDIC-supervised institution’s own creditworthiness.
| Quantitative Disclosures | (b) | Gross positive fair value of contracts, collateral held (including type, for example, cash, government securities), and net unsecured credit exposure.¹ An FDIC-supervised institution also must disclose the notional value of credit derivative hedges purchased for counterparty credit risk protection and the distribution of current credit exposure by exposure type.²
| | | (c) | Notional amount of purchased and sold credit derivatives, segregated between use for the FDIC-supervised institution’s own credit portfolio and in its intermediation activities, including the distribution of the credit derivative products used, categorized further by protection bought and sold within each product group.

¹ Net unsecured credit exposure is the credit exposure after considering both the benefits from legally enforceable netting agreements and collateral arrangements without taking into account haircuts for price volatility, liquidity, etc.

² This may include interest rate derivative contracts, foreign exchange derivative contracts, equity derivative contracts, credit derivatives, commodity or other derivative contracts, repo-style transactions, and eligible margin loans.

### Table 7 to §324.63—Credit Risk Mitigation ¹ ²

| Qualitative Disclosures | (a) | The general qualitative disclosure requirement with respect to credit risk mitigation, including:
| | | (1) Policies and processes for collateral valuation and management;
| | | (2) A description of the main types of collateral taken by the FDIC-supervised institution;
| | | (3) The main types of guarantors/credit derivative counterparties and their creditworthiness; and
| | | (4) Information about (market or credit) risk concentrations with respect to credit risk mitigation.
| Quantitative Disclosures | (b) | For each separately disclosed credit risk portfolio, the total exposure that is covered by eligible financial collateral, and after the application of haircuts.
| | | (c) | For each separately disclosed portfolio, the total exposure that is covered by guarantees/credit derivatives and the risk-weighted asset amount associated with that exposure.

¹ At a minimum, an FDIC-supervised institution must provide the disclosures in Table 7 in relation to credit risk mitigation that has been recognized for the purposes of reducing capital requirements under this subpart. Where relevant, FDIC-supervised institutions are encouraged to give further information about mitigants that have not been recognized for that purpose.

² Credit derivatives that are treated, for the purposes of this subpart, as synthetic securitization exposures should be excluded from the credit risk mitigation disclosures and included within those relating to securitization (Table 8 to §324.63).
### § 324.63

#### TABLE 8 TO § 324.63—SECURITIZATION

#### Qualitative Disclosures

(a) The general qualitative disclosure requirement with respect to a securitization (including synthetic securitizations), including a discussion of:

1. The FDIC-supervised institution’s objectives for securitizing assets, including the extent to which these activities transfer credit risk of the underlying exposures away from the FDIC-supervised institution to other entities and including the type of risks assumed and retained with resecuritization activity;¹
2. The nature of the risks (e.g. liquidity risk) inherent in the securitized assets;
3. The roles played by the FDIC-supervised institution in the securitization process² and an indication of the extent of the FDIC-supervised institution’s involvement in each of them;
4. The processes in place to monitor changes in the credit and market risk of securitization exposures including how those processes differ for resecuritization exposures;
5. The FDIC-supervised institution’s policy for mitigating the credit risk retained through securitization and resecuritization exposures; and
6. The risk-based capital approaches that the FDIC-supervised institution follows for its securitization exposures including the type of securitization exposure to which each approach applies.

(b) A list of:

1. The type of securitization SPEs that the FDIC-supervised institution, as sponsor, uses to securitize third-party exposures. The FDIC-supervised institution must indicate whether it has exposure to these SPEs, either on- or off-balance sheet; and
2. Affiliated entities:
   i. That the FDIC-supervised institution manages or advises; and
   ii. That invest either in the securitization exposures that the FDIC-supervised institution has securitized or in securitization SPEs that the FDIC-supervised institution sponsors.³

(c) Summary of the FDIC-supervised institution’s accounting policies for securitization activities, including:

1. Whether the transactions are treated as sales or financings;
2. Recognition of gain-on-sale;
3. Methods and key assumptions applied in valuing retained or purchased interests;
4. Changes in methods and key assumptions from the previous period for valuing retained interests and impact of the changes;
5. Treatment of synthetic securitizations;
6. How exposures intended to be securitized are valued and whether they are recorded under subpart D of this part; and
7. Policies for recognizing liabilities on the balance sheet for arrangements that could require the FDIC-supervised institution to provide financial support for securitized assets.

(d) An explanation of significant changes to any quantitative information since the last reporting period.
### Table 8 to §324.63—Securitization—Continued

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>(e)</strong></td>
<td>The total outstanding exposures securitized by the FDIC-supervised institution in securitizations that meet the operational criteria provided in §324.41 (categorized into traditional and synthetic securitizations), by exposure type, separately for securitizations of third-party exposures for which the FDIC-supervised institution acts only as sponsor.¹⁴</td>
</tr>
</tbody>
</table>
| **(f)** | For exposures securitized by the FDIC-supervised institution in securitizations that meet the operational criteria in §324.41:  
   1. Amount of securitized assets that are impaired/past due categorized by exposure type;¹⁵ and  
   2. Losses recognized by the FDIC-supervised institution during the current period categorized by exposure type.⁶ |
| **(g)** | The total amount of outstanding exposures intended to be securitized categorized by exposure type. |
| **(h)** | Aggregate amount of:  
   1. On-balance sheet securitization exposures retained or purchased categorized by exposure type; and  
   2. Off-balance sheet securitization exposures categorized by exposure type. |
| **(i)** | Aggregate amount of securitization exposures retained or purchased and the associated capital requirements for these exposures, categorized between securitization and resecuritization exposures, further categorized into a meaningful number of risk weight bands and by risk-based capital approach (e.g., SSFA); and  
   1. Exposures that have been deducted entirely from tier 1 capital, CEIOs deducted from total capital (as described in §324.42(a)(1)), and other exposures deducted from total capital should be disclosed separately by exposure type. |
| **(j)** | Summary of current year’s securitization activity, including the amount of exposures securitized (by exposure type), and recognized gain or loss on sale by exposure type. |
| **(k)** | Aggregate amount of resecuritization exposures retained or purchased categorized according to:  
   1. Exposures to which credit risk mitigation is applied and those not applied; and  
   2. Exposures to guarantors categorized according to guarantor creditworthiness categories or guarantor name. |

¹The FDIC-supervised institution should describe the structure of resecuritizations in which it participates; this description should be provided for the main categories of resecuritization products in which the FDIC-supervised institution is active.
²For example, these roles may include originator, investor, servicer, provider of credit enhancement, sponsor, liquidity provider, or swap provider.
³Such affiliated entities may include, for example, money market funds, to be listed individually, and personal and private trusts, to be noted collectively.
⁴Exposures securitized include underlying exposures originated by the FDIC-supervised institution, whether generated by them or purchased, and recognized in the balance sheet, from third parties, and third-party exposures included in sponsored transactions. Securitization transactions (including underlying exposures originally on the FDIC-supervised institution’s balance sheet and underlying exposures acquired by the FDIC-supervised institution from third-party entities) in which the originating bank does not retain any securitization exposure should be shown separately but need only be reported for the year of inception. FDIC-supervised institutions are required to disclose exposures regardless of whether there is a capital charge under this part.
⁵Include credit-related other than temporary impairment (OTTI).
⁶For example, charge-offs/allowances (if the assets remain on the FDIC-supervised institution’s balance sheet) or credit-related OTTI of interest-only strips and other retained residual interests, as well as recognition of liabilities for probable future financial support required of the FDIC-supervised institution with respect to securitized assets.
### Table 9 to §324.63—Equities Not Subject to Subpart F of This Part

#### Qualitative Disclosures
- **(a)** The general qualitative disclosure requirement with respect to equity risk for equities not subject to subpart F of this part, including:
  1. Differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons; and
  2. Discussion of important policies covering the valuation and accounting for equity holdings not subject to subpart F of this part. This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices.

#### Quantitative Disclosures
- **(b)** Value disclosed on the balance sheet of investments, as well as the fair value of those investments; for securities that are publicly traded, a comparison to publicly-quoted share values where the share price is materially different from fair value.
- **(c)** The types and nature of investments, including the amount that is:
  1. Publicly traded; and
  2. Non publicly traded.
- **(d)** The cumulative realized gains (losses) arising from sales and liquidations in the reporting period.
- **(e)**
  1. Total unrealized gains (losses).\(^1\)
  2. Total latent revaluation gains (losses).\(^2\)
  3. Any amounts of the above included in tier 1 or tier 2 capital.
- **(f)** Capital requirements categorized by appropriate equity groupings, consistent with the FDIC-supervised institution’s methodology, as well as the aggregate amounts and the type of equity investments subject to any supervisory transition regarding regulatory capital requirements.

---

1. Unrealized gains (losses) recognized on the balance sheet but not through earnings.
2. Unrealized gains (losses) not recognized either on the balance sheet or through earnings.

### Table 10 to §324.63—Interest Rate Risk for Non-Trading Activities

#### Qualitative Disclosures
- **(a)** The general qualitative disclosure requirement, including the nature of interest rate risk for non-trading activities and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of measurement of interest rate risk for non-trading activities.

#### Quantitative Disclosures
- **(b)** The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management’s method for measuring interest rate risk for non-trading activities, categorized by currency (as appropriate).
§ 324.100 Purpose, applicability, and principle of conservatism.

(a) Purpose. This subpart E establishes:
   (1) Minimum qualifying criteria for FDIC-supervised institutions using institution-specific internal risk measurement and management processes for calculating risk-based capital requirements; and
   (2) Methodologies for such FDIC-supervised institutions to calculate their total risk-weighted assets.

(b) Applicability. (1) This subpart applies to an FDIC-supervised institution that:
      (i) Has consolidated total assets, as reported on its most recent year-end Call Report equal to $250 billion or more;
      (ii) Has consolidated total on-balance sheet foreign exposure on its most recent year-end Federal Financial Institutions Examination Council (FFIEC) 009 Report equal to $10 billion or more (where total on-balance sheet foreign exposure equals total foreign countries cross-border claims on an ultimate-risk basis, plus total foreign countries claims on local residents on an ultimate-risk basis, plus total foreign countries fair value of foreign exchange and derivative products), calculated in accordance with the FFIEC 009 Country Exposure Report;
      (iii) Is a subsidiary of a depository institution that uses this subpart or the advanced approaches pursuant to subpart E of 12 CFR part 3 (OCC), or 12 CFR part 217 (Federal Reserve) to calculate its total risk-weighted assets;
      (iv) Is a subsidiary of a bank holding company or savings and loan holding company that uses the advanced approaches pursuant to 12 CFR part 217 to calculate its total risk-weighted assets; or
      (v) Elects to use this subpart to calculate its total risk-weighted assets.
   (2) An FDIC-supervised institution that is subject to this subpart shall remain subject to this subpart unless the FDIC determines in writing that application of this subpart is not appropriate in light of the FDIC-supervised institution’s asset size, level of complexity, risk profile, or scope of operations. In making a determination under this paragraph (b), the FDIC will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in §324.5.
   (3) A market risk FDIC-supervised institution must exclude from its calculation of risk-weighted assets under this subpart the risk-weighted asset amounts of all covered positions, as defined in subpart F of this part (except foreign exchange positions that are not trading positions, over-the-counter derivative positions, cleared transactions, and unsettled transactions).

(c) Principle of conservatism. Notwithstanding the requirements of this subpart, an FDIC-supervised institution may choose not to apply a provision of this subpart to one or more exposures provided that:
   (1) The FDIC-supervised institution can demonstrate on an ongoing basis to the satisfaction of the FDIC that not applying the provision would, in all circumstances, unambiguously generate a risk-based capital requirement for each such exposure greater than that which would otherwise be required under this subpart;
   (2) The FDIC-supervised institution appropriately manages the risk of each such exposure;
   (3) The FDIC-supervised institution notifies the FDIC in writing prior to applying this principle to each such exposure; and
   (4) The exposures to which the FDIC-supervised institution applies this principle are not, in the aggregate, material to the FDIC-supervised institution.

§ 324.101 Definitions.

(a) Terms that are set forth in §324.2 and used in this subpart have the definitions assigned thereto in §324.2.
(b) For the purposes of this subpart, the following terms are defined as follows:

**Advanced internal ratings-based (IRB) systems** means an advanced approaches FDIC-supervised institution’s internal risk rating and segmentation system; risk parameter quantification system; data management and maintenance system; and control, oversight, and validation system for credit risk of wholesale and retail exposures.

**Advanced systems** means an advanced approaches FDIC-supervised institution’s advanced IRB systems, operational risk management processes, operational risk data and assessment systems, operational risk quantification systems, and, to the extent used by the FDIC-supervised institution, the internal models methodology, advanced CVA approach, double default excessive correlation detection process, and internal models approach (IMA) for equity exposures.

**Backtesting** means the comparison of an FDIC-supervised institution’s internal estimates with actual outcomes during a sample period not used in model development. In this context, backtesting is one form of out-of-sample testing.

**Benchmarking** means the comparison of an FDIC-supervised institution’s internal estimates with relevant internal and external data or with estimates based on other estimation techniques.

**Bond option contract** means a bond option, bond future, or any other instrument linked to a bond that gives rise to similar counterparty credit risk.

**Business environment and internal control factors** means the indicators of an FDIC-supervised institution’s operational risk profile that reflect a current and forward-looking assessment of the FDIC-supervised institution’s underlying business risk factors and internal control environment.

**Credit default swap (CDS)** means a financial contract executed under standard industry documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure(s)) to another party (the protection provider) for a certain period of time.

**Credit valuation adjustment (CVA)** means the fair value adjustment to reflect counterparty credit risk in valuation of OTC derivative contracts.

**Default**—For the purposes of calculating capital requirements under this subpart:

(1) **Retail.** (i) A retail exposure of an FDIC-supervised institution is in default if:

(A) The exposure is 180 days past due, in the case of a residential mortgage exposure or revolving exposure;

(B) The exposure is 120 days past due, in the case of retail exposures that are not residential mortgage exposures or revolving exposures; or

(C) The FDIC-supervised institution has taken a full or partial charge-off, write-down of principal, or material negative fair value adjustment of principal on the exposure for credit-related reasons.

(ii) Notwithstanding paragraph (1)(i) of this definition, for a retail exposure held by a non-U.S. subsidiary of the FDIC-supervised institution that is subject to an internal ratings-based approach to capital adequacy consistent with the Basel Committee on Banking Supervision’s “International Convergence of Capital Measurement and Capital Standards: A Revised Framework” in a non-U.S. jurisdiction, the FDIC-supervised institution may elect to use the definition of default that is used in that jurisdiction, provided that the FDIC-supervised institution has obtained prior approval from the FDIC to use the definition of default in that jurisdiction.

(iii) A retail exposure in default remains in default until the FDIC-supervised institution has reasonable assurance of repayment and performance for all contractual principal and interest payments on the exposure.

(2) **Wholesale.** (i) An FDIC-supervised institution’s wholesale obligor is in default if:

(A) The FDIC-supervised institution determines that the obligor is unlikely to pay its credit obligations to the FDIC-supervised institution in full, without recourse by the FDIC-supervised institution to actions such as realizing collateral (if held); or
(B) The obligor is past due more than 90 days on any material credit obligation(s) to the FDIC-supervised institution.\(^{29}\)

(ii) An obligor in default remains in default until the FDIC-supervised institution has reasonable assurance of repayment and performance for all contractual principal and interest payments on all exposures of the FDIC-supervised institution to the obligor (other than exposures that have been fully written-down or charged-off).

Dependence means a measure of the association among operational losses across and within units of measure.

Economic downturn conditions means, with respect to an exposure held by the FDIC-supervised institution, those conditions in which the aggregate default rates for that exposure’s wholesale or retail exposure subcategory (or subdivision of such subcategory selected by the FDIC-supervised institution) in the exposure’s national jurisdiction (or subdivision of such jurisdiction selected by the FDIC-supervised institution) are significantly higher than average.

Effective maturity \((M)\) of a wholesale exposure means:

(1) For wholesale exposures other than repo-style transactions, eligible margin loans, and OTC derivative contracts described in paragraph (2) or (3) of this definition:
   (i) The weighted-average remaining maturity (measured in years, whole or fractional) of the expected contractual cash flows from the exposure, using the undiscounted amounts of the cash flows as weights; or
   (ii) The nominal remaining maturity (measured in years, whole or fractional) of the exposure.

(2) For repo-style transactions, eligible margin loans, and OTC derivative contracts subject to a qualifying master netting agreement for which the FDIC-supervised institution does not apply the internal models approach in §324.132(d), the weighted-average remaining maturity (measured in years, whole or fractional) of the individual transactions subject to the qualifying master netting agreement, with the weight of each individual transaction set equal to the notional amount of the transaction.

(3) For repo-style transactions, eligible margin loans, and OTC derivative contracts for which the FDIC-supervised institution applies the internal models approach in §324.132(d), the value determined in §324.132(d)(4).

Eligible double default guarantor, with respect to a guarantee or credit derivative obtained by an FDIC-supervised institution, means:

(1) U.S.-based entities. A depository institution, a bank holding company, a savings and loan holding company, or a securities broker or dealer registered with the SEC under the Securities Exchange Act, if at the time the guarantor is issued or anytime thereafter, has issued and outstanding an unsecured debt security without credit enhancement that is investment grade.

(2) Non-U.S.-based entities. A foreign bank, or a non-U.S.-based securities firm if the FDIC-supervised institution demonstrates that the guarantor is subject to consolidated supervision and regulation comparable to that imposed on U.S. depository institutions (or securities broker-dealers), if at the time the guarantee is issued or anytime thereafter, has issued and outstanding an unsecured debt security without credit enhancement that is investment grade.

Eligible operational risk offsets means amounts, not to exceed expected operational loss, that:

(1) Are generated by internal business practices to absorb highly predictable and reasonably stable operational losses, including reserves calculated consistent with GAAP; and

(2) Are available to cover expected operational losses with a high degree of certainty over a one-year horizon.

Eligible purchased wholesale exposure means a purchased wholesale exposure that:

(1) The FDIC-supervised institution or securitization SPE purchased from an unaffiliated seller and did not directly or indirectly originate;

(2) Was generated on an arm’s-length basis between the seller and the obligor (intercompany accounts receivable and receivables subject to contra-accounts

\(^{29}\)Overdrafts are past due once the obligor has breached an advised limit or been advised of a limit smaller than the current outstanding balance.
between firms that buy and sell to each other do not satisfy this criterion; 

(3) Provides the FDIC-supervised institution or securitization SPE with a claim on all proceeds from the exposure or a pro rata interest in the proceeds from the exposure; 

(4) Has an M of less than one year; and 

(5) When consolidated by obligor, does not represent a concentrated exposure relative to the portfolio of purchased wholesale exposures.

Expected exposure (EE) means the expected value of the probability distribution of non-negative credit risk exposures to a counterparty at any specified future date before the maturity date of the longest term transaction in the netting set. Any negative fair values in the probability distribution of fair values to a counterparty at a specified future date are set to zero to convert the probability distribution of fair values to the probability distribution of credit risk exposures.

Expected operational loss (EOL) means the expected value of the distribution of potential aggregate operational losses, as generated by the FDIC-supervised institution’s operational risk quantification system using a one-year horizon.

Expected positive exposure (EPE) means the weighted average over time of expected (non-negative) exposures to a counterparty where the weights are the proportion of the time interval that an individual expected exposure represents. When calculating risk-based capital requirements, the average is taken over a one-year horizon.

Exposure at default (EAD) means:

(1) For the on-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, a repo-style transaction or eligible margin loan for which the FDIC-supervised institution determines EAD under § 324.132, cleared transaction, or default fund contribution), EAD means the FDIC-supervised institution’s carrying value (including net accrued but unpaid interest and fees) for the exposure or segment less any allocated transfer risk reserve for the exposure or segment.

(2) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, a repo-style transaction or eligible margin loan for which the FDIC-supervised institution determines EAD under § 324.132, cleared transaction, or default fund contribution) in the form of a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the FDIC-supervised institution’s best estimate of net additions to the outstanding amount owed the FDIC-supervised institution, including estimated future additional draws of principal and accrued but unpaid interest and fees, that are likely to occur over a one-year horizon assuming the wholesale exposure or the retail exposures in the segment were to go into default. This estimate of net additions must reflect what would be expected during economic downturn conditions. For the purposes of this definition:

(i) Trade-related letters of credit are short-term, self-liquidating instruments that are used to finance the movement of goods and are collateralized by the underlying goods.

(ii) Transaction-related contingencies relate to a particular transaction and include, among other things, performance bonds and performance-based letters of credit.

(3) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, a repo-style transaction or eligible margin loan for which the FDIC-supervised institution determines EAD under § 324.132, cleared transaction, or default fund contribution), EAD means the notional amount of the exposure or segment.

(4) EAD for OTC derivative contracts is calculated as described in § 324.132. An FDIC-supervised institution also may determine EAD for repo-style transactions and eligible margin loans as described in § 324.132.

Exposure category means any of the wholesale, retail, securitization, or equity exposure categories.
External operational loss event data means, with respect to an FDIC-supervised institution, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at organizations other than the FDIC-supervised institution.

IMM exposure means a repo-style transaction, eligible margin loan, or OTC derivative for which an FDIC-supervised institution calculates its EAD using the internal models methodology of §324.132(d).

Internal operational loss event data means, with respect to an FDIC-supervised institution, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at the FDIC-supervised institution.

Loss given default (LGD) means:

(1) For a wholesale exposure, the greatest of:
   (i) Zero;
   (ii) The FDIC-supervised institution’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the FDIC-supervised institution would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the FDIC-supervised institution to the exposure) were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or
   (iii) The FDIC-supervised institution’s empirically based best estimate of the economic loss, per dollar of EAD, the FDIC-supervised institution would expect to incur if the exposures in the segment were to default within a one-year horizon during economic downturn conditions.

(2) For a segment of retail exposures, the greatest of:
   (i) Zero;
   (ii) The FDIC-supervised institution’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the FDIC-supervised institution would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the FDIC-supervised institution to the exposure) were to default within a one-year horizon during economic downturn conditions.

Obligor means the legal entity or natural person contractually obligated on a wholesale exposure, except that an FDIC-supervised institution may treat the following exposures as having separate obligors:

(1) Exposures to the same legal entity or natural person denominated in different currencies;

(2)(i) An income-producing real estate exposure for which all or substantially all of the repayment of the exposure is reliant on the cash flows of the real estate serving as collateral for the exposure; the FDIC-supervised institution, in economic substance, does not have recourse to the borrower beyond the real estate collateral; and no cross-default or cross-acceleration clauses are in place other than clauses obtained solely out of an abundance of caution; and

(3)(i) A wholesale exposure authorized under section 364 of the U.S. Bankruptcy Code (11 U.S.C. 364) to a legal
entity or natural person who is a debtor-in-possession for purposes of Chapter 11 of the Bankruptcy Code; and

(ii) Other credit exposures to the same legal entity or natural person.

Operational loss means a loss (excluding insurance or tax effects) resulting from an operational loss event. Operational loss includes all expenses associated with an operational loss event except for opportunity costs, forgone revenue, and costs related to risk management and control enhancements implemented to prevent future operational losses.

Operational loss event means an event that results in loss and is associated with any of the following seven operational loss event type categories:

(1) Internal fraud, which means the operational loss event type category that comprises operational losses resulting from an act involving at least one internal party of a type intended to defraud, misappropriate property, or circumvent regulations, the law, or company policy excluding diversity- and discrimination-type events.

(2) External fraud, which means the operational loss event type category that comprises operational losses resulting from an act by a third party of a type intended to defraud, misappropriate property, or circumvent the law. Retail credit card losses arising from non-contractual, third-party-initiated fraud (for example, identity theft) are external fraud operational losses. All other third-party-initiated credit losses are to be treated as credit risk losses.

(3) Employment practices and workplace safety, which means the operational loss event type category that comprises operational losses resulting from an act inconsistent with employment, health, or safety laws or agreements, payment of personal injury claims, or payment arising from diversity- and discrimination-type events.

(4) Clients, products, and business practices, which means the operational loss event type category that comprises operational losses resulting from the nature or design of a product or from an unintentional or negligent failure to meet a professional obligation to specific clients (including fiduciary and suitability requirements).

(5) Damage to physical assets, which means the operational loss event type category that comprises operational losses resulting from the loss of or damage to physical assets from natural disaster or other events.

(6) Business disruption and system failures, which means the operational loss event type category that comprises operational losses resulting from disruption of business or system failures.

(7) Execution, delivery, and process management, which means the operational loss event type category that comprises operational losses resulting from failed transaction processing or process management or losses arising from relations with trade counterparties and vendors.

Operational risk means the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events (including legal risk but excluding strategic and reputational risk).

Operational risk exposure means the 99.9th percentile of the distribution of potential aggregate operational losses, as generated by the FDIC-supervised institution’s operational risk quantification system over a one-year horizon (and not incorporating eligible operational risk offsets or qualifying operational risk mitigants).

Other retail exposure means an exposure (other than a securitization exposure, an equity exposure, a residential mortgage exposure, a pre-sold construction loan, a qualifying revolving exposure, or the residual value portion of a lease exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is either:

(1) An exposure to an individual for non-business purposes; or

(2) An exposure to an individual or company for business purposes if the FDIC-supervised institution’s consolidated business credit exposure to the individual or company is $1 million or less.

Probability of default (PD) means:

(1) For a wholesale exposure to a non-defaulted obligor, the FDIC-supervised
institution’s empirically based best estimate of the long-run average one-year default rate for the rating grade assigned by the FDIC-supervised institution to the obligor, capturing the average default experience for obligors in the rating grade over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the rating grade.

(2) For a segment of non-defaulted retail exposures, the FDIC-supervised institution’s empirically based best estimate of the long-run average one-year default rate for the exposures in the segment, capturing the average default experience for exposures in the segment over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, 100 percent.

Qualifying cross-product master netting agreement means a qualifying master netting agreement that provides for termination and close-out netting across multiple types of financial transactions or qualifying master netting agreements in the event of a counterparty’s default, provided that the underlying financial transactions are OTC derivative contracts, eligible margin loans, or repo-style transactions. In order to treat an agreement as a qualifying cross-product master netting agreement for purposes of this subpart, an FDIC-supervised institution must comply with the requirements of §324.3(c) of this part with respect to that agreement.

Qualifying revolving exposure (QRE) means an exposure (other than a securitization exposure or equity exposure) to an individual that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and:

(1) Is revolving (that is, the amount outstanding fluctuates, determined largely by a borrower’s decision to borrow and repay up to a pre-established maximum amount, except for an outstanding amount that the borrower is required to pay in full every month);

(2) Is unsecured and unconditionally cancelable by the FDIC-supervised institution to the fullest extent permitted by Federal law; and

(3)(i) Has a maximum contractual exposure amount (drawn plus undrawn) of up to $100,000; or

(ii) With respect to a product with an outstanding amount that the borrower is required to pay in full every month, the total outstanding amount does not in practice exceed $100,000.

(4) A segment of exposures that contains one or more exposures that fails to meet paragraph (3)(ii) of this definition must be treated as a segment of other retail exposures for the 24 month period following the month in which the total outstanding amount of one or more exposures individually exceeds $100,000.

Retail exposure means a residential mortgage exposure, a qualifying revolving exposure, or an other retail exposure.

Retail exposure subcategory means the residential mortgage exposure, qualifying revolving exposure, or other retail exposure subcategory.

Risk parameter means a variable used in determining risk-based capital requirements for wholesale and retail exposures, specifically probability of default (PD), loss given default (LGD), exposure at default (EAD), or effective maturity (M).

Scenario analysis means a systematic process of obtaining expert opinions from business managers and risk management experts to derive reasoned assessments of the likelihood and loss impact of plausible high-severity operational losses. Scenario analysis may include the well-reasoned evaluation and use of external operational loss event data, adjusted as appropriate to ensure relevance to an FDIC-supervised institution’s operational risk profile and control structure.

Total wholesale and retail risk-weighted assets means the sum of:

(1) Risk-weighted assets for wholesale exposures that are not IMM exposures, cleared transactions, or default fund contributions to non-defaulted obligors and segments of non-defaulted retail exposures;
§§ 324.102–324.120  12 CFR Ch. III (1–1–17 Edition)

(2) Risk-weighted assets for wholesale exposures to defaulted obligors and segments of defaulted retail exposures;
(3) Risk-weighted assets for assets not defined by an exposure category;
(4) Risk-weighted assets for non-material portfolios of exposures;
(5) Risk-weighted assets for IMM exposures (as determined in §324.132(d));
(6) Risk-weighted assets for cleared transactions and risk-weighted assets for default fund contributions (as determined in §324.133); and
(7) Risk-weighted assets for unsettled transactions (as determined in §324.136).

Unexpected operational loss (UOL) means the difference between the FDIC-supervised institution’s operational risk exposure and the FDIC-supervised institution’s expected operational loss.

Unit of measure means the level (for example, organizational unit or operational loss event type) at which the FDIC-supervised institution’s operational risk quantification system generates a separate distribution of potential operational losses.

Wholesale exposure means a credit exposure to a company, natural person, sovereign, or governmental entity (other than a securitization exposure, retail exposure, pre-sold construction loan, or equity exposure).

Wholesale exposure subcategory means the HVCRE or non-HVCRE wholesale exposure subcategory.

§§ 324.102–324.120 [Reserved]

QUALIFICATION

§ 324.121 Qualification process.

(a) Timing. (1) An FDIC-supervised institution that is described in §324.100(b)(1)(i) through (iv) must adopt a written implementation plan no later than six months after the date the FDIC-supervised institution meets a criterion in that section. The implementation plan must incorporate an explicit start date no later than 36 months after the date the FDIC-supervised institution meets at least one criterion under §324.100(b)(1)(i) through (iv). The FDIC may extend the start date.

(2) An FDIC-supervised institution that elects to be subject to this subpart under §324.100(b)(1)(v) must adopt a written implementation plan.

(b) Implementation plan. (1) The FDIC-supervised institution’s implementation plan must address in detail how the FDIC-supervised institution complies, or plans to comply, with the qualification requirements in §324.122. The FDIC-supervised institution also must maintain a comprehensive and sound planning and governance process to oversee the implementation efforts described in the plan. At a minimum, the plan must:

(i) Comprehensively address the qualification requirements in §324.122 for the FDIC-supervised institution and each consolidated subsidiary (U.S. and foreign-based) of the FDIC-supervised institution with respect to all portfolios and exposures of the FDIC-supervised institution and each of its consolidated subsidiaries;

(ii) Justify and support any proposed temporary or permanent exclusion of business lines, portfolios, or exposures from the application of the advanced approaches in this subpart (which business lines, portfolios, and exposures must be, in the aggregate, immaterial to the FDIC-supervised institution);

(iii) Include the FDIC-supervised institution’s self-assessment of:

(A) The FDIC-supervised institution’s current status in meeting the qualification requirements in §324.122; and

(B) The consistency of the FDIC-supervised institution’s current practices with the FDIC’s supervisory guidance on the qualification requirements;

(iv) Based on the FDIC-supervised institution’s self-assessment, identify and describe the areas in which the FDIC-supervised institution proposes to undertake additional work to comply with the qualification requirements in §324.122 or to improve the consistency of the FDIC-supervised institution’s current practices with the FDIC’s supervisory guidance on the qualification requirements (gap analysis);

(v) Describe what specific actions the FDIC-supervised institution will take to address the areas identified in the
§ 324.122 Qualification requirements.

(a) Process and systems requirements.

(1) An FDIC-supervised institution must have a rigorous process for assessing its overall capital adequacy in relation to its risk profile and a comprehensive strategy for maintaining an appropriate level of capital.

(2) The systems and processes used by an FDIC-supervised institution for risk-based capital purposes under this subpart must be consistent with the FDIC-supervised institution's internal risk management processes and management information reporting systems.

(3) Each FDIC-supervised institution must have an appropriate infrastructure with risk measurement and management processes that meet the qualification requirements of this section and are appropriate given the FDIC-supervised institution's size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating an FDIC-supervised institution's risk-based capital requirements are located at any affiliate of the FDIC-supervised institution, the FDIC-supervised institution itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of long run experience with respect to its own credit risk and operational risk exposures.

(b) Risk rating and segmentation systems for wholesale and retail exposures.

(1)(i) An FDIC-supervised institution must have a risk rating and segmentation system that accurately, reliably, and meaningfully differentiates among degrees of credit risk for the FDIC-supervised institution's wholesale and retail exposures. When assigning an internal risk rating, an FDIC-supervised institution may consider third-party assessment of credit risk, provided that the FDIC-supervised institution's internal risk rating assignment does not rely solely on the external assessment.
(ii) If an FDIC-supervised institution uses multiple rating or segmentation systems, the FDIC-supervised institution’s rationale for assigning an obligor or exposure to a particular system must be documented and applied in a manner that best reflects the obligor or exposure’s level of risk. An FDIC-supervised institution must not inappropriately allocate obligors or exposures across systems to minimize regulatory capital requirements.

(iii) In assigning ratings to wholesale obligors and exposures, including loss severity ratings grades to wholesale exposures, and assigning retail exposures to retail segments, an FDIC-supervised institution must use all relevant and material information and ensure that the information is current.

(iv) When assigning an obligor to a PD rating or retail exposure to a PD segment, an FDIC-supervised institution must assess the obligor or retail borrower’s ability and willingness to contractually perform, taking a conservative view of projected information.

(2) For wholesale exposures:

(i) An FDIC-supervised institution must have an internal risk rating system that accurately and reliably assigns each obligor to a single rating grade (reflecting the obligor’s likelihood of default). An FDIC-supervised institution may elect, however, not to assign to a rating grade an obligor to whom the FDIC-supervised institution extends credit based solely on the financial strength of a guarantor, provided that all of the FDIC-supervised institution’s exposures to the obligor are fully covered by eligible guarantees, the FDIC-supervised institution applies the PD substitution approach in §324.130(c)(1) to all exposures to that obligor, and the FDIC-supervised institution immediately assigns the obligor to a rating grade if a guarantee can no longer be recognized under this part. The FDIC-supervised institution’s wholesale obligor rating system must have at least seven discrete rating grades for non-defaulted obligors and at least one rating grade for defaulted obligors.

(ii) Unless the FDIC-supervised institution has chosen to directly assign LGD estimates to each wholesale exposure, the FDIC-supervised institution must have an internal risk rating system that accurately and reliably assigns each wholesale exposure to a loss severity rating grade (reflecting the FDIC-supervised institution’s estimate of the LGD of the exposure). An FDIC-supervised institution employing loss severity rating grades must have a sufficiently granular loss severity grading system to avoid grouping together exposures with widely ranging LGDs.

(iii) An FDIC-supervised institution must have an effective process to obtain and update in a timely manner relevant and material information on obligor and exposure characteristics that affect PD, LGD and EAD.

(3) For retail exposures:

(i) An FDIC-supervised institution must have an internal system that groups retail exposures into the appropriate retail exposure subcategory and groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics that provide a meaningful differentiation of risk. The FDIC-supervised institution’s system must identify and group in separate segments by subcategories exposures identified in §324.131(c)(2)(ii) and (iii).

(ii) An FDIC-supervised institution must have an internal system that captures all relevant exposure risk characteristics, including borrower credit score, product and collateral types, as well as exposure delinquencies, and must consider cross-collateral provisions, where present.

(iii) The FDIC-supervised institution must review and, if appropriate, update assignments of individual retail exposures to segments and the loss characteristics and delinquency status of each identified risk segment. These reviews must occur whenever the FDIC-supervised institution receives new material information, but generally no less frequently than quarterly, and, in all cases, at least annually.

(4) The FDIC-supervised institution’s internal risk rating policy for wholesale exposures must describe the FDIC-supervised institution’s rating philosophy (that is, must describe how wholesale obligor rating assignments
are affected by the FDIC-supervised institution’s choice of the range of economic, business, and industry conditions that are considered in the obligor rating process.

(5) The FDIC-supervised institution’s internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the FDIC-supervised institution obtains relevant and material information on the obligor or exposure that affects PD, LGD and EAD, but no less frequently than annually.

(c) Quantification of risk parameters for wholesale and retail exposures. (1) The FDIC-supervised institution must have a comprehensive risk parameter quantification process that produces accurate, timely, and reliable estimates of the risk parameters on a consistent basis for the FDIC-supervised institution’s wholesale and retail exposures.

(2) An FDIC-supervised institution’s estimates of PD, LGD, and EAD must incorporate all relevant, material, and available data that is reflective of the FDIC-supervised institution’s actual wholesale and retail exposures and of sufficient quality to support the determination of risk-based capital requirements for the exposures. In particular, the population of exposures in the data used for estimation purposes, the lending standards in use when the data were generated, and other relevant characteristics, should closely match or be comparable to the FDIC-supervised institution’s exposures and standards. In addition, an FDIC-supervised institution must:

(i) Demonstrate that its estimates are representative of long run experience, including periods of economic downturn conditions, whether internal or external data are used;

(ii) Take into account any changes in lending practice or the process for pursuing recoveries over the observation period;

(iii) Promptly reflect technical advances, new data, and other information as they become available;

(iv) Demonstrate that the data used to estimate risk parameters support the accuracy and robustness of those estimates; and

(v) Demonstrate that its estimation technique performs well in out-of-sample tests whenever possible.

(3) The FDIC-supervised institution’s risk parameter quantification process must produce appropriately conservative risk parameter estimates where the FDIC-supervised institution has limited relevant data, and any adjustments that are part of the quantification process must not result in a pattern of bias toward lower risk parameter estimates.

(4) The FDIC-supervised institution’s risk parameter estimation process should not rely on the possibility of U.S. government financial assistance, except for the financial assistance that the U.S. government has a legally binding commitment to provide.

(5) The FDIC-supervised institution must be able to demonstrate which variables have been found to be statistically significant with regard to EAD. The FDIC-supervised institution’s EAD estimates must reflect its specific policies and strategies with regard to account management, including account monitoring and payment processing, and its ability and willingness to prevent further drawdowns in circumstances short of payment default. The FDIC-supervised institution must have adequate systems and procedures in place to monitor current outstanding amounts against committed lines, and changes in outstanding amounts per obligor and obligor rating grade and per retail segment. The FDIC-supervised institution must be able to monitor outstanding amounts on a daily basis.

(6) At a minimum, PD estimates for wholesale obligors and retail segments must be based on at least five years of default data. LGD estimates for wholesale exposures must be based on at least seven years of loss severity data, and LGD estimates for retail segments must be based on at least five years of loss severity data. EAD estimates for wholesale exposures must be based on at least seven years of exposure amount data, and EAD estimates for retail segments must be based on at least five years of exposure amount data. If the FDIC-supervised institution has relevant and material reference data that span a longer period
of time than the minimum time periods specified above, the FDIC-supervised institution must incorporate such data in its estimates, provided that it does not place undue weight on periods of favorable or benign economic conditions relative to periods of economic downturn conditions.

(7) Default, loss severity, and exposure amount data must include periods of economic downturn conditions, or the FDIC-supervised institution must adjust its estimates of risk parameters to compensate for the lack of data from periods of economic downturn conditions.

(8) The FDIC-supervised institution's PD, LGD, and EAD estimates must be based on the definition of default in §324.101.

(9) If an FDIC-supervised institution uses internal data obtained prior to becoming subject to this subpart E or external data to arrive at PD, LGD, or EAD estimates, the FDIC-supervised institution must demonstrate to the FDIC that the FDIC-supervised institution has made appropriate adjustments if necessary to be consistent with the definition of default in §324.101. Internal data obtained after the FDIC-supervised institution becomes subject to this subpart E must be consistent with the definition of default in §324.101.

(10) The FDIC-supervised institution must review and update (as appropriate) its risk parameters and its risk parameter quantification process at least annually.

(11) The FDIC-supervised institution must, at least annually, conduct a comprehensive review and analysis of reference data to determine relevance of the reference data to the FDIC-supervised institution’s exposures, quality of reference data to support PD, LGD, and EAD estimates, and consistency of reference data to the definition of default in §324.101.

(d) Counterparty credit risk model. An FDIC-supervised institution must obtain the prior written approval of the FDIC under §324.132 to use the internal models approach for counterparty credit risk and the advanced CVA approach for the CVA capital requirement.

(e) Double default treatment. An FDIC-supervised institution must obtain the prior written approval of the FDIC under §324.135 to use the double default treatment.

(f) Equity exposures model. An FDIC-supervised institution must obtain the prior written approval of the FDIC under §324.133 to use the internal models approach for equity exposures.

(g) Operational risk. (1) Operational risk management processes. An FDIC-supervised institution must:

(i) Have an operational risk management function that:
(A) Is independent of business line management; and
(B) Is responsible for designing, implementing, and overseeing the FDIC-supervised institution’s operational risk data and assessment systems, operational risk quantification systems, and related processes;

(ii) Have and document a process (which must capture business environment and internal control factors affecting the FDIC-supervised institution’s operational risk profile) to identify, measure, monitor, and control operational risk in the FDIC-supervised institution’s products, activities, processes, and systems; and

(iii) Report operational risk exposures, operational loss events, and other relevant operational risk information to business unit management, senior management, and the board of directors (or a designated committee of the board).

(2) Operational risk data and assessment systems. An FDIC-supervised institution must have operational risk data and assessment systems that capture operational risks to which the FDIC-supervised institution is exposed. The FDIC-supervised institution’s operational risk data and assessment systems must:

(i) Be structured in a manner consistent with the FDIC-supervised institution’s current business activities, risk profile, technological processes, and risk management processes; and

(ii) Include credible, transparent, systematic, and verifiable processes that incorporate the following elements on an ongoing basis:

(A) Internal operational loss event data. The FDIC-supervised institution must have a systematic process for capturing and using internal operational
loss event data in its operational risk data and assessment systems.

(1) The FDIC-supervised institution’s operational risk data and assessment systems must include a historical observation period of at least five years for internal operational loss event data (or such shorter period approved by the FDIC to address transitional situations, such as integrating a new business line).

(2) The FDIC-supervised institution must be able to map its internal operational loss event data into the seven operational loss event type categories.

(3) The FDIC-supervised institution may refrain from collecting internal operational loss event data for individual operational losses below established dollar threshold amounts if the FDIC-supervised institution can demonstrate to the satisfaction of the FDIC that the thresholds are reasonable, do not exclude important internal operational loss event data, and permit the FDIC-supervised institution to capture substantially all the dollar value of the FDIC-supervised institution’s operational losses.

(B) External operational loss event data. The FDIC-supervised institution must have a systematic process for determining its methodologies for incorporating external operational loss event data into its operational risk data and assessment systems.

(C) Scenario analysis. The FDIC-supervised institution must have a systematic process for determining its methodologies for incorporating scenario analysis into its operational risk data and assessment systems.

(D) Business environment and internal control factors. The FDIC-supervised institution must incorporate business environment and internal control factors into its operational risk data and assessment systems. The FDIC-supervised institution must also periodically compare the results of its prior business environment and internal control factor assessments against its actual operational losses incurred in the intervening period.

(3) Operational risk quantification systems. (i) The FDIC-supervised institution’s operational risk quantification systems:

(A) Must generate estimates of the FDIC-supervised institution’s operational risk exposure using its operational risk data and assessment systems;

(B) Must employ a unit of measure that is appropriate for the FDIC-supervised institution’s range of business activities and the variety of operational loss events to which it is exposed, and that does not combine business activities or operational loss events with demonstrably different risk profiles within the same loss distribution;

(C) Must include a credible, transparent, systematic, and verifiable approach for weighting each of the four elements, described in paragraph (g)(2)(ii) of this section, that an FDIC-supervised institution is required to incorporate into its operational risk data and assessment systems;

(D) May use internal estimates of dependence among operational losses across and within units of measure if the FDIC-supervised institution can demonstrate to the satisfaction of the FDIC that its process for estimating dependence is sound, robust to a variety of scenarios, and implemented with integrity, and allows for uncertainty surrounding the estimates. If the FDIC-supervised institution has not made such a demonstration, it must sum operational risk exposure estimates across units of measure to calculate its total operational risk exposure; and

(E) Must be reviewed and updated (as appropriate) whenever the FDIC-supervised institution becomes aware of information that may have a material effect on the FDIC-supervised institution’s estimate of operational risk exposure, but the review and update must occur no less frequently than annually.

(ii) With the prior written approval of the FDIC, an FDIC-supervised institution may generate an estimate of its operational risk exposure using an alternative approach to that specified in paragraph (g)(3)(i) of this section. An FDIC-supervised institution proposing to use such an alternative operational risk quantification system must submit a proposal to the FDIC. In determining whether to approve an FDIC-supervised institution’s proposal to use
an alternative operational risk quantification system, the FDIC will consider the following principles:

(A) Use of the alternative operational risk quantification system will be allowed only on an exception basis, considering the size, complexity, and risk profile of the FDIC-supervised institution;

(B) The FDIC-supervised institution must demonstrate that its estimate of its operational risk exposure generated under the alternative operational risk quantification system is appropriate and can be supported empirically; and

(C) An FDIC-supervised institution must not use an allocation of operational risk capital requirements that includes entities other than depository institutions or the benefits of diversification across entities.

(h) **Data management and maintenance.**

(1) An FDIC-supervised institution must have data management and maintenance systems that adequately support all aspects of its advanced systems and the timely and accurate reporting of risk-based capital requirements.

(2) An FDIC-supervised institution must retain data using an electronic format that allows timely retrieval of data for analysis, validation, reporting, and disclosure purposes.

(3) An FDIC-supervised institution must retain sufficient data elements related to key risk drivers to permit adequate monitoring, validation, and refinement of its advanced systems.

(i) **Control, oversight, and validation mechanisms.**

(1) The FDIC-supervised institution’s senior management must ensure that all components of the FDIC-supervised institution’s advanced systems function effectively and comply with the qualification requirements in this section.

(2) The FDIC-supervised institution’s board of directors (or a designated committee of the board) must at least annually review the effectiveness of, and approve, the FDIC-supervised institution’s advanced systems.

(3) An FDIC-supervised institution must have an effective system of controls and oversight that:

(i) Ensures ongoing compliance with the qualification requirements in this section;

(ii) Maintains the integrity, reliability, and accuracy of the FDIC-supervised institution’s advanced systems; and

(iii) Includes adequate governance and project management processes.

(4) The FDIC-supervised institution must validate, on an ongoing basis, its advanced systems. The FDIC-supervised institution’s validation process must be independent of the advanced systems’ development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the advanced systems;

(ii) An ongoing monitoring process that includes verification of processes and benchmarking; and

(iii) An outcomes analysis process that includes backtesting.

(5) The FDIC-supervised institution must have an internal audit function or equivalent function that is independent of business-line management that at least annually:

(i) Reviews the FDIC-supervised institution’s advanced systems and associated operations, including the operations of its credit function and estimations of PD, LGD, and EAD;

(ii) Assesses the effectiveness of the controls supporting the FDIC-supervised institution’s advanced systems; and

(iii) Documents and reports its findings to the FDIC-supervised institution’s board of directors (or a committee thereof).

(6) The FDIC-supervised institution must periodically stress test its advanced systems. The stress testing must include a consideration of how economic cycles, especially downturns, affect risk-based capital requirements (including migration across rating grades and segments and the credit risk mitigation benefits of double default treatment).

(j) **Documentation.** The FDIC-supervised institution must adequately document all material aspects of its advanced systems.

§ 324.123 Ongoing qualification.

(a) Changes to advanced systems. An FDIC-supervised institution must meet all the qualification requirements in §324.122 on an ongoing basis. An FDIC-supervised institution must notify the FDIC when the FDIC-supervised institution makes any change to an advanced system that would result in a material change in the FDIC-supervised institution’s advanced approaches total risk-weighted asset amount for an exposure type or when the FDIC-supervised institution makes any significant change to its modeling assumptions.

(b) Failure to comply with qualification requirements. (1) If the FDIC determines that an FDIC-supervised institution that uses this subpart and that has conducted a satisfactory parallel run fails to comply with the qualification requirements in §324.122, the FDIC will notify the FDIC-supervised institution in writing of the FDIC-supervised institution’s failure to comply.

(2) The FDIC-supervised institution must establish and submit a plan satisfactory to the FDIC to return to compliance with the qualification requirements.

(3) In addition, if the FDIC determines that the FDIC-supervised institution’s advanced approaches total risk-weighted assets are not commensurate with the FDIC-supervised institution’s credit, market, operational, or other risks, the FDIC may require such an FDIC-supervised institution to calculate its advanced approaches total risk-weighted assets with any modifications provided by the FDIC.

§ 324.124 Merger and acquisition transitional arrangements.

(a) Mergers and acquisitions of companies without advanced systems. If an FDIC-supervised institution merges with or acquires a company that does not calculate its risk-based capital requirements using advanced systems, the FDIC-supervised institution may use subpart D of this part to determine the risk-weighted asset amounts for the merged or acquired company’s exposures for up to 24 months after the calendar quarter during which the merger or acquisition consummates. The FDIC may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the FDIC-supervised institution must submit to the FDIC an implementation plan for using its advanced systems for the acquired company. During the period in which subpart D of this part applies to the merged or acquired company, any ALLL net of allocated transfer risk reserves established pursuant to 12 U.S.C. 3904, associated with the merged or acquired company’s exposures may be included in the acquiring FDIC-supervised institution’s tier 2 capital up to 1.25 percent of the acquired company’s risk-weighted assets. All general allowances of the merged or acquired company must be excluded from the FDIC-supervised institution’s eligible credit reserves. In addition, the risk-weighted assets of the merged or acquired company are not included in the FDIC-supervised institution’s credit-risk-weighted assets but are included in total risk-weighted assets. If an FDIC-supervised institution relies on this paragraph (a), the FDIC-supervised institution must disclose publicly the amounts of risk-weighted assets and qualifying capital calculated under this subpart for the acquiring FDIC-supervised institution and under subpart D of this part for the acquired company.

(b) Mergers and acquisitions of companies with advanced systems. (1) If an FDIC-supervised institution merges with or acquires a company that calculates its risk-based capital requirements using advanced systems, the FDIC-supervised institution may use the acquired company’s advanced systems to determine total risk-weighted assets for the merged or acquired company’s exposures for up to 24 months after the calendar quarter during which the acquisition or merger consummates. The FDIC may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the FDIC-supervised institution must submit to the FDIC an implementation plan for using its advanced systems for the merged or acquired company.
(2) If the acquiring FDIC-supervised institution is not subject to the advanced approaches in this subpart at the time of acquisition or merger, during the period when subpart D of this part applies to the acquiring FDIC-supervised institution, the ALLL associated with the exposures of the merged or acquired company may not be directly included in tier 2 capital. Rather, any excess eligible credit reserves associated with the merged or acquired company’s exposures may be included in the FDIC-supervised institution’s tier 2 capital up to 0.6 percent of the credit-risk-weighted assets associated with those exposures.

§§ 324.125–324.130 [Reserved]

RISK-WEIGHTED ASSETS FOR GENERAL CREDIT RISK

§ 324.131 Mechanics for calculating total wholesale and retail risk-weighted assets.

(a) Overview. An FDIC-supervised institution must calculate its total wholesale and retail risk-weighted asset amount in four distinct phases:

(1) Phase 1—categorization of exposures;

(2) Phase 2—assignment of wholesale obligors and exposures to rating grades and segmentation of retail exposures;

(3) Phase 3—assignment of risk parameters to wholesale exposures and segments of retail exposures; and

(4) Phase 4—calculation of risk-weighted asset amounts.

(b) Phase 1—Categorization. The FDIC-supervised institution must determine which of its exposures are wholesale exposures, retail exposures, securitization exposures, or equity exposures. The FDIC-supervised institution must categorize each retail exposure as a residential mortgage exposure, a QRE, or an other retail exposure. The FDIC-supervised institution must identify which wholesale exposures are HVCRE exposures, sovereign exposures, OTC derivative contracts, repo-style transactions, eligible margin loans, eligible purchased wholesale exposures, cleared transactions, default fund contributions, unsettled transactions to which §324.136 applies, and eligible guarantees or eligible credit derivatives that are used as credit risk mitigants. The FDIC-supervised institution must identify any on-balance sheet asset that does not meet the definition of a wholesale, retail, equity, or securitization exposure, as well as any non-material portfolio of exposures described in paragraph (e)(4) of this section.

(c) Phase 2—Assignment of wholesale obligors and exposures to rating grades and retail exposures to segments—(1) Assignment of wholesale obligors and exposures to rating grades.

(i) The FDIC-supervised institution must assign each obligor of a wholesale exposure to a single obligor rating grade and must assign each wholesale exposure to which it does not directly assign an LGD estimate to a loss severity rating grade.

(ii) The FDIC-supervised institution must identify which of its wholesale obligors are in default.

(2) Segmentation of retail exposures. (i) The FDIC-supervised institution must group the retail exposures in each retail subcategory into segments that have homogeneous risk characteristics.

(ii) The FDIC-supervised institution must identify which of its retail exposures are in default. The FDIC-supervised institution must segment defaulted retail exposures separately from non-defaulted retail exposures.

(iii) If the FDIC-supervised institution determines the EAD for eligible margin loans using the approach in §324.132(b), the FDIC-supervised institution must identify which of its retail exposures are eligible margin loans for which the FDIC-supervised institution uses this EAD approach and must segment such eligible margin loans separately from other retail exposures.

(3) Eligible purchased wholesale exposures. An FDIC-supervised institution may group its eligible purchased wholesale exposures into segments that have homogeneous risk characteristics. An FDIC-supervised institution must use the wholesale exposure formula in Table I of this section to determine the risk-based capital requirement for each segment of eligible purchased wholesale exposures.

(d) Phase 3—Assignment of risk parameters to wholesale exposures and segments of retail exposures.  (1) Quantification process. Subject to the limitations in this paragraph (d), the FDIC-supervised institution must:
   (i) Associate a PD with each wholesale obligor rating grade;
   (ii) Associate an LGD with each wholesale loss severity rating grade or assign an LGD to each wholesale exposure;
   (iii) Assign an EAD and M to each wholesale exposure; and
   (iv) Assign a PD, LGD, and EAD to each segment of retail exposures.

(2) Floor on PD assignment. The PD for each wholesale obligor or retail segment may not be less than 0.03 percent, except for exposures to or directly and unconditionally guaranteed by a sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Commission, the European Central Bank, or a multilateral development bank, to which the FDIC-supervised institution assigns a rating grade associated with a PD of less than 0.03 percent.

(3) Floor on LGD estimation. The LGD for each segment of residential mortgage exposures may not be less than 10 percent, except for segments of residential mortgage exposures for which all or substantially all of the principal of each exposure is either:
   (i) Directly and unconditionally guaranteed by the full faith and credit of a sovereign entity; or
   (ii) Guaranteed by a contingent obligation of the U.S. government or its agencies, the enforceability of which is dependent upon some affirmative action on the part of the beneficiary of the guarantee or a third party (for example, meeting servicing requirements).

(4) Eligible purchased wholesale exposures. An FDIC-supervised institution must assign a PD, LGD, EAD, and M to each segment of eligible purchased wholesale exposures. If the FDIC-supervised institution can estimate ECL (but not PD or LGD) for a segment of eligible purchased wholesale exposures, the FDIC-supervised institution must assume that the LGD of the segment equals 100 percent and that the PD of the segment equals ECL divided by EAD. The estimated ECL must be calculated for the exposures without regard to any assumption of recourse or guarantees from the seller or other parties.

(5) Credit risk mitigation: credit derivatives, guarantees, and collateral. (1) An FDIC-supervised institution may take into account the risk reducing effects of eligible guarantees and eligible credit derivatives in support of a wholesale exposure by applying the PD substitution or LGD adjustment treatment to the exposure as provided in §324.134 or, if applicable, applying double default treatment to the exposure as provided in §324.135. An FDIC-supervised institution may decide separately for each wholesale exposure that qualifies for the double default treatment under §324.135 whether to apply the double default treatment or to use the PD substitution or LGD adjustment treatment without recognizing double default effects.
   (ii) An FDIC-supervised institution may take into account the risk reducing effects of guarantees and credit derivatives in support of retail exposures in a segment when quantifying the PD and LGD of the segment. In doing so, an FDIC-supervised institution must consider all relevant available information.
   (iii) Except as provided in paragraph (d)(6) of this section, an FDIC-supervised institution may take into account the risk reducing effects of collateral in support of a wholesale exposure when quantifying the LGD of the exposure, and may take into account the risk reducing effects of collateral in support of retail exposures when quantifying the PD and LGD of the segment. In order to do so, an FDIC-supervised institution must have established internal requirements for collateral management, legal certainty, and risk management processes.

(6) EAD for OTC derivative contracts, repo-style transactions, and eligible margin loans. An FDIC-supervised institution must calculate its EAD for an OTC derivative contract as provided in §324.132 (c) and (d). An FDIC-supervised institution may take into account the
risk-reducing effects of financial collateral in support of a repo-style transaction or eligible margin loan and of any collateral in support of a repo-style transaction that is included in the FDIC-supervised institution’s VaR-based measure under subpart F of this part through an adjustment to EAD as provided in §324.132(b) and (d). An FDIC-supervised institution that takes collateral into account through such an adjustment to EAD under §324.132 may not reflect such collateral in LGD.

(7) Effective maturity. An exposure’s M must be no greater than five years and no less than one year, except that an exposure’s M must be no less than one day if the exposure is a trade related letter of credit, or if the exposure has an original maturity of less than one year and is not part of an FDIC-supervised institution’s ongoing financing of the obligor. An exposure is not part of an FDIC-supervised institution’s ongoing financing of the obligor if the FDIC-supervised institution:

(i) Has a legal and practical ability not to renew or roll over the exposure in the event of credit deterioration of the obligor;

(ii) Makes an independent credit decision at the inception of the exposure and at every renewal or roll over; and

(iii) Has no substantial commercial incentive to continue its credit relationship with the obligor in the event of credit deterioration of the obligor.

(8) EAD for exposures to certain central counterparties. An FDIC-supervised institution may attribute an EAD of zero to exposures that arise from the settlement of cash transactions (such as equities, fixed income, spot foreign exchange, and spot commodities) with a central counterparty where there is no assumption of ongoing counterparty credit risk by the central counterparty after settlement of the trade and associated default fund contributions.

(e) Phase 4—Calculation of risk-weighted assets. (1) Non-defaulted exposures.

(i) An FDIC-supervised institution must calculate the dollar risk-based capital requirement for each of its wholesale exposures to a non-defaulted obligor (except for eligible guarantees and eligible credit derivatives that hedge another wholesale exposure, IMM exposures, cleared transactions, default fund contributions, unsettled transactions, and exposures to which the FDIC-supervised institution applies the double default treatment in §324.135) and segments of non-defaulted retail exposures by inserting the assigned risk parameters for the wholesale obligor and exposure or retail segment into the appropriate risk-based capital formula specified in Table 1 to §324.131 and multiplying the output of the formula (K) by the EAD of the exposure or segment. Alternatively, an FDIC-supervised institution may apply a 300 percent risk weight to the EAD of an eligible margin loan if the FDIC-supervised institution is not able to meet the FDIC’s requirements for estimation of PD and LGD for the margin loan.
TABLE I TO § 324.131 – IRB RISK-BASED CAPITAL FORMULAS FOR WHOLESALE EXPOSURES TO NON-DEFAULTED OBLIGORS AND SEGMENTS OF NON-DEFAULTED RETAIL

<table>
<thead>
<tr>
<th>Exposures</th>
<th>( K = \left[ LGD \times N \left( \frac{N^{-1}(PD) + \sqrt{R \times N^{-1}(0.999)}}{\sqrt{1-R}} \right) - (LGD \times PD) \right] )</th>
</tr>
</thead>
</table>
| Retail    | **Capital** requiremment (K)
| Non-Defaulted Exposures | Correlation: For residential mortgage exposures: \( R = 0.15 \)
| Factor (R) | For qualifying revolving exposures: \( R = 0.04 \)
| For other retail exposures: \( R = 0.03 + 0.13 \times e^{-35PD} \)
| Wholesale | **Capital** requiremment (K)
| Non-Defaulted Exposures | Correlation: For HVCRE exposures:
| Factor (R) | \( R = 0.12 + 0.18 \times e^{-50PD} \)
| For wholesale exposures to unregulated financial institutions:
(ii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a non-defaulted obligor and segment of non-defaulted retail exposures calculated in paragraph (e)(1)(i) of this section and in §324.135(e) equals the total dollar risk-based capital requirement for those exposures and segments.

(iii) The aggregate risk-weighted asset amount for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures equals the total dollar risk-based capital requirement in paragraph (e)(1)(ii) of this section multiplied by 12.5.

(2) Wholesale exposures to defaulted obligors and segments of defaulted retail exposures—(1) Not covered by an eligible U.S. government guarantee: The dollar risk-based capital requirement for each wholesale exposure not covered by an eligible guarantee from the U.S. government to a defaulted obligor and each segment of defaulted retail exposures not covered by an eligible guarantee from the U.S. government equals $0.08$ multiplied by the EAD of the exposure or segment.

(ii) Covered by an eligible U.S. government guarantee: The dollar risk-based capital requirement for each wholesale exposure to a defaulted obligor covered by an eligible guarantee from the U.S. government and each segment of defaulted retail exposures covered by an
eligible guarantee from the U.S. government equals the sum of:

(A) The sum of the EAD of the portion of each wholesale exposure to a defaulted obligor covered by an eligible guarantee from the U.S. government plus the EAD of the portion of each segment of defaulted retail exposures that is covered by an eligible guarantee from the U.S. government and the resulting sum is multiplied by 0.016, and

(B) The sum of the EAD of the portion of each wholesale exposure to a defaulted obligor not covered by an eligible guarantee from the U.S. government plus the EAD of the portion of each segment of defaulted retail exposures that is not covered by an eligible guarantee from the U.S. government and the resulting sum is multiplied by 0.08.

(iii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a defaulted obligor and each segment of defaulted retail exposures calculated in paragraph (e)(2)(i) of this section plus the dollar risk-based capital requirements each wholesale exposure to a defaulted obligor and for each segment of defaulted retail exposures calculated in paragraph (e)(2)(ii) of this section equals the total dollar risk-based capital requirement for those exposures and segments.

(iv) The aggregate risk-weighted asset amount for wholesale exposures to defaulted obligors and segments of defaulted retail exposures equals the total dollar risk-based capital requirement calculated in paragraph (e)(2)(iii) of this section multiplied by 12.5.

(3) Assets not included in a defined exposure category. (i) An FDIC-supervised institution must assign a risk-weighted asset amount of zero to cash owned and held in all offices of the FDIC-supervised institution or in transit and for gold bullion held in the FDIC-supervised institution’s own vaults, or held in another depository institution’s vaults on an allocated basis, to the extent the gold bullion assets are offset by gold bullion liabilities.

(ii) An FDIC-supervised institution must assign a risk-weighted asset amount equal to 20 percent of the carrying value of cash items in the process of collection.

(iii) An FDIC-supervised institution must assign a risk-weighted asset amount equal to 50 percent of the carrying value to a pre-sold construction loan unless the purchase contract is cancelled, in which case an FDIC-supervised institution must assign a risk-weighted asset amount equal to 100 percent of the carrying value of the pre-sold construction loan.

(iv) The risk-weighted asset amount for the residual value of a retail lease exposure equals such residual value.

(v) The risk-weighted asset amount for DTAs arising from temporary timing differences that the FDIC-supervised institution could realize through net operating loss carrybacks equals the carrying value, netted in accordance with §324.22.

(vi) The risk-weighted asset amount for MSAs, DTAs arising from temporary timing differences that the FDIC-supervised institution could not realize through net operating loss carrybacks, and significant investments in the capital of unconsolidated financial institutions in the form of common stock that are not deducted pursuant to §324.22(d) equals the amount not subject to deduction multiplied by 250 percent.

(vii) The risk-weighted asset amount for any other on-balance-sheet asset that does not meet the definition of a wholesale, retail, securitization, IMM, or equity exposure, cleared transaction, or default fund contribution and is not subject to deduction under §324.22(a), (c), or (d) equals the carrying value of the asset.

(4) Non-material portfolios of exposures. The risk-weighted asset amount of a portfolio of exposures for which the FDIC-supervised institution has demonstrated to the FDIC’s satisfaction that the portfolio (when combined with all other portfolios of exposures that the FDIC-supervised institution seeks to treat under this paragraph (e)) is not material to the FDIC-supervised institution is the sum of the carrying values of on-balance sheet exposures plus the notional amounts of off-balance sheet exposures in the portfolio. For purposes of this paragraph (e)(4), the notional amount of an OTC derivative contract that is not a credit derivative

315
§ 324.132 Counterparty credit risk of repo-style transactions, eligible margin loans, and OTC derivative contracts.

(a) Methodologies for collateral recognition.

(1) Instead of an LGD estimation methodology, an FDIC-supervised institution may use the following methodologies to recognize the benefits of financial collateral in mitigating the counterparty credit risk of repo-style transactions, eligible margin loans, collateralized OTC derivative contracts and single product netting sets of such transactions, and to recognize the benefits of any collateral in mitigating the counterparty credit risk of repo-style transactions that are included in an FDIC-supervised institution’s VaR-based measure under subpart F of this part:

(i) The collateral haircut approach set forth in paragraph (b)(2) of this section;

(ii) The internal models methodology set forth in paragraph (d) of this section; and

(iii) For single product netting sets of repo-style transactions and eligible margin loans, the simple VaR methodology set forth in paragraph (b)(3) of this section.

(2) An FDIC-supervised institution may use any combination of the three methodologies for collateral recognition; however, it must use the same methodology for transactions in the same category.

(3) An FDIC-supervised institution must use the methodology in paragraph (c) of this section, or with prior written approval of the FDIC, the internal model methodology in paragraph (d) of this section, to calculate EAD for an OTC derivative contract or a set of OTC derivative contracts subject to a qualifying master netting agreement. To estimate EAD for qualifying cross-product master netting agreements, an FDIC-supervised institution may only use the internal models methodology in paragraph (d) of this section.

(4) An FDIC-supervised institution must also use the methodology in paragraph (e) of this section to calculate the risk-weighted asset amounts for CVA for OTC derivatives.

(b) EAD for eligible margin loans and repo-style transactions.

(1) General. An FDIC-supervised institution may recognize the credit risk mitigation benefits of financial collateral that secures an eligible margin loan, repo-style transaction, or single-product netting set of such transactions by factoring the collateral into its LGD estimates for the exposure. Alternatively, an FDIC-supervised institution may estimate an unsecured LGD for the exposure, as well as for any repo-style transaction that is included in the FDIC-supervised institution’s VaR-based measure under subpart F of this part, and determine the EAD of the exposure using:

(i) The collateral haircut approach described in paragraph (b)(2) of this section;

(ii) For netting sets only, the simple VaR methodology described in paragraph (b)(3) of this section; or

(iii) The internal models methodology described in paragraph (d) of this section.

(2) Collateral haircut approach—(i) EAD equation. An FDIC-supervised institution may determine EAD for an eligible margin loan, repo-style transaction, or netting set by setting EAD equal to max {0, \(|\Sigma E - \Sigma C| + \Sigma (E \times H) + \Sigma (E_0 \times H_0)\)}, where:

(A) \(\Sigma E\) equals the value of the exposure (the sum of the current fair values of all instruments, gold, and cash the FDIC-supervised institution has lent, sold subject to repurchase, or posted as collateral to the counterparty under the transaction (or netting set));

(B) \(\Sigma C\) equals the value of the collateral (the sum of the current fair values of all instruments, gold, and cash the FDIC-supervised institution has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the transaction (or netting set));

(C) \(E_0\) equals the absolute value of the net position in a given instrument or in gold (where the net position in a given instrument or in gold equals the...
§ 324.132

The Federal Deposit Insurance Corporation (FDIC) supervisory haircuts approach for market price volatility and foreign exchange rate volatility.

(D) \( H_s \) equals the market price volatility haircut appropriate to the instrument or gold referenced in \( E_s \).

(E) \( E_{\alpha} \) equals the absolute value of the net position of instruments and cash in a currency that is different from the settlement currency (where the net position in a given currency equals the sum of the current fair values of any instruments or cash in the currency the FDIC-supervised institution has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current fair values of any instruments or cash in the currency the FDIC-supervised institution has borrowed, purchased subject to resale, or taken as collateral from the counterparty).

(F) \( H_{\text{fx}} \) equals the haircut appropriate to the mismatch between the currency referenced in \( E_{\alpha} \) and the settlement currency.

(ii) Standard supervisory haircuts.

(A) Under the standard supervisory haircuts approach:

(1) An FDIC-supervised institution must use the haircuts for market price volatility (\( H_s \)) in Table 1 to § 324.132, as adjusted in certain circumstances as provided in paragraphs (b)(2)(ii)(A)(3) and (4) of this section.

(2) For currency mismatches, an FDIC-supervised institution must use a haircut for foreign exchange rate volatility (\( H_{\text{fx}} \)) of 8 percent, as adjusted in certain circumstances as provided in paragraphs (b)(2)(ii)(A)(3) and (4) of this section.

(3) For repo-style transactions, an FDIC-supervised institution may multiply the supervisory haircuts provided in paragraphs (b)(2)(ii)(A)(1) and (2) of this section by the square root of \( \frac{1}{2} \) (which equals 0.707107).

(4) An FDIC-supervised institution must adjust the supervisory haircuts upward on the basis of a holding period longer than ten business days (for eligible margin loans) or five business days (for repo-style transactions) where the following conditions apply. If the number of trades in a netting set exceeds 5,000 at any time during a quarter, an FDIC-supervised institution is calculating EAD for a cleared transaction under § 324.133. If a netting set contains one or more

Main index equities (including convertible bonds) and gold ___________________________ 15.0

Other publicly traded equities (including convertible bonds) _________________________ 25.0

Mutual funds ________________________________________________________ Highest haircut applicable to any security in which the fund can invest.

Cash collateral held ______________________________________________________ Zero

Other exposure types ______________________________________________________ 25.0

Notes:

1 The market price volatility haircuts in Table 1 to § 324.132 are based on a 10 business-day holding period.

2 Includes a foreign PSE that receives a zero percent risk weight.
trades involving illiquid collateral or an OTC derivative that cannot be easily replaced, an FDIC-supervised institution must adjust the supervisory haircuts upward on the basis of a holding period of twenty business days. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the FDIC-supervised institution must adjust the supervisory haircuts upward for that netting set on the basis of a holding period that is at least two times the minimum holding period for that netting set. An FDIC-supervised institution must adjust the standard supervisory haircuts upward using the following formula:

\[ H_A = H_s \sqrt[\frac{T_M}{T_s}], \text{ where,} \]

(i) \( T_M \) equals a holding period of longer than 10 business days for eligible margin loans and derivative contracts or longer than 5 business days for repo-style transactions;
(ii) \( H_s \) equals the standard supervisory haircut;
(iii) \( T_s \) equals 10 business days for eligible margin loans and derivative contracts or 5 business days for repo-style transactions.

If the instrument an FDIC-supervised institution has lent, sold subject to repurchase, or posted as collateral does not meet the definition of financial collateral, the FDIC-supervised institution must use a 25.0 percent haircut for market price volatility (\( H_s \)).

(iii) Own internal estimates for haircuts. With the prior written approval of the FDIC, an FDIC-supervised institution may calculate haircuts (\( H_{s, i} \) and \( H_{s, t} \)) using its own internal estimates of the volatilities of market prices and foreign exchange rates.

(A) To receive FDIC approval to use its own internal estimates, an FDIC-supervised institution must satisfy the following minimum quantitative standards:

(1) An FDIC-supervised institution must use a 99th percentile one-tailed confidence interval.

(2) The minimum holding period for a repo-style transaction is five business days and for an eligible margin loan is ten business days except for transactions or netting sets for which paragraph (b)(2)(iii)(A)(3) of this section applies. When an FDIC-supervised institution calculates an own-estimates haircut on a \( T_N \)-day holding period, which is different from the minimum holding period for the transaction type, the applicable haircut (\( H_{s, t} \)) is calculated using the following square root of time formula:

\[ H_{s, t} = H_N \sqrt[\frac{T_M}{T_N}], \text{ where} \]

(i) \( T_M \) equals 5 for repo-style transactions and 10 for eligible margin loans;
(ii) \( T_N \) equals the holding period used by the FDIC-supervised institution to derive \( H_{s, t} \); and
(iii) \( H_N \) equals the haircut based on the holding period \( T_N \).

(3) If the number of trades in a netting set exceeds 5,000 at any time during a quarter, an FDIC-supervised institution must calculate the haircut using a minimum holding period of twenty business days for the following quarter (except when an FDIC-supervised institution is calculating EAD for a cleared transaction under §324.133). If a netting set contains one or more trades involving illiquid collateral or
an OTC derivative that cannot be easily replaced, an FDIC-supervised institution must calculate the haircut using a minimum holding period of twenty business days. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the FDIC-supervised institution must calculate the haircut for transactions in that netting set on the basis of a holding period that is at least two times the minimum holding period for that netting set.

(4) An FDIC-supervised institution is required to calculate its own internal estimates with inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the security or category of securities.

(5) An FDIC-supervised institution must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the FDIC-supervised institution’s own internal estimates for haircuts under this section and must be able to provide empirical support for the period used. The FDIC-supervised institution must obtain the prior approval of the FDIC for, and notify the FDIC if the FDIC-supervised institution makes any material changes to, these policies and procedures.

(6) Nothing in this section prevents the FDIC from requiring an FDIC-supervised institution to use a different period of significant financial stress in the calculation of own internal estimates for haircuts.

(7) An FDIC-supervised institution must update its data sets and calculate haircuts no less frequently than quarterly and must also reassess data sets and haircuts whenever market prices change materially.

(B) With respect to debt securities that are investment grade, an FDIC-supervised institution may calculate haircuts for categories of securities. For a category of securities, the FDIC-supervised institution must calculate the haircut on the basis of internal volatility estimates for securities in that category that are representative of the securities in that category that the FDIC-supervised institution has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. In determining relevant categories, the FDIC-supervised institution must at a minimum take into account:

(1) The type of issuer of the security;
(2) The credit quality of the security;
(3) The maturity of the security; and
(4) The interest rate sensitivity of the security.

(C) With respect to debt securities that are not investment grade and equity securities, an FDIC-supervised institution must calculate a separate haircut for each individual security.

(D) Where an exposure or collateral (whether in the form of cash or securities) is denominated in a currency that differs from the settlement currency, the FDIC-supervised institution must calculate a separate currency mismatch haircut for its net position in each mismatched currency based on estimated volatilities of foreign exchange rates between the mismatched currency and the settlement currency.

(E) An FDIC-supervised institution’s own estimates of market price and foreign exchange rate volatilities may not take into account the correlations among securities and foreign exchange rates on either the exposure or collateral side of a transaction (or netting set) or the correlations among securities and foreign exchange rates between the exposure and collateral sides of the transaction (or netting set).

(3) Simple VaR methodology. With the prior written approval of the FDIC, an FDIC-supervised institution may estimate EAD for a netting set using a VaR model that meets the requirements in paragraph (b)(3)(iii) of this section. In such event, the FDIC-supervised institution must set EAD equal to max \{0, ([ΣE - ΣC] + PFE)}

(i) ΣE equals the value of the exposure (the sum of the current fair values of all instruments, gold, and cash the FDIC-supervised institution has lent, sold subject to repurchase, or posted as collateral to the counterparty under the netting set);

(ii) ΣC equals the value of the collateral (the sum of the current fair values of all instruments, gold, and cash the FDIC-supervised institution has borrowed, purchased subject to resale, or
taken as collateral from the counterpart under the netting set; and

(iii) PFE (potential future exposure) equals the FDIC-supervised institution's empirically based best estimate of the 99th percentile, one-tailed confidence interval for an increase in the value of $(\Sigma E - \Sigma C)$ over a five-business-day holding period for repo-style transactions, or over a ten-business-day holding period for eligible margin loans except for netting sets for which paragraph (b)(3)(iv) of this section applies using a minimum one-year historical observation period of price data representing the instruments that the FDIC-supervised institution has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. The FDIC-supervised institution must validate its VaR model by establishing and maintaining a rigorous and regular backtesting regime.

(iv) If the number of trades in a netting set exceeds 5,000 at any time during a quarter, an FDIC-supervised institution must use a twenty-business-day holding period for the following quarter (except when an FDIC-supervised institution is calculating EAD for a cleared transaction under §324.133). If a netting set contains one or more trades involving illiquid collateral, an FDIC-supervised institution must use a twenty-business-day holding period. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the holding period, then the FDIC-supervised institution must set its PFE for that netting set equal to an estimate over a holding period that is at least two times the minimum holding period for that netting set.

(c) EAD for OTC derivative contracts—

(1) OTC derivative contracts not subject to a qualifying master netting agreement. An FDIC-supervised institution must determine the EAD for multiple OTC derivative contracts that are subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(6) of this section or using the internal models methodology described in paragraph (d) of this section. An FDIC-supervised institution may reduce the EAD calculated according to paragraph (c)(5) of this section by the credit valuation adjustment that the FDIC-supervised institution has recognized in its balance sheet valuation of any OTC derivative contracts in the netting set. For purposes of this paragraph (c)(1), the credit valuation adjustment does not include any adjustments to common equity tier 1 capital attributable to changes in the fair value of the FDIC-supervised institution’s liabilities that are due to changes in its own credit risk since the inception of the transaction with the counterparty.

(2) OTC derivative contracts subject to a qualifying master netting agreement. An FDIC-supervised institution must determine the EAD for multiple OTC derivative contracts that are subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(6) of this section or using the internal models methodology described in paragraph (d) of this section. An FDIC-supervised institution may reduce the EAD calculated according to paragraph (c)(6) of this section by the credit valuation adjustment that the FDIC-supervised institution has recognized in its balance sheet valuation of any OTC derivative contracts in the netting set. For purposes of this paragraph (c)(2), the credit valuation adjustment does not include any adjustments to common equity tier 1 capital attributable to changes in the fair value of the FDIC-supervised institution’s liabilities that are due to changes in its own credit risk since the inception of the transaction with the counterparty.

(3) Credit derivatives. Notwithstanding paragraphs (c)(1) and (c)(2) of this section:

(1) An FDIC-supervised institution that purchases a credit derivative that is recognized under §324.134 or §324.135 as a credit risk mitigant for an exposure that is not subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(5) of this section or using the internal models methodology described in paragraph (d) of this section. An FDIC-supervised institution may reduce the EAD calculated according to paragraph (c)(5) of this section by the credit valuation adjustment that the FDIC-supervised institution has recognized in its balance sheet valuation of any OTC derivative contracts in the netting set. For purposes of this paragraph (c)(1), the credit valuation adjustment does not include any adjustments to common equity tier 1 capital attributable to changes in the fair value of the FDIC-supervised institution’s liabilities that are due to changes in its own credit risk since the inception of the transaction with the counterparty.
any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(ii) An FDIC-supervised institution that is the protection provider in a credit derivative must treat the credit derivative as a wholesale exposure to the reference obligor and is not required to calculate a counterparty credit risk capital requirement for the credit derivative under this section, so long as it does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes (unless the FDIC-supervised institution is treating the credit derivative as a covered position under subpart F of this part, in which case the FDIC-supervised institution must calculate a supplemental counterparty credit risk capital requirement under this section).

(4) Equity derivatives. An FDIC-supervised institution must treat an equity derivative contract as an equity exposure and compute a risk-weighted asset amount for the equity derivative contract under §§324.151–324.155 (unless the FDIC-supervised institution is treating the contract as a covered position under subpart F of this part). In addition, if the FDIC-supervised institution is treating the contract as a covered position under subpart F of this part, and under certain other circumstances described in §324.155, the FDIC-supervised institution must also calculate a risk-based capital requirement for the counterparty credit risk of an equity derivative contract under this section.

(5) Single OTC derivative contract. Except as modified by paragraph (c)(7) of this section, the EAD for a single OTC derivative contract that is not subject to a qualifying master netting agreement is equal to the sum of the FDIC-supervised institution’s current credit exposure and potential future credit exposure (PFE) on the derivative contract.

(i) Current credit exposure. The current credit exposure for a single OTC derivative contract is the greater of the mark-to-fair value of the derivative contract or zero; and

(ii) PFE. The PFE for a single OTC derivative contract, including an OTC derivative contract with a negative mark-to-fair value, is calculated by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 2 to §324.132. For purposes of calculating either the PFE under paragraph (c)(5) of this section or the gross PFE under paragraph (c)(6) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, the notional principal amount is the net receipts to each party falling due on each value date in each currency. For any OTC derivative contract that does not fall within one of the specified categories in Table 2 to §324.132, the PFE must be calculated using the “other” conversion factors. An FDIC-supervised institution must use an OTC derivative contract’s effective notional principal amount (that is, its apparent or stated notional principal amount multiplied by any multiplier in the OTC derivative contract) rather than its apparent or stated notional principal amount in calculating PFE. PFE of the protection provider of a credit derivative is capped at the net present value of the amount of unpaid premiums.

</table>

1 For an OTC derivative contract with multiple exchanges of principal, the conversion factor is multiplied by the number of remaining payments in the derivative contract.
§ 324.132  12 CFR Ch. III (1–1–17 Edition)

For an OTC derivative contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the fair value of the contract is zero, the remaining maturity equals the time until the next reset date. For an interest rate derivative contract with a remaining maturity of greater than one year that meets these criteria, the minimum conversion factor is 0.005.

An FDIC-supervised institution must use the column labeled “Credit (investment-grade reference asset)” for a credit derivative whose reference asset is an outstanding unsecured long-term debt security without credit enhancement that is investment grade. An FDIC-supervised institution must use the column labeled “Credit (non-investment-grade reference asset)” for all other credit derivatives.

(6) Multiple OTC derivative contracts subject to a qualifying master netting agreement. Except as modified by paragraph (c)(7) of this section, the EAD for multiple OTC derivative contracts subject to a qualifying master netting agreement is equal to the sum of the net current credit exposure and the adjusted sum of the PFE exposure for all OTC derivative contracts subject to the qualifying master netting agreement.

(i) Net current credit exposure. The net current credit exposure is the greater of:

(A) The net sum of all positive and negative fair values of the individual OTC derivative contracts subject to the qualifying master netting agreement; or

(B) Zero; and

(ii) Adjusted sum of the PFE. The adjusted sum of the PFE, \( A_{\text{net}} \), is calculated as \( A_{\text{net}} = (0.4 \times A_{\text{gross}}) + (0.6 \times \text{NGR} \times A_{\text{gross}}) \), where:

(A) \( A_{\text{gross}} \) equals the gross PFE (that is, the sum of the PFE amounts (as determined under paragraph (c)(5)(ii) of this section) for each individual derivative contract subject to the qualifying master netting agreement); and

(B) NGR equals the net to gross ratio (that is, the ratio of the net current credit exposure to the gross current credit exposure). In calculating the NGR, the gross current credit exposure equals the sum of the positive current credit exposures (as determined under paragraph (c)(6)(i) of this section) of all individual derivative contracts subject to the qualifying master netting agreement.

(7) Collateralized OTC derivative contracts. An FDIC-supervised institution may recognize the credit risk mitigation benefits of financial collateral that secures an OTC derivative contract or single-product netting set of OTC derivatives by factoring the collateral into its LGD estimates for the contract or netting set. Alternatively, an FDIC-supervised institution may recognize the credit risk mitigation benefits of financial collateral that secures such a contract or netting set that is marked-to-market on a daily basis and subject to a daily margin maintenance requirement by estimating an unsecured LGD for the contract or netting set and adjusting the EAD calculated under paragraph (c)(5) or (c)(6) of this section using the collateral haircut approach in paragraph (b)(2) of this section. The FDIC-supervised institution must substitute the EAD calculated under paragraph (c)(5) or (c)(6) of this section for \( 2E \) in the equation in paragraph (b)(2)(i) of this section and must use a ten-business day minimum holding period (\( T_M = 10 \)) unless a longer holding period is required by paragraph (b)(2)(iii)(A)(3) of this section.

(8) Clearing member FDIC-supervised institution’s EAD. A clearing member FDIC-supervised institution’s EAD for an OTC derivative contract or netting set of OTC derivative contracts where the FDIC-supervised institution is either acting as a financial intermediary and enters into an offsetting transaction with a QCQP or where the FDIC-supervised institution provides a guarantee to the QCQP on the performance of the client equals the exposure amount calculated according to paragraph (c)(5) or (6) of this section multiplied by the scaling factor 0.71. If the FDIC-supervised institution determines that a longer period is appropriate, it must use a larger scaling factor to adjust for a longer holding period as follows:
where $H$ equals the holding period greater than five days. Additionally, the FDIC may require the FDIC-supervised institution to set a longer holding period if the FDIC determines that a longer period is appropriate due to the nature, structure, or characteristics of the transaction or is commensurate with the risks associated with the transaction.

(d) Internal models methodology. (1)(i) With prior written approval from the FDIC, an FDIC-supervised institution may use the internal models methodology in paragraph (d) to determine EAD for counterparty credit risk for derivative contracts (collateralized or uncollateralized) and single-product netting sets thereof, for eligible margin loans and single-product netting sets thereof, and for repo-style transactions and single-product netting sets thereof.

(ii) An FDIC-supervised institution that uses the internal models methodology for a particular transaction type (derivative contracts, eligible margin loans, or repo-style transactions) must use the internal models methodology for all transactions of that transaction type. An FDIC-supervised institution may choose to use the internal models methodology for one or two of these three types of exposures and not the other types.

(iii) An FDIC-supervised institution may also use the internal models methodology for derivative contracts, eligible margin loans, and repo-style transactions subject to a qualifying cross-product netting agreement if:

(A) The FDIC-supervised institution effectively integrates the risk mitigating effects of cross-product netting into its risk management and other information technology systems; and

(B) The FDIC-supervised institution obtains the prior written approval of the FDIC.

(iv) An FDIC-supervised institution that uses the internal models methodology for a transaction type must receive approval from the FDIC to cease using the methodology for that transaction type or to make a material change to its internal model.

(2) Risk-weighted assets using IMM. Under the IMM, an FDIC-supervised institution uses an internal model to estimate the expected exposure (EE) for a netting set and then calculates EAD based on that EE. An FDIC-supervised institution must calculate two EEs and two EADs (one stressed and one unstressed) for each netting set as follows:

(i) $\text{EAD}_{\text{unstressed}}$ is calculated using an EE estimate based on the most recent data meeting the requirements of paragraph (d)(3)(vii) of this section;

(ii) $\text{EAD}_{\text{stressed}}$ is calculated using an EE estimate based on a historical period that includes a period of stress to the credit default spreads of the FDIC-supervised institution’s counterparties according to paragraph (d)(3)(viii) of this section;

(iii) The FDIC-supervised institution must use its internal model’s probability distribution for changes in the fair value of a netting set that are attributable to changes in market variables to determine EE; and

(iv) Under the internal models methodology, $\text{EAD} = \text{Max} (0, \alpha \times \text{effective EPE} - \text{CVA})$, or, subject to the prior written approval of FDIC as provided in paragraph (d)(10) of this section, a more conservative measure of EAD.

(A) CVA equals the credit valuation adjustment that the FDIC-supervised institution has recognized in its balance sheet valuation of any OTC derivative contracts in the netting set. For purposes of this paragraph (d), CVA does not include any adjustments to common equity tier 1 capital attributable to changes in the fair value of the FDIC-supervised institution’s liabilities that are due to changes in its own credit risk since the inception of the transaction with the counterparty.
Effective EPE_{t_k} = \sum_{k=1}^{n} \text{Effective EE}_k \times \Delta t_k

(that is, effective EPE is the time-weighted average of effective EE where the weights are the proportion that an individual effective EE represents in a one-year time interval) where:

1. EffectiveEE_{t_k} = \max(\text{Effective EE}_{t_k}, EE_{t_k}) (that is, for a specific date t_k, effective EE is the greater of EE at that date or the effective EE at the previous date); and

2. \(t_k\) represents the k\textsuperscript{th} future time period in the model and there are n time periods represented in the model over the first year, and

\(\alpha = 1.4\) except as provided in paragraph (d)(6) of this section, or when the FDIC has determined that the FDIC-supervised institution must set a higher based on the FDIC-supervised institution’s specific characteristics of counterparty credit risk or model performance.

(v) An FDIC-supervised institution may include financial collateral currently posted by the counterparty as collateral (but may not include other forms of collateral) when calculating EE.

(vi) If an FDIC-supervised institution hedges some or all of the counterparty credit risk associated with a netting set using an eligible credit derivative, the FDIC-supervised institution may take the reduction in exposure to the counterparty into account when estimating EE. If the FDIC-supervised institution recognizes this reduction in exposure to the counterparty into account when estimating EE, it must also use its internal model to estimate a separate EAD for the FDIC-supervised institution’s exposure to the protection provider of the credit derivative.

(3) Prior approval relating to EAD calculation. To obtain FDIC approval to calculate the distributions of exposures upon which the EAD calculation is based, the FDIC-supervised institution must demonstrate to the satisfaction of the FDIC that it has been using for at least one year an internal model that broadly meets the following minimum standards, with which the FDIC-supervised institution must maintain compliance:

(i) The model must have the capability to estimate the expected exposure to the counterparty on a daily basis (but is not expected to estimate or report expected exposure on a daily basis);

(ii) The model must estimate expected exposure at enough future dates to reflect accurately all the future cash flows of contracts in the netting set;

(iii) The model must account for the possible non-normality of the exposure distribution, where appropriate;

(iv) The FDIC-supervised institution must measure, monitor, and control current counterparty exposure and the exposure to the counterparty over the whole life of all contracts in the netting set;

(v) The FDIC-supervised institution must be able to measure and manage current exposures gross and net of collateral held, where appropriate. The FDIC-supervised institution must estimate expected exposures for OTC derivative contracts both with and without the effect of collateral agreements;

(vi) The FDIC-supervised institution must have procedures to identify, monitor, and control wrong-way risk throughout the life of an exposure. The procedures must include stress testing and scenario analysis;

(vii) The model must use current market data to compute current exposures. The FDIC-supervised institution must estimate model parameters using historical data from the most recent three-year period and update the data quarterly or more frequently if market conditions warrant. The FDIC-supervised institution should consider using forward-looking measures, where appropriate;

(viii) When estimating model parameters based on a stress period, the FDIC-supervised institution must use at least three years of historical data that include a period of stress to the credit default spreads of the FDIC-supervised institution’s counterparties.
The FDIC-supervised institution must review the data set and update the data as necessary, particularly for any material changes in its counterparties. The FDIC-supervised institution must demonstrate, at least quarterly, and maintain documentation of such demonstration, that the stress period coincides with increased CDS or other credit spreads of the FDIC-supervised institution’s counterparties. The FDIC-supervised institution must have procedures to evaluate the effectiveness of its stress calibration that include a process for using benchmark portfolios that are vulnerable to the same risk factors as the FDIC-supervised institution’s portfolio. The FDIC may require the FDIC-supervised institution to modify its stress calibration to better reflect actual historic losses of the portfolio;

(ix) An FDIC-supervised institution must subject its internal model to an initial validation and annual model review process. The model review should consider whether the inputs and risk factors, as well as the model outputs, are appropriate. As part of the model review process, the FDIC-supervised institution must have a backtesting program for its model that includes a process by which unacceptable model performance will be determined and remedied;

(x) An FDIC-supervised institution must have policies for the measurement, management and control of collateral and margin amounts; and

(xi) An FDIC-supervised institution must have a comprehensive stress testing program that captures all credit exposures to counterparties, and incorporates stress testing of principal market risk factors and creditworthiness of counterparties.

