

SECTION 1. SHORT TITLE.

This Act may be cited as the "Alaska Water Resources Act of 2007".

SEC. 2. DEFINITIONS.

In this Act:

(1) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

(2) STATE.—The term "State" means the State of Alaska.

SEC. 3. ALASKA WATER RESOURCES STUDY.

(a) STUDY.—The Secretary, acting through the Commissioner of Reclamation and the Director of the United States Geological Survey, where appropriate, and in accordance with this Act and other applicable provisions of law, shall conduct a study that includes—

(1) a survey of accessible water supplies, including aquifers, on the Kenai Peninsula and in the Municipality of Anchorage, the Matanuska-Susitna Borough, the city of Fairbanks, and the Fairbanks Northstar Borough;

(2) a survey of water treatment needs and technologies, including desalination, applicable to the water resources of the State; and

(3) a review of the need for enhancement of the streamflow information collected by the United States Geological Survey in the State relating to critical water needs in areas such as—

(A) infrastructure risks to State transportation,

(B) flood forecasting,

(C) resource extraction; and

(D) fire management.

(b) REPORT.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall submit to the Committee on Natural Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report describing the results of the study required by subsection (a).

SEC. 4. SUNSET.

The authority of the Secretary to carry out any provisions of this Act shall terminate 10 years after the date of the enactment of this Act.

SEC. 5. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as are necessary to carry out this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from California (Mrs. NAPOLITANO) and the gentleman from Colorado (Mr. LAMBORN) each will control 20 minutes.

The Chair recognizes the gentlewoman from California.

GENERAL LEAVE

Mrs. NAPOLITANO. Mr. Speaker, I ask unanimous consent that all Members may have 5 days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

The purpose of 1114, as introduced by the ranking member of the Natural Resources Committee, the Honorable Representative DON YOUNG, is to require the Secretary of the Interior, through the Bureau of Reclamation and the United States Geological Survey, to conduct a study on groundwater resources in the State of Alaska.

□ 1545

The assessment and evaluation of current water resources is essential to understanding the needs of that community and its environment. H.R. 1114 would require the Bureau of Reclamation and the USGS to do exactly that, to study the water supplies, the water treatment, and the water distribution needs of Alaska. The bill requires the Secretary of Interior to report the findings of this study to Congress no later than 2 years after enactment.

A study of this magnitude, Mr. Speaker, is vital to the proper management of our most precious natural resource. I do greatly appreciate the hard work of Representative YOUNG on this legislation and urge my colleagues to join me in supporting H.R. 1114.

Mr. Speaker, I reserve the balance of my time.

Mr. LAMBORN. Mr. Speaker, I yield myself such time as I may consume.

This important legislation introduced by the distinguished ranking member of the House Natural Resources Committee, DON YOUNG, will help Alaskans through water infrastructure study and development, and improved flood control management.

Mr. Speaker, I yield such time as he may consume to the author of the bill and the ranking Republican of the Natural Resources Committee, Mr. YOUNG of Alaska.

(Mr. YOUNG of Alaska asked and was given permission to revise and extend his remarks.)

Mr. YOUNG of Alaska. Mr. Speaker, let me thank the chairman of the committee, Mrs. NAPOLITANO from California, for bringing this bill up with Mr. RAHALL.

This bill seeks to expand Alaska's water supply system and reduce flood threats. My State's combined water bodies comprise one-third of all the fresh water in the United States, but communities are struggling to provide drinking water due to the outdated water distribution system and lack of information on groundwater resources. For this reason, this bill will include a survey of potential water supplies in the City of Anchorage, the Matanuska-Susitna Borough, the City of Fairbanks and Fairbanks Northstar Borough.

The bill also improves streamflow information to improve flood forecasting, resource extraction and fire management. Streamflow information in the form of USGS streamgaging stations is insufficient in Alaska compared to other States. In fact, Alaska has only 100 streamgaging stations, which is less than 10 percent of the information available in many other States. This bill will help alleviate that situation.

