IN SUPPORT OF THE FISCAL YEAR
2001 AGRICULTURE APPROPRIATIONS
CONFERENCE REPORT

HON. JAMES H. MALONEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 24, 2000

Mr. MALONEY of Connecticut. Mr. Speaker, I rise in support of H.R. 4461, the Fiscal Year Agriculture Appropriations Conference report. Although this bill is flawed, it contains critical provisions which reflect my commitment to providing seniors access to lifesaving prescription medications. The measure provides \$78.5 billion—\$3 billion more than the House-passed bill—for critical programs from prescription drugs to hunger, food safety, and clean water.

I vigorously support efforts to increase seniors' access to affordable prescription drugs. This Conference agreement allows U.S. pharmacies and wholesalers to buy American-made prescription drugs abroad and reimport them into the United States. Since these drugs are often sold abroad at prices significantly below those charged in the United States, America consumers will be able to purchase these reimported drugs at lower prices than they would otherwise pay.

Although I support the reimportation provisions, this step should not be mistaken as a substitute for much-needed prescription drug coverage under Medicare. I continue to urge my colleagues to join me in calling for the enactment of a comprehensive prescription drug program to be included as a part of all Seniors' basic Medicare benefits.

In addition to addressing the problem of prescription drugs for seniors, the Conferees have taken steps to ameliorate several other pivotal issues in the House-passed bill. The report addresses the ongoing prevalence of hunger and food insecurity in America by incorporating sections of H.R. 3192, the Hunger Relief Act. Low-income families are currently disqualified from participation in the food stamp program if they own a car worth more than \$4,650, or if they pay monthly housing costs of more than \$275. As a cosponsor of the Hunger Relief Act, I am pleased that under this report both vehicle and housing expenses would be updated to more accurately reflect the expense of reliable transportation, and the high cost of housing incurred by America's working families—allowing increased participation in the nation's first line of defense against hunger.

The measure also improves upon the House bill by providing sufficient funding for critical food safety and conservation programs. The Conference measure increased funding for the Food Safety and Inspection Service by more than \$22 million, which will help minimize contamination and ensure consumer food safety. Additionally, the bill provides additional funding for state water quality grants and conservation programs, which include essential flood prevention operations.

Unfortunately, the Conference committee did not act in the best interest of our children, or our farmers, when it agreed to a \$500 million subsidy for tobacco companies. I have worked hard to protect America's children from

the dangers of tobacco, and I have supported long-term solutions to the fundamental problems facing the small family-run tobacco farm, which is why I am deeply dismayed that the Conferees have included such an ill conceived provision that undermines the health of our children and the viability of the struggling family farm.

My colleagues, as unsatisfactory as some of the provisions in this bill may be, it is up to us to do everything in our power to provide access to prescription drugs that can mean the difference between life and death, or between health and chronic disease, for senior citizens. Although the Agriculture Appropriations Conference Report is not a perfect bill, I urge you not to let the perfect be the enemy of the good. For that reason, I support H.R. 4461, the Fiscal Year 2001 Agriculture Appropriations Conference report.

INDIAN GOVERNMENT INFILTRATING ORGANIZATIONS TO PROMOTE THE SPECTRE OF "TERRORISM" IN PUNJAB

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 24, 2000

Mr. TOWNS. Mr. Speaker, it has recently come to light that the police in Punjab have been planting RDX explosives on members of the Babbar Khalsa organization in Punjab and then killing them in encounters, claiming that they are importing the explosives from Pakistan.

The Indian government is known to have infiltrated the organization's top levels. They used their agents within this and other organizations to carry out the bombing of their own Air India airliner off Canada in 1985, which killed 329 innocent people.

In November 1994, the Hitavada, an Indian newspaper, reported that the Indian government paid \$1.5 billion to the late Governor of Punjab, a man named Surendra Nath, to foment terrorist activity in Punjab and Kashmir. In March, according to two extensive investigations, the Indian government murdered 35 Sikhs in the village of Chithi Singhpora. Between 1993 and 1994, 50,000 Sikhs "disappeared" at the hands of Indian forces. According to Amnesty International, there are thousands of political prisoners being held without charge or trial. Human-rights activists say that there are 50,000 Sikh political prisoners alone. The Akali Dal government in Punjab promised to get these political prisoners released, buy they have made no move to do so.

Mr. Speaker, it is clear who the real terrorists are. As the defenders of freedom and democracy, America must declare India a terrorist state and cut off its aid until the terrorism and human-rights violations end. We should also declare our support for protecting the rights of Sikhs, Christians, Muslims, and other minorities by supporting self-determination for their homelands in the form of a free and fair plebiscite on their political status, with international supervision to make sure that neither side tries to corrupt the vote.

Mr. Speaker, the Council of Khalistan has issued a press release on the Indian government's effort to revive the spectre of "terrorism" in Punjab by planting RDX explosives on Sikh activists. I encourage all my colleagues to read this informative press release, and I would like to insert it into the RECORD at this time.

BABBAR KHALSA MEMBERS BEING KILLED FOR RDX—PLANTING EXPLOSIVE IS MODUS OPERANDI OF INDIAN INTELLIGENCE

INDIAN GOVERNMENT HAS INFILTRATED SIKH ORGANIZATIONS

WASHINGTON, D.C., October 24, 2000.—Punjab Police have been killing members of Babbar Khalsa in encounters in Punjab, claiming that they are bringing RDX explosives in from Pakistan. Planting RDX explosives is the modus operandi of the Indian government. A few years ago, they planted RDX in the car of an American businessman who was visiting Punjab and Pakistan to visit relatives and religious shrines.

"The Indian government has infiltrated the top levels of Babbar Khalsa," said Dr. Gurmit Singh Aulakh, President of the
