[CLERK'S NOTE: Reproduced below is the material relating to division G contained in the "Explanatory Statement Submitted by Mr. Obey, Chairman of the House Committee on Appropriations, Regarding the Consolidated Appropriations Amendment of the House of Representatives to the Senate Amendment to H.R. 2764".¹

The amendment discussed in the Explanatory Statement was agreed to without change by both the House of Representatives and the Senate. Therefore, the "amended bill" referred to in the Statement is the same as the legislation that has been signed into law.

Section 4 of the Consolidated Appropriations Act provides that this Explanatory Statement "shall have the same effect with respect to the allocation of funds and implementation of divisions A through K of this Act as if it were a joint explanatory statement of a committee of conference".]

EXPLANATORY STATEMENT, DIVISION G

DIVISION G—LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS, 2008

Following is an explanation of the effects of this division of the House amendment to the Senate amendment to H.R. 2764 (hereafter referred to as "the amended bill") relative to the versions of the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008 (H.R. 3043 and S. 1710) passed by the House of Representatives and the Senate.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

Funding levels specified in the explanatory statement do not reflect the across-the-board reduction that applies to each program, project or activity excluding the Pell Grant Program, pursuant to section 528. The detailed table at the end of this explanatory statement displays estimates of how this across-the-board reduction will be applied to major programs, projects, and activities in this Act. The Appropriations Committees expect that this across-the-board reduction also will be applied to amounts identified in this statement.

In implementing this Act, the Departments and agencies should be guided by the language and instructions set forth in House Re-

¹ This Explanatory Statement was submitted for printing in the Congressional Record on December 17, 2007, prior to House consideration of the Consolidated Appropriations amendment and as directed by the House of Representatives in section 3 of H. Res. 869. The Statement appears in books II and III of the December 17 Congressional Record, with the division G portion beginning on page H16178 of book II.

port 110–231 and Senate Report 110–107 accompanying the bills, H.R. 3043 and S. 1710.

In the cases where the language and instructions in either report specifically address the allocation of funds, each has been reviewed and those that are jointly concurred in by the Appropriations Committees have been endorsed in this explanatory statement and the detailed table at the end of the explanatory statement for this Act.

In the cases in which the House or the Senate reports direct the submission of a report, such report is to be submitted to both Appropriations Committees.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Appropriations Committees 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or \$500,000, whichever is less, between programs, projects and activities.

Finally, Departments and agencies funded in this division shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section 518. The Appropriations Committees expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements shall also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2008 budget.

REDUCING THE NEED FOR ABORTIONS

The amended bill includes over \$200 million over the fiscal year 2007 funding level for several programs and new initiatives in the House bill that are intended to help reduce the number of abortions in America by alleviating the economic pressures and other real life conditions that can sometimes cause women to decide not to carry their pregnancies to term. Increases are provided for Community Health Centers, Family Planning, and the Community Services Block Grant. New approaches include a young parents training initiative in the Department of Labor, first time motherhood grants under the Health Resources and Services Administration, a teen pregnancy prevention demonstration within the Centers for Disease Control and Prevention, and a home visitation initiative within the Administration for Children and Families.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008, put in place by the amended bill, incorporates the following agreements of the Appropriations Committees:

TITLE I—DEPARTMENT OF LABOR
EMPLOYMENT AND TRAINING ADMINISTRATION
TRAINING AND EMPLOYMENT SERVICES
(INCLUDING RESCISSIONS)

The amended bill includes \$3,608,349,000 for Training and Employment Services, instead of \$3,530,530,000 as proposed by the House and \$3,587,138,000 as proposed by the Senate. Of the amount appropriated, \$1,772,000,000 is an advance appropriation for fiscal year 2009 as proposed by the House and the Senate.

For dislocated worker assistance, \$1,471,903,000 is provided. This includes \$1,189,811,000 for the State formula grants and \$282,092,000 for the National Reserve Account, overriding the formula that provides that 80 percent of the funds available will be used for State formula grants and 20 percent in a National Reserve Account. Within the National Reserve Account, the amended bill provides that \$6,300,000 shall be available upon enactment for the purposes of grants, to be awarded within 30 days of enactment, for the continuation of national or multi-state training and employment programs. These grants are to be awarded to the AFL–CIO Working for America Institute and the AFL–CIO Appalachian Council, as proposed by the Senate, and the National Center on Education and the Economy, as proposed by the House. The amended bill also provides that up to \$125,000,000 within the National Reserve Account may be used for competitive grants under the Community-Based Job Training Grant initiative. No funds from the dislocated worker national reserve account or other pilot and demonstration resources shall be used for career advancement accounts or the predecessor proposal for personal reemployment accounts prior to a specific authorization of such activities.

Within the total provided for Migrant and Seasonal Farmworkers, \$75,610,000 is provided for State service area grants, \$4,975,000 is provided for housing grants and \$500,000 is included for other discretionary purposes, as described in the Senate report. The amended bill includes bill language proposed by the House providing that no less than 70 percent of formula funds be used for employment and training services and bill language proposed by the Senate which prohibits the Department from restricting the provision of “related assistance” services by grantees. These provisions ensure that the program primarily addresses the employment and training needs of the target population while also allowing grantees to provide related services that are often critical to the stabilization and availability of the farm labor workforce.

For YouthBuild, the \$60,000,000 included in the amended bill will provide sufficient funds for an additional competitive grant round in program year 2008.

For Pilots, Demonstrations and Research, the amended bill includes \$49,370,000 instead of \$28,140,000 as proposed by the House and \$30,650,000 as proposed by the Senate. Included in this amount is \$5,000,000 for a new demonstration program of competitive grants to address the employment and training needs of young parents as proposed by the House and detailed in House Report

110–231. The House provided \$10,000,000 for this purpose. The Senate had no similar provision.

The amended bill also includes funds within Pilots, Demonstrations and Research to support the following projects in the following amounts:

The amended bill consolidates the Responsible Reintegration of Youthful Offenders and Prisoner Reentry programs into a program of Reintegration of Ex-Offenders, as proposed by the House. The amended bill provides \$74,800,000, instead of \$68,746,000 as proposed by the House and a total of \$68,642,000 as proposed by the Senate in two individual programs. Within this amount, bill language provides that no less than \$55,000,000 be used for programming for youth, and that a total of \$50,000,000 be available from resources in both fiscal years 2007 and 2008 for a youth mentoring initiative. The \$50,000,000 provided is for competitive grants to local educational agencies or community-based organizations to develop and implement mentoring strategies in schools identified as persistently dangerous. The Department should use \$29,000,000 provided in this Act, along with \$21,000,000 in funds made available under the fiscal year 2007 appropriation for youthful offenders, for this purpose and issue a solicitation of grant agreements on a timeline that provides for the incorporation of both the fiscal year 2007 and fiscal year 2008 contributions to the enhanced effort to assist persistently dangerous schools in mentoring efforts to prevent youth violence in high crime areas.

The amended bill includes a rescission of \$250,000,000 in prior year Workforce Investment Act unexpended balances for the Youth, Adult and Dislocated Worker formula programs. The Appropriations Committees expect the Department to adhere to the specific instructions in House Report 110-424 regarding the implementation of this rescission. Those instructions provide additional information on the intended methodology for the allocation of the rescission and the waiver of requirements that will minimize the burden on States and local areas.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The amended bill includes \$530,900,000 for Community Service Employment for Older Americans as proposed by the House, instead of \$483,611,000 as proposed by the Senate. The increase over fiscal year 2007 is provided to cover the second increment of the Federal minimum wage increase, from \$5.85 to \$6.55 an hour, for the current level of 60,438 slots, which support 103,000 program participants.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The amended bill includes \$3,323,953,000 for State Unemployment Insurance and Employment Service Operations, instead of \$3,382,614,000 as proposed by the House and \$3,386,632,000 as proposed by the Senate.

