

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2002

The SPEAKER pro tempore. Pursuant to the order of the House of Wednesday, September 19, 2001, and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 2586.

The Chair designates the gentleman from Illinois (Mrs. BIGGERT) as Chairman of the Committee of the Whole, and requests the gentleman from Kentucky (Mr. WHITFIELD) to assume the chair temporarily.

□ 1247

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 2586) to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2002, and for other purposes, with Mr. WHITFIELD (Chairman pro tempore) in the chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore. Pursuant to the order of the House of Wednesday, September 19, 2001, the bill is considered as having been read the first time.

Pursuant to the order of the House of today, the gentleman from Arizona (Mr. STUMP) and the gentleman from Missouri (Mr. SKELTON) each will control 1 hour.

The Chair recognizes the gentleman from Arizona (Mr. STUMP).

Mr. STUMP. Mr. Chairman, I yield myself such time as I may consume.

On August 1, the Committee on Armed Services reported H.R. 2586 with strong bipartisan support, a vote of 58-1.

The bill authorizes appropriations for the Department of Defense and for the Department of Energy national security programs for a total of \$343 billion in budget authority, consistent with the President's amended defense budget request.

Mr. Chairman, normally at this point we cover all the various initiatives in the bill and why this is a strong proposal to support our men and women in uniform. This bill is all that and more.

The bill contains the largest military pay increase since 1982 and provides significant increases in funding for critical military readiness accounts. The bill also makes great strides in beginning to fix our crumbling military infrastructure and makes a modest down payment on our next priority, the modernization of our aging fleet of combat equipment.

However, the bill also reflects the reality that existed prior to last Tuesday's terrorist attacks on the United States.

The tragic events of September 11, 2001, have changed our Nation. They exposed our vulnerability to terrorism and removed forever the belief that

Americans here at home were safe from the kinds of barbaric attacks that have occurred against our citizens, our military personnel, and our friends and allies overseas. We now know that America itself is a target and that terrorists will not hesitate to use whatever means at their disposal to kill innocent Americans on a massive scale.

The terrorists' actions were deliberate and calculated. Our response must be as well. Once again, our Armed Forces are being called upon to defend this great Nation, this time from the scourge of terrorism. I have no doubt that they will rise to the occasion. But we must ensure that they have the proper tools and resources to do the job, now and in the future.

H.R. 2586 provides our men and women in uniform with the tools they need to combat the challenges our country will face in the next decade and beyond. The bill goes a long way toward helping our military recover from the devastating effects of the chronic underfunding that has taken place over the past 8 years. It is a critical step toward ensuring that the United States is ready to meet the challenges that lie ahead, including the challenge of meeting and defeating international terrorism.

The bill recognizes that the war against terrorism will not be won quickly and that the United States will require additional capabilities to deal with the threat terrorism poses to America. To this end, the bill authorizes roughly \$6 billion for Department of Defense programs to combat terrorism. Moreover, the bill reflects the need to modernize America's military capabilities so that our country's vulnerability to other threats, including ballistic missiles, will be eliminated.

This is a good bill. However, despite the increases contained in the bill, additional resources will be needed. America's defenses cannot be rebuilt in a single year. The war against terrorism cannot be won with a single year of defense increases. Our ability to protect our citizens against other emerging threats cannot be assured with a single year of defense increases. The effort to improve our Nation's defenses and our people's security must be significant and it must be sustained.

That said, it is clear that the funding levels in this bill will not be sufficient to support the level of effort that the Department must undertake to hunt down and root out the perpetrators of last week's attack. I understand that the Pentagon and the administration are in the process of identifying additional resources required, and we hope to receive a proposal to address these needs soon.

Rather than wait until that proposal arrives, I urge the House to proceed with the approval of this bill and allow us to adjust it as the outlines of the administration's revised budget proposal become clearer. The bill is too important and contains too many critical legislative tools necessary for the De-

partment to conduct its business to fall victim to the press of schedule.

I urge my colleagues to support this legislation.

Mr. Chairman, I reserve the balance of my time.

Mr. SKELTON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this has been quite a trying year for the Committee on Armed Services. Last year I stood with Floyd Spence to offer the bill, which was titled in his name. I am very glad that Congress approved that bill, not least as a tribute to Floyd. Since then, too, the passing of Herb Bateman and Norman Sisisky took from our committee and the Congress great knowledge and wisdom.

A significantly compressed budget process challenged the committee's ability to maintain its required oversight role. And, more recently, the revived specter of military action led to consideration of significant changes in this bill.

Through all this, Mr. Chairman, I am grateful for the friendship and the teamwork displayed by the gentleman from Arizona (Mr. STUMP). He has an open door and an open mind, which are in large part why I am able to say that I support this bill and ask my colleagues to do so as well. The road has been difficult, but the product is well worth the journey.

When we began work on this bill, America was at peace. We looked at the future and saw a world of new threats, from less traditional sources and differing means. Our goal as a committee was twofold: to help the military services make their transitions into this new world, while maintaining their capabilities to meet the needs of the present.

Then some of our worst fears were realized, and innocent Americans, civilian and military, became targets of an unspeakable and inhumane barbarism. The United States was thrust into a new kind of war, emphasizing intelligence and adaptability over force and firepower. Through the amendment and conference process, our bill will change to meet this new challenge without losing our other capabilities.

The gentleman from Arizona has told you of some of the bill's particulars. I am particularly proud of the pay raise for the men and women who represent America in uniform, and wish only that it had been higher. I am proud, also, of the way our subcommittee chairs worked with their ranking members in creating this bill. Plenty of creativity and tolerance went into their work. Even in areas of disagreement, the debate was agreeable.

And, to be sure, there are some worthy highlights. Of the \$343 billion authorized, the bill commits approximately \$10.3 billion to build and renovate new facilities and housing for the military services. It helps to privatize 28,000 units and builds 51 new barracks and dormitories. This is putting our money where the soldier is.

And we do not forget the families. The bill builds or improves 6,800 units of military family housing, makes substantial contributions to supporting additional quality-of-life enhancements like child development centers and fitness centers for military personnel, and improves basic working conditions.

As the Department of Defense considers how it shall fight in the decades ahead, our procurement and research development titles preserve the widest range of options. We do not take away capabilities commanders say they need, and back a full array of new and innovative approaches for the future.

The bill also begins to formally close the door on the Cold War. It takes a bold new step in our relations with Russia, allowing for the elimination of 50 Peacekeeper missiles. At the same time, it funds the cooperative threat reduction programs that make those offensive reductions possible. Other adversaries would do well to note how cooperation in making peace leads to greater security on all sides.

There are many more strong reasons to support the bill, but let me set aside the formalities for a moment and speak to my colleagues from the heart.

One clear trend in the history of warfare is that war has come closer and closer to civilians. Now we are faced with an aggressor who deliberately chooses to make war on civilians.

We have a military, Mr. Chairman, of volunteers, each of whom has chosen to put on a uniform. Each of them knows that by doing so, he or she is saying this: "I will put myself between Americans and danger. I will risk my life and freedom to preserve yours. I will do what my country asks, and more."

Mr. Chairman, their strength and fidelity may soon be put to the test. I guarantee every Member that they will not be found wanting.

As they go, I hope and believe that they carry with them every good wish of those in this Chamber and across the civilized world. And I wish them Godspeed.

Mr. Chairman, I reserve the balance of my time.

Mr. STUMP. Mr. Chairman, I yield 3 minutes to the gentleman from California (Mr. HUNTER), chairman of the Subcommittee on Military Research and Development.

Mr. HUNTER. Mr. Chairman, this is a bill in which we generally have some fairly hotly contested issues. It is a bill in which Members voice strong opinions because national security issues evoke strong opinions. But all of us understand now that we have a major mission which predominates over all other missions with respect to this bill; and that is to give the President the tools that he needs to pursue the terrorists who struck America.

Because of that, Mr. Chairman, I think we are all going to be working together here as we walk through the floor with this bill and go to conference and try to keep our controversy to a

minimum, try to compromise on packages, and try to move to the point where we are actually procuring for the President, for our armed services, the resources that they need.

□ 1300

So let me thank my colleagues, the gentleman from Massachusetts (Mr. MEEHAN), my partner on the Subcommittee on Research and Development; the gentleman from Missouri (Mr. SKELTON); all the other fine Members on the Democrat side of the aisle; and all my fine colleagues on the Republican side of the aisle, who make up this great committee called the Committee on Armed Services.

In R&D, let me tell Members where we have been moving. We have been trying to do everything we can to leverage America's technology, both militarily developed technology and commercially developed technology, to give our smaller forces which we now have today the capability to be extremely effective, extremely mobile, and extremely flexible.

This is a long, difficult challenge, and it is going to take years to make this change; but in a number of areas, we are making great strides with this bill. We are putting quite a bit of money into precision munitions, to upgrade our capability to use a single munition to do the job. Where, heretofore, you needed to use lots of dumb bombs, for example, to knock down a bridge or something of that nature and the ability to go in with a precision munition and make a single hit and do effective damage with that one hit, it is a great advantage that comes out of our technology; and that is something that we are trying to manifest in our munitions programs.

Stealth, Madam Chairman, the ability to fly aircraft through heavy enemy air protection to avoid and evade radar, so we can move our planes into position to strike and move them back out without losing pilots. That is an area manifested in the Joint Strike Fighter program, the F-22 program, and other programs which we are developing or are devoting a lot of resources to in R&D.

In the Army, the ability to move our forces quickly and to make sure that they are mobile enough and flexible enough to get into very small, tight, parts of the world, the problem that we discovered in the campaign in Kosovo. We are trying to rectify that with some changes in the makeup of our military forces and the armor forces that accompany those forces.

Madam Chairman, in the Subcommittee on Research and Development, we are devoting a large amount of dollars to help the Army change to a position where it is more mobile, more responsive, and especially more air mobile, because we have to get a lot of this equipment around the world in a very short period of time.

With respect to missile defense, we all understand we live in an age of mis-

siles. That was revealed to us in the early 1990s when 26 Americans were killed in the Gulf War by ballistic missiles. Across-the-board, Democrats and Republicans are working on a whole family of anti-ballistic missile systems, some of which are deployable now, like PAC-3, which can handle some of the basic Scuds, right up to the testing range that the President needs for national missile defense. We think we are going to have a package on that a little later, Madam Chairman, that Democrats and Republicans can agree to.

So, across-the-board, Madam Chairman, on R&D we are doing everything we can to give our country broad capability against military threats. As we walk through this package, we are going to want to add things as we go into the conference with the other body to focus especially on new requirements as a result of the strike on America.

Mr. SKELTON. Madam Chairman, I yield 2 minutes to the gentleman from Guam (Mr. UNDERWOOD).

Mr. UNDERWOOD. Madam Chairman, I thank our leader on the Democratic side for yielding me time.

Madam Chairman, at this particular time in our debate here in Congress, there is no more important bill that we are confronted with than this particular bill to provide adequate resources to our men and women in uniform and to all the people who work in support of those men and women in uniform. Certainly at this point in time in our Nation's history as we contemplate a wide variety of ideas and scenarios regarding what is an appropriate response to the heinous attacks that have been unleashed upon our people, the Defense Authorization Act for fiscal year 2002 will certainly be one of the most important defense authorizations in our history.

Madam Chairman, I rise today to join my colleagues in support of H.R. 2586, the fiscal year 2002 Defense Authorization Bill. This bill is well-crafted legislation and a result of tremendous bipartisan effort. It will go a long way toward ensuring that the bedrock of our security, our troops, will be well looked after and supported in the forthcoming year. It provides the largest military pay raise since 1982, and meets many of our military's modernization needs. This bill is essential to stemming the decline in readiness and buttressing the security of the United States and around the world.

In particular, I want to address the provisions in the act relating to the morale, welfare, and recreation activities of DOD. First, I want to acknowledge the outstanding leadership of the panel chair, the gentleman from Maryland (Mr. BARTLETT), and active participation and strong support of panel members. While there are few legislative provisions in this bill, it does not detract from the work of the panel or support of the committee for those provisions.

I also want to draw attention to some of the items in the defense authorization which will support Guam and its strategic role to our Nation's national security. There is over \$66 million in MILCON activities. The people of Guam stand ready to do their part.

Mr. STUMP. Madam Chairman, I yield 3 minutes to the gentleman from Colorado (Mr. HEFLEY), the chairman of our Subcommittee on Readiness.

Mr. HEFLEY. Madam Chairman, I rise today in strong support of H.R. 2586, the National Defense Authorization Act for fiscal year 2002.

I believe the committee has done a good job in fulfilling its role of oversight of the Department of Defense and has done its best to provide the necessary funding to improve the readiness of our military forces. Let us not forget, however, that for many years we have asked our military to do more and more with less and less. Now, after the tragic events of last week, we will be asking our military men and women to do even more.

Although there have been many additional missions placed on our military forces over the years, there has not been a corresponding increase in funding to fully sustain our infrastructure and equipment.

We are all heartened that the funding levels requested by the administration for next year makes an attempt to arrest the decline in military readiness and begins the process of rebuilding and restoring our military forces. To accomplish this, the administration has had to significantly increase readiness funding this year as compared with last year. As an example, funding for flight operations has increased by over \$2.2 billion, which includes the increased costs for fuel and attempts to address the severe parts shortages. In addition, there is an increase for combat training of over \$825 million, an increase for facilities repair and sustainment of nearly \$500 million, and an increase of \$1.2 billion for depot maintenance and repair of equipment. These are significant increases; but, again, they merely halt the decline.

Madam Chairman, H.R. 2586 is a responsible, meaningful bill, that fairly allocates resources for the restoration of acceptable readiness and an acceptable quality of life for men and women of our military forces. To do anything less will allow the readiness of our military to slip further and could risk the lives of countless men and women in every branch of the military.

As we get this bill into conference, we may decide on or the President may come down with other needs based upon the events of the last few days and we can address those and we need to address those. For now, however, this is a good bill, and it deserves our support. I strongly urge my colleagues to vote yes on this bill, to vote yes to maintain military readiness.

Mr. SKELTON. Madam Chairman, I yield 2 minutes to the gentleman from Arkansas (Mr. SNYDER).

Mr. SNYDER. Madam Chairman, as the ranking member of the Subcommittee on Military Personnel, I would like to thank my friend and colleague, the fine chairman of the Subcommittee on Military Personnel, the gentleman from New York (Mr. MCHUGH), for his leadership this year.

Madam Chairman, each and every day our volunteer men and women in uniform go forward to protect America's freedoms. Sometimes they are asked to pay the ultimate sacrifice, like those serving in the Pentagon on September 11. We owe those dedicated and committed individuals not only our gratitude but also our support.

With this bill, we continue to improve the quality of life for those men and women and their families who chose to serve our Nation. It provides the largest military pay raise since 1982, including a 6 percent minimum to enlisted members and a 5 percent minimum to officers, and targets up to 10 percent for mid-grade and senior non-commissioned officers.

The enhancements made to permanent change of station benefits will help to reduce out-of-pocket costs for those uniformed personnel and their families who often move to different bases to meet the needs of the individual services. And we continue to reduce out-of-pocket housing costs for families.

The bill directs improvements to protect the rights and privileges of military personnel and their families to exercise the constitutional right to vote. We have also made improvements to health care. The Department has been directed to review the need to provide health care coverage to reservists and their families, and it clarifies previously enacted benefits under TRICARE for Life and other TRICARE benefits which were authorized last year.

Given the expected increase in deployments for our forces as a result of the attack on the United States, I believe that in conference we need to review the \$100 per day deployment bonus for those deployed more than 400 days out of every 2 years. While I understand why this policy was developed and passed last year, to encourage the services to reduce the high rate of deployments for military personnel, and I appreciate the language that has been added to ensure that the potential impacts of the policy are looked at, we need to ensure that the deployment pay policy is fair, that it does not inadvertently harm military operations or that it becomes too expensive for the services, particularly the Navy and Marine Corps, to bear.

Madam Chairman, the bill before us today continues to improve the quality of life for those who serve their Nation in uniform and their families. These defenders of liberty need to know that their families are being taken care of while they are protecting our freedoms.

Once again, Madam Chairman, let me say it is a pleasure to work with the

gentleman from New York (Mr. MCHUGH) and the members of the Subcommittee on Military Personnel. I urge my colleagues to support this measure.

Mr. STUMP. Madam Chairman, I yield 4 minutes to the gentleman from New York (Mr. MCHUGH), the chairman of our Subcommittee on Military Personnel.

Mr. MCHUGH. Madam Chairman, I thank the chairman for yielding me time.

Madam Chairman, let me echo the words of many who have spoken already. I know we will hear more about the great spirit of unity that we have seen displayed in the formulation of this bill, and that is a compliment, of course, to the Members on both sides of the aisle. But a particular word of thanks and appreciation to the chairman, the gentleman from Arizona (Mr. STUMP), and the ranking member, the gentleman from Missouri (Mr. SKELTON), for their incredible leadership.

Madam Chairman, given the truly tragic events of Tuesday, September 11, in my home State of New York and Northern Virginia at the Pentagon, and, of course, in Pennsylvania, it certainly is fitting, timely and essential that we consider this bill at this moment.

Like so many others, I rise in strong support of this measure. I believe there are many, many reasons for each and every Member of this body to enthusiastically endorse the legislation when it is called for a vote.

Most importantly, Madam Chairman, this bill represents a balanced approach to improving national security, providing significant initiatives in modernization, missile defense, readiness, research and development, military construction and procurement and that kind of balanced approach. For the long-term improvement to our national security, it is absolutely essential to our mission and certainly is essential to dealing most effectively with those developments of September 11.

On the personnel side, I think that there are many exceptional provisions that certainly argue strongly in favor of this bill. I want to thank the gentleman from Arkansas (Mr. SNYDER) who just spoke for his leadership as the ranking member and for working with all of us on both sides of the aisle to put these provisions together. Although you just heard a number of them, I think they bear repeating.

Specifically, this bill builds on the administration's fiscal year 2002 budget request for military personnel and health care that causes this legislation to be the strongest, most robust proposal in years. It provides some \$6.9 billion more for the military personnel accounts than we provided just last year. That is the biggest 1-year increase in military personnel accounts since 1985.

It increases the health care operations accounts by \$6 billion over what was authorized in fiscal year 2001. It reflects a commitment shared by DOD

and the Congress to fully fund health care for our brave men and women in uniform that we are now looking to lead us in this, this greatest of challenges.

The legislation also provides for the largest military pay increase since 1982, including a 5 percent across-the-board increase for officers and a 6 percent across-the-board increase for all enlisted personnel.

Further, the bill authorizes retirement-qualified members of the uniformed services to receive VA disability compensation. This would allow us for the first time to meaningfully deal with that concurrent receipt issue. I want to thank the gentleman from Florida (Mr. BILIRAKIS), who has been such a leader in this provision.

The bill also very quickly reduces out-of-pocket costs that we require our military men and women to pay from 15 percent to 11.3 percent over the next year, keeping faith with the plan that we initiated to eliminate those costs, and many other provisions with respect to improving TRICARE, health care for our men and women in uniform, building on the budget request for so many other kinds of personnel issue accounts that are so invaluable as we ask these men and women to go forward to defend our Nation.

□ 1315

As we ask these men and women to go forward to defend our Nation and defend our interests, this bill I think signifies very strongly our shared commitment to them as we go forward on this day; and I certainly urge all of the Members to strongly support this measure when the vote is called.

Mr. SKELTON. Madam Chairman, I yield 2 minutes to the gentlewoman from California (Mrs. TAUSCHER).

Mrs. TAUSCHER. Madam Chairman, I rise in strong support of the National Defense Authorization Act for Fiscal Year 2002.

As the ranking member of the National Nuclear Security Administration Oversight panel, I want to specifically address the provisions of the bill relating to the Department of Energy and the NNSA.

Madam Chairman, the decision to retain the oversight panel again this year sends a very clear message of Congress's intent to aggressively exercise its oversight responsibility in an area that is undoubtedly crucial to our national security. This resurgence of meaningful interest in the Department of Energy's defense nuclear activities will have a lasting impact on the activity that has been entangled in a bureaucratic kudzu since its inception. But unfortunately, this bill does not provide relief for all of the challenges the NNSA faces.

In light of the catastrophic events of September 11, I wish we could have provided additional resources to continue the development of technologies that would enhance our ability to detect the production, testing, transfer, or use of

weapons of mass destruction. The administration's budget request severely reduces funding for nonproliferation research and development focused on enhancing essential domestic nonproliferation capabilities. It is an area where we can ill afford to lose any momentum. I hope that my colleagues will continue to seek additional resources for this area as we enter into conference with the Senate.

Madam Chairman, I also want to note for the full House that the panel's accomplishments would not have been possible without the strong leadership of the panel chairman, the gentleman from Texas (Mr. THORNBERRY), and the support of the gentleman from Arizona (Mr. STUMP), the chairman of the full committee, and the gentleman from Missouri (Mr. SKELTON), the ranking member, and the cooperation and support of our colleagues on the panel and on the full committee.

Mr. STUMP. Madam Chairman, I yield 3 minutes to the gentleman from Pennsylvania (Mr. WELDON), the chairman of the Subcommittee on Procurement.

(Mr. WELDON of Pennsylvania asked and was given permission to revise and extend his remarks.)

Mr. WELDON of Pennsylvania. Madam Chairman, I thank our distinguished chairman for yielding the time and for his leadership on this bill, and I thank our distinguished ranking member for his cooperation.

This is truly a bill that I think reflects the need for this Congress to move forward aggressively in supporting our defense in a way that we perhaps have not done over the past several years. I am ecstatic that we have struck a balance. We have continued to fund aggressive support for missile defense, we have continued to fund aggressive support for modernization, and in this bill we begin to address the needs of the readiness shortfall that our troops have experienced.

