#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. SNOWE (for herself and Mr. LOTT):

S. 2287. A bill to amend the Internal Revenue Code of 1986 to increase and permanently extend the expensing of certain depreciable business assets for small businesses; to the Committee on Finance.

Ms. SNOWE. Mr. President, I rise today to introduce legislation that allows small businesses to expense more of their equipment and business assets, which will create incentives to invest in new technology, expand their operations, and most important, create jobs. Small businesses are the engine that drives our Nation's economy and I believe this bill strengthens their ability to lead the way. I am pleased to join my colleague from Mississippi, Senator TRENT LOTT, as we work to move this important initiative for small businesses from legislation to law.

As the Chair of the Senate Committee on Small Business and Entrepreneurship, I drafted this bill in response to the repeated requests from small businesses in my State of Maine and from across the Nation to allow them to expense more of their investments like the purchase of essential new equipment. The bill modifies the Internal Revenue Code and would double the amount a small business can expense from \$100,000 to \$200,000, and make the provision permanent as President Bush also proposed this change in his fiscal year 2007 tax proposals. With small businesses representing 99 percent of all employers, creating 75 percent of net new jobs and contributing 51 percent of private-sector output, their size is the only 'small' aspect about them.

By doubling and making permanent the current expensing limit and indexing these amounts for inflation, this bill will achieve two important objectives. First, qualifying businesses will be able to write off more of the equipment purchases today, instead of waiting five, seven or more years to recover their costs through depreciation. That represents substantial savings both in dollars and in the time small businesses would otherwise have to spend complying with complex and confusing depreciation rules. Moreover, new equipment will contribute to continued productivity growth in the business community, which economic experts have repeatedly stressed is essential to the long-term vitality of our economy.

Second, as a result of this bill, more businesses will qualify for this benefit because the phase-out limit will be increased to \$800,000 in new assets pur-

chases. At the same time, small business capital investment will be pumping more money into the economy. Accordingly, this is a win-win for small business and the economy as a whole.

This legislation is a tremendous opportunity to help small enterprises succeed by providing an incentive for reinvestment and leaving them more of their earnings to do just that. I urge my colleagues to join me in supporting this vital legislation as we work with the President to enact this investment incentive into law.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2287

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*
