1. WILD AND SCENIC RIVERS ACT (AND RELATED LAWS)
   [As Amended Through Public Law 106–580, December 31, 2000]
A. WILD AND SCENIC RIVERS ACT

(Public Law 90–542; Approved October 2, 1968)

AN ACT To provide a National Wild and Scenic Rivers System, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That [16 U.S.C. 1271] (a) this Act may be cited as the “Wild and Scenic Rivers Act”.

(b) It is hereby declared to be the policy of the United States that certain selected rivers of the Nation which, with their immediate environments, possess outstandingly remarkable scenic recreational, geologic fish and wildlife, historic, cultural or other similar values, shall be preserved in free-flowing condition, and that they and their immediate environments shall be protected for the benefit and enjoyment of present and future generations. The Congress declares that the established national policy of dam and other construction at appropriate sections of the rivers of the United States needs to be complemented by a policy that would preserve other selected rivers or sections thereof in their free-flowing condition to protect the water quality of such rivers and to fulfill other vital national conservation purposes.

(c) [16 U.S.C. 1272] The purpose of this Act is to implement this policy by instituting a national wild and scenic rivers system, by designating the initial components with that system and by prescribing the methods by which and standards according to which additional components may be added to the system from time to time.

SEC. 2. [16 U.S.C. 1273] (a) The national wild and scenic rivers system shall comprise rivers (i) that are authorized for inclusion therein by Act of Congress, or (ii) that are designated as wild, scenic or recreational rivers by or pursuant to an act of the legislature of the State or States through which they flow, that are to be permanently administered as wild, scenic or recreational rivers by an agency or political subdivision of the State or States concerned, that are found by the Secretary of the Interior, upon application of the Governor of the State or the Governors of the States concerned, or a person or persons thereunto duly appointed by him or them, to meet the criteria established in this Act and such criteria supplementary thereto as he may prescribe, and that are approved by him for inclusion in the system, including, upon application of the Governor of the State concerned, the Allagash Wilderness Waterway, Maine; that segment of the Wolf River, Wisconsin, which flows through Langlade County and that segment of the New River in North Carolina extending from its confluence with Dog Creek
downstream approximately 26.5 miles to the Virginia State line. Upon receipt of an application under clause (ii) of this subsection, the Secretary shall notify the Federal Energy Regulatory Commission and publish such application in the Federal Register. Each river designated under clause (ii) shall be administered by the State or political subdivision thereof without expense to the United States other than for administration and management of federally owned lands. For purposes of the preceding sentence, amounts made available to any State or political subdivision under the Land and Water Conservation Act of 1965 or any other provision of law shall not be treated as an expense to the United States. Nothing in this subsection shall be construed to provide for the transfer to, or administration by, a State or local authority of any federally owned lands which are within the boundaries of any river included within the system under clause (ii).

(b) A wild, scenic or recreational river area eligible to be included in the system is a free-flowing stream and the related adjacent land area that possesses one or more of the values referred to in section 1, subsection (b) of this Act. Every wild, scenic or recreational river in its free-flowing condition, or upon restoration to this condition, shall be considered eligible for inclusion in the national wild and scenic rivers system and, if included, shall be classified, designated, and administered as one of the following:

(1) Wild river areas—Those rivers or sections of rivers that are free of impoundments and generally inaccessible except by trail, with watersheds or shorelines essentially primitive and waters unpolluted. These represent vestiges of primitive America.

(2) Scenic river areas—Those rivers or sections of rivers that are free of impoundments, with shorelines or watersheds still largely primitive and shorelines largely undeveloped, but accessible in places by roads.

(3) Recreational river areas—Those rivers or sections of rivers that are readily accessible by road or railroad, that may have some development along their shorelines, and that may have undergone some impoundment or diversion in the past.

Said agreement may also include provision for State or local governmental participation as authorized under subsection (e) of section 10 of this Act. Such segment shall be administered as a recreational river by the Secretary. The Secretary shall enter into a written cooperative agreement with the Secretary of the Army (acting through the Chief of Engineers) for construction and maintenance of bank stabilization work and appropriate recreational development. After public notice and consultation with the State and local governments, other interested organizations and associations, and the interested public, the Secretary shall take such action, as is required pursuant to subsection (b) within one year from the date of enactment of this section. In administering such river, the Secretary shall, to the extent, and in a manner, consistent with this section—

The Secretary of the Army (acting through the Chief of Engineers) shall condition the construction or maintenance of any streambank stabilization structure or of any recreational river feature at any site under subparagraph (A)(i) upon the availability to the United States of such land and interests in land in such ownership as he deems necessary to carry out such construction or maintenance and to protect and enhance the river in accordance with the purposes of this Act. Administration of the river segment designated by this paragraph shall be in coordination with, and pursuant to the advice of a Recreational River Advisory Group which shall be established by the Secretary. Such Group may include in its membership, representatives of the affected States and political subdivisions thereof, affected Federal agencies, and such organized private groups as the Secretary deems desirable. [16 U.S.C. 1275] (a) The Secretary of the Interior or, where national forest lands are involved, the Secretary of Agriculture or, in appropriate cases, the two Secretaries jointly shall study and submit to the President reports on the suitability or nonsuitability for addition to the national wild and scenic rivers system of rivers which are designated herein or hereafter by the Congress as potential additions to such system. The President shall report to the Congress his recommendations and proposals with respect to the designation of each such river or section thereof under this Act. Such studies shall be completed and such reports shall be made to the Congress with respect to all rivers named in subparagraphs 5(a) (1) through (27) of this Act no later than October 2, 1978. In conducting these studies the Secretary of the Interior and the Secretary of Agriculture shall give priority to those rivers (i) with respect to which there is the greatest likelihood of developments which, if undertaken, would render the rivers unsuitable for inclusion in the national wild and scenic rivers system, and (ii) which possess the greatest proportion of private lands within their areas. Every such study and plan shall be coordinated with any water resources planning involving the same river which is being conducted pursuant to the Water Resources Planning Act (79 Stat. 244; 42 U.S.C. 1962 et seq.).

Each report, including maps and illustrations, shall show among other things the area included within the report; the characteristics which do or do not make the area a worthy addition to the system; the current status of land ownership and use in the area; the reasonably foreseeable potential uses of the land and water which would be enhanced, foreclosed, or curtailed if the area were included in the national wild and scenic rivers system; the Federal
agency (which in the case of a river which is wholly or substantially within a national forest, shall be the Department of Agriculture) by which it is proposed the area, should it be added to the system, be administered; the extent to which it is proposed that such administration, including the costs thereof, be shared by State and local agencies; and the estimated cost to the United States of acquiring necessary lands and interests in land and of administering the area, should it be added to the system. Each such report shall be printed as a Senate or House document.

(b) Before submitting any such report to the President and the Congress, copies of the proposed report shall, unless it was prepared jointly by the Secretary of the Interior and the Secretary of Agriculture, be submitted by the Secretary of the Interior to the Secretary of Agriculture or by the Secretary of Agriculture to the Secretary of the Interior, as the case may be, and to the Secretary of the Army, the Chairman of the Federal Power Commission, the head of any other affected Federal department or agency and, unless the lands proposed to be included in the area are already owned by the United States or have already been authorized for acquisition by Act of Congress, the Governor of the State or States in which they are located or an officer designated by the Governor to receive the same. Any recommendations or comments on the proposal which the said officials furnish the Secretary or Secretaries who prepared the report within ninety days of the date on which the report is submitted to them, together with the Secretary's or Secretaries' comments thereon, shall be included with the transmittal to the President and the Congress.

(c) Before approving or disapproving for inclusion in the national wild and scenic rivers system any river designated as a wild, scenic or recreational river by or pursuant to an act of a State legislature, the Secretary of the Interior shall submit the proposal to the Secretary of Agriculture, the Secretary of the Army, the Chairman of the Federal Power Commission, and the head of any other affected Federal department or agency and shall evaluate and give due weight to any recommendations or comments which the said officials furnish him within ninety days of the date on which it is submitted to them. If he approves the proposed inclusion, he shall publish notice thereof in the Federal Register.

(d) The boundaries of any river proposed in section 5(a) of this Act for potential addition to the National Wild and Scenic Rivers System shall generally comprise that area measured within one-quarter mile from the ordinary high water mark on each side of the river. In the case of any designated river, prior to publication of boundaries pursuant to section 3(b) of this Act, the boundaries also shall comprise the same area. This subsection shall not be construed to limit the possible scope of the study report to address areas which may lie more than one-quarter mile from the ordinary high water mark on each side of the river.

(d)(1) In all planning for the use and development of water and related land resources, consideration shall be given by all Federal agencies involved to potential national wild, scenic and recreational river areas, and all river basin and project plan reports submitted to the Congress shall consider and discuss any such potentials. The Secretary of the Interior and the Secretary of Agriculture shall make specific studies and investigations to determine which additional wild, scenic and recreational river areas within the United States shall be evaluated in planning reports by all Federal agencies as potential alternative uses of the water and related land resources involved.
(2) The Congress finds that the Secretary of the Interior, in preparing the Nationwide Rivers Inventory as a specific study for possible additions to the National Wild and Scenic Rivers System, identified the Upper Klamath River from below

the John Boyle Dam to the Oregon-California State line. The Secretary, acting through the Bureau of Land Management, is authorized under this subsection to complete a study of the eligibility and suitability of such segment for potential addition to the National Wild and Scenic Rivers System. Such study shall be completed, and a report containing the results of the study shall be submitted to Congress by April 1, 1990. Nothing in this paragraph shall affect the authority or responsibilities of any other Federal agency with respect to activities or actions on this segment and its immediate environment.

SEC. 6. [16 U.S.C. 1277] (a)(1) The Secretary of the Interior and the Secretary of Agriculture are each authorized to acquire lands and interests in land within the authorized boundaries of any component of the national wild and scenic rivers system designated in section 3 of this Act, or hereafter designated for inclusion in the system by Act of Congress, which is administered by him, but he shall not acquire fee title to an average of more than 100 acres per mile on both sides of the river. Lands owned by a State may be acquired only by donation or by exchange in accordance with subsection (d) of this section. Lands owned by an Indian tribe or a political subdivision of a State may not be acquired without the consent of the appropriate governing body thereof as long as the Indian tribe or political subdivision is following a plan for management and protection of the lands which the Secretary finds protects the land and assures its use for purposes consistent with this Act. Money appropriated for Federal purposes from the land and water conservation fund shall, without prejudice to the use of appropriations from other sources, be available to Federal departments and agencies for the acquisition of property for the purposes of this Act.

(2) When a tract of land lies partially within and partially outside the boundaries of a component of the National Wild and Scenic Rivers System, the appropriate Secretary may, with the consent of the landowners for the portion outside the boundaries, acquire the entire tract. The land or interest therein so acquired outside the boundaries shall not be counted against the average one-hundred-acre-per-mile fee title limitation of subsection (a)(1). The lands or interests therein outside such boundaries, shall be disposed of, consistent with existing authorities of law, by sale, lease, or exchange.

(b) If 50 per centum or more of the entire acreage outside the ordinary high water mark on both sides of the river within a federally administered wild, scenic or recreational river area is owned in fee title by the United States, by the State or States within which it lies, or by political subdivisions of those States, neither Secretary shall acquire fee title to any lands by condemnation under authority of this Act. Nothing contained in this section, however, shall preclude the use of condemnation when necessary to clear title or to acquire scenic easements or such other easements as are reasonably necessary to give the public access to the river and to permit its members to traverse the length of the area or of selected segments thereof.

(c) Neither the Secretary of the Interior nor the Secretary of Agriculture may acquire lands by condemnation, for the purpose of including such lands in any national wild, scenic or recreational river area, if such lands are located within any incorporated city,
village, or borough which has in force and applicable to such lands a duly adopted, valid zoning ordinance that conforms with the purposes of this Act. In order to carry out the provisions of this subsection the appropriate Secretary shall issue guidelines, specifying standards for local zoning ordinances, which are consistent with the purposes of this Act. The standards specified in such guidelines shall have the object of (A) prohibiting new commercial or industrial uses other than commercial or industrial uses which are consistent with the purposes of this Act, and (B) the protection of the bank lands by means of acreage, frontage, and setback requirements on development.

(d) The appropriate Secretary is authorized to accept title to non-Federal property within the authorized boundaries of any federally administered component of the national wild and scenic rivers system designated in section 3 of this Act or hereafter designated for inclusion in the system by Act of Congress and, in exchange therefor, convey to the grantor any federally owned property which is under his jurisdiction within the State in which the component lies and which he classifies as suitable for exchange or other disposal. The values of the properties so exchanged either shall be approximately equal or, if they are not approximately equal, shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require.

(e) The head of any Federal department or agency having administrative jurisdiction over any lands or interests in land within the authorized boundaries of any federally administered component of the national wild and scenic rivers system designated in section 3 of this Act or hereafter designated for inclusion in the system by Act of Congress is authorized to transfer to the appropriate Secretary jurisdiction over such lands for administration in accordance with the provisions of this Act. Lands acquired by or transferred to the Secretary of Agriculture for the purposes of this Act within or adjacent to a national forest shall upon such acquisition or transfer become national forest lands.

(f) The appropriate Secretary is authorized to accept donations of lands and interests in land, funds, and other property for use in connection with his administration of the national wild and scenic rivers system.

(g)(1) Any owner or owners (hereinafter in this subsection referred to as “owner”) of improved property on the date of its acquisition, may retain for themselves and their successors or assigns a right of use and occupancy of the improved property for non-commercial residential purposes for a definite term not to exceed twenty-five years or, in lieu thereof, for a term ending at the death of the owner, or the death of his spouse, or the death of either or both of them. The owner shall elect the term to be reserved. The appropriate Secretary shall pay to the owner the fair market value of the property on the date of such acquisition less the fair market value on such date of the right retained by the owner.

(2) A right of use and occupancy retained pursuant to this subsection shall be subject to termination whenever the appropriate Secretary is given reasonable cause to find that such use and occupancy is being exercised in a manner which conflicts with the purposes of this Act. In the event of such a finding, the Secretary shall tender to the holder of that right an amount equal to the fair mar-

ket value of that portion of the right which remains unexpired on the date of termination. Such right of use or occupancy shall terminate by operation of law upon tender of the fair market price.

(3) The term “improved property”, as used in this Act, means a detached, one-family dwelling (hereinafter referred to as “dwelling”), the construction of which was begun before January 1, 1967, (except where a different date is specifically provided by law with respect to any particular river), together with so much of the land on which the dwelling is situated, the said land being in the same ownership as the dwelling, as the appropriate Secretary shall designate to be reasonably necessary for the enjoyment of the dwelling for the sole purpose of noncommercial residential use, together with any structures accessory to the dwelling which are situated on the land so designated.

SEC. 7. [16 U.S.C. 1278] (a) The Federal Power Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (41 Stat. 1063), as amended (16 U.S.C. 791a et seq.), on or directly affecting any river which is designated in section 3 of this Act as a component of the national wild and scenic rivers system or which is hereafter designated for inclusion in that system, and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which such river was established, as determined by the Secretary charged with its administration. Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments below or above a wild, scenic or recreational river area or on any stream tributary thereto which will not invade the area or unreasonably diminish the scenic, recreational, and fish and wildlife values present in the area on the date of designation of a river as a component of the National Wild and Scenic Rivers System. No department or agency of the United States shall recommend authorization of any water resources project that would have a direct and adverse effect on the values for which such river was established, as determined by the Secretary charged with its administration, or request appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without advising the Secretary of the Interior or the Secretary of Agriculture, as the case may be, in writing of its intention so to do at least sixty days in advance, and without specifically reporting to the Congress in writing at the time it makes its recommendation or request in what respect construction of such project would be in conflict with the purposes of this Act and would affect the component and the values to be protected by it under this Act. Any license heretofore or hereafter issued by the Federal Power Commission affecting the New River of North Carolina shall continue to be effective only for that portion of the river which is not included in the National Wild and Scenic Rivers System pursuant to section 2 of this Act and no project or undertaking so licensed shall be permitted to invade, inundate or otherwise adversely affect such river segment.

(b) The Federal Power Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, trans-
mission line, or other project works under the Federal Power Act, as amended, on or directly affecting any river which is listed in section 5, subsection (a), of this Act, and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which such river might be designated, as determined by the Secretary responsible for its study or approval—

(i) during the ten-year period following enactment of this Act or for a three complete fiscal year period following any Act of Congress designating any river for potential addition to the national wild and scenic rivers system, whichever is later, unless, prior to the expiration of the relevant period, the Secretary of the Interior and, where national forest lands are involved, the Secretary of Agriculture, on the basis of study, determine that such river should not be included in the national wild and scenic rivers system and notify the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives, in writing, including a copy of the study upon which the determination was made, at least one hundred and eighty days while Congress is in session prior to publishing notice to that effect in the Federal Register: Provided, That if any Act designating any river or rivers for potential addition to the national wild and scenic rivers system provides a period for the study or studies which exceeds such three complete fiscal year period the period provided for in such Act shall be substituted for the three complete fiscal year period in the provisions of this clause (i); and

(ii) during such interim period from the date a report is due and the time a report is actually submitted to the Congress; and

(iii) during such additional period thereafter as, in the case of any river the report for which is submitted to the President and the Congress for inclusion in the national wild and scenic rivers system, is necessary for congressional consideration thereof or, in the case of any river recommended to the Secretary of the Interior under section 2(a)(ii) of this Act, is necessary for the secretary’s consideration thereof, which additional period, however, shall not exceed three years in the first case and one year in the second.

Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments below or above a potential wild, scenic or recreational river area or on any stream tributary thereto which will not invade the area or diminish the scenic, recreational, and fish and wildlife values present in the potential wild, scenic or recreational river area on the date of designation of a river for study as provided for in section 5 of this Act. No department or agency of the United State shall, during the periods hereinbefore specified, recommend authorization of any water resources project on any such river or request appropriations to begin construction of any such project, whether heretofore or hereafter authorized, without advising the Secretary of the Interior and, where national forest lands are involved, the Secretary of Agriculture in writing of its intention so to do at least sixty days in
advance of doing so and without specifically reporting to the Congress in writing at the time it makes its recommendation or request in what respect construction of such project would be in conflict with the purposes of this Act and would affect the component and the values to be protected by it under this Act.

(c) The Federal Power Commission and all other Federal agencies shall, promptly upon enactment of this Act, inform the Secretary of the Interior and, where national forest lands are involved, the Secretary of Agriculture, of any proceedings, studies, or other activities within their jurisdiction which are now in progress and which affect or may affect any of the rivers specified in section 5, subsection (a), of this Act. They shall likewise inform him of any such proceedings, studies, or other activities which are hereafter commenced or resumed before they are commenced or resumed.

(d) Nothing in this section with respect to the making of a loan or grant shall apply to grants made under the Land and Water Conservation Fund Act of 1965 (78 Stat. 897; 16 U.S.C. 4601–5 et seq.).

SEC. 8. [16 U.S.C. 1279] (a) All public lands within the authorized boundaries of any component of the national wild and scenic rivers system which is designated in section 3 of this Act or which is hereafter designated for inclusion in that system are hereby withdrawn from entry, sale, or other disposition under the public land laws of the United States. This subsection shall not be construed to limit the authorities granted in section 6(d) or section 14A of this Act.

(b) All public lands which constitute the bed or bank, or are within one-quarter mile of the bank, of any river which is listed in section 5, subsection (a), of this Act are hereby withdrawn from entry, sale, or other disposition under the public land laws of the United States for the periods specified in section 7(b), subsection (b), of this Act. Notwithstanding the foregoing provisions of this subsection or any other provision of this Act, subject only to valid existing rights, including valid Native selection rights under the Alaska Native Claims Settlement Act, all public lands which constitute the bed or bank, or are within an area extending two miles from the bank of the river channel on both sides of the river segments referred to in paragraphs (77) through (88) of section 5(a) are hereby withdrawn from entry, sale, State selection or other disposition under the public land laws of the United States for the periods specified in section 7(b) of this Act.

SEC. 9. [16 U.S.C. 1280] (a) Nothing in this Act shall affect the applicability of the United States mining and mineral leasing laws within components of the national wild and scenic rivers system except that—

(i) all prospecting, mining operations, and other activities on mining claims which, in the case of a component of the system designated in section 3 of this Act, have not heretofore been perfected or which, in the case of a component hereafter designated pursuant to this Act or any other Act of Congress,
are not perfected before its inclusion in the system and all mining operations and other activities under a mineral lease, license, or permit issued or renewed after inclusion of a component in the system shall be subject to such regulations as the Secretary of the Interior or, in the case of national forest lands, the Secretary of Agriculture may prescribe to effectuate the purposes of this Act;

(ii) subject to valid existing rights, the perfection of, or issuance of a patent to, any mining claim affecting lands within the system shall confer or convey a right or title only to the mineral deposits and such rights only to the use of the surface and the surface resources as are reasonably required to carrying on prospecting or mining operations and are consistent with such regulations as may be prescribed by the Secretary of the Interior or, in the case of national forest lands, by the Secretary of Agriculture; and

(iii) subject to valid existing rights, the minerals in Federal lands which are part of the system and constitute the bed or bank or are situated within one-quarter mile of the bank of any river designated a wild river under this Act or any subsequent Act are hereby withdrawn from all forms of appropriation under the mining laws and from operation of the mineral leasing laws including, in both cases, amendments thereto.

Regulations issued pursuant to paragraphs (i) and (ii) of this subsection shall, among other things, provide safeguards against pollution of the river involved and unnecessary impairment of the scenery within the components in question.

(b) The minerals in any Federal lands which constitute the bed or bank or are situated within one-quarter mile of the bank of any river which is listed in section 5, subsection (a) of this Act are hereby withdrawn from all forms of appropriation under the mining laws during the periods specified in section 7, subsection (b) of this Act. Nothing contained in this subsection shall be construed to forbid prospecting or the issuance of leases, licenses, and permits under the mineral leasing laws subject to such conditions as the Secretary of the Interior and, in the case of national forest lands, the Secretary of Agriculture find appropriate to safeguard the area in the event it is subsequently included in the system. Notwithstanding the foregoing provisions of this subsection or any other provision of this Act, all public lands which constitute the bed or bank, or are within an area extending two miles from the bank of the river channel on both sides of the river segments referred to in paragraphs (77) through (88) of section 5(a), are hereby withdrawn, subject to valid existing rights, from all forms of appropriation under the mining laws and from operation of the mineral leasing laws including, in both cases, amendments thereto, during the periods specified in section 7(b) of this Act.

Sec. 10. [16 U.S.C. 1281] (a) Each component of the national wild and scenic rivers system shall be administered in such manner as to protect and enhance the values which caused it to be included in said system without, insofar as is consistent therewith, limiting other uses that do not substantially interfere with public use and enjoyment of these values. In such administration primary emphasis shall be given to protecting its esthetic, scenic, historic
archeologic, and scientific features. Management plans for any such component may establish varying degrees of intensity for its protection and development, based on the special attributes of the area.

(b) Any portion of a component of the national wild and scenic rivers system that is within the national wilderness preservation system, as established by or pursuant to the Act of September 3, 1964 (78 Stat. 890; 16 U.S.C., ch. 23), 1 shall be subject to the provisions of both the Wilderness Act and this Act with respect to preservation of such river and its immediate environment, and in case of conflict between the provisions of these Acts the more restrictive provisions shall apply.

(c) Any component of the national wild and scenic rivers system that is administered by the Secretary of the Interior through the National Park Service shall become a part of the national park system, and any such component that is administered by the Secretary through the Fish and Wildlife Service shall become a part of the national wildlife refuge system. The lands involved shall be subject to the provisions of this Act and the Acts under which the national park system or national wildlife system, as the case may be, is administered, and in case of conflict between the provisions of these Acts, the more restrictive provisions shall apply. The Secretary of the Interior, in his administration of any component of the national wild and scenic rivers system, may utilize such general statutory authorities relating to areas of the national park system and such general statutory authorities otherwise available to him for recreation and preservation purposes and for the conservation and management of natural resources as he deems appropriate to carry out the purposes of this Act.

(d) The Secretary of Agriculture, in his administration of any component of the national wild and scenic rivers system area, may utilize the general statutory authorities relating to the national forests in such manner as he deems appropriate to carry out the purposes of this Act.

(e) The Federal agency charged with the administration of any component of the national wild and scenic rivers system may enter into written cooperative agreements with the Governor of a State, the head of any State agency, or the appropriate official of a political subdivision of a State for State or local governmental participation in the administration of the component. The States and their political subdivisions shall be encouraged to cooperate in the planning and administration of components of the system which include or adjoin State- or county-owned lands.

Sec. 11. [16 U.S.C. 1282] (a) The Secretary of the Interior shall encourage and assist the States to consider, in formulating and carrying out their comprehensive statewide outdoor recreation plans and proposals for financing assistance for State and local projects submitted pursuant to the Land and Water Conservation Fund Act of 1965 (78 Stat. 897), needs and opportunities for establishing State and local wild, scenic and recreational river areas.

(b)(1) The Secretary of the Interior, the Secretary of Agriculture, or the head of any other Federal agency, shall assist, advise, and cooperate with States or their political subdivisions, land-

owners, private organizations, or individuals to plan, protect, and manage river resources. Such assistance, advice, and cooperation may be through written agreements or otherwise. This authority applies within or outside a federally administered area and applies to rivers which are components of the National Wild and Scenic Rivers System and to other rivers. Any agreement under this subsection may include provisions for limited financial or other assistance to encourage participation in the acquisition, protection, and management of river resources.

(2) Wherever appropriate in furtherance of this Act, the Secretary of Agriculture and the Secretary of the Interior are authorized and encouraged to utilize the following:

(B) For activities on all other lands, section 6 of the Land and Water Conservation Fund Act of 1965 (relating to the development of statewide comprehensive outdoor recreation plans).

(3) For purposes of this subsection, the appropriate Secretary or the head of any Federal agency may utilize and make available Federal facilities, equipment, tools and technical assistance to volunteers and volunteer organizations, subject to such limitations and restrictions as the appropriate Secretary or the head of any Federal agency deems necessary or desirable.

(4) No permit or other authorization provided for under provision of any other Federal law shall be conditioned on the existence of any agreement provided for in this section.

SEC. 12. [16 U.S.C. 1283] (a) The Secretary of the Interior, the Secretary of Agriculture, and the head of any other Federal department or agency having jurisdiction over any lands which include, border upon, or are adjacent to, any river included within the National Wild and Scenic Rivers System or under consideration for such inclusion, in accordance with section 2(a)(ii), 3(a), or 5(a), shall take such action respecting management policies, regulations, contracts, plans, affecting such lands, following the date of enactment of this sentence, as may be necessary to protect such rivers in accordance with the purposes of this Act. Such Secretary or other department or agency head shall, where appropriate, enter into written cooperative agreements with the appropriate State or local official for the planning, administration, and management of Federal lands which are within the boundaries of any rivers for which approval has been granted under section 2(a)(ii). Particular attention shall be given to scheduled timber harvesting, road construction, and similar activities which might be contrary to the purposes of this Act.

(b) Nothing in this section shall be construed to abrogate any existing rights, privileges, or contracts affecting Federal lands held by any private party without the consent of said party.

(c) The head of any agency administering a component of the national wild and scenic rivers system shall cooperate with the Administrator, Environmental Protection Agency and with the appropriate State water pollution control agencies for the purpose of eliminating or diminishing the pollution of waters of the river.
Sec. 13. [16 U.S.C. 1284] (a) Nothing in this Act shall affect the jurisdiction or responsibilities of the States with respect to fish and wildlife. Hunting and fishing shall be permitted on lands and waters administered as parts of the system under applicable State and Federal laws and regulations unless, in the case of hunting, those lands or waters are within a national park or monument. The administering Secretary may, however, designate zones where, and establish periods when, no hunting is permitted for reasons of public safety, administration, or public use and enjoyment and shall issue appropriate regulations after consultation with the wildlife agency of the State or States affected.

(b) The jurisdiction of the States and the United States over waters of any stream included in a national wild, scenic or recreational river area shall be determined by established principles of law. Under the provisions of this Act, any taking by the United States of a water right which is vested under either State or Federal law at the time such river is included in the national wild and scenic rivers system shall entitle the owner thereof to just compensation. Nothing in this Act shall constitute an express or implied claim or denial on the part of the Federal Government as to exemption from State water laws.

(c) Designation of any stream or portion thereof as a national wild, scenic or recreational river area shall not be construed as a reservation of the waters of such streams for purposes other than those specified in this Act, or in quantities greater than necessary to accomplish these purposes.

(d) The jurisdiction of the States over waters of any stream included in a national wild, scenic or recreational river area shall be unaffected by this Act to the extent that such jurisdiction may be exercised without impairing the purposes of this Act or its administration.

(e) Nothing contained in this Act shall be construed to alter, amend, repeal, interpret, modify, or be in conflict with any interstate compact made by any States which contain any portion of the national wild and scenic rivers system.

(f) Nothing in this Act shall affect existing rights of any State, including the right of access, with respect to the beds of navigable streams, tributaries, or rivers (or segments thereof) located in a national wild, scenic or recreational river area.

(g) The Secretary of the Interior or the Secretary of Agriculture, as the case may be, may grant easements and rights-of-way upon, over, under, across, or through any component of the national wild and scenic rivers system in accordance with the laws applicable to the national park system and the national forest system, respectively: Provided, That any conditions precedent to granting such easements and rights-of-way shall be related to the policy and purpose of this Act.

Sec. 14. [16 U.S.C. 1285] The claim and allowance of the value of an easement as a charitable contribution under section 170 of title 26, United States Code, or as a gift under section 2522 of said title shall constitute an agreement by the donor on behalf of himself, his heirs, and assigns that, if the terms of the instrument creating the easement are violated, the donee or the United States may acquire the servient estate of its fair market value as of the
time the easement was donated minus the value of the easement claimed and allowed as a charitable contribution or gift.

SEC. 14A. [16 U.S.C. 1285a] (a) Where appropriate in the discretion of the Secretary, he may lease federally owned land (or any interest therein) which is within the boundaries of any component of the National Wild and Scenic Rivers system and which has been acquired by the Secretary under this Act. Such lease shall be subject to such restrictive covenants as may be necessary to carry out the purposes of this Act.

(b) Any land to be leased by the Secretary under this section shall be offered first for such lease to the person who owned such land immediately before its acquisition by the United States.

SEC. 15. [16 U.S.C. 1285b] Notwithstanding any other provision to the contrary in sections 3 and 9 of this Act, with respect to components of the National Wild and Scenic Rivers System in Alaska designated by paragraphs (38) through (50) of sections 3(a) of this Act—

(1) the boundary of each such river shall include an average of not more than six hundred and forty acres per mile on both sides of the river. Such boundary shall not include any lands owned by the State or a political subdivision of the State nor shall such boundary extend around any private lands adjoining the river in such manner as to surround or effectively surround such private lands; and

(2) the withdrawal made by paragraph (iii) of section 9(a) shall apply to the minerals in Federal lands which constitute the bed or bank or are situated within one-half mile of the bank of any river designated a wild river by the Alaska National Interest Lands Conservation Act.

SEC. 16. [16 U.S.C. 1286] As used in this Act, the term—

(a) “River” means a flowing body of water or estuary or a section, portion, or tributary thereof, including rivers, streams, creeks, runs, kills, rills, and small lakes.

(b) “Free-flowing”, as applied to any river or section of a river, means existing or flowing in natural condition without impoundment, diversion, straightening, rip-rapping, or other modification of the waterway. The existence, however, of low dams, diversion works, and other minor structures at the time any river is proposed for inclusion in the national wild and scenic rivers system shall not automatically bar its consideration for such inclusion: Provided, That this shall not be construed to authorize, intend, or encourage future construction of such structures within components of the national wild and scenic rivers system.

(c) “Scenic easement” means the right to control the use of land (including the air space above such land) within the authorized boundaries of a component of the wild and scenic rivers system, for the purpose of protecting the natural qualities of a designated wild, scenic or recreational river area, but such control shall not affect, without the owner’s consent, any regular use exercised prior to the acquisition of the easement. For any designated wild and scenic river, the appropriate Secretary shall treat the acquisition of fee title with the reservation of regular existing uses to the owner as
Sec. 17. [16 U.S.C. 1287] There are hereby authorized to be appropriated, including such sums as have heretofore been appropriated, the following amounts for land acquisition for each of the rivers described in section 3(a) of this Act:
- Clearwater, Middle Fork, Idaho, $2,909,800;
- Eleven Point, Missouri, $10,407,000;
- Feather, Middle Fork, California, $3,935,700;
- Rio Grande, New Mexico, $253,000;
- Rogue, Oregon, $15,147,000;
- St. Croix, Minnesota and Wisconsin, $21,769,000;
- Salmon, Middle Fork, Idaho, $1,837,000; and
- Wolf, Wisconsin, $142,150.
B. LAWS APPLICABLE TO SPECIFIC SEGMENTS OF THE WILD AND SCENIC RIVERS SYSTEM

Lower Saint Croix River Act of 1972

AN ACT To amend the Wild and Scenic Rivers Act by designating a segment of the Saint Croix River, Minnesota and Wisconsin, as a component of the national wild and scenic rivers system.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

That this Act may be cited as the “Lower Saint Croix River Act of 1972”.

SEC. 2. [Added paragraph (9) of section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)).]

SEC. 3. The Secretary of the Interior shall, within one year following the date of enactment of this Act, take, with respect to the Lower Saint Croix River segment, such action as is provided for under section 3(b) of the Wild and Scenic Rivers Act: Provided, That (a) the action required by such section shall be undertaken jointly by the Secretary and the appropriate agencies of the affected States; (b) the development plan required by such section shall be construed to be a comprehensive master plan which shall include, but not be limited to, a determination of the lands, waters, and interests therein to be acquired, developed, and administered by the agencies or political subdivisions of the affected States; and (c) such development plan shall provide for State administration of the lower twenty-five miles of the Lower Saint Croix River segment and for continued administration by the States of Minnesota and Wisconsin of such State parks and fish hatcheries as now lie within the twenty-seven-mile segment to be administered by the Secretary of the Interior.

SEC. 4. Notwithstanding any provision of the Wild and Scenic Rivers Act which limits acquisition authority within a river segment to be administered by a Federal agency, the States of Minnesota and Wisconsin may acquire within the twenty-seven-mile segment of the Lower Saint Croix River segment to be administered by the Secretary of the Interior such lands as may be proposed for their acquisition, development, operation, and maintenance pursuant to the development plan required by section 3 of this Act.

1–79
SEC. 5. Nothing in this Act shall be deemed to impair or otherwise affect such statutory authority as may be vested in the Secretary of the Department in which the Coast Guard is operating or the Secretary of the Army for the maintenance of navigation aids and navigation improvements.

SEC. 6. (a) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act, but not to exceed $7,275,000 for the acquisition and development of lands and interests therein within the boundaries of the twenty-seven-mile segment of the Lower Saint Croix River segment to be administered by the Secretary of the Interior.

(b) No funds otherwise authorized to be appropriated by this section shall be expended by the Secretary of the Interior until he has determined that the States of Minnesota and Wisconsin have initiated such land acquisition and development as may be proposed pursuant to the development plan required by section 3 of this Act, and in no event shall the Secretary of the Interior expend more than $2,550,000 of the funds authorized to be appropriated by this section in the first fiscal year following completion of the development plan required by section 3 of this Act. The balance of funds authorized to be appropriated by this section shall be expended by the Secretary of the Interior at such times as he finds that the States of Minnesota and Wisconsin have made satisfactory progress in their implementation of the development plan required by section 3 of this Act.

SEC. 201. [Added paragraph (14) of section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)).]

SEC. 202. After consultation with the State and local governments and the interested public, the Secretary shall, pursuant to section 3(b) of the Wild and Scenic Rivers Act and within one year of enactment of this Act—

1. establish detailed boundaries of the river segment designated as a component of the National Wild and Scenic Rivers System pursuant to section 1 of this Act (hereinafter referred to as the "river area"); Provided, That the boundaries of the portion of the river area from Fort Benton to Coal Banks Landing and the portion of the river area within the boundaries of the Charles M. Russell National Wildlife Range shall be drawn to include only the river and its bed and exclude all adjacent land except significant historic sites and such campsites and access points as are deemed necessary by the Secretary, and to which the Secretary finds no reasonable alternative, as set forth in the management plan required pursuant to clause (2) of this section; and

2. determine, in accordance with the guidelines in section 2(b) of the Wild and Scenic Rivers Act, which of the three classes—wild river, scenic river, or recreation river—best fit portions of the river segment, designate such portions in such classes, and prepare a management plan for the river area in accordance with such designation.

SEC. 203. (a) The Secretary of the Interior (hereinafter referred to as the “Secretary”) shall manage the river area pursuant to the provisions of this Act and the Wild and Scenic Rivers Act, and in accordance with the provisions of the Taylor Grazing Act (48 Stat. 1269), as amended (43 U.S.C. 315), under principles of multiple use and sustained yield, and with any other authorities available to him for the management and conservation of natural resources and the protection and enhancement of the environment, where such Act, principles, and authorities are consistent with the purposes and provisions of this Act and the Wild and Scenic Rivers Act.

(b)(1) The Secretary may acquire land and interests in land only in accordance with the provisions of this Act and the Wild and Scenic Rivers Act and the limitations contained in section 6 of that Act and only: (A) at Fort Benton for the visitor facility as provided
in subsection (g)(2) of this section; (B) at the site of Fort McKenzie; (C) in that portion of the river area downstream from Fort Benton to Coal Banks Landing for historic sites, campsites, and access points in accordance with section 202 (1) of this Act; and (D) in that portion of the river area downstream from Coal Banks Landing so as to provide, wherever practicable and necessary for the purposes of this Act and the Wild and Scenic Rivers Act, rim-to-rim protection for such portion.

(2) In accordance with section 6(b) of the Wild and Scenic Rivers Act, the Secretary shall not acquire fee title to any lands by condemnation under the authority of that Act or this Act, except that the Secretary may use condemnation when necessary and within the limitations on acquisition set forth in clause (1) of this subsection to clear title, acquire scenic easements, or acquire such other easements as are reasonably necessary to give the public access to the river segment within the river area and to permit its members to traverse the length of said river area or of selected portions thereof.

(3) The Secretary shall, to the extent feasible, give priority in expenditure of funds pursuant to this Act for the acquisition and development of campsites and historic sites, including the site of the visitor center at Fort Benton and the site of Fort McKenzie.

(c) Consistent with the provisions of this Act and the Wild and Scenic Rivers Act, the Secretary may issue easements, licenses, or permits for rights-of-way through, over, or under the lands in Federal ownership within the river area, or for the use of such lands on such terms and conditions as are in accordance with the provisions of this Act, the Wild and Scenic Rivers Act, and other applicable law.

(d) The Secretary is authorized to permit the construction of a bridge across the river in the general vicinity of the community of Winifred, Montana, in order to accommodate the flow of north-south traffic. Such construction shall be in accordance with a plan which is mutually acceptable to the Secretary and State and local highway officials, and which is consistent with the purposes of this Act and the Wild and Scenic Rivers Act.

(e) To the extent and in a manner consistent with the purposes of the Wild and Scenic Rivers Act the Secretary shall permit such pumping facilities and associated pipelines as may be necessary to assure the continuation of an adequate supply of water from the Missouri River to the owners of lands adjacent to the river and for future agricultural use outside the river corridor. The Secretary is authorized to permit such pumping facilities and associated pipelines for use for fish, wildlife, and recreational uses outside the river corridor.

(f) The Secretary shall permit hunting and fishing in the river area in accordance with applicable Federal and State laws, except that he may designate zones where, and periods when, no hunting or fishing shall be permitted for reasons of public safety or administration.

(g)(1) The Secretary, acting through the Bureau of Land Management, shall exercise management responsibilities in the river area for:

(2) The Secretary, acting through the Bureau of Land Management, shall be responsible for the construction, operation, and management of any visitor facility in or near Fort Benton which is found necessary in accordance with the management plan developed pursuant to section 202 and the provision, at such facility, of interpretive services for the historic, archeological, scenic, natural, and fish and wildlife resources of the area.
SEC. 704. (a) [Added paragraph (19) of section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)].]  

(b)(1) Notwithstanding any requirement to the contrary contained in section 6(c) of the Wild and Scenic Rivers Act, within one hundred and eighty days after the date of enactment of this Act, the Secretary shall publish in the Federal Register general guidelines for land and water use control measures to be developed and implemented by the appropriate officials of the States of New York and Pennsylvania (hereinafter referred to as the “directly affected States”), by the local political subdivisions, and by the Delaware River Basin Commission (hereinafter referred to as the “Commission”). The Secretary shall provide for participation in the development of the said general guidelines by all levels of State, county, and local government, and concerned private individuals and organizations, and also shall seek the advice of the Upper Delaware Citizens Advisory Council established in subsection (f) (hereinafter referred to as the “Advisory Council”). In each of the directly affected States, prior to publication of such general guidelines, public hearings shall be conducted by the Secretary or his designee, in the region of the Upper Delaware River designated by subsection (a) (hereinafter in this section referred to as the “Upper Delaware River”).  

(2) The Secretary may from time to time adopt amended or revised guidelines and shall do so in accordance with the provisions of paragraph (1) hereof.  

(c)(1) Within three years from the date of the enactment of this Act, the Secretary, in cooperation with the Commission, the Advisory Council, the directly affected States and their concerned political subdivisions and other concerned Federal agencies, shall develop, approve, and submit to the Governors of the directly affected States a management plan (hereinafter in this section referred to as the “management plan” or “the plan”) for the Upper Delaware River which shall provide for as broad a range of land and water uses and scenic and recreational activities as shall be compatible with the provisions of this section, the Wild and Scenic Rivers Act, and the general guidelines for land and water use controls promulgated by the Secretary under the provisions of subsection (b).  

(2) The plan shall apply to the Upper Delaware River and shall set forth—  

(A) a map showing detailed final landward boundaries and upper and lower termini of the area and the specific segments of the river classified as scenic and recreational, to be administered in accordance with such classifications;
(B) a program for management of existing and future land and water use, including the application of available management techniques;

(C) an analysis of the economic and environmental costs and benefits of implementing the management plan including any impact of the plan upon revenues and costs of local government;

(D) a program providing for coordinated implementation and administration of the plan with proposed assignment of responsibilities to the appropriate governmental unit at the Federal, regional, State, and local levels; and

(E) such other recommendations or provisions as shall be deemed appropriate to carry out the purposes of this section.

(3) Immediately following enactment of this Act, the Secretary, through the National Park Service or such other designee, shall develop and implement such interim programs as he shall deem necessary and appropriate to protect the Upper Delaware River and its environs and to protect the public health and safety. Such interim programs shall include provisions for information to river users, education and interpretation activities, and regulation of recreational use of the river.

(4) To enable the directly affected States and their political subdivisions to develop and implement programs compatible with the management plan, the Secretary shall provide such technical assistance to the said State and their political subdivisions as he deems appropriate.

(5) The Secretary shall promote public awareness of and participation in the development of the management plan, and shall develop and conduct a concerted program to this end. Prior to final approval of the management plan the Secretary shall hold two or more public hearings in the Upper Delaware River region of each directly affected State.

(6) Upon approval of the management plan by the Secretary, it shall be published in the Federal Register and shall not become effective until ninety days after it shall have been forwarded to the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate. The plan shall be administered by the Secretary in accordance with the provisions of this section and the Wild and Scenic Rivers Act. The Secretary is hereby granted such authority as may be required to implement and administer said plan.

(d) Notwithstanding any provision of the Wild and Scenic Rivers Act, the Secretary may not acquire more than a total of four hundred and fifty acres of land and interests in land for access, development sites, the preservation of scenic qualities, or for any other purposes: Provided, That the Secretary may acquire additional land and interests in land for such purposes not in excess of one thousand acres if such additional acquisition is recommended and provided for in the management plan as finally approved by the Secretary. The limitations contained in this section shall not apply under the circumstances set forth in subsection (e)(4) of this section. Prior to acquisition of any land or interests in land which has been used for business purposes during the an-
nual period immediately preceding the date of the enactment of this Act, the Secretary shall first make such efforts as he deems reasonable to acquire easements or restrictive covenants, or to enter into any other appropriate agreements or arrangements with the owners of said land consistent with the purposes of this section.

(e)(1) For the purpose of protecting the integrity of the Upper Delaware River, the Secretary shall review all relevant local plans, laws, and ordinances to determine whether they substantially conform to the approved management plan provided for in subsection (c) and to the general guidelines promulgated by the Secretary pursuant to subsection (b). Additionally, the Secretary shall determine the adequacy of enforcement of such plans, laws, and ordinances, including but not limited to review of building permits and zoning variances granted by local governments, and amendments to local laws and ordinances.

(2) The purpose of such reviews shall be to determine the degree to which actions by local governments are compatible with the purposes of this section. Following the approval of the management plan and after a reasonable period of time has elapsed, but not less than two years, upon a finding by the Secretary that such plans, laws, and ordinances are nonexistent, are otherwise not in conformance with the management plan or guidelines, or are not being enforced in such manner as will carry out the purposes of this section (as determined by the Secretary), the Secretary may exercise the authority available to him under the provisions of paragraph (4) hereof.

(3) To facilitate administration of this section, the Secretary may contract with the directly affected States or their political subdivisions to provide, on behalf of the Secretary, professional services necessary for the review of relevant local plans, laws, and ordinances, and of amendments thereto and variances therefrom, and for the monitoring or the enforcement thereof by local governments having jurisdiction over any areas in the region to which the management plan applies. The Secretary shall notify the appropriate State or local officials as to the results of his review under this section within forty-five days from the date he receives notice of the local government action.

(4) In those sections of the Upper Delaware River where such local plans, laws, and ordinances, or amendments thereto or variances therefrom, are found by the Secretary not to be in conformance with the guidelines or the management plan promulgated pursuant to subsections (b) and (c) of this section, respectively, or are not being enforced in such manner as will carry out the purposes of this section (as determined by the Secretary), the Secretary is hereby authorized to acquire land or interests in land in excess of the acreage provided for in subsection (d) of this section. Land and interest in land acquired pursuant to this subsection shall be restricted to the geographical area of the local governmental unit failing to conform with the said guidelines or management plan, and shall be limited to those lands clearly and directly required in the judgment of the Secretary, for protection of the objectives of this Act. The total acreage of land and interests in land acquired pursuant to this subsection shall not in any event exceed the limitations contained in section 6(a) of the Wild and Scenic Riv-
ers Act. This subsection shall apply notwithstanding the first sentence of section 6(c) of the Wild and Scenic Rivers Act. Notwithstanding any limitation on amounts authorized to be appropriated for acquisition of land and interests in land which is contained in section 3(a)(21) of the Wild and Scenic Rivers Act or in any other provision of law, there are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(f) (1) At the earliest practicable date following enactment of this Act, but no later than one hundred and twenty days thereafter, there shall be established an Upper Delaware Citizens Advisory Council. The Advisory Council shall encourage maximum public involvement in the development and implementation of the plans and programs authorized by this section. It shall report to the Commission and the Secretary from time to time during the preparation of the management plan. Following completion of the management plan, it shall report to the Secretary and the Governors of the directly affected States no less frequently than once each year its recommendations, if any, for improvement in the programs authorized by this Act, or in the programs of other agencies which may relate to land or water use in the Upper Delaware River region. The Advisory Council shall terminate 20 years after the date on which it is established.

(2) Membership on the Advisory Council shall consist of seventeen members' appointed as follows: there shall be—

(A) six members from each of the directly affected States appointed by the Secretary from nominations submitted by the legislatures of the respective counties and appointed such that two members shall be from each of Orange, Delaware, and Sullivan Counties, New York, and three members shall be from each of Wayne and Pike Counties, Pennsylvania (at least one appointee from each county shall be a permanent resident of a municipality abutting the Upper Delaware River);

(B) two members appointed at large by each Governor of a directly affected State; and

(C) one member appointed by the Secretary.

The Secretary shall designate one of the aforesaid members to serve as Chairperson of the Advisory Council who shall be a permanent resident of one of the aforementioned counties. Vacancies on the Advisory Council shall be filled in the same manner in which the original appointment was made. Members of the Advisory Council shall serve without compensation as such, but the Secretary is authorized to pay expenses reasonably incurred by the Advisory Council in carrying out its responsibilities under this Act on vouchers signed by the Chairman.

(g) With respect to the land and water in areas which are not owned by the United States but which are within the boundaries of the segment of the Delaware River designated as a wild and scenic river under subsection (a), the Secretary is authorized to enter into contracts with the appropriate State or political subdivisions thereof pursuant to which the Secretary may provide financial assistance to such State or political subdivision for purposes of—

(1) enforcing State and local laws in such areas, and

(2) removing solid waste from such areas and disposing of such waste.
Sec. 704

(i) There are hereby authorized to be appropriated to carry out the purposes of this section such sums as may be necessary.

(j) Where any provision of the Wild and Scenic Rivers Act is inconsistent with any provision of this section, the provision of this section shall govern. In applying the provisions of section 6(g)(3) of the Wild and Scenic Rivers Act, with regard to “improved property”, the date specified therein, shall, for purposes of the river designated in this Act, be the date of enactment of this Act (rather than January 1, 1967).

TITLE I—CACHE LA POUDRE, COLORADO

SEC. 101. [Added paragraph (56) [now paragraph (57)] of section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)).]