Madam Chairman, just 2½ weeks ago, a group of five of us traveled around the country interacting with 20 of our colleagues as we toured 24 bases in 15 States to get a glimpse of the capability of our military to respond. What we saw was atrocious. We saw military bases that one would not put their worst enemies on. We saw raw sewage coming out of barracks. We saw day care centers for the children of the offspring of our personnel with mold on the wall, without adequate fire protection. This bill begins to address those long-term maintenance and improvement needs that we have had for so many years and begins to address the readiness shortfall.

I commend the leadership of both the majority under the gentleman from Arizona (Mr. STUMP), the chairman of the full committee, and the minority under the gentleman from Missouri (Mr. SKELTON), the ranking member, for allowing us to move forward in this area.

But we have done other things besides readiness. We have continued to

work on this committee in addressing the issues relative to terrorism. I am proud of the fact that this committee has been out on the forefront, even though we have had some silent ears in the past, of calling for additional funds to combat terrorism. In fact, Madam Chairman, it was this committee 2 years ago that called for the need for an integration of our intelligence capabilities, the establishment of a national data fusion center, and a national operations and analysis hub. It was this committee that called for that.

Yet the CIA and the FBI have not yet torn down the stovepipes that exist between our intelligence agencies. It was this committee that said all 32 Federal agencies must come together, because the most significant need for our military and our warfighters in the 21st century is the ability to do profiling, to use our intelligence systems to understand the enemy, to understand terrorists and terrorist groups and terrorist organizations.

This bill again reaffirms that priority. In fact, we are working for some specific funding to implement that during the process of moving this legislation. It is this committee who again, Madam Chairman, reestablishes the Gillmor Commission. The Gillmor Commission was created by this committee to look at the interaction between the military and our domestic responders. Long before the World Trade Center, we were on the cutting edge of telling the Congress and the American people that our domestic defenders, our international defenders, our military and our fire and EMS must work together. In this bill, we will continue the effort of that.

In every possible area of terrorism, we have been in the forefront and we will continue on the forefront. I urge my colleagues to vote "yes" on this legislation.

Mr. SKELTON. Madam Chairman, I yield myself such time as I may consume.

Let me take just a moment to compliment the gentleman from Pennsylvania (Mr. WELDON) on his efforts concerning the housing for our young people in uniform. He and the gentleman from Texas (Mr. REYES), the gentleman from Texas (Mr. ORTIZ), and the gentleman from Virginia (Mr. SCHROCK) made a series of appearances to look at the conditions of some of our young folks. We ask so much of them; and I think this bill does make, as the gentleman said, a major step in helping the living conditions for those young people in uniform, and we thank him for his efforts in that regard.

Madam Chairman, I yield 2 minutes to the gentleman from Texas (Mr. REYES).

Mr. REYES. Madam Chairman, I thank the gentleman for yielding me this time.

Madam Chairman, I rise today to support the defense authorization and to thank the gentleman from Arizona

(Mr. STUMP), the chairman of the committee, and the gentleman from Missouri (Mr. SKELTON), the ranking member, for putting together a strong defense bill.

In this time of national crisis, I am pleased that we are able to come together to support increased funding for our military services. Our combat troops, which President Bush has or soon will call to deployment, are trained and ready; let no one anywhere make any mistake about that. These men and women who are at the point of the spear are ready to handle whatever mission we require of them. However, it is those others who are further back from that point that need increased funding to fix problems.

I want to also thank the gentleman from Pennsylvania (Mr. WELDON) for having the vision to put together a fact-finding trip that we recently completed. On this trip we visited 23 bases across the country and saw horrendous living and working conditions. Ceilings were falling in, sewage was backing up; our men and women in uniform and their families were being forced and are being forced to live in substandard housing.

Madam Chairman, we have the finest military personnel in the whole world, and they simply deserve better. They give us 110 percent each and every day, and we as a Nation owe them a better quality of life. This bill will begin to fix some of those problems, but we must still do more for them. In this time of great peril and danger, let us not forget to get our priorities straight. I ask all of my colleagues to support this bill.

Mr. STUMP. Madam Chairman, I yield such time as he may consume to the gentleman from California (Mr. MCKEON).

Mr. MCKEON. Madam Chairman, I rise in strong support of our National Defense Authorization Act.

Madam Chairman, I rise in strong support of H.R. 2586, the National Defense Authorization Act.

Before I begin in earnest, I would like to pause for just a moment to pay my respect to someone who is not with us today, our good friend Floyd Spence. In my entire time on the House Armed Services Committee, I have not experienced an authorization bill without him. I will miss Floyd greatly and I know that I join my colleagues in sending our thoughts and prayers to his family.

I want to thank Chairman STUMP and Ranking Member SKELTON for their leadership, hard work, and dedication to our men and women in uniform. Because of their efforts, the Defense Authorization Act for Fiscal Year 2002 reflects the strong bipartisan values of the committee and this legislative body in favor of securing and maintaining the most capable defense force in the world.

Madam Chairman, H.R. 2586 represents this committee's and Congress' desire to rebuild our Nation's Armed Forces after years of neglect. Specifically, the legislation reflects the President's request for the largest increase in defense spending since the mid-1980s. In total, the President request and the House

Armed Services Committee approved a \$33 billion increase from the fiscal year 2001 spending level.

Madam Chairman, I want to highlight two specific areas where I believe the committee has done exemplary work. First, the committee approved the largest military pay raise since 1982, significant construction efforts to improve the facilities in which military personnel live and work, and substantial increases to readiness accounts that support operations, maintenance, and training.

Second, the committee fully funds the required upgrades for the B-2 bomber. By including \$123 million for Link 16 and in-flight replanning, the committee has given the B-2 the required equipment to accomplish the job its capable of doing. Furthermore, the committee has asked the Air Force to report back on the number of B-2s it will need to accomplish the mission set out by Air Force Chief of Staff General John Jumper's Global Strike Task Force. While I believe that more B-2s would accomplish the mission, it is important that the Air Force provide us with this data so that Congress can appropriate the needed funds to support their mission.

In view of last week's events and the commencement of Operation Infinite Justice, swift action by this legislative body will further demonstrate the unity and determination of this great Nation to overcome the challenges before us.

May God bless America and the brave men and women who are putting their lives on the line to defend it.

Mr. STUMP. Madam Chairman, I yield 4 minutes to the gentleman from New Jersey (Mr. SAXTON), the chairman of our Subcommittee on Research and Development.

Mr. SAXTON. Madam Chairman, I rise in strong support of H.R. 2586, the National Defense Authorization Act for Fiscal Year 2002.

Prior to the August recess, the Committee on Armed Services met to mark up this legislation and ordered it reported by a vote of 58 to 1, a testament to the tradition of bipartisanship of the committee.

I must say that I have been gratified by the strengthening unity of purpose which has seized this House. As a matter of fact, Madam Chairman, if the terrorists who perpetrated last Tuesday's attacks hoped to play on any partisan or policy differences we may have with each other, they have failed. As a matter of fact, the aisle that separates the two sides of this House has disappeared.

Obviously, in light of the horrific terrorist attacks of September 11, many aspects of the defense program will be looked at anew; but we are pressing ahead with this bill because there are many, many important defense priorities addressed in this measure. All of us in this great body understand that we need to relook at everything we have been doing to protect our national security, and I promise my colleagues that those needs will be our first priority as we meet in conference with the other body to give final shape to this measure.

Even though we all yearn to act now, the prudent course of action is to ad-

dress the requirements that the Secretary of Defense identifies, requirements that have been studied hard over the last 10 days. I know the Secretary is working hard with members of our leadership and with the chairman and vice chairman of the Committee on Armed Services to develop our priorities for our consideration; and in the weeks ahead, we will be considering those measures.

As chairman of both the Special Oversight Panel on Terrorism and the Subcommittee on Military Installations and Facilities, I will be very active in pursuing effective ways to defeat the scourge of terrorism while allowing all Americans, but particularly those who serve in the military, to live and work without fear of sudden attack. Clearly, we must do what we can to protect the safety of our citizens, our military, and our military families. Just as importantly, we must find ways to streamline the security processes so that military bases are reasonably accessible.

In all of this tragedy, there is a glimmer of hope. For example, there is evidence that the improved reinforced measures that have been taken in new construction have saved lives. I am told, and will go and visit soon to see for myself, that portions of the Pentagon that have been renovated, which included several explosion-resistant features, stood up far better than the original structure. I will be leading a delegation of my colleagues to examine the damage very soon and promise my best efforts to do whatever we can to protect all Americans from terrorism.

Later this week, the Committee on Appropriations is expected to bring to the floor the bill to provide appropriations for military construction for the coming year which, of course, are also included in this bill. Our two committees have worked closely together, that is, the Committee on Appropriations and the Committee on Armed Services, in the development of the MILCON program for the next fiscal year. The gentleman from Ohio (Mr. HOBSON) and the gentleman from Hawaii (Mr. ABERCROMBIE) and the gentleman from Massachusetts (Mr. OLVER) have worked closely together with all parties, and our bills mirror each other. H.R. 2586 would commit approximately \$10.3 billion, roughly \$350 million more than the President's request, to the military construction and military housing for the coming fiscal year.

In closing, I want to again express my appreciation to the members of the subcommittee who have contributed to this bill. In particular, I want to express my appreciation to the gentleman from Hawaii (Mr. ABERCROMBIE), with whom I have worked for many years, and I value his counsel.

Madam Chairman, I encourage all Members to support H.R. 2586.

Mr. SKELTON. Madam Chairman, I yield 2 minutes to the gentleman from Texas (Mr. TURNER), who is the ranking member on the Special Oversight Panel on Terrorism.

Mr. TURNER. Madam Chairman, I am pleased to rise in support of the 2002 National Defense Authorization Act. I want to say I am pleased to follow the gentleman from New Jersey (Mr. SAXTON), the chairman of our terrorism panel, who has done such an outstanding job working on that very critical issue. I am pleased to serve with him on that panel.

I also want to thank the gentleman from Arizona (Mr. STUMP), the chairman of the committee, for his outstanding leadership, and to thank the gentleman from Missouri (Mr. SKELTON), our ranking Democrat on the committee. These two gentlemen have worked tirelessly and have worked together, along with our committee staff, to produce this piece of legislation.

□ 1330

In my view, there are many reasons to support the bill that is before us. It includes pay for military personnel, a pay raise; it includes funding for additional acquisition; it addresses several quality-of-life issues. However, I am particularly pleased with the fact that this bill makes significant improvements to address the new and ever-changing realities of the environment we live in today, brought home so tragically to us on September 11.

As many of our colleagues have pointed out, America faces its greatest challenge since the Second World War. Last week's terrorist attack on the World Trade Center and the Pentagon has shown all Americans that the threat of terrorism is ever present on our shores and abroad. It exhibits vast destruction capabilities and sophistication. It is like a threat we have never faced before.

With it, there is a bonus. We must be diligent in our efforts to embrace new response methods and techniques. This legislation makes great strides in our efforts toward that end. The research and development provisions add a significant amount of funding for a variety of transformational and leap-ahead technologies. This legislation provides for even more investments to combat terrorism, and also to handle consequent management and force protection.

Madam Chairman, we recognize the continuing possibility of future terrorist attacks. I urge all Members to join with us in support of this legislation.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Utah (Mr. HANSEN), a member of the committee.

(Mr. HANSEN asked and was given permission to revise and extend his remarks.)

Mr. HANSEN. Madam Chairman, I thank the gentleman for yielding time to me.

As the President said, we have seen the first battle of the first war of the 21st century, but there are many battles to come. Even as we speak, our military forces are deploying to the

farthest reaches of the planet to begin the noble campaign to rid the planet of the scourge of terrorism.

I appreciate the gentleman from Arizona (Chairman STUMP) and the ranking member, the gentleman from Missouri (Mr. SKELTON), for the great work they have done on this very important piece of legislation.

I would like to say one thing: This bill has some things that are very important to the ranges of America. As many realize, there have been some real encroachments in it. We had one hearing where they said they could only use 18 percent of Camp Pendleton because of the Endangered Species Act, a small percent of Fort Hood, and challenges coming around. This piece of legislation allows us to have the military have some hand in the Endangered Species Act.

If Members read the 1973 Endangered Species Act, the Secretary of Defense has a prerogative in there to utilize it, and I would urge the Secretary to take a look at that bill. That may help him.

This bill also sets aside the referendum in Vieques. At a time like this, I am sure Puerto Ricans and Americans all over will stand tall, square their shoulders, and say that this is important. And it is important when the JFK goes out that it has live-fire training, that they do not go out unprepared. That is an extremely important thing.

It gets into the idea of readiness, of \$7.5 billion more for readiness, which is so important at this time. I think the gentleman from Pennsylvania (Chairman WELDON) and others who have worked admirably in getting this bill ready to go on things that will protect America.

This is a good piece of legislation, a piece of legislation that should be passed. If Members read the Constitution of America, what is the reason we are here in these offices anyway? It is not a lot of this stuff we have been debating for the past year. The main reason we are here is to defend our people and defend this Nation.

This is the first piece of legislation I have seen this year that does it, and it is a good piece of legislation. Let us all vote for this bill.

Mr. SKELTON. Madam Chairman, I yield 2 minutes to the gentleman from New Jersey (Mr. ANDREWS).

(Mr. Andrews asked and was given permission to revise and extend his remarks.)

Mr. ANDREWS. Madam Chairman, I thank my friend, the gentleman from Missouri, for yielding time to me.

At a time of great uncertainty in our country, this bill provides strong assurances to the American people. When our Commander in Chief calls our men and women in service to action, they will be ready because of this legislation and other bills from this committee that have gone before it.

When the planes need to fly and the ships need to be deployed and the Marines need to land and the soldiers need

to do their work, they will be ready because of the diligence and vigilance of Members of this committee on both sides of the aisle.

This bill does a lot to make them even more ready. It raises their pay, and makes significant steps towards improving the conditions in which their families live. It provides for funding for the ships, the planes, the weapons that they will need to do their job. As a member of the Subcommittee on Military Research and Development, I am particularly pleased that under the leadership of the gentleman from California (Chairman HUNTER), with the active leadership of the gentleman from Massachusetts (Mr. MEEHAN), we were able to increase by \$6 billion, from \$41 billion in the present fiscal year to \$47 billion in the forthcoming fiscal year, the resources for research and development.

If Members want to make the airports safer, these research and development projects will make it so. If Members are looking for ways to defend America's civilian infrastructure from attacks that we dread and anticipate, these projects are the way to make it so.

Our enemies should note duly this afternoon, we are united on this bill. We will go forward together, and when our Commander in Chief calls, our troops will be ready as a result of this legislation. I urge its passage by the House.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Maryland (Mr. BARTLETT), chairman of our Panel on Morale, Welfare and Recreation of the Committee on Armed Services.

Mr. BARTLETT of Maryland. Madam Chairman, I thank the gentleman for yielding time to me.

Madam Chairman, I rise in support of H.R. 2586, the National Defense Authorization Act for fiscal year 2002.

Under normal circumstances, I would confine my remarks to the provisions in the bill relating to the morale, welfare, and recreation and activities for military personnel in my capacity as chairman of the Panel on Morale, Welfare, and Recreation of the Committee on Armed Services. I certainly wish to thank my ranking member, the gentleman from Guam (Mr. UNDERWOOD), for his commitment and help.

But these are far from normal circumstances. The morale, welfare, and recreation provisions are important, and I commend them to all Members of this great body. More to the point, the overreaching purpose of this bill is to strengthen the national defense. The barbaric, despicable acts of terrorism committed just last week brought home the grim reality to us that our enemies are real, they are clever, and they are determined. We must not rest until others responsible are brought to justice. We in Congress must not rest until we discharge our sacred duty to provide for the common defense of this great Nation.

In my opinion, we should have been doing more. However, this is not the time to dwell on what we did or did not do in the past. As Members of Congress, we must fulfill our responsibility to work together to provide the men and women who volunteer to serve in our military with the tools and resources they need to exact justice and ensure victory against the terrorists.

I am sure we will have disagreements about exactly how to do that as this effort moves forward. We have to keep focused and united behind the ultimate goal of securing liberty for ourselves and our posterity. This bill and the \$40 billion supplemental we passed a few days ago are a good start. More should and will be done, but this bill, as we will amend it today and tomorrow, is a good follow-up to the supplemental, and I urge all Members to support it.

Mr. SKELTON. Madam Chairman, I yield 2 minutes to the gentleman from Maine (Mr. ALLEN).

Mr. ALLEN. Madam Chairman, I thank the chairman and ranking member for putting together a good bill.

While I take issue with the bill's acceleration of national missile defense, the overall bill is worthy of support, especially given the importance of supporting our troops in the war on terrorism.

Let me take a moment to mention a little-noticed but important part of the bill, the maritime section. I thank the gentleman from California (Mr. HUNTER), the chairman of the Merchant Marine Panel, for crafting a quality bipartisan product.

The likelihood of a military buildup overseas shows that the need for a ready and viable Merchant Marine fleet and a shipbuilding industrial base remains as critical as ever. The committee recommends \$104 million to maintain the Title 11 loan guarantee program, and provides \$99 million for operation of the Maritime Administration, including the U.S. and State maritime academies.

In addition, we did not support the President's request to transfer the maritime security program from the Department of Transportation to the Department of Defense because the committee has not received any justification for the transfer.

As the Nation stands united after the terrorist attacks, today is not the time for controversial debates. But there are items in this bill worthy of a full debate and vote in the future.

For example, I believe the massive increase for a technologically unproven national missile defense to deal with the least likely terrorist threat to this country is misguided, given the more conventional and readily apparent terrorist threats that we face. Moreover, withdrawal from the ABM Treaty could undermine our ability to keep Russia as a reliable partner in the antiterrorism coalition.

The administration's fiscal year 2002 budget adds \$3 billion for missile defense, a 57 percent increase. Its original

increase for counterterrorism was only one-eighth as large, a mere 7 percent increase. The response to September 11 has already required defense increases, from air patrols at home to reserve call-ups to deployments overseas. But we should not use this tragedy as an excuse to throw money at the Pentagon. New spending should be justified by an overall strategy and reviewed by Congress. This crisis does not obviate the necessity to prioritize.

Again, I urge support for this bill to give full support to the American men and women who may be asked to put themselves in harm's way in our war on terrorism.

Mr. STUMP. Madam Chairman, I yield 3 minutes to the gentleman from Texas (Mr. THORNBERRY), the chairman of our Special Oversight Panel on Department of Energy Reorganization.

Mr. THORNBERRY. Madam Chairman, like other Members, I rise in appreciation and admiration for the leadership shown by our chairman, the gentleman from Arizona (Mr. STUMP), and by the gentleman from Missouri (Mr. SKELTON) in moving this bill, particularly at this difficult time.

I also appreciate the participation of all the members in the special panel dealing with the Department of Energy's nuclear weapons program. At this time, as it has been for the past few years, security of our nuclear weapons and the complex which produces them has been a very high matter of concern.

I can report to the House that General Gordon, who is the administrator of the National Nuclear Security Administration, has done a good job, in my view, in making sure that our nuclear weapons facilities are secure, and particularly in this difficult time.

Along with the very distinguished ranking member of the panel, the gentleman from California (Mrs. TAUSCHER), we have worked side by side over the past year in overseeing the reorganization which Congress passed a few years ago.

Included in this bill are some minor adjustments to the reorganization which I think are good and prudent and requested by General Gordon. But the bigger bill also provides more funding for our nuclear weapons projects, including some set-aside money for our facilities, which have been very badly underfunded in recent years, and I think helps give the necessary emphasis on these critical elements of our defense posture now, just as much as 2 weeks ago.

Madam Chairman, in the broader sense, I believe this bill takes important steps forward in making sure that we are prepared for the challenges of the future. One thing that the events of last week reminds us is that the United States can be attacked by more actors using more different methods than ever before, so we have to have a military that is more flexible and more adaptable. This committee has been pushing to make sure that we have expanded capabilities that can deal with this greater variety of threats.

Among the things that are included in this bill are a suggestion that the Secretary of Defense establish a transformation office within his office, to have an advocate in the highest reaches of the Pentagon to make sure that we are preparing for the wars and challenges of the future, not refighting the wars of the past.

Included in this bill are important provisions dealing with space, because while a lot of our focus now is on these particular acts of terrorism, this country can also be subject to economic terrorism, if for example satellites were disabled, and it would also of course cripple our military. Having control of space and giving space the proper attention it needs is a critical thing.

We support the Army's efforts to transform itself to have smaller units that are more mobile and more lethal, and obviously the events of recent days point out the importance of that. This bill also moves ahead with the conversion of the Trident Submarines into SSGNs. It is an important step that gives us additional capability.

So this bill helps move us forward and will make us better prepared to deal with the challenges ahead.

Mr. SKELTON. Madam Chairman, I yield 7 minutes to the gentlewoman from Georgia (Ms. MCKINNEY).

Ms. MCKINNEY. Madam Chairman, I have grave concerns about this bill. I would first like to say that I hope that reason and common sense prevail in any decisions on our Nation's future response to terrorism.

Madam Chairman, I pray for God's intervention in ensuring the safe return of our many young men and women who are now being sent off to fight this war against terrorism. They face tremendous dangers and uncertain futures, and their families will endure many long and sleepless nights waiting for their return. We must remember them all, and acknowledge the great personal sacrifices they are going to have to make on our behalf in the coming days.

