Farm Bill informed us that they would "be in a position to make the final farm bill decisions in public meetings of the Conference the week of April 9," according to a joint statement released by the top conferees.

April 9th is far too late to begin implementing the complex legislation, as was March 22nd or even January 1st, and I believe that it is now essential to delay implementation of the Farm Security Act until next year.

The planting season has already begun in many states across the country. As each day passes by without a new bill, America's farmers and their families are digging themselves into deeper and deeper holes.

We all know that farmers are not just planters, but planners, and most farmers thought it to be vitally important to have the farm bill in place at the end of last year. Now that it may be mid-summer before the USDA is effectively able to administer the provisions in the new Farm Bill, it could prove to be overwhelmingly detrimental for our agricultural community, especially in southeastern Virginia.

In addition to helping the farmers by delaying the bill one more year, we will be saving the government an estimated $299 million dollars by delaying the new "peanut subsidy program" and continuing to use the current system, which has no net cost to the government.

A Farm Bill is certainly needed, but the timing is important. Implementing the new Farm Bill this late in the season would be an incredibile injustice to our farmers.

INTRODUCING H. R. 4012 THE RURAL WIRELESS TELECOMMUNICATIONS ENHANCEMENT ACT OF 2002

HON. BARBARA CUBIN
OF WYOMING
IN THE HOUSE OF REPRESENTATIVES
Wednesday, March 20, 2002

Mrs. CUBIN. Mr. Speaker, rural America. We often hear of the unique challenges that face those of us who live and work in the unspoiled areas of this great nation. As someone who represents the least populated state in the country, let me say that we wouldn't trade those challenges for all the urban conveniences in the world.

There are, however, basic needs deemed necessary to conduct our everyday lives whether you live in Brooklyn, New York or Basin, Wyoming. One of those essential, and obtainable, requirements is access to modern and efficient telecommunications. Telecommunications is an important component by which we can run small businesses, visit distant relatives, or just order a pizza.

During the last two Congresses, I have been successful advocating for wholesale changes in the way the Federal Communications Commission (FCC) regulates small and mid-size telecommunications companies. Those bills have passed the House but languish in the Senate.

The basic tenet of the bills is to ensure that the FCC writes separate regulations for companies that are smaller than their oftentimes much larger competitors. Common sense tells us that identical regulations imposed on telecommunications companies regardless of size translates into the over-regulation of the small and mid-size companies. Although the FCC initially fought these changes, I am pleased to report that most of the changes in the bills have ultimately been incorporated by the FCC.

This leads me to the introduction of the bill I bring before the House today. The "Rural Wireless Telecommunications Enhancement Act of 2002" will bring about significant changes by which the FCC regulates small wireless telecommunications companies.

If you've been fortunate enough to travel through the state of Wyoming, you may have been surprised to find that your wireless phone did not know how to receive non-commercial coverage at best. One way in which we can address the comprehensive development of wireless telecommunications infrastructure in rural areas is to stop the FCC from burdening small wireless companies with onerous, one-size-fits-all rules meant to regulate the largest wireless carriers. That way small wireless companies can put their resources into developing new technologies and deploying their infrastructure instead of spending it on high-priced Washington lobbyists and regulatory attorneys.

The goal of the "Rural Wireless Telecommunications Enhancement Act" is simple: to give rural wireless customers better service and more choices.

TRIBUTE TO CASEY ROATS
HON. GREG WALDEN
OF OREGON
IN THE HOUSE OF REPRESENTATIVES
Wednesday, March 20, 2002

Mr. WALDEN of Oregon. Mr. Speaker, I rise today to convey my deepest appreciation to a member of my Washington, D.C. staff for his tireless efforts on behalf of the good people of Oregon's 2nd Congressional District. Casey Roats will conclude his internship in my office this week to continue his studies at Oregon State University and assist in the operations of his family's business, Roats Water System, Inc. in Bend, Oregon. As he leaves our nation's capital, he has left a legacy of well in his future endeavors, and I know that his intelligence and discipline will bring him success in whatever calling he answers.

Casey was raised in Bend, Oregon, growing up in a family with indelible ties to central Oregon. He is, in short, a son of the American West. As a youngster he developed an interest in horsemanship, where he excelled as he does in every pursuit that I have witnessed him attempt. Casey's success in rodeo competitions provided him with the resources to attend his first year of college at Oregon State University. The travel required by these competitions allowed Casey to become familiar with much of eastern Oregon, which strengthened both his ties to the land and his appreciation for the western way of life. Moreover, his intimate knowledge of the issues that are so important to the people of Oregon has made him an invaluable asset during his tenure in my office.

Mr. Speaker, Casey's early involvement with the Oregon chapter of Future Farmers of America provided a foundation of civic participation that he chooses to embark on such a career. Mr. Speaker, Casey exudes competence, and he welcomed visitors to my office with the same friendly and forthright manner that is so common of Oregonians. My trust in him to complete tasks flawlessly and without supervision was vindicated time and time again. My staff reports that Casey ranks among the finest items ever to serve in my congressional office. Simply put, Casey was a delight to work with and always demonstrated a high level of professionalism and attention to detail during his service on Capitol Hill.

It goes without saying that Casey will be difficult to replace. While I am deeply sorry to see him leave, I am confident that he will continue to make central Oregon proud in whatever career he chooses in the future. Thank you, Casey, for a job well done.

EXPRESSING SENSE OF HOUSE OF REPRESENTATIVES REGARDING WOMEN'S HISTORY MONTH

SPEECH OF
HON. MELISSA A. HART
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, March 19, 2002

Ms. HART. Mr. Speaker, in honor of Women's History Month, I would like to take this opportunity to recognize the life and work of Susan B. Anthony, and to celebrate the 182nd anniversary of her birth, which took place last month. Susan B. Anthony is remembered as one of our greatest foremothers in the drive for women's rights. However, what many have forgotten, or chosen to ignore, is that she was amongst our Nation's first and most passionate pro-life advocates. For Anthony, the rights of the unborn were inseparable from the rights of women, and opposition to abortion was an essential part of the cause of women's rights.

This month as we honor the women who have strived to improve the lives of women in America and throughout the world, let us remember the life and work of Susan B. Anthony and what she has done to guarantee full rights for both women and their unborn children.

CELEBRATING THE 46TH ANNIVERSARY OF TUNISIAN INDEPENDENCE

HON. DAVID E. PRICE
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, March 20, 2002

Mr. PRICE of North Carolina. Mr. Speaker, today, March 20, 2002, the Republic of Tunisia celebrates the 46th anniversary of its independence.
