Mr. Speaker, we must clean up our Nation's brownfields. These contaminated sites are hazards to our communities, and through their remediation we can bring businesses and families back into American cities.

A SPECIAL TRIBUTE TO DENNY SCHAFFER IN RECOGNITION OF HIS CONTRIBUTIONS TO NORTHWEST OHIO

HON. PAUL E. GILLMOR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, December 16, 2005

Mr. GILLMOR. Mr. Speaker, today I pay tribute to a good friend of Northwest Ohio. In October of this year, the great city of Atlanta, Georgia received a gift of one of Ohio's adopted sons. After 25 years in radio, including more than a dozen years in Toledo, Denny Schaffer has become one of the newest Georgia Peaches.

A native of Flint, Michigan, Denny Schaffer dominated the Toledo radio market since his debut in 1993. After hosting the "Breakfast Club" on 92.5 KISS-FM for 10 years, Denny moved to 1370 AM WSPD's afternoon talk show. His biting commentary and political knowledge made Denny Schaffer one of the most listened to radio personalities in Toledo.

I had the privilege of appearing on Denny Schaffer's radio show on numerous occasions. Every time I was interviewed by Denny, I found him to be fair and knowledgeable of the political climate both in Northwest Ohio and in Washington. I know that Denny's quick wit and sharp mind will entertain the people of Atlanta and keep Georgia's politicians on their toes.

A frequent Fill-In Host for the nationally syndicated Glenn Beck Show, Denny's reputation in radio precedes him to Atlanta. Denny's devotion to God, his Family and his Country will serve the Atlanta listeners of WGST Radio well. For more than a decade, Denny has hosted charity events and encouraged his loyal fans to give freely to those in need. However, Denny's devotion as a loving husband and father is the best gift he can give. I am certain that Denny's legacy as a giving and big-hearted person will follow him to Atlanta.

I joined the thousands of saddened Northwest Ohioans this past August in learning that Denny Schaffer would no longer grace our airwaves. But we consider Denny our gift to the citizens of Georgia and know that they will be well served, and certainly entertained, by his commentary, his humor, and his ability to avoid FCC rebuke.

Mr. Speaker, I ask my colleagues to join me in paying special tribute to an adopted Ohioan, Denny Schaffer. On behalf of the people of the Fifth District of Ohio, I am honored to recognize Denny's efforts to better our community. His impact on Northwest Ohio will remain in our minds long beyond his departure and we wish Denny, his wife Sharon, and their children Olivia and Joshua all our best in the future.

A TRIBUTE TO ANITA DEBREST

HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, December 16, 2005

Mr. BRADY of Pennsylvania, Mr. Speaker, I rise today to honor Ms. Anita DeBrest as she reaches her 25th year as president of the COLT Coalition, a Philadelphia organization that she herself founded. Due to her tireless work, the COLT Coalition has built an impressive record in the past 25 years: it has developed many townhouses, including the first modular townhouse in Philadelphia, it has developed the St. Joseph's Apartment Building, and it has acquired many housing units to be used for low-income rental.

Ms. DeBrest's accomplishments are in no way limited to her time at the COLT Coalition. While this marks her 25th year as president of the COLT Coalition, it is also her 50th year of service to the Philadelphia community. Her list of achievements is a long and diverse one: first, in 1955, she created a school to teach girls etiquette and job skills, next moving on to become President of the Benjamin Franklin High School PTA, and later to become President of Tioga Homeowners Association and

the Tioga Nicetown CDC. She has been a member of the vestry of St. Simon's Church, and has taken on the role of Board Member in organizations ranging from the Nicetown Boys and Girls Club, to the Citizens of Tioga Nicetown, to both the Temple University Hospital and Jeans Hospital.

Today, Mr. Speaker, I extend my warmest congratulations to Anita DeBrest upon her 25th anniversary as president of the COLT Coalition; I also wish to express my deep gratitude for her many years of dedicated service to the community. I ask that you and my other distinguished colleagues rise to recognize Ms. DeBrest for her many accomplishments.

THE DIGITAL TRANSITION CONTENT SECURITY ACT OF 2005

HON. F. JAMES SENSENBRENNER, Jr.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Friday, December 16, 2005

Mr. SENSENBRENNER. Mr. Speaker, today I am introducing the Digital Transition Content Security Act of 2005. This legislation is designed to close the "analog hole" that has arisen as a result of the transition to digital transmission technologies. The term "analog hole" refers to the use of devices to convert analog content into digital versions which can easily be uploaded onto the Internet. Although many of those who convert analog content into digital form are not engaging in any illegal conduct, there are unfortunately criminals who take advantage of existing deficiencies in current law and technology to obtain copyrighted content in order to redistribute this content for profit at the copyright owner's expense.

There is no doubt that piracy of intellectual property can be a profitable criminal activity. Just this week, a software pirate pled guilty in Alexandria, VA, to making \$20 million in sales of counterfeit intellectual property. The House Judiciary Committee has extensively examined efforts to strengthen and update intellectual property laws to address intellectual property theft made possible by new technologies. This legislation is no different.

The "analog hole" is unfortunately a potential source of pirated content that becomes an attractive target for pirates as high quality sources of content are made available to the public in high definition format. Congress is already considering another technology, the "broadcast flag," to address the redistribution of high definition content. The analog hole is its counterpart.

Congress has previously mandated the use of technology to limit and frustrate redistribution of video content. Enacted at 17 U.S.C. 1201(k) as part of the Digital Millennium Copyright Act, Congress required the use and detection of Macrovision technology in several analog devices. This new legislation builds upon this existing law by mandating the detection and response to two separate technologies that work together to defeat pirates. The two technologies are the Content Generation Management System—Analog, CGMS-A, and Video Encoded Invisible Light, VEIL.

The timing for this legislation is readily apparent. New technologies have made the widespread redistribution of copyrighted content significantly easier. Some have referred to the Internet as the world's greatest copying