(4) Calculating the maturity of exposures. (i) If the remaining maturity of the exposure or the longest-dated contract in the netting set is greater than one year, the FDIC-supervised institution must set $M$ for the exposure or netting set equal to one year, except as provided in § 324.131(d)(7).

(iii) Alternatively, an FDIC-supervised institution that uses an internal model to calculate a one-sided credit valuation adjustment may use the effective credit duration estimated by the model as $M(EPE)$ in place of the formula in paragraph (d)(4)(i) of this section.

(B) $df_k$ is the risk-free discount factor for future time period $t_k$; and

(C) $\Delta t_k = t_k - t_{k-1}$.
available to capture the effect of a collateral agreement, as set forth in paragraphs (d)(5)(i) and (ii) of this section:

(i) With prior written approval from the FDIC, an FDIC-supervised institution may include the effect of a collateral agreement within its internal model used to calculate EAD. The FDIC-supervised institution may set EAD equal to the expected exposure at the end of the margin period of risk. The margin period of risk means, with respect to a netting set subject to a collateral agreement, the time period from the most recent exchange of collateral with a counterparty until the next required exchange of collateral, plus the period of time required to sell and realize the proceeds of the least liquid collateral that can be delivered under the terms of the collateral agreement and, where applicable, the period of time required to re-hedge the resulting market risk upon the default of the counterparty. The minimum margin period of risk is set according to paragraph (d)(5)(iii) of this section; or

(ii) As an alternative to paragraph (d)(5)(i) of this section, an FDIC-supervised institution that can model EPE without collateral agreements but cannot achieve the higher level of modeling sophistication to model EPE with collateral agreements can set effective EPE for a collateralized netting set equal to the lesser of:

(A) An add-on that reflects the potential increase in exposure of the netting set over the margin period of risk, plus the larger of:

1. The current exposure of the netting set reflecting all collateral held or posted by the FDIC-supervised institution excluding any collateral called or in dispute; or

2. The largest net exposure including all collateral held or posted under the margin agreement that would not trigger a collateral call. For purposes of this section, the add-on is computed as the expected increase in the netting set’s exposure over the margin period of risk (set in accordance with paragraph (d)(5)(iii) of this section); or

(B) Effective EPE without a collateral agreement plus any collateral the FDIC-supervised institution posts to the counterparty that exceeds the required margin amount.

(iii) For purposes of this part, including paragraphs (d)(5)(i) and (ii) of this section, the margin period of risk for a netting set subject to a collateral agreement is:

(A) Five business days for repo-style transactions subject to daily remargining and daily marking-to-market, and ten business days for other transactions when liquid financial collateral is posted under a daily margin maintenance requirement, or

(B) Twenty business days if the number of trades in a netting set exceeds 5,000 at any time during the previous quarter (except if the FDIC-supervised institution is calculating EAD for a cleared transaction under §324.133) or contains one or more trades involving illiquid collateral or any derivative contract that cannot be easily replaced. If over the two previous quarters more than two margin disputes on a netting set have occurred that lasted more than the margin period of risk, then the FDIC-supervised institution must use a margin period of risk for that netting set that is at least two times the minimum margin period of risk for that netting set. If the periodicity of the receipt of collateral is N-days, the minimum margin period of risk is the minimum margin period of risk under this paragraph (d) plus N minus 1. This period should be extended to cover any impediments to prompt re-hedging of any market risk.

(C) Five business days for an OTC derivative contract or netting set of OTC derivative contracts where the FDIC-supervised institution is either acting as a financial intermediary and enters into an offsetting transaction with a CCP or where the FDIC-supervised institution provides a guarantee to the CCP on the performance of the client. An FDIC-supervised institution must use a longer holding period if the FDIC-supervised institution determines that a longer period is appropriate. Additionally, the FDIC may require the FDIC-supervised institution to set a longer holding period if the FDIC determines that a longer period is appropriate due to the nature, structure, or characteristics of the transaction or is commensurate with the risks associated with the transaction.
Federal Deposit Insurance Corporation

§ 324.132

(6) Own estimate of alpha. With prior written approval of the FDIC, an FDIC-supervised institution may calculate alpha as the ratio of economic capital from a full simulation of counterparty exposure across counterparties that incorporates a joint simulation of market and credit risk factors (numerator) and economic capital based on EPE (denominator), subject to a floor of 1.2. For purposes of this calculation, economic capital is the unexpected losses for all counterparty credit risks measured at a 99.9 percent confidence level over a one-year horizon. To receive approval, the FDIC-supervised institution must meet the following minimum standards to the satisfaction of the FDIC:

(i) The FDIC-supervised institution’s own estimate of alpha must capture in the numerator the effects of:

(A) The material sources of stochastic dependency of distributions of fair values of transactions or portfolios of transactions across counterparties;

(B) Volatilities and correlations of market risk factors used in the joint simulation, which must be related to the credit risk factor used in the simulation to reflect potential increases in volatility or correlation in an economic downturn, where appropriate; and

(C) The granularity of exposures (that is, the effect of a concentration in the proportion of each counterparty’s exposure that is driven by a particular risk factor).

(ii) The FDIC-supervised institution must assess the potential model uncertainty in its estimates of alpha.

(iii) The FDIC-supervised institution must calculate the numerator and denominator of alpha in a consistent fashion with respect to modeling methodology, parameter specifications, and portfolio composition.

(iv) The FDIC-supervised institution must review and adjust as appropriate its estimates of the numerator and denominator of alpha on at least a quarterly basis and more frequently when the composition of the portfolio varies over time.

(7) Risk-based capital requirements for transactions with specific wrong-way risk. An FDIC-supervised institution must determine if a repo-style transaction, eligible margin loan, bond option, or equity derivative contract or purchased credit derivative to which the FDIC-supervised institution applies the internal models methodology under this paragraph (d) has specific wrong-way risk. If a transaction has specific wrong-way risk, the FDIC-supervised institution must treat the transaction as its own netting set and exclude it from the model described in paragraph (d)(2) of this section and instead calculate the risk-based capital requirement for the transaction as follows:

(i) For an equity derivative contract, by multiplying:

(A) K, calculated using the appropriate risk-based capital formula specified in Table 1 of §324.131 using the PD of the counterparty and LGD equal to 100 percent, by

(B) The maximum amount the FDIC-supervised institution could lose on the equity derivative.

(ii) For a purchased credit derivative by multiplying:

(A) K, calculated using the appropriate risk-based capital formula specified in Table 1 of §324.131 using the PD of the counterparty and LGD equal to 100 percent, by

(B) The fair value of the reference asset of the credit derivative.

(iii) For a bond option, by multiplying:

(A) K, calculated using the appropriate risk-based capital formula specified in Table 1 of §324.131 using the PD of the counterparty and LGD equal to 100 percent, by

(B) The smaller of the notional amount of the underlying reference asset and the maximum potential loss under the bond option contract.

(iv) For a repo-style transaction or eligible margin loan by multiplying:

(A) K, calculated using the appropriate risk-based capital formula specified in Table 1 of §324.131 using the PD of the counterparty and LGD equal to 100 percent, by

(B) The EAD of the transaction determined according to the EAD equation in §324.132(b)(2), substituting the estimated value of the collateral assuming a default of the counterparty for the value of the collateral in \( \Sigma C \) of the equation.
(8) **Risk-weighted asset amount for IMM exposures with specific wrong-way risk.**

The aggregate risk-weighted asset amount for IMM exposures with specific wrong-way risk is the sum of an FDIC-supervised institution’s risk-based capital requirement for purchased credit derivatives that are not bond options with specific wrong-way risk as calculated under paragraph (d)(7)(ii) of this section, an FDIC-supervised institution’s risk-based capital requirement for equity derivatives with specific wrong-way risk as calculated under paragraph (d)(7)(i) of this section, an FDIC-supervised institution’s risk-based capital requirement for bond options with specific wrong-way risk as calculated under paragraph (d)(7)(iii) of this section, and an FDIC-supervised institution’s risk-based capital requirement for repo-style transactions and eligible margin loans with specific wrong-way risk as calculated under paragraph (d)(7)(iv) of this section, multiplied by 12.5.

(9) **Risk-weighted assets for IMM exposures.**

(i) The FDIC-supervised institution must insert the assigned risk parameters for each counterparty and netting set into the appropriate formula specified in Table 1 of §324.131 and multiply the output of the formula by the EAD unstressed of the netting set to obtain the unstressed capital requirement for each netting set. An FDIC-supervised institution that uses an advanced CVA approach that captures migrations in credit spreads under paragraph (e)(3) of this section must set the maturity adjustment (b) in the formula equal to zero. The sum of the unstressed capital requirement calculated for each netting set equals $K_{\text{unstressed}}$.

(ii) The FDIC-supervised institution's dollar risk-based capital requirement under the internal models methodology equals the larger of $K_{\text{unstressed}}$ and $K_{\text{stressed}}$. An FDIC-supervised institution’s risk-weighted assets amount for IMM exposures is equal to the capital requirement multiplied by 12.5, plus risk-weighted assets for IMM exposures with specific wrong-way risk in paragraph (d)(8) of this section and those in paragraph (d)(10) of this section.

(10) **Other measures of counterparty exposure.**

(i) With prior written approval of the FDIC, an FDIC-supervised institution may set EAD equal to a measure of counterparty credit risk exposure, such as peak EAD, that is more conservative than an alpha of 1.4 (or higher under the terms of paragraph (d)(7)(iv)(C) of this section) times the larger of EPE unstressed and EPE stressed for every counterparty whose EAD will be measured under the alternative measure of counterparty exposure. The FDIC-supervised institution must demonstrate the conservatism of the measure of counterparty credit risk exposure used for EAD. With respect to paragraph (d)(10)(i) of this section:

(A) For material portfolios of new OTC derivative products, the FDIC-supervised institution may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this section for a period not to exceed 180 days.

(B) For immaterial portfolios of OTC derivative contracts, the FDIC-supervised institution generally may assume that the current exposure methodology in paragraphs (c)(5) and (c)(6) of this section meets the conservatism requirement of this section.

(ii) To calculate risk-weighted assets for purposes of the approach in paragraph (d)(10)(i) of this section, the FDIC-supervised institution must insert the assigned risk parameters for each counterparty and netting set into the appropriate formula specified in Table 1 of §324.131, multiply the output
of the formula by the EAD for the exposure as specified above, and multiply by 12.5.

(e) Credit valuation adjustment (CVA) risk-weighted assets. (1) In general. With respect to its OTC derivative contracts, an FDIC-supervised institution must calculate a CVA risk-weighted asset amount for its portfolio of OTC derivative transactions that are subject to the CVA capital requirement using the simple CVA approach described in paragraph (e)(5) of this section or, with prior written approval of the FDIC, the advanced CVA approach described in paragraph (e)(6) of this section. An FDIC-supervised institution that receives prior FDIC approval to calculate its CVA risk-weighted asset amounts for a class of counterparties using the advanced CVA approach must continue to use that approach for that class of counterparties until it notifies the FDIC in writing that the FDIC-supervised institution expects to begin calculating its CVA risk-weighted asset amount using the simple CVA approach. Such notice must include an explanation of the FDIC-supervised institution’s rationale and the date upon which the FDIC-supervised institution will begin to calculate its CVA risk-weighted asset amount using the simple CVA approach.

(2) Market risk FDIC-supervised institutions. Notwithstanding the prior approval requirement in paragraph (e)(1) of this section, a market risk FDIC-supervised institution may calculate its CVA risk-weighted asset amount using the simple CVA approach.

(3) Recognition of hedges. (i) An FDIC-supervised institution may recognize a single name CDS, single name contingent CDS, any other equivalent hedging instrument that references the counterparty directly, and index credit default swaps (CDS_{ind}) as a CVA hedge under paragraph (e)(5)(ii) of this section or paragraph (e)(6) of this section, provided that the position is managed as a CVA hedge in accordance with the FDIC-supervised institution’s hedging policies.

(ii) An FDIC-supervised institution shall not recognize as a CVA hedge any tranched or nth-to-default credit derivative.

(4) Total CVA risk-weighted assets. Total CVA risk-weighted assets is the CVA capital requirement, $K_{CVA}$, calculated for an FDIC-supervised institution’s entire portfolio of OTC derivative counterparties that are subject to the CVA capital requirement, multiplied by 12.5.

(5) Simple CVA approach. (i) Under the simple CVA approach, the CVA capital requirement, $K_{CVA}$, is calculated according to the following formula:

\[
K_{CVA} = 2.33 \times \sqrt{\left( \sum_{i} 0.5 \times w_i \times \left( M_i \times EAD_i^{\text{not}} - M_i^{\text{hedge}} \times B_i \right) - \sum_{\text{not}} w_{\text{not}} \times M_{\text{not}} \times B_{\text{not}} \right)^2 + A}
\]

Where:

\[
A = \sum_{i} 0.75 \times w_i^2 \times \left( M_i \times EAD_i^{\text{not}} - M_i^{\text{hedge}} \times B_i \right)^2
\]

(A) $w_i$ equals the weight applicable to counterparty $i$ under Table 3 to §324.132;

(B) $M_i$ equals the EAD-weighted average of the effective maturity of each netting set with counterparty $i$ (where each netting set’s effective maturity can be no less than one year.)
§ 324.132

(C) EAD, total equals the sum of the EAD for all netting sets of OTC derivative contracts with counterparty i calculated using the current exposure methodology described in paragraph (c) of this section or the internal models methodology described in paragraph (d) of this section. When the FDIC-supervised institution calculates EAD under paragraph (c) of this section, such EAD may be adjusted for purposes of calculating EAD, total by multiplying EAD by \((1 - \exp(-0.05 \times M_i))/0.05 \times M_i\), where “exp” is the exponential function. When the FDIC-supervised institution calculates EAD under paragraph (d) of this section, EAD, total equals EAD, unstressed.

(D) \(M_i\), hedge equals the notional weighted average maturity of the hedge instrument.

(E) \(B_i\) equals the sum of the notional amounts of any purchased single name CDS referencing counterparty i that is used to hedge CVA risk to counterparty i multiplied by \((1 - \exp(-0.05 \times M_i))/0.05 \times M_i\).

(F) \(M_{ind}\) equals the maturity of the CDS\(_{ind}\) or the notional weighted average maturity of any CDS\(_{ind}\) purchased to hedge CVA risk for counterparty i.

(G) \(B_{ind}\) equals the notional amount of one or more CDS\(_{ind}\) purchased to hedge CVA risk for counterparty i multiplied by \((1 - \exp(-0.05 \times M_{ind}))/0.05 \times M_{ind}\).

(H) \(w_{ind}\) equals the weight applicable to the CDS\(_{ind}\) based on the average weight of the underlying reference names that comprise the index under Table 3 to §324.132.

(ii) The FDIC-supervised institution may treat the notional amount of the index attributable to a counterparty as a single name hedge of counterparty i (\(B_i\)) when calculating \(K_{CVA}\), and subtract the notional amount of \(B_i\) from the notional amount of the CDS\(_{ind}\). An FDIC-supervised institution must treat the CDS\(_{ind}\) hedge with the notional amount reduced by \(B_i\) as a CVA hedge.

### TABLE 3 TO §324.132—ASSIGNMENT OF COUNTERPARTY WEIGHT

(6) Advanced CVA approach. (i) An FDIC-supervised institution may use the VaR model that it uses to determine specific risk under §324.207(b) or another VaR model that meets the quantitative requirements of §324.205(b) and §324.207(b)(1) to calculate its CVA capital requirement for a counterparty by modeling the impact of changes in the counterparties’ credit spreads, together with any recognized CVA hedges, on the CVA for the counterparties, subject to the following requirements:

(A) The VaR model must incorporate only changes in the counterparties’ credit spreads, not changes in other risk factors. The VaR model does not need to capture jump-to-default risk;

(B) An FDIC-supervised institution that qualifies to use the advanced CVA approach must include in that approach any immaterial OTC derivative portfolios for which it uses the current exposure methodology in paragraph (c) of this section according to paragraph (e)(6)(viii) of this section; and

(C) An FDIC-supervised institution must have the systems capability to calculate the CVA capital requirement for a counterparty on a daily basis (but is not required to calculate the CVA capital requirement on a daily basis).

(ii) Under the advanced CVA approach, the CVA capital requirement, \(K_{CVA}\), is calculated according to the following formulas:
where \( \text{Var}^{CVA} \) is the 99% VaR reflecting changes of \( CVA_j \) and fair value of eligible hedges (aggregated across all counterparties and eligible hedges) resulting from simulated changes of credit spreads over a 10-day time horizon. \( CVA_j \) for a given counterparty must be calculated according to

\[
CVA_j = (LGD_{MKT}) \times \sum_{i=1}^{T} \max \left( 0, \exp \left( -\frac{s_i \times t_i}{LGD_{MKT}} \right) - \exp \left( -\frac{s_i \times t_i}{LGD_{MKT}} \right) \right) \times \frac{EE_{i-1} \times D_{i-1} + EE_{i+1} \times D_{i+1}}{2}
\]

Where

- (A) \( t_i \) equals the time of the \( i \)-th revaluation time bucket starting from \( t_0 = 0 \).
- (B) \( t_T \) equals the longest contractual maturity across the OTC derivative contracts with the counterparty.
- (C) \( s_i \) equals the CDS spread for the counterparty at tenor \( t_i \) used to calculate the CVA for the counterparty. If a CDS spread is not available, the FDIC-supervised institution must use a proxy spread based on the credit quality, industry and region of the counterparty.
- (D) \( LGD_{MKT} \) equals the loss given default of the counterparty based on the spread of a publicly traded debt instrument of the counterparty, or, if a publicly traded debt instrument spread is not available, a proxy spread based on the credit quality, industry, and region of the counterparty. Where no market information and no reliable proxy based on the credit quality, industry, and region of the counterparty are available to determine \( LGD_{MKT} \), an FDIC-supervised institution may use a conservative estimate subject to approval by the FDIC.
- (E) \( EE \) equals the sum of the expected exposures for all netting sets with the counterparty at revaluation time \( t_i \), calculated according to paragraphs (e)(6)(iv)(A) and (e)(6)(v)(A) of this section.
- (F) \( D_i \) equals the risk-free discount factor at time \( t_i \), where \( D_0 = 1 \).
- (G) Exp is the exponential function.
- (H) The subscript \( j \) refers either to a stressed or an unstressed calibration as described in paragraphs (e)(6)(iv) and (v) of this section.

(iii) Notwithstanding paragraphs (e)(6)(i) and (e)(6)(ii) of this section, an FDIC-supervised institution must use the formulas in paragraphs (e)(6)(iii)(A) or (e)(6)(iii)(B) of this section to calculate credit spread sensitivities if its VaR model is not based on full repricing.

(A) If the VaR model is based on credit spread sensitivities for specific tenors, the FDIC-supervised institution must calculate each credit spread sensitivity according to the following formula:

\[
0.0001 \times t_i \times \exp \left( -\frac{s_i \times t_i}{LGD_{MKT}} \right) \times \left( EE_{i-1} \times D_{i-1} - EE_{i+1} \times D_{i+1} \right)
\]

(B) If the VaR model uses credit spread sensitivities to parallel shifts in credit spreads, the FDIC-supervised institution must calculate each credit spread sensitivity according to the following formula:
(iv) To calculate the \(CVA_{Unstressed}\) measure for purposes of paragraph (e)(6)(ii) of this section, the FDIC-supervised institution must:

(A) Use the EE, calculated using the calibration of paragraph (d)(3)(vii) of this section, except as provided in §324.132 (e)(6)(vi), and

(B) Use the historical observation period required under §324.205(b)(2).

(v) To calculate the \(CVA_{Stressed}\) measure for purposes of paragraph (e)(6)(ii) of this section, the FDIC-supervised institution must:

(A) Use the \(EE\), calculated using the stress calibration in paragraph (d)(3)(viii) of this section except as provided in paragraph (e)(6)(vi) of this section.

(B) Calibrate VaR model inputs to historical data from the most severe twelve-month stress period contained within the three-year stress period used to calculate \(EE\). The FDIC may require an FDIC-supervised institution to use a different period of significant financial stress in the calculation of the \(CVA_{Stressed}\) measure.

(vi) If an FDIC-supervised institution captures the effect of a collateral agreement on EAD using the method described in paragraph (d)(5)(ii) of this section, for purposes of paragraph (e)(6)(ii) of this section, the FDIC-supervised institution must calculate EE, using the method in paragraph (d)(5)(ii) of this section and keep that EE constant with the maturity equal to the maximum of:

(A) Half of the longest maturity of a transaction in the netting set, and

(B) The notional weighted average maturity of all transactions in the netting set.

(vii) For purposes of paragraph (e)(6) of this section, the FDIC-supervised institution’s VaR model must capture the basis between the spreads of any CDS ind that is used as the hedging instrument and the hedged counterparty exposure over various time periods, including benign and stressed environments. If the VaR model does not capture that basis, the FDIC-supervised institution must reflect only 50 percent of the notional amount of the CDS ind hedge in the VaR model.

(viii) If an FDIC-supervised institution uses the current exposure methodology described in paragraphs (c)(5) and (c)(6) of this section to calculate the EAD for any immaterial portfolios of OTC derivative contracts, the FDIC-supervised institution must use that EAD as a constant EE in the formula for the calculation of CVA with the maturity equal to the maximum of:

(A) Half of the longest maturity of a transaction in the netting set, and

(B) The notional weighted average maturity of all transactions in the netting set.

§324.133 Cleared transactions.

(a) General requirements. (1) An FDIC-supervised institution that is a clearing member client must use the methodologies described in paragraph (b) of this section to calculate risk-weighted assets for a cleared transaction.

(2) An FDIC-supervised institution that is a clearing member must use the methodologies described in paragraph (c) of this section to calculate its risk-weighted assets for cleared transactions and paragraph (d) of this section to calculate its risk-weighted assets for its default fund contribution to a CCP.
(b) Clearing member client FDIC-supervised institutions—(1) Risk-weighted assets for cleared transactions. (i) To determine the risk-weighted asset amount for a cleared transaction, an FDIC-supervised institution that is a clearing member client must multiply the trade exposure amount for the cleared transaction, calculated in accordance with paragraph (b)(2) of this section, by the risk weight appropriate for the cleared transaction, determined in accordance with paragraph (b)(3) of this section. 

(ii) A clearing member client FDIC-supervised institution’s total risk-weighted assets for cleared transactions is the sum of the risk-weighted asset amounts for all of its cleared transactions.

(2) Trade exposure amount. (i) For a cleared transaction that is a derivative contract or a netting set of derivative contracts, trade exposure amount equals the EAD for the derivative contract or netting set of derivative contracts calculated using the methodology used to calculate EAD for OTC derivative contracts set forth in §324.132(c) or (d), plus the fair value of the collateral posted by the clearing member client FDIC-supervised institution and held by the CCP or a clearing member in a manner that is not bankruptcy remote. When the FDIC-supervised institution calculates EAD for the cleared transaction using the methodology in §324.132(d), EAD equals EADunstressed.

(ii) For a cleared transaction that is a repo-style transaction or netting set of repo-style transactions, trade exposure amount equals the EAD for the repo-style transaction calculated using the methodology set forth in §324.132(b)(2), (b)(3), or (d), plus the fair value of the collateral posted by the clearing member client FDIC-supervised institution and held by the CCP or a clearing member in a manner that is not bankruptcy remote. When the FDIC-supervised institution calculates EAD for the cleared transaction under §324.132(d), EAD equals EADunstressed.

(3) Cleared transaction risk weights. (i) For a cleared transaction with a QCCP, a clearing member client FDIC-supervised institution must apply a risk weight of:

(A) 2 percent if the collateral posted by the FDIC-supervised institution to the QCCP or clearing member is subject to an arrangement that prevents any loss to the clearing member client FDIC-supervised institution due to the joint default or a concurrent insolvency, liquidation, or receivership proceeding of the clearing member and any other clearing member clients of the clearing member; and the clearing member client FDIC-supervised institution has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that in the event of a legal challenge (including one resulting from an event of default or from liquidation, insolvency or receivership proceedings) the relevant court and administrative authorities would find the arrangements to be legal, valid, binding and enforceable under the law of the relevant jurisdictions.

(B) 4 percent, if the requirements of paragraph (b)(3)(i)(A) of this section are not met.

(ii) For a cleared transaction with a CCP that is not a QCCP, a clearing member client FDIC-supervised institution must apply the risk weight applicable to the CCP under §324.32.

(4) Collateral. (i) Notwithstanding any other requirement of this section, collateral posted by a clearing member client FDIC-supervised institution must apply the risk weight applicable to the CCP under §324.32.

(c) Clearing member FDIC-supervised institution—(1) Risk-weighted assets for cleared transactions. (i) To determine the risk-weighted asset amount for a cleared transaction, a clearing member FDIC-supervised institution must multiply the trade exposure amount for
§ 324.133  
the cleared transaction, calculated in accordance with paragraph (c)(2) of this section by the risk weight appropriate for the cleared transaction, determined in accordance with paragraph (c)(3) of this section.

(ii) A clearing member FDIC-supervised institution’s total risk-weighted assets for cleared transactions is the sum of the risk-weighted asset amounts for all of its cleared transactions.

(2) Trade exposure amount. A clearing member FDIC-supervised institution must calculate its trade exposure amount for a cleared transaction as follows:

(i) For a cleared transaction that is a derivative contract or a netting set of derivative contracts, trade exposure amount equals the EAD calculated using the methodology used to calculate EAD for OTC derivative contracts set forth in §324.132(c) or §324.132(d), plus the fair value of the collateral posted by the clearing member FDIC-supervised institution and held by the CCP in a manner that is not bankruptcy remote. When the clearing member FDIC-supervised institution calculates EAD for the cleared transaction using the methodology in §324.132(d), EAD equals EAD_{unstressed}.

(ii) For a cleared transaction that is a repo-style transaction or netting set of repo-style transactions, trade exposure amount equals the EAD calculated under §§324.132(b)(2), (b)(3), or (d), plus the fair value of the collateral posted by the clearing member FDIC-supervised institution and held by the CCP in a manner that is not bankruptcy remote. When the clearing member FDIC-supervised institution calculates EAD for the cleared transaction using the methodology in §324.132(d), EAD equals EAD_{unstressed}.

(3) Cleared transaction risk weights. (i) A clearing member FDIC-supervised institution must apply a risk weight of 2 percent to the trade exposure amount for a cleared transaction with a QCCP.

(ii) For a cleared transaction with a CCP that is not a QCCP, a clearing member FDIC-supervised institution must apply the risk weight applicable to the CCP according to §324.32.

(3) Risk-weighted asset amount for default fund contributions to non-qualifying CCPs. A clearing member FDIC-supervised institution’s risk-weighted asset amount for default fund contributions to CCPs that are not QCCPs equals the sum of such default fund contributions multiplied by 1,250 percent or an amount determined by the FDIC, based on factors such as size, structure and membership characteristics of the CCP and riskiness of its transactions, in cases where such default fund contributions may be unlimited.

(3) Risk-weighted asset amount for default fund contributions to QCCPs. A clearing member FDIC-supervised institution’s risk-weighted asset amount for default fund contributions to
Federal Deposit Insurance Corporation

§ 324.133

QCPCs equals the sum of its capital requirement, $K_{CM}$ for each QCPC, as calculated under the methodology set forth in paragraph (d)(3)(i) of this section (Method 1), multiplied by 1.250 percent or paragraph (d)(3)(iv) of this section (Method 2).

(i) Method 1. The hypothetical capital requirement of a QCPC ($K_{CCP}$) equals:

$$K_{CCP} = \sum_{\text{clearing member } i} \max (EBRM_i - VM_i - IM_i - DF_i; 0) \times RW \times 0.08$$

Where

(A) EBRM, equals the EAD for each transaction cleared through the QCPC by clearing member $i$, calculated using the methodology used to calculate EAD for OTC derivative contracts set forth in § 324.132(c)(5) and § 324.132(c)(6) or the methodology used to calculate EAD for repo-style transactions set forth in § 324.132(b)(2) for repo-style transactions, provided that:

(1) For purposes of this section, when calculating the EAD, the FDIC-supervised institution may replace the formula provided in § 324.132 (c)(6)(ii) with the following formula:

(2) For option derivative contracts that are cleared transactions, the PFE described in § 324.132(c)(5) must be adjusted by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 2 to § 324.132 and the absolute value of the option’s delta, that is, the ratio of the change in the value of the derivative contract to the corresponding change in the price of the underlying asset.

(3) For repo-style transactions, when applying § 324.132(b)(2), the FDIC-supervised institution must use the methodology in § 324.132(b)(2)(ii).

(B) VM, equals any collateral posted by clearing member $i$ to the QCPC that it is entitled to receive from the QCPC but has not yet received, and any collateral that the QCPC has actually received from clearing member $i$;

(C) IM, equals the collateral posted as initial margin by clearing member $i$ to the QCPC;

(D) DF, equals the funded portion of clearing member $i$’s default fund contribution that will be applied to reduce the QCPC’s loss upon a default by clearing member $i$; and

(E) RW equals 20 percent, except when the FDIC has determined that a higher risk weight is more appropriate based on the specific characteristics of the QCPC and its clearing members; and

(F) Where a QCPC has provided its $K_{CCP}$, an FDIC-supervised institution must rely on such disclosed figure instead of calculating $K_{CCP}$ under this paragraph (d), unless the FDIC-supervised institution determines that a more conservative figure is appropriate based on the nature, structure, or characteristics of the QCPC.

(ii) For an FDIC-supervised institution that is a clearing member of a QCPC with a default fund supported by funded commitments, $K_{CM}$ equals:

$$\text{Anet} = (0.15 \times A_{\text{gross}}) + (0.85 \times NGR \times A_{\text{gross}}); \text{ and}$$

$$\text{(D) DF, equals the funded portion of clearing member } i' \text{ s default fund contribution that will be applied to reduce the QCPC's loss upon a default by clearing member } i; \text{ and}$$

$$\text{(E) RW equals 20 percent, except when the FDIC has determined that a higher risk weight is more appropriate based on the specific characteristics of the QCPC and its clearing members; and}$$

$$\text{(F) Where a QCPC has provided its } K_{CCP}, \text{ an FDIC-supervised institution must rely on such disclosed figure instead of calculating } K_{CCP} \text{ under this paragraph (d), unless the FDIC-supervised institution determines that a more conservative figure is appropriate based on the nature, structure, or characteristics of the QCPC.}$$

$$\text{(ii) For an FDIC-supervised institution that is a clearing member of a QCPC with a default fund supported by funded commitments, } K_{CM} \text{ equals:}$$
\[ K_{\text{CM}_i} = \left(1 + \beta \cdot \frac{N}{N-2}\right) \cdot \frac{DF_i}{DF_{\text{CM}_i}} \cdot K_{\text{CM}_i}^* \]

\[ K_{\text{CM}_i}^* = \begin{cases} 
    c_2 \cdot (K_{\text{CCP}} - DF) + c_2 \cdot DF_{\text{CM}_i}^* & \text{if} \quad DF < K_{\text{CCP}} \\
    c_1 \cdot (K_{\text{CCP}} - DF_{\text{CCP}}) + c_1 \cdot (DF_{\text{CCP}} - K_{\text{CCP}}) & \text{if} \quad DF_{\text{CCP}} < K_{\text{CCP}} \leq DF \\
    c_1 \cdot DF_{\text{CM}_i}^* & \text{if} \quad K_{\text{CCP}} \leq DF_{\text{CCP}}
\end{cases} \] (i) (ii) (iii)

Where

\( \beta = \frac{A_{\text{Net}_1} + A_{\text{Net}_2}}{\sum A_{\text{Net}_j}} \)

Subscripts 1 and 2 denote the clearing members with the two largest \( A_{\text{Net}} \) values.

For purposes of this section, for cleared transactions that are derivatives, \( A_{\text{Net}} \) is defined using the definition set forth in § 324.132(c)(6)(ii) and for cleared transactions that are repo-style transactions, \( A_{\text{Net}} \) is the EAD equation \( \max \{0, (\sum E - \sum C) + \sum (E_n \times H_n) + \sum (E_{fX})\} \) from § 324.132(b)(2)(i) using the methodology in § 324.132(b)(2)(ii);

(B) \( N \) equals the number of clearing members in the Q CCP;

(C) \( DF_{\text{CCP}} \) equals the Q CCP’s own funds and other financial resources that would be used to cover its losses before clearing members’ default fund contributions are used to cover losses;

(D) \( DF_{\text{CM}} \) equals Funded default fund contributions from all clearing members and any other clearing member contributed financial resources that are available to absorb mutualized Q CCP losses;

(E) \( DF = DF_{\text{CCP}} + DF_{\text{CM}} \) (that is, the total funded default fund contribution);
(F) \( \overline{DF}_i = \text{Average } DF_i \) the average funded default fund contribution from an individual clearing member;

(G) \( DF^*_{CM} = DF_{CM} - 2 \cdot \overline{DF}_i = \sum DF_i - 2 \cdot \overline{DF}_i \) (that is, the funded default fund contribution from surviving clearing members assuming that two average clearing members have defaulted and their default fund contributions and initial margins have been used to absorb the resulting losses);

(H) \( DF^* = DF_{CM} + DF^*_{CM} = DF - 2 \cdot \overline{DF}_i \) (that is, the total funded default fund contributions from the QCCP and the surviving clearing members that are available to mutualize losses, assuming that two average clearing members have defaulted);

(I) \( c_1 = \max \left\{ \frac{1.6\%}{(DF_i/K_{CCP})^{0.16}} \right\} \) (that is, a decreasing capital factor, between 1.6 percent and .16 percent, applied to the excess funded default funds provided by clearing members);

(J) \( c_2 = 100 \) percent; and

(K) \( \mu = 1.2; \) \(<\!\!/<\!\!/>\text{EXTRACT}\!\!/>\)

(iii) For an FDIC-supervised institution that is a clearing member of a QCCP with a default fund supported by unfunded commitments, \( K_{CM} \) equals:

\[
K_{CM} = \frac{DF_{CM}}{DF_{CM}} \cdot K^*_{CM}
\]

Where

(A) \( DF_i \) equals the FDIC-supervised institution’s unfunded commitment to the default fund;
(B) \( DF_{CM} \) equals the total of all clearing members’ unfunded commitments to the default fund; and
(C) \( K^*_{CM} \) as defined in paragraph (d)(3)(ii) of this section.

(D) For an FDIC-supervised institution that is a clearing member of a QCCP with a default fund supported by unfunded commitments and that is unable to calculate \( K_{CM} \) using the methodology described above in this paragraph (d)(3)(iii), \( K_{CM} \) equals:
§ 324.134 Guarantees and credit derivatives: PD substitution and LGD adjustment approaches.

(a) Scope. (1) This section applies to wholesale exposures for which:
   (i) Credit risk is fully covered by an eligible guarantee or eligible credit derivative; or
   (ii) Credit risk is covered on a pro rata basis (that is, on a basis in which the FDIC-supervised institution and the protection provider share losses proportionately) by an eligible guarantee or eligible credit derivative.

(2) Wholesale exposures on which there is a tranche of credit risk (reflecting at least two different levels of seniority) are securitization exposures subject to §§ 324.141 through 324.145.

(3) An FDIC-supervised institution may elect to recognize the credit risk mitigation benefits of an eligible guarantee or eligible credit derivative covering an exposure described in paragraph (a)(1) of this section by using the PD substitution approach or the LGD adjustment approach in paragraph (c) of this section or, if the transaction qualifies, using the double default treatment in § 324.135. An FDIC-supervised institution’s PD and LGD for the hedged exposure may not be lower than the PD and LGD floors described in §§ 324.131(d)(2) and (d)(3).

(b) Rules of recognition. (1) An FDIC-supervised institution must use the same risk parameters for calculating ECL as it uses for calculating the risk-based capital requirement for the exposure.

(2) An FDIC-supervised institution may only recognize the credit risk mitigation benefits of an eligible guarantee or eligible credit derivative to hedge an exposure that is different from the credit derivative’s...
Federal Deposit Insurance Corporation § 324.134

reference exposure used for determining the derivative’s cash settlement value, deliverable obligation, or occurrence of a credit event if:

(i) The reference exposure ranks pari passu (that is, equally) with or is junior to the hedged exposure; and

(ii) The reference exposure and the hedged exposure are exposures to the same legal entity, and legally enforceable cross-default or cross-acceleration clauses are in place to assure payments under the credit derivative are triggered when the obligor fails to pay under the terms of the hedged exposure.

(c) Risk parameters for hedged exposures—(1) PD substitution approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, an FDIC-supervised institution may recognize the guarantee or credit derivative in determining the FDIC-supervised institution’s risk-based capital requirement for the hedged exposure by substituting the PD associated with the rating grade of the obligor in the risk-based capital formula applicable to the guarantee or credit derivative in Table 1 of §324.131 and using the appropriate LGD as described in paragraph (c)(1)(iii) of this section. If the FDIC-supervised institution determines that full substitution leads to an inappropriate degree of risk mitigation, the FDIC-supervised institution may use a higher PD than that of the protection provider.

(ii) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and P of the guarantee or credit derivative is less than the EAD of the hedged exposure, the FDIC-supervised institution must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The FDIC-supervised institution must calculate its risk-based capital requirement for the protected exposure under §324.131, where PD is the protection provider’s PD, LGD is determined under paragraph (c)(1)(iii) of this section, and EAD is P. If the FDIC-supervised institution determines that full substitution leads to an inappropriate degree of risk mitigation, the FDIC-supervised institution may use a higher PD than that of the protection provider.

(B) The FDIC-supervised institution must calculate its risk-based capital requirement for the unprotected exposure under §324.131, where PD is the obligor’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(C) The treatment in paragraph (c)(1)(ii) of this section is applicable when the credit risk of a wholesale exposure is covered on a partial pro rata basis or when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraphs (d), (e), or (f) of this section.

(iii) LGD of hedged exposures. The LGD of a hedged exposure under the PD substitution approach is equal to:

(A) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the FDIC-supervised institution with the option to receive immediate payout upon triggering the protection; or

(B) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the FDIC-supervised institution with the option to receive immediate payout upon triggering the protection.

(2) LGD adjustment approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, the FDIC-supervised institution’s risk-based capital requirement for the hedged exposure is the greater of:
(A) The risk-based capital requirement for the exposure as calculated under §324.131, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative; or

(B) The risk-based capital requirement for a direct exposure to the protection provider as calculated under §324.131, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD equal to the EAD of the hedged exposure.

(ii) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the FDIC-supervised institution must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The FDIC-supervised institution’s risk-based capital requirement for the protected exposure would be the greater of:

(1) The risk-based capital requirement for the protected exposure as calculated under §324.131, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative and EAD set equal to P; or

(2) The risk-based capital requirement for a direct exposure to the guarantor as calculated under §324.131, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD set equal to P.

(B) The FDIC-supervised institution must calculate its risk-based capital requirement for the unprotected exposure under §324.131, with the LGD of the exposure less than the EAD of the hedged exposure, the FDIC-supervised institution must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(3) M of hedged exposures. For purposes of this paragraph (c), the M of the hedged exposure is the same as the M of the exposure if it were unhedged.

(d) Maturity mismatch. (1) An FDIC-supervised institution that recognizes an eligible guarantee or eligible credit derivative in determining its risk-based capital requirement for a hedged exposure must adjust the effective notional amount of the credit risk mitigant to reflect any maturity mismatch between the hedged exposure and the credit risk mitigant.

(2) A maturity mismatch occurs when the residual maturity of a credit risk mitigant is less than that of the hedged exposure(s).

(3) The residual maturity of a hedged exposure is the longest possible remaining time before the obligor is scheduled to fulfill its obligation on the exposure. If a credit risk mitigant has embedded options that may reduce its term, the FDIC-supervised institution (protection purchaser) must use the shortest possible residual maturity for the credit risk mitigant. If a call is at the discretion of the protection provider, the residual maturity of the credit risk mitigant is at the first call date. If the call is at the discretion of the FDIC-supervised institution (protection purchaser), but the terms of the arrangement at origination of the credit risk mitigant contain a positive incentive for the FDIC-supervised institution to call the transaction before contractual maturity, the remaining time to the first call date is the residual maturity of the credit risk mitigant.

(4) A credit risk mitigant with a maturity mismatch may be recognized only if its original maturity is greater than or equal to one year and its residual maturity is greater than three months.

(5) When a maturity mismatch exists, the FDIC-supervised institution must apply the following adjustment to the effective notional amount of the credit risk mitigant: $P_n = E \times \left(\frac{t - 0.25}{T - 0.25}\right)$, where:

(i) $P_n$ equals effective notional amount of the credit risk mitigant, adjusted for maturity mismatch;

(ii) E equals effective notional amount of the credit risk mitigant;

For example, where there is a step-up in cost in conjunction with a call feature or where the effective cost of protection increases over time even if credit quality remains the same or improves, the residual maturity of the credit risk mitigant will be the remaining time to the first call.
Federal Deposit Insurance Corporation

§ 324.135 Guarantees and credit derivatives: Double default treatment.

(a) Eligibility and operational criteria for double default treatment. An FDIC-supervised institution may recognize the credit risk mitigation benefits of a guarantee or credit derivative covering an exposure described in §324.134(a)(1) by applying the double default treatment in this section if all the following criteria are satisfied:

(1) The hedged exposure is fully covered or covered on a pro rata basis by:
   (i) An eligible guarantee issued by an eligible double default guarantor; or
   (ii) An eligible credit derivative that meets the requirements of §324.134(b)(2) and that is issued by an eligible double default guarantor.

(2) The guarantee or credit derivative is:
   (i) An uncollateralized guarantee or uncollateralized credit derivative (for example, a credit default swap) that provides protection with respect to a single reference obligor; or
   (ii) An nth-to-default credit derivative (subject to the requirements of §324.142(m)).

(3) The hedged exposure is a wholesale exposure (other than a sovereign exposure).

(4) The obligor of the hedged exposure is not:

(iii) t equals the lesser of T or the residual maturity of the credit risk mitigant, expressed in years; and

(iv) T equals the lesser of five or the residual maturity of the hedged exposure, expressed in years.

(e) Credit derivatives without restructuring as a credit event. If an FDIC-supervised institution recognizes an eligible credit derivative that does not include as a credit event a restructuring of the hedged exposure involving forgiveness or postponement of principal, interest, or fees that results in a credit loss event (that is, a charge-off, specific provision, or other similar debit to the profit and loss account), the FDIC-supervised institution must apply the following adjustment to the effective notional amount of the credit derivative: $P_r = P_m \times 0.60$, where:

(1) $P_r$ equals effective notional amount of the credit risk mitigant, adjusted for lack of restructuring event (and maturity mismatch, if applicable); and

(2) $P_m$ equals effective notional amount of the credit risk mitigant adjusted for maturity mismatch (if applicable).

(f) Currency mismatch. (1) If an FDIC-supervised institution recognizes an eligible guarantee or eligible credit derivative that is denominated in a currency different from that in which the hedged exposure is denominated, the FDIC-supervised institution must apply the following formula to the effective notional amount of the guarantee or credit derivative: $P_c = P_r \times (1 - H_{FX})$, where:

(i) $P_c$ equals effective notional amount of the credit risk mitigant, adjusted for currency mismatch (and maturity mismatch and lack of restructuring event, if applicable);

(ii) $P_r$ equals effective notional amount of the credit risk mitigant (adjusted for maturity mismatch and lack of restructuring event, if applicable); and

(iii) $H_{FX}$ equals haircut appropriate for the currency mismatch between the credit risk mitigant and the hedged exposure.

(2) An FDIC-supervised institution must set $H_{FX}$ equal to 0 percent unless it qualifies for the use of and uses its own internal estimates of foreign exchange volatility based on a ten-business-day holding period and daily marking-to-market and remargining. An FDIC-supervised institution qualifies for the use of its own internal estimates of foreign exchange volatility if it qualifies for:

(i) The own-estimates haircuts in §324.132(b)(2)(iii);

(ii) The simple VaR methodology in §324.132(b)(3); or

(iii) The internal models methodology in §324.132(d).

(3) An FDIC-supervised institution must adjust $H_{FX}$ calculated in paragraph (f)(2) of this section upward if the FDIC-supervised institution revalues the guarantee or credit derivative less frequently than once every ten business days using the square root of time formula provided in §324.132(b)(2)(iii)(A)(2).

§ 324.135 \hspace{1cm} 12 CFR Ch. III (1–1–17 Edition)

(i) An eligible double default guarantor or an affiliate of an eligible double default guarantor; or

(ii) An affiliate of the guarantor.

(5) The FDIC-supervised institution does not recognize any credit risk mitigation benefits of the guarantee or credit derivative for the hedged exposure other than through application of the double default treatment as provided in this section.

(6) The FDIC-supervised institution has implemented a process (which has received the prior, written approval of the FDIC) to detect excessive correlation between the creditworthiness of the obligor of the hedged exposure and the protection provider. If excessive correlation is present, the FDIC-supervised institution may not use the double default treatment for the hedged exposure.

(b) Full coverage. If a transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is at least equal to the EAD of the hedged exposure, the FDIC-supervised institution may determine its risk-weighted asset amount for the hedged exposure under paragraph (e) of this section.

(c) Partial coverage. If a transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the FDIC-supervised institution must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize double default treatment on the protected portion of the exposure:

(1) For the protected exposure, the FDIC-supervised institution must set EAD equal to P and calculate its risk-weighted asset amount as provided in paragraph (e) of this section; and

(2) For the unprotected exposure, the FDIC-supervised institution must set EAD equal to the EAD of the original exposure minus P and then calculate its risk-weighted asset amount as provided in §324.131.

(d) Mismatches. For any hedged exposure to which an FDIC-supervised institution applies double default treatment under this part, the FDIC-supervised institution must make applicable adjustments to the protection amount as required in §§324.134(d), (e), and (f).

(e) The double default dollar risk-based capital requirement. The dollar risk-based capital requirement for a hedged exposure to which an FDIC-supervised institution has applied double default treatment is $K_{DD}$ multiplied by the EAD of the exposure. $K_{DD}$ is calculated according to the following formula:

$$K_{DD} = K_{O} \times \left( 0.15 + 160 \times PD_{g} \right),$$

where:

(1) $K_{O} = LGD_{g} \times \left[ N \left( \frac{N^{-1} (PD_{o}) + N^{-1} (0.999) \sqrt{1 - \rho_{os}}} {\sqrt{1 - \rho_{os}}} \right) - PD_{o} \right] \times \left[ 1 + (M - 2.5) \times b \right] \times \left[ 1 - 1.5 \times b \right]$,

(2) PD$_{o}$ equals PD of the protection provider.

(3) PD$_{o}$ equals PD of the obligor of the hedged exposure.

(4) LGD$_{g}$ equals:

(i) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the FDIC-supervised institution with the option to receive immediate payout on triggering the protection; or

(ii) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the FDIC-supervised institution with the option to receive immediate payout on triggering the protection; and

(5) $\rho_{os}$ (asset value correlation of the obligor) is calculated according to the appropriate formula for (R) provided in Table 1 in §324.131, with PD equal to PD$_{o}$.

(6) b (maturity adjustment coefficient) is calculated according to the formula for b provided in Table 1 in §324.131, with PD equal to the lesser of PD$_{o}$ and PD$_{g}$; and

(7) M (maturity) is the effective maturity of the guarantee or credit derivative, which may not be less than one year or greater than five years.
§ 324.136 Unsettled transactions.

(a) Definitions. For purposes of this section:

1. Delivery-versus-payment (DvP) transaction means a securities or commodities transaction in which the buyer is obligated to make payment only if the seller has made delivery of the securities or commodities and the seller is obligated to deliver the securities or commodities only if the buyer has made payment.

2. Payment-versus-payment (PvP) transaction means a foreign exchange transaction in which each counterparty is obligated to make a final transfer of one or more currencies only if the other counterparty has made a final transfer of one or more currencies.

3. A transaction has a normal settlement period if the contractual settlement period for the transaction is equal to or less than the market standard for the instrument underlying the transaction and equal to or less than five business days.

4. The positive current exposure of an FDIC-supervised institution for a transaction is the difference between the transaction value at the agreed settlement price and the current market price of the transaction, if the difference results in a credit exposure of the FDIC-supervised institution to the counterparty.

(b) Scope. This section applies to all transactions involving securities, foreign exchange instruments, and commodities that have a risk of delayed settlement or delivery. This section does not apply to:

1. Cleared transactions that are subject to daily marking-to-market and daily receipt and payment of variation margin;

2. Repo-style transactions, including unsettled repo-style transactions (which are addressed in §§324.131 and 324.132);

3. One-way cash payments on OTC derivative contracts (which are addressed in §§324.131 and 324.132); or

4. Transactions with a contractual settlement period that is longer than the normal settlement period (which are treated as OTC derivative contracts and addressed in §§324.131 and 324.132).

(c) System-wide failures. In the case of a system-wide failure of a settlement or clearing system, or a central counterparty, the FDIC may waive risk-based capital requirements for unsettled and failed transactions until the situation is rectified.

(d) Delivery-versus-payment (DvP) and payment-versus-payment (PvP) transactions. An FDIC-supervised institution must hold risk-based capital against any DvP or PvP transaction with a normal settlement period if the FDIC-supervised institution’s counterparty has not made delivery or payment within five business days after the settlement date. The FDIC-supervised institution must determine its risk-weighted asset amount for such a transaction by multiplying the positive current exposure of the transaction for the FDIC-supervised institution by the appropriate risk weight in Table 1 to §324.136.

| Table 1 to §324.136—Risk Weights for Unsettled DvP and PvP Transactions |
|-----------------------------|-----------------|
| Number of business days after contractual settlement date | Risk weight to be applied to positive current exposure (in percent) |
| From 5 to 15               | 100             |
| From 16 to 30              | 625             |
| From 31 to 45              | 937.5           |
| 46 or more                 | 1,250           |

(e) Non-DvP/non-PvP (non-delivery-versus-payment/non-payment-versus-payment) transactions. (1) An FDIC-supervised institution must hold risk-based capital against any non-DvP/non-PvP transaction with a normal settlement period if the FDIC-supervised institution has delivered cash, securities, commodities, or currencies to its counterparty but has not received its corresponding deliverables by the end of the same business day. The FDIC-supervised institution must continue to hold risk-based capital against the transaction until the FDIC-supervised institution has received its corresponding deliverables.

(2) From the business day after the FDIC-supervised institution has made its delivery until five business days after the counterparty delivery is due, the FDIC-supervised institution must calculate its risk-based capital requirement for the transaction by treating the positive current exposure of the transaction for the FDIC-supervised institution by the appropriate risk weight in Table 1 to §324.136.

the current fair value of the deliverables owed to the FDIC-supervised institution as a wholesale exposure.

(i) An FDIC-supervised institution may use a 45 percent LGD for the transaction rather than estimating LGD for the transaction provided the FDIC-supervised institution uses the 45 percent LGD for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(ii) An FDIC-supervised institution may use a 100 percent risk weight for the transaction provided the FDIC-supervised institution uses this risk weight for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(3) If the FDIC-supervised institution has not received its deliverables by the fifth business day after the counterparty delivery was due, the FDIC-supervised institution must apply a 1,250 percent risk weight to the current fair value of the deliverables owed to the FDIC-supervised institution.

(f) Total risk-weighted assets for unsettled transactions. Total risk-weighted assets for unsettled transactions is the sum of the risk-weighted asset amounts of all DvP, PvP, and non-DvP/non-PvP transactions.

§§ 324.137–324.140  [Reserved]

Risk-Weighted Assets for Securitization Exposures

§ 324.141  Operational criteria for recognizing the transfer of risk.

(a) Operational criteria for traditional securitizations. An FDIC-supervised institution that transfers exposures it has originated or purchased to a securitization SPE or other third party in connection with a traditional securitization may exclude the exposures from the calculation of its risk-weighted assets only if each of the conditions in this paragraph (a) is satisfied. An FDIC-supervised institution that meets these conditions must hold risk-based capital against any securitization exposures it retains in connection with the securitization.

FDIC-supervised institution that fails to meet these conditions must hold risk-based capital against the transferred exposures as if they had not been securitized and must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the transaction. The conditions are:

(1) The exposures are not reported on the FDIC-supervised institution’s consolidated balance sheet under GAAP;

(2) The FDIC-supervised institution has transferred to one or more third parties credit risk associated with the underlying exposures;

(3) Any clean-up calls relating to the securitization are eligible clean-up calls; and

(4) The securitization does not:

(i) Include one or more underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit; and

(ii) Contain an early amortization provision.

(b) Operational criteria for synthetic securitizations. For synthetic securitizations, an FDIC-supervised institution may recognize for risk-based capital purposes under this subpart the use of a credit risk mitigant to hedge underlying exposures only if each of the conditions in this paragraph (b) is satisfied. An FDIC-supervised institution that meets these conditions must hold risk-based capital against any credit risk of the exposures it retains in connection with the synthetic securitization. An FDIC-supervised institution that fails to meet these conditions or chooses not to recognize the credit risk mitigant for purposes of this section must hold risk-based capital under this subpart against the underlying exposures as if they had not been synthetically securitized. The conditions are:

(1) The credit risk mitigant is:

(i) Financial collateral; or

(ii) A guarantee that meets all of the requirements of an eligible guarantee in §324.2 except for paragraph (3) of the definition; or

(iii) A credit derivative that meets all of the requirements of an eligible guarantee in §324.2 except for paragraph (3) of the definition of eligible guarantee in §324.2.
(2) The FDIC-supervised institution transfers credit risk associated with the underlying exposures to third parties, and the terms and conditions in the credit risk mitigants employed do not include provisions that:

(i) Allow for the termination of the credit protection due to deterioration in the credit quality of the underlying exposures;

(ii) Require the FDIC-supervised institution to alter or replace the underlying exposures to improve the credit quality of the underlying exposures;

(iii) Increase the FDIC-supervised institution’s cost of credit protection in response to deterioration in the credit quality of the underlying exposures;

(iv) Increase the yield payable to parties other than the FDIC-supervised institution in response to deterioration in the credit quality of the underlying exposures; or

(v) Provide for increases in a retained first loss position or credit enhancement provided by the FDIC-supervised institution after the inception of the securitization;

(3) The FDIC-supervised institution obtains a well-reasoned opinion from legal counsel that confirms the enforceability of the credit risk mitigant in all relevant jurisdictions; and

(4) Any clean-up calls relating to the securitization are eligible clean-up calls.

(c) Due diligence requirements for securitization exposures. (1) Except for exposures that are deducted from common equity tier 1 capital and exposures subject to §324.142(k), if an FDIC-supervised institution is unable to demonstrate to the satisfaction of the FDIC a comprehensive understanding of the features of a securitization exposure that would materially affect its performance, it must assign a 1,250 percent risk weight to the securitization exposure. The FDIC-supervised institution’s analysis must be commensurate with the complexity of the securitization exposure and the materiality of the position in relation to regulatory capital according to this part.

(2) An FDIC-supervised institution must demonstrate its comprehensive understanding of a securitization exposure under paragraph (c)(1) of this section, for each securitization exposure by:

(i) Conducting an analysis of the risk characteristics of a securitization exposure prior to acquiring the exposure and document such analysis within three business days after acquiring the exposure, considering:

(A) Structural features of the securitization that would materially impact the performance of the exposure, for example, the contractual cash flow waterfall, waterfall-related triggers, credit enhancements, liquidity enhancements, fair value triggers, the performance of organizations that service the position, and deal-specific definitions of default;

(B) Relevant information regarding the performance of the underlying exposure(s), for example, the percentage of loans 30, 60, and 90 days past due; default rates; prepayment rates; loans in foreclosure; property types; occupancy; average credit score or other measures of creditworthiness; average loan-to-value ratio; and industry and geographic diversification data on the underlying exposure(s);

(C) Relevant market data of the securitization, for example, bid-ask spreads, most recent sales price and historical price volatility, trading volume, implied market rating, and size, depth and concentration level of the market for the securitization; and

(D) For resecuritization exposures, performance information on the underlying securitization exposures, for example, the issuer name and credit quality, and the characteristics and performance of the exposures underlying the securitization exposures; and

(ii) On an on-going basis (no less frequently than quarterly), evaluating, reviewing, and updating as appropriate the analysis required under this section for each securitization exposure.

§ 324.142 Risk-weighted assets for securitization exposures.

(a) Hierarchy of approaches. Except as provided elsewhere in this section and in §324.141:

(1) An FDIC-supervised institution must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from a securitization and must
§ 324.142

apply a 1,250 percent risk weight to the portion of any CEIO that does not constitute after tax gain-on-sale;

(2) If a securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (a)(1) of this section, the FDIC-supervised institution must apply the supervisory formula approach in §324.143 to the exposure if the FDIC-supervised institution and the exposure qualify for the supervisory formula approach according to §324.143(a);

(3) If a securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (a)(1) of this section and does not qualify for the supervisory formula approach, the FDIC-supervised institution may apply the simplified supervisory formula approach under §324.144;

(4) If a securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (a)(1) of this section, does not qualify for the supervisory formula approach in §324.143, and the FDIC-supervised institution does not apply the simplified supervisory formula approach under §324.144:

(5) If a securitization exposure is a derivative contract (other than protection provided by an FDIC-supervised institution in the form of a credit derivative) that has a first priority claim on the cash flows from the underlying exposures (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments), an FDIC-supervised institution may choose to set the risk-weighted asset amount of the exposure equal to the amount of the exposure as determined in paragraph (e) of this section rather than apply the hierarchy of approaches described in paragraphs (a)(1) through (4) of this section.

(b) Total risk-weighted assets for securitization exposures. An FDIC-supervised institution’s total risk-weighted assets for securitization exposures is equal to the sum of its risk-weighted assets calculated using §§324.141 through 146.

(c) Deductions. An FDIC-supervised institution may calculate any deduction from common equity tier 1 capital for a securitization exposure net of any DTLs associated with the securitization exposure.

(d) Maximum risk-based capital requirement. Except as provided in §324.141(c), unless one or more underlying exposures does not meet the definition of a wholesale, retail, securitization, or equity exposure, the total risk-based capital requirement for all securitization exposures held by a single FDIC-supervised institution associated with a single securitization (excluding any risk-based capital requirements that relate to the FDIC-supervised institution’s gain-on-sale or CEIOs associated with the securitization) may not exceed the sum of:

(1) The FDIC-supervised institution’s total risk-based capital requirement for the underlying exposures calculated under this subpart as if the FDIC-supervised institution directly held the underlying exposures; and

(2) The total ECL of the underlying exposures calculated under this subpart.

(e) Exposure amount of a securitization exposure. (1) The exposure amount of an on-balance sheet securitization exposure that is not a repo-style transaction, eligible margin loan, OTC derivative contract, or cleared transaction is the FDIC-supervised institution’s carrying value.

(2) Except as provided in paragraph (m) of this section, the exposure amount of an off-balance sheet securitization exposure that is not an OTC derivative contract (other than a credit derivative), repo-style transaction, eligible margin loan, or cleared transaction (other than a credit derivative) is the notional amount of the exposure. For an off-balance-sheet securitization exposure to an ABCP program, such as an eligible ABCP liquidity facility, the notional amount may be reduced to the maximum potential amount that the FDIC-supervised institution could be required to fund given the ABCP program’s current underlying assets (calculated without regard to the current credit quality of those assets).

(3) The exposure amount of a securitization exposure that is a repo-style transaction, eligible margin loan, or OTC derivative contract (other than
a credit derivative) or cleared transaction (other than a credit derivative) is the ≤ EAD of the exposure as calculated in §324.132 or §324.133.

(f) Overlapping exposures. If an FDIC-supervised institution has multiple securitization exposures that provide duplicative coverage of the underlying exposures of a securitization (such as when an FDIC-supervised institution provides a program-wide credit enhancement and multiple pool-specific liquidity facilities to an ABCP program), the FDIC-supervised institution is not required to hold duplicative risk-based capital against the overlapping position. Instead, the FDIC-supervised institution may assign to the overlapping securitization exposure the applicable risk-based capital treatment under this subpart that results in the highest risk-based capital requirement.

(g) Securitizations of non-IRB exposures. Except as provided in §324.141(c), if an FDIC-supervised institution has a securitization exposure where any underlying exposure is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure, the FDIC-supervised institution:

(1) Must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the securitization and apply a 1,250 percent risk weight to the portion of any CEIO that does not constitute gain-on-sale, if the FDIC-supervised institution is an originating FDIC-supervised institution;

(2) May apply the simplified supervisory formula approach in §324.144 to the exposure, if the securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (g)(1) of this section;

(3) Must assign a 1,250 percent risk weight to the exposure if the securitization exposure does not require deduction or a 1,250 percent risk weight under paragraph (g)(1) of this section, does not qualify for the supervisory formula approach in §324.143, and the FDIC-supervised institution does not apply the simplified supervisory formula approach in §324.144 to the exposure.

(h) Implicit support. If an FDIC-supervised institution provides support to a securitization in excess of the FDIC-supervised institution’s contractual obligation to provide credit support to the securitization (implicit support):

(1) The FDIC-supervised institution must calculate a risk-weighted asset amount for underlying exposures associated with the securitization as if the exposures had not been securitized and must deduct from common equity tier 1 capital any after-tax gain-on-sale resulting from the securitization; and

(2) The FDIC-supervised institution must disclose publicly:

(i) That it has provided implicit support to the securitization; and

(ii) The regulatory capital impact to the FDIC-supervised institution of providing such implicit support.

(i) Undrawn portion of a servicer cash advance facility. (1) Notwithstanding any other provision of this subpart, an FDIC-supervised institution that is a servicer under an eligible servicer cash advance facility is not required to hold risk-based capital against potential future cash advance payments that it may be required to provide under the contract governing the facility.

(2) For an FDIC-supervised institution that acts as a servicer, the exposure amount for a servicer cash advance facility that is not an eligible servicer cash advance facility is equal to the amount of all potential future cash advance payments that the FDIC-supervised institution may be contractually required to provide during the subsequent 12 month period under the contract governing the facility.

(j) Interest-only mortgage-backed securities. Regardless of any other provisions in this part, the risk weight for a non-credit-enhancing interest-only mortgage-backed security may not be less than 100 percent.

(k) Small-business loans and leases on personal property transferred with recourse. (1) Notwithstanding any other provisions of this subpart E, an FDIC-supervised institution that has transferred small-business loans and leases on personal property (small-business obligations) with recourse must include in risk-weighted assets only the contractual amount of retained recourse if all the following conditions are met:

(i) The transaction is a sale under GAAP.
(ii) The FDIC-supervised institution establishes and maintains, pursuant to GAAP, a non-capital reserve sufficient to meet the FDIC-supervised institution’s reasonably estimated liability under the recourse arrangement.

(iii) The loans and leases are to businesses that meet the criteria for a small-business concern established by the Small Business Administration under section 3(a) of the Small Business Act (15 U.S.C. 632 et seq.); and

(iv) The FDIC-supervised institution is well-capitalized, as defined in subpart H of this part. For purposes of determining whether an FDIC-supervised institution is well capitalized for purposes of this paragraph (k), the FDIC-supervised institution’s capital ratios must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section.

(2) The total outstanding amount of recourse retained by an FDIC-supervised institution on transfers of small-business obligations subject to paragraph (k)(1) of this section cannot exceed 15 percent of the FDIC-supervised institution’s total capital.

(3) If an FDIC-supervised institution ceases to be well capitalized or exceeds the 15 percent capital limitation in paragraph (k)(2) of this section, the preferential capital treatment specified in paragraph (k)(1) of this section will continue to apply to any transfers of small-business obligations with recourse that occurred during the time that the FDIC-supervised institution was well capitalized and did not exceed the capital limit.

(4) The risk-based capital ratios of an FDIC-supervised institution must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section.

(1) Nth-to-default credit derivatives—(1) Protection provider. An FDIC-supervised institution must determine a risk weight using the supervisory formula approach (SFA) pursuant to §324.143 or the simplified supervisory formula approach (SSFA) pursuant to §324.144 for an nth-to-default credit derivative in accordance with this paragraph (1). In the case of credit protection sold, an FDIC-supervised institution must determine its exposure in the nth-to-default credit derivative as the largest notional amount of all the underlying exposures.

(2) For purposes of determining the risk weight for an nth-to-default credit derivative using the SFA or the SSFA, the FDIC-supervised institution must calculate the attachment point and detachment point of its exposure as follows:

(i) The attachment point (parameter A) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the FDIC-supervised institution’s exposure to the total notional amount of all underlying exposures. For purposes of the SSFA, parameter A is expressed as a decimal value between zero and one. For purposes of using the SFA to calculate the risk weight for its exposure in an nth-to-default credit derivative, parameter A must be set equal to the credit enhancement level (L) input to the SFA formula. In the case of a first-to-default credit derivative, there are no underlying exposures that are subordinated to the FDIC-supervised institution’s exposure. In the case of a second-or-subsequent-to-default credit derivative, the smallest (n-1) risk-weighted asset amounts of the underlying exposure(s) are subordinated to the FDIC-supervised institution’s exposure.

(ii) The detachment point (parameter D) equals the sum of parameter A plus the ratio of the notional amount of the FDIC-supervised institution’s exposure in the nth-to-default credit derivative to the total notional amount of all underlying exposures. For purposes of the SSFA, parameter W is expressed as a decimal value between zero and one. For purposes of the SFA, parameter D must be set equal to L plus the thickness of tranche T input to the SFA formula.

(3) An FDIC-supervised institution that does not use the SFA or the SSFA to determine a risk weight for its exposure in an nth-to-default credit derivative must assign a risk weight of 1,250 percent to the exposure.

(4) Protection purchaser—(1) First-to-default credit derivatives. An FDIC-supervised institution that obtains credit
protection on a group of underlying exposures through a first-to-default credit derivative that meets the rules of recognition of §324.134(b) must determine its risk-based capital requirement under this subpart for the underlying exposures as if the FDIC-supervised institution synthetically securitized the underlying exposure with the lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures. An FDIC-supervised institution must calculate a risk-based capital requirement for counterparty credit risk according to §324.132 for a first-to-default credit derivative that does not meet the rules of recognition of §324.134(b).

(ii) Second-or-subsequent-to-default credit derivatives. (A) An FDIC-supervised institution that obtains credit protection on a group of underlying exposures through a nth-to-default credit derivative that meets the rules of recognition of §324.134(b) (other than a first-to-default credit derivative) may recognize the credit risk mitigation benefits of the derivative only if:

(1) The FDIC-supervised institution also has obtained credit protection on the same underlying exposures in the form of first-through-(n-1)-to-default credit derivatives; or

(2) If n-1 of the underlying exposures have already defaulted.

(B) If an FDIC-supervised institution satisfies the requirements of paragraph (l)(3)(ii)(A) of this section, the FDIC-supervised institution must determine its risk-based capital requirement for the underlying exposures as if the bank had only synthetically securitized the underlying exposure with the nth smallest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.

(C) An FDIC-supervised institution must calculate a risk-based capital requirement for counterparty credit risk according to §324.132 for a nth-to-default credit derivative that does not meet the rules of recognition of §324.134(b).

(m) Guarantees and credit derivatives other than nth-to-default credit derivatives—(1) Protection provider. For a guarantee or credit derivative (other than an nth-to-default credit derivative) provided by an FDIC-supervised institution that covers the full amount or a pro rata share of a securitization exposure's principal and interest, the FDIC-supervised institution must risk weight the guarantee or credit derivative as if it holds the portion of the reference exposure covered by the guarantee or credit derivative.

(2) Protection purchaser. (i) An FDIC-supervised institution that purchases an OTC credit derivative (other than an nth-to-default credit derivative) that is recognized under §324.145 as a credit risk mitigant (including via recognized collateral) is not required to compute a separate counterparty credit risk capital requirement under §324.131 in accordance with §324.132(c)(3).

(ii) If an FDIC-supervised institution cannot, or chooses not to, recognize a purchased credit derivative as a credit risk mitigant under §324.145, the FDIC-supervised institution must determine the exposure amount of the credit derivative under §324.132(c).

(A) If the FDIC-supervised institution purchases credit protection from a counterparty that is not a securitization SPE, the FDIC-supervised institution must determine the risk weight for the exposure according to §324.131.

(B) If the FDIC-supervised institution purchases the credit protection from a counterparty that is a securitization SPE, the FDIC-supervised institution must determine the risk weight for the exposure according to this section, including paragraph (a)(5) of this section for a credit derivative that has a first priority claim on the cash flows from the underlying exposures of the securitization SPE (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments).

§ 324.143

(b) Mechanics. The risk-weighted asset amount for a securitization exposure equals its SFA risk-based capital requirement as calculated under paragraph (c) and (d) of this section, multiplied by 12.5.

(c) The SFA risk-based capital requirement. (1) If \( K_{IRB} \) is greater than or equal to \( L + T \), an exposure’s SFA risk-based capital requirement equals the exposure amount.

(2) If \( K_{IRB} \) is less than or equal to \( L \), an exposure’s SFA risk-based capital requirement is \( UE \) multiplied by \( TP \) multiplied by the greater of:

(i) \( F \cdot T \) (where \( F \) is 0.016 for all securitization exposures); or

(ii) \( S[L + T] - S[L] \).

(3) If \( K_{IRB} \) is greater than \( L \) and less than \( L + T \), the FDIC-supervised institution must apply a 1,250 percent risk weight to an amount equal to \( UE \cdot TP \cdot (K_{IRB} - L) \), and the exposure’s SFA risk-based capital requirement is \( UE \) multiplied by \( TP \) multiplied by the greater of:

(i) \( F \cdot (T - (K_{IRB} - L)) \) (where \( F \) is 0.016 for all other securitization exposures); or

(ii) \( S[L + T] - S[K_{IRB}] \).

(d) The supervisory formula:
Federal Deposit Insurance Corporation § 324.143

(1) \( S[Y] = \begin{cases} Y & \text{when } Y \leq K_{IRB} \\ K_{IRB} + K[Y] - K[K_{IRB}] + \frac{d \cdot K_{IRB}}{20} \left( 1 - e^{\frac{20(K_{IRB} - Y)}{K_{IRB}}} \right) & \text{when } Y > K_{IRB} \end{cases} \)

(2) \( K[Y] = (1-h) \cdot \left[ (1 - \beta[Y; a, b]) \cdot Y + \beta[Y; a+1, b] \cdot c \right] \)

(3) \( h = \left( 1 - \frac{K_{IRB}}{EWALGD} \right)^N \)

(4) \( a = g \cdot c \)

(5) \( b = g \cdot (1 - c) \)

(6) \( c = \frac{K_{IRB}}{1 - h} \)

(7) \( g = \frac{(1-c) \cdot c}{f} - 1 \)

(8) \( f = \frac{v + K_{IRB}^2}{1 - h} - c^2 + \frac{(1 - K_{IRB}) \cdot K_{IRB} - v}{(1-h) \cdot 1000} \)

(9) \( v = K_{IRB} \cdot \left( \frac{EWALGD - K_{IRB}}{N} \right) + 25 \cdot (1 - EWALGD) \)

(10) \( d = 1 - (1-h) \cdot (1 - \beta[K_{IRB}; a, b]) \).

(11) In these expressions, \( \beta[Y; a, b] \) refers to the cumulative beta distribution with parameters \( a \) and \( b \) evaluated at \( Y \). In the case where \( N = 1 \) and \( EWALGD = 100 \) percent, \( S[Y] \) in formula (1) must be calculated with \( K[Y] \) set equal to the product of \( K_{IRB} \) and \( Y \), and \( d \) set equal to \( 1 - K_{IRB} \).

(e) SFA parameters. For purposes of the calculations in paragraphs (c) and (d) of this section:

(1) Amount of the underlying exposures (UE). UE is the EAD of any underlying exposures that are wholesale and retail exposures (including the amount of any funded spread accounts, cash collateral accounts, and other similar funded credit enhancements) plus the amount of any underlying exposures that are securitization exposures (as defined in §324.142(e)) plus the adjusted carrying value of any underlying exposures that are equity exposures (as defined in §324.151(b)).

(2) Tranche percentage (TP). TP is the ratio of the amount of the FDIC-supervised institution’s securitization exposure to the amount of the tranche that contains the securitization exposure.

(3) Capital requirement on underlying exposures (K_{IRB}). (i) \( K_{IRB} \) is the ratio of:

(A) The sum of the risk-based capital requirements for the underlying exposures plus the expected credit losses of the underlying exposures (as determined under this subpart E as if the
underlying exposures were directly held by the FDIC-supervised institution); to

(B) UE.

(ii) The calculation of $K_{IRB}$ must reflect the effects of any credit risk mitigant applied to the underlying exposures (either to an individual underlying exposure, to a group of underlying exposures, or to all of the underlying exposures).

(iii) All assets related to the securitization are treated as underlying exposures, including assets in a reserve account (such as a cash collateral account).

(4) Credit enhancement level ($L$). $L$ is the ratio of:

(A) The amount of all securitization exposures subordinated to the tranche that contains the FDIC-supervised institution’s securitization exposure; to

(B) UE.

(ii) An FDIC-supervised institution must determine $L$ before considering the effects of any tranche-specific credit enhancements.

(iii) Any gain-on-sale or CEIO associated with the securitization may not be included in $L$.

(iv) Any reserve account funded by accumulated cash flows from the underlying exposures that is subordinated to the tranche that contains the FDIC-supervised institution’s securitization exposure may be included in the numerator and denominator of $L$ to the extent cash has accumulated in the account. Unfunded reserve accounts (that is, reserve accounts that are to be funded from future cash flows from the underlying exposures) may not be included in the calculation of $L$.

(v) In some cases, the purchase price of receivables will reflect a discount that provides credit enhancement (for example, first loss protection) for all or certain tranches of the securitization. When this arises, $L$ should be calculated inclusive of this discount if the discount provides credit enhancement for the securitization exposure.

(5) Thickness of tranche ($T$). $T$ is the ratio of:

(i) The amount of the tranche that contains the FDIC-supervised institution’s securitization exposure; to

(ii) UE.

(6) Effective number of exposures ($N$).

(i) Unless the FDIC-supervised institution elects to use the formula provided in paragraph (f) of this section,

\[
N = \frac{\left(\sum_i EAD_i\right)^2}{\sum_i EAD_i^2}
\]

where $EAD_i$ represents the EAD associated with the $i$th instrument in the underlying exposures.

(ii) Multiple exposures to one obligor must be treated as a single underlying exposure.

(iii) In the case of a resecuritization, the FDIC-supervised institution must treat each underlying exposure as a single underlying exposure and must not look through to the originally securitized underlying exposures.

(7) Exposure-weighted average loss given default ($EWALGD$). $EWALGD$ is calculated as:

\[
EWALGD = \frac{\sum_i LGD_i \cdot EAD_i}{\sum_i EAD_i}
\]
where LGD signifies the average LGD associated with all exposures to the i\textsuperscript{th} obligor. In the case of a resecuritization, an LGD of 100 percent must be assumed for the underlying exposures that are themselves securitization exposures.

(f) Simplified method for computing N and EWALGD. (1) If all underlying exposures of a securitization are retail exposures, an FDIC-supervised institution may apply the SFA using the following simplifications:

(i) $h = 0$; and

(ii) $v = 0$.

(2) Under the conditions in §§324.143(f)(3) and (f)(4), an FDIC-supervised institution may employ a simplified method for calculating N and EWALGD.

(3) If $C_1$ is no more than 0.03, an FDIC-supervised institution may set $EWALGD = 0.50$ if none of the underlying exposures is a securitization exposure, or may set $EWALGD = 1$ if one or more of the underlying exposures is a securitization exposure, and may set $N$ equal to the following amount:

$$N = \frac{1}{C_1 C_m + \left( \frac{C_m - C_1}{m - 1} \right) \max(1 - mC_1, 0)}$$

where:

(i) $C_m$ is the ratio of the sum of the amounts of the $m$ largest underlying exposures to UE; and

(ii) The level of $m$ is to be selected by the FDIC-supervised institution.

(4) Alternatively, if only $C_1$ is available and $C_1$ is no more than 0.03, the FDIC-supervised institution may set $EWALGD = 0.50$ if none of the underlying exposures is a securitization exposure, or may set $EWALGD = 1$ if one or more of the underlying exposures is a securitization exposure and may set $N = 1/C_1$.

§ 324.144 Simplified supervisory formula approach (SSFA).

(a) General requirements for the SSFA.

To use the SSFA to determine the risk weight for a securitization exposure, an FDIC-supervised institution must have data that enables it to assign accurately the parameters described in paragraph (b) of this section. Data used to assign the parameters described in paragraph (b) of this section must be the most currently available data: If the contracts governing the underlying exposures of the securitization require payments on a monthly or quarterly basis, the data used to assign the parameters described in paragraph (b) of this section must be no more than 91 calendar days old. An FDIC-supervised institution that does not have the appropriate data to assign the parameters described in paragraph (b) of this section must assign a risk weight of 1,250 percent to the exposure.

(b) SSFA parameters. To calculate the risk weight for a securitization exposure using the SSFA, an FDIC-supervised institution must have accurate information on the following five inputs to the SSFA calculation:

(1) $K_G$ is the weighted-average (with unpaid principal used as the weight for each exposure) total capital requirement of the underlying exposures calculated using subpart D of this part. $K_G$ is expressed as a decimal value between 0 and 1 (that is, an average risk weight of 100 percent represents a value of $K_G$ equal to 0.08).

(2) Parameter $W$ is expressed as a decimal value between 0 and 1. Parameter $W$ is the ratio of the sum of the dollar amounts of any underlying exposures of the securitization that meet any of the criteria as set forth in paragraphs (b)(2)(i) through (vi) of this section to the balance, measured in dollars, of underlying exposures:

(i) Ninety days or more past due;

(ii) Subject to a bankruptcy or insolvency proceeding;

(iii) In the process of foreclosure;

(iv) Held as real estate owned;

(v) Has contractually deferred payments for 90 days or more, other than
principal or interest payments deferred on:

(A) Federally-guaranteed student loans, in accordance with the terms of those guarantee programs; or

(B) Consumer loans, including non-federally-guaranteed student loans, provided that such payments are deferred pursuant to provisions included in the contract at the time funds are disbursed that provide for period(s) of deferral that are not initiated based on changes in the creditworthiness of the borrower; or

(vi) Is in default.

(3) Parameter A is the attachment point for the exposure, which represents the threshold at which credit losses will first be allocated to the exposure. Except as provided in §324.142(l) for n-th-to-default credit derivatives, parameter A equals the ratio of the current dollar amount of underlying exposures that are subordinated to the exposure of the FDIC-supervised institution to the current dollar amount of underlying exposures. Any reserve account funded by the accumulated cash flows from the underlying exposures that is subordinated to the FDIC-supervised institution’s securitization exposure may be included in the calculation of parameter A to the extent that cash is present in the account. Parameter A is expressed as a decimal value between zero and one.

(4) Parameter D is the detachment point for the exposure, which represents the threshold at which credit losses of principal allocated to the exposure would result in a total loss of principal. Except as provided in §324.142(l) for n-th-to-default credit derivatives, parameter D equals parameter A plus the ratio of the current dollar amount of the securitization exposures that are pari passu with the exposure (that is, have equal seniority with respect to credit risk) to the current dollar amount of the underlying exposures. Parameter D is expressed as a decimal value between zero and one.

(5) A supervisory calibration parameter, p, is equal to 0.5 for securitization exposures that are not resecuritization exposures and equal to 1.5 for resecuritization exposures.

(c) Mechanics of the SSFA. K_G and W are used to calculate K_A, the augmented value of K_A, which reflects the observed credit quality of the underlying exposures. K_A is defined in paragraph (d) of this section. The values of parameters A and D, relative to K_A determine the risk weight assigned to a securitization exposure as described in paragraph (d) of this section. The risk weight assigned to a securitization exposure, or portion of a securitization exposure, as appropriate, is the larger of the risk weight determined in accordance with this paragraph (c), paragraph (d) of this section, and a risk weight of 20 percent.

(1) When the detachment point, parameter D, for a securitization exposure is less than or equal to K_A, the exposure must be assigned a risk weight of 1,250 percent;

(2) When the attachment point, parameter A, for a securitization exposure is greater than or equal to K_A, the FDIC-supervised institution must calculate the risk weight assigned to a securitization exposure as described in paragraph (d) of this section;

(3) When A is less than K_A and D is greater than K_A, the risk weight is a weighted-average of 1,250 percent and 1,250 percent times K_SSFA calculated in accordance with paragraph (d) of this section. For the purpose of this weighted-average calculation:
§ 324.145 Recognition of credit risk mitigants for securitization exposures.

(a) General. An originating FDIC-supervised institution that has obtained a credit risk mitigant to hedge its securitization exposure to a synthetic or traditional securitization that satisfies the operational criteria in §324.141 may recognize the credit risk mitigant, but only as provided in this section. An investing FDIC-supervised institution that has obtained a credit risk mitigant to hedge a securitization exposure may recognize the credit risk mitigant.

(i) The weight assigned to 1,250 percent equals \( \frac{K_A - A}{D - A} \); and

(ii) The weight assigned to 1,250 percent times \( K_{SSFA} \) equals \( \frac{D - K_A}{D - A} \). The risk weight will be set equal to:

\[
Risk\ Weight = \left[ \left( \frac{K_A - A}{D - A} \right) \cdot 1.250\ percent \right] + \left[ \left( \frac{D - K_A}{D - A} \right) \cdot 1.250\ percent \cdot K_{SSFA} \right]
\]

(d) SSFA equation. (1) The FDIC-supervised institution must define the following parameters:

\[
K_A = (1 - W) \cdot K_G + (0.5 \cdot W)
\]

\[
a = \frac{1}{p \cdot K_A}
\]

\[
u = D - K_A
\]

\[
l = \max(A - K_A, 0)
\]

\[
e = 2.71828, \text{ the base of the natural logarithms.}
\]

(2) Then the FDIC-supervised institution must calculate \( K_{SSFA} \) according to the following equation:

\[
K_{SSFA} = \frac{e^{au} - e^{al}}{a(u - l)}
\]

(3) The risk weight for the exposure (expressed as a percent) is equal to \( K_{SSFA} \times 1.250 \).

mitigant, but only as provided in this section.

(b) Collateral—(1) Rules of recognition. An FDIC-supervised institution may recognize financial collateral in determining the FDIC-supervised institution’s risk-weighted asset amount for a securitization exposure (other than a repo-style transaction, an eligible margin loan, or an OTC derivative contract for which the FDIC-supervised institution has reflected collateral in its determination of exposure amount under §324.132) as follows. The FDIC-supervised institution’s risk-weighted asset amount for the collateralized securitization exposure is equal to the risk-weighted asset amount for the securitization exposure as calculated under the SSFA in §324.144 or under the SFA in §324.143 multiplied by the ratio of adjusted exposure amount (SE*) to original exposure amount (SE), where:

\[ SE^* = \max \{0, (SE - C \times (1 - H_s - H_{fx}))\} \]

(ii) \( SE \) equals the amount of the securitization exposure calculated under §324.142(e);

(iii) \( C \) equals the current fair value of the collateral;

(iv) \( H_s \) equals the haircut appropriate to the collateral type; and

(v) \( H_{fx} \) equals the haircut appropriate for any currency mismatch between the collateral and the exposure.

(2) Mixed collateral. Where the collateral is a basket of different asset types or a basket of assets denominated in different currencies, the haircut on the basket will be

\[ H = \sum a_i H_i, \]

where \( a_i \) is the current fair value of the asset in the basket divided by the current fair value of all assets in the basket and \( H_i \) is the haircut applicable to that asset.

(3) Standard supervisory haircuts. Unless an FDIC-supervised institution qualifies for use of and uses own-estimates haircuts in paragraph (b)(4) of this section:

(i) An FDIC-supervised institution must use the collateral type haircuts (\( H_s \)) in Table 1 to §324.132 of this subpart;

(ii) An FDIC-supervised institution must use a currency mismatch haircut (\( H_{fx} \)) of 8 percent if the exposure and the collateral are denominated in different currencies;

(iii) An FDIC-supervised institution must multiply the supervisory haircuts obtained in paragraphs (b)(3)(i) and (ii) of this section by the square root of 6.5 (which equals 2.549510); and

(iv) An FDIC-supervised institution must adjust the supervisory haircuts upward on the basis of a holding period longer than 65 business days where and as appropriate to take into account the illiquidity of the collateral.

(4) Own estimates for haircuts. With the prior written approval of the FDIC, an FDIC-supervised institution may calculate haircuts using its own internal estimates of market price volatility and foreign exchange volatility, subject to §324.132(b)(2)(iii). The minimum holding period (\( T_M \)) for securitization exposures is 65 business days.

(c) Guarantees and credit derivatives—

(1) Limitations on recognition. An FDIC-supervised institution may only recognize an eligible guarantee or eligible credit derivative provided by an eligible guarantor in determining the FDIC-supervised institution’s risk-weighted asset amount for a securitization exposure.

(2) ECL for securitization exposures. When an FDIC-supervised institution recognizes an eligible guarantee or eligible credit derivative provided by an eligible guarantor in determining the FDIC-supervised institution’s risk-weighted asset amount for a securitization exposure, the FDIC-supervised institution must also:

(i) Calculate ECL for the protected portion of the exposure using the same...
risk parameters that it uses for calculating the risk-weighted asset amount of the exposure as described in paragraph (c)(3) of this section; and
(ii) Add the exposure’s ECL to the FDIC-supervised institution’s total ECL.

(3) Rules of recognition. An FDIC-supervised institution may recognize an eligible guarantee or eligible credit derivative provided by an eligible guarantor in determining the FDIC-supervised institution’s risk-weighted asset amount for the securitization exposure as follows:

(i) Full coverage. If the protection amount of the eligible guarantee or eligible credit derivative equals or exceeds the amount of the securitization exposure, the FDIC-supervised institution may set the risk-weighted asset amount for the securitization exposure equal to the risk-weighted asset amount for a direct exposure to the eligible guarantor (as determined in the wholesale risk weight function described in §324.131), using the FDIC-supervised institution’s PD for the guarantor, the FDIC-supervised institution’s LGD for the guarantee or credit derivative, and an EAD equal to the amount of the securitization exposure (as determined in §324.132(e)).

(ii) Partial coverage. If the protection amount of the eligible guarantee or eligible credit derivative is less than the amount of the securitization exposure, the FDIC-supervised institution may set the risk-weighted asset amount for the securitization exposure equal to the sum of:

(A) Covered portion. The risk-weighted asset amount for a direct exposure to the eligible guarantor (as determined in the wholesale risk weight function described in §324.131), using the FDIC-supervised institution’s PD for the guarantor, the FDIC-supervised institution’s LGD for the guarantee or credit derivative, and an EAD equal to the protection amount of the credit risk mitigant; and

(B) Uncovered portion. 1.0 minus the ratio of the protection amount of the eligible guarantee or eligible credit derivative to the amount of the securitization exposure), multiplied by

(2) The risk-weighted asset amount for the securitization exposure without the credit risk mitigant (as determined in §§324.142 through 324.146).

(4) Mismatches. The FDIC-supervised institution must make applicable adjustments to the protection amount as required in §324.134(d), (e), and (f) for any hedged securitization exposure and any more senior securitization exposure that benefits from the hedge. In the context of a synthetic securitization, when an eligible guarantor or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the FDIC-supervised institution must use the longest residual maturity of any of the hedged exposures as the residual maturity of all the hedged exposures.

§324.146–324.150 [Reserved]

RISK-WEIGHTED ASSETS FOR EQUITY EXPOSURES

§324.151 Introduction and exposure measurement.

(a) General. (1) To calculate its risk-weighted asset amounts for equity exposures that are not equity exposures to investment funds, an FDIC-supervised institution may apply either the Simple Risk Weight Approach (SRWA) in §324.152 or, if it qualifies to do so, the Internal Models Approach (IMA) in §324.153. An FDIC-supervised institution must use the look-through approaches provided in §324.154 to calculate its risk-weighted asset amounts for equity exposures to investment funds.

(2) An FDIC-supervised institution must treat an investment in a separate account (as defined in §324.2), as if it were an equity exposure to an investment fund as provided in §324.154.

(3) Stable value protection. (1) Stable value protection means a contract where the provider of the contract is obligated to pay:

(A) The policy owner of a separate account an amount equal to the shortfall between the fair value and cost basis of the separate account when the policy owner of the separate account surrenders the policy, or

(B) The beneficiary of the contract an amount equal to the shortfall between the fair value and book value of a specified portfolio of assets.
§ 324.152 Simple risk weight approach (SRWA).

(a) General. Under the SRWA, an FDIC-supervised institution’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of the risk-weighted asset amounts for each of the FDIC-supervised institution’s individual equity exposures (other than equity exposures to an investment fund) as determined in this section and the risk-weighted asset amounts for each of the FDIC-supervised institution’s individual equity exposures to an investment fund as determined in §324.154.

(b) SRWA computation for individual equity exposures. An FDIC-supervised institution must determine the risk-weighted asset amount for an individual equity exposure (other than an equity exposure to an investment fund) by multiplying the adjusted carrying value of the equity exposure or the effective portion and ineffective portion of a hedge pair (as defined in paragraph (c) of this section) by the lowest applicable risk weight in this section.

(1) Zero percent risk weight equity exposures. An equity exposure to an entity whose credit exposures are exempt from the 0.03 percent PD floor in §324.131(d)(2) is assigned a zero percent risk weight.

(2) 20 percent risk weight equity exposures. An equity exposure to a Federal Home Loan Bank or the Federal Agricultural Mortgage Corporation (FARMER MAC) is assigned a 20 percent risk weight.

(3) 100 percent risk weight equity exposures. The following equity exposures are assigned a 100 percent risk weight:

(i) Community development equity exposures. An equity exposure that qualifies as a community development investment under section 24 (Eleventh) of the National Bank Act, excluding equity exposures to an unconsolidated small business investment company and equity exposures held through a consolidated small business investment company described in section 302 of the Small Business Investment Act.

