

to speak to you on behalf of the National Association of Graduate and Professional Students.

I want to talk to you about the effect the loss of the interest exemption and other proposed cuts would have on graduate and professional students. Lately opponents to student aid have made statements that trivialize the effect of these cuts.

One opponent of student aid here at the Capital claims that the loss of the interest exemption would cost students just \$21 a month. "So they won't be able to buy 2 CD's" he told USA Today.

Now, in addition to knowing where he buys his CD's, I'd like to know where he got his numbers. You see, for the graduate student who takes out loans to get an M.A., the loss of the interest exemption means that the loan payments could increase as much as \$110 a month. Or to put in terms our friend can understand, that's 11 CD's.

And just yesterday, another opponent of student aid claimed that the loss of the interest exemption would cost just . . . pennies a month.

Tell that to the graduate student who completes a Ph.D. and winds up with over \$68,000 in loans. The loss of the interest exemption could cost this student an additional \$33,000. That's an increase of over \$400 in the monthly payments, . . . or 40,000 pennies.

So you see, while eliminating the interest exemption is a disaster for undergrads, it's even worse for graduate students. Of course, the opponents of student aid have simply chosen to ignore the effects these cuts would have on more than a million graduate and professional students.

These cuts could drive many of these students right out of school. That's a loss that this country cannot afford.

This is because graduate programs prepare the nation's most highly skilled workforce, including faculty, business and industry leaders, social workers, physicians, ministers, researchers, and professionals.

Research conducted by graduate students contributes directly to economic growth. The University of California says that graduate student research drove the development of the biotechnology industry that today employs 80,000 Californians!!

In fact, studies show that U.S. economic production is directly related to government spending in higher education.

In the last week Governor Carlson of MN and Governor George Bush of Texas have both issued statements that "quality graduate education is crucial to the global competitiveness of the United States."

Graduate students are a valuable resource that the opponents of student aid seemed to have ignored. They have not taken calculated the devastating effect of their cuts on this nation's graduate and professional students. (Pause) But we have.

The National Association of Graduate and Professional Students warns you not to be deceived by those who would trivialize the effect of these cuts. These cuts are real, unwise, and undermine the very foundation of higher education.

TRIBUTE TO THE 1995 ITALIAN-AMERICANS OF THE YEAR

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 5, 1995

Mr. LEVIN. Mr. Speaker, I wish to extend my congratulations to the 1995 Italian-Americans of the Year, as honored by the Italian Study Group of Troy, MI. Ed and Marlene

Baker and Frank and Angela Penna are truly deserving of this prestigious honor.

Ed and Marlene Baker publish the oldest Italian-American newspaper in Michigan, the Italian Tribune, spanning 86 years and four generations of Italian-Americans. Together, they also publish the County Line, a community newspaper which covers Madison Heights, Troy, Warren, and Sterling Heights, and have a long list of accomplishments and many years of community involvement.

Frank and Angela Penna own Penna's of Sterling Banquet Hall, in Sterling Heights, and Penna's Restaurant in Warren. In addition to their business involvement, the Pennas are involved with many charity organizations, including the Muscular Dystrophy Association, the March of Dimes Foundation, and the St. Vincent and Sarah Fisher Center.

This honor is just one of many testimonies to Frank and Angela's, and Ed and Marlene's, success and dedication to their community. Again, my congratulations to them and to the Italian Study Group of Troy on this joyous occasion.

TRIBUTE TO THE GOVERNMENT PRINTING OFFICE

HON. JACK REED

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 6, 1995

Mr. REED. Mr. Speaker, it gives me great pleasure to rise today to pay tribute to the Government Printing Office [GPO] for its outstanding work on the GPO Access Network. For its efforts, the GPO has received the James Madison Award for 1995.

The Madison Awards are presented by the Coalition on Government Information to those individuals or organizations who enhance citizens' knowledge while championing the public's right to know. Previous winners of these awards include Vice President ALBERT GORE, Secretary of Energy Hazel O'Leary, and Representative HENRY WAXMAN. The GPO is certainly worthy of joining this list of well-known and respected officials.

The GPO has developed an access system which allows American citizens to obtain information including congressional bills, the CONGRESSIONAL RECORD, Federal Register, the U.S. Code, and more than 6,000 other files from 25 Federal agencies. Additionally, the network can be accessed at no charge from libraries that act as Federal depositories 24 hours a day.

As James Madison stated, "a popular government without popular information, or the means of acquiring it, is but a prologue to a farce or a tragedy, or, perhaps both." Madison realized that a well-informed citizenry is the crucial ingredient for healthy debate. As all of my colleagues are aware, informed and spirited debate is the root of a healthy democracy. The GPO access network is a perfect example of how the new information "super highway" will heighten the level of public discourse.

In Rhode Island, the GPO has done an outstanding job of fulfilling Madison's vision of a politically aware and active citizenry. Because of the team effort of the GPO, Ocean State Free Net, and the Federal Depository libraries in the State, Rhode Islanders are now able to access all of the aforementioned information

with their own home computers. Having such information available will enhance our citizens understanding of Government and their desire to participate in the democratic process. I am confident that continued cooperation between the Federal Government, State Agencies, and American citizens will yield rapid advancement into this new era of shared information.

