

any company or any country they select. This ought to be troublesome, and yet it is not even on the radar screen in the political debates around our country today.

Certain public roads could become private in a hurry, which could impact canal access.

This Hutchison Whampoa deal includes U.S. Naval Station Rodman, as mentioned previously; U.S. Air Station Albright; Diablo; Balboa, a Pacific U.S.-built port; Cristobal, an Atlantic U.S.-built port; the island of Telfers, strategically located adjacent to Galeto Island, a critical communications center.

Telfers Island is said to be the future home of a Chinese work in progress, an export zone, called the "Great Wall of China" project.

I cannot understand how we can ignore this presence into the Western Hemisphere. Monroe would turn over in his grave. The Monroe Doctrine said that foreign European nations, and other nations around the world, should stay out of the Western Hemisphere. Yet, here they are.

Law 5 is subservient to the 1977 treaty. But if we fail to notice the discrepancies and fail to act upon those discrepancies, or to point out there are potential compliance problems, then we lose the opportunity to respond.

As I said before, I don't have the easel here now, but it's 84 more days. We will come back next week, and I will come back with the chart and it will be 79 days, or whatever it happens to be. But as each day ticks off, another day goes by—another day we haven't talked to President Moscoso and we haven't tried to reopen the negotiations, and we are another day closer to turning the Panama Canal not over to the Panamanians, but to the Chinese Communists—and not a whimper from anybody in the State Department, or the President, the Defense Department, Presidential campaigns, or anywhere. So the days are getting short. I think that I have an obligation to tell the American people, on a day-to-day basis—remind them—about what is going on.
