

Mr. Speaker, Americans deserve an energy policy that protects our consumers, our environment, and our national security. I support legislation that will provide a real, long-term, comprehensive energy policy. The Democratic motion to recommit will work to lower gas prices, stop price gouging, and prevent future blackouts. I urge all my colleagues to support this sensible, long term alternative.

Mr. MARKEY. Mr. Speaker, I rise in opposition to H.R. 4513, the Renewable Energy Project Siting Improvement Act.

This bill should really be called the Non-negotiable Energy Project Siting Act. This is a gift to those who would like to gut the National Environmental Policy Act, wrapped in the green paper of renewable energy.

If the Republican leadership really cared about increasing renewable energy use in America, today we would be debating the extension of a renewable energy production tax credit, or a renewable portfolio standard or even national interconnection standards. Those are the policy priorities of the renewable energy industry, not gutting our national environmental laws.

Instead of taking up those policy priorities, the Republican leadership has decided instead to just take the public out of the process. H.R. 4513 would eliminate the requirement that any alternative other than not building the project be considered, and it limits the public comment period to just 20 days. 20 days is an inadequate amount of time for the public to respond to complicated energy projects like hydroelectric dams and waste incineration, which are included in the bill's broad definition of "renewable energy project." This bill says to sportsmen and Indian tribes that their comments on potentially harmful dam projects don't matter. This bill says to parents that their comments on plans to build dirty waste incinerators next to their children's schools don't matter.

This is a Republican solution in search of a problem. You'll hear a lot about wind energy today, but the fact of the matter is that 6374 megawatts of wind power have been developed under the current regulations. It is the start-stop nature of the renewable energy production tax credits under the Republican controlled Congress and White House that are making it difficult for developers to bring more wind energy online.

Democrats are ready to debate long-term production tax credits. Democrats are ready to debate a national Renewable Portfolio Standard. Democrats are ready to debate interconnection standards. But instead the Republicans just want to eliminate public involvement in energy projects that impact their families.

I urge my colleagues to vote against this misguided bill and preserve the public's right to comment on energy projects—renewable or not—that impact their families.

The SPEAKER pro tempore (Mr. ISAKSON). All time for debate having expired or been yielded back, it is now in order to consider the amendment made in order pursuant to House Resolution 672 in Part A of House Report 108-540.

AMENDMENT OFFERED BY MR. POMBO

Mr. POMBO. Mr. Speaker, I offer an amendment.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part A Amendment printed in House Report 108-540 offered by Mr. POMBO:

Page 3, beginning at line 13, strike "or the combustion of".

Page 3, line 13, insert a comma after "oil".

The SPEAKER pro tempore. Pursuant to House Resolution 672, the gentleman from California (Mr. POMBO) and a Member opposed each will control 5 minutes.

Mr. RAHALL. Mr. Speaker, although not in opposition to the amendment, I wish to claim the time in opposition.

The SPEAKER pro tempore. Without objection, the gentleman from West Virginia will control the time in opposition.

There was no objection.

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. POMBO).

Mr. POMBO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this amendment would clarify that the environmental review process in H.R. 4513 would not apply to oil and gas leasing activities. This amendment would remove any confusion about what this bill does or does not do.

We have discussed this bill with the minority and they offered this change to the base text. After having gone back and forth, I believe this is a necessary change to the underlying bill to eliminate any confusion that there may be. By making this change, this amendment incorporates all of their proposed changes, short of rewriting the bill. Rewriting this bill would mean doing nothing to promote renewable energy development, which I find unacceptable.

I support this amendment, and I urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Mr. RAHALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we have no objection to the gentleman from California's amendment clarifying the obvious fact that oil and gas and coal are not renewable energy sources.

I do not think though that this is the end of the attempts to expand NEPA exemptions, and I urge those concerned about the integrity of coastal areas to remain vigilant. I would note, however, that even with this amendment, the pending legislation could be construed as providing NEPA exemptions to the construction of new hydropower dams on rivers and it could apply to incinerators using garbage or other waste products.

As I read the text, the exemptions in this bill include hydropower and incinerators which general power. As the gentleman from California is well aware, siting of dams and incinerators are very controversial matters and it is important, I believe, that the public knows what we are doing here on the floor today to their rights.

Mr. Speaker I yield back the balance of my time.

Mr. POMBO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in conclusion, I appreciate the gentleman working with me on this particular amendment, but again I would say that in regard to his final comments there is nothing in this bill that eviscerates, guts, dissects or any other thing our Nation's environmental laws. All it does is it makes the system more efficient by reducing the number of alternatives that have to be looked at on a renewable energy project.

If somebody wants to build a garbage burning incinerator in the middle of a national park, we both know that the answer is no before they even apply for a permit. But I guess trying to scare people on this tries to make things work.

Mr. Speaker, I yield back the balance my time.

The SPEAKER pro tempore. All time having been yielded, pursuant to House Resolution 672, the previous question is ordered on the bill and on the further amendment by the gentleman from California (Mr. POMBO).

The question is on the amendment offered by the gentleman from California (Mr. POMBO).

The amendment was agreed to.

The SPEAKER pro tempore. The question is on engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. RAHALL. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

GENERAL LEAVE

Mr. POMBO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 4513.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

ENERGY POLICY ACT OF 2004

Mr. HALL. Mr. Speaker, pursuant to House Resolution 671, I call up the bill (H.R. 4503) to enhance energy conservation and research and development, to provide for security and diversity in the energy supply for the American people, and for other purposes.

The Clerk read the title of the bill.

The text of H.R. 4503 is as follows:

H.R. 4503

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) **SHORT TITLE.**—This Act may be cited as the “Energy Policy Act of 2004”.

(b) **TABLE OF CONTENTS.**—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—ENERGY EFFICIENCY**Subtitle A—Federal Programs**

- Sec. 101. Energy and water saving measures in congressional buildings.
 Sec. 102. Energy management requirements.
 Sec. 103. Energy use measurement and accountability.
 Sec. 104. Procurement of energy efficient products.
 Sec. 105. Energy Savings Performance Contracts.
 Sec. 106. Energy Savings Performance Contracts pilot program for non-building applications.
 Sec. 107. Voluntary commitments to reduce industrial energy intensity.
 Sec. 108. Advanced Building Efficiency Testbed.
 Sec. 109. Federal building performance standards.
 Sec. 110. Increased use of recovered mineral component in Federally funded projects involving procurement of cement or concrete.

Subtitle B—Energy Assistance and State Programs

- Sec. 121. Low income home energy assistance program.
 Sec. 122. Weatherization assistance.
 Sec. 123. State energy programs.
 Sec. 124. Energy efficient appliance rebate programs.
 Sec. 125. Energy efficient public buildings.
 Sec. 126. Low income community energy efficiency pilot program.

Subtitle C—Energy Efficient Products

- Sec. 131. Energy Star Program.
 Sec. 132. HVAC maintenance consumer education program.
 Sec. 133. Energy conservation standards for additional products.
 Sec. 134. Energy labeling.

Subtitle D—Public housing

- Sec. 141. Capacity building for energy-efficient, affordable housing.
 Sec. 142. Increase of cdbg public services cap for energy conservation and efficiency activities.
 Sec. 143. FHA mortgage insurance incentives for energy efficient housing.
 Sec. 144. Public housing capital fund.
 Sec. 145. Grants for energy-conserving improvements for assisted housing.
 Sec. 146. North American Development Bank.
 Sec. 147. Energy-efficient appliances.
 Sec. 148. Energy efficiency standards.
 Sec. 149. Energy strategy for HUD.

TITLE II—RENEWABLE ENERGY**Subtitle A—General Provisions**

- Sec. 201. Assessment of renewable energy resources.
 Sec. 202. Renewable energy production incentive.
 Sec. 203. Federal purchase requirement.
 Sec. 204. Insular areas energy security.
 Sec. 205. Use of photovoltaic energy in public buildings.
 Sec. 206. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, petroleum-based product substitutes, and other commercial purposes.
 Sec. 207. Biobased products.

Subtitle B—Geothermal Energy

- Sec. 211. Short title.

- Sec. 212. Competitive lease sale requirements.

- Sec. 213. Direct use.

- Sec. 214. Royalties and near-term production incentives.

- Sec. 215. Geothermal leasing and permitting on Federal lands.

- Sec. 216. Review and report to Congress.

- Sec. 217. Reimbursement for costs of NEPA analyses, documentation, and studies.

- Sec. 218. Assessment of Geothermal energy potential.

- Sec. 219. Cooperative or Unit plans.

- Sec. 220. Royalty on byproducts.

- Sec. 221. Repeal of authorities of Secretary to readjust terms, conditions, rentals, and royalties.

- Sec. 222. Crediting of rental toward royalty.

- Sec. 223. Lease duration and work commitment requirements.

- Sec. 224. Advanced royalties required for suspension of production.

- Sec. 225. Annual rental.

- Sec. 226. Leasing and permitting on Federal lands withdrawn for military purposes.

- Sec. 227. Technical amendments.

Subtitle C—Hydroelectric**PART I—ALTERNATIVE CONDITIONS**

- Sec. 231. Alternative conditions and fishways.

PART II—ADDITIONAL HYDROPOWER

- Sec. 241. Hydroelectric production incentives.

- Sec. 242. Hydroelectric efficiency improvement.

- Sec. 243. Small hydroelectric power projects.

- Sec. 244. Increased hydroelectric generation at existing Federal facilities.

- Sec. 245. Shift of project loads to off-peak periods.

- Sec. 246. Corps of Engineers hydropower operation and maintenance funding.

- Sec. 247. Limitation on certain charges assessed to the flint creek project, Montana.

- Sec. 248. Reinstatement and transfer.

TITLE III—OIL AND GAS**Subtitle A—Petroleum Reserve and Home Heating Oil**

- Sec. 301. Permanent authority to operate the Strategic Petroleum Reserve and other energy programs.

- Sec. 302. National Oilheat Research Alliance.

Subtitle B—Production Incentives

- Sec. 311. Definition of Secretary.

- Sec. 312. Program on oil and gas royalties in-kind.

- Sec. 313. Marginal property production incentives.

- Sec. 314. Incentives for natural gas production from deep wells in the shallow waters of the Gulf of Mexico.

- Sec. 315. Royalty Relief for deep water production.

- Sec. 316. Alaska offshore royalty suspension.

- Sec. 317. Oil and gas leasing in the National Petroleum Reserve in Alaska.

- Sec. 318. Orphaned, abandoned, or idled wells on Federal land.

- Sec. 319. Combined hydrocarbon leasing.

- Sec. 320. Liquefied natural gas.

- Sec. 321. Alternate energy-related uses on the outer Continental Shelf.

- Sec. 322. Preservation of geological and geophysical data.

- Sec. 323. Oil and gas lease acreage limitations.

- Sec. 324. Assessment of dependence of State of Hawaii on oil.

- Sec. 325. Deadline for decision on appeals of consistency determination under the Coastal Zone Management Act of 1972.

- Sec. 326. Reimbursement for costs of NEPA analyses, documentation, and studies.

- Sec. 327. Hydraulic fracturing.

- Sec. 328. Oil and gas exploration and production defined.

- Sec. 329. Outer Continental Shelf provisions.

- Sec. 330. Appeals relating to pipeline construction or offshore mineral development projects.

- Sec. 331. Bilateral international oil supply agreements.

- Sec. 332. Natural gas market reform.

- Sec. 333. Natural gas market transparency.

Subtitle C—Access to Federal Land

- Sec. 341. Office of Federal Energy Project Coordination.

- Sec. 342. Federal onshore oil and gas leasing and permitting practices.

- Sec. 343. Management of Federal oil and gas leasing programs.

- Sec. 344. Consultation regarding oil and gas leasing on public land.

- Sec. 345. Estimates of oil and gas resources underlying onshore Federal land.

- Sec. 346. Compliance with executive order 13211; actions concerning regulations that significantly affect energy supply, distribution, or use.

- Sec. 347. Pilot Project to improve Federal permit coordination.

- Sec. 348. Deadline for consideration of applications for permits.

- Sec. 349. Clarification of fair market rental value determinations for public land and Forest Service rights-of-way.

- Sec. 350. Energy facility rights-of-way and corridors on Federal land.

- Sec. 351. Consultation regarding energy rights-of-way on public land.

- Sec. 352. Renewable energy on Federal land.

- Sec. 353. Electricity transmission line right-of-way, Cleveland National Forest and adjacent public land, California.

- Sec. 354. Sense of Congress regarding development of MINERALS under Padre Island National Seashore.

- Sec. 355. Encouraging prohibition of offshore Drilling in the Great Lakes.

- Sec. 356. Finger Lakes National Forest withdrawal.

- Sec. 357. Study on lease exchanges in the rocky mountain front.

- Sec. 358. Federal coalbed methane regulation.

- Sec. 359. Livingston parish mineral rights transfer.

Subtitle D—Alaska Natural Gas Pipeline

- Sec. 371. Short title.

- Sec. 372. Definitions.

- Sec. 373. Issuance of certificate of public convenience and necessity.

- Sec. 374. Environmental reviews.

- Sec. 375. Pipeline expansion.

- Sec. 376. Federal Coordinator.

- Sec. 377. Judicial review.

- Sec. 378. State jurisdiction over in-State delivery of natural gas.

- Sec. 379. Study of alternative means of construction.

- Sec. 380. Clarification of angta status and authorities.

- Sec. 381. Sense of Congress concerning use of steel manufactured in North America negotiation of a project labor Agreement.

- Sec. 382. Sense of Congress and study concerning participation by small business concerns.

- Sec. 383. Alaska pipeline construction training Program.
- Sec. 384. Sense of Congress concerning natural gas demand.
- Sec. 385. Sense of Congress concerning Alaskan ownership.
- Sec. 386. Loan guarantees.
- TITLE IV—COAL
- Subtitle A—Clean Coal Power Initiative
- Sec. 401. Authorization of appropriations.
- Sec. 402. Project criteria.
- Sec. 403. Report.
- Sec. 404. Clean coal centers of excellence.
- Subtitle B—Clean Power Projects
- Sec. 411. Coal technology loan.
- Sec. 412. Coal gasification.
- Sec. 413. Integrated gasification combined cycle technology.
- Sec. 414. Petroleum coke gasification.
- Sec. 415. Integrated coal/renewable energy system.
- Sec. 416. Electron scrubbing demonstration.
- Subtitle C—Federal Coal Leases
- Sec. 421. Repeal of the 160-acre limitation for coal leases.
- Sec. 422. Mining plans.
- Sec. 423. Payment of advance royalties under coal leases.
- Sec. 424. Elimination of deadline for submission of coal lease operation and reclamation plan.
- Sec. 425. Amendment relating to financial assurances with respect to bonus bids.
- Sec. 426. Inventory requirement.
- Sec. 427. Application of amendments.
- Subtitle D—Coal and Related Programs
- Sec. 441. Clean air coal program.
- TITLE V—INDIAN ENERGY
- Sec. 501. Short title.
- Sec. 502. Office of Indian Energy Policy and Programs.
- Sec. 503. Indian energy.
- Sec. 504. Four corners transmission line project.
- Sec. 505. Energy efficiency in federally assisted housing.
- Sec. 506. Consultation with Indian tribes.
- TITLE VI—NUCLEAR MATTERS
- Subtitle A—Price-Anderson Act Amendments
- Sec. 601. Short title.
- Sec. 602. Extension of indemnification authority.
- Sec. 603. Maximum assessment.
- Sec. 604. Department of energy liability limit.
- Sec. 605. Incidents outside the United States.
- Sec. 606. Reports.
- Sec. 607. Inflation adjustment.
- Sec. 608. Treatment of modular reactors.
- Sec. 609. Applicability.
- Sec. 610. Prohibition on assumption by United States government of liability for certain foreign incidents.
- Sec. 611. Civil penalties.
- Subtitle B—General Nuclear Matters
- Sec. 621. Licenses.
- Sec. 622. NRC training program.
- Sec. 623. Cost recovery from government agencies.
- Sec. 624. Elimination of pension offset.
- Sec. 625. Antitrust review.
- Sec. 626. Decommissioning.
- Sec. 627. Limitation on legal fee reimbursement.
- Sec. 628. Decommissioning pilot program.
- Sec. 629. Report on feasibility of developing commercial nuclear energy generation facilities at existing Department of Energy sites.
- Sec. 630. Uranium sales.
- Sec. 631. Cooperative research and development and special demonstration projects for the uranium mining industry.
- Sec. 632. Whistleblower protection.
- Sec. 633. Medical isotope production.
- Sec. 634. Fernald byproduct material.
- Sec. 635. Safe disposal of greater-than-class c radioactive waste.
- Sec. 636. Prohibition on nuclear exports to countries that sponsor terrorism.
- Sec. 637. Uranium enrichment facilities.
- Sec. 638. National uranium stockpile.
- Subtitle C—Advanced Reactor Hydrogen Cogeneration Project
- Sec. 651. Project establishment.
- Sec. 652. Project definition.
- Sec. 653. Project management.
- Sec. 654. Project requirements.
- Sec. 655. Authorization of appropriations.
- Subtitle D—Nuclear Security
- Sec. 661. Nuclear facility threats.
- Sec. 662. Fingerprinting for criminal history record checks.
- Sec. 663. Use of firearms by security personnel of licensees and certificate holders of the commission.
- Sec. 664. Unauthorized introduction of dangerous weapons.
- Sec. 665. Sabotage of nuclear facilities or fuel.
- Sec. 666. Secure transfer of nuclear materials.
- Sec. 667. Department of homeland security consultation.
- Sec. 668. Authorization of appropriations.
- TITLE VII—VEHICLES AND FUELS
- Subtitle A—Existing Programs
- Sec. 701. Use of alternative fuels by dual-fueled vehicles.
- Sec. 702. Neighborhood electric vehicles.
- Sec. 703. Credits for medium and heavy duty dedicated vehicles.
- Sec. 704. Incremental cost allocation.
- Sec. 705. Alternative compliance and flexibility.
- Sec. 706. Review of Energy Policy Act of 1992 programs.
- Sec. 707. Report concerning compliance with alternative fueled vehicle purchasing requirements.
- Subtitle B—Hybrid Vehicles, Advanced Vehicles, and Fuel Cell Buses
- PART I—HYBRID VEHICLES
- Sec. 711. Hybrid vehicles.
- PART II—ADVANCED VEHICLES
- Sec. 721. Definitions.
- Sec. 722. Pilot program.
- Sec. 723. Reports to Congress.
- Sec. 724. Authorization of appropriations.
- PART III—FUEL CELL BUSES
- Sec. 731. Fuel cell transit bus demonstration.
- Subtitle C—Clean School Buses
- Sec. 741. Definitions.
- Sec. 742. Program for replacement of certain school buses with clean school buses.
- Sec. 743. Diesel retrofit program.
- Sec. 744. Fuel cell school buses.
- Subtitle D—Miscellaneous
- Sec. 751. Railroad efficiency.
- Sec. 752. Mobile emission reductions trading and crediting.
- Sec. 753. Aviation fuel conservation and emissions.
- Sec. 754. Diesel fueled vehicles.
- Sec. 755. Conserve by Bicycling Program.
- Sec. 756. Reduction of engine idling of heavy-duty vehicles.
- Sec. 757. Biodiesel engine testing program.
- Sec. 758. High occupancy vehicle exception.
- Subtitle E—Automobile Efficiency
- Sec. 771. Authorization of appropriations for implementation and enforcement of fuel economy standards.
- Sec. 772. Revised considerations for decisions on maximum feasible average fuel economy.
- Sec. 773. Extension of maximum fuel economy increase for alternative fueled vehicles.
- Sec. 774. Study of feasibility and effects of reducing use of fuel for automobiles.
- TITLE VIII—HYDROGEN
- Sec. 801. Definitions.
- Sec. 802. Plan.
- Sec. 803. Programs.
- Sec. 804. Interagency task force.
- Sec. 805. Advisory Committee.
- Sec. 806. External review.
- Sec. 807. Miscellaneous provisions.
- Sec. 808. Savings clause.
- Sec. 809. Authorization of appropriations.
- TITLE IX—RESEARCH AND DEVELOPMENT
- Sec. 901. Goals.
- Sec. 902. Definitions.
- Subtitle A—Energy Efficiency
- Sec. 904. Energy efficiency.
- Sec. 905. Next generation lighting initiative.
- Sec. 906. National building performance initiative.
- Sec. 907. Secondary electric vehicle battery use program.
- Sec. 908. Energy efficiency science initiative.
- Sec. 909. Electric motor control technology.
- Sec. 910. Advanced energy technology transfer centers.
- Subtitle B—Distributed Energy and Electric Energy Systems
- Sec. 911. Distributed energy and electric energy systems.
- Sec. 912. Hybrid distributed power systems.
- Sec. 913. High power density industry program.
- Sec. 914. Micro-cogeneration energy technology.
- Sec. 915. Distributed energy technology demonstration program.
- Sec. 916. Reciprocating power.
- Subtitle C—Renewable Energy
- Sec. 918. Renewable energy.
- Sec. 919. Bioenergy programs.
- Sec. 920. Concentrating solar power research and development Program.
- Sec. 921. Miscellaneous projects.
- Sec. 922. Renewable energy in public buildings.
- Sec. 923. Study of marine renewable energy options.
- Subtitle D—Nuclear Energy
- Sec. 924. Nuclear energy.
- Sec. 925. Nuclear energy research and development programs.
- Sec. 926. Advanced fuel cycle Initiative.
- Sec. 927. University nuclear science and engineering support.
- Sec. 928. Security of reactor designs.
- Sec. 929. Alternatives to industrial radioactive sources.
- Sec. 930. Geological isolation of spent fuel.
- Subtitle E—Fossil Energy
- PART I—RESEARCH PROGRAMS
- Sec. 931. Fossil energy.
- Sec. 932. Oil and gas research programs.
- Sec. 933. Technology transfer.
- Sec. 934. Research and development for coal mining technologies.
- Sec. 935. Coal and related technologies Program.
- Sec. 936. Complex Well Technology Testing Facility.

- Sec. 937. Fischer-Tropsch diesel fuel loan guarantee Program.
- PART II—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES
- Sec. 941. Program authority.
- Sec. 942. Ultra-deepwater Program.
- Sec. 943. Unconventional natural gas and other petroleum resources Program.
- Sec. 944. Additional requirements for awards.
- Sec. 945. Advisory committees.
- Sec. 946. Limits on participation.
- Sec. 947. Sunset.
- Sec. 948. Definitions.
- Sec. 949. Funding.
- Subtitle F—Science
- Sec. 951. Science.
- Sec. 952. United States participation in ITER.
- Sec. 953. Plan for Fusion Energy Sciences Program.
- Sec. 954. Spallation Neutron Source.
- Sec. 955. Support for science and energy facilities and infrastructure.
- Sec. 956. Catalysis Research and development Program.
- Sec. 957. Nanoscale Science and Engineering Research, development, demonstration, and commercial application.
- Sec. 958. Advanced scientific computing for energy missions.
- Sec. 959. Genomes to Life Program.
- Sec. 960. Fission and fusion energy materials research Program.
- Sec. 961. Energy-Water Supply Program.
- Sec. 962. Nitrogen fixation.
- Subtitle G—Energy and Environment
- Sec. 964. United States-Mexico energy Technology cooperation.
- Sec. 965. Western Hemisphere energy cooperation.
- Sec. 966. Waste reduction and use of alternatives.
- Sec. 967. Report on fuel cell test Center.
- Sec. 968. Arctic Engineering Research Center.
- Sec. 969. Barrow Geophysical Research Facility.
- Sec. 970. Western Michigan demonstration project.
- Subtitle H—Management
- Sec. 971. Availability of funds.
- Sec. 972. Cost sharing.
- Sec. 973. Merit review of proposals.
- Sec. 974. External technical review of departmental programs.
- Sec. 975. Improved coordination of Technology transfer activities.
- Sec. 976. Federal laboratory educational partners.
- Sec. 977. Interagency cooperation.
- Sec. 978. Technology Infrastructure Program.
- Sec. 979. Reprogramming.
- Sec. 980. Construction with other laws.
- Sec. 981. Report on research and development Program evaluation methodologies.
- Sec. 982. Department of Energy Science and Technology Scholarship Program.
- Sec. 983. Report on equal employment opportunity practices.
- Sec. 984. Small business advocacy and assistance.
- Sec. 985. Report on mobility of scientific and technical personnel.
- Sec. 986. National Academy of Sciences report.
- Sec. 987. Outreach.
- Sec. 988. Competitive award of management contracts.
- Sec. 989. Educational programs in science and mathematics.
- TITLE X—DEPARTMENT OF ENERGY MANAGEMENT
- Sec. 1001. Additional Assistant Secretary position.
- Sec. 1002. Other transactions authority.
- TITLE XI—PERSONNEL AND TRAINING
- Sec. 1101. Training guidelines for electric energy industry personnel.
- Sec. 1102. Improved access to energy-related scientific and technical careers.
- Sec. 1103. National Power Plant Operations Technology and Education Center.
- Sec. 1104. International energy training.
- TITLE XII—ELECTRICITY
- Sec. 1201. Short title.
- Subtitle A—Reliability Standards
- Sec. 1211. Electric reliability standards.
- Subtitle B—Transmission Infrastructure Modernization
- Sec. 1221. Siting of interstate electric transmission facilities.
- Sec. 1222. Third-party finance.
- Sec. 1223. Transmission system monitoring.
- Sec. 1224. Advanced transmission technologies.
- Sec. 1225. Electric transmission and distribution programs.
- Sec. 1226. Advanced Power System Technology Incentive Program.
- Sec. 1227. Office of Electric Transmission and Distribution.
- Subtitle C—Transmission Operation Improvements
- Sec. 1231. Open nondiscriminatory access.
- Sec. 1232. Sense of Congress on Regional Transmission Organizations.
- Sec. 1233. Regional Transmission Organization applications progress report.
- Sec. 1234. Federal utility participation in Regional Transmission Organizations.
- Sec. 1235. Standard market design.
- Sec. 1236. Native load service obligation.
- Sec. 1237. Study on the benefits of economic dispatch.
- Subtitle D—Transmission Rate Reform
- Sec. 1241. Transmission infrastructure investment.
- Sec. 1242. Voluntary transmission pricing plans.
- Subtitle E—Amendments to PURPA
- Sec. 1251. Net metering and additional standards.
- Sec. 1252. Smart metering.
- Sec. 1253. Cogeneration and small power production purchase and sale requirements.
- Subtitle F—Repeal of PUHCA
- Sec. 1261. Short title.
- Sec. 1262. Definitions.
- Sec. 1263. Repeal of the Public Utility Holding Company Act of 1935.
- Sec. 1264. Federal access to books and records.
- Sec. 1265. State access to books and records.
- Sec. 1266. Exemption authority.
- Sec. 1267. Affiliate transactions.
- Sec. 1268. Applicability.
- Sec. 1269. Effect on other regulations.
- Sec. 1270. Enforcement.
- Sec. 1271. Savings provisions.
- Sec. 1272. Implementation.
- Sec. 1273. Transfer of resources.
- Sec. 1274. Effective date.
- Sec. 1275. Service allocation.
- Sec. 1276. Authorization of appropriations.
- Sec. 1277. Conforming amendments to the Federal Power Act.
- Subtitle G—Market Transparency, Enforcement, and Consumer Protection
- Sec. 1281. Market transparency rules.
- Sec. 1282. Market manipulation.
- Sec. 1283. Enforcement.
- Sec. 1284. Refund effective date.
- Sec. 1285. Refund authority.
- Sec. 1286. Sanctity of contract.
- Sec. 1287. Consumer privacy and unfair trade practices.
- Subtitle H—Merger Reform
- Sec. 1291. Merger review reform and accountability.
- Sec. 1292. Electric utility mergers.
- Subtitle I—Definitions
- Sec. 1295. Definitions.
- Subtitle J—Technical and Conforming Amendments
- Sec. 1297. Conforming amendments.
- TITLE XIII—ENERGY TAX INCENTIVES
- Sec. 1300. Short title; amendment of 1986 Code.
- Subtitle A—Conservation
- PART I—RESIDENTIAL AND BUSINESS PROPERTY
- Sec. 1301. Credit for residential energy efficient property.
- Sec. 1302. Extension and expansion of credit for electricity produced from certain renewable resources.
- Sec. 1303. Credit for business installation of qualified fuel cells.
- Sec. 1304. Credit for energy efficiency improvements to existing homes.
- Sec. 1305. Credit for construction of new energy efficient homes.
- Sec. 1306. Energy credit for combined heat and power system property.
- Sec. 1307. Credit for energy efficient appliances.
- Sec. 1308. Energy efficient commercial buildings deduction.
- Sec. 1309. Three-year applicable recovery period for depreciation of qualified energy management devices.
- Sec. 1310. Credit for production from advanced nuclear power facilities.
- PART II—FUELS AND ALTERNATIVE MOTOR VEHICLES
- Sec. 1311. Repeal of 4.3-cent motor fuel excise taxes on railroads and inland waterway transportation which remain in general Fund.
- Sec. 1312. Reduced motor fuel excise tax on certain mixtures of diesel fuel.
- Sec. 1313. Small ethanol producer credit.
- Sec. 1314. Incentives for biodiesel.
- Sec. 1315. Alcohol fuel and biodiesel mixtures excise tax credit.
- Sec. 1316. Nonapplication of export exemption to delivery of fuel to motor vehicles removed from United States.
- Sec. 1317. Repeal of phaseouts for qualified electric vehicle credit and deduction for clean fuel-vehicles.
- Sec. 1318. Alternative motor vehicle credit.
- Sec. 1319. Modifications of deduction for certain refueling property.
- Subtitle B—Reliability
- Sec. 1321. Natural gas gathering lines treated as 7-YEAR property.
- Sec. 1322. Natural gas distribution lines treated as 15-year property.
- Sec. 1323. Electric transmission property treated as 15-year property.
- Sec. 1324. Expensing of capital costs incurred in complying with Environmental Protection Agency sulfur regulations.
- Sec. 1325. Credit for production of low sulfur diesel fuel.
- Sec. 1326. Determination of small refiner exception to oil depletion deduction.
- Sec. 1327. Sales or dispositions to implement Federal Energy Regulatory Commission or State electric restructuring policy.

- Sec. 1328. Modifications to special rules for nuclear decommissioning costs.
 Sec. 1329. Treatment of certain income of cooperatives.
 Sec. 1330. Arbitrage rules not to apply to prepayments for natural gas.

Subtitle C—Production

PART I—OIL AND GAS PROVISIONS

- Sec. 1341. Oil and gas from marginal wells.
 Sec. 1342. Temporary suspension of limitation based on 65 percent of taxable income and extension of suspension of taxable income limit with respect to marginal production.
 Sec. 1343. Amortization of delay rental payments.
 Sec. 1344. Amortization of geological and geophysical expenditures.
 Sec. 1345. Extension and modification of credit for producing fuel from a nonconventional source.

PART II—ALTERNATIVE MINIMUM TAX PROVISIONS

- Sec. 1346. New nonrefundable personal credits allowed against regular and minimum taxes.
 Sec. 1347. Business related energy credits allowed against regular and minimum tax.
 Sec. 1348. Temporary repeal of alternative minimum tax preference for intangible drilling costs.

PART III—CLEAN COAL INCENTIVES

- Sec. 1351. Credit for clean coal technology units.
 Sec. 1352. Expansion of amortization for certain pollution control facilities.
 Sec. 1353. 5-year recovery period for eligible integrated gasification combined cycle technology unit eligible for credit.

PART IV—HIGH VOLUME NATURAL GAS PROVISIONS

- Sec. 1355. High volume natural gas pipe treated as 7-year property.
 Sec. 1356. Extension of enhanced oil recovery credit to high volume natural gas facilities.

Subtitle D—Additional Provisions

- Sec. 1361. Extension of accelerated depreciation benefit for energy-related businesses on Indian reservations.
 Sec. 1362. Payment of dividends on stock of cooperatives without reducing patronage dividends.
 Sec. 1363. Distributions from publicly traded partnerships treated as qualifying income of regulated investment companies.
 Sec. 1364. Ceiling fans.
 Sec. 1365. Certain steam generators, and certain reactor vessel heads, used in nuclear facilities.
 Sec. 1366. Brownfields demonstration program for qualified green building and sustainable design projects.

TITLE XIV—MISCELLANEOUS

Subtitle A—Rural and Remote Electricity Construction

- Sec. 1401. Denali Commission programs.
 Sec. 1402. Rural and remote community assistance.

Subtitle B—Coastal Programs

- Sec. 1411. Royalty payments under leases under the Outer Continental Shelf Lands Act.
 Sec. 1412. Domestic offshore energy reinvestment.

- Subtitle C—Reforms to the Board of Directors of the Tennessee Valley Authority
 Sec. 1431. Change in composition, operation, and duties of the Board of Directors of the Tennessee Valley Authority.
 Sec. 1432. Change in manner of appointment of staff.

- Sec. 1433. Conforming amendments.
 Sec. 1434. Appointments; effective date; transition.

Subtitle D—Other Provisions

- Sec. 1441. Continuation of transmission security order.
 Sec. 1442. Review of agency determinations.
 Sec. 1443. Attainment dates for downwind ozone nonattainment areas.
 Sec. 1444. Energy production incentives.
 Sec. 1445. Use of granular mine tailings.

TITLE XV—ETHANOL AND MOTOR FUELS
 Subtitle A—General Provisions

- Sec. 1501. Renewable content of motor vehicle fuel.
 Sec. 1502. Fuels safe harbor.
 Sec. 1503. Findings and MTBE transition assistance.
 Sec. 1504. Use of MTBE.
 Sec. 1505. National Academy of Sciences review and presidential determination.
 Sec. 1506. Elimination of oxygen content requirement for reformulated gasoline.
 Sec. 1507. Analyses of motor vehicle fuel changes.
 Sec. 1508. Data collection.
 Sec. 1509. Reducing the proliferation of State fuel controls.
 Sec. 1510. Fuel system requirements harmonization study.
 Sec. 1511. Commercial byproducts from municipal solid waste and cellulosic biomass loan guarantee program.
 Sec. 1512. Resource Center.
 Sec. 1513. Cellulosic biomass and waste-derived ethanol conversion assistance.
 Sec. 1514. Blending of compliant reformulated gasolines.

Subtitle B—Underground Storage Tank Compliance

- Sec. 1521. Short title.
 Sec. 1522. Leaking underground storage tanks.
 Sec. 1523. Inspection of underground storage tanks.
 Sec. 1524. Operator training.
 Sec. 1525. Remediation from oxygenated fuel additives.
 Sec. 1526. Release prevention, compliance, and enforcement.
 Sec. 1527. Delivery prohibition.
 Sec. 1528. Federal facilities.
 Sec. 1529. Tanks on Tribal lands.
 Sec. 1530. Future release containment technology.
 Sec. 1531. Authorization of appropriations.
 Sec. 1532. Conforming amendments.
 Sec. 1533. Technical amendments.

TITLE XVI—STUDIES

- Sec. 1601. Study on inventory of petroleum and natural gas storage.
 Sec. 1602. Natural gas supply shortage report.
 Sec. 1603. Split-estate Federal oil and gas leasing and development practices.
 Sec. 1604. Resolution of Federal resource development conflicts in the Powder River Basin.
 Sec. 1605. Study of energy efficiency standards.
 Sec. 1606. Telecommuting study.
 Sec. 1607. Liheap report.

- Sec. 1608. Oil bypass filtration technology.
 Sec. 1609. Total integrated thermal systems.
 Sec. 1610. University collaboration.
 Sec. 1611. Reliability and consumer protection assessment.

TITLE I—ENERGY EFFICIENCY

Subtitle A—Federal Programs

SEC. 101. ENERGY AND WATER SAVING MEASURES IN CONGRESSIONAL BUILDINGS.

(a) IN GENERAL.—Part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.) is amended by adding at the end the following:

“SEC. 552. ENERGY AND WATER SAVINGS MEASURES IN CONGRESSIONAL BUILDINGS.

“(a) IN GENERAL.—The Architect of the Capitol—

“(1) shall develop, update, and implement a cost-effective energy conservation and management plan (referred to in this section as the ‘plan’) for all facilities administered by Congress (referred to in this section as ‘congressional buildings’) to meet the energy performance requirements for Federal buildings established under section 543(a)(1); and

“(2) shall submit the plan to Congress, not later than 180 days after the date of enactment of this section.

“(b) PLAN REQUIREMENTS.—The plan shall include—

“(1) a description of the life cycle cost analysis used to determine the cost-effectiveness of proposed energy efficiency projects;

“(2) a schedule of energy surveys to ensure complete surveys of all congressional buildings every 5 years to determine the cost and payback period of energy and water conservation measures;

“(3) a strategy for installation of life cycle cost-effective energy and water conservation measures;

“(4) the results of a study of the costs and benefits of installation of submetering in congressional buildings; and

“(5) information packages and ‘how-to’ guides for each Member and employing authority of Congress that detail simple, cost-effective methods to save energy and taxpayer dollars in the workplace.

“(c) ANNUAL REPORT.—The Architect of the Capitol shall submit to Congress annually a report on congressional energy management and conservation programs required under this section that describes in detail—

“(1) energy expenditures and savings estimates for each facility;

“(2) energy management and conservation projects; and

“(3) future priorities to ensure compliance with this section.”.

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of the National Energy Conservation Policy Act is amended by adding at the end of the items relating to part 3 of title V the following new item:

“Sec. 552. Energy and water savings measures in congressional buildings.”.

(c) REPEAL.—Section 310 of the Legislative Branch Appropriations Act, 1999 (2 U.S.C. 1815), is repealed.

(d) ENERGY INFRASTRUCTURE.—The Architect of the Capitol, building on the Master Plan Study completed in July 2000, shall commission a study to evaluate the energy infrastructure of the Capital Complex to determine how the infrastructure could be augmented to become more energy efficient, using unconventional and renewable energy resources, in a way that would enable the Complex to have reliable utility service in the event of power fluctuations, shortages, or outages.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to

the Architect of the Capitol to carry out subsection (d), \$2,000,000 for each of fiscal years 2004 through 2008.

SEC. 102. ENERGY MANAGEMENT REQUIREMENTS.

(a) ENERGY REDUCTION GOALS.—

(1) AMENDMENT.—Section 543(a)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)(1)) is amended by striking “its Federal buildings so that” and all that follows through the end and inserting “the Federal buildings of the agency (including each industrial or laboratory facility) so that the energy consumption per gross square foot of the Federal buildings of the agency in fiscal years 2004 through 2013 is reduced, as compared with the energy consumption per gross square foot of the Federal buildings of the agency in fiscal year 2001, by the percentage specified in the following table:

Fiscal Year	Percentage reduction
2004	2
2005	4
2006	6
2007	8
2008	10
2009	12
2010	14
2011	16
2012	18
2013	20.

(2) REPORTING BASELINE.—The energy reduction goals and baseline established in paragraph (1) of section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)(1)), as amended by this subsection, supersede all previous goals and baselines under such paragraph, and related reporting requirements.

(b) REVIEW AND REVISION OF ENERGY PERFORMANCE REQUIREMENT.—Section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)) is further amended by adding at the end the following:

“(3) Not later than December 31, 2012, the Secretary shall review the results of the implementation of the energy performance requirement established under paragraph (1) and submit to Congress recommendations concerning energy performance requirements for fiscal years 2014 through 2023.”.

(c) EXCLUSIONS.—Section 543(c)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)(1)) is amended by striking “An agency may exclude” and all that follows through the end and inserting “(A) An agency may exclude, from the energy performance requirement for a fiscal year established under subsection (a) and the energy management requirement established under subsection (b), any Federal building or collection of Federal buildings, if the head of the agency finds that—

“(i) compliance with those requirements would be impracticable;

“(ii) the agency has completed and submitted all federally required energy management reports;

“(iii) the agency has achieved compliance with the energy efficiency requirements of this Act, the Energy Policy Act of 1992, Executive orders, and other Federal law; and

“(iv) the agency has implemented all practicable, life cycle cost-effective projects with respect to the Federal building or collection of Federal buildings to be excluded.

“(B) A finding of impracticability under subparagraph (A)(i) shall be based on—

“(i) the energy intensiveness of activities carried out in the Federal building or collection of Federal buildings; or

“(ii) the fact that the Federal building or collection of Federal buildings is used in the performance of a national security function.”.

(d) REVIEW BY SECRETARY.—Section 543(c)(2) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)(2)) is amended—

(1) by striking “impracticability standards” and inserting “standards for exclusion”;

(2) by striking “a finding of impracticability” and inserting “the exclusion”; and

(3) by striking “energy consumption requirements” and inserting “requirements of subsections (a) and (b)(1)”.

(e) CRITERIA.—Section 543(c) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)) is further amended by adding at the end the following:

“(3) Not later than 180 days after the date of enactment of this paragraph, the Secretary shall issue guidelines that establish criteria for exclusions under paragraph (1).”.

(f) RETENTION OF ENERGY AND WATER SAVINGS.—Section 546 of the National Energy Conservation Policy Act (42 U.S.C. 8256) is amended by adding at the end the following new subsection:

“(e) RETENTION OF ENERGY AND WATER SAVINGS.—An agency may retain any funds appropriated to that agency for energy expenditures, water expenditures, or wastewater treatment expenditures, at buildings subject to the requirements of section 543(a) and (b), that are not made because of energy savings or water savings. Except as otherwise provided by law, such funds may be used only for energy efficiency, water conservation, or unconventional and renewable energy resources projects.”.

(g) REPORTS.—Section 548(b) of the National Energy Conservation Policy Act (42 U.S.C. 8258(b)) is amended—

(1) in the subsection heading, by inserting “THE PRESIDENT AND” before “CONGRESS”; and

(2) by inserting “President and” before “Congress”.

(h) CONFORMING AMENDMENT.—Section 550(d) of the National Energy Conservation Policy Act (42 U.S.C. 8258b(d)) is amended in the second sentence by striking “the 20 percent reduction goal established under section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)).” and inserting “each of the energy reduction goals established under section 543(a).”.

SEC. 103. ENERGY USE MEASUREMENT AND ACCOUNTABILITY.

Section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253) is further amended by adding at the end the following:

“(e) METERING OF ENERGY USE.—

“(1) DEADLINE.—By October 1, 2010, in accordance with guidelines established by the Secretary under paragraph (2), all Federal buildings shall, for the purposes of efficient use of energy and reduction in the cost of electricity used in such buildings, be metered or submetered. Each agency shall use, to the maximum extent practicable, advanced meters or advanced metering devices that provide data at least daily and that measure at least hourly consumption of electricity in the Federal buildings of the agency. Such data shall be incorporated into existing Federal energy tracking systems and made available to Federal facility energy managers.

“(2) GUIDELINES.—

“(A) IN GENERAL.—Not later than 180 days after the date of enactment of this subsection, the Secretary, in consultation with the Department of Defense, the General Services Administration, representatives from the metering industry, utility industry, energy services industry, energy efficiency industry, energy efficiency advocacy organizations, national laboratories, universities, and Federal facility energy managers, shall establish guidelines for agencies to carry out paragraph (1).

“(B) REQUIREMENTS FOR GUIDELINES.—The guidelines shall—

“(i) take into consideration—

“(I) the cost of metering and submetering and the reduced cost of operation and maintenance expected to result from metering and submetering;

“(II) the extent to which metering and submetering are expected to result in increased potential for energy management, increased potential for energy savings and energy efficiency improvement, and cost and energy savings due to utility contract aggregation; and

“(III) the measurement and verification protocols of the Department of Energy;

“(ii) include recommendations concerning the amount of funds and the number of trained personnel necessary to gather and use the metering information to track and reduce energy use;

“(iii) establish priorities for types and locations of buildings to be metered and submetered based on cost-effectiveness and a schedule of 1 or more dates, not later than 1 year after the date of issuance of the guidelines, on which the requirements specified in paragraph (1) shall take effect; and

“(iv) establish exclusions from the requirements specified in paragraph (1) based on the de minimis quantity of energy use of a Federal building, industrial process, or structure.

“(3) PLAN.—Not later than 6 months after the date guidelines are established under paragraph (2), in a report submitted by the agency under section 548(a), each agency shall submit to the Secretary a plan describing how the agency will implement the requirements of paragraph (1), including (A) how the agency will designate personnel primarily responsible for achieving the requirements and (B) demonstration by the agency, complete with documentation, of any finding that advanced meters or advanced metering devices, as defined in paragraph (1), are not practicable.”.

SEC. 104. PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.

(a) REQUIREMENTS.—Part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.), as amended by section 101, is amended by adding at the end the following:

“SEC. 553. FEDERAL PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.

“(a) DEFINITIONS.—In this section:

“(1) ENERGY STAR PRODUCT.—The term ‘Energy Star product’ means a product that is rated for energy efficiency under an Energy Star program.

“(2) ENERGY STAR PROGRAM.—The term ‘Energy Star program’ means the program established by section 324A of the Energy Policy and Conservation Act.

“(3) EXECUTIVE AGENCY.—The term ‘executive agency’ has the meaning given the term in section 4 of the Office of Federal Procurement Policy Act (41 U.S.C. 403).

“(4) FEMP DESIGNATED PRODUCT.—The term ‘FEMP designated product’ means a product that is designated under the Federal Energy Management Program of the Department of Energy as being among the highest 25 percent of equivalent products for energy efficiency.

“(b) PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.—

“(1) REQUIREMENT.—To meet the requirements of an executive agency for an energy consuming product, the head of the executive agency shall, except as provided in paragraph (2), procure—

“(A) an Energy Star product; or

“(B) a FEMP designated product.

“(2) EXCEPTIONS.—The head of an executive agency is not required to procure an Energy Star product or FEMP designated product under paragraph (1) if the head of the executive agency finds in writing that—

“(A) an Energy Star product or FEMP designated product is not cost-effective over the life of the product taking energy cost savings into account; or

“(B) no Energy Star product or FEMP designated product is reasonably available that meets the functional requirements of the executive agency.

“(3) PROCUREMENT PLANNING.—The head of an executive agency shall incorporate into the specifications for all procurements involving energy consuming products and systems, including guide specifications, project specifications, and construction, renovation, and services contracts that include provision of energy consuming products and systems, and into the factors for the evaluation of offers received for the procurement, criteria for energy efficiency that are consistent with the criteria used for rating Energy Star products and for rating FEMP designated products.

“(c) LISTING OF ENERGY EFFICIENT PRODUCTS IN FEDERAL CATALOGS.—Energy Star products and FEMP designated products shall be clearly identified and prominently displayed in any inventory or listing of products by the General Services Administration or the Defense Logistics Agency. The General Services Administration or the Defense Logistics Agency shall supply only Energy Star products or FEMP designated products for all product categories covered by the Energy Star program or the Federal Energy Management Program, except in cases where the agency ordering a product specifies in writing that no Energy Star product or FEMP designated product is available to meet the buyer’s functional requirements, or that no Energy Star product or FEMP designated product is cost-effective for the intended application over the life of the product, taking energy cost savings into account.

“(d) SPECIFIC PRODUCTS.—(1) In the case of electric motors of 1 to 500 horsepower, agencies shall select only premium efficient motors that meet a standard designated by the Secretary. The Secretary shall designate such a standard not later than 120 days after the date of the enactment of this section, after considering the recommendations of associated electric motor manufacturers and energy efficiency groups.

“(2) All Federal agencies are encouraged to take actions to maximize the efficiency of air conditioning and refrigeration equipment, including appropriate cleaning and maintenance, including the use of any system treatment or additive that will reduce the electricity consumed by air conditioning and refrigeration equipment. Any such treatment or additive must be—

“(A) determined by the Secretary to be effective in increasing the efficiency of air conditioning and refrigeration equipment without having an adverse impact on air conditioning performance (including cooling capacity) or equipment useful life;

“(B) determined by the Administrator of the Environmental Protection Agency to be environmentally safe; and

“(C) shown to increase seasonal energy efficiency ratio (SEER) or energy efficiency ratio (EER) when tested by the National Institute of Standards and Technology according to Department of Energy test procedures without causing any adverse impact on the system, system components, the refrigerant or lubricant, or other materials in the system.

Results of testing described in subparagraph (C) shall be published in the Federal Register for public review and comment. For purposes of this section, a hardware device or primary refrigerant shall not be considered an additive.

“(e) REGULATIONS.—Not later than 180 days after the date of the enactment of this sec-

tion, the Secretary shall issue guidelines to carry out this section.”

(b) CONFORMING AMENDMENT.—The table of contents of the National Energy Conservation Policy Act is further amended by inserting after the item relating to section 552 the following new item:

“Sec. 553. Federal procurement of energy efficient products.”

SEC. 105. ENERGY SAVINGS PERFORMANCE CONTRACTS.

(a) PERMANENT EXTENSION.—Effective September 30, 2003, section 801(c) of the National Energy Conservation Policy Act (42 U.S.C. 8287(c)) is repealed.

(b) PAYMENT OF COSTS.—Section 802 of the National Energy Conservation Policy Act (42 U.S.C. 8287a) is amended by inserting “, water, or wastewater treatment” after “payment of energy”.

(c) ENERGY SAVINGS.—Section 804(2) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(2)) is amended to read as follows:

“(2) The term ‘energy savings’ means a reduction in the cost of energy, water, or wastewater treatment, from a base cost established through a methodology set forth in the contract, used in an existing federally owned building or buildings or other federally owned facilities as a result of—

“(A) the lease or purchase of operating equipment, improvements, altered operation and maintenance, or technical services;

“(B) the increased efficient use of existing energy sources by cogeneration or heat recovery, excluding any cogeneration process for other than a federally owned building or buildings or other federally owned facilities; or

“(C) the increased efficient use of existing water sources in either interior or exterior applications.”

(d) ENERGY SAVINGS CONTRACT.—Section 804(3) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(3)) is amended to read as follows:

“(3) The terms ‘energy savings contract’ and ‘energy savings performance contract’ mean a contract that provides for the performance of services for the design, acquisition, installation, testing, and, where appropriate, operation, maintenance, and repair, of an identified energy or water conservation measure or series of measures at 1 or more locations. Such contracts shall, with respect to an agency facility that is a public building (as such term is defined in section 3301 of title 40, United States Code), be in compliance with the prospectus requirements and procedures of section 3307 of title 40, United States Code.”

(e) ENERGY OR WATER CONSERVATION MEASURE.—Section 804(4) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(4)) is amended to read as follows:

“(4) The term ‘energy or water conservation measure’ means—

“(A) an energy conservation measure, as defined in section 551; or

“(B) a water conservation measure that improves the efficiency of water use, is life-cycle cost-effective, and involves water conservation, water recycling or reuse, more efficient treatment of wastewater or stormwater, improvements in operation or maintenance efficiencies, retrofit activities, or other related activities, not at a Federal hydroelectric facility.”

(f) REVIEW.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Energy shall complete a review of the Energy Savings Performance Contract program to identify statutory, regulatory, and administrative obstacles that prevent Federal agencies from fully utilizing the program. In addition, this review shall identify all areas for increasing program flexibility

and effectiveness, including audit and measurement verification requirements, accounting for energy use in determining savings, contracting requirements, including the identification of additional qualified contractors, and energy efficiency services covered. The Secretary shall report these findings to Congress and shall implement identified administrative and regulatory changes to increase program flexibility and effectiveness to the extent that such changes are consistent with statutory authority.

(g) EXTENSION OF AUTHORITY.—Any energy savings performance contract entered into under section 801 of the National Energy Conservation Policy Act (42 U.S.C. 8287) after October 1, 2003, and before the date of enactment of this Act, shall be deemed to have been entered into pursuant to such section 801 as amended by subsection (a) of this section.

SEC. 106. ENERGY SAVINGS PERFORMANCE CONTRACTS PILOT PROGRAM FOR NON-BUILDING APPLICATIONS.

(a) IN GENERAL.—The Secretary of Defense and the heads of other interested Federal agencies are authorized to enter into up to 10 energy savings performance contracts using procedures, established under subsection (b), based on the procedures under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), for the purpose of achieving energy or water savings, secondary savings, and benefits incidental to those purposes, in nonbuilding applications. The payments to be made by the Federal Government under such contracts shall not exceed a total of \$200,000,000 for all such contracts combined.

(b) PROCEDURES.—The Secretary of Energy, in consultation with the Administrator of General Services and the Secretary of Defense, shall establish procedures based on the procedures under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), for implementing this section.

(c) DEFINITIONS.—In this section:

(1) NONBUILDING APPLICATION.—The term “nonbuilding application” means—

(A) any class of vehicles, devices, or equipment that are transportable under their own power by land, sea, or air that consume energy from any fuel source for the purpose of such transportability, or to maintain a controlled environment within such vehicle, device, or equipment; or

(B) any Federally owned equipment used to generate electricity or transport water.

(2) SECONDARY SAVINGS.—The term “secondary savings” means additional energy or cost savings that are a direct consequence of the energy or water savings that result from the financing and implementation of the energy savings performance contract, including, but not limited to, energy or cost savings that result from a reduction in the need for fuel delivery and logistical support, or the increased efficiency in the production of electricity.

(d) REPORT.—Not later than 3 years after the date of enactment of this section, the Secretary of Energy shall report to Congress on the progress and results of the projects funded pursuant to this section. Such report shall include a description of projects undertaken; the energy, water, and cost savings, secondary savings, and other benefits that resulted from such projects; and recommendations on whether the pilot program should be extended, expanded, or authorized permanently as a part of the program authorized under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.).

SEC. 107. VOLUNTARY COMMITMENTS TO REDUCE INDUSTRIAL ENERGY INTENSITY.

(a) VOLUNTARY AGREEMENTS.—The Secretary of Energy is authorized to enter into

voluntary agreements with 1 or more persons in industrial sectors that consume significant amounts of primary energy per unit of physical output to reduce the energy intensity of their production activities by a significant amount relative to improvements in each sector in recent years.

(b) RECOGNITION.—The Secretary of Energy, in cooperation with the Administrator of the Environmental Protection Agency and other appropriate Federal agencies, shall recognize and publicize the achievements of participants in voluntary agreements under this section.

(c) DEFINITION.—In this section, the term “energy intensity” means the primary energy consumed per unit of physical output in an industrial process.

SEC. 108. ADVANCED BUILDING EFFICIENCY TESTBED.

(a) ESTABLISHMENT.—The Secretary of Energy, in consultation with the Administrator of General Services, shall establish an Advanced Building Efficiency Testbed program for the development, testing, and demonstration of advanced engineering systems, components, and materials to enable innovations in building technologies. The program shall evaluate efficiency concepts for government and industry buildings, and demonstrate the ability of next generation buildings to support individual and organizational productivity and health (including by improving indoor air quality) as well as flexibility and technological change to improve environmental sustainability. Such program shall complement and not duplicate existing national programs.

(b) PARTICIPANTS.—The program established under subsection (a) shall be led by a university with the ability to combine the expertise from numerous academic fields including, at a minimum, intelligent workplaces and advanced building systems and engineering, electrical and computer engineering, computer science, architecture, urban design, and environmental and mechanical engineering. Such university shall partner with other universities and entities who have established programs and the capability of advancing innovative building efficiency technologies.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy to carry out this section \$6,000,000 for each of the fiscal years 2004 through 2006, to remain available until expended. For any fiscal year in which funds are expended under this section, the Secretary shall provide 1/3 of the total amount to the lead university described in subsection (b), and provide the remaining 2/3 to the other participants referred to in subsection (b) on an equal basis.

SEC. 109. FEDERAL BUILDING PERFORMANCE STANDARDS.

Section 305(a) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)) is amended—

(1) in paragraph (2)(A), by striking “CABO Model Energy Code, 1992” and inserting “the 2003 International Energy Conservation Code”; and

(2) by adding at the end the following:

“(3) REVISED FEDERAL BUILDING ENERGY EFFICIENCY PERFORMANCE STANDARDS.—

“(A) IN GENERAL.—Not later than 1 year after the date of enactment of this paragraph, the Secretary of Energy shall establish, by rule, revised Federal building energy efficiency performance standards that require that—

“(i) if life-cycle cost-effective, for new Federal buildings—

“(I) such buildings be designed so as to achieve energy consumption levels at least 30 percent below those of the version current

as of the date of enactment of this paragraph of the ASHRAE Standard or the International Energy Conservation Code, as appropriate; and

“(II) sustainable design principles are applied to the siting, design, and construction of all new and replacement buildings; and

“(ii) where water is used to achieve energy efficiency, water conservation technologies shall be applied to the extent they are life-cycle cost effective.

“(B) ADDITIONAL REVISIONS.—Not later than 1 year after the date of approval of each subsequent revision of the ASHRAE Standard or the International Energy Conservation Code, as appropriate, the Secretary of Energy shall determine, based on the cost-effectiveness of the requirements under the amendments, whether the revised standards established under this paragraph should be updated to reflect the amendments.

“(C) STATEMENT ON COMPLIANCE OF NEW BUILDINGS.—In the budget request of the Federal agency for each fiscal year and each report submitted by the Federal agency under section 548(a) of the National Energy Conservation Policy Act (42 U.S.C. 8258(a)), the head of each Federal agency shall include—

“(i) a list of all new Federal buildings owned, operated, or controlled by the Federal agency; and

“(ii) a statement concerning whether the Federal buildings meet or exceed the revised standards established under this paragraph.”.

SEC. 110. INCREASED USE OF RECOVERED MINERAL COMPONENT IN FEDERALLY FUNDED PROJECTS INVOLVING PROCUREMENT OF CEMENT OR CONCRETE.

(a) AMENDMENT.—Subtitle F of the Solid Waste Disposal Act (42 U.S.C. 6961 et seq.) is amended by adding at the end the following new section:

“INCREASED USE OF RECOVERED MINERAL COMPONENT IN FEDERALLY FUNDED PROJECTS INVOLVING PROCUREMENT OF CEMENT OR CONCRETE

“SEC. 6005. (a) DEFINITIONS.—In this section:

“(1) AGENCY HEAD.—The term ‘agency head’ means—

“(A) the Secretary of Transportation; and

“(B) the head of each other Federal agency that on a regular basis procures, or provides Federal funds to pay or assist in paying the cost of procuring, material for cement or concrete projects.

“(2) CEMENT OR CONCRETE PROJECT.—The term ‘cement or concrete project’ means a project for the construction or maintenance of a highway or other transportation facility or a Federal, State, or local government building or other public facility that—

“(A) involves the procurement of cement or concrete; and

“(B) is carried out in whole or in part using Federal funds.

“(3) RECOVERED MINERAL COMPONENT.—The term ‘recovered mineral component’ means—

“(A) ground granulated blast furnace slag;

“(B) coal combustion fly ash; and

“(C) any other waste material or byproduct recovered or diverted from solid waste that the Administrator, in consultation with an agency head, determines should be treated as recovered mineral component under this section for use in cement or concrete projects paid for, in whole or in part, by the agency head.

“(b) IMPLEMENTATION OF REQUIREMENTS.—

“(1) IN GENERAL.—Not later than 1 year after the date of enactment of this section, the Administrator and each agency head shall take such actions as are necessary to implement fully all procurement requirements and incentives in effect as of the date

of enactment of this section (including guidelines under section 6002) that provide for the use of cement and concrete incorporating recovered mineral component in cement or concrete projects.

“(2) PRIORITY.—In carrying out paragraph (1) an agency head shall give priority to achieving greater use of recovered mineral component in cement or concrete projects for which recovered mineral components historically have not been used or have been used only minimally.

“(3) CONFORMANCE.—The Administrator and each agency head shall carry out this subsection in accordance with section 6002.

“(c) FULL IMPLEMENTATION STUDY.—

“(1) IN GENERAL.—The Administrator, in cooperation with the Secretary of Transportation and the Secretary of Energy, shall conduct a study to determine the extent to which current procurement requirements, when fully implemented in accordance with subsection (b), may realize energy savings and environmental benefits attainable with substitution of recovered mineral component in cement used in cement or concrete projects.

“(2) MATTERS TO BE ADDRESSED.—The study shall—

“(A) quantify the extent to which recovered mineral components are being substituted for Portland cement, particularly as a result of current procurement requirements, and the energy savings and environmental benefits associated with that substitution;

“(B) identify all barriers in procurement requirements to greater realization of energy savings and environmental benefits, including barriers resulting from exceptions from current law; and

“(C)(i) identify potential mechanisms to achieve greater substitution of recovered mineral component in types of cement or concrete projects for which recovered mineral components historically have not been used or have been used only minimally;

“(ii) evaluate the feasibility of establishing guidelines or standards for optimized substitution rates of recovered mineral component in those cement or concrete projects; and

“(iii) identify any potential environmental or economic effects that may result from greater substitution of recovered mineral component in those cement or concrete projects.

“(3) REPORT.—Not later than 30 months after the date of enactment of this section, the Administrator shall submit to Congress a report on the study.

“(d) ADDITIONAL PROCUREMENT REQUIREMENTS.—Unless the study conducted under subsection (c) identifies any effects or other problems described in subsection (c)(2)(C)(iii) that warrant further review or delay, the Administrator and each agency head shall, not later than 1 year after the release of the report in accordance with subsection (c)(3), take additional actions authorized under this Act to establish procurement requirements and incentives that provide for the use of cement and concrete with increased substitution of recovered mineral component in the construction and maintenance of cement or concrete projects, so as to—

“(1) realize more fully the energy savings and environmental benefits associated with increased substitution; and

“(2) eliminate barriers identified under subsection (c).

“(e) EFFECT OF SECTION.—Nothing in this section affects the requirements of section 6002 (including the guidelines and specifications for implementing those requirements).”.

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Solid Waste Disposal

Act is amended by adding after the item relating to section 6004 the following new item: "Sec. 6005. Increased use of recovered mineral component in federally funded projects involving procurement of cement or concrete."

Subtitle B—Energy Assistance and State Programs

SEC. 121. LOW INCOME HOME ENERGY ASSISTANCE PROGRAM.

Section 2602(b) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621(b)) is amended by striking "and \$2,000,000,000 for each of fiscal years 2002 through 2004" and inserting "\$2,000,000,000 for fiscal years 2002 and 2003, and \$3,400,000,000 for each of fiscal years 2004 through 2006".

SEC. 122. WEATHERIZATION ASSISTANCE.

Section 422 of the Energy Conservation and Production Act (42 U.S.C. 6872) is amended by striking "for fiscal years 1999 through 2003 such sums as may be necessary" and inserting "\$325,000,000 for fiscal year 2004, \$400,000,000 for fiscal year 2005, and \$500,000,000 for fiscal year 2006".

SEC. 123. STATE ENERGY PROGRAMS.

(a) STATE ENERGY CONSERVATION PLANS.—Section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322) is amended by inserting at the end the following new subsection:

"(g) The Secretary shall, at least once every 3 years, invite the Governor of each State to review and, if necessary, revise the energy conservation plan of such State submitted under subsection (b) or (e). Such reviews should consider the energy conservation plans of other States within the region, and identify opportunities and actions carried out in pursuit of common energy conservation goals."

(b) STATE ENERGY EFFICIENCY GOALS.—Section 364 of the Energy Policy and Conservation Act (42 U.S.C. 6324) is amended to read as follows:

"STATE ENERGY EFFICIENCY GOALS

"SEC. 364. Each State energy conservation plan with respect to which assistance is made available under this part on or after the date of enactment of the Energy Policy Act of 2003 shall contain a goal, consisting of an improvement of 25 percent or more in the efficiency of use of energy in the State concerned in calendar year 2010 as compared to calendar year 1990, and may contain interim goals."

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 365(f) of the Energy Policy and Conservation Act (42 U.S.C. 6325(f)) is amended by striking "for fiscal years 1999 through 2003 such sums as may be necessary" and inserting "\$100,000,000 for each of the fiscal years 2004 and 2005 and \$125,000,000 for fiscal year 2006".

SEC. 124. ENERGY EFFICIENT APPLIANCE REBATE PROGRAMS.

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE STATE.—The term "eligible State" means a State that meets the requirements of subsection (b).

(2) ENERGY STAR PROGRAM.—The term "Energy Star program" means the program established by section 324A of the Energy Policy and Conservation Act.

(3) RESIDENTIAL ENERGY STAR PRODUCT.—The term "residential Energy Star product" means a product for a residence that is rated for energy efficiency under the Energy Star program.

(4) SECRETARY.—The term "Secretary" means the Secretary of Energy.

(5) STATE ENERGY OFFICE.—The term "State energy office" means the State agency responsible for developing State energy conservation plans under section 362 of the

Energy Policy and Conservation Act (42 U.S.C. 6322).

(6) STATE PROGRAM.—The term "State program" means a State energy efficient appliance rebate program described in subsection (b)(1).

(b) ELIGIBLE STATES.—A State shall be eligible to receive an allocation under subsection (c) if the State—

(1) establishes (or has established) a State energy efficient appliance rebate program to provide rebates to residential consumers for the purchase of residential Energy Star products to replace used appliances of the same type;

(2) submits an application for the allocation at such time, in such form, and containing such information as the Secretary may require; and

(3) provides assurances satisfactory to the Secretary that the State will use the allocation to supplement, but not supplant, funds made available to carry out the State program.

(c) AMOUNT OF ALLOCATIONS.—

(1) IN GENERAL.—Subject to paragraph (2), for each fiscal year, the Secretary shall allocate to the State energy office of each eligible State to carry out subsection (d) an amount equal to the product obtained by multiplying the amount made available under subsection (f) for the fiscal year by the ratio that the population of the State in the most recent calendar year for which data are available bears to the total population of all eligible States in that calendar year.

(2) MINIMUM ALLOCATIONS.—For each fiscal year, the amounts allocated under this subsection shall be adjusted proportionately so that no eligible State is allocated a sum that is less than an amount determined by the Secretary.

(d) USE OF ALLOCATED FUNDS.—The allocation to a State energy office under subsection (c) may be used to pay up to 50 percent of the cost of establishing and carrying out a State program.

(e) ISSUANCE OF REBATES.—Rebates may be provided to residential consumers that meet the requirements of the State program. The amount of a rebate shall be determined by the State energy office, taking into consideration—

(1) the amount of the allocation to the State energy office under subsection (c);

(2) the amount of any Federal or State tax incentive available for the purchase of the residential Energy Star product; and

(3) the difference between the cost of the residential Energy Star product and the cost of an appliance that is not a residential Energy Star product, but is of the same type as, and is the nearest capacity, performance, and other relevant characteristics (as determined by the State energy office) to, the residential Energy Star product.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section \$50,000,000 for each of the fiscal years 2004 through 2008.

SEC. 125. ENERGY EFFICIENT PUBLIC BUILDINGS.

(a) GRANTS.—The Secretary of Energy may make grants to the State agency responsible for developing State energy conservation plans under section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322), or, if no such agency exists, a State agency designated by the Governor of the State, to assist units of local government in the State in improving the energy efficiency of public buildings and facilities—

(1) through construction of new energy efficient public buildings that use at least 30 percent less energy than a comparable public building constructed in compliance with standards prescribed in the most recent

version of the International Energy Conservation Code, or a similar State code intended to achieve substantially equivalent efficiency levels; or

(2) through renovation of existing public buildings to achieve reductions in energy use of at least 30 percent as compared to the baseline energy use in such buildings prior to renovation, assuming a 3-year, weather-normalized average for calculating such baseline.

(b) ADMINISTRATION.—State energy offices receiving grants under this section shall—

(1) maintain such records and evidence of compliance as the Secretary may require; and

(2) develop and distribute information and materials and conduct programs to provide technical services and assistance to encourage planning, financing, and design of energy efficient public buildings by units of local government.

(c) AUTHORIZATION OF APPROPRIATIONS.—For the purposes of this section, there are authorized to be appropriated to the Secretary of Energy \$30,000,000 for each of fiscal years 2004 through 2008. Not more than 10 percent of appropriated funds shall be used for administration.

SEC. 126. LOW INCOME COMMUNITY ENERGY EFFICIENCY PILOT PROGRAM.

(a) GRANTS.—The Secretary of Energy is authorized to make grants to units of local government, private, non-profit community development organizations, and Indian tribe economic development entities to improve energy efficiency; identify and develop alternative, renewable, and distributed energy supplies; and increase energy conservation in low income rural and urban communities.

(b) PURPOSE OF GRANTS.—The Secretary may make grants on a competitive basis for—

(1) investments that develop alternative, renewable, and distributed energy supplies;

(2) energy efficiency projects and energy conservation programs;

(3) studies and other activities that improve energy efficiency in low income rural and urban communities;

(4) planning and development assistance for increasing the energy efficiency of buildings and facilities; and

(5) technical and financial assistance to local government and private entities on developing new renewable and distributed sources of power or combined heat and power generation.

(c) DEFINITION.—For purposes of this section, the term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(d) AUTHORIZATION OF APPROPRIATIONS.—For the purposes of this section there are authorized to be appropriated to the Secretary of Energy \$20,000,000 for each of fiscal years 2004 through 2006.

Subtitle C—Energy Efficient Products

SEC. 131. ENERGY STAR PROGRAM.

(a) AMENDMENT.—The Energy Policy and Conservation Act (42 U.S.C. 6201 et seq.) is amended by inserting the following after section 324:

"SEC. 324A. ENERGY STAR PROGRAM.

"There is established at the Department of Energy and the Environmental Protection Agency a voluntary program to identify and promote energy-efficient products and buildings in order to reduce energy consumption, improve energy security, and reduce pollution through voluntary labeling of or other

forms of communication about products and buildings that meet the highest energy efficiency standards. Responsibilities under the program shall be divided between the Department of Energy and the Environmental Protection Agency consistent with the terms of agreements between the 2 agencies. The Administrator and the Secretary shall—

“(1) promote Energy Star compliant technologies as the preferred technologies in the marketplace for achieving energy efficiency and to reduce pollution;

“(2) work to enhance public awareness of the Energy Star label, including special outreach to small businesses;

“(3) preserve the integrity of the Energy Star label;

“(4) solicit comments from interested parties prior to establishing or revising an Energy Star product category, specification, or criterion (or effective dates for any of the foregoing);

“(5) upon adoption of a new or revised product category, specification, or criterion, provide reasonable notice to interested parties of any changes (including effective dates) in product categories, specifications, or criteria along with an explanation of such changes and, where appropriate, responses to comments submitted by interested parties; and

“(6) provide appropriate lead time (which shall be 9 months, unless the Agency or Department determines otherwise) prior to the effective date for a new or a significant revision to a product category, specification, or criterion, taking into account the timing requirements of the manufacturing, product marketing, and distribution process for the specific product addressed.”.

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Energy Policy and Conservation Act is amended by inserting after the item relating to section 324 the following new item:

“Sec. 324A. Energy Star program.”.

SEC. 132. HVAC MAINTENANCE CONSUMER EDUCATION PROGRAM.

Section 337 of the Energy Policy and Conservation Act (42 U.S.C. 6307) is amended by adding at the end the following:

“(c) HVAC MAINTENANCE.—For the purpose of ensuring that installed air conditioning and heating systems operate at their maximum rated efficiency levels, the Secretary shall, not later than 180 days after the date of enactment of this subsection, carry out a program to educate homeowners and small business owners concerning the energy savings resulting from properly conducted maintenance of air conditioning, heating, and ventilating systems. The Secretary shall carry out the program in a cost-shared manner in cooperation with the Administrator of the Environmental Protection Agency and such other entities as the Secretary considers appropriate, including industry trade associations, industry members, and energy efficiency organizations.

“(d) SMALL BUSINESS EDUCATION AND ASSISTANCE.—The Administrator of the Small Business Administration, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall develop and coordinate a Government-wide program, building on the existing Energy Star for Small Business Program, to assist small businesses to become more energy efficient, understand the cost savings obtainable through efficiencies, and identify financing options for energy efficiency upgrades. The Secretary and the Administrator of the Small Business Administration shall make the program information available directly to small businesses and through other Federal agencies, including the Federal Emergency Management Program and the Department of Agriculture.”.

SEC. 133. ENERGY CONSERVATION STANDARDS FOR ADDITIONAL PRODUCTS.

(a) DEFINITIONS.—Section 321 of the Energy Policy and Conservation Act (42 U.S.C. 6291) is amended—

(1) in paragraph (30)(S), by striking the period and adding at the end the following: “but does not include any lamp specifically designed to be used for special purpose applications and that is unlikely to be used in general purpose applications such as those described in subparagraph (D), and also does not include any lamp not described in subparagraph (D) that is excluded by the Secretary, by rule, because the lamp is designed for special applications and is unlikely to be used in general purpose applications.”; and

(2) by adding at the end the following:

“(32) The term ‘battery charger’ means a device that charges batteries for consumer products and includes battery chargers embedded in other consumer products.

“(33) The term ‘commercial refrigerators, freezers, and refrigerator-freezers’ means refrigerators, freezers, or refrigerator-freezers that—

“(A) are not consumer products regulated under this Act; and

“(B) incorporate most components involved in the vapor-compression cycle and the refrigerated compartment in a single package.

“(34) The term ‘external power supply’ means an external power supply circuit that is used to convert household electric current into either DC current or lower-voltage AC current to operate a consumer product.

“(35) The term ‘illuminated exit sign’ means a sign that—

“(A) is designed to be permanently fixed in place to identify an exit; and

“(B) consists of an electrically powered integral light source that illuminates the legend ‘EXIT’ and any directional indicators and provides contrast between the legend, any directional indicators, and the background.

“(36)(A) Except as provided in subparagraph (B), the term ‘distribution transformer’ means a transformer that—

“(i) has an input voltage of 34.5 kilovolts or less;

“(ii) has an output voltage of 600 volts or less; and

“(iii) is rated for operation at a frequency of 60 Hertz.

“(B) The term ‘distribution transformer’ does not include—

“(i) transformers with multiple voltage taps, with the highest voltage tap equaling at least 20 percent more than the lowest voltage tap;

“(ii) transformers, such as those commonly known as drive transformers, rectifier transformers, auto-transformers, Uninterruptible Power System transformers, impedance transformers, harmonic transformers, regulating transformers, sealed and nonventilating transformers, machine tool transformers, welding transformers, grounding transformers, or testing transformers, that are designed to be used in a special purpose application and are unlikely to be used in general purpose applications; or

“(iii) any transformer not listed in clause (ii) that is excluded by the Secretary by rule because—

“(I) the transformer is designed for a special application; and

“(II) the transformer is unlikely to be used in general purpose applications; and

“(III) the application of standards to the transformer would not result in significant energy savings.

“(37) The term ‘low-voltage dry-type distribution transformer’ means a distribution transformer that—

“(A) has an input voltage of 600 volts or less;

“(B) is air-cooled; and

“(C) does not use oil as a coolant.

“(38) The term ‘standby mode’ means the lowest power consumption mode that—

“(A) cannot be switched off or influenced by the user; and

“(B) may persist for an indefinite time when an appliance is connected to the main electricity supply and used in accordance with the manufacturer’s instructions,

as defined on an individual product basis by the Secretary.

“(39) The term ‘torchiere’ means a portable electric lamp with a reflector bowl that directs light upward so as to give indirect illumination.

“(40) The term ‘traffic signal module’ means a standard 8-inch (200mm) or 12-inch (300mm) traffic signal indication, consisting of a light source, a lens, and all other parts necessary for operation, that communicates movement messages to drivers through red, amber, and green colors.

“(41) The term ‘transformer’ means a device consisting of 2 or more coils of insulated wire that transfers alternating current by electromagnetic induction from 1 coil to another to change the original voltage or current value.

“(42) The term ‘unit heater’ means a self-contained fan-type heater designed to be installed within the heated space, except that such term does not include a warm air furnace.”.

(b) TEST PROCEDURES.—Section 323 of the Energy Policy and Conservation Act (42 U.S.C. 6293) is amended—

(1) in subsection (b), by adding at the end the following:

“(9) Test procedures for illuminated exit signs shall be based on the test method used under Version 2.0 of the Energy Star program of the Environmental Protection Agency for illuminated exit signs.

“(10) Test procedures for distribution transformers and low voltage dry-type distribution transformers shall be based on the ‘Standard Test Method for Measuring the Energy Consumption of Distribution Transformers’ prescribed by the National Electrical Manufacturers Association (NEMA TP 2-1998). The Secretary may review and revise this test procedure. For purposes of section 346(a), this test procedure shall be deemed to be testing requirements prescribed by the Secretary under section 346(a)(1) for distribution transformers for which the Secretary makes a determination that energy conservation standards would be technologically feasible and economically justified, and would result in significant energy savings.

“(11) Test procedures for traffic signal modules shall be based on the test method used under the Energy Star program of the Environmental Protection Agency for traffic signal modules, as in effect on the date of enactment of this paragraph.

“(12) Test procedures for medium base compact fluorescent lamps shall be based on the test methods used under the August 9, 2001, version of the Energy Star program of the Environmental Protection Agency and Department of Energy for compact fluorescent lamps. Covered products shall meet all test requirements for regulated parameters in section 325(bb). However, covered products may be marketed prior to completion of lamp life and lumen maintenance at 40 percent of rated life testing provided manufacturers document engineering predictions and analysis that support expected attainment of lumen maintenance at 40 percent rated life and lamp life time.”; and

(2) by adding at the end the following:

“(f) ADDITIONAL CONSUMER AND COMMERCIAL PRODUCTS.—The Secretary shall, not

later than 24 months after the date of enactment of this subsection, prescribe testing requirements for suspended ceiling fans, refrigerated bottled or canned beverage vending machines, and commercial refrigerators, freezers, and refrigerator-freezers. Such testing requirements shall be based on existing test procedures used in industry to the extent practical and reasonable. In the case of suspended ceiling fans, such test procedures shall include efficiency at both maximum output and at an output no more than 50 percent of the maximum output."

(c) NEW STANDARDS.—Section 325 of the Energy Policy and Conservation Act (42 U.S.C. 6295) is amended by adding at the end the following:

"(u) BATTERY CHARGER AND EXTERNAL POWER SUPPLY ELECTRIC ENERGY CONSUMPTION.—

"(1) INITIAL RULEMAKING.—(A) The Secretary shall, within 18 months after the date of enactment of this subsection, prescribe by notice and comment, definitions and test procedures for the power use of battery chargers and external power supplies. In establishing these test procedures, the Secretary shall consider, among other factors, existing definitions and test procedures used for measuring energy consumption in standby mode and other modes and assess the current and projected future market for battery chargers and external power supplies. This assessment shall include estimates of the significance of potential energy savings from technical improvements to these products and suggested product classes for standards. Prior to the end of this time period, the Secretary shall hold a scoping workshop to discuss and receive comments on plans for developing energy conservation standards for energy use for these products.

"(B) The Secretary shall, within 3 years after the date of enactment of this subsection, issue a final rule that determines whether energy conservation standards shall be issued for battery chargers and external power supplies or classes thereof. For each product class, any such standards shall be set at the lowest level of energy use that—

"(i) meets the criteria and procedures of subsections (o), (p), (q), (r), (s), and (t); and

"(ii) will result in significant overall annual energy savings, considering both standby mode and other operating modes.

"(2) REVIEW OF STANDBY ENERGY USE IN COVERED PRODUCTS.—In determining pursuant to section 323 whether test procedures and energy conservation standards pursuant to this section should be revised, the Secretary shall consider, for covered products that are major sources of standby mode energy consumption, whether to incorporate standby mode into such test procedures and energy conservation standards, taking into account, among other relevant factors, standby mode power consumption compared to overall product energy consumption.

"(3) RULEMAKING.—The Secretary shall not propose a standard under this section unless the Secretary has issued applicable test procedures for each product pursuant to section 323.

"(4) EFFECTIVE DATE.—Any standard issued under this subsection shall be applicable to products manufactured or imported 3 years after the date of issuance.

"(5) VOLUNTARY PROGRAMS.—The Secretary and the Administrator shall collaborate and develop programs, including programs pursuant to section 324A (relating to Energy Star Programs) and other voluntary industry agreements or codes of conduct, that are designed to reduce standby mode energy use.

"(v) SUSPENDED CEILING FANS, VENDING MACHINES, AND COMMERCIAL REFRIGERATORS, FREEZERS, AND REFRIGERATOR-FREEZERS.—The Secretary shall not later than 36 months

after the date on which testing requirements are prescribed by the Secretary pursuant to section 323(f), prescribe, by rule, energy conservation standards for suspended ceiling fans, refrigerated bottled or canned beverage vending machines, and commercial refrigerators, freezers, and refrigerator-freezers. In establishing standards under this subsection, the Secretary shall use the criteria and procedures contained in subsections (o) and (p). Any standard prescribed under this subsection shall apply to products manufactured 3 years after the date of publication of a final rule establishing such standard.

"(w) ILLUMINATED EXIT SIGNS.—Illuminated exit signs manufactured on or after January 1, 2005, shall meet the Version 2.0 Energy Star Program performance requirements for illuminated exit signs prescribed by the Environmental Protection Agency.

"(x) TORCHIERES.—Torchieres manufactured on or after January 1, 2005—

"(1) shall consume not more than 190 watts of power; and

"(2) shall not be capable of operating with lamps that total more than 190 watts.

"(y) LOW VOLTAGE DRY-TYPE DISTRIBUTION TRANSFORMERS.—The efficiency of low voltage dry-type distribution transformers manufactured on or after January 1, 2005, shall be the Class I Efficiency Levels for distribution transformers specified in Table 4-2 of the 'Guide for Determining Energy Efficiency for Distribution Transformers' published by the National Electrical Manufacturers Association (NEMA TP-1-2002).

"(z) TRAFFIC SIGNAL MODULES.—Traffic signal modules manufactured on or after January 1, 2006, shall meet the performance requirements used under the Energy Star program of the Environmental Protection Agency for traffic signals, as in effect on the date of enactment of this subsection, and shall be installed with compatible, electrically connected signal control interface devices and conflict monitoring systems.

"(aa) UNIT HEATERS.—Unit heaters manufactured on or after the date that is 3 years after the date of enactment of this subsection shall be equipped with an intermittent ignition device and shall have either power venting or an automatic flue damper.

"(bb) MEDIUM BASE COMPACT FLUORESCENT LAMPS.—Bare lamp and covered lamp (no reflector) medium base compact fluorescent lamps manufactured on or after January 1, 2005, shall meet the following requirements prescribed by the August 9, 2001, version of the Energy Star Program Requirements for Compact Fluorescent Lamps, Energy Star Eligibility Criteria, Energy-Efficiency Specification issued by the Environmental Protection Agency and Department of Energy: minimum initial efficacy; lumen maintenance at 1000 hours; lumen maintenance at 40 percent of rated life; rapid cycle stress test; and lamp life. The Secretary may, by rule, establish requirements for color quality (CRI); power factor; operating frequency; and maximum allowable start time based on the requirements prescribed by the August 9, 2001, version of the Energy Star Program Requirements for Compact Fluorescent Lamps. The Secretary may, by rule, revise these requirements or establish other requirements considering energy savings, cost effectiveness, and consumer satisfaction.

"(cc) EFFECTIVE DATE.—Section 327 shall apply—

"(1) to products for which standards are to be established under subsections (u) and (v) on the date on which a final rule is issued by the Department of Energy, except that any State or local standards prescribed or enacted for any such product prior to the date on which such final rule is issued shall not be preempted until the standard established under subsection (u) or (v) for that product takes effect; and

"(2) to products for which standards are established under subsections (w) through (bb) on the date of enactment of those subsections, except that any State or local standards prescribed or enacted prior to the date of enactment of those subsections shall not be preempted until the standards established under subsections (w) through (bb) take effect."

(d) RESIDENTIAL FURNACE FANS.—Section 325(f)(3) of the Energy Policy and Conservation Act (42 U.S.C. 6295(f)(3)) is amended by adding the following new subparagraph at the end:

"(D) Notwithstanding any provision of this Act, the Secretary may consider, and prescribe, if the requirements of subsection (o) of this section are met, energy efficiency or energy use standards for electricity used for purposes of circulating air through duct work."

SEC. 134. ENERGY LABELING.

(a) RULEMAKING ON EFFECTIVENESS OF CONSUMER PRODUCT LABELING.—Section 324(a)(2) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)(2)) is amended by adding at the end the following:

"(F) Not later than 3 months after the date of enactment of this subparagraph, the Commission shall initiate a rulemaking to consider the effectiveness of the current consumer products labeling program in assisting consumers in making purchasing decisions and improving energy efficiency and to consider changes to the labeling rules that would improve the effectiveness of consumer product labels. Such rulemaking shall be completed not later than 2 years after the date of enactment of this subparagraph."

(b) RULEMAKING ON LABELING FOR ADDITIONAL PRODUCTS.—Section 324(a) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)) is further amended by adding at the end the following:

"(5) The Secretary or the Commission, as appropriate, may, for covered products referred to in subsections (u) through (aa) of section 325, prescribe, by rule, pursuant to this section, labeling requirements for such products after a test procedure has been set pursuant to section 323. In the case of products to which TP-1 standards under section 325(y) apply, labeling requirements shall be based on the 'Standard for the Labeling of Distribution Transformer Efficiency' prescribed by the National Electrical Manufacturers Association (NEMA TP-3) as in effect upon the date of enactment of this paragraph."

Subtitle D—Public Housing

SEC. 141. CAPACITY BUILDING FOR ENERGY-EFFICIENT, AFFORDABLE HOUSING.

Section 4(b) of the HUD Demonstration Act of 1993 (42 U.S.C. 9816 note) is amended—

(1) in paragraph (1), by inserting before the semicolon at the end the following: "including capabilities regarding the provision of energy efficient, affordable housing and residential energy conservation measures"; and

(2) in paragraph (2), by inserting before the semicolon the following: "including such activities relating to the provision of energy efficient, affordable housing and residential energy conservation measures that benefit low-income families".

SEC. 142. INCREASE OF CDBG PUBLIC SERVICES CAP FOR ENERGY CONSERVATION AND EFFICIENCY ACTIVITIES.

Section 105(a)(8) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)(8)) is amended—

(1) by inserting "or efficiency" after "energy conservation";

(2) by striking "and except that" and inserting "except that"; and

(3) by inserting before the semicolon at the end the following: "and except that each

percentage limitation under this paragraph on the amount of assistance provided under this title that may be used for the provision of public services is hereby increased by 10 percent, but such percentage increase may be used only for the provision of public services concerning energy conservation or efficiency”.

SEC. 143. FHA MORTGAGE INSURANCE INCENTIVES FOR ENERGY EFFICIENT HOUSING.

(a) **SINGLE FAMILY HOUSING MORTGAGE INSURANCE.**—Section 203(b)(2) of the National Housing Act (12 U.S.C. 1709(b)(2)) is amended, in the first undesignated paragraph beginning after subparagraph (B)(ii)(IV) (relating to solar energy systems), by striking “20 percent” and inserting “30 percent”.

(b) **MULTIFAMILY HOUSING MORTGAGE INSURANCE.**—Section 207(c) of the National Housing Act (12 U.S.C. 1713(c)) is amended, in the last undesignated paragraph beginning after paragraph (3) (relating to solar energy systems and residential energy conservation measures), by striking “20 percent” and inserting “30 percent”.

(c) **COOPERATIVE HOUSING MORTGAGE INSURANCE.**—Section 213(p) of the National Housing Act (12 U.S.C. 1715e(p)) is amended by striking “20 per centum” and inserting “30 percent”.

(d) **REHABILITATION AND NEIGHBORHOOD CONSERVATION HOUSING MORTGAGE INSURANCE.**—Section 220(d)(3)(B)(iii)(IV) of the National Housing Act (12 U.S.C. 1715k(d)(3)(B)(iii)(IV)) is amended—

(1) by striking “with respect to rehabilitation projects involving not more than five family units,”; and

(2) by striking “20 per centum” and inserting “30 percent”.

(e) **LOW-INCOME MULTIFAMILY HOUSING MORTGAGE INSURANCE.**—Section 221(k) of the National Housing Act (12 U.S.C. 1715l(k)) is amended by striking “20 per centum” and inserting “30 percent”.

(f) **ELDERLY HOUSING MORTGAGE INSURANCE.**—Section 231(c)(2)(C) of the National Housing Act (12 U.S.C. 1715v(c)(2)(C)) is amended by striking “20 per centum” and inserting “30 percent”.

(g) **CONDOMINIUM HOUSING MORTGAGE INSURANCE.**—Section 234(j) of the National Housing Act (12 U.S.C. 1715y(j)) is amended by striking “20 per centum” and inserting “30 percent”.

SEC. 144. PUBLIC HOUSING CAPITAL FUND.

Section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) is amended—

(1) in subsection (d)(1)—

(A) in subparagraph (I), by striking “and” at the end;

(B) in subparagraph (J), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following new subparagraphs:

“(K) improvement of energy and water-use efficiency by installing fixtures and fittings that conform to the American Society of Mechanical Engineers/American National Standards Institute standards A112.19.2-1998 and A112.18.1-2000, or any revision thereto, applicable at the time of installation, and by increasing energy efficiency and water conservation by such other means as the Secretary determines are appropriate; and

“(L) integrated utility management and capital planning to maximize energy conservation and efficiency measures.”; and

(2) in subsection (e)(2)(C)—

(A) by striking “The” and inserting the following:

“(i) IN GENERAL.—The”; and

(B) by adding at the end the following:

“(ii) **THIRD PARTY CONTRACTS.**—Contracts described in clause (i) may include contracts

for equipment conversions to less costly utility sources, projects with resident-paid utilities, and adjustments to frozen base year consumption, including systems repaired to meet applicable building and safety codes and adjustments for occupancy rates increased by rehabilitation.

“(iii) **TERM OF CONTRACT.**—The total term of a contract described in clause (i) shall not exceed 20 years to allow longer payback periods for retrofits, including windows, heating system replacements, wall insulation, site-based generation, advanced energy savings technologies, including renewable energy generation, and other such retrofits.”.

SEC. 145. GRANTS FOR ENERGY-CONSERVING IMPROVEMENTS FOR ASSISTED HOUSING.

Section 251(b)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8231(1)) is amended—

(1) by striking “financed with loans” and inserting “assisted”;

(2) by inserting after “1959,” the following: “which are eligible multifamily housing projects (as such term is defined in section 512 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note)) and are subject to mortgage restructuring and rental assistance sufficiency plans under such Act.”; and

(3) by inserting after the period at the end of the first sentence the following new sentence: “Such improvements may also include the installation of energy and water conserving fixtures and fittings that conform to the American Society of Mechanical Engineers/American National Standards Institute standards A112.19.2-1998 and A112.18.1-2000, or any revision thereto, applicable at the time of installation.”.

SEC. 146. NORTH AMERICAN DEVELOPMENT BANK.

Part 2 of subtitle D of title V of the North American Free Trade Agreement Implementation Act (22 U.S.C. 290m-290m-3) is amended by adding at the end the following:

“SEC. 545. SUPPORT FOR CERTAIN ENERGY POLICIES.

“Consistent with the focus of the Bank’s Charter on environmental infrastructure projects, the Board members representing the United States should use their voice and vote to encourage the Bank to finance projects related to clean and efficient energy, including energy conservation, that prevent, control, or reduce environmental pollutants or contaminants.”.

SEC. 147. ENERGY-EFFICIENT APPLIANCES.

In purchasing appliances, a public housing agency shall purchase energy-efficient appliances that are Energy Star products or FEMP-designated products, as such terms are defined in section 553 of the National Energy Conservation Policy Act (as amended by this title), unless the purchase of energy-efficient appliances is not cost-effective to the agency.

SEC. 148. ENERGY EFFICIENCY STANDARDS.

Section 109 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12709) is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by striking “1 year after the date of the enactment of the Energy Policy Act of 1992” and inserting “September 30, 2004”; and

(ii) in subparagraph (A), by striking “and” at the end;

(iii) in subparagraph (B), by striking the period at the end and inserting “; and”; and

(iv) by adding at the end the following:

“(C) rehabilitation and new construction of public and assisted housing funded by HOPE VI revitalization grants under section 24 of the United States Housing Act of 1937 (42 U.S.C. 1437v), where such standards are de-

termined to be cost effective by the Secretary of Housing and Urban Development.”; and

(B) in paragraph (2), by striking “Council of American” and all that follows through “90.1-1989” and inserting “2003 International Energy Conservation Code”;

(2) in subsection (b)—

(A) by striking “within 1 year after the date of the enactment of the Energy Policy Act of 1992” and inserting “by September 30, 2004”; and

(B) by striking “CABO” and all that follows through “1989” and inserting “the 2003 International Energy Conservation Code”; and

(3) in subsection (c)—

(A) in the heading, by striking “MODEL ENERGY CODE” and inserting “THE INTERNATIONAL ENERGY CONSERVATION CODE”; and

(B) by striking “CABO” and all that follows through “1989” and inserting “the 2003 International Energy Conservation Code”.

SEC. 149. ENERGY STRATEGY FOR HUD.

The Secretary of Housing and Urban Development shall develop and implement an integrated strategy to reduce utility expenses through cost-effective energy conservation and efficiency measures and energy efficient design and construction of public and assisted housing. The energy strategy shall include the development of energy reduction goals and incentives for public housing agencies. The Secretary shall submit a report to Congress, not later than 1 year after the date of the enactment of this Act, on the energy strategy and the actions taken by the Department of Housing and Urban Development to monitor the energy usage of public housing agencies and shall submit an update every 2 years thereafter on progress in implementing the strategy.

TITLE II—RENEWABLE ENERGY

Subtitle A—General Provisions

SEC. 201. ASSESSMENT OF RENEWABLE ENERGY RESOURCES.

(a) **RESOURCE ASSESSMENT.**—Not later than 6 months after the date of enactment of this Act, and each year thereafter, the Secretary of Energy shall review the available assessments of renewable energy resources within the United States, including solar, wind, biomass, ocean (tidal, wave, current, and thermal), geothermal, and hydroelectric energy resources, and undertake new assessments as necessary, taking into account changes in market conditions, available technologies, and other relevant factors.

(b) **CONTENTS OF REPORTS.**—Not later than 1 year after the date of enactment of this Act, and each year thereafter, the Secretary shall publish a report based on the assessment under subsection (a). The report shall contain—

(1) a detailed inventory describing the available amount and characteristics of the renewable energy resources; and

(2) such other information as the Secretary believes would be useful in developing such renewable energy resources, including descriptions of surrounding terrain, population and load centers, nearby energy infrastructure, location of energy and water resources, and available estimates of the costs needed to develop each resource, together with an identification of any barriers to providing adequate transmission for remote sources of renewable energy resources to current and emerging markets, recommendations for removing or addressing such barriers, and ways to provide access to the grid that do not unfairly disadvantage renewable or other energy producers.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—For the purposes of this section, there are authorized to be appropriated to the Secretary of Energy \$10,000,000 for each of fiscal years 2004 through 2008.

SEC. 202. RENEWABLE ENERGY PRODUCTION INCENTIVE.

(a) **INCENTIVE PAYMENTS.**—Section 1212(a) of the Energy Policy Act of 1992 (42 U.S.C. 13317(a)) is amended by striking “and which satisfies” and all that follows through “Secretary shall establish.” and inserting “. If there are insufficient appropriations to make full payments for electric production from all qualified renewable energy facilities in any given year, the Secretary shall assign 60 percent of appropriated funds for that year to facilities that use solar, wind, geothermal, or closed-loop (dedicated energy crops) biomass technologies to generate electricity, and assign the remaining 40 percent to other projects. The Secretary may, after transmitting to Congress an explanation of the reasons therefor, alter the percentage requirements of the preceding sentence.”.

(b) **QUALIFIED RENEWABLE ENERGY FACILITY.**—Section 1212(b) of the Energy Policy Act of 1992 (42 U.S.C. 13317(b)) is amended—

(1) by striking “a State or any political” and all that follows through “nonprofit electrical cooperative” and inserting “a not-for-profit electric cooperative, a public utility described in section 115 of the Internal Revenue Code of 1986, a State, Commonwealth, territory, or possession of the United States or the District of Columbia, or a political subdivision thereof, or an Indian tribal government or subdivision thereof.”; and

(2) by inserting “landfill gas,” after “wind, biomass.”.

(c) **ELIGIBILITY WINDOW.**—Section 1212(c) of the Energy Policy Act of 1992 (42 U.S.C. 13317(c)) is amended by striking “during the 10-fiscal year period beginning with the first full fiscal year occurring after the enactment of this section” and inserting “after October 1, 2003, and before October 1, 2013”.

(d) **AMOUNT OF PAYMENT.**—Section 1212(e)(1) of the Energy Policy Act of 1992 (42 U.S.C. 13317(e)(1)) is amended by inserting “landfill gas,” after “wind, biomass.”.

(e) **SUNSET.**—Section 1212(f) of the Energy Policy Act of 1992 (42 U.S.C. 13317(f)) is amended by striking “the expiration of” and all that follows through “of this section” and inserting “September 30, 2023”.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—Section 1212(g) of the Energy Policy Act of 1992 (42 U.S.C. 13317(g)) is amended to read as follows:

“(g) **AUTHORIZATION OF APPROPRIATIONS.**—

“(1) **IN GENERAL.**—Subject to paragraph (2), there are authorized to be appropriated such sums as may be necessary to carry out this section for fiscal years 2003 through 2023.

“(2) **AVAILABILITY OF FUNDS.**—Funds made available under paragraph (1) shall remain available until expended.”.

SEC. 203. FEDERAL PURCHASE REQUIREMENT.

(a) **REQUIREMENT.**—The President, acting through the Secretary of Energy, shall seek to ensure that, to the extent economically feasible and technically practicable, of the total amount of electric energy the Federal Government consumes during any fiscal year, the following amounts shall be renewable energy:

(1) Not less than 3 percent in fiscal years 2005 through 2007.

(2) Not less than 5 percent in fiscal years 2008 through 2010.

(3) Not less than 7.5 percent in fiscal year 2011 and each fiscal year thereafter.

(b) **DEFINITIONS.**—In this section:

(1) **BIOMASS.**—The term “biomass” means any solid, nonhazardous, cellulosic material that is derived from—

(A) any of the following forest-related resources: mill residues, precommercial thinnings, slash, and brush, or nonmerchantable material;

(B) solid wood waste materials, including waste pallets, crates, dunnage, manufac-

turing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste (garbage), gas derived from the biodegradation of solid waste, or paper that is commonly recycled;

(C) agriculture wastes, including orchard tree crops, vineyard, grain, legumes, sugar, and other crop by-products or residues, and livestock waste nutrients; or

(D) a plant that is grown exclusively as a fuel for the production of electricity.

(2) **RENEWABLE ENERGY.**—The term “renewable energy” means electric energy generated from solar, wind, biomass, landfill gas, geothermal, municipal solid waste, or new hydroelectric generation capacity achieved from increased efficiency or additions of new capacity at an existing hydroelectric project.

(c) **CALCULATION.**—For purposes of determining compliance with the requirement of this section, the amount of renewable energy shall be doubled if—

(1) the renewable energy is produced and used on-site at a Federal facility;

(2) the renewable energy is produced on Federal lands and used at a Federal facility; or

(3) the renewable energy is produced on Indian land as defined in title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501 et seq.) and used at a Federal facility.

(d) **REPORT.**—Not later than April 15, 2005, and every 2 years thereafter, the Secretary of Energy shall provide a report to Congress on the progress of the Federal Government in meeting the goals established by this section.

SEC. 204. INSULAR AREAS ENERGY SECURITY.

Section 604 of the Act entitled “An Act to authorize appropriations for certain insular areas of the United States, and for other purposes”, approved December 24, 1980 (48 U.S.C. 1492), is amended—

(1) in subsection (a)(4) by striking the period and inserting a semicolon;

(2) by adding at the end of subsection (a) the following new paragraphs:

“(5) electric power transmission and distribution lines in insular areas are inadequate to withstand damage caused by the hurricanes and typhoons which frequently occur in insular areas and such damage often costs millions of dollars to repair; and

“(6) the refinement of renewable energy technologies since the publication of the 1982 Territorial Energy Assessment prepared pursuant to subsection (c) reveals the need to reassess the state of energy production, consumption, infrastructure, reliance on imported energy, opportunities for energy conservation and increased energy efficiency, and indigenous sources in regard to the insular areas.”;

(3) by amending subsection (e) to read as follows:

“(e)(1) The Secretary of the Interior, in consultation with the Secretary of Energy and the head of government of each insular area, shall update the plans required under subsection (c) by—

“(A) updating the contents required by subsection (c);

“(B) drafting long-term energy plans for such insular areas with the objective of reducing, to the extent feasible, their reliance on energy imports by the year 2010, increasing energy conservation and energy efficiency, and maximizing, to the extent feasible, use of indigenous energy sources; and

“(C) drafting long-term energy transmission line plans for such insular areas with the objective that the maximum percentage feasible of electric power transmission and distribution lines in each insu-

lar area be protected from damage caused by hurricanes and typhoons.

“(2) Not later than December 31, 2005, the Secretary of the Interior shall submit to Congress the updated plans for each insular area required by this subsection.”; and

(4) by amending subsection (g)(4) to read as follows:

“(4) **POWER LINE GRANTS FOR INSULAR AREAS.**—

“(A) **IN GENERAL.**—The Secretary of the Interior is authorized to make grants to governments of insular areas of the United States to carry out eligible projects to protect electric power transmission and distribution lines in such insular areas from damage caused by hurricanes and typhoons.

“(B) **ELIGIBLE PROJECTS.**—The Secretary may award grants under subparagraph (A) only to governments of insular areas of the United States that submit written project plans to the Secretary for projects that meet the following criteria:

“(i) The project is designed to protect electric power transmission and distribution lines located in 1 or more of the insular areas of the United States from damage caused by hurricanes and typhoons.

“(ii) The project is likely to substantially reduce the risk of future damage, hardship, loss, or suffering.

“(iii) The project addresses 1 or more problems that have been repetitive or that pose a significant risk to public health and safety.

“(iv) The project is not likely to cost more than the value of the reduction in direct damage and other negative impacts that the project is designed to prevent or mitigate. The cost benefit analysis required by this criterion shall be computed on a net present value basis.

“(v) The project design has taken into consideration long-term changes to the areas and persons it is designed to protect and has manageable future maintenance and modification requirements.

“(vi) The project plan includes an analysis of a range of options to address the problem it is designed to prevent or mitigate and a justification for the selection of the project in light of that analysis.

“(vii) The applicant has demonstrated to the Secretary that the matching funds required by subparagraph (D) are available.

“(C) **PRIORITY.**—When making grants under this paragraph, the Secretary shall give priority to grants for projects which are likely to—

“(i) have the greatest impact on reducing future disaster losses; and

“(ii) best conform with plans that have been approved by the Federal Government or the government of the insular area where the project is to be carried out for development or hazard mitigation for that insular area.

“(D) **MATCHING REQUIREMENT.**—The Federal share of the cost for a project for which a grant is provided under this paragraph shall not exceed 75 percent of the total cost of that project. The non-Federal share of the cost may be provided in the form of cash or services.

“(E) **TREATMENT OF FUNDS FOR CERTAIN PURPOSES.**—Grants provided under this paragraph shall not be considered as income, a resource, or a duplicative program when determining eligibility or benefit levels for Federal major disaster and emergency assistance.

“(F) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this paragraph \$5,000,000 for each fiscal year beginning after the date of the enactment of this paragraph.”.

SEC. 205. USE OF PHOTOVOLTAIC ENERGY IN PUBLIC BUILDINGS.

(a) IN GENERAL.—Subchapter VI of chapter 31 of title 40, United States Code, is amended by adding at the end the following:

“§3177. Use of photovoltaic energy in public buildings

“(a) PHOTOVOLTAIC ENERGY COMMERCIALIZATION PROGRAM.—

“(1) IN GENERAL.—The Administrator of General Services may establish a photovoltaic energy commercialization program for the procurement and installation of photovoltaic solar electric systems for electric production in new and existing public buildings.

“(2) PURPOSES.—The purposes of the program shall be to accomplish the following:

“(A) To accelerate the growth of a commercially viable photovoltaic industry to make this energy system available to the general public as an option which can reduce the national consumption of fossil fuel.

“(B) To reduce the fossil fuel consumption and costs of the Federal Government.

“(C) To attain the goal of installing solar energy systems in 20,000 Federal buildings by 2010, as contained in the Federal Government’s Million Solar Roof Initiative of 1997.

“(D) To stimulate the general use within the Federal Government of life-cycle costing and innovative procurement methods.

“(E) To develop program performance data to support policy decisions on future incentive programs with respect to energy.

“(3) ACQUISITION OF PHOTOVOLTAIC SOLAR ELECTRIC SYSTEMS.—

“(A) IN GENERAL.—The program shall provide for the acquisition of photovoltaic solar electric systems and associated storage capability for use in public buildings.

“(B) ACQUISITION LEVELS.—The acquisition of photovoltaic electric systems shall be at a level substantial enough to allow use of low-cost production techniques with at least 150 megawatts (peak) cumulative acquired during the 5 years of the program.

“(4) ADMINISTRATION.—The Administrator shall administer the program and shall—

“(A) issue such rules and regulations as may be appropriate to monitor and assess the performance and operation of photovoltaic solar electric systems installed pursuant to this subsection;

“(B) develop innovative procurement strategies for the acquisition of such systems; and

“(C) transmit to Congress an annual report on the results of the program.

“(b) PHOTOVOLTAIC SYSTEMS EVALUATION PROGRAM.—

“(1) IN GENERAL.—Not later than 60 days after the date of enactment of this section, the Administrator, in consultation with the Secretary of Energy, shall establish a photovoltaic solar energy systems evaluation program to evaluate such photovoltaic solar energy systems as are required in public buildings.

“(2) PROGRAM REQUIREMENT.—In evaluating photovoltaic solar energy systems under the program, the Administrator shall ensure that such systems reflect the most advanced technology.

“(c) AUTHORIZATION OF APPROPRIATIONS.—

“(1) PHOTOVOLTAIC ENERGY COMMERCIALIZATION PROGRAM.—There are authorized to be appropriated to carry out subsection (a) \$50,000,000 for each of fiscal years 2004 through 2008. Such sums shall remain available until expended.

“(2) PHOTOVOLTAIC SYSTEMS EVALUATION PROGRAM.—There are authorized to be appropriated to carry out subsection (b) \$10,000,000 for each of fiscal years 2004 through 2008. Such sums shall remain available until expended.”

(b) CONFORMING AMENDMENT.—The section analysis for such chapter is amended by in-

serting after the item relating to section 3176 the following:

“3177. Use of photovoltaic energy in public buildings.”

SEC. 206. GRANTS TO IMPROVE THE COMMERCIAL VALUE OF FOREST BIOMASS FOR ELECTRIC ENERGY, USEFUL HEAT, TRANSPORTATION FUELS, PETROLEUM-BASED PRODUCT SUBSTITUTES, AND OTHER COMMERCIAL PURPOSES.

(a) FINDINGS.—Congress finds the following:

(1) Thousands of communities in the United States, many located near Federal lands, are at risk to wildfire. Approximately 190,000,000 acres of land managed by the Secretary of Agriculture and the Secretary of the Interior are at risk of catastrophic fire in the near future. The accumulation of heavy forest fuel loads continues to increase as a result of disease, insect infestations, and drought, further raising the risk of fire each year.

(2) In addition, more than 70,000,000 acres across all land ownerships are at risk to higher than normal mortality over the next 15 years from insect infestation and disease. High levels of tree mortality from insects and disease result in increased fire risk, loss of old growth, degraded watershed conditions, and changes in species diversity and productivity, as well as diminished fish and wildlife habitat and decreased timber values.

(3) Preventive treatments such as removing fuel loading, ladder fuels, and hazard trees, planting proper species mix and restoring and protecting early successional habitat, and other specific restoration treatments designed to reduce the susceptibility of forest land, woodland, and rangeland to insect outbreaks, disease, and catastrophic fire present the greatest opportunity for long-term forest health by creating a mosaic of species-mix and age distribution. Such prevention treatments are widely acknowledged to be more successful and cost effective than suppression treatments in the case of insects, disease, and fire.

(4) The byproducts of preventive treatment (wood, brush, thinnings, chips, slash, and other hazardous fuels) removed from forest lands, woodlands and rangelands represent an abundant supply of biomass for biomass-to-energy facilities and raw material for business. There are currently few markets for the extraordinary volumes of byproducts being generated as a result of the necessary large-scale preventive treatment activities.

(5) The United States should—

(A) promote economic and entrepreneurial opportunities in using byproducts removed through preventive treatment activities related to hazardous fuels reduction, disease, and insect infestation; and

(B) develop and expand markets for traditionally underused wood and biomass as an outlet for byproducts of preventive treatment activities.

(b) DEFINITIONS.—In this section:

(1) BIOMASS.—The term “biomass” means trees and woody plants, including limbs, tops, needles, and other woody parts, and byproducts of preventive treatment, such as wood, brush, thinnings, chips, and slash, that are removed—

(A) to reduce hazardous fuels; or

(B) to reduce the risk of or to contain disease or insect infestation.

(2) INDIAN TRIBE.—The term “Indian tribe” has the meaning given the term in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)).

(3) PERSON.—The term “person” includes—

(A) an individual;

(B) a community (as determined by the Secretary concerned);

(C) an Indian tribe;

(D) a small business, micro-business, or a corporation that is incorporated in the United States; and

(E) a nonprofit organization.

(4) PREFERRED COMMUNITY.—The term “preferred community” means—

(A) any town, township, municipality, or other similar unit of local government (as determined by the Secretary concerned) that—

(i) has a population of not more than 50,000 individuals; and

(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation; or

(B) any county that—

(i) is not contained within a metropolitan statistical area; and

(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation.

(5) SECRETARY CONCERNED.—The term “Secretary concerned” means—

(A) the Secretary of Agriculture with respect to National Forest System lands; and

(B) the Secretary of the Interior with respect to Federal lands under the jurisdiction of the Secretary of the Interior and Indian lands.

(c) BIOMASS COMMERCIAL USE GRANT PROGRAM.—

(1) IN GENERAL.—The Secretary concerned may make grants to any person that owns or operates a facility that uses biomass as a raw material to produce electric energy, sensible heat, transportation fuels, or substitutes for petroleum-based products to offset the costs incurred to purchase biomass for use by such facility.

(2) GRANT AMOUNTS.—A grant under this subsection may not exceed \$20 per green ton of biomass delivered.

(3) MONITORING OF GRANT RECIPIENT ACTIVITIES.—As a condition of a grant under this subsection, the grant recipient shall keep such records as the Secretary concerned may require to fully and correctly disclose the use of the grant funds and all transactions involved in the purchase of biomass. Upon notice by a representative of the Secretary concerned, the grant recipient shall afford the representative reasonable access to the facility that purchases or uses biomass and an opportunity to examine the inventory and records of the facility.

(d) IMPROVED BIOMASS USE GRANT PROGRAM.—

(1) IN GENERAL.—The Secretary concerned may make grants to persons to offset the cost of projects to develop or research opportunities to improve the use of, or add value to, biomass. In making such grants, the Secretary concerned shall give preference to persons in preferred communities.

(2) SELECTION.—The Secretary concerned shall select a grant recipient under paragraph (1) after giving consideration to the anticipated public benefits of the project, including the potential to develop thermal or electric energy resources or affordable energy, opportunities for the creation or expansion of small businesses and micro-businesses, and the potential for new job creation.

(3) GRANT AMOUNT.—A grant under this subsection may not exceed \$500,000.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated \$50,000,000 for each of the fiscal years 2004 through 2014 to carry out this section.

(f) REPORT.—Not later than October 1, 2010, the Secretary of Agriculture, in consultation with the Secretary of the Interior, shall submit to the Committee on Energy and Natural Resources and the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Resources, the Committee on Energy and Commerce, and the Committee on Agriculture of the House of Representatives a report describing the results of the grant programs authorized by this section. The report shall include the following:

(1) An identification of the size, type, and the use of biomass by persons that receive grants under this section.

(2) The distance between the land from which the biomass was removed and the facility that used the biomass.

(3) The economic impacts, particularly new job creation, resulting from the grants to and operation of the eligible operations.

SEC. 207. BIOBASED PRODUCTS.

Section 9002(c)(1) of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8102(c)(1)) is amended by inserting “or such items that comply with the regulations issued under section 103 of Public Law 100-556 (42 U.S.C. 6914b-1)” after “practicable”.

Subtitle B—Geothermal Energy

SEC. 211. SHORT TITLE.

This subtitle may be cited as the “John Rishel Geothermal Steam Act Amendments of 2004”.

SEC. 212. COMPETITIVE LEASE SALE REQUIREMENTS.

Section 4 of the Geothermal Steam Act of 1970 (30 U.S.C. 1003) is amended to read as follows:

“SEC. 4. LEASING PROCEDURES.

“(a) NOMINATIONS.—The Secretary shall accept nominations of lands to be leased at any time from qualified companies and individuals under this Act.

“(b) COMPETITIVE LEASE SALE REQUIRED.—The Secretary shall hold a competitive lease sale at least once every 2 years for lands in a State which has nominations pending under subsection (a) if such lands are otherwise available for leasing.

“(c) NONCOMPETITIVE LEASING.—The Secretary shall make available for a period of 2 years for noncompetitive leasing any tract for which a competitive lease sale is held, but for which the Secretary does not receive any bids in a competitive lease sale.

“(d) LEASES SOLD AS A BLOCK.—If information is available to the Secretary indicating a geothermal resource that could be produced as 1 unit can reasonably be expected to underlie more than 1 parcel to be offered in a competitive lease sale, the parcels for such a resource may be offered for bidding as a block in the competitive lease sale.

“(e) PENDING LEASE APPLICATIONS ON APRIL 1, 2003.—It shall be a priority for the Secretary of the Interior, and for the Secretary of Agriculture with respect to National Forest Systems lands, to ensure timely completion of administrative actions necessary to process applications for geothermal leasing pending on April 1, 2003. Such an application, and any lease issued pursuant to such an application—

“(1) except as provided in paragraph (2), shall be subject to this section as in effect on April 1, 2003; or

“(2) at the election of the applicant, shall be subject to this section as in effect on the effective date of this paragraph.”

SEC. 213. DIRECT USE.

(a) FEES FOR DIRECT USE.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is amended—

(1) in paragraph (c) by redesignating subparagraphs (1) and (2) as subparagraphs (A) and (B);

(2) by redesignating paragraphs (a) through (d) in order as paragraphs (1) through (4);

(3) by inserting “(a) IN GENERAL.—” after “SEC. 5.”; and

(4) by adding at the end the following:

“(b) DIRECT USE.—Notwithstanding subsection (a)(1), with respect to the direct use of geothermal resources for purposes other than the commercial generation of electricity, the Secretary of the Interior shall establish a schedule of fees and collect fees pursuant to such a schedule in lieu of royalties based upon the total amount of the geothermal resources used. The schedule of fees shall ensure that there is a fair return to the public for the use of a geothermal resource based upon comparable fees charged for direct use of geothermal resources by States or private persons. For direct use by a State or local government for public purposes there shall be no royalty and the fee charged shall be nominal. Leases in existence on the date of enactment of the Energy Policy Act of 2003 shall be modified in order to reflect the provisions of this subsection.”

(b) LEASING FOR DIRECT USE.—Section 4 of the Geothermal Steam Act of 1970 (30 U.S.C. 1003) is further amended by adding at the end the following:

“(f) LEASING FOR DIRECT USE OF GEOTHERMAL RESOURCES.—Lands leased under this Act exclusively for direct use of geothermal resources shall be leased to any qualified applicant who first applies for such a lease under regulations issued by the Secretary, if—

“(1) the Secretary publishes a notice of the lands proposed for leasing 60 days before the date of the issuance of the lease; and

“(2) the Secretary does not receive in the 60-day period beginning on the date of such publication any nomination to include the lands concerned in the next competitive lease sale.

“(g) AREA SUBJECT TO LEASE FOR DIRECT USE.—A geothermal lease for the direct use of geothermal resources shall embrace not more than the amount of acreage determined by the Secretary to be reasonably necessary for such proposed utilization.”

(c) EXISTING LEASES WITH A DIRECT USE FACILITY.—

(1) APPLICATION TO CONVERT.—Any lessee under a lease under the Geothermal Steam Act of 1970 that was issued before the date of the enactment of this Act may apply to the Secretary of the Interior, by not later than 18 months after the date of the enactment of this Act, to convert such lease to a lease for direct utilization of geothermal resources in accordance with the amendments made by this section.

(2) CONVERSION.—The Secretary shall approve such an application and convert such a lease to a lease in accordance with the amendments by not later than 180 days after receipt of such application, unless the Secretary determines that the applicant is not a qualified applicant with respect to the lease.

(3) APPLICATION OF NEW LEASE TERMS.—The amendment made by subsection (a)(4) shall apply with respect to payments under a lease converted under this subsection that are due and owing to the United States on or after July 16, 2003.

SEC. 214. ROYALTIES AND NEAR-TERM PRODUCTION INCENTIVES.

(a) ROYALTY.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended—

(1) in subsection (a) by striking paragraph (1) and inserting the following:

“(1) a royalty on electricity produced using geothermal steam and associated geothermal resources, other than direct use of geothermal resources, that shall be—

“(A) not less than 1 percent and not more than 2.5 percent of the gross proceeds from

the sale of electricity produced from such resources during the first 10 years of production under the lease; and

“(B) not less than 2 and not more than 5 percent of the gross proceeds from the sale of electricity produced from such resources during each year after such 10-year period;”;

and

(2) by adding at the end the following: “(C) FINAL REGULATION ESTABLISHING ROYALTY RATES.—In issuing any final regulation establishing royalty rates under this section, the Secretary shall seek—

“(1) to provide lessees a simplified administrative system;

“(2) to encourage new development; and

“(3) to achieve the same long-term level of royalty revenues to States and counties as the regulation in effect on the date of enactment of this subsection.”

(d) CREDITS FOR IN-KIND PAYMENTS OF ELECTRICITY.—The Secretary may provide to a lessee a credit against royalties owed under this Act, in an amount equal to the value of electricity provided under contract to a State or county government that is entitled to a portion of such royalties under section 20 of this Act, section 35 of the Mineral Leasing Act (30 U.S.C. 191), or section 6 of the Mineral Leasing Act for Acquired Lands (30 U.S.C. 355), if—

“(1) the Secretary has approved in advance the contract between the lessee and the State or county government for such in-kind payments;

“(2) the contract establishes a specific methodology to determine the value of such credits; and

“(3) the maximum credit will be equal to the royalty value owed to the State or county that is a party to the contract and the electricity received will serve as the royalty payment from the Federal Government to that entity.”

(b) DISPOSAL OF MONEYS FROM SALES, BONUSES, ROYALTIES, AND RENTALS.—Section 20 of the Geothermal Steam Act of 1970 (30 U.S.C. 1019) is amended to read as follows:

“SEC. 20. DISPOSAL OF MONEYS FROM SALES, BONUSES, RENTALS, AND ROYALTIES.

“(a) IN GENERAL.—Except with respect to lands in the State of Alaska, all monies received by the United States from sales, bonuses, rentals, and royalties under this Act shall be paid into the Treasury of the United States. Of amounts deposited under this subsection, subject to the provisions of section 35 of the Mineral Leasing Act (30 U.S.C. 191(b)) and section 5(a)(2) of this Act—

“(1) 50 percent shall be paid to the State within the boundaries of which the leased lands or geothermal resources are or were located; and

“(2) 25 percent shall be paid to the County within the boundaries of which the leased lands or geothermal resources are or were located.

“(b) USE OF PAYMENTS.—Amounts paid to a State or county under subsection (a) shall be used consistent with the terms of section 35 of the Mineral Leasing Act (30 U.S.C. 191).”

(c) NEAR-TERM PRODUCTION INCENTIVE FOR EXISTING LEASES.—

(1) IN GENERAL.—Notwithstanding section 5(a) of the Geothermal Steam Act of 1970, the royalty required to be paid shall be 50 percent of the amount of the royalty otherwise required, on any lease issued before the date of enactment of this Act that does not convert to new royalty terms under subsection (e)—

(A) with respect to commercial production of energy from a facility that begins such production in the 6-year period beginning on the date of the enactment of this Act; or

(B) on qualified expansion geothermal energy.

(2) 4-YEAR APPLICATION.—Paragraph (1) applies only to new commercial production of

energy from a facility in the first 4 years of such production.

(d) **DEFINITION OF QUALIFIED EXPANSION GEOTHERMAL ENERGY.**—In this section, the term “qualified expansion geothermal energy” means geothermal energy produced from a generation facility for which—

(1) the production is increased by more than 10 percent as a result of expansion of the facility carried out in the 6-year period beginning on the date of the enactment of this Act; and

(2) such production increase is greater than 10 percent of the average production by the facility during the 5-year period preceding the expansion of the facility.

(e) **ROYALTY UNDER EXISTING LEASES.**—

(1) **IN GENERAL.**—Any lessee under a lease issued under the Geothermal Steam Act of 1970 before the date of the enactment of this Act may modify the terms of the lease relating to payment of royalties to comply with the amendment made by subsection (a), by applying to the Secretary of the Interior by not later than 18 months after the date of the enactment of this Act.

(2) **APPLICATION OF MODIFICATION.**—Such modification shall apply to any use of geothermal steam and any associated geothermal resources to which the amendment applies that occurs after the date of that application.

(3) **CONSULTATION.**—The Secretary—

(A) shall consult with the State and local governments affected by any proposed changes in lease royalty terms under this subsection; and

(B) may establish a gross proceeds percentage within the range specified in the amendment made by subsection (a)(1) and with the concurrence of the lessee and the State.

SEC. 215. GEOTHERMAL LEASING AND PERMITTING ON FEDERAL LANDS.

(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this section, the Secretary of the Interior and the Secretary of Agriculture shall enter into and submit to Congress a memorandum of understanding in accordance with this section regarding leasing and permitting for geothermal development of public lands and National Forest System lands under their respective jurisdictions.

(b) **LEASE AND PERMIT APPLICATIONS.**—The memorandum of understanding shall—

(1) identify areas with geothermal potential on lands included in the National Forest System and, when necessary, require review of management plans to consider leasing under the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) as a land use; and

(2) establish an administrative procedure for processing geothermal lease applications, including lines of authority, steps in application processing, and time limits for application processing.

(c) **DATA RETRIEVAL SYSTEM.**—The memorandum of understanding shall establish a joint data retrieval system that is capable of tracking lease and permit applications and providing to the applicant information as to their status within the Departments of the Interior and Agriculture, including an estimate of the time required for administrative action.

SEC. 216. REVIEW AND REPORT TO CONGRESS.

The Secretary of the Interior shall promptly review and report to Congress not later than 3 years after the date of the enactment of this Act regarding the status of all withdrawals from leasing under the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) of Federal lands, specifying for each such area whether the basis for such withdrawal still applies.

SEC. 217. REIMBURSEMENT FOR COSTS OF NEPA ANALYSES, DOCUMENTATION, AND STUDIES.

(a) **IN GENERAL.**—The Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) is amended by adding at the end the following:

“SEC. 30. REIMBURSEMENT FOR COSTS OF CERTAIN ANALYSES, DOCUMENTATION, AND STUDIES.

“(a) **IN GENERAL.**—The Secretary of the Interior may reimburse a person that is a lessee, operator, operating rights owner, or applicant for any lease under this Act for reasonable amounts paid by the person for preparation for the Secretary by a contractor or other person selected by the Secretary of any project-level analysis, documentation, or related study required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to the lease.

“(b) **CONDITIONS.**—The Secretary may provide reimbursement under subsection (a) only if—

“(1) adequate funding to enable the Secretary to timely prepare the analysis, documentation, or related study is not appropriated;

“(2) the person paid the costs voluntarily;

“(3) the person maintains records of its costs in accordance with regulations issued by the Secretary;

“(4) the reimbursement is in the form of a reduction in the Federal share of the royalty required to be paid for the lease for which the analysis, documentation, or related study is conducted, and is agreed to by the Secretary and the person reimbursed prior to commencing the analysis, documentation, or related study; and

“(5) the agreement required under paragraph (4) contains provisions—

“(A) reducing royalties owed on lease production based on market prices;

“(B) stipulating an automatic termination of the royalty reduction upon recovery of documented costs; and

“(C) providing a process by which the lessee may seek reimbursement for circumstances in which production from the specified lease is not possible.”.

(b) **APPLICATION.**—The amendment made by this section shall apply with respect to an analysis, documentation, or a related study conducted on or after the date of enactment of this Act for any lease entered into before, on, or after the date of enactment of this Act.

(c) **DEADLINE FOR REGULATIONS.**—The Secretary shall issue regulations implementing the amendment made by this section by not later than 1 year after the date of enactment of this Act.

SEC. 218. ASSESSMENT OF GEOTHERMAL ENERGY POTENTIAL.

The Secretary of the Interior, acting through the Director of the United States Geological Survey and in cooperation with the States, shall update the 1978 Assessment of Geothermal Resources, and submit that updated assessment to Congress—

(1) not later than 3 years after the date of enactment of this Act; and

(2) thereafter as the availability of data and developments in technology warrant.

SEC. 219. COOPERATIVE OR UNIT PLANS.

Section 18 of the Geothermal Steam Act of 1970 (30 U.S.C. 1017) is amended to read as follows:

“SEC. 18. UNIT AND COMMUNITIZATION AGREEMENTS.

“(a) **ADOPTION OF UNITS BY LESSEES.**—

“(1) **IN GENERAL.**—For the purpose of more properly conserving the natural resources of any geothermal reservoir, field, or like area, or any part thereof (whether or not any part of the geothermal field, or like area, is then subject to any Unit Agreement (cooperative

plan of development or operation)), lessees thereof and their representatives may unite with each other, or jointly or separately with others, in collectively adopting and operating under a Unit Agreement for such field, or like area, or any part thereof including direct use resources, if determined and certified by the Secretary to be necessary or advisable in the public interest. A majority interest of owners of any single lease shall have the authority to commit that lease to a Unit Agreement. The Secretary of the Interior may also initiate the formation of a Unit Agreement if in the public interest.

“(2) **MODIFICATION OF LEASE REQUIREMENTS BY SECRETARY.**—The Secretary may, in the discretion of the Secretary, and with the consent of the holders of leases involved, establish, alter, change, or revoke rates of operations (including drilling, operations, production, and other requirements) of such leases and make conditions with reference to such leases, with the consent of the lessees, in connection with the creation and operation of any such Unit Agreement as the Secretary may deem necessary or proper to secure the proper protection of the public interest. Leases with unlike lease terms or royalty rates do not need to be modified to be in the same unit.

“(b) **REQUIREMENT OF PLANS UNDER NEW LEASES.**—The Secretary—

“(1) may provide that geothermal leases issued under this Act shall contain a provision requiring the lessee to operate under such a reasonable Unit Agreement; and

“(2) may prescribe such an Agreement under which such lessee shall operate, which shall adequately protect the rights of all parties in interest, including the United States.

“(c) **MODIFICATION OF RATE OF PROSPECTING, DEVELOPMENT, AND PRODUCTION.**—The Secretary may require that any Agreement authorized by this section that applies to lands owned by the United States contain a provision under which authority is vested in the Secretary, or any person, committee, or State or Federal officer or agency as may be designated in the Agreement to alter or modify from time to time the rate of prospecting and development and the quantity and rate of production under such an Agreement.

“(d) **EXCLUSION FROM DETERMINATION OF HOLDING OR CONTROL.**—Any lands that are subject to any Agreement approved or prescribed by the Secretary under this section shall not be considered in determining holdings or control under any provision of this Act.

“(e) **POOLING OF CERTAIN LANDS.**—If separate tracts of lands cannot be independently developed and operated to use geothermal steam and associated geothermal resources pursuant to any section of this Act—

“(1) such lands, or a portion thereof, may be pooled with other lands, whether or not owned by the United States, for purposes of development and operation under a Communitization Agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the production unit, if such pooling is determined by the Secretary to be in the public interest; and

“(2) operation or production pursuant to such an Agreement shall be treated as operation or production with respect to each tract of land that is subject to the agreement.

“(f) **UNIT AGREEMENT REVIEW.**—No more than 5 years after approval of any cooperative or Unit Agreement and at least every 5 years thereafter, the Secretary shall review each such Agreement and, after notice and opportunity for comment, eliminate from inclusion in such Agreement any lands that the Secretary determines are not reasonably

necessary for Unit operations under the Agreement. Such elimination shall be based on scientific evidence, and shall occur only if it is determined by the Secretary to be for the purpose of conserving and properly managing the geothermal resource. Any land so eliminated shall be eligible for an extension under subsection (g) of section 6 if it meets the requirements for such an extension.

“(g) DRILLING OR DEVELOPMENT CONTRACTS.—The Secretary may, on such conditions as the Secretary may prescribe, approve drilling or development contracts made by 1 or more lessees of geothermal leases, with 1 or more persons, associations, or corporations if, in the discretion of the Secretary, the conservation of natural resources or the public convenience or necessity may require or the interests of the United States may be best served thereby. All leases operated under such approved drilling or development contracts, and interests thereunder, shall be excepted in determining holdings or control under section 7.

“(h) COORDINATION WITH STATE GOVERNMENTS.—The Secretary shall coordinate unitization and pooling activities with the appropriate State agencies and shall ensure that State leases included in any unitization or pooling arrangement are treated equally with Federal leases.”.

SEC. 220. ROYALTY ON BYPRODUCTS.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended in subsection (a) by striking paragraph (2) and inserting the following:

“(2) a royalty on any byproduct that is a mineral named in the first section of the Mineral Leasing Act (30 U.S.C. 181), and that is derived from production under the lease, at the rate of the royalty that applies under that Act to production of such mineral under a lease under that Act;”.

SEC. 221. REPEAL OF AUTHORITIES OF SECRETARY TO READJUST TERMS, CONDITIONS, RENTALS, AND ROYALTIES.

Section 8 of the Geothermal Steam Act of 1970 (30 U.S.C. 1007) is amended by repealing subsection (b), and by redesignating subsection (c) as subsection (b).

SEC. 222. CREDITING OF RENTAL TOWARD ROYALTY.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended—

(1) in subsection (a)(2) by inserting “and” after the semicolon at the end;

(2) in subsection (a)(3) by striking “; and” and inserting a period;

(3) by striking paragraph (4) of subsection (a); and

(4) by adding at the end the following:

“(e) CREDITING OF RENTAL TOWARD ROYALTY.—Any annual rental under this section that is paid with respect to a lease before the first day of the year for which the annual rental is owed shall be credited to the amount of royalty that is required to be paid under the lease for that year.”.

SEC. 223. LEASE DURATION AND WORK COMMITMENT REQUIREMENTS.

Section 6 of the Geothermal Steam Act of 1970 (30 U.S.C. 1005) is amended—

(1) by striking so much as precedes subsection (c), and striking subsections (e), (g), (h), (i), and (j);

(2) by redesignating subsections (c), (d), and (f) in order as subsections (g), (h), and (i); and

(3) by inserting before subsection (g), as so redesignated, the following:

“SEC. 6. LEASE TERM AND WORK COMMITMENT REQUIREMENTS.

“(a) IN GENERAL.—

“(1) PRIMARY TERM.—A geothermal lease shall be for a primary term of 10 years.

“(2) INITIAL EXTENSION.—The Secretary shall extend the primary term of a geo-

thermal lease for 5 years if, for each year after the fifth year of the lease—

“(A) the Secretary determined under subsection (c) that the lessee satisfied the work commitment requirements that applied to the lease for that year; or

“(B) the lessee paid in accordance with subsection (d) the value of any work that was not completed in accordance with those requirements.

“(3) ADDITIONAL EXTENSION.—The Secretary shall extend the primary term of a geothermal lease (after an initial extension under paragraph (2)) for an additional 5 years if, for each year of the initial extension under paragraph (2), the Secretary determined under subsection (c) that the lessee satisfied the work commitment requirements that applied to the lease for that year.

“(b) REQUIREMENT TO SATISFY ANNUAL WORK COMMITMENT REQUIREMENT.—

“(1) IN GENERAL.—The lessee for a geothermal lease shall, for each year after the fifth year of the lease, satisfy work commitment requirements prescribed by the Secretary that apply to the lease for that year.

“(2) PRESCRIPTION OF WORK COMMITMENT REQUIREMENTS.—The Secretary shall issue regulations prescribing minimum equivalent dollar value work commitment requirements for geothermal leases, that—

“(A) require that a lessee, in each year after the fifth year of the primary term of a geothermal lease, diligently work to achieve commercial production or utilization of steam under the lease;

“(B) require that in each year to which work commitment requirements under the regulations apply, the lessee shall significantly reduce the amount of work that remains to be done to achieve such production or utilization;

“(C) describe specific work that must be completed by a lessee by the end of each year to which the work commitment requirements apply and factors, such as force majeure events, that suspend or modify the work commitment obligation;

“(D) carry forward and apply to work commitment requirements for a year, work completed in any year in the preceding 3-year period that was in excess of the work required to be performed in that preceding year;

“(E) establish transition rules for leases issued before the date of the enactment of this subsection, including terms under which a lease that is near the end of its term on the date of enactment of this subsection may be extended for up to 2 years—

“(i) to allow achievement of production under the lease; or

“(ii) to allow the lease to be included in a producing unit; and

“(F) establish an annual payment that, at the option of the lessee, may be exercised in lieu of meeting any work requirement for a limited number of years that the Secretary determines will not impair achieving diligent development of the geothermal resource.

“(3) TERMINATION OF APPLICATION OF REQUIREMENTS.—Work commitment requirements prescribed under this subsection shall not apply to a geothermal lease after the date on which geothermal steam is produced or utilized under the lease in commercial quantities.

“(c) DETERMINATION OF WHETHER REQUIREMENTS SATISFIED.—The Secretary shall, by not later than 90 days after the end of each year for which work commitment requirements under subsection (b) apply to a geothermal lease—

“(1) determine whether the lessee has satisfied the requirements that apply for that year;

“(2) notify the lessee of that determination; and

“(3) in the case of a notification that the lessee did not satisfy work commitment requirements for the year, include in the notification—

“(A) a description of the specific work that was not completed by the lessee in accordance with the requirements; and

“(B) the amount of the dollar value of such work that was not completed, reduced by the amount of expenditures made for work completed in a prior year that is carried forward pursuant to subsection (b)(2)(D).

“(d) PAYMENT OF VALUE OF UNCOMPLETED WORK.—

“(1) IN GENERAL.—If the Secretary notifies a lessee that the lessee failed to satisfy work commitment requirements under subsection (b), the lessee shall pay to the Secretary, by not later than the end of the 60-day period beginning on the date of the notification, the dollar value of work that was not completed by the lessee, in the amount stated in the notification (as reduced under subsection (c)(3)(B)).

“(2) FAILURE TO PAY VALUE OF UNCOMPLETED WORK.—If a lessee fails to pay such amount to the Secretary before the end of that period, the lease shall terminate upon the expiration of the period.

“(e) CONTINUATION AFTER COMMERCIAL PRODUCTION OR UTILIZATION.—If geothermal steam is produced or utilized in commercial quantities within the primary term of the lease under subsection (a) (including any extension of the lease under subsection (a)), such lease shall continue until the date on which geothermal steam is no longer produced or utilized in commercial quantities.

“(f) CONVERSION OF GEOTHERMAL LEASE TO MINERAL LEASE.—The lessee under a lease that has produced geothermal steam for electrical generation, has been determined by the Secretary to be incapable of any further commercial production or utilization of geothermal steam, and that is producing any valuable byproduct in payable quantities may, within 6 months after such determination—

“(1) convert the lease to a mineral lease under the Mineral Leasing Act (30 U.S.C. 181 et seq.) or under the Mineral Leasing Act for Acquired Lands (30 U.S.C. 351 et seq.), if the lands that are subject to the lease can be leased under that Act for the production of such byproduct; or

“(2) convert the lease to a mining claim under the general mining laws, if the byproduct is a locatable mineral.”.

SEC. 224. ADVANCED ROYALTIES REQUIRED FOR SUSPENSION OF PRODUCTION.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended by adding at the end the following:

“(f) ADVANCED ROYALTIES REQUIRED FOR SUSPENSION OF PRODUCTION.—

“(1) CONTINUATION OF LEASE FOLLOWING CESSATION OF PRODUCTION.—If, at any time after commercial production under a lease is achieved, production ceases for any cause the lease shall remain in full force and effect—

“(A) during the 1-year period beginning on the date production ceases; and

“(B) after such period if, and so long as, the lessee commences and continues diligently and in good faith until such production is resumed the steps, operations, or procedures necessary to cause a resumption of such production.

“(2) If production of heat or energy under a geothermal lease is suspended after the date of any such production for which royalty is required under subsection (a) and the terms of paragraph (1) are not met, the Secretary shall require the lessee, until the end of such suspension, to pay royalty in advance at the monthly pro-rata rate of the average annual rate at which such royalty was

paid each year in the 5-year-period preceding the date of suspension.

“(3) Paragraph (2) shall not apply if the suspension is required or otherwise caused by the Secretary, the Secretary of a military department, a State or local government, or a force majeure.”.

SEC. 225. ANNUAL RENTAL.

(a) ANNUAL RENTAL RATE.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended in subsection (a) in paragraph (3) by striking “\$1 per acre or fraction thereof for each year of the lease” and all that follows through the end of the paragraph and inserting “\$1 per acre or fraction thereof for each year of the lease through the tenth year in the case of a lease awarded in a noncompetitive lease sale; or \$2 per acre or fraction thereof for the first year, \$3 per acre or fraction thereof for each of the second through tenth years, in the case of a lease awarded in a competitive lease sale; and \$5 per acre or fraction thereof for each year after the 10th year thereof for all leases.”.

(b) TERMINATION OF LEASE FOR FAILURE TO PAY RENTAL.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended by adding at the end the following:

“(g) TERMINATION OF LEASE FOR FAILURE TO PAY RENTAL.—

“(1) IN GENERAL.—The Secretary shall terminate any lease with respect to which rental is not paid in accordance with this Act and the terms of the lease under which the rental is required, upon the expiration of the 45-day period beginning on the date of the failure to pay such rental.

“(2) NOTIFICATION.—The Secretary shall promptly notify a lessee that has not paid rental required under the lease that the lease will be terminated at the end of the period referred to in paragraph (1).

“(3) REINSTATEMENT.—A lease that would otherwise terminate under paragraph (1) shall not terminate under that paragraph if the lessee pays to the Secretary, before the end of the period referred to in paragraph (1), the amount of rental due plus a late fee equal to 10 percent of such amount.”.

SEC. 226. LEASING AND PERMITTING ON FEDERAL LANDS WITHDRAWN FOR MILITARY PURPOSES.

Not later than 2 years after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Defense, in consultation with each military service and with interested States, counties, representatives of the geothermal industry, and other persons, shall submit to Congress a joint report concerning leasing and permitting activities for geothermal energy on Federal lands withdrawn for military purposes. Such report shall include the following:

(1) A description of the Military Geothermal Program, including any differences between it and the non-Military Geothermal Program, including required security procedures, and operational considerations, and discussions as to the differences, and why they are important. Further, the report shall describe revenues or energy provided to the Department of Defense and its facilities, royalty structures, where applicable, and any revenue sharing with States and counties or other benefits between—

(A) the implementation of the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) and other applicable Federal law by the Secretary of the Interior; and

(B) the administration of geothermal leasing under section 2689 of title 10, United States Code, by the Secretary of Defense.

(2) If appropriate, a description of the current methods and procedures used to ensure interagency coordination, where needed, in developing renewable energy sources on Fed-

eral lands withdrawn for military purposes, and an identification of any new procedures that might be required in the future for the improvement of interagency coordination to ensure efficient processing and administration of leases or contracts for geothermal energy on Federal lands withdrawn for military purposes, consistent with the defense purposes of such withdrawals.

(3) Recommendations for any legislative or administrative actions that might better achieve increased geothermal production, including a common royalty structure, leasing procedures, or other changes that increase production, offset military operation costs, or enhance the Federal agencies' ability to develop geothermal resources.

Except as provided in this section, nothing in this subtitle shall affect the legal status of the Department of the Interior and the Department of the Defense with respect to each other regarding geothermal leasing and development until such status is changed by law.

SEC. 227. TECHNICAL AMENDMENTS.

The Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) is further amended as follows:

(1) By striking “geothermal steam and associated geothermal resources” each place it appears and inserting “geothermal resources”.

(2) Section 2(e) (30 U.S.C. 1001(e)) is amended to read as follows:

“(e) ‘direct use’ means utilization of geothermal resources for commercial, residential, agricultural, public facilities, or other energy needs other than the commercial production of electricity; and”.

(3) Section 21 (30 U.S.C. 1020) is amended by striking “(a) Within one hundred” and all that follows through “(b) Geothermal” and inserting “Geothermal”.

(4) The first section (30 U.S.C. 1001 note) is amended by striking “That this” and inserting the following:

“SEC. 1. SHORT TITLE.

“This”.

(5) Section 2 (30 U.S.C. 1001) is amended by striking “SEC. 2. As” and inserting the following:

“SEC. 2. DEFINITIONS.

“As”.

(6) Section 3 (30 U.S.C. 1002) is amended by striking “SEC. 3. Subject” and inserting the following:

“SEC. 3. LANDS SUBJECT TO GEOTHERMAL LEASING.

“Subject”.

(7) Section 5 (30 U.S.C. 1004) is further amended by striking “SEC. 5.”, and by inserting immediately before and above subsection (a) the following:

“SEC. 5. RENTS AND ROYALTIES.”.

(8) Section 7 (30 U.S.C. 1006) is amended by striking “SEC. 7. A geothermal” and inserting the following:

“SEC. 7. ACREAGE OF GEOTHERMAL LEASE.

“A geothermal”.

(9) Section 8 (30 U.S.C. 1007) is amended by striking “SEC. 8. (a) The” and inserting the following:

“SEC. 8. READJUSTMENT OF LEASE TERMS AND CONDITIONS.

“(a) The”.

(10) Section 9 (30 U.S.C. 1008) is amended by striking “SEC. 9. If” and inserting the following:

“SEC. 9. BYPRODUCTS.

“If”.

(11) Section 10 (30 U.S.C. 1009) is amended by striking “SEC. 10. The” and inserting the following:

“SEC. 10. RELINQUISHMENT OF GEOTHERMAL RIGHTS.

“The”.

(12) Section 11 (30 U.S.C. 1010) is amended by striking “SEC. 11. The” and inserting the following:

“SEC. 11. SUSPENSION OF OPERATIONS AND PRODUCTION.

