purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. The amendments printed in the report of the Committee on Rules accompanying this resolution shall be considered as adopted in the House and in the Committee of the Whole. Points of order against provisions in the bill, as amended, for failure to comply with clause 2 of rule XXI are waived except as follows: beginning with "Provided further" on page 8, line 17, through line 20; beginning with "Provided further" on page 13, line 24, through page 14, line 8; "Notwithstanding any other provision of law," on page 20, line 18; "Notwithstanding any other provision of law," on page 26, line 15; "Notwithstanding any other provision of law," on page 27, lines 15 and 16; "Notwithstanding any other provision of law," on page 33, line 24; beginning with "Provided" on page 36, line 15, through line 20; page 51, line 13, through page 52, line 18. The SPEAKER pro tempore. The gentleman from New York (Mr. REYNOLDS) is recognized for 1 hour.

Mr. REYNOLDS. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Ohio (Mr. HALL), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

(Mr. REYNOLDS asked and was given permission to revise and extend his remarks, and include extraneous material.)

Mr. REYNOLDS. Mr. Speaker, House Resolution 505 is an open rule providing for consideration of H.R. 4475, the Department of Transportation and Related Agencies Appropriations Act for fiscal year 2001. The rule waives all points of order against consideration of the bill and provides for 1 hour of gen-

eral debate to be equally divided between the chairman and the ranking minority member of the Committee on Appropriations. The rule further provides that amendments printed in the Committee on Rules report accompanying this resolution shall be considered as adopted.

In addition, the rule waives clause 2 of rule XXI prohibiting unauthorized or legislative provisions in an appropriations bill against provisions in the bill, as amended, except as otherwise specified in the rule. Additionally, the rule authorizes the Chair to accord priority in recognition to Members who have preprinted their amendments in the CONGRESSIONAL RECORD. The rule also allows the Chairman of the Committee of the Whole to postpone votes during consideration of the bill and to reduce votes to 5 minutes on a postponed question if the vote follows a 15-minute vote. Finally, the rule provides one motion to recommit, with or without instructions.

Mr. Speaker, H.R. 4475 continues the Republican Congress' focus on safety for all modes of transportation. Whether cross-town or cross-country, by car, train or plane, ensuring the safety and efficiency of our transportation networks is one of the Federal Government's highest responsibilities. The underlying bill is the product of the Committee on Appropriations Subcommittee on Transportation's extensive hearings and careful consideration of each section of the Department of Transportation and related agencies.

The bill seeks to improve and enhance the safety and capacity of the aviation system and highway and rail networks. It makes runway prevention systems and devices eligible for airport improvement funds and directs the FAA to grant such requests for discretionary funding the highest priority.

Additionally, the bill provides nearly \$700 million for airline regulation and certification activities, an increase of over \$28 million from the fiscal year 2000 enacted levels. The bill also includes \$28 million to address effects of hazardous weather on aviation, an increase of over 44 percent. To further advances made to aircraft safety technology, the bill includes an increase of over \$14 million from fiscal year 2000 levels.

Additionally, the bill provides a \$72 million increase for motor carrier safety grants, consistent with truck safety reforms enacted as part of the Motor Carrier Safety Act of 1999, and increases investment to critical highway safety research and development of smart vehicle technologies.

The bill meets the funding obligations for the highway and aviation accounts as prescribed by the recent TEA-21 and AIR-21 reauthorization bills. These programs are critical to improvements and modernization of our roadways and our airways, providing desperately needed funds across the Nation.