(ii) Effective portion of hedge pairs. The effective portion of a hedge pair.

(iii) Non-significant equity exposures. Equity exposures, excluding significant investments in the capital of an unconsolidated institution in the form of common stock and exposures to an investment firm that would meet the definition of a traditional securitization were it not for the FDIC’s application of paragraph (b) of that definition in §324.2 and has greater than immaterial
leverage, to the extent that the aggregate adjusted carrying value of the exposures does not exceed 10 percent of the FDIC-supervised institution's total capital.

(A) To compute the aggregate adjusted carrying value of an FDIC-supervised institution's equity exposures for purposes of this section, the FDIC-supervised institution may exclude equity exposures described in paragraphs (b)(1), (b)(2), (b)(3)(i), and (b)(3)(ii) of this section, the equity exposure in a hedge pair with the smaller adjusted carrying value, and a proportion of each equity exposure to an investment fund equal to the proportion of the assets of the investment fund that are not equity exposures or that meet the criterion of paragraph (b)(3)(i) of this section. If an FDIC-supervised institution does not know the actual holdings of the investment fund, the FDIC-supervised institution may calculate the proportion of the assets of the fund that are not equity exposures based on the terms of the prospectus, partnership agreement, or similar contract that defines the fund's permissible investments. If the sum of the investment limits for all exposure classes within the fund exceeds 100 percent, the FDIC-supervised institution must assume for purposes of this section that the investment fund invests to the maximum extent possible in equity exposures.

(B) When determining which of an FDIC-supervised institution's equity exposures qualifies for a 100 percent risk weight under this section, an FDIC-supervised institution first must include equity exposures to unconsolidated small business investment companies or held through consolidated small business investment companies described in section 302 of the Small Business Investment Act, then must include publicly traded equity exposures (including those held indirectly through investment funds), and then must include non-publicly traded equity exposures (including those held indirectly through investment funds).

(4) 250 percent risk weight equity exposures. Significant investments in the capital of unconsolidated financial institutions in the form of common stock that are not deducted from capital pursuant to §324.22(b)(4) are assigned a 250 percent risk weight.

(5) 300 percent risk weight equity exposures. A publicly traded equity exposure (other than an equity exposure described in paragraph (b)(6) of this section and including the ineffective portion of a hedge pair) is assigned a 300 percent risk weight.

(6) 400 percent risk weight equity exposures. An equity exposure (other than an equity exposure described in paragraph (b)(6) of this section) that is not publicly traded is assigned a 400 percent risk weight.

(7) 600 percent risk weight equity exposures. An equity exposure to an investment firm that:

(i) Would meet the definition of a traditional securitization were it not for the FDIC's application of paragraph (8) of that definition in §324.2; and

(ii) Has greater than immaterial leverage is assigned a 600 percent risk weight.

(c) Hedge transactions—(1) Hedge pair. A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(2) Effective hedge. Two equity exposures form an effective hedge if the exposures either have the same remaining maturity or each has a remaining maturity of at least three months; the hedge relationship is formally documented in a prospective manner (that is, before the FDIC-supervised institution acquires at least one of the equity exposures); the documentation specifies the measure of effectiveness (E) the FDIC-supervised institution will use for the hedge relationship throughout the life of the transaction; and the hedge relationship has an E greater than or equal to 0.8. An FDIC-supervised institution must measure E at least quarterly and must use one of three alternative measures of E:

(i) Under the dollar-offset method of measuring effectiveness, the FDIC-supervised institution must determine the ratio of value change (RVC). The RVC is the ratio of the cumulative sum of the periodic changes in value of one equity exposure to the cumulative sum of the periodic changes in the value of the other equity exposure. If RVC is
positive, the hedge is not effective and E equals zero. If RVC is negative and greater than or equal to \(-1\) (that is, between zero and \(-1\)), then E equals the absolute value of RVC. If RVC is negative and less than \(-1\), then E equals 2 plus RVC.

(ii) Under the variability-reduction method of measuring effectiveness:

\[
E = 1 - \frac{\sum_{i=1}^{T} (X_i - X_{i-1})^2}{\sum_{i=1}^{T} (A_i - A_{i-1})^2},
\]

where

(A) \(X_i = A_i - B_i\);

(B) \(A_i = \) the value at time t of one exposure in a hedge pair; and

(C) \(B_i = \) the value at time t of the other exposure in a hedge pair.

(iii) Under the regression method of measuring effectiveness, E equals the coefficient of determination of a regression in which the change in value of one exposure in a hedge pair is the dependent variable and the change in value of the other exposure in a hedge pair is the independent variable. However, if the estimated regression coefficient is positive, then the value of E is zero.

(3) The effective portion of a hedge pair is E multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

(4) The ineffective portion of a hedge pair is \(1 - E\) multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

§ 324.153 Internal models approach (IMA).

(a) General. An FDIC-supervised institution may calculate its risk-weighted asset amount for equity exposures using the IMA by modeling publicly traded and non-publicly traded equity exposures (in accordance with paragraph (c) of this section) or by modeling only publicly traded equity exposures (in accordance with paragraphs (c) and (d) of this section).

(b) Qualifying criteria. To qualify to use the IMA to calculate risk-weighted assets for equity exposures, an FDIC-supervised institution must receive prior written approval from the FDIC. To receive such approval, the FDIC-supervised institution must demonstrate to the FDIC’s satisfaction that the FDIC-supervised institution meets the following criteria:

(1) The FDIC-supervised institution must have one or more models that:

   (i) Assess the potential decline in value of its modeled equity exposures;

   (ii) Are commensurate with the size, complexity, and composition of the FDIC-supervised institution’s modeled equity exposures; and

   (iii) Adequately capture both general market risk and idiosyncratic risk.

(2) The FDIC-supervised institution’s model must produce an estimate of potential losses for its modeled equity exposures that is no less than the estimate of potential losses produced by a VaR methodology employing a 99th percentile one-tailed confidence interval of the distribution of quarterly returns for a benchmark portfolio of equity exposures comparable to the FDIC-supervised institution’s modeled equity exposures (in accordance with paragraphs (c) and (d) of this section).
(3) The number of risk factors and exposures in the sample and the data period used for quantification in the FDIC-supervised institution’s model and benchmarking exercise must be sufficient to provide confidence in the accuracy and robustness of the FDIC-supervised institution’s estimates.

(4) The FDIC-supervised institution’s model and benchmarking process must incorporate data that are relevant in representing the risk profile of the FDIC-supervised institution’s modeled equity exposures, and must include data from at least one equity market cycle containing adverse market movements relevant to the risk profile of the FDIC-supervised institution’s modeled equity exposures. In addition, the FDIC-supervised institution’s benchmarking exercise must be based on daily market prices for the benchmark portfolio. If the FDIC-supervised institution’s model uses a scenario methodology, the FDIC-supervised institution must demonstrate that the model produces a conservative estimate of potential losses on the FDIC-supervised institution’s modeled equity exposures. The FDIC-supervised institution employs risk factor models, the FDIC-supervised institution must demonstrate through empirical analysis the appropriateness of the risk factors used.

(5) The FDIC-supervised institution must be able to demonstrate, using theoretical arguments and empirical evidence, that any proxies used in the modeling process are comparable to the FDIC-supervised institution’s modeled equity exposures and that the FDIC-supervised institution has made appropriate adjustments for differences. The FDIC-supervised institution must derive any proxies for its modeled equity exposures and benchmark portfolio using historical market data that are relevant to the FDIC-supervised institution’s modeled equity exposures and benchmark portfolio (or, where not, must use appropriately adjusted data), and such proxies must be robust estimates of the risk of the FDIC-supervised institution’s modeled equity exposures.

c) Risk-weighted assets calculation for an FDIC-supervised institution using the IMA for publicly traded and non-publicly traded equity exposures. If an FDIC-supervised institution models publicly traded and non-publicly traded equity exposures, the FDIC-supervised institution’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under § 324.152(b)(1) through (b)(3)(i) (as determined under § 324.152) and each equity exposure to an investment fund (as determined under § 324.154); and

(2) The greater of:
   (i) The estimate of potential losses on the FDIC-supervised institution’s equity exposures (other than equity exposures referenced in paragraph (c)(1) of this section) generated by the FDIC-supervised institution’s internal equity exposure model multiplied by 12.5; or
   (ii) The sum of:
      (A) 200 percent multiplied by the aggregate adjusted carrying value of the FDIC-supervised institution’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under § 324.152(b)(1) through (b)(3)(i), and are not equity exposures to an investment fund;
      (B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs; and
      (C) 300 percent multiplied by the aggregate adjusted carrying value of the FDIC-supervised institution’s equity exposures that are not publicly traded, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under § 324.152(b)(1) through (b)(3)(i), and are not equity exposures to an investment fund.

(d) Risk-weighted assets calculation for an FDIC-supervised institution using the IMA only for publicly traded equity exposures. If an FDIC-supervised institution models only publicly traded equity exposures, the FDIC-supervised institution’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for
§ 324.154  

12 CFR Ch. III (1–1–17 Edition)

a 0 percent, 20 percent, or 100 percent risk weight under §§ 324.152(b)(1) through (b)(3)(i) (as determined under § 324.152), each equity exposure that qualifies for a 400 percent risk weight under § 324.152(b)(5) or a 600 percent risk weight under § 324.152(b)(6) (as determined under § 324.152), and each equity exposure to an investment fund (as determined under § 324.154); and

(2) The greater of:

(i) The estimate of potential losses on the FDIC-supervised institution’s equity exposures (other than equity exposures referenced in paragraph (d)(1) of this section) generated by the FDIC-supervised institution’s internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the FDIC-supervised institution’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under § 324.152(b)(1) through (b)(3)(i), and are not equity exposures to an investment fund; and

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs.

§ 324.154  

Equity exposures to investment funds.

(a) Available approaches. (1) Unless the exposure meets the requirements for a community development equity exposure in § 324.152(b)(3)(i), an FDIC-supervised institution must determine the risk-weighted asset amount of an equity exposure to an investment fund under the full look-through approach in paragraph (b) of this section, the simple modified look-through approach in paragraph (c) of this section, or the alternative modified look-through approach in paragraph (d) of this section.

(2) The risk-weighted asset amount of an equity exposure to an investment fund that meets the requirements for a community development equity exposure in § 324.152(b)(3)(i) is its adjusted carrying value.

(3) If an equity exposure to an investment fund is part of a hedge pair and the FDIC-supervised institution does not use the full look-through approach, the FDIC-supervised institution may use the ineffective portion of the hedge pair as determined under § 324.152(c) as the adjusted carrying value for the equity exposure to the investment fund. The risk-weighted asset amount of the effective portion of the hedge pair is equal to its adjusted carrying value.

(b) Full look-through approach. An FDIC-supervised institution that is able to calculate a risk-weighted asset amount for its proportional ownership share of each exposure held by the investment fund (as calculated under this subpart E of this part as if the proportional ownership share of each exposure were held directly by the FDIC-supervised institution) may either:

(1) Set the risk-weighted asset amount of the FDIC-supervised institution’s exposure to the fund equal to the product of:

(i) The aggregate risk-weighted asset amounts of the exposures held by the fund as if they were held directly by the FDIC-supervised institution; and

(ii) The FDIC-supervised institution’s proportional ownership share of the fund;

(2) Include the FDIC-supervised institution’s proportional ownership share of each exposure held by the fund in the FDIC-supervised institution’s IMA.

(c) Simple modified look-through approach. Under this approach, the risk-weighted asset amount for an FDIC-supervised institution’s equity exposure to an investment fund equals the adjusted carrying value of the equity exposure multiplied by the highest risk weight assigned according to subpart D of this part that applies to any exposure the fund is permitted to hold under its prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments (excluding derivative contracts that are used for hedging rather than speculative purposes and that do not constitute a material portion of the fund’s exposures).

(d) Alternative modified look-through approach. Under this approach, an FDIC-supervised institution may assign the adjusted carrying value of an equity exposure to an investment fund on a pro rata basis to different risk weight categories assigned according to subpart D of this part based on the investment limits in the fund’s prospectus, partnership agreement, or
Federal Deposit Insurance Corporation

§ 324.161 Qualification requirements for incorporation of operational risk mitigants.

(a) Qualification to use operational risk mitigants. An FDIC-supervised institution may adjust its estimate of operational risk exposure to reflect qualifying operational risk mitigants if:

(1) The FDIC-supervised institution’s operational risk quantification system is able to generate an estimate of the FDIC-supervised institution’s operational risk exposure (which does not incorporate qualifying operational risk mitigants) and an estimate of the FDIC-supervised institution’s operational risk exposure adjusted to incorporate qualifying operational risk mitigants; and

(2) The FDIC-supervised institution’s methodology for incorporating the effects of insurance, if the FDIC-supervised institution uses insurance as an operational risk mitigant, captures through appropriate discounts to the amount of risk mitigation:

(i) The residual term of the policy, where less than one year;

(ii) The cancellation terms of the policy, where less than one year;

(iii) The policy’s timeliness of payment;

(iv) The uncertainty of payment by the provider of the policy; and

(v) Mismatches in coverage between the policy and the hedged operational loss event.

(b) Qualifying operational risk mitigants. Qualifying operational risk mitigants are:

(1) Insurance that:

(i) Is provided by an unaffiliated company that the FDIC-supervised institution deems to have strong capacity to meet its claims payment obligations and the obligor rating category to which the FDIC-supervised institution assigns the company is assigned a PD equal to or less than 10 basis points;

(ii) Has an initial term of at least one year and a residual term of more than 90 days;

(iii) Has a minimum notice period for cancellation by the provider of 90 days;
§ 324.162 Mechanics of risk-weighted asset calculation.

(a) If an FDIC-supervised institution does not qualify to use or does not have qualifying operational risk mitigants, the FDIC-supervised institution’s dollar risk-based capital requirement for operational risk is its operational risk exposure minus eligible operational risk offsets (if any).

(b) If an FDIC-supervised institution qualifies to use operational risk mitigants and has qualifying operational risk mitigants, the FDIC-supervised institution’s dollar risk-based capital requirement for operational risk is the greater of:

1. The FDIC-supervised institution’s operational risk exposure adjusted for qualifying operational risk mitigants minus eligible operational risk offsets (if any); or
2. 0.8 multiplied by the difference between:
   1. The FDIC-supervised institution’s operational risk exposure; and
   2. Eligible operational risk offsets (if any).

(c) The FDIC-supervised institution’s risk-weighted asset amount for operational risk equals the FDIC-supervised institution’s dollar risk-based capital requirement for operational risk determined under sections 162(a) or (b) multiplied by 12.5.

§§ 324.163–324.170 [Reserved]

DISCLOSURES

§ 324.171 Purpose and scope.

§§ 324.171 through 324.173 establish public disclosure requirements related to the capital requirements of an FDIC-supervised institution that is an advanced approaches FDIC-supervised institution.

§ 324.172 Disclosure requirements.

(a) An FDIC-supervised institution that is an advanced approaches FDIC-supervised institution that has completed the parallel run process and that has received notification from the FDIC pursuant to § 324.121(d) must publicly disclose each quarter its total and tier 1 risk-based capital ratios and their components as calculated under this subpart (that is, common equity tier 1 capital, additional tier 1 capital, tier 2 capital, total qualifying capital, and total risk-weighted assets).

(b) An FDIC-supervised institution that is an advanced approaches FDIC-supervised institution that has completed the parallel run process and that has received notification from the FDIC pursuant to section § 324.121(d) must comply with paragraph (c) of this section unless it is a consolidated subsidiary of a bank holding company, savings and loan holding company, or depository institution that is subject to these disclosure requirements or a subsidiary of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction.

(c)(1) An FDIC-supervised institution described in paragraph (b) of this section must provide timely public disclosures each calendar quarter of the information in the applicable tables in § 324.173. If a significant change occurs, such that the most recent reported amounts are no longer reflective of the FDIC-supervised institution’s capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be disclosed as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter (for example, a general summary of the FDIC-supervised institution’s risk management objectives and policies, reporting system, and definitions) may be disclosed annually after the end of the fourth calendar quarter, provided that any significant changes to these are disclosed in the interim. Management may provide all
§ 324.173 Disclosures by certain advanced approaches FDIC-supervised institutions.

(a)(1) An advanced approaches FDIC-supervised institution described in §324.172(b) must make the disclosures described in Tables 1 through 12 to §324.173.

(2) An advanced approaches FDIC-supervised institution that is required to publicly disclose its supplementary leverage ratio pursuant to §324.172(d) must make the disclosures required under Table 13 to §324.173, unless the FDIC-supervised institution is a consolidated subsidiary of a bank holding company, savings and loan holding company, or depository institution that is subject to these disclosures requirements or a subsidiary of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction.

(d)(1) An FDIC-supervised institution that meets any of the criteria in §324.100(b)(1) before January 1, 2015, must publicly disclose each quarter its supplementary leverage ratio and the components thereof (that is, tier 1 capital and total leverage exposure) as calculated under subpart B of this part beginning with the first quarter in 2015. This disclosure requirement applies without regard to whether the FDIC-supervised institution has completed the parallel run process and received notification from the FDIC pursuant to §324.121(d).

(2) An FDIC-supervised institution that meets any of the criteria in §324.100(b)(1) on or after January 1, 2015, must publicly disclose each quarter its supplementary leverage ratio and the components thereof (that is, tier 1 capital and total leverage exposure) as calculated under subpart B of this part beginning with the calendar quarter immediately following the quarter in which the FDIC-supervised institution becomes an advanced approaches FDIC-supervised institution. This disclosure requirement applies without regard to whether the FDIC-supervised institution has completed the parallel run process and has received notification from the FDIC pursuant to §324.121(d).

Table 13 to §324.173 must be made publicly available for twelve consecutive quarters beginning on January 1, 2015, or a shorter period, as applicable, for the quarters after the FDIC-supervised institution becomes subject to the disclosure of the supplementary leverage ratio pursuant to §324.172(d) and §324.173(a)(2).

### Table 3 to § 324.173—Capital Adequacy—Continued

| (c) | Standardized market risk-weighted assets and advanced market risk-weighted assets as calculated under subpart F of this part: (1) Standardized approach for specific risk; and (2) Internal models approach for specific risk. |
| (d) | Risk-weighted assets for operational risk. |
| (e) | Common equity tier 1, tier 1 and total risk-based capital ratios: (1) For the top consolidated group; and (2) For each depository institution subsidiary. |
| (f) | Total risk-weighted assets. |

### Table 4 to § 324.173—Capital Conservation and Countercyclical Capital Buffers

| Qualitative disclosures | (a) | The FDIC-supervised institution must publicly disclose the geographic breakdown of its private sector credit exposures used in the calculation of the countercyclical capital buffer. |
| Quantitative disclosures | (b) | At least quarterly, the FDIC-supervised institution must calculate and publicly disclose the capital conservation buffer and the countercyclical capital buffer as described under § 324.11 of subpart B. |
| | (c) | At least quarterly, the FDIC-supervised institution must calculate and publicly disclose the buffer retained income of the FDIC-supervised institution, as described under § 324.11 of subpart B. |
| | (d) | At least quarterly, the FDIC-supervised institution must calculate and publicly disclose any limitations it has on distributions and discretionary bonus payments resulting from the capital conservation buffer and the countercyclical capital buffer framework described under § 324.11 of subpart B, including the maximum payout amount for the quarter. |

(b) **General qualitative disclosure requirement.** For each separate risk area described in Tables 5 through 12 to § 324.173, the FDIC-supervised institution must describe its risk management objectives and policies, including: (1) Strategies and processes; (2) The structure and organization of the relevant risk management function; (3) The scope and nature of risk reporting and/or measurement systems; and (4) Policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/mitigators.

### Table 5 to § 324.173—Credit Risk: General Disclosures

| Qualitative disclosures | (a) | The general qualitative disclosure requirement with respect to credit risk (excluding counterparty credit risk disclosed in accordance with Table 7 to § 324.173), including: (1) Policy for determining past due or delinquency status; (2) Policy for placing loans on nonaccrual; (3) Policy for returning loans to accrual status; (4) Definition of and policy for identifying impaired loans (for financial accounting purposes); (5) Description of the methodology that the entity uses to estimate its allowance for loan and lease losses, including statistical methods used where applicable; (6) Policy for charging-off uncollectible amounts; and (7) Discussion of the FDIC-supervised institution’s credit risk management policy. |
**TABLE 5** TO § 324.173—CREDIT RISK: GENERAL DISCLOSURES—Continued

| Quantitative disclosures | (b) | Total credit risk exposures and average credit risk exposures, after accounting offsets in accordance with GAAP; \(^2\) without taking into account the effects of credit risk mitigation techniques (for example, collateral and netting not permitted under GAAP), over the period categorized by major types of credit exposure. For example, FDIC-supervised institutions could use categories similar to that used for financial statement purposes. Such categories might include, for instance:
| | | (1) Loans, off-balance sheet commitments, and other non-derivative off-balance sheet exposures;
| | | (2) Debt securities; and
| | | (3) OTC derivatives.
| | (c) | Geographic \(^3\) distribution of exposures, categorized in significant areas by major types of credit exposure.
| | (d) | Industry or counterparty type distribution of exposures, categorized by major types of credit exposure.
| | (e) | By major industry or counterparty type:
| | | (1) Amount of impaired loans for which there was a related allowance under GAAP;
| | | (2) Amount of impaired loans for which there was no related allowance under GAAP;
| | | (3) Amount of loans past due 90 days and on nonaccrual;
| | | (4) Amount of loans past due 90 days and still accruing;\(^4\)
| | | (5) The balance in the allowance for loan and lease losses at the end of each period, disaggregated on the basis of the entity’s impairment method. To disaggregate the information required on the basis of impairment methodology, an entity shall separately disclose the amounts based on the requirements in GAAP; and
| | | (6) Charge-offs during the period.
| | (f) | Amount of impaired loans and, if available, the amount of past due loans categorized by significant geographic areas including, if practical, the amounts of allowances related to each geographical area;\(^5\) further categorized as required by GAAP.
| | (g) | Reconciliation of changes in ALLL.\(^6\)
| | (h) | Remaining contractual maturity breakdown (for example, one year or less) of the whole portfolio, categorized by credit exposure.

---

1 Table 5 to § 324.173 does not cover equity exposures, which should be reported in Table 9 to § 324.173.
2 See, for example, ASC Topic 815–10 and 210–20, as they may be amended from time to time.
3 Geographical areas may comprise individual countries, groups of countries, or regions within countries. An FDIC-supervised institution might choose to define the geographical areas based on the way the company’s portfolio is geographically managed. The criteria used to allocate the loans to geographical areas must be specified.
4 An FDIC-supervised institution is encouraged also to provide an analysis of the aging of past-due loans.
5 The portion of the general allowance that is not allocated to a geographical area should be disclosed separately.
6 The reconciliation should include the following: a description of the allowance; the opening balance of the allowance; charge-offs taken against the allowance during the period; amounts provided (or reversed) for estimated probable loan losses during the period; any other adjustments (for example, exchange rate differences, business combinations, acquisitions and disposals of subsidiaries), including transfers between allowances; and the closing balance of the allowance. Charge-offs and recoveries that have been recorded directly to the income statement should be disclosed separately.

**TABLE 6** TO § 324.173—CREDIT RISK: DISCLOSURES FOR PORTFOLIOS SUBJECT TO IRB RISK-BASED CAPITAL FORMULAS

| Qualitative disclosures | (a) | Explanation and review of the:
| | | (1) Structure of internal rating systems and if the FDIC-supervised institution considers external ratings, the relation between internal and external ratings;
| | | (2) Use of risk parameter estimates other than for regulatory capital purposes;
| | | (3) Process for managing and recognizing credit risk mitigation (see Table 8 to § 324.173); and
| | | (4) Control mechanisms for the rating system, including discussion of independence, accountability, and rating systems review.

---

368
| (b) .... | (1) Description of the internal ratings process, provided separately for the following:
  |         | (i) Wholesale category;
  |         | (ii) Retail subcategories;
  |         | (iii) Residential mortgage exposures;
  |         | (iv) Qualifying revolving exposures; and
  |         | (v) Other retail exposures.
  | (2) For each category and subcategory above the description should include:
  |         | (i) The types of exposure included in the category/subcategories; and
  |         | (ii) The definitions, methods and data for estimation and validation of PD, LGD, and EAD, including assumptions employed in the derivation of these variables.¹

Quantitative disclosures: risk assessment.

| (c) .... | (1) For wholesale exposures, present the following information across a sufficient number of PD grades (including default) to allow for a meaningful differentiation of credit risk:²
  |         | (i) Total EAD;³
  |         | (ii) Exposure-weighted average LGD (percentage);³
  |         | (iii) Exposure-weighted average risk weight;³
  |         | (iv) Amount of undrawn commitments and exposure-weighted average EAD including average drawdowns prior to default for wholesale exposures.
  | (2) For each retail subcategory, present the disclosures outlined above across a sufficient number of segments to allow for a meaningful differentiation of credit risk.

Quantitative disclosures: historical results.

| (d) .... | Actual losses in the preceding period for each category and subcategory and how this differs from past experience. A discussion of the factors that impacted the loss experience in the preceding period—for example, has the FDIC-supervised institution experienced higher than average default rates, loss rates or EADs.

| (e) .... | The FDIC-supervised institution’s estimates compared against actual outcomes over a longer period.⁴ At a minimum, this should include information on estimates of losses against actual losses in the wholesale category and each retail subcategory over a period sufficient to allow for a meaningful assessment of the performance of the internal rating processes for each category/subcategory.⁵ Where appropriate, the FDIC-supervised institution should further decompose this to provide analysis of PD, LGD, and EAD outcomes against estimates provided in the quantitative risk assessment disclosures above.⁶

¹This disclosure item does not require a detailed description of the model in full—it should provide the reader with a broad overview of the model approach, describing definitions of the variables and methods for estimating and validating those variables set out in the quantitative risk disclosures below. This should be done for each of the four categories/subcategories. The FDIC-supervised institution must disclose any significant differences in approach to estimating these variables within each category/subcategory.

²The PD, LGD and EAD disclosures in Table 6 (c) to §324.173 should reflect the effects of collateral, qualifying master netting agreements, eligible guarantees and eligible credit derivatives as defined under this part. Disclosure of each PD grade should include the exposure-weighted average PD for each grade. Where an FDIC-supervised institution aggregates PD grades for the purposes of disclosure, this should be a representative breakdown of the distribution of PD grades used for regulatory capital purposes.

³Outstanding loans and EAD on undrawn commitments can be presented on a combined basis for these disclosures.

⁴These disclosures are a way of further informing the reader about the reliability of the information provided in the “quantitative disclosures: risk assessment” over the long run. The disclosures are requirements from year-end 2010; in the meantime, early adoption is encouraged. The phased implementation is to allow an FDIC-supervised institution sufficient time to build up a longer run of data that will make these disclosures meaningful.

⁵This disclosure item is not intended to be prescriptive about the period used for this assessment. Upon implementation, it is expected that an FDIC-supervised institution would provide these disclosures for as long a set of data as possible—for example, if an FDIC-supervised institution has 10 years of data, it might choose to disclose the average default rates for each PD grade over that 10-year period. Annual amounts need not be disclosed.

⁶An FDIC-supervised institution must provide this further decomposition where it will allow users greater insight into the reliability of the estimates provided in the “quantitative disclosures: risk assessment.” In particular, it must provide this information where there are material differences between its estimates of PD, LGD or EAD compared to actual outcomes over the long run. The FDIC-supervised institution must also provide explanations for such differences.
### TABLE 7 TO § 324.173—GENERAL DISCLOSURE FOR COUNTERPARTY CREDIT RISK OF OTC DERIVATIVE CONTRACTS, REPO-STYLE TRANSACTIONS, AND ELIGIBLE MARGIN LOANS

| Qualitative Disclosures | (a) .... | The general qualitative disclosure requirement with respect to OTC derivatives, eligible margin loans, and repo-style transactions, including: (1) Discussion of methodology used to assign economic capital and credit limits for counterparty credit exposures; (2) Discussion of policies for securing collateral, valuing and managing collateral, and establishing credit reserves; (3) Discussion of the primary types of collateral taken; (4) Discussion of policies with respect to wrong-way risk exposures; and (5) Discussion of the impact of the amount of collateral the FDIC-supervised institution would have to provide if the FDIC-supervised institution were to receive a credit rating downgrade. |
| Quantitative Disclosures | (b) .... | Gross positive fair value of contracts, netting benefits, netted current credit exposure, collateral held (including type, for example, cash, government securities), and net unsecured credit exposure.\(^1\) Also report measures for EAD used for regulatory capital for these transactions, the notional value of credit derivative hedges purchased for counterparty credit risk protection, and, for FDIC-supervised institutions not using the internal models methodology in § 324.132(d), the distribution of current credit exposure by types of credit exposure.\(^2\) |
| (c) .... | Notional amount of purchased and sold credit derivatives, segregated between use for the FDIC-supervised institution’s own credit portfolio and for its intermediation activities, including the distribution of the credit derivative products used, categorized further by protection bought and sold within each product group. |
| (d) .... | The estimate of alpha if the FDIC-supervised institution has received supervisory approval to estimate alpha. |

\(^1\) Net unsecured credit exposure is the credit exposure after considering the benefits from legally enforceable netting agreements and collateral arrangements, without taking into account haircuts for price volatility, liquidity, etc.

\(^2\) This may include interest rate derivative contracts, foreign exchange derivative contracts, equity derivative contracts, commodity or other derivative contracts, repo-style transactions, and eligible margin loans.

### TABLE 8 TO § 324.173—CREDIT RISK MITIGATION

| Qualitative disclosures | (a) .... | The general qualitative disclosure requirement with respect to credit risk mitigation, including: (1) Policies and processes for, and an indication of the extent to which the FDIC-supervised institution uses, on- or off-balance sheet netting; (2) Policies and processes for collateral valuation and management; (3) A description of the main types of collateral taken by the FDIC-supervised institution; (4) The main types of guarantors/credit derivative counterparties and their creditworthiness; and (5) Information about (market or credit) risk concentrations within the mitigation taken. |
| Quantitative disclosures | (b) .... | For each separately disclosed portfolio, the total exposure (after, where applicable, on- or off-balance sheet netting) that is covered by guarantees/credit derivatives. |

\(^1\) At a minimum, an FDIC-supervised institution must provide the disclosures in Table 8 to § 324.173 in relation to credit risk mitigation that has been recognized for the purposes of reducing capital requirements under this subpart. Where relevant, FDIC-supervised institutions are encouraged to give further information about mitigants that have not been recognized for that purpose.

\(^2\) Credit derivatives and other credit mitigation that are treated for the purposes of this subpart as synthetic securitization exposures should be excluded from the credit risk mitigation disclosures (in Table 8 to § 324.173) and included within those relating to securitization (in Table 9 to § 324.173).
### Qualitative disclosures

(a) ... The general qualitative disclosure requirement with respect to securitization (including synthetic securitizations), including a discussion of:

1. The FDIC-supervised institution’s objectives for securitizing assets, including the extent to which these activities transfer credit risk of the underlying exposures away from the FDIC-supervised institution to other entities and including the type of risks assumed and retained with resecuritization activity;¹
2. The nature of the risks (e.g., liquidity risk) inherent in the securitized assets;
3. The roles played by the FDIC-supervised institution in the securitization process² and an indication of the extent of the FDIC-supervised institution’s involvement in each of them;
4. The processes in place to monitor changes in the credit and market risk of securitization exposures including how those processes differ for resecuritization exposures;
5. The FDIC-supervised institution’s policy for mitigating the credit risk retained through securitization and resecuritization exposures; and
6. The risk-based capital approaches that the FDIC-supervised institution follows for its securitization exposures including the type of securitization exposure to which each approach applies.

(b) ... A list of:

1. The type of securitization SPEs that the FDIC-supervised institution, as sponsor, uses to securitize third-party exposures. The FDIC-supervised institution must indicate whether it has exposure to these SPEs, either on- or off-balance sheet; and
2. Affiliated entities:
   - (i) That the FDIC-supervised institution manages or advises; and
   - (ii) That invest either in the securitization exposures that the FDIC-supervised institution has securitized or in securitization SPEs that the FDIC-supervised institution sponsors.³

(c) ... Summary of the FDIC-supervised institution’s accounting policies for securitization activities, including:

1. Whether the transactions are treated as sales or financings;
2. Recognition of gain-on-sale;
3. Methods and key assumptions and inputs applied in valuing retained or purchased interests;
4. Changes in methods and key assumptions and inputs from the previous period for valuing retained interests and impact of the changes;
5. Treatment of synthetic securitizations;
6. How exposures intended to be securitized are valued and whether they are recorded under subpart E of this part; and
7. Policies for recognizing liabilities on the balance sheet for arrangements that could require the FDIC-supervised institution to provide financial support for securitized assets.

(d) ... An explanation of significant changes to any of the quantitative information set forth below since the last reporting period.

### Quantitative disclosures

(e) ... The total outstanding exposures securitized⁴ by the FDIC-supervised institution in securitizations that meet the operational criteria in §324.141 (categorized into traditional/synthetic), by underlying exposure type⁵ separately for securitizations of third-party exposures for which the FDIC-supervised institution acts only as sponsor.

(f) ... For exposures securitized by the FDIC-supervised institution in securitizations that meet the operational criteria in §324.141:

1. Amount of securitized assets that are impaired⁶/past due categorized by exposure type; and
2. Losses recognized by the FDIC-supervised institution during the current period categorized by exposure type.⁷

(g) ... The total amount of outstanding exposures intended to be securitized categorized by exposure type.
TABLE 9 TO § 324.173—SECURITIZATION—Continued

(h) .... Aggregate amount of:
(1) On-balance sheet securitization exposures retained or purchased categorized by exposure type; and
(2) Off-balance sheet securitization exposures categorized by exposure type.

(i) ..... (1) Aggregate amount of securitization exposures retained or purchased and the associated capital requirements for these exposures, categorized between securitization and resecuritization exposures, further categorized into a meaningful number of risk weight bands and by risk-based capital approach (e.g., SA, SFA, or SSFA).
(2) Aggregate amount disclosed separately by type of underlying exposure in the pool of any:
(i) After-tax gain-on-sale on a securitization that has been deducted from common equity tier 1 capital; and
(ii) Credit-enhancing interest-only strip that is assigned a 1,250 percent risk weight.

(j) ..... Summary of current year’s securitization activity, including the amount of exposures securitized (by exposure type), and recognized gain or loss on sale by asset type.

(k) .... Aggregate amount of resecuritization exposures retained or purchased categorized according to:
(1) Exposures to which credit risk mitigation is applied and those not applied; and
(2) Exposures to guarantors categorized according to guarantor credit-worthiness categories or guarantor name.

1 The FDIC-supervised institution must describe the structure of resecuritizations in which it participates; this description must be provided for the main categories of resecuritization products in which the FDIC-supervised institution is active.
2 For example, these roles would include originator, investor, servicer, provider of credit enhancement, sponsor, liquidity provider, or swap provider.
3 For example, money market mutual funds should be listed individually, and personal and private trusts, should be noted collectively.
4 "Exposures securitized" include underlying exposures originated by the FDIC-supervised institution, whether generated by them or purchased, and recognized in the balance sheet, from third parties, and third-party exposures included in sponsored transactions. Securitization transactions (including underlying exposures originally on the FDIC-supervised institution’s balance sheet and underlying exposures acquired by the FDIC-supervised institution from third-party entities) in which the originating bank does not retain any securitization exposure should be shown separately but need only be reported for the year of inception.
5 An FDIC-supervised institution is required to disclose exposures regardless of whether there is a capital charge under this part.
6 An FDIC-supervised institution must include credit-related other than temporary impairment (OTTI).
7 For example, charge-offs/allowances (if the assets remain on the FDIC-supervised institution’s balance sheet) or credit-related OTTI of I/O strips and other retained residual interests, as well as recognition of liabilities for probable future financial support required of the FDIC-supervised institution with respect to securitized assets.

TABLE 10 TO § 324.173—OPERATIONAL RISK

Qualitative disclosures ...
(a) .... The general qualitative disclosure requirement for operational risk.
(b) .... Description of the AMA, including a discussion of relevant internal and external factors considered in the FDIC-supervised institution’s measurement approach.
(c) .... A description of the use of insurance for the purpose of mitigating operational risk.

TABLE 11 TO § 324.173—EQUITIES NOT SUBJECT TO SUBPART F OF THIS PART

Qualitative disclosures ...
(a) .... The general qualitative disclosure requirement with respect to the equity risk of equity holdings not subject to subpart F of this part, including:
(1) Differentiation between holdings on which capital gains are expected and those held for other objectives, including for relationship and strategic reasons; and
(2) Discussion of important policies covering the valuation of and accounting for equity holdings not subject to subpart F of this part. This includes the accounting methodology and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices.

Quantitative disclosures (b) .... Carrying value on the balance sheet of equity investments, as well as the fair value of those investments.
### Table 11 to §324.173—Equities Not Subject to Subpart F of This Part—Continued

| (c) ... | The types and nature of investments, including the amount that is: |
| (d) ... | The cumulative realized gains (losses) arising from sales and liquidations in the reporting period. |
| (e) ... | (1) Total unrealized gains (losses)¹ |
| (f) ... | (2) Total latent revaluation gains (losses)² |
| (g) ... | (3) Any amounts of the above included in tier 1 and/or tier 2 capital. |

1. Unrealized gains (losses) recognized in the balance sheet but not through earnings.
2. Unrealized gains (losses) not recognized either in the balance sheet or through earnings.
3. This disclosure must include a breakdown of equities that are subject to the 0 percent, 20 percent, 100 percent, 300 percent, 400 percent, and 600 percent risk weights, as applicable.

### Table 12 to §324.173—Interest Rate Risk for Non-trading Activities

| Qualitative disclosures ... | (a) ... | The general qualitative disclosure requirement, including the nature of interest rate risk for non-trading activities and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of measurement of interest rate risk for non-trading activities. |
| Quantitative disclosures | (b) ... | The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management’s method for measuring interest rate risk for non-trading activities, categorized by currency (as appropriate). |

(c) Except as provided in §324.172(b), an FDIC-supervised institution described in §324.172(d) must make the disclosures described in Table 13 to §324.173; provided, however, the disclosures required under this paragraph are required without regard to whether the FDIC-supervised institution has completed the parallel run process and has received notification from the FDIC pursuant to §324.121(d). The FDIC-supervised institution must make these disclosures publicly available beginning on January 1, 2015.

### Notes

- **Purpose**: This subpart F establishes risk-based capital requirements for FDIC-supervised institutions with significant exposure to market risk, provides methods for these FDIC-supervised institutions to calculate their standardized measure for market risk and, if applicable, advanced measure for market risk, and establishes public disclosure requirements.

- **Applicability**: (1) This subpart F applies to any FDIC-supervised institution with aggregate trading assets and trading liabilities (as reported in the FDIC-supervised institution’s most recent quarterly Call Report), equal to:
Federal Deposit Insurance Corporation

§ 324.202

(i) 10 percent or more of quarter-end total assets as reported on the most recent quarterly Call Report; or
(ii) $1 billion or more.

(2) The FDIC may apply this subpart to any FDIC-supervised institution if the FDIC deems it necessary or appropriate because of the level of market risk of the FDIC-supervised institution or to ensure safe and sound banking practices.

(3) The FDIC may exclude an FDIC-supervised institution that meets the criteria of paragraph (b)(1) of this section from application of this subpart if the FDIC determines that the exclusion is appropriate based on the level of market risk of the FDIC-supervised institution and is consistent with safe and sound banking practices.

(c) Reservation of authority
(1) The FDIC may require an FDIC-supervised institution to hold an amount of capital greater than otherwise required under this subpart if the FDIC determines that the FDIC-supervised institution's capital requirement for market risk as calculated under this subpart is not commensurate with the market risk of the FDIC-supervised institution's covered positions. In making determinations under paragraphs (c)(1) through (c)(3) of this section, the FDIC will apply notice and response procedures generally in the same manner as the notice and response procedures set forth in § 324.5(c).

(2) If the FDIC determines that the risk-based capital requirement calculated under this subpart by the FDIC-supervised institution for one or more covered positions or portfolios of covered positions is not commensurate with the risks associated with those positions or portfolios, the FDIC may require the FDIC-supervised institution to assign a different risk-based capital requirement to the positions or portfolios that more accurately reflects the risk of the positions or portfolios.

(3) The FDIC may also require an FDIC-supervised institution to calculate risk-based capital requirements for specific positions or portfolios under this subpart, or under subpart D or subpart E of this part, as appropriate, to more accurately reflect the risks of the positions.

(4) Nothing in this subpart limits the authority of the FDIC under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law.

§ 324.202 Definitions.

(a) Terms set forth in § 324.2 and used in this subpart have the definitions assigned thereto in § 324.2.

(b) For the purposes of this subpart, the following terms are defined as follows:

Backtesting means the comparison of an FDIC-supervised institution's internal estimates with actual outcomes during a sample period not used in model development. For purposes of this subpart, backtesting is one form of out-of-sample testing.

Correlation trading position means:
(1) A securitization position for which all or substantially all of the value of the underlying exposures is based on the credit quality of a single company for which a two-way market exists, or on commonly traded indices based on such exposures for which a two-way market exists on the indices; or
(2) A position that is not a securitization position and that hedges a position described in paragraph (1) of this definition; and
(3) A correlation trading position does not include:
(i) A resecuritization position;
(ii) A derivative of a securitization position that does not provide a pro rata share in the proceeds of a securitization tranche; or
(iii) A securitization position for which the underlying assets or reference exposures are retail exposures, residential mortgage exposures, or commercial mortgage exposures.

Covered position means the following positions:

(1) A trading asset or trading liability (whether on- or off-balance sheet),\(^\text{31}\) as reported on Call Report, that meets the following conditions:
   (i) The position is a trading position or hedges another covered position;\(^\text{32}\) and
   (ii) The position is free of any restrictive covenants on its tradability or the FDIC-supervised institution is able to hedge the material risk elements of the position in a two-way market;

(2) A foreign exchange or commodity position, regardless of whether the position is a trading asset or trading liability (excluding any structural foreign currency positions that the FDIC-supervised institution chooses to exclude with prior supervisory approval); and

(3) Notwithstanding paragraphs (1) and (2) of this definition, a covered position does not include:
   (i) An intangible asset, including any servicing asset;
   (ii) Any hedge of a trading position that the FDIC determines to be outside the scope of the FDIC-supervised institution’s hedging strategy required in paragraph (a)(2) of §324.203;
   (iii) Any position that, in form or substance, acts as a liquidity facility that provides support to asset-backed commercial paper;
   (iv) A credit derivative the FDIC-supervised institution recognizes as a guarantee for risk-weighted asset amount calculation purposes under subpart D or subpart E of this part;
   (v) Any position that is recognized as a credit valuation adjustment hedge under §324.132(e)(5) or §324.132(e)(6), except as provided in §324.132(e)(6)(vii);
   (vi) Any equity position that is not publicly traded, other than a derivative that references a publicly traded equity and other than a position in an investment company as defined in and registered with the SEC under the Investment Company Act, provided that all the underlying equities held by the investment company are publicly traded;
   (vii) Any equity position that is not publicly traded, other than a derivative that references a publicly traded equity and other than a position in an entity not domiciled in the United States (or a political subdivision thereof) that is supervised and regulated in a manner similar to entities described in paragraph (3)(vi) of this definition;
   (viii) Any position an FDIC-supervised institution holds with the intent to securitize; or
   (ix) Any direct real estate holding.

Debt position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in interest rates or credit spreads.

Default by a sovereign entity has the same meaning as the term sovereign default under §324.2.

Equity position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in equity prices.

Event risk means the risk of loss on equity or hybrid equity positions as a result of a financial event, such as the announcement or occurrence of a company merger, acquisition, spin-off, or dissolution.

Foreign exchange position means a position for which price risk arises from changes in foreign exchange rates.

General market risk means the risk of loss that could result from broad market movements, such as changes in the general level of interest rates, credit spreads, equity prices, foreign exchange rates, or commodity prices.

Hedge means a position or positions that offset all, or substantially all, of one or more material risk factors of another position.

Idiosyncratic risk means the risk of loss in the value of a position that arises from changes in risk factors unique to that position.

\(^{31}\)Securities subject to repurchase and lending agreements are included as if they are still owned by the lender.

\(^{32}\)A position that hedges a trading position must be within the scope of the bank’s hedging strategy as described in paragraph (a)(2) of §324.203.
Incremental risk means the default risk and credit migration risk of a position. Default risk means the risk of loss on a position that could result from the failure of an obligor to make timely payments of principal or interest on its debt obligation, and the risk of loss that could result from bankruptcy, insolvency, or similar proceeding. Credit migration risk means the price risk that arises from significant changes in the underlying credit quality of the position.

Market risk means the risk of loss on a position that could result from movements in market prices.

Resecuritization position means a covered position that is:
(1) An on- or off-balance sheet exposure to a resecuritization; or
(2) An exposure that directly or indirectly references a resecuritization exposure in paragraph (1) of this definition.

Securitization means a transaction in which:
(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties;
(2) The credit risk associated with the underlying exposures has been separated into at least two tranches that reflect different levels of seniority;
(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;
(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);
(5) For non-synthetic securitizations, the underlying exposures are not owned by an operating company;
(6) The underlying exposures are not owned by a small business investment company described in section 302 of the Small Business Investment Act;
(7) The underlying exposures are not owned by a firm that exercises substantially un忐tered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a securitization based on the transaction’s leverage, risk profile, or economic substance; and
(8) The FDIC may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially un忐tered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a securitization based on the transaction’s leverage, risk profile, or economic substance; and
(9) The FDIC may deem an exposure to a transaction that meets the definition of a securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a securitization based on the transaction’s leverage, risk profile, or economic substance; and
(10) The transaction is not:
(i) An investment fund;
(ii) A collective investment fund (as defined in 12 CFR 344.3 (state non-member bank) and 12 CFR 390.203 (state savings association));
(iii) An employee benefit plan as defined in paragraphs (3) and (32) of section 3 of ERISA, a “governmental plan” (as defined in 29 USC 1002(32)) that complies with the tax deferral qualification requirements provided in the Internal Revenue Code, or any similar employee benefit plan established under the laws of a foreign jurisdiction; or
(iv) Registered with the SEC under the Investment Company Act or foreign equivalents thereof.

Securitization position means a covered position that is:
(1) An on-balance sheet or off-balance sheet credit exposure (including credit-enhancing representations and warranties) that arises from a securitization (including a resecuritization); or
(2) An exposure that directly or indirectly references a securitization exposure described in paragraph (1) of this definition.

Sovereign debt position means a direct exposure to a sovereign entity.

Specific risk means the risk of loss on a position that could result from factors other than broad market movements and includes event risk, default risk, and idiosyncratic risk.

Structural position in a foreign currency means a position that is not a trading position and that is:
(1) Subordinated debt, equity, or minority interest in a consolidated subsidiary that is denominated in a foreign currency;
§ 324.203 Requirements for application of this subpart F.

(a) Trading positions—(1) Identification of trading positions. An FDIC-supervised institution must have clearly defined policies and procedures for determining which of its trading assets and trading liabilities are trading positions and which of its trading positions are correlation trading positions. These policies and procedures must take into account:

(i) The extent to which a position, or a hedge of its material risks, can be marked-to-market daily by reference to a two-way market; and
(ii) Possible impairments to the liquidity of a position or its hedge.

(2) Trading and hedging strategies. An FDIC-supervised institution must have clearly defined trading and hedging strategies for its trading positions that are approved by senior management of the FDIC-supervised institution.

(i) The trading strategy must articulate the expected holding period of, and the market risk associated with, each portfolio of trading positions.

(ii) The hedging strategy must articulate for each portfolio of trading positions the level of market risk the FDIC-supervised institution is willing to accept and must detail the instruments, techniques, and strategies the FDIC-supervised institution will use to hedge the risk of the portfolio.

(b) Management of covered positions—

(1) Active management. An FDIC-supervised institution must have clearly defined policies and procedures for actively managing all covered positions. At a minimum, these policies and procedures must require:

(i) Marking positions to market or to model on a daily basis;

(ii) Daily assessment of the FDIC-supervised institution’s ability to hedge position and portfolio risks, and of the extent of market liquidity;

(iii) Establishment and daily monitoring of limits on positions by a risk control unit independent of the trading business unit;

(iv) Daily monitoring by senior management of information described in paragraphs (b)(1)(i) through (b)(1)(iii) of this section;

(v) At least annual reassessment of established limits on positions by senior management; and

(vi) At least annual assessments by qualified personnel of the quality of market inputs to the valuation process, the soundness of key assumptions, the reliability of parameter estimation in pricing models, and the stability and accuracy of model calibration under alternative market scenarios.

(2) Valuation of covered positions. The FDIC-supervised institution must have a process for prudent valuation of its
covered positions that includes policies 
and procedures on the valuation of po-
sitions, marking positions to market or 
to model, independent price 
verification, and valuation adjust-
ments or reserves. The valuation proc-
ess must consider, as appropriate, un-
earned credit spreads, close-out costs, 
early termination costs, investing and 
funding costs, liquidity, and model 
risk.  

c) Requirements for internal models. (1) 
An FDIC-supervised institution must 
obtain the prior written approval of 
the FDIC before using any internal 
model to calculate its risk-based cap-
tal requirement under this subpart. 

(2) An FDIC-supervised institution 
must meet all of the requirements of 
this section on an ongoing basis. The 
FDIC-supervised institution must 
promptly notify the FDIC when:

(i) The FDIC-supervised institution 
plans to extend the use of a model that 
the FDIC has approved under this sub-
part to an additional business line or 
product type; 

(ii) The FDIC-supervised institution 
makes any change to an internal model 
approved by the FDIC under this sub-
part that would result in a material 
change in the FDIC-supervised institu-
tion’s risk-weighted asset amount for a 
portfolio of covered positions; or 

(iii) The FDIC-supervised institution 
makes any material change to its mod-
eling assumptions. 

(3) The FDIC may rescind its ap-
proval of the use of any internal model 
in whole or in part) or of the deter-
mination of the approach under § 324.209(a)(2)(ii) for an FDIC-supervised 
institution’s modeled correlation trad-
ing positions and determine an approp-
riate capital requirement for the cov-
ered positions to which the model 
would apply, if the FDIC determines 
that the model no longer complies with 
this subpart or fails to reflect accu-
rately the risks of the FDIC-supervised 
institution’s covered positions. 

(4) The FDIC-supervised institution 
must periodically, but no less fre-
quently than annually, review its in-
ternal models in light of developments 
in financial markets and modeling 
technologies, and enhance those mod-
els as appropriate to ensure that they 
continue to meet the FDIC’s standards 
for model approval and employ risk 
measurement methodologies that are 
most appropriate for the FDIC-supervised 
institution’s covered positions. 

(5) The FDIC-supervised institution 
must incorporate its internal models 
into its risk management process and 
integrate the internal models used for 
calculating its VaR-based measure into 
its daily risk management process. 

(6) The level of sophistication of an 
FDIC-supervised institution’s internal 
models must be commensurate with 
the complexity and amount of its cov-
ered positions. An FDIC-supervised 
institution’s internal models may use 
any of the generally accepted ap-
proaches, including but not limited to 
variance-covariance models, historical 
simulations, or Monte Carlo simula-
tions, to measure market risk. 

(7) The FDIC-supervised institution’s 
internal models must properly measure 
all the material risks in the covered 
positions to which they are applied. 

(8) The FDIC-supervised institution’s 
internal models must conservatively 
assess the risks arising from less liquid 
positions and positions with limited 
price transparency under realistic mar-
ket scenarios. 

(9) The FDIC-supervised institution 
must have a rigorous and well-defined 
process for re-estimating, re-evalu-
ating, and updating its internal models 
to ensure continued applicability and 
relevance. 

(10) If an FDIC-supervised institution 
uses internal models to measure spe-
cific risk, the internal models must 
also satisfy the requirements in para-
graph (b)(1) of § 324.207. 

(d) Control, oversight, and validation 
mechanisms. (1) The FDIC-supervised 
institution must have a risk control unit 
that reports directly to senior manage-
ment and is independent from the busi-
ness trading units. 

(2) The FDIC-supervised institution 
must validate its internal models ini-
tially and on an ongoing basis. The 
FDIC-supervised institution’s valida-
tion process must be independent of 
the internal models’ development, im-
plementation, and operation, or the 
validation process must be subjected to 
an independent review of its adequacy 
and effectiveness. Validation must in-
clude:
§ 324.204 Measure for market risk.

(a) General requirement. (1) An FDIC-supervised institution must calculate its standardized measure for market risk by following the steps described in paragraph (a)(2) of this section. An advanced approaches FDIC-supervised institution also must calculate an advanced measure for market risk by following the steps in paragraph (a)(2) of this section.

(2) Measure for market risk. An FDIC-supervised institution must calculate the standardized measure for market risk, which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for de minimis exposures as defined under this paragraph (a)(2), plus any additional capital requirement established by the FDIC. An advanced approaches FDIC-supervised institution that has completed the parallel run process and that has received notifications from the FDIC pursuant to §324.121(d) also must calculate the advanced measure for market risk, which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for de minimis exposures as defined under this paragraph (a)(2), plus any additional capital requirement established by the FDIC.
(i) VaR-based capital requirement. An FDIC-supervised institution’s VaR-based capital requirement equals the greater of:

(A) The previous day’s VaR-based measure as calculated under §324.205; or

(B) The average of the daily VaR-based measures as calculated under §324.205 for each of the preceding 60 business days multiplied by three, except as provided in paragraph (b) of this section.

(ii) Stressed VaR-based capital requirement. An FDIC-supervised institution’s stressed VaR-based capital requirement equals the greater of:

(A) The most recent stressed VaR-based measure as calculated under §324.206; or

(B) The average of the stressed VaR-based measures as calculated under §324.206 for each of the preceding 12 weeks multiplied by three, except as provided in paragraph (b) of this section.

(iii) Specific risk add-ons. An FDIC-supervised institution’s specific risk add-ons equal any specific risk add-ons that are required under §324.207 and are calculated in accordance with §324.210.

(iv) Incremental risk capital requirement. An FDIC-supervised institution’s incremental risk capital requirement equals any incremental risk capital requirement as calculated under §324.208.

(v) Comprehensive risk capital requirement. An FDIC-supervised institution’s comprehensive risk capital requirement equals any comprehensive risk capital requirement as calculated under §324.209.

(vi) Capital requirement for de minimis exposures. An FDIC-supervised institution’s capital requirement for de minimis exposures equals:

(A) The absolute value of the fair value of those de minimis exposures that are not captured in the FDIC-supervised institution’s VaR-based measure or under paragraph (a)(2)(vi)(B) of this section; and

(B) With the prior written approval of the FDIC, the capital requirement for any de minimis exposures using alternative techniques that appropriately measure the market risk associated with those exposures.

(b) Backtesting. An FDIC-supervised institution must compare each of its most recent 250 business days’ trading losses (excluding fees, commissions, reserves, net interest income, and intraday trading) with the corresponding daily VaR-based measures calibrated to a one-day holding period and at a one-tail, 99.0 percent confidence level. An FDIC-supervised institution must begin backtesting as required by this paragraph (b) no later than one year after the later of January 1, 2014, and the date on which the FDIC-supervised institution becomes subject to this subpart. In the interim, consistent with safety and soundness principles, an FDIC-supervised institution subject to this subpart as of January 1, 2014 should continue to follow backtesting procedures in accordance with the FDIC’s supervisory expectations.

(1) Once each quarter, the FDIC-supervised institution must identify the number of exceptions (that is, the number of business days for which the actual daily net trading loss, if any, exceeds the corresponding daily VaR-based measure) that have occurred over the preceding 250 business days.

(2) An FDIC-supervised institution must use the multiplication factor in Table 1 to §324.204 that corresponds to the number of exceptions identified in paragraph (b)(1) of this section to determine its VaR-based capital requirement for market risk under paragraph (a)(2)(i) of this section and to determine its stressed VaR-based capital requirement for market risk under paragraph (a)(2)(ii) of this section until it obtains the next quarter’s backtesting results, unless the FDIC notifies the FDIC-supervised institution in writing that a different adjustment or other action is appropriate.

§ 324.205 VaR-based measure.

(a) General requirement. An FDIC-supervised institution must use one or more internal models to calculate daily a VaR-based measure of the general market risk of all covered positions. The daily VaR-based measure also may reflect the FDIC-supervised institution’s specific risk for one or more portfolios of debt and equity positions, if the internal models meet the requirements of §324.207(b)(1). The daily VaR-based measure must also reflect the FDIC-supervised institution’s specific risk for any portfolio of correlation trading positions that is modeled under §324.209. An FDIC-supervised institution may elect to include term repo-style transactions in its VaR-based measure, provided that the FDIC-supervised institution includes all such term repo-style transactions consistently over time.

(1) The FDIC-supervised institution’s internal models for calculating its VaR-based measure must use risk factors sufficient to measure the market risk inherent in all covered positions. The market risk categories must include, as appropriate, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk. For material positions in the major currencies and markets, modeling techniques must incorporate enough segments of the yield curve—in no case less than six—to capture differences in volatility and less than perfect correlation of rates along the yield curve.

(2) The VaR-based measure may incorporate empirical correlations within and across risk categories, provided the FDIC-supervised institution validates and demonstrates the reasonableness of its process for measuring correlations. If the VaR-based measure does not incorporate empirical correlations across risk categories, the FDIC-supervised institution must add the separate measures from its internal models used to calculate the VaR-based measure for the appropriate market risk categories (interest rate risk, credit spread risk, equity price risk, foreign exchange rate risk, and/or commodity price risk) to determine its aggregate VaR-based measure.

(3) The VaR-based measure must include the risks arising from the non-linear price characteristics of options positions or positions with embedded optionality and the sensitivity of the fair value of the positions to changes in the volatility of the underlying rates, prices, or other material risk factors. An FDIC-supervised institution with a large or complex options portfolio must measure the volatility of options positions or positions with embedded optionality by different maturities and/or strike prices, where material.

(4) The FDIC-supervised institution must be able to justify to the satisfaction of the FDIC the omission of any risk factors from the calculation of its VaR-based measure that the FDIC-supervised institution uses in its pricing models.

(5) The FDIC-supervised institution must demonstrate to the satisfaction of the FDIC the appropriateness of any proxies used to capture the risks of the FDIC-supervised institution’s actual positions for which such proxies are used.

(b) Quantitative requirements for VaR-based measure. (1) The VaR-based measure must be calculated on a daily basis using a one-tail, 99.0 percent confidence level, and a holding period equivalent to a 10-business-day movement in underlying risk factors, such as rates, spreads, and prices. To calculate VaR-based measures using a 10-business-day holding period, the FDIC-supervised institution may calculate 10-business-day measures directly or may convert VaR-based measures using holding periods other than 10 business days to the equivalent of a 10-business-day holding period. An FDIC-supervised institution that converts its VaR-based measure in such a manner must be able to justify the reasonableness of its approach to the satisfaction of the FDIC.

(2) The VaR-based measure must be based on a historical observation period of at least one year. Data used to determine the VaR-based measure must be relevant to the FDIC-supervised institution’s actual exposures and of sufficient quality to support the calculation of risk-based capital requirements. The FDIC-supervised institution must update data sets at least monthly or more frequently as changes
Federal Deposit Insurance Corporation

§ 324.206 Stressed VaR-based measure.

(a) General requirement. At least weekly, an FDIC-supervised institution must use the same internal model(s) used to calculate its VaR-based measure to calculate a stressed VaR-based measure.

(b) Quantitative requirements for stressed VaR-based measure. (1) An FDIC-supervised institution must calculate a stressed VaR-based measure for its covered positions using the same model(s) used to calculate the VaR-based measure, subject to the same confidence level and holding period applicable to the VaR-based measure under §324.205, but with model inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the FDIC-supervised institution’s current portfolio.

(2) The stressed VaR-based measure must be calculated at least weekly and be no less than the FDIC-supervised institution’s VaR-based measure.

(3) An FDIC-supervised institution must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the FDIC-supervised institution’s stressed VaR-based measure under this section and must be able to provide empirical support for the period used. The FDIC-supervised institution must obtain the prior approval of the FDIC for, and notify the FDIC if the FDIC-supervised institution makes any material changes to, these policies and procedures. The policies and procedures must address:

(i) How the FDIC-supervised institution links the period of significant financial stress used to calculate the stressed VaR-based measure to the composition and directional bias of its current portfolio; and

(ii) The FDIC-supervised institution’s process for selecting, reviewing, and updating the period of significant financial stress used to calculate the stressed VaR-based measure and for monitoring the appropriateness of the period to the FDIC-supervised institution’s current portfolio.

(4) Nothing in this section prevents the FDIC from requiring an FDIC-supervised institution to use a different period of significant financial stress in

in market conditions or portfolio composition warrant. For an FDIC-supervised institution that uses a weighting scheme or other method for the historical observation period, the FDIC-supervised institution must either:

(i) Use an effective observation period of at least one year in which the average time lag of the observations is at least six months; or

(ii) Demonstrate to the FDIC that its weighting scheme is more effective than a weighting scheme with an average time lag of at least six months representing the volatility of the FDIC-supervised institution’s trading portfolio over a full business cycle. An FDIC-supervised institution using this option must update its data more frequently than monthly and in a manner appropriate for the type of weighting scheme.

(c) An FDIC-supervised institution must divide its portfolio into a number of significant subportfolios approved by the FDIC for subportfolio backtesting purposes. These subportfolios must be sufficient to allow the FDIC-supervised institution and the FDIC to assess the adequacy of the VaR model at the risk factor level; the FDIC will evaluate the appropriateness of these subportfolios relative to the value and composition of the FDIC-supervised institution’s covered positions. The FDIC-supervised institution must retain and make available to the FDIC the following information for each subportfolio for each business day over the previous two years (500 business days), with no more than a 60-day lag:

(1) A daily VaR-based measure for the subportfolio calibrated to a one-tail, 99.0 percent confidence level;

(2) The daily profit or loss for the subportfolio (that is, the net change in price of the positions held in the portfolio at the end of the previous business day); and

(3) The p-value of the profit or loss on each day (that is, the probability of observing a profit that is less than, or a loss that is greater than, the amount reported for purposes of paragraph (c)(2) of this section based on the model used to calculate the VaR-based measure described in paragraph (c)(1) of this section).
§ 324.207 Specific risk.

(a) General requirement. An FDIC-supervised institution must use one of the methods in this section to measure the specific risk for each of its debt, equity, and securitization positions with specific risk.

(b) Modeled specific risk. An FDIC-supervised institution may use models to measure the specific risk of covered positions as provided in § 324.205(a) (therefore, excluding securitization positions that are not modeled under § 324.209). An FDIC-supervised institution must use models to measure the specific risk of correlation trading positions that are modeled under § 324.209.

(1) Requirements for specific risk modeling. (i) If an FDIC-supervised institution uses internal models to measure the specific risk of a portfolio, the internal models must:

(A) Explain the historical price variation in the portfolio;
(B) Be responsive to changes in market conditions;
(C) Be robust to an adverse environment, including signaling rising risk in an adverse environment; and
(D) Capture all material components of specific risk for the debt and equity positions in the portfolio. Specifically, the internal models must:

(1) Capture event risk and idiosyncratic risk; and
(2) Capture and demonstrate sensitivity to material differences between positions that are similar but not identical and to changes in portfolio composition and concentrations.

(ii) If an FDIC-supervised institution calculates an incremental risk measure for a portfolio of debt or equity positions under § 324.208, the FDIC-supervised institution is not required to capture default and credit migration risks in its internal models used to measure the specific risk of those positions.

(2) Specific risk fully modeled for one or more portfolios. If the FDIC-supervised institution’s VaR-based measure captures all material aspects of specific risk for one or more of its portfolios of debt, equity, or correlation trading positions, the FDIC-supervised institution has no specific risk add-on for those portfolios for purposes of § 324.204(a)(2)(iii).

(c) Specific risk not modeled. (1) If the FDIC-supervised institution’s VaR-based measure does not capture all material aspects of specific risk for a portfolio of debt, equity, or correlation trading positions, the FDIC-supervised institution must calculate a specific risk add-on for the portfolio under the standardized measurement method as described in § 324.210.

(2) An FDIC-supervised institution must calculate a specific risk add-on under the standardized measurement method as described in § 324.210 for all of its securitization positions that are not modeled under § 324.209.

§ 324.208 Incremental risk.

(a) General requirement. An FDIC-supervised institution that measures the specific risk of a portfolio of debt positions under § 324.207(b) using internal models must calculate at least weekly an incremental risk measure for that portfolio according to the requirements in this section. The incremental risk measure is the FDIC-supervised institution’s measure of potential losses due to incremental risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions. With the prior approval of the FDIC, an FDIC-supervised institution may choose to include portfolios of equity positions in its incremental risk model, provided that it consistently includes such equity positions in a manner that is consistent with how the FDIC-supervised institution internally measures and manages the incremental risk of such positions at the portfolio level. If equity positions are included in the model, for modeling purposes default is considered to have occurred upon the default of any debt of the issuer of the equity position. An FDIC-supervised institution may not include correlation trading positions or securitization positions in its incremental risk measure.

(b) Requirements for incremental risk modeling. For purposes of calculating the incremental risk measure, the incremental risk model must:
(1) Measure incremental risk over a one-year time horizon and at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

   (i) A constant level of risk assumption means that the FDIC-supervised institution rebalances, or rolls over, its trading positions at the beginning of each liquidity horizon over the one-year horizon in a manner that maintains the FDIC-supervised institution’s initial risk level. The FDIC-supervised institution must determine the frequency of rebalancing in a manner consistent with the liquidity horizons of the positions in the portfolio. The liquidity horizon of a position or set of positions is the time required for an FDIC-supervised institution to reduce its exposure to, or hedge all of its material risks of, the position(s) in a stressed market. The liquidity horizon for a position or set of positions may not be less than the shorter of three months or the contractual maturity of the position.

   (ii) A constant position assumption means that the FDIC-supervised institution maintains the same set of positions throughout the one-year horizon. If an FDIC-supervised institution uses this assumption, it must do so consistently across all portfolios.

   (iii) An FDIC-supervised institution’s selection of a constant position or a constant risk assumption must be consistent between the FDIC-supervised institution’s incremental risk model and its comprehensive risk model described in §324.209, if applicable.

   (iv) An FDIC-supervised institution’s treatment of liquidity horizons must be consistent between the FDIC-supervised institution’s incremental risk model and its comprehensive risk model described in §324.209, if applicable.

(2) Recognize the impact of correlations between default and migration events among obligors.

(3) Reflect the effect of issuer and market concentrations, as well as concentrations that can arise within and across product classes during stressed conditions.

(4) Reflect netting only of long and short positions that reference the same financial instrument.

(5) Reflect any material mismatch between a position and its hedge.

(6) Recognize the effect that liquidity horizons have on dynamic hedging strategies. In such cases, an FDIC-supervised institution must:

   (i) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

   (ii) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

   (iii) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

   (iv) Capture in the incremental risk model any residual risks arising from such hedging strategies.

(7) Reflect the nonlinear impact of options and other positions with material nonlinear behavior with respect to default and migration changes.

(8) Maintain consistency with the FDIC-supervised institution’s internal risk management methodologies for identifying, measuring, and managing risk.

(c) Calculation of incremental risk capital requirement. The incremental risk capital requirement is the greater of:

   (1) The average of the incremental risk measures over the previous 12 weeks; or

   (2) The most recent incremental risk measure.

§324.209 Comprehensive risk.

(a) General requirement. (1) Subject to the prior approval of the FDIC, an FDIC-supervised institution may use the method in this section to measure comprehensive risk, that is, all price risk, for one or more portfolios of correlation trading positions.

(2) An FDIC-supervised institution that measures the price risk of a portfolio of correlation trading positions using internal models must calculate at least weekly a comprehensive risk measure that captures all price risk according to the requirements of this section. The comprehensive risk measure is either:

   (1) The sum of:
(A) The FDIC-supervised institution’s modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; and

(B) A surcharge for the FDIC-supervised institution’s modeled correlation trading positions equal to the total specific risk add-on for such positions as calculated under $324.210 multiplied by 8.0 percent; or

(ii) With approval of the FDIC and provided the FDIC-supervised institution has met the requirements of this section for a period of at least one year and can demonstrate the effectiveness of the model through the results of ongoing model validation efforts including robust benchmarking, the greater of:

(A) The FDIC-supervised institution’s modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; or

(B) The total specific risk add-on that would apply to the bank’s modeled correlation trading positions as calculated under $324.210 multiplied by 8.0 percent.

(b) Requirements for modeling all price risk. If an FDIC-supervised institution uses an internal model to measure the price risk of a portfolio of correlation trading positions:

(1) The internal model must measure comprehensive risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(2) The model must capture all material price risk, including but not limited to the following:

(i) The risks associated with the contractual structure of cash flows of the position, its issuer, and its underlying exposures;

(ii) Credit spread risk, including nonlinear price risks;

(iii) The volatility of implied correlations, including nonlinear price risks such as the cross-effect between spreads and correlations;

(iv) Basis risk;

(v) Recovery rate volatility as it relates to the propensity for recovery rates to affect tranche prices; and

(vi) To the extent the comprehensive risk measure incorporates the benefits of dynamic hedging, the static nature of the hedge over the liquidity horizon must be recognized. In such cases, an FDIC-supervised institution must:

(A) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(B) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

(C) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

(D) Capture in the comprehensive risk model any residual risks arising from such hedging strategies.

(3) The FDIC-supervised institution must use market data that are relevant in representing the risk profile of the FDIC-supervised institution’s correlation trading positions in order to ensure that the FDIC-supervised institution fully captures the material risks of the correlation trading positions in its comprehensive risk measure in accordance with this section; and

(4) The FDIC-supervised institution must be able to demonstrate that its model is an appropriate representation of comprehensive risk in light of the historical price variation of its correlation trading positions.

(c) Requirements for stress testing. (1) An FDIC-supervised institution must at least weekly apply specific, supervisory stress scenarios to its portfolio of correlation trading positions that capture changes in:

(i) Default rates;

(ii) Recovery rates;

(iii) Credit spreads;

(iv) Correlations of underlying exposures; and

(v) Correlations of a correlation trading position and its hedge.

(2) Other requirements. (i) An FDIC-supervised institution must retain and make available to the FDIC the results of the supervisory stress testing, including comparisons with the capital requirements generated by the FDIC-supervised institution’s comprehensive risk model.

(ii) An FDIC-supervised institution must report to the FDIC promptly any
instances where the stress tests indicate any material deficiencies in the comprehensive risk model.

(d) Calculation of comprehensive risk capital requirement. The comprehensive risk capital requirement is the greater of:

(1) The average of the comprehensive risk measures over the previous 12 weeks; or

(2) The most recent comprehensive risk measure.

§324.210 Standardized measurement method for specific risk.

(a) General requirement. An FDIC-supervised institution must calculate a total specific risk add-on for each portfolio of debt and equity positions for which the FDIC-supervised institution’s VaR-based measure does not capture all material aspects of specific risk and for all securitization positions that are not modeled under §324.209. An FDIC-supervised institution must calculate each specific risk add-on in accordance with the requirements of this section. Notwithstanding any other definition or requirement in this subpart, a position that would have qualified as a debt position or an equity position but for the fact that it qualifies as a correlation trading position under paragraph (2) of the definition of correlation trading position in §324.2, an FDIC-supervised institution shall be considered a debt position or an equity position, respectively, for purposes of this §324.210.

(1) The specific risk add-on for an individual debt or securitization position that represents sold credit protection is capped at the notional amount of the credit derivative contract. The specific risk add-on for an individual debt or securitization position that represents purchased credit protection is capped at the current fair value of the transaction plus the absolute value of the present value of all remaining payments to the protection seller under the transaction. This sum is equal to the value of the protection leg of the transaction.

(2) For debt, equity, or securitization positions that are derivatives with nonlinear payoffs, an FDIC-supervised institution must risk weight the fair value of the effective notional amount of the underlying instrument or portfolio multiplied by the derivative’s delta.

(3) For debt, equity, or securitization positions, an FDIC-supervised institution may net long and short positions (including derivatives) in identical issues or identical indices. An FDIC-supervised institution may also net positions in depositary receipts against an opposite position in an identical equity in different markets, provided that the FDIC-supervised institution includes the costs of conversion.

(4) A set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge has a specific risk add-on of zero if:

(i) The debt or securitization position is fully hedged by a total return swap (or similar instrument where there is a matching of swap payments and changes in fair value of the debt or securitization position);

(ii) There is an exact match between the reference obligation of the swap and the debt or securitization position;

(iii) There is an exact match between the currency of the swap and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the swap and the maturity date of the debt or securitization position; or, in cases where a total return swap references a portfolio of positions with different maturity dates, the total return swap maturity date must match the maturity date of the underlying asset in that portfolio that has the latest maturity date.
(5) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of paragraph (a)(4) of this section is equal to 20.0 percent of the capital requirement for the side of the transaction with the higher specific risk add-on when:

(i) The credit risk of the position is fully hedged by a credit default swap or similar instrument;

(ii) There is an exact match between the reference obligation of the credit derivative hedge and the debt or securitization position;

(iii) There is an exact match between the currency of the credit derivative hedge and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the credit derivative hedge and the maturity date of the debt or securitization position: or, in the case where the credit derivative hedge has a standard maturity:

(A) The maturity date of the credit derivative hedge is within 30 business days of the maturity date of the debt or securitization position; or

(B) For purchased credit protection, the maturity date of the credit derivative hedge is later than the maturity date of the debt or securitization position, but is no later than the standard maturity date for that instrument that immediately follows the maturity date of the debt or securitization position. The maturity date of the credit derivative hedge may not exceed the maturity date of the debt or securitization position by more than 90 calendar days.

(6) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of either paragraph (a)(4) or (a)(5) of this section, but in which all or substantially all of the price risk has been hedged, is equal to the specific risk add-on for the side of the transaction with the higher specific risk add-on.

(b) Debt and securitization positions. (1) The total specific risk add-on for a portfolio of debt or securitization positions is the sum of the specific risk add-ons for individual debt or securitization positions, as computed under this section. To determine the specific risk add-on for individual debt or securitization positions, an FDIC-supervised institution must multiply the absolute value of the current fair value of each net long or net short debt or securitization position in the portfolio by the appropriate specific risk-weighting factor as set forth in paragraphs (b)(2)(i) through (b)(2)(vii) of this section.

(2) For the purpose of this section, the appropriate specific risk-weighting factors include:

(i) Sovereign debt positions. (A) In accordance with Table 1 to §324.210, an FDIC-supervised institution must assign a specific risk-weighting factor to a sovereign debt position based on the CRC applicable to the sovereign, and, as applicable, the remaining contractual maturity of the position, or if there is no CRC applicable to the sovereign, based on whether the sovereign entity is a member of the OECD. Notwithstanding any other provision in this subpart, sovereign debt positions that are backed by the full faith and credit of the United States are treated as having a CRC of 0.

TABLE 1 TO § 324.210—SPECIFIC RISK-WEIGHTING FACTORS FOR SOVEREIGN DEBT POSITIONS—

| Remaining contractual maturity of greater than 6 and up to and including 24 months. | 1.0 |
| Remaining contractual maturity exceeds 24 months. | 1.6 |
| 4–6 | 8.0 |
| 7 | 12.0 |

OECD Member with No CRC 0.0
Non-OECD Member with No CRC 8.0
Sovereign Default 12.0

(B) Notwithstanding paragraph (b)(2)(i)(A) of this section, an FDIC-supervised institution may assign to a sovereign debt position a specific risk-weighting factor that is lower than the applicable specific risk-weighting factor in Table 1 to § 324.210 if:

(1) The position is denominated in the sovereign entity’s currency;
(2) The FDIC-supervised institution has at least an equivalent amount of liabilities in that currency; and
(3) The sovereign entity allows banks under its jurisdiction to assign the lower specific risk-weighting factor to the same exposures to the sovereign entity.

(C) An FDIC-supervised institution must assign a 12.0 percent specific risk-weighting factor to a sovereign debt position immediately upon determination a default has occurred; or if a default has occurred within the previous five years.

(D) An FDIC-supervised institution must assign a 0.0 percent specific risk-weighting factor to a sovereign debt position if the sovereign entity is a member of the OECD and does not have a CRC assigned to it, except as provided in paragraph (b)(2)(i)(C) of this section.

(E) An FDIC-supervised institution must assign an 8.0 percent specific risk-weighting factor to a sovereign debt position if the sovereign is not a member of the OECD and does not have a CRC assigned to it, except as provided in paragraph (b)(2)(i)(C) of this section.

(ii) Certain supranational entity and multilateral development bank debt positions. An FDIC-supervised institution may assign a 0.0 percent specific risk-weighting factor to a debt position that is an exposure to the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, or an MDB.

(iii) GSE debt positions. An FDIC-supervised institution must assign a 1.6 percent specific risk-weighting factor to a debt position that is an exposure to a GSE. Notwithstanding the foregoing, an FDIC-supervised institution must assign an 8.0 percent specific risk-weighting factor to preferred stock issued by a GSE.

(iv) Depository institution, foreign bank, and credit union debt positions. (A) Except as provided in paragraph (b)(2)(iv)(B) of this section, an FDIC-supervised institution must assign a specific risk-weighting factor to a debt position that is an exposure to a depository institution, a foreign bank, or a credit union, in accordance with Table 2 to § 324.210 of this section, based on the CRC that corresponds to that entity’s home country or the OECD membership status of that entity’s home.
country if there is no CRC applicable to the entity’s home country, and, as applicable, the remaining contractual maturity of the position.

(B) An FDIC-supervised institution must assign a specific risk-weighting factor of 8.0 percent to a debt position that is an exposure to a depository institution or a foreign bank that is includable in the depository institution’s or foreign bank’s regulatory capital and that is not subject to deduction as a reciprocal holding under §324.22.

(C) An FDIC-supervised institution must assign a 12.0 percent specific risk-weighting factor to a debt position that is an exposure to a foreign bank immediately upon determination that a default by the foreign bank’s home country has occurred or if a default by the foreign bank’s home country has occurred within the previous five years.

**(v) PSE debt positions.** (A) Except as provided in paragraph (b)(2)(v)(B) of this section, an FDIC-supervised institution must assign a specific risk-weighting factor to a debt position that is an exposure to a PSE in accordance with Tables 3 and 4 to §324.210 depending on the position’s categorization as a general obligation or revenue obligation based on the CRC that corresponds to the PSE’s home country or the OECD membership status of the PSE’s home country if there is no CRC applicable to the PSE’s home country, and, as applicable, the remaining contractual maturity of the position.

(B) An FDIC-supervised institution may assign a lower specific risk-weighting factor than would otherwise apply under Tables 3 and 4 to §324.210 to a debt position that is an exposure to a foreign PSE if:

(1) The PSE’s home country allows banks under its jurisdiction to assign a lower specific risk-weighting factor to such position; and

(2) The specific risk-weighting factor is not lower than the risk weight that corresponds to the PSE’s home country in Table 1 to §324.210.

(C) An FDIC-supervised institution must assign a 12.0 percent specific risk-weighting factor to a PSE debt position immediately upon determination that a default by the PSE’s home country has occurred or if a default by the PSE’s home country has occurred within the previous five years.

(vi) Corporate debt positions. Except as otherwise provided in paragraph (b)(2)(vi)(B) of this section, an FDIC-supervised institution must assign a specific risk-weighting factor to a corporate debt position in accordance with the investment grade methodology in paragraph (b)(2)(vi)(A) of this section.

(A) Investment grade methodology. (1) For corporate debt positions that are exposures to entities that have issued and outstanding publicly traded instruments, an FDIC-supervised institution must assign a specific risk-weighting factor based on the category and remaining contractual maturity of the position, in accordance with Table 5 to §324.210. For purposes of this paragraph (b)(2)(vi)(A)(1), the FDIC-supervised institution must determine whether the position is in the investment grade or non-investment grade category.

(2) An FDIC-supervised institution must assign an 8.0 percent specific risk-weighting factor for corporate debt positions that are exposures to entities that do not have publicly traded instruments outstanding.

(B) Limitations. (1) An FDIC-supervised institution must assign a specific risk-weighting factor of at least 8.0 percent to an interest-only mortgage-backed security that is not a securitization position.

(2) An FDIC-supervised institution shall not assign a corporate debt position a specific risk-weighting factor that is lower than the specific risk-weighting factor that corresponds to the CRC of the issuer’s home country, if applicable, in Table 1 to §324.210.

(vii) Securitization positions. (A) General requirements. (1) An FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution must assign a specific risk-weighting factor to a securitization position using either the simplified supervisory formula approach (SSFA) in paragraph (b)(2)(vii)(C) of this section (and §324.211) or assign a specific risk-weighting factor of 100 percent to the position.

(2) An FDIC-supervised institution that is an advanced approaches FDIC-supervised institution must calculate a specific risk add-on for a securitization position in accordance with paragraph (b)(2)(vii)(B) of this section if the FDIC-supervised institution and the securitization position each qualifies to use the SFA in §324.143. An FDIC-supervised institution that is an advanced approaches FDIC-supervised institution with a securitization position that does not qualify for the SFA under paragraph (b)(2)(vii)(B) of this section may assign a specific risk-weighting factor to the securitization position using the SSFA in accordance with paragraph (b)(2)(vii)(C) of this section or assign a specific risk-weighting factor of 100 percent to the position.

(3) An FDIC-supervised institution must treat a short securitization position as if it is a long securitization position solely for calculation purposes when using the SFA in paragraph (b)(2)(vii)(B) of this section or the SSFA in paragraph (b)(2)(vii)(C) of this section.

(B) SFA. To calculate the specific risk add-on for a securitization position using the SFA, an FDIC-supervised institution that is an advanced approaches FDIC-supervised institution must set the specific risk add-on for the position equal to the risk-based capital requirement as calculated under §324.143.

(C) SSFA. To use the SSFA to determine the specific risk-weighting factor for a securitization position, an FDIC-supervised institution must calculate the specific risk-weighting factor in accordance with §324.211.

(D) Nth-to-default credit derivatives. An FDIC-supervised institution must determine a specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) of this section, or assign a specific risk-weighting factor using the SSFA in paragraph (b)(2)(vii)(C) of this section to an nth-to-default credit derivative in accordance with paragraph (b)(2)(vii)(D), regardless of whether the FDIC-supervised institution is a net protection buyer or net protection seller. An FDIC-supervised institution must determine its position in the nth-to-default credit derivative as the largest notional amount of all the underlying exposures.

(i) For purposes of determining the specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) of this section or the specific risk-weighting factor for an nth-to-default credit derivative using the SSFA in paragraph (b)(2)(vii)(C) of this section the FDIC-supervised institution must calculate the attachment point and detachment point of its position as follows:

(i) The attachment point (parameter A) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the FDIC-supervised institution’s position to the total notional amount of all underlying exposures. For purposes of the SSFA, parameter A must be set equal to the credit enhancement level (L) input to the SFA formula in §324.143. In the
Federal Deposit Insurance Corporation § 324.210

(1) The sum of the FDIC-supervised institution’s specific risk add-ons for each net long securitization position calculated under this section; or

(2) The sum of the FDIC-supervised institution’s specific risk add-ons for each net short securitization position calculated under this section.

e) Equity positions. The total specific risk add-on for a portfolio of equity positions is the sum of the specific risk add-ons of the individual equity positions, as computed under this section. To determine the specific risk add-on of individual equity positions, an FDIC-supervised institution must multiply the absolute value of the current fair value of each net long or net short equity position by the appropriate specific risk-weighting factor as determined under this paragraph (e):

(1) The FDIC-supervised institution must multiply the absolute value of the current fair value of each net long or net short equity position by a specific risk-weighting factor of 8.0 percent. For equity positions that are index contracts comprising a well-diversified portfolio of equity instruments, the absolute value of the current fair value of each net long or net short position is multiplied by a specific risk-weighting factor of 2.0 percent.33

(2) For equity positions arising from the following futures-related arbitrage strategies, an FDIC-supervised institution may apply a 2.0 percent specific risk-weighting factor to one side (long or short) of each position with the opposite side exempt from an additional capital requirement:

(i) Long and short positions in exactly the same index at different dates or in different market centers; or

(ii) Long and short positions in index contracts at the same date in different, but similar indices.

(3) For futures contracts on main indices that are matched by offsetting positions in a basket of stocks comprising the index, an FDIC-supervised institution

33 A portfolio is well-diversified if it contains a large number of individual equity positions, with no single position representing a substantial portion of the portfolio’s total fair value.
§ 324.211  Simplified supervisory formula approach (SSFA).

(a) General requirements. To use the SSFA to determine the specific risk-weighting factor for a securitization position, an FDIC-supervised institution must have data that enables it to assign accurately the parameters described in paragraph (b) of this section. Data used to assign the parameters described in paragraph (b) of this section must be the most currently available data; if the contracts governing the underlying exposures of the securitization require payments on a monthly or quarterly basis, the data used to assign the parameters described in paragraph (b) of this section must be no more than 91 calendar days old. An FDIC-supervised institution that does not have the appropriate data to assign the parameters described in paragraph (b) of this section must assign a specific risk-weighting factor of 100 percent to the position.

(b) SSFA parameters. To calculate the specific risk-weighting factor for a securitization position using the SSFA, an FDIC-supervised institution must have accurate information on the five inputs to the SSFA calculation described in paragraphs (b)(1) through (b)(5) of this section.

(1) K_G is the weighted-average (with unpaid principal used as the weight for each exposure) total capital requirement of the underlying exposures calculated using subpart D. K_G is expressed as a decimal value between

- implied market rating, and size,
- depth and concentration level of the market for the securitization; and

(D) For resecuritization positions, performance information on the underlying securitization exposures, for example, the issuer name and credit quality, and the characteristics and performance of the exposures underlying the securitization exposures.

(ii) On an on-going basis (no less frequently than quarterly), evaluating, reviewing, and updating as appropriate the analysis required under paragraph (f)(1) of this section for each securitization position.

(2) Parameter $W$ is expressed as a decimal value between zero and one. Parameter $W$ is the ratio of the sum of the dollar amounts of any underlying exposures of the securitization that meet any of the criteria as set forth in paragraphs (b)(2)(i) through (vi) of this section to the balance, measured in dollars, of underlying exposures:

(i) Ninety days or more past due;
(ii) Subject to a bankruptcy or insolvency proceeding;
(iii) In the process of foreclosure;
(iv) Held as real estate owned;
(v) Has contractually deferred payments for 90 days or more, other than principal or interest payments deferred on:
(A) Federally-guaranteed student loans, in accordance with the terms of those guarantee programs; or
(B) Consumer loans, including non-federally-guaranteed student loans, provided that such payments are deferred pursuant to provisions included in the contract at the time funds are disbursed that provide for period(s) of deferral that are not initiated based on changes in the creditworthiness of the borrower; or
(vi) Is in default.

(3) Parameter $A$ is the attachment point for the position, which represents the threshold at which credit losses will first be allocated to the position. Except as provided in §324.210(b)(2)(vii)(D) for $n^{th}$-to-default credit derivatives, parameter $A$ equals the ratio of the current dollar amount of underlying exposures that are subordinated to the position of the FDIC-supervised institution to the current dollar amount of underlying exposures. Any reserve account funded by the accumulated cash flows from the underlying exposures that is subordinated to the position that contains the FDIC-supervised institution’s securitization exposure may be included in the calculation of parameter $A$ to the extent that cash is present in the account. Parameter $A$ is expressed as a decimal value between zero and one.

(4) Parameter $D$ is the detachment point for the position, which represents the threshold at which credit losses of principal allocated to the position would result in a total loss of principal. Except as provided in §324.210(b)(2)(vii)(D) for $n^{th}$-to-default credit derivatives, parameter $D$ equals parameter $A$ plus the ratio of the current dollar amount of the securitization positions that are $paei$ with the position (that is, have equal seniority with respect to credit risk) to the current dollar amount of the underlying exposures. Parameter $D$ is expressed as a decimal value between zero and one.

(5) A supervisory calibration parameter, $p$, is equal to 0.5 for securitization positions that are not resecuritization positions and equal to 1.5 for resecuritization positions.

(c) Mechanics of the SSFA. $K_G$ and $W$ are used to calculate $K_A$, the augmented value of $K_G$, which reflects the observed credit quality of the underlying exposures. $K_A$ is defined in paragraph (d) of this section. The values of parameters $A$ and $D$, relative to $K_A$ determine the specific risk-weighting factor assigned to a position as described in this paragraph (c) and paragraph (d) of this section. The specific risk-weighting factor assigned to a securitization position, or portion of a position, as appropriate, is the larger of the specific risk-weighting factor determined in accordance with this paragraph (c), paragraph (d) of this section, and a specific risk-weighting factor of 1.6 percent.

(1) When the detachment point, parameter $D$, for a securitization position is less than or equal to $K_A$, the position must be assigned a specific risk-weighting factor of 100 percent.

(2) When the attachment point, parameter $A$, for a securitization position is greater than or equal to $K_A$, the FDIC-supervised institution must calculate the specific risk-weighting factor in accordance with paragraph (d) of this section.

(3) When $A$ is less than $K_A$ and $D$ is greater than $K_A$, the specific risk-weighting factor is a weighted-average of 1.00 and $K_{SSFA}$ calculated under paragraphs (c)(3)(i) and (c)(3)(ii) of this section. For the purpose of this calculation:
§ 324.212 Market risk disclosures.

(a) Scope. An FDIC-supervised institution must comply with this section unless it is a consolidated subsidiary of a bank holding company or a depository institution that is subject to these requirements or of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction. An FDIC-supervised institution must make timely public disclosures each calendar quarter. If a significant change occurs, such that the most recent reporting amounts are no longer reflective of the FDIC-supervised institution’s capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be provided as soon as practicable thereafter. Qualitative disclosures that typically do not change

(i) The weight assigned to 1.00 equals \( \frac{K_A - \frac{A}{D - A}}{D - A} \).