“The”.

(13) Section 12 (30 U.S.C. 1011) is amended by striking “SEC. 12. Leases” and inserting the following:

“SEC. 12. TERMINATION OF LEASES.

“Leases”.

(14) Section 13 (30 U.S.C. 1012) is amended by striking “SEC. 13. The” and inserting the following:

“SEC. 13. WAIVER, SUSPENSION, OR REDUCTION OF RENTAL OR ROYALTY.

“The”.

(15) Section 14 (30 U.S.C. 1013) is amended by striking “SEC. 14. Subject” and inserting the following:

“SEC. 14. SURFACE LAND USE.

“Subject”.

(16) Section 15 (30 U.S.C. 1014) is amended by striking “SEC. 15. (a) Geothermal” and inserting the following:

“SEC. 15. LANDS SUBJECT TO GEOTHERMAL LEASING.

“(a) Geothermal”.

(17) Section 16 (30 U.S.C. 1015) is amended by striking “SEC. 16. Leases” and inserting the following:

“SEC. 16. REQUIREMENT FOR LESSEES.

“Leases”.

(18) Section 17 (30 U.S.C. 1016) is amended by striking “SEC. 17. Administration” and inserting the following:

“SEC. 17. ADMINISTRATION.

“Administration”.

(19) Section 19 (30 U.S.C. 1018) is amended by striking “SEC. 19. Upon” and inserting the following:

“SEC. 19. DATA FROM FEDERAL AGENCIES.

“Upon”.

(20) Section 21 (30 U.S.C. 1020) is further amended by striking “SEC. 21.”, and by inserting immediately before and above the remainder of that section the following:

“SEC. 21. PUBLICATION IN FEDERAL REGISTER; RESERVATION OF MINERAL RIGHTS.”.

(21) Section 22 (30 U.S.C. 1021) is amended by striking “SEC. 22. Nothing” and inserting the following:

“SEC. 22. FEDERAL EXEMPTION FROM STATE WATER LAWS.

“Nothing”.

(22) Section 23 (30 U.S.C. 1022) is amended by striking “SEC. 23. (a) All” and inserting the following:

“SEC. 23. PREVENTION OF WASTE; EXCLUSIVITY.

“(a) All”.

(23) Section 24 (30 U.S.C. 1023) is amended by striking “SEC. 24. The” and inserting the following:

“SEC. 24. RULES AND REGULATIONS.

“The”.

(24) Section 25 (30 U.S.C. 1024) is amended by striking “SEC. 25. As” and inserting the following:

“SEC. 25. INCLUSION OF GEOTHERMAL LEASING UNDER CERTAIN OTHER LAWS.

“As”.

(25) Section 26 is amended by striking “SEC. 26. The” and inserting the following:

“SEC. 26. AMENDMENT.

“The”.

(26) Section 27 (30 U.S.C. 1025) is amended by striking “SEC. 27. The” and inserting the following:

“SEC. 27. FEDERAL RESERVATION OF CERTAIN MINERAL RIGHTS.

“The”.

(27) Section 28 (30 U.S.C. 1026) is amended by striking “SEC. 28. (a)(1) The” and inserting the following:

SEC. 28. SIGNIFICANT THERMAL FEATURES.

“(a)(1) The”.

(28) Section 29 (30 U.S.C. 1027) is amended by striking “SEC. 29. The” and inserting the following:

“SEC. 29. LAND SUBJECT TO PROHIBITION ON LEASING.

“The”.

Subtitle C—Hydroelectric**PART I—ALTERNATIVE CONDITIONS****SEC. 231. ALTERNATIVE CONDITIONS AND FISHWAYS.**

(a) FEDERAL RESERVATIONS.—Section 4(e) of the Federal Power Act (16 U.S.C. 797(e)) is amended by inserting after “adequate protection and utilization of such reservation.” at the end of the first proviso the following: “The license applicant shall be entitled to a determination on the record, after opportunity for an expedited agency trial-type hearing of any disputed issues of material fact, with respect to such conditions. Such hearing may be conducted in accordance with procedures established by agency regulation in consultation with the Federal Energy Regulatory Commission.”.

(b) FISHWAYS.—Section 18 of the Federal Power Act (16 U.S.C. 811) is amended by inserting after “and such fishways as may be prescribed by the Secretary of Commerce.” the following: “The license applicant shall be entitled to a determination on the record, after opportunity for an expedited agency trial-type hearing of any disputed issues of material fact, with respect to such fishways. Such hearing may be conducted in accordance with procedures established by agency regulation in consultation with the Federal Energy Regulatory Commission.”.

(c) ALTERNATIVE CONDITIONS AND PRESCRIPTIONS.—Part I of the Federal Power Act (16 U.S.C. 791a et seq.) is amended by adding the following new section at the end thereof:

“SEC. 33. ALTERNATIVE CONDITIONS AND PRESCRIPTIONS.

“(a) ALTERNATIVE CONDITIONS.—(1) Whenever any person applies for a license for any project works within any reservation of the United States, and the Secretary of the department under whose supervision such reservation falls (referred to in this subsection as “the Secretary”) deems a condition to such license to be necessary under the first proviso of section 4(e), the license applicant may propose an alternative condition.

“(2) Notwithstanding the first proviso of section 4(e), the Secretary shall accept the proposed alternative condition referred to in paragraph (1), and the Commission shall include in the license such alternative condition, if the Secretary determines, based on substantial evidence provided by the license applicant or otherwise available to the Secretary, that such alternative condition—

“(A) provides for the adequate protection and utilization of the reservation; and

“(B) will either—

“(i) cost less to implement; or

“(ii) result in improved operation of the project works for electricity production, as compared to the condition initially deemed necessary by the Secretary.

“(3) The Secretary shall submit into the public record of the Commission proceeding with any condition under section 4(e) or alternative condition it accepts under this section, a written statement explaining the basis for such condition, and reason for not accepting any alternative condition under this section. The written statement must demonstrate that the Secretary gave equal consideration to the effects of the condition adopted and alternatives not accepted on energy supply, distribution, cost, and use; flood control; navigation; water supply; and air quality (in addition to the preservation of

other aspects of environmental quality); based on such information as may be available to the Secretary, including information voluntarily provided in a timely manner by the applicant and others. The Secretary shall also submit, together with the aforementioned written statement, all studies, data, and other factual information available to the Secretary and relevant to the Secretary’s decision.

“(4) Nothing in this section shall prohibit other interested parties from proposing alternative conditions.

“(5) If the Secretary does not accept an applicant’s alternative condition under this section, and the Commission finds that the Secretary’s condition would be inconsistent with the purposes of this part, or other applicable law, the Commission may refer the dispute to the Commission’s Dispute Resolution Service. The Dispute Resolution Service shall consult with the Secretary and the Commission and issue a non-binding advisory within 90 days. The Secretary may accept the Dispute Resolution Service advisory unless the Secretary finds that the recommendation will not provide for the adequate protection and utilization of the reservation. The Secretary shall submit the advisory and the Secretary’s final written determination into the record of the Commission’s proceeding.

“(b) ALTERNATIVE PRESCRIPTIONS.—(1) Whenever the Secretary of the Interior or the Secretary of Commerce prescribes a fishway under section 18, the license applicant or licensee may propose an alternative to such prescription to construct, maintain, or operate a fishway.

“(2) Notwithstanding section 18, the Secretary of the Interior or the Secretary of Commerce, as appropriate, shall accept and prescribe, and the Commission shall require, the proposed alternative referred to in paragraph (1), if the Secretary of the appropriate department determines, based on substantial evidence provided by the licensee or otherwise available to the Secretary, that such alternative—

“(A) will be no less protective than the fishway initially prescribed by the Secretary; and

“(B) will either—

“(i) cost less to implement; or

“(ii) result in improved operation of the project works for electricity production, as compared to the fishway initially deemed necessary by the Secretary.

“(3) The Secretary concerned shall submit into the public record of the Commission proceeding with any prescription under section 18 or alternative prescription it accepts under this section, a written statement explaining the basis for such prescription, and reason for not accepting any alternative prescription under this section. The written statement must demonstrate that the Secretary gave equal consideration to the effects of the condition adopted and alternatives not accepted on energy supply, distribution, cost, and use; flood control; navigation; water supply; and air quality (in addition to the preservation of environmental quality); based on such information as may be available to the Secretary, including information voluntarily provided in a timely manner by the applicant and others. The Secretary shall also submit, together with the aforementioned written statement, all studies, data, and other factual information available to the Secretary and relevant to the Secretary’s decision.

“(4) Nothing in this section shall prohibit other interested parties from proposing alternative prescriptions.

“(5) If the Secretary concerned does not accept an applicant’s alternative prescription under this section, and the Commission finds

that the Secretary’s prescription would be inconsistent with the purposes of this part, or other applicable law, the Commission may refer the dispute to the Commission’s Dispute Resolution Service. The Dispute Resolution Service shall consult with the Secretary and the Commission and issue a non-binding advisory within 90 days. The Secretary may accept the Dispute Resolution Service advisory unless the Secretary finds that the recommendation will be less protective than the fishway initially prescribed by the Secretary. The Secretary shall submit the advisory and the Secretary’s final written determination into the record of the Commission’s proceeding.”.

PART II—ADDITIONAL HYDROPOWER**SEC. 241. HYDROELECTRIC PRODUCTION INCENTIVES.**

(a) INCENTIVE PAYMENTS.—For electric energy generated and sold by a qualified hydroelectric facility during the incentive period, the Secretary of Energy (referred to in this section as the “Secretary”) shall make, subject to the availability of appropriations, incentive payments to the owner or operator of such facility. The amount of such payment made to any such owner or operator shall be as determined under subsection (e) of this section. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application which establishes that the applicant is eligible to receive such payment and which satisfies such other requirements as the Secretary deems necessary. Such application shall be in such form, and shall be submitted at such time, as the Secretary shall establish.

(b) DEFINITIONS.—For purposes of this section:

(1) QUALIFIED HYDROELECTRIC FACILITY.—The term “qualified hydroelectric facility” means a turbine or other generating device owned or solely operated by a non-Federal entity which generates hydroelectric energy for sale and which is added to an existing dam or conduit.

(2) EXISTING DAM OR CONDUIT.—The term “existing dam or conduit” means any dam or conduit the construction of which was completed before the date of the enactment of this section and which does not require any construction or enlargement of impoundment or diversion structures (other than repair or reconstruction) in connection with the installation of a turbine or other generating device.

(3) CONDUIT.—The term “conduit” has the same meaning as when used in section 30(a)(2) of the Federal Power Act (16 U.S.C. 823a(a)(2)).

The terms defined in this subsection shall apply without regard to the hydroelectric kilowatt capacity of the facility concerned, without regard to whether the facility uses a dam owned by a governmental or nongovernmental entity, and without regard to whether the facility begins operation on or after the date of the enactment of this section.

(c) ELIGIBILITY WINDOW.—Payments may be made under this section only for electric energy generated from a qualified hydroelectric facility which begins operation during the period of 10 fiscal years beginning with the first full fiscal year occurring after the date of enactment of this subtitle.

(d) INCENTIVE PERIOD.—A qualified hydroelectric facility may receive payments under this section for a period of 10 fiscal years (referred to in this section as the “incentive period”). Such period shall begin with the fiscal year in which electric energy generated from the facility is first eligible for such payments.

(e) AMOUNT OF PAYMENT.—

(1) IN GENERAL.—Payments made by the Secretary under this section to the owner or

operator of a qualified hydroelectric facility shall be based on the number of kilowatt hours of hydroelectric energy generated by the facility during the incentive period. For any such facility, the amount of such payment shall be 1.8 cents per kilowatt hour (adjusted as provided in paragraph (2)), subject to the availability of appropriations under subsection (g), except that no facility may receive more than \$750,000 in 1 calendar year.

(2) **ADJUSTMENTS.**—The amount of the payment made to any person under this section as provided in paragraph (1) shall be adjusted for inflation for each fiscal year beginning after calendar year 2003 in the same manner as provided in the provisions of section 29(d)(2)(B) of the Internal Revenue Code of 1986, except that in applying such provisions the calendar year 2003 shall be substituted for calendar year 1979.

(f) **SUNSET.**—No payment may be made under this section to any qualified hydroelectric facility after the expiration of the period of 20 fiscal years beginning with the first full fiscal year occurring after the date of enactment of this subtitle, and no payment may be made under this section to any such facility after a payment has been made with respect to such facility for a period of 10 fiscal years.

(g) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out the purposes of this section \$10,000,000 for each of the fiscal years 2004 through 2013.

SEC. 242. HYDROELECTRIC EFFICIENCY IMPROVEMENT.

(a) **INCENTIVE PAYMENTS.**—The Secretary of Energy shall make incentive payments to the owners or operators of hydroelectric facilities at existing dams to be used to make capital improvements in the facilities that are directly related to improving the efficiency of such facilities by at least 3 percent.

(b) **LIMITATIONS.**—Incentive payments under this section shall not exceed 10 percent of the costs of the capital improvement concerned and not more than 1 payment may be made with respect to improvements at a single facility. No payment in excess of \$750,000 may be made with respect to improvements at a single facility.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section not more than \$10,000,000 for each of the fiscal years 2004 through 2013.

SEC. 243. SMALL HYDROELECTRIC POWER PROJECTS.

Section 408(a)(6) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2708(a)(6)) is amended by striking “April 20, 1977” and inserting “March 4, 2003”.

SEC. 244. INCREASED HYDROELECTRIC GENERATION AT EXISTING FEDERAL FACILITIES.

(a) **IN GENERAL.**—The Secretary of the Interior and the Secretary of Energy, in consultation with the Secretary of the Army, shall jointly conduct a study of the potential for increasing electric power production capability at federally owned or operated water regulation, storage, and conveyance facilities.

(b) **CONTENT.**—The study under this section shall include identification and description in detail of each facility that is capable, with or without modification, of producing additional hydroelectric power, including estimation of the existing potential for the facility to generate hydroelectric power.

(c) **REPORT.**—The Secretaries shall submit to the Committees on Energy and Commerce, Resources, and Transportation and Infrastructure of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the

findings, conclusions, and recommendations of the study under this section by not later than 18 months after the date of the enactment of this Act. The report shall include each of the following:

(1) The identifications, descriptions, and estimations referred to in subsection (b).

(2) A description of activities currently conducted or considered, or that could be considered, to produce additional hydroelectric power from each identified facility.

(3) A summary of prior actions taken by the Secretaries to produce additional hydroelectric power from each identified facility.

(4) The costs to install, upgrade, or modify equipment or take other actions to produce additional hydroelectric power from each identified facility and the level of Federal power customer involvement in the determination of such costs.

(5) The benefits that would be achieved by such installation, upgrade, modification, or other action, including quantified estimates of any additional energy or capacity from each facility identified under subsection (b).

(6) A description of actions that are planned, underway, or might reasonably be considered to increase hydroelectric power production by replacing turbine runners, by performing generator upgrades or rewinds, or construction of pumped storage facilities.

(7) The impact of increased hydroelectric power production on irrigation, fish, wildlife, Indian tribes, river health, water quality, navigation, recreation, fishing, and flood control.

(8) Any additional recommendations to increase hydroelectric power production from, and reduce costs and improve efficiency at, federally owned or operated water regulation, storage, and conveyance facilities.

SEC. 245. SHIFT OF PROJECT LOADS TO OFF-PEAK PERIODS.

(a) **IN GENERAL.**—The Secretary of the Interior shall—

(1) review electric power consumption by Bureau of Reclamation facilities for water pumping purposes; and

(2) make such adjustments in such pumping as possible to minimize the amount of electric power consumed for such pumping during periods of peak electric power consumption, including by performing as much of such pumping as possible during off-peak hours at night.

(b) **CONSENT OF AFFECTED IRRIGATION CUSTOMERS REQUIRED.**—The Secretary may not under this section make any adjustment in pumping at a facility without the consent of each person that has contracted with the United States for delivery of water from the facility for use for irrigation and that would be affected by such adjustment.

(c) **EXISTING OBLIGATIONS NOT AFFECTED.**—This section shall not be construed to affect any existing obligation of the Secretary to provide electric power, water, or other benefits from Bureau of Reclamation facilities, including recreational releases.

SEC. 246. CORPS OF ENGINEERS HYDROPOWER OPERATION AND MAINTENANCE FUNDING.

(a) **IN GENERAL.**—Notwithstanding the last sentence of section 5 of the Act of December 22, 1944 (commonly known as the “Flood Control Act of 1944”) (58 Stat. 890, chapter 665; 16 U.S.C. 825s), the 11th paragraph under the heading “OFFICE OF THE SECRETARY” in title I of the Act of October 12, 1949 (63 Stat. 767, chapter 680; 16 U.S.C. 825s-1), the matter under the heading “CONTINUING FUND, SOUTHEASTERN POWER ADMINISTRATION” in title I of the Act of August 31, 1951 (65 Stat. 249, chapter 375; 16 U.S.C. 825s-2), section 3302 of title 31, United States Code, or any other law, and without further appropriation or fiscal year limitation, for fiscal year 2004, the Administrator of the Southeastern Power Adminis-

tration, the Administrator of the Southwestern Power Administration, and the Administrator of the Western Area Power Administration may credit to the Secretary of the Army (referred to in this section as the “Secretary”), receipts, in an amount determined under subsection (c), from the sale of power and related services.

(b) **USE OF FUNDS.**—

(1) **IN GENERAL.**—The Secretary—

(A) shall, except as provided in paragraph (2), use the amounts credited under subsection (a) to fund only the Corps of Engineers annual operation and maintenance activities that are allocated exclusively to the power function and assigned to the respective power marketing administration and respective project system as applicable for repayment; and

(B) shall not use the amounts for any costs allocated to non-power functions of Corps of Engineer operations.

(2) **EXCEPTION.**—The Secretary may use amounts credited by the Southwestern Power Administration under subsection (a) for capital and nonrecurring costs.

(c) **AMOUNT.**—The amount of the receipts credited under subsection (a) shall be equal to such amount as—

(1) the Secretary of the Army requests; and

(2) the appropriate Administrator, in consultation with the power customers of the Administrator’s power marketing administration, determines to be appropriate to apply to the costs referred to in subsection (b).

(d) **APPLICABLE LAW.**—The amounts credited under subsection (a) are exempt from sequestration under the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901 et seq.).

SEC. 247. LIMITATION ON CERTAIN CHARGES ASSESSED TO THE FLINT CREEK PROJECT, MONTANA.

Notwithstanding section 10(e)(1) of the Federal Power Act (16 U.S.C. 803(e)(1)) or any other provision of Federal law providing for the payment to the United States of charges for the use of Federal land for the purposes of operating and maintaining a hydroelectric development licensed by the Federal Energy Regulatory Commission (referred to in this section as the “Commission”), any political subdivision of the State of Montana that holds a license for Commission Project No. 1473 in Granite and Deer Lodge Counties, Montana, shall be required to pay to the United States for the use of that land for each year during which the political subdivision continues to hold the license for the project, the lesser of—

(1) \$25,000; or

(2) such annual charge as the Commission or any other department or agency of the Federal Government may assess.

SEC. 248. REINSTATEMENT AND TRANSFER.

(a) **REINSTATEMENT AND TRANSFER OF FEDERAL LICENSE FOR PROJECT NUMBERED 2696.**—Notwithstanding section 8 of the Federal Power Act (16 U.S.C. 801) or any other provision of such Act, the Federal Energy Regulatory Commission shall reinstate the license for Project No. 2696 and transfer the license, without delay or the institution of any proceedings, to the Town of Stuyvesant, New York, holder of Federal Energy Regulatory Commission Preliminary Permit No. 11787, within 30 days after the date of enactment of this Act.

(b) **HYDROELECTRIC INCENTIVES.**—Project No. 2696 shall be entitled to the full benefit of any Federal legislation that promotes hydroelectric development that is enacted within 2 years either before or after the date of enactment of this Act.

(c) **PROJECT DEVELOPMENT AND FINANCING.**—The Federal Energy Regulatory Commission shall permit the Town of Stuyvesant

to add as a colicensee any private or public entity or entities to the reinstated license at any time, notwithstanding the issuance of a preliminary permit to the Town of Stuyvesant and any consideration of municipal preference. The town shall be entitled, to the extent that funds are available or shall be made available, to receive loans under sections 402 and 403 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2702 and 2703), or similar programs, for the reimbursement of feasibility studies or development costs, or both, incurred since January 1, 2001, through and including December 31, 2006. All power produced by the project shall be deemed incremental hydropower for purpose of qualifying for any energy credit or similar benefits.

TITLE III—OIL AND GAS

Subtitle A—Petroleum Reserve and Home Heating Oil

SEC. 301. PERMANENT AUTHORITY TO OPERATE THE STRATEGIC PETROLEUM RESERVE AND OTHER ENERGY PROGRAMS.

(a) AMENDMENT TO TITLE I OF THE ENERGY POLICY AND CONSERVATION ACT.—Title I of the Energy Policy and Conservation Act (42 U.S.C. 6211 et seq.) is amended—

(1) by striking section 166 (42 U.S.C. 6246) and inserting the following:

“AUTHORIZATION OF APPROPRIATIONS

“SEC. 166. There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this part and part D, to remain available until expended.”;

(2) by striking section 186 (42 U.S.C. 6250e); and

(3) by striking part E (42 U.S.C. 6251; relating to the expiration of title I of the Act).

(b) AMENDMENT TO TITLE II OF THE ENERGY POLICY AND CONSERVATION ACT.—Title II of the Energy Policy and Conservation Act (42 U.S.C. 6271 et seq.) is amended—

(1) by inserting before section 273 (42 U.S.C. 6283) the following:

“PART C—SUMMER FILL AND FUEL BUDGETING PROGRAMS”;

(2) by striking section 273(e) (42 U.S.C. 6283(e); relating to the expiration of summer fill and fuel budgeting programs); and

(3) by striking part D (42 U.S.C. 6285; relating to the expiration of title II of the Act).

(c) TECHNICAL AMENDMENTS.—The table of contents for the Energy Policy and Conservation Act is amended—

(1) by inserting after the items relating to part C of title I the following:

“PART D—NORTHEAST HOME HEATING OIL RESERVE

“Sec. 181. Establishment.

“Sec. 182. Authority.

“Sec. 183. Conditions for release; plan.

“Sec. 184. Northeast Home Heating Oil Reserve Account.

“Sec. 185. Exemptions.”;

(2) by amending the items relating to part C of title II to read as follows:

“PART C—SUMMER FILL AND FUEL BUDGETING PROGRAMS

“Sec. 273. Summer fill and fuel budgeting programs.”; and

(3) by striking the items relating to part D of title II.

(d) AMENDMENT TO THE ENERGY POLICY AND CONSERVATION ACT.—Section 183(b)(1) of the Energy Policy and Conservation Act (42 U.S.C. 6250(b)(1)) is amended by striking all after “increases” through to “mid-October through March” and inserting “by more than 60 percent over its 5-year rolling average for the months of mid-October through March (considered as a heating season average)”.

(e) FILL STRATEGIC PETROLEUM RESERVE TO CAPACITY.—The Secretary of Energy shall, as

expeditiously as practicable, acquire petroleum in amounts sufficient to fill the Strategic Petroleum Reserve to the 1,000,000,000 barrel capacity authorized under section 154(a) of the Energy Policy and Conservation Act (42 U.S.C. 6234(a)), consistent with the provisions of sections 159 and 160 of such Act (42 U.S.C. 6239, 6240).

SEC. 302. NATIONAL OILHEAT RESEARCH ALLIANCE.

Section 713 of the Energy Act of 2000 (42 U.S.C. 6201 note) is amended by striking “4” and inserting “9”.

Subtitle B—Production Incentives

SEC. 311. DEFINITION OF SECRETARY.

In this subtitle, the term “Secretary” means the Secretary of the Interior.

SEC. 312. PROGRAM ON OIL AND GAS ROYALTIES IN-KIND.

(a) APPLICABILITY OF SECTION.—Notwithstanding any other provision of law, this section applies to all royalty in-kind accepted by the Secretary on or after the date of enactment of this Act under any Federal oil or gas lease or permit under section 36 of the Mineral Leasing Act (30 U.S.C. 192), section 27 of the Outer Continental Shelf Lands Act (43 U.S.C. 1353), or any other Federal law governing leasing of Federal land for oil and gas development.

(b) TERMS AND CONDITIONS.—All royalty accruing to the United States shall, on the demand of the Secretary, be paid in oil or gas. If the Secretary makes such a demand, the following provisions apply to such payment:

(1) SATISFACTION OF ROYALTY OBLIGATION.—Delivery by, or on behalf of, the lessee of the royalty amount and quality due under the lease satisfies the lessee’s royalty obligation for the amount delivered, except that transportation and processing reimbursements paid to, or deductions claimed by, the lessee shall be subject to review and audit.

(2) MARKETABLE CONDITION.—

(A) IN GENERAL.—Royalty production shall be placed in marketable condition by the lessee at no cost to the United States.

(B) DEFINITION OF MARKETABLE CONDITION.—In this paragraph, the term “in marketable condition” means sufficiently free from impurities and otherwise in a condition that the royalty production will be accepted by a purchaser under a sales contract typical of the field or area in which the royalty production was produced.

(3) DISPOSITION BY THE SECRETARY.—The Secretary may—

(A) sell or otherwise dispose of any royalty production taken in-kind (other than oil or gas transferred under section 27(a)(3) of the Outer Continental Shelf Lands Act (43 U.S.C. 1353(a)(3)) for not less than the market price; and

(B) transport or process (or both) any royalty production taken in-kind.

(4) RETENTION BY THE SECRETARY.—The Secretary may, notwithstanding section 3302 of title 31, United States Code, retain and use a portion of the revenues from the sale of oil and gas taken in-kind that otherwise would be deposited to miscellaneous receipts, without regard to fiscal year limitation, or may use oil or gas received as royalty taken in-kind (in this paragraph referred to as “royalty production”) to pay the cost of—

(A) transporting the royalty production;

(B) processing the royalty production;

(C) disposing of the royalty production; or

(D) any combination of transporting, processing, and disposing of the royalty production.

(5) LIMITATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary may not use revenues from the sale of oil and gas taken in-kind to pay for personnel, travel, or other

administrative costs of the Federal Government.

(B) EXCEPTION.—Notwithstanding subparagraph (A), the Secretary may use a portion of the revenues from the sale of oil taken in-kind, without fiscal year limitation, to pay transportation costs, salaries, and other administrative costs directly related to filling the Strategic Petroleum Reserve.

(c) REIMBURSEMENT OF COST.—If the lessee, pursuant to an agreement with the United States or as provided in the lease, processes the royalty gas or delivers the royalty oil or gas at a point not on or adjacent to the lease area, the Secretary shall—

(1) reimburse the lessee for the reasonable costs of transportation (not including gathering) from the lease to the point of delivery or for processing costs; or

(2) allow the lessee to deduct the transportation or processing costs in reporting and paying royalties in-value for other Federal oil and gas leases.

(d) BENEFIT TO THE UNITED STATES REQUIRED.—The Secretary may receive oil or gas royalties in-kind only if the Secretary determines that receiving royalties in-kind provides benefits to the United States that are greater than or equal to the benefits that are likely to have been received had royalties been taken in-value.

(e) REPORTS.—

(1) IN GENERAL.—Not later than September 30, 2005, the Secretary shall submit to Congress a report that addresses—

(A) actions taken to develop businesses processes and automated systems to fully support the royalty-in-kind capability to be used in tandem with the royalty-in-value approach in managing Federal oil and gas revenue; and

(B) future royalty-in-kind businesses operation plans and objectives.

(2) REPORTS ON OIL OR GAS ROYALTIES TAKEN IN-KIND.—For each of fiscal years 2004 through 2013 in which the United States takes oil or gas royalties in-kind from production in any State or from the outer Continental Shelf, excluding royalties taken in-kind and sold to refineries under subsection (h), the Secretary shall submit to Congress a report that describes—

(A) the methodology or methodologies used by the Secretary to determine compliance with subsection (d), including the performance standard for comparing amounts received by the United States derived from royalties in-kind to amounts likely to have been received had royalties been taken in-value;

(B) an explanation of the evaluation that led the Secretary to take royalties in-kind from a lease or group of leases, including the expected revenue effect of taking royalties in-kind;

(C) actual amounts received by the United States derived from taking royalties in-kind and costs and savings incurred by the United States associated with taking royalties in-kind, including, but not limited to, administrative savings and any new or increased administrative costs; and

(D) an evaluation of other relevant public benefits or detriments associated with taking royalties in-kind.

(f) DEDUCTION OF EXPENSES.—

(1) IN GENERAL.—Before making payments under section 35 of the Mineral Leasing Act (30 U.S.C. 191) or section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)) of revenues derived from the sale of royalty production taken in-kind from a lease, the Secretary shall deduct amounts paid or deducted under subsections (b)(4) and (c) and deposit the amount of the deductions in the miscellaneous receipts of the United States Treasury.

(2) ACCOUNTING FOR DEDUCTIONS.—When the Secretary allows the lessee to deduct transportation or processing costs under subsection (c), the Secretary may not reduce any payments to recipients of revenues derived from any other Federal oil and gas lease as a consequence of that deduction.

(g) CONSULTATION WITH STATES.—The Secretary—

(1) shall consult with a State before conducting a royalty in-kind program under this subtitle within the State, and may delegate management of any portion of the Federal royalty in-kind program to the State except as otherwise prohibited by Federal law; and

(2) shall consult annually with any State from which Federal oil or gas royalty is being taken in-kind to ensure, to the maximum extent practicable, that the royalty in-kind program provides revenues to the State greater than or equal to those likely to have been received had royalties been taken in-value.

(h) SMALL REFINERIES.—

(1) PREFERENCE.—If the Secretary finds that sufficient supplies of crude oil are not available in the open market to refineries that do not have their own source of supply for crude oil, the Secretary may grant preference to such refineries in the sale of any royalty oil accruing or reserved to the United States under Federal oil and gas leases issued under any mineral leasing law, for processing or use in such refineries at private sale at not less than the market price.

(2) PRORATION AMONG REFINERIES IN PRODUCTION AREA.—In disposing of oil under this subsection, the Secretary of Energy may, at the discretion of the Secretary, prorate the oil among refineries described in paragraph (1) in the area in which the oil is produced.

(i) DISPOSITION TO FEDERAL AGENCIES.—

(1) ONSHORE ROYALTY.—Any royalty oil or gas taken by the Secretary in-kind from onshore oil and gas leases may be sold at not less than the market price to any Federal agency.

(2) OFFSHORE ROYALTY.—Any royalty oil or gas taken in-kind from a Federal oil or gas lease on the outer Continental Shelf may be disposed of only under section 27 of the Outer Continental Shelf Lands Act (43 U.S.C. 1353).

(j) FEDERAL LOW-INCOME ENERGY ASSISTANCE PROGRAMS.—

(1) PREFERENCE.—In disposing of royalty oil or gas taken in-kind under this section, the Secretary may grant a preference to any person, including any Federal or State agency, for the purpose of providing additional resources to any Federal low-income energy assistance program.

(2) REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit a report to Congress, assessing the effectiveness of granting preferences specified in paragraph (1) and providing a specific recommendation on the continuation of authority to grant preferences.

SEC. 313. MARGINAL PROPERTY PRODUCTION INCENTIVES.

(a) DEFINITION OF MARGINAL PROPERTY.—Until such time as the Secretary issues regulations under subsection (e) that prescribe a different definition, in this section the term “marginal property” means an onshore unit, communitization agreement, or lease not within a unit or communitization agreement, that produces on average the combined equivalent of less than 15 barrels of oil per well per day or 90 million British thermal units of gas per well per day calculated based on the average over the 3 most recent production months, including only wells that produce on more than half of the days during those 3 production months.

(b) CONDITIONS FOR REDUCTION OF ROYALTY RATE.—Until such time as the Secretary

issues regulations under subsection (e) that prescribe different thresholds or standards, the Secretary shall reduce the royalty rate on—

(1) oil production from marginal properties as prescribed in subsection (c) when the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, is, on average, less than \$15 per barrel for 90 consecutive trading days; and

(2) gas production from marginal properties as prescribed in subsection (c) when the spot price of natural gas delivered at Henry Hub, Louisiana, is, on average, less than \$2.00 per million British thermal units for 90 consecutive trading days.

(c) REDUCED ROYALTY RATE.—

(1) IN GENERAL.—When a marginal property meets the conditions specified in subsection (b), the royalty rate shall be the lesser of—

(A) 5 percent; or

(B) the applicable rate under any other statutory or regulatory royalty relief provision that applies to the affected production.

(2) PERIOD OF EFFECTIVENESS.—The reduced royalty rate under this subsection shall be effective beginning on the first day of the production month following the date on which the applicable condition specified in subsection (b) is met.

(d) TERMINATION OF REDUCED ROYALTY RATE.—A royalty rate prescribed in subsection (d)(1)(A) shall terminate—

(1) with respect to oil production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, on average, exceeds \$15 per barrel for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property; and

(2) with respect to gas production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of natural gas delivered at Henry Hub, Louisiana, on average, exceeds \$2.00 per million British thermal units for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property.

(e) REGULATIONS PRESCRIBING DIFFERENT RELIEF.—

(1) DISCRETIONARY REGULATIONS.—The Secretary may by regulation prescribe different parameters, standards, and requirements for, and a different degree or extent of, royalty relief for marginal properties in lieu of those prescribed in subsections (a) through (d).

(2) MANDATORY REGULATIONS.—Not later than 18 months after the date of enactment of this Act, the Secretary shall by regulation—

(A) prescribe standards and requirements for, and the extent of royalty relief for, marginal properties for oil and gas leases on the outer Continental Shelf; and

(B) define what constitutes a marginal property on the outer Continental Shelf for purposes of this section.

(3) CONSIDERATIONS.—In promulgating regulations under this subsection, the Secretary may consider—

(A) oil and gas prices and market trends;

(B) production costs;

(C) abandonment costs;

(D) Federal and State tax provisions and the effects of those provisions on production economics;

(E) other royalty relief programs;

(F) regional differences in average well-head prices;

(G) national energy security issues; and

(H) other relevant matters.

(f) SAVINGS PROVISION.—Nothing in this section prevents a lessee from receiving roy-

alty relief or a royalty reduction pursuant to any other law (including a regulation) that provides more relief than the amounts provided by this section.

SEC. 314. INCENTIVES FOR NATURAL GAS PRODUCTION FROM DEEP WELLS IN THE SHALLOW WATERS OF THE GULF OF MEXICO.

(a) ROYALTY INCENTIVE REGULATIONS.—The Secretary shall publish a final regulation to complete the rulemaking begun by the Notice of Proposed Rulemaking entitled “Relief or Reduction in Royalty Rates—Deep Gas Provisions”, published in the Federal Register on March 26, 2003 (Federal Register, volume 68, number 58, 14868–14886).

(b) ROYALTY INCENTIVE REGULATIONS FOR ULTRA DEEP GAS WELLS.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, in addition to any other regulations that may provide royalty incentives for natural gas produced from deep wells on oil and gas leases issued pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), the Secretary shall issue regulations, in accordance with the regulations published pursuant to subsection (a), granting royalty relief suspension volumes of not less than 35,000,000,000 cubic feet with respect to the production of natural gas from ultra deep wells on leases issued before January 1, 2001, in shallow waters less than 200 meters deep located in the Gulf of Mexico wholly west of 87 degrees, 30 minutes West longitude. Regulations issued under this subsection shall be retroactive to the date that the Notice of Proposed Rulemaking is published in the Federal Register.

(2) DEFINITION OF ULTRA DEEP WELL.—In this subsection, the term “ultra deep well” means a well drilled with a perforated interval, the top of which is at least 20,000 feet true vertical depth below the datum at mean sea level.

SEC. 315. ROYALTY RELIEF FOR DEEP WATER PRODUCTION.

(a) IN GENERAL.—For all tracts located in water depths of greater than 400 meters in the Western and Central Planning Area of the Gulf of Mexico, including the portion of the Eastern Planning Area of the Gulf of Mexico encompassing whole lease blocks lying west of 87 degrees, 30 minutes West longitude, any oil or gas lease sale under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) occurring within 5 years after the date of enactment of this Act shall use the bidding system authorized in section 8(a)(1)(H) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(a)(1)(H)), except that the suspension of royalties shall be set at a volume of not less than—

(1) 5,000,000 barrels of oil equivalent for each lease in water depths of 400 to 800 meters;

(2) 9,000,000 barrels of oil equivalent for each lease in water depths of 800 to 1,600 meters; and

(3) 12,000,000 barrels of oil equivalent for each lease in water depths greater than 1,600 meters.

(b) LIMITATION.—The Secretary may place limitations on the suspension of royalty relief granted based on market price.

SEC. 316. ALASKA OFFSHORE ROYALTY SUSPENSION.

Section 8(a)(3)(B) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(a)(3)(B)) is amended by inserting “and in the Planning Areas offshore Alaska” after “West longitude”.

SEC. 317. OIL AND GAS LEASING IN THE NATIONAL PETROLEUM RESERVE IN ALASKA.

(a) TRANSFER OF AUTHORITY.—

(1) REDESIGNATION.—The Naval Petroleum Reserves Production Act of 1976 (42 U.S.C.

6501 et seq.) is amended by redesignating section 107 (42 U.S.C. 6507) as section 108.

(2) TRANSFER.—The matter under the heading “EXPLORATION OF NATIONAL PETROLEUM RESERVE IN ALASKA” under the heading “ENERGY AND MINERALS” of title I of Public Law 96-514 (42 U.S.C. 6508) is—

(A) transferred to the Naval Petroleum Reserves Production Act of 1976 (42 U.S.C. 6501 et seq.);

(B) redesignated as section 107 of that Act; and

(C) moved so as to appear after section 106 of that Act (42 U.S.C. 6506).

(b) COMPETITIVE LEASING.—Section 107 of the Naval Petroleum Reserves Production Act of 1976 (as amended by subsection (a) of this section) is amended—

(1) by striking the heading and all that follows through “Provided, That (1) activities” and inserting the following:

“SEC. 107. COMPETITIVE LEASING OF OIL AND GAS.

“(a) IN GENERAL.—Notwithstanding any other provision of law and pursuant to regulations issued by the Secretary, the Secretary shall conduct an expeditious program of competitive leasing of oil and gas in the National Petroleum Reserve in Alaska (referred to in this section as the ‘Reserve’).

“(b) MITIGATION OF ADVERSE EFFECTS.—Activities”;

(2) by striking “Alaska (the Reserve); (2) the” and inserting “Alaska.

“(c) LAND USE PLANNING; BLM WILDERNESS STUDY.—The”;

(3) by striking “Reserve; (3) the” and inserting “Reserve.

“(d) FIRST LEASE SALE.—The”;

(4) by striking “4332; (4) the” and inserting “4321 et seq.).

“(e) WITHDRAWALS.—The”;

(5) by striking “herein; (5) bidding” and inserting “under this section.

“(f) BIDDING SYSTEMS.—Bidding”;

(6) by striking “629; (6) lease” and inserting “629).

“(g) GEOLOGICAL STRUCTURES.—Lease”;

(7) by striking “structures; (7) the” and inserting “structures.

“(h) SIZE OF LEASE TRACTS.—The”;

(8) by striking “Secretary; (8)” and all that follows through “Drilling, production,” and inserting “Secretary.

“(i) TERMS.—

“(1) IN GENERAL.—Each lease shall be—

“(A) issued for an initial period of not more than 10 years; and

“(B) renewed for successive 10-year terms if—

“(i) oil or gas is produced from the lease in paying quantities;

“(ii) oil or gas is capable of being produced in paying quantities; or

“(iii) drilling or reworking operations, as approved by the Secretary, are conducted on the leased land.

“(2) RENEWAL OF NONPRODUCING LEASES.—The Secretary shall renew for an additional 10-year term a lease that does not meet the requirements of paragraph (1)(B) if the lessee submits to the Secretary an application for renewal not later than 60 days before the expiration of the primary lease and—

“(A) the lessee certifies, and the Secretary agrees, that hydrocarbon resources were discovered on 1 or more wells drilled on the leased land in such quantities that a prudent operator would hold the lease for potential future development;

“(B) the lessee—

“(i) pays the Secretary a renewal fee of \$100 per acre of leased land; and

“(ii) provides evidence, and the Secretary agrees that, the lessee has diligently pursued exploration that warrants continuation with the intent of continued exploration or future development of the leased land; or

“(C) all or part of the lease—

“(i) is part of a unit agreement covering a lease described in subparagraph (A) or (B); and

“(ii) has not been previously contracted out of the unit.

“(3) APPLICABILITY.—This subsection applies to a lease that—

“(A) is entered into before, on, or after the date of enactment of the Energy Policy Act of 2003; and

“(B) is effective on or after the date of enactment of that Act.

“(j) UNIT AGREEMENTS.—

“(1) IN GENERAL.—For the purpose of conservation of the natural resources of all or part of any oil or gas pool, field, reservoir, or like area, lessees (including representatives) of the pool, field, reservoir, or like area may unite with each other, or jointly or separately with others, in collectively adopting and operating under a unit agreement for all or part of the pool, field, reservoir, or like area (whether or not any other part of the oil or gas pool, field, reservoir, or like area is already subject to any cooperative or unit plan of development or operation), if the Secretary determines the action to be necessary or advisable in the public interest.

“(2) PARTICIPATION BY STATE OF ALASKA.—The Secretary shall ensure that the State of Alaska is provided the opportunity for active participation concerning creation and management of units formed or expanded under this subsection that include acreage in which the State of Alaska has an interest in the mineral estate.

“(3) PARTICIPATION BY REGIONAL CORPORATIONS.—The Secretary shall ensure that any Regional Corporation (as defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602)) is provided the opportunity for active participation concerning creation and management of units that include acreage in which the Regional Corporation has an interest in the mineral estate.

“(4) PRODUCTION ALLOCATION METHODOLOGY.—The Secretary may use a production allocation methodology for each participating area within a unit created for land in the Reserve, State of Alaska land, or Regional Corporation land shall, when appropriate, be based on the characteristics of each specific oil or gas pool, field, reservoir, or like area to take into account reservoir heterogeneity and a real variation in reservoir producibility across diverse leasehold interests.

“(5) BENEFIT OF OPERATIONS.—Drilling, production,”;

(9) by striking “When separate” and inserting the following:

“(6) POOLING.—If separate”;

(10) by inserting “(in consultation with the owners of the other land)” after “determined by the Secretary of the Interior”;

(11) by striking “thereto; (10) to” and all that follows through “the terms provided therein” and inserting “to the agreement.

“(k) EXPLORATION INCENTIVES.—

“(1) IN GENERAL.—

“(A) WAIVER, SUSPENSION, OR REDUCTION.—To encourage the greatest ultimate recovery of oil or gas or in the interest of conservation, the Secretary may waive, suspend, or reduce the rental fees or minimum royalty, or reduce the royalty on an entire leasehold (including on any lease operated pursuant to a unit agreement), if (after consultation with the State of Alaska and the North Slope Borough of Alaska and the concurrence of any Regional Corporation for leases that include lands available for acquisition by the Regional Corporation under the provisions of section 1431(o) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.)) the Secretary determines that the

waiver, suspension, or reduction is in the public interest.

“(B) APPLICABILITY.—This paragraph applies to a lease that—

“(i) is entered into before, on, or after the date of enactment of the Energy Policy Act of 2003; and

“(ii) is effective on or after the date of enactment of that Act.”;

(12) by striking “The Secretary is authorized to” and inserting the following:

“(2) SUSPENSION OF OPERATIONS AND PRODUCTION.—The Secretary may”;

(13) by striking “In the event” and inserting the following:

“(3) SUSPENSION OF PAYMENTS.—If”;

(14) by striking “thereto; and (11) all” and inserting “to the lease.

“(l) RECEIPTS.—All”;

(15) by redesignating clauses (A), (B), and (C) as clauses (1), (2), and (3), respectively;

(16) by striking “Any agency” and inserting the following:

“(m) EXPLORATIONS.—Any agency”;

(17) by striking “Any action” and inserting the following:

“(n) ENVIRONMENTAL IMPACT STATEMENTS.—

“(1) JUDICIAL REVIEW.—Any action”;

(18) by striking “The detailed” and inserting the following:

“(2) INITIAL LEASE SALES.—The detailed”;

(19) by striking “of the Naval Petroleum Reserves Production Act of 1976 (90 Stat. 304; 42 U.S.C. 6504)”;

(20) by adding at the end the following:

“(o) WAIVER OF ADMINISTRATION FOR CONVEYED LANDS.—Notwithstanding section 14(g) of the Alaska Native Claims Settlement Act (43 U.S.C. 1613(g)) or any other provision of law—

“(1) the Secretary of the Interior shall waive administration of any oil and gas lease insofar as such lease covers any land in the National Petroleum Reserve in Alaska in which the subsurface estate is conveyed to the Arctic Slope Regional Corporation; and

“(2) if any such conveyance of such subsurface estate does not cover all the land embraced within any such oil and gas lease—

“(A) the person who owns the subsurface estate in any particular portion of the land covered by such lease shall be entitled to all of the revenues reserved under such lease as to such portion, including, without limitation, all the royalty payable with respect to oil or gas produced from or allocated to such particular portion of the land covered by such lease; and

“(B) the Secretary of the Interior shall segregate such lease into 2 leases, 1 of which shall cover only the subsurface estate conveyed to the Arctic Slope Regional Corporation, and operations, production, or other circumstances (other than payment of rentals or royalties) that satisfy obligations of the lessee under, or maintain, either of the segregated leases shall likewise satisfy obligations of the lessee under, or maintain, the other segregated lease to the same extent as if such segregated leases remained a part of the original unsegregated lease.”.

SEC. 318. ORPHANED, ABANDONED, OR IDLED WELLS ON FEDERAL LAND.

(a) IN GENERAL.—The Secretary, in cooperation with the Secretary of Agriculture, shall establish a program not later than 1 year after the date of enactment of this Act to remediate, reclaim, and close orphaned, abandoned, or idled oil and gas wells located on land administered by the land management agencies within the Department of the Interior and the Department of Agriculture.

(b) ACTIVITIES.—The program under subsection (a) shall—

(1) include a means of ranking orphaned, abandoned, or idled wells sites for priority in remediation, reclamation, and closure, based

on public health and safety, potential environmental harm, and other land use priorities;

(2) provide for identification and recovery of the costs of remediation, reclamation, and closure from persons or other entities currently providing a bond or other financial assurance required under State or Federal law for an oil or gas well that is orphaned, abandoned, or idled; and

(3) provide for recovery from the persons or entities identified under paragraph (2), or their sureties or guarantors, of the costs of remediation, reclamation, and closure of such wells.

(c) COOPERATION AND CONSULTATIONS.—In carrying out the program under subsection (a), the Secretary shall—

(1) work cooperatively with the Secretary of Agriculture and the States within which Federal land is located; and

(2) consult with the Secretary of Energy and the Interstate Oil and Gas Compact Commission.

(d) PLAN.—Not later than 1 year after the date of enactment of this Act, the Secretary, in cooperation with the Secretary of Agriculture, shall submit to Congress a plan for carrying out the program under subsection (a).

(e) IDLED WELL.—For the purposes of this section, a well is idled if—

(1) the well has been nonoperational for at least 7 years; and

(2) there is no anticipated beneficial use for the well.

(f) TECHNICAL ASSISTANCE PROGRAM FOR NON-FEDERAL LAND.—

(1) IN GENERAL.—The Secretary of Energy shall establish a program to provide technical and financial assistance to oil and gas producing States to facilitate State efforts over a 10-year period to ensure a practical and economical remedy for environmental problems caused by orphaned or abandoned oil and gas exploration or production well sites on State or private land.

(2) ASSISTANCE.—The Secretary of Energy shall work with the States, through the Interstate Oil and Gas Compact Commission, to assist the States in quantifying and mitigating environmental risks of onshore orphaned or abandoned oil or gas wells on State and private land.

(3) ACTIVITIES.—The program under paragraph (1) shall include—

(A) mechanisms to facilitate identification, if feasible, of the persons currently providing a bond or other form of financial assurance required under State or Federal law for an oil or gas well that is orphaned or abandoned;

(B) criteria for ranking orphaned or abandoned well sites based on factors such as public health and safety, potential environmental harm, and other land use priorities;

(C) information and training programs on best practices for remediation of different types of sites; and

(D) funding of State mitigation efforts on a cost-shared basis.

(g) FEDERAL REIMBURSEMENT FOR ORPHANED WELL RECLAMATION PILOT PROGRAM.—

(1) REIMBURSEMENT FOR REMEDIATING, RECLAMING, AND CLOSING WELLS ON LAND SUBJECT TO A NEW LEASE.—The Secretary shall carry out a pilot program under which, in issuing a new oil and gas lease on federally owned land on which 1 or more orphaned wells are located, the Secretary—

(A) may require, but not as a condition of the lease, that the lessee remediate, reclaim, and close in accordance with standards established by the Secretary, all orphaned wells on the land leased; and

(B) shall develop a program to reimburse a lessee, through a royalty credit against the

Federal share of royalties owed or other means, for the reasonable actual costs of remediating, reclaiming, and closing the orphaned well pursuant to that requirement.

(2) REIMBURSEMENT FOR RECLAMING ORPHANED WELLS ON OTHER LAND.—In carrying out this subsection, the Secretary—

(A) may authorize any lessee under an oil and gas lease on federally owned land to reclaim in accordance with the Secretary's standards—

(i) an orphaned well on unleased federally owned land; or

(ii) an orphaned well located on an existing lease on federally owned land for the reclamation of which the lessee is not legally responsible; and

(B) shall develop a program to provide reimbursement of 115 percent of the reasonable actual costs of remediating, reclaiming, and closing the orphaned well, through credits against the Federal share of royalties or other means.

(3) EFFECT OF REMEDIATION, RECLAMATION, OR CLOSURE OF WELL PURSUANT TO AN APPROVED REMEDIATION PLAN.—

(A) DEFINITION OF REMEDIATING PARTY.—In this paragraph the term "remediating party" means a person who remediates, reclaims, or closes an abandoned, orphaned, or idled well pursuant to this subsection.

(B) GENERAL RULE.—A remediating party who remediates, reclaims, or closes an abandoned, orphaned, or idled well in accordance with a detailed written remediation plan approved by the Secretary under this subsection, shall be immune from civil liability under Federal environmental laws, for—

(i) pre-existing environmental conditions at or associated with the well, unless the remediating party owns or operates, in the past owned or operated, or is related to a person that owns or operates or in the past owned or operated, the well or the land on which the well is located; or

(ii) any remaining releases of pollutants from the well during or after completion of the remediation, reclamation, or closure of the well, unless the remediating party causes increased pollution as a result of activities that are not in accordance with the approved remediation plan.

(C) LIMITATIONS.—Nothing in this section shall limit in any way the liability of a remediating party for injury, damage, or pollution resulting from the remediating party's acts or omissions that are not in accordance with the approved remediation plan, are reckless or willful, constitute gross negligence or wanton misconduct, or are unlawful.

(4) REGULATIONS.—The Secretary may issue such regulations as are appropriate to carry out this subsection.

(h) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section \$25,000,000 for each of fiscal years 2005 through 2009.

(2) USE.—Of the amounts authorized under paragraph (1), \$5,000,000 are authorized for each fiscal year for activities under subsection (f).

SEC. 319. COMBINED HYDROCARBON LEASING.

(a) SPECIAL PROVISIONS REGARDING LEASING.—Section 17(b)(2) of the Mineral Leasing Act (30 U.S.C. 226(b)(2)) is amended—

(1) by inserting "(A)" after "(2)"; and

(2) by adding at the end the following:

"(B) For any area that contains any combination of tar sand and oil or gas (or both), the Secretary may issue under this Act, separately—

"(i) a lease for exploration for and extraction of tar sand; and

"(ii) a lease for exploration for and development of oil and gas.

"(C) A lease issued for tar sand shall be issued using the same bidding process, annual rental, and posting period as a lease issued for oil and gas, except that the minimum acceptable bid required for a lease issued for tar sand shall be \$2 per acre.

"(D) The Secretary may waive, suspend, or alter any requirement under section 26 that a permittee under a permit authorizing prospecting for tar sand must exercise due diligence, to promote any resource covered by a combined hydrocarbon lease."

(b) CONFORMING AMENDMENT.—Section 17(b)(1)(B) of the Mineral Leasing Act (30 U.S.C. 226(b)(1)(B)) is amended in the second sentence by inserting "subject to paragraph (2)(B)," after "Secretary".

(c) REGULATIONS.—Not later than 45 days after the date of enactment of this Act, the Secretary shall issue final regulations to implement this section.

SEC. 320. LIQUIFIED NATURAL GAS.

Section 3 of the Natural Gas Act (15 U.S.C. 717b) is amended by adding at the end the following:

"(d) LIMITATION ON COMMISSION AUTHORITY.—If an applicant under this section proposes to construct or expand a liquefied natural gas terminal either onshore or in State waters for the purpose of importing liquefied natural gas into the United States, the Commission shall not deny or condition the application solely on the basis that the applicant proposes to utilize the terminal exclusively or partially for gas that the applicant or any affiliate thereof will supply thereto. In all other respects, subsection (a) shall remain applicable to any such proposal."

SEC. 321. ALTERNATE ENERGY-RELATED USES ON THE OUTER CONTINENTAL SHELF.

(a) AMENDMENT TO OUTER CONTINENTAL SHELF LANDS ACT.—Section 8 of the Outer Continental Shelf Lands Act (43 U.S.C. 1337) is amended by adding at the end the following:

"(p) LEASES, EASEMENTS, OR RIGHTS-OF-WAY FOR ENERGY AND RELATED PURPOSES.—

"(1) IN GENERAL.—The Secretary, in consultation with the Secretary of the Department in which the Coast Guard is operating and other relevant departments and agencies of the Federal Government, may grant a lease, easement, or right-of-way on the outer Continental Shelf for activities not otherwise authorized in this Act, the Deepwater Port Act of 1974 (33 U.S.C. 1501 et seq.), or the Ocean Thermal Energy Conversion Act of 1980 (42 U.S.C. 9101 et seq.), or other applicable law, if those activities—

"(A) support exploration, development, production, transportation, or storage of oil, natural gas, or other minerals;

"(B) produce or support production, transportation, or transmission of energy from sources other than oil and gas; or

"(C) use, for energy-related or marine-related purposes, facilities currently or previously used for activities authorized under this Act.

"(2) PAYMENTS.—The Secretary shall establish reasonable forms of payments for any easement or right-of-way granted under this subsection. Such payments shall not be assessed on the basis of throughput or production. The Secretary may establish fees, rentals, bonus, or other payments by rule or by agreement with the party to which the lease, easement, or right-of-way is granted.

"(3) CONSULTATION.—Before exercising authority under this subsection, the Secretary shall consult with the Secretary of Defense and other appropriate agencies concerning issues related to national security and navigational obstruction.

"(4) COMPETITIVE OR NONCOMPETITIVE BASIS.—

"(A) IN GENERAL.—The Secretary may issue a lease, easement, or right-of-way for

energy and related purposes as described in paragraph (1) on a competitive or non-competitive basis.

“(B) CONSIDERATIONS.—In determining whether a lease, easement, or right-of-way shall be granted competitively or non-competitively, the Secretary shall consider such factors as—

“(i) prevention of waste and conservation of natural resources;

“(ii) the economic viability of an energy project;

“(iii) protection of the environment;

“(iv) the national interest and national security;

“(v) human safety;

“(vi) protection of correlative rights; and

“(vii) potential return for the lease, easement, or right-of-way.

“(5) REGULATIONS.—Not later than 270 days after the date of enactment of the Energy Policy Act of 2003, the Secretary, in consultation with the Secretary of the Department in which the Coast Guard is operating and other relevant agencies of the Federal Government and affected States, shall issue any necessary regulations to ensure safety, protection of the environment, prevention of waste, and conservation of the natural resources of the outer Continental Shelf, protection of national security interests, and protection of correlative rights in the outer Continental Shelf.

“(6) SECURITY.—The Secretary shall require the holder of a lease, easement, or right-of-way granted under this subsection to furnish a surety bond or other form of security, as prescribed by the Secretary, and to comply with such other requirements as the Secretary considers necessary to protect the interests of the United States.

“(7) EFFECT OF SUBSECTION.—Nothing in this subsection displaces, supersedes, limits, or modifies the jurisdiction, responsibility, or authority of any Federal or State agency under any other Federal law.

“(8) APPLICABILITY.—This subsection does not apply to any area on the outer Continental Shelf designated as a National Marine Sanctuary.”

(b) CONFORMING AMENDMENT.—Section 8 of the Outer Continental Shelf Lands Act (43 U.S.C. 1337) is amended by striking the section heading and inserting the following: “LEASES, EASEMENTS, AND RIGHTS-OF-WAY ON THE OUTER CONTINENTAL SHELF.—”

(c) SAVINGS PROVISION.—Nothing in the amendment made by subsection (a) requires, with respect to any project—

(1) for which offshore test facilities have been constructed before the date of enactment of this Act; or

(2) for which a request for proposals has been issued by a public authority, any resubmittal of documents previously submitted or any reauthorization of actions previously authorized.

SEC. 322. PRESERVATION OF GEOLOGICAL AND GEOPHYSICAL DATA.

(a) SHORT TITLE.—This section may be cited as the “National Geological and Geophysical Data Preservation Program Act of 2004”.

(b) PROGRAM.—The Secretary shall carry out a National Geological and Geophysical Data Preservation Program in accordance with this section—

(1) to archive geologic, geophysical, and engineering data, maps, well logs, and samples;

(2) to provide a national catalog of such archival material; and

(3) to provide technical and financial assistance related to the archival material.

(c) PLAN.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a plan for the implementation of the Program.

(d) DATA ARCHIVE SYSTEM.—

(1) ESTABLISHMENT.—The Secretary shall establish, as a component of the Program, a data archive system to provide for the storage, preservation, and archiving of subsurface, surface, geological, geophysical, and engineering data and samples. The Secretary, in consultation with the Advisory Committee, shall develop guidelines relating to the data archive system, including the types of data and samples to be preserved.

(2) SYSTEM COMPONENTS.—The system shall be comprised of State agencies that elect to be part of the system and agencies within the Department of the Interior that maintain geological and geophysical data and samples that are designated by the Secretary in accordance with this subsection. The Program shall provide for the storage of data and samples through data repositories operated by such agencies.

(3) LIMITATION OF DESIGNATION.—The Secretary may not designate a State agency as a component of the data archive system unless that agency is the agency that acts as the geological survey in the State.

(4) DATA FROM FEDERAL LAND.—The data archive system shall provide for the archiving of relevant subsurface data and samples obtained from Federal land—

(A) in the most appropriate repository designated under paragraph (2), with preference being given to archiving data in the State in which the data were collected; and

(B) consistent with all applicable law and requirements relating to confidentiality and proprietary data.

(e) NATIONAL CATALOG.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary shall develop and maintain, as a component of the Program, a national catalog that identifies—

(A) data and samples available in the data archive system established under subsection (d);

(B) the repository for particular material in the system; and

(C) the means of accessing the material.

(2) AVAILABILITY.—The Secretary shall make the national catalog accessible to the public on the site of the Survey on the Internet, consistent with all applicable requirements related to confidentiality and proprietary data.

(f) ADVISORY COMMITTEE.—

(1) IN GENERAL.—The Advisory Committee shall advise the Secretary on planning and implementation of the Program.

(2) NEW DUTIES.—In addition to its duties under the National Geologic Mapping Act of 1992 (43 U.S.C. 31a et seq.), the Advisory Committee shall perform the following duties:

(A) Advise the Secretary on developing guidelines and procedures for providing assistance for facilities under subsection (g)(1).

(B) Review and critique the draft implementation plan prepared by the Secretary under subsection (c).

(C) Identify useful studies of data archived under the Program that will advance understanding of the Nation’s energy and mineral resources, geologic hazards, and engineering geology.

(D) Review the progress of the Program in archiving significant data and preventing the loss of such data, and the scientific progress of the studies funded under the Program.

(E) Include in the annual report to the Secretary required under section 5(b)(3) of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d(b)(3)) an evaluation of the progress of the Program toward fulfilling the purposes of the Program under subsection (b).

(g) FINANCIAL ASSISTANCE.—

(1) ARCHIVE FACILITIES.—Subject to the availability of appropriations, the Secretary shall provide financial assistance to a State agency that is designated under subsection (d)(2) for providing facilities to archive energy material.

(2) STUDIES.—Subject to the availability of appropriations, the Secretary shall provide financial assistance to any State agency designated under subsection (d)(2) for studies and technical assistance activities that enhance understanding, interpretation, and use of materials archived in the data archive system established under subsection (d).

(3) FEDERAL SHARE.—The Federal share of the cost of an activity carried out with assistance under this subsection shall be not more than 50 percent of the total cost of the activity.

(4) PRIVATE CONTRIBUTIONS.—The Secretary shall apply to the non-Federal share of the cost of an activity carried out with assistance under this subsection the value of private contributions of property and services used for that activity.

(h) REPORT.—The Secretary shall include in each report under section 8 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31g)—

(1) a description of the status of the Program;

(2) an evaluation of the progress achieved in developing the Program during the period covered by the report; and

(3) any recommendations for legislative or other action the Secretary considers necessary and appropriate to fulfill the purposes of the Program under subsection (b).

(i) MAINTENANCE OF STATE EFFORT.—It is the intent of Congress that the States not use this section as an opportunity to reduce State resources applied to the activities that are the subject of the Program.

(j) DEFINITIONS.—In this section:

(1) ADVISORY COMMITTEE.—The term “Advisory Committee” means the advisory committee established under section 5 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d).

(2) PROGRAM.—The term “Program” means the National Geological and Geophysical Data Preservation Program carried out under this section.

(3) SECRETARY.—The term “Secretary” means the Secretary of the Interior, acting through the Director of the United States Geological Survey.

(4) SURVEY.—The term “Survey” means the United States Geological Survey.

(k) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section \$30,000,000 for each of fiscal years 2004 through 2008.

SEC. 323. OIL AND GAS LEASE ACREAGE LIMITATIONS.

Section 27(d)(1) of the Mineral Leasing Act (30 U.S.C. 184(d)(1)) is amended by inserting after “acreage held in special tar sand areas” the following: “, and acreage under any lease any portion of which has been committed to a federally approved unit or cooperative plan or communitization agreement or for which royalty (including compensatory royalty or royalty in-kind) was paid in the preceding calendar year.”

SEC. 324. ASSESSMENT OF DEPENDENCE OF STATE OF HAWAII ON OIL.

(a) ASSESSMENT.—The Secretary of Energy shall assess the economic implication of the dependence of the State of Hawaii on oil as the principal source of energy for the State, including—

(1) the short- and long-term prospects for crude oil supply disruption and price volatility and potential impacts on the economy of Hawaii;

(2) the economic relationship between oil-fired generation of electricity from residual

fuel and refined petroleum products consumed for ground, marine, and air transportation;

(3) the technical and economic feasibility of increasing the contribution of renewable energy resources for generation of electricity, on an island-by-island basis, including—

- (A) siting and facility configuration;
- (B) environmental, operational, and safety considerations;
- (C) the availability of technology;
- (D) effects on the utility system including reliability;
- (E) infrastructure and transport requirements;
- (F) community support; and
- (G) other factors affecting the economic impact of such an increase and any effect on the economic relationship described in paragraph (2);

(4) the technical and economic feasibility of using liquified natural gas to displace residual fuel oil for electric generation, including neighbor island opportunities, and the effect of the displacement on the economic relationship described in paragraph (2), including—

- (A) the availability of supply;
- (B) siting and facility configuration for onshore and offshore liquified natural gas receiving terminals;
- (C) the factors described in subparagraphs (B) through (F) of paragraph (3); and
- (D) other economic factors;
- (5) the technical and economic feasibility of using renewable energy sources (including hydrogen) for ground, marine, and air transportation energy applications to displace the use of refined petroleum products, on an island-by-island basis, and the economic impact of the displacement on the relationship described in (2); and

(6) an island-by-island approach to—

- (A) the development of hydrogen from renewable resources; and

(B) the application of hydrogen to the energy needs of Hawaii

(b) **CONTRACTING AUTHORITY.**—The Secretary of Energy may carry out the assessment under subsection (a) directly or, in whole or in part, through 1 or more contracts with qualified public or private entities.

(c) **REPORT.**—Not later than 300 days after the date of enactment of this Act, the Secretary of Energy shall prepare, in consultation with agencies of the State of Hawaii and other stakeholders, as appropriate, and submit to Congress, a report detailing the findings, conclusions, and recommendations resulting from the assessment.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as are necessary to carry out this section.

SEC. 325. DEADLINE FOR DECISION ON APPEALS OF CONSISTENCY DETERMINATION UNDER THE COASTAL ZONE MANAGEMENT ACT OF 1972.

(a) **IN GENERAL.**—Section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465) is amended to read as follows:

“APPEALS TO THE SECRETARY

“SEC. 319. (a) **NOTICE.**—The Secretary shall publish an initial notice in the Federal Register not later than 30 days after the date of the filing of any appeal to the Secretary of a consistency determination under section 307.

“(b) **CLOSURE OF RECORD.**—

“(1) **IN GENERAL.**—Not later than the end of the 120-day period beginning on the date of publication of an initial notice under subsection (a), the Secretary shall receive no more filings on the appeal and the administrative record regarding the appeal shall be closed.

“(2) **NOTICE.**—Upon the closure of the administrative record, the Secretary shall im-

mediately publish a notice that the administrative record has been closed.

“(c) **DEADLINE FOR DECISION.**—The Secretary shall issue a decision in any appeal filed under section 307 not later than 120 days after the closure of the administrative record.

“(d) **APPLICATION.**—This section applies to appeals initiated by the Secretary and appeals filed by an applicant.”.

(b) **APPLICATION.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), the amendment made by subsection (a) shall apply with respect to any appeal initiated or filed before, on, or after the date of enactment of this Act.

(2) **LIMITATION.**—Subsection (a) of section 319 of the Coastal Zone Management Act of 1972 (as amended by subsection (a)) shall not apply with respect to an appeal initiated or filed before the date of enactment of this Act.

(c) **CLOSURE OF RECORD FOR APPEAL FILED BEFORE DATE OF ENACTMENT.**—Notwithstanding section 319(b)(1) of the Coastal Zone Management Act of 1972 (as amended by this section), in the case of an appeal of a consistency determination under section 307 of that Act initiated or filed before the date of enactment of this Act, the Secretary of Commerce shall receive no more filings on the appeal and the administrative record regarding the appeal shall be closed not later than 120 days after the date of enactment of this Act.

SEC. 326. REIMBURSEMENT FOR COSTS OF NEPA ANALYSES, DOCUMENTATION, AND STUDIES.

(a) **IN GENERAL.**—The Mineral Leasing Act is amended by inserting after section 37 (30 U.S.C. 193) the following:

“REIMBURSEMENT FOR COSTS OF CERTAIN ANALYSES, DOCUMENTATION, AND STUDIES

“SEC. 38. (a) **IN GENERAL.**—The Secretary of the Interior may reimburse a person that is a lessee, operator, operating rights owner, or applicant for any lease under this Act for reasonable amounts paid by the person for preparation for the Secretary by a contractor or other person selected by the Secretary of any project-level analysis, documentation, or related study required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to the lease.

“(b) **CONDITIONS.**—The Secretary may provide reimbursement under subsection (a) only if—

“(1) adequate funding to enable the Secretary to timely prepare the analysis, documentation, or related study is not appropriated;

“(2) the person paid the costs voluntarily;

“(3) the person maintains records of its costs in accordance with regulations issued by the Secretary;

“(4) the reimbursement is in the form of a reduction in the Federal share of the royalty required to be paid for the lease for which the analysis, documentation, or related study is conducted, and is agreed to by the Secretary and the person reimbursed prior to commencing the analysis, documentation, or related study; and

“(5) the agreement required under paragraph (4) contains provisions—

“(A) reducing royalties owed on lease production based on market prices;

“(B) stipulating an automatic termination of the royalty reduction upon recovery of documented costs; and

“(C) providing a process by which the lessee may seek reimbursement for circumstances in which production from the specified lease is not possible.”.

(b) **APPLICATION.**—The amendment made by this section shall apply with respect to an

analysis, documentation, or a related study conducted on or after the date of enactment of this Act for any lease entered into before, on, or after the date of enactment of this Act.

(c) **DEADLINE FOR REGULATIONS.**—The Secretary shall issue regulations implementing the amendment made by this section by not later than 1 year after the date of enactment of this Act.

SEC. 327. HYDRAULIC FRACTURING.

Paragraph (1) of section 1421(d) of the Safe Drinking Water Act (42 U.S.C. 300h(d)) is amended to read as follows:

“(1) **UNDERGROUND INJECTION.**—The term ‘underground injection’—

“(A) means the subsurface emplacement of fluids by well injection; and

“(B) excludes—

“(i) the underground injection of natural gas for purposes of storage; and

“(ii) the underground injection of fluids or propping agents pursuant to hydraulic fracturing operations related to oil or gas production activities.”.

SEC. 328. OIL AND GAS EXPLORATION AND PRODUCTION DEFINED.

Section 502 of the Federal Water Pollution Control Act (33 U.S.C. 1362) is amended by adding at the end the following:

“(24) **OIL AND GAS EXPLORATION AND PRODUCTION.**—The term ‘oil and gas exploration, production, processing, or treatment operations or transmission facilities’ means all field activities or operations associated with exploration, production, processing, or treatment operations, or transmission facilities, including activities necessary to prepare a site for drilling and for the movement and placement of drilling equipment, whether or not such field activities or operations may be considered to be construction activities.”.

SEC. 329. OUTER CONTINENTAL SHELF PROVISIONS.

(a) **STORAGE ON THE OUTER CONTINENTAL SHELF.**—Section 5(a)(5) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(5)) is amended by inserting “from any source” after “oil and gas”.

(b) **DEEPWATER PROJECTS.**—Section 6 of the Deepwater Port Act of 1974 (33 U.S.C. 1505) is amended by adding at the end the following:

“(d) **RELiance ON ACTIVITIES OF OTHER AGENCIES.**—In fulfilling the requirements of section 5(f)—

“(1) to the extent that other Federal agencies have prepared environmental impact statements, are conducting studies, or are monitoring the affected human, marine, or coastal environment, the Secretary may use the information derived from those activities in lieu of directly conducting such activities; and

“(2) the Secretary may use information obtained from any State or local government or from any person.”.

(c) **NATURAL GAS DEFINED.**—Section 3(13) of the Deepwater Port Act of 1974 (33 U.S.C. 1502(13)) is amended to read as follows:

“(13) natural gas means—

“(A) natural gas unmixed; or

“(B) any mixture of natural or artificial gas, including compressed or liquefied natural gas, natural gas liquids, liquefied petroleum gas, and condensate recovered from natural gas;”.

SEC. 330. APPEALS RELATING TO PIPELINE CONSTRUCTION OR OFFSHORE MINERAL DEVELOPMENT PROJECTS.

(a) **AGENCY OF RECORD, PIPELINE CONSTRUCTION PROJECTS.**—Any Federal administrative agency proceeding that is an appeal or review under section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465), as amended by this Act, related to Federal authority for an interstate natural gas pipeline construction project, including construction

of natural gas storage and liquefied natural gas facilities, shall use as its exclusive record for all purposes the record compiled by the Federal Energy Regulatory Commission pursuant to the Commission's proceeding under sections 3 and 7 of the Natural Gas Act (15 U.S.C. 717b, 717f).

(b) SENSE OF CONGRESS.—It is the sense of Congress that all Federal and State agencies with jurisdiction over interstate natural gas pipeline construction activities should coordinate their proceedings within the timeframes established by the Federal Energy Regulatory Commission when the Commission is acting under sections 3 and 7 of the Natural Gas Act (15 U.S.C. 717b, 717f) to determine whether a certificate of public convenience and necessity should be issued for a proposed interstate natural gas pipeline.

(c) AGENCY OF RECORD, OFFSHORE MINERAL DEVELOPMENT PROJECTS.—Any Federal administrative agency proceeding that is an appeal or review under section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465), as amended by this Act, related to Federal authority for the permitting, approval, or other authorization of energy projects, including projects to explore, develop, or produce mineral resources in or underlying the outer Continental Shelf shall use as its exclusive record for all purposes (except for the filing of pleadings) the record compiled by the relevant Federal permitting agency.

SEC. 331. BILATERAL INTERNATIONAL OIL SUPPLY AGREEMENTS.

(a) IN GENERAL.—Notwithstanding any other provision of law, the President may export oil to, or secure oil for, any country pursuant to a bilateral international oil supply agreement entered into by the United States with the country before June 25, 1979, or to any country pursuant to the International Emergency Oil Sharing Plan of the International Energy Agency.

(b) MEMORANDUM OF AGREEMENT.—The following agreements are deemed to have entered into force by operation of law and are deemed to have no termination date:

(1) The agreement entitled "Agreement amending and extending the memorandum of agreement of June 22, 1979", entered into force November 13, 1994 (TIAS 12580).

(2) The agreement entitled "Agreement amending the contingency implementing arrangements of October 17, 1980", entered into force June 27, 1995 (TIAS 12670).

SEC. 332. NATURAL GAS MARKET REFORM.

(a) CLARIFICATION OF EXISTING CFTC AUTHORITY.—

(1) FALSE REPORTING.—Section 9(a)(2) of the Commodity Exchange Act (7 U.S.C. 13(a)(2)) is amended by striking "false or misleading or knowingly inaccurate reports" and inserting "knowingly false or knowingly misleading or knowingly inaccurate reports".

(2) COMMISSION ADMINISTRATIVE AND CIVIL AUTHORITY.—Section 9 of the Commodity Exchange Act (7 U.S.C. 13) is amended by redesignating subsection (f) as subsection (e), and adding:

"(f) COMMISSION ADMINISTRATIVE AND CIVIL AUTHORITY.—The Commission may bring administrative or civil actions as provided in this Act against any person for a violation of any provision of this section including, but not limited to, false reporting under subsection (a)(2)."

(3) EFFECT OF AMENDMENTS.—The amendments made by paragraphs (1) and (2) restate, without substantive change, existing burden of proof provisions and existing Commission civil enforcement authority, respectively. These clarifying changes do not alter any existing burden of proof or grant any new statutory authority. The provisions of

this section, as restated herein, continue to apply to any action pending on or commenced after the date of enactment of this Act for any act, omission, or violation occurring before, on, or after, such date of enactment.

(b) FRAUD AUTHORITY.—Section 4b of the Commodity Exchange Act (7 U.S.C. 6b) is amended—

(1) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively; and

(2) by striking subsection (a) and inserting the following:

"(a) It shall be unlawful—

"(1) for any person, in or in connection with any order to make, or the making of, any contract of sale of any commodity for future delivery or in interstate commerce, that is made, or to be made, on or subject to the rules of a designated contract market, for or on behalf of any other person; or

"(2) for any person, in or in connection with any order to make, or the making of, any contract of sale of any commodity for future delivery, or other agreement, contract, or transaction subject to section 5a(g) (1) and (2) of this Act, that is made, or to be made, for or on behalf of, or with, any other person, other than on or subject to the rules of a designated contract market—

"(A) to cheat or defraud or attempt to cheat or defraud such other person;

"(B) willfully to make or cause to be made to such other person any false report or statement or willfully to enter or cause to be entered for such other person any false record;

"(C) willfully to deceive or attempt to deceive such other person by any means whatsoever in regard to any order or contract or the disposition or execution of any order or contract, or in regard to any act of agency performed, with respect to any order or contract for or, in the case of subsection (a)(2), with such other person; or

"(D)(i) to bucket an order if such order is either represented by such person as an order to be executed, or required to be executed, on or subject to the rules of a designated contract market; or

"(ii) to fill an order by offset against the order or orders of any other person, or willfully and knowingly and without the prior consent of such other person to become the buyer in respect to any selling order of such other person, or become the seller in respect to any buying order of such other person, if such order is either represented by such person as an order to be executed, or required to be executed, on or subject to the rules of a designated contract market.

"(b) Subsection (a)(2) shall not obligate any person, in connection with a transaction in a contract of sale of a commodity for future delivery, or other agreement, contract or transaction subject to section 5a(g) (1) and (2) of this Act, with another person, to disclose to such other person nonpublic information that may be material to the market price of such commodity or transaction, except as necessary to make any statement made to such other person in connection with such transaction, not misleading in any material respect."

(c) JURISDICTION OF THE CFTC.—The Natural Gas Act (15 U.S.C. 717 et seq.) is amended by adding at the end:

"SEC. 26. JURISDICTION.

"This Act shall not affect the exclusive jurisdiction of the Commodity Futures Trading Commission with respect to accounts, agreements, contracts, or transactions in commodities under the Commodity Exchange Act (7 U.S.C. 1 et seq.). Any request for information by the Commission to a designated contract market, registered derivatives transaction execution facility, board of

trade, exchange, or market involving accounts, agreements, contracts, or transactions in commodities (including natural gas, electricity, and other energy commodities) within the exclusive jurisdiction of the Commodity Futures Trading Commission shall be directed to the Commodity Futures Trading Commission, which shall cooperate in responding to any information request by the Commission."

(d) INCREASED PENALTIES.—Section 21 of the Natural Gas Act (15 U.S.C. 717t) is amended—

(1) in subsection (a)—

(A) by striking "\$5,000" and inserting "\$1,000,000"; and

(B) by striking "two years" and inserting "5 years"; and

(2) in subsection (b), by striking "\$500" and inserting "\$50,000".

SEC. 333. NATURAL GAS MARKET TRANSPARENCY.

The Natural Gas Act (15 U.S.C. 717 et seq.) is amended—

(1) by redesignating section 24 as section 25; and

(2) by inserting after section 23 the following:

"SEC. 24. NATURAL GAS MARKET TRANSPARENCY.

"(a) AUTHORIZATION.—(1) Not later than 180 days after the date of enactment of the Energy Policy Act of 2003, the Federal Energy Regulatory Commission shall issue rules directing all entities subject to the Commission's jurisdiction as provided under this Act to timely report information about the availability and prices of natural gas sold at wholesale in interstate commerce to the Commission and price publishers.

"(2) The Commission shall evaluate the data for adequate price transparency and accuracy.

"(3) Rules issued under this subsection requiring the reporting of information to the Commission that may become publicly available shall be limited to aggregate data and transaction-specific data that are otherwise required by the Commission to be made public.

"(4) In exercising its authority under this section, the Commission shall not—

"(A) compete with, or displace from the market place, any price publisher; or

"(B) regulate price publishers or impose any requirements on the publication of information.

"(b) TIMELY ENFORCEMENT.—No person shall be subject to any penalty under this section with respect to a violation occurring more than 3 years before the date on which the Federal Energy Regulatory Commission seeks to assess a penalty.

"(c) LIMITATION ON COMMISSION AUTHORITY.—(1) The Commission shall not condition access to interstate pipeline transportation upon the reporting requirements authorized under this section.

"(2) Natural gas sales by a producer that are attributable to volumes of natural gas produced by such producer shall not be subject to the rules issued pursuant to this section.

"(3) The Commission shall not require natural gas producers, processors, or users who have a de minimis market presence to participate in the reporting requirements provided in this section."

Subtitle C—Access to Federal Land

SEC. 341. OFFICE OF FEDERAL ENERGY PROJECT COORDINATION.

(a) ESTABLISHMENT.—The President shall establish the Office of Federal Energy Project Coordination (referred to in this section as the "Office") within the Executive Office of the President in the same manner and with the same mission as the White

House Energy Projects Task Force established by Executive Order No. 13212 (42 U.S.C. 13201 note).

(b) STAFFING.—The Office shall be staffed by functional experts from relevant Federal agencies on a nonreimbursable basis to carry out the mission of the Office.

(c) REPORT.—The Office shall transmit an annual report to Congress that describes the activities put in place to coordinate and expedite Federal decisions on energy projects. The report shall list accomplishments in improving the Federal decisionmaking process and shall include any additional recommendations or systemic changes needed to establish a more effective and efficient Federal permitting process.

SEC. 342. FEDERAL ONSHORE OIL AND GAS LEASING AND PERMITTING PRACTICES.

(a) REVIEW OF ONSHORE OIL AND GAS LEASING PRACTICES.—

(1) IN GENERAL.—The Secretary of the Interior, in consultation with the Secretary of Agriculture with respect to National Forest System lands under the jurisdiction of the Department of Agriculture, shall perform an internal review of current Federal onshore oil and gas leasing and permitting practices.

(2) INCLUSIONS.—The review shall include the process for—

- (A) accepting or rejecting offers to lease;
- (B) administrative appeals of decisions or orders of officers or employees of the Bureau of Land Management with respect to a Federal oil or gas lease;
- (C) considering surface use plans of operation, including the timeframes in which the plans are considered, and any recommendations for improving and expediting the process; and

(D) identifying stipulations to address site-specific concerns and conditions, including those stipulations relating to the environment and resource use conflicts.

(b) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall transmit a report to Congress that describes—

- (1) actions taken under section 3 of Executive Order No. 13212 (42 U.S.C. 13201 note); and
- (2) actions taken or any plans to improve the Federal onshore oil and gas leasing program.

SEC. 343. MANAGEMENT OF FEDERAL OIL AND GAS LEASING PROGRAMS.

(a) TIMELY ACTION ON LEASES AND PERMITS.—To ensure timely action on oil and gas leases and applications for permits to drill on land otherwise available for leasing, the Secretary of the Interior (in this section referred to as the “Secretary”) shall—

- (1) ensure expeditious compliance with section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C));
- (2) improve consultation and coordination with the States and the public; and
- (3) improve the collection, storage, and retrieval of information relating to the leasing activities.

(b) BEST MANAGEMENT PRACTICES.—

(1) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the Secretary shall develop and implement best management practices to—

(A) improve the administration of the onshore oil and gas leasing program under the Mineral Leasing Act (30 U.S.C. 181 et seq.); and

(B) ensure timely action on oil and gas leases and applications for permits to drill on lands otherwise available for leasing.

(2) CONSIDERATIONS.—In developing the best management practices under paragraph (1), the Secretary shall consider any recommendations from the review under section 342.

(3) REGULATIONS.—Not later than 180 days after the development of best management practices under paragraph (1), the Secretary shall publish, for public comment, proposed regulations that set forth specific timeframes for processing leases and applications in accordance with the practices, including deadlines for—

- (A) approving or disapproving resource management plans and related documents, lease applications, and surface use plans; and
- (B) related administrative appeals.

(c) IMPROVED ENFORCEMENT.—The Secretary shall improve inspection and enforcement of oil and gas activities, including enforcement of terms and conditions in permits to drill.

(d) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts authorized to be appropriated to carry out section 17 of the Mineral Leasing Act (30 U.S.C. 226), there are authorized to be appropriated to the Secretary for each of fiscal years 2004 through 2007—

- (1) \$40,000,000 to carry out subsections (a) and (b); and
- (2) \$20,000,000 to carry out subsection (c).

SEC. 344. CONSULTATION REGARDING OIL AND GAS LEASING ON PUBLIC LAND.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall enter into a memorandum of understanding regarding oil and gas leasing on—

- (1) public lands under the jurisdiction of the Secretary of the Interior; and
- (2) National Forest System lands under the jurisdiction of the Secretary of Agriculture.

(b) CONTENTS.—The memorandum of understanding shall include provisions that—

- (1) establish administrative procedures and lines of authority that ensure timely processing of oil and gas lease applications, surface use plans of operation, and applications for permits to drill, including steps for processing surface use plans and applications for permits to drill consistent with the timelines established by the amendment made by section 348;
- (2) eliminate duplication of effort by providing for coordination of planning and environmental compliance efforts; and
- (3) ensure that lease stipulations are—

- (A) applied consistently;
- (B) coordinated between agencies; and
- (C) only as restrictive as necessary to protect the resource for which the stipulations are applied.

(c) DATA RETRIEVAL SYSTEM.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall establish a joint data retrieval system that is capable of—

(A) tracking applications and formal requests made in accordance with procedures of the Federal onshore oil and gas leasing program; and

(B) providing information regarding the status of the applications and requests within the Department of the Interior and the Department of Agriculture.

(2) RESOURCE MAPPING.—Not later than 2 years after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall establish a joint Geographic Information System mapping system for use in—

- (A) tracking surface resource values to aid in resource management; and
- (B) processing surface use plans of operation and applications for permits to drill.

SEC. 345. ESTIMATES OF OIL AND GAS RESOURCES UNDERLYING ONSHORE FEDERAL LAND.

(a) ASSESSMENT.—Section 604 of the Energy Act of 2000 (42 U.S.C. 6217) is amended—

- (1) in subsection (a)—

(A) in paragraph (1)—

- (i) by striking “reserve”; and
- (ii) by striking “and” after the semicolon; and

(B) by striking paragraph (2) and inserting the following:

“(2) the extent and nature of any restrictions or impediments to the development of the resources, including—

“(A) impediments to the timely granting of leases;

“(B) post-lease restrictions, impediments, or delays on development for conditions of approval, applications for permits to drill, or processing of environmental permits; and

“(C) permits or restrictions associated with transporting the resources for entry into commerce; and

“(3) the quantity of resources not produced or introduced into commerce because of the restrictions.”;

(2) in subsection (b)—

(A) by striking “reserve” and inserting “resource”; and

(B) by striking “publically” and inserting “publicly”; and

(3) by striking subsection (d) and inserting the following:

“(d) ASSESSMENTS.—Using the inventory, the Secretary of Energy shall make periodic assessments of economically recoverable resources accounting for a range of parameters such as current costs, commodity prices, technology, and regulations.”.

(b) METHODOLOGY.—The Secretary of the Interior shall use the same assessment methodology across all geological provinces, areas, and regions in preparing and issuing national geological assessments to ensure accurate comparisons of geological resources.

SEC. 346. COMPLIANCE WITH EXECUTIVE ORDER 13211; ACTIONS CONCERNING REGULATIONS THAT SIGNIFICANTLY AFFECT ENERGY SUPPLY, DISTRIBUTION, OR USE.

(a) REQUIREMENT.—The head of each Federal agency shall require that before the Federal agency takes any action that could have a significant adverse effect on the supply of domestic energy resources from Federal public land, the Federal agency taking the action shall comply with Executive Order No. 13211 (42 U.S.C. 13201 note).

(b) GUIDANCE.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall publish guidance for purposes of this section describing what constitutes a significant adverse effect on the supply of domestic energy resources under Executive Order No. 13211 (42 U.S.C. 13201 note).

(c) MEMORANDUM OF UNDERSTANDING.—The Secretary of the Interior and the Secretary of Agriculture shall include in the memorandum of understanding under section 344 provisions for implementing subsection (a) of this section.

SEC. 347. PILOT PROJECT TO IMPROVE FEDERAL PERMIT COORDINATION.

(a) ESTABLISHMENT.—The Secretary of the Interior (in this section referred to as the “Secretary”) shall establish a Federal Permit Streamlining Pilot Project (in this section referred to as the “Pilot Project”).

(b) MEMORANDUM OF UNDERSTANDING.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary shall enter into a memorandum of understanding with the Secretary of Agriculture, the Administrator of the Environmental Protection Agency, and the Chief of Engineers of the Army Corps of Engineers for purposes of this section.

(2) STATE PARTICIPATION.—The Secretary may request that the Governors of Wyoming, Montana, Colorado, Utah, and New Mexico be signatories to the memorandum of understanding.

(c) DESIGNATION OF QUALIFIED STAFF.—

(1) IN GENERAL.—Not later than 30 days after the date of the signing of the memorandum of understanding under subsection (b), all Federal signatory parties shall assign to each of the field offices identified in subsection (d), on a nonreimbursable basis, an employee who has expertise in the regulatory issues relating to the office in which the employee is employed, including, as applicable, particular expertise in—

(A) the consultations and the preparation of biological opinions under section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1536);

(B) permits under section 404 of Federal Water Pollution Control Act (33 U.S.C. 1344);

(C) regulatory matters under the Clean Air Act (42 U.S.C. 7401 et seq.);

(D) planning under the National Forest Management Act of 1976 (16 U.S.C. 472a et seq.); and

(E) the preparation of analyses under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(2) DUTIES.—Each employee assigned under paragraph (1) shall—

(A) not later than 90 days after the date of assignment, report to the Bureau of Land Management Field Managers in the office to which the employee is assigned;

(B) be responsible for all issues relating to the jurisdiction of the home office or agency of the employee; and

(C) participate as part of the team of personnel working on proposed energy projects, planning, and environmental analyses.

(d) FIELD OFFICES.—The following Bureau of Land Management Field Offices shall serve as the Pilot Project offices:

- (1) Rawlins, Wyoming.
- (2) Buffalo, Wyoming.
- (3) Miles City, Montana.
- (4) Farmington, New Mexico.
- (5) Carlsbad, New Mexico.
- (6) Glenwood Springs, Colorado.
- (7) Vernal, Utah.

(e) REPORTS.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report that—

(1) outlines the results of the Pilot Project to date; and

(2) makes a recommendation to the President regarding whether the Pilot Project should be implemented throughout the United States.

(f) ADDITIONAL PERSONNEL.—The Secretary shall assign to each field office identified in subsection (d) any additional personnel that are necessary to ensure the effective implementation of—

(1) the Pilot Project; and

(2) other programs administered by the field offices, including inspection and enforcement relating to energy development on Federal land, in accordance with the multiple use mandate of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.).

(g) SAVINGS PROVISION.—Nothing in this section affects—

(1) the operation of any Federal or State law; or

(2) any delegation of authority made by the head of a Federal agency whose employees are participating in the Pilot Project.

SEC. 348. DEADLINE FOR CONSIDERATION OF APPLICATIONS FOR PERMITS.

Section 17 of the Mineral Leasing Act (30 U.S.C. 226) is amended by adding at the end the following:

“(p) DEADLINES FOR CONSIDERATION OF APPLICATIONS FOR PERMITS.—

“(1) IN GENERAL.—Not later than 10 days after the date on which the Secretary receives an application for any permit to drill, the Secretary shall—

“(A) notify the applicant that the application is complete; or

“(B) notify the applicant that information is missing and specify any information that is required to be submitted for the application to be complete.

“(2) ISSUANCE OR DEFERRAL.—Not later than 30 days after the applicant for a permit has submitted a complete application, the Secretary shall—

“(A) issue the permit; or

“(B)(i) defer decision on the permit; and

“(ii) provide to the applicant a notice that specifies any steps that the applicant could take for the permit to be issued.

“(3) REQUIREMENTS FOR DEFERRED APPLICATIONS.—

“(A) IN GENERAL.—If the Secretary provides notice under paragraph (2)(B)(ii), the applicant shall have a period of 2 years from the date of receipt of the notice in which to complete all requirements specified by the Secretary, including providing information needed for compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

“(B) ISSUANCE OF DECISION ON PERMIT.—If the applicant completes the requirements within the period specified in subparagraph (A), the Secretary shall issue a decision on the permit not later than 10 days after the date of completion of the requirements described in subparagraph (A).

“(C) DENIAL OF PERMIT.—If the applicant does not complete the requirements within the period specified in subparagraph (A), the Secretary shall deny the permit.

“(g) REPORT.—On a quarterly basis, each field office of the Bureau of Land Management and the Forest Service shall transmit to the Secretary of the Interior or the Secretary of Agriculture, respectively, a report that—

“(1) specifies the number of applications for permits to drill received by the field office in the period covered by the report; and

“(2) describes how each of the applications was disposed of by the field office.”.

SEC. 349. CLARIFICATION OF FAIR MARKET RENTAL VALUE DETERMINATIONS FOR PUBLIC LAND AND FOREST SERVICE RIGHTS-OF-WAY.

(a) LINEAR RIGHTS-OF-WAY UNDER FEDERAL LAND POLICY AND MANAGEMENT ACT OF 1976.—Section 504 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764) is amended by adding at the end the following:

“(k) DETERMINATION OF FAIR MARKET VALUE OF LINEAR RIGHTS-OF-WAY.—

“(1) IN GENERAL.—Effective beginning on the date of the issuance of the rules required by paragraph (2), for purposes of subsection (g), the Secretary concerned shall determine the fair market value for the use of land encumbered by a linear right-of-way granted, issued, or renewed under this title using the valuation method described in paragraphs (2), (3), and (4).

“(2) REVISIONS.—Not later than 1 year after the date of enactment of this subsection—

“(A) the Secretary of the Interior shall amend section 2803.1-2 of title 43, Code of Federal Regulations, as in effect on the date of enactment of this subsection, to revise the per acre rental fee zone value schedule by State, county, and type of linear right-of-way use to reflect current values of land in each zone; and

“(B) the Secretary of Agriculture shall make the same revision for linear rights-of-way granted, issued, or renewed under this title on National Forest System land.

“(3) UPDATES.—The Secretary concerned shall annually update the schedule revised under paragraph (2) by multiplying the current year's rental per acre by the annual change, second quarter to second quarter

(June 30 to June 30) in the Gross National Product Implicit Price Deflator Index published in the Survey of Current Business of the Department of Commerce, Bureau of Economic Analysis.

“(4) REVIEW.—If the cumulative change in the index referred to in paragraph (3) exceeds 30 percent, or the change in the 3-year average of the 1-year Treasury interest rate used to determine per acre rental fee zone values exceeds plus or minus 50 percent, the Secretary concerned shall conduct a review of the zones and rental per acre figures to determine whether the value of Federal land has differed sufficiently from the index referred to in paragraph (3) to warrant a revision in the base zones and rental per acre figures. If, as a result of the review, the Secretary concerned determines that such a revision is warranted, the Secretary concerned shall revise the base zones and rental per acre figures accordingly. Any revision of base zones and rental per acre figure shall only affect lease rental rates at inception or renewal.”.

(b) RIGHTS-OF-WAY UNDER MINERAL LEASING ACT.—Section 28(l) of the Mineral Leasing Act (30 U.S.C. 185(l)) is amended by inserting before the period at the end the following: “using the valuation method described in section 2803.1-2 of title 43, Code of Federal Regulations, as revised in accordance with section 504(k) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764(k))”.

SEC. 350. ENERGY FACILITY RIGHTS-OF-WAY AND CORRIDORS ON FEDERAL LAND.

(a) REPORT TO CONGRESS.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Agriculture and the Secretary of the Interior, in consultation with the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Federal Energy Regulatory Commission, shall submit to Congress a joint report—

(A) that addresses—

(i) the location of existing rights-of-way and designated and de facto corridors for oil and gas pipelines and electric transmission and distribution facilities on Federal land; and

(ii) opportunities for additional oil and gas pipeline and electric transmission capacity within those rights-of-way and corridors; and

(B) that includes a plan for making available, on request, to the appropriate Federal, State, and local agencies, tribal governments, and other persons involved in the siting of oil and gas pipelines and electricity transmission facilities Geographic Information System-based information regarding the location of the existing rights-of-way and corridors and any planned rights-of-way and corridors.

(2) CONSULTATIONS AND CONSIDERATIONS.—In preparing the report, the Secretary of the Interior and the Secretary of Agriculture shall consult with—

(A) other agencies of Federal, State, tribal, or local units of government, as appropriate;

(B) persons involved in the siting of oil and gas pipelines and electric transmission facilities; and

(C) other interested members of the public.

(3) LIMITATION.—The Secretary of the Interior and the Secretary of Agriculture shall limit the distribution of the report and Geographic Information System-based information referred to in paragraph (1) as necessary for national and infrastructure security reasons, if either Secretary determines that the information may be withheld from public disclosure under a national security or other exception under section 552(b) of title 5, United States Code.

(b) CORRIDOR DESIGNATIONS.—

(1) 11 CONTIGUOUS WESTERN STATES.—Not later than 2 years after the date of enactment of this Act, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior, in consultation with the Federal Energy Regulatory Commission and the affected utility industries, shall jointly—

(A) designate, under title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.) and other applicable Federal laws, corridors for oil and gas pipelines and electricity transmission and facilities on Federal land in the eleven contiguous Western States (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702));

(B) perform any environmental reviews that may be required to complete the designations of corridors for the facilities on Federal land in the eleven contiguous Western States; and

(C) incorporate the designated corridors into—

(i) the relevant departmental and agency land use and resource management plans; or

(ii) equivalent plans.

(2) OTHER STATES.—Not later than 4 years after the date of enactment of this Act, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior, in consultation with the Federal Energy Regulatory Commission and the affected utility industries, shall jointly—

(A) identify corridors for oil and gas pipelines and electricity transmission and distribution facilities on Federal land in the States other than those described in paragraph (1); and

(B) schedule prompt action to identify, designate, and incorporate the corridors into the land use plan.

(3) ONGOING RESPONSIBILITIES.—After completing the requirements under paragraphs (1) and (2), the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior, with respect to lands under their respective jurisdictions, in consultation with the Federal Energy Regulatory Commission and the affected utility industries, shall establish procedures that—

(A) ensure that additional corridors for oil and gas pipelines and electricity transmission and distribution facilities on Federal land are promptly identified and designated; and

(B) expedite applications to construct or modify oil and gas pipelines and electricity transmission and distribution facilities within the corridors, taking into account prior analyses and environmental reviews undertaken during the designation of corridors.

(c) CONSIDERATIONS.—In carrying out this section, the Secretaries shall take into account the need for upgraded and new electricity transmission and distribution facilities to—

(1) improve reliability;

(2) relieve congestion; and

(3) enhance the capability of the national grid to deliver electricity.

(d) DEFINITION OF CORRIDOR.—

(1) IN GENERAL.—In this section and title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.), the term “corridor” means—

(A) a linear strip of land—

(i) with a width determined with consideration given to technological, environmental, and topographical factors; and

(ii) that contains, or may in the future contain, 1 or more utility, communication, or transportation facilities;

(B) a land use designation that is established—

(i) by law;

(ii) by Secretarial Order;

(iii) through the land use planning process; or

(iv) by other management decision; and

(C) a designation made for the purpose of establishing the preferred location of compatible linear facilities and land uses.

(2) SPECIFICATIONS OF CORRIDOR.—On designation of a corridor under this section, the centerline, width, and compatible uses of a corridor shall be specified.

SEC. 351. CONSULTATION REGARDING ENERGY RIGHTS-OF-WAY ON PUBLIC LAND.

(a) MEMORANDUM OF UNDERSTANDING.—

(1) IN GENERAL.—Not later than 6 months after the date of enactment of this Act, the Secretary of Energy, in consultation with the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Defense with respect to lands under their respective jurisdictions, shall enter into a memorandum of understanding to coordinate all applicable Federal authorizations and environmental reviews relating to a proposed or existing utility facility. To the maximum extent practicable under applicable law, the Secretary of Energy shall, to ensure timely review and permit decisions, coordinate such authorizations and reviews with any Indian tribes, multi-State entities, and State agencies that are responsible for conducting any separate permitting and environmental reviews of the affected utility facility.

(2) CONTENTS.—The memorandum of understanding shall include provisions that—

(A) establish—

(i) a unified right-of-way application form; and

(ii) an administrative procedure for processing right-of-way applications, including lines of authority, steps in application processing, and timeframes for application processing;

(B) provide for coordination of planning relating to the granting of the rights-of-way;

(C) provide for an agreement among the affected Federal agencies to prepare a single environmental review document to be used as the basis for all Federal authorization decisions; and

(D) provide for coordination of use of right-of-way stipulations to achieve consistency.

(b) NATURAL GAS PIPELINES.—

(1) IN GENERAL.—With respect to permitting activities for interstate natural gas pipelines, the May 2002 document entitled “Interagency Agreement On Early Coordination Of Required Environmental And Historic Preservation Reviews Conducted In Conjunction With The Issuance Of Authorizations To Construct And Operate Interstate Natural Gas Pipelines Certificated By The Federal Energy Regulatory Commission” shall constitute compliance with subsection (a).

(2) REPORT.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, and every 2 years thereafter, agencies that are signatories to the document referred to in paragraph (1) shall transmit to Congress a report on how the agencies under the jurisdiction of the Secretaries are incorporating and implementing the provisions of the document referred to in paragraph (1).

(B) CONTENTS.—The report shall address—

(i) efforts to implement the provisions of the document referred to in paragraph (1);

(ii) whether the efforts have had a streamlining effect;

(iii) further improvements to the permitting process of the agency; and

(iv) recommendations for inclusion of State and tribal governments in a coordinated permitting process.

(c) DEFINITION OF UTILITY FACILITY.—In this section, the term “utility facility”

means any privately, publicly, or cooperatively owned line, facility, or system—

(1) for the transportation of—

(A) oil, natural gas, synthetic liquid fuel, or gaseous fuel;

(B) any refined product produced from oil, natural gas, synthetic liquid fuel, or gaseous fuel; or

(C) products in support of the production of material referred to in subparagraph (A) or (B);

(2) for storage and terminal facilities in connection with the production of material referred to in paragraph (1); or

(3) for the generation, transmission, and distribution of electric energy.

SEC. 352. RENEWABLE ENERGY ON FEDERAL LAND.

(a) REPORT.—

(1) IN GENERAL.—Not later than 24 months after the date of enactment of this Act, the Secretary of the Interior, in cooperation with the Secretary of Agriculture, shall develop and transmit to Congress a report that includes recommendations on opportunities to develop renewable energy on—

(A) public lands under the jurisdiction of the Secretary of the Interior; and

(B) National Forest System lands under the jurisdiction of the Secretary of Agriculture.

(2) CONTENTS.—The report shall include—

(A) 5-year plans developed by the Secretary of the Interior and the Secretary of Agriculture, respectively, for encouraging the development of renewable energy consistent with applicable law and management plans;

(B) an analysis of—

(i) the use of rights-of-way, leases, or other methods to develop renewable energy on such lands;

(ii) the anticipated benefits of grants, loans, tax credits, or other provisions to promote renewable energy development on such lands; and

(iii) any issues that the Secretary of the Interior or the Secretary of Agriculture have encountered in managing renewable energy projects on such lands, believe are likely to arise in relation to the development of renewable energy on such lands;

(C) a list, developed in consultation with the Secretary of Energy and the Secretary of Defense, of lands under the jurisdiction of the Department of Energy or the Department of Defense that would be suitable for development for renewable energy, and any recommended statutory and regulatory mechanisms for such development; and

(D) any recommendations relating to the issues addressed in the report.

(b) NATIONAL ACADEMY OF SCIENCES STUDY.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary of the Interior shall contract with the National Academy of Sciences to—

(A) study the potential for the development of wind, solar, and ocean energy (including tidal, wave, and thermal energy) on the outer Continental Shelf;

(B) assess existing Federal authorities for the development of such resources; and

(C) recommend statutory and regulatory mechanisms for such development.

(2) TRANSMITTAL.—The results of the study shall be transmitted to Congress not later than 2 years after the date of enactment of this Act.

(c) GENERATION CAPACITY OF ELECTRICITY FROM RENEWABLE ENERGY RESOURCES ON PUBLIC LAND.—The Secretary of the Interior shall, not later than 10 years after the date of enactment of this Act, seek to approve renewable energy projects located (or to be located) on public lands with a generation capacity of at least 10,000 megawatts of electricity.

SEC. 353. ELECTRICITY TRANSMISSION LINE RIGHT-OF-WAY, CLEVELAND NATIONAL FOREST AND ADJACENT PUBLIC LAND, CALIFORNIA.

(a) ISSUANCE.—

(1) IN GENERAL.—Not later than 60 days after the completion of the environmental reviews under subsection (c), the Secretary of the Interior and the Secretary of Agriculture shall issue all necessary grants, easements, permits, plan amendments, and other approvals to allow for the siting and construction of a high-voltage electricity transmission line right-of-way running approximately north to south through the Trabuco Ranger District of the Cleveland National Forest in the State of California and adjacent lands under the jurisdiction of the Bureau of Land Management and the Forest Service.

(2) INCLUSIONS.—The right-of-way approvals under paragraph (1) shall provide all necessary Federal authorization from the Secretary of the Interior and the Secretary of Agriculture for the routing, construction, operation, and maintenance of a 500-kilovolt transmission line capable of meeting the long-term electricity transmission needs of the region between the existing Valley-Serrano transmission line to the north and the Telega-Escondido transmission line to the south, and for connecting to future generating capacity that may be developed in the region.

(b) PROTECTION OF WILDERNESS AREAS.—The Secretary of the Interior and the Secretary of Agriculture shall not allow any portion of a transmission line right-of-way corridor identified in subsection (a) to enter any identified wilderness area in existence as of the date of enactment of this Act.

(c) ENVIRONMENTAL AND ADMINISTRATIVE REVIEWS.—

(1) DEPARTMENT OF INTERIOR OR LOCAL AGENCY.—The Secretary of the Interior, acting through the Director of the Bureau of Land Management, shall be the lead Federal agency with overall responsibility to ensure completion of required environmental and other reviews of the approvals to be issued under subsection (a).

(2) NATIONAL FOREST SYSTEM LAND.—For the portions of the corridor on National Forest System lands, the Secretary of Agriculture shall complete all required environmental reviews and administrative actions in coordination with the Secretary of the Interior.

(3) EXPEDITIOUS COMPLETION.—The reviews required for issuance of the approvals under subsection (a) shall be completed not later than 1 year after the date of the enactment of this Act.

(d) OTHER TERMS AND CONDITIONS.—The transmission line right-of-way shall be subject to such terms and conditions as the Secretary of the Interior and the Secretary of Agriculture consider necessary, based on the environmental reviews under subsection (c), to protect the value of historic, cultural, and natural resources under the jurisdiction of the Secretary of the Interior or the Secretary of Agriculture.

(e) PREFERENCE AMONG PROPOSALS.—The Secretary of the Interior and the Secretary of Agriculture shall give a preference to any application or preapplication proposal for a transmission line right-of-way referred to in subsection (a) that was submitted before December 31, 2002, over all other applications and proposals for the same or a similar right-of-way submitted on or after that date.

SEC. 354. SENSE OF CONGRESS REGARDING DEVELOPMENT OF MINERALS UNDER PADRE ISLAND NATIONAL SEASHORE.

(a) FINDINGS.—Congress finds the following:

(1) Pursuant to Public Law 87-712 (16 U.S.C. 459d et seq.; popularly known as the “Federal Enabling Act”) and various deeds and actions under that Act, the United States is the owner of only the surface estate of certain lands constituting the Padre Island National Seashore.

(2) Ownership of the oil, gas, and other minerals in the subsurface estate of the lands constituting the Padre Island National Seashore was never acquired by the United States, and ownership of those interests is held by the State of Texas and private parties.

(3) Public Law 87-712 (16 U.S.C. 459d et seq.)—

(A) expressly contemplated that the United States would recognize the ownership and future development of the oil, gas, and other minerals in the subsurface estate of the lands constituting the Padre Island National Seashore by the owners and their mineral lessees; and

(B) recognized that approval of the State of Texas was required to create Padre Island National Seashore.

(4) Approval was given for the creation of Padre Island National Seashore by the State of Texas through Tex. Rev. Civ. Stat. Ann. Art. 6077(t) (Vernon 1970), which expressly recognized that development of the oil, gas, and other minerals in the subsurface of the lands constituting Padre Island National Seashore would be conducted with full rights of ingress and egress under the laws of the State of Texas.

(b) SENSE OF CONGRESS.—It is the sense of Congress that with regard to Federal law, any regulation of the development of oil, gas, or other minerals in the subsurface of the lands constituting Padre Island National Seashore should be made as if those lands retained the status that the lands had on September 27, 1962.

SEC. 355. ENCOURAGING PROHIBITION OF OFFSHORE DRILLING IN THE GREAT LAKES.

Congress encourages—

(1) the States of Illinois, Michigan, New York, Pennsylvania, and Wisconsin to continue to prohibit offshore drilling in the Great Lakes for oil and gas; and

(2) the States of Indiana, Minnesota, and Ohio to enact a prohibition of such drilling.

SEC. 356. FINGER LAKES NATIONAL FOREST WITHDRAWAL.

All Federal land within the boundary of Finger Lakes National Forest in the State of New York is withdrawn from—

(1) all forms of entry, appropriation, or disposal under the public land laws; and

(2) disposition under all laws relating to oil and gas leasing.

SEC. 357. STUDY ON LEASE EXCHANGES IN THE ROCKY MOUNTAIN FRONT.

(a) DEFINITIONS.—For the purposes of this section:

(1) BADGER-TWO MEDICINE AREA.—The term “Badger-Two Medicine Area” means the Forest Service land located in—

- (A) T. 31 N., R. 12-13 W.;
- (B) T. 30 N., R. 11-13 W.;
- (C) T. 29 N., R. 10-16 W.; and
- (D) T. 28 N., R. 10-14 W.

(2) BLACKLEAF AREA.—The term “Blackleaf Area” means the Federal land owned by the Forest Service and Bureau of Land Management that is located in—

- (A) T. 27 N., R. 9 W.;
- (B) T. 26 N., R. 9-10 W.;
- (C) T. 25 N., R. 8-10 W.; and
- (D) T. 24 N., R. 8-9 W.

(3) ELIGIBLE LESSEE.—The term “eligible lessee” means a lessee under a nonproducing lease.

(4) NONPRODUCING LEASE.—The term “nonproducing lease” means a Federal oil or gas lease—

(A) that is in existence and in good standing on the date of enactment of this Act; and

(B) that is located in the Badger-Two Medicine Area or the Blackleaf Area.

(5) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(6) STATE.—The term “State” means the State of Montana.

(b) EVALUATION.—

(1) IN GENERAL.—The Secretary, in consultation with the Governor of the State, and the eligible lessees, shall evaluate opportunities for domestic oil and gas production through the exchange of the nonproducing leases.

(2) REQUIREMENTS.—In carrying out the evaluation under subsection (a), the Secretary shall—

(A) consider opportunities for domestic production of oil and gas through—

(i) the exchange of the nonproducing leases for oil and gas lease tracts of comparable value in the State; and

(ii) the issuance of bidding, royalty, or rental credits for Federal oil and gas leases in the State in exchange for the cancellation of the nonproducing leases;

(B) consider any other appropriate means to exchange, or provide compensation for the cancellation of, nonproducing leases, subject to the consent of the eligible lessees;

(C) consider the views of any interested persons, including the State;

(D) determine the level of interest of the eligible lessees in exchanging the nonproducing leases;

(E) assess the economic impact on the lessees and the State of lease exchange, lease cancellation, and final judicial or administrative decisions related to the nonproducing leases; and

(F) provide recommendations on—

(i) whether to pursue an exchange of the nonproducing leases;

(ii) any changes in laws (including regulations) that are necessary for the Secretary to carry out the exchange; and

(iii) any other appropriate means to exchange or provide compensation for the cancellation of a nonproducing lease, subject to the consent of the eligible lessee.

(c) VALUATION OF NONPRODUCING LEASES.—For the purpose of the evaluation under subsection (a), the value of a nonproducing lease shall be an amount equal to the difference between—

(1) the sum of—

(A) the amount paid by the eligible lessee for the nonproducing lease;

(B) any direct expenditures made by the eligible lessee before the transmittal of the report in subsection (c) associated with the exploration and development of the nonproducing lease; and

(C) interest on any amounts under subparagraphs (A) and (B) during the period beginning on the date on which the amount was paid and ending on the date on which credits are issued under subsection (b)(2)(A)(ii); and

(2) the sum of the revenues from the nonproducing lease.

(d) REPORT TO CONGRESS.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall initiate the evaluation in subsection (b) and transmit to Congress a report on the evaluation.

SEC. 358. FEDERAL COALBED METHANE REGULATION.

Any State currently on the list of Affected States established under section 1339(b) of the Energy Policy Act of 1992 (42 U.S.C. 13368(b)) shall be removed from the list if, not later than 3 years after the date of enactment of this Act, the State takes, or prior to the date of enactment has taken, any of the actions required for removal from the list under such section 1339(b).

SEC. 359. LIVINGSTON PARISH MINERAL RIGHTS TRANSFER.

(a) AMENDMENTS.—Section 102 of Public Law 102-562 (106 Stat. 4234) is amended—

- (1) by striking “(a) IN GENERAL.—”;
- (2) by striking “and subject to the reservation in subsection (b),”;
- (3) by striking subsection (b).

(b) IMPLEMENTATION OF AMENDMENT.—The Secretary of the Interior shall execute the legal instruments necessary to effectuate the amendment made by subsection (a)(3).

Subtitle D—Alaska Natural Gas Pipeline**SEC. 371. SHORT TITLE.**

This subtitle may be cited as the “Alaska Natural Gas Pipeline Act”.

SEC. 372. DEFINITIONS.

In this subtitle:

(1) ALASKA NATURAL GAS.—The term “Alaska natural gas” means natural gas derived from the area of the State of Alaska lying north of 64 degrees north latitude.

(2) ALASKA NATURAL GAS TRANSPORTATION PROJECT.—The term “Alaska natural gas transportation project” means any natural gas pipeline system that carries Alaska natural gas to the border between Alaska and Canada (including related facilities subject to the jurisdiction of the Commission) that is authorized under—

(A) the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.); or

(B) section 373.

(3) ALASKA NATURAL GAS TRANSPORTATION SYSTEM.—The term “Alaska natural gas transportation system” means the Alaska natural gas transportation project authorized under the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.) and designated and described in section 2 of the President’s decision.

(4) COMMISSION.—The term “Commission” means the Federal Energy Regulatory Commission.

(5) FEDERAL COORDINATOR.—The term “Federal Coordinator” means the head of the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects established by section 376(a).

(6) PRESIDENT’S DECISION.—The term “President’s decision” means the decision and report to Congress on the Alaska natural gas transportation system—

(A) issued by the President on September 22, 1977, in accordance with section 7 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719e); and

(B) approved by Public Law 95-158 (15 U.S.C. 719f note; 91 Stat. 1268).

(7) SECRETARY.—The term “Secretary” means the Secretary of Energy.

(8) STATE.—The term “State” means the State of Alaska.

SEC. 373. ISSUANCE OF CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY.

(a) AUTHORITY OF THE COMMISSION.—Notwithstanding the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.), the Commission may, in accordance with section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)), consider and act on an application for the issuance of a certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project other than the Alaska natural gas transportation system.

(b) ISSUANCE OF CERTIFICATE.—

(1) IN GENERAL.—The Commission shall issue a certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project under this section if the applicant has satisfied the requirements of section 7(e) of the Natural Gas Act (15 U.S.C. 717f(e)).

(2) CONSIDERATIONS.—In considering an application under this section, the Commission shall presume that—

(A) a public need exists to construct and operate the proposed Alaska natural gas transportation project; and

(B) sufficient downstream capacity will exist to transport the Alaska natural gas moving through the project to markets in the contiguous United States.

(c) EXPEDITED APPROVAL PROCESS.—Not later than 60 days after the date of issuance of the final environmental impact statement under section 374 for an Alaska natural gas transportation project, the Commission shall issue a final order granting or denying any application for a certificate of public convenience and necessity for the project under section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)) and this section.

(d) PROHIBITION OF CERTAIN PIPELINE ROUTE.—No license, permit, lease, right-of-way, authorization, or other approval required under Federal law for the construction of any pipeline to transport natural gas from land within the Prudhoe Bay oil and gas lease area may be granted for any pipeline that follows a route that—

(1) traverses land beneath navigable waters (as defined in section 2 of the Submerged Lands Act (43 U.S.C. 1301)) beneath, or the adjacent shoreline of, the Beaufort Sea; and

(2) enters Canada at any point north of 68 degrees north latitude.

(e) OPEN SEASON.—

(1) IN GENERAL.—Not later than 120 days after the date of enactment of this Act, the Commission shall issue regulations governing the conduct of open seasons for Alaska natural gas transportation projects (including procedures for the allocation of capacity).

(2) REGULATIONS.—The regulations referred to in paragraph (1) shall—

(A) include the criteria for and timing of any open seasons;

(B) promote competition in the exploration, development, and production of Alaska natural gas; and

(C) for any open season for capacity exceeding the initial capacity, provide the opportunity for the transportation of natural gas other than from the Prudhoe Bay and Point Thomson units.

(3) APPLICABILITY.—Except in a case in which an expansion is ordered in accordance with section 375, initial or expansion capacity on any Alaska natural gas transportation project shall be allocated in accordance with procedures to be established by the Commission in regulations issued under paragraph (1).

(f) PROJECTS IN THE CONTIGUOUS UNITED STATES.—

(1) IN GENERAL.—An application for additional or expanded pipeline facilities that may be required to transport Alaska natural gas from Canada to markets in the contiguous United States may be made in accordance with the Natural Gas Act (15 U.S.C. 717a et seq.).

(2) EXPANSION.—To the extent that a pipeline facility described in paragraph (1) includes the expansion of any facility constructed in accordance with the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.), that Act shall continue to apply.

(g) STUDY OF IN-STATE NEEDS.—The holder of the certificate of public convenience and necessity issued, modified, or amended by the Commission for an Alaska natural gas transportation project shall demonstrate that the holder has conducted a study of Alaska in-State needs, including tie-in points along the Alaska natural gas transportation project for in-State access.

(h) ALASKA ROYALTY GAS.—

(1) IN GENERAL.—Except as provided in paragraph (2), the Commission, on a request by the State and after a hearing, may provide for reasonable access to the Alaska natural gas transportation project by the State (or State designee) for the transportation of royalty gas of the State for the purpose of meeting local consumption needs within the State.

(2) EXCEPTION.—The rates of shippers of subscribed capacity on an Alaska natural gas transportation project described in paragraph (1), as in effect as of the date on which access under that paragraph is granted, shall not be increased as a result of such access.

(i) REGULATIONS.—The Commission may issue such regulations as are necessary to carry out this section.

SEC. 374. ENVIRONMENTAL REVIEWS.

(a) COMPLIANCE WITH NEPA.—The issuance of a certificate of public convenience and necessity authorizing the construction and operation of any Alaska natural gas transportation project under section 373 shall be treated as a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(b) DESIGNATION OF LEAD AGENCY.—

(1) IN GENERAL.—The Commission—

(A) shall be the lead agency for purposes of complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(B) shall be responsible for preparing the environmental impact statement required by section 102(2)(c) of that Act (42 U.S.C. 4332(2)(c)) with respect to an Alaska natural gas transportation project under section 373.

(2) CONSOLIDATION OF STATEMENTS.—In carrying out paragraph (1), the Commission shall prepare a single environmental impact statement, which shall consolidate the environmental reviews of all Federal agencies considering any aspect of the Alaska natural gas transportation project covered by the environmental impact statement.

(c) OTHER AGENCIES.—

(1) IN GENERAL.—Each Federal agency considering an aspect of the construction and operation of an Alaska natural gas transportation project under section 373 shall—

(A) cooperate with the Commission; and

(B) comply with deadlines established by the Commission in the preparation of the environmental impact statement under this section.

(2) SATISFACTION OF NEPA REQUIREMENTS.—The environmental impact statement prepared under this section shall be adopted by each Federal agency described in paragraph (1) in satisfaction of the responsibilities of the Federal agency under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) with respect to the Alaska natural gas transportation project covered by the environmental impact statement.

(d) EXPEDITED PROCESS.—The Commission shall—

(1) not later than 1 year after the Commission determines that the application under section 373 with respect to an Alaska natural gas transportation project is complete, issue a draft environmental impact statement under this section; and

(2) not later than 180 days after the date of issuance of the draft environmental impact statement, issue a final environmental impact statement, unless the Commission for good cause determines that additional time is needed.

SEC. 375. PIPELINE EXPANSION.

(a) AUTHORITY.—With respect to any Alaska natural gas transportation project, on a request by 1 or more persons and after giving notice and an opportunity for a hearing, the

Commission may order the expansion of the Alaska natural gas project if the Commission determines that such an expansion is required by the present and future public convenience and necessity.

(b) **RESPONSIBILITIES OF COMMISSION.**—Before ordering an expansion under subsection (a), the Commission shall—

(1) approve or establish rates for the expansion service that are designed to ensure the recovery, on an incremental or rolled-in basis, of the cost associated with the expansion (including a reasonable rate of return on investment);

(2) ensure that the rates do not require existing shippers on the Alaska natural gas transportation project to subsidize expansion shippers;

(3) find that a proposed shipper will comply with, and the proposed expansion and the expansion of service will be undertaken and implemented based on, terms and conditions consistent with the tariff of the Alaska natural gas transportation project in effect as of the date of the expansion;

(4) find that the proposed facilities will not adversely affect the financial or economic viability of the Alaska natural gas transportation project;

(5) find that the proposed facilities will not adversely affect the overall operations of the Alaska natural gas transportation project;

(6) find that the proposed facilities will not diminish the contract rights of existing shippers to previously subscribed certificated capacity;

(7) ensure that all necessary environmental reviews have been completed; and

(8) find that adequate downstream facilities exist or are expected to exist to deliver incremental Alaska natural gas to market.

(c) **REQUIREMENT FOR A FIRM TRANSPORTATION AGREEMENT.**—Any order of the Commission issued in accordance with this section shall be void unless the person requesting the order executes a firm transportation agreement with the Alaska natural gas transportation project within such reasonable period of time as the order may specify.

(d) **LIMITATION.**—Nothing in this section expands or otherwise affects any authority of the Commission with respect to any natural gas pipeline located outside the State.

(e) **REGULATIONS.**—The Commission may issue such regulations as are necessary to carry out this section.

SEC. 376. FEDERAL COORDINATOR.

(a) **ESTABLISHMENT.**—There is established, as an independent office in the executive branch, the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects.

(b) **FEDERAL COORDINATOR.**—

(1) **APPOINTMENT.**—The Office shall be headed by a Federal Coordinator for Alaska Natural Gas Transportation Projects, who shall be appointed by the President, by and with the advice and consent of the Senate, to serve a term to last until 1 year following the completion of the project referred to in section 373.

(2) **COMPENSATION.**—The Federal Coordinator shall be compensated at the rate prescribed for level III of the Executive Schedule (5 U.S.C. 5314).

(c) **DUTIES.**—The Federal Coordinator shall be responsible for—

(1) coordinating the expeditious discharge of all activities by Federal agencies with respect to an Alaska natural gas transportation project; and

(2) ensuring the compliance of Federal agencies with the provisions of this subtitle.

(d) **REVIEWS AND ACTIONS OF OTHER FEDERAL AGENCIES.**—

(1) **EXPEDITED REVIEWS AND ACTIONS.**—All reviews conducted and actions taken by any

Federal agency relating to an Alaska natural gas transportation project authorized under this section shall be expedited, in a manner consistent with completion of the necessary reviews and approvals by the deadlines under this subtitle.

(2) **PROHIBITION OF CERTAIN TERMS AND CONDITIONS.**—No Federal agency may include in any certificate, right-of-way, permit, lease, or other authorization issued to an Alaska natural gas transportation project any term or condition that may be permitted, but is not required, by any applicable law if the Federal Coordinator determines that the term or condition would prevent or impair in any significant respect the expeditious construction and operation, or an expansion, of the Alaska natural gas transportation project.

(3) **PROHIBITION OF CERTAIN ACTIONS.**—Unless required by law, no Federal agency shall add to, amend, or abrogate any certificate, right-of-way, permit, lease, or other authorization issued to an Alaska natural gas transportation project if the Federal Coordinator determines that the action would prevent or impair in any significant respect the expeditious construction and operation, or an expansion, of the Alaska natural gas transportation project.

(4) **LIMITATION.**—The Federal Coordinator shall not have authority to—

(A) override—

(i) the implementation or enforcement of regulations issued by the Commission under section 373; or

(ii) an order by the Commission to expand the project under section 375; or

(B) impose any terms, conditions, or requirements in addition to those imposed by the Commission or any agency with respect to construction and operation, or an expansion of, the project.

(e) **STATE COORDINATION.**—

(1) **IN GENERAL.**—The Federal Coordinator and the State shall enter into a joint surveillance and monitoring agreement similar to the agreement in effect during construction of the Trans-Alaska Pipeline, to be approved by the President and the Governor of the State, for the purpose of monitoring the construction of the Alaska natural gas transportation project.

(2) **PRIMARY RESPONSIBILITY.**—With respect to an Alaska natural gas transportation project—

(A) the Federal Government shall have primary surveillance and monitoring responsibility in areas where the Alaska natural gas transportation project crosses Federal land or private land; and

(B) the State government shall have primary surveillance and monitoring responsibility in areas where the Alaska natural gas transportation project crosses State land.

(f) **TRANSFER OF FEDERAL INSPECTOR FUNCTIONS AND AUTHORITY.**—On appointment of the Federal Coordinator by the President, all of the functions and authority of the Office of Federal Inspector of Construction for the Alaska Natural Gas Transportation System vested in the Secretary under section 3012(b) of the Energy Policy Act of 1992 (15 U.S.C. 719e note; Public Law 102-486), including all functions and authority described and enumerated in the Reorganization Plan No. 1 of 1979 (44 Fed. Reg. 33663), Executive Order No. 12142 of June 21, 1979 (44 Fed. Reg. 36927), and section 5 of the President's decision, shall be transferred to the Federal Coordinator.

(g) **TEMPORARY AUTHORITY.**—The functions, authorities, duties, and responsibilities of the Federal Coordinator shall be vested in the Secretary until the later of the appointment of the Federal Coordinator by the President, or 18 months after the date of enactment of this Act.

SEC. 377. JUDICIAL REVIEW.

(a) **EXCLUSIVE JURISDICTION.**—Except for review by the Supreme Court on writ of certiorari, the United States Court of Appeals for the District of Columbia Circuit shall have original and exclusive jurisdiction to determine—

(1) the validity of any final order or action (including a failure to act) of any Federal agency or officer under this subtitle;

(2) the constitutionality of any provision of this subtitle, or any decision made or action taken under this subtitle; or

(3) the adequacy of any environmental impact statement prepared under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to any action under this subtitle.

(b) **DEADLINE FOR FILING CLAIM.**—A claim arising under this subtitle may be brought not later than 60 days after the date of the decision or action giving rise to the claim.

(c) **EXPEDITED CONSIDERATION.**—The United States Court of Appeals for the District of Columbia Circuit shall set any action brought under subsection (a) for expedited consideration, taking into account the national interest of enhancing national energy security by providing access to the significant gas reserves in Alaska needed to meet the anticipated demand for natural gas.

(d) **AMENDMENT OF THE ALASKA NATURAL GAS TRANSPORTATION ACT OF 1976.**—Section 10(c) of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719h) is amended—

(1) by striking “(c)(1) A claim” and inserting the following:

“(c) JURISDICTION.—

“(1) SPECIAL COURTS.—

“(A) IN GENERAL.—A claim”;

(2) by striking “Such court shall have” and inserting the following:

“(B) EXCLUSIVE JURISDICTION.—The Special Court shall have”;

(3) by inserting after paragraph (1) the following:

“(2) EXPEDITED CONSIDERATION.—The Special Court shall set any action brought under this section for expedited consideration, taking into account the national interest described in section 2.”; and

(4) in paragraph (3), by striking “(3) The enactment” and inserting the following:

“(3) ENVIRONMENTAL IMPACT STATEMENTS.—The enactment”.

SEC. 378. STATE JURISDICTION OVER IN-STATE DELIVERY OF NATURAL GAS.

(a) **LOCAL DISTRIBUTION.**—Any facility receiving natural gas from an Alaska natural gas transportation project for delivery to consumers within the State—

(1) shall be deemed to be a local distribution facility within the meaning of section 1(b) of the Natural Gas Act (15 U.S.C. 717(b)); and

(2) shall not be subject to the jurisdiction of the Commission.

(b) **ADDITIONAL PIPELINES.**—Except as provided in section 373(d), nothing in this subtitle shall preclude or otherwise affect a future natural gas pipeline that may be constructed to deliver natural gas to Fairbanks, Anchorage, Matanuska-Susitna Valley, or the Kenai peninsula or Valdez or any other site in the State for consumption within or distribution outside the State.

(c) **RATE COORDINATION.**—

(1) **IN GENERAL.**—In accordance with the Natural Gas Act (15 U.S.C. 717a et seq.), the Commission shall establish rates for the transportation of natural gas on any Alaska natural gas transportation project.

(2) **CONSULTATION.**—In carrying out paragraph (1), the Commission, in accordance with section 17(b) of the Natural Gas Act (15 U.S.C. 717p(b)), shall consult with the State regarding rates (including rate settlements)

applicable to natural gas transported on and delivered from the Alaska natural gas transportation project for use within the State.

SEC. 379. STUDY OF ALTERNATIVE MEANS OF CONSTRUCTION.

(a) **REQUIREMENT OF STUDY.**—If no application for the issuance of a certificate or amended certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project has been filed with the Commission by the date that is 18 months after the date of enactment of this Act, the Secretary shall conduct a study of alternative approaches to the construction and operation of such an Alaska natural gas transportation project.

(b) **SCOPE OF STUDY.**—The study under subsection (a) shall take into consideration the feasibility of—

(1) establishing a Federal Government corporation to construct an Alaska natural gas transportation project; and

(2) securing alternative means of providing Federal financing and ownership (including alternative combinations of Government and private corporate ownership) of the Alaska natural gas transportation project.

(c) **CONSULTATION.**—In conducting the study under subsection (a), the Secretary shall consult with the Secretary of the Treasury and the Secretary of the Army (acting through the Chief of Engineers).

(d) **REPORT.**—On completion of any study under subsection (a), the Secretary shall submit to Congress a report that describes—

(1) the results of the study; and

(2) any recommendations of the Secretary (including proposals for legislation to implement the recommendations).

SEC. 380. CLARIFICATION OF ANGTA STATUS AND AUTHORITIES.

(a) **SAVINGS CLAUSE.**—Nothing in this subtitle affects—

(1) any decision, certificate, permit, right-of-way, lease, or other authorization issued under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g); or

(2) any Presidential finding or waiver issued in accordance with that Act.

(b) **CLARIFICATION OF AUTHORITY TO AMEND TERMS AND CONDITIONS TO MEET CURRENT PROJECT REQUIREMENTS.**—Any Federal agency responsible for granting or issuing any certificate, permit, right-of-way, lease, or other authorization under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) may add to, amend, or rescind any term or condition included in the certificate, permit, right-of-way, lease, or other authorization to meet current project requirements (including the physical design, facilities, and tariff specifications), if the addition, amendment, or rescission—

(1) would not compel any change in the basic nature and general route of the Alaska natural gas transportation system as designated and described in section 2 of the President's decision; or

(2) would not otherwise prevent or impair in any significant respect the expeditious construction and initial operation of the Alaska natural gas transportation system.

(c) **UPDATED ENVIRONMENTAL REVIEWS.**—The Secretary shall require the sponsor of the Alaska natural gas transportation system to submit such updated environmental data, reports, permits, and impact analyses as the Secretary determines are necessary to develop detailed terms, conditions, and compliance plans required by section 5 of the President's decision.

SEC. 381. SENSE OF CONGRESS CONCERNING USE OF STEEL MANUFACTURED IN NORTH AMERICA NEGOTIATION OF A PROJECT LABOR AGREEMENT.

It is the sense of Congress that—

(1) an Alaska natural gas transportation project would provide significant economic

benefits to the United States and Canada; and

(2) to maximize those benefits, the sponsors of the Alaska natural gas transportation project should make every effort to—

(A) use steel that is manufactured in North America; and

(B) negotiate a project labor agreement to expedite construction of the pipeline.

SEC. 382. SENSE OF CONGRESS AND STUDY CONCERNING PARTICIPATION BY SMALL BUSINESS CONCERNS.

(a) **DEFINITION OF SMALL BUSINESS CONCERN.**—In this section, the term “small business concern” has the meaning given the term in section 3(a) of the Small Business Act (15 U.S.C. 632(a)).

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) an Alaska natural gas transportation project would provide significant economic benefits to the United States and Canada; and

(2) to maximize those benefits, the sponsors of the Alaska natural gas transportation project should maximize the participation of small business concerns in contracts and subcontracts awarded in carrying out the project.

(c) **STUDY.**—

(1) **IN GENERAL.**—The Comptroller General of the United States shall conduct a study to determine the extent to which small business concerns participate in the construction of oil and gas pipelines in the United States.

(2) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit to Congress a report that describes results of the study under paragraph (1).

(3) **UPDATES.**—The Comptroller General shall—

(A) update the study at least once every 5 years until construction of an Alaska natural gas transportation project is completed; and

(B) on completion of each update, submit to Congress a report containing the results of the update.

SEC. 383. ALASKA PIPELINE CONSTRUCTION TRAINING PROGRAM.

(a) **PROGRAM.**—

(1) **ESTABLISHMENT.**—The Secretary of Labor (in this section referred to as the “Secretary”) shall make grants to the Alaska Workforce Investment Board—

(A) to recruit and train adult and displaced workers in Alaska, including Alaska Natives, in the skills required to construct and operate an Alaska gas pipeline system; and

(B) for the design and construction of a training facility to be located in Fairbanks, Alaska, to support an Alaska gas pipeline training program.

(2) **COORDINATION WITH EXISTING PROGRAMS.**—The training program established with the grants authorized under paragraph (1) shall be consistent with the vision and goals set forth in the State of Alaska Unified Plan, as developed pursuant to the Workforce Investment Act of 1998 (29 U.S.C. 2801 et seq.).

(b) **REQUIREMENTS FOR GRANTS.**—The Secretary shall make a grant under subsection (a) only if—

(1) the Governor of the State of Alaska requests the grant funds and certifies in writing to the Secretary that there is a reasonable expectation that the construction of the Alaska natural gas pipeline system will commence by the date that is 2 years after the date of the certification; and

(2) the Secretary of Energy concurs in writing to the Secretary with the certification made under paragraph (1) after considering—

(A) the status of necessary Federal and State permits;

(B) the availability of financing for the Alaska natural gas pipeline project; and

(C) other relevant factors.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out this section \$20,000,000. Not more than 15 percent of the funds may be used for the facility described in subsection (a)(1)(B).

SEC. 384. SENSE OF CONGRESS CONCERNING NATURAL GAS DEMAND.

It is the sense of Congress that—

(1) North American demand for natural gas will increase dramatically over the course of the next several decades;

(2) both the Alaska Natural Gas Pipeline and the Mackenzie Delta Natural Gas project in Canada will be necessary to help meet the increased demand for natural gas in North America;

(3) Federal and State officials should work together with officials in Canada to ensure both projects can move forward in a mutually beneficial fashion;

(4) Federal and State officials should acknowledge that the smaller scope, fewer permitting requirements, and lower cost of the Mackenzie Delta project means it will most likely be completed before the Alaska Natural Gas Pipeline;

(5) natural gas production in the 48 contiguous States and Canada will not be able to meet all domestic demand in the coming decades; and

(6) as a result, natural gas delivered from Alaskan North Slope will not displace or reduce the commercial viability of Canadian natural gas produced from the Mackenzie Delta or production from the 48 contiguous States.

SEC. 385. SENSE OF CONGRESS CONCERNING ALASKAN OWNERSHIP.

It is the sense of Congress that—

(1) Alaska Native Regional Corporations, companies owned and operated by Alaskans, and individual Alaskans should have the opportunity to own shares of the Alaska natural gas pipeline in a way that promotes economic development for the State; and

(2) to facilitate economic development in the State, all project sponsors should negotiate in good faith with any willing Alaskan person that desires to be involved in the project.

SEC. 386. LOAN GUARANTEES.

(a) **AUTHORITY.**—(1) The Secretary may enter into agreements with 1 or more holders of a certificate of public convenience and necessity issued under section 373(b) of this Act or section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) to issue Federal guarantee instruments with respect to loans and other debt obligations for a qualified infrastructure project.

(2) Subject to the requirements of this section, the Secretary may also enter into agreements with 1 or more owners of the Canadian portion of a qualified infrastructure project to issue Federal guarantee instruments with respect to loans and other debt obligations for a qualified infrastructure project as though such owner were a holder described in paragraph (1).

(3) The authority of the Secretary to issue Federal guarantee instruments under this section for a qualified infrastructure project shall expire on the date that is 2 years after the date on which the final certificate of public convenience and necessity (including any Canadian certificates of public convenience and necessity) is issued for the project. A final certificate shall be considered to have been issued when all certificates of public convenience and necessity have been

issued that are required for the initial transportation of commercially economic quantities of natural gas from Alaska to the continental United States.

(b) **CONDITIONS.**—(1) The Secretary may issue a Federal guarantee instrument for a qualified infrastructure project only after a certificate of public convenience and necessity under section 373(b) of this Act or an amended certificate under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) has been issued for the project.

(2) The Secretary may issue a Federal guarantee instrument under this section for a qualified infrastructure project only if the loan or other debt obligation guaranteed by the instrument has been issued by an eligible lender.

(3) The Secretary shall not require as a condition of issuing a Federal guarantee instrument under this section any contractual commitment or other form of credit support of the sponsors (other than equity contribution commitments and completion guarantees), or any throughput or other guarantee from prospective shippers greater than such guarantees as shall be required by the project owners.

(c) **LIMITATIONS ON AMOUNTS.**—(1) The amount of loans and other debt obligations guaranteed under this section for a qualified infrastructure project shall not exceed 80 percent of the total capital costs of the project, including interest during construction.

(2) The principal amount of loans and other debt obligations guaranteed under this section shall not exceed, in the aggregate, \$18,000,000,000, which amount shall be indexed for United States dollar inflation from the date of enactment of this Act, as measured by the Consumer Price Index.

(d) **LOAN TERMS AND FEES.**—(1) The Secretary may issue Federal guarantee instruments under this section that take into account repayment profiles and grace periods justified by project cash flows and project-specific considerations. The term of any loan guaranteed under this section shall not exceed 30 years.

(2) An eligible lender may assess and collect from the borrower such other fees and costs associated with the application and origination of the loan or other debt obligation as are reasonable and customary for a project finance transaction in the oil and gas sector.

(e) **REGULATIONS.**—The Secretary may issue regulations to carry out this section.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as may be necessary to cover the cost of loan guarantees under this section, as defined by section 502(5) of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a(5)). Such sums shall remain available until expended.

(g) **DEFINITIONS.**—In this section, the following definitions apply:

(1) The term “Consumer Price Index” means the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics, or if such index shall cease to be published, any successor index or reasonable substitute thereof.

(2) The term “eligible lender” means any non-Federal qualified institutional buyer (as defined by section 230.144A(a) of title 17, Code of Federal Regulations (or any successor regulation), known as Rule 144A(a) of the Securities and Exchange Commission and issued under the Securities Act of 1933), including—

(A) a qualified retirement plan (as defined in section 4974(c) of the Internal Revenue Code of 1986 (26 U.S.C. 4974(c)) that is a qualified institutional buyer; and

(B) a governmental plan (as defined in section 414(d) of the Internal Revenue Code of

1986 (26 U.S.C. 414(d)) that is a qualified institutional buyer.

(3) The term “Federal guarantee instrument” means any guarantee or other pledge by the Secretary to pledge the full faith and credit of the United States to pay all of the principal and interest on any loan or other debt obligation entered into by a holder of a certificate of public convenience and necessity.

(4) The term “qualified infrastructure project” means an Alaskan natural gas transportation project consisting of the design, engineering, finance, construction, and completion of pipelines and related transportation and production systems (including gas treatment plants), and appurtenances thereto, that are used to transport natural gas from the Alaska North Slope to the continental United States.

TITLE IV—COAL

Subtitle A—Clean Coal Power Initiative

SEC. 401. AUTHORIZATION OF APPROPRIATIONS.

(a) **CLEAN COAL POWER INITIATIVE.**—There are authorized to be appropriated to the Secretary of Energy (referred to in this title as the “Secretary”) to carry out the activities authorized by this subtitle \$200,000,000 for each of fiscal years 2004 through 2012, to remain available until expended.

(b) **REPORT.**—The Secretary shall submit to Congress the report required by this subsection not later than March 31, 2005. The report shall include, with respect to subsection (a), a 10-year plan containing—

(1) a detailed assessment of whether the aggregate funding levels provided under subsection (a) are the appropriate funding levels for that program;

(2) a detailed description of how proposals will be solicited and evaluated, including a list of all activities expected to be undertaken;

(3) a detailed list of technical milestones for each coal and related technology that will be pursued; and

(4) a detailed description of how the program will avoid problems enumerated in General Accounting Office reports on the Clean Coal Technology Program, including problems that have resulted in unspent funds and projects that failed either financially or scientifically.

SEC. 402. PROJECT CRITERIA.

(a) **IN GENERAL.**—The Secretary shall not provide funding under this subtitle for any project that does not advance efficiency, environmental performance, and cost competitiveness well beyond the level of technologies that are in commercial service or have been demonstrated on a scale that the Secretary determines is sufficient to demonstrate that commercial service is viable as of the date of enactment of this Act.

(b) **TECHNICAL CRITERIA FOR CLEAN COAL POWER INITIATIVE.**—

(1) **GASIFICATION PROJECTS.**—

(A) **IN GENERAL.**—In allocating the funds made available under section 401(a), the Secretary shall ensure that at least 60 percent of the funds are used only for projects on coal-based gasification technologies, including gasification combined cycle, gasification fuel cells, gasification coproduction, and hybrid gasification/combustion.

(B) **TECHNICAL MILESTONES.**—The Secretary shall periodically set technical milestones specifying the emission and thermal efficiency levels that coal gasification projects under this subtitle shall be designed, and reasonably expected, to achieve. The technical milestones shall become more restrictive during the life of the program. The Secretary shall set the periodic milestones so as to achieve by 2020 coal gasification projects able—

(i) to remove 99 percent of sulfur dioxide;

(ii) to emit not more than .05 lbs of NO_x per million Btu;

(iii) to achieve substantial reductions in mercury emissions; and

(iv) to achieve a thermal efficiency of—
(I) 60 percent for coal of more than 9,000 Btu;

(II) 59 percent for coal of 7,000 to 9,000 Btu; and

(III) 50 percent for coal of less than 7,000 Btu.

(2) **OTHER PROJECTS.**—The Secretary shall periodically set technical milestones and ensure that up to 40 percent of the funds appropriated pursuant to section 401(a) are used for projects not described in paragraph (1). The milestones shall specify the emission and thermal efficiency levels that projects funded under this paragraph shall be designed to and reasonably expected to achieve. The technical milestones shall become more restrictive during the life of the program. The Secretary shall set the periodic milestones so as to achieve by 2010 projects able—

(A) to remove 97 percent of sulfur dioxide;

(B) to emit no more than .08 lbs of NO_x per million Btu;

(C) to achieve substantial reductions in mercury emissions; and

(D) to achieve a thermal efficiency of—

(i) 45 percent for coal of more than 9,000 Btu;

(ii) 44 percent for coal of 7,000 to 9,000 Btu; and

(iii) 40 percent for coal of less than 7,000 Btu.

