

waste will travel through 43 States on transportation routes that bring the waste within one mile of over 50 million people.

Mr. President, I know the nuclear power industry is lobbying hard for this bill. I know there is a lot of pressure on Senators to support this legislation. I also know that the nuclear power industry has spread a massive amount of disinformation about the bill.

By any objective evaluation, this legislation is completely unnecessary. In fact, the Nuclear Waste Technical Review Board, a Federal agency created by the Nuclear Waste Policy Act, and comprised of the Nation's most respected scientists, said just 1 month ago that there is simply no need for an interim storage facility at this time.

This is not the first time the industry has cried wolf. In 1980, a supporter of the industry asserted:

We are running out of reactor space at reactors for the storage of the fuel, and if we do not build what we call away-from-reactor storage, another type of interim storage, and begin soon, we could begin shutting down civilian nuclear reactors in this country as soon as 1983.

Of course, Mr. President, no U.S. reactors have closed due to lack of storage. Thirteen years have passed since the prediction that in 1983 there would result the closure of reactors.

Despite the crisis mentality created by the nuclear power industry, there is no nuclear reactor in America that will be forced to close down due to lack of storage. Every nuclear utility, if it so chooses, can take advantage of existing, NRC licensed, off the shelf dry cast storage systems to meet its spent fuel storage needs. Should the mobile Chernobyl bill come to the floor next week, I will have a lot more to say about the lack of any compelling need for this legislation.

There are, however, plenty of other reasons to oppose this bill. The bill preempts nearly every local, State, or Federal environmental protection. It creates a taxpayer liability of billions of dollars to solve the private industry's waste problem. It eliminates EPA authority to protect the health and public safety.

Mr. President, I do not know when the Senate may consider this bill. It is my hope that it never comes up. Nevertheless, I urge my colleagues to fully consider the many legitimate public health safety consequences raised by this legislation, particularly as they relate to their own constituents, and to oppose the mobile Chernobyl bill. I yield the floor.
