TRIBUTE TO DR. CHARLES E. LEA

- Mrs. McCASKILL. Mr. President, today I wish to speak about the life of a truly outstanding Missourian. On October 7, 2008, this nation lost a son, a soldier, and a community servant when Dr. Charles E. Lea of Lexington, MO, passed away. While we mourn his passing, we are extraordinarily grateful for all that he gave to his community, his State, and his country during his lifetime.

I believe that Dr. Lea is a wonderful example and reminder of the brave men and women who have served our country in the past and continue to serve it today in this time of great need.

In 1967, Dr. Lea graduated from the United States Military Academy at West Point, and after putting himself through medical school at the University of Missouri, volunteered for service in Vietnam. Widely regarded and recognized as a humble servant, Dr. Lea was awarded the Bronze Star, the Legion of Merit, the Soldier’s Medal, four Air Medals, the Army Commendation Medal, the Vietnam Cross of Gallantry, the Combat Medical Badge, and the Parachutist Badge for his service.

While awards and commendations obviously show a great deal about a person, I am a believer that the strength of a person’s character is revealed in his or her daily actions. Those who knew Dr. Lea best shared an anecdote with me regarding his time in Vietnam. Dr. Lea was featured in newspapers and on television here at home for his efforts during the war to save a village elephant that had been shot. Seemingly insignificant at the time, it was evidence of the respect and regard in the eyes of the Vietnamese village. This small effort, not part of his duty or orders, but undertaken by a man trying to make a difference, had an extensive impact.

Following his military service, Dr. Lea became a general practice family physician and served countless families in Oklahoma and Missouri throughout his medical career.

As I reflect on Dr. Lea’s life today, I am reminded not only of the value of his personal service and sacrifice, but of the committed service and selfless sacrifice of all the men and women who have served this country in uniform. America owes a large debt to all of the military physicians who have served this great nation. I would like to express my sincere thanks to Dr. Lea and his family, and in remembrance of his life and his service, my utmost gratitude goes to all those who have served.

TRIBUTE TO DR. RONALD DAVIS

- Ms. STABENOW. Mr. President, today I wish to speak about the life of a truly great man and a great friend, Dr. Ronald Davis, who died on November 6, 2008 at his home near East Lansing, MI.

Dr. Davis was an outstanding physician, a great leader, and an effective, impassioned advocate for the uninsured. As President of the American Medical Association, Ron helped focus our attention on making sure health care was available and affordable for all Americans.

We worked together earlier this year on the Farm Bill—an unusual issue for physicians to get involved in—but Ron and I were committed to making sure our Federal farm policy promoted health and nutrition. With his help, we passed a truly groundbreaking farm bill that increased the Federal commitment to fresh fruits and vegetables.

Last February, Ron was diagnosed with pancreatic cancer. This cancer, which affects over 37,000 Americans each year, is unfortunately one of the hardest to treat. But Ron didn’t see it that way. He told his fellow doctors, ‘Never take away someone’s hope,’” and he lived by those words.

Even while undergoing painful and difficult cancer treatments, Ron was on the front lines, educating the public about support Web sites for cancer patients that allow families to stay informed while building a support network for the patient.

A champion for preventative medicine and public health, Dr. Davis was a leading advocate for healthier lifestyles. He traveled the country urging Americans to quit smoking, exercise more, and eat better.

He also led the effort for the historic apology by the AMA to African-American doctors for the organization’s past exclusion of Black physicians. He believed that “by confronting the past we can embrace the future,” and pushed to increase enrollments by minorities in medical schools and health professions.

I want to express my deepest sympathies to his wife Nadine and his three sons, Jared, Evan, and Connor. America has lost a great doctor, and his family has lost a great man. Ron’s extraordinary record of community service, dedication, and courage should serve as an inspiration to us all.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.