(3) **CONSULTATION.**—Before setting the technical milestones under paragraphs (1)(B) and (2), the Secretary shall consult with the Administrator of the Environmental Protection Agency and interested entities, including coal producers, industries using coal, organizations to promote coal or advanced coal technologies, environmental organizations, and organizations representing workers.

(4) **EXISTING UNITS.**—In the case of projects at units in existence on the date of enactment of this Act, in lieu of the thermal efficiency requirements set forth in paragraph (1)(B)(iv) and (2)(D), the milestones shall be designed to achieve an overall thermal design efficiency improvement, compared to the efficiency of the unit as operated, of not less than—

(A) 7 percent for coal of more than 9,000 Btu;

(B) 6 percent for coal of 7,000 to 9,000 Btu; or

(C) 4 percent for coal of less than 7,000 Btu.

(5) **PERMITTED USES.**—In carrying out this subtitle, the Secretary may fund projects that include, as part of the project, the separation and capture of carbon dioxide.

(c) **FINANCIAL CRITERIA.**—The Secretary shall not provide a funding award under this subtitle unless the recipient documents to the satisfaction of the Secretary that—

(1) the award recipient is financially viable without the receipt of additional Federal funding;

(2) the recipient will provide sufficient information to the Secretary to enable the Secretary to ensure that the award funds are spent efficiently and effectively; and

(3) a market exists for the technology being demonstrated or applied, as evidenced by statements of interest in writing from potential purchasers of the technology.

(d) **FINANCIAL ASSISTANCE.**—The Secretary shall provide financial assistance to projects that meet the requirements of subsections (a), (b), and (c) and are likely to—

(1) achieve overall cost reductions in the utilization of coal to generate useful forms of energy;

(2) improve the competitiveness of coal among various forms of energy in order to

maintain a diversity of fuel choices in the United States to meet electricity generation requirements; and

(3) demonstrate methods and equipment that are applicable to 25 percent of the electricity generating facilities, using various types of coal, that use coal as the primary feedstock as of the date of enactment of this Act.

(e) **FEDERAL SHARE.**—The Federal share of the cost of a coal or related technology project funded by the Secretary under this subtitle shall not exceed 50 percent.

(f) **APPLICABILITY.**—No technology, or level of emission reduction, shall be treated as adequately demonstrated for purposes of section 111 of the Clean Air Act (42 U.S.C. 7411), achievable for purposes of section 169 of that Act (42 U.S.C. 7479), or achievable in practice for purposes of section 171 of that Act (42 U.S.C. 7501) solely by reason of the use of such technology, or the achievement of such emission reduction, by 1 or more facilities receiving assistance under this subtitle.

SEC. 403. REPORT.

Not later than 1 year after the date of enactment of this Act, and once every 2 years thereafter through 2012, the Secretary, in consultation with other appropriate Federal agencies, shall submit to Congress a report describing—

(1) the technical milestones set forth in section 402 and how those milestones ensure progress toward meeting the requirements of subsections (b)(1)(B) and (b)(2) of section 402; and

(2) the status of projects funded under this subtitle.

SEC. 404. CLEAN COAL CENTERS OF EXCELLENCE.

As part of the program authorized in section 401, the Secretary shall award competitive, merit-based grants to universities for the establishment of Centers of Excellence for Energy Systems of the Future. The Secretary shall provide grants to universities that show the greatest potential for advancing new clean coal technologies.

Subtitle B—Clean Power Projects

SEC. 411. COAL TECHNOLOGY LOAN.

There are authorized to be appropriated to the Secretary \$125,000,000 to provide a loan to the owner of the experimental plant constructed under United States Department of Energy cooperative agreement number DE-FC-22-91PC90544 on such terms and conditions as the Secretary determines, including interest rates and upfront payments.

SEC. 412. COAL GASIFICATION.

The Secretary is authorized to provide loan guarantees for a project to produce energy from a plant using integrated gasification combined cycle technology of at least 400 megawatts in capacity that produces power at competitive rates in deregulated energy generation markets and that does not receive any subsidy (direct or indirect) from ratepayers.

SEC. 413. INTEGRATED GASIFICATION COMBINED CYCLE TECHNOLOGY.

The Secretary is authorized to provide loan guarantees for a project to produce energy from a plant using integrated gasification combined cycle technology located in a taconite-producing region of the United States that is entitled under the law of the State in which the plant is located to enter into a long-term contract approved by a State Public Utility Commission to sell at least 450 megawatts of output to a utility.

SEC. 414. PETROLEUM COKE GASIFICATION.

The Secretary is authorized to provide loan guarantees for at least 1 petroleum coke gasification polygeneration project.

SEC. 415. INTEGRATED COAL/RENEWABLE ENERGY SYSTEM.

The Secretary is authorized, subject to the availability of appropriations, to provide

loan guarantees for a project to produce energy from coal of less than 7000 btu/lb using appropriate advanced integrated gasification combined cycle technology, including repowering of existing facilities, that is combined with wind and other renewable sources, minimizes and offers the potential to sequester carbon dioxide emissions, and provides a ready source of hydrogen for near-site fuel cell demonstrations. The facility may be built in stages, combined output shall be at least 200 megawatts at successively more competitive rates, and the facility shall be located in the Upper Great Plains. Section 402(b) technical criteria apply, and the Federal cost share shall not exceed 50 percent. The loan guarantees provided under this section do not preclude the facility from receiving an allocation for investment tax credits under section 48A of the Internal Revenue Code of 1986. Utilizing this investment tax credit does not prohibit the use of other Clean Coal Program funding.

SEC. 416. ELECTRON SCRUBBING DEMONSTRATION.

The Secretary shall use \$5,000,000 from amounts appropriated to initiate, through the Chicago Operations Office, a project to demonstrate the viability of high-energy electron scrubbing technology on commercial-scale electrical generation using high-sulfur coal.

Subtitle C—Federal Coal Leases

SEC. 421. REPEAL OF THE 160-ACRE LIMITATION FOR COAL LEASES.

Section 3 of the Mineral Leasing Act (30 U.S.C. 203) is amended—

(1) in the first sentence—

(A) by striking “Any person” and inserting “(a) Any person”;

(B) by inserting a comma after “may”; and

(C) by striking “upon” and all that follows through the period and inserting the following: “upon a finding by the Secretary that the lease—

“(1) would be in the interest of the United States;

“(2) would not displace a competitive interest in the land; and

“(3) would not include land or deposits that can be developed as part of another potential or existing operation;

secure modifications of the original coal lease by including additional coal land or coal deposits contiguous or cornering to those embraced in the lease, but in no event shall the total area added by any modifications to an existing coal lease exceed 1280 acres, or add acreage larger than the acreage in the original lease.”;

(2) in the second sentence, by striking “The Secretary” and inserting the following:

“(b) The Secretary”; and

(3) in the third sentence, by striking “The minimum” and inserting the following:

“(c) The minimum”.

SEC. 422. MINING PLANS.

Section 2(d)(2) of the Mineral Leasing Act (30 U.S.C. 202a(2)) is amended—

(1) by inserting “(A)” after “(2)”; and

(2) by adding at the end the following:

“(B) The Secretary may establish a period of more than 40 years if the Secretary determines that the longer period—

“(i) will ensure the maximum economic recovery of a coal deposit; or

“(ii) the longer period is in the interest of the orderly, efficient, or economic development of a coal resource.”.

SEC. 423. PAYMENT OF ADVANCE ROYALTIES UNDER COAL LEASES.

Section 7(b) of the Mineral Leasing Act (30 U.S.C. 207(b)) is amended to read as follows:

“(b)(1) Each lease shall be subjected to the condition of diligent development and continued operation of the mine or mines, ex-

cept in a case in which operations under the lease are interrupted by strikes, the elements, or casualties not attributable to the lessee.

“(2)(A) The Secretary of the Interior may suspend the condition of continued operation upon the payment of advance royalties, if the Secretary determines that the public interest will be served by the suspension.

“(B) Advance royalties required under subparagraph (A) shall be computed based on—

“(i) the average price for coal sold in the spot market from the same region during the last month of each applicable continued operation year; or

“(ii) by using other methods established by the Secretary of the Interior to capture the commercial value of coal,

and based on commercial quantities, as defined by regulation by the Secretary of the Interior.

“(C) The aggregate number of years during the initial and any extended term of any lease for which advance royalties may be accepted in lieu of the condition of continued operation shall not exceed 20.

“(3) The amount of any production royalty paid for any year shall be reduced (but not below 0) by the amount of any advance royalties paid under the lease, to the extent that the advance royalties have not been used to reduce production royalties for a prior year.

“(4) The Secretary may, upon 6 months’ notice to a lessee, cease to accept advance royalties in lieu of the requirement of continued operation.

“(5) Nothing in this subsection affects the requirement contained in the second sentence of subsection (a) relating to commencement of production at the end of 10 years.”.

SEC. 424. ELIMINATION OF DEADLINE FOR SUBMISSION OF COAL LEASE OPERATION AND RECLAMATION PLAN.

Section 7(c) of the Mineral Leasing Act (30 U.S.C. 207(c)) is amended in the first sentence by striking “and not later than three years after a lease is issued,”.

SEC. 425. AMENDMENT RELATING TO FINANCIAL ASSURANCES WITH RESPECT TO BONUS BIDS.

Section 2(a) of the Mineral Leasing Act (30 U.S.C. 201(a)) is amended by adding at the end the following:

“(4)(A) The Secretary shall not require a surety bond or any other financial assurance to guarantee payment of deferred bonus bid installments with respect to any coal lease issued on a cash bonus bid to a lessee or successor in interest having a history of a timely payment of noncontested coal royalties and advanced coal royalties in lieu of production (where applicable) and bonus bid installment payments.

“(B) The Secretary may waive any requirement that a lessee provide a surety bond or other financial assurance for a coal lease issued before the date of the enactment of the Energy Policy Act of 2003 only if the Secretary determines that the lessee has a history of making timely payments referred to in subparagraph (A).

“(5) Notwithstanding any other provision of law, if the lessee under a coal lease fails to pay any installment of a deferred cash bonus bid within 10 days after the Secretary provides written notice that payment of the installment is past due—

“(A) the lease shall automatically terminate; and

“(B) any bonus payments already made to the United States with respect to the lease shall not be returned to the lessee or credited in any future lease sale.”.

SEC. 426. INVENTORY REQUIREMENT.

(a) REVIEW OF ASSESSMENTS.—

(1) IN GENERAL.—The Secretary of the Interior, in consultation with the Secretary of Agriculture and the Secretary, shall review coal assessments and other available data to identify—

(A) public lands, other than National Park lands, with coal resources;

(B) the extent and nature of any restrictions or impediments to the development of coal resources on public lands identified under subparagraph (A); and

(C) with respect to areas of such lands for which sufficient data exists, resources of compliant coal and supercompliant coal.

(2) DEFINITIONS.—In this subsection:

(A) COMPLIANT COAL.—The term “compliant coal” means coal that contains not less than 1.0 and not more than 1.2 pounds of sulfur dioxide per million Btu.

(B) SUPERCOMPLIANT COAL.—The term “supercompliant coal” means coal that contains less than 1.0 pounds of sulfur dioxide per million Btu.

(b) COMPLETION AND UPDATING OF THE INVENTORY.—The Secretary of the Interior—

(1) shall complete the inventory under subsection (a)(1) by not later than 2 years after the date of the enactment of this Act; and

(2) shall update the inventory as the availability of data and developments in technology warrant.

(c) REPORT.—The Secretary of the Interior shall submit to Congress, and make publicly available—

(1) a report containing the inventory under this section by not later than 2 years after the effective date of this section; and

(2) each update of that inventory.

SEC. 427. APPLICATION OF AMENDMENTS.

The amendments made by this subtitle apply—

(1) with respect to any coal lease issued on or after the date of enactment of this Act; and

(2) with respect to any coal lease issued before the date of enactment of this Act, upon the earlier of—

(A) the date of readjustment of the lease as provided for by section 7(a) of the Mineral Leasing Act (30 U.S.C. 207(a)); or

(B) the date the lessee requests such application.

Subtitle D—Coal and Related Programs

SEC. 441. CLEAN AIR COAL PROGRAM.

(a) AMENDMENT.—The Energy Policy Act of 1992 is amended by adding the following new title at the end thereof:

“TITLE XXXI—CLEAN AIR COAL PROGRAM

“SEC. 3101. FINDINGS; PURPOSES; DEFINITIONS.

“(a) FINDINGS.—The Congress finds that—

“(1) new environmental regulations present additional challenges for coal-fired electrical generation in the private marketplace; and

“(2) the Department of Energy, in cooperation with industry, has already fully developed and commercialized several new clean-coal technologies that will allow the clean use of coal.

“(b) PURPOSES.—The purposes of this title are to—

“(1) promote national energy policy and energy security, diversity, and economic competitiveness benefits that result from the increased use of coal;

“(2) mitigate financial risks, reduce the cost, and increase the marketplace acceptance of the new clean coal technologies; and

“(3) advance the deployment of pollution control equipment to meet the current and future obligations of coal-fired generation units regulated under the Clean Air Act (42 U.S.C. 7402 and following).

“SEC. 3102. AUTHORIZATION OF PROGRAM.

“The Secretary shall carry out a program to facilitate production and generation of

coal-based power and the installation of pollution control equipment.

“SEC. 3103. AUTHORIZATION OF APPROPRIATIONS.

“(a) POLLUTION CONTROL PROJECTS.—There are authorized to be appropriated to the Secretary \$300,000,000 for fiscal year 2005, \$100,000,000 for fiscal year 2006, \$40,000,000 for fiscal year 2007, \$30,000,000 for fiscal year 2008, and \$30,000,000 for fiscal year 2009, to remain available until expended, for carrying out the program for pollution control projects, which may include—

“(1) pollution control equipment and processes for the control of mercury air emissions;

“(2) pollution control equipment and processes for the control of nitrogen dioxide air emissions or sulfur dioxide emissions;

“(3) pollution control equipment and processes for the mitigation or collection of more than one pollutant;

“(4) advanced combustion technology for the control of at least two pollutants, including mercury, particulate matter, nitrogen oxides, and sulfur dioxide, which may also be designed to improve the energy efficiency of the unit; and

“(5) advanced pollution control equipment and processes designed to allow use of the waste byproducts or other byproducts of the equipment or an electrical generation unit designed to allow the use of byproducts.

Funds appropriated under this subsection which are not awarded before fiscal year 2011 may be applied to projects under subsection (b), in addition to amounts authorized under subsection (b).

“(b) GENERATION PROJECTS.—There are authorized to be appropriated to the Secretary \$150,000,000 for fiscal year 2006, \$250,000,000 for each of the fiscal years 2007 through 2011, and \$100,000,000 for fiscal year 2012, to remain available until expended, for generation projects and air pollution control projects. Such projects may include—

“(1) coal-based electrical generation equipment and processes, including gasification combined cycle or other coal-based generation equipment and processes;

“(2) associated environmental control equipment, that will be cost-effective and that is designed to meet anticipated regulatory requirements;

“(3) coal-based electrical generation equipment and processes, including gasification fuel cells, gasification coproduction, and hybrid gasification/combustion projects; and

“(4) advanced coal-based electrical generation equipment and processes, including oxidation combustion techniques, ultra-supercritical boilers, and chemical looping, which the Secretary determines will be cost-effective and could substantially contribute to meeting anticipated environmental or energy needs.

“(c) LIMITATION.—Funds placed at risk during any fiscal year for Federal loans or loan guarantees pursuant to this title may not exceed 30 percent of the total funds obligated under this title.

“SEC. 3104. AIR POLLUTION CONTROL PROJECT CRITERIA.

“The Secretary shall pursuant to authorizations contained in section 3103 provide funding for air pollution control projects designed to facilitate compliance with Federal and State environmental regulations, including any regulation that may be established with respect to mercury.

“SEC. 3105. CRITERIA FOR GENERATION PROJECTS.

“(a) CRITERIA.—The Secretary shall establish criteria on which selection of individual projects described in section 3103(b) should be based. The Secretary may modify the criteria as appropriate to reflect improvements

in equipment, except that the criteria shall not be modified to be less stringent. These selection criteria shall include—

“(1) prioritization of projects whose installation is likely to result in significant air quality improvements in nonattainment air quality areas;

“(2) prioritization of projects that result in the repowering or replacement of older, less efficient units;

“(3) documented broad interest in the procurement of the equipment and utilization of the processes used in the projects by electrical generator owners or operators;

“(4) equipment and processes beginning in 2005 through 2010 that are projected to achieve an thermal efficiency of—

“(A) 40 percent for coal of more than 9,000 Btu per pound based on higher heating values;

“(B) 38 percent for coal of 7,000 to 9,000 Btu per pound based on higher heating values; and

“(C) 36 percent for coal of less than 7,000 Btu per pound based on higher heating values,

except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph; and

“(5) equipment and processes beginning in 2011 and 2012 that are projected to achieve an thermal efficiency of—

“(A) 45 percent for coal of more than 9,000 Btu per pound based on higher heating values;

“(B) 44 percent for coal of 7,000 to 9,000 Btu per pound based on higher heating values; and

“(C) 40 percent for coal of less than 7,000 Btu per pound based on higher heating values,

except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph.

“(b) SELECTION.—(1) In selecting the projects, up to 25 percent of the projects selected may be either coproduction or cogeneration or other gasification projects, but at least 25 percent of the projects shall be for the sole purpose of electrical generation, and priority should be given to equipment and projects less than 600 MW to foster and promote standard designs.

“(2) The Secretary shall give priority to projects that have been developed and demonstrated that are not yet cost competitive, and for coal energy generation projects that advance efficiency, environmental performance, or cost competitiveness significantly beyond the level of pollution control equipment that is in operation on a full scale.

“SEC. 3106. FINANCIAL CRITERIA.

“(a) IN GENERAL.—The Secretary shall only provide financial assistance to projects that meet the requirements of sections 3103 and 3104 and are likely to—

“(1) achieve overall cost reductions in the utilization of coal to generate useful forms of energy; and

“(2) improve the competitiveness of coal in order to maintain a diversity of domestic fuel choices in the United States to meet electricity generation requirements.

“(b) CONDITIONS.—The Secretary shall not provide a funding award under this title unless—

“(1) the award recipient is financially viable without the receipt of additional Federal funding; and

“(2) the recipient provides sufficient information to the Secretary for the Secretary to ensure that the award funds are spent efficiently and effectively.

“(c) EQUAL ACCESS.—The Secretary shall, to the extent practical, utilize cooperative

agreement, loan guarantee, and direct Federal loan mechanisms designed to ensure that all electrical generation owners have equal access to these technology deployment incentives. The Secretary shall develop and direct a competitive solicitation process for the selection of technologies and projects under this title.

“SEC. 3107. FEDERAL SHARE.

“The Federal share of the cost of a coal or related technology project funded by the Secretary under this title shall not exceed 50 percent. For purposes of this title, Federal funding includes only appropriated funds.

“SEC. 3108. APPLICABILITY.

“No technology, or level of emission reduction, shall be treated as adequately demonstrated for purposes of section 111 of the Clean Air Act (42 U.S.C. 7411), achievable for purposes of section 169 of the Clean Air Act (42 U.S.C. 7479), or achievable in practice for purposes of section 171 of the Clean Air Act (42 U.S.C. 7501) solely by reason of the use of such technology, or the achievement of such emission reduction, by one or more facilities receiving assistance under this title.”

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Energy Policy Act of 1992 is amended by adding at the end the following:

“TITLE XXXI CLEAN AIR COAL PROGRAM

- “Sec. 3101. Findings; purposes; definitions.
- “Sec. 3102. Authorization of program.
- “Sec. 3103. Authorization of appropriations.
- “Sec. 3104. Air pollution control project criteria.
- “Sec. 3105. Criteria for generation projects.
- “Sec. 3106. Financial criteria.
- “Sec. 3107. Federal share.
- “Sec. 3108. Applicability.”

TITLE V—INDIAN ENERGY

SEC. 501. SHORT TITLE.

This title may be cited as the “Indian Tribal Energy Development and Self-Determination Act of 2004”.

SEC. 502. OFFICE OF INDIAN ENERGY POLICY AND PROGRAMS.

(a) IN GENERAL.—Title II of the Department of Energy Organization Act (42 U.S.C. 7131 et seq.) is amended by adding at the end the following:

“OFFICE OF INDIAN ENERGY POLICY AND PROGRAMS

“SEC. 217. (a) ESTABLISHMENT.—There is established within the Department an Office of Indian Energy Policy and Programs (referred to in this section as the ‘Office’). The Office shall be headed by a Director, who shall be appointed by the Secretary and compensated at a rate equal to that of level IV of the Executive Schedule under section 5315 of title 5, United States Code.

“(b) DUTIES OF DIRECTOR.—The Director, in accordance with Federal policies promoting Indian self-determination and the purposes of this Act, shall provide, direct, foster, coordinate, and implement energy planning, education, management, conservation, and delivery programs of the Department that—

- “(1) promote Indian tribal energy development, efficiency, and use;
- “(2) reduce or stabilize energy costs;
- “(3) enhance and strengthen Indian tribal energy and economic infrastructure relating to natural resource development and electrification; and

“(4) bring electrical power and service to Indian land and the homes of tribal members located on Indian lands or acquired, constructed, or improved (in whole or in part) with Federal funds.”

(b) CONFORMING AMENDMENTS.—

(1) The table of contents of the Department of Energy Organization Act (42 U.S.C. prec. 7101) is amended—

(A) in the item relating to section 209, by striking “Section” and inserting “Sec.”; and (B) by striking the items relating to sections 213 through 216 and inserting the following:

“Sec. 213. Establishment of policy for National Nuclear Security Administration.

“Sec. 214. Establishment of security, counterintelligence, and intelligence policies.

“Sec. 215. Office of Counterintelligence.

“Sec. 216. Office of Intelligence.

“Sec. 217. Office of Indian Energy Policy and Programs.”

(2) Section 5315 of title 5, United States Code, is amended by inserting “Director, Office of Indian Energy Policy and Programs, Department of Energy.” after “Inspector General, Department of Energy.”

SEC. 503. INDIAN ENERGY.

(a) IN GENERAL.—Title XXXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501 et seq.) is amended to read as follows:

“TITLE XXVI—INDIAN ENERGY

“SEC. 2601. DEFINITIONS.

“For purposes of this title:

“(1) The term ‘Director’ means the Director of the Office of Indian Energy Policy and Programs, Department of Energy.

“(2) The term ‘Indian land’ means—

“(A) any land located within the boundaries of an Indian reservation, pueblo, or rancharia;

“(B) any land not located within the boundaries of an Indian reservation, pueblo, or rancharia, the title to which is held—

“(i) in trust by the United States for the benefit of an Indian tribe or an individual Indian;

“(ii) by an Indian tribe or an individual Indian, subject to restriction against alienation under laws of the United States; or

“(iii) by a dependent Indian community; and

“(C) land that is owned by an Indian tribe and was conveyed by the United States to a Native Corporation pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), or that was conveyed by the United States to a Native Corporation in exchange for such land.

“(3) The term ‘Indian reservation’ includes—

“(A) an Indian reservation in existence in any State or States as of the date of enactment of this paragraph;

“(B) a public domain Indian allotment; and

“(C) a dependent Indian community located within the borders of the United States, regardless of whether the community is located—

“(i) on original or acquired territory of the community; or

“(ii) within or outside the boundaries of any particular State.

“(4) The term ‘Indian tribe’ has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), except that the term ‘Indian tribe’, for the purpose of paragraph (11) and sections 2603(b)(3) and 2604, shall not include any Native Corporation.

“(5) The term ‘integration of energy resources’ means any project or activity that promotes the location and operation of a facility (including any pipeline, gathering system, transportation system or facility, or electric transmission or distribution facility) on or near Indian land to process, refine, generate electricity from, or otherwise develop energy resources on, Indian land.

“(6) The term ‘Native Corporation’ has the meaning given the term in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

“(7) The term ‘organization’ means a partnership, joint venture, limited liability com-

pany, or other unincorporated association or entity that is established to develop Indian energy resources.

“(8) The term ‘Program’ means the Indian energy resource development program established under section 2602(a).

“(9) The term ‘Secretary’ means the Secretary of the Interior.

“(10) The term ‘tribal energy resource development organization’ means an organization of 2 or more entities, at least 1 of which is an Indian tribe, that has the written consent of the governing bodies of all Indian tribes participating in the organization to apply for a grant, loan, or other assistance authorized by section 2602.

“(11) The term ‘tribal land’ means any land or interests in land owned by any Indian tribe, title to which is held in trust by the United States or which is subject to a restriction against alienation under laws of the United States.

“SEC. 2602. INDIAN TRIBAL ENERGY RESOURCE DEVELOPMENT.

“(a) DEPARTMENT OF THE INTERIOR PROGRAM.—

“(1) To assist Indian tribes in the development of energy resources and further the goal of Indian self-determination, the Secretary shall establish and implement an Indian energy resource development program to assist consenting Indian tribes and tribal energy resource development organizations in achieving the purposes of this title.

“(2) In carrying out the Program, the Secretary shall—

“(A) provide development grants to Indian tribes and tribal energy resource development organizations for use in developing or obtaining the managerial and technical capacity needed to develop energy resources on Indian land, and to properly account for resulting energy production and revenues;

“(B) provide grants to Indian tribes and tribal energy resource development organizations for use in carrying out projects to promote the integration of energy resources, and to process, use, or develop those energy resources, on Indian land; and

“(C) provide low-interest loans to Indian tribes and tribal energy resource development organizations for use in the promotion of energy resource development on Indian land and integration of energy resources.

“(3) There are authorized to be appropriated to carry out this subsection such sums as are necessary for each of fiscal years 2004 through 2014.

“(b) DEPARTMENT OF ENERGY INDIAN ENERGY EDUCATION PLANNING AND MANAGEMENT ASSISTANCE PROGRAM.—

“(1) The Director shall establish programs to assist consenting Indian tribes in meeting energy education, research and development, planning, and management needs.

“(2) In carrying out this subsection, the Director may provide grants, on a competitive basis, to an Indian tribe or tribal energy resource development organization for use in carrying out—

“(A) energy, energy efficiency, and energy conservation programs;

“(B) studies and other activities supporting tribal acquisitions of energy supplies, services, and facilities;

“(C) planning, construction, development, operation, maintenance, and improvement of tribal electrical generation, transmission, and distribution facilities located on Indian land; and

“(D) development, construction, and interconnection of electric power transmission facilities located on Indian land with other electric transmission facilities.

“(3)(A) The Director may develop, in consultation with Indian tribes, a formula for providing grants under this subsection.

“(B) In providing a grant under this subsection, the Director shall give priority to an application received from an Indian tribe with inadequate electric service (as determined by the Director).

“(4) The Secretary of Energy may issue such regulations as necessary to carry out this subsection.

“(5) There are authorized to be appropriated to carry out this subsection \$20,000,000 for each of fiscal years 2004 through 2014.

“(c) DEPARTMENT OF ENERGY LOAN GUARANTEE PROGRAM.—

“(1) Subject to paragraph (3), the Secretary of Energy may provide loan guarantees (as defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)) for not more than 90 percent of the unpaid principal and interest due on any loan made to any Indian tribe for energy development.

“(2) A loan guarantee under this subsection shall be made by—

“(A) a financial institution subject to examination by the Secretary of Energy; or

“(B) an Indian tribe, from funds of the Indian tribe.

“(3) The aggregate outstanding amount guaranteed by the Secretary of Energy at any time under this subsection shall not exceed \$2,000,000,000.

“(4) The Secretary of Energy may issue such regulations as the Secretary of Energy determines are necessary to carry out this subsection.

“(5) There are authorized to be appropriated such sums as are necessary to carry out this subsection, to remain available until expended.

“(6) Not later than 1 year from the date of enactment of this section, the Secretary of Energy shall report to Congress on the financing requirements of Indian tribes for energy development on Indian land.

“(d) FEDERAL AGENCIES—INDIAN ENERGY PREFERENCE.—

“(1) In purchasing electricity or any other energy product or byproduct, a Federal agency or department may give preference to an energy and resource production enterprise, partnership, consortium, corporation, or other type of business organization the majority of the interest in which is owned and controlled by 1 or more Indian tribes.

“(2) In carrying out this subsection, a Federal agency or department shall not—

“(A) pay more than the prevailing market price for an energy product or byproduct; or

“(B) obtain less than prevailing market terms and conditions.

“SEC. 2603. INDIAN TRIBAL ENERGY RESOURCE REGULATION.

“(a) GRANTS.—The Secretary may provide to Indian tribes, on an annual basis, grants for use in accordance with subsection (b).

“(b) USE OF FUNDS.—Funds from a grant provided under this section may be used—

“(1) by an Indian tribe for the development of a tribal energy resource inventory or tribal energy resource on Indian land;

“(2) by an Indian tribe for the development of a feasibility study or other report necessary to the development of energy resources on Indian land;

“(3) by an Indian tribe (other than an Indian Tribe in Alaska except the Metlakatla Indian Community) for the development and enforcement of tribal laws (including regulations) relating to tribal energy resource development and the development of technical infrastructure to protect the environment under applicable law; or

“(4) by a Native Corporation for the development and implementation of corporate policies and the development of technical infrastructure to protect the environment under applicable law; and

“(5) by an Indian tribe for the training of employees that—

“(A) are engaged in the development of energy resources on Indian land; or

“(B) are responsible for protecting the environment.

“(c) OTHER ASSISTANCE.—In carrying out the obligations of the United States under this title, the Secretary shall ensure, to the maximum extent practicable and to the extent of available resources, that upon the request of an Indian tribe, the Indian tribe shall have available scientific and technical information and expertise, for use in the Indian tribe's regulation, development, and management of energy resources on Indian land. The Secretary may fulfill this responsibility either directly, through the use of Federal officials, or indirectly, by providing financial assistance to the Indian tribe to secure independent assistance.

“SEC. 2604. LEASES, BUSINESS AGREEMENTS, AND RIGHTS-OF-WAY INVOLVING ENERGY DEVELOPMENT OR TRANSMISSION.

“(a) LEASES AND BUSINESS AGREEMENTS.—Subject to the provisions of this section—

“(1) an Indian tribe may, at its discretion, enter into a lease or business agreement for the purpose of energy resource development on tribal land, including a lease or business agreement for—

“(A) exploration for, extraction of, processing of, or other development of the Indian tribe's energy mineral resources located on tribal land; and

“(B) construction or operation of an electric generation, transmission, or distribution facility located on tribal land or a facility to process or refine energy resources developed on tribal land; and

“(2) such lease or business agreement described in paragraph (1) shall not require the approval of the Secretary under section 2103 of the Revised Statutes (25 U.S.C. 81) or any other provision of law, if—

“(A) the lease or business agreement is executed pursuant to a tribal energy resource agreement approved by the Secretary under subsection (e);

“(B) the term of the lease or business agreement does not exceed—

“(i) 30 years; or

“(ii) in the case of a lease for the production of oil resources, gas resources, or both, 10 years and as long thereafter as oil or gas is produced in paying quantities; and

“(C) the Indian tribe has entered into a tribal energy resource agreement with the Secretary, as described in subsection (e), relating to the development of energy resources on tribal land (including the periodic review and evaluation of the activities of the Indian tribe under the agreement, to be conducted pursuant to the provisions required by subsection (e)(2)(D)(i)).

“(b) RIGHTS-OF-WAY FOR PIPELINES OR ELECTRIC TRANSMISSION OR DISTRIBUTION LINES.—An Indian tribe may grant a right-of-way over tribal land for a pipeline or an electric transmission or distribution line without approval by the Secretary if—

“(1) the right-of-way is executed in accordance with a tribal energy resource agreement approved by the Secretary under subsection (e);

“(2) the term of the right-of-way does not exceed 30 years;

“(3) the pipeline or electric transmission or distribution line serves—

“(A) an electric generation, transmission, or distribution facility located on tribal land; or

“(B) a facility located on tribal land that processes or refines energy resources developed on tribal land; and

“(4) the Indian tribe has entered into a tribal energy resource agreement with the

Secretary, as described in subsection (e), relating to the development of energy resources on tribal land (including the periodic review and evaluation of the Indian tribe's activities under such agreement described in subparagraphs (D) and (E) of subsection (e)(2)).

“(c) RENEWALS.—A lease or business agreement entered into or a right-of-way granted by an Indian tribe under this section may be renewed at the discretion of the Indian tribe in accordance with this section.

“(d) VALIDITY.—No lease, business agreement, or right-of-way relating to the development of tribal energy resources pursuant to the provisions of this section shall be valid unless the lease, business agreement, or right-of-way is authorized by the provisions of a tribal energy resource agreement approved by the Secretary under subsection (e)(2).

“(e) TRIBAL ENERGY RESOURCE AGREEMENTS.—

“(1) On issuance of regulations under paragraph (8), an Indian tribe may submit to the Secretary for approval a tribal energy resource agreement governing leases, business agreements, and rights-of-way under this section.

“(2)(A) Not later than 180 days after the date on which the Secretary receives a tribal energy resource agreement submitted by an Indian tribe under paragraph (1), or not later than 60 days after the Secretary receives a revised tribal energy resource agreement submitted by an Indian tribe under paragraph (4)(C), (or such later date as may be agreed to by the Secretary and the Indian tribe), the Secretary shall approve or disapprove the tribal energy resource agreement.

“(B) The Secretary shall approve a tribal energy resource agreement submitted under paragraph (1) if—

“(i) the Secretary determines that the Indian tribe has demonstrated that the Indian tribe has sufficient capacity to regulate the development of energy resources of the Indian tribe;

“(ii) the tribal energy resource agreement includes provisions required under subparagraph (D); and

“(iii) the tribal energy resource agreement includes provisions that, with respect to a lease, business agreement, or right-of-way under this section—

“(I) ensure the acquisition of necessary information from the applicant for the lease, business agreement, or right-of-way;

“(II) address the term of the lease or business agreement or the term of conveyance of the right-of-way;

“(III) address amendments and renewals;

“(IV) address the economic return to the Indian tribe under leases, business agreements, and rights-of-way;

“(V) address technical or other relevant requirements;

“(VI) establish requirements for environmental review in accordance with subparagraph (C);

“(VII) ensure compliance with all applicable environmental laws;

“(VIII) identify final approval authority;

“(IX) provide for public notification of final approvals;

“(X) establish a process for consultation with any affected States concerning off-reservation impacts, if any, identified pursuant to the provisions required under subparagraph (C)(i);

“(XI) describe the remedies for breach of the lease, business agreement, or right-of-way;

“(XII) require each lease, business agreement, and right-of-way to include a statement that, in the event that any of its provisions violates an express term or requirement set forth in the tribal energy resource agreement pursuant to which it was executed—

“(aa) such provision shall be null and void; and

“(bb) if the Secretary determines such provision to be material, the Secretary shall have the authority to suspend or rescind the lease, business agreement, or right-of-way or take other appropriate action that the Secretary determines to be in the best interest of the Indian tribe;

“(XIII) require each lease, business agreement, and right-of-way to provide that it will become effective on the date on which a copy of the executed lease, business agreement, or right-of-way is delivered to the Secretary in accordance with regulations adopted pursuant to this subsection; and

“(XIV) include citations to tribal laws, regulations, or procedures, if any, that set out tribal remedies that must be exhausted before a petition may be submitted to the Secretary pursuant to paragraph (7)(B).

“(C) Tribal energy resource agreements submitted under paragraph (1) shall establish, and include provisions to ensure compliance with, an environmental review process that, with respect to a lease, business agreement, or right-of-way under this section, provides for—

“(i) the identification and evaluation of all significant environmental impacts (as compared with a no-action alternative), including effects on cultural resources;

“(ii) the identification of proposed mitigation;

“(iii) a process for ensuring that the public is informed of and has an opportunity to comment on the environmental impacts of the proposed action before tribal approval of the lease, business agreement, or right-of-way; and

“(iv) sufficient administrative support and technical capability to carry out the environmental review process.

“(D) A tribal energy resource agreement negotiated between the Secretary and an Indian tribe in accordance with this subsection shall include—

“(i) provisions requiring the Secretary to conduct a periodic review and evaluation to monitor the performance of the Indian tribe's activities associated with the development of energy resources under the tribal energy resource agreement; and

“(ii) when such review and evaluation result in a finding by the Secretary of imminent jeopardy to a physical trust asset arising from a violation of the tribal energy resource agreement or applicable Federal laws, provisions authorizing the Secretary to take appropriate actions determined by the Secretary to be necessary to protect such asset, which actions may include reassumption of responsibility for activities associated with the development of energy resources on tribal land until the violation and conditions that gave rise to such jeopardy have been corrected.

“(E) The periodic review and evaluation described in subparagraph (D) shall be conducted on an annual basis, except that, after the third such annual review and evaluation, the Secretary and the Indian tribe may mutually agree to amend the tribal energy resource agreement to authorize the review and evaluation required by subparagraph (D) to be conducted once every 2 years.

“(3) The Secretary shall provide notice and opportunity for public comment on tribal energy resource agreements submitted for approval under paragraph (1). The Secretary's review of a tribal energy resource agreement

under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall be limited to the direct effects of that approval.

“(4) If the Secretary disapproves a tribal energy resource agreement submitted by an Indian tribe under paragraph (1), the Secretary shall, not later than 10 days after the date of disapproval—

“(A) notify the Indian tribe in writing of the basis for the disapproval;

“(B) identify what changes or other actions are required to address the concerns of the Secretary; and

“(C) provide the Indian tribe with an opportunity to revise and resubmit the tribal energy resource agreement.

“(5) If an Indian tribe executes a lease or business agreement or grants a right-of-way in accordance with a tribal energy resource agreement approved under this subsection, the Indian tribe shall, in accordance with the process and requirements set forth in the Secretary's regulations adopted pursuant to paragraph (8), provide to the Secretary—

“(A) a copy of the lease, business agreement, or right-of-way document (including all amendments to and renewals of the document); and

“(B) in the case of a tribal energy resource agreement or a lease, business agreement, or right-of-way that permits payments to be made directly to the Indian tribe, information and documentation of those payments sufficient to enable the Secretary to discharge the trust responsibility of the United States to enforce the terms of, and protect the Indian tribe's rights under, the lease, business agreement, or right-of-way.

“(6)(A) For purposes of the activities to be undertaken by the Secretary pursuant to this section, the Secretary shall—

“(i) carry out such activities in a manner consistent with the trust responsibility of the United States relating to mineral and other trust resources; and

“(ii) act in good faith and in the best interests of the Indian tribes.

“(B) Subject to the provisions of subsections (a)(2), (b), and (c) waiving the requirement of Secretarial approval of leases, business agreements, and rights-of-way executed pursuant to tribal energy resource agreements approved under this section, and the provisions of subparagraph (D), nothing in this section shall absolve the United States from any responsibility to Indians or Indian tribes, including, but not limited to, those which derive from the trust relationship or from any treaties, statutes, and other laws of the United States, Executive Orders, or agreements between the United States and any Indian tribe.

“(C) The Secretary shall continue to have a trust obligation to ensure that the rights and interests of an Indian tribe are protected in the event that—

“(i) any other party to any such lease, business agreement, or right-of-way violates any applicable provision of Federal law or the terms of any lease, business agreement, or right-of-way under this section; or

“(ii) any provision in such lease, business agreement, or right-of-way violates any express provision or requirement set forth in the tribal energy resource agreement pursuant to which the lease, business agreement, or right-of-way was executed.

“(D) Notwithstanding subparagraph (B), the United States shall not be liable to any party (including any Indian tribe) for any of the negotiated terms of, or any losses resulting from the negotiated terms of, a lease, business agreement, or right-of-way executed pursuant to and in accordance with a tribal energy resource agreement approved by the Secretary under paragraph (2). For the purpose of this subparagraph, the term ‘negotiated terms’ means any terms or provi-

sions that are negotiated by an Indian tribe and any other party or parties to a lease, business agreement, or right-of-way entered into pursuant to an approved tribal energy resource agreement.

“(7)(A) In this paragraph, the term ‘interested party’ means any person or entity the interests of which have sustained or will sustain a significant adverse environmental impact as a result of the failure of an Indian tribe to comply with a tribal energy resource agreement of the Indian tribe approved by the Secretary under paragraph (2).

“(B) After exhaustion of tribal remedies, and in accordance with the process and requirements set forth in regulations adopted by the Secretary pursuant to paragraph (8), an interested party may submit to the Secretary a petition to review compliance of an Indian tribe with a tribal energy resource agreement of the Indian tribe approved by the Secretary under paragraph (2).

“(C)(i) Not later than 120 days after the date on which the Secretary receives a petition under subparagraph (B), the Secretary shall determine whether the Indian tribe is not in compliance with the tribal energy resource agreement, as alleged in the petition.

“(ii) The Secretary may adopt procedures under paragraph (8) authorizing an extension of time, not to exceed 120 days, for making the determination under clause (i) in any case in which the Secretary determines that additional time is necessary to evaluate the allegations of the petition.

“(iii) Subject to subparagraph (D), if the Secretary determines that the Indian tribe is not in compliance with the tribal energy resource agreement as alleged in the petition, the Secretary shall take such action as is necessary to ensure compliance with the provisions of the tribal energy resource agreement, which action may include—

“(I) temporarily suspending some or all activities under a lease, business agreement, or right-of-way under this section until the Indian tribe or such activities are in compliance with the provisions of the approved tribal energy resource agreement; or

“(II) rescinding approval of all or part of the tribal energy resource agreement, and if all of such agreement is rescinded, reassuming the responsibility for approval of any future leases, business agreements, or rights-of-way described in subsections (a) and (b).

“(D) Prior to seeking to ensure compliance with the provisions of the tribal energy resource agreement of an Indian tribe under subparagraph (C)(iii), the Secretary shall—

“(i) make a written determination that describes the manner in which the tribal energy resource agreement has been violated;

“(ii) provide the Indian tribe with a written notice of the violations together with the written determination; and

“(iii) before taking any action described in subparagraph (C)(iii) or seeking any other remedy, provide the Indian tribe with a hearing and a reasonable opportunity to attain compliance with the tribal energy resource agreement.

“(E) An Indian tribe described in subparagraph (D) shall retain all rights to appeal as provided in regulations issued by the Secretary.

“(8) Not later than 1 year after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2004, the Secretary shall issue regulations that implement the provisions of this subsection, including—

“(A) criteria to be used in determining the capacity of an Indian tribe described in paragraph (2)(B)(i), including the experience of the Indian tribe in managing natural resources and financial and administrative resources available for use by the Indian tribe

in implementing the approved tribal energy resource agreement of the Indian tribe;

“(B) a process and requirements in accordance with which an Indian tribe may—

“(i) voluntarily rescind a tribal energy resource agreement approved by the Secretary under this subsection; and

“(ii) return to the Secretary the responsibility to approve any future leases, business agreements, and rights-of-way described in this subsection;

“(C) provisions setting forth the scope of, and procedures for, the periodic review and evaluation described in subparagraphs (D) and (E) of paragraph (2), including provisions for review of transactions, reports, site inspections, and any other review activities the Secretary determines to be appropriate; and

“(D) provisions defining final agency actions after exhaustion of administrative appeals from determinations of the Secretary under paragraph (7).

“(f) NO EFFECT ON OTHER LAW.—Nothing in this section affects the application of—

“(1) any Federal environmental law;

“(2) the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 et seq.); or

“(3) except as otherwise provided in this title, the Indian Mineral Development Act of 1982 (25 U.S.C. 2101 et seq.) and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

“(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary such sums as are necessary for each of fiscal years 2004 through 2014 to implement the provisions of this section and to make grants or provide other appropriate assistance to Indian tribes to assist the Indian tribes in developing and implementing tribal energy resource agreements in accordance with the provisions of this section.

“SEC. 2605. INDIAN MINERAL DEVELOPMENT REVIEW.

“(a) IN GENERAL.—The Secretary shall conduct a review of all activities being conducted under the Indian Mineral Development Act of 1982 (25 U.S.C. 2101 et seq.) as of that date.

“(b) REPORT.—Not later than 1 year after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2004, the Secretary shall submit to Congress a report that includes—

“(1) the results of the review;

“(2) recommendations to ensure that Indian tribes have the opportunity to develop Indian energy resources; and

“(3) an analysis of the barriers to the development of energy resources on Indian land (including legal, fiscal, market, and other barriers), along with recommendations for the removal of those barriers.

“SEC. 2606. FEDERAL POWER MARKETING ADMINISTRATIONS.

“(a) DEFINITIONS.—In this section:

“(1) The term ‘Administrator’ means the Administrator of the Bonneville Power Administration and the Administrator of the Western Area Power Administration.

“(2) The term ‘power marketing administration’ means—

“(A) the Bonneville Power Administration;

“(B) the Western Area Power Administration; and

“(C) any other power administration the power allocation of which is used by or for the benefit of an Indian tribe located in the service area of the administration.

“(b) ENCOURAGEMENT OF INDIAN TRIBAL ENERGY DEVELOPMENT.—Each Administrator shall encourage Indian tribal energy development by taking such actions as are appropriate, including administration of programs of the Bonneville Power Administration and

the Western Area Power Administration, in accordance with this section.

“(c) ACTION BY THE ADMINISTRATOR.—In carrying out this section, and in accordance with existing law—

“(1) each Administrator shall consider the unique relationship that exists between the United States and Indian tribes;

“(2) power allocations from the Western Area Power Administration to Indian tribes may be used to meet firming and reserve needs of Indian-owned energy projects on Indian land;

“(3) the Administrator of the Western Area Power Administration may purchase non-federally generated power from Indian tribes to meet the firming and reserve requirements of the Western Area Power Administration; and

“(4) each Administrator shall not pay more than the prevailing market price for an energy product nor obtain less than prevailing market terms and conditions.

“(d) ASSISTANCE FOR TRANSMISSION SYSTEM USE.—(1) An Administrator may provide technical assistance to Indian tribes seeking to use the high-voltage transmission system for delivery of electric power.

“(2) The costs of technical assistance provided under paragraph (1) shall be funded by the Secretary of Energy using nonreimbursable funds appropriated for that purpose, or by the applicable Indian tribes.

“(e) POWER ALLOCATION STUDY.—Not later than 2 years after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2004, the Secretary of Energy shall submit to Congress a report that—

“(1) describes the use by Indian tribes of Federal power allocations of the Western Area Power Administration (or power sold by the Southwestern Power Administration) and the Bonneville Power Administration to or for the benefit of Indian tribes in service areas of those administrations; and

“(2) identifies—

“(A) the quantity of power allocated to, or used for the benefit of, Indian tribes by the Western Area Power Administration;

“(B) the quantity of power sold to Indian tribes by other power marketing administrations; and

“(C) barriers that impede tribal access to and use of Federal power, including an assessment of opportunities to remove those barriers and improve the ability of power marketing administrations to deliver Federal power.

“(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section \$750,000, which shall remain available until expended and shall not be reimbursable.

“SEC. 2607. WIND AND HYDROPOWER FEASIBILITY STUDY.

“(a) STUDY.—The Secretary of Energy, in coordination with the Secretary of the Army and the Secretary, shall conduct a study of the cost and feasibility of developing a demonstration project that would use wind energy generated by Indian tribes and hydropower generated by the Army Corps of Engineers on the Missouri River to supply firming power to the Western Area Power Administration.

“(b) SCOPE OF STUDY.—The study shall—

“(1) determine the feasibility of the blending of wind energy and hydropower generated from the Missouri River dams operated by the Army Corps of Engineers;

“(2) review historical and projected requirements for firming power and the patterns of availability and use of firming power;

“(3) assess the wind energy resource potential on tribal land and projected cost savings through a blend of wind and hydropower over a 30-year period;

“(4) determine seasonal capacity needs and associated transmission upgrades for integration of tribal wind generation; and

“(5) include an independent tribal engineer as a study team member.

“(c) REPORT.—Not later than 1 year after the date of enactment of the Energy Policy Act of 2003, the Secretary and Secretary of the Army shall submit to Congress a report that describes the results of the study, including—

“(1) an analysis of the potential energy cost or benefits to the customers of the Western Area Power Administration through the use of combined wind and hydropower;

“(2) an evaluation of whether a combined wind and hydropower system can reduce reservoir fluctuation, enhance efficient and reliable energy production, and provide Missouri River management flexibility;

“(3) recommendations for a demonstration project that could be carried out by the Western Area Power Administration in partnership with an Indian tribal government or tribal energy resource development organization to demonstrate the feasibility and potential of using wind energy produced on Indian land to supply firming energy to the Western Area Power Administration or any other Federal power marketing agency; and

“(4) an identification of—

“(A) the economic and environmental costs or benefits to be realized through such a Federal-tribal partnership; and

“(B) the manner in which such a partnership could contribute to the energy security of the United States.

“(d) FUNDING.—

“(1) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section \$500,000, to remain available until expended.

“(2) NONREIMBURSABILITY.—Costs incurred by the Secretary in carrying out this section shall be nonreimbursable.”

(b) CONFORMING AMENDMENTS.—The table of contents for the Energy Policy Act of 1992 is amended by striking the items relating to title XXVI and inserting the following:

“Sec. 2601. Definitions.

“Sec. 2602. Indian tribal energy resource development.

“Sec. 2603. Indian tribal energy resource regulation.

“Sec. 2604. Leases, business agreements, and rights-of-way involving energy development or transmission.

“Sec. 2605. Indian mineral development review.

“Sec. 2606. Federal Power Marketing Administrations.

“Sec. 2607. Wind and hydropower feasibility study.”

SEC. 504. FOUR CORNERS TRANSMISSION LINE PROJECT.

The Dine Power Authority, an enterprise of the Navajo Nation, shall be eligible to receive grants and other assistance as authorized by section 217 of the Department of Energy Organization Act, as added by section 502 of this title, and section 2602 of the Energy Policy Act of 1992, as amended by this title, for activities associated with the development of a transmission line from the Four Corners Area to southern Nevada, including related power generation opportunities.

SEC. 505. ENERGY EFFICIENCY IN FEDERALLY ASSISTED HOUSING.

(a) IN GENERAL.—The Secretary of Housing and Urban Development shall promote energy conservation in housing that is located on Indian land and assisted with Federal resources through—

(1) the use of energy-efficient technologies and innovations (including the procurement of energy-efficient refrigerators and other appliances);

(2) the promotion of shared savings contracts; and

(3) the use and implementation of such other similar technologies and innovations as the Secretary of Housing and Urban Development considers to be appropriate.

(b) AMENDMENT.—Section 202(2) of the Native American Housing and Self-Determination Act of 1996 (25 U.S.C. 4132(2)) is amended by inserting “improvement to achieve greater energy efficiency,” after “planning.”

SEC. 506. CONSULTATION WITH INDIAN TRIBES.

In carrying out this title and the amendments made by this title, the Secretary of Energy and the Secretary shall, as appropriate and to the maximum extent practicable, involve and consult with Indian tribes in a manner that is consistent with the Federal trust and the government-to-government relationships between Indian tribes and the United States.

TITLE VI—NUCLEAR MATTERS

Subtitle A—Price-Anderson Act Amendments

SEC. 601. SHORT TITLE.

This subtitle may be cited as the “Price-Anderson Amendments Act of 2003”.

SEC. 602. EXTENSION OF INDEMNIFICATION AUTHORITY.

(a) INDEMNIFICATION OF NUCLEAR REGULATORY COMMISSION LICENSEES.—Section 170 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(c)) is amended—

(1) in the subsection heading, by striking “LICENSEES” and inserting “LICENSEES”; and

(2) by striking “December 31, 2003” each place it appears and inserting “December 31, 2023”.

(b) INDEMNIFICATION OF DEPARTMENT OF ENERGY CONTRACTORS.—Section 170 d.(1)(A) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)(1)(A)) is amended by striking “December 31, 2004” and inserting “December 31, 2023”.

(c) INDEMNIFICATION OF NONPROFIT EDUCATIONAL INSTITUTIONS.—Section 170 k. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(k)) is amended by striking “August 1, 2002” each place it appears and inserting “December 31, 2023”.

SEC. 603. MAXIMUM ASSESSMENT.

Section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) is amended—

(1) in the second proviso of the third sentence of subsection b.(1)—

(A) by striking “\$63,000,000” and inserting “\$95,800,000”; and

(B) by striking “\$10,000,000 in any 1 year” and inserting “\$15,000,000 in any 1 year (subject to adjustment for inflation under subsection t.)”; and

(2) in subsection t.(1)—

(A) by inserting “total and annual” after “amount of the maximum”; and

(B) by striking “the date of the enactment of the Price-Anderson Amendments Act of 1988” and inserting “August 20, 2003”; and

(C) in subparagraph (A), by striking “such date of enactment” and inserting “August 20, 2003”.

SEC. 604. DEPARTMENT OF ENERGY LIABILITY LIMIT.

(a) INDEMNIFICATION OF DEPARTMENT OF ENERGY CONTRACTORS.—Section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) is amended by striking paragraph (2) and inserting the following:

“(2) In an agreement of indemnification entered into under paragraph (1), the Secretary—

“(A) may require the contractor to provide and maintain financial protection of such a type and in such amounts as the Secretary shall determine to be appropriate to cover public liability arising out of or in connection with the contractual activity; and

“(B) shall indemnify the persons indemnified against such liability above the

amount of the financial protection required, in the amount of \$10,000,000,000 (subject to adjustment for inflation under subsection t.), in the aggregate, for all persons indemnified in connection with the contract and for each nuclear incident, including such legal costs of the contractor as are approved by the Secretary.”

(b) CONTRACT AMENDMENTS.—Section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) is further amended by striking paragraph (3) and inserting the following—

“(3) All agreements of indemnification under which the Department of Energy (or its predecessor agencies) may be required to indemnify any person under this section shall be deemed to be amended, on the date of enactment of the Price-Anderson Amendments Act of 2003, to reflect the amount of indemnity for public liability and any applicable financial protection required of the contractor under this subsection.”

(c) LIABILITY LIMIT.—Section 170 e.(1)(B) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(e)(1)(B)) is amended—

(1) by striking “the maximum amount of financial protection required under subsection b. or”; and

(2) by striking “paragraph (3) of subsection d., whichever amount is more” and inserting “paragraph (2) of subsection d.”

SEC. 605. INCIDENTS OUTSIDE THE UNITED STATES.

(a) AMOUNT OF INDEMNIFICATION.—Section 170 d.(5) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)(5)) is amended by striking “\$100,000,000” and inserting “\$500,000,000”.

(b) LIABILITY LIMIT.—Section 170 e.(4) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(e)(4)) is amended by striking “\$100,000,000” and inserting “\$500,000,000”.

SEC. 606. REPORTS.

Section 170 p. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(p)) is amended by striking “August 1, 1998” and inserting “December 31, 2019”.

SEC. 607. INFLATION ADJUSTMENT.

Section 170 t. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(t)) is amended—

(1) by redesignating paragraph (2) as paragraph (3); and

(2) by inserting after paragraph (1) the following:

“(2) The Secretary shall adjust the amount of indemnification provided under an agreement of indemnification under subsection d. not less than once during each 5-year period following July 1, 2003, in accordance with the aggregate percentage change in the Consumer Price Index since—

“(A) that date, in the case of the first adjustment under this paragraph; or

“(B) the previous adjustment under this paragraph.”

SEC. 608. TREATMENT OF MODULAR REACTORS.

Section 170 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(b)) is amended by adding at the end the following:

“(5)(A) For purposes of this section only, the Commission shall consider a combination of facilities described in subparagraph (B) to be a single facility having a rated capacity of 100,000 electrical kilowatts or more.

“(B) A combination of facilities referred to in subparagraph (A) is 2 or more facilities located at a single site, each of which has a rated capacity of 100,000 electrical kilowatts or more but not more than 300,000 electrical kilowatts, with a combined rated capacity of not more than 1,300,000 electrical kilowatts.”

SEC. 609. APPLICABILITY.

The amendments made by sections 603, 604, and 605 do not apply to a nuclear incident that occurs before the date of the enactment of this Act.

SEC. 610. PROHIBITION ON ASSUMPTION BY UNITED STATES GOVERNMENT OF LIABILITY FOR CERTAIN FOREIGN INCIDENTS.

Section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) is amended by adding at the end the following new subsection:

“u. PROHIBITION ON ASSUMPTION OF LIABILITY FOR CERTAIN FOREIGN INCIDENTS.—Notwithstanding this section or any other provision of law, no officer of the United States or of any department, agency, or instrumentality of the United States Government may enter into any contract or other arrangement, or into any amendment or modification of a contract or other arrangement, the purpose or effect of which would be to directly or indirectly impose liability on the United States Government, or any department, agency, or instrumentality of the United States Government, or to otherwise directly or indirectly require an indemnity by the United States Government, for nuclear incidents occurring in connection with the design, construction, or operation of a production facility or utilization facility in any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which, as of September 11, 2001, had been determined by the Secretary of State under section 620A(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2371(a)), section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), or section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)) to have repeatedly provided support for acts of international terrorism). This subsection shall not apply to nuclear incidents occurring as a result of missions, carried out under the direction of the Secretary of Energy, the Secretary of Defense, or the Secretary of State, that are necessary to safely secure, store, transport, or remove nuclear materials for nuclear safety or non-proliferation purposes.”

SEC. 611. CIVIL PENALTIES.

(a) REPEAL OF AUTOMATIC REMISSION.—Section 234A b.(2) of the Atomic Energy Act of 1954 (42 U.S.C. 2282a(b)(2)) is amended by striking the last sentence.

(b) LIMITATION FOR NOT-FOR-PROFIT INSTITUTIONS.—Subsection d. of section 234A of the Atomic Energy Act of 1954 (42 U.S.C. 2282a(d)) is amended to read as follows:

“d.(1) Notwithstanding subsection a., in the case of any not-for-profit contractor, subcontractor, or supplier, the total amount of civil penalties paid under subsection a. may not exceed the total amount of fees paid within any 1-year period (as determined by the Secretary) under the contract under which the violation occurs.

“(2) For purposes of this section, the term ‘not-for-profit’ means that no part of the net earnings of the contractor, subcontractor, or supplier inures to the benefit of any natural person or for-profit artificial person.”

(c) EFFECTIVE DATE.—The amendments made by this section shall not apply to any violation of the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) occurring under a contract entered into before the date of enactment of this section.

Subtitle B—General Nuclear Matters

SEC. 621. LICENSES.

Section 103 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2133(c)) is amended by inserting “from the authorization to commence operations” after “forty years”.

SEC. 622. NRC TRAINING PROGRAM.

(a) IN GENERAL.—In order to maintain the human resource investment and infrastructure of the United States in the nuclear sciences, health physics, and engineering fields, in accordance with the statutory authorities of the Nuclear Regulatory Commission relating to the civilian nuclear energy

program, the Nuclear Regulatory Commission shall carry out a training and fellowship program to address shortages of individuals with critical nuclear safety regulatory skills.

(b) **AUTHORIZATION OF APPROPRIATIONS.—**

(1) **IN GENERAL.—**There are authorized to be appropriated to the Nuclear Regulatory Commission to carry out this section \$1,000,000 for each of fiscal years 2004 through 2008.

(2) **AVAILABILITY.—**Funds made available under paragraph (1) shall remain available until expended.

SEC. 623. COST RECOVERY FROM GOVERNMENT AGENCIES.

Section 161 w. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(w)) is amended—

(1) by striking “for or is issued” and all that follows through “1702” and inserting “to the Commission for, or is issued by the Commission, a license or certificate”;

(2) by striking “483a” and inserting “9701”;

(3) by striking “, of applicants for, or holders of, such licenses or certificates”.

SEC. 624. ELIMINATION OF PENSION OFFSET.

Section 161 of the Atomic Energy Act of 1954 (42 U.S.C. 2201) is amended by adding at the end the following:

“y. Exempt from the application of sections 8344 and 8468 of title 5, United States Code, an annuitant who was formerly an employee of the Commission who is hired by the Commission as a consultant, if the Commission finds that the annuitant has a skill that is critical to the performance of the duties of the Commission.”.

SEC. 625. ANTITRUST REVIEW.

Section 105 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2135(c)) is amended by adding at the end the following:

“(9) **APPLICABILITY.—**This subsection does not apply to an application for a license to construct or operate a utilization facility or production facility under section 103 or 104 b. that is filed on or after the date of enactment of this paragraph.”.

SEC. 626. DECOMMISSIONING.

Section 161 i. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(i)) is amended—

(1) by striking “and (3)” and inserting “(3)”;

(2) by inserting before the semicolon at the end the following: “, and (4) to ensure that sufficient funds will be available for the decommissioning of any production or utilization facility licensed under section 103 or 104 b., including standards and restrictions governing the control, maintenance, use, and disbursement by any former licensee under this Act that has control over any fund for the decommissioning of the facility”.

SEC. 627. LIMITATION ON LEGAL FEE REIMBURSEMENT.

The Department of Energy shall not, except as required under a contract entered into before the date of enactment of this Act, reimburse any contractor or subcontractor of the Department for any legal fees or expenses incurred with respect to a complaint subsequent to—

(1) an adverse determination on the merits with respect to such complaint against the contractor or subcontractor by the Director of the Department of Energy’s Office of Hearings and Appeals pursuant to part 708 of title 10, Code of Federal Regulations, or by a Department of Labor Administrative Law Judge pursuant to section 211 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851); or

(2) an adverse final judgment by any State or Federal court with respect to such complaint against the contractor or subcontractor for wrongful termination or retaliation due to the making of disclosures protected under chapter 12 of title 5, United

States Code, section 211 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851), or any comparable State law,

unless the adverse determination or final judgment is reversed upon further administrative or judicial review.

SEC. 628. DECOMMISSIONING PILOT PROGRAM.

(a) **PILOT PROGRAM.—**The Secretary of Energy shall establish a decommissioning pilot program to decommission and decontaminate the sodium-cooled fast breeder experimental test-site reactor located in northwest Arkansas in accordance with the decommissioning activities contained in the August 31, 1998, Department of Energy report on the reactor.

(b) **AUTHORIZATION OF APPROPRIATIONS.—**There are authorized to be appropriated to the Secretary of Energy to carry out this section \$16,000,000.

SEC. 629. REPORT ON FEASIBILITY OF DEVELOPING COMMERCIAL NUCLEAR ENERGY GENERATION FACILITIES AT EXISTING DEPARTMENT OF ENERGY SITES.

Not later than 1 year after the date of the enactment of this Act, the Secretary of Energy shall submit to Congress a report on the feasibility of developing commercial nuclear energy generation facilities at Department of Energy sites in existence on the date of enactment of this Act.

SEC. 630. URANIUM SALES.

(a) **SALES, TRANSFERS, AND SERVICES.—**Section 3112 of the USEC Privatization Act (42 U.S.C. 2297h-10) is amended by striking subsections (d), (e), and (f) and inserting the following:

“(3) The Secretary may transfer to the Corporation, notwithstanding subsections (b)(2) and (d), natural uranium in amounts sufficient to fulfill the Department of Energy’s commitments under Article 4(B) of the Agreement between the Department and the Corporation dated June 17, 2002.

“(d) **INVENTORY SALES.—**(1) In addition to the transfers and sales authorized under subsections (b) and (c) and under paragraph (5) of this subsection, the United States Government may transfer or sell uranium in any form subject to paragraphs (2), (3), and (4).

“(2) Except as provided in subsections (b) and (c) and paragraph (5) of this subsection, no sale or transfer of uranium shall be made under this subsection by the United States Government unless—

“(A) the President determines that the material is not necessary for national security needs and the sale or transfer has no adverse impact on implementation of existing government-to-government agreements;

“(B) the price paid to the appropriate Federal agency, if the transaction is a sale, will not be less than the fair market value of the material; and

“(C) the sale or transfer to commercial nuclear power end users is made pursuant to a contract of at least 3 years’ duration.

“(3) Except as provided in paragraph (5), the United States Government shall not make any transfer or sale of uranium in any form under this subsection that would cause the total amount of uranium transferred or sold pursuant to this subsection that is delivered for consumption by commercial nuclear power end users to exceed—

“(A) 3,000,000 pounds of U₃O₈ equivalent in fiscal year 2004, 2005, 2006, 2007, 2008, or 2009;

“(B) 5,000,000 pounds of U₃O₈ equivalent in fiscal year 2010 or 2011;

“(C) 7,000,000 pounds of U₃O₈ equivalent in fiscal year 2012; and

“(D) 10,000,000 pounds of U₃O₈ equivalent in fiscal year 2013 or any fiscal year thereafter.

“(4) Except for sales or transfers under paragraph (5), for the purposes of this subsection, the recovery of uranium from ura-

nium bearing materials transferred or sold by the United States Government to the domestic uranium industry shall be the preferred method of making uranium available. The recovered uranium shall be counted against the annual maximum deliveries set forth in this section, when such uranium is sold to end users.

“(5) The United States Government may make the following sales and transfers:

“(A) Sales or transfers to a Federal agency if the material is transferred for the use of the receiving agency without any resale or transfer to another entity and the material does not meet commercial specifications.

“(B) Sales or transfers to any person for national security purposes, as determined by the Secretary.

“(C) Sales or transfers to any State or local agency or nonprofit, charitable, or educational institution for use other than the generation of electricity for commercial use.

“(D) Sales or transfers to the Department of Energy research reactor sales program.

“(E) Sales or transfers, at fair market value, for emergency purposes in the event of a disruption in supply to commercial nuclear power end users in the United States.

“(F) Sales or transfers, at fair market value, for use in a commercial reactor in the United States with nonstandard fuel requirements.

“(G) Sales or transfers provided for under law for use by the Tennessee Valley Authority in relation to the Department of Energy’s highly enriched uranium or tritium programs.

“(6) For purposes of this subsection, the term ‘United States Government’ does not include the Tennessee Valley Authority.

“(e) **SAVINGS PROVISION.—**Nothing in this subchapter modifies the terms of the Russian HEU Agreement.

“(f) **SERVICES.—**Notwithstanding any other provision of this section, if the Secretary determines that the Corporation has failed, or may fail, to perform any obligation under the Agreement between the Department of Energy and the Corporation dated June 17, 2002, and as amended thereafter, which failure could result in termination of the Agreement, the Secretary shall notify Congress, in such a manner that affords Congress an opportunity to comment, prior to a determination by the Secretary whether termination, waiver, or modification of the Agreement is required. The Secretary is authorized to take such action as he determines necessary under the Agreement to terminate, waive, or modify provisions of the Agreement to achieve its purposes.”.

(b) **REPORT.—**Not later than 3 years after the date of enactment of this Act, the Secretary of Energy shall report to Congress on the implementation of this section. The report shall include a discussion of available excess uranium inventories; all sales or transfers made by the United States Government; the impact of such sales or transfers on the domestic uranium industry, the spot market uranium price, and the national security interests of the United States; and any steps taken to remediate any adverse impacts of such sales or transfers.

SEC. 631. COOPERATIVE RESEARCH AND DEVELOPMENT AND SPECIAL DEMONSTRATION PROJECTS FOR THE URANIUM MINING INDUSTRY.

(a) **AUTHORIZATION OF APPROPRIATIONS.—**There are authorized to be appropriated to the Secretary of Energy \$10,000,000 for each of fiscal years 2004, 2005, and 2006 for—

(1) cooperative, cost-shared agreements between the Department of Energy and domestic uranium producers to identify, test, and develop improved in situ leaching mining technologies, including low-cost environmental restoration technologies that may be

applied to sites after completion of in situ leaching operations; and

(2) funding for competitively selected demonstration projects with domestic uranium producers relating to—

(A) enhanced production with minimal environmental impacts;

(B) restoration of well fields; and

(C) decommissioning and decontamination activities.

(b) DOMESTIC URANIUM PRODUCER.—For purposes of this section, the term “domestic uranium producer” has the meaning given that term in section 1018(4) of the Energy Policy Act of 1992 (42 U.S.C. 2296b-7(4)), except that the term shall not include any producer that has not produced uranium from domestic reserves on or after July 30, 1998.

(c) LIMITATION.—No activities funded under this section may be carried out in the State of New Mexico.

SEC. 632. WHISTLEBLOWER PROTECTION.

(a) DEFINITION OF EMPLOYER.—Section 211(a)(2) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(a)(2)) is amended—

(1) in subparagraph (C), by striking “and” at the end;

(2) in subparagraph (D), by striking the period at the end and inserting “; and” and

(3) by adding at the end the following:

“(E) a contractor or subcontractor of the Commission.”.

(b) DE NOVO REVIEW.—Subsection (b) of such section 211 is amended by adding at the end the following new paragraph:

“(4) If the Secretary has not issued a final decision within 540 days after the filing of a complaint under paragraph (1), and there is no showing that such delay is due to the bad faith of the person seeking relief under this paragraph, such person may bring an action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy.”.

SEC. 633. MEDICAL ISOTOPE PRODUCTION.

Section 134 of the Atomic Energy Act of 1954 (42 U.S.C. 2160d) is amended—

(1) in subsection a., by striking “a. The Commission” and inserting “a. IN GENERAL.—Except as provided in subsection b., the Commission”;

(2) by redesignating subsection b. as subsection c.; and

(3) by inserting after subsection a. the following:

“b. MEDICAL ISOTOPE PRODUCTION.—

“(1) DEFINITIONS.—In this subsection:

“(A) HIGHLY ENRICHED URANIUM.—The term ‘highly enriched uranium’ means uranium enriched to include concentration of U-235 above 20 percent.

“(B) MEDICAL ISOTOPE.—The term ‘medical isotope’ includes Molybdenum 99, Iodine 131, Xenon 133, and other radioactive materials used to produce a radiopharmaceutical for diagnostic, therapeutic procedures or for research and development.

“(C) RADIOPHARMACEUTICAL.—The term ‘radiopharmaceutical’ means a radioactive isotope that—

“(i) contains byproduct material combined with chemical or biological material; and

“(ii) is designed to accumulate temporarily in a part of the body for therapeutic purposes or for enabling the production of a useful image for use in a diagnosis of a medical condition.

“(D) RECIPIENT COUNTRY.—The term ‘recipient country’ means Canada, Belgium, France, Germany, and the Netherlands.

“(2) LICENSES.—The Commission may issue a license authorizing the export (including shipment to and use at intermediate and ultimate consignees specified in the license) to a recipient country of highly enriched ura-

nium for medical isotope production if, in addition to any other requirements of this Act (except subsection a.), the Commission determines that—

“(A) a recipient country that supplies an assurance letter to the United States Government in connection with the consideration by the Commission of the export license application has informed the United States Government that any intermediate consignees and the ultimate consignee specified in the application are required to use the highly enriched uranium solely to produce medical isotopes; and

“(B) the highly enriched uranium for medical isotope production will be irradiated only in a reactor in a recipient country that—

“(i) uses an alternative nuclear reactor fuel; or

“(ii) is the subject of an agreement with the United States Government to convert to an alternative nuclear reactor fuel when alternative nuclear reactor fuel can be used in the reactor.

“(3) REVIEW OF PHYSICAL PROTECTION REQUIREMENTS.—

“(A) IN GENERAL.—The Commission shall review the adequacy of physical protection requirements that, as of the date of an application under paragraph (2), are applicable to the transportation and storage of highly enriched uranium for medical isotope production or control of residual material after irradiation and extraction of medical isotopes.

“(B) IMPOSITION OF ADDITIONAL REQUIREMENTS.—If the Commission determines that additional physical protection requirements are necessary (including a limit on the quantity of highly enriched uranium that may be contained in a single shipment), the Commission shall impose such requirements as license conditions or through other appropriate means.

“(4) FIRST REPORT TO CONGRESS.—

“(A) NAS STUDY.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study to determine—

“(i) the feasibility of procuring supplies of medical isotopes from commercial sources that do not use highly enriched uranium;

“(ii) the current and projected demand and availability of medical isotopes in regular current domestic use;

“(iii) the progress that is being made by the Department of Energy and others to eliminate all use of highly enriched uranium in reactor fuel, reactor targets, and medical isotope production facilities; and

“(iv) the potential cost differential in medical isotope production in the reactors and target processing facilities if the products were derived from production systems that do not involve fuels and targets with highly enriched uranium.

“(B) FEASIBILITY.—For the purpose of this subsection, the use of low enriched uranium to produce medical isotopes shall be determined to be feasible if—

“(i) low enriched uranium targets have been developed and demonstrated for use in the reactors and target processing facilities that produce significant quantities of medical isotopes to serve United States needs for such isotopes;

“(ii) sufficient quantities of medical isotopes are available from low enriched uranium targets and fuel to meet United States domestic needs; and

“(iii) the average anticipated total cost increase from production of medical isotopes in such facilities without use of highly enriched uranium is less than 10 percent.

“(C) REPORT BY THE SECRETARY.—Not later than 5 years after the date of enactment of the Energy Policy Act of 2003, the Secretary shall submit to Congress a report that—

“(i) contains the findings of the National Academy of Sciences made in the study under subparagraph (A); and

“(ii) discloses the existence of any commitments from commercial producers to provide domestic requirements for medical isotopes without use of highly enriched uranium consistent with the feasibility criteria described in subparagraph (B) not later than the date that is 4 years after the date of submission of the report.

“(5) SECOND REPORT TO CONGRESS.—If the study of the National Academy of Sciences determines under paragraph (4)(A)(i) that the procurement of supplies of medical isotopes from commercial sources that do not use highly enriched uranium is feasible, but the Secretary is unable to report the existence of commitments under paragraph (4)(C)(ii), not later than the date that is 6 years after the date of enactment of the Energy Policy Act of 2003, the Secretary shall submit to Congress a report that describes options for developing domestic supplies of medical isotopes in quantities that are adequate to meet domestic demand without the use of highly enriched uranium consistent with the cost increase described in paragraph (4)(B)(iii).

“(6) CERTIFICATION.—At such time as commercial facilities that do not use highly enriched uranium are capable of meeting domestic requirements for medical isotopes, within the cost increase described in paragraph (4)(B)(iii) and without impairing the reliable supply of medical isotopes for domestic utilization, the Secretary shall submit to Congress a certification to that effect.

“(7) SUNSET PROVISION.—After the Secretary submits a certification under paragraph (6), the Commission shall, by rule, terminate its review of export license applications under this subsection.”.

SEC. 634. FERNALD BYPRODUCT MATERIAL.

Notwithstanding any other law, the material in the concrete silos at the Fernald uranium processing facility managed on the date of enactment of this Act by the Department of Energy shall be considered byproduct material (as defined by section 11 e.(2) of the Atomic Energy Act of 1954 (42 U.S.C. 2041(e)(2))). The Department of Energy may dispose of the material in a facility regulated by the Nuclear Regulatory Commission or by an Agreement State. If the Department of Energy disposes of the material in such a facility, the Nuclear Regulatory Commission or the Agreement State shall regulate the material as byproduct material under that Act. This material shall remain subject to the jurisdiction of the Department of Energy until it is received at a commercial, Nuclear Regulatory Commission-licensed, or Agreement State-licensed facility, at which time the material shall be subject to the health and safety requirements of the Nuclear Regulatory Commission or the Agreement State with jurisdiction over the disposal site.

SEC. 635. SAFE DISPOSAL OF GREATER-THAN-CLASS C RADIOACTIVE WASTE.

(a) DESIGNATION OF RESPONSIBILITY.—The Secretary of Energy shall designate an Office within the Department of Energy to have the responsibility for activities needed to develop a new, or use an existing, facility for safely disposing of all low-level radioactive waste with concentrations of radionuclides that exceed the limits established by the Nuclear Regulatory Commission for Class C radioactive waste (referred to in this section as “GTCC waste”).

(b) COMPREHENSIVE PLAN.—The Secretary of Energy shall develop a comprehensive plan for permanent disposal of GTCC waste which includes plans for a disposal facility. This plan shall be transmitted to Congress in a series of reports, including the following:

(1) REPORT ON SHORT-TERM PLAN.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall submit to Congress a plan describing the Secretary's operational strategy for continued recovery and storage of GTCC waste until a permanent disposal facility is available.

(2) UPDATE OF 1987 REPORT.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Energy shall submit to Congress an update of the Secretary's February 1987 report submitted to Congress that made comprehensive recommendations for the disposal of GTCC waste.

(B) CONTENTS.—The update under this paragraph shall contain—

(i) a detailed description and identification of the GTCC waste that is to be disposed;

(ii) a description of current domestic and international programs, both Federal and commercial, for management and disposition of GTCC waste;

(iii) an identification of the Federal and private options and costs for the safe disposal of GTCC waste;

(iv) an identification of the options for ensuring that, wherever possible, generators and users of GTCC waste bear all reasonable costs of waste disposal;

(v) an identification of any new statutory authority required for disposal of GTCC waste; and

(vi) in coordination with the Environmental Protection Agency and the Nuclear Regulatory Commission, an identification of any new regulatory guidance needed for the disposal of GTCC waste.

(3) REPORT ON COST AND SCHEDULE FOR COMPLETION OF ENVIRONMENTAL IMPACT STATEMENT AND RECORD OF DECISION.—Not later than 180 days after the date of submission of the update required under paragraph (2), the Secretary of Energy shall submit to Congress a report containing an estimate of the cost and schedule to complete a draft and final environmental impact statement and to issue a record of decision for a permanent disposal facility, utilizing either a new or existing facility, for GTCC waste.

SEC. 636. PROHIBITION ON NUCLEAR EXPORTS TO COUNTRIES THAT SPONSOR TERRORISM.

(a) IN GENERAL.—Section 129 of the Atomic Energy Act of 1954 (42 U.S.C. 2158) is amended—

(1) by inserting "a." before "No nuclear materials and equipment"; and

(2) by adding at the end the following new subsection:

"b.(1) Notwithstanding any other provision of law, including specifically section 121 of this Act, and except as provided in paragraphs (2) and (3), no nuclear materials and equipment or sensitive nuclear technology, including items and assistance authorized by section 57 b. of this Act and regulated under part 810 of title 10, Code of Federal Regulations, and nuclear-related items on the Commerce Control List maintained under part 774 of title 15 of the Code of Federal Regulations, shall be exported or reexported, or transferred or retransferred whether directly or indirectly, and no Federal agency shall issue any license, approval, or authorization for the export or reexport, or transfer, or retransfer, whether directly or indirectly, of these items or assistance (as defined in this paragraph) to any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which has been determined by the Secretary of State under section 620A(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2371(a)), section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), or section 40(d) of the Arms

Export Control Act (22 U.S.C. 2780(d)) to have repeatedly provided support for acts of international terrorism).

"(2) This subsection shall not apply to exports, reexports, transfers, or retransfers of radiation monitoring technologies, surveillance equipment, seals, cameras, tamper-indication devices, nuclear detectors, monitoring systems, or equipment necessary to safely store, transport, or remove hazardous materials, whether such items, services, or information are regulated by the Department of Energy, the Department of Commerce, or the Nuclear Regulatory Commission, except to the extent that such technologies, equipment, seals, cameras, devices, detectors, or systems are available for use in the design or construction of nuclear reactors or nuclear weapons.

"(3) The President may waive the application of paragraph (1) to a country if the President determines and certifies to Congress that the waiver will not result in any increased risk that the country receiving the waiver will acquire nuclear weapons, nuclear reactors, or any materials or components of nuclear weapons and—

"(A) the government of such country has not within the preceding 12-month period willfully aided or abetted the international proliferation of nuclear explosive devices to individuals or groups or willfully aided and abetted an individual or groups in acquiring unsafeguarded nuclear materials;

"(B) in the judgment of the President, the government of such country has provided adequate, verifiable assurances that it will cease its support for acts of international terrorism;

"(C) the waiver of that paragraph is in the vital national security interest of the United States; or

"(D) such a waiver is essential to prevent or respond to a serious radiological hazard in the country receiving the waiver that may or does threaten public health and safety."

(b) APPLICABILITY TO EXPORTS APPROVED FOR TRANSFER BUT NOT TRANSFERRED.—Subsection b. of section 129 of Atomic Energy Act of 1954, as added by subsection (a) of this section, shall apply with respect to exports that have been approved for transfer as of the date of the enactment of this Act but have not yet been transferred as of that date.

SEC. 637. URANIUM ENRICHMENT FACILITIES.

(a) NUCLEAR REGULATORY COMMISSION REVIEW OF APPLICATIONS.—

(1) IN GENERAL.—In order to facilitate a timely review and approval of an application in a proceeding for a license for the construction and operation of a uranium enrichment facility under sections 53 and 63 of the Atomic Energy Act of 1954 (42 U.S.C. 2073, 2093) (referred to in this subsection as a "covered proceeding"), the Nuclear Regulatory Commission shall, not later than 30 days after the receipt of the application, establish, by order, the schedule for the conduct of any hearing that may be requested by any person whose interest may be affected by the covered proceeding.

(2) FINAL AGENCY DECISION.—The schedule shall provide that a final decision by the Commission on the application shall be made not later than the date that is 2 years after the date of submission of the application by the applicant.

(3) COMPLIANCE WITH SCHEDULE.—

(A) IN GENERAL.—The Commission shall establish a process to assess compliance with the schedule established under paragraph (1) on an ongoing basis during the course of the review of the application, including ensuring compliance with schedules and milestones that are established for the conduct of any covered proceeding by the Atomic Safety and Licensing Board.

(B) REPORT.—The Commission shall submit to Congress on a bimonthly basis a report describing the status of compliance with the schedule established under paragraph (1), including a description of the status of actions required to be completed pursuant to the schedule by officers and employees of—

(i) the Commission in undertaking the safety and environmental review of applications; and

(ii) the Atomic Safety and Licensing Board in the conduct of any covered proceeding.

(4) ENVIRONMENTAL REVIEW.—

(A) IN GENERAL.—In evaluating an application under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) for licensing of a facility in a covered proceeding, the Commission shall limit the consideration of need to whether the licensing of the facility would advance the national interest of encouraging in the United States—

(i) additional secure, reliable uranium enrichment capacity;

(ii) diverse supplies and suppliers of uranium enrichment capacity; and

(iii) the deployment of advanced centrifuge enrichment technology.

(B) COMMENT.—In carrying out subparagraph (A), the Commission shall consider and solicit the views of other affected Federal agencies.

(C) ATOMIC SAFETY AND LICENSING BOARD.—

(i) IN GENERAL.—Except as provided in clause (ii), in any covered proceeding, the Commission shall allow the litigation and resolution by the Atomic Safety and Licensing Board of issues arising under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), on the basis of information submitted by the applicant in its environmental report, prior to publication of any required environmental impact statement.

(ii) EXCEPTIONS.—On the publication of any required environmental impact statement, issues may be proffered for resolution by the Atomic Safety and Licensing Board only if information or conclusions in the environmental impact statement differ significantly from the information or conclusions in the environmental report submitted by the applicant.

(D) ENVIRONMENTAL JUSTICE.—In a covered proceeding, the Commission shall apply the criteria in Appendix C of the final report entitled "Environmental Review Guidance for Licensing Actions Associated with NMSS Programs" (NUREG-1748), published in August 2003, in any required review of environmental justice.

(5) LOW-LEVEL WASTE.—In any covered proceeding, the Commission shall—

(A) deem the obligation of the Secretary of Energy pursuant to section 3113 of the USEC Privatization Act (42 U.S.C. 2297 h-11) to constitute a plausible strategy with regard to the disposition of depleted uranium generated by such facility; and

(B) treat any residual material that remains following the extraction of any usable resource value from depleted uranium as low-level radioactive waste under part 61 of title 10, Code of Federal Regulations.

(6) ADJUDICATORY HEARING ON LICENSING OF URANIUM ENRICHMENT FACILITIES.—Section 193(b) of the Atomic Energy Act of 1954 (42 U.S.C. 2243(b)) is amended by striking paragraph (2) and inserting the following:

"(2) TIMING.—On the issuance of a final decision on the application by the Atomic Safety and Licensing Board, the Commission shall issue and make immediately effective any license for the construction and operation of a uranium enrichment facility under sections 53 and 63, on a determination by the Commission that the issuance of the license would not cause irreparable injury to the public health and safety or the common defense and security, notwithstanding the

pendency before the Commission of any appeal or petition for review of any decision of the Atomic Safety and Licensing Board.”.

(b) DEPARTMENT OF ENERGY RESPONSIBILITIES.—

(1) IN GENERAL.—Not later than 180 days after a request is made to the Secretary of Energy by an applicant for or recipient of a license for a uranium enrichment facility under section 53, 63, or 193 of the Atomic Energy Act of 1954 ((42 U.S.C. 2073, 2093, 2243), the Secretary shall enter into a memorandum of agreement with the applicant or licensee that provides a schedule for the transfer to the Secretary, not later than 5 years after the generation of any depleted uranium hexafluoride, of title and possession of the depleted uranium hexafluoride to be generated by the applicant or licensee.

(2) COST.—

(A) IN GENERAL.—Subject to subparagraphs (B) and (C), the memorandum of agreement shall specify the cost to be assessed by the Secretary for the transfer to the Secretary of the depleted uranium hexafluoride.

(B) NONDISCRIMINATORY BASIS.—The cost shall be determined by the Secretary on a nondiscriminatory basis.

(C) COST.—Taking into account the physical and chemical characteristics of such depleted uranium hexafluoride, the cost shall not exceed the cost assessed by the Secretary for the acceptance of depleted uranium hexafluoride under—

(i) the memorandum of agreement between the United States Department of Energy and the United States Enrichment Corporation Relating to Depleted Uranium, dated June 30, 1998; and

(ii) the Agreement Between the U.S. Department of Energy and USEC Inc., dated June 17, 2002.

SEC. 638. NATIONAL URANIUM STOCKPILE.

(a) STOCKPILE CREATION.—The Secretary of Energy may create a national low-enriched uranium stockpile with the goals to—

- (1) enhance national energy security; and
- (2) reduce global proliferation threats.

(b) SOURCE OF MATERIAL.—The Secretary shall obtain material for the stockpile from—

- (1) material derived from blend-down of Russian highly enriched uranium derived from weapons materials; and
- (2) domestically mined and enriched uranium.

(c) LIMITATION ON SALES OR TRANSFERS.—Sales or transfer of materials in the stockpile shall occur pursuant to section 3112 of the USEC Privatization Act (42 U.S.C. 2297h-10), as amended by section 630 of this Act.

Subtitle C—Advanced Reactor Hydrogen Cogeneration Project

SEC. 651. PROJECT ESTABLISHMENT.

The Secretary of Energy (in this subtitle referred to as the “Secretary”) is directed to establish an Advanced Reactor Hydrogen Cogeneration Project.

SEC. 652. PROJECT DEFINITION.

The project shall consist of the research, development, design, construction, and operation of a hydrogen production cogeneration research facility that, relative to the current commercial reactors, enhances safety features, reduces waste production, enhances thermal efficiencies, increases proliferation resistance, and has the potential for improved economics and physical security in reactor siting. This facility shall be constructed so as to enable research and development on advanced reactors of the type selected and on alternative approaches for reactor-based production of hydrogen.

SEC. 653. PROJECT MANAGEMENT.

(a) MANAGEMENT.—The project shall be managed within the Department by the Of-

fice of Nuclear Energy, Science, and Technology.

(b) LEAD LABORATORY.—The lead laboratory for the project, providing the site for the reactor construction, shall be the Idaho National Engineering and Environmental Laboratory (in this subtitle referred to as “INEEL”).

(c) STEERING COMMITTEE.—The Secretary shall establish a national steering committee with membership from the national laboratories, universities, and industry to provide advice to the Secretary and the Director of the Office of Nuclear Energy, Science, and Technology on technical and program management aspects of the project.

(d) COLLABORATION.—Project activities shall be conducted at INEEL, other national laboratories, universities, domestic industry, and international partners.

SEC. 654. PROJECT REQUIREMENTS.

(a) RESEARCH AND DEVELOPMENT.—

(1) IN GENERAL.—The project shall include planning, research and development, design, and construction of an advanced, next-generation, nuclear energy system suitable for enabling further research and development on advanced reactor technologies and alternative approaches for reactor-based generation of hydrogen.

(2) REACTOR TEST CAPABILITIES AT INEEL.—The project shall utilize, where appropriate, extensive reactor test capabilities resident at INEEL.

(3) ALTERNATIVES.—The project shall be designed to explore technical, environmental, and economic feasibility of alternative approaches for reactor-based hydrogen production.

(4) INDUSTRIAL LEAD.—The industrial lead for the project shall be a company incorporated in the United States.

(b) INTERNATIONAL COLLABORATION.—

(1) IN GENERAL.—The Secretary shall seek international cooperation, participation, and financial contribution in this project.

(2) ASSISTANCE FROM INTERNATIONAL PARTNERS.—The Secretary may contract for assistance from specialists or facilities from member countries of the Generation IV International Forum, the Russian Federation, or other international partners where such specialists or facilities provide access to cost-effective and relevant skills or test capabilities.

(3) GENERATION IV INTERNATIONAL FORUM.—International activities shall be coordinated with the Generation IV International Forum.

(4) GENERATION IV NUCLEAR ENERGY SYSTEMS PROGRAM.—The Secretary may combine this project with the Generation IV Nuclear Energy Systems Program.

(c) DEMONSTRATION.—The overall project, which may involve demonstration of selected project objectives in a partner nation, must demonstrate both electricity and hydrogen production and may provide flexibility, where technically and economically feasible in the design and construction, to enable tests of alternative reactor core and cooling configurations.

(d) PARTNERSHIPS.—The Secretary shall establish cost-shared partnerships with domestic industry or international participants for the research, development, design, construction, and operation of the research facility, and preference in determining the final project structure shall be given to an overall project which retains United States leadership while maximizing cost sharing opportunities and minimizing Federal funding responsibilities.

(e) TARGET DATE.—The Secretary shall select technologies and develop the project to provide initial testing of either hydrogen production or electricity generation by 2010,

or provide a report to Congress explaining why this date is not feasible.

(f) WAIVER OF CONSTRUCTION TIMELINES.—The Secretary is authorized to conduct the Advanced Reactor Hydrogen Cogeneration Project without the constraints of DOE Order 413.3, relating to program and project management for the acquisition of capital assets, as necessary to meet the specified operational date.

(g) COMPETITION.—The Secretary may fund up to 2 teams for up to 1 year to develop detailed proposals for competitive evaluation and selection of a single proposal and concept for further progress. The Secretary shall define the format of the competitive evaluation of proposals.

(h) USE OF FACILITIES.—Research facilities in industry, national laboratories, or universities either within the United States or with cooperating international partners may be used to develop the enabling technologies for the research facility. Utilization of domestic university-based facilities shall be encouraged to provide educational opportunities for student development.

(i) ROLE OF NUCLEAR REGULATORY COMMISSION.—

(1) IN GENERAL.—The Nuclear Regulatory Commission shall have licensing and regulatory authority for any reactor authorized under this subtitle, pursuant to section 202 of the Energy Reorganization Act of 1974 (42 U.S.C. 5842).

(2) RISK-BASED CRITERIA.—The Secretary shall seek active participation of the Nuclear Regulatory Commission throughout the project to develop risk-based criteria for any future commercial development of a similar reactor architecture.

(j) REPORT.—The Secretary shall develop and transmit to Congress a comprehensive project plan not later than April 30, 2004. The project plan shall be updated annually with each annual budget submission.

SEC. 655. AUTHORIZATION OF APPROPRIATIONS.

(a) RESEARCH, DEVELOPMENT, AND DESIGN PROGRAMS.—The following sums are authorized to be appropriated to the Secretary for all activities under this subtitle except for construction activities described in subsection (b):

- (1) For fiscal year 2004, \$35,000,000.
- (2) For each of fiscal years 2005 through 2008, \$150,000,000.
- (3) For fiscal years beyond 2008, such sums as are necessary.

(b) CONSTRUCTION.—There are authorized to be appropriated to the Secretary for all project-related construction activities, to be available until expended, \$500,000,000.

Subtitle D—Nuclear Security

SEC. 661. NUCLEAR FACILITY THREATS.

(a) STUDY.—The President, in consultation with the Nuclear Regulatory Commission (referred to in this subtitle as the “Commission”) and other appropriate Federal, State, and local agencies and private entities, shall conduct a study to identify the types of threats that pose an appreciable risk to the security of the various classes of facilities licensed by the Commission under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.). Such study shall take into account, but not be limited to—

- (1) the events of September 11, 2001;
- (2) an assessment of physical, cyber, biochemical, and other terrorist threats;
- (3) the potential for attack on facilities by multiple coordinated teams of a large number of individuals;
- (4) the potential for assistance in an attack from several persons employed at the facility;
- (5) the potential for suicide attacks;
- (6) the potential for water-based and air-based threats;

(7) the potential use of explosive devices of considerable size and other modern weaponry;

(8) the potential for attacks by persons with a sophisticated knowledge of facility operations;

(9) the potential for fires, especially fires of long duration;

(10) the potential for attacks on spent fuel shipments by multiple coordinated teams of a large number of individuals;

(11) the adequacy of planning to protect the public health and safety at and around nuclear facilities, as appropriate, in the event of a terrorist attack against a nuclear facility; and

(12) the potential for theft and diversion of nuclear materials from such facilities.

(b) **SUMMARY AND CLASSIFICATION REPORT.**—Not later than 180 days after the date of the enactment of this Act, the President shall transmit to Congress and the Commission a report—

(1) summarizing the types of threats identified under subsection (a); and

(2) classifying each type of threat identified under subsection (a), in accordance with existing laws and regulations, as either—

(A) involving attacks and destructive acts, including sabotage, directed against the facility by an enemy of the United States, whether a foreign government or other person, or otherwise falling under the responsibilities of the Federal Government; or

(B) involving the type of risks that Commission licensees should be responsible for guarding against.

(c) **FEDERAL ACTION REPORT.**—Not later than 90 days after the date on which a report is transmitted under subsection (b), the President shall transmit to Congress a report on actions taken, or to be taken, to address the types of threats identified under subsection (b)(2)(A), including identification of the Federal, State, and local agencies responsible for carrying out the obligations and authorities of the United States. Such report may include a classified annex, as appropriate.

(d) **REGULATIONS.**—Not later than 180 days after the date on which a report is transmitted under subsection (b), the Commission may revise, by rule, the design basis threats issued before the date of enactment of this section as the Commission considers appropriate based on the summary and classification report.

(e) **PHYSICAL SECURITY PROGRAM.**—The Commission shall establish an operational safeguards response evaluation program that ensures that the physical protection capability and operational safeguards response for sensitive nuclear facilities, as determined by the Commission consistent with the protection of public health and the common defense and security, shall be tested periodically through Commission approved or designed, observed, and evaluated force-on-force exercises to determine whether the ability to defeat the design basis threat is being maintained. For purposes of this subsection, the term “sensitive nuclear facilities” includes at a minimum commercial nuclear power plants and category I fuel cycle facilities.

(f) **CONTROL OF INFORMATION.**—Notwithstanding any other provision of law, the Commission may undertake any rulemaking under this subtitle in a manner that will fully protect safeguards and classified national security information.

(g) **FEDERAL SECURITY COORDINATORS.**—

(1) **REGIONAL OFFICES.**—Not later than 18 months after the date of enactment of this Act, the Commission shall assign a Federal security coordinator, under the employment of the Commission, to each region of the Commission.

(2) **RESPONSIBILITIES.**—The Federal security coordinator shall be responsible for—

(A) communicating with the Commission and other Federal, State, and local authorities concerning threats, including threats against such classes of facilities as the Commission determines to be appropriate;

(B) ensuring that such classes of facilities as the Commission determines to be appropriate maintain security consistent with the security plan in accordance with the appropriate threat level; and

(C) assisting in the coordination of security measures among the private security forces at such classes of facilities as the Commission determines to be appropriate and Federal, State, and local authorities, as appropriate.

(h) **TRAINING PROGRAM.**—The President shall establish a program to provide technical assistance and training to Federal agencies, the National Guard, and State and local law enforcement and emergency response agencies in responding to threats against a designated nuclear facility.

SEC. 662. FINGERPRINTING FOR CRIMINAL HISTORY RECORD CHECKS.

(a) **IN GENERAL.**—Subsection a. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(a)) is amended—

(1) by striking “a. The Nuclear” and all that follows through “section 147.” and inserting the following:

“a. **IN GENERAL.**—

“(1) **REQUIREMENTS.**—

“(A) **IN GENERAL.**—The Commission shall require each individual or entity—

“(i) that is licensed or certified to engage in an activity subject to regulation by the Commission;

“(ii) that has filed an application for a license or certificate to engage in an activity subject to regulation by the Commission; or

“(iii) that has notified the Commission, in writing, of an intent to file an application for licensing, certification, permitting, or approval of a product or activity subject to regulation by the Commission,

to fingerprint each individual described in subparagraph (B) before the individual is permitted unescorted access or access, whichever is applicable, as described in subparagraph (B).

“(B) **INDIVIDUALS REQUIRED TO BE FINGERPRINTED.**—The Commission shall require to be fingerprinted each individual who—

“(i) is permitted unescorted access to—

“(I) a utilization facility; or

“(II) radioactive material or other property subject to regulation by the Commission that the Commission determines to be of such significance to the public health and safety or the common defense and security as to warrant fingerprinting and background checks; or

“(ii) is permitted access to safeguards information under section 147.”;

(2) by striking “All fingerprints obtained by a licensee or applicant as required in the preceding sentence” and inserting the following:

“(2) **SUBMISSION TO THE ATTORNEY GENERAL.**—All fingerprints obtained by an individual or entity as required in paragraph (1)”;

(3) by striking “The costs of any identification and records check conducted pursuant to the preceding sentence shall be paid by the licensee or applicant.” and inserting the following:

“(3) **COSTS.**—The costs of any identification and records check conducted pursuant to paragraph (1) shall be paid by the individual or entity required to conduct the fingerprinting under paragraph (1)(A).”; and

(4) by striking “Notwithstanding any other provision of law, the Attorney General may

provide all the results of the search to the Commission, and, in accordance with regulations prescribed under this section, the Commission may provide such results to licensee or applicant submitting such fingerprints.” and inserting the following:

“(4) **PROVISION TO INDIVIDUAL OR ENTITY REQUIRED TO CONDUCT FINGERPRINTING.**—Notwithstanding any other provision of law, the Attorney General may provide all the results of the search to the Commission, and, in accordance with regulations prescribed under this section, the Commission may provide such results to the individual or entity required to conduct the fingerprinting under paragraph (1)(A).”.

(b) **ADMINISTRATION.**—Subsection c. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(c)) is amended—

(1) by striking “, subject to public notice and comment, regulations—” and inserting “requirements—”; and

(2) by striking, in paragraph (2)(B), “unescorted access to the facility of a licensee or applicant” and inserting “unescorted access to a utilization facility, radioactive material, or other property described in subsection a.(1)(B)”.

(c) **BIOMETRIC METHODS.**—Subsection d. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(d)) is redesignated as subsection e., and the following is inserted after subsection c.:

“d. **USE OF OTHER BIOMETRIC METHODS.**—The Commission may satisfy any requirement for a person to conduct fingerprinting under this section using any other biometric method for identification approved for use by the Attorney General, after the Commission has approved the alternative method by rule.”.

SEC. 663. USE OF FIREARMS BY SECURITY PERSONNEL OF LICENSEES AND CERTIFICATE HOLDERS OF THE COMMISSION.

Section 161 of the Atomic Energy Act of 1954 (42 U.S.C. 2201) is amended by adding at the end the following subsection:

“(z)(1) notwithstanding section 922(o), (v), and (w) of title 18, United States Code, or any similar provision of any State law or any similar rule or regulation of a State or any political subdivision of a State prohibiting the transfer or possession of a handgun, a rifle or shotgun, a short-barreled shotgun, a short-barreled rifle, a machinegun, a semi-automatic assault weapon, ammunition for the foregoing, or a large capacity ammunition feeding device, authorize security personnel of licensees and certificate holders of the Commission (including employees of contractors of licensees and certificate holders) to receive, possess, transport, import, and use 1 or more of those weapons, ammunition, or devices, if the Commission determines that—

“(A) such authorization is necessary to the discharge of the security personnel’s official duties; and

“(B) the security personnel—

“(i) are not otherwise prohibited from possessing or receiving a firearm under Federal or State laws pertaining to possession of firearms by certain categories of persons;

“(ii) have successfully completed requirements established through guidelines implementing this subsection for training in use of firearms and tactical maneuvers;

“(iii) are engaged in the protection of—

“(I) facilities owned or operated by a Commission licensee or certificate holder that are designated by the Commission; or

“(II) radioactive material or other property owned or possessed by a person that is a licensee or certificate holder of the Commission, or that is being transported to or from a facility owned or operated by such a licensee or certificate holder, and that has

been determined by the Commission to be of significance to the common defense and security or public health and safety; and

“(iv) are discharging their official duties.

“(2) Such receipt, possession, transportation, importation, or use shall be subject to—

“(A) chapter 44 of title 18, United States Code, except for section 922(a)(4), (o), (v), and (w);

“(B) chapter 53 of title 26, United States Code, except for section 5844; and

“(C) a background check by the Attorney General, based on fingerprints and including a check of the system established under section 103(b) of the Brady Handgun Violence Prevention Act (18 U.S.C. 922 note) to determine whether the person applying for the authority is prohibited from possessing or receiving a firearm under Federal or State law.

“(3) This subsection shall become effective upon the issuance of guidelines by the Commission, with the approval of the Attorney General, to govern the implementation of this subsection.

“(4) In this subsection, the terms ‘handgun’, ‘rifle’, ‘shotgun’, ‘firearm’, ‘ammunition’, ‘machinegun’, ‘semiautomatic assault weapon’, ‘large capacity ammunition feeding device’, ‘short-barreled shotgun’, and ‘short-barreled rifle’ shall have the meanings given those terms in section 921(a) of title 18, United States Code.”

SEC. 664. UNAUTHORIZED INTRODUCTION OF DANGEROUS WEAPONS.

Section 229 a. of the Atomic Energy Act of 1954 (42 U.S.C. 2278a(a)) is amended in the first sentence by inserting “or subject to the licensing authority of the Commission or to certification by the Commission under this Act or any other Act” before the period at the end.

SEC. 665. SABOTAGE OF NUCLEAR FACILITIES OR FUEL.

(a) IN GENERAL.—Section 236 a. of the Atomic Energy Act of 1954 (42 U.S.C. 2284(a)) is amended—

(1) in paragraph (2), by striking “storage facility” and inserting “storage, treatment, or disposal facility”;

(2) in paragraph (3)—

(A) by striking “such a utilization facility” and inserting “a utilization facility licensed under this Act”; and

(B) by striking “or” at the end;

(3) in paragraph (4)—

(A) by striking “facility licensed” and inserting “, uranium conversion, or nuclear fuel fabrication facility licensed or certified”; and

(B) by striking the comma at the end and inserting a semicolon; and

(4) by inserting after paragraph (4) the following:

“(5) any production, utilization, waste storage, waste treatment, waste disposal, uranium enrichment, uranium conversion, or nuclear fuel fabrication facility subject to licensing or certification under this Act during construction of the facility, if the destruction or damage caused or attempted to be caused could adversely affect public health and safety during the operation of the facility;

“(6) any primary facility or backup facility from which a radiological emergency preparedness alert and warning system is activated; or

“(7) any radioactive material or other property subject to regulation by the Nuclear Regulatory Commission that, before the date of the offense, the Nuclear Regulatory Commission determines, by order or regulation published in the Federal Register, is of significance to the public health and safety or to common defense and security.”

(b) PENALTIES.—Section 236 of the Atomic Energy Act of 1954 (42 U.S.C. 2284) is amended

by striking “\$10,000 or imprisoned for not more than 20 years, or both, and, if death results to any person, shall be imprisoned for any term of years or for life” both places it appears and inserting “\$1,000,000 or imprisoned for up to life without parole”.

SEC. 666. SECURE TRANSFER OF NUCLEAR MATERIALS.

(a) AMENDMENT.—Chapter 14 of the Atomic Energy Act of 1954 (42 U.S.C. 2201–2210b) is amended by adding at the end the following new section:

“SEC. 170C. SECURE TRANSFER OF NUCLEAR MATERIALS.

“a. The Nuclear Regulatory Commission shall establish a system to ensure that materials described in subsection b., when transferred or received in the United States by any party pursuant to an import or export license issued pursuant to this Act, are accompanied by a manifest describing the type and amount of materials being transferred or received. Each individual receiving or accompanying the transfer of such materials shall be subject to a security background check conducted by appropriate Federal entities.

“b. Except as otherwise provided by the Commission by regulation, the materials referred to in subsection a. are byproduct materials, source materials, special nuclear materials, high-level radioactive waste, spent nuclear fuel, transuranic waste, and low-level radioactive waste (as defined in section 2(16) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101(16))).”

(b) REGULATIONS.—Not later than 1 year after the date of the enactment of this Act, and from time to time thereafter as it considers necessary, the Nuclear Regulatory Commission shall issue regulations identifying radioactive materials or classes of individuals that, consistent with the protection of public health and safety and the common defense and security, are appropriate exceptions to the requirements of section 170C of the Atomic Energy Act of 1954, as added by subsection (a) of this section.

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect upon the issuance of regulations under subsection (b), except that the background check requirement shall become effective on a date established by the Commission.

(d) EFFECT ON OTHER LAW.—Nothing in this section or the amendment made by this section shall waive, modify, or affect the application of chapter 51 of title 49, United States Code, part A of subtitle V of title 49, United States Code, part B of subtitle VI of title 49, United States Code, and title 23, United States Code.

(e) TABLE OF SECTIONS AMENDMENT.—The table of sections for chapter 14 of the Atomic Energy Act of 1954 is amended by adding at the end the following new item:

“Sec. 170C. Secure transfer of nuclear materials.”

SEC. 667. DEPARTMENT OF HOMELAND SECURITY CONSULTATION.

Before issuing a license for a utilization facility, the Nuclear Regulatory Commission shall consult with the Department of Homeland Security concerning the potential vulnerabilities of the location of the proposed facility to terrorist attack.

SEC. 668. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated such sums as are necessary to carry out this subtitle and the amendments made by this subtitle.

(b) AGGREGATE AMOUNT OF CHARGES.—Section 6101(c)(2)(A) of the Omnibus Budget Reconciliation Act of 1990 (42 U.S.C. 2214(c)(2)(A)) is amended—

(1) in clause (i), by striking “and” at the end;

(2) in clause (ii), by striking the period at the end and inserting “; and” and

(3) by adding at the end the following:

“(iii) amounts appropriated to the Commission for homeland security activities of the Commission for the fiscal year, except for the costs of fingerprinting and background checks required by section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169) and the costs of conducting security inspections.”

TITLE VII—VEHICLES AND FUELS

Subtitle A—Existing Programs

SEC. 701. USE OF ALTERNATIVE FUELS BY DUAL-FUELED VEHICLES.

Section 400AA(a)(3)(E) of the Energy Policy and Conservation Act (42 U.S.C. 6374(a)(3)(E)) is amended to read as follows:

“(E)(i) Dual fueled vehicles acquired pursuant to this section shall be operated on alternative fuels unless the Secretary determines that an agency qualifies for a waiver of such requirement for vehicles operated by the agency in a particular geographic area in which—

“(I) the alternative fuel otherwise required to be used in the vehicle is not reasonably available to retail purchasers of the fuel, as certified to the Secretary by the head of the agency; or

“(II) the cost of the alternative fuel otherwise required to be used in the vehicle is unreasonably more expensive compared to gasoline, as certified to the Secretary by the head of the agency.

“(ii) The Secretary shall monitor compliance with this subparagraph by all such fleets and shall report annually to Congress on the extent to which the requirements of this subparagraph are being achieved. The report shall include information on annual reductions achieved from the use of petroleum-based fuels and the problems, if any, encountered in acquiring alternative fuels.”

SEC. 702. NEIGHBORHOOD ELECTRIC VEHICLES.

(a) AMENDMENTS.—Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) is amended—

(1) in paragraph (3), by striking “or a dual fueled vehicle” and inserting “, a dual fueled vehicle, or a neighborhood electric vehicle”;

(2) in paragraph (13), by striking “and” at the end;

(3) in paragraph (14), by striking the period at the end and inserting “; and”; and

(4) by adding at the end the following:

“(15) the term ‘neighborhood electric vehicle’ means a motor vehicle that—

“(A) meets the definition of a low-speed vehicle (as defined in part 571 of title 49, Code of Federal Regulations);

“(B) meets the definition of a zero-emission vehicle (as defined in section 86.1702–99 of title 40, Code of Federal Regulations);

“(C) meets the requirements of Federal Motor Vehicle Safety Standard No. 500; and

“(D) has a maximum speed of not greater than 25 miles per hour.”

(b) CREDITS.—Notwithstanding section 508 of the Energy Policy Act of 1992 (42 U.S.C. 13258) or any other provision of law, a neighborhood electric vehicle shall not be allocated credit as more than 1 vehicle for purposes of determining compliance with any requirement under title III or title V of such Act.

SEC. 703. CREDITS FOR MEDIUM AND HEAVY DUTY DEDICATED VEHICLES.

Section 508 of the Energy Policy Act of 1992 (42 U.S.C. 13258) is amended by adding at the end the following:

“(e) CREDIT FOR PURCHASE OF MEDIUM AND HEAVY DUTY DEDICATED VEHICLES.—

“(1) DEFINITIONS.—In this subsection:

“(A) HEAVY DUTY DEDICATED VEHICLE.—The term ‘heavy duty dedicated vehicle’ means a dedicated vehicle that has a gross vehicle weight rating of more than 14,000 pounds.

“(B) MEDIUM DUTY DEDICATED VEHICLE.—The term ‘medium duty dedicated vehicle’

means a dedicated vehicle that has a gross vehicle weight rating of more than 8,500 pounds but not more than 14,000 pounds.

“(2) CREDITS FOR MEDIUM DUTY VEHICLES.—The Secretary shall issue 2 full credits to a fleet or covered person under this title, if the fleet or covered person acquires a medium duty dedicated vehicle.

“(3) CREDITS FOR HEAVY DUTY VEHICLES.—The Secretary shall issue 3 full credits to a fleet or covered person under this title, if the fleet or covered person acquires a heavy duty dedicated vehicle.

“(4) USE OF CREDITS.—At the request of a fleet or covered person allocated a credit under this subsection, the Secretary shall, for the year in which the acquisition of the dedicated vehicle is made, treat that credit as the acquisition of 1 alternative fueled vehicle that the fleet or covered person is required to acquire under this title.”

SEC. 704. INCREMENTAL COST ALLOCATION.

Section 303(c) of the Energy Policy Act of 1992 (42 U.S.C. 13212(c)) is amended by striking “may” and inserting “shall”.

SEC. 705. ALTERNATIVE COMPLIANCE AND FLEXIBILITY.

(a) ALTERNATIVE COMPLIANCE.—

(1) IN GENERAL.—Title V of the Energy Policy Act of 1992 (42 U.S.C. 13251 et seq.) is amended—

(A) by redesignating section 514 as section 515; and

(B) by inserting after section 513 the following:

“SEC. 514. ALTERNATIVE COMPLIANCE.

“(a) APPLICATION FOR WAIVER.—Any covered person subject to section 501 and any State subject to section 507(o) may petition the Secretary for a waiver of the applicable requirements of section 501 or 507(o).

“(b) GRANT OF WAIVER.—The Secretary may grant a waiver of the requirements of section 501 or 507(o) upon a showing that the fleet owned, operated, leased, or otherwise controlled by the State or covered person—

“(1) will achieve a reduction in its annual consumption of petroleum fuels equal to the reduction in consumption of petroleum that would result from 100 percent compliance with fuel use requirements in section 501, or, for entities covered under section 507(o), a reduction equal to the covered State entity’s consumption of alternative fuels if all its alternative fuel vehicles given credit under section 508 were to use alternative fuel 100 percent of the time; and

“(2) is in compliance with all applicable vehicle emission standards established by the Administrator under the Clean Air Act (42 U.S.C. 7401 et seq.).

“(c) REVOCATION OF WAIVER.—The Secretary shall revoke any waiver granted under this section if the State or covered person fails to comply with subsection (b).”

(2) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Energy Policy Act of 1992 (42 U.S.C. prec. 13201) is amended by striking the item relating to section 514 and inserting the following:

“Sec. 514. Alternative compliance.

“Sec. 515. Authorization of appropriations.”

(b) CREDITS.—Section 508 of the Energy Policy Act of 1992 (42 U.S.C. 13258) (as amended by section 703) is amended—

(1) by redesignating subsections (b) through (e) as subsections (c) through (f), respectively;

(2) by striking subsection (a) and inserting the following:

“(a) IN GENERAL.—The Secretary shall allocate a credit to a fleet or covered person that is required to acquire an alternative fueled vehicle under this title, if that fleet or person acquires an alternative fueled vehicle—

“(1) in excess of the number that fleet or person is required to acquire under this title;

“(2) before the date on which that fleet or person is required to acquire an alternative fueled vehicle under this title; or

“(3) that is eligible to receive credit under subsection (b).

“(b) MAXIMUM AVAILABLE POWER.—The Secretary shall allocate credit to a fleet under subsection (a)(3) for the acquisition by the fleet of a hybrid vehicle as follows:

“(1) For a hybrid vehicle with at least 4 percent but less than 10 percent maximum available power, the Secretary shall allocate 25 percent of 1 credit.

“(2) For a hybrid vehicle with at least 10 percent but less than 20 percent maximum available power, the Secretary shall allocate 50 percent of 1 credit.

“(3) For a hybrid vehicle with at least 20 percent but less than 30 percent maximum available power, the Secretary shall allocate 75 percent of 1 credit.

“(4) For a hybrid vehicle with 30 percent or more maximum available power, the Secretary shall allocate 1 credit.”; and

(3) by adding at the end the following:

“(g) CREDIT FOR INVESTMENT IN ALTERNATIVE FUEL INFRASTRUCTURE.—

“(1) DEFINITION OF QUALIFYING INFRASTRUCTURE.—In this subsection, the term ‘qualifying infrastructure’ means—

“(A) equipment required to refuel or recharge alternative fueled vehicles;

“(B) facilities or equipment required to maintain, repair, or operate alternative fueled vehicles; and

“(C) such other activities as the Secretary considers to constitute an appropriate expenditure in support of the operation, maintenance, or further widespread adoption of or utilization of alternative fueled vehicles.

“(2) ISSUANCE OF CREDITS.—The Secretary shall issue a credit to a fleet or covered person under this title for investment in qualifying infrastructure if the qualifying infrastructure is open to the general public during regular business hours.

“(3) AMOUNT.—For the purpose of credits under this subsection—

“(A) 1 credit shall be equal to a minimum investment of \$25,000 in cash or equivalent expenditure, as determined by the Secretary; and

“(B) except in the case of a Federal or State fleet, no part of the investment may be provided by Federal or State funds.

“(4) USE OF CREDITS.—At the request of a fleet or covered person allocated a credit under this subsection, the Secretary shall, for the year in which the investment is made, treat that credit as the acquisition of 1 alternative fueled vehicle that the fleet or covered person is required to acquire under this title.

“(h) DEFINITION OF MAXIMUM AVAILABLE POWER.—In this section, the term ‘maximum available power’ means the quotient obtained by dividing—

“(1) the maximum power available from the energy storage device of a hybrid vehicle, during a standard 10-second pulse power or equivalent test; by

“(2) the sum of—

“(A) the maximum power described in subparagraph (A); and

“(B) the net power of the internal combustion or heat engine, as determined in accordance with standards established by the Society of Automobile Engineers.”

(c) LEASE CONDENSATE FUELS.—Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) (as amended by section 702) is amended—

(1) in paragraph (2), by inserting “mixtures containing 50 percent or more by volume of lease condensate or fuels extracted from lease condensate;” after “liquefied petroleum gas;”;

(2) in paragraph (14)—

(A) by inserting “mixtures containing 50 percent or more by volume of lease condensate or fuels extracted from lease condensate,” after “liquefied petroleum gas;”;

(B) by striking “and” at the end;

(3) in paragraph (15), by striking the period at the end and inserting “; and”; and

(4) by adding at the end the following:

“(16) the term ‘lease condensate’ means a mixture, primarily of pentanes and heavier hydrocarbons, that is recovered as a liquid from natural gas in lease separation facilities.”

(d) LEASE CONDENSATE USE CREDITS.—

(1) IN GENERAL.—Title III of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.) is amended by adding at the end the following:

“SEC. 313. LEASE CONDENSATE USE CREDITS.

“(a) IN GENERAL.—Subject to subsection (d), the Secretary shall allocate 1 credit under this section to a fleet or covered person for each qualifying volume of the lease condensate component of fuel containing at least 50 percent lease condensate, or fuels extracted from lease condensate, after the date of enactment of this section for use by the fleet or covered person in vehicles owned or operated by the fleet or covered person that weigh more than 8,500 pounds gross vehicle weight rating.

“(b) REQUIREMENTS.—A credit allocated under this section—

“(1) shall be subject to the same exceptions, authority, documentation, and use of credits that are specified for qualifying volumes of biodiesel in section 312; and

“(2) shall not be considered a credit under section 508.

“(c) REGULATION.—

(1) IN GENERAL.—Subject to subsection (d), not later than January 1, 2004, after the collection of appropriate information and data that consider usage options, uses in other industries, products, or processes, potential volume capacities, costs, air emissions, and fuel efficiencies, the Secretary shall issue a regulation establishing requirements and procedures for the implementation of this section.

(2) QUALIFYING VOLUME.—The regulation shall include a determination of an appropriate qualifying volume for lease condensate, except that in no case shall the Secretary determine that the qualifying volume for lease condensate is less than 1,125 gallons.

“(d) APPLICABILITY.—This section applies unless the Secretary finds that the use of lease condensate as an alternative fuel would adversely affect public health or safety or ambient air quality or the environment.”

(2) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Energy Policy Act of 1992 (42 U.S.C. prec. 13201) is amended by adding at the end of the items relating to title III the following:

“Sec. 313. Lease condensate use credits.”

(e) EMERGENCY EXEMPTION.—Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) (as amended by section 702 and this section) is amended in paragraph (9)(E) by inserting before the semicolon at the end “, including vehicles directly used in the emergency repair of transmission lines and in the restoration of electricity service following power outages, as determined by the Secretary.”

SEC. 706. REVIEW OF ENERGY POLICY ACT OF 1992 PROGRAMS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Secretary of Energy shall complete a study to determine the effect that titles III, IV, and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.) have had on—

(1) the development of alternative fueled vehicle technology;

(2) the availability of that technology in the market; and

(3) the cost of alternative fueled vehicles.

(b) TOPICS.—As part of the study under subsection (a), the Secretary shall specifically identify—

(1) the number of alternative fueled vehicles acquired by fleets or covered persons required to acquire alternative fueled vehicles;

(2) the quantity, by type, of alternative fuel actually used in alternative fueled vehicles acquired by fleets or covered persons;

(3) the quantity of petroleum displaced by the use of alternative fuels in alternative fueled vehicles acquired by fleets or covered persons;

(4) the direct and indirect costs of compliance with requirements under titles III, IV, and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.), including—

(A) vehicle acquisition requirements imposed on fleets or covered persons;

(B) administrative and recordkeeping expenses;

(C) fuel and fuel infrastructure costs;

(D) associated training and employee expenses; and

(E) any other factors or expenses the Secretary determines to be necessary to compile reliable estimates of the overall costs and benefits of complying with programs under those titles for fleets, covered persons, and the national economy;

(5) the existence of obstacles preventing compliance with vehicle acquisition requirements and increased use of alternative fuel in alternative fueled vehicles acquired by fleets or covered persons; and

(6) the projected impact of amendments to the Energy Policy Act of 1992 made by this title.

(c) REPORT.—Upon completion of the study under this section, the Secretary shall submit to Congress a report that describes the results of the study and includes any recommendations of the Secretary for legislative or administrative changes concerning the alternative fueled vehicle requirements under titles III, IV and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.).

SEC. 707. REPORT CONCERNING COMPLIANCE WITH ALTERNATIVE FUELED VEHICLE PURCHASING REQUIREMENTS.

Section 310(b)(1) of the Energy Policy Act of 1992 (42 U.S.C. 13218(b)(1)) is amended by striking “1 year after the date of enactment of this subsection” and inserting “February 15, 2004”.

Subtitle B—Hybrid Vehicles, Advanced Vehicles, and Fuel Cell Buses

PART I—HYBRID VEHICLES

SEC. 711. HYBRID VEHICLES.

The Secretary of Energy shall accelerate efforts directed toward the improvement of batteries and other rechargeable energy storage systems, power electronics, hybrid systems integration, and other technologies for use in hybrid vehicles.

PART II—ADVANCED VEHICLES

SEC. 721. DEFINITIONS.

In this part:

(1) ALTERNATIVE FUELED VEHICLE.—

(A) IN GENERAL.—The term “alternative fueled vehicle” means a vehicle propelled solely on an alternative fuel (as defined in section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211)).

(B) EXCLUSION.—The term “alternative fueled vehicle” does not include a vehicle that the Secretary determines, by regulation, does not yield substantial environmental benefits over a vehicle operating solely on gasoline or diesel derived from fossil fuels.

(2) FUEL CELL VEHICLE.—The term “fuel cell vehicle” means a vehicle propelled by an

electric motor powered by a fuel cell system that converts chemical energy into electricity by combining oxygen (from air) with hydrogen fuel that is stored on the vehicle or is produced onboard by reformation of a hydrocarbon fuel. Such fuel cell system may or may not include the use of auxiliary energy storage systems to enhance vehicle performance.

(3) HYBRID VEHICLE.—The term “hybrid vehicle” means a medium or heavy duty vehicle propelled by an internal combustion engine or heat engine using any combustible fuel and an onboard rechargeable energy storage device.

(4) NEIGHBORHOOD ELECTRIC VEHICLE.—The term “neighborhood electric vehicle” means a motor vehicle that—

(A) meets the definition of a low-speed vehicle (as defined in part 571 of title 49, Code of Federal Regulations);

(B) meets the definition of a zero-emission vehicle (as defined in section 86.1702-99 of title 40, Code of Federal Regulations);

(C) meets the requirements of Federal Motor Vehicle Safety Standard No. 500; and

(D) has a maximum speed of not greater than 25 miles per hour.

(5) PILOT PROGRAM.—The term “pilot program” means the competitive grant program established under section 722.

(6) SECRETARY.—The term “Secretary” means the Secretary of Energy.

(7) ULTRA-LOW SULFUR DIESEL VEHICLE.—The term “ultra-low sulfur diesel vehicle” means a vehicle manufactured in any of model years 2003 through 2006 powered by a heavy-duty diesel engine that—

(A) is fueled by diesel fuel that contains sulfur at not more than 15 parts per million; and

(B) emits not more than the lesser of—

(i) for vehicles manufactured in—

(I) model year 2003, 3.0 grams per brake horsepower-hour of oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; and

(II) model years 2004 through 2006, 2.5 grams per brake horsepower-hour of non-methane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; or

(ii) the quantity of emissions of non-methane hydrocarbons, oxides of nitrogen, and particulate matter of the best-performing technology of ultra-low sulfur diesel vehicles of the same class and application that are commercially available.

SEC. 722. PILOT PROGRAM.

(a) ESTABLISHMENT.—The Secretary, in consultation with the Secretary of Transportation, shall establish a competitive grant pilot program, to be administered through the Clean Cities Program of the Department of Energy, to provide not more than 15 geographically dispersed project grants to State governments, local governments, or metropolitan transportation authorities to carry out a project or projects for the purposes described in subsection (b).

(b) GRANT PURPOSES.—A grant under this section may be used for the following purposes:

(1) The acquisition of alternative fueled vehicles or fuel cell vehicles, including—

(A) passenger vehicles (including neighborhood electric vehicles); and

(B) motorized 2-wheel bicycles, scooters, or other vehicles for use by law enforcement personnel or other State or local government or metropolitan transportation authority employees.

(2) The acquisition of alternative fueled vehicles, hybrid vehicles, or fuel cell vehicles, including—

(A) buses used for public transportation or transportation to and from schools;

(B) delivery vehicles for goods or services; and

(C) ground support vehicles at public airports (including vehicles to carry baggage or push or pull airplanes toward or away from terminal gates).

(3) The acquisition of ultra-low sulfur diesel vehicles.

(4) Installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant, including fueling and other support equipment.

(5) Operation and maintenance of vehicles, infrastructure, and equipment acquired as part of a project funded by the grant.

(c) APPLICATIONS.—

(1) REQUIREMENTS.—

(A) IN GENERAL.—The Secretary shall issue requirements for applying for grants under the pilot program.

(B) MINIMUM REQUIREMENTS.—At a minimum, the Secretary shall require that an application for a grant—

(i) be submitted by the head of a State or local government or a metropolitan transportation authority, or any combination thereof, and a registered participant in the Clean Cities Program of the Department of Energy; and

(ii) include—

(I) a description of the project proposed in the application, including how the project meets the requirements of this part;

(II) an estimate of the ridership or degree of use of the project;

(III) an estimate of the air pollution emissions reduced and fossil fuel displaced as a result of the project, and a plan to collect and disseminate environmental data, related to the project to be funded under the grant, over the life of the project;

(IV) a description of how the project will be sustainable without Federal assistance after the completion of the term of the grant;

(V) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project;

(VI) a description of which costs of the project will be supported by Federal assistance under this part; and

(VII) documentation to the satisfaction of the Secretary that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the project, and a commitment by the applicant to use such fuel in carrying out the project.

(2) PARTNERS.—An applicant under paragraph (1) may carry out a project under the pilot program in partnership with public and private entities.

(d) SELECTION CRITERIA.—In evaluating applications under the pilot program, the Secretary shall—

(1) consider each applicant’s previous experience with similar projects; and

(2) give priority consideration to applications that—

(A) are most likely to maximize protection of the environment;

(B) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this part is completed; and

(C) exceed the minimum requirements of subsection (c)(1)(B)(ii).

(e) PILOT PROJECT REQUIREMENTS.—

(1) MAXIMUM AMOUNT.—The Secretary shall not provide more than \$20,000,000 in Federal assistance under the pilot program to any applicant.

(2) **COST SHARING.**—The Secretary shall not provide more than 50 percent of the cost, incurred during the period of the grant, of any project under the pilot program.

(3) **MAXIMUM PERIOD OF GRANTS.**—The Secretary shall not fund any applicant under the pilot program for more than 5 years.

(4) **DEPLOYMENT AND DISTRIBUTION.**—The Secretary shall seek to the maximum extent practicable to ensure a broad geographic distribution of project sites.

(5) **TRANSFER OF INFORMATION AND KNOWLEDGE.**—The Secretary shall establish mechanisms to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(f) **SCHEDULE.**—

(1) **PUBLICATION.**—Not later than 90 days after the date of enactment of this Act, the Secretary shall publish in the Federal Register, Commerce Business Daily, and elsewhere as appropriate, a request for applications to undertake projects under the pilot program. Applications shall be due not later than 180 days after the date of publication of the notice.

(2) **SELECTION.**—Not later than 180 days after the date by which applications for grants are due, the Secretary shall select by competitive, peer reviewed proposal, all applications for projects to be awarded a grant under the pilot program.

(g) **LIMIT ON FUNDING.**—The Secretary shall provide not less than 20 nor more than 25 percent of the grant funding made available under this section for the acquisition of ultra-low sulfur diesel vehicles.

SEC. 723. REPORTS TO CONGRESS.

(a) **INITIAL REPORT.**—Not later than 60 days after the date on which grants are awarded under this part, the Secretary shall submit to Congress a report containing—

(1) an identification of the grant recipients and a description of the projects to be funded;

(2) an identification of other applicants that submitted applications for the pilot program; and

(3) a description of the mechanisms used by the Secretary to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(b) **EVALUATION.**—Not later than 3 years after the date of enactment of this Act, and annually thereafter until the pilot program ends, the Secretary shall submit to Congress a report containing an evaluation of the effectiveness of the pilot program, including—

(1) an assessment of the benefits to the environment derived from the projects included in the pilot program; and

(2) an estimate of the potential benefits to the environment to be derived from widespread application of alternative fueled vehicles and ultra-low sulfur diesel vehicles.

SEC. 724. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this part \$200,000,000, to remain available until expended.

PART III—FUEL CELL BUSES

SEC. 731. FUEL CELL TRANSIT BUS DEMONSTRATION.

(a) **IN GENERAL.**—The Secretary of Energy, in consultation with the Secretary of Transportation, shall establish a transit bus demonstration program to make competitive, merit-based awards for 5-year projects to demonstrate not more than 25 fuel cell transit buses (and necessary infrastructure) in 5 geographically dispersed localities.

(b) **PREFERENCE.**—In selecting projects under this section, the Secretary of Energy shall give preference to projects that are most likely to mitigate congestion and improve air quality.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary of Energy to carry out this section \$10,000,000 for each of fiscal years 2004 through 2008.

Subtitle C—Clean School Buses

SEC. 741. DEFINITIONS.

In this subtitle:

(1) **ADMINISTRATOR.**—The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) **ALTERNATIVE FUEL.**—The term “alternative fuel” means liquefied natural gas, compressed natural gas, liquefied petroleum gas, hydrogen, propane, or methanol or ethanol at no less than 85 percent by volume.

(3) **ALTERNATIVE FUEL SCHOOL BUS.**—The term “alternative fuel school bus” means a school bus that meets all of the requirements of this subtitle and is operated solely on an alternative fuel.

(4) **EMISSIONS CONTROL RETROFIT TECHNOLOGY.**—The term “emissions control retrofit technology” means a particulate filter or other emissions control equipment that is verified or certified by the Administrator or the California Air Resources Board as an effective emission reduction technology when installed on an existing school bus.

(5) **IDLING.**—The term “idling” means operating an engine while remaining stationary for more than approximately 15 minutes, except that the term does not apply to routine stoppages associated with traffic movement or congestion.

(6) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(7) **ULTRA-LOW SULFUR DIESEL FUEL.**—The term “ultra-low sulfur diesel fuel” means diesel fuel that contains sulfur at not more than 15 parts per million.

(8) **ULTRA-LOW SULFUR DIESEL FUEL SCHOOL BUS.**—The term “ultra-low sulfur diesel fuel school bus” means a school bus that meets all of the requirements of this subtitle and is operated solely on ultra-low sulfur diesel fuel.

SEC. 742. PROGRAM FOR REPLACEMENT OF CERTAIN SCHOOL BUSES WITH CLEAN SCHOOL BUSES.

(a) **ESTABLISHMENT.**—The Administrator, in consultation with the Secretary and other appropriate Federal departments and agencies, shall establish a program for awarding grants on a competitive basis to eligible entities for the replacement of existing school buses manufactured before model year 1991 with alternative fuel school buses and ultra-low sulfur diesel fuel school buses.

(b) **REQUIREMENTS.**—

(1) **IN GENERAL.**—Not later than 90 days after the date of enactment of this Act, the Administrator shall establish and publish in the Federal Register grant requirements on eligibility for assistance, and on implementation of the program established under subsection (a), including instructions for the submission of grant applications and certification requirements to ensure compliance with this subtitle.

(2) **APPLICATION DEADLINES.**—The requirements established under paragraph (1) shall require submission of grant applications not later than—

(A) in the case of the first year of program implementation, the date that is 180 days after the publication of the requirements in the Federal Register; and

(B) in the case of each subsequent year, June 1 of the year.

(c) **ELIGIBLE RECIPIENTS.**—A grant shall be awarded under this section only—

(1) to 1 or more local or State governmental entities responsible for providing school bus service to 1 or more public school systems or responsible for the purchase of school buses;

(2) to 1 or more contracting entities that provide school bus service to 1 or more public school systems, if the grant application is submitted jointly with the 1 or more school systems to be served by the buses, except that the application may provide that buses purchased using funds awarded shall be owned, operated, and maintained exclusively by the 1 or more contracting entities; or

(3) to a nonprofit school transportation association representing private contracting entities, if the association has notified and received approval from the 1 or more school systems to be served by the buses.

(d) **AWARD DEADLINES.**—

(1) **IN GENERAL.**—Subject to paragraph (2), the Administrator shall award a grant made to a qualified applicant for a fiscal year—

(A) in the case of the first fiscal year of program implementation, not later than the date that is 90 days after the application deadline established under subsection (b)(2); and

(B) in the case of each subsequent fiscal year, not later than August 1 of the fiscal year.

(2) **INSUFFICIENT NUMBER OF QUALIFIED GRANT APPLICATIONS.**—If the Administrator does not receive a sufficient number of qualified grant applications to meet the requirements of subsection (i)(1) for a fiscal year, the Administrator shall award a grant made to a qualified applicant under subsection (i)(2) not later than September 30 of the fiscal year.

(e) **TYPES OF GRANTS.**—

(1) **IN GENERAL.**—A grant under this section shall be used for the replacement of school buses manufactured before model year 1991 with alternative fuel school buses and ultra-low sulfur diesel fuel school buses.

(2) **NO ECONOMIC BENEFIT.**—Other than the receipt of the grant, a recipient of a grant under this section may not receive any economic benefit in connection with the receipt of the grant.

(3) **PRIORITY OF GRANT APPLICATIONS.**—The Administrator shall give priority to applicants that propose to replace school buses manufactured before model year 1977.

(f) **CONDITIONS OF GRANT.**—A grant provided under this section shall include the following conditions:

(1) **SCHOOL BUS FLEET.**—All buses acquired with funds provided under the grant shall be operated as part of the school bus fleet for which the grant was made for a minimum of 5 years.

(2) **USE OF FUNDS.**—Funds provided under the grant may only be used—

(A) to pay the cost, except as provided in paragraph (3), of new alternative fuel school buses or ultra-low sulfur diesel fuel school buses, including State taxes and contract fees associated with the acquisition of such buses; and

(B) to provide—

(i) up to 20 percent of the price of the alternative fuel school buses acquired, for necessary alternative fuel infrastructure if the infrastructure will only be available to the grant recipient; and

(ii) up to 25 percent of the price of the alternative fuel school buses acquired, for necessary alternative fuel infrastructure if the infrastructure will be available to the grant recipient and to other bus fleets.

(3) **GRANT RECIPIENT FUNDS.**—The grant recipient shall be required to provide at least—

(A) in the case of a grant recipient described in paragraph (1) or (3) of subsection (c), the lesser of—

(i) an amount equal to 15 percent of the total cost of each bus received; or

(ii) \$15,000 per bus; and

(B) in the case of a grant recipient described in subsection (c)(2), the lesser of—

(i) an amount equal to 20 percent of the total cost of each bus received; or

(ii) \$20,000 per bus.

(4) **ULTRA-LOW SULFUR DIESEL FUEL.**—In the case of a grant recipient receiving a grant for ultra-low sulfur diesel fuel school buses, the grant recipient shall be required to provide documentation to the satisfaction of the Administrator that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the purposes of the grant, and a commitment by the applicant to use such fuel in carrying out the purposes of the grant.

(5) **TIMING.**—All alternative fuel school buses, ultra-low sulfur diesel fuel school buses, or alternative fuel infrastructure acquired under a grant awarded under this section shall be purchased and placed in service as soon as practicable.

(g) **BUSES.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), funding under a grant made under this section for the acquisition of new alternative fuel school buses or ultra-low sulfur diesel fuel school buses shall only be used to acquire school buses—

(A) with a gross vehicle weight of greater than 14,000 pounds;

(B) that are powered by a heavy duty engine;

(C) in the case of alternative fuel school buses manufactured in model years 2004 through 2006, that emit not more than 1.8 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; and

(D) in the case of ultra-low sulfur diesel fuel school buses manufactured in model years 2004 through 2006, that emit not more than 2.5 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter.

(2) **LIMITATIONS.**—A bus shall not be acquired under this section that emits nonmethane hydrocarbons, oxides of nitrogen, or particulate matter at a rate greater than the best performing technology of the same class of ultra-low sulfur diesel fuel school buses commercially available at the time the grant is made.

(h) **DEPLOYMENT AND DISTRIBUTION.**—The Administrator shall—

(1) seek, to the maximum extent practicable, to achieve nationwide deployment of alternative fuel school buses and ultra-low sulfur diesel fuel school buses through the program under this section; and

(2) ensure a broad geographic distribution of grant awards, with a goal of no State receiving more than 10 percent of the grant funding made available under this section for a fiscal year.

(i) **ALLOCATION OF FUNDS.**—

(1) **IN GENERAL.**—Subject to paragraph (2), of the amount of grant funding made available to carry out this section for any fiscal year, the Administrator shall use—

(A) 70 percent for the acquisition of alternative fuel school buses or supporting infrastructure; and

(B) 30 percent for the acquisition of ultra-low sulfur diesel fuel school buses.

(2) **INSUFFICIENT NUMBER OF QUALIFIED GRANT APPLICATIONS.**—After the first fiscal year in which this program is in effect, if the Administrator does not receive a sufficient number of qualified grant applications to meet the requirements of subparagraph (A) or (B) of paragraph (1) for a fiscal year, effective beginning on August 1 of the fiscal year,

the Administrator shall make the remaining funds available to other qualified grant applicants under this section.

(j) **REDUCTION OF SCHOOL BUS IDLING.**—Each local educational agency (as defined in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801)) that receives Federal funds under the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.) is encouraged to develop a policy, consistent with the health, safety, and welfare of students and the proper operation and maintenance of school buses, to reduce the incidence of unnecessary school bus idling at schools when picking up and unloading students.

(k) **ANNUAL REPORT.**—

(1) **IN GENERAL.**—Not later than January 31 of each year, the Administrator shall transmit to Congress a report evaluating implementation of the programs under this section and section 743.

(2) **COMPONENTS.**—The reports shall include a description of—

(A) the total number of grant applications received;

(B) the number and types of alternative fuel school buses, ultra-low sulfur diesel fuel school buses, and retrofitted buses requested in grant applications;

(C) grants awarded and the criteria used to select the grant recipients;

(D) certified engine emission levels of all buses purchased or retrofitted under the programs under this section and section 743;

(E) an evaluation of the in-use emission level of buses purchased or retrofitted under the programs under this section and section 743; and

(F) any other information the Administrator considers appropriate.

(l) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—

(1) \$45,000,000 for fiscal year 2005;

(2) \$65,000,000 for fiscal year 2006;

(3) \$90,000,000 for fiscal year 2007; and

(4) such sums as are necessary for each of fiscal years 2008 and 2009.

SEC. 743. DIESEL RETROFIT PROGRAM.

(a) **ESTABLISHMENT.**—The Administrator, in consultation with the Secretary, shall establish a program for awarding grants on a competitive basis to entities for the installation of retrofit technologies for diesel school buses.

(b) **ELIGIBLE RECIPIENTS.**—A grant shall be awarded under this section only—

(1) to a local or State governmental entity responsible for providing school bus service to 1 or more public school systems;

(2) to 1 or more contracting entities that provide school bus service to 1 or more public school systems, if the grant application is submitted jointly with the 1 or more school systems that the buses will serve, except that the application may provide that buses purchased using funds awarded shall be owned, operated, and maintained exclusively by the 1 or more contracting entities; or

(3) to a nonprofit school transportation association representing private contracting entities, if the association has notified and received approval from the 1 or more school systems to be served by the buses.

(c) **AWARDS.**—

(1) **IN GENERAL.**—The Administrator shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of grants under this section.

(2) **PREFERENCES.**—In making awards of grants under this section, the Administrator shall give preference to proposals that—

(A) will achieve the greatest reductions in emissions of nonmethane hydrocarbons, oxides of nitrogen, or particulate matter per proposal or per bus; or

(B) involve the use of emissions control retrofit technology on diesel school buses that operate solely on ultra-low sulfur diesel fuel.

(d) **CONDITIONS OF GRANT.**—A grant shall be provided under this section on the conditions that—

(1) buses on which retrofit emissions-control technology are to be demonstrated—

(A) will operate on ultra-low sulfur diesel fuel where such fuel is reasonably available or required for sale by State or local law or regulation;

(B) were manufactured in model year 1991 or later; and

(C) will be used for the transportation of school children to and from school for a minimum of 5 years;

(2) grant funds will be used for the purchase of emission control retrofit technology, including State taxes and contract fees; and

(3) grant recipients will provide at least 15 percent of the total cost of the retrofit, including the purchase of emission control retrofit technology and all necessary labor for installation of the retrofit.

(e) **VERIFICATION.**—Not later than 90 days after the date of enactment of this Act, the Administrator shall publish in the Federal Register procedures to verify—

(1) the retrofit emissions-control technology to be demonstrated;

(2) that buses powered by ultra-low sulfur diesel fuel on which retrofit emissions-control technology are to be demonstrated will operate on diesel fuel containing not more than 15 parts per million of sulfur; and

(3) that grants are administered in accordance with this section.

(f) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—

(1) \$20,000,000 for fiscal year 2005;

(2) \$35,000,000 for fiscal year 2006;

(3) \$45,000,000 for fiscal year 2007; and

(4) such sums as are necessary for each of fiscal years 2008 and 2009.

SEC. 744. FUEL CELL SCHOOL BUSES.

(a) **ESTABLISHMENT.**—The Secretary shall establish a program for entering into cooperative agreements—

(1) with private sector fuel cell bus developers for the development of fuel cell-powered school buses; and

(2) subsequently, with not less than 2 units of local government using natural gas-powered school buses and such private sector fuel cell bus developers to demonstrate the use of fuel cell-powered school buses.

(b) **COST SHARING.**—The non-Federal contribution for activities funded under this section shall be not less than—

(1) 20 percent for fuel infrastructure development activities; and

(2) 50 percent for demonstration activities and for development activities not described in paragraph (1).

(c) **REPORTS TO CONGRESS.**—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report that—

(1) evaluates the process of converting natural gas infrastructure to accommodate fuel cell-powered school buses; and

(2) assesses the results of the development and demonstration program under this section.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out this section \$25,000,000 for the period of fiscal years 2004 through 2006.

Subtitle D—Miscellaneous

SEC. 751. RAILROAD EFFICIENCY.

