

for Scaled Composites and for innovators around the world, as well as an indication of great things to come.

It is my pleasure to specifically congratulate Paul Allen for his crucial role in this endeavor. SpaceShipOne's success would not have been possible without his vision and confidence. Communities in my district have long benefited from Mr. Allen's investments in businesses and charities. Now the whole world will have the opportunity to benefit from his efforts to make Scaled Composites a success and to never hold back from pushing Americans' innovation to the next level.

Private space travel has been nothing more than a dream since the advent of space flight. The success of Spaceship One has prompted new fields of business and recreation. It is this kind of innovation that will bring the next generation of jobs and strengthen our economy. This breakthrough will provide the economic stimulus to financially and scientifically motivate individuals around the globe to look toward the sky. It will inspire us to surpass current scientific limitations and travel to places our grandparents could only imagine.

Innovation is the key to our future. Mr. Allen and the talented team at Scaled Composites have shown us that any goal is achievable when coupled with ambition and the drive to succeed. I congratulate all involved and look forward to seeing Paul Allen, Burt Rutan and others reach new heights and overcome new challenges.

INTRODUCTION OF THE CROSBY-PULLER COMBAT WOUNDS COMPENSATION ACT

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, October 8, 2004

Mr. MARKEY. Mr. Speaker, today I am joined by 14 of my colleagues in introducing the "Crosby-Puller Combat Wounds Compensation Act," a bill to remedy the lapse in support that a wounded soldier experiences from the moment he/she is evacuated from the combat zone for medical treatment. Although some of that support can eventually be restored if a soldier is discharged and applies under certain VA programs, this bill deals with the immediate burden placed on soldiers like James Crosby, a Marine who was seriously wounded while fighting for his country in Iraq. The bill has been named after James Crosby and, at his request, Lt. General Lewis "Chesty" Puller, USMC, the most decorated Marine in the history of the Corps.

Lance Corporal James Crosby of Winthrop, Massachusetts enlisted in the United States Marine Corps when he was 17 years old. He is married to Angela and was living in California before his service and his injury.

On March 18, 2004, James was wounded by enemy fire while riding on the back of a U.S. military vehicle in Iraq. A rocket fired at the vehicle killed the driver and injured two Marines including James. A piece of shrapnel pierced James' side and penetrated his intestines and spine.

James was taken immediately to a hospital in Kuwait. He had his first operation there, was stabilized and finally flown to a U.S. military hospital in Landstuhl, Germany. In Ger-

many, James underwent several surgeries to remove shrapnel and repair wounds. James's wife, Angela, was flown to Germany to be with him during these difficult times. James was flown to Bethesda military hospital in Maryland in late March. Congressman Markey visited James in April at which time he received the Purple Heart. James eventually returned to Massachusetts and continued to receive care at the West Roxbury Veterans Hospital in Boston. He has lost over 50 pounds since his injury and requires a colostomy bag at all times. He has undergone 14 surgeries thus far, but remains paralyzed from the waist down.

The Boston Red Sox honored James on June 25, 2004 as he threw out the first pitch before a Red Sox-Phillies game at Fenway Park.

James's pay was immediately cut when he was transported out of the combat zone in Iraq. While serving the U.S. Marine Corps in Iraq, James received his base pay as well as Combat Zone Tax Exclusion (CZTE), Imminent Danger Pay (IDP), Hardship Duty pay (HDP), Per Diem and Flight Pay. He also lost his Family Separation Allowance (FSA) once he returned to the United States for medical care. The tax exclusion and pays amounted to more than \$1,000 per month. James is now still a member of the Marine Corps and has not yet been discharged. He is not entitled to Veterans benefits until he is officially discharged. James was being paid about \$2,500 a month while serving in Iraq, but now is only receiving \$1,300 a month.

He has relied on family and friends to help him pay for a handicapped accessible apartment as well as daily expenses, because his current military pay of \$1,300 a month does not cover all of his expenses. James has also been helped by the Shutt Detachment, an association of former Marines, which held a fundraiser for him on August 19 at the Rack in Boston. Without the help of family, friends, and former Marines, James and his young wife would not be able to afford an apartment in the Greater Boston Area and cover expenses.