H.R. 2586 represents a near \$33 billion increase from last year. In comparison, appropriations for diplomacy and foreign aid total only \$22.9 billion, a mere 6 percent of the entire defense budget.

□ 1345

With the financial mismanagement that continues to exist within the Department of Defense, increases should not be made until a system of financial responsibility is instituted to prevent waste and address the lack of accountability.

The single largest portion of the budget increase is dedicated to the development of missile defense systems. It should be apparent to us all now that ballistic missiles are not our worst threat at this time. Expensive high-tech weapons are no substitute for effective diplomacy. Arms control, disarmament, and international cooperation will be far more effective in advancing peace and security in the years ahead

and will cost far less than a missile shield.

This bill also prevents our Nation from reducing our nuclear weapons arsenal and from de-alerting our nuclear weapons stockpile. In light of recent events, I think it would be prudent to de-alert our nuclear missiles and to retire as many as possible, lest they become greater targets or be turned against us.

I regret that the committee did not support the Sanchez amendment to change current law to permit service-women and female dependents who are overseas to access military hospitals for the purpose of privately funded abortions. This provision is tantamount to gender discrimination and should be changed.

This bill also reduces the likelihood of the Navy's departure from Vieques. It is my hope that the administration will be permitted to go ahead with its plans for withdrawal from Vieques in 2003.

There have been recent revelations about the use of military intelligence for domestic purposes, specifically with respect to the surveillance of Dr. Martin Luther King, Jr., and Operation Lantern Spike. Evidence of such past activities give rise today to grave constitutional issues and concern about civil liberties. The 1975 report written by the Frank Church Committee revealed practices abhorrent in a free society. The Church committee exposed that in the name of State security a program of manipulation, surveillance, disruption, and murder was carried out with the consent of those at the highest levels of the United States Government and against domestic and international law. Domestic uses of the military have long been prohibited, for good reason, and the same should continue to apply.

The escalating war on drugs is another problem area for us. As with the continued bombing of Iraq, I think now is not the time to be fighting proxy wars overseas, making more enemies abroad than we may already now have. Now is a time to focus on diplomacy abroad and justice and security at home. As such, I do not support continued funding for training for civil conflicts in Colombia and elsewhere.

Despite my reservations with this legislation, it does include positive aspects that I applaud. I would like to commend the committee for the increase in military pay and salaries. This is an appropriate step that not only provides our servicemen and women with sufficient compensation but also furthers the professionalism and enhances the retention of our servicemen and women. Similarly, increases in moving allowances, housing expenditures, provisions permitting concurrent receipt of retired pay and veterans' disability benefits, and efforts to promote voting rights of personnel are praiseworthy.

Much has changed since the committee passed this bill in August. How-

ever, I am still confident that many of the nations that we perceive as a threat will respond to the expansion and proliferation of missile defense, the expanding role of the military and drug interdiction, and preventions of reductions in nuclear missiles. It is uncertain how these nations will respond, but I am confident that diplomacy and engagement will have a much more positive effect on our national security than will expanding the defense budget.

I urge this body to consider its role in developing not only national policy but also international relations, and to realize that as a global leader we have a role in not only preparing for war, but also in promoting peace.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Kansas (Mr. RYUN), a member of the committee.

Mr. RYUN of Kansas. Madam Chairman, I want to thank the chairman and ranking member of the committee for their hard work on this bill.

Madam Chairman, this Congress is still experiencing the pain of a tremendous tragedy. America's military personnel and their families will be called on to make even greater sacrifices to protect the freedoms of our Nation. Unfortunately, for too many years they have been called on to do more with less.

Now, more than ever before, we realize our presence represents a stabilizing force to countries around the globe. With the pace of deployments likely to increase, the Committee on Armed Services has appropriately concentrated on enhancing quality-of-life issues in support of our deserving personnel.

I support H.R. 2586, the Fiscal Year 2002 National Defense Authorization Act, because it directly addresses the quality-of-life problems today's service members are experiencing. In total, the bill authorizes \$343 billion for defense spending in 2002. Of the \$33 billion increase from last year, military health care receives a 54 percent increase in funding. Clearly, this is one of the largest given in this critical area in many years.

It is a well-known adage in the military that you recruit soldiers and you retain families. Quality of life is essential in recruiting and retaining quality personnel. If we are serious about resolving the attrition problem, we must continue to focus on the quality of health care for the entire family. That is why I wanted to eliminate a burdensome requirement experienced by military spouses in maternity-related care.

I believe that service members should not have to worry about administrative health care problems their families may suffer. It detracts from their focus on their work, when their work demands total attention to protect our Nation. This bill appropriately calls on the Pentagon to make some changes. They are required to report on how they are operating under recent changes made in this aspect of beneficiary health care.

Congress must move ahead to remove the pressures felt by America's military personnel who put their lives on the line every day to protect America's freedom. H.R. 2586 makes great strides in adequately addressing pay, housing, and health care for our soldiers, sailors and Marines. I urge my colleagues to vote "yes" on this very important piece of legislation.

Mr. SKELTON. Madam Chairman, may I make an inquiry of the time we have remaining?

The CHAIRMAN. The gentleman from Missouri (Mr. SKELTON) has 33½ minutes remaining, and the gentleman from Arizona (Mr. STUMP) has 29 minutes remaining.

Mr. SKELTON. Madam Chairman, I yield 2 minutes to the gentleman from Oregon (Mr. BLUMENAUER).

(Mr. BLUMENAUER asked and was given permission to revise and extend his remarks.)

Mr. BLUMENAUER. Madam Chairman, I appreciate the gentleman's courtesy in yielding me this time.

As the Nation's eyes turn towards what we can do to protect our citizens from these horrible actions of terrorist violence, it would be sad, in an era of unprecedented increase in military spending, if we did not also do everything we could to save the lives and health of innocent Americans.

Sadly, as the committee has recognized, the landscape across this country is still littered with the explosive residue from years of military testing, storage, unexploded ordnance and other toxins that have taken the lives of adults and children and threatened the health of Americans across the country, including right here in Washington, D.C.

I wish to thank the chairman and ranking member for the committee's action to do something about this important problem of unexploded ordnance. I appreciate the committee's including the most important provision of this legislation, which the gentleman from Alabama (Mr. RILEY) and I have introduced to deal with this problem that is not theoretical and touches every congressional district, and that is to inventory the sites and provide a program for their prioritization.

We are going to have to address the problem of unexploded ordnance at some time. The current rate of cleanup will take hundreds, some have even estimated it may take as many as a thousand, years. That is unacceptable. Sooner is better for the environment, for our citizens, and for the taxpayers. I hope that this last week's tragic incident will strengthen our resolve to do everything we can to make our citizens safe in every way possible.

Unexploded ordnance, also known as UXO, is the bombs and shells that did not go off as intended and are subsequently buried or litter the landscape. Our bill, the Ordnance and Explosives Risk Management Act (H.R. 2605), lays out policy guidelines to address this problem.

Section 311 of the Committee bill calls for an inventory of explosive risk sites at former military ranges. It requires DOD to complete and annually update the inventory that is already begun and establishes criteria for site prioritization among UXO sites.

I want to clarify the purpose of this prioritization requirement. It requires the Department of Defense to develop much more detailed information on the nature and extent of the unexploded ordnance problem that it has compiled to date. Recent GAO reports have concluded that the Department of Defense does not have a complete inventory of current and former training ranges, and that DOD may have overlooked as many as 200 former training ranges in compiling a survey of Formerly Used Defense Sites for the Senate Armed Services Committee. Thus, DOD has likely significantly underestimated the scope of the unexploded ordnance problem. In addition to woefully incomplete information on the scope of this problem, DOD has not been able to provide much information on the urgency of cleaning up the many sites that have been identified.

Some have expressed concern to me that the prioritization requirements of the new section 2710 (which is added to Chapter 160 of title 10, United States code) may preempt states' regulatory authority. That certainly is not the case. I want to emphasize that these requirements are simply intended to generate information on the relative urgency of necessary response actions at and within different ranges. These provisions are not intended to impair or alter, or diminish any existing federal or state authorities to establish requirements for investigating and responding to ordnance contamination.

Madam Chairman, I am pleased to note that the Senate is addressing similar issues to this inventory requirement regarding UXO in its version of the FY02 Defense Authorization. We in the House of Representatives look forward to combining and improving the language in conference in pursuit of what appear to be our common objectives.

It is difficult to find a Congressional district that does not have a UXO problem: over 1,000 formerly-used defense sites (FUDS) are known or suspected to be contaminated with it. They are located from extremely remote areas in Alaska to dense urban environments such as the Spring Valley neighborhood in Washington, DC.

Many of these sites are located in already heavily populated urban areas bordered by housing developments, schools, and parks. Much of this land is otherwise highly desirable, yet its use is restricted due to UXO contamination. At least 65 people have been killed in this country by accidents with UXO, most of them since World War II.

This inventory requirement is going to enable us to begin to learn more about the scope of the UXO problem and provide what is needed for our families to be safe, healthy, and economically secure.

Mr. STUMP. Madam Chairman, I yield 1 minute to the gentleman from Connecticut (Mr. SIMMONS), a member of the committee.

(Mr. SIMMONS asked and was given permission to revise and extend his remarks.)

Mr. SIMMONS. Madam Chairman, I rise today in strong support of this leg-

islation; and I commend the chairman, the ranking member, and the staff for their excellent work on this bill.

The past week has been one of tremendous challenge for this Nation and for this Congress; and as we stand here today, thousands and thousands of Americans in uniform are moving by land, sea and air to take part in what may be a long and difficult campaign against a vicious enemy. It is with great seriousness and bipartisanship that we work here today.

When I served as a young lieutenant in Vietnam, America was divided on the war. This made the war particularly difficult for me and for my generation. Today, I hope we stand with strong bipartisan support for this defense authorization bill. It is my hope that this bipartisanship will continue as we deploy the men and women of our armed services to defend our citizens, our interests, and our values both here at home and abroad. They deserve our unanimous support, and they certainly have mine.

The Second District of Connecticut is home to the Naval Submarine Base at New London—the proud home to nearly 10,000 military families and civilians who maintain and support 21 fast attack submarines within Submarine Group Two. The quality of life improvements in this bill have a major affect to many of these hardworking people in the community I have the privilege of representing.

Our men and women in the military and their families are this bill's primary focus. The pay raise, the highest single increase since 1982, is a critical element towards improving retention, morale, recruitment, and quality of life. Each day there are thousands of men and women who get up and put on a uniform and serve their country abroad or on the seas. They guard our shores, provide stability in unstable regions, provide security to our allies, and deter our adversaries. These patriots have not experienced the years of prosperity in the same way that civilians have; this bill makes a significant step overcoming this disparity.

At the end of this month the Department of Defense will report the Quadrennial Defense Review to Congress outlining the findings of numerous reviews and studies it has conducted over the past months. This is expected to highlight the efforts of this administration to transform our military to meet the threats of the present day and those of the future. Madam Chairman, I was pleased that the President's budget and this bill already contains a significant step towards transforming our military to better meet the needs of the future, and it does so in a cost efficient manner through the Trident Submarine Conversion program.

Taking a Trident Ballistic Missile Submarine and converting it into a Guide Missile Submarine with 154 Tomahawk Cruise missiles is transformational. It provides the United States with a massive, stealthy, long-range knock-the-door-down capability, equal to 70% of the firepower of a carrier task force. A Guided Missile Submarine, an SSGN, could be manned by a crew of 120 compared to 7000 for carrier task force. The cost savings in personnel and in operations and maintenance is clear. This bill funds the conversion of two of

the four Tridents currently requiring refueling and sets the course for the conversion of the remaining two. Let us now complete this transformational initiative.

Finally, I am especially pleased that this bill addresses one of my priorities—solving the problem of American soldiers on food stamps. Last year's targeted sustenance benefit and this year's large pay increase will make great strides toward reducing the numbers of our soldiers on food stamps. In addition, the bill continues to reduce out-of-pocket housing costs by increasing housing allowances to cover 88.7% of housing costs. Military families will therefore not be overburdened by the high cost of opting to live in off-base housing—at a time when DOD itself has deemed that 60% of the military family housing units it maintains are “substandard.”

While the bill will reduce the need for soldiers to use the food stamp program, I am especially pleased that the bill includes language that will work to prevent soldiers from going on food stamps in the future. This bill directs the services to examine and evaluate their financial management training and supplementary programs to prevent financial mismanagement—a condition that not only can lead to military personnel needing food stamps, but also leads to marriage and family dissolution, service separation, and professional decline. At a time when personal bankruptcy filings are at near-record levels, I believe this is a smart, pro-active rather than reactive approach to meet the needs of our service men and women.

I thank the chairman of the Subcommittee on Military Personnel, the gentleman from New York (Mr. MCHUGH) and the ranking member, the gentleman from Hawaii (Mr. ABERCROMBIE), and the subcommittee staff for their assistance on the food stamp and financial management issues. I commend the chairman, the gentleman from Arizona (Mr. STUMP) the ranking member, the gentleman from Missouri (Mr. SKELTON) and the committee staff for putting together this legislation, and look forward to working with you in the future on these important issues.

Mr. SKELTON. Madam Chairman, I yield 3 minutes to the gentleman from Ohio (Mr. KUCINICH).

Mr. KUCINICH. Madam Chairman, I thank the gentleman for yielding me this time.

Air Force Colonel John Boyd, perhaps our Nation's greatest military strategist, once said, “Machines don't fight wars, people do, and they use their minds.” Last week, a group of terrorists shattered all of our established notions of warfare, commanding four of this country's own commercial airlines and utilizing them as weapons that wrought catastrophic damages on two of our major cities. Yet today, we gather to debate a defense bill oriented towards the type of war fought in past generations.

The tactics the perpetrators employed, fourth-generation warfare, are vastly different from traditional modes of battles. They are unorthodox and irregular, as likely to be carried out by non-state actors as nation states. They seek to create chaos by attacking people, cultures, and institutions rather

than militaries. They have been in development for years, and on September 11th they became impossible to ignore.

The bill we debate here today allocates \$343 billion for the defense of our Nation. Will the expenditure of this money protect our Nation from the type of attack we faced last Tuesday? That is a key question. Will the 13 F-22s we will buy next year for \$4 billion have been able to prevent the hijacking of these four airliners? What of the role of the 55-ton Howitzer the Army is requesting \$500 million for? What of the role of the Land Attack Missile Destroyer? What about the ballistic missile defense system, the development of which to date has consumed over \$60 billion of taxpayer money?

Will any of this equipment help prevent or counter the next attack against our Nation? Will this equipment, for instance, be of any use against a suitcase bomb, which uses conventional explosives to distribute nuclear waste products?

Our military establishment seeks \$33 billion more than last year, the largest defense increase since the Cold War, for a total budget as large as the next 15 defense budgets combined, in order to leap ahead into the future. But this leap-ahead technology is rooted deeply in the past. Our current force is more than adequate at dealing with conventional battlefield threats. What we lack is the ability to deal with this new sort of warfare.

We need, then, a new set of principles to form the backbone of an efficient and effective national defense.

□ 1400

First, we need a force that is capable to adapt to changing circumstances, a force that is comfortable and capable countering a terrorist infiltration as an invading army. To accomplish this we need accurate and comprehensive information upon which to base our decisions. This includes information about ourselves, our systems, our current capabilities, our expenditures, as well as our potential enemies.

Finally, borrowing from Colonel Boyd, we need to acknowledge that our people, not our machines, are our most important assets.

The Pentagon, for example, in this context has never passed an independent audit, cannot properly document trillions of dollars in accounting entries, cannot account for all of its equipment, overpays its contractors and uses unrealistic assumptions in all aspects of planning, according to audit agencies.

We have the opportunity to construct an efficient and versatile force oriented towards the diverse threats facing our Nation, one that exploits the ability of a talented officer and enlisted corps and utilizes machines as their tools. But our Nation has much work to do before we complete that task, and we are in a position to accomplish it.

Madam Chairman, I want to thank the ranking member and also the Chair

for this opportunity. I know they are trying to do what is best for this country. We have a lot more work to do.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Illinois (Mr. KIRK).

Mr. KIRK. Madam Chairman, more Americans died last Tuesday than in our Revolutionary War. Therefore, I strongly support this bill and commend the chairman, the gentleman from Arizona (Mr. STUMP), and our ranking minority member, the gentleman from Missouri (Mr. SKELTON), for their excellent bipartisan work on this national defense measure.

As a Reserve Naval intelligence officer and a new member of the committee, I strongly support almost all of the provisions of this bill. I would especially like to thank the gentleman from Arizona (Mr. STUMP), the gentleman from Ohio (Mr. NEY), the gentleman from California (Mr. THOMAS), the gentleman from California (Mr. DREIER), the gentleman from Missouri (Mr. SKELTON) for their support for my amendment, which would allow polling places to be established on military installations.

The Kirk-Langevin amendment would clarify an arcane statute that outlaws "military presence at voting facilities," hence, allowing the Department of Defense 1999 memo to prohibit establishing polling places on military installations. The section of the U.S. Code that our amendment seeks to repeal was enacted in 1865 in response to irregularities during the 1863 elections involving Union troops at polling places in Maryland and Delaware. Voters in some States were reportedly asked to take an oath of loyalty to the Union before voting with Union soldiers preventing others from voting.

At the time the law was enacted, it was an appropriate response to these irregularities. However, the 1999 DOD interpretation of the statute makes voting for our men and women in uniform very difficult.

When the DOD issued a directive to base commanders instructing that polling places should not be located on military installations, it has forced existing polling places to be relocated. According to the CRS, an April 2000 survey of State election officials identified at least 20 jurisdictions that have lost polling places and others that were vulnerable. Some of those polling places had been used for at least 15 years. It is time to let State and county officials decide to choose the convenient places for our people to exercise the franchise granted by the Constitution.

Our amendment is to clarify this arcane law, making voting more accessible to our men and women in uniform. I thank my colleagues and I thank them for including this in the en bloc amendment and urge support for this legislation.

Mr. SKELTON. Madam Chairman, I yield 2 minutes to the gentleman from Pennsylvania (Mr. HOEFFEL).

Mr. HOEFFEL. Madam Chairman, I rise in support of this bill and in strong support of the Tauscher amendment that will be offered later today as part of an en bloc amendment that would require a Presidential strategic plan dealing with nonproliferation issues regarding Russia.

Clearly, the unstable situation in Russia and the uncertainty about the future of her nuclear weaponry and technology requires this kind of strategic plan to be performed. It is very appropriate that the gentlewoman from California (Mrs. TAUSCHER) offer this amendment to the defense authorization bill. I wanted to speak in strong support of it.

I also want to bring to the attention of the House that we have passed in the State authorization bill a similar proposal that I offered that would require a 5-year strategic plan to be done on our arms control and non-proliferation strategies in general. It is important that we pay close attention to these challenges, that we require both the State Department and, in this case, the Department of Defense to do this sort of planning under Presidential direction, and that we get our national security team and agencies to work together to deal with nonproliferation issues, with arms control matters.

Madam Chairman, I compliment the gentlewoman from California (Mrs. TAUSCHER) for bringing this matter to the attention of the House. I urge support for her amendment and the close attention to be paid to the future of proliferation issues. The events of last week bring home as clearly as possible the need for us to pay attention to keeping the nuclear weaponry, technology and information out of the hands of terrorists. This sort of strategic planning is the way to do it. I ask for support of the Tauscher amendment.

Mr. STUMP. Madam Chairman, I yield 3 minutes to the gentleman from Arizona (Mr. KOLBE).

Mr. KOLBE. Madam Chairman, I congratulate the chairman and the ranking member for a good bipartisan bill. I rise in strong support of it.

Madam Chairman, I come to the floor today to discuss an inequity in the treatment of Americans who helped to win the Cold War. Unfortunately, an amendment that I would have offered to this bill was not made in order.

This same bill last year included the Energy Employees Occupational Illness Compensation Program Act of 2000. This act provides compensation to employees and survivors of employees suffering from illnesses incurred from exposure to beryllium in the performance of duty in America's nuclear weapons program.

Beryllium is a metal with structural and atomic characteristics that make it irreplaceable for many nuclear-related uses. Inhalation of beryllium dust, even at very low concentrations, can cause cancer and chronic beryllium disease, which gradually destroys lung

function many years after exposure. Thousands of workers involved in producing nuclear weapons, materials and components have suffered disability and horrible deaths.

Although beryllium has numerous commercial applications, the Departments of Energy and Defense have been the largest users. In the construction of our strategic nuclear arsenal, the Department of Energy had responsibility for the nuclear device, that is, the weapon, while the Department of Defense had responsibility for the delivery system, the missile, and the inertial guidance system which would deliver the device to target.

Congress has recognized its responsibility and determined that we are responsible in accordance with the Energy Employees Occupational Illness Compensation Program Act.

Although it was passed with the best of intentions, the act is a travesty because it is not equitable. It applies only to the DOE. A worker with the exact same condition developed under the exact same circumstances but who worked for the Department of Defense is not covered. Why should one Department of the Government have different responsibilities and liabilities than another Department?

If the Department of Energy has a responsibility to compensate its workers, then under the same circumstances the Department of Defense should have the same responsibility. I would not seek to greatly expand the scope of the Energy Employees Occupational Illness Compensation Program Act, but I insist that those people working for the Department of Defense under the same relationship and same conditions as those working for the Department of Energy receive the same benefit.

This inequitable treatment of people who did work on behalf of our national security must be addressed. These citizens who work on our national weapons program helped to win the Cold War, and they should not be punished unfairly only because they worked for one agency instead of another. I do not intend to give up on this matter. I and the people who are suffering from this disease are anxiously awaiting the Department of Defense's report on this subject, which is inexplicably late; and I will continue to pursue a legislative remedy for this injustice.

