

RECOGNITION OF STEPHEN AND  
LAURA ERDEL

• Mr. BOND. Mr. President, I rise today to recognize a couple that has had a tremendous impact on my hometown of Mexico, Missouri; my good friends Stephen and Laura Erdel. Mr. President, these two have served the community in a variety of roles and on January 22 they were the recipients of the Mexico Area Chamber of Commerce 1999 Community Service Award.

Steve has served as a member of the Board of Directors of the Handishop, Inc. the Handi-Shop Endowment Fund, the Mexico Rotary Club, The Mexico Country Club, The Arthur Center Advisory Board, Mexico/Audrain County Community Development, Enterprise Development Corporation, Audrain Medical Center Charitable Foundation, the Advanced Technology Center Foundation, the Westminister College Board of Trustees, Missouri Military Academy, the Alan Woods Scholarship Foundation, the Roy Creasey Scholarship Foundation and the Ross D. Ferris Scholarship.

He has served as president of the Mexico Area Chamber of Commerce and as vice president of Economic Development. He was also president of the following organizations: Handishop, Inc., Mexico Country Club, Arthur Center Advisory Board and as chairman of the Audrain Medical Center Charitable Foundation, the Advanced Technology Center Foundation and as their fundraising chairman. He is currently on the Westminister College Executive Committee.

Mr. President, Laura Erdel also has an outstanding record of community service. Laura served as a member of the Mexico Board of Education for 6½ years. In 1996 she was the first woman to be elected president of the school board. She was vice president of the board for four years and is certified by the Missouri School Board Association. For seven years she also served as a weekly volunteer at Eugene Field School.

Laura was co-founder of the A+ for Mexico Education, Inc. and president for two years. She has served as a board member of the Methodist Preschool and on various committees of the Eugene Field PTO, Mexico Junior High School PTA, and Mexico High School PTA.

As a member of the White family, long-time publishers of the Mexico Ledger, Laura has supported the Audrain Historical Society as publicity chairman for five years, and was co-chairman of the Audrain County Fair in 1990. She is currently a member of the Presser Hall Restoration Society and has served on their board of directors. She has been a strong supporter of the YMCA as a board member and has worked on numerous fund drives.

Laura is a former member of the Mexico Women's Club, a past president of the Wednesday Club and served as president of P.E.O. Chapter MB from 1989 to 1991 and again in 1998-99. Fur-

thermore, Laura was also the physician recruiter for Audrain Medical Center for ten years and has been a freelance reporter for the Mid-Missouri Business Journal.

Mr. President, it is people like this, who are willing to serve, that make our communities better places to live. I ask that my colleagues join me in recognition of Steve and Laura Erdel, who serve as an example to us all. •

A TRIBUTE TO U.S. ATTORNEY  
MICHAEL SKINNER

• Mr. BREAUX. Mr. President, I wish to note the departure from public life of one of our state's most gifted public servants. Michael Skinner, who has served for the past six years as U.S. Attorney for the Western District of Louisiana, the largest geographical district in my home state, left office on January 15 and has returned to the private practice of law in Lafayette.

It is no exaggeration to say that Michael Skinner will be remembered as the most effective and successful U.S. Attorney in the history of the Western District of Louisiana. From almost his first day in office, he set about to make it clear to the people of his district that the U.S. Attorney's office was their office, administering justice on their behalf and for their benefit. In short order, he threw open the doors of his office, demystified the work of the U.S. Attorney and instilled a renewed sense of confidence and enthusiasm for the administration of justice in the Western District of Louisiana. Judges, attorneys, citizens and scores of public officials from Lafayette to Lake Charles to Alexandria to Shreveport to Monroe agreed that Michael Skinner's appointment was a true breath of fresh air.

Mr. Skinner's record as U.S. Attorney is an impressive one. He successfully prosecuted scores of cases involving public corruption, violent crime, drugs, health care and other types of program fraud, environmental crime and civil rights violations. Some of his most successful cases included: Food stamp and Medicaid/Medicare indictments and convictions that uncovered millions in fraud; a child pornography investigation that broke a child prostitution ring in South Louisiana; an environmental investigation that resulted in the cleanups of several south Louisiana toxic waste dumps; and the prosecution of literally hundreds of drug dealers who admitted or were convicted of selling drugs in Louisiana.

