

very best wishes to all those gathered at the 50th Anniversary celebration of the University of Maryland University College (UMUC) serving the United States military in Europe. I am pleased to take part in recognizing the long-standing tradition that this institution continues to uphold in ensuring quality higher education for our servicemembers overseas.

It has always been my firm belief that a democracy cannot prosper and grow without an educated populace, and therefore the education of the individual is one of the most important tasks in our society. The success and growth of UMUC is a critical testament to the importance of educational opportunities for our military personnel in Europe. From its inception, this institution has viewed higher education from a global perspective, an approach which has put UMUC at the forefront of the larger higher education community.

Following World War II, when the United States military invited American universities to provide higher educational programs to servicemembers at military installations throughout Europe, UMUC was the only institution to respond. This began a historic 50 year partnership with the military in Europe and starting in 1956, in Asia as well. The noted British scholar Arnold Toynbee wrote that the UMUC program in Europe is "an American achievement from which the rest of the world has much to learn."

Since the first year, UMUC has offered educational opportunities to hundreds of thousands of our men and women overseas. Even now, it is wonderful to hear that this tradition continues in many locations at long established military installations in Germany, Britain, Italy, and Spain including temporary facilities in Kosovo and Bosnia.

I commend the University of Maryland University College for its 50 year history of unparalleled service and success in the field of education and I look forward to a continued close association with this exemplary institution.●

#### TRIBUTE TO CHARLES ORAN LITTLE

● Mr. MCCONNELL. Mr. President, I rise today to honor my good friend and fellow Kentuckian Oran Little on the occasion of his retirement as dean of the University of Kentucky's College of Agriculture.

Oran taught at UK for 25 years, and served as a highly-respected and well-liked leader for UK's students and faculty for 12 years as Dean of the College of Agriculture. Under his tenure, new facilities were built, old facilities were renovated, and innovative educational programs were launched. An Agricultural Engineering Building, Regulatory Services Building, Animal Research Center, and Plant Science Building all took root during Oran's 12 years as dean. He also facilitated the creation

of international exchange programs, faculty and student councils, and numerous agricultural development programs. Oran may be leaving UK in body, but the school will benefit from his enterprising spirit and the tangible improvements he made as the College of Agriculture's dean for years to come.

Oran's long list of awards is as impressive as his lengthy list of accomplishments. His knowledge and experience have not gone unnoticed by other Kentucky agricultural institutions. Oran has received awards from the Kentucky Seed Improvement Association, Bowling Green/Warren County Chamber of Commerce, Greater Lexington Convention & Visitors Bureau, Soil and Water Conservation Society, UK Alumni Association, Kentucky 4-H, Kentucky Pork Producers Association, and the Kentucky Cattlemen's Association.

Oran has a long history with UK, serving as assistant professor, associate professor, professor, coordinator of animal nutrition research and teaching, associate dean for research, director of the Kentucky agricultural experiment station, coordinator of graduate programs in agriculture, and finally as dean of the College of Agriculture. Oran earned respect the old-fashioned way, through years of hard-work and a sincere concern for students, teachers and faculty at the University of Kentucky.

Over the years, Oran and I have worked together on many projects at UK. With Oran's wealth of knowledge about the University, he has been an essential resource in targeting the needs of UK and communicating how Congress can help meet those needs. It has always been a pleasure to work with Oran and I will miss him a great deal. I have no doubt, however, that he will stay involved with UK's College of Agriculture and that we will continue to hear from him in the future.

Oran, on behalf of myself and my colleagues, I wish you all the best as you enter retirement and I thank you for your many successful efforts to make UK a better place to work and learn.●

#### VICTIMS OF GUN VIOLENCE

● Mr. REED. Mr. President, it has been more than a year since the Columbine tragedy, and still this Republican Congress refuses to act on sensible gun legislation.

Since Columbine, thousands of Americans have been killed by gunfire. Until we act, Democrats in the Senate will read some of the names of those who lost their lives to gun violence in the past year, and we will continue to do so every day that the Senate is in session.

In the name of those who died, we will continue this fight.

Following are the names of just some of the people who were killed by gunfire one year ago on May 19, 20, and 21.

