Cumberland County Government: Cumberland County would use funding to engineer, design, and replace Orr’s Bridge. Orr’s Bridge is a 52-year-old pre-stressed non-composite adjacent box beam structure that carries over 12,000 vehicles per day across the Conodoguinet Creek. This is a good use of taxpayer funds because the current design has been proven to accelerate deterioration of the bridge’s structural system and in turn increases its susceptibility to sudden collapse. ($1 million)

Cumberland County Government, 1 Courthouse Square, Room 200, Carlisle, PA 17013.

Rabbittransit: The York County Transportation Authority (Rabbittransit) is the public transportation provider for York County. Rabbittransit would use this funding to relocate its facility to a location that could house all 86 buses. The current location can only house 65 buses. Due to rapid growth over the past decade, Rabbittransit has been providing increasingly valuable service to the community. However, because of the growth, Rabbittransit is completely out of parking space and the bus facility has become overcrowded. This is a good use of taxpayer funds because the project would provide Rabbittransit with the ability to continue to meet the needs of the community. ($1 million)

Rabbittransit, 1230 Roosevelt Avenue, York, PA 17404.

Springettsbury Township: Springettsbury Township is a local government located within York County, Pennsylvania. Springettsbury Township would use this funding to improve the intersection of Northern Way and East Market Street. Specifically, the funding would be used to add a westbound right turn lane to Northern Way. This is a good use of taxpayer funds because it would provide a safe access point to the Township’s retail, entertainment, and industrial center, while strengthening and enhancing the commercial and industrial redevelopment in the area. ($930,732)

Springettsbury Township, 1501 Mount Zion Road, York, PA 17402.

West Manheim Township Park and Recreation Board: West Manheim Township Park and Recreation Board is a non-profit organization dedicated to the planning for and funding of a West Manheim Recreation Park in Hanover, Pennsylvania. The Board would use this funding to outfit two regulation-sized baseball fields with backstops, bases, scoreboard, specialized infield dirt, field drainage systems, and fencing. The funding would also be used to purchase two sets of restroom facilities. This is a good use of taxpayer funds because the facilities in the park will provide a safe outlet for the activities of the local youth population. The West Manheim Recreation Park will be a premier destination for Southern Pennsylvania and Northern Maryland residents. ($300,000)

West Manheim Township Park and Recreation Board, 15 Watervie Road, Hanover, PA 17331.

The board also approved forwarding the following defense projects to the House Appropriations Committee for consideration:

Defense Appropriations Bill:

5” Extended Range Insensitive Munition Projectile: This request would provide funding to produce Extended Range Insensitive Munition (ERIM). ERIM projectile is a promising technology for providing extended range and accuracy improvement for the 5” Naval Gun system. This is a good use of taxpayer funds because extended range and accuracy will enable the Naval warfighter to confidently engage specific point targets in both rural and urban terrains. The munition is produced in part by the General Dynamics facility located in Red Lion, Pennsylvania. ($4 million over the President’s Budget)

General Dynamics, 200 East High Street, Red Lion, PA 17356.

EFSS Precision Extended Range Munition: The EFSS is a close fire support, all-weather, quick responsive indirect fire system supporting Marine Expeditionary Units. The system is produced in part by the General Dynamics facility located in Red Lion, Pennsylvania. This is a good use of taxpayer funds because it would provide Research, Development, Test & Evaluation dollars to greatly expand the munition range for the EFSS system. ($10 million over the President’s Budget)

General Dynamics, 200 East High Street, Red Lion, PA 17356.

Future Medical Shelter System: This project would fund the production of a successor to the current tent-based field hospital that has served the Army well but is currently marked for phase-out. This is a good use of taxpayer funds because the 21st Century Military Hospital System is a mobile medical unit that incorporates superior quality in medical care. Gichner Shelter Systems, located in Dallastown, Pennsylvania would design and manufacture the specialty ISO containers used in the mobile medical units ($9.5 million over the President’s Budget)

Gichner Shelter Systems, 490 East Locust Street, Dallastown, PA 17313.

Improved Recovery Vehicle (M88A2): This project would fund the remanufacturing and upgrade of the M88A1 to provide safe and effective recovery capability for the M1 Abrams tanks. The Abrams Tanks are manufactured in part by the BAE Systems facility located in York, Pennsylvania. This is a good use of taxpayer funds because the tanks are used extensively in Operations Iraqi Freedom and Operation Enduring Freedom. These upgrades will satisfy major deficiencies identified during Operation Desert Storm. ($72.8 million above the President’s Budget)

BAE Systems, 1100 Bairs Road, York, PA 17405.

Paladin Integrated Management (PIM): This project would fund the completion of testing and evaluation of the PIM self-propelled howitzer. This vehicle is a critical piece of equipment in the Army’s modernization efforts. These vehicles are manufactured in part by the BAE Systems facility located in York, Pennsylvania. This is a good use of taxpayer funds because the changes to this vehicle will reduce the logistics footprint thereby reducing operational and support costs. ($9 million above the President’s Budget)

BAE Systems, 1100 Bairs Road, York, PA 17405.

