

approximately 50 percent of parents who had AD/HD having a child with the disorder;

Whereas despite the serious consequences that can manifest in the family and life experiences of an individual with AD/HD, studies indicate that less than 85 percent of adults with the disorder are diagnosed and less than half of children and adults with the disorder are receiving treatment;

Whereas poor and minority communities are particularly underserved by AD/HD resources;

Whereas the Surgeon General, the American Medical Association (AMA), the American Psychiatric Association, the American Academy of Child and Adolescent Psychiatry (AACAP), the American Psychological Association, the American Academy of Pediatrics (AAP), the Centers for Disease Control and Prevention (CDC), and the National Institute of Mental Health, among others, recognize the need for proper diagnosis, education, and treatment of AD/HD;

Whereas the lack of public knowledge and understanding of the disorder play a significant role in the overwhelming numbers of undiagnosed and untreated cases of AD/HD, and the dissemination of inaccurate, misleading information contributes to the obstacles preventing diagnosis and treatment of the disorder;

Whereas lack of knowledge, combined with the issue of stigma associated with AD/HD, has a particularly detrimental effect on the diagnosis and treatment of AD/HD;

Whereas there is a need to educate health care professionals, employers, and educators about the disorder and a need for well-trained mental health professionals capable of conducting proper diagnosis and treatment activities; and

Whereas studies by the National Institute of Mental Health and others consistently reveal that through proper and comprehensive diagnosis and treatment, the symptoms of AD/HD can be substantially decreased and quality of life for the individual can be improved: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 7, 2004, as “National Attention Deficit Disorder Awareness Day”;

(2) recognizes Attention Deficit/Hyperactivity Disorder (AD/HD) as a major public health concern;

(3) encourages all people of the United States to find out more about AD/HD and its supporting mental health services, and to seek the appropriate treatment and support, if necessary;

(4) expresses the sense of the Senate that the Federal Government has a responsibility to—

(A) endeavor to raise public awareness about AD/HD; and

(B) continue to consider ways to improve access to, and the quality of, mental health services dedicated to the purpose of improving the quality of life for children and adults with AD/HD; and

(5) requests that the President issue a proclamation calling on Federal, State and local administrators and the people of the United States to observe the day with appropriate programs and activities.

SEC. 327. SENSE OF SENATE ON PERCHLORATE CONTAMINATION OF GROUND AND SURFACE WATER.

(a) FINDINGS.—The Senate makes the following findings:

(1) Because finite water sources in the United States are stretched by regional drought conditions and increasing demand for water supplies, there is increased need for safe and dependable supplies of fresh water for drinking and use for agricultural purposes.

(2) Perchlorate, a naturally occurring and manmade compound with medical, commercial, and national defense applications, which has been used primarily in military munitions and rocket fuels, has been detected in fresh water sources intended for use as drinking water and water necessary for the production of agricultural commodities.

(3) If ingested in sufficient concentration and in adequate duration, perchlorate may interfere with thyroid metabolism, and this effect may impair the normal development of the brain in fetuses and newborns.

(4) The Federal Government has not yet established a drinking water standard for perchlorate.

(5) The National Academy of Sciences is conducting an assessment of the state of the science regarding the effects on human health of perchlorate ingestion that will aid in understanding the effect of perchlorate exposure on sensitive populations.

(b) SENSE OF SENATE.—It is the sense of the Senate that—

(1) perchlorate has been identified as a contaminant of drinking water sources or in the

environment in 34 States and has been used or manufactured in 44 States;

(2) perchlorate exposure at or above a certain level may adversely affect public health, particularly the health of vulnerable and sensitive populations; and

(3) the Department of Defense should—

(A) work to develop a national plan to remediate perchlorate contamination of the environment resulting from Department's activities to ensure the Department is prepared to respond quickly and appropriately once a drinking water standard is established;

(B) in cases in which the Department is already remediating perchlorate contamination, continue that remediation;

(C) prior to the development of a drinking water standard for perchlorate, develop a plan to remediate perchlorate contamination in cases in which such contamination from the Department's activities is present in ground or surface water at levels that pose a hazard to human health; and

(D) continue the process of evaluating and prioritizing sites without waiting for the development of a Federal standard.

SEC. 366. MEDIA COVERAGE OF THE RETURN TO THE UNITED STATES OF THE REMAINS OF DECEASED MEMBERS OF THE ARMED FORCES FROM OVERSEAS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Department of Defense, since 1991, has relied on a policy of no media coverage of the transfers of the remains of members Ramstein Air Force Base, Germany, nor at Dover Air Force Base, Delaware, and the Port Mortuary Facility at Dover Air Force Base, nor at interim stops en route to the point of final destination in the transfer of the remains.

(2) The principal focus and purpose of the policy is to protect the wishes and the privacy of families of deceased members of the Armed Forces during their time of great loss and grief and to give families and friends of the dead the privilege to decide whether to allow media coverage at the member’s duty or home station, at the interment site, or at or in connection with funeral and memorial services.

(3) In a 1991 legal challenge to the Department of Defense policy, as applied during Operation Desert Storm, the policy was upheld by the United States District Court for the District of Columbia, and on appeal, by the United States Court of Appeals for the District of Columbia in the case of JB Pictures, Inc. v. Department of Defense and Donald B. Rice, Secretary of the Air Force on the basis that denying the media the right to view the return of remains at Dover Air Force Base does not violate the first amendment guarantees of freedom of speech and of the press.

(4) The United States Court of Appeals for the District of Columbia in that case cited the following two key Government interests that are served by the Department of Defense policy:

(A) Reducing the hardship on the families and friends of the war dead, who may feel obligated to travel great distances to attend arrival ceremonies at Dover Air Force Base if such ceremonies were held.

(B) Protecting the privacy of families and friends of the dead, who may not want media coverage of the unloading of caskets at Dover Air Force Base.

(5) The Court also noted, in that case, that the bereaved may be upset at the public display of the caskets of their loved ones and that the policy gives the family the right to grant or deny access to the media at memorial or funeral services at the home base and that the policy is consistent in its concern for families.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Department of Defense policy regarding no media coverage of the transfer of the remains of deceased members of the Armed Forces appropriately protects the privacy of the members' families and friends of and is consistent with United States constitutional guarantees of freedom of speech and freedom of the press.

SEC. 367. TRACKING AND CARE OF MEMBERS OF THE ARMED FORCES WHO ARE INJURED IN COMBAT.

(a) FINDINGS.—The Senate makes the following findings:

(1) Members of the Armed Forces of the United States place themselves in harm's way in the defense of democratic values and to keep the United States safe.

(2) This call to duty has resulted in the ultimate sacrifice of members of the Armed Forces of the United States who are killed or critically injured while serving the United States.

(b) SENSE OF SENATE.—It is the sense of the Senate—

(1) to honor the sacrifice of the members of the Armed Forces who have been killed or critically wounded while serving the United States;

(2) to recognize the heroic efforts of the medical personnel of the Armed Forces in treating wounded military personnel and civilians; and

(3) to support advanced medical technologies that assist the medical personnel of the Armed Forces in saving lives and reducing disability rates for members of the Armed Forces.

(c) POLICY ON TRACKING OF WOUNDED FROM COMBAT ZONES.—(1) Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall—

(A) prescribe the policy of the Department of Defense for providing timely notification to the next of kin of the status, including health and location, of members of the Armed Forces who are seriously ill or injured in a combat zone; and

(B) transmit to the Committees on Armed Services of the Senate and House of Representatives a copy of the policy prescribed under subparagraph (A).

(2) The policy prescribed under paragraph (1) shall ensure respect for the expressed desires of individual members of the Armed Forces regarding notification of next of kin under the policy, and shall also include standards of timeliness for the initial and continuing notification of next of kin under the policy.

(d) FUNDING FOR MEDICAL EQUIPMENT AND COMBAT CASUALTY TECHNOLOGIES.—(1) The amount authorized to be appropriated by section 201(4) for research, development, test, and evaluation, Defense-wide activities, is hereby increased by \$10,000,000, with the

amount of the increase to be allocated to Program Element PE 0603826D8Z.

(2) Of the amount authorized to be appropriated by section 201(4) for research, development, test, and evaluation, Defense-wide activities, and allocated to Program Element PE 0603826D8Z, as provided by paragraph (1), \$10,000,000 may be available for medical equipment and combat casualty care technologies.

(3) In cases involving combat-related injuries and other service-related injuries it is possible, as a result of advances in technology and extensive rehabilitative services, to restore to members of the Armed Forces sustaining such injuries the capability to re-

sume the performance of active military service, including, in a few cases, the capability to participate directly in the performance of combat missions.