(ii) The weight assigned to \( K_{SSFA} \) equals \( \frac{D - K_A}{D - A} \). The specific risk-weighting factor is equal to:

\[
SRWF = 100 \cdot \left[ \left( \frac{K_A - \frac{A}{D - A}}{1.00} \right) + \left( \frac{D - K_A}{D - A} \cdot K_{SSFA} \right) \right]
\]

(d) SSFA equation. (1) The FDIC-supervised institution must define the following parameters:

\[
K_A = (1 - W) \cdot K_G + (0.5 \cdot W)
\]

\[
a = \frac{1}{p \cdot K_A}
\]

\[
u = D - K_A
\]

\[l = \max(A - K_A, 0)\]

\[
e = 2.71828 \text{, the base of the natural logarithms.}
\]

(2) Then the FDIC-supervised institution must calculate \( K_{SSFA} \) according to the following formula:

\[
K_{SSFA} = \frac{e^{al} - e^{al}}{a \cdot (u - l)}
\]

(3) The specific risk-weighting factor for the position (expressed as a percent) is equal to \( K_{SSFA} \times 100 \).
Federal Deposit Insurance Corporation

§ 324.212

each quarter may be disclosed annually, provided any significant changes are disclosed in the interim. If an FDIC-supervised institution believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public certain information that is either proprietary or confidential in nature, the FDIC-supervised institution is not required to disclose these specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed. The FDIC-supervised institution’s management may provide all of the disclosures required by this section in one place on the FDIC-supervised institution’s public Web site or may provide the disclosures in more than one public financial report or other regulatory reports, provided that the FDIC-supervised institution publicly provides a summary table specifically indicating the location(s) of all such disclosures.

(b) Disclosure policy. The FDIC-supervised institution must have a formal disclosure policy approved by the board of directors that addresses the FDIC-supervised institution’s approach for determining its market risk disclosures. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management must ensure that appropriate verification of the disclosures takes place and that effective internal controls and disclosure controls and procedures are maintained. One or more senior officers of the FDIC-supervised institution must attest that the disclosures meet the requirements of this subpart, and the board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this section.

(c) Quantitative disclosures. (1) For each material portfolio of covered positions, the FDIC-supervised institution must provide timely public disclosures of the following information at least quarterly:

(i) The high, low, and mean VaR-based measures over the reporting period and the VaR-based measure at period-end;

(ii) The high, low, and mean stressed VaR-based measures over the reporting period and the stressed VaR-based measure at period-end;

(iii) The high, low, and mean incremental risk capital requirements over the reporting period and the incremental risk capital requirement at period-end;

(iv) The high, low, and mean comprehensive risk capital requirements over the reporting period and the comprehensive risk capital requirement at period-end, with the period-end requirement broken down into appropriate risk classifications (for example, default risk, migration risk, correlation risk);

(v) Separate measures for interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk used to calculate the VaR-based measure; and

(vi) A comparison of VaR-based estimates with actual gains or losses experienced by the FDIC-supervised institution, with an analysis of important outliers.

(2) In addition, the FDIC-supervised institution must disclose publicly the following information at least quarterly:

(i) The aggregate amount of on-balance sheet and off-balance sheet securitization positions by exposure type; and

(ii) The aggregate amount of correlation trading positions.

(d) Qualitative disclosures. For each material portfolio of covered positions, the FDIC-supervised institution must provide timely public disclosures of the following information at least annually after the end of the fourth calendar quarter, or more frequently in the event of material changes for each portfolio:

(1) The composition of material portfolios of covered positions;

(2) The FDIC-supervised institution’s valuation policies, procedures, and methodologies for covered positions including, for securitization positions, the methods and key assumptions used
for valuing such positions, any significant changes since the last reporting period, and the impact of such change;

(3) The characteristics of the internal models used for purposes of this subpart. For the incremental risk capital requirement and the comprehensive risk capital requirement, this must include:

(i) The approach used by the FDIC-supervised institution to determine liquidity horizons;

(ii) The methodologies used to achieve a capital assessment that is consistent with the required soundness standard; and

(iii) The specific approaches used in the validation of these models;

(4) A description of the approaches used for validating and evaluating the accuracy of internal models and modeling processes for purposes of this subpart;

(5) For each market risk category (that is, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk), a description of the stress tests applied to the positions subject to the factor;

(6) The results of the comparison of the FDIC-supervised institution’s internal estimates for purposes of this subpart with actual outcomes during a sample period not used in model development;

(7) The soundness standard on which the FDIC-supervised institution’s internal capital adequacy assessment under this subpart is based, including a description of the methodologies used to achieve a capital adequacy assessment that is consistent with the soundness standard;

(8) A description of the FDIC-supervised institution’s processes for monitoring changes in the credit and market risk of securitization positions, including how those processes differ for resecuritization positions; and

(9) A description of the FDIC-supervised institution’s policy governing the use of credit risk mitigation to mitigate the risks of securitization and resecuritization positions.

§§ 324.213–324.299 [Reserved]

§ 324.300 Transitions.

(a) Capital conservation and countercyclical capital buffer. (1) From January 1, 2014, through December 31, 2015, an FDIC-supervised institution is not subject to limits on distributions and discretionary bonus payments under §324.11 notwithstanding the amount of its capital conservation buffer or any applicable countercyclical capital buffer amount.

(2) Beginning January 1, 2016, through December 31, 2018, an FDIC-supervised institution’s maximum payout ratio shall be determined as set forth in Table 1 to §324.300.

(b) Regulatory capital adjustments and deductions. Beginning January 1, 2014, for an advanced approaches FDIC-supervised institution, and beginning January 1, 2015, for an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution, and in each case through December 31, 2017, an FDIC-supervised institution must make the deductions required under §324.22(a)(1)—(7) from common equity tier 1 or tier 1 capital elements in accordance with the percentages set forth in Table 2 to §324.300.

(i) An FDIC-supervised institution must deduct the following items from common equity tier 1 capital in accordance with the percentages set forth in Table 2 to §324.300: Goodwill (§324.22(a)(1)), DTAs that arise from net operating loss and tax credit carryforwards (§324.22(a)(3)), a gain-on-sale in connection with a securitization exposure (§324.22(a)(4)), defined benefit pension fund assets (§324.22(a)(5)), expected credit loss that exceeds eligible credit reserves (for advanced approaches FDIC-supervised institutions that have completed the parallel run process and that have received notifications from the FDIC pursuant to §324.121(d) of subpart E) (§324.22(a)(6)), and financial subsidiaries (§324.22(a)(7)).
(ii) An FDIC-supervised institution must deduct from common equity tier 1 capital any intangible assets other than goodwill and MSAs in accordance with the percentages set forth in Table 3 to §324.300.

(2) Transition adjustments to common equity tier 1 capital. Beginning January 1, 2014, for an advanced approaches FDIC-supervised institution, and beginning January 1, 2015, for an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution, and in each case through December 31, 2017, an FDIC-supervised institution, must allocate the regulatory adjustments related to changes in the fair value of liabilities due to changes in the FDIC-supervised institution’s own credit risk ($§324.22(b)(1)(iii)) between common equity tier 1 capital and tier 1 capital in accordance with the percentages set forth in Table 4 to §324.300.

(i) If the aggregate amount of the adjustment is positive, the FDIC-supervised institution must allocate the deduction between common equity tier 1 capital and tier 1 capital in accordance with Table 4 to §324.300.

(ii) If the aggregate amount of the adjustment is negative, the FDIC-supervised institution must add back the adjustment to common equity tier 1 capital or to tier 1 capital, in accordance with Table 4 to §324.300.

(3) Transition adjustments to AOCI for an advanced approaches FDIC-supervised institution and an FDIC-supervised institution that has not made an AOCI opt-out election under §324.22(b)(2). Beginning January 1, 2014, for an advanced approaches FDIC-supervised institution, and beginning January 1, 2015, for an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution and that has not made an AOCI opt-out election under §324.22(b)(2), and in each case through December 31, 2017, an FDIC-supervised institution must adjust common equity tier 1 capital with respect to the transition AOCI adjustment amount (transition AOCI adjustment amount):

(i) The transition AOCI adjustment amount is the aggregate amount of an FDIC-supervised institution's:

(A) Unrealized gains on available-for-sale securities that are preferred stock classified as an equity security under GAAP or available-for-sale equity exposures, plus

(B) Net unrealized gains or losses on available-for-sale securities that are not preferred stock classified as an equity security under GAAP or available-for-sale equity exposures, plus

(C) Any amounts recorded in AOCI attributed to defined benefit post-retirement plans resulting from the initial and subsequent application of the relevant GAAP standards that pertain to such plans (excluding, at the FDIC-supervised institution’s option, the portion relating to pension assets deducted under §324.22(a)(5)), plus

(D) Accumulated net gains or losses on cash flow hedges related to items that are reported on the balance sheet at fair value included in AOCI, plus

(E) Net unrealized gains or losses on held-to-maturity securities that are included in AOCI.

(ii) An FDIC-supervised institution must make the following adjustment to its common equity tier 1 capital:

(A) If the transition AOCI adjustment amount is positive, the appropriate amount must be deducted from common equity tier 1 capital in accordance with Table 5 to §324.300.

(B) If the transition AOCI adjustment amount is negative, the appropriate amount must be added back to common equity tier 1 capital in accordance with Table 5 to §324.300.

§ 324.300  12 CFR Ch. III (1–1–17 Edition)

(4) Additional transition deductions from regulatory capital.  (i) Beginning January 1, 2014, for an advanced approaches FDIC-supervised institution, and beginning January 1, 2015, for an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution, and in each case through December 31, 2017, an FDIC-supervised institution must use Table 7 to § 324.300 to determine the amount of investments in capital instruments and the items subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds (§ 324.22(d)) (that is, MSAs, DTAs arising from temporary differences that the FDIC-supervised institution could not realize through net operating loss carrybacks, and significant investments in the capital of unconsolidated financial institutions in the form of common stock) that must be deducted from common equity tier 1 capital.

(ii) Beginning January 1, 2014, for an advanced approaches FDIC-supervised institution, and beginning January 1, 2015, for an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution, and in each case through December 31, 2017, an FDIC-supervised institution must apply a 100 percent risk-weight to the aggregate amount of the items subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds that are not deducted under this section. As set forth in § 324.22(d)(2), beginning January 1, 2018, an FDIC-supervised institution must apply a 250 percent risk-weight to the aggregate amount of the items subject to the 10 and 15 percent common equity tier 1 capital deduction thresholds that are not deducted from common equity tier 1 capital.

(iii) For purposes of calculating the transition deductions in this paragraph (b)(4), beginning January 1, 2014, for an advanced approaches FDIC-supervised institution, and beginning January 1, 2015, for an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution, and in each case through December 31, 2017, an FDIC-supervised institution’s 15 percent common equity tier 1 capital deduction threshold for MSAs, DTAs arising from temporary differences that the FDIC-supervised institution could not realize through net operating loss carrybacks, and significant investments in the capital of unconsolidated financial institutions in the form of common stock is equal to 15 percent of the sum of the FDIC-supervised institution’s common equity tier 1 elements, after regulatory adjustments and deductions required under § 324.22(a) through (c) (transition 15 percent common equity tier 1 capital deduction threshold).

(iv) Beginning January 1, 2018, an FDIC-supervised institution must calculate the 15 percent common equity tier 1 capital deduction threshold in accordance with § 324.22(d).

(c) Non-qualifying capital instruments. Depository institutions. (1) Beginning on January 1, 2014, a depository institution that is an advanced approaches FDIC-supervised institution, and beginning on January 1, 2015, all other depository institutions may include in regulatory capital debt or equity instruments issued prior to September 12, 2010 (non-qualifying capital instruments issued prior to September 12, 2010) up to the percentage of the outstanding principal

(d) **Minority interest**—(1) **Surplus minority interest.** Beginning January 1, 2014, for an advanced approaches FDIC-supervised institution, and beginning January 1, 2015, for an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution, and in each case through December 31, 2017, an FDIC-supervised institution may include in common equity tier 1 capital, tier 1 capital, or total capital the percentage of the common equity tier 1 minority interest, tier 1 minority interest or total capital minority interest outstanding as of January 1, 2014 that exceeds any common equity tier 1 minority interest, tier 1 minority interest or total capital minority interest includable under §324.21 (surplus minority interest), respectively, as set forth in Table 9 to §324.300.

(2) **Non-qualifying minority interest.** Beginning January 1, 2014, for an advanced approaches FDIC-supervised institution, and beginning January 1, 2015, for an FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution, and in each case through December 31, 2017, an FDIC-supervised institution may include in tier 1 capital or total capital the percentage of the tier 1 minority interest and total capital minority interest outstanding as of January 1, 2014 that does not meet the criteria for additional tier 1 or tier 2 capital instruments in §324.20 (non-qualifying minority interest), as set forth in Table 9 to §324.300.

(e) **Prompt corrective action.** For purposes of subpart H of this part, an FDIC-supervised institution must calculate its capital measures and tangible equity ratio in accordance with the transition provisions in this section.
§§ 324.301–324.399 [Reserved]

Subpart H—Prompt Corrective Action

§ 324.401 Authority, purpose, scope, other supervisory authority, disclosure of capital categories, and transition procedures.

(b) Purpose. Section 38 of the FDI Act establishes a framework of supervisory actions for insured depository institutions that are not adequately capitalized. The principal purpose of this subpart is to define, for FDIC-supervised institutions, the capital measures and capital levels, and for insured branches of foreign banks, comparable asset-based measures and levels, that are used for determining the supervisory actions authorized under section 38 of the FDI Act. This subpart also establishes procedures for submission and review of capital restoration plans and for issuance and review of directives and orders pursuant to section 38 of the FDI Act.

(c) Scope. Until January 1, 2015, subpart B of part 325 of this chapter will continue to apply to banks and insured branches of foreign banks for which the FDIC is the appropriate Federal banking agency. Until January 1, 2015, subpart Y of part 390 of this chapter will continue to apply to state savings associations. Beginning on, and thereafter, January 1, 2015, this subpart H implements the provisions of section 38 of the FDI Act as they apply to FDIC-supervised institutions and insured branches of foreign banks for which the FDIC is the appropriate Federal banking agency. Certain of these provisions also apply to officers, directors and employees of those insured institutions. In addition, certain provisions of this subpart apply to all insured depository institutions that are deemed critically undercapitalized.

(d) Other supervisory authority. Neither section 38 of the FDI Act nor this subpart H in any way limits the authority of the FDIC under any other provision of law to take supervisory actions to address unsafe or unsound practices, deficient capital levels, violations of law, unsafe or unsound conditions, or other practices. Action under section 38 of the FDI Act and this subpart H may be taken independently of, in conjunction with, or in addition to any other enforcement action available to the FDIC, including issuance of cease and desist orders, capital directives, approval or denial of applications or notices, assessment of civil money penalties, or any other actions authorized by law.

(e) Disclosure of capital categories. The assignment of an FDIC-supervised institution or an insured branch of a foreign bank for which the FDIC is the appropriate Federal banking agency under this subpart H within a particular capital category is for purposes of implementing and applying the provisions of section 38 of the FDI Act. Unless permitted by the FDIC or otherwise required by law, no FDIC-supervised institution or insured branch of a foreign bank for which the FDIC is the appropriate Federal banking agency may state in any advertisement or promotional material its capital category under this subpart H or that the FDIC or any other Federal banking agency has assigned it to a particular capital category.

(f) Transition procedures—(1) Definitions applicable before January 1, 2015, for certain FDIC-supervised institutions. Before January 1, 2015, notwithstanding any other requirement in this subpart H and with respect to any FDIC-supervised institution that is not an advanced approaches FDIC-supervised institution:

(i) The definitions of leverage ratio, tangible equity, tier 1 capital, tier 1 risk-based capital, and total risk-based capital as calculated or defined under Appendix A to part 325 or Appendix B to part 325, as applicable, remain in effect for purposes of this subpart H; and

(ii) The term total assets shall have the meaning provided in 12 CFR 325.2(x).

(2) Timing. The calculation of the definitions of common equity tier 1 capital, the common equity tier 1 risk-
§ 324.403 Based capital ratio, the leverage ratio, the supplementary leverage ratio, tangible equity, tier 1 capital, the tier 1 risk-based capital ratio, total assets, total leverage exposure, the total risk-based capital ratio, and total risk-weighted assets under this subpart H is subject to the timing provisions at 12 CFR 324.1(f) and the transitions at 12 CFR part 324, subpart G.

(g) For purposes of subpart H, as of January 1, 2015, total assets means quarterly average total assets as reported in an FDIC-supervised institution’s Call Report, minus amounts deducted from tier 1 capital under § 324.22(a), (c), and (d). At its discretion, the FDIC may calculate total assets using an FDIC-supervised institution’s period-end assets rather than quarterly average assets.

§ 324.402 Notice of capital category.

(a) Effective date of determination of capital category. An FDIC-supervised institution shall be deemed to be within a given capital category for purposes of section 38 of the FDI Act and this subpart H as of the date the FDIC-supervised institution is notified of, or is deemed to have notice of, its capital category, pursuant to paragraph (b) of this section.

(b) Notice of capital category. An FDIC-supervised institution shall be deemed to have been notified of its capital levels and its capital category as of the most recent date:

(1) A Call Report is required to be filed with the FDIC;

(2) A final report of examination is delivered to the FDIC-supervised institution; or

(3) Written notice is provided by the FDIC to the FDIC-supervised institution of its capital category for purposes of section 38 of the FDI Act and this subpart or that the FDIC-supervised institution’s capital category has changed as provided in § 324.403(d).

(c) Adjustments to reported capital levels and capital category — (1) Notice of adjustment by bank or state savings association. An FDIC-supervised institution shall provide the appropriate FDIC regional director with written notice that an adjustment to the FDIC-supervised institution’s capital category may have occurred no later than 15 calendar days following the date that any material event has occurred that would cause the FDIC-supervised institution to be placed in a lower capital category from the category assigned to the FDIC-supervised institution for purposes of section 38 of the FDI Act and this subpart H on the basis of the FDIC-supervised institution’s most recent Call Report or report of examination.

(2) Determination by the FDIC to change capital category. After receiving notice pursuant to paragraph (c)(1) of this section, the FDIC shall determine whether to change the capital category of the FDIC-supervised institution and shall notify the bank or state savings association of the FDIC’s determination.

§ 324.403 Capital measures and capital category definitions.

(a) Capital measures. For purposes of section 38 of the FDI Act and this subpart H, the relevant capital measures shall be:

(1) The total risk-based capital ratio;

(2) The Tier 1 risk-based capital ratio; and

(3) The common equity tier 1 capital ratio;

(4) The leverage ratio;

(5) The tangible equity to total assets ratio; and

(6) Beginning January 1, 2018, the supplementary leverage ratio calculated in accordance with § 324.11 for advanced approaches FDIC-supervised institutions that are subject to subpart E of this part.

(b) Capital categories. For purposes of section 38 of the FDI Act and this subpart, an FDIC-supervised institution shall be deemed to be:

(1) “Well capitalized” if it:

(i) Has a total risk-based capital ratio of 10.0 percent or greater; and

(ii) Has a Tier 1 risk-based capital ratio of 8.0 percent or greater; and

(iii) Has a common equity tier 1 capital ratio of 6.5 percent or greater; and

(iv) Has a leverage ratio of 5.0 percent or greater;

(v) Is not subject to any written agreement, order, capital directive, or prompt corrective action directive issued by the FDIC pursuant to section 8 of the FDI Act (12 U.S.C. 1818), the International Lending Supervision Act...
§ 324.403 12 CFR Ch. III (1–1–17 Edition)

of 1983 (12 U.S.C. 3907), or the Home Owners’ Loan Act (12 U.S.C. 1464(t)(6)(A)(ii)), or section 38 of the FDI Act (12 U.S.C. 1831o), or any regulation thereunder, to meet and maintain a specific capital level for any capital measure; and

(vi) Beginning on January 1, 2018 and thereafter, an FDIC-supervised institution that is a subsidiary of a covered BHC will be deemed to be well capitalized if the FDIC-supervised institution satisfies paragraphs (b)(1)(i) through (v) of this section and has a supplementary leverage ratio of 6.0 percent or greater. For purposes of this paragraph, a covered BHC means a U.S. top-tier bank holding company with more than $700 billion in total assets as reported on the company’s most recent Consolidated Financial Statement for Bank Holding Companies (FR Y–9C) or more than $10 trillion in assets under custody as reported on the company’s most recent Banking Organization Systemic Risk Report (FR Y–15).

(2) “Adequately capitalized” if it:

(i) Has a total risk-based capital ratio of 8.0 percent or greater; and

(ii) Has a Tier 1 risk-based capital ratio of 6.0 percent or greater; and

(iii) Has a common equity tier 1 capital ratio of 4.5 percent or greater; and

(iv) Has a leverage ratio of 4.0 percent or greater; and

(v) Does not meet the definition of a well capitalized bank.

(vi) Beginning January 1, 2018, an advanced approaches FDIC-supervised institution will be deemed to be “adequately capitalized” if it satisfies paragraphs (b)(2)(i) through (v) of this section and has a supplementary leverage ratio of 3.0 percent or greater, as calculated in accordance with §324.11.

(4) “Significantly undercapitalized” if it has:

(i) A total risk-based capital ratio that is less than 6.0 percent; or

(ii) A Tier 1 risk-based capital ratio that is less than 4.0 percent; or

(iii) A common equity tier 1 capital ratio that is less than 3.0 percent; or

(iv) A leverage ratio that is less than 3.0 percent.

(5) “Critically undercapitalized” if the insured depository institution has a ratio of tangible equity to total assets that is equal to or less than 2.0 percent.

(c) Capital categories for insured branches of foreign banks. For purposes of the provisions of section 38 of the FDI Act and this subpart H, an insured branch of a foreign bank shall be deemed to be:

(1) “Well capitalized” if the insured branch:

(i) Maintains the pledge of assets required under §347.209 of this chapter; and

(ii) Maintains the eligible assets prescribed under §347.210 of this chapter at 108 percent or more of the preceding quarter’s average book value of the insured branch’s third-party liabilities; and

(iii) Has not received written notification from:

(A) The OCC to increase its capital equivalency deposit pursuant to 12 CFR 28.15, or to comply with asset maintenance requirements pursuant to 12 CFR 28.20; or

(B) The FDIC to pledge additional assets pursuant to §347.209 of this chapter or to maintain a higher ratio of eligible assets pursuant to §347.210 of this chapter.

(2) “Adequately capitalized” if the insured branch:

(i) Maintains the pledge of assets required under §347.209 of this chapter; and

(ii) Maintains the eligible assets prescribed under §347.210 of this chapter at 106 percent or more of the preceding quarter’s average book value of the insured branch’s third-party liabilities; and

(iii) Has not received written notification from:

(A) The OCC to increase its capital equivalency deposit pursuant to 12 CFR 28.15, or to comply with asset maintenance requirements pursuant to 12 CFR 28.20; or

(B) The FDIC to pledge additional assets pursuant to §347.209 of this chapter or to maintain a higher ratio of eligible assets pursuant to §347.210 of this chapter.

(v) Beginning January 1, 2018, an advanced approaches FDIC-supervised institution will be deemed to be “undercapitalized” if it has a supplementary leverage ratio of less than 3.0 percent, as calculated in accordance with §324.11.

(4) “Significantly undercapitalized” if it has:

(i) A total risk-based capital ratio that is less than 6.0 percent; or

(ii) A Tier 1 risk-based capital ratio that is less than 4.0 percent; or

(iii) A common equity tier 1 capital ratio that is less than 3.0 percent; or

(iv) A leverage ratio that is less than 3.0 percent.

(5) “Critically undercapitalized” if the insured depository institution has a ratio of tangible equity to total assets that is equal to or less than 2.0 percent.

(c) Capital categories for insured branches of foreign banks. For purposes of the provisions of section 38 of the FDI Act and this subpart H, an insured branch of a foreign bank shall be deemed to be:

(1) “Well capitalized” if the insured branch:

(i) Maintains the pledge of assets required under §347.209 of this chapter; and

(ii) Maintains the eligible assets prescribed under §347.210 of this chapter at 108 percent or more of the preceding quarter’s average book value of the insured branch’s third-party liabilities; and

(iii) Has not received written notification from:

(A) The OCC to increase its capital equivalency deposit pursuant to 12 CFR 28.15, or to comply with asset maintenance requirements pursuant to 12 CFR 28.20; or

(B) The FDIC to pledge additional assets pursuant to §347.209 of this chapter or to maintain a higher ratio of eligible assets pursuant to §347.210 of this chapter.

(2) “Adequately capitalized” if the insured branch:

(i) Maintains the pledge of assets required under §347.209 of this chapter; and

(ii) Maintains the eligible assets prescribed under §347.210 of this chapter at 106 percent or more of the preceding quarter’s average book value of the insured branch’s third-party liabilities; and

(iii) Has not received written notification from:

(A) The OCC to increase its capital equivalency deposit pursuant to 12 CFR 28.15, or to comply with asset maintenance requirements pursuant to 12 CFR 28.20; or

(B) The FDIC to pledge additional assets pursuant to §347.209 of this chapter or to maintain a higher ratio of eligible assets pursuant to §347.210 of this chapter.

(v) Beginning January 1, 2018, an advanced approaches FDIC-supervised institution will be deemed to be “undercapitalized” if it has a supplementary leverage ratio of less than 3.0 percent, as calculated in accordance with §324.11.

(4) “Significantly undercapitalized” if it has:

(i) A total risk-based capital ratio that is less than 6.0 percent; or

(ii) A Tier 1 risk-based capital ratio that is less than 4.0 percent; or

(iii) A common equity tier 1 capital ratio that is less than 3.0 percent; or

(iv) A leverage ratio that is less than 3.0 percent.

(5) “Critically undercapitalized” if the insured depository institution has a ratio of tangible equity to total assets that is equal to or less than 2.0 percent.

(c) Capital categories for insured branches of foreign banks. For purposes of the provisions of section 38 of the FDI Act and this subpart H, an insured branch of a foreign bank shall be deemed to be:

(1) “Well capitalized” if the insured branch:

(i) Maintains the pledge of assets required under §347.209 of this chapter; and

(ii) Maintains the eligible assets prescribed under §347.210 of this chapter at 108 percent or more of the preceding quarter’s average book value of the insured branch’s third-party liabilities; and

(iii) Has not received written notification from:

(A) The OCC to increase its capital equivalency deposit pursuant to 12 CFR 28.15, or to comply with asset maintenance requirements pursuant to 12 CFR 28.20; or

(B) The FDIC to pledge additional assets pursuant to §347.209 of this chapter or to maintain a higher ratio of eligible assets pursuant to §347.210 of this chapter.

(2) “Adequately capitalized” if the insured branch:

(i) Maintains the pledge of assets required under §347.209 of this chapter; and

(ii) Maintains the eligible assets prescribed under §347.210 of this chapter at 106 percent or more of the preceding quarter’s average book value of the insured branch’s third-party liabilities; and

(iii) Has not received written notification from:

(A) The OCC to increase its capital equivalency deposit pursuant to 12 CFR 28.15, or to comply with asset maintenance requirements pursuant to 12 CFR 28.20; or

(B) The FDIC to pledge additional assets pursuant to §347.209 of this chapter or to maintain a higher ratio of eligible assets pursuant to §347.210 of this chapter.
§ 324.404 Capital restoration plans.

(a) Schedule for filing plan—(1) In general. An FDIC-supervised institution shall file a written capital restoration plan with the appropriate FDIC regional director within 45 days of the date that the FDIC-supervised institution receives notice or is deemed to have notice that the FDIC-supervised institution is undercapitalized, significantly undercapitalized, or critically undercapitalized, unless the FDIC notifies the FDIC-supervised institution in writing that the plan is to be filed within a different period. An adequately capitalized FDIC-supervised institution that has been required pursuant to §324.403(d) to comply with supervisory actions as if the FDIC-supervised institution were undercapitalized is not required to submit a capital restoration plan solely by virtue of the reclassification.

(2) Additional capital restoration plans. Notwithstanding paragraph (a)(1) of
this section, an FDIC-supervised institution that has already submitted and is operating under a capital restoration plan approved under section 38 and this subpart H is not required to submit an additional capital restoration plan based on a revised calculation of its capital measures or a reclassification of the institution under §324.403 unless the FDIC notifies the FDIC-supervised institution that it must submit a new or revised capital plan. An FDIC-supervised institution that is notified that it must submit a new or revised capital restoration plan shall file the plan in writing with the appropriate FDIC regional director within 45 days of receiving such notice, unless the FDIC notifies it in writing that the plan must be filed within a different period.

(b) Contents of plan. All financial data submitted in connection with a capital restoration plan shall be prepared in accordance with the instructions provided on the Call Report, unless the FDIC instructs otherwise. The capital restoration plan shall include all of the information required to be filed under section 38(e)(2) of the FDI Act. An FDIC-supervised institution that is required to submit a capital restoration plan as a result of its reclassification pursuant to §324.403(d) shall include a description of the steps the FDIC-supervised institution will take to correct the unsafe or unsound condition or practice. No plan shall be accepted unless it includes any performance guarantee described in section 38(e)(2)(C) of the FDI Act by each company that controls the FDIC-supervised institution.

(c) Review of capital restoration plans. Within 60 days after receiving a capital restoration plan under this subpart, the FDIC shall provide written notice to the FDIC-supervised institution of whether the plan has been approved. The FDIC may extend the time within which notice regarding approval of a plan shall be provided.

(d) Disapproval of capital plan. If a capital restoration plan is not approved by the FDIC, the FDIC-supervised institution shall submit a revised capital restoration plan within the time specified by the FDIC. Upon receiving notice that its capital restoration plan has not been approved, any undercapitalized FDIC-supervised institution (as defined in §324.403(b)) shall be subject to all of the provisions of section 38 of the FDI Act and this subpart H applicable to significantly undercapitalized institutions. These provisions shall be applicable until such time as a new or revised capital restoration plan submitted by the FDIC-supervised institution has been approved by the FDIC.

(e) Failure to submit capital restoration plan. An FDIC-supervised institution that is undercapitalized (as defined in §324.403(b)) and that fails to submit a written capital restoration plan within the period provided in this section shall, upon the expiration of that period, be subject to all of the provisions of section 38 and this subpart applicable to significantly undercapitalized institutions.

(f) Failure to implement capital restoration plan. Any undercapitalized FDIC-supervised institution that fails in any material respect to implement a capital restoration plan shall be subject to all of the provisions of section 38 of the FDI Act and this subpart H applicable to significantly undercapitalized institutions.

(g) Amendment of capital restoration plan. An FDIC-supervised institution that has filed an approved capital restoration plan may, after prior written notice to and approval by the FDIC, amend the plan to reflect a change in circumstance. Until such time as a proposed amendment has been approved, the FDIC-supervised institution shall implement the capital restoration plan as approved prior to the proposed amendment.

(h) Performance guarantee by companies that control an FDIC-supervised institution—(1) Limitation on liability—(i) Amount limitation. The aggregate liability under the guarantee provided under section 38 and this subpart H for all companies that control a specific FDIC-supervised institution that is required to submit a capital restoration plan under this subpart H shall be limited to the lesser of:

(A) An amount equal to 5.0 percent of the FDIC-supervised institution’s total assets at the time the FDIC-supervised institution was undercapitalized; or
The amount necessary to restore the relevant capital measures of the FDIC-supervised institution to the levels required for the FDIC-supervised institution to be classified as adequately capitalized, as those capital measures and levels are defined at the time that the FDIC-supervised institution initially fails to comply with a capital restoration plan under this subpart H.

(ii) Limit on duration. The guarantee and limit of liability under section 38 of the FDI Act and this subpart H shall expire after the FDIC notifies the FDIC-supervised institution that it has remained adequately capitalized for each of four consecutive calendar quarters. The expiration or fulfillment by a company of a guarantee of a capital restoration plan shall not limit the liability of the company under any guarantee required or provided in connection with any capital restoration plan filed by the same FDIC-supervised institution after expiration of the first guarantee.

(iii) Collection on guarantee. Each company that controls a given FDIC-supervised institution shall be jointly and severally liable for the guarantee for such FDIC-supervised institution as required under section 38 and this subpart H, and the FDIC may require and collect payment of the full amount of that guarantee from any or all of the companies issuing the guarantee.

(2) Failure to provide guarantee. In the event that an FDIC-supervised institution that is controlled by any company submits a capital restoration plan that does not contain the guarantee required under section 38(e)(2) of the FDI Act, the FDIC-supervised institution shall, upon submission of the plan, be subject to the provisions of section 38 and this subpart H that are applicable to FDIC-supervised institutions that have not submitted an acceptable capital restoration plan.

(3) Failure to perform guarantee. Failure by any company that controls an FDIC-supervised institution to perform fully its guarantee of any capital plan shall constitute a material failure to implement the plan for purposes of section 38(f) of the FDI Act. Upon such failure, the FDIC-supervised institution shall be subject to the provisions of section 38 and this subpart H that are applicable to FDIC-supervised institutions that have failed in a material respect to implement a capital restoration plan.

§ 324.405 Mandatory and discretionary supervisory actions.

(a) Mandatory supervisory actions—

(1) Provisions applicable to all FDIC-supervised institutions. All FDIC-supervised institutions are subject to the restrictions contained in section 38(d) of the FDI Act on payment of capital distributions and management fees.

(ii) Requiring that the FDIC monitor the condition of the FDIC-supervised institution (section 38(e)(1) of the FDI Act);

(iii) Requiring submission of a capital restoration plan within the schedule established in this subpart (section 38(e)(2) of the FDI Act);

(iv) Restricting the growth of the FDIC-supervised institution’s assets (section 38(e)(3) of the FDI Act); and

(v) Requiring prior approval of certain expansion proposals (section 38(e)(4) of the FDI Act).

(2) Provisions applicable to undercapitalized, significantly undercapitalized, and critically undercapitalized FDIC-supervised institution. Immediately upon receiving notice or being deemed to have notice, as provided in §324.402, that the FDIC-supervised institution is undercapitalized, significantly undercapitalized, or critically undercapitalized, it shall become subject to the provisions of section 38 of the FDI Act:

(i) Restricting payment of capital distributions and management fees (section 38(d) of the FDI Act);

(ii) Requiring the FDIC monitor the condition of the FDIC-supervised institution (section 38(e)(1) of the FDI Act);

(iii) Requiring submission of a capital restoration plan within the schedule established in this subpart (section 38(e)(2) of the FDI Act);

(iv) Restricting the growth of the FDIC-supervised institution’s assets (section 38(e)(3) of the FDI Act); and

(v) Requiring prior approval of certain expansion proposals (section 38(e)(4) of the FDI Act).

(3) Additional provisions applicable to significantly undercapitalized, and critically undercapitalized FDIC-supervised institutions. In addition to the provisions applicable to institutions that are significantly undercapitalized, or critically undercapitalized, or that the FDIC-supervised institution is subject to the provisions applicable to institutions that are significantly undercapitalized because the FDIC-supervised institution
failed to submit or implement in any material respect an acceptable capital restoration plan, the FDIC-supervised institution shall become subject to the provisions of section 38 of the FDI Act that restrict compensation paid to senior executive officers of the institution (section 38(f)(4) of the FDI Act).

(4) Additional provisions applicable to critically undercapitalized institutions. (i) In addition to the provisions of section 38 of the FDI Act described in paragraphs (a)(2) and (a)(3) of this section, immediately upon receiving notice or being deemed to have notice, as provided in §324.402, that the insured depository institution is critically undercapitalized, the institution is prohibited from doing any of the following without the FDIC’s prior written approval:

(A) Entering into any material transaction other than in the usual course of business, including any investment, expansion, acquisition, sale of assets, or other similar action with respect to which the depository institution is required to provide notice to the appropriate Federal banking agency;

(B) Extending credit for any highly leveraged transaction;

(C) Amending the institution’s charter or bylaws, except to the extent necessary to carry out any other requirement of any law, regulation, or order;

(D) Making any material change in accounting methods;

(E) Engaging in any covered transaction (as defined in section 23A(b) of the Federal Reserve Act (12 U.S.C. 371c(b)));

(F) Paying excessive compensation or bonuses;

(G) Paying interest on new or renewed liabilities at a rate that would increase the institution’s weighted average cost of funds to a level significantly exceeding the prevailing rates of interest on insured deposits in the institution’s normal market areas; and

(H) Making any principal or interest payment on subordinated debt beginning 60 days after becoming critically undercapitalized except that this restriction shall not apply, until July 15, 1996, with respect to any subordinated debt outstanding on July 15, 1991, and not extended or otherwise renegotiated after July 15, 1991.

(ii) In addition, the FDIC may further restrict the activities of any critically undercapitalized institution to carry out the purposes of section 38 of the FDI Act.

(iii) The FDIC-supervised institution must remain in compliance with the plan or is operating under a written agreement with the appropriate Federal banking agency.

(b) Discretionary supervisory actions. In taking any action under section 38 of the FDI Act that is within the FDIC’s discretion to take in connection with:

(1) An insured depository institution that is deemed to be undercapitalized, significantly undercapitalized, or critically undercapitalized, or has been reclassified as undercapitalized, or significantly undercapitalized; or

(2) An officer or director of such institution, the FDIC shall follow the procedures for issuing directives under §§308.201 and 308.203 of this chapter, unless otherwise provided in section 38 of the FDI Act or this subpart H.

PART 325—CAPITAL MAINTENANCE

Subpart A—Minimum Capital Requirements

Sec.
325.1 Scope.
325.2 Definitions.
325.3 Minimum leverage capital requirement.
325.4 Inadequate capital as an unsafe or unsound practice or condition.
325.5 Miscellaneous.
325.6 Issuance of directives.

Subpart B—Prompt Corrective Action

325.101 Authority, purpose, scope, other supervisory authority, and disclosure of capital categories.
325.102 Notice of capital category.
325.103 Capital measures and capital category definitions.
325.104 Capital restoration plans.
325.105 Mandatory and discretionary supervisory actions under section 38.

Subpart C—Annual Stress Test

Appendix A to Part 325—Statement of Policy on Risk-Based Capital
Appendix B to Part 325—Statement of Policy on Capital Adequacy
Appendix C to Part 325—Risk-Based Capital for State Nonmember Banks: Market Risk
Appendix D to Part 325—Capital Adequacy Guidelines for Banks: Internal-Ratings-Based and Advanced Measurement Approaches

Subpart A—Minimum Capital Requirements

§ 325.1 Scope.
The provisions of this subpart A apply to those circumstances for which the Federal Deposit Insurance Act or this chapter requires an evaluation of the adequacy of an insured depository institution’s capital structure. The FDIC is required to evaluate capital before approving various applications by insured depository institutions. The FDIC also must evaluate capital, as an essential component, in determining the safety and soundness of state nonmember banks it insures and supervises and in determining whether depository institutions are in an unsafe or unsound condition. This subpart A establishes the criteria and standards the FDIC will use in calculating the minimum leverage capital requirement and in determining capital adequacy. In addition, appendix A to this subpart sets forth the FDIC’s risk-based capital policy statement and appendix B to this subpart includes a statement of policy on capital adequacy that provides interpretational guidance as to how this subpart will be administered and enforced. In accordance with subpart B of part 325, the FDIC also must evaluate an institution’s capital for purposes of determining whether the institution is subject to the prompt corrective action provisions set forth in section 38 of the Federal Deposit Insurance Act (12 U.S.C. 1831o).

§ 325.2 Definitions.
(a) Allowance for loan and lease losses means those general valuation allowances that have been established through charges against earnings to absorb losses on loans and lease financing receivables. Allowances for loan and lease losses exclude allocated transfer risk reserves established pursuant to 12 U.S.C. 3904 and specific reserves created against identified losses.
(b) Assets classified loss means:
(1) When measured as of the date of examination of an insured depository institution, those assets that have been determined by an evaluation made by a state or federal examiner as of that date to be a loss; and
(2) When measured as of any other date, those assets:
(A) That have been determined—
(i) By an evaluation made by a state or federal examiner at the most recent examination of an insured depository institution to be a loss; or
(ii) By evaluations made by the insured depository institution since its most recent examination to be a loss; and
(B) That have not been charged off from the insured depository institution’s books or collected.
(c) Bank means an FDIC-insured, state-chartered commercial or savings bank that is not a member of the Federal Reserve System and for which the FDIC is the appropriate federal banking agency pursuant to section 3(q) of the FDI Act (12 U.S.C. 1813(q)).
(d) Common stockholders’ equity means the sum of common stock and related surplus, undivided profits, disclosed capital reserves that represent a segregation of undivided profits, and foreign currency translation adjustments, less net unrealized holding losses on available-for-sale equity securities with readily determinable fair values.
(e)(1) Control has the same meaning assigned to it in section 2 of the Bank Holding Company Act (12 U.S.C. 1841), and the term controlled shall be construed consistently with the term control.
(2) Exclusion for fiduciary ownership. No insured depository institution or company controls another insured depository institution or company by virtue of its ownership or control of
shares in a fiduciary capacity. Shares shall not be deemed to have been acquired in a fiduciary capacity if the acquiring insured depository institution or company has sole discretionary authority to exercise voting rights with respect thereto.

(3) Exclusion for debts previously contracted. No insured depository institution or company controls another insured depository institution or company by virtue of its ownership or control of shares acquired in securing or collecting a debt previously contracted in good faith, until two years after the date of acquisition. The two-year period may be extended at the discretion of the appropriate federal banking agency for up to three one-year periods.

(f) Controlling person means any person having control of an insured depository institution and any company controlled by that person.

(g)(1) Credit-enhancing interest-only strip means an on-balance sheet asset that, in form or in substance:

(i) Represents the contractual right to receive some or all of the interest due on transferred assets; and

(ii) Exposes the bank to credit risk directly or indirectly associated with the transferred assets that exceeds a pro rata share of the bank’s claim on the assets, whether through subordination provisions or other credit enhancement techniques.

(2) Reservation of authority. In determining whether a particular interest cash flow functions, directly or indirectly, as a credit-enhancing interest-only strip, the FDIC will consider the economic substance of the transaction. The FDIC, through the Director of Supervision, or other designated FDIC official reserves the right to identify other interest cash flows or related assets as credit-enhancing interest-only strips.

(h) Face amount means the notional principal, or face value, amount of an off-balance sheet item; the amortized cost of an asset not held for trading purposes; and the fair value of a trading asset.

(i)(1) Highly leveraged transaction means an extension of credit to or investment in a business by an insured depository institution where the financing transaction involves a buyout, acquisition, or recapitalization of an existing business and one of the following criteria is met:

(i) The transaction results in a liabilities-to-assets leverage ratio higher than 75 percent; or

(ii) The transaction at least doubles the subject company’s liabilities and results in a liabilities-to-assets leverage ratio higher than 50 percent; or

(iii) The transaction is designated an HLT by a syndication agent or a federal bank regulator.

(2) Notwithstanding paragraph (g)(1) of this section, loans and exposures to any obligor in which the total financing package, including all obligations held by all participants is $20 million or more, or such lower level as the FDIC may establish by order on a case-by-case basis, will be excluded from this definition.

(j) Identified losses means:

(1) When measured as of the date of examination of an insured depository institution, those items that have been determined by an evaluation made by a state or federal examiner as of that date to be chargeable against income, capital and/or general valuation allowances such as the allowance for loan and lease losses (examples of identified losses would be assets classified loss, off-balance sheet items classified loss, any provision expenses that are necessary for the institution to record in order to replenish its general valuation allowances to an adequate level, liabilities not shown on the institution’s books, estimated losses in contingent liabilities, and differences in accounts which represent shortages); and

(2) When measured as of any other date, those items:

(i) That have been determined—

(A) By an evaluation made by a state or federal examiner at the most recent examination of an insured depository institution to be chargeable against income, capital and/or general valuation allowances; and

(B) By evaluations made by the insured depository institution since its most recent examination to be chargeable against income, capital and/or general valuation allowances; and

(ii) For which the appropriate accounting entries to recognize the loss
have not yet been made on the insured depository institution’s books nor has the item been collected or otherwise settled.

(k) Insured depository institution means any depository institution (except for a foreign bank having an insured branch) the deposits of which are insured in accordance with the provisions of the Federal Deposit Insurance Act (12 U.S.C. 1811 et seq.)

(l) Intangible assets means those assets that are required to be reported as intangible assets in a banking institution’s “Reports of Condition and Income” (Call Report) or in a savings association’s “Thrift Financial Report.”

(m) Leverage ratio means the ratio of Tier 1 capital to total assets, as calculated under this part.

(n) Management fee means any payment of money or provision of any other thing of value to a company or individual for the provision of management services or advice to the bank or related overhead expenses, including payments related to supervisory, executive, managerial, or policymaking functions, other than compensation to an individual in the individual’s capacity as an officer or employee of the bank.

(o) Minority interests in consolidated subsidiaries means minority interests in equity capital accounts of those subsidiaries that have been consolidated for the purpose of computing regulatory capital under this part, except that minority interests which fail to provide meaningful capital support are excluded from this definition.

(p) Mortgage servicing assets means those assets (net of any related valuation allowances) that result from contracts to service loans secured by real estate (that have been securitized or are owned by others) for which the benefits of servicing are expected to more than adequately compensate the servicer for performing the servicing. For purposes of determining regulatory capital under this part, mortgage servicing assets will be recognized only to the extent that the assets meet the conditions, limitations, and restrictions described in §325.5(f).

(q) Noncumulative perpetual preferred stock means perpetual preferred stock (and related surplus) where the issuer has the option to waive payment of dividends and where the dividends so waived do not accumulate to future periods nor do they represent a contingent claim on the issuer. Preferred stock issues where the dividend is reset periodically based, in whole or in part, upon the bank’s current credit standing, including but not limited to, auction rate, money market and remarketable preferred stock, are excluded from this definition of noncumulative perpetual preferred stock, regardless of whether the dividends are cumulative or noncumulative.

(r) Perpetual preferred stock means a preferred stock that does not have a maturity date, that cannot be redeemed at the option of the holder, and that has no other provisions that will require future redemption of the issue. It includes those issues of preferred stock that automatically convert into common stock at a stated date. It excludes those issues, the rate on which increases, or can increase, in such a manner that would effectively require the issuer to redeem the issue.

(s) Risk-weighted assets means total risk-weighted assets, as calculated in accordance with the FDIC’s Statement of Policy on Risk-Based Capital (appendix A to part 325).

(t) Savings association means any federally-chartered savings association, any state-chartered savings association, and any corporation (other than a bank) that the Board of Directors of the FDIC and the Director of the Office of Thrift Supervision jointly determine to be operating in substantially the same manner as a savings association.

(u) Tangible equity means the amount of core capital elements as defined in Section I.A.1. of the FDIC’s Statement of Policy on Risk-Based Capital (appendix A to this Part 325), plus the amount of outstanding cumulative perpetual preferred stock (including related surplus), minus all intangible assets except mortgage servicing assets to the extent that the FDIC determines pursuant to §325.5(f) of this part that mortgage servicing assets may be included in calculating the bank’s Tier 1 capital.
(v) **Tier 1 capital or core capital** means the sum of common stockholders’ equity, noncumulative perpetual preferred stock (including any related surplus), and minority interests in consolidated subsidiaries, minus all intangible assets (other than mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships eligible for inclusion in core capital pursuant to §325.5(f)), minus credit-enhancing interest-only strips that are not eligible for inclusion in core capital pursuant to §325.5(f), minus deferred tax assets in excess of the limit set forth in §325.5(g), minus identified losses (to the extent that Tier 1 capital would have been reduced if the appropriate accounting entries to reflect the identified losses had been recorded on the insured depository institution’s books), minus investments in financial subsidiaries subject to 12 CFR part 362, subpart E, and minus the amount of the total adjusted carrying value of nonfinancial equity investments that is subject to a deduction from Tier 1 capital as set forth in section II.B.(6) of appendix A to this part.

(w) **Tier 1 risk-based capital ratio** means the ratio of Tier 1 capital to risk-weighted assets, as calculated in accordance with the FDIC’s Statement of Policy on Risk-Based Capital (appendix A to part 325).

(x) **Total assets** means the average of total assets required to be included in a banking institution’s “Reports of Condition and Income” (Call Report) or, for savings associations, the consolidated total assets required to be included in the “Thrift Financial Report,” as these reports may from time to time be revised, as of the most recent report date (and after making any necessary subsidiary adjustments for state nonmember banks as described in §§325.5(c) and 325.5(d) of this part), minus intangible assets (other than mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships eligible for inclusion in core capital pursuant to §325.5(f)), minus credit-enhancing interest-only strips that are not eligible for inclusion in core capital pursuant to §325.5(f), minus deferred tax assets in excess of the limit set forth in §325.5(g), minus assets classified loss and any other assets that are deducted in determining Tier 1 capital, and minus the amount of the total adjusted carrying value of nonfinancial equity investments that is subject to a deduction from Tier 1 capital as set forth in section II.B.(6) of appendix A to this part. For banking institutions, the average of total assets is found in the Call Report schedule of quarterly averages. For savings associations, the consolidated total assets figure is found in Schedule CSC of the Thrift Financial Report.

(y) **Total risk-based capital ratio** means the ratio of qualifying total capital to risk-weighted assets, as calculated in accordance with the FDIC’s Statement of Policy on Risk-Based Capital (appendix A to part 325).

(z) **Written agreement** means an agreement in writing executed by authorized representatives entered into with the FDIC by an insured depository institution which is enforceable by an action under section 8(a) and/or section 8(b) of the Federal Deposit Insurance Act (12 U.S.C. 1818 (a), (b)).

§ 325.3 Minimum leverage capital requirement.

(a) **General.** Banks must maintain at least the minimum leverage capital requirement set forth in this section. The capital standards in this part are the minimum acceptable for banks whose overall financial condition is fundamentally sound, which are well-managed and which have no material or significant financial weaknesses. Thus, the FDIC is not precluded from requiring an institution to maintain a higher capital level based on the institution’s particular risk profile. Where the FDIC determines that the financial history or condition, managerial resources and/or the future earnings prospects of a bank are not adequate, or where a bank has sizable off-balance sheet or funding responsibilities, the FDIC may require a bank to maintain a higher capital level than that required by this part.
Federal Deposit Insurance Corporation  

§ 325.3  

risks, significant risks from concentrations of credit or nontraditional activities, excessive interest rate risk exposure, or a significant volume of assets classified substandard, doubtful or loss or otherwise criticized, the FDIC will take these other factors into account in analyzing the bank's capital adequacy and may determine that the minimum amount of capital for that bank is greater than the minimum standards stated in this section. These same criteria will apply to any insured depository institution making an application to the FDIC that requires the FDIC to consider the adequacy of the institution's capital structure.

(b) Minimum leverage capital requirement. (1) The minimum leverage capital requirement for a bank (or an insured depository institution making application to the FDIC) shall consist of a ratio of Tier 1 capital to total assets of not less than 3 percent if the FDIC determines that the institution is not anticipating or experiencing significant growth and has well-diversified risk, including no undue interest rate risk exposure, excellent asset quality, high liquidity, good earnings and in general is considered a strong banking organization, rated composite 1 under the Uniform Financial Institutions Rating System (the CAMELS rating system) established by the Federal Financial Institutions Examination Council.

(2) For all but the most highly-rated institutions meeting the conditions set forth in paragraph (b)(1) of this section, the minimum leverage capital requirement for a bank (or for an insured depository institution making an application to the FDIC) shall consist of a ratio of Tier 1 capital to total assets of not less than 4 percent.

(c) Insured depository institutions with less than the minimum leverage capital requirement. (1) A bank (or an insured depository institution making an application to the FDIC) operating with less than the minimum leverage capital requirement does not have adequate capital and therefore has inadequate financial resources.

(2) Any insured depository institution operating with an inadequate capital structure, and therefore inadequate financial resources, will not receive approval for an application requiring the FDIC to consider the adequacy of its capital structure or its financial resources.

(3) As required under §325.104(a)(1) of this part, a bank must file a written capital restoration plan with the appropriate FDIC regional director within 45 days of the date that the bank receives notice or is deemed to have notice that the bank is undercapitalized, significantly undercapitalized or critically undercapitalized, unless the FDIC notifies the bank in writing that the plan is to be filed within a different period.

(4) In any merger, acquisition or other type of business combination where the FDIC must give its approval, where it is required to consider the adequacy of the financial resources of the existing and proposed institutions, and where the resulting entity is either insured by the FDIC or not otherwise federally insured, approval will not be granted when the resulting entity does not meet the minimum leverage capital requirement.

(d) Exceptions. Notwithstanding the provisions of paragraphs (a), (b) and (c) of this section:

(1) The FDIC, in its discretion, may approve an application pursuant to the Federal Deposit Insurance Act where it is required to consider the adequacy of capital if it finds that such approval must be taken to prevent the closing of a depository institution or to facilitate the acquisition of a closed depository institution, or, when severe financial conditions exist which threaten the stability of an insured depository institution or of a significant number of depository institutions insured by the FDIC or of insured depository institutions possessing significant financial resources, such action is taken to lessen the risk to the FDIC posed by an insured depository institution under such threat of instability.

(2) The FDIC, in its discretion, may approve an application pursuant to the Federal Deposit Insurance Act where it is required to consider the adequacy of capital or the financial resources of the insured depository institution where it finds that the applicant has committed...
§ 325.4 Inadequate capital as an unsafe or unsound practice or condition.

(a) General. As a condition of federal deposit insurance, all insured depository institutions must remain in a safe and sound condition.

(b) Unsafe or unsound practice. Any bank which has less than its minimum leverage capital requirement is deemed to be engaged in an unsafe or unsound practice pursuant to section 8(b)(1) and/or 8(c) of the Federal Deposit Insurance Act (12 U.S.C. 1818(b)(1) and/or 1818(c)). Except that such a bank which has entered into and is in compliance with a written agreement with the FDIC or has submitted to the FDIC and is in compliance with a plan approved by the FDIC to increase its Tier 1 leverage capital ratio to such level as the FDIC deems appropriate and to take such other action as may be necessary for the bank to be operated so as not to be engaged in such an unsafe or unsound practice pursuant to section 8(b)(1) and/or 8(c) of the Federal Deposit Insurance Act (12 U.S.C. 1818(b)(1) and/or 1818(c)).

(c) Unsafe or unsound condition. Any insured depository institution with a ratio of Tier 1 capital to total assets that is less than two percent is deemed to be operating in an unsafe or unsound condition pursuant to section 8(a) of the Federal Deposit Insurance Act (12 U.S.C. 1818(a)).

(1) A bank with a ratio of Tier 1 capital to total assets of less than two percent which has entered into and is in compliance with a written agreement with the FDIC (or any other insured depository institution with a ratio of Tier 1 capital to total assets of less than two percent which has entered into and is in compliance with a written agreement with its primary federal regulator and to which agreement the FDIC is a party) to increase its Tier 1 leverage capital ratio to such level as the FDIC deems appropriate and to take such other action as may be necessary for the insured depository institution to be operated in a safe and sound manner, will not be subject to a proceeding by the FDIC pursuant to 12 U.S.C. 1818(a) on account of its capital ratios.

(2) An insured depository institution with a ratio of Tier 1 capital to total assets that is equal to or greater than two percent may be operating in an unsafe or unsound condition. The FDIC is not precluded from bringing an action pursuant to 12 U.S.C. 1818(a) where an insured depository institution has a ratio of Tier 1 capital to total assets that is equal to or greater than two percent.

[56 FR 10162, Mar. 11, 1991]

§ 325.5 Miscellaneous.

(a) Intangible assets. Any intangible assets that were explicitly approved by the FDIC as part of the bank’s regulatory capital on a specific case basis will be included in capital under the terms and conditions that were approved by the FDIC, provided that the intangible asset is being amortized over a period not to exceed 15 years or its estimated useful life, whichever is shorter. However, pursuant to section 18(n) of the Federal Deposit Insurance Act (12 U.S.C. 1828(n)), an unidentifiable intangible asset such as goodwill, if acquired after April 12, 1989, cannot.
be included in calculating regulatory capital under this part.

(b) Reservation of authority. Notwithstanding the definition of Tier 1 capital in §325.2(t) of this subpart and the risk-based capital definitions of Tier 1 and Tier 2 capital in appendix A to this subpart, the Director of the Division of Supervision and Consumer Protection (DSC) may, if the Director finds a newly developed or modified capital instrument or a particular balance sheet entry or account to be the functional equivalent of a component of Tier 1 or Tier 2 capital, permit one or more insured depository institutions to include all or a portion of such instrument, entry, or account as Tier 1 or Tier 2 capital, permanently, or on a temporary basis, for purposes of this part. Similarly, the Director of the Division of Supervision and Consumer Protection (DSC) may, if the Director finds that a particular Tier 1 or Tier 2 capital component or balance sheet entry or account has characteristics or terms that diminish its contribution to an insured depository institution’s ability to absorb losses, require the deduction of all or a portion of such component, entry, or account from Tier 1 or Tier 2 capital.

(c) Securities subsidiary. For purposes of this part, any securities subsidiary subject to 12 CFR 337.4 shall not be consolidated with its bank parent and any investment therein shall be deducted from the bank parent’s Tier 1 capital and total assets.

(d) Depository institution subsidiary. Any domestic depository institution subsidiary that is not consolidated in the “Reports of Condition and Income” (Call Report) of its insured parent bank shall be consolidated with the insured parent bank for purposes of this part. The financial statements of the subsidiary that are to be used for this consolidation must be prepared in the same manner as the “Reports of Condition and Income” (Call Report). A domestic depository institution subsidiary of a savings association shall be consolidated for purposes of this part if such consolidation also is required pursuant to the capital requirements of the association’s primary federal regulator.

(e) Restrictions relating to capital components. To qualify as Tier 1 capital under this part or Tier 1 or Tier 2 capital under appendix A to this part, a capital instrument must not contain or be subject to any conditions, covenants, terms, restrictions, or provisions that are inconsistent with safe and sound banking practices. A condition, covenant, term, restriction, or provision is inconsistent with safe and sound banking practices if it:

1. Unduly interferes with the ability of the issuer to conduct normal banking operations;
2. Results in significantly higher dividends or interest payments in the event of deterioration in the financial condition of the issuer;
3. Impairs the ability of the issuer to comply with statutory or regulatory requirements regarding the disposition of assets or incurrence of additional debt; or
4. Limits the ability of the FDIC or a similar regulatory authority to take any necessary action to resolve a problem bank or failing bank situation.

Other conditions and covenants that are not expressly listed in paragraphs (e)(1) through (e)(4) of this section also may be inconsistent with safe and sound banking practices.

(f) Treatment of mortgage servicing assets, purchased credit card relationships, nonmortgage servicing assets, and credit-enhancing interest-only strips. For purposes of determining Tier 1 capital under this part, mortgage servicing assets, purchased credit card relationships, nonmortgage servicing assets, and credit-enhancing interest-only strips will be deducted from assets and from common stockholders’ equity to the extent that these items do not meet the conditions, limitations, and restrictions described in this section. Banks may elect to deduct disallowed servicing assets and disallowed credit-enhancing interest-only strips on a basis that is net of a proportional amount of any associated deferred tax liability recorded on the balance sheet. Any deferred tax liability netted in this manner cannot also be netted against deferred tax assets when determining the amount of deferred tax assets that are dependent upon future taxable income and calculating the
(g) Treatment of deferred tax assets. For purposes of calculating Tier 1 capital under this part (but not for financial statement purposes), deferred tax assets are subject to the conditions, limitations, and restrictions described in this section.

(1) Deferred tax assets that are dependent upon future taxable income. These assets are:

(i) Deferred tax assets arising from deductible temporary differences that exceed the amount of taxes previously paid that could be recovered through
loss carrybacks if existing temporary differences (both deductible and taxable and regardless of where the related deferred tax effects are reported on the balance sheet) fully reverse at the calendar quarter-end date; and

(ii) Deferred tax assets arising from operating loss and tax credit carryforwards.

(2) Tier 1 capital limitations. (i) The maximum allowable amount of deferred tax assets that are dependent upon future taxable income, net of any valuation allowance for deferred tax assets, will be limited to the lesser of:

(A) The amount of deferred tax assets that are dependent upon future taxable income that is expected to be realized within one year of the calendar quarter-end date, based on projected future taxable income for that year; or

(B) 10 percent of the amount of Tier 1 capital that exists before the deduction of any disallowed mortgage servicing assets, any disallowed nonmortgage servicing assets, any disallowed purchased credit card relationships, any disallowed credit-enhancing interest-only strips, any disallowed deferred tax assets, and any nonfinancial equity investments.

(ii) For purposes of this limitation, all existing temporary differences should be assumed to fully reverse at the calendar quarter-end date. The recorded amount of deferred tax assets that are dependent upon future taxable income, net of any valuation allowance for deferred tax assets, in excess of this limitation will be deducted from assets and from equity capital for purposes of determining Tier 1 capital under this part. The amount of deferred tax assets that can be realized from taxes paid in prior carryback years and from the reversal of existing taxable temporary differences generally would not be deducted from assets and from equity capital. However, notwithstanding the first three sentences in this paragraph, the amount of carryback potential that may be considered in calculating the amount of deferred tax assets that a member of a consolidated group (for tax purposes) may include in Tier 1 capital may not exceed the amount which the member could reasonably expect to have refunded by its parent.

(3) Projected future taxable income. Projected future taxable income should not include net operating loss carryforwards to be used within one year of the most recent calendar quarter-end date or the amount of existing temporary differences expected to reverse within that year. Projected future taxable income should include the estimated effect of tax planning strategies that are expected to be implemented to realize tax carryforwards that will otherwise expire during that year. Future taxable income projections for the current fiscal year (adjusted for any significant changes that have occurred or are expected to occur) may be used when applying the capital limit at an interim calendar quarter-end date rather then preparing a new projection each quarter.

(4) Unrealized holding gains and losses on available-for-sale debt securities. The deferred tax effects of any unrealized holding gains and losses on available-for-sale debt securities may be excluded from the calculation of the maximum allowable amount of such assets. If these deferred tax effects are excluded, this treatment must be followed consistently over time.

(5) Goodwill and other intangible assets. This paragraph (g)(5) provides the capital treatment for intangible assets acquired in a nontaxable business combination, and goodwill acquired in a taxable business combination.

(i) Intangible assets acquired in nontaxable purchase business combinations. A deferred tax liability that is specifically related to an intangible asset (other than mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships) acquired in a nontaxable purchase business combination may be netted against this intangible asset. Only the net amount of this intangible asset must be deducted from Tier 1 capital.

(ii) Goodwill acquired in a taxable purchase business combination. A deferred tax liability that is specifically related to goodwill acquired in a taxable purchase business combination may be netted against this goodwill. Only the
net amount of this goodwill must be deducted from Tier 1 capital.

(iii) Treatment of a netted deferred tax liability. When a deferred tax liability is netted in accordance with paragraph (g)(5)(i) or (ii) of this section, the taxable temporary difference that gives rise to this deferred tax liability must be excluded from existing taxable temporary differences when determining the amount of deferred tax assets that are dependent upon future taxable income and calculating the maximum allowable amount of such assets.

(iv) Valuation. The FDIC in its discretion may require independent fair value estimates for goodwill and other intangible assets on a case-by-case basis where it is deemed appropriate for safety and soundness purposes.

§ 325.6 Issuance of directives.

(a) General. A directive is a final order issued to a bank that fails to maintain capital at or above the minimum leverage capital requirement as set forth in §§325.3 and 325.4. A directive issued pursuant to this section, including a plan submitted under a directive, is enforceable in the same manner and to the same extent as a final cease-and-desist order issued under 12 U.S.C. 1818(b).

(b) Issuance of directives. If a bank is operating with less than the minimum leverage capital requirement established by this regulation, the Board of Directors, or its designee(s), may issue and serve upon any insured state non-member bank a directive requiring the bank to restore its capital to the minimum leverage capital requirement within a specified time period. The directive may require the bank to submit to the appropriate FDIC regional director, or other specified official, for review and approval, a plan describing the means and timing by which the bank shall achieve the minimum leverage capital requirement. After the FDIC has approved the plan, the bank may be required under the terms of the directive to adhere to and monitor compliance with the plan. The directive may be issued during the course of an examination of the bank, or at any other time that the FDIC deems appropriate, if the bank is found to be operating with less than the minimum leverage capital requirement.

(c) Notice and opportunity to respond to issuance of a directive. (1) If the FDIC makes an initial determination that a directive should be issued to a bank pursuant to paragraph (b) of this section, the FDIC, through the appropriate designated official(s), shall serve written notification upon the bank of its intent to issue a directive. The notice shall include the current Tier 1 leverage capital ratio, the basis upon which said ratio was calculated, the proposed capital injection, the proposed date for achieving the minimum leverage capital requirement; any and all other relevant information concerning the decision to issue a directive. When deemed appropriate, specific requirements of a proposed plan for meeting the minimum leverage capital requirement may be included in the notice.

(2) Within 14 days of receipt of notification, the bank may file with the appropriate designated FDIC official(s) a written response, explaining why the directive should not be issued, seeking modification of its terms, or other appropriate relief. The bank’s response shall include any information, mitigating circumstances, documentation or other relevant evidence which supports its position, and may include a plan for attaining the minimum leverage capital requirement.

(3) After considering the bank’s response, the appropriate designated FDIC official(s) shall serve upon the bank a written determination addressing the bank’s response and setting forth the FDIC’s findings and conclusions in support of any decision to issue or not to issue a directive. The directive may be issued as originally proposed or in modified form. The directive may order the bank to:

(i) Achieve the minimum leverage capital requirement established by this regulation by a certain date;

(ii) Submit for approval and adhere to a plan for achieving the minimum leverage capital requirement;
§ 325.101 Authority, purpose, scope, other supervisory authority, and disclosure of capital categories.

(a) Authority. This subpart is issued by the FDIC pursuant to section 38 (section 38) of the Federal Deposit Insurance Act (FDI Act), as added by section 131 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (Pub. L. 102–242, 105 Stat. 2236 (1991)) (12 U.S.C. 1831o).

(b) Purpose. Section 38 of the FDI Act establishes a framework of supervisory actions for insured depository institutions that are not adequately capitalized. The principal purpose of this subpart is to define, for FDIC-insured state-chartered nonmember banks, the capital measures and capital levels, and for insured branches of foreign banks, comparable asset-based measures and levels, that are used for determining the supervisory actions authorized under section 38 of the FDI Act. This subpart also establishes procedures for submission and review of capital restoration plans and for issuance and review of directives and orders pursuant to section 38.

(c) Scope. This subpart implements the provisions of section 38 of the FDI Act as they apply to FDIC-insured state-chartered nonmember banks and insured branches of foreign banks for which the FDIC is the appropriate Federal banking agency. Certain of these provisions also apply to officers, directors, and employees of those insured institutions. In addition, certain provisions of this subpart apply to all insured depository institutions that are deemed critically undercapitalized.

(d) Other supervisory authority. Neither section 38 nor this subpart in any way limits the authority of the FDIC under any other provision of law to take supervisory actions to address unsafe or unsound practices, deficient
capital levels, violations of law, unsafe or unsound conditions, or other practices. Action under section 38 of the FDI Act and this subpart may be taken independently of, in conjunction with, or in addition to any other enforcement action available to the FDIC, including issuance of cease and desist orders, capital directives, approval or denial of applications or notices, assessment of civil money penalties, or any other actions authorized by law.

(e) Disclosure of capital categories. The assignment of a bank or insured branch under this subpart within a particular capital category is for purposes of implementing and applying the provisions of section 38. Unless permitted by the FDIC or otherwise required by law, no bank may state in any advertisement or promotional material its capital category under this subpart or that the FDIC or any other federal banking agency has assigned the bank to a particular capital category.

§ 325.102 Notice of capital category.

(a) Effective date of determination of capital category. A bank shall be deemed to be within a given capital category for purposes of section 38 of the FDI Act and this subpart as of the date the bank is notified of, or is deemed to have notice of, its capital category, pursuant to paragraph (b) of this section.

(b) Notice of capital category. A bank shall be deemed to have been notified of its capital levels and its capital category as of the most recent date:

(1) A Consolidated Report of Condition and Income (Call Report) is required to be filed with the FDIC;

(2) A final report of examination is delivered to the bank; or

(3) Written notice is provided by the FDIC to the bank of its capital category for purposes of section 38 of the FDI Act and this subpart or that the bank’s capital category has changed as provided in §325.103(d).

(c) Adjustments to reported capital levels and capital category—(1) Notice of adjustment by bank. A bank shall provide the appropriate FDIC regional director with written notice that an adjustment to the bank’s capital category may have occurred no later than 15 calendar days following the date that any material event has occurred that would cause the bank to be placed in a lower capital category from the category assigned to the bank for purposes of section 38 and this subpart on the basis of the bank’s most recent Call Report or report of examination.

(2) Determination by the FDIC to change capital category. After receiving notice pursuant to paragraph (c)(1) of this section, the FDIC shall determine whether to change the capital category of the bank and shall notify the bank of the FDIC’s determination.

§ 325.103 Capital measures and capital category definitions.

(a) Capital measures. For purposes of section 38 and this subpart, the relevant capital measures shall be:

(1) The total risk-based capital ratio;

(2) The Tier 1 risk-based capital ratio; and

(3) The leverage ratio.

(b) Capital categories. For purposes of section 38 and this subpart, a bank shall be deemed to be:

(1) Well capitalized if the bank:

(i) Has a total risk-based capital ratio of 10.0 percent or greater; and

(ii) Has a Tier 1 risk-based capital ratio of 6.0 percent or greater; and

(iii) Has a leverage ratio of 5.0 percent or greater; and

(iv) Is not subject to any written agreement, order, capital directive, or prompt corrective action directive issued by the FDIC pursuant to section 8 of the FDI Act (12 U.S.C. 1818), the International Lending Supervision Act of 1983 (12 U.S.C. 3907), or section 38 of the FDI Act (12 U.S.C. 1831o), or any regulation thereunder, to meet and maintain a specific capital level for any capital measure.

(2) Adequately capitalized if the bank:

(i) Has a total risk-based capital ratio of 8.0 percent or greater; and

(ii) Has a Tier 1 risk-based capital ratio of 6.0 percent or greater; and

(iii) Has a leverage ratio of 5.0 percent or greater; and

(iv) Is not subject to any written agreement, order, capital directive, or prompt corrective action directive issued by the FDIC pursuant to section 8 of the FDI Act (12 U.S.C. 1818), the International Lending Supervision Act of 1983 (12 U.S.C. 3907), or section 38 of the FDI Act (12 U.S.C. 1831o), or any regulation thereunder, to meet and maintain a specific capital level for any capital measure.

(3) Adequately capitalized if the bank:

(i) Has a total risk-based capital ratio of 8.0 percent or greater; and

(ii) Has a Tier 1 risk-based capital ratio of 6.0 percent or greater; and

(iii) Has:

(A) A leverage ratio of 4.0 percent or greater; or

(B) A leverage ratio of 3.0 percent or greater if the bank is rated composite 1 under the CAMELS rating system in the most recent examination of the bank and is not experiencing or anticipating significant growth; and
Federal Deposit Insurance Corporation § 325.103

(iv) Does not meet the definition of a well capitalized bank.

(3) Undercapitalized if the bank:
(i) Has a total risk-based capital ratio that is less than 6.0 percent; or
(ii) Has a Tier 1 risk-based capital ratio that is less than 4.0 percent; or
(iii)(A) Except as provided in paragraph (b)(3)(iii)(B) of this section, has a leverage ratio that is less than 4.0 percent; or
(B) Has a leverage ratio that is less than 3.0 percent if the bank is rated composite 1 under the CAMELS rating system in the most recent examination of the bank and is not experiencing or anticipating significant growth.

(4) Significantly undercapitalized if the bank has:
(i) A total risk-based capital ratio that is less than 6.0 percent; or
(ii) A Tier 1 risk-based capital ratio that is less than 3.0 percent; or
(iii) A leverage ratio that is less than 3.0 percent.

(5) Critically undercapitalized if the insured depository institution has a ratio of tangible equity to total assets that is equal to or less than 2.0 percent.

(c) Capital categories for insured branches of foreign banks. For purposes of the provisions of section 38 and this subpart, an insured branch of a foreign bank shall be deemed to be:
(1) Well capitalized if the insured branch:
(i) Maintains the pledge of assets required under §347.209 of this chapter; and
(ii) Maintains the eligible assets prescribed under §347.210 of this chapter at 108 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities; and
(iii) Has not received written notification from:
(A) The OCC to increase its capital equivalency deposit pursuant to 12 CFR 28.15(b), or to comply with asset maintenance requirements pursuant to 12 CFR 28.20; or
(B) The FDIC to pledge additional assets pursuant to §347.209 of this chapter or to maintain a higher ratio of eligible assets pursuant to §347.210 of this chapter.

(2) Adequately capitalized if the insured branch:
(i) Maintains the pledge of assets required under §347.209 of this chapter; and
(ii) Maintains the eligible assets prescribed under §347.210 of this chapter at 106 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities; and
(iii) Does not meet the definition of a well capitalized insured branch.

(3) Undercapitalized if the insured branch:
(i) Fails to maintain the pledge of assets required under §347.209 of this chapter; or
(ii) Fails to maintain the eligible assets prescribed under §347.210 of this chapter at 106 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities.

(4) Significantly undercapitalized if it fails to maintain the eligible assets prescribed under §347.210 of this chapter at 104 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities.

(5) Critically undercapitalized if it fails to maintain the eligible assets prescribed under §347.210 of this chapter at 102 percent or more of the preceding quarter's average book value of the insured branch's third-party liabilities.

(d) Reclassifications based on supervisory criteria other than capital. The FDIC may reclassify a well capitalized bank as adequately capitalized and may require an adequately capitalized bank or an undercapitalized bank to comply with certain mandatory or discretionary supervisory actions as if the bank were in the next lower capital category (except that the FDIC may not reclassify a significantly undercapitalized bank as critically undercapitalized (each of these actions are hereinafter referred to generally as "reclassifications") in the following circumstances:

(1) Unsafe or unsound condition. The FDIC has determined, after notice and opportunity for hearing pursuant to §308.202(a) of this chapter, that the bank is in unsafe or unsound condition; or
§ 325.104 Capital restoration plans.

(a) Schedule for filing plan—(1) In general. A bank shall file a written capital restoration plan with the appropriate FDIC regional director within 45 days of the date that the bank receives notice or is deemed to have notice that the bank is undercapitalized, significantly undercapitalized, or critically undercapitalized, unless the FDIC notifies the bank in writing that the plan is to be filed within a different period. An adequately capitalized bank that has been required pursuant to §325.103(d) of this subpart to comply with supervisory actions as if the bank were undercapitalized, significantly undercapitalized, or critically undercapitalized, unless the FDIC notifies the bank in writing that the plan is to be filed within a different period.

(2) Additional capital restoration plans. Notwithstanding paragraph (a)(1) of this section, a bank that has already submitted and is operating under a capital restoration plan approved under section 38 and this subpart is not required to submit an additional capital restoration plan based on a revised calculation of its capital measures or a reclassification of the institution under §325.103 unless the FDIC notifies the bank that it must submit a new or revised capital plan. A bank that is notified that it must submit a new or revised capital restoration plan shall file the plan in writing with the appropriate FDIC regional director within 45 days of receiving such notice, unless the FDIC notifies the bank in writing that the plan must be filed within a different period.

(b) Contents of plan. All financial data submitted in connection with a capital restoration plan shall be prepared in accordance with the instructions provided on the Call Report, unless the FDIC instructs otherwise. The capital restoration plan shall include all of the information required to be filed under section 38(e)(2) of the FDI Act. A bank that is required to submit a capital restoration plan as a result of a reclassification of the bank pursuant to §325.103(d) of this subpart shall include a description of the steps the bank will take to correct the unsafe or unsound condition or practice. No plan shall be accepted unless it includes any performance guarantee described in section 38(e)(2)(C) of the FDI Act by each company that controls the bank.

(c) Review of capital restoration plans. Within 60 days after receiving a capital restoration plan under this subpart, the FDIC shall provide written notice to the bank of whether the plan has been approved. The FDIC may extend the time within which notice regarding approval of a plan shall be provided.

(d) Disapproval of capital plan. If a capital restoration plan is not approved by the FDIC, the bank shall submit a revised capital restoration plan within the time specified by the FDIC. Upon receiving notice that its capital restoration plan has not been approved, any undercapitalized bank (as defined in §325.103(b) of this subpart) shall be subject to all of the provisions of section 38 and this subpart applicable to significantly undercapitalized institutions. These provisions shall be applicable until such time as a new or revised capital restoration plan submitted by the bank has been approved by the FDIC.

(e) Failure to submit capital restoration plan. A bank that is undercapitalized (as defined in §325.103(b) of this subpart) and that fails to submit a written capital restoration plan within the period provided in this section shall, upon the expiration of that period, be subject to all of the provisions of section 38 and this subpart applicable to significantly undercapitalized institutions.

(f) Failure to implement capital restoration plan. Any undercapitalized bank that fails in any material respect to implement a capital restoration plan shall be subject to all of the provisions of section 38 and this subpart applicable to significantly undercapitalized institutions.
(g) Amendment of capital restoration plan. A bank that has filed an approved capital restoration plan may, after prior written notice to and approval by the FDIC, amend the plan to reflect a change in circumstance. Until such time as a proposed amendment has been approved, the bank shall implement the capital restoration plan as approved prior to the proposed amendment.

(h) Performance guarantee by companies that control a bank—(1) Limitation on liability—(i) Amount limitation. The aggregate liability under the guarantee provided under section 38 and this subpart for all companies that control a specific bank that is required to submit a capital restoration plan under this subpart shall be limited to the lesser of:

(A) An amount equal to 5.0 percent of the bank’s total assets at the time the bank was notified or deemed to have notice that the bank was undercapitalized; or

(B) The amount necessary to restore the relevant capital measures of the bank to the levels required for the bank to be classified as adequately capitalized, as those capital measures and levels are defined at the time that the bank initially fails to comply with a capital restoration plan under this subpart shall be limited to the lesser of:

(i) An amount equal to 5.0 percent of the bank’s total assets at the time the bank was notified or deemed to have notice that the bank was undercapitalized; or

(ii) The amount necessary to restore the relevant capital measures of the bank to the levels required for the bank to be classified as adequately capitalized, as those capital measures and levels are defined at the time that the bank initially fails to comply with a capital restoration plan under this subpart.

(ii) Limit on duration. The guarantee and limit of liability under section 38 and this subpart shall expire after the FDIC notifies the bank that it has remained adequately capitalized for each of four consecutive calendar quarters. The expiration or fulfillment by a company of a guarantee of a capital restoration plan shall not limit the liability of the company under any guarantee required or provided in connection with any capital restoration plan filed by the same bank after expiration of the first guarantee.

(iii) Collection on guarantee. Each company that controls a given bank shall be jointly and severally liable for the guarantee for such bank as required under section 38 and this subpart, and the FDIC may require and collect payment of the full amount of that guarantee from any or all of the companies issuing the guarantee.

(2) Failure to provide guarantee. In the event that a bank that is controlled by any company submits a capital restoration plan that does not contain the guarantee required under section 38(e)(2) of the FDI Act, the bank shall, upon submission of the plan, be subject to the provisions of section 38 and this subpart that are applicable to banks that have not submitted an acceptable capital restoration plan.

(3) Failure to perform guarantee. Failure by any company that controls a bank to perform fully its guarantee of any capital plan shall constitute a material failure to implement the plan for purposes of section 38(f) of the FDI Act. Upon such failure, the bank shall be subject to the provisions of section 38 and this subpart that are applicable to banks that have failed in a material respect to implement a capital restoration plan.

§325.105 Mandatory and discretionary supervisory actions under section 38.

(a) Mandatory supervisory actions—(1) Provisions applicable to all banks. All banks are subject to the restrictions contained in section 38(d) of the FDI Act on payment of capital distributions and management fees.

(ii) Limit on duration. The guarantee and limit of liability under section 38 and this subpart shall expire after the FDIC notifies the bank that it has remained adequately capitalized for each of four consecutive calendar quarters. The expiration or fulfillment by a company of a guarantee of a capital restoration plan shall not limit the liability of the company under any guarantee required or provided in connection with any capital restoration plan filed by the same bank after expiration of the first guarantee.

(ii) Collection on guarantee. Each company that controls a given bank shall be jointly and severally liable for the guarantee for such bank as required under section 38 and this subpart, and the FDIC may require and collect payment of the full amount of that guarantee from any or all of the companies issuing the guarantee.

(2) Failure to provide guarantee. In the event that a bank that is controlled by any company submits a capital restoration plan that does not contain the guarantee required under section 38(e)(2) of the FDI Act, the bank shall, upon submission of the plan, be subject to the provisions of section 38 and this subpart that are applicable to banks that have not submitted an acceptable capital restoration plan.

(3) Failure to perform guarantee. Failure by any company that controls a bank to perform fully its guarantee of any capital plan shall constitute a material failure to implement the plan for purposes of section 38(f) of the FDI Act. Upon such failure, the bank shall be subject to the provisions of section 38 and this subpart that are applicable to banks that have failed in a material respect to implement a capital restoration plan.

§325.105 Mandatory and discretionary supervisory actions under section 38.

(a) Mandatory supervisory actions—(1) Provisions applicable to all banks. All banks are subject to the restrictions contained in section 38(d) of the FDI Act on payment of capital distributions and management fees.
(3) Additional provisions applicable to significantly undercapitalized, and critically undercapitalized banks. In addition to the provisions of section 38 of the FDI Act described in paragraph (a)(2) of this section, immediately upon receiving notice or being deemed to have notice, as provided in §325.102 of this subpart, that the bank is significantly undercapitalized, or critically undercapitalized, or that the bank is subject to the provisions applicable to institutions that are significantly undercapitalized because the bank failed to submit or implement in any material respect an acceptable capital restoration plan, the bank shall become subject to the provisions of section 38 of the FDI Act that restrict compensation paid to senior executive officers of the institution (section 38(f)(4)).

(4) Additional provisions applicable to critically undercapitalized institutions. (i) In addition to the provisions of section 38 of the FDI Act described in paragraphs (a)(2) and (a)(3) of this section, immediately upon receiving notice or being deemed to have notice, as provided in §325.102 of this subpart, that the insured depository institution is critically undercapitalized, the institution is prohibited from doing any of the following without the FDIC’s prior written approval:

(A) Entering into any material transaction other than in the usual course of business, including any investment, expansion, acquisition, sale of assets, or other similar action with respect to which the depository institution is required to provide notice to the appropriate Federal banking agency;

(B) Extending credit for any highly leveraged transaction;

(C) Amending the institution’s charter or bylaws, except to the extent necessary to carry out any other requirement of any law, regulation, or order;

(D) Making any material change in accounting methods;

(E) Engaging in any covered transaction (as defined in section 23A(b) of the Federal Reserve Act (12 U.S.C. 371c(b)));

(F) Paying excessive compensation or bonuses;

(G) Paying interest on new or renewed liabilities at a rate that would increase the institution’s weighted average cost of funds to a level significantly exceeding the prevailing rates of interest on insured deposits in the institution’s normal market areas; and

(H) Making any principal or interest payment on subordinated debt beginning 60 days after becoming critically undercapitalized except that this restriction shall not apply, until July 15, 1996, with respect to any subordinated debt outstanding on July 15, 1991, and not extended or otherwise renegotiated after July 15, 1991.

(ii) In addition, the FDIC may further restrict the activities of any critically undercapitalized institution to carry out the purposes of section 38 of the FDI Act.

(5) Exception for certain savings associations. The restrictions in paragraph (a)(4) of this section shall not apply, before July 1, 1994, to any insured savings association if:

(ii) The Director of OTS had accepted the plan prior to December 19, 1991; and

(iii) The savings association remains in compliance with the plan or is operating under a written agreement with the appropriate federal banking agency.

(b) Discretionary supervisory actions. In taking any action under section 38 that is within the FDIC’s discretion to take in connection with:

(1) An insured depository institution that is deemed to be undercapitalized, significantly undercapitalized, or critically undercapitalized, or has been reclassified as undercapitalized, or significantly undercapitalized;

(2) An officer or director of such institution, the FDIC shall follow the procedures for issuing directives under §§308.201 and 308.203 of this chapter, unless otherwise provided in section 38 or this subpart.

Subpart C—Annual Stress Test

SOURCE: 77 FR 62424, Oct. 15, 2012, unless otherwise noted.
§ 325.201 Authority, purpose, and reservation of authority.

(b) Purpose. This subpart implements 12 U.S.C. 5365(i)(2), which requires the Corporation (in coordination with the Board of Governors of the Federal Reserve System (“Board”) and the Federal Insurance Office) to issue regulations that require each covered bank to conduct annual stress tests and establishes a definition of stress test, methodologies for conducting stress tests, and reporting and disclosure requirements.

(c) Reservation of authority. Notwithstanding any other provisions of this subpart, the Corporation may modify some or all of the requirements of this subpart.

(1) The Corporation may accelerate or extend any deadline for stress testing, reporting, or publication of the stress test results.

(2) The Corporation may require different or additional tests not otherwise required by this subpart or may require or permit different or additional analytical techniques and methodologies, different or additional scenarios (including components for the scenarios), or different assumptions for the covered bank to use in meeting the requirements of this subpart. In addition, the FDIC may specify a different as-of date for any or all categories of financial data used by the stress test.

(3) The Corporation may modify the reporting requirements of a report under this subpart or may require additional reports. The Corporation may modify the publication requirements of this subpart and or may require different or additional publication disclosures.

(4) Factors considered: Any exercise of authority under this section by the Corporation will be in writing and will consider the activities, level of complexity, risk profile, scope of operations, and the regulatory capital of the covered bank, in addition to any other relevant factors.

(5) Notice and comment procedures: In exercising its authority to require different or additional stress tests and different or additional scenarios (including components for the scenarios) under paragraph (c)(2) of this section, the Corporation will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 325.6, as appropriate.

(6) Nothing in this subpart limits the authority of the Corporation under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe and unsound practices or conditions, or violations of law or regulation.

§ 325.202 Definitions.

For purposes of this subpart—

(a) Adverse scenario means a set of conditions that affect the U.S. economy or the financial condition of a covered bank that are more adverse than those associated with the baseline scenario and may include trading or other additional components.

(b) Average total consolidated assets means the average of the covered bank’s total consolidated assets, as reported on the covered bank’s Consolidated Report of Condition and Income (Call Report) for the four most recent consecutive quarters. If the covered bank has not filed a Call Report for each of the four most recent consecutive quarters, the covered bank’s average total consolidated assets means the average of the covered bank’s total consolidated assets, as reported on the covered bank’s Call Reports, for the most recent one or more consecutive quarters. The date on which the state nonmember bank or the state savings association becomes a covered bank will be the as-of date of the most recent Call Report used in the calculation of the average.

(c) Baseline scenario means a set of conditions that affect the U.S. economy or the financial condition of a covered bank, and that reflect the consensus views of the economic and financial outlook.

(d) Covered bank means any state nonmember bank or state savings association subject to the following categories:
§ 325.203 Applicability.

(a) First stress test for covered banks subject to stress testing requirements as of October 15, 2012. (1) A $10 billion to $50 billion covered bank as of October 15, 2012 must conduct its first stress test under this subpart using financial statement data as of September 30, 2012, and report the results of its stress test on or before January 5, 2013.

(b)(1) A $10 billion to $50 billion covered bank that is subject to its first annual stress test pursuant to section 203(a)(1) of this subpart must make its initial public disclosure in the period starting June 15 and ending June 30 of 2013 by disclosing the results of a stress test conducted in 2012, using financial statement data as of September 30, 2012.

(c) A state nonmember bank or state savings association that is an over $50 billion covered bank as of October 15, 2012, must conduct its first stress test under this subpart using financial statement data as of September 30, 2012, and report the results of its stress test on or before January 5, 2013.

(d) A state nonmember bank or state savings association that becomes a covered bank after October 15, 2012 and on or before March 31, 2014 shall conduct its first annual stress test under this subpart beginning in the next calendar year after the date the state nonmember bank or state savings association becomes a covered bank.

(e) A state nonmember bank or state savings association that becomes a covered bank after March 31, 2014 and on or before March 31, 2015 shall conduct its first annual stress test under this subpart in the January 1, 2016 stress testing cycle.
Federal Deposit Insurance Corporation

§ 325.204

(3) A state nonmember bank or state savings association that becomes a covered bank on or before March 31 in years following 2015 shall conduct its first annual stress test under this subpart in the stress testing cycle in the next calendar year after the date the state nonmember bank or state savings association becomes a covered bank. A state nonmember bank or state savings association that becomes a covered bank after March 31 in years following 2015 shall conduct its first annual stress test under this subpart in the next calendar year after the date the state nonmember bank or state savings association becomes a covered bank.

(c) Ceasing to be a covered bank or changing categories. (1) A covered bank will remain subject to the stress test requirements based on its applicable category unless and until total consolidated assets of the covered bank falls below the relevant size threshold for each of four consecutive quarters as reported on the covered bank’s most recent Call Reports. The calculation will be effective on the as-of date of the fourth consecutive Call Report.

(2) Notwithstanding paragraph (c)(1) of this section, a state nonmember bank or state savings association that migrates from a $10 billion to $50 billion covered bank to an over $50 billion covered bank will be subject to the stress test requirements applicable to an over $50 billion covered bank immediately as of the date the state nonmember bank or state savings association satisfies the size threshold for an over $50 billion covered bank.

(d) Covered bank subsidiaries of a bank holding company or savings and loan holding company subject to annual stress test requirements. (1) Notwithstanding the requirements applicable to covered banks under this section, a covered bank that is a consolidated subsidiary of a bank holding company or savings and loan holding company that is required to conduct an annual company-run stress test under applicable regulations of the Board of Governors of the Federal Reserve System may elect to conduct its stress test and report to the FDIC on the same timeline as its parent bank holding company or savings and loan holding company.

(2) A covered bank that elects to conduct its stress test under paragraph (d)(1) of this section will remain subject to the same timeline requirements of its parent company until otherwise approved by the FDIC.

§ 325.204 Annual stress tests required.

(a) General requirements—(1) $10 billion to $50 billion covered bank. Prior to January 1, 2016, a $10 billion to $50 billion covered bank must conduct a stress test on or before March 31 of each calendar year based on financial data as of September 30 of the preceding calendar year. Beginning January 1, 2016, a $10 billion to $50 billion covered bank must conduct a stress test on or before July 31 of each calendar year based on financial data as of December 31 of the preceding calendar year.

(2) Over $50 billion covered bank. Prior to January 1, 2016, an over $50 billion covered bank must conduct a stress test on or before January 5 of each calendar year based on financial data as of September 30 of the preceding calendar year. Beginning January 1, 2016, an over $50 billion covered bank must conduct a stress test on or before April 5 of each calendar year based on financial data as of December 31 of the preceding calendar year.

(b) Scenarios provided by the Corporation. In conducting the stress test under this subpart, each covered bank must use the scenarios provided by the Corporation. The scenarios provided by the Corporation will reflect a minimum of three sets of economic and financial conditions, including baseline, adverse, and severely adverse scenarios. The Corporation will provide a description of the scenarios required under this section to each covered bank no later than November 15 (for stress test cycle beginning October 1, 2014) or February 15 (for stress test cycle beginning January 1, 2016, and all stress test cycles thereafter) of that calendar year.