(a) **ESTABLISHMENT.**—The Secretary of Energy shall, in cooperation with the Secretary

of Transportation and the Administrator of the Environmental Protection Agency, establish a cost-shared, public-private research partnership involving the Federal Government, railroad carriers, locomotive manufacturers and equipment suppliers, and the Association of American Railroads, to develop and demonstrate railroad locomotive technologies that increase fuel economy, reduce emissions, and lower costs of operation.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary of Energy to carry out this section—

- (1) \$25,000,000 for fiscal year 2005;
- (2) \$35,000,000 for fiscal year 2006; and
- (3) \$50,000,000 for fiscal year 2007.

SEC. 752. MOBILE EMISSION REDUCTIONS TRADING AND CREDITING.

(a) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall submit to Congress a report on the experience of the Administrator with the trading of mobile source emission reduction credits for use by owners and operators of stationary source emission sources to meet emission offset requirements within a nonattainment area.

(b) **CONTENTS.**—The report shall describe—

(1) projects approved by the Administrator that include the trading of mobile source emission reduction credits for use by stationary sources in complying with offset requirements, including a description of—

- (A) project and stationary sources location;
- (B) volumes of emissions offset and traded;
- (C) the sources of mobile emission reduction credits; and
- (D) if available, the cost of the credits;
- (2) the significant issues identified by the Administrator in consideration and approval of trading in the projects;

(3) the requirements for monitoring and assessing the air quality benefits of any approved project;

(4) the statutory authority on which the Administrator has based approval of the projects;

(5) an evaluation of how the resolution of issues in approved projects could be used in other projects; and

(6) any other issues that the Administrator considers relevant to the trading and generation of mobile source emission reduction credits for use by stationary sources or for other purposes.

SEC. 753. AVIATION FUEL CONSERVATION AND EMISSIONS.

(a) **IN GENERAL.**—Not later than 60 days after the date of enactment of this Act, the Administrator of the Federal Aviation Administration and the Administrator of the Environmental Protection Agency shall jointly initiate a study to identify—

(1) the impact of aircraft emissions on air quality in nonattainment areas; and

(2) ways to promote fuel conservation measures for aviation to—

- (A) enhance fuel efficiency; and
- (B) reduce emissions.

(b) **FOCUS.**—The study under subsection (a) shall focus on how air traffic management inefficiencies, such as aircraft idling at airports, result in unnecessary fuel burn and air emissions.

(c) **REPORT.**—Not later than 1 year after the date of the initiation of the study under subsection (a), the Administrator of the Federal Aviation Administration and the Administrator of the Environmental Protection Agency shall jointly submit to the Committee on Energy and Commerce and the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and

Public Works and the Committee on Commerce, Science, and Transportation of the Senate a report that—

(1) describes the results of the study; and

(2) includes any recommendations on ways in which unnecessary fuel use and emissions affecting air quality may be reduced—

(A) without adversely affecting safety and security and increasing individual aircraft noise; and

(B) while taking into account all aircraft emissions and the impact of the emissions on human health.

SEC. 754. DIESEL FUELED VEHICLES.

(a) **DEFINITION OF TIER 2 EMISSION STANDARDS.**—In this section, the term “tier 2 emission standards” means the motor vehicle emission standards that apply to passenger cars, light trucks, and larger passenger vehicles manufactured after the 2003 model year, as issued on February 10, 2000, by the Administrator of the Environmental Protection Agency under sections 202 and 211 of the Clean Air Act (42 U.S.C. 7521, 7545).

(b) **DIESEL COMBUSTION AND AFTER-TREATMENT TECHNOLOGIES.**—The Secretary of Energy shall accelerate efforts to improve diesel combustion and after-treatment technologies for use in diesel fueled motor vehicles.

(c) **GOALS.**—The Secretary shall carry out subsection (b) with a view toward achieving the following goals:

(1) Developing and demonstrating diesel technologies that, not later than 2010, meet the following standards:

(A) Tier 2 emission standards.

(B) The heavy-duty emissions standards of 2007 that are applicable to heavy-duty vehicles under regulations issued by the Administrator of the Environmental Protection Agency as of the date of enactment of this Act.

(2) Developing the next generation of low-emission, high efficiency diesel engine technologies, including homogeneous charge compression ignition technology.

SEC. 755. CONSERVE BY BICYCLING PROGRAM.

(a) **DEFINITIONS.**—In this section:

(1) **PROGRAM.**—The term “program” means the Conserve by Bicycling Program established by subsection (b).

(2) **SECRETARY.**—The term “Secretary” means the Secretary of Transportation.

(b) **ESTABLISHMENT.**—There is established within the Department of Transportation a program to be known as the “Conserve by Bicycling Program”.

(c) **PROJECTS.**—

(1) **IN GENERAL.**—In carrying out the program, the Secretary shall establish not more than 10 pilot projects that are—

(A) dispersed geographically throughout the United States; and

(B) designed to conserve energy resources by encouraging the use of bicycles in place of motor vehicles.

(2) **REQUIREMENTS.**—A pilot project described in paragraph (1) shall—

(A) use education and marketing to convert motor vehicle trips to bicycle trips;

(B) document project results and energy savings (in estimated units of energy conserved);

(C) facilitate partnerships among interested parties in at least 2 of the fields of—

- (i) transportation;
- (ii) law enforcement;
- (iii) education;
- (iv) public health;
- (v) environment; and
- (vi) energy;

(D) maximize bicycle facility investments;

(E) demonstrate methods that may be used in other regions of the United States; and

(F) facilitate the continuation of ongoing programs that are sustained by local resources.

(3) **COST SHARING.**—At least 20 percent of the cost of each pilot project described in paragraph (1) shall be provided from State or local sources.

(d) **ENERGY AND BICYCLING RESEARCH STUDY.**—

(1) **IN GENERAL.**—Not later than 2 years after the date of enactment of this Act, the Secretary shall enter into a contract with the National Academy of Sciences for, and the National Academy of Sciences shall conduct and submit to Congress a report on, a study on the feasibility of converting motor vehicle trips to bicycle trips.

(2) **COMPONENTS.**—The study shall—

(A) document the results or progress of the pilot projects under subsection (c);

(B) determine the type and duration of motor vehicle trips that people in the United States may feasibly make by bicycle, taking into consideration factors such as—

- (i) weather;
- (ii) land use and traffic patterns;
- (iii) the carrying capacity of bicycles; and
- (iv) bicycle infrastructure;

(C) determine any energy savings that would result from the conversion of motor vehicle trips to bicycle trips;

(D) include a cost-benefit analysis of bicycle infrastructure investments; and

(E) include a description of any factors that would encourage more motor vehicle trips to be replaced with bicycle trips.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary to carry out this section \$6,200,000, to remain available until expended, of which—

(1) \$5,150,000 shall be used to carry out pilot projects described in subsection (c);

(2) \$300,000 shall be used by the Secretary to coordinate, publicize, and disseminate the results of the program; and

(3) \$750,000 shall be used to carry out subsection (d).

SEC. 756. REDUCTION OF ENGINE IDLING OF HEAVY-DUTY VEHICLES.

(a) **DEFINITIONS.**—In this section:

(1) **ADMINISTRATOR.**—The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) **ADVANCED TRUCK STOP ELECTRIFICATION SYSTEM.**—The term “advanced truck stop electrification system” means a stationary system that delivers heat, air conditioning, electricity, and communications, and is capable of providing verifiable and auditable evidence of use of those services, to a heavy-duty vehicle and any occupants of the heavy-duty vehicle without relying on components mounted onboard the heavy-duty vehicle for delivery of those services.

(3) **AUXILIARY POWER UNIT.**—The term “auxiliary power unit” means an integrated system that—

(A) provides heat, air conditioning, engine warming, and electricity to the factory-installed components on a heavy-duty vehicle as if the main drive engine of the heavy-duty vehicle were running; and

(B) is certified by the Administrator under part 89 of title 40, Code of Federal Regulations (or any successor regulation), as meeting applicable emission standards.

(4) **HEAVY-DUTY VEHICLE.**—The term “heavy-duty vehicle” means a vehicle that—

(A) has a gross vehicle weight rating greater than 12,500 pounds; and

(B) is powered by a diesel engine.

(5) **IDLE REDUCTION TECHNOLOGY.**—The term “idle reduction technology” means an advanced truck stop electrification system, auxiliary power unit, or other device or system of devices that—

(A) is used to reduce long-duration idling of a heavy-duty vehicle; and

(B) allows for the main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle to be shut down.

(6) LONG-DURATION IDLING.—

(A) IN GENERAL.—The term “long-duration idling” means the operation of a main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle, for a period greater than 15 consecutive minutes, at a time at which the main drive engine is not engaged in gear.

(B) EXCLUSIONS.—The term “long-duration idling” does not include the operation of a main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle during a routine stoppage associated with traffic movement or congestion.

(b) IDLE REDUCTION TECHNOLOGY BENEFITS, PROGRAMS, AND STUDIES.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator shall—

(A)(i) commence a review of the mobile source air emission models of the Environmental Protection Agency used under the Clean Air Act (42 U.S.C. 7401 et seq.) to determine whether the models accurately reflect the emissions resulting from long-duration idling of heavy-duty vehicles and other vehicles and engines; and

(ii) update those models as the Administrator determines to be appropriate; and

(B)(i) commence a review of the emission reductions achieved by the use of idle reduction technology; and

(ii) complete such revisions of the regulations and guidance of the Environmental Protection Agency as the Administrator determines to be appropriate.

(2) DEADLINE FOR COMPLETION.—Not later than 180 days after the date of enactment of this Act, the Administrator shall—

(A) complete the reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1); and

(B) prepare and make publicly available 1 or more reports on the results of the reviews.

(3) DISCRETIONARY INCLUSIONS.—The reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1) and the reports under paragraph (2)(B) may address the potential fuel savings resulting from use of idle reduction technology.

(4) IDLE REDUCTION DEPLOYMENT PROGRAM.—

(A) ESTABLISHMENT.—

(i) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Transportation, shall establish a program to support deployment of idle reduction technology.

(ii) PRIORITY.—The Administrator shall give priority to the deployment of idle reduction technology based on beneficial effects on air quality and ability to lessen the emission of criteria air pollutants.

(B) FUNDING.—

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out subparagraph (A) \$19,500,000 for fiscal year 2004, \$30,000,000 for fiscal year 2005, and \$45,000,000 for fiscal year 2006.

(ii) COST SHARING.—Subject to clause (iii), the Administrator shall require at least 50 percent of the costs directly and specifically related to any project under this section to be provided from non-Federal sources.

(iii) NECESSARY AND APPROPRIATE REDUCTIONS.—The Administrator may reduce the non-Federal requirement under clause (ii) if the Administrator determines that the reduction is necessary and appropriate to meet the objectives of this section.

(5) IDLING LOCATION STUDY.—

(A) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Transportation, shall commence a

study to analyze all locations at which heavy-duty vehicles stop for long-duration idling, including—

- (i) truck stops;
- (ii) rest areas;
- (iii) border crossings;
- (iv) ports;
- (v) transfer facilities; and
- (vi) private terminals.

(B) DEADLINE FOR COMPLETION.—Not later than 180 days after the date of enactment of this Act, the Administrator shall—

(i) complete the study under subparagraph (A); and

(ii) prepare and make publicly available 1 or more reports of the results of the study.

(c) VEHICLE WEIGHT EXEMPTION.—Section 127(a) of title 23, United States Code, is amended—

(1) by designating the first through eleventh sentences as paragraphs (1) through (11), respectively; and

(2) by adding at the end the following:

“(12) HEAVY DUTY VEHICLES.—

“(A) IN GENERAL.—Subject to subparagraphs (B) and (C), in order to promote reduction of fuel use and emissions because of engine idling, the maximum gross vehicle weight limit and the axle weight limit for any heavy-duty vehicle equipped with an idle reduction technology shall be increased by a quantity necessary to compensate for the additional weight of the idle reduction system.

“(B) MAXIMUM WEIGHT INCREASE.—The weight increase under subparagraph (A) shall be not greater than 250 pounds.

“(C) PROOF.—On request by a regulatory agency or law enforcement agency, the vehicle operator shall provide proof (through demonstration or certification) that—

“(i) the idle reduction technology is fully functional at all times; and

“(ii) the 250-pound gross weight increase is not used for any purpose other than the use of idle reduction technology described in subparagraph (A).”.

SEC. 757. BIODIESEL ENGINE TESTING PROGRAM.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall initiate a partnership with diesel engine, diesel fuel injection system, and diesel vehicle manufacturers and diesel and biodiesel fuel providers, to include biodiesel testing in advanced diesel engine and fuel system technology.

(b) SCOPE.—The program shall provide for testing to determine the impact of biodiesel from different sources on current and future emission control technologies, with emphasis on—

(1) the impact of biodiesel on emissions warranty, in-use liability, and antitampering provisions;

(2) the impact of long-term use of biodiesel on engine operations;

(3) the options for optimizing these technologies for both emissions and performance when switching between biodiesel and diesel fuel; and

(4) the impact of using biodiesel in these fueling systems and engines when used as a blend with 2006 Environmental Protection Agency-mandated diesel fuel containing a maximum of 15-parts-per-million sulfur content.

(c) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall provide an interim report to Congress on the findings of the program, including a comprehensive analysis of impacts from biodiesel on engine operation for both existing and expected future diesel technologies, and recommendations for ensuring optimal emissions reductions and engine performance with biodiesel.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated

\$5,000,000 for each of fiscal years 2004 through 2008 to carry out this section.

(e) DEFINITION.—For purposes of this section, the term “biodiesel” means a diesel fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545) and that meets the American Society for Testing and Materials D6751-02a Standard Specification for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels.

SEC. 758. HIGH OCCUPANCY VEHICLE EXCEPTION.

Notwithstanding section 102(a) of title 23, United States Code, a State may permit a vehicle with fewer than 2 occupants to operate in high occupancy vehicle lanes if the vehicle—

(1) is a dedicated vehicle (as defined in section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211)); or

(2) is a hybrid vehicle (as defined by the State for the purpose of this section).

Subtitle E—Automobile Efficiency

SEC. 771. AUTHORIZATION OF APPROPRIATIONS FOR IMPLEMENTATION AND ENFORCEMENT OF FUEL ECONOMY STANDARDS.

In addition to any other funds authorized by law, there are authorized to be appropriated to the National Highway Traffic Safety Administration to carry out its obligations with respect to average fuel economy standards \$2,000,000 for each of fiscal years 2004 through 2008.

SEC. 772. REVISED CONSIDERATIONS FOR DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.

Section 32902(f) of title 49, United States Code, is amended to read as follows:

“(f) CONSIDERATIONS FOR DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—When deciding maximum feasible average fuel economy under this section, the Secretary of Transportation shall consider the following matters:

“(1) Technological feasibility.

“(2) Economic practicability.

“(3) The effect of other motor vehicle standards of the Government on fuel economy.

“(4) The need of the United States to conserve energy.

“(5) The effects of fuel economy standards on passenger automobiles, nonpassenger automobiles, and occupant safety.

“(6) The effects of compliance with average fuel economy standards on levels of automobile industry employment in the United States.”.

SEC. 773. EXTENSION OF MAXIMUM FUEL ECONOMY INCREASE FOR ALTERNATIVE FUELED VEHICLES.

(a) MANUFACTURING INCENTIVES.—Section 32905 of title 49, United States Code, is amended—

(1) in each of subsections (b) and (d), by striking “1993-2004” and inserting “1993-2008”;

(2) in subsection (f), by striking “2001” and inserting “2005”; and

(3) in subsection (f)(1), by striking “2004” and inserting “2008”.

(b) MAXIMUM FUEL ECONOMY INCREASE.—Subsection (a)(1) of section 32906 of title 49, United States Code, is amended—

(1) in subparagraph (A), by striking “the model years 1993-2004” and inserting “model years 1993-2008”; and

(2) in subparagraph (B), by striking “the model years 2005-2008” and inserting “model years 2009-2012”.

SEC. 774. STUDY OF FEASIBILITY AND EFFECTS OF REDUCING USE OF FUEL FOR AUTOMOBILES.

(a) **IN GENERAL.**—Not later than 30 days after the date of the enactment of this Act, the Administrator of the National Highway Traffic Safety Administration shall initiate a study of the feasibility and effects of reducing by model year 2012, by a significant percentage, the amount of fuel consumed by automobiles.

(b) **SUBJECTS OF STUDY.**—The study under this section shall include—

(1) examination of, and recommendation of alternatives to, the policy under current Federal law of establishing average fuel economy standards for automobiles and requiring each automobile manufacturer to comply with average fuel economy standards that apply to the automobiles it manufactures;

(2) examination of how automobile manufacturers could contribute toward achieving the reduction referred to in subsection (a);

(3) examination of the potential of fuel cell technology in motor vehicles in order to determine the extent to which such technology may contribute to achieving the reduction referred to in subsection (a); and

(4) examination of the effects of the reduction referred to in subsection (a) on—

- (A) gasoline supplies;
- (B) the automobile industry, including sales of automobiles manufactured in the United States;
- (C) motor vehicle safety; and
- (D) air quality.

(c) **REPORT.**—The Administrator shall submit to Congress a report on the findings, conclusion, and recommendations of the study under this section by not later than 1 year after the date of the enactment of this Act.

TITLE VIII—HYDROGEN

SEC. 801. DEFINITIONS.

In this title:

(1) **ADVISORY COMMITTEE.**—The term “Advisory Committee” means the Hydrogen Technical and Fuel Cell Advisory Committee established under section 805.

(2) **DEPARTMENT.**—The term “Department” means the Department of Energy.

(3) **FUEL CELL.**—The term “fuel cell” means a device that directly converts the chemical energy of a fuel and an oxidant into electricity by an electrochemical process taking place at separate electrodes in the device.

(4) **INFRASTRUCTURE.**—The term “infrastructure” means the equipment, systems, or facilities used to produce, distribute, deliver, or store hydrogen.

(5) **LIGHT DUTY VEHICLE.**—The term “light duty vehicle” means a car or truck classified by the Department of Transportation as a Class I or IIA vehicle.

(6) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

SEC. 802. PLAN.

Not later than 6 months after the date of enactment of this Act, the Secretary shall transmit to Congress a coordinated plan for the programs described in this title and any other programs of the Department that are directly related to fuel cells or hydrogen. The plan shall describe, at a minimum—

(1) the agenda for the next 5 years for the programs authorized under this title, including the agenda for each activity enumerated in section 803(a);

(2) the types of entities that will carry out the activities under this title and what role each entity is expected to play;

(3) the milestones that will be used to evaluate the programs for the next 5 years;

(4) the most significant technical and non-technical hurdles that stand in the way of achieving the goals described in section

803(b), and how the programs will address those hurdles; and

(5) the policy assumptions that are implicit in the plan, including any assumptions that would affect the sources of hydrogen or the marketability of hydrogen-related products.

SEC. 803. PROGRAMS.

(a) **ACTIVITIES.**—The Secretary, in partnership with the private sector, shall conduct programs to address—

(1) production of hydrogen from diverse energy sources, including—

- (A) fossil fuels, which may include carbon capture and sequestration;
- (B) hydrogen-carrier fuels (including ethanol and methanol);
- (C) renewable energy resources, including biomass; and
- (D) nuclear energy;

(2) use of hydrogen for commercial, industrial, and residential electric power generation;

(3) safe delivery of hydrogen or hydrogen-carrier fuels, including—

- (A) transmission by pipeline and other distribution methods; and
- (B) convenient and economic refueling of vehicles either at central refueling stations or through distributed on-site generation;
- (4) advanced vehicle technologies, including—

- (A) engine and emission control systems;
- (B) energy storage, electric propulsion, and hybrid systems;
- (C) automotive materials; and
- (D) other advanced vehicle technologies;
- (5) storage of hydrogen or hydrogen-carrier fuels, including development of materials for safe and economic storage in gaseous, liquid, or solid form at refueling facilities and on-board vehicles;
- (6) development of safe, durable, affordable, and efficient fuel cells, including fuel-flexible fuel cell power systems, improved manufacturing processes, high-temperature membranes, cost-effective fuel processing for natural gas, fuel cell stack and system reliability, low temperature operation, and cold start capability;

(7) development, after consultation with the private sector, of necessary codes and standards (including international codes and standards and voluntary consensus standards adopted in accordance with OMB Circular A-119) and safety practices for the production, distribution, storage, and use of hydrogen, hydrogen-carrier fuels, and related products; and

(8) a public education program to develop improved knowledge and acceptability of hydrogen-based systems.

(b) **PROGRAM GOALS.**—

(1) **VEHICLES.**—For vehicles, the goals of the program are—

(A) to enable a commitment by automakers no later than year 2015 to offer safe, affordable, and technically viable hydrogen fuel cell vehicles in the mass consumer market; and

(B) to enable production, delivery, and acceptance by consumers of model year 2020 hydrogen fuel cell and other hydrogen-powered vehicles that will have—

- (i) a range of at least 300 miles;
- (ii) improved performance and ease of driving;
- (iii) safety and performance comparable to vehicle technologies in the market; and
- (iv) when compared to light duty vehicles in model year 2003—

(I) fuel economy that is substantially higher;

(II) substantially lower emissions of air pollutants; and

(III) equivalent or improved vehicle fuel system crash integrity and occupant protection.

(2) **HYDROGEN ENERGY AND ENERGY INFRASTRUCTURE.**—For hydrogen energy and energy infrastructure, the goals of the program are to enable a commitment not later than 2015 that will lead to infrastructure by 2020 that will provide—

- (A) safe and convenient refueling;
- (B) improved overall efficiency;
- (C) widespread availability of hydrogen from domestic energy sources through—

(i) production, with consideration of emissions levels;

(ii) delivery, including transmission by pipeline and other distribution methods for hydrogen; and

(iii) storage, including storage in surface transportation vehicles;

(D) hydrogen for fuel cells, internal combustion engines, and other energy conversion devices for portable, stationary, and transportation applications; and

(E) other technologies consistent with the Department’s plan.

(3) **FUEL CELLS.**—The goals for fuel cells and their portable, stationary, and transportation applications are to enable—

- (A) safe, economical, and environmentally sound hydrogen fuel cells;
- (B) fuel cells for light duty and other vehicles; and
- (C) other technologies consistent with the Department’s plan.

(c) **DEMONSTRATION.**—In carrying out the programs under this section, the Secretary shall fund a limited number of demonstration projects, consistent with a determination of the maturity, cost-effectiveness, and environmental impacts of technologies supporting each project. In selecting projects under this subsection, the Secretary shall, to the extent practicable and in the public interest, select projects that—

(1) involve using hydrogen and related products at existing facilities or installations, such as existing office buildings, military bases, vehicle fleet centers, transit bus authorities, or units of the National Park System;

(2) depend on reliable power from hydrogen to carry out essential activities;

(3) lead to the replication of hydrogen technologies and draw such technologies into the marketplace;

(4) include vehicle, portable, and stationary demonstrations of fuel cell and hydrogen-based energy technologies;

(5) address the interdependency of demand for hydrogen fuel cell applications and hydrogen fuel infrastructure;

(6) raise awareness of hydrogen technology among the public;

(7) facilitate identification of an optimum technology among competing alternatives;

(8) address distributed generation using renewable sources; and

(9) address applications specific to rural or remote locations, including isolated villages and islands, the National Park System, and tribal entities.

The Secretary shall give preference to projects which address multiple elements contained in paragraphs (1) through (9).

(d) **DEPLOYMENT.**—In carrying out the programs under this section, the Secretary shall, in partnership with the private sector, conduct activities to facilitate the deployment of hydrogen energy and energy infrastructure, fuel cells, and advanced vehicle technologies.

(e) **FUNDING.**—

(1) **IN GENERAL.**—The Secretary shall carry out the programs under this section using a competitive, merit-based review process and consistent with the generally applicable Federal laws and regulations governing awards of financial assistance, contracts, or other agreements.

(2) **RESEARCH CENTERS.**—Activities under this section may be carried out by funding nationally recognized university-based or Federal laboratory research centers.

(f) **COST SHARING.**—

(1) **RESEARCH AND DEVELOPMENT.**—Except as otherwise provided in this title, for research and development programs carried out under this title the Secretary shall require a commitment from non-Federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement under this paragraph if the Secretary determines that the research and development is of a basic or fundamental nature or involves technical analyses or educational activities.

(2) **DEMONSTRATION AND COMMERCIAL APPLICATION.**—Except as otherwise provided in this title, the Secretary shall require at least 50 percent of the costs directly and specifically related to any demonstration or commercial application project under this title to be provided from non-Federal sources. The Secretary may reduce the non-Federal requirement under this paragraph if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project and is necessary to meet the objectives of this title.

(3) **CALCULATION OF AMOUNT.**—In calculating the amount of the non-Federal commitment under paragraph (1) or (2), the Secretary may include personnel, services, equipment, and other resources.

(4) **SIZE OF NON-FEDERAL SHARE.**—The Secretary may consider the size of the non-Federal share in selecting projects.

(g) **DISCLOSURE.**—Section 623 of the Energy Policy Act of 1992 (42 U.S.C. 13293) relating to the protection of information shall apply to projects carried out through grants, cooperative agreements, or contracts under this title.

SEC. 804. INTERAGENCY TASK FORCE.

(a) **ESTABLISHMENT.**—Not later than 120 days after the date of enactment of this Act, the President shall establish an interagency task force chaired by the Secretary with representatives from each of the following:

(1) The Office of Science and Technology Policy within the Executive Office of the President.

(2) The Department of Transportation.

(3) The Department of Defense.

(4) The Department of Commerce (including the National Institute of Standards and Technology).

(5) The Department of State.

(6) The Environmental Protection Agency.

(7) The National Aeronautics and Space Administration.

(8) Other Federal agencies as the Secretary determines appropriate.

(b) **DUTIES.**—

(1) **PLANNING.**—The interagency task force shall work toward—

(A) a safe, economical, and environmentally sound fuel infrastructure for hydrogen and hydrogen-carrier fuels, including an infrastructure that supports buses and other fleet transportation;

(B) fuel cells in government and other applications, including portable, stationary, and transportation applications;

(C) distributed power generation, including the generation of combined heat, power, and clean fuels including hydrogen;

(D) uniform hydrogen codes, standards, and safety protocols; and

(E) vehicle hydrogen fuel system integrity safety performance.

(2) **ACTIVITIES.**—The interagency task force may organize workshops and conferences, may issue publications, and may create databases to carry out its duties. The interagency task force shall—

(A) foster the exchange of generic, non-proprietary information and technology among industry, academia, and government;

(B) develop and maintain an inventory and assessment of hydrogen, fuel cells, and other advanced technologies, including the commercial capability of each technology for the economic and environmentally safe production, distribution, delivery, storage, and use of hydrogen;

(C) integrate technical and other information made available as a result of the programs and activities under this title;

(D) promote the marketplace introduction of infrastructure for hydrogen fuel vehicles; and

(E) conduct an education program to provide hydrogen and fuel cell information to potential end-users.

(c) **AGENCY COOPERATION.**—The heads of all agencies, including those whose agencies are not represented on the interagency task force, shall cooperate with and furnish information to the interagency task force, the Advisory Committee, and the Department.

SEC. 805. ADVISORY COMMITTEE.

(a) **ESTABLISHMENT.**—The Hydrogen Technical and Fuel Cell Advisory Committee is established to advise the Secretary on the programs and activities under this title.

(b) **MEMBERSHIP.**—

(1) **MEMBERS.**—The Advisory Committee shall be comprised of not fewer than 12 nor more than 25 members. The members shall be appointed by the Secretary to represent domestic industry, academia, professional societies, government agencies, Federal laboratories, previous advisory panels, and financial, environmental, and other appropriate organizations based on the Department's assessment of the technical and other qualifications of committee members and the needs of the Advisory Committee.

(2) **TERMS.**—The term of a member of the Advisory Committee shall not be more than 3 years. The Secretary may appoint members of the Advisory Committee in a manner that allows the terms of the members serving at any time to expire at spaced intervals so as to ensure continuity in the functioning of the Advisory Committee. A member of the Advisory Committee whose term is expiring may be reappointed.

(3) **CHAIRPERSON.**—The Advisory Committee shall have a chairperson, who is elected by the members from among their number.

(c) **REVIEW.**—The Advisory Committee shall review and make recommendations to the Secretary on—

(1) the implementation of programs and activities under this title;

(2) the safety, economical, and environmental consequences of technologies for the production, distribution, delivery, storage, or use of hydrogen energy and fuel cells; and

(3) the plan under section 802.

(d) **RESPONSE.**—

(1) **CONSIDERATION OF RECOMMENDATIONS.**—The Secretary shall consider, but need not adopt, any recommendations of the Advisory Committee under subsection (c).

(2) **BIENNIAL REPORT.**—The Secretary shall transmit a biennial report to Congress describing any recommendations made by the Advisory Committee since the previous report. The report shall include a description of how the Secretary has implemented or plans to implement the recommendations, or an explanation of the reasons that a recommendation will not be implemented. The report shall be transmitted along with the President's budget proposal.

(e) **SUPPORT.**—The Secretary shall provide resources necessary in the judgment of the Secretary for the Advisory Committee to carry out its responsibilities under this title.

SEC. 806. EXTERNAL REVIEW.

(a) **PLAN.**—The Secretary shall enter into an arrangement with the National Academy of Sciences to review the plan prepared under section 802, which shall be completed not later than 6 months after the Academy receives the plan. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review's recommendations or an explanation of the reasons that a recommendation will not be implemented.

(b) **ADDITIONAL REVIEW.**—The Secretary shall enter into an arrangement with the National Academy of Sciences under which the Academy will review the programs under section 803 during the fourth year following the date of enactment of this Act. The Academy's review shall include the research priorities and technical milestones, and evaluate the progress toward achieving them. The review shall be completed not later than 5 years after the date of enactment of this Act. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review's recommendations or an explanation of the reasons that a recommendation will not be implemented.

SEC. 807. MISCELLANEOUS PROVISIONS.

(a) **REPRESENTATION.**—The Secretary may represent the United States interests with respect to activities and programs under this title, in coordination with the Department of Transportation, the National Institute of Standards and Technology, and other relevant Federal agencies, before governments and nongovernmental organizations including—

(1) other Federal, State, regional, and local governments and their representatives;

(2) industry and its representatives, including members of the energy and transportation industries; and

(3) in consultation with the Department of State, foreign governments and their representatives including international organizations.

(b) **REGULATORY AUTHORITY.**—Nothing in this title shall be construed to alter the regulatory authority of the Department.

SEC. 808. SAVINGS CLAUSE.

Nothing in this title shall be construed to affect the authority of the Secretary of Transportation that may exist prior to the date of enactment of this Act with respect to—

(1) research into, and regulation of, hydrogen-powered vehicles fuel systems integrity, standards, and safety under subtitle VI of title 49, United States Code;

(2) regulation of hazardous materials transportation under chapter 51 of title 49, United States Code;

(3) regulation of pipeline safety under chapter 601 of title 49, United States Code;

(4) encouragement and promotion of research, development, and deployment activities relating to advanced vehicle technologies under section 5506 of title 49, United States Code;

(5) regulation of motor vehicle safety under chapter 301 of title 49, United States Code;

(6) automobile fuel economy under chapter 329 of title 49, United States Code; or

(7) representation of the interests of the United States with respect to the activities and programs under the authority of title 49, United States Code.

SEC. 809. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this title, in addition to any amounts made available for these purposes under other Acts—

(1) \$273,500,000 for fiscal year 2004;

- (2) \$375,000,000 for fiscal year 2005;
- (3) \$450,000,000 for fiscal year 2006;
- (4) \$500,000,000 for fiscal year 2007; and
- (5) \$550,000,000 for fiscal year 2008.

TITLE IX—RESEARCH AND DEVELOPMENT

SEC. 901. GOALS.

(a) IN GENERAL.—The Secretary shall conduct a balanced set of programs of energy research, development, demonstration, and commercial application to support Federal energy policy and programs by the Department. Such programs shall be focused on—

- (1) increasing the efficiency of all energy intensive sectors through conservation and improved technologies;
- (2) promoting diversity of energy supply;
- (3) decreasing the Nation's dependence on foreign energy supplies;
- (4) improving United States energy security; and
- (5) decreasing the environmental impact of energy-related activities.

(b) GOALS.—The Secretary shall publish measurable 5-year cost and performance-based goals with each annual budget submission in at least the following areas:

- (1) Energy efficiency for buildings, energy-consuming industries, and vehicles.
- (2) Electric energy generation (including distributed generation), transmission, and storage.
- (3) Renewable energy technologies including wind power, photovoltaics, solar thermal systems, geothermal energy, hydrogen-fueled systems, biomass-based systems, biofuels, and hydropower.

(4) Fossil energy including power generation, onshore and offshore oil and gas resource recovery, and transportation.

(5) Nuclear energy including programs for existing and advanced reactors and education of future specialists.

(c) PUBLIC COMMENT.—The Secretary shall provide mechanisms for input on the annually published goals from industry, university, and other public sources.

(d) EFFECT OF GOALS.—

(1) NO NEW AUTHORITY OR REQUIREMENT.—Nothing in subsection (a) or the annually published goals shall—

(A) create any new—

- (i) authority for any Federal agency; or
- (ii) requirement for any other person;

(B) be used by a Federal agency to support the establishment of regulatory standards or regulatory requirements; or

(C) alter the authority of the Secretary to make grants or other awards.

(2) NO LIMITATION.—Nothing in this subsection shall be construed to limit the authority of the Secretary to impose conditions on grants or other awards based on the goals in subsection (a) or any subsequent modification thereto.

SEC. 902. DEFINITIONS.

For purposes of this title:

(1) DEPARTMENT.—The term “Department” means the Department of Energy.

(2) DEPARTMENTAL MISSION.—The term “departmental mission” means any of the functions vested in the Secretary of Energy by the Department of Energy Organization Act (42 U.S.C. 7101 et seq.) or other law.

(3) INSTITUTION OF HIGHER EDUCATION.—The term “institution of higher education” has the meaning given that term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(4) NATIONAL LABORATORY.—The term “National Laboratory” means any of the following laboratories owned by the Department:

- (A) Ames Laboratory.
- (B) Argonne National Laboratory.
- (C) Brookhaven National Laboratory.
- (D) Fermi National Accelerator Laboratory.

(E) Idaho National Engineering and Environmental Laboratory.

(F) Lawrence Berkeley National Laboratory.

(G) Lawrence Livermore National Laboratory.

(H) Los Alamos National Laboratory.

(I) National Energy Technology Laboratory.

(J) National Renewable Energy Laboratory.

(K) Oak Ridge National Laboratory.

(L) Pacific Northwest National Laboratory.

(M) Princeton Plasma Physics Laboratory.

(N) Sandia National Laboratories.

(O) Stanford Linear Accelerator Center.

(P) Thomas Jefferson National Accelerator Facility.

(5) NONMILITARY ENERGY LABORATORY.—The term “nonmilitary energy laboratory” means the laboratories listed in paragraph (4), except for those listed in subparagraphs (G), (H), and (N).

(6) SECRETARY.—The term “Secretary” means the Secretary of Energy.

(7) SINGLE-PURPOSE RESEARCH FACILITY.—The term “single-purpose research facility” means any of the primarily single-purpose entities owned by the Department or any other organization of the Department designated by the Secretary.

Subtitle A—Energy Efficiency

SEC. 904. ENERGY EFFICIENCY.

(a) IN GENERAL.—The following sums are authorized to be appropriated to the Secretary for energy efficiency and conservation research, development, demonstration, and commercial application activities, including activities authorized under this subtitle:

- (1) For fiscal year 2004, \$616,000,000.
- (2) For fiscal year 2005, \$695,000,000.
- (3) For fiscal year 2006, \$772,000,000.
- (4) For fiscal year 2007, \$865,000,000.
- (5) For fiscal year 2008, \$920,000,000.

(b) ALLOCATIONS.—From amounts authorized under subsection (a), the following sums are authorized:

- (1) For activities under section 905—
 - (A) for fiscal year 2004, \$20,000,000;
 - (B) for fiscal year 2005, \$30,000,000;
 - (C) for fiscal year 2006, \$50,000,000;
 - (D) for fiscal year 2007, \$50,000,000; and
 - (E) for fiscal year 2008, \$50,000,000.

- (2) For activities under section 907—
 - (A) for fiscal year 2004, \$4,000,000; and
 - (B) for each of fiscal years 2005 through 2008, \$7,000,000.

(3) For activities under section 908—

- (A) for fiscal year 2004, \$20,000,000;
- (B) for fiscal year 2005, \$25,000,000;
- (C) for fiscal year 2006, \$30,000,000;
- (D) for fiscal year 2007, \$35,000,000; and
- (E) for fiscal year 2008, \$40,000,000.

(4) For activities under section 909, \$2,000,000 for each of fiscal years 2005 through 2008.

(c) EXTENDED AUTHORIZATION.—There are authorized to be appropriated to the Secretary for activities under section 905, \$50,000,000 for each of fiscal years 2009 through 2013.

(d) LIMITATION ON USE OF FUNDS.—None of the funds authorized to be appropriated under this section may be used for—

(1) the issuance and implementation of energy efficiency regulations;

(2) the Weatherization Assistance Program under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.);

(3) the State Energy Program under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or

(4) the Federal Energy Management Program under part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.).

SEC. 905. NEXT GENERATION LIGHTING INITIATIVE.

(a) IN GENERAL.—The Secretary shall carry out a Next Generation Lighting Initiative in accordance with this section to support research, development, demonstration, and commercial application activities related to advanced solid-state lighting technologies based on white light emitting diodes.

(b) OBJECTIVES.—The objectives of the initiative shall be to develop advanced solid-state organic and inorganic lighting technologies based on white light emitting diodes that, compared to incandescent and fluorescent lighting technologies, are longer lasting; more energy-efficient; and cost-competitive, and have less environmental impact.

(c) INDUSTRY ALLIANCE.—The Secretary shall, not later than 3 months after the date of enactment of this section, competitively select an Industry Alliance to represent participants that are private, for-profit firms which, as a group, are broadly representative of United States solid state lighting research, development, infrastructure, and manufacturing expertise as a whole.

(d) RESEARCH.—

(1) IN GENERAL.—The Secretary shall carry out the research activities of the Next Generation Lighting Initiative through competitively awarded grants to researchers, including Industry Alliance participants, National Laboratories, and institutions of higher education.

(2) ASSISTANCE FROM THE INDUSTRY ALLIANCE.—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;

(B) assessment of the progress of the Initiative's research activities; and

(C) assistance in annually updating solid-state lighting technology roadmaps.

(3) AVAILABILITY OF INFORMATION AND ROADMAPS.—The information and roadmaps under paragraph (2) shall be available to the public and public response shall be solicited by the Secretary.

(e) DEVELOPMENT, DEMONSTRATION, AND COMMERCIAL APPLICATION.—The Secretary shall carry out a development, demonstration, and commercial application program for the Next Generation Lighting Initiative through competitively selected awards. The Secretary may give preference to participants of the Industry Alliance selected pursuant to subsection (c).

(f) INTELLECTUAL PROPERTY.—The Secretary may require, in accordance with the authorities provided in section 202(a)(ii) of title 35, United States Code, section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182), and section 9 of the Federal Non-nuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908), that—

(1) for any new invention resulting from activities under subsection (d)—

(A) the Industry Alliance members that are active participants in research, development, and demonstration activities related to the advanced solid-state lighting technologies that are the subject of this section shall be granted first option to negotiate with the invention owner nonexclusive licenses and royalties for uses of the invention related to solid-state lighting on terms that are reasonable under the circumstances; and

(B)(i) for 1 year after a United States patent is issued for the invention, the patent holder shall not negotiate any license or royalty with any entity that is not a participant in the Industry Alliance described in subparagraph (A); and

(ii) during the year described in clause (i), the invention owner shall negotiate non-exclusive licenses and royalties in good faith with any interested participant in the Industry Alliance described in subparagraph (A); and

(2) such other terms as the Secretary determines are required to promote accelerated commercialization of inventions made under the Initiative.

(g) NATIONAL ACADEMY REVIEW.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct periodic reviews of the Next Generation Lighting Initiative. The Academy shall review the research priorities, technical milestones, and plans for technology transfer and progress towards achieving them. The Secretary shall consider the results of such reviews in evaluating the information obtained under subsection (d)(2).

(h) DEFINITIONS.—As used in this section:

(1) ADVANCED SOLID-STATE LIGHTING.—The term “advanced solid-state lighting” means a semiconducting device package and delivery system that produces white light using externally applied voltage.

(2) RESEARCH.—The term “research” includes research on the technologies, materials, and manufacturing processes required for white light emitting diodes.

(3) INDUSTRY ALLIANCE.—The term “Industry Alliance” means an entity selected by the Secretary under subsection (c).

(4) WHITE LIGHT EMITTING DIODE.—The term “white light emitting diode” means a semiconducting package, utilizing either organic or inorganic materials, that produces white light using externally applied voltage.

SEC. 906. NATIONAL BUILDING PERFORMANCE INITIATIVE.

(a) INTERAGENCY GROUP.—Not later than 90 days after the date of enactment of this Act, the Director of the Office of Science and Technology Policy shall establish an interagency group to develop, in coordination with the advisory committee established under subsection (e), a National Building Performance Initiative (in this section referred to as the “Initiative”). The interagency group shall be co-chaired by appropriate officials of the Department and the Department of Commerce, who shall jointly arrange for the provision of necessary administrative support to the group.

(b) INTEGRATION OF EFFORTS.—The Initiative, working with the National Institute of Building Sciences, shall integrate Federal, State, and voluntary private sector efforts to reduce the costs of construction, operation, maintenance, and renovation of commercial, industrial, institutional, and residential buildings.

(c) PLAN.—Not later than 1 year after the date of enactment of this Act, the interagency group shall submit to Congress a plan for carrying out the appropriate Federal role in the Initiative. The plan shall include—

(1) research, development, demonstration, and commercial application of systems and materials for new construction and retrofit relating to the building envelope and building system components; and

(2) the collection, analysis, and dissemination of research results and other pertinent information on enhancing building performance to industry, government entities, and the public.

(d) DEPARTMENT OF ENERGY ROLE.—Within the Federal portion of the Initiative, the Department shall be the lead agency for all aspects of building performance related to use and conservation of energy.

(e) ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—The Secretary, in consultation with the Secretary of Commerce and the Director of the Office of Science and Technology Policy, shall establish an advisory committee to—

(A) analyze and provide recommendations on potential private sector roles and participation in the Initiative; and

(B) review and provide recommendations on the plan described in subsection (c).

(2) MEMBERSHIP.—Membership of the advisory committee shall include representatives with a broad range of appropriate expertise, including expertise in—

(A) building research and technology;

(B) architecture, engineering, and building materials and systems; and

(C) the residential, commercial, and industrial sectors of the construction industry.

(f) CONSTRUCTION.—Nothing in this section provides any Federal agency with new authority to regulate building performance.

SEC. 907. SECONDARY ELECTRIC VEHICLE BATTERY USE PROGRAM.

(a) DEFINITIONS.—For purposes of this section:

(1) ASSOCIATED EQUIPMENT.—The term “associated equipment” means equipment located where the batteries will be used that is necessary to enable the use of the energy stored in the batteries.

(2) BATTERY.—The term “battery” means an energy storage device that previously has been used to provide motive power in a vehicle powered in whole or in part by electricity.

(b) PROGRAM.—The Secretary shall establish and conduct a research, development, demonstration, and commercial application program for the secondary use of batteries if the Secretary finds that there are sufficient numbers of such batteries to support the program. The program shall be—

(1) designed to demonstrate the use of batteries in secondary applications, including utility and commercial power storage and power quality;

(2) structured to evaluate the performance, including useful service life and costs, of such batteries in field operations, and the necessary supporting infrastructure, including reuse and disposal of batteries; and

(3) coordinated with ongoing secondary battery use programs at the National Laboratories and in industry.

(c) SOLICITATION.—Not later than 180 days after the date of enactment of this Act, if the Secretary finds under subsection (b) that there are sufficient numbers of batteries to support the program, the Secretary shall solicit proposals to demonstrate the secondary use of batteries and associated equipment and supporting infrastructure in geographic locations throughout the United States. The Secretary may make additional solicitations for proposals if the Secretary determines that such solicitations are necessary to carry out this section.

(d) SELECTION OF PROPOSALS.—

(1) IN GENERAL.—The Secretary shall, not later than 90 days after the closing date established by the Secretary for receipt of proposals under subsection (c), select up to 5 proposals which may receive financial assistance under this section, subject to the availability of appropriations.

(2) DIVERSITY; ENVIRONMENTAL EFFECT.—In selecting proposals, the Secretary shall consider diversity of battery type, geographic and climatic diversity, and life-cycle environmental effects of the approaches.

(3) LIMITATION.—No 1 project selected under this section shall receive more than 25 percent of the funds authorized for the program under this section.

(4) OPTIMIZATION OF FEDERAL RESOURCES.—The Secretary shall consider the extent of involvement of State or local government and other persons in each demonstration project to optimize use of Federal resources.

(5) OTHER CRITERIA.—The Secretary may consider such other criteria as the Secretary considers appropriate.

(e) CONDITIONS.—The Secretary shall require that—

(1) relevant information be provided to the Department, the users of the batteries, the proposers, and the battery manufacturers;

(2) the proposer provide at least 50 percent of the costs associated with the proposal; and

(3) the proposer provide to the Secretary such information regarding the disposal of the batteries as the Secretary may require to ensure that the proposer disposes of the batteries in accordance with applicable law.

SEC. 908. ENERGY EFFICIENCY SCIENCE INITIATIVE.

(a) ESTABLISHMENT.—The Secretary shall establish an Energy Efficiency Science Initiative to be managed by the Assistant Secretary in the Department with responsibility for energy conservation under section 203(a)(9) of the Department of Energy Organization Act (42 U.S.C. 7133(a)(9)), in consultation with the Director of the Office of Science, for grants to be competitively awarded and subject to peer review for research relating to energy efficiency.

(b) REPORT.—The Secretary shall submit to Congress, along with the President's annual budget request under section 1105(a) of title 31, United States Code, a report on the activities of the Energy Efficiency Science Initiative, including a description of the process used to award the funds and an explanation of how the research relates to energy efficiency.

SEC. 909. ELECTRIC MOTOR CONTROL TECHNOLOGY.

The Secretary shall conduct a research, development, demonstration, and commercial application program on advanced control devices to improve the energy efficiency of electric motors used in heating, ventilation, air conditioning, and comparable systems.

SEC. 910. ADVANCED ENERGY TECHNOLOGY TRANSFER CENTERS.

(a) GRANTS.—Not later than 18 months after the date of enactment of this Act, the Secretary shall make grants to nonprofit institutions, State and local governments, or universities (or consortia thereof), to establish a geographically dispersed network of Advanced Energy Technology Transfer Centers, to be located in areas the Secretary determines have the greatest need of the services of such Centers.

(b) ACTIVITIES.—

(1) IN GENERAL.—Each Center shall operate a program to encourage demonstration and commercial application of advanced energy methods and technologies through education and outreach to building and industrial professionals, and to other individuals and organizations with an interest in efficient energy use.

(2) ADVISORY PANEL.—Each Center shall establish an advisory panel to advise the Center on how best to accomplish the activities under paragraph (1).

(c) APPLICATION.—A person seeking a grant under this section shall submit to the Secretary an application in such form and containing such information as the Secretary may require. The Secretary may award a grant under this section to an entity already in existence if the entity is otherwise eligible under this section.

(d) SELECTION CRITERIA.—The Secretary shall award grants under this section on the basis of the following criteria, at a minimum:

(1) The ability of the applicant to carry out the activities in subsection (b).

(2) The extent to which the applicant will coordinate the activities of the Center with other entities, such as State and local governments, utilities, and educational and research institutions.

(e) MATCHING FUNDS.—The Secretary shall require a non-Federal matching requirement of at least 50 percent of the costs of establishing and operating each Center.

(f) ADVISORY COMMITTEE.—The Secretary shall establish an advisory committee to advise the Secretary on the establishment of

Centers under this section. The advisory committee shall be composed of individuals with expertise in the area of advanced energy methods and technologies, including at least 1 representative from—

- (1) State or local energy offices;
- (2) energy professionals;
- (3) trade or professional associations;
- (4) architects, engineers, or construction professionals;
- (5) manufacturers;
- (6) the research community; and
- (7) nonprofit energy or environmental organizations.

(g) DEFINITIONS.—For purposes of this section:

(1) **ADVANCED ENERGY METHODS AND TECHNOLOGIES.**—The term “advanced energy methods and technologies” means all methods and technologies that promote energy efficiency and conservation, including distributed generation technologies, and life-cycle analysis of energy use.

(2) **CENTER.**—The term “Center” means an Advanced Energy Technology Transfer Center established pursuant to this section.

(3) **DISTRIBUTED GENERATION.**—The term “distributed generation” means an electric power generation facility that is designed to serve retail electric consumers at or near the facility site.

Subtitle B—Distributed Energy and Electric Energy Systems

SEC. 911. DISTRIBUTED ENERGY AND ELECTRIC ENERGY SYSTEMS.

(a) **IN GENERAL.**—The following sums are authorized to be appropriated to the Secretary for distributed energy and electric energy systems activities, including activities authorized under this subtitle:

- (1) For fiscal year 2004, \$190,000,000.
- (2) For fiscal year 2005, \$200,000,000.
- (3) For fiscal year 2006, \$220,000,000.
- (4) For fiscal year 2007, \$240,000,000.
- (5) For fiscal year 2008, \$260,000,000.

(b) **MICRO-COGENERATION ENERGY TECHNOLOGY.**—From amounts authorized under subsection (a), \$20,000,000 for each of fiscal years 2004 and 2005 is authorized for activities under section 914.

SEC. 912. HYBRID DISTRIBUTED POWER SYSTEMS.

(a) **REQUIREMENT.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall develop and transmit to Congress a strategy for a comprehensive research, development, demonstration, and commercial application program to develop hybrid distributed power systems that combine—

(1) 1 or more renewable electric power generation technologies of 10 megawatts or less located near the site of electric energy use; and

(2) nonintermittent electric power generation technologies suitable for use in a distributed power system.

(b) **CONTENTS.**—The strategy shall—

(1) identify the needs best met with such hybrid distributed power systems and the technological barriers to the use of such systems;

(2) provide for the development of methods to design, test, integrate into systems, and operate such hybrid distributed power systems;

(3) include, as appropriate, research, development, demonstration, and commercial application on related technologies needed for the adoption of such hybrid distributed power systems, including energy storage devices and environmental control technologies;

(4) include research, development, demonstration, and commercial application of interconnection technologies for communications and controls of distributed genera-

tion architectures, particularly technologies promoting real-time response to power market information and physical conditions on the electrical grid; and

(5) describe how activities under the strategy will be integrated with other research, development, demonstration, and commercial application activities supported by the Department related to electric power technologies.

SEC. 913. HIGH POWER DENSITY INDUSTRY PROGRAM.

The Secretary shall establish a comprehensive research, development, demonstration, and commercial application program to improve energy efficiency of high power density facilities, including data centers, server farms, and telecommunications facilities. Such program shall consider technologies that provide significant improvement in thermal controls, metering, load management, peak load reduction, or the efficient cooling of electronics.

SEC. 914. MICRO-COGENERATION ENERGY TECHNOLOGY.

The Secretary shall make competitive, merit-based grants to consortia for the development of micro-cogeneration energy technology. The consortia shall explore—

(1) the use of small-scale combined heat and power in residential heating appliances; and

(2) the use of excess power to operate other appliances within the residence and supply excess generated power to the power grid.

SEC. 915. DISTRIBUTED ENERGY TECHNOLOGY DEMONSTRATION PROGRAM.

The Secretary, within the sums authorized under section 911(a), may provide financial assistance to coordinating consortia of interdisciplinary participants for demonstrations designed to accelerate the utilization of distributed energy technologies, such as fuel cells, microturbines, reciprocating engines, thermally activated technologies, and combined heat and power systems, in highly energy intensive commercial applications.

SEC. 916. RECIPROCATING POWER.

The Secretary shall conduct a research, development, and demonstration program regarding fuel system optimization and emissions reduction after-treatment technologies for industrial reciprocating engines. Such after-treatment technologies shall use processes that reduce emissions by recirculating exhaust gases and shall be designed to be retrofitted to any new or existing diesel or natural gas engine used for power generation, peaking power generation, combined heat and power, or compression.

Subtitle C—Renewable Energy

SEC. 918. RENEWABLE ENERGY.

(a) **IN GENERAL.**—The following sums are authorized to be appropriated to the Secretary for renewable energy research, development, demonstration, and commercial application activities, including activities authorized under this subtitle:

- (1) For fiscal year 2004, \$480,000,000.
- (2) For fiscal year 2005, \$550,000,000.
- (3) For fiscal year 2006, \$610,000,000.
- (4) For fiscal year 2007, \$659,000,000.
- (5) For fiscal year 2008, \$710,000,000.

(b) **BIOENERGY.**—From the amounts authorized under subsection (a), the following sums are authorized to be appropriated to carry out section 919:

- (1) For fiscal year 2004, \$135,425,000.
- (2) For fiscal year 2005, \$155,600,000.
- (3) For fiscal year 2006, \$167,650,000.
- (4) For fiscal year 2007, \$180,000,000.
- (5) For fiscal year 2008, \$192,000,000.

(c) **CONCENTRATING SOLAR POWER.**—From amounts authorized under subsection (a), the following sums are authorized to be appropriated to carry out section 920:

(1) For fiscal year 2004, \$20,000,000.

(2) For fiscal year 2005, \$40,000,000.

(3) For each of fiscal years 2006, 2007 and 2008, \$50,000,000.

(d) **PUBLIC BUILDINGS.**—From the amounts authorized under subsection (a), \$30,000,000 for each of the fiscal years 2004 through 2008 are authorized to be appropriated to carry out section 922.

(e) **LIMITS ON USE OF FUNDS.**—

(1) **NO FUNDS FOR RENEWABLE SUPPORT AND IMPLEMENTATION.**—None of the funds authorized to be appropriated under this section may be used for Renewable Support and Implementation.

(2) **GRANTS.**—Of the funds authorized under subsection (b), not less than \$5,000,000 for each fiscal year shall be made available for grants to Historically Black Colleges and Universities, Tribal Colleges, and Hispanic-Serving Institutions.

(3) **REGIONAL FIELD VERIFICATION PROGRAM.**—Of the funds authorized under subsection (a), not less than \$4,000,000 for each fiscal year shall be made available for the Regional Field Verification Program of the Department.

(4) **OFF-STREAM PUMPED STORAGE HYDRO-POWER.**—Of the funds authorized under subsection (a), such sums as may be necessary shall be made available for demonstration projects of off-stream pumped storage hydro-power.

(f) **CONSULTATION.**—In carrying out this subtitle, the Secretary, in consultation with the Secretary of Agriculture, shall demonstrate the use of advanced wind power technology, including combined use with coal gasification; biomass; geothermal energy systems; and other renewable energy technologies to assist in delivering electricity to rural and remote locations.

SEC. 919. BIOENERGY PROGRAMS.

(a) **DEFINITIONS.**—For the purposes of this section:

(1) The term “agricultural byproducts” includes waste products, including poultry fat and poultry waste.

(2) The term “cellulosic biomass” means any portion of a crop containing lignocellulose or hemicellulose, including barley grain, rapeseed, forest thinnings, rice bran, rice hulls, rice straw, soybean matter, and sugarcane bagasse, or any crop grown specifically for the purpose of producing cellulosic feedstocks.

(b) **PROGRAM.**—The Secretary shall conduct a program of research, development, demonstration, and commercial application for bioenergy, including—

(1) biopower energy systems;

(2) biofuels;

(3) bio-based products;

(4) integrated biorefineries that may produce biopower, biofuels, and bio-based products;

(5) cross-cutting research and development in feedstocks and enzymes; and

(6) economic analysis.

(c) **BIOFUELS AND BIO-BASED PRODUCTS.**—The goals of the biofuels and bio-based products programs shall be to develop, in partnership with industry—

(1) advanced biochemical and thermochemical conversion technologies capable of making biofuels that are price-competitive with gasoline or diesel in either internal combustion engines or fuel cell-powered vehicles, and bio-based products from a variety of feedstocks, including grains, cellulosic biomass, and other agricultural byproducts; and

(2) advanced biotechnology processes capable of making biofuels and bio-based products with emphasis on development of biorefinery technologies using enzyme-based processing systems.

SEC. 920. CONCENTRATING SOLAR POWER RESEARCH AND DEVELOPMENT PROGRAM.

(a) IN GENERAL.—The Secretary shall conduct a program of research and development to evaluate the potential of concentrating solar power for hydrogen production, including cogeneration approaches for both hydrogen and electricity. Such program shall take advantage of existing facilities to the extent possible and shall include—

(1) development of optimized technologies that are common to both electricity and hydrogen production;

(2) evaluation of thermochemical cycles for hydrogen production at the temperatures attainable with concentrating solar power;

(3) evaluation of materials issues for the thermochemical cycles described in paragraph (2);

(4) system architectures and economics studies; and

(5) coordination with activities in the Advanced Reactor Hydrogen Cogeneration Project on high temperature materials, thermochemical cycles, and economic issues.

(b) ASSESSMENT.—In carrying out the program under this section, the Secretary shall—

(1) assess conflicting guidance on the economic potential of concentrating solar power for electricity production received from the National Research Council report entitled “Renewable Power Pathways: A Review of the U.S. Department of Energy’s Renewable Energy Programs” in 2000 and subsequent Department-funded reviews of that report; and

(2) provide an assessment of the potential impact of the technology before, or concurrent with, submission of the fiscal year 2006 budget.

(c) REPORT.—Not later than 5 years after the date of enactment of this Act, the Secretary shall provide a report to Congress on the economic and technical potential for electricity or hydrogen production, with or without cogeneration, with concentrating solar power, including the economic and technical feasibility of potential construction of a pilot demonstration facility suitable for commercial production of electricity or hydrogen from concentrating solar power.

SEC. 921. MISCELLANEOUS PROJECTS.

The Secretary may conduct research, development, demonstration, and commercial application programs for—

(1) ocean energy, including wave energy; and

(2) the combined use of renewable energy technologies with one another and with other energy technologies, including the combined use of wind power and coal gasification technologies.

SEC. 922. RENEWABLE ENERGY IN PUBLIC BUILDINGS.

(a) DEMONSTRATION AND TECHNOLOGY TRANSFER PROGRAM.—The Secretary shall establish a program for the demonstration of innovative technologies for solar and other renewable energy sources in buildings owned or operated by a State or local government, and for the dissemination of information resulting from such demonstration to interested parties.

(b) LIMIT ON FEDERAL FUNDING.—The Secretary shall provide under this section no more than 40 percent of the incremental costs of the solar or other renewable energy source project funded.

(c) REQUIREMENT.—As part of the application for awards under this section, the Secretary shall require all applicants—

(1) to demonstrate a continuing commitment to the use of solar and other renewable energy sources in buildings they own or operate; and

(2) to state how they expect any award to further their transition to the significant use of renewable energy.

SEC. 923. STUDY OF MARINE RENEWABLE ENERGY OPTIONS.

(a) IN GENERAL.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study on—

(1) the feasibility of various methods of renewable generation of energy from the ocean, including energy from waves, tides, currents, and thermal gradients; and

(2) the research, development, demonstration, and commercial application activities required to make marine renewable energy generation competitive with other forms of electricity generation.

(b) TRANSMITTAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall transmit the study to Congress along with the Secretary’s recommendations for implementing the results of the study.

Subtitle D—Nuclear Energy**SEC. 924. NUCLEAR ENERGY.**

(a) CORE PROGRAMS.—The following sums are authorized to be appropriated to the Secretary for nuclear energy research, development, demonstration, and commercial application activities, including activities authorized under this subtitle, other than those described in subsection (b):

(1) For fiscal year 2004, \$273,000,000.

(2) For fiscal year 2005, \$355,000,000.

(3) For fiscal year 2006, \$430,000,000.

(4) For fiscal year 2007, \$455,000,000.

(5) For fiscal year 2008, \$545,000,000.

(b) NUCLEAR INFRASTRUCTURE SUPPORT.—The following sums are authorized to be appropriated to the Secretary for activities under section 925(e):

(1) For fiscal year 2004, \$125,000,000.

(2) For fiscal year 2005, \$130,000,000.

(3) For fiscal year 2006, \$135,000,000.

(4) For fiscal year 2007, \$140,000,000.

(5) For fiscal year 2008, \$145,000,000.

(c) ALLOCATIONS.—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 926—

(A) for fiscal year 2004, \$140,000,000;

(B) for fiscal year 2005, \$145,000,000;

(C) for fiscal year 2006, \$150,000,000;

(D) for fiscal year 2007, \$155,000,000; and

(E) for fiscal year 2008, \$275,000,000.

(2) For activities under section 927—

(A) for fiscal year 2004, \$35,200,000;

(B) for fiscal year 2005, \$44,350,000;

(C) for fiscal year 2006, \$49,200,000;

(D) for fiscal year 2007, \$54,950,000; and

(E) for fiscal year 2008, \$60,000,000.

(3) For activities under section 929, for each of fiscal years 2004 through 2008, \$6,000,000.

(d) LIMITATION ON USE OF FUNDS.—None of the funds authorized under this section may be used for decommissioning the Fast Flux Test Facility.

SEC. 925. NUCLEAR ENERGY RESEARCH AND DEVELOPMENT PROGRAMS.

(a) NUCLEAR ENERGY RESEARCH INITIATIVE.—The Secretary shall carry out a Nuclear Energy Research Initiative for research and development related to nuclear energy.

(b) NUCLEAR ENERGY PLANT OPTIMIZATION PROGRAM.—The Secretary shall carry out a Nuclear Energy Plant Optimization Program to support research and development activities addressing reliability, availability, productivity, component aging, safety, and security of existing nuclear power plants.

(c) NUCLEAR POWER 2010 PROGRAM.—The Secretary shall carry out a Nuclear Power 2010 Program, consistent with recommendations in the October 2001 report entitled “A Roadmap to Deploy New Nuclear Power Plants in the United States by 2010” issued

by the Nuclear Energy Research Advisory Committee of the Department. Whatever type of reactor is chosen for the hydrogen cogeneration project under subtitle C of title VI, that type shall not be addressed in the Program under this section. The Program shall include—

(1) support for first-of-a-kind engineering design and certification expenses of advanced nuclear power plant designs, which offer improved safety and economics over current conventional plants and the promise of near-term to medium-term commercial deployment;

(2) action by the Secretary to encourage domestic power companies to install new nuclear plant capacity as soon as possible;

(3) utilization of the expertise and capabilities of industry, universities, and National Laboratories in evaluation of advanced nuclear fuel cycles and fuels testing;

(4) consideration of proliferation-resistant passively-safe, small reactors suitable for long-term electricity production without refueling and suitable for use in remote installations;

(5) participation of international collaborators in research, development, design, and deployment efforts as appropriate and consistent with United States interests in non-proliferation of nuclear weapons;

(6) encouragement for university and industry participation; and

(7) selection of projects such as to strengthen the competitive position of the domestic nuclear power industrial infrastructure.

(d) GENERATION IV NUCLEAR ENERGY SYSTEMS INITIATIVE.—The Secretary shall carry out a Generation IV Nuclear Energy Systems Initiative to develop an overall technology plan and to support research and development necessary to make an informed technical decision about the most promising candidates for eventual commercial application. The Initiative shall examine advanced proliferation-resistant and passively safe reactor designs, including designs that—

(1) are economically competitive with other electric power generation plants;

(2) have higher efficiency, lower cost, and improved safety compared to reactors in operation on the date of enactment of this Act;

(3) use fuels that are proliferation-resistant and have substantially reduced production of high-level waste per unit of output; and

(4) use improved instrumentation.

(e) NUCLEAR INFRASTRUCTURE SUPPORT.—The Secretary shall develop and implement a strategy for the facilities of the Office of Nuclear Energy, Science, and Technology and shall transmit a report containing the strategy along with the President’s budget request to Congress for fiscal year 2006.

SEC. 926. ADVANCED FUEL CYCLE INITIATIVE.

(a) IN GENERAL.—The Secretary, through the Director of the Office of Nuclear Energy, Science, and Technology, shall conduct an advanced fuel recycling technology research and development program to evaluate proliferation-resistant fuel recycling and transmutation technologies that minimize environmental or public health and safety impacts as an alternative to aqueous reprocessing technologies deployed as of the date of enactment of this Act in support of evaluation of alternative national strategies for spent nuclear fuel and the Generation IV advanced reactor concepts, subject to annual review by the Secretary’s Nuclear Energy Research Advisory Committee or other independent entity, as appropriate. Opportunities to enhance progress of the program through international cooperation should be sought.

(b) REPORTS.—The Secretary shall report on the activities of the advanced fuel recycling technology research and development

program as part of the Department's annual budget submission.

SEC. 927. UNIVERSITY NUCLEAR SCIENCE AND ENGINEERING SUPPORT.

(a) **ESTABLISHMENT.**—The Secretary shall support a program to invest in human resources and infrastructure in the nuclear sciences and engineering and related fields (including health physics and nuclear and radiochemistry), consistent with departmental missions related to civilian nuclear research and development.

(b) **DUTIES.**—In carrying out the program under this section, the Secretary shall establish fellowship and faculty assistance programs, as well as provide support for fundamental research and encourage collaborative research among industry, National Laboratories, and universities through the Nuclear Energy Research Initiative. The Secretary is encouraged to support activities addressing the entire fuel cycle through involvement of both the Office of Nuclear Energy, Science, and Technology and the Office of Civilian Radioactive Waste Management. The Secretary shall support communication and outreach related to nuclear science, engineering, and nuclear waste management, consistent with interests of the United States in nonproliferation of nuclear weapons capabilities.

(c) **STRENGTHENING UNIVERSITY RESEARCH AND TRAINING REACTORS AND ASSOCIATED INFRASTRUCTURE.**—Activities under this section may include—

(1) converting research and training reactors currently using high-enrichment fuels to low-enrichment fuels, upgrading operational instrumentation, and sharing of reactors among institutions of higher education;

(2) providing technical assistance, in collaboration with the United States nuclear industry, in relicensing and upgrading research and training reactors as part of a student training program; and

(3) providing funding, through the Innovations in Nuclear Infrastructure and Education Program, for reactor improvements as part of a focused effort that emphasizes research, training, and education.

(d) **UNIVERSITY NATIONAL LABORATORY INTERACTIONS.**—The Secretary shall develop sabbatical fellowship and visiting scientist programs to encourage sharing of personnel between National Laboratories and universities.

(e) **OPERATING AND MAINTENANCE COSTS.**—Funding for a research project provided under this section may be used to offset a portion of the operating and maintenance costs of a research and training reactor at an institution of higher education used in the research project.

SEC. 928. SECURITY OF REACTOR DESIGNS.

The Secretary, through the Director of the Office of Nuclear Energy, Science, and Technology, shall conduct a research and development program on cost-effective technologies for increasing the safety of reactor designs from natural phenomena and the security of reactor designs from deliberate attacks.

SEC. 929. ALTERNATIVES TO INDUSTRIAL RADIOACTIVE SOURCES.

(a) **STUDY.**—The Secretary shall conduct a study and provide a report to Congress not later than August 1, 2004. The study shall—

(1) survey industrial applications of large radioactive sources, including well-logging sources;

(2) review current domestic and international Department, Department of Defense, Department of State, and commercial programs to manage and dispose of radioactive sources;

(3) discuss disposal options and practices for currently deployed or future sources and,

if deficiencies are noted in existing disposal options or practices for either deployed or future sources, recommend options to remedy deficiencies; and

(4) develop a program plan for research and development to develop alternatives to large industrial sources that reduce safety, environmental, or proliferation risks to either workers using the sources or the public.

(b) **PROGRAM.**—The Secretary shall establish a research and development program to implement the program plan developed under subsection (a)(4). The program shall include miniaturized particle accelerators for well-logging or other industrial applications and portable accelerators for production of short-lived radioactive materials at an industrial site.

SEC. 930. GEOLOGICAL ISOLATION OF SPENT FUEL.

The Secretary shall conduct a study to determine the feasibility of deep borehole disposal of spent nuclear fuel and high-level radioactive waste. The study shall emphasize geological, chemical, and hydrological characterization of, and design of engineered structures for, deep borehole environments. Not later than 1 year after the date of enactment of this Act, the Secretary shall transmit the study to Congress.

Subtitle E—Fossil Energy

PART I—RESEARCH PROGRAMS

SEC. 931. FOSSIL ENERGY.

(a) **IN GENERAL.**—The following sums are authorized to be appropriated to the Secretary for fossil energy research, development, demonstration, and commercial application activities, including activities authorized under this part:

(1) For fiscal year 2004, \$530,000,000.

(2) For fiscal year 2005, \$556,000,000.

(3) For fiscal year 2006, \$583,000,000.

(4) For fiscal year 2007, \$611,000,000.

(5) For fiscal year 2008, \$626,000,000.

(b) **ALLOCATIONS.**—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 932(b)(2), \$28,000,000 for each of the fiscal years 2004 through 2008.

(2) For activities under section 934—

(A) for fiscal year 2004, \$12,000,000;

(B) for fiscal year 2005, \$15,000,000; and

(C) for each of fiscal years 2006 through 2008, \$20,000,000.

(3) For activities under section 935—

(A) for fiscal year 2004, \$259,000,000;

(B) for fiscal year 2005, \$272,000,000;

(C) for fiscal year 2006, \$285,000,000;

(D) for fiscal year 2007, \$298,000,000; and

(E) for fiscal year 2008, \$308,000,000.

(4) For the Office of Arctic Energy under section 3197 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (42 U.S.C. 7144d), \$25,000,000 for each of fiscal years 2004 through 2008.

(5) For activities under section 933, \$4,000,000 for fiscal year 2004 and \$2,000,000 for each of fiscal years 2005 through 2008.

(c) **EXTENDED AUTHORIZATION.**—There are authorized to be appropriated to the Secretary for the Office of Arctic Energy under section 3197 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (42 U.S.C. 7144d), \$25,000,000 for each of fiscal years 2009 through 2012.

(d) **LIMITS ON USE OF FUNDS.**—

(1) **NO FUNDS FOR CERTAIN PROGRAMS.**—None of the funds authorized under this section may be used for Fossil Energy Environmental Restoration or Import/Export Authorization.

(2) **INSTITUTIONS OF HIGHER EDUCATION.**—Of the funds authorized under subsection (b)(2), not less than 20 percent of the funds appropriated for each fiscal year shall be dedicated to research and development carried out at institutions of higher education.

SEC. 932. OIL AND GAS RESEARCH PROGRAMS.

(a) **OIL AND GAS RESEARCH.**—The Secretary shall conduct a program of research, development, demonstration, and commercial application on oil and gas, including—

(1) exploration and production;

(2) gas hydrates;

(3) reservoir life and extension;

(4) transportation and distribution infrastructure;

(5) ultraclean fuels;

(6) heavy oil and oil shale;

(7) related environmental research; and

(8) compressed natural gas marine transport.

(b) **FUEL CELLS.**—

(1) **IN GENERAL.**—The Secretary shall conduct a program of research, development, demonstration, and commercial application on fuel cells for low-cost, high-efficiency, fuel-flexible, modular power systems.

(2) **IMPROVED MANUFACTURING PRODUCTION AND PROCESSES.**—The demonstrations under paragraph (1) shall include fuel cell technology for commercial, residential, and transportation applications, and distributed generation systems, utilizing improved manufacturing production and processes.

(c) **NATURAL GAS AND OIL DEPOSITS REPORT.**—Not later than 2 years after the date of enactment of this Act, and every 2 years thereafter, the Secretary of the Interior, in consultation with other appropriate Federal agencies, shall transmit a report to Congress of the latest estimates of natural gas and oil reserves, reserves growth, and undiscovered resources in Federal and State waters off the coast of Louisiana and Texas.

(d) **INTEGRATED CLEAN POWER AND ENERGY RESEARCH.**—

(1) **NATIONAL CENTER OR CONSORTIUM OF EXCELLENCE.**—The Secretary shall establish a national center or consortium of excellence in clean energy and power generation, utilizing the resources of the existing Clean Power and Energy Research Consortium, to address the Nation's critical dependence on energy and the need to reduce emissions.

(2) **PROGRAM.**—The center or consortium shall conduct a program of research, development, demonstration, and commercial application on integrating the following focus areas:

(A) Efficiency and reliability of gas turbines for power generation.

(B) Reduction in emissions from power generation.

(C) Promotion of energy conservation issues.

(D) Effectively utilizing alternative fuels and renewable energy.

(E) Development of advanced materials technology for oil and gas exploration and utilization in harsh environments.

(F) Education on energy and power generation issues.

SEC. 933. TECHNOLOGY TRANSFER.

The Secretary shall establish a competitive program to award a contract to a non-profit entity for the purpose of transferring technologies developed with public funds. The entity selected under this section shall have experience in offshore oil and gas technology research management, in the transfer of technologies developed with public funds to the offshore and maritime industry, and in management of an offshore and maritime industry consortium. The program consortium selected under section 942 shall not be eligible for selection under this section. When appropriate, the Secretary shall consider utilizing the entity selected under this section when implementing the activities authorized by section 975.

SEC. 934. RESEARCH AND DEVELOPMENT FOR COAL MINING TECHNOLOGIES.

(a) **ESTABLISHMENT.**—The Secretary shall carry out a program of research and development on coal mining technologies. The Secretary shall cooperate with appropriate Federal agencies, coal producers, trade associations, equipment manufacturers, institutions of higher education with mining engineering departments, and other relevant entities.

(b) **PROGRAM.**—The research and development activities carried out under this section shall—

(1) be guided by the mining research and development priorities identified by the Mining Industry of the Future Program and in the recommendations from relevant reports of the National Academy of Sciences on mining technologies;

(2) include activities exploring minimization of contaminants in mined coal that contribute to environmental concerns including development and demonstration of electromagnetic wave imaging ahead of mining operations;

(3) develop and demonstrate electromagnetic wave imaging and radar techniques for horizontal drilling in coal beds in order to increase methane recovery efficiency, prevent spoilage of domestic coal reserves, and minimize water disposal associated with methane extraction; and

(4) expand mining research capabilities at institutions of higher education.

SEC. 935. COAL AND RELATED TECHNOLOGIES PROGRAM.

(a) **IN GENERAL.**—In addition to the programs authorized under title IV, the Secretary shall conduct a program of technology research, development, demonstration, and commercial application for coal and power systems, including programs to facilitate production and generation of coal-based power through—

(1) innovations for existing plants;

(2) integrated gasification combined cycle;

(3) advanced combustion systems;

(4) turbines for synthesis gas derived from coal;

(5) carbon capture and sequestration research and development;

(6) coal-derived transportation fuels and chemicals;

(7) solid fuels and feedstocks;

(8) advanced coal-related research;

(9) advanced separation technologies; and

(10) a joint project for permeability enhancement in coals for natural gas production and carbon dioxide sequestration.

(b) **COST AND PERFORMANCE GOALS.**—In carrying out programs authorized by this section, the Secretary shall identify cost and performance goals for coal-based technologies that would permit the continued cost-competitive use of coal for electricity generation, as chemical feedstocks, and as transportation fuel in 2007, 2015, and the years after 2020. In establishing such cost and performance goals, the Secretary shall—

(1) consider activities and studies undertaken to date by industry in cooperation with the Department in support of such assessment;

(2) consult with interested entities, including coal producers, industries using coal, organizations to promote coal and advanced coal technologies, environmental organizations, and organizations representing workers;

(3) not later than 120 days after the date of enactment of this Act, publish in the Federal Register proposed draft cost and performance goals for public comments; and

(4) not later than 180 days after the date of enactment of this Act and every 4 years thereafter, submit to Congress a report describing final cost and performance goals for such technologies that includes a list of

technical milestones as well as an explanation of how programs authorized in this section will not duplicate the activities authorized under the Clean Coal Power Initiative authorized under subtitle A of title IV.

SEC. 936. COMPLEX WELL TECHNOLOGY TESTING FACILITY.

The Secretary, in coordination with industry leaders in extended research drilling technology, shall establish a Complex Well Technology Testing Facility at the Rocky Mountain Oilfield Testing Center to increase the range of extended drilling technologies.

SEC. 937. FISCHER-TROPSCH DIESEL FUEL LOAN GUARANTEE PROGRAM.

(a) **DEFINITION OF FISCHER-TROPSCH DIESEL FUEL.**—In this section, the term “Fischer-Tropsch diesel fuel” means diesel fuel that—

(1) contains less than 10 parts per million sulfur; and

(2) is produced through the Fischer-Tropsch liquefaction process from coal or waste from coal that was mined in the United States.

(b) **LOAN GUARANTEES.**—

(1) **ESTABLISHMENT OF PROGRAM.**—The Secretary of Energy shall establish a program to provide guarantees of loans by private lending institutions for the construction of facilities for the production of Fischer-Tropsch diesel fuel and commercial byproducts of that production.

(2) **REQUIREMENTS.**—The Secretary may provide a loan guarantee under paragraph (1) if—

(A) without a loan guarantee, credit is not available to the applicant under reasonable terms or conditions sufficient to finance the construction of a facility described in paragraph (1);

(B) the prospective earning power of the applicant and the character and value of the security pledged provide a reasonable assurance of repayment of the loan to be guaranteed in accordance with the terms of the loan; and

(C) the loan bears interest at a rate determined by the Secretary to be reasonable, taking into account the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

(3) **CRITERIA.**—In selecting recipients of loan guarantees from among applicants, the Secretary shall give preference to proposals that—

(A) meet all Federal and State permitting requirements;

(B) are most likely to be successful; and

(C) are located in local markets that have the greatest need for the facility because of—

(i) the availability of domestic coal or coal waste for conversion; or

(ii) a projected high level of demand for Fischer-Tropsch diesel fuel or other commercial byproducts of the facility.

(4) **MATURITY.**—A loan guaranteed under paragraph (1) shall have a maturity of not more than 25 years.

(5) **TERMS AND CONDITIONS.**—The loan agreement for a loan guaranteed under paragraph (1) shall provide that no provision of the loan may be amended or waived without the consent of the Secretary.

(6) **GUARANTEE FEE.**—A recipient of a loan guarantee under paragraph (1) shall pay the Secretary an amount to be determined by the Secretary to be sufficient to cover the administrative costs of the Secretary relating to the loan guarantee.

(7) **FULL FAITH AND CREDIT.**—

(A) **IN GENERAL.**—The full faith and credit of the United States is pledged to payment of loan guarantees made under this section.

(B) **CONCLUSIVE EVIDENCE.**—Any loan guarantee made by the Secretary under this sec-

tion shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest.

(C) **VALIDITY.**—The validity of a loan guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(8) **REPORTS.**—Until each guaranteed loan under this section is repaid in full, the Secretary shall annually submit to Congress a report on the activities of the Secretary under this section.

(9) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as are necessary to carry out this section.

(10) **TERMINATION OF AUTHORITY.**—The authority of the Secretary to issue a new loan guarantee under paragraph (1) terminates on the date that is 5 years after the date of enactment of this Act.

PART II—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES**SEC. 941. PROGRAM AUTHORITY.**

(a) **IN GENERAL.**—The Secretary shall carry out a program under this part of research, development, demonstration, and commercial application of technologies for ultra-deepwater and unconventional natural gas and other petroleum resource exploration and production, including addressing the technology challenges for small producers, safe operations, and environmental mitigation (including reduction of greenhouse gas emissions and sequestration of carbon).

(b) **PROGRAM ELEMENTS.**—The program under this part shall address the following areas, including improving safety and minimizing environmental impacts of activities within each area:

(1) Ultra-deepwater technology, including drilling to formations in the Outer Continental Shelf to depths greater than 15,000 feet.

(2) Ultra-deepwater architecture.

(3) Unconventional natural gas and other petroleum resource exploration and production technology, including the technology challenges of small producers.

(c) **LIMITATION ON LOCATION OF FIELD ACTIVITIES.**—Field activities under the program under this part shall be carried out only—

(1) in—

(A) areas in the territorial waters of the United States not under any Outer Continental Shelf moratorium as of September 30, 2002;

(B) areas onshore in the United States on public land administered by the Secretary of the Interior available for oil and gas leasing, where consistent with applicable law and land use plans; and

(C) areas onshore in the United States on State or private land, subject to applicable law; and

(2) with the approval of the appropriate Federal or State land management agency or private land owner.

(d) **RESEARCH AT NATIONAL ENERGY TECHNOLOGY LABORATORY.**—The Secretary, through the National Energy Technology Laboratory, shall carry out research complementary to research under subsection (b).

(e) **CONSULTATION WITH SECRETARY OF THE INTERIOR.**—In carrying out this part, the Secretary shall consult regularly with the Secretary of the Interior.

SEC. 942. ULTRA-DEEPWATER PROGRAM.

(a) **IN GENERAL.**—The Secretary shall carry out the activities under section 941(a), to maximize the use of the ultra-deepwater natural gas and other petroleum resources of the United States by increasing the supply of such resources, through reducing the cost and increasing the efficiency of exploration for and production of such resources, while improving safety and minimizing environmental impacts.

(b) **ROLE OF THE SECRETARY.**—The Secretary shall have ultimate responsibility for, and oversight of, all aspects of the program under this section.

(c) **ROLE OF THE PROGRAM CONSORTIUM.**—

(1) **IN GENERAL.**—The Secretary may contract with a consortium to—

(A) manage awards pursuant to subsection (f)(4);

(B) make recommendations to the Secretary for project solicitations;

(C) disburse funds awarded under subsection (f) as directed by the Secretary in accordance with the annual plan under subsection (e); and

(D) carry out other activities assigned to the program consortium by this section.

(2) **LIMITATION.**—The Secretary may not assign any activities to the program consortium except as specifically authorized under this section.

(3) **CONFLICT OF INTEREST.**—

(A) **PROCEDURES.**—The Secretary shall establish procedures—

(i) to ensure that each board member, officer, or employee of the program consortium who is in a decision-making capacity under subsection (f)(3) or (4) shall disclose to the Secretary any financial interests in, or financial relationships with, applicants for or recipients of awards under this section, including those of his or her spouse or minor child, unless such relationships or interests would be considered to be remote or inconsequential; and

(ii) to require any board member, officer, or employee with a financial relationship or interest disclosed under clause (i) to recuse himself or herself from any review under subsection (f)(3) or oversight under subsection (f)(4) with respect to such applicant or recipient.

(B) **FAILURE TO COMPLY.**—The Secretary may disqualify an application or revoke an award under this section if a board member, officer, or employee has failed to comply with procedures required under subparagraph (A)(ii).

(d) **SELECTION OF THE PROGRAM CONSORTIUM.**—

(1) **IN GENERAL.**—The Secretary shall select the program consortium through an open, competitive process.

(2) **MEMBERS.**—The program consortium may include corporations, trade associations, institutions of higher education, National Laboratories, or other research institutions. After submitting a proposal under paragraph (4), the program consortium may not add members without the consent of the Secretary.

(3) **TAX STATUS.**—The program consortium shall be an entity that is exempt from tax under section 501(c)(3) of the Internal Revenue Code of 1986.

(4) **SCHEDULE.**—Not later than 180 days after the date of enactment of this Act, the Secretary shall solicit proposals from eligible consortia to perform the duties in subsection (c)(1), which shall be submitted not later than 360 days after the date of enactment of this Act. The Secretary shall select the program consortium not later than 18 months after such date of enactment.

(5) **APPLICATION.**—Applicants shall submit a proposal including such information as the Secretary may require. At a minimum, each proposal shall—

(A) list all members of the consortium;

(B) fully describe the structure of the consortium, including any provisions relating to intellectual property; and

(C) describe how the applicant would carry out the activities of the program consortium under this section.

(6) **ELIGIBILITY.**—To be eligible to be selected as the program consortium, an applicant must be an entity whose members col-

lectively have demonstrated capabilities in planning and managing research, development, demonstration, and commercial application programs in natural gas or other petroleum exploration or production.

(7) **CRITERION.**—The Secretary shall consider the amount of the fee an applicant proposes to receive under subsection (g) in selecting a consortium under this section.

(e) **ANNUAL PLAN.**—

(1) **IN GENERAL.**—The program under this section shall be carried out pursuant to an annual plan prepared by the Secretary in accordance with paragraph (2).

(2) **DEVELOPMENT.**—

(A) **SOLICITATION OF RECOMMENDATIONS.**—Before drafting an annual plan under this subsection, the Secretary shall solicit specific written recommendations from the program consortium for each element to be addressed in the plan, including those described in paragraph (4). The Secretary may request that the program consortium submit its recommendations in the form of a draft annual plan.

(B) **SUBMISSION OF RECOMMENDATIONS; OTHER COMMENT.**—The Secretary shall submit the recommendations of the program consortium under subparagraph (A) to the Ultra-Deepwater Advisory Committee established under section 945(a) for review, and such Advisory Committee shall provide to the Secretary written comments by a date determined by the Secretary. The Secretary may also solicit comments from any other experts.

(C) **CONSULTATION.**—The Secretary shall consult regularly with the program consortium throughout the preparation of the annual plan.

(3) **PUBLICATION.**—The Secretary shall transmit to Congress and publish in the Federal Register the annual plan, along with any written comments received under paragraph (2)(A) and (B).

(4) **CONTENTS.**—The annual plan shall describe the ongoing and prospective activities of the program under this section and shall include—

(A) a list of any solicitations for awards that the Secretary plans to issue to carry out research, development, demonstration, or commercial application activities, including the topics for such work, who would be eligible to apply, selection criteria, and the duration of awards; and

(B) a description of the activities expected of the program consortium to carry out subsection (f)(4).

(5) **ESTIMATES OF INCREASED ROYALTY RECEIPTS.**—The Secretary, in consultation with the Secretary of the Interior, shall provide an annual report to Congress with the President's budget on the estimated cumulative increase in Federal royalty receipts (if any) resulting from the implementation of this part. The initial report under this paragraph shall be submitted in the first President's budget following the completion of the first annual plan required under this subsection.

(f) **AWARDS.**—

(1) **IN GENERAL.**—The Secretary shall make awards to carry out research, development, demonstration, and commercial application activities under the program under this section. The program consortium shall not be eligible to receive such awards, but members of the program consortium may receive such awards.

(2) **PROPOSALS.**—The Secretary shall solicit proposals for awards under this subsection in such manner and at such time as the Secretary may prescribe, in consultation with the program consortium.

(3) **REVIEW.**—The Secretary shall make awards under this subsection through a competitive process, which shall include a review by individuals selected by the Secretary.

Such individuals shall include, for each application, Federal officials, the program consortium, and non-Federal experts who are not board members, officers, or employees of the program consortium or of a member of the program consortium.

(4) **OVERSIGHT.**—

(A) **IN GENERAL.**—The program consortium shall oversee the implementation of awards under this subsection, consistent with the annual plan under subsection (e), including disbursing funds and monitoring activities carried out under such awards for compliance with the terms and conditions of the awards.

(B) **EFFECT.**—Nothing in subparagraph (A) shall limit the authority or responsibility of the Secretary to oversee awards, or limit the authority of the Secretary to review or revoke awards.

(C) **PROVISION OF INFORMATION.**—The Secretary shall provide to the program consortium the information necessary for the program consortium to carry out its responsibilities under this paragraph.

(g) **ADMINISTRATIVE COSTS.**—

(1) **IN GENERAL.**—To compensate the program consortium for carrying out its activities under this section, the Secretary shall provide to the program consortium funds sufficient to administer the program. This compensation may include a management fee consistent with Department of Energy contracting practices and procedures.

(2) **ADVANCE.**—The Secretary shall advance funds to the program consortium upon selection of the consortium, which shall be deducted from amounts to be provided under paragraph (1).

(h) **AUDIT.**—The Secretary shall retain an independent, commercial auditor to determine the extent to which funds provided to the program consortium, and funds provided under awards made under subsection (f), have been expended in a manner consistent with the purposes and requirements of this part. The auditor shall transmit a report annually to the Secretary, who shall transmit the report to Congress, along with a plan to remedy any deficiencies cited in the report.

SEC. 943. UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES PROGRAM.

(a) **IN GENERAL.**—The Secretary shall carry out activities under subsection 941(b)(3), to maximize the use of the onshore unconventional natural gas and other petroleum resources of the United States, by increasing the supply of such resources, through reducing the cost and increasing the efficiency of exploration for and production of such resources, while improving safety and minimizing environmental impacts.

(b) **AWARDS.**—

(1) **IN GENERAL.**—The Secretary shall carry out this section through awards to research consortia made through an open, competitive process. As a condition of award of funds, qualified research consortia shall—

(A) demonstrate capability and experience in unconventional onshore natural gas or other petroleum research and development;

(B) provide a research plan that demonstrates how additional natural gas or oil production will be achieved; and

(C) at the request of the Secretary, provide technical advice to the Secretary for the purposes of developing the annual plan required under subsection (e).

(2) **PRODUCTION POTENTIAL.**—The Secretary shall seek to ensure that the number and types of awards made under this subsection have reasonable potential to lead to additional oil and natural gas production on Federal lands.

(3) **SCHEDULE.**—To carry out this subsection, not later than 180 days after the date of enactment of this Act, the Secretary

shall solicit proposals from research consortia, which shall be submitted not later than 360 days after the date of enactment of this Act. The Secretary shall select the first group of research consortia to receive awards under this subsection not later than 18 months after such date of enactment.

(c) **AUDIT.**—The Secretary shall retain an independent, commercial auditor to determine the extent to which funds provided under awards made under this section have been expended in a manner consistent with the purposes and requirements of this part. The auditor shall transmit a report annually to the Secretary, who shall transmit the report to Congress, along with a plan to remedy any deficiencies cited in the report.

(d) **FOCUS AREAS FOR AWARDS.**—

(1) **UNCONVENTIONAL RESOURCES.**—Awards from allocations under section 949(d)(2) shall focus on areas including advanced coalbed methane, deep drilling, natural gas production from tight sands, natural gas production from gas shales, stranded gas, innovative exploration and production techniques, enhanced recovery techniques, and environmental mitigation of unconventional natural gas and other petroleum resources exploration and production.

(2) **SMALL PRODUCERS.**—Awards from allocations under section 949(d)(3) shall be made to consortia consisting of small producers or organized primarily for the benefit of small producers, and shall focus on areas including complex geology involving rapid changes in the type and quality of the oil and gas reservoirs across the reservoir; low reservoir pressure; unconventional natural gas reservoirs in coalbeds, deep reservoirs, tight sands, or shales; and unconventional oil reservoirs in tar sands and oil shales.

(e) **ANNUAL PLAN.**—

(1) **IN GENERAL.**—The program under this section shall be carried out pursuant to an annual plan prepared by the Secretary in accordance with paragraph (2).

(2) **DEVELOPMENT.**—

(A) **WRITTEN RECOMMENDATIONS.**—Before drafting an annual plan under this subsection, the Secretary shall solicit specific written recommendations from the research consortia receiving awards under subsection (b) and the Unconventional Resources Technology Advisory Committee for each element to be addressed in the plan, including those described in subparagraph (D).

(B) **CONSULTATION.**—The Secretary shall consult regularly with the research consortia throughout the preparation of the annual plan.

(C) **PUBLICATION.**—The Secretary shall transmit to Congress and publish in the Federal Register the annual plan, along with any written comments received under subparagraph (A).

(D) **CONTENTS.**—The annual plan shall describe the ongoing and prospective activities under this section and shall include a list of any solicitations for awards that the Secretary plans to issue to carry out research, development, demonstration, or commercial application activities, including the topics for such work, who would be eligible to apply, selection criteria, and the duration of awards.

(3) **ESTIMATES OF INCREASED ROYALTY RECEIPTS.**—The Secretary, in consultation with the Secretary of the Interior, shall provide an annual report to Congress with the President's budget on the estimated cumulative increase in Federal royalty receipts (if any) resulting from the implementation of this part. The initial report under this paragraph shall be submitted in the first President's budget following the completion of the first annual plan required under this subsection.

(f) **ACTIVITIES BY THE UNITED STATES GEOLOGICAL SURVEY.**—The Secretary of the Inte-

rior, through the United States Geological Survey, shall, where appropriate, carry out programs of long-term research to complement the programs under this section.

SEC. 944. ADDITIONAL REQUIREMENTS FOR AWARDS.

(a) **DEMONSTRATION PROJECTS.**—An application for an award under this part for a demonstration project shall describe with specificity the intended commercial use of the technology to be demonstrated.

(b) **FLEXIBILITY IN LOCATING DEMONSTRATION PROJECTS.**—Subject to the limitation in section 941(c), a demonstration project under this part relating to an ultra-deepwater technology or an ultra-deepwater architecture may be conducted in deepwater depths.

(c) **INTELLECTUAL PROPERTY AGREEMENTS.**—If an award under this part is made to a consortium (other than the program consortium), the consortium shall provide to the Secretary a signed contract agreed to by all members of the consortium describing the rights of each member to intellectual property used or developed under the award.

(d) **TECHNOLOGY TRANSFER.**—2.5 percent of the amount of each award made under this part shall be designated for technology transfer and outreach activities under this title.

(e) **COST SHARING REDUCTION FOR INDEPENDENT PRODUCERS.**—In applying the cost sharing requirements under section 972 to an award under this part the Secretary may reduce or eliminate the non-Federal requirement if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project.

SEC. 945. ADVISORY COMMITTEES.

(a) **ULTRA-DEEPWATER ADVISORY COMMITTEE.**—

(1) **ESTABLISHMENT.**—Not later than 270 days after the date of enactment of this Act, the Secretary shall establish an advisory committee to be known as the Ultra-Deepwater Advisory Committee.

(2) **MEMBERSHIP.**—The advisory committee under this subsection shall be composed of members appointed by the Secretary including—

(A) individuals with extensive research experience or operational knowledge of offshore natural gas and other petroleum exploration and production;

(B) individuals broadly representative of the affected interests in ultra-deepwater natural gas and other petroleum production, including interests in environmental protection and safe operations;

(C) no individuals who are Federal employees; and

(D) no individuals who are board members, officers, or employees of the program consortium.

(3) **DUTIES.**—The advisory committee under this subsection shall—

(A) advise the Secretary on the development and implementation of programs under this part related to ultra-deepwater natural gas and other petroleum resources; and

(B) carry out section 942(e)(2)(B).

(4) **COMPENSATION.**—A member of the advisory committee under this subsection shall serve without compensation but shall receive travel expenses in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(b) **UNCONVENTIONAL RESOURCES TECHNOLOGY ADVISORY COMMITTEE.**—

(1) **ESTABLISHMENT.**—Not later than 270 days after the date of enactment of this Act, the Secretary shall establish an advisory committee to be known as the Unconventional Resources Technology Advisory Committee.

(2) **MEMBERSHIP.**—The advisory committee under this subsection shall be composed of

members appointed by the Secretary including—

(A) a majority of members who are employees or representatives of independent producers of natural gas and other petroleum, including small producers;

(B) individuals with extensive research experience or operational knowledge of unconventional natural gas and other petroleum resource exploration and production;

(C) individuals broadly representative of the affected interests in unconventional natural gas and other petroleum resource exploration and production, including interests in environmental protection and safe operations; and

(D) no individuals who are Federal employees.

(3) **DUTIES.**—The advisory committee under this subsection shall advise the Secretary on the development and implementation of activities under this part related to unconventional natural gas and other petroleum resources.

(4) **COMPENSATION.**—A member of the advisory committee under this subsection shall serve without compensation but shall receive travel expenses in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(c) **PROHIBITION.**—No advisory committee established under this section shall make recommendations on funding awards to particular consortia or other entities, or for specific projects.

SEC. 946. LIMITS ON PARTICIPATION.

An entity shall be eligible to receive an award under this part only if the Secretary finds—

(1) that the entity's participation in the program under this part would be in the economic interest of the United States; and

(2) that either—

(A) the entity is a United States-owned entity organized under the laws of the United States; or

(B) the entity is organized under the laws of the United States and has a parent entity organized under the laws of a country that affords—

(i) to United States-owned entities opportunities, comparable to those afforded to any other entity, to participate in any cooperative research venture similar to those authorized under this part;

(ii) to United States-owned entities local investment opportunities comparable to those afforded to any other entity; and

(iii) adequate and effective protection for the intellectual property rights of United States-owned entities.

SEC. 947. SUNSET.

The authority provided by this part shall terminate on September 30, 2011.

SEC. 948. DEFINITIONS.

In this part:

(1) **DEEPWATER.**—The term "deepwater" means a water depth that is greater than 200 but less than 1,500 meters.

(2) **INDEPENDENT PRODUCER OF OIL OR GAS.**—

(A) **IN GENERAL.**—The term "independent producer of oil or gas" means any person that produces oil or gas other than a person to whom subsection (c) of section 613A of the Internal Revenue Code of 1986 does not apply by reason of paragraph (2) (relating to certain retailers) or paragraph (4) (relating to certain refiners) of section 613A(d) of such Code.

(B) **RULES FOR APPLYING PARAGRAPHS (2) AND (4) OF SECTION 613A(d).**—For purposes of subparagraph (A), paragraphs (2) and (4) of section 613A(d) of the Internal Revenue Code of 1986 shall be applied by substituting "calendar year" for "taxable year" each place it appears in such paragraphs.

(3) PROGRAM CONSORTIUM.—The term “program consortium” means the consortium selected under section 942(d).

(4) REMOTE OR INCONSEQUENTIAL.—The term “remote or inconsequential” has the meaning given that term in regulations issued by the Office of Government Ethics under section 208(b)(2) of title 18, United States Code.

(5) SMALL PRODUCER.—The term “small producer” means an entity organized under the laws of the United States with production levels of less than 1,000 barrels per day of oil equivalent.

(6) ULTRA-DEEPWATER.—The term “ultra-deepwater” means a water depth that is equal to or greater than 1,500 meters.

(7) ULTRA-DEEPWATER ARCHITECTURE.—The term “ultra-deepwater architecture” means the integration of technologies for the exploration for, or production of, natural gas or other petroleum resources located at ultra-deepwater depths.

(8) ULTRA-DEEPWATER TECHNOLOGY.—The term “ultra-deepwater technology” means a discrete technology that is specially suited to address 1 or more challenges associated with the exploration for, or production of, natural gas or other petroleum resources located at ultra-deepwater depths.

(9) UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCE.—The term “unconventional natural gas and other petroleum resource” means natural gas and other petroleum resource located onshore in an economically inaccessible geological formation, including resources of small producers.

SEC. 949. FUNDING.

(a) IN GENERAL.—

(1) OIL AND GAS LEASE INCOME.—For each of fiscal years 2004 through 2013, from any Federal royalties, rents, and bonuses derived from Federal onshore and offshore oil and gas leases issued under the Outer Continental Shelf Lands Act and the Mineral Leasing Act which are deposited in the Treasury, and after distribution of any such funds as described in subsection (c), \$150,000,000 shall be deposited into the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund (in this section referred to as the Fund). For purposes of this section, the term “royalties” excludes proceeds from the sale of royalty production taken in kind and royalty production that is transferred under section 27(a)(3) of the Outer Continental Shelf Lands Act (43 U.S.C. 1353(a)(3)).

(2) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts described in paragraph (1), there are authorized to be appropriated to the Secretary, to be deposited in the Fund, \$50,000,000 for each of the fiscal years 2004 through 2013, to remain available until expended.

(b) OBLIGATIONAL AUTHORITY.—Monies in the Fund shall be available to the Secretary for obligation under this part without fiscal year limitation, to remain available until expended.

(c) PRIOR DISTRIBUTIONS.—The distributions described in subsection (a) are those required by law—

(1) to States and to the Reclamation Fund under the Mineral Leasing Act (30 U.S.C. 191(a)); and

(2) to other funds receiving monies from Federal oil and gas leasing programs, including—

(A) any recipients pursuant to section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g));

(B) the Land and Water Conservation Fund, pursuant to section 2(c) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601–5(c));

(C) the Historic Preservation Fund, pursuant to section 108 of the National Historic Preservation Act (16 U.S.C. 470h); and

(D) the Secure Energy Reinvestment Fund.

(d) ALLOCATION.—Amounts obligated from the Fund under this section in each fiscal year shall be allocated as follows:

(1) 50 percent shall be for activities under section 942.

(2) 35 percent shall be for activities under section 943(d)(1).

(3) 10 percent shall be for activities under section 943(d)(2).

(4) 5 percent shall be for research under section 941(d).

(e) FUND.—There is hereby established in the Treasury of the United States a separate fund to be known as the “Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund”.

Subtitle F—Science

SEC. 951. SCIENCE.

(a) IN GENERAL.—The following sums are authorized to be appropriated to the Secretary for research, development, demonstration, and commercial application activities of the Office of Science, including activities authorized under this subtitle, including the amounts authorized under the amendment made by section 958(c)(2)(C), and including basic energy sciences, advanced scientific computing research, biological and environmental research, fusion energy sciences, high energy physics, nuclear physics, and research analysis and infrastructure support:

(1) For fiscal year 2004, \$3,785,000,000.

(2) For fiscal year 2005, \$4,153,000,000.

(3) For fiscal year 2006, \$4,618,000,000.

(4) For fiscal year 2007, \$5,310,000,000.

(5) For fiscal year 2008, \$5,800,000,000.

(b) ALLOCATIONS.—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities of the Fusion Energy Sciences Program, including activities under sections 952 and 953—

(A) for fiscal year 2004, \$335,000,000;

(B) for fiscal year 2005, \$349,000,000;

(C) for fiscal year 2006, \$362,000,000;

(D) for fiscal year 2007, \$377,000,000; and

(E) for fiscal year 2008, \$393,000,000.

(2) For the Spallation Neutron Source—

(A) for construction in fiscal year 2004, \$124,600,000;

(B) for construction in fiscal year 2005, \$79,800,000;

(C) for completion of construction in fiscal year 2006, \$41,100,000; and

(D) for other project costs (including research and development necessary to complete the project, preoperations costs, and capital equipment related to construction), \$103,279,000 for the period encompassing fiscal years 2003 through 2006, to remain available until expended through September 30, 2006.

(3) For Catalysis Research activities under section 956—

(A) for fiscal year 2004, \$33,000,000;

(B) for fiscal year 2005, \$35,000,000;

(C) for fiscal year 2006, \$36,500,000;

(D) for fiscal year 2007, \$38,200,000; and

(E) for fiscal year 2008, \$40,100,000.

(4) For Nanoscale Science and Engineering Research activities under section 957—

(A) for fiscal year 2004, \$270,000,000;

(B) for fiscal year 2005, \$292,000,000;

(C) for fiscal year 2006, \$322,000,000;

(D) for fiscal year 2007, \$355,000,000; and

(E) for fiscal year 2008, \$390,000,000.

(5) For activities under section 957(c), from the amounts authorized under paragraph (4) of this subsection—

(A) for fiscal year 2004, \$135,000,000;

(B) for fiscal year 2005, \$150,000,000;

(C) for fiscal year 2006, \$120,000,000;

(D) for fiscal year 2007, \$100,000,000; and

(E) for fiscal year 2008, \$125,000,000.

(6) For activities in the Genomes to Life Program under section 959—

(A) for fiscal year 2004, \$100,000,000; and

(B) for fiscal years 2005 through 2008, such sums as may be necessary.

(7) For activities in the Energy-Water Supply Program under section 961, \$30,000,000 for each of fiscal years 2004 through 2008.

(c) ITER CONSTRUCTION.—In addition to the funds authorized under subsection (b)(1), such sums as may be necessary for costs associated with ITER construction, consistent with limitations under section 952.

SEC. 952. UNITED STATES PARTICIPATION IN ITER.

(a) IN GENERAL.—The United States may participate in ITER in accordance with the provisions of this section.

(b) AGREEMENT.—

(1) IN GENERAL.—The Secretary is authorized to negotiate an agreement for United States participation in ITER.

(2) CONTENTS.—Any agreement for United States participation in ITER shall, at a minimum—

(A) clearly define the United States financial contribution to construction and operating costs;

(B) ensure that the share of ITER’s high-technology components manufactured in the United States is at least proportionate to the United States financial contribution to ITER;

(C) ensure that the United States will not be financially responsible for cost overruns in components manufactured in other ITER participating countries;

(D) guarantee the United States full access to all data generated by ITER;

(E) enable United States researchers to propose and carry out an equitable share of the experiments at ITER;

(F) provide the United States with a role in all collective decisionmaking related to ITER; and

(G) describe the process for discontinuing or decommissioning ITER and any United States role in those processes.

(c) PLAN.—The Secretary, in consultation with the Fusion Energy Sciences Advisory Committee, shall develop a plan for the participation of United States scientists in ITER that shall include the United States research agenda for ITER, methods to evaluate whether ITER is promoting progress toward making fusion a reliable and affordable source of power, and a description of how work at ITER will relate to other elements of the United States fusion program. The Secretary shall request a review of the plan by the National Academy of Sciences.

(d) LIMITATION.—No funds shall be expended for the construction of ITER until the Secretary has transmitted to Congress—

(1) the agreement negotiated pursuant to subsection (b) and 120 days have elapsed since that transmission;

(2) a report describing the management structure of ITER and providing a fixed dollar estimate of the cost of United States participation in the construction of ITER, and 120 days have elapsed since that transmission;

(3) a report describing how United States participation in ITER will be funded without reducing funding for other programs in the Office of Science, including other fusion programs, and 60 days have elapsed since that transmission; and

(4) the plan required by subsection (c) (but not the National Academy of Sciences review of that plan), and 60 days have elapsed since that transmission.

(e) ALTERNATIVE TO ITER.—If at any time during the negotiations on ITER, the Secretary determines that construction and operation of ITER is unlikely or infeasible, the Secretary shall send to Congress, as part of the budget request for the following year, a plan for implementing the domestic burning

plasma experiment known as FIRE, including costs and schedules for such a plan. The Secretary shall refine such plan in full consultation with the Fusion Energy Sciences Advisory Committee and shall also transmit such plan to the National Academy of Sciences for review.

(f) DEFINITIONS.—In this section and sections 951(b)(1) and (c):

(1) CONSTRUCTION.—The term “construction” means the physical construction of the ITER facility, and the physical construction, purchase, or manufacture of equipment or components that are specifically designed for the ITER facility, but does not mean the design of the facility, equipment, or components.

(2) FIRE.—The term “FIRE” means the Fusion Ignition Research Experiment, the fusion research experiment for which design work has been supported by the Department as a possible alternative burning plasma experiment in the event that ITER fails to move forward.

(3) ITER.—The term “ITER” means the international burning plasma fusion research project in which the President announced United States participation on January 30, 2003.

SEC. 953. PLAN FOR FUSION ENERGY SCIENCES PROGRAM.

(a) DECLARATION OF POLICY.—It shall be the policy of the United States to conduct research, development, demonstration, and commercial application to provide for the scientific, engineering, and commercial infrastructure necessary to ensure that the United States is competitive with other nations in providing fusion energy for its own needs and the needs of other nations, including by demonstrating electric power or hydrogen production for the United States energy grid utilizing fusion energy at the earliest date possible.

(b) PLANNING.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall present to Congress a plan, with proposed cost estimates, budgets, and potential international partners, for the implementation of the policy described in subsection (a). The plan shall ensure that—

(A) existing fusion research facilities are more fully utilized;

(B) fusion science, technology, theory, advanced computation, modeling, and simulation are strengthened;

(C) new magnetic and inertial fusion research facilities are selected based on scientific innovation, cost effectiveness, and their potential to advance the goal of practical fusion energy at the earliest date possible, and those that are selected are funded at a cost-effective rate;

(D) communication of scientific results and methods between the fusion energy science community and the broader scientific and technology communities is improved;

(E) inertial confinement fusion facilities are utilized to the extent practicable for the purpose of inertial fusion energy research and development; and

(F) attractive alternative inertial and magnetic fusion energy approaches are more fully explored.

(2) COSTS AND SCHEDULES.—Such plan shall also address the status of and, to the degree possible, costs and schedules for—

(A) in coordination with the program under section 960, the design and implementation of international or national facilities for the testing of fusion materials; and

(B) the design and implementation of international or national facilities for the testing and development of key fusion technologies.

SEC. 954. SPALLATION NEUTRON SOURCE.

(a) DEFINITION.—For the purposes of this section, the term “Spallation Neutron Source” means Department Project 99-E-334, Oak Ridge National Laboratory, Oak Ridge, Tennessee.

(b) REPORT.—The Secretary shall report on the Spallation Neutron Source as part of the Department’s annual budget submission, including a description of the achievement of milestones, a comparison of actual costs to estimated costs, and any changes in estimated project costs or schedule.

(c) LIMITATIONS.—The total amount obligated by the Department, including prior year appropriations, for the Spallation Neutron Source shall not exceed—

(1) \$1,192,700,000 for costs of construction;

(2) \$219,000,000 for other project costs; and

(3) \$1,411,700,000 for total project cost.

SEC. 955. SUPPORT FOR SCIENCE AND ENERGY FACILITIES AND INFRASTRUCTURE.

(a) FACILITY AND INFRASTRUCTURE POLICY.—The Secretary shall develop and implement a strategy for facilities and infrastructure supported primarily from the Office of Science, the Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy, or the Office of Nuclear Energy, Science, and Technology Programs at all National Laboratories and single-purpose research facilities. Such strategy shall provide cost-effective means for—

(1) maintaining existing facilities and infrastructure, as needed;

(2) closing unneeded facilities;

(3) making facility modifications; and

(4) building new facilities.

(b) REPORT.—

(1) IN GENERAL.—The Secretary shall prepare and transmit, along with the President’s budget request to Congress for fiscal year 2006, a report containing the strategy developed under subsection (a).

(2) CONTENTS.—For each National Laboratory and single-purpose research facility, for the facilities primarily used for science and energy research, such report shall contain—

(A) the current priority list of proposed facilities and infrastructure projects, including cost and schedule requirements;

(B) a current 10-year plan that demonstrates the reconfiguration of its facilities and infrastructure to meet its missions and to address its long-term operational costs and return on investment;

(C) the total current budget for all facilities and infrastructure funding; and

(D) the current status of each facility and infrastructure project compared to the original baseline cost, schedule, and scope.

SEC. 956. CATALYSIS RESEARCH AND DEVELOPMENT PROGRAM.

(a) ESTABLISHMENT.—The Secretary, through the Office of Science, shall support a program of research and development in catalysis science consistent with the Department’s statutory authorities related to research and development. The program shall include efforts to—

(1) enable catalyst design using combinations of experimental and mechanistic methodologies coupled with computational modeling of catalytic reactions at the molecular level;

(2) develop techniques for high throughput synthesis, assay, and characterization at nanometer and subnanometer scales in situ under actual operating conditions;

(3) synthesize catalysts with specific site architectures;

(4) conduct research on the use of precious metals for catalysis; and

(5) translate molecular understanding to the design of catalytic compounds.

(b) DUTIES OF THE OFFICE OF SCIENCE.—In carrying out the program under this section, the Director of the Office of Science shall—

(1) support both individual investigators and multidisciplinary teams of investigators to pioneer new approaches in catalytic design;

(2) develop, plan, construct, acquire, share, or operate special equipment or facilities for the use of investigators in collaboration with national user facilities such as nanoscience and engineering centers;

(3) support technology transfer activities to benefit industry and other users of catalysis science and engineering; and

(4) coordinate research and development activities with industry and other Federal agencies.

(c) TRIENNIAL ASSESSMENT.—The National Academy of Sciences shall review the catalysis program every 3 years to report on gains made in the fundamental science of catalysis and its progress towards developing new fuels for energy production and material fabrication processes.

SEC. 957. NANOSCALE SCIENCE AND ENGINEERING RESEARCH, DEVELOPMENT, DEMONSTRATION, AND COMMERCIAL APPLICATION.

(a) ESTABLISHMENT.—The Secretary, acting through the Office of Science, shall support a program of research, development, demonstration, and commercial application in nanoscience and nanoengineering. The program shall include efforts to further the understanding of the chemistry, physics, materials science, and engineering of phenomena on the scale of nanometers and to apply that knowledge to the Department’s mission areas.

(b) DUTIES OF THE OFFICE OF SCIENCE.—In carrying out the program under this section, the Office of Science shall—

(1) support both individual investigators and teams of investigators, including multidisciplinary teams;

(2) carry out activities under subsection (c);

(3) support technology transfer activities to benefit industry and other users of nanoscience and nanoengineering;

(4) coordinate research and development activities with other Department programs, industry, and other Federal agencies;

(5) ensure that societal and ethical concerns will be addressed as the technology is developed by—

(A) establishing a research program to identify societal and ethical concerns related to nanotechnology, and ensuring that the results of such research are widely disseminated; and

(B) integrating, insofar as possible, research on societal and ethical concerns with nanotechnology research and development; and

(6) ensure that the potential of nanotechnology to produce or facilitate the production of clean, inexpensive energy is realized by supporting nanotechnology energy applications research and development.

(c) NANOSCIENCE AND NANOENGINEERING RESEARCH CENTERS AND MAJOR INSTRUMENTATION.—

(1) IN GENERAL.—The Secretary shall carry out projects to develop, plan, construct, acquire, operate, or support special equipment, instrumentation, or facilities for investigators conducting research and development in nanoscience and nanoengineering.

(2) ACTIVITIES.—Projects under paragraph (1) may include the measurement of properties at the scale of nanometers, manipulation at such scales, and the integration of technologies based on nanoscience or nanoengineering into bulk materials or other technologies.

(3) FACILITIES.—Facilities under paragraph (1) may include electron microcharacterization facilities, microlithography facilities, scanning probe facilities, and related instrumentation.

(4) COLLABORATIONS.—The Secretary shall encourage collaborations among Department programs, institutions of higher education, laboratories, and industry at facilities under this subsection.

SEC. 958. ADVANCED SCIENTIFIC COMPUTING FOR ENERGY MISSIONS.

(a) IN GENERAL.—The Secretary, acting through the Office of Science, shall support a program to advance the Nation's computing capability across a diverse set of grand challenge, computationally based, science problems related to departmental missions.

(b) DUTIES OF THE OFFICE OF SCIENCE.—In carrying out the program under this section, the Office of Science shall—

(1) advance basic science through computation by developing software to solve grand challenge science problems on new generations of computing platforms in collaboration with other Department program offices;

(2) enhance the foundations for scientific computing by developing the basic mathematical and computing systems software needed to take full advantage of the computing capabilities of computers with peak speeds of 100 teraflops or more, some of which may be unique to the scientific problem of interest;

(3) enhance national collaborative and networking capabilities by developing software to integrate geographically separated researchers into effective research teams and to facilitate access to and movement and analysis of large (petabyte) data sets;

(4) develop and maintain a robust scientific computing hardware infrastructure to ensure that the computing resources needed to address departmental missions are available; and

(5) explore new computing approaches and technologies that promise to advance scientific computing, including developments in quantum computing.

(c) HIGH-PERFORMANCE COMPUTING ACT OF 1991 AMENDMENTS.—The High-Performance Computing Act of 1991 is amended—

(1) in section 4 (15 U.S.C. 5503)—

(A) in paragraph (3) by striking “means” and inserting “and networking and information technology mean”, and by striking “(including vector supercomputers and large scale parallel systems)”; and

(B) in paragraph (4), by striking “packet switched”; and

(2) in section 203 (15 U.S.C. 5523)—

(A) in subsection (a), by striking all after “As part of the” and inserting “Networking and Information Technology Research and Development Program, the Secretary of Energy shall conduct basic and applied research in networking and information technology, with emphasis on supporting fundamental research in the physical sciences and engineering, and energy applications; providing supercomputer access and advanced communication capabilities and facilities to scientific researchers; and developing tools for distributed scientific collaboration.”;

(B) in subsection (b), by striking “Program” and inserting “Networking and Information Technology Research and Development Program”; and

(C) by amending subsection (e) to read as follows:

“(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy to carry out the Networking and Information Technology Research and Development Program such sums as may be necessary for fiscal years 2004 through 2008.”.

(d) COORDINATION.—The Secretary shall ensure that the program under this section is integrated and consistent with—

(1) the Advanced Simulation and Computing Program, formerly known as the Accelerated Strategic Computing Initiative, of

the National Nuclear Security Administration; and

(2) other national efforts related to advanced scientific computing for science and engineering.

(e) REPORT.—

(1) IN GENERAL.—Before undertaking any new initiative to develop any new advanced architecture for high-speed computing, the Secretary, through the Director of the Office of Science, shall transmit a report to Congress describing—

(A) the expected duration and cost of the initiative;

(B) the technical milestones the initiative is designed to achieve;

(C) how institutions of higher education and private firms will participate in the initiative; and

(D) why the goals of the initiative could not be achieved through existing programs.

(2) LIMITATION.—No funds may be expended on any initiative described in paragraph (1) until 30 days after the report required by that paragraph is transmitted to Congress.

SEC. 959. GENOMES TO LIFE PROGRAM.

(a) PROGRAM.—

(1) ESTABLISHMENT.—The Secretary shall establish a research, development, and demonstration program in genetics, protein science, and computational biology to support the energy, national security, and environmental mission of the Department.

(2) GRANTS.—The program shall support individual investigators and multidisciplinary teams of investigators through competitive, merit-reviewed grants.

(3) CONSULTATION.—In carrying out the program, the Secretary shall consult with other Federal agencies that conduct genetic and protein research.

(b) GOALS.—The program shall have the goal of developing technologies and methods based on the biological functions of genomes, microbes, and plants that—

(1) can facilitate the production of fuels, including hydrogen;

(2) convert carbon dioxide to organic carbon;

(3) improve national security and combat terrorism;

(4) detoxify soils and water at Department facilities contaminated with heavy metals and radiological materials; and

(5) address other Department missions as identified by the Secretary.

(c) PLAN.—

(1) DEVELOPMENT OF PLAN.—Not later than 1 year after the date of enactment of this Act, the Secretary shall prepare and transmit to Congress a research plan describing how the program authorized pursuant to this section will be undertaken to accomplish the program goals established in subsection (b).

(2) REVIEW OF PLAN.—The Secretary shall contract with the National Academy of Sciences to review the research plan developed under this subsection. The Secretary shall transmit the review to Congress not later than 18 months after transmittal of the research plan under paragraph (1), along with the Secretary's response to the recommendations contained in the review.

(d) GENOMES TO LIFE USER FACILITIES AND ANCILLARY EQUIPMENT.—

(1) IN GENERAL.—Within the funds authorized to be appropriated pursuant to this Act, the amounts specified under section 951(b)(6) shall, subject to appropriations, be available for projects to develop, plan, construct, acquire, or operate special equipment, instrumentation, or facilities for investigators conducting research, development, demonstration, and commercial application in systems biology and proteomics and associated biological disciplines.

(2) FACILITIES.—Facilities under paragraph (1) may include facilities, equipment, or instrumentation for—

(A) the production and characterization of proteins;

(B) whole proteome analysis;

(C) characterization and imaging of molecular machines; and

(D) analysis and modeling of cellular systems.

(3) COLLABORATIONS.—The Secretary shall encourage collaborations among universities, laboratories, and industry at facilities under this subsection. All facilities under this subsection shall have a specific mission of technology transfer to other institutions.

(e) PROHIBITION ON BIOMEDICAL AND HUMAN CELL AND HUMAN SUBJECT RESEARCH.—

(1) NO BIOMEDICAL RESEARCH.—In carrying out the program under this section, the Secretary shall not conduct biomedical research.

(2) LIMITATIONS.—Nothing in this section shall authorize the Secretary to conduct any research or demonstrations—

(A) on human cells or human subjects; or

(B) designed to have direct application with respect to human cells or human subjects.

SEC. 960. FISSION AND FUSION ENERGY MATERIALS RESEARCH PROGRAM.

In the President's fiscal year 2006 budget request, the Secretary shall establish a research and development program on material science issues presented by advanced fission reactors and the Department's fusion energy program. The program shall develop a catalog of material properties required for these applications, develop theoretical models for materials possessing the required properties, benchmark models against existing data, and develop a roadmap to guide further research and development in this area.

SEC. 961. ENERGY-WATER SUPPLY PROGRAM.

(a) ESTABLISHMENT.—There is established within the Department the Energy-Water Supply Program, to study energy-related and certain other issues associated with the supply of drinking water and operation of community water systems and to study water supply issues related to energy.

(b) DEFINITIONS.—For the purposes of this section:

(1) ADMINISTRATOR.—The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) AGENCY.—The term “Agency” means the Environmental Protection Agency.

(3) FOUNDATION.—The term “Foundation” means the American Water Works Association Research Foundation.

(4) INDIAN TRIBE.—The term “Indian tribe” has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

(5) PROGRAM.—The term “Program” means the Energy-Water Supply Program established by this section.

(c) PROGRAM AREAS.—The Program shall develop methods, means, procedures, equipment, and improved technologies relating to—

(1) the arsenic removal program under subsection (d);

(2) the desalination program under subsection (e); and

(3) the water and energy sustainability program under subsection (f).

(d) ARSENIC REMOVAL PROGRAM.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary, in coordination with the Administrator and in partnership with the Foundation, shall utilize the facilities, institutions, and relationships established in the Consolidated Appropriations Resolution, 2003 as described in Senate Report 107-220 to carry out

a research program to provide innovative methods and means for removal of arsenic.

(2) **REQUIRED EVALUATIONS.**—The program shall, to the maximum extent practicable, evaluate the means of—

(A) reducing energy costs incurred in using arsenic removal technologies;

(B) minimizing materials, operating, and maintenance costs; and

(C) minimizing any quantities of waste (especially hazardous waste) that result from use of arsenic removal technologies.

(3) **PEER REVIEW.**—Where applicable and reasonably available, projects undertaken under this subsection shall be peer-reviewed.

(4) **COMMUNITY WATER SYSTEMS.**—In carrying out the program under this subsection, the Secretary, in coordination with the Administrator, shall—

(A) select projects involving a geographically and hydrologically diverse group of community water systems (as defined in section 1003 of the Public Health Service Act (42 U.S.C. 300)) and water chemistries, that have experienced technical or economic difficulties in providing drinking water with levels of arsenic at 10 parts-per-billion or lower, which projects shall be designed to develop innovative methods and means to deliver drinking water that contains less than 10 parts per billion of arsenic; and

(B) provide not less than 40 percent of all funds spent pursuant to this subsection to address the needs of, and in collaboration with, rural communities or Indian tribes.

(5) **COST EFFECTIVENESS.**—The Foundation shall create methods for determining cost effectiveness of arsenic removal technologies used in the program.

(6) **EDUCATION, TRAINING, AND TECHNOLOGY.**—The Foundation shall include education, training, and technology transfer as part of the program.

(7) **COORDINATION.**—The Secretary shall consult with the Administrator to ensure that all activities conducted under the program are coordinated with the Agency and do not duplicate other programs in the Agency and other Federal agencies, State programs, and academia.

(8) **REPORTS.**—Not later than 1 year after the date of commencement of the program under this subsection, and once every year thereafter, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Environment and Public Works and the Committee on Energy and Natural Resources of the Senate a report on the results of the program under this subsection.

(e) **DESALINATION PROGRAM.**—

(1) **IN GENERAL.**—The Secretary, in cooperation with the Commissioner of Reclamation of the Department of the Interior, shall carry out a program to conduct research and develop methods and means for desalination in accordance with the desalination technology progress plan developed under title II of the Energy and Water Development Appropriations Act, 2002 (115 Stat. 498), and described in Senate Report 107-39 under the heading “WATER AND RELATED RESOURCES” in the “BUREAU OF RECLAMATION” section.

(2) **REQUIREMENTS.**—The desalination program shall—

(A) use the resources of the Department and the Department of the Interior that were involved in the development of the 2003 National Desalination and Water Purification Technology Roadmap for next-generation desalination technology;

(B) focus on technologies that are appropriate for use in desalinating brackish groundwater, drinking water, wastewater and other saline water supplies, or disposal of residual brine or salt; and

(C) consider the use of renewable energy sources.

(3) **CONSTRUCTION PROJECTS.**—Funds made available to carry out this subsection may be used for construction projects, including completion of the National Desalination Research Center for brackish groundwater and ongoing operational costs of this facility.

(4) **STEERING COMMITTEE.**—The Secretary and the Commissioner of Reclamation of the Department of the Interior shall jointly establish a steering committee for activities conducted under this subsection. The steering committee shall be jointly chaired by 1 representative from the program and 1 representative from the Bureau of Reclamation.

(f) **WATER AND ENERGY SUSTAINABILITY PROGRAM.**—

(1) **IN GENERAL.**—The Secretary shall develop a program to identify methods, means, procedures, equipment, and improved technologies necessary to ensure that sufficient quantities of water are available to meet energy needs and sufficient energy is available to meet water needs.

(2) **ASSESSMENTS.**—In order to acquire information and avoid duplication, the Secretary shall work in collaboration with the Secretary of the Interior, the Army Corps of Engineers, the Administrator, the Secretary of Commerce, the Secretary of Defense, relevant State agencies, nongovernmental organizations, and academia, to assess—

(A) future water resources needed to support energy development and production within the United States including water used for hydropower, and production of, or electricity generation by, hydrogen, biomass, fossil fuels, and nuclear fuel;

(B) future energy resources needed to support water purification and wastewater treatment, including desalination and water conveyance;

(C) use of impaired and nontraditional water supplies for energy production other than oil and gas extraction;

(D) technology and programs for improving water use efficiency; and

(E) technologies to reduce water use in energy development and production.

(3) **ROADMAP; TOOLS.**—The Secretary shall—

(A) develop a program plan and technology development roadmap for the Water and Energy Sustainability Program to identify scientific and technical requirements and activities that are required to support planning for energy sustainability under current and potential future conditions of water availability, use of impaired water for energy production and other uses, and reduction of water use in energy development and production;

(B) develop tools for national and local energy and water sustainability planning, including numerical models, decision analysis tools, economic analysis tools, databases, and planning methodologies and strategies;

(C) implement at least 3 planning projects involving energy development or production that use the tools described in subparagraph (B) and assess the viability of those tools at the scale of river basins with at least 1 demonstration involving an international border; and

(D) transfer those tools to other Federal agencies, State agencies, nonprofit organizations, industry, and academia.

(4) **REPORT.**—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a report on the Water and Energy Sustainability Program that—

(A) includes the results of the assessment under paragraph (2) and the program plan and technology development roadmap; and

(B) identifies policy, legal, and institutional issues related to water and energy sustainability.

SEC. 962. NITROGEN FIXATION.

The Secretary, acting through the Office of Science, shall support a program of research, development, demonstration, and commercial application on biological nitrogen fixation, including plant genomics research relevant to the development of commercial crop varieties with enhanced nitrogen fixation efficiency and ability.

Subtitle G—Energy and Environment

SEC. 964. UNITED STATES-MEXICO ENERGY TECHNOLOGY COOPERATION.

(a) **PROGRAM.**—The Secretary shall establish a research, development, demonstration, and commercial application program to be carried out in collaboration with entities in Mexico and the United States to promote energy efficient, environmentally sound economic development along the United States-Mexico border that minimizes public health risks from industrial activities in the border region.

(b) **PROGRAM MANAGEMENT.**—The program under subsection (a) shall be managed by the Department of Energy Carlsbad Environmental Management Field Office.

(c) **TECHNOLOGY TRANSFER.**—In carrying out projects and activities under this section, the Secretary shall assess the applicability of technology developed under the Environmental Management Science Program of the Department.

(d) **INTELLECTUAL PROPERTY.**—In carrying out this section, the Secretary shall comply with the requirements of any agreement entered into between the United States and Mexico regarding intellectual property protection.

(e) **AUTHORIZATION OF APPROPRIATIONS.**—The following sums are authorized to be appropriated to the Secretary to carry out activities under this section:

(1) For each of fiscal years 2004 and 2005, \$5,000,000.

(2) For each of fiscal years 2006, 2007, and 2008, \$6,000,000.

SEC. 965. WESTERN HEMISPHERE ENERGY COOPERATION.

(a) **PROGRAM.**—The Secretary shall carry out a program to promote cooperation on energy issues with Western Hemisphere countries.

(b) **ACTIVITIES.**—Under the program, the Secretary shall fund activities to work with Western Hemisphere countries to—

(1) assist the countries in formulating and adopting changes in economic policies and other policies to—

(A) increase the production of energy supplies; and

(B) improve energy efficiency; and

(2) assist in the development and transfer of energy supply and efficiency technologies that would have a beneficial impact on world energy markets.

(c) **UNIVERSITY PARTICIPATION.**—To the extent practicable, the Secretary shall carry out the program under this section with the participation of universities so as to take advantage of the acceptance of universities by Western Hemisphere countries as sources of unbiased technical and policy expertise when assisting the Secretary in—

(1) evaluating new technologies;

(2) resolving technical issues;

(3) working with those countries in the development of new policies; and

(4) training policymakers, particularly in the case of universities that involve the participation of minority students, such as Hispanic-serving institutions and Historically Black Colleges and Universities.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this section—

(1) \$8,000,000 for fiscal year 2004;

(2) \$10,000,000 for fiscal year 2005;

- (3) \$13,000,000 for fiscal year 2006;
- (4) \$16,000,000 for fiscal year 2007; and
- (5) \$19,000,000 for fiscal year 2008.

SEC. 966. WASTE REDUCTION AND USE OF ALTERNATIVES.

(a) GRANT AUTHORITY.—The Secretary may make a single grant to a qualified institution to examine and develop the feasibility of burning post-consumer carpet in cement kilns as an alternative energy source. The purposes of the grant shall include determining—

- (1) how post-consumer carpet can be burned without disrupting kiln operations;
- (2) the extent to which overall kiln emissions may be reduced;
- (3) the emissions of air pollutants and other relevant environmental impacts; and
- (4) how this process provides benefits to both cement kiln operations and carpet suppliers.

(b) QUALIFIED INSTITUTION.—For the purposes of subsection (a), a qualified institution is a research-intensive institution of higher education with demonstrated expertise in the fields of fiber recycling and logistical modeling of carpet waste collection and preparation.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section \$500,000.

SEC. 967. REPORT ON FUEL CELL TEST CENTER.

(a) REPORT.—Not later than 1 year after the date of enactment of this Act, the Secretary shall transmit to Congress a report on the results of a study of the establishment of a test center for next-generation fuel cells at an institution of higher education that has available a continuous source of hydrogen and access to the electric transmission grid. Such report shall include a conceptual design for such test center and a projection of the costs of establishing the test center.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section \$500,000.

SEC. 968. ARCTIC ENGINEERING RESEARCH CENTER.

(a) IN GENERAL.—The Secretary of Energy (referred to in this section as the “Secretary”) in consultation with the Secretary of Transportation and the United States Arctic Research Commission shall provide annual grants to a university located adjacent to the Arctic Energy Office of the Department of Energy, to establish and operate a university research center to be headquartered in Fairbanks and to be known as the “Arctic Engineering Research Center” (referred to in this section as the “Center”).

(b) PURPOSE.—The purpose of the Center shall be to conduct research on, and develop improved methods of, construction and use of materials to improve the overall performance of roads, bridges, residential, commercial, and industrial structures, and other infrastructure in the Arctic region, with an emphasis on developing—

- (1) new construction techniques for roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure that are capable of withstanding the Arctic environment and using limited energy resources as efficiently as possible;

(2) technologies and procedures for increasing road, bridge, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure safety, reliability, and integrity in the Arctic region;

(3) new materials and improving the performance and energy efficiency of existing materials for the construction of roads, bridges, rail, and related transportation in-

frastructure and residential, commercial, and industrial infrastructure in the Arctic region; and

(4) recommendations for new local, regional, and State permitting and building codes to ensure transportation and building safety and efficient energy use when constructing, using, and occupying such infrastructure in the Arctic region.

(c) OBJECTIVES.—The Center shall carry out—

- (1) basic and applied research in the subjects described in subsection (b), the products of which shall be judged by peers or other experts in the field to advance the body of knowledge in road, bridge, rail, and infrastructure engineering in the Arctic region; and

(2) an ongoing program of technology transfer that makes research results available to potential users in a form that can be implemented.

(d) AMOUNT OF GRANT.—For each of fiscal years 2004 through 2009, the Secretary shall provide a grant in the amount of \$3,000,000 to the institution specified in subsection (a) to carry out this section.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section \$3,000,000 for each of fiscal years 2004 through 2009.

SEC. 969. BARROW GEOPHYSICAL RESEARCH FACILITY.

(a) ESTABLISHMENT.—The Secretary of Commerce, in consultation with the Secretaries of Energy and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency, shall establish a joint research facility in Barrow, Alaska, to be known as the “Barrow Geophysical Research Facility”, to support scientific research activities in the Arctic.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretaries of Commerce, Energy, and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency for the planning, design, construction, and support of the Barrow Geophysical Research Facility \$61,000,000.

SEC. 970. WESTERN MICHIGAN DEMONSTRATION PROJECT.

The Administrator of the Environmental Protection Agency, in consultation with the State of Michigan and affected local officials, shall conduct a demonstration project to address the effect of transported ozone and ozone precursors in Southwestern Michigan. The demonstration program shall address projected nonattainment areas in Southwestern Michigan that include counties with design values for ozone of less than .095 based on years 2000 to 2002 or the most current 3-year period of air quality data. The Administrator shall assess any difficulties such areas may experience in meeting the 8 hour national ambient air quality standard for ozone due to the effect of transported ozone or ozone precursors into the areas. The Administrator shall work with State and local officials to determine the extent of ozone and ozone precursor transport, to assess alternatives to achieve compliance with the 8 hour standard apart from local controls, and to determine the timeframe in which such compliance could take place. The Administrator shall complete this demonstration project no later than 2 years after the date of enactment of this section and shall not impose any requirement or sanction that might otherwise apply during the pendency of the demonstration project.

Subtitle H—Management

SEC. 971. AVAILABILITY OF FUNDS.

Funds authorized to be appropriated to the Department under this title shall remain available until expended.

SEC. 972. COST SHARING.

(a) RESEARCH AND DEVELOPMENT.—Except as otherwise provided in this title, for research and development programs carried out under this title the Secretary shall require a commitment from non-Federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement under this subsection if the Secretary determines that the research and development is of a basic or fundamental nature or involves technical analyses or educational activities.

(b) DEMONSTRATION AND COMMERCIAL APPLICATION.—Except as otherwise provided in this title, the Secretary shall require at least 50 percent of the costs directly and specifically related to any demonstration or commercial application project under this title to be provided from non-Federal sources. The Secretary may reduce the non-Federal requirement under this subsection if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project and is necessary to meet the objectives of this title.

(c) CALCULATION OF AMOUNT.—In calculating the amount of the non-Federal commitment under subsection (a) or (b), the Secretary may include personnel, services, equipment, and other resources.

(d) SIZE OF NON-FEDERAL SHARE.—The Secretary may consider the size of the non-Federal share in selecting proposals.

SEC. 973. MERIT REVIEW OF PROPOSALS.

Awards of funds authorized under this title shall be made only after an impartial review of the scientific and technical merit of the proposals for such awards has been carried out by or for the Department.

SEC. 974. EXTERNAL TECHNICAL REVIEW OF DEPARTMENTAL PROGRAMS.

(a) NATIONAL ENERGY RESEARCH AND DEVELOPMENT ADVISORY BOARDS.—

(1) IN GENERAL.—The Secretary shall establish 1 or more advisory boards to review Department research, development, demonstration, and commercial application programs in energy efficiency, renewable energy, nuclear energy, and fossil energy.

(2) EXISTING ADVISORY BOARDS.—The Secretary may designate an existing advisory board within the Department to fulfill the responsibilities of an advisory board under this subsection, and may enter into appropriate arrangements with the National Academy of Sciences to establish such an advisory board.

(b) OFFICE OF SCIENCE ADVISORY COMMITTEES.—

(1) UTILIZATION OF EXISTING COMMITTEES.—The Secretary shall continue to use the scientific program advisory committees chartered under the Federal Advisory Committee Act (5 U.S.C. App.) by the Office of Science to oversee research and development programs under that Office.

(2) SCIENCE ADVISORY COMMITTEE.—

(A) ESTABLISHMENT.—There shall be in the Office of Science a Science Advisory Committee that includes the chairs of each of the advisory committees described in paragraph (1).

(B) RESPONSIBILITIES.—The Science Advisory Committee shall—

(i) serve as the science advisor to the Director of the Office of Science;

(ii) advise the Director with respect to the well-being and management of the National Laboratories and single-purpose research facilities;

(iii) advise the Director with respect to education and workforce training activities required for effective short-term and long-term basic and applied research activities of the Office of Science; and

(iv) advise the Director with respect to the well being of the university research programs supported by the Office of Science.

(c) MEMBERSHIP.—Each advisory board under this section shall consist of persons with appropriate expertise representing a diverse range of interests.

(d) MEETINGS AND PURPOSES.—Each advisory board under this section shall meet at least semiannually to review and advise on the progress made by the respective research, development, demonstration, and commercial application program or programs. The advisory board shall also review the measurable cost and performance-based goals for such programs as established under section 901(b), and the progress on meeting such goals.

(e) PERIODIC REVIEWS AND ASSESSMENTS.—The Secretary shall enter into appropriate arrangements with the National Academy of Sciences to conduct periodic reviews and assessments of the programs authorized by this title, the measurable cost and performance-based goals for such programs as established under section 901(b), if any, and the progress on meeting such goals. Such reviews and assessments shall be conducted every 5 years, or more often as the Secretary considers necessary, and the Secretary shall transmit to Congress reports containing the results of all such reviews and assessments.

SEC. 975. IMPROVED COORDINATION OF TECHNOLOGY TRANSFER ACTIVITIES.

(a) TECHNOLOGY TRANSFER COORDINATOR.—The Secretary shall designate a Technology Transfer Coordinator to perform oversight of and policy development for technology transfer activities at the Department. The Technology Transfer Coordinator shall—

(1) coordinate the activities of the Technology Transfer Working Group;

(2) oversee the expenditure of funds allocated to the Technology Transfer Working Group; and

(3) coordinate with each technology partnership ombudsman appointed under section 11 of the Technology Transfer Commercialization Act of 2000 (42 U.S.C. 7261c).

(b) TECHNOLOGY TRANSFER WORKING GROUP.—The Secretary shall establish a Technology Transfer Working Group, which shall consist of representatives of the National Laboratories and single-purpose research facilities, to—

(1) coordinate technology transfer activities occurring at National Laboratories and single-purpose research facilities;

(2) exchange information about technology transfer practices, including alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters; and

(3) develop and disseminate to the public and prospective technology partners information about opportunities and procedures for technology transfer with the Department, including those related to alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters.

(c) TECHNOLOGY TRANSFER RESPONSIBILITY.—Nothing in this section shall affect the technology transfer responsibilities of Federal employees under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

SEC. 976. FEDERAL LABORATORY EDUCATIONAL PARTNERS.

(a) DISTRIBUTION OF ROYALTIES RECEIVED BY FEDERAL AGENCIES.—Section 14(a)(1)(B)(v) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710c(a)(1)(B)(v)), is amended to read as follows:

“(v) for scientific research and development and for educational assistance and other purposes consistent with the missions

and objectives of the agency and the laboratory.”.

(b) COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS.—Section 12(b)(5)(C) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a(b)(5)(C)) is amended to read as follows:

“(C) for scientific research and development and for educational assistance consistent with the missions and objectives of the agency and the laboratory.”.

SEC. 977. INTERAGENCY COOPERATION.

The Secretary shall enter into discussions with the Administrator of the National Aeronautics and Space Administration with the goal of reaching an interagency working agreement between the 2 agencies that would make the National Aeronautics and Space Administration's expertise in energy, gained from its existing and planned programs, more readily available to the relevant research, development, demonstration, and commercial applications programs of the Department. Technologies to be discussed should include the National Aeronautics and Space Administration's modeling, research, development, testing, and evaluation of new energy technologies, including solar, wind, fuel cells, and hydrogen storage and distribution.

SEC. 978. TECHNOLOGY INFRASTRUCTURE PROGRAM.

(a) ESTABLISHMENT.—The Secretary shall establish a Technology Infrastructure Program in accordance with this section.

(b) PURPOSE.—The purpose of the Technology Infrastructure Program shall be to improve the ability of National Laboratories and single-purpose research facilities to support departmental missions by—

(1) stimulating the development of technology clusters that can support departmental missions at the National Laboratories or single-purpose research facilities;

(2) improving the ability of National Laboratories and single-purpose research facilities to leverage and benefit from commercial research, technology, products, processes, and services; and

(3) encouraging the exchange of scientific and technological expertise between National Laboratories or single-purpose research facilities and entities that can support departmental missions at the National Laboratories or single-purpose research facilities, such as institutions of higher education; technology-related business concerns; nonprofit institutions; and agencies of State, tribal, or local governments.

(c) PROJECTS.—The Secretary shall authorize the Director of each National Laboratory or single-purpose research facility to implement the Technology Infrastructure Program at such National Laboratory or facility through projects that meet the requirements of subsections (d) and (e).

(d) PROGRAM REQUIREMENTS.—Each project funded under this section shall meet the following requirements:

(1) Each project shall include at least 1 of each of the following entities: a business; an institution of higher education; a nonprofit institution; and an agency of a State, local, or tribal government.

(2) Not less than 50 percent of the costs of each project funded under this section shall be provided from non-Federal sources. The calculation of costs paid by the non-Federal sources to a project shall include cash, personnel, services, equipment, and other resources expended on the project after start of the project. Independent research and development expenses of Government contractors that qualify for reimbursement under section 31.205-18(e) of the Federal Acquisition Regulation issued pursuant to section 25(c)(1) of the Office of Federal Procurement

Policy Act (41 U.S.C. 421(c)(1)) may be credited toward costs paid by non-Federal sources to a project, if the expenses meet the other requirements of this section.

(3) All projects under this section shall be competitively selected using procedures determined by the Secretary.

(4) Any participant that receives funds under this section may use generally accepted accounting principles for maintaining accounts, books, and records relating to the project.

(5) No Federal funds shall be made available under this section for construction or any project for more than 5 years.

(e) SELECTION CRITERIA.—

(1) IN GENERAL.—The Secretary shall allocate funds under this section only if the Director of the National Laboratory or single-purpose research facility managing the project determines that the project is likely to improve the ability of the National Laboratory or single-purpose research facility to achieve technical success in meeting departmental missions.

(2) CRITERIA.—The Secretary shall consider the following criteria in selecting a project to receive Federal funds:

(A) The potential of the project to promote the development of a commercially sustainable technology cluster following the period of Department investment, which will derive most of the demand for its products or services from the private sector, and which will support departmental missions at the participating National Laboratory or single-purpose research facility.