SEC. 102. Inclusion of the designated portions of the Cache la Poudre River and the Wild and Scenic Rivers System under section 101 of this title shall not interfere with the exercise of existing decreed water rights to water which has heretofore been stored or diverted by means of the present capacity of storage, conveyance, or diversion structures that exist as of the date of enactment of this title, or operation and maintenance of such structures. Nor shall inclusion of the designated portions of the Cache la Poudre River in the Wild and Scenic Rivers System be utilized in any Federal proceeding, whether concerning a license, permit, right-of-way, or other Federal action, as a reason or basis to prohibit the development or operation of any water impoundments, diversion facilities, and hydroelectric power and transmission facilities below Poudre Park located entirely downstream from and potentially affecting designated portions of the Cache la Poudre River, or relocation of highway 14 to any point east of the north-south half section line of section 2, township 8 north, range 71 west of the sixth principal meridian, as necessary to provide access to Poudre Park around such facilities: Provided, That due consideration shall be given to reasonable measures for minimizing the impact of such facilities and road relocation on the designated segments. Congress finds that development of water impoundments, diversion facilities, and hydroelectric power and transmission facilities located entirely downstream from the designated portions of the Cache la Poudre River below Poudre Park, in accordance with the provisions of this section, is not incompatible with the designation of portions of the Cache la Poudre River in the Wild and Scenic Rivers System under section 101 of this title. The reservation of water established by the inclusion of portions of the Cache la Poudre River in the Wild and Scenic Rivers System shall be subject to the provisions of this title, shall be adjudicated in Colorado Water Court, and shall have a priority date as of the date of enactment of this title.

SEC. 103. (a) GRANTS AND ASSISTANCE.—The Secretary of Agriculture, acting through the Chief of the Forest Service, shall provide grants and technical assistance to the city of Fort Collins, Colorado, to carry out a study regarding the designation of the following area as a national recreation area: the 18.5-mile segment of
the Cache la Poudre River Corridor from the northwest boundary of the city of Fort Collins urban growth area to the Weld-Larimer County line.

(b) STUDY.—The study under this section shall include each of the following:

(A) a comprehensive evaluation of the public recreation opportunities and flood plain management options which are available with respect to the river corridor involved;

(B) an evaluation of the natural, historical, and recreational values of such corridor;

(C) patterns for possible land acquisition within the corridor which are deemed necessary for the purpose of resource protection, scenic and integrity, or management and administration of the corridor area;

(D) cooperative management proposals for the administration of the corridor area;

(E) the number of visitors and types of public use within the corridor area that can be accommodated in accordance with the full protection of its resources; and

(F) the facilities deemed necessary to accommodate and provide access for such visitors and uses, including the location and estimated costs of such facilities.

c) REPORT TO CONGRESS.—Within three years of the date of enactment of this title, the Secretary of Agriculture shall transmit to the Congress a comprehensive report containing the results of the study conducted pursuant to this section.

d) FUNDING.—There are hereby authorized to be appropriated up to $150,000 to carry out the provisions of this section.

e) COST SHARING.—Not more than 75 per centum of the cost of the study carried out under this section shall be paid by the United States: Provided, That in no event shall the contribution of the United States exceed $150,000. The remaining portion of such costs shall be contributed by interested parties. The portion contributed by such interested parties may consist of appropriated funds or contributed services.

SEC. 104. Notwithstanding any other provision of law, the Secretaries of Agriculture and the Interior shall, within 30 days of the enactment of this title, complete the exchange as described in the Decision Notice and Finding of No Significant Impact, Trust For Public Land Proposed Land-for-Land Exchange, signed by the Rocky Mountain Regional Forester, on August 22, 1985, to acquire certain private lands in the portion of the Cache La Poudre River designated in section 3(a)(56)(B) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)(56)(B)).

(b) AGREEMENTS.—(1) Cooperative agreements for management of the river segments referred to in subsection (a) shall provide for the long-term protection, preservation, and enhancement of such segments and shall be consistent with the comprehensive management plans for such segments to be prepared by the Secretary of the Interior pursuant to section 3(d) of the Wild and Scenic Rivers Act and with local river management plans prepared by appropriate local political jurisdictions in conjunction with the Secretary of the Interior.

(2) The Secretary of the Interior, in consultation with appropriate representatives of local political jurisdictions and the State of New Jersey, shall review local river management plans described in paragraph (1) to assure that their proper implementation will protect the values for which the river segments described in subsection (a) were designated as components of the National Wild and Scenic Rivers System. If after such review the Secretary determines that such plans meet the protection standards for local zoning ordinances specified in section 6(c) of the Wild and Scenic Rivers Act, such plans shall be deemed to constitute “local zoning ordinances” and each township and other incorporated local jurisdiction covered by such plans shall be deemed to constitute a “village” for the purposes of section 6(c) (prohibiting the acquisition of lands by condemnation) of the Wild and Scenic Rivers Act.

(3) The Secretary of the Interior shall biennially review compliance with the local river management plans described in paragraph (1) and shall promptly report to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate any deviation from such plans which could result in any diminution of the values for

(c) PLANNING ASSISTANCE.—(1) The Secretary of the Interior may provide planning assistance to local political subdivisions of the State of New Jersey through which flow river segments that are designated as components of the National Wild and Scenic Rivers System, and may enter into memoranda of understanding or cooperative agreements with officials or agencies of the United States or the State of New Jersey to ensure that Federal and State programs that could affect such segments are carried out in a manner consistent with the Wild and Scenic Rivers Act and applicable river management plans.

(2) For purposes of the planning assistance authorized and reviews required by this subsection, there are hereby authorized to be appropriated not to exceed $70,000 annually.
Other New Jersey Segments

(Public Law 103–162; Approved December 1, 1993; 107 Stat. 1968; 16 U.S.C. 1274 note)

SECTION 1. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) the Maurice River and its tributaries, Menantico Creek, the Manumuskin River, and Muskee Creek, are eligible for inclusion into the National Wild and Scenic Rivers System, the segments and their classifications being as follows—

(A) the Maurice River, lower segment, from the United States Geological Survey Station at Shellpile to Route 670 Bridge at Mauricetown, approximately 7.0 miles, as a recreational river;

(B) the Maurice River, middle segment, from Route 670 Bridge at Mauricetown to 3.6 miles upstream (at drainage ditch just upstream of Fralinger Farm), approximately 3.8 miles as a scenic river;

(C) the Maurice River, middle segment, from the drainage ditch just upstream of Fralinger Farm to one-half mile upstream from the United States Geological Survey Station at Burcham Farm, approximately 3.1 miles, as a recreational river;

(D) the Maurice River, upper segment, from one-half mile upstream from the United States Geological Survey Station at Burcham Farm to the south side of the Millville sewage treatment plant, approximately 3.6 miles, as a scenic river;

(E) the Menantico Creek, lower segment, from its confluence with the Maurice River to the Route 55 Bridge, approximately 1.4 miles, as a recreational river;

(F) the Menantico Creek, upper segment, from the Route 55 Bridge to the base of the Impoundment at Menantico Lake, approximately 6.5 miles, as a scenic river;

(G) the Manumuskin River, lower segment, from its confluence with the Maurice River to 2.0 miles upstream, as a recreational river;

(H) the Manumuskin River, upper segment, from 2.0 miles upstream from its confluence with the Maurice River to headwaters near Route 557, approximately 12.3 miles, as a scenic river; and

(I) the Muskee Creek from its confluence to the Pennsylvania Reading Seashore Line Railroad bridge, approximately 2.7 miles, as a scenic river;

(2) a resource assessment of the Maurice River and its tributaries, Menantico Creek, the Manumuskin River, and the
Muskeek Creek shows that the area possesses numerous outstandingly remarkable natural, cultural, scenic, and recreational resources that are significant at the local, regional, and international levels, including rare plant and animal species and critical habitats for birds migrating to and from the north and south hemispheres; and

(3) a river management plan for the river system has been developed by the Cumberland County Department of Planning and Development and adopted by the Maurice River Township, Commercial Township, and the City of Millville that would meet the requirements of section 6(c) of the Wild and Scenic Rivers Act, the City of Vineland has adopted a master plan which calls for river planning and management and is in the process of adopting zoning ordinances to implement their plan, and Buena Vista Township in Atlantic County has adopted a land use plan consistent with the Pinelands Comprehensive Plan which is more restrictive than the Cumberland County local river management plan.

(b) PURPOSES.—The purposes of this Act are to—

(1) declare the importance and irreplaceable resource values of the Maurice River and its tributaries to water quality, human health, traditional economic activities, ecosystem integrity, biotic diversity, fish and wildlife, scenic open space and recreation and protect such values through designation of the segments as components of the National Wild and Scenic Rivers System;

(2) recognize that the Maurice River System will continue to be threatened by major development and that land use regulations of the individual local political jurisdictions through which the river segments pass cannot alone provide for an adequate balance between conservation of the river’s resources and commercial and industrial development; and

(3) recognize that segments of the Maurice River and its tributaries additional to those designated under this Act are eligible for potential designation at some point in the near future.

SEC. 2. DESIGNATION.

[Added paragraphs (146) through (153) of section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)).]

SEC. 3. MANAGEMENT.

(a) DUTIES OF SECRETARY.—The Secretary of the Interior shall manage the river segments designated as components of the National Wild and Scenic Rivers System by this Act through cooperative agreements with the political jurisdictions within which such segments pass, pursuant to section 10(e) of the Wild and Scenic Rivers Act, and in consultation with such jurisdictions, except that publicly-owned lands within the boundaries of such segments shall continue to be managed by the agency having jurisdiction over such lands.

(b) AGREEMENTS.—(1) Cooperative agreements for management of the river segments referred to in subsection (a) shall provide for the long-term protection, preservation, and enhancement of such segments and shall be consistent with the comprehensive manage-
ment plan for such segments to be prepared by the Secretary of the Interior pursuant to section 3(d) of the Wild and Scenic Rivers Act and with the local river management plans prepared by appropriate local political jurisdictions in conjunction with the Secretary of the Interior.

(2) The Secretary of the Interior, in consultation with appropriate representatives of local political jurisdictions and the State of New Jersey, shall review local river management plans described in paragraph (1) to assure that their proper implementation will protect the values for which the river segments described in section 2 were designated as components of the National Wild and Scenic Rivers System. If after such review the Secretary determines that such plans and their implementing local zoning ordinances meet the protection standards specified in section 6(c) of the Wild and Scenic Rivers Act, then such plans shall be deemed to constitute “local zoning ordinances” and each township and other incorporated local jurisdiction covered by such plans shall be deemed to constitute a “village” for the purposes of section 6(c) (prohibiting the acquisition of lands by condemnation) of the Wild and Scenic Rivers Act.

(3) The Secretary of the Interior shall biennially review compliance with the local river management plans described in paragraph (1) and shall promptly report to the Committee on Natural Resources of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate any deviation from such which would result in any diminution of the values for which the river segment concerned was designated as a component of the National Wild and Scenic Rivers System.

(c) PLANNING ASSISTANCE.—The Secretary of the Interior may provide planning assistance to local political subdivisions of the State of New Jersey through which flow river segments that are designated as components of the National Wild and Scenic Rivers System, and may enter into memoranda of understanding or cooperative agreements with officials or agencies of the United States or the State of New Jersey to ensure that Federal and State programs that could affect such segments are carried out in a manner consistent with the Wild and Scenic Rivers Act and applicable river management plans.

(d) SEGMENT ADDITIONS.—The Secretary of the Interior is encouraged to continue to work with the local municipalities to negotiate agreement and support for designating those segments of the Maurice River and its tributaries which were found eligible for designation pursuant to Public Law 100–33 and were not designated pursuant to this Act (hereinafter referred to as “additional eligible segments”). For a period of 3 years after the date of enactment of this Act, the provisions of the Wild and Scenic Rivers Act applicable to segments included in section 5 of that Act shall apply to the additional eligible segments. The Secretary of the Interior is directed to report to the appropriate congressional committees within 3 years after the date of enactment of this Act on the status of discussions and negotiations with the local municipalities and on recommendations toward inclusion of additional river segments into the National Wild and Scenic Rivers System.
(e) APPROPRIATIONS.—For the purposes of the segment described by subsection (a), there are authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.
Farmington Wild and Scenic River Act

(Public Law 103–313; Approved August 26, 1994; 108 Stat. 1699; 16 U.S.C. 1274 note)

SECTION 1. SHORT TITLE.
This Act may be cited as the “Farmington Wild and Scenic River Act”.

SEC. 2. FINDINGS.
The Congress finds that—

(1) Public Law 99–590 authorized the study of 2 segments of the West Branch of the Farmington River, including an 11-mile headwater segment in Massachusetts and the uppermost 14-mile segment in Connecticut, for potential inclusion in the National Wild and Scenic Rivers System, and created the Farmington River Study Committee, consisting of representatives from the 2 States, the towns bordering the 2 segments, and other river interests, to advise the Secretary of the Interior in conducting the study and concerning management alternatives should the river be included in the National Wild and Scenic Rivers System;

(2) the study determined that both segments of the river are eligible for inclusion in the National Wild and Scenic Rivers System based upon their free-flowing condition and outstanding fisheries, recreation, wildlife, and historic values;

(3) the towns that directly abut the Connecticut segment (Hartland, Barkhamsted, New Hartford, and Canton), as well as the Town of Colebrook, which abuts the segment’s major tributary, have demonstrated their desire for national wild and scenic river designation through town meeting actions endorsing designation; in addition, the 4 abutting towns have demonstrated their commitment to protect the river through the adoption of “river protection overlay districts”, which establish a uniform setback for new structures, new septic systems, sand and gravel extraction, and vegetation removal along the entire length of the Connecticut segment;

(4) during the study, the Farmington River Study Committee and the National Park Service prepared a comprehensive management plan for the Connecticut segment (the “Upper Farmington River Management Plan”, dated April 29, 1993) which establishes objectives, standards, and action programs that will ensure long-term protection of the river’s outstanding values and compatible management of its land and water resources, without Federal management of affected lands not owned by the United States;

(5) the Farmington River Study Committee voted unanimously on April 29, 1993, to adopt the Upper Farmington...
River Management Plan and to recommend that Congress include the Connecticut segment in the National Wild and Scenic Rivers System in accordance with the spirit and provisions of the Upper Farmington River Management Plan, and to recommend that, in the absence of town votes supporting designation, no action be taken regarding wild and scenic river designation of the Massachusetts segment; and

(6) the Colebrook Dam and Goodwin Dam hydroelectric projects are located outside the river segment designated by section 3, and based on the study of the Farmington River pursuant to Public Law 99–590, continuation of the existing operation of these projects as presently configured, including associated transmission lines and other existing project works, is compatible with the designation made by section 3 and will not unreasonably diminish the scenic, recreational, and fish and wildlife values of the segment designated by such section as of the date of enactment of this Act.

SEC. 3. DESIGNATION.
[Added paragraph (156) to section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)).]

SEC. 4. MANAGEMENT.
(a) COMMITTEE.—The Director of the National Park Service, or his or her designee, shall represent the Secretary on the Farmington River Coordinating Committee provided for in the plan.
(b) FEDERAL.—(1) In order to provide for the long-term protection, preservation, and enhancement of the river segment designated by section 3, the Secretary, pursuant to section 10(e) of the Wild and Scenic Rivers Act, shall offer to enter into cooperative agreements with the State of Connecticut and its relevant political subdivisions identified in the amendment made by such section 3 and, pursuant to section 11(b)(1) of such Act, shall make a similar offer to the Farmington River Watershed Association. The Secretary, pursuant to such section 11(b)(1), also may enter into cooperative agreements with other parties who may be represented on the Committee. All cooperative agreements provided for in this Act shall be consistent with the Plan, and may include provisions for financial or other assistance from the United States to facilitate the long-term protection, conservation, and enhancement of the segment designated by such section 3 and the implementation of the Plan.

(2) The Secretary may provide technical assistance, staff support, and funding to assist in the implementation of the Plan.
(3) Implementation of this Act through cooperative agreements as described in paragraph (2) of this subsection shall not constitute National Park Service administration of the segment designated by section 3 for purposes of section 10(c) of the Wild and Scenic Rivers Act, and shall not cause such segment to be considered as being a unit of the National Park System.
(c) WATER RESOURCES PROJECTS.—(1) In determining whether a proposed water resources project would have a direct and adverse effect on the values for which the segment designated by section 3 was included in the National Wild and Scenic Rivers System, the
Secretary shall specifically consider the extent to which the project is consistent with the Plan.

(2) For purposes of implementation of section 7 of the Wild and Scenic Rivers Act, the Plan, including the detailed analysis of instream flow needs incorporated therein and such additional analysis as may be incorporated in the future, shall serve as the primary source of information regarding the flows needed to maintain instream resources and the potential compatibility between resource protection and possible water supply withdrawals.

(d) Land Management.—The zoning ordinances duly adopted by the towns of Hartland, Barkhamsted, New Hartford, and Canton, Connecticut, including the “river protection overlay districts” in effect on the date of enactment of this Act, shall be deemed to satisfy the standards and requirements of section 6(c) of the Wild and Scenic Rivers Act. For the purpose of section 6(c), such towns shall be deemed “villages” and the provisions of that section, which prohibit Federal acquisition of lands by condemnation, shall apply to the segment designated by section 3.

SEC. 5. DEFINITIONS.
For the purposes of this Act:
(1) The term “Committee” means the Farmington River Coordinating Committee referred to in section 4.
(2) The term “Plan” means the comprehensive management plan for the Connecticut segment of the Farmington River prepared by the Farmington River Study Committee and the National Park Service, which is known as the “Upper Farmington River Management Plan” and dated April 29, 1993.
(3) The term “Secretary” means the Secretary of the Interior.

SEC. 6. FUNDING AUTHORIZATION.
There are authorized to be appropriated such sums as may be necessary to carry out the purposes of this Act, including the amendment to the Wild and Scenic Rivers Act made by section 3.
Sudbury, Assabet, and Concord Wild and Scenic River Act

(Provisions of Public Law 106–20; Approved April 9, 1999; 113 Stat. 30; 16 U.S.C. 1274 note)

 SECTION 1. SHORT TITLE.
This Act may be cited as the “Sudbury, Assabet, and Concord Wild and Scenic River Act”.

SEC. 2. DESIGNATION OF SUDBURY, ASSABET, AND CONCORD SCENIC AND RECREATIONAL RIVERS, MASSACHUSETTS.

(a) FINDINGS.—The Congress finds the following:

(1) The Sudbury, Assabet, and Concord Wild and Scenic River Study Act (title VII of Public Law 101–628; 104 Stat. 4497)—

(A) designated segments of the Sudbury, Assabet, and Concord Rivers in the Commonwealth of Massachusetts, totaling 29 river miles, for study and potential addition to the National Wild and Scenic Rivers System; and

(B) directed the Secretary of the Interior to establish the Sudbury, Assabet, and Concord Rivers Study Committee (in this section referred to as the “Study Committee”) to advise the Secretary in conducting the study and in the consideration of management alternatives should the rivers be included in the National Wild and Scenic Rivers System.

(2) The study determined the following river segments are eligible for inclusion in the National Wild and Scenic Rivers System based on their free-flowing condition and outstanding scenic, recreation, wildlife, cultural, and historic values:

(A) The 16.6-mile segment of the Sudbury River beginning at the Danforth Street Bridge in the town of Framingham, to its confluence with the Assabet River.

(B) The 4.4-mile segment of the Assabet River from 1,000 feet downstream from the Damon Mill Dam in the town of Concord to the confluence with the Sudbury River at Egg Rock in Concord.

(C) The 8-mile segment of the Concord River from Egg Rock at the confluence of the Sudbury and Assabet Rivers to the Route 3 bridge in the town of Billerica.

(3) The towns that directly abut the segments, including Framingham, Sudbury, Wayland, Lincoln, Concord, Bedford, Carlisle, and Billerica, Massachusetts, have each demonstrated their desire for National Wild and Scenic River designation through town meeting votes endorsing designation.

(4) During the study, the Study Committee and the National Park Service prepared a comprehensive management plan for the segment, entitled “Sudbury, Assabet and Concord Wild and Scenic River Study, River Conservation Plan” and
dated March 16, 1995 (in this section referred to as the “plan”),
which establishes objectives, standards, and action programs
that will ensure long-term protection of the rivers’ outstanding
values and compatible management of their land and water re-
sources.

(5) The Study Committee voted unanimously on February
23, 1995, to recommend that the Congress include these seg-
ments in the National Wild and Scenic Rivers System for man-
agement in accordance with the plan.

(b) DESIGNATION.—[Added a new paragraph at the end of sec-
tion 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)).]

(c) FEDERAL ROLE IN MANAGEMENT.—(1) The Director of the
National Park Service or the Director’s designee shall represent the
Secretary of the Interior in the implementation of the plan, this
section, and the Wild and Scenic Rivers Act with respect to each
of the segments designated by the amendment made by subsection
(b), including the review of proposed federally assisted water re-
sources projects that could have a direct and adverse effect on the
values for which the segment is established, as authorized under
section 7(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1278(a)).

(2) Pursuant to sections 10(e) and section 11(b)(1) of the Wild
and Scenic Rivers Act (16 U.S.C. 1281(e), 1282(b)(1)), the Director
shall offer to enter into cooperative agreements with the Common-
wealth of Massachusetts, its relevant political subdivisions, the
Sudbury Valley Trustees, and the Organization for the Assab et
River. Such cooperative agreements shall be consistent with the
plan and may include provisions for financial or other assistance
from the United States to facilitate the long-term protection, con-
servation, and enhancement of each of the segments designated by
the amendment made by subsection (b).

(3) The Director may provide technical assistance, staff sup-
port, and funding to assist in the implementation of the plan, ex-
cept that the total cost to the Federal Government of activities to
implement the plan may not exceed $100,000 each fiscal year.

(4) Notwithstanding section 10(c) of the Wild and Scenic Rivers
Act (16 U.S.C. 1281(c)), any portion of a segment designated by the
amendment made by subsection (b) that is not already within the
National Park System shall not under this section—

(A) become a part of the National Park System;

(B) be managed by the National Park Service; or

(C) be subject to regulations which govern the National
Park System.

(d) WATER RESOURCES PROJECTS.—(1) In determining whether
a proposed water resources project would have a direct and adverse
effect on the values for which the segments designated by the
amendment made by subsection (b) were included in the National
Wild and Scenic Rivers System, the Secretary of the Interior shall
specifically consider the extent to which the project is consistent
with the plan.

(2) The plan, including the detailed Water Resources Study in-
corporated by reference in the plan and such additional analysis as
may be incorporated in the future, shall serve as the primary
source of information regarding the flows needed to maintain
instream resources and potential compatibility between resource protection and possible additional water withdrawals.

(e) Land Management.—(1) The zoning bylaws of the towns of Framingham, Sudbury, Wayland, Lincoln, Concord, Carlisle, Bedford, and Billerica, Massachusetts, as in effect on the date of enactment of this Act, are deemed to satisfy the standards and requirements under section 6(c) of the Wild and Scenic rivers Act (16 U.S.C. 1277(c)). For the purpose of that section, the towns are deemed to be “villages” and the provisions of that section which prohibit Federal acquisition of lands through condemnation shall apply.

(2) The United States Government shall not acquire by any means title to land, easements, or other interests in land along the segments designated by the amendment made by subsection (b) or their tributaries for the purposes of designation of the segments under the amendment. Nothing in this section shall prohibit Federal acquisition of interests in land along those segments or tributaries under other laws for other purposes.

(f) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary of the Interior to carry out this section not to exceed $100,000 for each fiscal year.

(g) Existing Undesignated Paragraphs; Removal of Duplication.—[Omitted-Amendments]
Wekiva Wild and Scenic River Act of 2000

SECTION 1. SHORT TITLE.
This Act may be cited as the “Wekiva Wild and Scenic River Act of 2000”.

SEC. 2. FINDINGS.
The Congress finds the following:
(1) Public Law 104–311 (110 Stat. 3818) amended section 5 of the Wild and Scenic Rivers Act (16 U.S.C. 1276) to require the study of the Wekiva River and its tributaries of Rock Springs Run and Seminole Creek for potential inclusion in the national wild and scenic rivers system.
(2) The study determined that the Wekiva River, Wekiwa Springs Run, Rock Springs Run, and Black Water Creek are eligible for inclusion in the national wild and scenic rivers system.
(3) The State of Florida has demonstrated its commitment to protecting these rivers and streams by the enactment of the Wekiva River Protection Act (Florida Statute chapter 369), by the establishment of a riparian wildlife protection zone and water quality protection zone by the St. Johns River Water Management District, and by the acquisition of lands adjacent to these rivers and streams for conservation purposes.
(4) The Florida counties of Lake, Seminole, and Orange have demonstrated their commitment to protect these rivers and streams in their comprehensive land use plans and land development regulations.
(5) The desire for designation of these rivers and streams as components of the national wild and scenic rivers system has been demonstrated through strong public support, State and local agency support, and the endorsement of designation by the Wekiva River Basin Ecosystem Working Group, which represents a broad cross section of State and local agencies, landowners, environmentalists, nonprofit organizations, and recreational users.
(6) The entire lengths of the Wekiva River, Rock Springs Run, and Black Water Creek are held in public ownership or conservation easements or are defined as waters of the State of Florida.

SEC. 3. DESIGNATION OF WEKIVA RIVER AND TRIBUTARIES, FLORIDA, AS COMPONENTS OF NATIONAL WILD AND SCENIC RIVERS SYSTEM.
[Added a new paragraph at the end of section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)).]

(a) DEFINITIONS.—In this section and section 5:

(1) WEKIVA RIVER SYSTEM.—The term “Wekiva River system” means the segments of the Wekiva River, Wekiwa Springs Run, Rock Springs Run, and Black Water Creek in the State of Florida designated as components of the national wild and scenic rivers system by paragraph (161) of section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)), as added by this Act.

(2) COMMITTEE.—The term “Committee” means the Wekiva River System Advisory Management Committee established pursuant to section 5.

(3) COMPREHENSIVE MANAGEMENT PLAN.—The terms “comprehensive management plan” and “plan” mean the comprehensive management plan to be developed pursuant to section 3(d) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(d)).

(4) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

2. NATIONAL TRAILS SYSTEM ACT (AND RELATED LAWS)
   [As Amended Through Public Law 106–580, Dec. 31, 2000]
A. NATIONAL TRAILS SYSTEM ACT

(Public Law 90–543; Approved October 2, 1968)

AN ACT To establish a national trails system, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. [16 U.S.C. 1241 note] This Act may be cited as the “National Trails System Act”.

STATEMENT OF POLICY

SEC. 2. [16 U.S.C. 1241] (a) In order to provide for the ever-increasing outdoor recreation needs of an expanding population and in order to promote the preservation of, public access to, travel within, and enjoyment and appreciation of the open-air, outdoor areas and historic resources of the Nation, trails should be established (i) primarily, near the urban areas of the Nation, and (ii) secondarily, within scenic areas and along historic travel routes of the Nation, which are often more remotely located.

(b) The purpose of this Act is to provide the means for attaining these objectives by instituting a national system of recreation, scenic and historic trails, by designating the Appalachian Trail and the Pacific Crest Trail as the initial components of that system, and by prescribing the methods by which, and standards according to which, additional components may be added to the system.

(c) The Congress recognizes the valuable contributions that volunteers and private, nonprofit trail groups have made to the development and maintenance of the Nation’s trails. In recognition of these contributions, it is further the purpose of this Act to encourage and assist volunteer citizen involvement in the planning, development, maintenance, and management, where appropriate, of trails.

NATIONAL TRAILS SYSTEM

SEC. 3. [16 U.S.C. 1242] (a) The national system of trails shall be composed of the following:

(1) National recreation trails, established as provided in section 4 of this Act, which will provide a variety of outdoor recreation uses in or reasonably accessible to urban areas.

(2) National scenic trails, established as provided in section 5 of this Act, which will be extended trails so located as to provide for maximum outdoor recreation potential and for the conservation and enjoyment of the nationally significant scenic, historic, natural, or cultural qualities of the areas
through which such trails may pass. National scenic trails may be located so as to represent desert, marsh, grassland, mountain, canyon, river, forest, and other areas, as well as landforms which exhibit significant characteristics of the physiographic regions of the Nation.

(3) National historic trails, established as provided in section 5 of this Act, which will be extended trails which follow as closely as possible and practicable the original trails or routes of travel of national historic significance. Designation of such trails or routes shall be continuous, but the established or developed trail, and the acquisition thereof, need not be continuous onsite. National historic trails shall have as their purpose the identification and protection of the historic route and its historic remnants and artifacts for public use and enjoyment. Only those selected land and water based components of an historic trail which are on federally owned lands and which meet the national historic trail criteria established in this Act are included as Federal protection components of a national historic trail. The appropriate Secretary may certify other lands as protected segments of an historic trail upon application from State or local governmental agencies or private interests involved if such segments meet the national historic trail criteria established in this Act and such criteria supplementary thereto as the appropriate Secretary may prescribe, and are administered by such agencies or interests without expense to the United States.

(4) Connecting or side trails, established as provided in section 6 of this Act, which will provide additional points of public access to national recreation, national scenic or national historic trails or which will provide connections between such trails.

The Secretary of the Interior and the Secretary of Agriculture, in consultation with appropriate governmental agencies and public and private organizations, shall establish a uniform marker for the national trails system.

(b) For purposes of this section, the term “extended trails” means trails or trail segments which total at least one hundred miles in length, except that historic trails of less than one hundred miles may be designated as extended trails. While it is desirable that extended trails be continuous, studies of such trails may conclude that it is feasible to propose one or more trail segments which, in the aggregate, constitute at least one hundred miles in length.

NATIONAL RECREATION TRAILS

SEC. 4. [16 U.S.C. 1243] (a) The Secretary of the Interior, or the Secretary of Agriculture where lands administered by him are involved, may establish and designate national recreation trails, with the consent of the Federal agency, State, or political subdivision having jurisdiction over the lands involved, upon finding that—

(i) such trails are reasonably accessible to urban areas, and, or

(ii) such trails meet the criteria established in this Act and such supplementary criteria as he may prescribe.
Sec. 5. 16 U.S.C. 1244 (a) National scenic and national historic trails shall be authorized and designated only by Act of Congress. There are hereby established the following National Scenic and National Historic Trails:

(b) As provided in this section, trails within park, forest, and other recreation areas administered by the Secretary of the Interior or the Secretary of Agriculture or in other federally administered areas may be established and designated as “National Recreation Trails” by the appropriate Secretary and, when no Federal land acquisition is involved—

(i) trails in or reasonably accessible to urban areas may be designated as “National Recreation Trails” by the appropriate Secretary with the consent of the States, their political subdivisions, or other appropriate administering agencies;

Such studies shall be made in consultation with the heads of other Federal agencies administering lands through which such additional proposed trails would pass and in cooperation with interested interstate, State, and local governmental agencies, public and private organizations, and landowners and land users concerned. The feasibility of designating a trail shall be determined on the basis of an evaluation of whether or not it is physically possible to develop a trail along a route being studied, and whether the development of a trail would be financially feasible. The studies listed in subsection (c) of this section shall be completed and submitted to the Congress, with recommendations as to the suitability of trail designation, not later than three complete fiscal years from the date of enactment of their addition to this subsection, or from the date of enactment of this sentence, whichever is later. Such studies, when submitted, shall be printed as a House or Senate document, and shall include, but not be limited to:

(1) the proposed route of such trail (including maps and illustrations);

(2) the areas adjacent to such trails, to be utilized for scenic, historic, natural, cultural, or developmental purposes;

\(^2\)Section 3(a)(2) of the Hawaii Volcanoes National Park Adjustment Act of 2000 (Public Law 106-510; 114 Stat. 2363) provides that “Any reference in any law (other than this Act), regulation, document, record, map, or other paper of the United States to ‘Hawaii Volcanoes National Park’ shall be considered a reference to ‘Hawaii’i Volcanoes National Park’.”
(3) the characteristics which, in the judgment of the appropriate Secretary, make the proposed trail worthy of designation as a national scenic or national historic trail; and in the case of national historic trails the report shall include the recommendation of the Secretary of the Interior’s National Park System Advisory Board as to the national historic significance based on the criteria developed under the Historic Sites Act of 1935 (49 Stat. 666; 16 U.S.C. 461);

(4) the current status of land ownership and current and potential use along the designated route;

(5) the estimated cost of acquisition of lands or interest in lands, if any;

(6) the plans for developing and maintaining the trail and the cost thereof;

(7) the proposed Federal administering agency (which, in the case of a national scenic or national historic trail wholly or substantially within a national forest, shall be the Department of Agriculture);

(8) the extent to which a State or its political subdivisions and public and private organizations might reasonably be expected to participate in acquiring the necessary lands and in the administration thereof;

(9) the relative uses of the lands involved, including: the number of anticipated visitor-days for the entire length of, as well as for segments of, such trail; the number of months which such trail, or segments thereof, will be open for recreation purposes; the economic and social benefits which might accrue from alternate land uses; and the estimated man-years of civilian employment and expenditures expected for the purposes of maintenance, supervision, and regulation of such trail;

(10) the anticipated impact of public outdoor recreation use on the preservation of a proposed national historic trail and its related historic and archeological features and settings, including the measures proposed to ensure evaluation and preservation of the values that contribute to their national historic significance; and

(11) to qualify for designation as a national historic trail, a trail must meet all three of the following criteria:

(A) It must be a trail or route established by historic use and must be historically significant as a result of that use. The route need not currently exist as a discernible trail to qualify, but its location must be sufficiently known to permit evaluation of public recreation and historical interest potential. A designated trail should generally accurately follow the historic route, but may deviate somewhat on occasion of necessity to avoid difficult routing through subsequent development, or to provide some route variation offering a more pleasurable recreational experience. Such deviations shall be so noted on site. Trail segments no longer possible to travel by trail due to subsequent development as motorized transportation routes may be designated and marked onsite as segments which link to the historic trail.

(B) It must be of national significance with respect to any of several broad facets of American history, such as
trade and commerce, exploration, migration and settlement, or military campaigns. To qualify as nationally significant, historic use of the trail must have had a far-reaching effect on broad patterns of American culture. Trails significant in the history of native Americans may be included.

(C) It must have significant potential for public recreational use or historical interest based on historic interpretation and appreciation. The potential for such use is generally greater along roadless segments developed as historic trails, and at historic sites associated with the trail. The presence of recreation potential not related to historic appreciation is not sufficient justification for designation under this category.

(c) The following routes shall be studied in accordance with the objectives outlined in subsection (b) of this section:

Any transfer of management responsibilities may be carried out between the Secretary of the Interior and the Secretary of Agriculture only as provided under subparagraph (B).

(B) The Secretary charged with the overall administration of any trail pursuant to section 5(a) may transfer management of any specified trail segment of such trail to the other appropriate Secretary pursuant to a joint memorandum of agreement containing such terms and conditions as the Secretaries consider most appropriate to accomplish the purposes of this Act. During any period in which management responsibilities for any trail segment are transferred under such an agreement, the management of any such segment shall be subject to the laws, rules, and regulations of the Secretary provided with the management authority under the agreement, except to such extent as the agreement may otherwise expressly provide.

(2) Pursuant to section 5(a), the appropriate Secretary shall select the rights-of-way for national scenic and national historic trails and shall publish notice of the availability of appropriate maps or descriptions in the Federal Register: Provided, That in selecting the rights-of-way full consideration shall be given to minimizing the adverse effects upon the adjacent landowner or user and his operation. Development and management of each segment of the National Trails System shall be designed to harmonize with and complement any established multiple-use plans for that specific area in order to insure continued maximum benefits from the land. The location and width of such rights-of-way across Federal lands under the jurisdiction of another Federal agency shall be by agreement between the head of that agency and the appropriate Secretary. In selecting rights-of-way for trail purposes, the Secretary shall obtain the advice and assistance of the States, local governments, private organizations, and landowners and land users concerned.

(b) After publication of notice of the availability of appropriate maps or descriptions in the Federal Register, the Secretary charged with the administration of a national scenic or national historic trail may relocate segments of a national scenic or national historic trail right-of-way, with the concurrence of the head of the Federal agency having jurisdiction over the lands involved, upon a determination that: (i) Such a relocation is necessary to preserve the purposes for which the trail was established, or (ii) the relocation is necessary to promote a sound land management program in accordance with established multiple-use principles: Provided, That a substantial relocation of the rights-of-way for such trail shall be by Act of Congress.

(c) National scenic or national historic trails may contain campsites, shelters, and related-public-use facilities. Other uses along the trail, which will not substantially interfere with the nature and purposes of the trail, may be permitted by the Secretary charged with the administration of the trail. Reasonable efforts shall be made to provide sufficient access opportunities to such trails and, to the extent practicable, efforts shall be made to avoid activities incompatible with the purposes for which such trails were established. The use of motorized vehicles by the general public
along any national scenic trail shall be prohibited and nothing in this Act shall be construed as authorizing the use of motorized vehicles within the natural and historical areas of the national park system, the national wildlife refuge system, the national wilderness preservation system where they are presently prohibited or on other Federal lands where trails are designated as being closed to such use by the appropriate Secretary: Provided, That the Secretary charged with the administration of such trail shall establish regulations which shall authorize the use of motorized vehicles when, in his judgment, such vehicles are necessary to meet emergencies or to enable adjacent landowners or land users to have reasonable access to their lands or timber rights: Provided further, That private lands included in the national recreation, national scenic, or national historic trails by cooperative agreement of a landowner shall not preclude such owner from using motorized vehicles on or across such trails or adjacent lands from time to time in accordance with regulations to be established by the appropriate Secretary. Where a national historic trail follows existing public roads, developed rights-of-way or waterways, and similar features of man’s nonhistorically related development, approximating the original location of a historic route, such segments may be marked to facilitate retracement of the historic route, and where a national historic trail parallels an existing public road, such road may be marked to commemorate the historic route. Other uses along the historic trails and the Continental Divide National Scenic Trail, which will not substantially interfere with the nature and purposes of the trail, and which, at the time of designation, are allowed by administrative regulations, including the use of motorized vehicles, shall be permitted by the Secretary charged with the administration of the trail. The Secretary of the Interior and the Secretary of Agriculture, in consultation with appropriate governmental agencies and public and private organizations, shall establish a uniform marker, including thereon an appropriate and distinctive symbol for each national recreation, national scenic, and national historic trial. Where the trails cross lands administered by Federal agencies such markers shall be erected at appropriated points along the trails and maintained by the Federal agency administering the trail in accordance with standards established by the appropriate Secretary and where the trails cross non-Federal lands, in accordance with written cooperative agreements, the appropriate Secretary shall provide such uniform markers to cooperating agencies and shall require such agencies to erect and maintain them in accordance with the standards established. The appropriate Secretary may also provide for trail interpretation sites, which shall be located at historic sites along the route of any national scenic or national historic trail, in order to present information to the public about the trail, at the lowest possible cost, with emphasis on the portion of the trail passing through the State in which the site is located. Wherever possible, the sites shall be maintained by a State

1 With regard to the sixth sentence of subsection (c), section 401(m)(2) of Public Law 96–87 (93 Stat. 666) amended section 551(18) of the National Parks and Recreation Act of 1978 (Public Law 95–625; 92 Stat. 3516) so that this sentence would be added to the National Trails System Act.
agency under a cooperative agreement between the appropriate Secretary and the State agency.

(d) Within the exterior boundaries of areas under their administration that are included in the right-of-way selected for a national recreation, national scenic, or national historic trail, the heads of Federal agencies may use lands for trail purposes and may acquire lands or interests in lands by written cooperative agreement, donation, purchase with donated or appropriated funds or exchange.

(e) Where the lands included in a national scenic or national historic trail right-of-way are outside of the exterior boundaries of federally administered areas, the Secretary charged with the administration of such trail shall encourage the States or local governments involved (1) to enter into written cooperative agreements with landowners, private organizations, and individuals to provide the necessary trail right-of-way, or (2) to acquire such lands or interests therein to be utilized as segments of the national scenic or national historic trail: Provided, That if the State or local governments fail to enter into such written cooperative agreements or to acquire such lands or interests therein after notice of the selection of the right-of-way is published, the appropriate Secretary may (i) enter into such agreements with landowners, States, local governments, private organizations, and individuals for the use of lands for trail purposes, or (ii) acquire private lands or interests therein by donation, purchase with donated or appropriated funds or exchange in accordance with the provisions of subsection (f) of this section: Provided further, That the appropriate Secretary may acquire lands or interests therein from local governments or governmental corporations with the consent of such entities. The lands involved in such rights-of-way should be acquired in fee, if other methods of public control are not sufficient to assure their use for the purpose for which they are acquired: Provided, That if the Secretary charged with the administration of such trail permanently relocates the right-of-way and disposes of all title or interest in the land, the original owner, or his heirs or assigns, shall be offered, by notice given at the former owner’s last known address, the right of first refusal at their fair market price.

(f)(1) The Secretary of the Interior, in the exercise of his exchange authority, may accept title to any non-Federal property within the right-of-way and in exchange therefor he may convey to the grantor of such property and federally owned property under his jurisdiction which is located in the State wherein such property is located and which he classifies as suitable for exchange or other disposal. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal the values shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require. The Secretary of Agriculture, in the exercise of his exchange authority, may utilize authorities and procedures available to him in connection with exchanges of national forest lands.

(2) In acquiring lands or interests therein for a National Scenic or Historic Trail, the appropriate Secretary may, with consent of a landowner, acquire whole tracts notwithstanding that parts of such tracts may lie outside the area of trail acquisition. In furtherance of the purposes of this Act, lands so acquired outside the area of
trail acquisition may be exchanged for any non-Federal lands or interests therein within the trail right-of-way, or disposed of in accordance with such procedures or regulations as the appropriate Secretary shall prescribe, including: (i) provisions for conveyance of such acquired lands or interests therein at not less than fair market value to the highest bidder, and (ii) provisions for allowing the last owners of record a right to purchase said acquired lands or interests therein upon payment or agreement to pay an amount equal to the highest bid price. For lands designated for exchange or disposal, the appropriate Secretary may convey these lands with any reservations or convenants deemed desirable to further the purposes of this Act. The proceeds from any disposal shall be credited to the appropriation bearing the costs of land acquisition for the affected trail.

(g) The appropriate Secretary may utilize condemnation proceedings without the consent of the owner to acquire private lands or interests therein pursuant to this section only in cases where, in his judgment, all reasonable efforts to acquire such lands or interests therein by negotiation have failed, and in such cases he shall acquire only such title as, in his judgment, is reasonably necessary to provide passage across such lands: Provided, That condemnation proceedings may not be utilized to acquire fee title or lesser interests to more than an average of one hundred and twenty-five acres per mile. Money appropriated for Federal purposes from the land and water conservation fund shall, without prejudice to appropriations from other sources, be available to Federal departments for the acquisition of lands or interests in lands for the purposes of this Act. For national historic trails, direct Federal acquisition for trail purposes shall be limited to those areas indicated by the study report or by the comprehensive plan as high potential route segments or high potential historic sites. Except for designated protected components of the trail, no land or site located along a designated national historic trail or along the Continental Divide National Scenic Trail shall be subject to the provisions of section 4(f) of the Department of Transportation Act (49 U.S.C. 1653(f) unless such land or site is deemed to be of historical significance under appropriate historical site criteria such as those for the National Register of Historic Places. 1

(h)(1) The Secretary charged with the administration of a national recreation, national scenic, or national historic trail shall provide for the development and maintenance of such trails within federally administered areas and shall cooperate with and encourage the States to operate, develop, and maintain portions of such trails which are located outside the boundaries of federally administered areas. When deemed to be in the public interest, such Secretary may enter written cooperative agreements with the States or their political subdivisions, landowners, private organizations, or individuals to operate, develop, and maintain any portion of such a trail either within or outside a federally administered area. Such agreements may include provisions for limited financial assistance to encourage participation in the acquisition, protection, operation,

1 With regard to the last sentence of subsection (g), section 401(m)(3) of Public Law 96–87 (93 Stat. 666) amended section 551(21) of the National Parks and Recreation Act of 1978 (Public Law 95–625; 92 Stat. 3516) so that this sentence would be added to the National Trails System Act.
development, or maintenance of such trails, provisions providing volunteer in the park or volunteer in the forest status (in accordance with the Volunteers in the Parks Act of 1969 and the Volunteers in the Forests Act of 1972) to individuals, private organizations, or landowners participating in such activities, or provisions of both types. The appropriate Secretary shall also initiate consultations with affected States and their political subdivisions to encourage—

(A) the development and implementation by such entities of appropriate measures to protect private landowners from trespass resulting from trail use and from unreasonable personal liability and property damage caused by trail use, and

(B) the development and implementation by such entities of provisions for land practices, compatible with the purposes of this Act,

for property within or adjacent to trail rights-of-way. After consulting with States and their political subdivisions under the preceding sentence, the Secretary may provide assistance to such entities under appropriate cooperative agreements in the manner provided by this subsection.

(2) Whenever the Secretary of the Interior makes any conveyance of land under any of the public land laws, he may reserve a right-of-way for trails to the extent he deems necessary to carry out the purposes of this Act.

(i) The appropriate Secretary, with the concurrence of the heads of any other Federal agencies administering lands through which a national recreation, national scenic, or national historic trail passes, and after consultation with the States, local governments, and organizations concerned, may issue regulations, which may be revised from time to time, governing the use, protection, management, development, and administration of trails of the national trails system. In order to maintain good conduct on and along the trails located within federally administered areas and to provide for the proper government and protection of such trails, the Secretary of the Interior and the Secretary of Agriculture shall prescribe and publish such uniform regulations as they deem necessary and any person who violates such regulations shall be guilty of a misdemeanor, and may be punished by a fine of not more than $500, or by imprisonment not exceeding six months, or by both such fine and imprisonment. The Secretary responsible for the administration of any segment of any component of the National Trails System (as determined in a manner consistent with subsection (a)(1) of this section) may also utilize authorities related to units of the national park system or the national forest system, as the case may be, in carrying out his administrative responsibilities for such component.

(j) Potential trail uses allowed on designated components of the national trails system may include, but are not limited to, the following: bicycling, cross-country skiing, day hiking, equestrian activities, jogging or similar fitness activities, trail biking, overnight and long-distance backpacking, snowmobiling, and surface water and underwater activities. Vehicles which may be permitted on certain trails may include, but need not be limited to, motorcycles, bicycles, four-wheel drive or all-terrain off-road vehicles. In addition, trail access for handicapped individuals may be provided. The provisions
of this subsection shall not supersede any other provisions of this Act or other Federal laws, or any State or local laws.

(k) For the conservation purpose of preserving or enhancing the recreational, scenic, natural, or historical values of components of the national trails system, and environs thereof as determined by the appropriate Secretary, landowners are authorized to donate or otherwise convey qualified real property interests in qualified organizations consistent with section 170(h)(3) of the Internal Revenue Code 1954, including, but not limited to, right-of-way, open space, scenic, or conservation easements, without regard to any limitation on the nature of the estate or interest otherwise transferrable within the jurisdiction where the land is located. The conveyance of any such interest in land in accordance with this subsection shall be deemed to further a Federal conservation policy and yield a significant public benefit for purposes of section 6 of Public Law 96–541.

STATE AND METROPOLITAN AREA TRAILS

SEC. 8. [16 U.S.C. 1247] (a) The Secretary of the Interior is directed to encourage States to consider, in their comprehensive statewide outdoor recreation plans and proposals for financial assistance for State and local projects submitted pursuant to the Land and Water Conservation Fund Act, needs and opportunities for establishing park, forest, and other recreation and historic trails on lands owned or administered by States, and recreation trails on lands in or near urban areas.

The Secretary is also directed to encourage States to consider, in their comprehensive statewide historic preservation plans and proposals for financial assistance for State, local, and private projects submitted pursuant to the Act of October 15, 1966 (80 Stat. 915), as amended, needs and opportunities for establishing historic trails. He is further directed, in accordance with the authority contained in the Act of May 28, 1963 (77 Stat. 49), to encourage States, political subdivisions, and private interests, including nonprofit organizations, to establish such trails.

(b) The Secretary of Housing and Urban Development is directed, in administering the program of comprehensive urban planning and assistance under section 701 of the Housing Act of 1954, to encourage the planning of recreation trails in connection with the recreation and transportation planning for metropolitan and other urban areas. He is further directed, in administering the urban open-space program under title VII of the Housing Act of 1961, to encourage such recreation trails.

(c) The Secretary of Agriculture is directed, in accordance with authority vested in him, to encourage States and local agencies and private interests to establish such trails.

(d) The Secretary of Transportation, the Chairman of the Surface Transportation Board, and the Secretary of the Interior, in administering the Railroad Revitalization and Regulatory Reform Act of 1976, shall encourage State and local agencies and private interests to establish appropriate trails using the provisions of such programs. Consistent with the purposes of that Act, and in furtherance of the national policy to preserve established railroad rights-of-way for future reactivation of rail service, to protect rail transportation corridors, and to encourage energy efficient transpor-
tation use, in the case of interim use of any established railroad rights-of-way pursuant to donation, transfer, lease, sale, or otherwise in a manner consistent with the National Trails System Act, if such interim use is subject to restoration or reconstruction for railroad purposes, such interim use shall not be treated, for purposes of any law or rule of law, as an abandonment of the use of such rights-of-way for railroad purposes. If a State, political subdivision, or qualified private organization is prepared to assume full responsibility for management of such rights-of-way and for any legal liability arising out of such transfer or use, and for the payment of any and all taxes that may be levied or assessed against such rights-of-way, then the Board shall impose such terms and conditions as a requirement of any transfer or conveyance for interim use in a manner consistent with this Act, and shall not permit abandonment or discontinuance inconsistent or disruptive of such use.