Again, I want to thank Mr. RAHALL and Mrs. NAPOLITANO of California for bringing this bill, and I urge passage of this legislation.

Mr. Speaker, may I say that I am so happy today we are talking about water, water in California, water in Alaska, water in Nebraska. Water is going to be our next big crisis that we

are going to be faced with in this Nation, it is energy now, and we must do something. We have to learn how to use water better, how to impound water, and how to deliver water so we have that which supports our life, and that is water.

Mr. LAMBORN. Mr. Speaker, I yield back the balance of my time.

Mrs. NAPOLITANO. Mr. Speaker, I couldn't agree more with Congressman YOUNG about the importance of water for our country, and I would hope that we can work in a bipartisan manner to continue to look at other areas that will be in dire need of help, Federal help, to be able to determine what needs to be done to help them address their water concerns, and I thank the gentleman.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from California (Mrs. NAPOLITANO) that the House suspend the rules and pass the bill, H.R. 1114.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SOUTH ORANGE COUNTY RECYCLED WATER ENHANCEMENT ACT

Mrs. NAPOLITANO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1140) to authorize the Secretary, in cooperation with the City of San Juan Capistrano, California, to participate in the design, planning, and construction of an advanced water treatment plant facility and recycled water system, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1140

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "South Orange County Recycled Water Enhancement Act".

SEC. 2. PROJECT AUTHORIZATIONS.

(a) IN GENERAL.—The Reclamation Wastewater and Groundwater Study and Facilities Act (Public Law 102-575, title XVI; 43 U.S.C. 390h et seq.) is amended by adding at the end the following:

"SEC. 16xx. SAN JUAN CAPISTRANO RECYCLED WATER SYSTEM.

"(a) AUTHORIZATION.—The Secretary, in cooperation with the City of San Juan Capistrano, California, is authorized to participate in the design, planning, and construction of an advanced water treatment plant facility and recycled water system.

"(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

"(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$18,500,000.

“(e) SUNSET.—The authority of the Secretary to carry out any provisions of this section shall terminate 10 years after the date of the enactment of this section.

“SEC. 163X. SAN CLEMENTE RECLAIMED WATER PROJECT.

“(a) AUTHORIZATION.—The Secretary, in cooperation with the City of San Clemente, California, is authorized to participate in the design, planning, and construction of a project to expand reclaimed water distribution, storage and treatment facilities.

“(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

“(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$5,000,000

“(e) SUNSET.—The authority of the Secretary to carry out any provisions of this section shall terminate 10 years after the date of the enactment of this section.”

(b) CONFORMING AMENDMENTS.—The table of sections in section 2 of Public Law 102-575 is amended by inserting after the item relating to section 163X the following:

“Sec. 163X. San Juan Capistrano Recycled Water System.

“Sec. 163X. San Clemente Reclaimed Water Project.”

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from California (Mrs. NAPOLITANO) and the gentleman from Colorado (Mr. LAMBORN) each will control 20 minutes.

The Chair recognizes the gentlewoman from California.

GENERAL LEAVE

Mrs. NAPOLITANO. Mr. Speaker, I ask unanimous consent that all Members may have 5 days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the purpose of H.R. 1140, as introduced by my colleague and former chair of the subcommittee, Mr. KEN CALVERT, is to authorize the Secretary to participate in the design, planning and construction of an advanced water treatment facility and recycled water system.

The continuing drought and the decrease in snow pack have led to a reduction in water supplies in many parts of the West. Water recycling projects can help communities protect against the adverse consequences of drought.

H.R. 1140 will authorize limited Federal financial assistance for two separate water recycling projects in Southern California. One, beautiful San Juan Capistrano, and the other in great San Clemente.

Recycled water can satisfy many water demands, and the enactment of this bill will continue our efforts to encourage the administration to include

recycling as an effective water management strategy. I note it was left out of Water 2025, and I want to be sure that we continue to push forward for that which is very, very helpful to many communities.