May 19, 1999:

Clarence Arnold, 32, Knoxville, TN

Troy Blando, 39, Houston, TX  
Don T. Huey, 32, Houston, TX  
David Johnson, 31, Houston, TX  
Booker Miles, 27, Louisville, KY  
James Nash, 40, Atlanta, GA  
Leon Pickett, Detroit, MI  
Mark Thompson, 31, Baltimore, MD  
Willie D. Watts, 39, Gary, IN  
Cedric White, 19, Atlanta, GA

May 20, 1999:

Eric Michael Allen, 30, Detroit, MI  
Roderick R. Brown, 27, Memphis, TN  
John Cosgrove, 71, Miami-Dade County, FL

Paul Davis, 28, Chicago, IL

Stephen Entsminger, 49, Davenport, IA

Maria Josefina Eslava, 23, Houston, TX

Curtis O. Green, 17, Chicago, IL  
Travis Johnson, 20, Rockford, IL  
Demarcus Kelly, 26, Atlanta, GA  
Aaron Murphy, Jr., 40, Macon, GA  
Kevin Stokes, 27, Atlanta, GA  
Male, 56, Honolulu, HI

May 21, 1999:

James Alberts, 35, Bridgeport, CT  
Quan Bell, 28, Detroit, MI  
Edward Belton, 18, St. Louis, MO  
Richard Daniels, 27, Fort Worth, TX  
Anthony Houston, 21, Detroit, MI  
Michelle Jackson, 21, St. Louis, MO  
Steven Jupiter, 19, Baltimore MD  
Werner Muense, 81, Minneapolis, MN  
John Minaya, 19, Providence, RI  
Karl Paul Pitts, 22, Detroit, MI  
Michael Marion Raymond, 22, Washington, DC

Oswaldo Rodriquez, 23, Houston, TX  
Sheri Thielen, 40, Minneapolis, MN  
May 19, 1999 (Houston, Texas):

Police Officer Troy Blando was fatally shot while attempting to arrest an auto theft suspect. Jeffery Demond Williams pulled into a parking lot in a stolen Lexus, and the 39-year-old Blando, working on the auto theft task force, was undercover in an unmarked vehicle. Blando approached Williams after he had run a check on the license plate and discovered the vehicle had been stolen.

A struggle ensued, and Blando put away his gun as he tried to handcuff the suspect's wrists. At that point, Williams pulled out a gun and shot the police officer, who was pronounced dead later that evening after doctors were unable to save him.

Police Officer Troy Blando is survived by his widow who suffers from multiple sclerosis, and his 14-year-old son. Williams has been convicted and sentenced to die.

May 20, 1999 (Conyers, Georgia):

As students mingled before class at Heritage High School in Conyers, Georgia, on May 20, 1999, fifteen-year-old Thomas Solomon pulled out a rifle and a handgun and began to open fire. Six students were injured and an assistant principal had to talk Solomon out of killing himself after he put a gun in his mouth. This incident took place exactly one month after Littleton, Colorado.

May 21, 1999 (Providence, Rhode Island):

Twenty-four-year-old John Minaya was accosted and fatally shot outside a busy Dairy Queen ice cream shop in Providence's West End early on the evening of May 21, 1999. Officers found Minaya lying on the pavement in the parking lot shortly after 7:00 p.m. He had been hit more than once, and people were ministering to him. He was taken to Rhode Island Hospital, but he died within minutes.

Though it was still springtime, Minaya was Providence's 13th homicide victim of 1999, a year in which there were ultimately 26 murders in the city, up from 15 in 1998 and 13 in 1997. The majority of these killings were committed with firearms, and most of these were handguns.

The children and families who witnessed the shooting of John Minaya in broad daylight at a Dairy Queen in Providence will carry the horrific memory of that day with them for as long as they live. We should do our part to ensure that fewer Americans experience gun violence by passing common sense gun legislation without further delay.●

#### A TRIBUTE TO OUR MEN AND WOMEN IN UNIFORM

● Mr. ALLARD. Mr. President, Saturday, May 20th was Armed Forces Day and I can think of no better time to honor those who serve this great country in the United States military. The millions of active duty personnel who have so unselfishly dedicated their lives to protecting freedom deserve the highest degree of respect and a day of honor.

I recently had the privilege of being invited to tour the U.S.S. *Enterprise* during a training mission off the Florida coast. My experience aboard the *Enterprise* reminded me of the awesome power and strength of the United States military. But more importantly, it reminded me of the hard work and sacrifice of the men and women serving in our armed forces.

The U.S.S. *Enterprise* was commissioned on Sept. 24, 1960 and was the world's first nuclear-powered aircraft carrier. This incredible ship is the largest carrier in the Naval fleet at 1,123 feet long and 250 feet high. While walking along the 4.47 acre flight deck with Captain James A. Winnefeld, Jr., Commanding Officer, it was amazing to learn that "The Big E" remains the fastest combatant in the world.