James eagerly wants to work to help other members of our nation's armed services that are in a similar situation. He and his family have worked with my office to address in this legislation the problems that they have experienced, first hand, in coping with wounds incurred in James's service to his country. I urge my colleagues to join us in ensuring that members of the Armed Forces that are wounded while serving in a combat zone will continue to receive certain special pays, tax exclusions and allowances associated with such service until the member recovers from the wound or injury.

TRIBUTE TO ADMIRAL FRANK
"SKIP" BOWMAN

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Friday, October 8, 2004

Mr. SKELTON. Mr. Speaker, I rise today to recognize and honor Admiral Skip Bowman, U.S. Navy, as he prepares to retire upon completion of more than 38 years of faithful service to our Nation.

Admiral Bowman has held the position of Director, Naval Nuclear Propulsion Program

(Naval Reactors), for the last eight years. During his distinguished career, he played a pivotal role in ensuring that nuclear-powered warships continued to meet our global commitments in defense of our Nation's security.

During his career, Admiral Bowman served as the Commanding Officer of the nuclear-powered attack submarine, USS *City of Corpus Christi*, which completed a seven-month circumnavigation of the globe and two special classified missions during his command tour. Other highlights include tours as the commanding officer of the USS *Holland*, as the Director of Political-Military Affairs on the Joint Staff, and as the Chief of Naval Personnel.

Nuclear-powered warships have safely steamed over 130 million miles, and operated for more than 5,600 reactor years without a reactor accident. The last 24 million miles and 900 reactor-years have been achieved under Admiral Bowman's superb leadership. He currently oversees 105 operational nuclear reactors.

Admiral Bowman was a guiding force in the design and construction of the VIRGINIA Class submarine—our Navy's only major combatant available to the Fleet that was designed with the post-Cold War security environment in mind. These revolutionary submarines have significantly improved capabilities over their predecessors in acoustics, littoral warfare, communications, sensors, and life-cycle costs.

Admiral Bowman also drove many aspects of the design of the Nation's next-generation aircraft carrier class—the first new design in over 30 years. Owing much to his leadership, the CVN-21 propulsion plant will triple the electrical power available for transformational technology, reduce reactor compartment manning by nearly 50 percent, and increase ship operational availability by nearly 25 percent.

As the Director, Naval Nuclear Propulsion Program, Admiral Bowman's commitment to environmental stewardship and public health and safety helped foster the highest degree of public trust. The Naval Nuclear Propulsion Program continued the superb performance, safety, and environmental record of nuclear-powered warships that has existed for more than 50 years. Our nuclear-powered warships benefit from acceptance in foreign ports worldwide as a direct result of that record.

Mr. Speaker, I know the members of this house will join me in commending Admiral Bowman for a career of faithful service to his Nation. His leadership of the Naval Nuclear Propulsion Program, a highly effective, responsive, world-class organization, has contributed significantly to our Nation's ability to confront 21st century security challenges. I wish him "Fair Winds and Following Seas" as he completes his honorable and distinguished service in the U.S. Navy.

IN RECOGNITION OF THE
GLOUCESTER CITY OPEN ACCESS
LEARNING CENTER, AND ITS
PARTICIPANTS

HON. ROBERT E. ANDREWS

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, October 8, 2004

Mr. ANDREWS. Mr. Speaker, I rise today to honor the Gloucester City Open Access Learning (GOAL) Center at the Mary Ethel

Costello School in Gloucester City, New Jersey, as well as its staff and participants. With funding from the 21st Century Community Learning Center program at the Department of Education, the Camden County United Way, and the Bureau of Child Nutrition at the New Jersey Department of Agriculture, the GOAL Center provides valuable services and opportunities to children and families in my district.

Housed at the Mary Ethel Costello School and also open to students from the St. Mary's Elementary School, the heart of the GOAL Center's programming takes place in the after school hours. Children in grades four through six participate in organized recreation and exercise followed by nutritious snacks which are provided in cooperation with the Bureau of Child Nutrition. The students then receive homework assistance, and take part in other types of tutoring and enrichment activities. The Center also hosts special events, such as field trips to museums, plays, and libraries, movie showings, and game tournaments, as a reward for the hard work the students do during the week.

