There was no objection.

Mr. GIBBONS. Mr. Speaker, I yield such time as he may consume to the gentleman from Arizona (Mr. RENZI).

Mr. RENZI. Mr. Speaker, I thank the gentleman from Nevada (Mr. GIBBONS) for yielding me this time.

I rise today in support of H.R. 1630, the Petrified Forest National Park Expansion Act of 2004. This legislation authorizes the largest and most responsible park expansion this Congress has considered.

The Petrified Forest is truly a national treasure. It contains some of the most valuable natural and cultural resources in the world. The Petrified Forest contains resources dating back 225 million years.

Yet, today, the Petrified Forest is being threatened. Looters are raiding unprotected areas around the Petrified Forest National Park, searching for fossilized wood and valuable property, and they are selling these items on the black market. Our American Indian grave sites have been dug up and destroyed, and adjacent landowners have been forced to hire their own private security to prevent theft and vandalism.

In 1992, the National Park Service released a general management plan that proposed the inclusion of some 98,000 acres of surrounding threatened land. Since this time, additional Bureau of Land Management, State of Arizona, and private land has been identified for inclusion in the Petrified Forest National Park.

The Petrified Forest National Park Expansion Act of 2004 authorizes the inclusion of 125,000 additional acres surrounding the Petrified Forest National Park. Expanding the Petrified Forest National Park will increase tourism and enhance research opportunities for communities in northern Arizona. In addition, private landowners identified in this exchange are willing sellers and will first consider a land exchange with the Federal Government.

As amended, this legislation ensures that acquisition by donation or exchange or other Federal lands shall occur first. Then, if additional lands need to be acquired, the Federal Government can purchase private land from willing sellers. This compromise will allow for the largest expansion of a national park this Congress, while ensuring the Federal Government's backlog maintenance needs are not further aggravated.

This important legislation has broad support from several nationally recognized archeological groups, as well as support from the Navajo County Board