(2) other than appropriate medical review, there should be no barrier in policy or law to such a member having the option to return to military service on active duty; and

(3) the Secretary of Defense should develop specific protocols that expand options for such members to return to active duty service and to be retrained to perform military missions for which they are fully capable.

“(iii) requires continued performance of the function by civilian employees unless the competitive sourcing official concerned determines that, over all performance periods stated in the solicitation of offers for performance of the activity or function, the cost of performance of the activity or function by a contractor would be less costly to the Department of Defense by an amount that equals or exceeds the lesser of \$10,000,000 or 10 percent of the most efficient organization's personnel-related costs for performance of that activity or function by Federal employees; and

“(iv) ensures that the public sector bid would not be disadvantaged in the cost comparison process by a proposal of an offeror to reduce costs for the Department of Defense by not making an employer-sponsored health insurance plan available to the workers who are to be employed in the performance of such function under a contract or by offering to such workers an employer-sponsored health benefits plan that requires the employer to contribute less towards the premium or subscription share than that which is paid by the Department of Defense for health benefits for civilian employees under chapter 89 of title 5.

“(B) Any function that is performed by civilian employees of the Department of Defense and is proposed to be reengineered, reorganized, modernized, upgraded, expanded, or changed in order to become more efficient shall not be considered a new requirement for the purpose of the competition requirements in subparagraph (A) or the requirements for public-private competition in Office of Management and Budget Circular A-76.

“(i) the written waiver is prepared by the Secretary of Defense or the relevant Assistant Secretary of Defense, Secretary of a military department, or head of a Defense Agency;

SEC. 1054. ASSIGNMENT OF NATO NAVAL PERSONNEL TO SUBMARINE SAFETY RESEARCH AND DEVELOPMENT PROGRAMS.

(a) **AUTHORITY.**—Chapter 631 of title 10, United States Code, is amended by inserting after the item relating to section 7205 the following new section:

“§ 7206. Submarine safety research and development: acceptance of services of NATO naval personnel

“(a) **AUTHORITY.**—The Secretary of the Navy may, subject to subsection (e), accept

the assignment of one or more members of the navy of another member country of the North Atlantic Treaty Organization to a command of the Navy for work on the development, standardization, or interoperability of submarine vessel safety and rescue systems and procedures if the Secretary determines that doing so would facilitate the development, standardization, and interoperability of submarine vessel safety and rescue systems and procedures for the Navy, the navy of that foreign country, and any other navy involved in that work.

“(b) RECIPROCALITY NOT REQUIRED.—The authority under subsection (a) is not an exchange program. Reciprocal assignments of members of the Navy to a navy of a foreign country is not a condition for the exercise of such authority.

“(c) PAYMENT OF PERSONNEL COSTS.—(1) The acceptance of a member of a navy of a foreign country under this section is subject to the condition that the government of that country pay the salary, per diem allowance, subsistence costs, travel costs, cost of language or other training, and other costs for that member in accordance with the laws and regulations of such country.

“(2) Paragraph (1) does not apply to the following costs:

“(A) The cost of temporary duty directed by the Secretary of the Navy or an officer of the Navy authorized to do so.

“(B) The cost of a training program conducted to familiarize, orient, or certify foreign naval personnel regarding unique aspects of their assignments.

“(C) Any cost incident to the use of the facilities of the Navy in the performance of assigned duties.

“(d) RELATIONSHIP TO OTHER AUTHORITY.—The provisions of this section shall apply to any other authority that the Secretary of the Navy may exercise, subject to the concurrence of the Secretary of State, to enter into an agreement with the government of a foreign country to provide for the assignment of members of the navy of that foreign country to a Navy submarine safety program. SEC. 1055. COMPENSATION FOR FORMER PRISONERS OF WAR.

Any plan of the Secretary of Defense to provide compensation to an individual who was injured in a military prison under the control of the United States in Iraq shall include a provision to address the injuries suffered by the 17 citizens of the United States who were held as prisoners of war by the regime of Saddam Hussein during the First Gulf War.

SEC. 1056. DRUG ERADICATION EFFORTS IN AFGHANISTAN.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States engaged in military action against the Taliban-controlled Government of Afghanistan in 2001 in direct response to the Taliban's support and aid to Al Qaeda.

(2) The military action against the Taliban in Afghanistan was designed, in part, to disrupt the activities of, and financial support for, terrorists.

(3) A greater percentage of the world's opium supply is now produced in Afghanistan than before the Taliban banned the cultivation or trade of opium.

(4) In 2004, more than two years after the Taliban was forcefully removed from power, Afghanistan is supplying approximately 75 percent of the world's heroin.

(5) The estimated value of the opium harvested in Afghanistan in 2003 was \$2,300,000,000.

(6) Some of the profits associated with opium harvested in Afghanistan continue to fund terrorists and terrorist organizations, including Al Qaeda, that seek to attack the United States and United States interests.

(7) The global war on terror is and should remain our Nation's highest national security priority.

(8) United States and Coalition counterdrug efforts in Afghanistan have not yet produced significant results.

(9) There are indications of strong, direct connections between terrorism and drug trafficking.

(10) The elimination of this funding source is critical to making significant progress in the global war on terror.

(11) The President of Afghanistan, Hamid Karzai, has stated that opium production poses a significant threat to the future of Afghanistan, and has established a plan of action to deal with this threat.

(12) The United Nations Office on Drugs and Crime has reported that Afghanistan is at risk of again becoming a failed state if strong actions are not taken against narcotics.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the President should make the substantial reduction of drug trafficking in Afghanistan a priority in the war on terror;

(2) the Secretary of Defense should, in coordination with the Secretary of State, work to a greater extent in cooperation with the Government of Afghanistan and international organizations involved in counterdrug activities to assist in providing a secure environment for counterdrug personnel in Afghanistan; and

(3) because the trafficking of narcotics is known to support terrorist activities and contributes to the instability of the Government of Afghanistan, additional efforts should be made by the Armed Forces of the United States, in conjunction with and in support of coalition forces, to significantly reduce narcotics trafficking in Afghanistan and neighboring countries, with particular focus on those trafficking organizations with the closest links to known terrorist organizations.

(c) REPORT.—Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report that describes—

(1) progress made towards substantially reducing the poppy cultivation and heroin production capabilities in Afghanistan; and

(2) the extent to which profits from illegal drug activity in Afghanistan fund terrorist organizations and support groups that seek to undermine the Government of Afghanistan.

SEC. 1057. HUMANE TREATMENT OF DETAINEES.

(a) FINDINGS.—Congress makes the following findings:

(1) After World War II, the United States and its allies created a new international legal order based on respect for human rights. One of its fundamental tenets was a universal prohibition on torture and ill treatment.

(2) On June 26, 2003, the International Day in Support of Victims of Torture, President George W. Bush stated, “The United States

is committed to the world-wide elimination of torture and we are leading this fight by example. I call on all governments to join with the United States and the community of law-abiding nations in prohibiting, investigating, and prosecuting all acts of torture and in undertaking to prevent other cruel and unusual punishment.”

(3) The United States is a party to the Geneva Conventions, which prohibit torture, cruel treatment, or outrages upon personal dignity, in particular, humiliating and degrading treatment, during armed conflict.

(4) The United States is a party to 2 treaties that prohibit torture and cruel, inhuman, or degrading treatment or punishment, as follows:

(A) The International Covenant on Civil and Political Rights, done at New York December 16, 1966.

(B) The Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, done at New York December 10, 1984.

(5) The United States filed reservations to the treaties described in subparagraphs (A) and (B) of paragraph (4) stating that the United States considers itself bound to prevent “cruel, inhuman or degrading treatment or punishment” to the extent that phrase means the cruel, unusual, and inhumane treatment or punishment prohibited by the 5th amendment, 8th amendment, or 14th amendment to the Constitution.

(6) Army Regulation 190-8 entitled “Enemy Prisoners of War, Retained Personnel, Civilian Internees and Other Detainees” provides that “Inhumane treatment is a serious and punishable violation under international law and the Uniform Code of Military Justice (UCMJ). . . . All prisoners will receive humane treatment without regard to race, nationality, religion, political opinion, sex, or other criteria. The following acts are prohibited: murder, torture, corporal punishment, mutilation, the taking of hostages, sensory deprivation, collective punishments, execution without trial by proper authority, and all cruel and degrading treatment. . . . All persons will be respected as human beings. They will be protected against all acts of violence to include rape, forced prostitution, assault and theft, insults, public curiosity, bodily injury, and reprisals of any kind. . . . This list is not exclusive.”