Spending two days touring the *Enterprise* showed me what a hard working and knowledgeable military force we have. As I moved through the ship I was greeted with enthusiasm, as sailors explained the ship's equipment and their role as part of the *Enterprise* crew. At full staff, the "Big E," as it is affectionately known, has over 5,000 crew members from every state of the Union, most of whom are between 18 and 24 years old. These young adults are charged with maintaining and operating the largest air craft carrier in

the world and guiding multimillion-dollar airplanes as they land on a floating runway. I was in awe of these men and women who work harder and have more responsibility than many people do in a lifetime.

"The Big E" is a ship that never sleeps, it operates twenty four hours a day, seven days a week. I watched as a handful of tired pilots sat down for 'dinner' at 10:30 p.m. on a Sunday night. Hungry and tired, they wanted it no other way. I had the privilege of joining Captain Winnefeld in honoring the 'Sailor of the Day' for spending three consecutive days repairing broken machinery, taking only a few 30 minute breaks to sleep. I witnessed the same degree of commitment in a separate part of the ship as an eager technician showed me how the cables on the flight deck operate and are maintained below. His task for the past two days was to create the metal attachment which holds one of the four arresting tailhook cables together and his voice was filled with pride as he explained the entire 8 hour process. Between giving orders to his crew, he pointed out a few tiny air bubbles that formed during the cooling process of the metal attachment. Although he started his shift at 4:30 a.m. and probably won't sleep for the next 24 hours, he smiles and tells me it will be redone, that it must be perfect—the lives of our pilots are at risk if it is not. The amazing thing is, they all do it with a smile.

When I think about Armed Forces Day, I think about two events I experienced on the *Enterprise*. First, are the sailors from across Colorado who sat down for breakfast with me in the enlisted mess hall, who gleamed with pride for the job they do and the important role they play in our nation's defense. Second, was the "Town Hall meeting" I held, where I responded to questions and concerns ranging from military health care to Social Security, from members of the crew. These one on one interactions were extremely valuable to me and I learned as much from these events as the crew did.

I have never witnessed a more dedicated or hard working group of people than the crew of the U.S.S. *Enterprise*. It makes me proud when I realize that the "Big E" crew is representative of the millions of American military personnel throughout the world. Nevermind that many of them could be paid more money for less work in a civilian job, may not get eight hours sleep each night or see their families for weeks at a time—they make those sacrifices for the country they love.

I hope that Coloradans will join me in using Armed Forces Day to thank those who are serving in the best military force in the world.●

S. 2581

● Mr. HOLLINGS. Mr. President, I am pleased to cosponsor legislation introduced by Senator SESSIONS, S. 2581, the Historically Women's Public Colleges

or Universities Historic Building Restoration and Preservation Act.

There were seven historic women's public colleges or universities founded in the United States between 1884 and 1908 to provide industrial and vocational education for women who at the time, could not attend other public academic institutions. These schools are now coeducational but retain some of the significant historical and academic features of those pioneering efforts to educate women.

Let me take this time to tell you about one of these schools, Winthrop University, located in South Carolina. Winthrop's history dates back to 1886 when 21 students gathered in a borrowed one-room building in Columbia, S.C. David Bancroft Johnson, a dedicated and gifted superintendent of schools, headed up the fledgling institution whose mission was the education of teachers. Winthrop has changed considerably since moving to its permanent Rock Hill, S.C. home in 1895, growing from a single classroom to a comprehensive university of distinction. The institution became co-educational in 1974 and assumed university designation in 1992.

Like similar institutions founded as historically women's colleges and universities, the Winthrop University campus hosts numerous historic buildings—buildings that are expensive to adapt and/or maintain for modern-day uses essential to public higher education in the 21st century. Also, like similar institutions, many of Winthrop's alumni were women of modest means who were unable to make the kind of substantial private donations that would have enabled the University to build a strong endowment throughout its history. Nonetheless, this campus is significant and is worthy of federal support to assure that its distinctive role in U.S. history is not lost.●

#### NATIONAL SMALL BUSINESS WEEK

● Mr. GRAMS. Mr. President, today I pay tribute to America's small businesses—the backbone of our Nation's vibrant economy. As my colleagues may know, the week of May 21-27 is recognized as "National Small Business Week."

Small businesses have always been one of the leading providers of jobs in our country. According to the Small Business Administration, small businesses employ 52 percent of the private workforce and account for 35 percent of federal contract dollars. Small businesses produce 38 percent of jobs in high-technology industries, and small- and medium-sized companies comprise 96 percent of all exporters and 30 percent of all exports. These statistics underscore the important role the small business community will have toward developing a 21st century economy that is global and technologically driven.

In particular, I am very pleased with the tremendous growth in women-