Military Construction Appropriations Bill: York Readiness Center: Funding would be provided to the Pennsylvania Army National Guard to provide soldiers with modern facilities in which to assemble and train in York, Pennsylvania. It would also allow the Guard to close two undersized, inadequate armories now in use. This is a good use of taxpayer funds because the facility will incorporate sustainable design features to achieve LEED NC 2.2 USGBC Silver Certification and improved energy efficiencies. In addition, the new site would implement required Anti-Terrorism/ Force Protection. ($12.8 million)

York Eden Road RC, York, PA.

Members of the advisory board included:

Adams County: Steve Niebler, Director, Adams County Office for Aging, and John R. Peters, Adams County Farm Bureau. Cumberland County: Dean Clepper, Principal (retired), South Middleton School District; John Connolly, Former Chief Clerk, Cumberland County; and Jerry Nailor, Former State Representative, 88th Legislative District. York County: Carl Anderson, President, Community Progress Council Board of Directors, Metro York; Eric Menzer, Wagman Construction, Metro York; Steve Nickel, Former State Representative, 193rd Legislative District; Mario Pirritano, Supervisor, Fairview Township; and Peg Weaver, Former President, Gettysburg-Adams Chamber of Commerce.

RECOGNIZING THE CONTRIBUTIONS OF GLENDA BOOTH

HON. GERALD E. CONNOLLY OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 21, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize Glenda Booth, an outstanding environmental activist from Fairfax County. On Saturday, April 25th Ms. Booth will receive the Liz Hartwell Conservation Award for her decades of service to her community.

Ms. Booth has served as Chair of the Wetlands Board of Fairfax County, and spearheaded the first program in the state to implement Living Shorelines to protect the upper tidal reaches of the Potomac River, reducing erosion and nutrient pollution that would flow to the Chesapeake Bay.

She has promoted environmental stewardship through the Audubon Society of Northern Virginia, Virginia Conservation Network, Friends of Westgrove Park, Mount Vernon Council of Citizens Associations, Friends of Huntley Meadows Park, Friends of Dyke Marsh, and numerous watershed management advisory committees. She was instrumental in helping me develop and implement Fairfax County’s environmental agenda, which the Board of Supervisors adopted shortly after I was elected Chairman. This comprehensive environmental plan addresses topics ranging from natural landscaping to the reduction of endocrine disruptor pollution. Without Ms. Booth’s extraordinary scientific expertise and political acumen the County’s environmental policies would not be as inclusive or effective as they are today.

CONGRESSIONAL RECORD — Extensions of Remarks April 21, 2009
Ms. BOOTH also is an able advocate at the state and federal levels. By leading the Friends of Dyke Marsh, she has spearheaded efforts to protect wildlife and aquatic life at this remarkable marsh in Fairfax. Through her participation in the Virginia League of Conservation Voters, she has championed stronger environmental policy at the statewide level. Prior to her wide-ranging volunteerism in the community, Ms. Booth served as staff to Senator DIANNE FEINSTEIN of California. This professional experience equipped her to be a highly effective community activist.

Advocates like Ms. Booth have initiated every significant environmental legislative achievement in the past, whether it is legislation to clean up toxic waste at sites such as Love Canal or protect local habitats in Dyke Marsh and Mason Neck. I am grateful for her service, which is more valuable than ever as federal, state, and local governments confront environmental challenges ranging from climate change to restoration of the Chesapeake Bay. Madam Speaker, I ask that my colleagues join with me in congratulating Glenda Booth on receiving the Liz Hartwell Conservation Award to recognize three decades of environmental ac-
tivism.

WE MUST PREVENT ANOTHER HOLOCAUST

HON. ADAM B. SCHIFF
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 21, 2009

Mr. SCHIFF, Madam Speaker, at ten o'clock this morning, the nation of Israel observed two minutes of silence in observance of Yom Hashoah, Holocaust Remembrance Day. For those two minutes, all activity in the country ceased to honor of the six million Jews who were murdered by the Nazis during the mad-
ness of the Final Solution. For Israelis, the Holocaust remains the crucible that produced their state and its impact is felt daily across Israel society—from politics to the arts. Here in the United States, the Holocaust is more remote. The GIs who helped to liberate the Nazi death camps more than six decades ago are fading into history and the grainy black and white footage of the victims images that stunned the world in the 1940s—now seem distant to many Americans.

For Israelis, though, the Holocaust serves as an omnipresent reminder of the historical insecurity of the Jewish people for whom per-
secution and exile have characterized two mil-
ennia of wandering from their ancient home-
land. Coupled with Israel's mainly hostile and fundamentally unstable neighbors, the memory of Hitler's attempt to exterminate European Jewry has served to make Israelis extraor-
dinarily vigilant in the face of constant security threats.

Israeli security analysts have focused their concern in recent years on Iran, which they see as the most critical existential threat to the Jewish state.

