

necessarily address this factor. As a result, to respond to your inquiry we had to use receipt of a sentencing reduction for acceptance of responsibility as a rough proxy for this particular safety valve criterion, which may overstate or understate the actual number of offenders who would meet this criterion if the safety value were made retroactive. Proxies for certain other safety valve criterion also had to be used. In addition, the Commission does not have complete data with respect to release dates for offenders.

I hope you find this information helpful.
