CONGRATULATIONS TO PRACA for their vision, their leadership and their perseverance these past 45 years. Congratulations!

TRIBUTE TO GORDON BINDER
HON. BRAD SHERMAN OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, April 23, 1998

Mr. SHERMAN. Mr. Speaker, I rise today to pay tribute to Gordon Binder for his leadership of Amgen Corporation and his continued commitment to bringing science and technology into the community.

Calvin Coolidge once said, “Education is the result of contact. A great people is produced by contact with great minds.” As CEO of one of America’s leading genetic engineering firms, Gordon Binder and his corporation have dedicated themselves to fulfilling President Coolidge’s call to educate the community. Gordon has not only continued to expand Amgen’s research and development capabilities, but he has also initiated a number of innovative community outreach programs, bringing science to the community.

Some of these programs include the Amgen Staff Community Involvement Program (SCIP), in which the services of Amgen’s talented staff are made available to non-profit organizations or to needy individuals for community improvement projects. In another program developed under Gordon’s leadership, Amgen presents five $10,000 Amgen Awards for Teacher Excellence each year. Amgen also provides evening science lectures for local high school students and administers a Mobile Laboratory Program that teaches students to perform real-life gene cloning experiments right in their own classrooms.

In addition to his work at Amgen, Gordon also serves on the Board of Directors of the Pharmaceutical Research and Manufacturers Association, Pepperdine University, and Cal Tech. He also is Chairman of the Biotechnology Industry Organisation and Past President of the American Cancer Society Foundation.

Mr. Speaker, distinguished colleagues, please join me in paying tribute to Gordon Binder for his vision and leadership of Amgen Corporation and his efforts in our community and across the country, to make innovations in science and technology available to thousands of high school students.

HAPPY 115TH ANNIVERSARY, SECOND BAPTIST CHURCH
HON. JAMES A. BARCIA OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Thursday, April 23, 1998

Mr. BARCIA. Mr. Speaker, I rise today to pay tribute to the Detroit Baptist Association for Community Affairs (PRACA) and congratulate this worthy organization on the occasion of the First Annual PRACA Awards. I ask my colleagues to join me in congratulating PRACA as they celebrate their forty-fifth year of leadership in New York City’s Puerto Rican and Latino community on May 1st, 1998.

PRACA was founded in 1953 during the height of the Puerto Rican migration to New York City. At that time there were few organizations that helped newly-arrived Puerto Rican families adjust to the city’s fast lifestyle, while helping them maintain their culture, values and traditions. PRACA was in the forefront of a movement, creating social service programs dedicated to the enrichment of the Puerto Rican community. In the years that followed, PRACA continued this work and extended the same services to other newly-arrived Latino families.

Today, PRACA’s programs range from children and families services to adoption, education and housing programs. Over the years, they have been consistent in their mission while continuing to meet the diverse needs of the Puerto Rican and Latino community. PRACA has assisted families in understanding their new culture as well as preserving their history, language and cultural heritage. PRACA has helped reduce barriers, promote advancement and improved the lives of thousands of families in New York.

In closing, I ask you to join me in saluting PRACA for their vision, their leadership and their perseverance these past 45 years. Congratulations!