(7) The Field Manual on Intelligence Interrogation of the Department of the Army states that “acts of violence or intimidation, including physical or mental torture, threats, insults, or exposure to inhumane treatment as a means of or an aid to interrogation” are “illegal”. Such Manual defines “infliction of pain through . . . bondage (other than legitimate use of restraints to prevent escape)”, “forcing an individual to stand, sit, or kneel in abnormal positions for prolonged periods of time”, “food deprivation”, and “any form of beating” as “physical torture”, defines “abnormal sleep deprivation” as “mental torture”, and prohibits the use of such tactics under any circumstances.

(8) The Field Manual on Intelligence Interrogation of the Department of the Army states that “Use of torture and other illegal methods is a poor technique that yields unreliable results, may damage subsequent collection efforts, and can induce the source to say what he thinks the interrogator wants to hear. Revelation of use of torture by U.S. personnel will bring discredit upon the U.S. and its armed forces while undermining domestic and international support for the war effort. It may also place U.S. and allied personnel in enemy hands at a greater risk of abuse by their captors.”

(b) PROHIBITION ON TORTURE OR CRUEL, INHUMAN, OR DEGRADING TREATMENT OR PUNISHMENT.—(1) No person in the custody or

under the physical control of the United States shall be subject to torture or cruel, inhuman, or degrading treatment or punishment that is prohibited by the Constitution, laws, or treaties of the United States.

(2) Nothing in this section shall affect the status of any person under the Geneva Conventions or whether any person is entitled to the protections of the Geneva Conventions.

(c) RULES, REGULATIONS, AND GUIDELINES.—(1) Not later than 180 days after the date of enactment of this Act, the Secretary shall prescribe the rules, regulations, or guidelines necessary to ensure compliance with the prohibition in subsection (b)(1) by the members of the United States Armed Forces and by any person providing services to the Department of Defense on a contract basis.

(2) The Secretary shall submit to the congressional defense committees the rules, regulations, or guidelines prescribed under paragraph (1), and any modifications to such rules, regulations, or guidelines—

(A) not later than 30 days after the effective date of such rules, regulations, guidelines, or modifications; and

(B) in a manner and form that will protect the national security interests of the United States.

(d) REPORT TO CONGRESS.—(1) The Secretary shall submit, on a timely basis and not less than twice each year, a report to Congress on the circumstances surrounding any investigation of a possible violation of the prohibition in subsection (b)(1) by a member of the Armed Forces or by a person providing services to the Department of Defense on a contract basis.

(2) A report required under paragraph (1) shall be submitted in a manner and form that—

(A) will protect the national security interests of the United States; and

(B) will not prejudice any prosecution of an individual involved in, or responsible for, a violation of the prohibition in subsection (b)(1).

(e) DEFINITIONS.—In this section:

(1) The term “cruel, inhuman, or degrading treatment or punishment” means the cruel, unusual, and inhumane treatment or punishment prohibited by the 5th amendment, 8th amendment, or 14th amendment to the Constitution.

(2) The term “Geneva Conventions” means—

SEC. 1059A. EXCEPTION TO BILATERAL AGREEMENT REQUIREMENTS FOR TRANSFERS OF DEFENSE ITEMS.

(a) FINDINGS.—Congress makes the following findings:

(1) Close defense cooperation between the United States and each of the United Kingdom and Australia requires interoperability among the armed forces of those countries.

(2) The need for interoperability must be balanced with the need for appropriate and effective regulation of trade in defense items.

(3) The Arms Export Control Act (22 U.S.C. 2751 et seq.) authorizes the executive branch to administer arms export policies enacted by Congress in the exercise of its constitutional power to regulate commerce with foreign nations.

(4) The executive branch has exercised its authority under the Arms Export Control Act, in part, through the International Traffic in Arms Regulations.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the mission statement and policies of the American Forces Radio and Television Service appropriately state the goal of maintaining equal opportunity balance with respect to political programming and that the Secretary of Defense should therefore ensure that these policies are fully being implemented by developing appropriate methods of oversight to ensure presentation of all sides of important public questions with the fairness and balance envisioned by the Department of Defense throughout the American Forces Radio and Television Service system.

SEC. 1078. SENSE OF CONGRESS ON AMERICA'S NATIONAL WORLD WAR I MUSEUM.

(a) FINDINGS.—Congress makes the following findings:

(1) The Liberty Memorial Museum in Kansas City, Missouri, was built in 1926 in honor of those individuals who served in World War I in defense of liberty and the Nation.

(2) The Liberty Memorial Association, a nonprofit organization which originally built the Liberty Memorial Museum, is responsible for the finances, operations, and collections management of the Liberty Memorial Museum.

(3) The Liberty Memorial Museum is the only public museum in the Nation that exists for the exclusive purpose of interpreting the experiences of the United States and its allies in the World War I years (1914–1918), both on the battlefield and on the home front.

(4) The Liberty Memorial Museum project began after the 1918 Armistice through the efforts of a large-scale, grass-roots civic and fundraising effort by the citizens and veterans of the Kansas City metropolitan area. After the conclusion of a national architectural design competition, ground was broken in 1921, construction began in 1923, and the Liberty Memorial Museum was opened to the public in 1926.

(5) In 1994, the Liberty Memorial Museum closed for a massive restoration and expansion project. The restored museum reopened to the public on Memorial Day, 2002, during a gala rededication ceremony.

(6) Exhibits prepared for the original museum buildings presaged the dramatic, underground expansion of core exhibition gallery space, with over 30,000 square feet of new interpretive and educational exhibits currently in development. The new exhibits, along with an expanded research library and archives, will more fully utilize the many thousands of historical objects, books, maps, posters, photographs, diaries, letters, and reminiscences of World War I participants that are preserved for posterity in the Liberty Memorial Museum's collections. The new core exhibition is scheduled to open on Veterans Day, 2006.

(7) The City of Kansas City, the State of Missouri, and thousands of private donors and philanthropic foundations have contributed millions of dollars to build and later to restore this national treasure. The Liberty Memorial Museum continues to receive the strong support of residents from the States of Missouri and Kansas and across the Nation.

(8) Since the restoration and rededication of 2002, the Liberty Memorial Museum has attracted thousands of visitors from across the United States and many foreign countries.

(9) There remains a need to preserve in a museum setting evidence of the honor, courage, patriotism, and sacrifice of those Americans who offered their services and who gave their lives in defense of liberty during World War I, evidence of the roles of women and African Americans during World War I, and evidence of other relevant subjects.

(10) The Liberty Memorial Museum seeks to educate a diverse group of audiences through its comprehensive collection of historical materials, emphasizing eyewitness accounts of the participants on the battlefield and the home front and the impact of World War I on individuals, then and now. The Liberty Memorial Museum continues to actively acquire and preserve such materials.

(11) A great opportunity exists to use the invaluable resources of the Liberty Memorial Museum to teach the "Lessons of Liberty" to the Nation's schoolchildren through on-site visits, classroom curriculum development, distance learning, and other educational initiatives.

(12) The Liberty Memorial Museum should always be the Nation's museum of the national experience in the World War I years (1914-1918), where people go to learn about this critical period and where the Nation's history of this monumental struggle will be preserved so that generations of the 21st century may understand the role played by the United States in the preservation and advancement of democracy, freedom, and liberty in the early 20th century.

(13) This initiative to recognize and preserve the history of the Nation's sacrifices in World War I will take on added significance as the Nation approaches the centennial observance of this event.

(14) It is fitting and proper to refer to the Liberty Memorial Museum as "America's National World War I Museum".

(b) SENSE OF CONGRESS.—Congress—
 (1) recognizes the Liberty Memorial Museum in Kansas City, Missouri, including the museum's future and expanded exhibits, collections, library, archives, and educational programs, as "America's National World War I Museum";

(2) recognizes that the continuing collection, preservation, and interpretation of the historical objects and other historical materials held by the Liberty Memorial Museum enhance the knowledge and understanding of the Nation's people of the American and allied experience during the World War I years (1914-1918), both on the battlefield and on the home front;

(3) commends the ongoing development and visibility of "Lessons of Liberty" educational outreach programs for teachers and students throughout the Nation; and

(4) encourages the need for present generations to understand the magnitude of World War I, how it shaped the Nation, other countries, and later world events, and how the sacrifices made then helped preserve liberty, democracy, and other founding principles for generations to come.

SEC. 1084. BROADCAST DECENCY ENFORCEMENT ACT OF 2004.

(a) SHORT TITLE.—This section may be cited as the "Broadcast Decency Enforcement Act of 2004".

(b) PURPOSE.—The purpose of this section is to increase the Federal Communications Commission's (FCC) authority to fine for indecent broadcasts and prevent further relaxation of the media ownership rules in order to stem the rise of indecent programming.