I do urge my colleagues to join me in supporting 1140.

Mr. Speaker, I reserve the balance of my time.

Mr. LAMBORN. Mr. Speaker, I yield myself such time as I may consume.

This legislation, H.R. 1140, introduced by the distinguished former chairman of the Water and Power Subcommittee, KEN CALVERT of California, authorizes limited Federal assistance for two water recycling projects in southern Orange County. This bill helps the cities of San Juan Capistrano and San Clemente meet their water supply needs, and reduces their dependence on imported water.

I commend Representative CALVERT for his longstanding leadership in helping all of Southern California meet its future water needs through a combination of water recycling, desalting, conservation and water storage. I urge my colleagues to support this bill.

Mr. Speaker, I yield 3 minutes to the gentleman from California (Mr. CALVERT), the author of the bill.

Mr. CALVERT. Mr. Speaker, I want to thank my chairman, Mrs. NAPOLITANO, for the hard work that she has put into all these water bills and for her desire to make sure that areas such as southern California have water for the future.

The South Orange County Recycled Water Enhancement Act is a relatively modest yet important step toward meeting the long-term water needs for the West. Water recycling is an approach that more and more communities are tapping to meet local and regional water demand. To address the continued growth of water users, communities are truly maximizing the use of every drop of water.

The South Orange County Recycled Water Enhancement Act authorizes two water reclamation projects in the South Orange County portion of my district. South Orange County relies heavily on imported water from sources such as the Colorado River and the Bay Delta in northern California.

Water reclamation projects and other steps which reduce demand for imported water benefit all regional water users. The first project outlined in this legislation is the San Juan Capistrano recycled water system, which would enable the City of San Juan Capistrano to provide recycled water to users throughout the city and its neighboring communities. To meet the local demand, the City has developed a project that includes the construction of a water treatment facility as well as transmission infrastructure.

I want to thank the San Juan Capistrano Mayor Sam Allevato and the rest of the city council for their dedication to this important project.

The second part of this project is the San Clemente Reclaimed Water

Project, which would expand San Clemente's reclaimed water infrastructure by doubling its production capability. When completed, San Clemente's recycled water project will reduce the city's demand of domestic water by 3,300 acre feet of water per year. I applaud San Clemente Mayor Jim Dahl and the entire city council for their entire commitment to water recycling.

Again, I want to thank my good friend GRACE NAPOLITANO, our chairwoman of the Water and Power Subcommittee, for her leadership and support of my legislation. I know she shares my belief that water recycling is an important tool in addressing growing water needs in the west. Mr. Speaker, I think it is crucial that we recognize and assist communities that are working to reduce their reliance on imported water, and I urge all colleagues to support the South Orange County Recycled Water Enhancement Act.

Mr. LAMBORN. Mr. Speaker, I yield back the balance of my time.

Mrs. NAPOLITANO. Mr. Speaker, first of all, I want to thank staff on both sides who have been working collaboratively and in a bipartisan manner.

Water knows no political colors or boundaries. I think we need to work together to be able to ensure that our economy continues growing, that water will continue to flow through the faucets and in the rivers and dams and aquifers.

And along with Mr. LAMBORN, Mr. Speaker, I want to urge all Members to look at their district water needs, and begin to understand it and be able to work with it so that we can protect the rest of the States that are going through, whether it is droughts or other areas that they need help with.

I certainly want to thank my ranking member, KATHY MCMORRIS, who isn't here, but certainly Mr. LAMBORN, who has done a great job. And I want to thank him specifically, because to work collaboratively and get these bills out is critical not only in time but in the effect it has on our economy throughout the Nation.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from California (Mrs. NAPOLITANO) that the House suspend the rules and pass the bill, H.R. 1140.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF S. CON RES. 21, CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2008

Mr. MCGOVERN. Mr. Speaker, by direction of the Committee on Rules, I