(c) Significant trading activities. The Corporation may require a covered bank with significant trading activities, as determined by the Corporation, to include trading and counterparty components in its adverse and severely
§ 325.205 Methodologies and practices.

(a) Potential impact on capital. In conducting a stress test under this subpart, during each quarter of the planning horizon, each covered bank must estimate the following for each scenario required to be used:

(1) Pre-provision net revenues, losses, loan loss provisions and net income; and

(2) The potential impact on the regulatory capital levels and ratios applicable to the covered bank, and any other capital ratios specified by the Corporation, incorporating the effects of any capital action over the planning horizon and maintenance of an allowance for loan losses appropriate for credit exposures throughout the planning horizon.

(b) Controls and oversight of stress testing processes. (1) The senior management of a covered bank must establish and maintain a system of controls, oversight, and documentation, including policies and procedures, that are designed to ensure that its stress test processes satisfy the requirements in this subpart. These policies and procedures must, at a minimum, describe the covered bank’s stress test practices and methodologies, and processes for validating and updating the covered bank’s stress test practices and methodologies consistent with applicable laws, regulations, and supervisory guidance.

(2) The board of directors, or a committee thereof, of a covered bank must approve and review the policies and procedures of the stress testing processes as frequently as economic conditions or the condition of the covered bank may warrant, but no less than annually. The board of directors and senior management of the covered bank must receive a summary of the results of the stress test.

(3) The board of directors and senior management of each covered bank must consider the results of the stress tests in the normal course of business, including but not limited to, the covered bank’s capital planning, assessment of capital adequacy, and risk management practices.

§ 325.206 Required reports of stress test results to the FDIC and the Board of Governors of the Federal Reserve System.

(a) Report required for annual stress test results—(1) $10 billion to $50 billion covered bank. Prior to January 1, 2016, a $10 billion to $50 billion covered bank must report to the FDIC and to the Board on or before March 31 the results of the stress test in the manner and form specified by the FDIC. Beginning January 1, 2016, a $10 billion to $50 billion covered bank must report to the FDIC and to the Board on or before July 31 the results of the stress test.

(2) Over $50 billion covered bank. Prior to January 1, 2016, an over $50 billion covered bank must report to the FDIC and to the Board, on or before January 5, the results of the stress test in the manner and form specified by the FDIC. Beginning January 1, 2016, an over $50 billion covered bank must report to the FDIC and to the Board, on or before April 5, the results of the stress test.

(b) Content of reports. (1) The reports required under paragraph (a) of this section must include under the baseline scenario, adverse scenario, severely adverse scenario and any other scenario required by the Corporation under this subpart, a description of the types of risks being included in the stress test, a summary description of the methodologies used in the stress test, and, for each quarter of the planning horizon, estimates of aggregate...
§ 325.207 Publication of stress test results.

(a) Publication date—(1) $10 billion to $50 billion covered bank. (i) Prior to January 1, 2016, a $10 billion to $50 billion covered bank must publish a summary of the results of its annual stress test in the period starting June 15 and ending June 30 (for the stress test cycle beginning October 1, 2014).

(ii) Beginning January 1, 2016, a $10 billion to $50 billion covered bank must publish a summary of the results of its annual stress test in the period starting October 15 and ending October 31 (for the stress test cycle beginning January 1, 2016 and for all stress test cycles thereafter).

(b) Over $50 billion covered bank. (i) Prior to January 1, 2016, an over $50 billion covered bank must publish a summary of the results of its annual stress tests in the period starting March 15 and ending March 31 (for the stress test cycle beginning October 1, 2014).

(ii) Beginning January 1, 2016, an over $50 billion covered bank must publish a summary of the results of its annual stress tests in the period starting June 15 and ending July 15 (for the stress test cycle beginning January 1, 2016, and for all stress test cycles thereafter) provided:

(A) Unless the Corporation determines otherwise, if the over $50 billion covered bank is a consolidated subsidiary of a bank holding company or savings and loan holding company subject to supervisory stress tests conducted by the Board of Governors of the Federal Reserve System under 12 CFR part 252, then, within the June 15 to July 15 period, such covered bank may not publish the required summary of its annual stress test earlier than the date that the Board of Governors of the Federal Reserve System publishes the supervisory stress test results of the covered bank’s parent holding company.

(B) If the Board of Governors of the Federal Reserve System publishes the supervisory stress test results of the covered bank’s parent holding company prior to June 15, then such covered bank may publish its stress test results prior to June 15, but no later than July 15, through actual publication by the covered bank or through publication by the parent holding company under paragraph (b) of this section.

(b) Publication method. The summary required under this section may be published on the covered bank’s Web site or in any other forum that is reasonably accessible to the public. A covered bank that is a consolidated subsidiary of a bank holding company or savings and loan holding company that is required to conduct an annual company-run stress test under applicable regulations of the Board of Governors of the Federal Reserve System will be deemed to have satisfied the public disclosure requirements under this subpart if it publishes a summary of its stress test results with its parent bank holding company’s or savings and loan holding company’s summary of stress test results. Subsidiary covered banks electing to satisfy their public disclosure requirement in this manner must include a summary of changes in regulatory capital ratios of such covered
bank over the planning horizon, and an explanation of the most significant causes for the changes in regulatory capital ratios.

(c) Information to be disclosed in the summary. A covered bank must disclose the following information regarding the severely adverse scenario if it is not a consolidated subsidiary of a parent bank holding company or savings and loan holding company that has elected to make its disclosure under section 203(d):

(1) A description of the types of risks included in the stress test;
(2) A summary description of the methodologies used in the stress test;
(3) Estimates of aggregate losses, pre-provision net revenue, provision for loan and lease losses, net income, and pro forma capital ratios (including regulatory and any other capital ratios specified by the FDIC); and
(4) An explanation of the most significant causes for the changes in the regulatory capital ratios.

(d) Content of results. (1) The disclosure of aggregate losses, pre-provision net revenue, provisions for loan and lease losses, and net income under this section must be on a cumulative basis over the planning horizon.
(2) The disclosure of regulatory capital ratios and any other capital ratios specified by the Corporation under this section must include the beginning value, ending value, and minimum value of each ratio over the planning horizon.

APPENDIX A TO PART 325—STATEMENT OF POLICY ON RISK-BASED CAPITAL

Capital adequacy is one of the critical factors that the FDIC is required to analyze when taking action on various types of applications and when conducting supervisory activities related to the safety and soundness of individual banks and the banking system. In view of this, the FDIC’s Board of Directors has adopted part 325 of its regulations, which sets forth (1) minimum standards of capital adequacy for insured state nonmember banks and (2) standards for determining when an insured bank is in an unsafe or unsound condition by reason of the amount of its capital.

This capital maintenance regulation was designed to establish, in conjunction with other Federal bank regulatory agencies, uniform capital standards for all federally-regulated banking organizations, regardless of size. The uniform capital standards were based on ratios of capital to total assets. While these leverage ratios have served as a useful tool for assessing capital adequacy, the FDIC believes there is a need for a capital measure that is more explicitly and systematically sensitive to the risk profiles of individual banks. As a result, the FDIC’s Board of Directors has adopted this Statement of Policy on Risk-Based Capital to supplement the part 325 regulation. This statement of policy does not replace or eliminate the existing part 325 capital-to-total assets leverage ratios.

The framework set forth in this statement of policy consists of (1) a definition of capital for risk-based capital purposes, and (2) a system for calculating risk-weighted assets by assigning assets and off balance sheet items to broad risk categories. A bank's risk-based capital ratio is calculated by dividing its qualifying total capital base (the numerator of the ratio) by its risk-weighted assets (the denominator).\(^1\) Table I outlines the definition of capital and provides a general explanation of how the risk-based capital ratio is calculated. Table II summarizes the risk weights and risk categories, and Table III sets forth the credit conversion factors for off-balance sheet items. Additional explanations of the capital definitions, the risk-weighted asset calculations, and the minimum risk-based capital ratio guidelines are provided in Sections I, II and III of this statement of policy.

In addition, when certain banks that engage in trading activities calculate their risk-based capital ratio under this appendix A, they must also refer to appendix C of this part, which incorporates capital charges for certain market risks into the risk-based capital ratio. When calculating their risk-based capital ratio under this appendix A, such banks are required to refer to appendix C of this part for supplemental rules to determine qualifying and excess capital, calculate risk-weighted assets, calculate market risk equivalent assets and add them to risk-weighted assets, and calculate risk-based capital ratios as adjusted for market risk.

This statement of policy applies to all FDIC-insured state-chartered banks (excluding insured branches of foreign banks) that are not members of the Federal Reserve System, hereafter referred to as state nonmember banks.
banks, regardless of size, and to all circumstances in which the FDIC is required to evaluate the capital of a banking organization. Therefore, the risk-based capital framework set forth in this statement of policy will be used in the examination and supervisory process as well as in the analysis of applications that the FDIC is required to act upon.

The risk-based capital ratio focuses principally on broad categories of credit risk, however, the ratio does not take account of many other factors that can affect a bank’s financial condition. These factors include overall interest rate risk exposure, liquidity, funding and market risks; the quality and level of earnings; investment, loan portfolio, and other concentrations of credit risk, certain risks arising from nontraditional activities; the quality of loans and investments; the effectiveness of loan and investment policies; and management’s overall ability to monitor and control financial and operating risks, including the risk presented by concentrations of credit and nontraditional activities. In addition to evaluating capital ratios, an overall assessment of capital adequacy must take account of each of these other factors, including, in particular, the level and severity of problem and adversely classified assets as well as a bank’s interest rate risk as measured by the bank’s exposure to declines in the economic value of its capital due to changes in interest rates. For this reason, the final supervisory judgment on a bank’s capital adequacy may differ significantly from the conclusions that might be drawn solely from the absolute level of the bank’s risk-based capital ratio.

In light of these other considerations, banks generally are expected to operate above the minimum risk-based capital ratio. Banks contemplating significant expansion plans, as well as those institutions with high or inordinate levels of risk, should hold capital commensurate with the level and nature of the risks to which they are exposed.

I. DEFINITION OF CAPITAL FOR THE RISK-BASED CAPITAL RATIO

A bank’s qualifying total capital base consists of two types of capital elements: core capital elements (Tier 1) and supplementary capital elements (Tier 2). To qualify as an element of Tier 1 or Tier 2 capital, a capital instrument should not contain or be subject to any conditions, covenants, terms, restrictions, or provisions that are inconsistent with safe and sound banking practices.

A. The Components of Qualifying Capital (see Table I)

1. Core capital elements (Tier 1) consists of:
   i. Common stockholders’ equity capital (includes common stock and related surplus, undivided profits, disclosed capital reserves that represent a segregation of undivided profits, and foreign currency translation adjustments, less net unrealized holding losses on available-for-sale equity securities with readily determinable fair values);
   ii. Noncumulative perpetual preferred stock, including any related surplus; and
   iii. Minority interests in the equity capital accounts of consolidated subsidiaries.

   (a) At least 50 percent of the qualifying total capital base should consist of Tier 1 capital. Core (Tier 1) capital is defined as the sum of core capital elements minus all intangible assets (other than mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships eligible for inclusion in core capital pursuant to §325.5(f)), minus credit-enhancing interest-only strips that are not eligible for inclusion in core capital pursuant to §325.5(f), minus any disallowed tax assets, and minus any amount of nonfinancial equity investments required to be deducted pursuant to section II.B.(6) of this Appendix.

   (b) Although nonvoting common stock, noncumulative perpetual preferred stock, and minority interests in the equity capital accounts of consolidated subsidiaries are normally included in Tier 1 capital, voting common stockholders’ equity generally will be expected to be the dominant form of Tier 1 capital. Thus, banks should avoid undue reliance on nonvoting equity, preferred stock and minority interests.

   (c) Although minority interests in consolidated subsidiaries are generally included in regulatory capital, exceptions to this general rule will be made if the minority interests fail to provide meaningful capital support to the consolidated bank. Such a situation could arise if the minority interests are entitled to a preferred claim on essentially low risk assets of the subsidiary. Similarly, although credit-enhancing interest-only strips and intangible assets in the form of mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships are generally recognized for risk-based capital purposes, the deduction of part or all of the credit-enhancing interest-only strips,

2 Preferred stock issues where the dividend is reset periodically, based, in whole or in part, upon the bank’s current credit standing, including but not limited to, auction rate, money market or remarketable preferred stock, are assigned to Tier 2 capital, regardless of whether the dividends are cumulative or noncumulative.

3 An exception is allowed for intangible assets that are explicitly approved by the FDIC as part of the bank’s regulatory capital on a specific case basis. These intangibles will be included in capital for risk-based capital purposes under the terms and conditions that are specifically approved by the FDIC.
mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships may be required if the carrying amounts of these assets are excessive in relation to their market value or the level of the bank's capital accounts. Credit-enhancing interest-only strips, mortgage servicing assets, nonmortgage servicing assets, purchased credit card relationships and deferred tax assets that do not meet the conditions, limitations and restrictions described in §325.5(f) and (g) of this part will not be recognized for risk-based capital purposes.

(d) Minority interests in small business investment companies, investment funds that hold nonfinancial equity investments (as defined in section II.B.(6)(ii) of this appendix A), and subsidiaries that are engaged in non-financial activities are not included in the bank's Tier 1 or total capital base if the bank's interest in the company or fund is held under one of the legal authorities listed in section II.B.(6)(ii) of this appendix A.

2. Supplementary capital elements (Tier 2) consist of:

i. Allowance for loan and lease losses, up to a maximum of 1.25 percent of risk-weighted assets;

ii. Cumulative perpetual preferred stock, long-term preferred stock (original maturity of at least 20 years), and any related surplus;

iii. Perpetual preferred stock (and any related surplus) where the dividend is reset periodically based, in whole or part, on the bank's current credit standing, regardless of whether the dividends are cumulative or noncumulative;

iv. Hybrid capital instruments, including mandatory convertible debt securities;

v. Term subordinated debt and intermediate-term preferred stock (original average maturity of five years or more) and any related surplus; and

vi. Net unrealized holding gains on equity securities (subject to the limitations discussed in paragraph I.A.2.(f) of this section).

The maximum amount of Tier 2 capital that may be recognized for risk-based capital purposes is limited to 100 percent of Tier 1 capital (after any deductions for disallowed intangibles and disallowed deferred tax assets). In addition, the combined amount of term subordinated debt and intermediate-term preferred stock that may be treated as part of Tier 2 capital for risk-based capital purposes is limited to 50 percent of Tier 1 capital. Amounts in excess of these limits may be issued but are not included in the calculation of the risk-based capital ratio.

(a) Allowance for loan and lease losses. Allowances for loan and lease losses are reserves that have been established through a charge against earnings to absorb future losses on loans or lease financing receivables. Allowances for loan and lease losses exclude allocated transfer risk reserves, and reserves created against identified losses.

This risk-based capital framework provides a phasedown during the transition period of the extent to which the allowance for loan and lease losses may be included in an institution's capital base. By year-end 1990, the allowance for loan and lease losses, as an element of supplementary capital, may constitute no more than 15 percent of risk-weighted assets and, by year-end 1992, no more than 1.25 percent of risk-weighted assets.

(b) Preferred stock. Perpetual preferred stock is defined as preferred stock that does not have a maturity date, that cannot be redeemed at the option of the holder, and that has no other provisions that will require future redemption of the issue. Long-term preferred stock includes limited-life preferred stock with an original maturity of 20 years or more, provided that the stock cannot be redeemed at the option of the holder prior to maturity, except with the prior approval of the FDIC.

Cumulative perpetual preferred stock and long-term preferred stock qualify for inclusion in supplementary capital provided that the instruments can absorb losses while the issuer operates as a going concern (a fundamental characteristic of equity capital) and provided the issuer has the option to defer payment of dividends on these instruments. Given these conditions, and the perpetual or long-term nature of the instruments, there is no limit on the amount of these preferred stock instruments that may be included with Tier 2 capital.

Noncumulative perpetual preferred stock where the dividend is reset periodically based, in whole or in part, on the bank's current credit standing, including auction rate, money market, or remarketable preferred stock, are also assigned to Tier 2 capital without limit, provided the above conditions are met.

1Allocated transfer risk reserves are reserves that have been established in accordance with section 905(a) of the International Lending Supervision Act of 1983 against certain assets whose value has been found by the U.S. supervisory authorities to have been significantly impaired by protracted transfer risk problems.

2The amount of the allowance for loan and lease losses that may be included as a supplementary capital element is based on a percentage of gross risk-weighted assets. A bank may deduct reserves for loan and lease losses that are in excess of the amount permitted to be included in capital, as well as allocated transfer risk reserves, from gross risk-weighted assets when computing the denominator of the risk-based capital ratio.
(c) Hybrid capital instruments. Hybrid capital instruments include instruments that have certain characteristics of both debt and equity. In order to be included as supplementary capital elements, these instruments should meet the following criteria:

1. The instrument should be unsecured, subordinated to the claims of depositors and general creditors, and fully paid-up.

2. The instrument should not be redeemable at the option of the holder prior to maturity, except with the prior approval of the FDIC. This requirement implies that holders of such instruments may not accelerate the payment of principal except in the event of bankruptcy, insolvency, or reorganization.

3. The instrument should be available to participate in losses while the issuer is operating as a going concern. (Term subordinated debt would not meet this requirement.) To satisfy this requirement, the instrument should convert to common or perpetual preferred stock in the event that the sum of the undivided profits and capital surplus accounts of the issuer results in a negative balance.

4. The instrument should provide the option for the issuer to defer principal and interest payments if: (a) The issuer does not report a profit in the preceding annual period, defined as combined profits (i.e., net income) for the most recent four quarters, and (b) the issuer eliminates cash dividends on its common and preferred stock.

Mandatory convertible debt securities, which are subordinated debt instruments that require the issuer to convert such instruments into common or perpetual preferred stock by a date at or before the maturity of the debt instruments, will qualify as hybrid capital instruments provided the maturity of these instruments is 12 years or less and the instruments meet the criteria set forth below for “term subordinated debt.” There is no limit on the amount of hybrid capital instruments that may be included within Tier 2 capital.

(d) Term subordinated debt and intermediate-term preferred stock. The aggregate amount of term subordinated debt (excluding mandatory convertible debt securities) and intermediate-term preferred stock (including any related surplus) that may be treated as Tier 2 capital for risk-based capital purposes is limited to 50 percent of Tier 1 capital. Term subordinated debt and intermediate-term preferred stock should have an original average maturity of at least five years to qualify as supplementary capital and should not be redeemable at the option of the holder prior to maturity, except with the prior approval of the FDIC. For state nonmember banks, a term subordinated debt instrument is an obligation other than a deposit obligation that:

1. Bears on its face, in boldface type, the following: ‘‘This obligation is not a deposit and is not insured by the Federal Deposit Insurance Corporation;’’

2. Has a maturity of at least five years; or

3. In the case of an obligation or issue that provides for scheduled repayments of principal, has an average maturity of at least five years; provided that the Director of the Division of Supervision and Consumer Protection (DSC) may permit the issuance of an obligation or issue with a shorter maturity or average maturity if the Director has determined that exigent circumstances require the issuance of such obligation or issue; provided further that the provisions of this paragraph I.A.2.(d)(2) shall not apply to mandatory convertible debt obligations or issues;

4. States express that the obligation:

   (i) Is subordinated and junior in right of payment to the issuing bank’s obligations to its depositors and to the bank’s other obligations to its general and secured creditors; and

   (ii) Is ineligible as collateral for a loan by the issuing bank;

5. Is unsecured; and

6. Includes, if the obligation is issued to a depository institution, a specific waiver of the right of offset by the lending depository institution.

Subordinated debt obligations issued prior to December 2, 1987 that satisfied the definition of the term “subordinated note and debenture” that was in effect prior to that date also will be deemed to be term subordinated debt for risk-based capital purposes. An optional redemption (“call”) provision in a subordinated debt instrument that is exercisable by the issuing bank in less than five years will not be deemed to constitute a maturity of less than five years, provided that the obligation otherwise has a stated contractual maturity of at least five years; the call is exercisable solely at the discretion or option of the issuing bank, and not at the discretion or option of the holder of the obligation; and the call is exercisable only with the express prior written consent of the FDIC under 12 U.S.C. 1828(i)(1) at the time early redemption or retirement is sought, and such consent has not been given in advance at the time of issuance of the obligation. Optional redemption provisions will be accorded similar treatment when determining the perpetual nature and/or maturity of preferred stock and other capital instruments.

(e) Discount of limited-life supplementary capital instruments. As a limited-life capital instrument approaches maturity, the instrument begins to take on characteristics of a short-term obligation and becomes less like
a component of capital. Therefore, for risk-based capital purposes, the outstanding amount of term subordinated debt and limited-life preferred stock eligible for inclusion in capital will be adjusted downward, or discounted, as the instruments approach maturity. Each limited-life capital instrument will be discounted by reducing the outstanding amount of the capital instrument eligible for inclusion as supplementary capital by a fifth of the original amount (less redemptions) each year during the instrument’s last five years before maturity. Such instruments, therefore, will have no capital value when they have a remaining maturity of less than a year.

(1) Unrealized gains on equity securities and unrealized gains (losses) on other assets. Up to 45 percent of pretax net unrealized holding gains (losses), if any, of the fair value over historical cost, on available-for-sale equity securities with readily determinable fair values may be included in supplementary capital. However, the FDIC may exclude all or a portion of these unrealized gains from Tier 2 capital if the FDIC determines that the equity securities are not prudently valued. Unrealized gains (losses) on other types of assets, such as bank premises and available-for-sale debt securities, are not included in supplementary capital, but the FDIC may take these unrealized gains (losses) into account as additional factors when assessing a bank’s overall capital adequacy.

B. Deductions from Capital and Other Adjustments

Certain assets are deducted from a bank’s capital base for the purpose of calculating the numerator of the risk-based capital ratio. These assets include:

(1) All intangible assets other than mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships. These disallowed intangibles are depreciated from the core capital (Tier 1) elements.

(2) Investments in unconsolidated banking and finance subsidiaries. This includes any equity or debt capital investments in banking or finance subsidiaries if the subsidiaries are not consolidated for regulatory capital purposes. Generally, these investments include equity and debt capital securities of less than a year.

6 Any assets deducted from capital when computing the numerator of the risk-based capital ratio will also be excluded from risk-weighted assets when computing the denominator of the ratio.

In addition to mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships, certain other intangibles may be allowed if explicitly approved by the FDIC as part of the bank’s regulatory capital on a specific case basis. In evaluating whether other types of intangibles should be recognized for regulatory capital purposes, the FDIC will accord special attention to the general characteristics of the intangibles, including: (1) The separability of the intangible asset and the ability to sell it separate and apart from the bank or the bulk of the bank’s assets, (2) the certainty that a readily identifiable stream of cash flows associated with the intangible asset can hold its value notwithstanding the future prospects of the bank, and (3) the existence of a market of sufficient depth to provide liquidity for the intangible asset.

4 For risk-based capital purposes, these subsidiaries are generally defined as any company that is primarily engaged in banking or finance and in which the bank, either directly or indirectly, owns more than 50 percent of the outstanding voting stock but does not consolidate the company for regulatory capital purposes.

9 Consolidation requirements for regulatory capital purposes generally follow the consolidation requirements set forth in the instructions for the preparation of the Consolidated Reports of Condition and Income. However, although investments in subsidiaries representing majority ownership in another Federally-insured depository institution are not consolidated for purposes of the consolidated Reports of Condition and Income that are filed by the parent bank, they are generally consolidated for purposes of determining FDIC regulatory capital requirements. Therefore, investments in these depository institution subsidiaries generally will not be deducted for risk-based capital purposes; rather, assets and liabilities of such subsidiaries will be consolidated with those of the parent bank when calculating the risk-based capital ratio. In addition, although securities subsidiaries established pursuant to 12 CFR 337.4 are consolidated for Report of Condition and Income purposes, they are not consolidated for regulatory capital purposes.
and any other instruments or commitments that are deemed to be capital of the subsidiary. These investments are deducted from the bank’s total (Tier 1 plus Tier 2) capital base.

(3) Investments in securities subsidiaries established pursuant to 12 CFR 337.4. The FDIC may also consider deducting investments in other subsidiaries, either on a case-by-case basis or, as with securities subsidiaries, based on the general characteristics or functional nature of the subsidiaries.

(4) Reciprocal holdings of capital instruments of banks that represent intentional cross-holdings by the banks. These holdings are deducted from the bank’s total capital base.

(5) Deferred tax assets in excess of the limit set forth in §325.5(g). These disallowed deferred tax assets are deducted from the core capital (Tier 1) elements.

On a case-by-case basis, and in conjunction with supervisory examinations, other deductions from capital may also be required, including any adjustments deemed appropriate for assets classified as loss.

II. PROCEDURES FOR COMPUTING RISK-WEIGHTED ASSETS

A. General Procedures

1. Under the risk-based capital framework, a bank’s balance sheet assets and credit equivalent amounts of off-balance sheet items are assigned to one of four broad risk categories according to the obligor or, if relevant, the nature of the collateral. The aggregate dollar amount in each category is then multiplied by the risk weight assigned to that category. The resulting weighted values from each of the four risk categories are added together and this sum is the risk-weighted assets total that, as adjusted, comprises the denominator of the risk-based capital ratio.

2. The risk-weighted amounts for all off-balance sheet items are determined by a two-step process. First, the notional principal or face value, amount of each off-balance sheet item generally is multiplied by a credit conversion factor to arrive at a balance sheet credit equivalent amount. Second, the credit equivalent amount generally is assigned to the appropriate risk category, like any balance sheet asset, according to the obligor or, if relevant, the guarantor or the nature of the collateral.

3. The Director of the Division of Supervision and Consumer Protection (DSC) may, on a case-by-case basis, determine the appropriate risk weight for any asset or credit equivalent amount that does not fit wholly within one of the risk categories set forth in this Appendix A or that imposes risks on a bank that are not commensurate with the risk weight otherwise specified in this Appendix A for the asset or credit equivalent amount. In addition, the Director of the Division of Supervision and Consumer Protection (DSC) may, on a case-by-case basis, determine the appropriate credit conversion factor for any off-balance sheet item that does not fit wholly within one of the credit conversion factors set forth in this Appendix A or that imposes risks on a bank that are not commensurate with the credit conversion factor otherwise specified in this Appendix A for the off-balance sheet item. In making such a determination, the Director of the Division of Supervision and Consumer Protection (DSC) will consider the similarity of the asset or off-balance sheet item to assets or off-balance sheet items explicitly treated in sections II.B and II.C of this appendix A, as well as other relevant factors.

4. The Director of the Division of Supervision and Consumer Protection (DSC) may, on a case-by-case basis, determine that the regulatory capital treatment for an exposure or other relationship to an entity that is not subject to consolidation on the balance sheet is not commensurate with the risk of the exposure and the relationship of the bank to the entity. In making this determination, the Director of DSC may require the bank to treat the entity as if it were consolidated on the balance sheet for risk-based capital purposes and calculate the appropriate risk-based capital ratios accordingly.

Section II.A.5 of this appendix provides optional transition provisions for a State non-member bank that is required for financial and regulatory reporting purposes, as a result of its implementation of Statement of Financial Accounting Standards No. 167, Amendments to FASB Interpretation No. 46(R) (FAS 167), to consolidate certain variable interest entities (VIEs) as defined under United States generally accepted accounting principles (GAAP). These transition provisions apply through the end of the fourth quarter following the date of a bank’s implementation of FAS 167 (implementation date).

1. Exclusion period.

(a) Exclusion of risk-weighted assets for the first and second quarters. For the first two quarters after the implementation date (exclusion period), including for the two calendar quarter-end regulatory report dates within those quarters, a bank may exclude from risk-weighted assets:

(1) Subject to the limitations in paragraph iii. of this section II.A.5, assets held by a
VIE, provided that the following conditions are met:

(i) The VIE existed prior to the implementation date;

(ii) The bank did not consolidate the VIE on its balance sheet for calendar quarter-end regulatory report dates prior to the implementation date;

(iii) The bank must consolidate the VIE on its balance sheet beginning as of the implementation date as a result of its implementation of FAS 167, and

(iv) The bank excludes all assets held by VIEs described in paragraphs i.(a)(1)(i) through (iii) of this section II.A.5; and

(ii) Prior to the implementation date, the bank consolidated the VIE onto its balance sheet under GAAP and excluded the VIE’s assets from the bank’s risk-weighted assets, and

(iii) The bank chooses to exclude all assets held by ABCP program VIEs described in paragraphs i.(a)(2)(i) and (ii) of this section II.A.5.

(b) Risk-weighted assets during exclusion period. During the exclusion period, including the two calendar quarter-end regulatory report dates within the exclusion period, a bank adopting the optional provisions of this paragraph i. of this section II.A.5 must calculate risk-weighted assets for its contractual exposures to the VIEs referenced in paragraph i.(a) of this section II.A.5 on the implementation date and include this calculated amount in its risk-weighted assets. Such contractual exposures may include direct-credit substitutes, recourse obligations, residual interests, liquidity facilities, and loans.

(i) Inclusion of ALLL in Tier 2 capital for the first and second quarters. During the exclusion period, including for the two calendar quarter-end regulatory report dates within the exclusion period, a bank that excludes VIE assets from risk-weighted assets pursuant to paragraph i.(a) of this section II.A.5 may include in Tier 2 capital the full amount of the allowance for loan and lease losses (ALLL) calculated as of the implementation date that is attributable to the assets it excludes pursuant to paragraph i.(a) of this section II.A.5 (inclusion amount). The amount of ALLL includable in Tier 2 capital in accordance with this paragraph shall not be subject to the limitations set forth in paragraph i. of section I.A.2.

(ii) Phase-in period.

(a) Exclusion amount. For purposes of this paragraph ii. of this section II.A.5, exclusion amount is defined as the amount of risk-weighted assets excluded in paragraph i.(a) of this section II.A.5 as of the implementation date.

(b) Risk-weighted assets for the third and fourth quarters. A bank that excludes assets of consolidated VIEs from risk-weighted assets pursuant to paragraph i.(a) of this section II.A.5 may, for the third and fourth quarters after the implementation date (phase-in period), including for the two calendar quarter-end regulatory report dates within those quarters, exclude from risk-weighted assets 50 percent of the exclusion amount, provided that the bank may not include in risk-weighted assets pursuant to this paragraph an amount less than the aggregate risk-weighted assets calculated pursuant to paragraph i.(b) of this section II.A.5.

(c) Inclusion of ALLL in Tier 2 capital for the third and fourth quarters. A bank that excludes assets of consolidated VIEs from risk-weighted assets pursuant to paragraph ii.(b) of this section II.A.5 may, for the phase-in period, include in Tier 2 capital 50 percent of the inclusion amount it included in Tier 2 capital during the exclusion period, notwithstanding the limit on including ALLL in Tier 2 capital in paragraph I. of section I.A.2.

(iii) Implicit recourse limitation. Notwithstanding any other provision in this section II.A.5, assets held by a VIE to which the bank has provided recourse through credit enhancement beyond any contractual obligation to support assets it has sold may not be excluded from risk-weighted assets.

B. Other Considerations

1. Indirect Holdings of Assets. Some of the assets on a bank’s balance sheet may represent an indirect holding of a pool of assets; for example, mutual funds. An investment in shares of a mutual fund whose portfolio consists solely of various securities or money market instruments that, if held separately, would be assigned to different risk categories, generally is assigned to the risk category appropriate to the highest risk-weighted asset that the fund is permitted to hold in accordance with the stated investment objectives set forth in its prospectus. The bank may, at its option, assign the investment on a pro rata basis to different risk categories according to the investment limits in the fund’s prospectus, but in no case will indirect holdings through shares in any mutual fund be assigned to a risk weight less than 20 percent. If the bank chooses to assign its investment on a pro rata basis, and the sum of the investment limits in the fund’s prospectus exceeds 100 percent, the bank must assign risk weights in descending order. If, in order to maintain a necessary degree of short-term liquidity, a fund is permitted to hold an insignificant amount of its assets in short-term, highly liquid securities of superior credit quality that do not qualify for a preferential risk weight, such securities will
generally be disregarded in determining the risk category to which the bank’s holdings in the overall fund should be assigned. The prudent use of hedging instruments by a mutual fund to reduce the risk of its assets will not increase the risk weighting of the mutual fund investment. For example, the use of hedging instruments by a mutual fund to reduce the interest rate risk of its government bond portfolio will not increase the risk weight of that fund above the 20 percent category. Nonetheless, if the fund engages in any activities that appear speculative in nature or has any other characteristics that are inconsistent with the preferential risk weighting assigned to the fund’s assets, holdings in the fund will be assigned to the 100 percent risk category.

2. Collateral. In determining risk weights of various assets, the only forms of collateral that are formally recognized by the risk-based capital framework are cash on deposit in the lending bank; securities issued or guaranteed by the central governments of the OECD-based group of countries, U.S. Government agencies, or U.S. Government-sponsored agencies; and securities issued or guaranteed by multilateral lending institutions or regional development banks. Claims fully secured by such collateral are assigned to the 20 percent risk category. The extent to which these securities are recognized as collateral for risk-based capital purposes is determined by their current market value. If a claim is partially secured, the portion of the claim that is not covered by the collateral is assigned to the risk category appropriate to the obligor or, if relevant, the guarantor.

3. Guarantees. Guarantees of the OECD and non-OECD central governments, U.S. Government agencies, U.S. Government-sponsored agencies, state and local governments of the OECD-based group of countries, multilateral lending institutions and regional development banks, U.S. depository institutions, foreign banks, and qualifying OECD-based securities firms are also recognized. If a claim is partially guaranteed, the portion of the claim that is not fully covered by the guarantee is assigned to the risk category appropriate to the obligor or, if relevant, the collateral.

4. Maturity. Maturity is generally not a factor in assigning items to risk categories with the exceptions of claims on non-OECD banks, commitments, and interest rate and foreign exchange rate related contracts. Except for commitments, short-term is defined as one year or less remaining maturity and long-term is defined as over one year remaining maturity. In the case of commitments, short-term is defined as one year or less original maturity and long-term is defined as over one year original maturity. 12

5. Recourse, Direct Credit Substitutes, Residual Interests and Mortgage- and Asset-Backed Securities. For purposes of this section II.B.5 of this appendix A, the following definitions will apply.

a. Definitions—(1) Credit derivative means a contract that allows one party (the “protection purchaser”) to transfer the credit risk of an asset or off-balance sheet credit exposure to another party (the “protection provider”). The value of a credit derivative is dependent, at least in part, on the credit performance of the “reference asset.”

(2) Credit-enhancing interest only strip is defined in §325.2(g).

(3) Credit-enhancing representations and warranties means representations and warranties that are made or assumed in connection with a transfer of assets (including loan servicing assets) and that obligate the bank to protect investors from losses arising from credit risk in the assets transferred or the loans serviced. Credit-enhancing representations and warranties include promises to protect a party from losses resulting from the default or nonperformance of another party or from an insufficiency in the value of the collateral. Credit-enhancing representations and warranties do not include:

---

12The OECD-based group of countries comprises all full members of the Organization for Economic Cooperation and Development (OECD) regardless of entry date, as well as countries that have concluded special lending arrangements with the International Monetary Fund (IMF) associated with the IMF’s General Arrangements to Borrow, but excludes any country that has rescheduled its external sovereign debt within the previous five years. As of November 1993, the OECD included the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, Turkey, the United Kingdom, and the United States; and Saudi Arabia had concluded special lending arrangements with the IMF associated with the IMF’s General Arrangements to Borrow. A rescheduling of external sovereign debt generally would include any renegotiation of terms arising from a country’s inability or unwillingness to meet its external debt service obligations, but generally would not include renegotiations of debt in the normal course of business, such as a renegotiation to allow the borrower to take advantage of a decline in interest rates or other change in market conditions.

---

12Through year-end 1992, remaining rather than original maturity may be used for determining term to maturity for commitments.
(i) Early default clauses and similar warranties that permit the return of, or premium refund clauses covering, 1–4 family residential first mortgage loans that qualify for a 50 percent risk weight for a period not to exceed 120 days from the date of transfer. These warranties may cover only those loans that were originated within 1 year of the date of transfer;
(ii) Premium refund clauses that cover assets guaranteed, in whole or in part, by the U.S. Government, a U.S. Government agency or a government-sponsored enterprise, provided the premium refund clauses are for a period not to exceed 120 days from the date of transfer; or
(iii) Warrants that permit the return of assets in instances of misrepresentation, fraud or incomplete documentation.

(4) Direct credit substitute means an arrangement in which a bank assumes, in form or in substance, credit risk associated with an on- or off-balance sheet credit exposure that was not previously owned by the bank (third-party asset) and the risk assumed by the bank exceeds the pro rata share of the bank’s interest in the third-party asset. If the bank has no claim on the third-party asset, then the bank’s assumption of any credit risk with respect to the third party asset is a direct credit substitute. Direct credit substitutes include, but are not limited to:
(i) Financial standby letters of credit, which includes any letter of credit or similar arrangement, however named or described, that support financial claims on a third party that exceed a bank’s pro rata share of the bank’s interest in the third-party asset; or
(ii) Guarantees, surety arrangements, credit derivative contracts, and similar instruments backing financial claims;
(iii) Purchased subordinated interests or securities that absorb more than their pro rata share of credit losses from the underlying assets;
(iv) Credit derivative contracts under which the bank assumes more than its pro rata share of credit risk on a third party asset or exposure;
(v) Loans or lines of credit that provide credit enhancement for the financial obligations of an account party;
(vi) Purchased loan servicing assets if the servicer:
(A) Is responsible for credit losses with the loans being serviced,
(B) Is responsible for making servicer cash advances (unless the advances are not direct credit substitutes because they meet the conditions specified in section II.B.5(a)(9) of this Appendix A), or
(C) Makes or assumes credit-enhancing representations and warranties with respect to the loans serviced;
(vii) Clean-up calls on third party assets. Clean-up calls that are exercisable at the option of the bank (as servicer or as an affiliate of the servicer) when the pool balance is 10 percent or less of the original pool balance are not direct credit substitutes; and
(viii) Liquidity facilities that provide liquidity support to ABCP (other than eligible ABCP liquidity facilities).

(5) Eligible ABCP liquidity facility means a liquidity facility supporting ABCP, in form or in substance, that is subject to an asset quality test at the time of draw that precludes funding against assets that are 90 days or more past due or in default. In addition, if the assets that an eligible ABCP liquidity facility is required to fund against are externally rated assets or exposures at the inception of the facility, the facility can be used to fund only those assets or exposures that are externally rated investment grade at the time of funding. Notwithstanding the eligibility requirements set forth in the two preceding sentences, a liquidity facility will be considered an eligible ABCP liquidity facility if the assets that are funded under the liquidity facility and which do not meet the eligibility requirements are guaranteed, either conditionally or unconditionally, by the U.S. government or its agencies, or by the central government of an OECD country.

(6) Externally rated means that an instrument or obligation has received a credit rating from a nationally recognized statistical rating organization.

(7) Face amount means the notional principal, or face value, amount of an off-balance sheet item; the amortized cost of an asset not held for trading purposes; and the fair value of a trading asset.

(8) Financial asset means cash or other monetary instrument, evidence of debt, evidence of an ownership interest in an entity, or a contract that conveys a right to receive or exchange cash or another financial instrument from another party.

(9) Financial standby letter of credit means a letter of credit or similar arrangement that represents an irrevocable obligation to a third-party beneficiary:
(i) To receive money borrowed by, or advanced to, or for the account of, a second party (the account party), or
(ii) To make payment on behalf of the account party, in the event that the account party fails to fulfill its obligation to the beneficiary.

(10) Liquidity facility means a legally binding commitment to provide liquidity support to ABCP by lending to, or purchasing assets from, any structure, program, or conduit in the event that funds are required to repay maturing ABCP.

(11) Mortgage servicer cash advance means funds that a residential mortgage servicer advances to ensure an uninterrupted flow of payments, including advances made to cover foreclosure costs or other expenses to facilitate the timely collection of the loan. A
mortality servicer cash advance is not a recourse obligation or a direct credit substitute if:

(i) The mortgage servicer is entitled to full recourse if the right is not subordinated to other claims on the cash flows from the underlying asset pool; or

(ii) For any one loan, the servicer’s obligation to make nonreimbursable advances is contractually limited to an insignificant amount of the outstanding principal of that loan.

(12) Nationally recognized statistical rating organization (NRSRO) means an entity recognized by the Division of Market Regulation of the Securities and Exchange Commission (or any successor Division) (Commission) as a nationally recognized statistical rating organization for various purposes, including the Commission’s uniform net capital requirements for brokers and dealers (17 CFR 240.15c3-1).

(13) Recourse means an arrangement in which a bank retains, in form or in substance, of any credit risk directly or indirectly associated with an asset it has sold (in accordance with generally accepted accounting principles) that exceeds a pro rata share of the bank’s claim on the asset. If a bank has no claim on an asset it has sold, then the retention of any credit risk is recourse. A recourse obligation typically arises when an institution transfers assets in a safe and retains an obligation to repurchase the assets or absorb losses due to a default of principal or interest or any other deficiency in the performance of the underlying obligor or some other party. Recourse may exist implicitly where a bank provides credit enhancement beyond any contractual obligation to support assets it has sold. The following are examples of recourse arrangements:

(i) Credit-enhancing representations and warranties made on the transferred assets;

(ii) Loan servicing assets retained pursuant to an agreement under which the bank:

(A) Is responsible for losses associated with the loans being serviced, or

(B) Is responsible for making mortgage servicer cash advances (unless the advances are not a recourse obligation because they meet the conditions specified in section II.B.5(a)(11) of this Appendix A);

(iii) Retained subordinated interests that absorb more than their pro rata share of losses from the underlying assets;

(iv) Assets sold under an agreement to repurchase, if the assets are not already included on the balance sheet;

(v) Loan strips sold without contractual recourse where the maturity of the transferred portion of the loan is shorter than the maturity of the commitment under which the loan is drawn;

(vi) Credit derivative contracts under which the bank retains more than its pro rata share of credit risk on transferred assets;

(vii) Clean-up calls at inception that are greater than 10 percent of the balance of the original pool balance that are exercisable at the option of the bank are not recourse arrangements; and

(viii) Liquidity facilities that provide liquidity support to ABCP (other than eligible ABCP liquidity facilities).

(14) Residual interest means any on-balance sheet asset that represents an interest (including a beneficial interest) created by a transfer that qualifies as a sale (in accordance with generally accepted accounting principles (GAAP)) of financial assets, whether through a securitization or otherwise, and that exposes a bank to credit risk directly or indirectly associated with the transferred assets that exceeds a pro rata share of the bank’s claim on the assets, whether through subordination provisions or other credit enhancement techniques. Residual interests generally include credit-enhancing I/Os, spread accounts, cash collateral accounts, retained subordinated interests, other forms of over-collateralization, and similar assets that function as a credit enhancement. Residual interests further include those exposures that, in substance, cause the bank to retain the credit risk of an asset or exposure that had qualified as a residual interest before it was sold. Residual interests generally do not include interests purchased from a third party, except that purchased credit-enhancing I/Os are residual interests for purposes of the risk-based capital treatment in this appendix.

(15) Risk participation means a participation in which the originating party remains liable to the beneficiary for the full amount of an obligation (e.g., a direct credit substitute) notwithstanding that another party has acquired a participation in that obligation.

(16) Securitization means the pooling and repackaging by a special purpose entity of assets or other credit exposures into securities that can be sold to investors. Securitization includes transactions that create stratified credit risk positions whose performance is dependent upon an underlying pool of credit exposures, including loans and commitments.

(17) Sponsor means a bank that establishes an ABCP program; approves the sellers permitted to participate in the program; approves the asset pools to be purchased by the program; or administers the ABCP program by monitoring the assets, arranging for debt placement, compiling monthly reports, or ensuring compliance with the program documents and with the program’s credit and investment policy.

(18) Structured finance program means a program where receivable interests and asset-
backed securities issued by multiple participants are purchased by a special purpose entity that repackages those exposures into securities that can be sold to investors. Structured finance is used to allocate credit risks, generally, between the participants and credit enhancement provided to the program.

(19) **Traded position** means a position that is externally traded and is retained, assumed or issued in connection with an asset securitization, where there is a reasonable expectation that, in the near future, the rating will be relied upon by unaffiliated investors to purchase the position; or an unaffiliated third party to enter into a transaction involving the position, such as a purchase, loan, or repurchase agreement.

(b) **Credit equivalent amounts and risk weights of recourse obligations and direct credit substitutes**—(1) General rule for determining the credit-equivalent amount. Except as otherwise provided, the credit-equivalent amount for a recourse obligation or direct credit substitute is the full amount of the credit-enhanced assets for which the bank directly or indirectly retains, assumes credit risk multiplied by a 100% conversion factor. Thus, a bank that extends a partial direct credit substitute indirectly retains or assumes credit risk.

In the case of a direct credit substitute in which the bank has acquired a risk participation, the acquiring bank’s pro rata share of the direct credit substitute is converted to a credit equivalent amount using a 100% conversion factor. However, the pro rata share of the credit equivalent amount that has not been participated out is assigned to the risk-weight category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral, or the risk-weight category appropriate to the party acquiring the participation. The pro rata share of the credit equivalent amount that has not been participated out is assigned to the risk-weight category appropriate to the obligor, guarantor, or collateral. For example, the pro rata share of the full amount of the assets supported, in whole or in part, by a direct credit substitute conveyed as a risk participation to a U.S. domestic depository institution or an OECD bank is assigned to the 20 percent risk category.

(2) **Treatment for direct credit substitutes in which the bank has acquired a risk participation**. In the case of a direct credit substitute in which the bank has acquired a risk participation, the acquiring bank’s pro rata share of the direct credit substitute is multiplied by the full amount of the assets that are supported by the direct credit substitute and converted using a 100% credit conversion factor. The resulting credit equivalent amount is then assigned to the risk-weight category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral.

(3) **Treatment for direct credit substitutes related to syndications**. In the case of a direct credit substitute that takes the form of a syndication where each party is obligated only for its pro rata share of the risk and there is no recourse to the originating entity, each bank’s credit equivalent amount will be calculated by multiplying only its pro rata share of the assets supported by the direct credit substitute by a 100% conversion factor. The resulting credit equivalent amount is then assigned to the risk-weight category appropriate to the obligor in the underlying transaction, after considering any associated guarantees or collateral.

(d) **Externally rated positions**—credit-equivalent amounts and risk weights—(1) Traded positions. With respect to a recourse obligation, direct credit substitute, residual interest (other than a credit-enhancing interest-only strip) or mortgage- or asset-backed security that is a “traded position” and that has received an external rating on a long-term position that is one grade below investment grade or better or a short-term position that

---

13 A risk participation with a remaining maturity of one year or less that is conveyed to a non-OECD bank is also assigned to the 20 percent risk category.
is investment grade, the bank may multiply the face amount of the position by the appropriate risk weight, determined in accordance with Table A or B of this appendix A, as appropriate. If a traded position receives more than one external rating, the lowest rating will apply.

(2) Non-traded positions. A recourse obligation, direct credit substitute, residual interest (but not a credit-enhancing interest-only strip) or mortgage- or asset-backed security extended in connection with a securitization that is not a “traded position” may be assigned a risk weight in accordance with section II.B.5(d)(1) of this appendix A if:

(i) It has been externally rated by more than one NRSRO;

(ii) It has received an external rating on a long-term position that is one category below investment grade or better or a short-term position that is investment grade by all NRSROs providing a rating;

(iii) The ratings are publicly available; and

(iv) The ratings are based on the same criteria used to rate traded positions. If the ratings are different, the lowest rating will determine the risk category to which the recourse obligation, direct credit substitute, residual interest, or mortgage- or asset-backed security will be assigned.

(e) Senior positions not externally rated. For a recourse obligation, direct credit substitute, residual interest or mortgage- or asset-backed security that is not externally rated but is senior in all features to a traded position (including collateralization and maturities), a bank may apply a risk weight to the face amount of the senior position in accordance with section II.B.5(d)(1) of this appendix A, based upon the risk weight of the traded position, subject to any current or prospective supervisory guidance and the bank satisfying the FDIC that this treatment is appropriate. This section will apply only if the traded position provides substantial credit support for the entire life of the unrated position.

(1) Residual interests—(1) Concentration limit on credit-enhancing interest-only strips. In addition to the capital requirement provided by section II.B.5(f)(2) of this appendix A, a bank must deduct from Tier 1 capital the face amount of all credit-enhancing interest-only strips in excess of 25 percent of Tier 1 capital in accordance with §325.5(f)(3).

(2) Credit-enhancing interest-only strip capital requirement. After applying the concentration limit to credit-enhancing interest-only strips in accordance with §325.5(f)(3), a bank must maintain risk-based capital for a credit-enhancing interest-only strip equal to the remaining face amount of the credit-enhancing interest-only strip (net of the remaining proportional amount of any existing associated deferred tax liability recorded on the balance sheet), even if the amount of risk-based capital required to be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred credit-enhancing interest-only strip will be treated as if the credit-enhancing interest-only strip was retained by the bank and not transferred.

(3) Other residual interests capital requirement. Except as otherwise provided in section II.B.5(d) or (e) of this appendix A, a bank must maintain risk-based capital for a residual interest (excluding a credit-enhancing interest-only strip) equal to the face amount of the residual interest (net of any existing associated deferred tax liability recorded on principal-only strips, must be assigned to the 100% risk category.

---

14 Stripped mortgage-backed securities and similar instruments, such as interest-only strips that are not credit-enhancing and
the balance sheet, even if the amount of risk-based capital required to be maintained exceeds the full risk-based capital requirement for the assets transferred. Transactions that, in substance, result in the retention of credit risk associated with a transferred residual interest will be treated as if the residual interest was retained by the bank and not transferred.

(4) Residual interests and other recourse obligations. Where the aggregate capital requirement for residual interests (including credit-enhancing interest-only strips) and recourse obligations arising from the same transfer of assets exceed the full risk-based capital requirement for assets transferred, a bank must maintain risk-based capital equal to the greater of the risk-based capital requirement for the residual interest as calculated under sections II.B.5(f)(2) through (3) of this appendix A or the full risk-based capital requirement for the assets transferred.

(g) Positions that are not rated by an NRSRO. A bank’s position (other than a residual interest) in a securitization or structured finance program that is not rated by an NRSRO may be risk-weighted based on the bank’s determination of the credit rating of the position, as specified in Table C of this appendix A, multiplied by the face amount of the position. In order to qualify for pro-treatment, the bank’s system for determining the credit rating of the position must meet one of the three alternative standards set out in section II.B.5(g)(1) through (3) of this appendix A.

| TABLE C |
|-------------------|----------------|----------------|
| Rating category   | Examples      | Risk Weight   |
| Investment grade  | BBB or better | 100           |
| One category below investment grade | BB | 200 |

(1) Internal risk rating used for asset-backed programs. A bank extends a direct credit substitute (but not a purchased credit-enhancing interest-only strip) to an asset-backed commercial paper program sponsored by the bank and the bank is able to demonstrate to the satisfaction of the FDIC, prior to relying upon its use, that the bank’s internal credit risk rating system is adequate. Adequate internal risk rating systems usually contain the following criteria:15

(i) The internal credit risk rating system is an integral part of the bank’s risk management system that explicitly incorporates the full range of risks arising from a bank’s participation in securitization activities;

(ii) Internal credit ratings are linked to measurable outcomes, such as the probability that the position will experience any loss, the position’s expected loss given default, and the degree of variance in losses given default on that position;

(iii) The internal credit risk rating system must separately consider the risk associated with the underlying loans or borrowers, and the risk associated with the structure of a particular securitization transaction;

(iv) The internal credit risk rating system identifies gradations of risk among “pass” assets and other risk positions;

(v) The internal credit risk rating system must have clear, explicit criteria (including for subjective factors), that are used to classify assets into each internal risk grade;

(vi) The bank must have independent credit risk management or loan review personnel assigning or reviewing the credit risk ratings;

(vii) An internal audit procedure should periodically verify that internal risk ratings are assigned in accordance with the bank’s established criteria;

(viii) The bank must monitor the performance of the internal credit risk ratings assigned to nonrated, nontraded direct credit substitutes over time to determine the appropriateness of the initial credit risk rating assignment and adjust individual credit risk ratings, or the overall internal credit risk ratings system, as needed; and

(ix) The internal credit risk rating system must make credit risk rating assumptions that are consistent with, or more conservative than, the credit risk rating assumptions and methodologies of NRSROs.

(2) Program Ratings. A bank extends a direct credit substitute or retains a recourse obligation (but not a residual interest) in connection with a structured finance program and an NRSRO has reviewed the terms of the program and stated a rating for positions associated with the program. If the program has options for different combinations of assets, standards, internal credit enhancements and other relevant factors, and the NRSRO specifies ranges of rating categories to them, the bank may apply the rating category applicable to the option that corresponds to the bank’s position. In order to rely on a program rating, the bank must demonstrate to the FDIC’s satisfaction that

15The adequacy of a bank’s use of its internal credit risk rating system must be demonstrated to the FDIC considering the criteria listed in this section and the size and complexity of the credit exposures assumed by the bank.
the credit risk rating assigned to the program meets the same standards generally used by NRSROs for rating traded positions. The bank must also demonstrate to the FDIC’s satisfaction that the criteria underlying the NRSRO’s assignment of ratings for the program are satisfied for the particular position issued by the bank. If a bank participates in a securitization sponsored by another party, the FDIC may authorize the bank to use this approach based on a program rating obtained by the sponsor of the program.

3) Computer Program. A bank is using an acceptable credit assessment computer program that has been developed by an NRSRO to determine the rating of a direct credit substitute or recourse obligation (but not a residual interest) extended in connection with a structured finance program. In order to rely on the rating determined by the computer program, the bank must demonstrate to the FDIC’s satisfaction that ratings under the program correspond credibly and reliably with the ratings of traded positions. The bank must also demonstrate to the FDIC’s satisfaction the credibility of the program in assessing credit risk, the reliability of the program in determining the FDIC’s satisfaction that ratings under the program correspond credibly and reliably with the ratings of traded positions.

4) Mortgage-related securities or participation certificates retained in a mortgage loan swap. If a bank holds a mortgage-related security or a participation certificate as a result of a mortgage loan swap with recourse, capital is required to support the recourse obligation plus the percentage of the mortgage-related security or participation certificate that is not covered by the recourse obligation. The total amount of capital required for the on-balance sheet asset and the recourse obligation, however, is limited to the capital requirement for the underlying loans, calculated as if the bank continued to hold these loans as an on-balance sheet asset.

5) Related on-balance sheet assets. If a recourse obligation or direct credit substitute also appears as a balance sheet asset, the asset is risk-weighted only under this section II.B.5 of this appendix A, except in the case of loan servicing assets and similar arrangements with embedded recourse obligations or direct credit substitutes. In that case, the on-balance sheet servicing assets and the related recourse obligations or direct credit substitutes must both be separately risk weighted and incorporated into the risk-based capital calculation.

(i) Alternative Capital Calculation for Small Business Obligations—(1) Definitions. For purposes of this section II.B.5(i):

(A) Qualified bank means a bank that:

(1) Is well capitalized as defined in §325.103(b)(1) without applying the capital treatment described in this section II.B.5(i), or

(2) Is adequately capitalized as defined in §325.103(b)(2) without applying the capital treatment described in this section II.B.5(i), and has received written permission by order of the FDIC to apply the capital treatment described in this section II.B.5(i).

(B) Small business means a business that meets the criteria for a small business concern established by the Small Business Administration in 13 CFR part 121 pursuant to 15 U.S.C. 632.

(2) Capital and reserve requirements. Notwithstanding the risk-based capital treatment outlined in any other paragraph (other than paragraph (i) of this section II.B.5), with respect to a transfer with recourse of a small business loan or a lease to a small business of personal property that is a sale under generally accepted accounting principles, and for which the bank establishes and maintains a non-capital reserve under generally accepted accounting principles sufficient to meet the reasonable estimated liability of the bank under the recourse arrangement; a qualified bank may elect to include only the face amount of its recourse in its risk-weighted assets for purposes of calculating the bank’s risk-based capital ratio.

(3) Limit on aggregate amount of recourse. The total outstanding amount of recourse retained by a qualified bank with respect to transfers of small business loans and leases to small businesses of personal property and included in the risk-weighted assets of the bank as described in section II.B.5(i)(2) of this appendix A may not exceed 15 percent of the bank’s total risk-based capital, unless the FDIC specifies a greater amount by order.

(4) Bank that ceases to be qualified or that exceeds aggregate limit. If a bank ceases to be a qualified bank or exceeds the aggregate limit in section II.B.5(i)(3) of this appendix A, the bank may continue to apply the capital treatment described in section II.B.5(i)(2) of this appendix A to transfers of small business loans and leases to small businesses of personal property that occurred when the
A bank shall compute its capital without regard to this section II.B.5(i) for purposes of prompt corrective action (12 U.S.C. 1831o) unless the bank is a well capitalized bank (without applying the capital treatment described in this section II.B.5(i)) and, after applying the capital treatment described in this section II.B.5(i), the bank would be well capitalized.

(ii) A bank shall compute its capital without regard to this section II.B.5(i) for purposes of 12 U.S.C. 1831o(g) regardless of the bank’s capital level.

(6) **Nonfinancial equity investments.**

(i) General. A bank must deduct from its Tier 1 capital the sum of the appropriate percentage (as determined below) of the adjusted carrying value of all nonfinancial equity investments held by the bank or by its direct or indirect subsidiaries. For purposes of this section II.B.6, investments held by a bank include all investments held directly or indirectly by the bank or any of its subsidiaries.

(ii) **Scope of nonfinancial equity investments.**

A nonfinancial equity investment means any equity investment held by the bank in a non-financial company: through a small business investment company (SBIC) under section 302(b) of the Small Business Investment Act of 1958 (15 U.S.C. 682(b)); under the portfolio investment provisions of Regulation K issued by the Board of Governors of the Federal Reserve System (12 CFR 211.8(c)(3)); or under section 24 of the Federal Deposit Insurance Act (12 U.S.C. 1831a), other than an investment held in accordance with section 24(h) of that Act. A nonfinancial company is an entity that engages in any activity that has not been determined to be permissible for the bank to conduct directly, or to be financial in nature or incidental to financial activities under section 4(k) of the Bank Holding Company Act (12 U.S.C. 1843(k)).

(iii) **Amount of deduction from core capital.**

(A) The bank must deduct from its Tier 1 capital the sum of the appropriate percentages, as set forth in the table following this paragraph, of the adjusted carrying value of all nonfinancial equity investments held by the bank. The amount of the percentage deduction increases as the aggregate amount of nonfinancial equity investments held by the bank increases as a percentage of the bank’s Tier 1 capital.

(B) These deductions are applied on a marginal basis to the portions of the adjusted carrying value of nonfinancial equity investments that fall within the specified ranges of the parent bank’s Tier 1 capital. For example, if the adjusted carrying value of all nonfinancial equity investments held by a bank equals 20 percent of the Tier 1 capital of the bank, then the amount of the deduction would be 8 percent of the adjusted carrying value of all investments up to 15 percent of the bank’s Tier 1 capital, and 12 percent of the adjusted carrying value of all investments in excess of 15 percent of the bank’s Tier 1 capital.

(C) The total adjusted carrying value of any nonfinancial equity investment that is subject to deduction under this paragraph is excluded from the bank’s risk-weighted assets for purposes of computing the denominator of the bank’s risk-based capital ratio.
and from total assets for purposes of calculating the denominator of the leverage ratio.\(^{18}\)

(D) This Appendix establishes minimum risk-based capital ratios and banks are at all times expected to maintain capital commensurate with the level and nature of the risks to which they are exposed. The risk to a bank from nonfinancial equity investments increases with its concentration in such investments and strong capital levels above the minimum requirements are particularly important when a bank has a high degree of concentration in nonfinancial equity investments (e.g., in excess of 50 percent of Tier 1 capital). The FDIC intends to monitor banks and apply heightened supervision to equity investment activities as appropriate, including where the bank has a high degree of concentration in nonfinancial equity investments, to ensure that each bank maintains capital levels that are appropriate in light of its equity investment activities. The FDIC also reserves authority to impose a higher capital charge in any case where the circumstances, such as the level of risk of the particular investment or portfolio of investments, the risk management systems of the bank, or other information, indicate that a higher minimum capital requirement is appropriate.

(iv) SBIC investments. (A) No deduction is required for nonfinancial equity investments that are held by a bank through one or more SBICs that are consolidated with the bank or in one or more SBICs that are not consolidated with the bank to the extent that all such investments, in the aggregate, do not exceed 15 percent of the bank’s Tier 1 capital. Any nonfinancial equity investment that is held through an SBIC or in an SBIC and that is not required to be deducted from Tier 1 capital under this section II.B.(6)(iv) will be assigned a 100 percent risk-weight and included in the bank’s consolidated risk-weighted assets.\(^{19}\)

(B) To the extent the adjusted carrying value of all nonfinancial equity investments that a bank holds through one or more SBICs that are consolidated with the bank or in one or more SBICs that are not consolidated with the bank exceeds, in the aggregate, 15 percent of the bank’s Tier 1 capital, the appropriate percentage of such amounts (as set forth in the table in section II.B.(6)(ii)(A)) must be deducted from the bank’s common stockholders’ equity in determining the bank’s Tier 1 capital. In addition, the aggregate adjusted carrying value of all nonfinancial equity investments held by a bank through a consolidated SBIC and in a non-consolidated SBIC (including any investments for which no deduction is required) must be included in determining, for purposes of the table in section II.B.(6)(ii)(A), the total amount of nonfinancial equity investments held by the bank in relation to its Tier 1 capital.

(v) Transition provisions. No deduction under this section II.B.(6) is required to be made with respect to the adjusted carrying value of any nonfinancial equity investment (or portion of such an investment) that was made by the bank prior to March 13, 2000, or that was made by the bank after such date pursuant to a binding written commitment\(^{20}\) entered into prior to March 13, 2000, provided that in either case the bank has continuously held the investment since the relevant date from the risk-weighted assets of the bank. If a bank has an investment in a SBIC that is not consolidated for accounting purposes and has current information that identifies the percentage of the SBIC’s assets that are equity investments in nonfinancial companies, the bank may reduce the adjusted carrying value of its investment in the SBIC proportionately to reflect the percentage of the adjusted carrying value of the SBIC’s assets that are not equity investments in nonfinancial companies. If a bank reduces the adjusted carrying value of its investment in a non-consolidated SBIC to reflect financial investments of the SBIC, the amount of the adjustment will be risk weighted at 100 percent and included in the bank’s risk-weighted assets.

\(^{18}\)For example, if 8 percent of the adjusted carrying value of a nonfinancial equity investment is deducted from Tier 1 capital, the entire adjusted carrying value of the investment will be excluded from both risk-weighted assets and total assets in calculating the respective denominators for the risk-based capital and leverage ratios.

\(^{19}\)If a bank has an investment in a SBIC that is consolidated for accounting purposes but that is not wholly owned by the bank, the adjusted carrying value of the bank’s nonfinancial equity investments through the SBIC is equal to the bank’s proportionate share of the adjusted carrying value of the SBIC’s investments in nonfinancial companies. The remainder of the SBIC’s adjusted carrying value (i.e., the minority interest holders’ proportionate share) is excluded from the risk-weighted assets of the bank. If a bank has an investment in a SBIC that is not consolidated for accounting purposes and has current information that identifies the percentage of the SBIC’s assets that are equity investments in nonfinancial companies, the bank may reduce the adjusted carrying value of its investment in the SBIC proportionately to reflect the percentage of the adjusted carrying value of the SBIC’s assets that are not equity investments in nonfinancial companies. If a bank reduces the adjusted carrying value of its investment in a non-consolidated SBIC to reflect financial investments of the SBIC, the amount of the adjustment will be risk weighted at 100 percent and included in the bank’s risk-weighted assets.

\(^{20}\)“Binding written commitment” means a legally binding written agreement that requires the bank to acquire shares or other equity of the company, or make a capital contribution to the company, under terms and conditions set forth in the agreement. Options, warrants, and other agreements that give a bank the right to acquire equity or make an investment, but do not require the bank to take such actions, are not considered a binding written commitment for purposes of this section II.B.(6)(v).
investment date. For purposes of this section II.B.(6)(v) a nonfinancial equity investment made prior to March 13, 2000, includes any shares or other interests received by the bank through a stock split or stock dividend on an investment made prior to March 13, 2000, provided the bank provides no consideration for the shares or interests received and the transaction does not materially increase the bank’s proportional interest in the company. The exercise on or after March 13, 2000, of options or warrants acquired prior to March 13, 2000, is not considered to be an investment made prior to March 13, 2000, if the bank provides any consideration for the shares or interests received upon exercise of the options or warrants. Any nonfinancial equity investment (or portion thereof) that is not required to be deducted from Tier 1 capital under this section II.B.(6)(v) must be included in determining the total amount of nonfinancial equity investments held by the bank in relation to its Tier 1 capital for purposes of the table in section II.B.(6)(i)(A). In addition, any nonfinancial equity investment (or portion thereof) that is not required to be deducted from Tier 1 capital under this section II.B.(6)(v) will be assigned a 100-percent risk weight and included in the bank’s consolidated risk-weighted assets.

(vi) Adjusted carrying value. (A) For purposes of this section II.B.(6), the “adjusted carrying value” of investments is the aggregate carrying value at which the investments are carried on the balance sheet of the bank reduced by any unrealized gains on those investments that are reflected in such carrying value but excluded from the bank’s Tier 1 capital and associated deferred tax liabilities. For example, for equity investments held as available-for-sale (AFS), the adjusted carrying value of the investments would be the aggregate carrying value of those investments (as reflected on the consolidated balance sheet of the bank) less any unrealized gains on those investments that are included in other comprehensive income and not reflected in Tier 1 capital, and associated deferred tax liabilities.

(B) As discussed above with respect to consolidated SBICs, some equity investments may be in companies that are consolidated for accounting purposes. For investments in a nonfinancial company that is consolidated for accounting purposes under generally accepted accounting principles, the bank’s adjusted carrying value of the investment is determined under the equity method of accounting (net of any intangibles associated with the investment that are deducted from the bank’s core capital in accordance with section I.A.(1) of this appendix A). Even though the assets of the nonfinancial company are consolidated for accounting purposes, these assets (as well as the credit equivalent amounts of the company’s off-balance sheet items) should be excluded from the bank’s risk-weighted assets for regulatory capital purposes.

(vii) Equity investments. For purposes of this section II.B.(6), an equity investment means any equity instrument (including common stock, preferred stock, partnership interests, interests in limited liability companies, trust certificates and warrants and call options that give the holder the right to purchase an equity instrument), any equity feature of a debt instrument (such as a warrant or call option), any debt instrument that is convertible into equity where the instrument or feature is held under one of the legal authorities listed in section II.B.(6)(ii) of this appendix A. An investment in any other instrument (including subordinated debt) may be treated as an equity investment if, in the judgment of the FDIC, the instrument is the functional equivalent of equity or exposes the bank to essentially the same risks as an equity instrument.

6. Asset-backed commercial paper programs. a.

An asset-backed commercial paper (ABCP) program means a program that primarily issues externally rated commercial paper backed by assets or other exposures held in a bankruptcy-remote, special purpose entity. b. If a bank has multiple overlapping exposures (such as a program-wide credit enhancement and multiple pool-specific liquidity facilities) to an ABCP program that is

22Unrealized gains on available-for-sale equity investments may be included in Tier 2 capital to the extent permitted under section I.A.(2)(f) of this appendix A. In addition, the net unrealized losses on available-for-sale equity investments are deducted from Tier 1 capital in accordance with section I.A.(1) of this appendix A.
Federal Deposit Insurance Corporation

not consolidated for risk-based capital purposes, the bank is not required to hold capital under duplicative risk-based capital requirements under this appendix against the overlapping position. Instead, the bank should apply to the overlapping position the applicable risk-based capital treatment that results in the highest capital charge.

C. Risk Weights for Balance Sheet Assets (see Table II)

The risk based capital framework contains five risk-weight categories—0 percent, 20 percent, 50 percent, 100 percent, and 200 percent. In general, if a particular item can be placed in more than one risk category, it is assigned to the category that has the lowest risk weight. An explanation of the components of each category follows:

Category 1—Zero Percent Risk Weight. a. This category includes cash (domestic and foreign) owned and held in all offices of the bank or in transit; balances due from Federal Reserve Banks and central banks in other OECD countries; the portions of local currency claims on or unconditionally guaranteed by non-OECD central governments to the extent that the bank has liabilities booked in that currency; and gold bullion held in the bank’s own vaults or in another bank’s vaults on an allocated basis, to the extent it is offset by gold bullion liabilities.

b. The zero percent risk category also includes direct claims24 (including securities, loans, and leases) on, and the portions of claims that are unconditionally guaranteed by, OECD central governments25 and U.S.

25 A central government is defined to include departments and ministries, including the central bank, of the central government. The U.S. central bank includes the 12 Federal Reserve Banks. The definition of central government does not include state, provincial or local governments or commercial enterprises owned by the central government. In addition, it does not include local government entities or commercial enterprises whose obligations are guaranteed by the central government. OECD central governments are defined as central governments of the OECD-based group of countries. Non-OECD central governments are defined as central governments of countries that do not belong to the OECD-based group of countries.

24 For purposes of determining the appropriate risk weights for this risk-based capital framework, the terms claims and securities refer to loans or other debt obligations of the entity on whom the claim is held. Investments in the form of stock or equity holdings in commercial or financial firms are generally assigned to the 100 percent risk category.

23 For risk-based capital purposes U.S. Government agencies include the Government National Mortgage Association (GNMA), the Veterans Administration (VA), the Federal Housing Administration (FHA), the Export-Import Bank (Exim Bank), the Overseas Private Investment Corporation (OPIC), the Commodity Credit Corporation (CCC), and the Small Business Administration (SBA). U.S. Government agencies generally do not directly issue securities to the public; however, a number of U.S. Government agencies, such as GNMA, guarantee securities that are publicly held.

22 All other bullion holdings are to be assigned to the 100 percent risk weight category.

b. The zero percent risk category also includes direct claims (including securities, loans, and leases) on, and the portions of claims that are unconditionally guaranteed by, OECD central governments and U.S. Government agencies.26 Federal Reserve Bank stock also is included in this category.

c. This category also includes claims on, and claims guaranteed by, qualifying securities firms incorporated in the United States or other members of the OECD-based group of countries that are collateralized by cash on deposit in the lending bank or by securities issued or guaranteed by the United States or OECD central governments (including U.S. government agencies), provided that a positive margin of collateral is required to be maintained on such a claim on a daily basis, taking into account any change in a bank’s exposure to the obligor or counterparty under the claim in relation to the market value of the collateral held in support of the claim.

Category 2—20 Percent Risk Weight. a. This category includes short-term claims (including demand deposits) on, and portions of short-term claims that are guaranteed27 by, U.S. depository institutions28 and foreign governments of countries that do not belong to the OECD-based group of countries.

26 Federal Reserve Bank stock also is included in this category.

27 Claims guaranteed by U.S. depository institutions and foreign banks include risk participations in both bankers acceptances and standby letters of credit, as well as participations in commitments, that are conveyed to other U.S. depository institutions or foreign banks.

28 U.S. depository institutions are defined to include branches (foreign and domestic) of federally-insured banks and depository institutions chartered and headquartered in the 50 states of the United States, the District of Columbia, Puerto Rico, and U.S. territories and possessions. The definition encompasses banks, mutual or stock savings banks, savings and building and loan associations, cooperative banks, credit unions, international...
provided that: the qualifying securities firm has a long-term issuer credit rating, or a rating on at least one issue of long-term debt, in one of the three highest investment grade rating categories from a nationally recognized statistical rating organization; or the claim is guaranteed by the firm’s parent company and the parent company has such a rating. If ratings are available from more than one rating agency, the lowest rating will be used to determine whether the rating requirement has been met. This category also includes a collateralized claim on a qualifying securities firm in such a country, without regard to satisfaction of the rating standard, provided that the claim arises under a contract that:

1. Is a reverse repurchase/repurchase agreement or securities lending/borrowing transaction executed using standard industry documentation;

2. Is collateralized by debt or equity securities that are liquid and readily marketable;

3. Is marked-to-market daily;

4. Is subject to a daily margin maintenance requirement under the standardized documentation; and

5. Can be liquidated, terminated, or accelerated immediately in bankruptcy or similar proceeding, and the security or collateral agreement will not be stayed or avoided, under applicable law of the relevant jurisdiction.32

32 For example, a claim is exempt from the automatic stay in bankruptcy in the United States if it arises under a securities contract or a repurchase agreement subject to section 555 or 559 of the Bankruptcy Code, respectively (11 U.S.C. 555 or 559), a qualified financial contract under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C.
Federal Deposit Insurance Corporation
Pt. 325, App. A

b. This category also includes claims on, or portions of claims guaranteed by, U.S. Government-sponsored agencies; and portions of claims (including repurchase agreements) collateralized by securities issued or guaranteed by OECD central governments, U.S. Government agencies, or U.S. Government-sponsored agencies. Also included in the 20 percent risk category are portions of claims that are conditionally guaranteed by OECD central governments and U.S. Government agencies, as well as portions of local currency claims that are conditionally guaranteed by non-OECD central governments to the extent that the bank has liabilities booked in that currency.

c. General obligation claims on, or portions of claims guaranteed by, the full faith and credit of states or other political subdivisions of the United States or other countries of the OECD-based group are also assigned to this 20 percent risk category. In addition, this category includes claims on the International Bank for Reconstruction and Development (World Bank), International Development Bank, the Asian Development Bank, the African Development Bank, the European Investment Bank, the European Bank for Reconstruction and Development, the Nordic Investment Bank, and other multilateral lending institutions or regional development institutions in which the U.S. Government is a shareholder or contributing member, as well as portions of claims guaranteed by such organizations or collateralized by their securities.

d. This category also includes recourse obligations, direct credit substitutes, residual interests (other than a credit-enhancing interest-only strip) and asset- or mortgage-backed securities rated in the highest or second highest investment grade category, e.g., AAA, AA, in the case of long-term ratings, or the highest rating category, e.g., A-1, P-1, in the case of short-term ratings.

a. Category 3—50 Percent Risk Weight. This category includes loans fully secured by first liens on one-to-four family residential properties, provided that such loans have been approved in accordance with prudent underwriting standards, including standards relating to the loan amount as a percent of the appraised value of the property, and provided that the loans are not past due 90 days or more or carried in nonaccrual status.

34 For risk-based capital purposes, U.S. Government-sponsored agencies are defined as agencies originally established or chartered by the U.S. Government to serve public purposes specified by the U.S. Congress but whose debt obligations are not explicitly guaranteed by the full faith and credit of the U.S. Government. These agencies include the Federal Home Loan Mortgage Corporation (FHLMC), the Federal National Mortgage Association (FNMA), the Farm Credit System, the Federal Home Loan Bank System, and the Student Loan Marketing Association (SLMA). For risk-based capital purposes, claims on U.S. Government-sponsored agencies also include capital stock in a Federal Home Loan Bank that is held as a condition of membership in that Bank.

35 For risk-based capital purposes, a conditional guarantee is deemed to exist if the validity of the guarantee by the OECD central government or the U.S. Government agency is dependent upon some affirmative action (e.g., servicing requirements on the part of the beneficiary of the guarantee). Portions of claims that are unconditionally guaranteed by OECD central governments or U.S. Government agencies are assigned to the zero percent risk category.

36 Claims on, or guaranteed by, states or other political subdivisions of countries that do not belong to the OECD-based group of countries are to be placed in the 100 percent risk weight category.

37 If a bank holds the first and junior lien(s) on a residential property and no other party holds an intervening lien, the transactions are treated as a single loan secured by a first lien for purposes of determining the loan-to-value ratio and assigning a risk weight.

38 For risk-based capital purposes, the loan-to-value ratio generally is based upon the most current appraised value of the property. The appraisal should be performed in a manner consistent with the Federal banking agencies’ real estate appraisal guidelines and with the bank’s own appraisal guidelines.

39 This category would also include a first-lien residential mortgage loan on a one-to-four family property that was appropriately assigned a 50 percent risk weight pursuant to this section immediately prior to modification (on a permanent or trial basis) under the Home Affordable Mortgage Program established by the U.S. Department of Treasury, so long as the loan, as modified, is not 90 days or more past due or in nonaccrual status and meets other applicable criteria for a 50 percent risk weight. In addition, real estate loans that do not meet all of the specified criteria or that are made for the purpose of property development are placed in the 100 percent risk category.
The types of loans that qualify as loans secured by one-to-four family residential properties are listed in the instructions for preparation of the Consolidated Reports of Condition and Income. These properties may be either owner-occupied or rented. In addition, for risk-based capital purposes, loans secured by one-to-four family residential properties include loans to builders with substantial project equity for the construction of one-to-four family residences that have been presold under firm contracts to purchasers who have obtained firm commitments for permanent qualifying mortgage loans and have made substantial earnest money deposits. Such loans to builders will be considered prudently underwritten only if the bank has obtained sufficient documentation that the buyer of the home intends to purchase the home (i.e., has a legally binding written sales contract) and has the ability to obtain a mortgage loan sufficient to purchase the home (i.e., has a firm written commitment for permanent financing of the home upon completion), provided the following criteria are met:

By order of the Board of Directors:

1. The purchaser is an individual(s) who intends to occupy the residence and is not a partnership, joint venture, trust, corporation, or any other entity (including an entity acting as a sole proprietorship) that is purchasing one or more of the homes for speculative purposes;

2. The builder must incur at least the first ten percent of the direct costs (i.e., actual costs of the land, labor, and materials) before any drawdown is made under the construction loan and the construction loan may not exceed 80 percent of the sales price of the presold home;

3. The purchaser has made a substantial “earnest money deposit” of no less than three percent of the sales price of the home and the deposit must be subject to forfeiture if the purchaser terminates the sales contract; and

4. The earnest money deposit must be held in escrow by the bank financing the builder or by an independent party in a fiduciary capacity and the escrow agreement must provide that, in the event of default arising from the cancellation of the sales contract by the buyer, the escrow funds must first be used to defray any costs incurred by the bank.

b. This category also includes loans fully secured by first liens on multifamily residential properties, provided that:

(1) The loan amount does not exceed 80 percent of the value of the property securing the loan as determined by the most current appraisal or evaluation, whichever may be appropriate (75 percent if the interest rate on the loan changes over the term of the loan);

(2) For the property’s most recent fiscal year, the ratio of annual net operating income generated by the property (before payment of any debt service on the loan) to annual debt service on the loan is not less than 120 percent (115 percent if the interest rate on the loan changes over the term of the loan) or, in the case of a property owned by a cooperative housing corporation or nonprofit organization, the property generates sufficient cash flow to provide comparable protection to the bank;

(3) Amortization of principal and interest on the loan occurs over a period of not more than 30 years;

(4) The minimum original maturity for repayment of principal on the loan is not less than seven years;

(5) All principal and interest payments have been made on a timely basis in accordance with the terms of the loan for at least one year before the loan is placed in this category;

(6) The loan is not 90 days or more past due or carried in nonaccrual status; and

(7) The loan has been made in accordance with prudent underwriting standards.

c. This category also includes revenue (non-general obligation) bonds or similar obligations, including loans and leases, that are family residential property loans sold subject to a pro rata loss sharing arrangement which provides for the purchaser of the loan to share in any loss incurred on the loan on a pro rata basis with the selling bank, that portion of the loan is not subject to the risk-based capital standards. In connection with sales of multifamily residential property loans in which the purchaser of the loan shares in any loss incurred on the loan with the selling bank on other than a pro rata basis, the selling bank must treat these other loss sharing arrangements in accordance with section II.B.5 of this appendix A.

41 At the origination of a loan to purchase an existing property, the term “value” means the lesser of the actual acquisition cost or the estimate of value set forth in an appraisal or evaluation, whichever may be appropriate.

42 In the case where the existing owner of a multifamily residential property refinances a loan on that property, all principal and interest payments on the loan being refinanced must have been made on a timely basis in accordance with the terms of that loan for at least the preceding year. The new loan must meet all of the other eligibility criteria in order to qualify for a 50 percent risk weight.
obligations of states or political subdivisions of the United States or other OECD countries, but for which the government entity is committed to repay the debt with revenues from the specific projects financed, rather than from general tax funds (e.g., municipal revenue bonds). In addition, the credit equivalent amount of derivative contracts that do not qualify for a lower risk weight are assigned to the 50 percent risk category.

d. This category also includes recourse obligations, direct credit substitutes, residual interests (other than a credit-enhancing interest-only strip) and asset- or mortgage-backed securities rated in the third highest investment grade category, e.g., A-2, P-2, in the case of short-term ratings.

Category 4—100 Percent Risk Weight. (a) All assets not included in the categories above in section II.C of this appendix A, except the assets specifically included in the 200 percent category below in section II.C of this appendix A, and assets that are otherwise risk weighted in accordance with section II.B.5 of this appendix A, are assigned to this category, which comprises standard risk assets.

(b) This category includes:

(1) Long-term claims on, and the portions of long-term claims that are guaranteed by, non-OECD banks, and all claims on non-OECD central governments that entail some degree of transfer risk; 43
(2) All claims on foreign and domestic private-sector obligors not included in the categories above in section II.C of this appendix A (including loans to nondepository financial institutions and bank holding companies);
(3) Claims on commercial firms owned by the public sector;
(4) Customer liabilities to the bank on acceptances outstanding involving standard risk claims; 44

43 Such assets include all non-local currency claims on, and the portions of claims that are guaranteed by, non-OECD central governments and those portions of local currency claims on, or guaranteed by, non-OECD central governments that exceed the local currency liabilities held by the bank.

44 Customer liabilities on acceptances outstanding involving nonstandard risk claims, such as claims on U.S. depository institutions, are assigned to the risk category appropriate to the identity of the obligor or, if relevant, the nature of the collateral or guarantees backing the claims. Portions of acceptances conveyed as risk participations to U.S. depository institutions or foreign banks are assigned to the 20 percent risk category appropriate to short-term claims guaranteed by U.S. depository institutions and foreign banks.

(5) Investments in fixed assets, premises, and other real estate owned;
(6) Common and preferred stock of corporations, including stock acquired for debt previously contracted;
(7) Commercial and consumer loans (except those assigned to lower risk categories due to recognized guarantees or collateral and loans secured by residential property that qualify for a lower risk weight);
(8) Recourse obligations, direct credit substitutes, residual interests (other than a credit-enhancing interest-only strip) and asset-or mortgage-backed securities rated in the lowest investment grade category, e.g., BBB, as well as certain positions in residual interests which the bank rates pursuant to section section II.B.5(g) of this appendix A;
(9) Industrial-development bonds and similar obligations issued under the auspices of states or political subdivisions of the OECD-based group of countries for the benefit of a private party or enterprise where that party or enterprise, not the government entity, is obligated to pay the principal and interest;
(10) All obligations of states or political subdivisions of countries that do not belong to the OECD-based group and;
(11) Stripped mortgage-backed securities and similar instruments, such as interest-only strips that are not credit-enhancing and principal-only strips.
(12) Claims representing capital of a qualifying securities firm.

(c) The following assets also are assigned a risk weight of 100 percent if they have not already been deducted from capital, investments in unconsolidated companies, joint ventures, or associated companies; instruments that qualify as capital issued by other banks; deferred tax assets; and mortgage servicing assets, nonmortgage servicing assets, and purchased credit card relationships.

(d) Subject to the requirements below, a bank may assign an asset not included in the categories above to the risk weight category applicable under the capital guidelines for bank holding companies (12 CFR part 225, appendix A), provided that all of the following conditions apply:

(1) The bank is not authorized to hold the asset under applicable law other than debt previously contracted or similar authority; and
(2) The risks associated with the asset are substantially similar to the risks of assets that are otherwise assigned to a risk weight category less than 100 percent under this appendix.

Category 5—200 Percent Risk Weight. This category includes:
(a) Externally rated recourse obligations, direct credit substitutes, residual interests...
D. Conversion Factors for Off-Balance Sheet Items (see Table III)

The face amount of an off-balance sheet item is generally incorporated into the risk-weighted assets in two steps. The face amount is first multiplied by a credit conversion factor, except as otherwise specified in section II.B.5 of this appendix A for direct credit substitutes and recourse obligations. The resultant credit equivalent amount is assigned to the appropriate risk category according to the obligor or, if relevant, the guarantor, the nature of any collateral, or external credit ratings.

1. Items With a 100 Percent Conversion Factor. (a) Except as otherwise provided in section II.B.5 of this appendix A, the full amount of an asset or transaction supported, in whole or in part, by a direct credit substitute or a recourse obligation. Direct credit substitutes and recourse obligations are defined in section II.B.5 of this appendix A.

(b) Sale and repurchase agreements, if not already included on the balance sheet, and forward agreements. Forward agreements are legally binding contractual obligations to purchase assets with drawdown which is certain at a specified future date. Such obligations include forward purchases, forward foreign exchange contracts, and commercial and consumer credit commitments, including underwriting commitments and commitments to make residential mortgage loans or forward foreign exchange contracts.

(c) Securities lent by a bank are treated in one of two ways, depending upon whether the lender is exposed to risk of loss. If a bank, as agent for a customer, lends its own securities or, acting as agent for a customer, lends the customer’s securities and does not indemnify the customer against loss, then the securities transaction is excluded from the risk-based capital calculation. On the other hand, if a bank lends its own securities or, acting as agent for a customer, lends the customer’s securities and indemnifies the customer against loss, the transaction is converted at 100 percent and assigned to the risk weight category appropriate to the obligor or, if applicable, to the collateral delivered to the lending bank or the independent custodian acting on the lending bank’s behalf.

2. Items With a 50 Percent Conversion Factor. (a) Transaction-related contingencies are to be converted at 50 percent. Such contingencies include bid bonds, performance bonds, warranties, and performance standby letters of credit related to particular transactions, as well as acquisitions of risk participations in performance standby letters of credits. Performance standby letters of credit (performance bonds) are irrevocable obligations of the bank to pay a third-party beneficiary when a customer (account party) fails to perform on some contractual non-financial obligation. Thus, performance standby letters of credit represent obligations backing the performance of non-financial or commercial contracts or undertakings. To the extent permitted by law or regulation, performance standby letters of credit include arrangements backing, among other things, subcontractors’ and suppliers’ performance, labor and materials contracts, and construction bids.

(b) The unused portion of commitments with an original maturity exceeding one year, including underwriting commitments and commercial and consumer credit commitments, are to be converted at 50 percent. Original maturity is defined as the length of time between the date the commitment is issued and the earliest date on which: (1) The bank can at its option, unconditionally (without cause) cancel the commitment, and (2) the bank is scheduled to (and as a normal practice actually does) review the facility to determine whether or not it should be extended and, on at least an annual basis, continues to regularly review the facility. Facilities that are unconditionally cancelable (without cause) at any time by the bank are not deemed to be commitments, provided the bank makes a separate credit decision before each drawing under the facility.

---

47 The sufficiency of collateral and guarantees for off-balance-sheet items is determined by the market value of the collateral or the amount of the guarantee in relation to the face amount of the item, except for derivative contracts, for which this determination is generally made in relation to the credit equivalent amount. Collateral and guarantees are subject to the same provisions noted under section II.B of this appendix A.

48 The sufficiency of collateral and guarantees for off-balance-sheet items is determined by the market value of the collateral or the amount of the guarantee in relation to the face amount of the item, except for derivative contracts, for which this determination is generally made in relation to the credit equivalent amount. Collateral and guarantees are subject to the same provisions noted under section II.B of this appendix A.

49 Forward forward deposits accepted are treated as interest rate contracts.
Federal Deposit Insurance Corporation

Pt. 325, App. A

c.i. Commitments are defined as any legally binding arrangements that obligate a bank to extend credit in the form of loans or lease financing receivables; to purchase loans, notes, or other assets; or to participate in loans and leases. Commitments also include overdraft facilities, revolving credit, home equity and mortgage lines of credit, and similar transactions. Normally, commitments involve a written contract or agreement and a commitment fee, or some other form of consideration. Commitments are included in weighted-risk assets regardless of whether they contain material adverse change clauses or other provisions that are intended to relieve the issuer of its funding obligation under certain conditions. In the case of commitments structured as syndications, where the bank is obligated solely for its pro rata share, only the bank’s proportional share of the syndicated commitment is taken into account in calculating the risk-based capital ratio.

ii. Banks that are subject to the market risk rules in appendix C to part 325 are required to convert the notional amount of eligible ABCP liquidity facilities, in form or in substance, with an original maturity of over one year that are carried in the trading account at 50 percent to determine the appropriate credit equivalent amount even though those facilities are structured or characterized as derivatives or other trading book assets. Liquidity facilities that support ABCP, in form or in substance, (including those positions to which the market risk rules may not be applied as set forth in section 21(a) of appendix C of this part) that are not eligible ABCP liquidity facilities are to be considered recourse obligations or direct credit substitutes, and assessed the appropriate risk-based capital requirement in accordance with section II.B.5. of this appendix.

d. In the case of commitments structured as syndications where the bank is obligated only for its pro rata share, the risk-based capital framework includes only the bank’s proportional share of such commitments. Thus, after a commitment has been converted at 50 percent, portions of commitments that have been conveyed to other U.S. depository institutions or OECD banks, but for which the originating bank retains the full obligation to the borrower if the participating bank fails to pay when the commitment is drawn upon, will be assigned to the 20 percent risk category. The acquisition of such a participation in a commitment would be converted at 50 percent and the credit equivalent amount would be assigned to the risk category that is appropriate for the account party obligor or, if relevant, to the nature of the collateral or guarantees.

e. Revolving underwriting facilities (RUFs), note issuance facilities (NIFs), and other similar arrangements also are converted at 50 percent. These are facilities under which a borrower can issue on a revolving basis short-term notes in its own name, but for which the underwriting banks have a legally binding commitment either to purchase any notes the borrower is unable to sell by the rollover date or to advance funds to the borrower.

3. Items With a 20 Percent Conversion Factor. Short-term, self-liquidating, trade-related contingencies which arise from the movement of goods are converted at 20 percent. Such contingencies include commercial letters of credit and other documentary letters of credit collateralized by the underlying shipments.

