

Section 522. Division of Drug Marketing, Advertising, and Communications

This section provides an increased authorization for the Division of Drug Marketing, Advertising, and Communications (DDMAC) within the Office of Medical Policy, Center for Drug Evaluation and Research at the FDA. DDMAC plays a vital role in ensuring that promotional drug material is not false or misleading, and they do so on a limited budget. The authorized amounts will better ensure that DDMAC can perform its mission.

Section 523. Office of Generic Drugs

This section provides an increased authorization for the Office of Generic Drugs (OGD) within the Center for Drug Evaluation and Research at the FDA. OGD is vitally important to ensuring that Americans have access to safe, effective generic drugs. This Office needs increased funding, however, due to the fact that it presently takes OGD nearly 18 months to review the typical ANDA. This section will lead to increased funding, so that these review times can be decreased without compromising health and safety.

Subtitle C—Additional Provisions

Section 531. Transition to Digital Television

In an effort to further promote the orderly transition to digital television, and to promote the equitable allocation and use of digital channels by television broadcast permittees and licensees, the Managers direct the Federal Communications Commission, at the request of an eligible licensee or permittee, to, within 90 days after the date of enactment of this Act, allot, if necessary, and assign a requested and identified paired digital television channel to that licensee or permittee. In order to avoid any undue burden to the Commission, which is required to allot and assign the paired digital television channel within a short timeframe, the Managers expect all eligible applicants to file their applications as soon as practicable after the date of enactment. The FCC shall only do this if such channel can be allotted and assigned without further modification of the tables of allotments as set forth in sections 73.606 and 73.622 of the Commission's regulations (47 CFR 73.606, 73.622) and such allotment and assignment is consistent with the Commission's technical rules (47 CFR part 73). The only licensees or permittees eligible for this digital allotment are those that are full power television broadcast licensee or permittees (or their successors in interest) that had an application pending for an analog television station construction permit as of October 24, 1991, which application was granted after April 3, 1997; and as of the date of enactment of this Act, is the permittee or licensee of that station. This provision enables such licensees or permittees an opportunity to realize their expectations created by prior FCC action to foster a digital audience during the transition period to digital television without having to terminate abruptly analog service now enjoyed by their viewers. Without this change, those broadcast licensees or permittees would be denied the flexibility to operate an analog and a digital facility simultaneously in the near term, especially in a major market. This is contrary to the Congressional goals of increasing competition and accelerating the digital television transition. The Managers are ensuring that eligible licensees or permittees will meet the intended objectives by doing two important things. First, the Managers impose an unequivocally hard 18-month deadline for the construction of the digital facility from the time of the FCC's issuance of the construction permit for the new digital channel. In this regard, eligible licensees are absolutely prohibited from obtaining or receiving an extension of time

from the Commission pursuant to 47 C.F.R. 73.624(d)(3). Second, the Managers safeguard against eligible licensees from using the newly granted "in-core" digital channel allotment and assignment to provide analog service.

Section 532. 3-Year Delay in Lock in Procedures for Medicare+Choice Plans; Change in Medicare+Choice Reporting Deadlines and Annual, Coordinated Election Period for 2003, 2004, and 2005

This section changes the deadline for Medicare+Choice plans to submit information to the Secretary on Medicare benefits, premiums, cost sharing, supplemental benefits, and actuarial values of such coverage from July 1 to the second Monday in September for the years 2002, 2003, and 2004. It would also delay the annual election period for Medicare enrollees to select a M+C plan to the period of time beginning on November 15 and ending on December 31 in 2002, 2003, and 2004. This section also delays the phase in of the limitation on Medicare beneficiaries changing health plans more than once a year (the "lock-in"). This requirement, enacted in the Balanced Budget Act of 1997, was scheduled to phase in incrementally beginning in 2002. The substitute would postpone the lock-in requirements until 2005.
