SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of May 12, 1995, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

FDA REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania [Mr. FOX] is recognized for 5 minutes.

Mr. FOX of Pennsylvania. Mr. Speaker, I appreciate the opportunity to address my colleagues tonight on a very important topic. Today it was announced that legislation will be introduced this week on FDA reform. This is long overdue here in the Congress, to make sure we help protect the health and safety of our constituents.

□ 2045

Today Congressman GREENWOOD, the task force chairman under Congress-

man BLILEY started out with a discussion of our mission and was followed with remarks from Chairman BILIRAKIS, Chairman BARTON, Congressman KLUG, Congressman BUYER, Congressman PALLONE, and Congressman RICHARDSON.

It is a bipartisan effort, Mr. Speaker, for the purpose of making sure that we stop the insidious problem we have had in the country with the FDA treatment delayed become FDA treatment denied. We need to save lives, extend the years, and improve quality of life for all of our constituents. An idea whose time has arrived is FDA reform, not just for food, but for medical devices and pharmaceuticals as well.

It may well be the most extensive and important piece of legislation we will deal with in the second session of the 104th Congress, that being FDA reform. If we can hasten the approval process for drugs and medical devices while patients await a cure or a vaccine, we will certainly have accomplished much as Congressman and Senators.

Mr. Speaker, lest anyone believe otherwise, we are certainly not going to reduce in any way the safety of drugs, the efficacy of those drugs, but we want to speed up the process of the approval. It can be done through streamlining the clinical research, through third-party review and through working with international harmonization, by accepting certified results of tests by other countries.

I am hopeful the many people who came to Washington today who had illnesses such as cancer, ALS, epilepsy, AIDS, and a myriad of other conditions they have come to us saying, look, we need to make sure we can live longer, please, do not stop us from getting the experimental drugs, the miracle drugs we need in order to live a little longer and hope for a cure.

I believe today, ladies and gentleman, that we have heard from the American people, that we can work together in a bipartisan fashion, House and Senate together, working with the White House and working with the FDA. Dr. Kessler has a very important organization that he heads. We need to work with him to make sure the reforms we need are ones that can be embraced by all, because what we are talking about is the health care and the life of all of our constituents across this United States, in the country where 85 percent of the new drugs to extend life and to sustain life are being created. We want to make sure those discoveries stay here and the jobs of the people who are, thankfully, making those discoveries every day.

I thank you for the opportunity to address my colleagues, and I hope that we will fast-track this important legislation and it does in fact become passed before the end of the session.

TRIBUTE TO DAVID PACKARD

The SPEAKER pro tempore (Mr. COLLINS of Georgia). Under a previous