Mr. President, I am proud to have recommended Michael Skinner's nomination to President Clinton in 1993. In the years since his confirmation by this body, I have watched with a mixture of pride and admiration as he performed the duties of his office with a rare combination of skill, integrity, compassion and determination. Mike Skinner represents the best that our country has to offer in its public servants and I believe that he will serve as

the model for every person who follows him in that office. I know that I speak for the citizens of Louisiana and for every member of this body in thanking him for a job well done and in wishing he and his family all the best in this new phase of their lives. •

IN MEMORY OF EMILY ANN JORDT

• Mr. GRASSLEY. Mr. President, I rise today to honor the memory of an extraordinary and courageous young lady. Emily Ann Jordt, daughter of Bill and Deb Jordt of Hinton, Iowa, passed away on March 15, 1999, after fighting cancer for three years. My heart is heavy for the Jordt family. No one would disagree that cancer is a devastating illness. However, when cancer touches the life of a child, it seems an especially harsh reality. I know from personal experience the difficulties that follow a cancer diagnosis. My wife, Barbara, is a breast cancer survivor and we believe early detection saved her life. I have long supported biomedical research, and Emily's story reminds all of us the importance of remaining vigilant in providing funding for cancer research. To quote Emily, "We can do this together." It is my hope that by sharing Emily's story with my colleagues in the Senate, Emily's memory may be truly honored.

EMILY'S STORY—A LIFE OF STRENGTH AND  
COURAGE

Emily was diagnosed with rhabdomyosarcoma, an aggressive childhood cancer, in 1996 when she was only nine years old. While this cancer is usually found in muscle tissue in an extremity, Emily's was in her jaw and neck. Emily was frightened. Her grandfather had died of lung cancer. Emily came to understand that there were many kinds of cancers, and that not everyone dies of this disease. Emily joined her family and doctors in what was to become a three-year fight for her life.

Emily had surgery to remove a tumor below her lower right jaw. Her best chance for remission was simultaneous radiation and chemotherapy treatment. Even though interruptions in the harsh protocol were needed for her body to recover, radiation was completed, and chemotherapy resumed.

After radiation Emily had difficulty with muscles of her tongue and throat. A feeding tube was surgically implanted and she used a suction machine to clear her throat and airways. She bravely adjusted to this life-style.

Emily dearly loved school. She maintained an A-B average throughout her illness. She played trumpet in the school band. When a facial nerve was impaired because of surgery, she switched to percussion and continued on. She served as a customer representative of the Westerner Bank in her school. She was an ardent fundraiser for school projects. Her classmates regarded her as a peacemaker.

Emily played soccer in a YMCA league throughout her treatment. She loved the sport. She was back on the soccer field and played most of a full game only 11 days after having major surgery to remove the tumor a second time.

Emily planned and presented a writer's workshop entitled "Getting through the Tough Stuff" where she encouraged young people her age to use writing as a vehicle to deal with the difficult challenges of life and be sensitive and caring to others.

Picture a nine-year-old presenting her concerns about and suggestions for pediatric

care to the Board of Directors of the hospital where she spent a great deal of time. Emily did it. She believed that one person can make a difference. And Emily did make a difference.

Emily was active in 4-H, serving as vice-president of her club. She chose many categories in which to participate, everything from showing her 4-month old filly to playing the piano in Share the Fun. She presented a written and visual display of items used throughout her surgeries and treatment. For this she was awarded an Outstanding Junior Achievement Ribbon.

Emily took an active part in Relay for Life in her county. She served as Junior Chairperson, giving a speech the night of the event. She enlisted the help of her classmates and teachers to help publicize events.

As only a child can, Emily leaned on her faith to see her through. Church was important to Emily. She took communion instruction, participated in youth group activities, sang and provided special music for worship. She willingly served church dinners. She helped to organize a basketball team and enlisted a neighbor to be their coach. This team won the Good Sportsmanship trophy.

Emily maintained a positive and determined attitude. When traditional treatments became ineffective, she willingly tried non-traditional methods. She clung to the hope that she would again be as normal as the other kids. While the disease took her life on March 15, 1999, it could not crush her spirit. It was that very same spirit that caused her to fight to the very end.

Emily fought this illness for three long years, showing that with strength, determination, and courage, life is to be lived. Emily strongly believed the scripture verses that say, "Let the children come to me for such is the kingdom of God," and "A Child Shall Lead." Let us capture the essence of Emily's spirit, follow her lead, and make a difference.

IN MEMORY AND CELEBRATION OF THE LIFE OF  
EMILY ANN JORDT, FEBRUARY 15, 1987-  
MARCH 15, 1999

Emily's life is meant to be more than just one more sad account of how a child, a person, died from cancer. It is meant to make us uncomfortable. It is meant to make us weep. Then, it is meant to make us determined to act—to do something.

Finding a cure for cancer is a very difficult but not impossible task. What is needed to do that? An open mind. When we keep our minds open, ideas and possibilities can flow. One of Emily's favorite movies as a young child was Cinderella. In that movie we hear the line, "Impossible things are happening every day."

As lawmakers, do not tie the hands of researchers because dollars are limited. Do not tie the hands of researchers from exploring avenues that may be out of the ordinary.

Emily did not care about the insurance companies and the drug companies playing the games that they play to control what happens to people's lives. What she cared about was playing soccer, learning, sharing her talents, having birthday parties, being a friend, all the things that children do best.