In addition, the GOAL Center's positive community programming extends beyond the elementary school students. Computer classes and arts enrichment courses, taught by personnel from Camden County College, are offered for families and their children. Camden County College staff also teach free college courses to both parents and high school juniors and seniors in the evenings, and parents can participate in parenting workshops offered in cooperation with the Camden County United Way. These sessions are designed to give information about helping children deal with change, such as starting school, divorce, moving, and other potentially stressful events.

Those who choose to participate in the GOAL Center's programming have demonstrated a clear dedication to improving both themselves and their community, and I believe they deserve recognition. The following students have shown a notable commitment to the goals of the program: Briana Angier, Christopher DiDomenico, Jacob Franchetti, Brianna Goffney, Thomas Hellings, Katie Morgan, William Tozer, Jessica Valcarcel, Ashlee Cruz, Joseph Hamaker, Tamasa Nobles, Kyle Pollandar, Drew Pollitt, Erika Raiken, Matthew Sacilowski, Chelsea Amwake, Alexandria DiDomenico, Lori Mangini, Amanda Martin, A'niah Nobles, Jamie Phillips, Kevin Brown, Zachary Carey, Richard Mercedes, Sydni Durity, Kathleen O'Brien, Laura Casasbuena, Tracey Causey, Charles Clair, Edward Coleman, Kimberly Dieterich, Kevin Dickson, Ashley Egbert, Stevie Gallagher, Nicole Groves, Chelsea Gunning, Kyle Harkins, Damein Hart, Devon Huaca, William Jacobs, Ronnie Joshi, Daniel Karpinski, Lauren Klipp, Paige Kopras, Samantha Mease, Jessica Medina, Kwanna Mosley, Janee Powers, Thomas Raymond, Jennifer Reyes, Alexis Sabatini, Samantha Schultz, Kayla Skotnicki, Xavair Stang, Brianna Bangle, Tina Davis, Ariana Dragone, Joseph Foley, Kyle Gaff, Alex Gallo, CJ Genarie, Thomas Gorman, Brielle Gorski-Schultz, William Gross, Edward Gunning, Mathew Hender, Brittany Higginbotham, Courtney Iacovone, Chelse' Kiefrieder, Zachary Cooper, Harley Marks, Sarah Knipp, Jack Markiewicz, Angelica Medina, Michelle Moler, Thomas Moore Jr., Kevin Mottas, Alexis Naumann, Elizabeth Salvitti, Ryan Schafer, Carla Smith, Devin Vautier, Angelica Wunsch,

Dana Arroliga, Christopher Bittner, Samantha Brucoliere, Chelsea Clair, Denise Duterich, Randy Forte, Michael Gorman, Danielle Groves, Jimmy Baehr, Devin Jaskulski, Brian Donaghy, Deanne Cobb, Steven Karpinski, Hyeji Lee, Jennifer Liebrand, Melissa Miloshevsky, Ryan Moore, Robert Mortimer, Markita Nelson, Carlos Nieves, Jessy Perez, Scott Scmolia, Corey Scott, Gabrielle Spagnolia, Marissa Wood, Destiney Woodward, Alicia Yourison, Steven Kumpf, Andrew Morgan, Andira Morgan, Joseph Cipriani, Jordan Brady, Donna Weatherly, Jessica Meller, Regina Corvino, Jessica Finch, Racheal Finch, and Raquel Cannon.

Similarly, the following staff deserve recognition for the time and energy they have put into making the Center a success: Superintendent Mary Stansky, Business Administrator James Devereaux, Mary Ethel Costello School Principal Nancy Thomas and Assistant Principal William Marble, Director of Curriculum Sue McComb, GOAL Center Coordinator Catherine George, Public Information Officer Lynda Lathrop, Teaching Staff Members Lisa Amrosino, Patricia Duer, Gina Shank, Carl Kohler, William Kohler, Darcy Fox-Fuchs, Marge Dantonio, Marilyn Holmes, Dolores Militti, Cindy Kumpel, Janeen Thomas, Kathleen Davi, Kate Narducci, Guy Groff, Christie Murray, Lorri Stasium, Christine Wilson, Betty Averell, Craig Reinhart, Ellen Richards, Renee Robson, Ellen Conway, Mary Ann Woodrubb, and Don Dantonio, and Board of Education Members Judith A. Alberti, Robert H. Bennett, Sr., Sandra Lynch-Cowgill, Joanne Gurick, Patrick Healey, Edward Hubbs, Lousia Llewellyn, Bruce Marks, Danny O'Brien, Jr., and William Lunemann.