The amended bill omits a provision proposed by the House and the Senate to provide \$40,000,000 in additional funds for in-person reemployment and eligibility assessments in one-stop centers, along with the specific requirement that \$10,000,000 in base Unemployment Insurance (UI) administration be used for this purpose, allowing for State flexibility in UI administration. The amended bill retains language included in the earlier conference report on H.R. 3043, and described in House Report 110-424, that allows the Secretary of Labor to make payments on behalf of the

States for matching UI claims information against the information in the National Directory of New Hires to prevent, detect, and collect improper UI payments.

Within the amount provided for Employment Service grants to States, \$12,740,000 is provided for foreign labor certification programs, and \$17,677,000 is included for administration of the Work Opportunity Tax Credit. Within the amount provided for workforce information, national electronic tools and one-stop system building, the Appropriations Committees direct that workforce information grants to the States be funded at no less than \$32,430,000. Within the amount provided for Work Incentive Grants, the Appropriations Committees direct that all States that wish to participate in this program shall receive funding for new or continuation grants to support their disability navigator programs.

PROGRAM ADMINISTRATION

The amended bill includes \$175,387,000 for Program Administration, instead of \$170,500,000 as proposed by the House and \$185,505,000 as proposed by the Senate.

Within the amount for employment security activities, not less than \$42,225,000 is provided to improve the timeliness and quality of processing applications under the foreign labor certification program.

EMPLOYEE BENEFITS SECURITY ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$141,790,000 for the Employee Benefits Security Administration (EBSA), instead of \$142,925,000 as proposed by the House and \$143,262,000 as proposed by the Senate. The Appropriations Committees request a briefing on the schedule for the completion of the EFAST2 system prior to the announcement of the availability of funds for its development and also request regular progress reports on this project. The Committees are in agreement that EBSA should devote resources to the issuance of regulations on meaningful and uniform reporting of 401(k) fees and that a national education program on 401(k) investment options, fees and conflict of interest be created as described in House Report 110-231.

PENSION BENEFIT GUARANTY CORPORATION

PENSION BENEFIT GUARANTY CORPORATION FUND

The amended bill includes \$411,151,000 for the administrative expenses of the Pension Benefit Guaranty Corporation, as proposed by both the House and the Senate. Language in the Senate bill providing for obligations in excess of such amount is not included.

EMPLOYMENT STANDARDS ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$428,409,000 for the Employment Standards Administration, salaries and expenses, instead of

\$436,508,000 as proposed by the House and \$438,508,000 as proposed by the Senate.

Within the amount provided for the enforcement of wage and hour standards, \$1,000,000 is provided for accelerating start-up of a system to resolve claims of injury caused by asbestos exposure. If the authority for an asbestos claims program is not enacted by June 30, 2008, these additional funds may be used to support wage and hour enforcement in low wage industries.

The amended bill includes a rescission of \$102,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. The House and the Senate proposed a rescission of \$70,000,000; however, information received from the Department of Labor indicates that receipts in this account allow a higher amount to be rescinded while still ensuring that the \$5,500,000 the Department estimates it will use in fiscal year 2008 under current authority remains available.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES OCCUPATIONAL ILLNESS

COMPENSATION FUND

(INCLUDING TRANSFER OF FUNDS)

Within the total provided, the amended bill includes a proviso transferring \$4,500,000 to the National Institute for Occupational Safety and Health for use by the Advisory Board on Radiation and Worker Health. While both the House and the Senate included this provision, the House report specified that the amount be in addition to \$55,358,000 identified for transfer to the Department of Health and Human Services. This explanatory statement clarifies that the \$4,500,000 for the Advisory Board on Radiation and Worker Health is a part of the total transfer amount identified in the budget request.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$494,641,000 for the Occupational Safety and Health Administration (OSHA), instead of \$503,516,000 as proposed by the House and \$498,445,000 as proposed by the Senate.

The Appropriations Committees believe that it is important to rebuild the Federal enforcement capacity of OSHA and that the agency should collect data needed to evaluate the effectiveness of voluntary compliance programs before additional investments are made to support this approach. The additional funds over the level requested for Federal Enforcement are intended to fund no fewer than 20 additional enforcement positions.

The amended bill includes language proposed by the House requiring the Secretary of Labor to provide detailed reports on the development and issuance of certain occupational safety and health standards that have remained on the OSHA regulatory agenda without completion. The Senate had a similar provision in its report, but not in the bill.

The Appropriations Committees expect that the Department will adhere to the instructions in House Report 110–424 relating to guidelines and enforcement actions on ergonomic injuries, standard-setting on worker protection in the event of an influenza pandemic, and occupational exposure to the chemical diacetyl in food manufacturing.

MINE SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The amended bill includes \$339,862,000 for the Mine Safety and Health Administration (MSHA), instead of \$340,028,000 as proposed by the Senate or \$313,478,000 as proposed by the House.

As detailed in House Report 110–424, the Appropriations Committees are disturbed that MSHA has fallen significantly short of its obligation to complete 100 percent of regular inspections of coal mines, as required by law. In 2006, almost 5 of every 100 required inspections nationally were not completed. In some districts, the rates were close to 15 or 20 of every 100 required inspections that were not completed. A similar shortfall exists in the metal/non-metal sector. The increase over fiscal year 2007 is provided to ensure that MSHA can carry out its legal obligations to regularly inspect our nation's mines. MSHA should adhere to the directions in House Report 110–424 pertaining to the submission of a detailed operating plan describing how these funds will be utilized and the specific outcomes that will be achieved.

Within the amount provided for Program Administration, \$2,200,000 is provided for a national project award to the United Mine Workers of America for classroom and simulated rescue training for mine rescue teams, and \$1,184,000 for the Wheeling Jesuit University National Technology Transfer Center.

BUREAU OF LABOR STATISTICS

SALARIES AND EXPENSES

The amended bill includes \$553,928,000 for the Bureau of Labor Statistics (BLS), instead of \$576,118,000 as proposed by the House and \$560,000,000 as proposed by the Senate.

The increase above fiscal year 2007 for Prices and Cost of Living is provided for continuous updating of the housing and geographic area samples of the Consumer Price Index (CPI). To the extent possible, the Appropriations Committees recommend that funds above the fiscal year 2007 level for Compensation and Working Conditions be used for the reinstatement of focused research studies on work-related injuries and illnesses, and request that the Department provide a plan for this activity in the fiscal year 2009 budget justification. The Appropriations Committees are also interested in ascertaining the impact of the North American Free Trade Agreement (NAFTA) on employment in the United States and expect the Department to adhere to the instructions in House Report 110–424 pertaining to a study of the implementation of NAFTA.

OFFICE OF DISABILITY EMPLOYMENT POLICY

SALARIES AND EXPENSES

The amended bill includes \$27,712,000 for the Office of Disability Employment Policy (ODEP), as proposed by the House and the Senate. At least 80 percent of these funds shall be used to design and implement research and technical assistance grants and contracts to develop policy that reduces barriers to employment for youth and adults with disabilities. The Appropriations Committees also expect the Department to adhere to the directions in House Report 110-424 concerning a report on the extent to which effective disability employment policy developed by the ODEP has been implemented within the Department of Labor and by other Federal agencies.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The amended bill includes \$297,064,000 for Departmental Management, salaries and expenses, instead of \$272,595,000 as proposed by the House and \$313,218,000 as proposed by the Senate.