(c) FINDINGS.—The Congress makes the following findings:

(1) Since 1996 there has been significant consolidation in the media industry, including:

(A) RADIO.—Clear Channel Communications went from owning 43 radio stations prior to 1996 to over 1,200 as of January 2003; Cumulus Broadcasting, Inc. was established in 1997 and owned 266 stations as of December 2003, making it the second-largest radio ownership company in the country; and Infinity Broadcasting Corporation went from owning 43 radio stations prior to 1996 to over 185 stations as of June 2004;

(B) TELEVISION.—Viacom/CBS's national ownership of television stations increased from 31.53 percent of United States television households prior to 1996 to 38.9 percent in 2004; GE/NBC's national ownership of television stations increased from 24.65 percent prior to 1996 to 33.56 percent in 2004; News Corp./Fox's national ownership of television stations increased from 22.05 percent prior to 1996 to 37.7 percent in 2004;

(C) MEDIA MERGERS.—In 2000, Viacom merged with CBS and UPN; in 2002, GE/NBC merged with Telemundo Communications, Inc. and in 2004 with Vivendi Universal Entertainment; in 2003 News Corp./Fox acquired a controlling interest in DirecTV; in 2000, Time Warner, Inc. merged with America Online.

(2) Over the same period that there has been significant consolidation in the media industry, the number of indecency complaints also has increased dramatically. The largest owners of television and radio broadcast holdings have received the greatest number of indecency complaints and the largest fines, including:

(A) Over 80 percent of the fines proposed by the Federal Communications Commission for indecent broadcasts were against stations owned by two of the top three radio companies. The top radio company alone accounts for over two-thirds of the fines proposed by the FCC;

(B) Two of the largest fines proposed by the FCC were against two of the top three radio companies;

(C) In 2004, the FCC received over 500,000 indecency complaints in response to the Superbowl Halftime show aired on CBS and produced by MTV, both of which are owned by Viacom. This is the largest number of complaints ever received by the FCC for a single broadcast;

(D) The number of indecency complaints increased from 111 in 2000 to 240,350 in 2003;

(3) Media conglomerates do not consider or reflect local community standards.

(A) The FCC has no record of a television station owned by one of the big four networks (Viacom/CBS, Disney/ABC, News Corp./Fox or GE/NBC) pre-empting national programming for failing to meet community standards;

(B) FCC records show that non-network owned stations have often rejected national network programming found to be indecent and offensive to local community standards;

(C) A letter from an owned and operated station manager to a viewer stated that programming decisions are made by network headquarters and not the local owned and operated television station management;

(D) The Parents Television Council has found that the "losers" of network ownership "are the local communities whose standards of decency are being ignored;"

(4) The Senate Commerce Committee has found that the current fines do not deter indecent broadcast because they are merely the cost of doing business for large media companies. Therefore, in order to prevent the continued rise of indecency violations, the FCC's authority for indecency fines should be increased and further media consolidation should be prevented.

(d) INCREASE IN PENALTIES FOR OBSCENE, INDECENT, AND PROFANE BROADCAST.—Section 503(b)(2) of the Communications Act of 1934 (47 U.S.C. 503(b)(2)) is amended.—

(1) by redesignating subparagraphs (C) and (D) as subparagraphs (D) and (E), respectively;

(2) by inserting after subparagraph (B) the following new subparagraph:

“(C) Notwithstanding subparagraph (A), if the violator is—

“(i) (I) a broadcast station licensee or permittee; or

“(II) an applicant for any broadcast license, permit, certificate, or other instrument or authorization issued by the Commission; and

“(ii) determined by the Commission under paragraph (1) to have broadcast obscene, indecent, or profane language, the amount of any forfeiture penalty determined under this subsection shall not exceed \$275,000 for each violation or each day of a continuing violation, except that the amount assessed for any continuing violation shall not exceed a total of \$3,000,000 for any single act or failure to act.”; and

(3) in subparagraph (D), as redesignated by paragraph (1), by striking “subparagraph (A) or (B)” and inserting “subparagraph (A), (B), or (C)”.

(e) NEW BROADCAST MEDIA OWNERSHIP RULES SUSPENDED.—

(1) SUSPENSION.—Subject to the provisions of paragraphs(d)(2), the broadcast media ownership rules adopted by the Federal Communications Commission on June 2, 2003, pursuant to its proceeding on broadcast media ownership rules, Report and Order FCC-03-127, published at 68 FR 46286, August 5, 2003, shall be invalid and without legal effect.

(2) CLARIFICATION.—The provisions of paragraph (1) shall not supersede the amendments made by section 629 of the Miscellaneous Appropriations and Offsets Act, 2004 (Public Law 108-199).

(f) ADDITIONAL FACTORS IN INDECENCY PENALTIES; EXCEPTION.—Section 503(b)(2) of the Communications Act of 1934 (47 U.S.C. 503(b)(2)), is further amended by adding at the end the following:

“(F) In the case of a violation in which the violator is determined by the Commission under paragraph (1) to have uttered obscene, indecent, or profane material, the Commission shall take into account, in addition to the matters described in subparagraph (E), the following factors with respect to the degree of culpability of the violator:

“(i) Whether the material uttered by the violator was live or recorded, scripted or unscripted.

“(ii) Whether the violator had a reasonable opportunity to review recorded or scripted programming or had a reasonable basis to

believe live or unscripted programming would contain obscene, indecent, or profane material.

“(iii) If the violator originated live or unscripted programming, whether a time delay blocking mechanism was implemented for the programming.

“(iv) The size of the viewing or listening audience of the programming.

“(v) Whether the obscene incident or profane language was within live programming not produced by the station licensee or permittee.

“(vi) The size of the market.

“(vii) Whether the violation occurred during a children's television program (as such term is used in the Children's Television Programming Policy referenced in section 73.4050(c) of the Commission's regulations (47 C.F.R. 73.4050(c)) or during a television program rated TVY, TVY7, TVY7FV, or TVG under the TV Parental Guidelines as such ratings were approved by the Commission in implementation of section 551 of the Telecommunications Act of 1996, Video Programming Ratings, Report and Order, CS Docket No. 97-55, 13 F.C.C. Rod. 8232 (1998)), and, with respect to a radio broadcast station licensee, permittee, or applicant, whether the target audience was primarily comprised of, or should reasonably have been expected to be primarily comprised of, children.”

“(G) The Commission may double the amount of any forfeiture penalty (not to exceed \$550,000 for the first violation, \$750,000 for the second violation, and \$1,000,000 for the third or any subsequent violation not to exceed up to \$3,000,000 for all violations in a 24-hour time period notwithstanding section 503(b)(2)(C)) if the Commission determines additional factors are present which are aggravating in nature, including—

“(i) whether the material uttered by the violator was recorded or scripted;

“(ii) whether the violator had a reasonable opportunity to review recorded or scripted programming or had a reasonable basis to believe live or unscripted programming would contain obscene, indecent, or profane material;

“(iii) whether the violator failed to block live or unscripted programming;

“(iv) whether the size of the viewing or listening audience of the programming was substantially larger than usual, such as a national or international championship sporting event or awards program; and

“(v) whether the violation occurred during a children's television program (as defined in subparagraph (F) (vii)).”

SEC. 1085. CHILDREN'S PROTECTION FROM VIOLENT PROGRAMMING ACT.

(a) SHORT TITLE.—This section may be cited as the “Children's Protection from Violent Programming Act”.

(b) FINDINGS.—The Congress makes the following findings:

(1) Television influences children's perception of the values and behavior that are common and acceptable in society.

(2) Broadcast television, cable television, and video programming are—

(A) uniquely pervasive presences in the lives of all American children; and

(B) readily accessible to all American children.

(3) Violent video programming influences children, as does indecent programming.

(4) There is empirical evidence that children exposed to violent video programming at a young age have a higher tendency to engage in violent and aggressive behavior later in life than those children not so exposed.

(5) There is empirical evidence that children exposed to violent video programming have a greater tendency to assume that acts of violence are acceptable behavior and therefore to imitate such behavior.

(6) There is empirical evidence that children exposed to violent video programming have an increased fear of becoming a victim of violence, resulting in increased self-protective behaviors and increased mistrust of others.

(7) There is a compelling governmental interest in limiting the negative influences of violent video programming on children.

(8) There is a compelling governmental interest in channeling programming with violent content to periods of the day when children are not likely to comprise a substantial portion of the television audience.

(9) A significant amount of violent programming that is readily accessible to minors remains unrated specifically for violence and therefore cannot be blocked solely on the basis of its violent content.

(10) Age-based ratings that do not include content rating for violence do not allow parents to block programming based solely on violent content thereby rendering ineffective any technology-based blocking mechanism designed to limit violent video programming.

