RECOGNIZING COOPER BARNES, TUCKER BARNES, CONNOR MAGID, AND STEVEN PARKER OF VENETA, OREGON

HON. PETER A. DeFAZIO

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 15, 2008

Mr. DeFAZIO. Madam Speaker, I rise today to recognize Cooper Barnes, Tucker Barnes, Connor Magid, and Steven Parker of Veneta, Oregon. These Veneta Elementary School students are 2008 National ExploraVision winners. The team earned first place in the grade 4–6 division for designing an underwater energy generator to harness the power of ocean waves.

The team accepted the challenge of this extracurricular activity with enthusiasm, determined to create a technology for clean energy generation that was simple and cost-effective. They were supported and encouraged by their teacher and project coach, Michelle Beller, and Mentor Scottie Barnes. Their working prototype, the Wavemaster, successfully fused science, technology, and imagination, and it worked!

ExploraVision, now in its sixteenth year, is sponsored by the National Science Teachers Association and Toshiba. The competition highlights the natural curiosity and creativity of kids. The student projects showcase their innate desire to explore, experiment, invent, and ask really good questions.

Congratulations to Steven, Connor, Tucker, and Cooper for their outstanding achievement. I am proud to represent these young Oregon scientists and excited about the potential of the Wavemaster.

PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON H.R. 2419, FOOD, CONSERVATION, AND ENERGY ACT OF 2008

SPEECH OF

HON. JOHN D. DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 14, 2008

Mr. DINGELL. Mr. Speaker, today I rise in support of H.R. 2419, the Food, Conservation, and Energy Act. It has been a long road to this point, and while I must say that I am not entirely pleased with the final bill, I do believe that it makes important steps forward to reforming the priorities of our farm policy.

Michigan has had a tough go of things lately—and farming is no exception. Just last spring and summer Michigan experienced severe weather and droughts that caused enormous damage to local farms, leading the USDA to designate 83 Michigan counties as disaster areas. I have long said that farming is an inherently risky enterprise and with the recent downturn in the economy and fickle Michigan weather, it is clear to see why.

I will be frank and say that this bill is far from perfect. Personally, I would have liked to see greater reforms in the areas of conservation and fruit and vegetable programs, however, I do think Michigan will benefit from the bill. Like the farm bill the House passed last summer, I am pleased to note that most of our farmers in the 15th District of Michigan will not see any significant negative changes if the farm bill is enacted. All of the safety net programs from the 2002 farm bill are maintained with minor changes—including direct payments and the counter cyclical and the marketing loan programs.

However, the conference report does take measures to curb wasteful spending and distribute our resources to those in need. This bill places a cap on payments to those with an adjusted gross income (AGI) of \$500,000 or more, and puts in place the first-ever cap for farm income at \$750,000 for fixed direct payments. In addition, the bill would eliminate the "3-entity" rule that allows producers to collect payments for multiple ownership interests.

As a diverse agricultural state, Michigan has the second-widest variety of farm products after California, this legislation will provide great support for specialty crops. In 2006 Michigan produced 825,470 tons of fresh market and processing vegetables and the state
