

profound loss, Joe's family and friends can take solace in the knowledge that each is a better person for having known him.

TRIBUTE TO THE TOASTMASTERS
INTERNATIONAL AND SAVANNAH
TOASTMASTERS CLUB 705

HON. JACK KINGSTON

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 18, 1999

Mr. KINGSTON. Mr. Speaker, since October 1924 over three million men and women have benefitted from the superb communication and leadership programs of the Toastmasters. I am one of those 3 million. Today, I want to recognize Toastmasters International now in their 75th year of existence, and wish to commend the Savannah, Georgia, Toastmasters Club 705 on their own 50th anniversary.

Seventy-five years ago, Dr. Ralph C. Smedley, met with a group of men in the basement of a YMCA in Santa Ana, California and formed a club "to afford practice and training in the art of public speaking and in presiding over meetings, and to promote sociability and good fellowship among its members." Since 1924 that small group of men has grown into a remarkable non-profit organization with over 174,900 members representing 8,642 clubs in more than 60 countries around the world.

Toastmasters International has been referred to as "the world's premier self-improvement club." Through seventy-five years, millions of men and women have improved their leadership skills, self-confidence and communications abilities through the public speaking programs of Toastmasters International. "Home Improvements" star Tim Allen, Miss America 1996 Tara Dawn Holland, and Georgia Senator Sam Nunn are credited with being "celebrity Toastmasters". But it is our local businesses, Governments, and communities that benefit from the abilities gained by those who chose to become better listeners, thinkers, and speakers through involvement in this organization.

The Savannah, Georgia, Toastmasters Club 705, was chartered in 1949 and recently celebrated their 50th Anniversary. The third oldest of 179 chapters in Georgia, Club 705 members pride themselves on the long history of the organization, their outstanding members, and their standards of conduct that have improved many an individuals communications and leadership skills. The old stories of the six foot tall street traffic light that was used as a timer, the Claxon that provided a deafening overtime sound, or the infamous "AH Bucket" a tin can into which marbles were thrown whenever a speaker used a "non-word" reflect some of the tools of the trade to build talent in a fun, exciting atmosphere.

Over the passed 50 years the many members of Club 705 have developed their talents over time and have mentioned many a rookie in their communications ability. These are extraordinary members like Fred Stephens, Dick Piazza, Jack Homans, bill Kearny, Maggie Edinfield, Linda Cole, the current senior member Neil Bodenstien, and many others. Rookies like myself sincerely appreciate what

Toastmasters has done for us and for our communities, improving the listening, thinking, and speaking abilities of millions through their dedication and time. Special thanks to the current officers of Club 705; President Earl Berksteiner, Vice Presidents Peggy Keisker Gunn and Teresa Martinez, Secretary Debbie Cameron, Treasurer Michael Dubberly, and Sergeants at Arms Mark Stall and Neil Bodenstien. Congratulations to Toastmasters International and to Savannah Club 705—Happy Anniversary—here's to you!

PERSONAL EXPLANATION

HON. MIKE MCINTYRE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 18, 1999

Mr. MCINTYRE. Mr. Speaker, on Tuesday, November 16, 1999, I was with my father, who had open-heart surgery in the hospital, and therefore was unavoidably absent for rollcall votes 587 through 595. Had I been present I would have voted "yes" on rollcall vote 587, "yes" on rollcall vote 588, "yes" on rollcall vote 589, "no" on rollcall vote 590, "yes" on rollcall vote 591, "yes" on rollcall vote 592, "yes" on rollcall vote 593, "yes" on rollcall vote 594, and "no" on rollcall vote 595.

THE WIRELESS TELECOMMUNICATIONS SOURCING AND PRIVACY ACT

HON. CHARLES W. "CHIP" PICKERING

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 18, 1999

Mr. PICKERING. Mr. Speaker, I rise today to introduce the Wireless Telecommunications Sourcing and Privacy Act, and am pleased to be joined in introducing this legislation by several of my colleagues, including Mr. MARKEY, Mrs. WILSON and Mr. LARGENT.

This legislation is about nothing other than developing a fairer and simpler way to assign a wireless call to a jurisdiction for tax purposes. Let me be crystal clear at the outset—this proposal is about how the wireless industry administers state and local taxes. It does not reduce or change the wireless industry's tax obligations. This same simplicity will also help lower the cost to states and localities of administering taxes on wireless services. And, this all comes together for the wireless consumer—greater simplicity, lower costs, and reduced chances of getting caught in a "double-tax" situation where two tax jurisdictions are seeking to tax the same revenue.

There are some practical problems which can arise in the administration of state and local governments on wireless phone calls. For example, different jurisdictions may follow different methodologies making the determination of the correct taxation very difficult. Depending on the methodology a call could be taxed in the town or city where the customer is located; or, in the city or town where the wireless antenna is located; or, even in the city or town where the wireless switch is lo-

cated. The bottom line—it's confusing, it's costly, it's a practical problem we can fix with the legislation we are introducing today.

I would like to stress that this situation is born of good faith efforts of state and local governments to apply existing methods. The problem is that all existing methods do not necessarily work for wireless telecommunications and, due to that fact, sometimes different methods are applied to the same wireless call resulting in double-taxation and confusion.

I would like my colleagues to know that extensive discussion of various options to solve this problem has gone on over the past few years among several state and local government organizations—including the National Governor's Association, the National League of Cities, the Multistate Tax Commission, the Federation of Tax Administrators and others—and the Cellular Telecommunications Industry Association representing the wireless industry. Together, they have developed a new methodology for dealing with a complex problem—and that new methodology is embodied in the legislation I am introducing today.

Under the Wireless Telecommunications Sourcing and Privacy Act, all state & local telecommunications taxes would be assigned to one location—the customer's place of primary use—which must be either the customer's home or business address.

This new method of sourcing wireless revenues offers certainty and consistency in the application of tax law, and does so in a way that does not change the ability of states and localities to tax these revenues.

I want to also make it clear that this bill in no way provides any determination or has any impact on the work of the Advisory Commission on Electronic Commerce.

The bill also requires the General Accounting Office (GAO) to examine the Federal Communications Commission's (FCC) implementation of provisions of current law which requires the telecommunications industry to pay fees to recoup costs of regulatory functions. There has been concern that these fees have not in the past and are not presently being properly assessed. While I do not take a position on this matter at this time, I do think it is important to get a thorough examination of the issue. The GAO study will provide such a review.

Furthermore, the bill includes provisions of a bill introduced and led through the legislative process in the House by my fellow Commerce Committee colleague, Mrs. WILSON, on the issue of improving the privacy protections afforded users of wireless communications devices. This bill, H.R. 514, overwhelmingly passed the House earlier this year. Inclusion of these provisions in this bill is a natural partnering of wireless telecommunications issues and will ease member consideration of these important concepts.

Wireless customers will benefit because their monthly bills will be simpler and the possibility of double taxation of their mobile calls from competing jurisdictions will be greatly reduced. Tax administration will be simplified for both government and industry.

I want to thank my colleagues for joining me in introducing this legislation. I look forward to working with all of them to ensure the full and speedy consideration of this proposal. I urge all my colleagues to support this legislation.