(11) The most recent study of the television ratings system by the Kaiser Family Foundation concludes that 79 percent of violent programming is not specifically rated for violence.

(12) Technology-based solutions, such as the V-chip, may be helpful in protecting some children, but cannot achieve the compelling governmental interest in protecting all children from violent programming when parents are only able to block programming that has, in fact, been rated for violence.

(13) Restricting the hours when violent programming can be shown protects the interests of children whose parents are unavailable, unable to supervise their children's viewing behavior, do not have the benefit of technology-based solutions, are unable to afford the costs of technology-based solutions, or are unable to determine the content of those shows that are only subject to age-based ratings.

(14) After further study, pursuant to a rulemaking, the Federal Communications Commission may conclude that content-based ratings and blocking technology do not effectively protect children from the harm of violent video programming.

(15) If the Federal Communications Commission reaches the conclusion described in paragraph (14), the channeling of violent video programming will be the least restrictive means of limiting the exposure of children to the harmful influences of violent video programming.

SEC. 1086. ASSESSMENT OF EFFECTIVENESS OF CURRENT RATING SYSTEM FOR VIOLENCE AND EFFECTIVENESS OF V-CHIP IN BLOCKING VIOLENT PROGRAMMING.

(a) REPORT.—The Federal Communications Commission shall—

(1) assess the effectiveness of measures to require television broadcasters and multi-channel video programming distributors (as defined in section 602(13) of the Communications Act of 1934 (47 U.S.C. 522(13)) to rate and encode programming that could be blocked by parents using the V-chip undertaken under section 715 of the Communications Act of 1934 (47 U.S.C. 715) and under subsections (w) and (x) of section 303 of that Act (47 U.S.C. 303(w) and (x)) in accomplishing the purposes for which they were enacted; and

(2) report its findings to the Committee on Commerce, Science, and Transportation of the United States Senate and the Committee on Energy and Commerce of the United States House of Representatives, within 12 months after the date of enactment of this Act, and annually thereafter.

(b) ACTION.—If the Commission finds at any time, as a result of its ongoing assessment under subsection (a), that the measures referred to in subsection (a)(1) are insufficiently effective, then the Commission shall complete a rulemaking within 270 days after the date on which the Commission makes that finding to prohibit the distribution of violent video programming during the hours when children are reasonably likely to comprise a substantial portion of the audience.

(c) DEFINITIONS.—Any term used in this section that is defined in section 715 of the Communications Act of 1934 (47 U.S.C. 715), or in regulations under that section, has the same meaning as when used in that section or in those regulations.

SEC. 1087. UNLAWFUL DISTRIBUTION OF VIOLENT VIDEO PROGRAMMING THAT IS NOT SPECIFICALLY RATED FOR VIOLENCE AND THEREFORE IS NOT BLOCKABLE.

Title VII of the Communications Act of 1934 (47 U.S.C. 701 et seq.) is amended by adding at the end the following:

“SEC. 715. UNLAWFUL DISTRIBUTION OF VIOLENT VIDEO PROGRAMMING NOT SPECIFICALLY BLOCKABLE BY ELECTRONIC MEANS.

“(a) UNLAWFUL DISTRIBUTION.—It shall be unlawful for any person to distribute to the public any violent video programming not blockable by electronic means specifically on the basis of its violent content during hours when children are reasonably likely to comprise a substantial portion of the audience.

“(b) RULEMAKING PROCEEDING.—The Commission shall conduct a rulemaking proceeding to implement the provisions of this section and shall promulgate final regulations pursuant to that proceeding not later than 9 months after the date of enactment of the Children’s Protection from Violent Programming Act. As part of that proceeding, the Commission—

“(1) may exempt from the prohibition under subsection (a) programming (including news programs and sporting events) whose distribution does not conflict with the objective of protecting children from the negative influences of violent video programming, as that objective is reflected in the findings in section 551(a) of the Telecommunications Act of 1996;

“(2) shall exempt premium and pay-per-view cable programming and premium and pay-per-view direct-to-home satellite programming; and

“(3) shall define the term ‘hours when children are reasonably likely to comprise a substantial portion of the audience’ and the term ‘violent video programming’.

“(c) ENFORCEMENT.—

“(1) FORFEITURE PENALTY.—The forfeiture penalties established by section 503(b) for violations of section 1464 of title 18, United States Code, shall apply to a violation of this section, or any regulation promulgated under it in the same manner as if a violation of this section, or such a regulation, were a violation of law subject to a forfeiture penalty under that section.

“(2) LICENSE REVOCATION.—If a person repeatedly violates this section or any regulation promulgated under this section, the Commission shall, after notice and opportunity for hearing, revoke any license issued to that person under this Act.

“(3) LICENSE RENEWALS.—The Commission shall consider, among the elements in its review of an application for renewal of a license under this Act, whether the licensee has complied with this section and the regulations promulgated under this section.

“(d) DEFINITIONS.—For purposes of this section—

“(1) BLOCKABLE BY ELECTRONIC MEANS.—The term ‘blockable by electronic means’

means blockable by the feature described in section 303(x).

“(2) DISTRIBUTE.—The term ‘distribute’ means to send, transmit, retransmit, telecast, broadcast, or cablecast, including by wire, microwave, or satellite, but it does not include the transmission, retransmission, or receipt of any voice, data, graphics, or video telecommunications accessed through an interactive computer service as defined in section 230(f)(2) of the Communications Act of 1934 (47 U.S.C. 230(f)(2)), which is not originated or transmitted in the ordinary course of business by a television broadcast station or multichannel video programming distributor as defined in section 602(13) of that Act (47 U.S.C. 522(13)).

“(3) VIOLENT VIDEO PROGRAMMING.—The term ‘violent video programming’ as defined by the Commission may include matter that is excessive or gratuitous violence within the meaning of the 1992 Broadcast Standards for the Depiction of Violence in Television Programs, December 1992.”

SEC. 1088. SEPARABILITY.

If any provision of this title, or any provision of an amendment made by this title, or the application thereof to particular persons or circumstances, is found to be unconstitutional, the remainder of this title or that amendment, or the application thereof to other persons or circumstances shall not be affected.

SEC. 1089. EFFECTIVE DATE.

The prohibition contained in section 715 of the Communications Act of 1934 (as added by section 204 of this title) and the regulations promulgated thereunder shall take effect 1 year after the regulations are adopted by the Commission.

SEC. 1108. REPORT ON HOW TO RECRUIT AND RETAIN INDIVIDUALS WITH FOREIGN LANGUAGE SKILLS.

(a) FINDINGS.—Congress makes the following findings:

(1) The Federal Government has a requirement to ensure that the employees of its departments and agencies with national security responsibilities are prepared to meet the challenges of this evolving international environment.

(2) According to a 2002 General Accounting Office report, Federal agencies have shortages in translators and interpreters and an overall shortfall in the language proficiency levels needed to carry out their missions which has adversely affected agency operations and hindered United States military, law enforcement, intelligence, counterterrorism, and diplomatic efforts.

(3) Foreign language skills and area expertise are integral to, or directly support, every foreign intelligence discipline and are essential factors in national security readiness, information superiority, and coalition peacekeeping or warfighting missions.

(4) Communicating in languages other than English and understanding and accepting cultural and societal differences are vital to the success of peacetime and wartime military and intelligence activities.

(5) Proficiency levels required for foreign language support to national security functions have been raised, and what was once considered proficiency is no longer the case. The ability to comprehend and articulate technical and complex information in foreign languages has become critical.

(6) According to the Joint Intelligence Committee Inquiry into the 9/11 Terrorist Attacks, the Intelligence Community had insufficient linguists prior to September 11, 2001, to handle the challenge it faced in translating the volumes of foreign language counterterrorism intelligence it collected. Agencies within the Intelligence Community experienced backlogs in material awaiting translation, a shortage of language specialists and language-qualified field officers, and

a readiness level of only 30 percent in the most critical terrorism-related languages that are used by terrorists.

(7) Because of this shortage, the Federal Government has had to enter into private contracts to procure linguist and translator services, including in some positions that would be more appropriately filled by permanent Federal employees or members of the United States Armed Forces.

(b) REPORT.—In its fiscal year 2006 budget request, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives and the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives, a plan for expanding and improving the national security foreign language workforce of the Department of Defense as appropriate to improve recruitment and retention to meet the requirements of the Department for its foreign language workforce on a short-term basis and on a long-term basis.

(2) Section 1101 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105-261; 5 U.S.C. 3104 note).

(3) Such other provisions of law as the Under Secretaries jointly consider appropriate for purposes of this section.