(e) Such trails may be designated and suitably marked as parts of the nationwide system of trails by the States, their political subdivisions, or other appropriate administering agencies with the approval of the Secretary of the Interior.

RIGHTS-OF-WAY AND OTHER PROPERTIES

Sec. 9. [16 U.S.C. 1248] (a) The Secretary of the Interior or the Secretary of Agriculture as the case may be, may grant easements and rights-of-way upon, over, under, across, or along any component of the national trails system in accordance with laws applicable to the national park system and the national forest system, respectively: Provided, That any conditions contained in such easements and rights-of-way shall be related to the policy and purposes of this Act.

(b) The Department of Defense, the Department of Transportation, the Surface Transportation Board, the Federal Communications Commission, the Federal Power Commission, and other Federal agencies have jurisdiction or control over or information concerning the use, abandonment, or disposition of roadways, utility rights-of-way, or other properties which may be suitable for the purpose of improving or expanding the national trails system shall cooperate with the Secretary of the Interior and the Secretary of Agriculture in order to assure, to the extent practicable, that any such properties having values suitable for trail purposes may be made available for such use.

(c) Commencing upon the date of enactment of this subsection, any and all right, title, interest, and estate of the United States in all rights-of-way of the type described in the Act of March 8, 1922 (43 U.S.C. 912), shall remain in the United States upon the abandonment or forfeiture of such rights-of-way, or portions thereof, except to the extent that any such right-of-way, or portion thereof, is embraced within a public highway no later than one year after a determination of abandonment or forfeiture, as provided under such Act.

(d)(1) All rights-of-way, or portions thereof, retained by the United States pursuant to subsection (c) which are located within the boundaries of a conservation system unit or a National Forest shall be added to and incorporated within such unit or National
Forest and managed in accordance with applicable provisions of law, including this Act.

(2) All such retained rights-of-way, or portions thereof, which are located outside the boundaries of a conservation system unit or a National Forest but adjacent to or contiguous with any portion of the public lands shall be managed pursuant to the Federal Land Policy and Management Act of 1976 and other applicable law, including this section.

(3) All such retained rights-of-way, or portions thereof, which are located outside the boundaries of a conservation system unit or National Forest which the Secretary of the Interior determines suitable for use as a public recreational trail or other recreational purposes shall be managed by the Secretary for such uses, as well as for such other uses as the Secretary determines to be appropriate pursuant to applicable laws, as long as such uses do not preclude trail use.

(e)(1) The Secretary of the Interior is authorized where appropriate to release and quitclaim to a unit of government or to another entity meeting the requirements of this subsection any and all right, title, and interest in the surface estate of any portion of any right-of-way to the extent any such right, title, and interest was retained by the United States pursuant to subsection (c), if such portion is not located within the boundaries of any conservation system unit or National Forest. Such release and quitclaim shall be made only in response to an application therefor by a unit of State or local government or another entity which the Secretary of the Interior determines to be legally and financially qualified to manage the relevant portion for public recreational purposes. Upon receipt of such an application, the Secretary shall publish a notice concerning such application in a newspaper of general circulation in the area where the relevant portion is located. Such release and quitclaim shall be on the following conditions:

(A) If such unit or entity attempts to sell, convey, or otherwise transfer such right, title, or interest or attempts to permit the use of any part of such portion for any purpose incompatible with its use for public recreation, then any and all right, title, and interest released and quitclaimed by the Secretary pursuant to this subsection shall revert to the United States.

(B) Such unit or entity shall assume full responsibility and hold the United States harmless for any legal liability which might arise with respect to the transfer, possession, use, release, or quitclaim of such right-of-way.

(C) Notwithstanding any other provision of law, the United States shall be under no duty to inspect such portion prior to such release and quitclaim, and shall incur no legal liability with respect to any hazard or any unsafe condition existing on such portion at the time of such release and quitclaim.

(2) The Secretary is authorized to sell any portion of a right-of-way retained by the United States pursuant to subsection (c) located outside the boundaries of a conservation system unit or National Forest if any such portion is—

(A) not adjacent to or contiguous with any portion of the public lands; or
(B) determined by the Secretary, pursuant to the disposal criteria established by section 203 of the Federal Land Policy and Management Act of 1976, to be suitable for sale. Prior to conducting any such sale, the Secretary shall take appropriate steps to afford a unit of State or local government or any other entity an opportunity to seek to obtain such portion pursuant to paragraph (1) of this subsection.

(3) All proceeds from sales of such retained rights of way shall be deposited into the Treasury of the United States and credited to the Land and Water Conservation Fund as provided in section 2 of the Land and Water Conservation Fund Act of 1965.

(4) The Secretary of the Interior shall annually report to the Congress the total proceeds from sales under paragraph (2) during the preceding fiscal year. Such report shall be included in the President’s annual budget submitted to the Congress.

(f) As used in this section—

(1) The term “conservation system unit” has the same meaning given such term in the Alaska National Interest Lands Conservation Act (Public Law 96–487; 94 Stat. 2371 et seq.), except that such term shall also include units outside Alaska.

(2) The term “public lands” has the same meaning given such term in the Federal Land Policy and Management Act of 1976.

(2) It is the express intent of the Congress that the Secretary should substantially complete the land acquisition program necessary to insure the protection of the Appalachian Trail within three complete fiscal years following the date of enactment of this sentence.

(b) For the purposes of Public Law 95–42 (91 Stat. 211), the lands and interests therein acquired pursuant to this section shall be deemed to qualify for funding under the provisions of section 1, clause 2, of said Act.

(2) Except as otherwise provided in this Act, there is authorized to be appropriated such sums as may be necessary to implement the provisions of this Act relating to the trails designated by section 5(a). Not more than $500,000 may be appropriated for the purposes of acquiring land and interests therein for the trail designated by section 5(a)(12) of this Act, and not more than $2,000,000 may be appropriated for the purposes of the development of such trail. The administering agency for the trail shall encourage volunteer trail groups to participate in the development of the trail.

Criteria for consideration as high potential sites include historic significance, presence of visible historic remnants, scenic quality, and relative freedom from intrusion.

(2) The term “high potential route segments” means those segments of a trail which would afford high quality recreation experience in a portion of the route having greater than average scenic values or affording an opportunity to vicariously share the experience of the original users of a historic route.

(3) The term “State” means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and any other territory or possession of the United States.

B. PUBLIC LAW 91–383
(POPULARLY KNOWN AS THE NATIONAL PARK SYSTEM GENERAL
AUTHORITIES ACT)

(Act of August 18, 1970; 84 Stat. 825; 16 U.S.C. 1a–1 through 1a–7a)

AN ACT To improve the administration of the national park system by the Secretary of the Interior, and to clarify the authorities applicable to the system, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, [16 U.S.C. 1a–1]

That Congress declares that the national park system, which began with establishment of Yellowstone National Park in 1872, has since grown to include superlative natural, historic, and recreation areas in every major region of the United States, its territories and island possessions; that these areas, though distinct in character, are united through their inter-related purposes and resources into one national park system as cumulative expressions of a single national heritage; that, individually and collectively, these areas derive increased national dignity and recognition of their superb environmental quality through their inclusion jointly with each other in one national park system preserved and managed for the benefit and inspiration of all the people of the United States; and that it is the purpose of this Act to include all such areas in the System and to clarify the authorities applicable to the system. Congress further reaffirms, declares, and directs that the promotion and regulation of the various areas of the National Park System, as defined in section 2 of this Act, shall be consistent with and founded in the purpose established by the first section of the Act of August 25, 1916, to the common benefit of all the people of the United States. The authorization of activities shall be construed and the protection, management, and administration of these areas shall be conducted in light of the high public value and integrity of the National Park System and shall not be exercised in derogation of the values and purposes for which these various areas have been established, except as may have been or shall be directly and specifically provided by Congress.

SEC. 2. [Omitted—Amendment]

SEC. 3. [16 U.S.C. 1a–2] In order to facilitate the administration of the national park system, the Secretary of the Interior is authorized, under such terms and conditions as he may deem advisable, to carry out the following activities:

(a) Provide transportation of employees located at isolated areas of the national park system and to members of their families, where (1) such areas not adequately served by com-
mercial transportation, and (2) such transportation is incidental to official transportation services.

(b) Provide recreation facilities, equipment, and services for use by employees and their families located at isolated areas of the national park system.

(c) Appoint and establish such advisory committees in regard to the functions of the National Park Service as he may deem advisable, members of which shall receive no compensation for their services as such but who shall be allowed necessary travel expenses as authorized by section 5 of the Administrative Expenses Act of 1946 (5 U.S.C. 5703).

(d) Purchase field and special purpose equipment required by employees for the performance of assigned functions which shall be regarded and listed as park equipment.

(e) Enter into contracts which provide for the sale or lease to persons, States, or their political subdivisions, of services, resources, or water available within an area of the national park system, as long as such activity does not jeopardize or unduly interfere with the primary natural or historic resource of the area involved, if such person, State, or its political subdivision—

(1) provides public accommodations or services within the immediate vicinity of an area of the national park system to persons visiting the area; and

(2) has demonstrated to the Secretary that there are no reasonable alternatives by which to acquire or perform the necessary services, resources, or water.

The investigations provided for in this subsection shall be designed to provide information of value to the Secretary, in determining any appropriate limitations on permittees’ activity in Glacier Bay. The Secretary may
not impose any additional permittee operating conditions in the areas of air, water, and oil pollution beyond those determined and enforced by other appropriate agencies. When competitively awarding permits to enter Glacier Bay, the Secretary may take into account the relative impact particular permittees will have on park values and resources, provided that no operating conditions or limitations relating to noise abatement shall be imposed unless the Secretary determines, based on the weight of the evidence from all available studies including verifiable scientific information from the investigations provided for in this subsection, that such limitations or conditions are necessary to protect park values and resources. Fees paid by certain permittees for the privilege of entering into Glacier Bay shall not exceed $5 per passenger. For the purposes of this subsection, “certain permittee” shall mean a permittee which provides overnight accommodations for at least 500 passengers for an itinerary of at least 3 nights, and “permittee” shall mean a concessionaire providing visitor services within Glacier Bay. (j) Enter into cooperative agreements with public or private educational institutions, States, and their political subdivisions, for the purpose of developing adequate, coordinated, cooperative research and training programs concerning the resources of the National Park System, and, pursuant to any such agreements, to accept from and make available to the operator such technical and support staff, financial assistance for mutually agreed upon research projects, supplies and equipment, facilities, and administrative services relating to cooperative research units as the Secretary deems appropriate; except that this paragraph shall not waive any requirements for research projects that are subject to the Federal procurement regulations.

J. SECTION 814 OF PUBLIC LAW 104–333

(NATIONAL PARK SERVICE ADMINISTRATIVE REFORM)

SEC. 814. NATIONAL PARK SERVICE ADMINISTRATIVE REFORM.

(a) [16 U.S.C. 17o note] NATIONAL PARK SERVICE HOUSING IMPROVEMENT.—

(1) PURPOSES.—The purposes of this section are—

(A) to develop where necessary an adequate supply of quality housing units for field employees of the National Park Service within a reasonable time frame;

(B) to expand the alternatives available for construction and repair of essential Government housing;

(C) to rely on the private sector to finance or supply housing in carrying out this section, to the maximum extent possible, in order to reduce the need for Federal appropriations;

(D) to ensure that adequate funds are available to provide for long-term maintenance needs of field employee housing; and

(E) to eliminate unnecessary Government housing and locate such housing as is required in a manner such that primary resource values are not impaired.

(2) GENERAL AUTHORITY.—To enhance the ability of the Secretary of the Interior (hereafter in this subsection referred to as “the Secretary”), acting through the Director of the National Park Service, to effectively manage units of the National Park System, the Secretary is authorized where necessary and justified to make available employee housing, on or off the lands under the administrative jurisdiction of the National Park Service, and to rent or lease such housing to field employees of the National Park Service at rates based on the reasonable value of the housing in accordance with requirements applicable under section 5911 of title 5, United States Code.

(3) REVIEW AND REVISION OF HOUSING CRITERIA.—Upon the enactment of this Act, the Secretary shall review and revise the existing criteria under which housing is provided to employees of the National Park Service. Specifically, the Secretary shall examine the existing criteria with respect to what circumstances the National Park Service requires an employee to occupy Government quarters to provide necessary services, protect Government property, or because of a lack of availability of non-Federal housing in the geographic area.

(4) SUBMISSION OF REPORT.—A report detailing the results of the revisions required by paragraph (3) shall be submitted to the Committee on Resources of the House of Representatives.
and the Committee on Energy and Natural Resources of the Senate not later than 180 days after the date of the enactment of this Act. The report shall include justifications for keeping, or for changing, each of the criteria or factors used by the Department of the Interior with regard to the provision of housing to employees of the National Park Service.

(5) REVIEW OF CONDITION OF AND COSTS RELATING TO HOUSING.—Using the revised criteria developed under paragraph (3), the Secretary shall undertake a review, for each unit of the National Park System, of existing government-owned housing provided to employees of the National Park Service. The review shall include an assessment of the physical condition of such housing and the suitability of such housing to effectively carry out the missions of the Department of the Interior and the National Park Service. For each unit of such housing, the Secretary shall determine whether the unit is needed and justified. The review shall include estimates of the cost of bringing each unit that is needed and justified into usable condition that meets all applicable legal housing requirements or, if the unit is determined to be obsolete but is still warranted to carry out the missions of the Department of the Interior and the National Park Service, the cost of replacing the unit.

(6) AUTHORIZATION FOR HOUSING AGREEMENTS.—For those units of the National Park System for which the review required by paragraphs (3) and (5) has been completed, the Secretary is authorized, pursuant to the authorities contained in this subsection and subject to the appropriation of necessary funds in advance, to enter into housing agreements with housing entities under which such housing entities may develop, construct, rehabilitate, or manage housing, located on or off public lands, for rent or lease to National Park Service employees who meet the housing eligibility criteria developed by the Secretary pursuant to this section.

(7) JOINT PUBLIC-PRIVATE SECTOR HOUSING PROGRAMS.—

(A) LEASE TO BUILD PROGRAM.—Subject to the appropriation of necessary funds in advance, the Secretary may—

(i) lease Federal land and interests in land to qualified persons for the construction of field employee quarters for any period not to exceed 50 years; and

(ii) lease developed and undeveloped non-Federal land for providing field employee quarters.

(B) COMPETITIVE LEASING.—Each lease under subparagraph (A)(i) shall be awarded through the use of publicly advertised, competitively bid, or competitively negotiated contracting procedures.

(C) TERMS AND CONDITIONS.—Each lease under subparagraph (A)(i)—

(i) shall stipulate whether operation and maintenance of field employee quarters is to be provided by the lessee, field employees or the Federal Government;

(ii) shall require that the construction and rehabilitation of field employee quarters be done in accordance with the requirements of the National Park Serv-
ice and local applicable building codes and industry standards;
(iii) shall contain such additional terms and conditions as may be appropriate to protect the Federal interest, including limits on rents the lessee may charge field employees for the occupancy of quarters, conditions on maintenance and repairs, and agreements on the provision of charges for utilities and other infrastructure; and
(iv) may be granted at less than fair market value if the Secretary determines that such lease will improve the quality and availability of field employee quarters available.

(D) CONTRIBUTIONS BY UNITED STATES.—The Secretary may make payments, subject to appropriations, or contributions in kind either in advance of or on a continuing basis to reduce the costs of planning, construction, or rehabilitation of quarters on or off Federal lands under a lease under this paragraph.

(8) RENTAL GUARANTEE PROGRAM.—
(A) GENERAL AUTHORITY.—Subject to the appropriation of necessary funds in advance, the Secretary may enter into a lease to build arrangement as set forth in paragraph (7) with further agreement to guarantee the occupancy of field employee quarters constructed or rehabilitated under such lease. A guarantee made under this paragraph shall be in writing.

(B) LIMITATIONS.—The Secretary may not guarantee—
(i) the occupancy of more than 75 percent of the units constructed or rehabilitated under such lease; and
(ii) at a rental rate that exceeds the rate based on the reasonable value of the housing in accordance with requirements applicable under section 5911 of title 5, United States Code.

In no event shall outstanding guarantees be in excess of $3,000,000.

(C) RENTAL TO GOVERNMENT EMPLOYEES.—A guarantee may be made under this subsection only if the lessee agrees to permit the Secretary to utilize for housing purposes any units for which the guarantee is made.

(D) FAILURE TO MAINTAIN A SATISFACTORY LEVEL OF OPERATION AND MAINTENANCE.—The lease shall be null and void if the lessee fails to maintain a satisfactory level of operation and maintenance.

(9) JOINT DEVELOPMENT AUTHORITY.—The Secretary may use authorities granted by statute in combination with one another in the furtherance of providing where necessary and justified affordable field employee housing.

(10) CONTRACTS FOR THE MANAGEMENT OF FIELD EMPLOYEE QUARTERS.—
(A) GENERAL AUTHORITY.—Subject to the appropriation of necessary funds in advance, the Secretary may enter into contracts of any duration for the management, repair, and maintenance of field employee quarters.
(B) TERMS AND CONDITIONS.—Any such contract shall contain such terms and conditions as the Secretary deems necessary or appropriate to protect the interests of the United States and assure that necessary quarters are available to field employees.

(11) LEASING OF SEASONAL EMPLOYEE QUARTERS.—
   (A) GENERAL AUTHORITY.—Subject to subparagraph (B), the Secretary may lease quarters at or near a unit of the national park system for use as seasonal quarters for field employees. The rent charged to field employees under such a lease shall be a rate based on the reasonable value of the quarters in accordance with requirements applicable under section 5911 of title 5, United States Code.
   (B) LIMITATION.—The Secretary may only issue a lease under subparagraph (A) if the Secretary finds that there is a shortage of adequate and affordable seasonal quarters at or near such unit and that—
      (i) the requirement for such seasonal field employee quarters is temporary; or
      (ii) leasing would be more cost-effective than construction of new seasonal field employee quarters.
   (C) UNRECOVERED COSTS.—The Secretary may pay the unrecovered costs of leasing seasonal quarters under this paragraph from annual appropriations for the year in which such lease is made.

(12) SURVEY OF EXISTING FACILITIES.—The Secretary shall—
   (A) complete a condition assessment for all field employee housing, including the physical condition of such housing and the necessity and suitability of such housing for carrying out the agency mission, using existing information; and

(15) STUDY OF HOUSING ALLOWANCES.—Within 12 months after the date of enactment of this Act, the Secretary shall conduct a study to determine the feasibility of providing eligible employees of the National Park Service with housing allowances rather than Government housing. The study shall specifically examine the feasibility of providing rental allowances to temporary and lower paid permanent employees. Whenever the Secretary submits a copy of such study to the Office of
Management and Budget, he shall concurrently transmit copies of the report to the Resources Committee of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate.

(b) REVIEW AND APPROVAL.—The Secretary shall ensure that museum collections are treated in a careful and deliberate manner that protects the public interest. Prior to taking any action under subsection (a), the Secretary shall establish a systematic review and approval process, including consultation with appropriate experts, that meets the highest standards of the museum profession for all actions taken under this section.

M. PUBLIC LAW 89–249

(Popularly known as the National Park Service Concessions Policy Act)

(Repealed)

(Act of Oct. 9, 1965; 79 Stat. 969; 16 U.S.C. 20 through 20g)

AN ACT Relating to the establishment of concession policies in the areas administered by National Park Service and for other purposes. 1

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, [16 U.S.C. 20]

That in furtherance of the Act of August 25, 1916 (39 Stat. 535), as amended (16 U.S.C. 1), which directs the Secretary of the Interior to administer national park system areas in accordance with the fundamental purpose of conserving their scenery, wildlife, natural and historic objects, and providing for their enjoyment in a manner that will leave them unimpaired for the enjoyment of future generations, the Congress hereby finds that the preservation of park values requires that such public accommodations, facilities, and services as have to be provided within those areas should be provided only under carefully controlled safeguards against unregulated and indiscriminate use, so that the heavy visitation will not unduly impair these values and so that development of such facilities can best be limited to locations where the least damage to park values will be caused. It is the policy of the Congress that such development shall be limited to those that are necessary and appropriate for public use and enjoyment of the national park area in which they are located and that are consistent to the highest practicable degree with the preservation and conservation of the areas.

SEC. 2. [16 U.S.C. 20a] Subject to the findings and policy stated in section 1 of this Act, the Secretary of the Interior shall take such action as may be appropriate to encourage and enable private persons and corporations (hereinafter referred to as “concessioners”) to provide and operate facilities and services which he deems desirable for the accommodation of visitors in areas administered by the National Park Service.

1Public Law 89–249 was repealed by section 415(a) of the National Park Service Concessions Management Improvement Act of 1998 (title IV of Public Law 105–391; 112 Stat. 3515). The repeal provided that the repeal of Public Law 89–249 “shall not affect the validity of any concessions contract or permit entered into under such Act, but the provisions of this title [the National Park Service Concessions Management Improvement Act of 1998 (16 U.S.C. 5951 et seq.)] shall apply to any such contract or permit except to the extent such provisions are inconsistent with the terms and conditions of any such contract or permit.”.
SEC. 3. [16 U.S.C. 20b] (a) Without limitation of the foregoing, the Secretary may include in contracts for the providing of facilities and services such terms and conditions as, in his judgment, are required to assure the concessioner of adequate protection against loss of investment in structures, fixtures, improvements, equipment, supplies, and other tangible property provided by him for the purposes of the contract (but not against loss of anticipated profits) resulting from discretionary acts, policies, or decisions of the Secretary occurring after the contract has become effective under which acts, policies, or decisions the concessioner’s authority to conduct some or all of his authorized operations under the contract ceases or his structures, fixtures, and improvements, or any of them, are required to be transferred to another party or to be abandoned, removed, or demolished. Such terms and conditions may include an obligation of the United States to compensate the concessioner for loss of investment, as aforesaid.

(b) The Secretary shall exercise his authority in a manner consistent with a reasonable opportunity for the concessioner to realize a profit on his operation as a whole commensurate with the capital invested and the obligations assumed.

(c) The reasonableness of a concessioner’s rates and charges to the public shall, unless otherwise provided in the contract, be judged primarily by comparison with those current for facilities and services of comparable character under similar conditions, with due consideration for length of season, provision for peakloads, average percentage of occupancy, accessibility, availability and costs of labor and materials, type of patronage, and other factors deemed significant by the Secretary.

(d) Franchise fees, however stated, shall be determined upon consideration of the probable value to the concessioner of the privileges granted by the particular contract or permit involved. Such value is the opportunity for net profit in relation to both gross receipts and capital invested. Consideration of revenue to the United States shall be subordinate to the objectives of protecting and preserving the areas and of providing adequate and appropriate services for visitors at reasonable rates. Appropriate provisions shall be made for reconsideration of franchise fees at least every five years unless the contract is for a lesser period of time.

SEC. 4. [16 U.S.C. 20c] The Secretary may authorize the operation of all accommodations, facilities, and services for visitors, or of all such accommodations, facilities, and services of generally similar character, in each area, or portion thereof, administered by the National Park Service by one responsible concessioner and may grant to such concessioner a preferential right to provide such new or additional accommodations, facilities, or services as the Secretary may consider necessary or desirable for the accommodation and convenience of the public. The Secretary may, in his discretion, grant extensions, renewals, or new contracts to present concessioners, other than the concessioner holding a preferential right, for operations substantially similar in character and extent to those authorized by their current contracts or permits.

SEC. 5. [16 U.S.C. 20d] The Secretary shall encourage continuity of operation and facilities and services by giving preference
in the renewal of contracts or permits and in the negotiation of new contracts or permits to the concessioners who have performed their obligations under prior contracts or permits to the satisfaction of the Secretary. To this end, the Secretary, at any time in his discretion, may extend or renew a contract or permit, or may grant a new contract or permit to the same concessioner upon the termination or surrender before expiration of a prior contract or permit. Before doing so, however, and before granting extensions, renewals or new contracts pursuant to the last sentence of section 4 of this Act, the Secretary shall give reasonable public notice of his intention so to do and shall consider and evaluate all proposals received as a result thereof.

Sec. 6. [16 U.S.C. 20e] A concessioner who has heretofore acquired or constructed or who hereafter acquires or constructs, pursuant to a contract and with the approval of the Secretary, any structure, fixture, or improvement upon land owned by the United States within an area administered by the National Park Service shall have a possessory interest therein, which shall consist of all incidents of ownership except legal title, and except as hereinafter provided, which title shall be vested in the United States. Such possessory interest shall not be construed to include or imply any authority, privilege, or right to operate or engage in any business or other activity, and the use or enjoyment of any structure, fixture, or improvement in which the concessioner has a possessory interest shall be wholly subject to the applicable provisions of the contract and of laws and regulations relating to the area. The said possessory interest shall not be extinguished by the expiration or other termination of the contract and may not be taken for public use without just compensation. The said possessory interest may be assigned, transferred, encumbered, or relinquished. Unless otherwise provided by agreement of the parties, just compensation shall be an amount equal to the sound value of such structure, fixture, or improvement at the time of taking by the United States determined upon the basis of reconstruction cost less depreciation evidenced by its condition and prospective serviceability in comparison with a new unit of like kind, but not to exceed fair market value. The provisions of this section shall not apply to concessioners whose current contracts do not include recognition of a possessory interest, unless in a particular case the Secretary determines that equitable considerations warrant recognition of such interest.

Sec. 8. [Omitted—Amendment]
SEC. 9. [16 U.S.C. 20g] Each concessioner shall keep such records as the Secretary may prescribe to enable the Secretary to determine that all terms of the concession contract have been and are being faithfully performed, and the Secretary and his duly authorized representatives shall, for the purpose of audit and examination, have access to said records and to other books, documents, and papers of the concessioner pertinent to the contract and all the terms and conditions thereof.

The Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of five (5) calendar years after the close of the business year of each concessioner or subconcessioner have access to and the right to examine any pertinent books, documents, papers, and records of the concessioner or subconcessioner related to the negotiated contract or contracts involved.
N. SECTION 5 OF PUBLIC LAW 90–401
(LAND TRANSFERS)

SEC. 5. [16 U.S.C. 460l–22] (a) With respect to any property acquired by the Secretary of the Interior within a unit of the national park system or miscellaneous area, except property, within national parks, or within national monuments of scientific significance, the Secretary may convey a freehold or leasehold interest therein, subject to such terms and conditions as will assure the use of the property in a manner which is, in the judgment of the Secretary, consistent with the purpose for which the area was authorized by the Congress. In any case in which the Secretary exercises his discretion to convey such interest, he shall do so to the highest bidder, in accordance with such regulations as the Secretary may prescribe, but such conveyance shall be at not less than the fair market value of the interest, as determined by the Secretary; except that if any such conveyance is proposed within two years after the property to be conveyed is acquired by the Secretary, he shall allow the last owner or owners of record of such property thirty days following the date on which they are notified by the Secretary in writing that such property is to be conveyed within which to notify the Secretary that such owners wish to acquire such interest. Upon receiving such timely request, the Secretary shall convey such interest to such person or persons, in accordance with such regulations as the Secretary may prescribe, upon payment or agreement to pay an amount equal to the highest bid price.

(b) The Secretary of the Interior is authorized to accept title to any non-Federal property or interest therein within a unit of the National Park System or miscellaneous area under his administration, and in exchange therefor he may convey to the grantor of such property or interest any Federally-owned property or interest therein under his jurisdiction which he determines is suitable for exchange or other disposal and which is located in the same State as the non-Federal property to be acquired: Provided, however, That timber lands subject to harvest under a sustained yield program shall not be so exchanged. Upon request of a State or a political subdivision thereof, or of a party in interest, prior to such exchange the Secretary or his designee shall hold a public hearing in the area where the lands to be exchanged are located. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal, the values shall be equalized by the payment of cash to the grantor from funds appropriated for the acquisition of land for the area, or to the Secretary as the circumstances require.
(c) In order to protect the air, land, water, and natural and cultural values of the National Park System and the property of the United States therein, no solid waste disposal site (including any site for the disposal of domestic or industrial solid wastes) may be operated within the boundary of any unit of the National Park System, other than—

(1) a site which was operating as of September 1, 1984, or
(2) a site used only for disposal of wastes generated within that unit of the park system so long as such site will not degrade any of the natural or cultural resources of such park unit.

The Secretary of the Interior shall promulgate regulations to carry out the provisions of this subsection, including reasonable regulations to mitigate the adverse effects of solid waste disposal sites in operation as of September 1, 1984, upon property of the United States.

(d) The proceeds received from any conveyance under this section shall be credited to the land and water conservation fund in the Treasury of the United States.
O. TITLE III OF PUBLIC LAW 95–344
(PUBLIC TRANSPORTATION PROGRAMS)

TITLE III
FINDINGS AND PURPOSE

SEC. 301. [16 U.S.C. 2301] (a) The Congress hereby finds that—
(1) the purpose of the National Park System is to preserve outstanding natural, scenic, historic, and recreation areas for the enjoyment, education, inspiration, and use of all people;
(2) units of the National Park System have recently been established near major metropolitan areas in order to preserve remaining open space and to provide recreational opportunities for urban residents (many of whom do not have access to personal motor vehicles); and
(3) circumstances which necessarily require peoples desiring to visit units of the National Park System to rely on personal motor vehicles may diminish the natural and recreational value of such units by causing traffic congestion and environmental damage, and by requiring the provision of roads, parking, and other facilities in ever-increasing numbers and density.
(b) The purpose of this title is to make the National Park System more accessible in a manner consistent with the preservation of parks and the conservation of energy by encouraging the use of transportation modes other than personal motor vehicles for access to and within units of the National Park System with minimum disruption to nearby communities through authorization of a pilot transportation program.

SEC. 302. [16 U.S.C. 2302] (a) The Secretary of the Interior (hereinafter referred to as “Secretary”) is authorized to formulate transportation plans and implement transportation projects where feasible pursuant to those plans for units of the national park system.
(b) To carry out the purposes of subsection (a) of this section, the Secretary is authorized to—
(1) contract with public or private agencies or carriers to provide transportation services, capital equipment, or facilities to improve access to units of the national park system;
(2) operate such services directly in the absence of suitable and adequate agencies or carriers;
(3) acquire by purchase, lease, or agreement, capital equipment for such services; and
(4) where necessary to carry out the purposes of this title, acquire by lease, purchase, donation, exchange, or transfer, lands, waters, and interests therein which are situated outside the boundary of a unit of the national park system, which property shall be administered as part of the unit: Provided, That any land or interests in land owned by a State or any of its political subdivisions may be acquired only by donation: Provided further, That any land acquisition shall be subject to such statutory limitations, if any, on methods of acquisition and appropriations thereof as may be specifically applicable to such area.
(c) [Repealed by section 814(d)(1)(A) of Public Law 104–333 (110 Stat. 4195).]
(d) All fees directly collected by the National Park Service in the operation of the facilities and services authorized by this title shall be covered into the Planning, Development, and Operation of Recreation Facilities appropriation account to be subject to appropriation.
(e) The Secretary shall establish information programs to inform the public of available park access opportunities and to promote the use of transportation modes other than personal motor vehicles for access to and travel within the units of the national park system.
(f) Transportation facilities and services provided pursuant to this title shall not be considered as concession facilities or services within the meaning of the Act of October 9, 1965 (79 Stat. 969)\(^1\) and may be undertaken by the Secretary directly or by contract without regard to any requirement of local, State, or Federal law respecting determinations of public convenience and necessity or other similar matters: Provided, That the Secretary or his contractor shall consult with the appropriate State or local public service commission or other such body having authority to issue certificates of convenience and necessity, and any such contractor shall be subject to applicable requirements of such body unless the Secretary determines that such requirements would not be consistent with the purposes and provisions of this title.
(g) No grant of authority in this title shall be deemed to expand the exemption of section 203(b)(4) of the Interstate Commerce Act (49 U.S.C. 303(b)(4)).\(^2\)

Sec. 303. [16 U.S.C. 2303] (a) To carry out the purposes of this title, the Secretary of Transportation, the Secretary of Housing and Urban Development, the Secretary of Health, Education, and Welfare,\(^3\) and the Secretary of Commerce, and the heads of such other Federal departments or agencies as the Secretary deems ne-

(Title IV of the National Parks Omnibus Management Act of 1998 (Public Law 105–391; 112 Stat. 3503; 16 U.S.C. 5951 et seq.)

TITLE IV—NATIONAL PARK SERVICE
CONCESSIONS MANAGEMENT

This title may be cited as the "National Park Service Concessions Management Improvement Act of 1998".

(a) FINDINGS.—In furtherance of the Act of August 25, 1916 (commonly known as the National Park Service Organic Act; 16 U.S.C. 1 et seq.), which directs the Secretary to administer units of the National Park System in accordance with the fundamental purpose of conserving their scenery, wildlife, and natural and historic objects, and providing for their enjoyment in a manner that will leave them unimpaired for the enjoyment of future generations, the Congress hereby finds that the preservation and conservation of park resources and values requires that such public accommodations, facilities, and services as have to be provided within such units should be provided only under carefully controlled safeguards against unregulated and indiscriminate use, so that—
(1) visitation will not unduly impair these resources and values; and
(2) development of public accommodations, facilities, and services within such units can best be limited to locations that are consistent to the highest practicable degree with the preservation and conservation of the resources and values of such units.
(b) POLICY.—It is the policy of the Congress that the development of public accommodations, facilities, and services in units of the National Park System shall be limited to those accommodations, facilities, and services that—
(1) are necessary and appropriate for public use and enjoyment of the unit of the National Park System in which they are located; and
(2) are consistent to the highest practicable degree with the preservation and conservation of the resources and values of the unit.

SEC. 403. [16 U.S.C. 5952] AWARD OF CONCESSIONS CONTRACTS.
In furtherance of the findings and policy stated in section 402, and except as provided by this title or otherwise authorized by law,
the Secretary shall utilize concessions contracts to authorize a person, corporation, or other entity to provide accommodations, facilities, and services to visitors to units of the National Park System. Such concessions contracts shall be awarded as follows:

(1) **COMPETITIVE SELECTION PROCESS.**—Except as otherwise provided in this section, all proposed concessions contracts shall be awarded by the Secretary to the person, corporation, or other entity submitting the best proposal, as determined by the Secretary through a competitive selection process. Such competitive process shall include simplified procedures for small, individually-owned, concessions contracts.

(2) **SOLICITATION OF PROPOSALS.**—Except as otherwise provided in this section, prior to awarding a new concessions contract (including renewals or extensions of existing concessions contracts) the Secretary shall publicly solicit proposals for the concessions contract and, in connection with such solicitation, the Secretary shall prepare a prospectus and shall publish notice of its availability at least once in local or national newspapers or trade publications, and/or the Commerce Business Daily, as appropriate, and shall make the prospectus available upon request to all interested parties.

(3) **PROSPECTUS.**—The prospectus shall include the following information:

   (A) The minimum requirements for such contract as set forth in paragraph (4).

   (B) The terms and conditions of any existing concessions contract relating to the services and facilities to be provided, including all fees and other forms of compensation provided to the United States by the concessioner.

   (C) Other authorized facilities or services which may be provided in a proposal.

   (D) Facilities and services to be provided by the Secretary to the concessioner, if any, including public access, utilities, and buildings.

   (E) An estimate of the amount of compensation, if any, due an existing concessioner from a new concessioner under the terms of a prior concessions contract.

   (F) A statement as to the weight to be given to each selection factor identified in the prospectus and the relative importance of such factors in the selection process.

   (G) Such other information related to the proposed concessions operation as is provided to the Secretary pursuant to a concessions contract or is otherwise available to the Secretary, as the Secretary determines is necessary to allow for the submission of competitive proposals.

   (H) Where applicable, a description of a preferential right to the renewal of the proposed concessions contract held by an existing concessioner as set forth in paragraph (7).

(4) **MINIMUM REQUIREMENTS.**—(A) No proposal shall be considered which fails to meet the minimum requirements as determined by the Secretary. Such minimum requirements shall include the following:

   (i) The minimum acceptable franchise fee or other forms of consideration to the Government.
(ii) Any facilities, services, or capital investment required to be provided by the concessioner.
(iii) Measures necessary to ensure the protection, conservation, and preservation of resources of the unit of the National Park System.

(B) The Secretary shall reject any proposal, regardless of the franchise fee offered, if the Secretary determines that the person, corporation, or entity is not qualified, is not likely to provide satisfactory service, or that the proposal is not responsive to the objectives of protecting and preserving resources of the unit of the National Park System and of providing necessary and appropriate facilities and services to the public at reasonable rates.

(C) If all proposals submitted to the Secretary either fail to meet the minimum requirements or are rejected by the Secretary, the Secretary shall establish new minimum contract requirements and re-initiate the competitive selection process pursuant to this section.

(D) The Secretary may not execute a concessions contract which materially amends or does not incorporate the proposed terms and conditions of the concessions contract as set forth in the applicable prospectus. If proposed material amendments or changes are considered appropriate by the Secretary, the Secretary shall resolicit offers for the concessions contract incorporating such material amendments or changes.

(5) SELECTION OF THE BEST PROPOSAL.—(A) In selecting the best proposal, the Secretary shall consider the following principal factors:

(i) The responsiveness of the proposal to the objectives of protecting, conserving, and preserving resources of the unit of the National Park System and of providing necessary and appropriate facilities and services to the public at reasonable rates.

(ii) The experience and related background of the person, corporation, or entity submitting the proposal, including the past performance and expertise of such person, corporation or entity in providing the same or similar facilities or services.

(iii) The financial capability of the person, corporation, or entity submitting the proposal.

(iv) The proposed franchise fee, except that consideration of revenue to the United States shall be subordinate to the objectives of protecting, conserving, and preserving resources of the unit of the National Park System and of providing necessary and appropriate facilities to the public at reasonable rates.

(B) The Secretary may also consider such secondary factors as the Secretary deems appropriate.

(C) In developing regulations to implement this title, the Secretary shall consider the extent to which plans for employment of Indians (including Native Alaskans) and involvement of businesses owned by Indians, Indian tribes, or Native Alaskans in the operation of a concession, contracts should be identified as a factor in the selection of a best proposal under this section.
(6) CONGRESSIONAL NOTIFICATION.—The Secretary shall submit any proposed concessions contract with anticipated annual gross receipts in excess of $5,000,000 or a duration of more than 10 years to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate. The Secretary shall not award any such proposed contract until at least 60 days subsequent to the notification of both committees.

(7) PREFERENTIAL RIGHT OF RENEWAL.—(A) Except as provided in subparagraph (B), the Secretary shall not grant a concessioner a preferential right to renew a concessions contract, or any other form of preference to a concessions contract.

(B) The Secretary shall grant a preferential right of renewal to an existing concessioner with respect to proposed renewals of the categories of concessions contracts described by paragraph (8), subject to the requirements of that paragraph.

(C) As used in this title, the term “preferential right of renewal” means that the Secretary, subject to a determination by the Secretary that the facilities or services authorized by a prior contract continue to be necessary and appropriate within the meaning of section 402, shall allow a concessioner qualifying for a preferential right of renewal the opportunity to match the terms and conditions of any competing proposal which the Secretary determines to be the best proposal for a proposed new concessions contract which authorizes the continuation of the facilities and services provided by the concessioner under its prior contract.

(D) A concessioner which successfully exercises a preferential right of renewal in accordance with the requirements of this title shall be entitled to award of the proposed new concessions contract to which such preference applies.

(8) OUTFITTER AND GUIDE SERVICES AND SMALL CONTRACTS.—(A) The provisions of paragraph (7) shall apply only to the following:

(i) Subject to subparagraph (B), outfitting and guide concessions contracts.

(ii) Subject to subparagraph (C), concessions contracts with anticipated annual gross receipts under $500,000.

(B) For the purposes of this title, an “outfitting and guide concessions contract” means a concessions contract which solely authorizes the provision of specialized backcountry outdoor recreation guide services which require the employment of specially trained and experienced guides to accompany park visitors in the backcountry so as to provide a safe and enjoyable experience for visitors who otherwise may not have the skills and equipment to engage in such activity. Outfitting and guide concessioners, where otherwise qualified, include concessioners which provide guided river running, hunting, fishing, horseback, camping, and mountaineering experiences. An outfitting and guide concessioner is entitled to a preferential right of renewal under this title only if—

(i) the contract with the outfitting and guide concessioner does not grant the concessioner any interest, including any leasehold surrender interest or possessory interest, in capital improvements on lands owned by the United
States within a unit of the National Park System, other than a capital improvement constructed by a concessioner pursuant to the terms of a concessions contract prior to the date of the enactment of this title or constructed or owned by a concessioner or his or her predecessor before the subject land was incorporated into the National Park System;

(ii) the Secretary determines that the concessioner has operated satisfactorily during the term of the contract (including any extension thereof); and

(iii) the concessioner has submitted a responsive proposal for a proposed new contract which satisfies the minimum requirements established by the Secretary pursuant to paragraph (4).

(C) A concessioner that holds a concessions contract that the Secretary estimates will result in gross annual receipts of less than $500,000 if renewed shall be entitled to a preferential right of renewal under this title if—

(i) the Secretary has determined that the concessioner has operated satisfactorily during the term of the contract (including any extension thereof); and

(ii) the concessioner has submitted a responsive proposal for a proposed new concessions contract which satisfies the minimum requirements established by the Secretary pursuant to paragraph (4).

(9) NEW OR ADDITIONAL SERVICES.—The Secretary shall not grant a preferential right to a concessioner to provide new or additional services in a unit of the National Park System.

(10) SECRETARIAL AUTHORITY.—Nothing in this title shall be construed as limiting the authority of the Secretary to determine whether to issue a concessions contract or to establish its terms and conditions in furtherance of the policies expressed in this title.

(11) EXCEPTIONS.—Notwithstanding the provisions of this section, the Secretary may award, without public solicitation, the following:

(A) A temporary concessions contract or an extension of an existing concessions contract for a term not to exceed 3 years in order to avoid interruption of services to the public at a unit of the National Park System, except that prior to making such an award, the Secretary shall take all reasonable and appropriate steps to consider alternatives to avoid such interruption.

(B) A concessions contract in extraordinary circumstances where compelling and equitable considerations require the award of a concessions contract to a particular party in the public interest. Such award of a concessions contract shall not be made by the Secretary until at least 30 days after publication in the Federal Register of notice of the Secretary’s intention to do so and the reasons for such action, and submission of notice to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives.
A concessions contract entered into pursuant to this title shall generally be awarded for a term of 10 years or less. However, the Secretary may award a contract for a term of up to 20 years if the Secretary determines that the contract terms and conditions, including the required construction of capital improvements, warrant a longer term.

SEC. 405. [16 U.S.C. 5954] PROTECTION OF CONCESSIONER INVESTMENT.

(a) LEASEHOLD SURRENDER INTEREST UNDER NEW CONCESSIONS CONTRACTS.—On or after the date of the enactment of this title, a concessioner that constructs a capital improvement upon land owned by the United States within a unit of the National Park System pursuant to a concessions contract shall have a leasehold surrender interest in such capital improvement subject to the following terms and conditions:

(1) A concessioner shall have a leasehold surrender interest in each capital improvement constructed by a concessioner under a concessions contract, consisting solely of a right to compensation for the capital improvement to the extent of the value of the concessioner’s leasehold surrender interest in the capital improvement.

(2) A leasehold surrender interest—
   (A) may be pledged as security for financing of a capital improvement or the acquisition of a concessions contract when approved by the Secretary pursuant to this title;
   (B) shall be transferred by the concessioner in connection with any transfer of the concessions contract and may be relinquished or waived by the concessioner; and
   (C) shall not be extinguished by the expiration or other termination of a concessions contract and may not be taken for public use except on payment of just compensation.

(3) The value of a leasehold surrender interest in a capital improvement shall be an amount equal to the initial value (construction cost of the capital improvement), increased (or decreased) in the same percentage increase (or decrease) as the percentage increase (or decrease) in the Consumer Price Index, from the date of making the investment in the capital improvement by the concessioner to the date of payment of the value of the leasehold surrender interest, less depreciation of the capital improvement as evidenced by the condition and prospective serviceability in comparison with a new unit of like kind.

(4) Effective 9 years after the date of the enactment of this Act, the Secretary may provide, in any particular new concessions contract the Secretary estimates will have a leasehold surrender interest of more than $10,000,000, that the value of any leasehold surrender interest in a capital improvement shall be based on either (A) a reduction on an annual basis, in equal portions, over the same number of years as the time period associated with the straight line depreciation of the initial value (construction cost of the capital improvement), as provided by applicable Federal income tax laws and regulations in effect on
the day before the date of the enactment of this Act or (B) such alternative formula that is consistent with the objectives of this title. The Secretary may only use such an alternative formula if the Secretary determines, after scrutiny of the financial and other circumstances involved in this particular concession contract (including providing notice in the Federal Register and opportunity for comment), that such alternative formula is, compared to the standard method of determining value provided for in paragraph (3), necessary in order to provide a fair return to the Government and to foster competition for the new contract by providing a reasonable opportunity to make a profit under the new contract. If no responsive offers are received in response to a solicitation that includes such an alternative formula, the concession opportunity shall be resolicited with the leasehold surrender interest value as described in paragraph (3).

(5) Where a concessioner, pursuant to the terms of a concessions contract, makes a capital improvement to an existing capital improvement in which the concessioner has a leasehold surrender interest, the cost of such additional capital improvement shall be added to the then current value of the concessioner’s leasehold surrender interest.

(b) SPECIAL RULE FOR EXISTING POSSESSORY INTEREST.—

(1) A concessioner which has obtained a possessory interest as defined pursuant to Public Law 89–249 (commonly known as the National Park Service Concessions Policy Act; 16 U.S.C. 20 et seq.), as in effect on the day before the date of the enactment of this Act, under the terms of a concessions contract entered into before that date shall, upon the expiration or termination of such contract, be entitled to receive compensation for such possessory interest improvements in the amount and manner as described by such concessions contract. Where such a possessory interest is not described in the existing contract, compensation of possessory interest shall be determined in accordance with the laws in effect on the day before the date of enactment of this Act.

(2) In the event such prior concessioner is awarded a new concessions contract after the effective date of this title replacing an existing concessions contract, the existing concessioner shall, instead of directly receiving such possessory interest compensation, have a leasehold surrender interest in its existing possessory interest improvements under the terms of the new contract and shall carry over as the initial value of such leasehold surrender interest (instead of construction cost) an amount equal to the value of the existing possessory interest as of the termination date of the previous contract. In the event of a dispute between the concessioner and the Secretary as to the value of such possessory interest, the matter shall be resolved through binding arbitration.

(3) In the event that a new concessioner is awarded a concessions contract and is required to pay a prior concessioner for possessory interest in prior improvements, the new concessioner shall have a leasehold surrender interest in such prior improvements and the initial value in such leasehold surrender interest (instead of construction cost), shall be an
amount equal to the value of the existing possessory interest as of the termination date of the previous contract.

(c) Transition to Successor Concessioner.—Upon expiration or termination of a concessions contract entered into after the effective date of this title, a concessioner shall be entitled under the terms of the concessions contract to receive from the United States or a successor concessioner the value of any leasehold surrender interest in a capital improvement as of the date of such expiration or termination. A successor concessioner shall have a leasehold surrender interest in such capital improvement under the terms of a new contract and the initial value of the leasehold surrender interest in such capital improvement (instead of construction cost) shall be the amount of money the new concessioner is required to pay the prior concessioner for its leasehold surrender interest under the terms of the prior concessions contract.

(d) Title to Improvements.—Title to any capital improvement constructed by a concessioner on lands owned by the United States in a unit of the National Park System shall be vested in the United States.

(e) Definitions.—For purposes of this section:

(1) Consumer Price Index.—The term “Consumer Price Index” means the “Consumer Price Index—All Urban Consumers” published by the Bureau of Labor Statistics of the Department of Labor, unless such index is not published, in which case another regularly published cost-of-living index approximating the Consumer Price Index shall be utilized by the Secretary; and

(2) Capital Improvement.—The term “capital improvement” means a structure, fixture, or nonremovable equipment provided by a concessioner pursuant to the terms of a concessions contract and located on lands of the United States within a unit of the National Park System.

(f) Special Reporting Requirement.—Not later than 7 years after the date of the enactment of this Act, the Secretary shall submit a report to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives containing a complete analysis of the concession program as well as—

(1) an assessment of competition in the solicitation of prospectuses, fair and/or increased return to the Government, and improvement of concession facilities and infrastructure; and

(2) an assessment of any problems with the management and administration of the concession program that are a direct result of the implementation of the provisions of this title.

(a) In General.—Each concessions contract shall permit the concessioner to set reasonable and appropriate rates and charges for facilities, goods, and services provided to the public, subject to approval under subsection (b).

