

TENTH ANNIVERSARY OF U.N.
CONVENTION TO COMBAT
DESERTIFICATION

Mr. JEFFORDS. Mr. President, I rise today to mark the tenth anniversary of the United Nations Convention to Combat Desertification. Since its adoption on June 17th, 1994, some 190 countries, including the United States, have become party to the convention. But for those looking for reasons to celebrate on this tenth anniversary, the news on desertification is not good at all. Indeed, the scope and pace of desertification have increased over the last two decades. In some parts of the world, the rate of desertification has doubled since the 1970s. By 2025, according to the United Nations, two-thirds of the arable land in Africa will be gone.

Today, desertification threatens an astonishing one-third of the earth's land surface, directly affecting over 250 million people and threatening the livelihoods of some 1.2 billion more. Most of these people live in the world's poorest countries, caught in a vicious cycle of accelerating poverty and environmental degradation. Disruptions associated with climate change will likely make things worse.

No one has to be reminded of how important fertile soil has been to human societies. But what can take centuries to form can be eroded or blown away in a matter of years. Loss of arable land directly undermines food security, displacing large numbers of people, creating new opportunities for sickness and disease, and, in some cases, contributing to famine. These sorts of pressures also work to exacerbate political instability in so-called weak states.

Indeed, the links between desertification and security are increasingly apparent, as recognized by a recent NATO workshop on the issue. It is high time that policy makers in the United States take these linkages seriously.

But it is also high time to recognize that desertification is fundamentally a humanitarian issue. We cannot remain indifferent while millions suffer from the effects of desertification. This was the impetus that drove the international community to negotiate and adopt a formal convention ten years ago. As we mark the tenth anniversary of the convention, we would do well to remember this and to acknowledge that we must redouble our efforts to combat this global environmental problem.

Unfortunately, the United States has so far failed to play a leading role in the global effort to combat desertification. Although we finally became a party to the convention in 2000, we have never been especially active. I urge the current administration to step up and take a more active role in the convention. Without active participation and leadership by the United States, the effectiveness of international efforts to combat desertification will be limited at best.

ADDITIONAL STATEMENTS

HONORING THE ACCOMPLISHMENTS OF DAVID GRUENWALD

• Mr. BUNNING. Mr. President, I pay tribute and congratulate David Gruenwald of Owensboro, KY on being named a distinguished finalist for the Prudential Spirit of Community Awards. This award honors young people in middle level and high school grades for outstanding volunteer service to their communities.

David Gruenwald has proven himself to be an ideal volunteer. While he is only 14 years old, he has already done more volunteer work than many people will do in their whole life. As a project to become an Eagle Scout, David started a book drive for inmates at the Daviess County Detention Center. He went above the call of duty and began to enlist his classmates at Owensboro Catholic Middle School. Soon they had increased the size of the facility's library from about 30 books to 2,900.

The citizens of Owensboro are fortunate to have a young man like David Gruenwald in their community. His example of dedication, hard work and compassion should be an inspiration to all throughout the entire Commonwealth.

He has my most sincere appreciation for this work, and I look forward to his continued service to Kentucky.●

DR. HENRY N. TISDALE

• Mr. GRAHAM of South Carolina. Mr. President, I wish today to commend and congratulate Dr. Henry N. Tisdale on the occasion of the celebration of his 10th anniversary as president of Claflin University and to wish him continued success as he leads this historic institution of higher education.

Dr. Tisdale has positioned Claflin as one of the premier liberal arts institutions in the Southeast, moving the university to the "Top Tier" and "Top Ten" ranking among comprehensive baccalaureate granting institutions in the South, according to U.S. News and World Report's "America's Best Colleges 2003." Under his guidance, Claflin University has increased enrollment by 60 percent, added a number of new academic majors to include mass communications, black studies, early childhood education, biochemistry, biotechnology, bioinformatics and the masters of business administration, achieved national accreditation for business administration and teacher education, and transformed the campus through the construction of new facilities, such as the Living and Learning Center and Legacy Plaza, and the restoration of many of its historic buildings.

I congratulate Dr. Tisdale on his remarkable and noteworthy achievements. May you and Claflin enjoy continued success for another 10 years and beyond.●

HONORING CAPTAIN CHRIS
CHRISTOPHER

• Ms. LANDRIEU. Mr. President, I speak today to honor the service of Captain Chris Christopher, who is currently the Deputy Director for Future Operations, Communications and Business Initiatives at NMCI. Captain Christopher comes to this position after nearly 20 years of distinguished service to the Navy in the fields of aviation, public affairs and intelligence.

Captain Christopher has spent most of his life in New Orleans, and he has made a wonderful home there with his wife Penny and their two daughters. He received undergraduate and graduate degrees from the University of New Orleans, and his work with NMCI still brings him back to the UNO campus. Though he is now stationed in Virginia, his heart and family remain in New Orleans. As a Louisiana Senator, I like that!

Captain Christopher's work at NMCI has been truly outstanding. The Navy Marine Corps Intranet is a progressive and comprehensive project with an ultimate goal to transform the Department of the Navy's computer and information networks in a way that increases combat readiness and effectiveness. NMCI will revolutionize command and control efficiencies within the Navy, and between the services, to ensure that our forces are operating in unison. This will save American lives, increase combat readiness and effectiveness, and, ultimately, make us stronger. Under Captain Christopher's leadership, many of these goals have been brought closer to reality.

I once again want to thank my friend, Captain Chris Christopher, for his efforts on America's behalf. Future generations of Sailors and Marines will no doubt reap the benefits of his labor and America will be safer as a result. I am proud of your 'Louisiana-bred' success Chris, and I wish you well in your future endeavors.●

COMMENDATION FOR THE LEGACY OF LOUISIANA'S LONGEST MARRIED COUPLE

• Ms. LANDRIEU. Mr. President, today I wish to recognize George and Germaine Briant as Louisiana's longest married couple. George and Germaine Briant of Hammond, LA, were married over eighty years ago on July 20, 1921. The couple currently lives at Sunrise of Live Oak Village in Hammond where their affectionate displays of kissing, hugging, and dancing, regularly prove a true testament of their love. As the residents of Hammond would tell you, George never fails to sing "Let Me Call You Sweetheart" to Germaine, at every opportunity.

The Briants contributions to our Nation go beyond their loving example. George served in World War I and was awarded many medals, including the Purple Heart and the French Legion of
