

restoration of the ecological integrity of the Great Lakes ecosystem.

The primary purpose of the Great Lakes Fish and Wildlife Restoration Act is to implement proposals that address recommendations put forth by the Great Lakes Fishery Resources Restoration Study. To this end, the Act reauthorizes the existing Great Lakes Coordination and Great Lakes Fishery Resources Offices. The bill also sets up a proposal review committee under the guidance of the existing Council of Lake Committees to review grant proposals and identify projects of the highest priority for the restoration of the fish and wildlife resources of the Great Lakes Basin. The Act encourages, supports, and coordinates Federal and non-federal cooperative habitat restoration and natural resource management programs in the Great Lakes Basin.

The Great Lakes Fish and Wildlife Restoration Act represents a new generation of environmental legislation, one that recognizes the complexity and inter-relatedness of ecosystems. This act seeks to address natural resource management in a comprehensive and conscientious manner by building partnerships among the Great Lakes states, U.S. and Canadian governments, and native American Tribes. Through regional cooperation, I believe we can address the environmental and economic concerns of the Great Lakes Basin and continue on the road towards the recovery of this precious natural and national resource. By passing this legislation, we in the Congress will be taking the right next step toward responsible stewardship of the Great Lakes as we venture into the new millennium.

This fall, as I look back on the earth from space, I will be sure to look down on the Great Lakes. I know that they will be a cleaner, safer place for both humans and wildlife to live than they were at the time of my last flight because of the efforts we have made over the past decades. With the passage of this legislation, I will also be sure that they will continue to become even cleaner, safer places where fish and wildlife communities, and the human communities who enjoy them can continue to prosper.

Mr. LEVIN. I would like to ask the distinguished sponsor of the Senate bill if he could comment on whether or not the bill, H.R. 1481, is intended to provide Indian Tribes in the Great Lakes region with any fish and wildlife management authority beyond that contained in existing treaty provisions and as recognized by Federal courts.

Mr. GLENN. The bill's provision appointing tribal representatives to the committee created by the bill is not intended to expand their existing authorities.

Mr. ABRAHAM. Would the Senator from Ohio provide a further clarification that the Senate intends that the

committee created in the bill will provide its recommendations under the guidance and direction of the Council of Lake Committees of the Great Lakes Fishery Commission?

Mr. GLENN. The Senator from Michigan is correct. That is the intent.

Mr. LEVIN. I thank the Senator from Ohio for his assistance and, as an original cosponsor of S. 659, I applaud his efforts to move this important legislation expeditiously.●

Mr. HAGEL. Mr. President, I ask unanimous consent that the bill be considered read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be placed at the appropriate place in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 1481) was considered read the third time, and passed.

COASTAL BARRIER RESOURCES SYSTEM MAP CORRECTION

Mr. HAGEL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of calendar No. 660, S. 2469.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

A bill (S. 2469) to direct the Secretary of the Interior to make technical corrections to a map relating to the Coastal Barrier Resources System.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Environment and Public Works, with amendments, as follows:

(The parts of the bill intended to be stricken are shown in boldface brackets and the parts of the bill intended to be inserted are shown in italic.)

S. 2469

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS AND PURPOSE.

[(a) FINDINGS.—Congress finds that—]

[(1) Coastal Barrier Resources System unit FL-35P was designated under the Coastal Barrier Improvement Act of 1990 (Public Law 101-591) to include Florida State conservation land within the Coastal Barrier Resources System;

[(2) unit FL-35P is an "otherwise protected area", a designation that was intended to include land held for conservation purposes;

[(3) the boundary of unit FL-35P runs through a portion of the Ocean Reef Harbor Course South development, which was in existence on the date of enactment of the 1990 Act;

[(4) at the time unit FL-35P was designated, 9 residences were located in the portion of the development that was included within the boundaries of the unit;

[(5) the 11.7 acres comprising that portion are not held for conservation purposes, and are not an inholding within conservation land;

[(6) the United States Fish and Wildlife Service has received certificates of occupancy and corresponding plat maps from Monroe County, Florida, verifying that a portion of unit FL-35P was developed, and accordingly that the portion referred to in paragraph (5) was mistakenly included in the Coastal Barrier Resources System; and

[(7) modification of the boundary of unit FL-35P to exclude the 11.7-acre parcel referred to in paragraph (5) would constitute a valid technical correction.

[(b) PURPOSE.—The purpose of this Act is to make a technical correction to unit FL-35P of the Coastal Barrier Resources System to exclude from the unit the 11.7-acre parcel of developed property that was mistakenly included in the unit.