(b) Approval by Secretary Required.—A concessioner’s rates and charges to the public shall be subject to approval by the Secretary. The approval process utilized by the Secretary shall be as prompt and as unburdensome to the concessioner as possible and
shall rely on market forces to establish reasonableness of rates and charges to the maximum extent practicable. The Secretary shall approve rates and charges that the Secretary determines to be reasonable and appropriate. Unless otherwise provided in the contract, the reasonableness and appropriateness of rates and charges shall be determined primarily by comparison with those rates and charges for facilities, goods, and services of comparable character under similar conditions, with due consideration to the following factors and other factors deemed relevant by the Secretary: length of season, peakloads, average percentage of occupancy, accessibility, availability and costs of labor and materials, and type of patronage. Such rates and charges may not exceed the market rates and charges for comparable facilities, goods, and services, after taking into account the factors referred to in the preceding sentence.

(c) IMPLEMENTATION OF RECOMMENDATIONS.—Not later than 6 months after receiving recommendations from the Advisory Board established under section 409(a) regarding concessioner rates and charges to the public, the Secretary shall implement the recommendations or report to the Congress the reasons for not implementing the recommendations.

(a) IN GENERAL.—A concessions contract shall provide for payment to the government of a franchise fee or such other monetary consideration as determined by the Secretary, upon consideration of the probable value to the concessioner of the privileges granted by the particular contract involved. Such probable value shall be based upon a reasonable opportunity for net profit in relation to capital invested and the obligations of the contract. Consideration of revenue to the United States shall be subordinate to the objectives of protecting and preserving park areas and of providing necessary and appropriate services for visitors at reasonable rates.

(b) AMOUNT OF FRANCHISE FEE.—The amount of the franchise fee or other monetary consideration paid to the United States for the term of the concessions contract shall be specified in the concessions contract and may only be modified to reflect extraordinary unanticipated changes from the conditions anticipated as of the effective date of the contract. The Secretary shall include in concessions contracts with a term of more than 5 years a provision which allows reconsideration of the franchise fee at the request of the Secretary or the concessioner in the event of such extraordinary unanticipated changes. Such provision shall provide for binding arbitration in the event that the Secretary and the concessioner are unable to agree upon an adjustment to the franchise fee in these circumstances.

(c) SPECIAL ACCOUNT.—All franchise fees (and other monetary consideration) paid to the United States pursuant to concessions contracts shall be deposited into a special account established in the Treasury of the United States. Twenty percent of the funds deposited in the special account shall be available for expenditure by the Secretary, without further appropriation, to support activities throughout the National Park System regardless of the unit of the National Park System in which the funds were collected. The funds deposited into the special account shall remain available until expended.
Sec. 408. PARK CONCESSIONS MANAGEMENT

(d) Subaccount for Each Unit.—There shall be established within the special account required under subsection (c) a subaccount for each unit of the National Park System. Each subaccount shall be credited with 80 percent of the franchise fees (and other monetary consideration) collected at a single unit of the National Park System under concessions contracts. The funds credited to the subaccount for a unit of the National Park System shall be available for expenditure by the Secretary, without further appropriation, for use at the unit for visitor services and for purposes of funding high-priority and urgently necessary resource management programs and operations. The funds credited to a subaccount shall remain available until expended.

SEC. 408. [16 U.S.C. 5957] TRANSFER OF CONCESSIONS CONTRACTS.

(a) Approval of the Secretary.—No concessions contract or leasehold surrender interest may be transferred, assigned, sold, or otherwise conveyed or pledged by a concessioner without prior written notification to, and approval by, the Secretary.

(b) Conditions.—The Secretary shall approve a transfer or conveyance described in subsection (a) unless the Secretary finds that—

(1) the individual, corporation or entity seeking to acquire a concessions contract is not qualified or able to satisfy the terms and conditions of the concessions contract;

(2) such transfer or conveyance would have an adverse impact on (A) the protection, conservation, or preservation of the resources of the unit of the National Park System or (B) the provision of necessary and appropriate facilities and services to visitors at reasonable rates and charges; and

(3) the terms of such transfer or conveyance are likely, directly or indirectly, to reduce the concessioner's opportunity for a reasonable profit over the remaining term of the contract, adversely affect the quality of facilities and services provided by the concessioner, or result in a need for increased rates and charges to the public to maintain the quality of such facilities and services.

(c) Transfer Terms.—The terms and conditions of any contract under this section shall not be subject to modification or open to renegotiation by the Secretary because of a transfer or conveyance described in subsection (a), unless such transfer or conveyance would have an adverse impact as described in paragraph (2) of subsection (b).

Sec. 409. [16 U.S.C. 5958] NATIONAL PARK SERVICE CONCESSIONS MANAGEMENT ADVISORY BOARD.

(a) Establishment.—There is hereby established a National Park Service Concessions Management Advisory Board (in this title referred to as the “Advisory Board”) whose purpose shall be to advise the Secretary and National Park Service on matters relating to management of concessions in the National Park System.

(b) Duties.—

(1) Advice.—The Advisory Board shall advise on each of the following:

(A) Policies and procedures intended to assure that services and facilities provided by concessioners are necessary and appropriate, meet acceptable standards at rea-
sonable rates with a minimum of impact on park resources and values, and provide the concessioners with a reason-
able opportunity to make a profit.

(B) Ways to make National Park Service concessions programs and procedures more cost effective, more process efficient, less burdensome, and timelier.

(2) RECOMMENDATIONS.—The Advisory Board shall make recommendations to the Secretary regarding each of the follow-
ing:

(A) National Park Service contracting with the private sector to conduct appropriate elements of concessions man-
agement and providing recommendations to make more effi-
cient, less burdensome, and timelier the review or ap-
proval of concessioner rates and charges to the public.

(B) The nature and scope of products which qualify as Indian, Alaska Native, and Native Hawaiian handicrafts within this meaning of this title.

(C) The allocation of concession fees.

The initial recommendations under subparagraph (A) relating to rates and charges shall be submitted to the Secretary not later than one year after the first meeting of the Board.

(3) ANNUAL REPORT.—The Advisory Board, commencing with the first anniversary of its initial meeting, shall provide an annual report on its activities to the Committee on Re-
sources of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate.

(c) ADVISORY BOARD MEMBERSHIP.—Members of the Advisory Board shall be appointed on a staggered basis by the Secretary for a term not to exceed 4 years and shall serve at the pleasure of the Secretary. The Advisory Board shall be comprised of not more than seven individuals appointed from among citizens of the United States not in the employment of the Federal Government and not in the employment of or having an interest in a National Park Service concession. Of the seven members of the Advisory Board—

(1) one member shall be privately employed in the hospitality industry and have both broad knowledge of hotel or food service management and experience in the parks and recre-
ation concessions business;

(2) one member shall be privately employed in the tourism industry;

(3) one member shall be privately employed in the account-
ing industry;

(4) one member shall be privately employed in the outfit-
ting and guide industry;

(5) one member shall be a State government employee with expertise in park concession management;

(6) one member shall be active in promotion of traditional arts and crafts; and

(7) one member shall be active in a nonprofit conservation organization involved in parks and recreation programs.

(d) TERMINATION.—The Advisory Board shall continue to exist until December 31, 2008. In all other respects, it shall be subject to the provisions of the Federal Advisory Committee Act.
(e) Service on Advisory Board.—Service of an individual as a member of the Advisory Board shall not be considered as service or employment bringing such individual within the provisions of any Federal law relating to conflicts of interest or otherwise imposing restrictions, requirements, or penalties in relation to the employment of persons, the performance of services, or the payment or receipt of compensation in connection with claims, proceedings, or matters involving the United States. Service as a member of the Advisory Board shall not be considered service in an appointive or elective position in the Government for purposes of section 8344 of title 5, United States Code, or other comparable provisions of Federal law.

SEC. 410. [16 U.S.C. 5959] CONTRACTING FOR SERVICES.

(a) Contracting Authorized.—(1) To the maximum extent practicable, the Secretary shall contract with private entities to conduct or assist in those elements of the management of the National Park Service concessions program considered by the Secretary to be suitable for non-Federal performance. Such management elements include each of the following:
   (A) Health and safety inspections.
   (B) Quality control of concessions operations and facilities.
   (C) Strategic capital planning for concessions facilities.
   (D) Analysis of rates and charges to the public.
   (2) The Secretary may also contract with private entities to assist the Secretary with each of the following:
      (A) Preparation of the financial aspects of prospectuses for National Park Service concessions contracts.
      (B) Development of guidelines for a national park system capital improvement and maintenance program for all concession occupied facilities.
      (C) Making recommendations to the Director of the National Park Service regarding the conduct of annual audits of concession fee expenditures.
(b) Other Management Elements.—The Secretary shall also consider, taking into account the recommendations of the Advisory Board, contracting out other elements of the concessions management program, as appropriate.

(c) Condition.—Nothing in this section shall diminish the governmental responsibilities and authority of the Secretary to administer concessions contracts and activities pursuant to this title and the Act of August 25, 1916 (commonly known as the National Park Service Organic Act; 16 U.S.C. 1 et seq.). The Secretary reserves the right to make the final decision or contract approval on contracting services dealing with the management of the National Park Service concessions program under this section.

If multiple concessions contracts are awarded to authorize concessioners to provide the same or similar outfitting, guiding, river running, or other similar services at the same approximate location or resource within a specific national park, the Secretary shall establish a comparable franchise fee structure for all such same or similar contracts, except that the terms and conditions of any existing concessions contract shall not be subject to modification or open
to renegotiation by the Secretary because of an award of a new contract at the same approximate location or resource.

SEC. 412. [16 U.S.C. 5961] SPECIAL RULE FOR TRANSPORTATION CONTRACTING SERVICES.

(a) In General.—Notwithstanding any other provision of law, a service contract entered into by the Secretary for the provision solely of transportation services in a unit of the National Park System shall be no more than 10 years in length, including a base period of 5 years and annual extensions for an additional 5-year period based on satisfactory performance and approval by the Secretary.

(b) Obligation of Funds.—Notwithstanding any other provision of law, with respect to a service contract for the provision solely of transportation services at Zion National Park, the Secretary may obligate the expenditure of fees received in fiscal year 2001 under section 501 before the fees are received.

SEC. 413. [16 U.S.C. 5962] USE OF NONMONETARY CONSIDERATION IN CONCESSIONS CONTRACTS.

Section 321 of the Act of June 30, 1932 (40 U.S.C. 303b), relating to the leasing of buildings and properties of the United States, shall not apply to contracts awarded by the Secretary pursuant to this title.

(a) In General.—Each concessioner shall keep such records as the Secretary may prescribe to enable the Secretary to determine that all terms of the concessions contract have been and are being faithfully performed, and the Secretary and any duly authorized representative of the Secretary shall, for the purpose of audit and examination, have access to such records and to other books, documents, and papers of the concessioner pertinent to the contract and all terms and conditions thereof.

(b) Access to Records.—The Comptroller General or any duly authorized representative of the Comptroller General shall, until the expiration of 5 calendar years after the close of the business year of each concessioner or subconcessioner, have access to and the right to examine any pertinent books, papers, documents and records of the concessioner or subconcessioner related to the contract or contracts involved.

SEC. 415. REPEAL OF NATIONAL PARK SERVICE CONCESSIONS POLICY ACT.

(a) [Omitted—Amendment]

(b) CONFORMING AMENDMENTS.—[Omitted—Amendments]

(a) In General.—Promoting the sale of authentic United States Indian, Alaskan Native, Native Samoan, and Native Hawaiian handicrafts relating to the cultural, historical, and geographic characteristics of units of the National Park System is encouraged, and the Secretary shall ensure that there is a continuing effort to
enhance the handicraft trade where it exists and establish the trade in appropriate areas where such trade currently does not exist.

(b) Exemption From Franchise Fee.—In furtherance of these purposes, the revenue derived from the sale of United States Indian, Alaska Native, Native Samoan, and Native Hawaiian handicrafts shall be exempt from any franchise fee payments under this title.

As soon as practicable after the effective date of this title, the Secretary shall promulgate regulations appropriate for its implementation. Among other matters, such regulations shall include appropriate provisions to ensure that concession services and facilities to be provided in a unit of the National Park System are not segmented or otherwise split into separate concessions contracts for the purposes of seeking to reduce anticipated annual gross receipts of a concessions contract below $500,000. The Secretary shall also promulgate regulations which further define the term “United States Indian, Alaskan Native, and Native Hawaiian handicrafts” for the purposes of this title.

SEC. 418. [16 U.S.C. 5966] COMMERCIAL USE AUTHORIZATIONS.
(a) In General.—To the extent specified in this section, the Secretary shall authorize a private person, corporation, or other entity to provide services to visitors to units of the National Park System through a commercial use authorization. Such authorizations shall not be considered as concessions contracts pursuant to this title nor shall other sections of this title be applicable to such authorizations except where expressly so stated.

(b) Criteria for Issuance of Authorizations.—
(1) Required Determinations.—The authority of this section may be used only to authorize provision of services that the Secretary determines will have minimal impact on resources and values of the unit of the National Park System and are consistent with the purpose for which the unit was established and with all applicable management plans and park policies and regulations.

(2) Elements of Authorization.—The Secretary shall—
(A) require payment of a reasonable fee for issuance of an authorization under this section, such fees to remain available without further appropriation to be used, at a minimum, to recover associated management and administrative costs;

(B) require that the provision of services under such an authorization be accomplished in a manner consistent to the highest practicable degree with the preservation and conservation of park resources and values;

(C) take appropriate steps to limit the liability of the United States arising from the provision of services under such an authorization; and

(D) have no authority under this section to issue more authorizations than are consistent with the preservation and proper management of park resources and values, and shall establish such other conditions for issuance of such an authorization as the Secretary determines appropriate
for the protection of visitors, provision of adequate and appropriate visitor services, and protection and proper management of the resources and values of the park.

(c) LIMITATIONS.—Any authorization issued under this section shall be limited to—

An interest in the real property includes, among other things, easements or other rights for preservation, conservation, protection, or enhancement by and for the public of natural, scenic, historic, scientific, educational, inspirational, or recreational resources. A gift, devise, or bequest may be accepted by the Foundation even though it is encumbered, restricted, or subject to beneficial interests of private persons if any current or future interest therein is for the benefit of the National Park Service, its activities, or its services.

Sec. 4. Monies reimbursed to either Department shall be returned by the Department to the account from which the funds for which the reimbursement is made were drawn and may, without further appropriation, be expended for any purpose for which such account is authorized.

Sec. 5. [16 U.S.C. 19i] The Foundation shall have perpetual succession, with all the usual powers and obligations of a corporation acting as a trustee, including the power to sue and to be sued in its own name, but the members of the Board shall not be personally liable, except for malfeasance.

Sec. 7. [16 U.S.C. 19k] In carrying out the provisions of this Act, the Board may adopt bylaws, rules, and regulations necessary for the administration of its functions and contract for any necessary services.

Sec. 8. [16 U.S.C. 19l] The Foundation and any income or property received or owned by it, and all transactions relating to
such income or property, shall be exempt from all Federal, State, and local taxation with respect thereto. The Foundation may, however, in the discretion of its directors, contribute toward the costs of local government in amounts not in excess of those which it would be obligated to pay such government if it were not exempt from taxation by virtue of the foregoing or by virtue of its being a charitable and nonprofit corporation and may agree so to contribute with respect to property transferred to it and the income derived therefrom if such agreement is a condition of the transfer. Contributions, gifts, and other transfers made to or for the use of the Foundation shall be regarded as contributions, gifts, or transfers to or for the use of the United States.

SEC. 10. [16 U.S.C. 19n] The Foundation shall, as soon as practicable after the end of each fiscal year, transmit to Congress an annual report of its proceedings and activities, including a full and complete statement of its receipts, expenditures, and investments.

(2) Establishment.—An affiliation with the Foundation shall be established only at the discretion of the governing board of a nonprofit organization.

6. PUBLIC LAW 94–429
(POPULARLY KNOWN AS THE MINING IN THE PARKS ACT)

AN ACT To provide for the regulation of mining activity within, and to repeal the application of mining laws to, areas of the National Park System, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, [16 U.S.C. 1901] That the Congress finds and declares that—

(a) the level of technology of mineral exploration and development has changed radically in recent years and continued application of the mining laws of the United States to those areas of the National Park System to which it applies, conflicts with the purposes for which they were established; and

(b) all mining operations in areas of the National Park System should be conducted so as to prevent or minimize damage to the environment and other resource values, and, in certain areas of the National Park System, surface disturbance from mineral development should be temporarily halted while Congress determines whether or not to acquire any valid mineral rights which may exist in such areas.

SEC. 2. [16 U.S.C. 1902] In order to preserve for the benefit of present and future generations the pristine beauty of areas of the National Park System, and to further the purposes of the Act of August 25, 1916, as amended (16 U.S.C. 1) and the individual organic Acts for the various areas of the National Park System, all activities resulting from the exercise of valid existing mineral rights on patented or unpatented mining claims within any area of the National Park System shall be subject to such regulations prescribed by the Secretary of the Interior as he deems necessary or desirable for the preservation and management of those areas.

SEC. 3. [Omitted-Amendments]

SEC. 4. [16 U.S.C. 1903] For a period of four years after the date of enactment of this Act, holders of valid mineral rights located within the boundaries of Death Valley National Monument, Mount McKinley National Park, and Organ Pipe Cactus National Monument shall not disturb for purposes of mineral exploration or development the surface of any lands which had not been significantly disturbed for purposes of mineral extraction prior to Feb-

1Sections 4 through 7 of this Act are omitted from commercial publications of the United States Code since the sections were of temporary validity.
Provided, That if the Secretary finds that enlargement of the existing excavation of an individual mining operation is necessary in order to make feasible continued production therefrom at an annual rate not to exceed the average annual production level of said operation for the three calendar years 1973, 1974, and 1975, the surface of lands contiguous to the existing excavation may be disturbed to the minimum extent necessary to effect such enlargement, subject to such regulations as may be issued by the Secretary under section 2 of this Act. For purposes of this section, each separate mining excavation shall be treated as an individual mining operation.

SEC. 5. [16 U.S.C. 1904] The requirements for annual expenditures on mining claims imposed by Revised Statute 2324 (30 U.S.C. 28) shall not apply to any claim subject to section 4 of this Act during the time such claim is subject to such section.

SEC. 6. [16 U.S.C. 1905] Within two years after the date of enactment of this Act, the Secretary of the Interior shall determine the validity of any unpatented mining claims within Glacier Bay National Monument, Death Valley and Organ Pipe Cactus National Monuments and Mount McKinley National Park and submit to the Congress recommendations as to whether any valid or patented claims should be acquired by the United States, including the estimated acquisition costs of such claims, and a discussion of the environmental consequences of the extraction of minerals from these lands. The Secretary shall also study and within two years submit to Congress his recommendations for modifications or adjustments to the existing boundaries of the Death Valley National Monument and the Glacier Bay National Monument to exclude significant mineral deposits and to decrease possible acquisition costs.

SEC. 7. [16 U.S.C. 1906] Within four years after the date of enactment of this Act, the Secretary of the Interior shall determine the validity of any unpatented mining claims within Crater Lake National Park, Coronado National Memorial, and Glacier Bay National Monument, and submit to the Congress recommendations as to whether any valid or patented claims should be acquired by the United States.

SEC. 8. [16 U.S.C. 1907] All mining claims under the Mining Law of 1872, as amended and supplemented (30 U.S.C. chapters 2, 12A, and 16 and sections 161 and 162) which lie within the boundaries of units of the National Park System shall be recorded with the Secretary of the Interior within one year after the effective date of this Act. Any mining claim not so recorded shall be conclusively presumed to be abandoned and shall be void. Such recordation will not render valid any claim which was not valid on the effective date of this Act, or which becomes invalid thereafter. Within thirty days following the date of enactment of this Act, the Secretary shall publish notice of the requirement for such recordation in the Federal Register. He shall also publish similar notices in news-
papers of general circulation in the areas adjacent to those units of the National Park System listed in section 3 of this Act.¹

SEC. 9. [16 U.S.C. 1908] (a) Whenever the Secretary of the Interior finds on his own motion or upon being notified in writing by an appropriate scientific, historical, or archeological authority, that a district, site, building, structure, or object which has been found to be nationally significant in illustrating natural history or the history of the United States and which has been designated as a natural or historical landmark may be irreparably lost or destroyed in whole or in part by any surface mining activity, including exploration for or removal or production of minerals or materials, he shall notify the person conducting such activity and submit a report thereon, including the basis for his finding that such activity may cause irreparable loss or destruction of a national landmark, to the Advisory Council on Historic Preservation, with a request for advice of the Council as to alternative measures that may be taken by the United States to mitigate or abate such activity.

(b) The Council shall within two years from the effective date of this section submit to the Congress a report on the actual or potential effects of surface mining activities on natural and historical landmarks and shall include with its report its recommendations for such legislation as may be necessary and appropriate to protect natural and historical landmarks from activities, including surface mining activities, which may have an adverse impact on such landmarks.

SEC. 10. [16 U.S.C. 1909] If any provision of this Act is declared to be invalid, such declaration shall not affect the validity of any other provision hereof.

SEC. 11. [16 U.S.C. 1910] The holder of any patented or unpatented mining claim subject to this Act who believes he has suffered a loss by operation of this Act, or by orders or regulations issued pursuant thereto, may bring an action in a United States district court to recover just compensation, which shall be awarded if the court finds that such loss constitutes a taking of property compensable under the Constitution.

SEC. 12. [16 U.S.C. 1911] Nothing in this Act shall be construed to limit the authority of the Secretary to acquire lands and interests in lands within the boundaries of any unit of the National Park System. The Secretary is to give prompt and careful consideration to any offer made by the owner of any valid right or other property within the areas named in section 6 of this Act to sell such right or other property, if such owner notifies the Secretary that the continued ownership of such right or property is causing, or would result in, undue hardship.

¹The units of the National Park System listed in section 3 are Crater Lake National Park, Mount McKinley National Park, Death Valley National Monument, Glacier Bay National Monument, Coronado National Memorial, and Organ Pipe Cactus National Monument.
SEC. 13. [16 U.S.C. 1912] (a) Each officer or employee of the Secretary of the Interior who—

(1) performs any function or duty under this Act, or any Acts amended by this Act concerning the regulation of mining within the National Park System; and

(2) has any known financial interest (A) in any person subject to such Acts, or (B) in any person who holds a mining claim within the boundaries of units of the National Park System;

shall, beginning on February 1, 1977, annually file with the Secretary a written statement concerning all such interests held by such officer or employee during the preceding calendar year. Such statement shall be available to the public.

(b) The Secretary shall—

(1) act within ninety days after the date of enactment of this Act—

(A) to define the term "known financial interest" for purposes of subsection (a) of this section; and

(B) to establish the methods by which the requirement to file written statements specified in subsection (a) of this section will be monitored and enforced, including appropriate provisions for the filing by such officers and employees of such statements and the review by the Secretary of such statements; and

(2) report to the Congress on June 1 of each calendar year with respect to such disclosures and the actions taken in regard thereto during the preceding calendar year.

(c) In the rules prescribed in subsection (b) of this section, the Secretary may identify specific positions within such agency which are of a nonregulatory or nonpolicymaking nature and provide that officers or employees occupying such positions shall be exempt from the requirements of this section.

(d) Any officer or employee who is subject to, and knowingly violates, this section or any regulation issued thereunder, shall be fined not more than $2,500 or imprisoned not more than one year, or both.

PART II—ANTIQUITIES AND HISTORIC PRESERVATION

11. NATIONAL HISTORIC PRESERVATION ACT (AND RELATED LAWS)
[As Amended Through Public Law 106–580, Dec. 31, 2000]
A. NATIONAL HISTORIC PRESERVATION ACT

(Public Law 89–665; Approved October 15, 1966; 16 U.S.C. 470 through 470x–6)

AN ACT To establish a program for the preservation of additional historic properties throughout the Nation, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SEC. 1. [16 U.S.C. 470] (a) This Act may be cited as the “National Historic Preservation Act”.
(b) The Congress finds and declares that—
(1) the spirit and direction of the Nation are founded upon and reflected in its historic heritage;
(2) the historical and cultural foundations of the Nation should be preserved as a living part of our community life and development in order to give a sense of orientation to the American people;
(3) historic properties significant to the Nation’s heritage are being lost or substantially altered, often inadvertently, with increasing frequency;
(4) the preservation of this irreplaceable heritage is in the public interest so that its vital legacy of cultural, educational, aesthetic, inspirational, economic, and energy benefits will be maintained and enriched for future generations of Americans;
(5) in the face of ever-increasing extensions of urban centers, highways, and residential, commercial, and industrial developments, the present governmental and nongovernmental historic preservation programs and activities are inadequate to insure future generations a genuine opportunity to appreciate and enjoy the rich heritage of our Nation;
(6) the increased knowledge of our historic resources, the establishment of better means of identifying and administering them, and the encouragement of their preservation will improve the planning and execution of Federal and federally assisted projects and will assist economic growth and development; and
(7) although the major burdens of historic preservation have been borne and major efforts initiated by private agencies and individuals, and both should continue to play a vital role, it is nevertheless necessary and appropriate for the Federal Government to accelerate its historic preservation programs and activities, to give maximum encouragement to agencies and individuals undertaking preservation by private means, and to assist State and local governments and the National Trust for Historic Preservation in the United States to expand
and accelerate their historic preservation programs and activities.

SEC. 2. [16 U.S.C. 470–1] It shall be the policy of the Federal Government, in cooperation with other nations and in partnership with the States, local governments, Indian tribes, and private organizations and individuals to—

(1) use measures, including financial and technical assistance, to foster conditions under which our modern society and our prehistoric and historic resources can exist in productive harmony and fulfill the social, economic, and other requirements of present and future generations;

(2) provide leadership in the preservation of the prehistoric and historic resources of the United States and of the international community of nations and in the administration of the national preservation program in partnership with States, Indian tribes, Native Hawaiians, and local governments;

(3) administer federally owned, administered, or controlled prehistoric and historic resources in a spirit of stewardship for the inspiration and benefit of present and future generations;

(4) contribute to the preservation of nonfederally owned prehistoric and historic resources and give maximum encouragement to organizations and individuals undertaking preservation by private means;

(5) encourage the public and private preservation and utilization of all usable elements of the Nation's historic built environment; and

(6) assist State and local governments, Indian tribes and Native Hawaiian organizations and the National Trust for Historic Preservation in the United States to expand and accelerate their historic preservation programs and activities.

TITLE I

SEC. 101. [16 U.S.C. 470a] (a)(1)(A) The Secretary of the Interior is authorized to expand and maintain a National Register of Historic Places composed of districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, engineering, and culture. Notwithstanding section 43(c) of the Act entitled “An Act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes”, approved July 5, 1946 (commonly known as the “Trademark Act of 1946” (15 U.S.C. 1125(c))), buildings and structures on or eligible for inclusion on the National Register of Historic Places (either individually or as part of a historic district), or designated as an individual landmark or as a contributing building in a historic district by a unit of State or local government, may retain the name historically associated with the building or structure.

(B) Properties meeting the criteria for National Historic Landmarks established pursuant to paragraph (2) shall be designated as “National Historic Landmarks” and included on the National Register, subject to the requirements of paragraph (6). All historic
properties included on the National Register on the date of the enactment of the National Historic Preservation Act Amendments of 1980 shall be deemed to be included on the National Register as of their initial listing for purposes of this Act. All historic properties listed in the Federal Register of February 6, 1979, as “National Historic Landmarks” or thereafter prior to the effective date of this Act are declared by Congress to be National Historic Landmarks of national historic significance as of their initial listing as such in the Federal Register for purposes of this Act and the Act of August 21, 1935 (49 Stat. 666); except that in cases of National Historic Landmark districts for which no boundaries have been established, boundaries must first be published in the Federal Register.

(2) The Secretary in consultation with national historical and archaeological associations, shall establish or revise criteria for properties to be included on the National Register and criteria for National Historic Landmarks, and shall also promulgate or revise regulations as may be necessary for—

(A) nominating properties for inclusion in, and removal from, the National Register and the recommendation of properties by certified local governments;

(B) designating properties as National Historic Landmarks and removing such designation;

(C) considering appeals from such recommendations, nominations, removals, and designations (or any failure or refusal by a nominating authority to nominate or designate);

(D) nominating historic properties for inclusion in the World Heritage List in accordance with the terms of the Convention concerning the Protection of the World Cultural and Natural Heritage;

(E) making determinations of eligibility of properties for inclusion on the National Register; and

(F) notifying the owner of a property, and appropriate local governments, and the general public, when the property is being considered for inclusion on the National Register, for designation as a National Historic Landmark or for nomination to the World Heritage List.

(3) Subject to the requirements of paragraph (6), any State which is carrying out a program approved under subsection (b), shall nominate to the Secretary properties which meet the criteria promulgated under subsection (a) for inclusion on the National Register. Subject to paragraph (6), any property nominated under this paragraph or under section 110(a)(2) shall be included on the National Register on the date forty-five days after receipt by the Secretary of the nomination and the necessary documentation, unless the Secretary disapproves such nomination within such forty-five day period or unless an appeal is filed under paragraph (5).

(4) Subject to the requirements of paragraph (6) the Secretary may accept a nomination directly from any person or local government for inclusion of a property on the National Register only if such property is located in a State where there is no program approved under subsection (b). The Secretary may include on the National Register any property for which such a nomination is made if he determines that such property is eligible in accordance with the regulations promulgated under paragraph (2). Such determina-
tion shall be made within ninety days from the date of the nomination unless the nomination is appealed under paragraph (5).

(5) Any person or local government may appeal to the Secretary a nomination of any historic property for inclusion on the National Register and may appeal to the Secretary the failure or refusal of a nominating authority to nominate a property in accordance with this subsection.

(6) The Secretary shall promulgate regulations requiring that before any property or district may be included on the National Register or designated as a National Historic Landmark, the owner or owners or such property, or a majority of the owners of the properties within the district in the case of an historic district, shall be given the opportunity (including a reasonable period of time) to concur in, or object to, the nomination of the property or district for such inclusion or designation. If the owner or owners of any privately owned property, or a majority of the owners of such properties within the district in the case of an historic district, object to such inclusion or designation, such property shall not be included on the National Register or designated as a National Historic Landmark until such objection is withdrawn. The Secretary shall review the nomination of the property or district where any such objection has been made and shall determine whether or not the property or district is eligible for such inclusion or designation, and if the Secretary determines that such property or district is eligible for such inclusion or designation, he shall inform the Advisory Council on Historic Preservation, the appropriate State Historic Preservation Officer, the appropriate chief elected local official and the owner or owners of such property, of his determination. The regulations under this paragraph shall include provisions to carry out the purposes of this paragraph in the case of multiple ownership of a single property.

(7) The Secretary shall promulgate, or revise, regulations—

(A) ensuring that significant prehistoric and historic artifacts, and associated records, subject to section 110 of this Act, the Act of June 27, 1960 (16 U.S.C. 469c), and the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470aa and following) are deposited in an institution with adequate long-term curatorial capabilities;

(B) establishing a uniform process and standards for documenting historic properties by public agencies and private parties for purposes of incorporation into, or complementing, the national historical architectural and engineering records within the Library of Congress; and

(C) certifying local governments, in accordance with subsection (c)(1) and for the allocation of funds pursuant to section 103(c) of this Act.

(8) The Secretary shall, at least once every 4 years, in consultation with the Council and with State Historic Preservation Officers, review significant threats to properties included in, or eligible for inclusion on, the National Register, in order to—

(A) determine the kinds of properties that may be threatened;

(B) ascertain the causes of the threats; and

(C) develop and submit to the President and Congress recommendations for appropriate action.
(b)(1) The Secretary, in consultation with the National Conference of State Historic Preservation Officers and the National Trust for Historic Preservation, shall promulgate or revise regulations for State Historic Preservation Programs. Such regulations shall provide that a State program submitted to the Secretary under this section shall be approved by the Secretary if he determines that the program—

(A) provides for the designation and appointment by the Governor of a “State Historic Preservation Officer” to administer such program in accordance with paragraph (3) and for the employment or appointment by such officer of such professionally qualified staff as may be necessary for such purposes;

(B) provides for an adequate and qualified State historic preservation review board designated by the State Historic Preservation Officer unless otherwise provided for by State law; and

(C) provides for adequate public participation in the State Historic Preservation Program, including the process of recommending properties for nomination to the National Register.

(2)(A) Periodically, but not less than every 4 years after the approval of any State program under this subsection, the Secretary, in consultation with the Council on the appropriate provisions of this Act, and in cooperation with the State Historic Preservation Officer, shall evaluate the program to determine whether it is consistent with this Act.

(B) If, at any time, the Secretary determines that a major aspect of a State program is not consistent with this Act, the Secretary shall disapprove the program and suspend in whole or in part any contracts or cooperative agreements with the State and the State Historic Preservation Officer under this Act, until the program is consistent with this Act, unless the Secretary determines that the program will be made consistent with this Act within a reasonable period of time.

(C) The Secretary, in consultation with State Historic Preservation Officers, shall establish oversight methods to ensure State program consistency and quality without imposing undue review burdens on State Historic Preservation Officers.

(D) At the discretion of the Secretary, a State system of fiscal audit and management may be substituted for comparable Federal systems so long as the State system—

(i) establishes and maintains substantially similar accountability standards; and

(ii) provides for independent professional peer review.

The Secretary may also conduct periodic fiscal audits of State programs approved under this section as needed and shall ensure that such programs meet applicable accountability standards.

(3) It shall be the responsibility of the State Historic Preservation Officer to administer the State Historic Preservation Program and to—

(A) in cooperation with Federal and State agencies, local governments, and private organizations and individuals, direct and conduct a comprehensive statewide survey of historic properties and maintain inventories of such properties;
(B) identify and nominate eligible properties to the National Register and otherwise adminster applications for listing historic properties on the National Register;
(C) prepare and implement a comprehensive statewide historic preservation plan;
(D) administer the State program of Federal assistance for historic preservation within the State;
(E) advise and assist, as appropriate, Federal and State agencies and local governments in carrying out their historic preservation responsibilities;
(F) cooperate with the Secretary, the Advisory Council on Historic Preservation, and other Federal and State agencies, local governments, and organizations and individuals to ensure that historic properties are taken into consideration at all levels of planning and development;
(G) provide public information, education, and training and technical assistance in historic preservation;
(H) cooperate with local governments in the development of local historic preservation programs and assist local governments in becoming certified pursuant to subsection (c);
(I) consult with appropriate Federal agencies in accordance with this Act on—
(i) Federal undertakings that may affect historic properties; and
(ii) the content and sufficiency of any plans developed to protect, manage, or reduce or mitigate harm to such properties; and
(J) advise and assist in the evaluation of proposals for rehabilitation projects that may qualify for Federal assistance.

(4) Any State may carry out all or any part of its responsibilities under this subsection by contract or cooperative agreement with any qualified nonprofit organization or educational institution.

(5) Any State historic preservation program in effect under prior authority of law may be treated as an approved program for purposes of this subsection until the earlier of—
(A) the date on which the Secretary approves a program submitted by the State under this subsection, or
(B) three years after the date of the enactment of the National Historic Preservation Act Amendments of 1992.

(6)(A) Subject to subparagraphs (C) and (D), the Secretary may enter into contracts or cooperative agreements with a State Historic Preservation Officer for any State authorizing such Officer to assist the Secretary in carrying out one or more of the following responsibilities within that State—
(i) Identification and preservation of historic properties.
(ii) Determination of the eligibility of properties for listing on the National Register.
(iii) Preparation of nominations for inclusion on the National Register.
(iv) Maintenance of historical and archaeological data bases.

1 The indentation of subparagraphs (I) and (J) differ from the other subparagraphs in paragraph (3).
(v) Evaluation of eligibility for Federal preservation incentives.
Nothing in this paragraph shall be construed to provide that any State Historic Preservation Officer or any other person other than the Secretary shall have the authority to maintain the National Register for properties in any State.

(B) The Secretary may enter into a contract or cooperative agreement under subparagraph (A) only if—
(i) the State Historic Preservation Officer has requested the additional responsibility;
(ii) the Secretary has approved the State historic preservation program pursuant to section 101(b) (1) and (2);
(iii) the State Historic Preservation Officer agrees to carry out the additional responsibility in a timely and efficient manner acceptable to the Secretary and the Secretary determines that such Officer is fully capable of carrying out such responsibility in such manner;
(iv) the State Historic Preservation Officer agrees to permit the Secretary to review and revise, as appropriate in the discretion of the Secretary, decisions made by the Officer pursuant to such contract or cooperative agreement; and
(v) the Secretary and the State Historic Preservation Officer agree on the terms of additional financial assistance to the State, if there is to be any, for the costs of carrying out such responsibility.

(C) For each significant program area under the Secretary's authority, the Secretary shall establish specific conditions and criteria essential for the assumption by State Historic Preservation Officers of the Secretary's duties in each such program.

(D) Nothing in this subsection shall have the effect of diminishing the preservation programs and activities of the National Park Service.

(c)(1) Any State program approved under this section shall provide a mechanism for the certification by the State Historic Preservation Officer of local governments to carry out the purposes of this Act and provide for the transfer in accordance with section 103(c), of a portion of the grants received by the States under this Act, to such local governments. Any local government shall be certified to participate under the provisions of this section if the applicable State Historic Preservation Officer, and the Secretary, certifies that the local government—
(A) enforces appropriate State or local legislation for the designation and protection of historic properties;
(B) has established an adequate and qualified historic preservation review commission by State or local legislation;
(C) maintains a system for the survey and inventory of historic properties that furthers the purposes of subsection (b);
(D) provides for adequate public participation in the local historic preservation program, including the process of recommending properties for nomination to the National Register; and
(E) satisfactorily performs the responsibilities delegated to it under this Act.
Where there is no approved State program, a local government may be certified by the Secretary if he determines that such local gov-
(A) Before a property within the jurisdiction of the certified local government may be considered by the State to be nominated to the Secretary for inclusion on the National Register, the State Historic Preservation Officer shall notify the owner, the applicable chief local elected official, and the local historic preservation commission. The commission, after reasonable opportunity for public comment, shall prepare a report as to whether or not such property, in its opinion, meets the criteria for the National Register. Within sixty days of notice from the State Historic Preservation Officer, the chief local elected official shall transmit the report of the commission and his recommendation to the State Historic Preservation Officer. Except as provided in subparagraph (B), after receipt of such report and recommendation, or if no such report and recommendation are received within sixty days, the State shall make the nomination pursuant to section 101(a). The State may expedite such process with the concurrence of the certified local government.

(B) If both the commission and the chief local elected official recommend that a property not be nominated to the National Register, the State Historic Preservation Officer shall take no further action, unless within thirty days of the receipt of such recommendation by the State Historic Preservation Officer an appeal is filed with the State. If such an appeal is filed, the State shall follow the procedures for making a nomination pursuant to section 101(a). Any report and recommendations made under this section shall be included with any nomination submitted by the State to the Secretary.

(3) Any local government certified under this section or which is making efforts to become so certified shall be eligible for funds under the provisions of section 103(c) of this Act, and shall carry out any responsibilities delegated to it in accordance with such terms and conditions as the Secretary deems necessary or advisable.

(4) For the purposes of this section the term—

(A) “designation” means the identification and registration of properties for protection that meet criteria established by the State or the locality for significant historic and prehistoric resources within the jurisdiction of a local government; and

(B) “protection” means a local review process under State or local law for proposed demolition of, changes to, or other action that may affect historic properties designated pursuant to subsection (c).

(d)(1)(A) The Secretary shall establish a program and promulgate regulations to assist Indian tribes in preserving their particular historic properties. The Secretary shall foster communication and cooperation between Indian tribes and State Historic Preservation Officers in the administration of the national historic preservation program to ensure that all types of historic properties and all public interests in such properties are given due consideration, and to encourage coordination among Indian tribes, State Historic Preservation Officers, and Federal agencies in historic preservation
planning and in the identification, evaluation, protection, and interpretation of historic properties.

(B) The program under subparagraph (A) shall be developed in such a manner as to ensure that tribal values are taken into account to the extent feasible. The Secretary may waive or modify requirements of this section to conform to the cultural setting of tribal heritage preservation goals and objectives. The tribal programs implemented by specific tribal organizations may vary in scope, as determined by each tribe’s chief governing authority.

(C) The Secretary shall consult with Indian tribes, other Federal agencies, State Historic Preservation Officers, and other interested parties and initiate the program under subparagraph (A) by not later than October 1, 1994.

(2) A tribe may assume all or any part of the functions of a State Historic Preservation Officer in accordance with subsections (b)(2) and (b)(3), with respect to tribal lands, as such responsibilities may be modified for tribal programs through regulations issued by the Secretary, if—

(A) the tribe’s chief governing authority so requests;

(B) the tribe designates a tribal preservation official to administer the tribal historic preservation program, through appointment by the tribe’s chief governing authority or as a tribal ordinance may otherwise provide;

(C) the tribal preservation official provides the Secretary with a plan describing how the functions the tribal preservation official proposes to assume will be carried out;

(D) the Secretary determines, after consulting with the tribe, the appropriate State Historic Preservation Officer, the Council (if the tribe proposes to assume the functions of the State Historic Preservation Officer with respect to review of undertakings under section 106), and other tribes, if any, whose tribal or aboriginal lands may be affected by conduct of the tribal preservation program—

(i) that the tribal preservation program is fully capable of carrying out the functions specified in the plan provided under subparagraph (C);

(ii) that the plan defines the remaining responsibilities of the Secretary and the State Historic Preservation Officer; and

(iii) that the plan provides, with respect to properties neither owned by a member of the tribe nor held in trust by the Secretary for the benefit of the tribe, at the request of the owner thereof, the State Historic Preservation Officer, in addition to the tribal preservation official, may exercise the historic preservation responsibilities in accordance with subsections (b)(2) and (b)(3); and

(E) based on satisfaction of the conditions stated in subparagraphs (A), (B), (C), and (D), the Secretary approves the plan.

(3) In consultation with interested Indian tribes, other Native American organizations and affected State Historic Preservation Officers, the Secretary shall establish and implement procedures for carrying out section 103(a) with respect to tribal programs that assume responsibilities under paragraph (2).
(4) At the request of a tribe whose preservation program has been approved to assume functions and responsibilities pursuant to paragraph (2), the Secretary shall enter into contracts or cooperative agreements with such tribe permitting the assumption by the tribe of any part of the responsibilities referred to in subsection (b)(6) on tribal land, if—

(A) the Secretary and the tribe agree on additional financial assistance, if any, to the tribe for the costs of carrying out such authorities;

(B) the Secretary finds that the tribal historic preservation program has been demonstrated to be sufficient to carry out the contract or cooperative agreement and this Act; and

(C) the contract or cooperative agreement specifies the continuing responsibilities of the Secretary or of the appropriate State Historic Preservation Officers and provides for appropriate participation by—

(i) the tribe's traditional cultural authorities;

(ii) representatives of other tribes whose traditional lands are under the jurisdiction of the tribe assuming responsibilities; and

(iii) the interested public.

(5) The Council may enter into an agreement with an Indian tribe to permit undertakings on tribal land to be reviewed under tribal historic preservation regulations in place of review under regulations promulgated by the Council to govern compliance with section 106, if the Council, after consultation with the tribe and appropriate State Historic Preservation Officers, determines that the tribal preservation regulations will afford historic properties consideration equivalent to those afforded by the Council's regulations.

(6)(A) Properties of traditional religious and cultural importance to an Indian tribe or Native Hawaiian organization may be determined to be eligible for inclusion on the National Register.

(B) In carrying out its responsibilities under section 106, a Federal agency shall consult with any Indian tribe or Native Hawaiian organization that attaches religious and cultural significance to properties described in subparagraph (A).

(C) In carrying out his or her responsibilities under subsection (b)(3), the State Historic Preservation Officer for the State of Hawaii shall—

(i) consult with Native Hawaiian organizations in assessing the cultural significance of any property in determining whether to nominate such property to the National Register;

(ii) consult with Native Hawaiian organizations in developing the cultural component of a preservation program or plan for such property; and

(iii) enter into a memorandum of understanding or agreement with Native Hawaiian organizations for the assessment of the cultural significance of a property in determining whether to nominate such property to the National Register and to carry out the cultural component of such preservation program or plan.

(e)(1) The Secretary shall administer a program of matching grants to the States for the purposes of carrying out this Act.
The Secretary may administer grants to the National Trust for Historic Preservation in the United States, chartered by an Act of Congress approved October 26, 1949 (63 Stat. 947) consistent with the purposes of its charter and this Act.

(3)(A) In addition to the programs under paragraphs (1) and (2), the Secretary shall administer a program of direct grants for the preservation of properties included on the National Register. Funds to support such program annually shall not exceed 10 per centum of the amount appropriated annually for the fund established under section 108. These grants may be made by the Secretary, in consultation with the appropriate State Historic Preservation Officer—

(i) for the preservation of National Historic Landmarks which are threatened with demolition or impairment and for the preservation of historic properties of World Heritage significance,

(ii) for demonstration projects which will provide information concerning professional methods and techniques having application to historic properties,

(iii) for the training and development of skilled labor in trades and crafts, and in analysis and curation, relating to historic preservation, and

(iv) to assist persons or small businesses within any historic district included in the National Register to remain within the district.

(B) The Secretary may also, in consultation with the appropriate State Historic Preservation Officer, make grants or loans or both under this section to Indian tribes and to nonprofit organizations representing ethnic or minority groups for the preservation of their cultural heritage.

(C) Grants may be made under subparagraph (A) (i) and (iv) only to the extent that the project cannot be carried out in as effective a manner through the use of an insured loan under section 104.

(4) Grants may be made under this subsection for the preservation, stabilization, restoration, or rehabilitation of religious properties listed in the National Register of Historic Places, provided that the purpose of the grant is secular, does not promote religion, and seeks to protect those qualities that are historically significant. Nothing in this paragraph shall be construed to authorize the use of any funds made available under this section for the acquisition of any property referred to in the preceding sentence.

(5) The Secretary shall administer a program of direct grants to Indian tribes and Native Hawaiian organizations for the purpose of carrying out this Act as it pertains to Indian tribes and Native Hawaiian organizations. Matching fund requirements may be modified. Federal funds available to a tribe or Native Hawaiian organization may be used as matching funds for the purposes of the tribe's or organization's conducting its responsibilities pursuant to this section.

(6)(A) As part of the program of matching grant assistance from the Historic Preservation Fund to States, the Secretary shall administer a program of direct grants to the Federated States of

Micronesia, the Republic of the Marshall Islands, the Trust Territory of the Pacific Islands, and upon termination of the Trusteeship Agreement for the Trust Territory of the Pacific Islands, the Republic of Palau (referred to as the Micronesian States) in furtherance of the Compact of Free Association between the United States and the Federated States of Micronesia and the Marshall Islands, approved by the Compact of Free Association Act of 1985 (48 U.S.C. 1681 note), the Trusteeship Agreement for the Trust Territory of the Pacific Islands, and the Compact of Free Association between the United States and Palau, approved by the Joint Resolution entitled “Joint Resolution to approve the “Compact of Free Association” between the United States and Government of Palau, and for other purposes” (48 U.S.C. 1681 note). The goal of the program shall be to establish historic and cultural preservation programs that meet the unique needs of each Micronesian State so that at the termination of the compacts the programs shall be firmly established. The Secretary may waive or modify the requirements of this section to conform to the cultural setting of those nations.

(B) The amounts to be made available to the Micronesian States shall be allocated by the Secretary on the basis of needs as determined by the Secretary. Matching funds may be waived or modified.

(f) No part of any grant made under this section may be used to compensate any person intervening in any proceeding under this Act.

(g) In consultation with the Advisory Council on Historic Preservation, the Secretary shall promulgate guidelines for Federal agency responsibilities under section 110 of this title.

(h) Within one year after the date of enactment of the National Historic Preservation Act Amendments of 1980, the Secretary shall establish, in consultation with the Secretaries of Agriculture and Defense, the Smithsonian Institution, and the Administrator of the General Services Administration, professional standards for the preservation of historic properties in Federal ownership or control.

(i) The Secretary shall develop and make available to Federal agencies, State and local governments, private organizations and individuals, and other nations and international organizations pursuant to the World Heritage Convention, training in, and information concerning, professional methods and techniques for the preservation of historic properties and for the administration of the historic preservation program at the Federal, State, and local level. The Secretary shall also develop mechanisms to provide information concerning historic preservation to the general public including students.

(j)(1) The Secretary shall, in consultation with the Council and other appropriate Federal, tribal, Native Hawaiian, and non-Federal organizations, develop and implement a comprehensive preservation education and training program.

(2) The education and training program described in paragraph (1) shall include—

(A) new standards and increased preservation training opportunities for Federal workers involved in preservation-related functions;
(B) increased preservation training opportunities for other Federal, State, tribal and local government workers, and students;

(C) technical or financial assistance, or both, to historically black colleges and universities, to tribal colleges, and to colleges with a high enrollment of Native Americans or Native Hawaiians, to establish preservation training and degree programs;

(D) coordination of the following activities, where appropriate, with the National Center for Preservation Technology and Training—

(i) distribution of information on preservation technologies;

(iii) support for research, analysis, conservation, curation, interpretation, and display related to preservation.