(1) include such elements as the Under Secretaries jointly consider appropriate to provide for the effective utilization of the personnel management authorities referred to in subsection (b) as described in subsection (a), including the recommendations of the Under Secretaries for such additional authorities, including authorities for demonstration programs or projects, as are necessary to achieve the effective utilization of such personnel management authorities; and

(2) include procedures, including a schedule for review and decisions, on proposals to modify current demonstration programs or projects, or to initiate new demonstration programs or projects, on flexible personnel management at Department laboratories

“(3)(A) The results of each review under this subsection shall be submitted to the Secretary.

“(B) The Secretary shall accept the results of any portion of a review under this subsection that consists of a review by a physician or physician panel under paragraph (2) unless there is substantial evidence to the contrary.

“(d) REVERSAL OF DETERMINATIONS.—Except as provided in subsection (c)(3)(B), the Secretary of Labor may vacate or reverse any determination described in subsection (a) or (b) if the Secretary determines, as the result of a review of such determination under subsection (c), that such determination was erroneous.

“(a) IN GENERAL.—Except as provided in subsection (b), the provisions of section 3648 shall apply to the availability of attorney fees for assistance on a claim under this subtitle to the same extent, and subject to the same conditions and limitations, that such provisions apply to the availability of attorney fees for assistance on a claim under subtitle B.

“(b) ATTORNEY FEE SCHEDULE.—(1) The Secretary of Labor may, by regulation, modify the application of section 3648 to the availability of attorney fees under this subtitle to establish a schedule for attorney fees under this subtitle that will ensure representation of claimants and appropriate compensation for such representation.

“(2) The amount of attorney fees for assistance on claims under the schedule of attorney fees shall take into appropriate account the nature and complexity of the legal issues involved in such claims and the procedural level at which assistance is given.

(b) CONFORMING AMENDMENT.—Section 3643 of the Energy Employees Occupational Illness Compensation Program Act of 2000 (42 U.S.C. 7385b) is amended by striking “The acceptance” and inserting “Except as provided in subtitle D, the acceptance”.

(c) REGULATIONS.—The Secretary of Labor shall prescribe the regulations required by section 3668(d) of the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended by this section, not later than 120 days after the date of the enactment of this Act. The Secretary may prescribe interim final regulations necessary to meet the deadlines specified in the preceding sentence and subsection (d)(1).

(d) TRANSITION.—(1) The Secretary of Labor shall commence the administration of the provisions of subtitle D of the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended by this section, not later than 180 days after the date of the enactment of this Act.

(2) The Secretary of Energy and the Secretary of Labor shall jointly take such actions as are appropriate—

(A) to identify the activities under subtitle D of the Energy Employees Occupational Illness Compensation Program Act of 2000, as

in effect on the day before the date of the enactment of this Act, that will continue under that subtitle, as amended by this section, upon the commencement of the administration of that subtitle, as so amended, by the Secretary of Labor under paragraph (1); and

(B) to ensure the continued discharge of such activities until the commencement of the administration of that subtitle, as so amended, by the Secretary of Labor under paragraph (1).

(3)(A) In carrying out activities under paragraph (2), the Secretary of Energy shall only conduct a causation review on a claim if the claim is completely prepared and awaiting review as of the date of the enactment of this Act.

(B) Activities under paragraph (2) on any claim covered by such activities that is not described by subparagraph (A) shall be carried out by the Secretary of Labor.

(e) PROVISION OF RECORDS.—The Secretary of Energy shall, to the maximum extent practicable, complete the provision of records to the Secretary of Labor under section 3668(c)(1) of the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended by this section, not later than 60 days after the date of the enactment of this Act.

(f) SITE PROFILES.—(1)(A) The Secretary of Labor shall prepare a site profile for each of the 14 Department of Energy facilities that have received the most number of claims for compensation and benefits under subtitle D of the Energy Employees Occupational Illness Compensation Program Act of 2000 as of the date of the enactment of this Act.

(B) The Secretary of Labor shall prepare a site profile under subparagraph (A) utilizing the former worker medical screening programs of the Department of Energy.

(2) If the Secretary of Labor determines that the preparation of a site profile for a facility cannot be performed under paragraph (1) because no worker medical screening activities occurred for the facility, or that preparation of the profile is otherwise impracticable, the site profile for the facility shall be prepared by the National Institute of Occupational Safety and Health.

(3) All site profiles required by this subsection shall be completed not later than 210 days after the date of the enactment of this Act.

(4) The Secretary of Energy shall provide the Secretary of Labor with any support that the Secretary of Labor considers necessary for carrying out this subsection.

(5) In this subsection, the term “site profile”, in the case of a Department of Energy facility, means an exposure assessment that—

(A) identifies any processes and toxic substances used in the facility;

(B) establishes the times in which such toxic substances were used in the facility; and

(C) establishes the degree of exposure to such toxic substances taking into account available records and studies and information on such processes and toxic substances.

(g) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of Energy should—

(1) adopt a policy not to oppose any final positive determinations with respect to injured workers at Department of Energy facilities and atomic weapons employer facilities under State adjudication systems unless such determinations are frivolous; and

(2) incorporate the policy referred to in paragraph (1) in all Department of Energy contracts with non-Federal government entities to which such policy could apply.

(h) FUNDING FOR ADMINISTRATION IN FISCAL YEAR 2005.—(1) Of the amount authorized to

be appropriated for fiscal year 2005 by section 3102(a)(1) for environmental management for defense site acceleration completion, \$2,000,000 shall be available for purposes of the administration of the provisions of subtitle D of the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended by this section, during fiscal year 2005.

(2) The Secretary of Energy shall transfer to the Secretary of Labor the amount available under paragraph (1) for the purposes specified in that paragraph.

(3) The Secretary of Labor shall utilize amounts transferred to the Secretary under paragraph (2) for the purposes specified in paragraph (1).

SEC. 3154. TERMINATION OF EFFECT OF OTHER ENHANCEMENTS OF ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION PROGRAM.

Notwithstanding any other provision of this Act, section 3143, relating to enhancements of the Energy Employees Occupational Illness Compensation Program, shall have no force or effect, and the amendments specified in such section shall not be made.

SEC. 3155. SENSE OF SENATE ON RESOURCE CENTER FOR ENERGY EMPLOYEES UNDER ENERGY EMPLOYEE OCCUPATIONAL ILLNESS COMPENSATION PROGRAM IN WESTERN NEW YORK AND WESTERN PENNSYLVANIA REGION.

(a) FINDINGS.—The Senate makes the following findings:

(1) New York has 36 current or former Department of Energy facilities involved in nuclear weapons production-related activities statewide, mostly atomic weapons employer facilities, and 14 such facilities in western New York. Despite having one of the greatest concentrations of such facilities in the United States, western New York, and abutting areas of Pennsylvania, continue to be severely underserved by the Energy Employees Occupational Illness Compensation Program under the Energy Employees Occupational Illness Compensation Program Act of 2000 (title XXXVI of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398); 42 U.S.C. 7384 et seq.).

(2) The establishment of a permanent resource center in western New York would represent a substantial step toward improving services under the Energy Employees Occupational Illness Compensation Program for energy employees in this region.

(3) The number of claims submitted to the Department under subtitle B of the Energy Employees Occupational Illness Compensation Program Act of 2000 from the western New York region, including western Pennsylvania, exceeds the number of such claims filed at resource centers in Hanford, Washington, Portsmouth, Ohio, Los Alamos, New Mexico, the Nevada Test Site, Nevada, the Rocky Flats Environmental Technology Site, Colorado, the Idaho National Engineering Laboratory, Idaho, and the Amchitka Test Site, Alaska.

(4) Energy employees in the western New York region, including western Pennsylvania, deserve assistance under subtitle B of the Energy Employees Occupational Illness Compensation Program Act of 2000 commensurate with the assistance provided energy employees at other locations in the United States.

(b) SENSE OF SENATE.—It is the sense of the Senate to encourage the Office of Ombudsman of the Department of Labor, as established by section 3669 of the Energy Employees Occupational Illness Compensation Program Act of 2000 (as amended by section 3163 of this Act), to—

(1) review the availability of assistance under subtitle B of the Energy Employees

Occupational Illness Compensation Program Act of 2000 for energy employees in the western New York region, including western Pennsylvania; and

(2) recommend a location in that region for a resource center to provide such assistance to such energy employees.

SEC. 3156. REVIEW BY CONGRESS OF INDIVIDUALS DESIGNATED BY PRESIDENT AS MEMBERS OF COHORT.

Section 3621(14)(C)(ii) of that Act (42 U.S.C. 10 7384(14)(C)(ii)) is amended by striking “180 days” and inserting “60 days.”

