COMMENDING SEA EDUCATION ASSOCIATION STUDENTS WHO AIDED IN RESCUING 49 HAITIAN REFUGEES

HON. WILLIAM D. DELAHUNT
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES
Tuesday, April 5, 2005

Mr. DELAHUNT. Mr. Speaker, very few of life’s important lessons come from a book. That is the educational philosophy of the Sea Education Association, a unique program based on Cape Cod to teach hands-on sea-faring skills to young men and women. SEA offers college students a rigorous semester “overseas” that challenges them intellectually and physically by combining study of the deep ocean with the sailing adventure of a lifetime.

After extensive classroom training, 22 SEA students and a crew volunteered to go aboard the SSV Corwith Cramer, a 134-foot sail-powered research vessel, to be the only vessel within reasonable range to rescue the Haitians. Jamaican authorities said they could not rescue the group of Haitians but would receive them.

But there were risks to be considered, said John Bullard, president of Sea Semester: “Piracy is one of them. Exposure to disease is another.”

On the other hand, he said, if the research vessel “had just sailed away from 49 people . . . our students would have been scarred in other ways.”

ASSESSING THE RISKS

Under the direction of the vessel’s captain, Steve Tarrent, who leads an 11-person professional crew, calls went out to search-and-rescue experts and medical experts.

The decision was made to bring the Haitians aboard before the sun set. “We thought, whatever it took, they might not survive that. We would end up floating people out of the water,” said Bullard. “We felt the safest action was to bring them aboard during the daylight when we could control some things.”

As the Haitians gathered in a sheltered spot above deck on the research vessel, the crew prepared to bring small boats and marking it with fluorescent paint to avoid sparking unnecessary search-and-rescue efforts if