(B) The potential of the project to promote the use of commercial research, technology, products, processes, and services by the participating National Laboratory or single-purpose research facility to achieve its mission or the commercial development of technological innovations made at the participating National Laboratory or single-purpose research facility.

(C) The extent to which the project involves a wide variety and number of institutions of higher education, nonprofit institutions, and technology-related business concerns that can support the missions of the participating National Laboratory or single-purpose research facility and that will make substantive contributions to achieving the goals of the project.

(D) The extent to which the project focuses on promoting the development of technology-related business concerns that are small businesses or involves such small businesses substantively in the project.

(E) Such other criteria as the Secretary determines to be appropriate.

(f) ALLOCATION.—In allocating funds for projects approved under this section, the Secretary shall provide—

(1) the Federal share of the project costs; and

(2) additional funds to the National Laboratory or single-purpose research facility managing the project to permit the National Laboratory or single-purpose research facility to carry out activities relating to the project, and to coordinate such activities with the project.

(g) REPORT TO CONGRESS.—Not later than July 1, 2006, the Secretary shall report to Congress on whether the Technology Infrastructure Program should be continued and, if so, how the program should be managed.

(h) DEFINITIONS.—In this section:

(1) TECHNOLOGY CLUSTER.—The term “technology cluster” means a concentration of technology-related business concerns, institutions of higher education, or nonprofit institutions that reinforce each other's performance in the areas of technology development through formal or informal relationships.

(2) TECHNOLOGY-RELATED BUSINESS CONCERN.—The term “technology-related business concern” means a for-profit corporation, company, association, firm, partnership, or small business concern that conducts scientific or engineering research; develops new technologies; manufactures products based on new technologies; or performs technological services.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for activities under this section \$10,000,000 for each of fiscal years 2004, 2005, and 2006.

SEC. 979. REPROGRAMMING.

(a) DISTRIBUTION REPORT.—Not later than 60 days after the date of the enactment of an Act appropriating amounts authorized under this title, the Secretary shall transmit to the appropriate authorizing committees of Congress a report explaining how such amounts will be distributed among the authorizations contained in this title.

(b) PROHIBITION.—

(1) IN GENERAL.—No amount identified under subsection (a) shall be reprogrammed if such reprogramming would result in an obligation which changes an individual distribution required to be reported under subsection (a) by more than 5 percent unless the Secretary has transmitted to the appropriate authorizing committees of Congress a report described in subsection (c) and a period of 30 days has elapsed after such committees receive the report.

(2) COMPUTATION.—In the computation of the 30-day period described in paragraph (1), there shall be excluded any day on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain.

(c) REPROGRAMMING REPORT.—A report referred to in subsection (b)(1) shall contain a full and complete statement of the action proposed to be taken and the facts and circumstances relied on in support of the proposed action.

SEC. 980. CONSTRUCTION WITH OTHER LAWS.

Except as otherwise provided in this title, the Secretary shall carry out the research, development, demonstration, and commercial application programs, projects, and activities authorized by this title in accordance with the applicable provisions of the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), the Federal Nonnuclear Research and Development Act of 1974 (42 U.S.C. 5901 et seq.), the Energy Policy Act of 1992 (42 U.S.C. 13201 et seq.), the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.), chapter 18 of title 35, United States Code (commonly referred to as the Bayh-Dole Act), and any other Act under which the Secretary is authorized to carry out such activities.

SEC. 981. REPORT ON RESEARCH AND DEVELOPMENT PROGRAM EVALUATION METHODOLOGIES.

Not later than 180 days after the date of enactment of this Act, the Secretary shall enter into appropriate arrangements with the National Academy of Sciences to investigate and report on the scientific and technical merits of any evaluation methodology currently in use or proposed for use in relation to the scientific and technical programs of the Department by the Secretary or other Federal official. Not later than 6 months after receiving the report of the National Academy, the Secretary shall submit such report to Congress, along with any other views or plans of the Secretary with respect to the future use of such evaluation methodology.

SEC. 982. DEPARTMENT OF ENERGY SCIENCE AND TECHNOLOGY SCHOLARSHIP PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—

(1) IN GENERAL.—The Secretary is authorized to establish a Department of Energy Science and Technology Scholarship Program to award scholarships to individuals that is designed to recruit and prepare students for careers in the Department.

(2) COMPETITIVE PROCESS.—Individuals shall be selected to receive scholarships under this section through a competitive process primarily on the basis of academic merit, with consideration given to financial need and the goal of promoting the participation of individuals identified in section 33 or 34 of the Science and Engineering Equal Opportunities Act (42 U.S.C. 1885a or 1885b).

(3) SERVICE AGREEMENTS.—To carry out the Program the Secretary shall enter into contractual agreements with individuals selected under paragraph (2) under which the individuals agree to serve as full-time employees of the Department, for the period described in subsection (f)(1), in positions needed by the Department and for which the individuals are qualified, in exchange for receiving a scholarship.

(b) SCHOLARSHIP ELIGIBILITY.—In order to be eligible to participate in the Program, an individual must—

(1) be enrolled or accepted for enrollment as a full-time student at an institution of higher education in an academic program or field of study described in the list made available under subsection (d);

(2) be a United States citizen; and

(3) at the time of the initial scholarship award, not be a Federal employee as defined in section 2105 of title 5 of the United States Code.

(c) APPLICATION REQUIRED.—An individual seeking a scholarship under this section shall submit an application to the Secretary at such time, in such manner, and containing such information, agreements, or assurances as the Secretary may require.

(d) ELIGIBLE ACADEMIC PROGRAMS.—The Secretary shall make publicly available a list of academic programs and fields of study for which scholarships under the Program may be utilized, and shall update the list as necessary.

(e) SCHOLARSHIP REQUIREMENT.—

(1) IN GENERAL.—The Secretary may provide a scholarship under the Program for an academic year if the individual applying for the scholarship has submitted to the Secretary, as part of the application required under subsection (c), a proposed academic program leading to a degree in a program or field of study on the list made available under subsection (d).

(2) DURATION OF ELIGIBILITY.—An individual may not receive a scholarship under this section for more than 4 academic years, unless the Secretary grants a waiver.

(3) SCHOLARSHIP AMOUNT.—The dollar amount of a scholarship under this section for an academic year shall be determined under regulations issued by the Secretary, but shall in no case exceed the cost of attendance.

(4) AUTHORIZED USES.—A scholarship provided under this section may be expended for tuition, fees, and other authorized expenses as established by the Secretary by regulation.

(5) CONTRACTS REGARDING DIRECT PAYMENTS TO INSTITUTIONS.—The Secretary may enter into a contractual agreement with an institution of higher education under which the amounts provided for a scholarship under this section for tuition, fees, and other authorized expenses are paid directly to the institution with respect to which the scholarship is provided.

(f) PERIOD OF OBLIGATED SERVICE.—

(1) DURATION OF SERVICE.—The period of service for which an individual shall be obligated to serve as an employee of the Depart-

ment is, except as provided in subsection (h)(2), 24 months for each academic year for which a scholarship under this section is provided.

(2) SCHEDULE FOR SERVICE.—

(A) IN GENERAL.—Except as provided in subparagraph (B), obligated service under paragraph (1) shall begin not later than 60 days after the individual obtains the educational degree for which the scholarship was provided.

(B) DEFERRAL.—The Secretary may defer the obligation of an individual to provide a period of service under paragraph (1) if the Secretary determines that such a deferral is appropriate. The Secretary shall prescribe the terms and conditions under which a service obligation may be deferred through regulation.

(g) PENALTIES FOR BREACH OF SCHOLARSHIP AGREEMENT.—

(1) FAILURE TO COMPLETE ACADEMIC TRAINING.—Scholarship recipients who fail to maintain a high level of academic standing, as defined by the Secretary by regulation, who are dismissed from their educational institutions for disciplinary reasons, or who voluntarily terminate academic training before graduation from the educational program for which the scholarship was awarded, shall be in breach of their contractual agreement and, in lieu of any service obligation arising under such agreement, shall be liable to the United States for repayment not later than 1 year after the date of default of all scholarship funds paid to them and to the institution of higher education on their behalf under the agreement, except as provided in subsection (h)(2). The repayment period may be extended by the Secretary when determined to be necessary, as established by regulation.

(2) FAILURE TO BEGIN OR COMPLETE THE SERVICE OBLIGATION OR MEET THE TERMS AND CONDITIONS OF DEFERMENT.—A scholarship recipient who, for any reason, fails to begin or complete a service obligation under this section after completion of academic training, or fails to comply with the terms and conditions of deferment established by the Secretary pursuant to subsection (f)(2)(B), shall be in breach of the contractual agreement. When a recipient breaches an agreement for the reasons stated in the preceding sentence, the recipient shall be liable to the United States for an amount equal to—

(A) the total amount of scholarships received by such individual under this section; plus

(B) the interest on the amounts of such awards which would be payable if at the time the awards were received they were loans bearing interest at the maximum legal prevailing rate, as determined by the Treasurer of the United States, multiplied by 3.

(h) WAIVER OR SUSPENSION OF OBLIGATION.—

(1) DEATH OF INDIVIDUAL.—Any obligation of an individual incurred under the Program (or a contractual agreement thereunder) for service or payment shall be canceled upon the death of the individual.

(2) IMPOSSIBILITY OR EXTREME HARDSHIP.—The Secretary shall by regulation provide for the partial or total waiver or suspension of any obligation of service or payment incurred by an individual under the Program (or a contractual agreement thereunder) whenever compliance by the individual is impossible or would involve extreme hardship to the individual, or if enforcement of such obligation with respect to the individual would be contrary to the best interests of the Government.

(i) DEFINITIONS.—In this section the following definitions apply:

(1) **COST OF ATTENDANCE.**—The term “cost of attendance” has the meaning given that term in section 472 of the Higher Education Act of 1965 (20 U.S.C. 10871).

(2) **PROGRAM.**—The term “Program” means the Department of Energy Science and Technology Scholarship Program established under this section.

(j) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary for activities under this section—

- (1) for fiscal year 2004, \$800,000;
- (2) for fiscal year 2005, \$1,600,000;
- (3) for fiscal year 2006, \$2,000,000;
- (4) for fiscal year 2007, \$2,000,000; and
- (5) for fiscal year 2008, \$2,000,000.

SEC. 983. REPORT ON EQUAL EMPLOYMENT OPPORTUNITY PRACTICES.

Not later than 12 months after the date of enactment of this Act, and biennially thereafter, the Secretary shall transmit to Congress a report on the equal employment opportunity practices at National Laboratories. Such report shall include—

(1) a thorough review of each laboratory contractor’s equal employment opportunity policies, including promotion to management and professional positions and pay raises;

(2) a statistical report on complaints and their disposition in the laboratories;

(3) a description of how equal employment opportunity practices at the laboratories are treated in the contract and in calculating award fees for each contractor;

(4) a summary of disciplinary actions and their disposition by either the Department or the relevant contractors for each laboratory;

(5) a summary of outreach efforts to attract women and minorities to the laboratories;

(6) a summary of efforts to retain women and minorities in the laboratories; and

(7) a summary of collaboration efforts with the Office of Federal Contract Compliance Programs to improve equal employment opportunity practices at the laboratories.

SEC. 984. SMALL BUSINESS ADVOCACY AND ASSISTANCE.

(a) **SMALL BUSINESS ADVOCATE.**—The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to designate a small business advocate to—

(1) increase the participation of small business concerns, including socially and economically disadvantaged small business concerns, in procurement, collaborative research, technology licensing, and technology transfer activities conducted by the National Laboratory or single-purpose research facility;

(2) report to the Director of the National Laboratory or single-purpose research facility on the actual participation of small business concerns, including socially and economically disadvantaged small business concerns, in procurement, collaborative research, technology licensing, and technology transfer activities along with recommendations, if appropriate, on how to improve participation;

(3) make available to small businesses training, mentoring, and information on how to participate in procurement and collaborative research activities;

(4) increase the awareness inside the National Laboratory or single-purpose research facility of the capabilities and opportunities presented by small business concerns; and

(5) establish guidelines for the program under subsection (b) and report on the effectiveness of such program to the Director of the National Laboratory or single-purpose research facility.

(b) **ESTABLISHMENT OF SMALL BUSINESS ASSISTANCE PROGRAM.**—The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to establish a program to provide small business concerns—

(1) assistance directed at making them more effective and efficient subcontractors or suppliers to the National Laboratory or single-purpose research facility; or

(2) general technical assistance, the cost of which shall not exceed \$10,000 per instance of assistance, to improve the small business concerns’ products or services.

(c) **USE OF FUNDS.**—None of the funds expended under subsection (b) may be used for direct grants to the small business concerns.

(d) **DEFINITIONS.**—In this section:

(1) **SMALL BUSINESS CONCERN.**—The term “small business concern” has the meaning given such term in section 3 of the Small Business Act (15 U.S.C. 632).

(2) **SOCIALLY AND ECONOMICALLY DISADVANTAGED SMALL BUSINESS CONCERNS.**—The term “socially and economically disadvantaged small business concerns” has the meaning given such term in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4)).

(e) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Secretary for activities under this section \$5,000,000 for each of fiscal years 2004 through 2008.

SEC. 985. REPORT ON MOBILITY OF SCIENTIFIC AND TECHNICAL PERSONNEL.

Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit a report to Congress identifying any policies or procedures of a contractor operating a National Laboratory or single-purpose research facility that create disincentives to the temporary transfer of scientific and technical personnel among the contractor-operated National Laboratories or contractor-operated single-purpose research facilities and provide suggestions for improving interlaboratory exchange of scientific and technical personnel.

SEC. 986. NATIONAL ACADEMY OF SCIENCES REPORT.

Not later than 90 days after the date of enactment of this Act, the Secretary shall enter into an arrangement with the National Academy of Sciences for the Academy to—

(1) conduct a study on—

(A) the obstacles to accelerating the commercial application of energy technology; and

(B) the adequacy of Department policies and procedures for, and oversight of, technology transfer-related disputes between contractors of the Department and the private sector; and

(2) transmit a report to Congress on recommendations developed as a result of the study.

SEC. 987. OUTREACH.

The Secretary shall ensure that each program authorized by this title includes an outreach component to provide information, as appropriate, to manufacturers, consumers, engineers, architects, builders, energy service companies, institutions of higher education, small businesses, facility planners and managers, State and local governments, and other entities.

SEC. 988. COMPETITIVE AWARD OF MANAGEMENT CONTRACTS.

None of the funds authorized to be appropriated to the Secretary by this title may be used to award a management and operating contract for a nonmilitary energy laboratory of the Department unless such contract is competitively awarded or the Secretary grants, on a case-by-case basis, a waiver to allow for such a deviation. The Secretary

may not delegate the authority to grant such a waiver and shall submit to Congress a report notifying Congress of the waiver and setting forth the reasons for the waiver at least 60 days prior to the date of the award of such a contract.

SEC. 989. EDUCATIONAL PROGRAMS IN SCIENCE AND MATHEMATICS.

(a) **ACTIVITIES.**—Section 3165(a) of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381b(a)) is amended by adding at the end the following:

“(14) Support competitive events for students, under supervision of teachers, designed to encourage student interest and knowledge in science and mathematics.”.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—Section 3169 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381e), as so redesignated by section 1102(b), is amended by inserting before the period “; and \$40,000,000 for each of fiscal years 2004 through 2008”.

TITLE X—DEPARTMENT OF ENERGY MANAGEMENT

SEC. 1001. ADDITIONAL ASSISTANT SECRETARY POSITION.

(a) **ADDITIONAL ASSISTANT SECRETARY POSITION TO ENABLE IMPROVED MANAGEMENT OF NUCLEAR ENERGY ISSUES.**—

(1) **IN GENERAL.**—Section 203(a) of the Department of Energy Organization Act (42 U.S.C. 7133(a)) is amended by striking “six Assistant Secretaries” and inserting “7 Assistant Secretaries”.

(2) **SENSE OF CONGRESS.**—It is the sense of Congress that the leadership for departmental missions in nuclear energy should be at the Assistant Secretary level.

(b) **TECHNICAL AND CONFORMING AMENDMENTS.**—

(1) **TITLE 5.**—Section 5315 of title 5, United States Code, is amended by striking “Assistant Secretaries of Energy (6)” and inserting “Assistant Secretaries of Energy (7)”.

(2) **DEPARTMENT OF ENERGY ORGANIZATION ACT.**—The table of contents for the Department of Energy Organization Act (42 U.S.C. 7101 note) is amended—

(A) by striking “Section 209” and inserting “Sec. 209”;

(B) by striking “213.” and inserting “Sec. 213.”;

(C) by striking “214.” and inserting “Sec. 214.”;

(D) by striking “215.” and inserting “Sec. 215.”; and

(E) by striking “216.” and inserting “Sec. 216.”.

SEC. 1002. OTHER TRANSACTIONS AUTHORITY.

Section 646 of the Department of Energy Organization Act (42 U.S.C. 7256) is amended by adding at the end the following:

“(g)(1) In addition to other authorities granted to the Secretary under law, the Secretary may enter into other transactions on such terms as the Secretary may deem appropriate in furtherance of research, development, or demonstration functions vested in the Secretary. Such other transactions shall not be subject to the provisions of section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908) or section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182).

“(2)(A) The Secretary shall ensure that—

“(i) to the maximum extent the Secretary determines practicable, no transaction entered into under paragraph (1) provides for research, development, or demonstration that duplicates research, development, or demonstration being conducted under existing projects carried out by the Department;

“(ii) to the extent the Secretary determines practicable, the funds provided by the Government under a transaction authorized by paragraph (1) do not exceed the total

amount provided by other parties to the transaction; and

“(iii) to the extent the Secretary determines practicable, competitive, merit-based selection procedures shall be used when entering into transactions under paragraph (1).

“(B) A transaction authorized by paragraph (1) may be used for a research, development, or demonstration project only if the Secretary makes a written determination that the use of a standard contract, grant, or cooperative agreement for the project is not feasible or appropriate.

“(3)(A) The Secretary shall protect from disclosure, including disclosure under section 552 of title 5, United States Code, for up to 5 years after the date the information is received by the Secretary—

“(i) a proposal, proposal abstract, and supporting documents submitted to the Department in a competitive or noncompetitive process having the potential for resulting in an award under paragraph (1) to the party submitting the information; and

“(ii) a business plan and technical information relating to a transaction authorized by paragraph (1) submitted to the Department as confidential business information.

“(B) The Secretary may protect from disclosure, for up to 5 years after the information was developed, any information developed pursuant to a transaction under paragraph (1) which developed information is of a character that it would be protected from disclosure under section 552(b)(4) of title 5, United States Code, if obtained from a person other than a Federal agency.

“(4) Not later than 90 days after the date of enactment of this subsection, the Secretary shall prescribe guidelines for using other transactions authorized by paragraph (1). Such guidelines shall be published in the Federal Register for public comment under rulemaking procedures of the Department.

“(5) The authority of the Secretary under this subsection may be delegated only to an officer of the Department who is appointed by the President by and with the advice and consent of the Senate and may not be delegated to any other person.

“(6)(A) Not later than September 31, 2005, the Comptroller General of the United States shall report to Congress on the Department's use of the authorities granted under this section, including the ability to attract non-traditional government contractors and whether additional safeguards are needed with respect to the use of such authorities.

“(B) In this section, the term ‘nontraditional Government contractor’ has the same meaning as the term ‘nontraditional defense contractor’ as defined in section 845(e) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 10 U.S.C. 2371 note).”

TITLE XI—PERSONNEL AND TRAINING

SEC. 1101. TRAINING GUIDELINES FOR ELECTRIC ENERGY INDUSTRY PERSONNEL.

The Secretary of Energy, in consultation with the Secretary of Labor and jointly with the electric industry and recognized employee representatives, shall develop model personnel training guidelines to support electric system reliability and safety. The training guidelines shall, at a minimum—

(1) include training requirements for workers engaged in the construction, operation, inspection, and maintenance of electric generation, transmission, and distribution, including competency and certification requirements, and assessment requirements that include initial and ongoing evaluation of workers, recertification assessment procedures, and methods for examining or testing the qualification of individuals performing covered tasks; and

(2) consolidate existing training guidelines on the construction, operation, maintenance,

and inspection of electric generation, transmission, and distribution facilities, such as those established by the National Electric Safety Code and other industry consensus standards.

SEC. 1102. IMPROVED ACCESS TO ENERGY-RELATED SCIENTIFIC AND TECHNICAL CAREERS.

(a) DEPARTMENT OF ENERGY SCIENCE EDUCATION PROGRAMS.—Section 3164 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381a) is amended by adding at the end the following:

“(c) PROGRAMS FOR STUDENTS FROM UNDERREPRESENTED GROUPS.—In carrying out a program under subsection (a), the Secretary shall give priority to activities that are designed to encourage students from underrepresented groups to pursue scientific and technical careers.”

(b) PARTNERSHIPS WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES, HISPANIC-SERVING INSTITUTIONS, AND TRIBAL COLLEGES.—The Department of Energy Science Education Enhancement Act (42 U.S.C. 7381 et seq.) is amended—

(1) by redesignating sections 3167 and 3168 as sections 3168 and 3169, respectively; and

(2) by inserting after section 3166 the following:

“SEC. 3167. PARTNERSHIPS WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES, HISPANIC-SERVING INSTITUTIONS, AND TRIBAL COLLEGES.

“(a) DEFINITIONS.—In this section:

“(1) HISPANIC-SERVING INSTITUTION.—The term ‘Hispanic-serving institution’ has the meaning given that term in section 502(a) of the Higher Education Act of 1965 (20 U.S.C. 1101a(a)).

“(2) HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—The term ‘historically Black college or university’ has the meaning given the term ‘part B institution’ in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

“(3) NATIONAL LABORATORY.—The term ‘National Laboratory’ has the meaning given that term in section 902 of the Energy Policy Act of 2003.

“(4) SCIENCE FACILITY.—The term ‘science facility’ has the meaning given the term ‘single-purpose research facility’ in section 902 of the Energy Policy Act of 2003.

“(5) TRIBAL COLLEGE.—The term ‘tribal college’ has the meaning given the term ‘Tribal College or University’ in section 316(b)(3) of the Higher Education Act of 1965 (20 U.S.C. 1059c(b)(3)).

“(b) EDUCATION PARTNERSHIP.—The Secretary shall direct the Director of each National Laboratory and, to the extent practicable, the head of any science facility to increase the participation of historically Black colleges or universities, Hispanic-serving institutions, or tribal colleges in activities that increase the capacity of the historically Black colleges or universities, Hispanic-serving institutions, or tribal colleges to train personnel in science or engineering.

“(c) ACTIVITIES.—An activity under subsection (b) may include—

“(1) collaborative research;

“(2) equipment transfer;

“(3) training activities conducted at a National Laboratory or science facility; and

“(4) mentoring activities conducted at a National Laboratory or science facility.

“(d) REPORT.—Not later than 2 years after the date of enactment of the Energy Policy Act of 2003, the Secretary shall submit to Congress a report on the activities carried out under this section.”

SEC. 1103. NATIONAL POWER PLANT OPERATIONS TECHNOLOGY AND EDUCATION CENTER.

(a) ESTABLISHMENT.—The Secretary shall support the establishment of a National Power Plant Operations Technology and

Education Center (in this section referred to as the “Center”), to address the need for training and educating certified operators for nonnuclear electric power generation plants.

(b) ROLE.—The Center shall provide both training and continuing education relating to nonnuclear electric power generation plant technologies and operations. The Center shall conduct training and education activities on site and through Internet-based information technologies that allow for learning at remote sites.

(c) CRITERIA FOR COMPETITIVE SELECTION.—The Secretary shall support the establishment of the Center at an institution of higher education with expertise in power plant technology and operation and with the ability to provide onsite as well as Internet-based training.

SEC. 1104. INTERNATIONAL ENERGY TRAINING.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretaries of Commerce, Interior, and State and the Federal Energy Regulatory Commission, shall coordinate training and outreach efforts for international commercial energy markets in countries with developing and restructuring economies.

(b) COMPONENTS.—The efforts may address—

(1) production-related fiscal regimes;

(2) grid and network issues;

(3) energy user and demand side response;

(4) international trade of energy; and

(5) international transportation of energy.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section \$1,500,000 for each of fiscal years 2004 through 2007.

TITLE XII—ELECTRICITY

SEC. 1201. SHORT TITLE.

This title may be cited as the “Electric Reliability Act of 2004”.

Subtitle A—Reliability Standards

SEC. 1211. ELECTRIC RELIABILITY STANDARDS.

(a) IN GENERAL.—Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 215. ELECTRIC RELIABILITY.

“(a) DEFINITIONS.—For purposes of this section:

“(1) The term ‘bulk-power system’ means—

“(A) facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof); and

“(B) electric energy from generation facilities needed to maintain transmission system reliability.

The term does not include facilities used in the local distribution of electric energy.

“(2) The terms ‘Electric Reliability Organization’ and ‘ERO’ mean the organization certified by the Commission under subsection (c) the purpose of which is to establish and enforce reliability standards for the bulk-power system, subject to Commission review.

“(3) The term ‘reliability standard’ means a requirement, approved by the Commission under this section, to provide for reliable operation of the bulk-power system. The term includes requirements for the operation of existing bulk-power system facilities and the design of planned additions or modifications to such facilities to the extent necessary to provide for reliable operation of the bulk-power system, but the term does not include any requirement to enlarge such facilities or to construct new transmission capacity or generation capacity.

“(4) The term ‘reliable operation’ means operating the elements of the bulk-power system within equipment and electric system thermal, voltage, and stability limits so

that instability, uncontrolled separation, or cascading failures of such system will not occur as a result of a sudden disturbance or unanticipated failure of system elements.

“(5) The term ‘Interconnection’ means a geographic area in which the operation of bulk-power system components is synchronized such that the failure of 1 or more of such components may adversely affect the ability of the operators of other components within the system to maintain reliable operation of the facilities within their control.

“(6) The term ‘transmission organization’ means a Regional Transmission Organization, Independent System Operator, independent transmission provider, or other transmission organization finally approved by the Commission for the operation of transmission facilities.

“(7) The term ‘regional entity’ means an entity having enforcement authority pursuant to subsection (e)(4).

“(b) JURISDICTION AND APPLICABILITY.—(1) The Commission shall have jurisdiction, within the United States, over the ERO certified by the Commission under subsection (c), any regional entities, and all users, owners and operators of the bulk-power system, including but not limited to the entities described in section 201(f), for purposes of approving reliability standards established under this section and enforcing compliance with this section. All users, owners and operators of the bulk-power system shall comply with reliability standards that take effect under this section.

“(2) The Commission shall issue a final rule to implement the requirements of this section not later than 180 days after the date of enactment of this section.

“(c) CERTIFICATION.—Following the issuance of a Commission rule under subsection (b)(2), any person may submit an application to the Commission for certification as the Electric Reliability Organization. The Commission may certify 1 such ERO if the Commission determines that such ERO—

“(1) has the ability to develop and enforce, subject to subsection (e)(2), reliability standards that provide for an adequate level of reliability of the bulk-power system; and

“(2) has established rules that—

“(A) assure its independence of the users and owners and operators of the bulk-power system, while assuring fair stakeholder representation in the selection of its directors and balanced decisionmaking in any ERO committee or subordinate organizational structure;

“(B) allocate equitably reasonable dues, fees, and other charges among end users for all activities under this section;

“(C) provide fair and impartial procedures for enforcement of reliability standards through the imposition of penalties in accordance with subsection (e) (including limitations on activities, functions, or operations, or other appropriate sanctions);

“(D) provide for reasonable notice and opportunity for public comment, due process, openness, and balance of interests in developing reliability standards and otherwise exercising its duties; and

“(E) provide for taking, after certification, appropriate steps to gain recognition in Canada and Mexico.

“(d) RELIABILITY STANDARDS.—(1) The Electric Reliability Organization shall file each reliability standard or modification to a reliability standard that it proposes to be made effective under this section with the Commission.

“(2) The Commission may approve, by rule or order, a proposed reliability standard or modification to a reliability standard if it determines that the standard is just, reasonable, not unduly discriminatory or preferential, and in the public interest. The

Commission shall give due weight to the technical expertise of the Electric Reliability Organization with respect to the content of a proposed standard or modification to a reliability standard and to the technical expertise of a regional entity organized on an Interconnection-wide basis with respect to a reliability standard to be applicable within that Interconnection, but shall not defer with respect to the effect of a standard on competition. A proposed standard or modification shall take effect upon approval by the Commission.

“(3) The Electric Reliability Organization shall rebuttably presume that a proposal from a regional entity organized on an Interconnection-wide basis for a reliability standard or modification to a reliability standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest.

“(4) The Commission shall remand to the Electric Reliability Organization for further consideration a proposed reliability standard or a modification to a reliability standard that the Commission disapproves in whole or in part.

“(5) The Commission, upon its own motion or upon complaint, may order the Electric Reliability Organization to submit to the Commission a proposed reliability standard or a modification to a reliability standard that addresses a specific matter if the Commission considers such a new or modified reliability standard appropriate to carry out this section.

“(6) The final rule adopted under subsection (b)(2) shall include fair processes for the identification and timely resolution of any conflict between a reliability standard and any function, rule, order, tariff, rate schedule, or agreement accepted, approved, or ordered by the Commission applicable to a transmission organization. Such transmission organization shall continue to comply with such function, rule, order, tariff, rate schedule or agreement accepted approved, or ordered by the Commission until—

“(A) the Commission finds a conflict exists between a reliability standard and any such provision;

“(B) the Commission orders a change to such provision pursuant to section 206 of this part; and

“(C) the ordered change becomes effective under this part.

If the Commission determines that a reliability standard needs to be changed as a result of such a conflict, it shall order the ERO to develop and file with the Commission a modified reliability standard under paragraph (4) or (5) of this subsection.

“(e) ENFORCEMENT.—(1) The ERO may impose, subject to paragraph (2), a penalty on a user or owner or operator of the bulk-power system for a violation of a reliability standard approved by the Commission under subsection (d) if the ERO, after notice and an opportunity for a hearing—

“(A) finds that the user or owner or operator has violated a reliability standard approved by the Commission under subsection (d); and

“(B) files notice and the record of the proceeding with the Commission.

“(2) A penalty imposed under paragraph (1) may take effect not earlier than the 31st day after the ERO files with the Commission notice of the penalty and the record of proceedings. Such penalty shall be subject to review by the Commission, on its own motion or upon application by the user, owner or operator that is the subject of the penalty filed within 30 days after the date such notice is filed with the Commission. Application to the Commission for review, or the initiation

of review by the Commission on its own motion, shall not operate as a stay of such penalty unless the Commission otherwise orders upon its own motion or upon application by the user, owner or operator that is the subject of such penalty. In any proceeding to review a penalty imposed under paragraph (1), the Commission, after notice and opportunity for hearing (which hearing may consist solely of the record before the ERO and opportunity for the presentation of supporting reasons to affirm, modify, or set aside the penalty), shall by order affirm, set aside, reinstate, or modify the penalty, and, if appropriate, remand to the ERO for further proceedings. The Commission shall implement expedited procedures for such hearings.

“(3) On its own motion or upon complaint, the Commission may order compliance with a reliability standard and may impose a penalty against a user or owner or operator of the bulk-power system if the Commission finds, after notice and opportunity for a hearing, that the user or owner or operator of the bulk-power system has engaged or is about to engage in any acts or practices that constitute or will constitute a violation of a reliability standard.

“(4) The Commission shall issue regulations authorizing the ERO to enter into an agreement to delegate authority to a regional entity for the purpose of proposing reliability standards to the ERO and enforcing reliability standards under paragraph (1) if—

“(A) the regional entity is governed by—

“(i) an independent board;

“(ii) a balanced stakeholder board; or

“(iii) a combination independent and balanced stakeholder board.

“(B) the regional entity otherwise satisfies the provisions of subsection (c)(1) and (2); and

“(C) the agreement promotes effective and efficient administration of bulk-power system reliability.

The Commission may modify such delegation. The ERO and the Commission shall rebuttably presume that a proposal for delegation to a regional entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk-power system reliability and should be approved. Such regulation may provide that the Commission may assign the ERO's authority to enforce reliability standards under paragraph (1) directly to a regional entity consistent with the requirements of this paragraph.

“(5) The Commission may take such action as is necessary or appropriate against the ERO or a regional entity to ensure compliance with a reliability standard or any Commission order affecting the ERO or a regional entity.

“(6) Any penalty imposed under this section shall bear a reasonable relation to the seriousness of the violation and shall take into consideration the efforts of such user, owner, or operator to remedy the violation in a timely manner.

“(f) CHANGES IN ELECTRIC RELIABILITY ORGANIZATION RULES.—The Electric Reliability Organization shall file with the Commission for approval any proposed rule or proposed rule change, accompanied by an explanation of its basis and purpose. The Commission, upon its own motion or complaint, may propose a change to the rules of the ERO. A proposed rule or proposed rule change shall take effect upon a finding by the Commission, after notice and opportunity for comment, that the change is just, reasonable, not unduly discriminatory or preferential, is in the public interest, and satisfies the requirements of subsection (c).

“(g) RELIABILITY REPORTS.—The ERO shall conduct periodic assessments of the reliability and adequacy of the bulk-power system in North America.

“(h) COORDINATION WITH CANADA AND MEXICO.—The President is urged to negotiate international agreements with the governments of Canada and Mexico to provide for effective compliance with reliability standards and the effectiveness of the ERO in the United States and Canada or Mexico.

“(i) SAVINGS PROVISIONS.—(1) The ERO shall have authority to develop and enforce compliance with reliability standards for only the bulk-power system.

“(2) This section does not authorize the ERO or the Commission to order the construction of additional generation or transmission capacity or to set and enforce compliance with standards for adequacy or safety of electric facilities or services.

“(3) Nothing in this section shall be construed to preempt any authority of any State to take action to ensure the safety, adequacy, and reliability of electric service within that State, as long as such action is not inconsistent with any reliability standard.

“(4) Within 90 days of the application of the Electric Reliability Organization or other affected party, and after notice and opportunity for comment, the Commission shall issue a final order determining whether a State action is inconsistent with a reliability standard, taking into consideration any recommendation of the ERO.

“(5) The Commission, after consultation with the ERO and the State taking action, may stay the effectiveness of any State action, pending the Commission’s issuance of a final order.

“(j) REGIONAL ADVISORY BODIES.—The Commission shall establish a regional advisory body on the petition of at least ⅓ of the States within a region that have more than ½ of their electric load served within the region. A regional advisory body shall be composed of 1 member from each participating State in the region, appointed by the Governor of each State, and may include representatives of agencies, States, and provinces outside the United States. A regional advisory body may provide advice to the Electric Reliability Organization, a regional entity, or the Commission regarding the governance of an existing or proposed regional entity within the same region, whether a standard proposed to apply within the region is just, reasonable, not unduly discriminatory or preferential, and in the public interest, whether fees proposed to be assessed within the region are just, reasonable, not unduly discriminatory or preferential, and in the public interest and any other responsibilities requested by the Commission. The Commission may give deference to the advice of any such regional advisory body if that body is organized on an Interconnection-wide basis.

“(k) ALASKA AND HAWAII.—The provisions of this section do not apply to Alaska or Hawaii.”

(b) STATUS OF ERO.—The Electric Reliability Organization certified by the Federal Energy Regulatory Commission under section 215(c) of the Federal Power Act and any regional entity delegated enforcement authority pursuant to section 215(e)(4) of that Act are not departments, agencies, or instrumentalities of the United States Government.

Subtitle B—Transmission Infrastructure Modernization

SEC. 1221. SITING OF INTERSTATE ELECTRIC TRANSMISSION FACILITIES.

(a) AMENDMENT OF FEDERAL POWER ACT.—Part II of the Federal Power Act is amended by adding at the end the following:

“SEC. 216. SITING OF INTERSTATE ELECTRIC TRANSMISSION FACILITIES.

“(a) DESIGNATION OF NATIONAL INTEREST ELECTRIC TRANSMISSION CORRIDORS.—

“(1) TRANSMISSION CONGESTION STUDY.—Within 1 year after the enactment of this section, and every 3 years thereafter, the Secretary of Energy, in consultation with affected States, shall conduct a study of electric transmission congestion. After considering alternatives and recommendations from interested parties, including an opportunity for comment from affected States, the Secretary shall issue a report, based on such study, which may designate any geographic area experiencing electric energy transmission capacity constraints or congestion that adversely affects consumers as a national interest electric transmission corridor. The Secretary shall conduct the study and issue the report in consultation with any appropriate regional entity referenced in section 215 of this Act.

“(2) CONSIDERATIONS.—In determining whether to designate a national interest electric transmission corridor referred to in paragraph (1) under this section, the Secretary may consider whether—

“(A) the economic vitality and development of the corridor, or the end markets served by the corridor, may be constrained by lack of adequate or reasonably priced electricity;

“(B)(i) economic growth in the corridor, or the end markets served by the corridor, may be jeopardized by reliance on limited sources of energy; and

“(ii) a diversification of supply is warranted;

“(C) the energy independence of the United States would be served by the designation;

“(D) the designation would be in the interest of national energy policy; and

“(E) the designation would enhance national defense and homeland security.

“(b) CONSTRUCTION PERMIT.—Except as provided in subsection (i), the Commission is authorized, after notice and an opportunity for hearing, to issue a permit or permits for the construction or modification of electric transmission facilities in a national interest electric transmission corridor designated by the Secretary under subsection (a) if the Commission finds that—

“(1)(A) a State in which the transmission facilities are to be constructed or modified is without authority to—

“(i) approve the siting of the facilities; or

“(ii) consider the interstate benefits expected to be achieved by the proposed construction or modification of transmission facilities in the State;

“(B) the applicant for a permit is a transmitting utility under this Act but does not qualify to apply for a permit or siting approval for the proposed project in a State because the applicant does not serve end-use customers in the State; or

“(C) a State commission or other entity that has authority to approve the siting of the facilities has—

“(i) withheld approval for more than 1 year after the filing of an application pursuant to applicable law seeking approval or 1 year after the designation of the relevant national interest electric transmission corridor, whichever is later; or

“(ii) conditioned its approval in such a manner that the proposed construction or modification will not significantly reduce transmission congestion in interstate commerce or is not economically feasible;

“(2) the facilities to be authorized by the permit will be used for the transmission of electric energy in interstate commerce;

“(3) the proposed construction or modification is consistent with the public interest;

“(4) the proposed construction or modification will significantly reduce transmission congestion in interstate commerce and protects or benefits consumers; and

“(5) the proposed construction or modification is consistent with sound national energy policy and will enhance energy independence.

“(c) PERMIT APPLICATIONS.—Permit applications under subsection (b) shall be made in writing to the Commission. The Commission shall issue rules setting forth the form of the application, the information to be contained in the application, and the manner of service of notice of the permit application upon interested persons.

“(d) COMMENTS.—In any proceeding before the Commission under subsection (b), the Commission shall afford each State in which a transmission facility covered by the permit is or will be located, each affected Federal agency and Indian tribe, private property owners, and other interested persons, a reasonable opportunity to present their views and recommendations with respect to the need for and impact of a facility covered by the permit.

“(e) RIGHTS-OF-WAY.—In the case of a permit under subsection (b) for electric transmission facilities to be located on property other than property owned by the United States or a State, if the permit holder cannot acquire by contract, or is unable to agree with the owner of the property to the compensation to be paid for, the necessary right-of-way to construct or modify such transmission facilities, the permit holder may acquire the right-of-way by the exercise of the right of eminent domain in the district court of the United States for the district in which the property concerned is located, or in the appropriate court of the State in which the property is located. The practice and procedure in any action or proceeding for that purpose in the district court of the United States shall conform as nearly as may be with the practice and procedure in similar action or proceeding in the courts of the State where the property is situated.

“(f) STATE LAW.—Nothing in this section shall preclude any person from constructing or modifying any transmission facility pursuant to State law.

“(g) COMPENSATION.—Any exercise of eminent domain authority pursuant to this section shall be considered a taking of private property for which just compensation is due. Just compensation shall be an amount equal to the full fair market value of the property taken on the date of the exercise of eminent domain authority, except that the compensation shall exceed fair market value if necessary to make the landowner whole for decreases in the value of any portion of the land not subject to eminent domain. Any parcel of land acquired by eminent domain under this subsection shall be transferred back to the owner from whom it was acquired (or his heirs or assigns) if the land is not used for the construction or modification of electric transmission facilities within a reasonable period of time after the acquisition. Other than construction, modification, operation, or maintenance of electric transmission facilities and related facilities, property acquired under subsection (e) may not be used for any purpose (including use for any heritage area, recreational trail, or park) without the consent of the owner of the parcel from whom the property was acquired (or the owner’s heirs or assigns).

“(h) COORDINATION OF FEDERAL AUTHORIZATIONS FOR TRANSMISSION AND DISTRIBUTION FACILITIES.—

“(1) LEAD AGENCY.—If an applicant, or prospective applicant, for a Federal authorization related to an electric transmission or distribution facility so requests, the Department of Energy (DOE) shall act as the lead

agency for purposes of coordinating all applicable Federal authorizations and related environmental reviews of the facility. For purposes of this subsection, the term 'Federal authorization' means any authorization required under Federal law in order to site a transmission or distribution facility, including but not limited to such permits, special use authorizations, certifications, opinions, or other approvals as may be required, whether issued by a Federal or a State agency. To the maximum extent practicable under applicable Federal law, the Secretary of Energy shall coordinate this Federal authorization and review process with any Indian tribes, multi-State entities, and State agencies that are responsible for conducting any separate permitting and environmental reviews of the facility, to ensure timely and efficient review and permit decisions.

“(2) **AUTHORITY TO SET DEADLINES.**—As lead agency, the Department of Energy, in consultation with agencies responsible for Federal authorizations and, as appropriate, with Indian tribes, multi-State entities, and State agencies that are willing to coordinate their own separate permitting and environmental reviews with the Federal authorization and environmental reviews, shall establish prompt and binding intermediate milestones and ultimate deadlines for the review of, and Federal authorization decisions relating to, the proposed facility. The Secretary of Energy shall ensure that once an application has been submitted with such data as the Secretary considers necessary, all permit decisions and related environmental reviews under all applicable Federal laws shall be completed within 1 year or, if a requirement of another provision of Federal law makes this impossible, as soon thereafter as is practicable. The Secretary of Energy also shall provide an expeditious pre-application mechanism for prospective applicants to confer with the agencies involved to have each such agency determine and communicate to the prospective applicant within 60 days of when the prospective applicant submits a request for such information concerning—

“(A) the likelihood of approval for a potential facility; and

“(B) key issues of concern to the agencies and public.

“(3) **CONSOLIDATED ENVIRONMENTAL REVIEW AND RECORD OF DECISION.**—As lead agency head, the Secretary of Energy, in consultation with the affected agencies, shall prepare a single environmental review document, which shall be used as the basis for all decisions on the proposed project under Federal law. The document may be an environmental assessment or environmental impact statement under the National Environmental Policy Act of 1969 if warranted, or such other form of analysis as may be warranted. The Secretary of Energy and the heads of other agencies shall streamline the review and permitting of transmission and distribution facilities within corridors designated under section 503 of the Federal Land Policy and Management Act (43 U.S.C. 1763) by fully taking into account prior analyses and decisions relating to the corridors. Such document shall include consideration by the relevant agencies of any applicable criteria or other matters as required under applicable laws.

“(4) **APPEALS.**—In the event that any agency has denied a Federal authorization required for a transmission or distribution facility, or has failed to act by the deadline established by the Secretary pursuant to this section for deciding whether to issue the authorization, the applicant or any State in which the facility would be located may file an appeal with the Secretary, who shall, in consultation with the affected agency, review the denial or take action on the pend-

ing application. Based on the overall record and in consultation with the affected agency, the Secretary may then either issue the necessary authorization with any appropriate conditions, or deny the application. The Secretary shall issue a decision within 90 days of the filing of the appeal. In making a decision under this paragraph, the Secretary shall comply with applicable requirements of Federal law, including any requirements of the Endangered Species Act, the Clean Water Act, the National Forest Management Act, the National Environmental Policy Act of 1969, and the Federal Land Policy and Management Act.

“(5) **CONFORMING REGULATIONS AND MEMORANDA OF UNDERSTANDING.**—Not later than 18 months after the date of enactment of this section, the Secretary of Energy shall issue any regulations necessary to implement this subsection. Not later than 1 year after the date of enactment of this section, the Secretary and the heads of all Federal agencies with authority to issue Federal authorizations shall enter into Memoranda of Understanding to ensure the timely and coordinated review and permitting of electricity transmission and distribution facilities. The head of each Federal agency with authority to issue a Federal authorization shall designate a senior official responsible for, and dedicate sufficient other staff and resources to ensure, full implementation of the DOE regulations and any Memoranda. Interested Indian tribes, multi-State entities, and State agencies may enter such Memoranda of Understanding.

“(6) **DURATION AND RENEWAL.**—Each Federal land use authorization for an electricity transmission or distribution facility shall be issued—

“(A) for a duration, as determined by the Secretary of Energy, commensurate with the anticipated use of the facility, and

“(B) with appropriate authority to manage the right-of-way for reliability and environmental protection.

Upon the expiration of any such authorization (including an authorization issued prior to enactment of this section), the authorization shall be reviewed for renewal taking fully into account reliance on such electricity infrastructure, recognizing its importance for public health, safety and economic welfare and as a legitimate use of Federal lands.

“(7) **MAINTAINING AND ENHANCING THE TRANSMISSION INFRASTRUCTURE.**—In exercising the responsibilities under this section, the Secretary of Energy shall consult regularly with the Federal Energy Regulatory Commission (FERC), FERC-approved electric reliability organizations (including related regional entities), and FERC-approved Regional Transmission Organizations and Independent System Operators.

“(1) **INTERSTATE COMPACTS.**—The consent of Congress is hereby given for 3 or more contiguous States to enter into an interstate compact, subject to approval by Congress, establishing regional transmission siting agencies to facilitate siting of future electric energy transmission facilities within such States and to carry out the electric energy transmission siting responsibilities of such States. The Secretary of Energy may provide technical assistance to regional transmission siting agencies established under this subsection. Such regional transmission siting agencies shall have the authority to review, certify, and permit siting of transmission facilities, including facilities in national interest electric transmission corridors (other than facilities on property owned by the United States). The Commission shall have no authority to issue a permit for the construction or modification of

electric transmission facilities within a State that is a party to a compact, unless the members of a compact are in disagreement and the Secretary makes, after notice and an opportunity for a hearing, the finding described in section (b)(1)(C).

“(j) **SAVINGS CLAUSE.**—Nothing in this section shall be construed to affect any requirement of the environmental laws of the United States, including, but not limited to, the National Environmental Policy Act of 1969. Subsection (h)(4) of this section shall not apply to any Congressionally-designated components of the National Wilderness Preservation System, the National Wild and Scenic Rivers System, or the National Park system (including National Monuments therein).

“(k) **ERCOT.**—This section shall not apply within the area referred to in section 212(k)(2)(A).”

(b) **REPORTS TO CONGRESS ON CORRIDORS AND RIGHTS OF WAY ON FEDERAL LANDS.**—The Secretary of the Interior, the Secretary of Energy, the Secretary of Agriculture, and the Chairman of the Council on Environmental Quality shall, within 90 days of the date of enactment of this subsection, submit a joint report to Congress identifying each of the following:

(1) All existing designated transmission and distribution corridors on Federal land and the status of work related to proposed transmission and distribution corridor designations under Title V of the Federal Land Policy and Management Act (43 U.S.C. 1761 et. Seq.), the schedule for completing such work, any impediments to completing the work, and steps that Congress could take to expedite the process.

(2) The number of pending applications to locate transmission and distribution facilities on Federal lands, key information relating to each such facility, how long each application has been pending, the schedule for issuing a timely decision as to each facility, and progress in incorporating existing and new such rights-of-way into relevant land use and resource management plans or their equivalent.

(3) The number of existing transmission and distribution rights-of-way on Federal lands that will come up for renewal within the following 5, 10, and 15 year periods, and a description of how the Secretaries plan to manage such renewals.

SEC. 1222. **THIRD-PARTY FINANCE.**

(a) **EXISTING FACILITIES.**—The Secretary of Energy (hereinafter in this section referred to as the “Secretary”), acting through the Administrator of the Western Area Power Administration (hereinafter in this section referred to as “WAPA”), or through the Administrator of the Southwestern Power Administration (hereinafter in this section referred to as “SWPA”), or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, an electric power transmission facility and related facilities (“Project”) needed to upgrade existing transmission facilities owned by SWPA or WAPA if the Secretary of Energy, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in a national interest electric transmission corridor designated under section 216(a) of the Federal Power Act and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by

the appropriate Regional Transmission Organization or Independent System Operator (as defined in the Federal Power Act), if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid; and

(3) would be operated in conformance with prudent utility practice.

(b) **NEW FACILITIES.**—The Secretary, acting through WAPA or SWPA, or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, a new electric power transmission facility and related facilities (“Project”) located within any State in which WAPA or SWPA operates if the Secretary, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in an area designated under section 216(a) of the Federal Power Act and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Regional Transmission Organization or Independent System Operator, if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid;

(3) will be operated in conformance with prudent utility practice;

(4) will be operated by, or in conformance with the rules of, the appropriate (A) Regional Transmission Organization or Independent System Operator, if any, or (B) if such an organization does not exist, regional reliability organization; and

(5) will not duplicate the functions of existing transmission facilities or proposed facilities which are the subject of ongoing or approved siting and related permitting proceedings.

(c) **OTHER FUNDS.**—

(1) **IN GENERAL.**—In carrying out a Project under subsection (a) or (b), the Secretary may accept and use funds contributed by another entity for the purpose of carrying out the Project.

(2) **AVAILABILITY.**—The contributed funds shall be available for expenditure for the purpose of carrying out the Project—

(A) without fiscal year limitation; and

(B) as if the funds had been appropriated specifically for that Project.

(3) **ALLOCATION OF COSTS.**—In carrying out a Project under subsection (a) or (b), any costs of the Project not paid for by contributions from another entity shall be collected through rates charged to customers using the new transmission capability provided by the Project and allocated equitably among these project beneficiaries using the new transmission capability.

(d) **RELATIONSHIP TO OTHER LAWS.**—Nothing in this section affects any requirement of—

(1) any Federal environmental law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) any Federal or State law relating to the siting of energy facilities; or

(3) any existing authorizing statutes.

(e) **SAVINGS CLAUSE.**—Nothing in this section shall constrain or restrict an Administrator in the utilization of other authority delegated to the Administrator of WAPA or SWPA.

(f) **SECRETARIAL DETERMINATIONS.**—Any determination made pursuant to subsections (a) or (b) shall be based on findings by the Secretary using the best available data.

(g) **MAXIMUM FUNDING AMOUNT.**—The Secretary shall not accept and use more than \$100,000,000 under subsection (c)(1) for the period encompassing fiscal years 2004 through 2013.

SEC. 1223. TRANSMISSION SYSTEM MONITORING.

Within 6 months after the date of enactment of this Act, the Secretary of Energy and the Federal Energy Regulatory Commission shall study and report to Congress on the steps which must be taken to establish a system to make available to all transmission system owners and Regional Transmission Organizations (as defined in the Federal Power Act) within the Eastern and Western Interconnections real-time information on the functional status of all transmission lines within such Interconnections. In such study, the Commission shall assess technical means for implementing such transmission information system and identify the steps the Commission or Congress must take to require the implementation of such system.

SEC. 1224. ADVANCED TRANSMISSION TECHNOLOGIES.

(a) **AUTHORITY.**—The Federal Energy Regulatory Commission, in the exercise of its authorities under the Federal Power Act and the Public Utility Regulatory Policies Act of 1978, shall encourage the deployment of advanced transmission technologies.

(b) **DEFINITION.**—For the purposes of this section, the term “advanced transmission technologies” means technologies that increase the capacity, efficiency, or reliability of existing or new transmission facilities, including, but not limited to—

(1) high-temperature lines (including superconducting cables);

(2) underground cables;

(3) advanced conductor technology (including advanced composite conductors, high-temperature low-sag conductors, and fiber optic temperature sensing conductors);

(4) high-capacity ceramic electric wire, connectors, and insulators;

(5) optimized transmission line configurations (including multiple phased transmission lines);

(6) modular equipment;

(7) wireless power transmission;

(8) ultra-high voltage lines;

(9) high-voltage DC technology;

(10) flexible AC transmission systems;

(11) energy storage devices (including pumped hydro, compressed air, superconducting magnetic energy storage, flywheels, and batteries);

(12) controllable load;

(13) distributed generation (including PV, fuel cells, microturbines);

(14) enhanced power device monitoring;

(15) direct system state sensors;

(16) fiber optic technologies;

(17) power electronics and related software (including real time monitoring and analytical software); and

(18) any other technologies the Commission considers appropriate.

(c) **OBSOLETE OR IMPRACTICABLE TECHNOLOGIES.**—The Commission is authorized to cease encouraging the deployment of any technology described in this section on a finding that such technology has been rendered obsolete or otherwise impracticable to deploy.

SEC. 1225. ELECTRIC TRANSMISSION AND DISTRIBUTION PROGRAMS.

(a) **ELECTRIC TRANSMISSION AND DISTRIBUTION PROGRAM.**—The Secretary of Energy (hereinafter in this section referred to as the “Secretary”) acting through the Director of the Office of Electric Transmission and Distribution shall establish a comprehensive research, development, demonstration and commercial application program to promote improved reliability and efficiency of elec-

trical transmission and distribution systems. This program shall include—

(1) advanced energy delivery and storage technologies, materials, and systems, including new transmission technologies, such as flexible alternating current transmission systems, composite conductor materials and other technologies that enhance reliability, operational flexibility, or power-carrying capability;

(2) advanced grid reliability and efficiency technology development;

(3) technologies contributing to significant load reductions;

(4) advanced metering, load management, and control technologies;

(5) technologies to enhance existing grid components;

(6) the development and use of high-temperature superconductors to—

(A) enhance the reliability, operational flexibility, or power-carrying capability of electric transmission or distribution systems; or

(B) increase the efficiency of electric energy generation, transmission, distribution, or storage systems;

(7) integration of power systems, including systems to deliver high-quality electric power, electric power reliability, and combined heat and power;

(8) supply of electricity to the power grid by small scale, distributed and residential-based power generators;

(9) the development and use of advanced grid design, operation and planning tools;

(10) any other infrastructure technologies, as appropriate; and

(11) technology transfer and education.

(b) **PROGRAM PLAN.**—Not later than 1 year after the date of the enactment of this legislation, the Secretary, in consultation with other appropriate Federal agencies, shall prepare and transmit to Congress a 5-year program plan to guide activities under this section. In preparing the program plan, the Secretary may consult with utilities, energy services providers, manufacturers, institutions of higher education, other appropriate State and local agencies, environmental organizations, professional and technical societies, and any other persons the Secretary considers appropriate.

(c) **IMPLEMENTATION.**—The Secretary shall consider implementing this program using a consortium of industry, university and national laboratory participants.

(d) **REPORT.**—Not later than 2 years after the transmittal of the plan under subsection (b), the Secretary shall transmit a report to Congress describing the progress made under this section and identifying any additional resources needed to continue the development and commercial application of transmission and distribution infrastructure technologies.

(e) **POWER DELIVERY RESEARCH INITIATIVE.**—

(1) **IN GENERAL.**—The Secretary shall establish a research, development, demonstration, and commercial application initiative specifically focused on power delivery utilizing components incorporating high temperature superconductivity.

(2) **GOALS.**—The goals of this initiative shall be to—

(A) establish facilities to develop high temperature superconductivity power applications in partnership with manufacturers and utilities;

(B) provide technical leadership for establishing reliability for high temperature superconductivity power applications including suitable modeling and analysis;

(C) facilitate commercial transition toward direct current power transmission, storage, and use for high power systems utilizing high temperature superconductivity; and

(D) facilitate the integration of very low impedance high temperature superconducting wires and cables in existing electric networks to improve system performance, power flow control and reliability.

(3) REQUIREMENTS.—The initiative shall include—

(A) feasibility analysis, planning, research, and design to construct demonstrations of superconducting links in high power, direct current and controllable alternating current transmission systems;

(B) public-private partnerships to demonstrate deployment of high temperature superconducting cable into testbeds simulating a realistic transmission grid and under varying transmission conditions, including actual grid insertions; and

(C) testbeds developed in cooperation with national laboratories, industries, and universities to demonstrate these technologies, prepare the technologies for commercial introduction, and address cost or performance roadblocks to successful commercial use.

(4) AUTHORIZATION OF APPROPRIATIONS.—For purposes of carrying out this subsection, there are authorized to be appropriated—

(A) for fiscal year 2004, \$15,000,000;

(B) for fiscal year 2005, \$20,000,000;

(C) for fiscal year 2006, \$30,000,000;

(D) for fiscal year 2007, \$35,000,000; and

(E) for fiscal year 2008, \$40,000,000.

SEC. 1226. ADVANCED POWER SYSTEM TECHNOLOGY INCENTIVE PROGRAM.

(a) PROGRAM.—The Secretary of Energy is authorized to establish an Advanced Power System Technology Incentive Program to support the deployment of certain advanced power system technologies and to improve and protect certain critical governmental, industrial, and commercial processes. Funds provided under this section shall be used by the Secretary to make incentive payments to eligible owners or operators of advanced power system technologies to increase power generation through enhanced operational, economic, and environmental performance. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application establishing an applicant as either—

(1) a qualifying advanced power system technology facility; or

(2) a qualifying security and assured power facility.

(b) INCENTIVES.—Subject to availability of funds, a payment of 1.8 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying advanced power system technology facility under this section for electricity generated at such facility. An additional 0.7 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying security and assured power facility for electricity generated at such facility. Any facility qualifying under this section shall be eligible for an incentive payment for up to, but not more than, the first 10,000,000 kilowatt-hours produced in any fiscal year.

(c) ELIGIBILITY.—For purposes of this section:

(1) QUALIFYING ADVANCED POWER SYSTEM TECHNOLOGY FACILITY.—The term “qualifying advanced power system technology facility” means a facility using an advanced fuel cell, turbine, or hybrid power system or power storage system to generate or store electric energy.

(2) QUALIFYING SECURITY AND ASSURED POWER FACILITY.—The term “qualifying security and assured power facility” means a qualifying advanced power system technology facility determined by the Secretary of Energy, in consultation with the Secretary of Homeland Security, to be in critical need of secure, reliable, rapidly available, high-quality power for critical govern-

mental, industrial, or commercial applications.

(d) AUTHORIZATION.—There are authorized to be appropriated to the Secretary of Energy for the purposes of this section, \$10,000,000 for each of the fiscal years 2004 through 2010.

SEC. 1227. OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.

(a) CREATION OF AN OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.—Title II of the Department of Energy Organization Act (42 U.S.C. 7131 et seq.) (as amended by section 502(a) of this Act) is amended by inserting the following after section 217, as added by title V of this Act:

“SEC. 218. OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.

“(a) ESTABLISHMENT.—There is established within the Department an Office of Electric Transmission and Distribution. This Office shall be headed by a Director, subject to the authority of the Secretary. The Director shall be appointed by the Secretary. The Director shall be compensated at the annual rate prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code.

“(b) DIRECTOR.—The Director shall—

“(1) coordinate and develop a comprehensive, multi-year strategy to improve the Nation’s electricity transmission and distribution;

“(2) implement or, where appropriate, coordinate the implementation of, the recommendations made in the Secretary’s May 2002 National Transmission Grid Study;

“(3) oversee research, development, and demonstration to support Federal energy policy related to electricity transmission and distribution;

“(4) grant authorizations for electricity import and export pursuant to section 202(c), (d), (e), and (f) of the Federal Power Act (16 U.S.C. 824a);

“(5) perform other functions, assigned by the Secretary, related to electricity transmission and distribution; and

“(6) develop programs for workforce training in power and transmission engineering.”.

(b) CONFORMING AMENDMENTS.—(1) The table of contents of the Department of Energy Organization Act (42 U.S.C. 7101 note) is amended by inserting after the item relating to section 217 the following new item:

“Sec. 218. Office of Electric Transmission and Distribution.”.

(2) Section 5315 of title 5, United States Code, is amended by inserting after the item relating to “Inspector General, Department of Energy.” the following:

“Director, Office of Electric Transmission and Distribution, Department of Energy.”.

Subtitle C—Transmission Operation Improvements

SEC. 1231. OPEN NONDISCRIMINATORY ACCESS.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by inserting after section 211 the following new section:

“SEC. 211A. OPEN ACCESS BY UNREGULATED TRANSMITTING UTILITIES.

“(a) TRANSMISSION SERVICES.—Subject to section 212(h), the Commission may, by rule or order, require an unregulated transmitting utility to provide transmission services—

“(1) at rates that are comparable to those that the unregulated transmitting utility charges itself; and

“(2) on terms and conditions (not relating to rates) that are comparable to those under which such unregulated transmitting utility provides transmission services to itself and that are not unduly discriminatory or preferential.

“(b) EXEMPTION.—The Commission shall exempt from any rule or order under this

section any unregulated transmitting utility that—

“(1) sells no more than 4,000,000 megawatt hours of electricity per year; or

“(2) does not own or operate any transmission facilities that are necessary for operating an interconnected transmission system (or any portion thereof); or

“(3) meets other criteria the Commission determines to be in the public interest.

“(c) LOCAL DISTRIBUTION FACILITIES.—The requirements of subsection (a) shall not apply to facilities used in local distribution.

“(d) EXEMPTION TERMINATION.—Whenever the Commission, after an evidentiary hearing held upon a complaint and after giving consideration to reliability standards established under section 215, finds on the basis of a preponderance of the evidence that any exemption granted pursuant to subsection (b) unreasonably impairs the continued reliability of an interconnected transmission system, it shall revoke the exemption granted to that transmitting utility.

“(e) APPLICATION TO UNREGULATED TRANSMITTING UTILITIES.—The rate changing procedures applicable to public utilities under subsections (c) and (d) of section 205 are applicable to unregulated transmitting utilities for purposes of this section.

“(f) REMAND.—In exercising its authority under paragraph (1) of subsection (a), the Commission may remand transmission rates to an unregulated transmitting utility for review and revision where necessary to meet the requirements of subsection (a).

“(g) OTHER REQUESTS.—The provision of transmission services under subsection (a) does not preclude a request for transmission services under section 211.

“(h) LIMITATION.—The Commission may not require a State or municipality to take action under this section that would violate a private activity bond rule for purposes of section 141 of the Internal Revenue Code of 1986 (26 U.S.C. 141).

“(i) TRANSFER OF CONTROL OF TRANSMITTING FACILITIES.—Nothing in this section authorizes the Commission to require an unregulated transmitting utility to transfer control or operational control of its transmitting facilities to an RTO or any other Commission-approved independent transmission organization designated to provide nondiscriminatory transmission access.

“(j) DEFINITION.—For purposes of this section, the term “unregulated transmitting utility” means an entity that—

“(1) owns or operates facilities used for the transmission of electric energy in interstate commerce; and

“(2) is an entity described in section 201(f).”.

SEC. 1232. SENSE OF CONGRESS ON REGIONAL TRANSMISSION ORGANIZATIONS.

It is the sense of Congress that, in order to promote fair, open access to electric transmission service, benefit retail consumers, facilitate wholesale competition, improve efficiencies in transmission grid management, promote grid reliability, remove opportunities for unduly discriminatory or preferential transmission practices, and provide for the efficient development of transmission infrastructure needed to meet the growing demands of competitive wholesale power markets, all transmitting utilities in interstate commerce should voluntarily become members of Regional Transmission Organizations as defined in section 3 of the Federal Power Act.

SEC. 1233. REGIONAL TRANSMISSION ORGANIZATION APPLICATIONS PROGRESS REPORT.

Not later than 120 days after the date of enactment of this section, the Federal Energy Regulatory Commission shall submit to Congress a report containing each of the following:

(1) A list of all regional transmission organization applications filed at the Commission pursuant to subpart F of part 35 of title 18, Code of Federal Regulations (in this section referred to as "Order No. 2000"), including an identification of each public utility and other entity included within the proposed membership of the regional transmission organization.

(2) A brief description of the status of each pending regional transmission organization application, including a precise explanation of how each fails to comply with the minimal requirements of Order No. 2000 and what steps need to be taken to bring each application into such compliance.

(3) For any application that has not been finally approved by the Commission, a detailed description of every aspect of the application that the Commission has determined does not conform to the requirements of Order No. 2000.

(4) For any application that has not been finally approved by the Commission, an explanation by the Commission of why the items described pursuant to paragraph (3) constitute material noncompliance with the requirements of the Commission's Order No. 2000 sufficient to justify denial of approval by the Commission.

(5) For all regional transmission organization applications filed pursuant to the Commission's Order No. 2000, whether finally approved or not—

(A) a discussion of that regional transmission organization's efforts to minimize rate seams between itself and—

(i) other regional transmission organizations; and

(ii) entities not participating in a regional transmission organization;

(B) a discussion of the impact of such seams on consumers and wholesale competition; and

(C) a discussion of minimizing cost-shifting on consumers.

SEC. 1234. FEDERAL UTILITY PARTICIPATION IN REGIONAL TRANSMISSION ORGANIZATIONS.

(a) DEFINITIONS.—For purposes of this section—

(1) APPROPRIATE FEDERAL REGULATORY AUTHORITY.—The term "appropriate Federal regulatory authority" means—

(A) with respect to a Federal power marketing agency (as defined in the Federal Power Act), the Secretary of Energy, except that the Secretary may designate the Administrator of a Federal power marketing agency to act as the appropriate Federal regulatory authority with respect to the transmission system of that Federal power marketing agency; and

(B) with respect to the Tennessee Valley Authority, the Board of Directors of the Tennessee Valley Authority.

(2) FEDERAL UTILITY.—The term "Federal utility" means a Federal power marketing agency or the Tennessee Valley Authority.

(3) TRANSMISSION SYSTEM.—The term "transmission system" means electric transmission facilities owned, leased, or contracted for by the United States and operated by a Federal utility.

(b) TRANSFER.—The appropriate Federal regulatory authority is authorized to enter into a contract, agreement or other arrangement transferring control and use of all or part of the Federal utility's transmission system to an RTO or ISO (as defined in the Federal Power Act), approved by the Federal Energy Regulatory Commission. Such contract, agreement or arrangement shall include—

(1) performance standards for operation and use of the transmission system that the head of the Federal utility determines necessary or appropriate, including standards

that assure recovery of all the Federal utility's costs and expenses related to the transmission facilities that are the subject of the contract, agreement or other arrangement; consistency with existing contracts and third-party financing arrangements; and consistency with said Federal utility's statutory authorities, obligations, and limitations;

(2) provisions for monitoring and oversight by the Federal utility of the RTO's or ISO's fulfillment of the terms and conditions of the contract, agreement or other arrangement, including a provision for the resolution of disputes through arbitration or other means with the regional transmission organization or with other participants, notwithstanding the obligations and limitations of any other law regarding arbitration; and

(3) a provision that allows the Federal utility to withdraw from the RTO or ISO and terminate the contract, agreement or other arrangement in accordance with its terms.

Neither this section, actions taken pursuant to it, nor any other transaction of a Federal utility using an RTO or ISO shall confer upon the Federal Energy Regulatory Commission jurisdiction or authority over the Federal utility's electric generation assets, electric capacity or energy that the Federal utility is authorized by law to market, or the Federal utility's power sales activities.

(c) EXISTING STATUTORY AND OTHER OBLIGATIONS.—

(1) SYSTEM OPERATION REQUIREMENTS.—No statutory provision requiring or authorizing a Federal utility to transmit electric power or to construct, operate or maintain its transmission system shall be construed to prohibit a transfer of control and use of its transmission system pursuant to, and subject to all requirements of subsection (b).

(2) OTHER OBLIGATIONS.—This subsection shall not be construed to—

(A) suspend, or exempt any Federal utility from, any provision of existing Federal law, including but not limited to any requirement or direction relating to the use of the Federal utility's transmission system, environmental protection, fish and wildlife protection, flood control, navigation, water delivery, or recreation; or

(B) authorize abrogation of any contract or treaty obligation.

(3) REPEAL.—Section 311 of title III of Appendix B of the Act of October 27, 2000 (P.L. 106-377, section 1(a)(2); 114 Stat. 1441, 1441A-80; 16 U.S.C. 824n) is repealed.

SEC. 1235. STANDARD MARKET DESIGN.

(a) REMAND.—The Commission's proposed rulemaking entitled "Remedying Undue Discrimination through Open Access Transmission Service and Standard Electricity Market Design" (Docket No. RM01-12-000) ("SMD NOPR") is remanded to the Commission for reconsideration. No final rule mandating a standard electricity market design pursuant to the proposed rulemaking, including any rule or order of general applicability within the scope of the proposed rulemaking, may be issued before October 31, 2006, or take effect before December 31, 2006. Any final rule issued by the Commission pursuant to the proposed rulemaking shall be preceded by a second notice of proposed rulemaking issued after the date of enactment of this Act and an opportunity for public comment.

(b) SAVINGS CLAUSE.—This section shall not be construed to modify or diminish any authority or obligation the Commission has under this Act, the Federal Power Act, or other applicable law, including, but not limited to, any authority to—

(1) issue any rule or order (of general or particular applicability) pursuant to any such authority or obligation; or

(2) act on a filing or filings by 1 or more transmitting utilities for the voluntary formation of a Regional Transmission Organization or Independent System Operator (as defined in the Federal Power Act) (and related market structures or rules) or voluntary modification of an existing Regional Transmission Organization or Independent System Operator (and related market structures or rules).

SEC. 1236. NATIVE LOAD SERVICE OBLIGATION.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 217. NATIVE LOAD SERVICE OBLIGATION.

"(a) MEETING SERVICE OBLIGATIONS.—(1) Any load-serving entity that, as of the date of enactment of this section—

"(A) owns generation facilities, markets the output of Federal generation facilities, or holds rights under 1 or more wholesale contracts to purchase electric energy, for the purpose of meeting a service obligation, and

"(B) by reason of ownership of transmission facilities, or 1 or more contracts or service agreements for firm transmission service, holds firm transmission rights for delivery of the output of such generation facilities or such purchased energy to meet such service obligation,

is entitled to use such firm transmission rights, or, equivalent tradable or financial transmission rights, in order to deliver such output or purchased energy, or the output of other generating facilities or purchased energy to the extent deliverable using such rights, to the extent required to meet its service obligation.

"(2) To the extent that all or a portion of the service obligation covered by such firm transmission rights or equivalent tradable or financial transmission rights is transferred to another load-serving entity, the successor load-serving entity shall be entitled to use the firm transmission rights or equivalent tradable or financial transmission rights associated with the transferred service obligation. Subsequent transfers to another load-serving entity, or back to the original load-serving entity, shall be entitled to the same rights.

"(3) The Commission shall exercise its authority under this Act in a manner that facilitates the planning and expansion of transmission facilities to meet the reasonable needs of load-serving entities to satisfy their service obligations.

"(b) ALLOCATION OF TRANSMISSION RIGHTS.—Nothing in this section shall affect any methodology approved by the Commission prior to September 15, 2003, for the allocation of transmission rights by an RTO or ISO that has been authorized by the Commission to allocate transmission rights.

"(c) CERTAIN TRANSMISSION RIGHTS.—The Commission may exercise authority under this Act to make transmission rights not used to meet an obligation covered by subsection (a) available to other entities in a manner determined by the Commission to be just, reasonable, and not unduly discriminatory or preferential.

"(d) OBLIGATION TO BUILD.—Nothing in this Act shall relieve a load-serving entity from any obligation under State or local law to build transmission or distribution facilities adequate to meet its service obligations.

"(e) CONTRACTS.—Nothing in this section shall provide a basis for abrogating any contract or service agreement for firm transmission service or rights in effect as of the date of the enactment of this subsection.

"(f) WATER PUMPING FACILITIES.—The Commission shall ensure that any entity described in section 201(f) that owns transmission facilities used predominately to support its own water pumping facilities shall

have, with respect to such facilities, protections for transmission service comparable to those provided to load-serving entities pursuant to this section.

“(g) ERCOT.—This section shall not apply within the area referred to in section 212(k)(2)(A).

“(h) JURISDICTION.—This section does not authorize the Commission to take any action not otherwise within its jurisdiction.

“(i) EFFECT OF EXERCISING RIGHTS.—An entity that lawfully exercises rights granted under subsection (a) shall not be considered by such action as engaging in undue discrimination or preference under this Act.

“(j) TVA AREA.—For purposes of subsection (a)(1)(B), a load-serving entity that is located within the service area of the Tennessee Valley Authority and that has a firm wholesale power supply contract with the Tennessee Valley Authority shall be deemed to hold firm transmission rights for the transmission of such power.

“(k) DEFINITIONS.—For purposes of this section:

“(1) The term ‘distribution utility’ means an electric utility that has a service obligation to end-users or to a State utility or electric cooperative that, directly or indirectly, through 1 or more additional State utilities or electric cooperatives, provides electric service to end-users.

“(2) The term ‘load-serving entity’ means a distribution utility or an electric utility that has a service obligation.

“(3) The term ‘service obligation’ means a requirement applicable to, or the exercise of authority granted to, an electric utility under Federal, State or local law or under long-term contracts to provide electric service to end-users or to a distribution utility.

“(4) The term ‘State utility’ means a State or any political subdivision of a State, or any agency, authority, or instrumentality of any 1 or more of the foregoing, or a corporation which is wholly owned, directly or indirectly, by any 1 or more of the foregoing, competent to carry on the business of developing, transmitting, utilizing or distributing power.”

SEC. 1237. STUDY ON THE BENEFITS OF ECONOMIC DISPATCH.

(a) STUDY.—The Secretary of Energy, in coordination and consultation with the States, shall conduct a study on—

(1) the procedures currently used by electric utilities to perform economic dispatch;

(2) identifying possible revisions to those procedures to improve the ability of non-utility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and

(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each state if economic dispatch procedures were revised to improve the ability of nonutility generation resources to offer their output for inclusion in economic dispatch.

(b) DEFINITION.—The term “economic dispatch” when used in this section means the operation of generation facilities to produce energy at the lowest cost to reliably serve consumers, recognizing any operational limits of generation and transmission facilities.

(c) REPORT TO CONGRESS AND THE STATES.—Not later than 90 days after the date of enactment of this Act, and on a yearly basis following, the Secretary of Energy shall submit a report to Congress and the States on the results of the study conducted under subsection (a), including recommendations to Congress and the States for any suggested legislative or regulatory changes.

Subtitle D—Transmission Rate Reform

SEC. 1241. TRANSMISSION INFRASTRUCTURE INVESTMENT.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 218. TRANSMISSION INFRASTRUCTURE INVESTMENT.

“(a) RULEMAKING REQUIREMENT.—Within 1 year after the enactment of this section, the Commission shall establish, by rule, incentive-based (including, but not limited to performance-based) rate treatments for the transmission of electric energy in interstate commerce by public utilities for the purpose of benefiting consumers by ensuring reliability and reducing the cost of delivered power by reducing transmission congestion. Such rule shall—

“(1) promote reliable and economically efficient transmission and generation of electricity by promoting capital investment in the enlargement, improvement, maintenance and operation of facilities for the transmission of electric energy in interstate commerce;

“(2) provide a return on equity that attracts new investment in transmission facilities (including related transmission technologies);

“(3) encourage deployment of transmission technologies and other measures to increase the capacity and efficiency of existing transmission facilities and improve the operation of such facilities; and

“(4) allow recovery of all prudently incurred costs necessary to comply with mandatory reliability standards issued pursuant to section 215 of this Act.

The Commission may, from time to time, revise such rule.

“(b) ADDITIONAL INCENTIVES FOR RTO PARTICIPATION.—In the rule issued under this section, the Commission shall, to the extent within its jurisdiction, provide for incentives to each transmitting utility or electric utility that joins a Regional Transmission Organization or Independent System Operator. Incentives provided by the Commission pursuant to such rule shall include—

“(1) recovery of all prudently incurred costs to develop and participate in any proposed or approved RTO, ISO, or independent transmission company;

“(2) recovery of all costs previously approved by a State commission which exercised jurisdiction over the transmission facilities prior to the utility’s participation in the RTO or ISO, including costs necessary to honor preexisting transmission service contracts, in a manner which does not reduce the revenues the utility receives for transmission services for a reasonable transition period after the utility joins the RTO or ISO;

“(3) recovery as an expense in rates of the costs prudently incurred to conduct transmission planning and reliability activities, including the costs of participating in RTO, ISO and other regional planning activities and design, study and other precertification costs involved in seeking permits and approvals for proposed transmission facilities;

“(4) a current return in rates for construction work in progress for transmission facilities and full recovery of prudently incurred costs for constructing transmission facilities;

“(5) formula transmission rates; and

“(6) a maximum 15 year accelerated depreciation on new transmission facilities for rate treatment purposes.

The Commission shall ensure that any costs recoverable pursuant to this subsection may be recovered by such utility through the transmission rates charged by such utility or through the transmission rates charged by the RTO or ISO that provides transmission service to such utility.

“(c) JUST AND REASONABLE RATES.—All rates approved under the rules adopted pursuant to this section, including any revisions to such rules, are subject to the requirement of sections 205 and 206 that all rates, charges, terms, and conditions be just and reasonable and not unduly discriminatory or preferential.”

SEC. 1242. VOLUNTARY TRANSMISSION PRICING PLANS.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 219. VOLUNTARY TRANSMISSION PRICING PLANS.

“(a) IN GENERAL.—Any transmission provider, including an RTO or ISO, may submit to the Commission a plan or plans under section 205 containing the criteria for determining the person or persons that will be required to pay for any construction of new transmission facilities or expansion, modification or upgrade of transmission facilities (in this section referred to as ‘transmission service related expansion’) or new generator interconnection.

“(b) VOLUNTARY TRANSMISSION PRICING PLANS.—(1) Any plan or plans submitted under subsection (a) shall specify the method or methods by which costs may be allocated or assigned. Such methods may include, but are not limited to:

“(A) directly assigned;

“(B) participant funded; or

“(C) rolled into regional or sub-regional rates.

“(2) FERC shall approve a plan or plans submitted under subparagraph (B) of paragraph (1) if such plan or plans—

“(A) result in rates that are just and reasonable and not unduly discriminatory or preferential consistent with section 205; and

“(B) ensure that the costs of any transmission service related expansion or new generator interconnection not required to meet applicable reliability standards established under section 215 are assigned in a fair manner, meaning that those who benefit from the transmission service related expansion or new generator interconnection pay an appropriate share of the associated costs, provided that—

“(i) costs may not be assigned or allocated to an electric utility if the native load customers of that utility would not have required such transmission service related expansion or new generator interconnection absent the request for transmission service related expansion or new generator interconnection that necessitated the investment;

“(ii) the party requesting such transmission service related expansion or new generator interconnection shall not be required to pay for both—

“(I) the assigned cost of the upgrade; and

“(II) the difference between—

“(aa) the embedded cost paid for transmission services (including the cost of the requested upgrade); and

“(bb) the embedded cost that would have been paid absent the upgrade; and

“(iii) the party or parties who pay for facilities necessary for the transmission service related expansion or new generator interconnection receives full compensation for its costs for the participant funded facilities in the form of—

“(I) monetary credit equal to the cost of the participant funded facilities (accounting for the time value of money at the Gross Domestic Product deflator), which credit shall be pro-rated in equal installments over a period of not more than 30 years and shall not exceed in total the amount of the initial investment, against the transmission charges that the funding entity or its assignee is otherwise assessed by the transmission provider;

“(II) appropriate financial or physical rights; or

“(III) any other method of cost recovery or compensation approved by the Commission.

“(3) A plan submitted under this section shall apply only to—

“(A) a contract or interconnection agreement executed or filed with the Commission after the date of enactment of this section; or

“(B) an interconnection agreement pending rehearing as of November 1, 2003.

“(4) Nothing in this section diminishes or alters the rights of individual members of an RTO or ISO under this Act.

“(5) Nothing in this section shall affect the allocation of costs or the cost methodology employed by an RTO or ISO authorized by the Commission to allocate costs (including costs for transmission service related expansion or new generator interconnection) prior to the date of enactment of this section.

“(6) This section shall not apply within the area referred to in section 212(k)(2)(A).

“(7) The term ‘transmission provider’ means a public utility that owns or operates facilities that provide interconnection or transmission service in interstate commerce.”.

Subtitle E—Amendments to PURPA

SEC. 1251. NET METERING AND ADDITIONAL STANDARDS.

(a) ADOPTION OF STANDARDS.—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

“(11) NET METERING.—Each electric utility shall make available upon request net metering service to any electric consumer that the electric utility serves. For purposes of this paragraph, the term ‘net metering service’ means service to an electric consumer under which electric energy generated by that electric consumer from an eligible on-site generating facility and delivered to the local distribution facilities may be used to offset electric energy provided by the electric utility to the electric consumer during the applicable billing period.

“(12) FUEL SOURCES.—Each electric utility shall develop a plan to minimize dependence on 1 fuel source and to ensure that the electric energy it sells to consumers is generated using a diverse range of fuels and technologies, including renewable technologies.

“(13) FOSSIL FUEL GENERATION EFFICIENCY.—Each electric utility shall develop and implement a 10-year plan to increase the efficiency of its fossil fuel generation.”.

(b) COMPLIANCE.—

(1) TIME LIMITATIONS.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

“(3)(A) Not later than 2 years after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to each standard established by paragraphs (11) through (13) of section 111(d).

“(B) Not later than 3 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to each standard established by paragraphs (11) through (13) of section 111(d).”.

(2) FAILURE TO COMPLY.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by adding at the end the following:

“‘In the case of each standard established by paragraphs (11) through (13) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraphs (11) through (13).”.

(3) PRIOR STATE ACTIONS.—

(A) IN GENERAL.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

“(d) PRIOR STATE ACTIONS.—Subsections (b) and (c) of this section shall not apply to the standards established by paragraphs (11) through (13) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

“(1) the State has implemented for such utility the standard concerned (or a comparable standard);

“(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or

“(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.”.

(B) CROSS REFERENCE.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: “In the case of each standard established by paragraphs (11) through (13) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraphs (11) through (13).”.

SEC. 1252. SMART METERING.

(a) IN GENERAL.—Section 111(d) of the Public Utilities Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

“(14) TIME-BASED METERING AND COMMUNICATIONS.—

“(A) Not later than 18 months after the date of enactment of this paragraph, each electric utility shall offer each of its customer classes, and provide individual customers upon customer request, a time-based rate schedule under which the rate charged by the electric utility varies during different time periods and reflects the variance, if any, in the utility’s costs of generating and purchasing electricity at the wholesale level. The time-based rate schedule shall enable the electric consumer to manage energy use and cost through advanced metering and communications technology.

“(B) The types of time-based rate schedules that may be offered under the schedule referred to in subparagraph (A) include, among others—

“(i) time-of-use pricing whereby electricity prices are set for a specific time period on an advance or forward basis, typically not changing more often than twice a year, based on the utility’s cost of generating and/or purchasing such electricity at the wholesale level for the benefit of the consumer. Prices paid for energy consumed during these periods shall be pre-established and known to consumers in advance of such consumption, allowing them to vary their demand and usage in response to such prices and manage their energy costs by shifting usage to a lower cost period or reducing their consumption overall;

“(ii) critical peak pricing whereby time-of-use prices are in effect except for certain peak days, when prices may reflect the costs of generating and/or purchasing electricity at the wholesale level and when consumers may receive additional discounts for reducing peak period energy consumption; and

“(iii) real-time pricing whereby electricity prices are set for a specific time period on an

advanced or forward basis, reflecting the utility’s cost of generating and/or purchasing electricity at the wholesale level, and may change as often as hourly.

“(C) Each electric utility subject to subparagraph (A) shall provide each customer requesting a time-based rate with a time-based meter capable of enabling the utility and customer to offer and receive such rate, respectively.

“(D) For purposes of implementing this paragraph, any reference contained in this section to the date of enactment of the Public Utility Regulatory Policies Act of 1978 shall be deemed to be a reference to the date of enactment of this paragraph.

“(E) In a State that permits third-party marketers to sell electric energy to retail electric consumers, such consumers shall be entitled to receive the same time-based metering and communications device and service as a retail electric consumer of the electric utility.

“(F) Notwithstanding subsections (b) and (c) of section 112, each State regulatory authority shall, not later than 18 months after the date of enactment of this paragraph conduct an investigation in accordance with section 115(i) and issue a decision whether it is appropriate to implement the standards set out in subparagraphs (A) and (C).”.

(b) STATE INVESTIGATION OF DEMAND RESPONSE AND TIME-BASED METERING.—Section 115 of the Public Utilities Regulatory Policies Act of 1978 (16 U.S.C. 2625) is amended as follows:

(1) By inserting in subsection (b) after the phrase “the standard for time-of-day rates established by section 111(d)(3)” the following: “and the standard for time-based metering and communications established by section 111(d)(14)”.

(2) By inserting in subsection (b) after the phrase “are likely to exceed the metering” the following: “and communications”.

(3) By adding the at the end the following:

“(i) TIME-BASED METERING AND COMMUNICATIONS.—In making a determination with respect to the standard established by section 111(d)(14), the investigation requirement of section 111(d)(14)(F) shall be as follows: Each State regulatory authority shall conduct an investigation and issue a decision whether or not it is appropriate for electric utilities to provide and install time-based meters and communications devices for each of their customers which enable such customers to participate in time-based pricing rate schedules and other demand response programs.”.

(c) FEDERAL ASSISTANCE ON DEMAND RESPONSE.—Section 132(a) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642(a)) is amended by striking “and” at the end of paragraph (3), striking the period at the end of paragraph (4) and inserting “; and”, and by adding the following at the end thereof:

“(5) technologies, techniques, and ratemaking methods related to advanced metering and communications and the use of these technologies, techniques and methods in demand response programs.”.

(d) FEDERAL GUIDANCE.—Section 132 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642) is amended by adding the following at the end thereof:

“(d) DEMAND RESPONSE.—The Secretary shall be responsible for—

“(1) educating consumers on the availability, advantages, and benefits of advanced metering and communications technologies, including the funding of demonstration or pilot projects;

“(2) working with States, utilities, other energy providers and advanced metering and communications experts to identify and address barriers to the adoption of demand response programs; and

“(3) not later than 180 days after the date of enactment of the Energy Policy Act of 2003, providing Congress with a report that identifies and quantifies the national benefits of demand response and makes a recommendation on achieving specific levels of such benefits by January 1, 2005.”.

(e) DEMAND RESPONSE AND REGIONAL COORDINATION.—

(1) IN GENERAL.—It is the policy of the United States to encourage States to coordinate, on a regional basis, State energy policies to provide reliable and affordable demand response services to the public.

(2) TECHNICAL ASSISTANCE.—The Secretary of Energy shall provide technical assistance to States and regional organizations formed by 2 or more States to assist them in—

(A) identifying the areas with the greatest demand response potential;

(B) identifying and resolving problems in transmission and distribution networks, including through the use of demand response;

(C) developing plans and programs to use demand response to respond to peak demand or emergency needs; and

(D) identifying specific measures consumers can take to participate in these demand response programs.

(3) REPORT.—Not later than 1 year after the date of enactment of the Energy Policy Act of 2003, the Commission shall prepare and publish an annual report, by appropriate region, that assesses demand response resources, including those available from all consumer classes, and which identifies and reviews—

(A) saturation and penetration rate of advanced meters and communications technologies, devices and systems;

(B) existing demand response programs and time-based rate programs;

(C) the annual resource contribution of demand resources;

(D) the potential for demand response as a quantifiable, reliable resource for regional planning purposes; and

(E) steps taken to ensure that, in regional transmission planning and operations, demand resources are provided equitable treatment as a quantifiable, reliable resource relative to the resource obligations of any load-serving entity, transmission provider, or transmitting party.

(f) FEDERAL ENCOURAGEMENT OF DEMAND RESPONSE DEVICES.—It is the policy of the United States that time-based pricing and other forms of demand response, whereby electricity customers are provided with electricity price signals and the ability to benefit by responding to them, shall be encouraged, and the deployment of such technology and devices that enable electricity customers to participate in such pricing and demand response systems shall be facilitated. It is further the policy of the United States that the benefits of such demand response that accrue to those not deploying such technology and devices, but who are part of the same regional electricity entity, shall be recognized.

(g) TIME LIMITATIONS.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

“(4)(A) Not later than 1 year after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to the standard established by paragraph (14) of section 111(d).

“(B) Not later than 2 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to

each electric utility for which it has rate-making authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to the standard established by paragraph (14) of section 111(d).”.

(h) FAILURE TO COMPLY.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by adding at the end the following:

“In the case of the standard established by paragraph (14) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (14).”.

(i) PRIOR STATE ACTIONS REGARDING SMART METERING STANDARDS.—

(1) IN GENERAL.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

“(e) PRIOR STATE ACTIONS.—Subsections (b) and (c) of this section shall not apply to the standard established by paragraph (14) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

“(1) the State has implemented for such utility the standard concerned (or a comparable standard);

“(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility within the previous 3 years; or

“(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility within the previous 3 years.”.

(2) CROSS REFERENCE.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: “In the case of the standard established by paragraph (14) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (14).”.

SEC. 1253. COGENERATION AND SMALL POWER PRODUCTION PURCHASE AND SALE REQUIREMENTS.

(a) TERMINATION OF MANDATORY PURCHASE AND SALE REQUIREMENTS.—Section 210 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 824a-3) is amended by adding at the end the following:

“(m) TERMINATION OF MANDATORY PURCHASE AND SALE REQUIREMENTS.—

“(1) OBLIGATION TO PURCHASE.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to purchase electric energy from a qualifying cogeneration facility or a qualifying small power production facility under this section if the Commission finds that the qualifying cogeneration facility or qualifying small power production facility has nondiscriminatory access to—

“(A)(i) independently administered, auction-based day ahead and real time wholesale markets for the sale of electric energy; and (ii) wholesale markets for long-term sales of capacity and electric energy; or

“(B)(i) transmission and interconnection services that are provided by a Commission-approved regional transmission entity and administered pursuant to an open access transmission tariff that affords nondiscriminatory treatment to all customers; and (ii) competitive wholesale markets that provide a meaningful opportunity to sell capacity, including long-term and short-term sales, and electric energy, including long-term, short-term and real-time sales, to buyers

other than the utility to which the qualifying facility is interconnected. In determining whether a meaningful opportunity to sell exists, the Commission shall consider, among other factors, evidence of transactions within the relevant market; or

“(C) wholesale markets for the sale of capacity and electric energy that are, at a minimum, of comparable competitive quality as markets described in subparagraphs (A) and (B).

“(2) REVISED PURCHASE AND SALE OBLIGATION FOR NEW FACILITIES.—(A) After the date of enactment of this subsection, no electric utility shall be required pursuant to this section to enter into a new contract or obligation to purchase from or sell electric energy to a facility that is not an existing qualifying cogeneration facility unless the facility meets the criteria for qualifying cogeneration facilities established by the Commission pursuant to the rulemaking required by subsection (n).

“(B) For the purposes of this paragraph, the term ‘existing qualifying cogeneration facility’ means a facility that—

“(i) was a qualifying cogeneration facility on the date of enactment of subsection (m); or

“(ii) had filed with the Commission a notice of self-certification, self recertification or an application for Commission certification under 18 C.F.R. 292.207 prior to the date on which the Commission issues the final rule required by subsection (n).

“(3) COMMISSION REVIEW.—Any electric utility may file an application with the Commission for relief from the mandatory purchase obligation pursuant to this subsection on a service territory-wide basis. Such application shall set forth the factual basis upon which relief is requested and describe why the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) of this subsection have been met. After notice, including sufficient notice to potentially affected qualifying cogeneration facilities and qualifying small power production facilities, and an opportunity for comment, the Commission shall make a final determination within 90 days of such application regarding whether the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) have been met.

“(4) REINSTATEMENT OF OBLIGATION TO PURCHASE.—At any time after the Commission makes a finding under paragraph (3) relieving an electric utility of its obligation to purchase electric energy, a qualifying cogeneration facility, a qualifying small power production facility, a State agency, or any other affected person may apply to the Commission for an order reinstating the electric utility’s obligation to purchase electric energy under this section. Such application shall set forth the factual basis upon which the application is based and describe why the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) of this subsection are no longer met. After notice, including sufficient notice to potentially affected utilities, and opportunity for comment, the Commission shall issue an order within 90 days of such application reinstating the electric utility’s obligation to purchase electric energy under this section if the Commission finds that the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) which relieved the obligation to purchase, are no longer met.

“(5) OBLIGATION TO SELL.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to sell electric energy to a qualifying cogeneration facility or a qualifying small power production facility under this section if the Commission finds that—

“(A) competing retail electric suppliers are willing and able to sell and deliver electric energy to the qualifying cogeneration facility or qualifying small power production facility; and

“(B) the electric utility is not required by State law to sell electric energy in its service territory.

“(6) NO EFFECT ON EXISTING RIGHTS AND REMEDIES.—Nothing in this subsection affects the rights or remedies of any party under any contract or obligation, in effect or pending approval before the appropriate State regulatory authority or non-regulated electric utility on the date of enactment of this subsection, to purchase electric energy or capacity from or to sell electric energy or capacity to a qualifying cogeneration facility or qualifying small power production facility under this Act (including the right to recover costs of purchasing electric energy or capacity).

“(7) RECOVERY OF COSTS.—(A) The Commission shall issue and enforce such regulations as are necessary to ensure that an electric utility that purchases electric energy or capacity from a qualifying cogeneration facility or qualifying small power production facility in accordance with any legally enforceable obligation entered into or imposed under this section recovers all prudently incurred costs associated with the purchase.

“(B) A regulation under subparagraph (A) shall be enforceable in accordance with the provisions of law applicable to enforcement of regulations under the Federal Power Act (16 U.S.C. 791a et seq.).

“(n) RULEMAKING FOR NEW QUALIFYING FACILITIES.—(1)(A) Not later than 180 days after the date of enactment of this section, the Commission shall issue a rule revising the criteria in 18 C.F.R. 292.205 for new qualifying cogeneration facilities seeking to sell electric energy pursuant to section 210 of this Act to ensure—

“(i) that the thermal energy output of a new qualifying cogeneration facility is used in a productive and beneficial manner;

“(ii) the electrical, thermal, and chemical output of the cogeneration facility is used fundamentally for industrial, commercial, or institutional purposes and is not intended fundamentally for sale to an electric utility, taking into account technological, efficiency, economic, and variable thermal energy requirements, as well as State laws applicable to sales of electric energy from a qualifying facility to its host facility; and

“(iii) continuing progress in the development of efficient electric energy generating technology.

“(B) The rule issued pursuant to section (n)(1)(A) shall be applicable only to facilities that seek to sell electric energy pursuant to section 210 of this Act. For all other purposes, except as specifically provided in section (m)(2)(A), qualifying facility status shall be determined in accordance with the rules and regulations of this Act.

“(2) Notwithstanding rule revisions under paragraph (1), the Commission’s criteria for qualifying cogeneration facilities in effect prior to the date on which the Commission issues the final rule required by paragraph (1) shall continue to apply to any cogeneration facility that—

“(A) was a qualifying cogeneration facility on the date of enactment of subsection (m), or

“(B) had filed with the Commission a notice of self-certification, self-recertification or an application for Commission certification under 18 C.F.R. 292.207 prior to the date on which the Commission issues the final rule required by paragraph (1).”.

(b) ELIMINATION OF OWNERSHIP LIMITATIONS.—

(1) QUALIFYING SMALL POWER PRODUCTION FACILITY.—Section 3(17)(C) of the Federal Power Act (16 U.S.C. 796(17)(C)) is amended to read as follows:

“(C) ‘qualifying small power production facility’ means a small power production facility that the Commission determines, by rule, meets such requirements (including requirements respecting fuel use, fuel efficiency, and reliability) as the Commission may, by rule, prescribe;”.

(2) QUALIFYING COGENERATION FACILITY.—Section 3(18)(B) of the Federal Power Act (16 U.S.C. 796(18)(B)) is amended to read as follows:

“(B) ‘qualifying cogeneration facility’ means a cogeneration facility that the Commission determines, by rule, meets such requirements (including requirements respecting minimum size, fuel use, and fuel efficiency) as the Commission may, by rule, prescribe;”.

Subtitle F—Repeal of PUHCA

SEC. 1261. SHORT TITLE.

This subtitle may be cited as the “Public Utility Holding Company Act of 2004”.

SEC. 1262. DEFINITIONS.

For purposes of this subtitle:

(1) AFFILIATE.—The term “affiliate” of a company means any company, 5 percent or more of the outstanding voting securities of which are owned, controlled, or held with power to vote, directly or indirectly, by such company.

(2) ASSOCIATE COMPANY.—The term “associate company” of a company means any company in the same holding company system with such company.

(3) COMMISSION.—The term “Commission” means the Federal Energy Regulatory Commission.

(4) COMPANY.—The term “company” means a corporation, partnership, association, joint stock company, business trust, or any organized group of persons, whether incorporated or not, or a receiver, trustee, or other liquidating agent of any of the foregoing.

(5) ELECTRIC UTILITY COMPANY.—The term “electric utility company” means any company that owns or operates facilities used for the generation, transmission, or distribution of electric energy for sale.

(6) EXEMPT WHOLESALE GENERATOR AND FOREIGN UTILITY COMPANY.—The terms “exempt wholesale generator” and “foreign utility company” have the same meanings as in sections 32 and 33, respectively, of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79z-5a, 79z-5b), as those sections existed on the day before the effective date of this subtitle.

(7) GAS UTILITY COMPANY.—The term “gas utility company” means any company that owns or operates facilities used for distribution at retail (other than the distribution only in enclosed portable containers or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or manufactured gas for heat, light, or power.

(8) HOLDING COMPANY.—The term “holding company” means—

(A) any company that directly or indirectly owns, controls, or holds, with power to vote, 10 percent or more of the outstanding voting securities of a public-utility company or of a holding company of any public-utility company; and

(B) any person, determined by the Commission, after notice and opportunity for hearing, to exercise directly or indirectly (either alone or pursuant to an arrangement or understanding with 1 or more persons) such a controlling influence over the management or policies of any public-utility company or holding company as to make it necessary or appropriate for the rate protection of utility

customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon holding companies.

(9) HOLDING COMPANY SYSTEM.—The term “holding company system” means a holding company, together with its subsidiary companies.

(10) JURISDICTIONAL RATES.—The term “jurisdictional rates” means rates accepted or established by the Commission for the transmission of electric energy in interstate commerce, the sale of electric energy at wholesale in interstate commerce, the transportation of natural gas in interstate commerce, and the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use.

(11) NATURAL GAS COMPANY.—The term “natural gas company” means a person engaged in the transportation of natural gas in interstate commerce or the sale of such gas in interstate commerce for resale.

(12) PERSON.—The term “person” means an individual or company.

(13) PUBLIC UTILITY.—The term “public utility” means any person who owns or operates facilities used for transmission of electric energy in interstate commerce or sales of electric energy at wholesale in interstate commerce.

(14) PUBLIC-UTILITY COMPANY.—The term “public-utility company” means an electric utility company or a gas utility company.

(15) STATE COMMISSION.—The term “State commission” means any commission, board, agency, or officer, by whatever name designated, of a State, municipality, or other political subdivision of a State that, under the laws of such State, has jurisdiction to regulate public utility companies.

(16) SUBSIDIARY COMPANY.—The term “subsidiary company” of a holding company means—

(A) any company, 10 percent or more of the outstanding voting securities of which are directly or indirectly owned, controlled, or held with power to vote, by such holding company; and

(B) any person, the management or policies of which the Commission, after notice and opportunity for hearing, determines to be subject to a controlling influence, directly or indirectly, by such holding company (either alone or pursuant to an arrangement or understanding with 1 or more other persons) so as to make it necessary for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon subsidiary companies of holding companies.

(17) VOTING SECURITY.—The term “voting security” means any security presently entitling the owner or holder thereof to vote in the direction or management of the affairs of a company.

SEC. 1263. REPEAL OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935.

The Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.) is repealed.

SEC. 1264. FEDERAL ACCESS TO BOOKS AND RECORDS.

(a) IN GENERAL.—Each holding company and each associate company thereof shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(b) AFFILIATE COMPANIES.—Each affiliate of a holding company or of any subsidiary company of a holding company shall maintain,

and shall make available to the Commission, such books, accounts, memoranda, and other records with respect to any transaction with another affiliate, as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(c) **HOLDING COMPANY SYSTEMS.**—The Commission may examine the books, accounts, memoranda, and other records of any company in a holding company system, or any affiliate thereof, as the Commission determines are relevant to costs incurred by a public utility or natural gas company within such holding company system and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(d) **CONFIDENTIALITY.**—No member, officer, or employee of the Commission shall divulge any fact or information that may come to his or her knowledge during the course of examination of books, accounts, memoranda, or other records as provided in this section, except as may be directed by the Commission or by a court of competent jurisdiction.

SEC. 1265. STATE ACCESS TO BOOKS AND RECORDS.

(a) **IN GENERAL.**—Upon the written request of a State commission having jurisdiction to regulate a public-utility company in a holding company system, the holding company or any associate company or affiliate thereof, other than such public-utility company, wherever located, shall produce for inspection books, accounts, memoranda, and other records that—

(1) have been identified in reasonable detail in a proceeding before the State commission;

(2) the State commission determines are relevant to costs incurred by such public-utility company; and

(3) are necessary for the effective discharge of the responsibilities of the State commission with respect to such proceeding.

(b) **LIMITATION.**—Subsection (a) does not apply to any person that is a holding company solely by reason of ownership of 1 or more qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.).

(c) **CONFIDENTIALITY OF INFORMATION.**—The production of books, accounts, memoranda, and other records under subsection (a) shall be subject to such terms and conditions as may be necessary and appropriate to safeguard against unwarranted disclosure to the public of any trade secrets or sensitive commercial information.

(d) **EFFECT ON STATE LAW.**—Nothing in this section shall preempt applicable State law concerning the provision of books, accounts, memoranda, and other records, or in any way limit the rights of any State to obtain books, accounts, memoranda, and other records under any other Federal law, contract, or otherwise.

(e) **COURT JURISDICTION.**—Any United States district court located in the State in which the State commission referred to in subsection (a) is located shall have jurisdiction to enforce compliance with this section.

SEC. 1266. EXEMPTION AUTHORITY.

(a) **RULEMAKING.**—Not later than 90 days after the effective date of this subtitle, the Commission shall issue a final rule to exempt from the requirements of section 1264 (relating to Federal access to books and records) any person that is a holding company, solely with respect to 1 or more—

(1) qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.);

(2) exempt wholesale generators; or

(3) foreign utility companies.

(b) **OTHER AUTHORITY.**—The Commission shall exempt a person or transaction from the requirements of section 1264 (relating to Federal access to books and records) if, upon application or upon the motion of the Commission—

(1) the Commission finds that the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or

(2) the Commission finds that any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company.

SEC. 1267. AFFILIATE TRANSACTIONS.

(a) **COMMISSION AUTHORITY UNAFFECTED.**—Nothing in this subtitle shall limit the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) to require that jurisdictional rates are just and reasonable, including the ability to deny or approve the pass through of costs, the prevention of cross-subsidization, and the issuance of such rules and regulations as are necessary or appropriate for the protection of utility consumers.

(b) **RECOVERY OF COSTS.**—Nothing in this subtitle shall preclude the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to determine whether a public-utility company, public utility, or natural gas company may recover in rates any costs of an activity performed by an associate company, or any costs of goods or services acquired by such public-utility company from an associate company.

SEC. 1268. APPLICABILITY.

Except as otherwise specifically provided in this subtitle, no provision of this subtitle shall apply to, or be deemed to include—

(1) the United States;

(2) a State or any political subdivision of a State;

(3) any foreign governmental authority not operating in the United States;

(4) any agency, authority, or instrumentality of any entity referred to in paragraph (1), (2), or (3); or

(5) any officer, agent, or employee of any entity referred to in paragraph (1), (2), (3), or (4) acting as such in the course of his or her official duty.

SEC. 1269. EFFECT ON OTHER REGULATIONS.

Nothing in this subtitle precludes the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to protect utility customers.

SEC. 1270. ENFORCEMENT.

The Commission shall have the same powers as set forth in sections 306 through 317 of the Federal Power Act (16 U.S.C. 825e–825p) to enforce the provisions of this subtitle.

SEC. 1271. SAVINGS PROVISIONS.

(a) **IN GENERAL.**—Nothing in this subtitle, or otherwise in the Public Utility Holding Company Act of 1935, or rules, regulations, or orders thereunder, prohibits a person from engaging in or continuing to engage in activities or transactions in which it is legally engaged or authorized to engage on the date of enactment of this Act, if that person continues to comply with the terms (other than an expiration date or termination date) of any such authorization, whether by rule or by order.

(b) **EFFECT ON OTHER COMMISSION AUTHORITY.**—Nothing in this subtitle limits the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) or the Natural Gas Act (15 U.S.C. 717 et seq.).

SEC. 1272. IMPLEMENTATION.

Not later than 12 months after the date of enactment of this subtitle, the Commission shall—

(1) issue such regulations as may be necessary or appropriate to implement this subtitle (other than section 1265, relating to State access to books and records); and

(2) submit to Congress detailed recommendations on technical and conforming amendments to Federal law necessary to carry out this subtitle and the amendments made by this subtitle.

SEC. 1273. TRANSFER OF RESOURCES.

All books and records that relate primarily to the functions transferred to the Commission under this subtitle shall be transferred from the Securities and Exchange Commission to the Commission.

SEC. 1274. EFFECTIVE DATE.

(a) **IN GENERAL.**—Except for section 1272 (relating to implementation), this subtitle shall take effect 12 months after the date of enactment of this subtitle.

(b) **COMPLIANCE WITH CERTAIN RULES.**—If the Commission approves and makes effective any final rulemaking modifying the standards of conduct governing entities that own, operate, or control facilities for transmission of electricity in interstate commerce or transportation of natural gas in interstate commerce prior to the effective date of this subtitle, any action taken by a public-utility company or utility holding company to comply with the requirements of such rulemaking shall not subject such public-utility company or utility holding company to any regulatory requirement applicable to a holding company under the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.).

SEC. 1275. SERVICE ALLOCATION.

(a) **FERC REVIEW.**—In the case of non-power goods or administrative or management services provided by an associate company organized specifically for the purpose of providing such goods or services to any public utility in the same holding company system, at the election of the system or a State commission having jurisdiction over the public utility, the Commission, after the effective date of this subtitle, shall review and authorize the allocation of the costs for such goods or services to the extent relevant to that associate company in order to assure that each allocation is appropriate for the protection of investors and consumers of such public utility.

(b) **COST ALLOCATION.**—Nothing in this section shall preclude the Commission or a State commission from exercising its jurisdiction under other applicable law with respect to the review or authorization of any costs allocated to a public utility in a holding company system located in the affected State as a result of the acquisition of non-power goods or administrative and management services by such public utility from an associate company organized specifically for that purpose.

(c) **RULES.**—Not later than 6 months after the date of enactment of this Act, the Commission shall issue rules (which rules shall be effective no earlier than the effective date of this subtitle) to exempt from the requirements of this section any company in a holding company system whose public utility operations are confined substantially to a single State and any other class of transactions that the Commission finds is not relevant to the jurisdictional rates of a public utility.

(d) **PUBLIC UTILITY.**—As used in this section, the term “public utility” has the meaning given that term in section 201(e) of the Federal Power Act.

SEC. 1276. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such funds as may be necessary to carry out this subtitle.

SEC. 1277. CONFORMING AMENDMENTS TO THE FEDERAL POWER ACT.

(a) CONFLICT OF JURISDICTION.—Section 318 of the Federal Power Act (16 U.S.C. 825q) is repealed.

(b) DEFINITIONS.—(1) Section 201(g)(5) of the Federal Power Act (16 U.S.C. 824(g)(5)) is amended by striking “1935” and inserting “2003”.

(2) Section 214 of the Federal Power Act (16 U.S.C. 824m) is amended by striking “1935” and inserting “2003”.

Subtitle G—Market Transparency, Enforcement, and Consumer Protection**SEC. 1281. MARKET TRANSPARENCY RULES.**

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 220. MARKET TRANSPARENCY RULES.

“(a) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Commission shall issue rules establishing an electronic information system to provide the Commission and the public with access to such information as is necessary or appropriate to facilitate price transparency and participation in markets subject to the Commission’s jurisdiction under this Act. Such systems shall provide information about the availability and market price of wholesale electric energy and transmission services to the Commission, State commissions, buyers and sellers of wholesale electric energy, users of transmission services, and the public on a timely basis. The Commission shall have authority to obtain such information from any electric utility or transmitting utility, including any entity described in section 201(f).

“(b) EXEMPTIONS.—The Commission shall exempt from disclosure information it determines would, if disclosed, be detrimental to the operation of an effective market or jeopardize system security. This section shall not apply to transactions for the purchase or sale of wholesale electric energy or transmission services within the area described in section 212(k)(2)(A). In determining the information to be made available under this section and time to make such information available, the Commission shall seek to ensure that consumers and competitive markets are protected from the adverse effects of potential collusion or other anti-competitive behaviors that can be facilitated by untimely public disclosure of transaction-specific information.

“(c) COMMODITY FUTURES TRADING COMMISSION.—This section shall not affect the exclusive jurisdiction of the Commodity Futures Trading Commission with respect to accounts, agreements, contracts, or transactions in commodities under the Commodity Exchange Act (7 U.S.C. 1 et seq.). Any request for information to a designated contract market, registered derivatives transaction execution facility, board of trade, exchange, or market involving accounts, agreements, contracts, or transactions in commodities (including natural gas, electricity and other energy commodities) within the exclusive jurisdiction of the Commodity Futures Trading Commission shall be directed to the Commodity Futures Trading Commission.

“(d) SAVINGS PROVISION.—In exercising its authority under this section, the Commission shall not—

“(1) compete with, or displace from the market place, any price publisher; or

“(2) regulate price publishers or impose any requirements on the publication of information.”.

SEC. 1282. MARKET MANIPULATION.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

“SEC. 221. PROHIBITION ON FILING FALSE INFORMATION.

“No person or other entity (including an entity described in section 201(f)) shall willfully and knowingly report any information relating to the price of electricity sold at wholesale or availability of transmission capacity, which information the person or any other entity knew to be false at the time of the reporting, to a Federal agency with intent to fraudulently affect the data being compiled by such Federal agency.

“SEC. 222. PROHIBITION ON ROUND TRIP TRADING.

“(a) PROHIBITION.—No person or other entity (including an entity described in section 201(f)) shall willfully and knowingly enter into any contract or other arrangement to execute a ‘round trip trade’ for the purchase or sale of electric energy at wholesale.

“(b) DEFINITION.—For the purposes of this section, the term ‘round trip trade’ means a transaction, or combination of transactions, in which a person or any other entity—

“(1) enters into a contract or other arrangement to purchase from, or sell to, any other person or other entity electric energy at wholesale;

“(2) simultaneously with entering into the contract or arrangement described in paragraph (1), arranges a financially offsetting trade with such other person or entity for the same such electric energy, at the same location, price, quantity and terms so that, collectively, the purchase and sale transactions in themselves result in no financial gain or loss; and

“(3) enters into the contract or arrangement with a specific intent to fraudulently affect reported revenues, trading volumes, or prices.”.

SEC. 1283. ENFORCEMENT.

(a) COMPLAINTS.—Section 306 of the Federal Power Act (16 U.S.C. 825e) is amended as follows:

(1) By inserting “electric utility,” after “Any person.”.

(2) By inserting “, transmitting utility,” after “licensee” each place it appears.

(b) REVIEW OF COMMISSION ORDERS.—Section 313(a) of the Federal Power Act (16 U.S.C. 825i) is amended by inserting “electric utility,” after “person,” in the first 2 places it appears and by striking “any person unless such person” and inserting “any entity unless such entity”.

(c) INVESTIGATIONS.—Section 307(a) of the Federal Power Act (16 U.S.C. 825f(a)) is amended as follows:

(1) By inserting “, electric utility, transmitting utility, or other entity” after “person” each time it appears.

(2) By striking the period at the end of the first sentence and inserting the following: “or in obtaining information about the sale of electric energy at wholesale in interstate commerce and the transmission of electric energy in interstate commerce.”.

(d) CRIMINAL PENALTIES.—Section 316 of the Federal Power Act (16 U.S.C. 825o) is amended—

(1) in subsection (a), by striking “\$5,000” and inserting “\$1,000,000”, and by striking “two years” and inserting “5 years”;

(2) in subsection (b), by striking “\$500” and inserting “\$25,000”; and

(3) by striking subsection (c).

(e) CIVIL PENALTIES.—Section 316A of the Federal Power Act (16 U.S.C. 825o-1) is amended as follows:

(1) In subsections (a) and (b), by striking “section 211, 212, 213, or 214” each place it appears and inserting “Part II”.

(2) In subsection (b), by striking “\$10,000” and inserting “\$1,000,000”.

SEC. 1284. REFUND EFFECTIVE DATE.

Section 206(b) of the Federal Power Act (16 U.S.C. 824e(b)) is amended as follows:

(1) By striking “the date 60 days after the filing of such complaint nor later than 5 months after the expiration of such 60-day period” in the second sentence and inserting “the date of the filing of such complaint nor later than 5 months after the filing of such complaint”.

(2) By striking “60 days after” in the third sentence and inserting “of”.

(3) By striking “expiration of such 60-day period” in the third sentence and inserting “publication date”.

(4) By striking the fifth sentence and inserting the following: “If no final decision is rendered by the conclusion of the 180-day period commencing upon initiation of a proceeding pursuant to this section, the Commission shall state the reasons why it has failed to do so and shall state its best estimate as to when it reasonably expects to make such decision.”.

SEC. 1285. REFUND AUTHORITY.

Section 206 of the Federal Power Act (16 U.S.C. 824e) is amended by adding the following new subsection at the end thereof:

“(e)(1) Except as provided in paragraph (2), if an entity described in section 201(f) voluntarily makes a short-term sale of electric energy and the sale violates Commission rules in effect at the time of the sale, such entity shall be subject to the Commission’s refund authority under this section with respect to such violation.

“(2) This section shall not apply to—

“(A) any entity that sells less than 8,000,000 megawatt hours of electricity per year; or

“(B) any electric cooperative.

“(3) For purposes of this subsection, the term ‘short-term sale’ means an agreement for the sale of electric energy at wholesale in interstate commerce that is for a period of 31 days or less (excluding monthly contracts subject to automatic renewal).

“(4) The Commission shall have refund authority under subsection (e)(1) with respect to a voluntary short-term sale of electric energy by the Bonneville Power Administration (in this section ‘Bonneville’) only if the sale is at an unjust and unreasonable rate and, in that event, may order a refund only for short-term sales made by Bonneville at rates that are higher than the highest just and reasonable rate charged by any other entity for a short-term sale of electric energy in the same geographic market for the same, or most nearly comparable, period as the sale by Bonneville.

“(5) With respect to any Federal power marketing agency or the Tennessee Valley Authority, the Commission shall not assert or exercise any regulatory authority or powers under subsection (e)(1) other than the ordering of refunds to achieve a just and reasonable rate.”.

SEC. 1286. SANCTITY OF CONTRACT.

(a) IN GENERAL.—The Federal Energy Regulatory Commission (in this section, “the Commission”) shall have no authority to abrogate or modify any provision of an executed contract or executed contract amendment described in subsection (b) that has been entered into or taken effect, except upon a finding that failure to take such action would be contrary to the public interest.

(b) LIMITATION.—Except as provided in subsection (c), this section shall apply only to a contract or contract amendment—

(1) executed on or after the date of enactment of this Act; and

(2) entered into—

(A) for the purchase or sale of electric energy under section 205 of the Federal Power Act (16 U.S.C. 824d) where the seller has been authorized by the Commission to charge market-based rates; or

(B) under section 4 of the Natural Gas Act (15 U.S.C. 717c) where the natural gas company has been authorized by the Commission to charge market-based rates for the service described in the contract.

(c) EXCLUSION.—This section shall not apply to an executed contract or executed contract amendment that expressly provides for a standard of review other than the public interest standard.

(d) SAVINGS PROVISION.—With respect to contracts to which this section does not apply, nothing in this section alters existing law regarding the applicable standard of review for a contract subject to the jurisdiction of the Commission.

SEC. 1287. CONSUMER PRIVACY AND UNFAIR TRADE PRACTICES.

(a) PRIVACY.—The Federal Trade Commission may issue rules protecting the privacy of electric consumers from the disclosure of consumer information obtained in connection with the sale or delivery of electric energy to electric consumers.

(b) SLAMMING.—The Federal Trade Commission may issue rules prohibiting the change of selection of an electric utility except with the informed consent of the electric consumer or if approved by the appropriate State regulatory authority.

(c) CRAMMING.—The Federal Trade Commission may issue rules prohibiting the sale of goods and services to an electric consumer unless expressly authorized by law or the electric consumer.

(d) RULEMAKING.—The Federal Trade Commission shall proceed in accordance with section 553 of title 5, United States Code, when prescribing a rule under this section.

(e) STATE AUTHORITY.—If the Federal Trade Commission determines that a State's regulations provide equivalent or greater protection than the provisions of this section, such State regulations shall apply in that State in lieu of the regulations issued by the Commission under this section.

(f) DEFINITIONS.—For purposes of this section:

(1) STATE REGULATORY AUTHORITY.—The term "State regulatory authority" has the meaning given that term in section 3(21) of the Federal Power Act (16 U.S.C. 796(21)).

(2) ELECTRIC CONSUMER AND ELECTRIC UTILITY.—The terms "electric consumer" and "electric utility" have the meanings given those terms in section 3 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602).

Subtitle H—Merger Reform

SEC. 1291. MERGER REVIEW REFORM AND ACCOUNTABILITY.

(a) MERGER REVIEW REFORM.—Within 180 days after the date of enactment of this Act, the Secretary of Energy, in consultation with the Federal Energy Regulatory Commission and the Attorney General of the United States, shall prepare, and transmit to Congress each of the following:

(1) A study of the extent to which the authorities vested in the Federal Energy Regulatory Commission under section 203 of the Federal Power Act are duplicative of authorities vested in—

(A) other agencies of Federal and State Government; and

(B) the Federal Energy Regulatory Commission, including under sections 205 and 206 of the Federal Power Act.

(2) Recommendations on reforms to the Federal Power Act that would eliminate any unnecessary duplication in the exercise of regulatory authority or unnecessary delays in the approval (or disapproval) of applications for the sale, lease, or other disposition of public utility facilities.

(b) MERGER REVIEW ACCOUNTABILITY.—Not later than 1 year after the date of enactment

of this Act and annually thereafter, with respect to all orders issued within the preceding year that impose a condition on a sale, lease, or other disposition of public utility facilities under section 203(b) of the Federal Power Act, the Federal Energy Regulatory Commission shall transmit a report to Congress explaining each of the following:

(1) The condition imposed.

(2) Whether the Commission could have imposed such condition by exercising its authority under any provision of the Federal Power Act other than under section 203(b).

(3) If the Commission could not have imposed such condition other than under section 203(b), why the Commission determined that such condition was consistent with the public interest.

SEC. 1292. ELECTRIC UTILITY MERGERS.

(a) AMENDMENT.—Section 203(a) of the Federal Power Act (16 U.S.C. 824b(a)) is amended to read as follows:

“(a)(1) No public utility shall, without first having secured an order of the Commission authorizing it to do so—

“(A) sell, lease, or otherwise dispose of the whole of its facilities subject to the jurisdiction of the Commission, or any part thereof of a value in excess of \$10,000,000;

“(B) merge or consolidate, directly or indirectly, such facilities or any part thereof with those of any other person, by any means whatsoever; or

“(C) purchase, acquire, or take any security with a value in excess of \$10,000,000 of any other public utility.

“(2) No holding company in a holding company system that includes a public utility shall purchase, acquire, or take any security with a value in excess of \$10,000,000 of, or, by any means whatsoever, directly or indirectly, merge or consolidate with, a public utility or a holding company in a holding company system that includes a public utility with a value in excess of \$10,000,000 without first having secured an order of the Commission authorizing it to do so.

“(3) Upon receipt of an application for such approval the Commission shall give reasonable notice in writing to the Governor and State commission of each of the States in which the physical property affected, or any part thereof, is situated, and to such other persons as it may deem advisable.

“(4) After notice and opportunity for hearing, the Commission shall approve the proposed disposition, consolidation, acquisition, or change in control, if it finds that the proposed transaction will be consistent with the public interest. In evaluating whether a transaction will be consistent with the public interest, the Commission shall consider whether the proposed transaction—

“(A) will adequately protect consumer interests;

“(B) will be consistent with competitive wholesale markets;

“(C) will impair the financial integrity of any public utility that is a party to the transaction or an associate company of any party to the transaction; and

“(D) satisfies such other criteria as the Commission considers consistent with the public interest.

“(5) The Commission shall, by rule, adopt procedures for the expeditious consideration of applications for the approval of dispositions, consolidations, or acquisitions under this section. Such rules shall identify classes of transactions, or specify criteria for transactions, that normally meet the standards established in paragraph (4). The Commission shall provide expedited review for such transactions. The Commission shall grant or deny any other application for approval of a transaction not later than 180 days after the application is filed. If the Commission does

not act within 180 days, such application shall be deemed granted unless the Commission finds, based on good cause, that further consideration is required to determine whether the proposed transaction meets the standards of paragraph (4) and issues an order tolling the time for acting on the application for not more than 180 days, at the end of which additional period the Commission shall grant or deny the application.

“(6) For purposes of this subsection, the terms ‘associate company’, ‘holding company’, and ‘holding company system’ have the meaning given those terms in the Public Utility Holding Company Act of 2004.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect 12 months after the date of enactment of this section.

Subtitle I—Definitions

SEC. 1295. DEFINITIONS.

(a) ELECTRIC UTILITY.—Section 3(22) of the Federal Power Act (16 U.S.C. 796(22)) is amended to read as follows:

“(22) ELECTRIC UTILITY.—The term ‘electric utility’ means any person or Federal or State agency (including any entity described in section 201(f)) that sells electric energy; such term includes the Tennessee Valley Authority and each Federal power marketing administration.”.

(b) TRANSMITTING UTILITY.—Section 3(23) of the Federal Power Act (16 U.S.C. 796(23)) is amended to read as follows:

“(23) TRANSMITTING UTILITY.—The term ‘transmitting utility’ means an entity, including any entity described in section 201(f), that owns, operates, or controls facilities used for the transmission of electric energy—

“(A) in interstate commerce; or

“(B) for the sale of electric energy at wholesale.”.

(c) ADDITIONAL DEFINITIONS.—Section 3 of the Federal Power Act (16 U.S.C. 796) is amended by adding at the end the following:

“(26) ELECTRIC COOPERATIVE.—The term ‘electric cooperative’ means a cooperatively owned electric utility.

“(27) RTO.—The term ‘Regional Transmission Organization’ or ‘RTO’ means an entity of sufficient regional scope approved by the Commission to exercise operational or functional control of facilities used for the transmission of electric energy in interstate commerce and to ensure nondiscriminatory access to such facilities.

“(28) ISO.—The term ‘Independent System Operator’ or ‘ISO’ means an entity approved by the Commission to exercise operational or functional control of facilities used for the transmission of electric energy in interstate commerce and to ensure nondiscriminatory access to such facilities.”.

(d) COMMISSION.—For the purposes of this title, the term “Commission” means the Federal Energy Regulatory Commission.

(e) APPLICABILITY.—Section 201(f) of the Federal Power Act (16 U.S.C. 824(f)) is amended by adding after “political subdivision of a state,” the following: “an electric cooperative that has financing under the Rural Electrification Act of 1936 (7 U.S.C. 901 et seq.) or that sells less than 4,000,000 megawatt hours of electricity per year.”.

Subtitle J—Technical and Conforming Amendments

SEC. 1297. CONFORMING AMENDMENTS.

The Federal Power Act is amended as follows:

(1) Section 201(b)(2) of such Act (16 U.S.C. 824(b)(2)) is amended as follows:

(A) In the first sentence by striking “210, 211, and 212” and inserting “203(a)(2), 206(e), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222”.

(B) In the second sentence by striking “210 or 211” and inserting “203(a)(2), 206(e), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222”.

(C) Section 201(b)(2) of such Act is amended by striking “The” in the first place it appears and inserting “Notwithstanding section 201(f), the” and in the second sentence after “any order” by inserting “or rule”.

(2) Section 201(e) of such Act is amended by striking “210, 211, or 212” and inserting “206(e), 206(f), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222”.

(3) Section 206 of such Act (16 U.S.C. 824e) is amended as follows:

(A) In subsection (b), in the seventh sentence, by striking “the public utility to make”.

(B) In the first sentence of subsection (a), by striking “hearing had” and inserting “hearing held”.

(4) Section 211(c) of such Act (16 U.S.C. 824j(c)) is amended by—

(A) striking “(2)”;

(B) striking “(A)” and inserting “(1)”

(C) striking “(B)” and inserting “(2)”;

(D) striking “termination of modification” and inserting “termination or modification”.

(5) Section 211(d)(1) of such Act (16 U.S.C. 824j(d)(1)) is amended by striking “electric utility” the second time it appears and inserting “transmitting utility”.

(6) Section 315 (c) of such Act (16 U.S.C. 825n(c)) is amended by striking “subsection” and inserting “section”.

TITLE XIII—ENERGY TAX INCENTIVES

SEC. 1300. SHORT TITLE; AMENDMENT OF 1986 CODE.

(a) SHORT TITLE.—This title may be cited as the “Energy Tax Policy Act of 2004”.

(b) AMENDMENT OF 1986 CODE.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

Subtitle A—Conservation

PART I—RESIDENTIAL AND BUSINESS PROPERTY

SEC. 1301. CREDIT FOR RESIDENTIAL ENERGY EFFICIENT PROPERTY.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 (relating to non-refundable personal credits) is amended by inserting after section 25B the following new section:

“SEC. 25C. RESIDENTIAL ENERGY EFFICIENT PROPERTY.

“(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

“(1) 15 percent of the qualified solar water heating property expenditures made by the taxpayer during such year,

“(2) 15 percent of the qualified photovoltaic property expenditures made by the taxpayer during such year,

“(3) 15 percent of the qualified wind energy property expenditures made by the taxpayer during such year, and

“(4) 20 percent of the qualified fuel cell property expenditures made by the taxpayer during such year.

“(b) LIMITATIONS.—

“(1) MAXIMUM CREDIT.—

“(A) IN GENERAL.—The credit allowed under subsection (a) shall not exceed—

“(i) \$2,000 for property described in paragraph (1), (2), or (3) of subsection (c), and

“(ii) \$500 for each 0.5 kilowatt of capacity of property described in subsection (c)(4).

“(B) PRIOR EXPENDITURES BY TAXPAYER ON SAME RESIDENCE TAKEN INTO ACCOUNT.—In determining the amount of the credit allowed to a taxpayer with respect to any dwelling unit under this section, the dollar amount under subparagraph (A)(i) with respect to each type of property described in such subparagraph shall be reduced by the credit allowed to the taxpayer under this section with respect to such property for all preceding taxable years with respect to such dwelling unit.

“(2) PROPERTY STANDARDS.—No credit shall be allowed under this section for an item of property unless—

“(A) the original use of such property commences with the taxpayer,

“(B) such property reasonably can be expected to remain in use for at least 5 years,

“(C) such property is installed on or in connection with a dwelling unit located in the United States and used as a residence by the taxpayer,

“(D) in the case of solar water heating property, such property is certified for performance by the non-profit Solar Rating and Certification Corporation or a comparable entity endorsed by the government of the State in which such property is installed,

“(E) in the case of fuel cell property, such property meets the performance and quality standards (if any) which have been prescribed by the Secretary by regulations (after consultation with the Secretary of Energy), and

“(F) in the case of any photovoltaic property, fuel cell property, or wind energy property, such property meets appropriate fire and electric code requirements.

“(c) DEFINITIONS.—For purposes of this section—

“(1) QUALIFIED SOLAR WATER HEATING PROPERTY EXPENDITURE.—The term ‘qualified solar water heating property expenditure’ means an expenditure for property which uses solar energy to heat water for use in a dwelling unit.

“(2) QUALIFIED PHOTOVOLTAIC PROPERTY EXPENDITURE.—The term ‘qualified photovoltaic property expenditure’ means an expenditure for property which uses solar energy to generate electricity for use in a dwelling unit and which is not described in paragraph (1).

“(3) QUALIFIED WIND ENERGY PROPERTY EXPENDITURE.—The term ‘qualified wind energy property expenditure’ means an expenditure for property which uses wind energy to generate electricity for use in a dwelling unit.

“(4) QUALIFIED FUEL CELL PROPERTY EXPENDITURE.—The term ‘qualified fuel cell property expenditure’ means an expenditure for any qualified fuel cell property (as defined in section 48(c)(1)).

“(d) SPECIAL RULES.—For purposes of this section—

“(1) SOLAR PANELS.—No expenditure relating to a solar panel or other property installed as a roof (or portion thereof) shall fail to be treated as property described in paragraph (1) or (2) of subsection (c) solely because it constitutes a structural component of the structure on which it is installed.

“(2) SWIMMING POOLS, ETC., USED AS STORAGE MEDIUM.—Expenditures which are properly allocable to a swimming pool, hot tub, or any other energy storage medium which has a function other than the function of such storage shall not be taken into account for purposes of this section.

“(3) DOLLAR AMOUNTS IN CASE OF JOINT OCCUPANCY.—In the case of any dwelling unit which is jointly occupied and used during any calendar year as a residence by 2 or more individuals, the following rules shall apply:

“(A) The amount of the credit allowable under subsection (a) by reason of expendi-

tures made during such calendar year by any of such individuals with respect to such dwelling unit shall be determined by treating all of such individuals as 1 taxpayer whose taxable year is such calendar year.

“(B) There shall be allowable, with respect to such expenditures to each of such individuals, a credit under subsection (a) for the taxable year in which such calendar year ends in an amount which bears the same ratio to the amount determined under subparagraph (A) as the amount of such expenditures made by such individual during such calendar year bears to the aggregate of such expenditures made by all of such individuals during such calendar year.

“(C) Subparagraphs (A) and (B) shall be applied separately with respect to expenditures described in paragraphs (1), (2), (3), and (4) of subsection (c).

“(4) TENANT-STOCKHOLDER IN COOPERATIVE HOUSING CORPORATION.—In the case of an individual who is a tenant-stockholder (as defined in section 216) in a cooperative housing corporation (as defined in such section), such individual shall be treated as having made the individual’s tenant-stockholder’s proportionate share (as defined in section 216(b)(3)) of any expenditures of such corporation.

“(5) CONDOMINIUMS.—

“(A) IN GENERAL.—In the case of an individual who is a member of a condominium management association with respect to a condominium which the individual owns, such individual shall be treated as having made the individual’s proportionate share of any expenditures of such association.

“(B) CONDOMINIUM MANAGEMENT ASSOCIATION.—For purposes of this paragraph, the term ‘condominium management association’ means an organization which meets the requirements of paragraph (1) of section 528(c) (other than subparagraph (E) thereof) with respect to a condominium project substantially all of the units of which are used as residences.

“(6) ALLOCATION IN CERTAIN CASES.—Except in the case of qualified wind energy property expenditures, if less than 80 percent of the use of an item is for nonbusiness purposes, only that portion of the expenditures for such item which is properly allocable to use for nonbusiness purposes shall be taken into account.

“(7) WHEN EXPENDITURE MADE; AMOUNT OF EXPENDITURE.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), an expenditure with respect to an item shall be treated as made when the original installation of the item is completed.

“(B) EXPENDITURES PART OF BUILDING CONSTRUCTION.—In the case of an expenditure in connection with the construction or reconstruction of a structure, such expenditure shall be treated as made when the original use of the constructed or reconstructed structure by the taxpayer begins.

“(C) AMOUNT.—The amount of any expenditure shall be the cost thereof.

“(8) PROPERTY FINANCED BY SUBSIDIZED ENERGY FINANCING.—For purposes of determining the amount of expenditures made by any individual with respect to any dwelling unit, there shall not be taken into account expenditures which are made from subsidized energy financing (as defined in section 48(a)(4)(C)).

“(9) DENIAL OF DEPRECIATION ON WIND ENERGY PROPERTY FOR WHICH CREDIT ALLOWED.—No deduction shall be allowed under section 167 for property which uses wind energy to generate electricity if the taxpayer is allowed a credit under this section with respect to such property.

“(e) BASIS ADJUSTMENTS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to

any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

“(f) **TERMINATION.**—The credit allowed under this section shall not apply to taxable years beginning after December 31, 2006 (December 31, 2008, with respect to qualified photovoltaic property expenditures).”

(b) **CONFORMING AMENDMENTS.**—

(1) Section 1016(a) is amended by striking “and” at the end of paragraph (27), by striking the period at the end of paragraph (28) and inserting “, and”, and by adding at the end the following new paragraph:

“(29) to the extent provided in section 25C(e), in the case of amounts with respect to which a credit has been allowed under section 25C.”

(2) The table of sections for subpart A of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 25B the following new item:

“Sec. 25C. Residential energy efficient property.”

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply to taxable years ending after December 31, 2003.

SEC. 1302. EXTENSION AND EXPANSION OF CREDIT FOR ELECTRICITY PRODUCED FROM CERTAIN RENEWABLE RESOURCES.

(a) **EXPANSION OF QUALIFIED ENERGY RESOURCES.**—Subsection (c) of section 45 (relating to electricity produced from certain renewable resources) is amended to read as follows:

“(c) **QUALIFIED ENERGY RESOURCES.**—For purposes of this section—

“(1) **IN GENERAL.**—The term ‘qualified energy resources’ means—

“(A) wind,

“(B) closed-loop biomass,

“(C) open-loop biomass,

“(D) geothermal energy,

“(E) solar energy,

“(F) small irrigation power, and

“(G) municipal solid waste.

“(2) **CLOSED-LOOP BIOMASS.**—The term ‘closed-loop biomass’ means any organic material from a plant which is planted exclusively for purposes of being used at a qualified facility to produce electricity.

“(3) **OPEN-LOOP BIOMASS.**—

“(A) **IN GENERAL.**—The term ‘open-loop biomass’ means—

“(i) any agricultural livestock waste nutrients, or

“(ii) any solid, nonhazardous, cellulosic waste material which is segregated from other waste materials and which is derived from—

“(I) any of the following forest-related resources: mill and harvesting residues, precommercial thinnings, slash, and brush,

“(II) solid wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste, gas derived from the biodegradation of solid waste, or paper which is commonly recycled, or

“(III) agriculture sources, including orchard tree crops, vineyard, grain, legumes, sugar, and other crop by-products or residues.

Such term shall not include closed-loop biomass.

“(B) **AGRICULTURAL LIVESTOCK WASTE NUTRIENTS.**—

“(i) **IN GENERAL.**—The term ‘agricultural livestock waste nutrients’ means agricultural livestock manure and litter, including wood shavings, straw, rice hulls, and other

bedding material for the disposition of manure.

“(ii) **AGRICULTURAL LIVESTOCK.**—The term ‘agricultural livestock’ includes bovine, swine, poultry, and sheep.

“(4) **GEO THERMAL ENERGY.**—The term ‘geothermal energy’ means energy derived from a geothermal deposit (within the meaning of section 613(e)(2)).

“(5) **SMALL IRRIGATION POWER.**—The term ‘small irrigation power’ means power—

“(A) generated without any dam or impoundment of water through an irrigation system canal or ditch, and

“(B) the nameplate capacity rating of which is not less than 150 kilowatts but is less than 5 megawatts.

“(6) **MUNICIPAL SOLID WASTE.**—The term ‘municipal solid waste’ has the meaning given the term ‘solid waste’ under section 2(27) of the Solid Waste Disposal Act (42 U.S.C. 6903).”

(b) **EXTENSION AND EXPANSION OF QUALIFIED FACILITIES.**—

(1) **IN GENERAL.**—Section 45 is amended by redesignating subsection (d) as subsection (e) and by inserting after subsection (c) the following new subsection:

“(d) **QUALIFIED FACILITIES.**—For purposes of this section—

“(1) **WIND FACILITY.**—In the case of a facility using wind to produce electricity, the term ‘qualified facility’ means any facility owned by the taxpayer which is originally placed in service after December 31, 1993, and before January 1, 2007.

“(2) **CLOSED-LOOP BIOMASS FACILITY.**—

“(A) **IN GENERAL.**—In the case of a facility using closed-loop biomass to produce electricity, the term ‘qualified facility’ means any facility—

“(i) owned by the taxpayer which is originally placed in service after December 31, 1992, and before January 1, 2007, or

“(ii) owned by the taxpayer which before January 1, 2007, is originally placed in service and modified to use closed-loop biomass to co-fire with coal, with other biomass, or with both, but only if the modification is approved under the Biomass Power for Rural Development Programs or is part of a pilot project of the Commodity Credit Corporation as described in 65 Fed. Reg. 63052.

“(B) **SPECIAL RULES.**—In the case of a qualified facility described in subparagraph (A)(i)—

“(i) the 10-year period referred to in subsection (a) shall be treated as beginning no earlier than the date of the enactment of the Energy Tax Policy Act of 2004,

“(ii) the amount of the credit determined under subsection (a) with respect to the facility shall be an amount equal to the amount determined without regard to this clause multiplied by the ratio of the thermal content of the closed-loop biomass used in such facility to the thermal content of all fuels used in such facility, and

“(iii) if the owner of such facility is not the producer of the electricity, the person eligible for the credit allowable under subsection (a) shall be the lessee or the operator of such facility.

“(3) **OPEN-LOOP BIOMASS FACILITIES.**—

“(A) **IN GENERAL.**—In the case of a facility using open-loop biomass to produce electricity, the term ‘qualified facility’ means any facility owned by the taxpayer which—

“(i) in the case of a facility using agricultural livestock waste nutrients—

“(I) is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2004 and before January 1, 2007, and

“(II) the nameplate capacity rating of which is not less than 150 kilowatts, and

“(ii) in the case of any other facility, is originally placed in service before January 1, 2007.

“(B) **CREDIT ELIGIBILITY.**—In the case of any facility described in subparagraph (A), if the owner of such facility is not the producer of the electricity, the person eligible for the credit allowable under subsection (a) shall be the lessee or the operator of such facility.

“(4) **GEO THERMAL OR SOLAR ENERGY FACILITY.**—In the case of a facility using geothermal or solar energy to produce electricity, the term ‘qualified facility’ means any facility owned by the taxpayer which is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2004 and before January 1, 2007. Such term shall not include any property described in section 48(a)(3) the basis of which is taken into account by the taxpayer for purposes of determining the energy credit under section 48.

“(5) **SMALL IRRIGATION POWER FACILITY.**—In the case of a facility using small irrigation power to produce electricity, the term ‘qualified facility’ means any facility owned by the taxpayer which is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2004 and before January 1, 2007.

“(6) **LANDFILL GAS FACILITIES.**—In the case of a facility producing electricity from gas derived from the biodegradation of municipal solid waste, the term ‘qualified facility’ means any facility owned by the taxpayer which is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2004 and before January 1, 2007.

“(7) **TRASH COMBUSTION FACILITIES.**—In the case of a facility which burns municipal solid waste to produce electricity, the term ‘qualified facility’ means any facility owned by the taxpayer which is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2004 and before January 1, 2007.”

(2) **CONFORMING AMENDMENT.**—Section 45(e), as so redesignated, is amended by striking “subsection (c)(3)(A)” in paragraph (7)(A)(i) and inserting “subsection (d)(1)”.

(c) **SPECIAL CREDIT RATE AND PERIOD FOR ELECTRICITY PRODUCED AND SOLD AFTER ENACTMENT DATE.**—Section 45(b) is amended by adding at the end the following new paragraph:

“(4) **CREDIT RATE AND PERIOD FOR ELECTRICITY PRODUCED AND SOLD FROM CERTAIN FACILITIES.**—

“(A) **CREDIT RATE.**—In the case of electricity produced and sold in any calendar year after 2003 at any qualified facility described in paragraph (3), (5), (6), or (7) of subsection (d), the amount in effect under subsection (a)(1) for such calendar year (determined before the application of the last sentence of paragraph (2) of this subsection) shall be reduced by one-third.

“(B) **CREDIT PERIOD.**—

“(i) **IN GENERAL.**—Except as provided in clause (ii), in the case of any facility described in paragraph (3), (4), (5), (6), or (7) of subsection (d), the 5-year period beginning on the date the facility was originally placed in service shall be substituted for the 10-year period in subsection (a)(2)(A)(ii).

“(ii) **CERTAIN OPEN-LOOP BIOMASS FACILITIES.**—In the case of any facility described in subsection (d)(3)(A)(ii) placed in service before the date of the enactment of this paragraph, the 5-year period beginning on January 1, 2004, shall be substituted for the 10-year period in subsection (a)(2)(A)(ii).”

(d) **COORDINATION WITH OTHER CREDITS.**—Section 45(e), as so redesignated, is amended by adding at the end the following new paragraph:

“(8) COORDINATION WITH OTHER CREDITS.—The term ‘qualified facility’ shall not include—

“(A) any property with respect to which a credit is allowed under section 25C, and

“(B) any facility the production from which is allowed as a credit under section 45K,

for the taxable year or any prior taxable year.”

(e) COORDINATION WITH SECTION 48.—Section 48(a)(3) (defining energy property) is amended by adding at the end the following new sentence: “Such term shall not include any property which is part of a facility the production from which is allowed as a credit under section 45 for the taxable year or any prior taxable year.”

(f) ELIMINATION OF CERTAIN CREDIT REDUCTIONS.—Section 45(b)(3) (relating to credit reduced for grants, tax-exempt bonds, subsidized energy financing, and other credits) is amended—

(1) by inserting “the lesser of ½ or” before “a fraction” in the matter preceding subparagraph (A), and

(2) by adding at the end the following new sentence: “This paragraph shall not apply with respect to any facility described in subsection (d)(2)(A)(ii).”

