

energy sources. And so it makes sense that, while we are searching for the next big thing, while we wait for a hydrogen economy, or while we wait for wind and solar to really come on-line, or something else that we may not even know of, we have to use the resources that we have.

So nobody on this side is really saying drill and drill only. We're saying it has to be part of the mix and it has to be all of the above.

So there's plenty of blame to go around. I myself have not voted for one energy bill since I've been here in the past 8 years because I thought that some of them were too subsidy-laden. I didn't think that they really, really allowed us, in a free market way, to go out and use our resources.

But going forward, this is what we've got to look at; what are we going to do going forward. It doesn't do anybody any good to say well, the Democrats didn't do anything, or the Republicans didn't. We're here today, and it's time to do something on this.

Again, I thank the chairman of the subcommittee and appreciate him accepting this amendment.

I yield back the balance of my time. Mr. GRIJALVA. I yield back.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The amendment was agreed to.

Mr. GRIJALVA. Mr. Chairman, I move that the committee do now rise.

The Acting CHAIRMAN. The question is on the motion to rise.

The question was taken; and the Acting Chairman announced that the ayes appeared to have it.
