STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CRAIG:

S. 3421. A bill to authorize major medical facility projects and major medical facility leases for the Department of Veterans Affairs for fiscal years 2006 and 2007, and for other purposes; to the Committee on Veterans' Affairs.

Mr. CRAIG. Mr. President, I seek recognition today to introduce legislation to authorize major medical facility projects and major medical facility leases for the Department of Veterans Affairs, VA. Most VA hospitals, clinics, nursing homes, and research facilities have ongoing needs for maintenance, repair, and modernization to promote patient and employee safety and provide a higher standard of care for our Nation's veterans. Earlier this month, I held a hearing of the Senate Committee on Veterans' Affairs on these needs, at which VA and a service organization representative delivered testimony about what is required in the next phase of addressing the needs of health care facilities for our Nation's veterans. In addition, several committee members and noncommittee colleagues remarked about the signifi-

cance of these projects to their States. It is my belief that this bill will expand VA's ability to provide health care services to this group of deserving Americans. I will take a few moments now to explain the provisions of this legislation.

First, the bill authorizes three major medical facility projects in immediate need of fiscal year 2006 authorization; the restoration of VA's health care infrastructure in the Biloxi and New Orleans areas following Hurricane Katrina, and the cost of land acquisition for replacement of the current Denver VA Medical Center with a new facility at the former Fitzsimons Army Medical Center. The Denver facility was constructed over a half-century ago and many of the core facilities have been deemed to be past or near the end of their useful life.

Second, this legislation reauthorizes 18 major medical facility construction projects that were authorized under Public Law 108-170, but for which it is unlikely that contract awards will be accomplished by September 30, 2006, as required by that law. Therefore, for each of these projects, the draft bill extends the date by which contracts must be awarded, from September 30, 2006, September 20, 2009. These projects were identified and prioritized under the capital asset realignment for enhanced services process. CARES, as it has become known, is a market-based national assessment of infrastructure needs that VA has developed into a schedule for completion. These projects represent the most pressing CARES-identified needs that VA has undertaken in order to improve access-to-care and provide services in areas of recent, current, and projected growth in veterans population, such as Las Vegas and Orlando. To allow a lapse in VA's authority to move forward on these projects would result in tremendous setbacks, and conceivably, additional taxpayer expense.

Third, the legislation authorizes major medical facility leases that did not receive authorization in the current fiscal for outpatient clinics in Baltimore, MD, Marion, IL, and the Dallas, TX, area. In addition, five major medical facility leases fiscal year 2007 are included for outpatient clinics in Austin, TX, Lowell, MA, Grand Rapids, MI, Las Vegas, NV, and Parma, OH.

This legislation represents the administration's request of the Veterans' Affairs Committee and the Congress, with a significant exception. I have chosen not to authorize the six requested fiscal year 2007 major medical facility construction projects at this time. I want to make it clear to my colleagues that my intent is not to micromanage VA's construction budget or to delay the Department's capital plan. And no one in the Senate is more committed to seeing that we are not diverting important resources away from facilities that are extremely important to our veterans. But as chairman of this committee, my approach