The GOAL Center is truly a complete program in that it assists students in the crucial areas of health, nutrition, and academic achievement. It also helps to foster a desire for life-long learning, and serves as a valuable resource for families and adults seeking development opportunities. I congratulate all the current staff and students on the hard work they put into the program, and wish them and the Center continued success in the future.

HONORING RYAN JERABEK

HON. MARK GREEN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Friday, October 8, 2004

Mr. GREEN of Wisconsin. Mr. Speaker, every now and then, I hear someone say that America lacks heroes—those great men and women amongst us who we can use to inspire and teach our young people. In my view, the problem is that too many people look to the playing fields or the big screen for their heroes. But all of us here today know better—because we are here to remember and honor one of our real heroes; an American who we are rightly very proud of, and whom we miss very much, Ryan Jerabek.

Now, we all know that our work in Iraq is far from over. There are many challenges ahead and, sadly, there will likely be some more dark days ahead as well. But we also know there will be brighter days ahead too, more and more of them, as freedom's sunlight chases away the shadows of tyranny. That's what Ryan helped to do—bring sunlight to the shadows.

What our servicemen and women are accomplishing is extraordinary—by any measure and compared to any mission in modern history. Sadly, their courage can be measured by the casualties—Ryan, Jesse Thiry of Casco, Warren Hansen of Clintonville, Stephen Martin of Rhinelander, Nichole Frye of Lena and others.

But on this day, let's also measure their courage by how they've changed Iraq. Just a year and a half after chasing Saddam from power, Iraq is on the path to full sovereignty and moving toward free elections. When our soldiers first reached Iraq, they found chaos and they found evil. As USAID has reported, Iraq has 270 mass graves holding perhaps 400,000 bodies—people tortured for their beliefs, and killed for their ethnicity.

Ryan and others fought, and rebuilt, and protected, and liberated—and the results have been historic. They've helped rebuild 240 hospitals, 1,200 clinics, 2,300 schools. They've distributed 1.5 million student school kits and 9 million textbooks. They've immunized over 5 million Iraqi children. They've established 16 governing councils, over 90 district councils and nearly 200 community councils.

In short, Ryan was doing a good thing—no, he was doing a great thing. And the ceremony honoring Ryan this weekend in Wisconsin is just one small sign that all of us recognize it.

Ryan used to say that he wanted to be a teacher—he wanted to teach others and shape lives. Well, he did. His life, his work, his sacrifice have taught us all so very much. We will never, ever forget him. We are in awe of his service and all that he accomplished in his tragically short life.

Ryan, you are our hero—a real hero.

NATIONAL ALL SCHEDULES PRESCRIPTION ELECTRONIC REPORTING ACT OF 2003

SPEECH OF

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, October 5, 2004

Mr. EMANUEL. Mr. Speaker, I rise in strong support of H.R. 3015, the National All Schedules Prescription Electronic Reporting Act of 2003. As a cosponsor of H.R. 3015, I recognize that this bill represents an important step in curbing the abuse of prescription drugs.

According to the NIH's National Institute on Drug Abuse (NIDA), an estimated 9 million people aged 12 and older used prescription drugs for non-medical reasons in 1999. Sadly the NIDA predicts that number to be on the rise. This problem is compounded by the fact that many doctors have a hard time discussing this matter with their patients. In a survey by the National Center on Addiction and Substance Abuse at Columbia University, 46 percent of physicians reported they find it difficult to talk with their patients about abusing prescription drugs.

The National All Schedules Prescription Electronic Reporting Act of 2003 provides grants to establish state-run programs for prescription monitoring that will be administered and coordinated at the Federal level. This will allow physicians to monitor whether their patients have been abusing addictive drugs or acquiring addictive drugs for others, even if a