Mr. SKELTON. Madam Chairman, I yield 4 minutes to the gentleman from Mississippi (Mr. TAYLOR).

Mr. TAYLOR of Mississippi. Madam Chairman, I thank the gentleman for yielding me this time.

Madam Chairman, last Tuesday was a tragic reminder of what a dangerous place this world is. It is also a tragic reminder of how dangerous the world is not only for the men and women in uniform, but the people they protect. Last Tuesday, we did not do our job as well as we should have. The fact that any American died means that we have to do better.

This bill will address a lot of our Nation's needs, but it also leaves some

things unattended. I regret to say this year's shipbuilding budget will lead to a Navy that is 210 ships in the very near future. That is inadequate. Maybe what happened on Tuesday will cause us to rethink that, and I hope so. I had the assurance 2 weeks ago from the Secretary of the Navy that he will try to do better. Unfortunately, he told me next year's budget does not look any better than this year's budget for shipbuilding.

Earlier I told my colleagues that defense was more important than tax breaks. I will say it again. Defending this Nation is more important than tax breaks. Having served in both State and local government, I can tell my colleagues that the States and cities can do almost everything; but they cannot defend the Nation. That is our job.

Madam Chairman, it is also equally important, as we are asking young people to put their lives on the line for our Nation, that we keep our promise to those people who have already served our Nation. One of the promises made to them was a lifetime of health care. Part of that was answered last year. This House, interestingly enough by over 400 votes, voted to allow our military retirees to continue using the base hospitals and to have their Medicare taxes, the taxes they pay just like every other person in America, be used to reimburse that base hospital for their care to ensure that promise was kept.

Over half of our Nation's military retirees live close to a military base, and the overwhelming preponderance of them did so so they could use the base hospital. Unfortunately, language was changed in conference last year that instead of saying they must do this, allowed Medicare and the Department of Defense health care system to reach an agreement. For 3 months under the Clinton administration and for 8 months under the Bush administration, neither HCFA nor the DOD have reached that agreement and now talks have broken off.

So on October 1, military retirees who walk into a base hospital will be turned away. Many have been going to those base hospitals since they were 18 years old. They like being called colonel or chief. They earned those titles. They want to go to the base hospital because that has been their family for 20 to 40 years of their life.

Madam Chairman, I have gone before the Committee on Rules with the same amendment that over 400 of my colleagues voted for last year. It is a very simple premise. It would allow our Nation's military retirees who pay Medicare taxes, just like every other American, to take their Medicare benefits to a base hospital.

Unfortunately, thus far the Committee on Rules has not made that amendment in order. I am here publicly to ask my colleagues, the gentleman from Missouri (Mr. SKELTON), the gentleman from Arizona (Mr.

STUMP), I have met with the gentleman from Illinois (Mr. HASTERT), the ranking members on both sides of the Committee on Rules, let us make that amendment in order before we ask one more kid to serve their country with promises of doing good things for them. Let us keep the promises that we have made. Those promises have been made. Those promises were in the recruiting manuals all of the way up until 1991. It is the right thing to do. It can take an otherwise good bill and make it into a great bill. I think it is a very simple request.

Madam Chairman, I hope that request is fulfilled. I hope I do not have to cause mischief to get that amendment made in order.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Indiana (Mr. BUYER).

Mr. BUYER. Madam Chairman, I thank the gentleman from Arizona (Mr. STUMP) and the gentleman from Missouri (Mr. SKELTON) for a job well done on the bill.

The President, as we all know, is coming here tonight to address not only a joint session, but the American people, to describe not only his mission in the war on terrorism, but also how he will help stabilize and stimulate our economy and how sacrifice must be of a higher priority than personal inconvenience.

This is the first war of the 21st century, and it is nothing like anything we have ever faced. The enemy flies no flag, has no boundaries, and often goes unseen. We call it the asymmetrical threat; but this is one that is not subject to the traditional calculus of deterrence, which means that we also in this bill, and I am sure as we go to conference, will have to address the intelligence side of the House, not only by my colleagues' cooperation as an authorizing committee, but also with the appropriators to make sure that not only the intelligence community of our CIA but the military intelligence community is strengthened.

I thank on behalf of the Guard and Reserve Caucus, the gentleman from Mississippi (Mr. TAYLOR) and myself, the gentleman from Missouri (Mr. SKELTON), and the gentleman from Arizona (Mr. STUMP), for allowing us to play a part in the bill. I am pleased that the bill provides \$807 million, \$192 million more than the President's request for facilities enhancements to improve training and readiness for the Guard and Reserves.

Congress has worked hard in the past to close the procurement gap between the active and reserve components to ensure seamless integration of equipment and compatibility.

□ 1415

That modernization of those reserve components is highlighted by the call-up that is happening right now. We cannot go to remote places of the world without relying upon the Guard and Reserve. We need their air assets to

build the air train, for the lift to get us to where we need to be.

As this bill supports them, I want to thank the gentleman from Missouri (Mr. SKELTON) and members of the committee on both sides of the aisle and the chairman for a job well done in this bill. Please support this defense bill.

Mr. SKELTON. Madam Chairman, I yield myself such time as I may consume.

Madam Chairman, last year in the bill that related to the Department of Defense, there was a provision that required the General Accounting Office, the GAO, to examine the Federal Government's progress in its effort to combat terrorism. As of today, the GAO is making its findings public.

First, let me point out that for quite some time, we have been in a quiet war against terrorism. Nothing has happened here on our soil. And as of September 11, the difference is now that everyone knows it. This report, which was well in the works before the horrific attacks on September 11, underscores our need to dedicate more attention to protecting Americans by combating terrorism.

This report is entitled "Combatting Terrorism: Progress Made, but Executive Direction Needed to Address Evolving Challenges."

The report concludes that while progress has been made, much remains to be done to establish overall leadership and coordination at the operational level and to implement a comprehensive national strategy. The report recommends the establishment of a single focal point for overall coordination and leadership and calls on the President to appoint a person to be responsible for threat assessments, strategy, budgeting, and oversight. The study further suggests the need for greater consolidation of Federal programs designed to assist State and local governments such as those managed by the Department of Justice and the Federal Emergency Management Agency.

This report, though it cannot be of help because of the September 11 acts that occurred, hopefully will be of help in the days and years ahead.

Madam Chairman, I reserve the balance of my time.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Virginia (Mr. FORBES).

Mr. FORBES. Madam Chairman, I rise in strong support of the National Defense Authorization Act. In the coming days, we will see a strong demonstration of America's military might. But as our military responds to Tuesday's tragic events, keep in mind that this is a military that has faced a decade of high tempo of operations, armed with declining numbers of personnel and decreased funding. This other battle, the battle to maintain readiness, has degraded America's security by encouraging the attrition of some of its most talented personnel.

Now more than ever, we need to support our service personnel, the true power behind America's military might.

We must give our soldiers, sailors, airmen and marines modern weaponry with which to keep American interests secure. We must support shipbuilding, aircraft procurement, homeland defense, and research and development. We must support the National Defense Authorization Act if we want to ensure that America will be able to respond to aggression, today and tomorrow. The National Defense Authorization Act addresses the urgent need to rebuild the U.S. military. I urge my fellow Members to support this balanced measure.

I thank the chairman and the ranking member for their hard work and dedication to this legislation.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentlewoman from Florida (Ms. ROS-LEHTINEN).

Ms. ROS-LEHTINEN. Madam Chairman, I thank the gentleman for yielding me this time.

One of the more revealing elements of the approach undertaken by Osama bin Laden and his terrorist network is the importance of lengthy preparation, meticulous planning and guerilla warfare. However, it is not guerilla warfare in the traditional sense. As the barbaric attacks of September 11 clearly demonstrated, anything and everything is possible. In the minds of these terrorists, anything and everything is justified. Thus, the U.S. must be prepared on every front to confront and eradicate such an enemy.

This bill seeks to accomplish just that. The U.S. and democratic principles triumphed over tyranny and communism during the Cold War by following the tenets of the landmark document, NSC-68, and the doctrine of peace through strength. We did simply more than match capabilities; we overpowered our adversaries through a policy firmly rooted in U.S. military superiority and overwhelming strength. The resources and the funding that we allocate for the war against terrorism must follow this precedent. We must provide for a flexible, comprehensive, and definitive response which includes any and all options available to the U.S.

As Thomas Jefferson wrote in 1788, "War requires every resource." Let us not gamble with the safety and security of the American people. Let us once again demonstrate congressional resolve. Let us render our full support to this important legislation.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from North Carolina (Mr. HAYES), a member of the committee.

Mr. HAYES. Madam Chairman, I thank the gentleman from Arizona (Mr. STUMP) and the gentleman from Missouri (Mr. SKELTON) for their absolutely tireless effort on the part of our military, our men and women in uniform.

Madam Chairman, the tragic events of September 11, 2001, have thrust our Nation's military into the spotlight and called to duty the brave men and women of the U.S. Armed Forces. Once again, U.S. citizens are rallying behind them in strong support of the harrowing mission they have been called upon to do. We in Congress just passed a \$40 billion funding bill, half of which will be devoted to our military. This financial support, devoted to our national security, is long in coming. I am proud to say that as a member of the House Committee on Armed Services, this legislation that we passed in August took the first step in rebuilding our military after almost a decade of decay and neglect.

The bill in front of us today marks the most significant increase to the defense budget since the mid-1980s. It is targeted at two of the most critical areas crucial to maintaining a healthy and robust military: quality of life and readiness. For the soldiers in my district at Fort Bragg, North Carolina, the ability to adequately care for their families and train for the mission for which they are called are the two issues that are second to none. I believe this legislation makes significant progress in these areas. Furthermore, this bill supports the President's missile defense program and ensures a necessary and realistic testing program.

Madam Chairman, it is gross injustice and misfortune that it took the tragedy of a week ago to focus the public eye on the need for a more robust defense budget. I feel the legislation in front of us today takes that important first step and sets a clear and strong course to rebuild our Nation's defenses. I urge my colleagues to send a message, loud and clear, to our soldiers, sailors and airmen that we will strongly support them and give them the resources necessary to perform the mission at hand.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. Madam Chairman, I wanted to briefly speak about an amendment that I had planned to offer. My amendment would have removed language added by the Committee on Armed Services regarding the B-1 bomber fleet. It is my understanding that an agreement has been worked out with the administration and the Committee on Armed Services that had raised concerns over reducing and consolidating the B-1 fleet. I understand that this is going to be worked out in conference.

It is my concern that we fight today's wars, not yesterday's wars. I believe that this agreement is going to be satisfactory. I just want to state for the record that modernizing the B-1 fleet is very important. I would strongly encourage the two parties to revisit the issue in conference.

Mr. HUNTER. Madam Chairman, will the gentleman yield?

Mr. FLAKE. I yield to the gentleman from California.

Mr. HUNTER. Madam Chairman, I just want to add my thoughts on the B-1 fleet, the idea that we have been so short of money the last several years that we have been like a farmer who has three hay balers and he cannot afford to keep all three of them running, so he starts cannibalizing parts off one of them just so he can keep the other two in operation. That is not the way to run a military, but that is the way we have been forced to run part of our B-1 fleet.

And so the idea was to save money, we would cut down that fleet, coming down from the nineties to the sixties, and basically do away with those operations of some 30-some aircraft. That would take out of operation one of our fine assets, our most recently built bombers beyond the few B-2s that we have built, something that has got long-range capability. In fact, those packages may be utilized in upcoming air operations.

My own thoughts are that it is wise for us to spend the money that it takes for the spare parts and the operational support to keep the entire B-1 fleet in the air and operational. I think that makes sense. I think that is where the gentleman was going with his amendment.

Mr. FLAKE. I thank the gentleman. Yes, I want a discussion in conference and want to make sure that we do not foreclose on any option by the administration.

Mr. HUNTER. Let me just say I would be happy to work with the gentleman, with Democrat and Republican Members, and with the administration, to try to persuade them that keeping all our bombers in the air is the way to go.

Mr. STUMP. Madam Chairman, I yield 3 minutes to the gentleman from California (Mr. HUNTER).

Mr. HUNTER. Madam Chairman, I would like to talk with the gentleman from Missouri (Mr. SKELTON) who is an expert on the B-2 fleet.

I still think that most Americans do not realize what we have done with that capability, because I just left the buildings in San Diego where, during World War II, we built bombers at a rate that was remarkable. We built a bomber aircraft per hour. That meant that in 1 day, in 24 hours, we would build more aircraft than we have in the entire B-2 fleet. And in some cases, in missions in Europe and other places, we lost more than that many planes in a day. Yet the B-2 fleet, because it has the ability to avoid and evade enemy radar and, therefore, the ability to penetrate into an enemy's airspace directly over target, coupled with precision munitions, where instead of dropping a giant payload of hundreds of bombs on a bridge or another asset, you send one precision-targeted munition into that one strut on that bridge and bring it down, that capability, that precision munitions, coupled with stealth that we have with B-2, has made us very effective.

Mr. SKELTON. Madam Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from Missouri.

Mr. SKELTON. As the gentleman knows, the B-2 fleet from Whiteman Air Force Base, which is in west central Missouri, did remarkable work during the Kosovo conflict. The precision ammunition that it used was the best effort in the history of aerial warfare. In this bill, we are working towards smaller precision-type ammunition, bombs, and I think that is a major step.

I also think that, regarding the B-2 fleet, we need certain upgrades to make sure that we stay ahead of all the technology so that, even more so, they will be stealthy. They are a first-class instrument of national defense. The B-2 fleet, as the gentleman knows, is so very, very important to our future. We must in our capacity as lawmakers and members of this committee make sure that the upgrades that are necessary for future technical advancement are bought and paid for.

On a related item, I might tell the gentleman from California that not long ago I was talking with a marine captain who had just relinquished his command as a company commander. I was asking him about his experience. He, of course, being a marine all the way through, was very proud of his service as commander of that company. But he did remark, "We didn't have enough ammunition to train properly."

The gentleman from California has done yeoman's work in the area. We need, I think, to do more in the area of ammunition. I know full well that I join him in that effort.

□ 1430

Mr. HUNTER. Madam Chairman, I thank the gentleman from Missouri (Mr. SKELTON); and you know, we are working with the administration right now, and I know he joins this effort to try to make sure that this package that is being worked up now through the Pentagon includes a lot of ammo, not only for Marines but for the Army.

Mr. SKELTON. Madam Chairman, I reserve the balance of my time.

Mr. STUMP. Madam Chairman, I yield myself such time as I may consume.

I want to take this opportunity to thank the gentleman from Missouri (Mr. SKELTON), the ranking member, for all his help this past year. This is our first bill. It has been a joy to work it. He has been the epitome of a gentleman, and I thank the gentleman, my friend, for all his hard work. Few people are more diligent when it comes to the defense of this country than the gentleman from Missouri (Mr. SKELTON), and I commend him again.

I have no further speakers, Madam Chairman.

The CHAIRMAN. Does the gentleman from Missouri yield time?

Mr. SKELTON. How much time do I have remaining, Madam Chairman?

The CHAIRMAN. The gentleman from Missouri (Mr. SKELTON) has 20½ minutes. The gentleman from Arizona (Mr. STUMP) has 10 minutes.

Mr. SKELTON. Madam Chairman, I have one additional speaker who has a proposed colloquy with me, and I would like to wait a moment for that.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from California (Mr. CUNNINGHAM), a member of the Committee on Appropriations.

Mr. CUNNINGHAM. Madam Chairman, the defense bill has been neglected for a long period of time, not necessarily by appropriations or even authorization, but by the utilization of our Armed Forces without replenishing those forces. It has prevented modernization in many areas.

I also serve on the Permanent Select Committee on Intelligence; and if we think about the depreciation of our personnel, of our equipment and every rock we turn over, whether it is parts, whether it is training, whether it is ship repair, there is a deficiency.

I would like for everyone to think also, because authorization goes to appropriations and under the appropriations cycle we fund the intelligence committees; but every time we had one of those 124 deployments, our intelligence agencies were forced to withdraw from their budget as well and not modernize both in the HUMINT, ELINT and areas in which they need to protect us from terrorism as well as national security from other sources.

I laud the gentlemen on both sides. One of my favorite Members here in Congress is the gentleman from Missouri (Mr. SKELTON), a direct descendant of Daniel Boone; and he believes in defense, as does the gentleman from Arizona (Mr. STUMP), the chairman, on our side of the aisle.

It is important now that the Nation realize just how far deficient that our Armed Forces are and our intelligence service; and if we are going to do an adequate job of protecting this country, then this must be just a start.

Mr. SKELTON. Madam Chairman, I would take this opportunity to thank my friend, the gentleman from California (Mr. CUNNINGHAM) for his very kind and generous remarks.

Madam Chairman, I yield 5 minutes to the gentleman from Massachusetts (Mr. FRANK).

Mr. FRANK. Madam Chairman, I appreciate the time from the gentleman from Missouri (Mr. SKELTON), and I want to pay my deep respects to him and to the gentleman from Arizona (Mr. STUMP), the Chair, and to the others.

Let me just say parenthetically, I think we here all enormously enjoy this job almost all the time, but this is such a grave time that I think none of us feel confident that we are fully adequate to these terrible decisions and we are all doing our best; and I particularly admire those who have the responsibility for national security, especially because from what I have

learned from our ranking member and others, there was a genuine effort to work together.

We understand that the kind of differences of opinion we have among ourselves do not mean a lack of national unity, but we also understand the importance of international perception, and we all carry with us a commitment to make sure that none of this murderous gang that has launched a war on innocent people here get any comfort from our debates; and indeed, I think and I understand this, there will be less of a debate in this particular bill over one very controversial issue, national missile defense, than there might otherwise have been and there will be some day.

While many regret that, I think that is an appropriate choice, and I commend the leadership on both sides for acknowledging that because we do not run the risk that the people who do not understand that democracy is a strength and not a weakness might temporarily be emboldened by that. So many of us do note that we are supportive of a decision to forgo a all-out debate at this point, not because this is not an important issue, but because there will be another and better time in which to do it.

I do, however, want to stress one aspect of the missile defense question. President Bush has very wide, virtually unanimous support in this country in fashioning a response to this terrorism, which is based on his recognition that it cannot be done without significant international support. Just as a physical fact, given the location of Afghanistan, this, given all of the other problems we have with this far-flung network of murderous assailants that we confront, international cooperation is very important.

I was particularly struck that former President Bush made a point in a speech in Boston about the need for us to disavow any notion any might have had that America can go it alone. This reminds people why we need the rest of the world.

One discordant note in this, however, potentially, would be an American decision unilaterally to withdraw from the ABM treaty in the pursuit of national missile defense. Just as many of us are today acquiescing in the decision not to have a full-fledged debate on this issue, I hope the administration, in the interest of national unity and in the interest of getting that international supportive coalition that is so critical to success, will not be on the verge of or threatening to abdicate a treaty which is so important.

Cooperation from Russia and from the former Soviet states, Uzbekistan, Tajikistan, Kazakhstan, et cetera, that is very important. Cooperation with China is important. It would be, I think, a mistake if we were to make it harder to get that necessary multilateral cooperation by an excessive unilateral approach to the question of the antiballistic missile treaty.

Just as many of us are deferring our views on the overall issue because we do not want anyone outside this country to misunderstand, we do not want anyone to misapprehend the degree of unity and determination there is here in America, we believe unanimously, almost, certainly in this Congress, that we have not only the right, but the moral obligation, to use whatever physical force is necessary to pursue these murderers, because it is our obligation as the nation of great strength, to prevent them from trying striking again and again and again.

But we need to do that with a full respect to our own traditions. We need to show our moral as well as our physical superiority. Part of that has been correctly understood by the President of the United States and by Secretary Powell and others, a multilateral approach.

So, therefore, I hope very strongly that nothing will be done in the area of missile defense in this next few months that would jeopardize the important principles of multilateralism, of getting maximum cooperation. It cannot be a good policy for us completely to disregard the views of others on that one issue, when we are so eager to have their cooperation; and we ought to have their cooperation. We are asking for something in the world's interests, as well as our own.

So, again, I want to thank the ranking member, the Chair and others, for the example they are setting of cooperation.

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Pennsylvania (Mr. WELDON).

(Mr. WELDON of Pennsylvania asked and was given permission to revise and extend his remarks.)

Mr. WELDON of Pennsylvania. Madam Chairman, I thank the gentleman for yielding me time.

I want to respond to our colleague's comments. The gentleman raises a valid point, and I want to acknowledge the fact that many of our colleagues who oppose missile defense are working in a very constructive way to move forward with this sense of unity; and we appreciate that.

I want to assure the gentleman that we are working together. In fact, on Wednesday, a group of us will travel to Moscow. We have been working for 2 months quietly behind the scenes with the administration, both the Department of Defense, the National Security Council and the White House, to put together a major package, the most comprehensive package ever, to engage Russia and its people in the area of the environment, education, health care, culture, agriculture, across-the-board, with a component of that being defense.

We are very sensitive to the gentleman's comments that we do not want to have this become an issue that becomes divisive. I share that feeling. Even though we may disagree on missile defense, I share the gentleman's

sentiments. And I know many of our colleagues, like the gentleman from Ohio (Mr. KUCINICH) and others, feel the same way.

So we are using every ounce of energy to reach that compromise to work together. There will be members of the minority party on the trip. In fact, the gentleman from New York (Mr. HINCHEY) has agreed to go, the gentleman from Hawaii (Mr. ABERCROMBIE), the gentleman from Texas (Mr. EDWARDS) is looking at going with us.