Mr. Speaker, it gives me great pleasure to commend the outstanding achievement and continuing efforts of the Government Printing Office, and I would ask my colleagues to join me in saluting them.

TOBACCO HEALTH TAX AND AGRICULTURAL CONVERSION ACT OF 1995

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 6, 1995

Mr. STARK. Mr. Speaker, today my colleague from Utah, Mr. HANSEN, and I are introducing the Tobacco Health Tax and Agricultural Conversion Act of 1995, a bill to increase the cigarette tax to \$2 per pack and to increase taxes on other tobacco products.

We are joined in this by Mr. DURBIN, Mr. COYNE, Ms. PELOSI, Mr. LEWIS of Georgia, Mr. LIPINSKI, Mr. Moran, Mr. OBERSTAR, Mrs. COLLINS of Illinois, and Mr. EVANS, as original co-sponsors.

The revenues raised by this bill would finance health education and medical research efforts, help fund the health care costs of our Nation's elderly, and assist tobacco workers and agricultural regions that may be adversely affected by an increase in the tobacco tax. But most importantly, this bill creates a powerful disincentive for Americans—particularly youngsters—from taking up smoking.

We all know of the scourge that tobacco brings to America's families. The American Cancer Society, the American Lung Association, and the American Heart Association have reported that "tobacco is the single greatest cause of preventable death and disease."

There are 419,000 deaths each and every year due to smoking. This equates to more than 1,100 Americans dying every day. Smoking-caused deaths exceed the number of deaths caused from alcohol, drug abuse, homicide, suicide, automobile and airplane accidents, and AIDS combined. Twenty-seven percent of all Americans who die between the ages of 35 and 64 die from tobacco-related disease.

The scores of lives lost to tobacco provide sufficient reason to take the action I call for in this legislation. But lives lost is not the only cost of smoking. Tobacco-caused illnesses tax our health care system, requiring more than \$50 billion per year in direct health care expenditures, including \$22 billion borne by the Federal Government. Losses in productivity suck tens of billions more out of our economy.

But if there is an area where federal action can make a positive impact, it is with smoking. Tobacco is the single greatest cause of preventable death and disease—preventable! As proven by experiences in several States and in other countries, tobacco consumption—and the related costs—can be reduced. In my home State of California, through a modest

rise in the cigarette tax and a statewide education campaign, a substantial reduction in smoking among California's teenagers resulted. The National Academy of Sciences' Institute of Medicine, a well-respected independent scientific organization, concluded that—

If tobacco is made less affordable . . . consumption will tend to decline, especially among children and youth, whose smoking habits are not fully established. Therefore, policymakers have an effective means available to them—increasing the real price of tobacco by increasing excise taxes—to reduce the consumption of tobacco by youths and thereby to reduce the health toll of tobacco use in future years.

Most people who smoke today—about 90 percent—began smoking when they were kids. If the cost of a pack of cigarettes were raised to the equivalent of two Big Macs rather than the equivalent of just one today, youngsters might think twice before putting down the money for the cigarettes. And without continued waves of new smokers, the 400,000 Americans who die each year from smoking will not be replaced.

In order to prevent nicotine addiction in children and youth, the National Academy of Sciences recommends the following—

(1) Congress should enact a significant increase in the tobacco tax,

(2) All tobacco products should be taxed on an equivalent basis, and

(3) The real value of tobacco taxes should be maintained to account for inflation.

The Tobacco Health Tax and Agricultural Conversion Act of 1995, if enacted, would accomplish each of these steps.

In the past, concerns have been raised over the impact a tobacco tax hike would have on tobacco farmers. We believe this bill offers a solution, not a problem, for tobacco farmers.

U.S. tobacco farming has been declining for more than a decade. This has not been caused by increased tobacco taxes in the United States. This is not a result of reduced cigarette manufacturing in the United States. The decline in U.S. tobacco farmers, from 179,000 in 1993 to 137,000 today, is because U.S. cigarette manufacturers like Philip Morris and R.J. Reynolds have more than doubled their imports of less expensive foreign-grown tobacco over the past decade. Today, more than one-third of tobacco used in U.S.-manufactured cigarettes is imported. This trend is anticipated to continue, leaving U.S. tobacco farmers and their farming communities devastated.

The legislation we are introducing today would allocate 3 percent of the revenues raised to a Tobacco Conversion and Health Education Trust Fund. The purpose of this is to assist individuals and communities that today are reliant upon tobacco farming to convert to other crops and industries. These funds could be used to purchase tobacco allotments from farmers or to finance infrastructure construction and modernization for agricultural diversification. Affected communities would be able to use these funds to stimulate nontobacco related economic development. Under this legislation, literally hundreds of millions of dollars annually would become available to tobacco farmers and tobacco-growing regions.

