

TRIBUTE TO NANETTE LEBORGNE  
AND BRENDA RICE

**HON. SCOTT McINNIS**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 5, 2003*

Mr. McINNIS. Mr. Speaker, I stand before this body of Congress and this nation to recognize and honor two remarkable women from my district. Nanette LeBorgne of Rifle, Colorado and Brenda Rice of Parachute have defied the odds and prevailed in the fight against cancer. Today, they fight a new battle, helping raise money for cancer research and assisting other cancer victims with their recovery efforts. I am honored to recognize these two brave women who now devote their lives to helping others conquer this deadly disease.

Nanette and Brenda have developed a close relationship, not only with each other, but also with other cancer survivors in their community. Both women understand the array of emotions one undergoes when first being diagnosed with the disease. They can also relate to the triumphant feeling of victory upon overcoming their struggles.

Brenda volunteers her time to share advice with other cancer sufferers on how she was able to cope with the disease, in addition to simply providing them with someone to talk to and identify with their ordeal. Nanette is a Team Captain for the Relay for Life in Rifle, a fundraising event for the American Cancer Society. This year her team will donate over \$1000 to the organization.

Mr. Speaker, it is a great privilege to honor Nanette LeBorgne and Brenda Rice for their courage and contributions to cancer research. Their spirit of community service and altruistic dedication to the welfare of other cancer victims is truly commendable. Their stories of recovery and survival are an inspiration to us all.

Mr. SCHIFF. I rise today to honor an outstanding citizen of California's 29th Congressional District: Ms. Ernestine L. Moore. Though Ms. Moore has served Pasadena City College for 32 years, she has been a positive force in the community for much longer.

She began her academic journey at Virginia State University where she obtained both her Bachelor's and Master's degrees in Psychology. She later completed graduate work at the University of Santa Clara, the University of Massachusetts at Amherst, and the University of California Los Angeles. Ms. Moore began her career as a Psychologist in Norfolk, working for the Virginia City school system. From there she traveled westward to San Jose City College where she worked as a counselor, then moved on to take the title of Supervisor of Counseling for the Los Angeles Urban League's MDTA/OJT program.

moted to dean of counseling in 1977, became the dean of Student Services in 1984, and reached her current position as Vice President of Student Learning and Services in 1997.

Ernestine showed her commitment to her students and her community when she helped to initiate the African-American High School Day. She has chaired committees that worked to diversify Pasadena City College's student body through recruiting and working to retain the minority groups on campus. Currently, she serves as President Elect of the California Community Colleges Chief Student Service Officers Association.

Ms. Moore continues to add to the list of her services to the community. She serves as the chairperson of the City of Pasadena's Human Services Commission and as President of the Board of the Urban Revitalization Development Corporation. TRIBUTE TO UNIVERSITY OF KANSAS  
PROFESSOR EMERITUS G.  
BAILEY PRICE

**HON. DENNIS MOORE**

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, September 5, 2003*

Mr. MOORE. Mr. Speaker, I rise today to pay tribute to Professor Emeritus G. Bailey Price of the University of Kansas.

The recent dedication of the Robert J. Dole Center for Public Policy at the University of Kansas has renewed attention upon the millions of Americans who made possible this nation's victory during World War II. One of many Americans who were essential to that war effort, G. Bailey Price, is now 98 years old, residing in Lawrence, Kansas.

Professor Price, a mathematics scholar and instructor at the University of Kansas, was called upon in 1943 to serve our nation as a civilian attached to the U.S. Army's Eighth Air Force Operational Research Section in High Wycombe, England. Professor Price served with them until 1945. It was through the work of statisticians like Professor Price that the Army Air Force was able to apply scientific algorithms to help bomber pilots improve their accuracy and to help impede the assault over England by German V-1 and V-2 bombers. The work of this group was documented in the report, "Air Force Operations Analysis Section"; Professor Price authored the section of the report entitled, "Gremlin Hunting in the Eighth Air Force European Theater of Operations, 1943-45".

After World War II, Professor Price remained with the University of Kansas, helping to build one of the most outstanding mathematics departments of any American university. He was named "Mathematician of the Year" by the National Academy of Sciences on more than one occasion. I welcome this opportunity to pay tribute to a valuable and important American; we share the pride of all Kansans in his outstanding achievements and
