

from New Mexico, Mr. DOMENICI, No. 2051. This so-called "scaled down" version of the energy bill consists of 900 pages and contains many of the worst provisions of the H.R. 6 conference report that failed to get cloture last fall. The entire Wisconsin congressional delegation voted against the bill last fall, and I cannot support the amendment either.

In addition to its fiscal implications, I am deeply concerned that the amendment repeals the Public Utility Holding Company Act. This critical act protects consumers against abuses in the utility industry. Repeal of PUHCA would leave ratepayers vulnerable and spur further consolidation in an industry that has already seen a number of mergers. Furthermore, the bill does not protect consumers from Enron-style electricity trading practices and market manipulation. The Senate recently went on record in support of an amendment by Senator CANTWELL to bar such abusive practices and I am disappointed that the Domenici amendment fails to include similar protections.

Also the amendment has serious environmental impacts. For example, the amendment undercuts the Clean Air Act by postponing ozone attainment standards across the country. This issue was never considered in the House or Senate bill, but it was inserted in the energy conference report. This rewrite of the Clean Air Act is not fair to cities like Milwaukee that have devoted significant resources to reducing ozone and cleaning up their air. And as asthma rates across the country increase, this provision could severely undercut efforts to safeguard the air quality of our citizens.

In addition to undermining air quality protection, the amendment allows for siting of transmission lines in national parks, grants exemptions from the Clean Water Act and Safe Drinking Water Act for oil and gas companies, and pays oil and gas companies for their costs of compliance with the National Environmental Policy Act.

I am also concerned that the taxpayers would pay \$2 billion in transition assistance for MTBE manufactures. MTBE is found in all 50 States, and high levels are affecting drinking water systems all over the Midwest, including 5,567 wells in 29 communities in Wisconsin, even though the State only used MTBE gasoline for the first few weeks of the phase I program that began in January 1995.

This amendment also fails to reduce our reliance on fossil fuels. The Senate energy bill contained a requirement that power companies provide at least 10 percent of their power from renewable energy sources like wind and solar power. The technical term is a renewable portfolio standard. The amendment doesn't contain any renewable portfolio standard. There's no doubt that we can and should do better on renewable energy to reduce our dependence on fossil fuels.

For these reasons, I supported the Daschle amendment that contained the energy bill's renewable fuels title, but I opposed the Domenici amendment. I appreciate the need to develop a new energy strategy for this country, and I hope that Congress will pass the portions of the energy bill legislation that have widespread support so that we can address the pressing energy needs of our country in a sensible way.

ADDITIONAL STATEMENTS

TRIBUTE TO EDWIN COLODNY

• Mr. JEFFORDS. Mr. President, today I wish to recognize Edwin I. Colodny, a native son of Burlington, VT, as this year's recipient of the Burlington Business Association's Nate Harris Award. This award is conferred annually on an individual who exhibits the enthusiasm and dedication to maintain and improve the economic vitality of the Burlington region. Ed has supported the Burlington and greater Vermont community in so many ways that all Vermonters owe him a debt of gratitude.

Ed was born in 1926 in Burlington and graduated from Burlington High School in 1944. He went on to receive an A.B. degree from the University of Rochester in 1948, and an LL.B. from Harvard Law School in 1951. From 1975 to 1991, Ed was president and chief executive officer of US Airways, Inc. and was also president and chief executive officer of US Airways Group from 1978 to 1991, and chairman of the board from 1978 to 1992.

More recently, Ed served as the interim president of the University of Vermont and interim president and chief executive officer of Fletcher Allen Health Care, Vermont's premiere medical treatment facility, during critical change periods at both institutions. Ed also served as chairman of the board of Comsat Corporation, a leading provider of global satellite and digital networking services, which merged into Lockheed Martin Corporation.

I have admired the breadth and depth of Ed's business experience and his ability to collaborate with all partners involved in complex matters. His career-long dedication to fair and equitable treatment for workers and a desire to look for winning solutions to problems has set him apart from many of his peers. He understands the dynamics of a healthy business climate while maintaining a respect for the different needs and expertise of other participants.

Ed works tirelessly for the well being of Vermont and its people. He now serves as chair of a Vermont committee to clean up Lake Champlain, one of Vermont's natural jewels. He continues to sit on numerous non-profit boards such as Vermont Law School, Shelburne Museum, Vermont Symphony Orchestra, Vermont Mozart Festi-

tival and he is of counsel to the law firm of Dinse, Knapp & McAndrew in Burlington, VT.

There are a very few people in this world who have given so much and asked so little in return. I hope Ed Colodny knows that his years of service have not gone unnoticed. This award shows how much he is appreciated, even though it is impossible for us to fully recognize his many contributions.

I am so proud to stand here and tell you about such a great Vermonter. I wish him my deepest congratulations for an award he so greatly deserves.●

THE LIFE OF ELLIOTT MARANISS

• Mr. FEINGOLD. Mr. President, I would like to take a moment to pay tribute to Elliott Maraniss, a journalist whose work invariably served the cause of justice. Though he passed away on May 1, his work, and his commitment to the community he served, will leave an indelible mark on our State.

Maraniss, who rose to become editor of Madison's Capital Times newspaper, first made his mark in Wisconsin as a reporter for that paper, with award-winning investigative stories about river pollution, controversy at the UW-Medical School, and a UW-Madison boxing scandal. He went on to serve as city editor, managing editor, and finally editor, a post he held from 1978 until he retired in 1983. As an editor he was known for being a mentor, for spotting talented new reporters, and for caring deeply about his staff.

His leadership and integrity in the newsroom were legendary, and it was on those qualities, as well as his journalistic skills, that he built his outstanding career.

His commitment to justice was lifelong, and he inspired many others through his work. A World War II veteran, he saw injustice firsthand in the still-segregated Army, where he served as captain of an all-African-American unit. Later in life he entered the political realm, working for Milwaukee Mayor Henry Maier after retiring from the Capital Times.

I extend my condolences to his wife, Mary, and to his family and friends. His passing is a great loss for all those who knew him, and for everyone who understands the powerful contributions that journalists can make when they are fiercely committed to the truth, and to the cause of justice. So today I join his many family and friends in paying tribute to his memory. He will be long remembered for his outstanding service to the Capital Times and to his community, and for his many contributions to the State of Wisconsin.●

DEPUTY JOHN PAUL SANDLIN: IN MEMORIAM

• Mrs. BOXER. Mr. President, I wish to honor and share with my colleagues