SEC. 3157. INCLUSION OF CERTAIN FORMER NUCLEAR WEAPONS PROGRAM WORKERS IN SPECIAL EXPOSURE COHORT UNDER THE ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION PROGRAM.

(a) FINDINGS.—Congress makes the following findings:

(1) Energy workers at the former Mallinkrodt facilities (including the St. Louis downtown facility and the Weldon Springs facility) were exposed to levels of radionuclides and radioactive materials that were much greater than the current maximum allowable Federal standards.

(2) The Mallinkrodt workers at the St. Louis site were exposed to excessive levels of airborne uranium dust relative to the standards in effect during the time, and many workers were exposed to 200 times the preferred levels of exposure.

(3)(A) The chief safety officer for the Atomic Energy Commission during the Mallinkrodt-St. Louis operations described the facility as 1 of the 2 worst plants with respect to worker exposures.

(B) Workers were excreting in excess of a milligram of uranium per day causing kidney damage.

(C) A recent epidemiological study found excess levels of nephritis and kidney cancer from inhalation of uranium dusts.

(4) The Department of Energy has admitted that those Mallinkrodt workers were subjected to risks and had their health endangered as a result of working with these highly radioactive materials.

(5) The Department of Energy reported that workers at the Weldon Springs feed materials plant handled plutonium and recycled uranium, which are highly radioactive.

(6) The National Institute of Occupational Safety and Health admits that—

(A) the operations at the St. Louis downtown site consisted of intense periods of processing extremely high levels of radionuclides; and

(B) the Institute has virtually no personal monitoring data for Mallinkrodt workers prior to 1948.

(7) The National Institute of Occupational Safety and Health has informed claimants and their survivors at those 3 Mallinkrodt sites that if they are not interviewed as a part of the dose reconstruction process, it—

(A) would hinder the ability of the Institute to conduct dose reconstruction for the claimant; and

(B) may result in a dose reconstruction that incompletely or inaccurately estimates the radiation dose to which the energy employee named in the claim had been exposed.

(8) Energy workers at the Iowa Army Ammunition Plant (also known as the Burlington Atomic Energy Commission Plant and the Iowa Ordnance Plant) between 1947 and 1975 were exposed to levels of radionuclides and radioactive material, including enriched uranium, plutonium, tritium, and depleted uranium, in addition to beryllium and photon radiation, that are greater than the current maximum Federal standards for exposure.

(9) According to the National Institute of Occupational Safety and Health—

(A) between 1947 and 1975, no records, including bioassays or air samples, have been located that indicate any monitoring occurred of internal doses of radiation to which workers described in paragraph (8) were exposed;

(B) between 1947 and 1955, no records, including dosimetry badges, have been located to indicate that any monitoring occurred of the external doses of radiation to which such workers were exposed;

(C) between 1955 and 1962, records indicate that only 8 to 23 workers in a workforce of over 1,000 were monitored for external radiation doses; and

(D) between 1970 and 1975, the high point of screening at the Iowa Army Ammunition Plant, only 25 percent of the workforce was screened for exposure to external radiation.

(10) The Department of Health and Human Services published the first notice of proposed rulemaking concerning the Special Exposure Cohort on June 25, 2002, and the final rule published on May 26, 2004.

(11) Many of those former workers have died while waiting for the proposed rule to be finalized, including some claimants who were waiting for dose reconstruction to be completed.

(12) Because of the aforementioned reasons, including the serious lack of records and the death of many potential claimants, it is not feasible to conduct valid dose reconstructions for the Iowa Army Ammunition Plant facility or the Mallinkrodt facilities.

(b) INCLUSION OF CERTAIN FORMER WORKERS IN COHORT.—Section 3621(14) of the Energy Employees Occupational Illness Compensation Program Act of 2000 (title XXXVI of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398); 42 U.S.C. 7384(14)) is amended—

(1) by redesignating subparagraph (C) as subparagraph (D); and

(2) by inserting after subparagraph (B) the following new subparagraph (C):

“(C) Subject to the provisions of section 3612A and section 3146(e) of the National Defense Authorization Act for Fiscal Year 2005, the employee was so employed for a number of work days aggregating at least 45 workdays at a facility operated under contract to the Department of Energy by Mallinkrodt Incorporated or its successors (including the St. Louis downtown or ‘Destrehan’ facility during any of calendar years 1942 through 1958 and the Weldon Springs feed materials plant facility during any of calendar years 1958 through 1966), or at a facility operated by the Department of Energy or under contract by Mason & Hangar-Silas Mason Company at the Iowa Army Ammunition Plant (also known as the Burlington Atomic Energy Commission Plant and the Iowa Ordnance Plant) during any of the calendar years 1947 through 1975, and during the employment—

“(i)(I) was monitored through the use of dosimetry badges for exposure at the plant of the external parts of an employee’s body to radiation; or

“(II) was monitored through the use of bioassays, in vivo monitoring, or breath samples for exposure at the plant to internal radiation; or

“(ii) worked in a job that had exposures comparable to a job that is monitored, or should have been monitored, under standards of the Department of Energy in effect on the date of enactment of this subparagraph through the use of dosimetry badges for monitoring external radiation exposures, or bioassays, in vivo monitoring, or breath samples for internal radiation exposures, at a facility.”.

(c) FUNDING OF COMPENSATION AND BENEFITS.—(1) Such Act is further amended by inserting after section 3612 the following new section:

“SEC. 3612A. FUNDING FOR COMPENSATION AND BENEFITS FOR CERTAIN MEMBERS OF THE SPECIAL EXPOSURE COHORT.

“(a) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated to the Department of Labor for each fiscal year after fiscal year 2004 such sums as may be necessary for the provision of compensation and benefits under the compensation program for members of the Special Exposure Cohort described in section 3621(14)(C) in such fiscal year.

“(b) PROHIBITION ON USE FOR ADMINISTRATIVE COSTS.—(1) No amount authorized to be appropriated by subsection (a) may be utilized for purposes of carrying out the compensation program for the members of the Special Exposure Cohort referred to in that subsection or administering the amount authorized to be appropriated by subsection (a).

“(2) Amounts for purposes described in paragraph (1) shall be derived from amounts authorized to be appropriated by section 3614(a).

“(c) PROVISION OF COMPENSATION AND BENEFITS SUBJECT TO APPROPRIATIONS ACTS.—The provision of compensation and benefits under the compensation program for members of the Special Exposure Cohort referred to in subsection (a) in any fiscal year shall be subject to the availability of appropriations for that purpose for such fiscal year and to applicable provisions of appropriations Acts.”.

(2) Section 3612(d) of such Act (42 U.S.C. 7384e(d)) is amended—

(A) by inserting “(1)” before “Subject”;

(B) by adding at the end the following new paragraph:

“(2) Amounts for the provision of compensation and benefits under the compensation program for members of the Special Exposure Cohort described in section 3621(14)(C) may be derived from amounts authorized to be appropriated by section 3612A(a).”.

(d) OFFSET.—The total amount authorized to be appropriated under subtitle A of this title is hereby reduced by \$61,000,000.

(e) CERTIFICATION.—Funds shall be available to pay claims approved by the National Institute of Occupational Safety and Health for a facility by reason of section 3621(14)(C) of the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended by subsection (b)(2), if the Director of the National Institute of Occupational Safety and Health certifies with respect to such facility each of the following:

(1) That no atomic weapons work or related work has been conducted at such facility after 1976.

(2) That fewer than 50 percent of the total number of workers engaged in atomic weapons work or related work at such facility were accurately monitored for exposure to internal and external ionizing radiation during the term of their employment.

(3) That individual internal and external exposure records for employees at such facility are not available, or the exposure to radiation of at least 40 percent of the exposed workers at such facility cannot be determined from the individual internal and external exposure records that are available.

(f) SENSE OF THE SENATE.—It is the sense of the Senate that all employees who are eligible to apply for benefits under the compensation program established by the Energy Employees Occupational Illness Compensation Act should be treated fairly and equitably with regard to inclusion under the special exposure cohort provisions of this Act.

TITLE XXXII—DEFENSE NUCLEAR FACILITIES SAFETY BOARD

SEC. 3201. AUTHORIZATION.

(c) CERTIFICATION.—The Secretary may dispose of ferromanganese under paragraph (1) or (2) of subsection (b) only if the Secretary, with the concurrence of the Secretary of Commerce, certifies to the congressional defense committees not later than 30 days before the commencement of disposal under the applicable paragraph that—

(1) the disposal of ferromanganese under such paragraph is in the national interest due to extraordinary circumstances in markets for ferromanganese;

(2) the disposal of ferromanganese under such paragraph will not cause undue harm to domestic manufacturers of ferroalloys; and

(3) the disposal of ferromanganese under such paragraph is consistent with the requirements and purpose of the National Defense Stockpile under the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98 et seq.).

