

French President Charles de Gaulle presented her the Legion of Honor, which was France's highest decoration. She was also awarded the Medal of the Resistance with Rosette, and named a Chevalier of the Legion of Honor by the French government for hard work and dedication. At her death, the French government honored her with a 21-gun salute, making Josephine Baker the first American woman buried in France with military honors.

So I commend, Mr. Speaker, these and all the dedicated valiant women of the OSS, without whom Europe and the world may not exist in its present state. I also call my colleagues' attention to the book "The Secret War" by Francis Russell, if they are interested in learning more about the details of this great agency as well as the women who participated.

SALUTE TO THE DETROIT RED WINGS

The SPEAKER pro tempore (Mr. STEARNS). Pursuant to the order of the House of January 23, 2002, the gentleman from Michigan (Ms. KILPATRICK) is recognized during morning hour debates for 5 minutes.

Ms. KILPATRICK. Mr. Speaker, I stand here today to congratulate the Detroit Red Wings for winning the Stanley Cup 2002 award for the year. We congratulate the Red Wings, Mike Ilitch and the entire Ilitch family; Scotty Bowman, Steve Yzerman, and the entire team for giving our fans across Michigan and across this country a whirlwind tour as we won another Stanley Cup playoff.

I want to say to the Ilitch family, "We thank you for your dedication to the Red Wings, to the city, and to the region from which we come. Continue that Ilitch spirit as we rebuild our region together and our city."

To Scotty Bowman, the winningest coach in American hockey, "We congratulate you and wish you well in your retirement as you move on; and to Mrs. Bowman, who has been a stalwart fan of yours and our Detroit Red Wings."

And to Steve Yzerman and the team for all the hard work, the gut playing, the tenacity, "You really made us all feel proud."

On behalf of Mayor Kwame Kilpatrick, mayor of the City of Detroit, and all the residents of the city, as well as all the residents of the region and Michigan, we say, "Go Detroit Red Wings. We are so very proud of you."

Let us use that same spirit to bring our city, our region, and our State together. We have awesome responsibilities ahead of us, and we believe with that Red Wing spirit, with Mayor Kilpatrick's leadership, we can pull our city together, build new economic development, a wonderful regional transportation system, offer hope for our children and security for our seniors.

Go Red Wings. We are so very proud of you, and may you continue to be the spirit of our city.

MEDICARE MODERNIZATION AND PRESCRIPTION DRUG ACT OF 2002

The SPEAKER pro tempore. Pursuant to the order of the House of January 23, 2002, the gentleman from Minnesota (Mr. KENNEDY) is recognized during morning hour debates for 5 minutes.

Mr. KENNEDY of Minnesota. Mr. Speaker, today I rise in support of the Medicare Modernization and Prescription Drug Act of 2002. As I go around my district and talk with seniors, this is one of the top issues that they have for us in Congress, to get a prescription drug coverage within Medicare. This bill is long overdue, and it is very important for our seniors. We need a comprehensive prescription drug benefit under Medicare, and this bill delivers exactly that.

No senior should have to choose between groceries and medical care. This plan gives our seniors immediate relief from the rising costs of prescription drug medications by providing a 30 percent discount off the top of their overall prescription drug bill. We guarantee coverage for all seniors who want it in Medicare.

The nonpartisan Congressional Budget Office predicts that 95 percent of seniors will voluntarily sign up for this benefit. So this is a program that will work that we are putting forth for seniors and that we expect to be beneficial to them.

In addition to the immediate discount and basic insurance coverage, which combined should save the average senior about half of their costs for prescription drugs, we are also providing a 100 percent prescription drug coverage for low-income seniors to make sure that those most in need can have the medicines they need to stay healthy.

We also have catastrophic protection, at a \$5,000 level or so, that will ensure that individuals do not have to deplete their lifetime savings and do not have to choose between other basic necessities in life and pharmaceuticals.

□ 1115

We also offer more Medicare choices and savings. Many Americans already have coverage. Most seniors have prescription drug coverage, but this bill is put forth to be a base upon which other plans can build upon to provide stronger coverage for seniors.

We are very hopeful that we can get this passed in the House and enacted into law. Continuing the tradition of making important legislation temporary, the majority in the other body recently introduced a bill that expires after 10 years. That is unfair to our seniors, Mr. Speaker. Our approach helps seniors now and permanently into the future. Our plan is affordable and is intended to cover all seniors. The choice is clear. I strongly support passage of this bill, and I urge Members to do the same.

SUPPORT MEDICARE PRESCRIPTION DRUG BENEFIT

The SPEAKER pro tempore (Mr. STEARNS). Pursuant to the order of the House of January 23, 2002, the gentleman from Illinois (Mr. DAVIS) is recognized during morning hour debates for 5 minutes.

Mr. DAVIS of Illinois. Mr. Speaker, I rise to join with all of my colleagues and all of the people across America who support a real prescription drug program for seniors. I understand the concerns that some express for the need to reform Medicare, and I agree. But I believe that prescription drug coverage for seniors should be an integral part of the Medicare program.

We are aware that since its creation Medicare has remained stagnant, while advances in medicine have grown rapidly. We are aware that even our fundamental vision of medicine has dramatically changed from diagnosis and treatment to preventive care. Today, due to our realization of the need for modification and reform of Medicare, to our seniors, which has been an overwhelming process of paperwork with worries about reimbursement and regulations, it is not a form of security as it was once thought to be. Medicare reform is necessary, but the time is now to listen to our seniors and to give them what they have been requesting, that we give them financial relief and provide them with a prescription drug plan that will actually cut their monthly prescription drug expenses. It has been stated on the floor of this House a number of times that we have seniors choosing between food and drugs, splitting their prescription in half and denying themselves other medical care due to the cost of their monthly prescription drug costs.

In fact, seniors are declaring bankruptcy at a record pace due in large part to the rising cost of health care. We need a prescription drug coverage that covers all seniors. It is not just our poorest seniors who are having problems paying for their prescription drugs. It is also middle-class seniors who are struggling with the burden of outrageous drug costs.

As Members of Congress, we need to ensure that we provide a Medicare prescription drug benefit that is voluntary, universal and accessible. No senior should be denied a benefit based on where he or she lives or what his or her income is. We see our European neighbors offering their seniors drugs at half the cost of what American companies are charging. American seniors are being encouraged to travel overseas or across our borders to Canada and Mexico just to save money on the same prescription drug they can get in the United States. This is outrageous and absurd and should shed more light on the importance of why this great Nation needs a serious drug plan for seniors.

Once again we need to let our seniors know that we hear them loud and clearly. We need to let our seniors
