

product quality, health management, and species diversification, which warrant special attention in the years to come as well as immediate needs and concerns of the emergent clam farming industry, such as gear comparisons, specialization of harvesting equipment. This project will address these and other high priority needs by conducting applied multi-disciplinary research and demonstration projects involving partnerships with University of Florida researchers, extension faculty, and industry.

\$100,000 for the Levy County Sheriff's Office located at PO Drawer 1719, Bronson, FL 32621. This request, funded through the Department of Justice, OJP Byrne Discretionary Grants account, will help the Levy County Multi-Jurisdictional Task Force facilitate illegal drug investigations in Levy County. The Levy County Multi-Jurisdictional Task Force was established due to ever increasing illegal drug activities in Levy County. Levy County is a rural farming community that covers approximately 1,137 square miles of land and 50 miles of coastline along the Gulf of Mexico. The drug related activities in this area have increased to the point that arrests have over doubled since the Task Force was established. Methamphetamine, Marijuana and Crack/Cocaine are all drugs of choice within Levy County. In the last year alone, the Task Force conducted over 383 investigations that led to the apprehension of over 252 drug offenders, the seizure of 287.65 grams of powder or crack cocaine, 4.41 pounds of marijuana, 517 marijuana plants and 447.62 grams of other dangerous drugs.

\$400,000 for the Lake County Board of County Commissioners located at 315 West Main St., P.O. Box 780, Tavares, FL 32778. This request, funded through the Department of Justice, COPS Law Enforcement Technology account, will be used for equipment and technology for the Emergency Operations Center in Lake County. Funding for this program will go towards an 800 Mhz radio system and for equipment and technology for the Emergency Operations Center of the County. An 800 MHZ radio system will allow for the coordination of Lake County's police, fire, emergency medical services in emergency and disaster situations. The project would allow for portable radio communications across the county, which is currently not possible. Service will be provided to all county public agencies, 14 municipalities, 13 law enforcement agencies, 13 fire services, the County Emergency Medical Service, 5 Animal Service agencies and Emergency Management. Additionally, funding will allow for the acquisition of technology equipment for an Emergency Operations Center, so that emergency response and communication is improved through connectivity via computer systems, data system hardening and backup, satellite, video and teleconferencing, and remote incident command centers. Technology will enhance communication capabilities with links to various radio networks (ham operators) and call-center operations.

\$1,500,000 for the Crystal River National Wildlife Refuge located at 1502 S.E. Kings Bay Drive, Crystal River, FL 34429. This request, funded through the Fish and Wildlife Service, Land Acquisition account, will be used to acquire the Three Sisters Springs tract in Crystal River, Florida. The U.S. Fish and Wildlife Service has an opportunity to acquire

a 57 acre parcel known as Three Sisters Springs. This parcel would protect and enhance habitats used extensively by the federally endangered West Indian Manatee. Subject lands consist of 45 acres of uplands, 11 acres of wetlands (including and 8 acre fresh water lake filled by underground springs), and 1 acre of water bottoms (including three fresh water springs that are part of a system of approximately 30 springs that feed the headwaters of the Crystal River). Each of the springs is designated by the State of Florida as 2nd Magnitude.

\$380,000 for the Citrus County Board of County Commissioners located at 110 N. Apopka Avenue, Inverness, FL 34450. This request, funded through the Transportation, Community and System Preservation account, will be used to eliminate water runoff from U.S. Highway 19. For this coastal area of the county, the watershed master plan was completed in 2002. It identified an area of critical concern concerning water runoff from nearby development as well as U.S. Highway 19. The highway has been designated by the State for near term widening and does not include additional storm water catchments. This area, known as the Southfork area near Homosassa in Citrus County, drains into pristine wetlands. The county has recognized the need to capture and treat storm water runoff before it reaches these areas. The County, with matching funds from the regional water management district, has spent to date over \$1,000,000 in acquiring land east of U.S. Highway 19 to act as a pre-catchment area. The County does not have sufficient funds to purchase the needed land west of U.S. Highway 19 and build the necessary structures for storm water treatment.

\$767,000 and \$599,000 for the SubTropical Agricultural Research Station (STARS) located at 22271 Chinsegut Hill Road, Brooksville, FL 34601. This request, funded through the Agricultural Research Service, Salaries and Expenses account, will be used for continued funding of the SubTropical Agricultural Research Station (Improved Cow-Beef Operations of Water Quality and Subtropical Beef Germplasm). The subtropical United States, including Florida, accounts for nearly 40 percent of the nation's cow-calf herd. These funds will be used to conduct research to support the cattle industry of Florida and the southeast aimed at boosting efficiency, safety and environmental responsibility.