(d) DELEGATION OF RESPONSIBILITY.—The Secretary of Defense and the Secretary of Commerce may each delegate the responsibility of such Secretary under subsection (c) to an appropriate official within the Department of Defense or the Department of Commerce, as the case may be.

(e) NATIONAL DEFENSE STOCKPILE DEFINED.—In this section, the term “National Defense Stockpile” means the stockpile provided for in section 4 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c).

SEC. 3302. REVISIONS TO REQUIRED RECEIPT OBJECTIVES FOR CERTAIN PREVIOUSLY AUTHORIZED DISPOSALS FROM THE NATIONAL DEFENSE STOCKPILE.

(1) in paragraph (4), by striking “and” at the end;

(2) in paragraph (5), by striking the period at the end and inserting “; and”;

(3) by adding at the end the following new paragraph:

“(6) \$870,000,000 by the end of fiscal year 2014.”.

TITLE XXXIV—LOCAL LAW ENFORCEMENT ENHANCEMENT ACT.

SEC. 3401. SHORT TITLE.

This title may be cited as the “Local Law Enforcement Enhancement Act of 2004”.

SEC. 3402. FINDINGS.

Congress makes the following findings:

(1) The incidence of violence motivated by the actual or perceived race, color, religion, national origin, gender, sexual orientation, or disability of the victim poses a serious national problem.

(2) Such violence disrupts the tranquility and safety of communities and is deeply divisive.

(3) State and local authorities are now and will continue to be responsible for prosecuting the overwhelming majority of violent crimes in the United States, including violent crimes motivated by bias. These authorities can carry out their responsibilities more effectively with greater Federal assistance.

(4) Existing Federal law is inadequate to address this problem.

(5) The prominent characteristic of a violent crime motivated by bias is that it devastates not just the actual victim and the family and friends of the victim, but frequently savages the community sharing the traits that caused the victim to be selected.

(6) Such violence substantially affects interstate commerce in many ways, including—

(A) by impeding the movement of members of targeted groups and forcing such members to move across State lines to escape the incidence or risk of such violence; and

(B) by preventing members of targeted groups from purchasing goods and services, obtaining or sustaining employment, or participating in other commercial activity.

(7) Perpetrators cross State lines to commit such violence.

(8) Channels, facilities, and instrumentalities of interstate commerce are used to facilitate the commission of such violence.

(9) Such violence is committed using articles that have traveled in interstate commerce.

(10) For generations, the institutions of slavery and involuntary servitude were defined by the race, color, and ancestry of those held in bondage. Slavery and involuntary servitude were enforced, both prior to and after the adoption of the 13th amendment to the Constitution of the United States, through widespread public and private violence directed at persons because of their race, color, or ancestry, or perceived race, color, or ancestry. Accordingly, eliminating racially motivated violence is an important means of eliminating, to the extent possible, the badges, incidents, and relics of slavery and involuntary servitude.

(11) Both at the time when the 13th, 14th, and 15th amendments to the Constitution of the United States were adopted, and continuing to date, members of certain religious and national origin groups were and are perceived to be distinct “races”. Thus, in order to eliminate, to the extent possible, the badges, incidents, and relics of slavery, it is necessary to prohibit assaults on the basis of real or perceived religions or national origins, at least to the extent such religions or national origins were regarded as races at the time of the adoption of the 13th, 14th, and 15th amendments to the Constitution of the United States.

(12) Federal jurisdiction over certain violent crimes motivated by bias enables Federal, State, and local authorities to work together as partners in the investigation and prosecution of such crimes.

(13) The problem of crimes motivated by bias is sufficiently serious, widespread, and interstate in nature as to warrant Federal assistance to States and local jurisdictions.

SEC. 3403. DEFINITION OF HATE CRIME.

In this title, the term "hate crime" has the same meaning as in section 280003(a) of the Violent Crime Control and Law Enforcement Act of 1994 (28 U.S.C. 994 note).

SEC. 3404. SUPPORT FOR CRIMINAL INVESTIGATIONS AND PROSECUTIONS BY STATE AND LOCAL LAW ENFORCEMENT OFFICIALS.

(a) ASSISTANCE OTHER THAN FINANCIAL ASSISTANCE.—

(1) IN GENERAL.—At the request of a law enforcement official of a State or Indian tribe, the Attorney General may provide technical, forensic, prosecutorial, or any other form of assistance in the criminal investigation or prosecution of any crime that—

(A) constitutes a crime of violence (as defined in section 16 of title 18, United States Code);

(B) constitutes a felony under the laws of the State or Indian tribe; and

(C) is motivated by prejudice based on the race, color, religion, national origin, gender, sexual orientation, or disability of the victim, or is a violation of the hate crime laws of the State or Indian tribe.

(2) PRIORITY.—In providing assistance under paragraph (1), the Attorney General shall give priority to crimes committed by offenders who have committed crimes in more than 1 State and to rural jurisdictions that have difficulty covering the extraordinary expenses relating to the investigation or prosecution of the crime.

(b) GRANTS.—

(1) IN GENERAL.—The Attorney General may award grants to assist State, local, and Indian law enforcement officials with the extraordinary expenses associated with the investigation and prosecution of hate crimes.

(2) OFFICE OF JUSTICE PROGRAMS.—In implementing the grant program, the Office of Justice Programs shall work closely with the funded jurisdictions to ensure that the concerns and needs of all affected parties, including community groups and schools, colleges, and universities, are addressed through the local infrastructure developed under the grants.

(3) APPLICATION.—

(A) IN GENERAL.—Each State that desires a grant under this subsection shall submit an application to the Attorney General at such time, in such manner, and accompanied by or containing such information as the Attorney General shall reasonably require.

(B) DATE FOR SUBMISSION.—Applications submitted pursuant to subparagraph (A) shall be submitted during the 60-day period beginning on a date that the Attorney General shall prescribe.

(C) REQUIREMENTS.—A State or political subdivision of a State or tribal official applying for assistance under this subsection shall—

(i) describe the extraordinary purposes for which the grant is needed;

(ii) certify that the State, political subdivision, or Indian tribe lacks the resources necessary to investigate or prosecute the hate crime;

(iii) demonstrate that, in developing a plan to implement the grant, the State, political subdivision, or tribal official has consulted and coordinated with nonprofit, nongovernmental victim services programs that have experience in providing services to victims of hate crimes; and

(iv) certify that any Federal funds received under this subsection will be used to supplement, not supplant, non-Federal funds that would otherwise be available for activities funded under this subsection.

(4) DEADLINE.—An application for a grant under this subsection shall be approved or disapproved by the Attorney General not later than 30 business days after the date on which the Attorney General receives the application.

(5) GRANT AMOUNT.—A grant under this subsection shall not exceed \$100,000 for any single jurisdiction within a 1 year period.

(6) REPORT.—Not later than December 31, 2005, the Attorney General shall submit to Congress a report describing the applications submitted for grants under this subsection, the award of such grants, and the purposes for which the grant amounts were expended.

(7) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this subsection \$5,000,000 for each of fiscal years 2005 and 2006.

Mr. GRASSLEY. I understand there is a bill at the desk that is due for its second reading.

The PRESIDING OFFICER. The Senator is correct. The clerk will report the bill by title for the second time.

The assistant legislative clerk read as follows:

A bill (H. R. 4359) to amend the Internal Revenue Code of 1986 to increase the child tax credit.

Mr. GRASSLEY. I object to further proceedings on the measure at this time in order to place the bill on the calendar under the provisions of rule XIV.

The PRESIDING OFFICER. Objection is heard. The bill will be placed on the calendar.

ORDERS FOR WEDNESDAY, JULY 7, 2004

Mr. GRASSLEY. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. on Wednesday, July 7. I further ask unanimous consent that following the prayer and the pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and that the Senate then begin a period of morning business for up to 60 minutes with the first 30 minutes under the control of the Democratic leader or his designee, and the final 30 minutes under the control of the majority leader or his designee; provided that following morning business the Senate resume consideration of S. 2062, the class action bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. GRASSLEY. Mr. President, tomorrow, following morning business, the Senate will resume consideration of the class action bill. The majority leader stated this morning that it is his desire to consider related amendments to the pending class action bill and finish the bill in a reasonable timeframe. It is our hope that progress can be made on the bill during tomorrow's session.

Again, to reiterate, this is a bipartisan bill, and I would encourage Senators to show restraint in offering non-relevant amendments.