We must listen to her story with renewed commitment of why most of you were elected, to make a difference.

Emily continues to make a difference each time her story is told. Her video continues to play at fundraisers for Children's Miracle Network. Each time "Em's Environmental Mobile Lab" (that was purchased through memorials and a grant) is taken on site to provide hands on learning for the students at Akron-Westfield Community School, Emily continues to make a difference. When the

CEO of the hospital where Emily spent so much times says, "I am a different person because of what Emily has taught me and that will make me a better CEO," you know that Emily has truly made a difference!

Have you made that kind of difference? Emily sacrificed her life so that we, you and I, might see more clearly what our job is.

A phrase that Emily and her family adopted as their motto is, "We can do this together." We as her family and friends are making a difference by addressing you as our representatives. Now, it is your chance to make a difference, to vote for additional funding for cancer research, and to clear the way for the impossible to happen.

"Let us capture the essence of Emily's spirit, follow her lead, and make a difference."

DEBRA L. JORDT.  
WILLIAM G. JORDT.  
BETTY V. JORDT.●

BRIGADIER GENERAL BETTYE H.  
SIMMONS

● Mr. INOUE. Mr. President, I would like to take a moment to honor Brigadier General Bettye H. Simmons as she retires after twenty-nine years of active duty service in the United States Army. General Simmons culminates her distinguished career as Chief, Army Nurse Corps and Commander, United States Army Center for Health Promotion and Preventive Medicine.

General Simmons' distinguished career began in 1971 when she entered the Army nurse Corps through the Army Student Nurse Program. Her numerous military assignments have been diverse, including leadership roles in clinical services, staff education and development, and Army Medical Service administration and policy. As the Chief, Army Nurse Corps, General Simmons demanded the highest standards for military nursing. With other military nursing leaders, General Simmons ensured that a Bachelor of Science education is the minimum qualification for entry on to active duty for any military nurse. She was the driving force behind the multi-million dollar Triservice Nursing Research Program, a program focused on research that develops best practices for nursing care. General Simmons initiated a post-deployment program for injured Army Reserve soldiers that determined the appropriate level of medical care before the soldier returns home. This program saved countless dollars in civilian health care costs and honored the commitment to care for our Reserve Forces. As Command Surgeon for Forces Command, General Simmons improved unit medical readiness by 20 percent. She redesigned the battlefield evacuation process, providing a lightweight, robust capability to ensure the right medical care is provided to the soldier at the right time and at the right place. Her contributions are far-reaching, and will impact military nursing and health care for years to come.

Mr. President, more than fifty years ago, as I was recovering in a military hospital, I began to understand the

critical role of military nurses. General Simmons embodies what I know military nurses to be—strong, professional leaders who are committed to serving their fellow comrades in arms and their country. General Simmons' many meritorious awards and decorations demonstrate her contributions in a tangible way, but it is the legacy she leaves behind for the Army Nurse Corps for which we are most appreciative. It is with pride that I congratulate General Simmons on her outstanding career of exemplary service.●

RECOGNITION OF BRENT  
STANGHELLE

● Mr. BURNS. Mr. President, I rise today to recognize Brent Stanghelle who has been an integral asset to Montana's agricultural scene.

Brent Stanghelle has been the voice of agriculture for North Central Montana for several years. Broadcasting from Great Falls, Montana at KMON, Brent has brought the agricultural news to producers faithfully. Brent has proven himself to be a true friend of Montana's natural resource-based economy.

Brent Stanghelle has made the decision to move on and pursue other agriculturally related interests in his life. With his parting, there will be a quiet spot on the air for many listeners.

I extend my thanks to Brent Stanghelle for a job well done. He was trusted and relied upon by many producers. He has dedicated many years to keeping the voice of agriculture alive and "on the air" in North Central Montana. His work and dedication have not gone unnoticed.●

CATHOLIC SCHOOLS WEEK

● Mr. FITZGERALD. Mr. President, today is the fifth day of the 26th annual Catholic Schools Week, and tomorrow, we will observe National Appreciation Day for Catholic School Teachers. I want to take this opportunity to recognize the 167,000 teachers in our nation's Catholic schools for their valuable contributions to the education of many of America's children.

There are over 2 million students enrolled in the nation's 8,217 Catholic elementary and secondary schools today. These schools are attractive to many parents because they combine an intellectually stimulating environment with an emphasis on the spiritual and moral development of their students.

Catholic school teachers are widely recognized for offering an excellent scholastic education, which may explain why 41 percent of these schools have a waiting list for admission. According to the National Catholic Educational Association, the student-teacher ratio in Catholic schools is 17 to 1, and the graduation rate of Catholic school students is an extraordinary 95 percent. Only 3 percent of Catholic high school students drop out of
