TRIBUTE TO DR. ENDRE A.
BALAZS

HON. STEVEN R. ROTHMAN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, January 27, 2000

Mr. ROTHMAN. Mr. Speaker, I rise today to honor a great scientist and entrepreneur on the occasion of his 80th birthday. Dr. Endre A. Balazs, who now lives in Fort Lee, NJ, was born in Hungary on January 10, 1920. He received his medical degree from the University of Budapest in 1943. During his studies in medical school D. Balazs began his life-long research into the medical uses of hyaluronan (HA)—a key molecular building block of the intercellular substances of the body.

As the world's foremost authority in the use of HA, Dr. Balazs started work on its medical application in the 1960's. His work on HA eventually led to the discovery of new therapeutic treatments that have made certain medical procedures safer and have accelerated post-operative healing periods. More recently, Dr. Balazs has introduced new methods to treat arthritis, an ailment that afflicts millions of Americans.

Soon after completing his studies at the University of Budapest in Hungary, Dr. Balazs traveled to Stockholm, Sweden, where he continued his research on the structure and biological function of sulfated polysaccharides and HA at the Karolinska Institute—the medical school of Stockholm. In 1951 he emigrated to the United States where he accepted a position in the Department of Ophthalmology at Harvard University.

In 1970 Dr. Balazs cofounded the Boston Biomedical Research Institute and became its first executive director. In 1975 he became the Malcolm P. Aldrich Research Professor of Ophthalmology at Columbia University in New York. He is the founder and for 25 years has served as editor in chief of Experimental Eye Research, the first international eye research journal ever published. He also is a founder and former president of the International Society for Eye Research.

In 1981 Dr. Balazs and his wife, Janet Denlinger, started Biomatrix, Inc., a firm involved in the development of hfyaluronan derivatives for medical applications and skin care. Today, Biomatrix is a publicly owned company that is based in Ridgefield, NJ.

Over the years, as both an educator and a businessman, Dr. Balazs has supported the research endeavors of many young scientists and physicians. In recognition of his efforts, the international ophthalmic research community has established the Endre A. Balazs Prize, an international award for outstanding research efforts by scientists.

Mr. Speaker, I am proud that Dr. Endre A. Balazs is my constituent. I wish him and his family the very best as he continues to bring to his work the energy, devotion, and innovation that has made him such a successful individual.

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, January 27, 2000

Mr. McINNIS. Mr. Speaker, I would like to ask that we all pause for a moment to remember a man we have lost. B.A. Jones was a man that many knew and loved. Mr. Jones passed away in Carrollton on November 6, 1999.

During World War II, the Government called upon him to travel the country recruiting, supervising and building numerous war-related projects. After the war, B.A. began construction work and subsequently formed his own remodeling and construction firm. In the late 1960's, B.A. began the family owned and operated Paradise Swimming Pool Corporation, using his self-taught architectural abilities to design and create many pools that are still operational to this day.

Mr. Jones is survived by his loved wife of 60 years, (Annie) Frances Cone Jones and their three children.

Mr. MENENDEZ. Mr. Speaker, I rise today to recognize Mrs. Dorothy Harrington of Bayonne, NJ, on being named one of this year's "Ireland 32" Millennium honorees.

Mrs. Harrington has had an exceptional career in the public arena. A longtime advocate for the education system in Bayonne, Mrs. Harrington was appointed to the Bayonne Board of Education from 1981 to 1986. Because of her vision and enthusiasm in this role, Mrs. Harrington became the first woman president of the Board.

Her success with the Board of Education and her desire to do more for the community led Mrs. Harrington to seek elected public office. During her time with the council, Mrs. Harrington acted as liaison on the Kill Van Kull dredging project and was instrumental in the circulating of information regarding many transportation projects in the city. Most significantly, Mrs. Harrington led the efforts in Bayonne to improve cable television service, to obtain the local television channel for residents, and to create a modern production studio in Bayonne High School.