SEC. 102. [16 U.S.C. 470b] (a) No grant may be made under this Act—

(1) unless application therefor is submitted to the Secretary in accordance with regulations and procedures prescribed by him;

(2) unless the application is in accordance with the comprehensive statewide historic preservation plan which has been approved by the Secretary after considering its relationship to the comprehensive statewide outdoor recreation plan prepared pursuant to the Land and Water Conservation Fund Act of 1965 (78 Stat. 897);

(3) for more than 60 percent of the aggregate costs of carrying out projects and programs under the administrative control of the State Historic Preservation Officer as specified in section 101(b)(3) in any one fiscal year;

(4) unless the grantee has agreed to make such reports, in such form and containing such information as the Secretary may from time to time require;

(5) unless the grantee has agreed to assume, after completion of the project, the total cost of the continued maintenance, repair, and administration of the property in a manner satisfactory to the Secretary; and

(6) until the grantee has complied with such further terms and conditions as the Secretary may deem necessary or advisable.

 Except as permitted by other law, the State share of the costs referred to in paragraph (3) shall be contributed by non-Federal sources. Notwithstanding any other provision of law, no grant made pursuant to this Act shall be treated as taxable income for purposes of the Internal Revenue Code of 1954.

1The indentation of paragraph (3) differs from the other paragraphs of subsection (a).
1 With regard to section 102(b), section 4009 of the Reclamation Projects Authorization and Adjustment Act of 1992 (Public Law 102–575; 106 Stat. 4759) attempted to amend this subsection by striking "in which case a grant to the National Trust may include funds for the maintenance, repair, and administration of the property in a manner satisfactory for the Secretary" at the end of the subsection. The amendment could not be executed because the language of the amendment referred to "for the Secretary" while the actual language in the text refers to "to the Secretary". Commercial publications of this Act have executed the amendment to reflect the probable intent of Congress.

2 The second subsection (d) of section 102 was added by section 4009(3) of Public Law 102–575 (106 Stat. 4759).
of such local governments. In any year in which the total annual apportionment to the States exceeds $65,000,000, one half of the excess shall also be transferred by the States to local governments certified pursuant to section 101(c).

(d) The Secretary shall establish guidelines for the use and distribution of funds under subsection (c) to insure that no local government receives a disproportionate share of the funds available, and may include a maximum or minimum limitation on the amount of funds distributed to any single local government. The guidelines shall not limit the ability of any State to distribute more than 10 per centum of its annual apportionment under subsection (c), nor shall the Secretary require any State to exceed the 10 per centum minimum distribution to local governments.

SEC. 104. [16 U.S.C. 470d] (a) The Secretary shall establish and maintain a program by which he may, upon application of a private lender, insure loans (including loans made in accordance with a mortgage) made by such lender to finance any project for the preservation of a property included on the National Register.

(b) A loan may be insured under this section only if—

(1) the loan is made by a private lender approved by the Secretary as financially sound and able to service the loan properly;

(2) the amount of the loan, and interest rate charged with respect to the loan, do not exceed such amount, and such a rate, as is established by the Secretary, by rule;

(3) the Secretary has consulted the appropriate State Historic Preservation Officer concerning the preservation of the historic property;

(4) the Secretary has determined that the loan is adequately secured and there is reasonable assurance of repayment;

(5) the repayment period of the loan does not exceed the lesser of forty years or the expected life of the asset financed;

(6) the amount insured with respect to such loan does not exceed 90 per centum of the loss sustained by the lender with respect to the loan; and

(7) the loan, the borrower, and the historic property to be preserved meet other terms and conditions as may be prescribed by the Secretary, by rule, especially terms and conditions relating to the nature and quality of the preservation work.

The Secretary shall consult with the Secretary of the Treasury regarding the interest rate of loans insured under this section.

(c) The aggregate unpaid principal balance of loans insured under this section and outstanding at any one time may not exceed the amount which has been covered into the Historic Preservation Fund pursuant to section 108 and subsections (g) and (i) of this section, as in effect on the date of the enactment of this Act but which has not been appropriated for any purpose.

(d) Any contract of insurance executed by the Secretary under this section may be assignable, shall be an obligation supported by the full faith and credit of the United States, and shall be incontestable except for fraud or misrepresentation of which the holder had actual knowledge at the time it became a holder.
(e) The Secretary shall specify, by rule and in each contract entered into under this section, the conditions and method of payment to a private lender as a result of losses incurred by the lender on any loan insured under this section.

(f) In entering into any contract to insure a loan under this section, the Secretary shall take steps to assure adequate protection of the financial interests of the Federal Government. The Secretary may—

(1) in connection with any foreclosure proceeding, obtain, on behalf of the Federal Government, the property securing a loan insured under this title; and

(2) operate or lease such property for such period as may be necessary to protect the interest of the Federal Government and to carry out subsection (g).

(g)(1) In any case in which a historic property is obtained pursuant to subsection (f), the Secretary shall attempt to convey such property to any governmental or nongovernmental entity under such conditions as will ensure the property's continued preservation and use; except that if, after a reasonable time, the Secretary, in consultation with the Advisory Council on Historic Preservation, determines that there is no feasible and prudent means to convey such property and to ensure its continued preservation and use, then the Secretary may convey the property at the fair market value of its interest in such property to any entity without restriction.

(2) Any funds obtained by the Secretary in connection with the conveyance of any property pursuant to paragraph (1) shall be covered into the historic preservation fund, in addition to the amounts covered into such fund pursuant to section 108 and subsection (i) of this section, and shall remain available in such fund until appropriated by the Congress to carry out the purposes of this Act.

(b) The Secretary may assess appropriate and reasonable fees in connection with insuring loans under this section. Any such fees shall be covered into the Historic Preservation Fund, in addition to the amounts covered into such fund pursuant to section 108 and subsection (g) of this section, and shall remain available in such fund until appropriated by the Congress to carry out purposes of this Act.

(i) Notwithstanding any other provision of law, any loan insured under this section shall be treated as non-Federal funds for the purposes of satisfying any requirement of any other provision of law under which Federal funds to be used for any project or activity are conditioned upon the use of non-Federal funds by the recipient for payment of any portion of the costs of such project or activity.

(j) Effective after the fiscal year 1981 there are authorized to be appropriated, such sums as may be necessary to cover payments incurred pursuant to subsection (e).

(k) No debt obligation which is made or committed to be made, or which is insured or committed to be insured, by the Secretary under this section shall be eligible for purchase by, or commitment to purchase by, or sale or issuance to, the Federal Financing Bank.

AN ACT To provide for the preservation of historical and archeological data (including relics and specimens) which might otherwise be lost as the result of the construction of a dam.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, [16 U.S.C. 469] That it is the purpose of this Act to further the policy set forth in the Act entitled “An Act to provide for the preservation of historic American sites, buildings, objects, and antiquities of national significance, and for other purposes”, approved August 21, 1935 (16 U.S.C. 461–467), by specifically providing for the preservation of historical and archeological data (including relics and specimens) which might otherwise be irreparably lost or destroyed as the result of (1) flooding, the building of access roads, the erection of workmen’s communities, the relocation of railroads and highways, and other alterations of the terrain caused by the construction of a dam by any agency of the United States, or by any private person or corporation holding a license issued by any such agency or (2) any alteration of the terrain caused as a result of any Federal construction project or federally licensed activity or program.

SEC. 2. [16 U.S.C. 469a] Before any agency of the United States shall undertake the construction of a dam, or issue a license to any private individual or corporation for the construction of a dam, it shall give written notice to the Secretary of the Interior (hereafter referred to as the Secretary) setting forth the site of the proposed dam and the approximate area to be flooded and otherwise changed if such construction is undertaken: Provided, That with respect to any floodwater retarding dam which provides less than five thousand acre-feet of detention capacity and with respect to any other type of dam which creates a reservoir of less than forty surface acres the provisions of this section shall apply only when the constructing agency, in its preliminary surveys, finds, or is presented with evidence that historical or archeological materials exist or may be present in the proposed reservoir area.

SEC. 3. [16 U.S.C. 469a–1] (a) Whenever any Federal agency finds, or is notified, in writing, by an appropriate historical or archeological authority, that its activities in connection with any Federal construction project or federally licensed project, activity, or program may cause irreparable loss or destruction of significant

Such agency may request the Secretary to undertake the recovery, protection, and preservation of such data (including preliminary survey, or other investigation as needed, and analysis and publication of the reports resulting from such investigation), or it may, with funds appropriated for such project, program, or activity, undertake such activities. Copies of reports of any investigations made pursuant to this section shall be submitted to the Secretary, who shall make them available to the public for inspection and review.

(b) Whenever any Federal agency provides financial assistance by loan, grant, or otherwise to any private person, association, or public entity, the Secretary, if he determines that significant scientific, prehistorical, historical, or archeological data might be irrevocably lost or destroyed, may with funds appropriated expressly for this purpose conduct, with the consent of all persons, associations, or public entities having a legal interest in the property involved, a survey of the affected site and undertake the recovery, protection, and preservation of such data (including analysis and publication). The Secretary shall, unless otherwise mutually agreed to in writing, compensate any person, association, or public entity damaged as a result of delays in construction or as a result of the temporary loss of the use of private or any nonfederally owned lands.

(b) No survey or recovery work shall be required pursuant to this section which, in the determination of the head of the responsible agency, would impede Federal or federally assisted or licensed projects or activities undertaken in connection with any emergency, including projects or activities undertaken in anticipation of, or as a result of, a natural disaster.

(c) The Secretary shall initiate the survey or recovery effort within sixty days after notification to him pursuant to subsection (a) of this section or within such time as may be agreed upon with the head of the agency responsible for funding or licensing the project, activity, or program in all other cases.

(b) The Secretary shall consult with any interested Federal and State agencies, educational and scientific organizations, and private institutions and qualified individuals, with a view to determining the ownership of and the most appropriate repository for any relics and specimens recovered as a result of any work performed as provided for in this section.

(c) The Secretary shall coordinate all Federal survey and recovery activities authorized under this Act.

(3) accept and utilize funds made available for salvage archaeological purposes by any private person or corporation or transferred to him by any Federal agency.

15. ARCHAEOLOGICAL RESOURCES PROTECTION ACT
OF 1979
(Public Law 96–95; Approved October 31, 1979; 16 U.S.C. 470aa through 470mm)

AN ACT To protect archaeological resources on public lands and Indian lands, and
for other purposes.

Be it enacted of the Senate and house of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. [16 U.S.C. 470aa note] This Act may be cited as the “Archaeological Resources Protection Act of 1979”.

FINDINGS AND PURPOSE

SEC. 2. [16 U.S.C. 470aa] (a) The Congress finds that—
(1) archaeological resources on public lands and Indian lands are an accessible and irreplaceable part of the Nation’s heritage;
(2) these resources are increasingly endangered because of their commercial attractiveness;
(3) existing Federal laws do not provide adequate protection to prevent the loss and destruction of these archaeological resources and sites resulting from uncontrolled excavations and pillage; and
(4) there is a wealth of archaeological information which has been legally obtained by private individuals for non-commercial purposes and which could voluntarily be made available to professional archaeologists and institutions.

(b) The purpose of this Act is to secure, for the present and future benefit of the American people, the protection of archaeological resources and sites which are on public lands and Indian lands, and to foster increased cooperation and exchange of information between governmental authorities, the professional archaeological community, and private individuals having collections of archaeological resources and data which were obtained before the date of the enactment of this Act.

DEFINITIONS

SEC. 3. [16 U.S.C. 470bb] As used in this Act—
(1) The term “archaeological resource” means any material remains of past human life or activities which are of archaeological interest, as determined under uniform regulations promulgated pursuant to this Act. Such regulations containing such determination shall include, but not be limited to: pottery, basketry, bottles, weapons, weapon projectiles, tools, structures or portions of structures, pit houses, rock paintings, rock carving,
tings, intaglios, graves, human skeletal materials, or any portion or piece of any of the foregoing items. Nonfossilized and fossilized paleontological specimens, or any portion or piece thereof, shall not be considered archaeological resources, under the regulations under this paragraph, unless found in an archaeological context. No item shall be treated as an archaeological resource under regulations under this paragraph unless such item is at least 100 years of age.

(2) The term “Federal land manager” means, with respect to any public lands, the Secretary of the department, or the head of any other agency or instrumentality of the United States, having primary management authority over such lands. In the case of any public lands or Indian lands with respect to which no department, agency, or instrumentality has primary management authority, such term means the Secretary of the Interior. If the Secretary of the Interior consents, the responsibilities (in whole or in part) under this Act of the Secretary of any department (other than the Department of the Interior) or the head of any other agency or instrumentality may be delegated to the Secretary of the Interior with respect to any land managed by such other Secretary or agency head, and in any such case, the term “Federal land manager” means the Secretary of the Interior.

(3) The term “public lands” means—

(A) lands which are owned and administered by the United States as part of—

(i) the national park system,

(ii) the national wildlife refuge system, or

(iii) the national forest system; and

(B) all other lands the fee title to which is held by the United States, other than lands on the Outer Continental Shelf and lands which are under the jurisdiction of the Smithsonian Institution.

(4) The term “Indian lands” means lands of Indian tribes, or Indian individuals, which are either held in trust by the United States or subject to a restriction against alienation imposed by the United States, except for any subsurface interests in lands not owned or controlled by an Indian tribe or an Indian individual.

(5) The term “Indian tribe” means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (85 Stat. 688).

(7) The term “State” means any of the fifty States, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

1 Paragraph (3)(A)(iii) probably should end with “; and” rather than “; and”.

SEC. 4. [16 U.S.C. 470cc] (a) Any person may apply to the Federal land manager for a permit to excavate or remove any archaeological resource located on public lands or Indian lands and to carry out activities associated with such excavation or removal. The application shall be required, under uniform regulations under this Act, to contain such information as the Federal land manager deems necessary, including information concerning the time, scope, and location and specific purpose of the proposed work.

(b) A permit may be issued pursuant to an application under subsection (a) if the Federal land manager determines, pursuant to uniform regulations under this Act, that—

(1) the applicant is qualified, to carry out the permitted activity,
(2) the activity is undertaken for the purpose of furthering archaeological knowledge in the public interest,
(3) the archaeological resources which are excavated or removed from public lands will remain the property of the United States, and such resources and copies of associated archaeological records and data will be preserved by a suitable university, museum, or other scientific or educational institution, and
(4) the activity pursuant to such permit is not inconsistent with any management plan applicable to the public lands concerned.

(c) If a permit issued under this section may result in harm to, or destruction of, any religious or cultural site, as determined by the Federal land manager, before issuing such permit, the Federal land manager shall notify any Indian tribe which may consider the site as having religious or cultural importance. Such notice shall not be deemed a disclosure to the public for purposes of section 9.

(d) Any permit under this section shall contain such terms and conditions, pursuant to uniform regulations promulgated under this Act, as the Federal land manager concerned deems necessary to carry out the purposes of this Act.

(e) Each permit under this section shall identify the individual who shall be responsible for carrying out the terms and conditions of the permit and for otherwise complying with this Act and other law applicable to the permitted activity.

(f) Any permit issued under this section may be suspended by the Federal land manager upon his determination that the permittee has violated any provision of subsection (a), (b), or (c) of section 6. Any such permit may be revoked by such Federal land manager upon assessment of a civil penalty under section 7 against the permittee or upon the permittee's conviction under section 6.

(g)(1) No permit shall be required under this section or under the Act of June 8, 1906 (16 U.S.C. 431), for the excavation or removal by any Indian tribe or member thereof of any archaeological resource located on Indian lands of such Indian tribe, except that in the absence of tribal law regulating the excavation or removal of archaeological resources on Indian lands, an individual tribal member shall be required to obtain a permit under this section.

(2) In the case of any permits for the excavation or removal of any archaeological resource located on Indian lands, the permit
may be granted only after obtaining the consent of the Indian or Indian tribe owning or having jurisdiction over such lands. The permit shall include such terms and conditions as may be requested by such Indian or Indian tribe.

(b)(1) No permit or other permission shall be required under the Act of June 8, 1906 (16 U.S.C. 431–433), for any activity for which a permit is issued under this section.

(2) Any permit issued under the Act of June 8, 1906, shall remain in effect according to its terms and conditions following the enactment of this Act. No permit under this Act shall be required to carry out any activity under a permit issued under the Act of June 8, 1906, before the date of the enactment of this Act which remains in effect as provided in this paragraph, and nothing in this Act shall modify or affect any such permit.

(i) Issuance of a permit in accordance with this section and applicable regulations shall not require compliance with section 106 of the Act of October 15, 1966 (80 Stat. 917, 16 U.S.C. 470f).

(j) Upon the written request of the Governor of any State, the Federal land manager shall issue a permit, subject to the provisions of subsections (b)(3), (b)(4), (c), (e), (f), (g), (h), and (i) of this section for the purpose of conducting archaeological research, excavation, removal, and curation, on behalf of the State or its educational institutions, to such Governor or to such designee as the Governor deems qualified to carry out the intent of this Act.

(1) the exchange, where appropriate, between suitable universities, museums, or other scientific or educational institutions, of archaeological resources removed from public lands and Indian lands pursuant to this Act, and

(2) the ultimate disposition of such resources and other resources removed pursuant to the Act of June 27, 1960 (16 U.S.C. 469–469c) or the Act of June 8, 1906 (16 U.S.C. 431–433).

Any exchange or ultimate disposition under such regulation of archaeological resources excavated or removed from Indian lands shall be subject to the consent of the Indian or Indian tribe which owns or has jurisdiction over such lands. Any such civil penalty may be remitted or mitigated by the Federal land manager concerned.

(2) The amount of such penalty shall be determined under regulations promulgated pursuant to this Act, taking into account, in addition to other factors—

the Federal land managers may request the Attorney General to institute a civil action in a district court of the United States for any district in which such person is found, resides, or transacts business to collect the penalty and such court shall have jurisdiction to hear and decide any such action. In such action, the validity and amount of such penalty shall not be subject to review.

(c) Hearings held during proceedings for the assessment of civil penalties authorized by subsection (a) shall be conducted in accordance with section 554 of title 5 of the United States Code. The Federal land manager may issue subpenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and administer oaths. SEC. 8. [40 U.S.C. 1008] (a) Prior to issuing a permit for the construction of a commemorative work in the District of Columbia and its environs, the Secretary or Administrator (as appropriate) shall determine that:

(1) the site and design have been approved by the Secretary or Administrator (as appropriate), the National Capital Planning Commission and the Commission of Fine Arts;

TEMPORARY SITE DESIGNATION

A designation may not be made under the preceding sentence unless, at least one hundred and twenty days before the designation, the Secretary, in consultation with the National Capital Memorial Commission, prepares and submits to the Congress a plan for the site. The plan shall include specifications for the location, construction, and administration of the site, and criteria for displaying commemorative works at the site.

(b) Any commemorative work displayed at the site shall be installed, maintained, and removed at the sole expense and risk of the person authorized to display the commemorative works. PART III—WILDERNESS LAWS

21. WILDERNESS ACT
[As Amended Through Public Law 106–580, Dec. 31, 2000]
21. WILDERNESS ACT

(Public Law 88–577; Approved September 3, 1964; 16 U.S.C. 1131 through 1136)

AN ACT To establish a National Wilderness Preservation System for the permanent good of the whole people, and for other purposes.

Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. [16 U.S.C. 1131 note] This Act may be cited as the “Wilderness Act”.¹

WILDERNESS SYSTEM ESTABLISHED STATEMENT OF POLICY

SEC. 2. [16 U.S.C. 1131] (a) In order to assure that an increasing population, accompanied by expanding settlement and growing mechanization, does not occupy and modify all areas within the United States and its possessions, leaving no lands designated for preservation and protection in their natural condition, it is hereby declared to be the policy of the Congress to secure for the American people of present and future generations the benefits of an enduring resource of wilderness. For this purpose there is hereby established a National Wilderness Preservation System to be composed of federally owned areas designated by Congress as “wilderness areas”, and these shall be administered for the use and enjoyment of the American people in such manner as will leave them unimpaired for future use and enjoyment as wilderness, and so as to provide for the protection of these areas, the preservation of their wilderness character, and for the gathering and dissemination of information regarding their use and enjoyment as wilderness; and no Federal lands shall be designated as “wilderness areas” except as provided for in this Act or by a subsequent Act.

(b) The inclusion of an area in the National Wilderness Preservation System notwithstanding, the area shall continue to be managed by the Department and agency having jurisdiction thereover immediately before its inclusion in the National Wilderness Preservation System unless otherwise provided by Act of Congress. No appropriation shall be available for the payment of expenses or salaries for the administration of the National Wilderness Preservation System as a separate unit nor shall any appropriations be available for additional personnel stated as being required solely for the purpose of managing or administering areas solely because they are included within the National Wilderness Preservation System.

¹For a complete list of wilderness areas designated by law, see 16 U.S.C. 1132 note.
DEFINITION OF WILDERNESS

(c) A wilderness, in contrast with those areas where man and his own works dominate the landscape, is hereby recognized as an area where the earth and its community of life are untrammeled by man, where man himself is a visitor who does not remain. An area of wilderness is further defined to mean in this Act an area of undeveloped Federal land retaining its primeval character and influence, without permanent improvements or human habitation, which is protected and managed so as to preserve its natural conditions and which (1) generally appears to have been affected primarily by the forces of nature, with the imprint of man's work substantially unnoticeable; (2) has outstanding opportunities for solitude or a primitive and unconfined type of recreation; (3) has at least five thousand acres of land or is of sufficient size as to make practicable its preservation and use in an unimpaired condition; and (4) may also contain ecological, geological, or other features of scientific, educational, scenic, or historical value.

NATIONAL WILDERNESS PRESERVATION SYSTEM—EXTENT OF SYSTEM

SEC. 3. [16 U.S.C. 1132] (a) All areas within the national forests classified at least 30 days before the effective date of this Act by the Secretary of Agriculture or the Chief of Forest Service as “wilderness”, “wild”, or “canoe” are hereby designated as wilderness areas. The Secretary of Agriculture shall—

(1) Within one year after the effective date of this Act, file a map and legal description of each wilderness area with the Interior and Insular Affairs Committees of the United States Senate and the House of Representatives, and such descriptions shall have the same force and effect as if included in this Act: Provided, however, That correction of clerical and typographical errors in such legal descriptions and maps may be made.

(2) Maintain, available to the public, records pertaining to said wilderness areas, including maps and legal descriptions, copies of regulations governing them, copies of public notices of, and reports submitted to Congress regarding pending additions, eliminations, or modifications. Maps, legal descriptions, and regulations pertaining to wilderness areas within their respective jurisdictions also shall be available to the public in the offices of regional foresters, national forest supervisors, and forest rangers.

(b) The Secretary of Agriculture shall, within ten years after the enactment of this Act, review, as to its suitability or nonsuitability for preservation as wilderness, each area in the national forests classified on the effective date of this Act by the Secretary of Agriculture or the Chief of the Forest Service as “primitive” and report his findings to the President. The President shall advise the United States Senate and House of Representatives of his recommendations with respect to the designation as “wilderness” or other reclassification of each area on which review has been completed, together with maps and a definition of boundaries. Such advice shall be given with respect to not less than one-third of all the areas now classified as “primitive” within three years after the enactment of this Act, not less than two-thirds within seven years.
after the enactment of this Act, and the remaining areas within ten years after the enactment of this Act. Each recommendation of the President for designation as “wilderness” shall become effective only if so provided by an Act of Congress. Areas classified as “primitive” on the effective date of this Act shall continue to be administered under the rules and regulations affecting such areas on the effective date of this Act until Congress has determined otherwise. Any such areas may be increased in size by the President at the time he submits his recommendations to the Congress by not more than five thousand acres with no more than one thousand two hundred and eighty acres of such increase in any one compact unit; if it is proposed to increase the size of any such area by more than five thousand acres or by more than one thousand two hundred and eighty acres in any one compact unit the increase in size shall not become effective until acted upon by Congress. Nothing herein contained shall limit the President in proposing, as part of his recommendations to Congress, the alteration of existing boundaries of primitive areas of recommending the addition of any contiguous area of national forest lands predominantly of wilderness value. Notwithstanding any other provisions of this Act, the Secretary of Agriculture may complete his review and delete such area as may be necessary, but not to exceed seven thousand acres, from the southern tip of the Gore Range-Eagles Nest Primitive Area, Colorado, if the Secretary determines that such action is in the public interest.

(c) Within ten years after the effective date of this Act the Secretary of the Interior shall review every roadless area of five thousand contiguous acres or more in the national parks, monuments and other units of the national park system and every such area of, and every roadless island within, the national wildlife refuges and game ranges, under his jurisdiction on the effective date of this Act and shall report to the President his recommendation as to the suitability or nonsuitability of each such area or island for preservation as wilderness. The President shall advise the President of the Senate and the Speaker of the House of Representatives of his recommendation with respect to the designation as wilderness of each such area or island on which review has been completed, together with a map thereof and a definition of its boundaries. Such advice shall be given with respect to not less than one-third of the areas and islands to be reviewed under this subsection within three years after enactment of this Act, not less than two-thirds within seven years of enactment of this Act, and the remainder within ten years of enactment of this Act. A recommendation of the President for designation as wilderness shall become effective only if so provided by an Act of Congress. Nothing contained herein shall, by implication or otherwise, be construed to lessen the present statutory authority of the Secretary of the Interior with respect to the maintenance of roadless areas within units of the national park system.

(d)(1) The Secretary of Agriculture and the Secretary of the Interior shall, prior to submitting any recommendations to the President with respect to the suitability of any area for preservation as wilderness—

(A) give such public notice of the proposed action as they deem appropriate, including publication in the Federal Reg-
ister and in a newspaper having general circulation in the area or areas in the vicinity of the affected land;

(B) hold a public hearing or hearings at a location or locations convenient to the area affected. The hearings shall be announced through such means as the respective Secretaries involved deem appropriate, including notices in the Federal Register and in newspapers of general circulation in the area; Provided, That if the lands involved are located in more than one State, at least one hearing shall be held in each State in which a portion of the land lies;¹

(C) at least thirty days before the date of a hearing advise the Governor of each State and the governing board of each county, or in Alaska the borough, in which the lands are located, and Federal departments and agencies concerned, and invite such officials and Federal agencies to submit their views on the proposed action at the hearing or by no later than thirty days following the date of the hearing.

(2) Any views submitted to the appropriate Secretary under the provisions of (1)² of this subsection with respect to any area shall be included with any recommendations to the President and to Congress with respect to such area.

(e) Any modification or adjustment of boundaries of any wilderness area shall be recommended by the appropriate Secretary after public notice of such proposal and public hearing or hearings as provided in subsection (d) of this section. The proposed modification or adjustment shall then be recommended with map and description thereof to the President. The President shall advise the United States Senate and the House of Representatives of his recommendations with respect to such modification or adjustment and such recommendations shall become effective only in the same manner as provided for in subsections (b) and (c) of this section.

22. PUBLIC LAW 93–622
(POPULARLY KNOWN AS THE EASTERN WILDERNESS ACT)
[As Amended Through Public Law 106–580, Dec. 31, 2000]
AN ACT To further the purposes of the Wilderness Act by designating certain acquired lands for inclusion in the National Wilderness Preservation System, to provide for study of certain additional lands for such inclusion, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

STATEMENT OF FINDINGS AND POLICY

SEC. 2. (a) The Congress finds that—

(1) in the more populous eastern half of the United States there is an urgent need to identify, study, designate, and preserve areas for addition to the National Wilderness Preservation System;

(2) in recognition of this urgent need, certain areas in the national forest system in the eastern half of the United States were designated by the Congress as wilderness in the Wilderness Act (78 Stat. 890); certain areas in the national wildlife refuge system in the eastern half of the United States have been designated by the Congress as wilderness or recommended by the President for such designation, and certain areas in the national park system in the eastern half of the United States have been recommended by the President for designation as wilderness; and

(3) additional areas of wilderness in the more populous eastern half of the United States are increasingly threatened by the pressures of a growing and more mobile population, large-scale industrial and economic growth, and development and uses inconsistent with the protection, maintenance, and enhancement of the areas' wilderness character.

(b) Therefore, the Congress finds and declares that it is in the national interest that these and similar areas in the eastern half of the United States be promptly designated as wilderness within the National Wilderness Preservation System, in order to preserve such areas as an enduring resource of wilderness which shall be managed to promote and perpetuate the wilderness character of the land and its specific values of solitude, physical and mental challenge, scientific study, inspiration, and primitive recreation for the benefit of all of the American people of present and future generations.

Any such area subsequently designated as a wilderness study area after the enactment of this Act shall have its suitability or nonsuitability for preservation as wilderness submitted to Congress within ten years from the date of designation as a wilderness study area. Nothing in this Act shall be construed as limiting the authority of the Secretary of Agriculture to carry out management programs, development, and activities in accordance with the Multiple-Use, Sustained-Yield Act of 1960 (74 Stat. 215, 16 U.S.C. 528–531) within areas not designated for review in accordance with the provisions of this Act.

SEC. 6. (a) except as otherwise provided by this Act, the wilderness areas designated by or pursuant to this Act shall be managed by the Secretary of Agriculture in accordance with the provisions of the Wilderness Act. The wilderness study areas designated by or pursuant to this Act shall—be managed by the Secretary of Agriculture so as to maintain their presently existing wilderness character and potential for inclusion in the National Wilderness Preservation System until Congress has determined otherwise, except that such management requirement shall in no case extend beyond the expiration of the third succeeding Congress from the date of submission to the Congress of the President’s recommendations concerning the particular study area.

(b) Within the sixteen wilderness areas designated by section 3 of this act:

(1) the Secretary of Agriculture may acquire by purchase with donated or appropriated funds, by gift, exchange, condemnation, or otherwise, such lands, waters, or interests therein as he determines necessary or desirable for the purposes of this Act. All lands acquired under the provisions of this subsection shall become national forest lands and a part of the Wilderness System;

(2) in exercising the exchange authority granted by paragraph (1), the Secretary of Agriculture may accept title to non-Federal property for federally owned property of substantially equal value, or, if not of substantially equal value, the value shall be equalized by the payment of money to the grantor or to the Secretary as the circumstances require;

(4) at least sixty days prior to any transfer by exchange, sale, or otherwise (except by bequest) of such lands, or interests therein described in paragraph (3) of this subsection, the owner or owners of such lands or interests therein provide notice of such transfer to the supervisor of the national forest concerned, in accordance with such rules and regulations as the Secretary of Agriculture may promulgate;

(5) at least sixty days prior to any change in the use of such lands or interests therein described in paragraph (3) of this subsection which will result in any significant new construction or disturbance of land surface or flora or will require the use of motor vehicles and other forms of mechanized transport or motorized equipment (except as otherwise authorized
by law for ingress or egress or for existing agricultural activi-
ties begun before the date of the designation other than timber
cutting), the owner or owners of such lands or interests therein

or assigns a right of use and occupancy of the property for such
noncommercial residential purpose or agricultural activity for
twenty-five years, or, in lieu thereof, for a term ending at the
death of the owner or his spouse, whichever is later. The owner
shall elect the term to be reserved. The Secretary of Agri-
culture shall pay to the owner the fair market value of the
property on the date of such acquisition less the fair market
value on such date of the right retained by the owner: Pro-
vided, That whenever an owner of property elects to retain a
right of use and occupancy as provided for in this section, such
owner shall be deemed to have waived any benefits or rights
accruing under sections 203, 204, 205, and 206 of the Uniform
Relocation Assistance and Real Property Acquisition Policies
Act of 1970 (84 Stat. 1894), and for the purposes of those sec-

defined in section 101 (b) of that Act; and

of a right an amount equal to the fair market value as of the
date of tender of that portion of the right which remains unex-
pired on the date of termination.

DECLARATION OF POLICY

Sec. 102. [43 U.S.C. 1701] (a) The Congress declares that it is the policy of the United States that—

(1) the public lands be retained in Federal ownership, unless as a result of the land use planning procedure provided for in this Act, it is determined that disposal of a particular parcel will serve the national interest;

(2) the national interest will be best realized if the public lands and their resources are periodically and systematically inventoried and their present and future use is projected through a land use planning process coordinated with other Federal and State planning efforts;

(3) public lands not previously designated for any specific use and all existing classifications of public lands that were effected by executive action or statute before the date of enactment of this Act be reviewed in accordance with the provisions of this Act;

(4) the Congress exercise its constitutional authority to withdraw or otherwise designate or dedicate Federal lands for specified purposes and that Congress delineate the extent to which the Executive may withdraw lands without legislative action;
(5) in administering public land statutes and and exercising discretionary authority granted by them, the Secretary be required to establish comprehensive rules and regulations after considering the views of the general public; and to structure adjudication procedures to assure adequate third party participation, objective administrative review of initial decisions, and expeditious decisionmaking;

(6) judicial review of public land adjudication decisions be provided by law;

(7) goals and objectives be established by law as guidelines for public land use planning, and that management be on the basis of multiple use and sustained yield unless otherwise specified by law;

(8) the public lands be managed in a manner that will protect the quality of scientific, scenic, historical, ecological, environmental, air and atmospheric, water resource, and archeological values; that, where appropriate, will preserve and protect certain public lands in their natural condition; that will provide food and habitat for fish and wildlife and domestic animals; and that will provide for outdoor recreation and human occupancy and use;

(9) the United States receive fair market value of the use of the public lands and their resources unless otherwise provided for by statute;

(10) uniform procedures for any disposal of public land, acquisition of non-Federal land or public purposes, and the exchange of such lands be established by statute, requiring each disposal, acquisition, and exchange to be consistent with the prescribed mission of the department or agency involved, and reserving to the Congress review of disposals in excess of a specified acreage;

(11) regulations and plans for the protection of public land areas of critical environmental concern be promptly developed;

(12) the public lands be managed in a manner which recognizes the Nation's need for domestic sources of minerals, food, timber, and fiber from the public lands including implementation of the Mining and Minerals Policy Act of 1970 (84 Stat. 1876, 30 U.S.C. 21a) as it pertains to the public lands; and

(13) the Federal Government should, on a basis equitable to both the Federal and local taxpayer, provide for payments to compensate States and local governments for burdens created as a result of the immunity of Federal lands from State and local taxation.

(b) The policies of this Act shall become effective only as specific statutory authority for their implementation is enacted by this Act or by subsequent legislation and shall then be construed as supplemental to and not in derogation of the purposes for which public lands are administered under other provisions of law.

DEFINITIONS

SEC. 103. [43 U.S.C. 1702] Without altering in any way the meaning of the following terms as used in any other statute, whether or not such statute is referred to in, or amended by, this Act, as used in this Act—
(a) The term “areas of critical environmental concern” means areas within the public lands where special management attention is required (when such areas are developed or used or where no development is required) to protect and prevent irreparable damage to important historic, cultural, or scenic values, fish and wildlife resources or other natural systems or processes, or to protect life and safety from natural hazards.

(b) The term “holder” means any State or local governmental entity, individual, partnership, corporation, association, or other business entity receiving or using a right-of-way under title V of this Act.

(c) The term “multiple use” means the management of the public lands and their various resource values so that they are utilized to the combination that will best meet the present and future needs of the American people; making the most judicious use of the land for some or all of these resources or related services over areas large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions; the use of some land for less than all of the resources; a combination of balanced and diverse resource uses that takes into account the long-term needs of future generations for renewable and nonrenewable resources, including, but not limited to, recreation, range, timber, minerals, watershed, wildlife and fish, and natural scenic, scientific and historical values; and harmonious and coordinated management of the various resources without permanent impairment of the productivity of the land and the quality of the environment with consideration being given to the relative values of the resources and not necessarily to the combination of uses that will give the greatest economic return or the greatest unit output.

(d) The term “public involvement” means the opportunity for participation by affected citizens in rulemaking, decisionmaking, and planning with respect to the public lands, including public meetings or hearings held at locations near the affected lands, or advisory mechanisms, or such other procedures as may be necessary to provide public comment in a particular instance.

(e) The term “public lands” means any land and interest in land owned by the United States within the several States and administered by the Secretary of the Interior through the Bureau of Land Management, without regard to how the United States acquired ownership, except—

   (1) lands located on the Outer Continental Shelf; and
   (2) lands held for the benefit of Indians, Aleuts, and Eskimos.

(f) The term “right-of-way” includes an easement, lease, permit, or license to occupy, use, or traverse public lands granted for the purpose listed in title V of this Act.

(g) The term “Secretary”, unless specifically designated otherwise, means the Secretary of the Interior.

(h) The term “sustained yield” means the achievement and maintenance in perpetuity of a high-level annual or regular periodic output of the various renewable resources of the public lands consistent with multiple use.

(i) The term “wilderness” as used in section 603 shall have the same meaning as it does in section 2(c) of the Wilderness Act (78 Stat. 890; 16 U.S.C. 1131–1136).
(j) The term “withdrawal” means withholding an area of Federal land from settlement, sale, location, or entry, under some or all of the general land laws, for the purpose of limiting activities under those laws in order to maintain other public values in the area or reserving the area for a particular public purpose or program; or transferring jurisdiction over an area of Federal land, other than “property” governed by the Federal Property and Administrative Services Act, as amended (40 U.S.C. 472) from one department, bureau or agency to another department, bureau or agency.

(k) The term “allotment management plan” means a document prepared in consultation with the lessees or permittees involved, which applies to livestock operations on the public lands or on lands within National Forests in the eleven contiguous Western States and which:

(1) prescribes the manner in, and extent to, which livestock operations will be conducted in order to meet the multiple-use, sustained-yield, economic and other needs and objectives as determined for the lands by the Secretary concerned; and

(2) describes the type, location, ownership, and general specifications for the range improvements to be installed and maintained on the lands to meet the livestock grazing and other objectives of land management; and

(3) contains such other provisions relating to livestock grazing and other objectives found by the Secretary concerned to be consistent with the provisions of this Act and other applicable law.

(l) The term “principal or major uses” includes, and is limited to, domestic livestock grazing, fish and wildlife development and utilization, mineral exploration and production, rights-of-way, outdoor recreation, and timber production.

(m) The term “department” means a unit of the executive branch of the Federal Government which is headed by a member of the President’s Cabinet and the term “agency” means a unit of the executive branch of the Federal Government which is not under the jurisdiction of a head of a department.

(n) The term “Bureau” means the Bureau of Land Management.

(o) The term “eleven contiguous Western States” means the States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

(p) The term “grazing permit and lease” means any document authorizing use of public lands or lands in National Forest in the eleven contiguous western States for the purpose of grazing domestic livestock.

2 In subsection (p), “western” should be capitalized.
TITLE II—LAND USE PLANNING; LAND ACQUISITION AND DISPOSITION

INVENTORY AND IDENTIFICATION

SEC. 201. 43 U.S.C. 1711 (a) The Secretary shall prepare and maintain on a continuing basis an inventory of all public lands and their resource and other values (including, but not limited to, outdoor recreation and scenic values), giving priority of areas to critical environmental concern. This inventory shall be kept current so as to reflect changes in conditions and to identify new and emerging resource and other values. The preparation and maintenance of such inventory or the identification of such areas shall not, of itself, change or prevent change of the management or use of public lands.

(b) As funds and manpower are made available, the Secretary shall ascertain the boundaries of the public lands; provide means of public identification thereof including, where appropriate, signs and maps; and provide State and local governments with data from the inventory for the purpose of planning and regulating the uses of non-Federal lands in proximity of such public lands.

LAND USE PLANNING

SEC. 202. 43 U.S.C. 1712 (a) The Secretary shall, with public involvement and consistent with the terms and conditions of this Act, develop, maintain, and, when appropriate, revise land use plans which provide by tracts or areas for the use of the public lands. Land use plans shall be developed for the public lands regardless of whether such lands previously have been classified, withdrawn, set aside, or otherwise designated for one or more uses.

(b) In the development and revision of land use plans, the Secretary of Agriculture shall coordinate land use plans for lands in the National Forest System with the land use planning and management programs of and for Indian tribes by among other things, considering the policies of approved tribal land resource management programs.

(c) In the development and revision of land use plans, the Secretary shall—

(1) use and observe the principles of multiple use and sustained yield set forth in this and other applicable law;

(2) use a systematic interdisciplinary approach to achieve integrated consideration of physical, biological, economic, and other sciences;

(3) give priority to the designation and protection of areas of critical environmental concern;

(4) rely, to the extent it is available, on the inventory of the public lands, their resources, and other values;

(5) consider present and potential uses of the public lands;

(6) consider the relative scarcity of the values involved and the availability of alternative means (including recycling) and sites for realization of those values;

(7) weigh long-term benefits to the public against short-term benefits;
(8) provide for compliance with applicable pollution control laws, including State and Federal air, water, noise, or other pollution standards or implementation plans; and

(9) to the extent consistent with the laws governing the administration of the public lands, coordinate the land use inventory, planning, and management activities of or for such lands with the land use planning and management programs of other Federal departments and agencies and of the States and local governments within which the lands are located, including, but not limited to, the statewide outdoor recreation plans developed under the Act of September 3, 1964 (78 Stat. 897), as amended, and of or for Indian tribes by, among other things, considering the policies of approved State and tribal land resource management programs. In implementing this directive, the Secretary shall, to the extent he finds practical, keep apprised of State, local, and tribal land use plans; assure that consideration is given to those State, local, and tribal plans that are germane in the development of land use plans for public lands; assist in resolving, to the extent practical, inconsistencies between Federal and non-Federal Governmental plans, and shall provide for meaningful public involvement of State and local government officials, both elected and appointed, in the development of land use programs, land use regulations, and land use decisions for public lands, including early public notice of proposed decisions which may have a significant impact on non-Federal lands. Such officials in each State are authorized to furnish advice to the Secretary with respect to the development and revision of land use plans, land use guidelines, land use rules, and land use regulations for the public lands within such State and with respect to such other land use matters as may be referred to them by him. Land use plans of the Secretary under this section shall be consistent with State and local plans to the maximum extent he finds consistent with Federal law and the purposes of this Act.

(d) Any classification of public lands or any land use plan in effect on the date of enactment of this Act is subject to review in the land use planning process conducted under this section, and all public lands, regardless of classification, are subject to inclusion in any land use plan developed pursuant to this section. The Secretary may modify or terminate any such classification consistent with such land use plans.

(e) The Secretary may issue management decisions to implement land use plans developed or revised under this section in accordance with the following:

(1) Such decisions, including but not limited to exclusions (that is, total elimination) of one or more of the principal or major uses made by a management decision shall remain subject to reconsideration, modification, and termination through revision by the Secretary or his delegate, under the provisions of this section, of the land use plan involved.

(2) Any management decision or action pursuant to a management decision that excludes (that is, totally eliminates) one or more of the principal or major uses for two or more years with respect to a tract of land of one hundred thousand acres or more shall be reported by the Secretary to the House of Rep-
residents and the Senate. If within ninety days from the
giving of such notice (exclusive of days on which either House
has adjourned for more than three consecutive days), the Con-
gress adopts a concurrent resolution of nonapproval of the
management decision or action, then the management decision
or action shall be promptly terminated by the Secretary. If the
committee to which a resolution has been referred during the
said ninety day period, has not reported it at the end of thirty
calendar days after its referral, it shall be in order to either
discharge the committee from further consideration of such
resolution or to discharge the committee from consideration of
any other resolution with respect to the management decision
or action. A motion to discharge may be made only by an
individual favoring the resolution, shall be highly privileged (ex-
cept that it may not be made after the committee has reported
such a resolution), and debate thereon shall be limited to not
more than one hour, to be divided equally between those favor-
ating and those opposing the resolution. An amendment to the
motion shall not be in order, and it shall not be in order to
move to reconsider the vote by which the motion was agreed
to or disagreed to. If the motion to discharge is agreed to or
disagreed to, the motion may not be made with respect to any
other resolution with respect to the same management decision
or action. When the committee has reprinted, or has been dis-
charged from further consideration of a resolution, it shall at
any time thereafter be in order (even though a previous motion
to the same effect has been disagreed to) to move to proceed
to the consideration of the resolution. The motion shall be
highly privileged and shall not be debatable. An amendment to
the motion shall not be in order, and it shall not be in order
to move to reconsider the vote by which the motion was agreed
to or disagreed to.

(3) Withdrawals made pursuant to section 204 of this Act
may be used in carrying out management decisions, but public
lands shall be removed from or restored to the operation of the
21 et. seq.) or transferred to another department, bureau, or
agency only by withdrawal action pursuant to section 204 or
other action pursuant to applicable law: Provided, That noth-
ing in this section shall prevent a wholly owned Government
corporation from acquiring and holding rights as a citizen
under the Mining Law of 1872.

(f) The Secretary shall allow an opportunity for public involve-
ment and by regulation shall establish procedures, including public
hearings where appropriate, to give Federal, State, and local gov-
ernments and the public, adequate notice and opportunity to com-
ment upon and participate in the formulation of plans and pro-
grams relating to the management of the public lands.

SALES

Sec. 203. [43 U.S.C. 1713] (a) A tract of the public lands (ex-
ccept land in units of the National Wilderness Preservation System,
National Wild and Scenic Rivers Systems, and National System of
Trails) may be sold under this Act where, as a result of land use
planning required under section 202 of this Act, the Secretary de-
defines that the sale of such tract meets the following disposal criteria:

1. such tract because of its location or other characteristics is difficult and uneconomic to manage as part of the public lands, and is not suitable for management by another Federal department or agency; or
2. such tract was acquired for a specific purpose and the tract is no longer required for that or any other Federal purpose; or
3. disposal of such tract will serve important public objectives, including but not limited to, expansion of communities and economic development, which cannot be achieved prudently or feasibly on land other than public land and which outweigh other public objectives and values, including, but not limited to, recreation and scenic values, which would be served by maintaining such tract in Federal ownership.

(b) Where the Secretary determines that land to be conveyed under clause (3) of subsection (a) of this section is of agricultural value and is desert in character, such land shall be conveyed either under the sale authority of this section or in accordance with other existing law.

(c) Where a tract of the public lands in excess of two thousand five hundred acres has been designated for sale, such sale may be made only after the end of the ninety days (not counting days on which the House of Representatives or the Senate has adjourned for more than three consecutive days) beginning on the day the Secretary has submitted notice of such designation to the Senate and the House of Representatives, and then only if the Congress has not adopted a concurrent resolution stating that such House does not approve of such designation. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the designation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same designation. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(d) Sales of public lands shall be made at a price not less than their fair market value as determined by the Secretary.
(e) The Secretary shall determine and establish the size of tracts of public lands to be sold on the basis of the land use capabilities and development requirements of the lands; and, where any such tract which is judged by the Secretary to be chiefly valuable for agriculture is sold, its size shall be no larger than necessary to support a family-sized farm.

(f) Sales of public lands under this section shall be conducted under competitive bidding procedures to be established by the Secretary. However, where the Secretary determines it necessary and proper in order (1) to assure equitable distribution among purchasers of lands, or (2) to recognize equitable considerations or public policies, including but not limited to, a preference to users, he may sell those lands with modified competitive bidding or without competitive bidding. In recognizing public policies, the Secretary shall give consideration to the following potential purchasers:

(1) the State in which the land is located;
(2) the local government entities in such State which are in the vicinity on the land;
(3) adjoining landowners;
(4) individuals; and
(5) any other person.

(g) The Secretary shall accept or reject, in writing, any offer to purchase made through competitive bidding at his invitation no later than thirty days after the receipt of such offer or, in the case of a tract in excess of two thousand five hundred acres, at the end of thirty days after the end of the ninety-day period provided in subsection (c) of this section, whichever is later, unless the offeror waives his right to a decision within such thirty-day period. Prior to the expiration of such periods the Secretary may refuse to accept any offer or may withdraw any land or interest in land from sale under this section when he determines that consummation of the sale would not be consistent with this Act or other applicable law.

WITHDRAWALS

SEC. 204. [43 U.S.C. 1714] (a) On and after the effective date of this Act the Secretary is authorized to make, modify, extend, or revoke withdrawals but only in accordance with the provisions and limitations of this section. The Secretary may delegate this withdrawal authority only to individuals in the Office of the Secretary who have been appointed by the President, by and with the advice and consent of the Senate.

(b)(1) Within thirty days of receipt of an application for withdrawal, and whenever he proposes a withdrawal on his own motion, the Secretary shall publish a notice in the Federal Register stating that the application has been submitted for filing or the proposal has been made and the extent to which the land is to be segregated while the application is being considered by the Secretary. Upon publication of such notice the land shall be segregated from the operation of the public land laws to the extent specified in the notice. The segregative effect of the application shall terminate upon (a) rejection of the application by the Secretary, (b) withdrawal of lands by the Secretary, or (c) the expiration of two years from the date of the notice.