We will have constructive discussions. I want to assure our colleague, the White House, the Defense Department, and the State Department understand the gentleman's comments. We do not want to have this become a split between us and Russia, and I want to pledge my support to working every possible way I can to make sure that we do exactly what the gentleman has asked us to do, and that is not box Russia out.

So I appreciate the gentleman's comments.

Mr. FRANK. Madam Chairman, will the gentleman yield?

Mr. WELDON of Pennsylvania. I yield to the gentleman from Massachusetts.

Mr. FRANK. Madam Chairman, given the fact that the gentleman acknowledges, yes, this is an area in which we differ, I appreciate very much his comments. And I hope that this will be part of the signal that we set, that we can maintain legitimate differences within our democratic structure without in any way endangering our unity.

Mr. SKELTON. Madam Chairman, I yield myself such time as I may consume.

Madam Chairman, I thank the gentleman from Massachusetts (Mr. FRANK), for his comments on the need for working together with other countries. One of the pole stars of this entire effort against terrorism will be that of building a coalition of countries who desire and urge freedom for their people. So I thank the gentleman for pointing that out.

Madam Chairman, I yield 1 minute to the gentleman from Connecticut (Mr. LARSON).

Mr. LARSON of Connecticut. Madam Chairman, I want to join with those who have come to this floor today to express, first and foremost, the heartfelt feelings that all of us on the committee have for the extraordinary leadership on this committee, exemplified by the gentleman from Arizona (Mr. STUMP) and the gentleman from Missouri (Mr. SKELTON). Truly in this hour of need for our country and throughout their service on this committee, they have always put America first.

The help that I have received in putting forward legislation from people like the gentleman from Pennsylvania (Mr. WELDON) and the gentleman from California (Mr. HUNTER) and working with the gentleman from Mississippi (Mr. TAYLOR) and the gentleman from Hawaii (Mr. ABERCROMBIE), makes this

committee, makes this Chamber, especially during this hour of crisis, that much more significant, that much more important. To see the debate that just transpired between two colleagues lets the American people know how strong and firm and committed we remain.

Mr. STUMP. Madam Chairman, I yield 1 minute to the gentleman from California (Mr. HUNTER).

Mr. HUNTER. Madam Chairman, I just want to mention that with respect to the ranking member who was just talking about the need for a bilateral policy and working with our allies, obviously that system has now been energized, in light of the strike on the United States.

I think one other aspect of missile defense has been addressed by that, because one of the arguments of the Bush Administration to the Russians has been that while we did sign the ABM agreement with them and we promised not to defend ourselves against incoming missiles and they did the same thing with respect to the United States, our argument has been that this world is a very dangerous place external to that relationship between the Russians and the United States; that there are other states out there that would attack the United States that we should be worried about and who are developing missiles and developing those systems that could harm us.

□ 1445

I think that this strike on the United States has given a great deal of credibility to this message that we have been sending to the Russians, that we have not only a real threat, but we have obviously the supreme national interest of defending ourselves against that threat. I think there is going to be a new tone taken by the Russians post-strike.

Mr. SKELTON. Madam Chairman, I yield such time as she may consume to the gentlewoman from California (Ms. SANCHEZ) for the purposes of a colloquy.

Ms. SANCHEZ. Madam Chairman, I rise to engage the gentleman from Missouri (Mr. SKELTON), the distinguished ranking member of the committee, on an issue that directly impacts my district.

Mr. SKELTON. Madam Chairman, if the gentlewoman will yield, I would be pleased, of course, to engage with the gentlewoman from California in a discussion of her concerns.

Ms. SANCHEZ. Madam Chairman, as a member of the House Committee on Armed Services, I wish to bring to the attention of my colleagues and the administration a problem that involves a former active military facility in my congressional district, the Marine Corps Air Station of Tustin.

Mr. SKELTON. Madam Chairman, I would tell the gentlewoman that I am familiar with the facility, which was closed under the auspices of the Base Closure and Realignment Commission,

also known as BRAC. The gentlewoman has discussed the status with me in the past.

Ms. SANCHEZ. Madam Chairman, as the gentleman from Missouri knows, MCAS Tustin was closed along with MCAS El Toro in Orange County, California. As in other communities throughout the Nation, the local public and their leaders have had to decide how best to use these former military installations. In the case of MCAS Tustin, there is currently a "tug of war" going on in my district about the different interests. The city of Tustin wishes to use most of the facility for purposes that exclude public benefit conveyances to Santa Ana Unified School District and Rancho Santiago Community College District.

Mr. SKELTON. Madam Chairman, if the gentlewoman will again yield, I might say that I am aware of the city of Tustin's base reuse plan and that there is currently a dispute between the city of Tustin and the school districts, as the gentlewoman mentions. I further understand that the Department of the Navy has been meeting with both parties to try to encourage a compromise solution to the outstanding issues regarding this former base.

Ms. SANCHEZ. Madam Chairman, that is correct. In short, the city of Tustin has not provided for the conveyance of enough appropriate land to accommodate the needs of the growing school district populations in Santa Ana. The land that the city of Tustin has offered to the school districts is contaminated and unusable for purposes of housing children. The Department of the Navy has assured me that the resolution of the issues surrounding conveyance of this Tustin property for educational needs is critical in any conveyance decision, and the Navy continues to encourage a local agreement on the issue and feels that the lack of an agreement on educational transfers seriously complicates and has stopped any Navy decision to convey MCAS Tustin property.

Mr. SKELTON. Madam Chairman, that is my understanding of the position of the Department of the Navy as well. As ranking minority member of the committee, I can assure the gentlewoman that the committee would take a very dim view of a transfer of land by the Navy before the issues that she raises today are resolved.

Ms. SANCHEZ. Madam Chairman, I thank the gentleman.

Mr. MCGOVERN. Madam Chairman, I have many concerns about this bill and our defense budget, including its overall size, weapons systems, and priorities. I have never supported funding for National Missile Defense, and I never will. This foolish and expensive program takes monies away that would be better spent, in my opinion, to combat terrorism, enhance readiness, and support research on battlefield medical and other support.

At the same time, I strongly support the significant increases in this authorizations bill for

"quality of life" improvements for our uniformed men and women and their families. H.R. 2586 makes welcome advances in providing additional resources for military pay, health care, and housing, as well as health care for our military retirees.

I believe it is important to move this funding forward so that the Pentagon and our various defense agencies might rest assured that they have the resources they require to respond effectively to our current national security crisis.

I would like to take a moment, however, to talk about a small amount of military aid in this bill, small at least relative to the overall \$343.1 billion authorized in H.R. 2586. But not small in the impact these funds will have in the country where they will be used.

This bill contains a little over \$99 million in military aid for Colombia. In July, during debate on the foreign operations appropriations bill, many of my colleagues claimed that the amendment offered by Congressman HOEKSTRA and myself would eliminate military funding for Colombia. We said that was not true—that there were additional funds in the DOD bill. We were right.

President Pastrana recently announced that Colombia should rethink the entire approach of the United States-backed Plan Colombia. Indeed, as the Push Into Southern Colombia proceeds, President Pastrana described how coca fields are shifting from the southern state of Putumayo to regions never used before for drug cultivation. The various armed factions in Colombia—the guerrilla groups, the paramilitary forces and the Armed Forces—are now entering those regions, fighting for territorial control and bringing violence and death in their wake. And the expanded conflict has brought peace negotiations to a halt.

Rather than containing coca cultivation and decreasing the level of violence in Colombia, our policy is doing the opposite, and drawing Colombia and the United States into a wider conflict.

As we prepare for yet another war against an enemy that can easily shift territory and forces, we need to remember that military force alone can't win these campaigns.

Over \$340 billion in military aid for the Pentagon alone won't guarantee success.

I support the efforts of president Bush, Secretary of State Powell and other members of the administration to create a global, multilateral effort to coordinate our diplomatic, economic, judicial, law enforcement, and intelligence resources. The United States cannot do this alone, and we should not "go it alone."

Increased food aid, development and economic assistance can make a significant difference in overcoming the poverty, hunger, ignorance, illiteracy, and oppression, which are often the breeding grounds of civil unrest, conflict and terrorism.

And unless the United States is actively engaged in finding just and lasting solutions to the many long-standing conflicts around the globe, including the Middle East, terrorism will continue to flourish.

Now, more than ever, we must make serious efforts to advance justice, human dignity and the rule of law to every corner of the globe.

And lest we forget, our national security is grounded in our ability to provide our own citizens with quality education, health care, a sound infrastructure, economic opportunity, and fundamental civil liberties.

So, while we take up consideration today of this defense bill, I urge my colleagues to also support significant new investments in food and development aid, in diplomatic resources, and in strengthening our domestic and international judicial and law enforcement programs. The September 11 terrorist attacks were attacks against our freedoms and the prosperity of our nation and our communities. We must ensure both continue to advance if we are to genuinely thwart the intent behind these evil acts.

Ms. MCKINNEY. Madam Chairman, I have grave concerns about this bill.

I would first like to say that I hope that reason and common sense prevail in any decisions on our Nation's future response to terrorism.

Madam Chairman, I pray for God's intervention in ensuring the safe return of our many young men and women who are now being sent off to fight this war against terrorism. They face tremendous dangers and uncertain futures and their families will endure many long and sleepless nights waiting for their return. We must remember them all and acknowledge the great personal sacrifices they are going to have to make on our behalf in the coming days.

BUDGET INCREASE AND COMPARISON

The passage of H.R. 2586, the National Defense Authorization Act of 2002, by the House Armed Services Committee represented a near \$33 billion dollar increase from fiscal year 2001, and provides a total of \$343.3 billion in budget authority to the Department of Defense for fiscal year 2002. For the sake of comparison, the House of Representatives has passed an appropriation totaling \$7.7 billion for the Department of State for fiscal year 2002, and the appropriation for Foreign Operations was passed by the House at \$15.2 billion. The sum of these two appropriations—\$22.9 billion—representing the amount allocated to diplomacy, international aid, and peace by the United States, rises only to 70 percent of the defense allocation increase and 6.7 percent of the entire defense budget.

With the financial mismanagement that continues to exist within the Department of Defense, increases should not be made to many programs until a system of financial responsibility is instituted to prevent future overspending and fiscal waste and to address the lack of accountability.

MISSILE DEFENSE

The single largest portion of the budget increase is dedicated to the development and proliferation of missile defense systems. It should be apparent to us all that ballistic missiles are not our worst threat at this time.

The committee's missile defense program is a carbon copy of the Bush administration proposal. It would dramatically increase the missile defense budget 57 percent—\$3 billion to \$8.3 billion. This accelerated missile defense program is virtually certain to lead China to increase the number of nuclear weapons pointed at United States cities and may discourage Russia from making deep cuts in its arsenal. It should be apparent to us all that ballistic missiles are not our worst threat at this time. This program has also had seriously questionable success in operational tests to date, and functional operation of any missile defense is still in doubt.

Expensive, high-tech weapons are no substitute for effective diplomacy, arms control,

disarmament, and international cooperation. Cooperative international arms control and disarmament agreements will be far more effective in advancing peace and security in the years ahead and will cost far less than a missile shield.

NUCLEAR REDUCTIONS

Although both Russia and the United States have ratified START II, its implementation has become entangled in contradictory conditions by the Russian Duma and the U.S. Senate over the Anti-Ballistic Missile (ABM) Treaty. I have been encouraged by President Bush's proposal to unilaterally reduce the U.S. strategic arsenal, beginning with the 50 Peacekeeper (MX) missiles, which contain 500 nuclear warheads.

Unfortunately, current law prohibits the President from reducing the nuclear arsenal, other than through START II ratification. Current law also places unnecessary restrictions on the ability of the President to de-alert, or take off high-alert status, our nuclear weapons. Currently the United States and Russia have over 4,000 nuclear weapons aimed at each other—poised to be launched within minutes.

The committee unfortunately rejected the amendment by Representative TOM ALLEN to remove the restrictions in section 1302. It did allow a second, narrower amendment to remove the restrictions on the MX missile retirements. However, the committee denied the President the ability to negotiate deeper reductions with Russia by defeating the first Allen amendment.

The President, Secretary of Defense Rumsfeld, and the Joint Chiefs of Staff have all called for reductions in our strategic arsenal. Yet the majority party on our committee continues to cling to these weapons as cold war relics.

I was also disappointed that the committee rejected the amendment by Representative ELLEN TAUSCHER that would have de-alerted the nuclear weapons in our arsenal that are already slated for retirement. The first President Bush de-alerted thousands of nuclear weapons in 1991 as the Warsaw Pact disintegrated. The current President Bush has also supported the concept of taking nuclear weapons off hair-trigger alert. Unfortunately the committee again missed an opportunity to demonstrate leadership in reducing the nuclear danger. In light of recent events, I think that it would be prudent to de-alert as many nuclear missiles, and to retire as many as possible lest they become greater targets, or become threats against ourselves.

MEDICAL ACCESS AND GENDER

I regret that the committee did not support changing current law to permit service women and female dependents who serve or reside overseas to access military hospitals and other facilities for the purpose of privately funded abortions. Similar women who serve or reside within the United States have constitutionally protected right to access to legal and safe facilities that provide abortions. Left with no other option than to either seek an abortion in a potentially unsafe, foreign medical facility or to forgo an abortion altogether, this legal provision is tantamount to gender discrimination and should be changed. Not only does this threaten the health of such women, such a policy is seemingly unconstitutional, and further, it threatens retention and recruitment of soldiers. I urge my colleagues to support efforts to correct this discriminatory discrepancy.

VIEQUES, PUERTO RICO

I find it unfortunate that the committee has sought to reduce the likelihood of the Navy's departure from the island of Vieques, PR, and that the Reyes amendment was defeated. The people of Vieques were provided last year with the opportunity to choose their own fate with regards to the Navy range, and through a nonbinding referendum on June 29, 2001, overwhelmingly issued their desire for the Navy to depart from their island. The continued bombing erodes the safety, environment and economy of this island and its people, and should cease. It is my hope that the administration is permitted to proceed with the Navy's planned withdrawal from Vieques in 2003, and that the unlikely discovery of another "suitable" alternate site not be held as prerequisite for this departure.

DOMESTIC USE OF INTELLIGENCE

There have been recent revelations about the use of military intelligence for domestic purposes, specifically with respect to the surveillance of Dr. Martin Luther King, Jr., and Operation Lantern Spike. Evidence of such past activities give rise today to grave constitutional issues and concern about civil liberties. The 1975 report written by the Select Committee to Study Governmental Operations with Respect to Intelligence Activities revealed practices "abhorrent in a free society." The Church Committee, named after its Chairman, Frank Church of Idaho, exposed that in the name of state security and program of manipulation, infiltration, surveillance, harassment, disruption, and murder was carried out with the consent of those at the highest levels of the United States government and against domestic and international law.

Proposals supporting the creation of a National Homeland Security Agency raise a specter of the return of the most egregious aspects of the domestic program that deprived too many Americans of their constitutional rights and in some cases their lives. The military has an appropriate role in protecting the United States from foreign threats, and should remain dedicated to preparing for those threats. Domestic uses of the military have long been prohibited for good reason, and the same should continue to apply to all military functions, especially any and all military intelligence and surveillance.

INTERNATIONAL ASSISTANCE AND PROGRAMS

The escalating war on drugs is another problem area for us. Though I appreciate a reduction of \$4 million from the contributions to Peru for counterdrug support, the events surrounding the death of American missionary Veronica Bowers and her 7-month old daughter highlight the role our Nation and military play in foreign affairs. Though it was private CIA contractors who were involved in this specific incident, our military resources are being used to train and support foreign nations in their efforts to curb drug production and distribution. As with the transgressions that resulted from training foreign militaries at the School of the Americas, human rights abuses can result from the training, arming, and empowerment of developing nations' armed forces. Further, we should be cautious that such activity does not draw our nation into difficult regional conflicts, and in light of the apparent failure of the war on drugs, the entire concept of military-based drug interdiction and its efficacy should be reconsidered.

As with the continued bombing and overflights of Iraq and other operations, I think that

now is not the time to be fighting proxy wars overseas, making more enemies abroad than we may already have. Now is a time to focus on diplomacy abroad and justice and security within, and as such, I do not support continued funding and training for civil conflicts in Colombia or elsewhere.

QUALITY OF LIFE ISSUES

Despite my reservations with this legislation, it includes positive aspects that I applaud.

I would like to commend the committee, and particularly the Personnel Subcommittee for the increase in military pay and salaries. This is an appropriate step that not only provides our service men and women with sufficient compensation, but also achieves two other important goals: furthering the profession of the military and the responsibility inherent in the changing roles of the armed forces; and enhances the retention of service men and women. Similarly, increases in moving allowances, housing expenditures, provisions permitting concurrent receipt of retired pay and veteran's disability benefits, and efforts to protect voting rights of personnel are praiseworthy.

Much has changed since the committee passed this bill in August. Many of the nations that we perceive as a threat will respond to the expansion and proliferation of missile defense, the expanding role of the military in drug interdiction, and prevention of reductions in nuclear missiles. It is uncertain how these nations will respond, but I am confident that diplomacy and engagement will have much more positive effects on our national security than will an expanding defense budget. Similarly, the Department of Defense should be urged to respond to the trust that is instilled in it by reforming its financial management, reducing the obstruction that has plagued its history, and by eschewing involvement in domestic issues. I urge this body to prudently consider its role in developing not only national policy, but also international relations, and to realize that as the global leader we have a role not only in preparing for war, but also in promoting peace.

Mr. SOUTER. Madam Chairman, I rise in support of this bill at a particularly critical time for our Nation. As chairman of the Drug Policy Subcommittee and one of the cochairs of the Speaker's Task Force for a Drug Free America, however, I wanted to express my desire to work with all interested parties with respect to critical counterdrug programs.

My subcommittee and the Speaker's Task Force have watched with some concern as significant changes to the Defense Department's counterdrug program and organization have been considered. This is an issue which deserves careful attention, and I very much appreciate the Armed Service's Committee's clear statement of its support for a robust counterdrug role for the Department. I also appreciate the committee's stated intention to continue to direct careful and continuing attention to departmental reorganization initiatives in this area.

Our counterdrug efforts are interagency efforts that require cooperation and coordination from agencies across the Federal Government. It is critical that the Defense Department not unilaterally withdraw key support in this area or conduct fundamental reorganizations without consulting with the Office of National Drug Control Policy and other affected Federal agencies. Any policy changes in this area

must be considered in light of the overall national drug control strategy issued by ONDCP.

I would also like to express my concern about a provision of this bill related to the Tethered Aerostat Radar System, or TARS. I intended to offer an amendment regarding this provision, but was not able to submit it due to the extremely early deadline set by the Rules Committee regarding the bill. The TARS system has been an important asset to our narcotics interdiction efforts along the southern border and the Caribbean and has been operated in cooperation between the Department of Defense and the U.S. Customs Service. TARS balloons provide a platform for radars to detect incoming aircraft attempting to smuggle drugs into the United States.

The Defense Department has determined that the TARS system is no longer needed for national defense purposes, and has now shut down virtually all of the aerostats which previously operated in the Caribbean and the Gulf of Mexico. However, the Customs Service strongly believes, as do I, that these assets remain critical to our drug interdiction efforts. The Department and the Customs Service have been attempting to reach an agreement to transfer the system completely to the Customs Service. Because of the change in administration, those discussions have been stalled. The relevant political officials have only recently started work at DOD, and we still do not have a confirmed Commissioner of Customs.

This bill contains a provision authorizing the Secretary of Defense to transfer the TARS system to the Customs Service, which I support. I am concerned, however, that the bill contains a specific deadline of the end of the next fiscal year by which the transfer must be completed or the system will effectively be shut down. Since Customs Service officials have not yet been able to resume discussions with the Defense Department on this matter, I do not believe that it is wise either to mandate a specific date for the resolution of this matter, or to pass legislation which would relieve the Defense Department of its responsibility to operate this system without providing for a mechanism to ensure that the counterdrug mission will continue.

I ask the committee to consider removing this deadline in the final version of the legislation and look forward to working with all interested parties to reach an appropriate resolution of this matter.

Mr. GALLEGLY. Madam Chairman, I rise today to thank both subcommittee Chairman MCHUGH and Chairman STUMP for their help in including my legislation within the Defense Authorization Act to create a Korea Defense Service Medal for those members of the Armed Forces who served, and still serve, in Korea.

Madam Chairman, more than 40,000 members of the United States Armed Forces have served on the Korean Peninsula each year since the armistice was signed in July 1953. Since then, an estimated 1,200 service men and women have died as a direct result of their service in Korea.

Service medals are given the veterans who serve in particular regions during times of hostility or the threat of hostility. For example, those who served in Berlin during the cold war were awarded a service medal. Since the Korean armistice was signed, there have been more than 40,000 breaches of the cease-fire,

making it among the more dangerous places to serve. However, no campaign medal has been awarded for Korean service.

In light of the current crisis, it is appropriate that we honor the thousands of dedicated and brave men and women we have sent, and continue to send, to Korea. This recognition is long overdue.

On another note, I again want to thank Chairman STUMP for supporting several projects that will upgrade the Navy facilities at Pt. Mugu and Port Hueneme, CA. The chairman and his staff have been most helpful and his interest in these facilities and the welfare of our service men and women is greatly appreciated.

Mr. BILIRAKIS. Madam Chairman, some military retirees—individuals who are eligible for military retirement benefits as a result of a full service career—are also eligible for disability compensation from the VA based on a medical problem they incurred while in the service. Under present law, these service-disabled retirees must surrender a portion of their retired pay if they want to receive the disability compensation to which they are entitled. Congress enacted this unjust law in 1891.