Through its support for Hezbollah in Lebanon and Hamas in Gaza and the West Bank, Tehran has taken up positions along Israel's borders and its proxies have repaid their Ira-

nian masters handsomely by provoking large-
scale military actions by Israel in 2006 and December of last year.

Through its relentless pursuit of the nuclear fuel cycle, Iran's radical regime seeks to domi-
nate the region and to erect a permanent threat to Israel's security and the Israeli peo-
pel. Through its statements and the virulence of state-controlled media, Iranian leaders, par-
ticularly President Mahmoud Ahmadinejad are clearly fixated on the demonization and de-
struction of Israel. Just yesterday, the Iranian president sparked a walkout at a United Na-
tions' conference in Geneva when he launched into a rambling rant against Israel and Jews. The prospect of Ahmadinejad with nuclear weapons is one that keeps many Israelis up at night and should be keeping many of us awake as well.

Given the potential consequences, the United States must make the prevention of Iran developing the bomb a cornerstone of both its strategy for the Middle East and its nonproliferation agenda. To do otherwise would place Israel in Iran's nuclear crosshairs at a time when the IAEA is more vigilant in the face of constant security threats.

If President Obama's decision to reach out to Tehran and I believe that tough, concerted diplomacy can be effective in get-
ting the Iranian government to reassess its nuclear policy. But to be effective, that diplomacy must include a wide range of both induce-
ments and disincentives. And it must take into account the character and nature of the cur-
rent Iranian regime. And, finally, those charged with executing the policy must be will-
ing to consider other alternatives should diplo-
mac fail.

Tehran's current declared enrichment activi-
ties at its Natanz facility are subject to regular inspections by the International Atomic Energy Agency, which should be able to spot diver-
sion or any attempt to produce weapons grade material before it can be turned into a weap-
on. As long as the IAEA can maintain its sur-
veillance or any attempt to produce weapons grade material there is likely to be frustrated. Ar-
ches concerned many senior officials in Israel, here in the United States and in Eu-
ropean capitals, is the following concern, which con-
tinues to withhold a lot of information about its nuclear program, may have a parallel, secret nuclear program that is beyond the reach of the IAEA and western intelligence monitoring. As David Albright, the President of the Insti-
tute for Science and International Security, told the Financial Times last week, aside from Natanz "we don't know anything about what they are doing, how many centrifuges they have made, or whether they are ready to go with a duplicate facility that would allow them to produce fissile material."

The juxtaposition of renewed diplomatic overtures and the unease over the extent of what we do not know about Iran's capabilities or its intentions, may strengthen our hand with the other permanent members of the UN Se-
curity Council who are working to produce a collective response to the Iranian nuclear challenge.

If our international partners perceive a new American willingness to ex-
lore seriously the prospect for a negotiated resolution to the Iran problem, they may also begin to reexamine the coercive measures that may become necessary if Iran is shown to be pursuing a nuclear weapons capability.

International cohesion will be absolutely vital if we are to resolve this standoff without re-
sorting to force. Tehran has been adroit at ex-
ploting differences between the United States and its international partners, some of whom have been unwilling to consider the possibility that President Ahmadinejad's vitriol is not merely intended for domestic consumption but is a real reflection of his murderous intentions. This could prove a tragic mistake.

Seventy-five years ago, Europeans, Ameri-
cans and even many German Jews dismissed Hitler's threats against the Jews as political posturing. How could Germany, a nation with a rich and distinguished culture, whose cities embodied the best of cosmopolitan Europe, follow a depraved Austrian corporal into the depths of hatred? Humanity paid an enormous price for its passivity and the world pledged "never again."

We may now be faced with a similar threat from another society with a rich culture going back thousands of years and a sophisticated citizenry. Do we dismiss Mahmoud Ahmadinejad as a hate-filled demagogue, or do we take his threats as a reality? All of us—Americans, Israelis, Europeans and Rus-

sians—would be well advised to remember the past, even as we work towards what we hope will be a safer tomorrow.

RECOGNIZING 22ND ANNIVERSARY OF THE INLAND EMPIRE HISPANIC NEWS

HON. JOE BACA
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 21, 2009

Mr. BACA. Madam Speaker, in October 1987 the first issue of the Inland Empire Hispanic News was published. To date, we cele-
brate the 22nd Anniversary of this initial public-
itation. The paper has been widely accepted by both the Hispanic public and the Inland Empire as the premier publication in the dis-

tribution areas, with an estimated readership of 450,000. The paper's success is attributed to its journalistic contributions to the Hispanic community and the Inland Empire.

The newspaper was founded by Mr. Graciano Gomez, who saw an urgent need for a newspaper that would exemplify the positive Hispanic attributes, and further the education, socio-economic and business issues prevalent in the Inland Empire. Mr. Gomez understood that in order to advocate for the greater Hispanic community, he needed to provide a common unified communication vehicle that highlighted both the positive accomplishments within the greater community, as well as the public issues and interests at hand. Mr. Gomez organized a meeting with diverse community leaders and founded the Board of Directors consisting of Ray Abril Jr., Aurelio De La
