

Austin, where he earned a degree in engineering, and to the Army Air Corps, where he served his country as a pilot during World War II.

Jeter spent the majority of his adult life in Van Zandt County, Texas, where he was a community leader. Actively involved in church and community affairs, Jeter often volunteered his time, labor and talents to the First Baptist Church of Van Zandt. Not only did Jeter dedicate himself to his family and church, but he also served as an officer for both the Federal Land Bank and the Texas Farm Bureau Association. Such tireless efforts to his community made Jeter the wonderful man and special friend that I stand here today to honor. Giving not only of himself, but even of his own money to those individuals and families less fortunate, Jeter was a daily testimony of his commitment to God, family, friends and community.

Mr. Speaker, Jeter Nimmo passed from us on February 25th of this year. He is survived by his two daughters and their husbands: Nancy and Joe Lambert of Colfax, Texas and Caroline and Mike Athey of Niceville, Florida.

Mr. Speaker, as we adjourn today's session, let us do so in honor of this outstanding husband, father, friend and American, Mr. Jeter Nimmo. He will be missed by all those who knew him.

RECOGNIZING THE CONTRIBUTION
OF FORT MONMOUTH TO THE
UNITED STATES ARMY SIGNAL
CORPS

HON. MICHAEL PAPPAS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 1998

Mr. PAPPAS. Mr. Speaker, it is my privilege to offer congratulations to the United States Army Signal Corps which is celebrating its 138th anniversary. In particular, I would like to recognize Fort Monmouth Army Base in my district, New Jersey's twelfth, which was

"home" to the Signal Corps for 58 years of crucial advances in military communications.

On June 21, 1860, the Signal Corps was born, the brainchild of Albert James Myer, an Army doctor who believed there should be a trained, professional military signal service. From its first use in New Mexico during a Navajo expedition, to its use during the Civil War, the Spanish American War, the two World Wars, the Korean and Vietnam Wars to the present day, the Signal Corps has provided necessary communication devices which have protected the lives of the men and women who have advanced the cause of freedom.

Fort Monmouth was "home" to the Signal Corps School from 1917 to 1975. As the center for signal education, as well as major laboratory, Fort Monmouth played an important role in the major world conflicts of this time period. Early radiotelephones developed at Fort Monmouth were used in the European theater during World War I. The first Army radar was developed in 1938. This new technology, as well as the development of the tactical FM radio, were important communications devices which helped to lead the Allies to victory in World War II. These innovations are still used today, by military and non-military alike.

Fort Monmouth has also made major contributions to the development of space communications. "Project Diana" in 1946 successfully bounced electronic signals off of the moon, a milestone on the road to space communication. Solar-powered batteries, typewriters for space shuttles, and communications satellites were some of the other advances developed at Fort Monmouth. Though no longer home to the Signal School, Fort Monmouth continues to serve as an important technological logistics, and training center. Today, Fort Monmouth serves as home to CECOM, the Army's Communication and Electronic Command.

I would like to thank the men and women of Fort Monmouth for their continuing dedication to the protection and promotion of freedom. I am confident that their important work will continue well into the next millennium.

HONORING SISTER WINIFRED
DANWITZ, Ph.D.

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 25, 1998

Mr. ENGEL. Mr. Speaker, I rise to join in celebrating the Golden Jubilee of Sister Winifred Danwitz, a woman whose accomplishments are so many that they seem crammed into those fifty years, but one who looks forward to doing even more.

Sister Winifred is the former Administrator of the Mount Saint Ursula Speech Center for New York City and Professor Emeritus of Special Education at the Graduate School of the College of New Rochelle. She was selected a Fellow of the American Speech-Language-Hearing Association.

Her teaching experience includes the College of New Rochelle and its graduate school, Fordham University, Hunter College and Iona College. The list of her organizational activities where she served in a senior position runs off the page. She has almost as many awards.

Now she is embarking on her latest venture as Executive Director of Angela House. Angela House began as her idea. It will be an innovative demonstration project to address the problems confronting homeless women and their young. Angela House will serve as a model supportive transitional residence to provide these women and their children with the supervision, support and training in a nurturing environment.

Sister Winifred will be as successful in helping these women and their children as she has been in her other endeavors. Her generosity of spirit has made beneficiaries of all of us. I am proud to be able to praise her work, her dedication and her innovation. She is our treasure.