4. Items With a 10 Percent Conversion Factor. a. Unused portions of eligible ABCP liquidity facilities with an original maturity of one year or less that provide liquidity support to ABCP also are converted at 10 percent.

b. Banks that are subject to the market risk rules in appendix C to part 325 are required to convert the notional amount of eligible ABCP liquidity facilities, in form or in substance, with an original maturity of one year or less that are carried in the trading account at 10 percent to determine the appropriate credit equivalent amount even though those facilities are structured or characterized as derivatives or other trading book assets. Liquidity facilities that provide liquidity support to ABCP, in form or in substance, (including those positions to which the market risk rules may not be applied as set forth in section 21(a) of appendix C of this part) that are not eligible ABCP liquidity facilities are to be considered recourse obligations or direct credit substitutes and assessed the appropriate risk-based capital requirement in accordance with section II.B.5. of this appendix.

5. Items With a Zero Percent Conversion Factor. These include unused portions of commitments, with the exception of eligible ABCP liquidity facilities, with an original maturity of one year or less, or which are unconditionally cancelable at any time, provided a separate credit decision is made before each drawing under the facility. Unused portions of retail credit card lines and related plans are deemed to be short-term commitments if the bank, in accordance with applicable law, has the unconditional option to cancel the credit line at any time.

E. Derivative Contracts (Interest Rate, Exchange Rate, Commodity (including precious metal) and Equity Derivative Contracts)

1. Credit equivalent amounts are computed for each of the following off-balance-sheet derivative contracts:

(a) Interest Rate Contracts
   (i) Single currency interest rate swaps.
   (ii) Basis swaps.
   (iii) Forward rate agreements.
   (iv) Interest rate options purchased (including caps, collars, and floors purchased).
(v) Any other instrument linked to interest rates that gives rise to similar credit risks (including when-issued securities and forward deposits accepted).

(b) Exchange Rate Contracts

(i) Cross-currency interest rate swaps.

(ii) Forward foreign exchange contracts.

(iii) Currency options purchased.

(iv) Any other instrument linked to exchange rates that gives rise to similar credit risks.

(c) Commodity (including precious metal) or Equity Derivative Contracts

(i) Commodity- or equity-linked swaps.

(ii) Commodity- or equity-linked options purchased.

(iii) Forward commodity- or equity-linked contracts.

(iv) Any other instrument linked to commodities or equities that gives rise to similar credit risks.

2. Exchange rate contracts with an original maturity of 14 calendar days or less and derivative contracts traded on exchanges that require daily receipt and payment of cash variation margin may be excluded from the risk-based ratio calculation. Gold contracts are accorded the same treatment as exchange rate contracts except gold contracts with an original maturity of 14 calendar days or less are included in the risk-based calculation. Over-the-counter options purchased are included and treated in the same way as other derivative contracts.

3. Credit Equivalent Amounts for Derivative Contracts. (a) The credit equivalent amount of a derivative contract that is not subject to a qualifying bilateral netting contract in accordance with section II.E.5. of this appendix A is equal to the sum of:

(i) The current exposure (which is equal to the mark-to-market value, if positive, and is sometimes referred to as the replacement cost) of the contract; and

(ii) An estimate of the potential future credit exposure.

(b) The current exposure is determined by the mark-to-market value of the contract. If the mark-to-market value is positive, then the current exposure is equal to that mark-to-market value. If the mark-to-market value is zero or negative, then the current exposure is zero.

(c) The potential future credit exposure of a contract, including a contract with a negative mark-to-market value, is estimated by multiplying the notional principal amount of the contract by a credit conversion factor. Banks should, subject to examiner review, use the effective rather than the apparent or stated notional amount in this calculation. The credit conversion factors are:

<table>
<thead>
<tr>
<th>Remaining maturity</th>
<th>Interest rate</th>
<th>Exchange rate and gold</th>
<th>Equity</th>
<th>Precious metals, except gold</th>
<th>Other commodities</th>
</tr>
</thead>
<tbody>
<tr>
<td>One year or less</td>
<td>0.0%</td>
<td>0.0%</td>
<td>6.0%</td>
<td>7.0%</td>
<td>10.0%</td>
</tr>
<tr>
<td>More than one year to five years</td>
<td>0.5%</td>
<td>0.5%</td>
<td>6.0%</td>
<td>7.0%</td>
<td>12.0%</td>
</tr>
<tr>
<td>More than five years</td>
<td>1.5%</td>
<td>1.5%</td>
<td>10.0%</td>
<td>8.0%</td>
<td>15.0%</td>
</tr>
</tbody>
</table>

(d) For contracts that are structured to settle outstanding exposure on specified dates and where the terms are reset such that the market value of the contract is zero on these specified dates, the remaining maturity is equal to the time until the next reset date. For interest rate contracts with remaining maturities of more than one year and that meet these criteria, the conversion factor is subject to a minimum value of 0.5 percent.

(e) For contracts with multiple exchanges of principal, the conversion factors are to be multiplied by the number of remaining payments in the contract. Derivative contracts not explicitly covered by any of the columns of the conversion factor matrix are to be treated as “other commodities.”

(f) No potential future credit exposure is calculated for single currency interest rate swaps in which payments are made based upon two floating rate indices (so called floating-floating or basis swaps); the credit exposure on these contracts is evaluated solely on the basis of their mark-to-market values.

4. Risk Weights and Avoidance of Double Counting. (a) Once the credit equivalent amount for a derivative contract, or a group of derivative contracts subject to a qualifying bilateral netting agreement, has been determined, that amount is assigned to the risk category appropriate to the counterparty, or, if relevant, the guarantor or the nature of any collateral. However, the maximum weight that will be applied to the credit equivalent amount of such contracts is 50 percent.

(b) In certain cases, credit exposures arising from the derivative contracts covered by

---

Mark-to-market values are measured in dollars, regardless of the currency or currencies specified in the contract and should reflect changes in both underlying rates, prices and indices, and counterparty credit quality.
these guidelines may already be reflected, in part, on the balance sheet. To avoid double counting such exposures in the assessment of capital adequacy and, perhaps, assigning inappropriate risk weights, counterparty credit exposures arising from the types of instruments covered by these guidelines may need to be excluded from balance sheet assets in calculating a bank's risk-based capital ratio.

(c) The FDIC notes that the conversion factors set forth in section II.E.3. of appendix A, which are based on observed volatilities of the particular types of instruments, are subject to review and modification in light of changing volatilities or market conditions.

(d) Examples of the calculation of credit equivalent amounts for these types of contracts are contained in Table IV of this appendix A.

5. Netting. (a) For purposes of this appendix A, netting refers to the offsetting of positive and negative mark-to-market values when determining a current exposure to be used in the calculation of a credit equivalent amount. Any legally enforceable form of bilateral netting (that is, netting with a single counterparty) of derivative contracts is recognized for purposes of calculating the credit equivalent amount provided that:

(i) The netting is accomplished under a written netting contract that creates a single legal obligation, covering all included individual contracts, with the effect that the bank would have a claim or obligation to receive or pay, respectively, only the net amount of the sum of the positive and negative mark-to-market values on included individual contracts in the event that a counterparty, or a counterparty to whom the contract has been validly assigned, fails to perform due to default, bankruptcy, liquidation, or similar circumstances;

(ii) The bank obtains a written and reasoned legal opinion(s) representing that in the event of a legal challenge, including one resulting from default, insolvency, bankruptcy or similar circumstances, the relevant court and administrative authorities would find the bank's exposure to be such a net amount under:

(I) The law of the jurisdiction in which the counterparty is chartered or the equivalent location in the case of noncorporate entities and, if a branch of the counterparty is involved, then also under the law of the jurisdiction in which the branch is located;

(2) The law that governs the individual contracts covered by the netting contract; and

(3) The law that governs the netting contract.

(iii) The bank establishes and maintains procedures to ensure that the legal characteristics of netting contracts are kept under review in the light of possible changes in relevant law; and

(iv) The bank maintains in its file documentation adequate to support the netting of derivative contracts, including a copy of the bilateral netting contract and necessary legal opinions.

(b) A contract containing a walkaway clause is not eligible for netting for purposes of calculating the credit equivalent amount.

(c) By netting individual contracts for the purpose of calculating its credit equivalent amount, a bank represents that it has met the requirements of this appendix A and all the appropriate documents are in the bank's files and available for inspection by the FDIC. Upon determination by the FDIC that a bank's files are inadequate or that a netting contract may not be legally enforceable under any one of the bodies of law described in paragraphs (ii)(1) through (3) of section II.E.3.(a) of this appendix A, underlying individual contracts may be treated as though they were not subject to the netting contract.

(d) The credit equivalent amount of derivative contracts that are subject to a qualifying bilateral netting contract is calculated by adding:

(i) The net current exposure of the netting contract; and

(ii) The sum of the estimates of potential future exposure for all individual contracts subject to the netting contract, adjusted to take into account the effects of the netting contract.

(e) The net current exposure is the sum of all positive and negative mark-to-market values of the individual contracts subject to the netting contract. If the net sum of the mark-to-market values is positive, then the net current exposure is equal to that sum. If the net sum of the mark-to-market values is zero or negative, then the net current exposure is zero.

(f) The effects of the bilateral netting contract on the gross potential future exposure are recognized through application of a formula, resulting in an adjusted add-on amount ($A_{adj}$). The formula, which employs

\[ A_{adj} = \text{Net Current Exposure} \times \text{Conversion Factor} \]

50 For purposes of this section, a walkaway clause means a provision in a netting contract that permits a non-defaulting counterparty to make negative payments that it would make otherwise under the contract, or no payment at all, to a defaulter or to the estate of a defaulter, even if a defaulter or the estate of a defaulter is a net creditor under the contract.

51 For purposes of calculating potential future credit exposure for foreign exchange contracts and other similar contracts in which notional principal is equivalent to cash flows, total notional principal is defined as the net receipts to each party falling due on each value date in each currency.
the ratio of net current exposure to gross current exposure (NGR) is expressed as:

\[ A_{\text{net}} = (0.4 \times A_{\text{gross}}) + 0.6(\text{NGR} \times A_{\text{gross}}) \]

The effect of this formula is that \( A_{\text{net}} \) is the weighted average of \( A_{\text{gross}} \) and \( A_{\text{gross}} \) adjusted by the NGR.

(g) The NGR may be calculated in either one of two ways—referred to as the counterparty-by-counterparty approach and the aggregate approach.

(i) Under the counterparty-by-counterparty approach, the NGR is the ratio of the net current exposure of the netting contract to the gross current exposure of the netting contract. The gross current exposure is the sum of the current exposures of all individual contracts subject to the netting contract calculated in accordance with section II.E. of this appendix A.

(ii) Under the aggregate approach, the NGR is the ratio of the sum of all of the net current exposures for qualifying bilateral netting contracts to the sum of all of the gross current exposures for those netting contracts (each gross current exposure is calculated in the same manner as in section II.E.5.(g)(i) of this appendix A). Net negative mark-to-market values to individual counterparties cannot be used to offset net positive current exposures to other counterparties.

(iii) A bank must use consistently either the counterparty-by-counterparty approach or the aggregate approach to calculate the NGR. Regardless of the approach used, the NGR should be applied individually to each qualifying bilateral netting contract to determine the adjusted add-on for that netting contract.

### III. MINIMUM RISK-BASED CAPITAL RATIO

Subject to section II.B.5. of this appendix A, banks generally will be expected to meet a minimum ratio of qualifying total capital to risk-weighted assets of 8 percent, of which at least 4 percentage points should be in the form of core capital (Tier 1). Any bank that does not meet the minimum risk-based capital ratio, or whose capital is otherwise considered inadequate, generally will be expected to develop and implement a capital plan for achieving an adequate level of capital, consistent with the provisions of this risk-based capital framework and §325.104, the specific circumstances affecting the individual bank, and the requirements of any related agreements between the bank and the FDIC.

#### TABLE I—DEFINITION OF QUALIFYING CAPITAL

<tbody>
<tr>
<td>TOTAL CAPITAL</td>
<td>Must equal or exceed 8% of weighted-risk assets.</td>
</tr>
</tbody>
</table>

1. No express limits are placed on the amounts of non-voting common, non-cumulative perpetual preferred stock, and minority interests that may be recognized as part of Tier 1 capital. However, voting common stockholders' equity capital generally will be expected to be the dominant form of Tier 1 capital and banks should avoid undue reliance on other Tier 1 capital elements.

2. The amounts of mortgage servicing assets, non-mortgage servicing assets and purchased credit card relationships that can be recognized for purposes of calculating Tier 1 capital are subject to the limitations set forth in §325.5(e). All deductions are for capital purposes only; deductions would not affect accounting treatment.

3. The amounts of credit-enhancing interest-only strips that can be recognized for purposes of calculating Tier 1 capital are subject to the limitations set forth in §325.5(f). The amounts of nonfinancial equity investments that must be deducted for purposes of calculating Tier 1 capital are set forth in section II.B.(6) of appendix A to part 325.

4. Amounts in excess of limitations are permitted but do not qualify as capital.

5. Unrealized gains on equity securities are subject to the capital limitations set forth in paragraph I.A(2)(f) of appendix A to part 325.

**CALCULATION OF THE RISK-BASED CAPITAL RATIO**

When calculating the risk-based capital ratio under the framework set forth in this statement of policy, qualifying total capital (the numerator) is divided by risk-weighted assets (the denominator). The process of determining the numerator for the ratio is summarized in Table I. The calculation of the denominator is based on the risk weights and conversion factors that are summarized in Tables II and III.

When determining the amount of risk-weighted assets, balance sheet assets are assigned an appropriate risk weight (see Table II) and off-balance sheet items are first converted to a credit equivalent amount (see Table III) and then assigned to one of the risk weight categories set forth in Table II. The balance sheet assets and the credit equivalent amount of off-balance sheet items are then multiplied by the appropriate risk weight percentages and the sum of these risk-weighted amounts is the gross risk-weighted asset figure used in determining the denominator of the risk-based capital ratio. Any items deducted from capital when computing the amount of qualifying capital may also be excluded from risk-weighted assets when calculating the denominator for the risk-based capital ratio.

**TABLE II—SUMMARY OF RISK WEIGHTS AND RISK CATEGORIES**

**Category I—Zero Percent Risk Weight**

1. Cash (domestic and foreign).
2. Balances due from Federal Reserve Banks and central banks in other OECD countries.
3. Direct claims on, and portions of claims unconditionally guaranteed by, the U.S. Treasury, U.S. Government agencies,1 or central governments in other OECD countries.

1. For the purpose of calculating the risk-based capital ratio, a U.S. Government agency is defined as an instrumentality of the U.S. Government whose obligations are fully and explicitly guaranteed as to the timely repayment of principal and interest by the full faith and credit of the U.S. Government.
(5) Securities and other claims on, and portions of claims guaranteed by, U.S. Government-sponsored agencies.2

(6) Portions of loans and other claims (including repurchase agreements) collateralized3 by securities issued or guaranteed by the U.S. Treasury, U.S. Government agencies, U.S. Government-sponsored agencies or central governments in other OECD countries.

(7) Portions of loans and other claims collateralized3 by cash on deposit in the lending bank.

(8) General obligation claims on, and portions of claims guaranteed by, the full faith and credit of states or other political subdivisions of OECD countries, including U.S. state and local governments.

(9) Claims on, and portions of claims guaranteed by, official multilateral lending institutions or regional development institutions in which the U.S. Government is a shareholder or contributing member.

(10) Portions of claims collateralized3 by securities issued by official multilateral lending institutions or regional development institutions in which the U.S. Government is a shareholder or contributing member.

(11) Investments in shares of mutual funds whose portfolios are permitted to hold only assets that qualify for the zero or 20 percent risk categories.

(12) Recourse obligations, direct credit substitutes, residual interests (other than credit-enhancing interest-only strips) and asset or mortgage-backed securities rated in either of the two highest investment grade categories, e.g., AAA or AA, in the case of long-term ratings, or the highest rating category, e.g., A–1, P–1, in the case of short-term ratings.

(13) Claims on, and claims guaranteed by, qualifying securities firms incorporated in the United States or other member of the OECD-based group of countries provided that:
   a. The qualifying securities firm has a rating in one of the top three investment grade rating categories from a nationally recognized statistical rating organization; or
   b. The claim is guaranteed by a qualifying securities firm’s parent company with such a rating.

(14) Certain collateralized claims on qualifying securities firms in the United States or other member of the OECD-based group of countries, without regard to satisfaction of the rating standard, provided that the claim arises under a contract that:
   a. Is a reverse repurchase/repurchase agreement or securities lending/borrowing transaction executed under standard industry documentation;
   b. Is collateralized by liquid and readily marketable debt or equity securities;
   c. Is marked to market daily;
   d. Is subject to a daily margin maintenance requirement under the standard documentation; and
   e. Can be liquidated, terminated, or accelerated immediately in bankruptcy or similar proceeding, and the security or collateral agreement will not be stayed or avoided under applicable law of the relevant country.

**Category 3—50 Percent Risk Weight**

(1) Loans fully secured by first liens on one-to-four family residential properties (including certain presold residential construction loans), provided that the loans were approved in accordance with prudent underwriting standards and are not past due 90 days or more or carried in nonaccrual status.

(2) Loans fully secured by first liens on multifamily residential properties that have been prudently underwritten and meet specified requirements with respect to loan-to-value ratio, level of annual net operating income to required debt service, maximum amortization period, minimum original maturity, and demonstrated timely repayment performance.

(3) Recourse obligations, direct credit substitutes, residual interests (other than credit-enhancing interest-only strips) and asset or mortgage-backed securities rated in the third-highest investment grade category, e.g., A, in the case of long-term ratings or the second highest rating category, e.g., A–2, P–2, in the case of short-term ratings.

(4) Revenue bonds or similar obligations, including loans and leases, that are obligations of U.S. state or political subdivisions of the United States or other OECD countries but for which the government entity is committed to repay the debt only out of revenues from the specific projects financed.

(5) Credit equivalent amounts of interest rate and foreign exchange rate related contracts, except for those assigned to a lower risk category.

**Category 4—100 Percent Risk Weight**

(1) All other claims on private obligors.

(2) Claims on, or guaranteed by, non-OECD banks with a remaining maturity exceeding one year.

(3) Claims on non-OECD central governments that are not included in item 4 of Category 1 or item 3 of Category 2, and all

---

2 For the purpose of calculating the risk-based capital ratio, a U.S. Government-sponsored agency is defined as an agency originally established or chartered to serve public purposes specified by the U.S. Congress but whose obligations are not explicitly guaranteed by the full faith and credit of the U.S. Government.

3 Degree of collateralization is determined by current market value.
section II.B.5(g) of this appendix A.
(10) All other assets, including any intangible assets that are not deducted from capital, and the credit equivalent amounts for off-balance sheet items not assigned to a different risk category. Category 5—200 Percent Risk Weight.
(1) Externally rated recourse obligations, direct credit substitutes, residual interests (other than credit-enhancing interest-only strips), and asset- or mortgage-backed securities rated in the lowest investment grade category, e.g., BBB, as well as certain positions (but not residual interests) which the bank rates pursuant to section II.B.5(g) of this appendix A.
(2) A position (but not a residual interest) extended in connection with a securitization or structured financing program that is not rated by an NRSRO for which the bank determines that the credit risk is equivalent to one category below investment grade, e.g., BB, to the extent permitted in section II.B.5(g) of this appendix A.

Editorial Notes: 1. For Federal Register citations affecting appendix A to part 325, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.
2. At 76 FR 37629, June 28, 2011, appendix A to part 325 was amended, however, the amendment could not be incorporated due to

In general, for each off-balance sheet item, a conversion factor (see Table III) must be applied to determine the “credit equivalent amount” prior to assigning the off-balance sheet item to a risk weight category.
8 percent, with at least one-half of that total capital amount consisting of Tier I capital. State nonmember banks (hereinafter referred to as “banks”) operating with leverage capital ratios below the minimums set forth in part 325 will be deemed to have inadequate capital and will be in violation of the part 325 regulation. Furthermore, banks operating with risk-based capital ratios below the minimums set forth in appendix A to part 325 generally will be deemed to have inadequate capital. Banks failing to meet the minimum leverage and/or risk-based capital ratios normally can expect to have any application submitted to the FDIC denied (if such application requires the FDIC to evaluate the adequacy of the institution’s capital structure) and also can expect to be subject to the use of capital directives or other formal enforcement action by the FDIC to increase capital.

Capital adequacy in banks which have capital ratios at or above the minimums will be assessed and enforced based on the following factors (these same criteria will apply to any insured depository institutions making applications to the FDIC and to any other circumstances in which the FDIC is requested or required to evaluate the adequacy of a depository institution’s capital structure):

A. Banks Which Are Fundamentally Sound and Well-Managed

The minimum leverage capital ratios set forth in §325.3(b)(2) and the minimum risk-based capital ratios set forth in section III of appendix A to part 325 generally will be viewed as the minimum acceptable capital standards for banks whose overall financial condition is fundamentally sound, which are well-managed and which have no material or significant financial weaknesses. While the FDIC will make this determination in each bank based upon its own condition and specific circumstances, this definition will generally apply to those banks evidencing a level of risk which is no greater than that normally associated with a Composite rating of 1 or 2 under the Uniform Financial Institutions Rating System. Banks meeting this definition which are in compliance with the minimum leverage and risk-based capital ratio standards will not generally be required by the FDIC to raise new capital from external sources.

The FDIC does, however, encourage such banks to maintain capital well above the minimums, particularly those institutions that are anticipating or experiencing significant growth, and will carefully evaluate their earnings and growth trends, dividend policies, capital planning procedures and other factors important to the continuous maintenance of adequate capital. Adverse trends or deficiencies in these areas will be subject to criticism at regular examinations and may be an important factor in the FDIC’s action on applications submitted by such banks. In addition, the FDIC’s consideration of capital adequacy in banks making applications to the FDIC will also fully examine the expected impact of those applications on the bank’s ability to maintain its capital adequacy. In all cases, banks should maintain capital commensurate with the level and nature of risks, including the volume and severity of adversely classified assets, to which they are exposed.

B. All Other Banks

Banks not meeting the definition set forth in I.A. of this appendix, that is, banks evidencing a level of risk which is at least as great as that normally associated with a Composite rating of 3, 4, or 5 under the Uniform Financial Institutions Rating System, will be required to maintain capital higher than the minimum regulatory requirement and at a level deemed appropriate in relation to the degree of risk within the institution. These higher capital levels will normally be addressed through memorandums of understanding between the FDIC and the bank or, in cases of more pronounced risk, through the use of formal enforcement actions under section 8 of the Federal Deposit Insurance Act (12 U.S.C. 1818).

C. Capital Requirements of Primary Regulator

Notwithstanding I.A. and B. of this appendix, all banks (or other depository institutions making applications to the FDIC that require the FDIC to consider the adequacy of the institutions’ capital structure) will be expected to meet any capital requirements established by their primary state or federal regulator which exceed the minimum capital requirement set forth in the FDIC’s part 325 regulation. In addition, the FDIC will, when establishing capital requirements higher than the minimum set forth in the regulation, consult with an institution’s primary state or federal regulator.

II. CAPITAL PLANS

Section 325.4(b) specifies that any bank which has less than its minimum leverage capital requirement is deemed to be engaging in an unsafe or unsound banking practice unless it has submitted, and is in compliance with, a plan approved by the FDIC to increase its Tier 1 leverage capital ratio to such level as the FDIC deems appropriate. As required under §325.194(a)(1) of this part, a bank must file a written capital restoration plan with the appropriate FDIC regional director within 45 days of the date that the bank receives notice or is deemed to have notice that the bank is undercapitalized, significantly undercapitalized or critically undercapitalized, unless the FDIC notifies the bank in writing that the plan is to be filed within a different period. The amount
of time allowed to achieve the minimum leverage capital requirement will be evaluated by the FDIC on a case-by-case basis and will depend on a number of factors, including the viability of the bank and whether it is fundamentally sound and well-managed.

Banks evidencing more than normal levels of risk will normally have their minimum capital requirements established in a formal or informal enforcement proceeding. The time frames for meeting these requirements will be set forth in such actions and will generally require some immediate action on the bank's part to meet its minimum capital requirement. The reasonableness of capital plans submitted by depository institutions in connection with applications as provided for in §325.3(d)(2) will be determined in conjunction with the FDIC's consideration of the application.

III. WRITTEN AGREEMENTS

Section 325.4(c) provides that any insured depository institution with a Tier 1 capital to total assets (leverage) ratio of less than 2 percent must enter into and be in compliance with a written agreement with the FDIC (or with its primary federal regulator with FDIC as a party to the agreement) to increase its Tier 1 leverage capital ratio to such level as the FDIC deems appropriate or may be subject to a section 8(a) termination of insurance action by the FDIC. Except in the very rarest of circumstances, the FDIC will require that such agreements contemplate immediate efforts by the depository institution to acquire the required capital.

The guidance in this section III is not intended to preclude the FDIC from taking section 8(a) or other enforcement action against any institution, regardless of its capital level, if the specific circumstances deem such action to be appropriate.

IV. CAPITAL COMPONENTS

Section 325.2 sets forth the definition of Tier 1 capital for the leverage standard as well as the definitions for the various instruments and accounts which are included therein. Although nonvoting common stock, noncumulative perpetual preferred stock, and minority interests in consolidated subsidiaries are normally included in Tier 1 capital, voting common stockholders' equity generally will be expected to be the dominant form of Tier 1 capital. Thus, banks should avoid undue reliance on nonvoting equity, preferred stock and minority interests. The following provides some additional guidance with respect to some of the items that affect the calculation of Tier 1 capital.

A. Intangible Assets

The FDIC permits state nonmember banks to record intangible assets on their books and to report the value of such assets in the Consolidated Reports of Condition and Income ("Call Report"). As noted in the instructions for preparation of the Consolidated Reports of Condition and Income (published by the Federal Financial Institutions Examination Council), intangible assets may arise from business combinations accounted for under the purchase method and acquisitions of portions or segments of another institution's business, such as branch offices, mortgage servicing portfolios, and credit card portfolios.

Notwithstanding the authority to report all intangible assets in the Consolidated Reports of Condition and Income, §325.2(v) of the regulation specifies that mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships are the only intangible assets which will be allowed as Tier 1 capital.1 The portion of equity capital represented by other types of intangible assets may, however, be recognized for regulatory capital purposes if explicitly approved by the Director of the Division of Supervision and Consumer Protection (DSC) as part of the bank's regulatory capital on a specific case basis. These intangible assets will be included in regulatory capital under the terms and conditions that are specifically approved by the FDIC.2

---

1 Although intangible assets in the form of mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships are generally recognized for regulatory capital purposes, the deduction of part or all of the mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships may be required if the carrying amounts of these rights are excessive in relation to their market value or the level of the bank's capital accounts. In this regard, mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships will be recognized for regulatory capital purposes only to the extent the rights meet the conditions, limitations and restrictions described in §325.5(c).

2 This specific approval must be received in accordance with §325.5(b). In evaluating whether other types of intangibles should be recognized for regulatory capital purposes, the FDIC will accord special attention to the general characteristics of the intangibles, including: (1) The separability of the intangible asset and the ability to sell it separate and apart from the bank or the bulk of the bank's assets, (2) the certainty that a readily identifiable stream of cash flows associated with the intangible asset can hold its value...

463
In certain instances banks may have investments in unconsolidated subsidiaries or joint ventures that have large volumes of intangible assets. In such instances the bank’s consolidated statements will reflect an investment in a tangible asset even though such investment will, in fact, be represented by a large volume of intangible assets. In any such situation where this is material, the bank’s investment in the unconsolidated subsidiary will be divided into a tangible and an intangible portion based on the percentage of intangible assets to total assets in the subsidiary. The intangible portion of the investment will be treated as if it were an intangible asset on the bank’s books in the calculation of Tier 1 capital. However, intangible assets in the form of mortgage servicing assets, nonmortgage servicing assets and purchased credit card relationships, including servicing intangibles held by mortgage banking subsidiaries, are subject to the specific criteria set forth in §325.5(f).

B. Perpetual Preferred Stock

Perpetual preferred stock is defined as preferred stock that does not have a maturity date, that cannot be redeemed at the option of the holder, and that has no other provisions that will require future redemption of the issue. Also, pursuant to section 18(i)(1) of the Federal Deposit Insurance Act (12 U.S.C. 1828(i)(1)), a state nonmember bank cannot, without the prior consent of the FDIC, reduce the amount or retire any part of its preferred stock. (This prior consent is also required for the reduction or retirement of any part of a state nonmember bank’s common stock or capital notes and debentures.)

Noncumulative perpetual preferred stock is generally included in Tier 1 capital. Nonetheless, it is possible for banks to issue preferred stock with a dividend rate which escalates to such a high rate that the terms become so onerous as to effectively force the bank to call the issue (for example, an issue with a low initial rate that is scheduled to escalate to much higher rates in subsequent periods). Preferred stock issues with such onerous terms have much the same characteristics as limited life preferred stock in that the bank would be effectively forced to redeem the issue to avoid performance of the onerous terms. Such instruments may be disallowed as Tier 1 capital and, for risk-based capital purposes, would be included in Tier 2 capital only to the extent that the instruments fall within the limitations applicable to intermediate-term preferred stock. Banks which are contemplating issues bearing terms which may be so characterized are encouraged to submit them to the appropriate FDIC regional office for review prior to issuance. Nothing herein shall prohibit banks from issuing floating rate preferred stock issues where the rate is constant in relation to some outside market or index rate. However, noncumulative floating rate instruments where the rate paid is based in some part on the current credit standing of the bank, and all cumulative preferred stock instruments, are excluded from Tier 1 capital. These instruments are included in Tier 2 capital for risk-based capital purposes in accordance with the limitations set forth in appendix A to part 325.

The FDIC will also require that issues of perpetual preferred stock be consistent with safe and sound banking practices. Issues which would unduly enrich insiders or which contain dividend rates or other terms which are inconsistent with safe and sound banking practices will likely be the subject of appropriate supervisory response from the FDIC. Banks contemplating preferred stock issues which may pose safety and soundness concerns are encouraged to submit such issues to the appropriate FDIC regional office for review prior to sale. Pursuant to §325.5(e), capital instruments that contain or that are subject to any conditions, covenants, terms, restrictions or provisions that are inconsistent with safe and sound banking practices will not qualify as capital under part 325.

C. Other Instruments or Transactions Which Fail To Provide Capital Support

Section 325.5(b) specifies that any capital component or balance sheet entry or account which has characteristics or terms that diminish its contribution to an insured depository institution’s ability to absorb losses shall be deducted from capital. An example involves certain types of minority interests in consolidated subsidiaries. Minority interests in consolidated subsidiaries have been included in capital based on the fact that they provide capital support to the risk in the consolidated subsidiaries. Certain transactions have been structured where a bank forms a subsidiary by transferring essentially risk-free or low-risk assets to the subsidiary in exchange for common stock of the subsidiary. The subsidiary then sells preferred stock to third parties.

The preferred stock becomes a minority interest in a consolidated subsidiary but, in effect, represents an essentially risk-free or low-risk investment for the preferred stockholders. This type of minority interest fails to provide any meaningful capital support to
the consolidated entity inasmuch as it has a preferred claim on the essentially risk-free or low-risk assets of the subsidiary. In addition, certain minority interests are not substantially equivalent to permanent equity in that the interests must be paid off on specified future dates, or at the option of the holders of the minority interests, or contain other provisions or features that limit the ability of the minority interests to effectively absorb losses. Capital instruments or transactions of this nature which fail to absorb losses or provide meaningful capital support will be deducted from Tier 1 capital.

D. MandatoryConvertible Debt

Mandatory convertible debt securities are subordinated debt instruments that require the issuer to convert such instruments into common or perpetual preferred stock by a date at or before the maturity of the debt instruments. The maturity of these instruments must be 12 years or less and the instruments must also meet the other criteria set forth in appendix A to part 325. Mandatory convertible debt is excluded from Tier 1 capital but, for risk-based capital purposes, is included in Tier 2 capital as a “hybrid capital instrument.”

So-called “equity commitment notes,” which merely require a bank to sell common or perpetual preferred stock during the life of the subordinated debt obligation, are specifically excluded from the definition of mandatory convertible debt securities and are only included in Tier 2 capital under the risk-based capital framework to the extent that they satisfy the requirements and limitations for “term subordinated debt” set forth in appendix A to part 325.

V. Analysis of Consolidated Companies

In determining a bank’s compliance with its minimum capital requirements the FDIC will, with two exceptions, generally utilize the bank’s consolidated statements as defined in the instructions for the preparation of Consolidated Reports of Condition and Income.

The first exception relates to securities subsidiaries of state nonmember banks which are subject to §337.4 of the FDIC’s rules and regulations (12 CFR 337.4). Any subsidiary subject to this section must be a bona fide subsidiary which is adequately capitalized. In addition, §337.4(b)(3) requires that any insured state nonmember bank’s investment in such a subsidiary shall not be counted towards the bank’s capital. In those instances where the securities subsidiary is consolidated in the bank’s Consolidated Report of Condition it will be necessary, for the purpose of calculating the bank’s Tier 1 capital, to adjust the Consolidated Report of Condition in such a manner as to reflect the bank’s investment in the securities subsidiary on the equity method. In this case, and in those cases where the securities subsidiary has not been consolidated, the investment in the subsidiary will then be deducted from the bank’s capital and assets prior to calculation of the bank’s Tier 1 capital ratio. (Where deemed appropriate, the FDIC may also consider deducting investments in other subsidiaries, either on a case-by-case basis or, as with securities subsidiaries, based on the general characteristics or the nature of the subsidiaries.)

The second exception relates to the treatment of subsidiaries of insured banks that are domestic depository institutions such as commercial banks, savings banks, or savings associations. These subsidiaries are not consolidated on a line-by-line basis with the insured bank parent in the bank parent’s Consolidated Reports of Condition and Income. Rather, the instructions for these reports provide that bank investments in such depository institution subsidiaries are to be reported on an unconsolidated basis in accordance with the equity method. Since the FDIC believes that the minimum capital requirements should apply to a bank’s depository activities in their entirety, regardless of the form that the organization’s corporate structure takes, it will be necessary, for the purpose of calculating the bank’s Tier 1 leverage and total risk-based capital ratios, to adjust a bank parent’s Consolidated Report of Condition to consolidate its domestic depository institution subsidiaries on a line-by-line basis. The financial statements of the subsidiary that are used for this consolidation must be prepared in the same manner as the Consolidated Report of Condition.

The FDIC will, in determining the capital adequacy of a bank which is a member of a bank holding company or chain banking group, consider the degree of leverage and risks undertaken by the parent company or other affiliates. Where the level of risk in a holding company system is no more than normal and the consolidated company is adequately capitalized at all appropriate levels, the FDIC generally will not require additional capital in subsidiary banks under its supervision over and above that which would be required for the subsidiary bank on its own merit. In cases where a holding company or other affiliated banks (or other companies) evidence more than a normal degree of risk (either by virtue of the quality of their assets, the nature of the activities conducted, or other factors) or where the affiliated organizations are inadequately capitalized, the FDIC will consider the potential impact of the additional risk or excess leverage upon an individual bank to determine if such factors will likely result in excessive requirements for dividends, management fees, or other support to the holding company or affiliated organizations which would
be detrimental to the bank. Where the excessive risk or leverage in such organizations is determined to be potentially detrimental to the bank's condition or its ability to maintain adequate capital, the FDIC may initiate appropriate supervisory action to limit the bank's ability to support its weaker affiliates and/or require higher than minimum capital ratios in the bank.

VI. APPLICABILITY OF PART 325 TO SAVINGS ASSOCIATIONS

Section 325.3(c) indicates that, where the FDIC is required to evaluate the adequacy of any depository institution's (including any savings association's) capital structure in conjunction with an application filed by the institution, the FDIC will not approve the application if the depository institution does not meet the minimum leverage capital requirement set forth in §325.3(b).

Also, §325.4(b) states that, under certain conditions specified in section 8(t) of the Federal Deposit Insurance Act, the FDIC may take section 8(b)(1) and/or 8(c) enforcement action against a savings association that is deemed to be engaged in an unsafe or unsound practice on account of its inadequate capital structure. Section 325.4(c) further specifies that any insured depository institution with a Leverage ratio (as defined in part 325) of less than 2 percent is deemed to be operating in an unsafe or unsound condition pursuant to section 8(a) of the Federal Deposit Insurance Act.

In addition, the Office of Thrift Supervision (OTS), as the primary federal regulator of savings associations, has established minimum core capital leverage, tangible capital and risk-based capital requirements for savings associations (12 CFR part 567). In this regard, certain differences exist between the methods used by the OTS to calculate a savings association's capital and the methods set forth by the FDIC in part 325. These differences include, among others, the core capital treatment for investments in subsidiaries and for certain intangible assets.

In determining whether a savings association's application should be approved pursuant to §325.3(c), or whether an unsafe or unsound practice or condition exists pursuant to §§325.4(b) and 325.4(c), the FDIC will consider the extent of the savings association's capital as determined in accordance with part 325. However, the FDIC will also consider the extent to which a savings association is in compliance with (a) the minimum capital requirements set forth by the OTS, (b) any related capital plans for meeting the minimum capital requirements approved by the OTS, and/or (c) any other criteria deemed by the FDIC as appropriate based on the association's specific circumstances.

APPENDIX C TO PART 325—RISK-BASED CAPITAL FOR STATE NONMEMBER BANKS: MARKET RISK

Section 1 Purpose, Applicability, and Reservation of Authority

Section 2 Definitions

Section 3 Requirements for Application of the Market Risk Capital Rule

Section 4 Adjustments to the Risk-Based Capital Ratio Calculations

Section 5 VaR-based Measure

Section 6 Stressed VaR-based Measure

Section 7 Specific Risk

Section 8 Incremental Risk

Section 9 Comprehensive Risk

Section 10 Standardized Measurement Method for Specific Risk

Section 11 Simplified Supervisory Formula Approach

Section 12 Market Risk Disclosures

(a) Purpose. This appendix establishes risk-based capital requirements for banks with significant exposure to market risk and provides methods for these banks to calculate their risk-based capital requirements for market risk. This appendix supplements and adjusts the risk-based capital calculations under appendix A to this part and appendix D to this part and establishes public disclosure requirements.

(b) Applicability. (1) This appendix applies to any bank with aggregate trading assets and trading liabilities (as reported in the bank's most recent quarterly Consolidated Reports of Condition and Income (Call Report)), equal to:

(i) 10 percent or more of quarter-end total assets as reported on the most recent quarterly Call Report; or

(ii) $1 billion or more.

(2) The FDIC may apply this appendix to any bank if the FDIC deems it necessary or appropriate because of the level of market risk of the bank or to ensure safe and sound banking practices.

(3) The FDIC may exclude a bank that meets the criteria of paragraph (b)(1) of this section from application of this appendix if the FDIC determines that the exclusion is appropriate based on the level of market risk of the bank and is consistent with safe and sound banking practices.

(c) Reservation of authority. (1) The FDIC may require a bank to hold an amount of...
capital greater than otherwise required under this appendix if the FDIC determines that the bank’s capital requirement for market risk as calculated under this appendix is not commensurate with the market risk of the bank’s covered positions. In making determinations under paragraphs (c)(1) through (c)(3) of this section, the FDIC will apply notice and response procedures generally in the same manner as the notice and response procedures set forth in [12 CFR 3.12, 12 CFR 263.202, 12 CFR 325.6(c), 12 CFR 567.3(d)].

(2) If the FDIC determines that the risk-based capital requirement calculated under this appendix by the bank for one or more covered positions or portfolios of covered positions is not commensurate with the risks associated with those positions or portfolios, the FDIC may require the bank to assign a different risk-based capital requirement to the positions or portfolios that more accurately reflects the risk of the positions or portfolios.

(3) The FDIC may also require a bank to calculate risk-based capital requirements for specific positions or portfolios under this appendix, or under appendix D to this part or appendix A to this part, as appropriate, to more accurately reflect the risks of the positions.

(4) Nothing in this appendix limits the authority of the FDIC under any other provision of law or regulation to take supervisory or enforcement action, including action to address unsafe or unsound practices or conditions, deficient capital levels, or violations of law.

Section 2. Definitions

For purposes of this appendix, the following definitions apply:

Affiliate with respect to a company means any company that controls, is controlled by, or is under common control with, the company.

Backtesting means the comparison of a bank’s internal estimates with actual outcomes during a sample period not used in model development. For purposes of this appendix, backtesting is one form of out-of-sample testing.

Bank holding company is defined in section 2(a) of the Bank Holding Company Act of 1934 (12 U.S.C. 1841(a)).

Commodity position means a position for which price risk arises from changes in the price of a commodity.

Company means a corporation, partnership, limited liability company, depository institution, business trust, special purpose entity, association, or similar organization.

Control A person or company controls a company if it:

1. Owns, controls, or holds with power to vote 25 percent or more of a class of voting securities of the company; or

2. Consolidates the company for financial reporting purposes.

Corporate debt position means a debt position that is an exposure to a company that is not a sovereign entity, the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, a multilateral development bank, a depository institution, a foreign bank, a credit union, a public sector entity, a government-sponsored entity, or a securitization.

Correlation trading position means:

1. A securitization position for which all or substantially all of the value of the underlying exposures is based on the credit quality of a single company for which a two-way market exists, or on commonly traded indices based on such exposures for which a two-way market exists on the indices; and

2. A position that is not a securitization position and that hedges a position described in paragraph (1) of this definition; and

3. A correlation trading position does not include:

(i) A resecuritization position;

(ii) A derivative of a securitization position that does not provide a pro rata share in the proceeds of a securitization tranche; or

(iii) A securitization position for which the underlying assets or reference exposures are retail exposures, residential mortgage exposures, or commercial mortgage exposures.

Country risk classification (CRC) for a sovereign entity means the consensus CRC published from time to time by the Organization for Economic Cooperation and Development that provides a view of the likelihood that the sovereign entity will service its external debt.

Covered position means the following positions:

1. A trading asset or trading liability (whether on- or off-balance sheet), as reported on Schedule RC–D of the Call Report or Schedule HC–D of the FR Y–9C, that meets the following conditions:

(i) The position is a trading position or hedges another covered position; and

(ii) The position is free of any restrictive covenants on its tradability or the bank is able to hedge the material risk elements of the position in a two-way market;

2. A foreign exchange or commodity position, regardless of whether the position is a trading asset or trading liability (excluding any structural foreign currency positions that the bank chooses to exclude with prior supervisory approval); and

467

43 Securities subject to repurchase and lending agreements are included as if they are still owned by the lender.

44 A position that hedges a trading position must be within the scope of the bank’s hedging strategy as described in paragraph (a)(2) of section 3 of this appendix.
(3) Notwithstanding paragraphs (1) and (2) of this definition, a covered position does not include:

(i) An intangible asset, including any servicing asset;
(ii) Any hedge of a trading position that the FDIC determines to be outside the scope of the bank’s hedging strategy required in paragraphs (a)(1) and (a)(2) of section 3 of this appendix;
(iii) Any position that, in form or substance, acts as a liquidity facility that provides support to asset-backed commercial paper;
(iv) A credit derivative the bank recognizes as a guarantee for risk-weighted asset amount calculation purposes under appendix D to this part or appendix A to this part;
(v) Any equity position that is not publicly traded, other than a derivative that references a publicly traded equity;
(vi) Any position a bank holds with the intent to securitize; or
(vii) Any direct real estate holding.

Credit derivative means a financial contract executed under standard industry documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure(s)) to another party (the protection provider).

Credit union means an insured credit union as defined under the Federal Credit Union Act (12 U.S.C. 1752).

Default by a sovereign entity means non-compliance by the sovereign entity with its external debt service obligations or the inability or unwillingness of a sovereign entity to service an existing obligation according to its original contractual terms, as evidenced by failure to pay principal and interest timely and fully, arrearages, or restructuring.

Debt position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in interest rates or credit spreads.

Depository institution is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

Equity position means a covered position that is not a securitization position or a correlation trading position and that has a value that reacts primarily to changes in equity prices.

Event risk means the risk of loss on equity or hybrid equity positions as a result of a financial event, such as the announcement or occurrence of a company merger, acquisition, spin-off, or dissolution.

Foreign bank means a foreign bank as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2), other than a depository institution.

Foreign exchange position means a position for which price risk arises from changes in foreign exchange rates.

General market risk means the risk of loss that could result from broad market movements, such as changes in the general level of interest rates, credit spreads, equity prices, foreign exchange rates, or commodity prices.

General obligation means a bond or similar obligation that is guaranteed by the full faith and credit of the state or other political subdivisions of a sovereign entity.

Government-sponsored entity (GSE) means an entity established or chartered by the U.S. government to serve public purposes specified by the U.S. Congress but whose debt obligations are not explicitly guaranteed by the full faith and credit of the U.S. government.

Hedge means a position or positions that offset all, or substantially all, of one or more material risk factors of another position.

Idiosyncratic risk means the risk of loss in the value of a position that arises from changes in risk factors unique to that position.

Incremental risk means the default risk and credit migration risk of a position. Default risk means the risk of loss on a position that could result from the failure of an obligor to make timely payments of principal or interest on its debt obligation, and the risk of loss that could result from bankruptcy, insolvency, or similar proceeding. Credit migration risk means the price risk that arises from significant changes in the underlying credit quality of the position.

Investment grade means that the entity to which the bank is exposed through a loan or security, or the reference entity with respect to a credit derivative, has adequate capacity to meet financial commitments for the projected life of the asset or exposure. Such an entity or reference entity has adequate capacity to meet financial commitments if the risk of its default is low and the full and timely repayment of principal and interest is expected.

Market risk means the risk of loss on a position that could result from movements in market prices.

Multilateral development bank means the International Bank for Reconstruction and Development, the Multilateral Investment Guarantee Agency, the International Finance Corporation, the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the European Investment Fund, the Nordic Investment Bank, the Caribbean Development Bank, the Islamic Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the FDIC determines poses comparable credit risk.
Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures.

Over-the-counter (OTC) derivative means a derivative contract that is not traded on an exchange that requires the daily receipt and payment of cash-variation margin.

Public sector entity (PSE) means a state, local authority, or other governmental subdivision below the sovereign entity level.

Publicly traded means traded on:
(1) Any exchange registered with the SEC as a national securities exchange under section 6 of the Securities Exchange Act of 1934 (15 U.S.C. 78f); or
(2) Any non-U.S.-based securities exchange that:
   (i) Is registered with, or approved by, a national securities regulatory authority; and
   (ii) Provides a liquid, two-way market for the instrument in question.

Qualifying securities borrowing transaction means a cash-collateralized securities borrowing transaction that meets the following conditions:
(1) The transaction is based on liquid and readily marketable securities;
(2) The transaction is marked-to-market daily;
(3) The transaction is subject to daily margin maintenance requirements; and
(4)(i) The transaction is a securities contract for the purposes of section 555 of the Bankruptcy Code (11 U.S.C. 555), a qualified financial contract for the purposes of section 101(e)(6) of the Federal Deposit Insurance Act (12 U.S.C. 1823(e)(6)), or a netting contract between or among financial institutions for the purposes of sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Board’s Regulation EE (12 CFR part 231); or
(ii) If the transaction does not meet the criteria in paragraph (4)(i) of this definition, either:
   (A) The bank has conducted sufficient legal review to reach a well-founded conclusion that:
      (f) The securities borrowing agreement executed in connection with the transaction provides the bank the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of counterparty default; and
      (2) Under applicable law of the relevant jurisdiction, its rights under the agreement are legal, valid, binding, and enforceable.
   (B) The transaction is either overnight or unconditionally cancelable at any time by the bank, and the bank has conducted sufficient legal review to reach a well-founded conclusion that:
      (1) The securities borrowing agreement executed in connection with the transaction provides the bank the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of counterparty default; and
      (2) Under the law governing the agreement, its rights under the agreement are legal, valid, binding, and enforceable.

Resecuritization means a securitization in which one or more of the underlying exposures is a securitization position.

Resecuritization position means a covered position that is:
(1) An on- or off-balance sheet exposure to a resecuritization; or
(2) An exposure that directly or indirectly references a resecuritization exposure in paragraph (1) of this definition.

Revenue obligation means a bond or similar obligation, including loans and leases, that is an obligation of a state or other political subdivision of a sovereign entity, but for which the government entity is committed to repay with revenues from the specific project financed rather than with general tax funds.

SEC means the U.S. Securities and Exchange Commission.

Securitization means a transaction in which:
(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties;
(2) The credit risk associated with the underlying exposures has been separated into at least two tranches that reflect different levels of seniority;
(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;
(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities); and
(5) For non-synthetic securitizations, the underlying exposures are not owned by an operating company.

The underlying exposures are not owned by a small business investment company described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 632); and

(7) The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under 12 U.S.C. 24 (Eleventh).

(8) The FDIC may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a
Sovereign entity means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign of incorporation means the country where an entity is incorporated, chartered, or similarly established.

Specific risk means the risk of loss on a position that could result from factors other than broad market movements and includes event risk, default risk, and idiosyncratic risk.

Structural position in a foreign currency means a position that is not a trading position and that is:

(1) Subordinated debt, equity, or minority interest in a consolidated subsidiary that is denominated in a foreign currency;
(2) Capital assigned to foreign branches that is denominated in a foreign currency;
(3) A position related to an unconsolidated subsidiary or another item that is denominated in a foreign currency and that is deducted from the bank’s tier 1 and tier 2 capital; or
(4) A position designed to hedge a bank’s capital ratios or earnings against the effect of changes in interest rates that has an original maturity in excess of one business day, provided that:

(a) The transaction is based solely on liquid and readily marketable securities or cash;
(b) The transaction is marked-to-market daily and subject to daily margin maintenance requirements;
(c) The transaction is executed under an agreement that provides the bank the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of default (including bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions; and
(d) The bank has conducted and documented sufficient legal review to conclude with a well-founded basis that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Tier 1 capital is defined in appendix A to this part or appendix D to this part, as applicable.

Tier 2 capital is defined in appendix A to this part or appendix D to this part, as applicable.

Trading position means a position that is held by the bank for the purpose of short-term resale or with the intent of benefiting from actual or expected short-term price movements, or to lock in arbitrage profits.

Two-way market means a market where there are independent bona fide offers to buy and sell so that a price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined within one day and settled at that price within a relatively short time frame conforming to trade custom.

Underlying exposure means one or more exposures that have been securitized in a securitization transaction.

Value-at-Risk (VaR) means the estimate of the maximum amount that the value of one or more positions could decline due to market price or rate movements during a fixed holding period within a stated confidence interval.

Section 3. Requirements for Application of the Market Risk Capital Rule

(a) Trading positions. (1) Identification of trading positions. A bank must have clearly defined policies and procedures for determining which of its trading assets and trading liabilities are trading positions and which of its trading positions are correlation

45 This requirement is met where all transactions under the agreement are (i) executed under U.S. law and (ii) constitute “securities contracts” or “repurchase agreements” under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1851(e)(8)), or netting contracts between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4407), or the Federal Reserve Board’s Regulation EE (12 CFR part 211).
Federal Deposit Insurance Corporation

trading positions. These policies and procedures must take into account:

(i) The extent to which a position, or a hedge of its material risks, can be marked-to-market daily by reference to a two-way market; and

(ii) Possible impairments to the liquidity of a position or its hedge.

(2) Trading and hedging strategies. A bank must have clearly defined trading and hedging strategies for its trading positions that are approved by senior management of the bank:

(i) The trading strategy must articulate the expected holding period of, and the market risk associated with, each portfolio of trading positions.

(ii) The hedging strategy must articulate for each portfolio of trading positions the level of market risk the bank is willing to accept and must detail the instruments, techniques, and strategies the bank will use to hedge the risk of the portfolio.

(b) Management of covered positions. (1) Active management. A bank must have clearly defined policies and procedures for actively managing all covered positions. At a minimum, these policies and procedures must require:

(i) Marking positions to market or to model on a daily basis;

(ii) Daily assessment of the bank’s ability to hedge position and portfolio risks, and of the extent of market liquidity;

(iii) Establishment and daily monitoring of limits on positions by a risk control unit independent of the trading business unit;

(iv) Daily monitoring by senior management of information described in paragraphs (b)(1)(i) through (b)(1)(iii) of this section;

(v) At least annual reassessment of established limits on positions by senior management; and

(vi) At least annual assessments by qualified personnel of the quality of market inputs to the valuation process, the soundness of key assumptions, the reliability of parameter estimation in pricing models, and the stability and accuracy of model calibration under alternative market scenarios.

(2) Valuation of covered positions. The bank must have a process for prudent valuation of its covered positions that includes policies and procedures on the valuation of positions, marking positions to market or to model, independent price verification, and valuation adjustments or reserves. The valuation process must consider, as appropriate, unearned credit spreads, close-out costs, early termination costs, investing and funding costs, liquidity, and model risk.

(c) Requirements for internal models. (1) A bank must obtain the prior written approval of the FDIC before using any internal model to calculate its risk-based capital requirement under this appendix.

(2) A bank must meet all of the requirements of this section on an ongoing basis. The bank must promptly notify the FDIC when:

(i) The bank plans to extend the use of a model that the FDIC has approved under this appendix to an additional business line or product type;

(ii) The bank makes any change to an internal model approved by the FDIC under this appendix that would result in a material change in the bank’s risk-weighted asset amount for a portfolio of covered positions; or

(iii) The bank makes any material change to its modeling assumptions.

(3) The FDIC may rescind its approval of the use of any internal model (in whole or in part) or of the determination of the approach under section 9(a)(2)(ii) of this appendix for a bank’s modeled correlation trading positions and determine an appropriate capital requirement for the covered positions to which the model would apply, if the FDIC determines that the model no longer complies with this appendix or fails to reflect accurately the risks of the bank’s covered positions.

(4) The bank must periodically, but no less frequently than annually, review its internal models in light of developments in financial markets and modeling technologies, and enhance those models as appropriate to ensure that they continue to meet the FDIC’s standards for model approval and employ risk measurement methodologies that are most appropriate for the bank’s covered positions.

(5) The bank must incorporate its internal models into its risk management process and integrate the internal models used for calculating its VaR-based measure into its daily risk management process.

(6) The level of sophistication of a bank’s internal models must be commensurate with the complexity and amount of its covered positions. A bank’s internal models may use any of the generally accepted approaches, including but not limited to variance-covariance models, historical simulations, or Monte Carlo simulations, to measure market risk.

(7) The bank’s internal models must properly measure all the material risks in the covered positions to which they are applied.

(8) The bank’s internal models must conservatively assess the risks arising from less liquid positions and positions with limited price transparency under realistic market scenarios.

(9) The bank must have a rigorous and well-defined process for re-estimating, re-evaluating, and updating its internal models to ensure continued applicability and relevance.

(10) If a bank uses internal models to measure specific risk, the internal models must
also satisfy the requirements in paragraph (b)(1) of section 7 of this appendix.

(d) Control, oversight, and validation mechanisms. (1) The bank must have a risk control unit that reports directly to senior management and is independent from the business trading units.

(2) The bank must validate its internal models initially and on an ongoing basis. The bank’s validation process must be independent of the internal models’ development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the internal models;

(ii) An ongoing monitoring process that includes verification of processes and the comparison of the bank’s model outputs with relevant internal and external data sources or estimation techniques; and

(iii) An outcomes analysis process that includes backtesting. For internal models used to calculate the VaR-based measure, this process must include a comparison of the changes in the bank’s portfolio value that would have occurred were end-of-day positions to remain unchanged (therefore, excluding fees, commissions, reserves, net interest income, and intraday trading) with VaR-based measures during a sample period not used in model development.

(3) The bank must stress test the market risk of its covered positions at a frequency appropriate to each portfolio, and in no case less frequently than quarterly. The stress tests must take into account concentration risk (including but not limited to concentrations in single issuers, industries, sectors, or markets), illiquidity under stressed market conditions, and risks arising from the bank’s trading activities that may not be adequately captured in its internal models.

(4) The bank must have an internal audit function independent of business-line management that at least annually assesses the effectiveness of the controls supporting the bank’s market risk measurement systems, including the activities of the business trading units and independent risk control unit, compliance with policies and procedures, and calculation of the bank’s measures for market risk under this appendix. At least annually, the internal audit function must report its findings to the bank’s board of directors (or a committee thereof).

(e) Internal assessment of capital adequacy. The bank must have a rigorous process for assessing its overall capital adequacy in relation to its market risk. The assessment must take into account risks that may not be captured fully in the VaR-based measure, including concentration and liquidity risk under stressed market conditions.

(f) Documentation. The bank must adequately document all material aspects of its internal models, management and valuation of covered positions, control, oversight, validation and review processes and results, and internal assessment of capital adequacy.

Section 4. Adjustments to the Risk-Based Capital Ratio Calculations

(a) Risk-based capital ratio denominators. A bank must calculate its general risk-based capital ratio denominator by following the steps described in paragraphs (a)(1) through (a)(4) of this section. A bank subject to appendix D to this part must use its general risk-based capital ratio denominator for purposes of determining its total risk-based capital ratio and its tier 1 risk-based capital ratio under section 3(a)(2)(ii) and section 3(a)(3)(ii), respectively, of appendix D to this part, provided that the bank has not used the supervisory formula approach (SFA) in section 10(b)(2)(vii)(B) of this appendix for purposes of this calculation. A bank subject to appendix D to this part also must calculate an advanced risk-based capital ratio denominator by following the steps in paragraphs (a)(1) through (a)(4) of this section for purposes of determining its total risk-based capital ratio and its tier 1 risk-based capital ratio under sections 3(a)(2)(i) and section 3(a)(3)(i), respectively, of appendix D to this part.

(1) Adjusted risk-weighted assets. (1) The bank must calculate:

(A) General adjusted risk-weighted assets, which equals risk-weighted assets as determined in accordance with appendix A to this part with the adjustments in paragraphs (a)(1)(i) and, if applicable, (a)(1)(iii) of this section; and

(B) For a bank subject to appendix D to this part, advanced adjusted risk-weighted assets, which equal risk-weighted assets as determined in accordance with appendix D to this part with the adjustments in paragraphs (a)(1)(i) and (a)(1)(ii) of this section, respectively, the bank must exclude the risk-weighted asset amounts of all covered positions (except foreign exchange positions that are not trading positions and over-the-counter derivative positions).

(2) For purposes of calculating its general and advanced adjusted risk-weighted assets under paragraphs (a)(1)(i)(A) and (a)(1)(i)(B) of this section, respectively, the bank may exclude receivables that arise from the posting of cash collateral and are associated with qualifying securities borrowing transactions to the extent the receivable is collateralized by the market value of the borrowed securities.

(2) Measure for market risk. The bank must calculate the general measure for market risk.
risk (except, as provided in paragraph (a) of this section, that the bank may not use the SFA in section 10(b)(2)(vii)(B) of this appendix for purposes of this calculation), which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehen-
sive risk capital requirement, and capital requirement for de minimis exposures as defined under this paragraph (a)(2). A bank subject to appendix D to this part also must calculate the advanced measure for market risk, which equals the sum of the VaR-based capital requirement, stressed VaR-based capital requirement, specific risk add-ons, incremental risk capital requirement, comprehensive risk capital requirement, and capital requirement for de minimis exposures as defined under this paragraph (a)(2).

(i) VaR-based capital requirement. A bank’s VaR-based capital requirement equals the greater of:

(A) The previous day’s VaR-based measure as calculated under section 5 of this appendix; or

(B) The average of the daily VaR-based measures as calculated under section 5 of this appendix for each of the preceding 60 business days multiplied by three, except as provided in paragraph (b) of this section.

(ii) Stressed VaR-based capital requirement. A bank’s stressed VaR-based capital requirement equals the greater of:

(A) The most recent stressed VaR-based measure as calculated under section 6 of this appendix; or

(B) The average of the stressed VaR-based measures as calculated under section 6 of this appendix for each of the preceding 12 weeks multiplied by three, except as provided in paragraph (b) of this section.

(iii) Specific risk add-ons. A bank’s specific risk add-ons equal any specific risk add-ons that are required under section 7 of this appendix and are calculated in accordance with section 10 of this appendix.

(iv) Incremental risk capital requirement. A bank’s incremental risk capital requirement equals any incremental risk capital requirement as calculated under section 8 of this appendix.

(v) Comprehensive risk capital requirement. A bank’s comprehensive risk capital requirement as calculated under section 9 of this appendix.

(vi) Capital requirement for de minimis exposures. A bank’s capital requirement for de minimis exposures equals:

(A) The absolute value of the market value of those de minimis exposures that are not captured in the bank’s VaR-based measure or under paragraph (a)(2)(vi)(B) of this section; and

(B) With the prior written approval of the FDIC, the capital requirement for any de minimis exposures using alternative techniques that appropriately measure the market risk associated with those exposures.

(3) Market risk equivalent assets. The bank must calculate general market risk equivalent assets as the general measure for market risk (as calculated in paragraph (a)(2) of this section) multiplied by 12.5. A bank subject to appendix D to this part also must calculate advanced market risk equivalent assets as the advanced measure for market risk (as calculated in paragraph (a)(2) of this section) multiplied by 12.5.

(4) Denominator calculation. (i) The bank must add general market risk equivalent assets (as calculated in paragraph (a)(3) of this section) to general adjusted risk-weighted assets (as calculated in paragraph (a)(1)(i) of this section). The resulting sum is the bank’s general risk-based capital ratio denominator.

(ii) A bank subject to appendix D to this part must add advanced market risk equivalent assets (as calculated in paragraph (a)(3) of this section) to advanced adjusted risk-weighted assets (as calculated in paragraph (a)(1)(i) of this section). The resulting sum is the bank’s advanced risk-based capital ratio denominator.

(b) Backtesting. A bank must compare each of its most recent 250 business days’ trading losses (excluding fees, commissions, reserves, net interest income, and intraday trading) with the corresponding daily VaR-based measures calibrated to a one-day holding period and at a one-tail, 99.0 percent confidence level. A bank must begin backtesting as required by this paragraph no later than one year after the later of January 1, 2013, and the date on which the bank becomes subject to this appendix. In the interim, consistent with safety and soundness principles, a bank subject to this appendix as of its effective date should continue to follow backtesting procedures in accordance with the FDIC’s supervisory expectations.

(1) Once each quarter, the bank must identify the number of exceptions (that is, the number of business days for which the actual daily net trading loss, if any, exceeds the corresponding daily VaR-based measure) that have occurred over the preceding 250 business days.

(2) A bank must use the multiplication factor in table 1 of this appendix that corresponds to the number of exceptions identified in paragraph (b)(1) of this section to determine its VaR-based capital requirement for market risk under paragraph (a)(2)(i) of this section and to determine its stressed VaR-based capital requirement for market risk under paragraph (a)(2)(ii) of this section until it obtains the next quarter’s backtesting results, unless the FDIC notifies the bank in writing that a different adjustment or other action is appropriate.
Section 5. VaR-Based Measure

(a) General requirement. A bank must use one or more internal models to calculate daily a VaR-based measure of the general market risk of all covered positions. The daily VaR-based measure also may reflect the bank’s specific risk for one or more portfolios of debt and equity positions, if the internal models meet the requirements of paragraph (b)(1) of section 7 of this appendix. The daily VaR-based measure must also reflect the bank’s specific risk for any portfolio of correlation trading positions that is modeled under section 9 of this appendix. A bank may elect to include term repo-style transactions in its VaR-based measure, provided that the bank includes all such term repo-style transactions consistently over time.

(1) The bank’s internal models for calculating its VaR-based measure must use risk factors sufficient to measure the market risk inherent in all covered positions. The market risk categories must include, as appropriate, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk. For material positions in the major currencies and markets, modelling techniques must incorporate enough segments of the yield curve—in no case less than six—to capture differences in volatility and less than perfect correlation of rates along the yield curve. (2) The VaR-based measure may incorporate empirical correlations within and across risk categories, provided the bank validates and demonstrates the reasonableness of its process for measuring correlations. If the VaR-based measure does not incorporate empirical correlations across risk categories, the bank must add the separate measures from its internal models used to calculate the VaR-based measure for the appropriate market risk categories (interest rate risk, credit spread risk, equity price risk, foreign exchange rate risk, and/or commodity price risk) to determine its aggregate VaR-based measure.

The VaR-based measure must include the risks arising from the nonlinear price characteristics of options positions or positions with embedded optionality and the sensitivity of the market value of the positions to changes in the volatility of the underlying rates, prices, or other material risk factors. A bank with a large or complex options portfolio must measure the volatility of options positions or positions with embedded optionality by different maturities and/or strike prices, where material.

(4) The bank must be able to justify to the satisfaction of the FDIC the omission of any risk factors from the calculation of its VaR-based measure that the bank uses in its pricing models.

(5) The bank must demonstrate to the satisfaction of the FDIC the appropriateness of any proxies used to capture the risks of the bank’s actual positions for which such proxies are used.

(b) Quantitative requirements for VaR-based measure. (1) The VaR-based measure must be calculated on a daily basis using a one-tail, 99.0 percent confidence level, and a holding period equivalent to a 10-business-day movement in underlying risk factors, such as rates, spreads, and prices. To calculate VaR-based measures using a 10-business-day holding period, the bank may calculate 10-business-day measures directly or may convert VaR-based measures using holding periods other than 10 business days to the equivalent of a 10-business-day holding period. A bank that converts its VaR-based measure in such a manner must be able to justify the reasonableness of its approach to the satisfaction of the FDIC.

(2) The VaR-based measure must be based on a historical observation period of at least one year. Data used to determine the VaR-based measure must be relevant to the bank’s actual exposures and of sufficient quality to support the calculation of risk-based capital requirements. The bank must update data sets at least monthly or more frequently as changes in market conditions or portfolio composition warrant. For a bank that uses a weighting scheme or other method for the historical observation period, the bank must either:

(i) Use an effective observation period of at least one year in which the average time lag of the observations is at least six months; or

(ii) Demonstrate to the FDIC that its weighting scheme is more effective than a weighting scheme with an average time lag of at least six months representing the volatility of the bank’s trading portfolio over a full business cycle. A bank using this option must update its data more frequently than monthly and in a manner appropriate for the type of weighting scheme.

(c) A bank must divide its portfolio into a number of significant subportfolios approved by the FDIC for subportfolio backtesting purposes. These subportfolios must be sufficient to allow the bank and the FDIC to assess the adequacy of the VaR model at the risk factor level; the FDIC will evaluate the

Section 6. Stressed VaR-Based Measure

(a) General requirement. At least weekly, a bank must use the same internal model(s) used to calculate its VaR-based measure to calculate a stressed VaR-based measure.

(b) Quantitative requirements for stressed VaR-based measure. (1) A bank must calculate a stressed VaR-based measure for its covered positions using the same model(s) used to calculate the VaR-based measure, subject to the same confidence level and holding period applicable to the VaR-based measure under section 5 of this appendix, but with model inputs calibrated to historical data from a continuous 12-month period that reflects a period of significant financial stress appropriate to the bank’s current portfolio.

(2) The stressed VaR-based measure must be calculated at least weekly and be no less than the bank’s VaR-based measure.

(3) A bank must have policies and procedures that describe how it determines the period of significant financial stress used to calculate the bank’s stressed VaR-based measure under this section and must be able to provide empirical support for the period used. The bank must obtain the prior approval of the FDIC for, and notify the FDIC if the bank makes any material changes to, these policies and procedures. The policies and procedures must address:

(i) How the bank links the period of significant financial stress used to calculate the stressed VaR-based measure to the composition and directional bias of its current portfolio; and

(ii) The bank’s process for selecting, reviewing, and updating the period of significant financial stress used to calculate the stressed VaR-based measure and for monitoring the appropriateness of the period to the bank’s current portfolio.

(4) Nothing in this section prevents the FDIC from requiring a bank to use a different period of significant financial stress in the calculation of the stressed VaR-based measure.

Section 7. Specific Risk

(a) General requirement. A bank must use one of the methods in this section to measure the specific risk for each of its debt, equity, and securitization positions with specific risk.

(b) Modeled specific risk. A bank may use models to measure the specific risk of covered positions as provided in paragraph (a) of section 5 of this appendix (therefore, excluding securitization positions that are not modeled under section 9 of this appendix). A bank must use models to measure the specific risk of correlation trading positions that are modeled under section 9 of this appendix.

(1) Requirements for specific risk modeling. (i) If a bank uses internal models to measure the specific risk of a portfolio, the internal models must:

(A) Explain the historical price variation in the portfolio;

(B) Be responsive to changes in market conditions;

(C) Be robust to an adverse environment, including signaling rising risk in an adverse environment; and

(D) Capture all material components of specific risk for the debt and equity positions in the portfolio. Specifically, the internal models must:

(1) Capture event risk and idiosyncratic risk;

(2) Capture and demonstrate sensitivity to material differences between positions that are similar but not identical and to changes in portfolio composition and concentrations.

(ii) If a bank calculates an incremental risk measure for a portfolio of debt or equity positions under section 8 of this appendix, the bank is not required to capture default and credit migration risks in its internal models used to measure the specific risk of those portfolios.

(2) Specific risk fully modeled for one or more portfolios. If the bank’s VaR-based measure captures all material aspects of specific risk for one or more of its portfolios of debt, equity, or correlation trading positions, the bank has no specific risk add-on for those portfolios for purposes of paragraph (a)(2)(iii) of section 4 of this appendix.

(c) Specific risk not modeled. (1) If the bank’s VaR-based measure does not capture all material aspects of specific risk for a portfolio of debt, equity, or correlation trading positions, the bank must calculate a specific-risk add-on for the portfolio under the standardized measurement method as described in section 10 of this appendix.
Pt. 325, App. C

(2) A bank must calculate a specific risk add-on under the standardized measurement method as described in section 10 of this appendix for all of its securitization positions that are not modeled under section 9 of this appendix.

Section 8. Incremental Risk

(a) General requirement. A bank that measures the specific risk of a portfolio of debt positions under section 7(b) of this appendix using internal models must calculate at least weekly an incremental risk measure for that portfolio according to the requirements in this section. The incremental risk measure is the bank’s measure of potential losses due to incremental risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions. With the prior approval of the FDIC, a bank may choose to include portfolios of equity positions in its incremental risk model, provided that it consistently includes such equity positions in a manner that is consistent with how the bank internally measures and manages the incremental risk of such positions at the portfolio level. If equity positions are included in the model for modeling purposes default is considered to have occurred upon the default of any debt of the issuer of the equity position. A bank may not include correlation trading positions or securitization positions in its incremental risk measure.

(b) Requirements for incremental risk modeling. For purposes of calculating the incremental risk measure, the incremental risk model must:

(1) Measure incremental risk over a one-year time horizon and at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.

(i) A constant level of risk assumption means that the bank rebalances, or rolls over, its trading positions at the beginning of each liquidity horizon over the one-year horizon in a manner that maintains the bank’s initial risk level. The bank must determine the frequency of rebalancing in a manner consistent with the liquidity horizons of the positions in the portfolio. The liquidity horizon of a position or set of positions is the time required for a bank to reduce its exposure to, or hedge all of its material risks of, the position(s) in a stressed market. The liquidity horizon for a position or set of positions may not be less than the shorter of three months or the contractual maturity of the position.

(ii) A constant position assumption means that the bank maintains the same set of positions throughout the one-year horizon. If a bank uses this assumption, it must do so consistently across all portfolios.

(2) The most recent incremental risk measure.

(iii) A bank’s selection of a constant position or a constant risk assumption must be consistent between the bank’s incremental risk model and its comprehensive risk model described in section 9 of this appendix, if applicable.

(iv) A bank’s treatment of liquidity horizons must be consistent between the bank’s incremental risk model and its comprehensive risk model described in section 9 of this appendix, if applicable.

(3) Reflect the effect of issuer and market concentrations, as well as concentrations that can arise within and across product classes during stressed conditions.

(4) Reflect netting only of long and short positions that reference the same financial instrument.

(5) Reflect any material mismatch between a position and its hedge.

(6) Recognize the effect that liquidity horizons have on dynamic hedging strategies. In such cases, a bank must:

(i) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;

(ii) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;

(iii) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and

(iv) Capture in the incremental risk model any residual risks arising from such hedging strategies.

(7) Reflect the nonlinear impact of options and other positions with material nonlinear behavior with respect to default and migration changes.

(8) Maintain consistency with the bank’s internal risk management methodologies for identifying, measuring, and managing risk.

(c) Calculation of incremental risk capital requirement. The incremental risk capital requirement is the greater of:

(1) The average of the incremental risk measures over the previous 12 weeks; or

(2) The most recent incremental risk measure.

Section 9. Comprehensive Risk

(a) General requirement. (1) Subject to the prior approval of the FDIC, a bank may use the method in this section to measure comprehensive risk, that is, all price risk, for one or more portfolios or correlation trading positions.

(2) A bank that measures the price risk of a portfolio of correlation trading positions using internal models must calculate at least weekly a comprehensive risk measure that captures all price risk according to the requirements of this section. The comprehensive risk measure is either:

12 CFR Ch. III (1–1–17 Edition)
Federal Deposit Insurance Corporation

(i) The sum of:
   (A) The bank’s modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; and
   (B) A surcharge for the bank’s modeled correlation trading positions equal to the total specific risk add-on for such positions as calculated under section 10 of this appendix multiplied by 8.0 percent; or
   (ii) With approval of the FDIC and provided the bank has met the requirements of this section for a period of at least one year and can demonstrate the effectiveness of the model through the results of ongoing model validation efforts including robust benchmarking, the greater of:
   (A) The bank’s modeled measure of all price risk determined according to the requirements in paragraph (b) of this section; or
   (B) The total specific risk add-on that would apply to the bank’s modeled correlation trading positions as calculated under section 10 of this appendix multiplied by 8.0 percent.

(b) Requirements for modeling all price risk. If a bank uses an internal model to measure the price risk of a portfolio of correlation trading positions:
   (1) The internal model must measure comprehensive risk over a one-year time horizon at a one-tail, 99.9 percent confidence level, either under the assumption of a constant level of risk, or under the assumption of constant positions.
   (2) The model must capture all material price risk, including but not limited to the following:
      (i) The risks associated with the contractual structure of cash flows of the position, its issuer, and its underlying exposures; (ii) Credit spread risk, including nonlinear price risks; (iii) The volatility of implied correlations, including nonlinear price risks such as the cross-effect between spreads and correlations; (iv) Basis risk; (v) Recovery rate volatility as it relates to the propensity for recovery rates to affect tranche prices; and (vi) To the extent the comprehensive risk measure incorporates the benefits of dynamic hedging, the static nature of the hedge over the liquidity horizon must be recognized. In such cases, a bank must:
         (A) Choose to model the rebalancing of the hedge consistently over the relevant set of trading positions;
         (B) Demonstrate that the inclusion of rebalancing results in a more appropriate risk measurement;
         (C) Demonstrate that the market for the hedge is sufficiently liquid to permit rebalancing during periods of stress; and
         (D) Capture in the comprehensive risk model any residual risks arising from such hedging strategies;
   (3) The bank must use market data that are relevant in representing the risk profile of the bank’s correlation trading positions in its comprehensive risk measure in accordance with this section; and
   (4) The bank must be able to demonstrate that its model is an appropriate representation of comprehensive risk in light of its historical price variation of its correlation trading positions.

(c) Requirements for stress testing. (1) A bank must at least weekly apply specific, supervisory stress scenarios to its portfolio of correlation trading positions that capture changes in:
      (i) Default rates; (ii) Recovery rates; (iii) Credit spreads; (iv) Correlations of underlying exposures; and
      (v) Correlations of a correlation trading position and its hedge.
      (2) Other requirements. (i) A bank must retain and make available to the FDIC the results of the supervisory stress testing, including comparisons with the capital requirements generated by the bank’s comprehensive risk model.
      (ii) A bank must report to the FDIC promptly any instances where the stress tests indicate any material deficiencies in the comprehensive risk model.

(d) Calculation of comprehensive risk capital requirement. The comprehensive risk capital requirement is the greater of:
      (1) The average of the comprehensive risk measures over the previous 12 weeks; or
      (2) The most recent comprehensive risk measure.

Section 10. Standardized Measurement Method for Specific Risk

(a) General requirement. A bank must calculate a total specific risk add-on for each portfolio of debt and equity positions for which the bank’s VaR-based measure does not capture all material aspects of specific risk and for all securitization positions that are not modeled under section 9 of this appendix. A bank must calculate each specific risk add-on in accordance with the requirements of this section. Notwithstanding any other definition or requirement in this appendix, a position that would have qualified as a debt position or an equity position but for the fact that it qualifies as a correlation trading position under paragraph (2) of the definition of correlation trading position, shall be considered a debt position or an equity position, respectively, for purposes of this section 10.
(1) The specific risk add-on for an individual debt or securitization position that represents sold credit protection is capped at the notional amount of the credit derivative contract. The specific risk add-on for an individual debt or securitization position that represents purchased credit protection is capped at the current market value of the transaction plus the absolute value of the present value of all remaining payments to the protection seller under the transaction. This sum is equal to the value of the protection leg of the transaction.

(2) For debt, equity, or securitization positions that are derivatives with linear payoffs, a bank must assign a specific risk-weighting factor to the market value of the effective notional amount of the underlying instrument or index portfolio, except for a securitization position for which the bank directly calculates a specific risk add-on using the SFA in paragraph (b)(2)(vii)(B) of this section. A swap must be included as an effective notional position in the underlying instrument or portfolio, with the receiving side treated as a long position and the paying side treated as a short position. For debt, equity, or securitization positions that are derivatives with nonlinear payoffs, a bank must risk weight the market value of the effective notional amount of the underlying instrument or portfolio multiplied by the derivative's delta.

(3) For debt, equity, or securitization positions, a bank may net long and short positions (including derivatives) in identical issues or identical indices. A bank may also net positions in depositary receipts against an opposite position in an identical equity in different markets, provided that the bank includes the costs of conversion.

(4) A set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge has a specific risk add-on of zero if:

(i) The debt or securitization position is fully hedged by a total return swap (or similar instrument where there is a matching of swap payments and changes in market value of the debt or securitization position);

(ii) There is an exact match between the reference obligation of the swap and the debt or securitization position;

(iii) There is an exact match between the currency of the swap and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the swap and the maturity date of the debt or securitization position; or, in cases where a total return swap references a portfolio of positions with different maturity dates, the total return swap maturity date must match the maturity date of the underlying asset in that portfolio that has the latest maturity date.

(5) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of paragraph (a)(4) of this section is equal to 20.0 percent of the capital requirement for the side of the transaction with the higher specific risk add-on when:

(1) The credit risk of the position is fully hedged by a credit default swap or similar instrument;

(ii) There is an exact match between the reference obligation of the credit derivative hedge and the debt or securitization position;

(iii) There is an exact match between the currency of the credit derivative hedge and the debt or securitization position; and

(iv) There is either an exact match between the maturity date of the credit derivative hedge and the maturity date of the debt or securitization position; or, in the case where the credit derivative hedge has a standard maturity date:

(A) The maturity date of the credit derivative hedge is within 30 business days of the maturity date of the debt or securitization position; or

(B) For purchased credit protection, the maturity date of the credit derivative hedge is later than the maturity date of the debt or securitization position, but is no later than the standard maturity date for that instrument that immediately follows the maturity date of the debt or securitization position. The maturity date of the credit derivative hedge may not exceed the maturity date of the debt or securitization position by more than 90 calendar days.

(6) The specific risk add-on for a set of transactions consisting of either a debt position and its credit derivative hedge or a securitization position and its credit derivative hedge that does not meet the criteria of either paragraph (a)(4) or (a)(5) of this section, but in which all or substantially all of the price risk has been hedged, is equal to the specific risk add-on for the side of the transaction with the higher specific risk add-on.

(b) Debt and securitization positions. (1) The total specific risk add-on for a portfolio of debt or securitization positions is the sum of the specific risk add-ons for individual debt or securitization positions, as computed under this section. To determine the specific risk add-on for individual debt or securitization positions, a bank must multiply the absolute value of the current market value of each net long or net short debt or securitization position in the portfolio by the appropriate specific risk-weighting factor as set forth in paragraphs (b)(2)(i) through (b)(2)(vii) of this section.
(2) For the purpose of this section, the appropriate specific risk-weighting factors include:

(i) Sovereign debt positions. (A) In general. A bank must assign a specific risk-weighting factor to a sovereign debt position based on the CRC applicable to the sovereign entity and, as applicable, the remaining contractual maturity of the position, in accordance with table 2. Sovereign debt positions that are backed by the full faith and credit of the United States are treated as having a CRC of 0.

(B) Notwithstanding paragraph (b)(2)(i)(A) of this section, a bank may assign to a sovereign debt position a specific risk-weighting factor that is lower than the applicable specific risk-weighting factor in table 2 if:

(1) The position is denominated in the sovereign entity’s currency; and
(2) The bank has at least an equivalent amount of liabilities in that currency; and
(3) The sovereign entity allows banks under its jurisdiction to assign the lower specific risk-weighting factor to the same exposures to the sovereign entity.

(C) A bank must assign a 12.0 percent specific risk-weighting factor to a sovereign debt position if the sovereign entity does not have a CRC assigned to it, unless the sovereign debt position must be assigned a higher specific risk-weighting factor under paragraph (b)(2)(i)(C) of this section.

(i) Certain supranational entity and multilateral development bank debt positions. A bank may assign a 0.0 percent specific risk-weighting factor to a debt position that is an exposure to the Bank for International Settlements, the European Central Bank, the European Commission, the International Monetary Fund, or an MDB.

(ii) GSE debt positions. A bank must assign a 1.6 percent specific risk-weighting factor to a debt position that is an exposure to a GSE. Notwithstanding the foregoing, a bank must assign an 8.0 percent specific risk-weighting factor to preferred stock issued by a GSE.

(iv) Depository institution, foreign bank, and credit union debt positions. (A) Except as provided in paragraph (b)(2)(iv)(B) of this section, a bank must assign a specific risk-weighting factor to a debt position that is an exposure to a depository institution, a foreign bank, or a credit union using the specific risk-weighting factor that corresponds to that entity’s sovereign of incorporation and, as applicable, the remaining contractual maturity of the position, in accordance with table 3.

CRC of Sovereign ............... 0–2

No CRC .......................................................... 8.0

Default by the Sovereign Entity ................. 12.0

(B) A bank must assign a specific risk-weighting factor of 8.0 percent to a debt position that is an exposure to a depository institution or a foreign bank that is includable in the depository institution’s or foreign bank’s regulatory capital and that is not subject to deduction as a reciprocal holding under appendix A to this part.

(C) A bank must assign a 12.0 percent specific risk-weighting factor to a debt position that is an exposure to a foreign bank immediately upon determination that a default by the foreign bank’s sovereign of incorporation has occurred or if a default by the foreign bank’s sovereign of incorporation has occurred within the previous five years.

(v) PSE debt positions. (A) Except as provided in paragraph (b)(2)(v)(B) of this section, a bank must assign a specific risk-weighting factor to a debt position that is an exposure to a PSE based on the specific risk-weighting factor that corresponds to the PSE’s sovereign of incorporation and to the position’s categorization as a general obligation or revenue obligation and, as applicable, the remaining contractual maturity of the position, as set forth in tables 4 and 5.

(B) A bank may assign a lower specific risk-weighting factor than would otherwise apply under tables 4 and 5 to a debt position that is an exposure to a foreign PSE if:

(1) The PSE’s sovereign of incorporation allows banks under its jurisdiction to assign a lower specific risk-weighting factor to such position; and

(2) The specific risk-weighting factor is not lower than the risk weight that corresponds to the PSE’s sovereign of incorporation in accordance with tables 4 and 5.

(C) A bank must assign a 12.0 percent specific risk-weighting factor to a PSE debt position immediately upon determination that a default by the PSE’s sovereign of incorporation has occurred or if a default by the PSE’s sovereign of incorporation has occurred within the previous five years.

(vi) Corporate debt positions. Except as otherwise provided in paragraph (b)(2)(vi)(B), a bank must assign a specific risk-weighting factor to a corporate debt position in accordance with the investment grade methodology in paragraph (b)(2)(vi)(A) of this section. (A) Investment grade methodology. (1) For corporate debt positions that are exposures to entities that have issued and outstanding publicly traded instruments, a bank must assign a specific risk-weighting factor based on the category and remaining contractual maturity of the position, in accordance with table 6. For purposes of this paragraph (A), the bank must determine whether the position is in the investment grade or not investment grade category.

(2) A bank must assign an 8.0 percent specific risk-weighting factor for corporate debt positions that are exposures to entities that do not have publicly traded instruments outstanding.

(B) Limitations. (1) A bank must assign a specific risk-weighting factor of at least 8.0 percent to an interest-only mortgage-backed security that is not a securitization position.

(2) A bank shall not assign a corporate debt position a specific risk-weighting factor that is lower than the specific risk-weighting factor that corresponds to the CRC of the issuer’s sovereign of incorporation in table 1.

(vii) Securitization positions. (A) General requirements. (1) A bank that does not use appendix D to this part must assign a specific risk-weighting factor to a securitization position using the SFA in accordance with section 11 of this appendix or assign a specific risk-weighting factor of 100 percent to the position.

(2) A bank that uses appendix D to this part must calculate a specific risk add-on for a securitization position using the SFA in section 46 of appendix D to this part and in accordance with paragraph (b)(2)(vii)(B) of this section if the bank and the securitization position each qualifies to use the SFA under appendix D to this part. A bank that uses appendix D to this part and that has a securitization position that does not qualify for the SFA may assign a specific risk-weighting factor to the securitization position using the SSFA in accordance with section 11 of this appendix or assign a specific risk-weighting factor of 100 percent to the position.

(i) A bank must assign a specific risk-weighting factor for an nth-to-default credit derivative using the SSFA in section 11 of this appendix, the bank must calculate the attachment point and detachment point of its position as follows:

(ii) The detachment point (parameter D) is the ratio of the sum of the notional amounts of all underlying exposures that are subordinated to the bank’s position to the total notional amount of all underlying exposures.

For purposes of using the SFA to calculate the specific add-on for its position in an nth-to-default credit derivative, parameter D must be set equal to the credit enhancement level (L) input to the SFA formula. In the case of a first-to-default credit derivative, there are no underlying exposures that are subordinated to the bank’s position. In the case of a second-or-subsequent-to-default credit derivative, the smallest (n-1) notional amounts of the underlying exposure(s) are subordinated to the bank’s position.

(ii) The detachment point (parameter D) equals the sum of parameter A plus the ratio of the notional amount of the bank’s position in the nth-to-default credit derivative to the total notional amount of all underlying exposures. For purposes of using the SFA to calculate the specific risk add-on for its position in an nth-to-default credit derivative, parameter D must be set to equal L plus the thickness of tranche (T) input to the SFA formula.

(2) A bank that does not use the SFA to determine a specific risk add-on, or the SSFA to determine a specific risk-weighting factor for its position in an nth-to-default credit derivative must assign a specific risk-weighting factor of 100 percent to the position.

(c) Modeled correlation trading positions. For purposes of calculating the comprehensive risk measure for modeled correlation trading positions under either paragraph (a)(2)(i) or (a)(2)(ii) of section 9 of this appendix, the total specific risk add-on is the greater of:

(1) The sum of the bank’s specific risk add-ons for each net long correlation trading position calculated under this section; or

(2) The sum of the bank’s specific risk add-ons for each net short correlation trading position calculated under this section.

(d) Non-modeled securitization positions. For securitization positions that are not correlation trading positions and for securitizations that are correlation trading positions not modeled under section 9 of this appendix, the total specific risk add-on is the greater of:

(1) The sum of the bank’s specific risk add-ons for each net long securitization position calculated under this section; or
(2) The sum of the bank's specific risk add-ons for each net short securitization position calculated under this section.

(a) Equity positions. The total specific risk add-on for a portfolio of equity positions is the sum of the specific risk add-ons of the individual equity positions, as computed under this section. To determine the specific risk add-on of individual equity positions, a bank must multiply the absolute value of the current market value of each net long or net short equity position by the appropriate specific risk-weighting factor as determined under this paragraph:

(1) The bank must multiply the absolute value of the current market value of each net long or net short equity position by a specific risk-weighting factor of 8.0 percent. For equity positions that are index contracts comprising a well-diversified portfolio of equity instruments, the absolute value of the current market value of each net long or net short position is multiplied by a specific risk-weighting factor of 2.0 percent.46

(2) For equity positions arising from the following futures-related arbitrage strategies, a bank may apply a 2.0 percent specific risk-weighting factor to one side (long or short) of each position with the opposite side exempt from an additional capital requirement:

(i) Long and short positions in exactly the same index at different dates or in different market centers; or

(ii) Long and short positions in index contracts at the same date in different, but similar indices.

(3) For futures contracts on main indices that are matched by offsetting positions in a basket of stocks comprising the index, a bank may apply a 2.0 percent specific risk-weighting factor to the futures and stock basket positions (long and short), provided that such trades are deliberately entered into and separately controlled, and that the basket of stocks is comprised of stocks representing at least 90.0 percent of the capitalization of the index. A main index refers to the Standard & Poor's 500 Index, the FTSE All-World Index, and any other index for which the bank can demonstrate to the satisfaction of the FDIC that the equities represented in the index have liquidity, depth of market, and size of bid-ask spreads comparable to equities in the Standard & Poor's 500 Index and FTSE All-World Index.

(c) Due diligence requirements. (1) A bank must demonstrate to the satisfaction of the FDIC a comprehensive understanding of the features of a securitization position that would materially affect the performance of the position by conducting and documenting the analysis set forth in paragraph (f)(2) of this section. The bank's analysis must be commensurate with the complexity of the securitization position and the materiality of the position in relation to capital.

(2) To support the demonstration of its comprehensive understanding, for each securitization position a bank must:

(i) Conduct an analysis of the risk characteristics of a securitization position prior to acquiring the position and document such analysis within three business days after acquiring the position, considering:

(A) Structural features of the securitization that would materially impact the performance of the position, for example, the contractual cash flow waterfall, waterfall-related triggers, credit enhancements, liquidity enhancements, market value triggers, the performance of organizations that service the position, and deal-specific definitions of default;

(B) Relevant information regarding the performance of the underlying credit exposure(s), for example, the percentage of loans 30, 60, and 90 days past due; default rates; prepayment rates; loans in foreclosure; property types; occupancy; average credit score or other measures of creditworthiness; average loan-to-value ratio; and industry and geographic diversification data on the underlying exposure(s);

(C) Relevant market data of the securitization, for example, bid-ask spreads, most recent sales price and historical price volatility, trading volume, implied market rating, and size, depth and concentration level of the market for the securitization; and

(D) For resecuritization positions, performance information on the underlying securitization exposures, for example, the issuer name and credit quality, and the characteristics and performance of the exposures underlying the securitization exposures; and

(ii) On an on-going basis (no less frequently than quarterly), evaluate, review, and update as appropriate the analysis required under paragraph (f)(1) of this section for each securitization position.