(g) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section shall apply to electricity produced and sold after the date of the enactment of this Act, in taxable years ending after such date.

(2) CERTAIN BIOMASS FACILITIES.—With respect to any facility described in section 45(d)(3)(A)(ii) of the Internal Revenue Code of 1986, as added by subsection (b)(1), which is placed in service before the date of the enactment of this Act, the amendments made by this section shall apply to electricity produced and sold after December 31, 2003, in taxable years ending after such date.

(3) CREDIT RATE AND PERIOD FOR NEW FACILITIES.—The amendments made by subsection (c) shall apply to electricity produced and sold after December 31, 2003, in taxable years ending after such date.

(4) NONAPPLICATION OF AMENDMENTS TO PREEFFECTIVE DATE POULTRY WASTE FACILITIES.—The amendments made by this section shall not apply with respect to any poultry waste facility (within the meaning of section 45(c)(3)(C), as in effect on the day before the date of the enactment of this Act) placed in service before January 1, 2004.

(h) GAO STUDY.—The Comptroller General of the United States shall conduct a study on the market viability of producing electricity from resources with respect to which credit is allowed under section 45 of the Internal Revenue Code of 1986 but without such credit. In the case of open-loop biomass and municipal solid waste resources, the study should take into account savings associated with not having to dispose of such resources. In conducting such study, the Comptroller shall estimate the dollar value of the environmental impact of producing electricity from such resources relative to producing electricity from fossil fuels using the latest generation of technology. Not later than June 30, 2006, the Comptroller shall report on such study to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate.

SEC. 1303. CREDIT FOR BUSINESS INSTALLATION OF QUALIFIED FUEL CELLS.

(a) IN GENERAL.—Section 48(a)(3)(A) (defining energy property) is amended by striking “or” at the end of clause (i), by adding “or” at the end of clause (ii), and by inserting after clause (ii) the following new clause:

“(iii) qualified fuel cell property.”

(b) QUALIFIED FUEL CELL PROPERTY.—Section 48 (relating to energy credit; reforestation credit) is amended by adding at the end the following new subsection:

“(c) QUALIFIED FUEL CELL PROPERTY.—For purposes of subsection (a)(3)(A)(iii)—

“(1) IN GENERAL.—The term ‘qualified fuel cell property’ means a fuel cell power plant which generates at least 0.5 kilowatt of electricity using an electrochemical process.

“(2) LIMITATION.—The energy credit with respect to any qualified fuel cell property shall not exceed an amount equal to \$500 for each 0.5 kilowatt of capacity of such property.

“(3) FUEL CELL POWER PLANT.—The term ‘fuel cell power plant’ means an integrated system, comprised of a fuel cell stack assembly and associated balance of plant components, which converts a fuel into electricity using electrochemical means.

“(4) TERMINATION.—The term ‘qualified fuel cell property’ shall not include any property placed in service after December 31, 2006.”

(c) ENERGY PERCENTAGE.—Subparagraph (A) of section 48(a)(2) (relating to energy percentage) is amended to read as follows:

“(A) IN GENERAL.—The energy percentage is—

“(i) in the case of qualified fuel cell property, 20 percent, and

“(ii) in the case of any other energy property, 10 percent.”

(d) CONFORMING AMENDMENT.—Section 48(a)(1) is amended by inserting “except as provided in subsection (c)(2),” before “the energy”.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to periods after December 31, 2003, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1304. CREDIT FOR ENERGY EFFICIENCY IMPROVEMENTS TO EXISTING HOMES.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 (relating to non-refundable personal credits), as amended by this Act, is amended by inserting after section 25C the following new section:

“SEC. 25D. ENERGY EFFICIENCY IMPROVEMENTS TO EXISTING HOMES.

“(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 20 percent of the amount paid or incurred by the taxpayer for qualified energy efficiency improvements installed during such taxable year.

“(b) LIMITATIONS.—

“(1) MAXIMUM CREDIT.—The credit allowed by this section with respect to a dwelling unit shall not exceed \$2,000.

“(2) PRIOR CREDIT AMOUNTS FOR TAXPAYER ON SAME DWELLING TAKEN INTO ACCOUNT.—If a credit was allowed to the taxpayer under subsection (a) with respect to a dwelling unit in 1 or more prior taxable years, the amount of the credit otherwise allowable for the taxable year with respect to that dwelling unit shall be reduced by the sum of the credits allowed under subsection (a) to the taxpayer with respect to the dwelling unit for all prior taxable years.

“(c) QUALIFIED ENERGY EFFICIENCY IMPROVEMENTS.—For purposes of this section, the term ‘qualified energy efficiency improvements’ means any energy efficient building envelope component which meets the prescriptive criteria for such component established by the 2000 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of this section (or, in the case of

a metal roof with appropriate pigmented coatings which meet the Energy Star program requirements), if—

“(1) such component is installed in or on a dwelling unit—

“(A) located in the United States,

“(B) owned and used by the taxpayer as the taxpayer’s principal residence (within the meaning of section 121), and

“(C) which has not been treated as a qualified new energy efficient home for purposes of any credit allowed under section 45G,

“(2) the original use of such component commences with the taxpayer, and

“(3) such component reasonably can be expected to remain in use for at least 5 years. If the aggregate cost of such components with respect to any dwelling unit exceeds \$1,000, such components shall be treated as qualified energy efficiency improvements only if such components are also certified in accordance with subsection (d) as meeting such prescriptive criteria.

“(d) CERTIFICATION.—The certification described in subsection (c) shall be—

“(1) determined on the basis of the technical specifications or applicable ratings (including product labeling requirements) for the measurement of energy efficiency (based upon energy use or building envelope component performance) for the energy efficient building envelope component,

“(2) provided by a local building regulatory authority, a utility, a manufactured home production inspection primary inspection agency (IPIA), or an accredited home energy rating system provider who is accredited by or otherwise authorized to use approved energy performance measurement methods by the Residential Energy Services Network (RESNET), and

“(3) made in writing in a manner which specifies in readily verifiable fashion the energy efficient building envelope components installed and their respective energy efficiency levels.

“(e) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

“(1) BUILDING ENVELOPE COMPONENT.—The term ‘building envelope component’ means—

“(A) any insulation material or system which is specifically and primarily designed to reduce the heat loss or gain of a dwelling unit when installed in or on such dwelling unit,

“(B) exterior windows (including skylights),

“(C) exterior doors, and

“(D) any metal roof installed on a dwelling unit, but only if such roof has appropriate pigmented coatings which are specifically and primarily designed to reduce the heat gain of such dwelling unit.

“(2) MANUFACTURED HOMES INCLUDED.—The term ‘dwelling unit’ includes a manufactured home which conforms to Federal Manufactured Home Construction and Safety Standards (section 3280 of title 24, Code of Federal Regulations).

“(3) APPLICATION OF RULES.—Rules similar to the rules under paragraphs (3), (4), and (5) of section 25C(d) shall apply.

“(f) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

“(g) APPLICATION OF SECTION.—This section shall apply to qualified energy efficiency improvements installed after December 31, 2003, and before January 1, 2007.”

(b) CONFORMING AMENDMENTS.—

(1) Subsection (a) of section 1016, as amended by this Act, is amended by striking “and” at the end of paragraph (28), by striking the

period at the end of paragraph (29) and inserting “, and”, and by adding at the end the following new paragraph:

“(30) to the extent provided in section 25D(f), in the case of amounts with respect to which a credit has been allowed under section 25D.”.

(2) The table of sections for subpart A of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 25C the following new item:

“Sec. 25D. Energy efficiency improvements to existing homes.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after December 31, 2003.

SEC. 1305. CREDIT FOR CONSTRUCTION OF NEW ENERGY EFFICIENT HOMES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business related credits) is amended by adding at the end the following new section:

“SEC. 45G. NEW ENERGY EFFICIENT HOME CREDIT.”

“(a) IN GENERAL.—For purposes of section 38, in the case of an eligible contractor with respect to a qualified new energy efficient home, the credit determined under this section for the taxable year with respect to such home is an amount equal to the aggregate adjusted bases of all energy efficient property installed in such home during construction of such home.

“(b) LIMITATIONS.—

“(1) MAXIMUM CREDIT.—

“(A) IN GENERAL.—The credit allowed by this section with respect to a dwelling unit shall not exceed—

“(i) in the case of a dwelling unit described in clause (i) or (iii) of subsection (c)(3)(D), \$1,000, and

“(ii) in the case of a dwelling unit described in subsection (c)(3)(D)(ii), \$2,000.

“(B) PRIOR CREDIT AMOUNTS ON SAME DWELLING UNIT TAKEN INTO ACCOUNT.—If a credit was allowed under subsection (a) with respect to a dwelling unit in 1 or more prior taxable years, the amount of the credit otherwise allowable for the taxable year with respect to such dwelling unit shall be reduced by the sum of the credits allowed under subsection (a) with respect to the dwelling unit for all prior taxable years.

“(2) COORDINATION WITH CERTAIN CREDITS.—For purposes of this section—

“(A) the basis of any property referred to in subsection (a) shall be reduced by that portion of the basis of any property which is attributable to qualified rehabilitation expenditures (as defined in section 47(c)(2)) or to the energy percentage of energy property (as determined under section 48(a)), and

“(B) expenditures taken into account under section 47 or 48(a) shall not be taken into account under this section.

“(c) DEFINITIONS.—For purposes of this section—

“(1) ELIGIBLE CONTRACTOR.—The term ‘eligible contractor’ means—

“(A) the person who constructed the qualified new energy efficient home, or

“(B) in the case of a qualified new energy efficient home which is a manufactured home, the manufactured home producer of such home.

If more than 1 person is described in subparagraph (A) or (B) with respect to any qualified new energy efficient home, such term means the person designated as such by the owner of such home.

“(2) ENERGY EFFICIENT PROPERTY.—The term ‘energy efficient property’ means any energy efficient building envelope component, and any energy efficient heating or cooling equipment or system, which can, individually or in combination with other

components, result in a dwelling unit meeting the requirements of this section.

“(3) QUALIFIED NEW ENERGY EFFICIENT HOME.—The term ‘qualified new energy efficient home’ means a dwelling unit—

“(A) located in the United States,

“(B) the construction of which is substantially completed after December 31, 2003,

“(C) the original use of which, after such construction, is reasonably expected to be as a residence by the person who acquires such dwelling unit from the eligible contractor,

“(D) which is—

“(i) certified to have a level of annual heating and cooling energy consumption which is at least 30 percent below the annual level of heating and cooling energy consumption of a comparable dwelling unit constructed in accordance with the standards of chapter 4 of the 2000 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of this section, and to have building envelope component improvements account for at least 1/3 of such 30 percent,

“(ii) certified to have a level of annual heating and cooling energy consumption which is at least 50 percent below such annual level and to have building envelope component improvements account for at least 1/3 of such 50 percent, or

“(iii) a manufactured home which—

“(I) conforms to Federal Manufactured Home Construction and Safety Standards (section 3280 of title 24, Code of Federal Regulations), and

“(II) meets the applicable standards required by the Administrator of the Environmental Protection Agency under the Energy Star Labeled Homes program.

“(4) CONSTRUCTION.—The term ‘construction’ includes substantial reconstruction and rehabilitation.

“(5) ACQUIRE.—The term ‘acquire’ includes purchase and, in the case of reconstruction and rehabilitation, such term includes a binding written contract for such reconstruction or rehabilitation.

“(6) BUILDING ENVELOPE COMPONENT.—The term ‘building envelope component’ means—

“(A) any insulation material or system which is specifically and primarily designed to reduce the heat loss or gain of a dwelling unit when installed in or on such dwelling unit,

“(B) exterior windows (including skylights),

“(C) exterior doors, and

“(D) any metal roof installed on a dwelling unit, but only if such roof has appropriate pigmented coatings which—

“(i) are specifically and primarily designed to reduce the heat gain of such dwelling unit, and

“(ii) meet the Energy Star program requirements.

“(d) CERTIFICATION.—

“(1) METHOD OF CERTIFICATION.—A certification described in subsection (c)(3)(D) shall be determined in accordance with guidance prescribed by the Secretary. Such guidance shall specify procedures and methods for calculating energy and cost savings.

“(2) FORM.—A certification described in subsection (c)(3)(D) shall be made in writing—

“(A) in a manner which specifies in readily verifiable fashion the energy efficient building envelope components and energy efficient heating or cooling equipment installed and their respective rated energy efficiency performance, and

“(B) in the case of a qualified new energy efficient home which is a manufactured home, accompanied by such documentation as required by the Administrator of the Environmental Protection Agency under the Energy Star Labeled Homes program.

“(e) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is determined under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so determined.

“(f) APPLICATION OF SECTION.—Subsection (a) shall apply to qualified new energy efficient homes acquired during the period beginning on January 1, 2004, and ending on December 31, 2006.”.

(b) CREDIT MADE PART OF GENERAL BUSINESS CREDIT.—Section 38(b) (relating to current year business credit) is amended by striking “plus” at the end of paragraph (14), by striking the period at the end of paragraph (15) and inserting “, plus”, and by adding at the end the following new paragraph:

“(16) the new energy efficient home credit determined under section 45G(a).”.

(c) BASIS ADJUSTMENT.—Subsection (a) of section 1016, as amended by this Act, is amended by striking “and” at the end of paragraph (29), by striking the period at the end of paragraph (30) and inserting “, and”, and by adding at the end the following new paragraph:

“(31) to the extent provided in section 45G(e), in the case of amounts with respect to which a credit has been allowed under section 45G.”.

(d) LIMITATION ON CARRYBACK.—

(1) IN GENERAL.—Subsection (d) of section 39 is amended to read as follows:

“(d) TRANSITIONAL RULE.—No portion of the unused business credit for any taxable year which is attributable to a credit specified in section 38(b) or any portion thereof may be carried back to any taxable year before the first taxable year for which such specified credit or such portion is allowable (without regard to subsection (a)).”.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply with respect to taxable years ending after December 31, 2002.

(e) DEDUCTION FOR CERTAIN UNUSED BUSINESS CREDITS.—Section 196(c) (defining qualified business credits) is amended by striking “and” at the end of paragraph (10), by striking the period at the end of paragraph (11) and inserting “, and”, and by adding after paragraph (11) the following new paragraph:

“(12) the new energy efficient home credit determined under section 45G(a).”.

(f) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by adding at the end the following new item:

“Sec. 45G. New energy efficient home credit.”.

(g) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after December 31, 2003.

SEC. 1306. ENERGY CREDIT FOR COMBINED HEAT AND POWER SYSTEM PROPERTY.

(a) IN GENERAL.—Section 48(a)(3)(A) (defining energy property), as amended by this Act, is amended by striking “or” at the end of clause (ii), by adding “or” at the end of clause (iii), and by inserting after clause (iii) the following new clause:

“(iv) combined heat and power system property.”.

(b) COMBINED HEAT AND POWER SYSTEM PROPERTY.—Section 48 (relating to energy credit; reforestation credit), as amended by this Act, is amended by adding at the end the following new subsection:

“(d) COMBINED HEAT AND POWER SYSTEM PROPERTY.—For purposes of subsection (a)(3)(A)(iv)—

“(1) COMBINED HEAT AND POWER SYSTEM PROPERTY.—The term ‘combined heat and

power system property' means property comprising a system—

“(A) which uses the same energy source for the simultaneous or sequential generation of electrical power, mechanical shaft power, or both, in combination with the generation of steam or other forms of useful thermal energy (including heating and cooling applications),

“(B) which has an electrical capacity of not more than 15 megawatts or a mechanical energy capacity of not more than 2,000 horsepower or an equivalent combination of electrical and mechanical energy capacities,

“(C) which produces—

“(i) at least 20 percent of its total useful energy in the form of thermal energy which is not used to produce electrical or mechanical power (or combination thereof), and

“(ii) at least 20 percent of its total useful energy in the form of electrical or mechanical power (or combination thereof),

“(D) the energy efficiency percentage of which exceeds 60 percent, and

“(E) which is placed in service before January 1, 2007.

“(2) SPECIAL RULES.—

“(A) ENERGY EFFICIENCY PERCENTAGE.—For purposes of this subsection, the energy efficiency percentage of a system is the fraction—

“(i) the numerator of which is the total useful electrical, thermal, and mechanical power produced by the system at normal operating rates, and expected to be consumed in its normal application, and

“(ii) the denominator of which is the lower heating value of the fuel sources for the system.

“(B) DETERMINATIONS MADE ON BTU BASIS.—The energy efficiency percentage and the percentages under paragraph (1)(C) shall be determined on a Btu basis.

“(C) INPUT AND OUTPUT PROPERTY NOT INCLUDED.—The term ‘combined heat and power system property’ does not include property used to transport the energy source to the facility or to distribute energy produced by the facility.

“(D) PUBLIC UTILITY PROPERTY.—

“(i) ACCOUNTING RULE FOR PUBLIC UTILITY PROPERTY.—If the combined heat and power system property is public utility property (as defined in section 168(i)(10)), the taxpayer may only claim the credit under subsection (a) if, with respect to such property, the taxpayer uses a normalization method of accounting.

“(ii) CERTAIN EXCEPTION NOT TO APPLY.—The matter in subsection (a)(3) which follows subparagraph (D) thereof shall not apply to combined heat and power system property.

“(3) SYSTEMS USING BAGASSE.—If a system is designed to use bagasse for at least 90 percent of the energy source—

“(A) paragraph (1)(D) shall not apply, but

“(B) the amount of credit determined under subsection (a) with respect to such system shall not exceed the amount which bears the same ratio to such amount of credit (determined without regard to this paragraph) as the energy efficiency percentage of such system bears to 60 percent.”

(c) EFFECTIVE DATE.—The amendments made by this subsection shall apply to periods after December 31, 2003, in taxable years ending after such date, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1307. CREDIT FOR ENERGY EFFICIENT APPLIANCES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business-related credits), as amended by this Act, is amended by adding at the end the following new section:

“SEC. 45H. ENERGY EFFICIENT APPLIANCE CREDIT.

“(a) ALLOWANCE OF CREDIT.—For purposes of section 38, the energy efficient appliance credit determined under this section for the taxable year is an amount equal to the sum of—

“(1) the tier I appliance amount, and

“(2) the tier II appliance amount,

with respect to qualified energy efficient appliances produced by the taxpayer during the calendar year ending with or within the taxable year.

“(b) APPLIANCE AMOUNTS.—For purposes of subsection (a)—

“(1) TIER I APPLIANCE AMOUNT.—The tier I appliance amount is equal to—

“(A) \$100, multiplied by

“(B) an amount (rounded to the nearest whole number) equal to the applicable percentage of the eligible production.

“(2) TIER II APPLIANCE AMOUNT.—The tier II appliance amount is equal to \$150, multiplied by an amount equal to the eligible production reduced by the amount determined under paragraph (1)(B).

“(3) APPLICABLE PERCENTAGE.—The applicable percentage is the percentage determined by dividing the tier I appliances produced by the taxpayer during the calendar year by the sum of the tier I and tier II appliances so produced.

“(4) ELIGIBLE PRODUCTION.—The eligible production of qualified energy efficient appliances by the taxpayer for any calendar year is the excess of—

“(A) the number of such appliances which are produced by the taxpayer during such calendar year, over

“(B) 110 percent of the average annual number of such appliances which were produced by the taxpayer (or any predecessor) during the preceding 3-calendar year period.

“(c) QUALIFIED ENERGY EFFICIENT APPLIANCE.—For purposes of this section—

“(1) IN GENERAL.—The term ‘qualified energy efficient appliance’ means any tier I appliance or tier II appliance which is produced in the United States.

“(2) TIER I APPLIANCE.—The term ‘tier I appliance’ means—

“(A) a clothes washer which is produced with at least a 1.50 MEF, and

“(B) a refrigerator which consumes at least 15 percent (20 percent in the case of a refrigerator produced after 2006) less kilowatt hours per year than the energy conservation standards for refrigerators promulgated by the Department of Energy and effective on July 1, 2001.

“(3) TIER II APPLIANCE.—The term ‘tier II appliance’ means a refrigerator produced before 2007 which consumes at least 20 percent less kilowatt hours per year than the energy conservation standards described in paragraph (2)(B).

“(4) CLOTHES WASHER.—The term ‘clothes washer’ means a residential clothes washer, including a residential style coin operated washer.

“(5) REFRIGERATOR.—The term ‘refrigerator’ means an automatic defrost refrigerator-freezer which has an internal volume of at least 16.5 cubic feet.

“(6) MEF.—The term ‘MEF’ means Modified Energy Factor (as determined by the Secretary of Energy).

“(7) PRODUCED.—The term ‘produced’ includes manufactured.

“(d) LIMITATION ON MAXIMUM CREDIT.—

“(1) IN GENERAL.—The amount of credit allowed under subsection (a) with respect to a taxpayer for any taxable year shall not exceed \$60,000,000, reduced by the amount of the credit allowed under subsection (a) to the taxpayer (or any predecessor) for any prior taxable year.

“(2) LIMITATION BASED ON GROSS RECEIPTS.—The credit allowed under subsection (a) with respect to a taxpayer for the taxable year shall not exceed an amount equal to 2 percent of the average annual gross receipts of the taxpayer for the 3 taxable years preceding the taxable year for which the credit is determined.

“(3) GROSS RECEIPTS.—For purposes of this subsection, the rules of paragraphs (2) and (3) of section 448(c) shall apply.

“(e) SPECIAL RULES.—For purposes of this section—

“(1) IN GENERAL.—Rules similar to the rules of subsections (c), (d), and (e) of section 52 shall apply.

“(2) CONTROLLED GROUPS.—

“(A) IN GENERAL.—All persons treated as a single employer under subsection (a) or (b) of section 52 or subsection (m) or (o) of section 414 shall be treated as a single manufacturer.

“(B) INCLUSION OF FOREIGN CORPORATIONS.—For purposes of subparagraph (A), in applying subsections (a) and (b) of section 52 to this section, section 1563 shall be applied without regard to subsection (b)(2)(C) thereof.

“(f) VERIFICATION.—The taxpayer shall submit such information or certification as the Secretary, after consultation with the Secretary of Energy, determines necessary to claim the credit amount under subsection (a).

“(g) TERMINATION.—This section shall not apply with respect to appliances produced after December 31, 2007.”

(b) CREDIT MADE PART OF GENERAL BUSINESS CREDIT.—Section 38(b) (relating to current year business credit), as amended by this Act, is amended by striking “plus” at the end of paragraph (15), by striking the period at the end of paragraph (16) and inserting “, plus”, and by adding at the end the following new paragraph:

“(17) the energy efficient appliance credit determined under section 45H(a).”

(c) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new item:

“Sec. 45H. Energy efficient appliance credit.”

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to appliances produced after December 31, 2003, in taxable years ending after such date.

SEC. 1308. ENERGY EFFICIENT COMMERCIAL BUILDINGS DEDUCTION.

(a) IN GENERAL.—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations) is amended by inserting after section 179A the following new section:

“SEC. 179B. ENERGY EFFICIENT COMMERCIAL BUILDINGS DEDUCTION.

“(a) IN GENERAL.—There shall be allowed as a deduction an amount equal to the cost of energy efficient commercial building property placed in service during the taxable year.

“(b) MAXIMUM AMOUNT OF DEDUCTION.—The deduction under subsection (a) with respect to any building for the taxable year and all prior taxable years shall not exceed an amount equal to the product of—

“(1) \$1.50, and

“(2) the square footage of the building.

“(c) DEFINITIONS.—For purposes of this section—

“(1) ENERGY EFFICIENT COMMERCIAL BUILDING PROPERTY.—The term ‘energy efficient commercial building property’ means property—

“(A) which is installed on or in a building—

“(i) which is located in the United States, and

“(ii) which is the type of structure to which the Standard 90.1-2001 is applicable,

“(B) which is installed as part of—

“(i) the lighting systems,

“(ii) the heating, cooling, ventilation, and hot water systems, or

“(iii) the building envelope, and

“(C) which is certified in accordance with subsection (d)(4) as being installed as part of a plan designed to reduce the total annual energy and power costs with respect to the lighting systems, heating, cooling, ventilation, and hot water systems of the building by 50 percent or more in comparison to a reference building which meets the minimum requirements of Standard 90.1-2001 using methods of calculation under subsection (d)(2).

“(2) STANDARD 90.1-2001.—The term ‘Standard 90.1-2001’ means Standard 90.1-2001 of the American Society of Heating, Refrigerating, and Air Conditioning Engineers and the Illuminating Engineering Society of North America (as in effect on April 2, 2003).

“(d) SPECIAL RULES.—

“(1) PARTIAL ALLOWANCE.—

“(A) IN GENERAL.—Except as provided in subsection (f), in the case of a building placed in service on or before the date of the enactment of this section, if—

“(i) the requirement of subsection (c)(1)(C) is not met, but

“(ii) there is a certification in accordance with subsection (d)(4) that any system referred to in subsection (c)(1)(B) satisfies the energy-savings targets established by the Secretary under subparagraph (B) with respect to such system,

then the requirement of subsection (c)(1)(C) shall be treated as met with respect to such system, and the deduction under subsection (a) shall be allowed with respect to energy efficient commercial building property installed as part of such system and as part of a plan to meet such targets, except that subsection (b) shall be applied to such property by substituting ‘\$.50’ for ‘\$1.50’.

“(B) REGULATIONS.—The Secretary, after consultation with the Secretary of Energy, shall establish a target for each system described in subsection (c)(1)(B) which, if such targets were met for all such systems, the building would meet the requirements of subsection (c)(1)(C).

“(2) METHODS OF CALCULATION.—The Secretary, after consultation with the Secretary of Energy, shall promulgate regulations which describe in detail methods for calculating and verifying energy and power cost for purposes of this section.

“(3) NOTICE TO OWNER.—Each certification required under this section shall include an explanation to the building owner regarding the energy efficiency features of the building and its projected annual energy costs.

“(4) CERTIFICATION.—

“(A) IN GENERAL.—The Secretary shall prescribe the manner and method for the making of certifications under this section.

“(B) PROCEDURES.—The Secretary shall include as part of the certification process procedures for inspection and testing by qualified individuals described in subparagraph (C) to ensure compliance of buildings with energy-savings plans and targets. Such procedures shall be—

“(i) comparable, given the difference between commercial and residential buildings, to the requirements in the Mortgage Industry National Accreditation Procedures for Home Energy Rating Systems, and

“(ii) fuel neutral such that the same energy efficiency measures allow a building to be eligible for the deduction under this section regardless of whether such building uses a gas or oil furnace or boiler, an electric heat pump, or other fuel source.

“(C) QUALIFIED INDIVIDUALS.—Individuals qualified to determine compliance shall be only those individuals who are recognized by an organization certified by the Secretary for such purposes.

“(e) BASIS REDUCTION.—For purposes of this subtitle, if a deduction is allowed under this section with respect to any energy efficient commercial building property, the basis of such property shall be reduced by the amount of the deduction so allowed.

“(f) INTERIM RULES FOR LIGHTING SYSTEMS.—Until such time as the Secretary issues final regulations under subsection (d)(1)(B) with respect to property which is part of a lighting system—

“(1) IN GENERAL.—The lighting system target under subsection (d)(1)(A)(ii) shall be a reduction in lighting power density of 25 percent (50 percent in the case of a warehouse) of the minimum requirements in Table 9.3.1.1 or Table 9.3.1.2 (not including additional interior lighting power allowances) of Standard 90.1-2001.

“(2) REDUCTION IN DEDUCTION IF REDUCTION LESS THAN 40 PERCENT.—

“(A) IN GENERAL.—If, with respect to the lighting system of any building other than a warehouse, the reduction in lighting power density of the lighting system is not at least 40 percent, only the applicable percentage of the amount of deduction otherwise allowable under this section with respect to such property shall be allowed.

“(B) APPLICABLE PERCENTAGE.—For purposes of subparagraph (A), the applicable percentage is the number of percentage points (not greater than 100) equal to the sum of—

“(i) 50, and

“(ii) the amount which bears the same ratio to 50 as the excess of the reduction of lighting power density of the lighting system over 25 percentage points bears to 15.

“(C) EXCEPTIONS.—This subsection shall not apply to any system—

“(i) the controls and circuiting of which do not comply fully with the mandatory and prescriptive requirements of Standard 90.1-2001 and which do not include provision for bilevel switching in all occupancies except hotel and motel guest rooms, store rooms, restrooms, and public lobbies, or

“(ii) which does not meet the minimum requirements for calculated lighting levels as set forth in the Illuminating Engineering Society of North America Lighting Handbook, Performance and Application, Ninth Edition, 2000.

“(g) REGULATIONS.—The Secretary shall promulgate such regulations as necessary—

“(1) to take into account new technologies regarding energy efficiency and renewable energy for purposes of determining energy efficiency and savings under this section, and

“(2) to provide for a recapture of the deduction allowed under this section if the plan described in subsection (c)(1)(C) or (d)(1)(A) is not fully implemented.

“(h) TERMINATION.—This section shall not apply with respect to property placed in service after December 31, 2007.”

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a), as amended by this section, is amended by striking “and” at the end of paragraph (30), by striking the period at the end of paragraph (31) and inserting “, and”, and by adding at the end the following new paragraph:

“(32) to the extent provided in section 179B(e).”

(2) Section 1245(a) is amended by inserting “179B,” after “179A,” both places it appears in paragraphs (2)(C) and (3)(C).

(3) Section 1250(b)(3) is amended by inserting before the period at the end of the first sentence “or by section 179B”.

(4) Section 263(a)(1) is amended by striking “or” at the end of subparagraph (G), by striking the period at the end of subparagraph (H) and inserting “, or”, and by inserting after subparagraph (H) the following new subparagraph:

“(I) expenditures for which a deduction is allowed under section 179B.”

(5) Section 312(k)(3)(B) is amended by striking “or 179A” each place it appears in the heading and text and inserting “, 179A, or 179B”.

(c) CLERICAL AMENDMENT.—The table of sections for part VI of subchapter B of chapter 1 is amended by inserting after section 179A the following new item:

“Sec. 179B. Energy efficient commercial buildings deduction.”

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act in taxable years ending after such date.

SEC. 1309. THREE-YEAR APPLICABLE RECOVERY PERIOD FOR DEPRECIATION OF QUALIFIED ENERGY MANAGEMENT DEVICES.

(a) IN GENERAL.—Section 168(e)(3)(A) (defining 3-year property) is amended by striking “and” at the end of clause (ii), by striking the period at the end of clause (iii) and inserting “, and”, and by adding at the end the following new clause:

“(iv) any qualified energy management device.”

(b) DEFINITION OF QUALIFIED ENERGY MANAGEMENT DEVICE.—Section 168(i) (relating to definitions and special rules) is amended by inserting at the end the following new paragraph:

“(15) QUALIFIED ENERGY MANAGEMENT DEVICE.—

“(A) IN GENERAL.—The term ‘qualified energy management device’ means any energy management device which is placed in service before January 1, 2008, by a taxpayer who is a supplier of electric energy or a provider of electric energy services.

“(B) ENERGY MANAGEMENT DEVICE.—For purposes of subparagraph (A), the term ‘energy management device’ means any meter or metering device which is used by the taxpayer—

“(i) to measure and record electricity usage data on a time-differentiated basis in at least 4 separate time segments per day, and

“(ii) to provide such data on at least a monthly basis to both consumers and the taxpayer.”

(c) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (A)(iii) the following:

“(A) (iv) 20”.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1310. CREDIT FOR PRODUCTION FROM ADVANCED NUCLEAR POWER FACILITIES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business related credits), as amended by this Act, is amended by adding after section 45K the following new section:

“SEC. 45L. CREDIT FOR PRODUCTION FROM ADVANCED NUCLEAR POWER FACILITIES.

“(a) GENERAL RULE.—For purposes of section 38, the advanced nuclear power facility production credit of any taxpayer for any taxable year is equal to the product of—

“(1) 1.8 cents, multiplied by

“(2) the kilowatt hours of electricity—

“(A) produced by the taxpayer at an advanced nuclear power facility during the 8-year period beginning on the date the facility was originally placed in service, and

“(B) sold by the taxpayer to an unrelated person during the taxable year.

“(b) NATIONAL LIMITATION.—

“(1) IN GENERAL.—The amount of credit which would (but for this subsection and subsection (c)) be allowed with respect to any facility for any taxable year shall not exceed the amount which bears the same ratio to such amount of credit as—

“(A) the national megawatt capacity limitation allocated to the facility, bears to

“(B) the total megawatt nameplate capacity of such facility.

“(2) AMOUNT OF NATIONAL LIMITATION.—The national megawatt capacity limitation shall be 6,000 megawatts.

“(3) ALLOCATION OF LIMITATION.—The Secretary shall allocate the national megawatt capacity limitation in such manner as the Secretary may prescribe.

“(4) REGULATIONS.—Not later than 6 months after the date of the enactment of this section, the Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this subsection. Such regulations shall provide a certification process under which the Secretary, after consultation with the Secretary of Energy, shall approve and allocate the national megawatt capacity limitation.

“(c) OTHER LIMITATIONS.—

“(1) ANNUAL LIMITATION.—The amount of the credit allowable under subsection (a) (after the application of subsection (b)) for any taxable year with respect to any facility shall not exceed an amount which bears the same ratio to \$125,000,000 as—

“(A) the national megawatt capacity limitation allocated under subsection (b) to the facility, bears to

“(B) 1,000.

“(2) OTHER LIMITATIONS.—Rules similar to the rules of section 45(b) shall apply for purposes of this section, except that paragraph (2) thereof shall not apply to the 1.8 cents under subsection (a)(1).

“(d) ADVANCED NUCLEAR POWER FACILITY.—For purposes of this section—

“(1) IN GENERAL.—The term ‘advanced nuclear power facility’ means any advanced nuclear facility—

“(A) which is owned by the taxpayer and which uses nuclear energy to produce electricity, and

“(B) which is placed in service after the date of the enactment of this paragraph and before January 1, 2021.

“(2) ADVANCED NUCLEAR FACILITY.—For purposes of paragraph (1), the term ‘advanced nuclear facility’ means any nuclear facility the reactor design for which is approved after the date of the enactment of this paragraph by the Nuclear Regulatory Commission (and such design or a substantially similar design of comparable capacity was not approved on or before such date).

“(e) OTHER RULES TO APPLY.—Rules similar to the rules of paragraphs (1), (2), (3), (4), and (5) of section 45(e) shall apply for purposes of this section.”

(b) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b), as amended by this Act, is amended by striking “plus” at the end of paragraph (20), by striking the period at the end of paragraph (21) and inserting “, plus”, and by adding at the end the following:

“(22) the advanced nuclear power facility production credit determined under section 45L(a).”

(c) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following:

“Sec. 45L. Credit for production from advanced nuclear power facilities.”

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to production in taxable years beginning after December 31, 2003.

PART II—FUELS AND ALTERNATIVE MOTOR VEHICLES

SEC. 1311. REPEAL OF 4.3-CENT MOTOR FUEL EXCISE TAXES ON RAILROADS AND INLAND WATERWAY TRANSPORTATION WHICH REMAIN IN GENERAL FUND.

(a) TAXES ON TRAINS.—

(1) IN GENERAL.—Subparagraph (A) of section 4041(a)(1) is amended by striking “or a diesel-powered train” each place it appears and by striking “or train”.

(2) CONFORMING AMENDMENTS.—

(A) Subparagraph (C) of section 4041(a)(1) is amended by striking clause (ii) and by redesignating clause (iii) as clause (ii).

(B) Subparagraph (C) of section 4041(b)(1) is amended by striking all that follows “section 6421(e)(2)” and inserting a period.

(C) Subsection (d) of section 4041 is amended by redesignating paragraph (3) as paragraph (4) and by inserting after paragraph (2) the following new paragraph:

“(3) DIESEL FUEL USED IN TRAINS.—There is hereby imposed a tax of 0.1 cent per gallon on any liquid other than gasoline (as defined in section 4083)—

“(A) sold by any person to an owner, lessee, or other operator of a diesel-powered train for use as a fuel in such train, or

“(B) used by any person as a fuel in a diesel-powered train unless there was a taxable sale of such fuel under subparagraph (A).

No tax shall be imposed by this paragraph on the sale or use of any liquid if tax was imposed on such liquid under section 4081.”

(D) Subsection (f) of section 4082 is amended by striking “section 4041(a)(1)” and inserting “subsections (d)(3) and (a)(1) of section 4041, respectively”.

(E) Paragraph (3) of section 4083(a) is amended by striking “or a diesel-powered train”.

(F) Paragraph (3) of section 6421(f) is amended to read as follows:

“(3) GASOLINE USED IN TRAINS.—In the case of gasoline used as a fuel in a train, this section shall not apply with respect to the Leaking Underground Storage Tank Trust Fund financing rate under section 4081.”

(G) Paragraph (3) of section 6427(l) is amended to read as follows:

“(3) REFUND OF CERTAIN TAXES ON FUEL USED IN DIESEL-POWERED TRAINS.—For purposes of this subsection, the term ‘nontaxable use’ includes fuel used in a diesel-powered train. The preceding sentence shall not apply to the tax imposed by section 4041(d) and the Leaking Underground Storage Tank Trust Fund financing rate under section 4081 except with respect to fuel sold for exclusive use by a State or any political subdivision thereof.”

(b) FUEL USED ON INLAND WATERWAYS.—

(1) IN GENERAL.—Paragraph (1) of section 4042(b) is amended by adding “and” at the end of subparagraph (A), by striking “, and” at the end of subparagraph (B) and inserting a period, and by striking subparagraph (C).

(2) CONFORMING AMENDMENT.—Paragraph (2) of section 4042(b) is amended by striking subparagraph (C).

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2004.

SEC. 1312. REDUCED MOTOR FUEL EXCISE TAX ON CERTAIN MIXTURES OF DIESEL FUEL.

(a) IN GENERAL.—Paragraph (2) of section 4081(a) is amended by adding at the end the following:

“(C) DIESEL-WATER FUEL EMULSION.—In the case of diesel-water fuel emulsion at least 14 percent of which is water and with respect to which the emulsion additive is registered by a United States manufacturer with the Environmental Protection Agency pursuant to section 211 of the Clean Air Act (as in effect on March 31, 2003), subparagraph (A)(iii) shall be applied by substituting ‘19.7 cents’ for ‘24.3 cents’.”

(b) SPECIAL RULES FOR DIESEL-WATER FUEL EMULSIONS.—

(1) REFUNDS FOR TAX-PAID PURCHASES.—Section 6427 is amended by redesignating subsections (m) through (p) as subsections (n) through (q), respectively, and by inserting after subsection (l) the following new subsection:

“(m) DIESEL FUEL USED TO PRODUCE EMULSION.—

“(1) IN GENERAL.—Except as provided in subsection (k), if any diesel fuel on which tax was imposed by section 4081 at the regular tax rate is used by any person in producing an emulsion described in section 4081(a)(2)(C) which is sold or used in such person’s trade or business, the Secretary shall pay (without interest) to such person an amount equal to the excess of the regular tax rate over the incentive tax rate with respect to such fuel.

“(2) DEFINITIONS.—For purposes of paragraph (1)—

“(A) REGULAR TAX RATE.—The term ‘regular tax rate’ means the aggregate rate of tax imposed by section 4081 determined without regard to section 4081(a)(2)(C).

“(B) INCENTIVE TAX RATE.—The term ‘incentive tax rate’ means the aggregate rate of tax imposed by section 4081 determined with regard to section 4081(a)(2)(C).”

(2) LATER SEPARATION OF FUEL.—

(A) IN GENERAL.—Section 4081 (relating to imposition of tax) is amended by redesignating subsections (d) and (e) as subsections (e) and (f), respectively, and by inserting after subsection (c) the following new subsection:

“(d) LATER SEPARATION OF FUEL FROM DIESEL-WATER FUEL EMULSION.—If any person separates the taxable fuel from a diesel-water fuel emulsion on which tax was imposed under subsection (a) at a rate determined under subsection (a)(2)(C) (or with respect to which a credit or payment was allowed or made by reason of section 6427), such person shall be treated as the refiner of such taxable fuel. The amount of tax imposed on any removal of such fuel by such person shall be reduced by the amount of tax imposed (and not credited or refunded) on any prior removal or entry of such fuel.”

(B) CONFORMING AMENDMENT.—Subsection (d) of section 6416 is amended by striking “section 4081(e)” and inserting “section 4081(f)”.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2004.

SEC. 1313. SMALL ETHANOL PRODUCER CREDIT.

(a) ALLOCATION OF ALCOHOL FUELS CREDIT TO PATRONS OF A COOPERATIVE.—Section 40(g) (relating to definitions and special rules for eligible small ethanol producer credit) is amended by adding at the end the following new paragraph:

“(6) ALLOCATION OF SMALL ETHANOL PRODUCER CREDIT TO PATRONS OF COOPERATIVE.—

“(A) ELECTION TO ALLOCATE.—

“(i) IN GENERAL.—In the case of a cooperative organization described in section 1381(a), any portion of the credit determined under subsection (a)(3) for the taxable year may, at the election of the organization, be apportioned pro rata among patrons of the organization on the basis of the quantity or value of business done with or for such patrons for the taxable year.

“(i) FORM AND EFFECT OF ELECTION.—An election under clause (i) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year.

“(B) TREATMENT OF ORGANIZATIONS AND PATRONS.—The amount of the credit apportioned to patrons under subparagraph (A)—

“(i) shall not be included in the amount determined under subsection (a) with respect to the organization for the taxable year, and

“(ii) shall be included in the amount determined under subsection (a) for the taxable year of each patron for which the patronage dividends for the taxable year described in subparagraph (A) are included in gross income.

“(C) SPECIAL RULE.—If the amount of a credit which has been apportioned to any patron under this paragraph is decreased for any reason—

“(i) such amount shall not increase the tax imposed on such patron, and

“(ii) the tax imposed by this chapter on such organization shall be increased by such amount.

The increase under clause (ii) shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.”

(b) DEFINITION OF SMALL ETHANOL PRODUCER.—Section 40(g) (relating to definitions and special rules for eligible small ethanol producer credit) is amended by striking “30,000,000” each place it appears and inserting “60,000,000”.

(c) CONFORMING AMENDMENT.—Section 1388 (relating to definitions and special rules for cooperative organizations) is amended by adding at the end the following new subsection:

“(k) CROSS REFERENCE.—For provisions relating to the apportionment of the alcohol fuels credit between cooperative organizations and their patrons, see section 40(g)(6).”

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2003.

SEC. 1314. INCENTIVES FOR BIODIESEL.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business related credits) is amended by inserting after section 40 the following new section:

“SEC. 40A. BIODIESEL USED AS FUEL.

“(a) GENERAL RULE.—For purposes of section 38, the biodiesel fuels credit determined under this section for the taxable year is an amount equal to the sum of—

“(1) the biodiesel mixture credit, plus

“(2) the biodiesel credit.

“(b) DEFINITION OF BIODIESEL MIXTURE CREDIT AND BIODIESEL CREDIT.—For purposes of this section—

“(1) BIODIESEL MIXTURE CREDIT.—

“(A) IN GENERAL.—The biodiesel mixture credit of any taxpayer for any taxable year is 50 cents for each gallon of biodiesel used by the taxpayer in the production of a qualified biodiesel mixture.

“(B) QUALIFIED BIODIESEL MIXTURE.—The term ‘qualified biodiesel mixture’ means a mixture of biodiesel and a taxable fuel (within the meaning of section 4083(a)(1)) which—

“(i) is sold by the taxpayer producing such mixture to any person for use as a fuel, or

“(ii) is used as a fuel by the taxpayer producing such mixture.

“(C) SALE OR USE MUST BE IN TRADE OR BUSINESS, ETC.—Biodiesel used in the production of a qualified biodiesel mixture shall be taken into account—

“(i) only if the sale or use described in subparagraph (B) is in a trade or business of the taxpayer, and

“(ii) for the taxable year in which such sale or use occurs.

“(D) CASUAL OFF-FARM PRODUCTION NOT ELIGIBLE.—No credit shall be allowed under this section with respect to any casual off-farm production of a qualified biodiesel mixture.

“(2) BIODIESEL CREDIT.—

“(A) IN GENERAL.—The biodiesel credit of any taxpayer for any taxable year is 50 cents for each gallon of biodiesel which is not in a mixture and which during the taxable year—

“(i) is used by the taxpayer as a fuel in a trade or business, or

“(ii) is sold by the taxpayer at retail to a person and placed in the fuel tank of such person’s vehicle.

“(B) USER CREDIT NOT TO APPLY TO BIODIESEL SOLD AT RETAIL.—No credit shall be allowed under subparagraph (A)(i) with respect to any biodiesel which was sold in a retail sale described in subparagraph (A)(ii).

“(3) CREDIT FOR AGRI-BIODIESEL.—In the case of any biodiesel which is agri-biodiesel, paragraphs (1)(A) and (2)(A) shall be applied by substituting ‘\$1.00’ for ‘50 cents’.

“(4) CERTIFICATION FOR BIODIESEL.—No credit shall be allowed under this section unless the taxpayer obtains a certification (in such form and manner as prescribed by the Secretary) from the producer of the biodiesel which identifies the product produced and the percentage of biodiesel and agri-biodiesel in the product.

“(c) COORDINATION WITH CREDIT AGAINST EXCISE TAX.—The amount of the credit determined under this section with respect to any biodiesel shall be properly reduced to take into account any benefit provided with respect to such biodiesel solely by reason of the application of section 6426.

“(d) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

“(1) BIODIESEL.—The term ‘biodiesel’ means the monoalkyl esters of long chain fatty acids derived from plant or animal matter which meet—

“(A) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545), and

“(B) the requirements of the American Society of Testing and Materials D6751.

“(2) AGRI-BIODIESEL.—The term ‘agri-biodiesel’ means biodiesel derived solely from virgin oils, including esters derived from virgin vegetable oils from corn, soybeans, sunflower seeds, cottonseeds, canola, crambe, rapeseeds, safflowers, flaxseeds, rice bran, and mustard seeds, and from animal fats.

“(3) MIXTURE OR BIODIESEL NOT USED AS A FUEL, ETC.—

“(A) MIXTURES.—If—

“(i) any credit was determined under this section with respect to biodiesel used in the production of any qualified biodiesel mixture, and

“(ii) any person—

“(I) separates the biodiesel from the mixture, or

“(II) without separation, uses the mixture other than as a fuel,

then there is hereby imposed on such person a tax equal to the product of the rate applicable under subsection (b)(1)(A) and the number of gallons of such biodiesel in such mixture.

“(B) BIODIESEL.—If—

“(i) any credit was determined under this section with respect to the retail sale of any biodiesel, and

“(ii) any person mixes such biodiesel or uses such biodiesel other than as a fuel, then there is hereby imposed on such person a tax equal to the product of the rate applicable under subsection (b)(2)(A) and the number of gallons of such biodiesel.

“(C) APPLICABLE LAWS.—All provisions of law, including penalties, shall, insofar as applicable and not inconsistent with this sec-

tion, apply in respect of any tax imposed under subparagraph (A) or (B) as if such tax were imposed by section 4081 and not by this chapter.

“(4) PASS-THRU IN THE CASE OF ESTATES AND TRUSTS.—Under regulations prescribed by the Secretary, rules similar to the rules of subsection (d) of section 52 shall apply.

“(e) TERMINATION.—This section shall not apply to any sale or use after December 31, 2005.”

(b) CREDIT TREATED AS PART OF GENERAL BUSINESS CREDIT.—Section 38(b) (relating to current year business credit) is amended by striking “plus” at the end of paragraph (16), by striking the period at the end of paragraph (17) and inserting “, plus”, and by adding at the end the following new paragraph:

“(18) the biodiesel fuels credit determined under section 40A(a).”

(c) CONFORMING AMENDMENTS.—

(1)(A) Section 87 is amended to read as follows:

“SEC. 87. ALCOHOL AND BIODIESEL FUELS CREDITS.

“Gross income includes—

“(1) the amount of the alcohol fuels credit determined with respect to the taxpayer for the taxable year under section 40(a), and

“(2) the biodiesel fuels credit determined with respect to the taxpayer for the taxable year under section 40A(a).”

(B) The item relating to section 87 in the table of sections for part II of subchapter B of chapter 1 is amended by striking “fuel credit” and inserting “and biodiesel fuels credits”.

(2) Section 196(c), as amended by this Act, is amended by striking “and” at the end of paragraph (11), by striking the period at the end of paragraph (12) and inserting “, and”, and by adding at the end the following new paragraph:

“(13) the biodiesel fuels credit determined under section 40A(a).”

(3) The table of sections for part D of part IV of subchapter A of chapter 1 is amended by adding after the item relating to section 40 the following new item:

“Sec. 40A. Biodiesel used as fuel.”

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to fuel produced, and sold or used, after December 31, 2003, in taxable years ending after such date.

SEC. 1315. ALCOHOL FUEL AND BIODIESEL MIXTURES EXCISE TAX CREDIT.

(a) IN GENERAL.—Subchapter B of chapter 65 (relating to rules of special application) is amended by inserting after section 6425 the following new section:

“SEC. 6426. CREDIT FOR ALCOHOL FUEL AND BIODIESEL MIXTURES.

“(a) ALLOWANCE OF CREDITS.—There shall be allowed as a credit against the tax imposed by section 4081 an amount equal to the sum of—

“(1) the alcohol fuel mixture credit, plus

“(2) the biodiesel mixture credit.

“(b) ALCOHOL FUEL MIXTURE CREDIT.—

“(1) IN GENERAL.—For purposes of this section, the alcohol fuel mixture credit is the product of the applicable amount and the number of gallons of alcohol used by the taxpayer in producing any alcohol fuel mixture for sale or use in a trade or business of the taxpayer.

“(2) APPLICABLE AMOUNT.—For purposes of this subsection—

“(A) IN GENERAL.—Except as provided in subparagraph (B), the applicable amount is 52 cents (51 cents in the case of any sale or use after 2004).

“(B) MIXTURES NOT CONTAINING ETHANOL.—In the case of an alcohol fuel mixture in which none of the alcohol consists of ethanol, the applicable amount is 60 cents.

“(3) ALCOHOL FUEL MIXTURE.—For purposes of this subsection, the term ‘alcohol fuel

mixture' means a mixture of alcohol and a taxable fuel which—

“(A) is sold by the taxpayer producing such mixture to any person for use as a fuel,

“(B) is used as a fuel by the taxpayer producing such mixture, or

“(C) is removed from the refinery by a person producing such mixture.

“(4) OTHER DEFINITIONS.—For purposes of this subsection—

“(A) ALCOHOL.—The term ‘alcohol’ includes methanol and ethanol but does not include—

“(i) alcohol produced from petroleum, natural gas, or coal (including peat), or

“(ii) alcohol with a proof of less than 190 (determined without regard to any added denaturants).

Such term also includes an alcohol gallon equivalent of ethyl tertiary butyl ether or other ethers produced from such alcohol.

“(B) TAXABLE FUEL.—The term ‘taxable fuel’ has the meaning given such term by section 4083(a)(1).

“(5) TERMINATION.—This subsection shall not apply to any sale, use, or removal for any period after December 31, 2010.

“(C) BIODIESEL MIXTURE CREDIT.—

“(1) IN GENERAL.—For purposes of this section, the biodiesel mixture credit is the product of the applicable amount and the number of gallons of biodiesel used by the taxpayer in producing any biodiesel mixture for sale or use in a trade or business of the taxpayer.

“(2) APPLICABLE AMOUNT.—For purposes of this subsection—

“(A) IN GENERAL.—Except as provided in subparagraph (B), the applicable amount is 50 cents.

“(B) AMOUNT FOR AGRI-BIODIESEL.—In the case of any biodiesel which is agri-biodiesel, the applicable amount is \$1.00.

“(3) BIODIESEL MIXTURE.—For purposes of this section, the term ‘biodiesel mixture’ means a mixture of biodiesel and a taxable fuel which—

“(A) is sold by the taxpayer producing such mixture to any person for use as a fuel,

“(B) is used as a fuel by the taxpayer producing such mixture, or

“(C) is removed from the refinery by a person producing such mixture.

“(4) CERTIFICATION FOR BIODIESEL.—No credit shall be allowed under this section unless the taxpayer obtains a certification (in such form and manner as prescribed by the Secretary) from the producer of the biodiesel which identifies the product produced and the percentage of biodiesel and agri-biodiesel in the product.

“(5) OTHER DEFINITIONS.—Any term used in this subsection which is also used in section 40A shall have the meaning given such term by section 40A.

“(6) TERMINATION.—This subsection shall not apply to any sale, use, or removal for any period after December 31, 2005.

“(d) MIXTURE NOT USED AS A FUEL, ETC.—

“(1) IMPOSITION OF TAX.—If—

“(A) any credit was determined under this section with respect to alcohol or biodiesel used in the production of any alcohol fuel mixture or biodiesel mixture, respectively, and

“(B) any person—

“(i) separates the alcohol or biodiesel from the mixture, or

“(ii) without separation, uses the mixture other than as a fuel,

then there is hereby imposed on such person a tax equal to the product of the applicable amount and the number of gallons of such alcohol or biodiesel.

“(2) APPLICABLE LAWS.—All provisions of law, including penalties, shall, insofar as applicable and not inconsistent with this section, apply in respect of any tax imposed under paragraph (1) as if such tax were imposed by section 4081 and not by this section.

“(e) COORDINATION WITH EXEMPTION FROM EXCISE TAX.—Rules similar to the rules under section 40(c) shall apply for purposes of this section.”.

(b) REGISTRATION REQUIREMENT.—Section 4101(a) (relating to registration) is amended by inserting “and every person producing biodiesel (as defined in section 40A(d)(1)) or alcohol (as defined in section 6426(b)(4)(A))” after “4091”.

(c) ADDITIONAL AMENDMENTS.—

(1) Section 40(c) is amended by striking “or section 4091(c)” and inserting “section 4091(c), or section 6426”.

(2) Section 40(e)(1) is amended—

(A) by striking “2007” in subparagraph (A) and inserting “2010”, and

(B) by striking “2008” in subparagraph (B) and inserting “2011”.

(3) Section 40(h) is amended—

(A) by striking “2007” in paragraph (1) and inserting “2010”, and

(B) by striking “, 2006, or 2007” in the table contained in paragraph (2) and inserting “through 2010”.

(4)(A) Subpart C of part III of subchapter A of chapter 32 is amended by adding at the end the following new section:

“SEC. 4104. INFORMATION REPORTING FOR PERSONS CLAIMING CERTAIN TAX BENEFITS.

“(a) IN GENERAL.—The Secretary shall require any person claiming tax benefits under the provisions of section 34, 40, 40A, 4041(b)(2), 4041(k), 4081(c), 6426, or 6427(f) to file a quarterly return (in such manner as the Secretary may prescribe) providing such information relating to such benefits and the coordination of such benefits as the Secretary may require to ensure the proper administration and use of such benefits.

“(b) ENFORCEMENT.—With respect to any person described in subsection (a) and subject to registration requirements under this title, rules similar to rules of section 4222(c) shall apply with respect to any requirement under this section.”.

(B) The table of sections for subpart C of part III of subchapter A of chapter 32 is amended by adding at the end the following new item:

“Sec. 4104. Information reporting for persons claiming certain tax benefits.”.

(5) Section 6427(i)(3) is amended—

(A) by adding at the end of subparagraph (A) the following new flush sentence:

“In the case of an electronic claim, this subparagraph shall be applied without regard to clause (i).”, and

(B) by striking “20 days of the date of the filing of such claim” in subparagraph (B) and inserting “45 days of the date of the filing of such claim (20 days in the case of an electronic claim)”.

(6) Section 9503(b)(1) is amended by adding at the end the following new flush sentence:

“For purposes of this paragraph, taxes received under sections 4041 and 4081 shall be determined without reduction for credits under section 6426.”.

(d) CLERICAL AMENDMENT.—The table of sections for subchapter B of chapter 65 is amended by inserting after the item relating to section 6425 the following new item:

“Sec. 6426. Credit for alcohol fuel and biodiesel mixtures.”.

(e) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), the amendments made by this section shall apply to fuel sold, used, or removed after December 31, 2003.

(2) SUBSECTION (c)(4).—The amendments made by subsection (c)(4) shall take effect on January 1, 2004.

(3) SUBSECTION (c)(5).—The amendments made by subsection (c)(5) shall apply to claims filed after December 31, 2004.

(f) FORMAT FOR FILING.—The Secretary of the Treasury shall prescribe the electronic format for filing claims described in section 6427(i)(3)(B) of the Internal Revenue Code of 1986 (as amended by subsection (c)(5)(A)) not later than December 31, 2004.

SEC. 1316. NONAPPLICATION OF EXPORT EXEMPTION TO DELIVERY OF FUEL TO MOTOR VEHICLES REMOVED FROM UNITED STATES.

(a) IN GENERAL.—Section 4221(d)(2) (defining export) is amended by adding at the end the following new sentence: “Such term does not include the delivery of a taxable fuel (as defined in section 4083(a)(1)) into a fuel tank of a motor vehicle which is shipped or driven out of the United States.”.

(b) CONFORMING AMENDMENTS.—

(1) Section 4041(g) (relating to other exemptions) is amended by adding at the end the following new sentence: “Paragraph (3) shall not apply to the sale for delivery of a liquid into a fuel tank of a motor vehicle which is shipped or driven out of the United States.”.

(2) Clause (iv) of section 4081(a)(1)(A) (relating to tax on removal, entry, or sale) is amended by inserting “or at a duty-free sales enterprise (as defined in section 555(b)(8) of the Tariff Act of 1930)” after “section 4101”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to sales or deliveries made after the date of the enactment of this Act.

SEC. 1317. REPEAL OF PHASEOUTS FOR QUALIFIED ELECTRIC VEHICLE CREDIT AND DEDUCTION FOR CLEAN FUEL VEHICLES.

(a) CREDIT FOR QUALIFIED ELECTRIC VEHICLES.—Subsection (b) of section 30 (relating to limitations) is amended by striking paragraph (2) and redesignating paragraph (3) as paragraph (2).

(b) DEDUCTION FOR CLEAN-FUEL VEHICLES AND CERTAIN REFUELING PROPERTY.—Paragraph (1) of section 179A(b) (relating to qualified clean-fuel vehicle property) is amended to read as follows:

“(1) QUALIFIED CLEAN-FUEL VEHICLE PROPERTY.—The cost which may be taken into account under subsection (a)(1)(A) with respect to any motor vehicle shall not exceed—

“(A) in the case of a motor vehicle not described in subparagraph (B) or (C), \$2,000,

“(B) in the case of any truck or van with a gross vehicle weight rating greater than 10,000 pounds but not greater than 26,000 pounds, \$5,000, or

“(C) \$50,000 in the case of—

“(i) a truck or van with a gross vehicle weight rating greater than 26,000 pounds, or

“(ii) any bus which has a seating capacity of at least 20 adults (not including the driver).”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act.

SEC. 1318. ALTERNATIVE MOTOR VEHICLE CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to foreign tax credit, etc.) is amended by adding at the end the following:

“SEC. 30B. ALTERNATIVE MOTOR VEHICLE CREDIT.

“(a) ALLOWANCE OF CREDIT.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

“(1) the new qualified fuel cell motor vehicle credit determined under subsection (b),

“(2) the new advanced lean burn technology motor vehicle credit determined under subsection (c),

“(3) the new qualified hybrid motor vehicle credit determined under subsection (d), and

“(4) the new qualified alternative fuel motor vehicle credit determined under subsection (e).

“(b) NEW QUALIFIED FUEL CELL MOTOR VEHICLE CREDIT.—

“(1) IN GENERAL.—For purposes of subsection (a), the new qualified fuel cell motor vehicle credit determined under this subsection with respect to a new qualified fuel cell motor vehicle placed in service by the taxpayer during the taxable year shall be determined in accordance with the following table:

“In the case of a vehicle which has a gross vehicle weight rating of—	The new qualified fuel cell motor vehicle credit is—
Not more than 8,500 lbs	\$4,000
More than 8,500 lbs but not more than 14,000 lbs	\$10,000
More than 14,000 lbs but not more than 26,000 lbs	\$20,000
More than 26,000 lbs	\$40,000.

“(2) INCREASE FOR FUEL EFFICIENCY.—

“(A) IN GENERAL.—The amount determined under paragraph (1) with respect to a new qualified fuel cell motor vehicle which is a passenger automobile or light truck shall be increased by the additional credit amount.

“(B) ADDITIONAL CREDIT AMOUNT.—For purposes of subparagraph (A), the additional credit amount shall be determined in accordance with the following table:

“In the case of a vehicle which achieves a fuel economy (expressed as a percentage of the 2002 model year city fuel economy) of—	The additional credit amount is—
At least 150 percent but less than 175 percent	\$1,000
At least 175 percent but less than 200 percent	\$1,500
At least 200 percent but less than 225 percent	\$2,000
At least 225 percent but less than 250 percent	\$2,500
At least 250 percent but less than 275 percent	\$3,000
At least 275 percent but less than 300 percent	\$3,500
At least 300 percent	\$4,000.

“(3) NEW QUALIFIED FUEL CELL MOTOR VEHICLE.—For purposes of this subsection, the term ‘new qualified fuel cell motor vehicle’ means a motor vehicle—

“(A) which is propelled by power derived from one or more cells which convert chemical energy directly into electricity by combining oxygen with hydrogen fuel which is stored on board the vehicle in any form and may or may not require reformation prior to use,

“(B) which, in the case of a passenger automobile or light truck, has received—

“(i) a certificate of conformity under the Clean Air Act and meets or exceeds the equivalent qualifying California low emission vehicle standard under section 243(e)(2) of the Clean Air Act for that make and model year, and

“(ii) a certificate that such vehicle meets or exceeds the Bin 5 Tier II emission standard established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle,

“(C) the original use of which commences with the taxpayer,

“(D) which is acquired for use or lease by the taxpayer and not for resale, and

“(E) which is made by a manufacturer.

“(c) NEW ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE CREDIT.—

“(1) IN GENERAL.—For purposes of subsection (a), the new advanced lean burn tech-

nology motor vehicle credit determined under this subsection with respect to a new advanced lean burn technology motor vehicle placed in service by the taxpayer during the taxable year is the credit amount determined under paragraph (2).

“(2) CREDIT AMOUNT.—

“(A) FUEL ECONOMY.—The credit amount determined under this paragraph shall be determined in accordance with the following table:

“In the case of a vehicle which achieves a fuel economy (expressed as a percentage of the 2002 model year city fuel economy) of—	The credit amount is—
At least 125 percent but less than 150 percent	\$400
At least 150 percent but less than 175 percent	\$800
At least 175 percent but less than 200 percent	\$1,200
At least 200 percent but less than 225 percent	\$1,600
At least 225 percent but less than 250 percent	\$2,000
At least 250 percent	\$2,400.

“(B) CONSERVATION CREDIT.—The amount determined under subparagraph (A) with respect to a new advanced lean burn technology motor vehicle shall be increased by the conservation credit amount determined in accordance with the following table:

“In the case of a vehicle which achieves a lifetime fuel savings (expressed in gallons of gasoline) of—	The conservation credit amount is—
At least 1,200 but less than 1,800	\$250
At least 1,800 but less than 2,400	\$500
At least 2,400 but less than 3,000	\$750
At least 3,000	\$1,000.

“(3) NEW ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE.—For purposes of this subsection, the term ‘new advanced lean burn technology motor vehicle’ means a passenger automobile or a light truck—

“(A) with an internal combustion engine which—

“(i) is designed to operate primarily using more air than is necessary for complete combustion of the fuel,

“(ii) incorporates direct injection,

“(iii) achieves at least 125 percent of the 2002 model year city fuel economy,

“(iv) for 2004 and later model vehicles, has received a certificate that such vehicle meets or exceeds—

“(I) in the case of a vehicle having a gross vehicle weight rating of 6,000 pounds or less, the Bin 5 Tier II emission standard established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle, and

“(II) in the case of a vehicle having a gross vehicle weight rating of more than 6,000 pounds but not more than 8,500 pounds, the Bin 8 Tier II emission standard which is so established.

“(B) the original use of which commences with the taxpayer,

“(C) which is acquired for use or lease by the taxpayer and not for resale, and

“(D) which is made by a manufacturer.

“(4) LIFETIME FUEL SAVINGS.—For purposes of this subsection, the term ‘lifetime fuel savings’ means, in the case of any new advanced lean burn technology motor vehicle, an amount equal to the excess (if any) of—

“(A) 120,000 divided by the 2002 model year city fuel economy for the vehicle inertia weight class, over

“(B) 120,000 divided by the city fuel economy for such vehicle.

“(d) NEW QUALIFIED HYBRID MOTOR VEHICLE CREDIT.—

“(1) IN GENERAL.—For purposes of subsection (a), the new qualified hybrid motor vehicle credit determined under this subsection with respect to a new qualified hybrid motor vehicle placed in service by the taxpayer during the taxable year is the credit amount determined under paragraph (2).

“(2) CREDIT AMOUNT.—

“(A) CREDIT AMOUNT FOR PASSENGER AUTOMOBILES AND LIGHT TRUCKS.—In the case of a new qualified hybrid motor vehicle which is a passenger automobile or light truck and which has a gross vehicle weight rating of not more than 8,500 pounds, the amount determined under this paragraph is the sum of the amounts determined under clauses (i) and (ii).

“(i) FUEL ECONOMY.—The amount determined under this clause is the amount which would be determined under subsection (c)(2)(A) if such vehicle were a vehicle referred to in such subsection.

“(ii) CONSERVATION CREDIT.—The amount determined under this clause is the amount which would be determined under subsection (c)(2)(B) if such vehicle were a vehicle referred to in such subsection.

“(B) CREDIT AMOUNT FOR OTHER MOTOR VEHICLES.—

“(i) IN GENERAL.—In the case of any new qualified hybrid motor vehicle to which subparagraph (A) does not apply, the amount determined under this paragraph is the amount equal to the applicable percentage of the qualified incremental hybrid cost of the vehicle as certified under clause (v).

“(ii) APPLICABLE PERCENTAGE.—For purposes of clause (i), the applicable percentage is—

“(I) 20 percent if the vehicle achieves an increase in city fuel economy relative to a comparable vehicle of at least 30 percent but less than 40 percent,

“(II) 30 percent if the vehicle achieves such an increase of at least 40 percent but less than 50 percent, and

“(III) 40 percent if the vehicle achieves such an increase of at least 50 percent.

“(iii) QUALIFIED INCREMENTAL HYBRID COST.—For purposes of this subparagraph, the qualified incremental hybrid cost of any vehicle is equal to the amount of the excess of the manufacturer’s suggested retail price for such vehicle over such price for a comparable vehicle, to the extent such amount does not exceed—

“(I) \$7,500, if such vehicle has a gross vehicle weight rating of not more than 14,000 pounds,

“(II) \$15,000, if such vehicle has a gross vehicle weight rating of more than 14,000 pounds but not more than 26,000 pounds, and

“(III) \$30,000, if such vehicle has a gross vehicle weight rating of more than 26,000 pounds.

“(iv) COMPARABLE VEHICLE.—For purposes of this subparagraph, the term ‘comparable vehicle’ means, with respect to any new qualified hybrid motor vehicle, any vehicle which is powered solely by a gasoline or diesel internal combustion engine and which is comparable in weight, size, and use to such vehicle.

“(v) CERTIFICATION.—A certification described in clause (i) shall be made by the manufacturer and shall be determined in accordance with guidance prescribed by the Secretary. Such guidance shall specify procedures and methods for calculating fuel economy savings and incremental hybrid costs.

“(3) NEW QUALIFIED HYBRID MOTOR VEHICLE.—For purposes of this subsection—

“(A) IN GENERAL.—The term ‘new qualified hybrid motor vehicle’ means a motor vehicle—

“(i) which draws propulsion energy from onboard sources of stored energy which are both—

“(I) an internal combustion or heat engine using consumable fuel, and

“(II) a rechargeable energy storage system,“(ii) which, in the case of a vehicle to which paragraph (2)(A) applies, has received a certificate of conformity under the Clean Air Act and meets or exceeds the equivalent qualifying California low emission vehicle standard under section 243(e)(2) of the Clean Air Act for that make and model year, and

“(I) in the case of a vehicle having a gross vehicle weight rating of 6,000 pounds or less, the Bin 5 Tier II emission standard established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle, and

“(II) in the case of a vehicle having a gross vehicle weight rating of more than 6,000 pounds but not more than 8,500 pounds, the Bin 8 Tier II emission standard which is so established,

“(iii) which has a maximum available power of at least—

“(I) 4 percent in the case of a vehicle to which paragraph (2)(A) applies,

“(II) 10 percent in the case of a vehicle which has a gross vehicle weight rating or more than 8,500 pounds and not than 14,000 pounds, and

“(III) 15 percent in the case of a vehicle in excess of 14,000 pounds,

“(iv) which, in the case of a vehicle to which paragraph (2)(B) applies, has an internal combustion or heat engine which has received a certificate of conformity under the Clean Air Act as meeting the emission standards set in the regulations prescribed by the Administrator of the Environmental Protection Agency for 2004 through 2007 model year diesel heavy duty engines or ottocycle heavy duty engines, as applicable,

“(v) the original use of which commences with the taxpayer,

“(vi) which is acquired for use or lease by the taxpayer and not for resale, and

“(vii) which is made by a manufacturer.

Such term shall not include any vehicle which is not a passenger automobile or light truck if such vehicle has a gross vehicle weight rating of less than 8,500 pounds.

“(B) CONSUMABLE FUEL.—For purposes of subparagraph (A)(i)(I), the term ‘consumable fuel’ means any solid, liquid, or gaseous matter which releases energy when consumed by an auxiliary power unit.

“(C) MAXIMUM AVAILABLE POWER.—

“(i) CERTAIN PASSENGER AUTOMOBILES AND LIGHT TRUCKS.—In the case of a vehicle to which paragraph (2)(A) applies, the term ‘maximum available power’ means the maximum power available from the rechargeable energy storage system, during a standard 10 second pulse power or equivalent test, divided by such maximum power and the SAE net power of the heat engine.

“(ii) OTHER MOTOR VEHICLES.—In the case of a vehicle to which paragraph (2)(B) applies, the term ‘maximum available power’ means the maximum power available from the rechargeable energy storage system, during a standard 10 second pulse power or equivalent test, divided by the vehicle’s total traction power. For purposes of the preceding sentence, the term ‘total traction power’ means the sum of the peak power from the rechargeable energy storage system and the heat engine peak power of the vehicle, except that if such storage system is the sole means by which the vehicle can be driv-

en, the total traction power is the peak power of such storage system.

“(e) NEW QUALIFIED ALTERNATIVE FUEL MOTOR VEHICLE CREDIT.—

“(1) ALLOWANCE OF CREDIT.—Except as provided in paragraph (5), the new qualified alternative fuel motor vehicle credit determined under this subsection is an amount equal to the applicable percentage of the incremental cost of any new qualified alternative fuel motor vehicle placed in service by the taxpayer during the taxable year.

“(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the applicable percentage with respect to any new qualified alternative fuel motor vehicle is—

“(A) 40 percent, plus

“(B) 30 percent, if such vehicle—

“(i) has received a certificate of conformity under the Clean Air Act and meets or exceeds the most stringent standard available for certification under the Clean Air Act for that make and model year vehicle (other than a zero emission standard), or

“(ii) has received an order certifying the vehicle as meeting the same requirements as vehicles which may be sold or leased in California and meets or exceeds the most stringent standard available for certification under the State laws of California (enacted in accordance with a waiver granted under section 209(b) of the Clean Air Act) for that make and model year vehicle (other than a zero emission standard).

For purposes of the preceding sentence, in the case of any new qualified alternative fuel motor vehicle which has a gross vehicle weight rating of more than 14,000 pounds, the most stringent standard available shall be such standard available for certification on the date of the enactment of the Energy Tax Policy Act of 2003.

“(3) INCREMENTAL COST.—For purposes of this subsection, the incremental cost of any new qualified alternative fuel motor vehicle is equal to the amount of the excess of the manufacturer’s suggested retail price for such vehicle over such price for a gasoline or diesel fuel motor vehicle of the same model, to the extent such amount does not exceed—

“(A) \$5,000, if such vehicle has a gross vehicle weight rating of not more than 8,500 pounds,

“(B) \$10,000, if such vehicle has a gross vehicle weight rating of more than 8,500 pounds but not more than 14,000 pounds,

“(C) \$25,000, if such vehicle has a gross vehicle weight rating of more than 14,000 pounds but not more than 26,000 pounds, and

“(D) \$40,000, if such vehicle has a gross vehicle weight rating of more than 26,000 pounds.

“(4) NEW QUALIFIED ALTERNATIVE FUEL MOTOR VEHICLE.—For purposes of this subsection—

“(A) IN GENERAL.—The term ‘new qualified alternative fuel motor vehicle’ means any motor vehicle—

“(i) which is only capable of operating on an alternative fuel,

“(ii) the original use of which commences with the taxpayer,

“(iii) which is acquired by the taxpayer for use or lease, but not for resale, and

“(iv) which is made by a manufacturer.

“(B) ALTERNATIVE FUEL.—The term ‘alternative fuel’ means compressed natural gas, liquefied natural gas, liquefied petroleum gas, hydrogen, and any liquid at least 85 percent of the volume of which consists of methanol.

“(5) CREDIT FOR MIXED-FUEL VEHICLES.—

“(A) IN GENERAL.—In the case of a mixed-fuel vehicle placed in service by the taxpayer during the taxable year, the credit determined under this subsection is an amount equal to—

“(i) in the case of a 75/25 mixed-fuel vehicle, 70 percent of the credit which would have been allowed under this subsection if such vehicle was a qualified alternative fuel motor vehicle, and

“(ii) in the case of a 90/10 mixed-fuel vehicle, 90 percent of the credit which would have been allowed under this subsection if such vehicle was a qualified alternative fuel motor vehicle.

“(B) MIXED-FUEL VEHICLE.—For purposes of this subsection, the term ‘mixed-fuel vehicle’ means any motor vehicle described in subparagraph (C) or (D) of paragraph (3), which—

“(i) is certified by the manufacturer as being able to perform efficiently in normal operation on a combination of an alternative fuel and a petroleum-based fuel,

“(ii) either—

“(I) has received a certificate of conformity under the Clean Air Act, or

“(II) has received an order certifying the vehicle as meeting the same requirements as vehicles which may be sold or leased in California and meets or exceeds the low emission vehicle standard under section 88.105-94 of title 40, Code of Federal Regulations, for that make and model year vehicle,

“(iii) the original use of which commences with the taxpayer,

“(iv) which is acquired by the taxpayer for use or lease, but not for resale, and

“(v) which is made by a manufacturer.

“(C) 75/25 MIXED-FUEL VEHICLE.—For purposes of this subsection, the term ‘75/25 mixed-fuel vehicle’ means a mixed-fuel vehicle which operates using at least 75 percent alternative fuel and not more than 25 percent petroleum-based fuel.

“(D) 90/10 MIXED-FUEL VEHICLE.—For purposes of this subsection, the term ‘90/10 mixed-fuel vehicle’ means a mixed-fuel vehicle which operates using at least 90 percent alternative fuel and not more than 10 percent petroleum-based fuel.

“(f) LIMITATION ON NUMBER OF NEW QUALIFIED HYBRID AND ADVANCED LEAN-BURN TECHNOLOGY VEHICLES ELIGIBLE FOR CREDIT.—

“(1) IN GENERAL.—In the case of a qualified vehicle sold during the phaseout period, only the applicable percentage of the credit otherwise allowable under subsection (c) or (d) shall be allowed.

“(2) PHASEOUT PERIOD.—For purposes of this subsection, the phaseout period is the period beginning with the second calendar quarter following the calendar quarter which includes the first date on which the number of qualified vehicles manufactured by the manufacturer of the vehicle referred to in paragraph (1) sold for use in the United States after the date of the enactment of this section is at least 80,000.

“(3) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the applicable percentage is—

“(A) 50 percent for the first 2 calendar quarters of the phaseout period,

“(B) 25 percent for the 3d and 4th calendar quarters of the phaseout period, and

“(C) 0 percent for each calendar quarter thereafter.

“(4) CONTROLLED GROUPS.—

“(A) IN GENERAL.—For purposes of this subsection, all persons treated as a single employer under subsection (a) or (b) of section 52 or subsection (m) or (o) of section 414 shall be treated as a single manufacturer.

“(B) INCLUSION OF FOREIGN CORPORATIONS.—For purposes of subparagraph (A), in applying subsections (a) and (b) of section 52 to this section, section 1563 shall be applied without regard to subsection (b)(2)(C) thereof.

“(5) QUALIFIED VEHICLE.—For purposes of this subsection, the term ‘qualified vehicle’

means any new qualified hybrid motor vehicle and any new advanced lean burn technology motor vehicle.

“(g) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

“(1) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

“(2) the sum of the credits allowable under subpart A and sections 27 and 30 for the taxable year.

“(h) OTHER DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

“(1) MOTOR VEHICLE.—The term ‘motor vehicle’ has the meaning given such term by section 30(c)(2).

“(2) OTHER TERMS.—The terms ‘automobile’, ‘passenger automobile’, ‘light truck’, and ‘manufacturer’ have the meanings given such terms in regulations prescribed by the Administrator of the Environmental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.).

“(3) 2002 MODEL YEAR CITY FUEL ECONOMY.—“(A) IN GENERAL.—The 2002 model year city fuel economy with respect to a vehicle shall be determined in accordance with the following tables:

“(i) In the case of a passenger automobile:
“(ii) In the case of a light truck:

“(B) VEHICLE INERTIA WEIGHT CLASS.—For purposes of subparagraph (A), the term ‘vehicle inertia weight class’ has the same meaning as when defined in regulations prescribed by the Administrator of the Environmental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.).

“(4) FUEL ECONOMY.—Fuel economy with respect to any vehicle shall be measured under rules similar to the rules under section 4064(c).

“(5) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this paragraph) result from such expenditure shall be reduced by the amount of the credit so allowed.

“(6) NO DOUBLE BENEFIT.—The amount of any deduction or credit allowable under this chapter (other than the credits allowable under this section and section 30) shall be reduced by the amount of credit allowed under subsection (a) for such vehicle for the taxable year.

“(7) RECAPTURE.—The Secretary shall, by regulations, provide for recapturing the benefit of any credit allowable under subsection (a) with respect to any property which ceases to be property eligible for such credit (including recapture in the case of a lease period of less than the economic life of a vehicle).

“(8) PROPERTY USED OUTSIDE UNITED STATES, ETC., NOT QUALIFIED.—No credit shall be allowed under subsection (a) with respect to any property referred to in section 50(b) or with respect to the portion of the cost of any property taken into account under section 179.

“(9) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any vehicle if the taxpayer elects to not have this section apply to such vehicle.

“(10) BUSINESS CARRYOVERS ALLOWED.—If the credit allowable under subsection (a) for a taxable year exceeds the limitation under subsection (g) for such taxable year, such excess (to the extent of the credit allowable with respect to property subject to the allowance for depreciation) shall be allowed as a credit carryback and carryforward under rules similar to the rules of section 39.

“(11) INTERACTION WITH MOTOR VEHICLE SAFETY STANDARDS.—Unless otherwise provided in this section, a motor vehicle shall not be considered eligible for a credit under this section unless such vehicle is in compliance with the motor vehicle safety provisions of sections 30101 through 30169 of title 49, United States Code.

“(i) REGULATIONS.—“(1) IN GENERAL.—The Secretary shall promulgate such regulations as necessary to carry out the provisions of this section.

“(2) DETERMINATION OF MOTOR VEHICLE ELIGIBILITY.—The Secretary, after coordination with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, shall prescribe such regulations as necessary to determine whether a motor vehicle meets the requirements to be eligible for a credit under this section.

“(j) TERMINATION.—This section shall not apply to any property placed in service after—

“(1) in the case of a new qualified alternative fuel motor vehicle, December 31, 2006.

“(2) in the case of a new advanced lean burn technology motor vehicle or a new qualified hybrid motor vehicle, December 31, 2008, and

“(3) in the case of a new qualified fuel cell motor vehicle, December 31, 2012.”

(b) CONFORMING AMENDMENTS.—

(1) Section 30(d) (relating to special rules) is amended by adding at the end the following new paragraphs:

“(5) NO DOUBLE BENEFIT.—No credit shall be allowed under this section for any motor vehicle for which a credit is also allowed under section 30B.”

(2) Section 1016(a), as amended by this Act, is amended by striking “and” at the end of paragraph (31), by striking the period at the end of paragraph (32) and inserting “, and”, and by adding at the end the following:

“(33) to the extent provided in section 30B(h)(5).”

(3) Section 6501(m) is amended by inserting “30B(h)(9),” after “30(d)(4).”

(4) The table of sections for subpart B of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 30A the following:

“Sec. 30B. Alternative motor vehicle credit.”

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

(d) STICKER INFORMATION REQUIRED AT RETAIL SALE.—

(1) IN GENERAL.—The Secretary of the Treasury shall issue regulations under which each qualified vehicle sold at retail shall display a notice—

(A) that such vehicle is a qualified vehicle, and

(B) that the buyer may not benefit from the credit allowed under section 30B of the Internal Revenue Code of 1986 if such buyer has insufficient tax liability.

(2) QUALIFIED VEHICLE.—For purposes of paragraph (1), the term “qualified vehicle” means a vehicle with respect to which a credit is allowed under section 30B of the Internal Revenue Code of 1986.

SEC. 1319. MODIFICATIONS OF DEDUCTION FOR CERTAIN REFUELING PROPERTY.

(a) IN GENERAL.—Subsection (f) of section 179A is amended to read as follows:

“(f) TERMINATION.—This section shall not apply to any property placed in service—

“(1) in the case of property relating to hydrogen, after December 31, 2011, and

“(2) in the case of any other property, after December 31, 2008.”

(b) INCENTIVE FOR PRODUCTION OF HYDROGEN AT QUALIFIED CLEAN-FUEL VEHICLE RE-

FUELING PROPERTY.—Section 179A(d) (defining qualified clean-fuel vehicle refueling property) is amended by adding at the end the following new flush sentence:

“In the case of clean-burning fuel which is hydrogen produced from another clean-burning fuel, paragraph (3)(A) shall be applied by substituting ‘production, storage, or dispensing’ for ‘storage or dispensing’ both places it appears.”

(c) INCREASE IN LOCATION EXPENDITURES.—Section 179A(b)(2)(A)(i) is amended by striking “\$100,000” and inserting “\$150,000”.

(d) NONBUSINESS USE OF QUALIFIED CLEAN-FUEL VEHICLE REFUELING PROPERTY.—Section 179A(d) is amended by striking paragraph (1) and by redesignating paragraphs (2) and (3) as paragraphs (1) and (2), respectively.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

Subtitle B—Reliability

SEC. 1321. NATURAL GAS GATHERING LINES TREATED AS 7-YEAR PROPERTY.

(a) IN GENERAL.—Subparagraph (C) of section 168(e)(3) (relating to classification of certain property) is amended by striking “and” at the end of clause (i), by redesignating clause (ii) as clause (iii), and by inserting after clause (i) the following new clause:

“(ii) any natural gas gathering line, and”.

(b) NATURAL GAS GATHERING LINE.—Subsection (i) of section 168, as amended by this Act, is amended by adding after paragraph (15) the following new paragraph:

“(16) NATURAL GAS GATHERING LINE.—The term ‘natural gas gathering line’ means—

“(A) the pipe, equipment, and appurtenances determined to be a gathering line by the Federal Energy Regulatory Commission, or

“(B) the pipe, equipment, and appurtenances used to deliver natural gas from the wellhead or a commonpoint to the point at which such gas first reaches—

“(i) a gas processing plant,

“(ii) an interconnection with a transmission pipeline for which a certificate as an interstate transmission pipeline has been issued by the Federal Energy Regulatory Commission,

“(iii) an interconnection with an intrastate transmission pipeline, or

“(iv) a direct interconnection with a local distribution company, a gas storage facility, or an industrial consumer.”

(c) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (C)(i) the following:

“(C) (ii) 14”.

(d) ALTERNATIVE MINIMUM TAX EXCEPTION.—Subparagraph (B) of section 56(a)(1) is amended by inserting before the period the following: “, or in section 168(e)(3)(C)(ii)”.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1322. NATURAL GAS DISTRIBUTION LINES TREATED AS 15-YEAR PROPERTY.

(a) IN GENERAL.—Subparagraph (E) of section 168(e)(3) (relating to classification of certain property) is amended by striking “and” at the end of clause (ii), by striking the period at the end of clause (iii) and by inserting “, and”, and by adding at the end the following new clause:

“(iv) any natural gas distribution line.”

(b) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (E)(iii) the following:

“(E) (iv) 35”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1323. ELECTRIC TRANSMISSION PROPERTY TREATED AS 15-YEAR PROPERTY.

(a) IN GENERAL.—Subparagraph (E) of section 168(e)(3) (relating to classification of certain property), as amended by this Act, is amended by striking “and” at the end of clause (iii), by striking the period at the end of clause (iv) and by inserting “, and”, and by adding at the end the following new clause:

“(v) any section 1245 property (as defined in section 1245(a)(3)) used in the transmission at 69 or more kilovolts of electricity for sale the original use of which commences with the taxpayer after the date of the enactment of this clause.”

(b) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (E)(iv) the following:

“(E) (v) 30”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1324. EXPENSING OF CAPITAL COSTS INCURRED IN COMPLYING WITH ENVIRONMENTAL PROTECTION AGENCY SULFUR REGULATIONS.

(a) IN GENERAL.—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations), as amended by this Act, is amended by inserting after section 179B the following new section:

“SEC. 179C. DEDUCTION FOR CAPITAL COSTS INCURRED IN COMPLYING WITH ENVIRONMENTAL PROTECTION AGENCY SULFUR REGULATIONS.

“(a) TREATMENT AS EXPENSES.—A small business refiner (as defined in section 451(c)(1)) may elect to treat 75 percent of qualified capital costs (as defined in section 451(c)(2)) which are paid or incurred by the taxpayer during the taxable year as expenses which are not chargeable to capital account. Any cost so treated shall be allowed as a deduction for the taxable year in which paid or incurred.

“(b) REDUCED PERCENTAGE.—In the case of a small business refiner with average daily domestic refinery runs for the 1-year period ending on December 31, 2002, in excess of 155,000 barrels, the number of percentage points described in subsection (a) shall be reduced (not below zero) by the product of such number (before the application of this subsection) and the ratio of such excess to 50,000 barrels.

“(c) BASIS REDUCTION.—

“(1) IN GENERAL.—For purposes of this title, the basis of any property shall be reduced by the portion of the cost of such property taken into account under subsection (a).

“(2) ORDINARY INCOME RECAPTURE.—For purposes of section 1245, the amount of the deduction allowable under subsection (a) with respect to any property which is of a character subject to the allowance for depreciation shall be treated as a deduction allowed for depreciation under section 167.”

“(d) COORDINATION WITH OTHER PROVISIONS.—Section 280B shall not apply to amounts which are treated as expenses under this section.”

(b) CONFORMING AMENDMENTS.—

(1) Section 263(a)(1), as amended by this Act, is amended by striking “or” at the end of subparagraph (H), by striking the period at the end of subparagraph (I) and inserting “; or”, and by adding at the end the following new subparagraph:

“(J) expenditures for which a deduction is allowed under section 179C.”

(2) Section 263A(c)(3) is amended by inserting “179C,” after “section”.

(3) Section 312(k)(3)(B), as amended by this Act, is amended by striking “or 179B” each place it appears in the heading and text and inserting “179B, or 179C”.

(4) Section 1016(a), as amended by this Act, is amended by striking “and” at the end of paragraph (32), by striking the period at the end of paragraph (33) and inserting “, and”, and by adding at the end the following new paragraph:

“(34) to the extent provided in section 179C(c).”

(5) Paragraphs (2)(C) and (3)(C) of section 1245(a), as amended by this Act, are each amended by inserting “179C,” after “179B.”

(6) The table of sections for part VI of subchapter B of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 179B the following new item:

“Sec. 179C. Deduction for capital costs incurred in complying with Environmental Protection Agency sulfur regulations.”

(c) EFFECTIVE DATE.—The amendment made by this section shall apply to expenses paid or incurred after December 31, 2002, in taxable years ending after such date.

SEC. 1325. CREDIT FOR PRODUCTION OF LOW SULFUR DIESEL FUEL.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business-related credits), as amended by this Act, is amended by adding at the end the following new section:

“SEC. 45I. CREDIT FOR PRODUCTION OF LOW SULFUR DIESEL FUEL.

“(a) IN GENERAL.—For purposes of section 38, the amount of the low sulfur diesel fuel production credit determined under this section with respect to any facility of a small business refiner is an amount equal to 5 cents for each gallon of low sulfur diesel fuel produced during the taxable year by such small business refiner at such facility.

“(b) MAXIMUM CREDIT.—

“(1) IN GENERAL.—The aggregate credit determined under subsection (a) for any taxable year with respect to any facility shall not exceed—

“(A) 25 percent of the qualified capital costs incurred by the small business refiner with respect to such facility, reduced by

“(B) the aggregate credits determined under this section for all prior taxable years with respect to such facility.

“(2) REDUCED PERCENTAGE.—In the case of a small business refiner with average daily domestic refinery runs for the 1-year period ending on December 31, 2002, in excess of 155,000 barrels, the number of percentage points described in paragraph (1) shall be reduced (not below zero) by the product of such number (before the application of this paragraph) and the ratio of such excess to 50,000 barrels.

“(c) DEFINITIONS AND SPECIAL RULE.—For purposes of this section—

“(1) SMALL BUSINESS REFINER.—The term ‘small business refiner’ means, with respect to any taxable year, a refiner of crude oil—

“(A) with respect to which not more than 1,500 individuals are engaged in the refinery operations of the business on any day during such taxable year, and

“(B) the average daily domestic refinery run or average retained production of which for all facilities of the taxpayer for the 1-year period ending on December 31, 2002, did not exceed 205,000 barrels.

“(2) QUALIFIED CAPITAL COSTS.—The term ‘qualified capital costs’ means, with respect to any facility, those costs paid or incurred during the applicable period for compliance with the applicable EPA regulations with re-

spect to such facility, including expenditures for the construction of new process operation units or the dismantling and reconstruction of existing process units to be used in the production of low sulfur diesel fuel, associated adjacent or offsite equipment (including tankage, catalyst, and power supply), engineering, construction period interest, and sitework.

“(3) APPLICABLE EPA REGULATIONS.—The term ‘applicable EPA regulations’ means the Highway Diesel Fuel Sulfur Control Requirements of the Environmental Protection Agency.

“(4) APPLICABLE PERIOD.—The term ‘applicable period’ means, with respect to any facility, the period beginning on January 1, 2003, and ending on the earlier of the date which is 1 year after the date on which the taxpayer must comply with the applicable EPA regulations with respect to such facility or December 31, 2009.

“(5) LOW SULFUR DIESEL FUEL.—The term ‘low sulfur diesel fuel’ means diesel fuel with a sulfur content of 15 parts per million or less.

“(d) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is determined under this section for any expenditure with respect to any property, the increase in basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so determined.

“(e) SPECIAL RULE FOR DETERMINATION OF REFINERY RUNS.—For purposes this section and section 179C(b), in the calculation of average daily domestic refinery run or retained production, only refineries which on April 1, 2003, were refineries of the refiner or a related person (within the meaning of section 613A(d)(3)), shall be taken into account.

“(f) CERTIFICATION.—

“(1) REQUIRED.—No credit shall be allowed unless, not later than the date which is 30 months after the first day of the first taxable year in which the low sulfur diesel fuel production credit is allowed with respect to a facility, the small business refiner obtains certification from the Secretary, after consultation with the Administrator of the Environmental Protection Agency, that the taxpayer’s qualified capital costs with respect to such facility will result in compliance with the applicable EPA regulations.

“(2) CONTENTS OF APPLICATION.—An application for certification shall include relevant information regarding unit capacities and operating characteristics sufficient for the Secretary, after consultation with the Administrator of the Environmental Protection Agency, to determine that such qualified capital costs are necessary for compliance with the applicable EPA regulations.

“(3) REVIEW PERIOD.—Any application shall be reviewed and notice of certification, if applicable, shall be made within 60 days of receipt of such application. In the event the Secretary does not notify the taxpayer of the results of such certification within such period, the taxpayer may presume the certification to be issued until so notified.

“(4) STATUTE OF LIMITATIONS.—With respect to the credit allowed under this section—

“(A) the statutory period for the assessment of any deficiency attributable to such credit shall not expire before the end of the 3-year period ending on the date that the review period described in paragraph (3) ends with respect to the taxpayer, and

“(B) such deficiency may be assessed before the expiration of such 3-year period notwithstanding the provisions of any other law or rule of law which would otherwise prevent such assessment.

“(g) COOPERATIVE ORGANIZATIONS.—

“(1) APPORTIONMENT OF CREDIT.—

“(A) IN GENERAL.—In the case of a cooperative organization described in section 1381(a), any portion of the credit determined under subsection (a) for the taxable year may, at the election of the organization, be apportioned among patrons eligible to share in patronage dividends on the basis of the quantity or value of business done with or for such patrons for the taxable year.

“(B) FORM AND EFFECT OF ELECTION.—An election under subparagraph (A) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year.

“(2) TREATMENT OF ORGANIZATIONS AND PATRONS.—

“(A) ORGANIZATIONS.—The amount of the credit not apportioned to patrons pursuant to paragraph (1) shall be included in the amount determined under subsection (a) for the taxable year of the organization.

“(B) PATRONS.—The amount of the credit apportioned to patrons pursuant to paragraph (1) shall be included in the amount determined under subsection (a) for the first taxable year of each patron ending on or after the last day of the payment period (as defined in section 1382(d)) for the taxable year of the organization or, if earlier, for the taxable year of each patron ending on or after the date on which the patron receives notice from the cooperative of the apportionment.

“(3) SPECIAL RULE.—If the amount of a credit which has been apportioned to any patron under this subsection is decreased for any reason—

“(A) such amount shall not increase the tax imposed on such patron, and

“(B) the tax imposed by this chapter on such organization shall be increased by such amount.

The increase under subparagraph (B) shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.”

(b) CREDIT MADE PART OF GENERAL BUSINESS CREDIT.—Subsection (b) of section 38 (relating to general business credit), as amended by this Act, is amended by striking “plus” at the end of paragraph (17), by striking the period at the end of paragraph (18) and inserting “, plus”, and by adding at the end the following new paragraph:

“(19) in the case of a small business refiner, the low sulfur diesel fuel production credit determined under section 45I(a).”

(c) DENIAL OF DOUBLE BENEFIT.—Section 280C (relating to certain expenses for which credits are allowable) is amended by adding at the end the following new subsection:

“(d) LOW SULFUR DIESEL FUEL PRODUCTION CREDIT.—No deduction shall be allowed for that portion of the expenses otherwise allowable as a deduction for the taxable year which is equal to the amount of the credit determined for the taxable year under section 45I(a).”

(d) BASIS ADJUSTMENT.—Section 1016(a) (relating to adjustments to basis), as amended by this Act, is amended by striking “and” at the end of paragraph (33), by striking the period at the end of paragraph (34) and inserting “, and”, and by adding at the end the following new paragraph:

“(35) in the case of a facility with respect to which a credit was allowed under section 45I, to the extent provided in section 45I(d).”

(e) DEDUCTION FOR CERTAIN UNUSED BUSINESS CREDITS.—Section 196(c) (defining qualified business credits), as amended by this Act, is amended by striking “and” at the end of paragraph (12), by striking the period at the end of paragraph (13) and inserting “, and”, and by adding after paragraph (13) the following new paragraph:

“(14) the low sulfur diesel fuel production credit determined under section 45I(a).”

(f) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new item:

“Sec. 45I. Credit for production of low sulfur diesel fuel.”

(g) EFFECTIVE DATE.—The amendments made by this section shall apply to expenses paid or incurred after December 31, 2002, in taxable years ending after such date.

SEC. 1326. DETERMINATION OF SMALL REFINER EXCEPTION TO OIL DEPLETION DEDUCTION.

(a) IN GENERAL.—Paragraph (4) of section 613A(d) (relating to limitations on application of subsection (c)) is amended to read as follows:

“(4) CERTAIN REFINERS EXCLUDED.—If the taxpayer or 1 or more related persons engages in the refining of crude oil, subsection (c) shall not apply to the taxpayer for a taxable year if the average daily refinery runs of the taxpayer and such persons for the taxable year exceed 67,500 barrels. For purposes of this paragraph, the average daily refinery runs for any taxable year shall be determined by dividing the aggregate refinery runs for the taxable year by the number of days in the taxable year.”

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years ending after the date of the enactment of this Act.

SEC. 1327. SALES OR DISPOSITIONS TO IMPLEMENT FEDERAL ENERGY REGULATORY COMMISSION OR STATE ELECTRIC RESTRUCTURING POLICY.

(a) IN GENERAL.—Section 45I (relating to general rule for taxable year of inclusion) is amended by adding at the end the following new subsection:

“(i) SPECIAL RULE FOR SALES OR DISPOSITIONS TO IMPLEMENT FEDERAL ENERGY REGULATORY COMMISSION OR STATE ELECTRIC RESTRUCTURING POLICY.—

“(1) IN GENERAL.—In the case of any qualifying electric transmission transaction for which the taxpayer elects the application of this section, qualified gain from such transaction shall be recognized—

“(A) in the taxable year which includes the date of such transaction to the extent the amount realized from such transaction exceeds—

“(i) the cost of exempt utility property which is purchased by the taxpayer during the 4-year period beginning on such date, reduced (but not below zero) by

“(ii) any portion of such cost previously taken into account under this subsection, and

“(B) ratably over the 8-taxable year period beginning with the taxable year which includes the date of such transaction, in the case of any such gain not recognized under subparagraph (A).

“(2) QUALIFIED GAIN.—For purposes of this subsection, the term ‘qualified gain’ means, with respect to any qualifying electric transmission transaction in any taxable year—

“(A) any ordinary income derived from such transaction which would be required to be recognized under section 1245 or 1250 for such taxable year (determined without regard to this subsection), and

“(B) any income derived from such transaction in excess of the amount described in subparagraph (A) which is required to be included in gross income for such taxable year (determined without regard to this subsection).

“(3) QUALIFYING ELECTRIC TRANSMISSION TRANSACTION.—For purposes of this subsection, the term ‘qualifying electric transmission transaction’ means any sale or other disposition before January 1, 2007, of—

“(A) property used in the trade or business of providing electric transmission services, or

“(B) any stock or partnership interest in a corporation or partnership, as the case may be, whose principal trade or business consists of providing electric transmission services, but only if such sale or disposition is to an independent transmission company.

“(4) INDEPENDENT TRANSMISSION COMPANY.—For purposes of this subsection, the term ‘independent transmission company’ means—

“(A) an independent transmission provider approved by the Federal Energy Regulatory Commission,

“(B) a person—

“(i) who the Federal Energy Regulatory Commission determines in its authorization of the transaction under section 203 of the Federal Power Act (16 U.S.C. 824b) or by declaratory order is not a market participant within the meaning of such Commission’s rules applicable to independent transmission providers, and

“(ii) whose transmission facilities to which the election under this subsection applies are under the operational control of a Federal Energy Regulatory Commission-approved independent transmission provider before the close of the period specified in such authorization, but not later than the close of the period applicable under subsection (a)(2)(B) as extended under paragraph (2), or

“(C) in the case of facilities subject to the jurisdiction of the Public Utility Commission of Texas—

“(i) a person which is approved by that Commission as consistent with Texas State law regarding an independent transmission provider, or

“(ii) a political subdivision or affiliate thereof whose transmission facilities are under the operational control of a person described in clause (i).

“(5) EXEMPT UTILITY PROPERTY.—For purposes of this subsection—

“(A) IN GENERAL.—The term ‘exempt utility property’ means property used in the trade or business of—

“(i) generating, transmitting, distributing, or selling electricity, or

“(ii) producing, transmitting, distributing, or selling natural gas.

“(B) NONRECOGNITION OF GAIN BY REASON OF ACQUISITION OF STOCK.—Acquisition of control of a corporation shall be taken into account under this subsection with respect to a qualifying electric transmission transaction only if the principal trade or business of such corporation is a trade or business referred to in subparagraph (A).

“(6) SPECIAL RULE FOR CONSOLIDATED GROUPS.—In the case of a corporation which is a member of an affiliated group filing a consolidated return, any exempt utility property purchased by another member of such group shall be treated as purchased by such corporation for purposes of applying paragraph (1)(A).

“(7) TIME FOR ASSESSMENT OF DEFICIENCIES.—If the taxpayer has made the election under paragraph (1) and any gain is recognized by such taxpayer as provided in paragraph (1)(B), then—

“(A) the statutory period for the assessment of any deficiency, for any taxable year in which any part of the gain on the transaction is realized, attributable to such gain shall not expire prior to the expiration of 3 years from the date the Secretary is notified by the taxpayer (in such manner as the Secretary may by regulations prescribe) of the purchase of exempt utility property or of an intention not to purchase such property, and

“(B) such deficiency may be assessed before the expiration of such 3-year period notwithstanding any law or rule of law which would otherwise prevent such assessment.

“(8) PURCHASE.—For purposes of this subsection, the taxpayer shall be considered to have purchased any property if the unadjusted basis of such property is its cost within the meaning of section 1012.

“(9) ELECTION.—An election under paragraph (1) shall be made at such time and in such manner as the Secretary may require and, once made, shall be irrevocable.

“(10) NONAPPLICATION OF INSTALLMENT SALES TREATMENT.—Section 453 shall not apply to any qualifying electric transmission transaction with respect to which an election to apply this subsection is made.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to transactions occurring after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1328. MODIFICATIONS TO SPECIAL RULES FOR NUCLEAR DECOMMISSIONING COSTS.

(a) REPEAL OF LIMITATION ON DEPOSITS INTO FUND BASED ON COST OF SERVICE; CONTRIBUTIONS AFTER FUNDING PERIOD.—Subsection (b) of section 468A (relating to special rules for nuclear decommissioning costs) is amended to read as follows:

“(b) LIMITATION ON AMOUNTS PAID INTO FUND.—

“(1) IN GENERAL.—The amount which a taxpayer may pay into the Fund for any taxable year shall not exceed the ruling amount applicable to such taxable year.

“(2) CONTRIBUTIONS AFTER FUNDING PERIOD.—Notwithstanding any other provision of this section, a taxpayer may pay into the Fund in any taxable year after the last taxable year to which the ruling amount applies. Payments may not be made under the preceding sentence to the extent such payments would cause the assets of the Fund to exceed the nuclear decommissioning costs allocable to the taxpayer's current or former interest in the nuclear power plant to which the Fund relates. The limitation under the preceding sentence shall be determined by taking into account a reasonable rate of inflation for the nuclear decommissioning costs and a reasonable after-tax rate of return on the assets of the Fund until such assets are anticipated to be expended.”.

(b) CLARIFICATION OF TREATMENT OF FUND TRANSFERS.—Section 468A(e) (relating to Nuclear Decommissioning Reserve Fund) is amended by adding at the end the following new paragraph:

“(8) TREATMENT OF FUND TRANSFERS.—

“(A) IN GENERAL.—If, in connection with the transfer of the taxpayer's interest in a nuclear power plant, the taxpayer transfers the Fund with respect to such power plant to the transferee of such interest and the transferee elects to continue the application of this section to such Fund—

“(i) the transfer of such Fund shall not cause such Fund to be disqualified from the application of this section, and

“(ii) no amount shall be treated as distributed from such Fund, or be includable in gross income, by reason of such transfer.

“(B) SPECIAL RULES IF TRANSFEROR IS TAX-EXEMPT ENTITY.—

“(i) IN GENERAL.—If—

“(I) a person exempt from taxation under this title transfers an interest in a nuclear power plant,

“(II) such person has set aside amounts for nuclear decommissioning which are transferred to the transferee of the interest, and

“(III) the transferee elects the application of this subparagraph no later than the due date (including extensions) of its return of

tax for the taxable year in which the transfer occurs,

the amounts so set aside shall be treated as if contributed by such person to a Fund immediately before the transfer and then transferred in the Fund to the transferee.

“(ii) LIMITATION.—The amount treated as transferred to a Fund under clause (i) shall not exceed the amount which bears the same ratio to the present value of the nuclear decommissioning costs of the transferor with respect to the nuclear power plant as the number of years the nuclear power plant has been in service bears to the estimated useful life of such power plant.

“(iii) BASIS.—The transferee's basis in any asset treated as transferred in the Fund shall be the same as the adjusted basis of such asset in the hands of the transferor.

“(iv) RULING AMOUNT REQUIRED.—This subparagraph shall not apply to any transfer unless the transferee requests from the Secretary a schedule of ruling amounts.

“(v) ELECTION DISREGARDED.—An election under this subparagraph shall be disregarded in determining the Federal income tax of the transferor.”.

(c) TREATMENT OF CERTAIN DECOMMISSIONING COSTS.—

(1) IN GENERAL.—Section 468A is amended by redesignating subsections (f) and (g) as subsections (g) and (h), respectively, and by inserting after subsection (e) the following new subsection:

“(f) TRANSFERS INTO QUALIFIED FUNDS.—

“(1) IN GENERAL.—Notwithstanding subsection (b), any taxpayer maintaining a Fund to which this section applies with respect to a nuclear power plant may transfer into such Fund not more than an amount equal to the present value of the portion of the total nuclear decommissioning costs with respect to such nuclear power plant previously excluded for such nuclear power plant under subsection (d)(2)(A) as in effect immediately before the date of the enactment of the Energy Tax Policy Act of 2004.

“(2) DEDUCTION FOR AMOUNTS TRANSFERRED.—

“(A) IN GENERAL.—Except as provided in subparagraph (C), the deduction allowed by subsection (a) for any transfer permitted by this subsection shall be allowed ratably over the remaining estimated useful life (within the meaning of subsection (d)(2)(A)) of the nuclear power plant beginning with the taxable year during which the transfer is made.

“(B) DENIAL OF DEDUCTION FOR PREVIOUSLY DEDUCTED AMOUNTS.—No deduction shall be allowed for any transfer under this subsection of an amount for which a deduction was previously allowed to the taxpayer (or a predecessor) or a corresponding amount was not included in gross income of the taxpayer (or a predecessor). For purposes of the preceding sentence, a ratable portion of each transfer shall be treated as being from previously deducted or excluded amounts to the extent thereof.

“(C) TRANSFERS OF QUALIFIED FUNDS.—If—

“(i) any transfer permitted by this subsection is made to any Fund to which this section applies, and

“(ii) such Fund is transferred thereafter, any deduction under this subsection for taxable years ending after the date that such Fund is transferred shall be allowed to the transferor for the taxable year which includes such date.

“(D) SPECIAL RULES.—

“(i) GAIN OR LOSS NOT RECOGNIZED.—No gain or loss shall be recognized on any transfer permitted by this subsection.

“(ii) TRANSFERS OF APPRECIATED PROPERTY.—If appreciated property is transferred in a transfer permitted by this subsection, the amount of the deduction shall not exceed the adjusted basis of such property.

“(3) NEW RULING AMOUNT REQUIRED.—Paragraph (1) shall not apply to any transfer unless the taxpayer requests from the Secretary a new schedule of ruling amounts in connection with such transfer.

“(4) NO BASIS IN QUALIFIED FUNDS.—Notwithstanding any other provision of law, the taxpayer's basis in any Fund to which this section applies shall not be increased by reason of any transfer permitted by this subsection.”.

(2) NEW RULING AMOUNT TO TAKE INTO ACCOUNT TOTAL COSTS.—Subparagraph (A) of section 468A(d)(2) (defining ruling amount) is amended to read as follows:

“(A) fund the total nuclear decommissioning costs with respect to such power plant over the estimated useful life of such power plant, and”.

(d) TECHNICAL AMENDMENTS.—Section 468A(e)(2) (relating to taxation of Fund) is amended—

(1) by striking “rate set forth in subparagraph (B)” in subparagraph (A) and inserting “rate of 20 percent”.

(2) by striking subparagraph (B), and

(3) by redesignating subparagraphs (C) and (D) as subparagraphs (B) and (C), respectively.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2003.

SEC. 1329. TREATMENT OF CERTAIN INCOME OF COOPERATIVES.

(a) INCOME FROM OPEN ACCESS AND NUCLEAR DECOMMISSIONING TRANSACTIONS.—

(1) IN GENERAL.—Subparagraph (C) of section 501(c)(12) is amended by striking “or” at the end of clause (i), by striking clause (ii), and by adding at the end the following new clauses:

“(ii) from any provision or sale of electric energy transmission services or ancillary services if such services are provided on a nondiscriminatory open access basis under an open access transmission tariff approved or accepted by FERC or under an independent transmission provider agreement approved or accepted by FERC (other than income received or accrued directly or indirectly from a member),

“(iii) from the provision or sale of electric energy distribution services or ancillary services if such services are provided on a nondiscriminatory open access basis to distribute electric energy not owned by the mutual or electric cooperative company—

“(I) to end-users who are served by distribution facilities not owned by such company or any of its members (other than income received or accrued directly or indirectly from a member), or

“(II) generated by a generation facility not owned or leased by such company or any of its members and which is directly connected to distribution facilities owned by such company or any of its members (other than income received or accrued directly or indirectly from a member),

“(iv) from any nuclear decommissioning transaction, or

“(v) from any asset exchange or conversion transaction.”.

(2) DEFINITIONS AND SPECIAL RULES.—Paragraph (12) of section 501(c) is amended by adding at the end the following new subparagraphs:

“(E) For purposes of subparagraph (C)(ii), the term ‘FERC’ means the Federal Energy Regulatory Commission and references to such term shall be treated as including the Public Utility Commission of Texas with respect to any ERCOT utility (as defined in section 212(k)(2)(B) of the Federal Power Act (16 U.S.C. 824k(k)(2)(B))).

“(F) For purposes of subparagraph (C)(iii), the term ‘nuclear decommissioning transaction’ means—

“(i) any transfer into a trust, fund, or instrument established to pay any nuclear decommissioning costs if the transfer is in connection with the transfer of the mutual or cooperative electric company’s interest in a nuclear power plant or nuclear power plant unit.

“(ii) any distribution from any trust, fund, or instrument established to pay any nuclear decommissioning costs, or

“(iii) any earnings from any trust, fund, or instrument established to pay any nuclear decommissioning costs.

“(G) For purposes of subparagraph (C)(iv), the term ‘asset exchange or conversion transaction’ means any voluntary exchange or involuntary conversion of any property related to generating, transmitting, distributing, or selling electric energy by a mutual or cooperative electric company, the gain from which qualifies for deferred recognition under section 1031 or 1033, but only if the replacement property acquired by such company pursuant to such section constitutes property which is used, or to be used, for—

“(i) generating, transmitting, distributing, or selling electric energy, or

“(ii) producing, transmitting, distributing, or selling natural gas.”

(b) TREATMENT OF INCOME FROM LOAD LOSS TRANSACTIONS, ETC.—Paragraph (12) of section 501(c), as amended by subsection (a)(2), is amended by adding after subparagraph (G) the following new subparagraph:

“(H)(i) In the case of a mutual or cooperative electric company described in this paragraph or an organization described in section 1381(a)(2)(C), income received or accrued from a load loss transaction shall be treated as an amount collected from members for the sole purpose of meeting losses and expenses.

“(ii) For purposes of clause (i), the term ‘load loss transaction’ means any wholesale or retail sale of electric energy (other than to members) to the extent that the aggregate sales during the recovery period do not exceed the load loss mitigation sales limit for such period.

“(iii) For purposes of clause (ii), the load loss mitigation sales limit for the recovery period is the sum of the annual load losses for each year of such period.

“(iv) For purposes of clause (iii), a mutual or cooperative electric company’s annual load loss for each year of the recovery period is the amount (if any) by which—

“(I) the megawatt hours of electric energy sold during such year to members of such electric company are less than

“(II) the megawatt hours of electric energy sold during the base year to such members.

“(v) For purposes of clause (iv)(II), the term ‘base year’ means—

“(I) the calendar year preceding the start-up year, or

“(II) at the election of the mutual or cooperative electric company, the second or third calendar years preceding the start-up year.

“(vi) For purposes of this subparagraph, the recovery period is the 7-year period beginning with the start-up year.

“(vii) For purposes of this subparagraph, the start-up year is the first year that the mutual or cooperative electric company offers nondiscriminatory open access or the calendar year which includes the date of the enactment of this subparagraph, if later, at the election of such company.

“(viii) A company shall not fail to be treated as a mutual or cooperative electric company for purposes of this paragraph or as a corporation operating on a cooperative basis for purposes of section 1381(a)(2)(C) by reason of the treatment under clause (i).

“(ix) For purposes of subparagraph (A), in the case of a mutual or cooperative electric company, income received, or accrued, indi-

rectly from a member shall be treated as an amount collected from members for the sole purpose of meeting losses and expenses.”

(c) EXCEPTION FROM UNRELATED BUSINESS TAXABLE INCOME.—Subsection (b) of section 512 (relating to modifications) is amended by adding at the end the following new paragraph:

“(18) TREATMENT OF MUTUAL OR COOPERATIVE ELECTRIC COMPANIES.—In the case of a mutual or cooperative electric company described in section 501(c)(12), there shall be excluded income which is treated as member income under subparagraph (H) thereof.”

(d) CROSS REFERENCE.—Section 1381 is amended by adding at the end the following new subsection:

“(c) CROSS REFERENCE.—For treatment of income from load loss transactions of organizations described in subsection (a)(2)(C), see section 501(c)(12)(H).”

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

SEC. 1330. ARBITRAGE RULES NOT TO APPLY TO PREPAYMENTS FOR NATURAL GAS.

(a) IN GENERAL.—Subsection (b) of section 148 (relating to higher yielding investments) is amended by adding at the end the following new paragraph:

“(4) SAFE HARBOR FOR PREPAID NATURAL GAS.—

“(A) IN GENERAL.—The term ‘investment-type property’ does not include a prepayment under a qualified natural gas supply contract.

“(B) QUALIFIED NATURAL GAS SUPPLY CONTRACT.—For purposes of this paragraph, the term ‘qualified natural gas supply contract’ means any contract to acquire natural gas for resale by a utility owned by a governmental unit if the amount of gas permitted to be acquired under the contract by the utility during any year does not exceed the sum of—

“(i) the annual average amount during the testing period of natural gas purchased (other than for resale) by customers of such utility who are located within the service area of such utility, and

“(ii) the amount of natural gas to be used to transport the prepaid natural gas to the utility during such year.

“(C) NATURAL GAS USED TO GENERATE ELECTRICITY.—Natural gas used to generate electricity shall be taken into account in determining the average under subparagraph (B)(i)—

“(i) only if the electricity is generated by a utility owned by a governmental unit, and

“(ii) only to the extent that the electricity is sold (other than for resale) to customers of such utility who are located within the service area of such utility.

“(D) ADJUSTMENTS FOR CHANGES IN CUSTOMER BASE.—

“(i) NEW BUSINESS CUSTOMERS.—If—

“(I) after the close of the testing period and before the date of issuance of the issue, the utility owned by a governmental unit enters into a contract to supply natural gas (other than for resale) for a business use at a property within the service area of such utility, and

“(II) the utility did not supply natural gas to such property during the testing period or the ratable amount of natural gas to be supplied under the contract is significantly greater than the ratable amount of gas supplied to such property during the testing period,

then a contract shall not fail to be treated as a qualified natural gas supply contract by reason of supplying the additional natural gas under the contract referred to in subclause (I).

“(ii) LOST CUSTOMERS.—The average under subparagraph (B)(i) shall not exceed the annual amount of natural gas reasonably expected to be purchased (other than for resale) by persons who are located within the service area of such utility and who, as of the date of issuance of the issue, are customers of such utility.

“(E) RULING REQUESTS.—The Secretary may increase the average under subparagraph (B)(i) for any period if the utility owned by the governmental unit establishes to the satisfaction of the Secretary that, based on objective evidence of growth in natural gas consumption or population, such average would otherwise be insufficient for such period.

“(F) ADJUSTMENT FOR NATURAL GAS OTHERWISE ON HAND.—

“(i) IN GENERAL.—The amount otherwise permitted to be acquired under the contract for any period shall be reduced by—

“(I) the applicable share of natural gas held by the utility on the date of issuance of the issue, and

“(II) the natural gas (not taken into account under subclause (I)) which the utility has a right to acquire during such period (determined as of the date of issuance of the issue).

“(ii) APPLICABLE SHARE.—For purposes of the clause (i), the term ‘applicable share’ means, with respect to any period, the natural gas allocable to such period if the gas were allocated ratably over the period to which the prepayment relates.

“(G) INTENTIONAL ACTS.—Subparagraph (A) shall cease to apply to any issue if the utility owned by the governmental unit engages in any intentional act to render the volume of natural gas acquired by such prepayment to be in excess of the sum of—

“(i) the amount of natural gas needed (other than for resale) by customers of such utility who are located within the service area of such utility, and

“(ii) the amount of natural gas used to transport such natural gas to the utility.

“(H) TESTING PERIOD.—For purposes of this paragraph, the term ‘testing period’ means, with respect to an issue, the most recent 5 calendar years ending before the date of issuance of the issue.

“(I) SERVICE AREA.—For purposes of this paragraph, the service area of a utility owned by a governmental unit shall be comprised of—

“(i) any area throughout which such utility provided at all times during the testing period—

“(I) in the case of a natural gas utility, natural gas transmission or distribution services, and

“(II) in the case of an electric utility, electricity distribution services,

“(ii) any area within a county contiguous to the area described in clause (i) in which retail customers of such utility are located if such area is not also served by another utility providing natural gas or electricity services, as the case may be, and

“(iii) any area recognized as the service area of such utility under State or Federal law.”

(b) PRIVATE LOAN FINANCING TEST NOT TO APPLY TO PREPAYMENTS FOR NATURAL GAS.—Paragraph (2) of section 141(c) (providing exceptions to the private loan financing test) is amended by striking “or” at the end of subparagraph (A), by striking the period at the end of subparagraph (B) and inserting “, or”, and by adding at the end the following new subparagraph:

“(C) is a qualified natural gas supply contract (as defined in section 148(b)(4)).”

(c) EXCEPTION FOR QUALIFIED ELECTRIC AND NATURAL GAS SUPPLY CONTRACTS.—Section

141(d) is amended by adding at the end the following new paragraph:

“(7) EXCEPTION FOR QUALIFIED ELECTRIC AND NATURAL GAS SUPPLY CONTRACTS.—The term ‘nongovernmental output property’ shall not include any contract for the prepayment of electricity or natural gas which is not investment property under section 148(b)(2).”.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

Subtitle C—Production

PART I—OIL AND GAS PROVISIONS

SEC. 1341. OIL AND GAS FROM MARGINAL WELLS.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business credits), as amended by this Act, is amended by adding at the end the following:

“SEC. 45J. CREDIT FOR PRODUCING OIL AND GAS FROM MARGINAL WELLS.

“(a) GENERAL RULE.—For purposes of section 38, the marginal well production credit for any taxable year is an amount equal to the product of—

“(1) the credit amount, and
“(2) the qualified credit oil production and the qualified natural gas production which is attributable to the taxpayer.

“(b) CREDIT AMOUNT.—For purposes of this section—

“(1) IN GENERAL.—The credit amount is—

“(A) \$3 per barrel of qualified crude oil production, and

“(B) 50 cents per 1,000 cubic feet of qualified natural gas production.

“(2) REDUCTION AS OIL AND GAS PRICES INCREASE.—

“(A) IN GENERAL.—The \$3 and 50 cents amounts under paragraph (1) shall each be reduced (but not below zero) by an amount which bears the same ratio to such amount (determined without regard to this paragraph) as—

“(i) the excess (if any) of the applicable reference price over \$15 (\$1.67 for qualified natural gas production), bears to

“(ii) \$3 (\$0.33 for qualified natural gas production).

The applicable reference price for a taxable year is the reference price of the calendar year preceding the calendar year in which the taxable year begins.

“(B) INFLATION ADJUSTMENT.—In the case of any taxable year beginning in a calendar year after 2003, each of the dollar amounts contained in subparagraph (A) shall be increased to an amount equal to such dollar amount multiplied by the inflation adjustment factor for such calendar year (determined under section 43(b)(3)(B) by substituting ‘2002’ for ‘1990’).

“(C) REFERENCE PRICE.—For purposes of this paragraph, the term ‘reference price’ means, with respect to any calendar year—

“(i) in the case of qualified crude oil production, the reference price determined under section 45K(d)(2)(C), and

“(ii) in the case of qualified natural gas production, the Secretary’s estimate of the annual average wellhead price per 1,000 cubic feet for all domestic natural gas.

“(c) QUALIFIED CRUDE OIL AND NATURAL GAS PRODUCTION.—For purposes of this section—

“(1) IN GENERAL.—The terms ‘qualified crude oil production’ and ‘qualified natural gas production’ mean domestic crude oil or natural gas which is produced from a qualified marginal well.

“(2) LIMITATION ON AMOUNT OF PRODUCTION WHICH MAY QUALIFY.—

“(A) IN GENERAL.—Crude oil or natural gas produced during any taxable year from any well shall not be treated as qualified crude oil production or qualified natural gas pro-

duction to the extent production from the well during the taxable year exceeds 1,095 barrels or barrel-of-oil equivalents (as defined in section 45K(d)(5)).

“(B) PROPORTIONATE REDUCTIONS.—

“(i) SHORT TAXABLE YEARS.—In the case of a short taxable year, the limitations under this paragraph shall be proportionately reduced to reflect the ratio which the number of days in such taxable year bears to 365.

“(ii) WELLS NOT IN PRODUCTION ENTIRE YEAR.—In the case of a well which is not capable of production during each day of a taxable year, the limitations under this paragraph applicable to the well shall be proportionately reduced to reflect the ratio which the number of days of production bears to the total number of days in the taxable year.

“(3) DEFINITIONS.—

“(A) QUALIFIED MARGINAL WELL.—The term ‘qualified marginal well’ means a domestic well—

“(i) the production from which during the taxable year is treated as marginal production under section 613A(c)(6), or

“(ii) which, during the taxable year—
“(I) has average daily production of not more than 25 barrel-of-oil equivalents (as so defined), and

“(II) produces water at a rate not less than 95 percent of total well effluent.

“(B) CRUDE OIL, ETC.—The terms ‘crude oil’, ‘natural gas’, ‘domestic’, and ‘barrel’ have the meanings given such terms by section 613A(e).

“(d) OTHER RULES.—

“(1) PRODUCTION ATTRIBUTABLE TO THE TAXPAYER.—In the case of a qualified marginal well in which there is more than one owner of operating interests in the well and the crude oil or natural gas production exceeds the limitation under subsection (c)(2), qualifying crude oil production or qualifying natural gas production attributable to the taxpayer shall be determined on the basis of the ratio which taxpayer’s revenue interest in the production bears to the aggregate of the revenue interests of all operating interest owners in the production.

“(2) OPERATING INTEREST REQUIRED.—Any credit under this section may be claimed only on production which is attributable to the holder of an operating interest.

“(3) PRODUCTION FROM NONCONVENTIONAL SOURCES EXCLUDED.—In the case of production from a qualified marginal well which is eligible for the credit allowed under section 45K for the taxable year, no credit shall be allowable under this section unless the taxpayer elects not to claim the credit under section 45K with respect to the well.”.

(b) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b), as amended by this Act, is amended by striking “plus” at the end of paragraph (18), by striking the period at the end of paragraph (19) and inserting “, plus”, and by adding at the end the following:

“(20) the marginal oil and gas well production credit determined under section 45J(a).”.

(c) CARRYBACK.—Subsection (a) of section 39 (relating to carryback and carryforward of unused credits generally) is amended by adding at the end the following:

“(3) 5-YEAR CARRYBACK FOR MARGINAL OIL AND GAS WELL PRODUCTION CREDIT.—Notwithstanding subsection (d), in the case of the marginal oil and gas well production credit—

“(A) this section shall be applied separately from the business credit (other than the marginal oil and gas well production credit),

“(B) paragraph (1) shall be applied by substituting ‘5 taxable years’ for ‘1 taxable years’ in subparagraph (A) thereof, and

“(C) paragraph (2) shall be applied—

“(i) by substituting ‘25 taxable years’ for ‘21 taxable years’ in subparagraph (A) thereof, and

“(ii) by substituting ‘24 taxable years’ for ‘20 taxable years’ in subparagraph (B) thereof.”.

(d) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following:

“Sec. 45J. Credit for producing oil and gas from marginal wells.”.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to production in taxable years beginning after December 31, 2003.

SEC. 1342. TEMPORARY SUSPENSION OF LIMITATION BASED ON 65 PERCENT OF TAXABLE INCOME AND EXTENSION OF SUSPENSION OF TAXABLE INCOME LIMIT WITH RESPECT TO MARGINAL PRODUCTION.

(a) LIMITATION BASED ON 65 PERCENT OF TAXABLE INCOME.—Subsection (d) of section 613A (relating to limitation on percentage depletion in case of oil and gas wells) is amended by adding at the end the following new paragraph:

“(6) TEMPORARY SUSPENSION OF TAXABLE INCOME LIMIT.—Paragraph (1) shall not apply to taxable years beginning after December 31, 2003, and before January 1, 2005, including with respect to amounts carried under the second sentence of paragraph (1) to such taxable years.”.

(b) EXTENSION OF SUSPENSION OF TAXABLE INCOME LIMIT WITH RESPECT TO MARGINAL PRODUCTION.—Subparagraph (H) of section 613A(c)(6) (relating to temporary suspension of taxable income limit with respect to marginal production) is amended by striking “2004” and inserting “2005”.

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 2003.

SEC. 1343. AMORTIZATION OF DELAY RENTAL PAYMENTS.

(a) IN GENERAL.—Section 167 (relating to depreciation) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

“(h) AMORTIZATION OF DELAY RENTAL PAYMENTS FOR DOMESTIC OIL AND GAS WELLS.—

“(1) IN GENERAL.—Any delay rental payment paid or incurred in connection with the development of oil or gas wells within the United States (as defined in section 638) shall be allowed as a deduction ratably over the 24-month period beginning on the date that such payment was paid or incurred.

“(2) HALF-YEAR CONVENTION.—For purposes of paragraph (1), any payment paid or incurred during the taxable year shall be treated as paid or incurred on the mid-point of such taxable year.

“(3) EXCLUSIVE METHOD.—Except as provided in this subsection, no depreciation or amortization deduction shall be allowed with respect to such payments.

“(4) TREATMENT UPON ABANDONMENT.—If any property to which a delay rental payment relates is retired or abandoned during the 24-month period described in paragraph (1), no deduction shall be allowed on account of such retirement or abandonment and the amortization deduction under this subsection shall continue with respect to such payment.

“(5) DELAY RENTAL PAYMENTS.—For purposes of this subsection, the term ‘delay rental payment’ means an amount paid for the privilege of deferring development of an oil or gas well under an oil or gas lease.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred in taxable years beginning after the date of the enactment of this Act.

SEC. 1344. AMORTIZATION OF GEOLOGICAL AND GEOPHYSICAL EXPENDITURES.

(a) IN GENERAL.—Section 167 (relating to depreciation), as amended by this Act, is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

“(i) AMORTIZATION OF GEOLOGICAL AND GEOPHYSICAL EXPENDITURES.—

“(1) IN GENERAL.—Any geological and geophysical expenses paid or incurred in connection with the exploration for, or development of, oil or gas within the United States (as defined in section 638) shall be allowed as a deduction ratably over the 24-month period beginning on the date that such expense was paid or incurred.

“(2) SPECIAL RULES.—For purposes of this subsection, rules similar to the rules of paragraphs (2), (3), and (4) of subsection (h) shall apply.”.

(b) CONFORMING AMENDMENT.—Section 263A(c)(3) is amended by inserting “167(h), 167(i),” after “under section”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred in taxable years beginning after the date of the enactment of this Act.

SEC. 1345. EXTENSION AND MODIFICATION OF CREDIT FOR PRODUCING FUEL FROM A NONCONVENTIONAL SOURCE.

(a) IN GENERAL.—Section 29 (relating to credit for producing fuel from a nonconventional source) is amended by adding at the end the following new subsection:

“(h) EXTENSION FOR OTHER FACILITIES.—Notwithstanding subsection (f)—

“(1) NEW OIL AND GAS WELLS AND FACILITIES.—In the case of a well or facility for producing qualified fuels described in subparagraph (A) or (B) of subsection (c)(1) which was drilled or placed in service after the date of the enactment of this subsection and before January 1, 2007, this section shall apply with respect to such fuels produced at such well or facility and sold during the period—

“(A) beginning on the later of January 1, 2004, or the date that such well is drilled or such facility is placed in service, and

“(B) ending on the earlier of the date which is 4 years after the date such period began or December 31, 2009.

“(2) OLD OIL AND GAS WELLS AND FACILITIES.—In the case of a well or facility producing qualified fuels described in subparagraph (A) or (B)(i) of subsection (c)(1) or a facility producing natural gas and byproducts by coal gasification from lignite, subsection (f)(2) shall be applied by substituting ‘2008’ for ‘2003’ with respect to wells and facilities described in subsection (f)(1) with respect to such fuels.

“(3) EXTENSION FOR FACILITIES PRODUCING QUALIFIED FUEL FROM LANDFILL GAS.—

“(A) IN GENERAL.—In the case of a facility for producing qualified fuel from landfill gas which was placed in service after June 30, 1998, and before January 1, 2007, this section shall apply to fuel produced at such facility and sold during the period—

“(i) beginning on the later of January 1, 2004, or the date that such facility is placed in service, and

“(ii) ending on the earlier of the date which is 4 years after the date such period began or December 31, 2009.

“(B) REDUCTION OF CREDIT FOR CERTAIN LANDFILL FACILITIES.—In the case of a facility to which subparagraph (A) applies and which is located at a landfill which is required pursuant to section 60.751(b)(2) or section 60.33c of title 40, Code of Federal Regulations (as in effect on April 3, 2003) to install and operate a collection and control system which captures gas generated within the landfill, subsection (a)(1) shall be applied

to gas so captured by substituting ‘\$2’ for ‘\$3’ for the taxable year during which such system is required to be installed and operated.

“(4) FACILITIES PRODUCING FUELS FROM AGRICULTURAL AND ANIMAL WASTE.—

“(A) IN GENERAL.—In the case of any facility for producing liquid, gaseous, or solid fuels from qualified agricultural and animal wastes, including such fuels when used as feedstocks, which is placed in service after the date of the enactment of this subsection and before January 1, 2007, this section shall apply with respect to fuel produced at such facility and sold during the period—

“(i) beginning on the later of January 1, 2004, or the date that such facility is placed in service, and

“(ii) ending on the earlier of the date which is 4 years after the date such period began or December 31, 2009.

“(B) QUALIFIED AGRICULTURAL AND ANIMAL WASTE.—For purposes of this paragraph, the term ‘qualified agricultural and animal waste’ means agriculture and animal waste, including by-products, packaging, and any materials associated with the processing, feeding, selling, transporting, or disposal of agricultural or animal products or wastes.

“(5) FACILITIES PRODUCING REFINED COAL.—

“(A) IN GENERAL.—In the case of a facility described in subparagraph (C) for producing refined coal which is placed in service after the date of the enactment of this subsection and before January 1, 2008, this section shall apply with respect to fuel produced at such facility and sold before the close of the 5-year period beginning on the date such facility is placed in service.

“(B) REFINED COAL.—For purposes of this paragraph, the term ‘refined coal’ means a fuel which is a liquid, gaseous, or solid synthetic fuel produced from coal (including lignite) or high carbon fly ash, including such fuel used as a feedstock.

“(C) COVERED FACILITIES.—

“(i) IN GENERAL.—A facility is described in this subparagraph if such facility produces refined coal using a technology which the taxpayer certifies (in such manner as the Secretary may prescribe) results in—

“(I) a qualified emission reduction, and

“(II) a qualified enhanced value.

“(ii) QUALIFIED EMISSION REDUCTION.—For purposes of this subparagraph, the term ‘qualified emission reduction’ means a reduction of at least 20 percent of the emissions of nitrogen oxide and either sulfur dioxide or mercury released when burning the refined coal (excluding any dilution caused by materials combined or added during the production process), as compared to the emissions released when burning the feedstock coal or comparable coal predominantly available in the marketplace as of January 1, 2003.

“(iii) QUALIFIED ENHANCED VALUE.—For purposes of this subparagraph, the term ‘qualified enhanced value’ means an increase of at least 50 percent in the market value of the refined coal (excluding any increase caused by materials combined or added during the production process), as compared to the value of the feedstock coal.

“(iv) ADVANCED CLEAN COAL TECHNOLOGY UNITS EXCLUDED.—A facility described in this subparagraph shall not include any advanced clean coal technology unit (as defined in section 48A(e)).

“(6) COALMINE GAS.—

“(A) IN GENERAL.—This section shall apply to coalmine gas—

“(i) captured or extracted by the taxpayer during the period beginning on the day after the date of the enactment of this subsection and ending on December 31, 2006, and

“(ii) utilized as a fuel source or sold by or on behalf of the taxpayer to an unrelated person during such period.

“(B) COALMINE GAS.—For purposes of this paragraph, the term ‘coalmine gas’ means any methane gas which is—

“(i) liberated during or as a result of coal mining operations, or

“(ii) extracted up to 10 years in advance of coal mining operations as part of a specific plan to mine a coal deposit.

“(C) SPECIAL RULE FOR ADVANCED EXTRACTION.—In the case of coalmine gas which is captured in advance of coal mining operations, the credit under subsection (a) shall be allowed only after the date the coal extraction occurs in the immediate area where the coalmine gas was removed.

“(D) NONCOMPLIANCE WITH POLLUTION LAWS.—This paragraph shall not apply to the capture or extraction of coalmine gas from coal mining operations with respect to any period in which such coal mining operations are not in compliance with applicable Federal pollution prevention, control, and permit requirements.

“(7) COKE AND COKE GAS.—In the case of a facility for producing coke or coke gas which was placed in service before January 1, 1993, or after June 30, 1998, and before January 1, 2007, this section shall apply with respect to coke and coke gas produced in such facility and sold during the during the period—

“(A) beginning on the later of January 1, 2004, or the date that such facility is placed in service, and

“(B) ending on the earlier of the date which is 4 years after the date such period began or December 31, 2009.

“(8) SPECIAL RULES.—In determining the amount of credit allowable under this section solely by reason of this subsection—

“(A) FUELS TREATED AS QUALIFIED FUELS.—Any fuel described in paragraph (3), (4), (5), or (6) shall be treated as a qualified fuel for purposes of this section.

“(B) DAILY LIMIT.—The amount of qualified fuels sold during any taxable year which may be taken into account by reason of this subsection with respect to any property or facility shall not exceed an average barrel-of-oil equivalent of 200,000 cubic feet of natural gas per day. Days before the date the property or facility is placed in service shall not be taken into account in determining such average.

“(C) EXTENSION PERIOD TO COMMENCE WITH UNADJUSTED CREDIT AMOUNT AND NEW PHASE-OUT ADJUSTMENT.—For purposes of applying subsection (b)(2), in the case of fuels sold after 2003—

“(i) paragraphs (1)(A) and (2) of subsection (b) shall be applied by substituting ‘\$35.00’ for ‘\$23.50’, and

“(ii) subparagraph (B) of subsection (d)(2) shall be applied by substituting ‘2002’ for ‘1979’.

“(D) DENIAL OF DOUBLE BENEFIT.—This subsection shall not apply to any facility producing qualified fuels for which a credit was allowed under this section for the taxable year or any preceding taxable year by reason of subsection (g).”.

(b) TREATMENT AS BUSINESS CREDIT.—

(1) CREDIT MOVED TO SUBPART RELATING TO BUSINESS RELATED CREDITS.—The Internal Revenue Code of 1986 is amended by redesignating section 29, as amended by this Act, as section 45K and by moving section 45K (as so redesignated) from subpart B of part IV of subchapter A of chapter 1 to the end of subpart D of part IV of subchapter A of chapter 1.

(2) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b) is amended by striking “plus” at the end of paragraph (19), by striking the period at the end of paragraph (20) and inserting “, plus”, and by adding at the end the following:

“(21) the nonconventional source production credit determined under section 45K(a).”.

(3) CONFORMING AMENDMENTS.—

(A) Section 30(b)(2)(A), as redesignated by section 1317(a), is amended by striking “sections 27 and 29” and inserting “section 27”.

(B) Sections 43(b)(2) and 613A(c)(6)(C) are each amended by striking “section 29(d)(2)(C)” and inserting “section 45K(d)(2)(C)”.

(C) Section 45K(a), as redesignated by paragraph (1), is amended by striking “At the election of the taxpayer, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year” and inserting “For purposes of section 38, if the taxpayer elects to have this section apply, the nonconventional source production credit determined under this section for the taxable year is”.

(D) Section 45K(b), as so redesignated, is amended by striking paragraph (6).

(E) Section 53(d)(1)(B)(iii) is amended by striking “under section 29” and all that follows through “or not allowed”.

(F) Section 55(c)(2) is amended by striking “29(b)(6).”.

(G) Subsection (a) of section 772 is amended by inserting “and” at the end of paragraph (9), by striking paragraph (10), and by redesignating paragraph (11) as paragraph (10).

(H) Paragraph (5) of section 772(d) is amended by striking “the foreign tax credit, and the credit allowable under section 29” and inserting “and the foreign tax credit”.

(I) The table of sections for subpart B of part IV of subchapter A of chapter 1 is amended by striking the item relating to section 29.

(J) The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 45J the following new item:

“Sec. 45K. Credit for producing fuel from a nonconventional source.”.

(C) DETERMINATIONS UNDER NATURAL GAS POLICY ACT OF 1978.—Subparagraph (A) of section 45K(c)(2), as redesignated by subsection (b)(1), is amended—

(1) by inserting “by the Secretary, after consultation with the Federal Energy Regulatory Commission,” after “shall be made”, and

(2) by inserting “(as in effect before the repeal of such section)” after “1978”.

(d) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to fuel produced and sold after December 31, 2003, in taxable years ending after such date.

(2) DETERMINATIONS UNDER NATURAL GAS POLICY ACT OF 1978.—The amendments made by subsection (c) shall apply as if included in the provisions repealing section 503 of the Natural Gas Policy Act of 1978.

PART II—ALTERNATIVE MINIMUM TAX PROVISIONS

SEC. 1346. NEW NONREFUNDABLE PERSONAL CREDITS ALLOWED AGAINST REGULAR AND MINIMUM TAXES.

(a) IN GENERAL.—

(1) SECTION 25C.—Section 25C(b), as added by section 1301 of this Act, is amended by adding at the end the following new paragraph:

“(3) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

“(A) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

“(B) the sum of the credits allowable under this subpart (other than this section and sec-

tion 25D) and section 27 for the taxable year.”.

(2) SECTION 25D.—Section 25D(b), as added by section 1304 of this Act, is amended by adding at the end the following new paragraph:

“(3) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

“(A) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

“(B) the sum of the credits allowable under this subpart (other than this section) and section 27 for the taxable year.”.

(b) CONFORMING AMENDMENTS.—

(1) Section 23(b)(4)(B) is amended by inserting “and sections 25C and 25D” after “this section”.

(2) Section 24(b)(3)(B) is amended by striking “and 25B” and inserting “, 25B, 25C, and 25D”.

(3) Section 25(e)(1)(C) is amended by inserting “25C, and 25D” after “25B”.

(4) Section 25B(g)(2) is amended by striking “section 23” and inserting “sections 23, 25C, and 25D”.

(5) Section 26(a)(1) is amended by striking “and 25B” and inserting “25B, 25C, and 25D”.

(6) Section 904(h) is amended by striking “and 25B” and inserting “25B, 25C, and 25D”.

(7) Section 1400C(d) is amended by striking “and 25B” and inserting “25B, 25C, and 25D”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2003.

SEC. 1347. BUSINESS RELATED ENERGY CREDITS ALLOWED AGAINST REGULAR AND MINIMUM TAX.

(a) IN GENERAL.—Subsection (c) of section 38 (relating to limitation based on amount of tax) is amended by redesignating paragraph (4) as paragraph (5) and by inserting after paragraph (3) the following new paragraph:

“(4) SPECIAL RULES FOR SPECIFIED ENERGY CREDITS.—

“(A) IN GENERAL.—In the case of specified energy credits—

“(i) this section and section 39 shall be applied separately with respect to such credits, and

“(ii) in applying paragraph (1) to such credits—

“(I) the tentative minimum tax shall be treated as being zero, and

“(II) the limitation under paragraph (1) (as modified by subclause (I)) shall be reduced by the credit allowed under subsection (a) for the taxable year (other than the specified energy credits).

“(B) SPECIFIED ENERGY CREDITS.—For purposes of this subsection, the term ‘specified energy credits’ means the credits determined under sections 45G, 45H, 45I, and 45J. For taxable years beginning after December 31, 2003, such term includes the credit determined under section 40. For taxable years beginning after December 31, 2003, and before January 1, 2006, such term includes the credit determined under section 43.

“(C) SPECIAL RULE FOR ELECTRICITY PRODUCED FROM QUALIFIED FACILITIES.—For purposes of this subsection, the term ‘specified energy credits’ shall include the credit determined under section 45 to the extent that such credit is attributable to electricity produced—

“(i) at a facility which is originally placed in service after the date of the enactment of this paragraph, and

“(ii) during the 4-year period beginning on the date that such facility was originally placed in service.”.

(b) CONFORMING AMENDMENTS.—

(1) Paragraph (2)(A)(ii)(II) of section 38(c) is amended by striking “or” and inserting a

comma and by inserting “, and the specified energy credits” after “employee credit”.

(2) Paragraph (3)(A)(ii)(II) of section 38(c) is amended by inserting “and the specified energy credits” after “employee credit”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after the date of the enactment of this Act.

SEC. 1348. TEMPORARY REPEAL OF ALTERNATIVE MINIMUM TAX PREFERENCE FOR INTANGIBLE DRILLING COSTS.

(a) IN GENERAL.—Clause (ii) of section 57(a)(2)(E) is amended by adding at the end the following new sentence: “The preceding sentence shall not apply to taxable years beginning after December 31, 2003, and before January 1, 2006.”.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 2003.