Think of two soldiers who joined the Army together and were wounded in the same battle. Joe left the Army after his 4-year stint and joined the Department of Justice as a civilian employee. Jim stayed on and made a career in the military.

Thirty years later, both men are receiving Federal longevity retired pay based on their careers. Both are also eligible for VA disability compensation as a result of the injuries they sustained while in the Army. The difference is that in order to get his disability compensation, Jim must forfeit an equal amount of his retired pay, while Joe collects the full amount of both benefits without a deduction in either.

Why should the individual who chose a military career be penalized? One benefit is based on longevity in a career, the other on an injury sustained while in the service. Joe in our example can even receive civil service retirement credit for his four years in the military. Yet, Jim is branded a "double dipper." This simply is not fair.

Nationwide, more than 500,000 disabled military retirees must give up their retired pay in order to receive their VA disability compensation. In effect, they must pay for their VA disability out of their military retirement—something no other Federal retiree must do. How can we possibly expect to maintain a viable national defense if service members realize that if they experience a service-connected disability, they cannot receive both VA disability compensation and military retired pay?

The 106th Congress took the first steps toward addressing this inequity by authorizing the military to pay a monthly allowance to military retirees with severe service-connected disabilities rated by the Department of Veterans' Affairs at 70 percent or greater. While these special compensation provisions do not correct the long-standing inequity of the current offset, they do move us one step closer to correcting this injustice once and for all.

In the beginning of the 107th Congress, I once again introduced H.R. 303, the Retired Pay Restoration Act, to eliminate the current offset between military retired pay and VA disability compensation. I am pleased to report that my bill has received strong bipartisan support with approximately 370 cosponsors in the

House—roughly 85 percent of House Members. A Senate companion bill, S. 170, has also received strong support with 73 cosponsors.

I would like to thank Military Personnel Subcommittee Chairman JOHN MCHUGH and full committee Chairman BOB STUMP for working with me this year to incorporate “concurrent receipt” language into H.R. 2586, the FY 2002 National Defense Authorization Act.

I also want to thank Representatives STEVE BUYER and CHARLIE BASS for their assistance. They have been stalwart supporters of eliminating the current offset.

H.R. 2586 includes a provision to authorize military retirees to receive VA disability compensation concurrently with military retired pay. This provision will take effect after the President submits legislation in an annual budget request and Congress enacts legislation to offset the cost of this initiative. While not perfect, I do believe that this language is an important step in our efforts to eliminate the offset between military retired pay and VA disability compensation.

Each of the thousands of disabled military retirees answered when America called. Now it's time for America to answer their call.

I urge colleagues to support H.R. 2586.

Mr. SAM JOHNSON of Texas. Madam Chairman, as a nation, we have unfortunately witnessed firsthand the true threats to our Nation's security. It is vital for every Member to support our men and women in uniform—and this bill. Right now, our troops are being sent into harm's way—to protect us.

They are being asked to leave their families and defend this country against an enemy we do not fully understand, for an amount of time we cannot determine. For 8 long years, we neglected our forces.

For America to win the war against terrorism, our military must have the best equipment, the best training, and the best resources available.

Our lives have changed forever, but the role of our military is still the same—to protect America. It is time to give them what they need now. They deserve our help and support.

You know, we live in the greatest nation on Earth. And we have a President and Commander-in-Chief who believes in our strength and in our military's might.

This bill today reflects that confidence. Rest assured, we can and will win this war against freedom.

Vote for freedom.

Vote for our men and women in uniform.

Vote for this bill.

Mr. ORTIZ. Madam Chairman, I rise in strong support of H.R. 2586, the National Defense Authorization Act for Fiscal Year 2002. I want to specifically address the provisions in the Act relating to military readiness.

First, I would like to express my appreciation to the Readiness Subcommittee leadership and to my colleagues, on both the subcommittee and the full committee, for the manner in which the readiness provisions of H.R. 2586 were developed this session. I want to express my personal thanks to my friend and colleague, CURT WELDON, for the extraordinary steps he took while serving as chairman of the Readiness Subcommittee to focus attention on the critical readiness issues facing our military and the Nation. While we may differ on some policy and program objectives, we on the sub-

committee were able to get a better appreciation of the challenges our military personnel and dedicated civilian employees face in trying to do more with less. For their effort, we can all be proud. I personally remain concerned about how long they will be able to keep up the pace.

Accepting the budget realities we are facing, the readiness provisions in the bill reflect some of the steps I believe are necessary, with the dollars available, to make their tasks easier. It does not provide all that is needed. I remain perplexed when I reflect on the impact that the resource shortages are having on every facet of our military. That includes the stability of our dedicated civilian employees who are also being asked to remain productive while at the same time the Department appears to be trying to take away their jobs. I regret that we are unable to do more about the deplorable facilities our personnel must use to train and to maintain equipment. There is an immediate need for the administration and the Congress to scrub the budget to address this serious budget shortfall. I am very concerned that what was thought to be a certain commitment of additional funds for defense could turn out to be a hollow promise.

Madam Chairman, I want to make it very clear that I believe that the readiness policy provisions in H.R. 2586 represent a step in the right direction. We denied several policy modifications requested by the Department that would do harm to overall readiness. It is the dollar shortfall that raises my concern. I hope that as we continue with the passage of this bill and go into conference with the Senate, we will continue to search for opportunities to increase the resources available for the readiness accounts. We cannot afford to fail in this endeavor.

I hope my colleagues will join me in supporting H.R. 2586.

Mr. STUMP. Madam Chairman, I would like to submit the following letters for the CONGRESSIONAL RECORD for H.R. 2586, the National Defense Authorization Act of 2001.

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON TRANSPORTATION AND
INFRASTRUCTURE,

Washington, DC, August 14, 2001.

Hon. BOB STUMP, Chairman,
Committee on Armed Services, Washington, DC.

DEAR MR. CHAIRMAN, This letter concerns the jurisdiction interest of the Committee on Transportation and Infrastructure in H.R. 2586, the Department of Defense Authorization Act for Fiscal Year 2002.

H.R. 2586, as ordered reported by the Committee on Armed Services, contains many provisions over which the Committee on Transportation and Infrastructure has jurisdiction. As in previous bills, these include all sections that affect the pay, benefits, and personnel of the United States Coast Guard and the United States Coast Guard Reserve.

Our Committee recognizes the importance of H.R. 2586 and the need for this legislation to move expeditiously. While we have a valid claim to jurisdiction over a number of provisions in the bill, including many that affect the United States Coast Guard, I do not intend to request a sequential referral of the bill. This is, of course, conditional on our mutual understanding that nothing in this legislation waives or affects the jurisdiction of the Transportation Committee, that every effort will be made to include any agreements worked out by our staffs as the bill is taken to the Floor, and that a copy of this letter and your response will be included in the Committee Report and as part of the

record during consideration of the bill by the House.

The Committee on Transportation and Infrastructure also requests to be included as conferees on the provisions over which we have jurisdiction.

Thank you for your cooperation in this matter.

Sincerely,

DON YOUNG,
Chairman.

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON ARMED SERVICES,
Washington, DC, August 29, 2001.

Hon. DON YOUNG,
Chairman, Committee on Transportation and Infrastructure,

U.S. House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN, Thank you for your letter of August 14, 2001 regarding H.R. 2586, the National Defense Authorization Act for Fiscal Year 2002.

U.S. House of Representatives, Washington, DC.

DEAR BOB: Thank you for working with me regarding H.R. 2586, the "National Defense Authorization Act for Fiscal Year 2002," which was referred to the Committee on Armed Services. As you know, the Committee on the Judiciary has a jurisdictional interest in this legislation, and I appreciate your acknowledgment of that jurisdictional interest. While the bill would be sequentially referred to the Judiciary Committee, I understand the desire to have this legislation considered expeditiously by the House; therefore, I do not intend to hold a hearing or markup on this legislation.

In agreeing to waive consideration by our Committee, I would expect you to agree that this procedural route should not be construed to prejudice the Committee on the Judiciary's jurisdictional interest and prerogatives on this or any similar legislation and will not be considered as precedent for consideration of matters of jurisdictional interest to my Committee in the future. The Committee on the Judiciary takes this action with the understanding that the Committee's jurisdiction over the provisions within the Committee's jurisdiction is in no way diminished or altered, and that the Committee's right to the appointment of conferees during any conference on the bill is preserved. U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON RESOURCES,
Washington, DC, August 31, 2001.

Hon. BOB STUMP,
Chairman, Committee on the Armed Services,
Washington, DC.

DEAR MR. CHAIRMAN: Thank you for an opportunity to review the text of H.R. 2586, the

National Defense Authorization Act of 2002, for provisions which are within the jurisdiction of the Committee on Resources. Among these provisions are those dealing with benefits for the National Oceanic and Atmospheric Administration Corps, environmental review, public lands, and territories of the United States.

Because of the continued cooperation and consideration you have afforded me and my staff in developing these provisions, I will not seek a sequential referral of H.R. 2586 based on their inclusion in the bill. Of course, this waiver is not intended to prejudice any future jurisdictional claims over these provisions or similar language. I also reserve the right to seek to have conferees named from the Committee on Resources on these provisions, should such a conference become necessary.

Once again, I appreciate working with you and your staff on these matters, and look forward to urging my colleagues to support and pass H.R. 2586.

Sincerely,
JAMES V. HANSEN,

U.S. HOUSE OF REPRESENTATIVES,
COMMITTEE ON ENERGY AND COMMERCE,
Washington, DC, September 4, 2001.

Hon. BOB STUMP,
Chairman, Committee on Armed Services, U.S.
House of Representatives, Washington, DC.

DEAR CHAIRMAN STUMP: On August 1, 2001, the Committee on Armed Services ordered reported H.R. 2586, the National Defense Authorization Act for Fiscal Year 2002. As ordered reported by the Committee on Armed Services, this legislation contains a number of provisions that fall within the jurisdiction of the Committee on Energy and Commerce. These provisions include the following:

Section 509—One-year extension of expiration date for certain force management authorities.

Section 514—Improved disability benefits for certain reserve component members.

Subtitle A of title 6—Pay and Allowances
Section 611—One-year extension of certain bonus and special pay authorities for reserve forces.

Section 612—One-year extension of certain bonus and special pay authorities for nurse officer candidates, registered nurses, and nurse anesthetists.

Section 3131—Termination date of Office of River Protection, Richland, Washington.

Section 3132—Organizational modifications for National Nuclear Security Administration.

Section 3201—Defense Nuclear Facilities Safety Board Authorization.

I understand that two provisions within my jurisdiction that are in the bill as ordered reported will be deleted in the reported version of H.R. 2586: (1) section 316, concerning the authority of the Department of Defense to accept and store mercury and (2) section 712, listing requirements regarding a Presidential task force. Further, I understand that section 3134, dealing with the disposition of surplus plutonium at the Savannah River Site in Aiken, South Carolina, will be modified to make clear that it only deals with military surplus plutonium, and therefore will not fall within my committee's jurisdiction.

Recognizing your interest in bringing this legislation before the House expeditiously, the Committee on Energy and Commerce agrees not to seek a sequential referral of the bill based on the provisions listed above. By agreeing not to seek a sequential referral, the Committee on Energy and Commerce does not waive its jurisdiction over these

provisions or any other provisions of the bill that may fall within its jurisdiction. In addition, the Committee on Energy and Commerce reserves its right to seek conferees on any provisions within its jurisdiction which are considered in the House-Senate conference, and asks for your support in being accorded such conferees.

I request you include this letter as part of the report on H.R. 2586 and as part of the Record during consideration of this bill by the House.

Sincerely,
W.J. "BILLY" TAUZIN,
Chairman.

Pursuant to Chairman Dreier's expected announcement that the Committee on Rules will move expeditiously to consider a rule for H.R. 2586 and your desire to have the bill considered on the House floor next week, the Committee on International Relations will not seek a sequential referral of the bill as a result of including these provisions, without waiving or ceding now or in the future this committee's jurisdiction over the provisions in question. I believe, however, that certain of these provisions, particularly sections 1011 and 1045, require additional refinement, and I look forward to working with you as H.R. 2586 moves through the legislative process to make any appropriate changes to these provisions. I will seek to have conferees appointed for these provisions during any House-Senate conference committee.

Although this letter was not included in the report accompanying H.R. 2586, I intend to publish this letter in the Congressional Record and make it part of the record during consideration of the bill by the House of Representatives.

Sincerely,

The validity of this certification is the only requirement in this section subject to audit and verification by the Secretary concerned.

(2) Complete and adopt a policy directive that provides for changes in how the Air Force makes budgetary and nonbudgetary decisions with respect to its science and technology development programs and how it carries out those programs.

(3) At least once every five years, conduct a review of the long-term challenges and short-term objectives of the Air Force science and technology programs that is consistent with the review specified in section 252 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 114 Stat. 1654A-46).

(b) **MATTERS STUDIED.**—(1) The study shall independently review and assess whether such changes as a whole are sufficient to ensure the following:

(A) That the concerns about the management of the science and technology program that have been raised by the Congress, the Defense Science Board, the Air Force Science Advisory Board, and the Air Force Association have been adequately addressed.

(B) That appropriate and sufficient technology is available to ensure the military superiority of the United States and counter future high-risk threats.

(2) In addition, the study shall independently assess the specific changes to the Air Force science and technology program as follows:

(A) Whether the biannual science and technology summits provide sufficient visibility into, and understanding and appreciation of, the value of the science and technology program to the senior level of Air Force budget and policy decisionmakers.

(B) Whether the applied technology councils are effective in contributing the input of all levels beneath the senior leadership into the coordination, focus, and content of the science and technology program.

(C) Whether the designation of the commander of the Air Force Materiel Command as the science and technology budget advocate is effective to assure that an adequate budget top line is set.

(D) Whether the revised development planning process is effective to aid in the coordi-

nation of the needs of the Air Force warfighters with decisions on science and technology investments and the establishment of priorities among different science and technology programs.

(E) Whether the implementation of section 252 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 114 Stat. 1654A-46) is effective to identify the basis for the appropriate science and technology program top line and investment portfolio.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, September 19, 2001, the gentleman from Arizona (Mr. STUMP) and the gentleman from Missouri (Mr. SKELTON) each will control 5 minutes.

The Chair recognizes the gentleman from Arizona (Mr. STUMP).

Mr. STUMP. Madam Chairman, I yield 5 minutes to the gentleman from Florida (Mr. STEARNS).

(Mr. STEARNS asked and was given permission to revise and extend his remarks.)

Mr. STEARNS. Madam Chairman, I wish to thank the gentleman from Arizona (Mr. STUMP), my good friend, for incorporating my amendments as part of the manager’s amendment in this defense authorization bill.

My first amendment concerns the deteriorating state of the Lafayette-Escadrille Memorial. It is basically a sense of the Congress resolution. This memorial honors all U.S. aviators who flew for France in World War I. I laid a wreath at the memorial on June 17 with 40 of my colleagues in attendance to commemorate the 85th anniversary of the squadron’s formation.

Seven Americans originally formed the squadron. When the escadrille transferred to the U.S. command in 1918, 265 American volunteers had served in the French air service with 180 of those having flown combat missions. In all, the escadrille flew 3,000 combat sorties, amassing nearly 200 victories. In fact, the escadrille became the birth of the United States Air Force.

A joint French/American committee was organized at the end of World War I to locate a final resting place for those Americans who died there. With land donated by the French Government, the Lafayette-Escadrille Memorial was dedicated on July 4, 1928. It is essentially an American cemetery with 68 Americans who gave their lives interred in the memorial.

Sadly, this memorial is in desperate need of repair. The structure sits in a meadow with a high water table. Heavy rains flood the tomb, exacerbated by the poor functioning drains and water leaking through the terrace behind the memorial. Structural repairs are needed for the crypt and the overall foundation and double glass is needed to protect the remarkable stained glass windows.

The Lafayette-Escadrille Memorial Foundation was endowed originally with a \$1.5 million trust fund for its maintenance, but that has been exhausted. The French Government has pledged funds and has begun working in earnest to repair this memorial. I want to point out that the foundation is an American not-for-profit and is subject to IRS regulations governing not-for-profit activities.

Madam Chairman, our men and women in uniform, present and future and past, we hold those who served in the highest regard; and they should be remembered. I have received letters

from descendants of members of the Lafayette-Escadrille offering their support, and I have received calls from persons only wanting to see the memorial restored.

Our men and women in uniform deserve the best this Nation can give them. Such action should not stop at their deaths.

The second amendment that I offer and is part of the en bloc amendment highlights the need for the Department of Defense to realign its focus on using energy efficient technologies. I feel that the Department of Defense should take into account the recommendations contained in the report by the Defense Science Board entitled "More Capable War-Fighting Through Reduced Fuel Burden."

The report states: "Military fuel consumption for aircraft, ships, ground vehicles and facilities make the Department of Defense the single largest consumer of petroleum in America, perhaps in the world. Naval forces depend each day on millions of gallons of fuel to operate around the globe. The Air Force spends approximately 85 percent of its fuel budget to deliver, by airborne tankers, just 6 percent of its annual jet fuel usage."

It is without a doubt that fuel cost is directly associated with military readiness. By no means, however, should the DOD sacrifice performance requirements to save a few gallons of fuel. Obviously, including energy efficiency as a requirement under DOD's procurement process and investing in new improvements through its S&T community is a significant step in the direction of curtailing energy consumption in a responsible manner, while maintaining the performance and overall military capability.

The DSB report states "that the largest element of the total fuel cost in DOD is the cost of delivery." Improving on daily use of fuel for both combat and support units could reduce the logistics need while allowing units to deploy and remain in the field for a longer sustained period of time.

Undoubtedly, a component in the war against terrorism will be the use of lighter, more mobile forces. So, it is imperative that we improve our logistics capability and reduce the "logistics tail." As the DSB report notes, "efficiency is a strong component of agility."

So I again want to thank the chairman, the gentleman from Arizona (Mr. STUMP), for allowing me to incorporate these into the manager's amendment; and I urge the adoption of the manager's amendment.

Mr. SKELTON. Madam Chairman, I might say that we have seen these amendments on our side, and we fully agree and approve of them.

Madam Chairman, I reserve the balance of my time.

Mr. STUMP. Madam Chairman, I move to strike the last word, and I yield to the gentleman from Pennsylvania (Mr. WELDON).

(Mr. WELDON of Pennsylvania asked and was given permission to revise and extend his remarks.)

Mr. WELDON of Pennsylvania. Madam Chairman, I want to thank our distinguished chairman and ranking member for their support of three amendments in this en bloc amendment that I introduced. The first one I think is perhaps the most important that I want to talk about.

Two years ago I made a recommendation to our leadership that we establish a task force that would integrate our domestic response network, our fire and EMS community, with our military. That task force recommendation was accepted and the panel that was established became known as the Advisory Panel to Assess Domestic Response Capabilities for Terrorism Involving Weapons of Mass Destruction, more commonly known as the Gilmore Commission, because the Gilmore Commission has been chaired by Governor Gilmore of Virginia.

□ 1500

This commission for the past 2 years has been looking at ways that we can further integrate our military and the response of our first responders, our fire and EMS personnel.

Madam Chairman, this commission has done tremendous work in giving us recommendations to assist our domestic defenders who just this past week were the first responders at the World Trade Center.

In fact, Madam Chairman, I went to New York on Friday. I went up on Friday for a very specific reason. The Gilmore Commission, the task force we are extending for 2 years, had members from all aspects of our urban response network: the military, domestic fire service.

The representative of the New York City Fire Department in charge of Special Operations Command was Ray Downey. Ray Downey is a friend of mine who escorted me at the first World Trade Center bombing in 1993. Thirty minutes after the buildings collapsed in New York this past week, as the New York City firefighters were providing their first response, Ray Downey was killed. Ray Downey was the chief of the special operations function for the New York City department. He was a member of the commission that we are going to extend for 2 more years in this amendment. He was the point person to help us understand how our military and our urban response community and civilian response community could interact.

He was making specific recommendations, Madam Chairman, that have helped us better integrate our two networks. In fact, one of the results of their recommendations was that initiative last year that is, in fact, the subject of a second amendment that we have accepted. That amendment deals with the recommendation by this Congress that we accept the firefighter assistance program that we first put into place last year.

Last year it was \$100 million. We had \$300 billion of requests across the country. What we are asking for is an extension of that program, and the amendment here says that Congress should renew the authorization for that program.

That program, again, was a bipartisan effort. The gentleman from Maryland (Mr. HOYER) and the gentleman from New Jersey (Mr. PASCRELL), Congressmen on our side, including the chairman of our Committee on Armed Services and our ranking member, the gentleman from Missouri (Mr. SKELTON), were the reason why that recommendation became law.

This year we are in the process of giving out \$100 million of direct grants through FEMA that are going to local fire and emergency services groups across the country, including the New York City Fire Department.

So the recommendation in the second amendment is to continue that program and to name it after the honorable Floyd Spence, without whose acceptance, as our committee chairman, it would not have become law. That does not diminish the work by other colleagues, the gentleman from Missouri (Mr. SKELTON), the gentleman from Maryland (Mr. HOYER), the gentleman from New Jersey (Mr. PASCRELL), the gentleman from Arizona (Mr. STUMP), and a whole host of other Members from the Congress.

But we are naming it after Floyd Spence because he was the one, as chair of the committee, that allowed this program to move forward.

Madam Chairman, these two amendments are critically important because they both deal with events of the past week. They also show that this committee was far in front of the Congress and the American people in preparing for the kind of incident that we saw occur on Tuesday.

