

community leader. Her accomplishments are many and include being the first Black female to serve as chair of not only the American Red Cross Board but also chair of the South Carolina State Museum Board and chair of the Midlands Technical College Foundation board.

As an advocate for philanthropy throughout her community, Martha is a founding member of Women in Philanthropy, a leading advocate with the United Way, and president of the Columbia Urban League guild.

Martha's positive impact on our community goes back to when she was a middle school teacher and was instrumental in the establishment of a gifted and talented student program for Richland School District 1. She's continued to work on behalf of education as a member of the Board of Visitors of Claflin University and the Allen University board.

These days, I am honored that she has agreed to serve as a member of the Second Congressional District's Minority Advisory Board. Her input and perspective are vital to our work to best represent the people of the Second Congressional District.

Throughout her career and in her personal life, Martha has earned a reputation for decency, hard work, and a passion for fighting for the needs of others. I commend her on this extraordinary honor, and look forward to her continued friendship and counsel.

EARMARK DECLARATION

HON. KEN CALVERT

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, February 23, 2009

Mr. CALVERT. Madam Speaker, I wish to make the following disclosure in accordance with the Republican Earmark Transparency Standards requiring Members to place a statement in the Congressional Record prior to a floor vote on a bill that includes earmarks they have requested.

Specifically, H.R. 637, the South Orange County Recycled Water Enhancement Act, which I introduced on January 22, 2009, contains two earmarks as defined under House Rule XXI, clause 9. Both earmarks contained in H.R. 637 authorize appropriations for projects under Title XVI of Public Law 102-575, the Reclamation Wastewater and Groundwater Study and Facilities Act.

The first project authorized in H.R. 637 is an advanced water treatment plant facility and recycled water system located in the City of San Juan Capistrano. Located in Orange County, California, the City of San Juan Capistrano relies on imported water from the Sacramento/San Joaquin Bay-Delta and the Colorado River to meet much of its water needs. Recognizing the increasing need to provide local water for irrigation, large fields and other non-potable uses, the City plans to construct a water recycling project consisting of four reservoirs, one pump station, and 29 pipelines. The legislation authorizes \$18.5 million of federal appropriations, which sunsets 10 years following the passage of the H.R. 637. The federal cost share shall not exceed 25 percent of the total project cost and no federal funds shall be used for project operation and maintenance.

The second project authorized in H.R. 637 will expand reclaimed water distribution, stor-

age and treatment facilities in the City of San Clemente. The City of San Clemente also relies on imported water to meet some of its needs. In 1991, San Clemente completed construction of a water treatment and reclaimed water facility that produced 2.2 million gallons of reclaimed water per day. The plant could be expanded to produce over 4 million gallons per day. The project would also consist of a two million gallon storage reservoir, a pumping station, retrofit of an existing pumping station at the treatment facility, and pipelines. The legislation authorizes \$5 million of federal appropriations, which sunsets 10 years following the passage of the H.R. 637. The federal cost share shall not exceed 25 percent of the total project cost and no federal funds shall be used for project operation and maintenance.

I certify that neither project has a direct and foreseeable effect on any of my financial interests, nor the financial interests of any member of my family. Consistent with the Republican Conference's policy on earmarks, I hereby certify that to the best of my knowledge this request (1) is not directed to an entity or program that will be named after a sitting Member of Congress; (2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark; and (3) meets or exceeds all statutory requirements for matching funds where applicable.

IN RECOGNITION AND CELEBRATION OF PEACE CORPS WEEK

HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, February 23, 2009

Mr. HONDA. Madam Speaker, as a returned Peace Corps Volunteer, I am honored to formally recognize the work of the Peace Corps on the 48th Anniversary of its inception and to help kick off National Peace Corps Week. Countries from all over the globe will celebrate past contributions to the international community from the Peace Corps as well as look forward with anticipation to what the future holds for the organization.

During National Peace Corps Week, we salute and honor the men and women of this Nation who have selflessly served abroad as Peace Corps Volunteers, as well as those current Volunteers who continue to carry out the Peace Corps mission: world peace and friendship.

The Peace Corp provides a unique opportunity for Volunteers to travel the world and help some of the most impoverished people in the world while improving oneself. I fondly remember my time as a volunteer in El Salvador after answering President John F. Kennedy's call to service where I built schools and health clinics. The experience meant much to me personally and professionally, the beginning of my lifelong commitment to public service. I returned with a passion for teaching, and quickly put my skills, including fluency in Spanish, to use in Santa Clara County schools. Most importantly, I returned to the United States with a deeper understanding of humanity and a personal commitment to speak on behalf of the marginalized and powerless.

Since President John F. Kennedy's call to service in 1960, over 195,000 people have

served as Peace Corps Volunteers spanning 139 countries. I hope that these numbers can be greatly expanded as a new era of hope and service begins. Today, a renewed call to service has been issued by President Barack Obama challenging Americans from all walks of life to bear the torch of peace and good will that many Americans in the past have carried proudly to other countries.

I am greatly encouraged by President Obama's commitment to expand public service by building upon the Peace Corps and creating innovative programs that inspire Americans to volunteer and serve. In addition, President Obama supports the expansion of the Peace Corps to 16,000 by 2011, the Peace Corps 50th Anniversary. I am in total support of the expansion of this worthy and necessary organization.

Today, I honor the Peace Corps and its brave Volunteers for their service to our Nation and to the international community. For years, the volunteers of the Peace Corps have helped developing nations fulfill their needs for trained men and women, championed the cause of charity and philanthropy, found common ways to address global challenges, and set forth a dialogue of understanding between Americans and locals from other countries. Peace Corps Volunteers set a universal standard for how we are to embrace the realities of an ever-shrinking world.

With a bleak economic outlook and an international community under pressure, the Peace Corps mission is more vital than ever. I look forward to helping President Barack Obama fulfill his promise of renewing America's reputation worldwide and revitalizing America's commitment to service.

TRIBUTE TO DAVID FOSTER

HON. FRED UPTON

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, February 23, 2009

Mr. UPTON. Madam Speaker, I rise today to pay special tribute to Mr. David Foster of Grand Haven, Michigan. After 34 years of service, Mr. Foster is set to retire as the Chief Engineer of the Army Corps of exemplary Engineers Lake Michigan Area Office in Grand Haven.

Mr. Foster is an accomplished engineer who has spent most of his career near Lake Michigan. He was born in Muskegon, graduated from Whitehall High School, and received his bachelor's degree in civil engineering from Michigan State University. Dave began his work with the Army Corps of Engineers in 1975 and has served with distinction and honor in Muskegon, Fort Wayne, and Grand Haven.

Throughout his career Dave has played a vital role in supporting Great Lakes shipping, flood control, and clean up through his work with the Army Corps. In Southwest Michigan, residents and businesses have benefited from Dave Foster's effective ability to solve problems and find solutions to difficult situations. On many occasions, residents have praised the work of the Army Corps in beach nourishment and flood control projects, both which are essential for our area. Just last year, commercial shipping in my district ground to a halt as silt clogged the federal shipping channel. It