PART III—CLEAN COAL INCENTIVES

SEC. 1351. CREDIT FOR CLEAN COAL TECHNOLOGY UNITS.

(a) IN GENERAL.—Subpart E of part IV of subchapter A of chapter 1 (relating to rules for computing investment credit) is amended by inserting after section 48 the following new section:

“SEC. 48A. CLEAN COAL TECHNOLOGY CREDIT.

“(a) IN GENERAL.—For purposes of section 46, the clean coal technology credit for any taxable year is an amount equal to the applicable percentage of the basis of qualified clean coal property placed in service during such year.

“(b) APPLICABLE PERCENTAGE.—For purposes of this section, the applicable percentage is—

“(1) 15 percent in the case of property placed in service in connection with any basic clean coal technology unit, and

“(2) 17.5 percent in the case of property placed in service in connection with any advanced clean coal technology unit.

“(c) QUALIFIED CLEAN COAL PROPERTY.—For purposes of this section—

“(1) IN GENERAL.—The term ‘qualified clean coal property’ means section 1245 property—

“(A) which is installed in connection with—

“(i) an existing coal-based unit as part of the conversion of such unit to any basic or advanced clean coal technology unit, or

“(ii) any new advanced clean coal technology unit,

“(B) which is placed in service after December 31, 2003, and before—

“(i) in the case of property to which subsection (b)(1) applies, January 1, 2014, and

“(ii) in the case of property to which subsection (b)(2) applies, January 1, 2017 (January 1, 2013, in the case of property installed in connection with an eligible advanced pulverized coal or atmospheric fluidized bed combustion technology unit),

“(C) the original use of which commences with the taxpayer, and

“(D) which has a useful life of not less than 4 years.

“(2) EXISTING COAL-BASED UNIT.—The term ‘existing coal-based unit’ means a coal-based electricity generating steam generator-turbine unit—

“(A) which is not a basic or advanced clean coal technology unit, and

“(B) which is in operation on or before January 1, 2004.

In the case of a unit being converted to a basic clean coal technology unit, such term shall not include a unit having a nameplate capacity rating of more than 300 megawatts.

“(3) NEW ADVANCED CLEAN COAL TECHNOLOGY UNIT.—The term ‘new advanced clean coal technology unit’ means any advanced clean coal technology unit which is placed in

service after December 31, 2003, and the original use of which commences with the taxpayer.

“(d) BASIC CLEAN COAL TECHNOLOGY UNIT.—For purposes of this section—

“(1) IN GENERAL.—The term ‘basic clean coal technology unit’ means a unit which—

“(A) uses clean coal technology (including advanced pulverized coal or atmospheric fluidized bed combustion, pressurized fluidized bed combustion, and integrated gasification combined cycle) for the production of electricity,

“(B) uses an input of at least 75 percent coal to produce at least 50 percent of its thermal output as electricity,

“(C) has a design net heat rate of at least 500 less than that of the existing coal-based unit prior to its conversion,

“(D) has a maximum design net heat rate of not more than 9,500, and

“(E) meets the pollution control requirements of paragraph (2).

Such term shall not include an advanced clean coal technology unit.

“(2) POLLUTION CONTROL REQUIREMENTS.—

“(A) IN GENERAL.—A unit meets the requirements of this paragraph if—

“(i) its emissions of sulfur dioxide, nitrogen oxide, or particulates meet the lower of the emission levels for each such emission specified in—

“(I) subparagraph (B), or

“(II) the new source performance standards of the Clean Air Act (42 U.S.C. 7411) which are in effect for the category of source at the time of the conversion of the unit, and

“(ii) its emissions do not exceed any relevant emission level specified by regulation pursuant to the hazardous air pollutant requirements of the Clean Air Act (42 U.S.C. 7412) in effect at the time of the conversion of the unit.

“(B) SPECIFIC LEVELS.—The levels specified in this subparagraph are—

“(i) in the case of sulfur dioxide emissions, 50 percent of the sulfur dioxide emission levels specified in the new source performance standards of the Clean Air Act (42 U.S.C. 7411) in effect on the date of the enactment of this section for the category of source,

“(ii) in the case of nitrogen oxide emissions—

“(I) 0.1 pound per million Btu of heat input if the unit is not a cyclone-fired boiler, and

“(II) if the unit is a cyclone-fired boiler, 15 percent of the uncontrolled nitrogen oxide emissions from such boilers, and

“(iii) in the case of particulate emissions, 0.02 pound per million Btu of heat input.

“(3) DESIGN NET HEAT RATE.—The design net heat rate with respect to any unit, measured in Btu per kilowatt hour (HHV)—

“(A) shall be based on the design annual heat input to and the design annual net electrical power, fuels, and chemicals output from such unit (determined without regard to such unit’s co-generation of steam),

“(B) shall be adjusted for the heat content of the design coal to be used by the unit if it is less than 12,000 Btu per pound according to the following formula:

“(C) shall be corrected for the site reference conditions of—

“(i) elevation above sea level of 500 feet,

“(ii) air pressure of 14.4 pounds per square inch absolute (psia),

“(iii) temperature, dry bulb of 63°F,

“(iv) temperature, wet bulb of 54°F, and

“(v) relative humidity of 55 percent, and

“(D) if carbon capture controls have been installed with respect to any existing coal-based unit and such controls remove at least 50 percent of the unit’s carbon dioxide emissions, shall be adjusted up to the design heat rate level which would have resulted without the installation of such controls.

“(4) HHV.—The term ‘HHV’ means higher heating value.

“(e) ADVANCED CLEAN COAL TECHNOLOGY UNIT.—For purposes of this section—

“(1) IN GENERAL.—The term ‘advanced clean coal technology unit’ means any electricity generating unit of the taxpayer—

“(A) which is—

“(i) an eligible advanced pulverized coal or atmospheric fluidized bed combustion technology unit,

“(ii) an eligible pressurized fluidized bed combustion technology unit,

“(iii) an eligible integrated gasification combined cycle technology unit, or

“(iv) an eligible other technology unit,

“(B) which uses an input of at least 75 percent coal to produce at least 50 percent of its thermal output as electricity, and

“(C) which meets the carbon emission rate requirements of paragraph (6).

“(2) ELIGIBLE ADVANCED PULVERIZED COAL OR ATMOSPHERIC FLUIDIZED BED COMBUSTION TECHNOLOGY UNIT.—The term ‘eligible advanced pulverized coal or atmospheric fluidized bed combustion technology unit’ means a clean coal technology unit using advanced pulverized coal or atmospheric fluidized bed combustion technology which has a design net heat rate of not more than 8,500 (8,900 in the case of units placed in service before 2009).

“(3) ELIGIBLE PRESSURIZED FLUIDIZED BED COMBUSTION TECHNOLOGY UNIT.—The term ‘eligible pressurized fluidized bed combustion technology unit’ means a clean coal technology unit using pressurized fluidized bed combustion technology which has a design net heat rate of not more than 7,720 (8,900 in the case of units placed in service before 2009, and 8,500 in the case of units placed in service after 2008 and before 2013).

“(4) ELIGIBLE INTEGRATED GASIFICATION COMBINED CYCLE TECHNOLOGY UNIT.—The term ‘eligible integrated gasification combined cycle technology unit’ means a clean coal technology unit using integrated gasification combined cycle technology, with or without fuel or chemical co-production—

“(A) which has a design net heat rate of not more than 7,720 (8,900 in the case of units placed in service before 2009, and 8,500 in the case of units placed in service after 2008 and before 2013), and

“(B) has a net thermal efficiency (HHV) using coal with fuel or chemical co-production of not less than 44.2 percent (38.4 percent in the case of units placed in service before 2009, and 40.2 percent in the case of units placed in service after 2008 and before 2013).

“(5) ELIGIBLE OTHER TECHNOLOGY UNIT.—The term ‘eligible other technology unit’ means a clean coal technology unit—

“(A) which uses any other technology for the production of electricity, and

“(B) which has a design net heat rate which meets the requirement of paragraph (2).

“(6) CARBON EMISSION RATE REQUIREMENTS.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), a unit meets the requirements of this paragraph if—

“(i) in the case of a unit using design coal with a heat content of not more than 9,000 Btu per pound, the carbon emission rate is less than 0.60 pound of carbon per kilowatt hour, and

“(ii) in the case of a unit using design coal with a heat content of more than 9,000 Btu per pound, the carbon emission rate is less than 0.54 pound of carbon per kilowatt hour.

“(B) ELIGIBLE OTHER TECHNOLOGY UNIT.—In the case of an eligible other technology unit, subparagraph (A) shall be applied by substituting ‘0.51’ and ‘0.459’ for ‘0.60’ and ‘0.54’, respectively.

“(f) NATIONAL LIMITATIONS ON CREDIT.—For purposes of this section—

“(1) IN GENERAL.—The amount of credit which would (but for this subsection) be allowed with respect to any property shall not exceed the amount which bears the same ratio to such amount of credit as—

“(A) the national megawatt capacity limitation allocated to the taxpayer with respect to the basic or advanced clean coal technology unit to which such property relates, bears to

“(B) the total megawatt capacity of such unit.

The capacity described in subparagraph (B) shall be the reasonably expected capacity after the installation of the property.

“(2) AMOUNT OF NATIONAL LIMITATION.—

“(A) ADVANCED UNITS.—The national megawatt capacity limitation for advanced clean coal technology units shall be 6,000 megawatts. Of such amount, the national megawatt capacity limitation is—

“(i) for advanced clean coal technology units using advanced pulverized coal or atmospheric fluidized bed combustion technology, not more than 1,500 megawatts (not more than 750 megawatts in the case of units placed in service before 2009),

“(ii) for such units using pressurized fluidized bed combustion technology, not more than 750 megawatts (not more than 375 megawatts in the case of units placed in service before 2009),

“(iii) for such units using integrated gasification combined cycle technology, with or without fuel or chemical co-production, not more than 3,000 megawatts (not more than 1,250 megawatts in the case of units placed in service before 2009), and

“(iv) for such units using other technology for the production of electricity, not more than 750 megawatts (not more than 375 megawatts in the case of units placed in service before 2009).

“(B) BASIC UNITS.—The national megawatt capacity limitation for basic clean coal technology units shall be 4,000 megawatts.

“(3) ALLOCATION OF LIMITATION.—The Secretary shall allocate the national megawatt capacity limitations in such manner as the Secretary may prescribe, except that the Secretary may not allocate more than 300 megawatts to any basic clean coal technology unit.

“(4) REGULATIONS.—Not later than 6 months after the date of the enactment of this section, the Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this subsection. Such regulations shall provide a certification process under which the Secretary, after consultation with the Secretary of Energy, shall approve and allocate the national megawatt capacity limitations—

“(A) to encourage that units with the highest thermal efficiencies, when adjusted for the heat content of the design coal and site reference conditions, and environmental performance, be placed in service as soon as possible, and

“(B) to allocate capacity to taxpayers which have a definite and credible plan for placing into commercial operation a basic or advanced clean coal technology unit, including—

“(i) a site,

“(ii) contractual commitments for procurement and construction or, in the case of regulated utilities, the agreement of the State utility commission,

“(iii) filings for all necessary preconstruction approvals,

“(iv) a demonstrated record of having successfully completed comparable projects on a timely basis, and

“(v) such other factors which the Secretary determines are appropriate.

“(g) SPECIAL RULES.—For purposes of this section—

“(1) CERTAIN PROGRESS EXPENDITURE RULES MADE APPLICABLE.—Rules similar to the rules of subsections (c)(4) and (d) of section 46 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990) shall apply for purposes of this section.

“(2) PROPERTY FINANCED BY SUBSIDIZED FINANCING OR INDUSTRIAL DEVELOPMENT BONDS.—Rules similar to the rules of section 45(b)(3) shall apply for purposes of this section.

“(3) NONCOMPLIANCE WITH POLLUTION LAWS.—The terms ‘basic clean coal technology unit’ and ‘advanced clean coal technology unit’ shall not include any unit which is not in compliance with the applicable Federal pollution prevention, control, and permit requirements at any time during the period applicable under subsection (c)(1)(B).

“(4) DENIAL OF CREDIT FOR UNITS RECEIVING CERTAIN OTHER FEDERAL ASSISTANCE.—The terms ‘basic clean coal technology unit’ and ‘advanced clean coal technology unit’ shall not include any unit if, at any time during the period applicable under subsection (c)(1)(B), any funding is provided to such unit under the Clean Coal Technology Program, the Power Plant Improvement Initiative, or the Clean Coal Power Initiative administered by the Secretary of Energy.

“(5) COORDINATION WITH OTHER CREDITS.—This section shall not apply to any property with respect to which the rehabilitation credit under section 47, the energy credit under section 48, or any credit under section 45 or 45K is allowable unless the taxpayer elects to waive the application of such credit to such property.”

(b) SPECIAL RECAPTURE RULES.—

(1) Subsection (a) of section 50 is amended by redesignating paragraph (3), (4), and (5) as paragraphs (4), (5), and (6), respectively, and by inserting after paragraph (2) the following new paragraph:

“(3) SPECIAL RULES FOR CLEAN COAL TECHNOLOGY CREDITS.—

“(A) EARLY DISPOSITION, ETC.—If, during any taxable year, qualified clean coal property is disposed of, or otherwise ceases to be part of a basic or advanced clean coal technology unit with respect to the taxpayer, before the close of the recovery period under section 168 for such unit, then the tax under this chapter for such taxable year shall be increased by—

“(i) the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted solely from reducing to zero any credit determined under section 48A with respect to such property, multiplied by

“(ii) a fraction—

“(I) the numerator of which is the number of years in the period beginning with the year of such disposition or cessation and ending with the last year of such recovery period, and

“(II) the denominator of which is the total number of years in such recovery period.

“(B) PROPERTY CEASES TO QUALIFY FOR PROGRESS EXPENDITURES.—Rules similar to the rules of this paragraph shall apply in cases where qualified progress expenditures were taken into account under the rules referred to in section 48A(g)(1).

“(C) INCREASED RECAPTURE IN CERTAIN CASES.—The fraction in subparagraph (A)(ii) shall be 1 in any case in which the property ceases to be a basic or advanced clean coal technology unit by reason of paragraph (3), (4), or (5) of section 48A(g).

“(D) COORDINATION WITH OTHER RECAPTURE RULES.—Paragraphs (1) and (2) shall not apply to qualified clean coal property.

“(E) DEFINITIONS.—Terms used in this section which are also used in section 48A shall have the meanings given to such terms in section 48A.”

(2) Paragraph (4) of section 50(a), as redesignated by paragraph (1), is amended by striking “or (2)” and inserting “, (2), or (3)”.

(3) Paragraph (5) of section 50(a), as so redesignated, is amended by striking “and (2)” and inserting “, (2), and (3)”.

(4) Section 1371(d)(1) is amended by striking “section 50(a)(4)” and inserting “section 50(a)(5)”.

(c) TECHNICAL AMENDMENTS.—

(1) Section 46 (relating to amount of credit) is amended by striking “and” at the end of paragraph (2), by striking the period at the end of paragraph (3) and inserting “, and”, and by adding at the end the following new paragraph:

“(4) the clean coal technology credit.”

(2) Section 49(a)(1)(C) is amended by striking “and” at the end of clause (ii), by striking the period at the end of clause (iii) and inserting “, and”, and by adding at the end the following new clause:

“(iv) the portion of the basis of any qualified clean coal property (as defined by section 48A(c)).”

(3) The table of sections for subpart E of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 48 the following new item:

“Sec. 48A. Clean coal technology credit.”

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to periods after December 31, 2003, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1352. EXPANSION OF AMORTIZATION FOR CERTAIN POLLUTION CONTROL FACILITIES.

(a) ELIGIBILITY OF POST-1975 POLLUTION CONTROL FACILITIES.—

(1) IN GENERAL.—Paragraph (1) of section 169(d) is amended by striking “before January 1, 1976,” and by striking “a new identifiable” and inserting “an identifiable”.

(2) IDENTIFIABLE TREATMENT FACILITY.—Paragraph (4) of section 169(d) is amended to read as follows:

“(4) IDENTIFIABLE TREATMENT FACILITY.—For purposes of paragraph (1), the term ‘identifiable treatment facility’ includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in section 167, which is identifiable as a treatment facility, and which is property—

“(A) the construction, reconstruction, or erection of which is completed by the taxpayer, or

“(B) the original use of the property commences with the taxpayer.”

(3) TECHNICAL AMENDMENT.—Section 169(d)(3) is amended by striking “Health, Education, and Welfare” and inserting “Health and Human Services”.

(b) COORDINATION WITH SECTION 48A INVESTMENT CREDIT.—Section 169 is amended by redesignating subsections (e) through (j) as subsections (f) through (k), respectively, and by inserting after subsection (d) the following new subsection:

“(e) COORDINATION WITH SECTION 48A INVESTMENT CREDIT.—

“(1) IN GENERAL.—In the case of any treatment facility used in connection with a plant or other property to which an amount is allocated under section 48A(f), this section shall apply only if such plant or other property was in operation before January 1, 1976.

“(2) 36-MONTH AMORTIZATION WITH RESPECT TO PRE-1976 PLANTS NOT ALLOCATED CREDIT.—References in this section to 60 months shall be treated as references to 36 months in the case of treatment facilities used in connection with a plant or other property in operation before January 1, 1976, if no allocation is made under section 48A(f) with respect to such plant or property.”

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to facilities placed in service after the date of the enactment of this Act.

SEC. 1353. 5-YEAR RECOVERY PERIOD FOR ELIGIBLE INTEGRATED GASIFICATION COMBINED CYCLE TECHNOLOGY UNIT ELIGIBLE FOR CREDIT.

(a) IN GENERAL.—Subparagraph (B) of section 168(e)(3) (defining 5-year property) is amended by striking “and” at the end of clause (v), by striking the period at the end of clause (vi) and inserting “, and”, and by inserting after clause (vi) the following new clause:

“(vii) any section 1245 property which is part of an eligible integrated gasification combined cycle technology unit (as defined in section 48A(e)(4)) for which an allocation is made under section 48A(f).”

(b) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) (relating to special rule for certain property assigned to classes) is amended by inserting after the item relating to subparagraph (B)(iii) the following new item:

“(B) (vii) 20”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act in taxable years ending after such date.

PART IV—HIGH VOLUME NATURAL GAS PROVISIONS

SEC. 1355. HIGH VOLUME NATURAL GAS PIPE TREATED AS 7-YEAR PROPERTY.

(a) IN GENERAL.—Section 168(e)(3)(C) (defining 7-year property), as amended by this Act, is amended by striking “and” at the end of clause (ii), by redesignating clause (iii) as clause (iv), and by inserting after clause (ii) the following new clause:

“(iii) any high volume natural gas pipe the original use of which commences with the taxpayer after the date of the enactment of this clause, and”.

(b) HIGH VOLUME NATURAL GAS PIPE.—Section 168(i) (relating to definitions and special rules), as amended by this Act, is amended by adding at the end the following new paragraph:

“(17) HIGH VOLUME NATURAL GAS PIPE.—The term ‘high volume natural gas pipe’ means—

“(A) pipe which has an interior diameter of at least 42 inches and which is part of a natural gas pipeline system, and

“(B) any related equipment and appurtenances used in connection with such pipe.”

(c) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) (relating to special rule for certain property assigned to classes), as amended by this Act, is amended by inserting after the item relating to subparagraph (C)(ii) the following new item:

“(C) (iii) 22”.

(d) ALTERNATIVE MINIMUM TAX EXCEPTION.—Subparagraph (B) of section 56(a)(1), as amended by this Act, is amended by inserting before the period the following: “, or in section 168(e)(3)(C)(iii)”.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service on or after the date of the enactment of this Act.

SEC. 1356. EXTENSION OF ENHANCED OIL RECOVERY CREDIT TO HIGH VOLUME NATURAL GAS FACILITIES.

(a) IN GENERAL.—Section 43(c)(1) (defining qualified enhanced oil recovery costs) is amended by adding at the end the following new subparagraph:

“(D) Any amount which is paid or incurred during the taxable year in connection with the construction of a gas treatment plant which—

“(i) prepares natural gas for transportation through a pipeline with a capacity of at least 1,000,000,000 Btu of natural gas per day, and

“(ii) produces carbon dioxide which is injected into hydrocarbon-bearing geological formations.”.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to costs paid or incurred in taxable years beginning after December 31, 2003.

Subtitle D—Additional Provisions

SEC. 1361. EXTENSION OF ACCELERATED DEPRECIATION BENEFIT FOR ENERGY-RELATED BUSINESSES ON INDIAN RESERVATIONS.

Paragraph (8) of section 168(j) (relating to termination) is amended by adding at the end the following new sentence: “The preceding sentence shall be applied by substituting “December 31, 2005” for “December 31, 2004” in the case of property placed in service as part of a facility for—

“(A) the generation or transmission of electricity (including from any qualified energy resource, as defined in section 45(c)),

“(B) an oil or gas well,

“(C) the transmission or refining of oil or gas, or

“(D) the production of any qualified fuel (as defined in section 45K(c)).”.

SEC. 1362. PAYMENT OF DIVIDENDS ON STOCK OF COOPERATIVES WITHOUT REDUCING PATRONAGE DIVIDENDS.

(a) IN GENERAL.—Subsection (a) of section 1388 (relating to patronage dividend defined) is amended by adding at the end the following: “For purposes of paragraph (3), net earnings shall not be reduced by amounts paid during the year as dividends on capital stock or other proprietary capital interests of the organization to the extent that the articles of incorporation or bylaws of such organization or other contract with patrons

provide that such dividends are in addition to amounts otherwise payable to patrons which are derived from business done with or for patrons during the taxable year.”.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to distributions in taxable years ending after the date of the enactment of this Act.

SEC. 1363. DISTRIBUTIONS FROM PUBLICLY TRADED PARTNERSHIPS TREATED AS QUALIFYING INCOME OF REGULATED INVESTMENT COMPANIES.

(a) IN GENERAL.—Paragraph (2) of section 851(b) (defining regulated investment company) is amended to read as follows:

“(2) at least 90 percent of its gross income is derived from—

“(A) dividends, interest, payments with respect to securities loans (as defined in section 512(a)(5)), and gains from the sale or other disposition of stock or securities (as defined in section 2(a)(36) of the Investment Company Act of 1940, as amended) or foreign currencies, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities, or currencies, and

“(B) distributions or other income derived from an interest in a qualified publicly traded partnership (as defined in subsection (h)); and”.

(b) SOURCE FLOW-THROUGH RULE NOT TO APPLY.—The last sentence of section 851(b) is amended by inserting “(other than a qualified publicly traded partnership as defined in subsection (h))” after “derived from a partnership”.

(c) LIMITATION ON OWNERSHIP.—Subsection (c) of section 851 is amended by redesignating paragraph (5) as paragraph (6) and inserting after paragraph (4) the following new paragraph:

“(5) The term ‘outstanding voting securities of such issuer’ shall include the equity securities of a qualified publicly traded partnership (as defined in subsection (h)).”.

(d) DEFINITION OF QUALIFIED PUBLICLY TRADED PARTNERSHIP.—Section 851 is amended by adding at the end the following new subsection:

“(h) QUALIFIED PUBLICLY TRADED PARTNERSHIP.—For purposes of this section, the term ‘qualified publicly traded partnership’ means a publicly traded partnership described in

section 7704(b) other than a partnership which would satisfy the gross income requirements of section 7704(c)(2) if qualifying income included only income described in subsection (b)(2)(A).”.

(e) DEFINITION OF QUALIFYING INCOME.—Section 7704(d)(4) is amended by striking “section 851(b)(2)” and inserting “section 851(b)(2)(A)”.

(f) LIMITATION ON COMPOSITION OF ASSETS.—Subparagraph (B) of section 851(b)(3) is amended to read as follows:

“(B) not more than 25 percent of the value of its total assets is invested in—

“(i) the securities (other than Government securities or the securities of other regulated investment companies) of any one issuer,

“(ii) the securities (other than the securities of other regulated investment companies) of two or more issuers which the taxpayer controls and which are determined, under regulations prescribed by the Secretary, to be engaged in the same or similar trades or businesses or related trades or businesses, or

“(iii) the securities of one or more qualified publicly traded partnerships (as defined in subsection (h)).”.

(g) APPLICATION OF SPECIAL PASSIVE ACTIVITY RULE TO REGULATED INVESTMENT COMPANIES.—Subsection (k) of section 469 (relating to separate application of section in case of publicly traded partnerships) is amended by adding at the end the following new paragraph:

“(4) APPLICATION TO REGULATED INVESTMENT COMPANIES.—For purposes of this section, a regulated investment company (as defined in section 851) holding an interest in a qualified publicly traded partnership (as defined in section 851(h)) shall be treated as a taxpayer described in subsection (a)(2) with respect to items attributable to such interest.”.

(h) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

SEC. 1364. CEILING FANS.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

9902.84.14	Ceiling fans for permanent installation (provided for in subheading 8414.51.00)	Free	No change	No change	On or before 12/31/2005	”.
------------	---	------	-----------	-----------	-------------------------	----

(b) EFFECTIVE DATE.—The amendment made by this section applies to goods entered, or withdrawn from warehouse, for consumption on or after the 15th day after the date of enactment of this Act.

SEC. 1365. CERTAIN STEAM GENERATORS, AND CERTAIN REACTOR VESSEL HEADS, USED IN NUCLEAR FACILITIES.

(a) CERTAIN STEAM GENERATORS.—Heading 9902.84.02 of the Harmonized Tariff Schedule of the United States is amended by striking “12/31/2006” and inserting “12/31/2008”.

(b) CERTAIN REACTOR VESSEL HEADS.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

9902.84.03	Reactor vessel heads for nuclear reactors (provided for in subheading 8401.40.00)	Free	No change	No change	On or before 12/31/2007	”.
------------	---	------	-----------	-----------	-------------------------	----

(c) EFFECTIVE DATE.—(1) SUBSECTION (a).—The amendment made by subsection (a) shall take effect on the date of the enactment of this Act.

(2) SUBSECTION (b).—The amendment made by subsection (b) shall apply to goods entered, or withdrawn from warehouse, for consumption on or after the 15th day after the date of the enactment of this Act.

SEC. 1366. BROWNFIELDS DEMONSTRATION PROGRAM FOR QUALIFIED GREEN BUILDING AND SUSTAINABLE DESIGN PROJECTS.

(a) TREATMENT AS EXEMPT FACILITY BOND.—Subsection (a) of section 142 (relating to the definition of exempt facility bond) is amended by striking “or” at the end of paragraph (12), by striking the period at the end of paragraph (13) and inserting “, or”, and by

inserting at the end the following new paragraph:

“(14) qualified green building and sustainable design projects.”.

(b) QUALIFIED GREEN BUILDING AND SUSTAINABLE DESIGN PROJECTS.—Section 142 (relating to exempt facility bonds) is amended by adding at the end thereof the following new subsection:

“(1) QUALIFIED GREEN BUILDING AND SUSTAINABLE DESIGN PROJECTS.—

“(1) IN GENERAL.—For purposes of subsection (a)(14), the term ‘qualified green building and sustainable design project’ means any project which is designated by the Secretary, after consultation with the Administrator of the Environmental Protection Agency, as a qualified green building and sustainable design project and which

meets the requirements of clauses (i), (ii), (iii), and (iv) of paragraph (4)(A).

“(2) DESIGNATIONS.—

“(A) IN GENERAL.—Within 60 days after the end of the application period described in paragraph (3)(A), the Secretary, after consultation with the Administrator of the Environmental Protection Agency, shall designate qualified green building and sustainable design projects. At least one of the projects designated shall be located in, or within a 10-mile radius of, an empowerment zone as designated pursuant to section 1391, and at least one of the projects designated shall be located in a rural State. No more than one project shall be designated in a State. A project shall not be designated if

such project includes a stadium or arena for professional sports exhibitions or games.

“(B) MINIMUM CONSERVATION AND TECHNOLOGY INNOVATION OBJECTIVES.—The Secretary, after consultation with the Administrator of the Environmental Protection Agency, shall ensure that, in the aggregate, the projects designated shall—

“(i) reduce electric consumption by more than 150 megawatts annually as compared to conventional construction,

“(ii) reduce daily sulfur dioxide emissions by at least 10 tons compared to coal generation power,

“(iii) expand by 75 percent the domestic solar photovoltaic market in the United States (measured in megawatts) as compared to the expansion of that market from 2001 to 2002, and

“(iv) use at least 25 megawatts of fuel cell energy generation.

“(3) LIMITED DESIGNATIONS.—A project may not be designated under this subsection unless—

“(A) the project is nominated by a State or local government within 180 days of the enactment of this subsection, and

“(B) such State or local government provides written assurances that the project will satisfy the eligibility criteria described in paragraph (4).

“(4) APPLICATION.—

“(A) IN GENERAL.—A project may not be designated under this subsection unless the application for such designation includes a project proposal which describes the energy efficiency, renewable energy, and sustainable design features of the project and demonstrates that the project satisfies the following eligibility criteria:

“(i) GREEN BUILDING AND SUSTAINABLE DESIGN.—At least 75 percent of the square footage of commercial buildings which are part of the project is registered for United States Green Building Council’s LEED certification and is reasonably expected (at the time of the designation) to receive such certification.

“(ii) BROWNFIELD REDEVELOPMENT.—The project includes a brownfield site as defined by section 101(39) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601), including a site described in subparagraph (D)(ii)(II)(aa) thereof.

“(iii) STATE AND LOCAL SUPPORT.—The project receives specific State or local government resources which will support the project in an amount equal to at least \$5,000,000. For purposes of the preceding sentence, the term ‘resources’ includes tax abatement benefits and contributions in kind.

“(iv) SIZE.—The project includes at least one of the following:

“(I) At least 1,000,000 square feet of building.

“(II) At least 20 acres.

“(v) USE OF TAX BENEFIT.—The project proposal includes a description of the net benefit of the tax-exempt financing provided under this subsection which will be allocated for financing of one or more of the following:

“(I) The purchase, construction, integration, or other use of energy efficiency, renewable energy, and sustainable design features of the project.

“(II) Compliance with LEED certification standards.

“(III) The purchase, remediation, and foundation construction and preparation of the brownfields site.

“(vi) EMPLOYMENT.—The project is projected to provide permanent employment of at least 1,500 full time equivalents (150 full time equivalents in rural States) when completed and construction employment of at

least 1,000 full time equivalents (100 full time equivalents in rural States).

The application shall include an independent analysis which describes the project’s economic impact, including the amount of projected employment.

“(B) PROJECT DESCRIPTION.—Each application described in subparagraph (A) shall contain for each project a description of—

“(i) the amount of electric consumption reduced as compared to conventional construction,

“(ii) the amount of sulfur dioxide daily emissions reduced compared to coal generation,

“(iii) the amount of the gross installed capacity of the project’s solar photovoltaic capacity measured in megawatts, and

“(iv) the amount, in megawatts, of the project’s fuel cell energy generation.

“(5) CERTIFICATION OF USE OF TAX BENEFIT.—No later than 30 days after the completion of the project, each project must certify to the Secretary that the net benefit of the tax-exempt financing was used for the purposes described in paragraph (4).

“(6) DEFINITIONS.—For purposes of this subsection—

“(A) RURAL STATE.—The term ‘rural State’ means any State which has—

“(i) a population of less than 4,500,000 according to the 2000 census,

“(ii) a population density of less than 150 people per square mile according to the 2000 census, and

“(iii) increased in population by less than half the rate of the national increase between the 1990 and 2000 censuses.

“(B) LOCAL GOVERNMENT.—The term ‘local government’ has the meaning given such term by section 1393(a)(5).

“(C) NET BENEFIT OF TAX-EXEMPT FINANCING.—The term ‘net benefit of tax-exempt financing’ means the present value of the interest savings (determined by a calculation established by the Secretary) which result from the tax-exempt status of the bonds.

“(7) AGGREGATE FACE AMOUNT OF TAX-EXEMPT FINANCING.—

“(A) IN GENERAL.—An issue shall not be treated as an issue described in subsection (a)(14) if the aggregate face amount of bonds issued by the State or local government pursuant thereto for a project (when added to the aggregate face amount of bonds previously so issued for such project) exceeds an amount designated by the Secretary as part of the designation.

“(B) LIMITATION ON AMOUNT OF BONDS.—The Secretary may not allocate authority to issue qualified green building and sustainable design project bonds in an aggregate face amount exceeding \$2,000,000,000.

“(8) TERMINATION.—Subsection (a)(14) shall not apply with respect to any bond issued after September 30, 2009.

“(9) TREATMENT OF CURRENT REFUNDING BONDS.—Paragraphs (7)(B) and (8) shall not apply to any bond (or series of bonds) issued to refund a bond issued under subsection (a)(14) before October 1, 2009, if—

“(A) the average maturity date of the issue of which the refunding bond is a part is not later than the average maturity date of the bonds to be refunded by such issue,

“(B) the amount of the refunding bond does not exceed the outstanding amount of the refunded bond, and

“(C) the net proceeds of the refunding bond are used to redeem the refunded bond not later than 90 days after the date of the issuance of the refunding bond.

For purposes of subparagraph (A), average maturity shall be determined in accordance with section 147(b)(2)(A).”

(c) EXEMPTION FROM GENERAL STATE VOLUME CAPS.—Paragraph (3) of section 146(g)

(relating to exception for certain bonds) is amended—

(1) by striking “or (13)” and inserting “(13), or (14)”, and

(2) by striking “and qualified public educational facilities” and inserting “qualified public educational facilities, and qualified green building and sustainable design projects”.

(d) SPECIAL RULE FOR ASSETS FINANCED UNDER THIS SECTION AND ACCOUNTABILITY.—

(1) DENIAL OF DOUBLE BENEFIT.—Any asset financed with bonds issued pursuant to this section shall be ineligible for any credit or deduction established under the Energy Tax Policy Act of 2004.

(2) ACCOUNTABILITY.—Each issuer shall maintain, on behalf of each project, an interest bearing reserve account equal to 1 percent of the net proceeds of any bond issued under this section for such project. Not later than 5 years after the date of issuance, the Secretary of the Treasury, after consultation with the Administrator of the Environmental Protection Agency, shall determine whether the project financed with such bonds has substantially complied with the terms and conditions described in section 142(l)(4) of the Internal Revenue Code of 1986 (as added by this section). If the Secretary, after such consultation, certifies that the project has substantially complied with such terms and conditions and meets the commitments set forth in the application for such project described in section 142(l)(4) of such Code, amounts in the reserve account, including all interest, shall be released to the project. If the Secretary determines that the project has not substantially complied with such terms and conditions, amounts in the reserve account, including all interest, shall be paid to the United States Treasury.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to bonds issues after the date of the enactment of this Act.

TITLE XIV—MISCELLANEOUS

Subtitle A—Rural and Remote Electricity Construction

SEC. 1401. DENALI COMMISSION PROGRAMS.

(a) POWER COST EQUALIZATION PROGRAM.—There are authorized to be appropriated to the Denali Commission established by the Denali Commission Act of 1998 (42 U.S.C. 3121 note) not more than \$5,000,000 for each of fiscal years 2005 through 2011 for the purposes of funding the power cost equalization program established under section 42.45.100 of the Alaska Statutes.

(b) AVAILABILITY OF FUNDS.—

(1) PURPOSE.—Amounts described in paragraph (2) shall be available to the Denali Commission to permit energy generation and development (including fuel cells, hydroelectric, solar, wind, wave, and tidal energy, and alternative energy sources), energy transmission (including interties), fuel tank replacement and clean-up, fuel transportation networks and related facilities, power cost equalization programs, and other energy programs, notwithstanding any other provision of law.

(2) AMOUNTS.—(A) Except as provided in subparagraph (B), the amounts referred to in paragraph (1) shall be any Federal royalties, rents, and bonuses derived from the Federal share of Federal oil and gas leases in the National Petroleum Reserve in Alaska, up to a maximum of \$50,000,000, for each of the fiscal years 2004 through 2013.

(B) If amounts available under subparagraph (A) for one of the fiscal years 2004 through 2013 are less than \$50,000,000, the Secretary of Energy shall make available an amount sufficient to ensure that the amount

available under this subsection for that fiscal year equals \$50,000,000, from amounts remaining after deposits are made under section 949(a)(1), from the same source from which those deposits are made.

SEC. 1402. RURAL AND REMOTE COMMUNITY ASSISTANCE.

(a) PROGRAM.—Section 19 of the Rural Electrification Act of 1936 (7 U.S.C. 918a) is amended by striking all that precedes subsection (b) and inserting the following:

“SEC. 19. ELECTRIC GENERATION, TRANSMISSION, AND DISTRIBUTION FACILITIES EFFICIENCY GRANTS AND LOANS TO RURAL AND REMOTE COMMUNITIES WITH EXTREMELY HIGH ELECTRICITY COSTS.

“(a) IN GENERAL.—The Secretary, acting through the Rural Utilities Service, may—

“(1) in coordination with State rural development initiatives, make grants and loans to persons, States, political subdivisions of States, and other entities organized under the laws of States, to acquire, construct, extend, upgrade, and otherwise improve electric generation, transmission, and distribution facilities serving communities in which the average revenue per kilowatt hour of electricity for all consumers is greater than 150 percent of the average revenue per kilowatt hour of electricity for all consumers in the United States (as determined by the Energy Information Administration using the most recent data available);

“(2) make grants and loans to the Denali Commission established by the Denali Commission Act of 1998 (42 U.S.C. 3121 note; Public Law 105-277) to be used for the purpose of providing funds to acquire, construct, extend, upgrade, finance, and otherwise improve electric generation, transmission, and distribution facilities serving communities described in paragraph (1); and

“(3) make grants to State entities to establish and support a revolving fund to provide a more cost-effective means of purchasing fuel in areas where the fuel cannot be shipped by means of surface transportation.”.

(b) DEFINITION OF PERSON.—Section 13 of the Rural Electrification Act of 1936 (7 U.S.C. 913) is amended by striking “or association” and inserting “association, or Indian tribe (as defined in section 4 of the Indian Self-Determination and Education Assistance Act)”.

Subtitle B—Coastal Programs

SEC. 1411. ROYALTY PAYMENTS UNDER LEASES UNDER THE OUTER CONTINENTAL SHELF LANDS ACT.

(a) ROYALTY RELIEF.—

(1) IN GENERAL.—For purposes of providing compensation for lessees and a State for which amounts are authorized by section 6004(c) of the Oil Pollution Act of 1990 (Public Law 101-380), a lessee may withhold from payment any royalty due and owing to the United States under any leases under the Outer Continental Shelf Lands Act (43 U.S.C. 1301 et seq.) for offshore oil or gas production from a covered lease tract if, on or before the date that the payment is due and payable to the United States, the lessee makes a payment to the Secretary of the Interior of 44 cents for every \$1 of royalty withheld.

(2) USE OF AMOUNTS PAID TO SECRETARY.—Within 30 days after the Secretary of the Interior receives payments under paragraph (1), the Secretary of the Interior shall—

(A) make 47.5 percent of such payments available to the State referred to in section 6004(c) of the Oil Pollution Act of 1990; and

(B) make 52.5 percent of such payments available equally, only for the programs and purposes identified as number 282 at page 1389 of House Report number 108-10 and for a program described at page 1159 of that Report in the State referred to in such section 6004(c).

(3) TREATMENT OF AMOUNTS.—Any royalty withheld by a lessee in accordance with this section (including any portion thereof that is paid to the Secretary of the Interior under paragraph (1)) shall be treated as paid for purposes of satisfaction of the royalty obligations of the lessee to the United States.

(4) CERTIFICATION OF WITHHELD AMOUNTS.—The Secretary of the Treasury shall—

(A) determine the amount of royalty withheld by a lessee under this section; and

(B) promptly publish a certification when the total amount of royalty withheld by the lessee under this section is equal to—

(i) the dollar amount stated at page 47 of Senate Report number 101-534, which is designated therein as the total drainage claim for the West Delta field; plus

(ii) interest as described at page 47 of that Report.

(b) PERIOD OF ROYALTY RELIEF.—Subsection (a) shall apply to royalty amounts that are due and payable in the period beginning on January 1, 2004, and ending on the date on which the Secretary of the Treasury publishes a certification under subsection (a)(4)(B).

(c) DEFINITIONS.—As used in this section:

(1) COVERED LEASE TRACT.—The term “covered lease tract” means a leased tract (or portion of a leased tract)—

(A) lying seaward of the zone defined and governed by section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)); or

(B) lying within such zone but to which such section does not apply.

(2) LESSEE.—The term “lessee”—

(A) means a person or entity that, on the date of the enactment of the Oil Pollution Act of 1990, was a lessee referred to in section 6004(c) of that Act (as in effect on that date of the enactment), but did not hold lease rights in Federal offshore lease OCS-G-5669; and

(B) includes successors and affiliates of a person or entity described in subparagraph (A).

SEC. 1412. DOMESTIC OFFSHORE ENERGY REINVESTMENT.

(a) DOMESTIC OFFSHORE ENERGY REINVESTMENT PROGRAM.—The Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) is amended by adding at the end the following:

“SEC. 32. DOMESTIC OFFSHORE ENERGY REINVESTMENT PROGRAM.

“(a) DEFINITIONS.—In this section:

“(1) APPROVED PLAN.—The term ‘approved plan’ means a Secure Energy Reinvestment Plan approved by the Secretary under this section.

“(2) COASTAL ENERGY STATE.—The term ‘Coastal Energy State’ means a Coastal State off the coastline of which, within the seaward lateral boundary as determined by the map referenced in subsection (c)(2)(A), outer Continental Shelf bonus bids or royalties are generated, other than bonus bids or royalties from a leased tract within any area of the outer Continental Shelf for which a moratorium on new leasing was in effect as of January 1, 2002, unless the lease was issued before the establishment of the moratorium and was in production on such date.

“(3) COASTAL POLITICAL SUBDIVISION.—The term ‘coastal political subdivision’ means a county, parish, or other equivalent subdivision of a Coastal Energy State, all or part of which lies within the boundaries of the coastal zone of the State, as identified in the State’s approved coastal zone management program under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.) on the date of the enactment of this section.

“(4) COASTAL POPULATION.—The term ‘coastal population’ means the population of a coastal political subdivision, as determined by the most recent official data of the Census Bureau.

“(5) COASTLINE.—The term ‘coastline’ has the same meaning as the term ‘coast line’ in subsection 2(c) of the Submerged Lands Act (43 U.S.C. 1301(c)).

“(6) FUND.—The term ‘Fund’ means the Secure Energy Reinvestment Fund established by this section.

“(7) LEASED TRACT.—The term ‘leased tract’ means a tract maintained under section 6 or leased under section 8 for the purpose of drilling for, developing, and producing oil and natural gas resources.

“(8) QUALIFIED OUTER CONTINENTAL SHELF REVENUES.—(A) Except as provided in subparagraph (B), the term ‘qualified outer Continental Shelf revenues’ means all amounts received by the United States on or after October 1, 2003, from each leased tract or portion of a leased tract lying seaward of the zone defined and governed by section 8(g), or lying within such zone but to which section 8(g) does not apply, including bonus bids, rents, royalties (including payments for royalties taken in kind and sold), net profit share payments, and related interest.

“(B) Such term does not include any revenues from a leased tract or portion of a leased tract that is included within any area of the outer Continental Shelf for which a moratorium on new leasing was in effect as of January 1, 2002, unless the lease was issued before the establishment of the moratorium and was in production on such date.

“(9) SECRETARY.—The term ‘Secretary’ means the Secretary of the Interior.

“(b) SECURE ENERGY REINVESTMENT FUND.—

“(1) ESTABLISHMENT.—There is established in the Treasury of the United States a separate account which shall be known as the ‘Secure Energy Reinvestment Fund’. The Fund shall consist of amounts deposited under paragraph (2), and such other amounts as may be appropriated to the Fund.

“(2) DEPOSITS.—For each fiscal year after fiscal year 2003, the Secretary of the Treasury shall deposit into the Fund the following:

“(A) Notwithstanding section 9, all qualified outer Continental Shelf revenues attributable to royalties received by the United States in the fiscal year that are in excess of the following amount:

“(i) \$3,455,000,000 in the case of royalties received in fiscal year 2004.

“(ii) \$3,726,000,000 in the case of royalties received in fiscal year 2005.

“(iii) \$4,613,000,000 in the case of royalties received in fiscal year 2006.

“(iv) \$5,226,000,000 in the case of royalties received in fiscal year 2007.

“(v) \$5,841,000,000 in the case of royalties received in fiscal year 2008.

“(vi) \$5,763,000,000 in the case of royalties received in fiscal year 2009.

“(vii) \$6,276,000,000 in the case of royalties received in fiscal year 2010.

“(viii) \$6,351,000,000 in the case of royalties received in fiscal year 2011.

“(ix) \$6,551,000,000 in the case of royalties received in fiscal year 2012.

“(x) \$5,120,000,000 in the case of royalties received in fiscal year 2013.

“(B) Notwithstanding section 9, all qualified outer Continental shelf revenues attributable to bonus bids received by the United States in each of the fiscal years 2004 through 2013 that are in excess of \$1,000,000,000.

“(C) Notwithstanding section 9, in addition to amounts deposited under subparagraphs (A) and (B), \$35,000,000 of amounts received by the United States each fiscal year as royalties for oil or gas production on the outer Continental Shelf, except that no amounts shall be deposited under this subparagraph before fiscal year 2004 or after fiscal year 2013.

“(D) All interest earned under paragraph (4).

“(E) All repayments under subsection (f).

“(3) REDUCTION IN DEPOSIT.—(A) For each fiscal year after fiscal year 2013 in which amounts received by the United States as royalties for oil or gas production on the outer Continental Shelf are less than the sum of the amounts described in subparagraph (B) (before the application of this subparagraph), the Secretary of the Treasury shall reduce each of the amounts described in subparagraph (B) proportionately.

“(B) The amounts referred to in subparagraph (A) are the following:

“(i) The amount required to be covered into the Historic Preservation Fund under section 108 of the National Historic Preservation Act (16 U.S.C. 470h) on the date of the enactment of this paragraph.

“(ii) The amount required to be credited to the Land and Water Conservation Fund under section 2(c)(2) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-5(c)(2)) on the date of the enactment of this paragraph.

“(iii) The amount required to be deposited under subparagraph (C) of paragraph (2) of this subsection.

“(4) INVESTMENT.—The Secretary of the Treasury shall invest moneys in the Fund (including interest) in public debt securities with maturities suitable to the needs of the Fund, as determined by the Secretary of the Treasury, and bearing interest at rates determined by the Secretary of the Treasury, taking into consideration current market yields on outstanding marketable obligations of the United States of comparable maturity. Such invested moneys shall remain invested until needed to meet requirements for disbursement under this section.

“(5) REVIEW AND REVISION OF BASELINE AMOUNTS.—Not later than December 31, 2008, the Secretary of the Interior, in consultation with the Secretary of the Treasury, shall—

“(A) determine the amount and composition of outer Continental Shelf revenues that were received by the United States in each of the fiscal years 2004 through 2008;

“(B) project the amount and composition of outer Continental Shelf revenues that will be received in the United States in each of the fiscal years 2009 through 2013; and

“(C) submit to the Congress a report regarding whether any of the dollar amounts set forth in clauses (v) through (x) of paragraph (2)(A) or paragraph (2)(B) should be modified to reflect those projections.

“(6) AUTHORIZATION OF APPROPRIATION OF ADDITIONAL AMOUNTS.—In addition to the amounts deposited into the Fund under paragraph (2) there are authorized to be appropriated to the Fund—

“(A) for each of fiscal years 2004 through 2013 up to \$500,000,000; and

“(B) for each fiscal year after fiscal year 2013 up to 25 percent of qualified outer Continental Shelf revenues received by the United States in the preceding fiscal year.

“(c) USE OF SECURE ENERGY REINVESTMENT FUND.—

“(1) IN GENERAL.—(A) The Secretary shall use amounts in the Fund remaining after the application of subsections (h) and (i) to pay to each Coastal Energy State that has a Secure Energy Reinvestment Plan approved by the Secretary under this section, and to coastal political subdivisions of such State, the amount allocated to the State or coastal political subdivision, respectively, under this subsection.

“(B) The Secretary shall make payments under this paragraph in December of 2004, and of each year thereafter, from revenues received by the United States in the immediately preceding fiscal year.

“(2) ALLOCATION.—The Secretary shall allocate amounts deposited into the Fund in a fiscal year, and other amounts determined by the Secretary to be available, among Coastal Energy States that have an approved plan, and to coastal political subdivisions of such States, as follows:

“(A)(i) Of the amounts made available for each of the first 10 fiscal years for which amounts are available for allocation under this paragraph, the allocation for each Coastal Energy State shall be calculated based on the ratio of qualified outer Continental Shelf revenues generated off the coastline of the Coastal Energy State to the qualified outer Continental Shelf revenues generated off the coastlines of all Coastal Energy States for the period beginning January 1, 1992, and ending December 31, 2001.

“(ii) Of the amounts available for a fiscal year in a subsequent 10-fiscal-year period, the allocation for each Coastal Energy State shall be calculated based on such ratio determined by the Secretary with respect to qualified outer Continental Shelf revenues generated in each subsequent corresponding 10-year period.

“(iii) For purposes of this subparagraph, qualified outer Continental Shelf revenues shall be considered to be generated off the coastline of a Coastal Energy State if the geographic center of the lease tract from which the revenues are generated is located within the area formed by the extension of the State's seaward lateral boundaries, calculated using the strict and scientifically derived conventions established to delimit international lateral boundaries under the Law of the Sea, as indicated on the map entitled ‘Calculated Seaward Lateral Boundaries’ and dated October 2003, on file in the Office of the Director, Minerals Management Service.

“(B) 35 percent of each Coastal Energy State's allocable share as determined under subparagraph (A) shall be allocated among and paid directly to the coastal political subdivisions of the State by the Secretary based on the following formula:

“(i) 25 percent shall be allocated based on the ratio of each coastal political subdivision's coastal population to the coastal population of all coastal political subdivisions of the Coastal Energy State.

“(ii) 25 percent shall be allocated based on the ratio of each coastal political subdivision's coastline miles to the coastline miles of all coastal political subdivisions of the State. In the case of a coastal political subdivision without a coastline, the coastline of the political subdivision for purposes of this clause shall be one-third the average length of the coastline of the other coastal political subdivisions of the State.

“(iii) 50 percent shall be allocated based on a formula that allocates 75 percent of the funds based on such coastal political subdivision's relative distance from any leased tract used to calculate that State's allocation and 25 percent of the funds based on the relative level of outer Continental Shelf oil and gas activities in a coastal political subdivision to the level of outer Continental Shelf oil and gas activities in all coastal political subdivisions in such State, as determined by the Secretary, except that in the case of a coastal political subdivision in the State of California that has a coastal shoreline, that is not within 200 miles of the geographic center of a leased tract or portion of a leased tract, and in which there is located one or more oil refineries the allocation under this clause shall be determined as if that coastal political subdivision were located within a distance of 50 miles from the geographic center of the closest leased tract with qualified outer Continental Shelf revenues.

“(3) REALLOCATION.—Any amount allocated to a Coastal Energy State or coastal political subdivision of such a State but not disbursed because of a failure of a Coastal Energy State to have an approved plan shall be reallocated by the Secretary among all other Coastal Energy States in a manner consistent with this subsection, except that the Secretary—

“(A) shall hold the amount in escrow within the Fund until the earlier of the end of the next fiscal year in which the allocation is made or the final resolution of any appeal regarding the disapproval of a plan submitted by the State under this section; and

“(B) shall continue to hold such amount in escrow until the end of the subsequent fiscal year thereafter, if the Secretary determines that such State is making a good faith effort to develop and submit, or update, a Secure Energy Reinvestment Plan under subsection (d).

“(4) MINIMUM SHARE.—Notwithstanding any other provision of this subsection, the amount allocated under this subsection to each Coastal Energy State each fiscal year shall be not less than 5 percent of the total amount available for that fiscal year for allocation under this subsection to Coastal Energy States, except that for any Coastal Energy State determined by the Secretary to have an area formed by the extension of the State's seaward lateral boundary, as designated by the map referenced in paragraph (2)(A)(iii), of less than 490 square statute miles, the amount allocated to such State shall not be less than 10 percent of the total amount available for that fiscal year for allocation under this subsection.

“(5) RECOMPUTATION.—If the allocation to one or more Coastal Energy States under paragraph (4) with respect to a fiscal year is greater than the amount that would be allocated to such States under this subsection if paragraph (4) did not apply, then the allocations under this subsection to all other Coastal Energy States shall be paid from the amount remaining after deduction of the amounts allocated under paragraph (4), but shall be reduced on a pro rata basis by the sum of the allocations under paragraph (4) so that not more than 100 percent of the funds available in the Fund for allocation with respect to that fiscal year is allocated.

“(d) SECURE ENERGY REINVESTMENT PLAN.—

“(1) DEVELOPMENT AND SUBMISSION OF STATE PLANS.—The Governor of each State seeking to receive funds under this section shall prepare, and submit to the Secretary, a Secure Energy Reinvestment Plan describing planned expenditures of funds received under this section. The Governor shall include in the State plan submitted to the Secretary plans prepared by the coastal political subdivisions of the State. The Governor and the coastal political subdivision shall solicit local input and provide for public participation in the development of the State plan. In describing the planned expenditures, the State and coastal political subdivisions shall include only items that are uses authorized under subsection (e).

“(2) APPROVAL OR DISAPPROVAL.—

“(A) IN GENERAL.—The Secretary may not disburse funds to a State or coastal political subdivision of a State under this section before the date the State has an approved plan. The Secretary shall approve a Secure Energy Reinvestment Plan submitted by a State under paragraph (1) if the Secretary determines that the expenditures provided for in the plan are uses authorized under subsection (e), and that the plan contains each of the following:

“(i) The name of the State agency that will have the authority to represent and act for

the State in dealing with the Secretary for purposes of this section.

“(ii) A program for the implementation of the plan, that (I) has as a goal improving the environment, (II) has as a goal addressing the impacts of oil and gas production from the outer Continental Shelf, and (III) includes a description of how the State and coastal political subdivisions of the State will evaluate the effectiveness of the plan.

“(iii) Certification by the Governor that ample opportunity has been accorded for public participation in the development and revision of the plan.

“(iv) Measures for taking into account other relevant Federal resources and programs. The plan shall be correlated so far as practicable with other State, regional, and local plans.

“(v) For any State for which the ratio determined under subsection (c)(2)(A)(i) or (c)(2)(A)(ii), as appropriate, expressed as a percentage, exceeds 25 percent, a plan to spend not less than 30 percent of the total funds provided under this section each fiscal year to that State and appropriate coastal political subdivisions, to address the socioeconomic or environmental impacts identified in the plan that remain significant or progressive after implementation of mitigation measures identified in the most current environmental impact statement (as of the date of the enactment of this clause) required under the National Environmental Protection Act of 1969 for lease sales under this Act.

“(vi) A plan to utilize at least one-half of the funds provided pursuant to subsection (c)(2)(B), and a portion of other funds provided to such State under this section, on programs or projects that are coordinated and conducted in partnership between the State and coastal political subdivision.

“(B) PROCEDURE AND TIMING.—The Secretary shall approve or disapprove each plan submitted in accordance with this subsection within 90 days after its submission.

“(3) AMENDMENT OR REVISION.—Any amendment to or revision of an approved plan shall be prepared and submitted in accordance with the requirements under this paragraph for the submittal of plans, and shall be approved or disapproved by the Secretary in accordance with paragraph (2)(B).

“(e) AUTHORIZED USES.—A Coastal Energy State, and a coastal political subdivision of such a State, shall use amounts paid under this section (including any such amounts deposited into a trust fund administered by the State or coastal political subdivision dedicated to uses consistent with this subsection), in compliance with Federal and State law and the approved plan of the State, only for one or more of the following purposes:

“(1) Projects and activities, including educational activities, for the conservation, protection, or restoration of coastal areas including wetlands.

“(2) Mitigating damage to, or the protection of, fish, wildlife, or natural resources.

“(3) To the extent of such sums as are considered reasonable by the Secretary, planning assistance and administrative costs of complying with this section.

“(4) Implementation of federally approved plans or programs for marine, coastal, subsidence, or conservation management or for protection of resources from natural disasters.

“(5) Mitigating impacts of outer Continental Shelf activities through funding onshore infrastructure and public service needs.

“(f) COMPLIANCE WITH AUTHORIZED USES.—If the Secretary determines that an expenditure of an amount made by a Coastal Energy State or coastal political subdivision is not

in accordance with the approved plan of the State (including the plans of coastal political subdivisions included in such plan), the Secretary shall not disburse any further amounts under this section to that Coastal Energy State or coastal political subdivision until—

“(1) the amount is repaid to the Secretary; or

“(2) the Secretary approves an amendment to the plan that authorizes the expenditure.

“(g) ARBITRATION OF STATE AND LOCAL DISPUTES.—The Secretary may require, as a condition of any payment under this section, that a State or coastal political subdivision in a State must submit to arbitration—

“(1) any dispute between the State or coastal political subdivision (or both) and the Secretary regarding implementation of this section; and

“(2) any dispute between the State and political subdivision regarding implementation of this section, including any failure to include, in the plan submitted by the State for purposes of subsection (d), any spending plan of the coastal political subdivision.

“(h) ADMINISTRATIVE EXPENSES.—Of amounts in the Fund each fiscal year, the Secretary may use up to one-half of one percent for the administrative costs of implementing this section.

“(i) FUNDING FOR CONSORTIUM.—

“(1) IN GENERAL.—Of amounts deposited into the Fund in each fiscal year 2004 through 2013, 2 percent shall be available to the Secretary of the Interior to provide funding for the Coastal Restoration and Enhancement through Science and Technology program.

“(2) TREATMENT.—Any amount available under this subsection for a fiscal year shall, for purposes of determining the amount appropriated under any other provision of law that authorizes appropriations to carry out the program referred to in paragraph (1), be treated as appropriated under that other provision.

“(j) DISPOSITION OF FUNDS.—A Coastal Energy State or coastal political subdivision may use funds provided to such entity under this section, subject to subsection (e), for any payment that is eligible to be made with funds provided to States under section 35 of the Mineral Leasing Act (30 U.S.C. 191).

“(k) REPORTS.—Each fiscal year following a fiscal year in which a Coastal Energy State or coastal political subdivision of a Coastal Energy State receives funds under this section, the Governor of the Coastal Energy State, in coordination with such State's coastal political subdivisions, shall account for all funds so received for the previous fiscal year in a written report to the Secretary. The report shall include, in accordance with regulations prescribed by the Secretary, a description of all projects and activities that received such funds. In order to avoid duplication, such report may incorporate, by reference, any other reports required to be submitted under other provisions of law.

“(1) SIGNS.—The Secretary shall require, as a condition of any allocation of funds provided with amounts made available by this section, that each State and coastal political subdivision shall include on any sign otherwise installed at any site at or near an entrance or public use focal point area for which such funds are used, a statement that the existence or development of the site (or both), as appropriate, is a product of such funds.”

(b) ADDITIONAL AMENDMENTS.—Section 31 of the Outer Continental Shelf Lands Act (43 U.S.C. 1356a) is amended—

(1) by striking subsection (a);

(2) in subsection (c) by striking “For fiscal year 2001, \$150,000,000 is” and inserting “Such sums as may be necessary to carry out this section are”;

(3) in subsection (d)(1)(B) by striking “, except” and all that follows through the end of the sentence and inserting a period;

(4) by redesignating subsections (b) through (g) in order as subsection (a) through (f); and

(5) by striking “subsection (f)” each place it appears and inserting “subsection (e)”.

(c) UTILIZATION OF COASTAL RESTORATION AND ENHANCEMENT THROUGH SCIENCE AND TECHNOLOGY PROGRAM.—

(1) AUTHORIZATION.—The Secretary of the Interior and the Secretary of Commerce may each use the Coastal Restoration and Enhancement through Science and Technology program for the purposes of—

(A) assessing the effects of coastal habitat restoration techniques;

(B) developing improved ecosystem modeling capabilities for improved predictions of coastal conditions and habitat change and for developing new technologies for restoration activities; and

(C) identifying economic options to address socioeconomic consequences of coastal degradation.

(2) CONDITION.—The Secretary of the Interior, in consultation with the Secretary of Commerce, shall ensure that the program—

(A) establishes procedures designed to avoid duplicative activities among Federal agencies and entities receiving Federal funds;

(B) coordinates with persons involved in similar activities; and

(C) establishes a mechanism to collect, organize, and make available information and findings on coastal restoration.

(3) REPORT.—Not later than September 30, 2008, the Secretary of the Interior, in consultation with the Secretary of Commerce, shall transmit a report to the Congress on the effectiveness of any Federal and State restoration efforts conducted pursuant to this subsection and make recommendations to improve coordinated coastal restoration efforts.

(4) FUNDING.—For each of fiscal years 2004 through 2013, there is authorized to be appropriated to the Secretary \$10,000,000 to carry out activities under this subsection.

Subtitle C—Reforms to the Board of Directors of the Tennessee Valley Authority
SEC. 1431. CHANGE IN COMPOSITION, OPERATION, AND DUTIES OF THE BOARD OF DIRECTORS OF THE TENNESSEE VALLEY AUTHORITY.

The Tennessee Valley Authority Act of 1933 (16 U.S.C. 831 et seq.) is amended by striking section 2 and inserting the following:

“SEC. 2. MEMBERSHIP, OPERATION, AND DUTIES OF THE BOARD OF DIRECTORS.

“(a) MEMBERSHIP.—

“(1) APPOINTMENT.—The Board of Directors of the Corporation (referred to in this Act as the ‘Board’) shall be composed of 9 members appointed by the President by and with the advice and consent of the Senate, at least 5 of whom shall be a legal resident of a State any part of which is in the service area of the Corporation.

“(2) CHAIRMAN.—The members of the Board shall select 1 of the members to act as chairman of the Board.

“(b) QUALIFICATIONS.—To be eligible to be appointed as a member of the Board, an individual—

“(1) shall be a citizen of the United States;

“(2) shall have management expertise relative to a large for-profit or nonprofit corporate, government, or academic structure;

“(3) shall not be an employee of the Corporation; and

“(4) shall make full disclosure to Congress of any investment or other financial interest that the individual holds in the energy industry.

“(c) RECOMMENDATIONS.—In appointing members of the Board, the President shall—

“(1) consider recommendations from such public officials as—

“(A) the Governors of States in the service area;

“(B) individual citizens;

“(C) business, industrial, labor, electric power distribution, environmental, civic, and service organizations; and

“(D) the congressional delegations of the States in the service area; and

“(2) seek qualified members from among persons who reflect the diversity, including the geographical diversity, and needs of the service area of the Corporation.

“(d) TERMS.—

“(1) IN GENERAL.—A member of the Board shall serve a term of 5 years. A member of the Board whose term has expired may continue to serve after the member's term has expired until the date on which a successor takes office, except that the member shall not serve beyond the end of the session of Congress in which the term of the member expires.

“(2) VACANCIES.—A member appointed to fill a vacancy on the Board occurring before the expiration of the term for which the predecessor of the member was appointed shall be appointed for the remainder of that term.

“(e) QUORUM.—

“(1) IN GENERAL.—Five of the members of the Board shall constitute a quorum for the transaction of business.

“(2) VACANCIES.—A vacancy on the Board shall not impair the power of the Board to act.

“(f) COMPENSATION.—

“(1) IN GENERAL.—A member of the Board shall be entitled to receive—

“(A) a stipend of—

“(i) \$45,000 per year; or

“(ii) (I) in the case of the chairman of any committee of the Board created by the Board, \$46,000 per year; or

“(II) in the case of the chairman of the Board, \$50,000 per year; and

“(B) travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in Government service under section 5703 of title 5, United States Code.

“(2) ADJUSTMENTS IN STIPENDS.—The amount of the stipend under paragraph (1)(A)(i) shall be adjusted by the same percentage, at the same time and manner, and subject to the same limitations as are applicable to adjustments under section 5318 of title 5, United States Code.

“(g) DUTIES.—

“(1) IN GENERAL.—The Board shall—

“(A) establish the broad goals, objectives, and policies of the Corporation that are appropriate to carry out this Act;

“(B) develop long-range plans to guide the Corporation in achieving the goals, objectives, and policies of the Corporation and provide assistance to the chief executive officer to achieve those goals, objectives, and policies;

“(C) ensure that those goals, objectives, and policies are achieved;

“(D) approve an annual budget for the Corporation;

“(E) adopt and submit to Congress a conflict-of-interest policy applicable to members of the Board and employees of the Corporation;

“(F) establish a compensation plan for employees of the Corporation in accordance with subsection (i);

“(G) approve all compensation (including salary or any other pay, bonuses, benefits, incentives, and any other form of remuneration) of all managers and technical personnel that report directly to the chief executive offi-

cer (including any adjustment to compensation);

“(H) ensure that all activities of the Corporation are carried out in compliance with applicable law;

“(I) create an audit committee, composed solely of Board members independent of the management of the Corporation, which shall—

“(i) in consultation with the inspector general of the Corporation, recommend to the Board an external auditor;

“(ii) receive and review reports from the external auditor of the Corporation and inspector general of the Corporation; and

“(iii) make such recommendations to the Board as the audit committee considers necessary;

“(J) create such other committees of Board members as the Board considers to be appropriate;

“(K) conduct such public hearings as it deems appropriate on issues that could have a substantial effect on—

“(i) the electric ratepayers in the service area; or

“(ii) the economic, environmental, social, or physical well-being of the people of the service area;

“(L) establish the electricity rates charged by the Corporation; and

“(M) engage the services of an external auditor for the Corporation.

“(2) MEETINGS.—The Board shall meet at least 4 times each year.

“(h) CHIEF EXECUTIVE OFFICER.—

“(1) APPOINTMENT.—The Board shall appoint a person to serve as chief executive officer of the Corporation.

“(2) QUALIFICATIONS.—

“(A) IN GENERAL.—To serve as chief executive officer of the Corporation, a person—

“(i) shall have senior executive-level management experience in large, complex organizations;

“(ii) shall not be a current member of the Board or have served as a member of the Board within 2 years before being appointed chief executive officer; and

“(iii) shall comply with the conflict-of-interest policy adopted by the Board.

“(B) EXPERTISE.—In appointing a chief executive officer, the Board shall give particular consideration to appointing an individual with expertise in the electric industry and with strong financial skills.

“(3) TENURE.—The chief executive officer shall serve at the pleasure of the Board.

“(i) COMPENSATION PLAN.—

“(1) IN GENERAL.—The Board shall approve a compensation plan that specifies all compensation (including salary or any other pay, bonuses, benefits, incentives, and any other form of remuneration) for the chief executive officer and employees of the Corporation.

“(2) ANNUAL SURVEY.—The compensation plan shall be based on an annual survey of the prevailing compensation for similar positions in private industry, including engineering and electric utility companies, publicly owned electric utilities, and Federal, State, and local governments.

“(3) CONSIDERATIONS.—The compensation plan shall provide that education, experience, level of responsibility, geographic differences, and retention and recruitment needs will be taken into account in determining compensation of employees.

“(4) POSITIONS AT OR BELOW LEVEL IV.—The chief executive officer shall determine the salary and benefits of employees whose annual salary is not greater than the annual rate payable for positions at level IV of the Executive Schedule under section 5315 of title 5, United States Code.

“(5) POSITIONS ABOVE LEVEL IV.—On the recommendation of the chief executive offi-

cer, the Board shall approve the salaries of employees whose annual salaries would be in excess of the annual rate payable for positions at level IV of the Executive Schedule under section 5315 of title 5, United States Code.”.

SEC. 1432. CHANGE IN MANNER OF APPOINTMENT OF STAFF.

Section 3 of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831b) is amended—

(1) by striking the first undesignated paragraph and inserting the following:

“(a) APPOINTMENT BY THE CHIEF EXECUTIVE OFFICER.—The chief executive officer shall appoint, with the advice and consent of the Board, and without regard to the provisions of the civil service laws applicable to officers and employees of the United States, such managers, assistant managers, officers, employees, attorneys, and agents as are necessary for the transaction of the business of the Corporation.”; and

(2) by striking “All contracts” and inserting the following:

“(b) WAGE RATES.—All contracts”.

SEC. 1433. CONFORMING AMENDMENTS.

(a) The Tennessee Valley Authority Act of 1933 (16 U.S.C. 831 et seq.) is amended—

(1) by striking “board of directors” each place it appears and inserting “Board of Directors”; and

(2) by striking “board” each place it appears and inserting “Board”.

(b) Section 9 of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831h) is amended—

(1) by striking “The Comptroller General of the United States shall audit” and inserting the following:

“(c) AUDITS.—The Comptroller General of the United States shall audit”; and

(2) by striking “The Corporation shall determine” and inserting the following:

“(d) ADMINISTRATIVE ACCOUNTS AND BUSINESS DOCUMENTS.—The Corporation shall determine”.

(c) Title 5, United States Code, is amended—

(1) in section 5314, by striking “Chairman, Board of Directors of the Tennessee Valley Authority.”; and

(2) in section 5315, by striking “Members, Board of Directors of the Tennessee Valley Authority.”.

SEC. 1434. APPOINTMENTS; EFFECTIVE DATE; TRANSITION.

(a) APPOINTMENTS.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the President shall submit to the Senate nominations of 6 persons to serve as members of the Board of Directors of the Tennessee Valley Authority in addition to the members serving on the date of enactment of this Act.

(2) INITIAL TERMS.—Notwithstanding section 2(d) of the Tennessee Valley Authority Act of 1933 (as amended by this subtitle), in making the appointments under paragraph (1), the President shall appoint—

(A) 2 members for a term to expire on May 18, 2006;

(B) 2 members for a term to expire on May 18, 2008; and

(C) 2 members for a term to expire on May 18, 2010.

(b) EFFECTIVE DATE.—The amendments made by this section and sections 1431, 1432, and 1433 take effect on the later of the date on which at least 3 persons nominated under subsection (a) take office or May 18, 2005.

(c) SELECTION OF CHAIRMAN.—The Board of Directors of the Tennessee Valley Authority shall select 1 of the members to act as chairman of the Board not later than 30 days after the effective date of this section.

(d) CONFLICT-OF-INTEREST POLICY.—The Board of Directors of the Tennessee Valley

Authority shall adopt and submit to Congress a conflict-of-interest policy, as required by section 2(g)(1)(E) of the Tennessee Valley Authority Act of 1933 (as amended by this subtitle), as soon as practicable after the effective date of this section.

(e) TRANSITION.—A person who is serving as a member of the board of directors of the Tennessee Valley Authority on the date of enactment of this Act—

(1) shall continue to serve until the end of the current term of the member; but

(2) after the effective date specified in subsection (b), shall serve under the terms of the Tennessee Valley Authority Act of 1933 (as amended by this subtitle); and

(3) may not be reappointed.

Subtitle D—Other Provisions

SEC. 1441. CONTINUATION OF TRANSMISSION SECURITY ORDER.

Department of Energy Order No. 202-03-2, issued by the Secretary of Energy on August 28, 2003, shall remain in effect unless rescinded by Federal statute.

SEC. 1442. REVIEW OF AGENCY DETERMINATIONS.

Section 7 of the Natural Gas Act (15 U.S.C. 717f) is amended by adding at the end the following:

“(1)(1) The United States Court of Appeals for the District of Columbia Circuit shall have original and exclusive jurisdiction over any civil action—

“(A) for review of any order or action of any Federal or State administrative agency or officer to issue, condition, or deny any permit, license, concurrence, or approval issued under authority of any Federal law, other than the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.), required for the construction of a natural gas pipeline for which a certificate of public convenience and necessity is issued by the Commission under this section;

“(B) alleging unreasonable delay by any Federal or State administrative agency or officer in entering an order or taking other action described in subparagraph (A); or

“(C) challenging any decision made or action taken under this subsection.

“(2)(A) If the Court finds that the order, action, or failure to act is not consistent with the public convenience and necessity (as determined by the Commission under this section), or would prevent the construction and operation of natural gas facilities authorized by the certificate of public convenience and necessity, the permit, license, concurrence, or approval that is the subject of the order, action, or failure to act shall be deemed to have been issued subject to any conditions set forth in the reviewed order or action that the Court finds to be consistent with the public convenience and necessity.

“(B) For purposes of paragraph (1)(B), the failure of an agency or officer to issue any such permit, license, concurrence, or approval within the latter of 1 year after the date of filing of an application for the permit, license, concurrence, or approval or 60 days after the date of issuance of the certificate of public convenience and necessity under this section, shall be considered to be unreasonable delay unless the Court, for good cause shown, determines otherwise.

“(C) The Court shall set any action brought under paragraph (1) for expedited consideration.”

SEC. 1443. ATTAINMENT DATES FOR DOWNWIND OZONE NONATTAINMENT AREAS.

Section 181 of the Clean Air Act (42 U.S.C. 7511) is amended by adding the following new subsection at the end thereof:

“(d) EXTENDED ATTAINMENT DATE FOR CERTAIN DOWNWIND AREAS.—

“(1) DEFINITIONS.—(A) The term ‘upwind area’ means an area that—

“(i) significantly contributes to nonattainment in another area, hereinafter referred to as a ‘downwind area’; and

“(ii) is either—

“(I) a nonattainment area with a later attainment date than the downwind area, or

“(II) an area in another State that the Administrator has found to be significantly contributing to nonattainment in the downwind area in violation of section 110(a)(2)(D) and for which the Administrator has established requirements through notice and comment rulemaking to eliminate the emissions causing such significant contribution.

“(B) The term ‘current classification’ means the classification of a downwind area under this section at the time of the determination under paragraph (2).

“(2) EXTENSION.—If the Administrator—

“(A) determines that any area is a downwind area with respect to a particular national ambient air quality standard for ozone; and

“(B) approves a plan revision for such area as provided in paragraph (3) prior to a reclassification under subsection (b)(2)(A), the Administrator, in lieu of such reclassification, shall extend the attainment date for such downwind area for such standard in accordance with paragraph (5).

“(3) REQUIRED APPROVAL.—In order to extend the attainment date for a downwind area under this subsection, the Administrator must approve a revision of the applicable implementation plan for the downwind area for such standard that—

“(A) complies with all requirements of this Act applicable under the current classification of the downwind area, including any requirements applicable to the area under section 172(c) for such standard; and

“(B) includes any additional measures needed to demonstrate attainment by the extended attainment date provided under this subsection.

“(4) PRIOR RECLASSIFICATION DETERMINATION.—If, no more than 18 months prior to the date of enactment of this subsection, the Administrator made a reclassification determination under subsection (b)(2)(A) for any downwind area, and the Administrator approves the plan revision referred to in paragraph (3) for such area within 12 months after the date of enactment of this subsection, the reclassification shall be withdrawn and the attainment date extended in accordance with paragraph (5) upon such approval. The Administrator shall also withdraw a reclassification determination under subsection (b)(2)(A) made after the date of enactment of this subsection and extend the attainment date in accordance with paragraph (5) if the Administrator approves the plan revision referred to in paragraph (3) within 12 months of the date the reclassification determination under subsection (b)(2)(A) is issued. In such instances the ‘current classification’ used for evaluating the revision of the applicable implementation plan under paragraph (3) shall be the classification of the downwind area under this section immediately prior to such reclassification.

“(5) EXTENDED DATE.—The attainment date extended under this subsection shall provide for attainment of such national ambient air quality standard for ozone in the downwind area as expeditiously as practicable but no later than the date on which the last reductions in pollution transport necessary for attainment in the downwind area are required to be achieved by the upwind area or areas.”

SEC. 1444. ENERGY PRODUCTION INCENTIVES.

(a) IN GENERAL.—A State may provide to any entity—

(1) a credit against any tax or fee owed to the State under a State law, or

(2) any other tax incentive,

determined by the State to be appropriate, in the amount calculated under and in accordance with a formula determined by the State, for production described in subsection (b) in the State by the entity that receives such credit or such incentive.

(b) ELIGIBLE ENTITIES.—Subsection (a) shall apply with respect to the production in the State of—

(1) electricity from coal mined in the State and used in a facility, if such production meets all applicable Federal and State laws and if such facility uses scrubbers or other forms of clean coal technology,

(2) electricity from a renewable source such as wind, solar, or biomass, or

(3) ethanol.

(c) EFFECT ON INTERSTATE COMMERCE.—Any action taken by a State in accordance with this section with respect to a tax or fee payable, or incentive applicable, for any period beginning after the date of the enactment of this Act shall—

(1) be considered to be a reasonable regulation of commerce; and

(2) not be considered to impose an undue burden on interstate commerce or to otherwise impair, restrain, or discriminate, against interstate commerce.

SEC. 1445. USE OF GRANULAR MINE TAILINGS.

(a) AMENDMENT.—Subtitle F of the Solid Waste Disposal Act (42 U.S.C. 6961 et seq.) is amended by adding at the end the following:

“SEC. 6006. USE OF GRANULAR MINE TAILINGS.

“(a) MINE TAILINGS.—

“(1) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Administrator, in consultation with the Secretary of Transportation and heads of other Federal agencies, shall establish criteria (including an evaluation of whether to establish a numerical standard for concentration of lead and other hazardous substances) for the safe and environmentally protective use of granular mine tailings from the Tar Creek, Oklahoma Mining District, known as ‘chat’, for—

“(A) cement or concrete projects; and

“(B) transportation construction projects (including transportation construction projects involving the use of asphalt) that are carried out, in whole or in part, using Federal funds.

“(2) REQUIREMENTS.—In establishing criteria under paragraph (1), the Administrator shall consider—

“(A) the current and previous uses of granular mine tailings as an aggregate for asphalt; and

“(B) any environmental and public health risks and benefits derived from the removal, transportation, and use in transportation projects of granular mine tailings.

“(3) PUBLIC PARTICIPATION.—In establishing the criteria under paragraph (1), the Administrator shall solicit and consider comments from the public.

“(4) APPLICABILITY OF CRITERIA.—On the establishment of the criteria under paragraph (1), any use of the granular mine tailings described in paragraph (1) in a transportation project that is carried out, in whole or in part, using Federal funds, shall meet the criteria established under paragraph (1).

“(b) EFFECT OF SECTIONS.—Nothing in this section or section 6005 affects any requirement of any law (including a regulation) in effect on the date of enactment of this section.”

(b) CONFORMING AMENDMENT.—The table of contents of the Solid Waste Disposal Act (42 U.S.C. prec. 6901) is amended by adding at the end of the items relating to subtitle F the following:

“Sec. 6006. Use of granular mine tailings.”

TITLE XV—ETHANOL AND MOTOR FUELS

Subtitle A—General Provisions

SEC. 1501. RENEWABLE CONTENT OF MOTOR VEHICLE FUEL.

(a) IN GENERAL.—Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended—

(1) by redesignating subsection (o) as subsection (q); and

(2) by inserting after subsection (n) the following:

“(o) RENEWABLE FUEL PROGRAM.—

“(1) DEFINITIONS.—In this section:

“(A) ETHANOL.—(i) The term ‘cellulosic biomass ethanol’ means ethanol derived from any lignocellulosic or hemicellulosic matter that is available on a renewable or recurring basis, including—

“(I) dedicated energy crops and trees;

“(II) wood and wood residues;

“(III) plants;

“(IV) grasses;

“(V) agricultural residues; and

“(VI) fibers.

“(ii) The term ‘waste derived ethanol’ means ethanol derived from—

“(I) animal wastes, including poultry fats and poultry wastes, and other waste materials; or

“(II) municipal solid waste.

“(B) RENEWABLE FUEL.—

“(i) IN GENERAL.—The term ‘renewable fuel’ means motor vehicle fuel that—

“(I)(aa) is produced from grain, starch, oilseeds, or other biomass; or

“(bb) is natural gas produced from a biogas source, including a landfill, sewage waste treatment plant, feedlot, or other place where decaying organic material is found; and

“(II) is used to replace or reduce the quantity of fossil fuel present in a fuel mixture used to operate a motor vehicle.

“(ii) INCLUSION.—The term ‘renewable fuel’ includes cellulosic biomass ethanol, waste derived ethanol, and biodiesel (as defined in section 312(f) of the Energy Policy Act of 1992 (42 U.S.C. 13220(f)) and any blending components derived from renewable fuel (provided that only the renewable fuel portion of any such blending component shall be considered part of the applicable volume under the renewable fuel program established by this subsection).

“(C) SMALL REFINERY.—The term ‘small refinery’ means a refinery for which average aggregate daily crude oil throughput for the calendar year (as determined by dividing the aggregate throughput for the calendar year by the number of days in the calendar year) does not exceed 75,000 barrels.

“(2) RENEWABLE FUEL PROGRAM.—

“(A) IN GENERAL.—Not later than 1 year after the enactment of this subsection, the Administrator shall promulgate regulations ensuring that motor vehicle fuel sold or dispensed to consumers in the contiguous United States, on an annual average basis, contains the applicable volume of renewable fuel as specified in subparagraph (B). Regardless of the date of promulgation, such regulations shall contain compliance provisions for refiners, blenders, and importers, as appropriate, to ensure that the requirements of this section are met, but shall not restrict where renewable fuel can be used, or impose any per-gallon obligation for the use of renewable fuel. If the Administrator does not promulgate such regulations, the applicable percentage referred to in paragraph (4), on a volume percentage of gasoline basis, shall be 2.2 in 2005.

“(B) APPLICABLE VOLUME.—

“(i) CALENDAR YEARS 2005 THROUGH 2012.—For the purpose of subparagraph (A), the applicable volume for any of calendar years 2005 through 2012 shall be determined in accordance with the following table:

Calendar year	Applicable volume of renewable fuel (in billions of gallons)
2005	3.1
2006	3.3
2007	3.5
2008	3.8
2009	4.1
2010	4.4
2011	4.7
2012	5.0

“(ii) CALENDAR YEAR 2013 AND THEREAFTER.—For the purpose of subparagraph (A), the applicable volume for calendar year 2013 and each calendar year thereafter shall be equal to the product obtained by multiplying—

“(I) the number of gallons of gasoline that the Administrator estimates will be sold or introduced into commerce in the calendar year; and

“(II) the ratio that—

“(aa) 5.0 billion gallons of renewable fuels; bears to

“(bb) the number of gallons of gasoline sold or introduced into commerce in calendar year 2012.

“(3) NON-CONTIGUOUS STATE OPT-IN.—Upon the petition of a non-contiguous State, the Administrator may allow the renewable fuel program established by subtitle A of title XV of the Energy Policy Act of 2003 to apply in such non-contiguous State at the same time or any time after the Administrator promulgates regulations under paragraph (2). The Administrator may promulgate or revise regulations under paragraph (2), establish applicable percentages under paragraph (4), provide for the generation of credits under paragraph (6), and take such other actions as may be necessary to allow for the application of the renewable fuels program in a non-contiguous State.

“(4) APPLICABLE PERCENTAGES.—

“(A) PROVISION OF ESTIMATE OF VOLUMES OF GASOLINE SALES.—Not later than October 31 of each of calendar years 2004 through 2011, the Administrator of the Energy Information Administration shall provide to the Administrator of the Environmental Protection Agency an estimate of the volumes of gasoline that will be sold or introduced into commerce in the United States during the following calendar year.

“(B) DETERMINATION OF APPLICABLE PERCENTAGES.—

“(i) IN GENERAL.—Not later than November 30 of each of the calendar years 2004 through 2011, based on the estimate provided under subparagraph (A), the Administrator shall determine and publish in the Federal Register, with respect to the following calendar year, the renewable fuel obligation that ensures that the requirements of paragraph (2) are met.

“(ii) REQUIRED ELEMENTS.—The renewable fuel obligation determined for a calendar year under clause (i) shall—

“(I) be applicable to refiners, blenders, and importers, as appropriate;

“(II) be expressed in terms of a volume percentage of gasoline sold or introduced into commerce; and

“(III) subject to subparagraph (C)(i), consist of a single applicable percentage that applies to all categories of persons specified in subclause (I).

“(C) ADJUSTMENTS.—In determining the applicable percentage for a calendar year, the Administrator shall make adjustments—

“(i) to prevent the imposition of redundant obligations to any person specified in subparagraph (B)(ii)(I); and

“(ii) to account for the use of renewable fuel during the previous calendar year by small refineries that are exempt under paragraph (11).

“(5) EQUIVALENCY.—For the purpose of paragraph (2), 1 gallon of either cellulosic biomass ethanol or waste derived ethanol—

“(A) shall be considered to be the equivalent of 1.5 gallon of renewable fuel; or

“(B) if the cellulosic biomass ethanol or waste derived ethanol is derived from agricultural residue or is an agricultural byproduct (as that term is used in section 919 of the Energy Policy Act of 2003), shall be considered to be the equivalent of 2.5 gallons of renewable fuel.

“(6) CREDIT PROGRAM.—

“(A) IN GENERAL.—The regulations promulgated to carry out this subsection shall provide for the generation of an appropriate amount of credits by any person that refines, blends, or imports gasoline that contains a quantity of renewable fuel that is greater than the quantity required under paragraph (2). Such regulations shall provide for the generation of an appropriate amount of credits for biodiesel fuel. If a small refinery notifies the Administrator that it waives the exemption provided paragraph (11), the regulations shall provide for the generation of credits by the small refinery beginning in the year following such notification.

“(B) USE OF CREDITS.—A person that generates credits under subparagraph (A) may use the credits, or transfer all or a portion of the credits to another person, for the purpose of complying with paragraph (2).

“(C) LIFE OF CREDITS.—A credit generated under this paragraph shall be valid to show compliance—

“(i) in the calendar year in which the credit was generated or the next calendar year; or

“(ii) in the calendar year in which the credit was generated or next two consecutive calendar years if the Administrator promulgates regulations under paragraph (7).

“(D) INABILITY TO PURCHASE SUFFICIENT CREDITS.—The regulations promulgated to carry out this subsection shall include provisions allowing any person that is unable to generate or purchase sufficient credits to meet the requirements under paragraph (2) to carry forward a renewable fuel deficit provided that, in the calendar year following the year in which the renewable fuel deficit is created, such person shall achieve compliance with the renewable fuel requirement under paragraph (2), and shall generate or purchase additional renewable fuel credits to offset the renewable fuel deficit of the previous year.

“(7) SEASONAL VARIATIONS IN RENEWABLE FUEL USE.—

“(A) STUDY.—For each of the calendar years 2005 through 2012, the Administrator of the Energy Information Administration shall conduct a study of renewable fuels blending to determine whether there are excessive seasonal variations in the use of renewable fuels.

“(B) REGULATION OF EXCESSIVE SEASONAL VARIATIONS.—If, for any calendar year, the Administrator of the Energy Information Administration, based on the study under subparagraph (A), makes the determinations specified in subparagraph (C), the Administrator shall promulgate regulations to ensure that 35 percent or more of the quantity of renewable fuels necessary to meet the requirement of paragraph (2) is used during each of the periods specified in subparagraph (D) of each subsequent calendar year.

“(C) DETERMINATIONS.—The determinations referred to in subparagraph (B) are that—

“(i) less than 35 percent of the quantity of renewable fuels necessary to meet the requirement of paragraph (2) has been used during one of the periods specified in subparagraph (D) of the calendar year;

“(ii) a pattern of excessive seasonal variation described in clause (i) will continue in subsequent calendar years; and

“(iii) promulgating regulations or other requirements to impose a 35 percent or more seasonal use of renewable fuels will not prevent or interfere with the attainment of national ambient air quality standards or significantly increase the price of motor fuels to the consumer.

“(D) PERIODS.—The two periods referred to in this paragraph are—

“(i) April through September; and

“(ii) January through March and October through December.

“(E) EXCLUSIONS.—Renewable fuels blended or consumed in 2005 in a State which has received a waiver under section 209(b) shall not be included in the study in subparagraph (A).

“(8) WAIVERS.—

“(A) IN GENERAL.—The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, may waive the requirement of paragraph (2) in whole or in part on petition by one or more States by reducing the national quantity of renewable fuel required under this subsection—

“(i) based on a determination by the Administrator, after public notice and opportunity for comment, that implementation of the requirement would severely harm the economy or environment of a State, a region, or the United States; or

“(ii) based on a determination by the Administrator, after public notice and opportunity for comment, that there is an inadequate domestic supply or distribution capacity to meet the requirement.

“(B) PETITIONS FOR WAIVERS.—The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, shall approve or disapprove a State petition for a waiver of the requirement of paragraph (2) within 90 days after the date on which the petition is received by the Administrator.

“(C) TERMINATION OF WAIVERS.—A waiver granted under subparagraph (A) shall terminate after 1 year, but may be renewed by the Administrator after consultation with the Secretary of Agriculture and the Secretary of Energy.

“(9) STUDY AND WAIVER FOR INITIAL YEAR OF PROGRAM.—Not later than 180 days after the enactment of this subsection, the Secretary of Energy shall complete for the Administrator a study assessing whether the renewable fuels requirement under paragraph (2) will likely result in significant adverse consumer impacts in 2005, on a national, regional, or State basis. Such study shall evaluate renewable fuel supplies and prices, blendstock supplies, and supply and distribution system capabilities. Based on such study, the Secretary shall make specific recommendations to the Administrator regarding waiver of the requirements of paragraph (2), in whole or in part, to avoid any such adverse impacts. Within 270 days after the enactment of this subsection, the Administrator shall, consistent with the recommendations of the Secretary, waive, in whole or in part, the renewable fuels requirement under paragraph (2) by reducing the national quantity of renewable fuel required under this subsection in 2005. This paragraph shall not be interpreted as limiting the Administrator's authority to waive the requirements of paragraph (2) in whole, or in part, under paragraph (8) or paragraph (10), pertaining to waivers.

“(10) ASSESSMENT AND WAIVER.—The Administrator, in consultation with the Secretary of Energy and the Secretary of Agriculture, shall evaluate the requirement of paragraph (2) and determine, prior to January 1, 2007, and prior to January 1 of any subsequent year in which the applicable volume

of renewable fuel is increased under paragraph (2)(B), whether the requirement of paragraph (2), including the applicable volume of renewable fuel contained in paragraph (2)(B) should remain in effect, in whole or in part, during 2007 or any year or years subsequent to 2007. In evaluating the requirement of paragraph (2) and in making any determination under this section, the Administrator shall consider the best available information and data collected by accepted methods or best available means regarding—

“(A) the capacity of renewable fuel producers to supply an adequate amount of renewable fuel at competitive prices to fulfill the requirement of paragraph (2);

“(B) the potential of the requirement of paragraph (2) to significantly raise the price of gasoline, food (excluding the net price impact on the requirement in paragraph (2) on commodities used in the production of ethanol), or heating oil for consumers in any significant area or region of the country above the price that would otherwise apply to such commodities in the absence of such requirement;

“(C) the potential of the requirement of paragraph (2) to interfere with the supply of fuel in any significant gasoline market or region of the country, including interference with the efficient operation of refiners, blenders, importers, wholesale suppliers, and retail vendors of gasoline, and other motor fuels; and

“(D) the potential of the requirement of paragraph (2) to cause or promote exceedances of Federal, State, or local air quality standards.

If the Administrator determines, by clear and convincing information, after public notice and the opportunity for comment, that the requirement of paragraph (2) would have significant and meaningful adverse impact on the supply of fuel and related infrastructure or on the economy, public health, or environment of any significant area or region of the country, the Administrator may waive, in whole or in part, the requirement of paragraph (2) in any one year for which the determination is made for that area or region of the country, except that any such waiver shall not have the effect of reducing the applicable volume of renewable fuel specified in paragraph (2)(B) with respect to any year for which the determination is made. In determining economic impact under this paragraph, the Administrator shall not consider the reduced revenues available from the Highway Trust Fund (section 9503 of the Internal Revenue Code of 1986) as a result of the use of ethanol.

“(11) SMALL REFINERIES.—

“(A) IN GENERAL.—The requirement of paragraph (2) shall not apply to small refineries until the first calendar year beginning more than 5 years after the first year set forth in the table in paragraph (2)(B)(i). Not later than December 31, 2007, the Secretary of Energy shall complete for the Administrator a study to determine whether the requirement of paragraph (2) would impose a disproportionate economic hardship on small refineries. For any small refinery that the Secretary of Energy determines would experience a disproportionate economic hardship, the Administrator shall extend the small refinery exemption for such small refinery for no less than two additional years.

“(B) ECONOMIC HARDSHIP.—

“(i) EXTENSION OF EXEMPTION.—A small refinery may at any time petition the Administrator for an extension of the exemption from the requirement of paragraph (2) for the reason of disproportionate economic hardship. In evaluating a hardship petition, the Administrator, in consultation with the Secretary of Energy, shall consider the findings

of the study in addition to other economic factors.

“(ii) DEADLINE FOR ACTION ON PETITIONS.—The Administrator shall act on any petition submitted by a small refinery for a hardship exemption not later than 90 days after the receipt of the petition.

“(C) CREDIT PROGRAM.—If a small refinery notifies the Administrator that it waives the exemption provided by this Act, the regulations shall provide for the generation of credits by the small refinery beginning in the year following such notification.

“(D) OPT-IN FOR SMALL REFINERS.—A small refinery shall be subject to the requirements of this section if it notifies the Administrator that it waives the exemption under subparagraph (A).

“(12) ETHANOL MARKET CONCENTRATION ANALYSIS.—

“(A) ANALYSIS.—

“(i) IN GENERAL.—Not later than 180 days after the date of enactment of this subsection, and annually thereafter, the Federal Trade Commission shall perform a market concentration analysis of the ethanol production industry using the Herfindahl-Hirschman Index to determine whether there is sufficient competition among industry participants to avoid price setting and other anticompetitive behavior.

“(ii) SCORING.—For the purpose of scoring under clause (i) using the Herfindahl-Hirschman Index, all marketing arrangements among industry participants shall be considered.

“(B) REPORT.—Not later than December 1, 2004, and annually thereafter, the Federal Trade Commission shall submit to Congress and the Administrator a report on the results of the market concentration analysis performed under subparagraph (A)(i).”

(b) PENALTIES AND ENFORCEMENT.—Section 211(d) of the Clean Air Act (42 U.S.C. 7545(d)) is amended as follows:

(1) In paragraph (1)—

(A) in the first sentence, by striking “or (n)” each place it appears and inserting “(n), or (o)”;

(B) in the second sentence, by striking “or (m)” and inserting “(m), or (o)”.

(2) In the first sentence of paragraph (2), by striking “and (n)” each place it appears and inserting “(n), and (o)”.

(c) SURVEY OF RENEWABLE FUEL MARKET.—

(1) SURVEY AND REPORT.—Not later than December 1, 2006, and annually thereafter, the Administrator of the Environmental Protection Agency (in consultation with the Secretary of Energy acting through the Administrator of the Energy Information Administration) shall—

(A) conduct, with respect to each conventional gasoline use area and each reformulated gasoline use area in each State, a survey to determine the market shares of—

(i) conventional gasoline containing ethanol;

(ii) reformulated gasoline containing ethanol;

(iii) conventional gasoline containing renewable fuel; and

(iv) reformulated gasoline containing renewable fuel; and

(B) submit to Congress, and make publicly available, a report on the results of the survey under subparagraph (A).

(2) RECORDKEEPING AND REPORTING REQUIREMENTS.—The Administrator of the Environmental Protection Agency (hereinafter in this subsection referred to as the “Administrator”) may require any refiner, blender, or importer to keep such records and make such reports as are necessary to ensure that the survey conducted under paragraph (1) is accurate. The Administrator, to avoid duplicative requirements, shall rely, to the extent

practicable, on existing reporting and recordkeeping requirements and other information available to the Administrator including gasoline distribution patterns that include multistate use areas.

(3) **APPLICABLE LAW.**—Activities carried out under this subsection shall be conducted in a manner designed to protect confidentiality of individual responses.

SEC. 1502. FUELS SAFE HARBOR.

(a) **IN GENERAL.**—Notwithstanding any other provision of Federal or State law, no renewable fuel, as defined by section 211(o)(1) of the Clean Air Act, or methyl tertiary butyl ether (hereinafter in this section referred to as “MTBE”), used or intended to be used as a motor vehicle fuel, nor any motor vehicle fuel containing such renewable fuel or MTBE, shall be deemed a defective product by virtue of the fact that it is, or contains, such a renewable fuel or MTBE, if it does not violate a control or prohibition imposed by the Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the “Administrator”) under section 211 of such Act, and the manufacturer is in compliance with all requests for information under subsection (b) of such section 211 of such Act. If the safe harbor provided by this section does not apply, the existence of a claim of defective product shall be determined under otherwise applicable law. Nothing in this subsection shall be construed to affect the liability of any person for environmental remediation costs, drinking water contamination, negligence for spills or other reasonably foreseeable events, public or private nuisance, trespass, breach of warranty, breach of contract, or any other liability other than liability based upon a claim of defective product.

(b) **EFFECTIVE DATE.**—This section shall be effective as of September 5, 2003, and shall apply with respect to all claims filed on or after that date.

SEC. 1503. FINDINGS AND MTBE TRANSITION ASSISTANCE.

(a) **FINDINGS.**—Congress finds that—

(1) since 1979, methyl tertiary butyl ether (hereinafter in this section referred to as “MTBE”) has been used nationwide at low levels in gasoline to replace lead as an octane booster or anti-knocking agent;

(2) Public Law 101-549 (commonly known as the “Clean Air Act Amendments of 1990”) (42 U.S.C. 7401 et seq.) established a fuel oxygenate standard under which reformulated gasoline must contain at least 2 percent oxygen by weight;

(3) at the time of the adoption of the fuel oxygen standard, Congress was aware that significant use of MTBE would result from the adoption of that standard, and that the use of MTBE would likely be important to the cost-effective implementation of that program;

(4) Congress was aware that gasoline and its component additives can and do leak from storage tanks;

(5) the fuel industry responded to the fuel oxygenate standard established by Public Law 101-549 by making substantial investments in—

(A) MTBE production capacity; and

(B) systems to deliver MTBE-containing gasoline to the marketplace;

(6) having previously required oxygenates like MTBE for air quality purposes, Congress has—

(A) reconsidered the relative value of MTBE in gasoline;

(B) decided to establish a date certain for action by the Environmental Protection Agency to prohibit the use of MTBE in gasoline; and

(C) decided to provide for the elimination of the oxygenate requirement for reformu-

lated gasoline and to provide for a renewable fuels content requirement for motor fuel; and

(7) it is appropriate for Congress to provide some limited transition assistance—

(A) to merchant producers of MTBE who produced MTBE in response to a market created by the oxygenate requirement contained in the Clean Air Act; and

(B) for the purpose of mitigating any fuel supply problems that may result from the elimination of the oxygenate requirement for reformulated gasoline and from the decision to establish a date certain for action by the Environmental Protection Agency to prohibit the use of MTBE in gasoline.

(b) **PURPOSES.**—The purpose of this section is to provide assistance to merchant producers of MTBE in making the transition from producing MTBE to producing other fuel additives.

(c) **MTBE MERCHANT PRODUCER CONVERSION ASSISTANCE.**—Section 211(c) of the Clean Air Act (42 U.S.C. 7545(c)) is amended by adding at the end the following:

“(5) **MTBE MERCHANT PRODUCER CONVERSION ASSISTANCE.**—

“(A) **IN GENERAL.**—

“(i) **GRANTS.**—The Secretary of Energy, in consultation with the Administrator, may make grants to merchant producers of methyl tertiary butyl ether (hereinafter in this subsection referred to as ‘MTBE’) in the United States to assist the producers in the conversion of eligible production facilities described in subparagraph (C) to the production of iso-octane, iso-octene, alkylates, or renewable fuels.

“(ii) **DETERMINATION.**—The Administrator, in consultation with the Secretary of Energy, may determine that transition assistance for the production of iso-octane, iso-octene, alkylates, or renewable fuels is inconsistent with the provisions of subparagraph (B) and, on that basis, may deny applications for grants authorized by this paragraph.

“(B) **FURTHER GRANTS.**—The Secretary of Energy, in consultation with the Administrator, may also further make grants to merchant producers of MTBE in the United States to assist the producers in the conversion of eligible production facilities described in subparagraph (C) to the production of such other fuel additives (unless the Administrator determines that such fuel additives may reasonably be anticipated to endanger public health or the environment) that, consistent with this subsection—

“(i) have been registered and have been tested or are being tested in accordance with the requirements of this section; and

“(ii) will contribute to replacing gasoline volumes lost as a result of amendments made to subsection (k) of this section by section 1504(a) and 1506 of the Energy Policy Act of 2003.

“(C) **ELIGIBLE PRODUCTION FACILITIES.**—A production facility shall be eligible to receive a grant under this paragraph if the production facility—

“(i) is located in the United States; and

“(ii) produced MTBE for consumption before April 1, 2003 and ceased production at any time after the date of enactment of this paragraph.

“(D) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this paragraph \$250,000,000 for each of fiscal years 2005 through 2012, to remain available until expended.”.

(d) **EFFECT ON STATE LAW.**—The amendments made to the Clean Air Act by this title have no effect regarding any available authority of States to limit the use of methyl tertiary butyl ether in motor vehicle fuel.

SEC. 1504. USE OF MTBE.

(a) **IN GENERAL.**—Subject to subsections (e) and (f), not later than December 31, 2014, the use of methyl tertiary butyl ether (hereinafter in this section referred to as “MTBE”) in motor vehicle fuel in any State other than a State described in subsection (c) is prohibited.

(b) **REGULATIONS.**—The Administrator of the Environmental Protection Agency (hereinafter referred to in this section as the “Administrator”) shall promulgate regulations to effect the prohibition in subsection (a).

(c) **STATES THAT AUTHORIZE USE.**—A State described in this subsection is a State in which the Governor of the State submits a notification to the Administrator authorizing the use of MTBE in motor vehicle fuel sold or used in the State.

(d) **PUBLICATION OF NOTICE.**—The Administrator shall publish in the Federal Register each notice submitted by a State under subsection (c).

(e) **TRACE QUANTITIES.**—In carrying out subsection (a), the Administrator may allow trace quantities of MTBE, not to exceed 0.5 percent by volume, to be present in motor vehicle fuel in cases that the Administrator determines to be appropriate.

(f) **LIMITATION.**—The Administrator, under authority of subsection (a), shall not prohibit or control the production of MTBE for export from the United States or for any other use other than for use in motor vehicle fuel.

SEC. 1505. NATIONAL ACADEMY OF SCIENCES REVIEW AND PRESIDENTIAL DETERMINATION.

(a) **NAS REVIEW.**—Not later than May 31, 2013, the Secretary shall enter into an arrangement with the National Academy of Sciences to review the use of methyl tertiary butyl ether (hereinafter referred to in this section as “MTBE”) in fuel and fuel additives. The review shall only use the best available scientific information and data collected by accepted methods or the best available means. The review shall examine the use of MTBE in fuel and fuel additives, significant beneficial and detrimental effects of this use on environmental quality or public health or welfare including the costs and benefits of such effects, likely effects of controls or prohibitions on MTBE regarding fuel availability and price, and other appropriate and reasonable actions that are available to protect the environment or public health or welfare from any detrimental effects of the use of MTBE in fuel or fuel additives. The review shall be peer-reviewed prior to publication and all supporting data and analytical models shall be available to the public. The review shall be completed no later than May 31, 2014.

(b) **PRESIDENTIAL DETERMINATION.**—No later than June 30, 2014, the President may make a determination that restrictions on the use of MTBE to be implemented pursuant to section 1504 shall not take place and that the legal authority contained in section 1504 to prohibit the use of MTBE in motor vehicle fuel shall become null and void.

SEC. 1506. ELIMINATION OF OXYGEN CONTENT REQUIREMENT FOR REFORMULATED GASOLINE.

(a) **ELIMINATION.**—

(1) **IN GENERAL.**—Section 211(k) of the Clean Air Act (42 U.S.C. 7545(k)) is amended as follows:

(A) In paragraph (2)—

(i) in the second sentence of subparagraph (A), by striking “(including the oxygen content requirement contained in subparagraph (B))”;

(ii) by striking subparagraph (B); and

(iii) by redesignating subparagraphs (C) and (D) as subparagraphs (B) and (C), respectively.

(B) In paragraph (3)(A), by striking clause (v).

(C) In paragraph (7)—

(i) in subparagraph (A)—

(I) by striking clause (i); and

(II) by redesignating clauses (ii) and (iii) as clauses (i) and (ii), respectively; and

(ii) in subparagraph (C)—

(I) by striking clause (ii).

(II) by redesignating clause (iii) as clause (ii).

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) take effect 270 days after the date of enactment of this Act, except that such amendments shall take effect upon such date of enactment in any State that has received a waiver under section 209(b) of the Clean Air Act.

(b) MAINTENANCE OF TOXIC AIR POLLUTANT EMISSION REDUCTIONS.—Section 211(k)(1) of the Clean Air Act (42 U.S.C. 7545(k)(1)) is amended as follows:

(1) By striking “Within 1 year after the enactment of the Clean Air Act Amendments of 1990,” and inserting the following:

“(A) IN GENERAL.—Not later than November 15, 1991.”

(2) By adding at the end the following:

“(B) MAINTENANCE OF TOXIC AIR POLLUTANT EMISSIONS REDUCTIONS FROM REFORMULATED GASOLINE.—

“(i) DEFINITIONS.—In this subparagraph the term ‘PADD’ means a Petroleum Administration for Defense District.

“(ii) REGULATIONS REGARDING EMISSIONS OF TOXIC AIR POLLUTANTS.—Not later than 270 days after the date of enactment of this subparagraph the Administrator shall establish, for each refinery or importer, standards for toxic air pollutants from use of the reformulated gasoline produced or distributed by the refinery or importer that maintain the reduction of the average annual aggregate emissions of toxic air pollutants for reformulated gasoline produced or distributed by the refinery or importer during calendar years 1999 and 2000, determined on the basis of data collected by the Administrator with respect to the refinery or importer.

“(iii) STANDARDS APPLICABLE TO SPECIFIC REFINERIES OR IMPORTERS.—

“(I) APPLICABILITY OF STANDARDS.—For any calendar year, the standards applicable to a refinery or importer under clause (ii) shall apply to the quantity of gasoline produced or distributed by the refinery or importer in the calendar year only to the extent that the quantity is less than or equal to the average annual quantity of reformulated gasoline produced or distributed by the refinery or importer during calendar years 1999 and 2000.

“(II) APPLICABILITY OF OTHER STANDARDS.—For any calendar year, the quantity of gasoline produced or distributed by a refinery or importer that is in excess of the quantity subject to subclause (I) shall be subject to standards for toxic air pollutants promulgated under subparagraph (A) and paragraph (3)(B).

“(iv) CREDIT PROGRAM.—The Administrator shall provide for the granting and use of credits for emissions of toxic air pollutants in the same manner as provided in paragraph (7).

“(v) REGIONAL PROTECTION OF TOXICS REDUCTION BASELINES.—

“(I) IN GENERAL.—Not later than 60 days after the date of enactment of this subparagraph, and not later than April 1 of each calendar year that begins after that date of enactment, the Administrator shall publish in the Federal Register a report that specifies, with respect to the previous calendar year—

“(aa) the quantity of reformulated gasoline produced that is in excess of the average annual quantity of reformulated gasoline produced in 1999 and 2000; and

“(bb) the reduction of the average annual aggregate emissions of toxic air pollutants in each PADD, based on retail survey data or data from other appropriate sources.

“(II) EFFECT OF FAILURE TO MAINTAIN AGGREGATE TOXICS REDUCTIONS.—If, in any calendar year, the reduction of the average annual aggregate emissions of toxic air pollutants in a PADD fails to meet or exceed the reduction of the average annual aggregate emissions of toxic air pollutants in the PADD in calendar years 1999 and 2000, the Administrator, not later than 90 days after the date of publication of the report for the calendar year under subclause (I), shall—

“(aa) identify, to the maximum extent practicable, the reasons for the failure, including the sources, volumes, and characteristics of reformulated gasoline that contributed to the failure; and

“(bb) promulgate revisions to the regulations promulgated under clause (ii), to take effect not earlier than 180 days but not later than 270 days after the date of promulgation, to provide that, notwithstanding clause (iii)(I), all reformulated gasoline produced or distributed at each refinery or importer shall meet the standards applicable under clause (ii) not later than April 1 of the year following the report in subclause (II) and for subsequent years.

“(vi) REGULATIONS TO CONTROL HAZARDOUS AIR POLLUTANTS FROM MOTOR VEHICLES AND MOTOR VEHICLE FUELS.—Not later than July 1, 2004, the Administrator shall promulgate final regulations to control hazardous air pollutants from motor vehicles and motor vehicle fuels, as provided for in section 80.1045 of title 40, Code of Federal Regulations (as in effect on the date of enactment of this subparagraph).”

(c) CONSOLIDATION IN REFORMULATED GASOLINE REGULATIONS.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall revise the reformulated gasoline regulations under subpart D of part 80 of title 40, Code of Federal Regulations, to consolidate the regulations applicable to VOC-Control Regions 1 and 2 under section 80.41 of that title by eliminating the less stringent requirements applicable to gasoline designated for VOC-Control Region 2 and instead applying the more stringent requirements applicable to gasoline designated for VOC-Control Region 1.

(d) SAVINGS CLAUSE.—Nothing in this section is intended to affect or prejudice either any legal claims or actions with respect to regulations promulgated by the Administrator of the Environmental Protection Agency (hereinafter in this subsection referred to as the “Administrator”) prior to the date of enactment of this Act regarding emissions of toxic air pollutants from motor vehicles or the adjustment of standards applicable to a specific refinery or importer made under such prior regulations and the Administrator may apply such adjustments to the standards applicable to such refinery or importer under clause (iii)(I) of section 211(k)(1)(B) of the Clean Air Act, except that—

(1) the Administrator shall revise such adjustments to be based only on calendar years 1999–2000; and

(2) for adjustments based on toxic air pollutant emissions from reformulated gasoline significantly below the national annual average emissions of toxic air pollutants from all reformulated gasoline, the Administrator may revise such adjustments to take account of the scope of Federal or State prohibitions on the use of methyl tertiary butyl ether imposed after the date of the enactment of this paragraph, except that any such adjustment shall require such refiner or importer, to the greatest extent practicable, to

maintain the reduction achieved during calendar years 1999–2000 in the average annual aggregate emissions of toxic air pollutants from reformulated gasoline produced or distributed by the refinery or importer; *Provided*, that any such adjustment shall not be made at a level below the average percentage of reductions of emissions of toxic air pollutants for reformulated gasoline supplied to PADD I during calendar years 1999–2000.

SEC. 1507. ANALYSES OF MOTOR VEHICLE FUEL CHANGES.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by inserting after subsection (o) the following:

“(p) ANALYSES OF MOTOR VEHICLE FUEL CHANGES AND EMISSIONS MODEL.—

“(1) ANTI-BACKSLIDING ANALYSIS.—

“(A) DRAFT ANALYSIS.—Not later than 4 years after the date of enactment of this subsection, the Administrator shall publish for public comment a draft analysis of the changes in emissions of air pollutants and air quality due to the use of motor vehicle fuel and fuel additives resulting from implementation of the amendments made by subtitle A of title XV of the Energy Policy Act of 2003.

“(B) FINAL ANALYSIS.—After providing a reasonable opportunity for comment but not later than 5 years after the date of enactment of this paragraph, the Administrator shall publish the analysis in final form.

“(2) EMISSIONS MODEL.—For the purposes of this subsection, as soon as the necessary data are available, the Administrator shall develop and finalize an emissions model that reasonably reflects the effects of gasoline characteristics or components on emissions from vehicles in the motor vehicle fleet during calendar year 2005.”

SEC. 1508. DATA COLLECTION.

Section 205 of the Department of Energy Organization Act (42 U.S.C. 7135) is amended by adding at the end the following:

“(m) RENEWABLE FUELS SURVEY.—(1) In order to improve the ability to evaluate the effectiveness of the Nation’s renewable fuels mandate, the Administrator shall conduct and publish the results of a survey of renewable fuels demand in the motor vehicle fuels market in the United States monthly, and in a manner designed to protect the confidentiality of individual responses. In conducting the survey, the Administrator shall collect information both on a national and regional basis, including each of the following:

“(A) The quantity of renewable fuels produced.

“(B) The quantity of renewable fuels blended.

“(C) The quantity of renewable fuels imported.

“(D) The quantity of renewable fuels demanded.

“(E) Market price data.

“(F) Such other analyses or evaluations as the Administrator finds is necessary to achieve the purposes of this section.

“(2) The Administrator shall also collect or estimate information both on a national and regional basis, pursuant to subparagraphs (A) through (F) of paragraph (1), for the 5 years prior to implementation of this subsection.

“(3) This subsection does not affect the authority of the Administrator to collect data under section 52 of the Federal Energy Administration Act of 1974 (15 U.S.C. 790a).”

SEC. 1509. REDUCING THE PROLIFERATION OF STATE FUEL CONTROLS.

(a) EPA APPROVAL OF STATE PLANS WITH FUEL CONTROLS.—Section 211(c)(4)(C) of the Clean Air Act (42 U.S.C. 7545(c)(4)(C)) is amended by adding at the end the following: “The Administrator shall not approve a control or prohibition respecting the use of a

fuel or fuel additive under this subparagraph unless the Administrator, after consultation with the Secretary of Energy, publishes in the Federal Register a finding that, in the Administrator's judgment, such control or prohibition will not cause fuel supply or distribution interruptions or have a significant adverse impact on fuel producibility in the affected area or contiguous areas."

(b) **STUDY.**—The Administrator of the Environmental Protection Agency (hereinafter in this subsection referred to as the "Administrator"), in cooperation with the Secretary of Energy, shall undertake a study of the projected effects on air quality, the proliferation of fuel blends, fuel availability, and fuel costs of providing a preference for each of the following:

(A) Reformulated gasoline referred to in subsection (k) of section 211 of the Clean Air Act.

(B) A low RVP gasoline blend that has been certified by the Administrator as having a Reid Vapor Pressure of 7.0 pounds per square inch (psi).

(C) A low RVP gasoline blend that has been certified by the Administrator as having a Reid Vapor Pressure of 7.8 pounds per square inch (psi).

In carrying out such study, the Administrator shall obtain comments from affected parties. The Administrator shall submit the results of such study to the Congress not later than 18 months after the date of enactment of this Act, together with any recommended legislative changes.

SEC. 1510. FUEL SYSTEM REQUIREMENTS HARMONIZATION STUDY.

(a) **STUDY.**—

(1) **IN GENERAL.**—The Administrator of the Environmental Protection Agency (hereinafter in this section referred to as the "Administrator") and the Secretary of Energy shall jointly conduct a study of Federal, State, and local requirements concerning motor vehicle fuels, including—

(A) requirements relating to reformulated gasoline, volatility (measured in Reid vapor pressure), oxygenated fuel, and diesel fuel; and

(B) other requirements that vary from State to State, region to region, or locality to locality.

(2) **REQUIRED ELEMENTS.**—The study shall assess—

(A) the effect of the variety of requirements described in paragraph (1) on the supply, quality, and price of motor vehicle fuels available to consumers in various States and localities;

(B) the effect of the requirements described in paragraph (1) on achievement of—

(i) national, regional, and local air quality standards and goals; and

(ii) related environmental and public health protection standards and goals;

(C) the effect of Federal, State, and local motor vehicle fuel regulations, including multiple motor vehicle fuel requirements, on—

(i) domestic refineries;

(ii) the fuel distribution system; and

(iii) industry investment in new capacity;

(D) the effect of the requirements described in paragraph (1) on emissions from vehicles, refineries, and fuel handling facilities;

(E) the feasibility of developing national or regional motor vehicle fuel slates for the 48 contiguous States that, while improving air quality at the national, regional and local levels consistent with the attainment of national ambient air quality standards, could—

(i) enhance flexibility in the fuel distribution infrastructure and improve fuel fungibility;

(ii) reduce price volatility and costs to consumers and producers;

(iii) provide increased liquidity to the gasoline market; and

(iv) enhance fuel quality, consistency, and supply;

(F) the feasibility of providing incentives to promote cleaner burning motor vehicle fuel; and

(G) the extent to which improvements in air quality and any increases or decreases in the price of motor fuel can be projected to result from the Environmental Protection Agency's Tier II requirements for conventional gasoline and vehicle emission systems, the reformulated gasoline program, the renewable content requirements established by this subtitle, State programs regarding gasoline volatility, and any other requirements imposed by States or localities affecting the composition of motor fuel.

(b) **REPORT.**—

(1) **IN GENERAL.**—Not later than December 31, 2007, the Administrator and the Secretary of Energy shall submit to Congress a report on the results of the study conducted under subsection (a).

(2) **RECOMMENDATIONS.**—

(A) **IN GENERAL.**—The report under this subsection shall contain recommendations for legislative and administrative actions that may be taken—

(i) to improve air quality;

(ii) to reduce costs to consumers and producers; and

(iii) to increase supply liquidity.

(B) **REQUIRED CONSIDERATIONS.**—The recommendations under subparagraph (A) shall take into account the need to provide advance notice of required modifications to refinery and fuel distribution systems in order to ensure an adequate supply of motor vehicle fuel in all States.

(3) **CONSULTATION.**—In developing the report under this subsection, the Administrator and the Secretary of Energy shall consult with—

(A) the Governors of the States;

(B) automobile manufacturers;

(C) motor vehicle fuel producers and distributors; and

(D) the public.

SEC. 1511. COMMERCIAL BYPRODUCTS FROM MUNICIPAL SOLID WASTE AND CELLULOSIC BIOMASS LOAN GUARANTEE PROGRAM.

(a) **DEFINITION OF MUNICIPAL SOLID WASTE.**—In this section, the term "municipal solid waste" has the meaning given the term "solid waste" in section 1004 of the Solid Waste Disposal Act (42 U.S.C. 6903).

(b) **ESTABLISHMENT OF PROGRAM.**—The Secretary of Energy (hereinafter in this section referred to as the "Secretary") shall establish a program to provide guarantees of loans by private institutions for the construction of facilities for the processing and conversion of municipal solid waste and cellulosic biomass into fuel ethanol and other commercial byproducts.

(c) **REQUIREMENTS.**—The Secretary may provide a loan guarantee under subsection (b) to an applicant if—

(1) without a loan guarantee, credit is not available to the applicant under reasonable terms or conditions sufficient to finance the construction of a facility described in subsection (b);

(2) the prospective earning power of the applicant and the character and value of the security pledged provide a reasonable assurance of repayment of the loan to be guaranteed in accordance with the terms of the loan; and

(3) the loan bears interest at a rate determined by the Secretary to be reasonable, taking into account the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

(d) **CRITERIA.**—In selecting recipients of loan guarantees from among applicants, the Secretary shall give preference to proposals that—

(1) meet all applicable Federal and State permitting requirements;

(2) are most likely to be successful; and

(3) are located in local markets that have the greatest need for the facility because of—

(A) the limited availability of land for waste disposal;

(B) the availability of sufficient quantities of cellulosic biomass; or

(C) a high level of demand for fuel ethanol or other commercial byproducts of the facility.

(e) **MATURITY.**—A loan guaranteed under subsection (b) shall have a maturity of not more than 20 years.

(f) **TERMS AND CONDITIONS.**—The loan agreement for a loan guaranteed under subsection (b) shall provide that no provision of the loan agreement may be amended or waived without the consent of the Secretary.

(g) **ASSURANCE OF REPAYMENT.**—The Secretary shall require that an applicant for a loan guarantee under subsection (b) provide an assurance of repayment in the form of a performance bond, insurance, collateral, or other means acceptable to the Secretary in an amount equal to not less than 20 percent of the amount of the loan.

(h) **GUARANTEE FEE.**—The recipient of a loan guarantee under subsection (b) shall pay the Secretary an amount determined by the Secretary to be sufficient to cover the administrative costs of the Secretary relating to the loan guarantee.

(i) **FULL FAITH AND CREDIT.**—The full faith and credit of the United States is pledged to the payment of all guarantees made under this section. Any such guarantee made by the Secretary shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest. The validity of the guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(j) **REPORTS.**—Until each guaranteed loan under this section has been repaid in full, the Secretary shall annually submit to Congress a report on the activities of the Secretary under this section.

(k) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as are necessary to carry out this section.

(l) **TERMINATION OF AUTHORITY.**—The authority of the Secretary to issue a loan guarantee under subsection (b) terminates on the date that is 10 years after the date of enactment of this Act.

SEC. 1512. RESOURCE CENTER.

(a) **DEFINITION.**—In this section, the term "RFG State" means a State in which is located one or more covered areas (as defined in section 211(k)(10)(D) of the Clean Air Act (42 U.S.C. 7545(k)(10)(D)).

(b) **AUTHORIZATION OF APPROPRIATIONS FOR RESOURCE CENTER.**—There are authorized to be appropriated, for a resource center to further develop bioconversion technology using low-cost biomass for the production of ethanol at the Center for Biomass-Based Energy at the University of Mississippi and the University of Oklahoma, \$4,000,000 for each of fiscal years 2004 through 2006.

(c) **RENEWABLE FUEL PRODUCTION RESEARCH AND DEVELOPMENT GRANTS.**—

(1) **IN GENERAL.**—The Administrator of the Environmental Protection Agency shall provide grants for the research into, and development and implementation of, renewable fuel production technologies in RFG States with low rates of ethanol production, including low rates of production of cellulosic biomass ethanol.

(2) ELIGIBILITY.—

(A) IN GENERAL.—The entities eligible to receive a grant under this subsection are academic institutions in RFG States, and consortia made up of combinations of academic institutions, industry, State government agencies, or local government agencies in RFG States, that have proven experience and capabilities with relevant technologies.

(B) APPLICATION.—To be eligible to receive a grant under this subsection, an eligible entity shall submit to the Administrator an application in such manner and form, and accompanied by such information, as the Administrator may specify.

(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this subsection \$25,000,000 for each of fiscal years 2004 through 2008.

SEC. 1513. CELLULOSIC BIOMASS AND WASTE-DERIVED ETHANOL CONVERSION ASSISTANCE.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by adding at the end the following:

“(r) CELLULOSIC BIOMASS AND WASTE-DERIVED ETHANOL CONVERSION ASSISTANCE.—

“(1) IN GENERAL.—The Secretary of Energy may provide grants to merchant producers of cellulosic biomass ethanol and waste-derived ethanol in the United States to assist the producers in building eligible production facilities described in paragraph (2) for the production of ethanol.

“(2) ELIGIBLE PRODUCTION FACILITIES.—A production facility shall be eligible to receive a grant under this subsection if the production facility—

“(A) is located in the United States; and

“(B) uses cellulosic biomass or waste-derived feedstocks derived from agricultural residues, municipal solid waste, or agricultural byproducts as that term is used in section 919 of the Energy Policy Act of 2003.

“(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated the following amounts to carry out this subsection:

“(A) \$100,000,000 for fiscal year 2004.

“(B) \$250,000,000 for fiscal year 2005.

“(C) \$400,000,000 for fiscal year 2006.”

SEC. 1514. BLENDING OF COMPLIANT REFORMULATED GASOLINES.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by adding at the end the following:

“(s) BLENDING OF COMPLIANT REFORMULATED GASOLINES.—

“(1) IN GENERAL.—Notwithstanding subsections (h) and (k) and subject to the limitations in paragraph (2) of this subsection, it shall not be a violation of this subtitle for a gasoline retailer, during any month of the year, to blend at a retail location batches of ethanol-blended and non-ethanol-blended reformulated gasoline, provided that—

“(A) each batch of gasoline to be blended has been individually certified as in compliance with subsections (h) and (k) prior to being blended;

“(B) the retailer notifies the Administrator prior to such blending, and identifies the exact location of the retail station and the specific tank in which such blending will take place;

“(C) the retailer retains and, as requested by the Administrator or the Administrator's designee, makes available for inspection such certifications accounting for all gasoline at the retail outlet; and

“(D) the retailer does not, between June 1 and September 15 of each year, blend a batch of VOC-controlled, or ‘summer’, gasoline with a batch of non-VOC-controlled, or ‘winter’, gasoline (as these terms are defined under subsections (h) and (k)).

“(2) LIMITATIONS.—

“(A) FREQUENCY LIMITATION.—A retailer shall only be permitted to blend batches of compliant reformulated gasoline under this subsection a maximum of two blending periods between May 1 and September 15 of each calendar year.

“(B) DURATION OF BLENDING PERIOD.—Each blending period authorized under subparagraph (A) shall extend for a period of no more than 10 consecutive calendar days.

“(3) SURVEYS.—A sample of gasoline taken from a retail location that has blended gasoline within the past 30 days and is in compliance with subparagraphs (A), (B), (C), and (D) of paragraph (1) shall not be used in a VOC survey mandated by 40 C.F.R. Part 80.

“(4) STATE IMPLEMENTATION PLANS.—A State shall be held harmless and shall not be required to revise its State implementation plan under section 110 to account for the emissions from blended gasoline authorized under paragraph (1).

“(5) PRESERVATION OF STATE LAW.—Nothing in this subsection shall—

“(A) preempt existing State laws or regulations regulating the blending of compliant gasolines; or

“(B) prohibit a State from adopting such restrictions in the future.

“(6) REGULATIONS.—The Administrator shall promulgate, after notice and comment, regulations implementing this subsection within one year after the date of enactment of this subsection.

“(7) EFFECTIVE DATE.—This subsection shall become effective 15 months after the date of its enactment and shall apply to blended batches of reformulated gasoline on or after that date, regardless of whether the implementing regulations required by paragraph (6) have been promulgated by the Administrator by that date.

“(8) LIABILITY.—No person other than the person responsible for blending under this subsection shall be subject to an enforcement action or penalties under subsection (d) solely arising from the blending of compliant reformulated gasolines by the retailers.

“(9) FORMULATION OF GASOLINE.—This subsection does not grant authority to the Administrator or any State (or any subdivision thereof) to require reformulation of gasoline at the refinery to adjust for potential or actual emissions increases due to the blending authorized by this subsection.”

Subtitle B—Underground Storage Tank Compliance**SEC. 1521. SHORT TITLE.**

This subtitle may be cited as the “Underground Storage Tank Compliance Act of 2004”.

SEC. 1522. LEAKING UNDERGROUND STORAGE TANKS.

(a) IN GENERAL.—Section 9004 of the Solid Waste Disposal Act (42 U.S.C. 6991c) is amended by adding at the end the following:

“(f) TRUST FUND DISTRIBUTION.—

“(1) IN GENERAL.—

“(A) AMOUNT AND PERMITTED USES OF DISTRIBUTION.—The Administrator shall distribute to States not less than 80 percent of the funds from the Trust Fund that are made available to the Administrator under section 9014(2)(A) for each fiscal year for use in paying the reasonable costs, incurred under a cooperative agreement with any State for—

“(i) actions taken by the State under section 9003(h)(7)(A);

“(ii) necessary administrative expenses, as determined by the Administrator, that are directly related to State fund or State assurance programs under subsection (c)(1);

“(iii) any State fund or State assurance program carried out under subsection (c)(1) for a release from an underground storage tank regulated under this subtitle to the extent that, as determined by the State in ac-

cordance with guidelines developed jointly by the Administrator and the States, the financial resources of the owner and operator of the underground storage tank (including resources provided by a program in accordance with subsection (c)(1)) are not adequate to pay the cost of a corrective action without significantly impairing the ability of the owner or operator to continue in business; or

“(iv) enforcement, by a State or a local government, of State or local regulations pertaining to underground storage tanks regulated under this subtitle.

“(B) USE OF FUNDS FOR ENFORCEMENT.—In addition to the uses of funds authorized under subparagraph (A), the Administrator may use funds from the Trust Fund that are not distributed to States under subparagraph (A) for enforcement of any regulation promulgated by the Administrator under this subtitle.

“(C) PROHIBITED USES.—Funds provided to a State by the Administrator under subparagraph (A) shall not be used by the State to provide financial assistance to an owner or operator to meet any requirement relating to underground storage tanks under subparts B, C, D, H, and G of part 280 of title 40, Code of Federal Regulations (as in effect on the date of enactment of this subsection).

“(2) ALLOCATION.—

“(A) PROCESS.—Subject to subparagraphs (B) and (C), in the case of a State with which the Administrator has entered into a cooperative agreement under section 9003(h)(7)(A), the Administrator shall distribute funds from the Trust Fund to the State using an allocation process developed by the Administrator.

“(B) DIVERSION OF STATE FUNDS.—The Administrator shall not distribute funds under subparagraph (A)(iii) of subsection (f)(1) to any State that has diverted funds from a State fund or State assurance program for purposes other than those related to the regulation of underground storage tanks covered by this subtitle, with the exception of those transfers that had been completed earlier than the date of enactment of this subsection.

“(C) REVISIONS TO PROCESS.—The Administrator may revise the allocation process referred to in subparagraph (A) after—

“(i) consulting with State agencies responsible for overseeing corrective action for releases from underground storage tanks; and

“(ii) taking into consideration, at a minimum, each of the following:

“(I) The number of confirmed releases from federally regulated leaking underground storage tanks in the States.

“(II) The number of federally regulated underground storage tanks in the States.

“(III) The performance of the States in implementing and enforcing the program.

“(IV) The financial needs of the States.

“(V) The ability of the States to use the funds referred to in subparagraph (A) in any year.

“(3) DISTRIBUTIONS TO STATE AGENCIES.—Distributions from the Trust Fund under this subsection shall be made directly to a State agency that—

“(A) enters into a cooperative agreement referred to in paragraph (2)(A); or

“(B) is enforcing a State program approved under this section.

“(4) COST RECOVERY PROHIBITION.—Funds from the Trust Fund provided by States to owners or operators under paragraph (1)(A)(iii) shall not be subject to cost recovery by the Administrator under section 9003(h)(6).”

(b) WITHDRAWAL OF APPROVAL OF STATE FUNDS.—Section 9004(c) of the Solid Waste Disposal Act (42 U.S.C. 6991c(c)) is amended by inserting the following new paragraph at the end thereof:

“(6) WITHDRAWAL OF APPROVAL.—After an opportunity for good faith, collaborative efforts to correct financial deficiencies with a State fund, the Administrator may withdraw approval of any State fund or State assurance program to be used as a financial responsibility mechanism without withdrawing approval of a State underground storage tank program under section 9004(a).”.

SEC. 1523. INSPECTION OF UNDERGROUND STORAGE TANKS.

(a) INSPECTION REQUIREMENTS.—Section 9005 of the Solid Waste Disposal Act (42 U.S.C. 6991d) is amended by inserting the following new subsection at the end thereof:

“(c) INSPECTION REQUIREMENTS.—

“(1) UNINSPECTED TANKS.—In the case of underground storage tanks regulated under this subtitle that have not undergone an inspection since December 22, 1998, not later than 2 years after the date of enactment of this subsection, the Administrator or a State that receives funding under this subtitle, as appropriate, shall conduct on-site inspections of all such tanks to determine compliance with this subtitle and the regulations under this subtitle (40 C.F.R. 280) or a requirement or standard of a State program developed under section 9004.

“(2) PERIODIC INSPECTIONS.—After completion of all inspections required under paragraph (1), the Administrator or a State that receives funding under this subtitle, as appropriate, shall conduct on-site inspections of each underground storage tank regulated under this subtitle at least once every 3 years to determine compliance with this subtitle and the regulations under this subtitle (40 C.F.R. 280) or a requirement or standard of a State program developed under section 9004. The Administrator may extend for up to one additional year the first 3-year inspection interval under this paragraph if the State demonstrates that it has insufficient resources to complete all such inspections within the first 3-year period.

“(3) INSPECTION AUTHORITY.—Nothing in this section shall be construed to diminish the Administrator’s or a State’s authorities under section 9005(a).”.

(b) STUDY OF ALTERNATIVE INSPECTION PROGRAMS.—The Administrator of the Environmental Protection Agency, in coordination with a State, shall gather information on compliance assurance programs that could serve as an alternative to the inspection programs under section 9005(c) of the Solid Waste Disposal Act (42 U.S.C. 6991d(c)) and shall, within 4 years after the date of enactment of this Act, submit a report to the Congress containing the results of such study.

SEC. 1524. OPERATOR TRAINING.

(a) IN GENERAL.—Section 9010 of the Solid Waste Disposal Act (42 U.S.C. 6991i) is amended to read as follows:

“SEC. 9010. OPERATOR TRAINING.

“(a) GUIDELINES.—

“(1) IN GENERAL.—Not later than 2 years after the date of enactment of the Underground Storage Tank Compliance Act of 2004, in consultation and cooperation with States and after public notice and opportunity for comment, the Administrator shall publish guidelines that specify training requirements for persons having primary daily on-site management responsibility for the operation and maintenance of underground storage tanks.

“(2) CONSIDERATIONS.—The guidelines described in paragraph (1) shall take into account—

“(A) State training programs in existence as of the date of publication of the guidelines;

“(B) training programs that are being employed by tank owners and tank operators as

of the date of enactment of the Underground Storage Tank Compliance Act of 2004;

“(C) the high turnover rate of tank operators and other personnel;

“(D) the frequency of improvement in underground storage tank equipment technology;

“(E) the nature of the businesses in which the tank operators are engaged; and

“(F) such other factors as the Administrator determines to be necessary to carry out this section.

“(b) STATE PROGRAMS.—

“(1) IN GENERAL.—Not later than 2 years after the date on which the Administrator publishes the guidelines under subsection (a)(1), each State that receives funding under this subtitle shall develop State-specific training requirements that are consistent with the guidelines developed under subsection (a)(1).

“(2) REQUIREMENTS.—State requirements described in paragraph (1) shall—

“(A) be consistent with subsection (a);

“(B) be developed in cooperation with tank owners and tank operators;

“(C) take into consideration training programs implemented by tank owners and tank operators as of the date of enactment of this section; and

“(D) be appropriately communicated to tank owners and operators.

“(3) FINANCIAL INCENTIVE.—The Administrator may award to a State that develops and implements requirements described in paragraph (1), in addition to any funds that the State is entitled to receive under this subtitle, not more than \$200,000, to be used to carry out the requirements.

“(c) OPERATORS.—All persons having primary daily on-site management responsibility for the operation and maintenance of any underground storage tank shall—

“(1) meet the training requirements developed under subsection (b); and

“(2) repeat the applicable requirements developed under subsection (b), if the tank for which they have primary daily on-site management responsibilities is determined to be out of compliance with—

“(A) a requirement or standard promulgated by the Administrator under section 9003; or

“(B) a requirement or standard of a State program approved under section 9004.”.

(b) STATE PROGRAM REQUIREMENT.—Section 9004(a) of the Solid Waste Disposal Act (42 U.S.C. 6991c(a)) is amended by striking “and” at the end of paragraph (7), by striking the period at the end of paragraph (8) and inserting “; and”, and by adding the following new paragraph at the end thereof:

“(9) State-specific training requirements as required by section 9010.”.

(c) ENFORCEMENT.—Section 9006(d)(2) of such Act (42 U.S.C. 6991e) is amended as follows:

(1) By striking “or” at the end of subparagraph (B).

(2) By adding the following new subparagraph after subparagraph (C):

“(D) the training requirements established by States pursuant to section 9010 (relating to operator training); or”.

(d) TABLE OF CONTENTS.—The item relating to section 9010 in table of contents for the Solid Waste Disposal Act is amended to read as follows:

“Sec. 9010. Operator training.”.

SEC. 1525. REMEDIATION FROM OXYGENATED FUEL ADDITIVES.

Section 9003(h) of the Solid Waste Disposal Act (42 U.S.C. 6991b(h)) is amended as follows:

(1) In paragraph (7)(A)—

(A) by striking “paragraphs (1) and (2) of this subsection” and inserting “paragraphs (1), (2), and (12)”; and

(B) by striking “and including the authorities of paragraphs (4), (6), and (8) of this subsection” and inserting “and the authority under sections 9011 and 9012 and paragraphs (4), (6), and (8).”.

(2) By adding at the end the following:

“(12) REMEDIATION OF OXYGENATED FUEL CONTAMINATION.—

“(A) IN GENERAL.—The Administrator and the States may use funds made available under section 9014(2)(B) to carry out corrective actions with respect to a release of a fuel containing an oxygenated fuel additive that presents a threat to human health or welfare or the environment.

“(B) APPLICABLE AUTHORITY.—The Administrator or a State shall carry out subparagraph (A) in accordance with paragraph (2), and in the case of a State, in accordance with a cooperative agreement entered into by the Administrator and the State under paragraph (7).”.

SEC. 1526. RELEASE PREVENTION, COMPLIANCE, AND ENFORCEMENT.

(a) RELEASE PREVENTION AND COMPLIANCE.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding at the end the following:

“SEC. 9011. USE OF FUNDS FOR RELEASE PREVENTION AND COMPLIANCE.

“Funds made available under section 9014(2)(D) from the Trust Fund may be used to conduct inspections, issue orders, or bring actions under this subtitle—

“(1) by a State, in accordance with a grant or cooperative agreement with the Administrator, of State regulations pertaining to underground storage tanks regulated under this subtitle; and

“(2) by the Administrator, for tanks regulated under this subtitle (including under a State program approved under section 9004).”.

(b) GOVERNMENT-OWNED TANKS.—Section 9003 of the Solid Waste Disposal Act (42 U.S.C. 6991b) is amended by adding at the end the following:

“(i) GOVERNMENT-OWNED TANKS.—

“(1) STATE COMPLIANCE REPORT.—(A) Not later than 2 years after the date of enactment of this subsection, each State that receives funding under this subtitle shall submit to the Administrator a State compliance report that—

“(i) lists the location and owner of each underground storage tank described in subparagraph (B) in the State that, as of the date of submission of the report, is not in compliance with section 9003; and

“(ii) specifies the date of the last inspection and describes the actions that have been and will be taken to ensure compliance of the underground storage tank listed under clause (i) with this subtitle.

“(B) An underground storage tank described in this subparagraph is an underground storage tank that is—

“(i) regulated under this subtitle; and

“(ii) owned or operated by the Federal, State, or local government.

“(C) The Administrator shall make each report, received under subparagraph (A), available to the public through an appropriate media.

“(2) FINANCIAL INCENTIVE.—The Administrator may award to a State that develops a report described in paragraph (1), in addition to any other funds that the State is entitled to receive under this subtitle, not more than \$50,000, to be used to carry out the report.

“(3) NOT A SAFE HARBOR.—This subsection does not relieve any person from any obligation or requirement under this subtitle.”.

(c) PUBLIC RECORD.—Section 9002 of the Solid Waste Disposal Act (42 U.S.C. 6991a) is amended by adding at the end the following:

“(d) PUBLIC RECORD.—

“(1) IN GENERAL.—The Administrator shall require each State that receives Federal funds to carry out this subtitle to maintain, update at least annually, and make available to the public, in such manner and form as the Administrator shall prescribe (after consultation with States), a record of underground storage tanks regulated under this subtitle.

“(2) CONSIDERATIONS.—To the maximum extent practicable, the public record of a State, respectively, shall include, for each year—

“(A) the number, sources, and causes of underground storage tank releases in the State;

“(B) the record of compliance by underground storage tanks in the State with—

“(i) this subtitle; or

“(ii) an applicable State program approved under section 9004; and

“(C) data on the number of underground storage tank equipment failures in the State.”.

(d) INCENTIVE FOR PERFORMANCE.—Section 9006 of the Solid Waste Disposal Act (42 U.S.C. 6991e) is amended by adding at the end the following:

“(e) INCENTIVE FOR PERFORMANCE.—Both of the following may be taken into account in determining the terms of a civil penalty under subsection (d):

“(1) The compliance history of an owner or operator in accordance with this subtitle or a program approved under section 9004.

“(2) Any other factor the Administrator considers appropriate.”.

(e) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

“Sec. 9011. Use of funds for release prevention and compliance.”.

SEC. 1527. DELIVERY PROHIBITION.

(a) IN GENERAL.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding at the end the following:

“SEC. 9012. DELIVERY PROHIBITION.

“(a) REQUIREMENTS.—

“(1) PROHIBITION OF DELIVERY OR DEPOSIT.—Beginning 2 years after the date of enactment of this section, it shall be unlawful to deliver to, deposit into, or accept a regulated substance into an underground storage tank at a facility which has been identified by the Administrator or a State implementing agency to be ineligible for fuel delivery or deposit.

“(2) GUIDANCE.—Within 1 year after the date of enactment of this section, the Administrator and States that receive funding under this subtitle shall, in consultation with the underground storage tank owner and product delivery industries, for territory for which they are the primary implementing agencies, publish guidelines detailing the specific processes and procedures they will use to implement the provisions of this section. The processes and procedures include, at a minimum—

“(A) the criteria for determining which underground storage tank facilities are ineligible for delivery or deposit;

“(B) the mechanisms for identifying which facilities are ineligible for delivery or deposit to the underground storage tank owning and fuel delivery industries;

“(C) the process for reclassifying ineligible facilities as eligible for delivery or deposit; and

“(D) a delineation of, or a process for determining, the specified geographic areas subject to paragraph (4).

“(3) DELIVERY PROHIBITION NOTICE.—

“(A) ROSTER.—The Administrator and each State implementing agency that receives funding under this subtitle shall establish within 24 months after the date of enactment

of this section a Delivery Prohibition Roster listing underground storage tanks under the Administrator's or the State's jurisdiction that are determined to be ineligible for delivery or deposit pursuant to paragraph (2).

“(B) NOTIFICATION.—The Administrator and each State, as appropriate, shall make readily known, to underground storage tank owners and operators and to product delivery industries, the underground storage tanks listed on a Delivery Prohibition Roster by:

“(i) posting such Rosters, including the physical location and street address of each listed underground storage tank, on official web sites and, if the Administrator or the State so chooses, other electronic means;

“(ii) updating these Rosters periodically; and

“(iii) installing a tamper-proof tag, seal, or other device blocking the fill pipes of such underground storage tanks to prevent the delivery of product into such underground storage tanks.

“(C) ROSTER UPDATES.—The Administrator and the State shall update the Delivery Prohibition Rosters as appropriate, but not less than once a month on the first day of the month.

“(D) TAMPERING WITH DEVICE.—

“(i) PROHIBITION.—It shall be unlawful for any person, other than an authorized representative of the Administrator or a State, as appropriate, to remove, tamper with, destroy, or damage a device installed by the Administrator or a State, as appropriate, under subparagraph (B)(iii) of this subsection.

“(ii) CIVIL PENALTIES.—Any person violating clause (i) of this subparagraph shall be subject to a civil penalty not to exceed \$10,000 for each violation.