A portion of moneys in the Tobacco Conversion and Health Education Trust Fund would be allocated to support health education efforts. Rather than rely solely on the increase

in the price of cigarettes to educate American consumers of the true costs of cigarettes, the Secretary of the Department of Health and Human Services would conduct campaigns—building on efforts already underway in several States—to educate Americans on health risks, including the risks from tobacco use.

A larger portion of the funds raised would be used to fund expanded medical research efforts. A full 9 percent of the revenues raised, estimated at roughly \$1.5 billion per year, would be placed in a newly created National Fund for Medical Research. These resources will augment the current effort underway at the National Institutes of Health and throughout the Nation to expand our understanding and ability to deal with complex medical problems. As we all know, only one-quarter of all worthwhile grant applications submitted to the NIH each year receive funding.

The remainder of the revenues raised by this legislation would be deposited into the Medicare Part A Hospital Insurance Trust Fund. The reason for this is simple. As stated by a former HHS Secretary who held responsibility for the Medicare program, "Smoking is the single largest drain on the Medicare trust fund, poised to take \$800 billion over the next 20 years." The revenues from this bill may not cover Medicare's full smoking-related costs, but this bill provides a good start.

In sum, this legislation is good for America—for America's youth, America's families, and the American economy. Lives will be saved, suffering from disease will be diminished, long-term health care costs will be reduced, diversification in farming communities will be supported, and revenues will be generated for the health care needs of our elders.

Mr. Speaker, we could continue for hours to cite reason upon reason to support this legislation. Some may want me to do so, merely to delay taking action. But at some point we must take action. We must decide that this is a necessary step and that it can no longer be delayed. We believe that the time is now. We urge our colleagues to support this legislation.

A summary of the bill follows—

SUMMARY OF "THE TOBACCO HEALTH TAX AND AGRICULTURAL CONVERSION ACT OF 1995"

INCREASE IN TOBACCO EXCISE TAXES

This legislation would increase the excise tax on cigarettes by \$1.76 per pack (from \$.24 per pack to \$2.00 per pack) and increase the excise taxes on other tobacco products.

The excise taxes would increase in future years by an amount equivalent to the rate of inflation.

This legislation would become effective after September 30, 1995.

USE OF REVENUES

Medicare Part A Trust Fund—88% of revenues—to strengthen the solvency of the Medicare Part A Hospital Insurance Trust Fund.

National Fund for Medical Research—9% of revenues—to augment the resources currently available to the National Institutes for Health for medical research.

Tobacco Conversion Account—1.5% of revenues—to assist individuals and communities that today are reliant upon tobacco farming to convert to other crops and industries.

Health Education Account—1.5% of revenues—to educate Americans on health risks, including tobacco use.

PINE PLAINS, NY, HOSE CO. AND RESCUE SQUAD CELEBRATE 100TH ANNIVERSARY

HON. GERALD B.H. SOLOMON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 6, 1995

Mr. SOLOMON. Mr. Speaker, I have always been partial to the charm and character of small towns and small town people. The town of Pine Plains, NY, is certainly no exception.

The traits which make me most fond of such communities is the undeniable camaraderie which exists among neighbors. Looking out for one another and the needs of the community make places like Pine Plains great places to live. The concept of community service is exemplified by the devoted service of the Pine Plains Hose Co. and Rescue Squad. For 100 years now, this organization has provided critical services for the citizens on a volunteer basis. As a former volunteer fireman myself, I understand, and appreciate, the commitment required to perform such vital public duties.

Mr. Speaker, it has become all too seldom that you see fellow citizens put themselves in harms way for the sake of another. While almost all things have changed over the years, thankfully for the residents of Pine Plains, the members of their fire department and rescue squad have selflessly performed their duty, without remiss, since the formation of this organization in 1895. From June 8, 1995 through June 10, 1995, the hose company will be hosting a celebration commemorating this milestone. Not only will this offer the residents of Pine Plains a chance to enjoy themselves at the planned festivities, including a parade, carnival and fireworks, but it will provide the perfect opportunity for them to extend their gratitude to this organization and its members.

Mr. Speaker, I have always been one to judge people by how much they give back to their community. On that scale, the members of the Pine Plains Hose Co. and Rescue Squad are great Americans. I am truly proud of this organization because it typifies the spirit of voluntarism which has been such a central part of American life. We would all do well to emulate the service of the men and women who comprise the Pine Plains Fire and Rescue Squads. To that end, it is with a sense of pride, Mr. Speaker, that I ask all members to join me in paying tribute to the Pine Plains Hose Co. and Rescue Squad on the occasion of their 100th anniversary.

LOVE STORY WITH A LONG HISTORY

HON. THOMAS J. MANTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 6, 1995

Mr. MANTON. Mr. Speaker, I rise today to recognize Michael and Marion Duckworth Smith, a special couple who live in a unique place in my district. Within the boundaries of one of the most urban areas of our country, Marion and Michael live on the Riker Estate, the oldest New York City farmhouse still used as a residence.

Michael and Marion's relationship blossomed just as the residence has over the
