Mr. OSE. Mr. Speaker, it is with great pride that I rise to acknowledge University of California at Berkeley graduate, Jamila Demby, who was recently named NCAA Woman of the Year.

Ms. Demby, the first UC Davis athlete to earn this NCAA honor, was selected as a national finalist from among 50 state winners. Representing California, she was one of two Division II finalists.

It was a perfect ending to a perfect career at UC Davis. A seven-time All-American, Ms. Demby won eight conference championships in four years. During last year’s California Collegiate Athletic Association championships, Ms. Demby established a new UC Davis 800-meter record of 2 minutes, 10.8 seconds. In addition, she ran the final leg of the 4x400 relay team, which set a UC Davis record of 3:45.33.

In addition to her athletic achievements, Ms. Demby has been active in student and community activities. In addition to serving as a UC Davis Aggie team captain and sitting on the student-athlete advisory committee, Ms. Demby finds time to regularly visit children at the Shriners’ Hospital and tutor at local schools. In fact, her work with children has become such an influential experience that she changed her career path from advertising to serving underprivileged and underrepresented youth.

As NCAA Woman of the Year, Ms. Demby was chosen from a group of highly accomplished women. Ms. Demby will graduate from UC Davis this December with a degree in rhetoric and communications and will continue to give back to her community.

In closing, I would like to congratulate Ms. Demby for a job well done.

Mr. Speaker, after years of waiting, my State is interested in putting this issue behind us and moving on. What makes that statement so intriguing is that is the exact line the MMS stated in a letter to the dean of the Louisiana delegation over 9 years ago when they too wrote, “We are also very interested in putting this matter behind us.”

Our legislation is simple. It will allow the State and its lessees to recover a portion of what was lost by the unauthorized development of the West Delta Field and will do so in the most benign of methods. The State and its lessees have proposed an alternative method for providing compensation by foregoing payment of federal royalties due by the lessee on other federal leases and distributing those withholdings to the State and lessee until the federal obligation is satisfied. Upon restitution, the lessee will resume their payments to the Federal Government.

After more than a decade, it is time for the federal government to settle this outstanding obligation and, at the same time, protect the rights of my home State. In addition, we must reaffirm that this Congress does not support policies that may well create precedents that would needlessly and recklessly endanger our coastal environments.