(2) The publication provisions of this subsection are not applicable to withdrawals under subsection (e) hereof.
(c)(1) On and after the dates of approval of this Act a withdrawal aggregating five thousand acres or more may be made (or such a withdrawal or any other withdrawal involving in the aggregate five thousand acres or more which terminates after such date of approval may be extended) only for a period of not more than twenty years by the Secretary on his own motion or upon request by a department or agency head. The Secretary shall notify both Houses of Congress of such a withdrawal no later than its effective date and the withdrawal shall terminate and become ineffective at the end of ninety days (not counting days on which the Senate or the House of Representatives has adjourned for more than three consecutive days) beginning on the day notice of such withdrawal has been submitted to the Senate and the House of Representatives, if the Congress has adopted a concurrent resolution stating that such House does not approve the withdrawal. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the Presidential recommendation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same Presidential recommendations. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(2) With the notices required by subsection (c)(1) of this section and within three months after filing the notice under subsection (e) of this section, the Secretary shall furnish to the committees—

(1) a clear explanation of the proposed use of the land involved which led to the withdrawal;
(2) an inventory and evaluation of the current natural resource uses and values of the site and adjacent public and non-public land and how it appears they will be affected by the proposed use, including particularly aspects of use that might cause degradation of the environment, and also the economic impact of the change in use on individuals, local communities, and the Nation;
(3) an identification of present users of the land involved, and how they will be affected by the proposed use;
(4) an analysis of the manner in which existing and potential resource uses are incompatible with or in conflict with the
proposed use, together with a statement of the provisions to be made for continuation or termination of existing uses, including an economic analysis of such continuation or termination;

(5) an analysis of the manner in which such lands will be used in relation to the specific requirements for the proposed use;

(6) a statement as to whether any suitable alternative sites are available (including cost estimates) for the proposed use or for uses such a withdrawal would displace;

(7) a statement of the consultation which has been or will be had with other Federal departments and agencies, with regional, State, and local government bodies, and with other appropriate individuals and groups;

(8) a statement indicating the effects of the proposed uses, if any, on State and local government interests and the regional economy;

(9) a statement of the expected length of time needed for the withdrawal;

(10) the time and place of hearings and of other public involvement concerning such withdrawal;

(11) the place where the records on the withdrawal can be examined by interested parties; and

(12) a report prepared by a qualified mining engineer, engineering geologist, or geologist which shall include but not be limited to information on: general geology, known mineral deposits, past and present mineral production, mining claims, mineral leases, evaluation of future mineral potential, present and potential market demands.

(d) A withdrawal aggregating less than five thousand acres may be made under this subsection by the Secretary on his own motion or upon request by a department or an agency head—

(1) for such period of time as he deems desirable for a resource use; or

(2) for a period of not more than twenty years for any other use, including but not limited to use for administrative sites, location of facilities, and other proprietary purposes; or

(3) for a period of not more than five years to preserve such tract for a specific use then under consideration by the Congress.

(e) When the Secretary determines, or when the Committee on Natural Resources of the House of Representatives or the Committee on Energy and Natural Resources of the Senate notifies the Secretary, that an emergency situation exists and that extraordinary measures must be taken to preserve values that would otherwise be lost, the Secretary notwithstanding the provisions of subsections (c)(1) and (d) of this section, shall immediately make a withdrawal and file notice of such emergency withdrawal with both of those Committees. Such emergency withdrawal shall be effective when made but shall last only for a period not to exceed three years and may not be extended except under the provisions of subsection (c)(1) or (d), whichever is applicable, and (b)(1) of this section. The information required in subsection (c)(2) of this subsection shall be furnished the committees within three months after filing such notice.
(f) All withdrawals and extensions thereof, whether made prior to or after approval of this Act, having a specific period shall be reviewed by the Secretary toward the end of the withdrawal period and may be extended or further extended only upon compliance with the provisions of subsection (c)(1) or (d), whichever is applicable, and only if the Secretary determines that the purpose for which the withdrawal was first made requires the extension, and then only for a period no longer than the length of the original withdrawal period. The Secretary shall report on such review and extensions to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(g) All applications for withdrawal pending on the date of approval of this Act shall be processed and adjudicated to conclusion within fifteen years of the date of approval of this Act, in accordance with the provisions of this section. The segregative effect of any application not so processed shall terminate on that date.

(h) All new withdrawals made by the Secretary under this section (except an emergency withdrawal made under subsection (e) of this section) shall be promulgated after an opportunity for a public hearing.

(i) In the case of lands under the administration of any department or agency other than the Department of the Interior, the Secretary shall make, modify, and revoke withdrawals only with the consent of the head of the department or agency concerned, except when the provisions of subsection (e) of this section apply.

(j) The Secretary shall not make, modify, or revoke any withdrawal created by Act of Congress; make a withdrawal which can be made only by Act of Congress; modify or revoke any withdrawal creating national monuments under the Act of June 8, 1906 (34 Stat. 225; 16 U.S.C. 431–433); or modify, or revoke any withdrawal which added lands to the National Wildlife Refuge System prior to the date of approval of this Act or which thereafter adds lands to that System under the terms of this Act. Nothing in this Act is intended to modify or change any provision of the Act of February 27, 1976 (90 Stat. 199; 16 U.S.C. 668dd(a)).

(k) There is hereby authorized to be appropriated the sum of $10,000,000 for the purpose of processing withdrawal applications pending on the effective date of this Act, to be available until expended.

(l)(1) The Secretary shall, within fifteen years of the date of enactment of this Act, review withdrawals existing on the date of approval of this Act, in the States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming of (1) all Federal lands other than withdrawals of the public lands administered by the Bureau of Land Management and of lands which, on the date of approval of this Act, were part of Indian reservations and other Indian holdings, the National Forest System, the National Park System, the National Wildlife Refuge System, other lands administered by the Fish and Wildlife Service or the Secretary through the Fish and Wildlife Service, the National Wild and Scenic Rivers System, and the National System of Trails; and (2) all public lands administered by the Bureau of Land Management and of lands in the National Forest System (except those in wilderness areas, and those areas formally identified as
primitive or natural areas or designated as national recreation areas) which closed the lands to appropriation under the Mining Law of 1872 (17 Stat. 91, as amended; 30 U.S.C. 22 et seq.) or to leasing under the Mineral Leasing Act of 1920 (41 Stat. 437, as amended; 30 U.S.C. 181 et seq.).

(2) In the review required by paragraph (1) of this subsection, the Secretary shall determine whether, and for how long, the continuation of the existing withdrawal of the lands would be, in his judgment, consistent with the statutory objectives of the programs for which the lands were dedicated and of the other relevant programs. The Secretary shall report his recommendations to the President, together with statements of concurrence or nonconcurrence submitted by the heads of the departments or agencies which administer the lands. The President shall transmit this report to the President of the Senate and the Speaker of the House of Representatives, together with his recommendations for action by the Secretary, or for legislation. The Secretary may act to terminate withdrawals other than those made by Act of the Congress in accordance with the recommendations of the President unless before the end of ninety days (not counting days on which the Senate and the House of Representatives has adjourned for more than three consecutive days) beginning on the day the report of the President has been submitted to the Senate and the House of Representatives the Congress has adopted a concurrent resolution indicating otherwise. If the committee to which a resolution has been referred during the said ninety day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the Presidential recommendation. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same Presidential recommendation. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(3) There are hereby authorized to be appropriated not more than $10,000,000 for the purpose of paragraph (1) of this subsection to be available until expended to the Secretary and to the heads of other departments and agencies which will be involved.
ACQUISITIONS

SEC. 205. [43 U.S.C. 1715] (a) Notwithstanding any other provisions of law, the Secretary, with respect to the public lands and the Secretary of Agriculture, with respect to the acquisition of access over non-Federal lands to units of the National Forest System, are authorized to acquire pursuant to this Act by purchase, exchange, donation, or eminent domain, lands or interests therein:

Provided, That with respect to the public lands, the Secretary may exercise the power of eminent domain only if necessary to secure access to public lands, and then only if the lands so acquired are confined to as narrow a corridor as is necessary to serve such purpose. Nothing in this subsection shall be construed as expanding or limiting the authority of the Secretary of Agriculture to acquire land by eminent domain within the boundaries of units of the National Forest System.

(b) Acquisitions pursuant to this section shall be consistent with the mission of the department involved and with applicable departmental land-use plans.

(c) Except as provided in subsection (e), lands and interests in lands acquired by the Secretary pursuant to this section or section 206 shall, upon acceptance of title, become public lands, and, for the administration of public land laws not repealed by this Act, shall remain public lands. If such acquired lands or interests in lands are located within the exterior boundaries of a grazing district established pursuant to the first section of the Act of June 28, 1934 (48 Stat. 1269, as amended; 43 U.S.C. 315) (commonly known as the “Taylor Grazing Act”), they shall become a part of that district. Lands and interests in lands acquired pursuant to this section which are within boundaries of the National Forest System may be transferred to the Secretary of Agriculture and shall then become National Forest System lands and subject to all the laws, rules, and regulations applicable thereto.

(d) Lands and interests in lands acquired by the Secretary of Agriculture pursuant to this section shall, upon acceptance of title, become National Forest System lands subject to all the laws, rules, and regulations applicable thereto.

(e) Lands acquired by the Secretary pursuant to this section or section 206 in exchange for lands which were revested in the United States pursuant to the provisions of the Act of June 9, 1916 (39 Stat. 218) or reconveyed to the United States pursuant to the provisions of the Act of February 26, 1919 (40 Stat. 1179), shall be considered for all purposes to have the same status as, and shall be administered in accordance with the same provisions of law applicable to, the revested or reconveyed lands exchange for the lands acquired by the Secretary.

EXCHANGES

SEC. 206. [43 U.S.C. 1716] (a) A tract of public land or interests therein may be disposed of by exchange by the Secretary under this Act and a tract of land or interests therein within the National Forest System may be disposed of by exchange by the Secretary of Agriculture under applicable law where the Secretary concerned determines that the public interest will be well served by making that exchange:

Provided, That when considering public in-
terest the Secretary concerned shall give full consideration to bet-
ter Federal land management and the needs of State and local pe-
ople, including needs for lands for the economy, community expa-
sion, recreation areas, food, fiber, minerals, and fish and wildlife
and the Secretary concerned finds that the values and the objec-
tives which Federal lands or interests to be conveyed may serve if
retained in Federal ownership are not more than the values of the
non-Federal lands or interests and the public objectives they could
serve if acquired.

(b) In exercising the exchange authority granted by subsection
(a) or by section 205(a) of this Act, the Secretary concerned may
accept title to any non-Federal land or interests therein in ex-
change for such land, or interests therein which he finds proper for
transfer out of Federal ownership and which are located in the
same State as the non-Federal land or interest to be acquired. For
the purposes of this subsection, unsurveyed school sections which,
upon survey by the Secretary, would become State lands, shall be
considered as "non-Federal lands". The values of the lands ex-
changed by the Secretary under this Act and by the Secretary of
Agriculture under applicable law relating to lands within the Na-
tional Forest System either shall be equal, or if they are not equal,
the values shall be equalized by the payment of money to the
grantor or to the Secretary concerned as the circumstances require
so long as payment does not exceed 25 per centum of the total
value of the lands or interests transferred out of Federal own-
ership. The Secretary concerned and the other party or parties in-
volved in the exchange may mutually agree to waive the require-
ment for the payment of money to equalize values where the Sec-
retary concerned determines that the exchange will be expedited
thereby and that the public interest will be better served by such
a waiver of cash equalization payments and where the amount to
be waived is no more than 3 per centum of the value of the lands
being transferred out of Federal ownership or $15,000, whichever
is less, except that the Secretary of Agriculture shall not agree to
waive any such requirement for payment of money to the United
States. The Secretary concerned shall try to reduce the amount of
the payment of money to as small an amount as possible.

(c) Lands acquired by the Secretary by exchange under this
section which are within the boundaries of any unit of the National
Forest System, National Park System, National Wildlife Refuge
System, National Wild and Scenic Rivers System, National Trails
System, National Wilderness Preservation System, or any other
system established by Act of Congress, or the boundaries of the
California Desert Conservation Area, or the boundaries of any na-
tional conservation area or national recreation area established by
Act of Congress, upon acceptance of title by the United States shall
immediately be reserved for and become a part of the unit or area
within which they are located, without further action by the Sec-
retary, and shall thereafter be managed in accordance with all
laws, rules, and regulations applicable to such unit or area.

(d)(1) No later than ninety days after entering into an agree-
ment to initiate an exchange of land or interests therein pursuant
to this Act or other applicable law, the Secretary concerned and
other party or parties involved in the exchange shall arrange for
appraisal (to be completed within a time frame and under such
terms as are negotiated by the parties) of the lands or interests therein involved in the exchange in accordance with subsection (f) of this section.

(2) If within one hundred and eighty days after the submission of an appraisal or appraisals for review and approval by the Secretary concerned, the Secretary concerned and the other party or parties involved cannot agree to accept the findings of an appraisal or appraisals, the appraisal or appraisals shall be submitted to an arbitrator appointed by the Secretary from a list of arbitrators submitted to him by the American Arbitration Association for arbitration to be conducted in accordance with the real estate valuation arbitration rules of the American Arbitration Association. Such arbitration shall be binding for a period of not to exceed two years on the Secretary concerned and the other party or parties involved in the exchange insofar as concerns the value of the lands which were the subject of the appraisal or appraisals.

(3) Within thirty days after the completion of the arbitration, the Secretary concerned and the other party or parties involved in the exchange shall determine whether to proceed with the exchange, modify the exchange to reflect the findings of the arbitration or any other factors, or to withdraw from the exchange. A decision to withdraw from the exchange may be made by either the Secretary concerned or the other party or parties involved.

(4) Instead of submitting the appraisal to an arbitrator, as provided in paragraph (2) of this section, the Secretary concerned and the other party or parties involved in an exchange may mutually agree to employ a process of bargaining or some other process to determine the values of the properties involved in the exchange.

(5) The Secretary concerned and the other party or parties involved in an exchange may mutually agree to suspend or modify any of the deadlines contained in this subsection.

(e) Unless mutually agreed otherwise by the Secretary concerned and the other party or parties involved in an exchange pursuant to this Act or other applicable law, all patents or titles to be issued for land or interests therein to be acquired by the Federal Government and lands or interest therein to be transferred out of Federal ownership shall be issued simultaneously after the Secretary concerned has taken any necessary steps to assure that the United States will receive acceptable title.

(f)(1) Within one year after the enactment of subsections (d) through (i) of this section, the Secretaries of the Interior and Agriculture shall promulgate new and comprehensive rules and regulations governing exchanges of land and interests therein pursuant to this Act and other applicable law. Such rules and regulations shall fully reflect the changes in law made by subsections (d) through (i) of this section and shall include provisions pertaining to appraisals of lands and interests therein involved in such exchanges.

(2) The provisions of the rules and regulations issued pursuant to paragraph (1) of this subsection governing appraisals shall reflect nationally recognized appraisal standards, including, to the extent appropriate, the Uniform Appraisal Standards for Federal Land Acquisitions: Provided, however, That the provisions of such rules and regulations shall—
Sec. 206 FEDERAL LAND POLICY AND MANAGEMENT ACT OF 1976

(A) ensure that the same nationally approved appraisal standards are used in appraising lands or interest therein being acquired by the Federal Government and appraising lands or interests therein being transferred out of Federal ownership; and

(B) with respect to costs or other responsibilities or requirements associated with land exchanges—

(i) recognize that the parties involved in an exchange may mutually agree that one party (or parties) will assume, without compensation, all or part of certain costs or other responsibilities or requirements ordinarily borne by the other party or parties; and

(ii) also permit the Secretary concerned, where such Secretary determines it is in the public interest and it is in the best interest of consummating an exchange pursuant to this Act or other applicable law, and upon mutual agreement of the parties, to make adjustments to the relative values involved in an exchange transaction in order to compensate a party or parties to the exchange for assuming costs or other responsibilities or requirements which would ordinarily be borne by the other party or parties.

As used in this subparagraph, the term “costs or other responsibilities or requirements” shall include, but not be limited to, costs or other requirements associated with land surveys and appraisals, mineral examinations, title searches, archaeological surveys and salvage, removal of encumbrances, arbitration pursuant to subsection (d) of this section, curing deficiencies preventing highest and best use, and other costs to comply with laws, regulations and policies applicable to exchange transactions, or which are necessary to bring the Federal or non-Federal lands or interests involved in the exchange to their highest and best use for the appraisal and exchange purposes. Prior to making any adjustments pursuant to this subparagraph, the Secretary concerned shall be satisfied that the amount of such adjustment is reasonable and accurately reflects the approximate value of any costs or services provided or any responsibilities or requirements assumed.

(g) Until such time as new and comprehensive rules and regulations governing exchange of land and interests therein are promulgated pursuant to subsection (f) of this section, land exchanges may proceed in accordance with existing laws and regulations, and nothing in the Act shall be construed to require any delay in, or otherwise hinder, the processing and consummation of land exchanges pending the promulgation of such new and comprehensive rules and regulations. Where the Secretary concerned and the party or parties involved in an exchange have agreed to initiate an exchange of land or interests therein prior to the day of enactment of such subsections, subsections (d) through (i) of this section shall not apply to such exchanges unless the Secretary concerned and the party or parties involved in the exchange mutually agree otherwise.

(h)(1) Notwithstanding the provisions of this Act and other applicable laws which require that exchanges of land or interests therein be for equal value, where the Secretary concerned determines it is in the public interest and that the consummation of a
particular exchange will be expedited thereby, the Secretary concerned may exchange lands or interests therein which are of approximately equal value in cases where—

(A) the combined value of the lands or interests therein to be transferred from Federal ownership by the Secretary concerned in such exchange is not more than $150,000; and

(B) the Secretary concerned finds in accordance with the regulations to be promulgated pursuant to subsection (f) of this section that a determination of approximately equal value can be made without formal appraisals, as based on a statement of value made by a qualified appraiser and approved by an authorized officer; and

(C) the definition of and procedure for determining “approximately equal value” has been set forth in regulations by the Secretary concerned and the Secretary concerned documents how such determination was made in the case of the particular exchange involved.

(2) As used in this subsection, the term “approximately equal value” shall have the same meaning with respect to lands managed by the Secretary of Agriculture as it does in the Act of January 22, 1983 (commonly known as the “Small Tracts Act”).

(i)(1) Upon receipt of an offer to exchange lands or interests in lands pursuant to this Act or other applicable laws, at the request of the head of the department or agency having jurisdiction over the lands involved, the Secretary of the Interior may temporarily segregate the Federal lands under consideration for exchange from appropriation under the mining laws. Such temporary segregation may only be made for a period of not to exceed five years. Upon a decision not to proceed with the exchange or upon deletion of any particular parcel from the exchange offer, the Federal lands involved or deleted shall be promptly restored to their former status under the mining laws. Any segregation pursuant to this paragraph shall be subject to valid existing rights as of the date of such segregation.

(2) All non-Federal lands which are acquired by the United States through exchange pursuant to this Act or pursuant to other law applicable to lands managed by the Secretary of Agriculture shall be automatically segregated from appropriation under the public land law, including the mining laws, for ninety days after acceptance of title by the United States. Such segregation shall be subject to valid existing rights as of the date of such acceptance of title. At the end of such ninety day period, such segregation shall end and such lands shall be open to operation of the public land laws and to entry, location, and patent under the mining laws except to the extent otherwise provided by this Act or other applicable law, or appropriate actions pursuant thereto.

QUALIFIED CONVEYEES

SEC. 207. [43 U.S.C. 1717] No tract of land may be disposed of under this Act, whether by sale, exchange, or donation, to any person who is not a citizen of the United States, or in the case of a corporation, is not subject to the laws of any State or of the United States.
CONVEYANCES

SEC. 208. [43 U.S.C. 1718] The Secretary shall issue all patents or other documents of conveyance after any disposal authorized by this Act. The Secretary shall insert in any such patent or other document of conveyance he issues, except in the case of land exchanges, for which the provisions of subsection 206(b) of this Act shall apply, such terms, covenants, conditions, and reservations as he deems necessary to insure proper land use and protection of the public interest: Provided, That a conveyance of lands by the Secretary, subject to such terms, covenants, conditions, and reservations, shall not exempt the grantee from compliance with applicable Federal or State law or State land use plans: Provided further, That the Secretary shall not make conveyances of public lands containing terms and conditions which would, at the time of the conveyance, constitute a violation of any law or regulation pursuant to State and local land use plans, or programs.

RESERVATION AND CONVEYANCE OF MINERALS

SEC. 209. [43 U.S.C. 1719] (a) All conveyances of title issued by the Secretary, except those involving land exchanges provided for in section 206, shall reserve to the United States all minerals in the lands, together with the right to prospect for, mine, and remove the minerals under applicable law and such regulations as the Secretary may prescribe, except that if the Secretary makes the findings specified in subsection (b) of this section, the minerals may then be conveyed together with the surface to the prospective surface owner as provided in subsection (b).

(b)(1) The Secretary, after consultation with the appropriate department or agency head, may convey mineral interests owned by the United States where the surface is or will be in non-Federal ownership, regardless of which Federal entity may have administered the surface, if he finds (1) that there are no known mineral values in the land, or (2) that the reservation of the mineral rights in the United States is interfering with or precluding appropriate non-mineral development of the land and that such development is a more beneficial use of the land than mineral development.

(2) Conveyance of mineral interests pursuant to this section shall be made only to the existing or proposed record owner of the surface, upon payment of administrative costs and the fair market value of the interests being conveyed.

(3) Before considering an application for conveyance of mineral interests pursuant to this section—

(i) the Secretary shall require the deposit by the applicant of a sum of money which he deems sufficient to cover administrative costs including, but not limited to, costs of conducting an exploratory program to determine the character of the mineral deposits in the land, evaluating the data obtained under the exploratory program to determine the fair market value of the mineral interests to be conveyed, and preparing and issuing the documents of conveyance: Provided, That, if the administrative costs exceed the deposit, the applicant shall pay the outstanding amount; and, if the deposit exceeds the administrative costs, the applicant shall be given a credit for or refund of the excess; or
(ii) the applicant, with the consent of the Secretary, shall have conducted, and submitted to the Secretary the results of, such an exploratory program, in accordance with standards promulgated by the Secretary.

(4) Moneys paid to the Secretary for administrative costs pursuant to this subsection shall be paid to the agency which rendered the service and deposited to the appropriation then current.

COORDINATION WITH STATE AND LOCAL GOVERNMENTS

SEC. 210. [43 U.S.C. 1720] At least sixty days prior to offering for sale or otherwise conveying public lands under this Act, the Secretary shall notify the Governor of the State within which such lands are located and the head of the governing body of any political subdivision of the State having zoning or other land use regulatory jurisdiction in the geographical area within which such lands are located, in order to afford the appropriate body the opportunity to zone or otherwise regulate, or change or amend existing zoning or other regulations concerning the use of such lands prior to such conveyance. The Secretary shall also promptly notify such public officials of the issuance of the patent or other document of conveyance for such lands.

OMITTED LANDS

SEC. 211. [43 U.S.C. 1721] OMITTED LANDS.—(a) The Secretary is hereby authorized to convey to States or their political subdivisions under the Recreation and Public Purposes Act (44 Stat. 741 as amended; 43 U.S.C. 869 et seq.), as amended, but without regard to the acreage limitations contained therein, unsurveyed islands determined by the Secretary to be public lands of the United States. The conveyance of any such island may be made without survey: Provided, however, That such island may be surveyed at the request of the applicant State or its political subdivision if such State or subdivision donates money or services to the Secretary for such survey, the Secretary accepts such money or services, and such services are conducted pursuant to criteria established by the Director of the Bureau of Land Management. Any such island so surveyed shall not be conveyed without approval of such survey by the Secretary prior to the conveyance.

(b)(1) The Secretary is authorized to convey to States and their political subdivisions under the Recreation and Public Purposes Act, but without regard to the acreage limitations contained therein, lands other than islands determined by him after survey to be public lands of the United States erroneously or fraudulently omitted from the original surveys (hereinafter referred to as “omitted lands”). Any such conveyance shall not be made without a survey: Provided, That the prospective recipient may donate money or services to the Secretary for the surveying necessary prior to conveyance if the Secretary accepts such money or services, such services are conducted pursuant to criteria established by the Director of the Bureau of Land Management, and such survey is approved by the Secretary prior to the conveyance.

(2) The Secretary is authorized to convey to the occupant of an omitted lands which, after survey, are found to have been occupied and developed for a five-year period prior to January 1, 1975, if the
Secretary determines that such conveyance is in the public interest and will serve objectives which outweigh all public objectives and values which would be served by retaining such lands in Federal ownership. Conveyance under this subparagraph shall be made at not less than the fair market value of the land, as determined by the Secretary, and upon payment in addition of administrative costs, including the cost of making the survey, the cost of appraisal, and the cost of making the conveyance.

(c)(1) No conveyance shall be made pursuant to this section until the relevant State government, local government, and areawide planning agency designated pursuant to section 204 of the Demonstration Cities and Metropolitan Development Act of 1966 (80 Stat. 1255, 1262) and/or title IV of the Intergovernmental Cooperation Act of 1968 (82 Stat. 1098, 1103-4) have notified the Secretary as to the consistency of such conveyance with applicable State and local government land use plans and programs.

(2) The provisions of section 210 of this Act shall be applicable to all conveyances under this section.

(d) The final sentence of section 1(c) of the Recreation and Public Purposes Act shall not be applicable to conveyances under this section.

(e) No conveyance pursuant to this section shall be used as the basis for determining the baseline between Federal and State ownership, the boundary of any State for purposes of determining the extent of a State's submerged lands or the line of demarcation of Federal jurisdiction, or any similar or related purpose.

(f) The provisions of this section shall not apply to any lands within the National Forest System, defined in the Act of August 17, 1974 (88 Stat. 476; 16 U.S.C. 1601), the National Park System, the National Wildlife Refuge System, and the National Wild and Scenic Rivers System.

UNINTENTIONAL TRESPASS ACT

SEC. 214. [43 U.S.C. 1722] (a) Notwithstanding the provisions of the Act of September 26, 1968 (82 Stat. 870; 43 U.S.C. 1431-1435), hereinafter called the “1968 Act”, with respect to applications under the 1968 Act which were pending before the Secretary as of the effective date of this subsection and which he approves for sale under the criteria prescribed by the 1968 Act, he shall give the right of first refusal to those having a preference right under section 2 of the 1968 Act. The Secretary shall offer such lands to such preference right holders at their fair market value (exclusive of any values added to the land by such holders and their predecessors in interest) as determined by the Secretary as of September 26, 1973.

(b) Within three years after the date of approval of this Act, the Secretary shall notify the filers of applications subject to para-
graph (a) of this section whether he will offer them the lands applied for and at what price; that is, their fair market value as of September 26, 1973, excluding any value added to the lands by the applicants or their predecessors in interest. He will also notify the President of the Senate and the Speaker of the House of Representatives of the lands which he has determined not to sell pursuant to paragraph (a) of this section and the reasons therefor. With respect to such lands which the Secretary determined not to sell, he shall take no other action to convey those lands or interests in them before the end of ninety days (not counting days on which the House of Representatives or the Senate has adjourned for more than three consecutive days) beginning on the date the Secretary has submitted such notice to the Senate and House of Representatives. If, during that ninety-day period, the Congress adopts a concurrent resolution stating the length of time such suspension of action should continue, he shall continue such suspension for the specified time period. If the committee to which a resolution has been referred during the said ninety-day period, has not reported it at the end of thirty calendar days after its referral, it shall be in order to either discharge the committee from further consideration of such resolution or to discharge the committee from consideration of any other resolution with respect to the suspension of action. A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported such a resolution), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be made with respect to any other resolution with respect to the same suspension of action. When the committee has reprinted, or has been discharged from further consideration of a resolution, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.  

(c) Within five years after the date of approval of this Act, the Secretary shall complete the processing of all applications filed under the 1968 Act and hold sales covering all lands which he has determined to sell thereunder.

Sec. 215. [43 U.S.C. 1723] (a) When the sole impediment to consummation of an exchange of lands or interests therein (hereinafter referred to as an exchange) determined to be in the public interest, is the inability of the Secretary of the Interior to revoke, modify, or terminate part or all of a withdrawal or classification because of the order (or subsequent modification or continuance thereof) of the United States District Court for the District of Columbia dated February 10, 1986, in Civil Action No. 85–2238 (National Wildlife Federation v. Robert E. Burford, et al.), the Secretary of the Interior is hereby authorized, notwithstanding such order (or subsequent modification or continuance thereof), to use
the authority contained herein, in lieu of other authority provided in this Act including section 204, to revoke, modify, or terminate in whole or in part, withdrawals or classifications to the extent deemed necessary by the Secretary to enable the United States to transfer land or interests therein out of Federal ownership pursuant to an exchange.

(b) REQUIREMENTS.—The authority specified in subsection (a) of this section may be exercised only in cases where—

(1) a particular exchange is proposed to be carried out pursuant to this Act, as amended, or other applicable law authorizing such an exchange;
(2) the proposed exchange has been prepared in compliance with all laws applicable to such exchange;
(3) the head of each Federal agency managing the lands proposed for such transfer has submitted to the Secretary of the Interior a statement of concurrence with the proposed revocation, modification, or termination;
(4) at least sixty days have elapsed since the Secretary of the Interior has published in the Federal Register a notice of the proposed revocation, modification, or termination; and
(5) at least sixty days have elapsed since the Secretary of the Interior has transmitted to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate a report which includes—

(A) a justification for the necessity of exercising such authority in order to complete an exchange;
(B) an explanation of the reasons why the continuation of the withdrawal or a classification or portion thereof proposed for revocation, modification, or termination is no longer necessary for the purposes of the statutory or other program or programs for which the withdrawal or classification was made or other relevant programs;
(C) assurances that all relevant documents concerning the proposed exchange or purchase for which such authority is proposed to be exercised (including documents related to compliance with the National Environmental Policy Act of 1969 and all other applicable provisions of law) are available for public inspection in the office of the Secretary concerned located nearest to the lands proposed for transfer out of Federal ownership in furtherance of such exchange and that the relevant portions of such documents are also available in the offices of the Secretary concerned in Washington, District of Columbia; and
(D) an explanation of the effect of the revocation, modification, or termination of a withdrawal or classification or portion thereof and the transfer of lands out of Federal ownership pursuant to the particular proposed exchange, on the objectives of the land management plan which is applicable at the time of such transfer to the land to be transferred out of Federal ownership.

(c) LIMITATIONS.—(1) Nothing in this section shall be construed as affirning or denying any of the allegations made by any party in the civil action specified in subsection (a), or as constituting an expression of congressional opinion with respect to the merits of
any allegation, contention, or argument made or issue raised by any party in such action, or as expanding or diminishing the jurisdiction of the United States District Court for the District of Columbia.

(2) Except as specifically provided in this section, nothing in this section shall be construed as modifying, terminating, revoking, or otherwise affecting any provision of law applicable to land exchanges, withdrawals, or classifications.

(3) The availability or exercise of the authority granted in subsection (a) may not be considered by the Secretary of the Interior in making a determination pursuant to this Act or other applicable law as to whether or not any proposed exchange is in the public interest.

(d) **TERMINATION.**—The authority specified in subsection (a) shall expire either (1) on December 31, 1990, or (2) when the Court order (or subsequent modification or continuation thereof) specified in subsection (a) is no longer in effect, whichever occurs first.

(d) Nothing in this section shall affect any regulation of the Secretary with respect to the administration of laws administered by him through the Bureau on the date of approval of this section.

\[1\] In subsection (c), “subchapter 3” should be “subchapter III”. 
MANAGEMENT OF USE, OCCUPANCY, AND DEVELOPMENT

SEC. 302. [43 U.S.C. 1732] (a) The Secretary shall manage the public lands under principles of multiple use and sustained yield, in accordance with the land use plans developed by him under section 202 of this Act when they are available, except that where a tract of such public land has been dedicated to specific uses according to any other provisions of law it shall be managed in accordance with such law.

(b) In managing the public lands, the Secretary shall, subject to this Act and other applicable law and under such terms and conditions as are consistent with such law, regulate, through easements, permits, leases, licenses, published rules, or other instruments as the Secretary deems appropriate, the use, occupancy, and development of the public lands, including, but not limited to, long-term leases to permit individuals to utilize public lands for habitation, cultivation, and the development of small trade or manufacturing concerns: Provided, That unless otherwise provided for by law, the Secretary may permit Federal departments and agencies to use, occupy, and develop public lands only through rights-of-way under section 507 of this Act, withdrawals under section 204 of this Act, and, where the proposed use and development are similar or closely related to the programs of the Secretary for the public lands involved, cooperative agreements under subsection (b) of section 307 of this Act: Provided further, That nothing in this Act shall be construed as authorizing the Secretary concerned to require Federal permits to hunt and fish on public lands or on lands in the National Forest System and adjacent waters or as enlarging or diminishing the responsibility and authority of the States for management of fish and resident wildlife. However, the Secretary concerned may designate areas of public land and of lands in the National Forest System where, and establish periods when, no hunting or fishing will be permitted for reasons of public safety, administration, or compliance with provisions of applicable law. (6) For purposes of this subsection, the term “conservation system unit” has the same meaning as specified in section 102 of the Alaska National Interest Lands Conservation Act.

SEC. 303. [43 U.S.C. 1733] (a) The Secretary shall issue regulations necessary to implement the provisions of this Act with respect to the management, use, and protection of the public lands, including the property located thereon. Any person who knowingly and willfully violates any such regulation which is lawfully issued pursuant to this Act shall be fined no more than $1,000 or imprisoned no more than twelve months, or both. Any person charged with a violation of such regulation may be tried and sentenced by any United States magistrate designated for that purpose by the court by which he was appointed, in the same manner and subject to the same conditions and limitations as provided for in section 3401 of title 18 of the United States Code.

(b) At the request of the Secretary, the Attorney General may institute a civil action in any United States district court for an injunction or other appropriate order to prevent any person from utilizing public lands in violation of regulations issued by the Secretary under this Act.

(c)(1) When the Secretary determines that assistance is necessary in enforcing Federal laws and regulations relating to the public lands or their resources he shall offer a contract to appropriate local officials having law enforcement authority within their respective jurisdictions with the view of achieving maximum feasible reliance upon local law enforcement officials in enforcing such laws and regulations. The Secretary shall negotiate on reasonable terms with such officials who have authority to enter into such contracts to enforce such Federal laws and regulations. In the performance of their duties under such contracts such officials and their agents are authorized to carry firearms; execute and serve any warrant or other process issued by a court or officer of competent jurisdiction; make arrests without warrant or process for a misdemeanor he has reasonable grounds to believe is being committed in his presence or view, or for a felony if he has reasonable grounds
to believe that the person to be arrested has committed or is committing such felony; search without warrant or process any person, place, or conveyance according to any Federal law or rule of law; and seize without warrant or process any evidentiary item as provided by Federal law. The Secretary shall provide such law enforcement training as he deems necessary in order to carry out the contracted for responsibilities. While exercising the powers and authorities provided by such contract pursuant to this section, such law enforcement officials and their agents shall have all the immunities of Federal law enforcement officials.

(2) The Secretary may authorize Federal personnel or appropriate local officials to carry out his law enforcement responsibilities with respect to the public lands and their resources. Such designated personnel shall receive the training and have the responsibilities and authority provided for in paragraph (1) of this subsection.

(d) In connection with the administration and regulation of the use and occupancy of the public lands, the Secretary is authorized to cooperate with the regulatory and law enforcement officials of any State or political subdivision thereof in the enforcement of the laws or ordinances of such State or subdivision. Such cooperation may include reimbursement to a State or its subdivision for expenditures incurred by it in connection with activities which assist in the administration and regulation of use and occupancy of the public lands.

(e) Nothing in this section shall prevent the Secretary from promptly establishing a uniformed desert ranger force in the California Desert Conservation Area established pursuant to section 601 of this Act for the purpose of enforcing Federal laws and regulations relating to the public lands and resources managed by him in such area. The officers and members of such ranger force shall have the same responsibilities and authority as provided for in paragraph (1) of subsection (c) of this section.

(f) Nothing in this Act shall be construed as reducing or limiting the enforcement authority vested in the Secretary by any other statute.

(g) The use, occupancy, or development of any portion of the public lands contrary to any regulation of the Secretary or other responsible authority, or contrary to any order issued pursuant to any such regulation, is unlawful and prohibited.

The moneys received for reasonable costs under this subsection shall be deposited with the Treasury in a special account and are hereby authorized to be appropriated and made available until expended. As used in this section “reasonable costs” include,
but are not limited to the costs of special studies; environmental impact statements; monitoring construction, operation, maintenance, and termination of any authorized facility; or other special activities. In determining whether costs are reasonable under this section, the Secretary may take into consideration actual costs (exclusive of management overhead), the monetary value of the rights or privileges sought by the applicant, the efficiency to the government processing involved, that portion of the cost incurred for the benefit of the general public interest rather than for the exclusive benefit of the applicant, the public service provided, and other factors relevant to determining the reasonableness of the costs.

(c) In any case where it shall appear to the satisfaction of the Secretary that any person has made a payment under any statute relating to the sale, lease, use, or other disposition of public lands which is not required or is in excess of the amount required by applicable law and the regulations issued by the Secretary, the Secretary, upon application or otherwise, may cause a refund to be made from applicable funds.

[43 U.S.C. 1735] (a) Any moneys received by the United States as a result of the forfeiture of a bond or other security by a resource developer or purchaser or permittee who does not fulfill the requirements of his contract or permit or does not comply with the regulations of the Secretary; or as a result of a compromise or settlement of any claim whether sounding in tort or in contract involving present or potential damage to the public lands shall be credited to a separate account in the Treasury and are hereby authorized to be appropriated and made available, until expended as the Secretary may direct, to cover the cost to the United States of any improvement, protection, or rehabilitation work on those public lands which has been rendered necessary by the action which has led the forfeiture, compromise, or settlement.

(b) Any moneys collected under this Act in connection with lands administered under the Act of August 28, 1937 (50 Stat. 874; 43 U.S.C. 1181a–1181j), shall be expended for the benefit of such land only.

He may accept contributions for cadastral surveying performed on federally controlled or intermingled lands. Moneys received hereunder shall be credited to a separate account in the Treasury and are hereby authorized to be appropriated and made available until expended, as the Secretary may direct, for payment of expenses incident to the function toward the administration of which the contributions were made and for refunds to depositors of amounts contributed by them in specific instances where contributions are in excess of their share of the cost.

(d) The Secretary may recruit, without regard to the civil service classification laws, rules, or regulations, the services of individuals contributed without compensation as volunteers for aiding in or facilitating the activities administered by the Secretary through the Bureau of Land Management.

(e) In accepting such services of individuals as volunteers, the Secretary—

(1) shall not permit the use of volunteers in hazardous duty or law enforcement work, or in policymaking processes or to displace any employee; and

(b) Each such contract shall provide that the obligation of the United States for the ensuing fiscal years is contingent upon the passage of an applicable appropriation, and that no payment shall be made under the contract for the ensuing fiscal years until such appropriation becomes available for expenditure.

(c) The failure to file such instruments as required by subsections (a) and (b) shall be deemed conclusively to constitute an abandonment of the mining claim or mill or tunnel site by the owner; but it shall not be considered a failure to file if the instrument is defective or not timely filed for record under other Federal laws permitting filing or recording thereof, or if the instrument is filed for record by or on behalf of some but not all of the owners of the mining claim or mill or tunnel site.

(d) Such recordation or application by itself shall not render valid any claim which would not be otherwise valid under applicable law. Nothing in this section shall be construed as a waiver of the assessment and other requirements of such law.

RECORDABLE DISCLAIMERS OF INTEREST IN LAND

SEC. 315. [43 U.S.C. 1745] (a) After consulting with any affected Federal agency, the Secretary is authorized to issue a document of disclaimer of interest or interests in any lands in any form suitable for recordation, where the disclaimer will help remove a cloud on the title of such lands and where he determines (1) a record interest of the United States in lands has terminated by operation of law or is otherwise invalid; or (2) the lands lying between the meander line shown on a plat of survey approved by the Bureau or its predecessors and the actual shoreline of a body of water are not lands of the United States; or (3) accreted, relicted, or avulsed lands are not lands of the United States.

(b) No document or disclaimer shall be issued pursuant to this section unless the applicant therefor has filed with the Secretary an application in writing and notice of such application setting forth the grounds supporting such application has been published in the Federal Register at least ninety days preceding the issuance of such disclaimer and until the applicant therefor has paid to the Secretary the administrative costs of issuing the disclaimer as determined by the Secretary. All receipts shall be deposited to the then-current appropriation from which expended.
(c) Issuance of a document of disclaimer by the Secretary pursuant to the provisions of this section and regulations promulgated hereunder shall have the same effect as a quit-claim deed from the United States.

CORRECTION OF CONVEYANCE DOCUMENTS

SEC. 316. [43 U.S.C. 1746] The Secretary may correct patents or documents of conveyance issued pursuant to section 208 of this Act or to other Acts relating to the disposal of public lands where necessary in order to eliminate errors. In addition, the Secretary may make corrections of errors in any documents of conveyance which have heretofore been issued by the Federal Government to dispose of public lands.

MINERAL REVENUES

SEC. 317. [43 U.S.C. 1747] (a) [Omitted—Amendment]

(b) Funds now held pursuant to said section 35 by the States of Colorado and Utah separately from the Department of the Interior oil shale test leases known as C–A; C–B; U–A, and U–B shall be used by such States and subdivisions as the legislature of each State may direct giving priority to those subdivisions socially or economically impacted by the development of minerals leased under this Act for (1) planning, (2) construction and maintenance of public facilities, and (3) provision of public services.

(c)(1) The Secretary is authorized to make loans to States and their political subdivisions in order to relieve social or economic impacts occasioned by the development of minerals leased in such States pursuant to the Act of February 25, 1920, as amended. Such loans shall be confined to the uses specified for the 50 per centum of mineral leasing revenues to be received by such States and subdivisions pursuant to section 35 of such Act.

(2) The total amount of loans outstanding pursuant to this subsection for any State and political subdivisions thereof in any year shall be not more than the anticipated mineral leasing revenues to be received by that State pursuant to section 35 of the Act of February 25, 1920, as amended, for the ten years following.

(3) The Secretary, after consultation with the Governors of the affected States, shall allocate such loans among the States and their political subdivisions in a fair and equitable manner, giving priority to those States and subdivisions suffering the most severe impacts.

(4) Loans made pursuant to this subsection shall be subject to such terms and conditions as the Secretary determines necessary to assure the achievement of the purpose of this subsection. The Secretary shall promulgate such regulations as may be necessary to carry out the provisions of this subsection no later than three months after the enactment of this paragraph.

(5) Loans made pursuant to this subsection shall bear interest equivalent to the lowest interest rate paid on an issue of at least $1,000,000 of tax exempt bonds of such State or any agency thereof within the preceding calendar year.

(6) Any loan made pursuant to this subsection shall be secured only by a pledge of the revenues received by the State or the polit-
ical subdivision thereof pursuant to section 35 of the Act of February 25, 1920, as amended, and shall not constitute an obligation upon the general property or taxing authority of such unit of government.

(7) Notwithstanding any other provision of law, loans made pursuant to this subsection may be used for the non-Federal share of the aggregate cost of any project or program otherwise funded by the Federal Government which requires a non-Federal share for such project or program and which provides planning or public facilities otherwise eligible for assistance under this subsection.

(8) Nothing in this subsection shall be construed to preclude any forebearance for the benefit of the borrower including loan restructuring, which may be determined by the Secretary as justified by the failure of anticipated mineral development or related revenues to materialize as expected when the loan was made pursuant to this subsection.

(9) Recipients of loans made pursuant to this subsection shall keep such records as the Secretary shall prescribe by regulation, including records which fully disclose the disposition of the proceeds of such assistance and such other records as the Secretary may require to facilitate an effective audit. The Secretary and the Comptroller General of the United States or their duly authorized representatives shall have access, for the purpose of audit, to such records.

(10) No person in the United States shall, on the grounds of race, color, religion, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program or activity funded in whole or part with funds made available under this subsection.

(11) All amounts collected in connection with loans made pursuant to this subsection, including interest payments or repayments of principal on loans, fees, and other moneys, derived in connection with this subsection, shall be deposited in the Treasury as miscellaneous receipts.

APPROPRIATION AUTHORIZATION

SEC. 318. [43 U.S.C. 1748] (a) There are hereby authorized to be appropriated such sums as are necessary to carry out the purposes and provisions of this Act, but no amounts shall be appropriated to carry out after October 1, 2002, any program, function, or activity of the Bureau under this or any other Act unless such sums are specifically authorized to be appropriated as of the date of approval of this Act or are authorized to be appropriated in accordance with the provisions of subsection (b) of this section.

(b) Consistent with section 607 of the Congressional Budget Act of 1974, beginning May 15, 1977, and not later than May 15 of each second even numbered year thereafter, the Secretary shall submit to the Speaker of the House of Representatives and the President of the Senate a request for the authorization of appropriations for all programs, functions, and activities of the Bureau to be carried out during the four-fiscal-year period beginning on October 1 of the calendar year following the calendar year in which such request is submitted. The Secretary shall include in his re-

quest, in addition to the information contained in his budget request and justification statement to the Office of Management and Budget, the funding levels which he determines can be efficiently and effectively utilized in the execution of his responsibilities for each such program, function, or activity, notwithstanding any budget guidelines or limitations imposed by any official or agency of the executive branch.

(c) Nothing in this section shall apply to the distribution of receipts of the Bureau from the disposal of lands, natural resources, and interests in lands in accordance with applicable law, nor to the use of contributed funds, private deposits for public survey work, and townsite trusteeships, nor to fund allocations from other Federal agencies, reimbursements from both Federal and non-Federal sources, and funds expended for emergency firefighting and rehabilitation.

(d) In exercising the authority to acquire by purchase granted by subsection (a) of section 205 of this Act, the Secretary may use the Land and Water Conservation Fund to purchase lands which are necessary for proper management of public lands which are primarily of value for outdoor recreation purposes.

TITLE IV—RANGE MANAGEMENT

GRAZING FEES

SEC. 401. [43 U.S.C. 1751] (a) The Secretary of Agriculture and the Secretary of the Interior shall jointly cause to be conducted a study to determine the value of grazing on the lands under their jurisdiction in the eleven Western States with a view to establishing a fee to be charged for domestic livestock grazing on such lands which is equitable to the United States and to the holders of grazing permits and leases on such lands. In making such study, the Secretaries shall take into consideration the costs of production normally associated with domestic livestock grazing in the eleven Western States, differences in forage values, and such other factors as may relate to the reasonableness of such fees. The Secretaries shall report the result of such study to the Congress not later than one year from and after the date of approval of this Act, together with recommendations to implement a reasonable grazing fee schedule based upon such study. If the report required herein has not been submitted to the Congress within one year after the date of approval of this Act, the grazing fee charge then in effect shall not be altered and shall remain the same until such report has been submitted to the Congress. Neither Secretary shall increase the grazing fee in the 1977 grazing year.

(b)(1) Congress finds that a substantial amount of the Federal range lands is deteriorating in quality, and that installation of additional range improvements could arrest much of the continuing deterioration and could lead to substantial betterment of forage conditions with resulting benefits to wildlife, watershed protection, and livestock production. Congress therefore directs that 50 per centum or $10,000,000 per annum, whichever is greater of all monies received by the United States as fees for grazing domestic livestock on public lands (other than from ceded Indian lands) under the Taylor Grazing Act (48 Stat. 1269; 43 U.S.C. 315 et seq.) and the Act of August 28, 1937 (50 Stat. 874; 43 U.S.C. 1181d), and on
lands in National Forests in the eleven contiguous Western States under the provisions of this section shall be credited to a separate account in the Treasury, one-half of which is authorized to be appropriated and made available for use in the district, region, or national forest from which such moneys were derived, as the respective Secretary may direct after consultation with district, regional, or national forest user representatives, for the purpose of on-the-ground range rehabilitation, protection, and improvements on such lands, and the remaining one-half shall be used for on-the-ground range rehabilitation, protection, and improvements as the Secretary concerned directs. Any funds so appropriated shall be in addition to any other appropriations made to the respective Secretary for planning and administration of the range betterment program and for other range management. Such rehabilitation, protection, and improvements shall include all forms of range land betterment including, but not limited to, seeding and reseeding, fence construction, weed control, water development, and fish and wildlife habitat enhancement as the respective Secretary may direct after consultation with user representatives. The annual distribution and use of range betterment funds authorized by this paragraph shall not be considered a major Federal action requiring a detailed statement pursuant to section 4332(c) of title 42 of the United States Code.

(2) [Omitted—Amendment]

(3) [Omitted—Amendment]

GRAZING LEASES AND PERMITS

SEC. 402. [43 U.S.C. 1752] (a) Except as provided in subsection (b) of this section, permits and leases for domestic livestock grazing on public lands issued by the Secretary under the Act of June 28, 1934 (48 Stat. 1269, as amended; 43 U.S.C. 315 et. seq.) or the Act of August 28, 1937 (50 Stat. 874, as amended; 43 U.S.C. 1181a–1181j), or by the Secretary of Agriculture, with respect to lands within National Forests in the sixteen contiguous Western States, shall be for a term of ten years subject to such terms and conditions the Secretary concerned deems appropriate and consistent with the governing law, including, but not limited to, the authority of the Secretary concerned to cancel, suspend, or modify a grazing permit or lease, in whole or in part, pursuant to the terms and conditions thereof, or to cancel or suspend a grazing permit or lease for any violation of a grazing regulation or of any term or condition of such grazing permit or lease.

(b) Permits or leases may be issued by the Secretary concerned for a period shorter than ten years where the Secretary concerned determines that—

(1) the land is pending disposal; or

(2) the land will be devoted to a public purpose prior to the end of ten years; or

(3) it will be in the best interest of sound land management to specify a shorter term: Provided, That the absence from an allotment management plan of details the Secretary concerned would like to include but which are undeveloped shall not be the basis for establishing a term shorter than ten years: Provided further, That the absence of completed land use plans or court ordered environmental statements shall not be the sole basis for establishing a term shorter than ten years
unless the Secretary determines on a case-by-case basis that
the information to be contained in such land use plan or court
ordered environmental impact statement is necessary to deter-
mine whether a shorter term should be established for any of
the reasons set forth in items (1) through (3) of this subsection.