That kind of foresight is what this Committee on Armed Services has been doing since I have been here in Congress for 15 years. It continues with the leadership of our chairman and our ranking member. I thank them both for including the amendments that I offer. I thank them for their commitment not just to our military, but our domestic defenders.

Mr. SKELTON. Madam Chairman, I yield to the gentleman from Texas (Mr. FROST).

(Mr. FROST asked and was given permission to revise and extend his remarks.)

Mr. FROST. Madam Chairman, I rise in support of the defense authorization bill.

Madam Chairman, I am pleased that the House of Representatives is getting back to regular business so quickly—and I'm particularly glad that we're starting with this bill.

After the horror of September 11th, everyone in this Congress and around the country understands the importance of maintaining the finest military in the world.

I have no doubt that the men and women of America's armed forces will rise to the challenges posed by today's dangerous new

world. And I have no doubt that this Congress will ensure America's military has the resources it needs to win the war on terrorism.

Indeed, this bill is a good example of the bipartisan support America's armed forces enjoy. It passed the Armed Services Committee on a bipartisan vote of 58 to 1. Democrats and Republicans are strongly committed to a first-rate military that will protect this nation and its people, and that will maintain our position as the chief protector of democracy and the rule of law throughout the world.

I am particularly pleased that this bill will improve quality of life for men and women in uniform and their families. It increases basic military pay, and provides important resources for military family housing and for military retirees' health care.

Additionally, this bill continues our commitment to the wide range of weapons programs that ensure our military superiority throughout the world—which will be particularly important as we prepare for a new and dangerous world.

Madam Chairman, the first duty of the Congress and the President is to provide for the national defense, and the men and women who protect it. I am proud that this bipartisan bill takes major steps toward accomplishing that goal, and I support it strongly.

Still, I, like many others, believe we need to do more—more especially to provide for “Homeland Defense” and to fight terrorism. Our top priority should be ensuring that Americans are never again victimized by another barbaric attack like September 11th. So I look forward to working with Republicans and Democrats over the next few days to ensure that our armed forces have the resources to win this war on terror.

Mr. MANZULLO. Madam Chairman, I want to convey my thanks to the Chairman and the Ranking Minority Member of the House Armed Services Committee for including my amendment to the managers' amendment to HR 2586. My provision doubles the Defense Logistics Agency (DLA) grant match to states which run state-wide Procurement Technical Assistance Centers (PTACs) program so that they would be able to receive up to \$600,000 in funding.

Small business participation in government procurement is dropping, particularly for Defense Department contracts. For new contracts worth over \$25,000, the number of small businesses winning these opportunities dropped from a high of 70,088 in 1995 to 41,075 in 1999. Even for sales opportunities to the federal government of \$2,500 or less, which used to be reserved for small business, the number of small purchase actions from small businesses decreased from nearly 10 million in 1995 to 3.8 million in 2000. One solution to this problem is to enhance the role of Procurement Technical Assistance Centers (PTACs).

During the 1980's, Congress created local PTACs around the country to increase small business participation in defense procurement. Modeled after Small Business Development Centers (SDBC) run by the Small Business Administration (SBA), these centers offer free advice and help to small businesses both in educating them about how to get involved in government procurement and also how to obtain contracts. Most of the PTACs are co-located in a local higher education institution.

About half of the funding for most of the PTACs comes from Defense Logistics Agency

(DLA). The remainder comes from the state government and/or the local host such as the community college. States currently have a choice: they can either ask for up to \$300,000 to run a state-wide program or regional centers can ask for up to \$150,000 to run a program locally. Some states have decided to run a statewide program in order to have continuity of service throughout the state. However, some states have allowed regional or city PTACs to operate.

Currently, 15 states have regional or city PTACs that receive an excess of \$300,000. For example, Pennsylvania received nearly \$1.2 million in DLA funding to run eight regional PTACs. Similarly, Michigan received just over \$1 million to run eight regional PTACs. The current funding formula penalizes states like my home state of Illinois who have opted for a seamless delivery of procurement assistance services throughout the state but also serve a large population.

My amendment, which was also introduced as a clean bill (H.R. 2689) supported by all the Illinois Members of the House Armed Services Committee, increases the DLA grant match to states that run a state-wide PTAC program so that they would be able to receive up to \$600,000 in funding, double the current level of \$300,000. This would potentially benefit 30 states and one territory that either have a statewide PTAC program or only one city participates in the PTAC program. These include, in alphabetical order: Alaska, Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Iowa, Idaho, Illinois, Kentucky, Massachusetts, Maryland, Maine, Minnesota, Mississippi, Montana, North Carolina, Nebraska, New Hampshire, New Mexico, Nevada, Oregon, Puerto Rico, Rhode Island, South Carolina, Tennessee, Utah, Vermont, Washington, and Wyoming.

There are also the five states and four other territories that do not have any PTAC program which could potentially benefit from this amendment. These include, in alphabetical order: America Samoa, Colorado, the District of Columbia, Guam, Hawaii, Kansas, North Dakota, South Dakota, and the Virgin Islands.

It is important to remember that each state with a state-wide run PTAC program would not automatically receive a \$600,000 grant from the DLA because each proposal would have to stand on its own merits. Currently, 10 states and one territory do not even receive the full \$300,000 in grant funds from the DLA authorized to run a statewide PTAC program. Thus, this proposal does not necessarily mean that the cost of the program would immediately balloon. Only those states that submit a sound proposal who serve a large population would qualify for the maximum of \$600,000, as contained in my amendment.

Finally, the Manzullo amendment does not mean that the 15 states with regional or city PTACs would receive less funding. This amendment is silent on the match received from DLA to regional or city PTACs.

With the criticism of recent Pentagon procurements that disadvantage small businesses, my amendment is one positive way to remedy the problem. I respectfully urge my colleagues to support the managers' amendment.

Mr. HALL of Ohio. Madam Chairman, I rise in support of the Hall Amendment, the “Air Force Science and Technology for the 21st Century Act,” which is included in the en bloc

amendment. The amendment addresses deficiencies in the Air Force's planning and budget process for the Science and Technology (S&T) program to better link the future needs of the warfighter with S&T investment decisions and to increase support for the S&T program at senior levels of Air Force leadership. The amendment expresses the sense of Congress that the Air Force solidify and institutionalize the steps that it has already taken to address the planning and budgeting deficiencies. It also requires the Air Force to reinstate “development planning” as part of the planning and budgeting process to help the Air Force Research Laboratory better define the technologies most likely required by tomorrow's defense needs. Furthermore, the amendment requires a study by National Academy of Sciences' National Research Council (NRC) to assess the effect of recent organizational changes in the operation of the Air Force S&T program to the future capabilities of the Air Force.

After a decade of decline, in the last few years, the Department of Defense (DoD) has made modest increases in S&T funding. However, the increases have not been made uniformly across all of the services. Among the military services, the Air Force's spending on S&T has seen the most dramatic decline. Once, the rate of Air Force A&T spending was almost equal to the Army and Navy combined. Now it is the lowest of the three services. Air Force spending on S&T has dropped by almost 50 percent from 1989 to 2001 measured in constant dollars. This decline in spending has been widely criticized as a threat to the future ability of the Air Force to field weapon systems employing cutting edge technologies. Especially critical in light of recent events, the Air Force may not have the technology available to respond to future emerging threats including threats of terrorism to homeland security.

In recent years, Congress has made efforts to reverse the decline in Air Force S&T development by appropriating funds greater than requested in the President's budget request. Congress has also enacted legislation mandating improvements in the S&T program management and requesting expert opinions on what changes should be made. After pressure from Congress, the academic community, the aerospace industry, and Air Force advocates, the Air Force made fundamental changes in how it makes budgetary and non budgetary policy decisions for its science and technology development programs and the management of those programs. However, despite these worthwhile efforts, additional measures are needed to ensure sufficient levels of advocacy for science and technology development within the Air Force and that the best decisions are made for science and technology investment.

One factor contributing to the decline in Air Force science and technology is the lack of a proactive development planning process that analyzes the long-term needs of the warfighter to guide the direction of scientific research. Without a strong link between the technology needs of the warfighter and the work of the Air Force Research Laboratory, the science and technology program risks insufficient support within the Air Force and a misdirected focus. Until the mid 1990s, Congress funded an office of development planning sometimes called the “crystal ball office,” which bridged the gap

between laboratory and warfighter. The process has since been discontinued. Restoration of this planning function was a key recommendation of the recent study of the Air Force Science Advisory Board and it was supported in testimony this year before the House Armed Services Subcommittee on Military Research and Development. My amendment requires the Air Force to reinstate a revised development planning process and report back to Congress on the new program format.

Another contributing factor is the lack of a sufficiently high level Air Force leader with duties focused solely on science, technology, and engineering. This was pointed out in recent reports by the Air Force Association and National Academy of Sciences' National Research Council. Currently, the top policy slot is the Deputy Assistant Secretary for Science, Technology and Engineering with the grade of SES-5, the civilian equivalent of a major general. This amendment expresses the sense of Congress that the position should be elevated to a higher level within the organization.

In the last year, the Air Force has instituted several new initiatives to improve science research. These include biannual S&T Summits to increase the visibility, understanding and appreciation of the value of the S&T program to senior Air Force leaders; establishing Applied Technology Councils to provide input from levels beneath senior management into the coordination, focus and content of the S&T program; and the designation of the Commander of Air Force Material Command as the general officer advocate for the S&T budget. Also, section 252 of P.L. 106-398, The National Defense Authorization Act for Fiscal Year 2001, enacted in 2000, called for a comprehensive review of the long-term challenges and short-term objectives of the Air Force S&T program. My amendment requires the National Academy of Sciences' National Research Council (NRC) to study the effectiveness of these changes and make recommendations for further improvements in the management of the S&T program. The amendment authorizes \$950,000 for the study from the funds currently authorized under section 201(3) of the National Defense Authorization Act for Fiscal Year 2002.

My amendment also expresses the sense of Congress that the Air Force should continue and improve on the recent actions taken by the Air Force to solidify and institutionalize the S&T management and budget decisions process; formally adopt the policy directives to implement those actions; conduct at least once every five years a review of long-term challenges and short-term objectives of the Air Force science and technology program; and ensure the integration of science and technology development for space and non-space warfighting systems.

In light of recent events, it is important to note that military experts believe that maintaining the United States' technological superiority is key to fighting terrorism. However, numerous studies have suggested that the investment science is inadequate to meet the needs of fighting the future emerging threats including threats to homeland security. My amendment is aimed at helping the Air Force develop the necessary technology to respond flexibly and quickly to a wide range of future threats, including terrorism.

My amendment requires no sweeping changes in the management of the Air Force

S&T program. Rather, it is intended to nudge the Air Force back toward increased support for scientific research as an integral part of its mission and to restore its traditional role as the technology service that most depends on scientific advances to maintain military superiority.

I strongly urge the adoption of the amendment.

Mr. SKELTON. Madam Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendments en bloc offered by the gentleman from Arizona (Mr. STUMP).

The amendments en bloc were agreed to.

Amendment offered by Ms. VELÁZQUEZ:

At the end of subtitle A of title VIII (page 248, after line 9), insert the following new section:

SEC. 8 ____ . STUDY OF CONTRACT CONSOLIDATIONS.

The Secretary of Defense, in consultation with the Comptroller General of the United States, shall develop a database to track contract consolidations which consolidate 2 or more contracts previously awarded by the Department of Defense to small business concerns. The database shall contain, at a minimum, the names and addresses of the businesses to which the contracts that were consolidated were previously awarded, the rationale for consolidating the contracts, and the monetary benefit projected to be realized by the contract consolidation. Not later than December 1st of each year, the Secretary of Defense shall submit a report regarding the information contained in such database to the Committees on Armed Services of the House of Representatives and the Senate, the Committee on Small Business of the House of Representatives, and the Committee on Small Business and Entrepreneurship of the Senate.

Amendment No. 46 offered by Mr. STEARNS:

At the end of subtitle E of title X (page 307, after line 20), insert the following new section:

SEC. ____ . SENSE OF CONGRESS ON IMPLEMENTATION OF FUEL EFFICIENCY REFORMS IN DEPARTMENT OF DEFENSE.

(a) FINDINGS.—Congress finds the following:

(1) The Federal Government is the largest single energy user in the United States, and the Department of Defense is the largest energy user among all Federal agencies.

(2) The Department of Defense consumed 595,000,000,000 BTUs of petroleum in fiscal year 1999, while all other Federal agencies combined consumed 56,000,000,000 BTUs of petroleum.

(3) The total cost of petroleum to the Department of Defense amounted to \$3,600,000,000 in fiscal year 2000.

(4) Increased fuel efficiency would reduce the cost of delivering fuel to military units during operations and training and allow a corresponding percentage of defense dollars to be reallocated to logistic shortages and other readiness needs.

(5) Increased fuel efficiency would decrease the time needed to assemble military units, would increase unit flexibility, and would allow units to remain in the field for a longer period of time.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Defense should work to implement fuel efficiency reforms, as recommended by the Defense Science Board report, which allow for investment decisions based on the true cost of delivered fuel, strengthen the linkage between warfighting capability and fuel logistics requirements, provide high-level leadership encouraging fuel efficiency, target fuel efficiency improvements through science and technology investment, and include fuel efficiency in requirements and acquisition processes.

Amendment offered by Mrs. TAUSCHER:

At the end of title X (page 307, after line 20), insert the following new section:

SEC. 10 ____ . PLAN FOR SECURING RUSSIA'S NUCLEAR WEAPONS, MATERIAL, AND EXPERTISE.

(a) PLAN FOR NONPROLIFERATION PROGRAMS WITH RUSSIA.—Not later than June 15, 2002, the President shall submit to Congress a plan—

(1) for cooperation with Russia on disposition as soon as practicable of nuclear weapons and weapons-usable nuclear material in Russia that Russia does not retain in its nuclear arsenal; and

(2) to prevent the outflow from Russia of scientific expertise that could be used for developing nuclear weapons or other weapons of mass destruction, including delivery systems.

(b) CONTENT OF PLAN.—The plan required by subsection (a) shall include the following:

(1) Specific goals and measurable objectives for the programs that are designed to carry out the objectives specified in paragraphs (1) and (2) of subsection (a).

(2) Criteria for success for those programs and a strategy for eventual termination of United States contributions to those programs and assumption of the ongoing support of those programs by Russia.

(3) A description of any administrative and organizational changes necessary to improve the coordination and effectiveness of the programs to be implemented under the plan.

(4) An estimate of the cost of carrying out those programs.

(c) CONSULTATION WITH RUSSIA.—In developing the plan required by subsection (a), the President shall consult with Russia regarding the practicality of various options.

(d) CONSULTATION WITH CONGRESS.—In developing the plan required by subsection (a), the President shall consult with the majority and minority leadership of the appropriate committees of Congress.

Amendment No. 70 offered by Mr. WELDON of Pennsylvania:

At the end of title X (page 307, after line 20), insert the following new section:

SEC. 1048. TWO-YEAR EXTENSION OF ADVISORY PANEL TO ASSESS DOMESTIC RESPONSE CAPABILITIES FOR TERRORISM INVOLVING WEAPONS OF MASS DESTRUCTION.

Section 1405 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (50 U.S.C. 2301 note) is amended—

(1) in subsection (h)(2), by striking “2001” and inserting “2003”; and

(2) in subsection (l), by striking “three years” and inserting “five years”.

Amendment No. 78 offered by Mr. WELDON of Pennsylvania:

At the end of title X (page 307, after line 20), insert the following new section:

SEC. 1048. ACTION TO PROMOTE NATIONAL DEFENSE FEATURES PROGRAM.

(a) FINDINGS.—The Congress finds the following:

(1) The National Defense Features program, which is funded from the National Defense Sealift Fund established by section 2218 of title 10, United States Code, is a constituent element of the defense policy of the United States intended to provide essential sealift capacity in emergencies, strengthen the national shipbuilding base, and maintain a resource of highly trained merchant seamen.

(2) Implementation of the National Defense Features program would provide significant benefits both for the United States and for allied nations during military contingencies.

(3) For the United States and nations allied with the United States to realize these

benefits, it is essential that vessels built under that program enjoy commercial opportunities in peacetime on trade routes between the United States and allied nations and that those vessels not be excluded from such opportunities through restrictive trade practices.

(4) The failure of vessels built, or to be built, under the National Defense Features program to obtain employment as common carriers or contract carriers in the particular sector of any trade route in the foreign commerce of the United States for which they are designed to operate, together with long-term domination of that sector of the trade route by citizens of an allied nation, evidences the existence of restrictive trade practices.

(b) ACTION TO PROMOTE PROGRAM.—In any case in which the Secretary of Defense finds the existence of the conditions determined by subsection (a)(4) to prove the existence of restrictive trade practices, the Secretary shall certify the case to the Federal Maritime Commission, which thereupon, in consultation with the Secretary, shall take action to counteract such practices, utilizing all remedies available under section 10002(e)(1) of the Foreign Shipping Practices Act of 1988 (46 U.S.C. App. 1710a).

Amendment offered by Mrs. KELLY:

At the end of title XXVIII (page 427, after line 7), insert the following new section:

SEC. 2866. REPORT ON OPTIONS TO PROMOTE ECONOMIC DEVELOPMENT IN COMMUNITY ADJACENT TO UNITED STATES MILITARY ACADEMY, NEW YORK.

(a) REPORT REQUIRED.—Not later than February 1, 2002, the Secretary of the Army shall submit to Congress a report evaluating various options by which the Secretary may promote economic development in the Village of Highland Falls, New York, which is located adjacent to the United States Military Academy.

(b) SPECIFIC CONSIDERATION OF CERTAIN OPTIONS.—Among the options evaluated under subsection (a), the Secretary shall specifically address the following:

(1) The fee simple conveyance of real property under the jurisdiction of the Secretary in the Town of Highlands, New York, to the Village, without consideration, for the purpose of permitting the Village to use the property to promote economic development.

(2) Use by the Secretary of the authority under section 2667 of title 10, United States Code, to make non-excess real property under the jurisdiction of the Secretary available to the Village for such purpose.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, September 19, 2001, the gentleman from Arizona (Mr. STUMP) and the gentleman from Missouri (Mr. SKELTON) each will control 5 minutes.

The Chair recognizes the gentleman from Arizona (Mr. STUMP).

Mr. STUMP. Madam Chairman, I yield 2 minutes to the gentleman from Maryland (Mr. GILCHREST).

Mr. GILCHREST. Madam Chairman, I thank the gentleman from Arizona for yielding time to me.

I would just like to make three quick comments.

One, I think it is vital for the defense authorization bill to go through this House today, and I would hope that we could pass it with the unanimous votes of the Members on both sides of the aisle.

We also come here today to express our condolences to those families and

victims of this cruel tragedy; praise, with as much compassion and encouragement to those people who have responded, and in particular the firefighters, the medical teams, the police officers, our military services, and all those volunteers that have contributed to that effort, as well as the non-governmental organizations like people of religious faiths, and also certainly the Red Cross.

In essence, the long-term victory will come in this battle when we as Members of Congress and the Nation come together to focus our attention and our hearts to those tragedies that have been brought to America, and with our allies in the international community, to know that we need to make this worldwide effort to replace arrogance with humility, to replace ignorance with knowledge, and to replace dogma with tolerance. This is what is needed. I think, in fact, this is probably what will happen.

On a smaller scale, in the defense authorization bill, I am glad that the chairman of the committee has basically included this en bloc amendment in H.R. 2586, in the Defense Authorization Act, to ask the Secretary of Defense to study the issue that has not been resolved yet, dealing with our citizens that attend our military academies, to determine whether or not they can be in the same category as men and women in the regular armed services as far as compensation is concerned for disabilities that they incurred while they were at the military academies.

Mr. SKELTON. Mr. Chairman, I reserve the balance of my time.

Mr. STUMP. Mr. Chairman, I yield the balance of my time to the gentleman from California (Mr. HUNTER).

The CHAIRMAN pro tempore (Mr. LATOURETTE). The gentleman from California (Mr. HUNTER) is recognized for 3 minutes.

Mr. HUNTER. Mr. Chairman, I thank the gentleman for yielding time to me, and once again I thank the gentleman from Arizona (Mr. STUMP) and the gentleman from Missouri (Mr. SKELTON) for their leadership in bringing Democrats and Republicans together on this bill at this time of national emergency.

Mr. Chairman, I thought I would just let my colleagues know, or give them the broader context within which we are working with this defense bill.

Ronald Reagan in 1985 had a very major defense bill. That was the height of the buildup, the rebuilding of America's Armed Forces. That bill in today's dollars was \$452 billion. Today's bill is a little over \$340 billion. That means that even with the increases that we have placed in this bill so far, we are still \$100 billion under Ronald Reagan's defense bill of 1985, when we had a gross national product which was much smaller.

So it is important for Americans, both in uniform and out of uniform, to understand that today we are asking our people to do more with less. We do

not have the force structure that we had during Desert Storm. We had the fruits of the Reagan-Bush defense buildup used in Desert Storm. In those days, we had 18 Army divisions. We have cut those 18 Army divisions down to 10. We had about 546 Navy ships. We have cut that down to 316. We are going down further. We had 24 fighter air wings. We have cut that down to 13.

Beyond that, we have piled up some shortages in munitions, equipment, spare parts, and other vital areas. So this effort is not the finish. This is the start of a rebuilding of national defense. I hope we work together in a bipartisan way to add some more things that we now need as we go through the conference with the other body and finally get a bill on the President's desk.

Mr. SKELTON. Mr. Chairman, will the gentleman yield?

Mr. HUNTER. I yield to the gentleman from Missouri.