“(4) LIMITATION.—

“(A) RURAL AND REMOTE AREAS.—Subject to subparagraph (B), the Administrator or a State shall not include an underground storage tank on a Delivery Prohibition Roster under paragraph (3) if an urgent threat to public health, as determined by the Administrator, does not exist and if such a delivery prohibition would jeopardize the availability of, or access to, fuel in any rural and remote areas.

“(B) APPLICABILITY OF LIMITATION.—The limitation under subparagraph (A) shall apply only during the 180-day period following the date of a determination by the Administrator or the appropriate State that exercising the authority of paragraph (3) is limited by subparagraph (A).

“(b) EFFECT ON STATE AUTHORITY.—Nothing in this section shall affect the authority of a State to prohibit the delivery of a regulated substance to an underground storage tank.

“(c) DEFENSE TO VIOLATION.—A person shall not be in violation of subsection (a)(1) if the underground storage tank into which a regulated substance is delivered is not listed on the Administrator's or the appropriate State's Prohibited Delivery Roster 7 calendar days prior to the delivery being made.”.

(b) ENFORCEMENT.—Section 9006(d)(2) of such Act (42 U.S.C. 6991e(d)(2)) is amended as follows:

(1) By adding the following new subparagraph after subparagraph (D):

“(E) the delivery prohibition requirement established by section 9012.”.

(2) By adding the following new sentence at the end thereof: “Any person making or accepting a delivery or deposit of a regulated substance to an underground storage tank at an ineligible facility in violation of section 9012 shall also be subject to the same civil penalty for each day of such violation.”.

(c) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by add-

ing the following new item at the end thereof:

“Sec. 9012. Delivery prohibition.”.

SEC. 1528. FEDERAL FACILITIES.

Section 9007 of the Solid Waste Disposal Act (42 U.S.C. 6991f) is amended to read as follows:

“SEC. 9007. FEDERAL FACILITIES.

“(a) IN GENERAL.—Each department, agency, and instrumentality of the executive, legislative, and judicial branches of the Federal Government (1) having jurisdiction over any underground storage tank or underground storage tank system, or (2) engaged in any activity resulting, or which may result, in the installation, operation, management, or closure of any underground storage tank, release response activities related thereto, or in the delivery, acceptance, or deposit of any regulated substance to an underground storage tank or underground storage tank system shall be subject to, and comply with, all Federal, State, interstate, and local requirements, both substantive and procedural (including any requirement for permits or reporting or any provisions for injunctive relief and such sanctions as may be imposed by a court to enforce such relief), respecting underground storage tanks in the same manner, and to the same extent, as any person is subject to such requirements, including the payment of reasonable service charges. The Federal, State, interstate, and local substantive and procedural requirements referred to in this subsection include, but are not limited to, all administrative orders and all civil and administrative penalties and fines, regardless of whether such penalties or fines are punitive or coercive in nature or are imposed for isolated, intermittent, or continuing violations. The United States hereby expressly waives any immunity otherwise applicable to the United States with respect to any such substantive or procedural requirement (including, but not limited to, any injunctive relief, administrative order or civil or administrative penalty or fine referred to in the preceding sentence, or reasonable service charge). The reasonable service charges referred to in this subsection include, but are not limited to, fees or charges assessed in connection with the processing and issuance of permits, renewal of permits, amendments to permits, review of plans, studies, and other documents, and inspection and monitoring of facilities, as well as any other nondiscriminatory charges that are assessed in connection with a Federal, State, interstate, or local underground storage tank regulatory program. Neither the United States, nor any agent, employee, or officer thereof, shall be immune or exempt from any process or sanction of any State or Federal Court with respect to the enforcement of any such injunctive relief. No agent, employee, or officer of the United States shall be personally liable for any civil penalty under any Federal, State, interstate, or local law concerning underground storage tanks with respect to any act or omission within the scope of the official duties of the agent, employee, or officer. An agent, employee, or officer of the United States shall be subject to any criminal sanction (including, but not limited to, any fine or imprisonment) under any Federal or State law concerning underground storage tanks, but no department, agency, or instrumentality of the executive, legislative, or judicial branch of the Federal Government shall be subject to any such sanction. The President may exempt any underground storage tank of any department, agency, or instrumentality in the executive branch from compliance with such a requirement if he determines it to be in the paramount interest of the United States to do so. No such exemption shall be

granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting each such exemption.

“(b) REVIEW OF AND REPORT ON FEDERAL UNDERGROUND STORAGE TANKS.—

“(1) REVIEW.—Not later than 12 months after the date of enactment of the Underground Storage Tank Compliance Act of 2004, each Federal agency that owns or operates 1 or more underground storage tanks, or that manages land on which 1 or more underground storage tanks are located, shall submit to the Administrator, the Committee on Energy and Commerce of the United States House of Representatives, and the Committee on the Environment and Public Works of the United States Senate a compliance strategy report that—

“(A) lists the location and owner of each underground storage tank described in this paragraph;

“(B) lists all tanks that are not in compliance with this subtitle that are owned or operated by the Federal agency;

“(C) specifies the date of the last inspection by a State or Federal inspector of each underground storage tank owned or operated by the agency;

“(D) lists each violation of this subtitle respecting any underground storage tank owned or operated by the agency;

“(E) describes the operator training that has been provided to the operator and other persons having primary daily on-site management responsibility for the operation and maintenance of underground storage tanks owned or operated by the agency; and

“(F) describes the actions that have been and will be taken to ensure compliance for each underground storage tank identified under subparagraph (B).

“(2) NOT A SAFE HARBOR.—This subsection does not relieve any person from any obligation or requirement under this subtitle.”

SEC. 1529. TANKS ON TRIBAL LANDS.

(a) IN GENERAL.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding the following at the end thereof:

“SEC. 9013. TANKS ON TRIBAL LANDS.

“(a) STRATEGY.—The Administrator, in coordination with Indian tribes, shall, not later than 1 year after the date of enactment of this section, develop and implement a strategy—

“(1) giving priority to releases that present the greatest threat to human health or the environment, to take necessary corrective action in response to releases from leaking underground storage tanks located wholly within the boundaries of—

“(A) an Indian reservation; or

“(B) any other area under the jurisdiction of an Indian tribe; and

“(2) to implement and enforce requirements concerning underground storage tanks located wholly within the boundaries of—

“(A) an Indian reservation; or

“(B) any other area under the jurisdiction of an Indian tribe.

“(b) REPORT.—Not later than 2 years after the date of enactment of this section, the Administrator shall submit to Congress a report that summarizes the status of implementation and enforcement of this subtitle in areas located wholly within—

“(1) the boundaries of Indian reservations; and

“(2) any other areas under the jurisdiction of an Indian tribe.

The Administrator shall make the report under this subsection available to the public.

“(c) NOT A SAFE HARBOR.—This section does not relieve any person from any obligation or requirement under this subtitle.

“(d) STATE AUTHORITY.—Nothing in this section applies to any underground storage tank that is located in an area under the jurisdiction of a State, or that is subject to regulation by a State, as of the date of enactment of this section.”

(b) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

“Sec. 9013. Tanks on Tribal lands.”

SEC. 1530. FUTURE RELEASE CONTAINMENT TECHNOLOGY.

Not later than 2 years after the date of enactment of this Act, the Administrator of the Environmental Protection Agency, after consultation with States, shall make available to the public and to the Committee on Energy and Commerce of the House of Representatives and the Committee on Environment and Public Works of the Senate information on the effectiveness of alternative possible methods and means for containing releases from underground storage tanks systems.

SEC. 1531. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—Subtitle I of the Solid Waste Disposal Act (42 U.S.C. 6991 et seq.) is amended by adding at the end the following:

“SEC. 9014. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated to the Administrator the following amounts:

“(1) To carry out subtitle I (except sections 9003(h), 9005(c), 9011 and 9012) \$50,000,000 for each of fiscal years 2004 through 2008.

“(2) From the Trust Fund, notwithstanding section 9508(c)(1) of the Internal Revenue Code of 1986:

“(A) to carry out section 9003(h) (except section 9003(h)(12)) \$200,000,000 for each of fiscal years 2004 through 2008;

“(B) to carry out section 9003(h)(12), \$200,000,000 for each of fiscal years 2004 through 2008;

“(C) to carry out sections 9004(f) and 9005(c) \$100,000,000 for each of fiscal years 2004 through 2008; and

“(D) to carry out sections 9011 and 9012 \$55,000,000 for each of fiscal years 2004 through 2008.”

(b) TABLE OF CONTENTS.—The table of contents for such subtitle I is amended by adding the following new item at the end thereof:

“Sec. 9014. Authorization of appropriations.”

SEC. 1532. CONFORMING AMENDMENTS.

(a) IN GENERAL.—Section 9001 of the Solid Waste Disposal Act (42 U.S.C. 6991) is amended as follows:

(1) By striking “For the purposes of this subtitle—” and inserting “In this subtitle.”

(2) By redesignating paragraphs (1), (2), (3), (4), (5), (6), (7), and (8) as paragraphs (10), (7), (4), (3), (8), (5), (2), and (6), respectively.

(3) By inserting before paragraph (2) (as redesignated by paragraph (2) of this subsection) the following:

“(1) INDIAN TRIBE.—

“(A) IN GENERAL.—The term ‘Indian tribe’ means any Indian tribe, band, nation, or other organized group or community that is recognized as being eligible for special programs and services provided by the United States to Indians because of their status as Indians.

“(B) INCLUSIONS.—The term ‘Indian tribe’ includes an Alaska Native village, as defined in or established under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.); and”

(4) By inserting after paragraph (8) (as redesignated by paragraph (2) of this subsection) the following:

“(9) TRUST FUND.—The term ‘Trust Fund’ means the Leaking Underground Storage Tank Trust Fund established by section 9508 of the Internal Revenue Code of 1986.”

(b) CONFORMING AMENDMENTS.—The Solid Waste Disposal Act (42 U.S.C. 6901 and following) is amended as follows:

(1) Section 9003(f) (42 U.S.C. 6991b(f)) is amended—

(A) in paragraph (1), by striking “9001(2)(B)” and inserting “9001(7)(B)”; and

(B) in paragraphs (2) and (3), by striking “9001(2)(A)” each place it appears and inserting “9001(7)(A)”.

(2) Section 9003(h) (42 U.S.C. 6991b(h)) is amended in paragraphs (1), (2)(C), (7)(A), and (11) by striking “Leaking Underground Storage Tank Trust Fund” each place it appears and inserting “Trust Fund”.

(3) Section 9009 (42 U.S.C. 6991h) is amended—

(A) in subsection (a), by striking “9001(2)(B)” and inserting “9001(7)(B)”; and

(B) in subsection (d), by striking “section 9001(1) (A) and (B)” and inserting “subparagraphs (A) and (B) of section 9001(10)”.

SEC. 1533. TECHNICAL AMENDMENTS.

The Solid Waste Disposal Act is amended as follows:

(1) Section 9001(4)(A) (42 U.S.C. 6991(4)(A)) is amended by striking “sustances” and inserting “substances”.

(2) Section 9003(f)(1) (42 U.S.C. 6991b(f)(1)) is amended by striking “subsection (c) and (d) of this section” and inserting “subsections (c) and (d)”.

(3) Section 9004(a) (42 U.S.C. 6991c(a)) is amended by striking “in 9001(2) (A) or (B) or both” and inserting “in subparagraph (A) or (B) of section 9001(7)”.

(4) Section 9005 (42 U.S.C. 6991d) is amended—

(A) in subsection (a), by striking “study taking” and inserting “study, taking”;

(B) in subsection (b)(1), by striking “relevent” and inserting “relevant”; and

(C) in subsection (b)(4), by striking “Environmental” and inserting “Environmental”.

TITLE XVI—STUDIES

SEC. 1601. STUDY ON INVENTORY OF PETROLEUM AND NATURAL GAS STORAGE.

(a) DEFINITION.—For purposes of this section “petroleum” means crude oil, motor gasoline, jet fuel, distillates, and propane.

(b) STUDY.—The Secretary of Energy shall conduct a study on petroleum and natural gas storage capacity and operational inventory levels, nationwide and by major geographical regions.

(c) CONTENTS.—The study shall address—

(1) historical normal ranges for petroleum and natural gas inventory levels;

(2) historical and projected storage capacity trends;

(3) estimated operation inventory levels below which outages, delivery slowdown, rationing, interruptions in service, or other indicators of shortage begin to appear;

(4) explanations for inventory levels dropping below normal ranges; and

(5) the ability of industry to meet United States demand for petroleum and natural gas without shortages or price spikes, when inventory levels are below normal ranges.

(d) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Secretary of Energy shall submit a report to Congress on the results of the study,

including findings and any recommendations for preventing future supply shortages.

SEC. 1602. NATURAL GAS SUPPLY SHORTAGE REPORT.

(a) **REPORT.**—Not later than 6 months after the date of enactment of this Act, the Secretary of Energy shall submit to Congress a report on natural gas supplies and demand. In preparing the report, the Secretary shall consult with experts in natural gas supply and demand as well as representatives of State and local units of government, tribal organizations, and consumer and other organizations. As the Secretary deems advisable, the Secretary may hold public hearings and provide other opportunities for public comment. The report shall contain recommendations for Federal actions that, if implemented, will result in a balance between natural gas supply and demand at a level that will ensure, to the maximum extent practicable, achievement of the objectives established in subsection (b).

(b) **OBJECTIVES OF REPORT.**—In preparing the report, the Secretary shall seek to develop a series of recommendations that will result in a balance between natural gas supply and demand adequate to—

(1) provide residential consumers with natural gas at reasonable and stable prices;

(2) accommodate long-term maintenance and growth of domestic natural gas-dependent industrial, manufacturing, and commercial enterprises;

(3) facilitate the attainment of national ambient air quality standards under the Clean Air Act;

(4) permit continued progress in reducing emissions associated with electric power generation; and

(5) support development of the preliminary phases of hydrogen-based energy technologies.

(c) **CONTENTS OF REPORT.**—The report shall provide a comprehensive analysis of natural gas supply and demand in the United States for the period from 2004 to 2015. The analysis shall include, at a minimum—

(1) estimates of annual domestic demand for natural gas that take into account the effect of Federal policies and actions that are likely to increase and decrease demand for natural gas;

(2) projections of annual natural gas supplies, from domestic and foreign sources, under existing Federal policies;

(3) an identification of estimated natural gas supplies that are not available under existing Federal policies;

(4) scenarios for decreasing natural gas demand and increasing natural gas supplies comparing relative economic and environmental impacts of Federal policies that—

(A) encourage or require the use of natural gas to meet air quality, carbon dioxide emission reduction, or energy security goals;

(B) encourage or require the use of energy sources other than natural gas, including coal, nuclear, and renewable sources;

(C) support technologies to develop alternative sources of natural gas and synthetic gas, including coal gasification technologies;

(D) encourage or require the use of energy conservation and demand side management practices; and

(E) affect access to domestic natural gas supplies; and

(5) recommendations for Federal actions to achieve the objectives of the report, including recommendations that—

(A) encourage or require the use of energy sources other than natural gas, including coal, nuclear, and renewable sources;

(B) encourage or require the use of energy conservation or demand side management practices;

(C) support technologies for the development of alternative sources of natural gas

and synthetic gas, including coal gasification technologies; and

(D) will improve access to domestic natural gas supplies.

SEC. 1603. SPLIT-ESTATE FEDERAL OIL AND GAS LEASING AND DEVELOPMENT PRACTICES.

(a) **REVIEW.**—In consultation with affected private surface owners, oil and gas industry, and other interested parties, the Secretary of the Interior shall undertake a review of the current policies and practices with respect to management of Federal subsurface oil and gas development activities and their effects on the privately owned surface. This review shall include—

(1) a comparison of the rights and responsibilities under existing mineral and land law for the owner of a Federal mineral lease, the private surface owners and the Department;

(2) a comparison of the surface owner consent provisions in section 714 of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1304) concerning surface mining of Federal coal deposits and the surface owner consent provisions for oil and gas development, including coalbed methane production; and

(3) recommendations for administrative or legislative action necessary to facilitate reasonable access for Federal oil and gas activities while addressing surface owner concerns and minimizing impacts to private surface.

(b) **REPORT.**—The Secretary of the Interior shall report the results of such review to Congress not later than 180 days after the date of enactment of this Act.

SEC. 1604. RESOLUTION OF FEDERAL RESOURCE DEVELOPMENT CONFLICTS IN THE POWDER RIVER BASIN.

The Secretary of the Interior shall—

(1) undertake a review of existing authorities to resolve conflicts between the development of Federal coal and the development of Federal and non-Federal coalbed methane in the Powder River Basin in Wyoming and Montana; and

(2) not later than 6 months after the date of enactment of this Act, report to Congress on alternatives to resolve these conflicts and identification of a preferred alternative with specific legislative language, if any, required to implement the preferred alternative.

SEC. 1605. STUDY OF ENERGY EFFICIENCY STANDARDS.

The Secretary of Energy shall contract with the National Academy of Sciences for a study, to be completed within 1 year after the date of enactment of this Act, to examine whether the goals of energy efficiency standards are best served by measurement of energy consumed, and efficiency improvements, at the actual site of energy consumption, or through the full fuel cycle, beginning at the source of energy production. The Secretary shall submit the report to Congress.

SEC. 1606. TELECOMMUTING STUDY.

(a) **STUDY REQUIRED.**—The Secretary, in consultation with the Commission, the Director of the Office of Personnel Management, the Administrator of General Services, and the Administrator of NTIA, shall conduct a study of the energy conservation implications of the widespread adoption of telecommuting by Federal employees in the United States.

(b) **REQUIRED SUBJECTS OF STUDY.**—The study required by subsection (a) shall analyze the following subjects in relation to the energy saving potential of telecommuting by Federal employees:

(1) Reductions of energy use and energy costs in commuting and regular office heating, cooling, and other operations.

(2) Other energy reductions accomplished by telecommuting.

(3) Existing regulatory barriers that hamper telecommuting, including barriers to broadband telecommunications services deployment.

(4) Collateral benefits to the environment, family life, and other values.

(c) **REPORT REQUIRED.**—The Secretary shall submit to the President and Congress a report on the study required by this section not later than 6 months after the date of enactment of this Act. Such report shall include a description of the results of the analysis of each of the subject described in subsection (b).

(d) **DEFINITIONS.**—As used in this section:

(1) **SECRETARY.**—The term “Secretary” means the Secretary of Energy.

(2) **COMMISSION.**—The term “Commission” means the Federal Communications Commission.

(3) **NTIA.**—The term “NTIA” means the National Telecommunications and Information Administration of the Department of Commerce.

(4) **TELECOMMUTING.**—The term “telecommuting” means the performance of work functions using communications technologies, thereby eliminating or substantially reducing the need to commute to and from traditional work sites.

(5) **FEDERAL EMPLOYEE.**—The term “Federal employee” has the meaning provided the term “employee” by section 2105 of title 5, United States Code.

SEC. 1607. LIHEAP REPORT.

Not later than 1 year after the date of enactment of this Act, the Secretary of Health and Human Services shall transmit to Congress a report on how the Low-Income Home Energy Assistance Program could be used more effectively to prevent loss of life from extreme temperatures. In preparing such report, the Secretary shall consult with appropriate officials in all 50 States and the District of Columbia.

SEC. 1608. OIL BYPASS FILTRATION TECHNOLOGY.

The Secretary of Energy and the Administrator of the Environmental Protection Agency shall—

(1) conduct a joint study of the benefits of oil bypass filtration technology in reducing demand for oil and protecting the environment;

(2) examine the feasibility of using oil bypass filtration technology in Federal motor vehicle fleets; and

(3) include in such study, prior to any determination of the feasibility of using oil bypass filtration technology, the evaluation of products and various manufacturers.

SEC. 1609. TOTAL INTEGRATED THERMAL SYSTEMS.

The Secretary of Energy shall—

(1) conduct a study of the benefits of total integrated thermal systems in reducing demand for oil and protecting the environment; and

(2) examine the feasibility of using total integrated thermal systems in Department of Defense and other Federal motor vehicle fleets.

SEC. 1610. UNIVERSITY COLLABORATION.

Not later than 2 years after the date of enactment of this Act, the Secretary of Energy shall transmit to Congress a report that examines the feasibility of promoting collaborations between large institutions of higher education and small institutions of higher education through grants, contracts, and cooperative agreements made by the Secretary for energy projects. The Secretary shall also consider providing incentives for the inclusion of small institutions of higher education, including minority-serving institutions, in energy research grants, contracts, and cooperative agreements.

SEC. 1611. RELIABILITY AND CONSUMER PROTECTION ASSESSMENT.

Not later than 5 years after the date of enactment of this Act, and each 5 years thereafter, the Federal Energy Regulatory Commission shall assess the effects of the exemption of electric cooperatives and government-owned utilities from Commission regulation under section 201(f) of the Federal Power Act. The assessment shall include any effects on—

(1) reliability of interstate electric transmission networks;

(2) benefit to consumers, and efficiency, of competitive wholesale electricity markets;

(3) just and reasonable rates for electricity consumers; and

(4) the ability of the Commission to protect electricity consumers.

If the Commission finds that the 201(f) exemption results in adverse effects on consumers or electric reliability, the Commission shall make appropriate recommendations to Congress pursuant to section 311 of the Federal Power Act.

□ 1415

The SPEAKER pro tempore (Mr. ISAKSON). Pursuant to House Resolution 671, the gentleman from Texas (Mr. HALL) and the gentleman from Michigan (Mr. DINGELL) each will control 20 minutes. The gentleman from California (Mr. POMBO), the gentleman from West Virginia (Mr. RAHALL), the gentleman from Louisiana (Mr. MCCREY), and the gentleman from Maryland (Mr. CARDIN) each will control 5 minutes.

The Chair recognizes the gentleman from Texas (Mr. HALL).

Mr. HALL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4503, which is the same as the H.R. 6 conference report. This bill is the most comprehensive energy bill we have debated in decades. We have debated energy legislation hard and fast for the past two Congresses, and we debated it for many Congresses prior to that.

Those who oppose a comprehensive energy bill seem to forget that they use the very resources that the energy bill seeks to produce, the very resources that are now in short supply.

People who oppose this bill will no doubt question why we are debating and voting on this bill today. They will claim that it is merely a political ploy to force passage of the conference report on H.R. 6. The real question is why opponents are willing to fiddle while Rome is burning by refusing to vote for this bill. I suppose their constituents walk to work or ride horses, burn candles instead of electricity, do not use furnaces or air conditioners, and do not use plastics. If we continue, Mr. Speaker, to do absolutely nothing, then that may be the scenario that will come to pass for all of us. I, for one, do not want to go back to those days.

One section of the bill that will do as much good as any other provision to alleviate supply shortages in the future is the Ultra Deepwater Research and Development Program. With public lands being increasingly more difficult to lease for oil and gas exploration and significant areas of the offshore still

off limits, the ultra deepwater holds the key to our continued ability to supply most of our energy needs domestically. However, to tap resources that lie deep beneath the ocean floor in water depths greater than 1,500 meters will require a considerable amount of research and development.

The program this bill establishes through the Department of Energy provides the necessary funding to extract natural gas in an environmentally safe and secure manner, while providing much-needed natural gas to fuel our growing economy. Therefore, I urge the passage of H.R. 4503.

Mr. Speaker, I reserve the balance of my time.

Mr. DINGELL. Mr. Speaker, I yield myself 3 minutes.

(Mr. DINGELL asked and was given permission to revise and extend his remarks.)

Mr. DINGELL. Mr. Speaker, the House is again considering a bill that has already passed the body, but it has not been enacted into law. This might be called the “summer reruns.” It might also be called low comedy, or ancient history, because this is an unfortunate waste, not only of this body’s time but, quite frankly, the taxpayers’ money.

We are about to set about passing a bill that was unacceptable to the Senate before, surrounded itself with enormous controversy, and will serve no purpose in terms of addressing energy concerns of this country.

Meanwhile, I note we have neither passed any budget nor any single appropriations measure. If there is ever a bill that does not deserve to pass twice, this is it. It should not even have been passed the first time. Rarely has a bill been so criticized in all quarters. This so-called Energy Policy Act is a conglomeration of costly special interest subsidies and antienvironmental provisions that newspapers from coast to coast have denounced. It includes the denunciation of such conservative newspapers as the editorial pages of the Wall Street Journal.

One prominent Republican Senator refers to this bill as one which helps “hooters and polluters,” because it provides subsidies for a Louisiana mall that will feature a Hooter’s Restaurant, and because it has dozens of other provisions that threaten clean air, safe drinking water, like easing the regulations on such good-hearted American corporations as Halliburton, which uses hydraulic fracturing.

Indeed, the only support for this bill comes from the special interests and industries that met in secret with the Cheney task force to hatch this outrageous piece of legislation.

The conference on this bill was also, as I noted, held in secret and kept from the light of day. As I said when the Congress considered this legislation last year, “when you lift the lid, it’s like lifting the lid on a garbage can, because you get a strong smell of special interest provisions.”

While I support the recycling of trash, this piece of legislation looks worse the second time around. It is more than three times more costly than even the President requested. The Energy Information Administration says it will have no short-term impact on gasoline prices and, in the long run, will actually raise gasoline prices.

If my colleagues on the Republican side were paying attention to all Americans and not just special interests, they would recognize that there have been three important matters to deal with which have occurred on this President’s watch: 1, gasoline prices and natural gas prices have reached all-time highs; 2, an electricity blackout that affected better than 50 million Americans; 3, the gouging of electricity consumers on the west coast has been a noteworthy outrage.

Democrats have proposed commonsense steps that we should take to address these problems, and we will discuss these matters and measures during the debate on the motion to recommit.

I usually applaud the recycling of trash, but this trash is well passed recycling. It is too tart. It should be put in the legislative trash heap where it belongs.

Mr. Speaker, I reserve the balance of my time.

Mr. HALL. Mr. Speaker, I yield 3 minutes to the gentleman from Georgia (Mr. NORWOOD).

Mr. NORWOOD. Mr. Speaker, I thank the chairman for his generosity and for yielding me this time.

I just would point out that some might think this bill should not deserve to pass for the second time; but it did, it did pass very nicely the first time. Sixty-six Members of this House of Representatives above the passing mark decided this was a very good bill. So we are not in agreement as to whether it is a good bill or not.

Just this last November, I stood before this body and urged my colleagues to support the energy conference report. I have watched in frustration, along with the rest of the country, as gas prices continue to go through the roof and the other body sits on our hard work for the sake of election-year politicians. We are in desperate need of a comprehensive energy policy, and I want to extend my gratitude to the gentleman from Texas (Chairman BARTON) for bringing this legislation to the floor once again.

A truly comprehensive national energy plan should include the utilization of all domestic resources that can be extracted in an environmentally sound fashion; a diversified and well-balanced portfolio of fuel sources for electric generation, including nuclear, clean coal, hydro, and natural gas; improvements to transmission capacity, ensuring the reliability of our electric transmission grid, because oh, how we forget just some months ago; energy efficiency incentives, conservation measures, and targeted research dollars

with an eye on the future, and that is what this bill does.

Mr. Speaker, this bill achieves all of this and strikes the necessary balance. I rise today, Mr. Speaker, to support this bill; and I am happy to say I believe the majority of the House of Representatives will support it.

Not since early 1992 and, in fact, until this administration came along has the importance of U.S. energy policy been prioritized again where it should be. Today we can take another step forward to uniquely reposition ourselves as a country in terms of energy independence and getting back ahead of the curve.

I encourage all Members to support this sound, coherent, comprehensive policy for America. Let us send our colleagues in the other body a reminder that our constituents should come first. It is time to push politics to the side and do what is right for this country.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair would remind Members to refrain from characterizations of the other body.

Mr. CARDIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the fact that we are considering this bill for the second time does not make it any better. On behalf of the Democrats on the Committee on Ways and Means, we would like to point out that this bill will cost \$23.5 billion over the next 10 years and add to the deficit of this Nation. Every dollar of relief provided in this bill will have to be borrowed; and we are going to have to pay interest on it, adding to the irresponsible economic program that the majority has thrust upon us.

Mr. Speaker, it is interesting to look at the evolution of this bill. The President had requested that an energy bill be passed that cost \$8 billion. When we passed the bill originally in this body, it cost \$17.8 billion. In the other body, they passed a bill that was \$15.8 billion, but with set-offs, with revenue provisions. Now we have a bill that has grown to \$23.5 billion.

The reason, quite frankly, Mr. Speaker, is that this bill contains numerous special interest provisions to provide breaks for different corporate interests. It is not an energy policy. It is a corporate giveaway in many respects. It does not reduce our dependency on imported oil. We should be doing a much more aggressive program on renewables and alternative fuels, but we are not. This bill does very little to make us energy self-sufficient. It does nothing. It is actually counter-productive. It does not deal with the electricity blackouts that we have suffered. It certainly is not environmental friendly; in fact, it hurts our environment.

This is why this bill has been labeled by many of the editorial writers, USA Today: "Costly local giveaways overload energy plan." The Detroit Free Press: "Wrong direction on national

energy strategy. This country would be better off if they shelve this effort." Philadelphia Inquirer: "Leaders are using the blackout as an excuse to try to ram through a bill that has been wrong-headed since the day it emerged."

Mr. Speaker, this bill was not worthy of our support before; it is not worthy of our support today.

Mr. Speaker, I ask unanimous consent that the remainder of my time be yielded to and controlled by the gentleman from Michigan (Mr. DINGELL).

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

Mr. HALL. Mr. Speaker, I yield 2 minutes to the gentleman from Oklahoma (Mr. SULLIVAN).

Mr. SULLIVAN. Mr. Speaker, I rise in support of this legislation because it will create jobs across the country and make us more secure by reducing our dependence on foreign oil.

The America that I know strives to be the best in everything. Our people are remarkably driven in their pursuit of excellence. We are home to the top scientists, doctors, inventors, and entrepreneurs.

Why, then, do we settle for honorable mention when it comes to our role as a player in the world energy market? Why are we not the gold medalist? Why has our country been without an energy policy for more than a decade? Why do we wait to act as each day puts us more in jeopardy while our foreign counterparts run up the tab at our expense?

We import more than half of our oil from foreign sources, and that number will grow to more than 66 percent by the end of the decade if we do not act now.

America loses when we import foreign oil. For every \$1 billion that we import, we lose more than 12,000 jobs. At today's oil prices, that means we send more than 1.7 million jobs overseas. By passing a comprehensive energy policy, we will create more than 800,000 new jobs in the energy industry.

In my home State of Oklahoma, more than 100,000 people are employed by the energy industry. Mr. Speaker, I can tell my colleagues that these are good, high-wage jobs.

I have heard my colleagues on the other side of the aisle paint a gloom and doom picture of our economy. Well, here is their chance to make a difference.

We have a responsibility to pass this legislation and send it to President Bush. Rarely do we have an opportunity to create so many jobs, and it is time to act now.

Let us send an energy bill to the President, let us create more than 800,000 new jobs, and let it begin now.

□ 1430

Mr. RAHALL. Mr. Speaker, I yield myself such time as I may consume under my time.

Mr. Speaker, the latest edition of Business Week notes that "\$2 a gallon gasoline have given the oil companies a Mississippi River of cash flow."

Big oil is reeling in profit, reaching deep into the pockets of Americans at the pump. What happens in response? Today, the Republican majority wants to reward them with billions of dollars of tax breaks and directed spending that will not improve our energy situation one iota.

Indeed, this past February the Energy Information Administration performed an assessment of the pending legislation. It examined the billions in offshore oil and gas royalty relief and various tax credits in this bill and concluded that "the impact on total primary energy consumption is small."

That is not me saying that. That is the administration's own Energy Information Administration. So what is the purpose here today? What is the purpose in resurrecting this bloated bill on the floor?

The fact of the matter is that there is little in the way of relief for Americans at the gas pump in this bill. Adding insult to injury, the legislation would gouge them even further through a whole host of taxpayer subsidies to energy producers. This is misguided relief. It is not for the consumers. It is not for the consumers, but it is for the multinational corporations drilling for oil and gas in Federal Gulf of Mexico waters by granting them a taxpayer subsidized royalty holiday. They get to drill and the taxpayers foot the bill by foregoing royalty payments.

An unwarranted drilling incentive at a time of high energy prices, a staggering budget deficit, and the yet unknown full cost of conducting the war in Iraq. In fact, this legislation contains so many royalty reductions and kickbacks that the Treasury stands to lose a mint. There are royalty holidays for deep water wells, shallow water/deep wells and marginal wells, none of which I might add will do anything to enhance our energy security as evidenced by the Energy Information Administration's own assessment.

There is no wonder that newspapers in my congressional district editorialize against this bill. The Bluefield Daily Telegraph, for example, noted, "The bill was ill-conceived and would reach deep into the pockets of West Virginians without providing any benefits to the State."

The Huntington Herald Dispatch took issue with the provision in this bill that would put Appalachian and Midwestern mined coal at a competitive disadvantage to Western coal. And the newspaper is right on target in that respect.

The pending legislation would hurt the majority of coal producing regions and in other respects pays lip service to our most abundant domestic source of energy. According to CBO, of the close to \$26 billion in tax breaks in this bill only \$2.5 billion of that is for coal;

and this \$2.5 billion is for clean coal technology applications. Yet there is a nationwide cap of 6,000 megawatts. That is peanuts. It is comparable to the annual energy output of the Grand Coulee Dam.

In fact, on a per capita basis, Mr. Speaker, Home Depot does better in this bill than the entire coal industry when you consider the \$48 million that it would receive for not having to pay tariffs on ceiling fans. This is an energy bill?

I urge a no vote on the pending measure and urge that this body get serious about devising a national energy policy that takes into account all of our energy sources and our consumers' complaints.

Mr. Speaker, I ask unanimous consent that the balance of my time be yielded to the gentleman from Michigan (Mr. DINGELL) for purposes of control.

The SPEAKER pro tempore (Mr. ISAKSON). Is there objection to the request of the gentleman from West Virginia?

There was no objection.

Mr. DINGELL. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Massachusetts (Mr. MARKEY).

Mr. MARKEY. Mr. Speaker, I thank the gentleman for yielding me time.

Does the Republican energy bill help the American consumer? Does it have any meaningful help whatsoever? Well, the answer is no. And who do we get the answer from? We get the answer from the Department of Energy, the Bush administration. Here is what it says.

It says, "The impact of this bill analyzed in this report on total primary energy consumption is small on a fuel specific basis; changes to production, consumption, imports and prices are negligible."

What else does it say? It says, "In 2015 the average gasoline prices relative to the reference case are 3 cents per gallon higher and average reformulated gasoline prices are 8 cents per gallon higher than in the reference case," meaning today.

So this bill, according to the Bush administration's own Department of Energy, is going to lead to gas prices that are 3 to 8 cents higher than today. The American people are thinking, I wonder what Congress is going to do about high gasoline prices?

Well, according to the Bush administration's own Department of Energy, this bill will increase them by 3 to 8 cents per gallon. That is a travesty.

This bill will have a negligible impact on energy production, a negligible impact on energy consumption, a negligible impact on energy imports, will increase the price of gasoline by 3 cents a gallon for regular. It will increase gas prices by 8 cents a gallon for reformulated. It provides \$23 billion worth of special interest tax breaks for the oil, gas, coal, nuclear, utility industry. It

weakens the Clean Air Act. It weakens the Clean Water Act. It repeals the protections against cross-subsidies amongst these big energy giants.

But what is not in here? SUVs, automobiles, vehicles, where we put 70 percent of all oil in our country. Not a word. We will not be doing anything about that in this bill. We now import 60 percent of our oil and we have 135,000 young people over in the Middle East. This bill does not do anything about that. We are coming back in 15 more years importing 80 percent of our oil as the next generation of young men and women go over to the Middle East to protect the oil lines coming into our country.

This bill does not meet the challenge of those 135,000 young men and women over in the Middle East. It does not meet the challenge of the 24 million children and adults with asthma in our country from all of this pollution. It does not meet the challenge of 60, 70, 80 percent of our oil being imported into our country. It does not meet the challenge of the day. We have young men and women over in the Middle East. This bill does not reduce our dependence upon imported oil. It raises the price of gasoline at the pump, and it leaves the next generation wondering when they will have to go over to the Middle East.

This bill is a failure. It does not do the job for the American public. It must be rejected as historically inappropriate for the challenge this generation faces to meet the challenge of the times that we live in.

Mr. HALL. Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. BARTON), the chairman of the Committee on Energy and Commerce.

Mr. BARTON of Texas. Mr. Speaker, how much time is remaining?

The SPEAKER pro tempore. The gentleman from Texas (Mr. HALL) has 13 minutes remaining. The gentleman from Michigan (Mr. DINGELL) has 19½ minutes remaining. The gentleman from Louisiana (Mr. McCRERY) has been designated 5 minutes but is currently not on the floor of the House. The gentleman from California (Mr. POMBO) has 5 minutes.

Mr. BARTON of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to respond to my good friend, the gentleman from Massachusetts (Mr. MARKEY) and his eloquent remarks when he talked about the impact of this bill, and that it would not have an impact, or if it did it would have a negative impact. I would agree with him in the short term that that is probably correct, that if we pass this bill and the other body passes this bill and the President signed it tomorrow, I think it is fair to say that the energy prices would not go immediately down. But I would dispute the assertion that over the long term there is no positive impact.

I would offer the analogy of deciding whether to plant a field of corn. Obvi-

ously, the day you plant it you are not going to get an ear of corn to eat. But over time you are going to get bushels and bushels of corn to eat and to feed your family and to feed the world.

Well, the same thing could be said about this energy bill. We have already passed it once in this body, 246 to 180. The reason that we are bringing it up again is because the other body has not seen fit to even bring it to a vote, and we are hopeful that if we pass it yet once again that at some point this summer the other body may see fit to at least bring it up to a vote.

We need a comprehensive energy bill because gasoline prices are up, coal prices are up, natural gas prices are up, crude imports are up, refined product imports are up. We need to reform our electricity grid. This bill does that. We need to repeal PUHCA, the Public Utility Holding Company Act. This bill does that. We need to set up a program to go in and refit our existing old coal fired power plants. This bill does that. We need to determine if there is a better way to do automobile fuel efficiency in the program that is called CAFE. This bill does that. We need to increase our conservation efforts. This bill has provisions that it is estimated would eliminate the need for 130 additional power plants. We need to reform our hydroelectric relicensing process. This bill does that.

I could go on and on and on, Mr. Speaker, but I will simply conclude by saying this. There is not an alternative. If my friends in the other body or my friends on the other sides that are opposed to this bill have a better way to do it, let us see it. This bill has passed this House 246 to 180. It will pass the other body if it ever gets up to a vote. We need a comprehensive energy policy in my opinion in this country that is market based. This bill is that policy.

So I hope that as we did back in November we once again pass this bill, send it to the other body, and hopefully get the other body to bring it up.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair would remind Members on both sides of the aisle, as the Chair recently ruled on September 19, 2002, in response to a point of order, that Members must confine remarks about the Senate to factual references, avoiding characterizations of Senate action or inaction, remarks urging Senate action or inaction, and references to Members of the Senate other than as sponsors of legislation.

Mr. DINGELL. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Minnesota (Mr. OBERSTAR).

(Mr. OBERSTAR asked and was given permission to revise and extend his remarks.)

Mr. OBERSTAR. Mr. Speaker, from the perspective of the Committee on Transportation and the Infrastructure on which I serve, the Democrats on that committee, we find a number of

offensive provisions littered throughout this bill that fall within the jurisdiction of our committee. I want to be very specific.

Section 328 exempts the oil and gas industry from complying with the stormwater permitting requirements of the Clean Water Act of 1972 for construction purposes. This is the only construction action that would not be subject to clean water requirements should this provision prevail.

Section 756(c) of the conference report allows a 250 pound increase in the weight of some heavy trucks purportedly for the purpose of providing an incentive to use a certain type of idle reduction technology. Well, we have examined this issue in great detail and with the Department of Transportation and the Federal Highway Administration, the increase in truck weight will inflict damage on the highway infrastructure and create a safety problem and will cost about \$300 million a year in increased highway damage. The exemption is unnecessary. The industry's own figures show that idling reduction technologies pay for themselves in reduced fuel costs in about 2 years.

Section 1502 provides special protection for MTBE producers from liability associated with the cleanup costs and damage caused by contamination of groundwater. As a result of the special interest provision here, taxpayers will be forced to pay an estimated \$29 billion cost of cleaning MTBE contaminated water across the country. That is egregious and unnecessary.

Section 326 establishes a dangerous precedent under the National Environmental Policy Act by authorizing the Federal Government to reimburse oil and gas companies for the cost of undertaking environmental impact analyses for oil and gas leasing. They are going to make money off of it. They ought to do their own environmental impact analysis costs.

Mr. HALL. Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana (Mr. TAUZIN), the chairman emeritus of the Committee on Commerce.

Mr. TAUZIN. Mr. Speaker, I thank the gentleman from Texas (Mr. HALL) for yielding me time.

Mr. Speaker, this will be the second time the House votes on this identical conference report. We have already passed another energy bill in a previous Congress that never made it to final passage out of the Congress, it was not yet signed into law. This is the second time now this body will vote on the comprehensive energy conference report following the passage in the House and the Senate of the energy bills.

□ 1445

A conference report came out of the conference committee between the House and the Senate. It was chaired by Senator DOMENICI. The last time this House voted on the conference report, 246 of my colleagues voted for it,

180 voted against it. I suspect we will get something like the same vote today, and I want to commend the House for doing what the other body has not yet done, for taking final action on comprehensive energy for our country.

This Nation is suffering. We are in dire need of a policy that tells the energy future traders on Wall Street to quit running the prices up and to begin thinking about a future where we are producing more energy at home for our own people instead of constantly fighting over battlefields to defend other people's energy supplies that we depend upon.

When the last Arab oil embargo hit, we were 30 percent dependent on foreign oil. Today, we are 60 percent dependent, and that number continues to rise. The last refinery built in America was built in my district 25 years ago. We have not stopped building roads, we have not stopped building automobiles, we have not stopped building houses or factories in the country. We just stopped building the factories that produce the energy for the country.

My colleagues wonder why we are so dependent, have so much at risk, why this Nation depends upon people we cannot depend upon anymore, just to keep the lights on anymore? That is our fault.

I want to commend this House. Whatever my colleagues might agree or disagree about, this hugely important energy bill that contains conservation, alternative measures, good incentives to produce energy here at home, bills to make sure our grids are more reliable, we avoid the catastrophe California went through and the Northeast went through, the blackouts provisions that make sure we change the energy future by incentivizing a new freedom initiative; whatever my colleagues felt about it, I thank them for passing it before. Pass it again. Let us continue to do what the other body so far refuses to do and help consumers in America for a change.

Mr. DINGELL. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from California (Mrs. CAPPs).

Mrs. CAPPs. Mr. Speaker, I thank my colleague from Michigan for yielding to me.

I want to welcome back our distinguished colleague from Louisiana and note that his old fire is still with him, and that is a pleasure.

I do rise in strong opposition to this legislation and to the rest of these ill-conceived energy bills. This much-vaunted Energy Week is not about enacting solutions to our energy problems. It is about election-year politics.

The Republican leadership wants to look as if it is doing something about these record-high gas prices. If they were serious about addressing this and a myriad of other energy issues, we would not be addressing this bill today.

This bill, Mr. Speaker, is a monstrosity. At a time of record-high deficits, the bill itself costs a whopping \$31

billion. At a time of record-high oil industry profits, the bill would shovel billions in taxpayer subsidies to these very companies. At a time of record-high gas prices, this bill would actually raise gas prices, but that is not all.

The bill drills holes in the Clean Water Act; the Safe Drinking Water Act; NEPA, the National Environmental Protection Act; and the Coastal Zone Management Act. It lets MTBE producers off the hook for groundwater contamination their product caused, and it gives these same companies \$2 billion of our constituents' money to get into a new line of work. What a deal.

Mr. Speaker, as we know, this is the same bill that passed this House last November and was thankfully not brought up in the Senate. The American people owe a debt of gratitude to the other body for stopping this awful bill last year. This House should follow such a good example and kill it today.

I urge a "no" vote on this bill.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. ISAKSON). The Chair would once again remind the Members that characterizations of the other body should be refrained from in this debate.

The gentleman from Texas (Mr. HALL) has 8 minutes remaining. The gentleman from Michigan (Mr. DINGELL) has 16½ minutes remaining. The gentleman from California (Mr. POMBO) has 5 minutes remaining, and the gentleman from Louisiana (Mr. MCCREY) has 5 minutes remaining.

The Chair recognizes the gentleman from Texas (Mr. HALL).

Mr. HALL. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois (Mr. SHIMKUS).

(Mr. SHIMKUS asked and was given permission to revise and extend his remarks.)

Mr. SHIMKUS. Mr. Speaker, I would like to thank the chairman for the time.

While Rome burns, Nero fiddles, and that is what we seem to be doing here in Washington. When we have historically the highest gas prices that any of us have ever seen, highest natural gas prices in our lifetime, a major blackout of the northeast, and we cannot pass an energy bill, we ought to be ashamed of ourselves.

The nay-sayers point out all these little problems for them and disregard all the humongous benefits that we have in this bill.

Let me talk about MTBE. I am an ethanol guy, ethanol State, Illinois. We grow it, we refine it, we use it. The MTBE provisions do not relieve people of their liability if they spill MTBE. It does not relieve people of their liabilities if it goes out of their storage areas and contaminates the groundwater.

What it does is it says if the Federal Government asks these people to refine MTBE, we told them to make MTBE, and now we are going to say they created a faulty product after the Federal

Government told them to produce MTBE? That is why we do not have industry investing in this country. We have no certainty. Who else but the government tell them to go build a product and then that same government 15 years later sues them and says you can sue them, take them to court, close down this industry. It is a shame, it is embarrassing, and for that to be the reason that this bill fails, we ought to be embarrassed for ourselves.

This country has to make a decision. If we want to use electricity, guess what, we have got to have a fuel, we have got to have generation, and then we have got to be able to transmit that electricity over lines. This bill does that.

Our country is a large country. We are going to be a very mobile society for decades. We are going to need to drive in our vehicles, and we are going to need to have fuel for our vehicles. This bill does that.

Mr. DINGELL. Mr. Speaker, I yield 2½ minutes to the distinguished gentleman from New York (Mr. ENGEL).

Mr. ENGEL. Mr. Speaker, I thank the gentleman for yielding time to me, and I would certainly agree that we are fiddling while Rome is burning.

While our people in our districts are disgusted with the high gasoline prices, while our people in our districts understand that they need help from Congress to make ends meet, we are instead not passing an energy bill that would bring down gas prices, not passing an energy bill that would help the average person in all of our districts, but passing an energy bill that helps the big companies, the big industries, that says to polluters, we will take you off the hook, you do not even have to pay for the mess you have created; we are going to pay for it.

Some of my friends on the other side of the aisle say that we do not have enough money in government to pay for programs. Yet this bill contains obscene giveaways to those people that are doing the worst things when it comes to energy, the worst pollution. This is not a very good bill.

Many of my friends on the other side of the aisle say they oppose cloning when it comes to living organisms, but it is obvious that they fully support cloning legislative proposals, and as if fulfilling our greatest fears, the Energy Policy Act before us today is a clone of a monstrous bill that the House dealt with months ago.

Just like last time, the bill contains an ethanol mandate that hurts New Yorkers, my State, by forcing up gas prices, just to provide subsidies to multibillion dollar corporations like Archer Daniels Midland. Just like last time, it would open up our own public lands for huge corporations to drill and destroy. Just like last time, this act emphasizes drilling over conservation.

Whatever happened to conservation? It does nothing to reduce the United States' dependence on foreign oil or protect consumers from skyrocketing gas prices.

Just like last time, it ignores that there is great bipartisan support for the desperately needed electric reliability provision. We should be passing just that section and getting it to the President's desk. He would sign it, and we would be accomplishing something.

Just like last time, the House majority leadership is ignoring that there is bipartisan opposition to this bill in its present form. Mr. Speaker, let us drop the ethanol provision and the MTBE provision and the drilling provision. Let us concentrate on conservation and electric reliability. Let us have a bill that is a center, not a bill that is extreme, that cannot pass, that cannot be signed into law.

Let us start doing the work that needs to be done. Let us bring gas prices down. Let us get a bill that the American people can stand up and say, when the gas prices went up, Congress really did something to help us, not to help the big companies that pollute, not to continue our dependence on foreign oil, not to just pass a bill that was passed before, that we know has virtually no chance of being signed. Let us pass a commonsense bill. Defeat this bill.

Mr. HALL. Mr. Speaker, I am pleased to yield 1 minute to the gentleman from Texas (Mr. DELAY), the majority leader.

Mr. DELAY. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, 3 long years the American people have waited. In fact, some people have been working on a long-term energy policy for 8 to 10 years. President Bush promised to establish a national energy policy to prepare America's producers and distributors of energy for the changing times of the 21st century before he was even elected. His energy task force was formed inside the White House within 10 days of his inauguration.

The first comprehensive energy bill was introduced in the House in the summer of 2001. The House has passed it three times; and it has been stalled in the Senate all this time, even though a majority in the Senate supports the bill, but they will not let them vote on it. Three long years, Democrat obstruction in the Senate, obstruction, make no mistake, undertaken at the highest levels of Democrat leadership, at the beck and call of extreme special interests has kept the American people without a national energy policy.

For most of those 3 years, the United States has been at war with an ideology that makes its home in the very region that produces most of the world's oil. We depend too large a degree on the energy resources produced in this unstable region, and we have had before us for 3 years a policy to change that fact.

The comprehensive energy policy we will pass once again today will reduce America's dependence on foreign oil. That greater independence will increase America's political and eco-

nomics security which, in turn, will increase our national security; and in addition to protecting our security, this bill will also add to our prosperity.

Provisions in this bill would increase domestic energy production, would create hundreds of thousands of new jobs here at home while the Democrats' dithering in the Senate, solely responsible for America's continued overreliance on Middle East oil, is sending jobs overseas every week.

All along, provisions in this legislation that would encourage conservation and innovation and new fuel technologies have stagnated, thereby harming our economy, our environment, and letting us fall behind international competitors.

While the Democrats have hamstrung the energy bill in the Senate, gas prices have risen, and the Northeast was struck with the largest blackout in history. The summer traveling season is upon us, the fourth since the President first delivered his legislation to us; and still, the American people wait for action.

These are the facts. Jobs are waiting to be created. Our economy is waiting to be stronger and our Nation is waiting to be safer. I urge all my colleagues to help bring this waiting to an end. Vote "yes" on the comprehensive energy bill and give the Senate Democrats one more chance to do their duty.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE
The SPEAKER pro tempore. The Chair would ask the Members' attention on both sides of the aisle.

Remarks in debate may not include characterizations of Senate action or inaction or attribute actions other than sponsorship to Members of the Senate. In further elaboration, adjectives tend to characterize what otherwise might be a permissible factual reference. Members are asked to heed the rule against characterizing Senate action or inaction.

□ 1500

The SPEAKER pro tempore (Mr. ISAKSON). The Chair recognizes the gentleman from Michigan (Mr. DINGELL).

PARLIAMENTARY INQUIRY

Mr. DINGELL. Mr. Speaker, parliamentary inquiry before I yield time. I note that the majority members on the Committee on Ways and Means and the Committee on Resources have time available which has not yet been used. I am happy to yield time to our Members, but I would simply note that that time is pending over there. I would like to see what policies the Chair might have with regard to the yielding of those times.

The SPEAKER pro tempore. The Chair is proceeding based on who yields time among those who have been allocated time.

In reference to time, the gentleman from Michigan (Mr. DINGELL) has 13½ minutes. The gentleman from Texas (Mr. HALL) has 5 minutes. The gentleman from Louisiana (Mr. MCCREERY) has 5 minutes, and the gentleman from California (Mr. POMBO) has 5 minutes.

Mr. DINGELL. And I would note for the benefit of the Chair that the Committee on Energy and Commerce is the major committee of jurisdiction here.

Mr. Speaker, I will therefore yield 2 minutes to the distinguished gentleman from Texas (Mr. GREEN).

Mr. GREEN of Texas. Mr. Speaker, I thank my ranking member and good friend, the gentleman from Michigan (Mr. DINGELL), for yielding me this time.

I rise again and again in support of a comprehensive energy legislation, and I will continue to stand as long as it takes for us to have a sane energy policy to make our economy stronger and more secure in the short- and the medium term.

Energy-producing States actually have a stronger interest in energy production, but consuming States need to realize that the U.S. energy market, gasoline, natural gas and electricity, does not develop by magic. It takes exploration, production, refining, pipelines. We do have an energy crisis, and we are seeing the offshoring of the chemical manufacturing industry, rising electric prices, rising heating and cooling costs, and rising gasoline prices at the pump.

Cuba is drilling 60 miles from Key West; and, yet, the Governor of Florida does not want, and we do not allow, American drilling companies to drill within 100 miles of Florida, even for zero-emitting platforms. We are not exploring or producing from our own domestic opportunities.

I support renewable energy and hydrogen energy and everything else; but, Mr. Speaker, those things are 25 and 50 years away. What we need to do is address something on a short- and medium term. A bipartisan majority of this House should approve the Energy Policy Act again.

The H.R. 6 conference report contains a narrow liability provision applicable only to the claims of defective products. The provision preserves all other negligence, nuisance and trespass claims, each of which is alleged in these pending MTBE suits. The fact is that the bill does not block recovery of these damages, and I have heard that time and time today. MTBE was de facto mandated to clean many of our cities' air; and while tasting and smelling bad, it is not a health threat. In fact, it has cleaned up a lot of our cities.

The U.S. Department of Health and Human Services, the U.S. National Research Council, Canada's Priority Substance Assessment Program, the European Union, the World Health Organization, the International Agency For Research on Cancer, and even the California Science Advisory Board have determined that MTBE should not be considered a carcinogen or a developmental or reproductive toxic.

Mr. Speaker, MTBE is a small part of this bill, and we need to make sure if we tell people to produce it and it cleans our air, we need to not punish them for it.

Mr. HALL. Mr. Speaker, I yield 2 minutes to the gentleman from Nebraska (Mr. TERRY).

(Mr. TERRY asked and was given permission to revise and extend his remarks.)

Mr. TERRY. Mr. Speaker, it is important that as we approach the summer of 2004, more than 3 years since Congress started the current energy debate, that we are still without an energy bill. Although as a member of the Energy and Commerce Committee, I think we have passed it on this side about three times.

In those 4 years, the price of oil has increased 75 percent from around \$23 a barrel in 2001 to \$40 a barrel as we stand here today. Natural gas has increased 80 percent, from between \$3 and \$4 a few years ago to more than \$6 today. Since 2001, the price of gasoline has increased 52 percent. A blackout last summer showed vulnerabilities in our electrical transmission, which this bill addresses.

Our \$11 trillion economy depends on a foundation of affordable energy, and we need a modern energy plan today.

This bill contains incentives to increase production of all energy sources, provisions to expedite construction of a natural gas pipeline from Alaska; renewable fuel standards, including 5 billion gallons of ethanol; tax credits for the purchase of fuel-efficient hybrid automobiles; electrical reliability language; a 50 percent increase in energy efficiency and conservation funding over the next 5 years; and new funding for futuristic alternative technologies, such as the hydrogen fuel cell, which are really within our grasp but we need to just remain to make usable and feasible. That is what is in this bill. There is so much good that can be accomplished while we just stand here and engage in this endless debate over years and years. We need this House energy bill to pass today.

Mr. DINGELL. Mr. Speaker, I yield 2½ minutes to the gentleman from Texas (Mr. DOGGETT).

Mr. DOGGETT. Mr. Speaker, there is a very good reason why we do not have an energy bill: the only bill this House can consider, this one, is a sorry piece of legislation.

The only energy bill that we have is one that relies on the energy of generous campaign fund-raising and high-powered lobbying. It encourages pollution and it discourages conservation. Instead of securing our energy independence, it ensures our continued overdependence on countries as volatile as the oil they possess.

This bill pays some pretense to supporting renewable energy, but the focus is definitely not on conservation or sustainable energy. The real focus is on subsidizing the same high-pollution industries that we have always relied on, with \$32.5 billion in tax incentives and loan guarantees.

One of the best examples of the energy scams that are in this bill is the so-called synthetic fuels tax credit, the

"synfuels" credit, and my, is it a "sin". Starch or pine tar is poured on coal, and when that is done, the coal does not burn any more efficiently and it does not burn with any less pollution, but it does decrease taxes. If you take the costly synfuels provision in this bill that these folks have tried to peddle once again as a retread energy bill and pile the dollar bills up past the ceiling of this building and burn them, you will generate more energy than they do with the money that they have wasted from the public treasury. And this is only one of the many outrageous examples of the scams in this bill.

At the same time that they do this, they ignore the public health by making our air dirtier, by weakening the Clean Water Act, and by granting total protection to MTBE as it pollutes the public waterways. They endanger the health of Americans at the same time that they fail to ensure that we will pay less at the pump or anywhere else.

What we have, in short, is a collection of unjustified tax breaks, loopholes, exemptions and dodges masquerading as a new energy policy. These tax giveaways are not offset. They endanger our fiscal health and our national treasury, as well as our hope for a better energy policy.

Mr. Speaker, we need a conservative national energy policy that conserves our resources, that increases energy efficiency, and provides reasonable production incentives. This bill fails on all fronts. Energy conservation can be a great jobs program for America, but not through this bill.

Mr. HALL. Mr. Speaker, I yield 1 minute to the gentleman from Florida (Mr. STEARNS).

(Mr. STEARNS asked and was given permission to revise and extend his remarks.)

Mr. STEARNS. Mr. Speaker, I would just like to respond to the gentleman from Texas (Mr. DOGGETT). I would point out to the gentleman that the gentleman who was the author of this bill originally, H.R. 6, and who has been the propelling force on H.R. 4503, which I support which is identical to the conference report, had 80 hearings on this. When we have 80 hearings, that is exceptional. For the gentleman to say this is a bill which is a sorry piece of mishmash is downright wrong because we cannot have 80 hearings and listen to everybody, and the patience that it requires. I would urge the gentleman to reconsider his thinking on this.

In fact, 46 Democrats supported this when the bill passed the floor before. Those 46 Democrats agree with the bill. The gentleman from Texas (Mr. DOGGETT) is from the same State as the chairman of the Committee on Energy and Commerce, and so I am surprised the gentleman does not support this bill.

Mr. Speaker, I rise in support of this bill. I believe when we look at the other 246 people who actually support

this bill, all of us will realize that it is very important that we pass it today. It provides incentives, renewable energy production, clean coal technology, low-income energy assistance, provides for certainty and reliable operation of our energy markets, and increased domestic production.

Mr. Speaker, it is a comprehensive energy bill. It is vital to our national security. All of us realize not too long ago we had the blackouts. We also are so dependent on other countries for our oil. Why not take this bill and pass it and realize if we do so with one-half of the United States' homes relying on natural gas as their main heating fuel, this energy bill allows for more oil and natural gas exploration.

Mr. DINGELL. Mr. Speaker, I reserve the balance of my time to enable the Committee on Resources and the Committee on Ways and Means on the majority side to yield such time as they may consume.

Mr. HALL. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, when we look at this bill and read this bill and we debate the item called energy, I think we need to call upon ourselves and ask ourselves what probably is the major duty of a Member of Congress. It is probably to prevent a war. And how do you prevent wars? You prevent wars by removing the cause of wars.

Energy caused the war against Japan in 1941 when Cordell Hull and Henry Stimpson cut off their energy. They had 13 months' national existence, they were going to strike out somewhere. That brought on World War II.

George Bush's father sent 450,000 kids to a desert; that was a battle for energy. We did not love the Emir of Kuwait, that was to keep them from getting a bad man's, Saddam Hussein, foot, on half the known energy resources in the world.

Loss of energy and lack of energy will cause us to send our sons overseas. We do not get to drill on ANWR. We turn our backs on the next generation when we do that. We do not get to drill the ultra-deep. We are turning our backs on this next generation when we do not do that. Lack of energy causes wars.

Mr. DINGELL. Mr. Speaker, I yield 1 minute to the gentleman from New Jersey (Mr. HOLT).

(Mr. HOLT asked and was given permission to revise and extend his remarks.)

Mr. HOLT. Mr. Speaker, our friends on the other side of the aisle may not be writing much environmentally friendly legislation, but they certainly are good at recycling. What we have before us today is a bill identical to H.R. 6, a grab bag of special interest goodies, certainly not a real energy policy. And rather than coming up with a rational energy policy to meet our Nation's needs for the foreseeable future, the authors of this legislation are simply coming out with a bag of goodies.

It is a simple mathematical problem. America possesses less than 3 percent of the world's oil reserves and makes up 25 percent of the world's petroleum consumption. Members can do the math.

This bill does not provide what we need in this country which is a rational energy policy.

Mr. Speaker, I rise in opposition to this legislation and the entire "energy week" charade the House leadership has brought to us. Once again, rather than spending the time we have here on the House floor to honestly debate critical issues and solve problems, the House leadership has decided to simply bring back the same tired, unimaginative legislation. Our friends on the other side of the aisle may not write environmentally friendly legislation, but at least they are good at recycling.

Unfortunately, as this body is busy reshuffling papers and giving new titles to old bills, our Nation's dependence on foreign oil is growing worse. Rather than leading us into a secure energy future with a lower dependence on foreign oil, the bill before us merely subsidizes oil and gas companies to do more drilling—a short-term, ineffective solution.

It's a simple mathematical problem—America possesses less than 3% of the world's oil reserves but makes up 25 percent of the world's petroleum consumption. We can ravage our environment all we want and drill all over the country, but the simple truth is that we cannot use domestic sources of oil to satisfy our dangerous addiction.

The longer we continue to have such an unhealthy dependence on fossil fuels, the more we will have to rely on supplies from unstable countries like Nigeria and Venezuela—and of course, from the Middle East. Saudi Arabia has the largest remaining proven oil reserves—and recent attacks on America show the price we pay for drinking so deeply from there.

It is time that we create a real energy policy that reduces our overall dependence on oil so we can look forward to a sustainable energy future that underpins a healthy economy. Sadly, H.R. 4053 is identical to H.R. 6—a grab bag of special interest goodies, not a real energy policy. Rather than coming up with a rational energy plan to meet our Nation's needs for the foreseeable future, the authors of this legislation simply asked every energy industry what they want and turned it into legislative language.

This bill is notable for a few glaring omissions. First, it contains no renewable portfolio standard, a provision that would actually move our country toward a sustainable energy future by increasing our reliance on renewable energy. It contains pitiful levels of incentives for creating new renewable energy sources. It also fails to close the SUV loophole, a shameful part of our tax code that gives the wealthy tremendous incentives to continue buying the largest and most inefficient vehicles on the road.

What's worse, the bill does virtually nothing to save oil. At a time when it is clear that our dependence on foreign oil affects national security and it is apparent that we will never drill our way to independence domestically, we have an energy bill that refuses to mandate greater efficiency. Not only are there no provisions to increase automobile efficiency, this bill could actually undermine current fuel econ-

omy standards. In fact, the nonpartisan Energy Information Administration says that passage of this legislation will not reduce energy consumption and will actually lead to a three cent per gallon increase in average gasoline prices by the year 2015. So not only is this legislation doing nothing to reduce our dangerous dependence on foreign oil, it will actually increase gas prices.

I also want to express my displeasure at the cynical attempt by the House leadership to link drilling in the Arctic National Wildlife Refuge with the reauthorization of the Abandoned Mine Reclamation Fund. Drilling in ANWR makes no sense not only because it ravages a spectacular and sensitive environment, but also because it sets a senseless precedent of drilling for a tiny amount of oil rather than dealing with our problem of runaway oil consumption.

Mr. Speaker, I am voting against this conference agreement today because it is the wrong policy for America's future. Rather than leading us into a secure energy future with a lower dependence on foreign oil, this bill merely subsidizes oil and gas companies to do more drilling—a short-term, ineffective solution.

We need a responsible and sustainable approach to addressing our nation's energy needs. As an energy scientist who spent nearly a decade working at one the Nation's premiere alternative energy research labs, I have worked in Congress to help craft a strategy that will provide real energy security for central New Jersey residents and the United States. That's why Congress should focus on the development of renewable energy sources, including fuel cells, solar power, and fusion. We can fulfill the energy needs of a growing economy without compromising our national security interests or devastating our environment.

Mr. HALL. Mr. Speaker, I yield the balance of my time to the gentleman from Texas (Mr. BARTON), the chairman of the Committee on Energy and Commerce.

Mr. BARTON of Texas. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, this bill which has been called a mishmash is the most comprehensive package of energy legislation that has been on the floor of the House of Representatives in almost 50 years.

□ 1515

It touches on all aspects of energy production. It has a comprehensive conservation title. It has an extensive electricity reform title. It got bipartisan support when it came out as H.R. 6. It got bipartisan support when it came out as the conference report after a majority of the House and Senate conferees voted to bring it back to the respective bodies. I hope this afternoon when it comes up for a vote that once again we will send it to the other body and I hope it gets unanimous support this time.

Mr. POMBO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Energy Policy Act of 2004 protects and strengthens America's economy, our standard of living and our national security by reducing

dependence on imported oil and increasing domestic energy production. America is in danger. All credible projections indicate a growing gap between the amount of energy America uses and the amount that we produce, even after factoring in healthy increases in efficiency and conservation.

The Energy Security Act of 2003 will increase, diversify and facilitate delivery of energy supplies from Federal lands to regions of our Nation with energy shortages. This bill, among other things, encourages energy production from American Indian lands and increases Indian self-determination; provides better access to oil and gas reserves on federally controlled lands and facilitates better pipeline and transmission infrastructure through Federal lands; encourages the use of waste material produced from the Healthy Forests Initiative as a source of energy, turning a fire hazard into energy; maximizes the value of the hydroelectric power production of existing Bureau of Reclamation facilities; provides incentives for the development of geothermal energy on public lands; and encourages the maximum recovery of coal on our Federal lands.

This bill does not include opening 2,000 acres of ANWR, which could increase our domestic reserves of oil by 50 percent or more, but we will get to that later. America now depends on foreign governments, such as Saudi Arabia, Nigeria and Venezuela for our chief transportation fuel, oil. This dependence continues to increase. To make matters worse, experts forecast that over the next two decades there will be a huge gap between demand and production of natural gas, a gap that can be made up only by imports of liquified natural gas. What makes more sense? Buying most of our two most important fuels, oil and gas, from foreign governments in politically unstable countries? Or developing our resources and helping our people right here in America?

With our troops engaged in Iraq, does it not make sense for us to adopt some sensible policies here at home that will boost our energy security? The committee passed a similar bill in the last Congress prior to the September 11 attack against our Nation. Since then our energy situation has gotten worse. Last year we passed energy legislation twice, and it is caught up in politics. This winter the poor and elderly suffered while they worried how to pay their utility bills. Factories have closed because of the cost of natural gas, and chemical and fertilizer production has been stopped in some places. Truckers, motorists and airlines are suffering from vastly increased fuel prices and this hurts all Americans.

President Bush asked Congress over 3 years ago to put our Nation on a path that would supply clean and affordable energy that we would use in smarter ways for our Nation's future. We have not yet succeeded. It is time for us to do our part for our national energy se-

curity by passing a balanced but strong energy bill.

Mr. Speaker, I reserve the balance of my time.

Mr. DINGELL. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from California (Mr. WAXMAN).

Mr. WAXMAN. Mr. Speaker, once again I rise to oppose the Republican energy bill. The House has passed this bill several times already and now the majority wants to pass it again. It is time for the majority to face facts. They have overreached and they have failed.

The Republican energy bill is stunningly expensive. The total price tag for America is around \$140 billion. As the deficit continues to grow, this bill is only getting less affordable. The energy bill is also laden with giveaways to major campaign contributors. The oil and electric utility industries are among the Republicans' largest donors. This bill returns the favor using taxpayer dollars. It would provide roughly \$20 billion in subsidies to the oil industry alone. It would also relax Clean Water Act and other environmental requirements for the oil industry. And it would let the oil industry off the hook for contaminating groundwater across the country, forcing taxpayers to pay for the cleanup. The tragedy is that we have real energy problems which are approaching a crisis.

The United States' increasing dependence on oil adversely affects our economy, national security and the environment. Polluting and inefficient energy sources are driving potentially devastating global warming. U.S. energy markets are vulnerable to rampant manipulation and price spikes. But this bill would not solve any of these problems. In fact, it would make them worse. If we enacted this bill, the United States' dependence on foreign oil would continue to worsen. According to the Energy Information Administration, the U.S. will increase imports of foreign oil by 86 percent by 2025, and they project that this energy bill would reduce the amount of imports by only 1.2 percent by 2025.

Reducing demand for oil by making motor vehicles more efficient would help hold down gas prices. If we enacted this bill, it would move us in the wrong direction on global warming by subsidizing traditional energy sources. If we enacted this bill, energy marketers could continue to manipulate markets and drive prices through the roof. Congress has done nothing since California and the West Coast States faced repeated blackouts and astronomical energy bills 3 years ago. The gentleman from Michigan (Mr. DINGELL) and the gentleman from Massachusetts (Mr. MARKEY) proposed energy bill provisions to penalize fraud and manipulation in energy markets, but the Republicans rejected these provisions.

This bill is a failure. It is a collection of subsidies for energy industries, masquerading as an energy policy. The Senate, the other body, including some

of the Republican Members of the other body, rightly rejected this bill and I hope they will do so again. It is time for the House Republicans to give up the charade. We need an energy bill that will address our urgent energy problems. I suggest that this one does not do it.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair would remind Members to avoid characterizations of the other body.

Mr. POMBO. Mr. Speaker, I yield 2 minutes to the gentleman from Oklahoma (Mr. COLE).

Mr. COLE. I thank the gentleman for yielding me this time.

Mr. Speaker, I am here to talk briefly about the reasons that I support this particular energy bill. I think we ought to talk first about the need, then about the process and then about, finally, some of the important provisions in this bill.

In terms of the need, the President warned us 3 years ago what would happen if we did not have a comprehensive energy policy. He warned us that natural gas prices would go up and that would make American industry less competitive. He warned us that we would become more dependent upon foreign supplies, and he warned us that the price of gasoline was going to become prohibitive for many Americans. All of those warnings have been vindicated by the facts as we have frankly in Congress failed to act on I think a series of excellent recommendations by the administration.

So we have had the warning. We should have acted. I compliment this body for having acted in a bipartisan fashion. Frankly I am appreciative for the majority of our friends in the other body for having been supportive of this particular piece of legislation. If it were not for a technicality that prevents us from getting the legislation to a vote, we could have had the energy policy that this country needs months and months and months ago, and it would have resulted in more natural gas, lower prices at the pump and more security for the United States of America.

That is something we ought to think about. This bill is the product of an intricate negotiated compromise that will lead this country down the path toward energy independence, something we have needed for many, many years. Particularly I am pleased, Mr. Speaker, in the fact that it allows for the construction of a natural gas pipeline from Alaska's North Slope to the Lower 48 States. That would open up a tremendous new source of energy for this country. It allows for more natural gas exploration development by providing royalty relief for deep and ultradeep gas wells in the shallow waters off the Gulf of Mexico. I would have liked frankly to have seen those same provisions extended to deep gas drilling on land but as one of the compromises that was not included in the

bill. I hope we can do that later. It authorizes and encourages more nuclear power, more energy.

Mr. Speaker, I urge my colleagues to support this legislation which is genuinely bipartisan and move this country toward energy independence.

Mr. DINGELL. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Washington (Mr. INSLEE).

(Mr. INSLEE asked and was given permission to revise and extend his remarks.)

Mr. INSLEE. Mr. Speaker, this bill, this alleged energy bill, reminds me a little bit of a reverse Energizer bunny because it just keeps not going, not going and not going. One of the reasons it does not go anywhere is it perpetuates the fraud on the American people that the Enron Corporation put over on the West Coast. It does not have one single dime of refunds for the people of California for the billions of dollars that were stolen from them by the Enron Corporation. It does not have the \$122 million that the people of Snohomish County, Washington have coming to them. It does not have the over \$1 billion that the people of Washington have coming to them.

What does it take for my Republican friends to join us to finally get refunds for the American people? We have heard these tapes of the Enron traders talk about jamming Grandma Millie, stealing millions of dollars, saying "burn, baby, burn" when the West Coast had brownouts. And the Republicans gave us nothing, not a dollar in refunds. What does it take? We have got the equivalent of fingerprints, DNA, videotape and confessions from Enron and yet this bill does not do a single thing to get refunds for the consumers of the West Coast of the United States.

Goodness knows we have tried. We asked the Vice President of the United States 2 years ago to help us. We told the Vice President of the United States that while there were brownouts in California, while stoplights were not working, 32 percent of all the generating capacity was turned off. What he said was, "The problem with you is you just don't understand economics." Well, we do understand economics. We just do not understand Enronomics. The majority party unfortunately is forcing down the throats of consumers in this country Enronomics. They are allowing Enron to continue to pillage and burn the West Coast. We deserve refunds. Reject this bill and get a bill that will stand up to Enron.

Mr. McCRERY. Mr. Speaker, I yield myself such time as I may consume. I try on the floor of the House when I speak to treat all Members of the House, Republican, Democrat, majority, minority with respect, both for their views and for their integrity. Unfortunately today, I have heard from some members of the minority reckless and baseless charges, ranging from supporters of the legislation before us rewarding their fat cat friends in the en-

ergy industry, repaying contributions, charges which we could just as easily hurl at some Members of the minority for the votes they make in favor of legislation proposed and supported by their supporters and their contributors. But I choose not to do that. I do not think it is fitting for Members to question the motives of Members for supporting or opposing legislation.

It would also be easy for me to charge Members of the minority with not caring about the price of energy in this country, not caring what people pay at the gas pump for gasoline, because they have supported over the years tremendous increases in gas taxes. Up to 50 percent increase in gas taxes has been proposed by Members of the minority.

□ 1530

And a few years ago, there was a tax on BTUs, on energy, that the minority supported. They do not care, it would be easy for me to say, about what people in this country, taxpayers, pay for their energy use in this country, whether they are from the Northeast or from the South or the West.

But those things are not before us today. We have before us today a very serious, well-crafted, well-rounded approach to energy policy, comprehensive energy policy, in this country. That is what we should focus on, and that is what I will focus on in the remainder of my remarks.

Mr. Speaker, I reserve the balance of my time.

Mr. DINGELL. Mr. Speaker, I yield myself 3 minutes.

(Mr. DINGELL asked and was given permission to revise and extend his remarks.)

Mr. DINGELL. Mr. Speaker, I can understand the frustrations of my good friends on the Republican side. They brought forward a piece of legislation that is redolent of special interests. Quite frankly, it smells bad. It is tired in that it has been before this body before. It has been rejected by the Senate because it was such a clear mishmash of special interest legislation, and I can understand the frustration because my good friends over there could not shoehorn something through in a closed conference after they had denied the right of the House to really fully amend and address these matters and after they had denied us the right to participate in the debates and the discussions which went on in the conference between the House and Senate.

We will shortly be offering legislation in a form of a motion to recommit which will do the three things that really need to be done to protect our consumers and our economy. First, we are going to address the problem which rose with regards to electricity prices in California and other west coast States spiraling out of control as Enron and other thieves and scoundrels exploited an inadequate and poorly implemented regulatory system. We will be inserting into the RECORD some of

the wonderful comments of Enron executives describing how they had treated the consuming public of the United States.

Second, my own State of Michigan and six others suffered severe practical and economic consequences from a massive blackout caused partly by malfeasance and partly by inadequate emergency planning and communications. That will be addressed here.

Third, this spring and summer consumers throughout the Nation have been hit by high gasoline prices that show no sign of returning to normal levels at any time soon. We will try to deal with this question.

The bill, H.R. 4503, does not address the answers to these questions. While there are some good provisions in the bill, it has a plethora of other problems, not the least of which is a price tag to the consuming public and the taxpaying public of better than \$31 billion.

It is a shame that our Republican colleagues have chosen to continue beating a dead horse. They sent a bad bill to the Senate. The Senate in a bipartisan fashion, and I am sure this is immensely frustrating to my Republican colleagues, has rejected that legislation. It has not been brought up. This is quite obviously an attempt, and has been so described by my Republican colleagues, as an effort to embarrass the Senate into moving that legislation.

But I think we need to address something here which we could do. The Senate in its wisdom has chosen to reject this historically bad piece of legislation, and I would urge us to address now the things which we can do: fraud and criminal misbehavior in the electricity markets, blackouts, and high gasoline prices. This would be a responsible step, and it should be for this body to stop playing games and having summer reruns which have as little merit, for example, as "The Cabinet of Dr. Caligari" or perhaps "Night of the Living Dead."

In any event, I will be offering a motion to recommit with the distinguished gentlewoman from California (Ms. ESHOO), and I will describe that at a time later. It will address these questions.

[From the Energy Daily, May 25, 2004]

ENRON TRADERS BRAG OF STEALING MONEY
FROM CALIFORNIA

(By Tina Davis)

Newly unearthed transcripts of Enron Corp. traders reveal employees unapologetically talking about California and its consumers by driving up power prices and exporting power from the state during the 2000-2001 energy crisis.

The transcripts were sent to the Federal Energy Regulatory Commission last week by the Snohomish County Public Utility District No. 1, a public power entity that is seeking refunds for price manipulation that affected the West.

"This latest evidence provide the impetus for FERC to finally bring meaningful rate relief to the West Coast electric consumers who were the primary victims of Enron's

fraudulent schemes," said Mike Gianunzio, general counsel of Snohomish PUD.

Two Democratic Congressmen from Washington, Reps. Jay Inslee and Rick Larsen, last week called on FERC to strip Enron of its market-based rate authority retroactively. The congressmen argued that by revoking the company's market-based rates on June 25, 2003, FERC failed to establish the punishment from the moment Enron began gaming the market.

The transcripts largely provide yet more evidence that Enron was engaged in several sophisticated trading strategies aimed at driving up prices and congestion, in order to reap millions from the California and western power markets.

In perhaps the most damning portion of the transcripts, a person identifying himself as "David up at Enron" calls an employee of El Paso Electric and asks if that company can shut down a unit.

"... There's no much, ah, demand for power at all and we're running kind of fat. Um, if you took down the steamer, how long would it take to get it back up?" David asks.

"Oh, it's not something you want to just be turning on and off every hour, let's put it that way," the El Paso employee responds.

After ascertaining that the unit could be brought up within three to four hours, David says, "Well, why don't you just go ahead and shut her down, then, if that's OK."

Later in the conversation, David says that ISO hasn't "told us anything. We're just kind of assuming that some of this stuff's going to get cut again and—we're running fat enough to where he shut down the, ah, steamer when we take—there'll be a net, ah, decrease of about 80 it will be all right to, ah, still meet the load."

That day, Dec. 4, 2000, the ISO declares a Stage 2 emergency, indicating that reserve levels have fallen below 5 percent for the day.

A spokesperson for El Paso confirmed the conversation took place, but said it occurred at 1 a.m., when the state had an "overabundance of power in the market." Tereza Sousa said she did not know if the power was restored to the state in the afternoon, when peak demands hit, but she said El Paso had an agreement that called for Enron to market its generation for off-peak hours in the West.

El Paso Electric later reached a settlement agreement with staff of the Federal Energy Regulatory Commission as well as California officials over its role in the state's power crisis. That deal, opposed by Snohomish, included a \$15.5 million payment from El Paso and the surrender of its ability to charge market-based rates for two years.

At one point, the transcripts capture Bob Badeer, head of Enron's California trading desk in Portland, saying the "best thing" for California would be an earthquake. "... Let that thing float out to the Pacific and [give] 'em candles. . . . They should just bring back horses and carriages, lamps, kerosene lamps. . . ."

Kevin McGowan, at one time the director of coal trading for Enron, asks Badeer: "So the rumor's true? They're takin' all the money back from you guys? All those money [sic] you guys stole from those poor grandmothers in California?"

Badeer responds: "Yeah, grandma Millie, man. But she's the one who couldn't figure out how to vote on the butterfly ballot."

"Yeah," says McGowan, "now she wants her money back for all the power you've charged right up—jammed right up her for \$250 a megawatt-hour."

Another phone conversation includes talk of exporting power from the state. Hearing of a Stage 2 emergency called by the California Independent System Operator, a speaker

identified only as "Matt" says, "They're on the ropes today. I exported like a 400 [megawatts]."

"Wow," the other voice, identified as Tom, says.

"I bought it all. I'll see you guys—I'm takin' mine to the desert," Matt states.

"em, right?" adds Tom.

"I think those gamblers in Las Vegas need the power more than you," says Matt.

Later on Tom tells Matt, "It's going good for you. Just keep exporting the" "Yeah," says Matt. "That's what we do. Every day, we just export, export, export."

In another conversation, Enron's Tim Belden, the former head West Coast energy trader, is questioned by what seems to be another Enron employee trying to figure out how to book the revenues from western trades.

Explaining the sales, Belden tells the other person, that Richter (believed to be Jeffrey Richter, head of Enron's Western Power Division) "makes between one and two [million dollars] a day, um, which never shows up on any curve shift, where he just buys it from the day-ahead. He just . . . California. . . . He steals money from California to the tune of about a million—"

The other person interrupts, "Will you rephrase that?"

Belden: "OK, he um—he arbitrages that California market to the tune of a million bucks or two a day."

The SPEAKER pro tempore (Mr. ISAKSON). The gentleman's time has expired.

Mr. MCCRERY. Mr. Speaker, I yield myself such time as I may consume.

My good friend from Michigan misspoke when he said that the Senate has rejected this legislation. He knows full well the Senate has not even voted on this legislation. They have used parliamentary procedures in the Senate to force a supermajority vote just to get the bill to a vote, and they have not overcome that 60 vote supermajority to get to the floor. So the Senate indeed has not rejected this legislation. They have yet to vote on it. We wish they would vote on it.

Mr. DINGELL. Mr. Speaker, will the gentleman yield?

Mr. MCCRERY. I yield to the gentleman from Michigan.

Mr. DINGELL. I thank my good friend for yielding to me. Is that rejection or not?

Mr. MCCRERY. No, Mr. Speaker, it is not. They have not had an up-or-down vote on this bill, and that is a fact.

Reclaiming my time, Mr. Speaker, this legislation before us today would promote vital improvements in our energy infrastructure while diversifying our economy's sources of energy. The bill's provisions are indeed the same as the incentives the House approved in the conference report on H.R. 6 by a bipartisan vote of 246 to 180, and those measures still merit enactment today.

This bill addresses crucial needs in our infrastructure by promoting new electrical and gas transmission capabilities through accelerated depreciation, promoting production of new low sulfur diesel fuels, and by improvements in the tax rules governing electric utilities. Infrastructure is indeed not very exciting, but it is important. The ability to produce power will mean

nothing if we cannot upgrade our ability to get energy to those who need it.

This bill also extends and expands incentives for the production of energy from alternative sources. This bill provides tax incentives for producing electricity from solar, wind, and biomass, for the production of clean fuels from farm waste, and the incentives we agreed upon last year to extend tax credits for ethanol and biodiesel production. These incentives are as important to promoting diversity of supply today as they were when we passed this bill earlier on. The incentives for alternative sources are coupled with the robust package of incentives for the production of coal, oil, and natural gas, which we still need for our energy in this country.

Finally, House Members can take pride in the incentives in this bill to conserve energy and to promote cleaner power, from incentives to create cleaner-burning coal products, produce more efficient cars, and to clean up the air from coal-burning power plants to the incentives the bill provides to make buildings far more efficient in their use of energy. This bill includes measures that encourage prudent use of our resources.

Mr. Speaker, once again this House ought to pass this bill, send it to our colleagues across the Capitol, and hope this time that those who would block this legislation indeed allow an up-or-down vote and let us see how it goes. I predict they would pass this bill. It is a good bill. We ought to pass it today again.

Mr. SWEENEY. Mr. Speaker, I rise today in opposition of H.R. 4503, the Energy Policy Act of 2004. While I wholeheartedly understand the need for a national energy policy, I cannot in good conscience, support this legislation.

I am a proponent of tax incentives to spur growth, both in our economy, and in different sectors of our Nation's energy industries. The promotion of renewable forms of energy is a responsible move in many ways. It diversifies our energy supply, which curbs demand and lessens our dependence on foreign oil. Moreover, these renewable forms of energy are environmentally friendly, reducing emissions which prevent pollution, such as acid rain, from contaminating our lakes and forests. However, I feel there is much room for improvement in this bill. Certainly, more steps must be taken to control our Nation's gasoline prices and prevent massive blackouts, such as the blackout last year in the Midwest and Northeast.

Clearly, the most pressing concern I have with this legislation is the MTBE (methyl tertiary butyl ether) liability waiver. In one town in my district alone, Hyde Park, New York, there are nearly 100 homes with water contaminated by MTBE. Some of these homeowners are considering filing liability lawsuits against the MTBE manufacturers, and some have already reached settlements with these manufacturers for cleanup. However, the retroactivity provision of this bill will negate their arguments made in these claims. Furthermore, there are over 14,000 MTBE sites awaiting cleanup throughout New York State. This will, undoubtedly, transfer the liability from the

manufacturers to the taxpayer. Why should we adopt such a dangerous policy in a time when we call for fiscal responsibility? I stand in clear opposition of this issue.

Mr. Speaker, I hope this Congress will consider the aforementioned points on this legislation and we draft an energy bill that is both responsible and effective.

Mr. SMITH of Michigan. Mr. Speaker, our dependence on foreign energy leaves American consumers at the mercy of events occurring all over the world, from OPEC production decisions to increases in demand in China and India to terrorism in Saudi Arabia to incipient dictatorship in Venezuela. Reducing our dependence would ease the unpredictable swings in oil prices that now cause such havoc with both family budgets and the larger economy. As Director of Energy at USDA, I served on President Nixon's Oil Policy Commission during the 1970s Arab oil embargo, and I can tell you that this problem is greater today. There are no easy and simple answers.

We can make significant progress, but we have to go about it by making energy independence a national priority and by making investments in many key scientific areas. That's why I supported the energy bill the House passed last year and why I am supporting this legislation. This bill would increase conservation, encourage the use of domestic clean coal, permit greater domestic oil production, add to research into new energy sources, and expand the use of ethanol, biodiesel, biomass, and other renewable energy sources.

As Chairman of the Science Research Subcommittee, the bill includes amendments I offered that were put in the bill, including nitrogen fixation, nuclear power research, clean coal research, and school bus emission reductions. Section 962 of the bill supports research and development programs on biological nitrogen fixation, including plant genomics research. Today's nitrogen fertilizers are made from natural gas. We now have the technology to develop and enhance plants to put nitrogen in the soil. This section of the bill will reduce natural gas consumption and in turn will lower farmers' costs.

This bill contains important provisions to increase domestic fuel production, improve homeland security, and encourage the production of renewable fuels like hydrogen and ethanol. Currently, 2.5 billion gallons of ethanol are put into the American gasoline supply. With this new legislation, 5 billion gallons will be blended in by 2012. Ethanol is an oxygenate and is good for reducing pollution and lessening our dependence on imported fuels. We can grow it in abundance in our own fields every year. However, current ethanol technology production needs a continued tax break. Ethanol is only profitable with efficient production when you use the corn by-products. One bushel of corn makes 2.6 gallons, and 90 percent of ethanol is produced from corn. About 1.7 billion bushels of corn will go towards ethanol under this bill. By guaranteeing that 5 billion gallons of ethanol will be used, American farmers and ethanol producers can invest with confidence that, for at least the next 10 to 15 years, ethanol investments will pay off. By increasing ethanol usage, this bill bolsters corn prices.

Agreement on a modernized energy policy focusing on our nation's innovative strengths in science and technology and a reduction on our reliance on the hostile and politically un-

stable Middle East for fuel will help achieve energy self sufficiency and improve our country's economy and security for decades to come.

Mr. SHAYS. Mr. Speaker, protecting our environment and promoting energy independence are two of the most important jobs I have as a Member of Congress. Unfortunately, the legislation before us today is another missed opportunity to reduce our dependence on foreign oil, lower gasoline prices, promote energy efficiency and conservation, and improve our air, land and water quality.

We had a chance to devise a forward-looking energy policy that would have increased fuel efficiency, prioritized conservation, made polluters, including MTBE producers, pay for harming our environment, and advanced a renewable portfolio standard. Instead what we have is quite a bad bill.

I fail to understand why the major thrust of the bill's tax provisions involve further subsidizing the fossil fuel industry, rather than providing incentives for conservation and renewable sources of energy. These are enormously profitable industries operating in a time of record energy prices. Clearly, these profits demonstrate the market has already provided the fossil fuel industries with sufficient incentive to increase production.

Instead of creating a balanced energy policy that provides incentives to make renewable energy more affordable and widely available, we are making fiscally irresponsible and environmentally-reckless decisions for the benefit of a few profitable industries that don't need this kind of help from taxpayers.

I strongly oppose a provision in the bill that allows for the permanent activation of the Cross Sound Cable. In doing so, the bill subverts the regulatory process and ignores sound environmental policy.

I also oppose provisions in this bill related to the transmission of electricity. For instance, the Energy Policy Act allows the Federal Electric Regulatory Commission (FERC) to pre-empt state sitting authority when it is determined that a high-voltage power line is of "national significance." The fact is FERC arbitrarily gets to make that determination.

While I find the bulk of this bill environmentally-shortsighted, I am pleased it does not include provisions to open the Arctic National Wildlife Refuge to oil and gas exploration and drilling. In my judgment, it would be far better to develop prudent and lasting renewable energy sources than to risk irreparable damage to the wilderness of one of North America's most beautiful frontiers.

I look forward to the day when we will have an opportunity to vote for a fiscally-prudent, environmentally-responsible national energy policy. Today is not that day.

Mr. VAN HOLLEN. Mr. Speaker, this week we are going to be asked to vote—in some cases, for a second time—on a package of misguided and previously discarded energy initiatives we are alternately told will enhance our Nation's energy independence, provide price relief at the pump and create good paying jobs for those still looking for work in the Bush economy. If only that were true.

From the shrouded memos of the Cheney Energy Task Force to the most recent audio revelations of rampant profiteering at the trading desks of Enron, we can now see clearly that the approach embraced by this Administration and embodied in these proposals is a

policy process run completely amok. Unfortunately, one need not rely solely on history to reject this legislation. A straightforward evaluation of its merits leads inexorably to the same conclusion.

Take energy independence. We all have an interest in moving away from our current reliance on foreign oil. But according to the Bush Administration's own Energy Information Administration (EIA), the energy conference report before us today will have non appreciable impact on reducing demand for foreign petroleum—allowing oil imports to jump a staggering 82.9 percent by 2025, only slightly lower than the 84.8 percent rise expected under current projections.

And what about gasoline prices? The same EIA analysis concludes that gas prices will actually be higher with this legislation than without it—increasing 10.3 percent by 2025 under the bill, compared to an 8.2 percent rise with no action.

As for all those jobs purportedly waiting for out of work American if only Congress passes this bill, the nonpartisan Center for Economic and Policy Research reports: "Republican claims that their energy bill will create one million jobs are not credible on their face . . . The number of jobs affected by the bill will certainly only be a small fraction (almost certainly less than one tenth) of the size claimed by Republicans."

What's going on here? If we're not credibly enhancing our nation's energy independence, battling prices at the pump, or creating the next generation of high-tech, high-wage energy jobs, what in the world are we doing? Given the enormous size of our current budget deficit, along with the hefty \$31 billion price tag on the energy bill alone, the taxpaying public has a right to know.

Notwithstanding my serious objections to the priorities reflected in the bills before us, I sincerely believe this nation needs a comprehensive energy policy. For that reason, I will be supporting the common sense provisions in the Democratic motion to recommit. But frankly, I would do more.

Rather than drilling in the Arctic National Wildlife Refuge (ANWR)—an enormously environmentally destructive exercise expected to yield the equivalent of about 6 months of oil some 10 years from now—I believe we should increase the corporate average fuel economy (CAFE) standards for cars, SUVs and light trucks to 40 MPG. According to the national Academy of Sciences, a 40 MPG CAFE standard is feasible with existing technology, and conservative estimates place the energy savings at a multiple of the amount of recoverable oil in the ANWR. As an added benefit, consumers would save billions at the pump, and localities would be significantly aided in their efforts to comply with the Clean Air Act.

Additionally, I think it is foolhardy to talk about formulating a national energy policy without reference to that policy's potential implications for global climate change. So long as fossil fuels are part of our energy mix, we will be contributing to the ongoing carbon buildup in the earth's atmosphere. For that reason, Mr. GILCHREST, Mr. OLVER and I offered an amendment at the Rule Committee directing the federal government to establish a comprehensive, principle-based, date-certain national climate change policy along with a national database for registering greenhouse gas emissions. The language we suggested

was far more modest than the Climate Stewardship Act legislation we have introduced this Congress and, in fact, passed the Senate by a non-controversial voice vote in 2002. Nevertheless, on a bipartisan basis, we went to the Rules Committee—because we believe that the day for denial on this issue is over, and because we felt it was important to get this particular conversation started. Unfortunately, our amendment was not made in order.

Finally, I think it is high time we stop paying lip service to energy conservation, energy efficiency and renewables—and start investing seriously in the green technologies of tomorrow. We should invite business, labor and the environmental movement to construct a new forward-looking energy policy for the 21st century—one that rewards innovation; propels American dominance in the global marketplace; moves us credibly in the direction of energy independence; safeguards our environment; creates hundreds of thousands of new, domestic, high-skill, high-wage jobs; and incentivizes the production and consumption of ever more efficient products and services.

Mr. Speaker, we as a nation have a choice to make. We can embrace the majority's vision of watered down environmental protections paired with hefty subsidies for the mature, highly profitable, and yes, polluting, industries of the 20th century. Or we can craft a new, more dynamic energy policy that meets both the serious challenges and the substantial opportunities of the 21st century. That is the vision I will be fighting for, and I invite my colleagues on both sides of the aisle to do the same.

Ms. BALDWIN. Mr. Speaker, today, the House of Representatives will disprove the old saying "the third time's a charm." Three times in the last three years, this House has brought an energy bill to the floor with the charge of reducing our dependence on foreign oil and charting our nation's future energy course. And three times this House has failed miserably in drafting a bill that meets these goals.

My constituents in Wisconsin and the rest of America are starting to think Congress has not only lost its long-term memories, but its short-term memory as well. After all, rolling burnouts along the coast of California three years ago, a massive blackout that shadowed much of the northeast last summer, and skyrocketing prices at the pump right now, should be motivation enough to compel Congress to pass comprehensive energy legislation. Sadly, it has not.

The four energy bills on the House floor today are more for political show rather than good-faith efforts to meet America's current and future energy needs. Their sole intent is to put the blame for having a stalled energy bill on the shoulders of Democrats, and to provide evidence to big energy lobbyists that they have done what was asked of them. I believe the reason past energy bills have not been signed into law, and the reason this one will not either, is because our President and House Republicans have ignored the real energy problems facing our country and allowed special interests to come before the nation's best interests. This is government at its worst.

I think it may be helpful to do a quick recap of some of the reasons why Congress has been unable to get an energy bill to the President's desk. The first energy bill gave oil companies \$50 billion in tax subsidies to give them more incentive to drill for oil and gas. Con-

tinuing their record profits from the year before obviously wasn't incentive enough.

The last energy bill (and the identical one on the floor today) included many of these same subsidies, but added millions more for "pork" projects to Members' congressional districts to help muster additional support for the bill. For example, the bill includes \$180 million to build an "energy efficient" Hooters Restaurant in Louisiana.

Ultimately, the bill stalled because the Republican leadership insisted on giving liability protection to manufacturers that produce the fuel additive MTBE. MTBE helps vehicles burn fuel cleaner, but also causes widespread groundwater contamination. The provision would shield MTBE manufacturers from paying for the \$29 billion worth of damage they knowingly caused in 36 states, and would even provide \$750 million in taxpayer dollars to help them "transition" to another line of work. I do support a provision in the bill that would provide more incentives to use ethanol to replace MTBE.

High fuel prices are hurting consumers everywhere. However, there is nothing in this week's energy bill that would lower these prices anytime soon. Almost \$8 of the increased price per barrel of crude—or about 30 cents per gallon of gasoline—is directly related to the market's fears about violence in the gulf region and our difficulties in Iraq. While OPEC's decision to boost oil output will help meet the demands of China's economic surge and the U.S.'s rebounding economy, consumers shouldn't expect prices to fall dramatically during the busy summer travel season.

Since gas prices wouldn't be affected anytime soon even if the current energy bill was signed into law today, the bill is primarily about what our energy policies will be tomorrow and will into the future. I believe there are two different courses we can take.

The first course continues our reliance on finite natural resources and mistakenly assumes that we can reduce our dependence on foreign oil even though the U.S. has only 3 percent of the world's oil reserves. This course calls for no political will to harness American ingenuity to develop technology that makes our fuel more efficient and healthier for our environment. This course is simply more drilling. It continues the way of our past energy policies and inspires no one except CEOs at Chevron, Exxon Mobile, and BP.

The second course is much different, and is the one I believe we must take. It requires our Nation to "think big" and make difficult choices. We can give electric utilities tax credits to increase the amount of energy they produce from wind and other alternative sources. Ask almost any electric utility executive—if you give them incentives to use coal and gas they will, if you give them incentives to use renewable they will. To me, it's an easy choice to make.

Some legislators have proposed a sort of "Apollo-like project" to reduce our dependence on foreign oil. This undertaking would call for much more investment into the development of alternative and renewable fuels, fuel-efficient technologies, and other measures to conserve energy. While this undertaking would be expensive, I believe it is something this Congress should consider. These energy sources would be entirely under our control: no terrorist could seize them; and no cartel or foreign government can play games with them.

It is my hope that Congress will come to its senses, "think big", and address our nation's current energy needs while confronting its future challenges head-on. The energy bill on the floor this week does none of these things despite being over 1,000 pages long and taking hundreds of hours to draft—possibly making it one of the biggest wastes of energy in recent memory.

Mr. STARK. Mr. Speaker, I rise in strong opposition to the Energy Policy Act, the U.S. Refinery Revitalization Act, and the Renewable Energy Project Siting Improvement Act.

Billions of dollars in last-minute industry giveaways couldn't save the energy bill when we voted on it for the second time last November, so I guess the Republican Leadership is hoping that the third time is a charm. This is what now passes for legislating: declare "energy week," bring up the exact same bill with a different number, and add a couple others that by all accounts have no effect on the problems they purport to solve.

We all agree that gas prices are too high and that we need to bring stability to the energy market; but, not surprisingly, the Energy Information Administration found that giving billions of taxpayer dollars to oil companies won't have any effect on what consumers pay.

It gets worse. Because the subsidies couldn't pass on their own merits, the Republican Leadership threw in an MTBE waiver and ethanol mandate to buy votes. Under this legislation, our municipalities would be stuck with a \$29 billion to clean up MTBE contamination, and drivers in California could pay up to 9.6 cents more per gallon for ethanol that neither saves energy nor reduces smog.

What passes for investment in renewable energy in this bill is the repeal of the excise tax on diesel fuel for railroads and inland waterway barges and a tax credit for nuclear power production. I'd call that conserving corporate profits, not energy.

The Energy Policy Act is one of the worst examples of cynical, industry-driven legislating I have seen in Congress. Yet just when we thought every bad idea had been rolled into one big bill, industry has two more: waive environmental protections in disadvantaged communities for refinery construction and change government oversight of renewable energy projects from best alternatives to a no options, yes-or-no on what industry wants to build.

If you kicked out the industry lobbyists and asked economists and energy experts what would lower gas prices, they'd tell you to make a significant investment in renewable energy research, reduce the number of fuel blends in the country, and raise the fuel efficiency standards of cars and SUVs. If we made the SUV standard the same as it is for cars, we'd save one million barrels of oil per day and reduce our dependence on foreign oil by ten percent. None of these bills contains these simple, effective changes.

On behalf of my constituents in California, who pay among the highest gas prices in the country; on behalf of our environment, on behalf of our energy security, and on behalf of the old-fashioned notion that science and reason should have something to do with our national policies, I vote no on these industry giveaways.

Mr. LEVIN. Mr. Speaker, it is unwise to waste energy. It is also wrong to waste time. But somehow the House Leadership has found a way to waste both time and energy by bringing this misguided bill before the House.

We have a problem with energy in this country today. We import more than half the oil we use. The price of gasoline has soared with the rapid run up in oil prices over the last year. These energy price hikes hurt consumers and threaten to reignite inflation and lead to higher interest rates. In addition, our electricity transmission system is antiquated and prone to failure. Just last summer, the largest power blackout in U.S. history plunged tens of millions of Americans into darkness. We need to take immediate action on electricity reliability legislation to prevent this from happening again.

And what is the response of the House of Representatives? Today we are taking up the same flawed legislation the House passed last year that met with bipartisan opposition in the Senate because the bill was loaded with special interest provisions and billions of dollars of industry subsidies. It would be one thing if all these subsidies resulted in dramatically increased U.S. energy production or reduced energy consumption, but according to a recent analysis by the Energy Department's Energy Information Administration, this is not the case. The EIA analysis concluded that passage of this legislation would likely result in "negligible" changes in U.S. energy production, consumption, imports and prices.

If the House of Representatives is serious about dealing effectively with energy policy, passing this flawed rethread energy bill is not the way to get the job done. We can do much better than this.

The SPEAKER pro tempore. The gentleman's time has expired. All time for debate has expired.

Pursuant to House Resolution 671, the bill is considered read for amendment, and the previous question is ordered.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT BY MR. DINGELL

Mr. DINGELL. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. DINGELL. I am, Mr. Speaker.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Dingell moves to recommit the bill H.R. 4503 to the Committee on Energy and Commerce with instructions to report the same back to the House forthwith with the following amendment:

Strike all after the enacting clause and insert the following:

SECTION 1. FRAUDULENT OR MANIPULATIVE PRACTICES.

(a) UNLAWFUL ACTS.—It shall be unlawful for any entity, directly or indirectly, by the use of any means or instrumentality of interstate commerce or of the mails to use or employ, in the transmission of electric energy in interstate commerce, the sale of electric energy at wholesale in interstate commerce, the transportation of natural gas in interstate commerce, or the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use, any fraudulent, manipulative, or deceptive device or contrivance in contravention of

such rules and regulations as the Federal Energy Regulatory Commission may prescribe as necessary or appropriate in the public interest.

(b) APPLICATION OF FEDERAL POWER ACT TO THIS ACT.—The provisions of section 307 through 309 and 313 through 317 of the Federal Power Act shall apply to violations of section 1201 of this Act in the same manner and to the same extent as such provisions apply to entities subject to Part II of the Federal Power Act.

SEC. 2. RULEMAKING ON EXEMPTIONS, WAIVERS, ETC. UNDER FEDERAL POWER ACT.

Part III of the Federal Power Act is amended by inserting the following new section after section 319 and by redesignating sections 320 and 321 as sections 321 and 322, respectively:

"SEC. 320. CRITERIA FOR CERTAIN EXEMPTIONS, WAIVERS, ETC.

"(a) RULE REQUIRED FOR CERTAIN WAIVERS, EXEMPTIONS, ETC.—Not later than 6 months after the enactment of this Act, the Commission shall promulgate a rule establishing specific criteria for providing an exemption, waiver, or other reduced or abbreviated form of compliance with the requirements of sections 204, 301, 304, and 305 (including any prospective blanket order). Such criteria shall be sufficient to insure that any such action taken by the Commission will be consistent with the purposes of such requirements and will otherwise protect the public interest.

"(b) MORATORIUM ON CERTAIN WAIVERS, EXEMPTIONS, ETC.—After the date of enactment of this section, the Commission may not issue, adopt, order, approve, or promulgate any exemption, waiver, or other reduced or abbreviated form of compliance with the requirements of section 204, 301, 304, or 305 (including any prospective blanket order) until after the rule promulgated under subsection (a) has taken effect.

"(c) PREVIOUS FERC ACTION.—The Commission shall undertake a review, by rule or order, of each exemption, waiver, or other reduced or abbreviated form of compliance described in subsection (a) that was taken before the date of enactment of this section. No such action may continue in force and effect after the date 18 months after the date of enactment of this section unless the Commission finds that such action complies with the rule under subsection (a).

"(d) EXEMPTION UNDER 204(F) NOT APPLICABLE.—For purposes of this section, in applying section 204, the provisions of section 204(f) shall not apply."

SEC. 3. REPORTING REQUIREMENTS IN ELECTRIC POWER SALES AND TRANSMISSION.

(a) AUDIT TRAILS.—Section 304 of the Federal Power Act is amended by adding the following new subsection at the end thereof:

"(c)(1) The Commission shall, by rule or order, require each person or other entity engaged in the transmission of electric energy in interstate commerce or the sale of electric energy at wholesale in interstate commerce, and each broker, dealer, and power marketer involved in any such transmission or sale, to maintain, and periodically submit to the Commission, such records, in electronic form, of each transaction relating to such transmission or sale as may be necessary to determine whether any person has employed any fraudulent, manipulative, or deceptive device or contrivance in contravention of rules promulgated by the Commission.

"(2) Section 201(f) shall not limit the application of this subsection."

(b) NATURAL GAS.—Section 8 of the Natural Gas Act is amended by adding the following new subsection at the end thereof:

"(d) The Commission shall, by rule or order, require each person or other entity en-

gaged in the transportation of natural gas in interstate commerce, or the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use, and each broker, dealer, and power marketer involved in any such transportation or sale, to maintain, and periodically submit to the Commission, such records, in electronic form, of each transaction relating to such transmission or sale as may be necessary to determine whether any person has employed any fraudulent, manipulative, or deceptive device or contrivance in contravention of rules promulgated by the Commission."

SEC. 4. TRANSPARENCY.

(a) DEFINITION.—As used in this section the term "electric power or natural gas information processor" means any person engaged in the business of—

(1) collecting, processing, or preparing for distribution or publication, or assisting, participating in, or coordinating the distribution or publication of, information with respect to transactions in or quotations involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas, or

(2) distributing or publishing (whether by means of a ticker tape, a communications network, a terminal display device, or otherwise) on a current and continuing basis, information with respect to such transactions or quotations.

The term does not include any bona fide newspaper, news magazine, or business or financial publication of general and regular circulation, any self-regulatory organization, any bank, broker, dealer, building and loan, savings and loan, or homestead association, or cooperative bank, if such bank, broker, dealer, association, or cooperative bank would be deemed to be an electric power or natural gas information processor solely by reason of functions performed by such institutions as part of customary banking, brokerage, dealing, association, or cooperative bank activities, or any common carrier, as defined in section 3 of the Communications Act of 1934, subject to the jurisdiction of the Federal Communications Commission or a State commission, as defined in section 3 of that Act, unless the Commission determines that such carrier is engaged in the business of collecting, processing, or preparing for distribution or publication, information with respect to transactions in or quotations involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas.

(b) PROHIBITION.—No electric power or natural gas information processor may make use of the mails or any means or instrumentality of interstate commerce—

(1) to collect, process, distribute, publish, or prepare for distribution or publication any information with respect to quotations for, or transactions involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas, or

(2) to assist, participate in, or coordinate the distribution or publication of such information in contravention of such rules and regulations as the Federal Energy Regulatory Commission shall prescribe as necessary or appropriate in the public interest to

(A) prevent the use, distribution, or publication of fraudulent, deceptive, or manipulative information with respect to quotations for and transactions involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas;

(B) assure the prompt, accurate, reliable, and fair collection, processing, distribution, and publication of information with respect to quotations for and transactions involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas, and the fairness and usefulness of the form and content of such information;

(C) assure that all such information processors may, for purposes of distribution and publication, obtain on fair and reasonable terms such information with respect to quotations for and transactions involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas as is collected, processed, or prepared for distribution or publication by any exclusive processor of such information acting in such capacity;

(D) assure that, subject to such limitations as the Commission, by rule, may impose as necessary or appropriate for the maintenance of fair and orderly markets, all persons may obtain on terms which are not unreasonably discriminatory such information with respect to quotations for and transactions involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas as is published or distributed by any electric power or natural gas information processor;

(E) assure that all electricity and natural gas electronic communication networks transmit and direct orders for the purchase and sale of electricity or natural gas in a manner consistent with the establishment and operation of an efficient, fair, and orderly market system for electricity and natural gas; and

(F) assure equal regulation of all markets involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas and all persons effecting transactions involving the purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas.

(c) RELATED COMMODITIES.—For purposes of this section, the phrase “purchase or sale of electric power, natural gas, the transmission of electric energy, or the transportation of natural gas” includes the purchase or sale of any commodity (as defined in the Commodities Exchange Act) relating to any such purchase or sale if such commodity is excluded from regulation under the Commodities Exchange Act pursuant to section 2 of that Act.

(d) PROHIBITION.—No person who owns, controls, or is under the control or ownership of a public utility, a natural gas company, or a public utility holding company may own, control, or operate any electronic computer network or other multilateral trading facility utilized to trade electricity or natural gas.

SEC. 5. PENALTIES.

(a) CRIMINAL PENALTIES.—Section 316 of the Federal Power Act (16 U.S.C. 825o(c)) is amended as follows:

(1) By striking “\$5,000” in subsection (a) and inserting “\$5,000,000 for an individual and \$25,000,000 for any other defendant”

(2) By striking “\$500” in subsection (b) and inserting “\$1,000,000”.

(3) By striking subsection (c).

(b) CIVIL PENALTIES.—Section 316A of the Federal Power Act (16 U.S.C. 825o-1) is amended as follows:

(1) By striking “section 211, 212, 213, or 214” each place it appears and inserting “Part II”.

(2) By striking “\$10,000 for each day that such violation continues” and inserting “the greater of \$1,000,000 or three times the profit

made or gain or loss avoided by reason of such violation”.

(3) By adding the following at the end thereof:

“(c) AUTHORITY OF A COURT TO PROHIBIT PERSONS FROM CERTAIN ACTIVITIES.—In any proceeding under this section, the court may censure, place limitations on the activities, functions, or operations of, suspend or revoke the ability of any entity (without regard to section 201(f)) to participate in the transmission of electric energy in interstate commerce or the sale of electric energy at wholesale in interstate commerce if it finds that such censure, placing of limitations, suspension, or revocation is in the public interest and that one or more of the following applies to such entity:

“(1) Such entity has willfully made or caused to be made in any application or report required to be filed with the Commission or with any other appropriate regulatory agency, or in any proceeding before the Commission, any statement which was at the time and in the light of the circumstances under which it was made false or misleading with respect to any material fact, or has omitted to state in any such application or report any material fact which is required to be stated therein.

“(2) Such entity has been convicted of any felony or misdemeanor or of a substantially equivalent crime by a foreign court of competent jurisdiction which the court finds—

“(A) involves the purchase or sale of electricity, the taking of a false oath, the making of a false report, bribery, perjury, burglary, any substantially equivalent activity however denominated by the laws of the relevant foreign government, or conspiracy to commit any such offense;

“(B) arises out of the conduct of the business of transmitting electric energy in interstate commerce or selling or purchasing electric energy at wholesale in interstate commerce;

“(C) involves the larceny, theft, robbery, extortion, forgery, counterfeiting, fraudulent concealment, embezzlement, fraudulent conversion, or misappropriation of funds, or securities, or substantially equivalent activity however denominated by the laws of the relevant foreign government; or

“(D) involves the violation of section 152, 1341, 1342, or 1343 or chapter 25 or 47 of title 18, United States Code, or a violation of a substantially equivalent foreign statute.

“(3) Such entity is permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction from acting as an investment adviser, underwriter, broker, dealer, municipal securities dealer, government securities broker, government securities dealer, transfer agent, foreign person performing a function substantially equivalent to any of the above, or entity or person required to be registered under the Commodity Exchange Act or any substantially equivalent foreign statute or regulation, or as an affiliated person or employee of any investment company, bank, insurance company, foreign entity substantially equivalent to any of the above, or entity or person required to be registered under the Commodity Exchange Act or any substantially equivalent foreign statute or regulation, or from engaging in or continuing any conduct or practice in connection with any such activity, or in connection with the purchase or sale of any security.

“(4) Such entity has willfully violated any provision of this Act.

“(5) Such entity has willfully aided, abetted, counseled, commanded, induced, or procured the violation by any other person of any provision of this Act, or has failed reasonably to supervise, with a view to preventing violations of the provisions of this

Act, another person who commits such a violation, if such other person is subject to his supervision. For the purposes of this paragraph no person shall be deemed to have failed reasonably to supervise any other person, if—

“(A) there have been established procedures, and a system for applying such procedures, which would reasonably be expected to prevent and detect, insofar as practicable, any such violation by such other person, and

“(B) such person has reasonably discharged the duties and obligations incumbent upon him by reason of such procedures and system without reasonable cause to believe that such procedures and system were not being complied with.

“(6) Such entity has been found by a foreign financial or energy regulatory authority to have—

“(A) made or caused to be made in any application or report required to be filed with a foreign regulatory authority, or in any proceeding before a foreign financial or energy regulatory authority, any statement that was at the time and in the light of the circumstances under which it was made false or misleading with respect to any material fact, or has omitted to state in any application or report to the foreign regulatory authority any material fact that is required to be stated therein;

“(B) violated any foreign statute or regulation regarding the transmission or sale of electricity or natural gas;

“(C) aided, abetted, counseled, commanded, induced, or procured the violation by any person of any provision of any statutory provisions enacted by a foreign government, or rules or regulations thereunder, empowering a foreign regulatory authority regarding transactions in electricity or natural gas, or contracts of sale of electricity or natural gas, traded on or subject to the rules of a contract market or any board of trade, or has been found, by a foreign regulatory authority, to have failed reasonably to supervise, with a view to preventing violations of such statutory provisions, rules, and regulations, another person who commits such a violation, if such other person is subject to his supervision.

“(7) Such entity is subject to any final order of a State commission (or any agency or officer performing like functions), State authority that supervises or examines banks, savings associations, or credit unions, State insurance commission (or any agency or office performing like functions), an appropriate Federal banking agency (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813(q))), or the National Credit Union Administration, that—

“(A) bars such person from association with an entity regulated by such commission, authority, agency, or officer, or from engaging in the business of securities, insurance, banking, savings association activities, or credit union activities; or

“(B) constitutes a final order based on violations of any laws or regulations that prohibit fraudulent, manipulative, or deceptive conduct.

“(8) Such entity is subject to statutory disqualification within the meaning of section 3(a)(39) of the Securities Exchange Act of 1934.”

(c) NATURAL GAS ACT PENALTIES.—Section 21 of the Natural Gas Act is amended by adding the following new subsection at the end thereof:

“(c) AUTHORITY OF A COURT TO PROHIBIT PERSONS FROM CERTAIN ACTIVITIES.—In any proceeding under this section, the court may censure, place limitations on the activities, functions, or operations of, suspend or revoke the ability of any entity (without regard to section 201(f)) to participate in the

transportation of natural gas in interstate commerce, or the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use if it finds that such censure, placing of limitations, suspension, or revocation is in the public interest and that one or more of the following applies to such entity:

“(1) Such entity has willfully made or caused to be made in any application or report required to be filed with the Commission or with any other appropriate regulatory agency, or in any proceeding before the Commission, any statement which was at the time and in the light of the circumstances under which it was made false or misleading with respect to any material fact, or has omitted to state in any such application or report any material fact which is required to be stated therein.

“(2) Such entity has been convicted of any felony or misdemeanor or of a substantially equivalent crime by a foreign court of competent jurisdiction which the court finds—

“(A) involves the purchase or sale of natural gas, the taking of a false oath, the making of a false report, bribery, perjury, burglary, any substantially equivalent activity however denominated by the laws of the relevant foreign government, or conspiracy to commit any such offense;

“(B) arises out of the conduct of the business of transmitting natural gas in interstate commerce, or the selling in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use;

“(C) involves the larceny, theft, robbery, extortion, forgery, counterfeiting, fraudulent concealment, embezzlement, fraudulent conversion, or misappropriation of funds, or securities, or substantially equivalent activity however denominated by the laws of the relevant foreign government; or

“(D) involves the violation of section 152, 1341, 1342, or 1343 or chapter 25 or 47 of title 18, United States Code, or a violation of a substantially equivalent foreign statute.

“(3) Such entity is permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction from acting as an investment adviser, underwriter, broker, dealer, municipal securities dealer, government securities broker, government securities dealer, transfer agent, foreign person performing a function substantially equivalent to any of the above, or entity or person required to be registered under the Commodity Exchange Act or any substantially equivalent foreign statute or regulation, or as an affiliated person or employee of any investment company, bank, insurance company, foreign entity substantially equivalent to any of the above, or entity or person required to be registered under the Commodity Exchange Act or any substantially equivalent foreign statute or regulation, or from engaging in or continuing any conduct or practice in connection with any such activity, or in connection with the purchase or sale of any security.

“(4) Such entity has willfully violated any provision of this Act.

“(5) Such entity has willfully aided, abetted, counseled, commanded, induced, or procured the violation by any other person of any provision of this Act, or has failed reasonably to supervise, with a view to preventing violations of the provisions of this Act, another person who commits such a violation, if such other person is subject to his supervision. For the purposes of this paragraph no person shall be deemed to have failed reasonably to supervise any other person, if—

“(A) there have been established procedures, and a system for applying such proce-

dures, which would reasonably be expected to prevent and detect, insofar as practicable, any such violation by such other person, and

“(B) such person has reasonably discharged the duties and obligations incumbent upon him by reason of such procedures and system without reasonable cause to believe that such procedures and system were not being complied with.

“(6) Such entity has been found by a foreign financial or energy regulatory authority to have—

“(A) made or caused to be made in any application or report required to be filed with a foreign regulatory authority, or in any proceeding before a foreign financial or energy regulatory authority, any statement that was at the time and in the light of the circumstances under which it was made false or misleading with respect to any material fact, or has omitted to state in any application or report to the foreign regulatory authority any material fact that is required to be stated therein;

“(B) violated any foreign statute or regulation regarding the transmission or sale of electricity or natural gas;

“(C) aided, abetted, counseled, commanded, induced, or procured the violation by any person of any provision of any statutory provisions enacted by a foreign government, or rules or regulations thereunder, empowering a foreign regulatory authority regarding transactions in electricity or natural gas, or contracts of sale of electricity or natural gas, traded on or subject to the rules of a contract market or any board of trade, or has been found, by a foreign regulatory authority, to have failed reasonably to supervise, with a view to preventing violations of such statutory provisions, rules, and regulations, another person who commits such a violation, if such other person is subject to his supervision.

“(7) Such entity is subject to any final order of a State commission (or any agency or officer performing like functions), State authority that supervises or examines banks, savings associations, or credit unions, State insurance commission (or any agency or office performing like functions), an appropriate Federal banking agency (as defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813(q))), or the National Credit Union Administration, that—

“(A) bars such person from association with an entity regulated by such commission, authority, agency, or officer, or from engaging in the business of securities, insurance, banking, savings association activities, or credit union activities; or

“(B) constitutes a final order based on violations of any laws or regulations that prohibit fraudulent, manipulative, or deceptive conduct.

“(8) Such entity is subject to statutory disqualification within the meaning of section 3(a)(39) of the Securities Exchange Act of 1934.”

SEC. 6. REVIEW OF PUHCA EXEMPTIONS.

Not later than 12 months after the enactment of this Act the Securities and Exchange Commission shall review each exemption granted to any person under section 3(a) of the Public Utility Holding Company Act of 1935 and shall review the action of persons operating pursuant to a claim of exempt status under section 3 to determine if such exemptions and claims are consistent with the requirements of such section 3(a) and whether or not such exemptions or claims of exemption should continue in force and effect.

SEC. 7. REVIEW OF ACCOUNTING FOR CONTRACTS INVOLVED IN ENERGY TRADING.

Not later than 12 months after the enactment of this Act, the Financial Accounting

Standards Board shall submit to the Congress a report of the results of its review of accounting for contracts in energy trading and risk management activities. The review and report shall include, among other issues, the use of mark-to-market accounting and when gains and losses should be recognized, with a view toward improving the transparency of energy trading activities for the benefit of investors, consumers, and the integrity of these markets.

SEC. 8. PROTECTION OF FERC REGULATED SUBSIDIARIES.

Section 205 of the Federal Power Act is amended by adding after subsection (f) the following new subsection:

“(g) RULES AND PROCEDURES TO PROTECT CONSUMERS OF PUBLIC UTILITIES.—Not later than 9 months after the date of enactment of this Act, the Commission shall adopt rules and procedures for the protection of electric consumers from self-dealing, interaffiliate abuse, and other harmful actions taken by persons owning or controlling public utilities. Such rules shall ensure that no asset of a public utility company shall be used as collateral for indebtedness incurred by the holding company of, and any affiliate of, such public utility company, and no public utility shall acquire or own any securities of the holding company or other affiliates of the holding company unless the Commission has determined that such acquisition or ownership is consistent with the public interest and the protection of consumers of such public utility.”

SEC. 9. REFUNDS UNDER THE FEDERAL POWER ACT.

Section 206(b) of the Federal Power Act is amended as follows:

(1) By amending the first sentence to read as follows: “In any proceeding under this section, the refund effective date shall be the date of the filing of a complaint or the date of the Commission motion initiating the proceeding, except that in the case of a complaint with regard to market-based rates, the Commission shall establish such earlier refund effective date as is necessary to provide a refund of any rate or charge that is not just and reasonable, as determined by the Commission. To the extent necessary to achieve the purposes of this section, the Commission shall initiate new proceedings, including investigations, and issue appropriate refunds.”

(2) By striking the second and third sentences.

(3) By striking out “the refund effective date or by” and “, whichever is earlier,” in the fifth sentence.

(4) In the seventh sentence by striking “through a date fifteen months after such refund effective date” and insert “and prior to the conclusion of the proceeding” and by striking the proviso.

SEC. 10. ACCOUNTS AND REPORTS.

Section 318 of the Federal Power Act is amended by adding the following at the end thereof: “This section shall not apply to sections 301 and 304 of this Act.”

SEC. 11. MARKET-BASED RATES.

Section 205 of the Federal Power Act is amended by adding the following new subsection at the end thereof:

“(g) For each public utility granted the authority by the Commission to sell electric energy at market-based rates, the Commission shall review the activities and characteristics of such utility not less frequently than annually to determine whether such rates are just and reasonable. Each such utility shall notify the Commission promptly of any change in the activities and characteristics relied upon by the Commission in granting such public utility the authority to sell electric energy at market-based rates. If the Commission finds that:

“(1) a rate charged by a public utility authorized to sell electric energy at market-based rates is unjust, unreasonable, unduly discriminatory or preferential,

“(2) the public utility has intentionally engaged in an activity that violates any other rule, tariff, or order of the Commission, or

“(3) any violation of section 101 of the Energy Markets Fraud Prevention and Consumer Protection Act of 2002,

the Commission shall issue an order immediately modifying or revoking the authority of that public utility to sell electric energy at market-based rates.”

SEC. 12. ELECTRIC RELIABILITY STANDARDS.

Part II of the Federal Power Act (16 U.S.C 824 et seq.) is amended by inserting the following new section at the end thereof:

“SEC. 215. ELECTRIC RELIABILITY.

“(a) DEFINITIONS.—For purposes of this section—

“(1) The term ‘bulk-power system’ means—

“(A) facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof); and

“(B) electric energy from generation facilities needed to maintain transmission system reliability.

The term does not include facilities used in the local distribution of electric energy.

“(2) The terms ‘Electric Reliability Organization’ and ‘ERO’ mean the organization certified by the Commission under subsection (c) the purpose of which is to establish and enforce reliability standards for the bulk-power system, subject to Commission review.

“(3) The term ‘reliability standard’ means a requirement, approved by the Commission under this section, to provide for reliable operation of the bulk-power system. The term includes requirements for the operation of existing bulk-power system facilities and the design of planned additions or modifications to such facilities to the extent necessary to provide for reliable operation of the bulk-power system, but the term does not include any requirement to enlarge such facilities or to construct new transmission capacity or generation capacity.

“(4) The term ‘reliable operation’ means operating the elements of the bulk-power system within equipment and electric system thermal, voltage, and stability limits so that instability, uncontrolled separation, or cascading failures of such system will not occur as a result of a sudden disturbance or unanticipated failure of system elements.

“(5) The term ‘Interconnection’ means a geographic area in which the operation of bulk-power system components is synchronized such that the failure of one or more of such components may adversely affect the ability of the operators of other components within the system to maintain reliable operation of the facilities within their control.

“(6) The term ‘transmission organization’ means a regional transmission organization, independent system operator, independent transmission provider, or other transmission organization finally approved by the Commission for the operation of transmission facilities.

“(7) The term ‘regional entity’ means an entity having enforcement authority pursuant to subsection (e)(4).

“(b) JURISDICTION AND APPLICABILITY.—(1) The Commission shall have jurisdiction, within the United States, over the ERO certified by the Commission under subsection (c), any regional entities, and all users, owners and operators of the bulk-power system, including but not limited to the entities described in section 201(f), for purposes of approving reliability standards established

under this section and enforcing compliance with this section. All users, owners and operators of the bulk-power system shall comply with reliability standards that take effect under this section.

“(2) The Commission shall issue a final rule to implement the requirements of this section not later than 180 days after the date of enactment of this section.

“(c) CERTIFICATION.—Following the issuance of a Commission rule under subsection (b)(2), any person may submit an application to the Commission for certification as the Electric Reliability Organization (ERO). The Commission may certify one such ERO if the Commission determines that such ERO—

“(1) has the ability to develop and enforce, subject to subsection (e)(2), reliability standards that provide for an adequate level of reliability of the bulk-power system; and

“(2) has established rules that—

“(A) assure its independence of the users and owners and operators of the bulk-power system, while assuring fair stakeholder representation in the selection of its directors and balanced decisionmaking in any ERO committee or subordinate organizational structure;

“(B) allocate equitably reasonable dues, fees, and other charges among end users for all activities under this section;

“(C) provide fair and impartial procedures for enforcement of reliability standards through the imposition of penalties in accordance with subsection (e) (including limitations on activities, functions, or operations, or other appropriate sanctions);

“(D) provide for reasonable notice and opportunity for public comment, due process, openness, and balance of interests in developing reliability standards and otherwise exercising its duties; and

“(E) provide for taking, after certification, appropriate steps to gain recognition in Canada and Mexico.

“(d) RELIABILITY STANDARDS.—(1) The Electric Reliability Organization shall file each reliability standard or modification to a reliability standard that it proposes to be made effective under this section with the Commission.

“(2) The Commission may approve, by rule or order, a proposed reliability standard or modification to a reliability standard if it determines that the standard is just, reasonable, not unduly discriminatory or preferential, and in the public interest. The Commission shall give due weight to the technical expertise of the Electric Reliability Organization with respect to the content of a proposed standard or modification to a reliability standard and to the technical expertise of a regional entity organized on an Interconnection-wide basis with respect to a reliability standard to be applicable within that Interconnection, but shall not defer with respect to the effect of a standard on competition. A proposed standard or modification shall take effect upon approval by the Commission.

“(3) The Electric Reliability Organization shall rebuttably presume that a proposal from a regional entity organized on an Interconnection-wide basis for a reliability standard or modification to a reliability standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest.

“(4) The Commission shall remand to the Electric Reliability Organization for further consideration a proposed reliability standard or a modification to a reliability standard that the Commission disapproves in whole or in part.

“(5) The Commission, upon its own motion or upon complaint, may order the Electric

Reliability Organization to submit to the Commission a proposed reliability standard or a modification to a reliability standard that addresses a specific matter if the Commission considers such a new or modified reliability standard appropriate to carry out this section.

“(6) The final rule adopted under subsection (b)(2) shall include fair processes for the identification and timely resolution of any conflict between a reliability standard and any function, rule, order, tariff, rate schedule, or agreement accepted, approved, or ordered by the Commission applicable to a transmission organization. Such transmission organization shall continue to comply with such function, rule, order, tariff, rate schedule or agreement accepted approved, or ordered by the Commission until—

“(A) the Commission finds a conflict exists between a reliability standard and any such provision;

“(B) the Commission orders a change to such provision pursuant to section 206 of this part; and

“(C) the ordered change becomes effective under this part.

If the Commission determines that a reliability standard needs to be changed as a result of such a conflict, it shall order the ERO to develop and file with the Commission a modified reliability standard under paragraph (4) or (5) of this subsection.

“(e) ENFORCEMENT.—(1) The ERO may impose, subject to paragraph (2), a penalty on a user or owner or operator of the bulk-power system for a violation of a reliability standard approved by the Commission under subsection (d) if the ERO, after notice and an opportunity for a hearing—

“(A) finds that the user or owner or operator has violated a reliability standard approved by the Commission under subsection (d); and

“(B) files notice and the record of the proceeding with the Commission.

“(2) A penalty imposed under paragraph (1) may take effect not earlier than the 31st day after the electric reliability organization files with the Commission notice of the penalty and the record of proceedings. Such penalty shall be subject to review by the Commission, on its own motion or upon application by the user, owner or operator that is the subject of the penalty filed within 30 days after the date such notice is filed with the Commission. Application to the Commission for review, or the initiation of review by the Commission on its own motion, shall not operate as a stay of such penalty unless the Commission otherwise orders upon its own motion or upon application by the user, owner or operator that is the subject of such penalty. In any proceeding to review a penalty imposed under paragraph (1), the Commission, after notice and opportunity for hearing (which hearing may consist solely of the record before the electric reliability organization and opportunity for the presentation of supporting reasons to affirm, modify, or set aside the penalty), shall by order affirm, set aside, reinstate, or modify the penalty, and, if appropriate, remand to the electric reliability organization for further proceedings. The Commission shall implement expedited procedures for such hearings.

“(3) On its own motion or upon complaint, the Commission may order compliance with a reliability standard and may impose a penalty against a user or owner or operator of the bulk-power system, if the Commission finds, after notice and opportunity for a hearing, that the user or owner or operator of the bulk-power system has engaged or is about to engage in any acts or practices that constitute or will constitute a violation of a reliability standard.

“(4) The Commission shall establish regulations authorizing the ERO to enter into an agreement to delegate authority to a regional entity for the purpose of proposing reliability standards to the ERO and enforcing reliability standards under paragraph (1) if—

“(A) the regional entity is governed by—

“(i) an independent board;

“(ii) a balanced stakeholder board; or

“(iii) a combination independent and balanced stakeholder board.

“(B) the regional entity otherwise satisfies the provisions of subsection (c)(1) and (2); and

“(C) the agreement promotes effective and efficient administration of bulk-power system reliability.

The Commission may modify such delegation. The ERO and the Commission shall rebuttably presume that a proposal for delegation to a regional entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk-power system reliability and should be approved. Such regulation may provide that the Commission may assign the ERO's authority to enforce reliability standards under paragraph (1) directly to a regional entity consistent with the requirements of this paragraph.

“(5) The Commission may take such action as is necessary or appropriate against the ERO or a regional entity to ensure compliance with a reliability standard or any Commission order affecting the ERO or a regional entity.

“(6) Any penalty imposed under this section shall bear a reasonable relation to the seriousness of the violation and shall take into consideration the efforts of such user, owner, or operator to remedy the violation in a timely manner.

“(f) CHANGES IN ELECTRICITY RELIABILITY ORGANIZATION RULES.—The Electric Reliability Organization shall file with the Commission for approval any proposed rule or proposed rule change, accompanied by an explanation of its basis and purpose. The Commission, upon its own motion or complaint, may propose a change to the rules of the Electric Reliability Organization. A proposed rule or proposed rule change shall take effect upon a finding by the Commission, after notice and opportunity for comment, that the change is just, reasonable, not unduly discriminatory or preferential, is in the public interest, and satisfies the requirements of subsection (c).

“(g) RELIABILITY REPORTS.—The Electric Reliability Organization shall conduct periodic assessments of the reliability and adequacy of the bulk-power system in North America.

“(h) COORDINATION WITH CANADA AND MEXICO.—The President is urged to negotiate international agreements with the governments of Canada and Mexico to provide for effective compliance with reliability standards and the effectiveness of the Electric Reliability Organization in the United States and Canada or Mexico.

“(i) SAVINGS PROVISIONS.—(1) The Electric Reliability Organization shall have authority to develop and enforce compliance with reliability standards for only the bulk-power system.

“(2) This section does not authorize the Electric Reliability Organization or the Commission to order the construction of additional generation or transmission capacity or to set and enforce compliance with standards for adequacy or safety of electric facilities or services.

“(3) Nothing in this section shall be construed to preempt any authority of any State to take action to ensure the safety, adequacy, and reliability of electric service within that State, as long as such action is

not inconsistent with any reliability standard.

“(4) Within 90 days of the application of the Electric Reliability Organization or other affected party, and after notice and opportunity for comment, the Commission shall issue a final order determining whether a State action is inconsistent with a reliability standard, taking into consideration any recommendation of the Electric Reliability Organization.

“(5) The Commission, after consultation with the Electric Reliability Organization and the State taking action, may stay the effectiveness of any State action, pending the Commission's issuance of a final order.

“(j) REGIONAL ADVISORY BODIES.—The Commission shall establish a regional advisory body on the petition of at least two-thirds of the States within a region that have more than one-half of their electric load served within the region. A regional advisory body shall be composed of or one member from each participating State in the region, appointed by the Governor of each State, and may include representatives of agencies, States, and provinces outside the United States. A regional advisory body may provide advice to the Electric Reliability Organization, a regional entity, or the Commission regarding the governance of an existing or proposed regional entity within the same region, whether a standard proposed to apply within the region is just, reasonable, not unduly discriminatory or preferential, and in the public interest, whether fees proposed to be assessed within the region are just, reasonable, not unduly discriminatory or preferential, and in the public interest and any other responsibilities requested by the Commission. The Commission may give deference to the advice of any such regional advisory body if that body is organized on an Interconnection-wide basis.

“(k) APPLICATION TO ALASKA AND HAWAII.—The provisions of this section do not apply to Alaska or Hawaii.”

SEC. 13. STRATEGIC PETROLEUM RESERVE CONTRACTS.

Section 160 of the Energy Policy and Conservation Act (42 U.S.C. 6240) is amended by inserting after subsection (b) the following new subsection:

“(c) Whenever there is a substantial increase in the market price of a petroleum product which is subject to a contract for delivery to the Reserve, the Secretary shall, to the extent possible under the contract or through renegotiation of the terms and conditions of the contract (including terms and conditions relating to the delivery date), take such actions as are necessary to protect consumers or achieve the objectives described in subsection (b).”

Mr. DINGELL (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

The SPEAKER pro tempore. The gentleman from Michigan (Mr. DINGELL) is recognized for 5 minutes in support of his motion.

Mr. DINGELL. Mr. Speaker, I yield 2½ minutes to the distinguished gentlewoman from California (Ms. ESHOO), who is cosponsor of the motion to recommit.

Ms. ESHOO. Mr. Speaker, I thank the very distinguished ranking member of the Committee on Energy and Commerce for yielding me this time.

I rise today in support of this motion to recommit. And, Mr. Speaker, I do so for the following reasons. One of the great things about our country is that we recognize when mistakes have been made, when the American people have suffered an injustice, a wrong, and we stand to make it right. That is what this motion to recommit is all about.

Two weeks ago the people of our country heard all over the airwaves the disgraceful and disgusting tapes, the audio tapes of the Enron traders and how they planned and how they executed the gouging and the manipulation of the energy market in the Pacific Northwest and in California. Time and again we have sought amendments. Time and again we have gone to the Speaker of the House. Time and again the three delegations from the Pacific Northwest and California have attempted to make this right.

Today in this energy bill we ask that it be recommitted, and with this recommitment we will direct the Federal Energy Commission that is charged with the consumers' best interest to refund the dollars that were robbed out of greed from the American people. We are a great and good Nation. We can correct this. That is what the motion to recommit is all about. Every single Member of this House, Republicans and Democrats, have a stake in this. If they vote against the motion to recommit, they are saluting those that robbed American consumers. So stand with them. Do the right thing.

Mr. DINGELL. Mr. Speaker, I yield myself such time as I may consume.

I urge my colleagues to vote for the motion to recommit. It is very simple. It is passive. It is something which the Senate, I believe, would consider; and it is something which will be accepted by the American people and which will help with the energy problems.

First of all, it contains energy anti-fraud provisions to avoid a recurrence of the widespread unchecked fraud that rocked Western power markets in recent years. The motion requires FERC to refund overcharges, updates various provisions of the Federal Power Act, and gives the Federal Energy Regulatory Commission authority to deter and to punish market manipulation.

It has electric reliability provisions. The motion includes what is perhaps the most widely supported provision in the bill before us today, making the rules that govern the operation of the interstate electric grid mandatory and enforceable. The U.S.-Canada Task Force report called this the most important step that this Nation can take to prevent future blackouts.

It includes legislation which relates to the Strategic Petroleum Reserve; and regardless of how the Members feel about drawing down the Strategic Petroleum Reserve to address prices, an idea which, by the way, I oppose, no one can quarrel with the premise that the Department of Energy should manage additions of crude oil to the reserves in such a way as to minimize

costs and to avoid exerting upward pressure on oil prices when markets are awry.

The administration has been inexplicably reluctant to defer deliveries of crude to SPR during the current market run-up in oil prices, despite the fact that it has been done before. The motion directs the Secretary to pursue this option and to utilize futures and other devices which would enable him to address this.

All of us, I think, here in the House favor certain aspects of H.R. 4503, but the good provisions are being held hostage to other aspects that are controversial, provisions which are clearly special interests and, quite frankly, will not pass the sniff test. It is too late in the session to continue playing chicken with this issue. The time has come to enact carefully drawn provisions in addressing the Nation's most immediate needs. This motion addresses the three most important major energy problems, market manipulation, electric reliability, and high gasoline prices, in ways that Members should be able to agree upon.

□ 1545

We can pursue the goal of a broader energy bill later in a better fashion, hopefully a more bipartisan way, in which the Members of the Congress will have an opportunity to address it with proper amendments on the floor or to attend the meetings of the conferees, which were foreclosed to Members on the minority side in a most curious and, I would note, unparliamentary fashion.

I urge my colleagues to endorse and support and vote for the motion to recommit. It is a good piece of legislation. It converts a bad piece of legislation into something which will work, and it has a chance of being considered and passed in the Senate. I urge my colleagues to vote for the motion to recommit.

Mr. BARTON of Texas. Mr. Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore (Mr. ISAKSON). The gentleman is recognized for 5 minutes.

Mr. BARTON of Texas. Mr. Speaker, I wish to say as I rise in opposition that I am in total support of the Dean of the House, the gentleman from Michigan, in his efforts to help develop a comprehensive energy plan for our country, but I cannot support this particular motion to recommit.

It is true that some elements of the motion to recommit would be helpful. There is an increase in civil fines for wrongdoing, but that is already in the pending bill that is before us. In fact, the bill that is before us would increase the fine to \$1 million.

The pending bill before us bans round trip trades. The gentleman's motion to recommit does not ban round trip trades.

The pending bill before us would encourage the development and siting of

new transmission lines. The motion to recommit does not do that.

The pending bill before us protects native load in those States that wish to do that. The gentleman's motion to recommit does not protect native load.

The pending bill repeals the Public Utility Holding Company Act so we get more capital into our energy markets. That is one area where the gentleman from Michigan and I have a policy difference. He does totally oppose the repeal of PUHCA, and that is just an honest difference of opinion.

The pending bill before us would reform PURPA, which allows cogeneration facilities to sell their surplus electricity into the power grid. The motion to recommit does not do that.

There is no provision in the motion to recommit for clean coal technology. There is no provision in the motion to recommit for hydrogen fuel cell research. There is no provision in the motion to recommit for investment tax credits for wind power and solar power and other alternative energy resources.

There is no provision in the motion to recommit to incentivize the construction of the Alaska natural gas pipeline, where we have 40 trillion cubic feet of natural gas that is not being used at the current time because we cannot get it to the Lower 48 States.

In fact, the gentleman's motion to recommit has not one molecule of new energy in the motion to recommit. So while it may be well-intended, I do not think it is a substitute for a comprehensive energy bill, which, I will point out, has passed the House in its current form by a vote of 246 to 180, which was a bipartisan vote.

The motion to recommit in a similar form failed before this body 193 to 237, although I must admit that that particular motion to recommit did not have the section on the Strategic Petroleum Reserve. I have tried to understand the section on the Strategic Petroleum Reserve and I will take the gentleman from Michigan at his word that the intent of the SPR language is to provide some protection for price flexibility. But as a layman; i.e. myself, reads it, it is unclear to me that it actually does that. But I will take him at his word, that if he says that is what it does, I will stipulate that is what it does.

In summary, while the motion to recommit is well intended, it is not a substitute for a comprehensive energy bill. In a form very similar to what it is today, it has failed before this body 237 to 193, and I hope when we come to the vote, if it comes to a rollcall vote, that once again it will fail, with all due respect to my good friend from Michigan.

Mr. Speaker, I yield back the balance of my time, and urge a no vote on the motion to recommit.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit offered by the gentleman from Michigan (Mr. DINGELL).

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. DINGELL. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clauses 8 and 9 of rule XX, this 15-minute vote on the motion to recommit will be followed by 5-minute votes as ordered on the question of passage of H.R. 4503 and the question postponed earlier today on the passage of H.R. 4513.

The vote was taken by electronic device, and there were—yeas 192, nays 230, not voting 11, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE
 The SPEAKER pro tempore (Mrs. BIGGERT) (during the vote). Members are advised there are 2 minutes remaining in this vote.

□ 1614

Messrs. NEUGEBAUER, NUNES, REGULA, PUTNAM, and BRADY of Texas changed their vote from “yea” to “nay.”

Ms. HARMAN, and Messrs. HOFFFEL, LANGEVIN, ORTIZ, MEEKS of New York, and MOLLOHAN

changed their vote from “nay” to “yea.”

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DINGELL. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 244, nays 178, not voting 11, as follows:

[Roll No. 241]

□ 1624

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

RENEWABLE ENERGY PROJECT SITING IMPROVEMENT ACT OF 2004

The SPEAKER pro tempore (Mrs. BIGGERT). The pending business is the question of the passage of the bill, H.R. 4513, on which further proceedings were postponed earlier today.

The Clerk read the title of the bill.