The amended bill includes \$82,516,000 for the International Bureau of Labor Affairs (ILAB). Within this amount, \$5,000,000 is provided to implement model programs to address worker rights through technical assistance in countries with which the United States has trade preference programs and directs that this activity be carried out through a cooperative agreement with an international organization that has experience in working to assure adherence to a set of core labor standards through work with governments, employers and labor organizations. The Appropriations Committees believe that a component of this new program should first be implemented in the Republic of Haiti, at a funding level of not less than \$1,000,000. As a demonstration of the investment of the private sector and the government of Haiti in the project, an adequate cost-share from Haitian sources should also be committed before the initiation of the project. The program in Haiti will develop a system of monitoring and transparent public reporting on the adherence and enforcement of worker rights, based on the approach used in the successful International Labor Organization (ILO) Garment Sector Working Conditions Improvement Project in Cambodia. This multi-year program should improve working conditions in Haiti's garment industry, while increasing compliance with core international labor standards. The Department of Labor shall report to the Committees no later than June 30, 2008 on the progress of implementing the cooperative agreement covering Haiti and other countries with which the U.S. has trade agreements.

The recommendation for ILAB also includes \$41,000,000 for the U.S. contribution to the International Program for the Elimination of Child Labor and \$24,000,000 for bilateral assistance to improve access to basic education in international areas with a high rate of abusive and exploitative child labor. The Department should also adhere to the directions in House Report 110-424 concerning cooperation with the ILO on the implementation of standards in the garment industry in India.

The funds provided for information technology systems support information technology, architecture, infrastructure, equipment and software utilized by multiple agencies within the Department. The Appropriations Committees support the use of a portion of such funds for the acquisition of a Financial Management System for the Department of Labor. The President's request to Congress included \$12,000,000 as a direct appropriation to the Working Capital Fund for this initiative.

The increased funding level over fiscal year 2007 for the Office of the Solicitor is intended to support no less than an increase of 17 FTEs for enforcement support for the Mine Safety and Health Administration.

For the Women's Bureau, \$9,832,000 is provided, instead of \$10,500,000 as proposed by the House and \$10,300,000 as proposed by the Senate. Continued funding for national networks for women's employment that advance women in the workplace through education and advocacy is encouraged.

OFFICE OF JOB CORPS

The amended bill funds this program within the Office of the Secretary as proposed by the House and the Senate. This reflects the current organizational status of the program, and the funds for the administration of this program are included in this account instead of within program administration for the Employment and Training Administration.

The \$12,920,000 provided above the request for the renovation and construction of Job Corps centers is included for the continued development of new Job Corps centers that have been awarded and are not yet completed. The Appropriations Committees request that the Department of Labor include an analysis of the future funding needs of all new centers in development and a progress report on the timeline for opening new centers in its fiscal year 2009 budget justification, as proposed by the Senate.

The Appropriations Committees believe that significant programmatic changes to Job Corps operations and student services should not be made prior to the reauthorization of the Workforce Investment Act. It may be appropriate to pilot any new initiatives at select Job Corps centers and provide the appropriations and authorizing committees evidence and data that such changes will improve Job Corps performance and students' employment and earnings outcomes prior to national implementation. In consultation with system stakeholders, the Department should develop a national recruitment and retention strategy that will ensure current student training slots are fully utilized. In order to ensure that the Job Corps program maximizes opportunities for participation, the amended bill includes language providing that none of the funds in the Act be used to reduce student training slots below the current level of 44,491 in program year 2008. The House and Senate included similar slot protection provisions.

VETERANS EMPLOYMENT AND TRAINING

The amended bill includes \$232,153,000 for Veterans Employment and Training, instead of \$228,198,000 as proposed by the House and \$231,198,000 as proposed by the Senate. The Appropria-

tions Committees encourage the Department to direct additional funds to the Transition Assistance Program, which will ensure that the increasing demand for services is met. The Committees also expect the Department to increase enforcement activities to ensure that veterans' rights under the Uniformed Service Employment and Re-Employment Rights Act and Veterans Employment Opportunities Act are being protected.

OFFICE OF INSPECTOR GENERAL

The amended bill includes \$75,713,000 for the Office of Inspector General, instead of \$78,658,000 as proposed by the House and \$79,658,000 as proposed by the Senate.

GENERAL PROVISIONS

JOB CORPS SALARIES

The amended bill includes language that prohibits the use of funds for the Job Corps program to pay the salary of any individual, either as direct costs or any pro-ration as an indirect cost, at a rate in excess of Executive Level I, as proposed by the Senate. The House included a similar provision in the Job Corps account.

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The amended bill includes a provision limiting the authority to transfer funds between a program, project or activity and requiring a 15 day advance notification of any such request. Both the House and Senate bills contained similar provisions.

TRANSIT SUBSIDIES

The amended bill includes a provision requiring the Secretary of Labor to issue a monthly transit subsidy at the full amount of \$110 for eligible employees in the National Capital Region, as proposed by the House. The Senate bill contained no similar provision.

OPERATING PLAN

The amended bill includes a provision prohibiting the obligation of funds for demonstration, pilot, multiservice, research and multistate projects under section 171 of the Workforce Investment Act prior to the submission of a report on the planned use of such funds, as proposed by the House. The Senate had a similar provision requiring an operating plan for the use of such funds. Specific instructions pertaining to this provision are included in House Report 110-424.

DENALI COMMISSION

The amended bill includes a provision, as proposed by the Senate that authorizes such sums as may be necessary to the Denali Commission to conduct job training where Denali Commission projects will be constructed. The House bill contained no similar provision.

GRANTS USING H-1B VISA REVENUE

The amended bill includes a provision that prohibits the use of the funds available to the Department under section 414(c) of the American Competitiveness and Workforce Improvement Act for other than training in the occupations and industries for which employers are using the visas to hire foreign workers that generate these funds. The Department should ensure that funded activities include industry career ladder programs and understand that there are some related activities that enhance or facilitate training programs that are part of a coordinated industry approach. The amended bill provides that this limitation shall not apply to multi-year grants that have been awarded prior to June 30, 2007, to account for three rounds of Workforce Innovation in Regional Economic Development (WIRED) grants. The House bill contained a similar provision.

COMPETITIVE GRANTS

The amended bill includes a provision prohibiting Community-Based Job Training grants and grants authorized under section 414(c) of the American Competitiveness and Workforce Improvement Act from being awarded on a non-competitive basis. Both the House and Senate bills included similar provisions.

ADMINISTRATIVE COST DEFINITION AND REDESIGNATION OF LOCAL AREAS

The amended bill includes a provision requiring that the Secretary of Labor take no action to amend the definition established in 20 CFR 667.220 for functions and activities under title I of the Workforce Investment Act of 1998 or to modify the procedure for designation of local areas as specified in that Act until such time as legislation reauthorizing the Act is enacted, as proposed by the Senate. The House bill contained a similar provision.

MINE SAFETY REGULATIONS

The amended bill includes language requiring specific dates by which the Secretary of Labor propose, and subsequently finalize, mine safety regulations regarding belt haulage entries and rescue chambers in coal mines, and makes additional requirements for review of mine ventilation plans. The Senate bill included a similar provision, while the House bill did not include such a provision.

SALARIES AND BONUSES

The amended bill includes a provision proposed by the Senate that prohibits grantees from using funds appropriated for the Employment and Training Administration to pay the salary and bonuses of an individual at a rate in excess of Executive Level II. The House bill contained no similar provision.

NATIONAL EMERGENCY GRANT ASSISTANCE TO GREENSBURG, KANSAS

The amended bill includes language to enhance the federal government's response to the May 4 tornado in Greensburg, Kansas which is intended to deal only with the specific circumstances of

this community. This devastating tornado has created a unique problem that requires relief from certain rules that would otherwise apply to the use of national emergency grant funds. This flexibility will enable funds to be used to pay for certain professional municipal services. The Appropriations Committees understand that \$2,500,000 is planned to be spent for these purposes, and request notification and justification from the Department if a greater amount is required. This provision was included in the Senate Homeland Security Appropriations bill.

HEALTH COVERAGE TAX CREDIT GAP-FILLER GRANTS

The amended bill does not include a provision included in the House bill authorizing up to \$20,000,000 in revenue available to the Department under section 414 (c) of the American Competitiveness and Workforce Improvement Act to be used for “gap-filler” grants to trade-impacted workers awaiting certification for the Health Coverage Tax Credit. The Senate bill contained no similar provision. The Department of Labor should make grants available to States from the Dislocated Worker National Reserve for this purpose and to increase outreach to trade-impacted workers to inform them of their eligibility for the Health Coverage Tax Credit.

PERSONAL PROTECTIVE EQUIPMENT

The amended bill deletes a provision included in the House bill and previous conference report to require the Secretary of Labor to promulgate a final rule on employer payment for personal protective equipment no later than November 30, 2007. This provision is no longer needed because the final rule was adopted by the Department of Labor on November 15, 2007. The Appropriations Committees will continue to monitor the Department’s implementation of the final rule to ensure that it is fully implemented and enforced and that there are no attempts to weaken the level of protection afforded workers.

MINE SAFETY FUNDING

The amended bill does not include a general provision proposed by the Senate providing additional funding for necessary expenses for the Mine Safety and Health Administration (MSHA). Funding for MSHA is included under the heading for this agency. The House bill contained no similar provision.

NIOSH FIRE FIGHTER PROGRAM

The amended bill does not include a general provision proposed by the Senate providing that \$5,000,000 be available in Title I for the National Institute for Occupational Safety and Health (NIOSH) to carry out the Fire Fighter Fatality Investigation and Prevention Program. Funding for this activity is included within the funds made available to NIOSH in Title II. The House bill contained no similar provision.

TITLE II—DEPARTMENT OF HEALTH AND HUMAN
SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The amended bill includes \$7,003,099,000 for health resources and services, of which \$6,978,099,000 is provided as budget authority and \$25,000,000 is made available from the Public Health Service policy evaluation set-aside, instead of \$7,086,709,000 as proposed by the House and \$6,888,810,000 as proposed by the Senate.

The amended bill does not include bill language proposed by the Senate earmarking \$250,000 for the Center for Asbestos Related Disease (CARD) Clinic in Libby, Montana. The House bill did not contain similar language.

The amended bill includes language identifying \$40,000,000 for base grant adjustments for existing community health centers as proposed by the Senate instead of \$35,000,000 as proposed by the House.

The amended bill includes language contained in the Senate bill permitting funding appropriated for the free clinics program to be used for relevant evaluations as well as for administrative expenses. The House bill included no similar provision.

The amended bill includes language designating \$44,055,000 for expenses associated with extending Federal Tort Claims Act protection to practitioners in community health centers as proposed by the Senate instead of \$45,000,000 as proposed by the House.

The amended bill includes language providing \$1,854,800,000 for Parts A and B of the Ryan White HIV/AIDS Treatment Modernization Act, to be available through September 30, 2010, instead of \$1,865,800,000 as proposed by the House and \$1,829,511,000 as proposed by the Senate.

The amended bill modifies bill language proposed by the House limiting 2007 program year reductions in Ryan White Part A grants for metropolitan areas and transitional areas. The Senate bill did not have a similar provision.

The amended bill includes the following set-asides within the maternal and child health (MCH) block grant:

Within this amount, first-time motherhood funding shall be for grants to States to increase public awareness of resources available to women preparing for childbirth and new parents through advertising campaigns and toll-free hotlines. Doula grants shall be for organizations to support and expand community-based doula activities, including technical assistance.

In addition to the SPRANS funding above for oral health activities, an additional \$5,000,000 is provided for Dental Health Improvement Act State grants (authorized under section 340G of the Public Health Service Act) within allied health.

The amended bill includes language proposed by the Senate that identifies not less than \$5,000,000 for general dentistry programs, not less than \$5,000,000 for pediatric dentistry programs, and not less than \$24,614,000 for family medicine programs.

The amended bill does not include language proposed by the Senate that would modify the current rules for managing facility and equipment projects. The House bill did not include a similar provision.

The Appropriations Committees support continued efforts to expand the community health centers program into areas of the country without access to a health center, but urge HRSA not to allocate new funding according to certain geographic areas, such as counties.

The amended bill provides \$14,200,000 for Native Hawaiian health care activities within the consolidated health centers program as proposed by the Senate. The House did not identify specific funding for Native Hawaiian activities.

HRSA should use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments, as directed by the Senate.

Of the funds provided for allied health training programs, \$5,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care, \$1,980,000 is allocated to the chiropractic-medical school demonstration grants, and \$1,980,000 is designated for the psychology training program.

Within the funding provided for autism and other related developmental disorders, an increase of no less than \$6,000,000 is provided to continue and expand the Leadership Education in Neurodevelopmental and Related Disabilities program. In addition, an increase of no less than \$6,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

The amended bill provides \$3,000,000 within traumatic brain injury funding for protection and advocacy services, instead of \$3,400,000 as identified in the Senate report. The House report did not have similar language.

The Appropriations Committees are pleased that HRSA intends to allocate the maximum authorized level for the minority AIDS initiative within the Ryan White HIV programs.

At least fifty percent of the increase within the Ryan White children, youth, women, and families programs should be used to increase average grant award size.

The Appropriations Committees are aware that HRSA has issued proposed regulations revising the requirements for the 340B drug purchasing program. While there are important elements in the regulations that target abuses of the program, there are legitimate concerns regarding the implementation of the proposed rule's definition of patient eligibility. The questions of eligibility and the means by which eligibility is determined are important and should be carefully considered. Therefore, HRSA should move quickly to implement the portions of the regulation that enjoy wide support

and consider re-opening the patient eligibility question for an additional public comment period. The House and Senate included similar report language.

Within funding provided for rural flexibility grants, the amended bill provides \$15,000,000 for the small rural hospital improvement grant program as proposed by the Senate.

The Appropriations Committees concur with guidance in the Senate report regarding the 2006 Delta health initiative satisfying the requirements of the authorization provided in section 219. The House report did not contain similar language.

The amended bill does not include funding within the rural and community access to emergency devices program to establish an information clearinghouse that provides information to increase public access to defibrillation in schools, as proposed by the Senate. Funding for emergency devices should be divided equally between urban and rural communities, as proposed by the Senate. The House bill had no similar language.

Many rural hospitals are working to implement systems to transmit medical information electronically to help deliver efficient and effective health care services to their patients. HRSA is encouraged to continue to examine ways to help such hospitals implement digital technologies, such as picture archiving communications systems and other digital technologies.

HRSA should use no more than one percent of the funds allocated for projects for agency administrative expenses.

VACCINE INJURY COMPENSATION PROGRAM TRUST FUND

The conference agreement provides \$5,500,000 for administration for the Trust Fund instead of \$3,528,000 as proposed by both the House and the Senate. These funds are necessary to support the adjudication of an expected high volume of claims.

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The amended bill includes \$6,156,541,000 for disease control, research, and training at the Centers for Disease Control and Prevention (CDC), instead of \$6,138,253,000 as proposed by the House and \$6,165,338,000 as proposed by the Senate. In addition, \$325,673,000 is made available under section 241 of the Public Health Service (PHS) Act, instead of \$319,579,000 as proposed by the House and \$269,664,000 as proposed by the Senate.

The amended bill includes language directing CDC to enter into a single contract or related contracts for the full scope of development and construction of the next facility designated by the CDC Building and Facilities Master Plan and that the solicitation and contract shall contain the clause "availability of funds". The Appropriations Committees intend that the contract(s) for the development and construction of the new facility be awarded in fiscal year 2008. Similar language was proposed by the Senate. The House did not propose similar language.

The amended bill includes language designating \$109,000,000 to provide screening and treatment for first response emergency services personnel, residents, students, and others related to the Sep-

tember 11, 2001 terrorist attacks on the World Trade Center (WTC). Bill language is included designating \$56,500,000 as an emergency. The Appropriations Committees intend that this program be administered by the National Institute of Occupational Safety and Health (NIOSH). The House proposed \$50,000,000 in CDC for first response emergency personnel only and the Senate proposed \$55,000,000 in the Public Health and Social Services Emergency Fund (PHSSEF) to be transferred to CDC for responders, residents, students and others.

The amended bill includes language designating \$113,636,000 for the National Center for Health Statistics surveys to be available through the evaluation set-aside authorized by section 241 of the PHS Act, instead of \$120,000,000 as proposed by the House and \$108,585,000 as proposed by the Senate. Also within the set-aside, the amended bill includes \$48,523,000 for Health Marketing instead of \$39,173,000 as proposed by the House and \$463,000 for health marketing evaluations as proposed by the Senate.

The amended bill includes language that not to exceed \$18,929,000 may be available for making grants for the WISEWOMAN program to not less than 15 States, tribes, or tribal organizations. The Senate proposed \$19,035,000 in this same manner and the House proposed \$12,500,000 to not more than 15 States, tribes, or tribal organizations.

The amended bill includes language that out of the funds made available for domestic HIV/AIDS testing, up to \$30,000,000 shall be for States eligible for the Early Diagnosis Grant Program, authorized by section 2625 of the Public Health Service Act, as of December 31, 2007. Funding for these grants shall be distributed by May 31, 2008 based on standard criteria relating to a State's epidemiological profile and shall not exceed \$1,000,000 for any one State. Any amounts that have not been obligated by May 31, 2008 shall be used to make grants to States and local public health departments for other HIV prevention activities. The House proposed that no funds appropriated may be used to implement the Early Diagnosis Grant Program and the Senate proposed to allow up to \$30,000,000 for the program if States are eligible.

The amended bill includes language providing that employees of the CDC or the Public Health Service, detailed to States, municipalities, or other organizations under authority of section 214 of the PHS Act or in overseas assignments shall be treated as non-Federal employees for reporting purposes only and shall not be included within any personnel ceiling applicable to the Agency as proposed by the Senate. The House included similar language but did not include employees in overseas assignments.

The amended bill includes ongoing pandemic influenza and related activities in the CDC appropriation as proposed by the House. The Senate proposed to fund these activities in PHSSEF to be transferred to CDC. The total amount available in the amended bill for CDC's ongoing pandemic influenza activities totals \$157,737,000 and are detailed later in this explanatory statement.

The Appropriations Committees note that in September 2007, CDC realigned its budget through a reprogramming and transfer of funds at the program, project, and activity level. The Secretary communicated his intent that the realignment of funds be perma-

ment. Funding levels proposed in the House- and Senate-passed bills did not reflect these changes because the request for re-programming came after initial House and Senate Committee action on the fiscal year 2008 appropriations bills. Funding levels provided in the amended bill make the funding realignment permanent. CDC is expected to adhere to enacted funding levels in fiscal year 2008 and to not tap or assess program activities for unrelated purposes. For purposes of displaying accurate comparability, the following House and Senate funding levels identified in the CDC portion of the explanatory statement have been adjusted to account for this funding realignment.

INFECTIOUS DISEASES

Immunization and respiratory diseases

Within the total for Infectious Diseases, the amended bill includes a program level total of \$595,306,000 for immunization and respiratory diseases instead of \$628,585,000 as proposed by the House and \$520,076,000 as proposed by the Senate.

The additional funds for the heart disease and stroke Mississippi Delta program will enable an expansion of these activities throughout the Mississippi Delta region as proposed by the Senate. The House did not propose similar language.

Funding is available to continue and expand the National Lupus Patient Registry to operate seven sites, including a coordinating site. The Appropriations Committees are concerned by the lack of reliable epidemiological data on the incidence and prevalence of all forms of lupus among various ethnic and racial groups. These sites should have an expertise in lupus epidemiology and represent the geographic regions of the U.S. that have a sufficient number of individuals of racial and ethnic groups that are disproportionately affected by lupus, principally African Americans, Hispanics/Latinos, Asian Americans, and Native Americans.

The increase for the Office of Smoking and Health should be used to support a stepped up effort by the Environmental Health Laboratory to analyze tobacco products and cigarette smoke as proposed by the Senate. The House did not propose similar language.

Sufficient funds are included for CDC to conduct a study of the impact of school nutrition and physical activity programs on academic outcomes as proposed by the Senate. The House did not propose similar language.

Funding is for the National Academy of Sciences' Institute of Medicine to examine and make recommendations regarding various means that could be employed to reduce dietary sodium intake to levels recommended by the Dietary Guidelines for Americans as proposed by the Senate. The House did not propose similar language.

Funding is included within community health promotion for activities related to sleep disorders including CDC's participation in the national sleep awareness roundtable as proposed by the House. The Senate did not propose similar language.

Funding is included to develop a policy to manage the risk of food allergies and anaphylaxis in schools and to provide parents with enhanced information on these conditions via the Internet as proposed by the House. The Senate did not propose similar language.

Birth Defects, Developmental Disabilities, Disability and Health

Within the amount available for Health Promotion, the amended bill includes \$129,631,000 for birth defects, developmental disabilities, disability and health instead of \$130,311,000 as proposed by the House and \$126,274,000 as proposed by the Senate.

Within the total for birth defects, developmental disabilities, disability and health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Birth Defects and Developmental Disabilities	\$37,968,000	\$37,941,000	\$38,247,000

Budget Activity	House	Senate	Amended bill
Blood Disorders	20,649,000	19,833,000	19,783,000

Within the total for environmental health, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Environmental Health Laboratory	\$39,888,000	\$27,397,000	\$34,397,000
Newborn Screening Quality Assurance	7,000,000	0	7,000,000

Landmine Survivors	4,075,000	4,375,000	4,075,000

Within the funds provided for the Environmental Health Laboratory, CDC is encouraged to provide funding for States with existing biomonitoring programs to expand laboratory capacity; conduct subpopulation studies; conduct representative analyses of routinely collected blood, cord blood and other biospecimens; develop protocols for conducting biomonitoring of sensitive subpopulations such as children; and support biomonitoring field operations such as participant enrollment, sample collection, data analysis, report generation and results communications. CDC also is encouraged to begin developing new methods for identifying chemical sources and routes of exposure using model exposure questionnaires and collection of relevant household and other environmental samples.

Within the funds provided for the environmental and health outcome tracking network, CDC is encouraged to make funding available to State environmental health tracking programs to develop replicable models for disease, hazard and exposure data sharing at the local, State and national levels that incorporate data confidentiality protections. CDC is further encouraged to include non-governmental organizations representing health-affected constituencies, environmental health and environmental justice in their advisory groups.

The funds included for the amyotrophic lateral sclerosis registry are intended to expand the registry to include other neurodegenerative disorders.

Injury Prevention and Control

Hemophilia	\$17,899,000	\$17,033,000	\$17,033,000
Cooley's Anemia	1,893,000	1,943,000	1,893,000

Funds are included for the development and distribution of awareness materials on alveolar capillary dysplasia (ACD) to neonatologists and intensive care pediatricians to assist in the proper diagnosis of ACD. Neither the House nor the Senate proposed funding for these activities. The Appropriations Committees are aware of a congenital malformation of the lungs affecting infants, known as ACD, in which the normal diffusion process of oxy-

gen from the air sacs to the blood in the lungs fails to develop properly. Life expectancy for infants with ACD is extremely short, and anecdotal evidence indicates that ACD is often misdiagnosed. Proper recognition and diagnosis of the disease are essential first steps to obtaining accurate prevalence data for ACD.

HEALTH INFORMATION AND SERVICE

Within the program level total for health information and service, the amended bill includes the following amounts:

Budget Activity	House	Senate	Amended bill
Health Statistics	\$118,121,000	\$114,979,000	\$113,636,000
Public Health Informatics	95,815,000	73,764,000	95,720,000

Health Marketing	90,512,000	94,330,000	90,722,000

Included within the amount for health statistics is an additional \$200,000, as proposed by the House, to make necessary improvements to the National Survey of Family Growth. The Senate did not propose similar language.

Within the total for public health informatics is \$325,000, as proposed by the House, to continue to fund the establishment of a nationwide database of contact information for practicing physicians that can be used by Federal agencies and State and local health departments in the event of a public health emergency. The Senate did not propose similar language.

ENVIRONMENTAL HEALTH AND INJURY PREVENTION

Environmental Health

Within the total for Environmental Health and Injury Prevention, the amended bill includes \$157,233,000 for environmental health instead of \$162,152,000 as proposed by the House and \$149,951,000 as proposed by the Senate.

As proposed by the Senate, NIOSH is directed to expand the required progress reports on grant-making and research findings for research goals such as dust monitoring, roof control, and disaster prevention. The House did not propose such language.

The amended bill includes sufficient funds for NIOSH to conduct, in collaboration with the University of Utah and West Virginia University, a study of the recovery of coal pillars through retreat room and pillar mining practices in underground coal mines at depths greater than 1500 feet. The study should examine the safety implications of retreat room and pillar mining practices, with emphasis on the impact of full or partial pillar extraction mining. The study should include, but not be limited to, analyses of (1) the conditions under which retreat mining is used, including conditions relating to seam thickness; depth of cover; strength of the mine roof, pillars, and floor; and the susceptibility of the mine to seismic activity; and (2) the procedures used to ensure miner safety during retreat mining. NIOSH is directed to submit a report, not later than two years after beginning the study, containing the results of the study to the Committees on Appropriations of the House of Representatives and the Senate. The report shall include recommendations to enhance the safety of miners working in underground coal mines where retreat mining in room and pillar operations is utilized. Among other things, the recommendations should identify means of adapting any practical technology to the mining environment to improve miner protections during mining at depths greater than 1500 feet, and research needed to develop improved technology to improve miner protections during mining at such depths.

NATIONAL INSTITUTES OF HEALTH

The amended bill includes \$29,748,241,000 for the 26 accounts that comprise the National Institutes of Health total appropriation instead of \$29,669,712,000 as proposed by the House and \$29,899,887,000 as proposed by the Senate. Appropriation levels for individual institutes and centers are described in the table at the end of this explanatory statement. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The National Cancer Institute is urged to fund a study of the Trinity nuclear test that estimates the number of fatal and non-fatal radiogenic illnesses compared to a baseline of what would be expected to occur naturally in the surrounding community.

NATIONAL INSTITUTE OF DIABETES AND DIGESTIVE AND KIDNEY DISEASES

NIDDK is encouraged to conduct hemodialysis clinical trials on a regular basis that produce the optimum benefit for patients.

NATIONAL CENTER FOR RESEARCH RESOURCES

The amended bill does not include language proposed by the Senate regarding the prohibition of funds to pay indirect expenses for general research support grants. This provision is no longer necessary. The House bill did not contain a similar provision.

The amended bill provides funding for clinical and translational science awards divided between the Common Fund and NCRR in the same proportion as the Senate-passed bill. The Appropriations Committees remain supportive of this program as it matures, but are concerned about the abrupt changes in program funding policies implemented in 2007.

The amended bill provides \$220,500,000 for the Institutional Development Award (IDeA) program, rather than \$223,607,000 as proposed by the Senate. The House had not identified specific funding for this program.

OFFICE OF THE DIRECTOR

The amended bill provides \$25,000,000 in bill language for the flexible research authority authorized in section 215 of this Act as proposed by the Senate instead of \$14,000,000 as proposed by the House.

The amended bill provides \$112,872,000 for continuation of the National Children's Study instead of \$110,900,000 as proposed by both the House and the Senate.

The amended bill does not include language proposed by the House regarding the amount identified for the Common Fund being in addition to funds allocated by the institutes for activities that are related to Fund activities. The Senate bill did not have similar language.

The amended bill does not include language proposed by both the House and the Senate limiting the funding for the Foundation for the National Institutes of Health to \$500,000. The amended bill permits NIH the flexibility to determine the funding to be trans-

ferred to the Foundation within the limits set by the authorizing statute.

The amended bill provides funding for a low percent increase in the average cost of new as well as non-competing grants. The Senate report indicated that sufficient funds were included to pay full committed levels on existing grants and to provide a three percent increase in the average cost of new grants. The House report provided sufficient funding for a two percent increase in the average cost of new grants, but did not include an assumption about commitment levels for existing grants.

The amended bill provides the same funding as the fiscal year 2007 level for the Director's Pioneer awards, New Innovator awards, and Bridge awards. Funding for the Pathways to Independence program, which is funded through all institutes and centers, is funded at the President's fiscal year 2008 request level. The House provided similar amounts for these programs. The Senate provided similar amounts for all the programs except Pathways to Independence, for which the Senate did not identify a funding level. The amended bill includes \$96,030,000 for research on chemical, radiological and nuclear countermeasures instead of \$95,310,000 as proposed by the House and \$96,130,000 as proposed by the Senate.

The amended bill provides up to \$10,000,000 for the Director's Discretionary Fund as proposed by the House. The Senate did not specifically identify funding for the Discretionary Fund.

As required in the House report, NIH is required to notify the House and Senate Appropriations Committees each time the Director uses the one percent transfer authority provided in the NIH reauthorization.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The amended bill includes \$3,414,206,000 for substance abuse and mental health services, of which \$3,291,543,000 is provided through budget authority and \$122,663,000 is provided through the evaluation set-aside. The House proposed \$3,393,841,000 for the Substance Abuse and Mental Health Services Administration (SAMHSA), of which \$120,913,000 was from the evaluation set-aside and the Senate proposed \$3,404,798,000, of which \$126,663,000 was from the evaluation set-aside.

The amended bill includes language, as proposed by the Senate, that permits a State to receive more than one grant or cooperative agreement for youth suicide early intervention and prevention strategies. The House did not propose similar language.

Within the total provided, the amended bill includes \$114,880,000 for activities throughout SAMHSA that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders. The House proposed \$128,514,000 for these activities. The Senate did not include similar language.

Within the total provided, the amended bill includes \$56,916,000 for activities throughout SAMHSA to address the needs of the

homeless. The House proposed \$57,123,000 for these activities. The Senate did not include similar language.

Within the total provided, the amended bill includes \$3,520,000 for treatment programs for mental illness and substance abuse for tribes and tribal organizations instead of \$4,070,000 as proposed by the House. The Senate did not propose similar language.

Center for Mental Health Services

Within the total provided for mental health programs of regional and national significance, the amended bill includes \$94,656,000 to continue and expand violence prevention programs in schools, including the Safe Schools/Healthy Students interdepartmental program, instead of \$96,156,000 as proposed by the House and \$93,156,000 as proposed by the Senate. Included within this amount, the amended bill provides \$1,500,000 for a jointly funded initiative administered by the Department of Education and SAMHSA to support competitive grants to institutions of higher education to develop and implement emergency management plans for preventing campus violence. The House proposed \$3,000,000 for this initiative. The Senate did not propose similar language.

Within the total for mental health programs of regional and national significance, the amended bill includes \$33,680,000 for the National Child Traumatic Stress Initiative instead of \$32,360,000 as proposed by the House and \$35,000,000 as proposed by the Senate. In funding new grants, SAMHSA is directed to give high priority to centers providing services in areas impacted by Hurricanes Katrina and Rita and who have previous experience in providing such services.

Within the total for mental health programs of regional and national significance, the amended bill includes \$7,500,000 for a wellness initiative, instead of \$15,000,000 as proposed by the Senate, to assist local communities in the coordination and improvement of the integration of behavioral/mental and physical health services. In carrying out this wellness initiative, SAMHSA is expected to collaborate with HRSA and CDC. The Appropriations Committees intend that funding provided will allow local communities to undertake a range of prevention and health promotion activities and expect that grantees must be able to evaluate the success of the program based on their ability to provide evidence-based services. The House did not propose funding for this initiative.

For programs addressing youth suicide prevention and early intervention programs within the mental health programs of regional and national significance, the amended bill includes the following amounts as proposed by the Senate: \$30,000,000 for grants to States and tribes; \$5,000,000 for campus-based programs; and, \$5,000,000 for the Suicide Prevention Resource Center. The House did not include similar language.

The Center for Mental Health Services is expected to support multi-year grants to five consumer and consumer-supported national technical assistance centers as proposed by the Senate. The House did not propose similar language. The amended bill also provides funding at last year's level for the consumer-run statewide networking grants.

The amended bill includes funds within mental health programs of regional and national significance to support the following projects in the following amounts:

Other programs

The Appropriations Committees expect the increase over fiscal year 2007 for the Ready to Learn Program to be used for Ready to Learn outreach programs at the Corporation for Public Broadcasting.

The Appropriations Committees intend that funds provided for the Advanced Placement program be used first for the Advanced Placement Test Fee Program, estimated to require \$10,000,000 in fiscal year 2008. The remaining funds shall be used for continuing and new awards under the Advanced Placement Incentive Program Grants. The Department is encouraged to incorporate a priority for projects focused on the sciences, mathematics, and foreign languages in the fiscal year 2008 competition for new awards under the Advanced Placement Incentive Program.

SAFE SCHOOLS AND CITIZENSHIP EDUCATION

The amended bill includes \$705,733,000 for programs in the Safe Schools and Citizenship Education account instead of \$760,575,000 as proposed by the House and \$697,112,000 as proposed by the Senate.

The amended bill includes funding for the following national activities:

School Emergency Preparedness Initiative	\$32,374,000
Safe Schools/Healthy Students	79,200,000
Drug Testing Initiative	10,828,000
Postsecondary Ed Drug and Violence Prevention (including \$850,000 for the recognition program)	6,083,000

National Institute of Building Sciences for the National Clearing- house for Educational Facilities	300,000
Project SERV	1,500,000
Other activities	8,681,000

The Appropriations Committees continue to be concerned about the increasing problems of alcohol and drug abuse on college campuses. The Department is directed to use \$850,000 within the amount provided for Safe and Drug-Free Schools and Communities National Programs to identify, and provide recognition of, promising and model alcohol and drug abuse education programs in higher education.

The Appropriations Committees intend that funding recommended for school emergency preparedness activities be used for new grant awards to higher education institutions, in addition to school districts currently eligible, to develop and implement emergency management plans for preventing campus violence (including assessing and addressing the mental health needs of students) and for responding to threats and incidents of violence or natural disaster in a manner that ensures the safety of the campus community. The Appropriations Committees intend that these funds be used to help institutions of higher education plan and prepare for the entire constellation of threats (terrorist attacks, natural disasters, shootings, and gang-related activity).

The amended bill also modifies language proposed by the House to permit Project SERV funds appropriated in fiscal year 2008 and in previous fiscal years to be used to provide services to school districts and institutions of higher education in which the learning en-

vironment has been disrupted due to a violent or traumatic crisis. The Senate bill did not include bill language allowing Project SERV funds to be awarded to institutions of higher education.

In addition, the recommended funding for the Office of Safe and Drug Free Schools will permit the Department to expand its examination of a variety of other school safety initiatives. The Appropriations Committees request that the Department update the 2002 Department of Education and U.S. Secret Service guidance titled "Threat Assessment in Schools: A Guide to Managing Threatening Situations and to Creating Safe School Climates" to reflect the recommendations contained in the report titled "Report to the President on Issues Raised by the Virginia Tech Tragedy." Within a year of the enactment of this Act, the Department shall disseminate the updated guidance to institutions of higher education and to State departments of education for distribution to all local education agencies.

For the Carol M. White Physical Education program, the Appropriations Committees affirm the original intent of the Physical Education program with respect to the use of funds for the purchase of equipment.

Within the funds provided for the Civic Education program, the amended bill includes \$20,413,000 for the We the People programs, including \$2,950,000 to continue the comprehensive program to improve public knowledge, understanding, and support of American democratic institutions, which is a cooperative project among the Center for Civic Education, the Center on Congress at Indiana University, and the Trust for Representative Democracy at the National Conference of State Legislatures. The amended bill also includes \$12,072,000 for the Cooperative Education Exchange program.

The agreement provides \$5,325,029,000 in fiscal year 2008 and \$6,856,444,000 in fiscal year 2009 funding for this account.

The bill includes \$40,000,000 for technology and media services as proposed by the Senate instead of \$36,928,000 as proposed by the House. Within this amount, \$1,500,000 is available for Public Telecommunications Information and Training Dissemination as proposed by the Senate. The House did not include funding for this activity. The House provided \$11,880,000 for activities authorized by section 674(c)(1)(D) of the Individuals with Disabilities Education Act.

The amended bill includes language proposed by the Senate intended to improve the operation and performance of the National Instructional Materials Access Center. The House bill did not contain similar language.

Of the funding provided for the Special Olympics program, \$4,500,000 is for education activities authorized by the Special Olympics Sport and Empowerment Act and \$7,500,000 is designated for the 2009 Special Olympics World Winter Games.

REHABILITATION SERVICES AND DISABILITY RESEARCH

The amended bill includes \$3,283,929,000 for Rehabilitation Services and Disability Research instead of \$3,279,743,000 as proposed by the House and \$3,286,942,000 as proposed by the Senate.

The amended bill specifies \$8,300,000 within the National Institute on Disability and Rehabilitation Research to carry out the traumatic brain injury model systems of care program and to fund two additional centers that submitted applications for the last grant competition.

The amended bill provides \$1,000,000 to improve the quality of applied orthotic and prosthetic research and to help meet the demand for provider services as proposed by the Senate. The House bill did not include a similar provision.

CAREER, TECHNICAL, AND ADULT EDUCATION

The amended bill includes \$1,976,166,000 for Career, Technical, and Adult Education instead of \$2,046,220,000 as proposed by the House and \$1,894,788,000 as proposed by the Senate. The amended bill provides \$1,185,166,000 in fiscal year 2008 funding, of which \$1,181,089,000 is available on July 1, 2008 and \$4,077,000 is available on October 1, 2007, and \$791,000,000 in fiscal year 2009 funding.

The amended bill specifies that \$67,896,000 is provided for integrated English literacy and civics education services to immigrants as specified by the Senate rather than \$71,622,000 as specified by the House.

The amended bill requires the Department to use Smaller Learning Communities program funds only for activities related to establishing smaller learning communities within large high schools or small high schools that provide alternatives for students enrolled in large high schools as proposed by the House. The Department should follow the requirements contained in House Report 110-424 regarding consultation on the fiscal year 2008 Smaller Learning Communities grant competition and the submission of an operating plan.

The Department is encouraged to support initiatives that foster applied research, program improvement and evaluation, technology transfer and research-based institutional practices to improve adult and adolescent basic education and literacy instruction.

STUDENT FINANCIAL ASSISTANCE
(INCLUDING RESCISSION)

The amended bill includes \$16,114,317,000 for the Student Financial Assistance account instead of \$17,464,883,000 as proposed by the House and \$16,368,883,000 as proposed by the Senate.

The amended bill includes \$14,215,000,000 for Pell Grants to support a \$4,241 maximum award for the 2008–2009 award year. Under the College Cost Reduction Act, Public Law 110–84, an additional \$2,000,000,000 in mandatory funds is available for the Pell Grant program in fiscal year 2008. These mandatory funds, together with the discretionary funds provided in this amended bill, will support a total maximum Pell Grant of \$4,731 in the 2008–2009 award year, a \$421 increase over the 2007–2008 award year.

The amended bill also rescinds \$525,000,000 from unobligated balances under the mandatory Academic Competitiveness and SMART grants program. These balances are not needed to pay Academic Competitiveness and SMART grant awards in the 2008–2009 award year and will offset additional costs in the Pell Grant program.

The Appropriations Committees direct the Department to provide the same funding as in fiscal year 2007 for the Work Colleges program authorized under section 448 of the Higher Education Act from the Federal Work-Study Programs appropriation.

HIGHER EDUCATION

The amended bill includes \$2,057,801,000 for the Higher Education account instead of \$2,176,533,000 as proposed by the House and \$2,040,302,000 as proposed by the Senate.

For Title VI International Education and Foreign Languages Studies programs, the Appropriations Committees concur in the direction in House Report 110–231 with regard to actions to respond to the National Research Council study on Title VI and Fulbright-Hays. The Department shall use one-third of the funding increase over fiscal year 2007 for Title VI domestic programs to expand the number of academic year and summer foreign language and area studies fellowships. A portion of the increase shall also be used to assist Title VI grantees to enhance databases and develop web portals to improve the dissemination of information produced under these programs to the public. Further, the Appropriations Committees direct that no funds shall be available for an e-learning clearinghouse and any funds diverted from Title VI programs for this purpose shall be restored.

The bill language also allows for the Secretary to make an award or awards to improve data collection and coordination through a state education data center.

The Appropriations Committees request a report from the Department before any funds are obligated for these newly-authorized purposes that includes an assessment of the impact on funding available to States for the original purpose of the program's authorization; how the state education data center will ensure state and local reporting burden will be reduced; how the Department will maintain accountability provisions of the federal statutes under a third-party data collection regime; and the policies established or proposed to ensure that non-governmental organizations continue to have appropriate access to data collections.

The amended bill does not include funding requested by the Administration for a pilot study to develop a student unit record data system as proposed by the House. The Senate did not include similar language.

NATIONAL COMMISSION ON LIBRARIES AND INFORMATION SCIENCE

SALARIES AND EXPENSES

The amended bill includes \$400,000 for the National Commission on Libraries and Information Science as proposed by the Senate. The House did not include funds for this activity. The Appropriations Committees instruct that these funds be used for the close out activities of the Commission.

NATIONAL LABOR RELATIONS BOARD

SALARIES AND EXPENSES

The amended bill includes \$256,238,000 for the National Labor Relations Board instead of \$256,988,000 as proposed by the Senate and \$257,488,000 as proposed by the House.

NATIONAL MEDIATION BOARD

SALARIES AND EXPENSES

The amended bill includes \$12,911,000 for the National Mediation Board instead of \$12,992,000 as proposed by both the House and Senate. Within the total for the National Mediation Board, \$669,000 is included to supplement the budget request for arbitration. These funds are provided for arbitrator salaries and should be used to address the backlog of section 3 arbitration cases. The House and Senate reports included similar language.

RAILROAD RETIREMENT BOARD

DUAL BENEFITS PAYMENT ACCOUNT

The amended bill includes language in the House bill providing that 2 percent of the amount available for payment of vested dual benefits will be available for the dual benefits contingency reserve. The Senate bill contained a similar provision that specifically designated the amount available.

LIMITATION ON THE OFFICE OF INSPECTOR GENERAL

The amended bill includes \$7,173,000 for the Office of Inspector General instead of \$7,606,000 included in the House bill and \$8,000,000 included in the Senate bill. The amended bill includes language proposed by the Senate bill that prohibits the transfer of funds to the Office of the Inspector General. The House bill did not include similar language. The bill also includes a provision that allows the Office of Inspector General to conduct audits, investigations, and reviews of the Medicare programs. The House bill did not include similar language.

SOCIAL SECURITY ADMINISTRATION

SUPPLEMENTAL SECURITY INCOME PROGRAM

The amended bill includes \$27,000,191 for the Supplemental Security Income Program instead of \$26,948,525,000 as proposed by the House and \$27,005,500,000 as proposed by the Senate.

The amended bill provides funds to support the National Center on Senior Benefits Outreach and Enrollment within the Administration on Aging rather than in the Social Security Administration (SSA) as proposed by the Senate. The House did not provide funding for this activity within SSA.

LIMITATION ON ADMINISTRATIVE EXPENSES

The amended bill includes \$9,917,842,000 for the limitation on administrative expenses, instead of \$9,696,953,000 as proposed by the House and \$9,871,953,000 as proposed by the Senate. SSA is expected to utilize these funds to ensure that the backlog of initial disability claims grows no larger and to pursue actions that will begin the reduction in the current appeals hearings backlog and processing times. The Appropriations Committees note that funding above the President's request is required in order to prevent such negative outcomes.

While the President's request did include resources above the fiscal year 2007 level for additional program integrity work, such as continuing disability reviews and redeterminations of eligibility, the amended bill does not include language requiring that funds be used for this purpose. Instead, the Appropriations Committees intend for SSA to allocate any funds not needed for timely processing of new disability claims and the hearings backlog reduction plan to such program integrity work.

The Appropriations Committees request that the Government Accountability Office (GAO) evaluate the Social Security Administration's plan to reduce the hearing backlog for disability claims at the Social Security Administration, as described in the report submitted by the Commissioner on September 13, 2007, pursuant to Senate Report 110–107. The Appropriations Committees further request that GAO also recommend any legislative changes based on its evaluation of the plan. The House did not propose similar language.

The Appropriations Committees also request that GAO assess existing authorities to hire, manage, and ensure accountability of administrative law judges in the proper administration of their duties and make recommendations for legislative changes that will support those findings. The Senate bill proposed similar language. The House did not propose similar language in either the bill or report.

OFFICE OF INSPECTOR GENERAL
