TRIBUTE TO SHIGEJI IKENAGA

● Mr. ROCKEFELLER. Mr. President, today I also wish to honor a leader in the automotive industry and a friend of West Virginia, Shigeji Ikenaga, as well as the team members of Diamond Electric located in Eleanor, WV. Together they have contributed to the company's global growth and economic prosperity, as well as developing West Virginia's automotive industry.

President Shigeji Ikenaga has worked for Diamond Electric since 1954, dedicating an impressive 52 years of service to the automotive industry. During his extensive career, Mr. Ikenaga was instrumental in bringing Diamond Electric to the United States and tapping our workforce to help produce automotive parts. In 1987, Diamond Electric established a plant in the Detroit, MI area. Then, in 1992, Diamond Electric started manufacturing ignition coils at its headquarters in Dundee, MI. Soon thereafter, West Virginia began to benefit from operational expansions by Diamond Electric. In April, 1996, just as Toyota was beginning its work in West Virginia, ground was broken for an ignition coil plant in Eleanor, WV.

Building upon Diamond Electric's success in North America, Mr. Ikenaga expanded to other continents, establishing a manufacturing plant in Esztergom, Hungary, and incorporating the company in Suzhou, China. These expansions solidified Diamond Electric's stance in the global market.

As is evidenced by the various awards of excellence he and the company have received, Mr. Ikenaga's work and the work of his employees is exceptional. In 1994, Diamond Electric received the Deming Award, which recognizes medium and small companies for their outstanding total quality control program. In addition, Mr. Ikenaga was awarded the Medal with Blue Ribbon in 1997 and again honored in 2002 when he was awarded the Order of the Sacred Treasure, Gold Rays with Neck Ribbon. These awards are testament to the high quality and hard work of Diamond Electric and its employees.

The Diamond Electric employees of West Virginia have also made an enormous contribution to the company's success. The plant has been awarded the Toyota Delivery and Quality Awards each year since beginning pro-

duction in 1998. This allowed Diamond Electric one of their greatest achievements to date—becoming the first U.S. supplier to build an ignition coil for the Lexus SUV engine.

Moreover, because of the well-earned success in West Virginia, the facility has expanded 3 times since production started in 1997, growing from a 50,000-square-foot facility and 3.4 million in capacity to a 110,000-square-foot facility and 13 million in capacity. Currently, the company employs nearly 150 West Virginians.

As the company has proven numerous times throughout the years, they are a leader in the automotive industry thanks to the extraordinary efforts of Mr. Ikenaga and the workforce at the Eleanor, WV facility. Diamond Electric and its employees are pioneers, expanding to other continents and manufacturing new and innovative automotive products.

Additionally, Mr. Ikenaga's actions have not only illustrated his desire for professional growth but also a desire to educate young individuals through Diamond Electric's participation in The Dictionary Project. I was very proud to learn that Diamond Electric presented every third grader in Putnam County this past year a dictionary to help them with their studies.

I take this opportunity to thank Mr. Ikenaga for his confidence in West Virginia and our remarkable workforce. I also congratulate Diamond Electric's remarkable team members for playing such an important role in Putnam County's growing economy. I appreciate your hard work and commitment to the automotive industry.●