(c) So long as (1) the lands for which the permit or lease is
issued remain available for domestic livestock grazing in accord-
ance with land use plans prepared pursuant to section 202 of this
Act or section 5 of the Forest and Rangeland Renewable Resources
Planning Act of 1974 (88 Stat. 477; 16 U.S.C. 1601), (2) the per-
mittee or lessee is in compliance with the rules and regulations
issued and the terms and conditions in the permit or lease specified
by the Secretary concerned, and (3) the permittee or lessee accepts
the terms and conditions to be included by the Secretary concerned
in the new permit or lease, the holder of the expiring permit or
lease shall be given first priority for receipt of the new permit or
lease.

(d) All permits and leases for domestic livestock grazing issued
pursuant to this section may incorporate an allotment management
plan developed by the Secretary concerned. However, nothing in
this subsection shall be construed to supersede any requirement for
completion of court ordered environmental impact statements prior
to development and incorporation of allotment management plans.
If the Secretary concerned elects to develop an allotment manage-
ment plan for a given area, he shall do so in careful and considered
consultation, cooperation and coordination with the lessees, permit-
tees, and landowners involved, the district grazing advisory boards
established pursuant to section 403 of the Federal Land Policy and
Management Act (43 U.S.C. 1753), and any State or States having
lands within the area to be covered by such allotment management
plan. Allotment management plans shall be tailored to the specific
range condition of the area to be covered by such plan, and shall
be reviewed on a periodic basis to determine whether they have
been effective in improving the range condition of the lands in-
volved or whether such lands can be better managed under the pro-
visions of subsection (e) of this section. The Secretary concerned
may revise or terminate such plans or develop new plans from time
to time after such review and careful and considered consultation,
cooperation and coordination with the parties involved. As used in
this subsection, the terms “court ordered environmental impact
statement” and “range condition” shall be defined as in the “Public
Rangelands Improvement Act of 1978.”

(e) In all cases where the Secretary concerned has not com-
pleted an allotment management plan or determines that an allo-
tment management plan is not necessary for management of live-
stock operations and will not be prepared, the Secretary concerned
shall incorporate in grazing permits and leases such terms and con-
ditions as he deems appropriate for management of the permitted
or leased lands pursuant to applicable law. The Secretary con-
cerned shall also specify therein the numbers of animals to be
grazed and the seasons of use and that he may reexamine the con-
dition of the range at any time and, if he finds on reexamination
that the condition of the range requires adjustment in the amount
or other aspect of grazing use, that the permittee or lessee shall
adjust his use to the extent the Secretary concerned deems nec-
necessary. Such readjustment shall be put into full force and effect on
the date specified by the Secretary concerned.

(f) Allotment management plans shall not refer to livestock op-
eration or range improvements on non-Federal lands except where
the non-Federal lands are intermingled with, or, with the consent
of the permittee or lessee involved, associated with, the Federal
lands subject to the plan. The Secretary concerned under appro-
priate regulations shall grant to lessees and permittees the right
of appeal from decisions which specify the terms and conditions of
allotment management plans. The preceding sentence of this sub-
section shall not be construed as limiting any other right of appeal
from decisions on such officials.

(g) Whenever a permit or lease for grazing domestic livestock
is canceled in whole or in part, in order to devote the lands covered
by the permit or lease to another public purpose, including dis-
posal, the permittee or lessee shall receive from the United States
a reasonable compensation for the adjusted value, to be determined
by the Secretary concerned, of his interest in authorized permanent
improvements placed or constructed by the permittee or lessee on
lands covered by such permit or lease, but not to exceed the fair
market value of the terminated portion of the permittee's or les-
see's interest therein. Except in cases of emergency, no permit or
lease shall be canceled under this subsection without two years'
prior notification.

(h) Nothing in this Act shall be construed as modifying in any
way law existing on the date of approval of this Act with respect
to the creation of right, title, interest or estate in or to public lands
or lands in National Forests by issuance of grazing permits and
leases.

GRAZING ADVISORY BOARDS

SEC. 403. [43 U.S.C. 1753] (a) For each Bureau district office
and National Forest headquarters office in the sixteen contiguous
Western States having jurisdiction over more than five hundred
thousand acres of lands subject to commercial livestock grazing
(herinafter in this section referred to as “office”), the Secretary
and the Secretary of Agriculture, upon the petition of a simple ma-
jority of the livestock lessees and permittees under the jurisdiction
of such office, shall establish and maintain at least one grazing ad-
visory board of not more than fifteen advisers.

(b) The function of grazing advisory boards established pursuant
to this section shall be to offer advice and make recommendations
to the head of the office involved concerning the development
of allotment management plans and the utilization of range-better-
ment funds.

(c) The number of advisers on each board and the number of
years an adviser may serve shall be determined by the Secretary
concerned in his discretion. Each board shall consist of livestock
representatives who shall be lessees or permittees in the area ad-
ministered by the office concerned and shall be chosen by the les-
sees and permittees in the area through an election prescribed by
the Secretary concerned.

(d) Each grazing advisory board shall meet at least once annu-
ally.
(e) Except as may be otherwise provided by this section, the provisions of the Federal Advisory Committee Act (86 Stat. 770; 5 U.S.C. App. 1) shall apply to grazing advisory boards.

(f) The provisions of this section shall expire December 31, 1985.

MANAGEMENT OF CERTAIN HORSES AND BURROS

Sec. 404. Sections 9 and 10 of the Act of December 15, 1971 (85 Stat. 649, 651; 16 U.S.C. 1331, 1339–1340) are renumbered as sections 10 and 11, respectively, and the following new section is inserted after section 8.

“Sec. 9. In administering this Act, the Secretary may use or contract for the use of helicopters or, for the purpose of transporting captured animals, motor vehicles. Such use shall be undertaken only after a public hearing and under the direct supervision of the Secretary or of a duly authorized official or employee of the Department. The provisions of subsection (a) of the Act of September 8, 1959 (73 Stat. 470; 18 U.S.C. 47(a)) shall not be applicable to such use. Such use shall be in accordance with humane procedures prescribed by the Secretary.”

TITLE V—RIGHTS-OF-WAY

AUTHORIZATION TO GRANT RIGHTS-OF-WAY

Sec. 501. [43 U.S.C. 1761] (a) The Secretary, with respect to the public lands (including public lands, as defined in section 103(e) of this Act, which are reserved from entry pursuant to section 24 of the Federal Power Act (16 U.S.C. 818)) and, the Secretary of Agriculture, with respect to lands within the National Forest System (except in each case land designated as wilderness), are authorized to grant, issue, or renew rights-of-way over, upon, under, or through such lands for—

1. reservoirs, canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other facilities and systems for the impoundment, storage, transportation, or distribution of water;
2. pipelines and other systems for the transportation or distribution of liquids and gases, other than water and other than oil, natural gas, synthetic liquid or gaseous fuels, or any refined product produced therefrom, and for storage and terminal facilities in connection therewith;
3. pipelines, slurry and emulsion systems, and conveyor belts for transportation and distribution of solid materials, and facilities for the storage of such materials in connection therewith;
4. systems for generation, transmission, and distribution of electric energy, except that the applicant shall also comply with all applicable requirements of the Federal Energy Regulatory Commission under the Federal Power Act, including part 1 thereof (41 Stat. 1063, 16 U.S.C. 791a–825r).; 1

---

1Paragraph (4) of subsection (a) was amended by section 2401(2) of the Energy Policy Act of 1992 (Public Law 102–486; 106 Stat. 3096). The reference to "part 1" in the paragraph should be "part I" and the period at the end of the paragraph should not have been added.
(5) systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals, and other means of communication;

(6) roads, trails, highways, railroads, canals, tunnels, tramways, airways, livestock driveways, or other means of transportation except where such facilities are constructed and maintained in connection with commercial recreation facilities on lands in the National Forest System; or

(7) such other necessary transportation or other systems or facilities which are in the public interest and which require rights-of-way over, upon, under, or through such lands.

(b)(1) The Secretary concerned shall require, prior to granting, issuing, or renewing a right-of-way, that the applicant submit and disclose those plans, contracts, agreements, or other information reasonably related to the use, or intended use, of the right-of-way, including its effect on competition, which he deems necessary to a determination, in accordance with the provisions of this Act, as to whether a right-of-way shall be granted, issued, or renewed and the terms and conditions which should be included in the right-of-way.

(2) If the applicant is a partnership, corporation, association, or other business entity, the Secretary concerned, prior to granting a right-to-way pursuant to this title, shall require the applicant to disclose the identity of the participants in the entity, when he deems it necessary to a determination, in accordance with the provisions of this title, as to whether a right-of-way shall be granted, issued, or renewed and the terms and conditions which should be included in the right-of-way. Such disclosures shall include, where applicable: (A) the name and address of each partner; (B) the name and address of each shareholder owning 3 per centum or more of the shares, together with the number and percentage of any class of voting shares of the entity which such shareholder is authorized to vote; and (C) the name and address of each affiliate of the entity together with, in the case of an affiliate controlled by the entity, the number of shares and the percentage of any class of voting stock of that affiliate owned, directly or indirectly, by that entity, and, in the case of an affiliate which controls that entity, the number of shares and the percentage of any class of voting stock of that entity owned, directly or indirectly, by the affiliate.

(3) The Secretary of Agriculture shall have the authority to administer all rights-of-way granted or issued under authority of previous Acts with respect to lands under the jurisdiction of the Secretary of Agriculture, including rights-of-way granted or issued pursuant to authority given to the Secretary of the Interior by such previous Acts.

(c)(1) Upon receipt of a written application pursuant to paragraph (2) of this subsection from an applicant meeting the requirements of this subsection, the Secretary of Agriculture shall issue a permanent easement, without a requirement for reimbursement, for a water system as described in subsection (a)(1) of this section, traversing Federal lands within the National Forest System (“National Forest Lands”), constructed and in operation or placed into operation prior to October 21, 1976, if—

1 In subsection (b)(2), the reference to “right-to-way” should be “right-of-way”.

...
(A) the traversed National Forest lands are in a State where the appropriation doctrine governs the ownership of water rights;

(B) at the time of submission of the application the water system is used solely for agricultural irrigation or livestock watering purposes;

(C) the use served by the water system is not located solely on Federal lands;

(D) the originally constructed facilities comprising such system have been in substantially continuous operation without abandonment;

(E) the applicant has a valid existing right, established under applicable State law, for water to be conveyed by the water system;

(F) a recordable survey and other information concerning the location and characteristics of the system as necessary for proper management of National Forest lands is provided to the Secretary of Agriculture by the applicant for the easement; and

(G) the applicant submits such application on or before December 31, 1996.

(2)(A) Nothing in this subsection shall be construed as affecting any grants made by any previous Act. To the extent any such previous grant of right-of-way is a valid existing right, it shall remain in full force and effect unless an owner thereof notifies the Secretary of Agriculture that such owner elects to have a water system on such right-of-way governed by the provisions of this subsection and submits a written application for issuance of an easement pursuant to this subsection, in which case upon the issuance of an easement pursuant to this subsection such previous grant shall be deemed to have been relinquished and shall terminate.

(B) Easements issued under the authority of this subsection shall be fully transferable with all existing conditions and without the imposition of fees or new conditions or stipulations at the time of transfer. The holder shall notify the Secretary of Agriculture within sixty days of any address change of the holder or change in ownership of the facilities.

(C) Easements issued under the authority of this subsection shall include all changes or modifications to the original facilities in existence as of October 21, 1976, the date of enactment of this Act.

(D) Any future extension or enlargement of facilities after October 21, 1976, shall require the issuance of a separate authorization, not authorized under this subsection.

(3)(A) Except as otherwise provided in this subsection, the Secretary of Agriculture may terminate or suspend an easement issued pursuant to this subsection in accordance with the procedural and other provisions of section 506 of this Act. An easement issued pursuant to this subsection shall terminate if the water system for which such easement was issued is used for any purpose other than agricultural irrigation or livestock watering use. For purposes of subparagraph (D) of paragraph (1) of this subsection, non-use of a water system for agricultural irrigation or livestock watering purposes for any continuous five-year period shall constitute a rebuttable presumption of abandonment of the facilities comprising such system.
(B) Nothing in this subsection shall be deemed to be an assertion by the United States of any right or claim with regard to the reservation, acquisition, or use of water. Nothing in this subsection shall be deemed to confer on the Secretary of Agriculture any power or authority to regulate or control in any manner the appropriation, diversion, or use of water for any purpose (nor to diminish any such power or authority of such Secretary under applicable law) or to require the conveyance or transfer to the United States of any right or claim to the appropriation, diversion, or use of water.

(C) Except as otherwise provided in this subsection, all rights-of-way issued pursuant to this subsection are subject to all conditions and requirements of this Act.

(D) In the event a right-of-way issued pursuant to this subsection is allowed to deteriorate to the point of threatening persons or property and the holder of the right-of-way, after consultation with the Secretary of Agriculture, refuses to perform the repair and maintenance necessary to remove the threat to persons or property, the Secretary shall have the right to undertake such repair and maintenance on the right-of-way and to assess the holder for the costs of such repair and maintenance, regardless of whether the Secretary had required the holder to furnish a bond or other security pursuant to subsection (i) of this section.

d) With respect to any project or portion thereof that was licensed pursuant to, or granted an exemption from, part I of the Federal Power Act which is located on lands subject to a reservation under section 24 of the Federal Power Act and which did not receive a permit, right-of-way or other approval under this section prior to enactment of this subsection, no such permit, right-of-way, or other approval shall be required for continued operation, including continued operation pursuant to section 15 of the Federal Power Act, of such project unless the Commission determines that such project involves the use of any additional public lands or National Forest lands not subject to such reservation.

COST-SHARE ROAD AUTHORIZATION

SEC. 502. [43 U.S.C. 1762] (a) The Secretary, with respect to the public lands, is authorized to provide for the acquisition, construction, and maintenance of roads within and near the public lands in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management of such lands for utilization of the other resources thereof. Financing of such roads may be accomplished (1) by the Secretary utilizing appropriated funds, (2) by requirements on purchasers of timber and other products from the public lands, including provisions for amortization of road costs in contracts, (3) by cooperative financing with other public agencies and with private agencies or persons, or (4) by a combination of these methods: Provided, That, where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of timber and other products from public lands shall not, except when the provisions of the second proviso of this subsection apply, be required to bear that part of the costs necessary
Sec. 503 FEDERAL LAND POLICY AND MANAGEMENT ACT OF 1976

31–48

to meet such higher standard, and the Secretary is authorized to make such arrangements to this end as may be appropriate: Provided, further, That when timber is offered with the condition that the purchaser thereof will build a road or roads in accordance with standards specified in the offer, the purchaser of the timber will be responsible for paying the full costs of construction of such roads.

(b) Copies of all instruments affecting permanent interests in land executed pursuant to this section shall be recorded in each county where the lands are located.

(c) The Secretary may require the user or users of a road, trail, land, or other facility administered by him through the Bureau, including purchasers of Government timber and other products, to maintain such facilities in a satisfactory condition commensurate with the particular use requirements of each. Such maintenance to be borne by each user shall be proportionate to total use. The Secretary may also require the user or users of such a facility to reconstruct the same when such reconstruction is determined to be necessary to accommodate such use. If such maintenance or reconstruction cannot be so provided or if the Secretary determines that maintenance or reconstruction by a user would not be practical, then the Secretary may require that sufficient funds be deposited by the user to provide his portion of such total maintenance or reconstruction. Deposits made to cover the maintenance or reconstruction of roads are hereby made available until expended to cover the cost to the United States of accomplishing the purposes for which deposited: Provided, That deposits received for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates: And provided further, That unexpended balances upon accomplishment of the purpose for which deposited shall be transferred to miscellaneous receipts or refunded.

(d) Whenever the agreement under which the United States has obtained for the use of, or in connection with, the public lands a right-of-way or easement for a road or an existing road or the right to use an existing road provides for delayed payments to the Government’s grantor, any fees or other collections received by the Secretary for the use of the road may be placed in a fund to be available for making payments to the grantor.

RIGHT-OF-WAY CORRIDORS

Sec. 503. [43 U.S.C. 1763] In order to minimize adverse environmental impacts and the proliferation of separate rights-of-way, the utilization of rights-of-way in common shall be required to the extent practical, and each right-of-way or permit shall reserve to the Secretary concerned the right to grant additional rights-of-way or permits for compatible uses on or adjacent to rights-of-way granted pursuant to this Act. In designating right-of-way corridors and in determining whether to require that rights-of-way be confined to them the Secretary concerned shall take into consideration national and State land use policies, environmental quality, economic efficiency, national security, safety, and good engineering and technological practices. The Secretary concerned shall issue regulations containing the criteria and procedures he will use in designating such corridors. Any existing transportation and utility
corridors may be designated as transportation and utility corridors pursuant to this subsection without further review.

GENERAL PROVISIONS

SEC. 504. [43 U.S.C. 1764] (a) The Secretary concerned shall specify the boundaries of each right-of-way as precisely as is practical. Each right-of-way shall be limited to the ground which the Secretary concerned determines (1) will be occupied by facilities which constitute the project for which the right-of-way is granted, issued, or renewed, (2) to be necessary for the operation or maintenance of the project, (3) to be necessary to protect the public safety, and (4) will do no unnecessary damage to the environment. The Secretary concerned may authorize the temporary use of such additional lands as he determines to be reasonably necessary for the construction, operation, maintenance, or termination of the project or a portion thereof, or for access thereto.

(b) Each right-of-way or permit granted, issued, or renewed pursuant to this section shall be limited to a reasonable term in light of all circumstances concerning the project. In determining the duration of a right-of-way the Secretary concerned shall, among other things, take into consideration the cost of the facility, its useful life, any public purpose it serves. The right-of-way shall specify whether it is or is not renewable and the terms and conditions applicable to the renewal.

(c) Rights-of-way shall be granted, issued, or renewed pursuant to this title under such regulations or stipulations, consistent with the provisions of this title or any other applicable law, and shall also be subject to such terms and conditions as the Secretary concerned may prescribe regarding extent, duration, survey, location, construction, maintenance, transfer or assignment, and termination.

(d) The Secretary concerned prior to granting or issuing a right-of-way pursuant to this title for a new project which may have a significant impact on the environment, shall require the applicant to submit a plan of construction, operation, and rehabilitation for such right-of-way which shall comply with stipulations or with regulations issued by that Secretary, including the terms and conditions required under section 505 of this Act.

(e) The Secretary concerned shall issue regulations with respect to the terms and conditions that will be included in rights-of-way pursuant to section 505 of this title. Such regulations shall be regularly revised as needed. Such regulations shall be applicable to every right-of-way granted or issued pursuant to this title and to any subsequent renewal thereof, and may be applicable to rights-of-way not granted or issued, but renewed pursuant to this title.

(f) Mineral and vegetative materials, including timber, within or without a right-of-way, may be used or disposed of in connection with construction or other purposes only if authorization to remove or use such materials has been obtained pursuant to applicable laws or for emergency repair work necessary for those rights-of-way authorized under section 501(c) of this Act.¹

¹Two periods appear at the end of subsection (f).
(g) The holder of a right-of-way shall pay in advance the fair market value thereof, as determined by the Secretary granting, issuing, or renewing such right-of-way. The Secretary concerned may require either annual payment or a payment covering more than one year at a time except that private individuals may make at their option either annual payments or payments covering more than one year if the annual fee is greater than one hundred dollars. The Secretary concerned may waive rentals where a right-of-way is granted, issued or renewed in consideration of a right-of-way conveyed to the United States in connection with a cooperative cost share program between the United States and the holder. The Secretary concerned may, by regulation or prior to promulgation of such regulations, as a condition of a right-of-way, require an applicant for or holder of a right-of-way to reimburse the United States for all reasonable administrative and other costs incurred in processing an application for such right-of-way and in inspection and monitoring of construction, operation, and termination of the facility pursuant to such right-of-way: Provided, however, That the Secretary concerned need not secure reimbursement in any situation where there is in existence a cooperative cost share right-of-way program between the United States and the holder of a right-of-way. Rights-of-way may be granted, issued, or renewed to a Federal, State, or local government or any agency or instrumentality thereof, to nonprofit associations or nonprofit corporations which are not themselves controlled or owned by profitmaking corporations or business enterprises, or to a holder where he provides without or at reduced charges a valuable benefit to the public or to the programs of the Secretary concerned, or to a holder in connection with the authorized use or occupancy of Federal land for which the United States is already receiving compensation for such lesser charge, including free use as the Secretary concerned finds equitable and in the public interest. Such rights-of-way issued at less than fair market value are not assignable except with the approval of the Secretary issuing the right-of-way. The moneys received for reimbursement of reasonable costs shall be deposited with the Treasury in a special account and are hereby authorized to be appropriated and made available until expended. Rights-of-way shall be granted, issued, or renewed, without rental fees, for electric or telephone facilities eligible for financing pursuant to the Rural Electrification Act of 1936, as amended, determined without regard to any application requirement under that Act, or any extensions from such facilities: Provided, That nothing in this sentence shall be construed to affect the authority of the Secretary granting, issuing, or renewing the right-of-way to require reimbursement of reasonable administrative and other costs pursuant to the second sentence of this subsection.

(h)(1) The Secretary concerned shall promulgate regulations specifying the extent to which holders of rights-of-ways under this title shall be liable to the United States for damage or injury incurred by the United States caused by the use and occupancy of the rights-of-way. The regulations shall also specify the extent to which such holders shall indemnify or hold harmless the United States for liabilities, damages, or claims caused by their use and occupancy of the rights-of-way.
(2) Any regulation or stipulation imposing liability without fault shall include a maximum limitation on damages commensurate with the foreseeable risks or hazards presented. Any liability for damage or injury in excess of this amount shall be determined by ordinary rules of negligence.

(i) Where he deems it appropriate, the Secretary concerned may require a holder of a right-of-way to furnish a bond, or other security, satisfactory to him to secure all or any of the obligations imposed by the terms and conditions of the right-of-way or by any rule or regulation of the Secretary concerned.

(j) The Secretary concerned shall grant, issue, or renew a right-of-way under this title only when he is satisfied that the applicant has the technical and financial capability to construct the project for which the right-of-way is requested, and in accord with the requirements of this title.

TERMS AND CONDITIONS

SEC. 505. [43 U.S.C. 1765] Each right-of-way shall contain—

(a) terms and conditions which will (i) carry out the purposes of this Act and rules and regulations issued thereunder; (ii) minimize damage to scenic and esthetic values and fish and wildlife habitat and otherwise protect the environment; (iii) require compliance with applicable air and water quality standards established by or pursuant to applicable Federal or State law; and (iv) require compliance with State standards for public health and safety, environmental protection, and siting, construction, operation, and maintenance of or for rights-of-way for similar purposes if those standards are more stringent than applicable Federal standards; and

(b) such terms and conditions as the Secretary concerned deems necessary to (i) protect Federal property and economic interests; (ii) manage efficiently the lands which are subject to the right-of-way or adjacent thereto and protect the other lawful users of the lands adjacent to or traversed by such right-of-way; (iii) protect lives and property; (iv) protect the interests of individuals living in the general area traversed by the right-of-way who rely on the fish, wildlife, and other biotic resources of the area for subsistence purposes; (v) require location of the right-of-way along a route that will cause least damage to the environment, taking into consideration feasibility and other relevant factors; and (vi) otherwise protect the public interest in the lands traversed by the right-of-way or adjacent thereto.

SUSPENSION OR TERMINATION OF RIGHTS-OF-WAY

SEC. 506. [43 U.S.C. 1766] Abandonment of a right-of-way or noncompliance with any provision of this title, condition of the right-of-way or applicable rule or regulation of the Secretary concerned may be grounds for suspension or termination of the right-of-way if, after due notice to the holder of the right-of-way and, and with respect to easements, an appropriate administrative proceeding pursuant to section 554 of title 5 of the United States Code, the Secretary concerned determines that any such ground exists and that suspension or termination is justified. No administra-

tive proceeding shall be required where the right-of-way by its terms provides that it terminates on the occurrence of a fixed or agreed-upon condition, event, or time. If the Secretary concerned determines that an immediate temporary suspension of activities within a right-of-way for violation of its terms and conditions is necessary to protect public health or safety or the environment, he may abate such activities prior to an administrative proceeding. Prior to commencing any proceeding to suspend or terminate a right-of-way the Secretary concerned shall give written notice to the holder of the grounds for such action and shall give the holder a reasonable time to resume use of the right-of-way or to comply with this title, condition, rule, or regulation as the case may be. Failure of the holder of the right-of-way to use the right-of-way for the purpose for which it was granted, issued, or renewed, for any continuous five-year period, shall constitute a rebuttable presumption of abandonment of the right-of-way, except that where the failure of the holder to use the right-of-way for the purpose for which it was granted, issued, or renewed for any continuous five-year period is due to circumstances not within the holder's control, the Secretary concerned is not required to commence proceedings to suspend or terminate the right-of-way.

RIGHTS-OF-WAY FOR FEDERAL AGENCIES

SEC. 507. [43 U.S.C. 1767] (a) The Secretary concerned may provide under applicable provisions of this title for the use of any department or agency of the United States a right-of-way over, upon, under or through the land administered by him, subject to such terms and conditions as he may impose.

(b) Where a right-of-way has been reserved for the use of any department of agency of the United States, the Secretary shall take no action to terminate, or otherwise limit, that use without the consent of the head of such department or agency.

CONVEYANCE OF LANDS

SEC. 508. [43 U.S.C. 1768] If under applicable law the Secretary concerned decides to transfer out of Federal ownership any lands covered in whole or in part by a right-of-way, including a right-of-way granted under the Act of November 16, 1973 (87 Stat. 576; 30 U.S.C. 185), the lands may be conveyed subject to the right-of-way; however, if the Secretary concerned determines that retention of Federal control over the right-of-way is necessary to assure that the purposes of this title will be carried out, the terms and conditions of the right-of-way complied with, or the lands protected, he shall (a) reserve to the United States that portion of the lands which lies within the boundaries of the right-of-way, or (b) convey the lands, including that portion within the boundaries of the right-of-way, subject to the right-of-way and reserving to the United States the right to enforce all or any of the terms and conditions of the right-of-way, including the right to renew it or extend it upon its termination and to collect rents.

EXISTING RIGHTS-OF-WAY

SEC. 509. [43 U.S.C. 1769] (a) Nothing in this title shall have the effect of terminating any right-of-way or right-of-use heretofore
issued, granted, or permitted. However, with the consent of the holder thereof, the Secretary concerned may cancel such a right-of-way or right-of-use and in its stead issue a right-of-way pursuant to the provisions of this title.

(b) When the Secretary concerned issues a right-of-way under this title for a railroad and appurtenant communication facilities in connection with a realignment of a railroad on lands under his jurisdiction by virtue of a right-of-way granted by the United States, he may, when he considers it to be in the public interest and the lands involved are not within an incorporated community and are of approximately equal value, notwithstanding the provisions of this title, provide in the new right-of-way the same terms and conditions as applied to the portion of the existing right-of-way relinquished to the United States with respect to the payment of annual rental, duration of the right-of-way, and the nature of the interest in lands granted. The Secretary concerned or his delegate shall take final action upon all applications for the grant, issue, or renewal of rights-of-way under subsection (6) of this section no later than six months after receipt from the applicant of all information required from the applicant by this title.

EFFECT ON OTHER LAWS

SEC. 510. [43 U.S.C. 1770] (a) Effective on and after the date of approval of this Act, no right-of-way for the purposes listed in this title shall be granted, issued, or renewed over, upon, under, or through such lands except under and subject to the provisions, limitations, and conditions of this title: Provided, That nothing in this title shall be construed as affecting or modifying the provisions of the Act of October 13, 1964 (78 Stat. 1089; 16 U.S.C. 532–538) and in the event of conflict with, or inconsistency between, this title and the Act of October 13, 1964, the latter shall prevail: Provided further, That nothing in this Act should be construed as making it mandatory that, with respect to forest roads, the Secretary of Agriculture limit rights-of-way grants or their term of years or require disclosure pursuant to Section 501(b) or impose any other condition contemplated by this Act that is contrary to present practices of that Secretary under the Act of October 13, 1964. Any pending application for a right-of-way under any other law on the effective date of this section shall be considered as an application under this title. The Secretary concerned may require the applicant to submit any additional information he deems necessary to comply with the requirements of this title.

(b) Nothing in this title shall be construed to preclude to use of lands covered by this title for highway purposes pursuant to sections 107 and 317 of title 23 of the United States Code.

(c)(1) Nothing in this title shall be construed as exempting any holder of a right-of-way issued under this title from any provision of the antitrust laws of the United States.

COORDINATION OF APPLICATIONS

SEC. 511. [43 U.S.C. 1771] Applicants before Federal departments and agencies other than the Department of the Interior or Agriculture seeking a license, certificate, or other authority for a project which involve a right-of-way over, upon, under, or through public land or National Forest System lands must simultaneously apply to the Secretary concerned for the appropriate authority to use public lands or National Forest System lands and submit to the Secretary concerned all information furnished to the other Federal departmental or agency.

TITLE VI—DESIGNATED MANAGEMENT AREAS

CALIFORNIA DESERT CONSERVATION AREA

SEC. 601. [43 U.S.C. 1781] (a) The Congress finds that—

(1) the California desert contains historical, scenic, archeological, environmental, biological, cultural, scientific, educational, recreational, and economic resources that are uniquely located adjacent to an area of large population;

(2) the California desert environment is a total ecosystem that is extremely fragile, easily scarred, and slowly healed;

(3) the California desert environment and its resources, including certain rare and endangered species of wildlife, plants, and fishes, and numerous archeological and historic sites, are seriously threatened by air pollution, inadequate Federal management authority, and pressures of increased use, particularly recreational use, which are certain to intensify because of the rapidly growing population of southern California;

(4) the use of all California desert resources can and should be provided for in a multiple use and sustained yield management plan to conserve these resources for future generations, and to provide present and future use and enjoyment, particularly outdoor recreation uses, including the use, where appropriate, of offroad recreational vehicles;

(5) the Secretary has initiated a comprehensive planning process and established an interim management program for the public lands in the California desert; and

(6) to insure further study of the relationship of man and the California desert environment, preserve the unique and irreplaceable resources, including archeological values, and conserve the use of the economic resources of the California desert, the public must be provided more opportunity to participate in such planning and management, and additional management authority must be provided to the Secretary to facilitate effective implementation of such planning and management.

(b) It is the purpose of this section to provide for the immediate and future protection and administration of the public lands in the California desert within the framework of a program of multiple use and sustained yield, and the maintenance of environmental quality.

1In subsection (a)(4), “sustained yield management plant” should be “sustained yield management plan”.
(c)(1) For the purpose of this section, the term “California desert” means the area generally depicted on a map entitled “California Desert Conservation Area—Proposed” dated April 1974, and described as provided in subsection (c)(2).

(2) As soon as practicable after the date of approval of this Act, the Secretary shall file a revised map and a legal description of the California Desert Conservation Area with the Committees on Interior and Insular Affairs of the United States Senate and the House of Representatives, and such map and description shall have the same force and effect as if included in this Act. Correction of clerical and typographical errors in such legal description and a map may be made by the Secretary. To the extent practicable, the Secretary shall make such legal description and map available to the public promptly upon request.

(d) The Secretary, in accordance with section 202 of this Act, shall prepare and implement a comprehensive, long-range plan for the management, use, development, and protection of the public lands within the California Desert Conservation Area. Such plan shall take into account the principles of multiple use and sustained yield in providing for resource use and development, including, but not limited to, maintenance of environmental quality, rights-of-way, and mineral development. Such plan shall be completed and implementation thereof initiated on or before September 30, 1980.

(e) During the period beginning on the date of approval of this Act and ending on the effective date of implementation of the comprehensive, long-range plan, the Secretary shall execute an interim program to manage, use, and protect the public lands, and their resources now in danger of destruction, in the California Desert Conservation Area, to provide for the public use of such lands in an orderly and reasonable manner such as through the development of campgrounds and visitor centers, and to provide for a uniformed desert ranger force.

(f) Subject to valid existing rights, nothing in this Act shall affect the applicability of the United States mining laws on the public lands within the California Desert Conservation Area, except that all mining claims located on public lands within the California Desert Conservation Area shall be subject to such reasonable regulations as the Secretary may prescribe to effectuate the purposes of this section. Any patent issued on any such mining claim shall recite this limitation and continue to be subject to such regulations. Such regulations shall provide for such measures as may be reasonable to protect the scenic, scientific, and environmental values of the public lands of the California Desert Conservation Area against undue impairment, and to assure against pollution of the streams and waters within the California Desert Conservation Area.

(g)(1) The Secretary, within sixty days after the date of approval of this Act, shall establish a California Desert Conservation Area Advisory Committee (hereinafter referred to as “advisory committee”) in accordance with the provisions of section 309 of this Act.

(2) It shall be the function of the advisory committee to advise the Secretary with respect to the preparation and implementation of the comprehensive, long-range plan required under subsection (d) of this section.
Sec. 603. [43 U.S.C. 1782]

(a) Within fifteen years after the date of approval of this Act, the Secretary shall review the roadless areas of five thousand acres or more and roadless islands of the public lands, identified during the inventory required by section 201(a) of this Act as having wilderness characteristics described in the Wilderness Act of September 3, 1964 (78 Stat. 890; 16 U.S.C. 1131 et seq.) and shall from time to time report to the President his recommendation as to the suitability or nonsuitability of each such area or island for preservation as wilderness: Provided, That prior to any recommendations for the designation of an area as wilderness the Secretary shall cause mineral surveys to be conducted by the Geological Survey \(^1\) and the Bureau of Mines \(^2\) to determine the mineral values, if any, that may be present in such areas: Provided further, That the Secretary shall report to the President by July 1, 1980, his recommendations on those areas which the Secretary has prior to November 1, 1975, formally identified as natural or primitive areas. The review required by this subsection shall be conducted in accordance with the procedure specified in section 3(d) of the Wilderness Act.

(b) The President shall advise the President of the Senate and the Speaker of the House of Representatives of his recommendations with respect to designation as wilderness of each such area, together with a map thereof and a definition of its boundaries. Such advice by the President shall be given within two years of the receipt of each report from the Secretary. A recommendation of the

\(^1\) With regard to subsection (a), title I of Public Law 102–154, 105 Stat. 1000, provides that the Geological Survey (43 U.S.C. 31(a)) shall hereafter be designated the United States Geological Survey.

\(^2\) With regard to subsection (a), section 10(b) of the National Geologic Mapping Act of 1992 (Public Law 102–285; 106 Stat. 172), provides the Bureau of Mines shall hereafter be known as the United States Bureau of Mines.
President for designation as wilderness shall become effective only if so provided by an Act of Congress.

(c) During the period of review of such areas and until Congress has determined otherwise, the Secretary shall continue to manage such lands according to his authority under this Act and other applicable law in a manner so as not to impair the suitability of such areas for preservation as wilderness, subject, however, to the continuation of existing mining and grazing uses and mineral leasing in the manner and degree in which the same was being conducted on the date of approval of this Act: Provided, That, in managing the public lands the Secretary shall by regulation or otherwise take any action required to prevent unnecessary or undue degradation of the lands and their resources or to afford environmental protection. Unless previously withdrawn from appropriation under the mining laws, such lands shall continue to be subject to such appropriation during the period of review unless withdrawn by the Secretary under the procedures of section 204 of this Act for reasons other than preservation of their wilderness character. Once an area has been designated for preservation as wilderness, the provisions of the Wilderness Act which apply to national forest wilderness areas shall apply with respect to the administration and use of such designated area, including mineral surveys required by section 4(d)(2) of the Wilderness Act, and mineral development, access, exchange of lands, and ingress and egress for mining claimants and occupants.

EFFECT ON EXISTING RIGHTS

SEC. 701. [43 U.S.C. 1701 note] (a) Nothing in this Act, or in any amendment made by this Act, shall be construed as terminating any valid lease, permit, patent, right-of-way, or other land use right or authorization existing on the date of approval of this Act.

(b) Notwithstanding any provision of this Act, in the event of conflict with or inconsistency between this Act and the Acts of August 28, 1937 (50 Stat. 874; 43 U.S.C. 1181a–1181j), and May 24, 1939 (53 Stat. 753), insofar as they relate to management of timber resources, and disposition of revenues from lands and resources, the latter Acts shall prevail.

(c) All withdrawals, reservations, classifications, and designations in effect as of the date of approval of this Act shall remain in full force and effect until modified under the provisions of this Act or other applicable law.

(d) Nothing in this Act, or in any amendments made by this Act, shall be construed as permitting any person to place, or allow to be placed, spent oil shale, overburden, or byproducts from the recovery of other minerals found with oil shale, on any Federal land other than Federal land which has been leased for the recovery of shale oil under the Act of February 25, 1920 (41 Stat. 437, as amended; 30 U.S.C. 181 et seq.).

(e) Nothing in this Act shall be construed as modifying, revoking, or changing any provision of the Alaska Native Claims Settlement Act (85 Stat. 688, as amended; 43 U.S.C. 1601 et seq.).
(f) Nothing in this Act shall be deemed to repeal any existing law by implication.

(g) Nothing in this Act shall be construed as limiting or restricting the power and authority of the United States or—

1. as affecting in any way any law governing appropriation or use of, or Federal right to, water on public lands;
2. as expanding or diminishing Federal or State jurisdiction, responsibility, interests, or rights in water resources development or control;

(h) All actions by the Secretary concerned under this Act shall be subject to valid existing rights.

(i) The adequacy of reports required by this Act to be submitted to the Congress or its committees shall not be subject to judicial review.

(j) Nothing in this act shall be construed as affecting the distribution of livestock grazing revenues to local governments under the Granger-Thye Act (64 Stat. 85, 16 U.S.C. 580h), under the Act of May 23, 1908 (35 Stat. 260, as amended; 16 U.S.C. 500), under the Act of March 4, 1913 (37 Stat. 843, as amended; 16 U.S.C. 501), and under the Act of June 20, 1910 (36 Stat. 557).

33. ACT OF JUNE 14, 1926
(Commonly Known as the Recreation and Public Purposes Act)

[As Amended Through Public Law 106–580, Dec. 31, 2000]
33. ACT OF JUNE 14, 1926
(Commonly Known as the Recreation and Public Purposes Act)

CHAP. 578.—An Act To authorize acquisition or use of public lands by States, counties, or municipalities for recreational purposes.

SECTION 1. [43 U.S.C. 869] (a) The Secretary of the Interior upon application filed by a duly qualified applicant under section 2 of this Act may, in the manner prescribed by this Act, dispose of any public lands to a State, Territory, county, municipality, or other State, Territorial, or Federal instrumentality or political subdivision for any public purposes, or to a nonprofit corporation or nonprofit association for any recreational or any public purpose consistent with its articles of incorporation or other creating authority. Before the land may be disposed of under this Act it must be shown to the satisfaction of the Secretary that the land is to be used for an established or definitely proposed project, that the land involved is not of national significance nor more than is reasonably necessary for the proposed use, and that for proposals of over 640 acres comprehensive land use plans and zoning regulations applicable to the area in which the public lands to be disposed of are located have been adopted by the appropriate State or local authority. The Secretary shall provide an opportunity for participation by affected citizens in disposals under this Act, including public hearings or meetings where he deems it appropriate to provide public comments, and shall hold at least one public meeting on any proposed disposal of more than six hundred forty acres under this Act. The Secretary may classify public lands in Alaska for disposition under this Act. Lands so classified may not be appropriated under any other public land law unless the Secretary revises such classification or authorizes the disposition of an interest in the lands under other applicable law. If, within eighteen months following such classification, no application has been filed for the purpose for which the lands have been so classified, then the Secretary shall restore such lands to appropriation under the applicable public land laws.

(b) Conveyances made in any one calendar year shall be limited as follows:

(i) For recreational purposes:

(A) To any State or the State park agency or any other agency having jurisdiction over the State park system of such State designated by the Governor of that State as its sole representative for acceptance of lands under this provision, hereinafter referred to as the State, or to any political subdivision of such State, six thousand four hundred acres, and such additional acreage as may be needed for
small roadside parks and rest sites of not more than ten acres each.

(B) To any nonprofit corporation or nonprofit association, six hundred and forty acres.

(C) No more than twenty-five thousand six hundred acres may be conveyed for recreational purposes under this Act in any one State per calendar year. Should any State or political subdivision, however, fail to secure, in any one year, six thousand four hundred acres, not counting lands for small roadside parks and rest sites, conveyances may be made thereafter if pursuant to an application on file with the Secretary of the Interior on or before the last day of said year and to the extent that the conveyance would not have exceeded the limitations of said year.

(ii) For public purposes other than recreation:

(A) To any State or agency or instrumentality thereof, for any one program, six hundred and forty acres.

(B) To any political subdivision of a State, six hundred and forty acres.

(C) To any nonprofit corporation or nonprofit association, six hundred and forty acres.

(c) Where the lands have been withdrawn in aid of a function of a Federal department or agency other than the Department of the Interior, or of a State, Territory, county, municipality, water district, or other local governmental subdivision or agency, the Secretary of the Interior may make disposals under this Act only with the consent of such Federal department or agency, or of such State, Territory, or local governmental unit. Nothing in this Act shall be construed to apply to lands in any national forest, national park, or national monument, or national wildlife refuge, or to any Indian lands or lands set aside or held for the use or benefit of Indians, including lands over which jurisdiction has been transferred to the Department of the Interior by Executive order for the use of Indians, or, except insofar as this Act applies to leases of land to States and counties and to State and Federal instrumentalities and political subdivisions and to municipal corporations, to the revested Oregon and California Railroad grant lands and the reconveyed Coos Bay Wagon Road grant lands in the State of Oregon. Nor shall any disposition be made under this Act for any use authorized under any other law, except for a use authorized under the Act of June 1, 1938 (52 Stat. 609; 43 U.S.C., sec. 682a), as amended.

SEC. 2. [43 U.S.C. 869–1] The Secretary of the Interior may after due consideration as to the power value of the land, whether or not withdrawn therefor, (a) sell such land to the State, Territory, county, or other State, Territorial, or Federal instrumentality or political subdivision in which the lands are situated, or to a nearby municipal corporation in the same State or Territory, for the purpose for which the land has been classified, and conveyances of such land for historic-monument purposes or recreational purposes under this subsection shall be made without monetary consideration, while conveyances for any other purpose under this subsection shall be made at a price to be fixed by the Secretary of the Interior through appraisal or otherwise, after taking into consideration the purpose for which the lands are to be used; (b) lease such land to the State, Territory, county, or other State, Territorial, or
Federal instrumentality or political subdivision in which the lands are situated, or to a nearby municipal corporation in the same State or Territory, for the purpose for which the land has been classified, at a reasonable annual rental, except that leases of such lands for recreational purposes shall be made without monetary consideration, for a period up to twenty-five years, and, at the discretion of the Secretary, with a privilege of renewal for a like period, (c) sell such land to a nonprofit corporation or nonprofit association, for the purpose for which the land has been classified, at a price to be fixed by the Secretary of the Interior through appraisal, after taking into consideration the purpose for which the lands are to be used, or (d) lease such land to a nonprofit corporation or nonprofit association at a reasonable annual rental, for a period up to twenty years, and, at the discretion of the Secretary, with a privilege of renewal for a like period. Each patent or lease so issued shall contain a reservation to the United States of all mineral deposits in the lands conveyed or leased and of the right to mine and remove the same, under applicable laws and regulations to be established by the Secretary. Each lease shall contain a provision for its termination upon a finding by the Secretary that the land has not been used by the lessee for the purpose specified in the lease for such period, not over five years, as may be specified in the lease, or that such land or any part thereof is being devoted to another use.

SEC. 3. [43 U.S.C. 869–2] (a) Title to lands conveyed by the Government under this Act may not be transferred by the grantee or its successor except, with the consent of the Secretary of the Interior, to a transferee which would be a qualified grantee under section 2 (a) or (c) and subject to the acreage limitation contained in section 1 (b) of this Act. A grantee or its successor may not change the use specified in the conveyance to another or additional use except, with the consent of the Secretary, to a use for which such grantee or its successor could obtain a conveyance under this Act. If at any time after the lands are conveyed by the Government, the grantee or its successor attempts to transfer title to or control over these lands to another or the lands are devoted to a use other than that for which the lands were conveyed, without the consent of the Secretary, title to the lands shall revert to the United States.

(b) New Disposal Sites.—(1) Notwithstanding the provisions of subsection (a) of this section, if the Secretary receives an application for conveyance of land under this Act for the express purpose of solid waste disposal or for another purpose which the Secretary finds may include the disposal, placement, or release of any hazardous substance, the Secretary may convey such land subject only to the provisions of this subsection.

(2) Prior to issuance of any conveyance of land under this subsection the Secretary shall investigate the land covered by an application for such conveyance to determine whether or not any hazardous substance is present on such land. Such investigation shall include a review of any available records as to the use of such land and all appropriate analysis of the soil, water and air associated with such land. No land shall be conveyed under this subsection if such investigation indicates that any hazardous substance is present on such land.
(3) No application for conveyance under this subsection shall be acted on by the Secretary until the applicant has furnished evidence, satisfactory to the Secretary, that a copy of the application and information concerning the proposed use of the land covered by the application has been provided to the Environmental Protection Agency and to all other State and Federal agencies with responsibility for enforcement of State and Federal laws applicable to lands used for the disposal, placement, or release of solid waste or any hazardous substance.

(4) No application for conveyance under this subsection shall be acted on by the Secretary until the applicant has given a warranty that use of the land covered by the application will be consistent with all applicable State and Federal laws, including laws dealing with the disposal, placement, or release of hazardous substances, and that the applicant will hold the United States harmless from any liability that may arise out of any violation of any such law.

(5) A conveyance under this subsection shall be made to the extent that the applicant has demonstrated to the Secretary that the land covered by an application meets all applicable State and local requirements and is appropriate in character and reasonable in acreage in order to meet an existing or reasonably anticipated need for solid waste disposal or for another proposed use that the Secretary finds may include the disposal, placement, or release of any hazardous substance.

(6) A conveyance under this subsection shall be subject to the following conditions:

(A) Except as otherwise provided in subparagraphs (B) and (D) of this paragraph, the document of conveyance shall provide that the lands conveyed under this subsection shall revert to the United States, unless substantially all of the lands have been used, on or before the date five years after the date of conveyance, for the purpose or purposes specified in the application, or for other use or uses authorized under section 3(a) with the consent of the Secretary.

(B) In the event that at any time after such conveyance any portion of such lands has not been used for the purpose or purposes specified in the application, and the party to whom such lands were conveyed by the Secretary shall transfer ownership of such unused portion to any other party, the party to whom such lands were conveyed by the Secretary shall be liable to pay the Secretary, on behalf of the United States, the fair market value of such transferred portion as of the date of such transfer, including the value of any improvements thereon. Subject to appropriations, all amounts received by the Secretary under this subparagraph shall be retained by the Secretary and used for the management of public lands and shall remain available until expended.

(C) Pricing for conveyances of land under this subsection shall be in accordance with the provisions of section 2 of this Act, except that no compensation shall be required for the inclusion of only the limited reverter specified in this paragraph.

(D) Each patent issued under this subsection shall specify that no portion of the lands covered by such patent shall under any circumstances revert to the United States if such portion
has been used for solid waste disposal or for any other purpose that the Secretary finds may result in the disposal, placement, or release of any hazardous substance.

(7) For purposes of this section the term 'hazardous substance' has the same meaning as such term has when used in the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601 et seq.).

(c) EXISTING DISPOSAL SITES.—(1) Upon the application or with the concurrence of any party to whom the Secretary, prior to the date of enactment of this subsection, conveyed land under this Act, the Secretary may renounce the reversionary interests of the United States in such land, or portion thereof, if the Secretary finds that such land, or portion thereof, has been used for solid waste disposal or for any other purpose which the Secretary finds may result in the disposal, placement, or release of any hazardous substance, and the Secretary may rescind any portion of any patent or other instrument of conveyance inconsistent with such renunciation. After such renunciation, affected lands shall not under any circumstances revert to the United States by the operation of law, and shall cease to be subject to the provisions of subsection (a) of this section.

(2) Upon the application or with the concurrence of a party to whom the Secretary, prior to the date of enactment of this subsection, leased lands pursuant to this Act, the Secretary may convey in fee the lands covered by such lease or any portion thereof which have been used for solid waste disposal or for any other purpose that the Secretary finds may result in the disposal, placement, or release of any hazardous substance. Notwithstanding any other provision of this Act, a patent issued pursuant to this paragraph shall not contain a reverter provision and the lands covered by such patent shall not under any circumstances revert to the United States by operation of law after the issuance of such patent and shall not be subject to the provisions of subsection (a) of this section.

SEC. 4. [43 U.S.C. 869–3] The Secretary may authorize transfers of title or changes in use in accordance with the provisions of section 3 of this Act with respect to any patent heretofore issued under any Act upon application by a patentee qualified to obtain a conveyance under section 2 (a) or (c) of this Act. If the Secretary, pursuant to such an application, authorizes such transfer or use, all reverter provisions and other limitations on transfer or use, under this or any other Act affecting the lands involved, shall cease to be in effect twenty-five years after the Secretary authorizes the transfer or use for a changed or additional purpose under the provisions of this section.