Section 11. Simplified Supervisory Formula Approach

(a) General requirements. To use the SSFA to determine the specific risk-weighting factor for a securitization position, a bank must have data that enables it to assign accurately the parameters described in paragraph (b) of this section. Data used to assign the parameters described in paragraph (b) of this section must be the most currently available data and no more than 91 calendar days old. A bank that does not have the appropriate data to assign the parameters described and

46A portfolio is well-diversified if it contains a large number of individual equity positions, with no single position representing a substantial portion of the portfolio's total market value.
defined, for purposes of this section, in para-
graph (b) of this section must assign a spe-
cific risk-weighting factor of 100 percent to
the position.
(b) SSFA parameters. To calculate the spe-
cific risk-weighting factor for a securitization position using the SSFA, a
bank must have accurate information on the
five inputs to the SSFA calculation de-
scribed in paragraphs (b)(1) through (b)(5) of
this section:
(1) $K_G$ is the weighted-average (with unpaid
principal used as the weight for each expo-
sure) total capital requirement of the under-
lying exposures calculated using appendix A
to this part. $K_G$ is expressed as a decimal
value between zero and 1 (that is, an average
risk weight of 100 percent represents a value
of $K_G$ equal to 0.8).
(2) Parameter $W$ is expressed as a decimal
value between zero and one. Parameter $W$ is
the ratio of the sum of the dollar amounts of
any underlying exposures within the
securitized pool that meet any of the criteria
as set forth in paragraphs (i) through (vi) of
this paragraph (b)(2) to the ending balance,
measured in dollars, of underlying exposures:
(i) Ninety days or more past due;
(ii) Subject to a bankruptcy or insolvency
proceeding;
(iii) In the process of foreclosure;
(iv) Held as real estate owned;
(v) Has contractually deferred interest
payments for 90 days or more; or
(vi) Is in default.
(3) Parameter $A$ is the attachment point
for the position, which represents the thresh-
old at which credit losses of principal allo-
cated to the position would result in a total
loss of principal. Parameter $D$ equals param-
eter $A$ plus the ratio of the current dollar
amount of the securitization positions that
are pari passu with the position (that is, have
equal seniority with respect to credit risk)
to the current dollar amount of the under-
lying exposures. Parameter $D$ is expressed as
a decimal value between zero and one.
(4) Parameter $D$ is the detachment point
for the position, which represents the thresh-
old at which credit losses of principal allo-
cated to the position would result in a total
loss of principal. Parameter $D$ equals param-
eter $A$ plus the ratio of the current dollar
amount of the securitization positions that
are pari passu with the position (that is, have
equal seniority with respect to credit risk)
to the current dollar amount of the under-
lying exposures. Parameter $D$ is expressed as
a decimal value between zero and one.
(5) A supervisory calibration parameter, $p$,
is equal to 0.5 for securitization positions
that are not resecuritization positions and
equal to 1.5 for resecuritization positions.
(c) Mechanics of the SSFA. $K_G$ and $W$ are
used to calculate $K_A$, the augmented value of
$K_G$, which reflects the observed credit qual-
ity of the underlying pool of exposures. $K_A$
is defined in paragraph (d) of this section. The
values of parameters $A$ and $D$, relative to $K_A$
determine the specific risk-weighting factor
assigned to a position as described in this
paragraph and paragraph (d) of this section.
The specific risk-weighting factor assigned
to a position, or portion of a
position, as appropriate, is the larger of the
specific risk-weighting factor determined in
accordance with this paragraph and para-
graph (d) of this section and a specific risk-
weighting factor of 1.6 percent.
(1) When the detachment point, parameter
$D$, for a securitization position is less than
or equal to $K_A$, the position must be assigned
a specific risk-weighting factor of 100 per-
cent.
(2) When the attachment point, parameter
$A$, for a securitization position is greater
than or equal to $K_A$, the bank must calculate
the specific risk-weighting factor in accord-
ance with paragraph (d) of this section.
(3) When $A$ is less than $K_A$ and $D$ is greater
than $K_A$, the specific risk-weighting factor is
a weighted-average of 1.00 and $K_{SSFA}$ cal-
culated in accordance with paragraph (d) of
this section, but with the parameter $A$ re-
vised to be set equal to $K_A$. For the purpose
of this weighted-average calculation:
Section 12. Market Risk Disclosures

(a) Scope. A bank must comply with this section unless it is a consolidated subsidiary of a bank holding company or a depository institution that is subject to these requirements or of a non-U.S. banking organization that is subject to comparable public disclosure requirements in its home jurisdiction. A bank must make quantitative disclosures publicly each calendar quarter. If a significant change occurs, such that the most recent reporting amounts are no longer reflective of the bank’s capital adequacy and risk profile, then a brief discussion of this change and its likely impact must be provided as soon as practicable thereafter. Qualitative disclosures that typically do not change each quarter may be disclosed annually, provided any significant changes are disclosed in the interim. If a bank believes that disclosure of specific commercial or financial information would prejudice seriously its position by making public certain information that is either proprietary or confidential in nature, the bank is not required to disclose these specific items, but must disclose more general information about the subject matter of the requirement, together with the fact that, and the reason why, the specific items of information have not been disclosed.

(b) Disclosure policy. The bank must have a formal disclosure policy approved by the board of directors that addresses the bank’s approach for determining its market risk.
Disclosures. The policy must address the associated internal controls and disclosure controls and procedures. The board of directors and senior management must ensure that appropriate verification of the disclosures takes place and that effective internal controls and disclosure controls and procedures are maintained. One or more senior officers of the bank must attest that the disclosures meet the requirements of this appendix, and the board of directors and senior management are responsible for establishing and maintaining an effective internal control structure over financial reporting, including the disclosures required by this section.

(c) Quantitative disclosures. (1) For each material portfolio of covered positions, the bank must disclose publicly the following information at least quarterly:

(i) The high, low, and mean VaR-based measures over the reporting period and the VaR-based measure at period-end;

(ii) The high, low, and mean stressed VaR-based measures over the reporting period and the stressed VaR-based measure at period-end;

(iii) The high, low, and mean incremental risk capital requirements over the reporting period and the incremental risk capital requirement at period-end;

(iv) The high, low, and mean comprehensive risk capital requirements over the reporting period and the comprehensive risk capital requirement at period-end, with the period-end requirement broken down into appropriate risk classifications (for example, default risk, migration risk, correlation risk);

(v) Separate measures for interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk, a description of the stress tests applied to the positions subject to the factor; and

(vi) A comparison of VaR-based estimates with actual gains or losses experienced by the bank, with an analysis of important outliers.

(2) In addition, the bank must disclose publicly the following information at least quarterly:

(i) The aggregate amount of on-balance sheet and off-balance sheet securitization positions by exposure type; and

(ii) The aggregate amount of correlation trading positions.

(d) Qualitative disclosures. For each material portfolio of covered positions, the bank must disclose publicly the following information at least annually, or more frequently in the event of material changes for each portfolio:

(1) The composition of material portfolios of covered positions;

(2) The bank’s valuation policies, procedures, and methodologies for covered positions including, for securitization positions, the methods and key assumptions used for valuing such positions, any significant changes since the last reporting period, and the impact of such change;

(3) The characteristics of the internal models used for purposes of this appendix. For the incremental risk capital requirement and the comprehensive risk capital requirement, this must include:

(i) The approach used by the bank to determine liquidity horizons;

(ii) The methodologies used to achieve a capital assessment that is consistent with the required soundness standard; and

(iii) The specific approaches used in the validation of these models;

(4) A description of the approaches used for validating and evaluating the accuracy of internal models and modeling processes for purposes of this appendix;

(5) For each market risk category (that is, interest rate risk, credit spread risk, equity price risk, foreign exchange risk, and commodity price risk), a description of the stress tests applied to the positions subject to the factor;

(6) The results of the comparison of the bank’s internal estimates for purposes of this appendix with actual outcomes during a sample period not used in model development;

(7) The soundness standard on which the bank’s internal capital adequacy assessment under this appendix is based, including a description of the methodologies used to achieve a capital adequacy assessment that is consistent with the soundness standard;

(8) A description of the bank’s processes for monitoring changes in the credit and market risk of securitization positions, including how those processes differ for resecuritization positions; and

(8) A description of the bank’s policy governing the use of credit risk mitigation that mitigates the risks of securitization and resecuritization positions.

Section 81 Optional Transition Provisions Related to the Implementation of Consolidation Requirements Under FAS 107

Part I General Provisions
Section 1 Purpose, Applicability, Reservation of Authority, and Principle of Conservatism

(a) Purpose. This appendix establishes:

(1) Minimum qualifying criteria for banks using bank-specific internal risk measurement and management processes for calculating risk-based capital requirements;
(2) Methodologies for such banks to calculate their risk-based capital requirements; and
(3) Public disclosure requirements for such banks.

(b) Applicability. (1) This appendix applies to a bank that:

(i) Has consolidated assets, as reported on the most recent year-end Consolidated Report of Condition and Income (Call Report) equal to $250 billion or more;
(ii) Has consolidated total on-balance sheet foreign exposure at the most recent year-end equal to $10 billion or more (where total on-balance sheet foreign exposure equals total cross-border claims less claims with head office or guarantor located in another country plus redistributed guaranteed amounts to the country of head office or guarantor plus local country claims on local residents plus revaluation gains on foreign exchange and derivative products, calculated in accordance with the Federal Financial Institutions Examination Council (FFIEC) 009 Country Exposure Report);
(iii) Is a subsidiary of a depository institution that uses 12 CFR part 3, appendix C, 12 CFR part 236, appendix F, 12 CFR part 325, appendix D, or 12 CFR part 567, appendix C, to calculate its risk-based capital requirements; or
(iv) Is a subsidiary of a bank holding company that uses 12 CFR part 225, appendix G, to calculate its risk-based capital requirements.

(2) Any bank may elect to use this appendix to calculate its risk-based capital requirements.

(3) A bank that is subject to this appendix must use this appendix unless the FDIC determines in writing that application of this appendix is not appropriate in light of the bank’s asset size, level of complexity, risk profile, or scope of operations. In making a determination under this paragraph, the FDIC will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 325.6(c).

(c) Reservation of authority—(1) Additional capital in the aggregate. The FDIC may require a bank to hold an amount of capital greater than otherwise required under this appendix if the FDIC determines that the bank’s risk-based capital requirement under this appendix is not commensurate with the bank’s credit, market, operational, or other risks. In making a determination under this paragraph, the FDIC will apply notice and response procedures in the same manner and to the same extent as the notice and response procedures in 12 CFR 325.6(c).

(2) Specific risk-weighted asset amounts. (i) If the FDIC determines that the risk-weighted asset amount calculated under this appendix...
by the bank for one or more exposures is not commensurate with the risks associated with those exposures, the FDIC may require the bank to assign a different risk-weighted asset amount to the exposures, to assign different risk parameters to the exposures (if the exposures are wholesale or retail exposures), or to use different model assumptions for the exposures (if relevant), all as specified by the FDIC.

(2) The bank can demonstrate on an ongoing basis to the satisfaction of the FDIC that not applying the provision would, in all circumstances, unambiguously generate a risk-weighted asset amount for operational risk greater than that which would otherwise be required under this appendix; and

(3) The bank appropriately manages the risk of each such exposure.

(4) The bank notifies the FDIC in writing prior to applying this principle to each such exposure; and

(5) The exposures to which the bank applies this principle are not, in the aggregate, material to the bank.

Section 2. Definitions

Advanced internal ratings-based (IRB) systems means a bank’s internal risk rating and segmentation system; risk parameter quantification system; data management and maintenance system; and control, oversight, and validation system for credit risk of wholesale and retail exposures.

Advanced systems means a bank’s advanced IRB systems, operational risk management processes, operational risk data and assessment systems, operational risk quantification systems, and, to the extent the bank uses the following systems, the internal models methodology, double default excessive correlation detection process, IMA for equity exposures, and IAA for securitization exposures to ABCP programs.

Affiliate with respect to a company means any company that controls, is controlled by, or is under common control with, the company.

Applicable external rating means:

(1) With respect to an exposure that has multiple external ratings assigned by NRSROs, the lowest solicited external rating assigned to the exposure by any NRSRO; and

(2) With respect to an exposure that has a single external rating assigned by an NRSRO, the external rating assigned to the exposure by the NRSRO.

Applicable inferred rating means:

(1) With respect to an exposure that has multiple inferred ratings, the lowest inferred rating based on a solicited external rating; and

(2) With respect to an exposure that has a single inferred rating, the inferred rating.

Asset-backed commercial paper (ABCP) program means a program that primarily issues commercial paper that:

(1) Has an external rating; and

(2) Is backed by underlying exposures held in a bankruptcy-remote SPE.

Asset-backed commercial paper (ABCP) program sponsor means a bank that:

(1) Establishes an ABCP program;

(2) Approves the sellers permitted to participate in an ABCP program;

(3) Approves the exposures to be purchased by an ABCP program; or

(4) Administers the ABCP program by monitoring the underlying exposures, underwriting or otherwise arranging for the placement of debt or other obligations issued by the program, compiling monthly reports, or ensuring compliance with the program documents and with the program’s credit and investment policy.

Backtesting means the comparison of a bank’s internal estimates with actual outcomes during a sample period not used in model development. In this context, backtesting is one form of out-of-sample testing.
Bank holding company is defined in section 2 of the Bank Holding Company Act (12 U.S.C. 1841).

Benchmarking means the comparison of a bank's internal estimates with relevant internal and external data or with estimates based on other estimation techniques.

Business environment and internal control factors means the indicators of a bank's operational risk profile that reflect a current and forward-looking assessment of the bank's underlying business risk factors and internal control environment.

Carrying value means, with respect to an asset, the value of the asset on the balance sheet of the bank, determined in accordance with GAAP.

Clean-up call means a contractual provision that permits an originating bank or servicer to call securitization exposures before their stated maturity or call date. See also eligible clean-up call.

Commodity derivative contract means a commodity-linked swap, purchased commodity-linked option, forward commodity-linked contract, or any other instrument linked to commodities that gives rise to similar counterparty credit risks.

Company means a corporation, partnership, limited liability company, depository institution, business trust, special purpose entity, association, or similar organization.

Control. A person or company controls a company if it:

(1) Owns, controls, or holds with power to vote 25 percent or more of a class of voting securities of the company; or
(2) Consolidates the company for financial reporting purposes.

Controlled early amortization provision means an early amortization provision that meets all the following conditions:

(1) The originating bank has appropriate policies and procedures to ensure that it has sufficient capital and liquidity available in the event of an early amortization;
(2) Throughout the duration of the securitization (including the early amortization period), there is the same pro rata sharing of interest, principal, expenses, losses, fees, recoveries, and other cash flows from the underlying exposures based on the originating bank's and the investors' relative shares of the underlying exposures outstanding measured on a consistent monthly basis;
(3) The amortization period is sufficient for at least 80 percent of the total underlying exposures outstanding at the beginning of the early amortization period to be repaid or recognized as in default; and
(4) The schedule for repayment of investor principal is not more rapid than would be allowed by straight-line amortization over an 18-month period.

Credit derivative means a financial contract executed under standard industry credit derivative documentation that allows one party (the protection purchaser) to transfer the credit risk of one or more exposures (reference exposure) to another party (the protection provider). See also eligible credit derivative.

Credit-enhancing interest-only strip (CEIO) means an on-balance sheet asset that, in form or in substance:

(1) Represents a contractual right to receive some or all of the interest and no more than a minimal amount of principal due on the underlying exposures of a securitization; and
(2) Exposes the holder to credit risk directly or indirectly associated with the underlying exposures that exceed a pro rata share of the holder's claim on the underlying exposures, whether through subordination provisions or other credit-enhancement techniques.

Credit-enhancing representations and warranties means representations and warranties that are made or assumed in connection with a transfer of underlying exposures (including loan servicing assets) and that obligate a bank to protect another party from losses arising from the credit risk of the underlying exposures. Credit-enhancing representations and warranties include provisions to protect a party from losses resulting from the default or nonperformance of the obligors of the underlying exposures or from an insufficiency in the value of the collateral backing the underlying exposures. Credit-enhancing representations and warranties do not include:

(1) Early default clauses and similar warranties that permit the return of, or premium refund clauses that cover, first-lien residential mortgage exposures for a period not to exceed 120 days from the date of transfer, provided that the date of transfer is within one year of origination of the residential mortgage exposure;
(2) Premium refund clauses that cover underlying exposures guaranteed, in whole or in part, by the U.S. government, a U.S. government agency, or a U.S. government sponsored enterprise, provided that the clauses are for a period not to exceed 120 days from the date of transfer; or
(3) Warranties that permit the return of underlying exposures in instances of misrepresentation, fraud, or incomplete documentation.

Credit risk mitigant means collateral, a credit derivative, or a guarantee.

Credit-risk-weighted assets means 1.06 multiplied by the sum of:

(1) Total wholesale and retail risk-weighted assets;
(2) Risk-weighted assets for securitization exposures; and
(3) Risk-weighted assets for equity exposures.
Current exposure means, with respect to a netting set, the larger of zero or the market value of a transaction or portfolio of transactions within the netting set that would be lost upon default of the counterparty, assuming no recovery on the value of the transactions. Current exposure is also called replacement cost.

Default—(1) Retail. (i) A retail exposure of a bank is in default if:

(A) The exposure is 180 days past due, in the case of a consumer or mortgage exposure or revolving exposure;

(B) The exposure is 120 days past due, in the case of all other retail exposures; or

(C) The bank has taken a full or partial charge-off, write-down of principal, or material negative fair value adjustment of principal on the exposure for credit-related reasons.

(ii) Notwithstanding paragraph (1)(i) of this definition, for a retail exposure held by a non-U.S. subsidiary of the bank that is subject to an internal ratings-based approach to capital adequacy consistent with the Basel Committee on Banking Supervision’s “International Convergence of Capital Measurement and Capital Standards: A Revised Framework” in a non-U.S. jurisdiction, the bank may elect to use the definition of default that is used in that jurisdiction, provided that the bank has obtained prior approval from the FDIC to use the definition of default in that jurisdiction.

(iii) A retail exposure in default remains in default until the bank has reasonable assurance of repayment and performance for all contractual principal and interest payments on the exposure.

(2) Wholesale. (i) A bank’s wholesale obligor is in default if:

(A) The bank determines that the obligor is unlikely to pay its credit obligations to the bank in full, without recourse by the bank to actions such as realizing collateral (if held); or

(B) The obligor is past due more than 90 days on any material credit obligation(s) to the bank.  

(ii) An obligor in default remains in default until the bank has reasonable assurance of repayment and performance for all contractual principal and interest payments on all exposures of the bank to the obligor (other than exposures that have been fully written-down or charged-off).

Dependence means a measure of the association among operational losses across and within units of measure.

Depository institution is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813).

1 Overdrafts are past due once the obligor has breached an advised limit or been advised of a limit smaller than the current outstanding balance.

Derivative contract means a financial contract whose value is derived from the values of one or more underlying assets, reference rates, or indices of asset values or reference rates. Derivative contracts include interest rate derivative contracts, exchange rate derivative contracts, equity derivative contracts, commodity derivative contracts, credit derivatives, and any other instrument or related position whose value is determined by reference to one or more underlying assets, reference rates, or indices of asset values or reference rates. Derivative contracts also include unsettled securities, commodities, and foreign exchange transactions with a contractual settlement or delivery lag that is longer than the lesser of the market standard for the particular instrument or five business days.

Early amortization provision means a provision in the documentation governing a securitization that, when triggered, causes investors in the securitization exposures to be repaid before the original stated maturity of the securitization exposures, unless the provision:

(1) Is triggered solely by events not directly related to the performance of the underlying exposures or the originating bank (such as material changes in tax laws or regulations); or

(2) Leaves investors fully exposed to future draws by obligors on the underlying exposures even after the provision is triggered.

Economic downturn conditions means, with respect to an exposure held by the bank, those conditions in which the aggregate default rates for that exposure’s wholesale or retail exposure subcategory (or subdivision of such subcategory selected by the bank) in the exposure’s national jurisdiction (or subdivision of such jurisdiction selected by the bank) are significantly higher than average.

Effective maturity (M) of a wholesale exposure means:

(1) For wholesale exposures other than repo-style transactions, eligible margin loans, and OTC derivative contracts described in paragraph (2) or (3) of this definition:

(i) The weighted-average remaining maturity (measured in years, whole or fractional) of the expected contractual cash flows from the exposure, using the undiscounted amounts of the cash flows as weights; or

(ii) The nominal remaining maturity (measured in years, whole or fractional) of the exposure.

(2) For repo-style transactions, eligible margin loans, and OTC derivative contracts subject to a qualifying master netting agreement for which the bank does not apply the internal models approach in paragraph (d) of section 32 of this appendix, the weighted-average remaining maturity (measured in years, whole or fractional) of the individual transactions subject to the qualifying master netting agreement, with the weight of each individual transaction set equal to the notional amount of the transaction.
Federal Deposit Insurance Corporation

(3) For repo-style transactions, eligible margin loans, and OTC derivative contracts for which the bank applies the internal models approach in paragraph (d) of section 32 of this appendix, the value determined in paragraph (d)(4) of section 32 of this appendix.

Effective notional amount means, for an eligible guarantee or eligible credit derivative, the lesser of the contractual notional amount of the credit risk mitigant and the EAD of the hedged exposure, multiplied by the percentage coverage of the credit risk mitigant. For example, the effective notional amount of an eligible guarantee that covers, on a pro rata basis, 40 percent of any losses on a $100 bond would be $40.

Eligible clean-up call means a clean-up call that:

(1) Is exercisable solely at the discretion of the originating bank or servicer;

(2) Is not structured to avoid allocating losses to securitization exposures held by investors or otherwise structured to provide credit enhancement to the securitization; and

(3)(i) For a traditional securitization, is only exercisable when 10 percent or less of the principal amount of the underlying exposures (determined as of the inception of the securitization) is outstanding; or

(ii) For a synthetic securitization, is only exercisable when 10 percent or less of the principal amount of the reference portfolio of underlying exposures (determined as of the inception of the securitization) is outstanding.

Eligible credit derivative means a credit derivative in the form of a credit default swap, nth-to-default swap, total return swap, or any other form of credit derivative approved by the FDIC, provided that:

(1) The contract meets the requirements of an eligible guarantee and has been confirmed by the protection purchaser and the protection provider;

(2) Any assignment of the contract has been confirmed by all relevant parties;

(3) If the credit derivative is a credit default swap or nth-to-default swap, the contract includes the following credit events:

(i) Failure to pay any amount due under the terms of the reference exposure, subject to any applicable minimal payment threshold that is consistent with standard market practice and with a grace period that is closely in line with the grace period of the reference exposure; and

(ii) Bankruptcy, insolvency, or inability of the obligor on the reference exposure to pay its debts, or its failure or admission in writing of its inability generally to pay its debts as they become due, and similar events;

(4) The terms and conditions dictating the manner in which the contract is to be settled are incorporated into the contract;

(5) If the contract allows for cash settlement, the contract incorporates a robust valuation process to estimate loss reliably and specifies a reasonable period for obtaining post-credit event valuations of the reference exposure;

(6) If the contract requires the protection purchaser to transfer an exposure to the protection provider at settlement, the terms of the contract provide that any required consent to transfer may not be unreasonably withheld;

(7) If the credit derivative is a credit default swap or nth-to-default swap, the contract clearly identifies the parties responsible for determining whether a credit event has occurred, specifies that this determination is not the sole responsibility of the protection provider, and gives the protection purchaser the right to notify the protection provider of the occurrence of a credit event; and

(8) If the credit derivative is a total return swap and the bank records net payments received on the swap as net income, the bank records offsetting deterioration in the value of the hedged exposure (either through reductions in fair value or by an addition to reserves).

Eligible credit reserves means all general allowances that have been established through a charge against earnings to absorb credit losses associated with on- or off-balance sheet wholesale and retail exposures, including the allowance for loan and lease losses (ALLL) associated with such exposures but excluding allocated transfer risk reserves established pursuant to 12 U.S.C. 3904 and other specific reserves created against recognized losses.

Eligible double default guarantor, with respect to a guarantee or credit derivative obtained by a bank, means:

(1) U.S.-based entities. A depository institution, a bank holding company, a savings and loan holding company (as defined in 12 U.S.C. 1467a) provided all or substantially all of the holding company’s activities are permissible for a financial holding company under 12 U.S.C. 1849(k), a securities broker or dealer registered with the SEC under the Securities Exchange Act of 1934 (15 U.S.C. 78o et seq.), or an insurance company in the business of providing credit protection (such as a monoline bond insurer or re-insurer) that is subject to supervision by a State insurance regulator, if:

(i) At the time the guarantor issued the guarantee or credit derivative or at any time thereafter, the bank assigned a PD to the guarantor’s rating grade that was equal to or lower than the PD associated with a long-term external rating in the third-highest investment-grade rating category; and

(ii) The bank currently assigns a PD to the guarantor’s rating grade that is equal to or
Eligible guarantee means a guarantee that:

1. Is written and unconditional;
2. Covers all or a pro rata portion of all contractual payments of the obligor on the reference exposure;
3. Gives the beneficiary a direct claim against the protection provider;
4. Is not unilaterally cancelable by the protection provider for reasons other than the breach of the contract by the beneficiary;
5. Is legally enforceable against the protection provider in a jurisdiction where the protection provider has sufficient assets against which a judgment may be attached and enforced;
6. Requires the protection provider to make payment to the beneficiary on the occurrence of a default (as defined in the guarantee) of the obligor on the reference exposure in a timely manner without the beneficiary first having to take legal actions to pursue the obligor for payment;
7. Does not increase the beneficiary’s cost of credit protection on the guarantee in response to deterioration in the credit quality of the reference exposure; and
8. Is not provided by an affiliate of the bank, unless the affiliate is an insured depositary institution, bank, securities broker or dealer, or insurance company that:
   i. Does not control the bank; and
   ii. Is subject to consolidated supervision and regulation comparable to that imposed on U.S. depository institutions, securities broker-dealers, or insurance companies (as the case may be).

Eligible margin loan means an extension of credit where:

1. The extension of credit is collateralized exclusively by liquid and readily marketable debt or equity securities, gold, or conforming residential mortgages;
2. The collateral is marked to market daily, and the transaction is subject to daily margin maintenance requirements;
3. The extension of credit is conducted under an agreement that provides the bank the right to accelerate and terminate the extension of credit and to liquidate or set off collateral promptly upon an event of default (including upon an event of bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions; and
4. The bank has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Eligible operational risk offsets means amounts, not to exceed expected operational loss, that:

1. Are generated by internal business practices to absorb highly predictable and reasonably stable operational losses, including reserves calculated consistent with GAAP; and
2. Are available to cover expected operational losses with a high degree of certainty over a one-year horizon.

Eligible purchased wholesale exposure means a purchased wholesale exposure that:

1. The bank or securitization SPE purchased from an unaffiliated seller and did not directly or indirectly originate;
2. Was generated on an arm’s-length basis between the seller and the obligor (intercompany accounts receivable and receivables subject to contra-accounts between firms that buy and sell to each other do not satisfy this criterion); and
3. This requirement is met where all transactions under the agreement are (i) executed under U.S. law and (ii) constitute “securities contracts” under section 555 of the Bankruptcy Code (11 U.S.C. 555). qualified financial contracts under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or netting contracts between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Federal Reserve Board’s Regulation RR (12 CFR part 211).
Federal Deposit Insurance Corporation

(3) Provides the bank or securitization SPE with a claim on all proceeds from the exposure or a pro rata rate in the proceeds from the exposure; 
(4) Has an M of less than one year; and 
(5) When consolidated by obligor, does not represent a concentrated exposure relative to the portfolio of purchased wholesale exposures.

Eligible securitization guarantor means: 
(1) A sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Central Bank, the European Commission, a Federal Home Loan Bank, Federal Agricultural Mortgage Corporation (Farmer Mac), a multilateral development bank, a depository institution, a bank holding company, a savings and loan holding company (as defined in 12 U.S.C. 1467a) provided all or substantially all of the holding company’s activities are permissible for a financial holding company under 12 U.S.C. 1843(k), a foreign bank (as defined in §211.2 of the Federal Reserve Board’s Regulation K (12 CFR 211.2)), or a securities firm; 
(2) Any other entity (other than a securitization SPE) that has issued and outstanding an unsecured long-term debt security without credit enhancement that has a long-term applicable external rating in one of the three highest investment-grade rating categories; or 
(3) Any other entity (other than a securitization SPE) that has a PD assigned by the bank that is lower than or equal to the PD associated with a long-term external rating in the third highest investment-grade rating category.

Eligible servicer cash advance facility means a servicer cash advance facility in which: 
(1) The servicer is entitled to full reimbursement of advances, except that a servicer may be obligated to make non-reimbursable advances for a particular underlying exposure if any such advance is contractually limited to an insignificant amount of the outstanding principal balance of that exposure; 
(2) The servicer’s right to reimbursement is senior in right of payment to all other claims on the cash flows from the underlying exposures of the securitization; and 
(3) The servicer has no legal obligation to, and does not, make advances to the servicer if the servicer concludes the advances are unlikely to be repaid.

Equity derivative contract means an equity-linked swap, purchased equity-linked option, forward equity-linked contract, or any other instrument linked to equities that gives rise to similar counterparty credit risks.

Equity exposure means: 
(1) A security or instrument (whether voting or non-voting) that represents a direct or indirect ownership interest in, and is a residual claim on, the assets and income of a company, unless: 
(1) The issuing company is consolidated with the bank under GAAP;
(2) The bank is required to deduct the ownership interest from tier 1 or tier 2 capital under this appendix; 
(3) The ownership interest incorporates a payment or other similar obligation on the part of the issuing company (such as an obligation to make periodic payments); or 
(4) The ownership interest is a securitization exposure; 
(2) A security or instrument that is mandatorily convertible into a security or instrument described in paragraph (1) of this definition; 
(3) An option or warrant that is exercisable for a security or instrument described in paragraph (1) of this definition; or 
(4) Any other security or instrument (other than a securitization exposure) to the extent the return on the security or instrument is based on the performance of a security or instrument described in paragraph (1) of this definition.

Excess spread for a period means: 
(1) Gross finance charge collections and other income received by a securitization SPE (including market interchange fees) over a period minus interest paid to the holders of the securitization exposures, servicing fees, charge-offs, and other senior trust or similar expenses of the SPE over the period, divided by 
(2) The principal balance of the underlying exposures at the end of the period.

Exchange rate derivative contract means a cross-currency interest rate swap, forward foreign-exchange contract, currency option purchased, or any other instrument linked to exchange rates that gives rise to similar counterparty credit risks.

Excluded mortgage exposure means any one- to four-family residential pre-sold construction loan for a residence for which the purchase contract is cancelled that would receive a 100 percent risk weight under section 618(a)(2) of the Resolution Trust Corporation Refinancing, Restructuring, and Improvement Act and under 12 CFR part 326, appendix A, section II.C.

Expected credit loss (ECL) means: 
(1) For a wholesale exposure to a non-defaulted obligor or segment of non-defaulted retail exposures that is carried at fair value with gains and losses flowing through earnings or that is classified as held-for-sale and is carried at the lower of cost or fair value with losses flowing through earnings, zero. 
(2) For all other wholesale exposures to non-defaulted obligors or segments of non-defaulted retail exposures, the product of PD times LGD times EAD for the exposure or segment. 
(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures, the bank’s impairment estimate for
allowance purposes for the exposure or segment.
(4) Total ECL is the sum of expected credit losses for all wholesale and retail exposures other than exposures for which the bank has applied the double default treatment in section 34 of this appendix.

**Expected exposure (EE)**

Expected exposure (EE) means the expected value of the probability distribution of non-negative credit risk exposures to a counterparty at any specified future date before the maturity date of the longest term transaction in the netting set. Any negative market values in the probability distribution of market values to a counterparty at a specified future date are set to zero to convert the probability distribution of market values to the probability distribution of credit risk exposures.

**Expected operational loss (EOL)**

Expected operational loss (EOL) means the expected value of the distribution of potential aggregate operational losses, as generated by the bank’s operational risk quantification system using a one-year horizon.

**Expected positive exposure (EPE)**

Expected positive exposure (EPE) means the weighted average over time of expected (non-negative) exposures to a counterparty where the weights are the proportion of the time interval that an individual expected exposure represents. When calculating risk-based capital requirements, the average is taken over a one-year horizon.

**Exposure at default (EAD)**

(1) For the on-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the bank determines EAD under section 32 of this appendix), EAD means:

(i) If the exposure or segment is a security classified as available-for-sale, the bank’s carrying value (including net accrued but unpaid interest and fees) for the exposure or segment less any allocated transfer risk reserve for the exposure or segment, less any unrealized gains on the exposure or segment, and plus any unrealized losses on the exposure or segment; or

(ii) If the exposure or segment is not a security classified as available-for-sale, the bank’s carrying value (including net accrued but unpaid interest and fees) for the exposure or segment less any allocated transfer risk reserve for the exposure or segment.

(2) For the off-balance sheet component of a wholesale exposure or segment of retail exposures (other than an OTC derivative contract, or a repo-style transaction or eligible margin loan for which the bank determines EAD under section 32 of this appendix) in the form of anything other than a loan commitment, line of credit, trade-related letter of credit, or transaction-related contingency, EAD means the notional amount of the exposure or segment.

(3) EAD for OTC derivative contracts is calculated as described in section 32 of this appendix. A bank also may determine EAD for repo-style transactions and eligible margin loans as described in section 32 of this appendix.

(5) For wholesale or retail exposures in which only the drawn balance has been securitized, the bank must reflect its share of the exposures’ undrawn balances in EAD. Undrawn balances of revolving exposures for which the drawn balances have been securitized must be allocated between the seller’s and investors’ interests on a pro rata basis, based on the proportions of the seller’s and investors’ shares of the securitized drawn balances.

**Exposure category**

Exposure category means any of the wholesale, retail, securitization, or equity exposure categories.

**External operational loss event data**

External operational loss event data means any of the whole-sale, retail, securitization, or equity exposure categories.

**External rating**

External rating means a credit rating that is assigned by an NRSRO to an exposure, provided:

(1) The credit rating fully reflects the entire amount of credit risk with regard to all payments owed to the holder of the exposure.

If a holder is owed principal and interest on an exposure, the credit rating must fully reflect the credit risk associated with timely repayment of principal and interest. If a holder is owed only principal on an exposure, the credit rating must fully reflect only the credit risk associated with timely repayment of principal; and

(2) The credit rating is published in an accessible form and is or will be included in the
transition matrices made publicly available by the NRSRO that summarize the historical performance of positions rated by the NRSRO.

**Financial collateral** means collateral:
1. In the form of:
   1. Cash on deposit with the bank (including cash held for the bank by a third-party custodian or trustee);
   2. Gold bullion;
   3. Long-term debt securities that have an applicable external rating of one category below investment grade or higher;
   4. Short-term debt instruments that have an applicable external rating of at least investment grade;
   5. Equity securities that are publicly traded;
   6. Convertible bonds that are publicly traded;
   7. Money market mutual fund shares and other mutual fund shares if a price for the shares is publicly quoted daily; or
   VIII. Conforming residential mortgages; and
2. In which the bank has a perfected, first priority security interest or, outside of the United States, the legal equivalent thereof (with the exception of cash on deposit and notwithstanding the prior security interest of any custodial agent).

**GAAP** means generally accepted accounting principles as used in the United States.

**Gain on-sale** means an increase in the equity capital (as reported on Schedule RC of the Call Report) of a bank that results from a securitization (other than an increase in equity capital that results from the bank’s receipt of cash in connection with the securitization).

**Guarantee** means a financial guarantee, letter of credit, insurance, or other similar financial instrument (other than a credit derivative) that allows one party (beneficiary) to transfer the credit risk of one or more specific exposures (reference exposure) to another party (protection provider). See also *eligible guarantee*.

**High volatility commercial real estate (HVCRE)** means a credit facility that finances or has financed the acquisition, development, or construction (ADC) of real property, unless the facility finances:
1. One- to four-family residential properties; or
2. Commercial real estate projects in which:
   1. The loan-to-value ratio is less than or equal to the applicable maximum supervisory loan-to-value ratio in the FDIC’s real estate lending standards at 12 CFR part 365, appendix A.
   2. The borrower has contributed capital to the project in the form of cash or unencumbered readily marketable assets (or has paid development expenses out-of-pocket) of at least 15 percent of the real estate’s appraised “as completed” value; and
   3. The borrower contributed the amount of capital required by paragraph (2)(ii) of this definition before the bank advances funds under the credit facility, and the capital contributed by the borrower, or internally generated by the project, is contractually required to remain in the project throughout the life of the project. The life of a project concludes only when the credit facility is converted to permanent financing or is sold or paid in full. Permanent financing may be provided by the bank that provided the ADC facility as long as the permanent financing is subject to the bank’s underwriting criteria for long-term mortgage loans.

**Inferred rating.** A securitization exposure has an *inferred rating* equal to the external rating referenced in paragraph (3)(i) of this definition if:
1. The securitization exposure does not have an external rating; and
2. Another securitization exposure issued by the same issuer and secured by the same underlying exposures:
   1. Has an external rating;
   2. Is subordinated in all respects to the unrated securitization exposure; and
   3. Does not benefit from any credit enhancement that is not available to the unrated securitization exposure; and
   4. Has an effective remaining maturity that is equal to or longer than that of the unrated securitization exposure.

**Interest rate derivative contract** means a single-currency interest rate swap, basis swap, forward rate agreement, purchased interest rate option, when-issued securities, or any other instrument linked to interest rates that gives rise to similar counterparty credit risks.

**Internal operational loss event data** means, with respect to a bank, gross operational loss amounts, dates, recoveries, and relevant causal information for operational loss events occurring at the bank.

**Investing bank** means, with respect to a securitization, a bank that assumes the credit risk of a securitization exposure (other than an originating bank of the securitization). In the typical synthetic securitization, the investing bank sells credit protection on a pool of underlying exposures to the originating bank.

**Investment fund** means a company:
1. All or substantially all of the assets of which are financial assets; and
2. That has no material liabilities.

**Investors’ interest EAD means,** with respect to a securitization, the EAD of the underlying exposures multiplied by the ratio of:
1. The total amount of securitization exposures issued by the securitization SPE to investors; divided by
(2) The outstanding principal amount of underlying exposures.

Loss given default (LGD) means:

(1) For a wholesale exposure, the greatest of:
   (i) Zero;
   (ii) The bank’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the bank would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the bank to the exposure) were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or
   (iii) The bank’s empirically based best estimate of the economic loss, per dollar of EAD, the bank would expect to incur if the obligor (or a typical obligor in the loss severity grade assigned by the bank to the exposure) were to default within a one-year horizon during economic downturn conditions.

(2) For a segment of retail exposures, the greatest of:
   (i) Zero;
   (ii) The bank’s empirically based best estimate of the long-run default-weighted average economic loss, per dollar of EAD, the bank would expect to incur if the exposures in the segment were to default within a one-year horizon over a mix of economic conditions, including economic downturn conditions; or
   (iii) The bank’s empirically based best estimate of the economic loss, per dollar of EAD, the bank would expect to incur if the exposures in the segment were to default within a one-year horizon during economic downturn conditions.

(3) The economic loss on an exposure in the event of default is all material credit-related losses on the exposure (including accrued but unpaid interest or fees, losses on the sale of collateral, direct workout costs, and an appropriate allocation of indirect workout costs). Where positive or negative cash flows on a wholesale exposure to a defaulted obligor or a defaulted retail exposure (including proceeds from the sale of collateral, workout costs, additional extensions of credit to facilitate repayment of the exposure, and draw-downs of unused credit lines) occur after the date of default, the economic loss must reflect the net present value of cash flows as of the default date using a discount rate appropriate to the risk of the defaulted exposure.

Main index means the Standard & Poor’s 500 Index, the FTSE All-World Index, and any other index for which the bank can demonstrate to the satisfaction of the FDIC that the equities represented in the index have comparable liquidity, depth of market, and size of bid-ask spreads as equities in the Standard & Poor’s 500 Index and FTSE All-World Index.

Multilateral development bank means the International Bank for Reconstruction and Development, the International Finance Corporation, the Inter-American Development Bank, the African Development Bank, the European Bank for Reconstruction and Development, the European Investment Bank, the Islamic Development Bank, the Caribbean Development Bank, the Council of Europe Development Bank, and any other multilateral lending institution or regional development bank in which the U.S. government is a shareholder or contributing member or which the FDIC determines poses comparable credit risk.

Netting set means a group of transactions with a single counterparty that are subject to a qualifying master netting agreement or qualifying cross-product master netting agreement. For purposes of the internal models methodology in paragraph (d) of section 32 of this appendix, each transaction that is not subject to such a master netting agreement is its own netting set.

Nth-to-default credit derivative means a credit derivative that provides credit protection only for the nth-defaulting reference exposure in a group of reference exposures.

Obligor means the legal entity or natural person contractually obligated on a wholesale exposure, except that a bank may treat the following exposures as having separate obligors:

(1) Exposures to the same legal entity or natural person denominated in different currencies;
(2)(i) An income-producing real estate exposure for which all or substantially all of the repayment of the exposure is reliant on the cash flows of the real estate serving as collateral for the exposure; the bank, in economic substance, does not have recourse to the borrower beyond the real estate collateral; and no cross-default or cross-acceleration clauses are in place other than clauses obtained solely out of an abundance of caution; and
(ii) Other credit exposures to the same legal entity or natural person; and
(3)(i) A wholesale exposure authorized under section 364 of the U.S. Bankruptcy Code (11 U.S.C. 364) to a legal entity or natural person who is a debtor-in-possession for purposes of Chapter 11 of the Bankruptcy Code; and
(ii) Other credit exposures to the same legal entity or natural person.

Operational loss means a loss (excluding insurance or tax effects) resulting from an
Operational loss event. Operational loss includes all expenses associated with an operational loss event except for opportunity costs, forgone revenue, and costs related to risk management programs implemented to prevent future operational losses.

Operational loss means an event that results in loss and is associated with any of the following seven operational loss event type categories:

1. Internal fraud, which means the operational loss event type category that comprises operational losses resulting from an act involving at least one internal party of a type intended to defraud, misappropriate property, or circumvent regulations, the law, or company policy, excluding diversity- and discrimination-type events.

2. External fraud, which means the operational loss event type category that comprises operational losses resulting from an act by a third party of a type intended to defraud, misappropriate property, or circumvent the law. Retail credit card losses arising from non-contractual, third-party initiated fraud (for example, identity theft) are external fraud operational losses. All other third-party initiated credit losses are to be treated as credit risk losses.

3. Employment practices and workplace safety, which means the operational loss event type category that comprises operational losses resulting from an act inconsistent with employment, health, or safety laws or agreements, payment of personal injury claims, or payment arising from discrimination-type events.

4. Clients, products, and business practices, which means the operational loss event type category that comprises operational losses resulting from the nature or design of a product or from an unintentional or negligent failure to meet a professional obligation to specific clients (including fiduciary and suitability requirements).

5. Damage to physical assets, which means the operational loss event type category that comprises operational losses resulting from the loss of or damage to physical assets from natural disaster or other events.

6. Business disruption and system failures, which means the operational loss event type category that comprises operational losses resulting from disruption of business or system failures.

7. Execution, delivery, and process management, which means the operational loss event type category that comprises operational losses resulting from failed transaction processing or process management or losses arising from relations with trade counterparties and vendors.

Operational risk means the risk of loss resulting from inadequate or failed internal processes, people, and systems or from external events (including legal risk but excluding strategic and reputational risk).

Operational risk exposure means the 99.9th percentile of the distribution of potential aggregate operational losses, as generated by the bank's operational risk quantification system over a one-year horizon (and not incorporating eligible operational risk offsets or qualifying operational risk mitigants).

Originating bank, with respect to a securitization, means a bank that:

1. Directly or indirectly originated or securitized the underlying exposures included in the securitization; or

2. Serves as an ABCP program sponsor to the securitization.

Other retail exposure means an exposure other than a securitization exposure, an equity exposure, a residential mortgage exposure, an excluded mortgage exposure, a qualifying revolving exposure, or the residual value portion of a lease exposure that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is either:

1. An exposure to an individual for non-business purposes; or

2. An exposure to an individual or company for business purposes if the bank's consolidated business credit exposure to the individual or company is $1 million or less.

Over-the-counter (OTC) derivative contract means a derivative contract that is not traded on an exchange that requires the daily receipt and payment of cash-variation margin.

Probability of default (PD) means:

1. For a wholesale exposure to a non-defaulted obligor, the bank's empirically based best estimate of the long-run average one-year default rate for the rating grade assigned by the bank to the obligor, capturing the average default experience for obligors in the rating grade over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the rating grade.

2. For a segment of non-defaulted retail exposures, the bank's empirically based best estimate of the long-run average one-year default rate for the exposures in the segment, capturing the average default experience for exposures in the segment over a mix of economic conditions (including economic downturn conditions) sufficient to provide a reasonable estimate of the average one-year default rate over the economic cycle for the segment and adjusted upward as appropriate for segments for which seasoning effects are material. For purposes of this definition, a segment for which seasoning effects are material is a segment where there is a material relationship between the time since origination of exposures within the segment and the bank's best estimate of the long-run average
one-year default rate for the exposures in the segment.

(3) For a wholesale exposure to a defaulted obligor or segment of defaulted retail exposures:

Protection amount \( (P) \) means, with respect to an exposure hedged by an eligible guaranty or eligible credit derivative, the effective notional amount of the guarantee or credit derivative, reduced to reflect any currency mismatch, maturity mismatch, or lack of restructuring coverage (as provided in section 33 of this appendix).

Publicly traded means traded on:

(1) Any exchange registered with the SEC as a national securities exchange under section 6 of the Securities Exchange Act of 1934 (15 U.S.C. 78f); or

(2) Any non-U.S.-based securities exchange that:

(i) Is registered with, or approved by, a national securities regulatory authority; and

(ii) Provides a liquid, two-way market for the instrument in question, meaning that there are enough independent bona fide offers to buy and sell so that a sales price reasonably related to the last sales price or current bona fide competitive bid and offer quotations can be determined promptly and a trade can be settled at such a price within five business days.

Qualifying central counterparty means a counterparty (for example, a clearinghouse) that:

(1) Facilitates trades between counterparties in one or more financial markets by either guaranteeing trades or novating contracts;

(2) Requires all participants in its arrangements to be fully collateralized on a daily basis; and

(3) The bank demonstrates to the satisfaction of the PDIC is in sound financial condition and is subject to effective oversight by a national supervisory authority.

Qualifying cross-product master netting agreement means a qualifying master netting agreement that provides for termination and close-out netting across multiple types of financial transactions or qualifying master netting agreements in the event of a counterparty’s default, provided that:

(1) The underlying financial transactions are OTC derivative contracts, eligible margin loans, or repo-style transactions; and

(2) The bank obtains a written legal opinion verifying the validity and enforceability of the agreement under applicable law of the relevant jurisdictions if the counterparty fails to perform upon an event of default, including upon an event of bankruptcy, insolvency, or similar proceeding.

Qualifying master netting agreement means any written, legally enforceable bilateral agreement, provided that:

(1) The agreement creates a single legal obligation for all individual transactions covered by the agreement upon an event of default, including bankruptcy, insolvency, or similar proceeding, of the counterparty;

(2) The agreement provides the bank the right to accelerate, terminate, and close-out on a net basis all transactions under the agreement and to liquidate or set off collateral promptly upon an event of default, including upon an event of bankruptcy, insolvency, or similar proceeding, of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions;

(3) The bank has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that:

(i) The agreement meets the requirements of paragraph (2) of this definition; and

(ii) In the event of a legal challenge (including one resulting from default or from bankruptcy, insolvency, or similar proceeding) the relevant court and administrative authorities would find the agreement to be legal, valid, binding, and enforceable under the law of the relevant jurisdictions;

(4) The bank establishes and maintains procedures to monitor possible changes in relevant law and to ensure that the agreement continues to satisfy the requirements of this definition; and

(5) The agreement does not contain a walkaway clause (that is, a provision that permits a non-defaulting counterparty to make a lower payment than it would make otherwise under the agreement, or no payment at all, to a defaulter or the estate of a defaulter, even if the defaulter or the estate of the defaulter is a net creditor under the agreement).

Qualifying revolving exposure (QRE) means an exposure (other than a securitization exposure or equity exposure) to an individual that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and:

(1) Is revolving (that is, the amount outstanding fluctuates, determined largely by the borrower’s decision to borrow and repay, up to a pre-established maximum amount);

(2) Is unsecured and unconditionally cancelable by the bank to the fullest extent permitted by Federal law; and

(3) Has a maximum exposure amount (drawn plus undrawn) of up to $100,000.

Repo-style transaction means a repurchase or reverse repurchase transaction, or a securities borrowing or securities lending transaction, including a transaction in which the bank acts as agent for a customer and indemnifies the customer against loss, provided that:

(1) The transaction is based solely on liquid and readily marketable securities, cash, gold, or conforming residential mortgages;
Federal Deposit Insurance Corporation

Pt. 325, App. D

(2) The transaction is marked-to-market daily and subject to daily margin maintenance requirements;

(3)(i) The transaction is a “securities contract” or “repurchase agreement” under section 555 or 559, respectively, of the Bankruptcy Code (11 U.S.C. 555 or 559), a qualified financial contract under section 11(e)(8) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)), or a netting contract between or among financial institutions under sections 401–407 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (12 U.S.C. 4401–4407) or the Federal Reserve Board’s Regulation EE (12 CFR part 231); or

(ii) If the transaction does not meet the criteria set forth in paragraph (3)(i) of this definition, then either:

(A) The transaction is executed under an agreement that provides the bank the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of default (including upon an event of bankruptcy, insolvency, or similar proceeding) of the counterparty, provided that, in any such case, any exercise of rights under the agreement will not be stayed or avoided under applicable law in the relevant jurisdictions; or

(B) The transaction is:

(I) Either overnight or unconditionally cancelable at any time by the bank; and

(2) Executed under an agreement that provides the bank the right to accelerate, terminate, and close-out the transaction on a net basis and to liquidate or set off collateral promptly upon an event of counterparty default; and

(4) The bank has conducted sufficient legal review to conclude with a well-founded basis (and maintains sufficient written documentation of that legal review) that the agreement meets the requirements of paragraph (3) of this definition and is legal, valid, binding, and enforceable under applicable law in the relevant jurisdictions.

Residential mortgage exposure means an exposure (other than a securitization exposure, equity exposure, or excluded mortgage exposure) that is managed as part of a segment of exposures with homogeneous risk characteristics, not on an individual-exposure basis, and is:

(1) An exposure that is primarily secured by a first or subsequent lien on one- to four-family residential property; or

(2) An exposure with an original and outstanding amount of $1 million or less that is primarily secured by a first or subsequent lien on residential property that is not one to four family.

Retail exposure means a residential mortgage exposure, a qualifying revolving exposure, or an other retail exposure.

Retail exposure subcategory means the residential mortgage exposure, qualifying revolving exposure, or other retail exposure subcategory.

Risk parameter means a variable used in determining risk-based capital requirements for wholesale and retail exposures, specifically probability of default (PD), loss given default (LGD), exposure at default (EAD), or effective maturity (M).

Scenario analysis means a systematic process of obtaining expert opinions from business managers and risk management experts to derive reasoned assessments of the likelihood and loss impact of plausible high-severity operational losses. Scenario analysis may include the well-reasoned evaluation and use of external operational loss event data, adjusted as appropriate to ensure relevance to a bank’s operational risk profile and control structure.

SEC means the U.S. Securities and Exchange Commission.

Securitization means a traditional securitization or a synthetic securitization.

Securitization exposure means an on-balance sheet or off-balance sheet credit exposure that arises from a traditional or synthetic securitization or a securitization exposure if the liquidity facility or other similar payments.

Securitization special purpose entity (securitization SPE) means a corporation, trust, or other entity organized for the specific purpose of holding underlying exposures of a securitization, the activities of which are limited to those appropriate to accomplish this purpose, and the structure of which is intended to isolate the underlying exposures held by the entity from the credit risk of the seller of the underlying exposures to the entity.

Senior securitization exposure means a securitization exposure that has a first priority claim on the cash flows from the underlying exposures. When determining whether a securitization exposure has a first priority claim on the cash flows from the underlying exposures, a bank is not required to consider amounts due under interest rate or currency derivative contracts, fees due, or other similar payments. Both the most senior commercial paper issued by an ABCP program and a liquidity facility that supports the ABCP program may be senior securitization exposures if the liquidity facility provider’s right to reimbursement of the drawn amounts is senior to all claims on the cash flows from the underlying exposures except amounts due under interest rate or currency derivative contracts, fees due, or other similar payments.

Servicer cash advance facility means a facility under which the servicer of the underlying exposures of a securitization may advance cash to ensure an uninterrupted flow of payments to investors in the securitization, including advances made to cover foreclosure costs or other expenses to
facilitate the timely collection of the underlying exposures. See also eligible servicer cash advance facility.

Sovereign entity means a central government (including the U.S. government) or an agency, department, ministry, or central bank of a central government.

Sovereign exposure means:
(1) A direct exposure to a sovereign entity; or
(2) An exposure directly and unconditionally backed by the full faith and credit of a sovereign entity.

Subsidiary means, with respect to a company, a company controlled by that company.

Synthetic securitization means a transaction in which:
(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties through the use of one or more credit derivatives or guarantees (other than a guarantee that transfers only the credit risk of an individual retail exposure);
(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;
(3) Performance of the securitization exposures depends upon the performance of the underlying exposures; and
(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities).

Tier 1 capital is defined in 12 CFR part 325, appendix A, as modified in part II of this appendix.

Tier 2 capital is defined in 12 CFR part 325, appendix A, as modified in part II of this appendix.

Total qualifying capital means the sum of tier 1 capital and tier 2 capital, after all deductions required in this appendix.

Total risk-weighted assets means:
(1) The sum of:
   (i) Credit risk-weighted assets; and
   (ii) Risk-weighted assets for operational risk; minus
(2) Excess eligible credit reserves not included in tier 2 capital.

Total wholesale and retail risk-weighted assets means the sum of risk-weighted assets for wholesale exposures to non-defaulted obligors and segments of non-defaulted retail exposures; risk-weighted assets for wholesale exposures to defaulted obligors and segments of defaulted retail exposures; risk-weighted assets for assets not defined by an exposure category; and risk-weighted assets for non-material portfolios of exposures (all as determined in section 3I of this appendix) and risk-weighted assets for unsettled transactions (as determined in section 35 of this appendix) minus the amounts deducted from capital pursuant to 12 CFR part 325, appendix A (excluding those deductions reversed in section 12 of this appendix).

Traditional securitization means a transaction in which:
(1) All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties other than through the use of credit derivatives or guarantees;
(2) The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;
(3) Performance of the securitization exposures depends upon the performance of the underlying exposures;
(4) All or substantially all of the underlying exposures are financial exposures (such as loans, commitments, credit derivatives, guarantees, receivables, asset-backed securities, mortgage-backed securities, other debt securities, or equity securities);
(5) The underlying exposures are not owned by an operating company;
(6) The underlying exposures are not owned by a small business investment company described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 632); and
(7) The underlying exposures are not owned by a firm an investment in which qualifies as a community development investment under 12 U.S.C. 24(Eleventh).

(8) The FDIC may determine that a transaction in which the underlying exposures are owned by an investment firm that exercises substantially unfettered control over the size and composition of its assets, liabilities, and off-balance sheet exposures is not a traditional securitization based on the transaction’s leverage, risk profile, or economic substance.

(9) The FDIC may deem a transaction that meets the definition of a traditional securitization, notwithstanding paragraph (5), (6), or (7) of this definition, to be a traditional securitization based on the transaction’s leverage, risk profile, or economic substance.

Tranche means all securitization exposures associated with a securitization that have the same seniority level.

Underlying exposures means one or more exposures that have been securitized in a securitization transaction.

Unexpected operational loss (UOL) means the difference between the bank’s operational risk exposure and the bank’s expected operational loss.

Unit of measure means the level (for example, organizational unit or operational loss event type) at which the bank’s operational risk quantification system generates a separate distribution of potential operational losses.
Value-at-Risk (VaR) means the estimate of the maximum amount that the value of one or more exposures could decline due to market price or rate movements during a fixed holding period within a stated confidence interval.

Wholesale exposure means a credit exposure to a company, natural person, sovereign entity, or governmental entity (other than a securitization exposure, retail exposure, excluded mortgage exposure, or equity exposure). Examples of a wholesale exposure include:

1. A non-tranchéd guarantee issued by a bank on behalf of a company;
2. A repo-style transaction entered into by a bank with a company and any other transaction in which a bank posts collateral to a company and faces counterparty credit risk;
3. An exposure that a bank treats as a covered securitization under 12 CFR part 325, appendix C for which there is a counterparty credit risk capital requirement;
4. A sale of corporate loans by a bank to a third party in which the bank retains full recourse;
5. An OTC derivative contract entered into by a bank with a company;
6. An exposure to an individual that is not managed by a bank as part of a segment of exposures with homogeneous risk characteristics; and
7. A commercial lease.

Wholesale exposure subcategory means the HVCRE or non-HVCRE wholesale exposure subcategory.

Section 3. Minimum Risk-Based Capital Requirements

(a)(1) Except as modified by paragraph (c) of this section or by section 23 of this appendix, each bank must meet a minimum:
(1) Total risk-based capital ratio of 8.0 percent; and
(2) Tier 1 risk-based capital ratio of 4.0 percent.

(b) A bank’s total risk-based capital ratio is the lower of:
(1) Its total qualifying capital to total risk-weighted assets, and
(2) Its total risk-based capital ratio as calculated under appendix A of this part.

(c) A bank’s tier 1 risk-based capital ratio is the lower of:
(1) Its tier 1 capital to total risk-weighted assets, and
(2) Its tier 1 risk-based capital ratio as calculated under appendix A of this part.

(d) Each bank must hold capital commensurate with the level and nature of all risks to which the bank is exposed.

(e) When a bank subject to appendix C of this part calculates its risk-based capital requirements under this appendix, the bank must also refer to appendix C of this part for supplemental rules to calculate risk-based capital requirements adjusted for market risk.

PART II. QUALIFYING CAPITAL

Section II. Additional Deductions

(a) General. A bank that uses this appendix must make the same deductions from its tier 1 capital and tier 2 capital required in 12 CFR part 325, appendix A, except that:

1. A bank is not required to deduct certain equity investments and CEIOs (as provided in section 12 of this appendix); and

2. A bank also must make the deductions from capital required by paragraphs (b) and (c) of this section.

(b) Deductions from tier 1 capital. A bank must deduct from tier 1 capital any gain-on-sale associated with a securitization exposure as provided in paragraph (a) of section 41 and paragraphs (a)(1), (c), (g)(1), and (h)(1) of section 42 of this appendix.

(c) Deductions from tier 1 and tier 2 capital. A bank must deduct the exposures specified in paragraphs (a)(1) through (c)(7) in this section 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank’s actual tier 2 capital, however, the bank must deduct the excess from tier 1 capital.

1. Credit-enhancing interest-only strips (CEIOs). In accordance with paragraphs (a)(1) and (c) of section 42 of this appendix, any CEIO that does not constitute gain-on-sale.

2. Non-qualifying securitization exposures. In accordance with paragraphs (a)(4) and (c) of section 42 of this appendix, any securitization exposure that does not qualify for the Ratings-Based Approach, the Internal Assessment Approach, or the Supervisory Formula Approach under sections 43, 44, 45, and 46 of this appendix, respectively.

3. Securitizations of non-IRB exposures. In accordance with paragraphs (a) and (g)(4) of section 42 of this appendix, certain exposures to a securitization any underlying exposure of which is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure.

4. Low-rated securitization exposures. In accordance with section 43 and paragraph (c) of section 42 of this appendix, any securitization exposure that qualifies for and must be deducted under the Ratings-Based Approach.

5. High-risk securitization exposures subject to the Supervisory Formula Approach. In accordance with paragraphs (b) and (c) of section 45 of this appendix and paragraph (c) of section 42 of this appendix, certain high-risk securitization exposures (or portions thereof) that qualify for the Supervisory Formula Approach.

6. Eligible credit reserves shortfall. In accordance with paragraph (a)(1) of section 13
of this appendix, any eligible credit reserves shortfall.

(7) Certain failed capital markets transactions. In accordance with paragraph (e)(3) of section 35 of this appendix, the bank’s exposure on certain failed capital markets transactions.

Section 12. Deductions and Limitations Not Required

(a) Deduction of CEIOs. A bank is not required to make the deductions from capital for CEIOs in 12 CFR part 325, appendix A, section II.B.5.

(b) Deduction for certain equity investments. A bank is not required to make the deductions from capital for nonfinancial equity investments in 12 CFR part 325, appendix A, section II.B.

Section 13. Eligible Credit Reserves

(a) Comparison of eligible credit reserves to expected credit losses—(1) Shortfall of eligible credit reserves. If a bank’s eligible credit reserves are less than the bank’s total expected credit losses, the bank must deduct the shortfall amount 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank’s actual tier 2 capital, the bank must deduct the excess amount from tier 1 capital.

(2) Excess eligible credit reserves. If a bank’s eligible credit reserves exceed the bank’s total expected credit losses, the bank may include the excess amount in tier 2 capital to the extent that the excess amount does not exceed 0.6 percent of the bank’s credit-risk-weighted assets.

(b) Treatment of allowance for loan and lease losses. Regardless of any provision in 12 CFR part 325, appendix A, the ALLL is included in tier 2 capital only to the extent provided in paragraph (a)(2) of this section and in section 24 of this appendix.

PART III. QUALIFICATION

Section 21. Qualification Process

(a) Timing. (1) A bank that is described in paragraph (b)(1) of section 1 of this appendix must adopt a written implementation plan no later than six months after the later of April 1, 2008, or the date the bank meets a criterion in that section. The implementation plan must incorporate an explicit first floor period start date no later than 36 months after the later of April 1, 2008, or the date the bank meets at least one criterion under paragraph (b)(1) of section 1 of this appendix. The FDIC may extend the first floor period start date.

(2) A bank that elects to be subject to this appendix under paragraph (b)(2) of section 1 of this appendix must adopt a written implementation plan.

(b) Implementation plan. (1) The bank’s implementation plan must address in detail how the bank complies, or plans to comply, with the qualification requirements in section 22 of this appendix. The bank also must maintain a comprehensive and sound planning and governance process to oversee the implementation efforts described in the plan. At a minimum, the plan must:

(i) Comprehensively address the qualification requirements in section 22 of this appendix for the bank and each consolidated subsidiary (U.S. and foreign-based) of the bank with respect to all portfolios and exposures of the bank and each of its consolidated subsidiaries;

(ii) Justify and support any proposed temporary or permanent exclusion of business lines, portfolios, or exposures from application of the advanced approaches in this appendix (which business lines, portfolios, and exposures must be, in the aggregate, immaterial to the bank);

(iii) Include the bank’s self-assessment of:

(A) The bank’s current status in meeting the qualification requirements in section 22 of this appendix; and

(B) The consistency of the bank’s current practices with the FDIC’s supervisory guidance on the qualification requirements;

(iv) Based on the bank’s self-assessment, identify and describe the areas in which the bank proposes to undertake additional work to comply with the qualification requirements in section 22 of this appendix or to improve the consistency of the bank’s current practices with the FDIC’s supervisory guidance on the qualification requirements (gap analysis);

(v) Describe what specific actions the bank will take to address the areas identified in the gap analysis required by paragraph (b)(1)(iv) of this section;

(vi) Identify objective, measurable milestones, including delivery dates and a date when the bank’s implementation of the methodologies described in this appendix will be fully operational;

(vii) Describe resources that have been budgeted and are available to implement the plan; and

(viii) Receive approval of the bank’s board of directors.

(2) The bank must submit the implementation plan, together with a copy of the minutes of the board of directors’ approval, to the FDIC at least 60 days before the bank proposes to begin its parallel run, unless the FDIC waives prior notice.

(c) Parallel run. Before determining its risk-based capital requirements under this appendix and following adoption of the implementation plan, the bank must conduct a satisfactory parallel run. A satisfactory parallel run is a period of no less than four consecutive calendar quarters during which the
bank complies with the qualification requirements in section 22 of this appendix to the satisfaction of the FDIC. During the parallel run, the bank must report to the FDIC on a calendar quarterly basis its risk-based capital ratios using 12 CFR part 325, appendix A and the risk-based capital requirements described in this appendix. During this period, the bank is subject to 12 CFR part 325, appendix A.

(d) Approval to calculate risk-based capital requirements under this appendix. The FDIC will notify the bank of the date that the bank may begin its first floor period if the FDIC determines that:

(1) The bank fully complies with all the qualification requirements in section 22 of this appendix;

(2) The bank has conducted a satisfactory parallel run under paragraph (c) of this section; and

(3) The bank has an adequate process to ensure ongoing compliance with the qualification requirements in section 22 of this appendix.

Section 22. Qualification Requirements

(a) Process and systems requirements. (1) A bank must have a rigorous process for assessing its overall capital adequacy in relation to its risk profile and a comprehensive strategy for maintaining an appropriate level of capital.

(2) The systems and processes used by a bank for risk-based capital purposes under this appendix must be consistent with the bank's internal risk management processes and management information reporting systems.

(3) Each bank must have an appropriate infrastructure with risk measurement and management processes that meet the qualification requirements of this section and are appropriate given the bank's size and level of complexity. Regardless of whether the systems and models that generate the risk parameters necessary for calculating a bank's risk-based capital requirements are located at any affiliate of the bank, the bank itself must ensure that the risk parameters and reference data used to determine its risk-based capital requirements are representative of its own credit risk and operational risk exposures.

(b) Risk rating and segmentation systems for wholesale and retail exposures. (1) A bank must have an internal risk rating and segmentation system that accurately and reliably differentiates among degrees of credit risk for the bank's wholesale and retail exposures.

(2) For wholesale exposures:

(i) A bank must have an internal risk rating system that accurately and reliably assigns each obligor to a single rating grade (reflecting the obligor's likelihood of default). A bank may elect, however, not to assign to a rating grade an obligor to whom the bank extends credit based solely on the financial strength of a guarantor, provided that all of the bank's exposures to the obligor are fully covered by eligible guarantees, the bank applies the PD substitution approach in paragraph (c)(1) of section 33 of this appendix to all exposures to that obligor, and the bank immediately assigns each wholesale obligor to a rating grade if a guarantee can no longer be recognized under this appendix.

(ii) The bank's wholesale obligor rating system must have at least seven discrete rating grades for non-defaulted obligors and at least one rating grade for defaulted obligors.

(iii) The bank's wholesale obligor rating system must have a sufficiently granular loss severity grading system to avoid grouping together exposures with widely ranging LGDs.

(3) For retail exposures, a bank must have an internal system that groups retail exposures into the appropriate retail exposure subcategory, groups the retail exposures in each retail exposure subcategory into separate segments with homogeneous risk characteristics, and assigns accurate and reliable PD and LGD estimates for each segment on a consistent basis. The bank's system must identify and group in separate segments by subcategories exposures identified in paragraphs (c)(2)(ii) and (iii) of section 31 of this appendix.

(4) The bank's internal risk rating policy for wholesale exposures must describe the bank's rating philosophy (that is, must describe how wholesale obligor rating assignments are affected by the bank's choice of the range of economic, business, and industry conditions that are considered in the obligor rating process).

(5) The bank's internal risk rating system for wholesale exposures must provide for the review and update (as appropriate) of each obligor rating and (if applicable) each loss severity rating whenever the bank receives new material information, but no less frequently than annually. The bank's retail exposure segmentation system must provide for the review and update (as appropriate) of assignments of retail exposures to segments whenever the bank receives new material information, but generally no less frequently than quarterly.

(c) Quantification of risk parameters for wholesale and retail exposures. (1) The bank must have a comprehensive risk parameter quantification process that produces accurate, timely, and reliable estimates of the risk parameters for the bank's wholesale and retail exposures.
(2) Data used to estimate the risk parameters must be relevant to the bank’s actual wholesale and retail exposures, and of sufficient quality to support the determination of risk-based capital requirements for the exposures.

(3) The bank’s risk parameter quantification process must produce appropriately conservative estimates where the bank has limited relevant data, and any adjustments that are part of the quantification process must not result in a pattern of bias toward lower risk parameter estimates.

(4) The bank’s risk parameter estimation process should not rely on the possibility of U.S. government financial assistance, except for the financial assistance that the U.S. government has a legally binding commitment to provide.

(5) Where the bank’s quantifications of LGD directly or indirectly incorporate estimates of the effectiveness of its credit risk management practices in reducing its exposure to troubled obligors prior to default, the bank must support such estimates with empirical analysis showing that the estimates are consistent with its historical experience in dealing with such exposures during economic downturn conditions.

(6) PD estimates for wholesale obligors and retail segments must be based on at least five years of default data. LGD estimates for wholesale exposures must be based on at least seven years of loss severity data, and LGD estimates for retail segments must be based on at least five years of loss severity data. EAD estimates for wholesale exposures must be based on at least seven years of exposure amount data, and EAD estimates for retail segments must be based on at least five years of exposure amount data.

(7) Default, loss severity, and exposure amount data must include periods of economic downturn conditions, or the bank must adjust its estimates of risk parameters to compensate for the lack of data from periods of economic downturn conditions.

(8) The bank’s PD, LGD, and EAD estimates must be based on the definition of default in this appendix.

(9) The bank must review and update (as appropriate) its risk parameters and its risk parameter quantification process at least annually.

(10) The bank must at least annually conduct a comprehensive review and analysis of reference data to determine relevance of reference data to the bank’s exposures, quality of reference data to support PD, LGD, and EAD estimates, and consistency of reference data to the definition of default contained in this appendix.

(d) Counterparty credit risk model. A bank must obtain the prior written approval of the FDIC under section 34 of this appendix to use the counterparty credit risk model.
The bank may refrain from collecting internal operational loss event data for individual operational losses below established dollar thresholds amounts if the bank can demonstrate to the satisfaction of the FDIC that the thresholds are reasonable, do not exclude important internal operational loss event data, and permit the bank to capture substantially all the dollar value of the bank’s operational losses.

(B) **External operational loss event data.** The bank must have a systematic process for determining its methodologies for incorporating external operational loss event data into its operational risk data and assessment systems.

(C) **Scenario analysis.** The bank must have a systematic process for determining its methodologies for incorporating scenario analysis into its operational risk data and assessment systems.

(D) **Business environment and internal control factors.** The bank must incorporate business environment and internal control factors into its operational risk data and assessment systems. The bank must also periodically compare the results of its prior business environment and internal control factor assessments against its actual operational losses incurred in the intervening period.

(3) **Operational risk quantification systems.**

   (i) The bank’s operational risk quantification systems:

   (A) Must generate estimates of the bank’s operational risk exposure using its operational risk data and assessment systems.

   (B) Must employ a unit of measure that is appropriate for the bank’s range of business activities and the variety of operational loss events to which it is exposed, and that does not combine business activities or operational loss events with demonstrably different risk profiles within the same loss distribution;

   (C) Must include a credible, transparent, systematic, and verifiable approach for weighting each of the four elements, described in paragraph (h)(2)(ii) of this section, that a bank is required to incorporate into its operational risk data and assessment systems;

   (D) May use internal estimates of dependence among operational losses across and within units of measure if the bank can demonstrate to the satisfaction of the FDIC that its process for estimating dependence is sound, robust to a variety of scenarios, and implemented with integrity, and allows for the uncertainty surrounding the estimates. If the bank has not made such a demonstration, it must sum operational risk exposure estimates across units of measure to calculate its total operational risk exposure; and

   (E) Must be reviewed and updated (as appropriate) whenever the bank becomes aware of information that may have a material effect on the bank’s estimate of operational risk exposure, but the review and update must occur no less frequently than annually.

(ii) With the prior written approval of the FDIC, a bank may generate an estimate of its operational risk exposure using an alternative approach to that specified in paragraph (h)(3)(i) of this section. A bank proposing to use such an alternative operational risk quantification system must submit a proposal to the FDIC. In determining whether to approve a bank’s proposal to use an alternative operational risk quantification system, the FDIC will consider the following principles:

(A) Use of the alternative operational risk quantification system will be allowed only on an exception basis, considering the size, complexity, and risk profile of the bank;

(B) The bank must demonstrate that its estimate of its operational risk exposure generated under the alternative operational risk quantification system is appropriate and can be supported empirically; and

(C) A bank must not use an allocation of operational risk capital requirements that includes entities other than depository institutions or the benefits of diversification across entities.

(1) **Management and maintenance.**

   (A) A bank must have data management and maintenance systems that adequately support all aspects of its advanced systems and the timely and accurate reporting of risk-based capital requirements.

   (B) A bank must retain data using an electronic format that allows timely retrieval of data for analysis, validation, reporting, and disclosure purposes.

   (C) A bank must retain sufficient data elements related to key risk drivers to permit adequate monitoring, validation, and refinement of its advanced systems.

   (D) **Control, oversight, and validation mechanisms.**

      (i) The bank’s senior management must ensure that all components of the bank’s advanced systems function effectively and comply with the qualification requirements in this section.

      (ii) The bank’s board of directors (or a designated committee of the board) must at least annually review the effectiveness of, and approve, the bank’s advanced systems.

      (3) A bank must have an effective system of controls and oversight that:

         (i) Ensures ongoing compliance with the qualification requirements in this section;

         (ii) Maintains the integrity, reliability, and accuracy of the bank’s advanced systems; and

         (iii) Includes adequate governance and project management processes.

   (4) The bank must validate, on an ongoing basis, its advanced systems. The bank’s validation process must be independent of the
advanced systems’ development, implementation, and operation, or the validation process must be subjected to an independent review of its adequacy and effectiveness. Validation must include:

(i) An evaluation of the conceptual soundness of (including developmental evidence supporting) the advanced systems;

(ii) An ongoing monitoring process that includes verification of processes and benchmarking; and

(iii) An outcomes analysis process that includes back-testing.

(5) The bank must have an internal audit function independent of business-line management that at least annually assesses the effectiveness of the controls supporting the bank’s advanced systems and reports its findings to the bank’s board of directors (or a committee thereof).

(6) The bank must periodically stress test its advanced systems. The stress testing must include a consideration of how economic cycles, especially downturns, affect risk-based capital requirements (including migration across rating grades and segments and the credit risk mitigation benefits of double default treatment).

(k) Documentation. The bank must adequately document all material aspects of its advanced systems.

Section 23. Ongoing Qualification

(a) Changes to advanced systems. A bank must meet all the qualification requirements in section 22 of this appendix on an ongoing basis. A bank must notify the FDIC when the bank makes any change to an advanced system that would result in a material change in the bank’s risk-weighted asset amount for an exposure type, or when the bank makes any significant change to its modeling assumptions.

(b) Failure to comply with qualification requirements. (1) If the FDIC determines that a bank that uses this appendix and has conducted a satisfactory parallel run fails to comply with the qualification requirements in section 22 of this appendix, the FDIC will notify the bank in writing of the bank’s failure to comply.

(2) The bank must establish and submit a plan satisfactory to the FDIC to return to compliance with the qualification requirements.

(3) In addition, if the FDIC determines that the bank’s risk-based capital requirements are not commensurate with the bank’s credit, market, operational, or other risks, the FDIC may require such a bank to calculate its risk-based capital requirements:

(i) Under 12 CFR part 325, appendix A; or

(ii) Under this appendix with any modifications provided by the FDIC.

Section 24. Merger and Acquisition Transitional Arrangements

(a) Mergers and acquisitions of companies without advanced systems. If a bank merges with or acquires a company that does not calculate its risk-based capital requirements using advanced systems, the bank may use 12 CFR part 325, appendix A to determine the risk-weighted asset amounts for, and deductions from capital associated with, the merged or acquired company’s exposures for up to 24 months after the calendar quarter during which the merger or acquisition consummates. The FDIC may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the bank must submit to the FDIC an implementation plan for using its advanced systems for the acquired company. During the period when 12 CFR part 325, appendix A apply to the merged or acquired company, any ALLL, net of allocated transfer risk reserves established pursuant to 12 U.S.C. 3904, associated with the merged or acquired company’s exposures may be included in the acquiring bank’s tier 2 capital up to 1.25 percent of the acquired company’s risk-weighted assets. All general allowances of the merged or acquired company must be excluded from the bank’s eligible credit reserves. In addition, the risk-weighted assets of the merged or acquired company are not included in the bank’s credit-risk-weighted assets but are included in total risk-weighted assets. If a bank relies on this paragraph, the bank must disclose publicly the amounts of risk-weighted assets and qualifying capital calculated under this appendix for the acquiring bank and under 12 CFR part 325, appendix A for the acquired company.

(b) Mergers and acquisitions of companies with advanced systems—(1) If a bank merges with or acquires a company that calculates its risk-based capital requirements using advanced systems, the bank may use the acquired company’s advanced systems to determine the risk-weighted asset amounts for, and deductions from capital associated with, the merged or acquired company’s exposures for up to 24 months after the calendar quarter during which the acquisition or merger consummates. The FDIC may extend this transition period for up to an additional 12 months. Within 90 days of consummating the merger or acquisition, the bank must submit to the FDIC an implementation plan for using its advanced systems for the merged or acquired company.

(2) If the acquiring bank is not subject to the advanced approaches in this appendix at the time of acquisition or merger, during the period when 12 CFR part 325, appendix A apply to the acquiring bank, the ALLL associated with the exposures of the merged or
acquired company may not be directly included in tier 2 capital. Rather, any excess eligible credit reserves associated with the merged or acquired company’s exposures must be deducted from the bank’s tier 2 capital up to 0.6 percent of the credit-risk-weighted assets associated with those exposures.

**PART IV. RISK-WEIGHTED ASSETS FOR GENERAL CREDIT RISK**

**Section 31. Mechanics for Calculating Total Wholesale and Retail Risk-Weighted Assets**

(a) Overview. A bank must calculate its total wholesale and retail risk-weighted asset amount in four distinct phases:

1. **Phase 1—categorization.** The bank must determine which of its exposures are wholesale exposures, retail exposures, securitization exposures, or equity exposures. The bank must group each retail exposure as a residential mortgage exposure, a QRE, or an other retail exposure. The bank must identify which wholesale exposures are HVCRE exposures, sovereign exposures, OTC derivative contracts, repo-style transactions, eligible margin loans, eligible purchased wholesale exposures, unsettled transactions to which section 35 of this appendix applies, and eligible guarantees or eligible credit derivatives that are used as credit risk mitigants. The bank must identify any on-balance sheet asset that does not meet the definition of a wholesale, retail, equity, or securitization exposure, as well as any non-material portfolio of exposures described in paragraph (e)(4) of this section.

2. **Phase 2—Assignment of wholesale obligors and exposures to rating grades and retail exposures to segments.**

   (i) Assignment of wholesale obligors and exposures to rating grades. The bank must assign each obligor of a wholesale exposure to a single obligor rating grade and must assign each wholesale exposure to which it does not directly assign an LGD estimate to a loss severity rating grade.

   (ii) The bank must identify which of its wholesale obligors are in default.

3. **Phase 3—assignment of risk parameters to wholesale exposures and segments of retail exposures; and**

4. **Phase 4—calculation of risk-weighted asset amounts.**

(b) **Phase 1—Categorization.** The bank must determine which of its exposures are wholesale exposures, retail exposures, securitization exposures, or equity exposures. The bank must categorize each retail exposure as a residential mortgage exposure, a QRE, or an other retail exposure. The bank must identify which wholesale exposures are HVCRE exposures, sovereign exposures, OTC derivative contracts, repo-style transactions, eligible margin loans, eligible purchased wholesale exposures, unsettled transactions to which section 35 of this appendix applies, and eligible guarantees or eligible credit derivatives that are used as credit risk mitigants. The bank must identify any on-balance sheet asset that does not meet the definition of a wholesale, retail, equity, or securitization exposure, as well as any non-material portfolio of exposures described in paragraph (e)(4) of this section.

(c) **Phase 2—Assignment of wholesale obligors and exposures to rating grades and retail exposures to segments.**

   (i) Assignment of wholesale obligors and exposures to rating grades. The bank must assign each obligor of a wholesale exposure to a single obligor rating grade and must assign each wholesale exposure to which it does not directly assign an LGD estimate to a loss severity rating grade.

   (ii) The bank must identify which of its wholesale obligors are in default.

   (2) **Segmentation of retail exposures.**

   (i) The bank must group the retail exposures in each retail subcategory into segments that have homogeneous risk characteristics.

   (ii) The bank must identify which of its retail exposures are in default. The bank must segment defaulted retail exposures separately from non-defaulted retail exposures.

   (iii) If the bank determines the EAD for eligible margin loans using the approach in paragraph (b) of section 32 of this appendix, the bank must identify which of its retail exposures are eligible margin loans for which the bank uses this EAD approach and must segment such eligible margin loans separately from other retail exposures.

   (3) **Eligible purchased wholesale exposures.**

   A bank may group its eligible purchased wholesale exposures into segments that have homogeneous risk characteristics. A bank must use the wholesale exposure formula in Table 2 in this section to determine the risk-based capital requirement for each segment of eligible purchased wholesale exposures.

   (d) **Phase 3—Assignment of risk parameters to wholesale exposures and segments of retail exposures.**

   (i) **Quantification process.** Subject to the limitations in this paragraph (d), the bank must:

   (i) Associate a PD with each wholesale obligor rating grade;

   (ii) Assign an LGD with each wholesale loss severity rating grade or assign an LGD to each wholesale exposure;

   (iii) Assign an EAD and M to each wholesale exposure; and

   (iv) Assign a PD, LGD, and EAD to each segment of retail exposures.

   (2) **Floor on PD assignment.** The PD for each wholesale obligor or retail segment may not be less than 0.03 percent, except for exposures to or directly and unconditionally guaranteed by a sovereign entity, the Bank for International Settlements, the International Monetary Fund, the European Commission, the European Central Bank, or a multilateral development bank, to which the bank assigns a rating grade associated with a PD of less than 0.03 percent.

   (3) **Floor on LGD estimation.** The LGD for each segment of residential mortgage exposures (other than segments of residential mortgage exposures for which all or substantially all of the principal of each exposure is directly and unconditionally guaranteed by the full faith and credit of a sovereign entity) may not be less than 10 percent.

   (4) **Eligible purchased wholesale exposures.** A bank must assign a PD, LGD, EAD, and M to each segment of eligible purchased wholesale exposures. If the bank can estimate ECL (but not PD or LGD) for a segment of eligible purchased wholesale exposures, the bank must assume that the LGD of the segment equals 100 percent and that the PD of the segment equals ECL divided by EAD. The estimated ECL must be calculated for the exposures without regard to any assumption of recourse or guarantees from the seller or other parties.

   (5) **Credit risk mitigation—credit derivatives, guarantees, and collateral.**

   (i) A bank may take into account the risk reducing effects of eligible guarantees and eligible credit derivatives in support of a wholesale exposure.
by applying the PD substitution or LGD adjustment treatment to the exposure as provided in section 33 of this appendix or, if applicable, applying double default treatment to the exposure as provided in section 34 of this appendix. A bank may decide separately for each wholesale exposure that qualifies for the double default treatment under section 34 of this appendix whether to apply the double default treatment or to use the PD substitution or LGD adjustment treatment without recognizing double default effects.

(ii) A bank may take into account the risk reducing effects of guarantees and credit derivatives in support of retail exposures in a segment when quantifying the PD and LGD of the segment.

(iii) Except as provided in paragraph (d)(6) of this section, a bank may take into account the risk reducing effects of collateral in support of retail exposures when quantifying the LGD of the exposure and may take into account the risk reducing effects of collateral in support of retail exposures when quantifying the PD and LGD of the segment.

(6) **EAD for OTC derivative contracts, repo-style transactions, and eligible margin loans.**

(i) A bank must calculate its EAD for an OTC derivative contract as provided in paragraphs (c) and (d) of section 32 of this appendix. A bank may take into account the risk reducing effects of financial collateral in support of a repo-style transaction or eligible margin loan and of any collateral in support of a repo-style transaction that is included in the bank’s VaR-based measure under 12 CFR part 325, appendix C through an adjustment to EAD as provided in paragraphs (b) and (d) of section 32 of this appendix. A bank that takes collateral into account through such an adjustment to EAD under section 32 of this appendix may not reflect such collateral in LGD.

(ii) A bank may attribute an EAD of zero to:

(A) Derivative contracts that are publicly traded on an exchange that requires the daily receipt and payment of cash-variation margin;

(B) Derivative contracts and repo-style transactions that are outstanding with a qualifying central counterparty (but not for those transactions that a qualifying central counterparty has rejected); and

(C) Credit risk exposures to a qualifying central counterparty in the form of clearing deposits and posted collateral that arise from transactions described in paragraph (d)(6)(ii)(B) of this section.

(7) **Effective maturity.** An exposure’s M must be no greater than five years and no less than one year, except that an exposure’s M must be no less than one day if the exposure has an original maturity of less than one year and is not part of a bank’s ongoing financing of the obligor. An exposure is not part of a bank’s ongoing financing of the obligor if the bank:

(i) Has a legal and practical ability not to renew or roll over the exposure in the event of credit deterioration of the obligor;

(ii) Makes an independent credit decision at the inception of the exposure and at every renewal or roll over; and

(iii) Has no substantial commercial incentive to continue its credit relationship with the obligor in the event of credit deterioration of the obligor.

(e) **Phase 4—Calculation of risk-weighted assets—**

(1) **Non-defaulted exposures.** A bank must calculate the dollar risk-based capital requirement for each of its wholesale exposures to a non-defaulted obligor (except eligible guarantees and eligible credit derivatives that hedge another wholesale exposure and exposures to which the bank applies the double default treatment in section 34 of this appendix) and segments of non-defaulted retail exposures by inserting the assigned risk parameters for the wholesale obligor and exposure or retail segment into the appropriate risk-based capital formula specified in Table 2 and multiplying the output of the formula (K) by the EAD of the exposure or segment. Alternatively, a bank may apply a 300 percent risk weight to the EAD of an eligible margin loan if the bank is not able to meet the agencies’ requirements for estimation of PD and LGD for the margin loan.
Federal Deposit Insurance Corporation  
Pt. 325, App. D

Table 2 – IRB Risk-Based Capital Formulas for Wholesale Exposures to Non-Defaulted Obligors and Segments of Non-Defaulted Retail Exposures

<table>
<thead>
<tr>
<th>Retail</th>
<th>Capital Requirement (K) Non-Defaulted Exposures</th>
<th>Correlation Factor (R)</th>
</tr>
</thead>
</table>
|        | $K = \left[ \text{LGD} \times N\left( \frac{N^{-1}(PD) + \sqrt{R} \times N^{-1}(0.999)}{\sqrt{1-R}} \right) - (\text{LGD} \times PD) \right] \times \left(\frac{1+ (M - 2.5) \times b}{1 - 1.5 \times b}\right)$ | For residential mortgage exposures: $R = 0.15$  
For qualifying revolving exposures: $R = 0.04$  
For other retail exposures: $R = 0.03 + 0.13 \times e^{-35 \times PD}$ |

<table>
<thead>
<tr>
<th>Wholesale</th>
<th>Capital Requirement (K) Non-Defaulted Exposures</th>
<th>Correlation Factor (R)</th>
</tr>
</thead>
</table>
|          | $K = \left[ \text{LGD} \times N\left( \frac{N^{-1}(PD) + \sqrt{R} \times N^{-1}(0.999)}{\sqrt{1-R}} \right) - (\text{LGD} \times PD) \right] \times \left(\frac{1+ (M - 2.5) \times b}{1 - 1.5 \times b}\right)$ | For HVCRE exposures: $R = 0.12 + 0.18 \times e^{-50 \times PD}$  
For wholesale exposures other than HVCRE exposures: $R = 0.12 + 0.12 \times e^{-50 \times PD}$  
Maturity Adjustment ($h$): $b = (0.11852 - 0.05478 \times \ln(PD))^2$ |

1$N(.)$ means the cumulative distribution function for a standard normal random variable. $N^{-1}(.)$ means the inverse cumulative distribution function for a standard normal random variable. The symbol $e$ refers to the base of the natural logarithms, and the function $\ln(.)$ refers to the natural logarithm of the expression within parentheses. The formulas apply when PD is greater than zero. If PD equals zero, the capital requirement $K$ is set equal to zero.

(iii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a non-defaulted obligor and segment of non-defaulted retail exposures calculated in paragraph (e)(1)(i) of this section and in paragraph (e) of section 34 of this appendix equals the total dollar risk-based capital requirement for those exposures and segments.

(ii) Wholesale exposures to defaulted obligors and segments of defaulted retail exposures. (i) The dollar risk-based capital requirement for each wholesale exposure to a defaulted obligor equals 0.08 multiplied by the EAD of the exposure.

(ii) The dollar risk-based capital requirement for a segment of defaulted retail exposures equals 0.08 multiplied by the EAD of the segment.

(iii) The sum of all the dollar risk-based capital requirements for each wholesale exposure to a defaulted obligor calculated in paragraph (e)(2)(i) of this section plus the dollar risk-based capital requirements for each segment of defaulted retail exposures.
calculated in paragraph (e)(2)(ii) of this section equals the total dollar risk-based capital requirement for those exposures and segments.

(ii) The aggregate risk-weighted asset amount for wholesale exposures to defaulted obligors and segments of defaulted retail exposures equals the total dollar risk-based capital requirement calculated in paragraph (e)(2)(ii) of this section multiplied by 12.5.

(3) Assets not included in a defined exposure category. (i) A bank may assign a risk-weighted asset amount of zero to cash owned and held in all offices of the bank or in transit and for gold bullion held in the bank’s own vaults, or held in another bank’s vaults on an allocated basis, to the extent the gold bullion assets are offset by gold bullion liabilities.

(ii) The risk-weighted asset amount for the residual value of a retail lease exposure equals such residual value.

(iii) The risk-weighted asset amount for any other on-balance-sheet asset that does not meet the definition of a wholesale, retail, securitization, or equity exposure equals the carrying value of the asset.

(4) Non-material portfolios of exposures. The risk-weighted asset amount of a portfolio of exposures for which the bank has demonstrated to the FDIC’s satisfaction that the portfolio (when combined with all other portfolios of exposures that the bank seeks to treat under this paragraph) is not material to the bank is the sum of the carrying values of on-balance sheet exposures plus the notional amounts of off-balance sheet exposures in the portfolio. For purposes of this paragraph (e)(4), the notional amount of an OTC derivative contract that is not a credit derivative is the EAD of the derivative as calculated in section 32 of this appendix.