Mr. SKELTON. Mr. Chairman, I would just like to add that in recent comments that I made to the CSIS, I touched on the area of air power. It appears to me that through the years we have done a pretty good job in the area of fighter aircraft and air-to-ground aircraft, but we have not done what we should have done in the area of bomber support.

If one looks at the geography, particularly of the Asian Pacific area, hopefully nothing will ever come to pass where we will need long-range bomber efforts. However, I think this is an area that the gentleman and I have explored together over a period of years, that we must look to the future of the B-2 fleet, not only keeping it up to date, but even hopefully some day adding to that fleet.

Mr. HUNTER. I think the gentleman is absolutely right, Mr. Chairman. Once again, we made more bombers in one day in San Diego in 1943 than the entire B-2 fleet, and expecting that small fleet of 21 aircraft to do the job they are going to have to do in future years I think is a strain. I thank the gentleman for his remarks. I would hope that we would continue to build that fleet.

Mr. SKELTON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, let me for a moment tell the Members that this base at Whiteman Air Force base in my district, which has the 509th bomb wing, which is a very historic wing and has the B-2s, is in superb condition and ready, should they ever be called upon, now or in the future.

I was with them yesterday and had the opportunity to visit with them. I am so very, very proud of the young men and young women who not only fly but who maintain that fleet.

I have a question of the gentleman from California, Mr. Chairman. I would ask the gentleman, in his opinion, would he tell us the importance of continuing to expand the bomber fleet of the United States?

Mr. HUNTER. Mr. Chairman, will the gentleman yield?

Mr. SKELTON. I yield to the gentleman from California.

Mr. HUNTER. Mr. Chairman, I would be happy to, and I notice my good friend, the gentleman from Washington (Mr. DICKS) has just arrived, who is also an expert on long-range strike and deep strike.

Very simply, if we look at the experience of Desert Storm, I think that carries out not only the importance of having deep strike aircraft but also deep strike aircraft with stealth. We analyzed at the time the two B-2 bombers, for example, which do not have to have flight cover. Because they are able to avoid and evade radar, they do not have as much air-to-air refueling or suppression of SAM missile systems, and they can hit as many targets, two aircraft can hit as many targets as 75 conventional aircraft.

At a time when we have cut our air wings from 24 to 13, our tactical air wings, it is important to have that leverage capability. We saw this in Kosovo, where we hit multiple targets with a single B-2 mission, hit multiple targets and destroyed a much larger percentage of the target availability than other conventional planes. So this is a leverage capability. It leverages the thing Americans are greatest at, which is technology.

If we couple that with precision munitions, where, for example, into that bridge we send that one precision munition into a strut and knock that entire bridge out, because we are able to hit one precise spot, that is better than dropping 2,000 bombs on it with older conventional aircraft.

So leverage, technology, and precision munitions leverage is what we get from deep strike fighter capability like the B-2. I would be happy to hear the comments of the gentleman from Washington.

Mr. SKELTON. Mr. Chairman, I might point out that the aircraft, the B-2, in the Kosovo conflict, and of course they are still capable, the pilots flew out of Whiteman Air Force Base, had refuelings, bombed the targets with great precision, and returned with refuelings, came back home. In one case, the pilot went back and was greeted by his wife. She said, please cut the grass.

In other words, they do superb work from one base, and they are worldwide. I thank the gentleman.

Mr. DICKS. Mr. Chairman, will the gentleman yield?

Mr. SKELTON. I yield to the gentleman from Washington.

Mr. DICKS. Mr. Chairman, I would just say to the gentleman from California and my good friend, the gentleman from Missouri, who have been two of the stalwarts in the House of Representatives for advocacy for the B-2, we still have work to do. I know that the gentleman from California (Mr. HUNTER) had included some of the upgrades that are necessary to improve upon this capability.

But to think about this one revolutionary fact, in Kosovo the B-2 carried

162,000 pounds bombs called JDAMs, near precision weapons, almost precision.

□ 1515

And the interesting thing is, like 3 percent of the sorties, they took out 33 percent of the fixed targets. Now, we see even another revolution of being able to put eighty 500-pound JDAMs on these airplanes and they would be able to hit 80 separate fixed targets on one sortie, and two of them would be 160, obviously.

The other thing that is interesting, just in the last few days there has been a successful test; and I know the gentleman from California is aware of this, of being able, from one of these airplanes, to hit a moving target. One of our greatest problems has been the inability to hit moving targets. This target was moving at 30 miles an hour, it was an F-16, and they used this weapon and they were able to hit the moving target. Now, this will be a major breakthrough as we pursue this.

I just appreciate all the work of these two gentlemen. We have all worked together. The B-2 is certainly the premier conventional weapon in our arsenal today.

Mr. SKELTON. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from California (Mrs. TAUSCHER).

Mrs. TAUSCHER. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I would like to thank the leadership for allowing my amendment to be considered during the floor debate of the defense authorization bill. In January of this year, a bipartisan task force, chaired by former Senator Howard Baker and former White House Counsel Lloyd Cutler stated that the most urgent unmet national security threat to the United States is the danger that weapons of mass destruction in Russia can be stolen and sold to terrorists or hostile nations and used against American troops abroad or citizens at home.

The report concluded that the national security benefits to the United States from securing or neutralizing the equivalent of more than 80,000 existing potential nuclear weapons would constitute the highest return on investment of any current U.S. national security defense program.

To address this critically important concern, I am offering a simple amendment requiring the President to submit a strategic plan to Congress on how to dispose of excess nuclear material that Russia does not retain in its arsenal and to prevent the outflow from Russia of nuclear weapons expertise. I am offering this amendment because I believe it is critical that we have an overall strategic road map of how we plan to deal with the growing threat of weapons of mass destruction.

The tragic events of last week make our nonproliferation programs even more important. If we can assure that

excess nuclear material in Russia does not flow into the wrong hands, we can reduce the chances that a nuclear weapon used by a hostile state or a terrorist group can be used against us. I was pleased to work with the chairman, the gentleman from Arizona (Mr. STUMP), and the ranking member, the gentleman from Missouri (Mr. SKELTON), in crafting this amendment to ensure that its provisions would meet both the Democrats and Republicans concerns about national security.

Mr. Chairman, I respectfully urge my colleagues to support this amendment.

Mr. SKELTON. Mr. Chairman, reclaiming my time, I thank the gentleman from California.

Mr. Chairman, we have examined the amendments en bloc, and we agree thereto on this side.

Ms. VELAZQUEZ. Mr. Chairman, I rise in support of the en bloc amendment and to thank Chairman STUMP and Ranking Democratic Member SKELTON for agreeing to include my amendment to H.R. 2586, the National Defense Authorization Act for Fiscal Year 2002. My amendment requires that the Department of Defense work with the Comptroller General to develop a database to track the consolidation of contracts that displace two or more small businesses, and that the Department use this database to generate reports to Congress. This amendment will, for the first time, require that the Department collect empirical data so that Congress can determine the true effect of these consolidated contracts on small businesses and so that we can determine if any savings to the taxpayer are accruing as a result of this practice.

Since World War II, when small businesses were called upon to assist with the war effort, small businesses have greatly contributed to our nation's diverse industrial base, and have been adept at providing goods and services for the changing needs of the government. Federal agencies have often found that corporate America was too large to react quickly and efficiently. The unique niche that small businesses filled, and continue to fill, has allowed for a competitive Federal contracting process. We all know that a competitive Federal marketplace leads to true cost savings and higher quality—a great return for the American taxpayer.

Any discussion of the Federal marketplace, leads to a discussion of the Department of Defense's role, as the Department of Defense has historically accounted for 65 percent of Federal contracts. However, for the last several years, the Small Business Committee has noted that the Department's contract opportunities available to small businesses have decreased. It is this declining number of small business opportunities by the Department and other large agencies, that inspired Committee Democrats to start grading agency's small business efforts.

For the past two years, myself and my Democratic colleagues on the Committee on Small Business, have released what we call the "Scorecard." The "Scorecard" is an evaluation of the small business achievements of 21 Federal agencies, compared to their statutory goals.

The results of these two studies have been disturbing. Last year, the overall government grade was a "C-." This year, although the

overall grade was also a "C-," the government is slipping further into the "D" range.

The Department of Defense stood out both last year and this year, as an exceptionally poor performer as it relates to doing business with our nation's small businesses. This year, the Department had the lowest grade of all agencies: a "D-."

This is very important, in light of the fact that the Department of Defense historically accounts for 65 percent of Federal procurement. When the Department of Defense fails to make the grade, it is unlikely that the rest of the government will make the grade either.

Small businesses are still not getting their fair share of the Department's contracts—from either a dollars or a numbers standpoint. Despite an increase in procurement volume from \$119.7 billion in 1999 to \$126.2 billion in 2000, the Department did not achieve its small business goal, or its women-owned business goal. The Department of Defense had a 23 percent goal for small businesses and achieved only 21.41 percent. This translates to over \$2 billion in contracts that should have gone to small businesses, but didn't. Women-owned businesses fared even worse. The Department had a goal of 5 percent for women-owned businesses, but achieved 2 percent. This translates to nearly \$4 billion in contracts that should have gone to women-owned businesses, but didn't.

From 1997 to 2000, the numbers of contracts awarded to small businesses by the Department have decreased by over 41 percent. The numbers of contracts to minority-owned businesses have decreased by over 55 percent. The number of contracts awarded to women-owned businesses have decreased by over 43 percent. This declining trend in the number of contracts translates directly to the number of opportunities available to small businesses to sell their products and services directly to their government.

Both the 1999 study and the 2000 study demonstrate that little progress is being made as far as agency's small business goal achievements. In fact, the 2000 study highlights that the plight of small businesses is getting worse—small businesses have fewer opportunities for participation in the Federal marketplace than they ever did.

To begin to correct this problem, my amendment was included in the en bloc amendment. A similar amendment was accepted into the House version of last year's Defense Authorization but failed to be included in the final Conference Report signed by the President. The amendment requires that the Department of Defense work with the Comptroller General to develop a database for tracking and annual reporting to Congress of contract awards that result in the displacement of two or more small businesses as prime contractors.

What remained in Public Law 106-398, the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 regarding contract bundling, was a requirement in Section 834 that the Secretary of Defense conduct a comprehensive study of contract bundling. "Contract bundling" is the consolidation of two or more contracts performed by small businesses, into one contract that is too large for small business participation as prime contractors. In seven hearings since 1993, the Committee on Small Business has heard a very compelling case by numerous small businesses that they are losing untold millions of

dollars in business as a result of this practice. The Department of Defense contends that through contract bundling, they are able to save money, yet not one dollar has been shown to have been saved. Instead, the numbers of Defense contracts available to small businesses are declining every year, and the anecdotal information is overwhelming that small businesses are able to provide higher quality products at prices that result in savings to the taxpayer.

Despite the statutory requirement contained in Section 834 of Public Law 106-398 that required the Department of Defense to conduct a comprehensive study on contract bundling, the Committee on Small Business received a letter dated April 17, 2001 from Deputy Secretary of Defense Paul Wolfowitz. The letter states, in part, "the Department is unable to conduct the comprehensive study required by Section 834" because the General Service Administration's Federal Procurement Data System—the repository of all Federal contracting information—only began collecting data on contract bundling in October of 2000. The letter goes on to reference a study performed by the Department under contract with the Logistics Management Institute (LMI).

The requirement to perform the study was not an "optional" requirement for the Department to follow—it was part of the agency's authorizing statute. It was mandated by Congress that the study be performed. To have an agency essentially refuse to comply with its authorizing statute is, to me, unheard of. The Department knew the study was required by statute. If essential data was not being collected, the Department should have started collecting data in order to comply. The taxpayers deserve to know—and we have an obligation to tell them—whether the consolidation of contracts that eliminate small businesses save them money.

As previously stated, the letter sent by Deputy Secretary Wolfowitz refers to a study on contract bundling performed by LMI. This study is the direct result of a hearing held by the Committee on Small Business in November of 1999. It was undertaken not by an independent auditor, but by the Logistics Management Institute (LMI)—a non-profit organization that is funded 50 percent by the Department of Defense. LMI performed a case review, rather than the study that the Department promised, of 10 contracts out of a pool of 718 contracts—barely 1 percent—not a statistically valid sampling by anyone's definition. LMI concluded that "savings (as a result of contract bundling) are based on intuition. This means that people THINK they are savings money, but it has not been proven with empirical data." Clearly, given the mind-set of the Department of Defense's contracting officers, much more needs to be done.

In order to get something done, in last year's Small Business Reauthorization, we were successful in getting former-Chairman Jim Talent's bundling data collection bill language into the Reauthorization. Unfortunately, that language has a flaw. By using the definition of "contract bundling" contained in the Small Business Act, it only narrowly looks at those bundled contracts determined as such by the Department, leaving the vast majority of consolidations out of the database's scope. This deprives us of critical information necessary to solve this problem.

My amendment requires that the Department of Defense work with the Comptroller

General to collect data on a much broader definition. As the General Accounting Office continues to report that no data can be collected, we believe that the Department should work with the Comptroller General to ensure that the data that is ultimately collected will provide useful information. This amendment will cover all contracts in which two or more small businesses are displaced as prime contractors. At a minimum, the database will include the names and addresses of the small businesses that are displaced, the rationale for consolidating the contracts, and the monetary benefits projected to be realized by the consolidation. This database will give Congress very important information on contract consolidations that we can use to not only protect small businesses, but also ensure the taxpayer that their money is being saved. Once we start getting reports from this database, we will learn what happens to those small businesses who are displaced. Do they go out of business? Do they become subcontractors? Are taxpayer dollars actually being saved with these contract consolidations that displace small businesses? There is an important distinction between streamlining Federal contracting processes for streamlining's sake and streamlining for a reason. We know now that small businesses are being displaced—effectively streamlined right out of business. What we haven't seen is taxpayer savings.

The impact of these contract consolidations on the small business community has been enormous, and has flowed-down to the economies of local communities. There is no doubt that the need to collect empirical data more than warrants any inconvenience this could place on the Department to collect this important and useful information.

For Congress to determine the depth of the problem of contract bundling, we need all of the facts. It is imperative that empirical data is collected that will allow Congress to determine what, if any, statutory changes need to be made to ensure the Federal acquisition system is fair to small businesses, and ensures that taxpayers receive the very best value for their dollars. My amendment is the first step in making that determination, and it is a common-sense solution. As a direct result of the data collected by the requirements of my amendment, the Federal procurement system will be one that provides true savings to the taxpayer. Further, small businesses in communities across the country will have increased access to Federal prime contracts.

Again, I thank Chairman STUMP and Ranking Democratic Member SKELTON for agreeing to include my amendment in the en bloc so Congress can finally get some comprehensive information on how contract consolidations have affected our Nation's small businesses.

Mr. BEREUTER. Mr. Chairman, this Member rises in strong support of the bipartisan amendment which he is offering with the distinguished gentleman from Rhode Island, Mr. LANGEVIN. The Bereuter-Langevin Amendment would authorize the use of appropriated funds for members and units of the National Guard to conduct and participate in athletic competitions and small arms competitions in conjunction with required training.

Mr. Speaker, the National Guard provides the men and women serving their country with the opportunity to hone their service-related skills in competitive events as the National Guard Bureau Marathon in Lincoln, Nebraska;

a biathlon in Vermont; the Leapfest in Rhode Island; and marksmanship competitions in North Little Rock, Arkansas. Indeed, the opportunity to participate in these competitions provides incentives for National Guard recruitment and retention programs. Additionally, the competitions bring National Guard members together with Active Duty military personnel which builds better appreciation among the various components and overall force cohesiveness.

However, the playing field for the National Guard is not level with that for Active Duty military members. Currently, state National Guard units can use only non-appropriated funds to cover operating expenses for the events and for health, pay, and personal expenses for participating unit members. Because the non-appropriated funds are very limited, National Guard members must often pay out of their own pockets for expenses, including medical coverage. For Active Duty military participants, appropriated funds cover all expenses participants incur.

By authorizing the use of appropriated funds in addition to the non-appropriated funds, National Guard members participating in competitions could receive full coverage for health, pay, and personal expenses. This is particularly important for National Guard members who cannot afford medical expenses stemming from possible injuries. Additionally, the National Guard units would face fewer budget constraints when continuing to host these valuable competitions and when sending teams and individuals into competition.

Finally, it is important to note that H.R. 1705 does not recommend appropriation levels nor does the legislation create participation incentives for National Guard members which are greater than those incentives for Active Duty military.

Mr. Speaker, this Member urges his colleagues to vote for the Bereuter-Langevin amendment as an important way to show support for the men and women serving their country in our National Guard.

Mr. WELDON of Pennsylvania. Mr. Chairman, Congress authorized the original National Defense Features (NDF) program in the mid-1990s in response to a report by the Department of Defense describing a shortage of sealift capacity during military contingencies. The NDF program was considered to be the most cost-effective way to augment the substantial investment that was being made in new sealift ships by the Navy.

Since then, Congress has authorized and appropriated funds to install special defense features in new commercial vessels to be built in the shipyards of the United States. Last year, for example, at my request and as a result of the leadership of our colleague from New Jersey, Mr. FRELINGHUYSEN, the House included in the National Defense Authorization Act for FY 2001 a provision that would expand the Secretary of Defense's ability to fund militarily useful projects under the NDF program. I am pleased to report that our amendment was included in the final legislation signed into law by the President.

When the NDF program was launched, Congress expected that our allies, particularly Japan, would find mutual defense benefits in promoting the program. Under one project that has received considerable attention in the press and has the support of domestic maritime labor, ten commercial vessels would be

built in the United States based on a design funded and approved by DARPA's Maritime Technology Program. These vessels would normally operate in the Japan-United States vehicle trade, which is at present entirely dominated by Japanese carriers. Quite importantly, the vessels would be crewed by American merchant seamen, a group vital to maintaining the readiness of our military to handle contingencies abroad.

Notwithstanding expressions of support by very senior officials in our government, this expectation has not been realized. As a result, the hopes of our commercial shipbuilders and merchant mariners have not been realized, and our military planners have not been able to rely upon NDF vessels to support their contingencies operations. Much to my disappointment, the Government of Japan apparently continues to take the position that the decision to employ NDF ships is strictly a matter for the commercial judgment of Japanese vehicle manufacturing and shipping companies. The vehicle manufacturers, which operate under closely inter-locking relationships with the Japanese vehicle carriers, continue to insist that the NDF program is a matter between the two respective governments since it addresses defense.

In view of the U.S. role in providing security for our Far East allies, it hardly seems appropriate that defense concerns expressed by our government should not have been met with a more positive response. Our government's repeated representations to the Japanese government have fallen to the ground as if the NDF program was without military value, a position that is contradicted by two U.S. Navy reports on the NDF program. Taking note of the extensive military collaboration of our two governments, which it is safe to say has conferred material benefits on Japan, this is not the position that Congress should have expected.

The position that this matter is purely commercial in nature rather than governmental in character is not defensible. Japan, like other nations, supports its merchant marine with financial assistance, including direct construction loans at artificially low rates of interest. This is not the mark of a purely private industry operating under purely commercial conditions.

Based on all the evidence gathered to date, it would appear that the real reason our carriers are effectively being excluded from this market is the Japanese kereitsu system of doing business. In short, a fleet of U.S.-built and operated ships, commercially competitive and having significant defense value to both nations, has apparently no chance to break through the economic fence encircling the Japanese vehicle trade.

As I explained to my colleagues last year, I continue to hope that the Government of Japan and the vehicle manufacturers will ultimately see the merit of supporting the NDF program, especially given the longstanding support of the Department of Defense. But if the past is any guide, we may anticipate further intransigence. Therefore, I am joining today with my colleague from New Jersey, Mr. FRELINGHUYSEN, in introducing a bill that we intend to push later this year if we do not see any movement on the part of the Government of Japan. The bill—which is identical to the bill we introduced late last year in the form of H.R. 5488—is very straightforward. It says: If the Federal Maritime Commission finds that

vessels built under the NDF program are unable to obtain employment in a particular trade route in the foreign commerce of the United States for which they are designed to operate, and if that sector of the trade route has been dominated historically by citizens of an allied nation, then the Commission shall take action to counteract the restrictive trade practices that have led to this situation.

As I pointed out last year, it should not be necessary to enact legislation to encourage support for a program so self-evidently in the mutual security interests of our two nations. I trust that the Government of Japan will support the new consultative mechanism so that the NDF program can begin the much needed recapitalization of our aging Ready Reserve Force.

Mr. SKELTON. Mr. Chairman, I yield back the balance of my time.

Mr. STUMP. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN pro tempore (Mr. LATOURETTE). All time for debate on the amendments has expired.

The question is on the amendments en bloc offered by the gentleman from Arizona (Mr. STUMP).

The amendments en bloc were agreed to.

The CHAIRMAN pro tempore. No further amendments are in order. Under the order of the House of yesterday, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. WALSH) having assumed the chair, Mr. LATOURETTE, Chairman pro tempore of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2586) to authorize appropriations for fiscal year 2002 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2002, and for other purposes, had come to no resolution thereon.

GENERAL LEAVE

Mr. STUMP. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 2586.

The SPEAKER pro tempore (Mr. LATOURETTE). Is there objection to the request of the gentleman from Arizona?

There was no objection.

REPORT ON H.R. 2904, MILITARY CONSTRUCTION APPROPRIATIONS ACT, 2002

Mr. HOBSON, from the Committee on Appropriations, submitted a privileged report (Rept. No. 107-207) on the bill (H.R. 2904) making appropriations for military construction, family housing, and base realignment and closure for the Department of Defense for the fiscal year ending September 30, 2002, and for other purposes, which was referred to the Union Calendar and ordered to be printed.