For purposes of this subsection, the term “area of concentrated public use” means an area that is managed primarily for outdoor recreation purposes, contains at least one major recreation attraction, where facilities and services necessary to accommodate heavy public use are pro-
vided, and public access to the area is provided in such a manner that admission fees can be efficiently collected at one or more centralized locations. No admission fees of any kind shall be charged or imposed for entrance into any other federally owned areas which are operated and maintained by a Federal agency and used for outdoor recreation purposes.

(1)(A)(i) For admission into any such designated area, an annual admission permit (to be known as the Golden Eagle Passport) shall be available, for a fee of not more than $25. The permittee and any person accompanying him in a single, private noncommercial vehicle, or alternatively, the permittee and his spouse, children, and parents accompanying him where entry to the area is by any means other than private, non-commercial vehicle, shall be entitled to general admission into any area designated pursuant to this subsection. The annual permit shall be valid for a period of 12 months from the date the annual fee is paid. The annual permit shall not authorize any uses for which additional fees are charged pursuant to subsections (b) and (c) of this section. The annual permit shall be nontransferable and the unlawful use thereof shall be punishable in accordance with regulations established pursuant to subsection (e). The annual permit shall be available for purchase at any such designated area.

(ii) The Secretary of the Interior and the Secretary of Agriculture may authorize businesses, nonprofit entities, and other organizations to sell and collect fees for the Golden Eagle Passport subject to such terms and conditions as the Secretaries may jointly prescribe. The Secretaries shall develop detailed guidelines for promotional advertising of non-Federal Golden Eagle Passport sales and shall monitor compliance with such guidelines. The Secretaries may authorize the sellers to withhold amounts up to, but not exceeding 8 percent of the gross fees collected from the sale of such passports as reimbursement for actual expenses of the sales. Receipts from such non-Federal sales of the Golden Eagle Passport shall be deposited into the special account established in subsection (i), to be allocated between the Secretary of the Interior and the Secretary of Agriculture in the same ratio as receipts from admission into Federal fee areas administered by the Secretary of Agriculture and the Secretary of the Interior pursuant to subsection (a).

(B) For admission into a specific designated unit of the National Park System, or into several specific units located in a particular geographic area, the Secretary is authorized to make available an annual admission permit for a reasonable fee. The fee shall not exceed $15 regardless of how many units of the park system are covered. The permit shall convey the privileges of, and shall be subject to the same terms and conditions as, the Golden Eagle Passport, except that it shall be valid only for admission into the specific unit or units of the National Park System indicated at the time of purchase.

(2) Reasonable admission fees for a single visit at any designated area shall be established by the administering Secretary for persons who choose not to purchase the annual permit. A “single visit” means more or less continuous stay within

Payment of a single visit admission fee shall authorize exits from and reentries to a single designated area for a period of from one to fifteen days, such period to be defined for each designated area by the administering Secretary based upon a determination of the period of time reasonably and ordinarily necessary for such a single visit. The fee for a single-visit permit at any designated area applicable to those persons entering by private, noncommercial vehicle shall be no more than $5 per vehicle. The single-visit permit shall admit the permittee and all persons accompanying him in a single vehicle. The fee for a single-visit permit at any designated area applicable to those persons entering by any means other than a private noncommercial vehicle shall be no more than $3 per person. Except as otherwise provided in this subsection, the maximum fee amounts set forth in this paragraph shall apply to all designated areas.

(3) No admission fee shall be charged for travel by private, noncommercial vehicle over any national parkway or any road or highway established as a part of the National Federal Aid System, as defined in section 101, title 23, United States Code, which is commonly used by the public as a means of travel between two places either or both of which are outside the area. Nor shall any fee be charged for travel by private, noncommercial vehicle over any road or highway to any land in which such person has any property right if such land is within any such designated area. In the Smoky Mountains National Park, unless fees are charged for entrance into said park on main highways and thoroughfares, fees shall not be charged for entrance on other routes into said park or any part thereof. Notwithstanding any other provision of this Act, no admission fee may be charged at any unit of the National Park System which provides significant outdoor recreation opportunities in an urban environment and to which access is publicly available at multiple locations.

(4) The Secretary of the Interior and the Secretary of Agriculture shall establish procedures providing for the issuance of a lifetime admission permit (to be known as the “Golden Age Passport”) to any citizen of, or person domiciled in, the United States sixty-two years of age or older applying for such permit. Such permit shall be nontransferable, shall be issued for a one-time charge of $10, and shall entitle the permittee and any person accompanying him in a single, private, noncommercial vehicle, or alternatively, the permittee and his spouse and children accompanying him where entry to the area is by any means other than private, noncommercial vehicle, to general admission into any area designated pursuant to this subsection. No other free permits shall be issued to any person: Provided, That no fees of any kind shall be collected from any persons who have a right of access for hunting or fishing privileges under a specific provision of law or treaty or who are engaged in the conduct of official Federal, State, or local Government business and Provided further, That for no more than three years after the date of enactment of this Act, visitors to the United States will be granted entrance, without charge, to
any designated admission fee area upon presentation of a valid passport.

(5) The Secretary of the Interior and the Secretary of Agriculture shall establish procedures providing for the issuance of a lifetime admission permit to any citizen of, or person domiciled in, the United States, if such citizen or person applies for such permit, and is blind or permanently disabled. Such procedures shall assure that such permit shall be issued only to persons who have been medically determined to be blind or permanently disabled for purposes of receiving benefits under Federal law as a result of said blindness or permanent disability as determined by the Secretaries. Such permit shall be nontransferable, shall be issued without charge, and shall entitle the permittee and any person accompanying him in a single, private, noncommercial vehicle, or alternatively, the permittee and his spouse and children accompanying him where entry to the area is by any means other than private, non-commercial vehicle, to general admission into any area designated pursuant to this subsection.

(6)(A) No later than 60 days after the date of enactment of this paragraph, the Secretary of the Interior shall submit to the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate a report on the entrance fees proposed to be charged at units of the National Park System. The report shall include a list of units of the National Park System and the entrance fee proposed to be charged at each unit. The Secretary of the Interior shall include in the report an explanation of the guidelines used in applying the criteria in subsection (d).

(B) Following submittal of the report to the respective committees, any proposed changes to matters covered in the report, including the addition or deletion of park units or the increase or decrease of fee levels at park units shall not take effect until 60 days after notice of the proposed change has been submitted to the committees.

(7) No admission fee may be charged at any unit of the National Park System for admission of any person 16 years of age or less.

Arizona Memorial, Independence National Historical Park, any unit of the National Park System within the District of Columbia, Arlington House—Robert E. Lee National Memorial, San Juan National Historic Site, and Canaveral National Seashore.

(10) For each unit of the National Park System where an admission fee is collected, the Director shall annually designate at least one day during periods of high visitation as a "Fee-Free Day" when no admission fee shall be charged.

(11) In the case of the following parks, the fee for a single-visit permit applicable to those persons entering by private,
noncommercial vehicle (the permittee and all persons accompanying him in a single vehicle) shall be no more than $10 per vehicle and the fee for a single-visit permit applicable to persons entering by any means other than a private noncommercial vehicle shall be no more than $5 per person: Yellowstone National Park and Grand Teton National Park and after the end of fiscal year 1990, Grand Canyon National Park. In the case of Yellowstone and Grand Teton, a single-visit fee collected at one unit shall also admit the vehicle or person who paid such fee for a single-visit to the other unit.

(12) Notwithstanding section 203 of the Alaska National Interest Lands Conservation Act, the Secretary may charge an admission fee under this section at Denali National Park and Preserve in Alaska.

(b) RECREATION USE FEES.—Each Federal agency developing, administering, providing or furnishing at Federal expense, specialized outdoor recreation sites, facilities, equipment, or services shall, in accordance with this subsection and subsection (d) of this section, provide for the collection of daily recreation use fees at the place of use or any reasonably convenient location: Provided, That in no event shall there be a charge by any such agency for the use, either singly or in any combination, of drinking water, wayside exhibits, roads, overlook sites, visitors’ centers, scenic drives, or toilet facilities, nor shall there be any such charge solely for the use of picnic tables: Provided, That in no event shall there be a charge for the use of any campground not having a majority of the following: tent or trailer spaces, picnic tables, drinking water, access road, refuse containers, toilet facilities, personal collection of the fee by an employee or agent of the Federal agency operating the facility, reasonable visitor protection, and simple devices for containing a campfire (where campfires are permitted). Any Golden Age Passport permittee, or permittee under paragraph (5) of subsection (a) of this section, shall be entitled upon presentation of such permit to utilize such special recreation facilities at a rate of 50 per centum of the established use fee.

(c) RECREATION PERMITS.—Special recreation permits for uses such as group activities, recreation events, motorized recreation vehicles, and other specialized recreation uses may be issued in accordance with procedures and at fees established by the agency involved.

(d) All fees established pursuant to this section shall be fair and equitable, taking into consideration the direct and indirect cost to the Government, the benefits to the recipient, the public policy or interest served, the comparable recreation fees charged by non-Federal public agencies, the economic and administrative feasibility of fee collection and other pertinent factors. Clear notice that a fee has been established pursuant to this section shall be prominently posted at each area and at appropriate locations therein and shall be included in publications distributed at such areas. It is the intent of this Act that comparable fees should be charged by the several Federal agencies for comparable services and facilities.

(4) Amounts covered into the special account for the National Park Service shall be allocated among park system units in accordance with subsection (j) for obligation or expenditure by the Director of the National Park Service for the following purposes:

(A) In the case of receipts from the collection of admission fees: for resource protection, research, and interpretation at units of the National Park System.

(B) In the case of receipts from the collection of user fees: for resource protection, research, interpretation, and maintenance activities related to resource protection at units of the National Park System.

(j)(1) 10 percent of the funds made available to the Director of the National Park Service under subsection (i) in each fiscal year shall be allocated among units of the National Park System on the basis of need in a manner to be determined by the Director.

(2) 40 percent of the funds made available to the Director of the National Park Service under subsection (i) in each fiscal year
shall be allocated among units of the National Park System in accordance with paragraph (3) of this subsection and 50 percent shall be allocated in accordance with paragraph (4) of this subsection.

(3) The amount allocated to each unit under this paragraph for each fiscal year shall be a fraction of the total allocation to all units under this paragraph. The fraction for each unit shall be determined by dividing the operating expenses at that unit during the prior fiscal year by the total operating expenses at all units during the prior fiscal year.

(4) The amount allocated to each unit under this paragraph for each fiscal year shall be a fraction of the total allocation to all units under this paragraph. The fraction for each unit shall be determined by dividing the user fees and admission fees collected under this section at that unit during the prior fiscal year by the total of user fees and admission fees collected under this section at all units during the prior fiscal year.

(5) Amounts allocated under this subsection to any unit for any fiscal year and not expended in that fiscal year shall remain available for expenditure at that unit until expended.

(k) When authorized by the head of the collecting agency, volunteers at designated areas may sell permits and collect fees authorized or established pursuant to this section. The head of such agency shall ensure that such volunteers have adequate training regarding—

(1) the sale of permits and the collection of fees,
(2) the purposes and resources of the areas in which they are assigned, and
(3) the provision of assistance and information to visitors to the designated area.

The Secretary shall require a surety bond for any such volunteer performing services under this subsection. Funds available to the collecting agency may be used to cover the cost of any such surety bond. The head of the collecting agency may enter into arrangements with qualified public or private entities pursuant to which such entities may sell (without cost to the United States) annual admission permits (including Golden Eagle Passports) at any appropriate location. Such arrangements shall require each such entity to reimburse the United States for the full amount to be received from the sale of such permits at or before the agency delivers the permits to such entity for sale.

(l)(1) Where the National Park Service provides transportation to view all or a portion of any unit of the National Park System, the Director may impose a charge for such service in lieu of an admission fee under this section. The charge imposed under this paragraph shall not exceed the maximum admission fee under subsection (a).

(2) Notwithstanding any other provision of law, half of the charges imposed under paragraph (1) shall be retained by the unit of the National Park System at which the service was provided. The remainder shall be covered into the special account referred to in subsection (i) in the same manner as receipts from fees collected pursuant to this section. Fifty percent of the amount retained shall be expended only for maintenance of transportation systems at the unit where the charge was imposed. The remaining 50 percent of
the retained amount shall be expended only for activities related to resource protection at such units.

(m) Where the primary public access to a unit of the National Park System is provided by a concessioner, the Secretary may charge an admission fee at such units only to the extent that the total of the fee charged by the concessioner for access to the unit and the admission fee does not exceed the maximum amount of the admission fee which could otherwise be imposed under subsection (a).

(n)(1) In the case of each unit of the National Park System for which an admission fee is charged under this section, the Secretary of the Interior shall establish, by October 1, 1993, a commercial tour use fee to be imposed on each vehicle entering the unit for the purpose of providing commercial tour services within the unit. Fee revenue derived from such commercial tour use fees shall be deposited into the special account established under subsection (i).

(2) The Secretary shall establish the amount of fee per entry as follows:

(A) $25 per vehicle with a passenger capacity of 25 persons or less, and
(B) $50 per vehicle with a passenger capacity of more than 25 persons.

(3) The Secretary may periodically make reasonable adjustments to the commercial tour use fee imposed under this subsection.

(4) The commercial tour use fee imposed under this subsection shall not apply to either of the following:

(A) Any vehicle transporting organized school groups or outings conducted for educational purposes by schools or other bona fide educational institutions.

(B) Any vehicle entering a park system unit pursuant to a contract issued under the Act of October 9, 1965 (16 U.S.C. 20–20g) entitled “An Act relating to the establishment of concession policies in the areas administered by the National Park Service and for other purposes.”.

(5)(A) The provisions of this subsection shall apply to aircraft entering the airspace of units of the National Park System identified in section 2(b) and section 3 of Public Law 100–91 for the specific purpose of providing commercial tour services within the airspace of such units.

(B) The provisions of this subsection shall also apply to aircraft entering the airspace of other units of the National Park System for the specific purpose of providing commercial tour services if the Secretary determines that the level of such services is equal to or greater than the level at those units of the National Park System specified in subparagraph (A).

ALLOCATION OF LAND AND WATER CONSERVATION FUND FOR STATE AND FEDERAL PURPOSES

Sec. 5. [16 U.S.C. 460l–7] Allocation.—There shall be submitted with the annual budget of the United States a comprehensive statement of estimated requirements during the ensuing fiscal year for appropriations from the fund. Not less than 40 per centum of such appropriations shall be available for Federal purposes.
Sec. 6 LAND AND WATER CONSERVATION FUND 41–14

Those appropriations from the fund up to and including $600,000,000 in fiscal year 1978 and up to and including $750,000,000 in fiscal year 1979 shall continue to be allocated in accordance with this section. Amounts credited to this account shall remain in the account until appropriated. Appropriations from the special account shall be available only with respect to areas existing and authorizations enacted prior to the convening of the Ninety-fifth Congress, for acquisition of lands, waters, or interests in lands or waters within the exterior boundaries, as aforesaid, of—

(1) the National Park System;
(2) national scenic trails;
(3) the National Wilderness Preservation System;
(4) federally administered components of the National Wild and Scenic Rivers System; and
(5) national recreation areas administered by the Secretary of Agriculture.

FINANCIAL ASSISTANCE TO STATES

SEC. 6. [16 U.S.C 460l–8] GENERAL AUTHORITY; PURPOSES.—
(a) The Secretary of the Interior (hereinafter referred to as the “Secretary”) is authorized to provide financial assistance to the States from moneys available for State purposes. Payments may be made to the States by the Secretary as hereafter provided, subject to such terms and conditions as he considers appropriate and in the public interest to carry out the purposes of this Act, for outdoor recreation: (1) planning, (2) acquisition of land, waters, or interests in land or waters, or (3) development.

(b) APPORTIONMENT AMONG STATES; NOTIFICATION.—Sums appropriated and available for State purposes for each fiscal year shall be apportioned among the several States by the Secretary, whose determination shall be final, in accordance with the following formula:

(1) Forty per centum of the first $225,000,000; thirty per centum of the next $275,000,000; and twenty per centum of all additional appropriations shall be apportioned equally among the several States; andBODY

(2) At any time, the remaining appropriation shall be apportioned on the basis of need to individual States by the Secretary in such amounts as in his judgment will best accomplish the purposes of this Act. The determination of need shall include among other things a consideration of the proportion which the population of each State bears to the total population of the United States and of the use of outdoor recreation resources of individual States by persons from outside the State as well as a consideration of the Federal resources and programs in the particular States.

(3) The total allocation to an individual State under paragraphs (1) and (2) of this subsection shall not exceed 10 per centum of the total amount allocated to the several States in any one year.

1In subsection (b)(1) a period probably should replace “; and”.

(4) The Secretary shall notify each State of its apportionments; and the amounts thereof shall be available thereafter for payment to such State for planning, acquisition, or development projects as hereafter prescribed. Any amount of any apportionment that has not been paid or obligated by the Secretary during the fiscal year in which such notification is given and for two fiscal years thereafter shall be reapportioned by the Secretary in accordance with paragraph (2) of this subsection, without regard to the 10 per centum limitation to an individual State specified in this subsection.

(5) For the purposes of paragraph (1) of this subsection, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands (when such islands achieve Commonwealth status) shall be treated collectively as one State, and shall receive shares of such apportionment in proportion to their populations. The above listed areas shall be treated as States for all other purposes of this title.

(c) Matching Requirements.—Payments to any State shall cover not more than 50 per centum of the cost of planning, acquisition, or development projects that are undertaken by the State. The remaining share of the cost shall be borne by the State in a manner and with such funds or services as shall be satisfactory to the Secretary. No payment may be made to any State for or on account of any cost or obligation incurred or any service rendered prior to the date of approval of this Act.

(d) Comprehensive State Plan Required; Planning Projects.—A comprehensive statewide outdoor recreation plan shall be required prior to the consideration by the Secretary of financial assistance for acquisition or development projects. The plan shall be adequate if, in the judgment of the Secretary, it encompasses and will promote the purposes of this Act: Provided, That no plan shall be approved unless the Governor of the respective State certifies that ample opportunity for public participation in plan development and revision has been accorded. The Secretary shall develop, in consultation with others, criteria for public participation, which criteria shall constitute the basis for the certification by the Governor. The plan shall contain—

(1) the name of the State agency that will have authority to represent and act for the State in dealing with the Secretary for purposes of this Act;
(2) an evaluation of the demand for and supply of outdoor recreation resources and facilities in the State;
(3) a program for the implementation of the plan; and
(4) other necessary information, as may be determined by the Secretary.

The plan shall take into account relevant Federal resources and programs and shall be correlated so far as practicable with other State, regional, and local plans. Where there exists or is in preparation for any particular State a comprehensive plan financed in part with funds supplied by the Housing and Home Finance Agency, any statewide outdoor recreation plan prepared for purposes of this Act shall be based upon the same population, growth, and other pertinent factors as are used in formulating the Housing and Home Finance Agency financed plans.
The Secretary may provide financial assistance to any State for projects for the preparation of a comprehensive statewide outdoor recreation plan when such plan is not otherwise available or for the maintenance of such plan.

For fiscal year 1988 and thereafter each comprehensive statewide outdoor recreation plan shall specifically address wetlands within that State as an important outdoor recreation resource as a prerequisite to approval, except that a revised comprehensive statewide outdoor recreation plan shall not be required by the Secretary, if a State submits, and the Secretary, acting through the Director of the National Park Service, approves, as a part of and as an addendum to the existing comprehensive statewide outdoor recreation plan, a wetlands priority plan developed in consultation with the State agency with responsibility for fish and wildlife resources and consistent with the national wetlands priority conservation plan developed under section 301 of the Emergency Wetlands Resources Act or, if such national plan has not been completed, consistent with the provisions of that section.\(^1\)

\(^{1}\)At the end of subsection (d), there should be a period.

(e) PROJECTS FOR LAND AND WATER ACQUISITION; DEVELOPMENT.—In addition to assistance for planning projects, the Secretary may provide financial assistance to any State for the following types of projects or combinations thereof if they are in accordance with the State comprehensive plan:

(1) ACQUISITION OF LAND AND WATERS.—For the acquisition of land, waters, or interests in land or waters, or wetland areas and interests therein as identified in the wetlands provisions of the comprehensive plan (other than land, waters, or interests in land or waters acquired from the United States for less than fair market value), but not including incidental costs relating to acquisition.

Whenever a State provides that the owner of a single-family residence may, at his option, elect to retain a right of use and occupancy for not less than six months from the date of acquisition of such residence and such owner elects to retain such a right, such owner shall be deemed to have waived any benefits under sections 203, 204, 205, and 206 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1984) and for the purposes of those sections such owner shall not be considered a displaced person as defined in section 101(6) of that Act.

(2) DEVELOPMENT.—For development of basic outdoor recreation facilities to serve the general public, including the development of Federal lands under lease to States for terms of twenty-five years or more: Provided, That no assistance shall be available under this Act to enclose or shelter facilities normally used for outdoor recreation activities, but the Secretary may permit local funding, and after the date of enactment of this proviso not to exceed 10 per centum of the total amount allocated to a State in any one year to be used for sheltered facilities for swimming pools and ice skating rinks in areas where the Secretary determines that the severity of climatic conditions and the increased public use thereby made possible justifies the construction of such facilities.
(f) Requirements for Project Approval; Condition.—(1) Payments may be made to States by the Secretary only for those planning, acquisition, or development projects that are approved by him. No payment may be made by the Secretary for or on account of any project with respect to which financial assistance has been given or promised under any other Federal program or activity, and no financial assistance may be given under any other Federal program or activity for or on account of any project with respect to which such assistance has been given or promised under this Act. The Secretary may make payments from time to time in keeping with the rate of progress toward the satisfactory completion of individual projects: Provided, That the approval of all projects and all payments, or any commitments relating thereto, shall be withheld until the Secretary receives appropriate written assurance from the State that the State has the ability and intention to finance its share of the cost of the particular project, and to operate and maintain by acceptable standards, at State expense, the particular properties or facilities acquired or developed for public outdoor recreation use.

(2) Payments for all projects shall be made by the Secretary to the Governor of the State or to a State official or agency designated by the Governor or by State law having authority and responsibility to accept and to administer funds paid hereunder for approved projects. If consistent with an approved project, funds may be transferred by the State to a political subdivision or other appropriate public agency.

(3) No property acquired or developed with assistance under this section shall, without the approval of the Secretary, be converted to other than public outdoor recreation uses. The Secretary shall approve such conversion only if he finds it to be in accord with the then existing comprehensive statewide outdoor recreation plan and only upon such conditions as he deems necessary to assure the substitution of other recreation properties of at least equal fair market value and or reasonably equivalent usefulness and location.: 1 Provided, That wetland areas and interests therein as identified in the wetlands provisions of the comprehensive plan and proposed to be acquired as suitable replacement property within that same State that is otherwise acceptable to the Secretary, acting through the Director of the National Park Service, shall be considered to be of reasonably equivalent usefulness with the property proposed for conversion.

(4) No payment shall be made to any State until the State has agreed to (1) provide such reports to the Secretary, in such form and containing such information, as may be reasonably necessary to enable the Secretary to perform his duties under this Act, and (2) provide such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement and accounting for Federal funds paid to the State under this Act.

(5) Each recipient of assistance under this Act shall keep such records as the Secretary shall prescribe, including records which fully disclose the amount and the disposition by such recipient of the proceeds of such assistance, the total cost of the project or undertaking in connection with which such assistance is given or

1In paragraph (3), the period should not appear before the proviso.
used, and the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(6) The Secretary, and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient that are pertinent to assistance received under this Act.

(7) [Paragraph (7) was repealed by section 814(d)(1)(H) of the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104–333; 110 Stat. 4196)]

(8) With respect to property acquired or developed with assistance from the fund, discrimination on the basis of residence, including preferential reservation or membership systems, is prohibited except to the extent that reasonable differences in admission and other fees may be maintained on the basis of residence.

(g) COORDINATION WITH FEDERAL AGENCIES.—In order to assure consistency in policies and actions under this Act, with other related Federal programs and activities (including those conducted pursuant to title VII of the Housing Act of 1961 and section 701 of the Housing Act of 1954) and to assure coordination of the planning, acquisition, and development assistance to States under this section with other related Federal programs and activities, the President may issue such regulations with respect thereto as he deems desirable and such assistance may be provided only in accordance with such regulations.

(h) CAPITAL IMPROVEMENT AND OTHER PROJECTS TO REDUCE CRIME.—

(1) AVAILABILITY OF FUNDS.—In addition to assistance for planning projects, and in addition to the projects identified in subsection (e), and from amounts appropriated out of the Violent Crime Reduction Trust Fund, the Secretary may provide financial assistance to the States, not to exceed $15,000,000, for projects or combinations thereof for the purpose of making capital improvements and other measures to increase safety in urban parks and recreation areas, including funds to—

(A) increase lighting within or adjacent to public parks and recreation areas;
(B) provide emergency phone lines to contact law enforcement or security personnel in areas within or adjacent to public parks and recreation areas;
(C) increase security personnel within or adjacent to public parks and recreation areas; and
(D) fund any other project intended to increase the security and safety of public parks and recreation areas.

(2) ELIGIBILITY.—In addition to the requirements for project approval imposed by this section, eligibility for assistance under this subsection shall be dependent upon a showing of need. In providing funds under this subsection, the Secretary shall give priority to projects proposed for urban parks and recreation areas with the highest rates of crime and, in particular, to urban parks and recreation areas with the highest rates of sexual assault.

(3) FEDERAL SHARE.—Notwithstanding subsection (c), the Secretary may provide 70 percent improvement grants for
projects undertaken by any State for the purposes described in this subsection, and the remaining share of the cost shall be borne by the State.

ALLOCATION OF MONEYS FOR FEDERAL PURPOSES

SEC. 7. [16 U.S.C 460l–9] (a) Moneys appropriated from the fund for Federal purposes shall, unless otherwise allotted in the appropriation Act making them available, be allotted by the President to the following purposes and subpurposes:

(1) For the acquisition of land, waters, or interests in land or waters as follows:

NATIONAL FOREST SYSTEM.—Inholdings within (a) wilderness areas of the National Forest System, and (b) other areas of national forests as the boundaries of those forests exist on the effective date of this Act, or purchase units approved by the National Forest Reservation Commission subsequent to the date of this Act, all of which other areas are primarily of value for outdoor recreation purposes: Provided, That lands outside of but adjacent to an existing national forest boundary, not to exceed three thousand acres in the case of any one forest, which would comprise an integral part of a forest recreational management area may also be acquired with moneys appropriated from this fund: Provided further, That except for areas specifically authorized by Act of Congress, not more than 15 per centum of the acreage added to the National Forest System pursuant to this section shall be west of the 100th meridian.

NATIONAL WILDLIFE REFUGE SYSTEM.—Acquisition for (a) endangered species and threatened species authorized under section 5(a) of the Endangered Species Act of 1973; (b) areas authorized by section 2 of the Act of September 28, 1962, as amended (16 U.S.C. 460k–1); (c) national wildlife refuge areas under section 7(a)(5) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742f(a)(4)) and wetlands acquired under section 304 of the Emergency Wetlands Resources Act of 1986; (d) any areas authorized for the National Wildlife Refuge System by specific Acts.

(2) For payment into miscellaneous receipts of the Treasury as a partial offset for those capital costs, if any, of Federal water development projects hereafter authorized to be constructed by or pursuant to an Act of Congress which are allocated to public recreation and the enhancement of fish and wildlife values and financed through appropriations to water resource agencies.

(3) Appropriations allotted for the acquisition of land, waters, or interests in land or waters as set forth under the headings “NATIONAL PARK SYSTEM; RECREATIONAL AREAS” and “NATIONAL FOREST SYSTEM” in paragraph (1) of this subsection shall be available therefor notwithstanding any statutory ceiling on such appropriations contained in any other provision of law enacted prior to the convening of the Ninety-fifth Congress or, in the case of national
recreation areas, prior to the convening of the Ninety-sixth Congress; except that for any such area expenditures may not exceed a statutory ceiling during any one fiscal year by 10 per centum of such ceiling or $1,000,000, whichever is greater.

(b) ACQUISITION RESTRICTION.—Appropriations from the fund pursuant to this section shall not be used for acquisition unless such acquisition is otherwise authorized by law: Provided, however, That appropriations from the fund may be used for preacquisition work in instances where authorization is imminent and where substantial monetary savings could be realized.

(c)(1) BOUNDARY CHANGES: DONATIONS.—Whenever the Secretary of the Interior determines that to do so will contribute to, and is necessary for, the proper preservation, protection, interpretation, or management of an area of the national park system, he may, following timely notice in writing to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate of his intention to do so, and by publication of a revised boundary map or other description in the Federal Register, (i) make minor revisions of the boundary of the area, and moneys appropriated from the fund shall be available for acquisition of any lands, waters, and interests therein added to the area by such boundary revision subject to such statutory limitations, if any, on methods of acquisition and appropriations thereof as may be specifically applicable to such area; and (ii) acquire by donation, purchase with donated funds, transfer from any other Federal agency, or exchange, lands, waters, or interests therein adjacent to such area, except that in exercising his authority under this clause (ii) the Secretary may not alienate property administered as part of the national park system in order to acquire lands by exchange, the Secretary may not acquire property without the consent of the owner, and the Secretary may acquire property owned by a State or political subdivision thereof only by donation. Prior to making a determination under this subsection, the Secretary shall consult with the duly elected governing body of the county, city, town, or other jurisdiction or jurisdictions having primary taxing authority over the land or interest to be acquired as to the impacts of such proposed action, and he shall also take such steps as he may deem appropriate to advance local public awareness of the proposed action. Lands, waters and interests therein acquired in accordance with this subsection shall be administered as part of the area to which they are added, subject to the laws and regulations applicable thereto.

(2) For the purposes of clause (i) of paragraph (1), in all cases except the case of technical boundary revisions (resulting from such causes as survey error or changed road alignments), the authority of the Secretary under such clause (i) shall apply only if each of the following conditions is met:

(A) The sum of the total acreage of lands, waters, and interests therein to be added to the area and the total such acreage to be deleted from the area is not more than 5 percent of the total Federal acreage authorized to be included in the area and is less than 200 acres in size.

(B) The acquisition, if any, is not a major Federal action significantly affecting the quality of the human environment, as determined by the Secretary.
(C) The sum of the total appraised value of the lands, waters, and interests therein to be added to the area and the total appraised value of the lands, waters, and interests therein to be deleted from the area does not exceed $750,000.

(D) The proposed boundary revision is not an element of a more comprehensive boundary modification proposal.

(E) The proposed boundary has been subject to a public review and comment period.

(F) The Director of the National Park Service obtains written consent for the boundary modification from all property owners whose lands, waters, or interests therein, or a portion of whose lands, waters, or interests therein, will be added to or deleted from the area by the boundary modification.

(G) The lands are adjacent to other Federal lands administered by the Director of the National Park Service.

Minor boundary revisions involving only deletions of acreage owned by the Federal Government and administered by the National Park Service may be made only by Act of Congress.

[16 U.S.C. 460l–10] Moneys derived from the sources listed in section 2 of this Act shall not be available for publicity purposes: Provided, however, That in each case where significant acquisition or development is initiated, appropriate standardized temporary signing shall be located on or near the affected site, to the extent feasible, so as to indicate the action taken is a product of funding made available through the Land and Water Conservation Fund. Such signing may indicate the per centum and dollar amounts financed by Federal and non-Federal funds, and that the source of the funding includes moneys derived from Outer Continental Shelf receipts. The Secretary shall prescribe standards and guidelines for the usage of such signing to assure consistency of design and application.

1 Paragraph (2)(G) was added to section 7(c) of the Land and Water Conservation Fund Act of 1965 by section 814(b)(2)(G) of the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104–333; 110 Stat. 4194). Section 129 of Public Law 106–176 (114 Stat. 30) sought to amend paragraph (2)(G), but instead of amending section 7(c)(2)(G) of the Land and Water Conservation Fund Act of 1965, it referred to section 814(b)(2)(G) of Public Law 104–333), which doesn’t exist. The amendment is as follows:

SEC. 10. [16 U.S.C. 460l–10b] The Secretary of the Interior may enter into contracts for options to acquire lands, waters, or interests therein within the exterior boundaries of any area the acquisition of which is authorized by law for inclusion in the national park system. The minimum period of any such option shall be two years, and any sums expended for the purchase thereof shall be credited to the purchase price of said area. Not to exceed $500,000 of the sum authorized to be appropriated from the fund by section 3 of this Act may be expended by the Secretary in any one fiscal year for such options.

SEC. 11. [16 U.S.C. 460l–10c] There is hereby repealed the third paragraph from the end of the division entitled “National Park Service” of section 1 of the Act of March 7, 1928 (45 Stat. 238) and the second paragraph from the end of the division entitled “National Park Service” of section 1 of the Act of March 4, 1929 (45 Stat. 1602; 16 U.S.C. 14). Section 4 of the Act entitled “An Act authorizing the construction of certain public works on rivers and harbors for flood control, and for other purposes”, approved December 24, 1944 (16 U.S.C. 460d), as amended by the Flood Control Act of 1962 (76 Stat. 1195) is further amended by deleting “, without charge,” in the third sentence from the end thereof. All other provisions of law that prohibit the collection of entrance, admission, or other recreation user fees or charge authorized by this Act or that restrict the expenditure of funds if such fees or charges are collected are hereby also repealed: Provided, That no provision of any law or treaty which extends to any person or class of persons a right of free access to the shoreline of any reservoir or other body of water, or to hunting and fishing along or on such shoreline, shall be affected by this repealer.

SEC. 12. [16 U.S.C. 460l–10d] Within one year of the date of enactment of this section, the Secretary is authorized and directed to submit to the Committees on Interior and Insular Affairs of the Senate and House of Representatives a comprehensive review and report on the needs, problems, and opportunities associated with urban recreation in highly populated regions, including the resources potentially available for meeting such needs. The report shall include site specific analyses and alternatives, in a selection of geographic environments representative of the Nation as a whole, including, but not limited to, information on needs, local capabilities for action, major site opportunities, trends, and a full range of options and alternatives as to possible solutions and courses of action designed to preserve remaining open space, ameliorate recreational deficiency, and enhance recreational opportunity for urban populations, together with an analysis of the capability of the Federal Government to provide urban-oriented environmental education programs (including, but not limited to, cultural programs in the arts and crafts) within such options. The Secretary shall consult with, and request the views of, the affected cit-
ies, counties, and States on the alternatives and courses of action identified.

SEC. 13. [16 U.S.C. 460l–10e] (a) The President shall appoint an advisory commission to review the opportunities for enhanced opportunities for water-based recreation which shall submit a report to the President and to the Committee on Energy and Natural Resources of the Senate and to the Committee on Transportation and Infrastructure and the Committee on Resources of the House of Representatives within one year from the date of enactment of this section.

(c) The President shall appoint one member to serve as Chairman. Any vacancy on the Commission shall be filled in the same manner as the original appointment. Members of the Commission shall serve without compensation but shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties. The Secretary of the Interior shall provide all financial, administrative, and staffing requirements for the Commission, including office space, furnishings, and equipment. The heads of other Federal agencies are authorized, at the request of the Commission, to provide such information or personnel, to the extent permitted by law and within the limits of available funds, to the Commission as may be useful to accomplish the purposes of this section.

(d) The Commission may hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as it deems advisable: Provided, That, to the maximum extent possible, the Commission shall use existing data and research. The Commission is authorized to use the United States mail in the same manner and upon the same conditions as other departments and agencies of the United States.

(e) The report shall review the extent of water-related recreation at Federal man-made lakes and reservoirs and shall develop alternatives to enhance the opportunities for such use by the public. In developing the report, the Commission shall—

(1) review the extent to which recreation components identified in specific authorizations associated with individual Federal man-made lakes and reservoirs have been accomplished;

48. CABIN USER FEE FAIRNESS ACT OF 2000

Title VI of the Department of the Interior and Related Agencies Appropriations Act, 2001 (Public Law 106–291; 114 Stat. 1014)

TITLE VI—USER FEES UNDER FOREST SYSTEM RECREATION RESIDENCE PROGRAM

This title may be cited as the “Cabin User Fee Fairness Act of 2000”.

SEC. 602. [16 U.S.C. 6201] FINDINGS.
Congress finds that—
(1) cabins located on forest land have provided a unique recreation experience to a large number of cabin owners, their families, and guests each year since Congress authorized the recreation residence program in 1915; and
(2) the fact that current appraisal procedures have, in certain circumstances, been inconsistently applied in determining fair market values for residential lots demonstrates that problems exist in accurately reflecting market values.

SEC. 603. [16 U.S.C. 6202] PURPOSES.
The purposes of this title are—
(1) to ensure, to the maximum extent practicable, that the National Forest System recreation residence program is managed to preserve the opportunity for individual and family-oriented recreation; and
(2) to develop and implement a more consistent procedure for determining cabin user fees, taking into consideration the limitations of an authorization and other relevant market factors.

In this title:
(1) AGENCY.—The term “agency” means the Forest Service.
(2) AUTHORIZATION.—The term “authorization” means a special use permit for the use and occupancy of National Forest System land by a cabin owner under the authority of the program.
(3) BASE CABIN USER FEE.—The term “base cabin user fee” means the fee for an authorization that results from the appraisal of a lot as determined in accordance with sections 606 and 607.

(9) LOT.—The term “lot” means a parcel of land in the National Forest System—
(A) on which a cabin owner is authorized to build, use, occupy, and maintain a cabin and related improvements; and
(B) that is considered to be in its natural, native state at the time at which a use of the lot described in subparagraph (A) is first permitted by the Secretary.

(10) NATURAL, NATIVE STATE.—The term “natural, native state” means the condition of a lot or site, free of any improvements, at the time at which the lot or site is first authorized for recreation residence use by the agency.

(11) PROGRAM.—The term “program” means the recreation residence program established under the authority of the last paragraph under the heading “FOREST SERVICE” in the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497).

The Secretary shall ensure, to the maximum extent practicable, that the basis and procedure for calculating cabin user fees results in a fee for an authorization that reflects, in accordance with this title—
(1) the market value of a lot; and
(2) regional and local economic influences.

(a) REQUIREMENTS FOR CONDUCTING APPRAISALS.—In implementing and conducting an appraisal process for determining cabin user fees, the Secretary shall—

(1) complete an inventory of improvements that were paid for by—

(A) the agency;

(B) third parties; or

(C) cabin owners (or predecessors of cabin owners), during the completion of which the Secretary shall presume that a cabin owner, or a predecessor of the owner, has paid for the capital costs of any utility, access, or facility serving the lot being appraised, unless the Forest Service produces evidence that the agency or a third party has paid for the capital costs;

(2) establish an appraisal process to determine the market value of the fee simple estate of a typical lot or lots considered to be in a natural, native state, subject to subsection (b)(4)(A);

(3) enter into a contract with an appropriate professional appraisal organization to manage the development of specific appraisal guidelines in accordance with subsection (b), subject to public comment and congressional review;

(6) notwithstanding any other provision of law, require the appraiser to coordinate the appraisal closely with affected parties by seeking information, cooperation, and advice from cabin owners and tract associations;

(7) require that the appraiser perform the appraisal in compliance with—

(A) the most current edition of the Uniform Standards of Professional Appraisal Practice in effect on the date of the appraisal;

(9) before accepting any appraisal, conduct a review of the appraisal to ensure that the guidelines made available to the appraiser have been followed and that the appraised values are properly supported.

(b) SPECIFIC APPRAISAL GUIDELINES.—In the development of specific appraisal guidelines in accordance with subsection (a)(3), the instructions to an appraiser shall require, at a minimum, the following:
(1) APPRAISAL OF A TYPICAL LOT.—
(A) IN GENERAL.—In conducting an appraisal under this section, the appraiser—
   (i) shall not appraise each individual lot;
   (ii) shall appraise a typical lot or lots, selected by the cabin owners and the agency in a manner consistent with the policy of the program; and
   (iii) shall be provided, and give appropriate consideration to, any information contained in the inventory of improvements relating to the lot being appraised.
(B) ESTIMATE OF MARKET VALUE OF TYPICAL LOT.—
   (i) IN GENERAL.—The appraiser shall estimate the market value of a typical lot in accordance with this title.
   (ii) EQUIVALENCE TO LEGALLY SUBDIVIDED LOT.—In selecting a comparable sale under this title, the appraiser shall recognize that the typical lot will not usually be equivalent to a legally subdivided lot.
(2) EXCEPTION FOR CERTAIN SALES OF LAND.—In conducting an appraisal under this title, the appraiser—
   (A) shall not select sales of comparable land that are sales of land within developed urban areas; and
   (B) should not, in most circumstances, select a sale of comparable land that includes land that is encumbered by a conservation or recreational easement that is held by a government or institution, except land that is limited to use as a site for 1 home.
(3) ADJUSTMENTS FOR TYPICAL VALUE INFLUENCES.—
(A) IN GENERAL.—The appraiser shall consider, and adjust as appropriate, the price of sales of comparable land for all typical value influences described in subparagraph (B).
(B) VALUE INFLUENCES.—The typical value influences referred to in subparagraph (A) include—
   (i) differences in the locations of the parcels;
   (ii) accessibility, including limitations on access attributable to—
      (I) weather;
      (II) the condition of roads or trails;
      (III) restrictions imposed by the agency; or
      (IV) other factors;
   (iii) the presence of marketable timber;
   (iv) limitations on, or the absence of, services such as law enforcement, fire control, road maintenance, or snow plowing;
   (v) the condition and regulatory compliance of any site improvements; and
   (vi) any other typical value influences described in standard appraisal literature.
(4) ADJUSTMENTS TO SALES OF COMPARABLE PARCELS.—
(A) UTILITIES, ACCESS, OR FACILITIES.—
   (i) AGENCY.—Utilities, access, or facilities serving a lot that are provided by the agency shall be included as features of the lot being appraised.
(ii) CABIN OWNERS.—Utilities, access, or facilities serving a lot that are provided by the cabin owner (or a predecessor of the cabin owner) shall not be included as a feature of the lot being appraised.

(iii) THIRD PARTIES.—Utilities, access, or facilities serving a lot that are provided by a third party shall not be included as a feature of the lot being appraised unless, in accordance with subsection (a)(1), the agency determines that the capital costs have not been or are not being paid by the cabin owner (or a predecessor of the cabin owner).

(iv) WITHDRAWAL OF UTILITY OR ACCESS BY AGENCY.—If, during the term of an authorization, the agency or an act of God creates a substantial and materially adverse change in—

the cabin owner shall have the right to request, and, at the discretion of the Secretary, obtain a new determination of the base cabin user fee at the expense of the agency.

(B) ADJUSTMENT FOR EXCLUSION.—In a case in which any comparable sale includes utilities, access, or facilities that are to be excluded in the appraisal of the subject lot, the price of the comparable sale shall be adjusted, as appropriate.

(C) ADJUSTMENT PROCESS.—

(i) IN GENERAL.—The appraiser shall consider and adjust, as appropriate, the price of each sale of a comparable parcel for all nonnatural features referred to in subparagraph (A)(ii) that—

(I)(aa) are present at, or add value to, the comparable parcel; but

(bb) are not present at the lot being appraised; or

(II) are not included in the appraisal as described in subparagraph (A).

(ii) ADJUSTMENTS.—

(I) IN GENERAL.—In a case in which the price of a parcel sold is to be adjusted in accordance with subparagraph (B), the adjustment may be based on an analysis of market or cost information or both.

(II) COST INFORMATION.—If cost information is used as the basis of an adjustment under subclause (I), the cost information shall be supported by direct market evidence.

(iii) ANALYSIS OF COST INFORMATION.—An analysis of cost information under clause (ii)(I) should include allowances, as appropriate, if the allowances are consistent with—
(I) the Uniform Standards of Professional Appraisal Practice in effect on the date of the analysis; and
(II) the Uniform Appraisal Standards for Federal Land Acquisition.

(D) REAPPRaisal FOR AND RECALcULATION OF BASE CABIN USER FEE.—Periodically, but not less often than once every 10 years, the Secretary shall recalculate the base cabin user fee (including conducting any reappraisal required to recalculate the base cabin user fee).

(a) IN GENERAL.—The Secretary shall establish the cabin user fee as the amount that is equal to 5 percent of the market value of the lot, as determined in accordance with section 606, reflecting an adjustment to the typical market rate of return due to restrictions imposed by the permit, including—

(1) the limited term of the authorization;
(2) the absence of significant property rights normally attached to fee simple ownership; and
(3) the public right of access to, and use of, any open portion of the lot on which the cabin or other enclosed improvements are not located.

(b) FEE FOR CARETAKER CABIN.—The base cabin user fee for a lot on which a caretaker cabin is located shall not be greater than the base cabin user fee charged for the authorized use of a similar typical lot in the tract.

(c) ANNUAL CABIN USER FEE IN THE EVENT OF DETERMINATION NOT TO REISSUE AUTHORIZATION.—If the Secretary determines that an authorization should not be reissued at the end of a term, the Secretary shall—

(1) establish as the new base cabin user fee for the remaining term of the authorization the amount charged as the cabin user fee in the year that was 10 years before the year in which the authorization expires; and

(2) calculate the current cabin user fee for each of the remaining 9 years of the term of the authorization by multiplying—

(A) 1/10 of the new base cabin user fee; by
(B) the number of years remaining in the term of the authorization after the year for which the cabin user fee is being calculated.

(d) ANNUAL CABIN USER FEE IN EVENT OF CHANGED CONDITIONS.—If a review of a decision to convert a lot to an alternative public use indicates that the continuation of the authorization for use and occupancy of the cabin by the cabin owner is warranted, and the decision is subsequently reversed, the Secretary may require the cabin owner to pay any portion of annual cabin user fees that were forgone as a result of the expectation of termination of use and occupancy of the cabin by the cabin owner.

(e) TERMINATION OF FEE OBLIGATION IN LOSS RESULTING FROM ACTS OF GOD OR CATASTROPHIC EVENTS.—On a determination by the agency that, because of an act of God or a catastrophic event, a lot cannot be safely occupied and the authorization for the lot should accordingly be terminated, the fee obligation of the cabin
owner shall terminate effective on the date of the occurrence of the act or event.

SEC. 608. [16 U.S.C. 6207] ANNUAL ADJUSTMENT OF CABIN USER FEE.

(a) IN GENERAL.—The Secretary shall adjust the cabin user fee annually, using a rolling 5-year average of a published price index in accordance with subsection (b) or (c) that reports changes in rural or similar land values in the State, county, or market area in which the lot is located.

(b) INITIAL INDEX.—

(1) IN GENERAL.—For the period of 10 years beginning on the date of enactment of this title, the Secretary shall use changes in agricultural land prices in the appropriate State or county, as reported in the Index of Agricultural Land Prices published by the Department of Agriculture, to determine the annual adjustment to the cabin user fee in accordance with subsections (a) and (d).

(2) STATEWIDE CHANGES.—In determining the annual adjustment to the cabin user fee for an authorization located in a county in which agricultural land prices are influenced by the value influences described in section 606(b)(3), the Secretary shall use average statewide changes in the State in which the lot is located.

(c) NEW INDEX.—

(1) IN GENERAL.—Not later than 10 years after the date of enactment of this title, the Secretary may select and use an index other than the method of adjustment of a cabin user fee described in subsection (b)(2) to adjust a cabin user fee if the Secretary determines that a different index better reflects change in the value of a lot over time.

(2) SELECTION PROCESS.—Before selecting a new index, the Secretary shall—

(A) solicit and consider comments from the public; and

(B) not later than 60 days before the date on which the Secretary makes a final index selection, submit any proposed selection of a new index to—

(i) the Committee on Resources of the House of Representatives; and

(ii) the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(d) LIMITATION.—In calculating an annual adjustment to the base cabin user fee as determined by the initial index described in section (b), the Secretary shall—

(1) limit any annual fee adjustment to an amount that is not more than 5 percent per year when the change in agricultural land values exceeds 5 percent in any 1 year; and

(2) apply the amount of any adjustment that exceeds 5 percent to the annual fee payment for the next year in which the change in the index factor is less than 5 percent.

(a) DUE DATE FOR PAYMENT OF FEES.—A cabin user fee shall be prepaid annually by the cabin owner.

(b) PAYMENT OF EQUAL OR LESSER FEE.—If, in accordance with section 607, the Secretary determines that the amount of a new base cabin user fee is equal to or less than the amount of the cur-
rent base cabin user fee, the Secretary shall require payment of the new base cabin user fee by the cabin owner in accordance with subsection (a).

(c) Payment of Greater Fee.—If, in accordance with section 607, the Secretary determines that the amount of a new base cabin user fee is greater than the amount of the current base cabin user fee, the Secretary shall—

(1) require full payment of the new base cabin user fee in the first year following completion of the fee determination procedure if the increase in the amount of the new base cabin user fee is not more than 100 percent of the current base cabin user fee; or

(2) phase in the increase over the current base cabin user fee in approximately equal increments over 3 years if the increase in the amount of the new base cabin user fee is more than 100 percent of the current base cabin user fee.

(2) review the results and commentary from the second appraisal;

(3) determine a new base cabin user fee in an amount that is—
(A) equal to the base cabin user fee determined by the