Section 32. Counterparty Credit Risk of Repo-Style Transactions, Eligible Margin Loans, and OTC Derivative Contracts

(a) In General. (1) This section describes two methodologies—a collateral haircut approach and an internal models methodology—that a bank may use instead of an LGD estimation methodology to recognize the benefits of financial collateral in mitigating the counterparty credit risk of repo-style transactions, eligible margin loans, collateralized OTC derivative contracts, and single product netting sets of such transactions and to recognize the benefits of any collateral in mitigating the counterparty credit risk of repo-style transactions that are included in a bank’s VaR-based measure under 12 CFR part 325, appendix C. A third methodology, the simple VaR methodology, is available for single product netting sets of repo-style transactions and eligible margin loans.

(2) This section also describes the methodology for calculating EAD for an OTC derivative contract or a set of OTC derivative contracts subject to a qualifying master netting agreement. A bank also may use the internal models methodology to estimate EAD for qualifying cross-product master netting agreements.

(3) A bank may only use the standard supervisory haircut approach with a minimum 10-business-day holding period to recognize in EAD the benefits of conforming residential mortgage collateral that secures repo-style transactions included in the bank’s VaR-based measure under 12 CFR part 325, appendix C, eligible margin loans, and OTC derivative contracts.

(4) A bank may use any combination of the three methodologies for collateral recognition; however, it must use the same methodology for similar exposures.

(b) EAD for eligible margin loans and repo-style transactions—(1) General. A bank may recognize the credit risk mitigation benefits of financial collateral that secures an eligible margin loan, repo-style transaction, or single-product netting set of such transactions by factoring the collateral into its LGD estimates for the exposure. Alternatively, a bank may estimate an unsecured LGD for the exposure, as well as for any repo-style transaction that is included in the bank’s VaR-based measure under 12 CFR part 325, appendix C, and determine the EAD of the exposure using:

(i) The collateral haircut approach described in paragraph (b)(2) of this section;

(ii) For netting sets only, the simple VaR methodology described in paragraph (b)(3) of this section; or

(iii) The internal models methodology described in paragraph (d) of this section.

(2) Collateral haircut approach—(1) EAD equation. A bank may determine EAD for an eligible margin loan, repo-style transaction, or netting set by setting EAD equal to max {0, [(E - Ê) + 2(Ê) × Ĥ] + Ê(Ef × Hf)}], where:

(A) Ê equals the value of the exposure (the sum of the current market values of all instruments, gold, and cash the bank has lent, sold subject to repurchase, or posted as collateral to the counterparty under the transaction (or netting set));

(B) Ê equals the value of the collateral (the sum of the current market values of all instruments, gold, and cash the bank has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the transaction (or netting set));

(C) Ê equals the absolute value of the net position in a given instrument or in gold (where the net position in a given instrument or in gold equals the sum of the current market values of the instrument or gold the bank has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current...
market values of that same instrument or gold the bank has borrowed, purchased subject to resale, or taken as collateral from the counterparty;

(D) Hs equals the market price volatility haircut appropriate to the instrument or gold referenced in Es;

(E) Hfx equals the absolute value of the net position of instruments and cash in a currency that is different from the settlement currency (where the net position in a given currency equals the sum of the current market values of any instruments or cash in the currency the bank has lent, sold subject to repurchase, or posted as collateral to the counterparty minus the sum of the current market values of any instruments or cash in the currency the bank has borrowed, purchased subject to resale, or taken as collateral from the counterparty), and

(F) Hfx equals the haircut appropriate to the mismatch between the currency referenced in Efx and the settlement currency.

(ii) Standard supervisory haircuts. (A) Under the standard supervisory haircuts approach:

(i) A bank must use the haircuts for market price volatility (Hs) in Table 3, as adjusted in certain circumstances as provided in paragraph (b)(2)(i)(A)(3) and (d) of this section;

(ii) Own internal estimates for haircuts.

With the prior written approval of the FDIC, a bank may calculate haircuts (Hs and Hfx) using its own internal estimates of the volatilities of market prices and foreign exchange rates.

(A) To receive FDIC approval to use its own internal estimates, a bank must satisfy the following minimum quantitative standards:

(i) A bank must use a 99th percentile one-tailed confidence interval.

(ii) The minimum holding period for a repo-style transaction is five business days; for an eligible margin loan is ten business days. When a bank calculates an own-estimated haircut on a Tn-day holding period, which is different from the minimum holding period for the transaction type, the applicable haircut (Hn) is calculated using the following square root of time formula:

\[ H_n = H_s \sqrt{\frac{T_n}{T_s}} \]

(i) Tn equals 5 for repo-style transactions and 10 for eligible margin loans;

(ii) Ts equals the holding period used by the bank to derive Hs; and

(iii) Hs equals the haircut based on the holding period Tn.

</table>

1 The market price volatility haircuts in Table 3 are based on a ten-business-day holding period.
(i) A bank must adjust holding periods upwards where and as appropriate to take into account the illiquidity of an instrument.

(ii) The historical observation period must be at least one year.

(iii) A bank must update its data sets and recompute haircuts no less frequently than quarterly and must also reassess data sets and haircuts whenever market prices change materially.

(iv) With respect to debt securities that have an applicable external rating of investment grade, a bank may calculate haircuts for categories of securities. For a category of securities, the bank must calculate the haircut on the basis of internal volatility estimates for securities in that category that are representative of the securities in that category that the bank has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. In determining relevant categories, the bank must at a minimum take into account:

(A) The type of issuer of the security;

(B) The applicable external rating of the security;

(C) The maturity of the security; and

(D) The interest rate sensitivity of the security.

(v) With respect to debt securities that have an applicable external rating of below investment grade and equity securities, a bank must calculate a separate haircut for each individual security.

(vi) Where an exposure or collateral (whether in the form of cash or securities) is denominated in a currency that differs from the settlement currency, the bank must calculate a separate currency mismatch haircut for its net position in each mismatched currency based on estimated volatilities of foreign exchange rates between the mismatched currency and the settlement currency.

(vii) A bank’s own estimates of market price and foreign exchange rate volatilities may not take into account the correlations among securities and foreign exchange rates on either the exposure or collateral side of a transaction (or netting set) or the correlations among securities and foreign exchange rates between the exposure and collateral sides of the transaction (or netting set).

(viii) Simple VaR methodology. With the prior written approval of the FDIC, a bank may estimate EAD for a netting set using a VaR model that meets the requirements in paragraph (b)(3)(ii) of this section. In such event, the bank must set EAD equal to max (0, [(SE – SC) + PFE]], where:

(A) SE equals the value of the exposure (the sum of the current market values of all instruments, gold, and cash the bank has lent, sold subject to repurchase, or posted as collateral to the counterparty under the netting set);

(B) SC equals the value of the collateral (the sum of the current market values of all instruments, gold, and cash the bank has borrowed, purchased subject to resale, or taken as collateral from the counterparty under the netting set); and

(C) PFE (potential future exposure) equals the bank's empirically based best estimate of the 99th percentile, one-tailed confidence interval for an increase in the value of (SE – SC) over a five-business-day holding period for repo-style transactions or over a ten-business-day holding period for margin loans using a minimum one-year historical observation period of price data representing the instruments that the bank has lent, sold subject to repurchase, posted as collateral, borrowed, purchased subject to resale, or taken as collateral. The bank must validate its VaR model, including by establishing and maintaining a rigorous and regular back-testing regime.

(ix) EAD for OTC derivative contracts. (i) A bank must determine the EAD for an OTC derivative contract that is not subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(5) of this section or using the internal models methodology described in paragraph (d) of this section.

(ii) A bank must determine the EAD for multiple OTC derivative contracts that are subject to a qualifying master netting agreement using the current exposure methodology in paragraph (c)(5) of this section or using the internal models methodology described in paragraph (d) of this section.

(iii) Counterparty credit risk for credit derivatives. Notwithstanding the above, (i) A bank that purchases a credit derivative that is recognized under section 33 or 34 of this appendix as a credit risk mitigant for an exposure that is not a covered position under 12 CFR part 325, appendix C need not compute a separate counterparty credit risk capital requirement under this section so long as the bank does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.

(ii) A bank that is the protection provider in a credit derivative must treat the credit derivative as a wholesale exposure to the reference obligor and need not compute a counterparty credit risk capital requirement for the credit derivative under this section so long as it does so consistently for all such credit derivatives and either includes all or excludes all such credit derivatives that are subject to a master netting agreement from any measure used to determine counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes.
credit risk exposure to all relevant counterparties for risk-based capital purposes (unless the bank is treating the credit derivative as a covered position under 12 CFR part 325, appendix C, in which case the bank must compute a supplemental counterparty credit risk capital requirement under this section).

(4) Counterparty credit risk for equity derivatives. A bank must treat an equity derivative contract as an equity exposure and compute a risk-weighted asset amount for the equity derivative contract under part VI (unless the bank is treating the contract as a covered position under 12 CFR part 325, appendix C). In addition, if the bank is treating the contract as a covered position under 12 CFR part 325, appendix C and in certain other cases described in section 55 of this appendix, the bank must also calculate a risk-based capital requirement for the counterparty credit risk of an equity derivative contract under this part.

(5) Single OTC derivative contract. Except as modified by paragraph (c)(7) of this section, the EAD for a single OTC derivative contract that is not subject to a qualifying master netting agreement is equal to the sum of the market current credit exposure and potential future credit exposure (PFE) on the derivative contract.

(i) Current credit exposure. The current credit exposure for a single OTC derivative contract is the greater of the mark-to-market value of the derivative contract or zero.

(ii) PFE. The PFE for a single OTC derivative contract, including an OTC derivative contract with a negative mark-to-market value, is calculated by multiplying the notional principal amount of the derivative contract by the appropriate conversion factor in Table 4. For purposes of calculating either the PFE under this paragraph or the gross PFE under paragraph (c)(6) of this section for exchange rate contracts and other similar contracts in which the notional principal amount is equivalent to the cash flows, the notional principal amount is the net receipts to each party falling due on each value date in each currency. For any OTC derivative contract that does not fall within one of the specified categories in Table 4, the PFE must be calculated using the “other” conversion factors. A bank must use an OTC derivative contract’s effective notional principal amount (that is, its apparent or stated notional principal amount multiplied by any multiplier in the OTC derivative contract) rather than its apparent or stated notional principal amount in calculating PFE. PFE of the protection provider of a credit derivative is capped at the net present value of the amount of unpaid premiums.

(iii) Modified gross PFE. A bank must also calculate a risk-based capital requirement for the counterparty credit risk exposure to all relevant counterparties for risk-based capital purposes (unless the bank is treating the credit derivative as a covered position under 12 CFR part 325, appendix C, in which case the bank must compute a supplemental counterparty credit risk capital requirement under this section).

(6) Multiple OTC derivative contracts subject to a qualifying master netting agreement. Except as modified by paragraph (c)(7) of this section, the EAD for multiple OTC derivative contracts subject to a qualifying master netting agreement is equal to the sum of the net current credit exposure and the adjusted sum of the PFE exposure for all OTC derivative contracts subject to the qualifying master netting agreement.

(i) Net current credit exposure. The net current credit exposure is the greater of:

(A) The net sum of all positive and negative mark-to-market values of the individual OTC derivative contracts subject to the qualifying master netting agreement; or

(B) zero.

(ii) Adjusted sum of the PFE. The adjusted sum of the PFE, Anet, is calculated as Anet = (0.4 × Agross) + (0.6 × NGR × Agross), where:

(A) Agross = the gross PFE (that is, the sum of the PFE amounts (as determined under paragraph (c)(5)(ii) of this section) for each individual OTC derivative contract subject to the qualifying master netting agreement); and

(B) NGR = the net to gross ratio (that is, the ratio of the net current credit exposure

1 For an OTC derivative contract with multiple exchanges of principal, the conversion factor is multiplied by the number of remaining payments in the derivative contract.

A bank must use the column labeled “Credit (investment-grade reference obligor)” for a credit derivative whose reference obligor has an outstanding unsecured long-term debt security without credit enhancement that has a term to maturity of at least investment grade. A bank must use the column labeled “Credit (non-investment-grade reference obligor)” for all other credit derivatives.

2 For an OTC derivative contract that is structured such that on specified dates any outstanding exposure is settled and the terms are reset so that the market value of the contract is zero, the remaining maturity equals the time until the next reset date. For an interest rate derivative contract with a remaining maturity of greater than one year that meets these criteria, the minimum conversion factor is 0.005.
to the gross current credit exposure). In calculating the NGR, the gross current credit exposure equals the sum of the positive current credit exposures (as determined under paragraph (a)(1) of this section) of all individual OTC derivative contracts subject to the qualifying master netting agreement.

(7) Collateralized OTC derivative contracts. A bank may recognize the credit risk mitigation benefits of financial collateral that secures an OTC derivative contract or single-product netting set of OTC derivatives by factoring the collateral into its LGD estimates for the contract or netting set. Alternatively, a bank may recognize the credit risk mitigation benefits of financial collateral that secures such a contract or netting set that is marked to market on a daily basis and subject to a daily margin maintenance requirement by estimating an unsecured LGD for the contract or netting set and adjusting the EAD calculated under paragraph (c)(5) or (c)(6) of this section using the collateral haircut approach in paragraph (b)(2) of this section. The bank must substitute the EAD calculated under paragraph (c)(5) or (c)(6) of this section for EE in the equation in paragraph (b)(2)(i) of this section and must use a ten-business-day minimum holding period (\(T_{\text{HD}} = 10\)).

(d) Internal models methodology. (1) With prior written approval from the FDIC, a bank may use the internal models methodology in this paragraph (d) to determine EAD for counterparty credit risk for OTC derivative contracts (collateralized or uncollateralized) and single-product netting sets thereof, for eligible margin loans and single-product netting sets thereof, and for repo-style transactions and single-product netting sets thereof. A bank that uses the internal models methodology for a particular transaction type (OTC derivative contracts, eligible margin loans, or repo-style transactions) must use the internal models methodology for all transactions of that transaction type. A bank may choose to use the internal models methodology for one or two of these three types of exposures and not the other types. A bank may also use the internal models methodology for OTC derivative contracts, eligible margin loans, and repo-style transactions subject to a qualifying cross-product netting agreement if:

(i) The bank effectively integrates the risk mitigating effects of cross-product netting into its risk management and other information technology systems; and

(ii) The bank obtains the prior written approval of the FDIC. A bank that uses the internal models methodology for a transaction type must receive approval from the FDIC to cease using the methodology for that transaction type or to make a material change to its internal model.

(2) Under the internal models methodology, a bank uses an internal model to estimate the expected exposure (EE) for a netting set and then calculates EAD based on that EE.

(i) The bank must use its internal model’s probability distribution for changes in the market value of a netting set that are attributable to changes in market variables to determine EE.

(ii) Under the internal models methodology, \(\text{EAD} = a \times \text{EPE} \), or, subject to FDIC approval as provided in paragraph (d)(7), a more conservative measure of EAD.

\[
(\text{Effective EPE}) = \sum_{k=1}^{n} \text{Effective EE}_k \times \Delta t_k
\]

(that is, effective EPE is the time-weighted average of effective EE where the weights are the proportion that an individual effective EE represents in a one-year time interval where:

(1) Effective \(\text{EE}_k = \max (\text{Effective EE}_{k-1}, \text{EE}_k)\) (that is, for a specific date, effective EE is the greater of EE at that date or the effective EE at the previous date); and

(2) \(\Delta t_k\) represents the kth future time period in the model and there are n time periods represented in the model over the first year; and

(B) \(\alpha = 1.4\) except as provided in paragraph (d)(6), or when the FDIC has determined that the bank must set \(\alpha\) higher based on the bank’s specific characteristics of counterparty credit risk.

(iii) A bank may include financial collateral currently posted by the counterparty as collateral (but may not include other forms of collateral) when calculating EE.

(iv) If a bank hedges some or all of the counterparty credit risk associated with a netting set using an eligible credit derivative, the bank may take the reduction in exposure to the counterparty into account when estimating EE. If the bank recognizes this reduction in exposure to the counterparty in its estimate of EE, it must also use its internal model to estimate a separate EAD for the bank’s exposure to the protection provider of the credit derivative.

(3) To obtain FDIC approval to calculate the distributions of exposures upon which the EAD calculation is based, the bank must demonstrate to the satisfaction of the FDIC that it has been using for at least one year an internal model that broadly meets the following minimum standards, with which the bank must maintain compliance:

(i) The model must have the systems capability to estimate the expected exposure to the counterparty on a daily basis (but is not expected to estimate or report expected exposure on a daily basis).

(ii) The model must estimate expected exposure at enough future dates to reflect accurately all the future cash flows of contracts in the netting set.
(ii) The model must account for the possible non-normality of the exposure distribution, where appropriate.

(iv) The bank must measure, monitor, and control current counterparty exposure and the exposure to the counterparty over the whole life of all contracts in the netting set.

(v) The bank must be able to measure and manage current exposures gross and net of collateral held, where appropriate. The bank must estimate expected exposures for OTC derivative contracts both with and without the effect of collateral agreements.

(vi) The bank must have procedures to identify, monitor, and control specific wrong-way risk throughout the life of an exposure. Wrong-way risk in this context is the risk that future exposure to a counterparty will be high when the counterparty’s probability of default is also high.

(vii) The model must use current market data to compute current exposures. When estimating model parameters based on historical data, at least three years of historical data that cover a wide range of economic conditions must be used and must be updated quarterly or more frequently if market conditions warrant. The bank should consider using model parameters based on forward-looking measures, where appropriate.

(viii) A bank must subject its internal model to an initial validation and annual model review process. The model review should consider whether the inputs and risk factors, as well as the model outputs, are appropriate.

(4) Maturity. (i) If the remaining maturity of the exposure or the longest-dated contract in the netting set is greater than one year, the bank must set $M$ for the exposure or netting set equal to the lower of five years or $M(EPE)$, where:

\[
M(EPE) = 1 + \frac{\sum_{t_1 > 1 \text{ year}}^{\text{maturity}} EE_k \times \Delta t_k \times df_k}{\sum_{k=1}^{\text{effectiveEE}_k \times \Delta t_k \times df_k}}
\]

(B) $df_k$ is the risk-free discount factor for future time period $t_k$; and

(C) $\Delta t_k = t_k - f_{t_k - 1}$.

(ii) If the remaining maturity of the exposure or the longest-dated contract in the netting set is one year or less, the bank must set $M$ for the exposure or netting set equal to one year, except as provided in paragraph (d)(7) of section 3 of this appendix.

(5) Collateral agreements. A bank may capture the effect on EAD of a collateral agreement that requires receipt of collateral when exposure to the counterparty increases but may not capture the effect on EAD of a collateral agreement that requires receipt of collateral when counterparty credit quality deteriorates. For this purpose, a collateral agreement means a legal contract that specifies the time when, and circumstances under which, the counterparty is required to pledge collateral to the bank for a single financial contract or for all financial contracts in a netting set and confers upon the bank a perfected, first priority security interest (notwithstanding the prior security interest of any custodial agent), or the legal equivalent thereof, in the collateral posted by the counterparty under the agreement. This security interest must provide the bank with a right to close out the financial positions and liquidate the collateral upon an event of default of, or failure to perform by, the counterparty under the collateral agreement. A contract would not satisfy this requirement if the bank’s exercise of rights under the agreement may be stayed or avoided under applicable law in the relevant jurisdictions. Two methods are available to capture the effect of a collateral agreement:

(i) With prior written approval from the FDIC, a bank may include the effect of a collateral agreement within its internal model used to calculate EAD. The bank may set EAD equal to the expected exposure at the end of the margin period of risk. The margin period of risk means, with respect to a netting set subject to a collateral agreement, the time period from the most recent exchange of collateral with a counterparty until the next required exchange of collateral plus the period of time required to sell and realize the proceeds of the least liquid collateral that can be delivered under the terms of the collateral agreement and, where
applicable, the period of time required to re-

hedge the resulting market risk, upon the

default of the counterparty. The minimum

margin period of risk is five business days

for repo-style transactions and ten business
days for other transactions when liquid fi-
nancial collateral is posted under a daily

margin maintenance requirement. This pe-

diod should be extended to cover any addi-
tional time between margin calls; any poten-
tial closeout difficulties; any delays in sell-
ing collateral, particularly if the collateral is

illiquid; and any impediments to prompt

re-hedging of any market risk.

(ii) A bank that can model EPE without

collateral agreements but cannot achieve the

higher levels of modeling sophistication to

model EPE with collateral agreements can

set effective EPE for a collateralized netting set equal to the lesser of:

(A) The threshold, defined as the exposure

amount at which the counterparty is re-
quired to post collateral under the collateral

agreement, if the threshold is positive, plus an

add-on that reflects the potential increase in

exposure of the netting set over the mar-
gin period of risk. The add-on is computed as

the expected increase in the netting set’s ex-
posure beginning from current exposure of

zero over the margin period of risk. The mar-
gin period of risk must be at least five busi-
ness days for netting sets consisting only of

repo-style transactions subject to daily re-
margining and daily marking-to-market, and
ten business days for all other netting sets; or

(B) Effective EPE without a collateral

agreement.

(6) Own estimate of alpha. With prior writ-
ten approval of the FDIC, a bank may cal-
culate alpha as the ratio of economic capital

from a full simulation of counterparty expo-
sure across counterparties that incorporates a
joint simulation of market and credit risk

factors (numerator) and economic capital

based on EPE (denominator), subject to a
floor of 1.2. For purposes of this calculation,

economic capital is the unexpected losses for
all counterparty credit risks measured at a
99.9 percent confidence level over a one-year
horizon. To receive approval, the bank must
meet the following minimum standards to
the satisfaction of the FDIC:

(i) The bank’s own estimate of alpha must

capture in the numerator the effects of:

(A) The material sources of stochastic de-

dpendency of distributions of market values

of transactions or portfolios of transactions

across counterparties;

(B) Volatilities and correlations of market

risk factors used in the joint simulation,

which must be related to the credit risk fac-
tor used in the simulation to reflect poten-
tial increases in volatility or correlation in
an economic downturn, where appropriate; and

(C) The granularity of exposures (that is,
the effect of a concentration in the propor-
tion of each counterparty’s exposure that is
driven by a particular risk factor).

(ii) The bank must assess the potential

model uncertainty in its estimates of alpha.

(iii) The bank must calculate the numer-
ator and denominator of alpha in a con-

sistent fashion with respect to modeling

methodology, parameter specifications, and

portfolio composition.

(iv) The bank must review and adjust as

appropriate its estimates of the numerator

and denominator of alpha on at least a quar-
terly basis and more frequently when the

composition of the portfolio varies over

time.

(7) Other measures of counterparty exposure.

With prior written approval of the FDIC, a

bank may set EAD equal to a measure of

counterparty credit risk exposure, such as

peak EAD, that is more conservative than an

alpha of 1.4 (or higher under the terms of
paragraph (d)(2)(ii)(B) of this section) times

EPE for every counterparty whose EAD will

be measured under the alternative measure

counterparty exposure. The bank must

demonstrate the conservatism of the meas-
ure of counterparty credit risk exposure used

for EAD. For material portfolios of new OTC
derivative products, the bank may assume

that the current exposure methodology in
paragraphs (c)(5) and (c)(6) of this section
proves the conservatism requirement of
this paragraph for a period not to exceed 180
days. For immaterial portfolios of OTC de-

rivative contracts, the bank generally may

assume that the current exposure method-

ology in paragraphs (c)(5) and (c)(6) of this

section meets the conservatism requirement

of this paragraph.

Section 33. Guarantees and Credit Derivatives:

PD Substitution and LGD Adjustment Ap-

proaches

(a) Scope. (1) This section applies to whole-

sale exposures for which:

(i) Credit risk is fully covered by an eligi-

ble guarantee or eligible credit derivative; or

(ii) Credit risk is covered on a pro rata

basis (that is, on a basis in which the bank

and the protection provider share losses pro-

portionately) by an eligible guarantee or eli-

gible credit derivative.

(2) Wholesale exposures on which there is a

tranching of credit risk (reflecting at least

two different levels of seniority) are secu-

ritization exposures subject to the securitiza-

tion framework in part V.

(3) A bank may elect to recognize the cred-

it risk mitigation benefits of an eligible

guarantee or eligible credit derivative cov-

ering an exposure described in paragraph
(a)(1) of this section by using the PD substi-

tution approach or the LGD adjustment ap-

proach in paragraph (c) of this section or, if

the transaction qualifies, using the double

516
default treatment in section 34 of this appendix. A bank’s PD and LGD for the hedged exposure may not be lower than the PD and LGD floors described in paragraphs (d)(2) and (d)(3) of section 31 of this appendix.

(4) If multiple eligible guarantees or eligible credit derivatives cover a single exposure described in paragraph (a)(1) of this section, a bank may treat the hedged exposure as multiple separate exposures each covered by a single eligible guarantee or eligible credit derivative and may calculate a separate risk-based capital requirement for each separate exposure as described in paragraph (a)(3) of this section.

(5) If a single eligible guarantee or eligible credit derivative covers multiple hedged wholesale exposures described in paragraph (a)(1) of this section, a bank must treat each hedged exposure as covered by a separate eligible guarantee or eligible credit derivative and must calculate a separate risk-based capital requirement for each exposure as described in paragraph (a)(3) of this section.

(6) A bank must use the same risk parameters for calculating ECL as it uses for calculating the risk-based capital requirement for the exposure.

(b) Rules of recognition. (1) A bank may only recognize the credit risk mitigation benefits of eligible guarantees and eligible credit derivatives.

(2) A bank may only recognize the credit risk mitigation benefits of an eligible credit derivative to hedge an exposure that is different from the credit derivative’s reference exposure used for determining the derivative’s cash settlement value, deliverable obligation, or occurrence of a credit event if:

(i) The reference exposure ranks pari passu (that is, equally) with or is junior to the hedged exposure; and

(ii) The reference exposure and the hedged exposure are exposures to the same legal entity, and legally enforceable cross-default or cross-acceleration clauses are in place to assure payments under the credit derivative are triggered when the obligor fails to pay under the terms of the hedged exposure.

(c) Risk parameters for hedged exposures—(1) PD substitution approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, a bank may recognize the guarantee or credit derivative in determining the bank’s risk-based capital requirement for the hedged exposure by substituting the PD associated with the rating grade of the obligor in the risk-based capital formula applicable to the guarantee or credit derivative in Table 2 and using the appropriate LGD as described in paragraph (c)(1)(iii) of this section.

If the bank determines that full substitution of the protection provider’s PD leads to an inappropriate degree of risk mitigation, the bank may substitute a higher PD than that of the protection provider.

(ii) Partial coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The bank must calculate its risk-based capital requirement for the protected exposure under section 31 of this appendix, where PD is the protection provider’s PD, LGD is determined under paragraph (c)(1)(iii) of this section, and EAD is P. If the bank determines that full substitution leads to an inappropriate degree of risk mitigation, the bank may use a higher PD than that of the protection provider.

(B) The bank must calculate its risk-based capital requirement for the unprotected exposure under section 31 of this appendix, where PD is the obligor’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus P.

(C) The treatment in this paragraph (c)(1)(ii) is applicable when the credit risk of a wholesale exposure is covered on a partial pro rata basis or when an adjustment is made to the effective notional amount of the guarantee or credit derivative under paragraph (d), (e), or (f) of this section.

(iii) LGD of hedged exposures. The LGD of a hedged exposure under the PD substitution approach is equal to:

(A) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the bank with the option to receive immediate payout upon triggering the protection; or

(B) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the bank with the option to receive immediate payout upon triggering the protection.

(2) LGD adjustment approach—(i) Full coverage. If an eligible guarantee or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount (P) of the guarantee or credit derivative is greater than or equal to the EAD of the hedged exposure, the bank’s risk-based capital requirement for the hedged exposure is the greater of:

(A) The risk-based capital requirement for the exposure as calculated under section 31

517
of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative; or

(B) The risk-based capital requirement for a direct exposure to the guarantor or eligible credit derivative meets the conditions in paragraphs (a) and (b) of this section and the protection amount \( P \) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize the credit risk mitigation benefit of the guarantee or credit derivative.

(A) The bank’s risk-based capital requirement for the protected exposure would be the greater of:

(1) The risk-based capital requirement for the protected exposure as calculated under section 31 of this appendix, with the LGD of the exposure adjusted to reflect the guarantee or credit derivative and EAD set equal to \( P \); or

(2) The risk-based capital requirement for a direct exposure to the guarantor as calculated under section 31 of this appendix, using the PD for the protection provider, the LGD for the guarantee or credit derivative, and an EAD set equal to \( P \).

(B) The bank must calculate its risk-based capital requirement for the unprotected exposure under section 31 of this appendix, where PD is the obligor’s PD, LGD is the hedged exposure’s LGD (not adjusted to reflect the guarantee or credit derivative), and EAD is the EAD of the original hedged exposure minus \( P \).

(3) \( M \) of hedged exposures. The \( M \) of the hedged exposure is the same as the \( M \) of the exposure if it were unhedged.

(d) Maturity mismatch. (1) A bank that recognizes an eligible guarantee or eligible credit derivative in determining its risk-based capital requirement for a hedged exposure must adjust the effective notional amount of the credit risk mitigant to reflect any maturity mismatch between the hedged exposure and the credit risk mitigant.

(2) A maturity mismatch occurs when the residual maturity of a credit risk mitigant is less than that of the hedged exposure(s).

(3) The residual maturity of a hedged exposure is the longest possible remaining time before the obligor is scheduled to fulfill its obligation on the exposure. If a credit risk mitigant has embedded options that may reduce its term, the bank (protection purchaser) must use the shortest possible residual maturity for the credit risk mitigant. If a call is at the discretion of the protection provider, the residual maturity of the credit risk mitigant is at the first call date. If the call is at the discretion of the bank (protection purchaser), but the terms of the arrangement at origination of the credit risk mitigant contain a positive incentive for the bank to call the transaction before contractual maturity, the remaining time to the first call date is the residual maturity of the credit risk mitigant. For example, where there is a step-up in cost in conjunction with a call feature or where the effective cost of protection increases over time even if credit quality remains the same or improves, the residual maturity of the credit risk mitigant will be the remaining time to the first call.

(4) A credit risk mitigant with a maturity mismatch may be recognized only if its original maturity is greater than or equal to one year and its residual maturity is greater than three months.

(5) When a maturity mismatch exists, the bank must apply the following adjustment to the effective notional amount of the credit risk mitigant: \( P_m = E \times (t - 0.25)/(T - 0.25) \), where:

(1) \( P_m \) = effective notional amount of the credit risk mitigant, adjusted for maturity mismatch;

(2) \( E \) = effective notional amount of the credit risk mitigant;

(3) \( t \) = the lesser of \( T \) or the residual maturity of the credit risk mitigant, expressed in years; and

(4) \( T \) = the lesser of five or the residual maturity of the hedged exposure, expressed in years.

(e) Credit derivatives without restructuring as a credit event. If a bank recognizes an eligible credit derivative that does not include as a credit event a restructuring of the hedged exposure involving forgiveness or postponement of principal, interest, or fees that results in a credit loss event (that is, a charge-off, specific provision, or other similar debit to the profit and loss account), the bank must apply the following adjustment to the effective notional amount of the credit derivative: \( Pr = P_m \times 0.60 \), where:

(1) \( Pr \) = effective notional amount of the credit risk mitigant, adjusted for lack of restructuring event (and maturity mismatch, if applicable); and

(2) \( P_m \) = effective notional amount of the credit risk mitigant adjusted for maturity mismatch (if applicable).

(f) Currency mismatch. (1) If a bank recognizes an eligible guarantee or eligible credit derivative that is denominated in a currency different from that in which the hedged exposure is denominated, the bank must apply the following formula to the effective notional amount of the guarantee or credit derivative: \( P_c = Pr \times (1 - H_{e3}) \), where:

(1) \( P_c \) = effective notional amount of the credit risk mitigant, adjusted for currency mismatch (and maturity mismatch and lack of restructuring event, if applicable).
(ii) Pr = effective notional amount of the credit risk mitigant (adjusted for maturity mismatch and lack of restructuring event, if applicable); and

(iii) \( H_{FX} \) = haircut appropriate for the currency mismatch between the credit risk mitigant and the hedged exposure.

(2) A bank must set \( H_{FX} \) equal to 8 percent unless it qualifies for the use of its own internal estimates of foreign exchange volatility based on a ten-business-day holding period and daily marking-to-market and remargining. A bank qualifies for the use of its own internal estimates of foreign exchange volatility if it qualifies for:

(i) The own-estimates haircut in paragraph (b)(3) of section 32 of this appendix; or

(ii) The simple VaR methodology in paragraph (b)(2) of section 32 of this appendix; or

(iii) The internal models methodology in paragraph (d) of section 32 of this appendix.

(3) A bank must adjust \( H_{FX} \) calculated in paragraph (f)(2) of this section upward if the bank revalues the guarantee or credit derivative less frequently than once every ten business days using the square root of time formula provided in paragraph (b)(2)(iii)(A)(2) of section 32 of this appendix.

**Section 34. Guarantees and Credit Derivatives: Double Default Treatment**

(a) Eligibility and operational criteria for double default treatment. A bank may recognize the credit risk mitigation benefits of a guarantee or credit derivative covering an exposure described in paragraph (a)(1) of section 33 of this appendix by applying the double default treatment in this section if all the following criteria are satisfied:

1. The hedged exposure is fully covered or covered on a pro rata basis by:
   (i) An eligible guarantee issued by an eligible double default guarantor; or
   (ii) An eligible credit derivative that meets the requirements of paragraph (b)(2) of section 33 of this appendix and is issued by an eligible double default guarantor.

2. The guarantee or credit derivative is:
   (i) An uncollateralized guarantee or uncollateralized credit derivative (for example, a credit default swap) that provides protection with respect to a single reference obligor; or
   (ii) An nth-to-default credit derivative (subject to the requirements of paragraph (m) of section 42 of this appendix).

3. The hedged exposure is a wholesale exposure (other than a sovereign exposure).

4. The obligor of the hedged exposure is not:
   (i) An eligible double default guarantor or an affiliate of an eligible double default guarantor; or
   (ii) An affiliate of the guarantor.

5. The bank does not recognize any credit risk mitigation benefits of the guarantee or credit derivative for the hedged exposure other than through application of the double default treatment as provided in this section.

6. The bank has implemented a process (which has received the prior, written approval of the FDIC) to detect excessive correlation between the creditworthiness of the obligor of the hedged exposure and the protection provider. If excessive correlation is present, the bank may not use the double default treatment for the hedged exposure.

(b) Full coverage. If the transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is at least equal to the EAD of the hedged exposure, the bank may determine its risk-weighted asset amount for the hedged exposure under paragraph (e) of this section.

(c) Partial coverage. If the transaction meets the criteria in paragraph (a) of this section and the protection amount (P) of the guarantee or credit derivative is less than the EAD of the hedged exposure, the bank must treat the hedged exposure as two separate exposures (protected and unprotected) in order to recognize double default treatment on the protected portion of the exposure.

1. For the protected exposure, the bank must set EAD equal to P and calculate its risk-weighted asset amount as provided in paragraph (e) of this section.

2. For the unprotected exposure, the bank must set EAD equal to the EAD of the original exposure minus P and then calculate its risk-weighted asset amount as provided in section 33 of this appendix.

(d) Mismatches. For any hedged exposure to which a bank applies double default treatment, the bank must make applicable adjustments to the protection amount as required in paragraphs (d), (e), and (f) of section 33 of this appendix.

(e) The double default dollar risk-based capital requirement. The dollar risk-based capital requirement for a hedged exposure to which a bank has applied double default treatment is \( K_{DD} \), multiplied by the EAD of the exposure. \( K_{DD} \) is calculated according to the following formula: \( K_{DD} = K_x \times (0.15 + 160 \times PD_g) \). Where:

1. k_x =
\[
K_o = LGD_g \times N \left( \frac{N^{-1}(PD_o) + N^{-1}(0.999)\sqrt{\rho_{os}}}{\sqrt{1 - \rho_{os}}} - PD_o \right) \times \left[ \frac{1 + (M - 2.5) \times b}{1 - 1.5 \times b} \right]
\]

(2) \(PD_o = PD\) of the protection provider.
(3) \(PD_o = PD\) of the obligor of the hedged exposure.
(4) \(LGD_g = (i)\) The lower of the LGD of the hedged exposure (not adjusted to reflect the guarantee or credit derivative) and the LGD of the guarantee or credit derivative, if the guarantee or credit derivative provides the bank with the option to receive immediate payout on triggering the protection; or
(5) \(LGD_g = (ii)\) The LGD of the guarantee or credit derivative, if the guarantee or credit derivative does not provide the bank with the option to receive immediate payout on triggering the protection.
(6) \(\rho_{os}\) (asset value correlation of the obligor) is calculated according to the appropriate formula for (R) provided in Table 2 in section 31 of this appendix, with PD equal to PD_o.
(7) \(b\) (maturity adjustment coefficient) is calculated according to the formula for b provided in Table 2 in section 31 of this appendix, with PD equal to the lesser of PD_o and PD_o.
(8) \(M\) (maturity) is the effective maturity of the guarantee or credit derivative, which may not be less than one year or greater than five years.

Section 35. Risk-Based Capital Requirement for Unsettled Transactions

(a) Definitions. For purposes of this section:
(1) Delivery-versus-payment (DvP) transaction means a securities or commodities transaction in which the buyer is obligated to make payment only if the seller has made delivery of the securities or commodities and the seller is obligated to deliver the securities or commodities only if the buyer has made payment.
(2) Payment-versus-payment (PvP) transaction means a foreign exchange transaction in which each counterparty is obligated to make a final transfer of one or more currencies only if the other counterparty has made a final transfer of one or more currencies.
(3) Normal settlement period. A transaction has a normal settlement period if the contractual settlement period for the transaction is equal to or less than the market standard for the instrument underlying the transaction and equal to or less than five business days.
(4) Positive current exposure. The positive current exposure of a bank for a transaction is the difference between the transaction value at the agreed settlement price and the current market price of the transaction, if the difference results in a credit exposure of the bank to the counterparty.
(b) Scope. This section applies to all transactions involving securities, foreign exchange instruments, and commodities that have a risk of delayed settlement or delivery. This section does not apply to:
(1) Transactions accepted by a qualifying central counterparty that are subject to daily marking-to-market and daily receipt and payment of variation margin;
(2) Repo-style transactions, including unsettled repo-style transactions (which are addressed in sections 31 and 32 of this appendix);
(3) One-way cash payments on OTC derivative contracts (which are addressed in sections 31 and 32 of this appendix);
(4) Transactions with a contractual settlement period that is longer than the normal settlement period (which are treated as OTC derivative contracts and addressed in sections 31 and 32 of this appendix).
(c) System-wide failures. In the case of a system-wide failure of a settlement or clearing system, the FDIC may waive risk-based capital requirements for unsettled and failed transactions until the situation is rectified.
(d) Delivery-versus-payment (DvP) and payment-versus-payment (PvP) transactions. A bank must hold risk-based capital against any DvP or PvP transaction with a normal settlement period if the bank’s counterparty has not made delivery or payment within five business days after the settlement date. The bank must determine its risk-weighted asset amount for such a transaction by multiplying the positive current exposure of the transaction for the bank by the appropriate risk weight in Table 5.

### Table 5—Risk Weights for Unsettled DvP and PvP Transactions

<table>
<thead>
<tr>
<th>Number of business days after contractual settlement date</th>
<th>Risk weight to be applied to positive current exposure (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>From 5 to 15</td>
<td>100</td>
</tr>
<tr>
<td>From 16 to 30</td>
<td>625</td>
</tr>
<tr>
<td>From 31 to 45</td>
<td>937.5</td>
</tr>
<tr>
<td>46 or more</td>
<td>1,250</td>
</tr>
</tbody>
</table>

(e) Non-DvP/non-PvP (non-delivery-versus-payment/non-payment-versus-payment) transactions. (1) A bank must hold risk-based capital against any non-DvP/non-PvP transaction with a normal settlement period if
the bank has delivered cash, securities, commodities, or currencies to its counterparty but has not received its corresponding deliverables by the end of the same business day. The bank must continue to hold risk-based capital against the transaction until the bank has received its corresponding deliverables.

(2) From the business day after the bank has made its delivery until five business days after the counterparty delivery is due, the bank must calculate its risk-based capital requirement for the transaction by treating the current market value of the deliverables owed to the bank as a wholesale exposure.

(i) A bank may assign an obligor rating to a counterparty for which it is not otherwise required under this appendix to assign an obligor rating on the basis of the applicable external rating of any outstanding unsecured long-term debt security without credit enhancement issued by the counterparty.

(ii) A bank may use a 45 percent LGD for the transaction rather than estimating LGD for the transaction provided the bank uses the 45 percent LGD for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(iii) A bank may use a 100 percent risk weight for the transaction provided the bank uses this risk weight for all transactions described in paragraphs (e)(1) and (e)(2) of this section.

(3) If the bank has not received its deliverables by the fifth business day after the counterparty delivery was due, the bank must deduct the current market value of the deliverables owed to the bank 50 percent from tier 1 capital and 50 percent from tier 2 capital.

(f) Total risk-weighted assets for unsettled transactions. Total risk-weighted assets for unsettled transactions is the sum of the risk-weighted asset amounts of all DvP, PvP, and non-DvP/non-PvP transactions.

PART V. RISK-WEIGHTED ASSETS FOR SECURITIZATION EXPOSURES

Section 41. Operational Criteria for Recognizing the Transfer of Risk

(a) Operational criteria for traditional securitizations. A bank that transfers exposures it has originated or purchased to a securitization SPE or other third party in connection with a traditional securitization may exclude the exposures from the calculation of its risk-weighted assets only if each of the conditions in this paragraph (a) is satisfied. A bank that meets these conditions must hold risk-based capital against any securitization exposures it retains in connection with the securitization. A bank that fails to meet these conditions must hold risk-based capital against the transferred exposures as if they had not been securitized and must deduct from tier 1 capital any after-tax gain-on-sale resulting from the transaction. The conditions are:

(1) The transfer is considered a sale under GAAP;
(2) The bank has transferred to third parties credit risk associated with the underlying exposures; and
(3) Any clean-up calls relating to the securitization are eligible clean-up calls.

(b) Operational criteria for synthetic securitizations. For synthetic securitizations, a bank may recognize for risk-based capital purposes the use of a credit risk mitigant to hedge underlying exposures only if each of the conditions in this paragraph (b) is satisfied. A bank that fails to meet these conditions must hold risk-based capital against the underlying exposures as if they had not been synthetically securitized. The conditions are:

(1) The credit risk mitigant is financial collateral, an eligible credit derivative from an eligible securitization guarantor or an eligible guarantee from an eligible securitization guarantor;
(2) The bank transfers credit risk associated with the underlying exposures to third parties, and the terms and conditions in the credit risk mitigants employed do not include provisions that:
   (i) Allow for the termination of the credit protection due to deterioration in the credit quality of the underlying exposures;
   (ii) Require the bank to alter or replace the underlying exposures to improve the credit quality of the pool of underlying exposures;
   (iii) Increase the bank’s cost of credit protection in response to deterioration in the credit quality of the underlying exposures;
   (iv) Increase the yield payable to parties other than the bank in response to a deterioration in the credit quality of the underlying exposures; or
   (v) Provide for increases in a retained first loss position or credit enhancement provided by the bank after the inception of the securitization;
(3) The bank obtains a well-reasoned opinion from legal counsel that confirms the enforceability of the credit risk mitigant in all relevant jurisdictions; and
(4) Any clean-up calls relating to the securitization are eligible clean-up calls.

Section 42. Risk-Based Capital Requirement for Securitization Exposures

(a) Hierarchy of approaches. Except as provided elsewhere in this section:

(1) A bank must deduct from tier 1 capital any after-tax gain-on-sale resulting from a securitization and must deduct from total capital in accordance with paragraph (c) of this section the portion of any CEIO that does not constitute gain-on-sale.
(2) If a securitization exposure does not require deduction under paragraph (a)(1) of
this section and qualifies for the Ratings-Based Approach in section 43 of this appendix, a bank must apply the Ratings-Based Approach to the exposure.

If a securitization exposure does not require deduction under paragraph (a)(1) of this section and does not qualify for the Ratings-Based Approach, the bank may either apply the Internal Assessment Approach in section 44 of this appendix to the exposure (if the bank, the exposure, and the relevant ABCP program qualify for the Internal Assessment Approach) or the Supervisory Formula Approach in section 45 of this appendix to the exposure (if the bank and the exposure qualify for the Supervisory Formula Approach).

(4) If a securitization exposure does not require deduction under paragraph (a)(1) of this section and does not qualify for the Ratings-Based Approach, the Internal Assessment Approach, or the Supervisory Formula Approach, the bank must deduct the exposure from total capital in accordance with paragraph (c) of this section.

(5) If a securitization exposure is an OTC derivative contract (other than a credit derivative) that has a first priority claim on the cash flows from the underlying exposures (notwithstanding amounts due under interest rate or currency derivative contracts, fees due, or other similar payments), with approval of the FDIC, a bank may choose to set the risk-weighted asset amount of the exposure equal to the amount of the exposure as determined in paragraph (e) of this section rather than apply the hierarchy of approaches described in paragraphs (a)(1) through (4) of this section.

(b) Total risk-weighted assets for securitization exposures. A bank’s total risk-weighted assets for securitization exposures is equal to the sum of its risk-weighted assets calculated using the Ratings-Based Approach in section 43 of this appendix, the Internal Assessment Approach in section 44 of this appendix, and the Supervisory Formula Approach in section 45 of this appendix, and its risk-weighted assets amount for early amortization provisions calculated in section 47 of this appendix.

(c) Deductions. (1) If a bank must deduct a securitization exposure from total capital, the bank must take the deduction 50 percent from tier 1 capital and 50 percent from tier 2 capital. If the amount deductible from tier 2 capital exceeds the bank’s tier 2 capital, the bank must deduct the excess from tier 1 capital.

(2) A bank may calculate any deduction from tier 1 capital and tier 2 capital for a securitization exposure net of any deferred tax liabilities associated with the securitization exposure.

(d) Maximum risk-based capital requirement. Regardless of any other provisions of this part, unless one or more underlying exposures does not meet the definition of a wholesale, retail, securitization, or equity exposure, the total risk-based capital requirement for all securitization exposures held by a single bank associated with a single securitization (including any risk-based capital requirements that relate to an early amortization provision of the securitization but excluding any risk-based capital requirements that relate to the bank’s gain-on-sale or CEIOs associated with the securitization) may not exceed the sum of:

(1) The bank’s total risk-based capital requirement for the underlying exposures as if the bank directly held the underlying exposures; and

(2) The total ECL of the underlying exposures.

(e) Amount of a securitization exposure. (1) The amount of an on-balance sheet securitization exposure that is not a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) is:

(i) The bank’s carrying value minus any unrealized gains and plus any unrealized losses on the exposure, if the exposure is a security classified as available-for-sale; or

(ii) The bank’s carrying value, if the exposure is not a security classified as available-for-sale.

(2) The amount of an off-balance sheet securitization exposure that is not an OTC derivative contract (other than a credit derivative) is the notional amount of the exposure. For an off-balance-sheet securitization exposure to an ABCP program, such as a liquidity facility, the notional amount may be reduced to the maximum potential amount that the bank could be required to fund given the ABCP program’s current underlying assets (calculated without regard to the current credit quality of those assets).

(3) The amount of a securitization exposure that is a repo-style transaction, eligible margin loan, or OTC derivative contract (other than a credit derivative) is the EAD of the exposure as calculated in section 32 of this appendix.

(f) Overlapping exposures. If a bank has multiple securitization exposures that provide duplicative coverage of the underlying exposures of a securitization (such as when a bank provides a program-wide credit enhancement and multiple pool-specific liquidity facilities to an ABCP program), the bank is not required to hold duplicative risk-based capital against the overlapping position. Instead, the bank may apply to the overlapping position the applicable risk-based capital treatment that results in the highest risk-based capital requirement.

(g) Securitizations of non-IRB exposures. If a bank has a securitization exposure where any underlying exposure is not a wholesale exposure, retail exposure, securitization exposure, or equity exposure, the bank must:
(1) If the bank is an originating bank, deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization and deduct from total capital in accordance with paragraph (c) of this section the portion of any CEIO that does not constitute gain-on-sale;
(2) If the securitization exposure does not require deduction under paragraph (g)(1), apply the RBA in section 43 of this appendix to the securitization exposure if the exposure qualifies for the RBA;
(3) If the securitization exposure does not require deduction under paragraph (g)(1) and does not qualify for the RBA, apply the IAA in section 44 of this appendix to the exposure (if the bank, the exposure, and the relevant ACP program qualify for the IAA); and
(4) If the securitization exposure does not require deduction under paragraph (g)(1) and does not qualify for the RBA or the IAA, deduct the exposure from total capital in accordance with paragraph (c) of this section.

(h) Implicit support. If a bank provides support to a securitization in excess of the bank’s contractual obligation to provide credit support to the securitization (implicit support):
(1) The bank must hold regulatory capital against all of the underlying exposures associated with the securitization as if the exposures had not been securitized and must deduct from tier 1 capital any after-tax gain-on-sale resulting from the securitization; and
(2) The bank must disclose publicly:
(i) That it has provided implicit support to the securitization; and
(ii) The regulatory capital impact to the bank of providing such implicit support.

(i) Eligible servicer cash advance facility. Regardless of any other provisions of this part, a bank is not required to hold risk-based capital against the undrawn portion of an eligible servicer cash advance facility.

(j) Interest-only mortgage-backed securities. Regardless of any other provisions of this part, the risk weight for a non-credit-enhancing interest-only mortgage-backed security may not be less than 100 percent.

(k) Small-business loans and leases on personal property transferred with recourse. A bank that has transferred small-business loans and leases on personal property (small-business obligations) with recourse must include in risk-weighted assets only the contractual amount of retained recourse if all the following conditions are met:
(i) The transaction is a sale under GAAP.
(ii) The bank establishes and maintains, pursuant to GAAP, a non-capital reserve sufficient to meet the bank’s reasonably estimated liability under the recourse arrangement.

(III) The loans and leases are to businesses that meet the criteria for a small-business concern established by the Small Business Administration under section 3(a) of the Small Business Act (15 U.S.C. 632).

(iv) The bank is well capitalized, as defined in the FDIC’s prompt corrective action regulations at 12 CFR part 325, subpart B. For purposes of determining whether a bank is well capitalized for purposes of this paragraph, the bank’s capital ratios must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section. For purposes of determining whether a bank is well capitalized for purposes of this paragraph, the bank’s capital ratios must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section.

(2) The total outstanding amount of recourse retained by a bank on transfers of small-business obligations receiving the capital treatment specified in paragraph (k)(1) of this section cannot exceed 15 percent of the bank’s total qualifying capital.

(3) If a bank ceases to be well capitalized or exceeds the 15 percent capital limitation, the preferential capital treatment specified in paragraph (k)(1) of this section will continue to apply to any transfers of small-business obligations with recourse that occurred during the time that the bank was well capitalized and did not exceed the capital limit.

(4) The risk-based capital ratios of the bank must be calculated without regard to the capital treatment for transfers of small-business obligations with recourse specified in paragraph (k)(1) of this section as provided in 12 CFR part 325, appendix A. The protection amount of the derivative must determine its risk-based capital requirement for the underlying exposures as if the bank synthetically securitized the underlying exposure with the lowest risk-based capital requirement and had obtained no credit risk mitigation on the other underlying exposures.

(ii) Protection provider. A bank that provides credit protection on a group of underlying exposures through a first-to-default credit derivative must determine its risk-based capital requirement for the underlying exposures.

(1) Nth-to-default credit derivatives—(1) First-to-default credit derivatives—(1) Protection purchaser. A bank that obtains credit protection on a group of underlying exposures through a first-to-default credit derivative must determine its risk-based capital requirement for the underlying exposures through a first-to-default credit derivative by applying the RBA in section 43 of this appendix (if the derivative qualifies for the RBA) or, if the derivative does not qualify for the RBA, by setting its risk-weighted asset amount for the derivative equal to the product of:
(A) The protection amount of the derivative;
(B) 12.5; and
(C) The sum of the risk-based capital requirements of the individual underlying exposures, up to a maximum of 100 percent.

(2) Second-or-subsequent-to-default credit derivatives—(i) Protection purchaser. (A) A bank that obtains credit protection on a group of underlying exposures through a $^{n}$th-to-default credit derivative (other than a first-to-default credit derivative) may recognize the credit risk mitigation benefits of the derivative only if:

(i) The bank also has obtained credit protection on the same underlying exposures in the form of first-through-($n-1$)-to-default credit derivatives; or

(ii) If $n-1$ of the underlying exposures have already defaulted.

(B) If a bank satisfies the requirements of paragraph (m)(2)(i)(A) of this section, the bank must determine its risk-based capital requirement for the underlying exposures as if the bank had only synthetically securitized the underlying exposure with the $n$th lowest risk-based capital requirement and had obtained no credit risk mitigant on the other underlying exposures.

(ii) Protection provider. A bank that provides credit protection on a group of underlying exposures through a $n$th-to-default credit derivative (other than a first-to-default credit derivative) must determine its risk-weighted asset amount for the derivative by applying the RBA in section 43 of this appendix (if the derivative qualifies for the RBA) or, if the derivative does not qualify for the RBA, by setting its risk-weighted asset amount for the derivative equal to the product of:

(A) The protection amount of the derivative;

(B) 12.5; and

(C) The sum of the risk-based capital requirements of the individual underlying exposures (excluding the $n$-1 underlying exposures with the lowest risk-based capital requirements), up to a maximum of 100 percent.

Section 43. Ratings-Based Approach (RBA)

(a) Eligibility requirements for use of the RBA—(1) Originating bank. An originating bank must use the RBA to calculate its risk-based capital requirement for a securitization exposure if the exposure has two or more external ratings or inferred ratings (and may not use the RBA if the exposure has fewer than two external ratings or inferred ratings).

(2) Investing bank. An investing bank must use the RBA to calculate its risk-based capital requirement for a securitization exposure if the exposure has one or more external or inferred ratings (and may not use the RBA if the exposure has no external or inferred rating).

(b) Ratings-based approach. (1) A bank must determine the risk-weighted asset amount for a securitization exposure by multiplying the amount of the exposure (as defined in paragraph (e) of section 42 of this appendix) by the appropriate risk weight provided in Table 6 and Table 7.

(2) A bank must apply the risk weights in Table 6 when the securitization exposure’s applicable external or applicable inferred rating represents a long-term credit rating, and must apply the risk weights in Table 7 when the securitization exposure’s applicable external or applicable inferred rating represents a short-term credit rating.

(i) A bank must apply the risk weights in column 1 of Table 6 or Table 7 to the securitization exposure if:

(A) $^{N}$ (as calculated under paragraph (e)(6) of section 45 of this appendix) is six or more (for purposes of this section only, if the notional number of underlying exposures is 25 or more or if all of the underlying exposures are retail exposures, a bank may assume that $N$ is six unless the bank knows or has reason to know that $N$ is less than six); and

(B) The securitization exposure is a senior securitization exposure.

(ii) A bank must apply the risk weights in column 3 of Table 6 or Table 7 to the securitization exposure if $N$ is less than six, regardless of the seniority of the securitization exposure.

(iii) Otherwise, a bank must apply the risk weights in column 2 of Table 6 or Table 7.

Section 44. Internal Assessment Approach (IAA)

(a) Eligibility requirements. A bank may apply the IAA to calculate the risk-weighted asset amount for a securitization exposure that the bank has to an ABCP program (such as a liquidity facility or credit enhancement) if the bank, the ABCP program, and the exposure qualify for use of the IAA.

(i) Bank qualification criteria. A bank qualifies for use of the IAA if the bank has received the prior written approval of the FDIC. To receive such approval, the bank must demonstrate to the FDIC’s satisfaction that the bank’s internal assessment process meets the following criteria:

- The bank’s internal credit assessments of securitization exposures must be based on publicly available rating criteria used by an NRSRO.
- The bank’s internal credit assessments of securitization exposures used for risk-based capital purposes must be consistent with those used in the bank’s internal risk management process, management information reporting systems, and capital adequacy assessment process.
- The bank’s internal credit assessment process must have sufficient granularity to identify gradations of risk. Each of the bank’s internal credit assessment categories must correspond to an external rating of an NRSRO.
- The bank’s internal credit assessment process, particularly the stress test factors for determining credit enhancement requirements, must be at least as conservative as the most conservative of the publicly available rating criteria of the NRSROs that have provided external ratings to the commercial paper issued by the ABCP program.

- Where the commercial paper issued by an ABCP program has an external rating from two or more NRSROs and the different NRSROs’ benchmark stress factors require different levels of credit enhancement to achieve the same external rating equivalent, the bank must apply the NRSRO stress factor that requires the highest level of credit enhancement.
- If any NRSRO that provides an external rating to the ABCP program’s commercial paper changes its methodology (including stress factors), the bank must evaluate whether to revise its internal assessment process.
- The bank must have an effective system of controls and oversight that ensures compliance with these operational requirements and maintains the integrity and accuracy of the internal credit assessments. The bank must have an internal audit function.
independent from the ABCP program business line and internal credit assessment process that assesses at least annually whether the controls over the internal credit assessment process function as intended.

(vi) The bank must review and update each internal credit assessment whenever new material information is available, but no less frequently than annually.

(vii) The bank must validate its internal credit assessment process on an ongoing basis and at least annually.

(2) ABCP-program qualification criteria. An ABCP program qualifies for use of the IAA if all commercial paper issued by the ABCP program has an external rating.

(3) Exposure qualification criteria. A securitization exposure qualifies for use of the IAA if the exposure meets the following criteria:

(i) The bank initially rated the exposure at least the equivalent of investment grade.

(ii) The ABCP program has robust credit and investment guidelines (that is, underwriting standards) for the exposures underlying the securitization exposure.

(iii) The ABCP program performs a detailed credit analysis of the sellers of the exposures underlying the securitization exposure.

(iv) The ABCP program’s underwriting policy for the exposures underlying the securitization exposure establishes minimum asset eligibility criteria that include the prohibition of the purchase of assets that are significantly past due or of assets that are defaulted (that is, assets that have been charged off or written down by the seller prior to being placed into the ABCP program or assets that would be charged off or written down under the program’s governing contracts), as well as limitations on concentration to individual obligors or geographic areas and the tenor of the assets to be purchased.

(v) The aggregate estimate of loss on the exposures underlying the securitization exposure considers all sources of potential risk, such as credit and dilution risk.

(vi) Where relevant, the ABCP program incorporates structural features into each purchase of exposures underlying the securitization exposure to mitigate potential credit deterioration of the underlying exposures. Such features may include wind-down triggers specific to a pool of underlying exposures.

(b) Mechanics. A bank that elects to use the IAA to calculate the risk-based capital requirement for any securitization exposure must use the IAA to calculate the risk-based capital requirements for all securitization exposures that qualify for the IAA approach. Under the IAA, a bank must map its internal assessment of such a securitization exposure to an equivalent external rating from an NRSRO. Under the IAA, a bank must determine the risk-weighted asset amount for such a securitization exposure by multiplying the amount of the exposure (as defined in paragraph (e) of section 42 of this appendix) by the appropriate risk weight in Table 6 and Table 7 in paragraph (b) of section 43 of this appendix.

Section 45. Supervisory Formula Approach (SFA)

(a) Eligibility requirements. A bank may use the SFA to determine its risk-based capital requirement for a securitization exposure only if the bank can calculate on an ongoing basis each of the SFA parameters in paragraph (c) of this section.

(b) Mechanics. Under the SFA, a securitization exposure incurs a deduction from total capital (as described in paragraph (c) of section 42 of this appendix) and/or an SFA risk-based capital requirement, as determined in paragraph (c) of this section.

The risk-weighted asset amount for the securitization exposure equals the SFA risk-based capital requirement for the exposure multiplied by 12.5.

(c) The SFA risk-based capital requirement.

(1) If $K_{IRB}$ is greater than or equal to $L + T$, the entire exposure must be deducted from total capital.

(2) If $K_{IRB}$ is less than or equal to $L$, the exposure’s SFA risk-based capital requirement is $Ue \times TP \times (L + T)$.

(3) If $K_{IRB}$ is greater than $L$ and less than $L + T$, the bank must deduct from total capital an amount equal to $UE \times TP \times (K_{IRB} - L)$, and the exposure’s SFA risk-based capital requirement is $UE \times TP \times (K_{IRB} - L)$.

(d) The supervisory formula:
(1) \( S[Y] = \begin{cases} Y & \text{when } Y \leq K_{IRB} \\ K_{IRB} + K[Y] - K_{IRB} + \frac{d \cdot K_{IRB}}{20} (1 - e^{\frac{20(K_{IRB} - Y)}{K_{IRB}}}) & \text{when } Y > K_{IRB} \end{cases} \)

(2) \( K[Y] = (1-h) \cdot [(1 - \beta[Y; a, b]) \cdot Y + \beta[Y; a + 1,b] \cdot c] \)

(3) \( h = \left(1 - \frac{K_{IRB}}{EWALGD}\right)^N \)

(4) \( a = g \cdot c \)

(5) \( b = g \cdot (1-c) \)

(6) \( c = \frac{K_{IRB}}{1-h} \)

(7) \( g = \frac{(1-c) \cdot c}{f} - 1 \)

(8) \( f = \frac{v + K_{IRB}}{1-h} - c^2 + \frac{(1 - K_{IRB}) \cdot K_{IRB} - v}{(1-h) \cdot 1000} \)

(9) \( v = K_{IRB} \cdot \frac{(EWALGD - K_{IRB}) + .25 \cdot (1 - EWALGD)}{N} \)

(10) \( d = 1 - (1-h) \cdot (1 - \beta[K_{IRB}; a, b]) \).

(1) In these expressions, \( \beta[Y; a, b] \) refers to the cumulative beta distribution with parameters \( a \) and \( b \) evaluated at \( Y \). In the case where \( N = 1 \) and \( EWALGD = 100 \) percent, \( S[Y] \) in formula (1) must be calculated with \( K[Y] \) set equal to the product of \( K_{IRB} \) and \( Y \), and \( d \) set equal to \( 1 - K_{IRB} \).

(e) SFA parameters—(1) Amount of the underlying exposures (UE). UE is the EAD of any underlying exposures that are wholesale and retail exposures (including the amount of any funded spread accounts, cash collateral accounts, and other similar funded credit enhancements) plus the amount of any underlying exposures that are securitization exposures (as defined in paragraph (e) of section 42 of this appendix) plus the adjusted carrying value of any underlying exposures that are equity exposures (as defined in paragraph (b) of section 51 of this appendix).

(2) Tranche percentage (TP). TP is the ratio of the amount of the bank’s securitization
exposure to the amount of the tranche that contains the securitization exposure.

(3) Capital requirement on underlying exposures (K\textsubscript{IRB}). (i) K\textsubscript{IRB} is the ratio of:
(A) The sum of the risk-based capital requirements for the underlying exposures plus the expected credit losses of the underlying exposures (as determined under this appendix as if the underlying exposures were directly held by the bank); to
(B) UE.
(ii) The calculation of K\textsubscript{IRB} must reflect the effects of any credit risk mitigant applied to the underlying exposures (either to an individual underlying exposure, to a group of underlying exposures, or to the entire pool of underlying exposures).
(iii) All assets related to the securitization are treated as underlying exposures, including assets in a reserve account (such as a cash collateral account).

(4) Credit enhancement level (L).
(i) L is the ratio of:
(A) The amount of all securitization exposures subordinated to the tranche that contains the bank’s securitization exposure; to
(B) UE.
(ii) A bank must determine L before considering the effects of any tranche-specific credit enhancements.
(iii) Any gain-on-sale or CEIO associated with the securitization may not be included in L.
(iv) Any reserve account funded by accumulated cash flows from the underlying exposures that is subordinated to the tranche that contains the bank’s securitization exposure may be included in the numerator and denominator of L to the extent cash has accumulated in the account. Unfunded reserve accounts (that is, reserve accounts that are to be funded from future cash flows from the underlying exposures) may not be included in the calculation of L.
(v) In some cases, the purchase price of receivables will reflect a discount that provides credit enhancement (for example, first loss protection) for all or certain tranches of the securitization. When this arises, L should be calculated inclusive of this discount.

(5) Thickness of tranche (T). T is the ratio of:
(i) The amount of the tranche that contains the bank’s securitization exposure; to
(ii) UE.

(6) Effective number of exposures (N). (i) Unless the bank elects to use the formula provided in paragraph (f) of this section,
\[ N = \frac{1}{\sum_i EAD_i^2} \]
where EAD, represents the EAD associated with the ith instrument in the pool of underlying exposures.
(ii) Multiple exposures to one obligor must be treated as a single underlying exposure.
(iii) In the case of a re-securitization (that is, a securitization in which some or all of the underlying exposures are themselves securitization exposures), the bank must treat each underlying exposure as a single underlying exposure and must not look through to the originally securitized underlying exposures.

(7) Exposure-weighted average loss given default (EWALGD). EWALGD is calculated as:
\[ EWALGD = \frac{\sum_i LGD_i \cdot EAD_i}{\sum_i EAD_i} \]
where LGD, represents the average LGD associated with all exposures to the ith obligor. In the case of a re-securitization, an LGD of 100 percent must be assumed for the underlying exposures that are themselves securitization exposures.

(f) Simplified method for computing N and EWALGD. (1) If all underlying exposures of a securitization are retail exposures, a bank may apply the SFA using the following simplifications:
(i) h = 0; and
(ii) v = 0.
(2) Under the conditions in paragraphs (f)(3) and (f)(4) of this section, a bank may employ a simplified method for calculating N and EWALGD.
(3) If C\textsubscript{1} is no more than 0.03, a bank may set EWALGD = 0.50 if none of the underlying exposures is a securitization exposure or EWALGD = 1 if one or more of the underlying exposures is a securitization exposure, and may set N equal to the following amount:
\[ N = \frac{1}{C_1 C_m + \left( \frac{C_m - C_1}{m-1} \right) \max(1-mC_1,0)} \]
Section 46. Recognition of Credit Risk Mitigants for Securitization Exposures

(a) General. An originating bank that has obtained a credit risk mitigant to hedge its securitization exposure to a synthetic or traditional securitization that satisfies the operational criteria in section 41 of this appendix may recognize the credit risk mitigant, but only as provided in this section. An investing bank that has obtained a credit risk mitigant to hedge a securitization exposure may recognize the credit risk mitigant, but only as provided in this section. A bank that has used the RBA in section 43 of this appendix or the IAA in section 44 of this appendix to calculate its risk-based capital requirement for a securitization exposure as calculated under the RBA in section 43 of this appendix or under the SPA in section 45 of this appendix multiplied by the ratio of adjusted exposure amount (SE*) to original exposure amount (SE), where:

(i) SE* = max (0, (SE—C × (1—Hs—Hfx)));
(ii) SE = the amount of the securitization exposure calculated under paragraph (e) of section 42 of this appendix;
(iii) C = the current market value of the collateral;
(iv) Hs = the haircut appropriate to the collateral type; and
(v) Hfx = the haircut appropriate for any currency mismatch between the collateral and the exposure.

(b) Collateral—(1) Rules of recognition. A bank may recognize financial collateral in determining the bank’s risk-based capital requirement for a securitization exposure whose external or inferred rating (or equivalent internal rating under the IAA) reflects the benefits of a credit risk mitigant provided to the associated securitization or that supports some or all of the underlying exposures may not use the credit risk mitigation rules in this section to further reduce its risk-based capital requirement for the exposure to reflect that credit risk mitigant.

(b) Collateral—(2) Limitations on recognition. A bank may only recognize an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank’s risk-based capital requirement for a securitization exposure.

(2) Mixed collateral. Where the collateral is a basket of different asset types or a basket of asset denominated in different currencies, the haircut on the basket will be

\[ H = \sum a_i H_i, \]

where \( a_i \) is the current market value of the asset in the basket divided by the current market value of all assets in the basket and \( H_i \) is the haircut applicable to each asset in the basket.

(3) Standard supervisory haircuts. Unless a bank qualifies for use of and uses own-estimated haircuts in paragraph (b)(4) of this section:

(i) A bank must use the collateral type haircuts (Hs) in Table 3;
(ii) A bank must use a currency mismatch haircut (Hfx) of 8 percent if the exposure and the collateral are denominated in different currencies;
(iii) A bank must multiply the supervisory haircuts obtained in paragraphs (b)(3)(i) and (ii) by the square root of 6.5 (which equals 2.549510); and

(iv) A bank must adjust the supervisory haircuts upward on the basis of a holding period longer than 65 business days where and as appropriate to take into account the illiquidity of the collateral.

(4) Own estimates for haircuts. With the prior written approval of the FDIC, a bank may calculate haircuts using its own internal estimates of market price volatility and foreign exchange volatility, subject to paragraph (b)(2)(iii) of section 32 of this appendix. The minimum holding period (TM) for securitization exposures is 65 business days.

(c) Guarantees and credit derivatives—(1) Let \( \text{Hs} \) and \( \text{Hfx} \) be the supervisory haircuts obtained in paragraphs (b)(3)(i) and (ii) respectively.

(2) ECL for securitization exposures. When a bank recognizes an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank’s risk-based capital requirement for a securitization exposure, the bank must also:

(i) Calculate ECL for the protected portion of the exposure using the same risk parameters that it uses for calculating the risk-weighted asset amount of the exposure as described in paragraph (c)(3) of this section; and

(ii) Add the exposure’s ECL to the bank’s total ECL.
(3) Rules of recognition. A bank may recognize an eligible guarantee or eligible credit derivative provided by an eligible securitization guarantor in determining the bank’s risk-based capital requirement for the securitization exposure as follows:

(i) Full coverage. If the protection amount of the eligible guarantee or eligible credit derivative equals or exceeds the amount of the securitization exposure, the bank may set the risk-weighted asset amount for the securitization exposure equal to the risk-weighted asset amount for a direct exposure to the eligible securitization guarantor (as determined in the wholesale risk weight function described in section 31 of this appendix), using the bank’s PD for the guarantor, the bank’s LGD for the guarantee or credit derivative, and an EAD equal to the amount of the securitization exposure (as determined in paragraph (e) of section 42 of this appendix).

(ii) Partial coverage. If the protection amount of the eligible guarantee or eligible credit derivative is less than the amount of the securitization exposure, the bank may set the risk-weighted asset amount for the securitization exposure equal to the sum of:

(A) Covered portion. The risk-weighted asset amount for a direct exposure to the eligible securitization guarantor (as determined in the wholesale risk weight function described in section 31 of this appendix), using the bank’s PD for the guarantor, the bank’s LGD for the guarantee or credit derivative, and an EAD equal to the protection amount of the credit risk mitigant; and

(B) Uncovered portion. (1) 1.0 minus the ratio of the protection amount of the eligible guarantee or eligible credit derivative to the amount of the securitization exposure; multiplied by

(2) The risk-weighted asset amount for the securitization exposure without the credit risk mitigant (as determined in sections 42–45 of this appendix).

(4) Mismatches. The bank must make applicable adjustments to the protection amount as required in paragraphs (d), (e), and (f) of section 33 of this appendix for any hedged securitization exposure and any more senior securitization exposure that benefits from the hedge. In the context of a synthetic securitization, when an eligible guarantee or eligible credit derivative covers multiple hedged exposures that have different residual maturities, the bank must use the longest residual maturity of any of the hedged exposures as the residual maturity of all the hedged exposures.

Section 47. Risk-Based Capital Requirement for Early Amortization Provisions

(a) General. (1) An originating bank must hold risk-based capital against the sum of the originating bank’s interest and the investors’ interest in a securitization as the securitization exposure under sections 42–45 of this appendix, and the bank must calculate the risk-based capital requirement for the originating bank’s interest and the investors’ interest in a securitization that:

(i) Includes one or more underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit; and

(ii) Contains an early amortization provision.

(4) The risk-weighted asset amount for investors’ interest. The originating bank’s risk-weighted asset amount for the investors’ interest in the securitization is equal to the product of the following 5 quantities:

(1) The investors’ interest EAD;

(2) The appropriate conversion factor in paragraph (c) of this section;

(3) 

(4) 12.5; and

(5) The proportion of the underlying exposures in which the borrower is permitted to vary the drawn amount within an agreed limit under a line of credit.

(c) Conversion factor. (1)(i) Except as provided in paragraph (c)(2) of this section, to calculate the appropriate conversion factor, a bank must use Table 8 for a securitization that contains a controlled early amortization provision and must use Table 9 for a securitization that contains a non-controlled early amortization provision. In circumstances where a securitization contains a mix of retail and nonretail exposures or a mix of committed and uncommitted exposures, a bank may take a pro rata approach to determining the conversion factor for the securitization’s early amortization provision. If a pro rata approach is not feasible, a bank must treat the mixed securitization as a securitization of nonretail exposures if a single underlying exposure is a nonretail exposure and must treat the mixed securitization as a securitization of committed exposures if a single underlying exposure is a committed exposure.

(ii) To find the appropriate conversion factor in the tables, a bank must divide the three-month average annualized excess spread of the securitization by the excess spread trapping point in the securitization structure. In securitizations that do not require excess spread to be trapped, or that specify trapping points based primarily on performance measures other than the three-month average annualized excess spread, the excess spread trapping point is 4.5 percent.

(2) For a securitization for which all or substantially all of the underlying exposures are residential mortgage exposures, a bank may calculate the appropriate conversion factor using paragraph (c)(1) of this section or may use a conversion factor of 10 percent. If the bank chooses to use a conversion factor of 10 percent, it must use that conversion factor for all securitizations for which all or substantially all of the underlying exposures are residential mortgage exposures.

**PART VI. RISK-WEIGHTED ASSETS FOR EQUITY EXPOSURES**

**Section 51. Introduction and Exposure Measurement**

(a) General. To calculate its risk-weighted asset amounts for equity exposures that are not equity exposures to investment funds, a bank may apply either the Simple Risk Weight Approach (SRWA) in section 52 of this appendix or, if it qualifies to do so, the Internal Models Approach (IMA) in section 53 of this appendix. A bank must use the look-through approaches in section 54 of this appendix to calculate its risk-weighted asset amounts for equity exposures to investment funds.

(b) Adjusted carrying value. For purposes of this part, the adjusted carrying value of an equity exposure is:

1. For the on-balance sheet component of an equity exposure, the bank's carrying value of the exposure reduced by any unrealized gains on the exposure that are reflected in such carrying value but excluded from the bank’s tier 1 and tier 2 capital; and
2. For the off-balance sheet component of an equity exposure, the effective notional principal amount of the exposure, the size of which is equivalent to a hypothetical on-balance sheet position in the underlying equity instrument that would evidence the same change in fair value (measured in dollars) for a given small change in the price of the underlying equity instrument, minus the adjusted carrying value of the on-balance sheet component of the exposure as calculated in paragraph (b)(1) of this section. For unfunded equity commitments that are unconditional, the effective notional principal amount is the notional amount of the commitment. For unfunded equity commitments that are conditional, the effective notional principal amount is the bank’s best estimate of the amount that would be funded under economic downturn conditions.

**Section 52. Simple Risk Weight Approach (SRWA)**

(a) General. Under the SRWA, a bank’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of the risk-weighted asset amounts for each of the bank’s individual equity exposures (other than equity exposures to an investment fund) as determined in this section and the risk-weighted asset amounts for each of the bank’s individual equity exposures to an investment fund as determined in section 54 of this appendix.

(b) SRWA computation for individual equity exposures. A bank must determine the risk-weighted asset amount for an individual equity exposure (other than an equity exposure to an investment fund) by multiplying the adjusted carrying value of the equity exposure or the effective portion and ineffective
portion of a hedge pair (as defined in paragraph (c) of this section) by the lowest applicable risk weight in this paragraph (b).

1. 6 percent risk weight equity exposures. An equity exposure to a small business investment company whose equity exposures are exempt from the 0.03 percent PD floor in paragraph (d)(2) of section 31 of this appendix is assigned a 0 percent risk weight.

2. 20 percent risk weight equity exposures. An equity exposure to a Federal Home Loan Bank or Farmer Mac is assigned a 20 percent risk weight.

3. 100 percent risk weight equity exposures. The following equity exposures are assigned a 100 percent risk weight:

(B) Effective portion of hedge pairs. The effective portion of a hedge pair.

(C) Non-significant equity exposures. Equity exposures, excluding exposures to an investment firm that would meet the definition of a traditional securitization were it not for the FDIC’s application of paragraph (8) of that definition and has greater than immaterial leverage, to the extent that the aggregate adjusted carrying value of the exposures does not exceed 10 percent of the bank’s tier 1 capital plus tier 2 capital.

(A) To compute the aggregate adjusted carrying value of a bank’s equity exposures for purposes of this paragraph (b)(3)(i), the bank may exclude equity exposures described in paragraphs (b)(1), (b)(2), (b)(3)(i), and (b)(3)(ii) of this section, the equity exposure in a hedge pair with the smaller adjusted carrying value, and a proportion of each equity exposure to an investment fund equal to the proportion of the assets of the investment fund that are not equity exposures or that meet the criterion of paragraph (b)(3)(i) of this section. If a bank does not know the actual holdings of the investment fund, the bank may calculate the proportion of the assets of the fund that are not equity exposures based on the terms of the prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. If the sum of the investment limits for all exposure classes within the fund exceeds 100 percent, the bank must assume for purposes of this paragraph (b)(3)(i) that the investment fund invests to the maximum extent possible in equity exposures.

(B) When determining which of a bank’s equity exposures qualify for a 100 percent risk weight under this paragraph, a bank first must include equity exposures to unconsolidated small business investment companies or held through consolidated small business investment companies described in section 302 of the Small Business Investment Act of 1958 (15 U.S.C. 682), then must include publicly traded equity exposures (including those held indirectly through investment funds), and then must include non-publicly traded equity exposures (including those held indirectly through investment funds).

4. 300 percent risk weight equity exposures. A publicly traded equity exposure (other than an equity exposure described in paragraph (b)(6) of this section and including the ineffective portion of a hedge pair) is assigned a 300 percent risk weight.

5. 400 percent risk weight equity exposures. An equity exposure (other than an equity exposure described in paragraph (b)(6) of this section) that is not publicly traded is assigned a 400 percent risk weight.

6. 500 percent risk weight equity exposures. An equity exposure to an investment firm that:

(A) Would meet the definition of a traditional securitization were it not for the FDIC’s application of paragraph (8) of that definition; and

(B) Has greater than immaterial leverage is assigned a 500 percent risk weight.

(c) Hedge transactions—(1) Hedge pair. A hedge pair is two equity exposures that form an effective hedge so long as each equity exposure is publicly traded or has a return that is primarily based on a publicly traded equity exposure.

(2) Effective hedge. Two equity exposures form an effective hedge if the exposures either have the same remaining maturity or each has a remaining maturity of at least three months; the hedge relationship is formally documented in a prospective manner (that is, before the bank acquires at least one of the equity exposures); the documentation specifies the measure of effectiveness (E) the bank will use for the hedge relationship throughout the life of the transaction; and the hedge relationship has an E greater than or equal to 0.8. A bank must measure E at least quarterly and must use one of three alternative measures of E:

(i) Under the dollar-offset method of measuring effectiveness, the bank must determine the ratio of value change (RVC). The RVC is the ratio of the cumulative sum of the periodic changes in value of one equity exposure to the cumulative sum of the periodic changes in the value of the other equity exposure. If RVC is positive, the hedge is effective and E equals 0. If RVC is negative and greater than or equal to –1 (that is, between zero and –1), then E equals the absolute value of RVC. If RVC is negative and less than –1, then E equals 2 plus RVC.

(ii) Under the variability-reduction method of measuring effectiveness:
Federal Deposit Insurance Corporation
Pt. 325, App. D

(A) $X_t = A_t - B_t$.
(B) $A_t$ = the value at time t of one exposure in a hedge pair; and
(C) $B_t$ = the value at time t of the other exposure in a hedge pair.

(iii) Under the regression method of measuring effectiveness, $E$ equals the coefficient of determination of a regression in which the change in value of one exposure in a hedge pair is the dependent variable and the change in value of the other exposure in a hedge pair is the independent variable. However, if the estimated regression coefficient is positive, then the value of $E$ is zero.

(3) The effective portion of a hedge pair is $E$ multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

(4) The ineffective portion of a hedge pair is $(1 - E)$ multiplied by the greater of the adjusted carrying values of the equity exposures forming a hedge pair.

Section 53. Internal Models Approach (IMA)

(a) General. A bank may calculate its risk-weighted asset amount for equity exposures using the IMA by modeling publicly traded and non-publicly traded equity exposures (in accordance with paragraph (c) of this section) or by modeling only publicly traded equity exposures (in accordance with paragraph (d) of this section).

(b) Qualifying criteria. To qualify to use the IMA to calculate risk-based capital requirements for equity exposures, a bank must receive prior written approval from the FDIC. To receive such approval, the bank must demonstrate to the FDIC’s satisfaction that the bank meets the following criteria:

(1) The bank must have one or more models that:
   (i) Assess the potential decline in value of its modeled equity exposures;
   (ii) Are commensurate with the size, complexity, and composition of the bank’s modeled equity exposures; and
   (iii) Adequately capture both general market risk and idiosyncratic risk.

(2) The bank’s model must produce an estimate of potential losses for its modeled equity exposures that is no less than the estimate of potential losses produced by a VaR methodology employing a 99.0 percent, one-tailed confidence interval of the distribution of quarterly returns for a benchmark portfolio of equity exposures comparable to the bank’s modeled equity exposures using a long-term sample period.

(3) The number of risk factors and exposures in the sample and the data period used for quantification in the bank’s model and benchmarking exercise must be sufficient to provide confidence in the accuracy and robustness of the bank’s estimates.

(4) The bank’s model and benchmarking process must incorporate data that are relevant in representing the risk profile of the bank’s modeled equity exposures, and must include data from at least one equity market cycle containing adverse market movements relevant to the risk profile of the bank’s modeled equity exposures. In addition, the bank’s benchmarking exercise must be based on daily market prices for the benchmark portfolio. If the bank’s model uses a scenario methodology, the bank must demonstrate that the model produces a conservative estimate of potential losses on the bank’s modeled equity exposures over a relevant long-term market cycle. If the bank employs risk factor models, the bank must demonstrate through empirical analysis the appropriateness of the risk factors used.

(5) The bank must be able to demonstrate, using theoretical arguments and empirical evidence, that any proxies used in the modeling process are comparable to the bank’s modeled equity exposures and that the bank has made appropriate adjustments for differences. The bank must derive any proxies for its modeled equity exposures and benchmark portfolio (or, where not, must use appropriately adjusted data), and such proxies must be robust estimates of the risk of the bank’s modeled equity exposures.

(c) Risk-weighted assets calculation for a bank modeling publicly traded and non-publicly traded equity exposures. If a bank models publicly traded and non-publicly traded equity exposures, the bank’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 (as determined under section 52 of this appendix) and each equity exposure to
an investment fund (as determined under section 54 of this appendix); and

(2) The greater of:

(i) The estimate of potential losses on the bank’s equity exposures (other than equity exposures referenced in paragraph (c)(1) of this section) generated by the bank’s internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the bank’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund;

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs; and

(C) 300 percent multiplied by the aggregate adjusted carrying value of the bank’s equity exposures that are not publicly traded, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund.

(d) Risk-weighted assets calculation for a bank using the IMA only for publicly traded equity exposures. If a bank models only publicly traded equity exposures, the bank’s aggregate risk-weighted asset amount for its equity exposures is equal to the sum of:

(1) The risk-weighted asset amount of each equity exposure that qualifies for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 (as determined under section 52 of this appendix), each equity exposure that qualifies for a 400 percent risk weight under paragraph (b)(5) of section 52 or a 600 percent risk weight under paragraph (b)(6) of section 52 (as determined under section 52 of this appendix), and each equity exposure to an investment fund (as determined under section 54 of this appendix); and

(2) The greater of:

(i) The estimate of potential losses on the bank’s equity exposures (other than equity exposures referenced in paragraph (d)(1) of this section) generated by the bank’s internal equity exposure model multiplied by 12.5; or

(ii) The sum of:

(A) 200 percent multiplied by the aggregate adjusted carrying value of the bank’s publicly traded equity exposures that do not belong to a hedge pair, do not qualify for a 0 percent, 20 percent, or 100 percent risk weight under paragraphs (b)(1) through (b)(3)(i) of section 52 of this appendix, and are not equity exposures to an investment fund; and

(B) 200 percent multiplied by the aggregate ineffective portion of all hedge pairs.

Section 54. Equity Exposures to Investment Funds

(a) Available approaches. (1) Unless the exposure meets the requirements for a community development equity exposure in paragraph (b)(3)(i) of section 52 of this appendix, a bank must determine the risk-weighted asset amount of an equity exposure to an investment fund under the Full Look-Through Approach in paragraph (b) of this section, the Simple Modified Look-Through Approach in paragraph (c) of this section, the Alternative Modified Look-Through Approach in paragraph (d) of this section, or, if the investment fund qualifies for the Money Market Fund Approach, the Money Market Fund Approach in paragraph (e) of this section.

(2) The risk-weighted asset amount of an equity exposure to an investment fund that meets the requirements for a community development equity exposure in paragraph (b)(3)(i) of section 52 of this appendix is its adjusted carrying value.

(3) If an equity exposure to an investment fund is part of a hedge pair and the bank does not use the Full Look-Through Approach, the bank may use the ineffective portion of the hedge pair as determined under paragraph (c) of section 52 of this appendix as the adjusted carrying value for the equity exposure to the investment fund. The risk-weighted asset amount of the effective portion of the hedge pair is equal to its adjusted carrying value.

(b) Full Look-Through Approach. A bank that is able to calculate a risk-weighted asset amount for its proportional ownership share of each exposure held by the investment fund (as calculated under this appendix as if the proportional ownership share of each exposure were held directly by the bank) may either:

(1) Set the risk-weighted asset amount of the bank’s exposure to the fund equal to the product of:

(i) The aggregate risk-weighted asset amounts of the exposures held by the fund as if they were held directly by the bank; and

(ii) The bank’s proportional ownership share of the fund; or

(2) Include the bank’s proportional ownership share of each exposure held by the fund in the bank’s IMA.

(c) Simple Modified Look-Through Approach. Under this approach, the risk-weighted asset amount for a bank’s equity exposure to an investment fund equals the adjusted carrying value of the equity exposure multiplied by the highest risk weight in Table 10 that applies to any exposure the fund is permitted to hold under its prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments (excluding derivative contracts that are used for hedging rather than speculative purposes.)
and that do not constitute a material portion of the fund’s exposures).

<td>1,250 percent</td>
<td>OTC derivative contracts and exposures that must be deducted from regulatory capital or receive a risk weight greater than 400 percent under this appendix.</td>
</tr>
</tbody>
</table>

(d) Alternative Modified Look-Through Approach. Under this approach, a bank may assign the adjusted carrying value of an equity exposure to an investment fund on a pro rata basis to different risk weight categories in Table 10 based on the investment limits in the fund’s prospectus, partnership agreement, or similar contract that defines the fund’s permissible investments. The risk-weighted asset amount for the bank’s equity exposure to the investment fund equals the sum of each portion of the adjusted carrying value assigned to an exposure class multiplied by the applicable risk weight. If the sum of the investment limits for exposure classes within the fund exceeds 100 percent, the bank must assume that the fund invests to the maximum extent permitted under its investment limits in the exposure class with the highest risk weight under Table 10, and continues to make investments in order of the exposure class with the next highest risk weight under Table 10 until the maximum total investment level is reached. If more than one exposure class applies to an exposure, the bank must use the highest applicable risk weight. A bank may exclude derivative contracts held by the fund that are used for hedging rather than for speculative purposes and do not constitute a material portion of the fund’s exposures.

(e) Money Market Fund Approach. The risk-weighted asset amount for a bank’s equity exposure to an investment fund that is a money market fund subject to 17 CFR 270.2a–7 and that has an applicable external rating in the highest investment-grade rating category equals the adjusted carrying value of the equity exposure multiplied by 7 percent.

Section 55. Equity Derivative Contracts

Under the IMA, in addition to holding risk-based capital against an equity derivative contract under this part, a bank must hold risk-based capital against the counterparty credit risk in the equity derivative contract by also treating the equity derivative contract as a wholesale exposure and computing a supplemental risk-weighted asset amount for the contract under part IV. Under the SRWA, a bank may choose not to hold risk-based capital against the counterparty credit risk of equity derivative contracts, as long as it does so for all such contracts. Where the equity derivative contracts are subject to a qualified master netting agreement, a bank using the SRWA must either include all or exclude all of the contracts from any measure used to determine counterparty credit risk exposure.

PART VII. RISK-WEIGHTED ASSETS FOR OPERATIONAL RISK

Section 61. Qualification Requirements for Incorporation of Operational Risk Mitigants

(a) Qualification to use operational risk mitigants. A bank may adjust its estimate of operational risk exposure to reflect qualifying operational risk mitigants if:

(1) The bank’s operational risk quantification system is able to generate an estimate of the bank’s operational risk exposure (which does not incorporate qualifying operational risk mitigants) and an estimate of...
the bank’s operational risk exposure adjusted to incorporate qualifying operational risk mitigants; and

(2) The bank’s methodology for incorporating the effects of insurance, if the bank uses insurance as an operational risk mitigant, captures through appropriate discounts to the amount of risk mitigation:

(i) The residual term of the policy, where less than one year;

(ii) The cancellation terms of the policy, where less than one year;

(iii) The policy’s timeliness of payment; and

(iv) The uncertainty of payment by the provider of the policy; and

(v) Mismatches in coverage between the policy and the hedged operational loss event.

(b) Qualifying operational risk mitigants. Qualifying operational risk mitigants are:

(i) Insurance that:

(A) Is provided by an unaffiliated company that has a claims payment ability that is rated in one of the three highest rating categories by a NRSRO;

(B) Has an initial term of at least one year and a residual term of more than 90 days;

(C) Has a minimum notice period for cancellation by the provider of 90 days;

(D) Has no exclusions or limitations based upon regulatory action or for the receiver or liquidator of a failed depository institution; and

(E) Is explicitly mapped to a potential operational loss event; and

(2) Operational risk mitigants other than insurance for which the FDIC has given prior written approval. In evaluating an operational risk mitigant other than insurance, the FDIC will consider whether the operational risk mitigant covers potential operational losses in a manner equivalent to holding regulatory capital.

Section 62. Mechanics of Risk-Weighted Asset Calculation

(a) If a bank does not qualify to use or does not have qualifying operational risk mitigants, the bank’s dollar risk-based capital requirement for operational risk is its operational risk exposure minus eligible operational risk offsets (if any).

(b) If a bank qualifies to use operational risk mitigants and has qualifying operational risk mitigants, the bank’s dollar risk-based capital requirement for operational risk is the greater of:
