[CLERK'S NOTE: Reproduced below is the material relating to division F contained in the "Explanatory Statement Submitted by Mr. Obey, Chairman of the House Committee on Appropriations, Regarding H.R. 1105, Omnibus Appropriations Act, 2009"²]

DIVISION F—LABOR, HEALTH AND HUMAN SERVICES, AND
EDUCATION, AND RELATED AGENCIES APPROPRIATIONS,
2009

Following is an explanation of the effects of this division (hereafter referred to as the "bill"). Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Committees on Appropriations of the House of Representatives and the Senate 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or \$500,000, whichever is less, between programs, projects and activities.

Departments and agencies funded in this bill shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section 518. The Committees on Appropriations of the House of Representatives and the Senate expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements shall also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2009 budget.

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

The bill includes \$3,626,448,000 for Training and Employment Services, which is \$50,180,000 above the fiscal year 2008 funding level and \$565,525,000 above the budget request.

The bill continues the funding for Community-Based Job Training grants within the Dislocated Worker Assistance National Re-

²This Explanatory Statement was submitted for printing in the *Congressional Record* on February 23, 2009, prior to House consideration of the bill and as directed by the House of Representatives in section 2 of H. Res. 92 (as amended by section 2 of H. Res. 108). The Statement appears in the February 23 *Congressional Record*, beginning on page H1653.

serve. Within the funds provided for the Community-Based Job Training Initiative (CBJTI), the Department of Labor (DOL) should provide priority consideration to worker training programs for the energy efficiency and renewable energy industries specified in the Green Jobs Act of 2007. A similar priority should be established in awarding competitive grants for high growth industries. Consultation with the Committees on Appropriations of the House of Representatives and the Senate prior to the issuance of CBJTI and high growth industry solicitations of grant applications is requested.

The amount provided for YouthBuild will allow for the selection of additional YouthBuild grantees. The Department is encouraged to incorporate a priority for use of green building techniques in its competitive selection of additional YouthBuild programs. The Department also should explore ways to expand assistance to YouthBuild programs to enhance their ability to teach green building techniques, to prepare youth for employment in green construction while increasing the energy efficiency of local housing. The Department should provide recommendations to the Committees on Appropriations of the House of Representatives and the Senate on how this type of assistance could be expanded beyond the current DOL grantees.

The bill includes new language that will allow YouthBuild grantees to use grant awards for program year 2009, as well as remaining funds available in program year 2008, to serve individuals who have dropped out of high school and reenrolled in an alternative school, if that reenrollment is part of a sequential service strategy. This is the same integrated approach used when the program was administered by the Department of Housing and Urban Development.

Within the amount provided for Pilots, Demonstrations and Research, the bill designates \$5,000,000 for the continuation of the program of competitive grants to address the employment and training needs of young parents.

Within the amount provided for Pilots, Demonstrations and Research, the bill includes \$41,324,000 for the following projects in the following amounts:

Within the funds provided for Re-integration of Ex-Offenders, the bill designates \$88,500,000 for youthful offender activities. Within the amount provided for youthful offender activities, \$42,900,000 is available to continue a school mentoring initiative that began in program year 2006. These funds are intended to be used to implement mentoring strategies that integrate educational and employment interventions and prevent youth violence. Within this amount, \$7,900,000 shall be used to continue those mentoring grants made with program year 2008 funds, along with the technical assistance that supports these grantees. This amount represents a down payment for continuation costs of those grants made with 2008 funds. The balance of continuation costs associated with those 2008 grants will be provided in fiscal year 2010. Bill language requires \$35,000,000 under the school mentoring initiative to be used for additional grants, and associated technical assistance, to implement mentoring strategies in schools identified as persistently dangerous.

Also within the amount provided for youthful offender activities, \$45,600,000 is available for other activities to support the employment needs of youthful offenders so as to prevent them from re-entering the criminal justice system. Of this amount, \$20,000,000 is included for a program of new competitive awards for activities that prepare young ex-offenders and school dropouts for employment. This competition should address the needs of minority communities, and shall include opportunities for national and regional intermediaries with demonstrated capacity to serve young offenders to apply. Funds not used for this new competition are available for continuation funding for existing grantees.

New bill language will allow for these funds to be recaptured and reobligated in accordance with section 517(c) of the Older Americans Act.

FEDERAL UNEMPLOYMENT BENEFITS AND ALLOWANCES

The bill includes \$958,800,000 for Federal Unemployment Benefits and Allowances, which is \$70,100,000 above the fiscal year 2008 funding level and the same as the budget request.

An

additional \$40,000,000 is provided for this purpose. It is expected that a portion of the funds provided will be used for technology-based overpayment prevention, detection, and collection infrastructure investments in support of these activities. The bill also contains new language allowing the Secretary of Labor, at the request of a State participating in a consortium, to reallocate funds under Title III of the Social Security Act to other consortium members to carry out activities that benefit the unemployment compensation law of the requesting State.

Within the total for Employment Service National Activities, \$18,520,000 is provided for the administration of the Work Opportunity Tax Credit. Funds for Foreign Labor Certification activities are now consolidated and separately identified in this account. Previously, funds were provided in this account and in the Employment and Training Administration Program Administration account. Due to concern about the Department's new requirement for State Workforce Agencies to assume the responsibility for employment verification in the H-2A agricultural workers program, the Secretary is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 90 days of the enactment of this Act on the costs to States and legal basis for imposing this responsibility on a mandatory basis.

Within the amount provided for One-Stop Career Center and Labor Market Information, the Department is directed to fund workforce information grants to States at not less than \$32,000,000. Also within the total, not less than \$2,500,000 is provided for competitive grants to State agencies to identify job openings and skill requirements for the energy efficiency and renewable energy industries and to refer workers to job openings and training programs as outlined in 171(e)(2)(C) of the Workforce Investment Act.

Activities to shorten the lead-time for implementation may include planning for the promulgation of regulations and establishing procedures for the processing of claims, including the expediting of exigent health claims. The Wage and Hour Division may use contracts with individuals or entities with the relevant experience to jump start the process. Funds not needed for this purpose, if authorizing legislation is not enacted, should be used for additional investigations as outlined in the budget request.

The bill includes a rescission of \$97,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. Sufficient funds will remain to ensure that the Department of Labor will be able to continue its enforcement activities under the current legislative authority.

The Department should use the increase above the fiscal year 2008 funding level to begin rebuilding OSHA's enforcement capacity and to increase the pace of standard setting. An important component of this mission is to enhance enforcement and oversight of injury and illness recordkeeping to ensure complete and accurate recording and reporting by employers. OSHA should use \$1,000,000 of the funds provided above the request for a recordkeeping enforcement initiative on injury and illness reporting, addressing the apparent lack of completeness of the OSHA Log of Work-related Injuries and Illnesses. The Department shall provide a letter report on OSHA's current and planned activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

The increase above the request for State Programs is intended to support the efforts of the Illinois Department of Labor to become a State-plan State for public worksites.

In each of these areas and others specifically required by the MINER Act, the Department shall submit an overall operating plan within 60 days of enactment of this Act, and quarterly progress reports thereafter, to the Committees on Appropriations of the House of Representatives and the Senate.

Within the amount provided for Coal Enforcement, \$2,000,000 shall be used to increase spot inspections of respirable dust levels in the active workings of coal mines. MSHA shall report to the Committees on Appropriations of the House of Representatives and the Senate not later than March 31, 2009 on the feasibility and efficacy of MSHA assuming responsibility for collecting dust samples, and using single, full-shift measurements instead of averages to ensure compliance with current law regarding the exposure limit for respirable dust.

The MSHA Office of Accountability was established to provide focus and oversight to ensure that MSHA policies, enforcement procedures, and guidance are being complied with consistently and that the agency is accomplishing its mission-critical activities.

MSHA is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate, no later than May 1, 2009, on staffing and budget resources expended or planned for fiscal years 2008 and 2009; findings and recommendations of audits conducted to date; and the status of all corrective actions recommended.

BLS shall provide a letter report on its current and planned activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

No less than 80 percent of these funds shall be used to design and implement research and technical assistance grants and contracts to develop policies that reduce barriers to employment for youth and adults with disabilities. Within the funds provided, \$500,000 shall be used to expand a structured internship program for undergraduate college students with disabilities.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The bill includes \$314,198,000 for Departmental Management, which is \$20,246,000 above the fiscal year 2008 funding level and \$50,715,000 above the budget request.

International Labor Affairs Bureau

The bill includes \$86,074,000 for the International Labor Affairs Bureau (ILAB). The detailed table below and accompanying statement language establish the allocation of these funds. The Depart-

ment may propose adjustments to this allocation through the transfer and reprogramming guidance provided by this Act, which include requirements for advance notification of the Committees on Appropriations of the House of Representatives and the Senate.

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
ILO–IPEC contribution	\$39,260,000	+\$3,000,000	+\$39,260,000
Basic Grants	20,000,000	– 1,750,000	+20,000,000
Promotion of worker rights in countries with trade preference programs	6,500,000	+1,777,000	+6,500,000
Research, policy, reporting and administration	20,314,000	+1,972,000	+5,492,000

ILAB shall use \$39,260,000 for the United States' contribution to expand on the successful efforts of the International Labor Organization's (ILO) International Program for the Elimination of Child Labor (IPEC). ILAB shall ensure that these funds are spent effectively in the effort to reduce the worst forms of child labor.

The bill also provides \$20,000,000 to continue the program of basic education grants in countries where the growing number of children removed from abusive and exploitative child labor need access to basic education. The Department shall continue to work with the governments of host countries to eliminate school fees that create a barrier to education.

The bill also provides \$6,500,000 to continue support for the implementation of model programs designed to address worker rights in countries with which the United States has trade preference programs. Within this amount, \$2,500,000 is included to expand the existing cooperative agreement for the development of an effective system of monitoring and transparent public reporting on the adherence to, and enforcement of, worker rights in the Republic of Haiti. These additional funds will allow the implementation of an effective monitoring program in factories, including the training of labor inspectors, and reflect the support for a multi-year funding commitment to improve the working conditions in Haiti's garment industry and increase compliance with core international labor standards. Cost sharing from Haiti shall continue to support this effort.

Within the funds provided for research, policy, reporting and administration, sufficient funds are included to expand the competitively awarded contract for oversight of public and private initiatives to eliminate the worst forms of child labor in the cocoa sector in Cote d'Ivoire and Ghana. These funds are intended to support the assessment of the implementation of the child labor monitoring system by industry covering 100 percent of the cocoa growing areas in Cote d'Ivoire and Ghana and other objectives of the current contract where full assessment has not been possible due to the delay in the implementation of a transparent certification system. These funds will support continued annual reporting through 2010, which should include a programmatic review of industry and national government efforts to remediate the worst forms of child labor and adult forced labor in the cocoa supply chain. The review should also include recommendations for the frequency of data collection needed in the field to accurately report on the incidence of the worst

forms of child labor and adult forced labor in order to measure the decline over time of these abusive labor practices.

Also within research, policy, reporting and administration, not more than \$1,500,000 shall be available for research activities authorized by the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, as proposed in the budget request.

Sufficient funding within research, policy, reporting and administration also is included for the effective oversight, monitoring, audit and evaluation of ILAB's project portfolio to ensure that taxpayer dollars are well spent in the effort to eliminate exploitive child labor, increase respect for and compliance with the fundamental rights of workers, and meet ILAB's other mandates and responsibilities. ILAB shall ensure that funding in this bill is spent effectively in carrying out its mission and achieving its performance goals and objectives.

Legal Services

The Office of the Solicitor shall support no less than an increase of five full-time equivalents for enforcement support for the Mine Safety and Health Administration.

Women's Bureau

Within the funds provided for the Women's Bureau are sufficient resources for the expansion of a competitive award designed to support local women's employment and training programs throughout the United States. These funds shall be used to continue to support technical assistance, online and toll-free referral services, and other activities that advance unemployed and underemployed women in the workforce.

Minority unemployment

The Secretary of Labor shall provide a report to the Committees on Appropriations of the House of Representatives and the Senate by July 1, 2009 detailing the actions that the Department will take under existing authorities to ensure that its programs and policies are oriented to reduce the disparities in unemployment rates across racial and ethnic groups.

Greenhouse gas emissions

The Secretary of Labor is directed to provide the Committees on Appropriations of the House of Representatives and the Senate a detailed inventory of the Department's greenhouse gas emissions, and a plan to reduce these emissions, by December 31, 2009.

The bill provides \$1,683,938,000 for the Office of Job Corps, which is \$73,432,000 above the fiscal year 2008 funding level and \$119,239,000 above the budget request.

The funds provided for Job Corps Operations are intended to support the operations of the 122 current Job Corps centers, as well as allow two new centers, in Florida and Wisconsin, to begin operations, as scheduled, in program year 2009. The Department also should work to reverse the erosion in training offerings that has occurred over the past two years. In restoring career training

slots, priority should be given to matching training to labor market needs, including growth sectors, such as health care, and to prepare students for careers that respond to the growing demand for energy-efficient building techniques and other “green” jobs. Within the funds provided for Job Corps renovation and construction are sufficient funds to continue the development of three new Job Corps centers, with the intention that the timelines for accepting students at these new centers—New Hampshire in September 2010, Iowa in November 2010 and Wyoming in February 2011 will be met.

The Department shall conduct a capital assessment of the Harpers Ferry Job Corps Civilian Conservation Center in Harpers Ferry, West Virginia, and report the results of this assessment to the Committees on Appropriations of the House of Representatives and the Senate not later than March 31, 2009.

VETERANS EMPLOYMENT AND TRAINING

The bill includes \$239,439,000 for Veterans Employment and Training, which is \$11,343,000 above the fiscal year 2008 funding level and \$1,000,000 above the request.

Sec. 110. The bill continues a provision that prohibits the use of funds to finalize or implement regulations under the Workforce Investment Act of 1998 (WIA), the Wagner-Peyser Act of 1933, or the Trade Adjustment Assistance Reform Act of 2002 (TAA), until such time as the WIA or TAA legislation is reauthorized.

The bill includes \$7,259,436,000 for health resources and services, of which \$7,234,436,000 is provided as budget authority and \$25,000,000 is made available from the Public Health Service policy evaluation set-aside, which is \$378,245,000 above the fiscal year 2008 level and \$1,369,925,000 above the budget request.

The bill includes language identifying \$56,000,000 for base grant adjustments for existing community health centers.

The bill includes language designating \$44,055,000 for expenses associated with extending Federal Tort Claims Act protection to practitioners in community health centers.

The bill includes language providing \$1,886,873,000 for Parts A and B of the Ryan White HIV/AIDS Treatment Modernization Act, to be available through September 30, 2011.

The bill includes language similar to that contained in the fiscal year 2008 bill that limits 2008 program year reductions in Ryan White Part A grants for metropolitan areas to 6.3 percent and for transitional areas to 11.3 percent by providing \$10,853,000 for supplemental grants for fiscal year 2009.

The bill includes language setting aside \$92,551,000 for Special Projects of Regional and National Significance (SPRANS) and \$10,400,000 for Community Integrated Service Systems (CISS) within the Maternal and Child Health Block Grant. Allocations to State grants are increased by \$2,590,000 compared to fiscal year 2008. The bill assumes the following set-asides within SPRANS:

SPRANS Set-asides budget activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget request
Oral health	\$4,859,000	+\$141,000	+\$4,859,000
Epilepsy	3,416,000	+585,000	+3,416,000
Sickle cell	3,774,000	0	+3,774,000
First-time motherhood	4,956,000	+43,000	+4,956,000
Doulas	1,504,000	— 5,000	+1,504,000
Fetal alcohol syndrome	486,000	— 487,000	+486,000
Subtotal	18,995,000	— 1,610,000	+18,995,000

Within this amount, Doula Grants shall be allocated evenly among urban and rural settings. Urban settings should be focused on supporting and expanding community-based activities. Rural settings should emphasize breastfeeding initiation and retention.

In addition to the SPRANS funding above for oral health activities, an additional \$10,000,000 is provided for Dental Health Improvement Act State Grants (authorized under section 340G of the Public Health Service Act) within Allied Health.

Funding for the Heritable Disorders Newborn Screening Program is provided under the authority of the Newborn Screening Saves Lives Act of 2008 rather than as a SPRANS set-aside, as in prior years. The funding total also includes \$5,031,000 for primary genetics and newborn screening activities that were previously supported in SPRANS base activities.

The bill includes language that identifies not less than \$5,000,000 for General Dentistry Programs, not less than \$5,000,000 for Pediatric Dentistry Programs, including loan repayment, and not less than \$29,025,000 for Family Medicine Programs.

The bill includes language permitting funds provided for National Health Service Corps recruitment activities and the Nurse Loan Repayment and Scholarship Program to be used to make prior year adjustments to awards in these programs.

The bill includes \$310,470,000 within health care-related facilities and activities to support the following projects in the following amounts:

The bill includes language permitting up to one percent of the amount for each project to be used for related agency administrative expenses.

The bill includes language providing \$19,642,000 as a direct lump sum payment to the Denali Commission.

The bill includes \$26,000,000 for the Delta Health Initiative and associated administrative expenses.

The bill includes language identifying \$9,201,000 for State Offices of Rural Health. The bill includes language specifying that, within the funding provided for Rural Hospital Flexibility Grants, \$15,000,000 is available for the Small Rural Hospital Improvement Grant Program for quality improvement and adoption of health information technology.

The Health Resources and Services Administration (HRSA) is encouraged to begin an initiative to expand community health center primary care services to low-income persons with serious mental illnesses.

HRSA is expected to continue to approve community health centers' proposed scope of project changes when necessary to ensure access to needed specialty services or to meet the comprehensive needs of special populations who may require care in other types of health care settings.

The bill provides \$14,200,000 for Native Hawaiian Health Care Activities within the Community Health Centers Program. Sufficient funding has been provided to permit the continuation of master's degree and certificate programs for Native Hawaiian health care administrators.

HRSA is directed to implement any new expansion initiative using the existing, and statutorily-required, proportionality for urban and rural communities, as well as migrant, homeless and public housing health centers.

HRSA is urged to confirm that the Federal Torts Claims Act covers clinicians employed or individually contracted by community health centers. HRSA is encouraged to work with the U.S. Department of Agriculture Rural Development Office to assist more community health centers in accessing these resources.

The bill includes \$75,000,000 for State Health Access Grants. Grants will be awarded competitively to States that demonstrate they have a program which will expand access to affordable health care coverage for the uninsured populations in that State. States will also be required to demonstrate that they have achieved the key State and local statutory or regulatory changes required to implement the new program within twelve months from the grant start date. States that have already developed a comprehensive health insurance access program would not be eligible to apply.

The types of activities that can be supported through this grant include: "three share" community coverage (employer, State or local government, and the individual); reinsurance plans that subsidize a certain share of carrier losses within a certain risk corridor; subsidized high risk insurance pools; health insurance premium assistance; creation of a state insurance "connector" authority to develop new, less expensive, portable benefit packages for small employers and part-time and seasonal workers; development of statewide or

automated enrollment systems for public assistance programs; and innovative strategies to insure low-income childless adults.

Two types of State grants will be available: target grants (\$2,000,000–\$4,000,000 annually per State) for States that choose to target particular populations such as uninsured children, small business employees, or uninsured seniors; or comprehensive grants (\$7,000,000–\$10,000,000 annually per State) for States that are planning extensive coverage initiatives. Each grant will be awarded based on a five-year grant period, subject to the availability of funds, with funding distributed each year based on attaining benchmarks that would be designated in the grant award. States shall be required to demonstrate their seriousness of intent by matching twenty percent of the Federal grant through non-Federal resources, which could be a combination of State, local, and private dollars from insurers, providers, and other private organizations. Waiver of the matching requirement shall be possible if financial hardship is demonstrated. States shall also be required to demonstrate their ability to sustain the program without Federal funding after the end of the five-year grant period. HRSA should consider geographic diversity in the allocation of these awards. HRSA shall brief the Committees on Appropriations of the House of Representatives and the Senate on the terms and conditions of its proposed request for application prior to its public release.

States shall be required to report to HRSA the impact and results of their demonstration project at the conclusion of the five-year grant period. HRSA is encouraged to convene grantees periodically throughout the period of their award to share information with each other about their program experiences and gain ideas for refinement of their programs. HRSA is directed to submit a comprehensive report to the Committees on Appropriations of the House of Representatives and Senate about the outcomes and lessons learned from each of the State demonstrations eighteen months after the five-year grant period ends.

HRSA should use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments.

Of the funds provided for Allied Health Training Programs, \$10,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care; \$1,945,000 is allocated to the Chiropractic-Medical School Demonstration Grants; and \$1,945,000 is designated for the Psychology Training Program.

Within the funding provided for the Autism and Other Related Developmental Disorders, an increase of not less than \$2,000,000 is provided to expand the Leadership Education in Neurodevelopmental and Related Disabilities Program. In addition, an increase of not less than \$2,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

HRSA should support Traumatic Brain Injury Protection and Advocacy Services at no less than the fiscal year 2008 level.

The bill includes \$1,000,000 to establish the Congenital Disabilities Program, which will provide information and support services to families receiving a diagnosis for Down syndrome, spina bifida, dwarfism, or other pre-natally or post-natally diagnosed conditions. Competitive grants may be made to States and territories, localities, and non-governmental organizations with expertise in these conditions.

HRSA should allocate funds for the Minority AIDS Initiative within the Ryan White HIV Programs at least at the fiscal year 2008 level.

With the \$7,550,000 provided in the bill for the Telehealth Program, the Office of the Advancement of Telehealth is directed to facilitate cooperation among health licensing boards or various States to develop and implement policies that will reduce statutory and regulatory barriers to telehealth and telehomecare. Funding supports grants for resource centers, networks, pilots, and demonstrations.

HRSA's decision to shift resources from rural health grants that specialize in rapid response policy analysis to grants that sponsor more general research is concerning. As Congress discusses healthcare reform, it will be crucial to have an accurate analysis of how specific policy proposals impact the rural population. HRSA is urged to reconsider this decision.

Rural and Community Access to Emergency Devices funding should be divided equally between urban and rural communities.

The Department of Health and Human Services is instructed to distribute to the regional offices all of the funds available for Family Planning services no later than 60 days following enactment of this Act. Regional offices should retain the authority for the review, award and administration of Family Planning funds, in the same manner and timeframe as in fiscal year 2006. At least 90 percent of Family Planning funds should be used for clinical services authorized under section 1001 of the Public Health Service Act. The Office of Family Planning is expected to spend any remaining year-end funds in section 1001 activities.

CDC has convened a workgroup of CDC officials, outside tuberculosis (TB) professionals, and State and local public health officials to review and revise the TB funding distribution formula. The agency is directed to create a plan and submit such plan to the Committees on Appropriations of the House of Representatives and the Senate by no later than March 1, 2009 identifying the optimal proportion of TB funding that should be distributed under the new funding formula being considered. According to CDC, hospitals participating in the NHSN have decreased bloodstream infections by up to 50 percent over the last ten years. With this increased funding, CDC shall expand NHSN capacity to increase the number of hospitals and other healthcare facilities participating, increase the types of infections collected by each facility, and accelerate the transition from manual to electronic HAI reporting.

Also within the total for Preparedness, Detection, and Control of Infectious Diseases, the bill includes \$2,500,000 to be used to respond to outbreaks of disease caused in some part by the re-use of syringes in outpatient settings and to ensure that infection control measures are adhered to broadly, including provider education and patient awareness activities. CDC has worked to develop a nationwide Amyotrophic Lateral Sclerosis (ALS) registry that will estimate the incidence and prevalence of the disease, promote a better understanding of the disease, and provide data that will be useful for research on improving disease management and developing standards of care. The funds provided for the ALS Registry are intended to be used to develop and design a registry for ALS and other neurodegenerative disorders that will be of use to biomedical researchers working in the field.

Within the total for Environmental Health Activities, the bill includes \$7,500,000 for a new Climate Change initiative to develop and enhance programs to help the nation prepare for and adapt to the potential health effects of global climate change. CDC is urged to develop additional expertise in epidemiologic and laboratory science, infectious disease ecology, modeling and forecasting, climatology and earth science, communication and behavioral change science, and to support public health research in these areas.

Within the funds provided for Environmental Health Activities, \$5,000,000 is provided to conduct assessments of Polycythemia Vera (PV) trends and associated risk factors, including potential

environmental risk factors, in PV cluster areas or in areas with potential environmental risk factors. These funds may also be used to evaluate efforts to improve reporting of PV and other hematologic cancers to cancer registries.

Injury Prevention and Control

Within the total for Unintentional Injury, the bill includes \$2,000,000 for elderly falls prevention research.

Within the total for Injury Prevention and Control, the bill includes funding for the injury control research centers (ICRCs) to support their core operations and to expand research to improve translation of effective interventions. Injury is the leading cause of death and disability among children and youth. CDC is encouraged to continue its support for all ICRCs to ensure that each ICRC is funded at a level commensurate with programmatic expectations, including the new injury control research center that will focus on research and prevention related to children and adolescents.

National Institute for Occupational Safety and Health

Within the program level total for the National Institute for Occupational Safety and Health (NIOSH), the bill includes the following amounts:

Budget activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget request
Education and Research Centers	\$23,497,000	+\$2,072,000	+\$4,263,000

Miners Choice	641,000	0	+20,000
Nat'l Mesothelioma Registry & Tissue Bank	1,014,000	+25,000	+55,000

The total provided for NIOSH includes sufficient funding to maintain staffing levels at the Morgantown facility and to increase research funding at that facility.

The bill includes sufficient resources to fully fund the existing Healthier Workforce Centers and to expand this network dedicated to research, education, and translation programs to integrate health protection and health promotion in the workplace.

The bill includes \$250,000 for NIOSH to undertake follow-up studies on the National Hospital Ambulatory Medical Care Survey on the underreporting of worker injury data, particularly focusing on the self-employed population. As NIOSH develops research agendas, NIOSH should consider the disproportionate attention paid to acute injuries and illnesses over chronic injuries and illnesses contracted at work places in America. NIOSH shall continue to work with the Bureau of Labor Statistics to improve the statistics that direct Federal enforcement and compliance efforts aimed at preventing illness and injury at our Nation's workplaces. NIOSH shall provide a letter report on activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

According to a report issued in 2008 by the Institute of Medicine of the National Academies, there is a critical need to better understand the airborne transmissibility of pandemic influenza and other pathogenic bioaerosols to protect healthcare workers and to gauge the efficacy of the currently recommended types of respirators. The bill includes \$3,000,000 within the total for Personal Protective Technology for NIOSH to research modes of transmission of influenza and to evaluate filtering face piece respirators, other types of respirators, and other personal protective technology equipment. Further, NIOSH is urged to design and promote the next generation of personal protective equipment for healthcare workers and first responders to address the unique challenges posed by the healthcare environment.

For the World Trade Center (WTC) Medical Monitoring and Treatment program, the fiscal year 2009 program level is \$182,000,00. Approximately \$112,00,00 in carryover balances from prior year appropriated funds are available in fiscal year 2009. Combined with the \$70,00,00 included in this bill, the total amount available for the WTC program is sufficient to continue to expand the program in the New York City area and around the country for first response emergency personnel, residents, students, and others whose health has been impacted from exposure to toxins in or around the WTC site.

Energy Employees Occupational Illness Compensation

In addition, the bill includes \$55,358,000 for CDC to administer the mandatory Energy Employees Occupational Illness Compensation program, which is the same funding level as in fiscal year 2008 and the budget request. In prior years, funding was appropriated within the Department of Labor.

Global Health

Within the funds provided for Global Health, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Global AIDS Program	\$118,863,000	\$0	+\$136,000

Other Global Health	3,516,000	0	+4,000

The increased funding included in the bill for Global Disease Detection shall be used to support no less than one new Global Disease Detection Center.

CDC is encouraged to continue its support of research and development toward new anti-malarial drugs.

Terrorism Preparedness and Response

Within the funds provided for Terrorism Preparedness and Response, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Public Health Emergency Prep. Coop. Agreements	\$700,465,000	\$0	+\$129,562,000

Strategic National Stockpile	570,307,000	+18,798,000	0

With the level of funding provided in the bill for the Public Health Emergency Preparedness Cooperative Agreements program, CDC is expected to issue a full year of grants rather than reducing the grant cycle to nine months and three weeks as proposed in the budget request.

The bill provides an increase of \$16,637,000 over the fiscal year 2008 funding level for the network of quarantine stations at ports of entry across the United States. This funding is provided to maintain the current capacity at the 20 existing domestic quarantine stations, to hire additional employees to begin to adequately staff and operate these stations, and provide centralized core support to the Quarantine and Migration Health System.

The Cities Readiness Initiative (CRI) provides resources to cities and metropolitan areas around the country to better distribute countermeasures during public health emergencies. Concerns have been raised about CDC's revised formula for the allocation of CRI funds. Several grantees are potentially facing reductions of up to 48 percent. Significantly reducing grant awards in a single fiscal year could have a damaging impact on a jurisdiction's readiness to disburse medical countermeasures. In this transition to a new formula, CDC should move gradually in implementation and limit grant award reductions in 2009. Further, before any final decision

is made on the allocation of fiscal year 2009 resources, CDC should review this formula again to address the concerns raised by grantees. Further, CDC shall submit a written report and provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate justifying any changes to the CRI formula distribution used in fiscal year 2007 prior to issuing final guidance to grantees.

Public Health Improvement and Leadership

Within the total for Public Health Improvement and Leadership, the bill includes the following amounts:

The bill includes language making available until expended up to \$1,000 per eligible CDC employee for Individual Learning Accounts. The agency is directed to submit a report to the Committees on Appropriations of the House of Representatives and the Senate by no later than November 30, 2009, and annually thereafter, on the total level of funds used by CDC in the prior year for such Individual Learning Accounts.

The CDC is encouraged to continue the Institutional Research Training Grant program, funded through the CDC's Health Protection Research Initiative.

Preventive Health and Health Services Block Grant

As part of an HHS-wide initiative to reduce healthcare-associated infections (HAIs) coordinated by the HHS Office of the Secretary, the bill includes language that each State must certify that it will submit a plan by January 1, 2010 to the Secretary of Health and Human Services for reducing HAIs to be eligible for the full allotment in this Act under the Preventive Health and Health Services Block Grant. State plans shall be consistent with the Department of Health and Human Services national action plan for reducing such infections.

The bill also includes additional funding to provide States increased support for a wide range of public and preventive health activities. States are strongly encouraged to use these increased resources to invest in strategies to reduce HAIs through collaborations with public health departments and healthcare facilities and to begin to develop statewide plans.

Buildings and Facilities

Within the amount provided for Buildings and Facilities, the bill includes \$30,000,000 for nationwide repairs and improvements; \$71,300,000 for the completion of Building 24 on the Roybal Campus in Atlanta, Georgia; \$1,500,000 for facilities and equipment at the CDC laboratory in Ft. Collins, Colorado; and the remaining funds shall be used to begin planning and construction of Buildings 107 and 108 on the Chamblee Campus in Atlanta, Georgia.

Business Services and Support

The funds for Business Services and Support are intended for CDC to carry out its business functions, including, but not limited to, administrative services, financial management, security and emergency preparedness, and procurement and grants. Neither these funds nor any other funds provided to CDC are to be enhanced through the mechanism of program assessments or tapping at any level, including at the coordinating center level.

NATIONAL INSTITUTES OF HEALTH

The bill includes \$30,317,024,000 for the 26 accounts that comprise the National Institutes of Health (NIH) total appropriation, which is \$937,500,000 above the fiscal year 2008 level and \$1,087,500,000 above the budget request. In addition, the bill continues the allocation to NIH of \$8,200,000 in program evaluation set-aside funding, consistent with the budget request. Appropriation levels for individual institutes and centers are described in the table at the end of this explanatory statement. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The bill provides up to \$8,000,000 for facilities repairs and improvements at the National Cancer Institute (NCI)-Frederick Federally Funded Research and Development Center in Frederick, Maryland.

The NCI is directed to name a Fellowship in Surgical Pathology the "Alan S. Rabson Award" to provide lasting recognition to the

work of Alan S. Rabson, M.D., Deputy Director of NCI. As a pathologist, researcher, administrator, and clinical advisor, Dr. Rabson has demonstrated unequalled service in his 53 years at NIH. He is the author of more than 100 scientific journal articles and is credited with several discoveries in virology that paved the way for other important findings in this field. But, in particular, he has made his life passion helping cancer patients and their families come to grips with their cancer diagnosis and locating the medical treatment and provider that will help them most. He is joined in his dedication to NIH by his wife, Dr. Ruth Kirschstein, who served as the Acting Director of NIH and Director of several institutes. Naming a fellowship in honor of Dr. Rabson is a modest acknowledgement of how much the country is indebted to this unparalleled public servant.

NATIONAL CENTER FOR RESEARCH RESOURCES

The bill provides \$474,972,000 for clinical and translational science awards, divided between \$53,224,000 from the Common Fund and \$421,748,000 from the National Center for Research Resources. The bill provides \$224,043,000 for the Institutional Development Award (IDeA) Program.

OFFICE OF THE DIRECTOR

The bill provides \$25,000,000 in Flexible Research Authority as authorized under section 402 of the Public Health Service Act ("PHS Act"); up to \$192,300,000 for continuation of the National Children's Study; and up to \$8,000,000 for the Office of AIDS Research to make grants for construction or renovation of facilities as authorized in section 2354(a)(5)(B) of the PHS Act.

The bill provides funding for a 2 percent increase in the average cost of new and competing as well as non-competing grants. The bill provides \$35,000,000 for Transformative Research Project Grants; \$80,000,000 through the Common Fund for New Innovators Awards; \$40,600,000 through the Common Fund for the Director's Pioneer Awards; \$24,000,000 for the rare and neglected diseases initiative; and \$96,711,000 within the Office of the Director for radiological, nuclear, and chemical countermeasure research.

NIH is required to notify the Committees on Appropriations of the House of Representatives and the Senate each time the Director uses the statutory 1 percent transfer authority.

NIH is encouraged to take steps to accelerate implementation of its conflict of interest policy for contract staff.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The bill includes \$3,334,906,000 for Substance Abuse and Mental Health Services, which is \$100,866,000 more than the fiscal year 2008 funding level and \$309,939,000 more than the budget request. In addition, \$131,585,000 is made available under section 241 of the Public Health Service (PHS) Act, which is \$9,296,000 more than the fiscal year 2008 funding level and \$1,596,000 less than the budget request. The bill does not include language requested by

the Administration to provide supplemental performance awards under the Substance Abuse Prevention and Treatment (SAPT) Block Grant. The increase included for the SAPT Block Grant shall be distributed based on the current statutory formula.

Within the total provided for Programs of Regional and National Significance across the Substance Abuse and Mental Health Services Administration (SAMHSA), the bill includes \$75,000,000 for homeless programs. SAMHSA is directed to continue to fund supportive services programs within the authority of the Programs of Regional and National Significance. The distribution of these funds between the Center for Mental Health Services (CMHS) and the Center for Substance Abuse Treatment (CSAT) is detailed later in this statement.

Within the total provided for Programs of Regional and National Significance across SAMHSA, the bill includes \$116,656,000 for activities that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders. The distribution of these funds between CMHS, CSAT and the Center for Substance Abuse Prevention (CSAP) is detailed later in this statement.

Within the total provided for Programs of Regional and National Significance across SAMHSA, the bill includes \$4,701,000 for the Minority Fellowship Program. The distribution of these funds between CMHS, CSAT and CSAP is detailed later in this statement.

SAMHSA is strongly urged to give preference to applicants with prior experience in the NCTSI, as well as extensive experience in the field of trauma-related mental disorders in children, youth and families, especially in the areas of child abuse and residential treatment settings. SAMHSA should also pay special attention to the role of resiliency in recovery from trauma.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The bill includes a program level of \$372,053,000 for the Agency for Healthcare Research and Quality (AHRQ), which is \$37,489,000 more than the fiscal year 2008 program level and \$46,389,000 more than the budget request. The bill makes these funds fully available through section 241 of the Public Health Service (PHS) Act.

The bill does not include funding for the Health Insurance Decision Tool.

The bill includes \$50,000,000 for comparative effectiveness research within the total for Research on Health Costs, Quality, and Outcomes. This amount is \$20,000,000 more than the fiscal year 2008 funding level and the budget request. The objective of the program is to research difference healthcare interventions to help consumers, healthcare providers, and others make informed choices among treatment options. This investment will improve healthcare quality.

The investigator-initiated research portfolio at AHRQ has languished even though many of the sentinel studies that have changed the face of health and health care in the U.S. are the result of researchers' ingenuity and creativity. To advance discovery and the free marketplace of ideas, the bill includes increased funding to expand investigator-initiated research within the total for Research on Health Costs, Quality, and Outcomes.

Within the total for Research on Health Costs, Quality, and Outcomes, the bill includes \$41,889,000 for Patient Safety Threats and Medical Errors. The bill includes increased funding to reduce healthcare-associated infections (HAIs) and expand the Methicillin-Resistant *Staphylococcus Aureus* (MRSA) program begun in fiscal year 2008.

The bill includes \$9,304,000 for the Comprehensive Unit Based Program (CUSP), a patient safety program to reduce central-line associated blood stream infections in intensive care units (ICUs). The CUSP is modeled after the Michigan Keystone Program, which was successfully used in more than 100 ICUs in Michigan and, within three months of implementation, helped reduce infection rates to zero in more than 50 percent of the participating hospitals. With fiscal year 2008 funding, the CUSP is being implemented by State-wide consortiums in 10 different States and includes members of State hospital associations, quality improvement organizations, and public health agencies. With the increased funding in fis-

cal year 2009, AHRQ will be able to increase the number of participating hospitals within each of the 10 States, as well as increase the number of participating States, to bring this important and successful initiative to additional communities and healthcare facilities. In addition, AHRQ is urged to initiate a similar approach to CUSP in addressing other HAIs, including urinary tract infections and surgical site infections, as well as expand its activities to include research on ways to reduce HAIs in other healthcare settings, including hospital locations outside the ICU, dialysis centers, nursing homes, and ambulatory care settings.

AHRQ received funding in fiscal year 2008 to identify and reduce the spread of MRSA and other HAIs. Due to concern about the prevalence of these preventable infections, the bill provides AHRQ with \$8,000,000 to continue its work in this area. Funding is included to increase AHRQ's investment in evidence-based research to help healthcare providers and others implement quality improvement strategies to reduce the incidence of MRSA and other HAIs. In this effort, AHRQ is encouraged to continue to develop partnerships with healthcare delivery networks to implement system-wide MRSA prevention programs.

Public Law 110–329, the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, provided fiscal year 2009 funding of \$5,100,000,000 for the Low-Income Home Energy Assistance program (LIHEAP), which is \$2,529,672,000 above the fiscal year 2008 level and \$3,100,000,000 over the budget request. As a result, this bill does not include funding for LIHEAP.

REFUGEE AND ENTRANT ASSISTANCE

The bill includes \$633,442,000 for Refugee and Entrant Assistance programs, which is \$22,189,000 below the fiscal year 2008 level and \$5,398,000 above the budget request. With carryover funds, a total of \$685,493,000 will be available for these programs. In addition, the bill includes language providing for availability of funds through September 30, 2011 to reimburse the costs of services for all programs within the jurisdiction of the Office of Refugee Resettlement (ORR).

ORR is requested to provide adequate funding under Transitional and Medical Assistance to unaccompanied refugee minor programs for capacity development so that they have the necessary infrastructure to accommodate increasing numbers of unaccompanied and separated refugee children.

Within the funds provided for Social Services, the bill includes \$19,000,000 for continued support to communities with large concentrations of Cuban and Haitian entrants of varying ages whose cultural differences make assimilation especially difficult, justifying a more intense level and longer duration of Federal assistance.

The Administration on Children and Families (ACF) is requested to continue to adequately fund refugee school impact grants.

In conjunction with the Office of Management and Budget (OMB) and the Department of Homeland Security (DHS), the Department of Health and Human Services (HHS) is directed to submit a report to the House and Senate Committees on Appropriations (Committees) no later than March 1, 2009, recommending which agency is the most appropriate to fund the transportation of unaccompanied alien children (UAC) between DHS and HHS custody. This joint report shall focus on which agency can deliver these services in the most cost effective manner. In addition, starting no later than September 1, 2009, the ORR, in conjunction with Immigration and Customs Enforcement, should provide semi-annual briefings to the Committees on the implementation of the recommendations. For fiscal year 2009, the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, provides sufficient resources to DHS to pay for this transportation function.

With regard to the UAC program, ORR is directed to respond to the DHS initial call for placement by identifying the ORR placement facility to DHS within six hours, on average, of receiving the DHS call. In addition, ORR shall continue to work with DHS to expedite the transfer and placement of these special needs children in the most appropriate facility as quickly as possible.

Within funds for the UAC program, \$5,050,000 is provided to continue the pro bono legal services initiative to ensure legal representation of all UAC. These funds should be used to train attorneys to detect abuse, mistreatment, labor exploitation, and trafficking of these children. In addition, a portion of these funds should be used to train attorneys in methods that will ensure the appearance of children at all immigration court hearings. ORR is expected to use part of these funds to assess the overall impact of the pro bono legal services initiative, including the number and proportion of UAC provided pro bono legal representation.

The bill includes \$9,050,000 more than the budget request for the UAC program to ensure that sufficient funds are available for UAC medical and transportation services.

CHILDREN AND FAMILIES SERVICES PROGRAMS

The bill includes \$9,301,111,000 for Children and Families Services Programs. This amount is \$330,620,000 above the fiscal year 2008 level and \$807,901,000 above the budget request. In addition, \$10,217,000 is provided through the evaluation set-aside.

The bill provides \$7,112,786,000 for Head Start activities, which is a program level increase of \$234,810,000 above the fiscal year 2008 level. Within the total, the bill designates \$2,000,000 for centers of excellence in early childhood education authorized by section 657B of the Improving Head Start for School Readiness Act, 2007. The ACF Head Start Bureau shall continue to provide the House and Senate Committees on Appropriations (Committees) with the number and cost of buses purchased, by region, with Head Start funds in the annual Congressional budget justifications. In addition, ACF is requested to report to the Committees on fiscal year 2009 funding allocations to Migrant and Seasonal and Indian Head Start and provide a briefing to the Committees within 30 days of the release of the study on these targeted populations required under the Head Start Act.

Within the amount provided in the bill for Child Abuse Discretionary Activities, \$13,500,000 is provided to expand the home visitation initiative. These funds shall support continuing and new competitive grants to States to encourage investment of existing funding streams into evidence-based home visitation models that have been shown to improve the health, well-being, and self-sufficiency of low-income, first-time parents and their children. As in fiscal year 2008, ACF shall ensure that these funds support models that have been shown in well-designed, randomized controlled trials to produce sizeable, sustained effects on important child outcomes such as reductions in abuse and neglect. Funds shall support activities to assist a range of home visitation programs to replicate the techniques that have met these high evidentiary standards. In carrying out this initiative, ACF is instructed to adhere closely to evidence-based models of home visitation. ACF shall not incorporate any additional initiatives that have not met these high evidentiary standards or might otherwise dilute the emphasis on home visitation.

The bill also includes \$500,000 within Child Abuse Discretionary Activities for a feasibility study on the creation, development, and maintenance of a national child abuse and neglect offender registry.

Within the amount for Projects of National Significance, the bill provides \$2,000,000 for the purposes of providing and promoting leadership training by and for families with children with disabilities, as described in section 202(b)(2) of the Families of Children with Disabilities Support Act of 2000. Such training shall be designed to increase access to and availability of family support services and must address policy development, implementation and evaluation of family support services for families with children with disabilities. To maximize the sustainability of the outcomes of the leadership training supported by these funds, the Secretary shall distribute these funds as competitive grants to one or more national non-profit organizations with demonstrated capacity at the State and local level to foster and provide direct services to families with children with disabilities.

The bill provides a \$1,000,000 increase over the fiscal year 2008 level for the University Centers for Excellence in Developmental Disabilities, which may be used to provide a cost-of-living adjustment to existing centers and to establish new grants to work through partnerships with minority-serving institutions. These new grants, if awarded, will focus research, training and services on minority populations with disabilities.

The bill provides a \$1,500,000 increase over the fiscal year 2008 level for activities authorized under section 803C(b)(7)(A)-(C) of the Native American Programs Act (as added by the Esther Martinez Native American Languages Preservation Act of 2006).

With regard to the Community Services Block Grant (CSBG), ACF is directed to allocate \$500,000 of CSBG training and technical assistance funds for a national community economic development training and capacity development initiative. Successful implementation of community development programs requires significant investment in high-quality board and staff training and proven technical assistance. This funding will enable community action agency leaders to attain the professional skills needed to undertake projects to enhance their communities' future security through financing and implementing innovative housing, economic and community development partnerships.

The bill includes language clarifying Congressional intent regarding disposition of intangible assets—including loans and investments—acquired under the community economic development authority of the CSBG Act. The bill continues the policy in place since 1999 that establishes a regulatory period of up to 12 years after the end of the grant period. During that period, as the grantee receives repayments or program income from these loans or investments, the grantee is permitted to recycle these funds into other similar projects. After that time, the intangible assets and program income become the property of the grantee provided they are used in a manner consistent with the intent of the authorizing statute. The bill clarifies that recycled and repaid loan or investment funds or program income may be used in any low-income community for any eligible purpose under the law and is not restricted to the original target area, financing, or type of project for which the grantee was originally funded. The language applies not only to new grantees but also to grantees for whom the post-grant period has reached a point at which the disposition of intangible assets must be made.

Funds provided in the bill for the Rural Community Facilities program shall be used solely for the purpose of improving water and wastewater facilities in poor, rural communities. As in the past, these funds should be allocated to regional rural community assistance programs.

The ACF Office of Community Services is expected to remedy during fiscal year 2009 a failure (1) to report on progress made in remedying oversight deficiencies identified by the Government Accountability Office and (2) to comply with a fiscal year 2005 Congressional directive to implement a training and technical assistance needs assessment and delivery plan in consultation with CSBG State and local eligible entities.

The bill provides funds for Abstinence Education as defined in section 510(b)(2) of the Social Security Act and includes language precluding grantees who receive abstinence education funding from discussing with adolescents any other education regarding sexual conduct in the same setting as abstinence education. It also requires that information provided through abstinence education grants shall be scientifically accurate and comply with section 317P(c)(2) of the Public Health Service Act.

Further, the bill provides that up to \$10,000,000 may be used to carry out a national abstinence education campaign and \$4,455,000 shall be available from section 241 Public Health Service Act evaluation funds to carry out evaluations of adolescent pregnancy prevention approaches. Finally, up to 5 percent of funds may be set aside for technical assistance and capacity-building, which shall be used to ensure that programs are using evidence-based curricula that comply with statutory requirements.

Within Program Administration, the bill includes \$1,500,000 for the National Commission on Children and Disasters. The funds included in this bill may be used for personnel, travel, and any other necessary expenses of the Commission. The Commission is expected to build on the evaluations of other entities and avoid unnecessary duplication, by reviewing the findings, conclusions, and recommendations of various commissions, Federal, State, and local governments, and nongovernmental entities as to the needs of children as they relate to preparation for, response to, and recovery from all hazards, including major disasters and emergencies. ACF is requested to submit a report to the House and Senate Committees on Appropriations on the progress of the Commission within one year of its initial meeting. While Departmental funds will support the operations of the Commission, the Commission is expected to operate independently in order to provide unbiased recommendations to the President and the Congress.

PROMOTING SAFE AND STABLE FAMILIES

The bill includes \$345,000,000 in mandatory funds for the Promoting Safe and Stable Families program, which is the same as the fiscal year 2008 level and the budget request. The bill includes \$63,311,000 in discretionary funds for this program, which is the same as the fiscal year 2008 level and the budget request.

PAYMENTS TO STATES FOR FOSTER CARE AND ADOPTION ASSISTANCE

The bill includes \$5,050,000,000 for Payments to States for Foster Care and Adoption Assistance, which is \$17,000,000 below the fiscal year 2008 level and \$46,000,000 below the budget request. The amount provided varies from the President's request because of the enactment of the Fostering Connections to Success and Improving Adoptions Act of 2008 and reflects updated estimates provided by the Department.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The bill includes \$1,491,343,000 for Aging Services Programs, which is \$77,908,000 above the fiscal year 2008 funding level and \$109,959,000 above the budget request.

Protection of Vulnerable Older Americans

Within the total of \$21,383,000 provided for the Protection of Vulnerable Older Americans, \$16,327,000 is for the Long-term Care Ombudsman Program and \$5,056,000 is for the Prevention of Elder Abuse, Neglect, and Exploitation Program.

Program Innovations

The bill includes \$18,172,000 for Program Innovations, which is \$3,517,000 more than the fiscal year 2008 funding level and \$14,746,000 less than the budget request. The Administration on Aging (AoA) is directed to include in the fiscal year 2010 and all future budget justifications a table of Program Innovations funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years.

Within the total for Program Innovations, funding is provided at no less than the fiscal year 2008 levels for national programs scheduled to be refunded in fiscal year 2009. Within these funds, the bill includes \$2,000,000 for the Senior Legal Hotlines/Helplines, which will provide an increase in the number of States in which these services are available for older Americans. The bill also includes \$1,000,000 to continue a 24-hour call center to provide Alzheimer's family caregivers with professional care consultation and crisis intervention.

In addition, within Program Innovations the bill includes \$5,000,000 for the Community Innovations for Aging in Place program, created by the Older Americans Act reauthorization in 2006. This funding will provide grants to community-based organizations to coordinate and deliver services to elderly residents living in naturally occurring retirement communities and other model aging in place initiatives. AoA is encouraged to ensure that these initiatives are coordinated with existing programming included in the Older Americans Act, including Aging and Disability Resource Centers, Nursing Home Diversion, and Evidence-Based Prevention activities.

AoA has worked to further civic engagement among older Americans, particularly through a Memorandum of Understanding with

the Corporation for National and Community Service. AoA is urged to continue to advance the field of civic engagement, as authorized under section 417 of the Older Americans Act, by entering into additional partnerships with organizations that offer innovative and proven programs to enable older Americans to effectively meet critical social needs.

Aging Network Support Activities

The bill recommends \$41,694,000 for Aging Network Support Activities, which is \$10,105,000 more than the fiscal year 2008 funding level and \$28,561,000 more than the budget request. AoA is directed to include in the fiscal year 2010 and all future budget justifications a table of Aging Network Support Activities funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years. Within the funds provided, the bill includes \$1,719,000 for the Pension Counseling and Information Program, to increase training and technical support for the counseling projects and to maintain the number of regional counseling projects at six.

The bill also includes \$28,000,000 to continue national implementation of the Choices for Independence program. Funding is provided for this program in Aging Network Support Activities, as reflected in the reauthorized Older Americans Act, and is intended to build on national implementation activities already in place. In contrast, the Administration requested these funds within the Program Innovations account and limited this program to narrow trials in only a few States. The Choices for Independence program seeks to establish long-term care options for seniors so they can live independently in their own communities. The program will continue and expand existing AoA programs that focus on Nursing Home Diversion, Aging and Disability Resource Centers and Evidence-Based Disease Prevention activities. In implementing these activities, AoA is encouraged to continue its close partnership efforts with the Centers for Medicare and Medicaid Services, the National Institute on Aging, the Centers for Disease Control and Prevention, and other agencies.

AoA shall report to the Committees on Appropriations of the House of Representatives and the Senate by no later than March 1, 2009 on the establishment of national standards that will be used to evaluate the Choices for Independence Program, including the performance measures and indicators States must use to track and report on the outputs and outcomes they achieve. AoA should include in future Congressional budget submissions, the number of people served by these programs, funding breakdowns for each component of the program, and on the progress States are making in implementing these activities.

The bill does not provide funding for the National Center on Senior Benefits Outreach and Enrollment. Section 119 of P.L. 110–275, the Medicare Improvements for Patients and Providers Act of 2008 provided \$17,500,000 to the AoA for Medicare enrollment assistance, including \$5,000,000 specifically to inform seniors about benefits available under existing Federal and State programs. Bill language has been included to allow the AoA to administer these funds.

OFFICE OF THE SECRETARY
GENERAL DEPARTMENTAL MANAGEMENT
(INCLUDING TRANSFER OF FUNDS)

The bill includes \$395,776,000 for General Departmental Management, including \$5,851,000 from Medicare trust funds. This total is \$41,762,000 above the fiscal year 2008 level and \$15,912,000 above the budget request. In addition, \$46,756,000 in program evaluation funding is provided. The bill also provides that \$1,000,000 shall be transferred, not later than 30 days after enactment of this Act, to the National Institute of Mental Health to administer the Interagency Autism Coordinating Committee (IACC), which will support the IACC's work authorized under the Combating Autism Act of 2006.

Office of the Secretary

The bill includes sufficient funds to continue the Area and National Poverty Centers at no less than the fiscal year 2008 level.

The Department of Health and Human Services (HHS) is expected to maintain support for the U.S.-Mexico Border Health Commission at the same level as in fiscal year 2008.

The HHS Secretary is directed to provide a detailed inventory of the Department's greenhouse gas emissions and a plan to reduce these emissions by December 31, 2009 to the Committees on Appropriations of the House of Representatives and the Senate.

According to the Centers for Disease Control and Prevention (CDC), healthcare-associated infections (HAIs) are one of the top ten leading causes of death in the United States, accounting for an estimated 99,000 associated deaths and \$20 billion in excess healthcare costs annually. HAIs are largely preventable. HHS is commended for its work in developing a national action plan with five year targets for reducing HAIs. The Department is directed to continue the HHS Steering Committee for the Prevention of HAIs, and associated workgroups, that it has established to coordinate prevention and implementation, research, information systems and technology, compliance and oversight, and public and provider outreach activities across the operating divisions of the Department.

To accelerate progress on preventing HAIs and to begin implementation of the national action plan, the bill includes nearly \$22,000,000 in additional funding over the fiscal year 2008 funding level for HAI-related initiatives within the Department. These increases include \$5,000,000 within the Office of the Secretary, \$7,500,000 within CDC and \$9,304,000 within the Agency for Healthcare Research and Quality (AHRQ). The Office of the Secretary shall use the additional \$5,000,000 to develop and implement a national campaign to empower consumers to be active participants in preventing HAIs; perform a comprehensive inventory of HAI data and databases; enhance prevention, surveillance, and research activities; improve integration of data across HHS systems; expand measures in CMS' Hospital Compare and improve regulatory oversight of hospitals and the hospital accreditation program; provide management support to the HHS Steering Committee for the Prevention of HAIs; and conduct other priority ac-

tivities related to reducing HAIs. A description of how the funds provided to CDC and AHRQ shall be used is included in the explanatory statement under those operating divisions.

To ensure that greater attention to this problem also occurs at the State level, the bill includes language within CDC requiring States to certify to the HHS Secretary that they will submit plans for reducing HAIs by January 1, 2010 to be eligible to receive a full allotment in this Act under the Preventive Health and Health Services Block Grant. The bill also directs HHS to conduct a review of these State plans and report to the Committees on Appropriations of the House of Representatives and the Senate not later than June 1, 2010 regarding the adequacy of such plans for achieving State and national goals for reducing HAIs.

It is noted that although 27 years have passed since HIV/AIDS was first identified in the U.S., there has never been a national plan to guide the coordination of prevention, care, and treatment programs. Further, the U.S. currently requires foreign countries receiving assistance to combat HIV/AIDS to develop and implement a single coordinated national AIDS strategy. HHS is encouraged to develop and implement a single national AIDS strategy to promote coordination among Federal agencies and State and local governments, set clear goals and benchmarks, and provide a basis for ensuring accountability.

Approximately 36 States have prescription drug repository programs, also known as prescription drug redistribution programs. These programs, often volunteer-driven, may save the health care system millions of dollars every year by allowing unused, unopened medications to be re-dispensed to patients who meet certain need-based criteria. Due to the potential for substantial savings that these programs have shown, HHS is directed to conduct a study of State drug repository programs, with recommendations for how the Federal government can assist States in implementing and expanding these programs. This study also should include an estimate of potential cost savings and identify best practices, including ways to maintain patient safety. HHS shall submit this report to the House and Senate Committees on Appropriations no later than January 1, 2010.

Due to the growing demand for, and lack of well-trained, social workers to serve a variety of needs for individuals, families, and communities throughout the nation, HHS is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within one year of enactment of this Act. This report shall analyze current workforce trends and gaps in incentives, and provide recommendations for the recruitment and retention of professional social workers.

The bill includes \$1,000,000 for the Interagency Working Group on Youth Programs, chaired by HHS. These funds shall be used to solicit input from young people, State children's cabinet directors, and non-profit organizations on youth programs and policies; develop an overarching strategic plan for Federal youth policy; and prepare recommendations to improve the coordination, effectiveness, and efficiency of programs affecting youth.

The bill provides \$7,000,000 for a Health Diplomacy Initiative in the Department of Health and Human Services. This health initia-

tive will focus on training health care workers and providing other services in, but not limited to, Central and South America. This health diplomacy initiative will help control diseases such as HIV/AIDS, tuberculosis, and malaria by giving local residents the training they need to provide basic health care in Latin America and other underserved communities.

Trauma is the most important cause of morbidity and mortality among children and adolescents, accounting for nearly 16,000 deaths, 250,000 hospital admissions and 9 million emergency department visits annually. While the goal is to deliver optimal care to injured children so that they attain the best possible outcomes after serious trauma, many questions about what constitutes optimal care remain unanswered. This gives rise to the tremendous variations in care and settings we see today. The HHS Secretary is directed to conduct a national prospective study on the variation in trauma care for children and adolescents in order to understand how the organization and processes of treatment affect outcomes and submit a report to the Committees on Appropriations of the House of Representatives and the Senate within six months of enactment of this Act that outlines how the Secretary will conduct this study.

The Assistant Secretary of Planning and Evaluation (ASPE) shall review the fiscal year 2008 awards under the home visitation initiative administered by the Administration for Children and Families and shall assess, in consultation with the Office of Management and Budget and independent experts if necessary, whether these awards met the evidentiary standards for this initiative specified in the explanatory statement for the Consolidated Appropriations Act, 2008. In addition, ASPE shall review any request for proposals for fiscal year 2009 awards for adherence to the evidentiary standards in this explanatory statement. ASPE shall report its findings to the Committees on Appropriations of the House of Representatives and the Senate by September 30, 2009.

The Office of the Secretary is expected to support activities that are targeted to address the growing HIV/AIDS epidemic and its disproportionate impact upon communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders, at no less than last year's funding level.

Embryo donation and adoption

Increasing public awareness of embryo donation and adoption remains an important goal. The bill provides \$4,200,000 for HHS's embryo donation and adoption awareness activities. The costs associated with embryo adoption may be hindering people from participating in embryo adoption. The medical procedures involved can be expensive and are not always successful. To address those challenges, the bill includes language allowing funds appropriated for embryo donation and adoption activities to be available to pay medical and administrative costs deemed necessary to facilitate embryo donations and adoptions. It is intended that funds in the bill be used for embryo donation for family building and/or embryo adoption and that eligibility not be limited based on the terminology used to describe the transfer of the embryo.

OFFICE OF MEDICARE HEARINGS AND APPEALS

The bill includes \$64,604,000 for the Office of Medicare Hearings and Appeals, which is \$740,000 above the fiscal year 2008 level and \$740,000 below the budget request.

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

The bill includes \$61,231,000 for this activity, of which \$43,552,000 is provided in budget authority and \$17,679,000 is made available through the Public Health Service program evaluation tap. This level is \$670,000 above the fiscal year 2008 level and \$4,920,000 below the budget request.

OFFICE OF INSPECTOR GENERAL (OIG)

The bill includes \$45,279,000 for the Office of Inspector General, which is \$2,048,000 above the fiscal year 2008 level and \$779,000 below the budget request. Bill language is included requiring that at least forty percent of the funds provided be used only for investigations, audits, and evaluations pertaining to the discretionary programs funded in the Labor-HHS-Education Appropriations Act. The OIG should submit a report to the Committees on Appropriations of the House of Representatives and the Senate by March 1, 2009 describing the OIG workplan development process, the assessment of relative Federal risk in the discretionary programs funded in the Labor-HHS-Education Appropriations Act, and the process used to rank for action program requests from various executive and legislative branch offices. The OIG is directed to continue its investigation of contracting procedures at the Centers for Disease Control and Prevention and the agency's use of contract employees and report to the Committees on Appropriations of the House of Representatives and the Senate by June 1, 2009.

OFFICE FOR CIVIL RIGHTS

The bill includes \$40,099,000 for the Office for Civil Rights, of which \$3,314,000 is made available from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund. RETIREMENT PAY AND MEDICAL BENEFITS FOR COMMISSIONED OFFICERS

The bill includes \$434,694,000 for retirement pay and medical benefits for commissioned officers, which is \$37,516,000 above the fiscal year 2008 level and the same as the budget request.

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$1,397,795,000 for the Public Health and Social Services Emergency Fund (PHSSEF), which is \$668,536,000 more than the fiscal year 2008 funding level and \$903,036,000 less than the budget request.

In order to accelerate progress in the procurement of medical countermeasures through Project BioShield and for pandemic influenza preparedness, the bill includes language transferring \$412,000,000 from the Project BioShield advance appropriations provided in the Department of Homeland Security Appropriations Act, 2004. Of this amount, \$275,000,000 is to fund the Biomedical Advanced Research and Development Authority (BARDA) and \$137,000,000 is for pandemic influenza preparedness and response activities.

Currently, there are large carryover balances in Project BioShield; approximately \$3,575,000,000 remains available in fiscal year 2009 from funds provided in fiscal year 2004. A significant reason for this carryover is that there are insufficient chemical, biological, radiological, or nuclear countermeasures ready for acquisition by Project BioShield into the Strategic National Stockpile. The funds provided in this bill are included to spur the development of these countermeasures from early discovery phases through the advanced clinical trials necessary for FDA approval. Without a greater investment in advanced research and development of these countermeasures, Project BioShield will not succeed.

The Secretary of Health and Human Services is directed to provide the Committees on Appropriations of the House of Representatives and the Senate monthly reports updating the status of actions taken and funds obligated in this and previous appropriations bills for the Pandemic Influenza Preparedness activities; the Biomedical Advanced Research and Development Authority; and Project BioShield. These reports should be provided by no later than 15 days after the end of each month.

In addition, the Secretary of Health and Human Services, together with the Director of the Centers for Disease Control and Prevention, is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 180 days of enactment of this Act on the Department's current supply chain management strategies. This report shall include information on how supply chain management strategies can be improved in order to enhance both State and local preparedness in a complex, multi-tiered response.
